

## A God 841

### [Chapter 841: Changhong dominates the decision](#)

The matter was of great importance, and Elder Yuan Sui couldn't make his own claims. He glanced at the disciple in front of him and said solemnly, "Who else knows besides you?"

The East Emperor shook his head, "Only the disciple knows."

"If what you said is true, it does determine the rise and fall of this sect." Elder Yuan Sui nodded, "Come with me, and I will take you to see the sect master."

metropolitan!

The East Emperor was shocked, there has only been one sect master of Changhong Sect since ancient times, and that is the master of Changhong, the founder of Changhong Sect.

It's just that the Changhong Sect Master has not appeared for a long time, and many people have never seen it, including the East Emperor, and have not seen the real body of the Changhong Sect Master, but have seen some carvings and sect records, there are descriptions of the Changhong Sect Master.

The East Emperor was excited, "I heard that the Lord of Changhong was transformed by a rainbow from the Origin Continent. He was born as a true \*\*\*\* of the void, and his talent was amazing. He cultivated all the way to the Lord of Chaos, and was received by several lords of the surrounding countries. A very terrifying powerhouse."

It is very unbelievable to be born to be the true \*\*\*\* of the void in the sea of cosmos, but in the origin continent, some very powerful creatures are born with amazing power. It's just that they have a high starting point, but it is more difficult to become a \*\*\*\* king.

"I actually want to see the master." The East Emperor, who was the first ancestor in the universe, couldn't hide his excitement at this time.

It is like an ordinary immortal, who is excited to see the great Lord of the Universe for the first time.

The vast Changhongzong Mountain Gate, this vast world hides an ancient secret.

Inside the secret. In a valley where birds are singing and flowers are fragrant, a woman in a colorful dress is sitting on the edge of the Tan and fishing, with a peacock-like beast lying beside her.

Her body seemed to be enveloped in a layer of invisible brilliance, making her the most dazzling existence in the whole world, and her beauty made the world pale.

"Bei Mei, it's been more than 8,000 epochs, you can't catch it." The peacock gem-like eyes with a colorful feather crest dragging a long and beautiful tail are staring at the green bamboo fish on the woman's hand. Rod, muttering, "Don't you feel bad for those fish, I always feel that you don't want to feed me."

"Kong Xuan, you are too impetuous and insincere in your cultivation, and you have never broken through to the master of chaos." The woman's voice was as clear and soft as a clear spring, as if it

penetrated deep into one's soul, making people involuntarily intoxicated. Only the voice of nature, the Eternal True God, will be affected. "Be quiet, it's only over 8,000 epochs, don't be in a hurry."

"Okay then, I'll sleep first, and call me after you catch it." The peacock's wings were placed on the beak and yawned. He closed his eyes and lowered his head when he was about to bury his head in the wings when he was knocked.

"Get up, I asked you to accompany me to cultivate your mind, not to let you sleep." The woman in the colorful dress said lightly. "If you can't be the master for a day, just accompany me to fish every day."

"..." Peacock opened his mouth, and said resentfully: "Then you have to fish for me to eat."

"well."

"I still think you're not fishing, you're fishing me." Peacock whispered.

The woman in the colorful dress did not change her face.

You guessed it.

Still have to go fishing with me.

Who let you beat me.

I won't admit it anyway.

"Sect Master, Yuan Sui brought his disciples to see the Sect Master, and there is something important to report."

A voice entered the secret realm.

The secret realm where the Lord of Changhong is located, if it is not approved by the Lord of Changhong, it will be difficult for the Lord of Chaos to break in.

Most of the time, Lord Changhong is here to practice.

"Someone is coming." Peacock's eyes lit up.

Changhong Lord said lightly: "Come in."

Two figures soon appeared in the valley, and Elder Yuan Sui came to the woman with the nervous East Emperor.

"Meet the Sect Master." Both of them saluted respectfully.

The East Emperor secretly watched Changhong Lord, and couldn't help but lose his mind.

His eternal true god-level will, it is difficult to resist the innate charm of Changhong's master.

"It's so crazy..." The East Emperor regained his senses and smacked his tongue inwardly. He felt that his soul was involuntarily attracted by Changhong's master just now, as if the other party said a word, he was willing to die for the other party.

And this is just the breath that Changhong Lord unintentionally exudes.

Dongdi was shocked when he saw the ruler of Changhong, and he couldn't help running the train in his mind, thinking of many rumors about the ruler of Changhong. "There is a legend that not long after the suzerain became the master of chaos, he went to a certain country to visit a supreme \*\*\*\* king.

Changhong dominates the opening:

"Elder Yuan Sui, what's the matter with you bringing this disciple over to me?"

Changhong has a good temperament and is relatively easy-going.

Of course, no matter how easy-going she is, she is also the master of the aloof.

Yuan Sui said respectfully: "Sect Master, this disciple of my sect is from the sea of cosmos..."

He reported the words of the East Emperor to the Master Changhong, and before the Master Changhong heard the words, the peacock beside her had already screamed, "That's still worth thinking about, kill them immediately, and arrest all those boys. , get the inheritance, Bei Mei, you also have a chance to become the king of gods! You don't have to be angry with the king that day!" It flapped its wings and seemed to be too excited.

Master Changhong ignored her little friend and looked at the emperor, "Is what you said true?"

The voice was like a magic sound, and it penetrated into the depths of Dongdi's soul. Dongdi's eyes couldn't help but become confused. Under the inquiry of Changhong, he told all the secrets in his heart, including the one who wanted to ask the sect to restore his small universe. All things are said.

After the East Emperor finished speaking, Changhong Lord nodded. "It seems that what he said is true, but it is still not entirely believed."

At her level, she is extremely cautious, how can she easily believe what others say.

Not to mention such a major matter, Changhong Master is even more cautious.

Elder Yuan Sui looked at Changhong Master with an excited expression, "Sect Master, if this is true, for my Changhong Sect, this is a great opportunity, a chance to rise." Maybe he Yuan Sui can also take this opportunity to go further.

"Duandonghe inheritance, I have heard of it for a long time. Duandonghe in all dynasties, the lowest strength is the strongest among the eternal true gods, comparable to the master of chaos. The most terrifying thing is their three generations of ancestors, who are a real \*\*\*\* king. With his ability, he will definitely arrange means to prevent the leakage of the secret knowledge."

Changhong Lord shook his head.

"How can it be so easy to obtain the core inheritance of such top-level forces."

The inheritance of the king of gods is indeed very tempting to a chaotic master, but do you want to help them become kings of gods? Just as hard! Just a little more help.

But in this way, it has already made many Chaos Lords heartbeat.

Although Elder Yuan Sui felt that the Sect Master was right, but such a powerful inheritance is just around the corner, do you want to give up?

"I have my own opinion on this matter, you don't have to worry about it." Changhong Lord calmly said, glanced at the still confused East Emperor, "The matter is very important, let him sleep for a while, Aoyuan, you say."

"Yes, Sect Master." Elder Yuan Sui did not dare to disobey. Take the Emperor away.

Gu Sun

The Eastern Emperor in Xue Kou Mountain also lost his self-consciousness. If no one wakes him, it is estimated that he will be able to sleep until the end of the world.

Seeing that the two elders of Yuan Sui were gone, Peacock couldn't help but said, "Bei Mei, aren't you interested in the inheritance of the God King?"

Changhong Master 'Bei Mei' shook his head, "It's not that I'm not tempted, but I have to think carefully."

Who doesn't want the inheritance of the \*\*\*\* king?

But the hidden risks behind this...

Changhong Master thought, "This Dongtie said that the Duandonghe inheritance appeared in his universe sea, but because of the catastrophe of the world beast, at the same time, the 'world of Jin' appeared! According to the description, if it is not unexpected, it should be The corpse of the lord of Jin who has already been destroyed." The ruler of Changhong sighed inwardly. This cosmic sea is really a treasure, with countless opportunities, but unfortunately even the king of the gods cannot go deep. When the Chaos Master goes, he will surely die!

"What I want to figure out now is whether those cosmic sea natives are related to the beasts."

Thinking of the terrifying beasts of the world, Changhong Lord felt chills in his heart.

At the level dominated by Changhong, you naturally know more about the beasts!

She knew that with the ability of the world beast's 'tens of thousands' of clones, even if she could deal with the deity of the world beast in the weak period, but when the world beast really became stronger, it would be a disaster for the Changhong Sect!

Master Changhong doesn't want to provoke the beast for no reason.

"If the world beast is related to those natives, I will tell other countries about the inheritance of the world beast and the aborigines, and let them deal with the world beast. I can also get some benefits from it!"

The most important thing is that the world beast appeared here, just like the volcano under the \*\*\*\* did not know when it erupted, turning the Changhong Sect into flying ashes, and the Changhong ruler was also afraid.

"If they have nothing to do with the beasts, with their inheritance and talent, they will have a great chance to become the masters of chaos in the future, and they may even become \*\*\*\* kings!"  
Changhong master's heart is like a mirror.

Greed can, but must not blind one's reason and make wrong choices.

"The original ancestor, an era of reincarnation, became the eternal true god! Incredible!"

"And according to the disciple, one of them is named Wang Yi, and he may have taken the divine body route and achieved unprecedented achievements! The other one is also inherited from the Duandong River!"

Changhong Lord was full of shock.

Wang Yi stepped into the level of 100,000 times the divine body before entering the late stage of the primordial cosmic era. That vision could be seen in the entire cosmic sea, and of course all the forces that had not been destroyed at that time also knew about it.

And Luo Feng stepped into the level of 100,000 times the divine body in the later stage of the original universe! It also produced a vision of "endless golden light, and the worship of hundreds of millions of lives". But by then all the alien universes had been destroyed.

Although the first ancestor of the Eastern Emperor did not know the secret, he knew the evildoers of the two peerless geniuses of the human race, and of course he told Changhong Lord all about it.

Changhong Lord was shocked at the time, but he didn't show it.

"A primordial ancestor with a comprehension against the sky, who was suppressed by the primordial universe in the early days, and then escaped from the predicament and came to the continent of origin. In an era of reincarnation, he became the eternal true god!"

"The other two have top inheritances, and one of them is suspicious of the achievement of over 90,000 times the divine body route!"

"Isn't this the prototype of the three \*\*\*\* kings in the future?"

The shock that Changhong dominated at that time can be imagined.

She felt that with the luck and evil spirits of this human race, it was very possible to survive the catastrophe of the beasts.

"If they really have nothing to do with the world beasts, they have top-level inheritance, and they have the talent against the sky, as long as they don't fall, it is inevitable that they will become the masters of chaos in the future, and even hope to become the king of gods." Master Changhong held his breath slightly.

Three God Kings!

And coming from a place like the sea of cosmos, it is unheard of! Incredible!

If you hadn't heard it yourself. won't believe it either!

"To seize the inheritance is very risky, and the inheritance may not be obtained, but to let them escape, it is a deadly vengeance. In the future, when they become stronger, they will definitely take revenge on me."

"Tell other forces?"

Changhong Lord hesitated.

Tell other forces, you may be able to get some benefits. But it may not be of much help for Changhong to dominate into a \*\*\*\* king.

Even if you get a few powerful treasures and increase your strength... but Changhong Lord is not satisfied.

Changhong Master is very clear, maybe this is the biggest opportunity in her life, and she must be extremely cautious.

At this moment, she thought a lot in her mind. Thinking of the hard years when she was born, the beginning of cultivation was ignorant, to the joy of becoming the master of chaos, to the humiliation suffered by the Kingdom of Heaven... Her eyes gradually became sharp.

"Even if I get the inheritance and the treasure, can I become the king of gods?"

It's too hard to become a \*\*\*\* king!

In the endless years of the origin continent, there may not be a god-king born.

Countless masters are struggling in this level.

"Now, in front of me, there are three seeds of future \*\*\*\* kings... If I make good friends with them, forge a deep friendship, and with their help, I will have a higher chance of becoming a \*\*\*\* king in the future. Dare to underestimate me, even the \*\*\*\* of Tianji, I'm afraid he wouldn't dare to offend me..." Master Changhong gritted his teeth and became excited.

"Also, there is a great opportunity in front of you!"

Strong people like this naturally have to make friends while they are weak. When they become strong, it will be difficult to make friends.

After all, it is easy to add icing on the cake, but it is difficult to give charcoal in the snow.

Changhong Master has made a decision!

She glanced at the lazy and greedy peacock beside her.

"Kong Xuan, I have an idea..."

After listening to Kong Xuan, she was surprised: "Do you want to seduce them?" She touched her feathered chin, "Well, this is a good idea. With your charm, you will definitely be able to fascinate that person. A few little guys are fascinated, and they are dead set on you. In the future, you will have three god-king husbands, and when the time comes, who would dare to underestimate you." Kong Xuan laughed strangely.

Changhong Lord's face darkened, "What nonsense are you talking about?"

She glanced at the excited peacock under her feet, sighed and said, "I will send a divine power clone of mine to go there with you. My divine power clone only has the peak combat power of the Eternal True God, and you will need to cooperate with me at that time. We conceal the identity change and disguise. See if you can get close to them."

Oh, can go out and play. Kong Xuan's emerald-like eyes lit up, and she immediately patted her chest with confidence.

"Don't worry, I will definitely help you subdue those three boys, so that you will have three god-king husbands in the future!"

Snapped!

"Ah, don't hit me! Can't you just talk?"

#### [Chapter 842: Life is like a play, it's all about acting](#)

The rush speed of the Chaos Lord is thousands of times that of the Void True God and the Eternal True God.

In addition, Changhong Zongshan Gate is very close to Xuekou Mountain, and soon the ruler of Changhong quietly appeared near Xuekou Mountain.

A figure appeared next to Changhong Lord. It was a woman in colorful clothes, with long hair scattered and a beautiful face, but the most exciting thing was her inadvertently exuding natural charm, even the Eternal True God couldn't help but be moved .

"Kong Xuan, you go to Xue Kou Mountain with me as a supernatural clone. Remember, don't expose yourself before gaining the trust of the other party." Lord Changhong urged.

"I have already instructed Ao Yuan to live in Xuekou Mountain as a disciple of Changhong Sect, and look for opportunities to investigate those people." Changhong Sect's face was serious. "The first goal is to find out first whether they have been enslaved by the beasts. You don't need to worry about it. I have my own means, and you can help me."

Kong Xuan, who turned into a brightly colored green feather bird, nodded obediently.

"Don't worry, sister, I understand."

As a result, the two eternal true gods' fighting power quietly flew to Xuekou Mountain under the watchful eyes of Changhong Lord.

The Lord Changhong whispered: "I hope they are not related to the beasts..."

...

The clone of Changhong's master turned into an unpredictable light, which was related to the way she walked. In a very short period of time, under the circumstance that other people could not perceive it, she unknowingly came to a palace in Xuekou Mountain. middle.

The mountain master in purple robe is already waiting here, he is the only one here, not even his two ladies.

When he suddenly woke up, he saw a woman in colorful clothes standing in front of him. Her presence illuminated the entire hall, and there was a brightly colored green-haired bird beside him.

"I have seen the suzerain." Ao Yuan hurriedly saluted.

"Aoyuan, you did a good job this time." Changhong's avatar said with a smile, although it is only the Eternal True God Divine Body, but this avatar with Chaos Dominator level is much more powerful than the Eternal True God Peak, but its power is far less powerful. Deity.

Changhong Lord said softly: "Our sect now needs more talents to strengthen our strength. If we can pull those three people into our sect, it will be of great help to our sect."

Master Changhong did not intend to tell Aoyuan the identities of the three original ancestors and the world beasts.

So she came here to conceal her identity and use a pseudonym another Changhong Sect Eternal True God to come here to recruit geniuses.

Aoyuan said respectfully: "The disciple also thinks so, so the disciple has been working hard, but the original brother and the others don't seem to be willing to join our sect."

He was also amazed in his heart. Although he had passed the news to the sect before, he never imagined that the sect master who had been secluded and devoted himself to cultivation would also be attracted by these three peerless geniuses, and even sent the most powerful divine power clone over.

In the Origin Continent, even the divine power clone of the Eternal True God is nothing, only the divine power clone dominated by Chaos has a relatively powerful combat power, but there are only one or two at most.

And if the divine power clone is destroyed, it has to spend energy to cultivate it again.

Because this is a 'body of flesh and blood', don't forget that in the realm of true gods, the body of the strong has changed from pure divine power to flesh and blood containing divine power.

A body of flesh and blood is considered a 'divine power clone' and has combat power, otherwise it is just a 'divine power incarnation', which is completely composed of divine power and is not used for battle.

"I will see them in person, just don't leak it out, just do as I instructed." Lord Changhong glanced at him.

"Yes." Aoyuan said respectfully.

...

