

A God 721

[Chapter 721: Shi Zhongtian's Counterattack](#)

Nearly a thousand years later, Luo Feng's Star Tower finally came out of the Cosmos Ship, and then he rushed to Qingfeng Realm non-stop. After these years, his will has been tempered and finally broke through the strongest in the universe, ready to recognize the "wings" of the Lord.

In addition, Wang Yi had already sent the inheritance back to the human race, so Luo Feng naturally didn't have to rush back.

From the spacecraft to the Qingfeng world is very far away, through teleportation and natural wormholes, the time consumed is less than a fraction in the spacecraft.

"Wow..."

In Qingfeng Realm, the endless waters are surging against each other, and there is a walnut-sized blood-colored pagoda suspended above the waters.

"This wing belongs to me." Luo Feng, in the form of a giant golden horn, looked down in the Star Tower and grinned. "That winged spirit, it must have never expected that I will come back so soon, and my will has broken through these years, ooh, I will use the golden horn monster to deceive it first."

Last time Luo Feng used a human form to talk to the Winged Spirit, but this time he used the identity of the Golden Horn behemoth. The Winged Spirit didn't look so smart, and he might be fooled.

In fact, Luo Feng really succeeded.

...

While Luo Feng was busy working on regaining his new wings, Wang Yi had already sent the Tradition and Treasures of the Broken East River back to the human race, which shocked the senior management.

"This, is this the legendary inheritance of Dongdong River?"

"Unbelievable, terrible secret method."

"God, there are so many Xeon, does everyone really have one?"

"With these, the strength of each of us can be sharply improved, and the strength of the human race will be greatly enhanced. It is not a dream to become the number one power in the primitive universe or even the universe!"

In the original universe, in the Chaos City Lord's Mansion, many human super beings gathered and discussed enthusiastically. It was more lively than the New Year, and it was full of joy.

The upper part of the inner mansion of the city lord's mansion. Wang Yi and Chaos City Lord stood by the railing and looked down at the scenery.

"The training place is here, it should be foolproof." Chaos City Master said with emotion, "There are also those strongest treasures, each of us has one for the Lord of the Universe. Although most people are not yet able to fully display their power, but when They have improved in strength and believe that they will

soon become the masters of the sixth-order universe, and our human race will also have a group of sixth- and even seventh-order universe masters. In the primitive universe, even the universe, no force can be compared with our human beings. Compare."

City Lord Chaos had expectations in his eyes.

The Xeon Supreme Treasure also depends on who uses it. Only the fifth-order universe master plays the third level of the Xeon-Treasure, and it counts as the sixth grade.

In the past, the chaotic city lord, the lord of Peng Gong, and the lord of darkness counted this level of the human race.

They have Xeon's treasures, and they can immediately display their Tier VI top combat power.

But the other masters of the universe, such as the master of Bingfeng, the master of the virtual gold, the master of the wild Jian... are all worse.

But now there is the inheritance of Broken East River, but it can quickly make up for the strength of the master of the universe of the human race, allowing them to quickly rise to the fifth rank.

And like the Lord of Penggong, the Lord of Darkness, and the Lord of Stars and Moons, with the help of the strongest treasures and secret methods, it is even possible to reach the seventh order.

The seventh rank is already considered to be the strongest level in the ordinary universe without the strongest treasure.

When the human race has reached this point, not only the number of masters of the universe, but the high-level combat power, is absolutely the best in the universe.

Moreover, with dozens of Tier 6 combat powers, in the Primitive Universe, they are much stronger than the other five pinnacle races combined. After all, the strongest of the universe is in the Primitive Universe, and can only explode to the Tier 6 top attack level at most. The number of peak combat power is far weaker than the human race.

In this regard, the five pinnacle races combined are not as small as human beings.

What the human race is really worried about is that a large number of forces in the entire primitive universe unite against the human side. There is no one force that can compare with human beings.

The Lord of Chaos City grabbed his hands on the railing and looked down at the scenery of Chaos City, "This time there is a heritage, and my human race will be born in the future more immortality, more cosmic lords, more cosmic masters... and even more. The strongest in the universe!"

"The rise of the universe!" Chaos City's voice was low.

The Lord of Chaos City has always been conscientious, acting selflessly, and paying for the human race. Isn't it that the human race can be strong?

But now, all of this is about to come true, and even further, even more beautiful than the best prospect he had ever expected. With the mood of the Chaos City Lord, he couldn't help but get excited.

The entire training system is very complex. Except for some specific items that need to be prepared, there are many other training methods that are placed in the "virtual universe". For this reason, Wang Yi specially placed some memory stones in the "virtual universe" of the city lord mansion. At the core of, it receives massive messages from the Stone of Memory. Virtual universe, Chaos City... are the two most important training places.

"Inheritance is very important. It is related to the rise of human beings. It must be absolutely confidential." Chaos City Lord and Wang Yi said, "I will make arrangements. In Chaos City, even if there are alien spies, they will not be able to steal any useful information. "

Even if those inheritances are seen, they cannot be copied.

In Chaos City, the original universe is absolutely controlled by Chaos City, and no strong person dare to break in.

And those who are exposed to secrets are either the real core high-level people of the human race or the soul servants, and contacting secrets is to contact the tip of the iceberg... Only the "virtual universe" knows about it that truly becomes a system.

Of course, Wang Yi and Luo Feng know the most.

"Huh?" Wang Yi and Chaos City Lord were discussing the future development of the human race. Suddenly, a figure walked out of a building in the distance and was seen by Wang Yi.

"What's the matter?" Chaos City Lord noticed that Wang Yi's vision changed, and turned his head to look, then smiled: "A realm lord actually made you pay attention, do you know?"

"It's my earth line." Wang Yi nodded.

"The earth came out? That is your tribe." Chaos City Master became interested, "Let me see, um, is it from my Virtual Universe Company, or the Primordial Secret Realm Master? Hey, it was actually 20,000 years ago. Have passed the cosmic level and the domain master level primitive Tongtian Mountain?"

Chaos City Lord was a little surprised ~www.mtnovel.com~ Actually, Wang Yi was also a little surprised. Although he had a whim and used the secret method of soul illusion on this young man to make him dream for thousands of years, it was a promotion to him, but he did not expect it. This young man was able to do this, to be honest, it was not much worse than what Luo Feng did before.

Of course, this also includes the cultivation and help of the earth forces, but undoubtedly, this young man is very outstanding.

And in a street in Chaos City, a young man with black hair mixed with white hair and a little vicissitudes of life was walking towards the city lord mansion, looking up at the magnificent city lord mansion in the distance.

"Woo, Tongtian Chaos Monument, I still have several enlightenment times. This time, I must make more insights, and I must break through the world master-level primitive Tongtian Mountain."

This young man had a close relationship with Wang Yi, Shi Zhongtian, the young man who came out of the earth.

He didn't know that he was being watched by two great beings.

[Chapter 722: Accept disciples](#)

For Shi Zhongtian, that mysterious dream for thousands of years was the most important turning point in the lives of others.

From then on, the sky soared into the sky.

First, he rose in the "Dragon's Nest" on the earth, and then joined the virtual universe company after the universe level and became a member of the core layer.

After hundreds of years of cultivating in the cosmic primitive secret realm, Shi Zhongtian broke through the cosmic primitive Tongtian Mountain and the 12th floor of Tongtian Bridge. At that time, he also caused quite a stir in the virtual universe company.

After learning of his identity from the earth, many cosmolords and other big figures vie for disciples, and finally they were accepted as disciples by the landlord of the dry witch who had the first moon near the water tower.

The scenery is infinite.

He Luofengyu's main level has crossed the 13th floor of the Tongtianqiao for more than five hundred years, and it is not too much.

After thousands of years, Shi Zhongtian, who was already a member of the original Secret Realm at the domain master level, has been sent to the Qianwu Universe Nation to serve as the chief official of the frontiers. Among the hundreds of millions of people in the Qianwu Universe Nation, relying on the teacher, the Qianwu Nation Master. Even the ancient three hundred princes did not dare to be disrespectful to him, each of them was polite, respectful and extraordinarily pleased.

Soon after, Shi Zhongtian crossed the 16th floor of the Tongtian Bridge, and then traversed the original domain master-level Tongtian Mountain, which once again attracted heated discussions.

Because he was born on the earth, Wang Yi and Luo Feng are two peerless powerhouses with brilliant achievements. Many people think that Shi Zhongtian is very likely to become a super existence of the human race in the future. For this reason, there are even a lot of lofty cosmos venerables who are willing to befriend him in advance and give him convenience everywhere.

As a result, Shi Zhongtian's practice path was out of control.

Now Yinyin is the first person in the original secret realm of the realm. It is said that he has the ability to cross the 20th floor of the Tongtian Bridge. Many people are waiting for Shi Zhongtian to go to the realm's Tongtian Mountain and become another one who has left a heavy legacy in human history. Trace of the peerless genius.

However, during this period of time, the high level of the human race has been paying attention to the inheritance of the Tomb Ship Broken East River, and has not paid much attention to the rise of this kind of low-level genius. Because of this, the Chaos City Lord, who originally controlled the Virtual Universe Company, lacked understanding of this, and only discovered the existence of this genius after inquiring.

