

A God 801

[Chapter 801: climb stairs](#)

On the fifth floor of Wuqi Building, in the vast world of ice and snow, only Wang Yi stood alone in the ice and snow.

"Sure enough, I'm the only one." Wang Yi glanced at him and didn't notice the presence of the other sergeants, so he ignored it.

"The four leaders of Wuqilou should be paying attention to me." Wang Yi looked at the sky, the sky was unattainable and white, and countless snowflakes were flying and falling, dyeing the whole world white.

"boom!"

The surrounding wind and snow suddenly swept up and enveloped Wang Yi, and an old voice sounded in his mind: "Sergeant Jiujiang, you are the only one on the fifth floor. There is a powerful opponent on the fifth floor, you just need to defeat him. You can enter the sixth floor! If you fail, leave Wuqilou."

In Wuqilou, the first three floors are in danger of death. Starting from the fourth floor, you will not die if you fail. From this point of view, the main purpose of Wuqilou's existence is to select suitable sergeants.

The old voice faded away.

Under Wang Yi's gaze, in the wind and snow in front of him, a figure loomed. He was dressed in a white robe and strolled in. He seemed to be slow, but he kept approaching.

The white-robed man who walked over had a handsome face, a red mole between his eyebrows, a smile, and slightly pointed ears. He looked at Wang Yi admiringly: "Sergeant Jiujiang, my energy will be the same as yours, since you are good at swordsmanship. , I will fight you with the sword technique."

The man in the white robe stretched out his hand, and the surrounding snowflakes gathered crazily, quickly condensing into an ice blade. At the same time, the man in the white robe began to exude a fighting spirit soaring to the sky, and even vaguely he seemed to have turned into a blade of war. That powerful fighting intent is constantly oppressing his opponent.

Wang Yi looked at the man, grinned, and the reward came.

.....

In the snowstorm, the two figures were colliding with each other.

The knife light is vertical and horizontal, cutting the space.

The man in the white robe is like a madman. When a sword is blocked, he immediately uses another sword technique. Each type of sword technique is different.

On the other hand, Wang Yi dealt with it at will, no matter how fierce the opponent's sword light was, he would destroy it with one strike.

"boom!"

"boom!"

The entire ice and snow world has been reduced to a battlefield for the two of them.

The swordsmanship displayed by the white-robed man in front of him is basically guiding, and he guides them by fighting each other... The swordsmanship of this white-robed man can be divided into 'gold, wood, water, fire, and earth', wind, lightning, light, time, space', these ten basic laws.

The law of chaos is mysterious and unfathomable, and the way to the true God is to pursue the ultimate law of chaos.

But everything, the most fundamental is the ten basic laws.

Regardless of the fusion law, regardless of the evolution of the universe... The ten simplest laws are the foundation.

But even the basics... According to the understanding, it can be divided into different levels, and the swordsmanship of the white-robed man in front of him, the ten basic principles alone, have already shown a full two hundred swords, and each sword has a different artistic conception, and each sword. The level of the knife can be called the top of the sixth-order, what an incredible thing.

Knowing the rules is like knowing some elements.

And through some elements, how far the combination is, it depends on the ability. In the sea of cosmos, the secret method that can create a 'fifth-order top' by virtue of the fusion law or the law of time and space is called the 'strongest secret method', but in fact it is just a huge bottleneck, a bottleneck that is difficult to break through.

Like Wang Yi, didn't he still create the eighth-order secret method "Five Elements Thunder" according to the six basic principles?

The so-called limit! The so-called perfect! In fact, it is just a huge bottleneck.

For example, 10,081 times the gene level of life is called perfect, but Wang Yi is still more than 60,000 times!

The man in the white robe charged frantically with a knife, knife after knife, and he didn't know how to retreat. Wang Yi also disrupted the opponent's offensive one by one. At the same time, he realized with his heart that although there was no threat to Wang Yi, the mystery of this was worth experiencing carefully.

"Three hundred and sixty knives!" The white-robed man roared.

"Dang!" The man in the white robe was as sharp as a galaxy's mad slash and was easily blocked by Wang Yi, and he jumped to the back and stood in the snow.

"Huh? Stopped?" Wang Yi looked at the other party with a lingering expression.

The man in white robe stared at Wang Yi, the ice blade in his hand was slowly raised, and the momentum on his body continued to rise. "Since these three hundred and sixty knives can't help you, then take my stronger knives."

The ice blade in the white-robed man's hand lit up instantly, and in an instant a flaming bird with wings spread high and high appeared. It was so beautiful and dazzling.

The law of fusion of fire and air, the seventh-order swordsmanship!

In the previous three hundred and sixty knives, each knife contained only one basic law, and each knife was a sixth-order top.

At this moment, these three hundred and sixty-one knives are the fusion law 'the law of fire and air', and the power has reached the seventh level.

And this white-robed man said before that he used the same energy as Wang Yi, but in fact, the power radiated was more than that! Because Wang Yi used the 'fog knife' to use the sixth-order knife technique to resist the three hundred and sixty knives used by the man in white robe before.

Apparently...

This fifth floor is actually a test of the school's combat secrets.

As for divine power? treasure?

All other advantages are useless.

"Good day!" Wang Yi's eyes were as calm as a deep pool. The sword in his hand lit up under the perfusion of divine power, and in an instant, there seemed to be a phantom of the universe with countless galaxies running on it.

Seventh-order sword technique. The universe of the sword. Tianyan.

"Three hundred and ninety knives!"

"The three hundred and ninety-ninth knife!"

"The four hundred and thirty-ninth knife!"

The men in white robes surrounded Wang Yi like a spinning top and kept firing out swords.

Combinations of different laws, golden empty, wood empty, fire empty, water empty, earth empty, thunder time, light time, wind time... gold fire air, water fire time, thunder light air... different The rules of the sword are skillfully blended together and presented in the form of a knife.

Different knife techniques, all the mysteries are reflected, some of which make Wang Yi feel bright, and Wang Yi is also immersed in it.

It is as if a chef who is proficient in countless dishes is showing Wang Yi "how to make countless kinds of delicious dishes from several basic materials" through his own techniques.

The inheritance of the Duandong River through the generations, the inheritance of the Wu Kingdom, and the exquisite swordsmanship that the man in white robes displayed the essence of the law, all kinds of insights were intertwined in Wang Yi's mind, and countless spiritual lights emerged. comprehension continues to improve.

Wang Yi's "foundation" has been sublimated once again.

"The four hundred and fifty knives!" The man in white robe, like a madman, was slashed and flew out by Wang Yi again, and he stopped.

Wang Yi also stopped.

"finished?"

.....

The silver-gray palace outside the Wuqi Building.

The four leaders looked attentively.

"Looks like it's over."

"I didn't expect this kid to be so powerful."

"I sensed that he didn't seem to be doing his best."

"sharp!"

A famous commander sighed.

"His swordsmanship is already at the middle level of a true god."

"The Lord of Laws can create a sword technique in the middle of a true god, which is much stronger than I used to be. It's incredible."

The sixth-order top secret method can only be regarded as the elementary level of True God.

The seventh-order top is considered a true god.

The top of the eighth-order is considered to be the highest level of true gods. The axe method created by the founder of the giant axe is this realm, and then the top-level attack of the ninth-order can be performed with the help of the powerful treasure.

The ninth-order top is the limit of the true god! Of course, with the Xeon and Supreme Treasure, it can also exert a higher level of power, like Jie Fanzi.

The top tenth order... The super characters in the true gods can generally be achieved with the help of the powerful treasures. Of course, some existences that defy the sky are not counted, such as Wang Yi, who can create the eighth-order sword technique in the master of the universe. Once you become a true god, you will naturally be able to break through the so-called limits of normal true gods.

"You win, I can't help you." In the snow and ice, the man in white robe stopped and did not continue to shoot, but smiled shyly and threw it casually. The ice blade in his hand directly turned into ice and snow and floated away. One step at a time, he reached a distance, and another step, he disappeared from Wang Yi's sight.

This is the case when crossing the fifth floor. As long as the attacking secret technique reaches the 'seventh-order' level, the first three hundred and sixty knives of the white-robed man are only the top of the sixth-order, and the fusion law behind it is only the seventh-order.

Just undefeated.

In the end, the white-robed man will admit defeat!

Wang Yi looked at the direction in which the white-robed man was leaving, and shook his head secretly.

"The fifth floor, that's it?"

"It's not difficult for me."

"But it's a bit of a gain." Wang Yi still had some regrets in his heart. "Unfortunately, the 450 knives he showed before, the first 360 knives are the top tier six, the last 90 knives are the top tier seven, and there is no tier eight."

Wang Yi actually wanted to say don't stop, continue, I can still do it.

It is a pity that the other party is acting according to the rules of Wu Qilou, and the seventh-order top secret technique has reached the top, and he will not listen to him.

"boom!"

A beam of light descended from the sky and enveloped Wang Yi. Whoosh! Disappeared on the ice and snow on the fifth floor of Wuqi Building.

The sixth floor of Wuqi Building.

As soon as Wang Yi appeared, he looked around. This was a world of mountains and hills, which was equally vast.

"As long as you stay alive...you will pass the sixth floor! You can enter the seventh floor, Sergeant Jiujiang, you are very close to reaching the top of Wuqilou..." The old voice echoed in the sky.

"Just to live?" Wang Yi smiled slightly, "The requirement is quite simple." But the lower the requirement, the higher the difficulty.

"Boom~~" In the mountains and hills world far away from Wang Yi, a vast area suddenly trembled, as if some behemoth was about to emerge from the ground, the arched earth began to break and bulge, and a large number of broken rocks The ground collapsed and rolled around, and gradually a dark green shadow emerged from the ground.

"Come on, I remember, what is the test on the sixth floor?" Wang Yi whispered.

The dark green behemoth rumbled out from the ground and appeared on the surface.

It is ugly, somewhat similar to a dark green toad, but there is an eye on every part of its skin, and at a glance, there are at least hundreds of eyes.

"Roar~~" The alien raised his head and roared.

hum!

Every eye on its body burst out with a golden light, and the golden light shot to all directions, but it only dissipated after shooting hundreds of millions of kilometers.

"A thousand eyes." Based on the golden light, Wang Yi instantly determined the number of eyes of the strange beast in front of him.

The four commanders are also watching, "The sixth floor, I don't know how Jiujiang will deal with it."

"This is the sixth, and there are seventh and eighth behind. I hope he can support it a little longer." Every commander was looking forward to it.

But they didn't believe that Wang Yi could really get past the eighth floor.

After a long time, only one person can break into the eighth floor!

On the sixth floor of Wuqi Building, in the boundless world of mountains and hills, the dark green toad-like thousand-eyed beast controlled a black sword with a length of 300,000 kilometers, like an army formation, whistling towards Wang Yi.

When an ordinary powerhouse controls a psychic weapon, in order to make the psychic weapon burst into the strongest combat power, it generally needs to go all out to control it. So generally only one can be controlled.

This thousand-eyed beast can be divided into a thousand consciousnesses by nature, and each consciousness can explode with the strongest combat power.

Wang Yi calmly looked at the black swords that roared over the sky, the swords were like rain, blocking the void.

The main test of the sixth floor is the body technique!

"Movement?" Wang Yi smiled.

As Luo Feng's body technique can reach such an astonishing level, Wang Yi is naturally not bad either.

In fact, there were quite a few sergeants who had crossed the sixth floor before, and their movements were not as good as Wang Yi and Luo Feng!

"But... there's no need to show everything." Wang Yi thought, his figure was "difficult" in the shadow of the sword.

Sometimes dodge, sometimes attack.

The sword and the black sword collided, and sometimes the divine body was collided with the black sword.

It seems that it will soon be overwhelmed by thousands of war knives.

"Haha, a sergeant who is the master of a little law, can stand up for so long under the attack of my thousand-eyed adults. It is very rare." Thousand-eyed strange beasts did not find Wang Yi's hidden strength, and was proud. "Forget it, attack for a while and let him go."

The thousand-eyed beast, which had planned to gradually increase its attack, slowed down.

The four commanders of Wuqilou also did not find any abnormality.

However, in their eyes, they also "see" that Wang Yi can pass the sixth floor safely, so they are not in a hurry.

Because Wang Yi has never really used his unique skills, these commanders thought that Wang Yi's limit was that high. UU reading www.uukanshu.com

If you know that Wang Yi created the eighth-order swordsmanship, and his body is more powerful than Luo Feng, I am afraid that he will be stunned.

There are not many such monsters in the vast origin continent.

After another moment, the thousand-eyed beast felt that it was almost the same. With a roar in the sky, the thousands of war knives instantly turned into countless streamers, flew directly to the surrounding distance, and crashed down, turning into hills.

"Sergeant, you have passed the sixth floor test, let's go." The thousand-eyed strange beast said lazily, slammed into the ground, and disappeared from Wang Yi's field of vision.

Wang Yi also smiled in his heart. "It's over, but this thousand-eyed beast is really powerful. It can control a thousand weapons, and each weapon has the strongest attack power, which is beyond imagination." Wang Yi was amazed. The true identity of the other party may be a Void True God! "This may be the talent of the other party. If it can be learned like a secret method, it will be terrible!"

Wang Yi sighed.

At this moment, a beam of light descended from the sky and enveloped Wang Yi, and Wang Yi instantly disappeared in the sixth-floor world of Wuqilou.

[Chapter 802: final test](#)

The seventh floor of Wuqi Building.

A world of ice.

Wang Yi looked up.

Not far away are the almost transparent ice mountains.

"This is the seventh floor." Wang Yi's expression was calm.

He didn't forget his purpose of coming here.

Wuqi Building has a total of nine floors, of which the first eight floors are obstacles, as long as you exit the eighth floor and enter the ninth floor. It is to climb to the top of Wuqilou, it is success!

He doesn't necessarily have to accept the "Lie Yuan Technique", he only needs to sign in.

Wang Yi looked around cautiously. If he remembered correctly, the test on the seventh floor was... suddenly.

Whoa! ! !

The cold air filled the sky with ripples of space, and then a huge one-eyed began to appear.

"God's eye!"

The divine eye that caused a will shock once appeared on the third floor, and once again appeared here on the seventh floor.

hum~~

The divine eye radiated a golden light, covering the lower part and also covering Wang Yi.

"Sergeant Jiujiang." The old voice resounded directly in Wang Yi's mind, "Through the test of God's Eye, you can enter the eighth floor of Wuqi Building... The eighth floor will be the last obstacle for you to reach the top of Wuqi Building. "

boom! ! ! The golden light in the sky suddenly burst out with a powerful willpower shock, which turned out to be a willpower shock, and the intensity of the willpower shock reached the willpower shock intensity at the end of the 'Wuqilou Third Floor'.

That is the top of the true god!

The impact of the will is invisible and invisible, and it cannot be avoided, so it can only be resisted.

If it is the sergeant who is the master of the law, in the face of this willpower shock, he can only resist it, but he may not be able to resist it.

but.....

"Will?" Wang Yi raised his head and looked at the eyes of God, but he did not move, and directly resisted.

At the peak limit of the true **** of the void, the terrifying will that is only one step away from the will of the eternal true god, it is still okay for Wang Yi to directly resist this will.

At the same time, Wang Yi also carefully observed the huge eyes.

"This divine eye contains the mysterious technique of divine eye. It is a secret technique created by the Divine King of Jin, and it is extremely precious."

This special attack method, in the world of Jin, can only be granted if it is sealed, or if it has a special contribution, or has great potential. And it was only given part of the magic eye mystery.

In this Wuqi Building, six sergeants once broke into the seventh floor. Five of the sergeants failed, and one sergeant managed to get into the eighth floor. The six of them... the worst one didn't even study the first volume of the 'Mystery of the Eyes', and the highest only learned three volumes.

Under the gaze of the huge eyes in the sky, under the golden light, the impact of the will became stronger and stronger, and soon reached the level of the 'True God Limit'.

But Wang Yi remained unmoved.

In front of the light curtain, the four commanders watched this scene and exclaimed in amazement.

"This sergeant Jiujiang has such a strong will!"

"In my opinion, he is very likely to pass this floor and enter the eighth floor."

"I just don't know how much 'Mysterious Eye Technique' he can learn."

At this time, Wang Yi noticed an iceberg in the distance. Inside the almost transparent iceberg in the distance, ancient characters began to appear. They were all characters from ancient civilizations. are flooded.

