

A God 821

[Chapter 821: cruel world](#)

Wang Yi, Luo Feng, and Yuanzu stood on a high place, looking at the vast and glorious city from a distance.

According to Wang Yi's understanding from the inheritance information, the cities of the origin continent are mainly divided into three types.

The first is the city where the king of the gods sits, also known as the king city. It is the nest and root of the top forces, and it is also the largest city. It is built as impregnable, and it will generally stand on the origin continent for a long time, inhabited by endless creatures.

The second is a city with chaos-level giants. Chaos dominates the level. It is already a hegemon in the origin continent. It can build a big power and will not be easily destroyed. Even some chaotic main cities are not necessarily smaller than the king city.

The third type is the city built by the Eternal True God. It is also the weakest and most common city in the mainland. Because the origin continent is too dangerous, war and killing are common things. Without the protection of the strong, it is difficult to survive in the wild. Eternal Although the true gods cannot be on the table in the origin continent, they are also super strong in some places. They can also build cities and forces, and gather some creatures who want to live in peace.

And... it is the true god-level force in the void, but this kind of force is too weak in the origin continent, and it is difficult to survive. The origin continent does not know how many such small forces are born and destroyed every day. It is also difficult to form a big city and attract living beings to settle here.

The kingdom of the origin continent generally refers to the power established by the **** king, and only the **** king can establish a vast and boundless kingdom with real territory. Of course, some have established many forces such as sects and tribes that are not weaker than the kingdom. Just like the "Jin Kingdom" is a force built on the basis of the Refining Sect, and the "Food Kingdom" is a force built on the basis of the three major tribes... And the standard of these forces is that they all have **** kings in charge!

Only the power of the **** king is the top power of the origin continent! To be able to prosper in the continent of origin.

As for the power of the Chaos-level giants, it is much worse. It may be that hundreds of thousands of reincarnation eras were destroyed because of the conquest of the power. Not to mention the power of the eternal true God. These forces must rely on other major forces to survive.

It was as if the former top forces without the God King had broken the Donghe line and were attached to Wu State.

But even so, there is no guarantee that it will be stable... After all, even God Kings have fled, and there have been many God Kingdoms that have been destroyed in history. It can be seen that the battles in the Origin Continent are fierce.

"call!"

"call!"

Wang Yi, Luo Feng, and Yuanzu felt a little bit, but they didn't sense any special aura from that city. There should be no giants like Chaos in this ordinary city. As for the Eternal True God? They're not too worried yet.

The three figures flew towards the giant city, immediately attracting the attention of the soldiers guarding the city gate.

There are creatures entering and leaving in an endless stream at the city gate that is thousands of kilometers high, but Wang Yi and the others are the only three who dare to fly near here.

"Flying around Luofu City is prohibited." Suddenly, two guards wearing sky-blue simple armor shouted, with terrifying and fierce killing intent, and the armor on their bodies was constantly flowing with starlight.

Below, there are also some cultivators. Some of their appearances are similar to humanoids, and some are like exotic animals. In short, they are all kinds of strange, and their aura is below the level of the true **** and the master of the law.

Wang Yi, Luo Feng and Yuanzu first arrived and did not want to conflict with these soldiers. After hearing their words, they looked at each other and fell down.

A strange beast general at the city gate wearing a simple battle armor and exuding the breath of the true **** of the void seemed to sense the strength of the three, looked over, glanced at it, and said: "Everyone who enters the city, each person pays ten low-grade Chaos Stones. Or the corresponding treasures must be kept at a height of 10,000 kilometers in the city, and battles are not allowed, and by the way, they are not allowed to fly at high altitudes."

Wang Yi and Luo Feng's auras had already restrained and disguised as the Void True Gods. Naturally, the alien beast generals could not see anything, but thought they were three ordinary Void True Gods.

The Void True God is very strong, but it is naturally nothing here.

Wang Yi and the others also looked at this Void True God. After all, the Void True God is also a hegemon outside the Jin World Army, but here, he is the gatekeeper?

In the Origin Continent, the most important currency is the Chaos Stone. This is a kind of stone born in chaos, which contains special energy and is used as a currency for trading by all the forces in the Origin Continent. The Chaos Stone is divided into low-grade, Middle-grade, high-grade, and one hundred low-grade chaotic stones equals one middle-grade chaotic stone, and one thousand middle-grade chaotic stones equals one high-grade chaotic stone.

There are also chaotic crystals on it, one chaotic crystal... is equal to 10,000 top-grade chaotic stones.

To enter the city, you only need ten low-grade Chaos Stones, which are not expensive.

Wang Yi and the others did not have the Chaos Stone, so they just took out a few treasures to deal with it, and each got a token before they could walk in the city. Only then did they know that they had to pay ten low-grade Chaos Stones every 10,000 years in the city. will be expelled.

Obviously, even in the most common city in the origin continent, if you want to settle down for a long time, it is not possible for everyone to do it.

More people, more tribes, all gathered to form settlements outside the city. This kind of settlement has no security at all, so as long as possible, everyone wants to live in the city and live a stable life.

The three of them paid the entrance fee and walked into the huge city gate with a height of trillions of kilometers. Everyone's body was kept at a height of 10,000 kilometers. It is conceivable how majestic and tall the buildings here are.

"This street is so wide..."

"so big."

The original ancestors were all shocked by the scene in front of them.

The bustling streets are full of figures, all kinds of creatures, not only humanoids, humanoids are just one of the more common ones, and a large number of alien beasts and other creatures are mixed in it.

There are also groups of True God soldiers wearing quaint standard armors on patrol.

Wang Yi and the others quickly noticed that the tallest building in the center of the city.

"There should be the City Lord's Mansion." Luo Feng guessed.

Wang Yi glanced, "The city owner of Luofu City should be an eternal true god."

Looking at the scale of the city, you can roughly understand the strength and power of the city owner.

In the origin continent, the forces that can really stand on one side are at least the forces that have Chaos Realm (Chaos Master) in charge. As for the ordinary Void True God, or the eternal realm... maybe he will be killed that day. It cannot really stand firmly, it is not strong enough, and its foundation is not enough, and it cannot really form a party. Therefore, it is difficult for their city to form too large-scale, because of this, it is difficult to guard!

Where there is a city, there is order... So although there are many creatures in this street, they still remain peaceful and lively.

Like outside the city, the only order is the law of the jungle, precarious and very chaotic.

Of course, Wang Yi did not forget to sign in.

[Ding, congratulations to the host for successfully signing in, and rewarding the eternal true god-level unique skill 'Shahe Palm'.]

"..."

Since Wang Yi became the Eternal True God, according to the rules of the panel, he can only sign in for rewards above the Eternal True God level.

That is to say, like True God-level treasures and Void True God-level treasures, there is no need to think about it.

As for the name of the eternal true god-level unique "Shahe Palm", which is named after the earth, in Wang Yi's opinion, it is not garbage...and it is only a little better than garbage.

No use at all.

In fact, Wang Yi is sitting on the three top inheritances. He does not lack cultivation methods, but resources.

For example, the beast is a big money swallower.

For example, if the divine power of the divine body wants to increase rapidly, it also requires massive resources.

If you reach the scale of the God King, firstly, it will take a long time to accumulate, and secondly, it will require endless treasures.

"Cultivation for a while, to consolidate and improve the realm, then go to the burial site of Wu Guo's treasure and dig out the treasure." Wang Yi calculated in his heart.

Like the general Eternal True God, just breaking through, the secret technique level is the fourteenth level, and the more powerful fifteenth level is amazing.

When Wang Yi broke through, he was at the fifteenth level, and now he is almost at the sixteenth level.

When the realm is reached, the original **** is no longer there, and progress is naturally rapid.

According to Wang Yi's idea, he should not have any obstacles until he reaches the seventeenth order.

Self-created seventeenth-order secret method, which is considered to be the high level of the eternal true god.

In addition, Wang Yi has a breakthrough of 100,000 times the divine power that has never been done before by taking the divine body route.

There is also the incarnation of the beast to help comprehend the law, and it is not difficult to become the master of chaos.

It's just that no matter how good the talent is, it takes time to cultivate, and to the realm of the eternal true god, if you want to accelerate the cultivation space, it is difficult to maintain a thousand times the time acceleration for a long time, and you can only rely on yourself.

Wang Yi and the others walked together on the streets filled with countless creatures, and at the same time, various words came from their ears.

They are all common languages of ancient civilizations (the origin continent), and of course they understand it without hindrance.

"It's really unfortunate. I spent an epoch of reincarnation to search for precious herbs in the Eren Mountains. As a result, the team encountered two tribes fighting, and there were countless casualties, so I had to run back halfway. Hey, stop talking, go drink..."

"Huowubao, a large number of Huowubao, just fished out from the upper reaches of the Long Mirage River, are of good quality and low price, 30 low-grade Chaos Stones are available, and the price can be negotiated for large quantities..."

"Come and see, all kinds of ingredients, the true **** level, the master level of the law, the master of the law... everything is available, the price is fair, the taste is delicious, and it is guaranteed to make you linger."

Wang Yi, Yuanzu, and Luo Feng stopped in front of a building selling exotic animals and looked at each other.

"Lord of Laws, True God, ingredients?" Yuanzu murmured.

Wang Yi looked at the waiters in the store who were shouting to greet customers. The auras of these waiters were all at the level of true gods. There were also those creatures tied in chains and cages, some even in human form. The breath of the real **** level, and some real gods are not even.

Wang Yi shook his head, "In the Origin Continent, below the True God, all are ants."

Both Luo Feng and Yuanzu fell silent, filled with emotion.

In the sea of cosmos, the true **** is already a top existence, aloof, but here, it is the ingredients, the existence of slaves, it is conceivable, what life will be for those who live outside the city.

The environment of the origin continent is more dangerous and cruel than imagined.

The weak can become food at any time.

A waiter noticed Wang Yi and the three who were standing at the door of the store, and noticed the aura of the Void God on them. His eyes lit up immediately, and he greeted them with a smile on his face. "These adults, do you want to visit our shop?"

Wang Yi glanced at it and pointed at a four-hoofed, three-tailed and eight-clawed beast and said casually, "How much is this true god?"

The waiter smiled and said: "Sir, you have a good eye, this is the fresh product that has just been delivered to our store. It comes from the 'Chibi' from the swamp forest in the lower reaches of the Mirage River. Because of its delicious meat, it is welcomed by many customers. The big men in the city often come to us to buy." The waiter was a little proud.

Wang Yi now knows that the Mirage River refers to the vast river opposite the city. Because it is too vast, many forces similar to Luofu City are formed around the Mirage River.

"The price of this pool is 1,000 middle-grade Chaos Stone," said the waiter.

A thousand middle-grade Chaos Stones are worth a true god? Wang Yi just came to the Origin Continent and didn't know much about prices, but he also knew very well that in the Origin Continent, True God-level treasures were not very valuable, and a True God-level weapon might be less than 100 mid-grade Chaos Stones. And this pool is probably equivalent to ten true god-level weapons. Expensive, but not expensive. But looking at the size of this store, I don't know how many ingredients similar to "Chibi" are there.

To be able to open such a store in such a big city, it is estimated that there is some background.

"Is this Chili possessing wisdom?" Wang Yi asked again.

The waiter glanced at Wang Yi in surprise and answered honestly: "Of course, all creatures above the immortal level basically have intelligence. If you want to buy a guest..." He was a little elusive about the meaning of this adult. .

"I bought it." Wang Yi interrupted him, waved his hand, and took out ten true god-level treasures, "Are these enough for a Chibi?"

The waiter glanced at it, and immediately smiled and nodded again and again. "Enough is enough, my lord, how do you want to slaughter and cook this chili, our shop can do it for you, no other fees..."

Dare to love this true **** Chili really eat? Wang Yi shook his head. "I'll take this pool with me."

The waiter swiftly opened the cage that trapped Chi Li and grabbed Chi Li out. The alien beast with four hooves, three tails and eight claws had been suppressed and sealed. Wang Yi, felt despair in his heart.

"Sir, put it away." The waiter respectfully handed Chi Li over.

With a wave of his hand, Wang Yi took Chi Li away and left with the warm and respectful **** of the waiter.

The three of them walked on the bustling and prosperous avenue, but their thoughts were different.

"I didn't expect that this Origin Continent would actually look like this." Luo Feng shook his head, "It's more savage and cruel than I thought."

"But it's real, isn't it?" Yuanzu was very calm. "The strong eat the weak is the rule of the world. What we have to do is to keep ourselves from becoming the part that is dominated."

"By the way, Jiujiang, why did you buy this chili? You don't really plan to eat it, do you?" Luo Feng turned to ask Wang Yi, who was leisurely beside him.

"Of course not." Wang Yi looked around, then pointed to a quaint restaurant with many people coming and going. "Let's go there and sit down. This Chili is also a native of this place. If you live to be a true god, you should know a lot. We can ask him some things."

Yuanzu and Luo Feng looked at each other and nodded.

[Chapter 822: Baoliu Pavilion](#)

Wang Yi, Yuanzu, and Luo Feng approached the red-purple luxury high-rise building. It looked like a high-rise building, but it was actually made of a powerful treasure, but it looked like a high-rise building. Except for some furnishings, it was actually related to treasures. It is one body, it is the true **** of the void, and it is impossible to destroy it.

From the restaurant floated out the soul-relaxing music.

Above the gate hangs a signboard with the words engraved in the common language of the origin continent: Dragon Mirage Restaurant.

"This restaurant has three floors." Wang Yi looked up.

The three walked into the door, and their eyes lit up.

The lobby on the first floor of the restaurant is very spacious. There is a galaxy dotted with stars on the top of the head, which is like a dream.

There are mountains and rivers, snow forests, lakes and deserts in the hall space, forming a spectacular and beautiful scene.

There were some guests scattered on the seats in the hall, and their positions were shrouded in white mist, looming, even if there was no sound, only some strange figures could be seen.

There are also some strange creatures talking and walking around here.

"Where are we going to sit?" The three Wang Yi, who had just arrived, looked at the situation here curiously.

Soon, under the guidance of the waiter of the restaurant, the three of them came to the quiet and elegant second floor, a private room. The second floor was equipped with fire crystal lamps, and the dim light of the huge celestial bodies in the crystal lamps shone... The crystal lamps in the room are blue light, some are purple light, some are blue light, the whole second floor of this restaurant is like a dream.

After the waiter served the wine and dishes, he stepped back respectfully. The three of Wang Yi sat at the wine table and looked down at the "delicious" wine and dishes. Luo Feng smiled and said, "After eating these, you won't have diarrhea, right?"

Wang Yi smiled lightly: "The most poisonous, probably not diarrhea."

It is rare to poison the Void True God, and it is estimated that this restaurant will not deliberately take it out.

For the Void True God, there is no need to eat, that is, to eat a taste.

The original ancestor didn't care what they said, took a sip first, and his eyes lit up. "This dish tastes good."

Wang Yi and Luo Feng looked at each other, and they both tasted and nodded. "It's really good."

Wang Yi looked at the various creatures on the street outside the window, and the guests entering and leaving the restaurant, and sighed: "This restaurant has some ability to make this kind of wine and food that satisfies all kinds of creatures."

Luo Feng ate and drank, and said, "It's a bit expensive, and even this table will cost hundreds of low-grade Chaos Stones."

Wang Yi smiled and said, "The waiter said that the second floor is a bit more expensive, but most people actually eat on the first floor."

"Then next time we go to the third floor to eat."

The three are all super strong from the sea of cosmos, and they are still very special. One or two don't care about the consumption of this restaurant.

Like the original ancestor as one of the highest leaders of the human race, the ancestor of a family, the human race is so rich, his savings cannot be less, I am afraid that he is much richer than many void true gods in the origin continent.

After eating and drinking for a while, Wang Yi waved his hand, and the four-hoofed, three-tailed and eight-clawed beast 'Chili' appeared beside him. It looked a bit like a crocodile, but with white fur and black eyes. "The terrifying Void True God seems to see his miserable end.

"Tell me all the information you know about the forces surrounding the Dragon Mirage River." Wang Yi said lightly.

...

In the center of Luofu City, there is an incomparably vast city lord's mansion, numerous buildings, and teams of True God sergeants are patrolling and guarding, and there are countless maids and servants walking carefully here.