Blood Bandit Mountain.

Wang Yi's residence covers an area of more than 100 light-years, and there are many maids and servants from Xuekou Mountain here to serve. This is a place specially prepared by Xuekou Mountain for

important guests, which shows that Aoyuan attaches great importance to them. Yuanzu and Luo Feng lived on the other side.

"My world beast has broken through to the level of chaos dominance. Get ready, and you can almost go to that wild land." Wang Yi secretly said in his heart.

Wang Yi stayed here to cultivate, mainly to improve his strength and ensure safety. After all, no one knew what he would encounter on the indigenous side.

Now that the beast has reached the Chaos Realm, it can be regarded as having the ability to protect itself in the borderland.

In this respect, Wang Yi is quite stubborn.

He wouldn't be vigilant just because the tower is strong.

"Jiujiang Brothers."

Ao Yuan came over at this time, but Wang Yi noticed that he was also accompanied by a woman and a green-haired bird, all of which exuded the aura of the eternal true god.

Luo Feng and Yuanzu also appeared at the same time, and Ao Yuan transmitted the sound to them just now.

"Brother Ao, this is..." The original ancestor in white robe looked at the person and bird behind Ao Yuan.

"Haha, let me introduce to you, these are the two inner hall elders of our Changhong Sect." Aoyuan smiled heartily.

"This is Elder Hongdai, this is Elder Kong Xuan."

"The two elders have just arrived at our Blood Bandit Mountain, and they were very impressed when they heard about the three, so let me lead the way to meet a few of them," Aoyuan said.

Six practitioners took their seats in the palace together, even the bird had a seat.

And the Lord Changhong also observed the three secretly.

One Eternal True God who just broke through, and two Void True Gods.

I just don't know if any of them are disguised as world beasts, or if the world beasts are secretly following them.

She only knew that the World Beast King had the ability of 'tens of thousands of clones', but she didn't know that the World Beast King also had the ability to be 'invisible and invisible'.

But since the Lord of Changhong is here, he is naturally prepared.

continue reading! Page 1 of 3 She gestured to Kong Xuan, who turned into a green-haired bird beside her, and Kong Xuan immediately said, "I heard that Brother Yuan entered the eternal true God through the soul-related origin path? I also follow the soul path. , I don't know if I can learn from the original brother."

Kong Xuan was able to follow Changhong Lord in an almost equal capacity, and this time she was brought over by Changhong Lord's clone, naturally because she was amazing.

This peacock has a natural seven-color divine light, and it follows the soul origin path, which is specially aimed at the soul. As long as she fights in battle, she can know whether the other party is enslaved.

As long as the original ancestor is not enslaved, the other two naturally cannot be enslaved by the beast.

This is what Changhong Master came up with.

If she finds that the other party is enslaved, then whether it is a beast or not, she will directly report it to other countries and tell them that there is a beast here.

In order to prevent the beasts from causing serious trouble in the future, those \*\*\*\* kings will definitely kill them.

Anyway, the sacrifice was only Blood Bandit Mountain, and Changhong Sect could bear it.

If it wasn't a world beast, then everyone would be happy. First, you don't have to worry about the world beasts appearing here, and second, you can make friends with each other.

Yuanzu had no doubts about Kong Xuan's request and readily agreed.

Because it was just a discussion, the venue was an empty place on the top of Xuekou Mountain, and there were only a few strong people around.

Tani Min

Looking at the green bird on the opposite side, the original ancestor's eyes were calm, he just became the eternal true god, and currently only masters the fourteenth-order secret technique.

And this time it's just for learning, some powerful tricks and treasures are of course not easy to use.  
"coming!"

This green-haired bird has a vigorous breath, spreads its wings, and looks at the original ancestor with green jade-like pupils. hum. The surrounding void suddenly solidified, trying to bind the original ancestor.

The soul power of the two collided in the void.

"What a weird soul trick." Yuanzu frowned a little, he obviously felt that the other party's secret realm was far higher than him, but his heart was full of excitement.

And the Lord Changhong, who was on the sidelines, was also a little nervous.

Both sides stood still, but all kinds of soul attacks had followed one after another, and they were constantly colliding violently.

"What a strong will." Kong Xuan was also a little surprised. During the collision, she could clearly feel the unfathomable and unshakable will of the other party, as if it was like an endless starry sky.

"Why is his will so strong?" Kong Xuan really couldn't believe it.

It is said that the will of the holy level is completely different from the will of the eternal true god. Even among the eternal true gods, only a very small number have it. And most of it has to do with the path of the soul.

Like the original ancestor, it would be terrifying if he had such a will when he first stepped into the Eternal True God.

And the original ancestor was also amazed at the mystery of the other party's secret method, and carefully figured out the essence and mystery.

"Okay, try my trick next." Kong Xuan's voice came over.

"Wow!"

Yuanzu was shocked to see that the green-haired bird burst into an extremely bright and strong light, which was a light that made the soul tremble, overwhelming and omnipresent, coming like a wave.

An extremely terrifying pressure came.

Fortunately, the original ancestor did not feel the killing intent, and the other party did not seem to be malicious, so the power of the light was somewhat restrained.

"Must be blocked!" Yuanzu didn't dare to be careless, urging the treasure of soul that Wang Yi gave him in his body.

A huge meniscus appeared behind the original ancestor, and the silver-white meniscus radiated cold moonlight, spreading everywhere.

The moonlight collided with the colorful streamer, trying to block it.

The colorful streamer was like mercury leaking to the ground, turning into extremely tiny needles, piercing into the moonlight and into the protection of the original ancestor.

Kong Xuan's eyes faintly glowed with colored light, and the colored light penetrated into the body of the original ancestor, wanting to see clearly what he was.

Every bit of divine power in the divine body was seen through by Kong Xuan, she wanted to see the deepest part.

Yuanzu felt a sense of being seen through, and snorted angrily.

Boom! The magic of magic is displayed, and the magic is burning! Power suddenly soared!

A real crescent moon rose from the body of the original ancestor, and the bright moonlight poured down, with amazing power, directly annihilating Kong Xuan's colorful streamer in an instant.

"Wow!" The colorful streamer retreated, and the original ancestor also took back the moonlight.

Yuanzu looked at the green-haired bird and said, "What a powerful secret technique." Since he burned divine power, it meant that he lost. But just learning from each other, it doesn't hurt.

"Your treasure is also very powerful." Kong Xuan looked at the crescent moon above the ancestor's head, and exclaimed in surprise.

It is not surprising that Wang Yi and Luo Feng lost to the original ancestor. After all, from the perspective of realm, the other party is much higher than the original ancestor.

"How is it?" Master Changhong asked impatiently.

"I didn't find any trace of him being enslaved, but I didn't penetrate his true god's heart. The treasure he cast just now was very strong. I think it may be a soul-type chaos master treasure." Kong Xuan replied.

Master Changhong didn't care that the original ancestor had Chaos Master-level treasures. She was satisfied when she heard the answer she wanted.

Looking at the original ancestor and them, her eyes flickered.

...

Next, another banquet was held, and the six powerhouses gathered to communicate.

Wang Yi, Luo Feng and the others have a good sense of these two Changhong Sect powerhouses. It is rare to see them as their eternal true gods, but they are warm and friendly to the two void true gods.

"Three, I don't know if you would like to join our Changhong Sect? If you don't want to join the sect, you can also serve as the guest of honor." The Caiyi woman said sincerely. "

continue reading! Page 2/Total of 3 Pages Our Changhong Sect will never restrict your freedom, you can go and stay at will. "

Being a guest of the sect is a very high treatment, and being a guest has many benefits.

You can choose to be a guest minister, and you have to take the corresponding responsibility for the various benefits given by the sect.

But this woman in colorful clothes also explained her intentions for the Changhong Sect, and she would never force them, which was equivalent to giving benefits and not asking them to contribute.

Where can you find such a good thing, it's like a pie in the sky.

Changhongzong's enthusiasm surprised them all.

Yuanzu, Wang Yi, and Luo Feng all felt the sincerity of the Caiyi woman and looked at each other.

Changhong Sect attaches so much importance to them, and they are so embarrassed to win over them with enthusiasm.

Coupled with Ao Yuan's relationship, in fact, they didn't have any resistance to joining the Changhong Sect, they just didn't want to be restrained.

If it's just a guest name, it's nothing.

After the three private voice transmissions of divine power, the original ancestor nodded, "If we don't give up, the three of us are willing to serve your sect as a guest. It's just that we still have other affairs, and I'm afraid we won't be able to contribute to your sect at that time."

The woman in colorful clothes smiled, her smile was extremely stunning and moving, even if the original ancestors and the others had such a mind and will, they were somewhat affected. Of course, this can't affect their judgment, but they just have an instinctive goodwill towards this woman.

"It doesn't matter." The Master of Changhong didn't really care that they were the guest ministers of the Changhong Sect, but just wanted to create opportunities for contact as much as possible.

"Three, This is the guest decree of my Changhong Sect, and it is the highest-level Changhong sacred decree. Please keep it." The woman in colorful clothes waved her sleeves, and three colored rays of light flew over immediately. In front of Yuanzu and the others, three tokens emitting soft colored rays of light appeared. "The usage information can be known by refining."

Aoyuan changed his expression when he saw that the suzerain sent out three Changhong holy orders.

Changhong Holy Order, this symbolizes the status of Changhong Sect's most honorable guest, plus the three pieces of the original ancestors, they have only been sent out seven times over the long years, and two have been taken back.

The person who gets this token is second only to the suzerain in the Changhong Sect, that is, it is almost equal to the high-level eternal gods of the Changhong Sect like Ao Yuan, so I want them to do things, unless the sect elders make a decision, and only The sect master spoke in person, and other elders were not qualified to order these guest ministers.

More importantly, they get the best treatment without having to do much.

"It seems that the sect master really values Brother Yuan and the others." Ao Yuan was amazed. "Not only did he come to observe it in person under a pseudonym, but he also personally sent out the holy order. If Brother Yuan and the others knew that it was our Sect Master in front of him, they didn't know what his expression was."

He didn't know that the Changhong Lord, who in his mind went by the pseudonym Hongdai, was relieved when he saw the original ancestor and the others accepted the token, and he couldn't help showing a smile on his face.

#### [Chapter 843: Boru Kingdom](#)

For Yuanzu and others, it is not bad to have a place to live when they come to the origin continent.

Moreover, they are not short of cultivation secrets, they are just short of time.

At their strength, using time to speed up their cultivation is too exaggerated. Even Luo Feng and Wang Yi rarely use them now.

And Wang Yi also obtained a lot of information about the origin of the continent through the Changhong Sect, which should be very helpful for his next journey.

After the elders of the inner hall of Changhong Sect called 'Hong Dai' and 'Kong Xuan' came, they stayed nearby and gradually became familiar with Wang Yi and others.

"auctions?"

Wang Yi and the three looked at the woman in colorful clothes in front of them.

"Yes." The woman in colorful clothes said with a smile: "The Baoliu auction in Baoliu Pavilion is about to be held in the capital of Baoliu Kingdom. I don't know if the three are interested?" During this time, she also worked hard Build a good relationship with Wang Yi and the others.

It is also rare for the dignified master of chaos to be able to descend to such a level.

"The capital of Baoliu country?" Wang Yi's heart was moved. It was the place guarded by the king of gods. If he signed in at the capital of Baoliu country, he didn't know what good things he could get.

Of course, with the urination of the panel, it is also possible to give him an eternal true god-level reward.

But it's still an opportunity.

Wang Yi's Arcana points have been exhausted, and the beasts' breeding of warriors is a bottomless pit. In need of endless treasures, they can only find ways to collect them.

"The capital of Baoliu Kingdom is very far away from us, isn't it?" Yuanzu said.

Hong Dai, a woman in colorful clothes, said: "It's very far away, but it's still too late to leave now."

"Baoliu Pavilion auctions an era of reincarnation once. It is very grand. It will send out news in advance, and at the same time, some of the auctioned treasures will be made public, so as to attract more people to come."

In fact, it is faster to use the Void to teleport, but the cost is too high. Normally, if it is not necessary, few Eternal True Gods are willing to use it to travel, and they all travel slowly.

The original ancestors couldn't help but feel a little moved. They came to the origin continent for a short time, and they have not been to places like the royal capital of the kingdom of God.

Yuanzu and the others did not hesitate, and after a little discussion, they agreed to go to Baoliu Kingdom to see it.

Seeing the original ancestor and the others decided to go, Hong Dai was also very happy. She took out a book that looked like it was carved from jade, and said with a smile: "According to the rules of Baoliu Pavilion, every reincarnation era will send this era to the surrounding famous forces." In the 'Book of Ten Thousand Treasures' of the auction, all the treasures recorded on it will be publicly contested for treasure at that time, and that is also when the Baoliu Kingdom is lively, and many practitioners will come from all directions."

Those who can get the Book of Ten Thousand Treasures are at least the Eternal True God-level forces. Of course, local overlords like Changhong Sect also get it.

"But ordinary auctions are nothing, the most lively one is the Baoliu auction once in the 10,000 reincarnation era. That's when precious treasures really appear. Even god-king-level treasures appear occasionally, and many Chaos Masters will go there. Auction and buy." Hong Dai sighed.

She has also participated in it, but unfortunately the price of that kind of treasure is too terrifying, and it is not something that she, a chaotic master with no background, can buy.

And a Baoliu Pavilion auction once in the reincarnation era, to participate is mainly the Void True God, the Eternal True God, and some Chaos Lords.

Once in the age of 10,000 reincarnations, the minimum participants are the eternal true gods, dominated by chaos. Visible grades are different.

Yuanzu smiled and said: "It sounds very interesting, we must go to see and see."

Luo Feng was also interested.

Hong Dai's purpose has also been achieved.

...

After Hong Dai left, the original ancestor and the three looked at the book of ten thousand treasures. The treasures that can be listed in the book of ten thousand treasures are not ordinary, precious and rare. Like ordinary eternal true god-level treasures, they are not eligible to appear in the auction.

After all, it was an auction held in the capital of Baoliu Kingdom. Although it was once a reincarnation era, not everyone could participate.

"A lot of treasures."

"There are powerful secret techniques, relatively powerful inheritance secret techniques, treasures to improve the divine body, extremely rare items to increase the speed of cultivation, and some precious materials... all of them are good treasures, and the reserve prices are quite high."

The original ancestors praised them.

is quite high!

Any one, the reserve price is the starting price of '100 million Chaos Stone'!

Ordinary Void True God can only stare blankly. Even if the Eternal True God really buys one of them, he will feel distressed.

However, Wang Yi and the others have high vision. Although they are amazed, they do not think some of the items are very precious, but they are relatively rare.

"There are also treasures to supplement divine power..." Wang Yi was also a little jealous, after all, he was short of money now.

Like the expansion of the divine body, it is too slow to absorb and transform, and it needs to consume countless treasures.

However, Wang Yi felt that it was not urgently needed and did not improve much.

"I still have to find the treasure of the Wu Kingdom quickly. Whether it is to increase the size of the divine body or to breed the Beast Legion, a lot of resources are needed." Wang Yi secretly thought.

The three looked at the treasures recorded in the Wanbao Book and discussed them from time to time.

"Huh?" Wang Yi saw another very interesting treasure.

"Ice Cleansing the Dust Cloud: Walk through the ice and snow to reach the Void True God Realm. After use, it can absorb the power of the source of ice and snow and change it into a life of ice and snow, which greatly improves its perception of the source of ice and snow. Losing the ability to comprehend other origins, and at the same time, it is difficult and difficult to break through the realm. Bottom price: 100 billion Chaos Stones."

"This...can it be made into an eternal true god?" Yuanzu was also a little surprised when he saw it.

The Eternal True God, placed on the continent of origin, is also considered a powerhouse.

But for such a huge country, it's nothing.

"The advantage of this ice-cleansing dust cloud is that it can be transformed into a life of ice and snow, and at the same time, the perception of the origin of ice and snow has been greatly improved, and it is easy to become an eternal true god... But there are also big shortcomings! It is impossible to perceive other origins, such as gold, wood, water, fire, and soil. If you can't comprehend, then you can't become the master of chaos!" Wang Yi shook his head.

This is simply to fish out the pond and obliterate the potential of the future!

Of course, someone who would buy this ice-cleansing cloud would probably not have the potential to become an Eternal True God. If they could rely on this foreign object to become an Eternal True God, it is estimated that many Void True Gods would be moved.

"The reserve price is 100 billion Chaos Stones. Many Eternal True Gods have to go bankrupt, and this is still the reserve price!" Luo Feng said with emotion: "Those who can afford this treasure must have some background strength."

This price is enough to make the Eternal True God tremble, and even some Eternal True Gods cannot afford it.

