

## A God 761

### [Chapter 761: Demon God in the beginning](#)

There is a vast space in the deep core area of Chaos Star, and the mighty Yellow River is turbulent and powerful.

This river is very special, entrained with mysterious power, and the time flow of the surrounding time and space is very chaotic under the scouring of the river.

Suddenly, a river surface exploded, and the water waves were terrifying.

"Hahaha..." A burst of earth-shattering laughter came.

The two figures were suspended on the river, and the coercive momentum caused the surrounding time and space to constantly distort and vibrate.

"I'm so lucky, it only took less than ten years to find this key." The 'Devil God of Absolute Beginning' in dark blue armor said happily.

Next to him was a 'Qiu Hu Demon God' dressed in dark red scales, cautiously. "In the beginning of the devil, since the key has been obtained, then according to our original agreement..."

The 'Demon God Qiu Hu' is also very jealous of this key. When he discovered it alone, if possible, he would like to take it alone, but he is not strong enough to do it.

The area where the key is located is constantly changing, Qiu Hu Demon God must hurry up, otherwise the key will soon disappear and can no longer be found.

This is a once-in-a-lifetime opportunity, once missed, it will never come again.

Qiu Hu Demon God had no choice but to ask for help from the Demon God of Absolute Beginning. The two parties agreed that if they got the key and gained something, the Demon God of Absolute Beginning must share it.

The 'Devil God of Absolute Beginning' glanced at it, and those eyes with a gray aura made the 'Devil Qiu Hu' heart tremble.

The Demon God of Absolute Beginning said indifferently: "Don't worry, since I agreed, I won't go against it, but as it is said, I will give you three, and the best treasures must belong to me."

"Of course." Demon God Qiu Hu didn't dare to pray too much, as long as the Demon God of Absolute Beginning didn't leave it alone to explore.

The 'Devil God of the Beginning' ignored the 'Devil Qiu Hu', but looked at the silver key in his hand... It was a key, it was more like a silver sword, but without a hilt, and the smooth sword had mysterious lines on its body. Connected into strange characters, the characters are the characters of the ancient civilization. If Wang Yi sees it, he can recognize it, it is called "Sword of Soochow".

The 'Devil God of Absolute Beginning' rejoiced in his heart. "According to the few words of records circulated in the ruins found inside the Chaos Star, keys can be divided into black, cyan, and silver... There seems to be a higher gold in legend, but no one has seen it."

"The silver key, someone once got it, carry the key, go to the designated place, you can enter a special space, usually there is a big chance!"

"I didn't expect that I was so lucky in the beginning that I could get a silver key." The Demon God in the beginning was also very excited. He is facing the limit of reincarnation and is under great pressure. He is desperately looking for a way to break through, and the legendary silver key in front of him may help him break through.

In the beginning, the Demon God looked at Qiu Hu Demon God next to him again, and his eyes flashed.

"The situation in that space is unknown, so take Demon God Qiu Hu and let him find the way for me."

In the beginning, the Demon God was not so generous. The most important reason why he didn't kick Qiu Hu Demon God was that he wanted a helper.

In fact, when he arrived at the place, he had the key in his hand, and his strength was strong, how could Qiu Hu Demon God be able to compete with him.

Demon God Qiu Hu also knew very well, but the situation was stronger than that of people. If Qiu Hu Demon God wanted to benefit from it, he had to obey the words of the Demon God of Absolute Beginning. Of course, if the Demon God in the beginning is too much, it will not let him handle it. Every strongest person in the universe is unwilling to be sacrificed, and everything is just a matter of interest.

The legendary space benefits are too great, and Qiu Hu Demon God can tolerate it.

As for how to distribute the benefits at that time, whether it will tear up the face, we will talk about it at that time. In the beginning, neither the Demon God nor Qiu Hu Demon God would believe each other's promises at all.

"Huh?" Demon God Qiu Hu suddenly frowned, "That little guy Jing You, why did you contact me at this time?"

Qiu Hu Demon God's small universe.

Swish!

The endless rays of light condensed in the mid-air in front of the Lord of Jingyou, and turned into a four-legged beast with the same dark red scales but even more ferocious, strolling over and looking at the Lord of Jingyou, his voice was low with a strange demon. Voice: "Jing You, what are you calling me for?"

This is the small universe of Qiu Hu Demon God. The strongest person in each universe has absolute control over his own small universe. Anything that happens in the small universe cannot escape their eyes.

Of course, that's just the surface. If a creature is controlled by a soul outside, it would be difficult for Qiu Hu to find out if he didn't check carefully.

After all, the soul is very mysterious. A strong person may practice the secret technique of the soul, and the soul will change, but you can't say that he is controlled, right?

Like now, Qiu Hu Demon God didn't find out that his own clan "Lord Jingyou" was enslaved.

However, if the "Master of Jingyou" has any abnormal performance and reveals his faults, it will be different.

The much smaller dark red beast below knelt down with a clatter of four hooves, raised his head and shouted, "Ancestor save me!"

"Huh?" Demon God Qiu Hu looked at the younger generation of this clan and listened to it, his face gradually showing anger.

A roar resounded throughout the mini-universe.

"Damn, how dare you attack my clan?"

Qiu Hu Demon God was furious, his body was flying like flames, his huge body paced in the sky, and then he looked at the alien beast below.

"Don't worry, Jing You, I'll go to you right away and save you."

"Thank you, ancestor!" The dark red alien beast below was very happy, and lowered its head, but the dark yellow eyes showed a bit of strangeness.

"Master, the mission has been completed."

A heartfelt voice was transmitted from it to the distant master.

...

In the dark earth and the towering mountains with no head in sight, Wang Yi stood on the top of a cliff, listening to the return of the soul servant, and nodded with satisfaction.

"Very well, you did a good job."

Wang Yi didn't care whether the Lord of Jingyou would be exposed or not.

Because whether the violence is exposed or not, Qiu Hu Demon God will be furious, and then come to trouble him.

Wang Yi stared at the dark front.

"Now, just wait for Qiu Hu Demon God to come."

...

"Qiu Hu, you want to go back?" The Demon God in the beginning frowned.

They're going to the keyspace right now.

"Yes, my family was caught by the strongest man in the universe, and I must rescue it." Qiu Hu Demon God had murderous intent in his eyes.

"Don't worry, that place is very close, it will only take less than twenty years to get there, and it won't take too long." Qiu Hu Demon God growled lowly. "I must rescue my people first, Taichu."

"Twenty years?" The Demon God thought about it at the beginning, and said slowly, "If that's the case, I'll go with you."

Now Qiu Hu Demon God can be regarded as a temporary alliance with him. In the beginning, Demon God felt that he was selling his favor, so it would not hurt to have a look in the past.

"Okay."

Demon God Qiu Hu was overjoyed. With the Demon God of Absolute Beginning, no matter who the strongest person in the universe was, he would not dare to be too presumptuous.

Qiu Hu Demon God didn't even ask who the strongest man in the universe was who caught him.

But is there anything more powerful than the Demon God of Absolute Beginning in this sea of cosmos?

The two strongest men in the universe set off immediately.

Both of them ride on the peak palace treasures, turning into two streams of light, tearing apart time and space, causing all the laws of operation to recede, and the speed soars.

The speed is getting faster and faster, and it has already exceeded 100 times the speed of light and continues to soar upwards. 1000 times the speed of light, 2000 times the speed of light... The speed continues to increase.

In a blink of an eye, he disappeared at the end of the space.

as time flows...

In the inner realm of Chaos Star, two streamers pierced through the void with great momentum, and they were astonishingly fast.

"It's just ahead." Qiu Hu said divinely.

"Well." At the beginning of the Demon God's tone was indifferent, he didn't take Qiu Hu Demon God's troubles seriously at all.

Besides, it was not his clan and his subordinates who were caught.

If it wasn't for Qiu Hu, the devil was involved in the next special space exploration, the devil in the beginning would not have come.

On the cliff, Wang Yi sat alone on a huge blue rock.

This place belongs to the "medium danger" area of Chaos Star, but there is no threat to the strongest in the universe, but most areas cannot be detected by the domain, and can only be seen, sensed, and so on.

Therefore, if Wang Yi did not give the coordinates, the two strongest men in the universe would not be able to find him so quickly.

"Huh?" Wang Yi raised his head and looked into the distance. He faintly felt a violent shock coming from the space there.

Immediately, he saw two streamers flying over at a terrifying speed, far exceeding 100,000 times the speed of light. The places passed along the way are mighty and mighty, destroying the dry and pulling the rot, and the power is against the sky.

"Two strongest in the universe?" Wang Yi's expression changed slightly, just by looking at the power and momentum, he knew that the two who came over were the strongest in the universe.

"One should be Demon God Qiu Hu, but who else besides Demon God Qiu Hu?" Wang Yi wasn't too worried, just curious.

"I see. He's right there." Qiu Hu Demon God and Tai Chu Demon God also noticed the figure on the cliff.

"boom!"

"boom!"

The two streamers quickly slowed down, but still stopped in front of Wang Yi domineeringly.

The figure of Qiu Hu Demon God and the Demon God of Absolute Beginning was revealed.

"Qiu Hu Demon God." Wang Yi first casually glanced at the four-legged beast figure wearing dark red scales, and then solemnly looked at another figure in dark cyan armor, his eyes became dignified..." Tai Chu Demon God?" The message sent to him by Palace Master Erhua included the information of all the powerhouses known to the Universe Sea, and the Demon God of Absolute Beginning was the most important one. , Obviously, Palace Master Erhua is also very afraid of this strongest person in the universe.

"According to the message, the Demon God of Absolute Beginning was the strongest in the universe in the first reincarnation era, but his strength reached its peak in the second reincarnation era. He killed two of the strongest in the universe in the first battle. No one dares to fight head-on with the Demon God of Absolute Beginning, and the Demon God of Absolute Beginning rarely takes action, and no one knows how powerful the Demon God of Absolute Beginning is today." Wang Yi secretly said in his heart.

"The Demon God of Absolute Beginning in the second reincarnation era, at least the original giant axe has the strength level of the Xeon Supreme Treasure Axe, that is, the ninth-order top combat power."

"A whole era of reincarnation has passed now! The power of the demon \*\*\*\* in the beginning should be even more terrifying." Wang Yi looked at the demon \*\*\*\* in the beginning, but he was too lazy to take a look at the demon \*\*\*\* Qiu Hu next to him.

Qiu Hu Demon God, although he was his previous target, was too weak!

"This is a formidable opponent." Wang Yi narrowed his eyes.

The Demon God of Absolute Beginning and Qiu Hu Demon God Ye were also observing the tall and tall figure shrouded in divine light in front of him.

They found that they couldn't see through the light, and could only see that it was vaguely human-shaped, and the breath of life was also very unfamiliar, but it was true that they should be the strongest in the universe like them.

The Demon God of Absolute Beginning and Qiu Hu Demon God looked at each other with some doubts.

They almost know the strongest in the universe in the entire cosmos sea, where is the strange strong in front of them?

"Who are you? Why are you arresting my clan?" Qiu Hu said coldly.

In the beginning, the Demon God folded his arms around his chest and looked at him indifferently.

"Hu~~"

The violent astral wind was blowing between the three powerhouses. This wind was difficult to resist even if the lord of the universe put on the supreme treasure armor, but the three super existences did not respond at all.

Wang Yi smiled. Of course, he was enveloped in the radiance of "Hushepi", and the two strongest men in the universe could not see it.

Talk about what? What's there to talk about?

boom!

The whole space was shocked!

Wang Yi's eyes suddenly lit up. The whole person exploded in an instant.

The divine power immediately began to burn violently, Boom! "Breakout" Volume Two! boom! Burning stronger again!

As one of the most heaven-defying secrets of the Duandonghe inheritance.

The strongest in the universe and before, a total of three volumes.

Performing the first level will make his divine power equal to the strongest in the universe!

The second level is to make him surpass the strongest in the universe!

"Try my soul attack first."

In Wang Yi's body, a star was suspended there, spinning slightly, and it was shining brightly.

This is another soul embryo that Wang Yi obtained from the Duandonghe inheritance, named "Three Realms". It was also refined by Wang Yi and turned into one of his soul embryos.

In the entire history of Duandonghe, there is no one as extravagant as him, who owns multiple elements.

First, it is not necessary, because the primordial embryo is only branded with the secret pattern of the secret technique to exert its maximum power, and the power increases with the improvement of the secret technique. Therefore, generally only one piece is enough to accompany the owner to improve all the way.

If there is too much, the secret method cannot be created, and the most proficient of a person is often a weapon, and the effect of too much is not great.

But Wang Yi is different. He not only has four divine bodies, but also has extremely high attainments in sword technique and soul secret technique.

Moreover, he is in a period of high-speed explosive growth in strength.

As a result, he alone has eight elements!

Four Melee Weapons! Four soul embryos!

"Three Realms", means that this soul embryo has three spaces, one star on the outside, another star inside the star, and then the innermost is a mysterious void space.

But now, with Wang Yi's thoughts moving in this void space, divine power poured in, and mysterious lines quickly appeared.

In fact, the secret pattern of each soul embryo is the same, but the soul embryo is different, which leads to a slight difference in the performance of the secret method, but the power is almost the same!

"Om~~"

An invisible force poured out from the deepest core of the "Three Realms", passed through the second layer of space, was vibrated, then passed through the first layer of space, and was vibrated again!

When it appeared in the outside world, it was already much better than before!

In an instant, it spread to Qiu Hu Demon God and Tai Chu Demon God in front.

Qiu Hu Demon God and Tai Chu Demon God just felt a bang in their heads, and they fell into an illusion with a flash in front of their eyes.

And Wang Yi also pulled out his sword and rushed towards him with indifferent eyes, only to see a huge blurry shadow of the blade crushed directly with an incomparably violent aura, and the entire space mountain range was torn apart...

## [Chapter 762: Tragedy](#)

hum!

Qiu Hu Demon God and Tai Chu Demon God fell into an illusion for a moment.

"This, this is!"

Demon God Qiu Hu looked at the unfamiliar scenery around him in shock, and his face became hideous.

"Illusion? No! Don't want to affect me, break it for me!"

Fantasy is also different.

The target is weak, even immersed in the illusion until death without realizing it.

The stronger ones can be found to be illusions, but they cannot be cracked.

Even stronger, the illusion has little effect on it, and can even resist it in an instant.

However, Wang Yi's illusion is comparable to the tenth-order power of the original ancestor!

Without a Soul Xeon, there is little hope of getting rid of it.

Huh~ The power of nothingness displayed by Wang Yi invaded the bodies of the Demon God of Absolute Beginning and Qiu Hu Demon God. Qiu Hu Demon God was guarded by a treasure of soul in his body, but he couldn't stand the infiltration of invisible power, and instantly fell into the world of illusion.

In the beginning, the Demon God had a stone statue in his body. When the invisible force came over, he suddenly opened his eyes, and two red lights shot out from the stone statue's eyes, fighting against the invisible force.

Wave!

The invisible force was only blocked for a breathing time, but it still hit the stone statue, which kept shaking.

The invisible power passed through the stone statue. Although it was weakened a little, the remaining huge power still began to have an impact.

In the beginning, the Demon God had a flower in front of his eyes and found himself in a strange place.

"Illusion?" An unbelievable look appeared in the eyes of the Demon God in the beginning.

"Impossible, I know the powerhouses who are good at soul secrets in the sea of cosmos. It is impossible to have such a powerful method!"

"I have a soul-class Xeon treasure, but I have been affected by the illusion?"

In the beginning, the Demon God trembled in his heart.

He knew he was in big trouble.

"Get out of here!!" Falling into an illusion is like a dream. Even if ordinary people realize that they are dreaming, it is difficult for them to wake up. And now the two strongest in the universe are in this state.

Qiu Hu Demon God was obviously powerless to resist, but the Demon God in the beginning was different. He was the strongest in this universe, and he had the most powerful soul, so the soul attack didn't affect him that much.

"Wake me up!!" At the beginning, the Demon God sharpened the terrible will of the three reincarnation eras and let out a roar, and then the entire fantasy world began to shake.

Pong! The fantasy world is broken. In the beginning, the demon \*\*\*\* was completely awake. Unlike the misty fantasy world, everything in front of him became extremely clear, and the demon \*\*\*\* in the beginning also saw the knife that destroyed the sky and the earth—

Boom~~

At this moment, the huge blurry shadow of the knife had already slashed across the sky, and the light of the knife swept across and destroyed everything.

The battle knife contains supreme mystery, and there are huge cosmic stars and phantoms around it. When the ultimate move "The Universe of the Blade. Tianyan" is used, the surrounding space begins to

smash, and everything it passes begins to smash into pieces. The boiling particle flow, the countless particle flow is like boiling rice porridge, the terrifying power spreads over a trillion kilometers, and smashes towards the Qiu Hu Demon God and the Taichu Demon God in front.

"The Universe of the Blade. Tianyan" has a lot of changes in the way of the blade, which is unpredictable and unpredictable. It follows Wang Yi's thoughts. It is not a fixed move, and it is not afraid of being recognized.

