

## A God 711

### [Chapter 711: resurrection!](#)

Chaos City.

Chaos air currents linger, over the ancient and heavy city, more than twenty strong men standing on the peak of the human race stood in the air, but no one found them.

Among them, some are real deities, and some are clones or divine power incarnations. But no matter who it is, no one wants to miss this important moment in human history.

Resurrect the Lord of the universe who has fallen from humankind in the past years!

The many super powers were silent and silent, all staring at the figure of the red robe man in front of him.

In the chaotic air current, the robe danced like flames.

Some heart lakes are always difficult to calm, ups and downs, both anticipating and worrying.

Wang Yi, can he create miracles? Can he succeed? Can he resurrect the Lord of the universe as the Lord of the universe? Will this behavior be punished by the original will of the primitive universe? Just like the original ancestor, he was permanently suppressed because he angered the original will of the universe? No one knows.

Wang Yi's face was calm, like an ancient well without waves, but his mind called for a panel in his consciousness.

The panel appeared quietly, and of course only Wang Yi could see it.

Open the exchange.

Choose to redeem a resurrection crystal.

[Choose the resurrected object. ]

"It's started." Wang Yi took a deep breath.

The Lord of the universe controls time and space. Naturally, time and space can be reversed! Even if the creatures die, the Lord of the universe can reverse time and space, return to the time plane that did not die, and resurrect the creatures in that time plane.

The reason is simple, but it is very costly. After all, the resurrection of the soul-spattered person is against the law of the universe, and will be backlashed by the law of the universe.

If the Lord of the Universe simply resurrected and entrusted his king with immortality, he would be able to resist that backlash.

But if the Lord of the universe is resurrected, even the Lord of the universe will be seriously injured. Like some of the top characters in the universe, such as those comparable to the top universe overlords... If they resurrected, the SLR would be enough to make the universe lord fall.

The consensus in the primitive universe is that only the strongest in the universe can resurrect the top universe overlord!

Once the Lord of the Universe dies, no one can be resurrected. Even if the strongest in the universe wants to do it, the backlash of the Lord of the Resurrected Universe can kill him.

But now, Wang Yi wants to act as the Lord of the universe to do things that the strongest in the universe dare not do. It is no wonder that those high-level human beings are uneasy.

That is to say, Wang Yi, who has created the unpredictable Tongtian Pagoda behind his many magical deeds, would never believe it if he replaced it with someone else.

"Om!"

With Wang Yi's thoughts, the time and space around him immediately flowed back.

"It's started." The human experts who watched from a distance raised their hearts.

The time within a certain range began to fall back rapidly.

This is Chaos City, a sacred place for the cultivation of the human race. As long as human beings are powerful people above the universe, they will have been here and leave their footprints. What Wang Yi has to do is to rewind time back to the time level they once came to. , And then bring them back intact.

It's like playing a movie backwards, I saw the surrounding scenes change, time quickly went backwards, everything seemed illusory. Only Wang Yi in the middle is real.

The speed of time retreat is becoming more and more alarming. Soon, the span of time will reach 100 million years ago, a billion years ago, and tens of billions of years ago. It is still going back...

After all, it is not easy for the human race to give birth to a master of the universe, and it takes a long time for one to fall.

Whoosh! The time that had regressed suddenly stopped, but the surrounding time and space before the scene was constantly regressing and changing, but also suddenly stopped.

A woman with silver armor and white hair appeared, with a dreamlike radiant sword behind her, with a sharp sword mark on the center of her eyebrows, her face was beautiful, her eyes were as blue as the sea, but as calm as the stars. A closer look at the depths contained the icy and dying intent to wither all things.

She was talking to Chaos City Lord in the air, and seemed to be leaving.

"Master of Chenhe!"

"It's the Lord of Chenhe who fell ten billion years ago!"

The strong men of the human race became excited, even the youngest Lord of Desolation was no exception.

"Chenhe..." Chaos City Lord recalled something and sighed. The past was vivid. He still remembered the heroic woman saying goodbye to him, saying that he was going to explore the universe, but he never returned.

This is also a pity deep in the heart of Chaos City Lord.

There are still many such regrets. As the oldest cosmic lord of the human race, the Lord of Chaos has experienced the fall of the cosmic lord of the same race again and again, watching the death of one old person, and he cannot be restored. It is false to say that he is not angry and sad, but he does not. The way, even if his teacher, when the original ancestor of Invincible Universe Sea was not permanently suppressed, he would not be able to resurrect the Lord of the Universe.

No one can do it.

And now... can Wang Yi do it?

Chaos City Lord's heart was as surging as the surging sea, unable to calm down.

With the excitement and anticipation of other cosmos masters, Wang Yi also gazes at the cosmos master who has been active in human history across time and space, looking at her sturdy eyes full of warfare, fearless of the difficulties and obstacles ahead, and secretly said in his heart. . I will bring you back.

It's not just you, there are others.

"Resurrect her!" Wang Yi used the resurrection crystal.

[The resurrection target needs to pay 800,000 treasure points. Will it be resurrected? ]

"Resurrection!" Wang Yi did not hesitate.

Time and space began to return!

This time it was no longer under Wang Yi's control, because a mysterious and mighty power descended from the underworld, shrouded in this space, and replaced Wang Yi in mastering the process of resurrection.

Originally, the Lord of the universe reversed time and space and brought the dead creatures back to reality. This is against the law of the universe's operation and must be backlashed by the law of the universe.

The stronger and more special the creatures brought back, the greater the backlash.

The resurrection of the top universe overlord can severely hurt the strongest in the universe, and the Lord of the universe will fall.

What about the Lord of the resurrected universe? What does that mean?

Even through the time and space that time kept flowing back, Wang Yi could feel the terrifying fluctuations.

He could feel that if he was in charge of the resurrection process, he was afraid that this backlash would make him fall immediately.

But now, it is the panel that provides power, so all the damage caused by the backlash of the laws of the universe has been offset by the panel, so Wang Yi is still safe and sound.

The price is 800,000 supreme treasure points, which also symbolizes 8 supreme supreme treasures. This price can be said to be staggering. I am afraid that no force in the entire universe is willing to pay such a large price, just to resurrect a cosmic master whose combat power is not against the sky.

But Wang Yi is willing!

The strong human races next to him all watched with horror.

Time passed quickly ~www.mtlnovel.com~ and it seemed extremely slow.

Finally-the return of time and space finally stopped.

Everything returned to normal, and finally returned to the original time and space node.

The woman with silver armor and white hair opened bright blue eyes and stared at the scene in front of her in a daze.

"This, this, this is..."

She still has memories from before she fell, and she knew she was resurrected.

But she is the Lord of the universe, how can she be resurrected, and who can do it?

Then she saw the young black-haired man in front of her gave her a smile that she would never forget.

"Welcome back."

The Lord of Chenhe trembled in his heart.

#### [Chapter 712: Does he have a wife?](#)

And the human powers who saw the resurrection of the Lord of Chenhe in the distance were incredible, and they were pleasantly surprised.

"The Lord of Chenhe is really resurrected!"

"Oh my God, Hunyuan really did it."

"You are..." The newly resurrected Lord of Chenhe fixed his eyes on the black-haired man in front of him.

"He is the Lord of Chaotic Origin, and the Lord of the universe who has been promoted in more than ten epochs of my human race." City Lord Chaos came out with a vigorous and gentle voice.

"City Lord Chaos." The Lord Chenhe was filled with doubts and shock, and opened his mouth. "Didn't I fall, why..." She instinctively realized what great changes had happened to the human race.

With a smile on his face, the Lord of Chaos City glanced at Wang Yi, "This is all thanks to the Lord of Chaotic Source in front of you, who resurrected you."

"The Lord of Chaotic Origin?" The Lord of Chenhe looked at the black-haired man in front of him again with doubts in his eyes, "But, isn't he the Lord of the universe, how can he revive me?"

She is the lord of the universe.

Logically, there is no way to resurrect after the fall, even for the strongest in the universe.

"The Lord of Chaotic Source is not an ordinary Lord of the Universe." As if seeing the doubts of the Lord of Chenhe, the Lord of Chaos City said with a smile. In fact, if he hadn't seen it with his own eyes, he wouldn't believe it.

A master of the universe can actually resurrect another master of the universe.

This is the Lord of the universe who has fallen literally, without any falsehood.

He also didn't understand how Wang Yi did it... Everything can only be attributed to the mysterious Tongtian Tower. The Lord of Chaos also had a trace of awe towards Wang Yi.

"Lord of Chaotic Origin, did you resurrect me?" The Lord of Chenhe looked at the black-haired and red-robed man. He was handsome, his eyes were as bright as stars, his eyes were deep and his breath was unfathomable, which made her feel inexplicable. Pressure, it feels like seeing the strongest in the universe.

"It's me." Wang Yi said with a smile, perhaps because he had been familiar with his deeds, he actually had a slight affection for the Lord of Chenhe.

"But, how did you do it?" Lord Chenhe asked.

