

A God 81

[Chapter 81: Become a father](#)

A pure black spacecraft with a diameter of more than two hundred meters appeared over Jiangnan City. The hatch opened and Wang Yi flew out.

He lowered his head and looked down at the familiar scenery, and a kind of intimacy emerged spontaneously.

"Finally home."

"At this time, Luo Feng should have just entered the training camp to study."

Wang Yi turned this thought and stopped paying attention to it.

"Follow my previous instructions to find a place to hide, and wait for my order." Wang Yi gave orders to the slave guard in the spacecraft.

These slave guards are not suitable for being exposed to the people of the earth at once.

And he turned into a streamer and flew to the Yangzhou City Community in Jiangnan Base City.

When Wang Yi appeared in Mingyue Community in Yangzhou City, the news was quickly learned by all parties.

After all, as a senior of the Extreme Martial Arts Gym, a spiritual teacher of the 'Higher God of War', Wang Yi's whereabouts will naturally be watched.

Xtreme Martial Arts Hall's global headquarters, inside the spacecraft building.

"Wang Yi is back?" When Wang Yi appeared in Mingyue Community, Hong received the news.

As far as Hong is concerned, the earth is so big, and for a strong man like Wang Yi, it does not take long even if he orbits the earth. This time he disappeared for more than a month.

"I don't know where he went, maybe it has something to do with the secret in him." Hong Yin thought.

Since the last time he fought with Wang Yi and lost to Wang Yi, Hong Cultivation has worked harder, as if returning to the era of Nirvana, struggling forward in a difficult environment.

In this state of mind, and with Mu Yingjing's help, Hong felt that the bottleneck that had troubled him for many years had begun to loosen.

"Dad, mom." Wang Yi returned to his home in Mingyue Community and reunited with his parents.

And Shen Yan and the others have already gone back to school with the opening of Jiangnan University.

Wang Yi's parents were very happy when they saw their son who had disappeared for more than a month, but then Wang Yi learned a news that made his mentality explode.

"What do you say, Yuyu and they are pregnant?"

Wang Yi calmed down, and it was normal to think about it. After all, they often did this, and that, and this and that, and it was only natural that they would get pregnant without taking protective measures.

Wang Yi's mood is very complicated now, his chest is filled with endless joy, and he is a little uneasy.

He is going to be a father.

At this time, whatever cultivation becomes stronger, the future of mankind has been left behind by him, and this idea is all over and over in his mind.

.....

The next day, the world headquarters of Xtreme Martial Arts Center.

In a reception room, Wang Yi, Hong, Thor and the three strongest men on the earth are sitting together around a small table.

A bald-headed Thunder God in a white robe kept looking at Wang Yi with weird eyes. It was incredible when he learned the news that Hong had actually lost to Wang Yi from the Hong brother he had always admired.

Knowing that Hong is a man, he certainly would not doubt Hong's words, and this would prove even more terrifying Wang Yi.

"Are you wondering why I am so good?" Wang Yi first smiled and said.

Hong and Thor are of course curious, but before that it was because Wang Yi refused to say it, but now, Wang Yi doesn't have so many worries.

"I would like to hear the details." Hong said.

"Actually..." Wang Yi said the reason he had already thought out, "I once got the heritage of an ancient civilization in mainland Australia in August last year."

"Inheritance?" Hong and Lei Shen's bodies shook at the same time.

We must know that although there are many ancient civilization relics discovered all over the world, there are no complete secret inheritances that can be used for human cultivation. Even Hong and Thunder God learned from the ancient civilization relics cultivation method and found their own way before standing. On top of the world.

Wang Yi actually got the inheritance of an ancient civilization relic, which seems to be a complete inheritance!

Looking at the expressions of Hong and Thor, Wang Yi smiled inwardly and talked about each other, "Yes, there, I got treasures and secrets that can enhance the strength of the human body, as well as an intelligent optical brain and an undamaged spaceship. "

As soon as 's words fell, Hong and Lei Shen couldn't sit still anymore, showing surprise expressions.

"The spaceship is intact? Are you sure?"

Until now, although the earth has unearthed many relics of ancient civilizations, it has not yet obtained a complete spacecraft.

If what Wang Yi said is true, then the meaning behind it is great!

This means that the earth has the opportunity to connect with the universe.

Of course, danger and opportunity coexist. Hong and Thor are not the kind of reckless people. Knowing that the consequences of the earth being discovered by alien civilizations are unpredictable, they will definitely evaluate the risks.

"Then, just last month, I left the earth in a spacecraft and went to the universe, a planet 320,000 light-years away from our earth." Wang Yi continued.

Hong and Thunder God both showed incredible colors.

Neither of them thought that the young boy in front of him was so bold and daring to go to the mysterious universe in a spacecraft alone. They had to admire this kind of courage.

Thor said anxiously: "Quickly talk about it, what did you find on that planet?"

Hong and Lei Shen are people who know the outer universe better on Earth, but they are all known from the records of ancient civilization relics, and many of them are obtained through guessing.

And now, they can get a chance to get the situation in the universe from an earth population who has gone to the universe in person, how can they not be excited.

Wang Yi did not answer them directly, but took out two consciousness sensor helmets from the space ring.

Hong and Leishen on the opposite side were surprised when they saw Wang Yi take out two black helmets out of thin air ~www.mtlnovel.com~.

"Storage props?"

There is one such treasure, but Thor does not. Thor looks at Wang Yi enviously, like a gluttonous cat sees a fish.

But Wang Yi would naturally ignore him.

Instead, he directly handed the consciousness sensor helmet to the two of them.

"These two consciousness-sensing helmets have been bound to the virtual universe network bearer account. Anyone can log in. Once you enter, you will naturally know the situation of the universe."

Hong and Thor looked at each other.

After Hong and Thor put on their helmets, Wang Yi also smiled and entered. He has an auxiliary optical brain, so naturally it doesn't have to be so troublesome, and he can enter at any time through the auxiliary optical brain.

After a long time, Hong and Lei Shen reluctantly withdrew from the virtual universe, their faces were still full of lingering shock.

Now they know that their previous understanding of the universe is so ridiculous, it's just the tip of the iceberg.

"Our earth is just a trivial one of the 100,000 living planets in the Milky Way, while the Milky Way is one of the eight galaxies of the Silver Blue Empire, which belongs to the elementary civilization of the universe, and the Silver Blue Empire is just the Heilongshan Empire, a medium civilization country in the universe. One of more than 500 dependent countries, the Black Dragon Mountain Empire, has more than 8,000 galaxies..." Thor was amazed.

"There are countless strong people in the universe, and the planetary stars can barely have enough food and clothing. The constant stars can be regarded as an elite master. The universe is a great man. The domain master can open up a country of elementary civilization, and the world master can rule one party at will. ..." What I saw and heard in the virtual universe just now completely shocked Hong and Lei Shen's hearts.

And Hong looked at the dark-haired boy with a calm expression beside him, his tone of voice was extremely solemn. "Wang Yi, what do you want to do when you tell us this?"

[Chapter 82: I have 1 friend...](#)

"It's very simple. I have gained something outside this time." Wang Yi had already thought very clearly on his way home from the earth, so he said without hesitation at this moment: "I want to pass through your two martial arts halls to the countries of the world. The bases provide some help, but at present they cannot be told that these are all provided by me, nor can they be made aware of my existence."

Wang Yi can't bother to deal with those earth forces, and it is much more convenient to leave this kind of thing to the world's two super martial arts gymnasium and thunder martial arts gymnasium.

Even if they knew about it, they could not influence Wang Yi's decision, but Wang Yi and his family and friends would always have trouble living among ordinary people.

And this kind of trouble, currently Wang Yi can avoid it.

There are other reasons for this, but I don't need to explain it to Hong.

Hong and Thunder God looked at each other and nodded at the same time.

"no problem."

"As long as it is good for the earth and for mankind, we are duty-bound."

"That's good." Wang Yi smiled, and once again took out a purple liquid in a large transparent glass bottle from the space ring. The liquid was crystal clear and glowing with charming brilliance.

"This is?" Hong and Lei Shen looked over at the same time.

Wang Yi explained: "This is a treasure in the universe called 'Purple Light Dew', similar to the spirits of plants and trees before our planet. In the universe, it is a drink commonly used by some wealthy

families. 1 kg of Purple Light Dew is priced at 10 black dragon coins. , The bottle in my hand is ten kilograms.” When Wang Yi said this, Hong and Lei Shen had no expressions on their faces, but the latter words made Hong and Lei Shen unable to sit still.

"And 15 ml of purple light dew can evolve advanced martial arts students on the earth into an 'first-level apprentice.'"

"What?" Hong and Leishen's expressions changed.