The meaning of the text at the top of this text is - Volume 1 of the Mystery of Mysterious Eyes! Then comes the details.

"Mystic Eyes!" Wang Yi's eyes lit up!

Secret art is different from secret art.

There are high and low secret techniques, like the secret techniques at the master level of the universe, they are almost useless to the true god.

But magic is different.

For example, "Destruction", "Donghua", and "Undead River" belong to the secret arts. The secret arts are useful to the weak, even the super strong. A powerful secret technique... can completely make the strength soar.

The Mysterious Eye Technique is the secret technique of using the will!

In ancient civilizations, it is also an extremely precious secret technique that is invaluable.

Wang Yi looked at the opening content of "Volume 1 of the Mystery of the Eyes of God", and tried to understand it.

"will....."

"The strong all have will, and the will is strong and weak!"

"When the weak die, everything dissipates."

"And even if the strong person dies, the will still remains, even a drop of blood, a piece of body scales, will contain a powerful will pressure impact."

In fact, for the strong.

Take the flesh-and-blood life as an example, there are soul, consciousness, and will to distinguish!

Consciousness is based on the soul. The stronger the soul, the stronger the general consciousness. The weaker the soul, the weaker the consciousness!

If the consciousness spans two levels, such as the True God and the Universe Venerable, the strong can directly overwhelm the weaker on the other side with the coercion of two levels of consciousness, causing his soul to shatter and fall directly!

The will is different. Even the weak can still possess extraordinary will by virtue of the extraordinary spiritual realm!

When the strength is weak, the will is not very useful, and it is generally used to resist the illusion.

But—after reaching the true god, the void true god, and even higher levels, the will becomes even more important.

When the super strong falls, the will can't be scattered!

The will contained in the drop of divine blood that killed Wu Yuyi seems to last forever. Even if the general of the Wu Kingdom has already fallen, he can rely on the arrangement in advance to leave a spiritual imprint. That is the manifestation of the will reaching the transcendent state of sanctification.

But even ancient civilizations... some super powerhouses are generally just confrontation with natural will to suppress their opponents. I don't know how to use my will better

Will, after all, is too ethereal, a very virtual existence. How to use it? Only some super beings can experience and create. Unlike the burning magic secret technique, the most basic burning magic secret technique is the first, which can be realized by some powerful void true gods.

But the secret art of will, even the eternal true gods can't comprehend it. Only after mastering the law of chaos can you gradually gain insight. And the 'Mysterious Eyes Technique' is a powerful secret technique created by His Majesty the God King.

...

"The will has to reach the level of the true **** of the void before you can start to practice the mystery of the god's eye?"

While watching, Wang Yi pondered the first volume of the Mystery of the Eyes of God. In addition to some of the contents of the secret art practice, this first volume also contained some guidelines for improving willpower. According to its content, if you want to improve your willpower...you must pay attention to your heart. Constantly analyze your own heart, know yourself, know your own heart, and constantly sublimate yourself.

"It feels a bit similar to the inheritance of the black-patterned stone pillars. However, the black-patterned stone pillars pay more attention to how to quickly improve their will, and there are specific and detailed ways to improve them, and here is the use of will!"

"Black-patterned Stone Pillar Inheritance" is divided into nine levels, the seventh level is the will of the eternal true god, until the peak of the eternal true god.

If you say it, it is like the inner strength and martial arts moves, no matter which of the two are lacking, they cannot exert great power.

The god's eye in the sky spread out a golden light, and the willpower contained in it continued to increase. It has surpassed the limit of the true **** and continues to improve. On the belly of the iceberg, paragraphs of text are still constantly emerging, and it is still the content of the first volume of the Mystery of the Eyes of God.

The entire mysticism of the divine eye appeared in one volume, and words appeared on the belly of another iceberg in the distance.

"Second volume of Mysterious Eyes!"

The second volume of the Mystery of Mysterious Eyes finished appearing, and in a moment, another iceberg in the distance, a large amount of text began to appear crazily in the belly of the iceberg, which was the third volume of Mysterious Eyes of Mystery.

Wang Yi began to quickly browse his memory again.

There are nine volumes in total! The top elite sergeant in front only learned the third volume. As for how many volumes His Majesty the King of God has put on the seventh floor, who knows? Even the four commanders don't know. Although their four major commanders are all titled powerhouses, even they have not obtained all the nine volumes of the 'Mystery of the Eyes'!

"The fourth... volume."

"He's still remembering."

"Volume 5..."

The four commanders gradually showed surprised expressions as Sergeant Jiujiang kept memorizing the text of the iceberg.

"Unbelievable."

They are very curious, how strong is this sergeant's will?

When Wang Yi started to read the fifth volume, the will shock emanating from the eyes of the gods in the sky had already reached the middle and late stages of the true **** of the void.

Even he was starting to feel the pressure.

The contents of the fifth volume are all revealed.

At the same time when the fifth volume of the Mysterious Eyes Art had just finished appearing, a new volume immediately began to appear in the belly of another iceberg.

"Volume 6." Wang Yi also felt that the speed at which the Mysterious Eye Mystery Technique appeared was getting faster. To be precise, from the first volume to the sixth volume, the speed of appearance was slow at first, but then it gradually accelerated.

Wang Yi gritted his teeth, resisting the more and more powerful willpower, his eyes fixed on the words of the iceberg.

"It's not the limit yet!"

"He's still watching!"

The four commanders were all shocked by Wang Yi's performance.

A Lord of Laws, his will is so strong.

Finally, all the textual contents of the six volumes of the Mystery of the Eyes were revealed.

Wang Yi just breathed a sigh of relief. In the belly of another iceberg, the seventh volume of the Mysterious Eye of God appeared.

"Volume Seven!"

"The seventh volume of the Mysterious Eye Mystery has appeared!"

The minds of the four leaders were all attracted. Of course, they couldn't read the text on the iceberg clearly. At the beginning, His Majesty the King of God taught them only the first six volumes.

And the sergeant, the master of the law, went to Wuqilou for the first time, but directly saw the seventh volume!

Wang Yi also felt that the pressure from the sky was squeezing his nerves like turbulent sea water, as if it would crush his will in the next moment.

The terrifying level of the will shock has reached the limit of the Void True God!

"This level can't overwhelm me!" Wang Yi continued to insist.

The third floor of the silver-gray palace outside Wuqilou was dead silent, and the four commanders were all frightened.

"He's still remembering!"

"A master of the law, the will is so strong, it's incredible, it's incredible!"

"He is the strongest willed among the masters of laws that I have ever seen in my life!"

Words were constantly appearing on the mountainside, and Wang Yi also watched without blinking.

Until I read the last content of the seventh volume, the will shock also broke through to another level!

"boom!"

Like a stone hitting a straw, Wang Yi's consciousness was directly overwhelmed by the powerful force, and his consciousness instantly plunged into darkness.

"Boom!" A beam of light descended from the sky, covering Wang Yi, who was unconscious in a coma.

Immediately following, Wang Yi left the seventh floor.

...

The four leaders in the hall were silent, they stared at the screen, and the seventh-floor scene displayed on the screen also made them hold their breath.

When they saw Wang Yi finished the seventh volume, and another iceberg in the distance began to appear text, Wang Yi lost consciousness and was teleported away, and they breathed a sigh of relief with lingering fears.

covet each other.

"Volume 7." After a long while, the burly male commander among the four commanders sighed with emotion. "This sergeant Jiujiang... is only the master of one law, and he can obtain the seventh volume of the mystery of the divine eye. But he is countless times more powerful than us."

"How can this be compared? We served His Majesty for many years, and we only got the first six volumes." The handsome girl in silver armor shook her head, "But he got the seventh volume directly."

"I can't believe my eyes."

"Ha ha....."

The atmosphere in the palace was warm.

"The seventh floor, next, he will go to the eighth floor." A voice sounded, making those commanders stunned.

"Over the years, only one sergeant has made it to the eighth floor. Sergeant Jiujiang is the second one! And he hopes to be much bigger than the first one!" Hei Wu commanded.

Other leaders are also full of expectations!

"Hopefully, he can cross the eighth floor and reach the top of Wuqi Tower!"

There was nothing on the screen, nothing.

They couldn't see the scene after the eighth floor.

What is the difficulty of the eighth floor, and what is the big secret of the ninth floor... What did His Majesty the King of God leave behind, they don't know.

The only sergeant who entered the eighth floor before, also failed. After the failure, the four commanders also asked him, but he had no memory of the eighth floor.

Obviously, there must be a big secret on the eighth floor. Otherwise, His Majesty the God King will not use the means of obliterating part of his memory.

They can only hope that this sergeant Jiujiang can surprise them again.

"Wait."

"We can only wait. If the sergeant Jiujiang can really successfully obtain the inheritance, the title task will disappear automatically."

There is only one Wu Qishen. The title task of the Lord of Laws is just that. Once someone succeeds, the quest will disappear and will not appear again.

...

As time and space reversed, Wang Yi instantly reached the eighth-layer world.

Wang Yi also woke up.

"Mysterious Eye Mystery, I got seven volumes." Thinking back, Wang Yi secretly said, "However, just like the first three volumes of "Destruction" suitable for True God cultivation, the Mysterious Eye Mystery, the more you go to the back~www.mtlnovel.com~ The harder it is to practice."

Wang Yi looked around. It was a void. In the vast void, there was a small land suspended in the distance. The land was so small that with Wang Yi's divine body, he could walk back and forth in a hundred steps. Endless void, just that small piece of land.

"This is the eighth floor of Wuqi Building."

"The final test is here." There was a smile in Wang Yi's eyes.

He looked at the only land in the void, devoured the famous starry sky world, and there was the inheritance of the "Lie Yuan Technique" created by "Yuan" on the ceiling, and it was there.

However, now that you are here, you can accomplish your goals.

Sign in with 100% Diamond Cards with the highest rewards.

"Sign in."

The panel that has not appeared for a long time has issued a prompt.

[Ding, congratulations to the host for successfully signing in, and rewarding "Wuqilou" (including Jinzhi World Heritage and Lieyuan Technique)!]

[Chapter 803: succeed](#)

"I got it." Wang Yi breathed a sigh of relief.

Wang Yi looked at the lonely land in the distance, "Then, next, let's go and see the spirit of that secret technique."

Whoosh! Wang Yi turned into a streamer and flew towards the land in the void.

After flying for a long time, it finally landed on that small piece of suspended land.

At a glance.

The entire small land is bare and without any debris, but there are many ancient characters on the surface of this small land.

The text content is very simple -

"The eighth floor of Wuqi Building is the final difficulty for the title task."

"Look at the void around you, you can get a secret technique."

"If you can practice it, you can climb to the top and enter the ninth floor of Wuqi Building."

"If it fails, erase the memory and leave Wuqilou."

After Wang Yi read these words, all the ancient words that appeared on the land disappeared. Wang Yi immediately raised his head and looked at the void around him. At this moment, huge words began to

appear in the void in all directions. A star is connected to each other, and countless words are like a connected picture scroll, without any pauses and sentences, and all the words are connected. I don't know which word is the beginning and which is the end.

"No head and no tail, what do you think?" Wang Yi frowned slightly.

It's like breaking up an article composed of a dictionary and letting you reassemble the article.

But you haven't even seen this article, how do you get started?

"If you want to practice the secret technique, you must first sort out the complete secret technique content, and slowly understand it. Luo Feng is fine, I don't believe it anymore." Wang Yi sank.

Countless words were suspended in the surrounding space, and Wang Yi stood on the small suspended land.

Time passed, and nine days had passed in the blink of an eye.

"Om!" Abrupt! Wang Yi, who had been studying the text on the scroll, suddenly felt that all the words on the huge scroll in the void were shining brightly. In an instant, his consciousness was drawn into the scroll. Just like using the 'virtual universe sensor' to enter the virtual universe, Wang Yi's consciousness has entered the picture scroll at this moment.

At this moment, Wang Yi stood motionless on the floating land, surrounded by star-like words on the ring-shaped scroll in the distance in the void.

Whoa!

A vague figure condensed and appeared in the void. He was wearing a luxurious royal robe, which was surrounded by faint black light, and he stood in the void with a blurred figure. He was looking at Wang Yi who was standing dumbfounded on the land in the distance. "It's already the second one." The black figure sighed softly, "The last consciousness just entered the picture scroll world, and soon failed. I don't know if this one can succeed..."

"The deity is gone, and I can only entrust my life with miracles."

The black figure looked at Wang Yi in the distance and looked at him expectantly.

Picture scroll world. Wang Yi only felt that his consciousness was attracted, and he had a feeling of entering a virtual universe. After an illusion, he came to a towering palace emitting a faint purple light. This palace is built on the top of an endless mountain. At first glance, everything in the majestic palace seems to be shrouded in clouds and fog, and it appears blurred. Then look back and look into the distance... The mountain range where you are located is endless, and you can't see the end at all.

"Come in!" "Come in!" "Come in!"... This lofty palace gate, which exudes a faint purple light, came with a series of calls, which made Wang Yi momentarily confused, so stupidly, he walked directly to the gate, Go to the depths of the hall.

Wang Yi walked into the main hall, only to wake up suddenly, looking around, showing shock.

"here is..."

He was in an extremely gorgeous hall. There were exquisite pillars on the edge of the hall. Pictures were carved on the pillars. There were also some decorations on the walls in the distance. , Wang Yi wanted to see clearly... but he still couldn't see anything, not even the ground beneath his feet, like seeing flowers in the fog.

"Boom!" The entire hall suddenly trembled. I saw an alien beast appearing out of thin air in the hall. This alien beast had black scales all over its body and was similar to a lion. It had a curved purple horn on its forehead, and its eyes glowed with purple light. I saw it walking in the hall, making the hall All trembling.

"I am the secret technique itself." The purple-horned beast said. "That is, the spirit of the secret."

Wang Yi looked at it.

Ordinary people don't know the spirit of secret magic, but Wang Yi is very clear.

In the ancient civilization, there are only some super existences that are incomparably defying the sky. They stand at the peak of the entire ancient civilization. When choosing a qualified successor for their proud secret skills, they will spend a lot of effort to refine them. A 'Mystic Treasure'.

The secret technique contains a spirit.

The fusion of secret arts into one spirit is very demanding, even in the lineage of Duandonghe, only three generations of patriarchs can do it. Other generations of inheritors can't do it. The secret technique has a spirit, and it will choose the truly suitable owner. If other powerhouses try to use their powerful strength to force this secret technique, they will only fail... and the treasure of the secret technique cannot be recognized as the master, and it is impossible to obliterate the spirit. After all, only the master can easily obliterate the spirit of the treasure, or a super-powerful person destroys the treasure, and naturally the spirit of the treasure can also be destroyed.

Which one is not the super existence of the ancient civilization that can refine the treasure of secret art? If the three generations of patriarchs came up with the spirit of a secret technique, even if the three generations of patriarchs themselves did not recognize the master, they would not be able to destroy the treasures they refined. Therefore, it is difficult to destroy such "spirits of secret arts", but it is even more difficult to obtain the unique skills that peak existences are proud of.

"You can enter the picture scroll world, you still have some foundation." The purple-horned beast said, "But whether you can get this secret technique depends on your strength, see clearly—"

The sharp horns of the purple-horned beast suddenly shot out four rays of light.

boom! boom! boom! boom!

Four rays of light bombarded the entire hall in four different directions, and suddenly a huge scroll scroll appeared on the four walls of the hall at the same time. All are invisible. Only one scroll. That is to say, the text on the picture scroll hidden in the air at the gate of the temple is all clear and can be read.

"These four picture scrolls." The purple-horned alien beast said, "The only picture scroll in front of you that you can see clearly is the 'secret technique of attracting and absorbing' the entire secret technique."

Introducing the Secret Technique... The existence of the ancient civilization standing on the peak, it was difficult to find an inheritor. Just killed while growing up. But if he is killed and his memory is searched, so that the super secret technique he is proud of is leaked, it will be a big trouble. So they will take a lot of preventive measures.

And using 'Spirit of Secret Art' and other means to cast a net all over the world to seek successors, usually use 'Na Yin Secret Art'. Once the Na Yin Secret Art is mastered, the truly powerful secret art can be brought into the 'Na Yin'. , Even if the memory is searched, under the influence of the secret technique, it is impossible to find the real secret technique.

