

A God 811

[Chapter 811: Wang Yi's Small Universe](#)

The movement caused by Wang Yi's breakthrough shocked the entire universe.

The human race is naturally extremely excited, but other races are envious.

"The Lord of Chaotic Source must have broken through!"

"Should it be called True God Chaotic Source now?"

"Such an exaggerated and unbelievable movement, the entire primitive universe bowed down, how did he become a true god? In the world of Jin, the inheritance of ancient civilizations I saw did not record that the line of divine power or the line of law became a true god, there would be such a scene. ."

"No matter what, it is a good thing for the Lord of Chaotic Origin to become a true god. The stronger he is, the more certain he is to deal with the crisis of the world beast."

"Yes, to deal with the beasts, you have to rely on the Lord of Chaotic Origin. Oh, should it be called True God of Chaotic Origin now?"

The powerhouses of the entire universe are excited to discuss the movement caused by the breakthrough of the Lord of Chaotic Sources.

...

In the human territory, in the solar system, all the golden light dissipated, and Wang Yi also returned to normal.

He was dressed in a fiery red robe, and his black hair was elegant and unrestrained.

Wang Yi felt his divine body, no more or no less, it was 100,000 times more!

The panel also came to join in the fun at this time.

【Ding! It is detected that the host has broken through the true god, the system rules are re-updated, the value of the treasure point is detected to be excessive, the killing value function is turned off, and the void true god-level treasure exchange function is turned on. 】

Wang Yi: "..."

Before Wang Yi could complain, another figure appeared next to the starry sky.

Luo Feng looked at Wang Yi with a shocked face, and there was a trace of disbelief in his eyes.

He saw the scene just now, and in the endless golden light, Luo Feng couldn't control his kneeling.

At the same time, he was also full of puzzlement as to why Wang Yi's breakthrough would cause such a big commotion, causing all beings in the universe to bow down to him.

"Wang Yi, have you broken through to the true god? Is it the breakthrough of the divine body route or..."

Wang Yi smiled and said, "I am a breakthrough true god, but it is not a breakthrough of 90,000 times the gene level of life, but a breakthrough of 100,000 times."

"One hundred thousand times?" Luo Feng was shocked.

sky!

This is incredible.

It should be noted that there are three levels of the divine body, 30,000 to 60,000 times, which is the first level.

60,000 times - 90,000 times is the second level.

90,000 times until infinitely close to 100,000 times, which is the third level.

And in the records of the inheritance of the Duandong River lineage, no one has ever reached 100,000 times. In the records of Jin Zhi World, no one has ever reached 100,000 times. The important thing to know is the 'record', which means that in the ancient civilization...Duandonghe lineage and the world of Jin, the existence of '100,000 times the gene level of life' has never been heard.

This is just a legend!

In ancient civilizations, it is just a legend, and no one has ever achieved it!

There is no record!

"You, you did it..." Luo Feng looked at his friend in confusion.

He also took the line of supernatural power, but now he has not even reached 90,000 times.

And Wang Yi has reached an unprecedented 100,000 times! Even the origin continent may not be able to do things!

This is incredible!

"What exactly is a 100,000 times divine body?" Luo Feng's heart became hot and his eyes were bright, "What's so special about 90,000 times?"

"Haha... I'll tell you later, I just broke through, this is just the beginning." Wang Yi laughed.

"Oh, then you go, remember to go back and tell me in detail." Luo Feng touched his head embarrassedly, he knew that he was impatient.

But it's no wonder that no matter who it is, when he hears that the divine body route actually has a fourth level, he will be as shocked as he is.

What's more, Luo Feng has also pursued the path of the divine body for a long time, and his desire for breakthrough is definitely not lower than Wang Yi.

Whoosh!

Wang Yi returned directly to the vast kingdom of God. His kingdom of God had expanded to almost boundless boundaries, and had already reached its limit.

Wang Yi looked down at the Endless Divine Kingdom with a hint of complexity in his eyes.

"After a long time, I have finally come to this point."

The breakthrough of Wang Yi's divine body will lead to the evolution of the kingdom of God. As long as it begins to expand, it will soon evolve into a small universe.

"Let's start." Wang Yi thought.

With a thought of Wang Yi, the vast kingdom of God suddenly began to expand. The original boundary wall of the kingdom of God swelled outwards again. This expansion, a violent reaction suddenly occurred.

"boom!"

The entire Divine Kingdom shook, and suddenly a void passage was directly connected to the Divine Country. This end of this void passage, which did not know where it came from, frantically poured out endless chaotic airflow. The earth is torn apart, the ocean is torn apart, everything is shattered and returned to chaos.

With a large supply of chaotic airflow power, the kingdom of God began to expand wildly.

"boom!"

With the expansion of the kingdom of God, another void channel was born, and more chaotic airflow came in, like a world-annihilation scene.

Wang Yi stood in the center of the kingdom of God and looked around. Void passages were born one after another, and endless chaotic airflows poured in, causing the entire kingdom of God to form chaotic vortexes everywhere, and the kingdom of God continued to expand.

side expansion.

The kingdom of God itself is still constantly moving, the kingdom of God itself is in the 'space interlayer', the space interlayer is the original cosmic membrane wall, and penetrating the membrane wall is entering the cosmic sea!

At this moment, the Kingdom of God is constantly advancing... It will take a certain amount of time to expand from the Kingdom of God to a small universe.

...

Seven days passed in a blink of an eye.

Wang Yi's kingdom of God has almost expanded to a diameter of 100 million light-years.

The true **** of the universe sea, the small universe is always 100 million light years.

The diameter of the small universe of the Void True God is from one billion light-years to ten billion light-years in diameter.

Because at the beginning of its birth, it is the same. The small universe has just been born. When it expands and takes shape, the internal structure of the small universe is immediately carried out, etc...

When it breaks through to the void true **** in the future, the internal structure of this small universe and the strength of the true god, etc., only Affects the size of the Void God's mini-universe.

Of course, when the Void is a true god, the diameter of the small universe is only one billion light-years, which is also unlikely, and generally not so low. The weaker Void True God, the diameter of the small universe is about 2 billion light-years, the stronger ones are about 3 billion light-years, the elite can reach about 4 billion light-years, and the peerless genius can reach about 5 billion light-years... In short, the more It's harder to go up.

"Peng~~" The entire kingdom of God was shocked. The original barrier of the kingdom of God has become a cosmic membrane wall, and it has become a huge celestial body with a diameter of 100 million light-years. Immediately following this small universe with a diameter of 100 million light-years, it continues to expand.

The larger the diameter, the more the volume skyrocketed like a somersault. This small universe expands more slowly because more chaotic airflow is required. 200 million light years in diameter, 300 million light years...

Wang Yi stood in the sky of his own small universe, watching all this calmly.

Generally, those who take the divine power route, whether it is 30,000 times, 60,000 times, or 90,000 times, their small universes are also 100 million light-years in diameter.

But Wang Yi is a 100,000 times divine body, and his small universe is naturally even more special.

And the entire universe sea, as long as they get the news, they have already waited outside the membrane wall corresponding to the human territory of the primitive universe in advance, waiting for the new small universe of the Lord of Chaotic Origin to appear.

However, the endless golden light only pervaded the entire cosmic sea, and did not permeate the cosmic seas of other latitudes. However, because the news spread quickly, the three thousand latitudes of the cosmic sea quickly knew the feat of the Lord of Chaotic Source. Under the shock, they also Will come to watch.

I want to see what the breakthrough process is like if a breakthrough can make the entire universe worship the kneeling true god.

Just when all parties in the sea of cosmos were anxiously waiting, this day, Boom! A huge small universe burst out of the original universe, such as fish entering the sea, birds entering the sky, and directly entering the mighty universe sea.

This small universe is a billion light-years in diameter—not much, not much.

"There are fluctuations!"

Immediately, hundreds of cosmic sea powerhouses who sensed a powerful wave appeared teleportation.

"It's a small universe."

"so big."

"Look there is a hole in the original universe, that is, this small universe has just been repelled out."

"This is the small universe of the Lord of Chaotic Origin, has he really broken through?"

Those powerhouses were shocked to see the small universe where the surrounding chaotic airflow was surging.

Soon, they calculated the size of the small universe, and it turned out to be one billion light-years in diameter, which was even more shocking.

Because other true gods' small universes are all 100 million light-years away.

The ancestor of the Purple Moon Holy Land, the ancestor of the Eastern Emperor Holy Land transcended reincarnation and reached a higher level, and their holy land universe was only 2.1 billion light-years in diameter and 3.2 billion light-years in diameter.

As for the Lord of Chaotic Source, just breaking through to True God, the small universe actually reached one billion light years.

This is simply unbelievable and unprecedented!

The powerhouses from all sides of the Universe Sea who heard the news were stunned when they saw the small universe.

Not to mention the shocking powerhouses, in the small universe.

"The expansion of the universe has reached its limit, and the next step is to unify the body, return to the origin, and become the deity. There is also the origin of the universe and the structure of the universe." Wang Yi raised his spirit.

The next few steps are completed one after another. And the cosmos structure is the most important step!

The internal structure of the small universe must be set at the beginning before everything is finalized. Once the chaotic airflow begins to be transformed into the ten fundamental laws of time and space, there will be no more opportunities for structure.

Any superpower... has only one chance to build in a lifetime.

this structure.

First, it determines the future of the evolution of the small universe in the future.

Second, determine the origin of the small universe!

Third, it determines the limit that the strong can achieve.

This most basic structure is like laying the foundation when building a skyscraper. If the foundation is not laid well, naturally a skyscraper cannot be built. If this cosmic structure is not done well... in the future, the gradual evolution of the small universe will also have limits. For example, the evolution to the "Eternal True God Stage" cannot be broken through.

Even if you already have a very high realm of perception, but the small universe does not evolve and improve, you will never be able to break through.

Like the Void True God small universe with a diameter of less than 2 billion light-years, it basically has no potential to break through to the Eternal True God.

In the same way, it is difficult for the Eternal True God small universe with a diameter of less than 40 billion light-years to evolve into a small universe dominated by chaos.

If you want to become a **** king, the small universes in the era of chaos **** are basically more than 600 billion light-years!

From the small universe... in fact, you can also see the potential of a strong person.

Therefore, in ancient civilizations, the method of small cosmic framework is very important. No one dares to despise.

This is also why Duandonghe told those Cosmic Sea True Gods that unless they meet the requirements and become the heirs of Duandonghe, the level of their small-scale cosmos structure is too low, and if they want to help them break through in the future, it will cost more!

The evolution of a small universe is just like the growth of a person, from infants to teenagers, teenagers to youth... Naturally, the earlier the shape is set, the better.

And this is still the stage from the true **** to the true **** of the void. If you wait for the true **** of the void to become the eternal true god, or the eternal true **** to the master of chaos, there is basically no hope.

...

"The clones become one, return to the original source!" With Wang Yi's shout, it resounded throughout the small universe.

boom! A powerful force immediately acted on Wang Yi's deity, the Void Zerg clone, the flame star giant beast clone, the secluded sea clone, and the small secluded sea lake, and all of them were instantly moved to one space.

This is within the "miniature origin of the universe", and the interior of the universe at this moment is also chaotic, and it has not been completely finalized.

It is necessary to wait for the cosmic structure to be finalized before this source can be completely finalized.

"Crash!"

Several avatars were completely broken in an instant, and all the treasures were floating on one side. In the center of the monstrous divine power transformed by the broken avatars, there was a 'heart', which was the heart of the true god.

The heart of the true **** is the most important part of the true god's body.

The soul is hidden in it, and it also communicates with its own small cosmic origin.

If the source of the small universe is transformed to store a large amount of divine power, it can be directly transmitted to the heart of the true god. Once the heart of the true God is broken, the true God will be finished.

The origin of Wang Yi's small universe is a thousand times stronger than a true **** at the same level, and the heart of this true **** is also a thousand times stronger.

"Return to the source!"

wow wow...

The endless divine power began to fuse and condense continuously, and in the process of condensing, it continued to be purified, and it soared a hundred times in an instant.

At the same time, it began to condense into flesh and blood, bones, skin, hair, etc. Soon, a naked black-haired man appeared in this unformed small cosmic source.

Only when the small universe is completed can it return to its origin.

If Wang Yi was a divine body of "the Lord of the Laws of 100,000 times the gene level of life" before, then now he is a divine body of "a true God of 100,000 times the gene level of life"!

The power of the divine body has been increased by a hundred times!

And although Wang Yi's power has soared by a hundred times, all of them are transformed from the previous divine power, but the divine power is only 1% of the previous one.

If Wang Yi wanted to continue to increase the amount of divine power, he would have to rely on his own small universe to absorb it, and the original universe would not give any more energy.

Unlike those ordinary true gods who have a 10,000-fold life gene level, Wang Yi possesses an "infinite divine body". As long as his divine power is sufficient, he can increase the amount of his divine body without an upper limit until he reaches another limit.

"Next, it's the method of framing..." Wang Yi's eyes fell on a chaotic small universe.

Wang Yi took a deep breath, "The beginning of a yuan, let's get started."

"Get up!" A thought enveloped the entire universe, and whether it was the source space or all the chaos in the universe shook.

"One hundred thousand heavens!"

I saw the chaotic airflow in the entire universe, controlling the split and rotation everywhere, and began to gradually condense and form, and the planes began to be born rapidly.

As soon as you think about it, the 100,000 plane space is born.

The internal structure of the small universe is not just a random structure if you want to, it depends on your personal ability.

Just like "the beginning of one yuan, one hundred thousand heavens" is almost specially equipped for the small universe with one hundred thousand times the divine body.

Other true gods can't control it at all.

Of course Wang Yi picked it up and used it. With experience and preparation, he was even faster than the original Luo Feng.

I saw that there are 100,000 plane spaces being born in the entire small universe. These 100,000 plane spaces are large and small, and their structures are all different. Every faint plane space is connected, and every plane is connected. The outermost periphery of the space is surrounded by chaotic airflow, like a vortex.

One hundred thousand heavens, all revolving.

And the internal continuous improvement.

at the same time! In the chaos of the origin of the universe, 100,000 planets began to rotate, and these 100,000 planets corresponded to 100,000 heavens.

It's as if... the structure in the small universe has been 'miniaturized' in the source space, but Wang Yi himself understands that the source space is actually the one that guides everything in the outside world.

"One hundred thousand heavens are already complete." Wang Yi's eyes were calm. "Start the most important step!"

"The beginning of a dollar!"

The 100,000 planets in the origin of the universe suddenly burst into dazzling light, and the countless golden rays of light formed the super-complex rhinoceros bureau, which also continuously burst into energy, forming a mass of nothingness within the entire core.

I saw... in the center of the nearly 100,000 plane space, there was a vortex that was constantly rotating, like a bottomless vortex black hole, and the center of this bottomless vortex was the 'source of the universe'.

...

Wait until everything calms down.

The Void Vortex is the center, pulling nearly 100,000 plane spaces to rotate continuously. When rotating, a new plane space was born.

And it was born one after another, and in just a moment, it was restored to a hundred thousand planes.

In the origin of the universe, it has also recovered into 100,000 planets.

The central void formed by one hundred thousand heavens is the 'one yuan'. There is this dollar. You can make your own small universe full of possibilities, and even if the space of 100,000 planes is broken, it can be reborn.

The beginning of the Yuan, everything starts with the Yuan, and all things can be born, endless.

"It's done." Wang Yi breathed a sigh of relief, showing a smile, looking at the origin of his universe.

I saw 100,000 bright planets revolving around the central void~www.mtnovel.com~ This central void is the core of the entire 'universe origin'. Gurgling like a fountain, a large amount of divine sea water emerges.

A large amount of chaotic airflow outside Wang Yi's small universe is being swallowed like crazy.

wow wow~

The endless chaotic airflow began to revolve around the small universe, forming a huge chaotic vortex.

A large amount of chaotic airflow is swallowed all the time and transformed into divine power.

All small universes can be transformed into the power of divine power, but the structure of the 'Beginning of Unity' makes this power of transformation reach an incredible level.

[Chapter 812: Negotiations with the original will of the original universe](#)

In the small universe, Wang Yi is undergoing chaotic evolution.

The sublime law of chaos is beginning to slowly evolve into ten basic laws of time, space, gold, wood, water, fire, soil, lightning, light, and wind. There are many fusion laws such as the wind law, and some fusion laws are hidden and integrated into the 'small universe origin operation law' as soon as they appear.

The principle of the origin of the small universe is based on the ten principles. All complex laws are hidden.

The only thing missing is the Law of Chaos, because all of these... are derived from the Supreme Law of Chaos.

Chaos evolves, and only the True God can see it this time. There will be no such opportunity in the future.

The future improvement is just a transition of the small universe, but the law of chaos cannot be seen at all!

To control chaos, in ancient civilizations, that is enough to be called holy!

"Wow wow wow..." The law kept changing.

From the simple law of chaos, to the transformation of the original operation law of the small universe that is mixed with all laws (except the law of less chaos), this transformation process is evolution in Wang Yi's universe... Wang Yi feels the nature is extremely strong, and he is completely immersed in it. , and the divine power clone in the cultivation space was also thinking and comprehending rapidly under the acceleration of ten thousand times time.

Wang Yi's perception is soaring rapidly! Soaring at an incredible speed!