Wang Yi, Luo Feng, and Yuanzu didn't care about the ice dust cloud.

They don't need external objects, and they can easily become eternal true gods.

Continue to look down, there are more treasures, and many of the prices make Eternal True God tremble.

Not long after, Wang Yi saw another treasure——

"Fire Origin Divine Rune: It is made by the master of Baoliu Kingdom's treasure refining master Qi Tongzhu himself. The main material is the extremely rare and rare source of fire crystal, which can improve the ability to perceive the origin of flame and increase the ability to enter the origin. Probability, 1000 epoch time can be understood, bottom price: 500 billion Chaos Stones."

"Fire Origin Divine Rune?" Wang Yi exclaimed. "Can you actually increase the chance of stepping into the eternal true god?"

And Wang Yi also noticed the existence of one of the "Original Crystals of Fire".

The source crystal is a very rare treasure in the origin continent. It was formed in the depths of the chaotic void and some hard-to-reach secret realms in the origin continent. It naturally contains some of the mysteries of the origin. If you comprehend the mystery, it can help the cultivator to understand the origin faster. It is the treasure that the Void True God dreams of. Even the Eternal God desires.

You know, if the eternal true \*\*\*\* wants to step into the chaotic master, he has to integrate the ten principles of origin, and one of the shortcuts is to realize that each of the ten origins has reached the realm of the eternal true god.

It is difficult for a normal Void True God to comprehend a source. Not to mention the other nine sources.

And those who comprehend the origin of life, the origin of destruction, the origin of all things, etc., need to pay more to comprehend before they can enter the chaotic realm.

Therefore, treasures like this that can perceive the ten sources of gold, wood, water, fire, earth, lightning, light, wind, time, and space are very precious.

Wang Yi couldn't help but be moved.

If he can obtain the divine crystals containing the ten major mysteries to comprehend, he will definitely be able to cultivate to the Chaos Realm faster.

Wang Yi continued to read.

"The source of gold crystal: special treasures from the depths of chaos and some secret realms of the origin continent, containing some secret patterns of the source of natural gold, observation can increase the efficiency of understanding the source of gold, and have a higher chance to understand the source of gold, Step into the realm of the eternal true god, the bottom price: 100 billion chaotic stones."

"The Origin of Wood Divine Crystal..."

There are five kinds of Origin Divine Crystals alone, and there are other treasures to assist cultivation, but in terms of effects alone, they are not as good as Origin Divine Crystals.

"The base price of the source crystal is 100 billion chaotic stones, and the ice dust cloud that can help to rise to the Eternal True God is also 100 billion chaotic stones. The price of the two is similar." Luo Feng also saw it and couldn't help but say.

Yuanzu said: "However, there are differences between the two. Bing Qingchenyun completely changes the essence of life, and has a higher probability to help practitioners break through to the eternal true god, but it will never be able to continue to improve. Although the source crystal is also very good It has the effect of assisting cultivation, but you need to comprehend and cultivate yourself, like some people with lower comprehension, I am afraid that using this source crystal will not have much effect."

Wang Yi listened and nodded.

A cultivation effect is good, there is a very high probability of breaking through to the eternal real god, but the price is that it can never be improved.

One is only to improve the speed of origin perception, the probability of breakthrough is low, but the breakthrough can continue to be improved.

"Original Divine Crystal is very useful to us. Let's see if we can buy it." Yuanzu couldn't help but said.

"It takes a lot of Chaos Stones to buy this Primordial Divine Crystal. We don't have many Chaos Stones on our body right now, so we will have to sell some treasures." Luo Feng and Yuan Zu said, looking at Wang Yi.

Among the three, Wang Yi is the real rich man.

Treasures like the original ancestor were almost all gifted by Wang Yi as a friendly gift.

Otherwise, how could the original ancestor, a cosmic sea aboriginal, have a soul-like chaotic master-level treasure on his body.

You must know that such a chaotic master-level treasure is probably more precious than a thousand eternal true god-level treasures.

Wang Yi smiled bitterly and said, "Don't look at me, I don't have many treasures on my body."

In order to nurture the World Beast Legion, almost all of Wang Yi's treasures were put into it.

The remaining treasures are also useful and cannot be sold.

Wang Yi said, rubbing his chin again, "However, I still have some primordial embryos on me. If it doesn't work, I will sell some. It should be able to exchange for a lot of Chaos Stones."

There are also some Yuan embryos, Wang Yi, who have not moved, because the price of this kind of treasure is difficult to limit.

Saying it is precious, it is also precious. Primordial embryos are special treasures that are not fully formed. Users can keep instilling secret patterns into them, and they can accompany a strong person to grow to the peak level. At that time, a primordial embryo is also Will grow into the most terrifying treasure.

To an Eternal True God is a powerful Eternal True God treasure.

To a Chaos Master is a powerful Chaos Master treasure.

Is an immortal, can be used!

The upper limit is high, and the lower limit is also low.

It's just that the hundreds of embryos that Wang Yi got are of various types, of various types, and of various genres. If you meet a suitable strong person, you can naturally sell them at a high price. If you don't need them, I'm afraid they won't be willing to pay too much. high price.

However, in a place like Baoliu Kingdom where the powerhouses gather, there are all kinds of cultivation schools, and you should be able to find good buyers.

If it doesn't work, if you lose Baoliu Pavilion, you should be able to scrape together a lot of money.

This 'Book of Ten Thousand Treasures' was quickly read by the three of them, and they also summed up the three basic grades of treasures in this auction.

It is divided into the bottom price of chaotic stones below 10 billion, the bottom price of 100 billion chaotic stones, and the bottom price of 1 trillion chaotic stones...

Generally, the entire net worth of the Void True God cannot afford the lowest price one.

At the second level, many eternal true gods have gone bankrupt to buy one of them.

The third grade, I am afraid that only a very small number of eternal true gods can be easily bought by the master of chaos.

"In the third grade, there are three finale auction items, namely the ancient sword book, the chaotic void ring and the Fengwu nest." Yuanzu said with emotion, "These three items are all treasures that dominate the level of chaos. It is the base price of 10 trillion Chaos Stones!"

"Gu Jinxu Sword Book is said to be a handbook of incomplete swordsmanship left by a \*\*\*\* king. It records a supreme swordsmanship, but because it is incomplete, it is the reserve price of trillions of Chaos Stones. But even this is better than Many chaotic masters have strong secret techniques, and many strong kendo practitioners are probably eager to get the ancient sword book~[www.mtlnovel.com](http://www.mtlnovel.com)~ The chaotic void ring is a chaotic master-level treasure that focuses on defense and restraint. Very precious, with a base price of 10 trillion Chaos Stones.

The Fengwu's Nest is a special creature's nest. There are 81 unhatched "Fengwu" in it. Each Fengwu is cultivated to maturity, and it is the eternal power of the true god! On the other hand, the Fengwu has a strange life form and a special attack method. The eighty-one Fengwu combined is much more terrifying than the same number of Eternal True Gods.

But... it is not easy to cultivate them to maturity, it needs to consume ten times the price of resources to buy Fengwuchao, and it takes a long time.

Just look at the golden-horned behemoth, it is definitely not an easy thing to cultivate.

Only some big power families will buy it as a background of power.

Seeing the various rare treasures of this "Book of Ten Thousand Treasures", Wang Yi and others were also eye-opening, and at the same time had more expectations for this trip to the capital of King Baoliu.

#### [Chapter 844: dream flower](#)

In the endless sky of the Origin Continent, two streamers swept across at an astonishing speed.

One of the streamers is a simple black palace. In the palace, there are the three people Wang Yi and the incarnations of two divine powers, 'Hongyi' and 'Kong Xuan'. And their real bodies are in another palace.

Starting from Xuekou Mountain, along the way, the two 'landlords' kept introducing the nearby scenery and situation, very warm and thoughtful.

"They are too enthusiastic." Wang Yi sighed. He pondered in his heart, "However, I have to break through the realm, and it is inconvenient to always move outside in the face of the Void True God."

After Wang Yi considered this trip to the capital of King Baoliu, he announced to the public that he had broken through to the Eternal True God, and then he could start the action to go to the borderlands.

"Brother Yuan, look, there is Dream Soul Island." 'Hongdai' pointed to a giant island that was suspended in the sky, looming in the white mist, "Dream Soul Island, there is a Dream Soul Flower, which is a A very powerful master of chaos. He is walking on the road of spiritual illusion." She sighed, "While she fell asleep, she enveloped everything in the surrounding area of millions of light-years, and constructed a fantasy world where every creature that entered could Consciousness is connected to enter, living and practicing there, like the real world, and this is how she practiced."

"However, the Master of the Dream Soul has a good temper. Generally, he will not take the initiative to kill, and will shelter those who enter her territory, so many lives in the vicinity come to her to settle."

The original ancestor became a little interested. He was also a genius who took the path of the soul, and he even created a "virtual universe" in the realm of true gods without a teacher, such as the sky-defying secret techniques used to seize the original universe.

He looked at the mist in the distance and asked, "Is there no danger in going there?"

Seeing that Yuanzu wanted to go, 'Hongdai' smiled and said, "Brother Yuan can go if he wants. Dream Soul Flower doesn't care about people coming in or going out, as long as it doesn't destroy its territory."

"Then go and have a look." Yuan Zu had a hint of expectation in his eyes. He really hopes to broaden his horizons, learn from the paths of other powerhouses, and improve his own perception.

Taking away the original universe, he always understood the laws of the universe's operation, coupled with his amazing talent, the speed of progress was unimaginable.

The two palaces changed direction and flew towards the white fog.

'Hong Dai' glanced at Luo Feng who didn't speak much, and smiled, "What way is Yangzhou going?"

Luo Feng smiled slightly, "I follow the path of birth and death." At this time, Luo Feng had the direction of his initial cultivation path. But he faintly felt that Dao of the Blade seemed more suitable for him.

Therefore, he had an idea to integrate the Dao of Life and Destruction into the Dao of the Blade, from the Dao of Life and Destruction into the Dao of the Blade.

This is not impossible, as some eternal true gods first comprehend the origin of fire, then comprehend the origin of water, and finally take the path of the origin of water and fire.

The way of birth and death has many things in common with the way of the sword, and it is not exclusive.

"If you follow the path of birth and death and realize the source of birth and death, I have some suggestions here..." 'Hong Dai' said enthusiastically immediately.

And Wang Yi sat next to him, silently sinking his mind into the tower.

The Tower of Babel has his world beast clone and divine power incarnation.

"Many of the powerhouses in the Origin Continent have divine power clones, but they have to be cultivated." Wang Yi secretly said, "Cultivating a divine power clone requires a lot of energy and time, and requires a lot of treasure materials."

The difference between a divine power avatar and a divine power incarnation is that one has flesh and blood, and the other is composed of pure divine power, so the former has sufficient combat power.

Some avatars of divine power cultivated through special methods are not even much weaker than the main body.

However, cultivating a divine power avatar requires splitting a part of the soul, so it is not necessary to cultivate as much as you want. Generally, the strong can cultivate one or two to reach the top, otherwise it will affect their own body strength, and the strength of the divine power avatar is generally one level lower than the main body. .

Like the divine power clone of the God King, there is chaos to dominate the battle.

The divine power avatar dominated by chaos has the power of eternal true gods.

And the clone of Eternal True God, at most, is the combat power of Void True God.

The Duandonghe inheritance and other inheritances he obtained all have methods for cultivating avatars, but they also mentioned that it is best to practice avatars when they are strong.

First, splitting the soul will easily affect cultivation, and secondly, if the clone is destroyed, it will also affect oneself.

And the clone also needs divine power, and a large supply of divine power is also a trouble.

Therefore, a divine power clone is also very precious to a strong person, and it will not be easily damaged.

"However, in addition to some special races, the origin continent has unique avatar talents, which can breed more avatars, and there are some magical cultivation systems, which can also cultivate more avatars." Wang Yi sighed in his heart. "Like the legendary Jieshan Palace, there is a \*\*\*\* king called Qingyang God King. It is said that he cultivates three clones, and each clone has a combat power close to the main body, which is terrible."

Clone, it is only useful if it has enough powerful combat power!

Like those avatars cultivated by super existences such as \*\*\*\* kings, chaos masters, etc., their strength is not as good as the main body. They usually sit in an important place and use a large array to resist the enemy! Even if a terrifying enemy suddenly strikes, it can be resisted for a short time! Let the body come to the rescue!

Or have special means to have a life-saving grasp!

"Wait until I step into the Chaos Realm before I can cultivate my divine power clone." Wang Yi thought, and his consciousness shifted to the "world" where the world beast incarnates.

In the world with a diameter of one trillion light-years, it is boundless, with endless black fog constantly surging. In the center of this fog is a dazzling sea of light. The core of the sea of light is a huge vortex that exceeds a hundred light-years. A black giant cocoon, this black ball slowly rotates like a star, and at the same time emits a black mist, and at the same time, there is a rhythmic transmission of fluctuations like a heartbeat.

"boom!"

"boom!"

"The first batch of beast warriors will soon be born." Wang Yi watched this scene with a hint of anticipation in his heart.

The world beast king is very scary, but the strongest is to breed countless world beast warriors and drown everything.

Even the king of gods will be bombarded and killed in the face of endless beasts.

Time is approaching.

As the beating sound from the giant black cocoon became stronger and denser.

"boom!"

"boom!"

"boom!"

It was the sound of a whole 10,081 beating lives, but it was connected into a single sound that spread endless distances.

As if the whole world heard this voice.

And the skin of the black giant cocoon is getting thinner and thinner, and the huge figure inside can be vaguely seen.

Finally, at some point.

"Chichichi..."

The black giant cocoon suddenly turned into a mass of black and began to gather and shrink inside. The endless black mist was swallowed up in an instant, revealing the 10,081 tall figures inside.

That's 10081 world beasts!

Its body is strong and perfect, and its entire body is black. It has hands, feet, a head, a mouth, a nose, two eyes, and no ears. On its forehead is a single black horn.

Similar to the Beast King, but different!

"Roar~~"

"Roar~~"

"Roar~~~"

One after another roar came out of their mouths, and each world beast roared up to the sky, announcing their birth.

These are 10,081 eternal true god-level beasts! The aura emanating from the gathering is earth-shattering and earth-shattering, and even the Chaos Lord will be moved!

Seeing that the Beast Warrior was finally conceived, Wang Yi was overjoyed, and at the same time began to think again.

World beast warriors are born with ordinary eternal true god-level bodies. The height is also an ordinary million kilometers.

Their power is supplied by the world beast king!

Unless you let them go out, devour other life and energy substances, and turn them into your own power!

World Beast Warriors also have a world in their bodies, and they can also display other abilities besides nurturing World Beast Warriors and creating thousands of clones! This is where the beast is terrifying.

"Now this is only the first batch of world beasts, and the number is still too small. We will have to breed more in the future." Wang Yi had a headache, and there were not many treasures left on his body. It is estimated that two more batches can be bred and consumed.

"We have to hurry up and collect more treasure resources."

"It's no wonder that the world beast will incarnate the disaster of the origin continent. If it is swallowed like this, if it is not contained, the entire origin continent will not know what it will become in the end. The world beast is simply the embodiment of destruction." Wang Yi sighed, "If the world beast really destroys the Origin Continent, it is estimated that this Fangyuan world will enter the great destruction ahead of time, then if the world beast does not break through to the ultimate realm of the universe god, it will also die."

Wang Yi is really curious, has there ever been a world beast destroying the entire source world in the Fang Yuan World of Endless Years, and then whether the strong ones before the great destruction survived.

"Even if there is, it is estimated that the existence of the universe \*\*\*\* is at the peak. I am still too far from that realm." Wang Yi no longer thought about it.

Start the second wave of breeding with treasures.

Tower of Babel.

An incarnation of Wang Yi's divine power silently comprehends and cultivates here.

"In 100 billion epochs, I'm only one line away from comprehending the Seventeenth-Order Secret Law." Wang Yi thought silently, "I guess my understanding of the source is not enough!" Being able to rise to the 27th floor proves that he has the law perception of the seventeenth-order secret law.

"Everything is a law, and the law is the foundation. It's just that the level and form of expression are different."

"Everything in the universe is made up of laws."

"The universe is also the law."

"The soul also has laws and mysteries."

Wang Yi's dark pupils seemed to contain the avenues of the universe.

He looked at the infinite origin of the sea of laws of the Tongtian Tower, but unfortunately those origins were too "miscellaneous" and mixed together. Although there were more directions for perception, it was also easy to distract attention, and he had to analyze and find it himself.

He observes the operation of his own small universe. The profound rules of operation are not as obvious as when they were first opened, but he still has more experience and experience.