In addition to the function of 'protecting the secret', the absorbing secret technique generally also has the function of 'selecting qualified successors'. This secret technique will have many difficulties, and only those who meet the requirements can practice it. If you have mastered the secret technique of accepting and attracting, it naturally means that you can learn this secret technique, and you can also enter it by the way. Everything worked.

The purpose of the eighth floor of Wuqilou... is to practice the 'introduction secret technique', and then fully absorb the powerful secret technique into the soul! When written down, it represents success. If you haven't practiced the secret technique, you will fail.

But Wang Yi, who knows the plot, understands that this 'introducing the secret technique' is divided into three stages. The first stage is fine and easy, but at the beginning of the second stage, the imprint of life will be affected by the in-depth cultivation of the secret technique. The secret technique, the first and second steps are not life-threatening. But once you reach the third level, if you don't succeed, you will become a benevolent! Failure is death!

Wang Yi silently memorized the contents of the secret art on the scroll.

The purple-horned beast is still talking: "This secret technique is very demanding. The cultivator should preferably be the master of the law, and the highest can only be the true god. If the strength is high...there is no possibility of success in cultivation."

"This secret technique is extremely demanding." The purple-horned alien beast said proudly, "Since I was created by the master, there have been countless peerless geniuses trying to obtain it, but no one has succeeded so far."

"As for you, it is estimated that you will also fail." The purple-horned beast glanced at Wang Yi.

Wang Yi ignored the spirit of this secret technique. He had already figured out the detailed steps for cultivating the secret technique, and he started to practice it on his own.

If you want to go out, if you don't succeed, you will fail, and some related memories will be erased.

However, Wang Yi already has a way to deal with it.

In this practice, Wang Yi's consciousness of many clones couldn't help being immersed in it. For a time, the Earthman's deity, the clones of the flame star giant beasts, the clones of the Void Zerg, and the endless secluded sea all began to practice.

Standing on the floating land, Wang Yi was motionless, with a little white light all over his body. The whole person exuded bursts of willpower around him. Every divine power in his **** body was enveloped by white secret patterns, which directly penetrated. The imprint of life in every ounce of divine power.

This is the test of the soul, the most fundamental test. And in this test, Wang Yi's will naturally began to 'integrate' with the divine body.

The will of a normal strong person is like a rootless weed. Once it falls, even if the divine body remains, the divine body will not have a terrible will impact.

And once the will gradually merges with every divine power. Then the will will have a 'root'.

In this way, the 'secret of will' can be used. This is a prerequisite for all will-like secrets, such as the Mystery of Eyes. Even if such a strong person dies, a drop of blood, a hair, a tooth will contain a super strong will!

"I feel, it's okay." Wang Yi felt regretful. "Unfortunately, I already have the entire Wuqi Building, including all the secret techniques and the primordial technique. The chance here is useless to me."

As soon as Wang Yi's thoughts moved, the will that had been gradually merging with the divine body began to fluctuate. Every divine power in the divine body had a pattern of white secret patterns.

"Huh?" Four hooves bent, lying directly in the hall, head drooping, waiting beside, waiting for Wang Yi's failed purple-horned beast to lift the eyelids, raised his head in surprise and looked at Wang Yi's side, Showing disappointment. "Failed? This is just the beginning. The first stage failed, but it failed?"

"It's faster than the last time." The purple-horned beast was extremely disappointed. "Is it so difficult to find a suitable descendant for me?" The fate of the purple-horned alien beast is to find a suitable descendant. Of course, once a suitable successor is found, it is also the moment when the spirit of this secret technique dissipates. But it doesn't care, since the day it was born, it has pursued the most brilliant moment.

However, since it was born... I don't know how many geniuses the major forces have come in, but none of them have been able to succeed!

In the void on the eighth floor of Wuqi Building. The figure wearing a luxurious royal robe and surrounded by Heimang looked at Wang Yi standing on the floating land in the distance.

Suddenly his face changed slightly.

"Failed?"

"So fast?"

An uncontrollable look of disappointment emerged from his eyes.

He shook his head and looked at Wang Yi with disappointment. With a wave of his hand, a beam of light descended from the sky and landed on Wang Yi. In the beam of light, there were also lightning currents that rushed into Wang Yi's divine body, erasing the memory related to the eighth floor, but the previous ones could still be preserved.

call! Wang Yi was sent out.

"The second one, still failed." The figure wearing a luxurious royal robe surrounded by Heiman sighed.

...

dark place.

"Hmph. The memory of the human body has really been wiped out." The world beast incarnate "Burning Prison" snorted.

This means of erasing memory involves the soul, other avatars that Wang Yi's soul shares in common, and the memory will also be obliterated.

But the incarnation of the beast is an exception.

Because it is the soul of the beast, it will not be affected.

The communication of consciousness between the two is a more mysterious existence.

Soon, this memory was passed from the incarnation of the beast back to the human deity.

The Divine King of Jin probably did not expect that his method of obliterating his memory would fail a master of laws.

...

Outside Wuqi Building.

Wang Yi was directly teleported and stood at the majestic main entrance.

Those True God guards didn't know how many sergeants they had seen going in. They glanced at him casually and knew that he had failed and didn't pay much attention to it.

The four commanders in the main hall are always paying attention. Some tasks such as the four legions and the Valley of the Gods can be seen at the same time. After Wang Yi entered the eighth floor of Wuqi Building, the four of them did not know about it. Inside the situation, all staring at the task list.

"The sergeant who entered the eighth floor has come out."

"So fast?"

"The title task of the Lord of Laws on the task list is still there. UU reading www.uukanshu.com"

"This..."

"He failed, didn't make it past the eighth floor?"

The four commanders, at this moment, were all extremely disappointed.

Failed!

Finally, there was a second genius sergeant who broke into the eighth floor and thought that he had great hopes, but he finally failed!

When hope turns to disappointment, it turns them into despair.

Some leaders even clenched their fists.

When will there be a peerless character who enters the ninth floor and completes the task assigned to them by His Majesty the King of God?

At this time, Wang Yi didn't know how disappointed and sad the four commanders were. He was in a good mood, feeling the memories in his mind. Looking at the Wuqilou on the panel, he glanced back at the endlessly majestic Wuqilou behind him. The guards led the flight to the outside.

[Chapter 804: Columnarism](#)

The gigantic humanoids still lie in the cosmic sea.

In the void outside the small universe "World of Jin", there are palace-like treasures floating in the air, and they come from many forces in the universe.

The first epoch has passed, and the second epoch has come.

As the outer membrane wall of the "World of Jin" has turned white and can be entered, many cosmic sea powerhouses who have been waiting for a long time can't wait to enter.

Compared with the forerunners of the First Era, the lineup of the Second Era was even larger, and even saw many figures of the strongest in the universe.

A stream of light came out of the small universe "World of Jin", and it was Wang Yi's avatar of the flame star behemoth.

In a dazzling palace treasure suspended in the void outside Jinzhi World, Wang Yi's secluded sea clone, who had been waiting here in advance, also flew over to meet him.

Wang Yi's avatar of Yanxing giant beast gave Wuqilou to Youhai avatar to take back, and then returned to the world of Jin.

Compared with the universe sea, the world of Jin can temper him better.

The Youhai clone quickly returned to the original universe, and only the Void Zerg clone stayed here.

...

primordial universe.

Human territory, a vast primitive secret, somewhere in the starry sky.

You Hai's clone appeared quietly and glanced around.

In the original secret realm, it is absolutely safe and confidential.

"boom!"

Wuqilou, which is more than a thousand light-years tall, appears, and the incomparably huge gate alone is over a hundred light-years, and it is incomparably majestic.

However, Wang Yi has already obtained the control of Wuqilou in advance, and he does not even need to refine it, which is easier than the boat of the tomb.

Rumble~~ That incomparably huge gate, which is more than a hundred light-years high, slowly opened with a rumble, and the huge gate exudes a dazzling color light, illuminating a large starry sky.

Whoosh! Wang Yi flew in. The door slowly closed again.

Wang Yi appeared directly on the ninth floor of Wuqi Building.

Wang Yi stood in a quiet square courtyard with ancient carvings on the walls, which had the unique civilization style of the Jin world. Pass through old and solemn quiet roads.

The seemingly ordinary roads and courtyard walls actually hide endless luxury.

In front of it, a delicate black throne suddenly appeared.

However, there was no sign of the former owner.

The virtual consciousness left by the "God King of Jin" is not here.

Even the entire Wuqilou, apart from him, has no life.

A long, long time ago, before setting off, the King of Jin created Wuqi Building in the world of Jin. Wuqi Building has nine floors. This ninth floor can connect the core of the origin of the universe in the entire world of Jin.

But the panel reward is not the real Wuqilou after all, and it has nothing to do with the world of Jin.

The entire Wuqilou has been owned by him, including the countless inheritances of the Jin world, such as the mystery of the divine eye, and the "Nine Tribulations Secret Book", the core secrets of the Jin kingdom.

If Wang Yi is willing, he can learn to sit on the mountain, collect various materials, and spend a lot of money to create a new "Secret Book of Nine Tribulations" for others to practice.

Wang Yi sat on the delicate black throne, holding a spar glowing with black light in his hand, and when his mind moved, a machine appeared out of thin air in front of him.

This machine has a streamlined body, the shape of a monkey, and a flexible tail. Sitting there silently, there is a palpitating aura.

Wang Yi looked at the machine. "This is the true god-level mechanical treasure 'Wu Qishen' made by the King of Jin himself. Unfortunately, I have better ones. It is a waste to put Wu Qishen here, but it can be given to others to use."

Wu Qishen, worth 30 million military merits in the military armament point! This is a true god-level machine, and it is the top of the true god-level machine. In order to burst out its strongest power, the perception of the secret method must reach the very high-end level of the true god. Of course, the Lord of Laws can also be used, because it can be divided into three different levels of combat power.

Like "Eight Divinity Saints", it is essentially higher-end than Wu Qishen. Its minimum standard of use has to be broken by Wang Yi to the true god. Otherwise, it can't be motivated.

With Wang Yi's current net worth, he can fully exchange for treasures at the level of "Baqi Sage", and he doesn't have to be jealous of this Wu Qishen.

But this was not what Wang Yi cared about the most. He put away Wu Qishen, strolled in the yard, and then appeared on the eighth floor.

On the eighth floor of Wuqi Building, the only floating land, a red-robed man appeared out of thin air and stepped on the land.

Huge texts quietly appeared in the void in all directions, like a ring-shaped scroll. The surrounding ring-shaped scrolls were marked with star-like characters, and Wang Yi was surrounded in the center.

"Buzz!"

This time, without having to wait for nine days, Wang Yi's consciousness was directly drawn into the picture scroll.

In the picture scroll world, on the top of endless mountains, in front of a majestic palace emitting a faint purple light, Wang Yi came here again.

Wang Yi walked into the extremely gorgeous hall, but the spirit of the secret art, the purple-horned beast, could no longer be seen in the hall.

"Haha..." Wang Yi shook his head with a smile. In fact, the secret techniques were already in his mind, and his memory was not erased by the virtual consciousness of the King of Jin. He came here mainly to be contained in this palace. The "Column of Elements" in.

"Let's succeed in the cultivation of the secret technique first."

All the clones have been placed. This is the core primitive secret realm of human beings, and it is still in the Wuqi Building. Wang Yi has nothing to worry about.

However, it was very difficult to cultivate the secret technique, so far no one has succeeded until Luo Feng appeared.

Cultivating this 'secret absorbing technique' has little to do with will, because this absorbing secret technique only has partial requirements on the will, and more on the soul itself!

Luo Feng was able to succeed, in addition to the transformation of the soul in the "Secret Book of Nine Tribulations" by the God of Jin, Wang Yi felt that it was also related to the golden light that appeared during the refining process of "Star Tower".

However, it is only his guess.

No matter how strong the power system is, no matter how strong the power system is, it can't travel through time and space and change the past.

At most, resurrecting the dead "in the past" to the present. For this world, the past is fixed, the present is changing, and the future is unpredictable.

The future that some sky-defying powerhouses can see is actually only a possibility for the future.

Just like a gust of wind blowing through a tree, any leaf may fall, and a certain leaf seen by the strong is a corner of the future.

The same goes for the Chaotic Origin Lords who are called the most powerful single beings in the infinite Chaotic Origin space. They seem to be powerful, but they actually have their own limitations, and they are not really omnipotent.

It is as if only the "Yuan" among the Lords of Chaotic Source can create the source world, and they are best at reincarnating living beings to other source worlds.

But it doesn't mean that "Yuan" is really much stronger than other Chaotic Source lords when fighting, it's just that they are good at different aspects.

This has something to do with the "Tao" of Lord Hunyuan.

"But..." Wang Yi had a strange expression on his face.

Luo Feng has it, and so does he.

Wang Yi did not delay any further and began to practice.

When he was immersed in it, all his divine bodies, including the endless sea of in the kingdom of God, faintly flickered with a white light everywhere, and at the same time exuded more and more powerful will shocks, waves of will shocks. Diffuse in all directions.

However, Wang Yi has already transferred all life in God's country, including all God's bodies, in a safe place, away from other people.

The divine body of the Jin world did not return to the army, but was hidden in a remote place.

Wang Yi has already explained to the high-level human beings that he is going to retreat and cultivate.

As he was immersed in cultivation, the will and the divine body began to 'merge'. This process was very slow. After more than 900 years, the white light flickering on the surface of Wang Yi's divine body suddenly turned into a bit of blue light.

"Boom!" The will of the Endless Youhai actually skyrocketed again!

has entered the second stage.

There are three levels of Navigation Secret Technique. If the first two stages fail, it will be fine, but once the third level starts, it cannot be stopped, and failure is death.

There are dozens of peerless geniuses who have entered the third rank in the origin continent, but among those dozens of peerless geniuses, except for three who were saved, the others all perished.

After three hundred years of blue light glowing everywhere in the endless sea, Boom! All the little blue rays of light turned into countless purple rays, and the countless little purple rays seemed to be faintly connected to each other, forming an incomparably vast and mysterious ancient pattern.

"Boom!!!" The willpower contained in the endless sea of secluded seas skyrocketed again.

But the empty kingdom of God has no life to harm it.

On the eighth floor of Wuqi Building, the surface of Wang Yi's divine body was full of little purple lights, and each divine power was blended with a huge purple image. boom! A surge of willpower spreads out around.

Time has passed, nearly a hundred years after Wang Yi's third stage of cultivation, he finally succeeded.

The whole process lasted for more than 1,300 years.

Wang Yi didn't even feel any pain or difficulty, everything was over.

The essence of his soul is more special than he imagined.

When Wang Yi succeeded in his cultivation, a little bit of starlight appeared in the entire purple palace, directly pouring into Wang Yi's consciousness, and a huge amount of information kept pouring in for a while.

This is the "Lie Yuan Technique", a secret technique created by the extremely transcendent mysterious existence "Yuan", the first powerhouse in the origin continent.

When Wang Yi accepted the whole message, this picture scroll world had no meaning, ended its mission, shattered and annihilated, and Wang Yi's consciousness returned to itself.

In the void, only Wang Yi was left on the floating land. He stood there motionless, there was no more words in the surrounding void, and those words were all integrated into his body.

"Huh..." Wang Yi let out a breath and slowly opened his eyes with a hint of energy in his eyes.

"Lie Yuan Technique, get it!"

However, the "Lie Yuan Technique" is a will to become a saint before you can start to practice.

Although Wang Yi's will broke through to the Eternal True God by accident just now, he has only just entered the Eternal True God-level will, and it is not enough to cultivate this super willpower secret technique.

Yuan left this unique knowledge, and naturally left a lot of pictures. However, as long as anyone learns, all other scrolls will be sensed and shattered automatically.

But the reward from the panel is different from what Yuan got out. It is equivalent to making an extra copy, so he successfully cultivated and the other pictures in the outside world are fine.

"With the Lie Yuan Technique, the entire Jin world has nothing I need other than grinding." Wang Yi secretly said.

After all, the most precious "Wuqilou" in the entire Jinzhi world was packed and brought back by him.

Wuqilou itself is also a super treasure second only to the king of gods. It was made by the King of Jin himself. However, it is not so useful when it leaves the world of Jin, but it can be used as a secret realm to cultivate successors.

Wang Yi flew out of Wuqilou in a good mood, and saw the golden-clothed Chaos City Lord in the starry sky.

Of course, it's just the incarnation of Chaos City Lord's divine power. As the only two strongest men in the universe, the Chaos City Lord needs to do a lot. However, the founder of the giant axe and the Chaos City Lord must have one person sitting in the original universe.