From the Lord of the Universe to the true God, the moment when the realm rises the fastest is the moment of comprehension of 'Chaos Evolution'. Even the comprehension of one or two reincarnation eras like many true gods is not as short as the short time of chaos evolution.

Before becoming true gods, they may only be the masters of the fifth-order top universe. But after becoming a true god, the secret technique level will soon reach the top six, seventh and even eighth orders!

In the process of 'Chaos Evolution', all spiritual perceptions were quickly transformed, the incarnation of divine power quickly comprehended, and everything was written down, Wang Yi's realm level continued to soar, the top of the ninth order, the tenth order, the tenth order...

Wang Yi didn't even deliberately comprehend the secret method, but at this moment, he was able to create the eleventh-order secret method easily!

...

The chaotic evolution is finally over, everything is finalized, and the rules of the universe in the small universe have become.

The operating rules have been set. Then the endless chaotic airflow in the small universe begins to transform into many forces such as gold, wood, water, fire, earth, wind, thunder, light, light, time, space, etc., and the earth, rivers, and everything will start to be born... This is the evolution of the entire small universe after the birth. Initially, it is the initial state.

Even the evolution of the original universe is divided into stages such as birth, initiation, prosperity, decay, and destruction.

The initial stage needs to be in units of 'billion eras'.

"Huh." Wang Yi let out a breath and opened his eyes. Those eyes faintly contained endless laws of the universe, like a bottomless void, where the universe was born and destroyed.

"Now I'm a true god." Wang Yi violently exudes his own power fluctuations, which are far more powerful than normal true gods.

Then he restrained the fluctuations, and once the power fluctuations subsided, he immediately seemed like an ordinary person.

Soon Wang Yi's "breath of life" completely converged to the extent that it was not noticed by any strong person. It should be noted that the 'breath of life' cannot be restrained. The identification of a strong person depends on the breath of life. Wang Yi's ability to completely restrain the breath of life depends on the specialness of the 100,000-fold divine body.

The power contained in a body that has reached a level of 100,000 times life is simply incredible!

If you say 30,000 times, 60,000 times, 90,000 times...the main thing is the reserves of divine power. That '100,000 times' is already detached, reaching another level.

In terms of divine power reserves, it has reached its peak after possessing the ability of 'infinite divine body' and 'size as you wish'.

And Wang Yi has now achieved the legendary "100,000 times", and he has all kinds of power, which can be collectively called "invisible and invisible".

'Invisibility and no form' not only means that Wang Yi can perfectly restrain the breath of life without revealing a trace of breath, but because of the "completeness of the structure of life", he can not reveal a trace of it. At the same time, it can easily change the breath and simulate any kind of breath!

The perfect life structure diagram can be changed at will, and can be transformed into flesh, metal, plants, etc., and the breath can also be simulated!

As long as it does not exceed Wang Yi's tolerance, everything can change. Of course, some 'too special', such as the strong, such as the will of the **** king... can't be changed.

And once it is locked, such as being trapped in the opponent's domain, it is useless under the opponent's eyelids.

"Having the ability to form and formless, I can even perfectly transform into a world beast, but the world beasts can telepathically sense each other, and with this kind of induction, even if they transform into a world beast, it's good that the other party doesn't doubt it. sink." Wang Yi narrowed his eyes.

Only the power can be transformed. Like the soul, etc., but it cannot be changed! The abilities of the beasts, such as "Blood Burning Method", "Black Mist Silk Cocoon", he does not have!

"However, the world beast that can make me change has the power of the world beast, and enslave the world beast, it's okay."

In fact, a billion world beasts were born. Although the life level of these world beasts is high, they have not yet reached the perfect level of one hundred thousand times. Only the last king is truly perfect, so although those world beasts can simulate aura on the surface, in fact, they cannot completely convert their power into divine power.

In particular, the ultimate king has the qualification to be on an equal footing with the original universe. This is something Wang Yi cannot match. After all, Wang Yi is just a life born in the primordial universe, and when he reaches the limit, he can't compare with the beast. World beasts are bred from the universe sea. Opposite of the original universe!

But although it is a bit lower, the level of life is still at the same level as the two, so it can enslave the beast.

"It's over, it's time to go back."

He looked around. "Perhaps, it's time to establish a cosmic channel to connect with the original universe."

Like going from the original universe to the original universe, it relies on the cosmic channel! This cosmic channel was still established when the original ancestor was there.

In the original universe, you can immediately go to the small universe from the original universe through the "cosmic channel"!

...

As soon as Wang Yi returned to the original universe, the human race immediately held a grand celebration. In addition to the human race, the Hongmeng, and even other forces in the universe also sent people to participate.

Today's Wang Yi is worthy of the primordial universe, and even the number one powerhouse in the entire universe!

And Wang Yi also established his name as "True God of Chaotic Source"!

Everyone expects that True God Chaotic Origin can solve the world beast crisis. The human race also rejoiced.

After the celebration, the virtual universe, Wang Yi and Luo Feng, the original ancestor, the founder of the giant axe, the chaotic city master, the true **** of the moon and the moon... and other top-level powerhouses of the human race gathered together.

Wang Yi glanced at these powerhouses, and said solemnly, "Everyone, I have been able to get through this world beast crisis with confidence."

"Oh?"

"That's great."

Hearing Wang Yi say this, everyone was happy.

"Hunyuan, what are you going to do?" asked the founder of the giant axe.

Wang Yi said: "Before that, I have something to announce to you."

"I once had a great opportunity to get a world beast incarnation when I went deep into the world beast's lair." Wang Yi looked at the stunned human powerhouse in front of him, "Now this world beast incarnation has perfectly blended into the world beast group, as long as it can become the last world beast king, then our human race can survive this catastrophe."

The original ancestor, the founder of the giant axe, the chaotic city master, Luo Feng, the true **** of darkness... The human powerhouses all looked at each other at this time.

".....real?"

"How could I make a joke about such an important matter?" Wang Yi said in a joking tone.

"However, this matter must not be said in the Primordial Universe, otherwise I am worried that it will be noticed by the Primordial Universe." Wang Yi said cautiously.

"rest assured."

"We would never tell anyone."

The upper echelons of mankind were all excited.

sky!

Wang Yi actually has an incarnation of a world beast! As Wang Yi said, this world beast turned into a world beast king, what catastrophe should the human race worry about?

It is the original universe that should be worried!

Wang Yi's next sentence shocked the high-level human beings again.

"Let's not talk about the world beast crisis."

"My next plan is to negotiate with the original universe and let the original universe release the original ancestor."

"Release the original ancestor?"

"Release the teacher..."

The founder of the Giant Axe, the Lord of Chaos, the True God of Darkness, the True God of Bingfeng, and the True God of Xingyue... were all excited, looking at Wang Yi with anticipation and desire in their eyes.

"Can it be done?"

"It's difficult, but I'm sure." Wang Yi said confidently.

According to the plot of the original work, Luo Feng negotiated with Primordial Universe to solve the beast crisis, and only with the permission of the Supreme Rules can Primordial Ancestor be released.

Now that Wang Yi has become a true god, he is naturally more confident in solving the world beast crisis.

If the original will of the original universe dies, he will not release the original ancestor. After the universe is destroyed, he will use the panel to resurrect the original ancestor at a high cost before going to reincarnation.

no big deal.

The reason why there is no way now is because the original ancestor was suppressed in the origin of the original universe.

Even if the world beast is used to devour the origin of the original universe, the origin of the universe will be damaged, and it will enter the catastrophe in advance, and the original ancestor will also die.

Yuanzu also had a glimmer of hope in his eyes.

Freedom...how he longed for it.

However, there is nothing he can do. This is not only the will of the original source to suppress, but the supreme rule to punish him. No one can directly confront the supreme rule, and the original ancestor has already given up. But now, Wang Yi's words gave him hope again.

...

Ancestral religion.

Wang Yi appeared in the secret realm of the Ancestral Spiritual Religion. Going directly to the ancestral temple, the three ancestral gods also sensed his arrival, and deliberately unlocked the blockade so that he could teleport directly.

"Three ancestral gods." Wang Yi stepped into the ancestral temple and looked at the three ancestral gods.

"True God Hunyuan, you just broke through, what's the matter with my Ancestral God Sect?" asked the ancient Ancestral God.

"Three, I want to ask, if my human race can solve the world beast crisis, can the original will be released?" Wang Yi said directly.

"Release the original ancestor?"

The three ancestral gods looked at each other in dismay, they did not expect Wang Yi to come for this.

At the beginning, the original ancestor's provocation of the original will was suppressed. How can the original will be released so easily?

If they had refused directly before, but now when the world beast was born, the primordial universe was facing a huge crisis, and the three ancestors did not dare to make a decision directly.

"I need to contact the original will." The young ancestor said.

"Okay." Wang Yi nodded and waited.

Boom~~ An invisible monstrous pressure descended, and the original will has already arrived. The three ancestors closed their eyes and listened to the will of the original will. After a long time, the three of them opened their eyes and looked at Wang Yi.

Wang Yi's eyes were calm. "how?"

The three ancestral gods looked at each other, and then the young ancestral **** said: "The original will has already told us everything, the original ancestor will definitely not be released directly, the original ancestor violated the supreme rules and was limited by the rules, so the original will suppressed him, and there is no way Let him go. If you can solve the catastrophe of the beast and make a great contribution, then the original ancestor can be released."

Wang Yi continued: "I have another request."

"True God Hunyuan, say it." The three ancestor gods attached great importance to Wang Yi's words. After all, apart from Luo Feng, he is the most likely person in the primordial universe to solve the world beast crisis.

"I want to integrate consciousness into the origin of the original universe and personally experience the destruction and birth of the original universe."

"Boom boom boom~~~" The surrounding time and space trembled faintly, and a powerful coercion oscillated.

The three ancestral gods changed their expressions and stood up.

For Wang Yi's request, Yuanyuan's will is obviously a little dissatisfied!

But Wang Yi didn't care.

He looked at the three ancestral gods, "You ask the source will, whether it will answer."

The three ancestral gods took a deep look at Wang Yi, then closed their eyes and hurriedly contacted the original will.

soon.

"Although the requirements are very harsh, as long as you really kill all the world beasts, as long as you really kill all the world beasts and prevent the original universe from being violated, the original will promises not only to release the original ancestor, but also to agree to your request. Of course, that request must wait for this. It will be realized when the era of reincarnation is over."

Wang Yi nodded, just as he expected, "The original will will not go back, right?"

The three ancestor gods all laughed. "Everything promised by the will of the source should be bound by the laws of operation and will not be deceived."

"That's good." Wang Yi turned and left.

The three ancestral gods sighed as they watched Wang Yi leave.

"It seems that this Chaotic Source True God is very confident."

"To dare to threaten the will of the source, except for the original ancestor, this is the first time I have seen it."

"I don't know if he can really solve the world beast crisis."

"Look at it..."

...

Wang Yi returned to the human territory, shared the news with the human race, and began to cultivate.

"I have broken through to the true god, and I can try many methods that I couldn't cultivate before."

Wang Yi secretly said in his heart.

The incarnation of divine power is accelerated by 10,000 times the time of the cultivation space, helping the deity to cultivate.

"I can now create my own top 11th-order secret method, which is no less than the general void true **** in realm! As long as I am willing... I can completely transform my small universe to a higher level, and then become a void myself. God!"

The reason why he has improved so much is because Wang Yi's foundation is already high, so when he perceives the evolution of chaos, he will naturally gain a lot!

Like the most powerful mechanical treasure of the true **** level, "The Eight Discord Saints", Wang Yi easily mastered the first level and could be motivated.

"Baqisheng" is the most perfect machine of the true **** level, attack, defense, speed, restraint, escape... all of them are done to the extreme! It can be said to be perfect!

But it also has its flaws, that is, the requirements for law perception are extremely high! The second is the huge consumption of divine power!

Wang Yi can't use it if he doesn't reach the true god!

With the Eight Discord Saints, things like Wu Qishen can be discarded.

"Whoa!"

The colorful streamer shrouded Wang Yi~www.mtlnovel.com~ and covered him with a gorgeous golden human-shaped armor, behind which there were eight sharp sword-like wings, each of which exuded fluctuations in the law of origin of light, wood, water, fire, earth, wind, thunder and lightning. ...and on Wang Yi's head, there are eight radiant "eyes".

"This is the Eight Discords?" Wang Yi closed his eyes and felt it for a while.

The Eight Discords gave Wang Yi the feeling that it is not like a weapon, but more like a part of his body, which is very perfect!

There are a total of four secret patterns in the Eight Discord Saints, and Wang Yi can only activate the first layer, but he can't fully understand the second layer.

Wang Yi studied it. The Eight Discords mainly rely on the eight "sword wings" behind him to fight. Each sword wing contains different fighting methods, including attacking, defending, restraining the enemy, single attacking, group attacking, escaping...etc. And it is far stronger than Wang Yi's own explosive power. The most perfect true god-level machine is not a joke.

[Chapter 813: Beast Extinction Plan](#)

Primal Mystery.

In the vast starry sky, stardust filled the air, like a dream, and a towering black tower towering over a thousand light-years stood here, exuding the breath of eternal vicissitudes, as if the eternal time had not changed.

"Boom..." With the huge vibration, the magnificent door of Gao Baiguangnian slowly opened.

Those who were waiting here for the Venerable Universe and the Lord of the Universe watched this scene in amazement and were in awe.

"I heard that this Tongtian Tower is the treasure of the true God Chaotic Origin, the first powerhouse of our human race."

"I am the master of the universe, and I have only seen this adult."

"If it weren't for the true gods of the ethnic group, the master of the ancient universe has entered the tower of the sky too many times, and it has no effect, and it is not our turn."

"I will replace the contribution of endless years with this opportunity to enter the Tongtian Tower for enlightenment, hoping to help me break through."

The opening of the Babel Tower once every 100 million years is coming, and the 1008 qualified human race powerhouses are either looking forward to it, or excitedly longing for it, turning into streamers and streaming in from the huge gate.

In the vast sea of laws of the Tongtian Tower, an isolated island hangs high in the depths of the sea of laws. Countless crystal and secret silk threads are woven around like spider webs. The island is picturesque, and a red-robed figure sits quietly on the shore of a lake.

It was a man with a perfect appearance, with long hair that was gleaming black and crystal clear on the dazzling red robe that was as bright as fire.

He held a ball in his hand, and when he looked closely, it turned out to be a small universe with countless secret patterns intertwined on it, full of endless mysteries. Ordinary true gods would be stunned when they saw it.

"The twelfth-order secret method is still a little bit worse..." Wang Yi's divine power incarnate scattered the small universe in his hand, with some regrets.

He seemed to feel something, looked down at it, and showed a faint smile.

"Those little guys, come to enlightenment again."

With Wang Yi's current status and strength, in fact, most people below the true gods are "little guys" in his eyes.

After all, he is a man who can break through to the Void True God at any time.

At the secret level, Wang Yi has reached the top level of the eleventh level, which means that he has reached the sixteenth level after his understanding of the laws of the Tongtian Tower.

However... the Tower of Babel has a total of forty-nine floors, and he only walked one-third of it, and he understood that the further back he went, the more difficult it would be to progress.

"Because of the lack of understanding of this law, my chaotic wings' fourth secret pattern, 'One thought of the universe,' was only a little bit short of realizing it." Wang Yi shook his head. Go to the edge of the island and look down on the human powerhouses who come in for enlightenment.

Of course, his island is in the depths of the sea of laws, far higher than those of the strong, and Wang Yi is the owner of the Tower of Babel. Wang Yi can observe them at any time, but it is difficult for them to see where Wang Yi is.

"With the help of the Tongtian Pagoda, the ethnic group can emerge some more powerful people, including the founder of the giant axe and the chaotic city master, etc., maybe they have the opportunity to become the true **** of the void in the three reincarnation eras." Wang Yi secretly said in his heart.

Staring at the vast and boundless sea of laws, Wang Yi's eyes were deep.

"To become a true god, I have to hurry up and practice "Undead River". After practicing "Undead River", even if I get killed, I can be resurrected again and make a comeback."

"And Wu Guo's "Six Beast Transformation", I can also practice the third transformation. At that time, the strength of my divine body will be comparable to the supreme treasure. With the armor defense, even if the eternal true god, I am afraid it will be difficult to hurt me. ."

Whether it's "Undead River" or "Six Beasts", they are both extremely anti-sky and life-saving techniques.

"There is also the "Mysterious Eyes Mystery" from the Jin Kingdom..."

Wang Yi continued to tap his own potential, and constantly pushed up his own insights and secret techniques.

...

A special plane space in the virtual universe, the mountain of the gods, the mountain of the gods, is the place where the highest level of the human race can build palaces, the lowest is the master of the universe, and the mountainside belongs to the place where the true gods gather. Brilliant, the "Palace of the Gods" used to hold meetings.

Wang Yi in a red robe with a deep breath and Luo Feng in a white robe walked on the path of the Mountain of the Gods.

"Wang Yi, although you have already told me how to break through the 100,000-fold divine body route, but I am still stuck before the 90,000-fold life gene level." Luo Feng smiled bitterly.

"Luo Feng, you have your own path, walk your own path, you don't have to follow me." Wang Yi smiled lightly. "The **** kings in the world of Jin have said that the road to the true god, if you want to reach the extreme, only ask for yourself!"

Luo Feng was startled, then nodded. "you're right."