You must know that there are very few warriors on earth.

The ratio of ordinary people to warriors is almost 10,000:1, so there are only 1 million warriors on the earth.

The ratio of ordinary people to advanced martial arts students is almost 100:1, which is why many people give up without hope.

Wang Yi saw Hong and Leishen's expressions and smiled and said, "Yes, taking about 10 grams of purple light dew can make a martial arts advanced student evolve into a 'warrior'."

"And now I have enough Violet Dew to supply everyone in the world."

"I plan to give them to you, and you will provide them to all parts of the world. We will provide a certain amount of Ziguanglu every year. As long as people can become senior martial arts students, they can become martial artists through Ziguanglu..." Wang Yi is doing it now, but It's just what Luo Feng did in the original work.

Hong and Thor changed their eyes when they looked at Wang Yi.

"Don't worry, we will definitely do this thing beautifully." Hong said with a serious face.

"Not only that, I also have a martial arts training plan here, and I need your help to implement it..." Wang Yi continued, opening a light and shadow image by assisting the optical brain.

Hong and Thor looked at the content in those images, and the more they looked at them, the more they were surprised.

"As long as you become a senior fighter and pass the actual combat assessment, you can get the opportunity to be promoted to a junior general?"

"And high-ranking generals, as long as they pass the assessment, they also have a chance to be promoted to the primary **** of war?"

Hong and Raytheon became more frightened as they watched.

more importantly.....

Even high-level gods of war, or some special geniuses, will have the chance to become a planetary star if they pass rigorous examinations!

And this requires huge resources, even if all the forces in the world, including the extreme martial arts gymnasium and the lightning martial arts gym, add up, they will not be able to do it!

And these, Wang Yi can provide it alone!

They couldn't help but guess in secret how much fortune Wang Yi got to achieve this level.

They didn't know that the huge and precious resources they thought were nothing but a fraction of Wang Yi's current wealth.

It is like the Muyajing that can upgrade an apprentice to the planetary star level within a month requires 3 million black dragon coins, and Wang Yi bought 1,000 for less than 3 billion.

You must know that the total number of human war gods in the world today is less than four thousand!

"There are still some secrets and technologies that I have handed over to you." Wang Yi said at last.

Although the earth will be able to enter the universe in the future, it will be years later, and it is a good thing that it can be earlier.

Hong and Thor knew that these were of course not for them, but for all mankind, but they were still very excited.

What's more, Wang Yi did not seek fame or fortune, and even concealed his existence. He did so many things for the earth, which moved Hong and Lei Shen even more.

After these things, the atmosphere on both sides became much more harmonious.

Especially Hong and Thor, what worries most before is what will happen to the earth being discovered by other forces in the universe.

And now with Wang Yi, these worries are much lighter.

But these things cannot yet be known to all the forces on the earth, otherwise they would not have a sense of crisis, and their efficiency would not be as high as it is now.

Wang Yi and the three are well aware of this, and it is easy to reach an agreement on this aspect.

And Hong and Lei Shen felt even more complicated in their hearts. A 19-year-old little guy who just became a warrior last year has become a figure who can determine the fate of the earth in a blink of an eye.

"By the way, Wang Yi, what level are you at now?" Thor couldn't help asking. "Listening to Brother Hong, you have understood the field?"

"My current martial artist ranks at the seventh rank of the planetary star, the same as you." Wang Yi smiled.

I have been practicing in the universe for more than a month, especially with Bibo Marrow and Atlas Mo Scorpion Liquid. His mental power has also reached the sixth rank of planetary star.

In April last year, he was just a senior martial arts student.

In just one year, Wang Yi became the world's number one powerhouse, surpassing everyone on the planet!

However, this title has no meaning to Wang Yi.

"How come your kid cultivates so fast? Is there any secret?" Thor is not as reserved as Hong~www.mtlnovel.com~ He is familiar with Wang Yi's neck and said with a grin: "Everyone is so familiar. , Just tell us about it."

Hong also looked at Wang Yi. He was also very surprised and puzzled at the speed of Wang Yi's progress.

Wang Yi admires Hong and Thor's behavior. In the early days of his growth, he did receive the help of the Extreme Martial Arts Academy. He also had wool on both of them. He used to practice Thor's nine-layer thunder sword, and two thunder swords. People have had a passion for incense.

Wang Yi was originally planning to retaliate and train Hong and Thunder God. Without hesitation, he directly took out a bottle of Bibo Marrow and told them about the effect.

Hearing the effect of Bibom, Hong and the two immediately beamed their eyes, staring at the Bibom, after all, they had been stuck in this state for a long time.

But they were also a little embarrassed, this kind of treasure is very valuable at first hearing it, but Wang Yi actually took it out and gave it to them, which made them feel a little embarrassed.

However, Hong and Lei Shen were not hypocritical, and finally accepted the gift.

"That's right." Wang Yi thought of something, and said: "The curator, I want to trouble you with something."

"You said." Hong's face was solemn.

A strange smile appeared on Wang Yi's face, "That's it, I have a friend..."

Listening to Wang Yi's words, Hong and Leishen's faces gradually became weird.

There is something wrong with Wang Yi's eyes.

Is there anyone who cheats a friend like you?

Although he didn't understand Wang Yi's thoughts, it was just a trivial matter for Hong, so he immediately agreed.

"No problem, I will go to the training camp on August 1st this year."

At this moment, Luo Feng, who was far away in the elite training camp, shivered inexplicably.

[Chapter 83: :Hong: You are a spiritual teacher!](#)

In the eastern part of Yangzhou City, a certain area that has been left unused due to planning problems seems to have risen on the ground overnight. Before you know it, there is an exquisite and beautiful magnificent castle.

However, due to the interference of Xtreme Martial Arts Gym, even the state institutions do not know what happened there for a while.

And this huge castle covering an area of more than 500,000 square meters is a detachable combination castle specially customized by Wang Yi from the universe. In the meantime, Yangzhou City has an eye-catching castle.

Rumors about this castle are flying all over the sky for a while, but everyone knows that someone who can live in such a big castle like a palace must be a super man.

And even the various parties only know that this is from the operation of Xtreme Martial Arts Hall, and they don't know who the owner of the castle is. Many people have guessed that those who can have such amazing energy should be the top few people in Xtreme Martial Arts Hall. , Maybe it is the main hall of Xtreme Martial Arts Center Hong.

Wang Yi and his family moved into the castle the next day, and they also took over the pregnant Lin Youyu.

When they first saw this beautiful fairy castle in the legend and learned that it was their own private castle, they were shocked, like in a dream.

Wang Yi's fifty constant star and 1,000 traveling star slave guards also lived in, but they were only in charge of castle defense, and they rarely appeared in front of outsiders.

Hong and Lei Shen also came to see them the next day, and once again marveled at Wang Yi's handwriting.

Especially the one thousand planetary-star spiritual teachers and one hundred constant-star powerhouses shocked Hong and Lei Shen.

This kind of power is enough to sweep the world, but now it is quietly hidden in Wang Yi's castle, unknown.

Hong and Thor looked at each other, and they had a thought in their hearts, Wang Yi, it was really terrifying.

Wang Yi, because of Shen Yan, Lin Youyu, and Gao Yurong's pregnancy, chose not to go out anymore and stayed on the earth.

usually either accompany the family, or practice, or enter the virtual universe to practice through the killing fields.

And Hong and Thor are also frequent visitors, and quickly indulged in them.

Occasionally, the three of them have itchy hands, they will get on the spacecraft and go to Mars to have a discussion.

Of course, even if Hong and Lei Shen joined forces, it was not Wang Yi who lost.

The strength of the three of them is improving rapidly, and Luo Feng is also training hard in the training camp.

It's just that, he doesn't know, his fate has been accidentally arranged.

And under the secret impetus of the Extreme Martial Arts Hall, the Raiden Martial Art Hall and other countries, the world has also quietly changed...

Time passed quickly, and it was August in a blink of an eye.

In autumn, the weather is still so hot. The sun is shining fiercely on the tall cyan rock wall covered with red vines. The castle courtyard is full of all kinds of beautiful and rare flowers and trees. Wang Yi in white clothes has a big belly with him. There are three girls walking along the picturesque tree-lined path in the forest.

Because of the reason of taking the spirit of plants and trees, the body is strong, although the pregnancy is eight months, the three girls are still full of energy when they become pregnant women at this time.

If normal, their baby should be born in two months.

"The fruit from the Meika galaxy yesterday was delicious." Shen Yan touched her belly and said with some satisfaction.

Wang Yi said helplessly: "Those alien things, if you eat less, you are not afraid of being bad for your children."