"I will resurrect the other human masters of the universe next. If you have any doubts, you can ask others to help you answer them." Wang Yi said.

"Yes, Lord Chenhe, if you have anything you want to ask, I can help you answer it." Chaos City Lord said, although he still knows little.

"Oh..." Lord Chenhe looked at City Lord Chaos, then looked at Wang Yi, feeling a little disappointed in his heart.

"Chenhe."

"Master of Chenhe, welcome back."

"Chenhe, after so many years, I didn't expect to see you again this day."

The lord of the human universe has gathered around, surrounded by the newly resurrected silver-clad and white-haired women, with great joy.

Lord Chenhe was also excited to talk with these old acquaintances and friends, seeing the familiar and friendly faces, his mind was slightly trance, and he felt like a world away.

The Lord of Jiuli and Lord of Yunluo, who had been closest to Lord Chenhe before, held her arms close, telling her what happened to the human race in recent years.

While talking to them, the Lord of Chenhe looked at the figure of the man in the red robe who was still staying above the Chaos City from time to time.

"So, I have fallen for tens of billions of years?" The Lord of Chenhe couldn't help saying. "My human race, how many powerhouses are there now? What happened?"

"My human race used to be very common. Nothing big happened, that is, occasionally we had some fights with other forces, and not many strong men were born." The lord of the nine raccoons exclaimed, his eyes brightened, "until more than 100,000 years ago, The Lord of Chaotic Origin appears. He is the most outstanding genius in the history of my human race. He is a magnificent and peerless genius comparable to the original ancestor. He has cultivated in just a dozen epochs to become the Lord of the universe, and..."

The Lord of Chenhe heard stormy waves in his heart.

"So, there are more than 20 masters of my human race universe?"

"Chaos City Lord has also become the strongest in the universe?"

"Tower of Babel?"

"Inheritance of ancient civilization?"

"One piece of Xeon Supreme Treasure per person?"

One after another incredible news exploded in the brain of Lord Chenhe, causing her thoughts to be a little confused.

Wait, is she reborn in the wrong place? Isn't this the human race she knows?

But looking at the familiar faces in front of her, she had to believe that the human race had indeed undergone earth-shaking changes during this "short" period of tens of billions of years.

And the source of all this is because of that peerless figure "Master of Chaotic Source".

A miracle peerless figure! He is also the core figure of the human race.

The Lord of the Nine raccoons was more enthusiastic, and he leaned into the ear of the white-haired woman in silver armor who was frowning and thinking, "I have heard the conversation between the Lord of Chaos and the founder of the Great Axe. The true strength of the Lord of Chaotic Source is even greater than that of most universes. The strongest, and will soon be comparable to the original ancestor, and even surpass the original ancestor."

"How is this possible?" Chen Hezhi advocated opening red lips, somewhat speechless. "Isn't the Lord of Chaotic Source the Lord of the Universe?"

"Yes, but he is not an ordinary master of the universe. He should have something to do with his Tongtian Pagoda. Listen to me, when the Tongtian Pagoda appeared, countless powerful people in the entire universe rushed past, and there are many strongest in the universe. It also appeared, but in the end, it was recognized by the Lord of the Chaotic Source, who was still the master of the world, from Tongtian Tower." The Lord of Jiuli was full of envy. "Anyway, Chaotic Source will definitely become the strongest

of our human race in the future. The Chaos City Lord and Great Axe have said that even now, Chaotic Source's combat power surpasses them, it's really amazing." Originally mature and tender. The Lord of Jiuli is now behaving like a little fan.

"Oh..." The Lord of Chenhe looked at the phantom-like time and space again, and suddenly asked: "The Lord of Chaotic Origin...Does he have a wife?"

Wang Yi still doesn't know that someone is inquiring about his own gossip and is still resurrecting other universe masters in the history of the human race.

In the history of the human race, some lords of the universe were born, some have survived to this day, and some have fallen very early.

There are even ancient powerhouses of the same age as the original ancestors, who are actually older than the Chaos City Lord.

After all, the human race has given birth to three of the strongest in the universe, and only a dozen of the masters of the universe have survived so far, and many of them have fallen.

In total, ~www.mtlnovel.com~, there are more than a dozen Cosmos Lords who need to be resurrected, plus some super powers second only to the Cosmos Lord, and above the Cosmos Lord alone, there are more than 30 people who want to be resurrected.

However, Wang Yi did good deeds to the end, and simply asked the human race to make a list of important people who had fallen in human history but could not be resurrected for various reasons.

To resurrect a master of the universe, you need 100,000 treasure points to get started.

To resurrect a Universe Venerable, you only need 10,000 treasure points to start.

Below the Venerable Universe, the unity is 1000 Supreme Treasure Points. On this basis, it can only be high or low, and it must be immortal. The realm masters who exceed the life span still cannot be resurrected.

For example, the peerless genius Kedi, a disciple of the Chaos City Lord who was born in the hundreds of millions of eras in the human race, fell because of the calculations of the Zerg race during the time of the master. Because Kedi is only the master of the world, the years of his fall have already exceeded his lifespan.

### [Chapter 713: The daughter of the original ancestor](#)

"This, me, this is..."

A huge creature with muscles bulging up like a gray steel rock, with two horns on its forehead, opened its huge golden eyes like a lake, shocked.

"Congratulations, you are resurrected." Wang Yi smiled in front of him.

This is the second Lord of the Universe resurrected by Wang Yi, the ancient Lord of the Universe from the Bull Head Clan, a branch of the Orc tribe.

"The Lord of the Bull Demon." The human race powerhouses in the distance are already enthusiastically shouting.

Especially those who knew the Lord of the Cow Demon were even joking.

"You old bull, finally see you again."

The Lord of the Bull Demon immediately understood what was happening, and looked at the black-haired man with extraordinary bearing in front of him, with excitement in his eyes, incredible. "You raised me? Who are you?"

"Yes." Wang Yi smiled. "As for who I am, you can ask them if you have any doubts in your heart." Wang Yi motioned to those excited and happy universe masters in the distance.

The Bull Demon Lord hesitated for a moment and nodded.

The Lord of the Bull Demon is the Lord of the universe at the third-order peak of human beings.

Wang Yi also discovered the law of resurrecting crystals.

"Lord of Chenhe, 800,000 treasure points are needed for resurrection. She is considered the leader of the fourth-order top universe of the human race, and the strength is similar to the previous owner of Bingfeng, while the leader of the bull demon is the leader of the third-order peak universe. The lord of the same level, different strengths, the price of resurrection is also different..."

The most common kind of newcomer to the Lord of the universe, the resurrection may be about 100,000 to 200,000 treasure points.

The master of the second-order universe needs 200,000 to 400,000 treasure points.

The master of the third-order universe needs 400,000 to 600,000 treasure points.

The master of the fourth-order universe needs 600,000 to 800,000 treasure points.

The master of the fifth-order universe needs 800,000 to 1 million treasure points.

In fact, there are many influences on the strength of the Lord of the universe, such as the strength of the divine body, the level of the secret technique, the talent, the will, the treasure... and so on.

Wang Yi wondered whether the panel was based on the overall strength of the resurrected object during his lifetime.

Of course, after the resurrection, many of them couldn't be brought back. For example, some treasures were not brought back by Wang Yi.

But Wang Yi didn't care. Those treasures might be precious to other universe masters, but they didn't make much sense to Wang Yi.

He is now plucking root hairs on his body casually, more than this.

With Wang Yi resurrecting the Lords of the universe who had fallen in the past years, the atmosphere on the scene also reached its peak.

"The Lord of Manhua."

"Lord Qiwei."

"Lone Star Palace Master."

...

A master of the universe was resurrected by Wang Yi from the long river of time and space.

They seem to be dreaming, and they seem to have fallen from their own eyes. They crossed the endless years in the blink of an eye, and after countless years, they sighed with emotion.

The strong humans are thrilled.

For the human race, this day is definitely a day worth remembering.

Their relatives and friends, comrades in arms of the same race, have been resurrected again after a long time.

Some people have been separated forever, becoming the eternal pain in the memory, which can only be missed, but now a miracle has happened.

The Lord of the universe of human races who have passed away before returns one by one.

These are the masters of the universe of the human race itself, and they are the absolute backbone.

The strength of the human race skyrocketed again.

More importantly, their regrets were also made up.

What a joy is this?

At this moment, whether it is the resurrected Lord of the universe or other powerful people in the human race, they are full of gratitude and respect for Wang Yi.

This kind of life-saving grace is like re-creation!

The gratitude for Wang Yi has reached a new height!

It can be said that even if Wang Yi asked them to do dangerous things, they would have no other words.

There was a hustle and bustle, and Wang Yi had been resurrected to the thirteenth Lord of the universe.

A girl with long hair flying in a purple robe appeared.

She has a beautiful appearance and an elf, but with her eyes closed, she has a sense of tranquility.