He read the records of the wisdom and experience of the predecessors in the inheritance of the Duandong River, the inheritance of the Wu Kingdom, and the inheritance of the Jin Kingdom.

At the same time, he did not let go of those powerful secret skills.

Like the three core skills of Duan Donghe, he has already started to cultivate the seventh level in "Duanxiu", and "Donghe" has also made progress. "Immortal River" has cultivated a drop of immortal blood, which is also his means of saving his life.

As long as there is this undead blood, even if it is killed by the soul. He can still rely on this drop of undead blood to resurrect.

But he didn't think it would be easy to sit back and relax.

"Undead blood is indeed against the sky, but it is not completely invincible."

"Otherwise, how did the former Duandonghe die?"

Wang Yi didn't think that the three generations of the Patriarchs of the Duandong River were so powerful among the God Kings.

The three generations of ancestors who had the "undead river" could all die in battle, and the Duandong River in the past dynasties also died one by one.

He is only in the eternal realm of true gods now, and it is not surprising that he died.

"I still need to continuously improve my own strength." Wang Yi thought silently, "Only if I reach the God King and rely on the Tower of Babel, maybe I will be able to gain a foothold in the Origin Continent."

In addition to the inheritance of the Duandong River, there is also the inheritance of the Wu Kingdom.

"The real strength of the monarch of Wu is to control the mechanical treasures." Wang Yi sighed in his heart.

He inherited the inheritance of Wu State, and of course he has a deep understanding of Wu State's powerful places.

The inheritance of the state of Wu let Wang Yi know that every path is very powerful when it reaches the extreme.

"If I can build a top-level mechanical treasure like a cosmic boat, and use its strength perfectly, it will be easy to kill the master of chaos, and I can carry it with some weak \*\*\*\* kings."

"However, it's too difficult." Wang Yi shook his head, "Even if the Wu Kingdom, with the strength of one country and countless resources and manpower, only produced a few super mechanical treasures under the monarch of the Wu Kingdom. They are indeed invincible on the battlefield. If the king does not go out, almost no one is their opponent, which is one of the reasons why the Wu Kingdom is strong."

"It's just that the mechanical flow path is not suitable for me, and Wu Guo is suitable for my inheritance, which is "Six Beasts"." Wang Yi thought to himself.

The transformation of the six beasts is the "refinement of the body" created by the monarch of the Wu Kingdom. It follows the path of body training and is also one of the top inheritances of the state of Wu. Those who can cultivate the transformation of the six beasts are all at the core of the state of Wu.

And Wang Yi has successfully cultivated the third transformation of "Six Beast Transformations" over the years, and the defense of the divine body is comparable to that of a true god-level treasure. Now I am practicing the fourth transformation. If the cultivation is successful, then his physical defense will be comparable to the true god-level treasure in the void.

If you put on the armor, even if you stand there and let the Eternal True God fight, the Eternal True God cannot hurt him.

The reason why Wang Yi succeeded in cultivation so quickly was also related to his foundation of 100,000 times the divine body.

Even Wang Yi felt that this "Six Beast Transformation" seemed to be specially prepared for a 100,000-fold divine body.

He touched his chin.

"There is also a body line in the Origin Continent. With my 100,000 times perfect body, maybe I can also try to cultivate the body line?"

The body-refining line is also a very powerful line, and it is a very troublesome existence to truly cultivate to the end.

...

At this time, the palace was already close to the white fog that seemed to pervade the boundless sky and earth, and a consciousness discovered it.

"Changhong, why are you here for me?" An ethereal, indistinguishable voice from male and female rang out in the mind of Changhong's dominant clone.

But no one else noticed.

There is a vine flower wrapped around the majestic and huge island. The main vine is golden. Every flower bud on the vine is closed and has different colors. It looks colorful and very beautiful.

This vine flower is tens of thousands of light years in length.

The petals, branches and leaves are crystal clear, swaying in the void, full of beauty.

As the ruler who has dominated this area for endless years, Dream Soul Flower has of course also dealt with Changhong Master. In terms of seniority, it is still above Changhong Master.

"I don't have any other intentions, I just bring my friends over to have a look." Lord Changhong explained his intentions, "I need to hide my identity for the time being, and I hope you keep it a secret."

#### [Chapter 845: the way](#)

After Wang Yi and others entered the fog, they also felt that there was a mysterious power lingering around them, and they could connect to this power with just one thought.

Wang Yi couldn't help but look at the looming vine flowers on the giant island in the center of the white mist.

"Dream Soul Flower casts a secret technique to create a fantasy world that covers a million light-years area. As long as it is a creature, it can enter this world consciously, and that world seems to exist."

"This is also a spiritual path."

Wang Yi began to think about his own spiritual path.

He wanted to go down the road of destruction.

But he knew about the background of Lord Xue Ying, and the Soul Dao had a unique advantage.

The problem is that it is for Lord Xue Ying. No matter how talented other cultivators are and how great adventures they have, they will be limited to the second level of the universe \*\*\*\* of the soul.

Just like the world of Lord Xue Ying, where the world is automatically reduced to wisdom, countless strong men have stood still for endless years, waiting for the protagonist to become the third level of the soul path universe god.

"Cultivation of both is the best choice." Wang Yi secretly thought.

"I remember that the direction of the soul is like 'virtual world', 'mind' and 'soul fire', and various paths seem to be composed of different branches such as world, desire, soul, 'killing', 'psychedelic' and so on."

"To become a cosmic god, you need to bring one of the lines of a path to the end."

"If you want to be the second layer of the universe god, you will generally combine the two paths."

"Achieving the ultimate state of the universe \*\*\*\* is the ultimate consummation of the entire path, the ultimate of a path."

"It's also a direction."

Wang Yi has already pondered the road in the future. Now that he has a plan, he knows how to take the road in the future.

"The path of the soul is difficult and complicated, but it is much simpler and clearer than the path of the void."

Because there are only nine meridians in the 'Void Dao'!

To become the God of the Universe, you only need to reach the ultimate in one of the lines of a Dao!

The two different paths of the 'Void Dao' are merged into one, and it is regarded as the second level of the universe god!

The different roads of the 'Void Road' must continue to be integrated, only the 'nine roads are completely integrated into one' and become one! Achieve the true Great Perfection of the Void Dao! That is the third level of the Universe God!

Dongbo Xueying started by taking the Way of Void, and then followed the Way of Illusory Realm of Soul, and cultivated both.

The Way of the Void allows Dongbo Xueying to master Void Teleportation, Clone, Chaotic Source Refinement, and other heaven-defying opportunities.

Not to mention the Illusory Realm Dao, and then directly jumped to the Chaotic Source Lord.

In fact, the most speechless thing is to hang on to understanding and heart.

In the world of a certain great god, the others may not be available, these two are necessary.

There are these two, there are others.

As for why the protagonist's perception is so strong and his spiritual realm is so high...emm...everyone understands it.

When another strong man came over, he wanted to say mmp.

"I think about it, I can try to take the four paths of body refinement, destruction, void, and soul."

This was not decided by Wang Yi with a snap of his head.

You must know that one of the ways to master the source world is to master most of the Tao, that is, the second-level Tao of the Universal God.

Since he can master so many ways, what's so strange about him cultivating four ways at the same time?

Refinement is because he has the foundation of 100,000 times the divine body, and it feels a bit wasteful not to go.

It's like a martial arts prodigy who is born with the eight meridians and eight meridians.

The Dao of Destruction is because he has the incarnation of a world beast.

When he becomes the master of chaos, then he can share his insights with the incarnation of the beast, which is equivalent to an extra ticket to the realm of the gods.

Even if his deity does nothing, the world beast incarnates into a \*\*\*\* king, and he will naturally become a \*\*\*\* king.

Needless to say about the Way of Void and the Way of Soul.

The Void Dao is not only related to Chaotic Origin Refinement, but there are many other benefits of mastering this path.

Soul Dao is equivalent to taking the shortcut of Chaotic Origin Lord, although this shortcut is rugged and difficult.

But becoming a Lord of Chaotic Source is an extremely difficult task.

Wang Yi is not afraid of challenges.

In other words, if other protagonists can play, why can't he?

...

The original ancestor went to comprehend the mystery of the world of Dream Soul Flower, and Wang Yi did not miss this opportunity, and was consciously immersed in it.

Dream Soul Flower gave Changhong a lot of control, and even opened up some corners of the fantasy world to let them see more mysteries.

The fantasy world was originally the result of the mysterious system of the Soul Dao rules of the Dream Soul Flower.

Wang Yi and Yuanzu are both extremely savvy people, and both have achieved a lot.

And they also faintly felt the kindness of Dream Soul Flower.

But in the end, the words from Dream Soul Flower made them suddenly realize.

"I remember that you are Changhong Zongkeqing, and I will give you a chance."

For Changhong Sect, they naturally have a little more goodwill in their hearts.

Of course, they didn't know that Dream Soul Flower was so generous, not because of Changhong Sect, but because Changhong Master was by their side.

For Changhong Master, she still gave some face.

Anyway, to show these juniors the secrets of the laws of the fantasy world, they won't lose anything, and they can let Changhong dominate the favor.

And the master of Changhong can also make Wang Yi and the others feel that the Changhong Sect is good, and Wang Yi and the others have also gained, and they are all happy.

When leaving Dream Soul Island, 'Hong Dai' also sighed to Wang Yi and the others: "Dream Soul Flower has occupied this territory for endless years, but no one has bothered it, except that its soul illusion is extremely powerful, it is said that it also obtained a door The powerful will secret technique, the Chaos Master was once killed in a battle with it, so the nearby forces are in awe of Dream Soul Flower."

Chaos Lords are also hierarchical, and the powerful ones can easily kill other Chaos Lords.

And Dream Soul Flower is definitely the overlord in the Chaos Lord.

"The Secret Art of Will..." Wang Yi was thoughtful.

He has obtained the Jin State's Secret Technique of Will, the Secret Technique of Divine Eyes, and has already cultivated it to the seventh level.

The eighth level needs to be called at least the Holy Will.

As for the "Lie Yuan Technique" he got, the entry-level training requirement is to call it a holy will.

According to Wang Yi's speculation, "Lie Yuan Technique" should be regarded as the strongest secret technique of the universe \*\*\*\* under the Chaotic Origin Secret Technique, otherwise it would be impossible for those kingdom \*\*\*\* kings to compete so frantically.

Should it be the level of 'Supreme Secret'? The 'Supreme Secret Biography' has already involved some supreme rules. Naturally, cultivation is difficult, profound and powerful. Even the King of God desires it.

According to the background rules of Lord Xue Ying, the real Chaotic Origin Secret Technique, Chaotic Origin Weapon? That is not something that beings below Chaotic Origin beings can grasp.

Unless you hang up!

Wang Yi shook his head. Although Lord Snow Eagle seems to be a continuation of the follow-up background of Devouring the Starry Sky, there are still many differences and even contradictions in the settings of the two.

It's like the mystery of will and the divine body system, which is beyond the concept of many source worlds of Lord Xue Ying.

After that, Wang Yi and the others flew all the way, or teleported, and rushed to Baoliu Kingdom.

Ten epochs passed quickly, and Wang Yi and his party finally arrived at the capital of Baoliu Kingdom.

The capital of Baoliu Kingdom is an incomparably vast and majestic city. It is the eternal true god. It is difficult to see its side. It is huge and beyond imagination. It is like a universe that traverses there. breath.

"The Kingdom of Baoliu, although it is not ranked high among the nations of the origin continent, still has powers that exceed 100 million reincarnation eras." Changhong ruled the pseudonym 'Hongdai' sighed. "Although the lord of Baoliu country is not good at fighting, he prefers formations. His formation achievements are ranked among the top even in the origin continent. He has arranged formations layer by layer in his own capital, and Baoliu country is also very wealthy. A lot of painstaking efforts were made to build this Baolu City, in Baolu City, with the help of the power of the formation, even a \*\*\*\* king who is much stronger than him can't fight him."

Wang Yi and others all nodded.

In his own nest, with the help of the heavy circles, his strength has soared, which is indeed normal.

Relying on the strength of the magic formation is generally limited. Like the Lord of Baoliu, because he is good at formation, and he spends a huge amount of wealth to manage and consolidate the capital of Baoliu! In the capital, he is almost not afraid of everything! Therefore, Baoliu Kingdom is so rich, and it can stand stably in the continent of origin without being destroyed for so many years.

'Hong Dai' smiled and said: "Let's go ahead and enter the city. It is relatively safe in the capital of Baoliu, and it is also the most prosperous and lively place in the surrounding area. The Baoliu auction will take some time to start, so we can stroll around here first. Enjoy the food and wine here."

Come outside the capital, enter along the city gate, and walk in the void.

Wang Yi and the others could vaguely feel that there were many terrifying formations hidden in the city.

"If you want to make trouble here, if you really stimulate the formation, I am afraid that the master of chaos will be directly killed." Wang Yi understood in his heart.

Even if he is the chaotic master of a giant outside, he must keep his duty here and not dare to cause trouble easily.

"Huh? That's the Wujian Building." Wang Yi saw a familiar building.

"There is actually a Wujian Building here, and it is much more magnificent than the Xuekou Mountain. The Wujian Building is indeed everywhere."

Wang Yi visually estimated that the Wujian Tower was at least 10,000 light-years tall, but compared with the vast country, it was still only a small corner.

The place is too big. For convenience, teleport is even opened, but only a part of the "points" can be teleported so that others can hurry.

"A lot of strong people." Luo Feng was also shocked.

Here, the Void True God can be seen everywhere, and the Eternal True God will be encountered from time to time.

The number of perceived eternal true gods alone is an astonishing number.

As for the Void True God? That is countless, and it is even difficult to sense the specific number.

"The army formed by the Void God?" Luo Feng saw a group of sergeants wearing special-style armor hurriedly passing by. Each of them had the breath of the Void God, and the leader was the Eternal God.

"This Baoliu Kingdom is indeed worthy of the capital of the God King's power. It is really powerful." Luo Feng sighed in his heart. "The state of Jin should have been so powerful back then."

Luo Feng looked towards the direction where the powerful sergeant was coming, and found that there was a vast and continuous magnificent building, among which there were even many buildings that were comparable to Wujianlou and exceeded its size. Peak feels the pressure.

"Jiulie Hou's Mansion?" Luo Feng groaned when he sensed the discussion of the sergeant and the building around him. "A mansion, how big is it?"

In the Kingdom of Baoliu, whoever can be named a marquis must at least be the master of chaos!

Some extremely powerful chaotic masters, some against the sky, have a combat power comparable to that of a \*\*\*\* king! It can even be "the king"! On an equal footing with the king.

Of course, there is no king in Baoliu Kingdom, but there are powerful lords.

"Boom..."

At this time, there was a thunder-like vibration from the sky.

Wang Yi, the others, and some nearby passersby looked over and saw nine ancient beasts pulling a golden luxury chariot across the sky and flying towards this side. There was also a group of sturdy soldiers in standard armor with fish scales and capes following them. , There is also a beautiful maid standing next to the carriage, aggressive, and an invisible pressure is oncoming.

"Step aside."

"Get out of the way."

"That's someone from Jiuliehou Mansion."

Crowds on the side of the road turned to avoid it.

"The man of Jiuliehou Mansion is really majestic." Wang Yi and the others mixed in the crowd to talk in secret through voice transmission.

"The Hou Mansion, which is dominated by chaos, is of course majestic in this Baoliu Kingdom." 'Hong Dai' did not take it seriously. "If it's in a powerful country like Dayue, I'm afraid the family members of the king and strong people will not dare to be so ostentatious."

Dayue Kingdom, as one of the strongest countries in many countries, there are a group of powerful \*\*\*\* kings, and there are also some who are comparable to \*\*\*\* kings in combat power! Not to mention the Chaos Lord. Therefore, there are many princes, and ordinary Houye families can only bow their heads.

But in a "small place" like the capital of Baoliu, under the king of gods is the master of chaos, and the Hou Ye is so few, the Hou family's children can already walk sideways.

...

When Wang Yi and the others entered the city, the palace of Baoliu Kingdom.

A man is dressed in golden clothes, and his invisible breath is illusory. The surrounding is vast, and there is a faint sense of terror. It seems that every move is enough to kill some chaotic masters, but he is high above, as if overlooking the people.

Needless to say, in the Imperial Palace of Baoliu Kingdom, only the Lord of Baoliu Kingdom has such a terrifying power.

In front of the man was an old man wearing a dragon-patterned costume with nine strange flaming red horns on his forehead.

He is one of the eighteen princes of Baoliu Kingdom, the "Tian Can Hou".

The main body is a nine-like celestial silkworm.

In the Origin Continent, all kinds of life exist, but each country is still dominated by humanoids. Even aliens change humanoids, and reproduce offspring in humanoids. Of course, they are just like humanoids, and their habits are generally difficult to change.