Shen Yan is actually a snack food, especially when he comes into contact with the virtual universe network and finds so many unimaginable delicacies on foreign planets, she can no longer hold back the heart of the foodie, especially after becoming a pregnant woman, even Wang Yi can't stop it. She yearns for food from all over the universe.

Fortunately, she has a husband who is considered to be rich in the Black Dragon Mountain Empire. As long as he wants to eat, he will usually be delivered through the Bailanxing channel soon.

Lin has a lot of fish and is quiet, sitting quietly and smiling at Wang Yi, gently touching his stomach.

After diagnosis, she is pregnant with triplets, so the belly is particularly big among the three women.

And Shen Yan's are twins.

Only Gao Yurong is a child, which makes her a little depressed.

The beautiful and dreamy castle is shining in the sun, as beautiful as the residence of the elves in the legend. In the quiet courtyard, four people sit together and watch the scenery.

The wind blew gently across the forest tips, and it also brought a refreshing coolness. On the lush vines on the city wall, a reddish purple leaf was swept down by the wind and fell beside the four.

"Luo Feng should have started too, right?" Wang Yi thought to himself.

On the other side, Hongning base city, elite training camp.

Today is August 1st, the day of the training camp's adventure month of life and death. All elite training camp students are ready, fully armed, sitting in twos and threes on the lawn at the entrance of the training camp and chatting freely, waiting to pick them up. Vehicles from mainland Australia are coming.

Luo Feng, who has grown a lot, is among them, chatting and laughing with his acquaintances.

Like the destiny of the original book, Luo Feng signed a contract with Xtreme Martial Arts Hall. Before August, his combat power reached 12. He successfully received generous rewards and used dragon blood to improve his strength. Now, he already has a higher God of War mental power. It's the time for high spirits.

He and his wife Li Yao, who had murderous enemies before, were still looking for him all over the world, so Luo Feng had to conceal his identity as a spiritual teacher.

Now, Luo Feng can be regarded as a little emboldened, and he feels that even if he faces Li Yao, a high-level war god, he has the power to fight.

Luo Feng didn't even know that Li Yao had the Black God suit.

A sonic boom has sounded in the sky, and everyone can't help but raise their heads. A vague shadow has appeared above the elite training camp. After condensing, it is a blood-red triangle fighter plane!

"The owner of the museum is here!"

"Hurry up ~www.mtlnovel.com~."

At the training camp God of War teacher at the main entrance, the trainees were all excited and stood up excitedly.

The blood-red triangle fighter plane that looked like a bird of prey slowly landed.

Wow!

The hatch suddenly opened.

A yellow man and a white man stepped out of the cabin door at the same time, just volleyed and walked down step by step.

All the trainees in the training camp held their breath when they saw this scene, because they all knew that to be able to do this step is to transcend the existence of the God of War!

"Beyond the existence of the God of War, there are still two!" Luo Feng was also taken aback. "It seems that these two people should be the two major inspectors of the headquarters of Xtreme Martial Arts Hall."

after two inspectors came out.

Finally, a figure walked out of the hatch.

He is about 1.9 meters tall, black trousers, black jacket, and fine hair...

is Hong!

Luo Feng fixed his eyes on Hong's body, very excited.

This is Hong, the first person in the world! The myth of the pinnacle of mankind!

Hong's gaze swept across the crowd, and the pressure in his gaze made people seem to face the gods, unable to resist, even Luo Feng lost consciousness in an instant.

"Huh?" Hong took a step, and instantly appeared beside Luo Feng.

looked at him as if he was examining, and then Hong... his mouth opened slightly, as if he was smiling.

The eyes of everyone present were on Hong and Luo Feng.

Luo Feng was also dazed.

I always feel that the look in Hong's eyes looks strange and strange.

Following Luo Feng, I heard a word lightly spread over——

"So strong mental power!"

[Chapter 84: Luo Feng and Li Yao](#)

Now Wang Yi has monitored the entire solar system through the planetary defense system, and the earth is naturally the top priority.

On the fifth floor of the seven-story castle, Wang Yi's study room, the wall of the screen is showing a wilderness.

can not only change the angle, but also zoom in and out.

Wang Yi can control Luo Feng and Li Yao's every move. In order to prevent Luo Feng from being rubbed by Li Yaoka, he also sent a team of constant star slave guards to lurk nearby. If Luo Feng is in danger, they will naturally Will appear.

"How can I feel like being a nanny..." Wang Yi felt a little helpless.

"However, it's almost the same. As long as Luo Feng goes to Kirishima, gets a thousand-year willow heart and improves his physical fitness, he can deal with Li Yao, and this training will be completed."

Although Hong has sent many people to explore the Australian continent these days, the Australian continent is so big, infinite monsters, and dangerous, which has greatly hindered his exploration progress. Although the search has not stopped, Hong has not found it yet. Kirishima.

But soon Kirishima will no longer be mysterious and will soon be attracted worldwide attention.

According to the original plot, Luo Shengming reached the pinnacle of God of War after Kirishima and became the invincible God of War. Then he went to Civilization Ruins No. 9 and was trapped for more than a year before he came out. Then there was the Battle of Kirishima Beast King. As the crystal competed, Luo Feng was attracted to the Meteor Star's spacecraft and became the descendant of Meteor Star.

But for Wang Yi, except for the inheritance of Meteorite, everything else is a waste of time.

Australia, Kirishima.

"Ah! Luo Feng!"

Next to the four willow trees, a willow tree has fallen down, and Li Yao, in a black **** suit, roared out with red eyes.

He found these willow hearts just now, and he was ecstatic. There is no one of the most terrifying willow hearts. The four thousand years willow hearts alone are not his opponents. As a result, Luo Feng, who was hiding on the ground, suddenly cut down one tree. Fighting out, using mental power to grab the grass and wood spirit of the thousand-year willow heart that was just cut down by Li Yao.

Luo Feng turned around and got into the ground, leaving Li Yao helpless. He never expected Luo Feng to hide under his feet.

"Hmm, Li Yao, wait for me to come back." Luo Feng was also very annoyed when he was sniped by Li Yao with a laser cannon. He had already regarded Li Yao as an enemy of life and death.

The relationship between the two is life and death, and there is no room for compromise.

Li Yao hated Luo Feng deeply, and Luo Feng also wanted to eliminate the hidden danger of Li Yao.

"Damn it!"

Watching the murderous enemy **** a spirit of grass and trees that he had finally cut down, and walked away, Li Yao almost vomited blood out of anger.

"No, Luo Feng may already know about the Spirit of Grass and Trees, and maybe he will tell the Xtreme Martial Arts Gym." Li Yao felt excited.

If the Xtreme Martial Arts Museum knew about the Spirit of Grass and Trees and came to fight, he, a small high-ranking **** of war, could not do anything about it.

Hesitated, and finally decided to contact the family behind his wife, Vinina Polinas.

And Luo Feng, even though he got the spirit of vegetation, he didn't dare to be careless. He also reported the situation of Kirishima to the Xtreme Martial Arts Gym, and he was immediately known by Hong.

.....

The Xtreme Martial Arts Center's global headquarters, Hong, who has been secretly following Luo Feng's situation, learned that Kirishima had the spirit of vegetation, and immediately stood up.

And Thor, who knows some inside information, also stayed here.

Seeing Hong's appearance, he hurriedly said, "Brother Hong, I'll go too."

Hong glanced at Thor.

Thor grinned and said: "This Kirishima, there are so many spirits of vegetation, there must be a big secret behind it, maybe it has something to do with Wang Yi."

"Go if you want." Hong did not refuse either.

A triangular scarlet fighter flew out of the Xtreme Martial Arts Hall's global headquarters and hurried towards the Australian mainland.

This time, apart from Hong and Thor, the three guards around Hong also set off with him!

Whether it is the spirit of vegetation, or the secrets of Kirishima itself, or the connection between Wang Yi and Kirishima, it is enough for Hong to go out in person.

"Let me go too." Through global surveillance, Wang Yi also immediately learned the news that Hong and Lei Shen had left the Xtreme Martial Art World Headquarters. He smiled and got up from his chair.

A triangular black fighter plane has been suspended above the castle, the smooth curve, the cold and shiny metal luster, like a beast that chooses people and eats.

Now that it has been transformed by Bermuda, the performance and defense of the "Black Dragon" fighter have been far faster than before, and even stronger than Hong's predecessor-class intelligent fighter.

Not to mention the star rating, even the constant star rating can hardly break its defense.

"Go to the Australian mainland." Wang Yi gave orders to the intelligent system of the Black Dragon fighter.

brush!

The Black Dragon fighter directly turned into a flash of lightning and jumped out violently, and almost instantly turned into a small spot, disappearing into the sky.

Kirishima.