"You Earthman, this little guy is good, this rate of progress should be close to the original level of Kedi." City Lord Chaos admired. "If he can break through the primitive Tongtian Mountain in recent years, he can be compared with the most dazzling peerless genius of our human race."

The realm master is the original Tongtian Mountain, and he has a chance to pass through the 20th floor of his law perception. Those who can pass this level in history are all the peak geniuses of the human race. Only by breaking through the "world master-level primitive Tongtian Mountain" can they truly be comparable to a group of geniuses in history, such as Kedi and Venerable Erosion Fire.

But Wang Yi, an unprecedented metamorphosis, is of course an exception.

It only took him more than two hundred years to go all the way from the cosmos level to the world master level primitive Tongtian Mountain. He was unprecedented, far surpassing the geniuses of Kedi and Venerable Fire. He belonged to the kind of invincible existence.

As for Luo Feng, it took several thousand years to break through the territorial master level primitive Tongtian Mountain, and then more than ten thousand years before surpassing the territories master level primitive Tongtian Mountain.

Training time also represents talent. If you can get through it with a short training time, the general talent is better.

But there are also some who have chances against the sky, which are naturally different.

"This little guy is somewhat capable and has a good chance." Wang Yi secretly said.

Over the years, he has also paid attention to Shi Zhongtian occasionally, and after Shi Zhongtian's rise in the virtual universe company, he also instructed the Lord Qianwu to accept him as a disciple.

Otherwise, there were so many super beings to grab at the beginning, and even the Lord of the universe was tempted, and the Lord of Dry Witch might not be able to grab it.

Seeing Wang Yi's expression, the Lord of Chaos City said with interest: "Why, are you interested in him? Do you want to accept him as a disciple?"

Wang Yi nodded. "It's a bit of interest, but it also depends on whether he has that ability."

For such great beings as Wang Yi and City Lord Chaos, accepting disciples is no longer a random or ordinary thing.

Even the peerless genius who was born in Million Era, they may not be able to see them in their eyes.

Especially Wang Yi, his requirements are even higher.

In fact, the high level of the human race has always persuaded Wang Yi to accept disciples, but Wang Yi has always been indifferent to accepting disciples as he pleases.

Even the peerless genius who came out of the tens of thousands of eras would only have the opportunity to become the Lord of the Universe, and even if he could become the Lord of the Universe, Wang Yi didn't care.

"I chose the Heavenly Chaos Monument? It's the people from the earth who came out of the same line, but I have some fate with me." Wang Yi smiled slightly.

"I will give you a chance, depending on whether you can grasp it."

...

"Finally broke through the world master level Tongtian Mountain."

Chaos City, belonging to Shi Zhongtian's residence, Shi Zhongtian withdrew from the virtual universe, and finally couldn't help showing an expression of excitement.

The world master-level primitive Tongtian Mountain is a dream in the hearts of all secret realm master members, and a benchmark for countless geniuses in human history. Only by conquering it can be regarded as one of the strongest geniuses in history.

"I finally succeeded." Shi Zhongtian clenched his fists, excited, feeling that his hard work for so many years finally paid off.

"However, compared with the Lord of the Chaotic Source and the Lord of the Galaxy, the human leaders of our planet, my accomplishments are still insignificant, so I can't be proud and complacent." Shi Zhongtian took a deep breath and calmed down quickly.

And the news that Shi Zhongtian passed the realm master-level primitive Tongtian Mountain quickly spread among the human high-levels.

Shi Zhongtian's friends and acquaintances also sent him congratulatory emails, including Wang Yizi, Queen Anhe, and Wang Le, and Luo Dingjun, a peerless genius from the Luo family.

"Haha, Shi Zhongtian, congratulations."

"Shi Zhongtian, you actually rushed past the realm master Primitive Tongtian Mountain before me, admiring it, this time you won."

"Shi Zhongtian, great, you have to treat this time."

Among them, many Venerable Universes sent congratulations, and Shi Zhongtian responded one by one.

"Zhongtian, come and see me right away." An important email caught Shi Zhongtian's attention.

"is teacher."

Shi Zhongtian saw the mail from the Lord Dry Witch, and he didn't dare to neglect.

Each Universe Venerable has his own exclusive plane space in the virtual universe, which belongs to the exclusive plane of the Lord of Dry Witch.

In the gray spire palace, Shi Zhongtian respectfully saluted the domineering and stalwart figure ahead.

"teacher."

The Lord Dry Witch turned around, looked at the heroic apprentice in front of him, and smiled.

"Zhongtian, congratulations to you. You have not let me down when you have passed through the original world master Tongtian Mountain."

"It's all cultivated by the teacher." Shi Zhongtian said respectfully.

The Lord of Dry Witch smiled noncommittantly, "Do you know why I accepted you as a disciple in the first place?"

"This..." Shi Zhongtian hesitated and replied, "Is it because of the talent of the disciple?"

"This is just one reason." The Lord of Dry Witch sighed, "At the beginning, you were a blockbuster, and because you were born on the earth, there are so many super existences who want to accept you as a disciple, and I am just one of the inconspicuous ones, but in the end I can accept you. The main reason for being a disciple is that the more powerful and powerful did not come out and grab the teacher~www.mtlnovel.com~ because they were ordered by someone."

Shi Zhongtian was shocked. He didn't even know. Shi Zhongtian was actually very satisfied when he was able to worship the Lord of the Witch as a teacher. After all, the Lord of the Witch is now different from the past. With a big leg with his back, he is already the overlord of the universe. It is also extremely beautiful.

The Lord of Dry Witch looked at the disciple in front of him, with a trace of envy and admiration, and continued: "He is the greatest existence of your people on earth, the Lord of Chaotic Origin."

"Ah..." Shi Zhongtian was completely stunned.

"Apprentice, your luck is coming. The Lord of Chaotic Source is interested in you and intends to accept you as a disciple. However, there is still a test before that. The identity of the named disciple."

"I ask you, are you willing to become a disciple of the Lord of Chaotic Source?" The Lord of Dry Witch said solemnly.

[Chapter 723: Named disciple](#)

Shi Zhongtian was startled, and then the blood boiled. He only felt that the blood was rushing to his brain and his head was blinded.

What a powerful existence is the Lord of Chaotic Source?

His deeds, Shi Zhongtian, who was born on the earth, grew up in cultivating all the way, and his ears were full of cocoons.

This is definitely one of the pinnacle of existence in the human race!

Although his "Tongtian Chaos Monument" ranks not high among the 54 Chaos Monuments, he can't even enter the top ten. But as a human being on the earth, I have listened to the deeds of the earth leader, the Lord of the Chaotic Source since I was a child, and I admired and yearned very much. If there is a teacher who wants to worship the beginners, the Lord of the Chaotic Source is definitely one of them.

What's more, the teacher, the Lord of the Dry Witch, once said in person that the Lord of Chaotic Source is the absolute supreme existence of mankind today. The myth that the combat power is almost invincible! The words faintly revealed the meaning, it turned out that in the peak existence of the human race, the Lord of the Chaotic Source is now respected, and Shi Zhongtian was secretly surprised.

Now such powerful beings have to accept themselves as disciples, although they are only regarded as registered disciples. But as long as it is a named disciple... in the future, if he performs better, he will also be promoted to a personal disciple.

How could Shi Zhongtian miss such a rare opportunity?

...

Soon after, Shi Zhongtian had walked out of his mansion, and walked along the wide street towards the mansion of the Lord of Chaotic Source in a remote area of Chaos City. Soon, the lord of Chaotic Source in the distant place was majestic and majestic. The government is already in sight.

"As the pinnacle of human existence, the Lord of Chaotic Source lives in such a remote corner." Shi Zhongtian sighed with emotion.

The gate of the "city lord's mansion" in Chaos City has been open, and people often enter and leave the city lord's mansion.

Although the mansion of the Lord of Chaotic Source is majestic, but the gate is closed, obviously not receiving ordinary people.

This is the residence of the Lord of the Universe, and no one dared to bother in Chaos City.

Without the permission of the Lord of Chaotic Source, Shi Zhongtian would not dare to come here to visit him.

Shi Zhongtian walked over, "Dip." The signal detection at the entrance of the mansion swept Shi Zhongtian and did not hinder him, obviously Shi Zhongtian had the right to enter.

"Boom!" The dark door opened, but behind the door stood a burly figure in black armor.

Shi Zhongtian was in a daze.

"You're Shi Zhongtian, right?" There was black mist lingering on the surface, and the horned helmet showed only a pair of **** eyes. Looking at Shi Zhongtian, the invisible pressure made Shi Zhongtian's heart throb.

"Yes, my lord." Shi Zhongtian quickly replied respectfully.

"Well, the master knows that you will come, let me wait for you here. Come with me, and I will take you to see the master." The burly black armor's tone was softened.

Shi Zhongtian followed him obediently, but guessed the level of this powerful existence in his heart.

The pressure on him from the other party was huge, stronger than any immortal king he had ever seen. It is estimated that it should be a super existence.

But this kind of existence seems to be guarding the door for the Lord of Chaotic Source?

