

## A God 851

### [Chapter 851: Wilderness](#)

After making an appointment to leave, Wang Yi did not believe Jiang Hu's words, but went to Wujianlou again to buy information on the Southern Wilderness, especially the Fascinating Lake.

With a certainty in his heart, on the agreed date, he came to an entrance and exit of Jiuxiao City.

It was a circular passage with a diameter of hundreds of millions of kilometers, and there were hundreds of such passages around, some coming in and some going out, as busy as a beehive.

Jiang Hu and his team members were already waiting there.

In addition to Jiang Hu and the two mechanical women, there is also a blond woman with a pair of butterfly wings behind her back, wearing a translucent tulle to tempt the looming temptation, and a icy cold woman wearing golden armor, carrying a golden sword, and a gem between her eyebrows. A girl with black hair and silver eyes.

At Jiang Hu's feet, there was a petite woman with green vines wrapped around her body, her face was made of flower buds, and her delicate and beautiful face looked at Wang Yi curiously.

"Jiujiang, let me introduce our team to you. You have met Guang and Hui before." Jiang Hu pointed to the blonde woman with butterfly wings. "She is Ellen. Our team is the best at the secret magic of the soul. At the same time, she has a worm nest, and the worm nest has an endless army, which can burst out the attack power close to the eternal true god."

Ellen smiled and nodded to Wang Yi.

Jiang Hu pointed to the cold black-haired girl with the sword on her back, "She is Jiu Nian, she follows the path of a melee warrior, masters a secret technique, and the attack power that really erupts is almost comparable to that of the Eternal True God, but it can't last. "

Then the burly dragon-tailed life picked up the plant life under his feet and smiled. "She is Ruo, a kind of plant life "Luo" born from the origin continent. It is characterized by amazing defense, strong vitality, fast recovery, and is good at entanglement and siege enemies, and because of her huge body, her body length is calculated in light years. ."

"Guang Hehui also has mechanical legions, but they are not very good at this. Their most powerful thing is to control mechanical treasures to fight, and their mechanical treasures are also the most powerful among us."

"As for me, I'm their captain and the only eternal true \*\*\*\* in the team." Jiang Hu told Wang Yi about his team's situation one by one, very sincere.

There are a total of six people in Jiang Hu's team, and they are all very strong.

Except for Jiang Hu, the Eternal True God, the others are all Void True Gods with their own strengths.

Among the countless expedition teams in the wild, this expedition team is already very elite.

Wang Yi also said a little about his own situation, "I, Jiujiang Yi, the Eternal True God, are powerful in all aspects, and I also have mechanical treasures on my body."

The atmosphere on both sides was pretty good.

"When do we leave?" Wang Yi asked. If Jiang Hu hadn't revealed that his team had some secret information on Mi Shenze, and Wang Yi was not familiar with Savage Land when he first arrived, Wang Yi would not have teamed up with other people casually.

Jiang Hu said: "Don't worry, we have a new companion who is also an eternal true god."

A figure suddenly appeared in the distance, and then flew over quickly.

That is a beautiful woman wearing a beautiful fiery red feather-like battle armor. She has a natural noble temperament, fiery red hair, fiery eyebrows, and fiery red eyes. You can see that her pupils seem to be burning with flames, and there are demons on her snow-white cheeks. Different flame patterns, the whole person is like a burning flame.

Wang Yi looked at her, and as soon as she appeared, Wang Yi could feel that this was an eternal true \*\*\*\* who mastered the origin of flames.

"Yanxi." Jiang Hu smiled when he saw the woman.

"Jiang Hu." The red-haired woman nodded and looked at Wang Yi again. "You didn't say there was another person."

"One more person is more secure." Jiang Hu smiled. He said to Wang Yi again, "This is the general of the Chitian Department of the Jiuxiao Legion, Yan Li, she is my friend, and this time I will go to the Shenze with us."

Wang Yi was a little surprised. He didn't expect Jiang Hu to make friends so widely that even the generals of the Jiuxiao Army came over.

Yan Li didn't seem to pay attention to Wang Yi's interest.

When everyone arrived, Jiang Hu took out a black ship, and his team walked in together with Yan Qi.

And Wang Yi took out his palace treasure.

Looking at the black ship that had closed the door, he muttered, "Team members? Friends? Why do you feel adultery."

...

Two streams of light flew out from the towering and endless white huge ship.

"The trillion light-year area in Jiuxiao City is blocked by space, and there are many defensive arrangements. We have to fly out of this distance to teleport." Jiang Hu's voice came from the black ship.

There is also a layer of colored energy shield around the huge ship of Jiuxiao City, which is 100 million light-years in length, which is said to be able to resist the attack of the Chaos Lord. This ship, which is

comparable to the size of a small universe, is like the strongest war fortress, which has blocked the attack of the indigenous people from the cultivator's territory for countless years.

Wang Yi couldn't help staring at the terrifyingly huge ship that was over 100 million light-years in length and could be said to have reached the pinnacle of the mechanical flow of the origin continent. Flying in the void, Wang Yi's palaces and ships are like tiny dust, and Jiuxiao City behind them is like a huge star.

The gorgeous clouds that cover the area of 100,000,000 light-years are actually the protective energy shield of Jiuxiao City.

The muzzles are gigantic and hideous, covered with complicated and bizarre law secret patterns, and the diameter of the muzzle reaches an astonishing light-year scale. Once the power erupts, the Chaos Master will be terrified, and hundreds of millions of true gods will be wiped out.

"It's a perfect work of art of war." Wang Yi sighed.

Like the Origin Continent, there are many such peak mechanical treasures!

He thought of the Wu State treasure that he was going to find next, and there seemed to be a Chaos Master-level puppet in the treasure.

Its value is not even much lower than the Jiuxiao City in front of you! Just the use is different.

Flying at a speed of 100 million times the speed of light, it took more than a year for Wang Yi and the others to fly out of the colored energy shield.

Outside, there are endless chaotic airflow and clouds, and here is the high sky of the origin continent.

"Be careful, we have left the safe area of Jiuxiao City and come outside, anything is possible." Jiang Hu's voice came from the black ship. "Here, it belongs to the wilderness. Even in the air, there may be dangers lurking, and some cloud creatures and indigenous life will come to attack us."

"However, the Jiuxiao Legion often cleans up the surroundings, and there are not many wild life near Jiuxiao City."

Wang Yi nodded.

He has read the information about the wild. In the wild, in addition to the barbarians called indigenous life, there are many primitive life born in the origin continent. They exist in various forms, like cloud life, but it is one of them. kind.

The barbarian...is the name given to the indigenous people of the origin continent by the practitioners of the origin continent, and those indigenous people call themselves "ancient races".

Gu Yu

As the oldest inhabitants born and born in the origin continent, they are actually very powerful and highly talented. They have different bloodlines. By tapping the potential of bloodlines, they can also have unlimited growth.

However, they are indeed "too stupid"!

The bloodline is strong, and the indigenous life relies on the evolution of the bloodline to break through, but it is weak in the aspect of "cultivation".

Like the practitioners of the origin continent, there are many inheritances, many schools, or close combat, or remote attack, or treasure refining, or machinery, etc.... Various paths have cultivated countless geniuses and powerhouses, so that practitioners finally stand at the peak of the origin continent!

Aboriginal life, but do not even know how to refine their own weapons, can only use some primitive items as weapons and armor treasures.

But even so, the natives have never been extinct! It even continued to make a comeback and counterattacked the practitioners.

"Perhaps, it's not that the natives are too weak, but the practitioners are too strong..." Wang Yi secretly said.

According to Wang Yi's understanding, indigenous life is a system of spiritual practice.

They all have a source! It is said to be the oldest primitive era, a descendant of a "primitive ancestor"! It is also the most terrifying enemy of the practitioners who once originated in the mainland! No practitioner is its opponent!

But the "first ancestor" disappeared later! Since then, the practitioners of the origin continent have gradually risen to overwhelm the indigenous side.

Wang Yi always felt that this might have something to do with "Yuan".

Because "Yuan" also appeared at that time, the "first ancestor" disappeared soon after, and "Yuan" was also vaguely the first powerhouse in the origin continent.

"But according to the background rules of Lord Xue Ying, even if Lord Chaotic Origin comes to the source world, his strength will be in the Chaos Realm. Depending on the realm, he may surpass the ordinary Cosmic God (God King), but at most it will be at the second level of the Cosmic God." Wang Yi muttered, "But Yuan is the oldest and most unfathomable existence among the Chaotic Origin Lords, and some methods are not surprising, but I don't know whether the first ancestor was sealed or killed."

Yuan, in the Origin Continent, is an extremely transcendent existence. The super secret technique that he left behind, the supreme willpower secret technique - "Lie Yuan Technique", is even more famous, and the gods and kings are also envious.

Like "Mystery of the Eyes of God", as long as the will reaches the level of the true \*\*\*\* of the void, it can be cultivated. The Mysterious Eyes technique is low-end, and it is extremely useful to the True God, the Void True God, and the Eternal True God.

Primordial Art is enough to make some super beings such as the God King go crazy. This is a very unique skill. If the God King of Jin succeeds in practicing the "Original Art", I am afraid that his strength will skyrocket a lot, and his ability will be overwhelmed. many other forces. This is completely related to a great secret of the power structure.

As the supreme secret technique of will that is enough for the kings of gods to go crazy! Even an opponent with the same will, if one party has the "Column Element Technique", it can greatly affect the opponent's strength, and even go into a coma!

Wang Yiruo now has the will to become a saint and has practiced the "Lie Yuan Technique". It can be said that, as long as someone who has never been sanctified by his will, will fall 100% if he is hit by his will!

Wang Yi's will has been stuck at the pinnacle of the eternal true \*\*\*\* for many years, and there has been no breakthrough.

"The original Luo Feng was in an era of reincarnation, breaking through the will of the Holy Spirit with a true god, this protagonist's halo is too unreasonable, or does the plot need it?" Wang Yi shook his head. Among the true gods of the void, many will reach the level of eternal true gods. What can be sanctified is almost impossible. The cultivation of so many top-level forces in the Origin Continent is not necessarily possible for anyone, let alone a true God in the universe sea and a reincarnation era, and he has the will to be called holy!

Even if it is a mountain guest to create a golden finger of the earth, but it is to cultivate the heart, and it has little to do with the will.

There are so many unreasonable places! Breakthrough in despair? It can only be explained by the protagonist's halo.

Let's talk about indigenous life, because of their natural bloodlines, their warriors are also exceptionally powerful, and the creatures in the "indigenous life" are immortal once they are born, as long as they are adults, they will be the Venerable Law!

After some polishing, you can become the master of the law!

True God, one of the ten indigenous warriors of the Lord of Laws will be born, which is far more than the practitioners of the origin continent.

However, after going to the Void True God, there will be much less.

But note that they are not divine beings.

For example, the practitioners of the origin continent are almost all immortal, the master of the law, and the master of the law are all divine beings! Their energies and imprints of life merge into one! The loss of divine power is the loss of the mark of life.

But the oldest indigenous life in the origin continent, they claim to be the ancient race, and the body has a special power.

They are called "forces of chaos".

The indigenous creatures of the origin continent, born, can absorb the chaotic airflow to cultivate, they are the natural darlings of the chaotic world.

You must know that even the Eternal True God among the practitioners cannot do this step. If you want to directly absorb the chaotic airflow and transform the divine power, you can only rely on the small universe and other means.

And the indigenous life of the origin continent, even the newly born child, can do it.

This also allows the indigenous warriors to have a physique far beyond that of ordinary practitioners, relying on blood, and also have various special methods.

However, practitioners rely on various secret techniques, treasures, and the same level to absolutely suppress the natives.

"Aboriginal life relies on the awakening of blood to improve its strength." Wang Yi said with emotion. "As long as you keep awakening and tap the potential of your bloodline, you can eventually reach the ultimate level and compete with the peak of the origin continent."

"However, after all, it is still not as good as the advantages of the practitioner's cultivation system. With the disappearance of the invincible ancestor, practitioners and strong practitioners from the three thousand latitudes of the universe have been born continuously, and the entire indigenous forces have been suppressed and driven to the wild and difficult land of the origin continent. ."

...

An ancient black warship and a quaint black palace teleported forward in the vast and vast sky, passing the boundless earth underneath.

"Acridine~~"

A sharp screeching sound rang out, and a strange and ugly creature with a height of hundreds of billions of kilometers and covered with rock-like scales emerged from the clouds, and thousands of deep eyes looked down at the shuttles coming from below. Ships and palaces.

As it stuck its head out, another same rock-scaled creature emerged from the clouds.

Third head...

Fourth head...

In the blink of an eye, hundreds of huge cloud lifemen emerged, all exuding amazing aura.

The surrounding space has been sealed off.

Hundreds of thousands of scale-armored beings flew down from all directions, surrounded Wang Yi and the others, making excited screams.

"This is 'Jiayou Zhe', a kind of cloud life that gathers and hunts together. Most of them are of the Void True God level, and their leader may even be the Eternal True God level. Brother Jiujiang, we have encountered a little trouble." Jiang Hu said The voice was a little dignified.

#### [Chapter 852: kill](#)

"We were attacked so soon? How far did we get from Jiuxiao City?" Wang Yi sighed.

No wonder it is said that without eternal true god-level strength, walking in the wild is dangerous.

"Wow." Jiang Hu, his team members and Yan Chen all came out of the ancient ship.

"Kill! Let them know how powerful it is!"

"It's just some beasts. I don't know whether to live or die, but they dare to find us."

"Kill, kill them all!"

Everyone was murderous.

boom!

In the void, a small universe with a diameter of tens of thousands of light years was born out of thin air!

This is the domain power formed by Jiang Hu's small-scale cosmic source power.

Under the pressure of the powerful small cosmic source power, those 'Jiayou Zhe' felt a terrifying pressure enveloped, and their bodies were as heavy as hundreds of millions of stars.

They moved their limbs desperately and made strange roars.

"Moo~~" Suddenly, a huge oppressive roar came from above the clouds, and a huge shadow that was thousands of times larger than a star quickly descended.

The vast cloud cover broke a big hole!

It was a monstrous giant creature with a length of one trillion kilometers, covered in dark black rock scales, with thousands of evil eyes and hundreds of sturdy and powerful hooves, which looked extremely terrifying.

The boundless horror aura gushed out from it, causing the void to vibrate!

As it came, a powerful source of power slammed into Jiang Hu's small universe domain, competing with him for the space of the domain.

"The eternal true god-level 'Jiayou Zhe'!" Jiang Hu's face changed slightly, but it was not surprising. Seeing the number of 'Jiayou Zhe', he knew that there must be a more powerful 'Jiayou Zhe' leader nearby. .

"Brother Jiujiang, you and I will deal with this 'Jiayou Zhe' together, and leave the rest to my team members and Yanli." Jiang Huu said through a voice transmission.