"Boom!!!"

The air burst sounded, and Luo Feng turned into a vague afterimage, rushing towards Li Yao, and the resulting air wave directly shattered some plants and plants along the way.

Six black streamers flew out of Luo Feng, and Li Yao was not allowed to dodge at all. They bombarded Li Yao's body one after another.

Every flying knife slammed on him with tremendous strength and amazing penetrating power.

The black skin on Li Yao's body surface was slightly sunken, but it was not pierced by a flying knife at all, and the whole person was once again blown out quickly.

"Asshole! Luo Feng!!!" Li Yao was angry and angry.

Since Luo Feng came out of the underground just now, everything has been reversed.

Luo Feng, who was originally chased by Li Yao, showed the terrible strength of the spiritual teacher of the pinnacle of the high **** of war. Li Yao was bombarded and flew out when he met him~www.mtlNovel.com~ is not an opponent at all!

Had it not been for the Black God suit that could offset most of the impact, he would have been killed by Luo Feng long ago!

And now, Li Yao is panicking like a bereavement dog, running away desperately.

Luo Feng chased after him mercilessly!

"If you kill a snake, you must be eaten by it!" Luo Feng's figure turned into a phantom, chasing the black figure in front of him like lightning, with cold light in his eyes.

Li Yao has such a vicious character, he will not use any means, even for the people around him, he will not be able to let Li Yao survive.

Li Yao is not Luo Feng's opponent at all, so he can only be chased.

And his reinforcements, his wife, Vinina Polinas, have not yet arrived!

But with the Black God suit, Luo Feng also had difficulty in killing Li Yao.

And the speed of both sides exceeded the speed of sound, Li Yao's cunning turn, Luo Feng accidentally rushed over, and when he looked back and wanted to continue to find Li Yao, it became complicated.

.....

Watching Luo Feng and Li Yao go from chasing to peekaboo game on Kirishima through the surveillance stay in Kirishima, Wang Yi shook his head.

With Luo Feng's current strength, defeating Li Yao is easy, but it is a bit difficult to kill him.

After all, Li Yao has a black **** suit.

But for the level of Wang Yi, Hong, and Thor, even if other planetary councilors on the planet wear the Black God suit, they can kill them at will.

Li Yao, who was hiding from Luo Feng, realized that Luo Feng's strength had increased so much that he was not an opponent, and he also understood that the situation was over.

As for the Xtreme Martial Arts Hall, I don't know when it will arrive. Wouldn't Luo Feng be even more prestigious by that time.

Desperate and unwilling, he simply spread the secrets of Kirishima to the world and let all the powerful in the world know!

For a while, the eyes of the whole world were drawn to Kirishima.

[Chapter 85: Wang Yi](#)

Luo Feng, who was searching for Li Yao's whereabouts at the high altitude of Kirishima, suddenly turned his head and saw a **** afterimage appearing in the distance.

In a blink of an eye, he came to him.

Then there was a strong burst of air.

Seeing this blood-red triangle fighter like a bird of prey that is still fresh in my memory, Luo Fenglu gave a stunned expression.

Wow!

The hatch opened, and a tall and tall figure stepped out.

That slender hair, stern face, black coat...

is the master of Xtreme Martial Arts Center, Hong!

And walking out behind Hong is a bald young man in a white robe with a bright and warm smile on his face.

There are also three silent men and women in black robes and golden masks, with different temperaments.

"The museum owner!" Luo Feng bowed slightly and saluted.

was very nervous.

He didn't expect that soon after he reported the news to Xtreme Martial Arts Gym, Hong brought people over.

was much faster than he expected.

Li Yao, who was hiding in a hidden corner in the distance, also looked up and saw this blood-colored fighter plane glowing coldly in the moonlight. His heart sank and his hands and feet were cold.

"Hong!? It was actually the master Hong of the Extreme Martial Arts Gym who arrived in person?"

"There is also Thor! The three major guards of Xtreme Martial Arts Hall!"

Li Yao felt even more desperate.

Luo Feng alone made him feel unmatched, not to mention Hong and Thunder God, as well as the three guards, all are powerhouses surpassing the God of War, and each has the ability to easily kill him.

If Xtreme Martial Arts Gym chooses to help Luo Feng, he will undoubtedly die today.

Li Yao is an exciting spirit.

"No, I have to leave here immediately."

While in the sky, Hong is also talking to Luo Feng.

In fact, even if Luo Feng has become the spiritual teacher of the God of War Peak, he will only take a high look, and he doesn't necessarily care much, but because of Wang Yi, Luo Feng has another weight in his heart.

After understanding the whole thing, Hong praised: "Luo Feng, you have done a good job. You have found so many islands of grass and wood spirits for our Xtreme Martial Arts Gym. Your contribution is great. In this way, I will call you It was discovered that the distribution share gained by the Spirit of Plants and Trees increased to 20%..."

The three guards behind Hong are all slightly moved. They all know that Hong is the kind of person who will not easily change the rules for others, and now, because of Luo Feng, he made this decision.

"Thank you, the owner!" Luo Feng was secretly happy.

Now he also knows the value of the spirit of vegetation. A spirit of vegetation is absolutely priceless and extremely precious. According to the rules of Xtreme Martial Art Museum, he found that the reporter can get 10% of the spirit of vegetation, but now Hong Duo Assign him a 10% share, and the reward will be doubled at once! So many spirits of vegetation on the island add up to an amazing number.

After dealing with Luo Feng's affairs, Hong said indifferently, "Bingshan."

"The owner of the museum." Behind Hong, a man in a black robe with a cold temperament and a golden mask on his face leaned slightly.

"Go, find out the spirit of vegetation on the island." Hong said.

"Yes." The black robe and golden mask man replied respectfully, and then his figure moved and flew to the misty island.

When the iceberg flew to Kirishima, under the night, a black streamer flew towards the Australian mainland at an alarming speed.

In the cabin of the warplane.

"Li Yao actually spread the news of the existence of the spirit of grass and trees in Kirishima to the world." The black-haired boy in a black and red combat uniform shook his head slightly. Let's go, just break the jar."

With Wang Yi's current global surveillance, it can be seen that in many parts of the world, strong people are constantly rushing towards Kirishima.

Obviously, a newly discovered place where there are a lot of spirits of plants and trees has made many powerful people and forces be tempted and want to share a piece of the pie.

The five powers, the HR underground alliance, the major base cities, the strong from all sides...As long as they are free, they almost all rushed over.

"Now, it's lively..." Wang Yi laughed.

However, the Xtreme Martial Arts Hall has already arrived there first and has an absolute advantage. It may not be easy for other forces to take advantage.

A Hong alone is enough to make everyone afraid to act rashly.

Not to mention there is a Thor there.

Kirishima under the curtain of night is very mysterious and quiet, but there is a figure on the island constantly shuttles, there are huge bursts of air, and the movement is extremely quiet.

In the sky, Hong and others did not go down, and Thor was talking to Luo Feng with a smile.

Suddenly, they all turned their heads and looked in one direction.

Boom!

The sky suddenly vibrated, and a black streamer almost stopped in the blink of an eye, and it stopped in the sky above everyone. It was a black triangle fighter plane!

In appearance, this streamlined triangle fighter is almost exactly the same as the prehistoric smart fighter Hong was riding in, except for the color difference.

"Wow!" The hatch opened automatically.

The next moment, a black-haired boy wearing a black and red close-fitting combat uniform with two war knives stuck behind his back and pedaling on a silver-gray shuttle flew out of it.

"Wang Yi!"

Hong and Thor's faces are a bit strange, they seem a bit unexpected, but they are taken for granted.

And Luo Feng had the most reaction when he saw that it was a friend he knew suddenly appeared.

"Wang Yi?"

Wang Yi first smiled at Luo Feng, then slightly nodded towards Hong and Lei Shen. UU reading www.uukanshu.com

"Master Hong, Thor."

His calm and natural attitude of greeting is like greeting two acquaintances.

However, Hong's two guards also knew a little bit about Wang Yi's real situation. Hong also reminded them not to provoke Wang Yi, so they were calmer.

And Luo Feng is a little confused.

I feel that my good friend's attitude in front of the world's two strongest... is it a bit too presumptuous?

"Wang Yi, why are you here?" Luo Feng couldn't help but said.

Wang Yi said without blinking his eyes: "Luo Feng, I am also a senior at the Extreme Martial Arts Gym. After learning the news that you were chased by Li Yao, I rushed over immediately, but it seems that you are fine."

If Luo Feng knew that his identity as a spiritual teacher, who had been hiding for so long, would have been exposed, there was a "credit" from the friend who said nothing in front of him. I don't know how he would react.