Inside the City Lord's Mansion is the residence of the City Lord's clansmen. In the middle area is a super luxurious palace. Outside the palace, there are four True Gods of the Void and a large number of elite True God sergeants guarding them.

In the very luxuriously decorated palace hall, a pitch-black phantom sat there. Under his influence, the surrounding space was rendered completely black.

"Humph." A cold humming sound came, and the dark phantom suddenly opened its eyes. It was a pair of empty eyes lingering with endless purple thunder. There was nothing but endless thunder and lightning flashing.

"The owner of the Dragon Mirage River is getting more and more greedy. The regular tribute is enough to cause headaches, and there are so many demands..."

Luofu City, in the surrounding area, is already a big force.

But there are still many forces like it. These forces are all distributed around the Long Mirage River. As long as they are not too far away, they will be affected by the Long Mirage River.

And Long Mirage has a master!

On the banks of the Long Mirage River is a great and vast country "Bao Liu Kingdom", and farther, farther away, is another extremely ancient and powerful country "Fan Bei Kingdom".

The two kingdoms were established by **** kings. They seem to be very close, but in fact, a large area is vacated. It takes a lot of time for the eternal true **** to pass through these areas. These areas serve as a buffer for the forces of the two kingdoms and are occupied by many powerful beings. Dragon Mirage is one of them!

And it is still a particularly powerful one, so powerful that no one dares to resist the surrounding forces!

For a long time, those who dared to resist were all wiped out!

A thin middle-aged man in a loose purple robe walked out of the dark phantom, with a gloomy expression, pacing the palace.

"The warehouse of the City Lord's Mansion, because I went to Huo Ding City to buy that thing not long ago. It's almost consumed, and there are not many treasures left. I have to think about how to deal with this tribute." The middle-aged man frowned and thought. .

"The owner of the Dragon Mirage River is too scary, and the tribute must be dealt with." The city owner of Luofu thought of the ancient existence lurking in the giant river, and some of his heart shivered, even if he was an eternal true god, he did not want to face that.

"If there are not enough treasures, let the living creatures replace them. As long as that person's appetite is satisfied, everything is easy to talk about. Let's deal with this time first..." The Lord of Louvre's eyes flashed a cold light.

"Come on!"

...

Wang Yi and the others walked out of the restaurant and walked on the bustling streets, obediently following the true god-level creature 'Chi Li' beside them, just like following a puppy pet.

Forced by the life-threatening situation, the true **** creature 'Chi Li' was very clever and bowed to Wang Yi's command, and he was a little overjoyed.

If there had been a Void True God as the master, he would not have been caught and used as a food ingredient.

Wang Yi and others soon came to a magnificent building in the city.

Baoliu Pavilion.

Any city with a slightly larger power around the Baoliu Kingdom will have the Baoliu Pavilion, because behind it... is the Baoliu Kingdom.

From the newly received servant 'Chi Li', Wang Yi knew a lot of information about the surrounding forces.

Gu Yu is like Baoliu Pavilion, because behind it is the entire Baoliu Kingdom, in this area, no one dares to offend.

And Baoliu Pavilion will not interfere with those local forces. What they do is business, and they do business in other countries, that is, in endless and distant areas, they are all present.

"This is Baoliu Pavilion?" The original ancestor of the man in white robe, Luo Feng, a young man in black with short hair, and Wang Yi with long hair in red robe stood side by side in front of the magnificent, beautiful, and splendid building. Head exclaimed, "Really stylish."

There are many buildings in the city, but none of them are taller than this Baoliu Pavilion... Even the tallest and majestic City Lord's Mansion is comparable to this Baoliu Pavilion. It can be seen that Baoliu Pavilion doesn't care about any Luofu City Lord at all.

Wang Yi could feel that the building was shrouded in layers of magic circles, and even the line of sight couldn't penetrate it, and he was amazed at the heritage of the Baoliu Pavilion.

You must know that the one here is just a branch at the bottom of Baoliu Pavilion, but even the Eternal True God can't see the truth, so it can be seen that Baoliu Pavilion is well-deserved.

"Go, go in." Wang Yi and the three walked into the Baoliu Pavilion.

The two true **** guards at the gate of Baoliu Pavilion glanced at Wang Yi and the three of them, but did not stop them, and even gave a smile and salute.

The building occupies a very wide area, and above the shop are two quaint characters - 'Bao Liu'.

"Three guests, please come in quickly." A beautiful maid came to greet him.

Wang Yi glanced at the maid, it seemed that she was not an ordinary life, but a puppet-like existence.

In the continent of origin, it is very common to make puppets to deal with chores, because puppets are loyal, not as complicated as practitioners, and can guarantee loyalty, so some more important private things are handled by puppets, of course, they are also used for combat. However, the puppets that reach the Chaos Master level are very rare. Wu State once had three extremely rare Chaos Master-level mechanical puppets, but two were destroyed in the war when the kingdom was destroyed, and the last one remained in the Wu State. In the treasure, waiting for Wang Yi to take it away.

Chaos master-level puppets are very difficult to refine, and it is difficult for ordinary **** kings to get one. The reason why there are three in Wu is that the monarch of Wu made it himself, but because the cost is too high, only three are refined. .

The three of Wang Yi walked in. The first floor of the shop was quite vast, and there were corridors and twists and turns inside, but their eyes could easily pass through the obstacles of many voids, and they could see the treasures everywhere on the first floor, and they could feel the countless treasures. The brilliance spreads.

"On the first floor, it is the level of true god-level treasures." The beautiful maid took the initiative to introduce them to the three. "On the second floor, there is the Void True God-level treasure, and the third floor is the Eternal True God-level treasure."

Wang Yi and the others wandered around at will. There are some ordinary treasures here. Wang Yi and the others don't need them. They just watched something new. Wang Yi looked at it for a while and said, "I wonder if you accept treasures here?"

"Our Baoliu Pavilion does have the business of collecting and selling treasures." The beautiful maid smiled, just like a real person. "Customers can sell their treasures to us if they need them. If they are not satisfied with the price, they can also sell them on consignment here. If they are sold here, our store only charges 5% of the fee."

The beautiful maid's face was filled with the expression "our shop is professional and trustworthy".

"We do have some treasures that we would like to sell with you."

"Then please come with me."

The beautiful maid took Wang Yi and the three to the other side of the corridor, in front of a cyan wooden room with a faint glow.

The door opened automatically, and a voice came from inside. "The distinguished guest is here, welcome."

In the room, it was empty, with only one futon. On one of the futons sat an old man with long eyebrows and a bald head in a gray robe. A tail stretched out from behind him. His eyes were also vertical green pupils. A peaceful smile.

It is a Void True God, not a puppet.

"Lord Alva, these three guests are here to sell treasures." The maid said respectfully.

The bald old man nodded, "I see, you go down, I will entertain these three guests." Then he made a gesture of invitation to Wang Yi and the others. "Three please sit down."

The three of Wang Yi sat down, and the petite servant 'Chi Li' lay obediently at Wang Yi's feet like a pet, and the bald old man said, "The three guests are a little strange, aren't they near our Louvre City? "

Wang Yi smiled and said, "Our three brothers traveled to the Long Mirage River from other places."

"I see." The bald old man smiled and said, "I don't know what the customer wants to sell?"

Ordinary guests, he does not receive, but the three in front of him are all Void True Gods, and they are qualified to let him receive them.

Baoliu Pavilion is also looking at the dishes. If it is the Eternal True God, even if it sells True God-level treasures, it will be received by important people in Baoliu Pavilion.

"This is the treasure I want to sell, look at how much it is worth."

Wang Yi didn't say much. With a slight wave of his hand, there were hundreds of treasures in front of him, each of which was above the level of a true **** in the void, and a powerful coercion filled the room, but the room here has a special structure and is arranged in a formation. , This coercive breath can't be leaked at all, and the four people present are the Void True God, and they can easily bear it.

The bald old man took a breath. UU reading www.uukanshu.com

He has seen a lot of Void True God-level treasures. Even if Eternal True God-level treasures are not unseen, it is rare for a Void True God to take out hundreds of Void True God-level treasures at once.

After saying "I'm sorry", the bald old man began to look carefully one by one, and soon, he read all of them.

"If the customers sell all these treasures here, we are willing to pay the price of 150 million low-grade Chaos Stone," said the bald old man.

"Too few." Wang Yi shook his head, "At least 300 million."

"Three hundred million? That's too much." The bald old man shook his head, "Our Baoliu Pavilion is the largest store in the city, and the price we give is very fair. So, it's the first time you come to me to do business, two hundred million, this is my bottom line."

Wang Yi calculated in his heart that an ordinary True God weapon could be less than one hundred middle-grade Chaos Stones, that is, several thousand low-grade Chaos Stones.

The price of Void True God-level treasures is ten times and dozens of times that of True God-level treasures.

Therefore, the same Void True God-level weapon can be sold for tens of thousands to hundreds of thousands of low-quality Chaos Stones, and the best-quality ones can even be sold for millions of dollars.

The Void True God-level treasures that Wang Yi took out were of different quality, good and bad. If a hundred pieces were added up, even if they were hundreds of thousands, they would be tens of millions.

200 million is not too small, and it is also Wang Yi's psychological expectation.

but...

Wang Yi looked at the bald old man, "I can accept 200 million, but I want all the most detailed intelligence and map information about the surrounding countries from your store."

The bald old man was a little surprised, but after a little thought, he agreed immediately.

"make a deal."

intelligence information? No money at all. Even if it is a bonus, they are not at a loss.

[Chapter 823: Castellan](#)

The vast and boundless Luofu City stretches for thousands of light years.

"Guests walk slowly, welcome to come again next time." Under the respectful delivery of the beautiful maid, the three of them, Wang Yi, who had sold out the treasures, walked out of the gate of Baoliu Pavilion.

At this moment, a group of True God sergeants wearing sky blue scales flew over aggressively at the end of the street, headed by a powerful Void True God.

When he saw Wang Yi and the others, his eyes narrowed.

"It's them."

"According to the order of the Lord of the City, none of the Void True Gods from inside and outside the city can be let go." The Void True God's mind turned, "However, the Lord also said, don't cause too much trouble."

"Three."

The Void True God spoke up.

Wang Yi and the three had already noticed the oncoming sergeant, and when they heard the words of the Void True God, the target seemed to be them, so they couldn't help being a little surprised.

The sergeant of the brigade stopped under the leadership of the Void True God, and looked at Wang Yi and others with cold eyes. The crowd around them quickly dispersed for fear of being affected, and the Void True God came over with a smile on his face. "Three, hurry up and go, our Lord of the City has invited you, please come with us."

"Lord City Lord?" The three Wang Yi were a little surprised and looked at each other.

"We don't know Lord City Lord, and we don't know why Lord City Lord summoned us?"

"I don't know about that." True God Void shook his head and looked at Wang Yi and the others. "But the adults have asked, you won't lose face, right?" There was a hint of threat in his tone.

Those True God sergeants in the back are also ready to go.

"Wang Yi, look..." The original ancestor sent a voice transmission to Wang Yi. Among the three, Wang Yi is the strongest and has the incarnation of a world beast, so Wang Yi is naturally the main player in the action.

"This city is decorated with patterns and the space is blocked. It's not that easy to leave." Wang Yi's voice transmission. "And the city owner is in the city, and it is easy to control the situation in the city. Don't rush to do it first, let's see the situation and then talk about it."

"That's right, the city lord is in the city and he really wants to do it, so he won't send someone over to invite us. It's a bit unnecessary." Luo Feng agreed. "I just don't know what he asked us to do in the past. Logically speaking, we don't know the city owner at all."

The three were a little puzzled, wondering about the intentions of the Lord of Luofu.

"Everyone should be careful, let's go and take a look first."

The three finally agreed to go to the City Lord's Mansion with the sergeants.

On the way, they also saw that some of the void true gods in the city were taken to the center of the city by a team of sergeants in sky blue armor, and they were even more curious, not knowing why the city lord was looking for them.

Those Void True Gods are very honest, because they know that in this Eternal True God's lair, it is impossible to escape.

A thousand-light-year-old city is still too small for these True Gods of Void and Eternal True God. If they can escape in the wild, in the city, I am afraid that they will be suppressed before they can escape.

"Brother, what do you think the city lord is looking for us to do?" Not far away, a team of blue-armored sergeants "surrounded" two true gods of the void in the shape of alien beasts and flew over, one of them had black hair with curved horns on its forehead. The alien said in a low voice.

"You ask me, how do I know." Another white-scaled beast, Life, flashed a trace of worry in his eyes. "The Lord of Luofu City, but the Eternal True God, has dominated the surrounding area for a long time. We

can't resist such a strong person." He looked around, and then sent a voice transmission to his brother. "Be careful, if we find that the situation is not right, we will use the treasure to run immediately."

Every Void True God who was 'invited' over was uneasy and came over.

...

After flying for a while, the team of sergeants who took care of Wang Yi and the others also began to fly downward, towards the huge and luxurious palace complex. This is the palace of the city lord and where the city lord's family resides.

After swooping down, the team stopped in front of the gate of a side hall.

"Good guy." Wang Yi's eyes swept away, there was a row of legionnaires wearing black scale armor standing at the entrance of the hall, but the breath they exuded was the breath of the Void True God!

"Twelve true gods of the void are guarding outside the temple?" Wang Yi secretly wondered, "What is the intention of this city lord who brought us here for no reason?"

Wang Yi waited for the Void True Gods to be brought into the spacious palace, arranged for a seat, and waited quietly.

During this period, another Void True God was brought from all over the city.

Soon, a large group of Void True Gods gathered in the palace.

"Brother Shetu, are you also brought here?"

"Brother Kuice, you too."

"I don't know what the city lord called us to come here."

"Hope it's all right."

"This city owner is also really. He called us over, but he didn't even entertain him, and he didn't even have a cup of tea."

Some of the Void True Gods in the hall were discussing, some were worried, and some were dissatisfied.

Some people have also discovered that the Void True God brought here is not from the city, but from outside the city, and they are even more uneasy.

Time passes slowly.

Suddenly, the huge hall door of the palace closed with a bang, all the Void True Gods were startled, and a figure suddenly appeared in front of the main seat.

It was a thin middle-aged man wearing a loose purple robe, surrounded by a layer of shadow that seemed to be substantial, and the thunder and lightning of endless destruction lingered on him.

The two eyes swept across the hall like electricity, making those Void True Gods feel a huge pressure coming towards them.

"This is the city lord of Luofu City?" Wang Yi stared at the middle-aged man. "Sure enough, he was so strong that he easily suppressed all the Void True Gods as soon as he appeared, and he was indeed the Eternal True God."

"Everyone." The thin middle-aged man spoke, his voice cold and indifferent, and the dozens of Void True Gods below fell into silence. "I called everyone here this time because of one thing."

Nonsense, are you going to call us over? Some people thought to themselves, but no one dared to say it.

An Eternal True God can easily sweep a group of Void True Gods, not to mention that this is Luofu City, the territory of the Lord of Luofu, and countless troops are besieged, even the Void True God is difficult to resist.

"Not long ago, I found that an important treasure in the mansion was missing." The Lord Luofu's face showed anger, and then he looked at the people in front of him, "The treasure should have just been stolen, I suspect that the perpetrator is among you. "

A group of Void True Gods suddenly looked at each other.

Then there was a commotion.

"My lord, you are wronged!"

"My lord, I just entered the city and have never been close to the city lord's mansion. The boss of Huoyunzhai in the city can testify. If you don't believe me, you can check it out..."

The Void True Gods defended loudly, and none of the Void True Gods were willing to be charged with stealing, wouldn't that be fatal.

"Shut up!" Louvre City Lord shouted, "Isn't it, I'll know after I search!"

"Now! You have banned your own divine power, and let me search your divine body and treasures. If you are innocent, I will naturally release you. If you resist, hum, you are ill-intentioned and the perpetrator. Don't blame the city lord for being ruthless!"

The words of City Lord Luofu made the faces of those Void True Gods change greatly.

Self-banning divine power, isn't that letting others be slaughtered?

And the city lord of Luofu suddenly called them over and said that he wanted to catch the thieves. Who believed this?

There was silence in the arena, and the City Lord Luofu sneered as he looked at the unresponsive true gods of the void. "It seems that you are all unwilling? Then I will do it myself!"