The burly black armored existence led Shi Zhongtian through the front yard and heavy palaces, and along the wide corridor, came to a secluded garden composed of red flowers. Shi Zhongtian saw a person standing in the garden pavilion. The figure of the black-haired man in the fire-red robe, his back turned to the two of them, as if he was admiring the scenery.

But when Shi Zhongtian's eyes fell on this person, he felt his soul trembling. At first he saw a figure, and then he seemed to see the endless laws of the universe, as if he saw the birth of the universe and the evolution of all things. All living beings are fighting and fighting...The other party is like the master of the universe, the only supreme existence of the universe, the incarnation of the laws of the universe, and the powerful aura that naturally exudes makes Shi Zhongtian and even the soul completely surrender, and there is no thought of resistance. .

Then the phantom disappeared, and Shi Zhongtian was awakened. Only then did he find that the other party had turned around, looking at him with dark eyes as deep as Ye Xing. In an instant, Shi Zhongtian understood that this person in front of him was the legendary Chaotic Source. The lord.

The Lord of Chaotic Source is wearing a gorgeous flaming red robe without any modification, his black hair is randomly scattered behind him, his skin glows like jade, and his appearance is also the most perfect man ever seen in Shi Zhongtian, which comes from the depths of his soul. His eternal nobility made all creatures feel ashamed in front of him.

"Shi Zhongtian?" The Lord of Chaotic Source said. The calm and cold voice flowed through my heart like a stream of clear water, which made people calm down involuntarily. The eyes are as deep as the endless starry sky, containing the mysterious magic power of black holes, which makes people afraid to look directly.

"Shi Zhongtian worships the Lord of Chaotic Source." Shi Zhongtian knelt down.

"Your performance is very good, and your chances are okay." Wang Yi smiled as he looked at the young man in front of him.

Shi Zhongtian listened respectfully. He knew that the realm in front of him, who was absolutely beyond the venerable cosmos, truly stood in the realm of the most pinnacle group of existence in this vast universe.

But the bottom of his heart panicked, because he felt that the gaze of the Lord of Chaotic Source seemed to have completely seen himself through, and he seemed to have no secret at all.

Of course he didn't know, and Wang Yi knew all his secrets.

Shi Zhongtian's rise to such an achievement today is also because of Wang Yi's whim, and it is also because of this that he will be able to accept the idea of his apprentice.

Shi Zhongtian was created by Wang Yi unintentionally. He didn't mind giving the other party a chance to reach the sky if he could fulfill his requirements.

"You passed through the world master-level primitive Tongtian Mountain, and now you are one of the best geniuses of my human race. I have also watched the video of you breaking through the 20th floor of the sky bridge. , Can be regarded as the supreme genius of this way." Wang Yi said.

"And... you have a fate with me."

Shi Zhongtian, who was listening obediently, was startled.

"You come from the earth, and I am also a strong person in the earth. Naturally, I will pay more attention to you." Wang Yi looked at the black-haired boy in front of him, as if he saw himself...Of course, Shi Zhongtian's experience was more difficult and tortuous than his own, and he even experienced many desperate situations, but he has survived ~www.mtlnovel.com~ From this perspective, Shi Zhongtian is also a determined figure.

Shi Zhongtian was overjoyed, but before he was too happy, he heard Wang Yi say, "Although I accept you as a named disciple, I will not lower my requirements. My requirements for disciples are very high and strict. Are you willing to do so? I'm a named disciple?"

"The disciple is willing." Shi Zhongtian respectfully said.

Wang Yi nodded. Since Shi Zhongtian came, he actually wanted to worship him as a teacher.

He continued: "Since you have enlightened the Heavenly Chaos Monument, it means that you are quite talented in the law of fusion, otherwise you will not have your current realm. I know that you are now cultivating the way of fire and sky beast gods, and I know your teacher. The Lord of Dry Witch has redeemed the secret code of "The Six Paths of Fire and Sky" for you."

"I will give you a test. In 8000 years, if you can practice the third stage of "The Six Paths of Fire" to completion, I will accept you as a direct disciple."

Wang Yi looked at the black-haired boy in front of him and said.

[Chapter 724: The 6 strongest gathered](#)

Somewhere in the universe, a desolate planet without a name.

Six powerful thoughts are condensed into incarnations here, namely the "Dream Demon Ancestor" and the "Shaking Demon Ancestor" of the Demon Race, the Queen of the Zerg Race, the Father God of the Mechanical Race, the Demon Ancestor of the Prison Race, and the Holy Master of the Crystal Race. These six strongest in the universe represent five of the nine superpowers in the original universe.

Mind comes... This is a special method of the strongest in the universe.

Normal ordinary powerful people and even reaching the level of the master of the universe have to rely on the "primitive universe origin". All of them, such as divine power, are endowed by the primitive universe origin. Therefore, the many rules of the universe origin cannot be strong enough. Resistance, because the source of their strength is the "origin of the original universe."

And the strongest in the universe has his own universe! They rely on themselves! Therefore, the "dark universe call" can be easily resisted, and it can exceed the speed of light and remain in the original

cosmic space. It can easily pass through endless time and space, and descend to distant places...Of course, there are also weaknesses.

For example, some talented secrets such as the "availability of clone" granted by the original universe are gone. They no longer have the gift of the original universe, and everything depends on themselves.

"You should all have received the news. Human Luo Feng has returned to the original universe." The Demon Ancestor Shaking roared lowly.

"As soon as he comes back, the Donghe Donghe heritage will definitely be brought back to the human race."

"Yes, the human race will not know how much benefit will be gained from the inheritance of the broken East River."

"Unfortunately, no one in Cosmic Boat could stop the Tomb Boat, and Luo Feng went away without incident."

The strongest in the universe talked a lot. All the words are envy, jealousy and hatred of the human race.

The inheritance of Dongdong River is a rare opportunity for the entire universe. I don't know how many times of reincarnation can be encountered once, but such a precious inheritance is captured by humans. Why are they not jealous?

"I knew that we should have done nothing at all costs. To kill this human Luo Feng, originally thought that the threat of the Lord of Chaotic Source was already great enough, but I didn't expect that Luo Feng would be able to win the inheritance of the East River." There was a trace of regret in his voice.

"This is the end of the matter, and it's useless to regret it. The trouble we are about to face will be even greater." Father Mechanical said calmly.

He glanced around at the many strongest people in the universe. The intelligent and calmest mechanical clan powerhouse in the primitive universe said in a low voice: "The human race has now been inherited, and there is also the guidance of the practice experience of ancient civilization!"

"With training guidelines, I believe that the human race will give birth to more of the strongest in the universe in the future! There were seven God Eye races, and human beings have inherited the ancient civilization. I am afraid that ten or even more of the strongest in the universe will have them. possible!"

"I think you all know what this means!"

The words of the Mechanical Father silenced the strongest in the universe.

The glazed pupils of the holy lord of the crystal clan flowed in brilliance, and the voice buzzed, "In the first reincarnation era, the **** eye clan was extremely arrogant in the primitive universe, occupying a large number of territories. As the human race grows, it is destined to occupy. More territories, more territories, more lives and more geniuses, more powerhouses will be born...more powerhouses, larger territories...In this way, a cycle will be formed and human power will continue to expand."

"Now that the human race has inherited the Donghe lineage, it is destined to be much stronger than that of the God Eye Race. I think the future of humanity will be stronger, and the situation of the God Eye Race back then will be more than tripled!"

All the strongest in the universe can't help shaking.

"This...this is never allowed!" The Demon Ancestor Zhen let out an angry low growl.

At the beginning, the seven strongest of the God Eye tribe occupied a vast expanse of the universe. If it is three times? Four times? Twenty or even thirty strongest in the universe? Three or four times its territory?

The boundaries of the five pinnacle races are all given to humans, and it is not enough! !

"Everyone, this time it's not what we want to avoid." said the mechanical father. "We have nowhere to go."

The strongest in other universes also understand in their hearts that, unlike the strongest in the lonely universe, they all have the burden of the ethnic group and are the pillars of the same ethnic group! leader! They must think about the future of their race.

What is the most important and most needed thing for the ethnic group? Of course it's territory!

After all, the original universe is so large, with fewer essences, and so many potential creatures! The expansion of mankind will naturally be accompanied by the weakness of other races.

Territory is the foundation of their various ethnic groups. As human beings expand, their territory will shrink and decline. This is a natural thing.

This is something they absolutely cannot tolerate.

"Duandonghe inheritance is in the Chaos City of the initial universe of mankind. You all know what the Chaos City is. It is impossible for us to **** the inheritance from there. It will be useless if we go." The Mechanical Father calmly analyzed.

The strongest in other universes also frowned.

The original universe is very special, especially the Chaos City Lord has now broken through the strongest in the universe. With the help of the original universe's power, even if they go together, they will definitely not be pleased.

"Mankind now has the founder of the Great Axe and the City Lord of Chaos, coupled with the Donghe inheritance, ordinary means can not deal with them at all, even if the five parties are united, there is no way." The mechanical father said, "Even so, we We must also unite. Now the primitive cosmic mankind is our common enemy. Even if we cannot get the inheritance, we have to curb the development speed of the human race. Otherwise, when they become stronger, we want to fight with them again. , The primitive universe has truly become the dominance of the human family. Our ethnic power has to retreat. I don't know how many territories can satisfy human appetites. At that time, our ethnic group will inevitably weaken. This, I think everyone too I don't want to see it."