"Huh?" The eyes of Chaos City Lord in the distance changed and became very excited. He had always been as steady as a mountain, holding his fist, and the founder of the burly man's giant axe also slightly opened his mouth.

"This is..." The evil and indifferent Dark Lord's eyes were red.

"No way."

"It's really her..."

"She was right."

"Unexpectedly, I still have the day to see her with my own eyes."

The masters of the universe, especially the ancient masters of the universe in the early days of mankind, seemed to recognize the girl, and all showed shocked expressions.

Wang Yi was also a little puzzled. He also saw the list of resurrection given to him by the human race, but it only briefly introduced the name, strength, and whereabouts. Wang Yi did not understand some detailed information.

He remembered that the Lord of the Universe was called the "Lord of Stars and Moons," and he had fallen in the earliest stages of mankind for unknown reasons.

Time and space are shaking, unprecedented shaking, far beyond the movement and power of resurrecting other universe masters before.

It seems that this girl who is about to be resurrected is very unusual.

[The resurrection target needs to pay 1 million treasure points, is it resurrected? ]

Wang Yi frowned.

"resurrection."

Soon, the illusory figure of the girl in the purple robe began to become real, in line with the world.

She was brought back to the present by Wang Yi borrowing the power of the panel from the years ago endlessly.

When everything calmed down, the purple-robed girl's slender brow moved, but she did not open her eyes, but turned her head to Wang Yi's side, seeming a little surprised.

"I'm resurrected?" The purple-robed girl's voice was crisp. "You did it? Are you the leader of the human generation? Where is my father?"

"Huh?" Wang Yi glanced at her. This girl felt a little different to him, but she actually needed 1 million treasure points for her resurrection. This was already the top 5th Tier 5 universe master, comparable to the Chaos City Lord.

"Junior sister." A few figures flashed by, and the excited Chaos City Lord and others had already appeared. City Lord Chaos looked at the purple-robed girl in front of her with excitement, her voice trembling.

"Brother Jiang Huang?" The purple-robed girl also seemed to recognize the person~[www.mtlnovel.com](http://www.mtlnovel.com)~ There was a hint of joy on her face.

He looked at the burly savage man again, showing a sweet smile. "Brother Gupan."

"Jiang Huang? Gu Pan?" Wang Yi's face was weird. Is she talking about Chaos City Lord? The identity of this girl seemed to be more extraordinary than Wang Yi imagined.

"Jiang Huang is the real name of Chaos City Master Senior Brother, and Gupan is the real name of Great Axe." The Dark Lord seemed to see the doubt in Wang Yi's heart, coughed lightly, and said, "Hunyuán, this one in front of you is us." The younger sister of ... At the same time, she is also the only daughter of the original ancestor teacher, whose real name is Xingyue. Inheriting the teacher's talent is the fastest cultivation among us. Although we are younger than us, the talent is amazing. We were still just Honorable, she is already the lord of the universe, but she has fallen a long time ago. Thanks to you this time, she will be resurrected, and the original ancestor teacher will also be very grateful to you."

Wang Yi's expression became strange.

Original ancestor, he actually had a daughter?

#### [Chapter 714: Human Race Development Plan](#)

"It turns out that so many years have passed. Has my father been permanently suppressed by the Primitive Universe?" The tranquil girl in the purple robe was a little depressed.

Then she thanked Chao Wang Yi. "Thank you, Hunyuán."

The Star and Moon Lord and the excited Chaos City Lord waited aside to relive the past, while Wang Yi continued to resurrect the next human powerhouse.

Soon, a total of 16 masters of the universe were all resurrected by Wang Yi!

There is only one Lord of the fifth-order universe, and that is the Lord of Xingyue, the only daughter of the original ancestor.

There are seven masters of the fourth-order universe, six masters of the third-order universe, and only two masters of the second-order universe!

The number of masters of the human universe has reached 37! (Including Luo Feng).

Immediately afterwards, Wang Yi went to resurrect human powers who could not be resurrected by other normal methods.

This time, there are two top universe overlords, nine universe overlords, and seven universe lords...the number is about the same as the resurrected universe lord.

The superpowers below the Lord of the universe of the human race have long been resurrected if they can be resurrected under normal circumstances. Except for being controlled by the soul and other problems, they cannot be resurrected.

As for soul control, Wang Yi couldn't do anything about it. After all, this was a resurrection. What was the state before the fall, and what was the state after the resurrection. The one who has not fallen cannot be resurrected, and it does not really change history.

Among them, Wang Yi's teacher, the only apprentice of the Universe Venerable who fell in the early years, "Venerable Bai Ze", was also resurrected by Wang Yi, which is an explanation to the teacher.

...

The Chaos City Lord's Mansion is now full of people, full of the super existence of the human race in the past and now, everyone has a heart-felt smile on their faces, and the atmosphere is extremely warm.

"Hunyuan, I respect you."

"Hunyuan, your great kindness, I will remember in my heart, you can say whatever you need in the future, I will never say anything to go through fire and water."

"Chaotic Source, this time, thanks to you, otherwise, I can only perish forever..."

The Lord of the resurrected universe, after learning what happened, was extremely grateful to Wang Yi.

Wang Yi, who was sitting on the high seat with the founder of the Great Axe and the Lord of Chaos City, refused to resist, and he opened his mouth to drink. He was also very happy to see that the human race was strong.

If it wasn't for the human race, why would he pay so many treasures to revive these powerful men?

The founder of the Great Axe and the Chaos City Lord also laughed at the excitement of the strong human beings, and they were also grateful to Wang Yi.

I sigh once again, it is great that the human race has Wang Yi.

The only master of the universe who was not present was the master of the purple-robed girl Xingyue.

In response to this, Chaos City Lord explained: "Junior Sister, she doesn't like this kind of lively scene."

And knowing that his father's original ancestor was permanently suppressed by the Primordial Universe, the Lord of Stars and Moon should not feel comfortable in his heart.

After the lively celebration, it is the business.

Of course, all news about the Lord of the universe of the human race and other resurrected powerhouses are blocked to prevent leakage.

After that, to take precautions, the human race has been secretly inherited from ancient civilizations, not to mention that if Luo Feng gets the inheritance of the Donghe River, most of them can't hide it, and then other forces will compete for plots. The situation of the primitive universe will definitely change. The human race is to respond to this situation.

"If my human race wants to develop and grow, it will definitely have to clash with other forces in the primitive universe. This is unavoidable." Chaos City Lord said.

The human powerhouses in the hall nodded one after another.

"We humans also have other peak races, occupying the best territory of the entire primitive universe. This territory can breed the most potential life." A human universe wearing a black gorgeous mask with evil patterns and only showing a pale chin The Lord's voice said in a cold and hoarse voice, "Our human race has to develop and grow, multiply more populations, and give birth to more geniuses before there can be more powerful people. Then more elite areas are needed, and then we have to invade other races. Territory. Territory disputes are inevitable."

For ethnic groups, population actually has little effect. The real impact is the territory! Only with territory can human beings with potential be born!

The truth is this truth.

Zerg, monster, machine, human... the four major races are in the best region in the entire universe! The creatures born in this area have greater potential! Just like the desert area where Zuoshanke lives, there is no potential for beings born at all. The reason is like this. Although the original universe is vast, some territories can give birth to more powerful people, and some territories just can't.

Thus, there was a contention. The four pinnacle races occupy these four best places.

Territory competition, endless years have never stopped.

"We have received the inheritance from Wang Yi, and other forces don't know it yet, but there will be a day when it will leak out."

There is no airtight wall in the world! Paper can't contain fire!

Secret methods like those practiced by the Lord of the Universe, like the most powerful treasures, must be used for a day, and if they are used, they will be discovered.

"And let alone the lineage of the Broken East River that Luo Feng may soon acquire. Who doesn't look at the lineage of the Broken East River? If they don't get it, they will definitely not be able to bear it if they know that the Broken East River is on our side. Live, so we must be prepared for war!" the founder of the giant axe solemnly said.

He glanced around at the surrounding people who were far superior to the human race before, and smiled, "Of course, with the current strength of our human race, there is no need to worry too much. After all, we still have the two strongest men in the universe. There are also many masters of the universe who are not weak. Even if other forces want to make ideas, they have to weigh them."

The founder of the Great Axe and the Chaos City Lord are still there, and the human race will always have a retreat, and it is impossible to be completely suppressed and annihilated.

They want to inherit, it is almost impossible.

"Actually, the most troublesome thing is that they will join forces!" Chaos City Lord said, making the relaxed-looking Universe Lord serious.

"Yes." The lord of Lanzo of the giant axe fighting field sat with the lord of an unfamiliar universe, and said, "In the entire primitive universe, there are more than a dozen strongest in the universe, nine peak forces, and twelve great powers. The top powers, and the other second-tier powers are countless~[www.mtlnovel.com](http://www.mtlnovel.com)~ Only the master of the universe, there are more than a thousand! This is an incomparably huge power! If it is really united, it will be right. Our human race is a huge threat!"