Demon God Qiu Hu was still in an illusion, but the dark cyan armored figure beside him had his eyes clear, raised his head suddenly, and woke up from the illusion.

Looking at the destructive knife light that broke through the air, his eyes filled with gray airflow could not help but be shocked.

"Damn!"

In the beginning, the Demon God was different from Qiu Hu Demon God. His will reached the limit of the strongest person in the universe, and he was protected by the supreme treasure of his soul, so he could quickly escape from the illusion.

But it was too late, the knife came to him, and the surrounding space was smashed. In the beginning, the devil was unavoidable, and he had time to draw the knife hastily.

Clang!

As the black machete pulled out from the back of the Demon God of Absolute Beginning, the eyes of the Demon God of Absolute Beginning flashed fiercely, holding the handle of the knife in both hands, and the black machete raised high! At this moment, the whole knife seemed to be turned into a black sun!

In the dark sun, there were countless thunderbolts bursting out. This knife was just raised, and the power it radiated shocked the strongest people in the universe.

"Cut!" In the beginning, the Demon God swung the knife with all his strength.

With the slashing of the demon \*\*\*\* in the beginning, the black sun suddenly erupted, and the incomparably terrifying power filled the world.

Everything around him began to fade, time and space began to disappear, the power of the sword light in front became blurred in front of him, and the broken world also became blurred and distorted. It seemed that everything in the world became blurred and distorted. In the beginning, the Demon God was the only clear existence in this world.

boom! ! !

It was like the big bang of the universe, and the sky and the earth were completely white for a moment, and it was impossible to see anything else at all.

But the two super existences can still clearly perceive them, especially in the beginning, the devil can perceive that under the whiteness, there is a knife, slashing at an incomparably terrifying speed.

"clang!!"

At the beginning of the Demon God hastily blocked the horizontal knife, the entire figure was smashed and flew out by the huge impact.

A cold voice with a hint of excitement rang in his ear.

"You also use knives, then let me see, whose knives are stronger!"

"Who are you!?" In the beginning, the demon \*\*\*\* stared in shock at the sacred light and shadow that had killed in front of him, and a tall human-shaped figure could be faintly seen inside.

"Peng!!"

The surrounding space was twisted and shattered into darkness, and there was a faint shadow of the universe slowly rotating around the sword.

It was another collision, and at the beginning of the day, the figure of the demon \*\*\*\* was unstable and retreated tens of thousands of kilometers.

"It's actually stronger than me?"

In the beginning, the Demon God was full of shock and disbelief. He, who was invincible in the two reincarnation eras across the universe, actually fell behind in a head-on collision.

It is rare to meet a person with strong strength who can act as his opponent. Wang Yi no longer uses soul attack or domain, directly holds a sword, burns divine power, wears mechanical treasures, and slays with frenzied eyes.

This is a great opportunity to sharpen your knife skills!

"Kill!" Seeing that the other party didn't speak, the Demon God in the beginning had cold and furious eyes, and rushed forward with a knife.

The two sides fought in an instant.

As for Qiuhe Demon God, because he was not protected, he was already killed by Daoguang in the first attack just now, and his body was also put away by Wang Yi. A large number of the bodies of the strongest people in the universe were used to study the structure of life for him. Still very helpful.

Wang Yi's is the seventh-order top swordsmanship, but he has the magical burning secret technique, double burning, and the divine power is already stronger than the demon \*\*\*\* of the early days who burned the divine power at this time! With the blessing of mechanical treasures, the amplitude of the camouflaged blade embryo! The attack power has exceeded the tenth order! Power is against the sky!

And the Demon God of Absolute Beginning, the secret method is the ninth order, even more than the founder of the giant axe! He also has the Xeon Supreme Treasure Sword and Armor on him! The overall strength is also ten-level!

And because his swordsmanship is higher than Wang Yi's, and he has rich experience, although his attack power is not as good as Wang Yi's, he can't stand a faint stalemate!

With such a rare opponent, how could Wang Yi not see Hunting Xinxi?

"Okay!" The more Wang Yi killed, the more happy he became. The light in his eyes is getting brighter.

Since the inheritance of Duandonghe, his strength has grown by leaps and bounds, and with all his strength, no one in the entire universe can act as his opponent, not even the giant axe.

As for this primordial demon \*\*\*\* in front of him, he has no magical burning secret technique, but he can compete with him. In addition to the realm of the strongest in the universe, there is also the incomparably profound understanding of laws and the use of swordsmanship.

At the level of swordsmanship, he is really two levels higher than Wang Yi!

Only in this way can we keep in touch with those who are still fighting even when the strength is not as good as Wang Yi's.

"Let you see my movement technique!" Wang Yi's style changed suddenly, from the original violent frontal attack to erratic.

The advance flickered, and the speed suddenly skyrocketed.

"Donghua", one of the three unique skills of "Broken East River", is one of the speed secrets!

"Donghua" is the most terrifying set of escaping skills in the Duandong River lineage. Once it is used, it can be transformed into a beam of brilliance, so fast that it is unbelievable, and it can even easily penetrate layers of space.

However, it bursts with movement speed, not attack speed.

If the speed skyrockets, the attack can't keep up, and the attack power will be affected, so it is not very useful in battle.

Wang Yi is just getting started, and how to combine the unique skills of "Donghua" into a flexible attack, also made him a lot of trouble.

Whoa!

As soon as Wang Yi appeared on the field and took out the knife, he would immediately flash and change his position. Changes again and again, the knife is also unpredictable, hacking down from all angles.

quick! It's as fast as a knife emerging from nothingness!

Often with a knife, before the Demon God of Absolute Beginning could react, he appeared in another direction and struck again!

For a moment, the demon \*\*\*\* in the beginning seemed to be besieged by several Wang Yi.

Of course, the excessive speed also reduced the power of the knife by several percent.

But too soon!

Incredibly fast!

Hurry, the demon gods can't stand it in the beginning!

Pong! Pong! Pong! ...

In the beginning, the original perfect swordsmanship of the Demon God also began to be chaotic. Although he resisted frantically, it was useless, and he was attacked several times in an instant.

The fierce sword strength penetrated through the Xeon Supreme Treasure Armor and slammed into his body.

In the beginning, the demon \*\*\*\* body shook violently, his face changed, and a strand of blood oozes from the corner of his mouth.

"What a perverted speed! What a terrifying movement technique!" At the beginning of the Demon God's eyes were full of shock.

Then the knife light appeared in front of his eyes again.

In the beginning, the demon \*\*\*\* raised his sword to block!

He had just blocked the knife in front of him, but then Wang Yi appeared behind him again.

In the beginning, the Demon God hurried to block it again.

Block the top, but can't block the bottom.

Wang Yi's figure flashed like a ghost.

The original domineering and dazzling blade light has also become solid and fierce, like silk and mist, shrouding the Demon God of Absolute Beginning.

The originally majestic Demon God of Absolute Beginning suddenly fell into a state of embarrassment, and was beaten by Wang Yi to the point of defeat.

He felt that his body's injuries were increasing and his vitality was constantly draining.

"No! Stop it! Stop it!!" At the beginning, the demon was crazy.

However, the movement technique created by "Donghua", one of the three great heaven-defying techniques of breaking the Donghe line, is too terrifying. Although it is only a start-up, the demon \*\*\*\* in the beginning still can't stand it.

In particular, although Wang Yi's sword attack is weaker than before, it is still terrifyingly strong!

In the beginning, the Demon God tried his best, and he could block eight or nine times with ten attacks.

Only one or two knives fell on the Demon God of Absolute Beginning.

But...

One sword or two swords is fine. In the beginning, the Demon God had the Xeon and the Supreme Treasure Armor, and he could resist it.

Ten knives and eight knives can also be tolerated.

But what about a hundred dollars and a thousand dollars?

How fast a strong man like them fights, and it is easy to fight thousands of moves in one second.

In a blink of an eye, with his super attack power and terrifying movement technique, the Demon God of Absolute Beginning was played with and applauded by Wang Yi.

He wanted to break out and attack Wang Yi, but Wang Yi instantly moved away, not knowing how much faster he was.

Just like the most extreme assassin, it hits with one hit and goes away in an instant.

It was like a bee stinging lightly on a flower bud, which made the demon \*\*\*\* of Absolute Beginning feel heartbroken.

And Wang Yi also felt that the divine power was burning at a terrifying speed.

At the same time, the outbreak of "Destruction" and "Donghua", coupled with the triggering of blade embryos and mechanical treasures, was a huge consumption, even the strongest in the universe could not support it.

If it weren't for the fact that he has the source class Xeon Supreme Treasure and the Youhai clone, he can store a large amount of divine power supply, and it is impossible to continue.

Only the combination of many conditions can have his current monster-like strength.

Even if he was standing in front of the peak of the universe sea, the Demon God of Absolute Beginning, who was comparable to the tenth-order combat power, was easily suppressed by him.

"This sword technique can change like this!"

"This movement technique can be more flexible."

Wang Yi performed with great joy and was extremely happy.

Wang Yi was reluctant to kill the Demon God of Absolute Beginning so quickly. Such a rare whetstone must be used well.

As a result, the originally powerful offensive gradually became weaker.

It seems that the consumption is too large to maintain such a strong offensive.

Originally supported from left to right, the miserable Demon God of Absolute Beginning's eyes lit up, and hope suddenly rose in his heart.

still have a chance!

"It seems that his divine power is limited, and the supply cannot come." The Demon God secretly said in the beginning.

No wonder, such a ferocious and terrifying attack, even if he can't use it for a long time, it is beyond his expectations that this opponent can last for such a long time.

After all, this is burning divine power in the battle of life and death, and even the strongest person in the universe is not infinite divine power.

It's just that they burn divine power and will not affect their strength.

In the early days of the Demon God, murderous intent appeared in the eyes.

Phew~~ slashed at Wang Yi with a knife. Powerful.

"brush!"

Wang Yi escaped like a ghost, and slashed his chest with a knife.

It was only at the very beginning that the Demon God remembered that the opponent's perverted movement, even if he fought, he would not be able to hit the opponent.

Speaking of which, he never hit Wang Yi once during the entire battle.

Unless that kind of indiscriminate wide-area attack, but such a large-scale attack has to generate enough power, the consumption is extremely huge, even the Demon God in the beginning is difficult to perform.

It can be said that in the very beginning, the Demon God was not forced to such a time of embarrassment.

"Stop!" In the beginning, the demon \*\*\*\* suddenly drank and retreated.

Wang Yi didn't catch up this time, but stopped, standing in the distance, facing off against the Demon God of Absolute Beginning, hanging in the air, with the knife hanging by his side at will.

However, at this moment, the scarred, blood-stained Demon God of Absolute Beginning is much more embarrassed than before.

He looked at Wang Yi in the divine light with trembling eyes, and said slowly, "Who are you?"

He couldn't understand, where he came out of such a peerless powerhouse, whose strength is still above him.

Wang Yi's mouth twitched slightly. "I'm sorry to tell you."

In the beginning, the demon god's eyelids twitched.

After being silent for a while, he said again: "You are coming for Qiuhu Demon God, in fact, I am not familiar with him, so there is no need for us to continue fighting."

He looked at Wang Yi, his tone faintly weak. "How has it been so far?"

As soon as these words came out, the Demon God in the beginning felt a little humiliated.

But he had to bow his head, he saw no hope of victory. In the end, it is likely that he will die. And the perverted speed of the other party, as long as he keeps entangling him, he can entangle him to death.

In the beginning, the Demon God could only surrender.

"Oh~~" Wang Yi smiled slightly.

"If you want to stop the war, you can, leave the treasure on your body."

[Chapter 763: Kingdom of Wu](#)

"Leave the treasure?" In the beginning, the demon god's anger surged to his head, and his eyes were cold. "Don't go too far."

Later, when he saw Wang Yi looking at him with a half-smile but not a smile, the Demon God calmed down again in the beginning, and he was very angry.

"what do you want?"

Wang Yi said lightly: "Didn't you say, the treasure on your body."

"Of course, I'm not greedy. You can give me one of your three Xeon treasures, but the rest must be kept."

"I'm not asking too much, right?"

In the beginning, the Demon God gritted his teeth.

This is not too much, this is not greedy?

The Xeon and the Supreme Treasure, how precious, can not be found, he has these three things in his life and death in the three reincarnation eras, accumulated over a long period of time.

Hand over one at once? In the beginning, it was strange that the Demon God did not feel distressed.

It's just that people have to bow their heads under the eaves. In the past, the demon gods in the early days were so domineering and powerful that they swept across the universe, but now they have encountered a more domineering and powerful Wang Yi.

The situation is stronger than that of human beings, no matter how unwilling the demon \*\*\*\* in the beginning, he had to compromise.

"Okay." The Demon God said coldly at the beginning, blood dripping from his heart. Immediately following him, he remembered the silver key he had just obtained. The value of the treasure might not be lower than that of the Xeon Supreme Treasure, and his heart was filled with reluctance and pain.

The three supreme treasures, the Demon God chose for a long time in the beginning, before he gritted his teeth and sent out the dark cyan armor, as well as his space ring.

Then, without saying a word, he turned and flew away.

Wang Yi also smiled, kept his promise, and did not stop him.

...

"Where is this guy sacred?" The Demon God of Absolute Beginning, who had gone far away, was full of puzzlement at the moment. "Why haven't I heard from him before?"

Then, when I thought of the treasure that I lost, I felt distressed again.

This time the loss is too great.

When the Demon God returned in the early days, he began to use various means to investigate the powerhouses of the Universe Sea.

Of course, he found nothing.

In the following years, the Demon God of Absolute Beginning changed his domineering behavior and became low-key, which also surprised the forces of the universe... How did this Demon God of Absolute Beginning change his temper?

When a person has a hard fall, he will always remember the lesson.

...

Wang Yi is checking the treasures left by the Demon God in the beginning to prevent him from leaving behind any tracking methods.

"Well, one of the strongest and most treasured armor." Wang Yi glanced at the dark blue armor. With his current wealth, he didn't care about such a treasure. He smiled and said, "I originally thought that the Demon God in the beginning would keep that weapon, but it seems that he cares more about the sword." Armor is generally more valuable and rarer than weapons.

However, armor is mainly used to save lives, and weapons can directly improve strength.

Therefore, in the beginning, the devil finally chose to leave armor instead of weapons.

Wang Yi arbitrarily used divine power to decipher the imprint of the Demon God's Space Ring in the beginning, and then the divine power extended into it.

When divine power penetrated into the space ring, Wang Yi, who had been careless, was suddenly shocked.

"Um?"

"what?"

A sudden and extremely strong call made every cell in Wang Yi's body boil, reaching the point where he was about to run wild.

"This feeling..." Wang Yi was stunned. So familiar!

This sense of summoning had also appeared when cultivating the "Secret Book of Nine Tribulations", searching for the armor of the Yan Protoss in the junk star field, and facing the Star Tower.

"What is it?" Wang Yi's divine power swept across the space ring, and soon found the silver sword in the space ring.

It immediately appeared in Wang Yi's hand, and it seemed to sense something, suddenly it seemed to contain life, and it hummed and vibrated.

Wang Yi looked down at the text formed by the secret pattern of the silver sword in his hand. It was the text of an ancient civilization, and it was the same as the message text left on the countless treasures passed down in his hometown of the universe. Even if you don't understand the text, you can see it at a glance Understand the meaning, whisper softly: "Eastern Wu sword?"

"Why? Does it sense me? Could it be that there is something about me that attracts it?" Wang Yi looked at the silver sword that was shaking violently in his hand, a little puzzled.

The Star Tower, the armor made by Jiejia, the reason why Wang Yi can sense it is because Wang Yi practiced the "Secret Book of Nine Tribulations" at that time.

But this silver sword also had a strong sense of summoning to Wang Yi.

"What is the reason? There must be some mystery in it." Wang Yi secretly said.

"Sword of Soochow... Wu, is there any connection with the ancient state of Wu?"

He developed a strong interest.

Wang Yi searched in his mind for the information on the Universe Sea that was handed to him by Palace Master Erhua, and immediately found the relevant information.

"It's very similar to the legendary silver key."

In this universe sea, the biggest Jedi is "Chaos Star".

Chaos Star is ancient, mysterious and dangerous.

Three reincarnation eras, long exploration, and one ten thousandth of it cannot be explored.

However, the occasional information from some relics of Chaos Star has made Cosmic Sea experts understand many secrets.

For example, before them, there were many times of reincarnation, and countless civilizations and powerhouses had appeared in this sea of cosmos.

For example, the "Chaos Star" has been around for a long time, and it is suspected that it is an ancient civilization and a super war fortress.

For another example, those ancient civilizations that are incomplete or esoteric and cannot be understood, witness the power of the superpowers of ancient civilizations...

All kinds of treasures...

etc.

In the legend of Chaos Star, there is also this key.

There are three kinds of keys, from low to high, divided into black, cyan, silver... and the legendary gold.

According to legends, the silver key has been obtained, but the golden key has never been seen, it is just a legend.

The key corresponds to a certain space inside the Chaos Star, and the higher the level of the key, the deeper the Chaos Star, the more treasures in the corresponding space.