"Wang Yi, this is it?" The Chaos City Lord curiously looked at Wuqilou, which was a thousand years old. He noticed Wuqilou at first, and thought it was Wang Yi's Tongtian Tower. Later, he found out that it was not, and waited for more than a thousand years. Years, I just came over to ask.

"This is a treasure I just got from the Tower of Babel." Wang Yi didn't change his face.

The old practice, no matter what the unexplainable origin is unknown, just push it to the Tower of Babel.

Anyway, no one came to dismantle it.

His cheap teacher, now I don't know where in the Chaotic Origin space.

"By the way, City Lord, I have some more inheritances from the Jin world here, which should be helpful to the human race. I will give it to you later." Wang Yi thought of something and said.

"Inheritance?" The Chaos City Lord smiled and didn't care too much. Humans now have a lot of inheritance, and some Chaos City Lords don't care too much, because they can't cultivate.

Of course, it would be nice to have more.

"By the way, Hunyuan, this time in the world of Jin, there are many strong people in the second batch of us humans."

Chaos City Lord and Wang Yi were walking and talking in the original secret starry sky.

"Because you can resurrect the Lord of the Universe, many of the Lords of the Universe who have no clones have also entered." Chaos City Lord said with emotion.

Other forces cannot resurrect the Lord of the Universe, or the cost of resurrection is very high. Many of the people who enter are the Lord of the Universe with clones. Of course, there are also adventurous ones who have to fight even if they fall.

After all, even the strongest in the universe has entered.

As for the human race, because of the bug-like existence of Wang Yi, the Lord of the Universe can be resurrected even if he is not lucky enough to fall, so a lot of people enter! Even... the founder of the giant axe is in the second batch!

Of course, it was only after Wang Yi's reply that he dared to enter.

If not resurrected, the human race will not let the founder of the great axe take risks.

Every human powerhouse who enters has Xeon and even mechanical treasures on his body, but he doesn't need to worry too much, as long as he doesn't expose the unique skills of ancient civilizations, his survivability is stronger than other cosmos sea powerhouses, I don't know how much.

In case it really hangs up~www.mtlnovel.com~ Wang Yi can also be rescued.

"That's not bad." Wang Yi agreed.

There are still too few strong people in the human race. Through the world of Jin, it may be possible to sharpen some of the strongest people in the universe before the end of this reincarnation era. It would be better if there were one or two people who survived reincarnation besides Wang Yi and Luo Feng. .

"Right." Wang Yi thought of something and said, "City Lord, let me collect some materials." Wang Yi thought of Wu Qilou's "Secret Book of Nine Tribulations", which is the real "Secret of Nine Tribulations" The prototype of the Classic, maybe he can try to come up with a few training copies for the geniuses of the human race.

In the past, it was difficult to find a copy of the universe by sitting on the mountain, but now it is a sea of three thousand latitudes. With the current power of the human race, it is much easier to collect materials.

If the "Secret Book of Nine Tribulations" can be obtained, it will be good for the human race.

...

When Wang Yi successfully practiced the "Lie Yuan Technique" rewarded by the panel, Luo Feng was still comprehending those life diagrams on the road to the true **** on the fourth floor of Wuqi Building in the world of Jin. According to this time, it is not surprising that he has to comprehend for two or three thousand years.

[Chapter 805: Luo Feng succeeded](#)

Wang Yi is thinking about the road ahead.

The most urgent task is to raise the gene of life to 100,000 times to become a true god, and strength is the foundation of everything.

Then, solve the beast crisis.

But the world beast crisis cannot be easily passed, and the original will of the original universe has to be deceived to release the original ancestor.

Because the original ancestor saw that the ancestors of the two holy places never came out, he suspected that the reincarnation was a conspiracy of the original universe. At first, he intended to use the virtual universe, the sky-defying secret method to seize the original universe, which violated the supreme rules. The supreme rules let the original universe suppress the original ancestors. , So if you want to release the original ancestor, even the original will of the original universe cannot do it, and you must have the consent of the supreme rules.

And this requires a "great achievement", which is to lift the world beast crisis. Otherwise, the primordial universe would not be able to release people.

Of course, if the original ancestor really collapsed and fell together with the original universe, Wang Yi can also be resurrected with the help of the power of the panel, but he can save it or save it. After all, he is the earliest leader of the human race. He is not in a hurry, but others are not. Probably don't care.

And Wang Yi hasn't said anything about the incarnation of the beast. After all, this is the site of the primordial universe, and the eyes and ears of the primordial universe are everywhere. Speaking out may lead to unpredictable consequences.

Unless... in the virtual universe, it is the site of the original ancestor, and the will of the original universe cannot invade.

In fact, even the strongest person in the universe can follow the law and let the laws of the surrounding primitive universe retreat for a short time, forming a domain of their own.

However, the world beast crisis is still brewing, and before the outbreak, Wang Yi has not announced his plans yet.

...

In the world of Jin, on the third floor of the silver-gray majestic palace outside Wuqi Building, the four commanders were still sighing.

It took a long time for the second sergeant to enter the eighth floor of the Wuqi Building to appear, but he still failed.

Although disappointed, the commanders still packed up their mood and told the other generals what happened here.

No matter what, he is the second genius who has rushed to the eighth floor in the Jinzhi world over the long years. No matter what, we must let the generals of the four armies know and let them be optimistic. We can't let such a peerless genius fall easily. There is a little hope that he will be able to climb the ninth floor of Wuqi Building in the future.

Before becoming a Void True God, there is a chance.

...

In the whole world of Jin, the army is the strongest. The army is divided into Eastern, Northern, Southern, and Western troops according to regions! And the four generals who lead the four major armies... are the highest existences in the world of Jin!

The four generals, like the commanders stationed at Wuqilou, have been trying to cultivate and screen out the peerless geniuses who can climb to the top of Wuqilou for a long time.

The four generals and the four leaders, in the endless long years, their goal is one - to cultivate and find the peerless genius who can climb to the top of Wuqilou for His Majesty the God King, which surpasses their own cultivation and their lives.

And because Sergeant Jiujiang was from the Southern Army, the four commanders immediately contacted the generals of the Southern Army.

The Southern Army is a tall white palace. Outside the palace, there are beautiful birds playing and perching. There are also sounds like the sounds of nature floating from nowhere. Inside the palace, there is a holy atmosphere, pure white feathers, beautiful and noble birds and beasts. A stunned female

voice said: "The second sergeant who entered the eighth floor of Wuqi Building? Jiujiang? He came from the Southern Army, and is now in the Eternal Army?"

"Yes." said one of the four images on the opposite side, "General Nanli, this time you should spend more time on cultivating this sergeant, and you can't let him die in the middle of the road or become slack."

"Maybe... he will become the peerless genius that His Majesty needs in the future."

"This is about the future of our Jinzhi world."

"This, this... You can rest assured, since it is a seed that can rush to the eighth floor of Wuqi Building, then I will definitely cultivate it with all my heart, and I will not let him have an accident." The Southern Army General was excited and excited.

"That's good, it's up to you to tell the other generals about this."

"Okay." The Southern Army General agreed. "Don't worry, I will watch him and let him get the sharpening effect in a safe environment."

"I'll take care of it, so nothing will happen to him."

The only two peerless geniuses in the Jin world who broke into the eighth floor are enough for the generals to pay attention to, and this kind of attention even exceeds those of ordinary void true gods.

You must know that above the Void True God, it is impossible to become the genius that His Majesty the King of God needs.

Only the Lord of Laws, and the True God, are possible!

After the communication with the commanders was over, she quickly contacted the three generals and told them the matter.

The three generals were also very excited, but when they searched for Jiujiang's information, they found that he had not returned to the barracks.

"It should be delayed on the way." The generals couldn't know the location of each sergeant, so they could only wait.

The result is such a wait for more than a thousand years.

The four generals are also in a hurry. These are the only two sergeants in the Jin world who can rush to the eighth floor. To be honest, they are more precious than the Eternal True God. After all, after His Majesty the God King left, the Jin world was born forever. God, there are still some.

As for the geniuses on the eighth floor, there are only two of them, so the importance can be imagined.

In case something goes wrong...the four generals will have to regret it.

So, the four generals couldn't help but sent people to look for it along the route that Sergeant Jiujiang left.

But the world of Jin is too big, and Wang Yi has the heart to hide. How can they find it for a while, and they can't contact him.

...

Inside the military camp, the camp of a special regiment.

In a cave on a mountain, two sergeants were drinking and talking.

"Xinke, I have already asked my friends from the Eternal Legion to do the things about the two new recruits of the Eternal Legion that you asked me to find." The sergeant with the sharp-mouthed monkey cheeks and fish scales on his face took out a crystal with a smile. "This is their data and images."

Sergeant Xinke's eyes suddenly lit up, and he said, "Thank you then. Thank you, my friend."

"It's easy to talk, it's a trivial matter. Let's drink first. The wine you have here is good."

"Haha, if you like it, bring back some more. I just brewed some here."

"Haha, then I'm welcome."

Soon after, the sergeant who was full and satisfied left. Sergeant Xinke took out the crystal, and the divine power penetrated into it. After reading the information inside, he quickly showed joy.

"That sergeant Jiujiang and Yinhe are probably the Lord of Chaotic Source and Lord of Galaxy that we are looking for."

"Hmph, I finally found them." Xin Ke's face showed coldness and hatred.

Many of his clansmen died at the hands of the Lord of Chaotic Origin, and he naturally hated them immensely.

"This time, we must let them die without a place to be buried."

"The ancestor has already explained it, it is not too late, let's act now."

Sergeant Xin Ke thought for a moment, flew out from his place of residence, and flew towards the highest snow-capped mountain in the distance.

This vast iceberg mountain range is the camp of the Frost Army.

At the highest point of the central mountain range of the entire military camp, there is a towering and tall temple, and there are several guards in front of the temple. This temple is inhabited by the commander of the 'Frost Army'! In the army... those who can serve as the commander of a special legion are all the true gods of the void. If they are outside, they are all overlords.

"stop."

"Stop, this is where the commander is, and trespassing is prohibited." There are six guards in front of the temple, two of which are true **** guards, and four are guards by the Lord of Laws.

They all looked coldly at the sergeant who flew over and shouted. "Sergeant, this is not where you should come, leave quickly."

Sergeant Xin Ke landed and said, "I have something important to ask the commander for."

"The commander is what you, the Lord of the Law, want to see?" The True God Guard sneered.

Sergeant Xin Ke also anticipated this situation in advance, and was not at all angry, "I really have something important to report to the commander."

Seeing this, the two True God guards couldn't help but look at each other and hesitated a little. After all, they were also the sergeants of their Frost Army.

"How about it, do you want him to see the adults?" A true **** and his companions secretly transmitted voices.

Another true **** shook his head, "You also know the temper of your lord. If this sergeant has no important business and disturbs the lord, you and I will suffer."

"Besides, a master of laws, if there is anything important, I think it's better to send him away."

"Right."

The two true gods discussed it privately, and then looked at the sergeant indifferently together.

Sergeant Xin Ke couldn't help but feel a sudden shock.

"Sergeant." A true **** guard shouted, "How can you see the commander easily? I advise you to retreat quickly and don't ask for hardship."

"Go back!" Another true **** also shouted.

They didn't even take the Lord of the Law in their eyes.

Sergeant Xin Ke gritted his teeth. Although he was not reconciled, he knew that nothing could be done, so he flew back towards Lai Lu.

"The commander of the Frost Army is so hard to see." Sergeant Xin Ke frowned. "I originally wanted to inform this commander, but it seems that I can only think of other ways."

The Lord of Chaotic Origin and the Lord of the Galaxy have a great feud with his Holy Land Universe, and they must not let it go.

As long as the whistleblower is successful and the army handles it, the Lord of Chaotic Origin and the Lord of the Galaxy will never be able to escape as long as they return to the military camp.

Sergeant Xin Ke believed that with the terrifying power of the Jin world, as long as the superior commanders took action, they would have absolutely no chance of being spared.

As for whether this will leak the news and let humans run away in advance? How is it possible, is it really a fool for the army of Jin Zhi World? The Lord of the Galaxy and the Lord of Chaotic Source are not the high-level officials of the Jin world, but at most two sergeants of the Eternal Legion! How could they possibly know the news in advance? When the powerhouses in the world of Jin make a thunderous shot, they will be finished.

In such a situation of "foreign enemies entering", the Jinzhi World Army will not let it go.

No matter how bad the situation is, the Lord of the Galaxy and the Lord of Chaotic Origin can no longer enter the world of Jin.

No matter what.

Of course, it would be best if the souls of the Galaxy Lord and the Lord of Chaotic Origin could be killed once and for all.

...

At this time, Wang Yi had successfully practiced the "Lie Yuan Technique", and flew back to the military camp in a warship.

The four generals got the news right away.

"This little guy has done the title task and only returned to the military camp for more than a thousand years. He can't find a trace. I don't know where he went wild." A general shook his head. However, this situation is also very common. In addition to doing tasks, the sergeant also has his own affairs on weekdays. The four generals have no doubts, as long as they are fine.

The four generals who have regarded him as a treasure do not want him to have an accident, so it is not easy to explain to the commander of the Valley of the Gods.

As soon as Wang Yi returned to the Eternal Legion camp, he was seen by some Eternal Legion sergeants, and some cosmic sea forces quickly received news through various channels.

"The sergeant suspected to be the Lord of Chaotic Source has returned. I didn't see another Galaxy sergeant."

"There is news from allies, and it has been basically confirmed that they are the Lord of the Human Chaotic Source and the Lord of the Galaxy."

"Is the news reliable?"

"At least seventy or eighty percent sure."

"That's enough, we'll find a way to get rid of humans."

Those forces in the universe that are hostile to the human race and have hatred for the human race have united in private to solve their confidants.

Lord of Chaotic Source and Lord of Galaxy? must die!

But it is very difficult for them to intervene in the affairs of the Eternal Legion, because it is the legion under the jurisdiction of the highest-ranking general in the army, that is, the Void True God. In fact, they cannot deal with any sergeant of the Eternal Legion. They can only report to the general. Let the general handle it.

This is the particularity of the Eternal Legion.

Like ordinary sergeants, after all, how high the commanding position is, even killing them is no big deal. But the Eternal Legion is different. Every sergeant is an excellent seed. It is selected by the general. If you really want to kill it, you have to get the general's consent. .

...

"joke!"

"No evidence, tell me what? Get off!"

"Where did you get the news? How do you prove it?"

When the sergeants who entered the army from the universe racked their brains and tried every means to inform the army, they encountered setbacks one after another.

Most of them didn't see the commander, and some finally saw it, but because there was no evidence, they were reprimanded by the commander.

Some commanders are dubious, but because it is about the sergeants of the Eternal Legion, they have to report to the general. If it is true, they don't want to take the risk of angering the general.

"Maybe it's true, but whether it's true or false, you must first investigate and monitor, collect information, and confirm that the sergeant is really an external enemy, and then report it to the general when you are sure." recruits.

If it is really an enemy from the outside world, it is also a credit.

They are not afraid, UU reading www. The masters of the two laws of uukanshu.com, even if they are spies from the outside world, in the army, under the eyes of a group of Void True Gods, what can they do?

And these Void True God Commanders, although they all received reports from their subordinates, some didn't care, some were suspicious, but because there was no evidence, they didn't tell others, but they secretly investigated and monitored the sergeant Jiujiang.

Thus, the entire military camp remained calm.

Wang Yi didn't know that some Void True God Commanders had begun to doubt himself, surrounded by eyeliners, and when he returned to the army, he began to calm down and cultivate.

Time flies, Luo Feng's 4200th year on the road to the true God.

Finally, he entered the fifth floor of Wuqi Building and gave the four commanders a surprise.

[Chapter 806: Titled Powerhouse, Galaxy. Jin](#)

Fifth floor!

The sixth floor!

Seventh floor!

Under the attention of the four commanders, Luo Feng rushed all the way up to the eighth floor!

The four leaders were unbelievable.

"Another eighth-floor peerless genius!"

In the past, I don't know how many years before a person broke into the seventh floor.

For countless years, only one person has entered the eighth floor!

However, in this group of sergeants, two people entered the eighth floor, how could these commanders not be shocked.

"Unbelievable!"

"This Galaxy is a peerless genius at the same level as that Jiujiang!"