"Of course this kind of thing could not happen before, because those forces, the strong and our human race have no grievances, no conflicts for interests, and they dare not offend us humanity for no reason." Chaos City Lord solemnly said, "but now It's not the same. The temptation to pass the Donghe inheritance is too great. Many forces will take risks. When they are alone and cannot threaten us human beings, they will unite and try to force us to hand over the inheritance."

"In order to prevent this from happening, we have to prepare in advance."

"In addition to absorbing the inheritance of ancient civilizations and strengthening ourselves as soon as possible, we also need to ensure that the situation in the primitive universe will not cause us humans to be too bad."

Hearing what Chaos City Lord said, the human experts present also realized the seriousness of the problem.

City Lord Chaos glanced at the black-haired man next to him, and continued, "For this, Hunyuan has a plan."

#### [Chapter 715: Luo Feng is inherited by the Broken East River](#)

In the deep corridor in the Chaos City Lord's Mansion, Wang Yi walks together with the supernatural incarnation of the Chaos City Lord and the founder of the Great Axe.

"Hunyuan, do you think Luo Feng can get the inheritance of the Broken East River?" Jinpao City Lord Chaos asked.

"City Lord, if nothing happens, Luo Feng will definitely succeed." Wang Yi smiled lightly.

Now Wang Yi can already sit on an equal footing with the two strongest human races, the founder of the Great Axe and the Lord of Chaos City.

"If this is the case, then it is also a good thing." City Lord Chaos said with emotion.

Although I don't know why Wang Yi is so sure that Luo Feng will be able to win the inheritance, the Chaos City Lord and the founder of the Great Axe both believed in Wang Yi's judgment.

If this is the case, it is necessary to make arrangements earlier to avoid rushing.

Human beings are inherited from the Donghe River, and other forces will certainly not give up. At that time, there will be another intrigue, which is serious, and may even develop into a large-scale war.

If Wang Yi's plan is realized, this situation may be changed.

Of course, Luo Feng hasn't come out yet, and Wang Yi's strength is far from enough. The plan can only be implemented after it is completed.

...

In the depths of the cosmic boat, the flame ice region, the boat of the tomb.

In the place of inheritance, Luo Feng still doesn't know what happened to the human race, and he is still wholeheartedly retreating and enlightening, temporarily isolating all connections. Even if someone from the human race sends an email to him, he doesn't know.

Wang Yi's Yanxing Giant Beast clone has joined the founder of the Great Axe, the Lord of Chaos City, and the Lord of Peng Gong.

"This is a mechanical treasure?" Chaos City Lord looked at the exquisite and gorgeous golden human sculpture in front of him, revealing the color of surprise.

What the creator of the giant axe got was another simple gray sculpture, which he couldn't put it down.

Both can increase the attack power of Tier Two.

Then the creator of the Great Axe, who was originally the top ninth-ranked axe, had attacked eleventh-rank, undoubtedly surpassing the original ancestor, and far surpassing the strongest of other universes in the universe.

The strongest in the universe who does not have the Xeon Supreme Palace and the special means of escape faces the giant axe, afraid that he will be beaten to death.

Even if the seven gods of the God Eye tribe are still there, they can join forces to perform a joint battle, and it is impossible to be the opponent of the giant axe that is advancing by leaps and bounds.

It can be said that the giant axe at this time has truly stood on the top of the universe, and there is no opponent except Wang Yi.

And Chaos City Lord got the mechanical treasure, but he just broke through, the foundation is low after all, the strength he exerts is far inferior to the giant axe, even Wang Yi, who is still the Lord of the universe, can't compare.

However, in addition to the mechanical treasures, the Lord of Chaos also received other gifts from Wang Yi, a complete set of Xeons, and even the original Xeons. In this regard, Wang Yi was not stingy. Can make Chaos City Lord fearless of any cosmic sea powerhouse.

As for the master of Peng Gong, who came with him, he also got the supreme treasure, a black stick, that he was thinking of, and he couldn't help himself.

Now, he is also considered the master of the sixth-order universe.

However, when the avatar of the Void Zerg race returned to the human race with the most treasured pretense, the Lord of the sixth-order universe would be ruined in the human race, and everyone was almost the same.

There may even be the presence of the seventh and eighth orders.

After dealing with these things, Wang Yi also began to practice with peace of mind.

With the acceleration of time in the practice space, he began to study the genocide of "Broken East River", the first of which was "Broken Destruction".

Divine Power Burning Secret Art is the fastest way to directly increase Wang Yi's combat power.

And continue to comprehend the Tongtian Pagoda, and create a higher level of mystery.

The seventh floor of Tongtian Tower can create seventh-order secret methods.

The eighth floor of the Tongtian Tower is the seventh-order top.

The ninth floor of Tongtian Tower is the eighth level...

Step by step.

And like the "Heiwen Inheritance" secret method of increasing will, the analysis of life gene... also didn't fall much, but I couldn't put too much energy into it.

Time flies, and time goes by so fast.

Eighty years after Luo Feng entered the land of inheritance.

The stars in the center of the endless darkness gleamed, a figure sitting lonely on the endless chaotic air current, and three towering icebergs in front of it.

"The true ultimate, break the ultimate, and go to the next level..." Luo Feng opened his eyes, bursting out with endless expression.

At this time, his perception of the law has been brewing to the extreme.

"It's this knife!" Luo Feng stood up silently, holding a unique sword, standing on the chaotic air current.

Wield a knife!

The light of the knife lit up and flashed across the sky in an instant, and then the light suddenly skyrocketed, converging into a huge dark sphere, and countless knife lights were suppressed in the black sphere...The light of the knife turned into this huge dark sphere in an instant. , The dark sphere is tens of billions of kilometers high for a time.

puff!

The black sphere split suddenly, and a bright golden light flashed away!

A trace visible to the naked eye appeared throughout the space of the inheritance land, which persisted for a long time.

"I saw it."

"newborn."

Luo Feng closed his eyes, tears flowed out, that was moved from the bottom of his heart, this move completely brought him to a new realm.

"The third style of the candidate sword technique was created!"

The cold mechanical voice rang in Luo Feng's ears.

"The inheritor decides!"

"Other candidates...destroy!"

...

The original universe, Wang Yi's divine kingdom, and Youhai divine body suddenly received an email from the virtual universe.

"I have broken through and become the inheritor of the Broken East River."

Wang Yi showed a faint smile when he saw the content of the email.

"Sure enough, Luo Feng finally became the inheritor of the Broken East River."

Then the founder of the Great Axe and the Chaos City Lord also contacted Wang Yi.

"Sure enough, as you might expect, Luo Feng has truly become an inheritor of Duandonghe."

In the virtual universe, the exclusive plane of the creator of the giant axe, on a majestic mountain, three people gathered together, and the creator of the giant axe said with emotion. "Since the inheritor of the Broken East River has been selected, the other candidates must have all been annihilated, and all parties must have received news at this time."

City Lord Chaos nodded and said, "Yes, the goal is too small, even if we want to conceal it, we can't hide it."

Among the inheritors, the human Luo Feng of the primitive universe and the Jade-blood Venerable of the East Emperor Holy Land are the most likely to win the inheritance, and the other conditions are lacking.

Anyway, the most doubtful candidate was either Luo Feng or Bi Xue, and basically couldn't run away.

"The primitive universe may be about to usher in turmoil. It seems that we have to prepare early." The three looked at each other.

"Hunyuan, are you sure of your plan?"

Wang Yi smiled faintly, "I am practicing with all my strength under the acceleration of time. When I succeed in my practice, my strength will reach the extreme, not to mention 100%, but I am always sure of 70% to 80%."

"Even if it is unsuccessful, there is no loss, right?"

The Chaos City Lord and the creator of the Great Axe nodded, looking forward to Wang Yi's plan. If it really succeeds, the situation of mankind in the primitive universe will be completely opened, at least it will be difficult to threaten the existence of the human race.

But...this has to rely on Wang Yi's strength ~[www.mtlnovel.com](http://www.mtlnovel.com)~ At this time, just as the human race had expected, the outside world had already turned a lot of noise.

"The test of the inheritance of the Duan Donghe inheritance is over!"

"Who? Who got it?"

"Is it a human or the Holy Land of the Eastern Emperor?"

"Which party got the inheritance?"

The candidate's instantaneous fall caused the entire universe to tremble all at once, and the inheritance of the Donghe lineage was extremely desired by nearly a hundred forces in the entire universe, and it meant an opportunity and method for them to transcend reincarnation.

The major forces in the entire universe are anxious and confused, but they are not clear including the Purple Moon Holy Land, so the East Emperor Holy Land is a little sure, because the East Emperor Holy

Land knows that the Jade Blood Lord was perished, so ninety-nine percent of it may be that. Lord of the human galaxy!

#### [Chapter 716: Wang Yi's strength](#)

"Luo Feng, since he has become the inheritor of the Broken East River, he will soon come out of the tomb boat."