"Okay." Wang Yi glanced at the "Jiayou Zhe" that covered the sky and the sun, but he didn't object.

The black palace disappeared, revealing the figure of Wang Yi in black and red armor, with a blood-colored sword on his back, and six pairs of wings spread out from behind him.

"Chaos Wings" is different from Wu Guo's Killing Wu Wings, so Wang Yi doesn't mind using it in front of outsiders.

Wang Yi looked at the small universe around him and grinned.

Mind a move.

"boom!"

The six pairs of splendid wings behind Wang Yi were unfolding to their heart's content, and the burning divine power was instilled in the chaotic wings. Immediately, the fifth pair of chaotic wings began to be launched. In an instant, every secret pattern on the fifth pair of wings was dazzling and endlessly gray. The light instantly enveloped the area of tens of thousands of light-years, and at the same time... the endless chaotic airflow permeated the area of tens of thousands of light-years in diameter.

The fifth level of wings, 'a thought of chaos'.

Feather Wings belong to the time and space auxiliary treasures, and it does not conflict with the realm formed by Jiang Hu's small cosmic source power.

You must know that the fifth layer of the 'Wings of Chaos' is urging to the extreme, and some of them are called saints!

With Wang Yi's current strength, it can already be fully urged.

This powerful chaotic domain power is blessed by Jiang Hu's small-scale cosmic source power, which immediately increases the power of the small-scale cosmic source power by a large margin!

The origin domain of 'Jiayou Zhe', who was originally competing for the domain space with Jiang Hu's 'miniature power of the origin of the universe', was suddenly crushed and collapsed. This made tens of thousands of eyes on 'Jiayou Zhe' instantly widen, revealing Incredible color.

Jiang Hu also showed a shocked expression, "What kind of feathered treasure is this? It has such great power! Is it a mechanical treasure?"

Like the eternal true god-level treasure, it is the peak power of the eternal true \*\*\*\* that is urged to the limit.

Above, it is the treasure of Chaos Master Series.

For example, when the Eternal True God reaches the realm of the seventeenth-order secret technique, theoretically, he can exert the power of the eighteenth-order by comprehending the chaotic master-level treasures.

The higher the realm, the stronger the strength, and the greater the power exerted.

Like the true god-level treasure, the general secret pattern is the sixth to ninth order power.

The Void True God-level Treasure is from the tenth to the thirteenth order.

The eternal true god-level treasure is from the fourteenth to the seventeenth order.

The Chaos Master Grade Treasure is from the eighteenth to the twenty-first.

Like some powerhouses, the usual method is to superimpose the domain formed by the domain treasure and the power of their own small cosmic source to suppress the opponent.

The Chaos Wings belong to the "ontology tactical" machinery! This type of machinery is generally used to assist the user, making the user stronger in combat. With the fifth layer of Chaos Wings, there is already some time and space control of Chaos Lord's power, which can easily suppress the small universe of other powerhouses.

The endless chaotic airflow permeates the small universe in the area of tens of thousands of light years, exuding amazing pressure.

"What a terrible breath!"

"This is the captain's method? No, not like."

"It's that Jiujiang!"

The members of the expedition team felt the coercion of the vast space and time around them and were shocked.

Yanli looked at the man with six pairs of dazzling wings behind him, and his eyes also showed surprise.

With her eyesight, she could naturally recognize that this skyrocketing small-scale cosmic power was entirely brought about by the wings behind the man.

Even she felt a terrifying threat.

"Could it be that the wings on his body are a very special kind of auxiliary mechanical treasure?" Yan Chen was also very shocked. "The power is so strong, it should be the top mechanical treasure!"

Like the eternal true god-level mechanical treasure, that is, the peak power of the eternal true god!

However, the chaotic wings are pushed to the extreme, but some of them are called holy power! It is definitely the top of the mechanical flow treasures in the eternal true god!

Gu Ning

"Hahaha... Brother Jiujiang, I didn't expect you to have such a powerful mechanic treasure on your body!" Jiang Hu, a burly man with scales and dragon tail, let out an excited laugh. "You and I join forces to kill this 'Jiayou Zhe'!"

Originally, Jiang Hu just wanted to repel this 'Jiayou Zhe'.

After all, the Eternal True God-level 'Jiayou Zhe' is not easy to deal with. Even if there are three Eternal True Gods in their team, it is difficult to do it. If 'Jiayou Zhe' wants to escape, they can't stop it.

And in the dangerous wilderness, if they are involved, over time, they will easily be besieged by more wild creatures, and the situation will be even more dangerous.

But now Wang Yi's Chaos Domain is different.

Originally, they were also in the realm of the Eternal True God, fighting with each other.

But now, with the blessing of Wang Yi's Winged Chaos Domain, Jiang Hu's small-scale cosmic power has been greatly improved, and this improvement directly overwhelmed the source domain of the eternal true god-level 'Jiayou Zhe'.

"Dong~~dong~~dong~~" Hundreds of thousands of 'Jiayou Zhe' who rushed over bore the brunt, and they were also under the pressure of the power of the small universe source. They only have the Void True God level, and they don't have much resistance ability, direct strength. Dropped, making a terrified cry.

"Moo~~" The leader of the eternal true god-level 'Jiayou Zhe' had realized that the situation was wrong, and let out an angry roar, causing those clansmen to retreat.

Originally, thousands of 'Jiayou Zhe' plus this leader, it is not afraid of facing several eternal true gods.

Because it also has a source domain, it can protect its own side, and it is not afraid of the suppression of the other party's eternal true god!

But it never imagined that there would be such terrifying treasures among these hateful cultivators, causing its origin domain to collapse all of a sudden.

Realizing that the situation was not good for him, the leader of 'Jiayou Zhe' could only order a retreat.

But it was too late.

After Jiang Hu casted a small universe and Wang Yi cast his wings, the third eternal true \*\*\*\* in the team, Yan Qi, also released a realm-like treasure.

It was the ultimate treasure of the eternal true god-level domain. The endless flames instantly enveloped the entire small universe, burning those 'Jiayou Zhe' who were running away, and some of the 'Jiayou Zhe' were burned to the point where their skin was ripped apart and the pain was unbearable.

"Roar!" The leader of 'Jiayou Zhe' was furious when he saw this, and the dense eyes on the huge scale armor simultaneously shone with dark rays of light. The flame field, help your clan to escape.

But it was immediately entangled by Jiang Hu and Wang Yi.

"Ha ha....."

"Captain, they are amazing."

"Good chance, kill."

"We're going too."

Jiang Hu's team members were overjoyed, and they rushed up to hunt down those 'Jiayou Zhe'.

And Yan Qi followed them to prevent them from having an accident.

Wang Yi was holding a blood-red sword in his hand, his body had become a trillion kilometers high, and the sword in his hand extended extremely far. 'Boss, the dazzling light of the sword illuminates the small universe area tens of thousands of light-years away, and also illuminates the frightened faces of countless 'Jiayou Zhe'.

Jiang Hu was not far behind, the black scaled divine body also soared to a height of trillions of kilometers, a dragon tooth machete appeared in his hand, and his hands were holding the machete. To the leader of 'Jiayou Zhe' in front of him.

The other Void True God-level players also showed their magical powers to kill those 'Jiayou Zhe'.

A golden worm nest with a height of '100 million kilometers' appeared beside a blond woman with a pair of butterfly wings and a translucent gauze behind her back. There were tens of thousands of true god-level warriors gushing out of the worm nest. , there are also millions of masters of laws, a large number of Zerg warriors form a formation, a dazzling beam of energy burst out from the Zerg army, cut through the sky at a billion times the speed of light, and blasted in a group of 'Jiayou Zhe'. 'Up, in the dazzling light, the terrifying energy fluctuations annihilated that space and time, and those 'Jiayou Zhe' were also swallowed in, I am afraid that they will not die or be seriously injured.

The two mechanical women 'Guang' and 'Hui' are controlling tower-shaped mechanical treasures. The mechanical towers are intertwined with thunder snakes, blocking the area of hundreds of light-years, and there are countless hundreds of millions of kilometers of light. The blades are crisscrossed, and the light blade is extremely sharp, mercilessly cutting the bodies of those 'Jiayou Zhe'.

Many 'Jiayou Zhe' were torn apart.

There was an endless rain of blood in the sky.

And the cold black-haired silver-eyed girl with a gem between her eyebrows pulled out the golden sword behind her back and turned it into a golden light. The sharp breath made the void directly open a crack, like a golden thunder light. The speed was unparalleled, and in a blink of an eye He didn't enter a 'Jiayou Zhe', and directly pierced it. The other 'Jiayou Zhe' did not know where the vital parts of his body were destroyed, and his life breath disappeared immediately.

And Jin Guang turned and rushed to the other end of 'Jiayou Zhe'.

The originally petite and delicate 'Ruo' in the team has now become a huge green vine that covers the sky and the sun. Twelve light-year-long vines are waving in the void like a devil's whip, and there are countless branched vines entwining towards the sky. Those 'Jiayou Zhe', which are as small as ants, entangle these 'Jiayou Zhe' like a plant that hunts insects.

Her attack power is not strong, but her strength lies in her huge body, high defense power, and strong vitality. Those 'Jiayou Zhe' crazy counterattacks bite her body. If these monsters are intact, it will be hard to resist, but Now, at most, it is to create wounds that are tens of millions, hundreds of millions of kilometers deep, and it does not hurt at all to her canes that are light-years long and tens of billions of kilometers thick.

The eternal true \*\*\*\* 'Yan Qi' is even more direct, directly manipulating the flame to kill those 'Jiayou Zhe' who are too weak compared to her, often killing a group of them as soon as they make a move.

The number of 'Jiayou Zhe' is rapidly decreasing at an alarming rate.

"Pfft~~" The icy blood-colored sword light lit up, Wang Yi's sword split open a hoof foot of the leader of 'Jiayou Zhe', and directly chopped off its thick hoof foot, black with a strong stench of blood. Squirt out.

Jiang Hu on the other side also frantically attacked the leader of 'Jiayou Zhe', creating scary wounds on his body.

He looked at Wang Yiwei's monstrous sword light, and his eyes were even more shocked.

Wang Yi's strength is much stronger than he imagined, and he is definitely the top eternal true god!

The defense of the leader of 'Jiayou Zhe' is very strong. Even if the layer of rock-like thick scales is torn apart by the Eternal True God, it has many means, and even if the Eternal True God wants to defeat it, it is not easy.

However, it was completely suppressed by Wang Yi's wings "Chaos Domain", Jiang Hu's "Small Cosmic Origin Power", and another real treasure of the eternal true \*\*\*\* Yanli, and its strength was weakened a lot.

In addition, Wang Yi's attack power reached the pinnacle of the eternal true god, and even if 'Jiayou Zhe' tried his best to resist, there would still be scars on his body.

There is also Jiang Hu, whose strength is not weak in the Eternal True God, is also attacking frantically.

Hundreds of hooves and feet of the leader of 'Jiayou Zhe' have been chopped off a lot. Even if he tried his best to regenerate, he couldn't keep up with the speed of being split open. The wounds on his body became more and more, and he roared in pain and anger.

The leader of 'Jiayou Zhe', who had sensed the danger of death, saw the death and injury of his own clan, and became mad. The tens of thousands of evil eyes on his body simultaneously emitted a dark and deep light, and at the same time, hundreds of thick and powerful hoofs and feet slapped frantically.

It wanted to escape, but was entangled by Wang Yi and Jiang Hu, and realized that the desperate 'Jiayou Zhe' had gone completely crazy, and resisted dying like a trapped beast. Even if it died, it didn't want to make its enemies feel better~www .mtlnovel.com~ It completely burns the potential in the body. The body does not grow but shrinks, shrinking to 10 billion kilometers, but the strength, speed and defense are stronger. When a paw slaps it, Jiang Hu can't hold it, but Wang Yi can still shake off the attack of 'Jiayou Zhe'.

This also made Jiang Hu more aware of the gap between them.

Yan Li and other team members quickly killed thousands of 'Jiayou Zhe', and then the three Eternal True Gods besieged the leader of 'Jiayou Zhe' together.

The leader of 'Jiayou Zhe' is on the verge of desperation.

"Pfft!" As the sharp knife light pierced into its body, the life-core existence of the condensed imprint of life in its body was smashed, and the leader of 'Jiayou Zhe' could no longer resist, leaving thousands of eyes The light in the room dimmed, and soon lost its breath of life, and the scarred corpse that had recovered to a trillion kilometers high also fell.

The fierce battle ended with a big victory for Wang Yi's side.

[Chapter 853: Indigenous life on the continent of origin](#)

After solving 'Jiayou Zhe', Wang Yi put away the sword and looked at Jiang Hu.

In fact, he had just noticed the burning divine aura of Jiang Gourd.

Probably the fifth level of his "Broken Extermination".

And Jiang Hu's combat power is probably around the sixteenth rank.

Don't think that the Eternal True God masters the fifth and sixth layers of the burning divine power secret technique, and can explode several ranks of combat power.

Like burning magic, different levels correspond to different levels.

Like the Void True God, it generally uses the third-level or lower divine power burning secret technique.

The Eternal True God is generally above the fourth level and below the sixth level. The third weight? of no use to them.

Chaos Lord, at least the seventh level.

God King, the eighth level will be disgusted, and the ninth level is normal.

So why can only the first three volumes be read below the true \*\*\*\* of "Broken East River"? In addition to the limitations of the original will of the original universe at that time, there were also requirements for the divine body level.

Moreover, the more profound the burning magic power, the higher the requirements for the divine body.

Generally, the true \*\*\*\* of the void can only learn the fourth level.

Even if Wang Yi is the eternal true \*\*\*\* now, learning the seventh level is already the limit. The eighth level and above can only be mastered by the master of chaos.

Even if you learn the magic of burning magical power, it does not mean that it suddenly explodes to an outrageous level.

Like the eternal true \*\*\*\* who masters the sixth-level divine power burning secret technique, at most, the attack reaches the top level of the seventeenth order. If you want to enter the eighteenth order, you have to rely on other means. And there are also requirements for boundaries.

After the battle, Wang Yi and others quickly cleaned up the battlefield.

Killing the leader of 'Jiayou Zhe' and thousands of Void True God-level 'Jiayou Zhe' in one fell swoop, these are treasures, and even for the Eternal True God, they are treasures that cannot be ignored.

But Jiang Hu and others, who had seen Wang Yi's terrifying strength, looked at him differently, and felt more awe in their hearts.

Therefore, when distributing the spoils, Wang Yi took the leader-level 'Jiayou Zhe' by himself, and the rest went to everyone to distribute.

Immediately, everyone quickly left the battlefield.

Less than a day after everyone left, a group of dark shadows appeared on this battlefield.

Among the figures shrouded in black mist, one of the tall figures with three pairs of blood-red eyes looked around and made a strange sound that was different from the common language of the origin continent.

