

## A God 831

### [Chapter 831: Infinity Building](#)

An ancient ship sails in the boundless world, and the years go by.

One day, a group of people came to a vast plain.

Looking at the dim night sky in the distance, there are powerful fluctuations like an ocean of ups and downs, boundless! In the extreme darkness, there is a blazing light flying, dazzling and demonic.

"There is the ruins of the night." Seeing the doubts of Wang Yi and others, Ao Yuan said.

"It is said that before countless years ago, a supreme god-king once fell here. The battle of the god-king completely changed the environment here, and it has not recovered until countless years have passed."

"Have you seen that dark sky? It's completely different from the rest of the Origin Continent." Ao Yuan said, "This is what the power of the king of gods caused. Even if the battle happened countless years ago, the influence left over is still passed down to this day, and changes have also occurred in the interior. , There are many dangers, and even the chaotic masters dare not go deep in the deepest part, from ancient times to the present, there have been many strong people who have gone in to explore and many died in it."

Wang Yi and the three were amazed at the boundless darkness, and the power of the God King formed an intuitive impression in their minds.

"However, the real danger of the ruins of the night is underground. We pass through the air, but it is not very dangerous." Aoyuan smiled slightly. He pointed in another direction. There is a faint outline of a city. "That is Heiye City, and it is also an incomparably ancient city. I heard that there is a saint who lives in seclusion there, but I just heard that, I don't know if it is true."

The ancient ship flew directly into the boundless darkness, faintly feeling the impact of the force like the current, but the ancient ship still moved forward steadily.

"Unconsciously, another five hundred years have passed, and time has passed so fast." Wang Yi secretly said in his heart: "The origin continent is vast and boundless, and it takes a long time to travel. It is like the eternal \*\*\*\* who wants to cross the origin. Continent, I am afraid it is difficult, and only Chaos dominates and above, has this kind of ability."

"If there is a magic circle, the teleportation will of course be much faster, but there are a few Chaos Lords who are willing to teleport all the time, and some places can't be teleported."

The more he learned about the origin continent, the more Wang Yi felt that the origin continent was mysterious and vast.

But... even more vast is the infinite Chaotic Source space!

The Origin World where the Origin Continent is located is just a tiny corner of the infinite Chaotic Origin space.

The so-called supreme \*\*\*\* kings of the Origin Continent, placed in the Chaotic Source space, do not even have the ability to survive.

Like coming into contact with the outside of the "Fan Cage", it is at least the third level of the universe god, which is the ultimate realm.

Whether the Origin Continent currently has the third level of the Universe God is unknown.

Knowing the insignificance of the Origin Continent in the Chaotic Source Space, and his different perspectives, Wang Yi's mentality when looking at the Origin Continent is also different.

The source world seems to be long, but there will eventually be a day when it will fall into reincarnation and shatter.

When that day comes, it will not be the ultimate realm, and it can only be destroyed together with the source world.

The origin continent and the three thousand latitude cosmic sea are not spared.

Everything he cherished and protected will also be lost.

"First become a \*\*\*\* king... and then become a Chaotic Source..." Wang Yi's eyes were deep and determined.

"It's not a Chaotic Source, it's just a pitiful life of Fan Long."

"Only by becoming a Chaotic Source, a Chaotic Source Lord, can there be a chance of eternity."

Wang Yi does not think that the Lord of Chaotic Origin is invincible, that he is the highest realm of the infinite Chaotic Origin space... It may seem so, but Wang Yi feels that the Chaotic Origin Space should have deeper secrets.

"The source world is a cage, and the Chaotic Source space is not necessarily a bigger cage."

It's just that he has to come into contact with that level before he can explore.

...

Another three hundred years later, Wang Yi and his party came to Xuekou Mountain.

From a distance, you can see that the blood is shining brightly under the vast sky in the distance, and there is an incomparably majestic crimson mountain standing in the heaven and earth, radiant, grand and vast.

"This mountain of blood thieves is estimated to be a million light-years tall. What about Luofu City? It's far worse than that." Wang Yi and the others looked at the scene in front of them in surprise.

"Haha... This is our blood pirate mountain." Ao Yuan said proudly, this is the foundation he has worked hard for many years. "In the area of hundreds of millions of light-years, our Blood Bandit Mountain is the biggest force."

"It's amazing." Yuanzu praised.

"Ashamed to say, there is such a grand occasion, and it is also the help of the sect." Aoyuan smiled, "It is difficult for us and the three of us to build such a huge site, and the resources spent are not enough for the Eternal True God to go bankrupt. arrive."

Ao Yuan is a high-level leader of the holy-level force "Changhong Sect". His Blood Bandit Mountain can become the strongest force in the surrounding area, and he is also fully supported by the "Changhong Sect".

For example, Luofu City is not the real subordinate of the owner of Long Mirage River. Even if it is destroyed, the owner of Long Mirage River will not care, let alone support it.

The ancient ship flew to the top of the majestic blood-colored mountain. People in the ancient ship could see countless buildings and people on the mountain, all kinds of creatures, and an area of millions of light years, comparable to a star field, and the living life was not counted. Aoyuan said: "In Xuekou Mountain, there is a formation protection, and high-altitude flying and teleportation are prohibited, but we are different, we can go directly, otherwise only relying on flying, Eternal True God needs some time."

Wang Yi, Yuanzu and Luo Feng nodded.

In an area of one million light-years, the true \*\*\*\* can fly a million times the speed of light, and it takes a year to pass through.

If it is teleportation, a thought will do.

When the ancient ship appeared above the endless palace complex, a streamer flew from below.

Hundreds of true gods of the void and tens of thousands of true gods wearing uniform blood-colored armor flew to the ancient ship, arranging in formation, with respectful expressions and magnificent momentum.

"Welcome the return of the mountain master!" A mighty voice echoed throughout the mountain.

"Little brother Jiujiang, let's go down, I have arranged a banquet for you to catch the wind and dust." Aoyuan Mountain Lord said enthusiastically.

Just as he was about to speak, Ao Dongwu, a young man in white, was dragged by his two mothers to preach, and his two daughters-in-law followed in a hurry.

"Uh, Brother Dongwu, he..."

"Don't worry about him, he will come over later." Master Aoyuan Mountain did not change his face. "He went out to take risks without our permission this time, and almost made a big mistake. If he doesn't train him well, he will get it in the future."

"You have to take care of it." This is someone's family business, and Wang Yi couldn't say anything. The three followed Ao Yuan and walked into the palace with a group of Void True Gods.

The Void True Gods of Blood Bandit Mountain looked at these "guests" with curiosity in their eyes. I don't know why the Mountain Master was so polite to several Void True Gods, and they were all guessing their origins.

And some well-informed people began to make noises to Butler Lei.

"Kill four Void True Gods with one knife?"

"Situ Yan, who is famously famous, died at their hands?"

"It turns out that they saved the young master, no wonder the mountain master is so polite."

The Void True Gods who knew the whole story cleared their doubts.

...

During the banquet, Ao Yuan talked about another thing.

"By the way, you killed Siduyan. Siduyan was once wanted by Kong Yanzong, and he was wanted on the Wujian upstairs. You can go to Wujian with the body of Siduyan or the evidence that can prove his death. The building has received the bounty."

"Wujianlou also offers a part-time reward?" Wang Yi and the three were a little strange.

"Why only offer a reward." Ao Yuan smiled lightly, "If you want to deal with someone, you can also offer a reward through Wujianlou downstairs. Wujianlou is an extremely terrifying force in the origin continent, and it has the best reputation. There are many strong Because of their crimes, they have been rewarded by major forces. There are also some strong people who act as killers inside, specifically for commission killings, and it is even said that there are killers at the master level of chaos."

"However, Wujianlou also has rules. Like the assassination tasks of the Chaos Master and the high-level core layers of various forces, they generally do not accept them."

"It generally means..."

"I have to pay more!"

"..."

Aoyuan raised his glass and took a sip, "I want to buy a murderer in Wujianlou, the cost is very high, Wujianlou has a strong reputation and good reputation, but it is impossible for them to take the task without paying a higher price. If you want to kill a Void True God, The general price is comparable to killing ten. Killing the eternal true god? The master of chaos will feel distressed, killing the master of chaos? The price of the king may not be willing."

"Murdering in Wujianlou depends not only on strength, but also on background. Like those high-level powers with backgrounds, the cost is even more astonishing, so unless they really want to kill, few people use Wujianlou to kill the core members of the big forces."

"You killed Si Duyan, that Kong Yanzong disturbed a lot of people in order to chase him, and finally let him escape, so he placed a reward in Wujianlou, and it is estimated that you can get a lot of bounty."

Aoyuan laughed. "We have a Wujie Building in Xuekou Mountain. If you want to get the bounty, you can go there at any time."

Wang Yi and the others looked at each other and became more interested in this Wujianlou.

...

Blood Bandit Mountain, on the lively street, in front of a rather quaint pavilion.

"This is the Wujianlou?" The original ancestor who was dressed in a white robe with a refined temperament, Luo Feng, a young man in black with short hair, and Wang Yi with long black hair in a fiery red robe stood in front of the pavilion, looking at the sign above, using extremely ancient The common language of the origin of the continent is written with the three words "Wujianlou".

This building is a hundred light-years high, and it is not a big deal in the entire Xuekou Mountain, but in this street, it is extremely amazing, and it has the feeling of "standing out of the crowd", which can be seen from a distance.

"It is said that every Wujian Building scattered in the Origin Continent is exactly the same, and there is no difference." Wang Yi said, "Through the Wujian Building, you can transfer items and reach another place in an instant. Therefore, it is very convenient to trade in the Wujian Building. Yes, but Wujianlou does not accept ordinary people, even if it is the true \*\*\*\* of the void, you have to prove that you can become a customer of Wujianlou."

How to prove yourself, one is strength... the other is money.

After all, although Wujianlou is mysterious and powerful, it is open for business.

As long as you have money, even if you are immortal, you can become a guest of Wujianlou.

The feeling of Wujianlou to Wang Yi... is very real.

I just don't know who the owner of Wujianlou is.

The three walked in. On the first floor, there was a vast hall, and the hall... was empty.

brush!

A cyan figure appeared out of thin air, condensed into a green-robed woman, and looked at the three with a smile.

Even Wang Yi couldn't see how this woman appeared, but he already knew something about Wujianlou, and knew that this woman should be controlled by the "Wujianlou" artifact spirit, like a subsystem differentiated from intelligent life.

Although Wujianlou has real life to manage other affairs, the real control of Wujianlou's operation is similar to artifact spirits. They are all absolutely loyal, so there is no need to worry about Wujianlou leaking out.

In fact, in the Origin Continent, such as Baoliu Pavilion, Wujianlou... This kind of industry spread all over the world, the real control is all the artifact spirits and puppets.

"Welcome to the three guests, this is the first time for the three guests to come to my Wujian Building?" The woman in green robe had a smile that made people feel like a spring breeze. Although her face was hazy, she seemed to condense all the beauty in the world, making people unconscious. good mood. "It

has been detected that the three are the true gods of the void, and the guests of the true \*\*\*\* of the void... Come to my Wujianlou, they all have requirements. I don't know if the three know?"

"What request?" Wang Yi asked. Wujianlou didn't see through his invisible disguise. Wang Yi was not surprised, because Wujianlou didn't care whether the guests were disguised or not, and the ability of invisible and invisible was also very unbelievable. Wujianlou was only the smallest here. A branch, he was surprised to be able to detect it.

The green-robed woman said with a pleasant voice, "Void True God guest, want to become our official customer of Wujianlou, one, reach the fourteenth-order combat power, this is a place where we have a special test for Wujianlou. Second, one person must be 100 million The assets of the low-quality Chaos Stone do not include the treasures and weapons on the body. Thirdly, there is a recommendation from our Wujianlou Ziling customers... Any of these three, whichever reaches it, can become our Wujianlou official customer. "

Wang Yi, Yuanzu and Luo Feng looked at each other, Luo Feng couldn't help but said, "This Wujianlou has quite a lot of requirements."

Yuanzu nodded, "Fortunately, we have met the requirements."

Wang Yi stretched out his hand and waved, and in front of him appeared a large pile of round stones of the same size with gray rays of light. There was a faint chaotic airflow lingering on them, but it gave people a wonderful feeling of attracting the soul, making people want to swallow them, "Here are three. 100 million low-grade Chaos Stone, can the three of us do?"

The green-robed woman swept her gaze and nodded, "Enough is enough, now the three are my official Qingling-level clients of Wujianlou."

"This is a token, please keep it and refine it. Only the guests can use it. Through this, you can also learn about our Wujianlou information, and various functions, you can see it. "

Sandao Qingguang flew towards Wang Yi and the three of them and was caught by them.

Wang Yi looked at a cyan circular token of unknown material in his hand, with the pattern of a building on the token.

Quickly refining, a large amount of information flooded into his mind, and Wang Yi also knew more specific information about Wujianlou.

"Qingling level? Lowest customer?" Wang Yi muttered.

In Wujianlou, each guest has a different level, which is divided into Qingling, Blackling, Purple, and Gold.

Like the Qingling class, they are generally the true gods of the void.

The black order level is generally the eternal true god.

The Purple Order level is generally the master of chaos and is called a holy existence.

Jin Ling-level, they are all characters standing at the pinnacle of the origin continent, and they are the most distinguished guests of Wujianlou.

For example, the existence of defying the sky in the chaotic master, such as the lord of a certain country, such as the \*\*\*\* king... It must be explained that as long as 10% of the \*\*\*\* king, to Wujianlou, is a golden order guest.

Therefore, in the entire continent, gold-level customers are extremely rare.

For different levels, Wujianlou will also provide different services.

For example, if you want to offer a reward to kill the Chaos Master, it is impossible for Qingling-level guests, at least black-level guests.

### [Chapter 832: Arcane Trial Tower](#)

Through the information of the green-level token, Wang Yi knew the usefulness of Wujianlou.

For example, although the Wujian Building seems to have a huge operation, in fact, there are only four main functions... Each Wujian Building is mainly divided into a secret magic test tower for testing the level of secret magic, a battle palace for testing combat power, a teleportation hall for teleportation, and a trading treasure resource. Tianbao Pavilion.

The Wujianlou is full of cultivators, and almost every important city has their presence.

But unless you become the king of gods, Wujianlou will not take the initiative to recruit anyone, and other people will take the initiative to enter Wujianlou.

This is also the agreement of the various forces and the Wujianlou.

Wujianlou cannot force anyone to join them!

And Wujianlou welcomes any genius from the origin continent to join them, but sets very strict standards.

There are two ways to enter Wujianlou, one is the secret law trial tower, and the other is the battle palace.

The secret law trial tower is used to test the law perception level and secret law level. The tester's consciousness will enter a virtual space and will face opponents with the same basic strength... For example, if you are the true \*\*\*\* of the void, then you will also face the opponent of the true \*\*\*\* of the void. , and all other conditions are the same, including weapons and armor, the testers can rely on their own law perception ability and experience to fight!

The secret law trial tower is divided into layers, which are constantly challenged from bottom to top.

The Void True God will start from the opponent of the tenth-order secret law level, and will continue to the eleventh, twelfth, thirteenth, fourteenth...

There are no room rules!

The Void True God created the top 14th-order secret technique for ordinary disciples, and the self-created 15th-order top secret technique could be the purple-clothed disciple. The self-created 16th-order top secret method can be a golden-clothed disciple!

The Eternal True God created a top secret technique of the sixteenth order for ordinary disciples, a top secret technique of the seventeenth level for a purple-clothed disciple, and a self-created top secret technique of the eighteenth level for a golden-clothed disciple.

Except for the tester's own secret technique, will, experience... everything else is forbidden in the Arcane Trial Tower!

Like occult? Various means of inheritance? Like burning magic? Such as the Secret Art of Will? Such as the speed secret technique "Donghua"? ...no! Not allowed! Once found, the test directly counts as a failure!

Testers can only use their own secret methods to break in.

"The fourteenth-order top secret method is qualified to join and become the most ordinary disciple in the periphery?" Wang Yi muttered in his heart, "The fifteenth-order top secret method can be a purple-clothed disciple. The title of a purple-clothed disciple is very high, but the most powerful It's still a golden-clothed disciple, who actually wants to create a top sixteenth-level secret technique, and can create a top-level sixteenth-level secret technique during the period of the Void True God.

You must know that the true \*\*\*\* of the void can enter the eternal true \*\*\*\* by creating the fourteenth-order secret method.

Fifteenth-order top secret technique? Only a true genius can do it, neither by years nor by human guidance.

However, there are countless geniuses in the Origin Continent, and it is not too difficult to become an ordinary disciple and a purple-clothed disciple, and it is even more difficult to become a golden-clothed disciple!

The self-created sixteenth-order top secret method is equal to the high level of the eternal true god, equivalent to the level of the two strongest 'Duandonghe' in all dynasties!

In the past dynasties, there was only one Duandong River, but the golden-clothed disciples of Wujianlou did not know how many there were.