"According to normal circumstances, the primitive universe is estimated to have six trillion epochs before it enters the Great Destruction, and you still have time to enter the True God." Wang Yi said.

Luo Feng's eyes were firm. "In six trillion epochs, I must break through!"

Luo Feng's lowest goal was to become a true **** with a 90,000-fold divine body, otherwise it would be meaningless.

In fact, if Luo Feng can't break through the 100,000-fold divine body before the destruction of the original universe, he can also enter his small universe as the master of the universe. Wang Yi's small universe will evolve into the eternal true **** universe in an era of reincarnation. At that time, It would be no problem to divide a small universe for Luo Feng to break through.

Just like the great axe founders, they too. Wang Yi's small universe will be 100 billion light-years in diameter at that time, and it would be trivial to cultivate a few true gods. When he becomes the master of chaos in the future, it will be no problem to cultivate the true **** of the void.

So... Luo Feng can stay in the Lord of the Universe for more than one reincarnation era and continue to study the divine body route.

But... Wang Yi didn't say anything.

Cultivation such a thing, sometimes it's all in one go, and it's exhausted again and again.

If you don't say it like this, it's still good for Luo Feng, putting pressure on him and making him practice harder.

Although I don't doubt Luo Feng's character and perseverance, the environment will affect a person after all.

It was as if Wang Yi had been able to bear the pressure of the world beast crisis by himself. Luo Feng's cultivation speed was obviously not as fast as in the original period.

Of course, there may also be a reason why the "halo of the protagonist" was divided by someone?

"Wang Yi, how do you plan to deal with that world beast?" Luo Feng asked.

Although Wang Yi said that he was sure of solving the world beast, the human race did not know the specific details.

Luo Feng was also curious, how did Wang Yi get rid of the beast.

In this matter, Wang Yi did not hide Luo Feng.

"Actually, it is almost impossible to solve the world beast under normal circumstances."

"However, I have the incarnation of the world beast, so I can first monitor the evolution speed of the entire world beast."

"Which world beast becomes stronger, I will go after him immediately, and always ensure that my world beast is the strongest incarnation." Wang Yi smiled lightly.

This is actually the practice of Bedi, the world beast who first stepped into the fourth order in the original book. Those who can threaten it are all those who have also entered the third-order, so it is naturally staring at these third-order pursuits and devours!

The same is true for Wang Yi. At present, his world beast incarnation is the strongest and fastest evolving in the entire world beast lair!

He also stared at the most powerful world beasts to devour! If those world beasts want to become stronger, they have to hide from the world beast incarnation, and the evolution speed will naturally slow down.

Wang Yi's strategy is simple. He will swallow everything that threatens him, and even if he can't swallow it, he will seriously injure the other party. In this way, the incarnation of the beast has always stood at the top!

Wang Yi looked at the mountains hidden in the clouds and mist in the distance, "This method is very stable, I can easily keep an eye on the hundreds of world beasts that are the most threatening... But this

method is also slow! The second-order world beasts will also devour and attack, and the promotion speed will become faster, but it is also doomed that I am afraid that I will not be able to perfectly control the situation of those threatening world beasts.

Luo Feng praised: "This is a good way."

"If this continues, as long as my world beast is the first to reach the sixth rank, then the overall situation is settled!" Wang Yi said. "Other world beasts are basically impossible to turn over. Sixth-order world beasts can be cloned into tens of thousands, and other world beasts are hard to beat."

"If there is any accident, we can still intervene." Wang Yi is full of confidence.

In his opinion, this is indeed the safest way.

If there is any accident, he doesn't believe that the incarnation of the beast plus him can't be settled!

With him there, teaming up with the incarnation of the world beast and sniping those world beasts that threaten the incarnation of the world beast is a very sure thing.

It's just that Wang Yi couldn't reveal the incarnation of the beast, so he kept covering it up.

As for the agreement with the original universe... As long as his world beast turns into a world beast king, under his fist, he can naturally make the original will of the original universe give in.

...

Just as Wang Yi thought, the world beasts have been quietly staying in the world beast's lair in Qingfeng Realm without the "Mossaro", a **** stirrer who wants to run outside.

These world beasts do not know the origin of the small universe, how delicious it is, and it can enhance their strength. If he knew, he would kill him. But because they were born unwilling to leave their old lair, they hid in the beast's lair to fight each other, and did not appear in the sea of cosmos.

For world beasts, becoming a king is the most important thing. Only a king can sweep the universe sea, so no one has thought of it at all.

And Wang Yi was also carefully monitoring the beast's lair. Occasionally, he will help the world beast incarnate to kill some powerful world beasts and help him improve his strength.

Therefore, the incarnation of the beast has always been the strongest in the beast's lair!

However, this kind of action is very rare, and it is only to deal with the few world beasts that are more threatening, such as the world beasts Bedi and Mohe, Wang Yi secretly shoots, and changing the appearance of the breath many times is to prevent being suspected by the world beasts.

There is "invisibility and no form", his disguise is flawless, and the beast has not noticed anything so far.

The dead world beasts become the nutrients for the growth of the world beast incarnation.

That's enough! Today's incarnation of the beast is the most well-deserved strongest in the beast's lair! Let other world beasts tremble with fear!

Even if there is a real world beast out of curiosity into the universe sea, because of the induction of the world beast incarnation, Wang Yi can go to strangle ahead of time! Don't give it a chance!

Don't forget, Wang Yi's panel has the map "mini-universe" and Jedi teleportation functions. If the beast can run again, is his "big map teleportation" faster?

Just because he was worried that too many world beasts would come out and cause confusion, Wang Yi didn't want to let the world beasts come out.

During this period, Cosmic Sea kept having forces to organize strong teams to "conquer" the beast's lair, but almost all of them failed miserably, and no one was the opponent of the large group of beasts.

After repeated investigations, the results are heart-wrenching.

The terrifyingness of the beast once again took root in the hearts of the people, and a pessimistic mood shrouded in the sea of cosmos for a while.

What is puzzling is that the most powerful True God Chaotic Source in the Primordial Universe, who has high hopes in the entire Universe Sea, has been hiding in the Primordial Universe for cultivation, and it is disappointing that he cannot leave the Universe Sea.

The Ancestral God Religion has also sent people to inquire several times, but all of them have been dealt with by the human race as "True God Chaunyuan is retreating and cultivating to deal with the future crisis of the beast".

In fact, the human race is worried too! But they believe in Wang Yi!

And apart from believing, there is nothing they can do, because the world beast is not something that ordinary people can deal with.

Even if all the true gods in the 3,000-latitude universe sea are added up, they are not the opponents of the beast group!

In the killing of the beast's lair.

A trillion epochs have passed...

Two trillion epochs have passed...

Soon, it will be the fifth trillion era.

In the dark place, the beast's lair.

After long years of fighting, the density of the world beasts in the world beast lair has been greatly reduced, but the level has also increased a lot.

And the battle of the world beasts, the further back, the more crazy, because when the first sixth-order world beast is decided, even if the other world beasts join forces, there is no hope.

"boom!"

"boom!"

Several ferocious world beasts with powerful breath are besieging a world beast whose whole body is covered with blood-colored silk patterns, exuding a breath that makes the soul tremble!

"Burning prison, go to die!"

"Burning Prison, you hateful fellow, I will not let you become the king of my clan!"

The time and space of the battlefield trembled again and again, and the incomparably powerful terrifying wave of destruction rolled out in all directions.

Every world beast, the lowest is the fourth-order top world beast! Any one of them can easily kill the original second-order peak world beast "Mosala"!

And the one who was besieged by them was the first fifth-order world beast "Burning Prison" in the world beast lair!

Maybe it's because of fear, maybe it's because of hatred, maybe it's because I don't want "Burning Prison" to be the last king. A group of Tier 4 top world beasts joined forces to attack the Burning Prison!

Kill him!

The battle has entered the craziest rhythm from the very beginning! Incredibly tragic!

In the distance, some powerful world beasts are rushing over.

Obviously, there are more than one or two world beasts who want to burn the prison to death.

Because he is too threatening!

If it continues to devour and evolve like this, other world beasts have no hope of catching up with it, and will soon be hunted and killed by it one by one, and the remaining weak and small world beasts will not even have the ability to resist.

"Haha, just because you want to stop me? Go to hell!" There were wounds on the body of the world beast incarnated in black and tall, and the blood flowed non-stop, but the fighting spirit was still boiling.

The sharp and cold dark-gold metal claws in its hands have torn apart more than one world beast.

Entering the fifth level, there is a method of destruction. The incarnation of the world beast is far stronger than other fourth-order world beasts.

"kill!"

"Roar!"

...

In another place, the world beast that Wang Yi turned into stood in the distance, watching the battle situation here coldly.

As long as there is no problem with the incarnation of the beast, he will not interfere.

...

The battle is fierce, the battlefield space has been blocked, all the beasts cannot teleport, they have to move on their own, which allows the incarnation of the beasts to have control space, if the situation is unfavorable, you can still fight while fleeing, not all of a sudden submerged in a sea of people.

Every time you kill a beast~www.mtnovel.com~ the incarnation of the beast will run away, and will only reappear when it is swallowed.

As they were surrounded and killed, the speed of the incarnation of the world beasts became faster and faster... and the pursuit and killing of the world beasts became even more frantic.

finally!

"Boom~~~~~Boom~~~" The powerful coercion made the void tremble, and the wave of destruction shook the world. An extremely terrifying world beast was born. Its body was covered with more complex blood-colored patterns, and at the same time, its forehead grew out. A single horn, the tip of the single horn shone with a little white light, which seemed to annihilate everything.

The breath is violent and dark is full of destruction!

The thing that made other beasts despair finally happened.

The sixth-order world beast, Burning Prison, was born.

[Chapter 814: Final battle!](#)

"Burning Prison... It's a sixth-order!"

"Finally a step too late!"

"It's over!"

Those world beasts felt the powerful and terrifying energy fluctuations, and their hearts went cold.

The previous fifth-order "Burning Prison" was already invincible.

Today, it has broken through to the sixth order.

The sixth-order world beast is a completely different concept from the fifth-order and lower!

A fifth-order world beast, no matter how strong it is, will eventually die if it is besieged.

The sixth-order world beast, although there is no essential improvement in its own strength, but it has a terrifying ability, and it has thousands of clones!

The reason why the world beast is almost destined to be the king once it becomes the sixth-order world beast is because once it enters the sixth-order, it can easily separate thousands of clones.

It has thousands of clones, even if you meet one, fight with it and kill one clone of it. It doesn't have much impact on it.

Of course, among the tens of thousands of avatars, there must be a deity.

The deity has the strongest combat power, and the other clones are generally weaker... The fifth-order combat power is almost at the peak in the entire evolution system of the beasts. The advantage of the

sixth-order over the fifth-order is only the 'tens of millions' and the ability to fight for a long time. Other advantages are not great. Those clones are not for fighting, but for more chances to save lives.

As long as a clone does not die, its clone will quickly absorb energy to restore its strength and return to its sixth-order peak again.

This caused that even if hundreds of other fifth-order world beasts joined forces to kill the deity. But the clone of the sixth-order world beast will reappear after a period of time...

During the period when the incarnation of the world beast was being chased and besieged, although some world beasts were born, they have not yet broken through the hundreds.

Facing the sixth-order world beast? They are simply powerless.

...

Wang Yi, who had been watching from a distance, saw the incarnation of the beast appear, and showed a smile.

The incarnation of the beast has entered the sixth order, and the overall situation has been determined!

If nothing else, Wang Yi's incarnation of the world beast is likely to become the last king.

Even if there are other sixth-order world beasts born in the world beast, Wang Yi has this confidence.

"The evolution of the original universe is about to enter the late stage, and the decisive battle of the beasts will soon come, and the fate of the universe sea will finally come." Wang Yi's eyes were deep.

...

Wang Yi returned to the virtual universe to announce the news to the human race, and the strong men of the human race were overjoyed!

At present, there are less than ten high-level human beings who know the incarnation of Wang Yi's world beast, and most of the true gods do not know.

They also all know the situation of the world beast. The world beast that became the sixth-order world beast first means that it will almost certainly become the last king!

"Haha, my human race is saved!"

"As long as Wang Yi's world beast becomes the king, everything can be solved."

The high-level human beings are very excited. Obviously, the news brought this time is so inspiring that they all see the hope of victory.

The powerhouses of the human race finally put down the big stone in their hearts.

Even if not completely relieved, but the pressure is much less.

...

In the following years, with the appearance of the first sixth-order world beast, the hunting and killing of the beast's lair became even more frantic!

One billion world beasts, the most coincidental situation is that more than 30 sixth-order world beasts are born, they devour each other, and the one who survives is the ultimate king.

normal evolution. It should not be until the end of this reincarnation era that the last king can be born.

However, the 'Burning Prison' broke through too quickly, and the threat brought by it slightly promoted this evolution.

Originally, the original universe had reached the late stage, and there were mainly third-order and fourth-order world beasts in the world beast lair, as well as some fifth-order world beasts.

And the incarnation of the world beast took the lead in the sixth-order, which almost cut off the hope of other fifth-order world beasts.

Those world beasts that have the hope of evolving to the fifth order are facing its pursuit.

Although the sixth-order world beast can no longer continue to evolve, up to the sixth-order top, it can still improve the understanding and perception of the origin of destruction, and use it in battle.

Therefore, although the incarnation of the world beast is not much different from the battle strength of the fifth-order world beast, it is a high judgment in a fight.

Its mechanical flow claws have been secretly replaced with the Void True God level, and it has learned the origin of destruction and used it in the claw method to improve its combat effectiveness a lot. Other fifth-order world beasts are not its opponents at all.

Every fifth-order world beast needs to devour thirty-three fifth-order heads, or a large number of fourth-order and below, in order to advance to sixth-order.

As for the innate number of world beasts, more than 30,000 fourth-order world beasts will be born at most, and one thousand fifth-order world beasts will be born.

The incarnation of the world beast is chasing and killing those fifth-order world beasts, regardless of other world beasts, those fifth-order world beasts are also fighting each other when they avoid the pursuit and killing of the world beast incarnation.

They want to be the second sixth-order world beast!

But it's very, very difficult.

The incarnation of the beast will not give them this chance.

"kill!"

"You and me, only one can survive."

The two ferocious world beasts were fighting frantically, blood dripping, and they were insanely insane.

And they suddenly changed color.

"Huh!" A tall and ferocious figure quietly emerged from a distance.

Its tall body is covered with more complex blood-colored patterns, and at the same time, a single horn grows on its forehead. The one eye is even more flickering crazy.

"Burning prison!"

The two fierce world beasts who were still fighting just now turned pale in shock and fled for their lives.

The incarnation of the world beast swept his gaze, and quickly locked onto one of the more powerful figures of the world beast, chasing after him fiercely.

It is also a fifth-order world beast, and its aura is stronger, which means that it has a higher degree of evolution. If you eat a few more fifth-order beasts, you may break through. As long as it is not stupid, of course, it must first solve the greatest threat to itself.

"Ah, it came to chase me, run away, run away." The single eye of the fifth-order world beast being chased was full of unease and madness.

"It's chasing Ke Yaluo." The other fifth-order world beast breathed a sigh of relief, and at the same time felt a little bitter in his heart.

...

primordial universe.

On an ancient planet of life, Wang Yi sat cross-legged under a giant tree that towered into the clouds, and the brilliant sun shone on him through the shade of the tree, covering him with a layer of gold.

Over the years, Wang Yi watched the beasts of the world and they used 'destruction', carefully comprehended, and their realm has been improving. With time, their strength has become stronger and stronger.

The incarnation of the beast itself also comprehends the origin of destruction, which is also equivalent to Wang Yi's comprehension.

This kind of opportunity is something that the current Luo Feng does not have.

Today, he is more powerful than he just became a true god. I don't know how much.

"Father."

Two crisp voices came, and two petite figures flew over from a distance.

Wang Yi opened his eyes, looked over, showed a doting smile, and opened his arms.

The two little people slammed into his arms and acted coquettishly in his arms.

Wang Yi's three wives Shen Yan, Lin Youyu, and Gao Yurong appeared nearby with a smile, watching the father and daughter play.

This is the twelfth and thirteenth children born to Wang Yi and his wives after becoming a true god. Wang Xing, Wang Yue.

Although Shen Yan and the others have only become the sages of the universe over the years, and Wang Yi is the true god, it stands to reason that in the primordial universe, it is extremely difficult for such beings to give birth to children. Even immortality and normal reproduction are almost impossible.

However, two children, Wang Xing and Wang Yue, were born.

And they were born in their mother's belly for hundreds of years, and soon they grew to immortality, but they still looked like children. When they became adults, they should be the Venerable Universe.

Incredible.

The talent is much stronger than their elder brother!

Even before this era of reincarnation ends, they may still become true gods.

And now in the Wang family, only Wang Yi's second son, Wang An, is a true god, and the other second-generation children are at most the lord of the universe.

The entire universe is looking forward to True God Chaotic Source to save the world, who would have thought that he would actually hide at home and give birth to a child.

"Huh?" Wang Yi frowned suddenly.

"What's wrong?" asked Shen Yan next to her.

Wang Yi shook his head, holding the child in one hand and his wife's waist in the other, looking in one direction with a distant gaze.

"Is it born..."

...

Peak Realm, a dark place.