"It's a practitioner, a practitioner passed by here not long ago."

The other shadows all roared angrily:

"Damn cultivator!"

"It's them again!"

"One day, our clan will kill them back, take back our homeland, kill all their strong men, enslave their descendants, and make them slaves for life, tortured and humiliated to death!"

These shadows speak strange languages, and they are filled with chaotic airflow.

They are the indigenous life of the origin continent, and they are also the barbarians in the mouth of practitioners.

From their tone of voice, it could be heard that they hated and hated practitioners incomparably.

In the eyes of indigenous beings, these practitioners in the origin continent are now invaders, and they are the real owners of this land.

The origin continent is very large, but there are only so many suitable for life to live and reproduce.

For the sake of territory, the two camps broke out an unknown number of wars.

In the endless long years of war, the hatred between the indigenous camp and the cultivator camp has reached the point of endless death.

"Gruguno." The tallest figure in the shadow, with two thick horns faintly on his head, said in a hoarse and majestic voice, "Those cultivators, where are you going?"

Grugno is the most adept at reconnaissance and tracking in the clan tribe of their tribe.

Even if it is the same ancient clan, but the ancient clan also has many royal clans, big clans, ordinary weak clans, and the clan is divided into countless clans and tribes.

Each ancient race may have different bloodline talents and different abilities.

In the ancient clan, dozens of royal clans, many large clans, and clans grew and split from the royal clan.

The aboriginal life named Gruguno has a big head, six pointed ears, and a long neck. Compared with other black figures, the body is much thinner and looks a bit like an upright mouse.

It flew around the battlefield cautiously, and then pointed in one direction, "They went over there, and the time was a day ago."

The natives in the dark fog started to talk.

"Isn't there Tiangong Valley?"

"The people of the Tiangong tribe are preparing to hunt a large army of practitioners there. It seems that there are several saints sent by the royal family there, and the priests and generals don't know much."

"If those cultivators really dare to go anywhere, most of them are dead."

The tall and burly aborigines glanced at their companions. "Since they have gone to Tiangong Valley, we don't have to chase them. Let's go and hunt other practitioners."

"Go, let's go!"

"For the great ancient ancestor!"

"Dedicate the lives of those practitioners to the ancient ancestors!"

Other indigenous beings were also murderous, their eyes full of fierce light, and they roared.

The ancient ancestors are the recognized source of all indigenous life and their common belief totem.

...

The origin continent is vast and vast, nurtured by the mysterious origin, there are various natural environments.

"Huh?" Wang Yi sat in the Tongtian Tower, looking up at the purple clouds in the distance.

Under the clouds, there is a violent airflow and ice and snow mixed in the airflow.

"Clap clap clap..."

The ice and snow hit the tower, making a crisp sound.

Wang Yi's mind was always connected to the Tower of Babel, and he could clearly feel that every piece of ice and snow was as powerful as a sixth-level attack.

Just one or two pieces alone.

And in front of me... is boundless snow and ice.

The tens of thousands of light years that Wang Yi could see were filled with storms and ice and snow.

"Here, the spatial fluctuations are destroyed in such a mess that they can't even teleport, they can only rely on flying to traverse."

Wang Yi calmly looked at the wind and snow outside, sitting on the throne, drinking fine wine, with a cat-like Chi Li curled under his feet.

"Woo~~" The white fluffy Chi Li yawned lazily. There was also a jade basin in front of him, and the basin was also filled with mellow wine.

Wang Yi really kept this true \*\*\*\* Chibi as a pet.

An ancient ship and a palace in the shape of a black iron tower braved the wind and snow.

"Brother Jiujiang, this Ziyun Icefield covers an area of more than one trillion light-years. Because there is no way to teleport, even if we go directly through it, it will take almost ten thousand years." Jiang Hu's voice came over. "Moreover, we have to avoid some dangerous places in the Ziyun Icefield, which will take even more time. I'm afraid it will take 20,000 to 30,000 years."

Wang Yi nodded.

The wild land is more dangerous than the cultivator's territory.

Like this Ziyun Icefield, it's just the most common place.

Among them, there are not many dangers that can threaten the Eternal True God, and it is enough to avoid them carefully.

Wang Yi looked at the snow and ice raging and whistling outside. Some creatures were faintly swimming in the purple clouds surging like turbulent sea water. Inadvertently, a horn of scales and a tail could be seen.

The Ziyun Icefield is the safest in the periphery and the most dangerous in the center, where the power of the ice storm has been able to threaten the Void True God.

And there's some terrifying life lurking in it.

For example, some powerful beings naturally bred here, such as indigenous peoples.

"After passing through here, you will reach Tiangong Valley, and the fascination is still far away." Wang Yi sighed.

The origin continent is too big, and it takes a long time to travel.

Hundreds of epochs are normal at every turn.

In the depths of the Ziyun Icefield, in a vast hall beneath the ground. One after another silhouettes are shrouded in the black mist, and these silhouettes are densely distributed in a circle, each with a terrifying and vast aura. These figures are mainly divided into three categories, one of which is humanoid, some show hair and scales, some wear armor and robes, some are no different from humans, and there is almost no difference in appearance, and some just have a rough human figure with a ferocious and terrifying appearance.

One is the non-human form, like strange-shaped beasts, there are all kinds of appearances.

The last category is the strange existence composed of distorted light and shadow and fog, constantly changing shapes, and vague and strange magic sounds emanating from their bodies, causing circles of ripples in the air.

The core of the crowd was a burly unicorn with red skin. He had a pair of blood-red eyes, but his eyes were as calm and gentle as a lake.

"This time, all the tribes around Tiangong Valley will act together, gathering countless elite warriors, as well as the saints sent by the royal family, the purpose is to destroy the cultivator's Jiuxiao Legion! At least one of them must be destroyed!"

The red-skinned strong man looked around, saw the murderous aura in the eyes of the clansmen, and nodded with satisfaction.

"Although we don't act with the big army, we also have our own mission, that is, to hunt down the practitioners who appear nearby as much as possible, and as long as we find it, we will not let anyone go!"

"This is our hunting ground!"

The red-skinned burly man shouted loudly.

"For the glory of the ancient ancestors!"

"For the glory of the ancient ancestors!"

All the indigenous life shouted frantically together.

"Ancient ancestor is above, bless us to win this battle!"

In an area that is extremely far away from Jiuxiao City, there is a towering temple suspended in the clouds, surrounded by vast and countless cloud life flying around the temple, roaring one after another, echoing in the clouds, this is a place that practitioners cannot reach.

A tall statue is enshrined in the temple, and under the statue is a powerful man with a mighty aura.

"The saints gathered this time hope to wipe out the cultivator legion." A pair of dark-winged natives behind one of them said in a low voice, "We spent a lot of time planning, through the spies who infiltrated Jiuxiao City, to release the unintelligible. Few fake news and sacrifice a lot of clansmen to let the legion of Jiuxiao City go deep into Tiangong Valley."

"Our purpose is not a legion of Jiuxiao City, but the city lord of Jiuxiao City." The voice of Yuyi Aboriginal Life was cold. "If the plan is normal, the deity of City Lord Jiuxiao will appear. Several of our saints join forces to kill City Lord Jiuxiao with the fastest speed, without giving the opponent a chance to rescue!"

"We have seven saints here. Among them, the Moze saint and the Netherfire saint are no worse than Jiuxiao City Lord, and the White Spider saint is better at siege. It is still possible for us to join forces to kill Jiuxiao City Lord!"

The indigenous powerhouses present all started to discuss.

The saint among the indigenous people... corresponds to the chaotic master of the practitioners, called a holy existence!

Whether it is a native or a cultivator, the number of powerhouses who have reached the Chaos level is very rare, and every loss of one is a great loss.

Killing the Eternal True God, even if thousands of them die, is not as good as the death of a Chaos Lord.

"For this plan, our king will also attract the attention of the cultivator's \*\*\*\* king, so that we can make a smooth shot. The king even handed over important treasures to us, just so that this killing plan can be successful!" Life said, "If it can be successful, it will be a huge blow to Jiuxiao City!"

Another indigenous saint with vines and green leaves on his body sighed: "You must admit that the masters of practitioners are generally slightly stronger than our saints. They manipulate the laws and fight more bizarrely and unpredictably, while we are Relatively stupid."

"Even if we take advantage of the number of people, we can't be careless. City Lord Jiuxiao is very powerful, and he is also very famous among the cultivators' Chaos Lord. We alone have no one or two who are his opponents."

"Go all out, once you make a move, you will kill!"

...

In the vast and vast Ziyun Icefield, the sky and the earth are full of violent storms and snows, and even the Void True God will be restricted from moving here.

A pair of eyes in the snow suddenly opened and looked at the sky.

"There are fluctuations!"

It just lay there quietly.

Soon, a ship and a black palace appeared in the snow.

"Cultivator!"

When he saw it, there was a trace of cold killing intent in his eyes. "The practitioners are here, and I have to tell the priests immediately."

However, Wang Yi in the palace and Jiang Hu and others in the ship did not notice it.

Apparently, that life was hidden so well that it was even part of the snow!

Wang Yi and others continued to fly forward, and it would take a lot of time to cross this ice sheet.

While Wang Yi was controlling the flight of the palace, most of his mind was comprehending the secret method.

When palaces and ships fly over a field of snow.

all of a sudden—

The vast wilderness below, rumbling~~ The endless expanse of the surrounding land suddenly 'stands up'. If the distance is far enough, you can see that the huge land erected is actually a towering giant sitting up, His massive upper body even plunged right into the clouds.

When it sits up, it opens its mouth, its mouth is dark and unfathomable, and it bites towards the ship and palace ahead, fast and violent.

"What is this?" Jiang Hu in the ship sat up from the blond woman with butterfly wings in fright. UU reading [www.uukanshu.com](http://www.uukanshu.com)

At the same time, Wang Yi noticed the situation outside, and his eyes flashed coldly.

"field!"

"A thought of chaos!"

"boom-"

A small universe quietly emerged, endless chaotic airflow and gray light were born out of thin air, covering the area of tens of thousands of light-years!

In this area, only a part of the giant's body is contained in it, and it can be seen that this giant's body is huge.

However, Wang Yi immediately discovered that there were many powerful and murderous auras underneath.

The original violent breath that was different from the life of the cultivator's divine body reminded him of a name.

"Aboriginal?"

#### [Chapter 854: Die!](#)

When the towering giant sat up from the ground and opened its mouth to swallow Wang Yi in the direction they were in, a powerful suction also came from the abyss-like mouth, acting on on ships and palaces.

"What a strong suction." Wang Yi, who was controlling the Tongtian Tower, felt a little surprised by the huge attraction.

"You can't stay in the palace, it's too passive."

Wang Yi flew out from the Tongtian Tower, and Jiang Hu and Yan Li also came out of the ship not far away, but he didn't see the other team members. It seemed that Jiang Hu was worried that they would not be able to cope with the current situation and left them behind.

When Wang Yi and the others came out, it was even more terrifying to face the suction, as if the entire space was pulled in, and ripples were formed in the area of tens of thousands of light years, just like a dragon sucking water, while Wang Yi and the others were in the center of the whirlpool. They were sucked and flew towards the abyss.

Wang Yi and the others even had to burn divine power to resist this suction.

Wang Yi looked at the endless giant that was tens of thousands of light-years tall. The other party's breath was very strong, but it should still be within the range of the eternal true god. If it was the master of chaos, they could not resist it at all.

Although the swallowing of the majestic giant did not swallow Wang Yi and the three of them, it also had the effect of blocking, and powerful breaths rushed towards them.

Those figures are filled with a chaotic atmosphere, and at a glance, they know that they are indigenous life.

Humanoid beings wear rough armor and robes made of unknown materials, and hold weapons such as wood, stone, metal, and beast teeth and bones, while non-humanoids directly use their own bodies as

weapons. The special existence like light and shadow like fog appears and disappears in the space, it seems that they can be integrated into the space, even if Wang Yi relies on the winged treasure and the small universe to control the time and space, he can hardly grasp their traces, which is very strange.

"Kill, kill all these practitioners!" A horned strong man with red skin and muscles like steel roared with murderous expression, holding a stone axe in his hand.

"Jiujiang, it seems that we have been ambushed by the indigenous people." Jiang Hu's face was solemn. "This is your first time in the Wilderness. You must be careful with these natives. Although their cultivation methods are crude, some of their methods are very scary and strange. Don't be careless."

Before Wang Yi spoke, the lofty giant standing in front of them like an ancient magic mountain seemed to realize that swallowing was useless, closed his mouth, and slowly opened his eyes, these were eyes with golden pupils, cold and ruthless. Full of murder. Staring at Wang Yi and the others, his eyes were full of killing intent, and he let out a low roar: "Death!!" Its roar rumbled across the world, and even generated an invisible shock wave that was continuously transmitted, and the space even directly generated some gaps. "Boom." The towering giant with a height of 10,000 light-years waved his right palm. The blockade of Wang Yi's chaotic airflow and small universe was torn apart, and they came to Wang Yi's area in an instant.

Wang Yi and the others also felt a strong pressure coming towards them.

"It's so fast!" Wang Yi and the others had a thought in their minds, it was unbelievable that they had a huge body that spanned tens of thousands of light years, and the speed of the shots was still so fast.

According to its attack method, tens of thousands of light-years are within its instantaneous attack range, and there is no way to escape.

Like Divine Body Life, the most suitable for fighting is one's true body shape. Although it can become larger or smaller, it will eventually affect one's combat power.

And the size of the towering giant was originally so big, so it was able to explode such amazing destructive power.

The aboriginal beings such as the red-skinned one-horned strong man at the back saw it and were amazed. "Xianfu really deserves to be a bloodline member of the Tai God Clan, one of the strongest branches of the royal family. Although it is only the Eternal True God level, but relying on that innately powerful body, the ordinary Eternal True God level will be crushed when facing them."

"Let's go too, kill those practitioners, don't let them escape."

Faced with this vast blow, Wang Yi and the others also responded.

Wang Yi's divine body suddenly soared to a height of ten light-years, although compared with the towering giant, it still looked like an ant under a giant.

Wow~~ The colorful streamer flowed quickly, covering Wang Yi's whole body in an instant, and in an instant, Wang Yi turned into a gorgeous golden human-shaped armor, with eight sword-like wings behind him, each of which exuded light of gold, wood, water, fire, earth, wind, thunder and lightning. The source law fluctuates... and on Wang Yi's head, there are eight radiant "eyes".

"Burning divine power! Seventh level!"

boom! The burning of divine power accelerated, Wang Yi's strength suddenly increased a level, and a stronger power burst out!

The third power of the Eight Discords, directly motivated by Wang Yi. On Wang Yi's head, eight radiant "eyes" shine brightly. The breath on his body is also very powerful.

The eight pairs of sword wings on the back hummed and trembled.