"Hopefully, he can reach the ninth floor!"

The four leaders rekindled hope in their hearts.

They longed for a peerless genius to appear on the ninth floor of Wuqi Building, then they would be worthy of the entrustment of His Majesty the great God King, let them fall immediately, and they were willing.

...

"Disappeared!"

"The title task has disappeared!"

"The title task of the Lord of Laws has disappeared, and it was successful. That Sergeant Galaxy must have reached the top of Wuqi Tower."

The four commanders in the hall shouted out almost at the same time.

brush! brush! brush! brush! The four figures disappeared in the hall at the same time and came to the downstairs of the majestic Wuqi Building.

After a long time, "Boom!" The majestic main entrance slammed open, and a sergeant figure walked out.

Luo Feng sighed in his heart, "I didn't expect Wang Yi to reach the eighth floor so many years earlier than me. He failed, but I succeeded."

For a long time, Luo Feng was suppressed by Wang Yi, and he was not convinced.

Now, he has pulled back a game, and suddenly has the feeling of turning over with pride.

"Huh?" Luo Feng looked at the four figures in surprise.

...

Because the descendant that His Majesty was looking for was finally born, the four leading four generals gathered together.

Luo Feng could not bear their enthusiasm.

From the conversation, Luo Feng also felt that the four generals and commanders were treating themselves as the 'heirs of the **** king'.

Although it is actually true.

Now, Luo Feng is considered to be both Duan Donghe and the descendant of the King of Jin Kingdom.

Yinhe Jin is his honorable name in the world of Jin.

However, in order not to cause unnecessary trouble, Luo Feng still refused the proposal of the four generals to reveal their identities.

"Go back." Luo Feng was in high spirits, and with Wu Qishen, he returned along the way in the warship, ready to go back and show off with his little friend Wang Yi.

No return of wealth and honor is like walking in brocade clothes at night. Although Luo Feng has a superhuman temperament, he also has his own pride in his bones. He finally won Wang Yi once, and of course he wanted to show it off.

Such opportunities are not many!

...

The four generals returned to the army beamingly, the Eternal Legion camp, and gathered and drank in the palace on the top of the mountain to celebrate the birth of His Majesty's descendant.

Now that Wu Qilou's mission has been completed, the importance of Jiujiang, a talented sergeant, is no longer so high, and their attention is naturally less.

But because of the confidentiality, those Void True God Commanders did not know, they were still staring at Jiujiang, and the Galaxy that came back was also stared at by them.

...

"Haha, Wang Yi, look, what is this." The southern station of the Eternal Legion, the residence of the reserve sergeant, Wang Yi's palace, Luo Feng laughed heartily, took out "Wu Qishen" with great excitement, and let him Watch your friends.

"This is the reward for completing the title task and climbing to the top of Wuqilou. Wuqishen, the top true god-level machine, is worth 30 million military merits in the army!"

Sitting there, Wang Yi raised his eyelids lazily, glanced at the "monkey" casually, and said casually in a coping tone: "Well, I see, congratulations, you have completed the task." Apocalypse? The top true **** machine? Made by His Majesty the God King himself? Who are you fooling? He doesn't want to use it for him.

Seeing Wang Yi's ignoring appearance, Luo Feng was proud.

It must have been hit!

"It seems that your strength has improved a lot, why don't we find a place to learn from each other?" Wang Yi said maliciously.

"Cough." Hearing Wang Yi's words, Luo Feng immediately thought of the fear of being dominated by Wang Yi before, calmed down, coughed lightly, and waved his hand as if he didn't care, "I got a lot of insights from this mission, Think carefully, improve your strength, and fight you later."

Wang Yi sneered.

Didn't he know what Luo Feng was thinking? However, in order to cultivate the "Lie Yuan Technique", you have to be called a holy level of will. Luo Feng wants to surpass him. It is very difficult at this stage. Even if there is Wu Qishen, it is impossible. After all, Wang Yi's secret art level is almost the ninth level, and Luo Feng is only eighth. level, the difference is huge.

In fact, Wang Yi is also very happy to have an "opponent" like Luo Feng to chase after him. This is also a kind of spur, otherwise, wouldn't it be too boring.

...

In the world of Jin, the Eastern Army Barracks, the residence of the special army 'Huhou Army', in the center of the entire barracks, a majestic and tall temple, suddenly an extremely dazzling green brilliance streaks across the sky, and there is a faint trace of golden light in the green brilliance. .

In the light is a beautiful woman. She has nine green feather tails with a touch of gold, and her head is also full of beautiful feathers. Her appearance is even more beautiful, which makes people breathless.

She is the legendary 'Queen Hu' who founded the Hu Hou Army!

However, those eyes that were glowing with blue light were full of murderous intent.

"Is there really other outside forces sneaking into my world of Jin?" Hu Hou thought back to the scene where the sergeant named Chengmu died with his ambition. Although he still didn't fully believe it, he had to believe it.

After all... people are dead.

"Whether it is or not, we have to figure it out!" Hu Hou made up his mind. "I'm going to report to the general and let the general investigate in person!"

Even Empress Hu would not dare to shoot at the Eternal Legion's station!

But she is an old subordinate of the general of the Eastern Army, and she has followed the general for many years, and she believes that she is still able to speak in front of the general.

The 'Queen Hu' flew through the sky at an astonishing speed, dazzling and eye-catching, like a rainbow hanging across the sky! Just like the streamer of the rainbow, so beautiful in the void!

Soon, she passed the wormhole and arrived at the station of the Eternal Legion, located in the middle of the four continents of the Four Armies, surrounded by the boundless sea, filled with white mist, and saw a majestic mountain standing there in the distance, majestic. .

At the top of the mountain, there are four palaces. Outside the palace of the Eastern Army General, "Brush!" The rainbow streamer descended. It was the dazzling Hu Hou commander who was wearing the incomparably dazzling commander. So beautiful.

"I have seen the commander." The true **** guard who was on duty outside the palace hurriedly saluted.

"Where's the general?" Commander Hu asked.

The true **** guard smiled and said: "The commander Hu wants to see the general? The general is drinking with the other three generals. I don't know what the commander of the queen came to do?"

"All four generals are there?" The queen commander was surprised, and then felt that it was just right. "I want to see the general, and I have something urgent to report to the general."

"Is it Queen Hu? Come in." A majestic and gentle voice came from the palace.

After hearing the voice, the commander of the queen walked directly into the palace.

In the palace, in a hall, there is a square black-colored stone table. Four generals of the eternal true **** gathered here, sitting in their respective seats, drinking and looking at the beautiful women who came in outside.

"Queen Hu has seen four generals." The Queen Hu, who usually walks sideways in the military camp, is very respectful in front of the four incomparably powerful Eternal True Gods, but does not dare to stand up.

Her boss is the Eastern Army General 'Xue Yong'!

"Empress Hu, why did you come to me today?" Xue Yong, who should be the kindest of the four generals, looked at his favorite general with kindness.

"General, I have something important to report to you. I have a sergeant named Chengmu. He goes to my place..."

Following Hu's remarks, the expressions of the four generals changed.

"Outside life?"

A long, long time ago, the world of Jin did have outside life coming in, and now for endless years, no outside life has come in.

"Is this true?" The Eastern Army General 'Xue Yong' also took it seriously.

"I thought it was absurd at first." Hu Hou sighed, "But my subordinate proves it with death. This sergeant under my subordinate knows that the matter is serious, and is worried and anxious for the world of Jin. I'm quite sure, but I have to report to the general."

Any being in the world of Jin is absolutely loyal to the world of Jin, and absolutely hostile to the life outside.

"Well." The four generals nodded. The entry of outsiders is extremely serious! Another sergeant proves his death, how can they ignore it?

"What is the name of the outside life that came in? Where is it?" The black-haired black-horned girl's voice was cold and full of killing intent. The invisible killing intent was like killing itself. A chill in my heart.

Every Eternal True God is above the Void True God and masters the existence of "Origin"!

Ordinary Void True Gods can be killed by flipping their palms in front of them.

Even if the Queen Hu is the true **** of the void of the special legion, and her own strength is strong, she has no ability to resist in front of any general.

Hu Hou said quickly: "There are two outside beings who have infiltrated my Jin world. They are both reserve sergeants of the Eternal Legion. One is Jiujiang and the other is Yinhe. General, you must not let them go. You have to investigate carefully. Good souls control them to tell him the truth."

"Um!?"

Who would have thought that when the four generals heard her words, they all looked at her in an instant, their eyes changed and they were extremely sharp.

At that moment, Hu Hou felt a terrible pressure pressing on her chest like an endless starry sky, making it difficult for her to breathe.

In particular, her immediate boss, who used to be kind to her, lost the smile on his face, and his eyes were as scary as blades.

"Jiujiang?"

"Galaxy!"

"Eternal Legion Reserve Sergeant!"

As soon as the four generals heard it, they knew who the queen was talking about.

Isn't that the heir chosen personally by their great god-king, the newly-released powerhouse, His Highness Yinhe Jin?

Jiujiang is also a peerless genius who has just passed the eighth floor.

And they also learned that Jiujiang and His Royal Highness Yinhe were friends who grew up since childhood!

If Jiujiang is a spy who has sneaked in from the outside world, then what is His Royal Highness Yinhe?

"absurd!"

"ridiculous!"

The four generals who were still full of murderous intent suddenly changed their color.

"Xue Yong, this is your subordinate, how dare you lie about the military situation at will?" The black-horned girl looked at the graceful and noble man in silver-white armor, and her tone was full of strong dissatisfaction.

The Eastern Army general "Xue Yong" also looked down at his subordinates.

Hu Hou saw the angry expressions of the four generals, and panicked in his heart, "General, I didn't lie, this is what happened. If the general doesn't believe it, you can immediately go to capture the Yinhe and Jiujiang..."

"Enough!" The Eastern Army General interrupted her, his voice low and full of anger.

The queen did not dare to speak, and looked at her general aggrieved.

She is really aggrieved. It was obviously for the sake of the world of Jin that he came to report to the general, why did the general suddenly turn his face, didn't believe her words, and looked like he wanted to kill someone.

"Queen Hu!" The Eastern Army General looked at her indifferently. "Lord Galaxy, it's not something you can argue!"

The four generals did not doubt Luo Feng in the slightest, because he knew that this galaxy was confirmed by many reviews left by 'His Majesty the God King'. What kind of means is His Majesty the King of God? How could the spies get in the position of the heir of the God King?

"Master Galaxy?" The queen was also confused. "The general is actually called Lord Galaxy, Lord Galaxy, is it the Sergeant Galaxy?"

"No matter where your news came from, it's all fake. Lord Galaxy, it is absolutely impossible for the outside world to sneak into our world of Jin! This is confirmed by the great God King himself!" Eastern Army General 'Xue Yong' 'shook his head.

"His Majesty the God King!" Queen Hu was really terrified. "This sergeant is actually related to His Majesty the King of God?" Now, she no longer had any doubts in her heart. Your Majesty the great god-king, how could something go wrong in such a place? Since it is impossible for His Majesty the God-king to make mistakes, it can only be her who is at fault.

"Damn it! That guy named Chengmu dared to lie to me!" Hu Hou was full of fear and anger.

Look, even the four noble generals with the highest status in the world of Jin are called Lord Galaxy. The status of the Lord Galaxy is unimaginable. If you want to kill her a Void True God, maybe you only need one sentence.

If she goes to offend... Hu Hou can't think about it anymore.

"This is the end of the matter. Fortunately, Lord Yinhe doesn't know. This time, you will not be punished. Go down." Seeing Hu Hou's dejected appearance, the Eastern Army general "Xue Yong" didn't have the heart to punish this old subordinate~ www.mtlnovel.com~ waved her away.

"By the way, don't publicize the matter of Lord Yinhe. That Lord doesn't want others to know of his existence." The Eastern Army General "Xue Yong" instructed again.

In his opinion, this is just a trivial matter, except that it involves His Royal Highness Galaxy.

"Yes." Hu Hou left in dismay. This time, she was humiliated in front of the four generals.

The four generals continued to discuss what happened before. This move by Hu Hou also made them vigilant, and it is not always safe to be around His Royal Highness Yinhe Jin.

"This matter. You have to talk to His Royal Highness Galaxy." A general said.

"Let me talk to His Highness." The Eastern Army General "Xue Yong" thought for a while, connected with Luo Feng, and told Luo Feng everything about this incident.

[Chapter 807: 90,000 times the divine body, infinite divine power](#)

After Luo Feng got the news from General Xueyong, a cold light flashed in his eyes, and his heart was full of killing intent.

"Chengmu? Purple Moon Holy Land? They've all arrived in the world of Jin, and they're still haunted."

"Since that's the case, let's get rid of them all."

Luo Feng is definitely not soft-hearted, and will appease those who want to murder him.

Now that he has made up his mind, he begins to act.

In the universe sea, all the incoming forces that can be found, except for the human race, the Hongmeng, the other one is not left.

kill!

...

As soon as the butcher's knife fell, people's heads rolled.

At the same moment without warning, the four eternal true gods shot together and killed their souls. As long as the first era of the universe sea, the second era, as long as the powerhouses who entered the world of Jin and were discovered, were all killed!

The clones of the outside world are also killed!

Tens of thousands of strong men have fallen!

Only some forces in the original universe and the entire human alliance are safe and sound.

For human beings, in the entire universe sea, one counts as one, but they are all enemies!

There is no need to even distinguish anything!

So this time, Luo Feng's attack was even more vicious. No matter if he had a grudge or not, as long as he found out, he would basically not be able to run away.

A large number of powerhouses who entered the world of Jin fell at the same time, including their clones, and for a while, the entire universe was shaken again!

When the news spread, all parties were not fools, and immediately guessed that all this was related to the human race.

It's just that they don't understand how humans do it.

They only know that human beings cannot be provoked!

The momentum of human beings in the sea of cosmos is rising again!

...

Era after era passed.

The world of Jin has become a goal that all the forces of the universe are keen to strive for. One after another strong men enter the world of Jin, but they no longer dare to reveal their identities to avoid being targeted by humans!

And some of the strong human beings, the powerful cosmos sages and the cosmos masters, all entered the world of Jin and underwent training under the arrangement of Luo Feng.

Humans began to emerge more and more powerful.

In the twelfth era, Venerable Ancestral Tree of the Great Axe Fighting Field broke through to the Lord of the Universe.

In the sixty-fifth era, Luo Feng's teacher, Venerable Zhenyan, finally broke through and became the new Lord of the Universe.

In the 138th century, Wang Yi and Luo Feng's friend, the first powerhouse in the Nirvana era of the earth, Hong, with the help of Wang Yi and Luo Feng, finally broke through to the master of the universe, named Huan Xin. Lord, tens of thousands of epochs earlier than the original time! To Wang Yi and Luo Feng's surprise, soon after, he married the Phantom King of the Great Axe Fighting Field. A master of the universe actually walked with an immortal king, causing many people to look at him.

But it was not until the five hundred and forty-third era that the human race gave birth to the third true god, the Xingyue True God! It also made the founder of the giant axe and the city master of Chaos extremely happy.

And True God Xingyue finally came together with the Lord of Bingfeng.

Several apprentices of the original ancestor, the Lord of Chaos, the Lord of Darkness, and the Lord of Bingfeng, all have some feelings for the teacher's daughter Xingyue, but Xingyue finally chose to be with the Lord of Bingfeng.

In the eight hundred and thirty-ninth era, the human race gave birth to the fourth strongest person in the universe - True God Peng Gong!

In the 7600th century, a new lord of the universe was born from the lineage of the people on earth - Thor! Named the Lord of Thunder! Before that, there were already five masters of the universe, Wang Yi, Luo Feng, Shi Zhongtian, Wang An (Wang Yi's second son), and Hong.

This is the sixth lord of the universe in the lineage of earth people!

In addition to the lord of the universe, the earthlings also gave birth to a group of cosmos venerables, as well as a large number of immortals!

The people of the earth have also become the well-deserved sixth force of the human race!

...

From the 10,000th to the 20th, the geniuses who were at the same time as Wang Yi and Luo Feng, such as Bo Lan, Rong Jun, Uka, Qian Shui, and Ai Chen, were absorbed into the core of the virtual universe company. Under the special care of him, he finally stepped into the ranks of the Venerable Universe.

In the human race, the probability of the emergence of the Universe Venerable is too high.