"Yes, the machine is right."

"We must fight humans."

"Total our five parties, there are six of the strongest in the universe, and a greater number of masters of the universe. As long as we unite, we are not afraid of human beings."

"Humans want to be strong, but we just don't let them get what they want."

"As long as we work together, we won't necessarily lose, maybe we can figure out a way for humans to surrender the Donghe heritage."

The strongest in other universes agree.

There are no permanent enemies in the world, only has permanent benefits.

The strongest people or races in the universe are fighting against each other before, or there are feuds between the strongest ones in the universe, such as the zerg, monster, and machine races are adjacent to each other. The enemy... But in the face of the cold reality, everything can be temporarily put down, compromised, and used to deal with a greater crisis.

They all understand that the human race is the greatest enemy! And it will become more and more powerful, more and more terrifying enemies.

Whether it is for the benefit of the ethnic group or to pass on the message to transcend reincarnation, they are bound to fight the human race life and death, thus forming a solid alliance.

Just when the strongest people in the universe are in agreement with their enemies.

"Everyone, my clan got a message from within the human clan before," the Zerg Queen said suddenly.

"It's about the Lord of Human Chaotic Source."

[Chapter 725: Lead the snake out of the hole](#)

"Do you say they will be fooled?"

The virtual universe, Thunder Island, is filled with endless chaotic air currents. At the towering palace, the Lord of Chaos, the founder of the Great Axe, and Wang Yi are walking together.

"The news has been spread through the spies. In order to ensure that the other party is not suspicious, the virtual universe is operated. In addition, we have also carefully arranged it. The most important and hidden secret."

"In fact, it's just a sentence, but the information contained is enough to make the Zerg pay attention."

Chaos City Lord said.

He is the controller of the Virtual Universe Company and the main executor of this plan.

Even the high-level human beings don't know much about it.

Even for this plan, the original ancestor, who has been living behind the scenes in the dark, also used the power of the virtual universe to closely monitor and control the movements of the strongest in the universe in all parties in the original universe, so as to transmit information in a timely manner.

The original ancestor's virtual universe is powerful, covering the entire original universe! Unless it is the strongest person in the universe who speaks the law, he just changes an area and forces the virtual universe open. So in addition to a few areas, there are rare areas of primitive magnitude! As long as it is covered by the virtual universe, it is as if the original ancestor saw it with his own eyes!

The virtual universe covers the entire primitive universe, and monitoring all parties can be forced to retreat, and only the strongest in the universe can do it. In this way...it is easy to monitor some information, as in the past, the original ancestors generally didn't bother to monitor anything. At this moment, it is related to the fate of the human race, so it is natural to constantly monitor and understand the trends of various forces in the entire primitive universe at all times.

As soon as the six strongest in the universe gathered, the original ancestor could naturally detect it through the virtual universe, and immediately sent it to the Chaos City Lord.

"Now, the strongest person in the five universes should know that you got the Sky Tower." The City Lord of Chaos looked at the black-haired man next to him.

"The six pinnacle races of the primitive universe, the only human race that has been inherited by the Donghe River, the other five pinnacle races are naturally anxious, eager to deal with us humans." The founder of the giant axe said coldly.

"Haha...Unfortunately, they would never expect that we have a Chaotic Source in addition to the Broken East River inheritance."

"They won't be able to get the Broken East River inheritance, and now they find that the Tongtian Tower is on Chaotic Source, they will definitely not let this opportunity go easily."

"Hunyuan, are you sure of this action?" City Lord Chaos asked solemnly.

Although he has asked more than once, the Chaos City Lord is still worried, and it can be seen that he attaches great importance to this action.

"Don't worry, those who are the strongest in the universe can't help Chaotic Source." The creator of the giant axe sighed beside him. "Have you seen it? Even if it is me, Chaotic Source's true strength can't hurt him. Those who are the strongest in the universe are far inferior to Chaotic Source. It would be nice to be able to escape under the hands of Chaotic Source."

"This action depends mainly on the results of the battle. If the best in the universe of the five major races can be solved, then..."

Both the founder of the Great Axe and the Chaos City Lord couldn't help trembling in their hearts.

In the primitive universe, their human race will be the only one! No more constraints and resistance!

However, this premise is to keep the best in the universe from the five parties!

And in the event of being escaped by the strongest in the universe and hiding in a small universe, the human race would have to scrupulously deal with one of these forces, and it is impossible to be unscrupulous. The power of the strongest in the universe cannot be completely extinct at all. Unless it is destroyed together with the small universe of the strongest in the universe, it can eliminate the roots and prevent future troubles.

"Don't worry, leave it to me." Wang Yi's eyes flashed with cold light under his black hair. "If they don't come, don't want to go back easily."

This is also the simplest and rude plan that Wang Yi thought of, to lure the strongest in the universe from the five pinnacle races, and then destroy them, in a single effort!

Otherwise, confront these forces in the primitive universe and slowly grind, and I don't know how long it will be entangled. During this period, other forces in the universe may intervene. So that the human race cannot develop at ease.

And now, there is a chance. As long as we eradicate all the strongest of the five pinnacle races this time, even if there are some cosmic masters left in their races, they will not be able to set off any storms and cannot fight against the human races. They are destined to be humans. The ethnic group is destroyed and expelled, and it can only be eliminated if it does not give in.

However, only Wang Yi, who is now extremely powerful, can do this. After all, the universe's strongest among the five pinnacle races, even the original ancestors of the time would not be able to survive.

But Wang Yi, with a clone and a treasure, can do this step.

"Now, it depends on whether the five parties will take the bait and how many of the strongest in the universe are attracted." Wang Yi meditated.

...

Quiet starry sky, on a desolate planet.

When the Zerg queen confided that Wang Yi had the Tower of the Sky, the strongest in the universe were both shocked and unsurprising.

After all, Wang Yi has a palace of the strongest treasure, and they have long suspected it.

But at the beginning, they were uncertain whether they were on the Tongtian Tower or the Star Tower.

And now, from the Zerzu queen who personally confirmed that the Lord of Chaotic Source has a Tower of Heaven, those who are the strongest in the universe have their own thoughts.

Although the Star Pagoda is important, the Tongtian Pagoda is the real priceless treasure. Those who have experienced the magic of the Tongtian Pagoda well understand the preciousness of the Pagoda, and they also know that the Tongtian Pagoda has the secret of transcending reincarnation.

How does this make them uneasy.

When the Tongtian Pagoda disappeared, all parties mobilized all their forces to search madly, but they just couldn't find it.

And now, knowing that the Tongtian Pagoda is on the Lord of Chaotic Source, the greedy mind of the strongest in the universe can't be restrained.

"Queen, is your news reliable?" The Demon Clan Demon Ancestor Zhen Yao was excited with a trace of suspicion.

"Of course it is reliable. This is the news from the most important chess piece arranged by our clan within human beings. There will be absolutely no fakes." The Zerg Queen said firmly.

"Everyone, we don't need to think about the inheritance of Donghe River. Even if we try our best to get it, it may only be the most superficial piece of information. It will not help us to transcend reincarnation." The Prison Clan Demon Ancestor said violently. "As for the Tongtian Tower, you have all personally experienced it. I'm afraid it's not inferior to the precious heritage of the Duandong River. What are you still hesitating about? This is our last chance."

The six strongest men in the universe looked at each other, and they were all moved.

Beyond reincarnation, no one can resist this temptation.

"We will join forces with the strongest people in the five parties and six universes, and we will take action together, grab the Lord of Chaotic Source, and take the Tongtian Tower over, how about?" The God of Mechanical Father suggested.

"The six of us work together. No matter how powerful the Lord of Chaotic Source is, it is only the Lord of the Universe. As long as the human race does not rescue them in time, will they be caught?"

"Yes, we joined hands."

"As for how the Tongtian Tower is distributed, we will wait until the Lord of Chaotic Source is caught."

The strongest in the other universes immediately agreed to the proposal of the Mechanical Father God.

Grab the Lord of Human Chaotic Source!

As for after catching? At that time, it is certain that there will be a fight among the strongest in the universe. But this is all for the future.

Now, nothing is more important than grabbing the Lord of Chaotic Source and winning the Tongtian Pagoda.

[Chapter 726: Praying mantis catching cicada](#)

The seemingly calm surface of the primitive universe is actually undercurrents surging.

After Luo Feng brought the Broken East River inheritance back to the original universe, the news was generally spread throughout the universe, and the eyes of countless forces fell on the human race. They are all thinking about what methods can be used to obtain inheritance from the human race.

Of course, there is no way for them. The only ones who can really blend in are the strongest in the universe, but they also have no way to break into the original universe and grab the inheritance from Chaos City.

The strongest in the universe has nothing to do, and other forces can only drool at the sight.

At this moment, no one knew that the strongest of the five peak races in the universe was secretly planning a conspiracy.

The Yan God race is a group that lives in a remote place far away from the territory of mankind, and is a group that owns a huge secret realm of the universe!

Three continents surround the center of the void palace group. In the tallest main hall, Emperor Yan is sitting on his throne with a gloomy expression, and his mood can't get worse.