Gold, cyan, red, purple, yellow, blue... One after another streamer, a total of eight beams of light erupted from the wings behind Wang Yi's back, interweaving into a circular shield in front of him, and the eight source powers passed through the secrets of the Eight Discords. The lines are perfectly combined, allowing its defense to reach an incredible level.

"Peng!" The huge slap that spanned hundreds of light-years slapped the shield fiercely, and the invisible force caused violent spatial ripples in the area of 10,000 light-years. As a result, the slap was bounced off.

"What?" Jiang Hu, who was preparing to fight hard nearby, and Yan Chen, who had turned into a sea of fire, were shocked when they saw this scene. They didn't expect that such a terrifying blow was actually blocked by Wang Yi alone.

"What?" The same exclamation came from the indigenous life.

The complexion of many indigenous life has changed.

"Actually blocked the attack of Chun Fu from the front? And it seems that Chun Fu has been shaken away?" The red-skinned one-horned strong man also showed a shocked expression.

Although the attack of this clan is not to say how subtle, but it is stronger in strength.

There are not many eternal true gods who can win it with a dignified crush.

The Eternal True God seems to be different from the practitioners he has seen before.

Many thoughts flashed through my mind quickly.

Immediately, the red-skinned strong man shouted coldly: "But it's only strong on defense. Let's all take action together, and cooperate with Hua Fu to destroy them."

And Wang Yi also felt the impact of the collision just now.

"This attack power is definitely at the level of 17th-order." Wang Yi looked at the majestic giant who was in a rage and leaned over to slap again in amazement. "In addition to its size, strength, and speed, it is really difficult for ordinary eternal true gods to compete with it. Unfortunately, you met me."

At this time, the voice of the red-skinned strong man also came, "Stronger on defense?" Wang Yi, who was fighting against the giant mallard, also tilted his head slightly when he heard the words of the aboriginal life. "Just don't rush to run later."

The towering giant seemed to be enraged by Wang Yi. Using all his strength, he smashed with a ferocious and violent punch, and the entire space was directly smashed into pieces by this powerful punch. The space in the area of 10,000 light-years was shattered like fragile glass, and the originally stable space of the Origin Continent was somewhat unbearable in the face of this level of power.

It's just that the origin continent is too big, whether it is tens of thousands of light-years or hundreds of millions of light-years, it doesn't matter.

"The divine body is so great?" Wang Yi showed a sinister smile.

The size of the body of God does not mean that the power is stronger.

Maybe the same level can be consumed.

But if a chaotic master with a height of one million kilometers and an eternal true \*\*\*\* with a height of 100 million light years are to fight, the former will definitely kill the latter.

An attack that shreds your body, or directly shatters your true God's heart, and you can't die any longer.

Endless flames surging around appeared, it was Wang Yi's realm-class eternal true god-level treasure, oppressing and restraining the attacking fist.

The power of the small cosmic source of the Eternal True God with a diameter of 100 billion light-years! Winged Chaos Time and Space! Flame Field! Triple oppression!

When Wang Yi used his wings in the Chaos Domain and the small universe before, the attack speed of the towering giant's indigenous life had been affected, but he was too large to look obvious. The speed of the fist that covered the sky began to drop sharply.

Speed drops! The power also drops!

The majestic and majestic giant feels obviously "sluggish".

call. The scarlet-red sword in Wang Yi's hand suddenly slashed out, and the sword crossed a beautiful arc, with the terrifying aura of destruction of the universe, instantly generating a terrifying vortex of gravity that attracted the giant's fist. The knife light skyrocketed to tens of thousands of light years!

The majestic giant sensed the dangerous aura and let out an earth-shattering roar, his body lit up with dense snake-like lines, chaotic airflow surging, his body swelled again, his muscles bulged, and his breath also rose.

Fist and knife light collide.

The forces on both sides are colliding. The power contained in that fist was instantly destroyed frontally.

"Boom!!" A terrifying power suddenly erupted. The terrifying explosive power erupted from the battlefield, and the power was far beyond the peak of the normal eternal true \*\*\*\* level. Strictly speaking, it should be regarded as the limit level of the eternal true \*\*\*\* level.

The power of ultimate destruction contained in the knife light is rapidly infiltrating, and the body defense of the towering giant is almost ineffective in the face of this infiltration.

This is Wang Yi's sword to destroy the source and enter a new realm!

The sharp knife light full of destructive aura unstoppably cut open the fist of the towering giant, cut into its huge body, and created an extremely terrifying huge wound. The blood fell like a downpour, and the whole world was blood red.

The towering giant stepped back and let out a painful roar.

Its vitality is unbelievably strong, and the flesh and blood in the wound is entangled and quickly recovering, but the destructive force that Wang Yi has penetrated is not simple, preventing it from recovering.

"Is it hurt?" Aboriginal life such as the red-skinned one-horned strong man turned pale in shock.

Wang Yi and the majestic giant fought too fast, even if they tried their best, they couldn't intervene.

There was a hint of joy in Wang Yi's eyes.

"I broke through the realm of swordsmanship?"

Originally, Wang Yi's swordsmanship was only the top sixteenth rank. Stay for hundreds of billions of years.

But now fighting against the majestic giant, it is a natural breakthrough.

Countless years of accumulation have turned into a source of breakthrough at this moment.

Seventeenth-order, only need to go one step further, is the limit of the eternal true god.

"Thank you for letting me break through, in order to express my gratitude. I will make you die happily." Wang Yi looked at the majestic giant in front of him and waved his sword again.

The secret technique level has reached the seventeenth rank, and with the blessings of the divine power burning secret technique, the Eight Discords, and the realm, Wang Yi's attack has completely reached the eighteenth rank and above. In terms of attack alone, he has surpassed the towering giant.

Hit hard? He is not afraid. Can an egg touch a stone?

One after another, thousands of light-year-high sword lights slashed towards the towering giant like lightning, full of killing intent.

Divine power was consumed frantically, but Wang Yi still had fierce eyes.

kill!

"No, let's go and help Chu Fu!" Those indigenous lives finally realized that they had hit the iron plate.

The Eternal True God is stronger than they thought, and even the fierce Fufu will be defeated.

Hua Fu is a great power among them, how could they just watch Hua Fu being killed.

More than ten aboriginal powerhouses of the eternal true \*\*\*\* level all rushed up.

And because of Wang Yi's amazing performance, Jiang Hu and Yan Qi, who were in a daze, also discovered the actions of the indigenous people.

"The natives are here, let's help." Jiang Hu and Yan Qi also went all out.

However, the natives ignored them, and only separated two companions to contain Jiang Hu and them. Their target was still the terrifying Eternal True God cultivator who was attacking Huafu.

One of the arms of the majestic giant Shufu has been chopped off at the root, and even the flesh and blood have been corroded by the destructive force, so it cannot be taken back. Although he wants to regenerate, he is also affected by the destructive force of the wound, and the majestic giant roars in a hurry.

Seeing those natives rushing over, Wang Yi's eyes were cold. "Want to hold on until your companions save you? You think too much, go to hell!"

The majestic giant kept retreating, it did not dare to give its back to Wang Yi, it could only retreat while resisting, and the blood rained. The giant's body was cut over and over again by the knife light, leaving shocking wounds.

A few distorted silhouettes like mist and light and shadow suddenly appeared around Wang Yi, and they all screamed.

"Woooooo~~" The sound wave passed along the space, and the sound kept reverberating.

The terrifying magic sound spread, filling the area of millions of light-years. UU Reading  
[www.uukanshu.com](http://www.uukanshu.com)

Even \*\*\*\* gourd and quinoa are affected. That magic sound wave just drilled into the body and drilled into his soul. I feel my body sinking. The feeling of weakness immediately permeated the whole body and the whole soul. I was so tired that it seemed that it was difficult to take the second step.

But Wang Yi didn't seem to hear it, the right hand holding the knife didn't stop, not even for a moment, and suddenly swung it out.

The dazzling knife light interprets the ultimate beauty.

Under this knife, the surroundings became chaotic and fuzzy, but just looking at this knife, my thinking seemed to slow down.

From the forehead to the bottom of the towering giant, there is a long crack, and the crack extends all the way to the void behind it.

The majestic giant's mutilated left hand wanted to grab it forward, but it couldn't catch anything.

"No!" The red-skinned one-horned strong man saw that his eye canthus was cracked!

[Chapter 855: He has to die!](#)

The death of the giant shocked the natives.

"how come....."

"The mallard is dead."

"Killed by that cultivator."

The aboriginal powerhouses were angry and frightened.

Hua Fu's strength can be said to be at the forefront among them, relying on his body shape and racial talent, even a group of eternal true gods can hardly kill it.

However, he was killed by that cultivator in such a short period of time!

The red-skinned one-horned strong man also stared at Wang Yi, as if a flame was burning in his eyes.

He was not only angry that his companion was killed, but also shocked by Wang Yi's terrifying strength.

"If you can easily kill Xiaofu, this cultivator's strength should be close to the master of chaos, right?"

"The treasure on his body is also very special, and it actually suppresses so many of us."

In fact, the reason why the indigenous powerhouses did not have time to rescue was also related to the suppression of the domain.

The suppression greatly reduced the speed of most of them, and only the light and fog natives with special life forms could attack Wang Yi like a ghost. Unfortunately, their soul attack was useless to Wang Yi, who had treasures to guard his soul.

"it is good!"

"The native was killed!"

Jiang Hu and Yan Li, who were fighting fiercely with the two natives, also saw Wang Yi kill the mighty giant native life. A catastrophe.

After solving the huge aboriginal life that was most in the way, Wang Yi turned his attention to other aboriginal people.

"It's your turn." His eyes were cold.

The three misty indigenous people who lurked near Wang Yi realized that it was not good.

Their figures disappeared instantly and disappeared into the void.

"It seems to be the origin of the void?" Wang Yi's eyes flashed strangely, and he thought to himself, "And he is also good at attacking the soul. The methods of these natives are indeed very strange, and even I almost didn't find their traces."

"Unfortunately, your speed is still too slow."

Wang Yi frantically burned divine power, urging the higher power of the mechanical treasure of the Eight Discords on his body.

Wang Yi's realm has once again broken through, and his control over the "Eight Disagreements" is even more terrifying.

The fourth secret pattern of the 'Baqi Sage' was inspired by Wang Yi!

The eight pairs of sword wings on Wang Yi's back trembled violently, buzzing, and mysterious patterns lit up. A dazzling light bloomed from Wang Yi's body, covering the entire area of tens of thousands of light-years.

A destructive force pervades the area.

"Not good!" A strong sense of crisis rose in the heart of the red-skinned one-horned strong man. He took out an unknown beast bone head from his body and roared, "Quick, get close to me!"

Those indigenous beings are frantically approaching the unicorn.

"Boom!" The vast fluctuations appeared as if the universe had fallen into the final catastrophe.

The area of tens of thousands of light-years in the radius suddenly 'collapsed', forming a pitch-black abyss where everything was swallowed up.

"Ah ah ah..." A powerful tearing force came, and no matter what means the indigenous life used to escape, they fell into the abyss of destruction, and their bodies were mercilessly torn apart.

Those misty beings who escaped with the help of the void were also pulled out, screaming in despair, and their bodies were instantly annihilated.

This is the true power of the fourth secret pattern of Wang Yi's 'Sage of Eight Discords'! Fully reach the level of chaos master! And it is a large-scale killing that instantly spreads over tens of thousands of light-years.

Every corner of the tens of thousands of light-years area, except where Wang Yi and Jiang Hu are two teammates, has become a dead zone.

And Jiang Hu and Yan Qi were also scared to hide in the warship, looking at the dark abyss of destruction outside.

They believed that if they stayed outside, they would be as ashes as the natives.

This kind of power has far exceeded the level of the eternal true god.

Wang Yi was also a little surprised by the power of the Eight Discords, but even more surprised by the speed at which divine power was consumed.

"Using this move alone, the consumption of divine power is terrifying."

The darkness came and went quickly, revealing a blank area.

The area of tens of thousands of light-years was as clean as if it had been wiped with a rag, except for the one ship that Wang Yi and Jiang Hu were in.

"Huh?" Wang Yi looked forward, there was a huge animal skull, and there was a cold light in Wang Yi's eyes. "There are still survivors."

Wang Yi is not surprised by this, hiding in the palace treasure can indeed resist the attack of the Eight Discords.

Although the power of the Eight Discord Saints has reached the Chaos Master level, it is not so easy to destroy the treasure of the Eternal True God-level palace.

However, Wang Yi also felt that few indigenous people could survive.

In the head of the beast, the red-skinned one-horned strong man was sweating profusely, and his face was ashen. There were also two natives who had escaped by chance, and they were also terrified.

The crisis came too fast, and even a single-horned strong man could not bring in more companions.

"Dead, so many clansmen died." The red-skinned one-horned strong man was going crazy.

Originally, he brought out thirteen clansmen, plus him, a total of fourteen eternal true gods.

But now, there are only three left, including the majestic giants with special bloodline talents who have been killed.

The loss is too heavy, even if he is a priest with a relatively high status, as the leader of this team, he also needs to bear great guilt.

"How could that Eternal True God have such a terrifying means of attack!" The unicorn strong man was still a little trembling when he thought of the scene that destroyed the world just now.

"Sacrificial Lord, what should we do?" The two indigenous strongmen who survived looked anxious.

They have been frightened by the power of the cultivator on the opposite side, and dare not stay any longer.

"Don't panic!" The red-skinned one-horned strong man let out a low growl. His red eyes were even more blood-red, and he looked very ferocious. "I have already asked for help from the clan. As long as I stick to it for a while, reinforcements will come soon!"

"As long as we stay in this head and hold on, we can wait for rescue!"

The two indigenous strong men calmed down when they heard the unicorn strong man say this.

"Yes, with this head, the practitioners can't do anything about us."

"We can definitely wait until reinforcements arrive."

They breathed a sigh of relief.

The crimson-skinned one-horned strong man looked out, showing a trace of grimness, "If that cultivator dares to stay, he won't be able to leave when we arrive."

When Wang Yi saw the motionless head of a beast, he knew the thoughts of the indigenous people.

"Want to hide in the head?"

Wang Yi frowned slightly.

This is indeed a bit of a hassle.

It's like the Lord of Heavenly Wolf, who does not even have a third-order strength in the original universe, can rely on a high-level palace treasure to be able to traverse the universe, so that the Lord of Chaos City and Lord of Galaxy, which is far stronger than it, can't do anything about it.

In the Origin Continent, although there is no limit to the power of the strong, you can use your strongest strength to the fullest, but it is almost impossible to break the treasure of the same level palace.

Even some high-level eternal true god-level palace treasures are completely able to withstand the attack of chaos masters without breaking.

The Eternal True God is hiding in the palace warship, and it is a little troublesome for the Chaos Lord to kill them.

But it's just a bit of a hassle.

The powerful chaotic master can completely explode the peak power, constantly attack, and can quickly kill the eternal true \*\*\*\* hiding in the treasure of the palace.