A ferocious world beast was standing in a mountain range filled with dark air currents, and the surrounding space had already condensed.

Huh, a figure appeared in the distance, it was the incarnation of the beast.

"Lou!" The avatar of the world beast looked at the newly born sixth-order world beast.

The sixth-order world beast also looked at the world beast and roared: "Burning prison!"

"I didn't expect you to be able to become a sixth-order, which is beyond my expectations." Although the incarnation of the world beast is violent and full of destruction, its voice is extraordinarily soft.

"Haha, Burning Prison, you didn't expect it." The ferocious world beast with two sharp horns roared: "Knowing that you will break them down sooner or later, I have already discussed with Mitchell, Xiyi and the others. , Here, in a decisive battle, the only survivor will be determined as quickly as possible, and the winner will become Tier 6, I won!"

"Burning prison, you are late."

"It's not too late, aren't you here?" Fenyu's eyes were full of killing intent.

"Boom!" It turned into a streamer and rushed towards Lou quickly.

"You can't kill me, I'm not one of those fifth-order world beasts!" Lou let out a low roar, but a black light erupted. Countless black lights spread out from all directions, and they were all Lou, with the same breath and appearance, thousands of them. Ten thousand.

Fen Prison didn't say a word, and split up one by one to hunt down Lou.

With the birth of the second sixth-order world beast, a more tragic battle began.

Burning Prison understands that he must kill Lou, and now only he and Lou are the first to reach the sixth level, so the last king will probably appear between him and the world beast Lou.

"Lou, you can't escape!" Fenyu's eyes were full of murderous intent. "Even if you escaped for a while, can you escape forever? Under the influence of fate, you and I will eventually decide the winner."

The ultimate destiny of a billion world beasts is to give birth to a king, so there are several iron rules. For example, after a sixth-order world beast is born, if another sixth-order world beast appears. The two sixth-order world beasts must fight for life and death, and the clones must fight. The winner lives, and the loser dies directly. So the sixth-order world beast... In any case, there can only be one sixth-order alive.

The two ends of the sixth order, fighting each other for life and death, this is an iron rule.

There is still a certain time limit, all living beasts must fight to the death, this is the final time limit.

Lou also knows, but it has just broken through the sixth-order, and he knows that it is not the opponent of the sixth-order top-notch Burning Prison.

It needs to improve its strength, it needs to be stronger! Become as powerful as Burning Prison, at that time, it will have the confidence to fight with Burning Prison!

The second sixth-order world beast was born, Fen Prison ignored the other world beasts for the time being, and pursued Lou with all his strength, while Lou was trying his best to escape, trying to become stronger, otherwise it would have to die in Fen Prison when the final battle came. men.

...

"The second sixth-order world beast was born." Wang Yi's deity appeared outside the world beast's lair, looking at the endless darkness. "Wait, wait for the last moment to come." Wang Yi sat in the battleship.

In the final battle, in order to avoid accidents, he will definitely take action to help the incarnation of the beast win the victory.

An invisible coercion of will lingered outside the beast's lair, and it seemed to be dissatisfied. It seems that he is dissatisfied and angry with Wang Yi's inaction over the years and letting the beast grow.

But Wang Yi completely ignored it.

No matter how dissatisfied the original will of the original universe is against him, there is nothing they can do about him.

If it really has that strength, it can solve the world beast by itself, so why rely on Wang Yi and the others.

To put it bluntly, the original will of the primordial universe is just a paper tiger. It is not restricted by supreme rules, and it has no threat at all.

All parties in the sea of cosmos are also worried, but they can't affect Wang Yi.

Time passed so quietly, and the number of world beasts in the world beast lair kept decreasing...

...

The beast's lair.

Finally, there are only two sixth-order world beasts left, one is "Burning Prison" with dark golden claws as weapons, and the other is the sinister and cunning second sixth-order world beast "Lou"!

Even if there are some world beasts in the world beast lair, the remaining number is too small to give birth to sixth-order world beasts. The final winner will be decided by two sixth-order world beasts!

"Burning Prison, the final battle is here, only one of you and me can survive!" Lou, the ferocious world beast, stared at the mortal enemy who once made him fear and despair.

"It will be you who will die." Fen Yu's eyes were cold.

boom! The body surface of the two world beasts directly surging out a strong field of misty colored light, covering a vast area of several light-years, which is the incomparably powerful field of light. The trick of the realm of light, along with the power of the "world" in the body, naturally becomes stronger. The collision of two realms of light! Let the void vibrate!

"Get rid of you, I will be the last king!" The body of the world beast Burning Prison suddenly burst into a dazzling blood light, and even the claws in its hands were surrounded by a layer of blood light, and the whole speed soared, one hundred thousand times the speed of light, A million times the speed of light... rushing directly to Lou at an extremely terrifying speed.

Lou was not to be outdone, and a layer of blood light rose from his body. Suddenly, there were two more axes in his hand, and he rushed towards the burning prison at an extremely terrifying speed.

"boom!"

"when!"

The two world beasts collided, and the metal claws collided with the axe.

"Lou, I didn't expect you, a rude guy, to use weapons too." Burning Prison sneered.

"Burning Prison~www.mtnovel.com~ You nasty guy, I won't lose to you, go to hell!" Lou said angrily.

Two metal claws and two axes collide quickly again and again!

"Pfft!" Burning Prison's metal claws slapped Lou's axe open, tearing its body apart with lightning speed, and the blood of the jet-black beast splashed.

"Roar!" Lou let out a pained roar.

"Lou, in the battle, you are far behind." Burning Prison shouted.

The tragic battle is continuing, no one can back down, but not to die!

In the battlefield around the two world beasts, the space has long since turned into nothingness.

Wang Yi stood on a distant mountain peak, calmly watching the life and death of the two world beasts.

He is covered with the Eight Discords, with the five pairs of Chaos Wings and eight sword wings spread out behind him, and he holds a sword in his hand. If the situation is not right, he will immediately shoot.

[Chapter 815: The Beast King was born, intimidating the original universe](#)

No one knew that the two sixth-order world beasts were desperately trying to decide the fate of the entire universe.

The world beast Burning Prison and Lou are fighting, and under the guidance of the supreme rules, no one can escape this fate.

In the end... the world beast "Burning Prison" wins!

...

"Burning prison... I'm not reconciled, but I will lose to you..."

Lou fell to his feet, his body was scarred, riddled with holes, and blood was flowing. Its realm had been destroyed, and the vitality that belonged to the realm beasts was also quickly fading away, but it was still staring at Burning Prison.

"If I could step into the sixth rank first, I would never become what I am now."

"But there is no if!" Burning Prison smashed its head with one claws.

Beast, Lou, fall! All its clones made unwilling sounds, and under the power of the rules, no matter where they were, they also fell at the same time!

And the other beasts that were lingering in the beast's lair were all annihilated under the rules, and they all fell!

The final king has been decided!

The world beast "Burning Prison" is the only world beast that survived in the Universe Sea!

Wang Yi in the distance was excited.

"Success!"

At this moment, the body of the ferocious world beast Lou is lying there, while the world beast Burning Prison is standing aside.

"Ah!" Beast Burning Prison raised both heads.

A supreme coercion descended, covering the Burning Prison.

Wang Yi, who was watching here from a distance, was looking in this direction from a distance. Seeing this, he secretly said: "The supreme rule is coming? The king of beasts is worthy of being equal to the original universe!"

"Boom..." A powerful aura was suddenly born, and madness began to pour into the body of Burning Prison.

Every breath faintly revealed the appearance of the world beasts. The world beasts seemed to look similar, but in fact they were different. Wang Yi even recognized Mossaro, Bedi and other head-to-head world beasts at a glance. At this moment, the auras of countless world beasts are madly poured into the body of the burning prison, causing the world beasts to incarnate the burning prison's aura constantly skyrocketing.

"Roar..." Fen Prison couldn't help but let out an excited roar.

A breath of air kept coming in. All the dead world beasts, at this moment, the breath gathers and melts into it. Countless breaths are integrated, but it has always stayed at the top of the sixth-order.

Until the last strong breath, that is the breath of the beast Lou!

"Boom!" pour in!

All the dead world beasts, all power was poured into their bodies, Fen Prison couldn't help but raised his head and roared, white light texts immediately appeared around its body, and countless dazzling white light texts circled in circles, completely wrapping Fen Prison, Wang Yi could no longer see the prison burning with naked eyes. It just felt terrifyingly strong in a violent reaction.

The power of all the beasts converged in one!

One billion world beasts are finally born!

You must know that any one of the billion world beasts is considered a true god, and one billion true gods combined to strike is more terrifying than the eternal true god. So much energy is only the birth of a world beast king who has just entered the growth stage.

Powerful coercion bursts. The countless dazzling white words that surround it sometimes appear and sometimes dissipate. Countless new words appeared... as if telling an ancient secret. A terrifying aura of destruction is constantly surging, which is the same supreme source of destruction!

The king of beasts represents the complete source of destruction!

For a long time - the pressure of the supreme rule receded. The white light text surrounded by hundreds of millions instantly melted into Fen Prison's body, and at this moment, the appearance of Fen Prison was revealed.

I saw a tall being with fair skin standing there. Its body was flawless. It had hands, feet, a head, a mouth, a nose, two eyes, and no ears. On its forehead are two snow-white sharp horns that bend upwards. At first glance, it is extremely holy and extremely beautiful. Even the most beautiful race in the human race, even some incomparably beautiful Zerg queens, would be ashamed in front of it. Its beauty, ingenious workmanship, contains the supreme mystery.

Without those two sharp horns, it would be like a lovable child, but those two sharp horns... have given it the supreme kingship.

This... is a flawless life, comparable to the beast king of the original universe!

Of course, it is also the incarnation of Wang Yi!

Wang Yi experienced the new power of the world beast king, and the world beast king also has the ability of formless and invisible. It can be transformed into any shape, and it can also change the breath.

Following Wang Yi's thought, the world beast turned into a burning prison and condensed its body into a gray robe, and its appearance also turned into an incomparably handsome black-haired boy.

Vaguely similar to Wang Yi, but somewhat different, it is the appearance of Wang Yi's last life.

"Well... the current world beast king, the avatars of the previous tens of thousands of other abilities, still have all of them. And he has mastered the complete source of destruction, and can constantly comprehend the source of destruction. The more you understand, the stronger your strength will be. And the realm in the body is truly perfect, and it can breed powerful warriors, warriors that are much stronger than the sixth-order realm beasts." Wang Yi nodded slightly.

The world beast is very similar to the "Golden Horned Behemoth", the peak group of the original universe. The golden-horned behemoth is at the world master level when it is an adult, and when the world beast becomes a king, it has just entered the growth stage and is at the level of the true **** of the void! There is no bottleneck in improvement, as long as you keep devouring and comprehending... Because you are born with the source of destruction, no matter how slow your comprehension is, you will eventually reach the peak stage. The Beast King at that time was the same as the original universe at its peak. A single blow also has the power of a full blow from the original universe.

In ancient civilizations, all the beasts could be called catastrophe! A group of kingdoms must join forces to resist. Obviously, three or five **** kings cannot stop the army of beasts.

Of course, the Beast King is not omnipotent. It also needs to devour a lot of energy and countless treasures to provide a source for nurturing warriors.

Moreover, the primordial universe life, as long as it becomes the void level, it has to go through reincarnation. However, although the Beast King is equivalent to the Void True God at this stage, no one forces it to go through reincarnation.

"Unfortunately, the way of destroying the origin of the incarnation of the world beast is most suitable for this family. Although I can learn from it, I can't apply it. Otherwise, with the same consciousness, I can break through with the incarnation of the world beast." Wang Yi regretted slightly, and then He laughed again.

He also felt that he was too greedy, to be able to have a world beast king, I don't know how many powerhouses in the ancient civilization would be jealous, but he was still not satisfied.

"Now, the incarnation of the beast has become a king, and the crisis of the beast has been resolved." A trace of coldness appeared in Wang Yi's eyes. "Some things should be cleaned up."

At the same time, Wang Yi also transformed the world beast into a king, and passed the solution of the world beast crisis back to the human race.

Not to mention the jubilation at the top of the human race, Wang Yi took the incarnation of the beast to the Purple Moon Holy Land.

...

In the void outside the Purple Moon Holy Land universe, two figures walked out. One was Wang Yi, a black-haired man in gold armor with a pair of wings behind him, and the other was a world beast king who looked like a black-haired boy in a gray robe. Burn the prison.

"Purple Moon Holy Land should also disappear." Wang Yi looked at the huge small universe from a distance. "By the way, you can also get Luo Feng's leftover Slaughter Wu Yuyi." Ziyue Holy Land, this pair of wings is worth his attention.

The World Beast incarnate came out and suddenly turned into the original appearance of the World Beast King, and then its two horns suddenly shot out countless white zigzag rays, each horn tip was like a source, and the two horn tips were like twin stars. Influence each other... Directly form a strange swallowing force, completely covering the distant Ziyue Holy Land universe.

"Boom..." The time and space trembled and twisted.

The dazzling rays of light followed the countless white tortuous rays of light, frantically pouring into the body of the beast, and the incarnation of the beast also became extremely dazzling and dazzling, like a sun that was billions of times dazzling.

The ancestor of Ziyue in Ziyue Holy Land suddenly found something wrong.

"My origin of the universe seems to be being swallowed by something..." His heart tightened, "Could it be a world beast?"

The ancestor of Ziyue quickly blessed with will and tried his best to resist.

But it didn't work! His cosmic origin is still being sucked away continuously.

The ancestor of Ziyue was panicked and fearful. "The beast has come out, what should I do, is my small universe about to be destroyed?"

"It's too fast. If this goes on, my small universe will be swallowed up in one day at most!"

The ancestor of Ziyue began to think of a way, but what can he do? He now has no true gods in the Holy Land of Ziyue, and there are only some masters of the universe. What can he do to stop the beasts?

"Quick!" In desperation, the ancestor of Ziyue could only die as a living horse doctor, and quickly summoned the Lord of the Universe in the Holy Land, "Go and spread the news to the cosmos sea, saying that the world beast appeared, just outside my small universe. To devour my universe, let them come quickly."

"what?"

"The world beast has appeared, and is still devouring the small universe of the ancestor?"

"This, how to do this."

The cosmos masters of the Purple Moon Holy Land panicked. If the Holy Land cosmos was finished, the cosmos lords who depended on the cosmos, and everyone in the entire small universe, would be finished.

In fact, in a day, when the universe sea reacted, the yellow cabbage soup was cold.

With the help of the Purple Moon Holy Land, the entire Universe Sea knew that the Beast had appeared and attacked the Purple Moon Holy Land Universe!

Cosmic Sea was shocked.

However, the distance is too far, and even if someone wants to visit, it will take more than a day along the way.

The day passed quickly.

Wang Yi watched from a distance, and the huge universe in the distance began to crack and collapse at an extremely fast rate.

The Purple Moon Holy Land universe has fallen.

"Brush!" A man in silver armor appeared beside Wang Yi, it was Luo Feng.

It was Wang Yi who called him over.

He saw the perfect incarnation of the world beast beside Wang Yi, and there was a deep shock in his eyes.

"This is the Beast King? He destroyed the Void True God Universe?" Luo Feng was full of shock.

As far as he knows, the universe of the true **** of the void can only be destroyed by the true **** of eternity.

However, in just one day, it was completely destroyed by the incarnation of the beast. Simply incredible.

"It looks like the entire Purple Moon Holy Land is doomed." Luo Feng looked at the cracked small universe from a distance, and saw some strong bodies, treasures, and fragments of the huge space continent from the crack, and he shook his head. However, he didn't think that Wang Yi was doing something wrong. Since he was a mortal enemy with Ziyue Holy Land, of course he couldn't be merciful!

Back then, the Purple Moon Holy Land wanted to put the human race to death!

"Come on, your wings, the rest should be inside." Wang Yi glanced at the three pairs of wings behind Luo Feng and smiled.

"Oh?" Luo Feng was also refreshed. Over the years, he was also looking for the remaining three pairs of wings, but he couldn't find them.

"It's actually in the Purple Moon Holy Land? No wonder." Luo Feng was a little surprised.

Wang Yi, his world beast avatar, and Luo Feng teleported directly, flying towards the shattered Ziyue Holy Land universe.

"Buzz!"

Luo Feng's wings trembled behind him, feeling it, Luo Feng also turned his head and saw that three streamers of light from the shattered Purple Moon Holy Land universe were constantly flying at an astonishing speed.

It is the remaining three pairs of wings.

"Haha!" Luo Feng flew over, and the three pairs of wings behind him also flew out. They quickly combined with the three pairs of wings that flew in, turning into six dazzling pairs of wings floating in midair.

Wang Yi looked at it and said silently in his heart, "Sign in."

[Ding, congratulations to the host for successfully signing in, reward the fifth pair of Chaos Wings!]

Done!

Wang Yi smiled slightly, although this eternal true god-level wings are not very important to him now, but after all, it has been collected for so long, if it is lacking, it will always be somewhat unsatisfactory.

it's good now.

The Purple Moon Holy Land is finished, and the wings are also collected, everyone is happy.

Luo Feng looked around: "The Holy Land universe is destroyed, what about the ancestor of Ziyue?"

The destruction of the small universe only means that the strong cannot improve, but they cannot kill the strong. The Purple Moon Holy Land was destroyed, and the ancestor of the Purple Moon should still be alive.