Like a large number of powerhouses who have been stuck at the peak of the kingship in the past, with the help of the inheritance of ancient civilizations, these tens of thousands of epochs have successively made breakthroughs by powerhouses, and the number of human beings in the universe has exceeded 100,000!

At the same time, Wang Yi also opened the Tower of Babel after the arrival of the 10,000th Era, allowing them to comprehend and increase the number of strong people in the human race!

After the Tongtian Tower opened for the first time, thousands of human powerhouses entered, and after an era, the Lord of Darkness broke through to become a true god! This is the fifth true **** of the human race, the true **** of darkness!

The Tongtian Tower was opened for the second time, after the 20,000th Era. Although there was no true **** born again, there were two more Lords of the Universe, including Venerable Fire of the Great Axe Fighting Field and Venerable Fan Rui of the First Bank of the Universe. Those who have broken through to the Lord of the Universe.

Now, the number of masters of the universe of the human race has exceeded fifty.

...

time flies. A large number of immortal gods accumulated over a long period of time have become the masters of the universe with the help of the inheritance of ancient civilizations. So that the number of human masters of the universe has been growing. It's just that the number of 'true gods' is increasing very slowly.

...

Wang Yi and Luo Feng have also been studying the gene map of life. Through Luo Feng's power in the world of Jin, they have obtained the flesh and blood of countless true gods, and even the blood of the true **** of void, the true **** of eternity, and countless magical substances for research, and even Wang Yi He also made the avatars of the world beasts who have reached the top of the second order to send out blood, collect countless life substances in the 3,000-latitude cosmic sea, and study them together with Luo Feng! Wang Yi has reached the level of 89,000 times! Luo Feng also finally stagnated at the bottleneck of 85,000 times.

...

Time flies like an arrow, and one epoch has passed.

In the third million era, the sixth true **** was born in the human race, and Wang Yi's apprentice, the Lord of Haotian, broke through to become a true god! Let the human race be shocked! No one thought that Wang Yi's apprentice would break through to become a true **** so quickly! Faster than his teacher!

Then, as the years passed, the human race gave birth to true gods. The True God Huangjian, the True God Bingfeng, the True God Qingdong, and even another junior apprentice Luo Feng received, 'Luo Zhenni', even broke through to become true gods.

At this time, hundreds of millions of epochs have passed!

In fact, this group of old masters of the universe can become masters of the universe without the inheritance of ancient civilizations. Now, with a lot of help... to become a true god, in fact, nine out of ten can be achieved. On the contrary, those younger generations, those who rely on the guidance of ancient civilizations, become the masters of the universe. In terms of potential, it will be less.

... The first ten billion epochs were considered an explosion period for mankind. The accumulation of the long years before had an unprecedented explosion in this hundred epochs. The number of human cosmos masters has skyrocketed to 673, and the strongest in the universe has skyrocketed to 35!

Not only human beings have entered the period of inflation, but other major forces in the primitive universe, as well as the forces in the universe sea, have also entered the period of inflation.

And the sea of the cosmos where they are located is also the phenomenon of the original universe. Other small universes are almost withered. Even if they are not destroyed, the strongest in the universe cannot be born.

In the years that followed, the development of all the forces in the Cosmic Sea slowed down significantly. After all, the accumulation of the previous Endless Era had completely exploded in the Ten Billion Era. Like human beings, it is completely dependent on the newly born genius to emerge the strong. Fortunately, the human frontier is large enough.

However, after a long time, with continuous research, Wang Yi's life gene level was finally stuck at 89,999 times, and he could no longer progress.

...

A prosperous secret realm, where many beings live, this is the site of the first powerhouse in the primordial universe, the "Lord of Chaotic Source".

There is a warm purple sun hanging in the sky, and the bottom is endless, like a green blanket that has been spread to the prairie on the horizon. At that time, a figure in a red robe walked slowly from a distance.

"The tens of billions of years have passed."

"The ethnic group I created can become a cosmic level as an adult. My life gene level has reached 89,999 times... It's just a little bit, it's just a thin line, and I can't break through it." Wang Yi bent down and stroked a green grass, The eyes are deep.

Don't look at 89,999 times and 90,000 times, there seems to be no difference. There seems to be no difference in strength. But it is a fundamental leap in the level of life. Wang Yi is trapped in this step for tens of billions of times, and he just can't break through.

"Right now, the world beast crisis has not yet erupted, and all the world beasts are hiding in their lair to kill each other. According to the normal law, the world beast king will not appear until the original universe reproduces in the later stage."

"And the eyes and ears of the three world beasts, King Zhenjia and Qiuyan Ancestral God, were solved by me in advance. Before the world beasts find new servants, they should not know about the universe, and they can grow in their lair with peace of mind."

In fact, whether the world beast will know Wang Yi is very clear, because he has an incarnation of the world beast, and he is still one of the strongest world beasts in the lair.

He knows nothing about the entire world beast lair, but he can basically know anything about it.

"Right now, the most important thing is that the divine body has broken through 100,000 times and advanced to the true **** with a perfect posture!"

However, thinking that it is easy, it is stuck at 89999 times.

Wang Yi began to recall how Luo Feng broke through this bottleneck in the original work.

In the face of the beast disaster, all the pressure is concentrated on Luo Feng alone, only he can save the world.

Luo Feng was stuck at 89,999 times and couldn't move an inch. In order to break through, he walked everywhere, looking for inspiration.

In fact, Wang Yi has been doing this all the time. He has never been to the universe of three thousand latitudes, the world of Jin.

His footprints are all over the primitive universe, observing the mysterious realm of celestial bodies, all things in the world, the rise and fall of normal life...

His will, unknowingly, has transformed to the peak of the "Eternal True God"!

But the key to breaking through has not been found.

Wang Yi said softly: "At that time, Luo Feng firmly believed that the primordial universe gave birth to billions of lives and contained the supreme avenue of 'life breeding'. From all things, one should be able to find the key to open the 'gate to the third layer of divine power'."

"He pursues the past, the present, the future trajectory again..."

"He also observed the movement of all things in the world, and saw the celestial system. The life system. The entire universe has its own laws, and different systems... But they are perfectly combined... The trajectory drawn by the traces of life force attracted by each life planet... He has been extremely The perfect life structure diagram...and the life structure diagram of the beast..."

"It was also stuck at the bottleneck, he realized it, and leaped from 89,999 times to 100,000 times in one fell swoop, becoming a legend!"

"But I can't see through." Wang Yi shook his head.

Everyone understands the truth, but if you want to understand it thoroughly, you can only rely on yourself.

It's like Wang Yi told his younger generation about his cultivation to the current state without reservation, but how many of them can achieve something?

Not to mention the Lord of the Universe, there are very few Venerable Universes!

"Actually, the road is always under my feet!" Wang Yi's eyes became clear and firm again. "All I have to do is get it out!"

Wang Yi stepped out and disappeared from the grassland.

...

The vast starry sky, a desolate planet, has no life, no plants, not even water and atmosphere, only a barren and dead silence. At this moment, a figure suddenly appeared here.

He glanced at the planet below, smiled, then fell to the planet and disappeared.

Since then, he has never appeared again, but the planet is still running smoothly according to the constant trajectory of the ancient times.

"Boom..."

In the past few years, the interior of the planet has changed, the ground is cracked, the lava pours out from the ground, the smoke and dust rises into the sky, and the entire planet is shrouded in dark clouds and thick smoke.

As the molten lava cooled, the whole world began to rain heavily.

The ocean appeared.

Slowly, traces of life appeared.

I don't know how many years have passed, and finally a life curiously landed on the land from the ocean and started a new reproduction.

Countless forests, all over the planet, where huge life dominates.

The whole world has become colorful and vibrant.

Thousands of years, 10,000,000,000,000 years have passed, and the former overlord has finally been eliminated, and new species have appeared.

In the cruel natural competition, some races have gone through countless difficulties and obstacles, slowly rising, defeating countless competitors, and becoming the most intelligent life on this planet. They are the masters of this world.

Then, civilization was born!

They built new homes with their own hands, spread their footprints all over the planet, and even tried to rush out of the planet to explore the starry sky outside.

However, war broke out, it was a civil war of races.

In the thousand-year war, they destroyed everything, including everything on the planet, and themselves.

The entire planet was barren, with no grass at all. In a blink of an eye, it returned to the beginning, the dead world, and there was nothing left~www.mtlnovel.com~ It was like a reincarnation.

Until I don't know how long ago, a meteorite fell here from outside the universe, breaking the rock layer, causing a big explosion, stirring up countless magma, and the entire planet was shrouded in dark clouds again.

Life goes through a cycle again.

Whoa, whoa... A heavy rain enveloped the whole world, and green gradually appeared on the ground.

And a will, immersed in the planet for countless years, also awakened at this time.

"Clap clap..."

It was as if a broken sound was echoing.

A pair of eyes suddenly opened.

[Chapter 808: Death of Mossaro](#)

A majestic figure appeared outside the planet, with a height of hundreds of millions of kilometers. The planet with a diameter of about 10,000 kilometers was like a tiny piece of dust under the feet of a giant. His eyes were brighter than stars, illuminating the infinite starry sky.

"My life gene level." Wang Yi lowered his head and carefully felt the results of this breakthrough. When he clenched his fist, his divine power shook, which immediately made him happy. At his level, how precise his control of power was.

"The divine body has reached 90,000 times the genetic level."

There are three levels of the divine body, from 90,000 times to infinitely approaching 100,000 times, which is the third level.

"To be precise, it is 90,181 times." Wang Yi was amazed.

There are three levels of divine power route, reaching 30,000 times can make the divine body ten times higher, and reaching 60,000 times can make the divine body a thousand times higher. When it reaches 90,000 times, it can be 'infinite divine body' and 'size as you wish'!

Wang Yi looked back at the planet that was just beginning to recover, "It took hundreds of millions of years to immerse myself in this epiphany, but it's worth it."

...

The kingdom of God, the endless sea is mighty and boundless.

Tens of billions of epochs have passed, and the endless sea of you has continued to rely on "creative talent" to automatically restore the sea to gradually expand its size, and it has expanded to a diameter of 12 light-years.

However, after reaching this step, the endless secluded sea can no longer expand. The reserves in the ocean of laws of the primordial universe are all limited. How can it be truly infinite? A diameter of 12 light-years is an unsurpassable limit.

Even if Wang Yi has now reached 90,000 times the divine body and possesses a theoretically infinite divine body, if he wants to continue to expand, he will have to find a way to transform his divine power from other places.

Wang Yi's figure appeared here, looking at the vast endless sea below.

Mind a move.

Boom... Suddenly, the endless secluded sea below rushed towards Wang Yi's deity, the deity of earthman Wang Yi, who was like a bottomless pit, fully swallowing all the sea of divine power. The sea almost disappeared.

And Wang Yi's deity body of Earthman has grown to a height of more than 10 light-years.

But in fact, his divine body power is still the power of "the Lord of the Universe 90,000 times the divine body".

But the volume has expanded to a billion times the previous size.

On the spot, there was only a small puddle left, which was to absorb the remaining body of the endless secluded sea, which was left by Wang Yi on purpose.

Although he was so huge, it did not affect Wang Yi's movements and combat power in the slightest.

At the step of "infinite divine body, size depends on the heart", as long as the divine power is sufficient, the divine body can continue to grow larger, and the size can be controlled at will, from as large as the normal highest divine body form to as small as a tiny dust, and it will not affect the actual combat effectiveness. Of course, generally the strongest fighting form is the normal maximum physique.

Wang Yi glanced at the 'little water puddle' and shook his head, "The original universe will no longer provide me with divine power. If I want to continue to improve my divine body, I have to find a way." In ancient civilizations, if some forces were inheritors Able to break through to 90,000 times the gene, the predecessors of the inheritors will generally find treasures with massive reserves of divine power, so that the younger generation can absorb them to form a divine body with an incredible reserve of divine power.

However, this is just a divine reserve! It's not a power increase!

If it is the other forces in the universe sea, they will feel troublesome and headache, but if it is Wang Yi...

"Treasures with massive reserves of divine power? The original treasure of my panel can be exchanged." Wang Yi showed a smile.

Wang Yi still has trillions of treasure points on his body, and they have not moved because they are useless.

The original treasure exchanged from the panel, if you extract the divine power inside and return it, the price will be greatly reduced, but it is undoubtedly very cost-effective.

"Even if 1 million Arcana Points provide me with only 10 billion kilometers of divine power, and I have more than 3 trillion Arcana Points, I can probably exchange for more than 3 million Primordial Treasures?" Wang Yi calculated in his heart. One thousand original treasures can probably increase the divine body from 10 billion kilometers to 100 billion kilometers. If you want to increase to a trillion kilometers, you need one million pieces. Thinking of this, Wang Yi frowned, feeling a little troublesome.

If you spend all the Arcana points, will you be able to increase the divine body reserve by 0.3 light-years for the first time?

Then exchange the treasures for the treasure points, but because there is no magic power, exchange the "old" for the new ones, the panel will deduct some treasures of 1 million treasure points, and give them back to the panel, which can be exchanged for 800,000 treasure points.

3.5 trillion treasure points, only 80%, that is 2.8 trillion, a full 700 billion treasure points, just to improve the 0.3 light-year divine body.

And with the continuous exchange, the treasure points will become less and less.

Of course, as long as it can be exchanged for strength improvement, Wang Yi doesn't care.

If he were to find a treasure to increase his divine power reserve for himself to absorb, and he wanted to increase this 0.3 light-year, he still didn't know the year of the monkey and the month of the horse.

However, depleting the treasure points, even adding a few light years of divine body, seems to have little effect on Wang Yi today.

Treasure point, I managed to accumulate so much, and maybe it will be of great use in the future.

Wang Yi thought about it, and finally decided not to exchange it.

"And then, on the other hand..."

In the Kingdom of God, there are three more figures, namely the Void Zerg clone, the Yanxing giant beast clone, and the new clone of Youhai.

"Boom!" Wang Yi's human body began to shrink, while other gods continued to grow.

In the end, the four divine bodies all became the same height!

That is about three light-years in height!

The majestic and vast aura of each **** body can make the strongest person in the universe change color.

In the sea of cosmos, such a powerful divine body is simply appalling.

Of course, in the origin continent, it is very common.

Like some strong people, even if they don't follow the divine body route, they will find ways to use various means to increase their divine body.

Therefore, the stronger the person, the more exaggerated the body of God.

Like a **** king, it is normal for a **** body to be hundreds of millions of light years tall.

A smile appeared on Wang Yi's face.

"Before, I was worried about using mechanical treasures and using secret techniques. The gods will not be able to bear it."

"Now, hehe..."

Like a mechanical treasure, when activated, the divine power consumed is amazing!

For example, the secret technique "Destruction", burning divine power, the higher the weight, the more exaggerated the burning speed, otherwise, how could such a powerful power erupt.

Such as some secret techniques, if the lord of the universe wants to use the eighth-order and ninth-order secret methods, it also needs to consume a lot of divine power.

If during the battle, the super-high-speed burning of the second volume of "Destruction" is maintained, and mechanical treasures such as Wu Qishen are triggered, the divine power of endless burning will be consumed crazily. Gone.

Therefore, the divine body is not big enough to dare to fight recklessly for too long.

Even if there is a supply of "Original Treasures", it is not enough.

But now, there is no need to worry.

The divine body measured in 'light years', the reserve of divine power is billions of times that of the previous one!

It was enough for Wang Yi to perform with great joy.

The divine body has reached 90,000 times, and the improvement of Wang Yi's strength is mainly due to the size of the divine body, so that he can completely get rid of the lack of divine power, Wang Yi smiled slightly, this powerful feeling is really good!

Moreover, he also has four divine bodies, each of which can be divided into a huge divine body several light-years long, without affecting the speed and combat effectiveness!

Of course, it would be impossible to deal with tens of thousands of world beasts. If thousands of world beasts formed a joint attack at the same time, the Eternal True God would probably frown.

However, if the world beast wants to use the black fog and other means to erode and consume his divine power, it is no longer possible.

The divine bodies of the thousands of world beasts may not necessarily have as many as Wang Yi's now!

"However, now, you can also try to go to the world beast's lair to help the world beast incarnate." Wang Yi secretly said.

...

Qingfeng Realm, the boundless dark place, the beast's lair, and the endless black mist wafting and surging along the edge.

The whole body is black and ugly, with two heads, each head has a one-eyed, one-eyed fiercely flickering world beast "Burning Prison" is chasing and killing a second-order world beast.