Wang Yi couldn't help sighing when he saw this. Wujianlou, a behemoth, has cast a net in the entire origin continent. Since endless years, I don't know how many geniuses it has caught, and I don't know how many strong people have emerged under cultivation. Wujianlou is vaguely the first force in the origin continent, isn't it? There is no reason.

It can even coerce other forces to give in, and let Wujianlou develop in the entire cultivator force, which is very scary to think about.

Yuanzu shook his head beside him, "The fourteenth-rank top secret technique? My secret technique level is only the thirteenth-rank top, and I'm still some distance from the fourteenth, not to mention the fifteenth and sixteenth... This Wujianlou assessment is really high. ."

Luo Feng smiled and said: "After all, it is one of the top forces in the Origin Continent, and it is normal for the test to be difficult." He muttered again, "The sixteenth-order top secret technique? The

fourteenth-order secret technique can become an eternal true god. With that ability, who will stay in the Void True God?"

The original ancestor sighed: "So... what this Wujianlou wants is the real peerless genius, laying a solid foundation for them, consuming countless resources at a high price, honing them for endless years, and honing them to the extreme, their achievements will naturally be high in the future."

Both Wang Yi and Luo Feng nodded.

They are familiar with this kind of practice, isn't that what they do in the virtual universe company? Let those geniuses continue to push their limits and hone them.

In the most peerless world master period, he could cross the 20th floor of the Tongtian Bridge, which was comparable to the peak of the king, and was only a line away from the Venerable.

This kind of peerless genius has great hope of becoming the Venerable Universe.

And Wujianlou does the same thing, you don't look at anything, it just depends on your cultivation talent.

After all, Wujianlou spends so much thought and costs so much, not to cultivate ordinary powerhouses. To cultivate a chaotic master is not a loss, but to cultivate a god-king is to make a lot of money.

"Compared to the Void True God, the Eternal True God's requirements are not low. Ordinary disciples will not talk about it. Only if they create a seventeenth-order top secret method can they be a Ziyi disciple. Disciple." Wang Yi sighed. "It seems that the requirements are lower than that of the Void True God, but it is actually more difficult."

This is natural, and cultivation becomes more and more difficult as you go up.

For example, it is far less difficult for the Eternal True God to break through to the Eternal True God.

Chaos Lord is a giant in the origin continent, and it is an important combat power for any force.

"The seventeenth-order top secret method, even if the eternal true \*\*\*\* is the limit... The eighteenth-order secret method can become the master of chaos." Yuanzu was also a little shocked. "Doesn't this mean that in Wujianlou, only disciples who can become masters of chaos will have the opportunity to become golden-clothed disciples?"

"There are not too many such peerless geniuses in the Origin Continent. Once they appear, they will be scrambled by all parties, even the \*\*\*\* king will be moved. It is no worse than the previous dynasties of breaking the East River." Luo Feng was also full of emotion.

Even in the most prosperous period of Jin State, there were only more than twenty Chaos Masters.

In addition to the arcane trial tower for testing the level of arcane techniques, there is also... a battle palace for testing combat power.

The battle palace is different. It is to enter a special space, and then face an opponent. The testers can do their best, use all means, and have no restrictions... No matter whether you rely on treasures, powerful gods, or special bloodlines It's also good, or the secret technique, you can use it at will!

If you are strong enough, you can enter the Wujianlou.

However, the status and importance of entering through the battle palace are generally not as good as entering through the trial tower.

Because the former is to cultivate disciples and the pillar of power, while the latter is more like a thug.

The first two are to recruit talents, while the latter is to manage resources.

Like the Teleportation Hall, Wujianlou is all over the origin continent. Anyone can go to any place with Wujianlou branch through Wujianlou as long as they spend money.

In Tianbao Pavilion, there are countless practitioners doing transactions here. You can find everything here, including information, resources, treasures, cultivation secrets, hiring guards, placing bounties, looking for people to teach, etc... As long as you want, Tianbao There are almost all pavilions, and Wujianlou dares to sell almost everything.

In history, there was even a bizarre task that offered a sky-high reward for the intimate clothing of a female god-king. As a result, Wujianlou didn't know what method it used, and finally got it. Wars of several kingdoms of gods.

Of course, this is just a rumor, and Wujianlou will not take the initiative to admit it.

But Wang Yi found out that this is actually true through his own inheritance information... Anyway, many people in the circle of gods and kings know it.

Relying on the Wujianlou all over the mainland and its incomparably powerful deterrent, Wujianlou not only continuously collects talents, but also makes a lot of money.

Of course, it's not that Wujianlou didn't offend people, and it's not that no one wanted to deal with Wujianlou, but Wujianlou couldn't be helped.

Even if you kill a few branches, it's useless.

Wujianlou, always standing in the origin continent, has always been a behemoth.

...

When Wang Yi and the three were digesting the message, the woman in green robe did not speak. It wasn't until after a while that she smiled and said, "Three guests, what do you need?"

Wang Yi glanced at the green-robed woman who seemed to have all the beauty and charm in the world but couldn't see her face, and said, "Is there a wanted order for Siduyan here?"

The green-robed woman said: "Void True God Si Duyan? Yes, Kong Yanzong issued a bounty to kill Si Duyan. After confirmation, the bounty can be collected from us, but we have to charge 10% of the fee for Wujianlou. ."

Wang Yi shook his head inwardly, is this going to charge money? Wujianlou can really make money.

Wang Yi threw out a ring, "I'm here to collect the bounty, this is Si Duyan's body."

The ring was suspended in front of the green-robed woman, and the green-robed woman shot two blue rays of light in her eyes. She carefully observed through the ring... After a little while three seconds, the green-robed woman raised her head, "This is indeed the body of Si Duyan. Du Yan's mission is confirmed to be completed, is the bounty for Chaos Stone or points?"

"Points" is an internal trading unit launched by Wujianlou, which is used by customers of Wujianlou, and some rare items of Wujianlou and even some special internal transactions sometimes require points.

If you don't have enough points, it's useless even if you have money.

And points cannot be bought directly with money. There are some ways in Wujianlou to allow guests to get points, such as completing the tasks of Wujianlou, whether it is a reward or assassination, accepting the commission of Wujianlou, etc.

One point is equivalent to a top-grade chaotic stone, which is one hundred thousand low-grade chaotic stones.

"How many points can be exchanged?" Wang Yi asked.

The green-robed woman smiled and said: "Si Duyan's bounty is 25 million low-grade Chaos Stones, if you take the bounty, you will have to pay 10% of the fee, but you can exchange the points for the full amount, which is 250 points. ."

Wang Yi shook his head, Wujianlou really knows how to do business.

"Convert to points and put them in my account." Wang Yi said.

Yuanzu and Luo Feng had no opinion. Because they owe Wang Yi too much, they don't care about this money.

"It has been recorded and guests can confirm with a token."

Wang Yi looked at the cyan token, and there was indeed a new message, which indicated that his account had gained 250 points.

As for Chaos Stone, it can also exist in Wujianlou, which can be consumed at any time, but it is still 0 at present.

However, Wang Yi also thought about whether Wujianlou could confirm the user's location through the token, and he was secretly vigilant.

Although Wujianlou guarantees that it will not leak out, but... few really believe it.

It's just that ordinary practitioners don't have to worry too much about Wujianlou paying attention to them.

"What else do the guests need?" The green-robed woman always maintained a gentle attitude.

"I want to go to the Secret Law Trial Tower, how about you?" Wang Yi turned around and asked Luo Feng and Yuanzu behind him.

"Secret Trial Tower, it sounds a bit interesting, I'll go too." Yuanzu said with a faint smile.

"I'll go too." Luo Feng said.

"We all go to the secret law trial tower." Wang Yi said to the green-robed woman.

"The secret law trial tower is in the room in the corridor. Each person has a room. Each use requires ten low-grade chaotic stones, and the maximum time cannot exceed one day. If you exceed it, you will be charged separately." Pointing in the direction, as expected, there is a deep corridor entrance there.

"Let's go." Wang Yi, Yuan Zu, and Luo Feng walked towards the corridor together.

When he came to the corridor, there were rooms on both sides. If there was light on the door, someone was using it. If there was no light, it was empty. Wang Yi directly found an empty room that no one was using. He pushed the door open and walked in. .

"Squeak..." The wooden door closed slowly and automatically behind him.

Inside is a hall, the hall is empty with only one futon, very quiet.

Inside the Wujian Building, it is very safe, and fighting is forbidden. This room seems ordinary, but it is actually very difficult to destroy the Chaos Lord.

Every Wujianlou is like this. I don't know where Wujianlou has refined so many pavilions with countless forces, and can also teleport quickly and instantly.

The transmission method of Wujianlou is also the top of the origin continent.

Wang Yi sat directly on the futon, closed his eyes, and communicated with the cyan token on his body. A gentle force enveloped him from the outside. Wang Yi separated a trace of consciousness and came into contact with this force.

The next moment, Wang Yi found himself appearing in the vast chaotic airflow, with an ancient gray tower looming in the distance.

What entered was only a trace of Wang Yi's consciousness, while outside, Wang Yi still had the ability to sense and act.

"This place is similar to the virtual universe." Wang Yi looked around for a while, remembered the past, and sighed with some nostalgia, then walked towards the tower.

Because it is a virtual space, UU reading [www.uukanshu.com](http://www.uukanshu.com) thought about it, it appeared at the entrance of the tower in an instant.

At the entrance to the tower there is a black stone tablet with a line of information:

"Number: Blood Bandit Mountain, Armor 562, 441"

"Realm: Eternal True God"

"Trial Tower Layers: 5"

Wang Yi's expression is strange, does it know that I am the eternal true god?

From the previous token message, he already knew.

The secret law trial tower, one to four floors, is a void true \*\*\*\* level. It is equivalent to the tenth to the thirteenth order of the secret magic level.

The fifth to eighth layers are the eternal true \*\*\*\* level, which is equivalent to the fourteenth to seventeenth order secret art levels.

The ninth to twelfth floors are the chaotic master levels, which are equivalent to the eighteenth to twenty-first orders of secret techniques.

Wang Yi is the eternal true god, skipping the first four floors and starting from the fifth floor.

But if you want to join Wujianlou and become the most ordinary disciple, you have to pass through the seventh floor. The clearance condition of the seventh floor is to create a top sixteenth-order secret technique.

Ordinary disciples... It sounds good, but they are only members of the outer periphery of Wujianlou. They can't even enter the headquarters of Wujianlou. Only disciples who become Ziyi can be regarded as entering the interior of Wujianlou, and they have the qualifications to be trained. Being valued by Wujianlou.

#### [Chapter 833: 000 million epoch](#)

Wang Yi looked up at the towering black trial tower, and stepped into the gate.

"Wow!"

Time and space changed, and in the next instant, Wang Yi was already standing on the vast land, the black barren land stretched to the end of the horizon, and a figure sat crossed in the distance.

It was a thin man in cyan armor, wearing a white mask, only showing a pair of sharp blood-colored eyes, sitting cross-legged, on his knees was a dark cyan long sword, the sword was in the scabbard, look Looking at Wang Yi, he said lightly.

"Challenger, as long as you defeat me, you can enter the next level."

Wang Yi smiled slightly. "As you wish." He was wearing ordinary armor, and the weapons were just ordinary eternal true god-level weapons.

The thin man in blue armor stood up abruptly, his eyes lit up like two blood swords, and his might was soaring to the sky.

"Clang!"

A dazzling blue light emerged from the scabbard.

"A sword in the void, turned into eternity!" The man's cold voice came.

"Boom~~"

The vast sword energy permeated the sky and the earth, forming a void.

In a void, there is a strong sword energy, and there are countless laws and mysteries surging in this void. The whole formed by the countless mysteries of sword light is a vast dark blue sword shape, with terrifying edge and murderous intent.

The power of this sword has exceeded the limit of the Void True God!

It should be noted that the limit of the Void True God is the thirteenth-order top secret technique!

Create a fourteenth-order secret method, and you can become an eternal true god!

But the elementary level of Eternal True God is the fourteenth-order top secret technique!

If you want to pass the fifth floor, the minimum requirement is to master the fourteenth-order top secret technique.

Wang Yi seemed to be surrounded by the vast ocean world of sword energy.

A dazzling blue sword light appeared, carrying the murderous intent of a world, as if the might of a vast world were all gathered in the sword's edge, invincible, and fell down.

"Hahaha..." Wang Yi's laughter sounded.

Om~~~~ A powerful wave came. This wave was incomparably vast and powerful, but it did not affect the black earth, nor did it fight against the azure sword light that was omnipotent and destroying the sky and the earth. onto the thin man in cyan armor.

"What!" The thin man in cyan armor seemed to feel something, and his face changed greatly.

"Pong!"

The invisible power exploded in the void, the thin man in cyan armor let out a painful grunt, his figure quickly retreated, flashing constantly, and the cyan sword light also dissipated at the same time.

A thin man in cyan armor appeared in the distance, and his figure swayed before he stood still, but his breath had weakened.

He looked at Wang Yi who was standing there, his voice was low, "Is this the fourteenth-order top soul secret technique?"

Wang Yi nodded slightly, "That's right."

The thin man in cyan armor put away his sword indifferently, sheathed his long sword, sat down cross-legged again, placed the sword on his knees, and closed his eyes.

"The fourteenth-order top secret technique is enough to defeat me. You win, pass this level, and you can go to the next level."

The skinny man was right, the fifth-tier challenger's top fourteenth-order secret technique is the condition for clearance, and it is impossible to defeat him with the fourteenth-tier secret technique alone.

Therefore, only the challenger can get his approval by performing the fourteenth-order top secret technique, and nothing else.

"Boom!" A beam of blue light descended from the sky, landed on Wang Yi, rose into the sky, and disappeared at the end of the sky.

...

In another place, on the incomparably vast prairie, the original ancestor of a gentle and elegant man in a white robe stood on the grass with a smile on his face, while a black armor corpse lay on the opposite side, the corpse was blurred, and then condensed into a black armor Man, sit down.

"You won." His voice was low.

The original ancestor just killed him with a simple soul attack method.

The original ancestor shook his head with a calm expression. Now his spiritual attainments have reached the limit of the true \*\*\*\* of the void, which is the level of the top limit of the thirteenth order. Without the influence of external factors, it is an easy thing to kill a tenth-order opponent in seconds.

The original ancestor looked up at the sky, and light appeared in his eyes. "Fourteenth step, at that point, you can become the eternal true god." He murmured.

However, the thirteenth to the fourteenth order is not so easy to cross, just like the fifth-order top secret method of the universe master to the sixth-order secret method of the strongest person in the universe, it is a huge threshold.

A beam of light descended from the sky and took the original ancestor away.

...

A young man in black armor slashed the opponent in front of him with a knife.

The opponent condensed in the next moment and gave him a deep look.

"you win."

The black armored youth put away the knife and shook his head, "Tsk, the opponent on the first floor is still too weak."

"I think I can get to the fourth floor in one go."

"I don't know what kind of opponent Wang Yi is at that level."

Luo Feng muttered.

Luo Feng, who has cultivated in an era of reincarnation, has many opportunities. Once he arrives at the Origin Continent, his secret technique level is at the top of the thirteenth order, second only to Wang Yi and higher than the original ancestor.

However, the original ancestor quickly caught up with his innate talent and understanding.

Now Luo Feng and Yuanzu are at the same level in the secret technique level, both of which are the limit of the Void True God.

Beyond this limit, is the eternal true God.

Luo Feng and Yuanzu have absolute confidence in becoming the eternal true god.

Their goal is even more ambitious, to become the master of chaos...or even the king of gods.

...

Chaos airflow lingers, inside the towering trial tower, the eighth floor.

The fifth floor, the fourteenth-order top can pass through.

The sixth floor, the fifteenth-order top can pass through.

The seventh floor is the top sixteenth floor.

Wang Yi passed three levels one after another, from the fifth floor to the eighth floor, and finally met his opponent.

Holding a sword, Wang Yi released the universe field around his body, colliding with the small universe of hazy light and shadow on the opposite side.

In the collision of the universe, the weapons of the two are also violently colliding.

This space is extremely stable and can accommodate two eternal true gods fighting for life and death here. The center of the battle between the two forms a vortex. The space in the vortex is distorted, and everything in the powerful fluctuations is annihilated into nothingness.

Wang Yi slashed frantically, and the mystery of destroying a sword was filled with his sword technique, frantically slashing at the dim light and shadow on the opposite side.

On the opposite side, the hazy light and shadow were vaguely human-shaped, and only a pair of blood-colored eyes and a golden spear could be seen.

This hazy light and shadow is the opponent of the eighth floor, mastering the secret method of the seventeenth order, close to the limit of the eternal true god.

His marksmanship is also extremely powerful, every shot seems to pierce the universe, fierce and terrifying.

At present, Wang Yi, who is only the top sixteenth-level secret technique, is completely suppressed.

Under the same strength, the secret method is one level away, and the strength gap is already huge.

"destroy!"

"Destroy it! Destroy it!"

Although he was suppressed, Wang Yi was slaughtered, his eyes were red, and he was completely immersed in the mystery of destruction.