Luo Feng certainly didn't know this. Hearing what Wang Yi said, he thought he had come all the way, worrying about his safety, and he couldn't help but feel a little moved.

Hong and Lei Shen, who knew the inside story, witnessed Wang Yi opening their eyes and talking nonsense all the time, and the corners of their mouths twitched, but thinking that Wang Yi had given them so many benefits, they finally remained silent together and did not reveal Wang Yi's lies.

While Wang Yi and Luo Feng were talking, the battle on the island became more and more intense, suddenly...

"Huh?" Hong, Lei Shen frowned, and looked at Kirishima at the same time.

And Wang Yi also looked down with a noticeable smile.

In the next moment, a figure rushed out of the island in an embarrassing speed like lightning, and a black and purple cane with a diameter of 20 centimeters shot into the air...

Mo Yun Teng came out!

[Chapter 86: Babata: I still have a chance](#)

"Hahaha..." Hong Chang's laughter echoed over the scattered islands destroyed by a battle.

As in the original history, without Wang Yi intervening, Hong quickly shot and succeeded in conquering Moyunteng.

And Thor slowed a bit, he could only envy him beside him.

Wang Yi smiled without saying a word, and Luo Feng was even more bewildered.

At this time, there were already a large number of flying fighters around Kirishima. There were nearly twenty people standing in the sky, but they didn't dare to come close. They were all the black men who looked at the sky in awe.

In this battle, Hong showed his unmatched strength among the planetary stars!

makes those planetary councillors feel bad.

And Li Yao was unlucky enough to be affected by the previous battle between Hong and Mo Yun Teng, and I don't know where he died.

But of course no one cares about Li Yao's death now, even the few war gods of the Polinas family dare not say a word.

Everyone present cast their scorching eyes on the island.

Although I don't know what the monster-like Longteng is, it must be an unimaginable good thing that can make Hong, who has always been incapable of emotions and anger so excited.

Seeing Hong turned and flew away, some people couldn't help but flew towards the island.

After getting Mo Yun Teng, Hong was also in a good mood. He didn't care about those people. Just now, the guard iceberg had almost collected the spirits of the trees and trees on the island. It would not hurt to give some oil and water to other forces.

Although he didn't care, the guard iceberg remained on the island and continued to search for the remnants of the spirits of vegetation, and the island soon heard fierce bursts of air.

It can be expected that the Xtreme Martial Arts Hall will be the biggest winner of Kirishima this time.

Because of Hong's unrestrained attitude, more people rushed to the island, and Kirishima suddenly became lively.

Luofeng is also a little eager to try.

Wang Yi said at this time: "Luo Feng, or else, let's go down and take a look."

"Okay." Luo Feng wanted to go down at first, but when he saw his friends go with him, he immediately agreed without hesitation.

Hong and Lei Shen, who originally wanted to leave, had a physical meal and looked at each other.

They are not leaving either.

Luo Feng still didn't know Wang Yi's true strength, and thought that he was also a high-level God-of-Wars spiritual teacher just like himself.

But Hong and Lei Shen are very clear about Wang Yi's true strength.

This island must still hide big secrets.

And at the 10,000 meters underground on Kirishima, that spacecraft, Babata became excited again.

"coming!"

"so many people!"

"It's not vain that I took a lot of effort and threw out a serrata seed."

"Um?"

"It's that **** kid!"

The happy Babata suddenly noticed something, and she stood up, angrily.

Blood-red eyes were round, all the cute tiger teeth were exposed, gritted his teeth.

"Do you dare to come back!"

On the other side, Wang Yi and Luo Feng were walking through the ground.

Just now, Wang Yi revealed a part of the 'truth' to Luo Feng, telling Luo Feng that he was already a star powerhouse.

shocked Luo Feng.

Then Wang Yi told Luo Feng that the reason why he became a star power was that he accidentally obtained a treasure here during his life and death adventure on the Australian mainland in August last year.

With Wang Yi's strength as proof, Luo Feng certainly believed it.

What's more, Wang Yi has no need to lie to him.

At the thought of such an important secret, Wang Yi actually told himself, Luo Feng was a little grateful.

What a good brother, this is it.

You can share it with everyone.

Wang Yi was very calm in his heart.

He knew that Baba must have discovered that they had arrived, but after having learned the lesson last time, Babata could not decide what to do this time.

Therefore, after searching underground for a while, Wang Yi excused that the efficiency of two people searching together was too low, so it was better to separate.

Luo Feng, of course, has no objection. He thinks so too. If two people act together and find the treasure, how should they be divided, and who should be considered?

And he already knows Mu Yingjing's information from Wang Yi, and he can search for it by himself.

At the moment, the two are separated.

Before leaving, Wang Yi gave Luo Feng an opinion that the deeper he goes underground, the greater the probability that he will find Mu Yujing. Of course, this is his experience, and what Luo Feng does is his business.

Luo Feng kept Wang Yi's words in his heart.

"Luo Feng, I can only help you get here." Wang Yi said in his heart as Luo Feng's figure disappeared from his sight.

On the other side, Hong and Lei Shen were also searching underground.

"Brother Hong, where did you say Wang Yi took Luo Feng?" the white-robed bald youth couldn't help asking. "Aren't we just here looking aimlessly? Why don't we just ask Wang Yi?"

"It's not appropriate." Hong directly rejected Thor's proposal. "If Wang Yi wanted to tell us, he would have said that the reason why he took Luo Feng to act alone is probably to avoid us."

"This Luo Feng is so lucky that he can be regarded so highly by Wang Yi." Raytheon couldn't help being a little envious.

"Individuals have their own personal opportunities, so I can't force them." Hong saw it very openly.

"Speaking of it, Brother Hong, you actually got a moyun vine on this island this time, and your luck is too good." Thor said, "The kid also has mo Yun vine, he must know that this island has long been I didn't tell me about the existence of Mo Yun Teng, because I usually invited him to drink so many times."

Except for Hong and Thor, the other strong men on earth also focused their attention on the underground after searching the Kirishima and the lake thoroughly.

"Huh?" In the dark rock layer, Thor suddenly moved his expression among the two people who were moving quickly through the rock and soil. "Brother Hong, do you smell anything?"

Hong also stopped, both of them looked in the same direction at the same time.

A faint fragrance of rice floated from that direction.

Hong, Thor glanced at each other.

Boom!

The speed of the two soared to the extreme in an instant, breaking through the rock layer almost in a blink of an eye~www.mtlnovel.com~ to an underground river.

In the darkness, a translucent white crystal suspended on the river, exuding a light rice fragrance.

"Wooden Crystal!"

.....

On the other side, Luo Feng also rushed to a corner excitedly and picked up the two wooden crystals on the ground.

"It's a wooden crystal! It's exactly the same as Wang Yi described!"

Luo Feng was breathing quickly.

He already knew that a single wooden crystal is enough to make a **** of war break through to the level of surpassing the **** of war in just one month!

"I, Luo Feng, have one day to become the existence of the God of War." Luo Feng couldn't help but recalled that he had gone to the funeral of the God of War Lu Gang, the first time he saw the existence of the God of War. Welcome scene!

And now, he can also become that kind of super existence!

"Take it away first." Luo Feng carefully put the two wooden crystals away.

Then he moved his eyes to the darkness deeper with excitement.

There was a desire in my heart.

Here alone, you can pick up two wooden crystals, then continue to search, can you find more?

People are greedy, and Luo Feng is no exception.

Unconsciously, he was getting closer and closer to the spaceship where Babata was.

Hidden in an ancient spaceship in the rock.

"Hum hum....."

Babata, in the image of a cute little devil in a black robe, sat on the virtual throne, watching the light spot of Luo Feng observed by the spacecraft probe gradually approaching her, and the expression on her face gradually distorted.

"I, Babata, there is still a chance!"

"This time, I will never make that kind of mistake!"

Poor Luo Feng, he still doesn't know what he will encounter next?

[Chapter 87: Descendants of Meteorite](#)

"Huh!"

Luo Feng opened his eyes, jumped up violently, and retreated like lightning.

"I am..."

Only then did Luo Feng see the scene in front of him clearly.

He is now in a semi-circular ornate hall, a black virtual figure standing in front of him, seeing him wake up, making a proud voice.

"Luo Feng, you finally woke up."

.....

On the other side, Wang Yi walked leisurely among the rocks hundreds of meters above the Meteorite spacecraft.

"Luo Feng, I should have entered the Meteorite spacecraft. I have seen Barbata." Wang Yi watched the communication mud bull sent to Luo Feng on the auxiliary optical brain into the sea, without responding, thinking in his heart.

"Luo Feng has become the descendant of Meteorite, and next, it will be the golden horn behemoth..."

Wang Yi's figure goes away.