One of the crowd, a short and weird-looking Void True God suddenly shouted: "Everyone, this Louvre City Lord has evil intentions, let's escape!"

Several more Void True Gods have inspired treasures and various means, ready to escape from the land of right and wrong.

"Escape?" The Lord of Luofu looked indifferently.

"Wow!"

Louvre City Lord burst out.

The surrounding world suddenly began to change color, a terrifying force began to permeate, and the sky began to become chaotic.

Suddenly, a vaguely transparent membrane wall, a huge cosmic membrane wall was formed in the far outer periphery of the entire city lord's mansion.

"It's a small universe."

"It's a small universe of the eternal true God."

Every one of the Void True Gods in the palace feels great pressure. The Eternal True God can form a small universe with a single thought, and with the help of the small universe, it can exert super strength. However, it is still difficult to kill a Void True God solely by virtue of the coercion emanating from the universe itself.

The Lord of Luofu said indifferently: "I'll give you one more chance now, and let me search, otherwise... don't blame me for being rude."

"What the **** is going on here, the Lord of Louvre." A white-headed old man with a goatee beard looked ugly.

"The situation is not right, we have to find an opportunity to escape." A pair of alien brothers looked around, seeming to want to see the situation at the scene.

Outside the palace, a large number of blue-armored true **** sergeants have been surrounded by three layers and three layers. At the same time, these true **** sergeants have formed a large formation. Tens of thousands of true **** sergeants are like one body, and their strength is condensed together, so that the space is completely blocked. The aura of power like the boundless sea was transmitted mightily.

At the front, there are more than twenty true gods of the void, who are the subordinates of the city lord, and this time they are also mobilized.

Wang Yi glanced outside and narrowed his eyes. "It seems that the City Lord Luofu is for real." Wang Yi didn't care whether the City Lord Luofu really caught the thief. If he really did what the City Lord Luofu said, it would be a joke.

The Void True Gods in the palace are all ugly. A single Luofu City Lord, they are not necessarily opponents, there are so many troops outside... Luofu City Lord is going to catch up.

The City Lord Luofu seemed to have no intention of speaking any longer, so he started directly.

The incomparably terrifying pressure surged, instantly covering all areas that are trillions of kilometers away from the true gods of the void, in the sky, around the ground! This area has been shrouded in the small universe of Lord Louvre, and there is no escape!

"Boom~" "Boom~" An endless gathering of violent powers condensed huge dancing purple vines out of thin air within hundreds of millions of miles around! This terrifying long vine, with a lot of purple

thunder and lightning lingering on it, all surrounded the void gods from all directions for a while, and the void gods only felt that the surrounding sky was suddenly dark. Countless vine branches and leaves shrouded him.

"what!"

"City Lord Luofu!"

"Let's join forces!"

The huge vines that seemed to be connected to the ground were rapidly approaching them, which made them change their color.

One after another, the Void True God was furious and forced to fight back.

The palace, which is 100 million kilometers long and wide, was immediately filled with violent power. The next moment, it exploded with a bang. In the flying debris, strips of purple long vines flew out like dragons, and at the same time, there were also the Void True Gods in a state of embarrassment. It flew out and spread out in all directions, trying to escape from here.

"Kill!" The army of the true gods guarding outside started. The sergeants who had been prepared for a long time were full of murderous aura. I saw countless rays of light appear out of thin air. All the sergeants burned their divine power together, and their divine power was boiling. These tens of billions of kilometers are undulating, making the void dreamy and colorful.

These rays of light are like water currents, under the control of the sergeants, their power surges, and they quickly flock to the Void True Gods scattered around.

At the same time, the Void True God Commander of the City Lord's Mansion also took action, entangled in one target.

The purple vines are trapped, the army of the true gods is blocked in formation, the masters of the true **** of the void are entangled... and there is a terrifying eternal true god! The Void True God present is in crisis.

"It's really unfortunate, how could such a thing happen." A strong man with a burly human figure on the upper body and a snake body on the lower body secretly complained in his heart, and waved the battle axe in his hand to fight those huge vines. His battle axe was fierce. Incomparably chopped on the long vine, but only left one after another wound, not a single one was cut off, but shook him unsteadily.

"This vine is so powerful." The strong man's expression changed.

"Come on!"

"Don't stay here for long!"

The Void True Gods around them tried their best to resist.

"brush!"

The crystal creature, who was fighting against a few purple vines and a true master of the City Lord's Mansion, and at the same time resisting the siege of the army, suddenly felt a powerful force approaching at an extremely high speed. "not good!"

"Peng!" A purple whip shadow appeared beside him like a teleportation. The crystal creature couldn't dodge at all. He only had time to summon a few silver crystal shields, and was drawn by the purple whip shadow. The silver crystal shield quickly appeared with dense cracks, and it shattered in an uproar. Countless ice crystals flew into the whip shadow and pulled it into the air. The vine was entangled and disappeared.

"Peng! Peng!" The long vines twisted around like a python to form a huge cocoon, and there was a huge vibration inside, obviously the Void True God was still struggling.

The indifferent and murderous Lord Luofu appeared beside it, glanced indifferently at the ball bound by the vines that kept shaking, and then looked at the others.

"City Lord Luofu!" The surrounding True God Void looked ugly, his heart sank, and an Eternal True God personally shot, how could they resist.

"You don't eat or drink for a toast, and you all stay today." City Lord Luofu sneered and rushed to the direction of another Void True God. , Desperate to fight, was suppressed in an instant.

"Huh!" In the chaotic battlefield, at this moment, several huge vines were dancing and approaching Wang Yi, Yuanzu, and Luo Feng who were standing together at high speed.

Louvre City, when the vaguely transparent, huge cosmic membrane wall rose from the direction of the City Lord's Mansion, it was also seen by the entire city.

"It's a small universe."

"In the City Lord's Mansion, could it be Lord City Lord?"

"What happened? Could it be that the Lord of the City is fighting with others?"

Countless city residents were shocked.

Baoliu Pavilion, the highest floor, a golden-robed black-haired old man walked to the open-air railing, looked at the cosmic membrane wall in the distance, and shook his head. "This Luofu City Lord is getting more and more outrageous." As the person in charge of Baoliu Pavilion in Luofu City, he was well informed and vaguely guessed what Luofu City Lord wanted to do.

All parties in the city were attracted by the movement of the City Lord's Mansion, and the battle in the City Lord's Mansion also reached an extremely fierce juncture.

"Wow!"

"Wow!"

Wang Yi looked at the purple vine that was strangled and sighed, "I knew it would be bad for me to come here."

Yuanzu and Luo Feng didn't make a move, they just stood behind Wang Yi and waited to watch the show.

A simple blood-colored stone knife appeared in Wang Yi's hand, with divine power burning, Boom! In the next moment, a powerful momentum surged out.

His face was calm, his eyes were as deep as water, and he slashed straight ahead. What the naked eye could see was that the space was distorting. The huge vines burst one after another, and then completely turned into powder, and finally reached the point where it was difficult to detect with the naked eye. .

"Huh?" The thin middle-aged man in purple robe who was taking action to suppress a true **** of the void suddenly noticed the mourning of his own plant life conveyed by his soul. He turned his head sharply, and saw the long-haired young man in red robe in the distance. The sword was retracted, and his eyes looked over with a smile that was not a smile.

The middle-aged man frowned, feeling a little suspicious in his heart, "My purple electric vine is a true **** of the void, not to mention its huge size. In terms of defense, although it is a bit worse than those who specialize in defense, it is not an ordinary true **** of the void. Can destroy, who is this guy?"

Wang Yi, who disguised as the true **** of the void through invisible changes, even the Lord of Luofu, can't see any flaws.

At this time, there was chaos all around. The battle of the Void True God, the battle between the Void True God and the ordinary True God army, became more and more intense, and it had expanded to most of the city lord's mansion.

"Kill!" The two black and white beasts charged towards the outside frantically.

In front of them was a large group of true gods flying over, and they were not afraid to see two empty true gods rushing over.

"Defend the enemy!" With an angry shout.

"kill!!!"

Bang bang bang bang - these true **** sergeants are all burning with divine power, and at the same time, there are mysterious patterns on their armor, and their strength is linked to each other, like one body, the breath of each true **** sergeant is stronger than ordinary true gods. many! This is the effect of the "Army Formation", which is the true **** battle formation that has been passed down in the origin continent for a long time and has been tested by countless cruel wars, which can fight against the void true god.

"Go away! Otherwise, don't blame us for being ruthless!" Two alien beasts, the Void True God, roared, and their bodies swelled suddenly. Two giant beasts with a height of 10 billion kilometers suddenly appeared on the battlefield, one lingered with endless white light, and one by one pitch-black sword bones pierced into the sky, savagely revealed, and crashed into the army formation.

"The city owner has an order, none of them are allowed to go away! Brothers, kill!"

"Yes." The large group of True God sergeants behind them turned their hands one by one, and all took out chains in their hands. Wow wow wow... This team consists of hundreds of elite soldiers from the city lord's mansion, all of them have secret patterns on their armors, their breaths skyrocketed, and they all turned into streamers to besiege. At the same time, he threw out the chains in his hand, and at a time, hundreds of chains crisscrossed each other, as if the net of heaven and earth shrouded the two alien beasts, and they were completely bound.

This chain is also a special weapon of the army. Once it is bound, the divine power and the 'True God's Heart' will be banned, and there is no way to escape.

The two giant beasts were anxious, roaring in the sky, one spewed out dazzling white light, swept across the void, and the other with dense black sword bones shot in all directions like arrows, trying to break through the siege, but most of those attacks were made by the Eternal True God. The universe was weakened, and it was stopped by the purple vines, chains, and the surrounding army formation field, and even the soldiers of the true gods could not be reached.

The two giant beasts rushed left and right in the chain, and the roar came from the sky.

Even if these Void True Gods cast the Void Domain, they are barely able to defend themselves against the small universe.

And the other Void True Gods were either intercepted by the Void True God Commander of the City Lord's Mansion, or stopped by the True God Army, and no one could rush out.

The city lord Luofu in the air glanced at the surrounding battle situation, saw that the situation was stable, and then his eyes fell on Wang Yi, who had a calm expression, his eyes were a little dignified, and then he smiled coldly. "The strength is good. If you are outside, you may have a chance to escape, but unfortunately... this is my site."

There was a trace of violence in his eyes.

"Wow!" A deep purple soft whip with the thickness of an arm, entwined with lightning, stretched out of nothingness, the whip suddenly swung, and it slapped Wang Yi like a poisonous snake!

The power was so great that the whip's whip made the entire space continuously vibrate.

At the same time, countless thunderbolts were born, and the 'miniature power of the origin of the universe' was heavily oppressed to Wang Yi's side.

The pressure on the battlefields in other areas suddenly lightened, and those Void True Gods couldn't help but look over.

"The Lord of Louvre is dealing with the man in red."

"Those three guys are miserable."

"Take this opportunity to run."

In the small universe filled with chaotic airflow, in the ubiquitous chaotic airflow, a red-robed long-haired man looked up at the purple whip shadow that seemed to be a thunder dragon roaring but had a sinister power. Flying behind him, his eyes became sharp.

"Very good, I came to the Origin Continent, and this is the first time I have played against the Eternal True God!"

Behind Wang Yi, six pairs of gray wings appeared, they were the wings of chaos, and they displayed a thought of cosmos. For a time, the surrounding space instantly turned into an endless chaotic airflow, and at the same time, a fiery red bead was suspended in front of Wang Yi, the eternal true god-level mechanical field-like treasure "Yanhaizhu", which caused a monstrous sea of blazing fire to form around him.

He is the Eternal True God now, and the Chaos Master-level treasure exchange has been opened on the panel. Now the treasure level on him is much higher than before.

The higher the treasure level, the stronger the natural power. In addition, Wang Yi is the most perfect legendary small-sized universe with a diameter of 100 billion light-years. The origin of the small-sized universe is actually much stronger than the Luofu City Lord in front of him. The power of the small universe is related to the strength of the caster and the origin of the small universe. Wang Yi's powerful small universe, coupled with the time and space control of the chaotic wings, the impact of the eternal real god-level mechanical field treasure can easily crush this Luofu City Lord.

After all, the Domain Treasure of the City Lord Luofu is nothing but an ordinary Domain Treasure of the Void True God level, and it is not a mechanical treasure, let alone an Eternal True God level Mechanical Flow Treasure.

The gap is too big. When confronted, City Lord Luofu felt that his small universe was shaky and his eyes widened.

"Rumble~~~" The endless waves of fiery flames mixed with the power of the origin of the universe, impacted the surrounding lightning and chaotic airflow, instantly forced it back, and swarmed frantically to the rest of the city.

"Peng!" The purple whip shadow was instantly scattered. The figure of the city master of Luofu flickered, looking at the scene in shock, and said, "You are the eternal true god!?"

In the endless fiery red waves, an indifferent voice came, "You know it's too late."

The endless sea of fire, the small universe, and the light of the chaotic wings of time and space, the territory of the Lord of Luofu, which is suppressed by the three, keeps shrinking crazily.

And all around, those who fought fiercely were also involved.

"what?"

"This..."

"Another mini-universe?"

"The Second Eternal True God?"

The Void True Gods who were deceived, the Void True God Commander of the City Lord's Mansion, and the thousands of True God Soldiers who formed battle formations all looked in shock at the endless sea of fire that pervaded the surroundings, and the monstrous black man who confronted the Lord of Luofu. Stronger.

"How come there is an unfamiliar eternal God among these people?"

"And it seems that the city lord seems to be suppressed by him."

"How is that possible. Our city lord..."

The subordinates of Lord Luofu couldn't believe it.

And those Void True Gods who were in a desperate situation were overjoyed.

"It's saved."

"There is no way in the sky, I didn't expect that there is a senior eternal true **** among us."

"Then the city lord of Louvre has to take care of himself now."

"Take this opportunity and go quickly, if the Eternal True God fights with the Lord of Luofu City, we will be in danger here." A voice sounded, awakening the stunned people.

"right."

"Come on."

I can't bear to continue fighting, seeing that the two eternal true gods are about to fight, whether it is the ambushed true gods of the void or the subordinates of the city lord Luofu, they all stop and leave quickly.

Eternal True God... That is another level. It is not something that these Void True Gods and True God sergeants can fight against. Even the aftermath of the battle may make them deadly.

Wang Yi didn't care about the others, all the orders were given by the city lord of Luofu, and he didn't go out of his way to embarrass those soldiers who obeyed orders.

For other eternal true gods, it is difficult to kill the Void True God with a single thought of the universe, but it is still very easy to kill these Void True Gods and True God sergeants with the help of Chaos Wings Domain, Small Universe, Yan Haizhu...

However, Wang Yi doesn't like meaningless killings.

Louvre City, thousands of light-years away, the entire city has been completely shrouded in Wang Yi's small universe, only a small part is the domain of the Louvre City Lord, obviously... the Louvre City Lord has completely fallen into the disadvantage of the domain confrontation.

On the top floor of Baoliu Pavilion, the golden-robed old man looked at the scene in shock, his eyes filled with wonder. "Another small universe? It also suppressed the small universe of Lord Luofu. Which eternal true **** is this?"

Many forces in the city were shocked. Countless people looked in the direction of the city lord's mansion, terrified in their hearts. If the Eternal True God fought here, it would be a disaster. I don't know how many people would die.

"Flee." Countless people rushed to flee outside the city, even those guarding the city.

The entire Louvre city was in chaos.

In the city, the chaotic airflow permeated the edges, the endless fire inside was surging, and the thunder and lightning had been forced to a corner. The Lord Luofu looked coldly at the black-haired red-robed man opposite, and slowly said, "Okay, very good, it's me. I looked away, but I didn't expect that a dignified Eternal True God actually disguised as a Void True God and mixed in in front of me."

Wang Yi also said, "I didn't expect that the famous Luofu City Lord, the Lord of a city, would be so despicable, to frame some common void gods, it really opened my eyes."

A cold light flashed in the eyes of City Lord Luofu. But seeing the surging fire waves around him, he felt a deep fear in his heart.

Although he couldn't recognize the treasures on Wang Yi's body, he also felt that it should be two mechanical treasures. An Eternal True God actually has two Eternal True God-level mechanical treasures. They are already extremely powerful at the same level. I have the confidence to protect myself, but I don't want to rashly collide with such a strong man. What's more, this is the old nest that I have been running for many years. When a fight occurs, no matter what the result is, my own nest will probably not be safe.