"Humanity actually got the inheritance of the Donghe River!"

"My little brother Luo Feng got it!"

"Damn it!"

Emperor Yan was very angry, and anger spurted from his terrifying eyes.

This is the crazy inheritance of many forces in the universe! The hope of transcending reincarnation!

The most important thing is that the human race he hates most, and the most hostile Monroe Peak is given to him!

How can Yan Di accept this?

The breath of anger rolled in the palace like a stormy sea, and the guards outside felt the anger of Emperor Yan, and they did not dare to breathe.

At this time, Emperor Yan already had a faint regret in his heart. If he was not so conceited and betrayed the human race, then now he also has the opportunity to contact this extraordinary heritage, right?

Unfortunately, there is no if in this world.

"Teacher Zuoshanke should be able to get the inheritance, right? But Teacher Zuoshanke, I'm afraid that he won't hand over the inheritance to me." Emperor Yan knew it well.

Before Jie Jia's matter, he had put Luo Feng together, and there was a junior brother who had always been wrong with him from it.

At the thought of this, Emperor Yan was even more unwilling.

And as unwilling as him, there are many others.

The nine superpowers of the primitive universe, the five pinnacle races and the Star Behemoth Alliance, the Ancestral Gods, and the Northern Frontier Alliance are all coveting this heritage. The twelve top powers, the Nine Regions Alliance, the Peak Alliance, and the Night Fire Alliance... are equally incomparable. Coveted, and other small and medium forces are even more jealous and crazy.

But the human race, as one of the most powerful forces in the universe, and the existence of the two most powerful forces in the universe at the same time, not everyone can make an idea.

Some people of insight, realizing that this is not possible, have already begun to unite the idea, rushing around to persuade them to see if they can get a little cheaper, for a time, the entire primitive universe is raging, rumors are everywhere, and there is a lot of excitement.

The human race also put a leg in it, mixing up the muddy water.

If you want to unite, then I will destroy it.

Anyway, for a while, all parties were attracted by the inheritance of the human race, and no one noticed the small actions of the five pinnacle races.

...

The territory of the human race remains as calm and calm as ever.

Although there are no more spies from all sides in the territory of the ethnic group, it is not so difficult for them to enter the Chaos City.

And under the control of Chaos City Lord, no one can make waves.

Wang Yi, who is still cultivating as before, occasionally accompanies his family and gathers with friends, and seems not at all concerned about the possible attacks of the five pinnacle races at any time.

Strength is the confidence of everything.

Now Wang Yi has this confidence.

In his opinion, the five pinnacle races are already the grasshoppers after autumn, and it won't be long before they jump.

The most important thing is to improve yourself.

And the human race is getting the inheritance of the Broken East River and a large number of treasures, and many powerful people have also begun to work hard. In order to deal with the changing situation of the primitive universe at any time, they even used the small universe of the founder of the Great Axe to accelerate time.

Luo Feng also made the first transaction with the East Emperor Holy Land and obtained two Xeon Treasures, both of which were useful to him.

This time, of course he didn't need to return to the ethnic group, he could choose the Xeon Treasure that was useful to him.

As for how Dongdi Holy Land would react after being deceived, that was Luo Feng's business.

Time was like an arrow, and more than a thousand years passed after Luo Feng returned to the primitive universe.

As for the ancient and powerful beings in the universe, this little time is nothing but a nap, not worth mentioning.

But for the five pinnacle races who secretly wanted to win the Tongtian Tower, so as to stand up, it was anxious. Countless spies sent the message back.

"Master of Chaotic Source, there is no movement yet."

"He still stayed in the human domain, in his home, the Milky Way galaxy, and didn't go out."

"Cosmic Sea, no trace of his clone activity has been found yet."

"Damn it, this Chaotic Source has been squatting in human territory, not going out for activities."

"He doesn't go to the universe, or the original universe, we can't do anything with him."

The strongest in the five universes, including the Monster Race, Zerg Race, Machine Race, Crystal Race, and Prison Race, are all anxious.

Time is on the side of humans, and the longer time delays, the better for humans.

Although this secretly established alliance of five races wants to suppress humanity, they also understand that it is difficult. They have not made a real determination to fight humanity. After all, once a war begins, it is the moment to determine the fate of the race. Before the last moment, no one dares to do it. Kind of determination.

Especially human beings and the founders of the Great Axe and the Chaos City Lord, there is no way to completely eliminate them. Even if they are suppressed, the effect may not be good. The most important thing is that they can't get what they want.

In the future, the human race may still be able to transcend reincarnation, that is, there may be fewer strong births, but the demons and other races will have to disappear after the three reincarnation ages, so they can't accept it thinking about it.

But if you can grab the Tongtian Pagoda, then it is possible to transcend the hope of reincarnation. Even if continuing to fight with humans is only limited to the territory of the ethnic group, rather than overwhelming the fate of the entire ethnic group, it is fighting a war without a future.

If it wins, the human race can withdraw from the primitive universe at most, and it is almost impossible to hand over the inheritance. The human race or lose the territory, but the main peak power of the race is still there, and there is still a chance to transcend reincarnation, and the other forces are all finished in the end.

Not to mention losing, UU reading www.uukanshu.com. The com human race will be oppressed, and their living space in the primitive universe will be greatly reduced, and all parties will eventually die out tragically.

This has to be said to be a kind of helplessness. Whoever keeps them from breaking the Donghe heritage, the initiative lies entirely with human beings, and they can only be forced to make the most advantageous choice at the moment.

So...for the five pinnacle races, Wang Yi's Tongtian Pagoda is actually the last straw they can grasp.

In the eager expectations of the five pinnacle races.

Two thousand years after Luo Feng returned to the original universe from the Universe Sea.

On this day, a news came, so that the spirits of all parties were lifted!

"The Lord of Chaotic Source, leaving from the human domain alone, will enter the universe through the Toya black hole."

The opportunity is here!

[Chapter 727: Siskin behind](#)

Virtual universe.

Under the shining of the endless dark starry sky, on this piece of land suspended in the endless void, on the stone chairs on both sides of the long stone table in front of the simple and magnificent Great Axe Temple, one by one, vast and powerful figures sitting there, with piercing eyes, Hot and scary.

Nearly 40 powerful people from the human race gathered together!

At the very front of the long stone table is the founder of the Great Axe, the Lord of Chaos City...and Wang Yi.

And Luo Feng, sitting beside them.

"Everyone, this is the next battle that will affect the situation of our human beings in the primitive universe!" The savage man with beatles exuded a powerful aura, his sharp eyes penetrated from under the messy bangs, his tone was sonorous and powerful!

"It is entangled with other forces in the primitive universe, and continues to fight for countless years, delaying the development of our human race."

"It's still in one fight! Kill the universe's strongest of the five pinnacle races, eradicate their roots, and let my human race dominate in the primitive universe! No matter what, in our hands, human beings will become the strongest in the primitive universe. Even the most powerful party in the future universe! And all this depends on you today!"

All the masters of the universe here are full of enthusiasm.

"The news has spread. The six strongest in the universe from the five pinnacle races should all be waiting for you on the other side of the universe." Chaos City Lord said to Wang Yi. "Everything depends on you, Wang Yi. We will also do our best to support you."

Wang Yi nodded slightly, "Look at me." His eyes were full of warfare under his bangs.

In this battle, with mental arithmetic or unintentional, the human race will use all the power it can use.

This is a once-in-a-lifetime opportunity!

Once the five pinnacle races with the strongest in the universe are resolved, it is equivalent to removing the five pinnacle races. From then on, there may only be one pinnacle race in the primitive universe, that is, humans!

In reality, Wang Yi has already set off from the territory of mankind and headed to the universe.

And this news was also spread through spies who remained in the human domain of various races.

...

"Toya Black Hole! As we expected, the Lord of Chaotic Source went to the Universe Sea through Toya Black Hole this time."

In the starry sky somewhere in the primitive universe, six great ideas gathered together, all of them ecstatic.

In fact, it is not difficult to guess that humans will enter the universe through the Toya black hole.

After all, there are two ways to enter the universe from the primitive universe.

One is to enter the space interlayer and teleport until it reaches the end of the space interlayer, penetrating through the endless cosmic membrane wall!

Although the barrier of the cosmic membrane is strong, the Lord of the universe can break through that membrane.

The second method is to leave the primitive universe through this Toya black hole.

According to the analysis of intelligence data collected by various forces, the probability of the Lord of Chaotic Source leaving the Toya black hole is extremely high.

Because people have inertia and are accustomed to using convenient and fast methods, who would specifically make detours.

It is undoubtedly the fastest and easiest to get out from the Toya black hole.

Knowing when the Lord of Chaotic Source will leave is the key.

And this is what all parties were most worried about before, but now they don't have a headache.

"Since the traces of the actions of the Lord of Chaotic Source have been discovered, it should not be too late, then let's set out now."

"According to the pre-determined plan."

"Everyone, this is probably our last chance. Don't keep hiding anymore. If you have any means, use all of them and do your best."

"You can only succeed but not fail."

The six strongest in the universe, their true bodies all set off for the first time.