"boom!"

The opponent's long spear is like a thunderbolt, slashing across the sky, and the power also skyrockets.

Wang Yi sensed the crisis, his eyes were cold and mad, and he also waved his sword, turning it into a streamer, and slashing out with terrifying power.

The spear and the sword collided. "Boom!!!!" The terrifying explosion waves spread in all directions.

"Pfft!" The spear pierced Wang Yi's body, tore his body apart and disappeared.

...

"Failed, lost." In the quiet secret room, Wang Yi opened his eyes and muttered, with a smile on the corner of his mouth.

"But... I feel that I'm getting close to creating the seventeenth-order secret technique."

Although he failed, Wang Yi did not have a trace of frustration. It is normal to challenge an opponent who is stronger than himself.

What's more, Wang Yi's real strength cannot be displayed in the virtual space.

If he could exert his full strength as in reality, the opponent on the eighth floor would not be able to defeat him.

However... the secret technique trial tower originally tested the level of personal secret techniques.

Wang Yi sat cross-legged on the futon, closed his eyes, and pondered what he had learned from the battle just now.

time flies.

He didn't come out of the room until Yuanzu and Luo Feng had come out of the trial tower and called him.

Seeing Yuanzu and Luo Feng, Wang Yi asked, "Which floor did you break into?"

Yuanzu and Luo Feng looked at each other, a little helpless.

"The fifth floor."

"I am also on the fifth floor."

"That fifth-level opponent. It's only a fourteenth-level secret technique, but he can't beat it." Luo Feng sighed with some depressing emotion. "The only way to fight there is to rely on pure law perception. Like other secret methods, secret techniques cannot be used. It's too bad."

Wang Yi was not surprised by this either. To pass the fifth floor requires the fourteenth top secret technique level. Luo Feng and Yuanzu have not reached the realm of eternal true gods, so of course they can't pass.

"Which floor did you break into?" Luo Feng asked.

"The eighth floor." Wang Yi was also a little helpless. "The opponent on that floor was the Seventeenth-Order Secret Technique, but I couldn't do anything about him, and I was finally defeated."

"Eighth floor? You've improved a lot faster than me, we are the fifth floor." Luo Feng envied.

"When you become Eternal True Gods, once you reach your realm, your understanding of the law will be improved, and it will be a very simple matter to create the fifteenth and sixteenth-order secret methods." Wang Yi disagreed.

"Speaking of which, we should all be qualified to enter Wujianlou now." Yuanzu suddenly said.

In the Wujianlou, the Void True God passes the fourth floor of the trial tower, and the Eternal True God passes the seventh floor of the trial tower, and then he can join the Wujianlou and become an ordinary disciple.

"Even if he enters now, he's just an ordinary disciple who has no status and is only a peripheral member who is not valued." Luo Feng thought for a while and shook his head.

When others enter Wujianlou, they want to find a backer, and even the peripheral members are willing.

However, Wang Yi and Luo Feng, who have top-notch inheritance, can't be seen as ordinary disciples.

Besides, as soon as you enter, you will be restricted and have no freedom. Wang Yi and the others have no shortage of cultivation inheritance, and they have no idea of joining Wujianlou for the time being.

The three of them chatted and laughed, left Wujianlou, and walked around the city.

...

From this day on, Wang Yi and the three of them stayed in Xue Kou Mountain for a while, meditated to cultivate, and prepared to further improve themselves.

Yuanzu and Luo Feng realized the danger of the origin continent and wanted to quickly break through to the eternal real god, so they practiced harder.

When they get to this point, it will take longer for them to make progress.

Wang Yi is also practicing with the incarnation of the world beast hiding in the space of his Tongtian Tower.

There is Tongtian Tower, a peerless treasure isolated, even Wujianlou can't notice that the beast is hiding beside an eternal true god.

Time passes little by little, and there is no time in practice. In a blink of an eye, the time of the hundred billion era has passed.

Blood Bandit Mountain, in a garden full of exotic flowers and plants. In the garden, there is a lake with water plants rippling in the lake and a pavilion covered.

The three of Wang Yi and Ao Dongwu, the young master of Xue Kou Mountain, were sitting in the pavilion drinking and teasing a pair of pink and jade-carved children in Ao Dongwu's arms.

The two children have soft purple hair and \*\*\*\* eyes, which are pink and lovely.

The breath on his body is truly divine.

"Your father really dotes on this pair of children. If they are so young, let them be the true god." Luo Feng shook his head.

Ao Dongwu rubbed his head and smirked, "Haha, yes, since I have grandchildren, my father has rarely taught me a lesson, saying that a father must be dignified."

Wang Yi couldn't help but complain, "I didn't see any dignity in you."

Ao Dongwu stared, "I am also the young master of the dignified blood bandit mountain, the true \*\*\*\* of the void..."

"You can't beat any of us." Wang Yi chokes him back in one sentence.

"Uh..." Ao Dong said angrily, "The three of you are perverts, Si Duyan, if you all say kill, kill, it's normal for me to beat you, and I don't know where to teach you three perverts. My father said that you can become the eternal true \*\*\*\* in the future." Ao Dongwu sighed, "I am in trouble, my father said that I can become the eternal true god, my family is lucky, and my ancestors bless me."

"Haha... Cultivation is not that difficult. If you put your heart into it, you will find it very interesting." Yuanzu laughed.

Ao Dongwu shook his head, "It's only you who are cultivating geniuses who say that. I, let's relax and cultivate slowly." Ao Dongwu's mind was relaxed, and Wang Yi also admired his temperament. .

In fact, Ao Dongwu was able to cultivate to the True God of Void at a young age. Although there was a reason for his father, his talent was not bad, but compared with Wang Yi, the three evildoers from the universe sea, UU read [www.uukanshu.com](http://www.uukanshu.com) is more popular than dead people.

Over the years, Wang Yi and the others have gotten along with Ao Dongwu, and they have become quite friendly, but they have been hiding the secrets from the universe sea.

Like Wang Yi's real state, Ao Dongwu and his son don't know.

Wang Yi suddenly noticed that the original ancestor didn't know when he was quiet and didn't speak.

Following Luo Feng and Ao Dongwu, they also discovered the abnormality of the original ancestor, but only two children were still ignorant.

Suddenly, a mysterious aura emanated from the original ancestor.

At that moment, the image of the original ancestor in Wang Yi's eyes changed.

The invisible will, centered on the original ancestor, isolated him from the entire world.

"This, this is..." Ao Dongwu felt that the original ancestor had become incomparably tall in his eyes at this moment, like an unattainable sky.

The strength of his Void True God actually felt the insignificance from his heart.

"Yuan, isn't he the true \*\*\*\* of the void? How can he give me such a terrible feeling?" Ao Dongwu was shocked.

Wang Yi and Luo Feng were also shocked and looked at each other quickly.

"Will become holy?"

#### [Chapter 834: The original ancestor is called holy, and the original universe is seized](#)

"Will become holy!"

Wang Yi originally thought that the will to be called a saint would be born between him and Luo Feng, but he did not expect that the first will to become a saint was actually the original ancestor.

Wang Yi was a little surprised, but then he was relieved immediately.

This is the original ancestor, the genius who created the peerless secret method of the virtual universe, the real \*\*\*\* realm is whimsical and dares to take over the strongman of the original universe.

Like the queen of the world of Jin, among the true gods of the void, she is the top class! This is the top Void True God who is good at illusion. In terms of will, it has reached the level of the eternal true \*\*\*\* at the lowest level, and may even be sanctified.

The original will of the original ancestor was the limit of the eternal true god, and it is not very strange to break through now.

Luo Feng reacted immediately after being shocked, showing a happy smile.

"Original...Congratulations."

Ao Dongwu, who was next to him, was shocked at first. Hearing Luo Feng's words, what did he think of? He stared at the indifferent white-robed man, "Big Brother Yuan, have you made a breakthrough to become a saint?"

"Yes." Yuanzu was also a little excited, but his strong will still kept him calm on the surface.

"Fuck, you will become a saint, you are a true \*\*\*\* of the void, and you can actually become a saint of your will!" Ao Dongwu was excited.

"It's just a fluke, and I asked Brother Ao to keep it a secret for me." Yuanzu said.

"Don't want people to know? Don't worry, I will keep it a secret." Ao Dongwu nodded again and again, the two children who didn't know anything about him looked at Yuanzu curiously.

"Haha... Big Brother Yuan will break through to the holy level today, we have to celebrate."

Ao Dongwu asked people to prepare the banquet, while Wang Yi and Luo Feng looked at the original ancestor and transmitted their divine power.

"Original Ancestor, you have already made a will to become a saint, when will you try to seize the original universe?"

"I just made the will to become a saint, and I don't have much control, but I can try it." Yuanzu thought about it and said.

Wang Yi couldn't help nodding in his heart. In the original book, when Luo Feng entered the origin continent, he had already made his will to become a saint, and he had practiced the "Original Technique".

But Yuanzu also has a virtual universe, which is a secret method suitable for seizing a house, but he has just entered the stage of willing saint, and he is definitely not as good as Luo Feng in terms of will.

Luo Feng said with emotion: "As far as I know, depending on the strength of the original willpower of the original universe, the difficulty of winning the slaughter varies. Generally, the will can be sage and the slaughter can be successful. The most difficult one can be won as long as the will steps into the god-king level. She succeeded."

"However, seizing the original universe is a provocative thing, so you must leave the sea of cosmos and do it after arriving at the origin continent." The original ancestor shook his head, and was also extremely sighed, "If the deity is in the origin continent, the origin will want to suppress the deity. , and there is no way to suppress it. My original idea itself was fine... However, it was the wrong way."

Wang Yi nodded.

If you are in the origin continent, you can try to seize the house again and again until you succeed. The will of the original ancestor is the eternal true \*\*\*\* level, and there is a "virtual universe" that fits the original universe, so it is possible to succeed. But his deity is in the sea of cosmos, and the original will can naturally suppress him easily!

If it is in the origin continent, there is no problem. The distance is too far, and the original will of the original universe cannot affect the origin continent, so there is no way to take the original ancestor.

If you use a metaphor, the original will of the primordial universe is like a dog on a rope. If you provoke it outside the range of the rope, it can only stare, but if you dare to approach... Haha!

"The original universe has the original will, so does the origin continent also have the original will, or in other words, the original will of the original world." Wang Yi suddenly thought of this question.

The origin continent is the center of the three-thousand-latitude cosmic sea, the origin of everything, and it is vast and boundless.

It is much larger than a primitive universe.

"If it is the background of the infinite Chaotic Origin space, the soul is integrated into the origin of the world, and can control the origin of a Origin World and become the master of the Origin World, it is a world-class Chaotic Origin life." Wang Yi secretly said. "However, this is not easy, either, like Lord Xue Ying, take the Illusory Realm Road, and achieve the soul of the ultimate perfection. You can easily refine a source world, and become a Lord of Chaotic Source is like riding a rocket."

"Or, you have to master more Dao! The more you have, the more you can control the source."

The source world, there is the source! The source is the supreme rule formed by the perfect blending of the 'Ultimate Dao'. Because any source... is the ultimate level, and if you want to control it, you must have the lowest level of the second level of the universe god. If the number of sources under control can exceed half! Then you can also use this to control the supreme rules.

The origin of the world of the Origin World, the Tao contained in it... As long as more than half of the imprint can be branded, a Origin World can be refined. There is such a strong person in the infinite Chaotic Source space, and finally refining the world source and becoming a world-class Chaotic Source!

Because he has comprehended too much Dao and accumulated too deep, although he is a newcomer, he can continue to tap his own physical strength and quickly climb to the late stage of world-class Chaotic Source. It takes some time to complete the series. Even become a lord in the future!

For example, the oldest Yuan of the Chaotic Origin Lords took this path. As the oldest lord, he was a world-class Chaotic Origin being first, and then gradually became a lord after a long period of accumulation.

That's it, he has mastered too many 'daos', and even after he becomes a lord, he can create a source world! At that time, the eight lords (including Luo Feng), only 'Yuan' could do it. Send a weak life to another source world for reincarnation! The difficulty is also very high, and the best thing is 'Yuan'.

To put it simply, there are two paths to become a Chaotic Source, not counting the bloodline route.

The first way, to control the source world, there are two ways.

The first method is to cultivate many paths and try to control the origin of the source world. This has to control half of the source world, and can control more than half, what does it mean? It means that, on a large number of roads, one must reach the second-level level of the Universe God!

The second method is to spread beliefs and use the beliefs of all living beings to control the origin of the world.

The will of all beings! That is the will of the source world! All living beings believe in a strong person, and the will of the source world will also believe in a strong person. In this way, they can easily control the entire supreme rule and become the master of the source world in one fell swoop! With the help of the vast and vast power of the source world to nourish one's body, one can naturally take that step and become a Chaotic Source life.

The other one is also the most difficult... To break the law with force, above the third level of the universe \*\*\*\* is to comprehend the way of the half-chaotic source level. 'Tao' it! Relying on self-comprehension to directly reach the Chaotic Source level, this is 'breaking the law with force'.

Can become the Lord of Chaotic Source!

According to legend, if the enlightened person "breaks the law with force", he can enter this level. They have penetrated the essence of the highest level of power, and control the "Tao" of the Chaotic Source level, and every move has incredible power.

Like Lord Xue Ying... It is to take the path of soul to break the law with force, and finally become Lord of Chaotic Source.

However... In Wang Yi's opinion, the setting of the soul path of Lord Xue Ying is too outrageous. There are countless powerhouses in the infinite Chaotic Origin space for countless years, no matter how anti-sky bloodlines and outstanding geniuses, there is not a single soul path in the universe. Three levels! Even the chaotic lord, who seems to be omnipotent, can only pass on the second-level soul path of the universe god, but wait for the lord Xue Ying to be the first!

The other paths are to go to the "dao" of the half-chaotic source life, and then cross out to become a high-level Chaotic Source being, become a world-class Chaotic Source being, and then go to the Chaotic Origin Lord!

As for Lord Xue Ying, once he reached the third level of the Soul Dao Universe God... he went straight to the sky in one step, how many levels did he cross?

Although the soul path does have advantages, it can't be done like this. Other Chaotic Origin lords don't want to be embarrassed, don't they force it?

"I don't know if this world is the same as Lord Xue Ying." Wang Yi looked at the sky above and muttered in his heart.

However, after knowing how to become the Lord of Chaotic Source, Wang Yi can also try the "soul path" and be the first to eat crabs.

He glanced at the original ancestor next to him, and a strange thought suddenly appeared in his heart.

"The original ancestor also seems to be very talented in the soul path. Maybe, he can walk the soul path and become the Lord of Chaos Source like Luo Feng?"

After all, Yuanzu is a great man who dared to take over the original universe in the realm of true gods. Compared with Luo Feng, who has a "destiny destiny" with the halo of the protagonist, Yuanzu is more talented. It's just that he was obscured by Luo Feng's protagonist's halo, and in the end he could only come out to make soy sauce. When Luo Feng became City Lord Luo, the original ancestor never showed his head.

"If the original ancestor became the Lord of Chaotic Source, it would be interesting." A smile appeared on the corner of Wang Yi's mouth.

The name Yuanzu is a waste if he does not become the Lord of Chaotic Origin.

...

cosmic sea.

In the small universe of the original ancestor, the divine power of the original ancestor in a white robe sat in the temple and slowly opened his eyes.

There was a faint smile on his face.

He looked into the distance, as if he could see through the cosmic membrane wall, see through the infinite space, and see the huge primordial universe.

"Primordial Universe... I must take you away this time." Yuanzu's eyes lit up.

When the failure to seize the original universe was suppressed back then, it was impossible for the original ancestor to have no regrets in his heart.

But now, the original ancestor's will has broken through again, but there is the possibility of winning the house. Yuanzu's mood is very much looking forward to it now, like a diaosi who was rejected by Bai Fumei, and finally has the opportunity to put her under her body and do whatever she wants.

Resist it!

The more you resist, the more excited I am.

The psychology of the ancestors today is similar to this.

Yuanzu closed his eyes and began to prepare for the house seizure.

time flies.

"It's time to do it!" Yuanzu in the temple suddenly opened his eyes again, his eyes full of confidence.

He looked in the direction of the primordial universe. "Primitive Universe, be my slave obediently!"

"Virtual Universe!"

The original ancestor displayed this peerless secret technique. Under the will of the saint, an invisible but powerful force of will rushed out of the original ancestor's small universe, and smashed all the way to the original universe, where the source was.

To become a true god, the will can come across time and space, not to mention the will to become a saint. This distance is for the original ancestor. Not a problem at all.

An illusory incomparably huge virtual universe vaguely shrouded the primordial universe, as if an illusory beast opened its mouth and swallowed the primordial universe in one bite.

Virtual Universe!

The looting begins!

In the entire sea of cosmos, only Wang Yi and Luo Feng were vaguely aware of the movement of the original ancestor, and the other true gods did not realize it at all.

The original universe has also given birth to a true god, but he does not know that his original universe is about to be taken away.