"They should be in the place where they have passed through the reincarnation. Not only the ancestors of Ziyue, but also the ancestors of the Eastern Emperor, and the powerhouses who have passed through the reincarnation in all dynasties, are all there." Wang Yi said. "There is an ancient civilization, and it is also an infinitely wonderful world."

Luo Feng was thoughtful.

"Wang Yi, the Purple Moon Holy Land has been destroyed, what should you do next?" Luo Feng couldn't help but glanced at Wang Yi's world beast incarnation again. "The agreement between you and the original will of the original universe..."

"What should I do, of course it's a salad." Wang Yi smiled.

...

The next thing is actually very simple. Wang Yi made the incarnation of the world beast appear, negotiated with the ancestral religion, the representative of the original will of the universe and the

original universe, and then made a contract under the witness of the supreme rules. The will is to release the original ancestor, and at the same time fulfill the agreement with Wang Yi!

After the original ancestor was released, the human race naturally rejoiced!

The incarnation of the world beast and Wang Yi embarked on the road to other universe seas.

Before going on the road, he went to destroy the universe of the Eastern Emperor Holy Land again, and then left.

With the fall of the Eastern Emperor Holy Land Universe and the Purple Moon Holy Land Universe, the entire Universe Sea, a Holy Land Universe is gone.

And this is just the beginning~www.mtlnovel.com~ said that it would not infringe upon the origin of the original universe of this universe, nor did it say that it would not infringe upon other universes.

What's more, there are so many holy land universes and small universes, which have been hostile to the human race in the past, and they can all disappear, and they can also help the growth of their world beasts. After all, they need energy to breed so many world beast warriors.

Wang Yi has never been a soft-hearted person.

And he guessed that those who once seized the original universe have no trace at all now. Perhaps it is because the beasts continue to be born and devour the original universe, so they cannot always control the original universe. will.

The world beast crisis is more like dealing with these primitive universes.

No matter what, no one in the entire universe can stop a real beast king.

The 3,000-latitude cosmic sea will usher in the greatest catastrophe in history, and no matter whether it is the original universe, the Holy Land universe, or the True God mini-universe, it will not be spared.

[Chapter 816: end](#)

Outside a small universe, the world beast king stood in the void, with the horns on his head facing the small universe, and the twisting rays of light penetrated into the void and devoured this small universe. The speed at which the source of the small universe was swallowed was so fast that the True God was terrified. It only took a few minutes for a small universe to be swallowed up.

The planes in the small universe began to collapse. The source of this small universe was about to be swallowed up. Naturally, all the spaces in the entire small universe began to collapse and annihilate. Soon, the source completely disappeared, and all planes were empty. It shattered like glass, and all living beings were annihilated.

...

With the birth of the beast, the news quickly spread through the three thousand latitude universe sea through various channels.

In particular, Wang Yi's world beast incarnation first swept the small universe of a latitude universe sea, and then to the Holy Land universe, followed by the original universe.

Some strong people know that they are not the opponents of the beasts, they are scared to flee, and dare not stay in their own small universe.

Some did not choose to escape, but stayed in their own mini-universe to live and die with their clansmen. Because of the extinction of the clan and the extinction of the universe, there is no possibility of transcending the reincarnation. When the three reincarnation eras are full, they still have to die. It is better to die now than to die alone in the future.

Some are unwilling to be swallowed by the small universe, and even want to rely on the beasts to protect themselves.

Wang Yi ignored it and devoured it all.

What is the use of the true God for him?

Might as well just swallow a hundred.

Some want to work hard, but they are directly shot to death by the incarnation of the beast.

No matter how the various parties in the universe struggle, they can't change the ending of the fall.

One by one, small universes began to annihilate one by one.

One by one, the tribes were annihilated one after another...

People panic.

More importantly, they can't deal with the world beast king at all. Even if they join forces, there are so many cosmic seas, which one will they save first? Especially those holy land universes, it is even more impossible to protect other people's small universes, so they are destined to fight each other and be swallowed up by the incarnation of the beast.

"Holy Land Universe." The incarnation of the beast appeared in a small universe with a diameter of 2.9 billion light-years, and then began to swallow it mercilessly. "Wow, the origin of the universe of the Void True God is much thicker than that of the True God. It's really cool to swallow it." The incarnation of the world beast was very excited.

At this point, the incarnation of the beast has improved, one is to understand the source of destruction, and the other is to devour the source of the universe. In particular, there are countless world beast warriors that need to be devoured. Naturally, the more the better.

in the Holy Land.

"The beast is here."

"Ancestor, what should we do now?"

"Let's go out."

"Kill those beasts."

"Ancestor, save the clansmen."

The ancestor stood on a high place, looked down at the many clansmen below, shook his head and said, "Don't struggle, just wait for the final fate!"

The many clansmen below were all desperate and unwilling, but there was absolutely nothing to do.

There are only a few true gods in the Holy Land universe, and they are killed by the beasts as soon as they go out. Although there are many masters of the universe, how can they be the opponents of the beasts.

"The beast..." The ancestor was also helpless. "It's nothing more than the birth of world beasts in this era, and the cosmic channel appeared. This is purely a disaster for me." The ancestor was also very aggrieved. It was obviously another world beast from the sea of cosmos was born, but it spread to him.

Although there are many sources of the small universe of the Void True God, it cannot withstand the devotion of a world beast king. The universe of the Ziyue Holy Land only lasted for a day, and this Holy Land universe only persisted for a few days more than the Ziyue Holy Land, and it was swallowed. Eat clean, as the origin of the universe is swallowed up, all the spaces in the entire small universe gradually begin to collapse and annihilate, and all life without exception, whether the true god, the master of the universe or the immortal, ordinary life, all perish!

The remaining treasure, Wang Yi, took it away at will and left, and continued on to the next mini-universe.

...

disaster!

doom!

catastrophe!

For the three thousand latitude cosmic sea, this is simply a disaster!

After Wang Yi swept away all the small universes and holy land universes, he came to the outside of the largest celestial body in the sea of cosmos, and looked at the huge and boundless behemoth from a distance.

"Primitive Universe."

The volume of the primordial universe is billions of times that of any small universe of true gods and true gods of the void, and the origin of the universe is naturally billions of times that. I don't know how much thicker it is, and the laws of the universe are more perfect, and the power of the origin of the universe is also more pure.

"Let's start eating." There was a hint of expectation in the eyes of the world beast king.

The primordial universe at this time is like a weak girl stripped of her clothes, letting the beast do whatever she wants.

But the entire universe of this cosmos sea has been destroyed by the beasts, and the strong ones either die or flee, and who can save it.

"Wow!" The horns of the Beast King shot out countless white tortuous rays of light, directly forming a strange swallowing force that enveloped the primordial universe in the distance.

"Boom..." As the world beast began to swallow, the source of destruction permeated, the time and space trembled and twisted, and the dazzling light followed the countless white tortuous rays, and the king of the world beast became as incomparably as a billion times dazzling sun. Dazzling.

"Ah ah ah?" The world beast king couldn't help shaking his body, his eyes closed, and his face was full of ecstasy. "Really, really...the beauty, the enjoyment of beauty!" The Beast King murmured, his voice trembling slightly, "It is so much more delicious than the origin of the small universe of the Void True God! The speed of the source of the universe is no slower than the small universe source that devours other true gods of the void."

"I don't even have the ability to resist, so I'm welcome!"

"quick!"

"Hurry up!"

"Put harder!"

Compared with the boundless body shape of the original universe, the Beast King is incomparably small.

However, in front of the world beast king, the original universe has no resistance at all, and can only allow it to devour its own universe origin. Although it breeds endless life, although it seems to have endless power, it cannot actively attack, and can only passively endure the devouring of the 'world beast'.

"I suck!"

The tortuous rays of light take it as the source, extend infinitely to the direction of the primordial universe in the distance, extend for hundreds of billions of light-years, and penetrate directly into it.

The original universe was sucked to death by the incarnation of the beast.

But the primordial universe is too big, and the origin of the universe is billions of times that of the small universe of the Void True God. Even if the primordial universe cannot resist, even if the incarnation of the world beast tries its best to devour it, it will not be able to devour it in a while.

Moreover, the origin of the primordial universe can be described as vast and endless. Even if the beasts die, they will not be able to eat them all. To a certain extent, the primordial universe will actively destroy and become the source, so that the beasts cannot attack.

However, the evolution, birth and destruction of the primordial universe are controlled by invisible rules. It does not mean that it will be destroyed. Before it is destroyed, the world beast will devour a lot of the origin of the original universe, causing fundamental damage to it.

For the primordial universe... its origin is the most important. After all, once the source is injured, it cannot be recovered for many reincarnation eras.

As time passed, "Huh?" The incarnation of the beast realized that the primordial universe was about to enter a cataclysm, and began to shrink its origin of the universe, returning to its original state. Once the origin of the universe shrinks, the world beast cannot swallow it.

The king of the world beasts hurriedly seized the time to devour, and it was a little bit to be able to eat more, after all, this chance might only be one time.

"Boom..." As the source was continuously swallowed, the original universe began to be destroyed!

When the origin of the universe swallowed by the beast reaches a certain level.

At that moment, the entire source space instantly generated monstrous power, devouring everything crazily.

Even in the vastness of the primordial universe, all its membrane walls cracked wildly in an instant, followed by collapse, those cosmic secret realms and star fields began to collapse, and black holes began to dissolve, and the barren planets, decayed and decayed. The stars, and even some living planets, all began to collapse, and they were quickly smashed into particle streams as they collapsed.

boom! At this moment, the source itself began to shrink sharply! All the life force is madly transmitted and sucked into the source. The countless ordinary lives that originally lived can be all annihilated in an instant, and the endless life energy is madly pouring into the core of the entire universe.

In the void of the universe sea, the world beast king who saw the destruction of the universe with his own eyes held his breath.

The huge vortex formed by the countless particle streams, the huge tearing force, I am afraid that a small universe will be broken instantly.

It can't continue to devour the cosmic source of the primordial universe by itself, and can only stop and watch the spectacular scene of the huge celestial body of the primordial universe falling into the mass destruction.

"This is destruction..." It murmured, unknowingly deepening its understanding of the origin of destruction.

World beasts are born to be destroyed, and the king of world beasts masters the complete source of destruction, so it is natural to have a deeper understanding.

"Boom!" When all the power of life was swallowed into the source, the source of the original universe instantly emitted a dazzling color light, the color light was dazzling, and the spread even exceeded the size of the original universe before.

Wang Yi couldn't help but be shocked by this beauty.

This is the ultimate destruction, the ultimate destruction, everything comes from this, and everything ends here.

Destruction of the source of life. It is completely different from the destruction of the source of destruction. The origin of the original universe was destroyed for the sake of birth, but the destruction of the world beast was the fundamental destruction.

Wang Yi was thoughtful. "The way of destruction..."

The original universe has disappeared, leaving only the source. There are circles of power around the source, but no one can get close.

The world beast king shook his head, turned and left, the original universe has been destroyed, leaving only the original source, it is useless to continue to stay.

Maybe the primordial universe will be born again soon, but the primordial universe at the beginning of its birth is very fragile. Even if it wants to swallow it, the supreme rule will not allow it.

Each world beast can only devour the primordial universe once, and only Wang Yi, the incarnation of the world beast, can use the cosmic channel to devour the primordial universe of the cosmic sea of three thousand latitudes.

...

"Devouring the origin of the universe in a primitive universe is really good for me." The world beast king is still reminiscing about the feeling just now.

The same is the origin of the universe, the origin of the universe of the true god, the origin of the universe of the true **** of the void, the origin of the universe of the eternal true god... The difference is also huge.

The cosmic origin of the primordial universe is the most perfect cosmic origin, and it is naturally very helpful to the beasts. "I feel like I'm approaching the stage of the Eternal True God." At the beginning of the growth stage of the beast, it is equivalent to the Void True God. If the origin of the universe that devours the primordial universe, if it is digested cleanly, it can naturally evolve to the equivalent of the Eternal True God. stage, the maturity stage.

At the peak of maturity, that is the level of the king of gods.

"There are other primitive universes." There is expectation in the eyes of the world beast king. "I don't know how far my world beast incarnation can grow after swallowing it all."

The stronger the world beast, the more perfect and powerful the 'world' in the body, and the faster it devours it, like a snowball!

One by one the original universe suffered!

Compared with the origin of the original universe, the other small universes and the Holy Land universe are far worse than all of them.

The world beast king moved like this, and all the cosmos seas were filled with sorrow.

But Wang Yi has no sympathy at all.

What did you do when you persecuted the human race earlier?

What's more, many primitive universes have already entered the end stage, and even if they don't eat, they will soon be destroyed. Naturally, Wang Yi would not let this opportunity go because he was soft-hearted.

The only primitive universe that was safe and not poisoned, the forces of all parties who did not know what was going on hid in the universe and shivered, and the Ancestral God Religion did not intend to publicize the contract between the world beast and the original will of the universe.

The kings of the beasts swept the latitude universe sea one by one, the universe was destroyed one by one, and countless lives fell...

This is a terrible catastrophe! No one can escape.

Far away in the depths of chaos, the Holy Land of Minghong.

The ancestor of the Holy Land had a solemn expression and murmured in a low voice.

"The beast..."

"This world beast is already unstoppable, and the universe of the Three Thousand Latitude Sea will probably be swallowed up by it. I don't know how much it will grow. I hope it won't affect me."

The ancestors of Minghong Holy Land could not help but feel a little worried.

Worrying about the beasts coming to the door, he has ordered all the strong men in the Holy Land to return.

...

With the passage of time, all the universes in the 3,000-latitude cosmic sea, except Wang Yi's cosmic sea, were swallowed up by the beasts!

Just when all parties in the original universe thought it was their turn, the world beast suddenly disappeared.

Without warning, it just disappeared and never appeared again. It was not until a long time ago that all parties in the original universe speculated whether the beast had left, and at this time, the Ancestral God Sect announced that the world beast catastrophe for some reason, It's over, no need to worry anymore.

The forces of all parties can't believe it, but the original will of the original universe will not be happy. Since this is said, it is true.

surprise!

ecstasy!

Weeping with joy!

The entire primordial universe is celebrating! Hold a huge celebration~www.mtlnovel.com~ Celebrate this world beast catastrophe. Celebrate yourself and your little universe surviving.

The same is true for the human race. The existence of the incarnation of the world beast is known only to the highest level of human beings. Most of the other true gods and the powerhouses at the bottom are kept in the dark, so when they know that the world beast crisis has passed, they are very excited to celebrate. stand up.

In the primordial universe, Wang Yi and the boy in gray robe who transformed from the incarnation of the beast appeared in his hometown Earth in the galaxy. Because of signing a contract under the supreme rules, the incarnation of the beast could also enter the primordial universe. He looked at the prosperous and vibrant earth with a face. A smile appeared on it.

"ended."

[Chapter 817: The end of an era](#)

The Secret Tome of Nine Tribulations, created by the reincarnated God King "Ziting Shanke", is a heaven-defying technique restricted by the rules of the original universe!

Cultivation is extremely difficult! Without the technique of avatar, cultivating this is tantamount to suicide.

In essence, successful cultivation can continuously improve the genetic level of life!

Wang Yi once signed in on Earth and got the first of the nine kalpas.

Signing in the "Wulong Star Field", one of the nine junk star fields, got the second and third calamities, which helped him a lot to improve his strength!

Now, he signed in here to get the fourth robbery!

unexpected surprise!

A mysterious force descended and enveloped Wang Yi, completely isolating the universe, time and space, and everything was completed in an instant.

Wang Yi's gene level, including all clones, has been elevated to the level of the fourth calamity!

That is 24 times!

And the limit of the secret scripture of the Nine Tribulations, the Ninth Tribulation, is 768 times!

In fact, Wang Yi doubted that ancient civilizations had cultivation methods that far surpassed that of the "Secret Book of Nine Tribulations".

Perhaps, existence can be cultivated a thousand times! The secret method of the ten thousand times gene level!

However, this is not what Wang Yi wants to get. Being able to practice the Nine Tribulations is already the envy of countless powerhouses in the primitive universe.

When the genetic level base is increased to 24 times, how much is the power of the beast god?

Wang Yi couldn't help but start trying.

It was found that the power of the gene level driven by the power of the beast **** can be increased to 240 times!

It was not what he expected.

If you add the amplitude secret method, it is 24,000 times!

The power of Feng Wang Gao is 30,000 times the peak power of the world master!

And the peak of the king is 100,000 times the power of the world master's peak!

The improvement of the foundation means that Wang Yi's human body can exert stronger strength.

And the gene level of the flame star behemoth clone has been increased to 240 times!

In addition to the "power of the beast god", it is 2400 times the genetic level!

Coupled with the secret technique of amplitude, the flame star monster can reach 240,000 times the power!

Exceed the peak of the king!

The flame star beasts are so terrifying, what about the "Void Zerg clone"?

The Void Zerg clone, its own gene level is 280 times, this time it has obtained the fourth robbery transformation, which is directly increased by 24 times, to 6720 times the gene level!

However, the effect of the "Beast God's Power" has also weakened again. Even if the "Beast God's Power" is driven, the gene level of the Void Zerg clone is only increased to 9000 times!