"Lord of the country. UU reading [www.uukanshu.com](http://www.uukanshu.com)" the old man said respectfully.

"What does Fan Beiguo say?" The Lord of Baoliu said.

The old man replied: "Fan Beiguo's reply is that the country lord is in retreat, so it is inconvenient to travel."

"Is it rejected?" The man frowned slightly. "Shanpeng Kingdom, Heavenly Sacrifice Kingdom is fine. We have always been friends with Baoliu Kingdom, but this Fan Bei Kingdom is a little troublesome."

Fan Beiguo's national power is much stronger than that of Shanpengguo, Tianjiguo, Baoliuguo and other weak and small countries. Lord Fan Beiguo is also a very ambitious person and has always wanted to annex surrounding forces.

But close to it, either a relatively powerful country, or an alliance like the Baoliu Kingdom that forms a difficult camp.

"I will prepare a list of gifts, you can send someone to Fan Beiguo to see their reply." The Lord of Baoliu instructed.

Watching his subordinates leave, the Lord of Baoliu murmured, "I won't miss this opportunity again..."

#### [Chapter 846: Bao Liu Court Auction](#)

Endless chaotic void, under the layers of clouds and air currents.

There is a huge and majestic city standing on the vast and boundless land. Baoliu City is the top-level city in the entire origin continent. Compared with it, Xuekou Mountain is really a remote and small corner, and even a certain city in the city. These high mountains are comparable to the Blood Bandit Mountain, and the lakes are vast even more than tens of millions of light-years.

Dozens of epochs have passed. During this time, Wang Yi also "breakthrough" to the eternal real god, and he no longer has to hide his real state in front of outsiders.

And Luo Feng was more depressed, he was still the true \*\*\*\* of the void, and the realm of the secret technique had been trapped at the top of the thirteenth order.

When the Baoliu Pavilion auction was about to be held, Wang Yi, Yuanzu, and 'Hong Dai' went straight to the Baoliu Pavilion marked on the map.

Baoliu Pavilion, in a square market in Baoliu City, the square market in Baoliu City is naturally huge, and almost all the rare materials in the surrounding endless area are available here.

In addition, occasionally there will be some other distant countries and even wild items flowing into this place, which makes this place extremely lively.

"This is the headquarters of Baoliu Pavilion." Wang Yi looked at the towering nine-story building that was 10,000 light-years long in front of him. There were continuous palaces behind it, forming the 'Baoliu Pavilion' of Baoliu City. , looks luxurious and luxurious.

But if you want to spy inside, you can only do it in vain.

"It's a pity that I didn't sign in here. It's just an eternal true god-level treasure." Wang Yi felt a little pity.

Baoliu City is a cosmic city. There is a place where the king of gods builds and sits. The background is also ranked first in the origin continent.

But Wang Yi's luck was not very good. He found that since he came to the Origin Continent, the panel seemed to be a lot "lazy" and never surprised him.

Baoliu Pavilion is divided into nine floors. The first and second floors receive the true gods below, the third and fourth floors receive the void gods, the fifth and sixth floors receive the eternal gods, and the seventh and eighth floors receive the masters of chaos. enter.

However, Wang Yi knew from 'Hong Dai' that the ninth-floor Chaos Lord could also step into it, but the items there were not something that ordinary Chaos Lords could afford.

The auction venue is specially set up in another place, which does not belong to all floors, but is a separate space.

These are all explained in the "Book of Ten Thousand Treasures".

Wang Yi and others went directly to the sixth floor of this tall building. Because Luo Feng was among the five eternal true gods, no one stopped him.

"I have some treasures that I want to sell to Baoliu Pavilion." Wang Yi said directly to a purple-clothed waitress.

"Treasure?" The waitress asked respectfully, not a puppet, but a real life. "I don't know what grade it is?"

"Eternal True God level, if the price is right, I will also sell the Chaos Master level." Wang Yi said.

"Please come with me." The waitress was taken aback. An Eternal True God-level master actually sold Chaos Master Treasures? However, she has worked in Baoliu Pavilion for many years, and she also knows that some masters have some opportunities or backgrounds, and it is not surprising that they have obtained treasures higher than their own realm.

The waitress was restricted by the oath and could not divulge the information of the guests.

She led Wang Yi and others to walk on the corridor, shuttled through dozens of halls, and then entered one hall.

"Guest, please take out the treasure you want to sell."

An eyeball-like golden star was suspended in the hall, and there were two silver-clothed men beside them, who smiled and said to everyone.

Wang Yi looked at the dazzling golden star. A mysterious pattern appeared on the golden stars, feeling endless mysteries, as if there was a small universe inside.

Wang Yi waved his hand. *Hula la...* Items exuding ancient and powerful aura appeared in the hall, and then were sucked in by the golden stars and suspended in the stars.

This star has a special magic circle and wisdom, which can identify treasures, even the treasures of the gods. It itself is a powerful treasure of Baoliu Pavilion.

"Eternal true god-level superb palace treasure, worth 220 billion Chaos Stones."

"Eternal true god-level high-grade weapon, worth 19 billion Chaos Stones."

"Eternal true god-level high-grade soul treasure, worth 72 billion Chaos Stones."

Pieces of treasures were sucked in by the golden stars, and then prices were given.

soon.

"A total of 29 treasures, worth 203 billion Chaos Stones." The silver-clothed man glanced at them and smiled. I was a little surprised in my heart, like the Eternal True God, generally all the net worth is about 100 billion Chaos Stones. In front of him, he threw a treasure worth two trillion without changing his face.

"It is estimated that he is a son of a big family." Not only the silver-clothed man thought so, but so did the others.

Wang Yi's expression was calm.

Two trillion Chaos Stones? It seems like a lot, but it may not be enough to buy the treasures you want at auctions.

You know, the bottom price of a piece of Origin Divine Crystal is hundreds of billions of Chaos Stones... but that's the bottom price!

According to Wang Yi's previous experience in witch auctions, it is normal for the reserve price to be several times or ten times higher.

That is to say, if he is unlucky, he may only be able to buy two or three Origin Divine Crystals.

And the source crystal can greatly improve the efficiency of comprehending the source! It has helped him a lot, and since the number is scarce, I am afraid that only the top auctions like Baoliu Pavilion will appear, or the interior of Wujianlou will occasionally reveal itself. Since he encounters it this time, he is bound to win.

"In addition to the Origin Divine Crystal, there are other cultivation treasures, such as the Fire Origin Divine Rune. It is best to get them all. As long as the strength can be improved quickly, no matter how much investment is worth it." Wang Yi thought to himself. The base price of the source \*\*\*\* pattern is 500 billion Chaos Stones, which is not something that ordinary eternal true gods can afford.

At this time, the blue-skinned, snake-scaled and silver-clothed man said, "All the treasures cost a total of 20 million high-grade chaotic stones plus 30 billion lower-grade chaotic stones. If the guests have no

objection to the price, I can buy them at Baoliu Pavilion at this price. Put down these treasures."  
Another man in silver also looked at Wang Yi.

Chaos stone is divided into low-grade, middle-grade, high-grade according to quality, and the top is "chaos crystal". Except for some extremely rare and deep places in the origin continent that can be mined, only the master of chaos can condense it, which is very helpful to practitioners. Treasures, so it is also the hard currency of the origin continent.

Of course, it is not easy for the chaotic masters to condense chaotic crystals, and they also have to use them themselves, such as divine power recovery, treasure refining, cultivation... and so on. They are in short supply, so the value of chaotic crystals is actually higher. .

The exchange ratio between Chaos Crystals and high-grade Chaos Stones is normally one to ten thousand, and one billion low-grade Chaos Stones is equal to one Chaos Crystal, which means that Wang Yi sold the treasures this time for two thousand Chaos Crystals.

For an ordinary eternal true god, this is already a huge wealth.

Wang Yi pondered for a while, and said, "How much is my treasure, look at the Baoliu Pavilion?"

Wang Yi waved his hand, and a huge cyan humanoid machine appeared in front of him.

This humanoid machine can be used as armor! It can also be used as a mecha or a puppet! Different usage... also determines how to modify the design of this humanoid machine, etc. There are no secret patterns attached to its countless parts, and even many places can be disassembled and modified, full of infinite possibilities.

In fact, it was a treasure similar to the 'Original Embryo' obtained from the Duandonghe inheritance.

Even if Luo Feng got the inheritance of the Duandong River, he had no right to dispose of those treasures due to his soul oath.

But Wang Yi is different, he can decide how to use it at will.

This humanoid machine was one of the 'primitive embryos' he left behind. It was useless to him, so he took it out and sold it.

"brush!"

The golden stars sucked the humanoid machine in again, suspended inside, and at the same time, blurred rays of light penetrated into it, and streams of light flowed on the surface for identification.

This time it was longer.

Finally, the light inside the golden star subsided, the humanoid machine fell, and there was a thick mechanical voice with a vibrato.

"Mechanical flow element embryo, worth one hundred trillion chaotic stones."

"Hey!"

The two silver-clothed and purple-clothed waitresses in the hall couldn't help but gasp, and looked at Wang Yi with shock.

One hundred trillion chaotic stones, here is the low grade, if you replace it with chaotic crystals, it is 100,000!

One hundred thousand chaotic crystals is also a lot of wealth for some chaotic masters.

But they didn't know that this was just one of the primordial embryos in Wang Yi's body.

"One hundred thousand Chaos Crystals?" Wang Yi was not too surprised by this.

Duandonghe, that is to say, there is a god-king patriarch in order to rank among the top sects of the origin continent.

But its foundation is also limited. Adding up several hundred pieces of Yuan embryo, the wealth is already considerable, and this is also the accumulation of more than 190 generations of Duan Donghe. It is mainly the contribution made by the three generations of ancestors. The other Duandonghe are not weak, even the Eternal True God, with the advantage of inheritance, many of the combat power is comparable to the Chaos Lord, if the Chaos Lord, it is also the strongest among the Chaos Lords! This is how we can accumulate so much from generation to generation!

And why are there no other treasures left in the Duandonghe inheritance? Because most of it is consumed on the embryo! There was only one person in the Duandong River past, so naturally they attached great importance to the cultivation of future generations. This is also a powerful foundation that cannot be ignored.

Hong Dai and Kong Xuan were also very surprised to see Wang Yi taking out a Yuan embryo without blinking.

Hong Dai further confirmed that this Jiujiang Yi really has a top-level inheritance, otherwise how could there be such a treasure as Yuan embryo. Would rather take it out and sell it.

At the same time, she couldn't help but feel a joy in her heart. Wang Yi took out such a treasure in front of her without any hesitation, which also represented his trust in her.

Hong Dai felt that her painstaking efforts were finally not in vain.

"Guest, are you selling this treasure?" The man in silver looked at Wang Yi with awe.

"Sell." Wang Yi nodded, "Replace all of them with Chaos Crystals, and the rest with Chaos Stones."

"Okay, a total of one hundred and two thousand Chaos Crystals, plus 30 billion low-grade Chaos Stones."

The waitress in purple walked out and came back soon. With a wave of her hand, she saw blocks of translucent gray crystals suspended. These gray crystals were cut into beautiful long strips. It is far more pure than the 'Chaos Stone', and even has a qualitative change. But it does no harm to practitioners. This is where it is precious. This chaotic crystal is obviously more pure, but it is not harmful, but very comfortable.

One hundred and two thousand pieces of chaotic crystals are all suspended, and there are gray stones next to them. The number reaches an astonishing 30 billion. They are gathered into a huge sphere, and the aura emitted forms a strong chaotic airflow.

"Guest, Chaos Crystal and Chaos Stone are here." The man in silver said with a smile.

Wang Yi nodded, put away everything with a wave of his hand, and then said: "Also, we want to participate in the upcoming auction of Baoliu Pavilion, you help us arrange it."

"Guests want to participate in the auction? Good." The silver-clothed man said immediately, "I will make arrangements immediately and arrange separate palaces for the guests."

With so many Chaos Crystals, it's definitely a high roller!

Although Baoliu City is the top big city in the entire origin continent, the powerhouses attracted by an auction that goes back to the epoch are limited. Wang Yi's wealth is definitely comparable to some chaos masters who came to participate in the auction. Naturally, it has to be arranged. It is good.

"Please come with me." The purple-clothed waitress had a smile on her face.

Wang Yi and the others followed behind the purple-clothed waitress and walked on the long and quiet corridor.

The strange thing is that every time they take a step, they feel that they have taken a long time and space, and the surrounding space changes so quickly that it is dizzying.

The woman in purple smiled and said, "In addition to the ninth floor of our Baoliu Pavilion, there are many spaces inside, and the auction venue is in one of them."

Soon, in a special secret realm, it was the place where this auction was held. The auction venue was a hundred light-years away. It was a beautiful mountain.

"Guests come this way." Wang Yi had a lot of treasures, but he was the 'VIP' of Baoliu Pavilion. The purple-clothed waitress led them to a splendid palace suspended in mid-air.

There are palaces here, each of which is majestic and majestic. Only those with extraordinary identities and strengths or enough treasures are eligible to enter.

There is also a jade throne with a height of 1 billion kilometers and a width of 1 billion kilometers, which is for other guests who participated in the auction.

Those who can enter the palace can look down on them, and they are invisible, and they will not be seen.

In the palace, there are also a group of maids and servants to serve the distinguished guests, and there are countless wines and fruits from all over the continent of origin, which are completely two treatments.

Luo Feng looked down~[www.mtlnovel.com](http://www.mtlnovel.com)~ and looked at the splendor in front of him, and sighed in his heart:

"Damn rich people!"

Wang Yi and the others stepped into it and sat at will on the noble star throne that seemed to be condensed by endless stars, overlooking the entire venue directly below, the purple-clothed waitress even helped pour the wine: "If the guests have any needs, please feel free to do so. order."

"No need, this is already very good." Wang Yi saw that there was still a 'Book of Ten Thousand Treasures' in front of him, which recorded the detailed order of the treasures in this auction. He casually flipped through it and asked, "How long will it take? start?"

"There are still fifteen epochs." The purple-clothed waitress replied.

The time of the origin continent is worthless. It is normal to prepare thousands of epochs for a reincarnation epoch auction.

It will take some time just to get the nearby powerhouses to rush over.

Wang Yi nodded, and while talking to Yuanzu and others next to him, he watched the scenery below, and waited for the auction to start with peace of mind.

#### [Chapter 847: Origin Divine Rune](#)

Years passed, and the Baoliu Pavilion auction was finally held as scheduled.

Suddenly, a few melodious bells rang out, spreading out in the vast void, with a huge platform rising in the center.

Wang Yi and others sat in the palace, looking down at the auction table on the ground in the distance.

Those cultivators who came up to participate in the auction also quieted down, their black thrones were filled with black mist, covering their true appearance and blocking prying eyes, which was also for the safety and privacy of the auctioneers.

Of course, in the palace like Wang Yi and others, there is no need for this kind of cover-up method. Even the chaotic master cannot infiltrate the palace silently.

Forcible destruction is okay, but that is to destroy the rules of Baoliu Pavilion. No Chaos Master dares to do so in a city where a \*\*\*\* king sits.

An old man in black robe with \*\*\*\* hair appeared on the stage.

"Puppet life." Wang Yi recognized it at a glance.

The black-robed old man coughed lightly and said in a gentle voice, "Welcome all of you to participate in the reincarnation auction of our Baoliu Pavilion. The auction is now officially starting."

"Everyone should have a Wanbao book from our Baoliu Pavilion. Through Wanbaoshu, you can enter the price and participate in the bidding. At the same time, Wanbaoshu will automatically prompt you according to your operations, and can also answer your many questions."

"According to the previous practice, start with the item with the lowest reserve price first, from low to high, step by step. The first item in this auction is a rare eternal true god-level psychic weapon 'Lei Jipan', the information is in your treasure book. There is not much to introduce, the starting price of Chaos Stone is one billion, and each time the price is increased, it must not be less than ten million."

Wang Yi looked at the treasure book. It showed a purple treasure like a compass. It was actually an image of a real object. The real object was completely simulated, and one could even check it consciously. There was also a price display at the bottom: one billion (lower-grade Chaos Stone). ).

"One hundred million low-grade Chaos Stone."

Prices start to rise immediately.

It didn't stop until "2.55 billion low-grade chaotic stones".

It was finally auctioned off.

But he didn't even know who bought it. After all, he made an offer through Wanbaoshu, and no one knew who made the bid.

"The second auction is a territory that belongs to the property under the name of Tianzhaohou Mansion of Baoliu Kingdom. It is located in ... and has been handed over to our Baoliu Pavilion for authorized auction. There are a total of 1,821 peaks, each The base price of the mountain is one billion!" The blood-haired black-robed old man continued.