"The original ancestor is going to take over the original universe." Luo Feng looked at the direction of the original universe with emotion, feeling the boundless fluctuation of will, and sighed in his heart, "I just don't know whether the original ancestor can succeed."

"Teacher Zuoshan Ke said at the beginning that I had the opportunity to seize the original universe, but he didn't expect that the first person to start was Yuanzu. This great opportunity may fall on Yuanzu."

Luo Feng had no idea. In his opinion, Yuanzu was able to take over the Primordial Universe, which was also his strength.

Wang Yi is also watching the war between the original ancestor and the original universe. Can the original ancestor take over the original universe? He was very interested.

...

Under the secret method of the virtual universe, the will of the original ancestor enveloped the entire original universe, continuously penetrated into the original universe, and invaded the land of origin.

And in the process, the original universe has been discovered, and the familiar will strikes again.

The hazy original will of the original universe was a little dazed, and then became angry.

"boom!"

The origin of the primordial universe, this strange space with countless light spots. Each light spot at the lowest level contains the divine power of the Lord of the Universe, and the strongest ones are far beyond the level of the Lord of the Universe.

When the will of the original ancestor began to try to seize the house, the original universe instinctively began to resist.

"The original will of the original universe..." The original ancestor clearly felt that the original will of the original universe was omnipresent and spread throughout the universe, but its most essential core was in the place of origin!

The countless light spots in the source land are full of vast and infinite energy, but they are useless under the attack of will. After all, the will cannot be blocked by a lot of energy. The primitive universe can only use its own will to fight the will of the ancestors. UU reading [www. uukanshu.com](http://www.uukanshu.com)

It has no way to suppress the original ancestor in the origin continent, and it cannot even deal with the original ancestor's small universe under the influence of the supreme rules. Otherwise, if the power of the universe is mobilized, even the \*\*\*\* king can be killed, not to mention the original ancestor Xuxu, a void true god. universe.

Therefore, the original universe can only passively resist, and cannot actively fight back, which has to be said to be a tragedy.

The original will of the original universe has no emotions, only basic wisdom. Even at the end of the original universe, after the original universe is finally destroyed, it can still exist, and manipulate the origin of the universe left after the destruction of the original universe to give birth to a new original universe.

But it also has an instinct to survive, it doesn't want to be taken away, then its will will be wiped out.

The original ancestor shook his head, there is no right or wrong between him and the original will, but the position is different.

"But after all, it's just instinctive will. The method of applying will is too clumsy and simple. How can it be my opponent, let me take it away!" Yuanzu broke out.

The confrontation between the original ancestor and the original universe has been going on, gradually affecting the entire universe.

The ancestors of this generation, the three ancestors, suddenly felt a sense of palpitations.

It's like... it's going to change?

[Chapter 835: Yuanzu: It turns out that I have invincible resources](#)

In the Origin Continent, in order to avoid being disturbed by many people, when they seized the original universe, the three original ancestors left Xuekou Mountain, came to a deep mountain hundreds of millions of light years away, entered the Tongtian Tower, and then the original ancestors The looting began.

In a space in the Tongtian Tower, on a high mountain, the original ancestor dressed in white sat cross-legged on the mountain peak, and his body also exuded more and more willpower shocks outwards, and waves of willpower shocks permeated in all directions.

The will of the holy level, unreservedly released, is earth-shattering, and the space is full of ripples.

In the distance, Wang Yi and Luo Feng floated in the air and looked at the original ancestor.

I just felt the endless terrifying shock of will sweeping. Their will is strong and can resist the unconscious will of the ancestors.

"You said, can the original ancestor succeed in winning the house?" Luo Feng said.

Wang Yi glanced at Luo Feng, "Should we take a bet..."

"I bet Yuanzu can succeed." Luo Feng said before he finished his words.

Wang Yi: "..."

Why don't you play cards according to the routine.

Yuan Ancestor sat cross-legged in the distance, with his eyes closed, exuding endless coercion.

...

The war between the original ancestor and the original universe has been in full swing.

The will of the original ancestor has penetrated into the original universe, broke through layers of obstacles, and entered the land of origin.

Came to the deepest group of hazy colored rays of light.

This is the original will of the original universe.

Now there is no protection, and it is naked in front of the original ancestor.

"I won." The ancestor made a low voice, his will condensed into a sword, and stabbed into the hazy colored light.

"Boom~~" Ignoring the resistance of the original will, the original ancestor stabbed into this group of original will with a sword, shattering the original will of the original universe, and at the same time, the original will of the original ancestor replaced it and controlled the original universe.

The ancestral religion.

"what?"

The three ancestral gods all changed color and suddenly stood up.

They felt that an invisible and tight thread that originally connected them was suddenly broken, making them look horrified, but before they could react, a new will came.

"Boom!" Endless coercion descended.

The three powerful ancestral gods knelt down together.

The will circled around them and quickly retreated, and the three ancestors of the ancestor gods looked at each other, all with lingering fears and unbelievable faces.

"This is the original will of the new original universe?"

"how come..."

"What about the original will?"

...

Origin Continent.

Inside the Tongtian Tower in the deep mountains, the original ancestor slowly opened his eyes and showed a faint smile.

Wang Yi and Luo Feng, who had been paying attention to the original ancestor, moved in their hearts and looked at each other.

"ended?"

"Looking at Yuanzu's expression, it should be a success, right?"

The two instantly appeared in front of Yuanzu, and Luo Feng asked directly, "Yuanzu, have you succeeded?"

The original ancestor nodded and smiled. "Success."

Wang Yi and Luo Feng's eyes lit up.

really succeeded.

"Yuanzu, what does it feel like to take over the original universe?" Luo Feng asked.

Wang Yi is also a little curious, what is the difference in taking away the original universe?

"What do you feel?" Yuanzu showed a thoughtful expression. He said slowly: "The process of seizing the original universe is actually not so thrilling, because the original will of the original universe is too weak, it cannot mobilize the power of the universe, and it cannot get the help of the supreme rules, so it can only fight against me with its own will... The original origin of the universe The will has only the most basic wisdom, but it feels like a child to me. Its will is not weaker than mine, but its use of will is very crude and crude. As soon as I use the virtual universe, it is suppressed by me and desperately resists. I broke through the obstacles all the way, went directly to the land of origin, and then destroyed the will of origin."

"After destroying the original will, I imprinted my will in the origin of the original universe and became the original will of the new original universe."

"At that moment, endless information came to my mind."

"It's as if the primordial universe has become myself, and all operations are in my heart. The mystery of the primordial universe's operation, the structure of the primordial universe, the ten fundamental laws and the countless fusion laws hidden in the original laws of operation... Countless ethnic groups, space interlayers. One by one, the kingdoms of the gods, all the way to the periphery of the cosmos sea, I don't know how many Xeon treasures left over from the reincarnation era, various ancient inheritances, and many items floating from the origin continent."

"The farther away you are from the original universe, the lower the maximum power that the original will can exert. However, the perception ability will not change due to the distance. As long as it is the cosmic sea of this dimension, it is within the perception range of the original will."

"However, even if you successfully seize the original universe, you must follow the supreme rules. You cannot mobilize the original power of the original universe and the mighty power of the cosmic sea at will, but you can master some subtleties yourself." Yuanzu said. Showing a smile. "Actually, to take away the original universe, the most important thing for me who came to my origin continent is to understand the laws of the universe's operation. After all, the original universe is the most perfect universe nurtured by the universe, and the laws of the universe are so perfect that it has become the original universe. The original will, I can perceive the operation of the universe without reservation, I can quickly improve my understanding of the law, and I feel that I will soon be able to break through to the eternal real god."

"If you seize the original universe, there is hope to become a \*\*\*\* king. This is a big chance. Now this opportunity has been obtained by the original ancestor. It seems that the original ancestor will become a \*\*\*\* king in the future." Luo Feng's eyes lit up.

His teacher, the mountain guest, is the king of gods. He has been reincarnated in the origin continent and will return quickly.

He, with a 100,000-fold divine body, has a top-level inheritance, and it is not a problem to become a \*\*\*\* king.

Wang Yi will not say it, it is mysterious and unpredictable, more powerful than him, and Luo Feng has more confidence in him than himself.

Now that the original ancestor has seized the original universe again, relying on the original universe, there is also a chance to become a \*\*\*\* king in the future, then there are four \*\*\*\* kings on their side...

By the way, plus Wang Yi's incarnation of the world beast, the world beast king at the peak of maturity, that requires a group of nations to unite to resist, it is equivalent to a group of \*\*\*\* kings.

Thinking about it carefully, Luo Feng felt that the future of their group was bright.

The two were also happy for the original ancestor.

Wang Yi was even more emotional.

In the original work, the original ancestor can be described as the greatest leader of the human race, the earliest pioneer and pioneer.

He is not like Luo Feng. There are powerful people who protect him when he is weak, and others who bestow treasures, inherit and protect him. He came to this world, and the road ahead is dark. The human race is struggling in the universe to fight for survival. Along the way, I do not know how many ups and downs I have experienced.

However, it was him who allowed mankind to form a peak group from the weakness of the universe.

It is him who guides the high-level leaders of the human race, such as the Chaos City Lord, the founder of the giant axe, the Lord of Dragon Walk, the Lord of Ice Peak, the Lord of Darkness, and so on, to make the human race stand tall.

It was him who left behind the virtual universe and kept the power of the human race together. It was a unique existence in the original universe.

After reaching the peak of the universe sea, he was even more daring, suspecting that the reincarnation was a conspiracy of the primordial universe, and resolutely challenged the primordial universe, wanting to take over the primordial universe!

This idea, the strongest in other universes dare not even think about it. It was the original ancestor who dared to do it.

Such a person with unparalleled talent and amazing talent will not be buried when he comes to the Origin Continent.

"In addition, after becoming the original will of the original universe, I also learned many deep secrets, such as the crisis of the beast." The original ancestor's words attracted Luo Feng and Wang Yi.

"Beast crisis?"

"Yes." Yuanzu nodded with some emotion. "The crisis of the beast is not born for no reason. Everything in the world has two sides. If there is light, there is darkness. If there is birth, there will be destruction.

"The primordial universe nurtures and nurtures all things, nurtures all living beings."

"The world beast will destroy everything."

"The world beast is the most terrifying creature born in the entire universe, the most terrifying creature without a doubt! It is the opposite of the original universe, and only a world beast is born after an incomparably long era. When the beast comes out...it's a catastrophe..."

"However, world beasts can't be bred casually. Every long reincarnation era, they will be bred in a latitude cosmic sea, and every time a world beast crisis occurs, they will appear in a different cosmic sea." Yuanzu paused for a moment. Dayton, "That is to say, if one cosmic sea has experienced a world beast crisis, then there will be no more world beasts until the other 2999 cosmic seas have not experienced a world beast crisis."

Both Wang Yi and Luo Feng were stunned.

Luo Feng said doubtfully, "After such a long time, some holy land universes should be born. Then our universe sea only has the Purple Moon Holy Land and the Eastern Emperor Holy Land?"

"That's because those holy land universes have drifted into the depths of the universe, so far away that they can't be found at all." Yuanzu said.

"The distance from the sea of cosmos to the original universe is full of countless dangers. As time goes by, it will get farther and farther. If you can't find a safe path, those who are strong in the Holy Land universe will not be able to return to the original universe at all."

"Where will those small universes eventually drift to?" Luo Feng thought of a question.

"The direction they are drifting is on the origin continent, but I don't know where they will end up." The ancestor shook his head, "I seized the original universe and could not perceive the origin continent. If those small universes drift too far, out of this latitude cosmic sea, beyond the perception distance, then I can't observe them."

The original ancestor showed a strange color, "But currently in the small universe within my perception range, except for the era of our human race, there are a total of 6,289 in the entire universe, of which 29 are in the eternal true \*\*\*\* universe, and there are 3 more than the eternal true god. Beyond that, it's an unknown area."

Both Wang Yi and Luo Feng were a little surprised. "Beyond the universe of the eternal true God, isn't that the master of chaos?"

Luo Feng murmured, "It seems that there are many super beings who have gone out in the history of the cosmic sea at our latitude."

"This is of course." Wang Yi said, "The current practitioners in the origin continent were originally the first to pass from the 3,000-latitude Cosmic Sea. After countless years, the 3,000-latitude Cosmic Sea has no idea how many strong people have appeared, and how many have appeared. I'm not surprised to surpass the Eternal True God, but there shouldn't be many God Kings, after all, there are very few God Kings in the Origin Continent today."

The god-king of the origin continent, it is unknown whether there are two hundred god-kings in history. However, there are three thousand latitude cosmic seas!

"Originally, the world beasts do not know how many reincarnation eras will reappear in our cosmic sea. That period of time was extremely long. Some became the true gods of the void during this period, and their small universes also had the opportunity to drift to the depths of the cosmic sea for safety in the long years. The place where it will not be affected by the beasts, it can be preserved a lot." The original ancestor said again, "But now there is a cosmic channel connecting the cosmic sea of 3,000 latitudes, connecting all the universes, and it can be easily reached from a cosmic sea. Another cosmic sea, in this way, in the age of hundreds of millions of reincarnations, one of the cosmic seas will give birth to world beasts. I am afraid that our cosmic sea will also be affected."

Speaking of which, the original ancestor couldn't help but glance at Wang Yi. He remembered that Wang Yi's incarnation of the world beast destroyed all the universes in the universe, and he was very happy to eat it.

Luo Feng was very relaxed, "After such a long time, we have become eternal true gods or even the masters of chaos. Even if the world beast crisis occurs, we can't do anything about our small universe."

Also, the Void True God Universe and the True God Universe that were born during this period are probably going to be unlucky.

Of course, they can also resist, and the chance is not small.

The previous world beast crisis was because Wang Yi killed the countless strongest players in the universe in one fell swoop, causing the universe to be seriously damaged.

And now, if the sea of cosmos has been bred and multiplied through an unknown number of reincarnation eras, a large number of true gods, the universe of true gods in the void, and millions of the strongest in the universe are gathered, plus the top inheritance, there is still a chance to compete with the beasts.

It's just that every once in a while for a long time in the future, the true \*\*\*\* of the universe has to break out a battle with the world beast to decide his life and death.

When Wang Yi thought of that scene, he suddenly felt very happy.

...

"Besides, I also discovered the secret of reversing the time and space resurrection." Yuanzu said.

"The secret of reversing the resurrection of time and space?" Luo Feng and Wang Yi were surprised.

The original ancestor solemnly said, "Yes, reversing the time and space resurrection is the ability that the primordial universe bestows on the powerhouse above the Lord of the universe. As long as it conforms to the rules and pays some price, almost anyone can be resurrected."

"But... if life reverses time and space and resurrects, what about the souls we saw in the reincarnation passage?"

Wang Yi and Luo Feng also understood.

The reincarnation channel allows the Void True God to enter the Origin Continent. It is also a life born from the original universe. It is not a Void True God. Once they die, their souls will go directly to the Origin Continent along the reincarnation channel, but in the reincarnation channel, weak souls will be annihilated, and only powerful souls will reach the origin continent. And these souls will lose their past life memories and reincarnate in the origin continent.

"Reversing time and space and resurrecting life is the power of the primordial universe, the power of the supreme rule."

"An era of reincarnation." The ancestor solemnly said, "No matter what life is, once it dies, it will retain an era of reincarnation in the source of the original universe. When an era of reincarnation passes, their souls will be sent into the reincarnation channel according to the rules. So resurrection... must be in an era of reincarnation, otherwise, it is impossible to reverse the resurrection of time and space, because their souls have been sent into the reincarnation channel, either annihilation or reincarnation to the origin continent, the original universe is powerless."

"On the contrary, in the small universes of the strong, their life in the universe dies. Unless their small universe is destroyed, their souls will stay in the small universe, so if they want to revive the life of the inner universe, as long as they conform to the rules, they can."

When the original ancestor said this, a smile appeared on his face, "But the small universe of the true \*\*\*\* can only exist in three reincarnation eras, and the three reincarnation eras have passed, and when the time limit arrives, their small universe will be destroyed, and those souls will also enter the reincarnation channel. "

"Unless it is the True God of Void."

"So the Void True God... why is it called detachment from reincarnation? There is also this reason."

### [Chapter 836: East Emperor](#)

The original ancestor seized the original universe and understood many mysteries, but at the same time, he was constrained by the supreme rules. Some secrets could be revealed, and some secrets could not be told to others.

Although he can't do whatever he wants, but again, without violating the supreme rules, he can use the power of the original universe to make some small changes.

And the human race in the sea of cosmos will also benefit from it.

But the greatest benefit to Primordial Ancestor is that he understands all the mysteries in the Primordial Universe.

The original ancestor began to retreat and stayed in the Tongtian Tower. When he came out, he should be the eternal true god.

Taking the Primordial Universe, with the aptitude of Primordial Ancestor, it is easy to become the ruler of Chaos, and there is even hope of becoming the 'God King'. The progress of Primordial Ancestor also makes Luo Feng feel a little pressure.