"In the past, Luo Feng, who cultivated the fifth robbery of the human body's genetic level reached 48 times, and fused 100 blood crystals, which should have been increased by a hundred times. In the end, it was only more than 3,000 times, and it was increased by more than 60 times." Wang Yi said in his heart. He murmured, "It's not the starry sky behemoth, it can't perfectly integrate the power of the beast god, and the starry sky behemoth has no such trouble."

With the improvement of one's own genetic level, in other life forms, the improvement effect of the power of the beast **** has been significantly weakened.

A perfect life gene is 10,081 times that of an ordinary life.

And the Void Zerg clone is a little far from the 10081 times the perfect genetic level of the universe.

If you can reach the perfect genetic level, you can get the gift of the original universe and get the "strongest talent secret method"!

The gift of the strongest innate secret technique is an opportunity for every strong person who has reached the level of perfect life genes. Their consciousness will be attracted to the core of the origin of the universe and will be inherited. This is the inheritance of consciousness... If consciousness has been inherited once, there is no way to get a second inheritance. Because every life has only one chance.

"The first kalpa is 3 times before the gene reaches it. The second kalpa is 6 times, the third kalpa is 12 times, the fourth kalpa is 24 times, and the fifth kalpa is 48 times."

"It is estimated that if you get the fifth calamity, you should be able to break through ten thousand times."

But Wang Yi is not in a hurry, this is a matter of time.

The gene level of "Void Zerg clone" has reached 9000 times! The secret method of amplification is 900,000 times! It can almost perfectly exert the power of "Imperial Armor", reaching 9 million times the strength of the peak world master!

At this point, an increase of 1 million or a decrease of 1 million has little effect on the Void Zerg clone.

As soon as he arrived at the Star Tower, he ushered in a good start, and Wang Yi was very satisfied with the result.

"As expected of the Star Tower, a god-king-level treasure fused with a mysterious golden light is awesome!"

Next, Wang Yi was going to squat here and pick up the wool of the Star Tower.

"This kid, why did he come to the Star Tower? Does he want to go in?" In the void, a shadow perfectly blended into the surrounding space and time in an incomprehensible way, frowning as Wang Yi's spaceship flew towards the Star Tower, As if recalling something, the dark eyes that seemed to lead to a black hole also became deeper.

"Star Tower..."

When the "Star Tower" appeared in the world, it attracted countless powerhouses and set off a **** storm. Many superpowers went crazy because of this supreme treasure, and launched fierce competition, and even the lord of the universe fell because of it.

In the end, it was discovered that no one could get the "Star Tower" at all!

Countless ethnic groups tried their best to exhaust their scheming, but they couldn't even move the Star Tower, and they simply said to take it away!

So the Star Tower has been standing here quietly, unchanged for hundreds of millions of years.

Become an ancient battle area on the extraterritorial battlefield!

"If Wang Yi goes into the Star Tower, I won't be able to go in..." Shadow frowned.

...

Near the Star Tower, in the starry sky about tens of billions of kilometers away from Wang Yi's spaceship, a strange spaceship with a blue-white oval shape and flowing water like ripples on its surface is advancing.

There are three kings in the spaceship chatting.

"Star Pagoda, I have been on the battlefield outside the territory for so many years, and I finally saw the famous Star Pagoda." An alien king who was covered in blue scales and had hundreds of thorns on his forehead and looked extra hideous said excitedly.

"Haha, the first time you come to King Yinlun, of course you will be excited. The Star Tower is the most famous and the place with the most powerhouses in the seventh outer battlefield. The gathered kings alone amount to 100,000!" Another humanoid insect The same alien king sent out a soul-stirring evil laughter with the same echo from the abyss.

"Speaking of the Star Tower, in fact, everyone who came here has tried to make the Star Tower recognize its owner. Of course, no one has succeeded so far. However, it is too impractical to obtain the Star Tower, and in addition to the Star Tower, there are actually Other treasures have attracted countless strong men to come here to fight." The third female Feng Wang, whose body was translucent and illusory, smiled and said: "The treasure "Zhenfeng Star" is nurtured in the Star Tower, and every "Zhenfeng Star" original body is It has the size of an ordinary planet. As long as it is refined, it can be used to seal the strong through the sealing stars, and after defeating the enemy, it will be sealed in the "suppressing stars", and the enemy will never be able to escape. This kind of treasure... Everyone tries to get it in vain. But in the star tower nine light years high, there are countless sealed stars, just like "water droplets" in the sea. Although the sealed stars are treasures, they are very common in the star tower. ."

"However - if the Zhenfeng stars were not born, even if there is a super existence in the universe, they can't forcibly take those "Zhenfeng stars" from the Star Tower."

Silver Wheel King nodded, "Yes, I know that too."

Occasionally, the star tower will also suddenly have the birth of a star! Every single star is a treasure that seals the strong, enough to make the kings go crazy, and even the Lord of the Universe can't be destroyed there, no matter how to fight, it will naturally become the most peak battle place.

The three kings are all looking forward to their next career.

...

Since signing in for the fourth robbery of the Nine Tribulations, Wang Yi was no longer in a hurry. He sat in the spaceship leisurely, and did not arrive at the entrance of the Star Tower until more than ten days later.

The body of the Star Tower is surrounded by a swirl of bright nebulae.

However, there is no nebula whirlpool at the bottom of the tower. The tower is divided into nine floors, and the first floor at the bottom has nine entrances. Many foreign kings and princes who come to try their luck enter along one entrance at will.

From the star tower, there is still a sense of summoning that makes the soul tremble.

"I'm lucky, maybe I can get the next few calamities." Wang Yi looked up at the towering star tower that covered the starry sky. What is the concept of being nine light years tall? Compared with it, the sun is like the difference between dust and mountains.

I am full of expectations.

At the same time, there was also a hint of worry.

"I just don't know if it will be discovered by the mountaineers."

"Forget it, it's a blessing, not a disaster. It's a disaster that can't be avoided. Even if the mountain guest discovers the nine calamities on my body, it's impossible for him to know the existence of the panel... It's not going to dissect me, right?"

Wang Yi looked up at the huge black tower gate with a height of one million kilometers, and meditated in his heart.

"Sign in."

[Ding, congratulations to the host for successfully signing in, reward Zhenfeng stars (quantity: 1)!]

"Um?"

A smile appeared on Wang Yi's face.

"As soon as I arrived at the door, I gave a heavy treasure." Wang Yi felt a little hot in his heart.

"The Star Tower is really a treasure."

Nonsense, don't even look at what level of treasure the Star Tower is. In the entire primitive universe, even if a mountain guest takes the reincarnated god-king weapon "Jinwang Palace", it can't be compared with the "Star Tower" in terms of mystery and power!

The origin of the "Star Tower" itself is mysterious, revealing the higher level behind the origin continent.

"Zhenfeng Xingchen" is a sealed treasure. As long as the strength is slightly stronger than the opponent, with the Zhenfeng Xingchen, the opponent can be forcibly sealed and trapped in it! Make the opponent unable to escape forever... The essence of the seal star is special, if it is trapped in it, even the Venerable Universe will not be able to forcibly break it out from the inside.

Of course, it would be much more troublesome to seal the Venerable Universe.

But "Zhenfeng Star" is still a treasure, a treasure that makes countless powerful people of hundreds of millions of ethnic groups go crazy. It is conceivable how tragic the killing would be in order to suppress the stars.

Every Suppressing Star represents a big slaughter!

And Wang Yi came to the door to stroll and sign in, and he got a "Zhenfeng Star".

Wang Yi looked at the sign-in panel. Since the upgrade, the image of the pure gold local tyrant on the sign-in panel has turned into a hint of purple, which is even more noble!

Wang Yi pouted in his heart.

Under the sign-in panel of the enhanced version of the local tyrant image, there is an extra black star bead that exudes an ancient atmosphere.

Zhenfeng Xingchen's real body is actually very large, comparable to an ordinary planet! Even more heavy. If there is no refining, it is very troublesome to use alone.

A message flowed into Wang Yi's consciousness, telling him to seal the stars.

Zhenfeng Xingchen is a treasure, in fact, it is more suitable for the use of the "spiritual teacher flow" powerhouse.

Ordinary warriors follow different battle routes, and it is difficult to perfectly play the role of suppressing stars.

"When you get a seal star, this star has the effect of sealing a strong person. In terms of value, it is probably even higher than the "Purgatory God Armor"." Wang Yi sighed.

Among the treasures, weapons of the same level have always been the most common and the least valuable, armors are higher than the former, and souls of palaces and fields are more precious and rare.

Zhenfeng Xingchen is regarded as a "seal category", and its value is higher than that of the armor category, but lower than that of the palace category.

"Huh?" Wang Yi suddenly moved, turned his head, looked behind him, and three streamers flew close, revealing three alien figures.

The three alien kings also saw Wang Yi.

Humans in dark red armor?

"Isn't this the King of Insects?"

The three alien kings were all nervous.

The King of Insects is not scary.

What is terrifying is the "God Hunting King" who is close to the invincible king behind the Insect King!

That is a terrifying existence that made the two kings limit in one battle, and the three peaks of the three kings fell.

The popularity of the killing made even the king's heart throb when he heard it.

I heard that the Royal Insect King and the Hunting God King have a very good friendship. The Royal Insect King is here. What about the Hunting God King?

The three alien kings looked at each other, turned their directions at the same time, and flew to another entrance.

Wang Yi: "..."

Am I so scary?

Come back to me and explain it clearly!

Wang Yi pouted and flew up, in the same direction as the three alien kings.

Don't get me wrong, he just went to another door to sign in.

The three alien kings also found out that Wang Yi was behind them, and became nervous.

"The King of Insects is behind, what should I do?"

"What can I do, the Hunter King may be with him, do we dare to provoke him?"

The three alien kings fell silent.

Can't afford to offend.

Can't afford to offend, we can always hide, right?

The three alien kings speeded up their flight at the same time, quickly rushed to the entrance, and rushed in without looking back, as if someone was chasing them behind.

Wang Yi slowly flew behind them.

The strength of these three alien kings is good, and at the gate, people come and go, and it is not easy to fight, so Wang Yi has no intention of shooting. UU reading www.uukanshu.com

Gee, too many people!

"Sign in." Wang Yi said in his heart when he came to the second towering giant gate.

[Ding, congratulations to the host for successfully signing in, reward Zhenfeng stars (quantity: 1)!]

Another one.

Wang Yi nodded in satisfaction.

If other kings knew that Wang Yi "picked up" two stars so easily, he would be jealous.

Next, is the day when Wang Yi signed in at the Star Tower.

I fly!

I teleport!

I sign in!

[Ding, congratulations to the host for successfully signing in, reward Zhenfeng stars (quantity: 1)!]

...

[Ding, congratulations to the host for successfully signing in, reward Zhenfeng stars (quantity: 1)!]

...

[Ding, congratulations to the host for successfully signing in, rewarding armor (quantity: 1)!]

...

[Ding, congratulations to the host for successfully signing in, reward the king soul (quantity: 1)!]

...

[Ding, congratulations to the host for successfully signing in, reward the emperor soul (quantity: 1)!]

...

Wang Yi, like a hard-working bee, happily flew around the Star Tower, which is 90,000 light-years long.

Wang Yi hummed a little song and said that you will never understand the joy of signing in!

[Chapter 818: reincarnation](#)

After about 400,000 epochs, Wang Yi finally came to an end, stood up from under the ancient tree, and smiled at the incarnation of the beast.

"Now, I have been regarded as the realm of eternal true god."

"Eternal True God, a small universe can be formed with a single thought. They have already realized some of the origins and mysteries of the universe." Wang Yi secretly said, "For example, realizing the source of water and fire, realizing the source of time and space, realizing the source of light and darkness... as long as if you realize any of them, you can become the eternal true god."

The "source of life and death" understood by Wang Yi is just the beginning of the way of destruction.

Eternal true God, a thought is born, and the universe becomes! For example, with a move in the heart, the surrounding tens of thousands of light-years will enter a miniature universe! The Eternal True God is the master of this miniature universe! Except for the small body, all other mysteries are no different from the real universe, and the power is so great... enough to make the Eternal True God have the power to absolutely sweep the Void True God.

Wang Yi glanced at the avatar of the beast next to him, a little envious. "The incarnation of the world beast, but the realm is far beyond mine, swallowing a large number of universes in the universe of three thousand latitudes, allowing the world beast to grow to a very high level, and its origin of destruction has also been understood to a very high level, only one line away, it will break through the eternal true **** Boundary, become the master level of chaos."

"And its realm stores a huge amount of energy. As long as it devours some treasures, it can breed a large number of realm beast warriors."

The complete source of destruction mastered by the world beast is closely related to its "world", just like a kind of talent. Wang Yi's deity has no world, which causes him and the world beast to have the same consciousness, but he can't imitate its laws and perceive himself.

But even so, the deity's progress has reached an incredible speed.

"I'm absolutely sure of the reincarnation, but I don't know how much Luo Feng and the original ancestors have improved." Wang Yi pondered in his heart.

True God, the general self-created secret method is from the seventh to the ninth order. If you can create your own tenth-order secret method, you can almost become a void true god.

The Void True God is generally from the eleventh to the thirteenth order. If you can create a fourteenth-order secret technique, you can become the eternal true god!

The Eternal True God is generally from the fifteenth to the seventeenth order. If he can create an eighteenth-order secret technique, he can become the master of chaos.

"But... becoming a true **** of the void is to comprehend the ten basic laws, and then condense the void."

"Becoming a true **** of eternity is to comprehend a mystery of the origin of the universe."

"Becoming the master of chaos is to integrate all the basic laws and control chaos! Once you control chaos, you can transform your true god's heart into chaos space, all of which must be triggered by yourself, so you must control the laws of chaos. to do it later."

"If you go one step further and become a **** king, you can control the chaotic space in your body to evolve into a small universe. Different **** kings take different paths, and the small universes opened up in their bodies will also be different." Wang Yi began to think about the future path.

Now he has the incarnation of a world beast, comprehends the origin of destruction, and walks the path of destruction.

However, in the original work, Luo Feng used force to break the law to become the Lord of Chaotic Source, as if he was walking the way of the sword.

Going now doesn't mean that you will have to go in the future. It's like Luo Feng was the first spiritual teacher in the beginning, but in the end, isn't he the best at swordsmanship?

...

After Wang Yi left the customs, another 150,000 epochs had passed before Luo Feng finished his comprehension, and he had to wait another 70,000 epochs before the original ancestor came out.

Because Wang Yi will break through the Eternal True God, it will take a lot of time to improve the small universe, so the three of them have discussed in advance, and Wang Yi's small universe will be almost transformed. Luo Feng and the original ancestor will improve again, so the three of them They almost succeeded in breaking through.

...

Breakthrough begins!

In the small universe with a diameter of one billion light-years, following Wang Yi's breakthrough, void passages were created one after another. . I saw endless chaotic airflow gushing out of those void channels, and the membrane wall of the small universe began to grow rapidly and expand. 1.1 billion light-years, 1.2 billion light-years... The size of the small universe keeps skyrocketing.

The influx of endless chaotic airflow is only to supply the growth of the small universe itself. As for Wang Yi's body, the divine power needed is to be slowly swallowed, transformed and accumulated. This breakthrough, the divine power has evolved a hundredfold! The divine power accumulated and stored over the long years made Wang Yi's body reach the perfection level in an instant, but it was only the perfection of the Void True God!

Once complete, continue to make breakthroughs!

boom! boom! boom!

One after another void passages appeared in the void of the universe, and the influx of endless chaotic airflow was continuously absorbed and transformed, causing the small universe to continue to expand.

Eleven.

At this time, the small universe of Luo Feng and the original ancestor also began to transform, and the size quickly began to expand.

In the end, after the original ancestor's small universe reached a diameter of 6.3 billion light-years, Luo Feng soon reached a diameter of 10 billion light-years. Shocking! Because they are all just Void True Gods! Not to mention the original ancestor, the ancestor of the Milky Way (Luo Feng) in the void is actually the same size of the universe as the ancestor of the Chaotic Source (the name of the universe of the Holy Land)!

After Luo Feng and Yuanzu's breakthrough ended, Wang Yi's small universe finally reached a diameter of 100 billion light-years after nearly a month.

"It's finally over, my God, the small universe of Chaotic Source's ancestor actually has a diameter of 100 billion light-years. What level has he reached?"

The powerhouses in the Universe Sea were shocked to the extreme.

Other true gods, small universes are all one hundred million light-years in diameter.

The Chaotic Source Ancestor is 100 billion light-years in diameter. If the small universe at the time of the True God is equivalent to a thousand of them, and Luo Feng's Void True God is equivalent to a million of their small universe, then the Chaotic Source Ancestor is equivalent to a thousand of them. to a billion of them.

Incredible!

The mountain passers who witnessed all this were also shocked. "Legend, this is a legend. The small universe has reached this stage, and it is already complete, and it exists only in legends." Whether it is the one billion light-year diameter of the true god, or the 10 billion light-year diameter of the empty god, the 100 billion light-year diameter of the eternal **** The diameter is something that the continent of origin has never seen before.

For example, the small universe of the Void True God, the peerless genius can reach about 5 billion light-years... but the higher it is, the more difficult it is.

And Luo Feng was able to create a small universe with a diameter of 10 billion light-years in the void.

Wang Yi can achieve a small universe with a diameter of 100 billion light-years in Eternal True God.