"Fengyu, you can't kill me, give it up, it's more suitable for you to kill other weak people than to keep chasing me!" The world beast with many wounds and dripping black blood growled lowly.

Over the years, the incarnation of the beast has been successfully promoted to the third rank!

The third-order world beast has already stood at the top of the world beast group!

The time required for the evolution of the beasts depends on the speed of each other's killing. The more crazy the killing, the faster the evolution of the beasts!

However, what the world beasts are best at is not fighting, but life-saving, which also makes it take a long time for the world beasts to fight.

The world beast Burning Prison sneered: "Can't kill it? Many guys say that, they are all dead."

The two black lights chased and fled, constantly shuttling in the dark place.

"Bastard! Hell!" The injured world beast rushed into a volcanic lake and cursed before leaving, "I will come out alive, you wait."

"Tsk." The avatar of the world beast stopped, looked at the fiery volcanic lake and shook his head, "You don't want me to devour you at the risk of rushing into this place, Yapigu, you are ruthless." There is some danger in the dark place. In this area, even the beasts are reluctant to break in, this volcanic lake is one of them. There are some environments in it, that is, the most powerful treasure, which can be annihilated.

Of course, the incarnation of the beast is not willing to take risks.

"It's so troublesome to hunt down a world beast. No wonder it takes so long to evolve." The incarnation of the world beast said with emotion.

Suddenly it turned to look in one direction.

"Beddie?"

"Huh? That breath, and Mossaro?"

The incarnation of the world beast showed a smile that was not a smile.

"Beddie is still chasing and killing Mossaro. It's really not that they are enemies."

Among the world beasts in the world beast lair, there are some world beasts that are particularly powerful and stand at the forefront of evolution.

For example, Bei Di is the first echelon of the beast, and it is currently the third tier.

Prison Burning is also Tier 3, not inferior to Bedi. And had a head-on collision with Brady once.

Prison Burning can suppress Bedi, but it can't kill him.

This battle also made Bedi full of dread about Burning Prison, no longer appearing around it, but madly hunting other second-order world beasts.

Mossaro, a top second-order world beast, belongs to the second echelon. It is weaker than the third-order world beasts such as Bedi and Burning Prison, but has enough life-saving ability to escape under the pursuit of third-order world beasts.

"Morosa... In the original book, it was because of the loss to Bedi that the idea of leaving the beast's lair came into being." Burning Prison pondered, "Although there are still many years before that timeline, this variable is still ahead of schedule. It's good to kill it."

In fact, Wang Yi was unwilling to let the world beasts appear in the sea of cosmos. It is best to fight in the world beast's lair, which is still within his control.

As long as he improves his strength and finally helps the world beast become a king, everything can be solved!

Let all the world beasts run out and devour the universe, then what should the world beast incarnate do? Can't kill if you want to.

The world beasts kill each other. In theory, more than thirty sixth-order world beasts can be born. If they go out and devour the universe, there will be more births!

The sixth-order world beast has the ability to "divide millions", except for the killing of the soul, there is almost no hope of killing it!

"Huh?" The incarnation of the beast suddenly changed his face, showing a happy expression. "My deity's divine body has broken through 90,000 times?"

...

The depths of the beast's lair.

"call!"

On a floating desert rock, a huge black figure was lying on his stomach. It was covered with scars and was bleeding black blood. It lowered its head and licked the wound. The one eye on both of its skulls shone with icy light: "Beddie, you If you can't kill me, one day, I will defeat you, devour you, and become the last king!"

Mossaro, and Bedi are old rivals, and they have fought endlessly with Bedi, and they have been fighting since birth. If it is said that its greatest wish is to become the king of the beasts, then killing Bedi is another of its obsessions. read.

"Huh?" Mossaro's expression suddenly changed, and he turned his head sharply to look aside.

The spatial fluctuations here are static due to environmental influences and cannot be teleported, but it also cannot perfectly control the time and space here. At that moment, it sensed that an unfamiliar aura, not belonging to a world beast, appeared. Near it, it is moving at high speed towards it.

"Is it coming in from the outside world? Cosmic sea life?" The world beast Mosala's mind turned rapidly.

Since the three servants "King Zhenjia" and "Star Lord Hao Lei" suddenly fell, no outsiders have entered the beast's lair for a long time, and the beasts have never caught their servants and know nothing about the outside world.

"Strange, this is the depths of the lair, how did he come here?"

"Is it an outside life that entered here by mistake?" Mossaro showed a thoughtful expression on his face, "In the beast's lair, I am not the opponent of today's Bei Di, so I have been suppressed by it, and if I evolve, it is estimated that I will not be able to catch up with Bei Di. Di, there is little hope of becoming the king of our clan, and the universe sea may be an opportunity for me."

"This alien race came just in time!" Mossaro made a decision. "Catch him, turn him into my servant, and get the information from the universe sea, the universe sea, I haven't been to the universe sea, I don't know what it is like."

Mossaro turned into a black light and quickly approached the direction where the breath came from.

Soon, it saw that in the distance, a red armor with five pairs of wings behind it was flying over.

"Alien!" Mossaro showed a cruel and excited expression on his face.

"Mossaro!"

When the man saw it, he also showed a smile that Mossaro didn't understand.

It was Wang Yi who appeared here. There was a world beast incarnate to sense other world beasts, and it was difficult for those world beasts to sense him. Of course, it was easy for him to avoid those world beasts.

"Boom!"

I saw that the ten-winged wings instantly dissipated the vast white mist, and the faint white mist shrouded the surroundings. With Wang Yi as the center, the surrounding area with a diameter of one light-year was shrouded, and the faint white mist filled the air. It is separated from the outside space.

The third layer of wings, a thought of void!

It's just a simplified version of the void!

Even the simplified version of One Mind Void ~www.mtlnovel.com~ is much stronger than the domain class Xeon Zhibao.

Auxiliary treasures are very useful. After all, this is equivalent to adding an extra layer of support to one's own combat power, and this field is more good at group attacks.

In addition to Feather's "One Thought of Void", Wang Yi also released the real god-level treasure!

In an instant, endless black light enveloped the entire space, and within one light year, it was simultaneously restrained and oppressed by the 'One Thought Void' and the 'Endless Black Light'!

"Ah!" The second-order world beast Mossaro, his two one-eyed eyes suddenly became round.

In the distance, the third-order world beast turned into a burning prison and flew towards this side in a hurry.

[Chapter 809: Ninety-nine thousand nine hundred and ninety-nine times](#)

The white mist pervades the edge of time and space, and endless black light covers everything.

"What a strong domain!" Feeling the astonishing sense of oppression and restraint coming from the surroundings, the world beast Mossaro was taken aback.

"Roar!" The first reaction of the beast was to launch a soul attack on Wang Yi!

The world beasts are all good at soul attack, even the second-order peak, I am afraid that it is no less than the true **** at the top of the universe.

Therefore, there is no soul-like Xeon or treasure, and the will is slightly weaker, and it is almost a free gift in the face of the beast.

But Wang Yi smiled slightly and didn't care.

The will of the peak of the eternal true god, the second-order world beast wants to shake? it is ridiculous.

"Unfortunately, I have only realized the third level of wings, "a thought of the void," and the fourth level, "a thought of the universe." It is estimated that it is almost necessary to create the level of the twelfth-order secret method to fully understand it." Wang Yi secretly thought. And now Wang Yi is only at the level of the ninth-order secret technique, which is too far behind.

In fact, the master of the law wants to create an eighth-order secret method by himself? Already a miracle!

Wang Yi has surpassed

The golden-colored Wu Qishen suddenly appeared on Wang Yi's body, and his breath surged in an instant, which had already triggered Wu Qishen, his strength soared for a while, and at the same time, he held a sword in his hand, and roared towards the beast.

Wu Qishen is the best of the true God's mechanical treasures, divided into three levels, especially the third level of difficulty. It is more difficult to trigger than many Void True God mechanical flow treasures! The current Wang Yi can only perfectly motivate the first stage.

"Roar..." With a roar, the world beast Mossaro's face was hideous, and the endless black light centered on it, shot out quickly, and directly enveloped Wang Yi in the distance. The speed was so fast that Wang Yi could not dodge. Countless black silk threads crazily wrapped around Luo Feng and wrapped Wang Yi, directly turning Wang Yi into a silkworm cocoon.

"It's this trick again!" Wang Yi sneered, the world beast's two major housekeeping skills, one is soul attack, and the other is the black silk fog that devours divine power.

"Break it!" Wang Yi was not in the mood to consume it, his eyes flashed fiercely, his divine power was burning wildly, and the mighty and madly slammed into the surrounding black mist cocoons. While the

divine power and the power of the world beast were frantically consuming each other, Wang Yi slashed violently towards the black mist silkworm cocoon.

The divine power is burning, Wu Qishen, the ninth-order secret technique, and the blessing of the Primordial Embryo Sword, the attack power has reached an unimaginable level.

"Sila..." The next moment, I saw a dazzling blood-colored knife light easily tearing the package of the black mist cocoon, and a figure rushed out from it.

"What?" Seeing this scene, the world beast Mossaro couldn't help but feel a chill in his heart, "You actually broke the siege of my world beast's power in an instant?"

"Where did the powerhouse come from, the strength is so terrifying, or more powerful than the third-order Bedi?" Mossaro was a little unbelievable.

From Mossaro's point of view, the creatures destined to be devoured by the sea of the universe should be very weak.

As for Wang Yi, being strong is a bit outrageous.

"I'm not his opponent, it's not good for me to fight head-on, but..." The world beast Mossaro looked at the surrounding black light and edge white fog with an ugly face. Under the oppression of this field, its speed was suppressed too much. Now, looking at the speed of the alien race, there is no way to escape.

"Ah!" Mossaro's face twisted and roared, and a dazzling black light quickly emerged from his body, followed by the black light quickly transforming into a dazzling red light. This layer of blood light shrouded the whole body of the world beast Morosa. I saw that its breath suddenly became stronger.

"Huh? Looking at Mossaro's aura, his strength should have increased by two levels." Wang Yi narrowed his eyes. "The blood-burning method of the beast."

Each rank beast has different abilities. The second rank beast has the "Blood Burning Method", which can burn the blood in the body and turn it into blood light, so that the strength skyrockets! The method of burning blood only consumes blood and does not damage the root. This is a common fighting method used by world beasts above the second rank.

If you step into the third-order, you will have the real escape method 'Jieguang Channel'.

But the world beast Mossaro is now only the second-order peak, and has not entered the third-order.

"You can't escape." Wang Yi approached quickly.

"Alien!" The world beast Mossaluo's body was covered with a layer of blood, and arms grew on his body, with hundreds of arms, and attacked Wang Yi frantically.

Wang Yi swung the sword gently, the sword was like a raging wave, and most of the hundreds of arms of the world beast Mossaro were cut off by the light of the sword in an instant, and the black blood of the world beast also floated away with the light of the sword.

In the unbelievable eyes of the world beast Mossaro, it seems that the sword that can cut through everything is like tearing cloth, and with a puff, it directly penetrates the body of the world beast.

The powerful blade force raged violently in its body, and the world beast Mossaro's seemingly indestructible body was cut to pieces in an instant. The core of the world beast hidden in its body, the source of power "world" was also destroyed!

"I... I'm dead? Under the hands of a cosmic sea alien?" The last thought passed through the world beast Mossaro's mind, and then his consciousness fell into endless darkness.

Wang Yi stood beside the broken body of the world beast Mossaro and shook his head.

"Second-order peak world beast, but that's it."

The current Wang Yi is much stronger than before the ten billion era!

Wang Yi didn't even use the "Mystery Eye of God", and the world beast Mossaro was already killed!

"Huh!" Wang Yi disappeared from the spot.

Not long after, a tall black figure swept across from a distance and landed next to Mossaro's dilapidated corpse. With a flicker of fierceness in his eyes, he began to devour it.

The second-order peak world beast is still quite supplementary to the incarnation of the beast. It cannot be wasted. If you devour Mossaro, the incarnation of the beast is closer to further advancement.

...

After destroying the world beast Mossaro, Wang Yi did not take it lightly again, but let the world beast incarnate to continue hunting in the world beast's lair, while paying attention to the movement of the world beast group.

Fortunately, the world beast group seems to have no idea about the universe for the time being. Their nature is destined that if there is no accident, they will stay in the world beast lair until the final king is determined.

And Mossaro didn't have time to pass on the message before he died, so the world beast group didn't know that Mossaro died at the hands of overseas people in the universe. They stayed in the beast's lair and continued to evolve and fight for a long time.

Time passed, and soon another trillion epochs passed.

At the 3,000-latitude universe sea, a strong man finally appeared to explore the beast's lair. Although there have always been clones of the Lord of the Universe entering the beast's lair to explore, but they were basically killed at the periphery. The situation of the entire beast's lair is actually not clear.

Not only Wang Yi this cosmic sea is worried, other cosmic seas are also worried that the world beast crisis will affect their universe.

Especially those holy land universes, they have been trying to solve the world beast disaster over the years, but the latitude cosmos sea, which has lost a lot of the strongest in the universe, seems to be powerless to really solve the world beast crisis.

"I heard about the latitude 696 Cosmic Sea and sent a team."

The virtual universe, the temple of the gods, gathered a group of human powerhouses. With the continuous emergence of human powerhouses, the venue of the meeting has been changed to the temple of the gods. Dozens of true gods of the human race and thousands of masters of the universe are all from the temple of the gods. member. This is not even a Hongmeng. That's more.

Today's human race is indeed called a large number of people. In terms of a single force, it is the strongest party in the universe. It has already ruled the entire primitive universe. It is the Zerg, monster, machine, etc. The tribe also bowed its head to the humans.

"That team." The majestic middle-aged man in a golden robe, his eyes faintly twinkling with a strange golden light, the Chaos City Lord said, "There are four true gods, all of them have souls, armors, and even a mechanical treasure. The strength is also the top of the true gods, but as soon as he entered the world beast's lair, he encountered a group of world beasts, hiding in the warship was naturally fine, but as soon as he went out, the eight world beasts roared at the same time, just the invisible soul attack, although it can be. Resisting, those true gods are still very painful, followed by the eight-headed world beasts to kill at the same time, and the two true gods were seriously injured in an instant, and they immediately retreated and fled back, this time, they returned without success."

There were whispers in the hall.

The human race naturally attaches great importance to the world beast crisis, because it is a matter of life and death for the human race.

If it can't be solved, it is useless to achieve the Holy Land Universe even if it is detached from reincarnation. Once the Holy Land Universe is destroyed by the beasts, the ethnic group will also perish.

Therefore, for the sake of the ethnic group, there was hatred in the beginning, but the forces of all parties in the cosmos sea shared the same hatred in the face of the beast crisis.

"Four top true gods, facing the beast attack, can't resist it?"

"The beast is so terrifying."

"According to the ancestors, there are one billion world beasts in the world beast lair. Even if they kill each other a lot less, but the number is still unknown."

The faces of many strong people in the human race showed worry.

After so many years, under the tempering of the Jin world, I have obtained secret techniques and treasures, and the strength of the true **** of the universe has also improved. The four top true gods are almost equivalent to the original ancestors.

Of course, there are more powerful "overlord" levels above, each of which surpasses the top true gods and reaches another level.

However, there are not many such true gods in the sea of cosmos. Even among the true gods of the human race, only "the founder of the giant axe", "the city master of chaos", and "the true **** of the moon" have reached this level, and the others are a little worse.

To deal with the world beast crisis, it is even more the top powerhouse. After all, the true gods in the sea of cosmos were massacred and withered by someone. Although they have recovered a little now, they are only so small in total. They cannot win by quantity, but only by quality.

The power of the beast has indeed made the sea of cosmos feel a strong crisis.

...

Just when the human race and the cosmic sea were worried about the power of the beasts, the distant chaotic world, a small universe with a diameter of more than 30 billion light-years, this is the Minghong Holy Land Universe in the legend of the cosmic sea, Eternal true God universe.

Of course, there are not many people who know that the Minghong Holy Land universe is the eternal true **** universe.

In the boundless white fog, there is a palace. A man dressed in a dark robe and made of black stones is sitting cross-legged on the ground. Suddenly, he stood up from the ground with a shocked expression.

"What? What happened?"

The man frowned and paced, then looked outside the palace, pondering.