Looking at Wang Yi who was smiling next to him, he secretly made up his mind that he would also work hard.

...

The origin continent, a distant region, is an incomparably vast lake. There is an island on the lake, and there is a sect "huxin island", where it has proliferated for endless years.

A young man in Tsing Yi was walking on a bluestone road mottled with years. When no one was there, he showed vicissitudes in his eyes, as if he had seen through the world.

"Hundreds of billions of epochs have passed, and I have been reincarnated on this island in the heart of the lake. After practicing for so long, I have become the True God of Void. After a while, I will break through to the True God of Eternity, and it will be convenient for me to act."

This man in Tsing Yi is a reincarnated mountain-rider.

His reincarnated family was a couple from the lower level of Huxin Island. His parents were ordinary disciples of Huxin Island.

After the appearance of the mountain guest, he emerged from a young age and showed his extraordinary talent. He was then accepted as a disciple by an elder of the sect, and then quickly cultivated to the true \*\*\*\* of the void, and the status of his parents also improved rapidly. Not long ago He also added a sister to him.

Sitting on the mountain, the name of this life is "Jinriu".

As a king of gods, even if he is reincarnated, all the memories of his perceptions are still there, and the speed of cultivation is naturally extremely terrifying. If the mountaineer did not restrain himself, he would have already broken through the eternal real god.

However, Zuoshan Ke came back to take revenge in this life. In order not to attract enemies in advance, he silently endured it. After all, he is still too weak to attract too much attention.

At least until he grows up enough to protect himself, he won't let others discover his secrets.

Even so, the talent shown by the mountaineer is enough to cause a storm on the island in the heart of the lake where only the Chaos Lord is in town.

He became the true \*\*\*\* of the void in the 100 billion epochs. He is already one of the few geniuses in history on the "Huxin Island". The sect where Chaos dominates is also considered to be the core layer, and can go in and out of many places, but it is the favorite of the mountaineers. It's still the sect's refining pavilion.

The elder he apprenticed to at the beginning was also the pavilion owner of the Refining Pavilion.

Looking at the majestic and quaint Refining Pavilion, there was a trace of memory and nostalgia deep in the eyes of Si Shan Ke.

He remembered that he grew up in a tribe on the origin continent, and was absorbed into the Yilianbao sect. In the sect, he fell in love with his senior sister, fell in love with each other, and finally married her.

At that time, Zuoshan Ke was a peerless genius who was good at refining treasures. He rose step by step, using the sect as his backing, and finally established the 'Jin State' based on the sect and became the ruler of Jin State!

How beautiful is it to have a wife who loves each other, a powerful and loyal minister, standing at the top?

Unfortunately, there is no eternal prosperity.

After endless years, Shiguo raided Jin, killed his wife, killed his courtiers and brothers, and destroyed his Jin! Everything... was destroyed at the hands of the food country!

Whenever I think of that scene, the mountain guest... or the King of Jin's heart is full of pain and hatred!

He hates it!

For endless years, he always wanted to come back and take revenge.

Sishan Ke calmed down, his eyes returned to indifference, and he walked into the majestic gray palace.

"Senior Brother Jinqiu."

"Senior Brother Jinqiu."

Along the way, many disciples from the Refining Pavilion saw the mountain-passenger in Tsing Yi, and they all saluted with respectful expressions.

As the most outstanding peerless genius of the Huxindao generation, it is no surprise that the senior sects will have a place in Jinqiu in the future. In the face of such geniuses, and they can say one day at a time, how can those sect disciples be disrespectful? There are plus.

Even many female disciples looked at the personable Jin Qiu with bright eyes.

Jin Qiu can now be said to be a hot young genius in the sect. Many female disciples of the sect admire him in their hearts, but those who sit on the mountain with a deceased wife and deep hatred in their hearts will naturally not have any thoughts about these female disciples.

Apart from...

Turning around a corner, the mountain passer saw a slender cyan figure appearing across the corridor, walking towards him.

"Senior sister." Sitting on the mountain showed a smile.

"Junior Brother Jinqiu." The woman in green robe with a gentle and graceful temperament also showed a soft smile, like a blooming spring orchid.

"Father is waiting for you in the heart-training room, you can go quickly." Senior Sister said softly.

"Teacher called me? I understand, thank you, Senior Sister." Jin Qiu nodded slightly. His teacher was the Master of the Refining Pavilion and the father of the woman in front of him.

Before Si Shan Ke joined the sect and became the disciple of the Pavilion Master, the woman in front of her was the most outstanding genius in the Pavilion, and she was also a "young" true \*\*\*\* of the void.

Hmm... It's probably a hundred and eighty reincarnation times bigger than Jin Qiu's identity.

Seeing Jinqiu walking past, the woman in Tsing Yi hesitated for a moment, and suddenly said, "Junior Brother Jinqiu."

Zan Shanke looked back and said with a smile, "Senior sister, what's the matter?"

The green-robed woman's eyes drooped slightly, and she said softly, "Junior Brother Jinqiu, I heard that there will be an auction in Luohuo Cheng by the lake recently, and there will be many precious materials and treasures. I don't know if you are free. go together."

The man in Tsing Yi was silent for a while, then smiled and said, "Is it the auction in Falling Fire City? I've been famous for a long time, but unfortunately I haven't been able to witness it with my own eyes.

The green-robed woman smiled, "Okay, I'll let you know when the time comes, and we'll go together."

Seeing the bright smile of the Qingpao woman, the mountain guest was slightly silent. At this moment, the face of his deceased wife flashed across his mind.

If he could, he really wanted to revive his wife, but he couldn't, because his wife was not a life form in his universe, but a creature from the origin continent. Although his strength was low, he still couldn't be resurrected.

Nothing can be undone, only endless hatred remains.

"Three monarchs of the food country..." The madness and hatred flashed in the eyes of the sitting mountain guest, and he almost couldn't control it with the mind and will of the king of gods.

...

Xue Kou Mountain, a secret room in the depths of Wujianlou.

The huge fire crystal lamps in the room illuminated, and an old man in purple robe sat in front of the desk, with countless streamers passing through his eyes.

"Huh?" Suddenly he let out a startled cry, the streamer in his eyes was a little slower, and it could be vaguely seen that those streamers were composed of countless text and picture messages, which were quickly screened by the purple-robed old man.

The origin continent is so vast, and the intelligence information gathered every day is massive, which must be handled in time.

And this purple-robed old man is specially responsible for the intelligence work here.

"This reward from the Tianmu Kingdom above is really interesting. The reward is the Void True God and the Eternal True God inherited from the Wu Kingdom. The reward is... so high!" The purple-robed old man was a little surprised.

"For this reward, killing a few chaotic masters is enough. What does Tianmu Kingdom want to do? Pay such a huge price to find out the remnants of Wu Kingdom? After so many years of Wu Kingdom's destruction, they have not made such a big move. Did it? Let Tianmu Kingdom act like this?" The purple-robed old man was a little puzzled and pondered slightly. Then he shook his head and ignored it.

"Forget it, the Origin Continent is so big, it's not that easy to find a few people who don't have clear characteristics. If it's really that easy, Tianmu Kingdom will not issue a reward."

...

The Changhong Sect, as the power that dominates the chaos, the sect of the Changhong Sect is also magnificent. It occupies a vast mountain peak, and there is a gorgeous rainbow in the sky. There are countless huge stars. Each star is comparable to a star and belongs to a treasure. Countless stars form the Changhong, which is a million light years long, and its mighty power is soaring to the sky, protecting the sect holy land of the Changhong Sect.

It is the master of chaos. It is not easy to break through this Changhong. The position of the Changhong sect here is also as stable as a rock. For millions of reincarnation epochs, the Changhong sect is the

absolute overlord of the surrounding hundreds of millions of light-years, and countless tribes and sects have surrendered to it. , heed his orders.

There are "hundred thousand mountains" in Changhong Sect's gate, which stretches endlessly. On one of the high mountains, there is a palace, which belongs to the residence of the disciples of the Void True God of Changhong Sect.

Inside the huge courtyard wall, covered with green branches, leaves and vines, it looks full of vitality. A long-haired man wearing a blue robe unique to the elite disciples of Changhong Sect's inner sect is surrounded by vines and green leaves, but his expression is a little gloomy. Sitting on the stone. In front of the table, in front of them were two identical looking fat old men with a tuft of hair on their heads.

There were delicious wine and food in front of the three of them, but they were not in the mood to drink.

"Brother Dongtie, did the above really decide to send you to the outer sect?" A fat old man couldn't help saying.

"It's a message from Elder Xin Cang, who is in charge of the outer sect's affairs. How could it be fake." The long-haired man showed a wry smile.

"Hey." Hearing his words, the two old men opposite suddenly sighed and felt a little regretful, "Sent out to take charge of the affairs of the outer sect, it will be difficult to come back."

If it is possible, few of the inner disciples of the Changhong Sect would be willing to be sent out to take charge of the affairs of the sect.

Being in charge of the sect's affairs sounds good, but in fact, it is to do chores for the sect and manage the sect's industry.

"Brother Dongtie, you were fine, why is the mini-universe gone?" A fat old man felt a little distressed.

Without the disciples of the Void True God in the small universe, for the Changhong Sect, they are of little value.

The long-haired man, the East Emperor, showed a wry smile at the moment. Originally, with his aptitude, he was considered an elite disciple in Changhong Sect, but once the small universe is destroyed, it means that there is no potential, and the sect will naturally not continue to invest more resources in on him.

But the East Emperor also understood that without the small universe, he would not be able to go further if he continued to cultivate. Leaving the sect headquarters was inevitable. Although he was very unwilling, the East Emperor could only accept this fate.

He still thought it was the world beast that destroyed his small universe. Once the small universe was destroyed, all life fell, and the Eastern Emperor also lost the source of the information of the universe, and he had no idea what happened next to the universe.

After all, the Origin Continent is so big. Although those Holy Land universes have contacted each other, they will not reveal their true identity in the Origin Continent and cause trouble for themselves.

Therefore, the Eastern Emperor could not contact those who also lost the Holy Land Universe, and could only guess by himself.

Naturally, he also didn't know that the Holy Land Universe of the 3,000-latitude Cosmic Sea, as long as he could find it, would be finished.

He could only admit that he was unlucky and encountered a world beast.

"By the way, where does the sect send you?" the fat old man asked.

This pair of brothers are friends that the East Emperor met in the Changhong Sect. They have a good relationship and naturally feel sorry for the East Emperor.

Originally, with the aptitude of the East Emperor, although there is little hope of becoming the eternal true god, he is barely able to get along in the sect. After practicing in the sect for a long time, there may be a chance to go further. Who would have thought that the universe of the East Emperor did not know what happened. The incident, the small universe was actually destroyed, causing the East Emperor to lose the value of training in the sect, his status dropped greatly, and he was squeezed out. Seeing that he was about to pack his bags and go out to work.

"It's Lord Aoyuan's Blood Bandit Mountain." The Eastern Emperor was slightly refreshed.

"Blood Bandit Mountain? That's not bad. Lord Aoyuan has a good reputation in the sect, so it shouldn't embarrass you." The two old men were relieved.

Blood Bandit Mountain is one of the branch forces under the Changhong Sect. It is in charge of the Eternal True God Ao Yuan of the Changhong Sect. At least it is quite prosperous and popular.

Those who are sent to the wilderness are the ones who suffer and are completely forgotten by the sect.

Wherever he was sent, it could be regarded as a trace of comfort for the wounded heart of the East Emperor.

But there was still a trace of unwillingness in his heart. UU reading [www. uukanshu. com](http://www.uukanshu.com)

"Damn, if I get the inheritance of the human race and dedicate it to the sect, I will definitely be able to exchange for great achievements, maybe it will cost the sect a big price and let me restore the small universe again."

Once, a precious top-level inheritance appeared in front of the Eastern Emperor, but he did not get it.

This made Emperor Dong's heart full of discomfort.

Not to mention, his small universe was destroyed by the beast, which is equivalent to cutting off the path of cultivation, and he can no longer continue to progress, and he can only stay in this realm forever.

If the small universe in the sea of cosmos is destroyed, the fate of this true \*\*\*\* can already be announced, but the origin continent is full of miracles, and there are even more miraculous means and treasures. If the small universe is destroyed, it is not impossible to restore, but it will pay an unimaginable price. It is much more difficult than cultivating an eternal true god.

And that kind of small universe, the fit is far less than that of the kingdom of God, and it is more difficult to break through.

But for the Eastern Emperor, it was also a life-saving straw.

It's just such a big price, without a huge contribution, how could Changhong Sect spend it on a disciple of the Void True God for no reason.

The East Emperor finally faces the fate of leaving the core of the sect and being sent to a branch force, and will soon be on his way.

### [Chapter 837: The original ancestor broke through!](#)

Since the original ancestor seized the original universe, they have been immersed in cultivation, but Wang Yi and Luo Feng did not go back, and sent back the words to Xuekou Mountain, and the three simply hid in the mountains to cultivate together.

Inside the Tongtian Tower.

A small island is haunted by chaotic air currents, and the surrounding water currents of different colors are surging, which are the origin of gold, the origin of wood, the origin of water, the origin of fire... the origin of time, the origin of space... the origin of life, the origin of destruction ...and many other sources are intertwined together to form the wonders, and the mysteries of various sources are fully revealed.

Comprehend one of them and cross the threshold, and you can become the eternal true god.

However, there is only Wang Yi here, and the world beast incarnates in another place.

This place belongs to the 27th floor of the Babel Tower. If you follow the rules, it belongs to the 17th floor.

The 28th floor belongs to the top of the seventeenth-order, where it has been faintly exposed to the world of the law of chaos, which is the domain dominated by chaos.

Wang Yi, dressed in a gorgeous red robe, sat alone on the island with black hair and drooping shoulders. There was no one around him. He raised his head and silently watched the inexhaustible mysterious changes of the origin outside.

His consciousness and the world beast are one. What he sees and thinks is what the world beast sees and thinks.

Although the beasts are not cultivators because of their race, in the field of law, the two can still take what they need and make progress together.

"To become an eternal true \*\*\*\* is to comprehend a source, and to become the master of chaos is to combine the ten basic laws into the laws of chaos." Wang Yi sighed, "The beast may help me on the road of destruction. Dominated, but limited help."

Because the beast is special, it directly controls the source of destruction. As long as you always understand the source of destruction, you can continue to improve, become the eternal true god, become the master of chaos, and become the king of gods.

Therefore, world beasts can break through to the chaos level without comprehending the laws of chaos.

After breaking through to the Chaos level, you can comprehend the "Dao of Destruction".

When you control the "Dao of Destruction", even if you are a world beast at the peak of maturity, it is comparable to a \*\*\*\* king and can breed a large number of powerful world beast warriors. The world beast king at the peak of maturity is very terrifying, and can sweep across an ordinary kingdom of gods.

Wang Yi thought to himself, "As for how to understand the law of chaos, all forces in the origin continent also have cultivation methods."

What is the Law of Chaos? In fact, it is composed of the ten most basic laws of metal, wood, water, fire, earth, wind, lightning, light, time, and space.

Everything is transformed by the law of chaos, and the ultimate goal is to go back to the source and realize the ultimate law of chaos.

So anything is possible...even three laws combine with each other, even four laws combine with each other, even five laws combine with each other...

The mysteries, experience, and skills are incredibly difficult.

"There are cultivation methods for the Law of Chaos in the inheritance of some powerful forces. One of them is to cultivate various secret methods, such as those composed of gold, wood, water, fire, and soil, and those composed of wind, thunder, and light. Enter, because this is already the secret method of success, it belongs to the way out, you can absorb the essence of thought and experience, and then think about how to do it yourself."

"The second is to comprehend the origin... Gold, wood, water, fire, earth, wind, thunder and lightning, light, time, space... The origin of the ten basic laws, all of which are comprehended... Almost certain to become the master." Wang There is light in Yi's eyes.

The former belongs to the "law of fusion". To continuously fuse ten laws, fuse them to the end, and naturally become the master of chaos.

The latter is a different way, first to comprehend a single source, to understand the essence of the source, and it is easy to integrate it, but it is very difficult to understand that one source can become the eternal god, and it is very difficult to understand ten sources. Not necessarily easier than the former.

However, he also pointed out a way. Don't just \*\*\*\* around blindly. Don't waste your time. I'm most afraid of going the wrong way. When you get to the back, it will be difficult to turn back.

.....

Wang Yi retreated and cultivated, and hundreds of thousands of epochs passed in a blink of an eye.

For the nearly eternal Origin Continent, hundreds of thousands of epochs are really very short, even the Cosmic Sea, and it just passed by in the blink of an eye.

Like some ancient beings, it is normal to retreat for trillions of epochs and several times of reincarnation.

In the sea of cosmos, in the void filled with chaotic airflow, a huge small universe with a diameter of 6.3 billion light-years in diameter is suspended there, swallowing the chaotic airflow. This is the holy land universe of the original ancestor of the human race.

In the distance, a figure suddenly appeared, looking at this huge universe from a distance, with a hint of amazement in his eyes.