This is the perfect ultimate, legend!

...

As the eternal true god, Wang Yi's divine power once again condensed a hundredfold. If it is not enough to rely on the divine power reserve in his small universe, he has to exchange for treasures that store divine power from the panel, and then he can improve to the level of perfection of the eternal true god.

Luo Feng and Yuanzu were even worse. One was suppressed, and even the internal evolution of the universe was not completed.

"My current body height is still 12 light-years. But the strength of my divine power is the eternal true god!" Wang Yi nodded with satisfaction.

Moreover, Wang Yi's current mini-universe is larger than it was in the past. Devouring and transforming divine power is also more efficient.

At this time, an invisible wave swept across his small universe, and a message came.

Within a year, I will go through reincarnation and leave the sea of cosmos.

...

Wang Yi, Luo Feng and the original ancestor met once, talked about it, and agreed to go to Qingfeng Realm to go to reincarnation after ten months. And these ten months are all things arranged.

Although it is said to leave the universe sea to go through reincarnation, but the incarnation of divine power can be condensed in the small universe at any time, so it is not a parting of life and death.

The October period has arrived, and the peak is beyond the bounds. A ship was suspended, and there were many figures standing inside the ship. The high-level people of the human race, such as the Chaos City Lord, the founder of the giant axe, Xingyue, Bingfeng... Wang Yi's relatives and friends, Luo Feng's relatives and friends, all came to send three people.

Luo Feng's teacher was also there, and he was full of emotion.

Finally this day has come.

Si Shan Ke was very satisfied. His hard work was not in vain. He cultivated a peerless genius like Luo Feng, and also made friends with Wang Yi, who was destined to rise in the Origin Continent. When they grow to the top of the Origin Continent, they can take revenge. .

The mountaineers are full of expectations.

After saying goodbye to everyone, a black tower to the sky, a tower of stars, and a boat flew to Qingfeng Realm at the same time.

Inside the Tongtian Tower, Wang Yi and the world beasts were sitting on the island in disguise, watching the figures of the people behind them disappear, turning their heads and looking at the huge and ancient Qingfeng Realm in front of them with bright eyes.

Origin Continent, here he comes.

In the depths of the Qingfeng Realm, following the direction of the summoning sense, Wang Yi, Luo Feng, and the original ancestor flew to a vast area.

There is nothingness in the vast space, only the entrance of the passage with a huge surface with colored energy flowing in front of it. At the entrance of the passage, there are vague figures, like humans and beasts. At a glance, hundreds of millions The figure passed by the entrance of the passage.

"This is the reincarnation channel, and the opposite is the origin continent." Wang Yi murmured.

The origin continent is the origin of all dimensional spaces.

The cosmic sea around the origin continent seems to be an endless void, but in fact it has different dimensions. It can be divided into three thousand-dimensional cosmic seas.

Every cosmic sea has a primordial universe, and there is a reincarnation channel.

The reincarnation channel has two purposes.

If the life nurtured in the primitive universe becomes the true **** of the void, it can reach the origin continent through the reincarnation channel. This is one of them!

If they do not become the Void True God, once they die, their souls will go directly to the origin continent along the reincarnation channel, but in the reincarnation channel, the weak souls will be annihilated, and only the powerful souls will reach the origin continent. However, these souls will lose their past life memories... reincarnated in the origin continent!

In general, the three thousand primordial universes from different dimensions have given birth to powerful souls and sent them to the origin continent. The life born in the origin continent is very powerful. Because the weak soul is annihilated in the reincarnation channel.

Wang Yi couldn't help thinking that so many true gods of the universe and the masters of the universe had been killed by himself, they should all be reincarnated into the origin continent, right? However, even if they are reincarnated, they will lose the memory of their previous life, and they will become another life and start a new life.

The 3,000-dimensional cosmic sea is the foundation and the foundation for the prosperity of the origin continent. The origin continent is the common origin of all dimensions, and it is also the most prosperous place. Some powerful loners leave behind their own hidden legacy. There are also some powerful sects, tribes, and even powerful nations! The fish and dragons are mixed, there are many forces, and at the same time, it is extremely chaotic. And from time to time, geniuses from the 3,000-dimensional cosmic sea rise.

Thinking of this, Wang Yi narrowed his eyes. "When you reach the origin continent, you can try to seize the original universe."

How can the uninformed little guys from the Three Thousand Universe Seas rise up? It is because once their will is strong, there is the possibility of taking over the original universe. Once the house is successfully seized, one can perceive the various mysteries in the original universe, and it is easy to be called a saint, and there is even hope of becoming the 'king of gods'.

Why did the ancestor of Ziyue always target the human race? Perhaps the ancestor of Ziyue should have been absorbed by a certain force, so he knew the secret message of seizing the original universe.

Of course, in the entire universe now, there is only the Holy Land universe of the human race.

"According to the strength of the original willpower of the original universe, the difficulty of winning the house varies. Generally, the will can be converted into a saint and the house can be successfully captured. The most difficult thing is that as long as the will steps into the god-king level, it will definitely be successful." Wang Yi said in his heart. dark road. "However, although my will has reached the peak of the eternal true god, it is still a little short of it before I enter the holy place!"

"As soon as you get to become a saint, you can practice the "Lie Yuan Technique" and try to seize the body."

Call it the Holy Will! It is a completely different concept from the eternal true God! At this point, the creation of willpower is also a natural thing.

Without the chance that Luo Fengna and the world beast broke through in desperate desperation, Wang Yi has stayed at the peak of the eternal true **** all these years.

Of course, Wang Yi didn't want to work hard, and he didn't want to fall into despair.

A normal person who does this kind of thing every day is not a masochist.

Slowly cultivate, he can also become stronger.

"Well... When I arrive at the origin continent, in addition to the treasures left by Wu State, I can also find more places to sign in, and by the way, I can improve the power of the incarnation of the beasts as soon as possible, and then breed the army of the beasts." Before Wang Yi's strength was really strong, in the crisis-riddled continent of origin, the world beast is his strong guarantee.

"That old fellow sitting on the mountain should confess to Luo Feng soon." Wang Yi looked in the direction of the Star Pagoda. "The King of Jin reincarnated in the Origin Continent?"

The **** king of Jin, but he was eager to avenge the three monarchs of the Shiguos who destroyed the Jin kingdom. UU reading [www. uukanshu. com](http://www.uukanshu.com)

There is also the enemy of Wu, I don't know how powerful it is...

The Origin Continent may also have a lot of trouble waiting for him.

However, the incarnation of the beast has not been exposed, and he is confident to settle those troubles.

The three began to probe the entrance of this reincarnation, but no matter how they probed, they could not know the internal situation.

"I'll be advanced." Wang Yi said, with the Tongtian Tower and the strength of the Eternal True God, he is full of confidence.

The Tongtian Pagoda flew in first, making sure that there was no problem, and Luo Feng and Yuanzu also flew in.

...

Entering the reincarnation channel will feel extremely comfortable.

I saw that in the reincarnation passage of the stream of light outside, countless blurred shadows appeared and disappeared from time to time, some of which were human, some were beasts, and some were plants.

"Souls from the three-thousand-latitude cosmic sea... But only powerful enough souls can be reincarnated to the origin continent through this channel, and the rest will be annihilated." Wang Yi sighed.

At this point, it has been considered to be free from the limitations of the original universe.

Wang Yi took out the inheritance information and what Brother Tianxing gave him. Some things should be well understood.

[Chapter 819: Continent of Origin](#)

With a thought, Wang Yi entered the inheritance token space given to him by Senior Brother Tianxing again.

This is a vast hall, supported by majestic brass-colored pillars, illuminated by a light source from nowhere. There are three simple black and gold doors in the hall, and the doors are tightly closed.

The first door was opened when Wang Yi became a true god, and the contents inside had already been taken away, so Wang Yi simply skipped it.

Wang Yi walked to the second door, put his hand on the cold door, and activated his divine power.

"Buzz!"

With the input of divine power, the entire black-gold door slowly opened, revealing the space inside.

Wang Yi walked in. This is a world that is vast and boundless. Wang Yi checked it. There are many resources and treasures here, which are enough for a Void True God to cultivate to the Eternal True God. However, Wang Yi is already the eternal true god, so it is of no use to Wang Yi here.

Wang Yi shook his head, backed out, came to the last gate, and said to himself, "Brother Tianxing said that the last gate can only be opened if I become the eternal true god, and it contains information about the treasures hidden in the origin continent by Wu State." Wu The country, as a top-level force ruled by a god-king, has a profound background. Even if it is destroyed, the treasures left behind may be enough to make those chaotic masters jealous and crazy.

"Boom..." The black-gold door that had been closed for an unknown number of years slowly opened with tremors.

Wang Yi stepped in.

There is also a vast world inside, but in the middle there is a majestic cyan mountain shrouded in clouds and mist.

Wang Yi turned into a stream of light and flew directly over, and at his current realm the flying speed reached an extremely astonishing level, but it took a while before he flew to the mountain peak.

At the top of the mountain, there is a palace with a cyan color faintly revealing a noble golden color. The gates of the palace overlap, and Wang Yi faintly feels a powerful force that makes the Eternal True God feel heartbroken. It seems that as long as a trace is emitted, it is enough to kill Own.

Wang Yi's face was slightly serious, but he still walked over.

"Wow!" A dazzling beam of light descended from the sky and fell at an unbelievable speed. The colored rays of light enveloped Wang Yi. This force was powerful but gentle. It rippled on Wang Yi like the waves of the sea. Standing there, after a while, the light flashed, and the colored light disappeared with Wang Yi.

When Wang Yi reappeared, he had already appeared in a palace filled with white mist. In front of him was a sculpture. A man in a gorgeous cyan royal robe was carved. He had a handsome face and long cyan hair, staring straight ahead. The expression is indifferent, although it is only a sculpture, it has an inexplicable momentum.

"God King of Wu Kingdom!" Wang Yi's eyes narrowed, and he recognized that this carving was the figure of the God King that had appeared in his mind when he was in the Refinement Inheritance Order. Then he felt a little emotional and came to the lifelike carving and bowed. , Now he is the successor of the Wu Kingdom. From this point of view, the monarch of the Wu Kingdom is also his teacher. Although the two have never met, but since he accepts the inheritance of the Wu Kingdom, he will naturally fulfill the wish of the God King of the Wu Kingdom.

Wang Yi raised his head, looked at the carving of the God King in front of him, and said seriously: "Don't worry, I will revive the Wu Kingdom, and let the Wu Kingdom stand at the peak of the Origin Continent again."

At the same time, he also noticed that behind the man was a jade square with a ring on it.

As soon as Wang Yi stretched out his hand, the ring flew into his hand, and after a little refining, a large amount of information immediately flooded into his consciousness.

"My heir..." An elegant and light voice sounded in his ear.

"I am the monarch of Wu State, Chen Jing!"

"When you pick up this ring, I don't know how many years have passed, I will tell you everything you will face, how terrible your enemies will be..."

...

Inside the Tongtian Tower, Wang Yi on the island came out of the inheritance order and exhaled.

"It turns out that the state of Wu was destroyed like this, and it has something to do with the beasts."

Wang Yi couldn't help laughing and crying!

The world beast, the world beast catastrophe is a legend on the origin continent, and it is an absolutely terrible catastrophe.

However, among the many powerful kingdoms in the origin continent, there is a country called 'Tianmu Kingdom', which is a country that is stronger and older than the food country.

The Purple Wood God King was once wiped out.

Later, he fled into the sea of cosmos, went deep into the sea of cosmos, and even enslaved a beast back to the continent of origin!

A world beast at the peak of maturity, I am afraid that it will take many countries to unite to resist. An uncontrolled world beast is a nightmare, but the Purple Wood God King enslaved the world beast. The world beast is no longer crazy, but obedient. Only the Purple Wood God King's enemy was destroyed by him.

As for other countries? It's not bad that the Purple Wood God King didn't attack, who wants to provoke? Possessing a king of beasts... Tianmu Kingdom has risen and developed rapidly. Over time, Tianmu Kingdom itself has become extremely powerful. Naturally, the 'world beast', the beast of the Tianmu Kingdom, never made another move, and it became a legend.

Hmm... Having said so much, everyone should know who destroyed Wu State.

"It turned out that it was Tianmu Kingdom that destroyed Wu Kingdom!" Wang Yi exclaimed.

"The Kingdom of Wu destroyed the predecessor of the Kingdom of Tianmu, and the lord of the Kingdom of Tianmu, the God King Zimu, enslaved the world beast and turned back to destroy the Kingdom of Wu. The Kingdom of Wu has all fallen, and the Kingdom of Wu is left, and the strong are not reconciled, look. After the world beast is so powerful, he organized the last force of Wu to go deep into the sea of cosmos to enslave the immature world beast, but the expedition failed and the entire army was wiped out..." Wang Yi rubbed his head with a headache. He finally understood why Senior Brother Tian Xing said that even when he reached the God King, he had to be careful. Because the enemy is too powerful!

And the God King of Wu Kingdom did not fall from the beginning, but was besieged to death by the endless army of the beasts plus the Purple Wood God King and some hostile forces of the Wu Kingdom.

In general, there is more than one enemy of Wu Kingdom, but the Purple Wood God King is the most terrifying one!

"Since the enemy is the Tianmu Kingdom with the beasts, the Wu Kingdom must be more careful to take revenge." Wang Yi pondered.

Relying on the beasts, even if the Purple Wood God King is not the strongest in the Origin Continent, he is not afraid of other God Kings!

Wang Yi also watched the information on the origin continent, but it was the material from an infinite time ago, and there may be some discrepancies with the current situation in the origin continent, but it was enough for Wang Yi to have a general understanding of the origin continent.

First of all, as the center and origin of the 3,000-latitude cosmic sea, the origin continent is extremely vast. How vast is it? Even the king of gods, it is not easy to travel all over the origin continent.

And the origin continent also has some dangerous places since ancient times, some of which are difficult for even the king of gods to penetrate.

There is no doubt that the places where the most peak existences of the origin continent are difficult to explore are absolutely mysterious and terrifying!

In addition, the origin continent is mainly divided into two major forces: aborigines and practitioners!

The Origin Continent, as the origin of all dimensional universes, has nurtured countless treasures, but there are also geniuses who have poured in from the countless reincarnation eras of the 3,000-dimensional universe.

The indigenous people are too stupid, how can they compare with the powerhouses of the three thousand-dimensional universe? Gradually, there were more and more powerful people in the past dynasties, and together with reproduction, they now occupy more than 90% of the site. Those indigenous people can only hide in some miserable places on the origin continent, always thinking about taking back their homeland, and have never given up their struggle.

Therefore, the war between indigenous people and practitioners has continued for endless years. Many weapons left from battles, such as many treasured weapons found in the sea of cosmos, have bloodstains on them. They are also abandoned weapons from the war on the origin continent. Floating into the sea of cosmos, floating over . Like the strange things found in the sea of cosmos, such as the strange wood used in the original work of the Lord of Yuan Ou! It is the weapon of the indigenous origin of the continent. Because the indigenous people don't know how to refine weapons at all, they only use strange wood and exotic metals as weapons.

But don't think that the natives are weak. You must know that they can fight against the practitioners of the origin continent for endless years without being exterminated. The natives of the origin continent are actually very powerful, and some peak existences are not even weaker than the king of gods, otherwise they would have been exterminated long ago.

"The treasure left by the Wu Kingdom that was deliberately hidden is in the territory of a certain indigenous power. It is an extremely remote area of the origin continent. Even the strong people of the origin continent generally rarely penetrate deeply..." Wang Yi was a little surprised. But it's normal to think about it. Treasures, of course, have to be hidden in places that no one knows about. What place is safer than the indigenous territory that is hostile to the cultivator's forces?

"It's no wonder that the Eternal True God is not allowed to go. The indigenous ethnic group...but it is very scary. If you don't go to the Eternal True God, you will die." Wang Yi sighed. In order to revive the Wu Kingdom, it was also painstakingly planned. It's just that his enemy is not easy to mess with. But this is also nonsense. It can destroy the power of Wu State, can it be easy to mess with?

"Wu's treasure, we have to find a way to get it. With those treasures, as soon as my world beast incarnates into the chaotic master, it can breed a large number of world beast warriors, and you can also use those treasures to improve the speed of the world beast incarnation cultivation, If the incarnation of the beast can reach the peak of maturity, then I have a foothold in the origin continent." Wang Yi took a deep breath.

"Of course, I need to be **** myself, and I have to improve my own strength."

Become a **** king, destroy Tianmu!

Wang Yi set himself a small goal.

Because even if he doesn't deal with Tianmu Kingdom, when he rises, Tianmu Kingdom will find him as a remnant of Wu Kingdom.

Maybe...it's been discovered by now?

Wang Yi shook his head and continued to read more information records. I know more about the origin continent, where there are sects, hidden inheritances, tribes, or a city is a force, or a vast mountain range is a force, and there are various hidden organizations. Of course, the strongest are the powerful kingdoms and forces established by the **** kings. There are countless battles, and the organizations developed from different dimensional universes naturally fight extremely fiercely. There are quite a few kingdoms of gods that have been destroyed in history.

Wu State and Jin State are the two unlucky ones.

In the Origin Continent, there are not many god-king forces, but from ancient times to the present, there are only a few who are really at the peak!