The six strongest people in the universe are not together, but three are near the Toya black hole, and the other three are at the exits of other primitive universes that are closest to the human border.

In a remote place in the primitive universe, there is a huge black hole. The black hole has already plunged the surrounding vast star field into darkness.

A nearby area is faintly distorted in time and space, and even the Lord of the universe can't find it without careful investigation.

"The Lord of Chaotic Source is coming over soon." Meng Yao Ancestor's huge snake eyes passed the cold killing intent.

"According to the plan, Dream Demon Ancestor." Mechanical Father God transmitted voice.

"It's up to you to test...If we find that there is a tower of Tongtian on the human body, we will come over immediately."

"good."

And their plan, speaking of it, is actually very simple.

This time all parties have made various preparations in advance. To be on the safe side, let a universe master or the strongest person in the universe pretend to be the active hand of chance encounter and Chaotic Source. Once they find that the Tongtian Tower is on the Chaotic Source Lord. , The strongest in other universes will show up as planned and besiege together!

The strongest of the six universes will take action together, and be sure to take down the Lord of Chaotic Source in the shortest possible time, so as not to allow the human race to have any chance of rescue.

But... the premise is that the Tongtian Tower is on the Lord of Chaotic Source.

After all, the real purpose of all parties is the Tongtian Pagoda in the Lord of Chaotic Source. If the Lord of Chaotic Source does not carry it with them, they will not be able to do it.

"Wait for him to pass through Toya's black hole before doing it."

"He can't run here in Toya Black Hole."

"This time, we must let him come and go."

Several unscrupulous people in the universe hide their figures across the Toya black hole, hiding infinite murderous intent.

At the same time, there are other eyeliners arranged by them near Toya's black hole, in case the situation changes, and they can't react.

Almost every aspect has been considered.

It can be said that for this time, the five pinnacle races are also very deliberate and painstaking.

After a while—

A figure appeared from a distance, flying towards the huge black hole.

"Here, the Lord of Chaotic Source has appeared!"

"Attention, he has entered the Toya black hole."

"Everyone is ready."

"Demon Demon Ancestor Meng, you have met that human being. He should be the least wary of you, so you can test him."

In the cosmic sea, chaotic air currents are drifting, and there are several distortions in the depths of time and space.

The six strongest men in the universe, including the God of Mechanical Father, the Queen of the Zerg, the Demon Ancestor of the Demon Earthquake, the Demon Ancestor of the Dream Demon, the Demon

Ancestor of the Prison Race, and the Holy Master of the Crystal Race, all shook slightly at the same time. exit.

"call!"

Soon, one of the membrane walls of the entire primitive universe was also torn apart by this twisting force to form a hole with a diameter of nearly 10,000 kilometers. A figure flew out from the entrance of the cave.

"It's him!"

Many of the strongest people in the universe concealed their spirits.

Behind three pairs of wings, dark red armor, and swords on his back, the momentum is soaring, UU reading www.uukanshu.com is the master of the chaotic source of the human race.

And not far away, in the diaphragm of the primitive universe, there was another huge silver figure "just in time" rushing out.

She also "coincidentally" saw the human figure coming out of the hole in the membrane wall.

"Master of Chaotic Origin! The last good thing your human race giant axe did." The silver-white snake roared angrily and rushed over.

"Meng Yaozu! Long time no see!" The Lord of Chaotic Source was not afraid, unavoidable, and let out a hearty laugh.

This is also good for those who are the strongest in the universe. Let the Dream Demon Ancestor do it alone. Obviously, the Lord of Chaotic Source, who is powerful and has the strongest palace guardian, will not have too much sense of crisis.

What Dream Demon Ancestor had to do was to force out the strongest and most precious palace from the Lord of Chaotic Source.

Once confirmed, all of them will do it without hesitation.

[Chapter 728: Who is the hunter](#)

The two sides started fighting when they met, and there was nothing to say about it.

In fact, this is also the normal state of the universe against the two forces. Unless the strength gap is large, the other party will choose to actively avoid it.

And under normal circumstances, the strongest in the universe generally won't take the initiative of the universe.

But it was obviously not a normal situation right now, and the Lord of Chaotic Source did not have the slightest conscious that he was the Lord of the Universe. This also made Dream Demon Ancestor and the other secretly lurking strongest people in the universe stunned.

"Master of Chaotic Source!"

In the endless chaotic air current, the body of an extremely large looming silver serpent gradually emerged. This silver serpent continued to stretch at this moment. For a time, it seemed to penetrate the entire chaotic void. It spreads for a length of time. The number of light years, like a monster that descends from nothingness, is terrifying.

Dream Demon Ancestor, has the strongest treasure 'Dream Scale' armor! The armor body protects, the defense is extremely strong, the general strong person changes the divine body, all changes to the normal size. It will not deliberately increase indefinitely...that will only weaken the defenses sharply.

But it is the strongest person in the universe, and its own divine body is extremely powerful. Only the suppression of the primitive universe can only show the divine power of the lord of the universe tens of thousands of times. Second, there is the strongest armor!

When the two are superimposed, of course it dares to grow big divine body recklessly.

It can be seen that Meng Yaozu's self-confidence clearly believes that Wang Yi can't hurt her.

"Meng Yaozu!" Wang Yi looked fearless.

"boom!"

Wang Yi also opened his six gray wings, and the endless gray light instantly enveloped the surrounding ten light-years. At the same time, the treasure of the Xeon Realm, the "Prison Flame Realm", was also unfolded. For a time, the entire chaotic void was filled with endless hot red flames. , The fiery flame and the gray light combined to form an extremely powerful bondage, directly tied to the dream demon ancestor.

Dream Demon Ancestor looked at the fiery flames surrounding a sea of blood. The endless blood-colored flames and gray rays produced monstrous pressure. The pressure was so strong that it was shocking to hear. The natural pressure alone was enough to make a cosmic deity. The people were wiped out in ashes.

The gray country, the world of prison flame! The combination of the two will overwhelm and expel all the treasures of the pinnacle domain in an instant. If the treasure of the Xeon domain has not been born, the gray kingdom and the prison flame world will be called invincible in the domain.

The Dream Demon Ancestor's "Dream Ancestral Domain" was overwhelmed and defeated in an instant.

"What a strong domain!" Dream Demon Ancestor roared, "Master of Chaotic Origin, you are a mere master of the universe, you don't deserve to have such a treasure!" Wow! The Dream Demon Ancestor moved instantly, and even under the constraints of the hostile Xeon Supreme Treasure Domain, the attack speed was still terrifying fast. She is no more than a million kilometers away from Wang Yi, and the distance is obviously extremely short. With a light sweep of her tail, she can touch Wang Yi.

In order to prevent being discovered by the Lord of Chaotic Source, several of the strongest people in the universe were hiding far away, watching with excitement at the battle between the Dream Demon Ancestor and the Lord of Chaotic Source.

"Okay, then the humans and the Dream Demon Ancestor have begun. Once they are closely entangled by the Dream Demon Ancestor, it will be difficult for humans to get rid of them."

"The Demon Ancestor of the Earthquake has returned to the original universe from another path. Now at the entrance of the Toya black hole in the original universe, the back road has been blocked. The fastest way for the human race to rescue from the original universe is gone. Regardless of the source of chaos it is impossible for the Lord to return the same way, or for human beings to rescue."

Good news came one after another, making the best in the universe of the five major groups excited.

On the battlefield, the battle between Wang Yi and Meng Yaozu was also in full swing.

Wang Yi's current divine body has also changed to a million kilometers high, and the dream demon ancestor has also become ten million kilometers. This is the most suitable body shape for its true strength. When the dream demon ancestor's tail is drawn, Wang Yi is With a cold snort, the dark red stone knife in his hand soared sharply, reaching a huge one million kilometers, and then he slashed out fiercely and resolutely!

"Peng!!!" The endless chaotic air flow rolled away, divine power shaking!

For a time, the time and space shattered, and the dark red stone knife directly hit the Meng Yaozu's tail. Meng Yaozu was shocked and flew backwards, and the Lord of Chaotic Source also flew upside down a little.

"This, this is..." Meng Yaozu widened his eyes in surprise.

The group of the strongest in the universe who stared in the distance was also astonished.

"This....."

"Meng Yao Ancestor actually can't fight the opposite Chaotic Source Lord?"

"This is the Universe Sea, and it doesn't have the limitation of the sixth-order top attack power of the Primordial Universe. The blow of the Dream Demon Ancestor just now absolutely exceeded the limit of the Primordial Universe... But the Lord of Chaotic Source actually blocked it!?"

The mechanical father god, the Zerg queen, the crystal tribe holy master, the prison demon ancestor, and several of the strongest in the universe were shocked.

A master of the universe can actually face the strongest person in the universe without losing the wind. They have only seen this kind of scene in their lives.

"The strength of the Lord of Chaotic Source is actually so strong?" Meng Yaozu was a little unbelievable. Even when she first broke through the strongest in the universe, she wasn't so good, right?

"Dream Demon Ancestor only has the Xeon Supreme Treasure Armor on him, so in comparison, he lacks attacks, plus he is in the opponent's domain, and is weakened, but it is close to the eighth rank, and the strength is not much worse than ours..." The strongest person in the universe was secretly shocked, and suddenly felt a little worried. Can he really take down the Lord of Chaotic Source this time?