"The original ancestral holy land! The holy land universe of the human race in the last reincarnation era."

This is the master of an alien universe, a strong man who appeared in the primordial universe in this new age of reincarnation, who came to the sea of cosmos.

However, it has only been hundreds of billions of epochs, and it is still in the early stage of the original universe. There are not many powerhouses born, and there are very few powerhouses in the universe. The powerhouses who entered the cosmos sea for the first time saw the huge small universe of the original ancestor for the first time. , will be amazed, seeing the Galaxy Holy Land Universe with a diameter of 10 billion light-years is shocking, and seeing the Chaotic Source Holy Land Universe with a diameter of 100 billion light-years, it is stunned.

You must know that the normal small universe of the strongest person in the universe (True God) is only 100 million light-years in diameter. In the last reincarnation era, there were not only three Holy Land universes, but the Holy Land universe was still so big, and it came from the same ethnic group. People can't help but feel yearning and awe for the strength of the ancestors who created the three Holy Land universes.

In particular, there are a large number of strong people in the human race. There are hundreds of the strongest people in the universe, and they are still being born continuously over the years. There are hundreds of small universes, and the masters of the universe are all moving to five digits... This stock The power is too powerful, coupled with the top inheritance and countless treasures of the origin continent, the strength of the human race is extremely powerful, suppressing all dissatisfaction.

Therefore, although the cosmic channel of the Cosmic Sea is always open, and occasionally other cosmic sea powerhouses come over, it is found that there are actually three holy land universes here (the holy land universes of the other cosmic seas were destroyed in the last reincarnation era), and Hundreds of small universes, they were all shocked. After discovering the power of the human race, they did not dare to offend, and they were happy to make friends with the human race. This universe faintly became the center of the three thousand latitude universe sea.

As for the strong people of the human race and other races, the high-level human race does not care, as long as they are careful not to reveal the core secrets. As for those top inheritances, because they are bound by oaths, they are not afraid of which human strong people and other races\* \*Yi either leaked it out unintentionally, or was trapped in a secret by the captive.

"The human race is too powerful and too rich." This alien universe master is extremely envious. "Not only are there three Holy Land universes, there are hundreds of small universes, and there are thousands of universe masters... In the era of our primitive universe, there are only more than one hundred universe masters, two or three universe's strongest, uh , it's too far off."

"How did they do it in the last reincarnation era?" The master of the alien universe was puzzled.

In the last reincarnation era, the birth of the beast was a secret. With the destruction of all knowing small universes and the reincarnation of the original universe, everything was buried in history. Only the upper echelons of the human race knew what happened, but such a thing is Restricted by the original will of the original universe, it cannot be said.

These new reincarnation era powerhouses were shocked and could only guess on their own, searching for answers in those ancient areas of the cosmos sea, or even finding a piece of information.

The alien master of the universe is still envious, "It's okay to have more powerhouses, they are still so rich, the masters of the universe who come out have all reached the sixth-order combat power or above, and they all have the most powerful treasures, and my ethnic group is still I don't have one of the most powerful treasures. The best thing on me is a top-level domain treasure. It's too much. Where did they come from so many treasures, did they rob all the universes in the last reincarnation era?" This alien universe The lord shattered his thoughts, but he didn't know that his guess was close to the truth.

The human race is more than just robbery, but directly demolishes people's hometowns, then moves all the treasures back, and does everything.

The master of the alien universe muttered for a while, and just as he was about to turn and leave, his eyes suddenly widened.

"What, what... Then the small universe of the original ancestral holy land seems to have grown bigger?"

.....

"Boom!"

In the original ancestral holy land universe, one after another void passages appeared in the void of the universe. The influx of endless chaotic airflow was constantly absorbed and transformed, causing the small universe to continue to expand.

And the human race immediately noticed this change.

The original ancestor broke through!

In just one hundred billion epochs, the original ancestor broke through again!

The human race was shocked and delighted, cheering for the breakthrough of the original ancestor, and Wang Yi and Luo Feng immediately knew about the breakthrough of the original ancestor. The incarnation of divine power appeared at the cosmic membrane wall, and looked at the direction of the original ancestor's small universe from a distance.

The original ancestor's small universe is actually very far away from their universe, but both Wang Yi and Luo Feng have a way to watch it.

"The original ancestor broke through and became the eternal true god." Hundreds of true gods of the human race are either in their own small universe or in the universe sea, but they all know at this moment, one by one body or divine power incarnation is watching the original ancestor. Changes in the small universe.

The thousands of universe masters of the human race are even more excited.

Some of them were born in this era of reincarnation. They have not yet experienced the birth of the Holy Land Universe. They were born in the Holy Land Universe or a small universe, so it is natural to be able to see the breakthrough of the Holy Land Universe of an ancestor of their own ethnic group. Excited.

"The original ancestor!"

"Our great leader!"

"One of the ancestors of our human race!"

"His universe has expanded again!"

The original ancestor's small universe began to transform, and the volume quickly began to expand. The original ancestor's small universe expanded violently like a blow... 10 billion light-years, 10.5 billion light-years... 30 billion light-years... 40 billion light-years... It has been expanding, and it also takes time. Also longer.

About half a month later, it finally reached 63 billion light-years in diameter.

.....

The human race in the universe is cheering, while the origin continent, the original ancestor shook his head.

"Breakthrough, my divine power has been condensed a hundred times more than before, but the divine power reserve in my small universe is not enough." The original ancestor became the Void True God before, and the divine power was not enough to be completely transformed into the Void True God. . And now only hundreds of billions of epochs have passed, and the stored divine power is even less. The divine power of the Void True God is transformed into the Eternal True God, and even one tenth of it cannot be achieved.

Like those Void True God breakthroughs, either the forces behind them help them transform their divine power, or they take time to slowly use the small universe to absorb, store, and transform divine power. This requires a long process.

But fortunately, the small universe has broken through to the eternal true god-level universe. The original ancestor's small universe source space absorbs the chaotic airflow much faster than before, and the efficiency of swallowing and transforming divine power is also higher.

When the original ancestor came out of the retreat palace, Wang Yi and Luo Feng had already appeared in front of him.

"Yuanzu, congratulations on your breakthrough." Wang Yi said. It is truly remarkable to become the eternal true \*\*\*\* in the 100 billion epochs of the origin continent. Didn't you see that the ancestors of Ziyue and the East Emperor were trapped in the Void True God for so many years, haven't they broken through yet?

"Haha... It's all because of the insight I got from watching the shattering of the primordial universe that time, my understanding of the law has been continuously improved, and I have seized the primordial universe, and I can watch the mystery of the universe's operation. This time I was able to quickly break through." Yuanzu said with emotion. "But it is easy to break through the Eternal True God, and it will take a while to become the master of chaos."

"It is indeed more difficult to become the master of chaos." Wang Yi nodded slightly.

Chaos Lord, in the origin continent, is a giant, second only to the existence of the king of gods, and the number is extremely rare in the entire continent.

Even his world beast incarnation, which controls the source of destruction, and devours a large amount of the source of the universe, has not grown into the master of chaos for so many years.

The master of chaos is a hurdle, trapping an unknown number of strong people.

"However, although I have made a breakthrough, most of my divine power is still the true \*\*\*\* of the void, and the transformation efficiency is too slow. If the small universe devours the chaotic airflow and converts it into divine power, I am afraid it will take a lot of time." Yuanzu said helplessly.

Wang Yi nodded, divine power was indeed a trouble. Even if he wants to expand the divine body, it is not so easy.

After so many years~[www.mtlnovel.com](http://www.mtlnovel.com)~Because Wang Yi has become the eternal true god, he can already exchange Chaos Master-level treasures, which is more convenient than before. The Chaos-Master-level treasures taken from the panel to transform divine power only expand the divine body to About ten light-years in size.

As for the size of the god's body, it does not directly improve the combat power, because the bodies of the powerhouses in the origin continent are all flesh and blood, and the burning consumes the power of the gods, which does not affect their strength.

It's just that the bigger the divine body, the more divine power reserves, the more it can support consumption, and the more resistant it is.

Even if the powerhouses in the Origin Continent do not follow the divine body route, they will try to improve their divine body shape or store a lot of treasures of divine power.

At the level of the god-king, because of the mastery of "the way of the universe", the divine body will be increased to 90,000 times. There are infinite divine bodies, and the scale of natural divine bodies is very exaggerated.

Yuanzu glanced at the two people in front of him and laughed, "Now that there are two eternal true gods among us, Luo Feng is the only one missing."

"I will also become the eternal true \*\*\*\* soon. I feel that it is too soon." Luo Feng said confidently.

He was sure.

"That's good." Wang Yi patted Luo Feng's shoulder, as if he was back in the base city, "In order to celebrate the breakthrough of the original ancestor, let's celebrate it."

## [Chapter 838: meet](#)

The East Emperor universe was destroyed before Wang Yi broke through the eternal true god, so he did not know that Wang Yi had become the eternal true god, and the specific circumstances. Only Minghong Holy Land later learned about it through various channels and told Tianmu Kingdom.

Tianmu Kingdom knows, naturally it will not be a problem with tigers, and would rather issue a bounty at a high price, but also find the successor of Wu Kingdom in the vast origin continent and the vast sea of people. Even if the Donghe River is broken, he is still a member of the Wu Kingdom! Cut the weeds!

Wang Yi didn't know that Tianmu Kingdom was looking for them everywhere, and even if he knew, he wouldn't care too much.

Because the Origin Continent is so vast and boundless, it takes a lot of time even if the God King wants to cross, let alone find someone who is hiding.

After the original ancestor broke through the Eternal True God, Wang Yi and the others returned to the Xuekou Mountain, and the owner of Xuekou Mountain, Ao Yuan and his wife, were surprised when the original ancestor broke through. They also immediately congratulated and held a banquet for the original ancestor.

However, because the original ancestor shied away, the scale of the banquet was very small. Only the high-level officials of Xuekou Mountain, the Void True God and some core children were eligible to participate.

Wang Yi attended the banquet with Luo Feng and Yuanzu, but even if he attended the banquet, he still had the power to practice in the Tongtian Tower.

On the peak of Blood Bandit Mountain, in the splendid palace.

"Master Yuan, congratulations."

"Master Yuan broke through not long after he came to our Blood Bandit Mountain. It seems that Lord Yuan and our Blood Bandit Mountain are really related."

"Master Yuan, I wonder if you can teach some breakthrough methods?"

...

On the side of the original ancestor, who was dressed in a white robe and had a gentle breath, gathered a lot of the Void True God who complimented him.

They have been trapped in the realm of the Void True God for many years. Witnessing the breakthrough of the original ancestor, one by one, their hearts are hot, and they all want to gain some experience from the original ancestor.

Because they asked for others, they also gave some generous gifts.

And looking at the face of being a guest of Xuekou Mountain for many years, the original ancestor also promised to hold a public lecture, and then the Void True God of Xuekou Mountain can come to listen to the lecture.

"Haha, Brother Yuan, trouble you." Ao Yuan came with a smile on his face. Since Yuan Zu's breakthrough, he has also changed his name.

Cultivators, only look at strength.

Moreover, he and Yuanzu have discussed Taoism, and he actually admires Yuanzu very much. He had already expected Yuanzu to break through, but he didn't expect it to be so fast.

"Sure enough, these three people have mysterious origins, and it really is not simple." Ao Yuan glanced at Wang Yi and Luo Feng next to him, full of amazement.

He has been the Eternal True God for many years. He has seen countless Void True Gods, but he has never seen such amazing geniuses as Wang Yi, Yuanzu, and Luo Feng.

Even the so-called genius disciples of his sect "Changhong Sect" are far inferior to the three of them.

"Perhaps that kind of genius is the only real top power."

Because of this, Ao Yuan valued Wang Yi and others more and more, and even learned that the original ancestor had a breakthrough, and immediately held a banquet to celebrate it.

The banquets held by practitioners with an eternity of life usually last for a long time, and it is normal for them to last for thousands of years. During the banquet, these strong people also talk about the world and conduct various exchanges.

At the same time, outside the Blood Bandit Mountain, a blue streamer flew quickly.

In the stream of light is a cyan palace. Inside the palace, a long-haired man surrounded by vines and green leaves looks at the huge blood-colored mountain range in the distance, with a trace of melancholy in his eyes.

When he arrived at Blood Bandit Mountain, it would be difficult for him to return to Changhong Sect in the future.

Behind him are a group of other disciples from the sect who were sent to this place by the true \*\*\*\* and the master of the law. Their status was low, and they had no success in the sect, so they were not too disappointed in leaving Changhong Sect. She, on the contrary, mostly chatted curiously towards the blood-colored giant mountain that appeared in front of her.

"This is the Blood Bandit Mountain, the affiliated force of our Changhong Sect, right?"

"It looks pretty good, although it's far from the Zongmen headquarters."

"We will live here in the future."

"I heard that Xue Kou Mountain was founded by the senior Aoyuan of our Changhong Sect and his two wives. Those three adults are all Eternal True Gods, and no one dares to provoke them in the vicinity."

Those disciples were all excited. The more powerful the Blood Bandit Mountain was here, the better their life would be.

Dongdi... Or, Dong Iron also calmed down when he heard the conversation of these young disciples.

As soon as he comes, he can rest assured. His Eastern Emperor is not the kind of person who will fail when he encounters setbacks. One day, he will find new hope and rise again.

East Emperor looked at the high mountain in front of him, and his eyes were firm.

Xue Kou Shan had long known that Zongmen sent someone to come, but he didn't know the exact time, so when Emperor Dong came over, he had to wait for Xue Kou Shan to send someone to pick him up.

"Haha, is it Junior Brother Dongjun? I'm really sorry to keep you waiting." A figure appeared outside the Blood Bandit Mountain, and another teleporter appeared in front of Dongdi and the others. "I am the guardian of the Blood Bandit Mountain 'Panggao'. The Mountain Master has already known that you are coming, but there is a celebration on the mountain. The Mountain Master can't get away for the time being, so I will entertain you." He said with a smile.

It was actually an old man with two heads, each with four faces, which looked extremely strange.

But the origin continent is vast and boundless, the life from the countless reincarnation eras of the three thousand latitude universe sea and the life naturally derived here, the appearance of the old man is actually quite normal.

"I have seen Senior Brother Panggao." Dong Tie continued. "Don't dare to bother the mountain master to receive it in person. Senior Brother Panggao is very honored to come to Dongtie." He shouted to the disciples behind him, "I haven't seen your seniors soon."

"I have seen Mr. Panggao." Those disciples of the True God and the Master of Law saluted respectfully.

"Haha, no gift." The two-headed and eight-faced old man said with a smile.

He said to Emperor Dong again, "Junior Brother Dongjun, come with me, and I will take you to the place where you live. From now on, everyone will work together here. Junior Brother Dongjun does not dislike the simplicity of this place."

Dong Iron said modestly, "In the future, I would like to ask senior brother for more advice."

Dongtie was not feeling well.

The Panggao in front of him is just an ordinary Void True God. If the former Eastern Emperor was also an elite disciple of the Changhong Sect, he would not look at such a person very seriously.

But now that the small universe of the Eastern Emperor has been destroyed, it has no potential, and it has been delegated to the sect.

A true \*\*\*\* without a small universe, a true \*\*\*\* of the void, can be said to be the most tragic. Others do not regard them as a threat, because they have no possibility of further progress, so they have to be careful and dare not offend other strong people at will.

"Haha, it's easy to say, Junior Brother Dongjun, come with me." The two-headed and eight-faced old man was so touted by this former elite disciple from Changhong Sect, and he was in a good mood.

The two flew to the Blood Bandit Mountain, followed by a group of disciples. They also looked down curiously and whispered.

"By the way, Senior Brother Panggao, I don't know why there is a celebration on the mountain at this time?" Dong Iron asked curiously.

"Oh, it's one of the guests our Mountain Master brought back from outside, who just broke through to the Eternal True God not long ago." When Panggao said this, his eyes showed strong envy, "In order to celebrate this lord, the Mountain Master, I specially held a banquet and invited the Void True God on the mountain and some high-level important family powers, and now it is bustling."

"Breakthrough to the Eternal True God?" Dong Iron was stunned for a moment, and then strong envy and jealousy emerged in his heart.

Like these ordinary void gods, the biggest dream is to become an eternal \*\*\*\* one day.

Chaos Lord? too far from them. Few dare to hope.

"If the foundation of my small universe is still there, maybe one day, I can become an eternal true god, and I will be envied by countless empty true gods, congratulations." Dongtie felt even more disappointed and unwilling.

Pang Gao glanced at Dongjie and felt that this new disciple of Changhong Sect was quite pleasing to the eye, not as arrogant and arrogant as the disciples of Changhong Sect who had come here before, so he said: "Junior Dongjie, do you want to go too? attend banquet?"

Dongtie thought about it for a while. He originally wanted to take root in Xuekou Mountain. This banquet gathered many high-level officials of Xuekou Mountain, and it would be good to take advantage of the situation to see the various forces in Xuekou Mountain.