And the secret of Mu Yujing was finally discovered by other parties, which triggered a fierce battle just like the original history.

But Wang Yi, of course, is not interested in taking part in the excitement. Instead, he wanders around the ground aimlessly, thinking about his unborn child.

When the golden horn beast's crisis is resolved, when the child is born, he will leave the earth again and venture into the universe. Perhaps this time, Hong, Thunder God, and Luo Feng will also leave together.

But Wang Yi and their goals are different. They are destined to part ways. Of course, Wang Yi doesn't mind helping them.

"The peak genius battle held by the Virtual Universe Company should be held in March 2066, and there are still more than eight years to go. Before that, I must make myself as strong as possible to get a good ranking in the peak genius battle. It's best to make the top 1,000..." Wang Yi also had a trace of desire in his heart.

But he is not blind.

Do your best.

"Break through the constant star this year first."

.....

Luofeng flew out of Kirishima, still a little messy in his mind.

"Luo Feng, now you are the descendant of Meteor Moxing. What Hong, Thunder God's, is destined to be surpassed by you. By the way, there is also Wang Yi. You help me catch him. I will teach him a lesson. Pause." Babata's arrogant voice sounded in Luo Feng's mind.

Luofeng was a little helpless, Babata didn't know why, every time he mentioned Wang Yi, he gritted his teeth and seemed to hate him very much.

But Wang Yi is his own friend. How could Luo Feng push him into the fire pit, so he could only persuade Babata to raise his hands high and settle things down.

"By the way, Babata, you said that Wang Yi's brain width is 24, which is higher than mine. Then why didn't you include him in Meteor Star?" Luo Feng moved in his heart and asked curiously.

Babata stagnated.

Some irritated into anger. "Don't ask so much. Anyway, you can help me catch him and let me fix him. I, Lord Barbata, no one has ever dared to tease me like this. I must make this kid who doesn't know the height of the sky regret it. Something done to me."

In the chatter of Babata, Luo Feng flew out of Kirishima Lake with his shield, and saw a black triangular flying fighter plane parked in the sky not far away.

Wow, the hatch opened, and Wang Yi's figure appeared at the hatch.

"It's this kid!" Babata was furious.

"Hehe, Luo Feng, you're back, how are you gaining?" Wang Yi swept his gaze over Luo Feng, making him feel like he was seen through.

"It's ok." Luo Feng didn't elaborate, mainly because the secrets of Meteorite cannot be known to outsiders.

Thinking of this, Luo Feng's heart moved again, "Babata, you said that Wang Yi's spiritual teacher talent is so good, isn't it right for our Meteorite Star? Or let Wang Yi also join us and become our Meteorite Star official member, right?"

Babata, who was still angry and cursing, stopped talking for a moment.

Just when Luo Feng was worried about whether Babata disagrees, Babata coughed slightly, "Well, what you said is not bad, but it is not that easy to join our Meteor Star, you must take a good assessment..."

Luo Feng curled his lips, Babata said so much, I am afraid that Wang Yi can join Meteor Star.

Babata is also quite arrogant.

Wang Yi helped Luo Feng so much, and Luo Feng also wanted to return it.

Meteor Moxing was all extinct, and Luo Feng was the only descendant left, and there was no way for Babata to choose Luo Feng.

It was the first to fancy Wang Yi, but the boy didn't go to the road, and he escaped halfway, making Babata's expectation disappointed and depressed for a whole year.

At the thought of this, Babata's teeth itchy angrily.

However, when he saw Wang Yi again, it was surprised to find that the little guy who had only been apprentice to the ninth rank was already in the eighth rank. It was only a year later. This kind of growth rate is also a little surprised for Babata.

is naturally nothing to put in the universe, but it is already rare and precious in the closed and backward aboriginal planet of the earth.

It can be seen that Wang Yi is definitely a genius.

Thinking of this, Babata's proposal to Luo Feng is even more heart-warming.

"Luo Feng, I promised you that Wang Yi can be admitted to Meteor Star." Babata's proud voice sounded in Luo Feng's mind. "But ~www.mtnovel.com~ those core inheritances cannot be handed over to him now, we have to wait until later."

"No problem." Luo Feng was overjoyed.

Now, the black flying fighter has flown to Hongning Base City in western Asia.

In the cabin, Wang Yi and Luo Feng sat face to face in chairs, drinking tea.

"Wang Yi." Luo Feng said suddenly.

"What's the matter?" Wang Yi said.

Luo Feng stared at Wang Yi. He trusted Wang Yi extremely in his heart, and since Babata allowed him to tell Wang Yi this secret now, he would definitely be prepared, and he was not worried that Wang Yi would harm him.

"I have something to tell you..." Luo Feng said solemnly, "I'm underground in Kirishima..."

Wang Yi listened to Luo Feng's "secret", and his face also showed a surprised expression.

Babata admired Wang Yi's expression in the ring space, feeling proud, hum, I made you stay here, but now you regret it.

late!

Wang Yi listened to what Luo Feng said, and he had already guessed what he would say next.

Sure enough, Luo Feng said: "Wang Yi, now there is a chance, would you like to join Meteor Star?"

Wang Yi deliberately showed embarrassed expression, "Uh, this, I am used to being free, what are the rules and conditions for joining your division? Will it be restricted or something?"

Luo Feng continued: "It's okay. I am the only one left in this school, and the old nest was destroyed by the enemy tens of thousands of years ago, so if you go out in the future, remember not to say that you came from the Meteorite Star. "

"Oh?" Wang Yi immediately smiled brightly, "Then I will join. Good thing, all the teachers are gone. This means that we are not bound. Of course I joined."

Babata: "....."

So angry!

[Chapter 88: Luo Feng Supervisor](#)

"By the way, Luo Feng, I also have something to tell you..."

Wang Yi took out a consciousness sensor helmet that can be connected to the virtual universe.

Now, it is time for Luo Feng to see in advance how vast and vast the universe is outside.

By matching the golden horn beast to him, the foundation of Luo Feng's rise will be there.

Wang Yi can do his own thing with confidence.

He believed that Luo Feng, the future City Lord Luo, would not let him down.

In Kirishima, after receiving the news that Wang Yi and Luo Feng had already left, Hong and Thunder God who were still underground were silent.

Originally, with Wang Yi's help and the resources provided, they were not as eager to compete for Mu Yujing as in the original history, but the reason for staying here is more to discover the secrets hidden in Kirishima.

But the departure of Wang Yi and Luo Feng seems to have heralded something.

Virtual universe, Qianwu Continent, Heilongshan Island.

A three-story single-family villa with a courtyard in Jiuxing Bay, Wang Yi and Luo Feng in plain gray clothes appeared here.

Because the network number has been added as a friend before entering the virtual universe, and the initial login location is bound (if there are multiple locations, you can set it before you enter), so Luo Feng appeared in his yard with Wang Yi .

"Wow! Virtual universe! It's finally back!" The pocket-sized version of Babata on Luo Feng's shoulder was extremely excited.

As a virtual intelligent life, returning to the virtual universe is just like returning a fish to the sea.

"This..." Luo Feng looked at the scene around him with surprise and curiosity on his face.

This is the first time he has landed in the virtual universe.

"Master Babata." Wang Yi said to the excited Babata, "Look, I also have a smart life. I don't know Master Babata, can you send your information to my smart life?"

Although the mystery of Meteor Star's inheritance is very powerful, Wang Yi pays more attention to the rich experience of Babata, an intelligent life that has been in the universe for tens of millions of years. With those precious information, Wang Yi can save Wang Yi. Some detours.

Compared to Babata, Bermuda is undoubtedly a toddler.

Babata glanced at Wang Yi, his eyes fell on the little black and white ball on Wang Yi's shoulder, with a surprised expression.

"Yeah, boy, are you pretty good, where did you get an intelligent life?"

Bermuda two small paws grabbed Wang Yi's hair and hid behind his neck, grinning at his teeth, the evil Barbata looked a little scared.

"I don't know what Lord Babata likes?" Wang Yi smiled.

"Hmm..." Barbata pondered for a moment, and said simply: "For the sake of allowing me to finally land in the virtual universe for so many years, I promised you. However, it is only limited to some information, those secret methods, and so on. It is impossible for you now."

A little bit of information is nothing to Barbata, and Wang Yi, as a member of Meteor Star, is also a member of Meteor Star, Barbata still knows the generality.

"No problem, this is enough, thank you Lord Babata." Wang Yi smiled.

After Wang Yi transferred 100 million Black Dragon Coins to Luo Feng as his starting capital in the virtual universe, he left.

But Babata is still in the virtual universe, continuing to 'teach' Luo Feng.