"It's very similar to the token of the universe boat." Wang Yi thought, "It's all black, cyan, and silver tokens, and they all correspond to the same space. And this sword is called the Soochow Sword, so shouldn't it really be related to Wu Guo? "

"Then this Chaos Star, isn't it another cosmic boat?"

"It's just, why does it have such a strong sense of calling to me?" Wang Yi was puzzled.

In the spaceship before, he also got the silver token, and now it is still on him, but there is no such thing.

There should be some secrets in it.

Thinking of this, Wang Yi couldn't help but look at the silver sword in his hand.

Wang Yi tried to refine it.

Very smooth, recognized the Lord successfully.

At this time, the silver sword in his hand changed strangely again.

A layer of golden light diffused through it, and it didn't know what had happened. It changed from silver to gold, and it filled with a luxurious atmosphere. Even the simple and secret lines on the sword seem to be more esoteric.

A golden sword appeared in Wang Yi's hand.

Wang Yi's eyes widened, "Golden key?"

He didn't know that the demon \*\*\*\* in the beginning had also refined this silver sword, but there was no such change, otherwise it wouldn't be what it looked like when it appeared in his hands.

And all these changes started when Wang Yi used divine power to refine the key.

"In the legend of the sea of cosmos... it's just a golden key that belongs to the legend, but it actually appeared in my hand." Wang Yi also felt incredible.

"coincide?"

"No, it's not."

Wang Yi thought about it, and suddenly thought that he had signed a "Life Gene Analysis Map" on the black stone tablet in the "Eternal Vault of Heaven" on the spaceship.

That is the basic structure of life that starts from 1x at the bottom, and has been analyzed to 30,000 times, which is extremely in-depth and meticulous research.

Since then, Wang Yi's divine body has transformed again from the inside out.

According to Wang Yi's guess, this "Gene Analysis Map of Life" should exceed the "Secret Book of Nine Tribulations".

Although it is said that the "Secret Book of Nine Tribulations" was created by a mountaineer, it can change the soul and genes... It is said that it is also helpful for accepting the inheritance test of "Original Art"!

However, the "Secret Book of Nine Tribulations" is the core unique skill of the Jin state. Countless geniuses in the Jin state have also learned it before, but no one has ever been able to learn the "Lie Yuan Technique".

Sitting on the mountain, an ordinary \*\*\*\* king, belongs to the middle level among \*\*\*\* kings, and the strongest is only good at refining! The "Secret Book of Nine Tribulations" created is only a unique skill in the Jin Kingdom, or is it used to train younger generations (the Lord of the Universe reaches the stage of a true god, and the Secret Book of Nine Tribulations is useless to the perfect genetic level). Where can it be so powerful?

The "Lie Yuan Technique" is so famous, it involves "Yuan", the supreme secret of the powerhouses in the legend of the origin continent. Those \*\*\*\* kings in the origin continent have all tried their best to let the geniuses of their own power accept the inheritance, and there must be similar "The cultivation method of the "Secret Book of Nine Tribulations", but no genius can pass the test.

It can be seen that the limitations of the "Secret Book of Nine Tribulations" do not need to be too much touted.

Strong, but Luo Feng! The protagonist halo! Unparalleled!

The continent where the ancient civilization originated, is much more powerful than the mountain guest. Not to mention other things, Wu Guo, who sits on the mountain personally admits that he is much stronger than his Jin country!

Coupled with the "Slaying Wu Feather Wings" that can be called the ultimate "single mechanical flow" and the huge and terrifying super warship 'cosmic boat' that is beyond imagination... Wu Guo's research on mechanical flow has obviously been to the point of reaching the pinnacle.

As far as the mechanical civilization is concerned, it is estimated that it is also the top level in the origin continent.

How could such a peak force not have the inheritance of the divine body route?

You must know that even the "Duandonghe" belongs to the Wu Kingdom. Although it may be that the real top powerhouse, the Duandonghe descendant, joined later, it also proves the strength of the Wu Kingdom! It definitely surpassed the Duandonghe lineage, otherwise it would be impossible for the Duandonghe sect to join.

It is unimaginable how profound the foundation of such a powerful state of Wu is.

"I practiced the gene analysis map, and the structure of the \*\*\*\* body changed. The gene analysis map was obtained by the universe boat and belongs to the inheritance of the \*\*\*\* body route of the Wu country. My \*\*\*\* body now belongs to the core members of the Wu country. The \*\*\*\* body route..." Wang Yi has a clear understanding in his heart.

"This key belongs to the State of Wu. This Jedi Chaos Star in the Universe Sea was also created by the State of Wu. Because I sensed the aura of my divine body, I thought I was a descendant of the State of Wu, so I had such a strong attraction to me. Only after I used my divine power to refine it, such a big change happened."

It was as if Luo Feng practiced the "Secret Book of Nine Tribulations" and had already left his mark on the state of Jin.

Wang Yi is now also marked as belonging to the state of Wu.

If he doesn't change his foundation, even if he reaches 100,000 times the divine body in the future, he will still be considered a member of Wu State.

Wang Yi sighed while looking at the majestic mountains and the boundless darkness in the distance. "Wu country, how powerful was it? Not only did it build that marvelous cosmic boat, but the Chaos Star here is also related to them. It should also be the creation of Wu country..."

Wang Yi sighed.

And such a powerful state of Wu has been destroyed. It is estimated that the king of gods is also dead. The remaining forces of the state of Wu have to fight against the backwater and ride the mechanical treasures created. Knowing that they will die, they still desperately break into the depths of the sea of cosmos.

The spaceship...destroyed.

Chaos Star... also destroyed.

It is estimated that the Wu Kingdom's army that penetrated into the sea of cosmos did not survive.

How terrifying should the enemy who forced Wu State to such a miserable state?

Wang Yi was restless.

He is now cultivating the Wu Kingdom's divine body route, and has left the Wu Kingdom's brand. In the eyes of the forces that destroyed the Wu Kingdom at the beginning, it is estimated that he is already equivalent to the Wu Kingdom.

The remnants of Wu State?

Shouldn't he be hunted down as soon as he arrives at the Origin Continent?

This is not Wang Yi's unwarranted worries, but something that is very likely to happen.

...

Wang Yi sensed the message of the golden sword. Like the token of the universe boat, this "key" is actually a token. If you have this token, you will have some privileges in the Chaos Star, and the danger will be reduced a lot. , and also corresponds to a dedicated space.

The space corresponding to the silver token is already deep in the core area of Chaos Star.

The golden token is actually in the same place as the silver token, but deeper.

According to the information Wang Yi knew, that area was already extremely dangerous. There were many Jedi-like "dark places" that could enter but not exit. Even if Wang Yi accidentally fell into it, it would be difficult to get out.

It's just that Wang Yi has been intrigued by the golden key now, and of course he wants to check it out.

"The most advanced thing discovered by the spaceship is nothing but a silver token." Wang Yi was very excited.

"This golden token is definitely higher than the silver token, and the corresponding space must be no trivial matter. For me, it is very worth exploring."

Wang Yi felt that if he went there, he might be able to obtain more secrets related to Wu State and Chaos Star.

So his plans changed again.

Originally, after killing Qiu Hu Demon God, he should leave here and go to other universe seas, but now, he changed his schedule and continued to go deep into Chaos Star.

Find the golden key space!

...

On this day, there was a big shake in the cosmic sea.

One of the strongest men in the universe, the 'Qiu Hu Demon God', has fallen!

Before the fall of Qiu Hu Demon God, some people once saw Qiu Hu Demon God and Absolute Beginning Demon God act together.

Therefore, some people speculated that Qiu Hu, the devil, was killed by the devil in the beginning.

In the beginning, the Demon God, because he was afraid of that mysterious powerhouse, kept silent on these rumors, neither admitting nor refuting them.

And this made the outside world think that Qiu Hu Demon God was really killed by the Demon God of Absolute Beginning!

Some people speculate that the treasure was discovered during the exploration, and the demon \*\*\*\* Qiu Hu killed the demon \*\*\*\* Qiu Hu in order to compete for the treasure in the beginning. Some people also said that it was the Demon God of Absolute Beginning who suddenly attacked and killed the Demon God Qiu Hu. Anyway, there are various arguments.

Of course, no one dared to ask the Demon God of Absolute Beginning.

So, the truth of Qiu Hu Demon God's death was covered up by speculation.

And Wang Yi, at this time, took a mechanical warship and flew towards the deepest part of Chaos Star.

[Chapter 764: Tianxing. Wu. Sheng](#)

time flies.

A certain cosmic sea.

A behemoth lost its breath of life and was suspended in the chaotic airflow, and a black hole abyss-like figure stood in the distance.

"Hmph, I still want to escape." At this time, Wang Yi's Youhai clone had already changed its face, and its aura had become extremely dark and evil, with the aura of ultimate destruction. Just standing there seemed to make the whole world lose its color.

...

In another universe, in a Jedi, a streamer fled wildly in front of him, and the ubiquitous golden light around him gathered from all directions, leaving him nowhere to escape.

In the back, the sun is infinitely brilliant, the wings spread out to cover the sky, and the magnificent terrifying light and shadow quickly kills.

...

The three gods were hunted in other cosmos seas, while the three-headed, six-armed bald man transformed into the Void Zerg traveled in the depths of Chaos Star.

The deeper you go, the stronger the gravitational force and the slower the speed.

If it is the strongest in the universe, it is fine, the speed can easily break through the limit of the universe sea, but Wang Yi can only fly slowly.

Coupled with the dangerous obstacles of the Jedi, this will cause him to arrive at his destination much slower.

A thousand years...two thousand years...

Time flies like an arrow.

The cosmic sea is still so calm, and the 3,000-latitude cosmic sea does not seem to have caused any waves due to the passage, or the undercurrent is surging underneath.

In a blink of an eye, it has been 8,000 years since Wang Yi opened the cosmic channel.

For the ancient and eternal universe sea, eight thousand years is just a matter of snapping fingers.

This is an incomparably vast lake, the lake is dark, bottomless, and has no waves.

The lake surface is like a black mirror, but without a trace of light or ripples, everything is still and frozen.

A triangular white mechanical warship flew from a distance.

"What a terrible gravitational force." Wang Yi frowned when he saw his warship flying over the lake at an extremely slow speed.

In chaotic stars, gravity is everywhere. The deeper the gravity, the more terrible it is, and it can even reach the point of collapse and annihilation.

Only the environment and material of Chaos Star itself can withstand this terrible power.

It is rude to say that the strongest in the universe of the peak palace treasure cannot be destroyed, but here, the peak palace treasure can be easily destroyed in many places, and the power of many environments can easily annihilate the strongest person in the universe wearing the armor of the strongest treasure. .

That is far beyond the tenth order.

Like this dead lake.

If the lord of the universe is here, he can't even move, and he will fall directly into the lake, and even the divine body will be directly crushed and annihilated.

The mechanical warship specially exchanged by Wang Yi has powerful power, amazing defense, and extremely fast speed. It is very suitable for some Jedi adventures, and has resisted many dangers along the way, but on this strange lake, it flew as slowly as a snail crawling. Incomparable.

If the lake is compared to the earth, then the warship is like an ant, moving pitifully slow.

Wang Yi looked at the vast and dark lake, "At this speed, if you fly so slowly, it will take hundreds of years to reach the coordinates of the golden key space."

Even so, Wang Yi couldn't help it.

In the depths of Chaos Star, because of the harsh environment, the space fluctuations are either chaotic, or completely static like the lake in front of them, unable to teleport, and can only rely on flight.

There are also some special "space channels" in Chaos Star, which can allow people to travel to another place in an instant, but they will not appear here.

"Wait." Wang Yi was also very patient. "One day it will fly."

...

The primordial universe, the vast sea of cosmos.

"Hahaha... It's finally out..."

A figure flew out of the huge wormhole channel with a diameter of 100,000 light-years, and let out a burst of excited laughter.

"It's really endless. In a desperate situation, I actually encountered such a wormhole passage. I thought I almost died." The figure was wearing a dark red robe, his face was like an axe, and his face was scaled. There is a huge sharp horn on the forehead, without the slightest hair, and behind it there are bone spurs lined up in a fan shape, and the blue eyes exude a \*\*\*\* and fierce aura.

He looked around, looking suspicious.

"However, where is this place? Darwin has been in the sea of cosmos for so long, and I have never seen such a large wormhole channel. It took me so long to fly out."

...

In the void not far from a wormhole channel in the cosmic sea of the original universe, there is a huge black island with palaces on it.

The powerhouses sent by Konghua Holy Land to inquire here live here.

However, there is usually only one cosmos strongest and several cosmos masters here, and the other strong avatars leave behind the incarnation of divine power, and then go to the cosmos sea to explore the situation.

The powerhouses of Konghua Holy Land can easily disguise themselves because they have information provided by a forerunner, the "Master of Enthalpy Insects".

Apart from the fact that the two strongest men in the universe cannot be exposed, the other masters of the universe can easily enter the sea of cosmos and have intersections with many forces.

For nearly 10,000 years, a steady stream of information has been collected and sent back to the Holy Land Universe.

The other Konghua Holy Lands don't care, even the two Holy Lands of the Universe Sea don't care. The only thing they care about are the Three Jedi, the Duandong River inheritance and whether there are wormhole passages to other universes.

The three major Jedi, the ancestor of Konghua Holy Land also understands, that is not something she can shake.

Every Jedi actually has big secrets and opportunities, but it's just too hard to get them!

Especially when he first learned that the inheritance of Duandonghe was born, the ancestor of Konghua was as excited as the original Ziyue Holy Land Universe and Dongdi Holy Land Universe.

That is one of the top inheritances in the origin continent!

It's a pity that it was obtained by the human race of the primitive universe, and it is impossible for her to take over the two holy places and the three eras of reincarnation.

The ancestor of Konghua Holy Land felt regretful.

If this wormhole passage can appear earlier, perhaps she will have a chance to compete for this Duandonghe inheritance in Konghua Holy Land, but unfortunately...

Perhaps, there is still a chance to get the inheritance? The ancestor of Konghua thought so. If she gave up like this, she would be really unwilling.

The surface of the original cosmic sea is still calm, but there are some strange visitors in the dark, but the parties in the cosmic sea have not noticed it at all.

Time passed so quietly.

Hundreds of years have passed.

In the dark black lake, a white triangular warship broke through the flowing water and was struggling to advance.

This water flow block is stronger than the outside world, I don't know how much. And it's impossible to probe the outer area at all, more powerful than any labyrinth environment.

Fortunately, Wang Yi has a key guide, so he can directly follow the guide to find his target.

As he approached that, he immediately saw a void in front of him.

"This is..." Wang Yi looked over.

The darkness ahead gradually faded away.

In the core area of this vast lake world, there is endless black liquid like mercury mud. In the black ocean, there is a dark void, and not a drop of water can get in. At the center of this dark void, there is a very dark void. Very small point! It was incomparably small, and there was a majestic palace radiating brilliant light, illuminating the entire waters faintly.

Wang Yi rode the warship, broke through the heavy lake water, and entered the dark void. An invisible wave swept across the warship, his body, and the golden key in his body. Everything seemed to be under this wave. No way to hide, no secrets to hide.

If you don't have the key, you can't even enter this dark void, and you will be directly excluded from it.

This dark void, even the most powerful True God can't break into it.

The void is small to the naked eye, a dark void smaller than a house. It's really weird in this vast lake!

But it is so conspicuous and dazzling, its invisible oppression creates a void around it. Its oppression made Wang Yi feel palpitations, as if an ant faced the endless ocean, the gap was too great!

Wang Yi felt that even in the entire Chaos Star, this place should be an extremely important place.

When Wang Yi flew into the void and headed for the palace, the palace kept expanding in front of his eyes, as if it was so majestic and endless, and the vastness could not be seen at a glance. Wang Yi even felt that the size of the palace was comparable to that of the virtual universe. The company's headquarters is comparable to the mainland. You must know that the virtual universe company's continent suspended in the starry sky took countless years and costs to build. It is vast in "light years", and this is just a palace.

Incredible!

"It's amazing." Wang Yi exclaimed.

It seems to be very close, but in fact it took a long time to fly before the warship flew to the entrance of the main entrance of the palace.

"Phew." The warship disappeared and Wang Yi appeared.

He looked up at this huge and exquisite gate that was endlessly majestic. The whole gate was golden and blue, and the whole body had a noble connotation. There were many carvings on the gate, which made countless creatures feel high above, their own insignificance, and uneasy in their hearts. Dare to enter.

"It's similar to the gate of the Tomb of the Duandong River, but it has too much style." Wang Yi secretly said.

"brush!"

A beam of blue light fell from the gate and enveloped Wang Yi, and Wang Yi didn't have time to avoid it.

Fortunately, nothing happened, the light flowed on Wang Yi for a while, and then took it back.

"Boom~~Boom~~"

The ancient gate with endless height like a world wall slowly opened in Wang Yi's sight.

Wang Yi did not hesitate and flew in directly.

It was dark inside, and because it was so vast, Wang Yi could only perceive a void.