Of course, the current strength of the Lord of Chaotic Source could not resist the joint efforts of the strongest in the universe, but the sudden display of such a strong strength also worries the strongest in the universe.

They took the risk this time to attack the Lord of Chaotic Source.

"I don't believe it. You are the master of the universe. You can still go against the sky." Meng Yaozu's eyes reddened. It turned into silver lightning again, soaring speed, and rushed towards the Lord of Chaotic Source.

This time, she even used her own thought power "Magic Island Vine" at the same time. Suddenly, there were countless snake shadows in the void. It was countless vines, crowded and crowded toward the Lord of Chaotic Source~www.mtlnovel.com~ The sea is like a tide, but under the weakening of the Xeon domain, the power is greatly reduced, but the number is too much. Although Wang Yi can split, the offensive is affected to some extent.

"I am the strongest person in the universe, supported by a small universe, my divine power is far stronger than you, and the Xeon Arcane armor. You can't hurt me, but I can kill you. Even if you have the Xeon domain, I can instantly enlarge the divine body, shorten the combat distance, so that you can't get rid of it! You can't escape, the Lord of Chaotic Source!" Meng Yaozu frantically attacked towards the Lord of Chaotic Source, and roared in his mouth at the same time.

Of course, although her words are threatening, they are also truthful, but in fact they also have the meaning of forcing the Lord of Chaotic Source to use the Supreme Palace.

"Meng Yaozu, you take it for granted. I'm not afraid of you." The voice of the Lord of Chaotic Source rang out mightily in the endless **** sea of fire.

"But it's boring to fight you, I won't pester you."

A black iron tower appeared beside Wang Yi, and immediately Wang Yi flew in, ignoring Meng Yaozu.

The Meng Fairy Tail drew fiercely on the black tower, but the shock force surprised her.

"What a strong defense! This is the palace treasure of the Lord of Chaotic Source?" Meng Yaozu was not surprised but delighted.

She carefully observed that they had already collected information on the palace of the Lord of Chaotic Source, and Wang Yi hadn't deliberately changed its appearance this time, so she could easily recognize it as the black palace that Wang Yi used most often.

Regardless of whether it was Tongtian Tower or not, they could not wait any longer.

"Appeared!"

"Yes, it's the palace!"

Several of the strongest in the universe who had been waiting for a long time in the distance became excited at the same time.

"Everyone, what are you waiting for? Let's do it together!" There was a fierce light in the eyes of the Prison Clan Demon Ancestor.

It's time for them to play!

[Chapter 729: 1 person is enough](#)

In fact, it would be best if Wang Yi could be stopped before he hid in the palace.

But if it doesn't work, it can be suppressed by force.

The five pinnacle races add up to the six strongest in the universe. Even if they suppress one of the strongest in the universe, they have some certainty. They think that it is easy to suppress the master of the universe who is not the strongest in the universe.

In the Universe Sea, it is very rare for the strongest in the universe to attack the Lord of the Universe alone, let alone besiege one of the six strongest in the universe like today!

This is definitely Wang Yi's honor!

"Boom!" When the huge body of the silver-white serpent was wrapped around the black iron tower, five powerful waves erupted in the distance, one of which came from the Toya black hole behind him, and the other four came from the edge of the battlefield.

Here, the four strongest people in the universe appeared at the same time, and they broke out with earth-shattering fluctuations, killing them violently.

Opposite the Toya black hole in the other direction, the Demon Ancestor of the Earthquake also appeared, blocking the black hole area with a diameter of tens of thousands of kilometers, preventing anyone from coming over, and of course preventing the Lord of Chaotic Source from escaping in this direction.

Catching turtles in the urn.

There is no way to escape.

The snake body of Meng Yaozu is still entangled in the Tongtian Pagoda. The Tongtian Pagoda becomes bigger, and she also grows bigger. Of course, she can't eat the Tongtian Pagoda, but it can still affect the Tongtian Pagoda. After all, the Tongtian Pagoda is not a tomb. The Mausoleum Boat has mechanical power to fly with that terrifying power. At the beginning, dozens of the strongest in the universe could fly back safe and sound, even in some dangerous desperate situations for the strongest in the universe. As if walking on the ground, the Tongtian Pagoda is a treasure that belongs to his own control, and Wang Yi's divine power cannot support such a huge consumption.

Of course, this is the dream demon ancestor they want to come.

In fact, there is a treasure of origin, and Wang Yi's reserves of divine power are far beyond their imagination.

Wang Yi also discovered that the Universe Sea does not seem to have emerged from the original Xeon.

"Lord of Chaotic Origin, hand over the palace treasure, we can let go of your divine body, and we will not move your other treasures at all!"

The enchanting and seductive voice of the Zerg Queen came.

"Otherwise, you just wait to be suppressed by us." Father Mechanical answered.

Their main purpose is the palace of the Lord of the Chaotic Source. As for the Lord of the Chaotic Source... I am afraid that this is just a clone of him. Even if he is left behind, the Lord of the Chaotic Source will only lose a clone of the **** body and the treasure. It is better to let him Take the initiative to surrender, and avoid long night dreams from influencing their plans.

"The mechanical father **** of the mechanical race? The demon ancestor of the prison clan? The holy master of the crystal clan? The queen of the Zerg clan? Plus the dream demon ancestor of the demon clan... If I'm not mistaken, the one behind is the demon ancestor of the demon clan, right? Wang Yi's voice came in a low voice, "Tsk tsk, what day is today for the strongest people of the five pinnacle races to come and surround me, a man of the universe? There is nothing in me that is worthy of such a great effort. Something?"

"Inheritance? You should know that it's not with me. I'm afraid of finding the wrong person. I advise you to find Luo Feng." Wang Yi is still in the mood to tease with the strongest guys in the universe.

In the primitive universe, someone sneezed severely.

"Stop talking nonsense, Lord of Chaotic Source, we already know that the strongest palace in your body is actually the Tongtian Tower that once appeared and disappeared on the battlefield outside the territory, right?" The Prison Clan Demon Ancestor sneered. "Hand over the Tongtian Tower obediently, otherwise you will be suppressed by us today. We have six of the strongest in the universe here. Do you think you can escape? Be interesting, don't struggle in vain."

"Tongtian Tower? What Tongtian Tower?" Wang Yi said.

"Forget it, it seems that it is impossible for him to take the initiative to hand it over." Several of the strongest in the universe shook their heads.

This is actually what they expected.

"Do it."

Here are the five strongest in the universe, and there are three of them with the strongest treasures.

Mechanical father god, dream demon ancestor, Zerg queen.

Therefore, the strength of these three is also stronger than the Prison Clan Demon Ancestor and Crystal Clan Saint Principal.

However, the mechanical **** father and the Zerg queen are one-to-one, and they are stronger than the demon ancestor Zhen Yao ancestor and dream demon ancestor.

That is to say, the six strongest in the universe are ranked according to their strength, the mechanical father god, the Zerg queen, then the dream demon ancestor, and the shock demon ancestor, followed by the prison demon ancestor and crystal clan holy master without the strongest treasure.

And this shocking demon ancestor did not come over at this time, it actually mainly prevented the Lord of Chaotic Source from escaping back to the original universe, and prevented the rescue of the human race from coming.

This is very important.

After all, once returning to the primitive universe, everyone's combat power will be limited to the top of Tier VI. At that time, it is almost impossible to seal and suppress the Lord of Human Chaotic Source, which is equivalent to a failure of this operation.

In the Universe Sea, although the strength of the divine power is still limited, the strongest person in the universe is the master of the universe ten thousand times the perfect genetic level, but there is no upper limit to the strength.

Seventh, eighth, and even higher levels are all possible.

This is also one of the reasons why they chose to ambush the Lord of Chaotic Source in the Universe Sea.

It was really in the Primitive Universe, and they couldn't do anything to get the Lord of Chaotic Source.

The huge purple sphere flew over. The Zerg queen, who owns the supreme treasure of the palace, is called "Queen's Nest", "Queen's Palace", "Queen's Palace" and many other terms.

But the elliptical black sphere was motionless. I saw the huge black elliptical sphere, and suddenly shot out a row of rickety figures, with a total of 10081 rickety figures, instantly killing in Wang Yi's direction.

This is the Puppet Legion of the Mechanical Father God, with a total of 10,081. According to human data, when the Mechanical Father God roamed in the universe, the strongest eruption was only to dispatch 9,000 puppets. And this time using all of it, obviously intending to go all out.

Wang Yi saw at a glance that the father **** of the mechanical race should have followed the tactics of the sea in the ancient civilization's "mechanical flow".

And the "Queen's Palace" of the Zerg Queen suddenly revealed a huge abyss. At the entrance of the abyss, there are densely standing figures. They are a large number of Zerg warriors, each of which is not lower than the Venerable Universe. It's so scary. Compared with the number of sages in the universe of the human race, it's almost insignificant, and it's not even a fraction. It exudes overwhelming wave pressure.

The combined attack technique of the Zerg Legion is also famous in the universe, and it is extremely powerful.