There were whispers between the thrones of the venue, and many practitioners who came together were discussing.

And Wang Yi also looked very interested.

"These mountain peaks are estimated to be some worthless properties in Tianzhaohou's mansion, otherwise they would not be sold." 'Hong Dai' explained beside him. "The more valuable ones are actually some production of precious resources, or special cultivation places, some important locations in Baoliu King City, profitable shops, etc. That's the real value. But unless the Marquis of Tianzhao Mansion is really down or in urgent need of money, Otherwise, it will not be sold."

"Kong Xuan", who changed into a pretty girl in green clothes, also bit the fruit and said with emotion: "It is these mountains, because they are close to Baoliu City, they are not affordable for ordinary people, and the Void True God can't afford to buy a mountain even if he goes bankrupt. With this mountain, there is also a place to live, whether it is to reproduce the family or as a place for the inheritance of the sect, it is very guaranteed."

Wang Yi and the others listened and nodded.

However, this kind of thing is useless to them, and they do not plan to settle and develop in Baoliu City.

In another palace, a breath full of violent tearing, a purple scaled youth with a crystal sharp horn on his forehead smiled and said, "The land of the Marquis of Amaterasu? I really don't know which prodigal son sold it, but unfortunately it is not a god. Jianshan, otherwise I can buy it and make a gift for the old man."

Those cave houses and other resources can also collect rent. Generally, the children of the princely families can live a luxurious life because some cave houses are in hand, and they can have a steady stream of Chaos Stones, which can lead to a very luxurious life.

What's more, the land close to Baoliu City is also very valuable.

Some people are not interested, and some are very motivated, looking for sites that they are interested in, and bidding.

The price of some good peaks exceeded 10 billion in an instant, while the bad ones exceeded 2 billion.

Auction items are sold one after another. There are treasures, cultivation methods, materials, servants, territories, and all kinds of strange things.

The first grade has the most auction items, and it takes the longest time. After the auction is over, seven days have passed.

"Here it is." Wang Yi, who was just on the sidelines these days, was refreshed.

The blood-haired black-robed old man on the platform smiled and said, "Next, it's the turn of the more precious auction items, first of all, five Origin Divine Crystals."

At the same time, images of five treasures appeared on the Wanbao Book in the hands of the auctioneer.

Seeing these treasures, the eyes of many who came to the auction glowed.

A round spar with the same purple-red color, sparkling and full of a strong thunder attribute power, just looking at it, it is full of violent aura, as if the entire spar is formed by the condensation of lightning.

A slender branch, the leaves of this branch are green and crystal clear, the root has become one with the green peaks below, and it is vaguely absorbing the essence of its body.

A golden horn-like object radiated sharp rays of light, and countless cracks faintly appeared in the surrounding void.

A blue translucent swimming fish is swimming in the void like life, just watching its swimming trajectory, it seems to feel the mysteries of countless kinds of water.

In the end, it was a throbbing flame, the flame was still changing color, the waves spread, and the surrounding space-time was constantly distorting and oscillating in the waves.

"These five Origin Divine Crystals are Thunder Origin Divine Crystal, Wood Origin Divine Crystal, Gold Origin Divine Crystal, Water Origin Divine Crystal and Fire Origin Divine Crystal. If you want to comprehend the source to become the eternal true god, or you want to comprehend the law of chaos, the source crystals are rare treasures. The quantity of each source crystal is different. Less than 100 million low-grade chaotic stones." The black-robed old man said.

Wang Yi also looked at his Myriad Treasures Book. There were five kinds of Origin Divine Crystals, the number of which was different, the most was Fire Origin Divine Crystal, there were five, and the least was Golden God Divine Crystal, only one.

And the bottom price of each Origin Divine Crystal is 100 billion Chaos Stones.

Wang Yi took a slight breath, forgetting the other treasures. He was bound to get the Origin Divine Crystal, a treasure that could improve his understanding of the origin.

However, Wang Yi did not rush to bid, but watched calmly, watching other people compete.

The price of each kind of Origin Divine Crystal is rising rapidly, obviously there are many people in the venue who are interested in Origin Divine Crystal.

In fact, Luo Feng and Yuanzu are also very greedy, but they are not as rich as Wang Yi. They have so many treasures on their bodies.

"One hundred and fifty billion."

"One hundred and sixty billion."

"Twenty-five billion."

"Twenty-one billion."

...

Wang Yi watched the rising prices and was thinking in his heart.

"Five source crystals, adding up to a total of thirteen pieces, the total price should not be too exaggerated, I can buy them all."

Time passed, and Wang Yi began to bid, seeing that the rate of price increase had slowed down.

"Three hundred billion."

In a corner of the venue, sitting in the black mist, the head was covered in black scales, with a cyan unicorn on its head, and a strange beast with a faint purple thunder and lightning was beating. stagnate. angry.

"Who? Compete with me for this Thunder Origin Divine Crystal." It was very annoyed. Although it didn't really need this Thunder Origin Divine Crystal, it was prepared for a favored junior.

There were slight waves in the venue because of Wang Yi's bid.

A being dressed in a strange golden robe looked like a mist, staring at Wanbaoshu, "I need this divine crystal to give a gift to Tiyouhou Mansion." He immediately raised his bid.

A powerful being in the shape of an insect sat cross-legged on the throne, his voice hoarse and sharp. "Muyuan Divine Crystal, it's mine."

A strong man began to compete and bid one after another.

In the palace, Wang Yi's expression was calm.

And the prices under the thirteen Origin Divine Crystals on his Myriad Treasure Book also changed constantly according to his will.

"Thirty-one billion."

"Thirty-two billion."

"Thirty-three billion."

...

Seeing this scene, the girl in colorful clothes next to her, 'Hong Dai', her eyes flickered slightly, and she began to recall in her mind whether her sect had any related treasures that she could take out as gifts.

After a while, a smile appeared on her face.

Yuanzu and Luo Feng also sighed when they saw Wang Yi's unchanging bid.

Ordinary Eternal True God, every item in here, buying one would have to go bankrupt.

However, Wang Yi suddenly broke the net worth of dozens of eternal true gods.

Sure enough, he was the rich man in their memory.

"Almost 400 billion."

"It's crazy."

"Who is so powerful? Rarely did the original source crystals have such a high price?"

The strong people in the venue who were looking at the Wanbao Book were a little surprised.

If only "Shadow God Crystal", "Destruction God Crystal", "Void Spirit God Crystal" and other extremely rare original treasures would be fine.

"Leiyuan Divine Crystal", "Fire Origin Divine Crystal" and other ten major source treasures, as the most common source treasures, the general price is not too outrageous. That is, the time origin divine crystal and the space origin divine crystal are slightly more expensive.

"Four hundred billion? Buying this Primordial God Crystal Flower so much." A white-robed woman shook her head, "I'll wait for the next time."

The golden-robed figure hidden on the Black Mist Throne moved, and put down the Myriad Treasure Book unwillingly.

Other competitors have gradually given up.

As the result came out, a smile appeared on Wang Yi's face.

This time, Wang Yi got all the thirteen Origin Divine Crystals.

However, the price is to pay close to six trillion Chaos Stones.

But for Wang Yi, who has millions of Chaos Stones on his body, this is only a drizzle.

After the auction was over, a waitress in purple immediately came over to hand over to Wang Yi.

After Wang Yi paid the money, he got a space bracelet, and his divine power penetrated into it, and the smile on his face became even stronger.

With all of this, he was well worth the trip.

Of course, there are other treasures to follow.

"Yi, that Jinyuan Divine Crystal, go back and let me see it." Luo Feng was a little itchy.

"Congratulations to Jiujiang." Hong Dai and Kong Xuan also said beside them.

"Haha, it's just a small gain." Wang Yi smiled while holding a wine glass.

'Hong Dai' rolled his eyes, "Speaking of which, we also have some original treasures in the Changhong Sect's treasury. If you are interested, I can ask the sect to send them to you when you go back."

Wang Yi and the others were stunned, they didn't expect this Changhong Sect to be so generous?

Don't look at Wang Yi, who bought more than a dozen Primordial Divine Crystals in one breath without blinking his eyes, but none of them can be bought by ordinary Eternal True Gods.

If Changhong Sect gave it, it would definitely be a precious gift.

Wang Yi still shook his head, "You don't get paid if you don't get paid for it. It's okay to give it away, but you can still exchange it."

Being soft-hearted by eating people and being soft-handed by others, Wang Yi is not willing to owe others favors.

After all, human debt is the hardest to repay.

Seeing that Wang Yi was unwilling to accept it, the original ancestor and Luo Feng also had the same expressions, and admired it even more in their hearts.

After getting along for so long, she is also familiar with the characters of the three.

Even if you invest, you are afraid of losing your money, and even more afraid of encountering a white-eyed wolf. If you encounter someone with a bad temperament, you will lead a wolf into the house, and maybe you will be bitten back.

However, Wang Yi and others have their own perseverance and principles, and they are not the kind of ungrateful people. They also make Hongdai firm up the idea of dealing with them and forging friendship.

'Hong Dai' nodded, "Okay, I'll send a message to the sect, and I should be able to deliver it when I go back."

She decided to take out all the original cultivation treasures in the sect. Since she wants to give gifts, of course, she must satisfy the other party, and it is best to remember her own good.

There's a conversation going on here, and the auction goes on.

...

"The next treasure is the Fire Origin Divine Rune made by our famous treasure refining master Qi Tongzhu in Baoliu Kingdom." It can also be heard clearly inside the palace.

"There is only one Fire Origin Divine Rune. The source Divine Rune of the Flame Divine Rune is clearer, and it is more beneficial for understanding the mystery of the origin of the flame. As long as the understanding is not too low, there is a certain probability of breakthrough."

"The base price is 500 billion low-grade chaotic stones, and each increase is not less than 10 billion low-grade chaotic stones."

"One trillion!" Wang Yi, who was sitting in the palace, bid without hesitation.

"Two trillion!" Immediately after him, another price appeared.

"Twenty trillion!"

"Twenty-two hundred billion!"

"Twenty-eight hundred billion!"

...

Prices are climbing.

This is a high price that ordinary eternal true gods look up to. UU reading [www. uukanshu.com](http://www.uukanshu.com)

Wang Yi stared at Wanbaoshu with a sneer at the corner of his mouth.

"I don't believe it anymore, I can't get it!"

Sitting on a trillion chaotic stones, Wang Yi can be said to be rich, and he doesn't care if he spends money like soil.

In addition, he is not interested in the treasures of the finale, and the treasures he buys are all cultivation treasures, which are generally used for the cultivation of the Eternal True God, and few Chaos Masters compete with him.

So those competitors were completely overwhelmed by him.

"Five trillion!"

When the price reached ten times the original reserve price, the venue was quiet.

In the end, the Fire Origin Divine Rune was unexpectedly taken down by Wang Yi.

[Chapter 848: send](#)

In the subsequent auction, Wang Yi bought some treasures to assist cultivation, and then stopped selling them, watching other people compete.

"This reincarnation auction is over." With the resounding voice of the blood-haired black-robed old man, the auction ended.

The strong people who participated in the auction were teleported away, and Wang Yi and others also left the palace.

Over the magnificent Baoliu City, two palaces turned into streamers and flew out like lightning.

Then a teleport disappeared.

...

Inside the Tongtian Tower, the three of Wang Yi practiced separately.

Wang Yi looked at a flaming beast in front of him. The so-called fire source \*\*\*\* pattern was actually a flaming beast. It was lifelike, shaking its head and waving its tail, and mysterious lines emerged from the scales of its body.

"What an exquisite composition." Wang Yi showed an expression of amazement after investigating. "This strange flame beast is perfectly composed of countless flame origin divine patterns, and every detail seems to present the mystery of the flame origin, which is indeed much more convenient than comprehending the fire origin divine crystal."

To put it simply, the original Huoyuan Divine Crystal is like a piece of rough jade, and the Huoyuan Divine Mark is a highly skilled sculptor who carves the rough jade into shape.

The eternal true God is the source of understanding.

The master of chaos is to master the laws of chaos.

If you want to master the laws of chaos, you have to master the ten principles of origin and fuse them together.

Comprehending the "source" of the Ten Principles of Origin is helpful for the fusion of the laws.

One of the paths, if all the ten principles of origin have realized the "eternal true \*\*\*\* level", then the laws of chaos can be easily merged and the master of chaos can be achieved.

"Let's begin to comprehend." Wang Yi stretched out his hand towards the flame beast in front of him, the flame beast roared, and then jumped obediently and did not enter Wang Yi's body.

At this moment, Wang Yi and the flame beast merged into one.

"boom."

Wang Yi seems to have returned to the beginning of Chaos, when countless sources were just separated and born, and he is one of them.

The endless mystery of the origin of the flames emerged in his mind, making him fascinated.

Wang Yi stepped into the eternal true \*\*\*\* level by destroying the origin, but he did not stop comprehending other origin laws, and he also stayed at the peak of the void true god, but he was still far from realizing the origin.

But now, after integrating into the flame \*\*\*\* pattern, his soul consciousness is immersed in the evolution of the flame origin \*\*\*\* pattern, and his perception of the flame origin has been amazingly improved, gradually approaching that layer of barrier.

This immersive insight made him forget the years, and when he returned to the Blood Bandit Mountain, Wang Yi did not wake up. Yuan Zu and Luo Feng both knew that Wang Yi was in retreat and practiced, so they didn't bother him.

In the blink of an eye, a thousand epochs have passed.

For the powerhouses of the Origin Continent, the Millennium Era is a very short time.

But for Wang Yi, this Millennium Era allowed him to master the origin of the flame.

Opening his eyes, Wang Yi's eyes turned into an endless sea of fire.

"I actually mastered the source of flames all at once?" Wang Yi was very surprised.

"One thousand eras have passed, and the fire source divine rune has also been exhausted." Wang Yi sensed it, and immediately knew the changes that had occurred during this period of time.

Although he has mastered the origin of the flame, Wang Yi's strength has not improved much.

In fact, many eternal true gods are difficult to make any progress in the process of integrating the laws of chaos.

The progress of their strength depends more on their perception of the origin.

The deeper the source perception, the more the strength improves.

Unless you follow the path of the ten major source laws, the more fusion laws you have, the higher your realm will be.

The realm of Wang Yi's destruction of the source is already close to the seventeenth-order secret law level, and the flame source he has just mastered is at most fourteen levels, which does not help him improve his strength.

A magnificent palace in Xuekou Mountain, the news of Wang Yi's exit quickly spread, Yuanzu and Luo Feng came over immediately, and the senior officials of Changhong Sect such as "Hongyi", Kong Xuan, and Ao Yuan also came.

Seeing that Wang Yi seemed to have a different aura, Luo Feng couldn't help but said, "You broke through again?"

Wang Yi shook his head, "I didn't make a breakthrough, I just mastered the origin of the flame."

"That's amazing." Luo Feng said with emotion.

"Congratulations, congratulations." 'Hong Dai' also laughed. "Having understood the origin of flames so quickly, it seems that Jiujiang is not far from mastering other origins."

"This is only the first step, and it's still a long way off." Wang Yi would not be so blind.

'Hong Dai' brought a large number of original treasures from the Changhong Sect, and the number surprised Wang Yi and others.

It seems that the Changhong Sect has really invested in them, and I don't know what to look for in them.

Wang Yi was not polite, and took out a lot of treasures to exchange with the Changhong Sect.

As for these original treasures, most of them were taken by Wang Yi, and some were given to Yuanzu and Luo Feng.

After a party, Wang Yi looked at the crowd and said, "I plan to leave here and go to the wilderness to practice."

Yuanzu and Luo Feng knew Wang Yi's plan in advance, but "Hong Dai" and others were a little surprised.

"Jiujiang, you just broke through, why rush to the wilderness, stay and practice for a while, and then make plans?" 'Hong Dai' persuaded.

Aoyuan also persuaded: "Yes, Jiujiang brothers, the wild land is desolate and dangerous, those indigenous people are very hostile to our practitioners, you will easily encounter danger when you go there, so stay. "

"I'm just practicing on the edge, I'll be fine." Wang Yi smiled.

Seeing that Wang Yi had made a decision, Hong Dai and others were no longer able to persuade him.

However, Wang Yi left, but Yuanzu and Luo Feng stayed. They knew that with their own strength, they would not help Wang Yi, and Wang Yi had Chaos Dominator-level Beasts, so they didn't need to worry about it.

In order to facilitate contact, Wang Yi left an incarnation of divine power to sleep in Luo Feng's Xingchen Tower.

With everyone's farewell, I came to the Wujianlou in Xuekou Mountain.

The green-robed woman appeared again and smiled, "What do the guests need?"