Or just suppress the seal directly, and go back and kill it directly.

If he is a master of chaos who is proficient in soul attack or adept at mysticism of will, he can kill the soul and stun the eternal true \*\*\*\* hiding in the palace with a sweep.

Therefore, the Eternal True God is still a stronger ant to the Chaos Master.

Although Wang Yi was able to briefly burst out with power close to the chaotic master level, after all, this power was obtained through the superposition of various means. After all, he was not the real master of chaos.

Moreover, the attack just now also consumed a lot of his divine power, and it was impossible to use that method for a long time.

Otherwise, his enemy may not be killed, and the divine power will be exhausted.

"It seems that we have to find a way to increase the size of the divine body." Wang Yi sighed inwardly.

When you reach the level of chaos domination, in a real battle, every blow consumes a huge amount of divine power.

Even if the powerhouses do not follow the divine body route, they will find ways to expand their divine body size.

Therefore, the divine bodies of Chaos Lords are very powerful. One million light-years of divine bodies are relatively common among Chaos Lords, and ten million light-years are relatively rare, and billions of light-years are not uncommon.

And at the level of the god-king, because of mastering the Tao of the universe, one can basically reach the level of the "endless divine body", and the divine bodies are all billions of light-years in size.

Wang Yi's 100,000 times perfect divine body doesn't necessarily have much advantage at that level.

Wang Yi looked at the head of the beast and thought, Jiang Hu and Yan Li were also watching Wang Yi in the ship.

"Jiang Hu, where did you find such a terrifying fellow? It's the first time I've seen such a powerful Eternal God in Jiuxiao City for so many years." Yan Qi took a deep breath, still having some lingering fears, "I even felt that just now It's like facing a chaotic master."

Wang Yi's "destruction of the abyss" really frightened her.

Faced with this move, even if Yan Qi has his own means of life-saving, he is afraid that he will be severely injured if he does not die.

Jiang Hu smiled bitterly, "I just pulled one at the Skyscraper Hotel in Jiuxiao City, who would have known that he was a master." Jiang Hu did not expect that he was so lucky.

Yan Qi shook his head, "He is so powerful, I don't know what his background is, do you know the purpose of his coming to fascinate Shenze?" Yan Qi was a little worried.

She still has self-knowledge, she and Jiang Hu are not bad in the Eternal True God, but compared with the Eternal True God who is close to the chaotic master-level combat power, the gap is too big.

Even if the other party really wants to kill them, it is not impossible.

Jiang Hu said helplessly: "I asked, but he didn't say. However, I don't think this Jiujiang brother is a bad person."

Wang Yi was suspended in the void, looking at the head of the beast, and finally decided to give up.

Just now, his most powerful attack did not kill the natives hiding inside, and even if he continued to attack, it would not have much effect.

Although he still has 'world beasts' and the army of world beasts, if he really wants to kill them, it's not impossible.

But the world beast is one of the biggest trump cards on his body at the moment other than the Tower of Babel, and it is not worth exposing for a few natives.

"Brother Jiang, let's go." Wang Yi said to the ship.

"Brother Jiujiang, don't those natives kill them?" Jiang Hu couldn't help asking.

Wang Yi said: "If you don't kill it, let's go quickly. I suspect that those natives have already sent messages to their own people, and I am afraid that more natives will come over soon."

Jiang Gourd and Yan Chen were both nervous. This is a wild, indigenous territory. If it is entangled by the indigenous people, it will be dangerous.

"Then let's go." Jiang Hu continued.

Wang Yi looked around, waved his hand, and the power of the origin of the universe condensed one big hand to take away the things left by the dead indigenous powerhouses. is good stuff.

Then, he and Jiang Hu left immediately and quickly.

The one-horned strong man in the head of the beast saw this scene and wanted to catch up, but Wang Yi and the others ran too fast, and they soon disappeared.

The unicorn man growled in anger.

"Ancient ancestors are on top, as long as you are in the wild one day, our clan will definitely smash your corpse into ten thousand pieces!"

...

In the Ziyun Icefield, in the boundless snowstorm, a black tower-shaped palace and ancient warships are flying fast.

"Thanks to the Jiujiang brothers this time, otherwise we would be in danger."

Inside the Tongtian Tower, Jiang Hu and the others' divine powers arrived, looking at Wang Yi gratefully.

Jiang Hu said that he was a little scared.

Those natives had planned to ambush here. If they attacked suddenly, the difference between the strength of the enemy and the enemy is huge, and they cannot escape. I am afraid that they may all die here.

"Since we are all companions, we should walk hand in hand and help each other." Wang Yi smiled.

A banquet was set up, and everyone gathered around to drink.

Jiang Hu also slammed Wang Yi's purpose of the trip. Seeing that Wang Yi did not explain it, he did not dare to ask more questions. After that, he kept thanking him repeatedly, and was a little flattering. His attitude was very different from before.

When practitioners get along, strength determines everything.

Even Jiang Hu felt that, with Wang Yi's strength, he should be a high-level leader of a big power, even a prince of a certain country, he would not be surprised.

Some ordinary countries, with the chaotic master-level combat power, are indeed eligible for the title of Marquis.

When Wang Yi and the others were having a banquet, in the distant Tiangong Valley, on a cliff, stood a continuous temple, and there were also magnificent ancient statues. Countless grotesquely shaped indigenous life walks here.

In one of the temple buildings that looked like the head of some kind of alien beast, a huge alien beast was lying in the air, with chaotic airflow lingering, and his eyes seemed to be endless.

"You said that Baer's team encountered an eternal true \*\*\*\* cultivator and suffered heavy losses?"

"Yes, the great witch tapir." The aboriginal priest, who was wearing a golden robe that looked noble and delicate among the natives, knelt on the ground, respectfully. "We have confirmed that in the Bar's team, except for Bar and the other two clansmen, the tokens of life imprints left by the others in the temple have been broken, proving that they have fallen."

"Ba'er, they are fourteen Eternals! They were killed so quickly by a practitioner!" Chaos alien beast made a deafening sound. "If you want to achieve this step in the eternal true god, I am afraid that the eternal true \*\*\*\* will not be able to do it! Only the chaos master level combat power is possible!"

"Or, the other party is the Eternal True God who is extremely enchanting! Comparable to the Chaos Master!"

"Either, it is the eternal true \*\*\*\* who is the master of chaos in disguise!"

"No matter what, he has to die!"

#### [Chapter 856: 9 Xiaocheng Lord](#)

The Tiangong Valley stretches for trillions of light-years and is vast.

On the periphery of Tiangong Valley, in a rolling mountain forest, huge white ships are dashing forward. Each ship is tens of billions of kilometers high, a bit like a flying saucer-shaped spaceship. This warship is a real mobile fortress, which is used to conquer cities and lands. The value of this warship is much more precious than the treasures of the ordinary Eternal True God Palace. This is the standard warship of a powerful country in the origin continent.

As soon as the warship came out, all areas that were millions of light-years away from it were frozen and blocked in an instant!

Bright beams of light were continuously shot from the main gun muzzle of the spacecraft, bombarding the mountains and forests below, often a beam of light, that is, the area of hundreds of thousands of light-years was destroyed, and some surviving natives escaped from stealth. He was killed by the secondary artillery of the ship.

Explosive waves are everywhere.

And gradually deep into the Tiangong Valley, a thick fog gradually appeared.

In the depths of the thick fog, the boundless indigenous creatures gathered into an army like the ocean, standing in the thick fog.

The breath of countless powerful beings condensed together, and the coercion seemed to make this area completely stagnant.

"Woo~~~"

The loud and powerful horn sounded from behind.

Then all the native creatures moved.

The endless indigenous warriors roared, rushing out of the thick fog and killing those majestic mechanical warships.

The Nine Clouds City Legion on the 'Glazed Light Ship' also found the indigenous army and immediately opened fire with all their strength.

There are spaces inside the ship, and each space has a large number of true gods. Millions of true gods burn their divine power at the same time, pouring them into the secret patterns, and the dense secret patterns light up. With the Glazed Light Boat as the center, a huge sphere suddenly appeared out of thin air. Shadow, the phantom of the sphere is densely populated with countless secret patterns, and this formation formed by complex secret patterns is extremely mysterious!

This spherical phantom is a million kilometers in diameter! The moment it appeared, it frantically plundered all the energy between heaven and earth. Almost in the blink of an eye, the phantom of a sphere with a diameter of one million kilometers turned into a dazzling ball of light. With a powerful coercion, with an earth-shattering roar, a dazzling beam of light with a thickness of one million kilometers flew out of the warship and shot towards the distant sky at an incredible speed far exceeding the speed of light. Indigenous army.

The indigenous army was also divided into arrays. Tens of millions, hundreds of millions of indigenous warriors roared, and the massive chaotic energy condensed together and turned into a huge shield to resist the bombing of ships.

At the same time, there were also gray spears with a length of hundreds of millions of kilometers that swept through the rear like lightning and shot at the towering warships.

Some spears were intercepted on the way, and some broke through the blockade and stabbed directly on the shield of the Glazed Light Ship.

"Boom..."

Terrifying energy fluctuations swept the entire battlefield, and a huge war broke out between the cultivator army and the indigenous army.

"Kill, kill these natives!"

"Kill, kill these hateful practitioners!"

Although the indigenous army was numerous and powerful, it did not rush over in a chaotic swarm, but formed a formation, or elite soldiers formed a small team, scattered and killed the Nine Clouds City Legion.

The Nine Clouds City Legion and the indigenous army fought wildly together.

And this is just an inconspicuous one in the countless wars between a legion and a native tribe in Jiuxiao City over hundreds of millions of years.

At least on the surface.

There are many small birds-like machines beside the hundreds of huge 'Glazed Light Ships'. They are the famous 'Eagle Fish' in Jiuxiao City and one of the most powerful war machines in Jiuxiao City. At least a hundred true gods are needed to motivate them. It can accommodate up to a thousand true gods. Not only is it fast, it is flexible, and its defense is extremely strong. It is an extremely effective machine in large-scale wars. It is like a fighter aircraft guarding the main ship, shuttles around, and pays attention to the surrounding environment for the Glazed Light Ship. At the same time, it is also dealing with the attack of the natives.

In the rear, there are also a group of towering figures exuding extremely powerful breaths, which are the Eternal True Gods and the Void True Gods.

They pay attention to the situation on the battlefield, are ready to take action at any time, and discuss at the same time.

"Those generals and priests from the Tiangong Department have not come out yet."

"Then kill more of their soldiers, this time the Tiangong Department will suffer heavy losses."

The Eternal True God-level generals are relatively relaxed, and the Void True God-level commanders follow.

For such a tribal-scale expedition mission, Jiuxiao City did not know how many times it was carried out over the long years, and it was relatively easy.

At most, some Void True Gods will fall, and even Eternal True Gods will rarely fall.

Because the Lord of Chaos generally does not appear on this kind of battlefield, the indigenous saints are all in the depths of the wild. If they appear outside, they may be targeted by the super existence of the practitioners.

Among the group of eternal true god-level powerhouses, there is a young man with a handsome face wearing a mighty golden armor with a red cloak at the center.

His breath is not the strongest among the crowd, but the other generals are very polite to him.

"Hmph, is this the aboriginal? But that's it." The golden-armored youth said disdainfully.

"What the young city master said is very true, how can the natives be our opponents of Jiuxiao City, and sooner or later will be eliminated by us." An Eternal True God of alien beasts smiled.

"This time, the young city lord personally led the army to go on an expedition. It is also an easy thing to destroy the Tiangong Department."

"The young city lord has been practicing in our King Bulong. I don't know how profound the secrets of practice are. After the battle, those natives will be eye-opening."

Those eternal true gods spoke up one after another.

A smile appeared on the young man's face.

He, as the son of Jiuxiao City Lord, his father Jiuxiao City Lord is the top three great beings in the chaotic masters of Bulong Kingdom, and he is very proud in his heart.

This time, hiding from his father, he also had his own ambitions.

He looked at the fierce battlefield, and his heart was full of fighting spirit. "I can't compare to those evildoers in the capital, but I will definitely become the master of chaos. This barren battlefield is where I rise."

In a place far away from the battlefield, in a shadow where time and space are distorted, huge figures stand in the shadowy void and look at the distant battlefield indifferently. Thriller.

"The fish has already taken the bait, prepare to act according to the plan."

"Let Saint Ge Zhe do it."

A sage who could not see his face said: "Wu Tapir heard news not long ago that there may be a cultivator's chaotic master lurking in disguise. It appeared in the Ziyun Icefield before, and it is very close to us. Let us pay attention to it. Look for the other side's trace."

The Wing Aboriginal said: "It's just a chaotic master, maybe it's just passing by. The most important thing for us at present is to surround and kill the Jiuxiao City Lord and cut off the arm of the Bulong Kingdom Lord."

"But this news can't be ignored, I will let the Void Eye Saint pay attention."

...

On the edge of the dense fog in Tiangong Valley, the war between the indigenous people and the practitioners of Jiuxiao City has reached a fever pitch.

"Kill!"

"kill!"

The Void True God and Eternal True God of the Jiuxiao City Legion are fighting with the strong among the natives.

And there are not many true \*\*\*\* warriors fighting around.

"Kill!" The golden-armored youth also held a long spear and fought with an eternal true god-level native, his eyes were excited.

He is very strong and has many treasures in his body. The native couldn't hurt him at all, but he stabbed wounds on his body.

The golden-armored youth felt his blood boil, and he was dripping with joy.

This is the fight he wants.

"Hmph, those guys from the capital, dare to go to the frontier to fight?"

"I, Gaolang, is the real powerhouse. I will use battle to temper and break through."

The golden-armored youth burns divine power, and the spear wields superbly.

"This indigenous body is too strong, and its vitality is really strong."

Not far away, two eternal true gods were watching him. Help him stop those mighty enemies. After all, they are the children of the city lord, and they dare not let this golden-armored youth have an accident.

The entire vast Tiangong Valley battlefield was in chaos, and people on both sides kept falling.

"Woo~~" A cold voice sounded, resounding everywhere, as if a cold wind was blowing on the soul, making the Eternal True God tremble.

I saw in the distance a skeletonized creature with a stooped waist, with bone spurs poking out of its back, its head like a toad, its eyes without eyeballs, only two eye holes, and there were two dark flames beating in the chaos. . Even standing there, the breath of its almost skeleton body suffocates the eternal true god-level indigenous creature next to it.

As soon as it appeared, it looked towards the practitioner, grinning with a gloomy smile.

"Boom~"

The endless chaotic airflow shrouded the sky with the monstrous coercion.

The entire vast battlefield is shrouded in Chaos Void.

"Bang! Bang! Bang..."

In an instant, I don't know how many bird machines and Void True God were directly killed.

Only the 'Glazed Light Ship' and the Eternal True God can resist.