"Huh?" Wang Yi suddenly raised his head.

In the boundless dark void, a meteor suddenly appeared.

It appeared so suddenly, it came to Wang Yi in a blink of an eye, exploded with a bang, and a figure gradually took shape in the bright light.

He has a majestic figure, his golden-red hair is loose, his eyes are dark purple like glass, and his whole person exudes a terrifying domineering domineering. It seems that if he dares to approach him, he will be torn and smashed, faintly carrying the charm of the origin rules of the endless universe.

The body was wearing purple and cyan mixed armor, with a black cloak on the back. The surface of the armor had countless uneven patterns. Those incomparably mysterious patterns alone gave Wang Yi a mysterious sense of peeking into the vast and vast universe.

And his eyes are deep and void, and there is a vast universe evolving, and the mysteries of endless rules are emerging.

However, his body is composed of countless rays of light, which looks real. At first glance, it is a real person, but when he looks closely, it reveals an illusory feeling.

He looked at Wang Yi, his eyes gleamed with light, and he said:

"successor."

"Senior." Wang Yi respectfully saluted, no matter whether this is a real person or not, here, I'm afraid it will be easy to kill him.

"In the past countless years, there is finally a junior who can inspire Soochow Sword and come here." The man said with emotion, "It's not in vain that I left a mental will before I fell and waited for so many years."

"Senior, may I ask who you are..." Wang Yi asked cautiously.

"Name?" The majestic man with blond red hair scattered and said with a smile: "Since you can come here, then you are qualified to know my name, remember, my name is Tianxing Wu Sheng, ... the general of the Tianxing Department is Me." At this moment, the man exuded an unparalleled domineering aura, as if the universe had to surrender at his feet.

Wang Yi was secretly shocked.

Tianxing. Wu. Saint?

General of the Tianxing Department?

Leaving spiritual will? It doesn't seem like the 192nd generation of Duan Donghe left behind a virtual personality?

"It's been too long, and finally a descendant has arrived." Tian Xing Wu Sheng looked at Wang Yi with excitement and inexplicable meaning, "With the primordial universe watching, all our means of staying are limited, even if I have made enough preparations, but the hope is too slim, everything is covered up in the historical years, the longer the time, the smaller the hope, even me, I don't know when I will meet a real latecomer."

"It's okay, you're here."

"brat."

Wang Yi listened obediently.

"You can inspire the true form of the Soochow Sword, enter here, and prove that it recognizes that you are part of us."

General Tianxing looked at Wang Yi, "You should get a part of the inheritance of our Wu Kingdom and get started with cultivation, right?"

Wang Yi said honestly: "Junior is indeed lucky. I got a gene analysis map in the spaceship before..."

"What is the cosmic boat..." The voice of General Tianxing suddenly fell, and there was a trace of sadness on his face.

Then he laughed.

"Have the three-way team perished in the end, haha, it really is a dead end." General Tianxing shook his head and smiled bitterly. "I don't know if this choice was right or wrong. But in order to restore the country and continue, we still chose to take this road at that time. It seems really stupid now."

General Tianxing doesn't seem to be surprised.

Perhaps, on the way to escape and struggle, he had already expected this result and had already accepted the reality.

Wang Yi muttered in his heart, "Three ways?" It seems that when Wu Guo went deep into the sea of cosmos, it seems that there are more than cosmic boats, Chaos stars, and others?

But now it seems that the Wu Kingdom seems to have failed.

"Little guy, you can study the divine body more than 50,000 times in the realm of the master of the universe without anyone pointing it out, and you are still a native of the universe. You are indeed very good. If you were in Wu State, you would also be punished. Focus on training." The man said with emotion.

Divine body route, is difficult!

It is much harder than comprehending the law to become a true god!

Everything that can be achieved is definitely not easy.

Not to mention, Wang Yi is still a native of the Sea of Cosmic Universe. He has no cultivation conditions. He can explore and cultivate successfully without anyone's guidance. It is definitely a rare genius.

How could General Tianxing be unhappy.

"Since you are cultivating the inheritance of our Wu Kingdom's divine body line, you are a member of our Wu Kingdom." General Tianxing looked at Wang Yi with a much gentler expression.

It was like Luo Feng practiced the "Secret Book of Nine Tribulations", and was naturally a descendant of Jin.

The same is true for Wang Yi. Taking the route of inheriting the divine body from the Wu Kingdom is one of the core inheritances of the Wu Kingdom. Although it is only the outer layer, it is naturally a member of the Wu Kingdom. It is useless if he does not admit it.

"Our country has been destroyed, but the inheritance of our country cannot be inherited. Little guy, are you willing to join our Wu Kingdom, inherit our inheritance, become our Wu Kingdom warrior, and restore our Wu Kingdom?" asked expectantly.

#### [Chapter 765: 3 big tests](#)

If you want to achieve great achievements in the divine body route, it is best to be in the stage of the master of the universe, because it involves the universe structure after breaking through the true god.

Therefore, the divine body route is so difficult. In the ancient civilizations, there may not be one out of ten thousand who took the route of the divine body to become a true god.

It is not without reason that General Tianxing is so optimistic about Wang Yi.

Facing General Tianxing's olive branch, Wang Yi was excited.

Inheritance of Wu Kingdom?

The state of Wu is a more powerful force than the state of Jin, Duandonghe!

As for the troubles after joining the Wu Kingdom... that's a matter of the future.

"If you agree, then I still have a test here. If you can complete it, you will have the opportunity to become the true successor of my Wu Kingdom." General Tianxing said again. "If you can't finish it, then there's nothing you can do. It can only prove that you are not good enough."

Wang Yi was not surprised.

As the top power in the origin continent, Wu Guo has such a good inheritance.

Even if the East River is broken, they have been selected and tested again and again.

"What test?" Wang Yi asked repeatedly.

General Tianxing's imposing manner became cold, and his eyes were sharp, making Wang Yi feel as if he was facing the endless void.

"There are three tests, and any one that passes can become the core layer of our Wu Kingdom!"

"First, the Rhinoceros Game, as long as you can comprehend 6,000 games, you can get the inheritance directly!"

"Second, create a secret method, as long as you can create an eighth-order secret method, you can also get it!"

"Third, 90,000 times the divine body... This is actually the most difficult. Even in my hometown, there are not many people in history who can reach 90,000 times the divine body in the Lord of the Universe. They are all the most amazing people. The big man on our side is rushing to accept it as an apprentice! It is very easy to reach my realm! As long as you can reach 90,000 times the divine body, inheritance will be directly obtained!"

Wang Yi blinked.

6000 rhino games?

Create an eighth-order secret method?

90,000 times the divine body?

He is the lord of the universe! The requirements are so demanding!

General Tianxing continued: "I know this is difficult, it is almost impossible to do it, but my conditions are so, if you can't even do this, then it will be difficult to reach the peak of our side in the future, and you will not be able to recover. I am Wu Guo, then it is meaningless."

"I can give you time and the conditions to assist you in your cultivation." General Tianxing looked at Wang Yi, "While you are staying in the universe sea, you can come here for the test, the number of times is unlimited, and I will also give you You provide an environment for comprehension and cultivation, which can improve the efficiency of your cultivation... As long as you can meet the requirements given by me, you can become the core layer of my Wu Kingdom and get the inheritance of my power."

"However... If you take the divine body route, you'd better complete it before breaking through to the true god, otherwise it will be very troublesome." General Tianxing said. "Then there won't be much time."

Wang Yi understands that the Lord of the Universe must break through to the True God before the end of the primordial cosmos era, otherwise there will be no breakthrough. There is no way to have a small universe.

But if you break through in advance, the divine body route is equivalent to failure and is not perfect.

Therefore, it is best to reach 90,000 times the divine body before the end of the primordial universe. The time is limited, and it is naturally very nervous.

The other two requirements are also required to be completed in the realm of the master of the universe.

Otherwise, the Eighth-Order Secret Technique... The Demon God of the Universe Sea at the very beginning can be reached, but he is the true God.

The higher the realm, the higher the requirements.

Wang Yi is the master of the universe, and General Tianxing only gave the requirements of 6,000 rhinoceros games, eighth-order secret techniques, and 90,000 times the divine body... each of which is very difficult.

This shows the harshness of the selection of successors by the superpowers of this ancient civilization.

The selection of Duandonghe inheritance is already very difficult.

General Tianxing is even more outrageous. This is an infinitely higher difficulty limit.

The 6,000 rounds of the Rhinoceros Game... At the beginning of the 192nd generation, Duan Donghe said that whoever reaches 6,000 rounds can directly get the inheritance. This refers to everyone, including the strongest in the universe.

And the Lord of the Universe, in fact, can be obtained directly after 5,000 rounds, and there is no need to test again.

The secret method... the eighth-order is the threshold of the sky. Those who can create the eighth order, in the ancient civilization, as long as they are alive, all of them are at least holy beings. The two great beings in the Duandong River lineage, including the three generations of patriarchs, only created an eighth-order secret technique!

90,000 times the divine body... Even in ancient civilizations, there are very few true gods whose life gene level reaches 90,000 times. The divine power route reaches 90,000 times, which is much more difficult than becoming a true \*\*\*\* of the void, and the time consuming is also extremely long. You must know that the ancient civilization is not bound by the era of reincarnation, and there is no threat of the original universe to destroy the reincarnation. There is an infinite time. Following this route, there is also the experience and guidance of the predecessors... Even so, very few can reach 90,000 times. It can be seen that the level of the divine body's life gene level is 90,000 times more difficult!

Divine power route, the level of life genes is 90,000 times. Even in the ancient civilization... even with many adventures and other assistances, it was extremely difficult.

Not to mention in the sea of cosmos... all adventure treasures, etc. are controlled within the will of the original universe, ordinary powerhouses cannot get the chance against the sky, so they have to achieve '90,000 times the life gene'...

However, compared with the inheritance of the Duandong River, the time given by General Tianxing is more generous. In addition, there are training places and various guidelines, and you can freely comprehend and practice here at any time... From this aspect, you can still fight.

There is no way for General Tianxing to put forward such harsh conditions. As he said, if you can't even meet these requirements, it will prove that you are not good enough, and the road in the future will not go far enough to become the peak of ancient civilizations, then you will not be able to help The rise of the Wu Kingdom means nothing.

General Xing that day would rather continue to wait, and wait for endless years until someone who meets his requirements.

The inheritance of Duandonghe... just to continue.

Wu Guo, that is going to rise again and restore glory! The difficulty is different, and the requirements are naturally higher!

In fact, compared to the divine body 90,000 times, General Tianxing felt that it was easier to create the eighth-order secret method and to understand the 6,000 rounds of the Rhinoceros Game.

90,000 times the divine body... It's too difficult! Not enough time!

After the General Tianxing finished speaking, he looked at Wang Yi worriedly. He was also worried about scaring the little guy in front of him. It turned out that Wang Yi's expression didn't seem to change, and he looked a little lost.

"Are you willing to accept the test?" General Tianxing said coldly.

"If you are willing to accept it, then I can arrange a training venue for you. As long as you can create an eighth-order secret method in the realm of the master of the universe or understand the 6,000 rounds of the Rhinoceros Game, you can pass the test."

"Of course, if you break through to the true god, then the test of the \*\*\*\* body will naturally fail. You can only break through in the other two aspects... and the conditions will be higher!"

Wang Yi smiled in his heart.

General Tianxing did not know.

At the beginning, he had comprehended the rhinoceros game to 5,000 games, and the secret method had created the top of the seventh-order... and he had only practiced for hundreds of thousands of years.

Although 6000 rounds or the eighth-order secret method is difficult, there is a time in the era of reincarnation... Wang Yi felt that unless he was too unlucky, he should have passed.

This Wu Kingdom inheritance, he has decided!

"I do." Wang Yi said.

"That's good." A smile appeared on General Tianxing's face.

He stretched out his hand to the void behind him, and suddenly three huge doors of light appeared in the boundless darkness. On each of the doors of light, there were hazy lights and shadows, or the phantoms of the universe, stars, heaven and earth shattered, or endless creatures, or strong people fighting and fighting. , or the army of machines everywhere...and they're all different.

"Look." General Tianxing pointed to the first gate of light.

"The first gate is where you solve the rhinoceros bureau." He said lightly. "If you want to solve the rhinoceros bureau, go there."

He pointed to the second gate of light. "That is the practice space for you to study and comprehend the secret method."

Then point to the third light gate. "If you take the divine body route, then you can go there, but I advise you, although you can enter these three gates at any time, but human energy is limited, and creating secret methods and studying the level of life genes will distract you. If it is not feasible, it is best to give up the most difficult one and choose to make breakthroughs in other areas."

General Tianxing also had good intentions.

Wang Yi nodded and looked at the three gates of light.

Solve the rhinoceros bureau? boring.

The rest is the divine body route and the secret method of creation.

Wang Yi thought about it for a while, and when his figure moved, it turned into a stream of light, and quickly flew towards the second gate of light in the dark in the distance.

General Tianxing watched silently from behind as his figure disappeared into the gate of light.

"I hope he can succeed." General Tianxing secretly said, his figure blurred and disappeared.

After all, he is just an almost eternal will left by a super existence. His real body has already fallen. Although this will is strong, it has no root and only depends on this palace to exist.

His only obsession is to see a qualified successor appear in his kingdom before he dies.

...

Wang Yi walked through the gate of light, only to feel that the space had changed and appeared in another scene.

He appeared at the entrance of a grand canyon. The canyon was unreachable and stretched as if it were endless. At the end of the canyon was a white fog.

He also saw various patterns on the canyon cliffs nearby.

Wang Yi landed on one of the patterns on the cliff.

On the cliff wall is a pattern composed of countless lines, as if it were a huge monster. There are countless sharp swords flying out of the monster's mouth, and each sword has a mysterious atmosphere. The mouth of the giant beast seemed to be too deep to see to the end, as if it contained the source of all destruction.

Watching and watching, I was faintly touched by Wang Yi's perception.

"It was left by the strong of the ancient civilization." Wang Yi had a clear understanding in his heart.

"And the level is not low."

Wang Yi turned his head to look at the canyon, which was boundless, and I didn't know how many places there were such murals.

"This mural has some effect on me, but it's not very big. Change the place." Wang Yi turned and flew away, flying deeper into the canyon.

Soon, Wang Yi saw the second pattern on the cliff.

He stopped, walked to the cliff, looked up at the mural, this time it was a big river drawn by countless lines, but there were densely packed fish in the river, some fish heads surfaced, and some fish chased with the water waves. Some fish jumped up, some fish sank to the bottom of the river, and some fish entangled with each other... Wang Yi watched it carefully, as if he felt a unique charm, and could not help but feel it carefully, sometimes using his hands to show his magical power. The formation of the secret pattern emerges around, constantly verifying what you think.

After a while, "Interesting." Wang Yi showed a smile. Turn and leave again. This is not where he is going to be.

The third pattern is a rough savage running between heaven and earth...

The fourth pattern is the infinite sea of thunder...

Wang Yi watched the patterns one by one.

They are all left by beings with a higher realm than Wang Yi, but in different directions.

According to Wang Yi's estimation, all of them should at least reach the limit of true gods, and some are higher.

"It's a very powerful place." Wang Yi said with emotion, "However, with the inheritance of Duandonghe, these patterns are not very helpful to me."

Duandonghe inheritance, there are countless cultivation secrets and information, enough to guide Wang Yi to cultivate to the limit of the true god.

This canyon may be a dream for the other powerhouses in the universe, to cross the road of reincarnation, but for Wang Yi, it is just the icing on the cake.

But Wang Yi didn't care and continued to walk inside.

Looking at it everywhere, occasionally I can understand a little, and I only comprehend a little bit of fur.

"Well, I switched to a human body when I came in, but I didn't get a good reward for signing in before." Wang Yi said to himself.

When he entered the golden key space, he separated the human body from the void zerg.

However, at the palace check-in, the panel didn't give too much.

After all, Wang Yi is the master of the universe, and the reward is "treasure" upwards, anything is possible.

...

Wang Yi observed the murals in the canyon.

When you encounter a cliff that is helpful to you, you will stay for a short time, and you will stay for a longer time when you encounter something that is touched.

Moreover, the incarnation of divine power accelerates ten thousand times in the training space, and the speed of enlightenment is actually very fast.

Sixty-second year at the Grand Canyon.

Wang Yi looked at the cliff in front of him.

This is how many patterns he has seen.

I saw a knife mark in the center of the cliff!

"This..." Wang Yi frowned.

It is just a knife mark, but it contains endless mysteries, giving people a feeling of infinite expanse, which is different from any pattern he has seen before.

This is not composed of lines, but a knife mark left here by a powerful being who randomly used a knife.

"This knife, good..." Wang Yi couldn't tell how he felt, and felt a little itchy.

This knife contains just about one knife that can be imagined. One knife contains all things and all things, with infinite power, including the ultimate mystery of the universe, which makes people fascinated. , but can't feel the feeling, so he can't wait to figure out the secret of this sword technique right away.

It is definitely a legacy of an almighty who has incredible achievements in the Dao of the Blade.