"I will use your teleportation to go to the Southern Wilderness." Wang Yi said.

In the origin continent, if you want to travel long distances, Void Teleportation is the fastest way.

However, the means of Void Teleportation cannot be mastered by everyone. Even if Chaos dominates, only very few can master it. , which is incredible. Some people say that Wujianlou masters a super treasure that is teleported by the void, so that it can be so magical. Some say that a terrifying existence in Wujianlou who masters the Way of the Void uses a mysterious method to allow Wujianlou to teleport at will.

If it is impossible to travel long distances, it is hopeless to travel in the origin continent.

Of course, the weak can travel through the teleportation circles one by one, but that requires treasures as travel expenses!

"Wild?" The green-robed woman nodded, "There are three forces in the vicinity of the Southern Wilderness Territory, and eleven cities have our branches. See which one you want to go to. Different places have different delivery prices."

The green-robed woman waved her hand, and a map image appeared in front of Wang Yi. The map only revealed the locations and names of eleven cities.

Wang Yi looked at this map. In the origin continent, 90% of the habitable land was occupied by practitioners, and the remaining 10% was indigenous. Even this 10% was boundless and vast, regardless of whether it was occupied by indigenous people or practitioners. It is only a small part of the real origin continent, and there are more dangerous and unknown places.

The place occupied by the natives is called the Wilderness, also known as the Frontier, the Outer Territory.

Wang Yi looked at the cities on the map, recalling where the treasures of Wu State were in his mind, and said, "I'm going to Jiuxiao City."

The green-robed woman said: "From here to Jiuxiao City, the journey is a long way, and the transmission requires a lot of consumption. You are the eternal true god, and the fee is 10 trillion low-grade Chaos Stone." This kind of transmission business is also aimed at these strong, weaker ones. Or you can't get enough treasures at all. Or even if you can take it out, you won't be willing!

Ten trillion Chaos Stones? Wang Yi looked at the green-robed woman, but it was really cruel.

This is one hundred times the net worth of the Eternal True God.

It's no wonder that few of those strong people are willing to travel through the void, and they fall once or twice, and even the Chaos Lord feels distressed.

The green-robed woman still smiled and said: "Our Wujianlou business is very fair. If you go to other places to find Chaos Master for Void Teleportation, the price may be higher than mine."

"Okay, I want to teleport." Wang Yi was no longer picky. I was thinking in my heart, I have to comprehend the Void Dao and master Void Teleportation at some point, otherwise it will be inconvenient to travel.

The green-robed woman said: "Void teleportation, you are the only one to be teleported. Don't carry too much life in your treasure. If you exceed the control limit, the teleportation may fail." Like it was originally only devoted to transmitting the energy of an eternal true god, if There is another Eternal True God hiding in the treasure and teleporting together, so more energy is required, and the teleportation may fail.

Hearing the woman's words, Wang Yi thought of himself, in addition to a True God Life Pool, and the Beast in the Tongtian Tower.

The pool can be ignored.

But the world beast is a chaos master-level world beast, shouldn't something happen?

The Tower of Babel should be able to block outside detection, but Wang Yi did not want to take risks.

After hesitating for a while, Wang Yi looked around, there was no one there, so he looked at the woman in green robe.

"I thought about it, what would it cost to teleport a Chaos Lord and an Eternal True God?"

"Master of Chaos?" The green-robed woman looked at him with a slightly strange look. However, she is similar to the existence of the spirit, and she will not meddle in her own business.

"A master of chaos plus the words of an eternal true god, to carry out an ultra-long-distance void teleportation, one hundred and ten trillion chaos stones are needed." The green-robed woman said without hesitation.

Wang Yi took a deep breath.

He knew that the void teleportation of Wujianlou was related to strength and distance.

But he didn't expect it to cost so much.

It is no wonder that there are not many strong people in the Origin Continent who are willing to carry out Void Teleportation. The stronger it is, the more expensive it is.

Although he was distressed, if he didn't carry out Void Teleportation, it would take him to go from here to the barren land by himself, I don't know how many years it would take.

An era of reincarnation may be an exaggeration, but "hundred million years" is possible, even if the Chaos Master-level Beast personally leads the way, it will take a lot of time.

"It's so expensive, can it be cheaper?" Wang Yi usually considers himself rich, but now he realizes that he can't even afford a plane ticket.

The green-robed woman smiled: "This is the rule of our Wujianlou."

It seems that there is no accommodating.

Wang Yi hesitated, and finally decided to teleport.

It's just that the Chaos Stones on him are not enough, and some treasures have to be added.

"By the way, if I join your Wujianlou, is there a discount?" Wang Yi suddenly thought while taking out the treasure.

The green-robed woman answered truthfully: "There are two ways to join our Wujianlou, one is the secret law trial tower, and the other is the battle palace. But ordinary members are not eligible to reduce the cost, only the disciples above the purple clothes, or the second-level or above worship, are eligible for discounts."

"Oh, how exactly?" Wang Yi asked with interest.

"For a purple-clothed disciple, the fee is 10% off, for a gold-clothed disciple, 20% off, an elder, 30% off... and so on." The green-robed woman explained to him. "The same is true for offerings in the Battle Palace. Second-level offerings are 10% off, first-level offerings, 20% off, large offerings, and 30% off... Of course, if we go to a certain place for our Wujianlou to perform a mission, the transfer is free."

Wang Yi asked again: "A true eternal \*\*\*\* like me, in the battle palace, what level needs to be achieved to be a second-level worship?"

The green-robed woman said, "If your combat power reaches the eighteenth rank, then you can be a second-level enshrined."

Wang Yi's eyes flickered.

The battle palace is a place to test combat power. The testers can do their best, use all means, and there are no restrictions... No matter whether you rely on treasures, powerful gods, special bloodlines, or secret techniques, you can be cast at will!

Your performance determines your level of combat power!

For example, if the level of the Eternal True Mystery Law reaches the seventeenth level, it is possible to reach the eighteenth level of combat power with the help of Chaos Master-level treasures and burning divine power secret techniques.

The eighteenth order is the threshold of combat power dominated by chaos.

"It actually takes the eighteenth order to be considered a second-level worship." Wang Yi was amazed, "There is also a first-level worship and a large worship. This Wujianlou is indeed one of the strongest forces in the origin continent, and the requirements are really strict. "

"The second-level worship seems to correspond to the purple-clothed disciples, and the purple-clothed disciples of Wujianlou, the eternal true god-level secret law level reaches the seventeenth-order top secret law."

"However, the treatment and status of the purple-clothed disciples are higher than those of the second-level worship. UU reading [www.uukanshu.com](http://www.uukanshu.com)" Wang Yi understood in his heart.

The secret technique level of the purple-clothed disciples has reached the peak of the seventeenth rank. With the help of treasures and various means, the explosive combat power is far beyond that of ordinary eternal true gods, and will also exceed the eighteenth rank, reaching the eighteenth rank or even the nineteenth rank. possible.

"I'm at the top of the sixteenth rank now, and I'm still one line away from the seventeenth rank." Wang Yi felt helpless, but he was still calm. He came to the Origin Continent for a hundred billion epochs, compared with ten trillion in a reincarnation era. Era, but one percent of the time.

In the past, the improvement was so fast because of the realization that the original universe was shattered, and the accumulation of accumulation.

But now, it needs to be accumulated slowly. Cultivation is a very long process, and the more time it goes on, the more time it will take.

The cultivation of the Eternal True God Realm cannot be the same as that of the Void True God, otherwise it would be too outrageous.

Wang Yi felt that even if he was a little unlucky, it was not surprising that the secret law level was trapped in the top sixteenth-order reincarnation era.

#### [Chapter 849: 9 Xiaocheng](#)

According to the rules of no room.

The third-level worship requires the sixteenth-level combat power.

Second-level worship requires eighteenth-level combat power.

First-level worship requires twentieth-level combat power.

Great worship requires 22nd-order combat power.

And there is also the worship of the Supreme, and the combat power is unknown.

The Battle Palace test is different from the Secret Law Trial Tower. The real body enters a special space for the test. Unless they want to join the Wujian Building, most people will not enter it because they have to pay high fees.

Do you want to try it in the battle palace and join the Wujianlou as a peripheral worship? Wang Yi thought.

But he finally shook his head.

Also subject to constraints, it is better to be a purple-clothed disciple when someone is sent to worship.

The Ziyi disciple of Wujianlou, the standard is the top seventeenth-order secret technique, and Wang Yi is still one big grade away.

Wang Yi looked at the woman in Qingpao, "I'm going to Jiuxiao City, this is the fee to pay." Wang Yi waved his hand, and a stored treasure flew out. There were not enough Chaos Stones, so Wang Yi directly collected the treasures. Although it hurts a bit, he is still willing.

The green-robed woman finished checking. "You go down that corridor, go to the end, and see a palace, where the teleportation takes place."

Wang Yi followed the instructions of the woman in green robe and walked into a corridor. Many ancient patterns were carved on the walls of the corridor. When he walked to the end of the corridor, he saw a majestic palace. The grand gate was open. A hazy light leaked from the door.

A special power enveloped this place.

"This is the teleportation hall?" Wang Yi looked at the door, and he faintly felt a mysterious time and space fluctuation.

According to the instructions of the woman in green robe, Wang Yi flew directly towards the gate of the palace.

When he flew to the gate, the color light engulfed him.

He saw that the surrounding space was distorting and collapsing, and another space that was extremely far away was also collapsing. The two began to connect, forming an extremely short void corridor. The invisible force carried Wang Yi into the void corridor. Although the surrounding space sometimes squeezed and pulled, the scene in front of him changed almost instantly.

"Boom~~~" The surrounding space is returning to normal. Wang Yi flew out of a gate and appeared at the gate of a familiar palace.

He looked back, "Another teleportation hall? This should be the Wujianlou in Jiuxiao City."

"It didn't take long to travel such a long distance." Wang Yi sighed. At the same time envious. "If I master the Void Teleportation Means of Void Dao, I can teleport at will without the help of others."

Wang Yi walked through the long corridor and appeared on the first floor of Wujian Building, where some humanoid and non-humanoid beings with unique and strange appearances came in and out.

I could faintly feel the powerful aura emanating from them.

"Here, it is much more lively than the Wujianlou in Xuekou Mountain, and there are many strong people." Wang Yi observed. Appeared in Infinity Tower. Most of them are Void True Gods, but some are Eternal True Gods. The least is the true God.

This is a bit of an exaggeration, and there are only three eternal true gods in Xuekou Mountain.

"Sure enough, just like the information, Jiuxiao City belongs to the junction of the Bulong Kingdom and the Outer Territory. It belongs to an important fortress. In order to guard against the natives, endless troops and a large number of strong people are gathered. There is even a Chaos Lord sitting here." Wang Yi thought dark road.

The war between indigenous people and practitioners has lasted for countless years in the origin continent, and it has never stopped. The borderlands are also often invaded by natives, and in serious cases, even the king of gods is required to defend against them.

Like some newly promoted \*\*\*\* kings, if they want to establish their power, they usually choose the borderland. After endless years, the indigenous territory has been continuously compressed and can only be transferred to more remote places in the origin continent. Therefore, they hate the practitioners very much, always thinking about it. Take back your home.

Wang Yi walked out of Wujianlou, and a scene that shocked him appeared in front of him.

He is now on an incomparably huge, all-white ship. The ship is boundless, and its length is definitely more than 100 million light-years.

It is suspended high in the sky of the origin continent, even deep into the clouds.

"This is Jiuxiao City?" Wang Yi was really shocked.

Jiuxiao City is more like the spaceship in his memory, or a 'spaceship' is more appropriate.

"Is it possible that this Jiuxiao City is a mechanical warfare treasure comparable to a cosmic boat?" Wang Yi had a thought in his heart.

When you think about it, it's quite possible.

After all, Jiuxiao City is a frontier city, and it is used to defend against indigenous attacks. Of course, the strategic role must be taken into account.

But unlike the broken spaceship, this spaceship is intact, and it is unknown how many powerhouses are gathered inside.

"Once the power of Jiuxiao City breaks out, even the master of chaos must avoid its edge." Wang Yi sighed in his heart.

Wang Yi looked at the magnificent scene in the city. Those buildings were dotted with stars, forming a subtle and mysterious formation.

There are countless lives and flying treasures flying through it.

Wang Yi thought about the content of the intelligence. "If you want to facilitate activities in Jiuxiao City, you must first go to the City Lord's Mansion to report and register, and get an ID card."

"Huh?" Wang Yi suddenly saw a huge black cloud flying up in the distance.

There are countless True God sergeants, and with his eyesight, they are at least over 100 million.

Hundreds of millions of true \*\*\*\* sergeants wearing uniform armor, formed a tight and neat square, and flew into the sky.

Even if the Eternal True God faced this breath, he would be shocked.

Countless lives in the city also saw this scene.

"What's wrong?"

"It seems that the Jiuxiao Legion is dispatched again, this time it's the Yutian Department."

"I don't know where they went to clean up the area."

"The last time the Motian Division fought against the indigenous tribes in the Yantao Plain, I heard that the losses were not small. I don't know what the Yutian Division will do this time."

"The battle loss rate of the Jiuxiao Legion is very high, but it is also easier to obtain military merits and rewards. I have stayed in the realm of true gods for countless years. I want to join the legion, maybe I can fight for a future."

"Hey, I also want to join, but unfortunately I'm still the master of the law. If you want to enter the Nine Clouds Legion, you have to be a true \*\*\*\* at the very least, and you won't have to wait for many years."

The residents of the city were not surprised by the scene of the legion dispatching.

Wang Yi also silently watched the murderous and majestic army passing by.

Hundreds of strange objects appeared in the sky, each of which was tens of billions of kilometers high, a bit like a flying saucer-shaped spaceship.

Hundreds of millions of true \*\*\*\* sergeants were divided into white torrents, which flowed into strange objects like a flood.

"What are those ships?" Some of the practitioners who had just arrived were a little surprised.

"Haha, that is the famous mechanical treasure of the Nine Heavens Legion, called the 'Glazed Light Ship', at least one million true gods are required to be fully controlled. The limit can be up to 10 million true gods in it, and it only needs to be collective once. Bombardment can kill a group of Void True Gods, and even Eternal True Gods can be killed! It is one of the most terrifying war machines of the Nine Clouds Legion to fight externally."

"So powerful?" Those practitioners were all shocked.

Wang Yi looked at the huge ships in the distance and felt emotional.

Ancient civilizations, the powerhouses are like clouds, and the super-large-scale wars of major forces are very terrifying. Mechanical treasures like this, gathering the power of millions of true gods, can play a very terrifying role.

"This is nothing, the Jiuxiao City under our feet is really scary." A white animal life with a sinuous body sighed, "I have been in Jiuxiao City for so many years and witnessed it once with my own eyes. Power, tsk tsk, countless indigenous armies were wiped out, and even the Chaos Lord was hit hard."

Those practitioners were speechless.

Chaos Lord is already an unattainable existence in their hearts.

Can even the master of chaos be hit hard?

How powerful is this Nine Clouds City?

But there are also practitioners who think of something.

"The Nine Heavens Legion went out on the 'Glazed Light Ship', and they suffered such huge losses. It seems that those indigenous people should not be underestimated."

Someone snorted coldly, "The natives are very strong, but they are too stupid. They are naturally powerful, but they don't know how to use them, and they don't know how to refine weapons at all. They only use some exotic wood and exotic metals as weapons. How could it be? Our cultivator opponent?"

In terms of overall strength, practitioners have an absolute advantage, otherwise it is impossible to drive the natives to the wild and miserable land, and practitioners occupy 90% of the best sites in the origin continent.

From a mentality point of view, practitioners generally look down on the indigenous people and think they are too stupid.

A lot of life in the city revolves around indigenous creatures and the Nine Clouds.

Wang Yi watched those huge ships leave Jiuxiao City, thinking in his heart, those True God sergeants seem to be many in number, but they have to take the 'Glazed Light Ship' before they dare to go out.

Like the true eternal true god, it is easy to spread a small universe and kill tens of thousands of true gods with a single thought. Therefore, there will be group treasures such as 'Jinluo Tiandi' and 'Glazed Light Ship' in the origin continent, including millions of true gods, with strong attack and strong defense.

While observing the situation in Jiuxiao City, Wang Yi slowly flew to a majestic building in Jiuxiao City. From a distance, he could see the most dazzling words in the three most dazzling words in the common language of the origin continent of the majestic City Lord's Mansion - "City Lord's Mansion"!