"Master of Chaos!" Jiuxiaocheng's face changed.

The battlefield that was fighting was suddenly quiet.

The golden-armored youth felt his throat dry: "Isn't it just an ordinary indigenous tribe force, how did a Chaos Realm emerge? Big trouble!"

...

Ziyun Icefield, Wang Yi and Jiang Hu just flew out.

A vibrant greenery appeared in the distance.

"There is Tiangong Valley in front. There is a large indigenous tribe there. We have to be careful and quickly pass through here." Jiang Hu said. "Fortunately, most areas of Tiangong Valley can be teleported directly. As long as we are not found, it is very easy for us to pass through. There are not many dangerous areas through Tiangong Valley, and we can quickly reach the Fascinating Lake."

Not long after advancing, Wang Yi suddenly felt something, and suddenly raised his head to look in one direction.

A chaotic vortex channel suddenly appeared in the void in the distance ahead, and a towering and indistinct figure came out of the channel, then took another step and rushed into the newly emerged vortex channel and disappeared.

This process is only a short moment, but the terrifying and vast aura can be felt from a distance.

"Tear through the chaotic void and advance? Chaos master?" Wang Yi was secretly shocked.

There are many ways to advance in the origin continent. The more common ones are flying and teleportation, and the teleport distance depends on the strength of the small cosmic source of the strong person, and teleportation will be affected by the blocked space, which is not used in many places.

.

And then there's Void Teleportation!

But there is another way, which is to tear the chaotic void to form a chaotic vortex channel, which can reach distant places in an instant.

This method is farther than teleportation and shorter than the teleportation distance. It is a method that can only be mastered by the master of chaos.

Legend has it that the chaotic master masters the law of chaos and the field of chaos, and the combination of the two can tear the chaotic void to form a chaotic vortex channel, which can instantly reach distant places.

Because it is tearing the chaotic void forward, it is not affected by the space blockade!

Jiang Gourd and Yan Qi also saw it, and Yan Chen's eyes widened.

"That's our Lord of the City!"

"The city owner of Jiuxiao City?" Wang Yi and Jiang Hu were slightly surprised.

Yan Li was a general of a legion in Jiuxiao City. He had met the city master of Jiuxiao City before, so it was not surprising to recognize him.

"Isn't the city owner of Jiuxiao City sitting in Jiuxiao City? Why is he here?" Wang Yi asked.

Yan Chen hesitated a little, and shook his head. "I do not know either."

Jiang Hu looked forward, "It seems that City Lord Jiuxiao is going to Tiangong Valley?"

Rumbling~In the chaotic vortex, the city lord of Jiuxiao City is constantly flying. This chaotic vortex channel is a bit like a cosmic channel. There was a touch of coldness and anger in the eyes of the city master of Jiuxiao City. "The divine power clone I left on my son lost contact just now."

City Lord Jiuxiao usually has a clone to handle affairs, and the deity is practicing.

But because he valued this son, he let a clone stand by his side, and he would only appear when his life was in danger.

But just now he discovered that the clone had lost contact all of a sudden.

His clone has a combat power that is close to the chaotic master level.

"Who is it? The indigenous forces in Tiangong Valley, I have never heard of any super existence." Jiuxiao City Lord was shocked and angry in his heart. Worried, his deity rushed over quickly. Jiuxiao City was left to his subordinates to guard.

In the Tiangong Valley, the glazed light boats are retreating frantically, and the Eternal True God is also running for their lives.

Just now the aboriginal chaotic master appeared, and he shot at the young man in golden armor, and other eternal true \*\*\*\* generals were too late to stop him.

Fortunately, the golden-armored youth was guarded by a clone and treasure left by City Lord Jiuxiao, and stopped the Chaos Lord so that they had a chance to escape.

But a desperate thing happened, and then the second aboriginal Chaos Lord appeared. The two joined forces to directly seal the avatar into a void with serious injuries.

The golden-armored youth ran the fastest with the two eternal true gods, relying on the treasure given by his father.

And other eternal gods, UU reading www. Some of uukanshu.com were obliterated by the two Chaos Masters, and all those who survived were so frightened that they ran for their lives frantically, and no one cared about anyone else.

"Father, save me!" The golden-armored youth sent a message to his father in a hurry with the treasure.

"Hehe, I still want to run." The two aboriginal super beings followed behind the golden-armored youth, their speed far surpassed the Eternal True God, and the distance between the two was rapidly approaching.

The Eternal True God Realm, to the Chaos Realm, is obviously only one step, but the gap in strength is even greater than the gap between the 'True God' and the 'Eternal True God'!

"I don't want to die!" The golden-armored youth felt the danger of death.

At this moment, the void was torn apart, forming a huge chaotic vortex, and a big hand covering the sky stretched out from the vortex channel and slapped the two indigenous powerhouses.

A cold voice came from the passage. "You stop me!"

#### [Chapter 857: secret](#)

"The Lord of Chaos actually appeared here, and he is still the city owner of Jiuxiao City." Jiang Hu's face was solemn. "I'm afraid something big will happen over there, but I don't know if it's there in Tiangong Valley."

The three looked at each other in dismay, and the movement of Chaos Lord made them a little worried.

After a brief discussion, it was decided to take a detour for safety's sake.

Although it will take more time, it is better than rushing into unknown risks rashly.

"Brush!" The three of them are all Eternal True Gods. A teleport is a million light years. With their strength, they can perform dozens of teleports in an instant, which is a distance of hundreds of millions of light years. If the road is smooth, it will only take a few days to cross the Tiangong Valley in a straight line.

But the environment of Tiangong Valley is destined that they cannot directly teleport across the past.

Moreover, the spatial fluctuations of teleportation are easily detected by the strong, and they may face the pursuit of the natives at that time.

In some special terrains, even the flight speed will be limited and cannot fly too fast.

Wang Yi didn't know that because of their decision, they directly avoided the battlefield dominated by the terrifying chaos.

In the palace, Wang Yi sat together with the divine incarnations of Jiang Hu, Yanli and others.

"I don't know why, Brother Jiang, you came to Mishenze?" Wang Yi put down his glass and asked.

Fascinating God is not too dangerous, but there are no treasures, and there are natives. Normally, the Eternal True God would not go there if he had nothing to do.

Jiang Hu and Yan Qi looked at each other.

"Since the Jiujiang brothers asked each other, then I will not hide it from you. We went to Mishenze this time mainly for a treasure." Jiang Hu said.

"Treasure?" Wang Yi's heart moved.

Wang Yi originally thought that Wu's treasure had been discovered, but it was wrong to think about it.

"Yes, Brother Jiujiang, do you know the origin of Mi Shenze?" Jiang Hu asked rhetorically.

Wang Yi nodded, Mi Shen Ze has a long history, it existed before Wu State was destroyed, but it was only shrouded in mist at that time, the ancient super existence has not yet fallen here, and has not yet formed a will shock.

Jiang Hu smiled and his expression became serious. "Let me tell you in detail. Before our team took a mission to search for a treasure in Mishenze, but there were actually two other exploration teams who took this mission. As soon as the treasure was found, they killed them halfway, and we just A battle broke out. As a result, an island was found in the water. The outer layer of the island was shattered by our fighting, revealing a palace."

"Oh?" Wang Yi's eyes flashed. According to this description, it is definitely not a treasure left by Wu State, otherwise, how could the location be easily destroyed and discovered by several eternal true gods.

"We all think this palace is a treasure, and we rushed in while fighting. Our side grabbed three tokens from outside." Jiang Hu said, "We have three parties in total, there are nine tokens in total, and a total of nine people can enter. We have three pieces here, so three people, and two and four for the other parties."

"According to the information obtained, only if you hold a token, you can move safely inside the palace, otherwise you are prone to danger. The Eternal True God can't guarantee his own safety." Jiang Hu said.

Jiang Hu looked at Wang Yi with scorching eyes, "Brother Jiujiang, how are you, are you interested in going in together? This is at least the cave dwelling left by the Chaos Lord, and it is most likely the one who fell in the Fascinating Lake in the ancient times. , the cave dwelling he left behind, even if it is only a part of the treasure, is a huge wealth to our eternal true god."

"A cave dwelling left by a chaotic master, there may be many dangers in it. Are you afraid of death when you go in?" Wang Yi looked at them.

Jiang Hu said: "Wealth and wealth are in danger, isn't the treasure of a chaotic ruler worth our risk?"

Wang Yi thought for a while, and with his own strength, he was just a cave dwelling left after the death of the chaotic master. He should not be able to help himself, and it doesn't matter if he explores it.

"Okay, count me as one."

Ginger gourd and quinoa are overjoyed. "Haha, with the Jiujiang brothers, we will definitely be able to gain a lot this time."

They saw with their own eyes Wang Yi slaughtering a group of powerful natives, and the addition of Wang Yi greatly boosted their confidence.

Wang Yi and the others went around the Tiangong Valley and advanced all the way, and it took several epochs before they came to the periphery of the Fascinating Lake.

The sky and the earth are filled with fog, boundless.

This fog has a blocking effect on divine power, even if it is the eternal true god, divine power cannot extend too far.

Therefore, if you want to explore the 300 billion light-year fascination, you don't know how many years.

Wang Yi and the others landed on a marginal island, where six figures were already waiting.

"Jiang Hu, you are too slow." A cold and harsh voice sounded, and the six figures all looked at Wang Yi and the others, as if they were looking at them.

Wang Yi also looked at them, all of them are eternal gods, and it seems that their breath is not under Jiang Hu.

The person who spoke was a golden-eyed beast with eighteen black horns on its head with blue scales. Its huge eyes stared at the two people beside Jiang Hu, "Are these the two helpers you invited?"

It once accidentally took a loss from Jiang Gourd when it competed for the token last time, so it was somewhat hostile.

It glanced at Yan Chen and said with a grin, "Isn't this General Yan Chen of the Jingtian Department of Jiuxiao City? It seems that the rumors are correct. You and Jiang Hu are indeed on good terms."

It took another look at Wang Yi... This is very strange, I have never seen it before.

However, there are many Eternal True Gods in and out of Jiuxiao City, and it is normal for those who don't know them, and it doesn't care too much.

Yan Qi looked at it coldly, but did not speak.

Jiang Hu's voice transmission introduced other people to Wang Yi. This time, there were three people on their side, the blue scaled alien beast had four strong men, and the other black-robed man had two strong men.

Add up to nine eternal gods.

However, even if it is the Eternal True God, there is still a gap in strength.

Wang Yi noticed that those strong men looked at the humanoid life in purple armor beside the man in black with fear in their eyes.

Jiang Hu also recognized the strong man, and his tone was also dreadful, "Brother Jiujiang, that is the broken moon rhinoceros. It is said to be a powerful race of life in the origin continent. It is very talented and powerful, and it is very terrifying among the eternal true gods. If Without you, or all of us can fight against this moon-breaking rhinoceros."

"Oh?" Wang Yi couldn't help but look at the human-shaped purple-armored being. 'She' has an incomparably beautiful face that is indistinguishable from male and female. Judging from her stature, she is close to a woman. She has purple scales on her face and a pair of pupils that are Silver-white, with a crescent moon mark on his forehead, he stood there expressionless, surrounded by hazy light, exuding a powerful pressure that made people palpitate.

In the origin continent, in addition to the cultivators from the 3,000-latitude cosmos sea, there are also some powerful primitive races, which are few in number and strong bloodlines, similar to the peak bloodline races of the primitive universe and even special beings. Terrible presence.

This 'Breaking Moon Rhinoceros' should be a similar existence.

"I didn't expect that the Poyue Rhinoceros would be here. Fortunately, we have you in Jiujiang." Jiang Hu couldn't help but rejoice. Although the powerful reputation of the moon-breaking rhinoceros has spread far and wide, but seeing Wang Yi's strength with his own eyes, he still thinks that Wang Yi is more powerful.

"Okay, since everyone is here, let's go quickly." The man in black robe made a sound similar to a cold machine. It is the companion of Poyue Rhinoceros, nicknamed "Black Robe", the Eternal True God among the three teams that competed for the token last time, according to Jiang Hu's words, the frontal battle is not strong, but the method is very strange, and he is proficient in exploration .

The origin continent is extremely dangerous, with countless civilizations and different cultivation systems, so the powerhouses have a variety of strange methods.

If nothing else, with this method and the Moonbreaker Rhinoceros with the strongest surface combat power, it should be the strongest among the three parties, that is, the most promising to \*\*\*\* treasures, and it is no wonder that others see them as great. enemy.

The nine eternal true gods did not intend to communicate much. As soon as the people arrived, they set off and flew into the depths of the fog.

And Wang Yi also felt an impulse of will coming from the fog, hitting his consciousness like a tidal wave, as if there were countless beasts roaring in his mind.

Wang Yi estimated that this will impact is only at the level of the Void True God, ordinary Void True Gods can withstand it, and many True Gods can reach the Will of the Void True God, but this is only the most fringe area of the Fascinating God, the more you go inside, the stronger the will impact. It is said that the deepest part even requires the will of the Chaos Master to enter.

"The impact of willpower with radiation exceeding 100 billion light-years is a bit scary." Wang Yi sighed. His small universe is 100 billion light-years in diameter.

General will shock, for the super strong, within a certain range, the distance has no effect on the will shock.

When two super powers are fighting, they are hundreds of thousands of kilometers away from each other.

However, the will shock of Fascinating Zeal is divergent from the inside to the outside.

That kind of super existence has such a terrible impact after death, it is indeed unimaginable.

"It can be calculated that the super existence should have fallen in the depths of the fascination. In the deepest part, the impact of the will is incredible." Wang Yi secretly said.

"It's a good place to hone your will." Wang Yi's heart moved.

His will has been stuck at the limit of Eternal True God, there is no way to break through, and he needs an opportunity.

Perhaps this fascination is an opportunity.

The nine eternal true gods advanced all the way in the fog, or teleported or flew, and soon came to a black water surface.

"That's it?" a blue-skinned one-eyed burly man said. He is one of the four powerhouses, and he is also the helper invited by the blue scaled alien beast.

"We left something that can be sensed in the original place, and it can be sensed when the distance is close," Jiang Hu said. "Let's go down, you must use the nine tokens together to get in."

The nine powerhouses flew into the water together, and the water was pitch black and turbid, and they had to resist the willpower shock at all times. The willpower shock here has reached the boundary between the Void True God and the Eternal True God, but it has no effect on these Eternal True Gods at all.

The will of the Eternal True God is very powerful, and some even reach the will of Chaos Master.

There are still some rocky island plants and strange objects floating up and down in the water, and some aquatic life exists, but the powerhouses ignore it.

Shortly after.

"arrive."

Wang Yi stopped and looked at the huge broken island suspended in the dark water in front of him.