When Wang Yi sent Luo Feng back to Hongning Base City, he bid farewell to him, and he also got some of Meteor Star's spiritual teacher cheats and martial artist cheats. I have to say that many of them are better than the cheats he is currently practicing. Out a lot.

But they are all cultivated to the universe level. Only when Wang Yi cultivates to the universe level can he obtain the following domain master level and world master level secret techniques.

Babata undoubtedly regards the inheritance of the Meteorite Star very important.

That is to say, Meteor Moxing is now dead, and there are only two single seedlings, Luo Feng and Wang Yi. Otherwise, with Meteor Moxing's strict requirements, how could Babata easily teach it.

Before leaving, Wang Yi 'successfully' mentioned the matter that Hong and Lei Shen could be included in Meteor Meteor Star. As for how Luo Feng and Babata decided, it was their own business. Wang Yi could only do it here.

When Wang Yi returned to Yangzhou City in Jiangnan, he received a message from Luo Feng the next day, saying that he had graduated from the training camp and would be ordered to return to Jiangnan Base City to serve as a supervisory envoy, and he also included Hong and Thunder God. Under the door of Mo Xing.

In terms of entry level, Luo Feng is the 'big brother' and the suzerain, Wang Yi is the second elder brother, Hong Pai's third, and Thor is the last, which is fourth.

But in reality, of course there are different opinions.

Even Luo Feng and Wang Yi are usually called by their first names, and no one would call someone brother.

On the second day, Luo Feng returned with the blue smart fighter plane he got from Hong, but this time he didn't use the Star Points to exchange it, and Hong gave it for nothing.

However, Luo Feng still managed to escape Tissot and the Ancient Civilization Gravity Room.

Luo Feng's return repeats the scene of Wang Yi returning to Mingyue Community from the elite training camp, and is even more solemn. After all, Wang Yi was very low-key at the beginning and his identity was kept secret. Zhou Yongzheng and others in the hall also rushed over to visit Luo Feng.

Luo Feng and Wang Yi's house used to be very close, but now Wang Yi and his family have moved to the castle, and the villa has also returned. In the evening, Wang Yi and Luo Feng were sitting on the second floor balcony of Luo Feng's villa and drinking tea~ www.mtlnovel.com~ Time has passed so fast. In a blink of an eye, it has been more than a year. Now you have become the Supervisory Envoy of the Extreme Jiangnan General Assembly Hall, but you are the number one man in Jiangnan. "Wang Yi laughed as he looked at the afterglow in the sky.

Luo Feng shook his head and said: "Don't make fun of me. How can the inspector compare to the identity of the inspector? What's more, your current strength is just to create another extreme martial arts gym, right?"

When Luo Feng learned from Hong the specific deeds of his old friend, he was also very surprised.

And now everything about Wang Yi is still kept secret. Even the countries that have received Ziguanglu think that the Xtreme Martial Arts Museum and the Thunderbolt Martial Arts Museum have obtained new results from which ancient civilization relics, and they have produced so many treasures. They do not know all of them. Behind it is the reason of one person.

"What's the point of being a king and dominating on the earth? The vast universe outside is where we can go." Wang Yi drank the tea and said lightly.

"Hmm! You are right!" Luo Feng also had endless longing in his eyes.

Getting information about the infinitely wonderful and vast universe from Babata, the virtual universe, also gave Luo Feng a more intense pursuit.

Any travel star, constant star, are all jokes!

Lord of the realm, even immortality, is Luo Feng's pursuit!

As for the power of the earth, it is like a child playing at home, and it is not taken by Wang Yi and Luo Feng at all.

"By the way, my child is expected to be born in October, when you are an uncle, remember to come and have a wedding wine." Wang Yi laughed and said with a flash of Luo Feng's open mouth, the figure has disappeared. Without a trace.

Leaving Luo Feng sitting on the balcony alone was a little dazed.

"Wang Yi...he has a baby?"

[Chapter 89: The 3 Great Ages of the Earth](#)

virtual universe, killing fields.

With a huge background of blood drops like a sea of blood, Wang Yi and the other four people sat around a table drinking in an astonishing hall on the scale of a city.

There are very few people in the whole hall, very sparse.

"In the Killing Fields, consumer prices are very high. For example, I am currently an eighth-star warrior. If I choose a warrior to consume, it will cost 500,000 black dragon coins a day, or 350 dry witch coins." Wang Yi came to this for the first time. Luo Feng here introduces the killing field. "If you are a spiritual teacher, the price is much higher than that of a warrior. It needs 1.25 million black dragon coins a day."

The official exchange of the Black Dragon Mountain Empire, 1 Dry Witch Coin can be exchanged for 1000 Black Dragon Coins, but 1000 Black Dragon Coins cannot be exchanged back for Dry Witch Coins!

"The Killing Field is a special training ground for martial artists and spiritual teachers. There, there are any opponents you want." Hong's eyes brightened. During this time, he has made great progress. , Especially the field, all went into the second level!

Hong, Thor, and Wang Yi weren't the first day to get mixed up in the Killing Fields, and they even went to the Decisive Battle Space many times.

Killing Space is dedicated to serving one person. Various opponents can be set in it, which is the best training place.

The decisive battle space is a place where the real warriors fight each other!

And the consumption limit in the 'Decisive Space' is only one-tenth of the 'Killing Space'.

However, there are countless powerhouses in the Black Dragon Mountain star field, and there are so many planetary stars. Hong and Wang Yi have domains. Fortunately, they have almost never lost in the battle. The winning rate is over 99%, and they have reached the rating of nine stars. It is the strongest evaluation among the same level, which means that they are the absolute masters of the same level.

Thor, who has no domain, is much more miserable, with a winning rate of only about 65%!

The universe is vast and endless. The Black Dragon Mountain Empire alone has more than 8,000 galaxies, each with a star factor of 100,000 life planets, how many planetary stars should there be? How many ancient and powerful inheritances? power?

Thor, who can be in the top three on the earth, is placed here, it is not remarkable at all.

And Thor also rushed to catch up, and began to work hard in the field, there is already a little bit of evidence.

But this has nothing to do with the current Luo Feng, after all... he is not even a planetarium!

Want to join the decisive battle space, the lowest star is required!

And Luo Feng, just a few days after becoming a high-ranking **** of war, it takes a while to break through.

However, he has the inheritance of the Meteorite Star, and his speed of progress in the future will be very amazing. It is very easy for the two Thors to catch up with Hong.

An old man with green skin and wrinkles on his head is sitting on a chair with squinting eyes, very leisurely. From the point of view of earthlings, this old man looks unsightly. But there is a strange feeling of tranquility in people's hearts.

Those who passed the hall were afraid to disturb him, so they avoided it.

His name is Man Luo, and he is the head of the Killing Fields in the island branch of Heilongshan.

Wang Yi probably remembered in his heart that he seemed to be an immortal of the Virtual Universe Company, who had been stationed in the Black Dragon Mountain Empire for a long time to discover new talents for the Virtual Universe Company.

However, Wang Yi does not plan to join any virtual universe company now, he is restricted, after all, he has to go to various places to sign in.

In short, the virtual universe company can give him too little now.

Unless they become the core layer, with less restraint, more freedom of movement, and higher authority status, they can enter those high-level places.

"Master! There is a discovery in the Pacific Ocean in reality!" Wang Yi, who was drinking with Thor and them in the Killing Fields hall, was suddenly shaken by the intelligent life Bermuda on his shoulder.

"Huh?" Wang Yi immediately woke up.

"Did you find the egg of a giant star beast?" Wang Yi was a little surprised.

As early as when he returned to Earth, he specially spread countless miniature investigating robots to the whole world, and the Pacific Ocean is the most important of them, and in order to find the metal fragments of the first calamity of the secret of the nine calamities in the original work, he also Asking Bermuda to order many high-tech instruments and equipment in the universe to be put under the earth for mining and reconnaissance, in the name of Xtreme Martial Arts Hall, it is easy to avoid countries to implement large-scale development.

Didn't expect there to be news so soon?

Bermuda shook his cute round head, "No, master, it's not an egg, it's something else, you can see it in reality."

"Wang Yi, what's the matter?" Hong and others next to him all looked over.

"There seems to be something wrong in reality, it seems that I have to take a step first." Wang Yi stood up and smiled.

Thor smiled and said, "It's probably your wife who gave birth, then you really have to run faster."

Hong They all know that Wang Yi has three wives, and they would make fun of him when they are fine.

"Haha, it's not so fast yet." Wang Yi casually dealt with a few words, and his consciousness left the virtual universe.

Yangzhou City, seven-story magnificent castle, in the study room.

"Bermuda, what's the matter?"