So he nodded, "Then there is Senior Brother Lao."

Pang Gao waved his hand, and a boy in white appeared in front of him.

"Master, what are your orders?" The boy in white said respectfully.

"Take them to Yueri Valley and arrange for them to stay there." Panggao ordered, and explained to Dongtie next to him, "This is one of my puppet servants, although only the strength of the Lord of Laws, he can do anything for me. little thing."

Dong Tie nodded. There are many puppets in the Changhong Sect like doing chores like this, even those of the Void True God level.

But with the net worth of the ordinary Void True God, it is difficult to buy a True God-level puppet, and at most it is the master-level puppet of the law.

Let the young puppet in white take the accompanying disciples of the sect to arrange the accommodation, while the old man 'Panggao' took Dongtie, and the two true gods of the void flew to the top of Xuekou Mountain at a speed exceeding the speed of light billions of times.

Xuekou Mountain is a million light-years high. If it is to cross, it will take a year for the true god, but they came to the place where Xuekou Mountain is close to the top of the mountain, and it is the true \*\*\*\* of the void, so it does not take that long to fly over, but it also takes a long time. Most of the day.

"Here we are, Junior Brother Dongjun." Pang Gao said with a smile.

Dong Iron looked at the magnificent and splendid palace in front of him. There were beautiful rainbows in the sky above the palace. This is the characteristic of Changhong Sect. In Changhong Sect, many buildings have this arrangement. There is a sense of intimacy in my heart.

There are a large number of True God guards at the entrance of the palace.

"Lord Panggao." The true \*\*\*\* guarding the gate of the palace saw Panggao bringing people over, so he hurriedly saluted.

"Yeah." The old man Panggao nodded casually, pointed at Dong Iron next to him and said, "This is Master Dong Iron from Shanzhu Zongmen, come here to participate in the celebration."

The aura of the True God of Void on Dongtie's body and the clothes from the disciples of the Changhong Sect were obvious. Those True Gods did not doubt and said respectfully, "Master Dongtie."

Pang Gao beckoned to Dongjie, "Junior Dongjie, let's go, I'll take you to see the mountain master and make some friends."

"Senior Brother Lao is here." Dong Iron followed and walked into the gate of the palace.

...

In the palace, in the front seat, the two eternal true gods, Yuanzu and Aoyuan, sat next to Aoyuan, his two wives and his son. Next to the original ancestor sat Wang Yi and Luo Feng, two distinguished guests from the Blood Bandit Mountain.

"Haha, Brother Yuan, don't you really think about joining our Changhong Sect? Even if you are only an honorary elder, you can." Ao Yuan was persuading Yuan Zu.

The Changhong Sect is called a holy-level force. The sect was founded by an ancient chaotic master, and it has existed for more than one million reincarnation times.

It's a pity that, despite the birth of some eternal true gods over such a long period of time, there has never been a second master of chaos.

And the Eternal True God is even the top combat power of the sect. Every Eternal True God is worth attracting.

Considering the mysterious background and potential of the original ancestors, it is normal for Ao Yuan to persuade them to join his sect.

Yes, he also persuaded Wang Yi and Luo Feng.

However, Wang Yi and Luo Feng were naturally not interested in joining a sect dominated by chaos.

If there are top forces like "Wujianlou", "Jieshan Palace", and "Dayue Kingdom", they can also consider it.

"I'll consider it." Yuanzu smiled.

"Brother Yuan, if you think about it, tell me directly, whether I am the Changhong Sect, I am willing to open the door for you at any time." Aoyuan said sincerely.

Next to him, the purple-haired boy who was beside the two mothers was full of envy when he saw his father talking to the big brother Yuan, and seeing the guests coming to celebrate.

"Alas, if I can break through to the Eternal True God like the original eldest brother, I guess my father and mother will be very happy." Ao Dongwu thought to himself.

But he just thought about it, breaking through the eternal true god? Although his parents are eternal true gods, it does not mean that he also has this ability.

At this time, two people walked in outside the palace.

The people present were all strong, and they all discovered it immediately, but when they found out that it was the blood bandit mountain, they were all the true gods of the void, so they didn't care.

Ao Yuan saw it too, and saw the long-haired man in the costume of Changhong Sect beside Panggao. Understand that this is someone sent by the sect.

But what kind of status is he, Dongtie's status is far inferior to his, so naturally he will not take the initiative to say hello. Just looking at it, I have an impression in my mind.

Yuanzu, Wang Yi, and Luo Feng also saw those two people, but they didn't care.

After all, the Eastern Emperor has been hiding in his own small universe, and there has never been a sea of cosmos. Only the powerhouses of the Eastern Emperor Holy Land know its true colors, and now the Eastern Emperor Holy Land has already been destroyed by Wang Yi himself, and the Eastern Emperor has become history.

Even if they were face to face, they wouldn't recognize them.

Who would have thought that you can meet acquaintances so quickly in the origin continent?

Wang Yi, Luo Feng, and Yuanzu did not recognize the Eastern Emperor, but the Eastern Emperor saw the three at a glance.

After all, in the sea of cosmos, he is too familiar with them!

The inheritance of the Duandong River that Chao Simu thought about fell into the hands of humans, how could he not recognize the strongest of these three human races?

At that moment, he almost couldn't believe his eyes.

"Then... that's the original ancestor?"

Wang Yi and Luo Feng have already changed their appearances and breaths of life. If they changed places, maybe the Eastern Emperor would not be able to recognize them.

But the original ancestor is different! His appearance has hardly changed, and so has the aura of his divine body! East Emperor is recognizable!

The original ancestors are all here, and the wisdom of the two Edong emperors next to him naturally guessed it right away.

At this moment, a storm surged in his heart!

### [Chapter 839: Chaos Master Beast](#)

Dongtie really didn't expect to meet Yuanzu and others here.

He felt that his soul was trembling.

There is only one thought in my mind - there is no way out of the sky!

...

The palace was very lively and crowded.

Dong Tie didn't dare to look at Yuanzu's side again, so he found a corner with the old man Pang Gao and sat down.

"Senior Brother Panggao, the one who made the breakthrough you are talking about is the one wearing the white robe above, right?" Dongtie said, "I'm new here and I'm not familiar with this place, so I wonder if you can introduce me to it. ?"

Pang Gao said with a smile: "Then senior brother, let's talk about it for you."

"The one in the white robe is the honored guest brought back from the outside by our mountain master hundreds of billions of years ago. His name is Yuan." Pang Gao said with emotion: "At that time, he was still the true \*\*\*\* of the void, because he saved the mountain master's son. , is quite valued by the mountain owner. Two of his friends who came here with him, one named Jiujiang Yi and the other named Yangzhou. They are both amazing Void True Gods."

Dongtie's eyes flashed, Yuan? Jiujiang Yi? Yangzhou? It seems that they are indeed the original ancestors.

It's just that the Eastern Emperor never imagined that in only one hundred billion epochs, the original ancestor would become the eternal true god.

And his Eastern Emperor, detached from reincarnation, came to the Origin Continent, and became an elite disciple of the sect dominated by chaos. He cultivated so many times of reincarnation, but he was still a true \*\*\*\* of the void!

Dongdi couldn't help but be full of jealousy!

It must be the inheritance of Duandonghe! Otherwise, how could the original ancestor be so powerful, only in an era of reincarnation, and become the eternal true god! This is incredible!

If the Eastern Emperor knew about the achievements of Wang Yi and Luo Feng, he would be even more shocked.

But he didn't know.

"But... strange." Dong Di frowned, thinking of another thing.

"Isn't the world beast born? It also destroyed the Purple Moon Holy Land and my Eastern Emperor Holy Land. Logically speaking, neither the Primordial Universe nor other small universes can be spared. Why are humans okay?"

If the original universe is destroyed and the small universe is destroyed, it is impossible for human beings to transcend reincarnation and return to the origin continent. Without the small universe, the original ancestors cannot break through to the eternal true god!

But the original ancestor broke through not long ago!

"I remember that Yuanzu was permanently suppressed by the original will of the original universe. How did he come out?" Dongtie was puzzled.

"Could it be that the world beasts have something to do with humans? They took refuge in the world beasts?" Dong Tie's whole body jolted, thinking of this possibility.

The more I think about it, the more I think it's possible.

"Humans can't do anything, so they take refuge in the world beast, and the world beast destroys the original universe and rescues the original ancestor? The original ancestor also became the world beast side?" The East Emperor began to frantically make up his mind.

"To dare to take refuge in a world beast, the Primitive Universe said that the result of taking refuge in a world beast would be tragic, but if it is forced to a desperate situation, the human race is indeed likely to do so." Dongtie thought to himself.

"They took refuge in the world beast. I wonder if the world beast is with them?"

It is impossible to enslave powerful beasts.

Only to enslave the world beasts that have not yet grown up, so they must go to the depths of the universe.

But if the beast comes to the origin continent and is weak...

"The opportunity is right in front of you!" The East Emperor was excited.

Whether it is a world beast or the inheritance of Duandonghe, they are all priceless treasures. Any chaotic master must be crazy, and a \*\*\*\* king must be tempted!

"I, the small universe has been destroyed, the foundation is broken, and there is absolutely no hope for progress." Dongtie kept a calm smile on his face and talked to the old man, but his heart was thinking quickly. "With my strength, it is impossible to get the Duandong River inheritance from Yuanzu and the others! Even the world beasts may follow Yuanzu and them. Perhaps, except Yuanzu, one of the other two is World beast in disguise?" He couldn't help but look over, but couldn't see anything.

The "invisible and invisible" ability of the world beast king is a secret, and I am afraid that the master of chaos may not know it, let alone that he is a mere true \*\*\*\* of the void. He can only make various guesses.

The existence of the world beasts is just Dongdi's speculation. It is also possible that the human race has solved the world beast crisis, but in the eyes of Dongdi, there is little hope.

The most likely thing is that human beings took refuge in the beasts to survive.

"If the world beasts follow them, I am afraid that the Eternal True God can't do anything to them. Only the master of chaos can take them down in one fell swoop!" Dong Tie's eyes lit up.

"It's a big credit to report this matter to the sect!"

The top inheritance, the beast, no matter which one, is enough for the Changhong Sect to be crazy.

The Changhong Sect will definitely not be stingy with rewards. Maybe it will be able to restore the foundation of its small universe, and even make itself an eternal true god.

As for leaking this news and trading with other forces... He is a true \*\*\*\* of the void, and the news he said is not qualified to be taken seriously.

And he is also afraid that others will plot against him, or startle the snake, and let the ancestors find out, then the bamboo basket will be empty.

And when he reported to the sect, and made such a big contribution according to the sect's rules, he would definitely be rewarded generously, otherwise he would not be able to convince people.

Thinking of this, Dong Iron couldn't hold back anymore, and wanted to leave the palace immediately and report to the Zongmen headquarters.

...

In front of the main hall of the palace, Wang Yi, Luo Feng and Yuan Zu were sitting together.

Although he attended the banquet, there were always avatars of divine power and world beasts cultivating in the Tongtian Tower.

In the sea of laws of Tongtian Pagoda, on a small island, there is a gray-robed black-haired boy with a handsome face and a vague resemblance to Wang Yi. He is sitting cross-legged by the lake, comprehending the origin of destruction.

Around him, a strong aura of destruction pervades, and endless time and space seem to be destroyed in it.

The incarnation of the world beast has mastered the complete origin of destruction, and can constantly comprehend the origin of destruction. The more comprehension it is, the stronger its strength will be.

It's like a giant beast with golden horns with inherited memory. As long as you follow the inheritance and practice, you can master breakthroughs!

Moreover, there is no bottleneck in the incarnation of the beast, as long as it is constantly devoured and comprehended... Because it controls the source of destruction itself, no matter how slow the comprehension is, it will eventually reach the peak stage. At that time, he was just like the primeval universe at its peak. A single blow also has the power of a full blow from the original universe.

"Destruction, the destruction of everything..."

"I understand."

"Destruction is the beginning and the end..." The avatar of the beast suddenly showed a smile.

"This is the way of destruction!"

...

At the same time, Wang Yi, who was at the banquet venue, was startled, with a huge joy in his eyes.

"The incarnation of the beast, broke through?"

Luo Feng and Yuanzu also noticed the change in Wang Yi's expression.

"Jiujiang, what's up?" Luo Feng asked.

Ao Yuan and his two wives also came over.

Wang Yi restrained his expression, but there was still a hint of joy on his face.

"I got inspiration just now, and I have some insights. Haha, everyone, I will retire first and go back to practice." Wang Yi stood up and smiled.

Ao Yuan said: "Brother Jiujiang, this is a good thing. Cultivation is important. Feel free to cultivate here with me, and tell us if you need anything."

One of his wife also smiled and said, "It's enviable. At our level, it's even harder to comprehend."

Yuanzu and Luo Feng didn't believe it, but they knew that Wang Yi was the eternal true god, and his realm was so high that it was unusual for him to make such a rude progress. Could it be that he became the master of chaos?

This is unlikely!

But looking at Wang Yi's expression, they thought of Wang Yi's incarnation of the beast, and vaguely guessed something.

Looking at each other, there is also joy in their eyes.

Wang Yi and them are in the same group. The stronger Wang Yi's strength is, the more secure they will be in the future.

...

Tower of Babel.

When the incarnation of the world beast broke through to the level of chaos master, the "world" in his body underwent earth-shaking changes at the same time.

A world beast does not have a small universe. The source of his power lies in the 'world' within his body.

The stronger he is, the stronger his world will be.

As soon as the world beast, which was originally the pinnacle of the eternal true god, broke through to the level of chaos master, the 'world' in its body immediately expanded more than ten times!

"Boom~"

In the world, the endless black fog rolled up, and in the center of the black fog was the boundless cosmic source energy, which was the endless cosmic source energy accumulated by the incarnation of the world beast in devouring and destroying the universe of the 3,000-latitude cosmic sea!

You must know that the devouring of world beasts is not endless, just like Mossaro in the original book, devouring some of the source energy of the universe, it takes some time to convert it into strength.

The same is true for the incarnation of the world beast. There is enough energy, but not enough realm, so the extra energy of the universe is all accumulated by him in the 'world', forming an endless ocean of origin.

It seemed like an endless light!

This is the accumulation of the primordial universe, the holy land universe, and the small universe that swallowed the entire three thousand latitude universe sea! Naturally so scary!

After the world beast incarnates into a king, it can no longer evolve by devouring its peers, so if you want to break through, you must understand the origin of destruction and devour a lot of energy!

Now the incarnation of the beast has realized the way of destroying the origin of the 'chaos master level'! As soon as the realm breaks through, the realm in the body naturally transforms, and the energy he needs for growth is supplied by the endless source energy of the realm accumulated in the body!

"Boom~"

The whole world was shaking, and the boundless ocean of source energy began to boil, quickly turning into a gray fog.

The 'world' of the beast keeps expanding, and the mist is also increasing.

The incarnation of the world beast turned into its original appearance, with fair skin and a flawless body. On its forehead, there were two sharp white horns that curved upwards. So holy and so beautiful.

One after another, black and mysterious incomparably black secret lines emerged from the skin of its body, and it faintly turned black and purple. It looked more gorgeous and noble, and even had a kingly temperament.

The aura of the incarnation of the world beast is getting stronger and stronger, and the terrifying aura of destruction is constantly surging. If it is not inside the Tongtian Tower, everything is blocked, I am afraid I don't know how many light-years area will be affected.

From the Eternal True God Realm to the Chaos Realm, the strength is a qualitative change!

Divine King, generally if it is not the arrival of the real body, if it is just the incarnation of divine power, generally there is nothing to do in the Chaos Realm!

In the Origin Continent, very few people can reach the 'Chaos Realm', and all of them are enough to intimidate one party into a giant, and make countless strong people surrender and follow.

Even they have a cooperative relationship with the 'King of God', because the experience of the King of God is not very useful to them. Otherwise, there will not be so few who reach the God King!

Wang Yi's figure appeared in the Tongtian Tower, and he looked at the incarnation of the world beast that was plunged into darkness and destroyed the void by the lake from a distance. He could feel every change in the body of the world beast through his connection with the body and mind of the world beast.

"Chaos Realm!"

"This is Chaos Realm!"

Wang Yi was shocked.

For a long time, he has always been aware of the realm of the master of chaos, and he has been groping in confusion.

It is said that by integrating the ten principles of origin, one can naturally become the master of chaos.

However, how to break through the master of chaos, but few can do it.

But now, Wang Yi has glimpsed a corner of the Chaos Realm from the transformation of the beast.

Once you control the chaos, you can transform your true god's heart into a chaotic space. All this has to be triggered by yourself, so you must control the law of chaos before you can do it.

And the incarnation of the world beast broke through to the level of chaotic master, and the world in his body began to transform into the chaotic space.

The whole process of transformation was witnessed by Wang Yi.

"Unfortunately, it was not made by merging the laws. It was he who understood the law of destruction and made a breakthrough! The most crucial step was missing." Wang Yi regretted in his heart.

After all, the paths of him and the beast are different!