Even if the inheritance of the East River is broken, there is no knife mark left by such an existence for Wang Yi to comprehend.

Because even though there are countless cultivation methods, there are very few that can have a strong impact, fit your cultivation path, and give you unlimited inspiration.

Similar to the "epiphany", it is impossible to meet.

"Amazing!" Wang Yi began to meditate. He can feel that the opportunity to quickly create the eighth-order swordsmanship may be here.

...

And the gods in other cosmos seas are also constantly verifying their secret methods in hunting operations, and promoting the evolution of swordsmanship with actual combat.

Fully understand.

Time passed slowly.

In a blink of an eye, another 10,000 years have passed.

#### [Chapter 766: Descendants of Wu](#)

Years are long.

In the blink of an eye, Wang Yi learned about knife marks for 10,000 years in the Grand Canyon.

With the acceleration of time, it is to comprehend hundreds of millions of years!

primordial universe.

In a courtyard, the fallen flowers are colorful.

Wang Yi and Luo Feng sat on the grass with delicious wine and food in front of them.

This is their divine power incarnate.

"Are you still wandering in the Universe Sea?" Luo Feng asked. Over the years, because of the inheritance of Duandonghe, he has made rapid progress. However, he is still the Venerable Universe and has not made a breakthrough.

If in the original book, because of the pressure of the coalition forces, he should have broken through in more than 100,000 years, but because Wang Yi changed everything, Luo Feng has remained in the realm of the cosmos for more than 300,000 years.

In fact, Luo Feng has created a secret method at the level of "the strongest person in the universe" in the secret method, and he has reached the bottleneck limit early in the understanding of the law, and he has also realized the "heart of the beast god" early. It can be said that...all the conditions are complete, and His incarnation is always practicing in the "inheritance space" cultivation space. Under the flow rate of ten thousand times, he has been practicing for many years.

However, perhaps it was because of the lack of pressure that Luo Feng had not made a breakthrough until now, but he didn't mind, saying that he felt that he was getting too fast, maybe at some point, he had a little inspiration, and he realized that he would make a breakthrough.

The human race is now invincible in the primordial universe, and it is also the overlord in the sea of cosmos. There is no external pressure, and Luo Feng is not in a hurry, just go with the flow.

"I heard that in the sea of cosmos, it has become less and less calm recently, and there are many strange powerhouses of unknown origin." Luo Feng sighed. "I don't know what's going on. Several cosmos masters have fallen, and there has been a lot of noise."

Wang Yi smiled, he knew that those should be the powerhouses who came from other cosmic seas through the cosmic channel.

He has proposed to the human race that all human powerhouses will stay in the primordial universe to cultivate in the recent years. As for the external storm, let it blow away. Humans are now busy absorbing the experience and cultivation methods of ancient civilizations, and they have no time to go. Mixed with the cosmic sea.

As long as the strong human beings don't go out, what if the outer universe is turned upside down? Could it still affect the human beings who shrank in the primordial universe?

"However, human beings can't hide in the primitive universe all the time. There will always be a day when they will go out." Wang Yi thought silently.

As time passes, there will be more and more powerhouses in the cosmos sea, and the number of true gods will reach a very high number.

Originally, there were only a hundred true gods in this universe.

Now, the number may be hundreds of thousands of times more.

It's strange not to turn a genius.

"Looking at this situation, the cosmic channel will soon be hidden. Maybe some forces already know it." Wang Yi lowered his head and drank the wine, thinking in his heart.

...

A fiery red figure sat quietly cross-legged on the cliff.

Suddenly, the surroundings suddenly became quiet, the space seemed to be stagnant, and the flow of time was slowing down.

Silently, a chaotic universe emerged, and then endless dazzling purple lightning was born from the universe. The violent force ripped apart everything, and instantly gathered into a sword light that destroyed the sky and the earth.

The knife light burst out of the sky, quickly breaking through the shackles of time and space, entraining infinite power and slicing on the mist, and the mist was like an unfathomable abyss, absorbing everything.

The universe disappeared, and so did the thunder and lightning, revealing Wang Yi's figure.

"Haha... After comprehending hundreds of millions of years, I finally created this eighth-order secret method." Wang Yi smiled.

This secret method forms a balanced universe of gold, wood, water, fire, and soil, and then the five mysteries converge at one point, as if the thunder of the sky stirs the fire of the earth, and it seems that the five mysteries have some kind of special reaction. At the moment of converging at one point, the violent power of thunder and lightning was born, producing incredible destructive power...

"This sword is called 'Five Elements Thunder', or 'The Universe of Swords. Liuhe'." Wang Yi was in a good mood when he created the eighth-order secret method so quickly.

In the grand canyon, a figure appeared in the distance, and he silently looked at the place where the thunder knife disappeared before.

If Wang Yi felt anything, he turned around and saw a majestic man in armor standing behind him with golden red hair scattered, and hurriedly greeted him. "Senior Tianxing."

General Tianxing looked at him with amazement, joy, and a hint of relief in his eyes.

"The secret method you created just now uses the technique of the secret pattern flow, right?" General Tianxing suddenly asked.

Wang Yi was startled, then nodded, there was nothing to hide.

"Okay, okay." General Tianxing nodded with satisfaction, and the look in Wang Yi's eyes was also extremely satisfied, as if he was looking at a treasure.

"You don't need to call me senior."

General Tianxing said.

Wang Yi raised his head.

"Call me Senior Brother Tianxing or Third Senior Brother." General Tianxing smiled and said, "Congratulations, you have successfully passed the test, your talent is qualified to inherit the inheritance of my lineage of Wu Kingdom, the founder of Wu Kingdom is also my teacher, you enter the door, it is my junior brother."

"I have seen Senior Brother Tianxing." Wang Yi said.

"Haha..." General Tianxing looked at Wang Yi with emotion, "I have followed the teacher for many years and ranked third among the teacher's disciples. You are the youngest, and you are the master of the universe, but you can actually be the master of the universe. Creating an eighth-order secret technique so early is far more than me, and can be comparable to Senior Brother Tianchen."

He shook his head again, "Unfortunately, Senior Brother Tianchen, hey..."

...

Wang Yi and General Tianxing returned to the dark void of the palace again.

General Tianxing faced Wang Yi and said, "Since you pass the test, you can become the successor of my country of Wu."

"But I have to tell you first, the real inheritance of my Wu Kingdom is not here."

Wang Yi was startled.

General Tianxing said: "In my hometown, my country of Wu suffered a change, my teacher fell, and the country of Wu was besieged by surrounding forces, and finally destroyed... Those of us who remained had to take the mechanical treasure of Wu country and use our last strength to go deep into the country. Cosmic Sea."

"We were divided into three routes. One route was intercepted before leaving our hometown. The other route and I were also chased and killed. We had to deviate from the original course and break into this cosmic sea."

"One, the spaceship in your hometown of the universe sea."

"The other place is our current Chaos Star."

General Tianxing said solemnly: "Because of the limitations of the original universe's operating laws, I can't tell you a lot of things here, I will leave some things for you, and you will naturally know when you pass through reincarnation in the future. "

"Let's talk about inheritance... When we set foot on this road, we knew that the danger was extremely high, and we would die." General Tianxing said, "Since this is the case, how can we keep our most important inheritance by our side, in case the entire army is wiped out in the cosmos sea, the inheritance may be cut off, wouldn't there be no chance to turn over in the future?"

"So, we hid the real inheritance in a very hidden place in our hometown, even if the enemy is hard to find."

"Then, we went three ways, and each of us brought a piece of inheritance order. Only with the inheritance order and our approval can we have a chance to find the inheritance."

General Tianxing sighed: "It's just that we didn't expect that the three-way team was destroyed, and Chaos Star also stayed in the sea of cosmos for countless years, until you have a suitable successor."

Wang Yi listened silently.

There was a trace of mist in General Tianxing's eyes, and he said: "I am dead, and what I have left here is just a will. At my level, a will that I have specially preserved can exist for many years, but I don't know if it can be. Can't wait for the result I want before it finally dissipates."

General Tianxing looked at Wang Yi.

"Fortunately, I waited for you."

"I can find an excellent successor for the Wu Kingdom."

"I am worthy of Wu State, worthy of my teacher, worthy of Your Majesty."

Tianxing's voice was low, with inexplicable emotions.

Wang Yi was silent.

Wu, a very powerful and ancient force, stronger than Jin, but destroyed earlier than Jin.

"Wang Yi, I'll ask you one more time, would you like to be a descendant of my Wu Kingdom? Restoring my Wu Kingdom?" General Tianxing asked solemnly.

"I do." Wang Yi said firmly.

"Okay." General Tianxing smiled and stretched out his hand. What Wang Yi noticed was that a golden token appeared in his hand.

"This is the inheritance decree of my Wu Kingdom. You refine it, and there is an inheritance imprint in it. The refining imprint is the true inheritor of my Wu Kingdom."

"But once you inherit, you are a part of my Wu country and can't be changed again."

"Furthermore, you will be bound by the imprint of inheritance. If you betray our Wu Kingdom, you will be completely lost, and no one can save you."

The golden token flew towards Wang Yi and was caught by Wang Yi. In addition to the ancient civilization character 'Wu' formed by the secret pattern, the golden token has some complicated patterns. The pattern is very natural and harmonious, and it looks beautiful when you look at it.

Wang Yi held the golden token, and the divine power extended into the token, touching a vast and mysterious power of the token. The power was so profound and powerful that Wang Yi had a feeling of facing the primitive universe.

At this time, General Tianxing said: "This inheritance order was made by the monarch of the Wu Kingdom. There are three pieces in total. I hold one, but only one person can inherit it. What I must tell you is that if you want to truly inherit my lineage, you must It is only possible to break through to a higher realm than your Cosmic Sea True God, and a higher level than reincarnation."

"The inheritance order records the true inheritance position of my lineage in my hometown. If you don't reach that realm, you can't get the information."

"So, you have to hurry up and make a breakthrough! Otherwise, if someone else gets the inheritance order like you and reaches that realm before you, then your inheritance order will become invalid. Of course, your identity as a core member of the Wu Kingdom will still be valid. Reserved." General Tianxing explained, "We are doing this just in case, to prevent any changes that cause the inheritance to be cut off."

"And the place where the inheritance is hidden is also very dangerous. If you don't have enough strength, you can't go there."

Wang Yi was a little speechless, the relationship was passed on, and it was not safe. You have to continue to practice before you can truly get the inheritance of the Wu Kingdom.

According to the words of General Tianxing, the realm is higher than that of reincarnation... If you are in the realm of Void True God, doesn't it mean that you need the realm of Eternal True God to get the inheritance?

General Tianxing seemed to be afraid of Wang Yi's dissatisfaction, and said: "Of course, in order to ensure the safety of the inheritors and the speed of cultivation, there are many other cultivation methods in the inheritance order, which can ensure that you can cultivate smoothly all the way to the samsara or even higher levels, but , the real inheritance that wants to reach the peak is in the hidden place of the hometown."

Wang Yi nodded, and then began to actually refine the inheritance order.

The golden token in his hand immediately poured out endless golden light, which quickly poured into Wang Yi's body. Wang Yi frowned slightly. In his mind, a majestic figure with endless high pressure and boundless power appeared in his mind. His eyes were deep with golden majesty. Looking at Wang Yi deeply, a voice echoed in Wang Yi's soul.

"My heir, inherit my will, and never cease..."

Wang Yi closed his eyes, shrouded in golden light, and at the same time, a strange inheritance mark began to form between his eyebrows...

General Tianxing watched this scene with relief.

"Hmm..." Wang Yi trembled all over, clenched his fists, and the center of his eyebrows seemed to be branded hard, and a strange mark finally appeared at the center of the eyebrows, and then disappeared completely, and could no longer be observed.

And Wang Yi also got countless messages in his mind.

Among them, there is about this token.

This inheritance order is an exotic treasure, but it has no combat purpose, it is extremely hard and cannot be destroyed, there is a space inside, and there are three doors inside.

Each door requires different strengths to open, and there are different levels of cultivation content and some resources inside.

The first door requires the realm of true gods to open it.

The second gate requires passing through the realm of reincarnation.

The third door requires a higher level than the realm of reincarnation before it can be opened. It also contains the real location information of Wu Zhi's inheritance.

Wang Yi grinned.

At this time, General Tianxing said with a smile: "Congratulations, now you have officially become a descendant of my Wu Kingdom, you are my teacher's disciple, and your status is honorable. According to the rules, you can automatically add a "Wu" after your name. From now on, you will be Wang Yi Wu."

General Tianxing said: "I can also be freed."

Wang Yi, who was rubbing his head, was startled and looked at General Tianxing.

General Tianxing smiled and said: "Don't look like this, in fact, I'm already dead, but although I perished, I left a spiritual imprint on this palace, but it is always rootless duckweed, once you inherit this inheritance Order, I will dissipate."

"I have no regrets if I can find an excellent junior brother before it completely dissipates." General Tianxing said silently in his heart.

"I should have left you more. Unfortunately, when we went deep into the sea of cosmos, we encountered an unimaginable disaster. No one was spared. Even our super fortress Chaos Star also suffered serious damage, and the interior was chaotic. can no longer be activated." General Tianxing said with emotion. "A lot of things can't be used, even out of my control, otherwise..." General Tianxing shook his head and laughed at himself.

"The original universe, it's really scary. It's everywhere."

"However, this palace was specially created by me at the beginning. You can refine the inheritance order, and you can naturally master it and take it away. Some of the things in it are also very helpful for your cultivation. questionable."

"Senior Brother Tianxing..." Wang Yi looked at this senior brother he had just met, and his mood was also a little complicated.

"Haha, have a drink with me at the end."

General Tianxing and Wang Yi sat opposite each other, sitting in the dark void with a glass of wine in their hands.

General Tianxing finished drinking a glass of wine, holding the glass, not knowing what to think, staring blankly at the surrounding void, and suddenly there was a sparkle in his eyes.

"I should be going."

"It's all up to you, Junior Brother."

...

#### Chapter 767: Body Refinement Secret Technique "6 Beast Transformation"

"Wu country was so strong in the origin continent, and it was destroyed in the end. My brother Tianxing is the master of chaos, called a holy existence, and a disciple of the king of gods. He also fell into the long river of history." Wang Yi flew out of the black lake, sighing in his heart. . At the same time, I was secretly vigilant. I joined the Wu Kingdom, and I had to be careful when I went to the origin continent in the future.

According to what the senior brother said before he left, the enemy of Wu State is extremely powerful. Even if he stands at the top of the Origin Continent in the future and becomes the king of gods, if he accidentally confronts him, he will be in danger of death.

Otherwise, the King of Wu Kingdom would not have fallen.

Wang Yi was in a good mood in the triangular white mechanical warship.

Although I didn't sign anything good this time, the harvest was not bad.

With a thought, Wang Yi entered the inheritance token space.

This is a vast hall with three quaint black and gold gates in the hall, and the gates are tightly closed.

Wang Yi glanced at these three doors.

"According to Senior Brother Tianxing, my true \*\*\*\* level can push the first fan, the void \*\*\*\* can push the second fan, and the eternal \*\*\*\* can push the third fan. The further down the line, the stronger and richer the inheritance information, and the more precious the resources are. ."

Wang Yi felt a little helpless. "I'm afraid I won't practice hard."

Wang Yi walked to the first black-gold gate, put his hand on the black-gold gate, exerted force, and sure enough, it didn't move at all.

"It is estimated that the divine power of the true God is needed." Wang Yi understood clearly in his heart.

He looked at the other two gates, shook his head, and left here.

Wang Yi, who returned to the warship, sat down, "Although I can't open those three doors now, Brother Tianxing has left me with enough cultivation heritage, plus the practice behind the three doors of light in the [Tianxing Temple]. Space, has been cultivating until the Void True God is completely fine."

As soon as the inheritance order was refined and received the palace, Wang Yi received relevant information.

Especially the world behind the third gate of light, each has its own uses.

The first light gate world, used to test the rhinoceros bureau, can actually improve comprehension, comprehension efficiency, and thinking speed.

In the second light gate world, there are various cultivation mysteries left by countless predecessors. Of course, they are not systematic, but the true meanings left by some super existences are still very precious and can touch inspiration.

The third light gate world is a place for those who take the divine body route to study. There are countless life structure diagrams in it, which were collected by the Wu Kingdom over a long period of time, and are extremely precious. And now it is up to Wang Yi to watch. Among them is Wu Guoyi's precious core inheritance "Six Beast Transformation".

Wang Yi stepped through the gate of light and appeared in a vast starry sky. There were stars shining in the starry sky, but if hundreds of millions of stars were combined, it turned out to be an incomparably complicated pattern, and countless shining stars formed a three-dimensional secret pattern. ! A series of endlessly detailed stereograms of life.

Countless stars form a three-dimensional picture of life, and they are all perfect lives! Even if they are both perfect lives, they are different from each other. Even the 'perfect genetic structure' of flesh-and-blood life can be divided into hundreds of thousands of species.

Wang Yi walks in the void, showing a more complicated three-dimensional picture of life. Flesh, rocks, energy, metals, plants... all kinds of three-dimensional images of life, from more than 10,000 times to 30,000 times the level of life genes, and then from 30,000 times to 60,000 times... too many, all over the sky.