After being silent for a while, the city lord of Luofu said, "This is indeed my fault, but I also have my own reasons... Although it is a misunderstanding, since I have collided with Your Excellency, there is something wrong with this City Lord. In this way, I apologize to Your Excellency and send a gift. Apologize, how did this happen?"

The Lord of Louvre thought that his attitude was already very good.

Bowing your head to apologize is not so easy for an eternal true God. If it were an ordinary Eternal True God, City Lord Luofu might have been shot directly, but Wang Yi has many powerful treasures on his body, and he is so imposing that City Lord Luofu is a little bit incomprehensible, and he doesn't want to take any risks, so he wants to apologize and calm down.

"Haha...Apologize?" Wang Yi laughed loudly, and the laughter echoed over the city, full of inexplicable mockery.

City Lord Luofu's face sank, and he looked at Wang Yi coldly.

"Do you want to continue to fight with the city lord? Or do you want to come forward for those Void True Gods?"

"No, I'm only interested in you, City Lord Luofu." The black-haired man looked at City Lord Luofu with a smile, a smile on the corner of his mouth, and said softly. "I want to know what it's like to kill an Eternal True God."

"I'm not ashamed!" The Lord of Luofu was enraged. "Since you want to court death, this city master will fulfill you!"

"Boom!" Divine power burns! The aura of City Lord Luofu instantly reached an astonishing level, with thunder and lightning.

City Lord Luofu understands the origin of thunder and lightning, and is best at speed and destruction.

Comprehension of origin is different, and it also affects strength.

Wang Yi chuckled, UU reading www.uukanshu.com "God burning? I will too." Boom! The vast fluctuations of divine power erupted from Wang Yi, and the entire space seemed to be in turmoil, like a tsunami.

A long time ago, Wang Yi mastered the third level of the "Destruction" secret technique. Now, in the past billions of years, he has broken through the eternal real god, has a higher realm, and has been able to master the higher-level burning magic power secret technique.

The secret technique of burning divine power is very common in the origin continent, and many forces generally master the technique of burning divine power. However, each force has different backgrounds, and the levels of divine power burning secret techniques mastered are also different.

Like the Lord of Louvre, he only mastered the fifth-level divine power burning secret technique, and this is also the normal level of the eternal true **** who did not rely on the great power.

Like some of the big forces, the sixth or even seventh level is possible.

The magical burning secret technique has different levels and different powers.

Like the first three levels, they are mainly used by the real gods before the real gods, and even some empty gods are used. The fourth to sixth levels are all empty gods and eternal gods.

The seventh start is the Eternal True God, the Lord of Chaos.

Divine power burning secret technique, the level is too low, it has no effect on high-level powerhouses.

Like a powerful **** king, the general battle is the ninth level of direct divine power burning secret technique, and it can even exceed the ninth level.

Like the seventh layer? It has absolutely no effect on the strong like them. Eighth? Very little effect.

And what Wang Yi has now is the sixth level.

[Chapter 825: Get your hands on it!](#)

Yuanzu and Luo Feng, who were behind Wang Yi, felt the pressure of the terrifying divine power that was passed over from the front, and they were amazed.

For example, Yuanzu and Luo Feng are both true gods of the void. The power of the gods is not as good as Wang Yi, the realm is far less than that of Wang Yi, and the mystery of divine power burning is not as advanced as Wang Yi's mastery.

After all, they are just the Void True God, the Eternal True God who has just broken through, and the power of the divine body alone is a hundred times stronger than theirs.

Like Luo Feng, it's okay, with a 100,000-fold divine body, even if the gap is slightly smoothed, the original ancestor really can't compare.

A hundred times the power gap plus a higher level of burning divine power, the power gap is even bigger.

Coupled with the suppression of the "small universe", realm, secret law level, treasure... and many other aspects, the Void True God is generally swept away by the Eternal True God.

Mechanical treasures also have limitations. It is less difficult to use the mechanical treasures in the true gods to compete with the void true gods, while the void true gods can fight with the eternal true gods with the help of mechanical treasures, but very few.

And the true **** and strange beast "Chi Li" who was squatting beside the two had been frightened since just now, and his eyes were already rounded at this moment.

It really didn't expect that a master it just recognized was actually the eternal true **** aloof!

Eternal True God, in this area, is already the overlord of one party!

"My new master, is the eternal god?" It was incredible.

The Lord of Luofu also felt the divine aura that erupted from Wang Yi, and the shock in his heart was even stronger.

After all... Wang Yi is a true **** with a 100,000-fold divine body, and has a solid foundation. After becoming an eternal true god, his power is one level higher than his. In addition, the Divine Power Burning Secret Art is one level higher than him. The two are superimposed, and the strength alone... is two levels higher!

However, the magical burning secret technique has no obvious characteristics and can be used. However, such as "Mystery of the Eyes of the Gods", the core secret technique of the Jin state, with a secret technique with obvious characteristics of the Jin state, if Wang Yi wants to use it, he has to take it easy.

The same is true of some of Wu's unique studies.

"Why is his breath so terrifying? Of all the Eternal True Gods I've seen, almost none can compare to him." The Lord of Louvre was really shocked.

In fact, it is quite normal. For example, the Eternal True God has to explode to the level of Wang Yi, and the general divine power burning secret technique has to be mastered at the seventh level. This kind of powerhouse is the core figure of the great power! Otherwise it will not be taught! Learn this extremely high-level secret technique!

In other words, being able to master extremely high-level secret techniques generally has a great background, or has its own chance for adventure.

Either way, this kind of person is not easy to mess with.

"Who are you?" Louvre City Lord was a little disturbed and shouted.

Wang Yi didn't speak, there was a glimmer of light in his eyes, the right hand holding the blood-colored stone knife directly slashed out, a blood dragon was faintly roaring, and the power of the knife was completely restrained, there was no trace of it in this small closed cosmic space. fallout.

When Wang Yi was still a true god, his realm reached the limit of the void true god. Once he broke through the eternal true god, his realm would rise. If he could only create the fourteenth-order secret art level before... then he can now create the fifteenth and sixteenth orders.

And this is the relationship that his breakthrough time is too short.

The fourteenth-order top secret method can only be regarded as the elementary level of the eternal true god.

The fifteenth-order top secret method is considered to be the middle level of the eternal true god.

The sixteenth-order top secret method is considered to be the highest level of eternal true god.

The seventeenth-order top secret method is regarded as the limit of the eternal true god!

The top eighteenth-order... The super person in the eternal true god, the existence of defying the sky, has actually reached the level of the 'master of chaos' in realm. It can be said that as long as you don't deliberately press it, you can easily break through to the master of chaos.

Like Wang Yi, because of the breakthrough of the small universe, the breakthrough of the realm, the profound foundation, and the help of the world beasts to understand the origin of destruction, so he has gone very far in the destruction. It is already a high level of Eternal True God.

The power of the divine body is two levels higher than that of City Lord Luofu, the small universe is ten times stronger than the source power of City Lord Luofu's small universe, and there is the top auxiliary mechanical treasure "Chaos Wings" of the Eternal True God, and Wang Yi has completely mastered it, and even can Promoting the fifth level of "Chaos in One Thought", you can use part of the ability to call a holy being... There is also a mechanical treasure "Yanhaizhu" in the realm of the eternal true god, and the sword in his hand is still an embryo...

He didn't even use the mechanical treasure "Sacred Eight Discords"!

Many special and powerful secret techniques, such as "Mystic Eyes Mystery", were not used!

However, it has completely overwhelmed the ancient eternal **** of the Lord of Louvre!

Boom~~~ With Wang Yi's action, the vast source power of the entire small universe and the endless sea of flames of "Yanhaizhu" also surged, impacting the Lord of Luofu, making the Lord of Luofu feel a strong pressure.

But the dignified eyes of the Lord of Luofu were fixed on the sword that was slashing over, and he felt a great threat from above.

"I said, this is my territory, no matter where you come from, an expert of unknown origin, it's not your turn to be arrogant here." The Lord of Luofu let out a roar, the whole figure turned into a dark phantom, and endless thunder and lightning erupted. , a deep purple vine waved out from the void, and in an instant, thousands of long vines covered Wang Yi at the same time!

"Boom~~~~" All the magic circles in the entire Luofu City are in operation, countless secret patterns are running, and the rays of light are all gathered on the Luofu City Lord. At this moment, the Luofu City Lord who carries the core of the array is the entire Luofu City. The core of all the magic circles in the city!

The massive power in the entire gigantic city over a thousand light years gathered on the Lord Luofu, causing a terrifying aura to erupt from him.

"It took me a long time and a lot of hard work to build Luofu City." The radiant Luofu City Lord contained madness in his eyes, "You want to beat me just because you are a foreign eternal god?"

The city is not built casually, the bigger the better.

To build a huge city, you have to shelter it, and you have to spend a lot of materials to build and operate. City Lord Luofu is only the eternal true god, and the area he can control is limited. The city of a thousand light years is already the result of his efforts in the era of tens of thousands of reincarnations.

He has put a lot of effort into this city. This is his old nest. With the help of the city's formation, he can play a stronger role.

Even if a group of eternal true gods came over, he was sure to retreat.

However, the Lord of Louvre had no idea what kind of opponent he was facing.

This may be the first eternal true **** in the history of the origin continent to break through with a 100,000-fold divine body, a special existence that cannot be speculated with common sense.

Wang Yi felt that the Louvre City Lord seemed to be integrated with the entire city, and his aura was greatly improved. But he remained calm.

No matter how strong it is, it is only the eternal true God.

Today, among the Eternal True Gods, Wang Yi dare not say that he is invincible, but there is nothing that can make him fear.

"kill!"

The battle knife turned into a ferocious blood dragon, and there were still waves of destruction around it, and it rushed towards the Lord of Luofu.

The long vines were directly submerged by his waves of fire.

Wang Yi's figure was unhindered, and without hesitation, he attacked the Lord Luofu at an astonishingly fast speed.

The city lord Luofu was covered with a layer of pitch-black armor, and a deep purple light appeared in his hand like a whip with skeletal knots.

When Wang Yi's sword was slashing over, the purple whip of the city lord Luofu also swung over strangely.

The surrounding time and space are faintly affected by the whip shadow.

The secret technique level of the Lord of Luofu also reached the sixteenth level, but he has not reached the top of the sixteenth level. It can only be considered to be close to the high level of the Eternal True God, and his strength is far weaker than Wang Yi, but with the help of the Luofu City Great Array, he But it made up for this, and even offset the oppression of Wang Yi's small universe.

call out! call out! call out! The purple whip turned into countless afterimages and shrouded Wang Yi, and Wang Yi swung the knife even more violently.

The two eternal true gods fought frantically over the city. The powerful power fluctuations made the entire city space shake. However, because of the protection of the formation, the entire city was integrated, so it was not affected and destroyed in the first place.

But maintaining such a large formation would consume a huge amount of the city.

"I have the blessing of the city formation, but he actually blocked me?" The Lord of Luofu was even more shocked. In terms of strength, he is already considered a strong man among the Eternal True Gods, and with the advantage of his old nest, he is not afraid of the powerhouses with the limit of the Eternal True God, but... this strange Eternal True God in front of him actually collided head-on and didn't move at all.

"How can you meet such a powerful Eternal True God!" City Lord Luofu gritted his teeth, and the madness in his eyes became more intense. "Ah, ah, I don't believe it anymore! I will lose to you in my old nest!" The Lord of Luofu was desperate. This is his old nest, his foundation, he can no longer retreat, unless he wants to give up the foundation that he has worked hard for for many years, or he has to continue to fight with Wang Yi to the end.

In order to get to this point, how much did the Luofu City Lord pay, and he bowed his head to the ancient monster in the Long Mirage River to become the overlord of the surrounding party. The Luofu City Lord was really unwilling to give up.

On the other hand, Wang Yi's eyes were very calm, and he was still evaluating the strength of the Louvre City Lord.

"City Lord Luofu's secret magic level is lower than mine, and his divine body strength is two levels weaker than mine, and other aspects are far inferior... But with the strength of the entire city, he can fight with me in a short time." Wang Yi pondered in his heart. "This City Lord Luofu can only be considered ordinary in the Eternal True God, and it is so difficult to deal with in the old nest. If it is a strong man at the peak of the Eternal True God, the old nest will be more powerful, I am afraid it is me. It is not easy to kill them in the city. "

"Maybe the only one who can easily kill them is the Chaos Lord." Wang Yi shook his head.

He glanced at the crazy Louvre city lord in front of him, "If other eternal true gods are fighting you in the city, maybe they can't do anything to you, but unfortunately, you met me, and the battle is over."

"Boom!" Streams of light appeared on Wang Yi's body, golden, cyan, red, purple, yellow, blue... Streaming lights outlined the outline of the armor on Wang Yi's body, and sixteen huge sharp sword-shaped wings appeared behind him. The shadow, plus the original six pairs of wings, is fourteen pairs of wings, making the world behind Wang Yi seem to be surrounded by huge wings.

The mechanical treasure, the Eight Discords!

Eight radiant "eyes" appear on Wang Yi's head.

The breath on the body is also extremely powerful, stronger than before! Beyond the boundaries of the general eternal true God!

In the true **** stage, Wang Yi can only urge the first stage of the "Eight Disagreement Sages".

There are a total of four secret patterns in the Eight Discord Saints. He is now the eternal true god, and his realm is higher. After trying hard to understand, he is only able to motivate the third level! As for the fourth weight? No matter how you think about it, you can't understand it, the fourth layer of the secret pattern is too mysterious, and it has touched the real chaotic realm. According to Wang Yi's speculation, he may have to wait for him to create the seventeenth-order top or eighteenth-order secret technique before he can master the fourth-level secret pattern!

However, the third level of the "Eight Discord Saints" is already powerful enough!

With the Eight Discords in his body, Wang Yi's attack power skyrocketed again.

The city owner of Luofu, who could barely block Wang Yi at first, suffered immediately.

Wang Yi's war sword suddenly expanded and burst into dazzling light, with an extremely terrifying coercion, and it was rapidly crushed!

The whip shadow and chaotic time and space and thunder and lightning fields created by Lord Luofu were completely shattered and annihilated.

When there was no time to let go, the speed that the city master of Luofu was proud of broke out, turned into a thunder light, escaped from the vortex of knife light, and turned his head sharply to look back.

"What is this?" The Lord Luofu looked at the terrifying figure shrouded in gorgeous golden armor with wings covering the sky and the sun, and a trace of fear could not help but appear in his eyes.

"He, how did he become more terrifying..."

The original Wang Yi's breath was strong enough, but now Wang Yi, who has changed drastically, made him feel a trace of invincible fear.

Even the Lord of Louvre smelled death.

"It's quite fast to escape." Wang Yi was also a little surprised, and then rushed over like a phantom, as fast as the space didn't exist, and approached the Lord of Luofu as quickly as possible. "But can you escape?" At the same time, the sword that destroyed the sky and the earth had already slashed, and the light of the sword was mighty and unstoppable.

While avoiding Wang Yi's attack, the city lord of Luofu used various means to attack Wang Yi.

But it's useless, can't stop it at all.

"Impossible, such a strong person, even in the country, is a big man, why would he appear here with me?" Lord Luofu felt that his brain was beginning to be confused. At the same time, I began to regret in my heart, how to provoke such a terrible character.

Under the terrifying light of Wang Yi's sword, the city lord of Luofu could only dodge in embarrassment.

And Wang Yi, was also a little impatient at this time.

A strange light suddenly appeared in Wang Yi's eyes.

And Luofu City, which had turned into a thunder light and was flying fast, suddenly flickered, and the originally perfect movement was instantly destroyed. Although he regained consciousness in an instant. "Not good!" City Lord Luofu roared, and a strong and dazzling electric light erupted from his body. The surrounding time and space seemed to freeze. A sword suddenly appeared from the void behind City Lord Luofu, and everything around him became slow. However, the battle knife forcibly penetrated everything, and this kind of time flow hindered it still trying to penetrate, seemingly slow and fast, and instantly slashed on the armor and body of Luofu City Lord.

"Cough!" The figure of the city lord of Luofu was split and flew out, and the person spat out a mouthful of blood in the air. The flesh and blood of the eternal true **** was greatly traumatized, and the true god's heart was a little unstable.