Jiang Hu said to him: "This island is very special. The island looks like a rock, but it is very difficult for the Eternal True God to destroy it. At that time, we fought with all our strength and spread to this place, so that the palace hidden inside was exposed. Divine power detection, it is impossible to detect the palace

inside through the rock, if you don't see it with your own eyes, you can't find it at all. Through various traces, we guess that this is the cave house left by the master of chaos."

"The island was patched up when we left, and nothing can be seen from the outside."

Wang Yi nodded. They are all eternal true gods, and they can make them feel unfathomable and incomprehensible, and I am afraid there is only a stronger level.

Wang Yi looked at the island for a while, and suddenly became curious, is this really the super-existent cave dwelling that fell here?

It's as if Wu Guodu deliberately hid treasures here for the latecomers. Could it be that other powerhouses also deliberately left them here?

"Okay, let's go down." The black-robed figure said.

The last time they were ready to go in, but because the black robe was unwilling, they invited more powerhouses to come over, otherwise they would have already begun to explore the palace.

Seeing the Poyue Rhinoceros beside Hei Pao, others also understood why Hei Pao was reluctant at that time.

Because it is uncertain.

And now there is the super powerhouse of Poyue Rhinoceros, it is of course full of confidence, but a little impatient.

Only Jiang Hu had an accident, the time was short, and the familiar Eternal True God could not be invited, so he invited Wang Yi to come over. Before he came, he still had doubts and did not tell Wang Yi the truth.

There was a deep rock passage inside the island, and Wang Yi and others stood outside a huge gate.

All the strong people took out the token, and Wang Yi also took out the token. When Jiang Hu confessed frankly, Wang Yi also got the token. The token was like a black five-pointed star, and the colors of the tokens of others were different. , but the shapes are all five-pointed stars, and they have all been refined by them.

"let's start."

As a strong man urged the imprint of the token, the token shattered. A beam of brilliance flew to the door. The old gate lit up.

As each strong man inspired the token imprint~[www.mtnovel.com](http://www.mtnovel.com)~, rays of light flew to the gate, and soon the gate became radiant.

"Boom~~" A violent wave passed from the gate.

In the sight of the powerhouses, the huge gate slowly opened.

The blue scaled alien beast glanced back and sneered: "Everyone, it's up to us to see our own means, you have to be careful, don't die in it."

It flew in first with the three companions it invited, but left some of its own Void True God-level players outside to guard it to prevent any accidents. These Void True God-level players can still withstand the will pressure here.

The black robe figure also left behind his own team members, and went in with Poyue Rhino.

Jiang Hu released some of his team members and asked them to stay outside carefully, so he flew in with Wang Yi and the others.

#### [Chapter 858: Dongfu](#)

Nine eternal gods, including Wang Yi, Jiang Hu, Yanxi, blue-scaled beasts, purple-armored humanoids, and black-robed figures, flew into the palace one after another.

While flying, the powerhouses also released their domain to be alert to the surroundings, but this domain was affected by the palace, so it couldn't pass through the palace walls, and the release was too far.

"It's a pity that this palace is shrouded in a powerful force, and it can't be taken away from the outside at all, otherwise it wouldn't be so troublesome." Jiang Hu said with emotion as he flew.

The three flew very close and joined forces in time, and the others did the same, and at a glance they could see that they were divided into three camps.

When the strong men passed through the corridor at the entrance of the palace, they saw a new scene.

The inside of the Dongfu Palace was filled with white mist.

"White fog?" All the powerhouses stopped and looked carefully. The white fog filled the air, making the interior of the palace looming, and nothing could be seen from a distance.

"This white fog is the same as the fog outside, but it suppresses our divine power and domain even more." One of the three helpers brought by the blue scale armor is a beautiful woman with a beautiful upper body and a strange insect on the lower body. Countless bugs rustled past.

They tried to disperse the white mist, but then found that they could not do it. The white mist seemed to be integrated with the palace space. Unless it was completely destroyed, the white mist would be slightly repelled and dispelled away, and it would appear again.

These powerhouses are all vigilant. With the means of the palace masters, if they are malicious, if these outsiders dare to break in, they are courting death.

"The situation here is not yet clear. Before exploring this place and discovering the treasure, I suggest that we join forces first." A man with gray skin that looked like a rock carving said.

"Join us? No, I don't want to be with you. We will go our separate ways. Whoever finds the treasure will be the one." The voice of the black-robed figure was cold.

It glanced at everyone, "Of course, you are not afraid of death, you can also follow."

After speaking, the black-robed figure and the purple-armored humanoid life flew in the same direction as the white fog, and instantly disappeared into the fog.

"Let's go too." The blue scaled beast didn't have any interest in speaking, and left in a different direction with the three companions it brought.

Only Wang Yi and the other three were left on the spot.

"Brother Jiujiang, which way do you want to go?" Jiang Hu looked at Wang Yi, as did Yan Li.

Wang Yi is the strongest among the three, so both of them attach great importance to his opinion.

Wang Yi looked at the white fog, his domain could only cover this area, and if it extended further, it would be blocked by invisible forces, so even he didn't know what was inside.

"Most of the original owners of this cave palace are dead. Even if there is any arrangement left, I should be able to cope with the Tongtian Tower and the incarnation of the beast." Wang Yi thought.

"What's your opinion?" However, Wang Yi did not act arbitrarily, and wanted to ask other people's opinions.

Jiang Hu and Yan Qi looked at each other, Jiang Hu said: "I think it is better to keep up with the black robes. The black robe has special detection methods, which are much stronger than us in this regard. Following them will make it easier to find treasures, we If you are here, you can still fight." If there was no super strong like Wang Yi, Jiang Hu would not dare to collide with a dangerous person like Poyue Rhinoceros, but with Wang Yi, it would be different.

"Well..." Wang Yi also felt that Jiang Hu had a point. "Then let's keep up with them." Wang Yi was also very interested in the powerful race known as the Moonbreaker Rhinoceros.

The three of Wang Yi immediately set off and chased in the direction where the two black robes left.

...

The black robe and the broken moon rhino walked cautiously in the white fog.

An invisible, subtle and imperceptible wave radiated from the black-robed figure, spreading in all directions, like a bat's sound wave sensing objects.

Exploring a cave palace dominated by chaos is a very dangerous thing, even if they don't dare to be careless.

There was movement from the front.

Soon there was a cyan rock palace surrounded by thunder, and just looking at it, I felt the coercion contained in it.

The black robe and the broken moon rhino stopped at the same time.

Observe for a while.

"Huh." A figure suddenly appeared beside the black robe, also wearing a black robe, only saw a pair of scarlet eyes, and the breath exuded was the breath of the Void True God.

"Go." Following the black robe's order, the newly-appeared black robe figure flew towards the Thunder Palace, slowed down as he approached, and tried to investigate.

Heipao and Poyue Rhino stood back and watched from a distance.

In unfamiliar and dangerous places, no one will be foolish to go out and explore. They all use machinery or enslaved life to explore first.

The black-robed life turned around the Thunder Palace, but found nothing, and controlled a psychic weapon to fly towards the palace at a very slow speed.

"boom!"

When the psychic weapon flew to a distance, a dazzling thunder suddenly erupted from the azure rock palace, and a terrifying thunder instantly penetrated the void and slashed towards the black-robed figure.

The lightning broke out in an instant, and the speed was too fast.

Although the life in the black robe had no time to react, his body had no time to move, and was directly hit by that terrifying thunderbolt!

"Wow~~" A layer of light appeared on the surface of the black-robed life body.

The dazzling thunder struck him, and before he could even scream, he was swallowed up.

When the thunder disappeared, there was nothing left in place.

"This, the power of this thunder is comparable to a seventeenth-order attack." The black robe behind was startled. Some can't believe it. "It's just a cave that has been left for an unknown time. One of the palaces is equipped with such a powerful formation. Who is the owner of this palace?"

Poyue Rhino watched quietly from the side, and frowned at this time: "This palace doesn't seem to be close, so let's move to another place."

Hei Pao glanced at the azure rock palace surrounded by thunder and lightning a little unwillingly, and finally nodded.

"Poyue, you have to protect me. If something happens to me, it won't be easy for you to get the treasure." Hei Pao said to his companion a little worried.

He and Poyue Rhino did not have as good a relationship as he imagined.

This time together, it's more like a collaboration.

"Don't worry, I understand." Poyue Rhino said indifferently, the silver-white pupils did not have much emotion.

On the other side, Wang Yi and the others did not chase Heipao and the others, but instead came to a vast lake.

The white fog here has disappeared, instead, a strong chaotic airflow is flowing, and the lake is formed by 'airflow'. It seems that something is stirring underneath, the lake surface is surging, and the colorful power is surging like a wave.

"This is..." Wang Yi narrowed his eyes and looked at the lake, he felt a little, "Is this lake all divine power?"

"Why is there so much divine power here, it seems that there is still no main divine power?" Jiang Hu and Yan Li stood beside Wang Yi, also surprised.

Wang Yi looked at the lake, which was ten light-years in size and had no idea how deep it was.

This god's power is much more than his body.

"No matter what, let's take away these powerless gods first." Wang Yi secretly said in his heart. For whatever reason. It's an idiot to have the power to not suck.

Jiang Hu and Yan Li saw Wang Yi walking towards the lake and just wanted to remind him.

Although Wang Yi wanted to absorb these powerless gods, he always maintained his own domain and tried to go deep into the lake.

He instantly sensed that a force in the depths of the lake was rapidly rising.

"Boom~~" A place on the lake suddenly exploded, and a huge black shadow shot towards Wang Yi.

It was a creature similar to an 'octopus', but it had more than a hundred tentacles, each of which was hundreds of millions of kilometers long. The huge body distorted time and space, and the breath shocked the eternal gods. It instantly Crash into the scope of Wang Yi's origin domain, Wang Yi's domain instinctively resisted and repelled the other party.

What was drawn towards Wang Yi was one of its huge tentacles. It was covered with black and hideous suckers, and it looked extremely ugly.

"Looking for death!" Wang Yi's face was icy cold, his body was instantly covered with Baqi holy armor, and the dense wings spread out behind him.

The creature that looked like an 'octopus' fell into the domain, and its speed slowed down, especially those tentacles that were drawn, it seemed to be trapped in the thick air, and it was very difficult to move forward.

At this time, Wang Yi had already started to kill.

Eight sword wings flew out from behind Wang Yi, and combined into a radiant and sharp giant sword in mid-air, and stabbed directly at the creature that looked like an 'octopus' with a mighty aura.

The entire space seemed to be split open by this incomparable sword.

The creature that looked like an 'octopus' was also taken aback. Hundreds of billions of kilometers of huge tentacles waved over at the same time. A dark vortex appeared on each tentacle. The surrounding time and space were chaotic and twisted, and there were countless energy flows in the lake. Being sucked in, madly spinning and condensing, if the ordinary Eternal True God falls into it, I am afraid that I will not be able to help myself, and I can only drift with the current in the vortex.

However, the power of Wang Yi's ultimate move is beyond imagination. Although the octopus creature's moves are strange and powerful, it cannot shake the trajectory of the "Eight Discord Sword". Also twisted.

"Roar~~" The giant octopus roared in pain and tried its best to stop Wang Yi's sword. It felt that its life was seriously threatened.

"Boom~~" The endless divine power of the lake where it was located burned on a large scale, erupting with a terrifying momentum, as if the entire space was shaking, and the octopus life used the divine power of the lake to fight against Wang Yi.

"Damn it, that's my divine power!" Wang Yi was also angry. With so much divine power, I don't know how many treasures it would take to get it. It has been regarded as a treasure by Wang Yi, but the octopus's life was wasted so much.

"Mystic Eyes!" Wang Yi waved the blood-colored sword in his hand while performing the Mysterious Eyes. This knife represents Wang Yi's highest achievement today.

Octopus Life's huge blood-colored one-eyed suddenly shrank, because it saw a huge divine eye floating in the ethereal sky suddenly appeared above its head. At this moment, the surrounding heaven and earth, and the lakes around it all disappeared, even the giant sword. Disappeared, in the void there is only himself and the divine eye suspended high in the distance, the divine eye shone with light, and a strong will swept over.

The terrifying impulse of will in that god's eyes seemed to pierce its soul with a sharp sword.

The life of the octopus that was impacted was not only extremely painful to the soul, but also was so painful that it was instantly covered up.

The 'Baqi Sword' almost represents the strongest single attack of the Baqi Saint, which is a different trick from the 'Destruction Abyss'.

The power of Wang Yi's sword has also reached an incomparably astonishing level with the increase in the burning power and the Primordial Embryo Sword.

Coupled with the will secret technique "Mystery of the Eyes of God", there is a sudden outbreak of mental arithmetic.

No matter how tyrannical the octopus life is, it will be hit all at once.

If its will reaches the holy level, it can be resisted, but unfortunately not.

The body of the octopus life directly became powerless, and the consciousness briefly fell into a blank.

Wang Yi's Baqi Sword and the dazzling sword light rushed into the body of the octopus life forcefully, almost directly splitting it in half, and even the entire vast lake was divided in two, revealing the bottomless water.

Octopus Life was killed by Wang Yi, and its body was also put away by Wang Yi. This Octopus Life has the peak strength of the eternal true god, and relying on this huge divine power lake, its strength is even stronger.

But what Wang Yi wondered was that since this octopus life could draw on the power of the Divine Power Lake, why didn't it directly absorb it.

However, the life of the octopus has been killed, and Wang Yi estimates that it is difficult to find the answer.

Jiang Hu and Yan Qi in the back saw that Wang Yi used the earth-shattering means to kill the octopus's life in an instant, especially the mighty willpower of the sudden appearance of the god's eyes, which made them feel chills in their hearts.

They have an intuition, if they are swept away by this divine eye, it is estimated that it is similar to the life of this octopus, and they are at the mercy of others.

"You two, this divine power lake is useful to me, so it's mine, no problem, right?" Wang Yi turned his head.

Jiang Hu and Yanli dared to argue with Wang Yi, they all said that if you want, you can take it quickly, we have no opinion.

So Wang Yi was not polite, and began to directly absorb this divine power lake.

"Wow~~" The turbulent water of the Divine Power Lake below was absorbed by Wang Yi.

"Huh?" Wang Yi's eyes suddenly lit up.

"This divine power, the quality of this divine power is very high." Wang Yi was excited.

Divine power also has levels, the true \*\*\*\* of the void is a hundred times the true god, and the eternal true \*\*\*\* is a hundred times the true \*\*\*\* of the void.

If it is the divine power of the god-king level, even if it is only a little bit, it is ten thousand times more than the eternal true god!

Wang Yi was a little surprised, "This divine power is obviously a masterless divine power, but I feel that the quality is more than a hundred times higher than that of a normal eternal god! Could it be the divine power at the master level of chaos?" Wang Yi looked at the vastness of ten light years before him and wondered How deep the lake, could not help but hold his breath slightly.

So many such powerful gods~[www.mtlnovel.com](http://www.mtlnovel.com)~ I am afraid they are comparable to a treasure that dominates chaos, right?