As long as the world beast masters the source of destruction along the way and understands the way of destruction, it is enough to become the master of chaos and become the \*\*\*\* of the universe (God King).

But he must fuse the ten principles of origin into chaos!

However, because of the breakthrough of the incarnation of the beast, Wang Yi also had a personal experience of the Chaos Realm.

"The realm of the eternal true \*\*\*\* is just a seed." Wang Yi had a clear understanding.

"The chaotic realm is a piece of soil."

What the Eternal True God realm comprehends is the source, a kind of path, and a kind of forward direction.

Such as gold, wood, water, fire, earth, thunder and lightning, light, wind, life, yin and yang, destruction, killing, void, swallowing, blood, darkness, time and space, illusion, mental image, shadow, fluctuation, matter... and many other sources, as long as Comprehend one, you can step into the eternal true God!

The realm of chaos is the foundation! Base!

Once you have seeds, you must also have soil in order to germinate and grow into a towering tree!

That is, the complete "Tao" of the God of the universe!

Chaos Realm... is to break the limit of the original Eternal True God Realm! Let this road be full of infinite possibilities, that is, let the 'point' of the limit be broken and turned into chaos! Chaos can breed infinite possibilities, and eventually a universe has been successfully conceived, and that is the ultimate realm - the God of the Universe! That is the king of gods!

"Really..." Wang Yi shook his head.

True God, he has to find his own way.

The true \*\*\*\* of the void has to comprehend the ten principles of origin to become void.

The Eternal True God has to comprehend a source, which is the embryonic form of the seed of the Tao.

At the chaotic master level, you have to integrate the ten principles of origin to create a chaotic space.

When we reach the God King, we have to follow another path and master the universe-level Dao!

After going around in circles, in the end, he went back to the original way.

In fact, the essence of Chaos Realm is like a blank sheet of paper! The God of the Universe (God King) is like a painting! The white paper is clean and full of infinite possibilities, just now it is easy to paint! Of course, it is very difficult to draw the most exquisite works from it. This is also the biggest hurdle in the countless realms of cultivation. Only by "drawing the most perfect" can we become the universe. However, it is difficult to make a blank sheet of paper.

In the origin continent, the king of gods is the ultimate, and they master the rules of the universe.

But the supreme rule is the ultimate goal. Are the rules of the universe supreme?

no!

The 'Origin Continent' (Origin World) is the supreme rule, which is the current 'Chaos Void Rule'.

Above, is the "chaotic source-level Dao". UU reading [www.uukanshu.com](http://www.uukanshu.com)

Chaotic source space, composed of various Chaotic source levels, contains infinite secrets, and no one knows the end.

Wang Yi's mind is connected with the world beast, and he can see the situation in the world, the ever-evolving chaotic world, and the destructive power full of chaotic world, and said with emotion: "The

chaotic space is the initial form of the universe, at this moment. Nothing is born, and it has infinite possibilities. To transform the chaotic universe into a real universe, pure chaos operates, and the rules are relatively pure and simple. While the universe operates, the rules are complicated and I don't know how much. This kind of complexity... not chaos, but It is a whole that is perfectly formed by the rules of everything, so the realm of the \*\*\*\* king... the \*\*\*\* of the universe is so difficult!"

Even in the chaotic realm, the direction is different, and the way of mastering is also different!

The chaotic space like the beast has the characteristics of "destruction"! This is because it goes the way of destruction!

Wait for its way of destruction to become a true cosmic way! Then the power of a single blow is comparable to that of a real cosmic explosion, and it is not a problem to destroy a primitive universe!

It's like different gods and kings are good at different things. The mini-universes they carve out within their bodies will also make a difference. Like a mountain guest who is good at refining treasures, the universe he has opened up is relatively delicate. Some god-kings have created a very rough universe.

The way of the beast is obviously more lethal.

#### [Chapter 840: Breeding the Beast Legion](#)

The expansion of the 'world' has stopped, the dark fog is raging like a sea, and the ocean of cosmic source energy in the middle has also shrunk a lot.

The cosmic energy that can be plundered into the Cosmic Sea is too rich, and there is still not much left.

And the incarnation of the world beast who regained his calm also changed, turning into a gray-robed, white-haired boy.

"The incarnation of the beast has become the master level of chaos."

Wang Yi was overjoyed.

Moreover, Wang Yi could feel the power of the incarnation of the beast.

In terms of strength enhancement alone, the incarnation of the world beast is a hundred times larger than before.

Just as the Eternal True God has been promoted to the master of chaos, the power of the god's body has been increased by a hundred times.

In this process, Eternal True God needs to convert divine power into Chaos Master-level divine power, but the incarnation of the world beast is automatically transformed with the 'world' in the body, which consumes the energy of the origin of the universe.

But the "world beast incarnation" doesn't have any special abilities, but the "world" inside the body is bigger and more perfect.

According to the induction, the 'world' of the incarnation of the world beast is about one trillion light-years in diameter.

At the time of the eternal true \*\*\*\* level, it is 100 billion light-years in diameter.

The 'world' of a world beast is its source of power and its core of life.

"The world beast incarnates into the chaotic master, then you can start to breed more powerful world beast warriors." Wang Yi said with emotion.

The world beast incarnates into the chaotic realm, and its own perception of the chaotic law is comparable to that of the real chaotic master, and it can also perform the tricks of the eighteenth-order secret law.

But that's nothing.

Even if the world beast incarnates masters the nineteenth and twentieth secret tricks of the Way of Destruction, it is only a powerhouse in the chaotic master.

The most terrifying aspects of the world beast king are the 'tens of thousands of clones', the 'invisibility and formlessness', and the 'bringing countless world beast warriors'.

Relying on the latter, it formed the catastrophe to all nations.

The endless army of world beasts, even the king of gods, will change color.

However, in order to breed the beast warriors, it is also necessary to devour a lot of energy and countless treasures to provide a source of breeding warriors.

Wang Yi pondered, "Energy, and, even if the world beast breaks through to the Chaos Master level and consumes a lot of energy, there is still a lot left, which is enough to breed a large number of world beast warriors, but the treasure material is a bit troublesome, and you have to find it yourself."

"After all, the incarnation of the beast is my greatest trump card. The more warriors the incarnation of the beast breeds, the more helpful it will be to me." Wang Yi nodded.

Open the exchange treasure in the sign-in panel.

Start redeeming Chaos Master Treasures.

Although the incarnation of the world beast has entered the Chaos Master level, it can only be exchanged for Wang Yi's human deity, so it can only be exchanged for Chaos Master level treasures at the highest.

When his deity truly enters the chaotic master level, he will naturally be able to exchange for god-king-level treasures.

...if he had that many Arcana points.

Pieces of powerful treasures exuding a chaotic atmosphere were exchanged by Wang Yi, and then the world beast turned into a mouth, and directly swallowed the treasures into the stomach and entered the 'world' in the body.

Like the weapons and other treasures used by the powerhouses of the origin continent, the world beasts are useless! Because their power and divine power are diametrically opposed, naturally they

can't recognize the master, trigger, etc., but it's okay if they are pretending. For example, holding a weapon can be used as a dead object, but it can't get bigger, can't drive the secret pattern, etc.

Treasures enter the 'world' and stay with the source energy ocean.

"Let's try it first." Jie Beast transformed his body and mind with a thought.

"Boom~"

In the boundless splendid sea of 'light', it suddenly became turbulent, forming a vortex. At the same time, countless black mists rushed towards the center frantically, converging into a black fog cocoon, and a shuttle-shaped chaotic master-level treasure fell into the vortex. Engulfed by the dark fog, the chaotic master-level treasure that was so powerful and hard that even a \*\*\*\* king could hardly destroy it quickly disintegrated.

Chaos master-level treasures continue to fall in, be swallowed and decomposed, and transformed into materials for nurturing world beasts.

At the same time, a magical change occurs inside the black fog cocoon.

One by one black light spots began to be born.

Gradually began to breathe life.

"I am currently bred at the most eternal true god-level world beasts."

"It takes time to breed a world beast warrior. But as long as there is enough energy and treasures, many heads can be bred at one time." The world beast avatar sensed this scene.

"At one time, a maximum of 10,081 heads will be bred for an epoch."

"But it also needs to consume a lot of treasures and energy." Wang Yi secretly thought. "I just don't know how many world beast warriors can be born from the treasure I have now."

The treasure points on Wang Yi's body are limited, and as they are exchanged again and again, there are not many left.

He has a sense of urgency.

"If I want to breed a large number of beast warriors, I don't know how many treasures I will get." Wang Yi sighed, "If I can sign in a large number of high-level treasures, such as one hundred and eighty treasures of the gods, or an army of beasts born out of it, then It is truly invincible."

One hundred and eighty treasures of the \*\*\*\* king?

The origin continent does not know which force can take it out.

"There are not many treasures on my body now, I have to go to Wu Guo's treasure house quickly and get them." Wang Yi thought to himself, "The treasures left by Wu Guo should also allow me to breed many beast warriors. "

Tens of thousands of eternal true god-level beast warriors, the combined power of a single strike is comparable to that of the Chaos Master.

If there are hundreds of millions of Eternal True God-level World Beast Warriors, with a single blow, the Chaos Master can be killed!

If you wait for the beasts to reach the peak of maturity, and breed stronger and more beast warriors, and countless powerful beast warriors join forces to besiege, even the \*\*\*\* king can besiege to death!

Sweep many countries!

But now Wang Yi's world beast incarnation is still far from this level.

...

When Wang Yi was giving birth to the beast warriors, the Eastern Emperor was also in action.

Ye Changmeng had a lot of dreams, and he was also afraid that something would happen, so he immediately contacted the top of his sect.

After becoming a Void True God, unless there are other opportunities or talents, there is no avatar.

However, the incarnation of divine power can be left, but the incarnation of divine power generally has no combat power.

Those divine power clones with powerful combat power are generally cultivated by the strong who spend a lot of time and cost, and generally there is only one.

Like those who have many clones and strong clones, it is rare.

The disciples of Changhong Sect usually go out and leave a divine incarnation in the sect, so that they can contact the sect in time if they encounter anything.

"I want to see Elder Yuan Sui." The divine incarnation of the Eastern Emperor hurried to a cloud-shrouded mountain peak and said eagerly to the guard.

The strongest of the Changhong Sect is the ruler of the ancestor Changhong, followed by the powerhouses of the eternal true gods, and the elder is one of them.

Elder Yuan Sui was also a senior figure in the Changhong Sect.

These guards are true gods, but they looked at the anxious East Emperor with indifference, and shouted, "Which sect are you a disciple? There is no etiquette at all, the elders are what you want to see?"

"I have something very important to report to the elders, which is related to the future of my Changhong Sect. Please also report it." The Eastern Emperor held back his anxiety and said.

Seeing that the East Emperor's expression did not seem to be fake, the guards looked at each other and said, "Well, we can report it for you, but if you anger the elders, you can't blame us."

A guard left to report.

While Dongdi waited anxiously, the guard finally came back and said to Dongdi: "You are lucky, the elder is just free, he wants to see you, come with me."

Dong Di was overjoyed, "Thank you."

This thousand-light-year-high mountain peak is only the residence of the elder Yuan Sui, and the Eastern Emperor followed the guard and flew directly to an ancient and majestic mansion.

In addition to Elder Yuan Sui, there are some disciples under his sect here, both true gods and void true gods. They looked at the East Emperor and the guards who came over and ignored them.

"Elder," the guard said respectfully to a figure.

"Elder." The East Emperor also saluted.

The man waved his hand and the guard went down, only the East Emperor stayed.

Elder Yuan Sui looks like a handsome young man.

He looked at Dongdi and nodded, "I remember you, your name is Dongtie, you used to attend classes under my door for a thousand epochs, and today you came to me to see me, and you also talked about the future of the sect?" In the eyes of the elder Yuan Sui There was a strong coercion, which made the East Emperor's heart tighten, and only a faint voice was heard. "I hope you don't deceive me."

A disciple of the Void True God who was just sent out said that he had to tell him about the future of the sect, but Elder Yuan Sui did not believe it.

So if Dongtie doesn't give him a satisfactory answer, he definitely doesn't mind a little punishment.

Well, the Blood Bandit Mountain is still too comfortable for him, so let's transfer it to the Valley of Ten Thousand Snakes. I heard that there is a war with other forces in the sect, and people often die.

Elder Yuan Sui thought lightly.

"Elder. What I am going to report this time is absolutely important to the sect. If there is any deception, the disciple is willing to be punished." The Eastern Emperor said firmly.

"Come on. What's the matter?" Elder Yuan Sui became impatient.

"Yes." The Eastern Emperor took a deep breath and said, "Elder, this disciple was originally a being of the universe sea, but he later escaped from reincarnation and became a true \*\*\*\* of the void before he came to the origin continent."

"I know this." Elder Yuan Sui nodded. The three thousand latitude universe sea is one of the few people who can come to the origin continent in each reincarnation era. In addition, the origin continent is extremely vast. It is actually difficult to meet them. There are not many, so Elder Yuan Sui has an impression of him.

"However, the universe where the disciple stayed in the sea of cosmos was destroyed not long ago." East Emperor's face showed a bitter color.

The Eastern Emperor did not tell others about the appearance of the beast in the universe, nor did he report it to the sect, because he felt it was unnecessary. The sect couldn't help himself either.

Elder Yuan Sui was a little surprised, looking at the bitter East Emperor, "What are you saying is true? To destroy a void true \*\*\*\* universe, the attack must at least reach the peak of the eternal true god. How can such a strong man appear in the sea of cosmos."

The East Emperor sighed, "How dare the disciple lie, if the small universe hadn't been destroyed, the disciple would not have been dispatched all of a sudden."

Elite disciples are rarely sent abroad, and generally stay in the sect to cultivate.

Elder Yuan Sui became really interested now, "Then do you know how your small universe was destroyed?"

The East Emperor's face was heavy.

"It's a world beast."

"The beast?"

Elder Yuan Sui was startled, and then suddenly realized.

"It turned out to be a world beast. No wonder your small universe was destroyed. The birth of a world beast is very rare. You are also unlucky." Elder Yuan Sui said regretfully.

Dongdi is also very depressed.

Who would have thought that it didn't take long for him to become the true \*\*\*\* of the void, and he actually encountered a rare world beast.

The Changhong Sect exists in the era of millions of reincarnations, but it has never experienced the catastrophe of the beast, which shows how unlucky the Eastern Emperor is.

"The world beast is a great opportunity, but the world beast that grows up cannot be enslaved." Elder Yuan Sui looked at the East Emperor, "Even if you know where the world beast is, our sects can't deal with this world beast. , if you anger it, I am afraid it will bring serious trouble to my sect!"

Elder Yuan Sui has a hint of fear in his eyes. According to legend, the real beast king at the peak of maturity needs a group of kingdoms to join forces to resist. That is the kingdom with the supreme \*\*\*\* king. It is so difficult. If the sect that dominates the town dares to provoke it, avoid it!

When the Eastern Emperor heard Elder Yuan Sui say this, he was shocked, and then quickly said: "Elder, I also know another secret."

"What's the secret?" Elder Yuan Sui became much more patient after knowing that there had been a world beast in the Eastern Emperor's Cosmic Sea. I feel that this disciple did not come rashly at least.

"I know where a top inheritance is." East Emperor said seriously, "And, it appeared in our universe sea."

"Top inheritance? What inheritance?" Elder Yuan Sui became curious.

"It's the inheritance of the Duandong River." The Eastern Emperor continued. "Duandonghe, but there has been a \*\*\*\* king, and there have also been some super sects dominated by chaos."

"Duandonghe Inheritance?" Elder Yuan Sui looked at the disciple in front of him fiercely, "You got this inheritance?" His heart skipped a beat, if it was true, then it really had something to do with the future of the sect.

"No..." The East Emperor said bitterly: "The disciple thought that he also sent people to fight for it at that time. However, it finally fell on a human race in the primitive universe at that time."

"Didn't grab it?" Elder Yuan Sui really wanted to slap him.

This kind of top inheritance, appearing in the origin continent, is enough to cause a \*\*\*\* storm, and maybe the \*\*\*\* king will fight for it. And the Chaos Master will be desperate.

Their Changhong Sect heritage~[www.mtlnovel.com](http://www.mtlnovel.com)~ is far less than this kind of inheritance.

But when such a peerless opportunity appeared, how could this disciple not grab such a good opportunity?

"The disciples also tried their best. But there were several peerless geniuses in the human race at that time, and the inheritance still fell on them." The Eastern Emperor was helpless.

He also thought that he would be willing to exchange the Xeon Supreme Treasure, but the human race is too cunning to lie to him with useless inheritance experience information.

Seeing the elder's unpleasant expression, the East Emperor quickly said, "However, this disciple has made a new discovery when he was sent out this time!"

"Disciple has discovered that the person who inherited the human race actually appeared in the blood bandit mountain of our Changhong Sect's sphere of influence!"

Dongdi revealed all his guesses, and then looked at the contemplative elder in front of him uneasily.

Whether it can be released now depends on whether the elders believe it or not.