Both races are good at mass sea tactics, but the mechanical race is more proficient in precise control and tactical formulation, so that every unit can perfectly exert its combat power, while the Zerg race pays attention to the collective power of the worm sea and does not care much about loss.

Regardless of whether it was the Zerg Legion or the Mechanical Puppet Legion, an overwhelming attack broke out at the same time, sweeping directly towards the Tongtian Tower in a mighty and mighty manner. The mighty power makes any master of the universe tremble.

The Prison Clan Demon Ancestor and Crystal Clan Holy Master also used their own attack methods at the same time, blasting towards the Tongtian Tower.

They don't care about the Dream Demon Ancestor who is still pestering the Tongtian Tower. One is that the Dream Demon Ancestor has a strong and extremely powerful armor, and the other is that they will take the initiative to avoid the Dream Demon Ancestor, and the main attack range is still the Tongtian

Tower~ www.mtlnovel.com~ No matter how strong these attacks are, they can't hurt the people inside. But their purpose is not here.

"Bump him into my palace." The Zerg queen became excited.

She also manipulated her own queen's palace and tried to swallow it up.

This time, all parties acquiesced that the Zerg Queen suppressed the Lord of Human Chaotic Source.

As a guarantee, the Zerg mother emperor and the masters of the universe act as hostages in other parties, and the Zerg must share it after obtaining the Tongtian Pagoda.

There is no other way. They have to compromise. There is no better way. They can only do this. In order to transcend reincarnation, they are also able to fight.

"hehe....."

At this moment, Wang Yi's cold laughter, who had been silent, suddenly came out, full of ridicule.

[Chapter 730: What about 5 on 1?](#)

The other strongest in the universe are doing their best to attack, and the Zerg queen is also excitedly swallowing Wang Yi's dark thing that makes her salivate, when she is about to **** it into herself.

Wang Yi suddenly sneered.

"Have you played enough?"

"I'm teasing you, do you really think that the strongest in the universe can run wild? Now let me tell you that the era that belongs to you has passed."

The five strongest men in the universe ignored Wang Yi's mouth, but suddenly a figure appeared in one of the gates of the Tongtian Tower, and the figure swept across a group of super strong men in front of him.

The Father of Machines, the Queen of the Zerg, the Dream Demon Ancestor of the Demon Race, the Demon Ancestor of the Prison Race, and the Holy Master of the Crystal Race were all excited after being taken aback.

"It's the Lord of Chaotic Source."

"He's coming out?"

"Stupid, he actually took the initiative to come forward. Why should he fight the five strongest men in the universe? Is this to die?"

"That's right, he is hiding in the palace, unable to resist, and continuing to consume it will not consume us. In the end, he will be suppressed by the seal. If he comes out, there may be a chance to survive the desperate situation... But this is a delusion."

"kill!"

"Kill the Lord of Chaotic Source!"

"Kill him, no one controls the Xeon Supreme Palace, it's ours."

The killing intent of the five strongest in the universe is boiling.

Before the Lord of Chaotic Source was hiding in the palace treasure, they could not directly attack and harm him, they could only choose the stupid method of suppressing the seal and then take it back, but if the Lord of Chaotic Source came out, it would be easy to do it, just kill it directly. Then grab the treasure of the palace, and even the palace of the Zerg queen is not needed.

Facing the murderous gaze of the strongest in the five universes, Wang Yi calmly glanced, and smiled lightly: "There is an old saying in my hometown, 'Don't say it is unpredictable. I am here to give you one last chance to surrender.' Like us humans, I can spare you from dying."

"After all... Although you don't have much potential and are a little bit of waste, you can still use it as a waste."

The five strongest men in the universe couldn't believe their ears.

Is this what people say?

They all laughed angrily.

"I'm all dying, and I'm not ashamed."

"It seems that he hasn't realized his situation yet."

"It's sad."

"Lord of Chaotic Origin, don't waste time, you, the divine body clone, must explain here today."

Wang Yi shook his head.

"There is a way to heaven, you don't go, and there is no way to hell, you rush to come, why bother."

"In that case, I will send you on the road."

"Oh, by the way, I forgot to tell you, I am the lord of hell. The lord of **** you have been looking for."

"What?" The five strongest in the universe all stayed at the same time.

boom! Wang Yi moved and broke out in an instant. At the same time that Po Kong rushed towards the five strongest in the universe, his whole person began to change in an instant, turning directly into an extremely savage black human-shaped tyrannosaurus with a thick and powerful tail behind it.

Mechanical Flow Treasure-Dark Blood Dome!

combustion!

"Broken Up"!

The first heavy burning of divine power!

The burning divine power instantly penetrated the center of the dark blood dome, transforming, the powerful dark blood dome exuded an endless fierce and fierce aura, and the pressure fluctuations that far exceeded the strongest in the ordinary universe instantly filled the entire battlefield.

"What?" The Mechanical Father God, the Zerg Queen, the Dream Demon Ancestor, the Prison Demon Ancestor, and the Crystal Clan Holy Master were all frightened by the powerful aura that suddenly erupted from Wang Yi.

Wang Yi's current divine body is ten thousand times the perfect genetic level of the Lord of the universe, and is at the same level as the strongest people in the universe.

And he burned the secret technique of divine power to raise his strength to a level.

Dark Blood Vault has increased its strength by two levels.

"Here is the Underworld Sword!"

Wang Yi, who turned into a human-shaped tyrannosaurus black streamer, had cold eyes and stretched out his hand, and the dark red stone knife appeared in his hand again, showing incomparable sharpness.

The mysterious pattern on the above is like a sleeping fierce beast coming back to life, and it makes a whistling sound that shakes the soul.

The stone knife in his hand lit up instantly, and for an instant a prototype of the universe appeared faintly...There were countless stars moving on it, as if the entire universe contained infinite murderous intent, all burst out at this moment, shaking the earth and earth. "Om~~~" As soon as the stone knife came out, the roar that appeared to convey incomparable sorrow and madness in the void, like the sharpest horn of a tyrannosaurus, it rushed forward like a burning life in front of Wang Yi. boom! A sorrowful red light was left in the void.

"The Universe of Knives. The First Birth" is a sixth-order top sword technique, and "The Universe of Knives. Tianyan" is a seventh-order sword technique. Although Wang Yi has been deducing in these years, he has not reached the top of the seventh stage and wants to break through. It's extremely difficult.

The sword technique is a seventh-order secret technique, and it is no longer weaker than any of the strongest in the universe. Adding the amplitude of the "Pluto Sword" increases its power by one level, the secret technique of burning divine power increases its power by another level, and the "Dark Blood Vault" increases its power by two levels. Levels...

Wang Yi's combat power has truly reached the limit of the universe, the limit of the strongest in the universe, and even broke this limit.

How strong is Vaillant? unimaginable.

And his goal is the Prison Clan Demon Ancestor among the five strongest in the universe.

This was also considered by Wang Yi in advance.

Among the few strongest people in the universe who came to besiege him, only the Prison Clan Demon Ancestor and Crystal Clan Holy Master were weaker, and none of them were the strongest treasures. Of course, the persimmon had to pick a soft pinch first.

"What's this?"

The sudden burst of strength of Wang Yi also shocked several of the strongest in the universe. He felt a strong pressure, and even a strong sense of crisis, just like the original ancestor of the first human being who faced the invincible universe. Like, a feeling of irresistibility arises.

"How could the Lord of Chaotic Source have such strength! No, it is fake, it must be fake, a master of the universe, a mere master of the universe..." The Prison Clan Demon Ancestor was still roaring in disbelief, suddenly watching When Wang Yichao came to kill himself, he couldn't help but tremble.

Can it be blocked?

This... he can't seem to stop it.

Although he was full of shock and doubts and didn't want to believe it, the cautious Prison Clan Demon Ancestor turned around and ran towards the direction of the strongest in the other universe. He faced the Lord of Chaotic Source who had suddenly exploded with terrifying power, and felt a little guilty.

fear death? He dignified, the strongest man in the universe, escaped in front of a universe lord?

Even if he is stronger than himself, can he still kill himself.

A strong sense of absurdity arose in the Prison Clan Demon Ancestor's heart, as well as an incomparable sense of humiliation.

But at this moment, a sharp edge that made him stand up quickly approached.

The Lord of Chaotic Source's sword has arrived.

The speed is incomparable, as if it exceeds the limit of time and space, but in an instant, it descends on the head of the demon ancestor of the prison clan.

The Prison Clan Demon Ancestor knew that he couldn't avoid it, but could only block it.

"Damn it!" The Prison Clan Demon Ancestor made a fierce blow~www.mtlnovel.com~ burst into full force, and the magic spear entwined with black energy in his hand blocked the stone knife.

"Boom!" At the next moment, the endless **** knife light exploded in the center with the swing of the stone knife. The extremely violent knife light exploded, causing everything around it to burst, all energy, time and space burst, and that infinite. The endless phantoms of the universe burst together.

It was as if the entire universe was instantly swept into the blade of light and destroyed.

Originally, the power of this knife light had already made the strongest in the universe tremble and fear.

Then something happened that stunned the best in the surrounding universe.

The breath of the Prison Demon Ancestor suddenly disappeared after the explosion.

Prison Demon Ancestor, under a knife...

Fall.