Wang Yi looked at him with a smile, "I want to break through 60,000 times the gene level of my divine body. It seems that I have to rely on this. Perhaps, I can even reach a higher level."

This is a big treasure.

Wang Yi came to the other side of the starry sky again.

There, there is an incomparably huge alien beast entrenched, it is an alien beast composed of countless stars, the huge body is calculated in "light years", and the huge body spans the entire starry sky.

This is a huge four-hoofed beast with two sharp horns on its head and a pair of wings on the back, but it is extremely beautiful, giving people the aura of being far away from the world.

"The first change in "The Six Beasts" is the 'dazzling prison'." Wang Yi exclaimed.

Although General Tianxing left him with many restrictions, he also had some very powerful skills.

Among them, there is this "Six Beast Transformation".

"The Transformation of Six Beasts" is one of the core unique skills of Wu State, and it was also created by the monarch of Wu State.

The monarch of the Wu Kingdom is the best at it, and it is actually the mechanical treasures that rely on it to conquer the Quartet. The Wu Kingdom is also a powerful force that has reached the peak of the mechanical civilization! It can even create a super war machine that can fight with the king of gods!

Like "Cosmos Boat", "Chaos Star"... Its size is hundreds of millions of light-years, it is unbelievable, and its power is enough to destroy the sky and destroy the earth. It belongs to the most powerful war machine of Wu State.

Countless powerhouses control the explosive power together, and they can even easily kill the Chaos Lord on the battlefield! It is not easy for God King to destroy.

And this "Six Beast Transformation" is another aspect that Wu Zhi Shenwang is good at.

With reference to some six kinds of extremely powerful alien beasts, he created a super unique technique to strengthen his body.

If you want to practice, you must follow the route of the Wu Kingdom's divine body, so only the core members of the Wu Kingdom can learn.

It can improve physical strength and defense to a level comparable to Arcana.

There are six floors in total.

The first change, dazzling prison, can be cultivated by immortality, and the physical strength is comparable to ordinary treasures. Although it is said that immortality can be cultivated... But in the history of Wu State, there has never been immortality that can be successfully cultivated, and they are all above the Venerable.

The second change, Heavenly Nightmare, above immortality, the level of the divine body's life gene reaches ten thousand times and can be cultivated, and the body defense is comparable to the top treasure.

The third change, stone silkworm, above the master of the universe, the level of life genes can be cultivated at 30,000 times, and the physical defense is comparable to the true god-level treasure.

The fourth change, Linhuang, above the true \*\*\*\* of the void, the level of life genes can be cultivated at 60,000 times, and the physical defense is comparable to the treasure of the true \*\*\*\* of the void.

The fifth transformation, Yan beast, above the eternal true god, the level of life gene reaches 80,000 times and can be cultivated, and the physical defense is comparable to the eternal treasure of the true god.

The sixth change, Chaos, Chaos Master and above, the level of life gene reaches 90,000 times and can be cultivated, and the body defense is comparable to Chaos Master Treasure.

Physical defense is not armor defense. Physical defense reaches the level of Chaos Domination Treasure, even if God King wants to destroy it, it is very difficult. If you add armor protection, it will be even more perverted. At the same level, the material defense can be called the sky!

However, this "Six Beast Transformation" needs to follow the divine body route. The divine body route is extremely difficult. The training difficulty of this "Six Beast Transformation" is not lower than that of the divine body route. In history, only the monarch of the Wu Kingdom who created this unique skill has cultivated to the sixth transformation. Others don't even have the fifth change. The fourth change is only one. Still a Chaos Master!

Wang Yi recalled the information about "The Transformation of Six Beasts" in his mind, and looked at the stars and strange beasts in the distance, filled with amazement.

Physical defense is comparable to a treasure! This is scary.

However, this starry sky only has the first three changes to the star map of the practice exercises, and the last three changes, it is estimated that Wang Yi can only get it by opening the three doors.

"The message also said that the monarch of the Wu Kingdom is best at creating powerful machines, and other means of fighting are probably weak, so he deliberately created this unique skill to improve physical defense and increase life-saving ability." Wang Yi secretly thought.

However, Wu Guo is the top force standing in the ancient civilization after all, except for the creation of mechanical treasures, other aspects are not too bad!

It's just that the mechanical flow is stronger!

"I am the master of the universe now, and the level of life genes has reached 50,000 times, which has already met the requirements of the third transformation." Wang Yi felt itchy. "That's a body defense comparable to a true god's treasure."

A true treasure, what is that? Put it in the sea of cosmos, it is the most powerful treasure!

The strongest in the peak palace and treasure universe cannot be destroyed.

Xeon to treasure? Not even a scratch!

How could he not be envious when such a heaven-defying skill appeared in front of Wang Yi.

"However, this "Six Beast Transformation" is very difficult to cultivate." Wang Yi secretly said.

"According to the information, in the history of Wu Guozhong, the master of the universe has successfully cultivated the third change, and there is no one! The only true \*\*\*\* who has successfully cultivated. The others are above the void true god!"

How strong was the Wu Kingdom at the beginning, and how many geniuses were there. After a long time, only one true \*\*\*\* has cultivated the third transformation, and the others have surpassed the true gods. It can be seen that the difficulty of cultivating this "six beast transformation" is definitely very harsh. .

But if the cultivation is successful, the improvement of strength is also huge!

At least, the life-saving ability has increased by an unknown number of times.

Like Wang Yi, if the third transformation is cultivated, the body defense will be comparable to that of the strongest treasure, and if you put a treasure armor on the outside, the defense will reach a perverted level!

Because armor generally weakens the attack to 1/100,000 or even 1/1,000,000 (the stronger the attack, the less it is weakened), Wang Yi's body only needs to withstand this little damage... A Xeon or Treasure-level body can The damage suffered was horrific.

Enemies of the same level will not even break the defense if they attack with all their might.

In addition, Wang Yi's divine body is huge, and the divine power of the original Xeon Supreme Treasure is supplemented...

It is estimated that even if the true \*\*\*\* of the void wants to kill Wang Yi, he will doubt life.

At the same level, the only thing that can threaten him a little is the soul attack.

However, Wang Yi has a soul and a supreme treasure, and his will has reached the pinnacle of the Void True God because of the practice of "Black-patterned Stone Pillar Inheritance"!

In addition to the burning and explosive supernatural power of "Destruction", the ultimate speed movement technique of "Donghua"...

It's flawless! The soul is strong! Vitality is very strong! The battle is very strong! Physical strength is very strong! Escape is very strong! Simply perfect!

The more Wang Yi thought about it, the more excited he became.

Even if only the first transformation is successfully cultivated, his body still has the defense ability of ordinary treasures! You must know that the stronger the body's defense, the more damage it will weaken, and it will be directly reduced to 1/1,000 or 1/10,000, which is terrifying.

...

Wang Yi immediately began to look at this huge star map and study its mysteries.

If you don't take the divine body route and don't study the genes of life, you won't understand it at all.

But Wang Yi, who has reached 50,000 times the divine body, can easily understand the mystery of the structure.

"It's amazing! It's amazing!" Wang Yi's eyes showed shock, and this picture of stars and beasts made him feel extremely mysterious and profound. "It's actually possible to do this! How did my teacher, the monarch of the Wu Kingdom, think of it?"

Wang Yi was excited.

Because he has a foundation, he can easily comprehend it. And those who can't understand it, look at it in vain, and can't remember when you close your eyes.

Wang Yi immersed himself in it and carefully analyzed the mystery.

"I feel that the structure of this star and alien beast map has some flavor of the secret pattern..." Wang Yi thought to himself. The monarch of Wu State, the basis for research and manufacture of mechanical treasures is actually the secret pattern!

And Jin's Divine King refining the treasure is also a secret pattern!

"It's no wonder that Senior Brother Tianxing asked me if I created a secret technique with the flow of the secret pattern, so I was so happy." Wang Yi recalled. "It turns out that in the practice of "Six Beast Transformation", in addition to the divine body route, this secret pattern flow is also helpful!"

After all, the strongest thing for the monarch of Wu is to create mechanical treasures! The body-refining technique "Six Beast Transformation" created by him naturally has the shadow of the flow of secret patterns.

With Wang Yi's attainment in the divine body route and the flow of secret patterns, it is even more convenient to study the first star map.

At the same time, those in the cultivation space are constantly comprehending and analyzing at a high speed under the acceleration of ten thousand times time.

Wang Yi's divine body is composed of countless divine powers combined with his soul.

"Boom!" Wang Yi's divine body scattered directly into countless particles.

In my mind, I thought of the extremely complex and mysterious star and beast. The beast was three-dimensional, composed of countless stars, and there were also a series of secret lines connected and outlined.

Follow the visualization. The body is completely dispersed, every particle begins to be affected, and the particles begin to change gradually.

"Life Chart!"

From the smallest details, magical changes begin.

Every tiny spot of light began to change and gradually turned into a four-hoofed beast with two sharp horns on its head and a pair of wings behind it.

At a deeper level, it is a secret pattern map that is more complicated than the Rhinoceros Bureau. It is necessary to thoroughly understand this secret pattern map to form this "dazzling prison" alien beast! Incomparably mysterious!

Therefore, the first transformation of "Six Beast Transformations", even the most heaven-defying immortal in history, cannot be cultivated! Because the gap between the foundation and the realm is too big!

If Wang Yi hadn't studied the genetic structure of life, and had not mastered the flow of secret patterns, it would have been difficult to master this map of stars and beasts so quickly.

Wang Yi even felt that this should not be the ultimate! But the deeper level is not what Wang Yi can see and understand now.

"Wow!" Wang Yi's consciousness penetrated deeper into the particle, affecting the composition of the micron.

The secret pattern first forms light spots, and the light spots fluctuate like waves.

fail!

Continue to gather!

Fail again!

...

Fail again and again!

After more than 100,000 failures.

In the light, a beautiful, four-legged beast with two sharp horns on its head and a pair of wings on its back began to form.

"Wow!"

"Success!"

Wang Yi was delighted.

That beautiful beast spread its wings, UU reading [www.uukanshu.com](http://www.uukanshu.com) soars in the stars.

"The strength doesn't seem to have increased, look at my current body defense." Wang Yi's heart moved. A sharp black shuttle appeared in front of him, and under the perfusion of Wang Yi's divine power, it turned into a fierce electric light, and pierced the body of the alien beast fiercely.

"Pfft!" The front section of the black shuttle plunged in a third of the way, then stopped.

"The defense has indeed improved a lot, probably at the level of ordinary treasures." Wang Yi smiled slightly.

Ordinary treasures are nothing to Wang Yi now, even if the top cosmic overlords do their best to destroy them.

However, if this is a physical defense, it will be scary, unless there is a genius of the universe, such as rock metal, most of the universe masters do not have such a high physical strength.

Wang Yi didn't have the body he had before.

The test was successful, and Wang Yi's body turned into a human again.

"Go ahead, practice the second change!" Wang Yi's eyes were full of energy.

#### [Chapter 768: eternal \\*\\*\\*\\* universe](#)

In the core area of Qingfengjie, deep in the dark place where even the strongest in the universe could smell it, black air currents were everywhere, and a tall figure moved in the black air currents.

"The transformation of six beasts?" The two one-eyed lights on the two heads of the ugly world beast flickered, "It's a pity that my world beast's incarnation power is completely different from divine power, so I can't cultivate."

Although the birth of a world beast is the life of a true god, its physical defense cannot be compared with that of the powerful treasure.

This tall and burly world beast was walking in the dark, and the surrounding world beasts changed color when they sensed its presence.

"It's the Burning Prison!"

"Come on."

"Burning prison, very strong."

"The last time Barnes & Noble died in its hands, Barnes & Noble's strength is almost the same as mine, and I am not its opponent, so I should leave quickly."

"Can't get close to it."

As long as they perceive the existence of the incarnation of the beast, they will quickly move away.

The incarnation of the beast also perceives this situation, and it is not surprising.

Over the years, the incarnation of the world beast has killed two more world beasts and successfully promoted to the second rank.

Second-order world beasts are completely different from first-order world beasts.

In the entire dark place, the second-order world beasts counted two slaps, and they were the existences at the top of the pyramid.

Therefore, many world beasts are afraid of it and dare not approach it.

Fear of being hunted and devoured.

"It's really fast." In the dark void where the black airflow drifted, the incarnation of the beast glanced in all directions and whispered.

"But it doesn't matter, we still have a long time, we can play slowly."

The incarnation of the beast is full of confidence.

Now that it has entered the second rank, it has the "Blood Burning Method", its strength is much stronger than that of ordinary beasts, and it also has the extremely sharp mechanical treasure "claws", which can easily gain an advantage in the fight.

In addition, it has begun to ponder its own claws, and thoroughly use its strengths to expand its advantages.

Even if it fights with the same rank beast, it has a great chance of winning!

As long as it goes on slowly, it will eventually become the strongest one.

"Hmph, the world beast king, it's me burning the prison." The world beast avatar teleported away.

Of course, those world beasts are blocking the space, it can't teleport to their vicinity, it has to fly slowly, and those world beasts can find it from afar and escape immediately. This is also one of the reasons why it is difficult to hunt down beasts.

It takes a long time to hunt down one.

...

cosmic sea.

A golden light flashed, and a golden-robed man appeared. The golden-robed man was tall and thin, with long and narrow eyes, gloomy eyes, and a black horn on his head.

"Cosmic boat... Inheritance of the East River..." The golden-robed man said coldly. "I didn't expect that I would have such a chance before transcending reincarnation."

"This cosmic sea human race is really lucky to get this inheritance."

"In my cosmic sea, my strength has reached the limit." His eyes were hot. "My strength has been unable to improve for a long time. If I can get this inheritance, I believe that there is a greater chance of transcending reincarnation."

"Cosmic Sea doesn't have a human powerhouse right now, and there's no chance to start, so we have to think of a way." The golden-robed man pondered.

He originally wanted to capture a human race master of the universe to see if he could get some inheritance information, but the human race is now indented into the original universe, and no one can see it.

They are the strongest in the universe, but they can't enter the original universe, they can only think of other ways.

As time passed, the primordial cosmos cosmos sea gathered more and more powerhouses from various cosmos seas, and some did not hide their fears. With the collision and communication, the news slowly spread, causing a storm.

...

In a cosmic sea at another latitude incomparably far away from the original cosmic sea, a huge universe is suspended in the void of the mighty chaotic airflow.

This is a super-small universe with a diameter of nearly eight billion light-years, far exceeding that of the Eastern Emperor Holy Land Universe and the Purple Moon Holy Land Universe. It devours the endless chaotic airflow every moment to maintain the life in its body.

The universe is peaceful, and the strong people live in the high-level gods continent.

And the endlessly majestic and rolling golden mountain range in the center of the continent of the gods has a highest peak, and there is a golden temple on the peak, which is the legendary supreme ancestor temple.

A strong man in white robe kneeled respectfully on the ground and reported the situation to the figure shrouded in light in front of him.

"Ancestor" finished listening.

"I see, you go down."

"Yes."

The white-robed strong man stepped back respectfully.

The temple was quiet.

And the figure in the light murmured: "The three thousand latitude cosmic sea has channels, and it is connected to one of the cosmic seas. What is special about the cosmic sea?"

"In countless times of reincarnation, such a passage has never appeared. Why did it suddenly appear? Is it man-made? No, it is impossible. If it appeared naturally, why?"

The figure in the light was full of doubts.

"As far as I know, the spaceships of the three major Jedi are the warships of the Wu State that was destroyed at the beginning. The Duandong River is also one of the great forces of the Wu State, and it has disappeared for a long, long time."

"This kind of top-level inheritance was suddenly born, and the laws of the original universe actually allow it?"

"Duandonghe inheritance is born, is it related to Wu country?" The figure in the light murmured. "The forces that destroyed Wu State have been chasing and killing the remnants of Wu State. If they knew about it, it would be interesting."

...

In the boundless turbulent chaotic airflow, a huge small universe is floating in the ocean of chaotic airflow.

This small universe...more than 30 billion light-years in diameter, is already very ancient.

You must know that the Ziyue Holy Land is only 2.1 billion light-years in diameter. This small universe is extremely huge, more than ten times larger than the Ziyue Holy Land universe. It can be called the behemoth in the sea of cosmos. That power radiated far away.

It is also very far away from the original universe, and almost no one has seen it in this sea of cosmos.

Because it is too difficult to get here, the surrounding chaotic void is vast and boundless, except for the chaotic airflow, it is an extremely harsh environment with many dangers, and it is difficult for the lord of the universe to survive.

However, "the strongest people in the universe" can already be born in the universe. These strongest people in the universe sometimes go out for a long time, but it is difficult to appear in the scope of the original universe. They are all in the void environment.

Therefore, in this cosmic sea, they could not be seen in almost a dozen or so reincarnation eras, and perhaps only the oldest Holy Land Universe knew of their existence. Knowing that in the endless depths beyond the universe, there is an incomparably ancient eternal universe.