In the Flame Ice Territory, in the Tongtian Pagoda, Wang Yi's four divine bodies gathered here.

The human deity, the behemoth of Yanxing, the Void Zerg, and the new clone of Youhai (not the body of the endless Youhai).

The reason why Wang Yi gathered the four divine bodies here so quickly was because he returned to the kingdom of God, disbanded the divine body, and then condensed from the Yanxing Giant Beast Divine Body after he was done with the human race.

I have to say that this is really convenient.

If it were other cosmic masters with clones, they would not do this, because they split the divine body, and each divine body has insufficient divine power, which is very likely to affect the strength.

But Wang Yi was different. The Yanxing Giant Beast's divine body was ten times larger than other divine bodies, and its divine power was a thousand times larger. Even if some new condensed divine bodies were separated, it would not have any effect.

Not to mention, Wang Yi also has the original Xeon Treasure, the divine power stored in it is thousands of times that of the Yanxing Giant Beast! It can be added back in time.

Regarding the profound power of the Lord of the Universe, Wang Yi is also unmatched in the Universe Sea.

Moreover, even if something happens to the human race or the earth, Wang Yi can dissolve the divine body and condense again from the endless secluded sea of the kingdom of God.

Of course, \*\*\*\* bodies usually carry treasures on their bodies, and Wang Yi would not do this unless necessary.

"It has been 70 years since I got the inheritance of the Broken East River. With the acceleration of the time of cultivation space, it is the 70th era."

Wang Yi stroked the dark blood stone knife in front of him. The sharp blade of this sword had many mysterious patterns on its body. The patterns appeared, giving the whole sword a touch of mystery and special charm. Faintly feeling the sharp edge of the evil spirit soaring to the sky, this is the blade embryo-the \*\*\*\* of the gods.

There are endless sharpness in his eyes that are as deep as the abyss of a black hole.

"The comprehension of 70 epochs allowed me to create the second style of sword technique..."The Universe of Swords. Tian Yan", which fully reached the level of the seventh-order secret technique." Wang Yi showed a faint smile on his face.

Wang Yi was not too surprised to create the seventh-order secret method, after all, he had already anticipated it in advance.

Accumulation is already enough, all it takes is time.

"Now, the Pluto Knife has two secret patterns. The secret pattern of the first secret pattern is the secret pattern of "Knife Universe. Newborn". The power is only the top six, and the emphasis is on explosive power and lethality. It is monotonous but destructive. Strong, and the second level is "Sword Universe. Tian Yan", the extreme sword path changes, it can be said that there are endless changes, suitable for flexible use, and also suitable for fighting..."

Wang Yi has infinite pride in his heart.

This blade embryo was originally a weapon obtained by the new Duan Donghe in the past, and it is also an extremely sky-defying weapon. Without any secret method or divine power, it can cause cracks in the surrounding space, which is already comparable to the power of the fifth-order top universe master.

Looking at the universe, even if it is the most powerful treasure, if it is not driven, it cannot be so strong.

This is a treasure that truly surpasses the "Xeon Supreme Treasure", even if it only has two secret patterns! Vaillant will still be incredible.

"Furthermore, over the years, I have worked hard and kept researching, and finally I succeeded in practicing the first volume of Broken Destruction."

Without relying on treasures, Wang Yi used the secret method alone, and he was able to reach the seventh level of attack.

This Yuanfu Mingshen Sword gave him a higher level of strength!

The "Destruction" created by the third-generation patriarch of Duandonghe, once it is used, it can also increase the strength!

Wang Yi now uses "Destruction" and the Pluto Sword, and can fully play to at least the eighth rank of the top combat power (the most common in the universe without the strongest treasure is the seventh rank).

Moreover, because of the characteristics of the "Pluto Knife", it has extremely penetrating power and is extremely sharp.

Similar to the "armor piercing" attribute in the game, the protection of the treasure armor can be ignored to a great extent.

When other powerful players used Tier 8 attacks, the damage they caused was Tier 8, so the damage caused by Wang Yi with the Underworld Sword was much higher than that of the ordinary Tier 8.

This is also a terrible part of the knife embryo.

Of course, you also have to use the right method of strength cohesion, like hitting it with a knife, it's impossible to have such an effect.

"If the mechanical treasure 'Dark Blood Vault' is added, then my attack can reach ten levels, comparable to the original ancestor." Wang Yi's eyes narrowed.

Dark Blood Vault and Chaos Wings are both "Ontology Tactical" machines! This type of machinery is generally to assist the user, making the user stronger in combat.

After mastering the first stage of the magical power burning secret technique, the mechanical treasure 'Dark Blood Vault', Wang Yi can already urge its second stage of power to increase the attack power of the second stage.

And "Dark Blood Vault" actually has a third secret pattern, but Wang Yi can't do it yet.

The situation is similar to other gods.

"Using the Dark Blood Dome, the consumption is amazing. Even if my Divine Body is millions of kilometers, the Yanxing Giant Beast is tens of millions of kilometers, and it won't last long." Wang Yi sighed.

Then he smiled again.

"Fortunately, I have the original treasure!"

The primordial Xeon Treasure has stored Wang Yi's massive divine power. Even if Wang Yi maintains the Dark Blood Vault full force for a long time and fights with others, he can persist for a long time.

Let him have no worries.

"more importantly!"

"The strongest people in the other universe have only one divine body, no matter how strong they are, they are only one person!" Wang Yi's eyes brightened.

"However, I have a huge advantage that they absolutely can't match! I am the Lord of the universe and have a talent clone! There are four great divine bodies!"

"This caused...I have four Tier 10 combat power!"

Four Tier 10 combat powers are equivalent to four original ancestors. One original ancestor swept across the universe and existed invincibly. Now four? Simply outrageous.

Wang Yi smiled presumptuously.

"I still have many True God-level mechanical treasures, flying, restraint... etc. Everything is done to the extreme, even if the original ancestor was fighting alone, I have the confidence to suppress it!"

The strongest in other universes, one or two Xeon treasures on his body is not bad, and the maximum is three.

Like Wang Yi...Don't say it, it will make the strongest in the universe cry.

He has more true god-level treasures on any \*\*\*\* body than the entire \*\*\*\* eye clan combined!

Compared with him, even the two sacred places with the deepest heritage looked shabby and inhumane.

"It's just that there is trouble. I want to continue to improve next, but it is not that easy. I can only work on the divine body, the secret method and the will, or the secret technique." Wang Yi also realized this problem.

In terms of foreign objects, Wang Yi has achieved the extreme at this stage, UU reading [www.uukanshu.com](http://www.uukanshu.com) is perfect.

It is him that can limit his strength.

Unless he breaks through to the true god, strength improvement can only rely on law perception and secret methods.

...

Flame ice domain.

The boat of the tomb suspended in mid-air, suddenly—Huh! Disappeared out of thin air. A man in silver armor and boots appeared out of thin air with a stone knife on his back.

He glanced around at random, and then Luo Feng flipped his hand, and a blood-colored tower appeared in front of him. It was the change of the Star Tower. Luo Feng immediately flew in and directly took the Star Tower to the distance.

How big is the boat of the tomb? As soon as it disappeared, all forces in the universe and sea that had been monitoring it were immediately discovered.

The storm is coming!

#### [Chapter 717: Group attack](#)

The Yanbing Region, because of the appearance of the inheritors of the Dongdong River in the ancient civilization, has become the area where the most powerful people gather in the universe.

Boom...

A huge black tomb boat, advancing mightily, unstoppable.

At the same time, there are a large group of super powers blocking the attack. There are even dozens of the strongest in the universe. They do their best and use various methods to stop the tomb boat. Either palace type Xeon treasure, or thought force weapon type Xeon treasure, or melee type Xeon treasure... A series of powerful and terrifying attacks can easily completely distort the time and space, and all fall on the tomb boat. superior.

The ship of the tomb trembled again and again.

"Hurry up, attack!"

"Block it!"

"Don't let it pass."

But despite these super powers trying their best to use their methods, they found that everything was in vain!

Material attacks have no effect on the Tomb Ship! And completely cut off the divine power of blur!

It is to use the Xeon Supreme Palace to collide, use the Xeon Supreme Treasure specially used to restrain and trap the enemy to restrain, and also use the tomb boat in flight, there is no way, and even the speed is not affected at all.

Any method is useless to this tomb boat! You can't even get trapped!

The founder of the Great Axe, the lord of Chaos City, Wang Yi, and the lord of Peng Gong, who were watching from afar, all watched this lively scene.

"Sure enough, as you said, this tomb boat is really powerful, so many powerful people actually have nothing to do with it." The master of Peng Gong was full of wonder.

"I can't use our help. Luo Feng can fly back into the original universe on the tomb boat. Other forces can only stare." The creator of the giant axe smiled.

"This time they are destined to be in vain." Wang Yi said with a faint smile: "After the reconstruction of the Donghe River, this tomb boat is very extraordinary. Whether it is arresting, trapping enemies, restraining methods... or soul attacks, material attacks. All means are useless."