Wang Yi's eyes were calm. He just used the secret technique of the soul. After Wang Yi became the eternal true god, the secret technique of the soul also reached the peak level of the fourteenth order. With the enhancement of the "soul embryo", he could reach the peak level of the fifteenth order.

Of course, City Lord Luofu has a strong will and can only affect it for a moment, but for this level of battle, a moment is enough.

In the eyes of Luofu City Lord's anger and fear, Wang Yi slashed again.

[Chapter 826: Fallen Eternal True God](#)

In Luofu City, the chaotic air flow is surging like clouds and fog. In the chaotic air flow, there are endless flames and thunder.

call. The Lord of Luofu turned into a thunderbolt in the cloud and mist, flying at high speed, his face full of panic.

"Die."

Wang Yi's eyes, who appeared above the Louvre City Lord, were like ice. The whole body was bathed in flames, and the surging flames enveloped the surroundings. A pair of fiery red sword wings in the wings behind Wang Yi suddenly lit up, countless secret patterns appeared and wandered, and a turbulent power oscillated and filled it.

"Om!" The flaming sword-shaped wings suddenly detached, merged into a giant sword, turned into a flaming meteor, entrained the power as if hundreds of millions of stars collided, and shot directly at the Louvre City Lord below, leaving behind in the void A dazzling rainbow shadow.

"So fast!" As soon as City Lord Luofu sensed the crisis, a sharp breath approached. City Lord Luofu even swung a long whip, and the whip flew, blocking the flaming sword wing.

However, one side was ready to strike, the other side rushed to meet them, and the power of each other was far from each other... As soon as they collided, they immediately saw each other. The flame sword wings slammed into it.

Under the tremendous strength, the city lord of Luofu, together with his sword wings, fell straight down to the city below like a meteor, and a layer of light shield appeared in the city formation. hinder. The entire city trembled violently in the roar, and the huge vibration was heard.

The Lord of Luofu was severely injured again, his chest was full of blood, and his breath was much weaker.

Before the Lord Luofu got up and escaped, a golden phantom whistled and slapped.

The sharp breath is chilling.

"Peng!" City Lord Luofu was once again poked by the golden sword wings on the city shield like an ant, and at the same time the energy of the city shield fluctuated violently.

Wang Yi's face was indifferently suspended in the air, and the pair of sword wings behind him merged into swords, turning into a streamer and blasting towards the bottom.

Every blow activates the secret pattern of the sword's wings, inspiring terrifying power, which is more lethal than any of his previous swords.

The golden sharp-edged sword wings, the purple sword wings that destroy the sky and the earth, the cyan sword wings that disappear without a trace, and the yellow sword wings that are as thick as a mountain...the eight sword wings bombarded the city lord who was unable to escape below. He was nailed to the bottom.

"Whoa...papa...kaka..." And in the continuous attacks, the city formation could no longer withstand it, and signs of shattering gradually appeared. Finally, the entire city shields slammed apart, bang bang bang... Countless buildings are due to energy It fluctuated and fell down like dominoes.

The breath of Lord Luofu also disappeared.

Eight streams of light soared into the sky and returned to Wang Yi's side. A mutilated corpse was inserted into the front of one of the sword-wing weapons.

It was the body of the Lord of Louvre.

Wang Yi's divine power swept over, and nodded clearly, "The heart of the true **** in the body has been destroyed, and the death is simply." Wang Yi waved his hand and put away the body of the city lord of Luofu.

"This is the first Eternal True God I killed." Wang Yi suddenly felt a little emotional. He glanced at the ruined city below. Because many practitioners fled, they didn't see many casualties, and many people were watching from a distance. battle situation.

"The power of the Eight Discords is so great that even the Eternal True God can be easily crushed. I feel that it is still far from the limit of its power."

Wang Yi suddenly noticed the direction of Baoliu Pavilion in the city. An old man in golden robe appeared on the top floor. He seemed to notice Wang Yi looking over. He gave Wang Yi a respectful salute from a distance.

"True God of Void? Looking at that, it should be the head of Baoliu Pavilion." Wang Yi didn't care.

Huh, the small cosmic membrane wall disappeared, and the endless flame ocean also disappeared.

It was only when those who fled the battlefield in the distance realized that the battle seemed to be over.

The figure of the black-haired, red-robed man above the city fell into their eyes.

And the city lord actually disappeared, and he couldn't feel his breath.

A ridiculous guess floated in their hearts... Did the city owner lose?

"Impossible." A bearded man in the commander of the City Lord's Mansion's Void True God was panic-stricken. "The Lord of the City is extremely powerful, and with the help of the city, how could it be possible to lose."

Those Void True Gods are also terrified, but no one dares to go there. The terrifying Eternal True God is still there, who dares to go to court death.

Seeing that the city lord never showed up, they also understood in their hearts that the city lord might have really been defeated, either dying or escaping.

In this way, it further proves that the eternal true God is terrifying.

"Jiujiang." Luo Feng and Yuanzu flew over. Although they were far away from the battlefield before, they were only on the edge of the battlefield, and they were amazed at Wang Yi's strength after seeing the entire battle.

Even the Eternal True God who occupies the city's geographical location can be killed. Wang Yi's current strength is considered a strong one in the origin continent.

After all... Chaos Lord is too far away for most people, and even many eternal true gods have never seen Chaos Lord in their lives, which shows the rarity of Chaos Lord.

As long as it's not too arrogant, the Eternal True God will have no problem protecting himself in the origin continent. Even if you join some big forces, you can become a high-level person.

It's just that many Eternal True Gods like freedom, and they don't want to rely on others and obey others, so they can establish a party outside and become the overlord.

"Let's go." After dealing with the City Lord Luofu, Wang Yi didn't want to stay here, and left with Yuanzu and Luo Feng.

And the news of the death of the Lord of Luofu quickly spread.

...

The mighty Long Mirage River, which stretches for hundreds of millions of light years, is bottomless.

The water flow of the Long Mirage River is turbulent. A random wave is thousands of light-years high. The speed of the surface water current is more than 10,000 times the speed of light. There are many undercurrent vortices. , did not even dare to approach this big river.

In the middle reaches of the Long Mirage River, there is a vast land island that is a million light-years long. There are rolling building palaces and many powerful practitioners on the island.

This is the most powerful force around the Dragon Mirage River - Dragon Mirage Island.

In the endless depths below the island, there is a behemoth. That behemoth was faintly similar in size to Dragon Mirage Island.

As it breathes, a terrifying whirlpool forms on the bottom of the river.

Gu Yu Its existence alone affects an area of tens of millions of light-years.

The chaotic airflow lingered around it, and it lay peacefully at the bottom of the river, and I don't know how many years it has spent here.

"Um?"

This incomparably huge creature suddenly let out a sigh, and at the head, thousands of densely packed eyes opened a crack, emitting a breathtaking light at the bottom of the river.

A hoarse old voice sounded. "I have jurisdiction over the sphere of influence, and a city lord was killed by an outsider?"

"The one who was killed was the Lord of Luofu City. I remember that little guy. He was an Eternal True God with some potential. With his strength, he was actually killed in his own lair, and the one who did it was an Eternal True God?"

The owner of the voice was a little puzzled. "If it is the true eternal god, if you want to kill another eternal true **** in the city, you must at least have the limit of the eternal true god. Such powerhouses... are mostly from those big forces."

"Which powerhouse of a major force came to me? He killed City Lord Luofu, will it have something to do with me? Which country or core disciple of Zongmen accidentally passed by and clashed with City Lord Luofu, or some old guy around Want to fight with me again?" The owner of Long Mirage couldn't help but ponder.

A subordinate of the Eternal True God, who dies when he dies, does not belong to his direct subordinates, and the owner of Long Mirage doesn't care.

What he cares about is the meaning behind this, whether any forces want to interfere with him.

From the origin continent, the battle is always there. Even when the kingdom of God is destroyed, let alone other smaller forces.

The owner of Long Mirage River had just occupied this place, and he had also had conflicts with some surrounding forces. When it was intense, it even attracted the intervention of Baoliu Kingdom, and this stopped the war and evolved into the current situation.

...

At this time, Wang Yi, who quickly left Louvre City, was also talking with the original ancestors.

"The Luofu City seems to have something to do with the Overlord of the Dragon Mirage River." Wang Yi got the information from Baoliu Pavilion and had some understanding of the surrounding forces.

"Although I don't know if the owner of Long Mirage River will send someone over because of the death of a city owner, we'd better run away."

"A chaotic master, we really don't want to provoke." Yuanzu and Luo Feng also agreed.

They are now one Eternal True God, two Void True Gods, plus a world beast who stepped into the Chaos Lord with one foot. To be honest, they have not yet had the confidence to face a real Chaos Lord.

If we use an analogy, the chaotic master of the origin continent is equivalent to the master of the universe in the sea of cosmics. Wang Yi is a stronger cosmic sage who is close to the overlord of the universe.

World Beast, perhaps a weakened top cosmic overlord?

But the owner of Long Mirage River is a real chaotic master. He is extremely ancient and invincible in the surrounding area. No one knows how strong it is.

It is the master of the universe. There are strong and weak points. The strong can kill the weak with a slap. The master of Long Mirage may be a super existence in the chaotic master. Wang Yi and the others do not want to rashly provoke such ancient monsters. .

"Where are we going next?" Luo Feng asked. Seeing the battle between Wang Yi and the Lord of Louvre, he is now eager to strengthen his strength.

Wang Yi looked at Luo Feng. He didn't face the world beast crisis and lost the world beast. Luo Feng's growth was indeed much slower.

It is the original ancestor, much stronger than the original.

"The Origin Continent is full of crises. Our current strength is not enough to walk in all directions. Let's find a place first and improve our strength." Yuanzu said.

Wang Yi also nodded. He originally wanted to go directly to the treasure of Wu State, but it was too far away. Outside the territory of a cultivator's country, far away from the central area of the origin continent, he needed to traverse many countries. say them.

In those wild places, the danger is not necessarily less, which requires stronger strength.

The three began to study the map information.

They are now in the Long Mirage River, and the Long Mirage River flows from south to north through the two countries "Bao Liu Kingdom" and "Fan Bei Kingdom", but the "Fan Bei Kingdom" is farther away from the Long Mirage River, and the Long Mirage River faintly belongs to Bao Liu. power in the country.

"Fan Beiguo" is to the east of the Long Mirage River, and "Bao Liu Kingdom" is to the west of the Long Mirage River.

And the treasures of Wu State... are actually on the edge of the cultivator power in the southern part of the origin continent.

The Origin Continent is vast and boundless, that is, practitioners, the territory occupied is only a small part of it, most of the areas are unoccupied, and those places are either too dangerous and remote, or too desolate and useless.

Only the natives and some other creatures who were forced into the wild land would be active in such places.

Even among many countries, there are actually many such "blanks", and countless beings are struggling to reproduce in it. Some tribes, or the strongest but true gods, will disappear on this land at any time for various reasons.

"Let's go south." Wang Yi said. "About 20,000 years away from our side, there is a cultivator force Blood Bandit Mountain. It is said that the founder of Blood Bandit Mountain is the core disciple of the surrounding great force "Changhong Sect", who is sheltered by "Changhong Sect", and listens to it. It is said that it is very friendly to foreign practitioners, and we will stop there and familiarize ourselves with the environment."

If it is just pure cultivation, just find a remote place to hide in the wild, and they are not afraid of danger with their strength. But if you want to integrate into the origin continent, so that you can move around in the future, you have to get in touch with those forces. uukanshu.com knows what's going on outside.

"Blood Bandit Mountain? It sounds like a thief when you hear that name?" Yuanzu said.

Wang Yi replied: "It is said that two of the three brothers in Xuekou Mountain were originally thieves and plundered all over the world. Later, their boss, the disciple of Changhong Sect, came over and asked them to wash their hands in a golden basin, so as not to disturb the surrounding area. This area has become the blood bandit mountain it is today."

The original ancestor was dumbfounded. "It turned out to be a robber."

"That's all in the past. Now that the Changhong Sect is in charge, the Blood Bandit Mountain is no longer plundered, but a stable force has been established." Wang Yi said, "The three mountain masters of the Blood Bandit Mountain are all The Eternal True God is definitely a big force in the local area, and the Changhong Sect is behind it. The Changhong Sect is a top-level force that has Chaos dominates the town, so the Blood Bandit Mountain can be said to be a relatively safe place around, and no one has been harassing it. We can also practice peace of mind for some days there, and get in touch with more people here."

Yuanzu and Luo Feng heard this and thought it would be good to go to "Blood Bandit Mountain".

"Haha, the origin continent is really big, and there are so many strong people." Yuanzu sighed, "Why do you feel that all you encounter are the eternal true gods, and all you hear are the masters of chaos."

Luo Feng smiled and said, "It should be said that there are many strong people in the places we go, and they are all not small forces."

Wang Yi also nodded, "Like Luofu City, it is already the largest force in the surrounding area, and the other forces are the Void True God at most, but we just happened to encounter it. And the place we pass through next is also the Void True God force. There are more, the Eternal True God has less power, and there are even countless weak and incomparably powerful tribes that do not even have the Void True God."

Yuanzu shook his head and sighed with emotion, "So, I, the Void True God, can be considered a master here."

[Chapter 827: Tenji Mountains](#)

The three of Wang Yi were going to Xue Kou Mountain, and they were accompanied by the true **** and strange beast Chi Pei.

After seeing Wang Yi's true strength, Chi Li followed her with complete conviction.

Wang Yi didn't chase it away, so having a loyal servant by his side is also a good thing.

Thinking about his hometown, the intelligent housekeepers are all mechanical fathers, the caring maids are the queens of the Zerg tribe, and the majestic mount that travels is the ancestor of the monster tribe... Instead, there is only one kitten (Chi Li), a lot of shabby, Said not to line up.

Like the Luofu City Lord who was slashed by Wang Yi, there is a group of Void True Gods underneath, and a True God army can be dispatched.

Wang Yi once again used his invisible ability to disguise himself as the true **** of the void, and then rode the Tongtian Tower, taking Yuanzu and Luo Feng to the direction of Xuekou Mountain.

The limit teleport distance of a true **** is 100,000 light-years, the true **** of void is a million light-years, and the true **** of eternity is tens of millions of light-years.

But there are differences. For example, the 2 billion light-year diameter Void God in the small universe and the 5 billion light-year diameter Void God, the latter is farther than the former teleportation distance.

Wang Yi controls the Babel, and at the same time senses distant places. Each teleport is a million light-years, and the will of the Eternal True God can guarantee extremely high-frequency teleports. However, Wang Yi maintained his level at the peak of the normal Void True God.

If someone really thinks that Wang Yi is the true **** of the void and wants to attack him, Wang Yi will give him a 'surprise'.

...

Cosmic Sea.

Since Wang Yi and the three of them went to reincarnation, the sea of cosmos has returned to calm again.

10,000 years passed quickly.

The Chaotic Source Holy Land Universe, a special dimension in the 100,000-dimensional plane, has stars, seas and stars like the original universe, and it also begins to have life born naturally.

On one of the star-lit planets full of young life.

It happened to be late autumn at this time.

The sun in the western sky has set, and the afterglow is like blood spilling on the vast sky and the ground. The chilling wind blows across the endless plain, and swept over the withered and withered branches of grass and trees.

Huge ancient trees that seemed to be able to hold up the sky rose up in the middle of the wilderness, shaking those crumbling leaves and rustling in the setting sun.

A beautiful castle that can only appear in a dream is located under the old trees. The windows facing the garden are open. The cool wind blows from the windows. The wind is mixed with the fresh prairie soil. The courtyard is covered with Pale golden leaves.

In the study room covered with purple velvet carpet, Wang Yi's divine power in casual clothes sat leisurely in front of the black desk like an ordinary teenager, with a thick book and a cup of white steam rising in front of him. Tea.

At the last moment when the sun shone on this planet, the study room on the upper floor of the castle also opened its windows, allowing the fresh air and sunlight outside to sprinkle on the desk of the creator of the universe.

Wang Yi looked at the common words on the book that belonged to the continent of origin, and there were large blanks in it, which seemed to have been erased by some invisible force, shook his head, and Wang Yi closed the book.