"Just got the news from the adults, some forces, after learning that the beasts appeared in the sea of cosmos, sent people and horses to enter the sea of cosmos, wanting to enslave the beasts."

The result...naturally less wonderful.

"I just learned from the master that the team they carefully prepared has all been destroyed, and a large number of strong people have fallen, and all of them have suffered heavy losses. I heard that even a **** king couldn't hold back and went out in person, but he didn't go deep into the sea of cosmos. After a long time, I suffered heavy losses and had to return." The ancestor of Minghong Holy Land was amazed.

God King, to him, is an unattainable existence that needs to bow his head to worship! Each one is at the pinnacle level of the origin continent! It can open up an ancient country and suppress the great existence of one party!

However, this kind of great existence has also suffered heavy losses because of entering the sea of cosmos!

"Cosmic Sea, there are still many secrets. It is not so easy for those forces to seek the beasts." The ancestor of Minghong Holy Land secretly said in his heart.

The ancestors of Minghong Holy Land also knew some of the secrets of the beasts.

However, he had no idea at all.

There are many forces who want to enslave the beasts, but there are only a handful of them in history that can successfully enslave the beasts. Among them, there are many **** kings who want to enslave the beasts, but very few can enslave them.

The ancestors of Minghong Holy Land did not think that they could do things that those powerful people could not do.

not to mention.....

He looked at the boundless white fog outside.

What he stayed here was just an incarnation of divine power. His real body was no longer in the Holy Land universe, and he was restricted by the supreme rules.

This is the truth that the ancestor of the Holy Land has not shown his face since countless epochs.

"This time the world beast catastrophe, I don't know if those cosmic sea forces can survive, but, or it will become a crisis affecting the three thousand latitude cosmic sea, and all universes will be destroyed." Minghong Holy Land ancestor thought.

The ancestor of Minghong Holy Land is not too worried that his small universe will be affected, because his universe is too far from the universe sea. Beasts want to discover? Nothing is possible!

He suddenly thought of another thought.

The previous world beasts were born, and at most they only devoured a primitive universe... If the legendary world beast devoured all the universes in the 3,000-latitude cosmic sea in the cosmic sea, then how far would it reach?

Will it be like the world beast at the peak of maturity in Tianmu Kingdom, and it needs a group of countries to join forces to resist?

...

The primordial universe, the Milky Way, there is a passage to the kingdom of God that leads directly to Wang Yi's kingdom of God~www.mtnovel.com~ Within the kingdom of God, in the deep central area of the secluded sea, there is a vacuum area with a diameter of about 10 billion kilometers, and there is not a drop of secluded sea here. The entry of sea water is like a super large bubble in the center of the entire endless sea, and in this vacuum area, there are a large number of objects suspended. There are also bubbles, of course, the core of which is the drop of the black blood of the beast.

The blood of a world beast is made up of 100,000 light spots, each of which is an ultra-miniature world beast.

A deeper analysis... Every ultra-miniature world beast is a higher and more complex life structure diagram, which is countless times more complicated than the life structure diagram of the Eternal True God...

"Since breaking through the third level of the divine body, after trillions of years and continuous progress, my life gene level has reached a bottleneck of 99,999 times, which is only one step away from the legendary 100,000 times!" Wang Yi stared at the beast Life structure chart, sigh.

[Chapter 810: For the universe, I will break through the true God!](#)

Wang Yi has a vague understanding that there is no way forward. No matter how much he studies and understands the structure of life, it is useless. He has to break through a path by himself.

"All kinds of methods have been tried, and perhaps, there is only one method."

Wang Yi thought.

...

virtual universe.

"Hunyuan seeks advice from the original ancestor." Wang Yi shouted in front of the void in his exclusive seat.

The original ancestor can create a 'virtual universe', which has reached a terrifying level in the way of the universe. Although his real body is permanently suppressed in the depths of the original universe, even the incarnation of divine power cannot be formed in the outside world, but in the virtual universe, He knew everything.

A figure appeared quietly, his figure was slightly thin and wearing a simple white robe, with a smile on his face, indifferent and calm, making any strong man feel like a spring breeze when facing him.

He looked at Wang Yi.

"Hunyuan, what are you calling me in the virtual universe?"

Wang Yi respectfully bowed to the original ancestor and said, "The younger generation wants to ask the original ancestor, the way of the virtual universe."

The original ancestor was startled, then turned serious.

"Do you want to learn the secret art of the virtual universe?"

"Yes." Wang Yi nodded and admitted.

The virtual universe, such a secret method against the sky, once it is used, the scope covers the entire universe, who doesn't want to learn it?

However, the original ancestor was suppressed and did not pass down the unique skill of virtual universe, and his apprentices, including many masters of the universe, could not. At that time, Wang Yi guessed that the unique skill of virtual universe might be difficult to learn! Or maybe the original ancestor could not teach it at all!

Sure enough, the original ancestor shook his head. "Virtual universe, I can't teach you."

"Even if I want to teach, it will only hurt you." Yuanzu meant something.

Wang Yi vaguely understood what the original ancestor was referring to.

In addition to the original will of the original universe, or the supreme rules, what else can the ancestors be afraid of?

Virtual universe, or really have limits!

But this is the biggest opportunity Wang Yi wants to break through the bottleneck of the divine body now, and he doesn't want to give up.

"What about the principle of the virtual universe?" He stepped back. "Also... the original core of the virtual universe is in the Chaos City City Lord's Mansion. The life of the master of the universe of the mechanical race is the intelligent core of the entire 'virtual universe', responsible for running it? I wonder if the original ancestor can let me enter. What about the origin of the virtual universe?"

Yuanzu gave Wang Yi a deep look.

If it was someone else, he would not necessarily agree to this request.

But Wang Yi himself made this request, but the original ancestor thought about it carefully.

"What do you want to do?" Yuanzu asked.

Wang Yi said calmly: "The younger generation has already fallen into a bottleneck in their cultivation. They want to enter the origin of the virtual universe and use the virtual universe to observe the operation of the original universe to see if they can make a breakthrough."

"Oh?" Hearing Wang Yi's words, Yuan Zu's eyes lit up immediately.

Although the human race now has dozens of true gods and thousands of cosmos masters, Wang Yi and Luo Feng have always stayed in the realm of cosmos masters, but high-level human beings know that their strengths are far superior to other true gods! We also know that Wang Yi and Luo Feng have taken a very difficult path for ancient civilizations, but once they make breakthroughs, their achievements will be extremely high!

"Okay! I promise you!" Yuanzu agreed without hesitation.

"Thank you, the younger generation will definitely report in the future!" Wang Yi said solemnly.

After breaking through the true god, you can negotiate with the original will of the original universe and release the original ancestor.

...

The highest point in the virtual universe Thunder Island.

There is an endless chaotic airflow in the high sky, and Wang Yi keeps advancing along the endless airflow, flying higher and higher.

The surrounding chaotic airflow continued to separate, and it was silent.

Soon, the endless airflow around was thin, and in the distance of the endless void, there was a towering and endless statue.

Wang Yi looked up. Surrounded by the air currents, the endless towering statues, which are not known how many high, are having endless fluctuations of laws. Gold, wood, water, fire, earth, wind, thunder and lightning, light, space, time, gold and air, Wooden air, water air... Many laws and even the fluctuations of the laws of operation are all surging from the endless statue.

This endless towering statue is similar to the "Origin of the Universe", vast and boundless.

Although it was not the first time for Wang Yi to see him, he was still shocked.

The cosmic origin of the virtual universe!

The original ancestor, the ability to create a "virtual universe", a heaven-defying unique skill, is indeed remarkable.

The towering statue's eyes moved, looked at the incomparably small Wang Yi, and said.

"Are you ready?"

"I'm ready." Wang Yi nodded.

The towering statue stopped talking. The next moment, he opened his mouth, and a powerful suction came from the giant mouth, and Wang Yi was sucked in all of a sudden.

Wang Yi looked around, this was a space with countless light spots floating around, and at the very center of the space was an extremely bright light group that vaguely emitted various law fluctuations.

"Come in." A voice sounded in Wang Yi's ear, it was not the voice of the original ancestor, and then Wang Yi realized that it should be the master and servant of the original ancestor of the machine race universe?

His consciousness, following the guidance of the voice, floated to the light group and did not enter.

"boom!"

Immediately after, endless messages melted into consciousness.

The primordial universe is the most perfect and vast universe, and its size far exceeds that of any small universe of the strongest in the universe, and even no Jedi can compare with it. It nurtures countless lives in the primordial universe, maintains the operation of the entire universe, and even the cosmic sea is affected by it.

When entering the light group, Wang Yi suddenly felt that his body had been extended... His will began to naturally permeate the entire primordial universe.

Starfields, cosmic secret realms, and desert starry sky... were quickly penetrated by Wang Yi's will. At this moment, Wang Yi felt as if he had become a primitive universe!

However, there are still some secret realms, some places, that the virtual universe cannot reach!

Such as "primitive stars", such as the site of the strongest in the universe!

Another example is the origin of the original universe! They are repelling the virtual universe!

However... When Wang Yi was immersed in the origin of the virtual universe, his perception had spread all over the primordial universe along with the tentacles of the virtual universe. At this moment, the entire primordial universe was in his consciousness, and he felt the mystery of how the entire primordial universe worked!

"So mysterious."

"This, this is the structure of the primordial universe?" Wang Yi was completely addicted to it.

In the past, what he was in contact with was the tip of the iceberg of the primordial universe, and he had a glimpse of the leopard!

And now, he seems to be integrated with the original universe, the original universe is him, he is the original universe!

"I'm for the universe..." Wang Yi's heart aroused a kind of enlightenment, and countless inspirations surged.

Star fields, galaxies, star systems... stars... planets... black holes... are all observed from Wang Yi's perspective.

It seems that Wang Yi is not observing as an individual, but observing the laws of the universe's operation from the perspective of the original universe!

He also saw the solar system in the Milky Way, and saw his hometown Earth! Saw life on earth!

"The earth revolves around the sun, and the sun is the core..."

"A life-breeding system, in a vast area, the earth is the core..."

"The Celestial System."

"Life system."

"Different systems, but a perfect combination..." Wang Yi recalled this sentence again, and a scene of pictures passed before his eyes, which were the trajectories of countless planets, and at the same time, another picture emerged, which was the complex structure of his own life. Diagram and life structure diagram of the beast.

"Different...but similar..."

Beyond space, beyond time.

From the supreme law of operation, everything leads to the final destination.

The Lord of the Universe, the True God, the True God of the Void... World Beast...

Opposite beings are all nurtured by the universe and lead to the same end.

The trajectories of the countless planets that I have seen before, the trajectories drawn by the traces of each life planet attracting the power of life... I have a very perfect life structure map... and the life structure map of the beast...

"Diametrically opposed."

"But it's the same."

Wang Yi was immersed in the beauty of the laws of the universe, the fog in his mind gradually dissipated, and a smile appeared on the corner of his mouth.

He finally understood.

...

In reality, Wang Yi's human deity **** body stood in the outer space outside the earth, and the eyes that were originally closed suddenly opened.

"The structure of life!" Wang Yi stretched out the palm of his right hand. Every divine power that composes the palm contains the imprint of the soul. Naturally, Wang Yi controls everything very carefully and analyzes it very carefully.

"Come together!" Under Wang Yi's command, the structure of life began to change.

The level of life genes that originally reached 99,999 times can be regarded as a picture of the structure of life that has reached an extremely perfect level... At this moment, Wang Yi seems to be a superb master. With just a few strokes, a painting suddenly came to life!

With Wang Yi's seemingly simple changes to the big frame of the life structure diagram, in the process, suddenly——

"Crack!" A very small part of the complex life structure diagram suddenly seemed to be ripe, and quickly began to gradually separate from the entire life structure diagram. This was not controlled by Wang Yi, but a natural reaction. When Wang Yi made changes, some parts of the life structure diagram began to automatically separate.

The very small part of the life structure diagram that was quickly detached, its internal structure also automatically transformed, like a domino effect, the internal structure chain reaction one after another, from the structure diagram that I could understand before to the structure that even Wang Yi felt mysterious and unpredictable. picture.

hum~~

This very small part of the life structure diagram that was separated turned into the appearance of a naked Wang Yi sitting cross-legged and smiling.

"Clap clap clap clap!!!!!!"

Immediately, when a very small part of the entire life structure diagram turned into a naked Wang Yi sitting cross-legged and smiling, other parts of the life structure diagram were automatically activated, and all of the naked Wang Yi began to appear one by one, or roared in anger, or Fighting, or standing contemplating, or curling up to sleep, or laughing...

All kinds of appearances, one by one born.

Speaking slowly, all chain reactions are extremely fast. In the blink of an eye, Wang Yi's entire life structure was completely transformed into 100,000 light spots, and each light spot was a superminiature naked Wang Yi. However, the faint connection constitutes Wang Yi's life structure diagram.

The life structure diagram is also composed of 100,000 light points. The ultra-miniature Wang Yi is different from the ultra-miniature world beast. Even Wang Yi feels that his own is more mysterious than the world beast!

"One hundred thousand light spots..." Wang Yi, who should have been delighted to see this scene, found himself in a very calm mood now.

One hundred thousand light spots were born one after another, and this chain reaction seemed to happen naturally.

"Buzz..." When the first divine power on Wang Yi's right palm transformed, it seemed like an infection, and there was no need for Wang Yi to reorganize it on his own. In the same way, Wang Yi's hand quickly began to give birth to a little golden light.

Immediately following this point, the golden light spreads wildly around!

Wang Yi's palm quickly turned into a dazzling hand exuding endless golden light!

At the same time, it spreads out to the whole body!

Because the divine power transformed first and the divine power transformed later have the same imprint of Wang Yi's life, under guidance, this extremely perfect and higher life structure chart has a fatal attraction to other divine powers, just like a magnet attracts other divine powers. Like iron and stone, it naturally makes other divine powers madly transform.

Whoa!

In less than five seconds, Wang Yi's entire body, including his hair, burst into golden light.

Just when the entire divine body finally completely transformed!

It's like nuclear fusion, it's like the sun's super-planet explosion, it's like a cosmic master explodes with millions of times more energy than usual...

The moment Wang Yi's divine body finally completed its evolution, the whole body naturally burst out with billions of golden lights!

Brilliant light, shining billions of light years...

"Whoa whoa-"

The golden light emanating from Wang Yi's divine body is not restricted by any rules at all, and its speed can be called teleportation. It shone through the solar system in an instant, shone on the Holy Land of the Galaxy not far away, shone on the entire galaxy, and shone on the entire universe of dry witches... And the golden light spreads rapidly, silently, beyond time and space... Everything is not hindered.

Whoa!

The territory of human beings, the territories of various forces... The light shines on the entire primitive universe at an unimaginable speed, and all areas, no matter how dark and remote, are all illuminated. At this moment, even the original will can't affect the majesty that shakes this golden light.

Whoa! Hundreds of millions of golden lights finally penetrated the membrane wall of the entire primordial universe and rushed into the endless sea of chaotic cosmos...

At this moment, in the entire primordial universe, Wang Yi is the center.

Hundreds of millions of rays of light centered on him, illuminating the entire primordial universe, and scattered outside the primordial universe.

The golden light that cannot be hindered by any material, the golden light that transcends time and space, shines into the eyes of every creature, and even enters the soul of every creature.

In their souls, a golden figure clearly appeared, and they could clearly see the appearance of that figure.

One by one, the hearts of life were shocked. At the same time, when the golden light shone on them and penetrated into their souls, they naturally had the desire to prostrate and kneel. Can't help it. Whether it is the lords of the universe high above, or the weak beings, they all knelt down.

Even the true gods couldn't help kneeling down. They didn't kneel down to Wang Yi, but an instinct of their life origin to pay tribute to the birth of the greatest life.

At this moment, Wang Yi is no longer Wang Yi~www.mtlnovel.com~ but represents the supreme life, the greatest and most perfect life.

In a small universe not far from the original universe, it is the small universe of the mountain guest.

Sitting on the mountain was very embarrassed and sat on one of the tops of the continuous mountain range, with a hint of happiness on his face.

"Almost."

"Almost..." Sitting on the mountain thankfully shook his head, "I almost fell on my knees!"

"Just now, the figure that was reflected in my mind was Wang Yi. He finally broke through? But... even if the third-level breakthrough of the divine power route will not cause such a movement, even the highest rules have come to congratulate." The customer's eyes were full of shock. "What the **** happened to him?"