"Awesome." The founder of the Great Axe, the Lord of Chaos City, and the Lord of Peng Gong all praised.

It is indeed very powerful, Luo Feng can run rampant with this tomb boat, ignoring all the strongest treasures and the strongest in the universe. This is the charm of mechanical flow treasures.

"In this way, we don't have to make a move, just watch by the side."

At first, the human race was worried that Luo Feng would be caught by the super powers waiting outside as soon as he came out.

It turned out that they were worried for nothing, and not only was Luo Feng okay, the other forces were probably already devastated.

Since Luo Feng is not in danger, they are happy and relaxed, watching the excitement by the side.

"Huh, many forces in the primitive universe are here." The Chaos City Lord saw the monsters, zergs, and mechanical races of the primitive universe gathered together to attack the tomb boat, and his eyes became cold.

"They are the ones who are most afraid of our human beings' inheritance from the East River, so why don't they work hard." The founder of the Great Axe snorted, "but they don't know that the inheritance has already been acquired by our human race, and they are doomed to fail."

"Actually, the Duan Donghe Inheritance is not so easy to take. Even if they really trap Luo Feng, what if they catch Luo Feng?" Wang Yi shook his head next to him. Even if they really caught Luo Feng and had secrecy measures to break the Donghe River, even the Purple Moon Holy Land and the East Emperor Holy Land would not get the inheritance they wanted.

The inheritance space is the foundation of the third generation of Donghe Duan Donghe who spent countless efforts to create it by himself! Experts in the realm of the \*\*\*\* king make a move, relying on the purple moon holy land and the east emperor holy land alone, want to crack? It's purely idiotic dreams, whimsical.

Those forces may also know that it is not easy... but there is always a glimmer of hope.

What if there is a chance?

In short, no matter what, first catch the inheritor of the Broken East River, and then slowly figure out a solution, otherwise everything will be for nothing.

"The six pinnacle races of the primitive universe, the machine race, the zerg race, and the monster race, are blood feuds with my human beings. Other forces certainly don't want to see our human beings become stronger and oppress them. So once the Donghe inheritance falls into our hands, no matter what is it for inheritance or self-preservation, they will all unite to deal with our human race." The Chaos City Lord has already anticipated the future.

Once the human race is strong, it will inevitably expand, and it will encroach on the living space and interests of other forces. At the same time, it is inevitable that it will be accompanied by struggle.

Which ethnic group becomes stronger, isn't it all because of the bones and blood and tears of other ethnic forces?

The creator of the giant axe looked at Wang Yi with a calm expression on his face, "Hunyuan, how is your current strength progressing, can you realize that plan?"

"It's almost there, anytime." Wang Yi replied.

This plan was put forward by Wang Yi last time, and it was recognized by the founder of the Great Axe, the Lord of Chaos City, and the human race.

It's easy to say... but very useful.

All parties in the primitive universe are not fooled.

"That's good."

"If it succeeds and eliminates many threats, we humans will really be the only one in the primitive universe, and other forces will no longer be able to fight our humans." The Chaos City Lord and others have expectations in their eyes.

All parties want to unite against mankind, and mankind will not wait foolishly to do nothing.

It all depends on who has the stronger means and who can have the last laugh.

At this time, the many super powers in the distance are almost tossing.

"No, I can't stop it!"

"It's useless to join hands."

"It's so..."

"Why is the flying power of this tomb ship so strong?"

After exhausting the means, the strong ones are helpless.

According to the current situation, all parties understood that they could not stop... Luo Feng could completely fly like this until he flew out of the spaceship and returned to the original universe!

Obviously, the opportunity to win the inheritance is right in front of him, but it is blocked by a tomb boat, and all parties are very unwilling.

"Haha, it seems that they are finally exhausted and have nothing to do, and they are going to give up." Luo Feng was in the tomb boat, and his mood was exceptionally cheerful. He was able to make so many of the highest existences in the universe helpless. How strong this satisfaction is.

"Luo Feng!"

Suddenly a voice of divine power was transmitted on the boat of the tomb.

Luo Feng's control of the boat of the tomb naturally knows.

"I am the Lord of North True Star, representing the ancestor of the Eastern Emperor, and I want to make a deal with you."

The Master of the North Star spreads the voice.

"Deal? The ancestor of the Eastern Emperor?" Luo Feng's heart moved.

...

A distant corner of the Yanbing Region.

Faintly distorted in time and space, there is a cyan mountain hidden in this distorted time and space~[www.mtlnovel.com](http://www.mtlnovel.com)~Duandonghe is indeed well-deserved! "The guest sitting on the mountain looked at it from a distance, with a smile on his face.

"The last tomb boat that was rebuilt by the Donghe River was able to be so strong, it seems that I have been worrying too much."

"Luo Feng can leave safely now, and no one can stop him, but his real test has just begun." The mountain guest seemed to have received some news in advance, and what was revealed in his words.

He shook his head, smiled, glanced at the tomb boat in the distance, then glanced at the direction of the strong human group gathered together, and whispered.

"It is not so easy for the human race to become stronger in the primitive universe."

"Let's go, I'm afraid that the next years of the primitive universe will not be peaceful."

Immediately this distorted time and space suddenly calmed down, and the mountain guest had quietly left.

### [Chapter 718: Luo Feng](#)

And Luo Feng was talking secretly with the North True Star Lord of the East Emperor Holy Land.

The Northern True Star Lord represents the ancestor of the Eastern Emperor, and wants to trade with Luo Feng to trade the memory and inheritance of the cultivation experience of the super existence of the ancient civilization.

And Luo Feng is asking for prices all over the world, asking for 10 Xeon Treasures from the Holy Land of East Emperor in one go!

The Northern Star Lord was startled by Luo Feng's lion's big mouth.

After asking the ancestor of the East Emperor for instructions, he continued to talk with Luo Feng.

The two sides continued to negotiate like market hawkers, and finally negotiated.

Inside the boat of the tomb, Luo Feng couldn't help laughing. This time the East Emperor Holy Land's door-to-door transaction was an unexpected gain.

Although there are already many Xeon treasures in the clan, they all belong to the Great Axe and Chaos City Lord. Even Luo Feng has only the Star Tower, and none of the other universe masters.

"Don't do it in vain. Even if you only get two Xeon treasures, it's a good thing." Luo Feng sat in the control room of the Tomb Ship and smiled.

As soon as your lips moved, two Xeon treasures were delivered to your door. Where can I find such a good thing?

Luo Feng would not be polite.

As for whether it's too much to deceive others' treasures... just by looking at a group of strong people in the East Emperor Holy Land doing their own hands, both sides are regarded as enemies.

Only found that Luo Feng could not be used, so he came to deal with Luo Feng in a good mood.

For this kind of person, Luo Feng didn't have any psychological pressure when he was slaughtered.

In fact, Dongdi Holy Land didn't think that Luo Summit would not deceive them with false or useless inheritance memories, but even if they guessed it, they couldn't do anything about it. Now only Luo Feng has the inheritance, and no one knows what to do with the Donghe inheritance. In specific circumstances, the initiative is in Luofeng, and it is the East Emperor's Holy Land that is catching up with the transaction.

The one from the East Emperor Holy Land wanted to get the inheritance of the Broken East River too much, but he couldn't get it. It was acceptable to be able to exchange some cultivation experience that was useful to him.

As for giving some Xeon Supreme Treasure... the ancestor of the Eastern Emperor, who has been beyond reincarnation, would not care.

"However, the East Emperor Holy Land is also considered cautious. In the first transaction, only two pieces of Xeon Supreme Treasures would be exchanged with me." Luo Feng was a little regretful.

As the inheritor of the Duandonghe, he certainly knows what the Donghe inheritance is. Although there are many powerful inheritance knowledge collected by the Duandonghe in the past, but the more

advanced training methods, whether or not it is The Donghe lineage had all been summed up to the core inheritance early, no matter which one, Luo Feng had no right to divulge it.

But the ancestor of the East Emperor Holy Land didn't know, he fell into the pit, and Luo Feng was tricked by Luo Feng invisibly.

After Dongdi Holy Land reacted, it would be very difficult for Luo Feng to continue to deceive.

"It's a one-off sale." Luo Feng secretly said.

But he was also a little strange.

"The ancestor of the Eastern Emperor came to me, but why didn't the ancestor of the purple moon react at all?"

The Cosmic Sea is now two great sacred places. Only the ancestor of the Eastern Emperor and the Holy Ancestor of the Purple Moon clearly transcend the cycle of reincarnation. From their previous movements, it is obvious that they also want to break the inheritance of the East River.

But the East Emperor Holy Land came to the door for a deal, but no one came to negotiate in the Purple Moon Holy Land.

If Wang Yi was there, he would be able to guess a little, but Luo Feng was at a loss about it.

Luo Feng's mood at the moment is still very good. He has the inheritance of the Broken East River. Before he goes back, he can reach a deal with the Dongdi Holy Land. Although the real deal will not be carried out until Luo Feng returns, but these two Xeon treasures are still very stable. You can get it.