"The information of the origin continent really cannot be displayed in the sea of cosmos."

"The supreme rule is limiting all of this."

In fact, the contents of the book are still there, but "cannot be displayed".

If it is the beings of the universe sea, including those true gods, who see this book, they will only think that it is a "wordless book", and only the true gods of the void who are free from reincarnation can see the true content of this book.

"The last era of reincarnation has ended." Wang Yi walked to the window, watching the sunset gradually sink, his handsome face was also clearly illuminated by the sun, "In this era, me, the original ancestor, and Luo Feng were out of reincarnation. The other true gods of the human race, although the small

universe is still there, but if they cannot be detached in the three reincarnation eras, then their small universe will be destroyed, and they can only be pinned on our three detached universes."

For the strong people of the human race, it is a great blessing for the race to have three people who are free from reincarnation.

Even if he can't detach himself in the end, he can still be pinned in several holy land universes, and there is no limit to worry about.

And the luckiest thing is... Wang Yi has become an eternal true god. The Holy Land universe can accommodate a large number of true gods, allowing true gods to be born, and even a void true **** can be born.

"A few people from the human race, such as Chaos City Lord, True God Xingyue, Founder of Giant Axe, and my apprentice Shi Zhongtian, should have the opportunity to break through to True God of Void within three reincarnation eras, and then go to reincarnation."

"And the others, it's more difficult."

Wang Yi is very clear that with the help of a small universe, it is better to understand the laws of the universe's operation and become a true **** of the void.

Without a small universe, it would be ten times more difficult to break through.

This is also the reason why it is so difficult for those Holy Land universes to give birth to a Void True God.

Because of their true god, their potential has been limited.

Even if they have a new true **** born from the Holy Land Universe, differentiated from the interior and gave birth to a small universe, but there is a difference between the small universe born from the Holy Land Universe and the small universe born from the Cosmic Sea...

The latter has undoubtedly greater potential.

There is only one true disciple under Wang Yi's family, but several of the beings he created have cultivated to true gods, and his own children also have several true gods, so he is still more concerned about this issue.

"If it doesn't work, when they come to my universe, let's divide up several small universes for them." Wang Yi secretly thought.

Those ordinary Void True Gods are unwilling to do things like this that differentiates a small universe inside, because it will damage their universe origin and affect their path. Under normal circumstances, they are unwilling.

But to Wang Yi, it is harmless. He has become the eternal true god. The small universe is hundreds of billions of light-years in diameter, and the volume is one billion times that of the true god's small universe. The point source loss will soon be replenished.

It is the small universe of the Void True God, and it is fine to divide a few.

However, Wang Yi did his best to the people who were close to him, paving the way for them, and like other strong people in the human race, unless the relationship was good enough or the potential was big enough, Wang Yi would not take action.

When Wang Yi closed his eyes, he could clearly feel the movement of the entire Holy Land universe and all the activities of life.

Everything in the universe is under his control.

At present, there are hundreds of true gods and thousands of universe masters in his universe, and there is an almost endless amount of life. However, the number is far from occupying the entire universe, and there is still a lot of living space.

When he becomes the master of chaos, the small universe expands again, and there will be more creatures in the Holy Land universe.

"but..."

Wang Yi looked in the direction of the primordial universe, his eyes seemed to be able to break through the membrane wall of the universe and see the primordial universe in the early stage of evolution.

"My will is only one step away from becoming a saint now. I don't know when I will be able to break through." Wang Yi secretly said in his heart.

As long as one breaks through to the holy will! He can practice the "Lie Yuan Technique", and then try to seize the original universe.

The secrets and benefits of seizing the original universe are now not secrets among the three human powerhouses who have passed through reincarnation, Wang Yi, Yuanzu, and Luo Feng. All three of them are the will of the eternal true god, and any one of them is considered a peerless talent. Every generation has a chance to win the house, it depends on who breaks through first.

Gu 厚 Once he succeeds in winning the house, he can comprehend the various mysteries in the original universe, and it is easy to be called a saint, and he may even hope to become the 'king of gods'.

Like how Luo Feng and Yuanzu were willing to let go of such an opportunity, they were all eager to fight against Wang Yi.

That's right, Yuanzu and Luo Feng both believed that the biggest competitor in the Primordial Universe was Wang Yi who took the lead in breaking through to the Eternal True God.

In fact, Wang Yi didn't care much about taking away the original universe.

After becoming the Eternal True God and going deep into the Tower of Babel, he also discovered that the interior of the Tower of Babel is truly mysterious.

Now, he is on the 26th floor of the Babel Tower.

The 26th floor of the Tower of Babel is equivalent to the 16th-order top secret technique perception level.

In the tower of Babel, the speed of perception is not necessarily slower than that of the original universe.

At least, becoming the master of chaos is easy.

So taking the original universe... He really doesn't care much.

Speaking of the Primordial Universe, he thought of the world beast.

Taking away the original universe doesn't mean you can really rest easy.

The world beast crisis is a hidden danger.

Or maybe someone is lucky enough to win the house, but in some reincarnation eras in the past, the birth of the beast will destroy all the universe.

The primordial universe will also be swallowed up by a large amount of the origin of the universe, which will hurt the consciousness of the looters and annihilate them.

At that time, no matter how powerful the body-taker body, which had been integrated with the will of the original universe, was in the origin continent, because of the restrictions of the supreme rules, it was impossible to directly fight against the beasts. will be destroyed.

The primordial universe will return to the wild state of "unowned", and what has been re-bred has nothing to do with the looters.

Even if you can get away with it once, there will be a second or third time... There will be one time you can't escape.

And Wang Yi even doubted that the body of the body grabber could not enter the sea of cosmos to deal with the beast.

Because there is an invisible limit of the "Supreme Rule", maybe there is only one chance to even win the house.

At least when Wang Yi's world beast incarnation was devouring the primordial universe of the 3,000-latitude cosmic sea, he did not feel that any primordial universe was abnormal and was taken away.

That proves that at that time, none of the primordial universe of the 3,000-latitude cosmic sea was taken away.

Wang Yi touched his chin.

"The channel of the 3,000-latitude cosmic sea is still open. If any cosmic sea breeds world beasts again in this era, the other cosmic seas will suffer."

Wang Yi is not too worried about himself, because the world beast has just appeared once, and it is unlikely that it will be reborn in a short period of time.

And, when he breaks through again, the world beast will not be able to swallow the universe even if he wants to.

...

Origin Continent.

It is vast and vast, and there are countless powerhouses, even if it is a chaotic master-level power to tear apart the chaotic void and keep on its way, it will take a long time to traverse the entire origin continent.

In fact, in the distant places like the origin continent, you can travel through the space teleportation circle. The space teleportation skills of the origin continent have reached an incredible level, but because the continent is really boundless, the teleportation circle that can span the entire continent is still unimaginable. It has never appeared before, and it is rare to cross a country. It would be good to have one or two of the general big forces.

However, the space teleportation array is controlled by various forces. If you want to use it, you have to pay for it. The cost of a transmission is not small. The stronger the transmission, the greater the cost. It is his own way to tear the chaotic void.

There are a large number of teleportation circles, and it is so difficult to travel. Without teleportation circles, it is even more difficult to travel.

And because of this environment, many looters were born along the way.

Located in the southern part of Baoliu Kingdom is a towering mountain covered with clouds and mist, which is the famous "Tianji Mountains" in the surrounding area.

Inside a deep mountain, a palace stands here, and a group of strong people gather in the palace, all of them are tyrannical, and they are all true gods of the void.

A rhombus-shaped ink-colored mirror is suspended above, and ink mist flows in the mirror, outlining the mountain topography, and showing each point of light.

"It's still the 'Void Mirror' of the Dimensionality Clan, which is much easier to use than the investigative instruments I bought at the Mechanic Clan's site in Sawtooth City last time."

"That investigative instrument is just a pit. If the scope of the investigation is too large, it will be inaccurate, and if the scope is too small, the efficiency will be low. It will blind the big name of the mechanical family."

"Now the Tianji Mountains, an area over 100 million light-years, is under our control, we just need to wait."

The true gods of the void in the palace sat on their chairs happily drinking and discussing.

This is a powerful team of raiders running near the Tianji Mountains, called "Dragon Sacrifice". There are eight true gods of the void in the team, as well as many true gods.

What they did was to plunder passers-by and plunder their treasures.

That is, the business of killing people and stealing treasures. Sometimes, they even attack some weak tribes, which are hated by the surrounding forces.

"Woo..." A ferocious red-horned beast with a faintly rising flame, lying on all fours on the high seat, sipped the wine and looked up at a skinny man in green armor opposite, UU reading www.

uukanshu.com clicked his tongue, "Five, you have to look at this mirror, don't make a mistake, don't confuse the Eternal True God and the Void True God, and drink less wine."

The thin young man in blue armor nodded along with a smile, "Second brother, don't worry, I will take a closer look at it, and there will never be any problems."

"Hmm..." The red-horned beast nodded with satisfaction, gulping down the wine, it was very satisfied on such a day, it was much more enjoyable than hiding in a corner of the wild and doing ascetic cultivation. The treasures obtained can also be exchanged for resource cultivation, and can be exchanged for treasures that enhance their strength.

Of course, you have to be careful not to provoke those superpowers who will bring disaster.

The other Void True Gods in the palace were drinking and chatting in a lively atmosphere, while the skinny man in green armor who was in charge of the Void Mirror was watching the constantly changing mirror intently, daring not to be distracted at all.

"They are all true gods, and a few true gods are not worth fighting for."

"Which tribe's big team is this, so many people, tsk. Give up."

"It's rare for two true gods of the void to appear. It's too cunning to fly past the edge of the Tianji Mountains." The thin man in green armor who looked at the mirror muttered.

"I have to look at the 100 million era. I'll go to his uncle. Why did I make a bet with the third brother and the sixth." The fifth regretted it in his heart.

[Chapter 828: hit the iron plate](#)

Tianji Mountains.

A black quaint palace flies rapidly in the void.

"In front of you is the Tianji Mountains."

Inside the Tongtian Pagoda, Wang Yi, Luo Feng, and Yuanzu, who were cultivating separately, gathered again and looked at the vast and majestic mountains in the distance. The strange thing was that there were endless rolling clouds above the mountains, and gold was faintly visible. Wood, water, fire, earth, thunder, lightning, light, and wind came from the source of fluctuations.

"Tianji Mountains, because of the influence of the original cloud and mist, the space is unstable and cannot be teleported." Wang Yi said, looking at the endless surging sea of clouds. "However, that cloud is not in any danger, even a true **** can fly over safely."

"After this day's sacrifice to the mountain range, it will take about five thousand years to reach the Blood Bandit Mountain." Wang Yi said. "Although the Tianji Mountains are vast, there is nothing terrifying to occupy, and the danger is low. We can just go through it directly."

"I've seen the map data. This day, sacrifice to the mountains, relying on the sky to sacrifice the country, and the sky to sacrifice the country, there are also gods." Yuanzu said. "The reason why this mountain range is called Tianji Mountain is also because of the reason of Tianji Kingdom."

"Tianji Kingdom is not very strong in many countries in the origin continent. In terms of strength, I am afraid it is at the bottom of the list." Wang Yi said, "However, Tianji Kingdom, Baoliu Kingdom, Shanpeng Kingdom and other countries that are generally not very strong are not very strong. Together, they are a powerful force, and those powerful nations will not easily invade."

Luo Feng listened silently, and suddenly remembered the state of Jin that was destroyed by his teacher Sishan Ke.

Jin State seems to be destroyed by Shi State because it has no allies.

"Teacher, I should have been reincarnated somewhere in the Origin Continent by now. I don't know when I will be able to see the teacher..." Luo Feng's thoughts were flying.

"This original sea of clouds, I don't know how it was formed, actually enveloped the entire Tianji Mountains, so that anyone who wants to pass from the Tianji Mountains would have to spend a lot of time to pass through this sea of clouds." The original ancestor in a white robe looked at the spectacular beauty in the distance. The sea of clouds, filled with emotion.

Wang Yi said with a smile: "Original Cloud Sea has already attracted many experts to explore, but nothing has been found. It is probably just a normal geographical phenomenon. This phenomenon is relatively common in the origin continent."

"Huh?" Wang Yi, who was always alert, suddenly sensed the appearance of a spatial fluctuation, and couldn't help turning his head to look.

Later, Yuanzu and Luo Feng, who realized that they were in a lower realm, saw Wang Yi's expression and also looked over there.

"Huh." A spaceship suddenly appeared in the distance. It was a luxurious ancient ship that had never been seen flying high in the sky. There were also a large number of guards on board. The guards were all at the level of true gods, and the two stood on the side of the ship. The captain of the guard next to him is at the level of the true **** of the void.

"Huh? There are actually four Void Gods in this spaceship? It looks like they are guards. The owner behind this must have some background." Wang Yi observed the ancient ship that suddenly appeared. The Void True God is nothing in the Origin Continent, but in the surrounding area, it is still a master. If it is more remote places, they are all overlords.

The people on the spaceship also discovered the black palace in the distance.

They couldn't see the people in the palace, but they also sensed the breath of the Void True God, and they were all alert.

It is very dangerous in the origin continent, and a stranger you encounter in the wild is worth being alert.

"Who is that?" A young man in white with purple hair and a vertical mark on his forehead probed.

"Young Master, you don't want to go out." A dragon and a bull-headed beast stopped in front of a young Void True God. "Beware of danger."

"Butler Lei, you are too heartless, what can a few true gods of the void do to us." The young man disagreed.

"Young master, you sneaked out this time. You don't have many guards with you, so you have to be careful." Butler Lei said in a serious tone. "Even if you don't think about yourself, think about it for the two young ladies."

The purple-haired boy couldn't help but turn his head and glance at the two beautiful women who were looking at him worriedly, pouting. "Well, really, I just look at it, but it doesn't work."

Seeing the boy returning to the boat, Steward Lei was relieved and shook his head, feeling a little helpless. "Really, the young master is married, and he has cultivated to the true **** of the void, but his heart is still so detached, it does not make people worry. After returning, you have to report to the mountain master and his wife, let them take care of the young master, and don't let him go out again. already."

It was enough to frighten him to come all the way.

I was afraid that something happened to the young master, and I couldn't explain it to the mountain master.

After all, there is still a long way to go from here to the territory of his own power, and there is no time for rescue if something goes wrong.

It looked at the black palace in the distance, narrowed its eyes, and there was a faint golden light in its eyes.

Then it showed a hint of surprise. "I can't see through this palace? What's the origin?"

"Jiujiang, who is that?" Luo Feng asked curiously. Here, they have agreed to call each other by pseudonyms.

"I don't know, the four Void True Gods have three guards and one is the master. It should be a certain force passing through here." Wang Yi said casually.

Wang Yi and the others didn't mean to disturb the spacecraft, and the spacecraft didn't want to make troubles. The two flew a distance away without touching each other. They moved forward silently and lived in peace.

Hu, hu, one after the other, a black palace and a luxurious spaceship entered the mountains.

...

Inside the mountains.

"call."

At that moment, the skinny man in green armor who was staring at the "Void Mirror" stood up abruptly.

"Brother, there is a situation."

Everyone in the hall looked over.

There was a gleam in the thick white robe's simple and honest grey-haired man's eyes. "Turn the screen over."

Wow, the Void Mirror above casts a brilliance, and the brilliance turns into a light and shadow. The light and shadow separate two pictures. In the two pictures is a streamer, and then a black palace and a luxurious ancient ship appear.

"This is the two sides that have just entered the Tianji Mountains." The blue-armored man said quickly. "One side is in the treasures of the palace. Judging from the breath, it should be three true gods of the void. The other side is the silver spaceship, there are four true gods of the void and more than one hundred true gods."

"Judging from the distance between them, they are not a group." The blue-armored man added.

"There are two parties, a total of seven Void True Gods..." Big Brother pondered, as for those True Gods, he ignored them.

"Brother, what do you say? We'll listen to you." The other Void True Gods looked at the white-robed gray-haired man with bright eyes.

In this group of robbers, although this white-robed gray-haired man was not the organizer at the beginning, but only joined in the middle, his powerful strength won the awe of all the leaders.

In the Origin Continent, the strong are respected, especially these robbers who lick their blood, and they pursue strong strength.

The gray-haired man in the white robe clapped his hands with a cold light in his eyes. "Done! Both sides, we will take it down!"