Their greatest wish is actually to "break out of reincarnation", then they can be guided to go to the continent of origin, the place of the first ancestor.

Their universe can also be separated from the eternal universe of the ancestors and become a self-contained body, and there will be an infinite bright future in the future.

But... it is difficult to escape from reincarnation, even if this small cosmic powerhouse has detailed information about cultivating to the limit of the cosmic powerhouse, it is difficult to achieve.

At present, there is only one person who is independent of the eternal universe, and who is detached from reincarnation again. In the long reincarnation era, there is only one, and that is the legend of the Holy Land universe.

However, that was the early days of the Holy Land.

This is a cosmic holy place that is not much older than the two holy places of the original universe. There are hundreds of the strongest in the universe, and there are tens of thousands of masters of the universe. A holy place universe has a deeper background than the three reincarnation eras of Wang Yi's hometown of the universe. Together with the two Holy Lands, they are stronger.

This holy place is called "Minghong Holy Land".

In the boundless fiery red forest sea in the Holy Land, there is a meandering river. In the river, a huge silver scaled water beast is playing, and a purple-robed man is smiling and watching, but he has a pair of eerie dark golden vertical pupils. There are also colored scales on the face.

"Qishan, Qishan!"

A burst of shouts came, the purple-robed man looked back, and a chubby, bald-headed old man in a thick white robe flew over.

"Fupan, why are you here again, I said it all, without the materials, I will not refine the treasure for you." The purple-robed man said.

"Who said there is no material, I have already brought the material." The bald old man in the thick white robe proudly took out a crystal the size of a fist. There was still a faint black crystal liquid flowing in the crystal, and there seemed to be countless stars in the light. Among them, the ups and downs are beautiful.

"You actually found this black star stone?" The purple-robed man said in surprise. "I remember that there are not many black star stones in the Holy Land, and they are almost extinct. Even near the Holy Land, it is difficult to find."

"Haha, there is no Holy Land, isn't there one outside?" The fat old man with a thick white robe and a bald head laughed.

The purple-robed man was really surprised this time, he glanced at the fat old man, "Did you go back to the sea of cosmos?"

"Yeah, this journey is really hard and it took me a lot of time." The fat old man sighed. "Although there is guidance left by the Holy Land, I almost lost my way. The sea of cosmos is too big, and our Holy Land is too far from the original universe."

"No wonder I haven't seen you for almost an era of reincarnation, so you went to the sea of cosmos." The purple-robed man shook his head.

"I've worked so hard, you have to help me practice this treasure," said the fat old man. "With this treasure, I can also go deeper into the chaotic void, and maybe I can gain even more." The fat old man had expectations in his eyes.

"It's been so many years. You still haven't given up." The purple-robed man shook his head. "Obviously there are other Xeon and treasures in the treasure house of the ethnic group. You don't want to, but you have to make new ones yourself. Well, I will help you because of the friendship for so many years."

"Haha, thanks, I'll invite you to drink next time." The fat old man was overjoyed.

The man in purple robe is a master of refining, and he is also one of the few people in the ethnic group who can refine the most powerful treasures.

That's right, there are masters who can refine the most powerful treasures in this eternal Holy Land universe.

After a long period of time and some cultivation information from the origin continent of the Holy Land Universe, several master craftsmen can always be cultivated, so there is no shortage of Xeon and Supreme Treasures here. Almost every strongest person in the universe has one or two pieces. The numbers have reached a very scary number.

But... the Holy Land Universe has no enemies, so these Holy Land Universe powerhouses have to go to the Chaos Void if they want to train themselves, and the Chaos Void is too dangerous. The Lord of the Universe does not have the protection of the Universe Powerhouse, so it is very easy to fall into a dangerous environment, that is The strongest in the universe have appeared and died in the chaotic void in these years.

In the era of reincarnation, countless geniuses have been born in the Holy Land universe, and the cultivation system is complete, and the strong are born again among the geniuses, and only the incomparably outstanding Lord of the universe can be allowed to make an exception to break through to the strongest in the universe and have his own small universe.

Therefore, every cosmos strongest in the Eternal Holy Land universe is very powerful, at least at the level of a giant axe.

Even if the top tenth-level combat power is at the top, there are more than one or two in the Eternal Holy Land Universe.

However, there is only one person who can break through the limit and go through reincarnation in these years.

The fat old man and the purple-robed man were sitting by the river drinking.

"Crossing the reincarnation is too difficult. Although there are hundreds of the strongest people in the universe in my holy land, and occasionally there are people who go to reincarnation, but only one has succeeded. If they fail, they will die, and the small universe will return to the origin of the ancestral universe." The fat old man sighed while drinking. "Fortunately, our small universe is still in the ancestor universe, there is no reincarnation limit, you can wait slowly, like those small universes in the universe sea, three reincarnation eras have to be shattered, and they will change again and again. Several more Holy Land universes were born."

The purple-robed man sneered: "So what if it was born, it's not to be destroyed, that catastrophe. How can the universe of Xuxu escape? Next time, they will all be finished. Only our holy land can survive forever. ."

"Yeah." The bald fat old man revealed a memory. "It was also our Holy Land that was lucky at the beginning. We avoided the crisis the first time we met, and the other universes were finished."

"I remember that the last time there was a crisis, it was more than 18,000 times of reincarnation, right?" The bald-headed fat old man was a little distressed. It has been so many years, too long, too long, so long that it makes people mad, trapped in a realm, he has not been able to break through the limit, cross the level of the strongest in the universe, he also understands that his potential is at the end, and there is little hope.

But human beings always have a bit of pursuit in this world. Except for a few of the strongest people in the universe in Minghong Eternal Holy Land, most of them still yearn for transcendence and reincarnation.

They are also eager to enter the realm of the ancestors.

"The ancestors said it a long time ago, creating a tenth-order secret method will give you a lot of confidence in going through reincarnation." The fat old man drank the wine in one gulp, and his face turned red. "I've been trapped at the limit of the ninth-order top secret technique all these years, I don't believe it anymore, I can't do it."

"You." The purple-robed man shook his head. "The ancestors have said that to break the limit and truly cross it, it will be much more grasped if you go beyond it."

It is not that the Holy Land Universe has not created a tenth-order secret technique, and no one has gone to reincarnation in recent years, but none of them have succeeded.

Just like the original ancestor who created the tenth-order secret method at the beginning, it is not that he did not open up the void true \*\*\*\* universe.

On the contrary, Luo Feng broke through from the True God to the Void True God, and immediately broke through the Eternal True God, and the small universe directly became the pinnacle of the Eternal True God universe, with a diameter of 100 billion light-years. UU reading [www. uukanshu.com](http://www.uukanshu.com)

Therefore, the creation of the tenth-order secret method is only one of the conditions. If it is placed on the origin continent, there is no need to go through reincarnation.

But in the sea of cosmos, if you really want to go through the cycle of reincarnation, in addition to creating the tenth-order secret method, the most important thing is to accumulate enough to promote the universe of the true gods to the universe of the true gods of the void.

The Void True God goes to reincarnation, and there is almost no danger.

"Hmph, I will definitely succeed." The bald fat old man patted the table.

"Yes, yes, you can do it." The purple-robed man poured a glass of wine for his friend.

The two continued to drink and chat.

"By the way, when I returned to the Universe Sea this time, I heard a piece of news." The bald-headed fat old man thought of something and said.

#### [Chapter 769: turbulent cosmic sea](#)

Under the stars in the darkness, on the long stone table in front of the quaint and majestic Giant Axe Temple, the strong human race gathered.

The founder of the giant axe swept his eyes around, and his voice was strong, "This meeting is held because of the Cosmic Sea."

Everyone's eyes narrowed.

The founder of the giant axe said in a low voice: "It has been confirmed that there is indeed a channel leading to other universes in our universe sea."

The human powerhouses present had more or less received a bit of wind before, and they did not show too much surprise about this, but their expressions were more serious.

The founder of the giant axe glanced at Wang Yi again, "And among them, Hunyuan provides a lot of useful information, and he now has a clone in those cosmic actions."

"Hunyuan?"

Many universe masters didn't know about this news, and looked at Wang Yi in surprise, but Wang Yi smiled slightly.

"We don't yet know how many universes lead to us," said the founder of the Great Axe. "However, as far as I know, the situation of each cosmic sea is similar to ours, there are three reincarnation eras, and there are even holy land universes... A single cosmic sea may be no worse than our hometown's cosmic sea, or even more powerful. powerful."

"In a universe sea, there may be hundreds of the strongest in the universe and thousands of masters of the universe."

"How about ten? How about a hundred? How about a thousand?"

There was silence in front of the temple, and every master of the universe fell into silence.

"This is a terrifying number. The number of powerhouses appearing in the sea of cosmos will far exceed our imagination." The founder of the giant axe said in a low voice. "There is no force in our universe that can withstand it, and neither can we!"

The lord of Qingdong, the lord of Bingfeng, the lord of Huangjian, the lord of Longxing, the lord of darkness, the lord of Xingyue... and other high-level human powerhouses also nodded.

There may be more than 1,000 of the strongest in the 10 cosmos seas alone, and tens of thousands of 100 cosmos seas!

What an astonishing number, more than the Lord of the Universe in their Universe Sea!

"Cosmic Sea, the Lord of the Universe has been falling some time ago. According to speculation, it is most likely from the hands of other Cosmic Sea powerhouses." The Chaos City Lord, who looked like a majestic middle-aged man in a golden robe, said. "Fortunately, we primitive cosmos humans, because of the previous reminder from Chaotic Source, there is no cosmos master in the cosmos sea, or it is just a clone, there are few people and pay attention to concealment, but there is no case of falling."

The master of the universe of the human race can be resurrected, but Wang Yi cannot always resurrect them for no reason!

You know, resurrecting a slightly stronger Lord of the Universe would cost more than a supreme treasure.

So, it's best if you don't die, especially in this situation.

"It's nothing if it's just like this, after all, the universe is not just us." The Chaos City Lord's voice was calm, "Those strong people come from all universes, and it is impossible to unite, but we have the inheritance of the East River, which is troublesome."

"For the inheritance of ancient civilizations, those strong people are very likely to attack the strong people of our human race."

The Lord of the Human Universe agreed, indeed, this is very likely to happen...or something that must happen.

Before, many forces in the universe besieged Luo Feng's tomb of the boat in order to seize the inheritance of the Duandong River. Later, the strongest people of the five major ethnic groups in the original universe attacked Wang Yi and wanted to \*\*\*\* the Tongtian Tower, which is very telling.

For the inheritance of ancient civilizations, in order to escape from reincarnation, those cosmic sea powerhouses are estimated to be able to do anything, and it is not a problem to attack the powerhouses of the human race.

"so."

The founder of the giant axe said: "We, the powerful human beings, are not allowed to enter the sea of cosmos without permission."

"Even if you really want to go, you have to have a clone and have enough confidence in your life."

In addition to constraining their own strong people, the human race also issued orders to the Hongmeng, but the Lord of the universe of the Hongmeng is dependent on humans, but they have their own independent powers of action. Whether they listen or not is not certain.

There are even the masters of the universe who took the initiative to drill into the universe in order to join in the fun, or to be curious about other universes.

More than the original universe, many forces in the universe are very interested in the new universe channel, and they have sent people to explore.

At present, there have been more than 200 cosmic channels discovered by all parties alone, and the number is still increasing over time.

...

In the sea of cosmos, a rather peaceful palace of celestial rocks. A man in blue armor sat cross-legged on the ground, behind him was a phantom shadow of the universe that exuded a bright light. On the phantom, the vast galaxy was constantly flowing, as if it contained various mysteries of the operation of the universe. He was the 'World Destruction Star Emperor'. ', looking at his cosmic sea, it is a famous and terrifying existence.

"Teacher." Two figures flew in from outside, landed at the gate of the palace, and shouted respectfully.

An old man formed by a black fog and a young girl covered in blue ice crystals.

This is impressively the two strongest in the universe.

"Chongming, Afei Rui, come in."

The two strongest men in the universe, a man and a woman, walked in and saw their teacher sitting on the ground, and they stood respectfully.

The blue-armored man opened his eyes, and in his eyes there was the ups and downs of the universe, heaven and earth, and there were various visions around him. There seemed to be a huge and endless world behind him.

But all are bound to the surrounding area.

"This side of the sea of cosmos is very interesting." The blue-armored man raised his eyelids slightly and smiled lightly. "Especially the three major Jedi and Duandonghe inheritance."

"Cosmic boat, Qingfengjie, Liuzhongshan... There is only one Jedi in our hometown, the Universe Sea." The black fog old man sighed.

"I feel that they are much more dangerous and unpredictable than the Eternal Ancient Land." The cold girl also nodded.

They all passed through these three Jedi a little bit. also understand the dangers.

"And the inheritance of the Duandong River. I didn't expect that there was an ancient civilization born here." The cold girl was envious.

They also want the inheritance of ancient civilizations.

It's a pity that it's not their Cosmic Sea.

"Even if the ancient civilization is inherited, I am confident that I can transcend reincarnation." The blue armor man's tone was full of confidence.

The two strongest men in the universe also looked at the teacher with admiration.

Their teacher is a legend in his hometown, Universe Sea.

Before the original universe was destroyed, it was invincible to sweep the existence of the entire universe sea, and even received courtesy from the ancestors of other holy places.

You must know that those holy places have always been high above, and they regard other cosmic sea powers as nothing, and the ancestors of the holy places are even more legendary, and they have not appeared once in a long time.

The blue-armored man was the first.

And now, they are only the second reincarnation era, and there is still a whole reincarnation era to fight for.

"Teacher, Demon Lord Wanxing, King Fanyin and the others invited you to participate, will you go?" a disciple asked.

The blue-armored man pondered.

Demon Lord Wanxing, King Fanyin, etc. are among the top powerhouses in his cosmos sea.

He knows that these people are very excited about the inheritance of the ancient civilization of the universe, and they have been planning something, and even hooked up with other experts in the universe.

However, the blue-armored man didn't care too much.

Because he has the confidence to transcend reincarnation, the inheritance of ancient civilizations is not so tempting to him.

only...

He glanced at the two apprentices in front of him.

He could do it, but his apprentice might not be able to do it, so after thinking for a while, the blue-armored man finally decided to get involved.

If he really wants to win the inheritance, it may also help him.

Small risk, big reward, worth a fight.

Even if he fails, he has nothing to lose, so why not do it.

"Then I'll meet the Wanxing Demon Lord and the others." The blue-armored man smiled lightly.

His two disciples looked at each other with joy in their eyes.

...

Time passed silently, and many years passed in a blink of an eye.

A piece of news broke out and spread throughout the entire human hierarchy.

The Lord of the Galaxy "Luo Feng" has broken through the Lord of the Universe!

The strength of the Galaxy Lord and the current number one powerhouse in the Universe Sea, the "Lord of Chaotic Sources", is far from one another, and cannot be compared at all, but he is the successor of the "Duandonghe Inheritance" inherited from the ancient civilization, so he has always attracted much attention from the outside world.

As soon as he broke through, he immediately attracted a lot of heated discussion.

In the vast starry sky, Wang Yi, who was comprehending the star map of life, also immediately got the news, raised his brows and showed a smile.

"Luo Feng has finally broken through the Lord of the Universe."

More than 300,000 years later than the original time!

"Breaking through the master of the universe is slower than before. Breaking through the true gods and reaching the level of 100,000 times the gene level of life is estimated to take longer." Wang Yi sighed in his heart. "It's still too little grinding."

Baojianfeng has been tempered. If a strong person does not go through tempering, the speed of progress will indeed be much slower.

Wang Yi sent a congratulatory email to Luo Feng, and he didn't care. After all, Luo Feng has already obtained the status of the master of the universe. This breakthrough is more worthy of his name, but it is not a big deal. Long gone, Luo Feng just gained the title of Lord of the Universe.

In the outside world, everyone still thinks that the Lord of the Galaxy is the Lord of the Universe.

Wang Yi continued to look at the 60,000 times life gene map in front of him, his brows furrowed.

Over the years, through continuous research, insight, and analysis of the genetic map, he has increased the level of the divine body's life gene to 59,999 times, which is only one step away from 60,000 times.

The 60,000-fold divine body is the third hurdle of the divine body route.

While Wang Yi was looking at and studying these 'life maps', he was also studying the endless sea of secluded seas in the distant primordial universe. In the inheritance space and the cultivation space, the clones are tested again and again.

The endless secluded sea of the kingdom of God has become larger than before, with turbulent waves, and in the core of secluded sea there is a hole with a diameter of 10 billion kilometers. There are some beings with broken breaths that coerce astonishingly, that is the strongest person in the universe killed by Wang Yi...

In the middle, there are bubbles that are nurturing life, most of them are sleeping, and some open their eyes and look at the outside world with ignorance and curiosity, but they can't leave the bubble.

Creative talent can create life one by one.

On the other hand, Wang Yi has made a more thorough study of the composition of life by constantly creating life.

A pair of eyes look here.