"Master, our machinery and equipment have unearthed a strange thing deep underground in the Pacific Ocean." Bermuda directly projected an image.

Wang Yi saw that in the image was a black sculpture of a human figure that was a hundred meters high. It looked like a human being with a blurry face. Wearing clothes similar to ancient Chinese costumes, the hair was combed, giving people an ancient look. The feeling of vicissitudes.

"What is this?" Wang Yi frowned, UU reading www.uukānshu.com, is there such a thing on the earth?

"Master, after preliminary inspection, the history of the existence of this sculpture is very old, and it may even exist before the formation of the earth." Bermuda's words flashed a flash of light in Wang Yi's mind, and suddenly he remembered something.

The earth is a planet created by the great power of the alien race in the universe, 'Sit on the Mountain', who spent endless hard work. The purpose is to cultivate a race with super talents in mind, nature and will.

And the intelligent life born on the earth will be affected by a special mysterious force invisibly. When the soul is conceived, the soul will be transformed, and it can be said to be unique in the cultivation of the mind, the will and the will.

However, the birth of the true earth is very old. It has been broken more than once, but it will condense again every time.

The era of the first candidate, the earth is called the 'mountain and sea boundary'.

The second candidate era is called "Genesis".

The era of Luo Feng and Wang Yi is called "Earth".

In fact, what makes Wang Yi even more concerned is that when the mountain guest was refining the Star Tower, when the manufacturing was close to success, he accidentally merged into a golden light in the universe...

Why, by coincidence, at that moment, there was a sudden golden light fusing in, and it also allowed the Star Tower to successfully advance into the strongest treasure, and it is also the only strongest treasure made by man in the primitive universe?

This kind of probability is too low and too low, it is almost more difficult than the birth of a **** king in the primitive universe.

It feels like preparing someone for someone in the dark.

Of course, it may be a coincidence.

Wang Yi shook his head, no longer thinking about it so much.

"Let's go and take a look at the mysterious carving now. If not unexpected, it may have something to do with the true secrets of the earth."

[Chapter 90: Will increase!](#)

Pacific Ocean, on an island.

Because the ocean is occupied and ruled by monsters, after the era of Nirvana, those islands have been abandoned and turned into monsters' nests.

But now, in a clearing on the island, a group of warriors with sturdy aura and uniform armor are guarding here, and the powerful aura radiates out, and the monsters dare not approach from far away.

Boom!

There was a violent vibration in the air, and a triangular jet black fighter suddenly appeared.
brush!

A few figures flew out. The leader was Wang Yi, and the four Heng-star Marc food clan powerhouses he had brought over.

"Owner!"

The members of the guard here saluted respectfully.

Wang Yi immediately turned his eyes to the 100-meter-high, black humanoid sculpture that was protected in the middle.

He didn't look at it for long, just observing it slightly, and approached.

"Check in."

If the sign-in is unsuccessful, you can only go to the place where you found the carving to try it.

.....

【Ding, congratulations to the host for signing in successfully, and rewarding the increase of will and talent. 】

【Your will has been improved. 】

【Number of check-ins available for this place: 0】

Wang Yi's spirit fell into a mysterious world when the sweet reminder of his son on the sign-in panel sounded.

He seems to have witnessed an ancient race coming from the primitive age and the reckless years, step by step, overcoming all obstacles, countless people following each other, **** struggle... Time passed, times changed, and the strong and wise men stepped onto the stage and led the tribe to advance. , And finally connect with the universe...

Wang Yi woke up instantly, as if he had never fallen into any illusion.

But his mind seemed to have undergone a washing, baptism, and unprecedented transformation at that moment.

The pitch-black eyes became as deep as an abyss, and their temperament changed strangely.

The will is very strange, it is not clear and can not be understood, but it is a manifestation of the strength of a person's xinxing, and it has a great impact on consciousness.

Wang Yi's previous will can only be said to be so-so, let alone Hong and Thunder God, two powerful men who have been nurtured by the essence of the earth's ancient civilization for thousands of years, Luo Feng, he is not necessarily comparable.

Will has no absolute relationship with strength.

"This sculpture really has something to do with the civilization of the era before the earth..." Wang Yi sighed inwardly.

There used to be two eras before the "Earth", but they have long since disappeared in the dust of history. Only this special sculpture can be left to prove their existence.

"But the earth is broken and disappeared. This sculpture can still be left. It must be very unusual. It seems that the earth really has some secrets that I don't know."

Wang Yi intends to build a base on this island, study this carving carefully, and see if he can find out something.

At the same time, he also issued new orders to continue to search for ancient ruins as suspicious as mysterious carvings in the earth.

Perhaps Wang Yi was lucky. Only four days later, he found a second similar sculpture in the North Pole. However, this is a white sculpture. It is still a human upper body and a snake in the lower body, which is a bit similar to some Chinese characters. Characters in myths and legends.

Wang Yi, who was still with Gao Yurong and the others, rushed over immediately.

[Ding, congratulations to the host for signing in successfully, and rewarding the improvement of spiritual talent.]

【Your spiritual realm has been improved. 】

【Number of check-ins available for this place: 0】

Different from the previous increase in sign-in will and talent, the increase in the spiritual realm did not make Wang Yi fall into any strange illusion.

I just felt that there was a coolness that came from nowhere and poured from head to toe, and the whole body was winded, and then it was dull.

These two sculptures are also the only two ancient sculptures discovered by Wang Yi.

Since then, even if Wang Yi rummaged the earth, no similar remains have been found.

The metal fragments of the Nine Tribulations Secret Code may be hidden in the depths of the earth. So far, nothing has been discovered.

However, Wang Yi didn't care about the metal fragments of the Secret Book of Nine Tribulations. After all, he found it, and only gave it to Luo Feng.

He himself has successfully cultivated the first kalpa, and the second piece of metal is in the Wulong star field, one of the nine junk star fields in the universe of human beings.

However, the Wulong star field is very far away from the Milky Way, even if it takes more than a year to fly with a complete Meteor Star spacecraft.

If it is the current Wang Yi, it will not work for ten or eight years. What's more, even though the Junk Star Field is said to be a Junk Star Field, it is also a treasure land, closely guarded by the human race, and it is not something ordinary people can go in and explore casually.

Wang Yi wants to enter the Junk Star Field as soon as possible. It is estimated that he has to take the path of the virtual universe company's pinnacle genius battle.

And even if I arrive and sign in, it may not be able to succeed. I don't know how long it will take.

Anyway, take your time.

.....

August 18th, China National Time, the autumn is high and the air is refreshing, and the sun is blazing.

Beyond the earth, in the endless starry sky, the starry sky is dotted with stars. Wang Yi has spent a lot of effort arranging the monitoring equipment in the solar system to closely monitor the situation in this star field.

咻!

A golden stream of light flew quickly from the starry sky of the universe, and flew directly to the earth at a terrifying speed close to the speed of light!

This golden streamer quickly penetrated the atmosphere and fell towards the earth!

But the weird thing is that neither the equipment in the solar system nor the special instruments from the relics of ancient civilizations from various forces on the earth have not found its appearance.

This golden streamer just rushed directly into the earth's atmosphere and plunged into the Pacific Ocean~www.mtlnovel.com~ This is about hundreds of nautical miles away from the many islands called the Hawaiian Islands before the Nirvana period.

On the sea floor of more than 3,000 meters, the golden streamer has dissipated, leaving only an oval black egg with a diameter of about twelve meters. There are strange golden markings on the black eggshell.

Silence!

But, soon.

A few streams of light rushed from a distance, revealing the images of men and women wearing uniform uniforms with black hair and amber eyes.

"This is the place where the micro-robot sends out signals." The expressions of several men and women were a little excited.

In several places in the Pacific Ocean, there are actually bases built secretly by the Wang Yi Slave Guard. With their strength, naturally, there is no need to worry about the monsters in the ocean.

As for the satellites on the earth? All have been controlled privately by Bermuda, so there is no need to worry about what secrets will be discovered.

"Go, go down and take a look." These ninth-level spiritual teachers of the Ma Shi clan travel star all rushed into the sea, and the monsters that dared to approach them were instantly shot to pieces by a cold light.

It was so unimpeded all the way, they came to a depth of more than 3,000 meters in the sea, and saw the oval black dome lying quietly on the bottom of the sea with a diameter of about twelve meters, and a head over a hundred meters long. The strange fish swimming there seemed to try to eat it, but was startled by the sudden appearance of a group of humans.

Before this lord-level ocean monster could react, it was dismembered by a thought-power weapon.

Several Ma Shi tribe men and women didn't care, but instead focused all of their attention on the black dome, all showing fiery expressions of excitement.

"That's right! It's exactly the same as in the information! That's it, let's report to the master soon!"