"it is good!"

"As expected of the big brother, how arrogant!"

The face of the Void True God in the hall began to show suffocation, gearing up.

"Okay, while they are crossing the mountains now, let's do it right away!" The gray-haired man in white robe ordered.

Inside the Tongtian Tower, Wang Yi frowned, faintly aware that there was something strange in the surrounding void. But on closer inspection, nothing was found.

"Am I being overthinking?" Wang Yi searched the surroundings again, but found nothing unusual, and thought to himself.

In the Tongtian Tower, even if there is any sudden attack, it can be blocked.

But the feeling just now made him feel a little wrong.

He glanced at the ship in the distance in the other direction. "Is it about them?"

On the other side, the young master in white on the spaceship ran out again, excitedly watching the sea of clouds with his two wives, followed by two guard captains and Butler Na Lei. "It's spectacular. I've

never seen such a beautiful and majestic cloud in my hometown." The young man said intoxicated. "Butler Lei, you said, is there any treasure in this mountain range?"

Butler Lei said indifferently: "Young master, you think too much. If there are treasures in this mountain range, they would have been taken away long ago, and it would not be our turn."

The young master is also a little discouraged when he thinks about it.

Seeing the young man's appearance, Butler Lei shook his head again. He didn't know how such a wise and stable person could teach such a son. "The problem probably lies with the other two mountain masters. They dote on this child too much." Butler Lei muttered in his heart.

"Boom..." The powerful pressure came instantly, and the surrounding space was instantly isolated, and the surrounding space was surrounded by endless nothingness.

"One thought of the void?" Wang Yi and the three in the Tongtian Tower immediately noticed it.

"One thought of the void?" The people on the spaceship also noticed the changes around them and became nervous.

"Huh!" In the distance, an eight-winged golden bird and beast flew towards them at an unbelievably fast speed, leaving a long and invisible golden line in the void.

"Void true god-level mechanical treasure, and the 'eight-winged golden eagle' that is best at flying speed?" Butler Lei's face changed. "This eight-winged golden eagle can fly much faster than our spaceship."

At this time, people on both sides used "One Mind Void" to fight against each other's Void Domain, and the release of Domain Treasures.

In an instant, the area tens of thousands of light-years in radius was shrouded in endless light-years.

"Who are you?" the ship's guard shouted.

The eight-winged golden eagle rushed over quickly, Boom! boom! Boom... Eight figures appeared in the sky in an instant, some of them exuded incomparable nobility with colorful light, some of the incomparable evil exuded endless flames, some of them lingered with ice and snow and exuded an incomparably dead stillness, and some of them were majestic and even looked like a mountain range... Among them, there was a plain looking man with grey hair in a white robe and a simple and honest face. His aura was also very peaceful, but the other powerhouses respected him faintly.

He stretched out his hand, wow, streaks of colored light flew out of his hand, overwhelming the sky, and countless colored lights wrapped around the black palace and the luxurious spaceship like a ribbon at an astonishing speed.

"Seven." He had a cold smile on his face. At the same time, two bright moons rose in his eyes, and the two bright moons flew out of his eyes and hung on a high place, casting a hazy light, and the cold light was full of infinite murderous intent.

"Big brother is going all out." The other leaders behind him held their breaths slightly.

All of them are unruly desperados, but they are convinced of this big brother, all because of the incomparable strength of the other party.

"This is..." Butler Lei, who had a calm expression, suddenly changed his face when he saw the two bright moons.

"This is Moonlight Domain? Are you Situyan?"

"Oh? Did you recognize it?" The gray-haired man in the white robe glanced at him.

"Si Duyan, who is wanted by Kong Yanzong... Aren't you supposed to be opposite Tianji Kingdom? Why did you come here? How dare you show up?" Butler Lei said in a low voice. My heart is also a little nervous, Si Duyan, that is an extremely crazy and dangerous character among the true gods of the void. He once escaped from the pursuit of the true **** of the eternal, and the Kong Yanzong of the same level as the "Changhong Sect" also announced his pursuit to the outside world. Kill him, I didn't expect that he would appear here.

"Ahaha...Why don't I dare to show my face, this is the Tianji Mountain Range, not the territory of his Kongyan Sect." The gray-haired man in the white robe sneered. There is also a reason for him to choose the Tianji Mountains as his hiding place. The Tianji Mountains belong to the sphere of influence of the Tianji Kingdom, while the Kongyan Sect belongs to another major force that does not deal well with the Tianji Kingdom, so The powerhouses of Kong Yanzong did not dare to come here easily.

"It's bad now. I didn't expect Situyan to be here and stop us." Butler Lei was a little anxious.

"Situyan, what do you want to do?" Butler Lei shouted, he didn't mention his identity background, because for a dangerous person like Situyan that even Kong Yanzong dared to provoke, his background threat was useless.

"Haha, what are you doing, of course it's killing you." Situ Yan's simple and honest face showed a trace of grimness. "Brothers, kill, don't let one go!"

And Wang Yi, Luo Feng, Yuanzu and the others also appeared outside the Tongtian Tower, looking at the eight true gods of the void in the distance.

"It looks like we have encountered a robber." Luo Feng was quite calm.

Just a few Void True Gods, is it still comparable to Eternal True God?

Even the Luofu City Lord who occupies the old nest is cold, what are a few Void True God robbers?

Wang Yi raised his head and glanced at the bright moon, which was pierced with infinite murderous intent by the two rounds above his head, showing a hint of interest. "Interesting, this seems to be a secret technique? This Void True God named Situyan seems to have something."

Luo Feng was gearing up, eager to try. "Jiujiang, don't take action, let us come, and these people are just practicing for us." It was rare to encounter a group of Void True God Tribulation Dao, and Luo Feng couldn't wait to try the sword.

Speaking of which, he doesn't seem to have killed the Void True God.

Although the original ancestor did not speak, there was some fighting intent on his face.

His original ancestor was also an invincible figure who once traversed the sea of cosmos... Although this record is nothing in the origin continent, the original ancestor also has his own arrogance.

He will also rise in the origin continent.

Wang Yi nodded indifferently, he knew that Luo Feng and Yuanzu couldn't hold back all the way, so it would be better for them to stretch their muscles and bones at this time.

Anyway, the combination of these Void True Gods cannot threaten any of them.

Luo Feng didn't say anything, he was wearing an inheritance treasure, which was very against the sky in the Void True God.

The original ancestor was also a monster, and he received the unrestricted inheritance of the Duandong River from Wang Yi, as well as many secret techniques, and Wang Yi was not stingy, giving him many treasures.

Like some eternal true god-level mechanical treasures, they are all sets. There is even a "soul embryo"!

The original ancestor's combat power is definitely the top among the Void True God, and can sweep a group!

Those Void True God robbers are destined to kick the iron plate this time.

[Chapter 829: Blood Bandit Mountain](#)

In the endless distance from the Tianji Mountains, there is a majestic blood-colored mountain that is a million light-years high. There are countless buildings on the mountain, and there is a vast forest on the cliff of the mountain. A figure sits on the edge of the cliff. He wears burning clothes everywhere. A black robe with a blood-red flame pattern, long purple hair, and a vertical mark on his forehead, he suddenly stood up and looked to the north.

"Situyan?" His eyes sharpened. Brush, the figure disappeared instantly.

At the same time, the other two huge auras of the Scarlet Sacred Mountain also disappeared, but few people on the Sacred Mountain found it.

...

Siduyan's colorful ribbons burn and extend in all directions, making the surrounding world rapidly become dazzling... And the two bright moons in the sky are also smashing towards the black palace and the luxurious spaceship. The momentum is astonishing. , mighty mighty.

"Everyone blocks, the mountain master will come to rescue us immediately." Butler Lei roared, of course, he also understood in his heart that the mountain master is 100,000 miles away from here, even if he received a call for help, it would not be so easy to come.

The other seven true gods of the void also burned their divine power and divided them into two groups, one of them rushed towards the luxury spaceship and the other towards Wang Yi and the others.

"Hahaha... You are all waiting to die." The four Void True Gods rushed to Wang Yi's side. Some of them waved their claws, some smashed huge black stars, and some used their means to form The huge blood-colored flowers opened their translucent petals and shrouded Wang Yi and the others.

And the strongest Si Duyan and the other three Void True Gods seem to think that the boy in white and Butler Lei are stronger and are dealing with them.

"Four." A trace of excitement flashed in Luo Feng's eyes, who had been covered with a layer of golden armor like a monkey. A sword appeared in his hand. "Yuan, let's go together."

"Okay." The original ancestor in a white robe smiled slightly, his eyes full of confidence.

The two took a step forward at the same time.

Wang Yi watched with interest from behind.

"kill!"

The two shouted at the same time.

Wow... With a dazzling brilliance to the extreme, Luo Feng's sword was unsheathed!

The precious weapon element embryo created by the super-existence of the Donghe River, which belonged to the origin continent endless years ago, once again erupted in a descendant of its own light after many years.

When the sword was unsheathed and swung out, the endless sword light continued to skyrocket. From the thin hair-like sword light when it was first unsheathed, to the time when it swept the void true gods... Formed countless sword lights that covered the sky and covered the earth, unexpectedly Directly condensed into a huge dark sphere. The dark sphere is like a miniature universe. The shroud enveloped the four Void True Gods.

At the same time, Yuanzu had a light smile on his face, but he had already burned his divine power and quietly used the soul secret technique.

The soul embryo of a crystal star in his body blooms brightly, infinitely bright, it is the brilliance of the soul, illuminating the infinite space.

In an instant, the entire void was filled with layers of waves of light that seemed to be both real and illusory, and the tide suddenly turned into a splendid storm. The powerful soul force impacted the four void gods, and the layers of illusory halo appeared in the white robe. The primordial ancestor appeared behind, a huge oppressive force suddenly descended, and the entire void resounded with an ethereal, holy and mighty sacred voice.

In an instant, Luo Feng and Yuan Zu cooperated tacitly and attacked four Void True Gods at the same time!

"Nirvana Knife Domain!"

"If the real soul is destroyed!"

...

In the dark sphere, the four Void True Gods who rushed over were caught in the endless terrifying knife light.

"not good."

"What kind of swordsmanship is this?"

"Get out!"

The four Void True Gods are all time-tested and experienced combat experts, and they felt a great crisis in an instant.

Naihe - this knife is too fast. It's too late for them to escape.

Even faster, the original ancestor's soul attacked!

boom!

The mighty soul pressure rushed over like a surging tide, and the four Void True Gods were attacked at the same time!

The original ancestor was in the sea of cosmos. With his own cultivation, the real **** realm created the top tenth-order soul secret technique. Other true gods without the superpower and treasure of the soul were swept by him, and no one could match the entire sea of cosmos.

After being suppressed by the original will of the primordial universe for many years and getting out of trouble, he got the opportunity to watch the destruction of the primordial universe, and also received many top-level inheritances from Wang Yi... That is a precious top-level inheritance without restrictions, making the realm of the primordial ancestors beyond imagination. speed increased rapidly.

Therefore, after breaking through the Void True God, the original ancestor quickly created the thirteenth-order soul secret technique, and his burning power is the fifth level, plus the "soul embryo"... The power of the explosion has reached a terrifying level!

You must know that the true mystery of the void is generally from the eleventh to the thirteenth order. If you can create the fourteenth order of the mystery, you can become an eternal true god!

The realm of the original ancestor's secret technique has reached the limit of the Void True God!

Not to mention that he also has a magical burning secret technique and a soul embryo, which are only passed on to the core by the top powers.

You can imagine the feelings of those Void True Gods who were attacked by the original ancestor's soul.

"boom!"

"boom!"

"boom!"

"boom!"

The four Void True Gods, without exception, were strongly impacted by their souls, their silhouettes lost control, and their breath dropped a lot.

And at this time, Luo Feng's ultimate move has arrived.

All the knife light in the entire dark sphere underwent an incomparably mysterious change in an instant, turning into a seemingly ordinary thin brilliance. ...Whoa! The black sphere cracked, and a thin brilliance flashed away. It's like a blade as thin as a cicada's wings, it flashes and cuts through a universe! I saw that the entire black sphere dissipated into nothingness, and only the thin dazzling golden brilliance that passed away left a trace visible to the naked eye in the void, which remained for a long time.

A terrible knife.

A crack appeared in the armor of the four Void True Gods, their bodies were cut open, and the "True God Heart" hidden in their bodies was also destroyed.

The four Void True Gods all fell under the simultaneous attack of Yuanzu and Luo Feng!

...

"Do not!"

In the distance, the white-robed gray-haired man "Si Duyan", who was shooting at the spaceship, sensed something was wrong, but it was too late, so he could only watch his four companions get killed.

"died."

"The fifth one is dead."

"how come..."

The other three Void True God leaders were also stunned.

They trembled in their hearts and killed their four partners with one move? What power is this? Maybe only the Eternal True God can do it? But the other party is clearly the true **** of the void...

And the housekeeper Lei, the boy in white, and the two captains of the guards who were trying to support the defense with the spacecraft were also shocked when they saw this scene.

"One knife, kill four Void True Gods?"

"What a terrible sword technique!"

"This knife is definitely the most terrifying knife technique I have ever seen in a long time."

"Is he really the Void True God?"

The original ancestor's soul attack, because they didn't feel it, so they didn't feel much emotion, but they witnessed the power of Luo Feng's knife with their own eyes. With one knife, four Void True Gods were killed! This kind of power, I am afraid that only the eternal true **** can do it?

"What a powerful guy." Butler Lei couldn't help muttering. "Void True God's swordsmanship is so powerful, my mountain master's Changhong Sect doesn't know if there are such powerful Void True God disciples."

Si Duyan's face was dignified and ugly. He never imagined that he was going to attack, kill and loot to make a lot of money, but he kicked the iron plate. Also lost four partners.

"True God Void has such strength, which force are you from?" Situyan looked at Luo Feng with red eyes.

"I have no power." Luo Feng smiled slightly.

How could Si Duyan believe it, he just thought Luo Feng didn't want to say it.

"Okay, okay, this time we've been planted, and we actually met someone like you." Situyan said coldly, although he was also very angry and wanted to avenge his partner, but he saw the power of the knife with his own eyes and knew it. , the strength of the man in gold armor in front of him is still higher than him, even if he fights, he will be the one who will die in the end.

"Let's go!" Situyan was about to fly back to the "Eight-winged Golden Vulture" with the remaining three terrified and angry Void True Gods.

A faint voice sounded. "Did I say let you go?"

Situyan turned his head abruptly, and saw that the red-robed black-haired man among the three who had never made a move was speaking.

"Let's go!" He ignored it and wanted to leave with his three men.

"Since you're here, let's all stay." The faint voice sounded in a low voice, "After all, the family has to be neat and tidy."

Weeds have to be eradicated, and Wang Yi will not do anything like letting an enemy who has deep hatred with him leave behind troubles.

"Boom!" A mighty flame spread out this endless void.

hum! At the same time, six pairs of huge gray wings appeared behind Wang Yi, emitting endless gray rays of light, covering all time and space.

The power of the eternal true god-level mechanical flow field treasure "Yanhaizhu" and the eternal true god-level top auxiliary mechanical treasure "chaos wings" were superimposed on Luo Feng's thoughts of the void, and the power of the void field suddenly soared to a new level.

Si Duyan and other four true gods of the void immediately felt that their own domain was completely suppressed, and there was a light of anger in their eyes.

"you..."

"Kill!" Luo Feng and Yuan Zu looked at each other and shot again.

"Kill, don't let them go." And the spaceship's steward Lei also drank it out at this time, "Young Master, you stay here, Chang Chu, Darcy, you and me." The boy in white was a little unwilling, "Detonator Home,

I can too..." Butler Lei ignored him. "Young Master, you stay on the boat to control and protect the people here."

The boy in white looked behind him and sighed. "Okay then." He looked at Wang Yi and the others with envy and fascination, "I don't know where those three came from, but they are so tyrannical. It would be great if we could get to know them."

Under the attack of Luo Feng and Yuanzu, although Wang Yi did not directly take action, he also took action to suppress it. In addition, the auxiliary Lei Butler was also good, and there were also two captains of the guards of the Void True God who played soy sauce... The remaining four Void True Gods The robbers were besieged one by one.