Infinity Building! Jieshan Palace! Great Vietnam!

These three are recognized as the most extreme forces in the origin continent. They have dominated the origin continent for countless years and have never weakened. They are the state of Wu, the state of Jin, the state of food, etc. When the states are at their strongest, they must bow their heads in front of such forces !

It is the Tianmu Kingdom with the beasts in the city, which is much worse than the former!

"Original continent, the number of **** kings is more than a hundred, and the strength is also high and low."

"However, if you count the Chaotic Origin space system, the so-called God Kings are actually the realm of 'Cosmic God'."

"The universe **** is divided into three levels, and the gap between each level is very large. The ultimate realm of the third level can even kill the first and second levels."

"The information about the strength of the God Kings is too vague, but I just don't know what level those God Kings from the Origin Continent are." Wang Yi secretly thought.

...

Wang Yi was sitting on the Tower of Babel while advancing through the passage of reincarnation.

The ancient and vast continent of origin.

In a vast and infinite area, on the boundless and undulating land, a majestic and majestic city stands here.

The size of this city is beyond imagination, like a primitive universe.

Such a vast and inconceivable giant city with countless living creatures has a specific name in the origin continent, which is called "God King City" or "Universe City".

In the sky above the city, there are ninety-nine 'suns' that are incomparably huge and thousands of times larger than the true god's mini-universe, illuminating the ancient buildings below.

In the center of the city is a lake with a diameter of one trillion light-years. In the lake, there are black figures exuding the aura of destruction. It is a real beast. Each beast is stronger than the eternal true god, and there are countless beasts. , quietly distributed all over the lake, and in the lake grows a golden tree with luxuriant branches, each leaf like gold has mysterious patterns emerging.

There are also towering palaces surrounded by chaotic airflow next to the lake. There are powerful Void True Gods and Eternal True God Guards patrolling in silver and gold standard armors.

In one of the palaces, a stalwart black figure sat on the throne, and there was an eternal true **** kneeling respectfully below.

In front of him, a picture of light and shadow was suspended. In the picture of light and shadow, a man in red armor with a height of 100 million kilometers with five pairs of dazzling wings behind him flapped his wings, and countless light blades flew out, covering the sky and the sun, instantly killing the mighty front The army of the true God!

half an hour.

A low, hoarse voice sounded.

"That wing is indeed a top-notch mechanical treasure that Wu Guo had equipped with the Eternal True God under his command..."

"Wu... the universe boat... the universe sea... the inheritance of the east river... the world beast... hehe, interesting, even the world beast did not destroy them." The ancient chaotic existence muttered, as if muttering to himself. "Does this cosmic sea creature who got the Winged Treasure have anything to do with Wu State? Or is it simply breaking the Donghe vein?"

The black bald man kneeling on the ground respectfully lowered his head and listened quietly, never daring to raise his head.

"Ming Hong."

"Subordinates are here."

"Then the human race that received the inheritance of the Duandong River really has a small universe of 10 billion light-years and a small universe of 100 billion light-years?"

"Yes, what the subordinates of say is true, and there is absolutely no falsehood." The ancestor of Minghong Holy Land said seriously.

"Ugh..."

A sigh.

"Unbelievable." The existence in the chaos sighed: "Such a perfect universe is unheard of. According to legend, the most perfect eternal true **** universe, the void true **** universe, would actually appear in a small universe sea, such a talent, Even in the continent of my origin, I have never heard of it."

"If you let those **** kings know, I'm afraid they will fight for it and even start a huge war, just like Yuan's "Lie Yuan Technique" at the beginning." Chaos Lord's eyes are deep.

"Unfortunately, it has something to do with Duandonghe and Wu State."

The Chaos Master shook his head and glanced at his subordinates, "Minghong, you can go down."

"Yes."

After Ming Hong left, the Chaos Lord also got up from the throne and looked at the golden tree by the lake that was hundreds of millions of light-years high.

"The lord has always asked me to destroy the remnants of Wu State. I didn't expect such a thing to happen. Now that the matter has come, I have to report it to the lord."

"Such a genius must be killed as soon as possible. If he grows up, it will be a big problem in the future!"

[Chapter 820: first arrival](#)

As time passed, the original universe of Wang Yi's dimension was too far away from the continent of origin. Even through the reincarnation channel, it took more than a month to fly.

"Huh?" Luo Feng felt a strange wave in front of him and couldn't help but look up.

In the other tower and ship, Wang Yi and Yuan Zu also felt the special fluctuations ahead.

"It's coming?" Yuan Zu had a hint of anticipation in his eyes.

Luo Feng's eyes were full of fiery expectations.

He is eager for adventure, he is eager to be exciting, he is eager to fight, and he is eager to see more and more beautiful scenery.

The origin continent, for him, is an even greater challenge, but he is not afraid.

Life should be fought! should go climbing!

The three of them have already seen the bright light appearing in front of them, and faintly feel that the huge space-time force is twisting.

In an instant, the Babel Tower, the Star Tower, and the black ships disappeared into the light.

Even more vast, the origin of the three thousand-dimensional universe, the origin continent, has arrived.

...

In the endless chaotic void, there is an incomparably huge land that seems to have no boundaries. The big one cannot see the edge, and it is much larger than the universe. There are layers of clouds on the outermost part of this incomparably vast land. The clouds flow, all the time. There are countless strange creatures roaming and flying in it all the time. In the distant chaos, it seems that there are some even larger bodies looming, and the tip of the iceberg they casually expose is much larger than a star field.

"Wow..."

The clouds stirred, colorful streamers suddenly appeared, a vortex formed, and the next moment, three blurred streamers rushed out of it at a speed far exceeding the speed of light, but when they flew into this land, the flight speed was affected. Stopped nearby soon.

It was a quaint black iron tower, a nine-story tower, and a black ship.

"Wow!"

Three figures suddenly appeared.

"This is the Origin Continent?" Among the three figures, a long-haired man with six pairs of chaotic wings behind a red battle armor glanced left and right, and at the same time, the perception also expanded rapidly, covering tens of thousands of light years. "It seems to be in the air here?"

"Original Continent." The young men in silver armor with six pairs of silver wings behind them also stretched out their hands to feel the space. "The space here is more stable than the world of Jin, the rules are stronger, and the restraint on life is strong. I feel that to break the space here, it needs stronger power than the true god."

"The rules are too powerful, and the suppression of us is also severe."

The original ancestor in a white robe also closed his eyes and felt it for a while, then opened his eyes, "There are spatial fluctuations here, I feel that I can still teleport, but I don't know if it is possible to teleport below the true god."

The three of them talked about their discoveries.

In general, the Origin Continent is very stable, and the rules of operation are stronger. Even because it is so huge, the battle between the gods and kings cannot destroy it. I don't know how many battles have erupted in the Origin Continent since ancient times, but it is still safe and sound. .

And some beings in the clouds in the distance seemed to find the three, but they seemed to be shocked by the powerful aura, and they didn't dare to come, but stayed away.

Wang Yi and the others have already discovered these beings wandering in the clouds, but they found that they are like beings without any wisdom, their auras are not strong, and they are only the strongest true gods, so they didn't pay much attention to them.

However... Luo Feng raised his head, his face became solemn, he could vaguely perceive the depths of the clouds above, there seemed to be some incomparably powerful aura coming over, some of which made him feel the pressure.

Above the clouds, there seems to be some very terrifying life.

"In this way, it seems that the farther from the land, the more dangerous it is?" Luo Feng muttered.

Those terrifying beings in the depths of the clouds do not seem to be capable of being dealt with by ordinary Void True Gods.

As for the land... Luo Feng looked down at the place under his feet that was shrouded in endless clouds and mists. The clouds and mists in the origin continent were different from those in the sea of cosmos. With the perception of his Void True God, it was difficult to penetrate further, and his observation ability was greatly weakened.

"However... the energy here is more abundant, and even the chaotic airflow is everywhere." Wang Yi grabbed a hand, and a pure chaotic mist appeared in his hand. According to his observation, the farther away from the land of origin, the more chaotic airflow, and the closer to the land, the sparser the chaotic airflow. And these chaotic airflows are still harmful to life below immortality, and only those above Venerable can bear it. "In this way, most of the originating continent life should live on land..."

Wang Yi pondered.

With the inheritance of a large number of ancient civilizations such as Wu State, Duandong River, and Jin World, he still knows the origin continent very well.

The rules of the origin continent are perfect and powerful. After all, the powerhouses here are like clouds, there are countless true gods, there are also a lot of void true gods, there are a lot of eternal true gods and chaos masters, and there are many **** kings standing at the peak!

A strong world naturally breeds strong life.

Here, just born babies and children will not be mentioned, ordinary adults, and even slightly more powerful teenagers, are immortal gods.

Obviously in the Origin Continent... You can generally become a **** when you are an adult! However, under the suppression of powerful rules, their destructive power is extremely low.

Although they are suppressed by the rules, they are at least born strong, free from disease and disaster, and they are gods when they are adults. Their lifespans are very long, and even as long as they do not encounter disasters, their lifespans are eternal!

However... in the Origin Continent, slaughter and expedition are very common, and even some strong people inadvertently spread to the battle, even if hundreds of millions of lives in a city die, and want to be safe, not everyone can do it.

"What should we do next?" Luo Feng said, eager to try. "Are you going down now?"

"Wait." Wang Yi narrowed his eyes, under the gaze of the other two,

"Om..." The vast small universe was born in an instant, with a diameter of 100,000 light-years! Before Wang Yi did not break through, he could only use Chaos Wings to perform this move, and when he was not using the source, it was quite laborious to perform this move, and a small universe could not reach such a large size. At this moment, it can easily reach a diameter of 100,000 light-years.

Even, he can use the fifth level of wings, "One Thought of Chaos".

"One thought of the universe." Yuanzu and Luo Feng looked at this scene with some envy. Although Luo Feng can also achieve the one-shot of the universe now, he had to use Wu Yuyi to kill, and it was a simplified version of the one-shot of the universe.

A thought is empty! One thought of the universe! They are all a kind of control over time and space. The control of 'one thought of emptiness' is still limited, but the control of 'one thought of cosmos' is to form a small universe. Power to suppress the enemy!

Chaos air permeates.

With Wang Yi's display, a mighty small universe suddenly appeared in the surrounding area of 100,000 light-years, and the small universe was filled with chaotic airflow. Although the size is not large, the power is not reduced in the slightest. Because the power of a small universe depends on the source, and the source of the small universe of "universal formation" is Wang Yi himself.

And some of the cloud formations in the Origin Continent that haven't had time to escape have fallen into the range of Yi Nian Cosmos.

Wang Yi looked into the distance and could easily sense and control the position of any life in the clouds.

You can also sense their strength. They are all at the level of True God, Lord of Laws, and a large number of Venerable Laws, and there is no true God-level life in the void.

"Kill!" Wang Yi thought.

The power in the small universe was mobilized with Wang Yi's thoughts, and hundreds of big palms were born out of thin air at a time, and suddenly grabbed the cloud life that could not escape. Hundreds of big palms containing the power of the origin of the universe directly Grip it sharply!

puff! puff! puff! puff! puff! puff! Hundreds of alien beasts, whether they are true gods or the Lord of Laws, Venerable Laws, are instantly crushed, their bodies shattered, and they die!

The creatures of the alien beasts in the clouds farther saw this scene, and they all fled in fear.

"Eternal God!"

"It's the eternal God!"

Although they don't have much wisdom, living in this ancient land, it is natural to recognize that the unfamiliar powerhouse uses the signature ability of the eternal true **** of the origin continent - a thought of the universe.

How dare you stay and die?

Luo Feng and Yuan Zu were a little surprised when Wang Yi suddenly started killing.

"Wang Yi?"

Wang Yi smiled lightly and said, "Aren't you curious about the life on the origin continent? I happen to encounter these beast-like life in the cloud layer, so let's do some research first."

Luo Feng and Yuanzu looked at each other and nodded.

Wang Yi took Luo Feng and Yuanzu directly to a place in the small universe to observe the corpses.

"Regardless of the true god, the Lord of Law, and the Venerable Law, they are all flesh and blood?" Yuanzu was surprised. Unlike the universe sea life, the cloud layer life of the origin continent, although it also has "divine power", but it is all flesh and blood. After being killed, the corpse will not disintegrate. Of course, the divine power in their bodies will naturally dissipate, but this speed will pass over time.

"Sure enough, the rules are different." Yuanzu understood.

"Compared with the life of the universe sea, the level of life in the origin continent is undoubtedly higher." Luo Feng also said with emotion.

This is also very normal. The life of the universe sea is immortal, and it is the original universe or small universe that provides energy and converts it into a divine body. However, the rules of the origin continent are obviously different.

Wang Yi made his move just now, so naturally he was clearer. "There is a life-like nucleus in their bodies. If it is a true god, it is naturally the "true god's heart". Whether it is the life nucleus or the true god's heart is destroyed, they will die. We just need to pay attention to this."

"Woo—" A long howl suddenly came from the heights of the clouds. It seemed that the movement caused by Wang Yi's previous actions had attracted the attention of some powerful beings in the clouds.

This voice came from a distance, and wherever it passed, the cloud layer was violently stirred, and countless cloud layers were scattered and fled.

A gigantic figure slowly emerged from the clouds in the distance.

"It seems that a big guy has come, let's go." Wang Yi glanced in that direction and said to Yuanzu and Luo Feng.

"call!"

Before that mighty cloud life came, Wang Yi and the others teleported away.

Wang Yi's 100,000-fold divine body foundation, the small-scale cosmic source is a thousand times stronger than the ordinary eternal true god, and the teleport distance has a lot to do with the cosmic origin, so his teleportation distance is also much farther than the ordinary eternal true god, and it is all at once. disappeared.

...

"By the way, Luo Feng, the original ancestor, what name do you want to use for your activities in the Origin Continent?" Wang Yi asked. "It is not appropriate to use the original name or real name, even the appearance has to be changed, just in case the enemy finds out."

Humans have slaughtered countless ethnic groups in the sea of cosmos.

Even the Holy Land Universe has been offended.

Although the Holy Land universe has been destroyed, those strong people in the origin continent are still alive.

Just came to the origin continent, naturally it is not good to be too high-profile. Especially when Wang Yi and Luo Feng's enemies are all **** kings.

In fact, the Origin Continent is so big, it is undoubtedly very difficult to find someone, but sooner or later Luo Feng and the others will shine brightly on the Origin Continent, so it is naturally better to prepare early.

Luo Feng and Yuan Zu looked at each other.

"My name is Yangzhou." Luo Feng said, Yangzhou is his hometown.

"I thought you would continue to be called Yinhe or Jiangnan." Wang Yi teased.

Luo Feng rolled his eyes.

"I'll call you Yuan." Yuanzu smiled. "The original name shouldn't be too abrupt."

"Then my name is Jiujiang, Jiujiang Yi." Wang Yi said.

Next, the three of them changed their appearances slightly, and it was enough to be different from the sea of cosmos.

Luo Feng glanced at Wang Yi, "Why do you feel like you've become more handsome?"

"Is there? You are delusional!" Wang Yi didn't change his face. "My beauty radiates from within! Don't talk nonsense if you don't understand!"

The original ancestor: "..."

Luo Feng was speechless. Although it was a hundred thousand times his life, it was indeed the most noble and perfect life. If he didn't cover it up, the aura he exuded would make any life feel ashamed.

But he is not as smug as Wang Yi.

Wang Yi and Luo Feng have "invisibility and no form", the change is naturally very simple, and there is no flaw, even the breath can be changed perfectly, the original ancestor is a little more troublesome, but it is no problem.

The three changed quickly and looked at each other.

"Where's your world beast incarnation?" Luo Feng asked again.

Wang Yi shook his head, "He is staying in my palace, and it is necessary to come out again."

The three of them flew towards the land, teleporting from time to time, and even the true gods could reach a million times the speed of light. The weakest among them were the true gods of the void. Although the origin continent was more restrained, the speed was still astonishing.

Even so, they flew for about half a month, and the land was finally in sight.

"It's too far." Wang Yi estimated the speed of their journey and shook his head.

As they approached the ground, a huge river appeared in their sight.

The river was so vast, winding its way across the vast expanse of land, and even Wang Yi and the others couldn't see the end.

"This... This river is at least 100 million light-years wide, right?" Yuanzu was shocked. As for the length...no side can be seen at all.

The great river with a width of 100 million light-years and an endless length just appeared in front of Wang Yi and the others, and by the river were lofty mountains and vast forests.

Wang Yi and the others also saw that there was a city standing beside the river.

Standing high in the sky, in the distance is a towering city built on the shore. The size of the city is also thousands of light-years long and wide. But the city walls are very elegant. There are beautiful carvings all over the city wall.

"A city that is thousands of light-years long and wide? It's the first time I've seen it. The city of the origin continent is really extraordinary." Yuanzu was amazed.

Wang Yi and Luo Feng further observed that the structure of the city is unique, like the lines of mysterious laws winding inside, as if the Valley of Gods and Kings they have seen before seems to be able to erupt with amazing power at any time.

Wang Yi narrowed his eyes. "If this city is inspired by the formation pattern, it is estimated that it will be difficult for the Eternal True God to destroy it."

The pattern is very mysterious, even if Wang Yi can only understand a little of the realm of the eternal true **** now, most of them don't understand.

And such a city may just be the most common city in the origin continent...