"It should be able to strengthen a lot of our human race." Luo Feng thought to himself.

...

The virtual universe, a single plane, in front of the temple of the giant axe.

Wow, a figure appeared, it was Luo Feng.

"Luo Feng." The Chaos City Lord and the founder of Great Axe waiting here couldn't help smiling when they saw Luo Feng coming out.

Although they have already received the inheritance, this time the Donghe Donghe inheritance fell into Luo Feng's hands. It also proves Luo Feng's ability, at least apart from Wang Yi, the human race wants to transcend reincarnation, Luo Feng also has great hope.  
nOvelusb.Com

These are all the future pillar powerhouses of the human race and the guarantee of human prosperity.

How could the Chaos City Lord and the founder of the Great Axe be unhappy and happy.

"Luo Feng didn't know that we got the inheritance from Wang Yi." City Lord Chaos spoke to the founder of the giant axe, "I'm afraid I will scare him a lot later."

"Haha... If he knew what Wang Yi did, more than one would be frightened," said the creator of the giant axe.

"City Lord Chaos, founder of the Great Axe. I have a happy event to tell you." Luo Feng said with a smile.

"Oh?" The City Lord of Chaos and the founder of the Great Axe looked at each other.

Chaos City Lord smiled.

"What happy event makes you so happy?"

"It's like this..." Luo Feng said about the secret transaction with Dongdi Holy Land. "Although it is almost impossible to get the 10 Xeon Supreme Treasures agreed upon, the Dongdi Holy Land will be fooled and will not be so stupid to continue to send the Treasure to us. , But the mortgage for the first transaction is two Xeon treasures, among which there are palace-type Xeon treasures..."

Luo Feng finished talking excitedly, but found that there was not much excitement on the faces of the founder of the Great Axe and the Lord of Chaos City. He couldn't help but said in confusion, "Great Axe, City Lord, these are two supreme treasures. Happy?"

The founder of the Great Axe and the Chaos City Lord looked at each other again, coughed, and smiled at the same time.

"Happy, why are we not happy? This time we can get the inheritance of the Broken East River, and we are about to get two supreme treasures from the East Emperor Holy Land. Luo Feng, you are indispensable, you are a great contributor to our human race."

"But, Luo Feng, we haven't told you something..." City Lord Chaos smiled slightly. "When you retreat at Duandonghe to learn the secrets, many things happened to our human race..."

"Oh?" Luo Feng became curious. "I don't know what's the matter?" Is there anything bigger now than the Donghe Heritage and Xeon Treasures he brought back? Luo Feng didn't believe it.

"It's like this..." Chaos City Lord and the founder of Great Axe said as they walked with Luo Feng.

When Luo Feng heard from the Chaos City Lord and Great Axe the changes that had taken place during his retreat during this period of time to fight for the inheritance of the East River, his mouth opened wide. After all, he hurried to leave as soon as he came out, and he didn't have time to distract himself from reading the mail.

"what?"

"Duandonghe inheritance, brought back by Wang Yi?" Luo Fengru heard the story of the heavens, his first reaction was impossible.

"How is it possible? to cut the Donghe inheritance. In my case, although Wang Yi is also involved, only one person can be selected as the inheritor." Luo Feng said flatly.

Obviously, he is that person. Since he has the inheritance of Duan Donghe, where does Wang Yi inherit it?

He wondered whether Wang Yi and the human race made a mistake, and regarded the inheritance of ancient civilizations where they came from as the inheritance of the Donghe River.

Chaos City Lord said: "I know it's hard for you to believe, so I brought the information video here, you can watch it yourself."

As soon as the Chaos City Master waved his hand, a clear projection appeared in front of him, and pictures appeared on it, quickly passing by.

"This is..."

Luo Feng watched quietly at first, but then his face became exceptionally brilliant, and his mouth opened wider and wider unknowingly.

How is this going? There are actually two copies of the Duan Donghe heritage! ?

#### [Chapter 719: Luo Feng's question](#)

There is only one inheritance of the Broken East River, it is unique, and there is absolutely no possibility of leakage. Luo Feng originally thought so.

But now, his beliefs have encountered a strong impact.

"Duandonghe inherits the message?"

"Can the three core faculties be taught?"

"One piece of Xeon Supreme Treasure per person?"

"The Lord of the Resurrection Universe?"

"Mechanical treasure???"

"This this..."

One after another, full of shocking news, Luo Feng's nerves received tremendous shocks again and again, and he remained speechless for a long time after watching the images.

"This is the latest thing that happened to our human race." City Lord Chaos saw Luo Feng's shocked expression and understood him, and patted him on the shoulder. "You can get the Broken East River Heritage this time. It's very good. When the inheritance is brought back, you can have a look and see if there is anything you can add. Also, the two Xeon treasures that have been traded back, the ethnic group is now very rich. You keep it for yourself."

Luo Feng was speechless.

Is there anything to add?

If Wang Yi, the three most core geniuses of Duandonghe, could be imparted, then there would be no false information about other inheritance, which was much stronger than what he gave to the ethnic group. What else could he add?

Not to mention that "Dan Mie", "Dong Hua", and "Undead River" belong to the fundamentals of the inheritance of Dian Dong He, and he cannot pass it on to other people in the ethnic group.

And the important information beyond the stage of the strongest person in the universe is originally affected by the original universe, and can only be seen by those who are beyond reincarnation. At this time, there is no use, so it doesn't matter.

It's just that he couldn't figure out where Wang Yi came from the Donghe heritage.

Also do so many earth-shattering things.

This method is incredible.

"No, I have to go to Wang Yi." Luo Feng couldn't help it.

The virtual universe, Thunder Island, is lined with magnificent palaces on the top of the mountain. It is the mansion of the master of the universe of the virtual universe company. The back garden of Wang Yi's palace is full of colorful flowers and countless strange flowers and plants. There are pavilions sitting in them. He was wearing a red robe and black-haired young man, and opposite was a white robe and grim youth.

"Luo Feng, congratulations on your inheritance from the Broken East River." Wang Yi smiled and looked at the friend on the opposite side and poured him a cup of tea. "Try it out. This is a tea tree just cultivated on the earth. The virtual universe has been completely simulated. It tastes that way, it tastes very good."

Luo Feng had calmed down at this time, picked up his tea cup and smelled it, took another sip, and praised: "It's really good..."

He put down the cup and looked at Wang Yi even more that this friend was different from before, even more unfathomable and unpredictable.

"Wang Yi, the Donghe inheritance..." Luo Feng hesitated and said, he guessed that Wang Yi's secrets were involved. He didn't want to get to the bottom of it, but it was a matter of cutting off the Donghe inheritance. He, as this generation of Donghe Donghe, said. Still have to ask to understand what's going on.

It's okay if it's only obtained by the human race, if it's spread everywhere...

"Luo Feng." Wang Yi closed his eyes, sniffed the tea, and said, "Since you have inherited the Donghe heritage, you should know that this world is far larger than you and I imagined, just like our universe compared to ancient civilizations. , We are the frog at the bottom of the well, but even the ancient civilization is really the ultimate? Will there be a higher level?"

"This..." Luo Feng hesitated. He also knew that Wang Yi's acquisition of the Tower of the Heaven should be related to ancient civilization, but he and the human race did not know the details of the Tower of the Heaven. Perhaps Wang Yi knew from the Tongtian Pagoda that it was not impossible to get anything.

It's just that the Duandonghe heritage is one of the top heritages of ancient civilizations. Is there a more powerful existence and level than the Duandonghe?

Luo Feng could not imagine.

And if Wang Yi didn't talk about the origins of his Donghe inheritance, he couldn't help it.

"Tongtian Tower, is it so powerful?" Luo Feng looked at Wang Yi.

"There is a sky outside the sky, and there are people outside the world." Wang Yi replied.

Then he added another sentence.

"But I can guarantee that, apart from this one, there will be no other inheritance from the East River."

"All right." Luo Feng reluctantly accepted the answer.

Then I asked another curious question. "What is going on with the resurrected masters and strong men of the universe?"

According to Luo Feng's past understanding, even if he is as strong as the strongest in the universe, he can only resurrect the top cosmic overlord at best, and no one can resurrect the cosmic lord.

But Wang Yi was able to go against the sky and resurrect so many masters of the universe. It's incredible, it's hard to understand!

Isn't Wang Yi no longer the lord of the universe?

Wang Yi seemed to guess Luo Feng's thoughts and chuckled, "I am still the Lord of the Universe. The reason why I can be the Lord of the Resurrection Universe is to rely on the Tongtian Pagoda."

"Tongtian Pagoda..." Luo Feng pondered the name, feeling a little envious. This Tongtian Pagoda seemed to be far more powerful and convenient than his own inheritance of the Broken East River.

From the point of view that it can bestow the inheritance of the Broken East River and resurrect Wang Yi to the Lord of the universe, the Tongtian Pagoda is definitely the most powerful treasure! To what extent should the existence behind the Tongtian Tower be overbearing? It is simply unimaginable.