"It is rumored that the city lord of Jiuxiao City is an extremely powerful chaotic ruler. He seems to be called the Marquis of Jiuxiao? He is a strong man who is very highly valued by the lord of Bulong Kingdom and is good at fighting. I heard that Bulong Kingdom also specially created a super treasure for him. Let This Marquis of Jiuxiao has also become an extremely terrifying existence in the chaotic

master." Wang Yi looked at the words that faintly made his soul tremble, and he could feel a terrible will from there!

Just feeling, there are some souls being stinged.

That at least belongs to the will of the chaotic master level, as if it will never be wiped out!

The City Lord's Mansion looks close, but it's actually very far away. It's just that the City Lord's Mansion is too big. I'm afraid that in terms of "ten thousand light years", it occupies an extremely vast area. In fact, it will take a long time to fly there.

Wang Yi also flew for a long time before he came to the magnificent gate of the City Lord's Mansion. At a glance, he saw that a large number of sergeants and personnel of the City Lord's Mansion were coming and going in and out of the entire City Lord's Mansion. Occasionally, he could see some True Gods of the Void and Eternal True Gods coming and going. City Lord's Mansion.

The densely packed True God sergeants are guarding outside, and some are patrolling around under the leadership of the Void True God, and are heavily guarded.

"What are you doing?" A True God sergeant stopped Wang Yi and asked.

In Jiuxiao City, even the Eternal True God does not dare to be presumptuous, not to mention that this is the City Lord's Mansion. Even if the Jiuxiao City Lord is not there, he has a clone to control this place all the year round, killing the Eternal True God is only a matter of turning over the palm of his hand. With the help of Jiuxiao City, he is the master of chaos. can beat.

"I'm here to register my identity," Wang Yi said.

"New here? Go over there." Sergeant True God pointed to a path.

Wang Yi followed the direction he pointed, saw a side door on the left side of the City Lord's Mansion, and flew directly over it. The City Lord's Mansion occupies a large area, and even a square is light-years wide, so the size of the City Lord's Mansion can be imagined.

However, the place of work was in a palace not far from the main gate of the City Lord's Mansion, and it arrived soon.

There are regulations in Jiuxiao City. Everyone who comes to Jiuxiao City must register their identity here and receive tokens. When Wang Yi stepped into the palace, he saw large \*\*\*\* of light suspended in the palace, and practitioners lined up to fly into the ball of light, and then came out again after a while.

Wang Yi also followed in line.

When it was his turn, he also flew into the ball of light.

Inside the ball of light, it was an expanse of whiteness, an independent void, with only Wang Yi alone.

A mechanically indifferent and emotionless voice sounded.

"Outsiders, in order to prevent enemy forces from infiltrating the city, we will conduct a life test on you next, which will not cause any harm to you. Please do not react excessively, otherwise the judgment will fail and you will be expelled."

"Om..."

Twisted secret patterns began to appear in the void, and the dazzling purple secret patterns instantly spread throughout the void, and strange and unpredictable forces were born in an instant, directly infiltrating Wang Yi.

"It's very similar to the instrument test that was passed down by the Duandong River to detect the lives of ethnic groups." Wang Yi judged that there should be no danger, and he did not make any drastic actions. "But the enemy it said? Is it the indigenous life or the enemy of other forces in Jiuxiao City?"

This strange and unpredictable power penetrated directly into the body of the gods, and penetrated into every bit of divine power, and Wang Yi also waited silently. After a while, as the distorted secret pattern in the void began to dissipate, the strange power disappeared.

"The inspection is over."

The cold mechanical voice sounded again.

"You are the Eternal True God and are qualified to join the Nine Clouds Legion. Are you willing to join? If you join the Nine Clouds Corps, you can serve as a general, and you can be received and rewarded by the Lord of the City."

Wang Yi was startled and shook his head ~www.mtlnovel.com~ no. "Actually pulled him a strong man.

But Wang Yi was going to find Wu Guo's treasure, and he was not interested in joining Jiuxiao City.

A white token fell from the sky.

"This is your identity token, which can be used to prevent you from entering and exiting Jiuxiao City. If you want to come out with space treasures on your body, you need to be tested before you can travel."

"There is a lot of information about Jiuxiao City in the token, and you can know it by refining."

Wang Yi silently accepted the token.

A force repelled him, and in a blink of an eye, he had appeared in the palace, with big \*\*\*\* of light above his head, and there were a large number of practitioners registering around.

Wang Yi looked at the token in his hand, "With this token, will Jiuxiao City be able to grasp my position at any time?" Wang Yi was very cautious and decided to go outside and sealed the token in the depths of the Tongtian Tower. , completely isolate it.

### [Chapter 850: Wild Outland](#)

In the vast Jiuxiao City, a red-robed black-haired man walked on a street that was 100 million kilometers wide and long for light-years. Humanoid and non-humanoid beings such as energy, flesh and blood walk and shuttle in the streets.

The sight is extremely prosperous.

The inhabitants of the origin continent used technology to create an extremely comfortable living environment in this war fortress.

As Wang Yi was walking, he suddenly raised his head and looked at a towering and luxurious skyscraper in the distance of the street. On it, there were four radiant characters in the common language of the continent of origin - Skyscraper Hotel.

In the token message he just got, Wang Yi knew a lot about the situation in Jiuxiao City, so he wouldn't be smeared.

There are also building layouts and maps of Jiuxiao City.

"This building seems to be one of the most prosperous hotels in Jiuxiao City." Wang Yi looked up at this incomparably tall and majestic building. The building seemed to be made of crystal, and the beautiful light like a waterfall poured down from the top of the building. It was extremely amazing. Spectacular.

"Let's take a look, collect news by the way, and then enter the wilderness." Wang Yi made a decision.

The building has a total of 9,999 floors, and each floor is 1.8 light-years high, adding up to a height of tens of thousands of light-years, which is indeed very spectacular.

At the splendid gate of the skyscraper, there are thousands of incomparably beautiful maids welcoming the guests.

"Welcome." Whenever a guest enters or leaves, the Lord of the Thousand Laws will respectfully say.

A black-haired man in a luxurious red robe walked over.

"Eternal True God?" Those welcoming maids could not help being more respectful when they sensed the other party's invisible aura of coercion. "welcome."

"The Lord of Laws actually stood at the door to welcome guests with a smile on his face." Wang Yi shook his head inwardly, "If the Lords of the Universe in the Sea of Cosmos knew about it, it would be unbelievable."

"But in such a giant city, the Lord of Laws is indeed the lowest."

The life nurtured in the continent of origin is immortal when grown up, a little tempered is a venerable person, the master of the law is endless, and he is not even qualified to join the legion.

It would be better if he became a true god.

The Void True God is considered to have some status.

The eternal true God is the strong one.

Chaos dominates, is a giant.

The king of gods is a great and supreme being who opened up a kingdom.

"Sir, please come with me." A beautiful maid took the initiative to lead the way.

Wang Yi walked into the vast lobby on the first floor. There were seats in the corners of the lobby on the first floor. Some people sat there chatting, and waiters shuttled to receive them.

"I want the most lively place." Wang Yi looked at the maid.

The maid said respectfully: "We are currently holding a celebration on the 6666th floor of the Skyscraper Hotel, with the most people and the most lively."

"Just go there." Wang Yi nodded.

The maid said: "Sir, I will lead the way for you." The two came to a gate of light, the maid clicked, and a number: 6666 was displayed on it. "Sir, this is a space passage, and entering is the 6666th floor."

It is as if the interior of the Star Tower is divided into spaces, connected by space passages, and you can go to another space through the passage.

The light door of this hotel can also allow guests to directly reach the floor they want to go, which is convenient and hassle-free.

Wang Yi stepped in, and when he passed through the gate of light, another scene appeared in front of him.

In the endless sky, a rock bridge twists and turns, extending to the distance. This rock bridge has no support, and it just hangs in the void and continues to extend. At the end is an island, and you can faintly see the figures of the island's activities and the beautiful music flying over.

"Interesting." Wang Yi grinned.

Under the guidance of the maid, Wang Yi came to an empty seat, surrounded by seats, with a huge platform in the middle, and a huge light curtain appeared above the island, playing images.

Thousands of lives of all kinds gather here to drink and chat.

Next to Wang Yi are two all-silver, a little purple hair, wearing blue battle armor, with a pair of metal wings behind them. At first glance, they look like Alloy Man, and they are also drinking the hotel provided by the hotel like ordinary flesh and blood life. Specially made wine, they even glanced at Wang Yi when he sat down during the conversation.

"Two true gods of the void." Wang Yi glanced at it and didn't care.

"You can leave now." Wang Yi threw a Chaos Stone to the maid.

The maid looked at the top-grade Chaos Stone in her hand with surprise in her eyes.

"Thank you, sir." The maid left happily. Like receiving guests, it also depends on the level of the guests, such as Wang Yi, a guest who looks like a big man is also very popular. Like Wang Yi's casual reward, it may be more than her income in a reincarnation era.

"What do you need?" Another maid came over enthusiastically.

Wang Yi clicked something at random and looked at the screen floating on the island.

It was actually a fight between two Void True Gods in a secret realm.

However, after listening to other people's conversations, he realized that it was broadcast from the virtual space.

And guests can not only watch the live broadcast, but also bet on who wins.

"The Continent of Origin has a higher level than the original universe, and it even feels like returning to the original." Wang Yi drank the fine wine from the hotel, and when he drank the fine wine, he felt that every cell in the divine body was as numb as an electric shock. It was very comfortable. While watching the live broadcast, Wang Yi also relaxed and enjoyed this leisure time.

"This wine is really delicious. I'll buy more and take it with me later." Wang Yi ate and drank happily. The maid poured wine and served the food next to her, and she served me very thoughtfully. The sister's harvest just now made her very envious, so she served with all her heart, which made Wang Yi very satisfied, and rewarded the maid with a top-grade Chaos Stone.

Wang Yi ate and drank fine wine while watching the live broadcast, while also paying attention to the conversations of the guests on the island.

The two mechanical women looked at him, talked a few words, and then came over.

"Is something wrong?" Wang Yi looked at them.

The Machine Race of the Origin Continent is a different concept from the Cosmic Sea, just like the humanoid creatures of the Origin Continent, which are actually composed of countless races. So Wang Yi is not hostile to them either.

Gu Zhan

"My lord, seeing your face, you just came here, right?" a mechanical woman with silver-purple hair asked curiously.

"That's right." Wang Yi nodded.

The eyes of the two mechanical women lit up: "Are you interested in joining our exploration team?"

"Exploration team?" Wang Yi heard this name for the first time.

The taller mechanical woman explained: "The exploration team is a team of cultivators who join forces to explore the wild land. The purpose is to find treasure opportunities outside the wild land, and occasionally accept the tasks released by Jiuxiao City. In Jiuxiao City, there are Many of these teams, who have been operating here for countless years, are very familiar with the wild areas."

Wang Yi couldn't help but think of his purpose this time, isn't it just for the treasure hidden in the wild by Wu State?

The treasure of the Wu Kingdom does not seem to be hidden deep, but it is very hidden, even if the Chaos Lord scratches the ground three feet, it cannot be found. And in the past so many years, I don't know how the original position has changed. If I find it by myself, it may take more time. If I get some help from the exploration team, I may save some energy.

It's just that Wang Yi didn't know much about this so-called exploration team, and he didn't mean to join it rashly.

He wanted more information on the Wilderness from them.

After some conversations, Wang Yi had a better understanding of the wild area where Jiuxiao City was located, and had ideas in his heart.

The location of Jiuxiao City belongs to the southern wilderness of the origin continent. Not to mention the desolation and remoteness, there are still countless indigenous lives and various dangers.

But that doesn't mean there are no treasures and opportunities here.

You must know that those indigenous beings are different from practitioners. They don't know how to refine weapons, and they only use strange wood and exotic metals as weapons. Some of the treasure materials that practitioners value, the indigenous people don't care at all, so it is easy to find treasure resources that are very important to practitioners here. Some practitioners who want to make a fortune will take risks to come to the wild and explore here.

The two mechanical women also tried their best to persuade Wang Yi to join their team.

There are many powerhouses in Jiuxiao City, but below the Chaos Lord, the Eternal True God is considered to be the top. Every Eternal True God is the main force in exploring the wild. Every team, only with the Eternal True God, can be sure to walk in the crisis-ridden wilderness.

The captain of the team of two mechanical women is an eternal true god, but no one thinks that there are many strong people in their team.

Wang Yi was unmoved by the attraction of the two mechanical women, and instead asked, "Do you have any information about the Southern Wilderness Fan Shenze?"

"Mishenze?" The two mechanical women looked at each other. "Is it the fascination that is always shrouded in mist over 300 billion light-years?"

There are many dangerous areas near Jiuxiao City, and Mi Shenze is one of the more famous ones.

The reason why it is famous is that it is shrouded in fog, and many exploration methods such as divine power will be greatly weakened in the fog, which makes it almost necessary to rely on the naked eye to explore here. The second is that there is an invisible will shock here. It is said that in the ancient times, there was a super existence that fell here, and the flesh and blood merged into the fascination to form this vast and boundless lake. Although the super existence died for countless years, the will shock left behind is still there. It is extremely strong, and it is difficult to approach without the will of the true \*\*\*\* of the void. Even the true \*\*\*\* of eternity does not dare to go deep, otherwise as long as you approach the depths, you will be directly hit by the shock of the terrible will and lose consciousness.

In addition to the environment, this mysterious lake also has some dangerous and unique indigenous life, making it very difficult for outsiders to explore here.

"Yes, that's right." Wang Yi nodded, "If you know the information about the Mi Shen Ze, and it is useful to me, I can pay you." Wu Guo's treasure is hidden in the depths of the Mi Shen Ze, but the specific location Wang Yi had to find it himself.

And because the treasure is hidden in a strange way, it is very difficult for gods to find it, let alone Wang Yi, it belongs to finding a needle in a haystack.

Three hundred billion light years? Wang Yi did not know how long to explore. It would be best if we could get useful information from these explorers.

"We have to ask our captain." The taller mechanical woman said.

"Then ask." Wang Yi looked at them.

The mechanical woman contacted her team through her own way, while Wang Yi sat there drinking.

After a while, a figure walked in outside the island.

It was a burly figure like a mountain, wearing a set of black alloy battle armor. The battle suit had a scale structure, and layers of scales were superimposed, while his face was covered with black scales, his hair was like black thorns, and his forehead was A slightly curved, black sharp corner like a machete! The whole body is black from head to toe! There is also a long dragon tail extending from the back, with the ultimate destruction in his eyes, and an aura of destruction that makes the space tremble emanates from him.

"Huh?" Wang Yi noticed something, turned his head sharply and looked at it with a hint of surprise in his eyes.

"Destroy the source?"

Wang Yi himself masters the source of destruction, and he knows the other side very well, and he is also the eternal true \*\*\*\* who masters the source of destruction.

"team leader."

"team leader."

The two mechanical women stood up.

"I rushed over when I received news from Guang Hehui."

The burly dragon-tailed life walked up to Wang Yi and showed a smile.

"Haha, but I didn't expect to meet another fellow who masters the origin of destruction here."

There are many origins in the world, and the origin of destruction is only one of them, and it is a relatively rare origin, and there are relatively few powerhouses.

"My name is Jiang Hu. I'm the captain of this expedition team." The destructive life introduced himself and gave a strange name.

"My name is Jiujiang Yi." Wang Yi also said his name.

"I heard that friend, you want to collect information on Mi Shen Ze? Do you want to enter Mi Shen Ze, my friend?" The burly dragon-tailed life sat down and poured himself a glass of wine.

"I do have this plan." Wang Yi looked at the other party. "If you have information on the Mi Shenze, I can exchange the treasure with you. Trust me, you will not be disappointed."

"Well..." The burly dragon tail pondered for a moment, rubbing his thick knuckles, and suddenly said, "We do have some information about Shenze, UU reading [www.uukanshu.com](http://www.uukanshu.com), to tell you the truth, our exploration team recently Just in time to enter the fascination, if you want to enter the fascination, you might as well come with us and have a companion."

Hearing Jiang Hu's words, Wang Yi was a little surprised. "You also want to enter the Fascinating Lake?"

"Yes." Jiang Hu nodded, drank the wine, and stared at the black-haired man in red robe on the opposite side, "My friend, you are the eternal true god. In fact, our team is not weak. Let's join forces and we can go in the fascination. It is farther away, no matter what you do, you will be more confident, I wonder what your friends think?"

"Joining forces with you?" Wang Yi smiled, "You are so assured of me?"

"Haha, in the Wilderness, our biggest enemy is the indigenous people, and the practitioners here are relatively united." Jiang Hu smiled and said frankly, "Of course, when we meet for the first time, we should be vigilant with each other, but I believe that, It is good for all of us to work together to explore the fascination."

Wang Yi thought quickly in his heart, and nodded after a while, "Okay, I will cooperate with you."