The one who persisted the longest was Na Situyan. Seeing that there was no hope of escaping, he became crazy, performed a secret technique, and his power exploded. He almost didn't take away the guard of the Void True God on their side, but that was the end of it. He was slashed by Luo Feng, ending the sudden battle.

"Thank you for your help, I am grateful." Butler Lei said with a hint of respect and gratitude. Although he is also the true **** of the void, he can see that the three true gods of the void are not ordinary at present.

Can an ordinary Void True God kill four Void True Gods with one blade?

Ordinary Void True God, can there be an Eternal True God-level mechanical flow treasure on his body?

You must know that it is his mountain master, and he does not have it on him.

It guessed that the three Void True Gods should be from which big force, of course, did not dare to neglect, and bowed his head in attitude.

"We just happened to meet." Luo Feng smiled.

The boy in white also flew over at this time and expressed his gratitude to Wang Yi and the three of them with a very enthusiastic attitude.

"Several, my father is the owner of Xuekou Mountain. If you don't mind, please come to my mountain for some time to express my gratitude."

"Blood Bandit Mountain?" Wang Yi and the three looked at each other. Such a coincidence?

"May I ask who your father is..." Yuan Zu asked.

The boy in white immediately replied: "I am Ao Dongwu. My father is Ao Yuan, the owner of Xuekou Mountain. I have two mothers. They and my father founded Xuekou Mountain together."

"The three eternal true gods of Blood Bandit Mountain are your parents?" Wang Yi couldn't help but say.

"Yes." The boy in white said that his father was also a little proud.

"My father already knew what happened here, and is rushing over now. If he knew that you rescued me, he would definitely thank you."

"Cough." Butler Lei coughed lightly from the side, "Three adults, my young master is also sincere, and wants to invite you to my mountain as a guest."

Wang Yi, Yuan Zu, and Luo Feng looked at each other with a smile in their eyes.

"it is good."

...

On the spaceship, those true **** guards looked at Wang Yi and the three in awe. Those who were hiding in the spaceship also saw the battle scene just now. The powerful void true **** robber was easily killed by these three people. What kind of strength is this.

"They must be the absolute masters of the Void True God."

"Great master."

"Butler Lei and the young master are so polite to them."

"If I break through the void true **** in the future, it would be great if it is as powerful."

"It's up to you, let's break through first."

In the luxurious hall in the spaceship, Wang Yi and the three were sitting on chairs, while Ao Dongwu, a young man in white, was introducing his two wives. "Big Brother Jiujiang, Big Brother Jiangnan, Big Brother Yuan, these are my two wives." The two beautiful women also saluted restrainedly.

Wang Yi, Luo Feng, and Yuanzu all made it a little unnatural for the enthusiasm and familiarity of the boy in white.

But this kind of personality won't make them hate it. They can all feel the "sincere" of this young man.

After the reception, they got to know each other a little more, and the boy in white asked casually, "By the way, where did you guys come from, Brother Jiujiang?"

Wang Yi touched the soft white fur of the pet-like "Chi Li" on his knees, and said with a smile, "We come from the same place, because of some rules, it's inconvenient to tell the exact origin. Brother Ao, please forgive me."

"Little brother Ao" immediately understood. "I understand, Brother Jiujiang, your sect must be very big."

Wang Yi smiled without saying a word. His sect? Depends which one. If it is the cheap teacher "Ming", it is really big and boundless, the **** king of the origin continent wants to squeeze in when he breaks his head...

[Chapter 830: Mountain owner](#)

On the periphery of the Tianji Mountains where colorful clouds and mists are surging, three streamers are flying fast.

Without even deliberately restraining the breath, the terrifying coercion was overwhelming, causing countless creatures in the mountains along the way to tremble.

Even the Void True God trembled, and the Eternal True God looked serious.

The black-robed, purple-haired man's face was cold, and there was a trace of anxiety in his eyes.

"I just said, you shouldn't pamper your child, but you still dote on him so much."

The two women next to you didn't say a word, and you don't usually see you saying that when something happened to your son, you're to blame.

"Si Duyan..." The black-robed man with purple hair fluttered with long hair, and his eyes were cold. "If you dare to hurt my child, if you flee to the ends of the earth, you will have to suffer all punishments and die."

At this moment, there was movement from the communication token on the black-robed purple-haired man.

The black-robed, purple-haired man was startled and quickly communicated.

"Mountain Lord."

"Butler Lei, how is the situation?" The black-robed, purple-haired man said quickly. "I've already rushed over with my wife, and you insist..."

"Mountain Master, we're fine." Butler Lei said.

Black-robed purple-haired man: "???"

Butler Lei knew his master's mood, he quickly explained what happened, and then said respectfully: "The mountain master, the young master and I are now bringing the three guests here."

"I see." Ao Yuan, a man with black robe and purple hair, turned off the communication token with a slightly complicated mood, looked at the two wives who were looking at him with concern, and said slowly: "It's alright, the child was rescued..."

...

It was not until two days later that Wang Yi and the others met the three mountain masters of Xuekou Mountain.

"Father, mother, you came so fast." Ao Dongwu, the boy in white, was a little happy and a little surprised.

Aoyuan glanced at him coldly, causing him to shrink his head, "For you, your mother and I specially used a temporary emergency teleportation array to rush to the nearest place to the Tianji Mountains, otherwise you would think that Why so fast?"

Ao Dongwugan laughed, knowing that he really got into trouble this time, so he simply shut up.

"Thank you three for saving Xiaoer and the others." Ao Yuan bowed to Wang Yi and the others seriously. "I have written down this favor with Aoyuan."

Wang Yi and the others were a little surprised. They didn't expect that the powerful Eternal True God could treat the Void True God so politely. But they also know that this is because they saved his son, and

it can be seen that the husband and wife of the black-robed and purple-haired man still value their children very much.

"The three mountain masters are polite, we just tried our best." Wang Yi said modestly.

"Haha..." The black-robed and purple-haired man laughed, "You don't have to be polite, I, Aoyuan, also understands people, the grace of saving lives is the grace of saving lives, how can I not repay, this time I have to live in our Blood Bandit Mountain for a while. , let us treat you well, or others will think that our blood bandit mountain does not know how to be kind."

Wang Yi and the others looked at each other, and the owner of Blood Bandit Mountain said so, so they pushed the boat along with the flow, "Then I'll disturb you."

Ao Dongwu, a young man in white, smiled happily beside the two beautiful women, but he was immediately started to train by one of his ears. The majestic black-robed and purple-haired man twitched at the corners of his mouth and touched himself subconsciously. ears, and then coughed lightly, "There are guests here, let's go home."

Ao Dongwu: "..."

When the three mountain masters came over, they were very anxious and fast like meteors. When they came back, they were much more relaxed. They sat on another ancient ship and flew back in the same direction as when they came and went. .

"About 800 years, we will be able to return to Xuekou Mountain." In the hall, the mountain owner of Xuekou Mountain smiled and said to Wang Yi and others, and then warmly welcomed Wang Yi and the others, and the two sides began to chat.

"The three of us have been cultivating in a certain place before, and we didn't come out to see it until recently when we succeeded in our cultivation." This is what Wang Yi and the others said about their origins, and they said it very vaguely.

Aoyuan nodded, not sure if he believed it or not, but it didn't matter. Aoyuan had lived for so long and knew that everyone had their own secrets and there was no need to delve into them. The important thing is that they are the saviours of their own sons.

Since Wang Yi and the others said that they had just come out to travel and see, then Aoyuan Mountain Master also began to talk about the origin of the continent.

In the continent of origin, the top power is the kingdom of God, but even in the kingdom, there is still a gap, and it can be roughly divided into weak countries, medium countries, and powerful countries.

Like Baoli Kingdom, Shanpeng Kingdom, and Tianji Kingdom, these are weak and small countries, and they are forced to unite to protect themselves.

Such as Jin State, Fan Bei State, Wu State... In fact, they are all medium-sized countries, but Wu State is considered to be the pinnacle of medium-sized countries and is close to a powerful country.

Food Nation, Tianmu Nation...is considered a powerful country.

The kingdom is just a statement, it is a general term for the power of the god-king. For example, the sect established by the god-king is a kingdom, and the tribal power of the god-king is also a powerful country. Even a god-king built an island, and the endless area around that island is also a god. Kingdoms...and so on.

There are hundreds of god-king forces in the origin continent! But the number of **** kings is much more than this, and some forces have multiple **** kings. At the same time, there are multiple **** kings, which are very powerful!

Like the three major forces recognized as the strongest in the Origin Continent, "Wujianlou", "Jieshan Palace", and "Dayue Kingdom", there are many god-kings.

Aoyuan Mountain Master said here with emotion: "The three superpowers, Wujianlou is faintly the first, the most mysterious and detached, but not competing for hegemony. There are a lot of **** kings in the alliance, and it can be said that the power is like a cloud. The Kingdom of Dayue is the most powerful country in the origin continent. The king of the Kingdom of Dayue, Goujian, also has the invincible name, the kingdom of God that has been destroyed since the founding of the country. There are some better ones, constantly expanding, occupying the most expansive territory of the origin continent, and there are other kingdoms of the gods who bow their heads and lord it over the world."

Although Wang Yi and the others had also learned something about the Origin Continent, what they heard from Ao Yuan, a core member of the big sect, was more vivid and detailed, and they listened with great interest.

"In addition to the top-level god-king forces, the forces created by the next-level Chaos Realm giants are considered powerful forces." Master Aoyuan smiled, glanced at Wang Yi and the three, and explained, "The Chaos Realm giants are also Chaos Realm. Master, second only to the great existence of the invincible God King." His tone carried a hint of yearning and envy.

In the Origin Continent, the forces that can truly stand on one side are at least the forces that have Chaos Lord in their seat.

Like the Dragon Mirage Island in the Dragon Mirage River, how long has it existed? Incredibly ancient.

However, the Luofu City created by the Luofu City Lord on the edge of the Long Mirage River, said that it would be destroyed if it was destroyed.

The Eternal True God is barely considered a powerhouse in the Origin Continent, but he cannot support a real power.

The battle of the origin continent is very cruel. For resources and for the sake of the site, one force fights and kills each other. Without a strong enough strong person to sit in the town, it is difficult to gain a firm foothold in the origin continent. You can only hide in a remote place to develop, and it will not develop. .

"The origin continent, below the true god, are all ants."

"Void True God, a bigger ant can be a little overlord in some corners."

"Eternal True God, he is a master, he can find a place to dominate one side."

"The master of chaos is the real giant. The powerhouse that the king of gods will value, and whichever country he goes to, can be named a prince. If he becomes a king of gods, he can even be named a king and be on an equal footing with the king of gods."

"The legendary **** king...that is the existence at the pinnacle of the origin continent, the greatest existence, the invincible existence who sits on the town to open up a vast kingdom, worshipped by countless people under his command, and enjoys the era of hundreds of millions of reincarnations!"

Aoyuan Mountain Master said excitedly.

He, Ao Yuan, is an eternal true god, the master of the famous Blood Bandit Mountain. He dominates one side and has a great reputation, but in the eyes of a **** king, he is just a bigger ant. One look can kill countless people.

You don't even need to do anything. With a single order, countless strong men under your command can make others fall to the ground.

"The Eternal True God is nothing in the vast Origin Continent. Maybe he is the master of Chaos, so that the King of God can pay more attention to it, and he can traverse the Origin Continent." Ao Yuan said with emotion, shaking his head. "My sect, Changhong Sect, was founded by an ancient chaotic master. It has lasted for millions of reincarnation epochs, but so far, no second chaotic master has been born, which shows how difficult it is."

The Era of Reincarnation is the origin of the continent, and it is the era of reincarnation of the universe.

A cycle of eras is a cycle of eras, about ten trillion eras.

And the time of the first era is the same as the universe sea, which is 10,000 years.

The origin continent has endless years, and the millions of reincarnation epochs seem to be long, but in fact, they are just a small wave in the long river, and they are inconspicuous.

But it is enough to witness the rise and fall of countless forces.

Wang Yi asked curiously: "Master Aoyuan, you said that the Wujianlou is the first force in the origin continent, do you know what is special about the Wujianlou?"

Wujianlou, Wang Yi also saw a lot of descriptions in the inheritance information, but after so many years, the inheritance information can not be trusted completely, and he has to ask the local powerhouse.

For example, Ao Yuan, as the core disciple of the Chaos dominant force, must know some information.

Ao Yuan glanced at Wang Yi and said with a smile: "It seems that the little brothers in Jiujiang are really obsessed with cultivation. They haven't gone out for a long time, and they don't even know about Wujianlou."

"Did you know... Origin Continent, almost every city built by a larger force has an Infinity Tower?"

The three of Wang Yi were stunned, and couldn't help but say, "Every city built by a larger force has an infinity tower?"

"Yes." Ao Yuan nodded, "Because Wujianlou once publicly said long ago that it would never compete for territory, nor interfere with the territory of other forces, but there is a requirement... that every important city of each force must have a Wujian. building."

"How powerful is the Wujianlou? When they say this, other forces do not want to and dare not offend the Wujianlou, so they let the Wujianlou appear in their city, and some big forces who are qualified to oppose the Wujianlou do not need to be against the Wujianlou. They are bad friends, so they also built branches in their city along with Wujianlou."

Aoyuan Mountain Lord sighed with emotion: "So whether it is the kingdom of God, or the sphere of influence of the top sects. Or the tribal city, some super-existing sites... As long as the city reaches a certain scale, almost there is the existence of Wujianlou! "

"It can be said that Wujianlou may be the only one of the many forces in the origin continent that spreads and expands the power of practitioners throughout the continent."

"Although it does not expand and occupy territory, every faction is more or less affected by it."

Luo Feng blinked, "It sounds very powerful."

Yuanzu asked: "Wujianlou must have their reasons for doing this, right?"

"Reason?" Ao Yuan smiled, "Of course there is a reason, the most important thing in the origin continent is talent and resources. Wujianlou is distributed throughout the continent, and almost no one dares to provoke it, while Wujianlou uses its geographical advantage to openly solicit Genius from all sides."

"They don't just recruit talent, they also do business!"

"The Origin Continent has the most teleportation arrays, the Wujilou Building!"

"The largest platform for trading treasures in the Origin Continent is also the Infinity Building!"

"The secret law of the origin continent has the most inheritance, and it is still Wujilou!"

"As long as you dare to sell it, they will accept everything! Including the core inheritance of the **** kings of other forces, regardless of their origin, they will never spit it out easily when they are in their hands." Aoyuan said lightly. "Anyway, they're not afraid of offending people."

"As long as the price is right, Wujianlou sells everything! The treasures and inheritances coveted by Chaos Masters are available in Wujianlou!"

"Chaos dominates the guard, the price you offer is not a problem."

"A team of Eternal True God slaves? All are sold!"

"If you want the advice of the great gods and kings, no problem, just give the money!"

"Wujianlou is such a force. They will not interfere with all parties, but they do almost everything, but no one knows where their power nest is. The real core members of Wujianlou are bound by oath, and they have never leaked Wujian. So Wujianlou is very mysterious, maybe only the real top forces know some of their secrets. UU reading www.uukanshu.com" Aoyuan sighed.

Wang Yi and the others looked at each other.

"Sounds exaggerated." Yuanzu said with emotion.

Wang Yi nodded secretly, Wujianlou is indeed the most mysterious and detached force in the origin continent.

Even the kingdoms of Jin and Wu know very little about it.

Ao Yuan smiled and said, "We have a Wujian Building in Xuekou Mountain. If you are interested, you can go and see it at that time. Almost everyone who travels in the Origin Continent has to deal with a Wujian Building. For example, if you want to know Some secret information, inquire about news, Wujianlou can do it for you, if you want to buy rare and rare treasures, Wujianlou has a special space for transmission, which can help you collect it and deliver it to you at the fastest speed. Of course, the price is also very expensive, and you need to pay a deposit !"

"There are even many precious and powerful secrets in Wujianlou. The inheritance of secrets in Wujianlou is probably the most in the entire continent."

"And...if it can be absorbed into Wujianlou and the core layer, then there will be a big backer. It can be said that one step to the sky and becoming the eternal true **** are the most basic." Aoyuan said with emotion. "However, the recruitment conditions of Wujianlou are very harsh, and it is not something that ordinary people can achieve. You will know when the time comes."