"Even in ancient civilizations, there are very few true gods with the level of gods' life genes reaching 90,000 times. Although there were some methods of the 'divine power route' recorded in the Duandonghe Lineage before, once the level of genes reaches 60,000 times, and then go up ...most of those methods are useless, some may be useful, but there are no conditions to implement them." Wang

Yi secretly said. "The genetic structure diagram of life that Senior Brother Tianxing left me is only 60,000 times or less, and there will be fewer and fewer in the future. However, it is much stronger than the one inherited from Duandonghe."

Wang Yi pointed a finger, and a colorful bubble beneath it suddenly shattered, a new creature flew in front of him, and a pair of pure eyes stared at the tall figure in front of her that made her feel close to her from the soul, hesitated, and then stretched out. With both hands, Wang Yi smiled and stretched out a finger for her to hug, "Haha..." She happily laughed like a silver bell.

"Well... When life is born, there will be a lot of information left to them, and as they grow, more and more information is given... This is also helpful for their growth." Wang Yi smiled.

Ordinary life, birth consciousness is blank, like a blank sheet of paper.

And Wang Yi has created many gifted beings, and some of them have a lot of knowledge about the universe at birth, which can allow them to grow rapidly.

Just like the behemoths in the starry sky, they are born with a message of inheritance.

Of course, the lives created by Wang Yi are not comparable to those of the behemoths in the starry sky, but some of them are particularly promising.

Even Wang Yi is getting stronger and stronger, and can create a life that is an immortal \*\*\*\* at birth.

However, that kind of life defying the sky is destined to not conform to the laws of the original universe, and it is difficult to form a group in the universe.

Suddenly his heart moved.

In the vast starry sky of another universe, the palace in the sea, Wang Yi felt a sense of enlightenment in his heart.

"Hahaha..."

Wang Yi laughed, his mind moved.

"Wow!"

Wang Yi's terrestrial deity was completely disintegrated in an instant, and turned into a mighty divine power. Every part of the divine force's life structure was reformed again, and then it suddenly condensed and turned into an earth human deity.

Then, a mighty river appeared beside him, it was the river of divine power, the divine power stored in the source class Xeon Supreme Treasure.

Wang Yi had already reached 59,999 times the gene level of life, but at this moment, he was a little touched, and he naturally broke through to the stage of 60,000 times the gene.

It should be noted that if it reaches 30,000 times, the height of the divine body will skyrocket ten times. 60,000 times is a thousand times skyrocketing, and 90,000 times is an infinite divine body, the size is arbitrary.

Divine body disintegrates instantly!

Every divine power undergoes dramatic changes!

Then it condensed again. At the same time, the divine power of the vast river around was surging and condensed, and the transformed divine body madly absorbed divine power. , such as the giant \*\*\*\* who opened up the world.

Wang Yi's life gene level has exceeded 60,000 times! The divine body has reached a height of 100 million kilometers. The huge body with hundreds of millions of kilometers, but there is no sense of burden, unlike those huge beings that are difficult to move, Wang Yi's body is so huge at the moment, but the speed is flexible and so on will only be stronger.

In other universes far away, the Void Zerg, Nether Sea clones, and Flame Star behemoth clones have all reached their limit states.

Among them, the flaming star behemoth, which was tens of millions of kilometers high before, has reached a size of one billion kilometers!

For every ten times the height of the divine body, the volume is a thousand times larger...

Hundred times higher, then the volume is a million times!

What a mighty power!

Even if there is no Origin Class Xeon and Supreme Treasure, Wang Yi's divine size is extremely huge and extremely amazing in the Universe Sea.

#### [Chapter 770: behind the scenes](#)

"Teacher is in a good mood today."

In the virtual universe, Wang Yi's exclusive plane, the sun shone on the majestic palace golden and green.

Shi Zhongtian, who came over to ask the teacher to point out the realm, secretly said in his heart.

Over the years, Shi Zhongtian has become a cosmic sage, and he has created a title of "Haotian sage". He is also well-known in the universe. Of course, he is most famous as a disciple of the Lord of Chaotic Origin... Because of his high realm, Coupled with Wang Yi's resource cultivation, once he made a breakthrough, he would have the power of a cosmic overlord, and if he had a top-notch treasure, he could even fight against a top cosmic overlord.

Of course, it is still incomparable with monsters like Wang Yi and Luo Feng.

In addition to Shi Zhongtian, several of Wang Yi's children are also here.

Hundreds of thousands of years have passed, and Wang Yi also has three children who have broken through to the cosmos.

Wang Yi was busy cultivating and was often immersed in it. Except for important matters, he usually chose to guide his disciples' children at a certain moment.

"Okay, that's almost it." Wang Yi looked at the time, smiled, and said to the children of the younger generation, "You Uncle Luo Feng made a breakthrough and held a banquet to celebrate. Let's go too."

"Yes." Wang Yi's apprentice, the children are full of joy, Luo Feng's banquet must be a gathering of the most powerful people of the human race, and it is difficult for ordinary sages of the universe to participate.

...

The celebration feast for Luo Feng to become the Lord of the Universe was held on Thunder Island in the virtual universe. Almost all the Lords of the Universe participated, and there were also a few Universe Venerables who had friendship with Luo Feng.

On the contrary, the founder of the giant axe and the city lord of Chaos did not come.

"Wang Yi." Luo Feng said to Wang Yi.

"I want to resurrect Mr. Huyanfu, can't you come over?"

Wang Yi glanced at Luo Feng.

Are you finally going to resurrect Huyanfu?

Wang Yi was the lord of the universe before, but he had no relationship with Moxing Moxing, and he had very little power with Moxing Moxing at the beginning, so he did not deliberately resurrect Huyanfu after becoming the lord of the universe.

Anyway, Luo Feng is the rightful descendant of Moxing Moxing, and he will do it sooner or later.

"Okay." Wang Yi smiled.

It doesn't hurt to go and see, he still has a slight interest in the living Huyanfu.

...

The Silver-Blue Empire has long since ceased to exist, and the surrounding territories are all owned by the forces of the earth, the starry sky outside the original Meteorite Moxing.

When Huyan Bo died, the Meteoric Moxing Star has already been destroyed!

However, since "Babata" entered immortality, with the help of Luo Feng, the meteorite has been quickly rebuilt, and the original sphere of influence of Huyanbo has been re-occupied (except for the area of the Milky Way and the earth).

There were ripples in the starry sky ahead, and a red-robed man walked out of it and stepped into the void.

It was Wang Yi who was an incarnation of divine power. After all, his clones were all in the sea of cosmos.

But even incarnation is stronger than immortality, and teleportation is no problem.

At a glance, he saw Luo Feng and a cute child in a black robe with two tentacles on his forehead and blood-red eyes. It was his intelligent life Babata.

"Luo Feng." Wang Yi greeted Luo Feng, then looked at the cute child in black robe, "Babata."

"Lord of Chaotic Source." Babata was very cautious in front of Wang Yi.

After all, the status of the two is too far apart.

Now Wang Yi is faintly the number one person in the human race, and the number one powerhouse in the sea of cosmos.

In the past, Babata couldn't get used to Wang Yi, and pinched his nose to accept him as a disciple outside Moxing Moxing, but now he doesn't dare to think about it at all, and is extremely respectful.

"I want to resurrect Teacher Huyan Fu." Luo Feng said.

Barbata looked expectantly and was excited.

In terms of relationship, Babata and Huyanfu are very deep, but Luo Feng and Wang Yi have no feelings.

The reason why Luo Feng went to resurrect was also because Huyan Fu left him the Meteorite Ink Star inheritance.

Wang Yi is more direct, even if he is the master of the universe, he is too lazy to take care of it.

Anyway, he and Babata were at odds. Even if he joined Moxing Moxing, even if Luo Feng persuaded Babata to hide it, he would not be willing to pass on the core to him, so Huyanfu was dead or alive. Not too concerned.

Huyanbo and the nine major servants were quickly resurrected by Luo Feng's time and space reversal.

Wang Yi watched this process and saw with his own eyes that Huyanfu and the others were resurrected. He didn't speak, he said hello to Luo Feng, and left quietly.

...

The vast and boundless cosmic sea is filled with endless chaotic air currents. A towering and continuous mountain range is suspended in the void. What is more strange is that there are clouds floating around. This is the second time the cosmic sea is apart from the three Jedi. The first-class "Yunlang Mountains", but except for some cosmos masters, the strongest people in the cosmos rarely appear here, because there is nothing worthy of their harvest.

On a cloud-shrouded peak in the mountain range stood a tall, strange, round building surrounded by countless vines. In the spacious hall of the building, a unicorn-shaped man in golden robes with a gloomy look looked at the alien universe master with a respectful look in front of him.

"It's hard to catch a cosmos master of Hongmeng related to the primitive cosmos human beings and enslave him, but as a result, there is not much information." The golden-robed unicorn was a little annoyed.

In the sea of cosmos, the powerhouses of the human race are now almost extinct, and almost all the powerhouses of the Hongmeng can appear. Although Hongmeng also received instructions from human beings, and most of the cosmos masters obeyed, but there are also those who are unwilling to abide by it. Humans have not said much about this. They are responsible for their own actions. Once something happens, Hongmeng will not act for him. Aftermath.

And the lord of the alien universe in front of him is the lord of the universe in Hongmeng with a reckless personality. He is called "The Lord of Youdu". He is the lord of the fourth-order top universe. In front of the amazing other cosmos sea cosmos powerhouses, there is no resistance, and they are controlled almost instantly.

The difference in strength is too great! This golden-robed unicorn soul secret technique is not as good as the original ancestor of the original invincible universe sea, but it is only one level weaker, but it is far superior to the first person in the primordial universe illusion, the virtual real devil, suddenly attacked, deliberately or unintentionally, a mere cosmic How could the Lord resist, he was controlled in an instant, and even the news didn't have time to send back.

"It took me more than 100,000 years to find this opportunity to enslave a cosmos master of the Hongmeng Alliance, but I got too little information." The golden-robed unicorn was a little unwilling.

Although this was also in his expectation, what he wanted was the information of the limit of the strongest person in the universe, and how could the "Lord of the Capital" have? Unicorns are useless at all.

"The first step plan failed, what to do now."

He glanced at the Lord of the Universe in front of him.

"The Lord of the Universe is only a member of the Hongmeng alien race, not a human race. If it is the Lord of the Universe of the human race, it is estimated that he knows more!"

pity! The lords of the human universe are almost all hiding in the primitive universe, and they are all hiding their identities when they come out.

The "Master of the City" is too arrogant and careless, so he will be easily found.

And the golden-robed unicorn also knew from the servants that the human race did not hand over the real core inheritance to them at all, and at present it is only some information that they have cultivated to the strongest in the universe.

The most important part of the inheritance of ancient civilizations, it is estimated that only the core human beings know about it! Those who are protected and hidden by the human race, the masters of the alien universe have no chance to contact them at all.

Want from humans? Why should humans give them to them?

Even if he controls the lord of the universe, it is useless.

"Damn..." The golden-robed unicorn frowned.

It's really not that easy to get information about the inheritance of ancient civilizations.

...

In fact, the lord of the universe who joined the Hongmeng after the war, like the 'Youdu Master', has no great achievements or contributions, but only a little inheritance experience from the ancient civilization from the universe master to the strongest in the universe, which is still very simple. .

As for the detailed inheritance experience of the ancient civilization in the process of cultivating to the limit of the strongest person in the universe, there is no member of the Hongmeng who has it yet, and the human race will not give it easily!

Want to get it? Then work hard for mankind and make a great contribution. There is no free lunch in the world.

The primordial cosmos cosmos sea now gathers a lot of powerhouses from various cosmos seas, and there are many who want to get cultivation information from the human race, but no matter how hard they rack their brains, they can't think of a good way.

Capture the strong human race, control the soul and get the cultivation method?

But the powerhouses of the human race are not openly active in the cosmos sea at all, and it is difficult to find them.

To catch the strongmen of Hongmeng to persecute?

I am afraid that the human race will not care at all.

Besides, they arrest, how many can they arrest?

As for persecution... The foundation of the human race is in the base camp of the primordial universe, hiding in the primordial universe, not afraid of them at all.

The only thing that may have an impact is that many strong people in the human race are temporarily unable to experience in the sea of cosmos.

It's just that those cosmic sea forces are more anxious.

Especially those first and second reincarnation eras, and even the third reincarnation era, which urgently needed the inheritance of ancient civilizations to escape from reincarnation.

Therefore, their goals are the same, and they are the inheritance of ancient human civilization.

And such a precious inheritance, human beings obviously will not let go easily, so we must find a way.

...

"Hunyuan." On this day, a communication came from the virtual universe.

"City Lord, what's the matter?" Wang Yi asked.

"You come to the Temple of Giant Axe, there is a meeting to be held." Chaos City Lord said.

"Okay."

In the Temple of the Giant Axe, the high-level human beings gathered again.

The two strongest in the universe and the thirty-seven masters of the universe are the core strength of the human race.

The founder of the giant axe and the Chaos City Lord sit on the top seat, while Wang Yi sits next to the Chaos City Lord, and the other Universe Lords are lined up according to faction strength.

"Everyone." After a while, the Chaos City Lord saw that everyone had arrived, and said directly: "I have a major matter here that needs to be discussed and decided by everyone."

Everyone looked at the Chaos City Lord quietly.

"Everyone should know that there are cosmic channels in our cosmic sea, and other cosmic sea powerhouses appear one after another here." Chaos City Lord said, "Those cosmic sea forces have just sent people to contact us and want to make deals with us. ."

"Make a deal?" Many human powerhouses looked at each other.

"Yes." Chaos City Lord said loudly: "They want to exchange our inheritance information."

"what?"

"What a joke."

"It's just a dream."

"They're delusional."

The upper echelons of mankind have spoken out against it.

The inheritance of ancient civilizations is the foundation of the rise of the human race, and it is the most important secret of the race. How could it be handed over to others?

Not even the most common part.

Everyone is strong, how can they dominate the human race? How to suppress other forces?

"Chaos, giant axe, what do you think?" Master Peng Gong looked at Chaos City Lord.

The human race is still the two strongest men in the universe, while the Lord of Chaotic Source and Lord of the Galaxy are usually not interested in managing affairs.

"Of course we don't want to give information to outsiders, even for transactions." Chaos City Lord said.

"However, they came prepared this time to gather and unite a lot of cosmic sea forces. A full 236 cosmic sea forces have joined together to form an alliance. It is said that there are tens of thousands of the strongest in the universe alone. They want to exchange, obviously I won't give up easily."

"236 cosmic sea forces?"

"Ten thousand strongest in the universe?"

Most of the universe masters present were shocked.

sky! This is hundreds of times more than the number of the strongest in the universe in their cosmos sea! You must know that even if all the masters of the universe add up to their cosmic sea, there are only thousands of them!

You can easily swept the universe sea! unstoppable!

Even if the original ancestor appeared, he couldn't bear it, the strongest person in the tenth-order universe? In front of tens of thousands of the strongest people in the universe, I am afraid that they will be smashed into scum in an instant. Unless you hide in the Xeon Treasure Palace. Even so, they may be suppressed and sealed.

The atmosphere in front of the temple was grim.

"Obviously those forces are not stupid, they all know that they can unite to better pressure us." The Lord of the Moon and Star shook his head and said in a cold voice.

"How do they want to trade?" someone asked.

The Chaos City Lord said in a low voice, "They sent messengers to ask, and they are willing to exchange the Xeon Supreme Treasure for our inheritance message. The more precious the information given, the more Xeon Supreme Treasure they give."

"Xeon Supreme Treasure?" Many of the human powerhouses on the scene looked at Luo Feng when they heard this. They all knew about the transaction between Luo Feng and the Eastern Emperor Holy Land.

But obviously, the Eastern Emperor Holy Land did not seem to be publicized, after all, this is not a decent thing.

"Take the Xeon Treasure, and exchange for our inheritance of information, the better it is?" Some cosmos masters sneered. "I'm afraid they have more than that."

"Maybe, there is a shadow of the Holy Land universe behind it." Wang Yi also added.

The Holy Land of the Eastern Emperor and the Holy Land of the Purple Moon covet the inheritance of the East River, but the holy places of other universes are not coveted?

You must know that the inheritance of the Duandong River is the top inheritance of the ancient civilization, and the inheritance force of the \*\*\*\* king.

Even in the origin continent, it is enough to attract blood and blood.

However, compared to those holy places, the strongest people in the universe in the era of reincarnation are more troublesome.

Because they have no way out, they can really do anything when they are crazy.

The lord of the universe was talking a lot. UU reading [www.uukanshu.com](http://www.uukanshu.com)

"We can't hand over the inheritance message."

"Xeon Supreme Treasure for inheritance information? This is not fair."

"They are whimsical."

Not a single lord of the universe is willing to exchange.

Are you kidding me, is the human race lacking that Xeon treasure now?

Even if there are 100 pieces of Xeon Supreme Treasure, it will improve the current strength of the human race, and the improvement is limited. After all, Xeon Supreme Treasure also needs to be used by strong people. How many people are the strongest in the universe?

If they hand over their cultivation experience information, they will actually suffer a lot. No one is willing to do such a disadvantageous thing.