It was really shocking that Wang Yi was able to obtain the Tongtian Pagoda during the time of the realm master.

Luo Feng sighed inwardly, this partner of the same age had been walking in front of him, and he was still unable to surpass, which made him a little regretful.

"By the way, I heard that when you came back, you reached a transaction agreement with the East Emperor Holy Land? Do you want to use the inheritance message to exchange them for the strongest treasure?" Wang Yi asked casually.

"Yes." Luo Feng regained his senses and said, "However, I am restricted by the Donghe Inheritance Mark, and the core inheritance information cannot be leaked out, so I can only use some unimportant, the cultivation experience of the strongest in the universe. Leave the memory to them."

He glanced at Wang Yi with a strange expression. "Wang Yi, your Donghe inheritance seems to be unconstrained, right?"

"Yes." Wang Yi smiled lightly. Of course it is free. Otherwise, how could he pass on the three cores of Duandonghe to the human race?

"It seems that the East Emperor Holy Land has found the wrong person. They should find you to make a deal." Luo Feng shook his head, sighed, and looked a little regretful.

"Haha, I have nothing to ask for their Dongdi Holy Land, why should I pass it on to them to help the ancestor of Dongdi? I don't know him." Wang Yi smiled. "Don't worry, the inheritance of Broken East River will only be taught within the human race. I will not pass it out at will."

Luo Feng nodded, that's good, he is considered to have fulfilled his responsibility for breaking the East River.

As for completely following the rules of the Duan Donghe division, not allowing humans to teach them internally? He is not stupid, of course he would not do that. Moreover, the Donghe Oath just didn't allow him to pass it out, but others didn't say to take it back.

"Luo Feng, since you are here, let me tell you something." Wang Yi said.

"I have a mechanical treasure. It is used by a single body. If it is fully utilized, it should be able to increase the combat power of two to three tiers."

"Although you are the Lord of the Universe, it is easy to become the Lord of the Universe. There is also the entire inheritance of the Donghe River. It can be said that the human beings are most likely to transcend reincarnation in the future. It is you and me."

"So this mechanical treasure, the founder of the Great Axe and the Chaos City Lord, they all have it, but there is one more, I want to hand it to you." Wang Yi looked at Luo Feng who was dumbfounded.

#### [Chapter 720: Unlucky Wang Yi?](#)

Thunder Island is the strong base camp of the virtual universe company in the virtual universe. The mountains are towering and endless, the airflow is permeated, and the palaces can be seen faintly.

There are distinct levels here.

The countless palaces on Thunder Island are those immortal.

The palace on the mountainside of the central mountain range of Thunder Island is inhabited by the Venerable Universe.

In the palace on the top of the mountain, the Lord of the Universe lives, some powerful overlords of the Universe.

The top of Thunder Island is the palace of City Lord Chaos, the first in power of the Virtual Universe Company.

Wang Yi's palace complex is majestic and continuous. It is considered the closest to the palace of Chaos City Lord, covering an area of more than 100 million kilometers, and the cosmic lords are a group of palaces, each of which is hundreds of thousands of kilometers or even millions of kilometers. Diameter, and their servants, disciples, named disciples, etc., are all immortal world masters.

However, there are tens of thousands of servants of the Universe in Wang Yi's palace complex, which is amazing.

In fact, these were all enslaved by him before, and they were hidden in the past, but as Wang Yi's strength is strong, no one is able to cross the universe and sea, no longer need to be as cautious as before. These invisible cosmic deities People can also come out for activities.

Wang Yi in a red robe and black hair shawl and Luo Feng, a black-haired young man in a white robe, walked side by side, watching the servants who saluted them both respectfully everywhere in the palace, and he couldn't help but feel that one of them was the Venerable Universe. With emotion, an eye-opener, once again reevaluated the "family" of this friend.

"The Cosmos Venerables here are going to surpass our human race, right?"

Wang Yi said casually, "I have more than 10,000 Cosmos Masters under my command, but they are of no use, that is, they usually help with trivial things. These Cosmos Masters are low-powered. Even if a few universe masters are born, they will treat me with such strength. In terms of level, what's the use?"

Wang Yi shook his head.

Luo Feng was a little speechless, but he had to nod his head in agreement. What Wang Yi said was correct, let alone Wang Yi. He alone is now comparable in strength to the strongest in the ordinary universe, and the Lord of the ordinary universe does not appreciate him. Not to mention these cosmic masters in front of you.

In the eyes of outsiders, it is unattainable and can create a vast and vast universe, dominating in certain cosmic places to become a race, a cosmic sage who is the backbone of the universe, in their eyes it is nothing more than that.

This is a question of hierarchy.

"You really don't know the blessing in the blessing." Luo Feng said enviously, "I don't have a few Cosmos Venerables under my command now. Compared to you, there are so many Cosmos Venerables, and dozens of universes will be born in the future. The lord is normal."

This is also something that the Lord of the universe of many human races envy.

Wang Yi has too many servants of the Universe! There are more human races than there are now, and there will be many masters of the universe in the future! If he becomes independent and becomes a family of his own, he might still become an extremely powerful force in the human race!

Now, in fact, there is already this momentum.

You know, Wang Yi has resurrected many human powers this time, and some of them are actually not clearly belonging to the five major forces. Therefore, after they were resurrected, they would generally be grateful to Wang Yi, who was close to them for saving their lives.

Kindness is heavy! In addition, considering Wang Yi's infinite future possibilities and incomparable strength, more than one universe lord is willing to vote for Wang Yi, but Wang Yi has not considered establishing his own power in the human race. After all, he is still a member of the virtual universe company. He is also the leader of the people on earth.

Even though Wang Yi is really independent now and forms a group of his own, no one else would say anything, he actually thought about this plan. Because the strong, in addition to their own strength, the

forces around him cannot be ignored, he doesn't care, but it can also help the people of the earth to rise up and expand their influence.

But this is all for the future, and you can figure it out slowly.

For Wang Yi, strength and cultivation are the most important now.

"By the way, I will call Hong and Raytheon over later. It's been a long time since we have seen each other. We will gather together today." Wang Yi said.

"Alright." Luo Feng agreed.

The four powerhouses of the earth at the time.

Now Wang Yi and Luo Feng are both standing at the highest level of the human race, with high positions and high positions, and they are high in awe of the universe.

Hong and Thor are just immortal kings.

Although there is a huge gap in levels, the personal relationship between the four is good, and they will meet every few years to miss the past.

As the position gets higher and higher, there are fewer and fewer people who can talk to him. Is it true that the acquaintances of the past are of the same level, have little communication, or are very cautious in front of Wang Yi, Wang Yi also feels overwhelmingly high. So I cherish friends like Thor and Hong very much.

Perhaps this is one of the reasons why he attaches so much importance to Luo Feng, a friend who has grown up with him since his youth.

All the way forward, the years are long, there are too many friends who part ways, and it is not easy to have a close friend.

"Master." Just as the two were discussing the future development of the human connection on the earth, a Cosmos Venerable appeared and saluted Wang Yi and Luo Feng, and said respectfully, "The Lord of Clouds, the Lord of Jiuli and The Lord of Chenhe has come to visit you again."

"Again?" Luo Feng noticed this word, looked at Wang Yi, and found a rare trace of distress on the face of this friend.

...

When Luo Feng left Wang Yi's palace, he held back a smile.

He couldn't think that his good friend, who had lived for hundreds of thousands of years, still had such a day.

Of course, he will not be envious, only find it interesting and funny.

"I remember that Wang Yi is not the kind of person who likes to attract bees and butterflies. How could this happen?" Luo Feng thought for a while, a little puzzled. When others saw Wang Yi has three wives,

they might think he was bothered. But if it were placed in the universe, at the level of Wang Yi, then it would be nothing.

Even on the previous earth, there were many women outside of men who were casual and wealthy.

In the universe, it is common for any strong person to have thousands of partners, and the Luo Feng family also has many such wonderful works. After all, the forest is big and there are all kinds of birds.

However, it is extremely rare that there are personal feelings like the Lord of the Universe. UU reading [www.uukanshu.com](http://www.uukanshu.com)

"I didn't expect that Wang Yi would still have a peach blossom luck this day."

"In the past, Qianshui Aichen and his ilk were forgotten, but Wang Yi didn't seem to accept their intentions."

"But now the three female masters of the universe, they all seem to have ideas about Wang Yi, and they are all single for hundreds of millions of years..." Luo Feng couldn't help but shudder, and began to sympathize with his friend inexplicably.

"Tsk ts, I dare not look directly at the picture." Seeing that this friend who has always been omnipotent and invincible seems to have bad luck, Luo Feng's heart is full of gloat.

Before he left, Luo Feng had a bad taste and sent an email to Wang Yi to tease him.

[I'm leaving, take your time and enjoy it. ]

Not long after, Wang Yi wrote back.