"If it is transformed into my divine body, I don't know how much it will improve my divine body." Wang Yi is full of expectations.

"Phew!" Wang Yi sank directly into the lake, frantically swallowing the surrounding divine water, causing the divine body to rapidly increase and expand.

Due to the crazy rapid absorption, a huge vortex was quickly formed on the surface of the lake.

Possessing an 'endless divine body', Wang Yi's divine body can theoretically be increased without an upper limit.

The endless divine power was swallowed up by Wang Yi and transformed into the divine power of his own imprint. His divine body was also growing. Of course, under Wang Yi's control, once the divine body increased, he would take the initiative to shrink, but his divine power continued to increase.

It is like a \*\*\*\* king who is hundreds of millions of light-years tall. Even if he becomes the size of a normal person, or fights others with this body shape, the size of his own divine body is still hundreds of millions of light-years, and it will not change because of the size of his body.

#### [Chapter 859: Breaking Moon Rhino](#)

As soon as the divine power entered Wang Yi's divine body, it was like a concentrated liquid being diluted, and one portion of divine power became a hundred percent!

In addition, the lake has too much divine power, so the speed of Wang Yi's divine body is very exaggerated.

Eleven light years...

Twelve light years...

Thirteen light years...

He began to devour the lake of divine power with all his might again. A new huge vortex appeared in the middle of the lake, and a large amount of water from the Divine Power Lake poured into his body continuously, and he was transformed into a part of his divine power.

"Boom..."

The huge movement spread far and wide, and both Jiang Hu and Yan Qi, who were standing on the far shore, could clearly feel that a violent wind was blowing from the back and pouring into the huge hole in front.

Jiang Gourd and Yan Chen looked at each other.

With such a huge amount of divine power being sucked away, they were all surprised at the limit of Wang Yi's divine body.

Wang Yi could clearly sense the improvement of his divine body.

Twenty light years...

Thirty light years...

Forty light years...

is still increasing.

The surface of this lake is only about ten light years away, but it is unfathomable, and it is still a hundred times the quality of the divine body of the Eternal True God.

Therefore, the increase in the size of Wang Yi's divine body this time is very exaggerated.

The two Eternal True Gods on the shore were stunned as they watched the lake water surface drop at a speed visible to the naked eye.

Ten billion kilometers...

20 billion kilometers...

100 billion kilometers...

After half a month, the huge lake was completely drained, and not a drop of lake water was left. It turned out that there was only a huge pothole left, and only Wang Yi was suspended there.

"My current height of the divine body should reach about a thousand light years." Feeling the changes in the divine body, a smile appeared on Wang Yi's face.

The increase in the "quantity" of divine power will not directly affect the strength, but it can increase the lasting ability of the battle.

It's as if Wang Yi maintains the Eight Discords, Chaos Wings, Primordial Embryo, and burns divine power at the same time... that consumption is extremely astonishing.

And now, the height of his divine body seems to have increased by a hundred times, but in fact, the reserves of divine power have increased by a million times!

Such a large divine body is extremely rare even among the Eternal True Gods.

"This time the harvest is really big." Wang Yi glanced down at the depleted ground below, "I really have to thank the owner of this cave mansion for leaving so much power without a master, and I don't know how he did it."

Even if Chaos Master wants to collect so much divine power, it is not so easy, and it requires a great price.

Normally, the divine body of a strong person is accumulated slowly over a long period of time. In a war, if too much divine power is consumed, it will take an unknown number of years to recover. Either make up for it with precious treasures.

When absorbing the divine power of the entire lake, Wang Yi's breath seemed to be a little more powerful and deep, like a bottomless sea.

Wang Yi flew to Jiang Hu and Yan Qi.

"Congratulations to Brother Jiujiang, you have achieved a lot." Jiang Hu and Yan Li hurriedly congratulated Wang Yi.

Wang Yi smiled slightly, "It's also the two of you who gave me this opportunity, thank you."

Leaving from the lake, the three of them soon saw the mist coming over again.

The three of them explored in the cave and kept discovering, but Wang Yi didn't like the gains, so they gave them to Jiang Hu and the others. They also encountered some dangers, which made Wang Yi's strength to survive, and Jiang Hu and the two were even more convinced of Wang Yi.

"Huh? The fog in front is gone again?" Wang Yi secretly asked.

In the cave for so long, he also found that as long as there is no fog, there are usually some special places in the cave.

The three turned into streamers and quickly rushed out of the foggy area, and a new scene appeared in front of them.

"This is..." Surprise appeared in Jiang Hu's eyes.

The vast forest, at a glance, the lush green sea swaying in the wind, the only white waterfall on the high mountain surrounded by the forest pours down, and there is a green jade belt-like river flowing around the mountain. There is only one ancient palace all alone on the mountain.

There is no fog here, and there is a huge luminous body overhead that emits a dazzling warm light.

"Someone." Wang Yi and the others saw that there were already several figures in front of the palace on the mountain. They were actually the Eternal True Gods of other teams that had been separated from Wang Yi before, but the number was small.

Wang Yi's eyes swept away, "There are two less blue scaled beasts."

Jiang Hu was happy when he saw his old opponent, "Isn't this Qipigu? Why, why are there two less in your team?"

"Ginger gourd." A trace of anger appeared in the huge pupils of the blue scaled alien beast.

"It's just your luck, don't get carried away."

"It's better than you anyway." Jiang Hu retorted.

Jiang Hu and the blue-scaled monster were bickering there, and Wang Yi's eyes turned to another place.

The black robe and the purple-armored humanoid life 'Breaking Moon Rhinoceros' were also present, but the auras of the two seemed to be a little weaker.

"It seems that they also encountered a lot of things in the cave." Wang Yi secretly thought.

At present, this ancient palace in the high mountain has gathered seven eternal true gods. And after a long period of exploration, all the powerhouses seem to have found that this is the core of the cave.

"Huh? There is a stone tablet at the gate of the palace?" Wang Yi and Jiang Hu looked over.

There is text on the stone tablet, and the content on it is very simple. If you want to enter the palace, you must wait until the night of the full moon, otherwise you will not be able to enter.

And if you want to go out again, you have to wait for the next full moon night.

In a cave house carefully arranged by a Chaos Lord, no one dared to break through.

"The night of the full moon?" Wang Yi looked up at the big sun above his head. "No wonder they came so early and are still waiting here honestly."

And over there, the black-robed figure and the Moon-Pottering Rhino seemed to be communicating something.

"Poyue, they might have some treasures on them." Hei Pao couldn't help but said.

The silver-white pupils of Poyue Rhino were full of coldness, and glanced at many strong men, "I know, but it's not time yet. When I come out of this palace, if the time is right, I will take action, and you will assist me when that time comes."

"Well." The black-robed figure's eyes were full of anticipation, "This palace is the most important place for the master of the cave, and there must be precious treasures."

They are just eternal true gods, and even if the Moon Rhinoceros is broken, their net worth cannot be compared with that of the Chaos Lord. Differs greatly. The treasures that Chaos Masters value is enough for them to break the competition for the head.

As time passed, the sun slowly drifted westward, and it took a full thirty days before it fell to the horizon.

it's dark.

A bright moon, I don't know when it will appear, but it's just a crescent moon.

The cold moonlight sprinkled on the alpine palace, and the cold wind blew through, making it all lonely.

Many powerhouses remained silent and waited patiently.

After another ninety days, the silver-white celestial body in the sky was finally round.

"Wow!" A soft beam of light descended from the sky and landed on the ancient palace. The whole palace was shrouded in the bright moonlight, as if alive.

"Boom~" The ancient gate that had been silent for many years slowly opened.

"Time is up."

"opened."

"The gates of the palace are open."

The powerhouses guarding the palace gate all stared at the slowly opening palace gate and prepared at the same time.

When the door is fully opened, the moonlight also disappears.

The gate of the palace was open and silent, as if waiting for someone to enter.

However, no one of the powerhouses rushed in first.

The blue scaled alien beast 'Qipigo' glanced at it and sneered, "It seems to be quite calm."

Of the people who can come here, who has not lived for hundreds of millions of years, has experienced ups and downs, and even if the opportunity for treasure is ahead, none of them lost their minds and acted rashly.

The blue scaled alien beast was too lazy to say much, summoned a true god-level servant and let it test the gate of the palace.

Others have also resorted to their own means. And Wang Yi has Jiang Hu and the others, so he doesn't have to do it himself.

A few mechanical puppets or soul servants went in and explored for a while, and then the news came back.

"Go!" The blue scaled alien beast and its companions were the first to fly in.

The black robe figure and the broken moon rhino are the second batch.

The three of Wang Yi were at the end again, but they were not too anxious. According to the search before the explorers were sent out, the situation in the palace was a bit complicated.

Wang Yi walked through the gate of the ancient palace, wow~~ the space is like water at the moment, Wang Yi feels very comfortable passing through the water-like space, and when the scene in front of him is clear, he has arrived at another place.

Wang Yi and the others were standing by a river with thick fog behind them. The entrance was no longer there. The mechanical puppets and servants that were sent to explore earlier were all by the river, and the blue-scaled alien beasts who came first were also here. .

There is a quaint stone bridge on the river. There are two stone beasts carved on the side of the stone bridge, and everything behind is covered by white mist.

There is also a stone tablet at the entrance of the stone bridge. There is a text on it. It says that the stone bridge can only be passed by one person at a time. If you want to pass the stone bridge, you must defeat a stone beast.

Except for the stone bridge, no other place can pass through, and the space is completely isolated.

When everyone was still observing the stone bridge, wanting to see if there was any hidden danger, the Moonbreaker Rhinoceros in purple armor walked up to it expressionlessly.

"Giggle~" One of the two alien beasts on the stone bridge began to move.

"Peng!" A huge hoof claw slapped the ground, and the stone beast opened its eyes, shook its head, looked at the outsider in front of it, roared, and rushed forward.

At the same time, a silver-white curved horn appeared on the hands of the Moon-breaking Rhinoceros, and there were also circles of thread-like patterns on the curved horn, flashing with a cold light.

When the bridge-guarding alien beasts rushed up, the moon-breaking rhinoceros was filled with soft moonlight-like light, and the space was slightly distorted and fluctuated. At the same time, it splits out, like six silver lightnings tearing apart the space.

The bridge-guarding alien paused, as if trying to tell which one was the real enemy, but couldn't tell, and suddenly roared angrily, and slammed into the three enemies together.

"Dang! Dang! Dang..." The attack of the broken moon rhinoceros fell on the bridge-guarding alien beast, but it only splashed sparks, and the bridge-guarding alien beast's body was harder than expected.

When the alien beasts guarding the bridge rushed over, the three moon-breaking rhinos also separated at the same time.

"Peng!" The sharp claws of the alien beast guarding the bridge grabbed it and caught it on a moon-breaking rhinoceros. The moon-breaking rhinoceros disappeared like a bubble, but one of the two moon-breaking rhinoceros scattered to other places appeared beside one of them. A figure of a broken moon rhinoceros.

Seeing the battle scene on the stone bridge, the expressions of the others on the side were different.

"This is the fighting method of the Moonbreaker Rhinoceros? It's very strange. I haven't found which one is the real Moonbreaker Rhinoceros." Wang Yi's eyes flickered. "And the attacks of the three moon-breaking rhinos seem to be really lethal. This may involve some kind of original mystery."

Comprehension of different origins, the mystery of battle is also different.

Like Wang Yi's Origin of Destruction, the Origin of Flame, is good at fighting and extremely destructive.

However, the origin path of the Moon-breaking Rhino is in other aspects.

Wang Yi watched the fierce battle on the stone bridge, "This rock beast is very powerful. Its attack is about the sixteenth-order level. The most powerful thing is its defense. I'm afraid it is comparable to an eternal true god-level weapon."

Eternal true god-level weapons, the general chaotic masters have to work hard to destroy them. As for the eternal true god? It's too hard to destroy.

"If you want to completely kill this rocky beast, it is estimated that no one present can do it, even me." Wang Yi shook his head. "This test shouldn't be so perverted."

On the stone bridge, the rhinoceros turned into purple shadows and kept fighting with other beasts guarding the bridge, and after going up, if they left the stone bridge, it would be a failure.

"Peng!" A huge silver light slammed heavily on the alien beast guarding the bridge, slapped its huge and heavy body like a bowling ball, hit the stone bridge, and rolled a few times on the ground before getting up. .

"This moon-breaking rhinoceros is really strong."

Several strong men beside the stone bridge looked solemn.

"I'm afraid the attack has reached the seventeenth level."

The attack reaches the seventeenth level, which does not mean that the secret law level reaches the seventeenth level.

There are also secret techniques, treasures, natural bloodlines and other factors.

And the higher the level, the less the strength of secret arts and treasures can be improved.

In the realm of true gods, burning magic power with treasures, it is easy to improve the strength of two or three orders.

But at the level of Eternal True God, it would be good to increase it several times. A step up, that is very powerful.

For example, the master of chaos, the king of gods, and the secret art of treasures that can increase their strength by a few percent are enough to make them crazy.

That's why the peerless willpower secret technique of "Lie Yuan Technique" makes the god-kings of the origin continent so crazy.

Because the improvement of strength is definitely a huge leap.

Thoroughly mastering the "Lie Yuan Technique", you can even directly stand at the top of the origin continent.

However, it is too difficult to get started with the practice of "Lie Yuan Shu". Currently, only Luo Feng and Wang Yi, who rely on the protagonist's halo, have learned it.

And if one person learns it, no one else can learn the "Lie Yuan Technique".

With the fierce fighting, the aura on Poyue Rhinoceros became stronger and stronger, and apparently began to burn the divine power violently.

That delicate and beautiful face has also become hideous, and the originally slender and well-proportioned body has also become thick and huge.

"Roar~~" The moon-breaking rhino, like a humanoid and beast, let out a low roar, his pupils were like vertical pupils of some kind of beast, full of wild light, and the silver horns on both hands shone with light, as if two huge bright curved Knife, dazzling.

"Peng!" The strange beast guarding the bridge was blasted out again, flew far away, and fell on the ground of the stone bridge.

This time, it got up and did not continue to attack, but returned to the stone bridge and turned into a stone statue again.

#### [Chapter 860: stop teasing me](#)

Wang Yi and other powerhouses also saw the battle between the moon-breaking rhinoceros and the bridge-guarding alien beast.

"It turns out that you don't need to kill the stone beast, you just need to resist it for a while." Some people are sure.

If it is to kill, it is too difficult.

The attack reaches the sixteenth rank, and the defense is comparable to the eternal true god-level weapon. If it continues to grind, it is enough to grind any eternal true \*\*\*\* to death.

Fortunately, not so perverted.

Poyue Rhino walked back, her breath weakened a little, she returned to the place, sat down and used the treasure to restore her divine power. This was only the first level of Shiqiao, and she didn't know what to face next, she had to restore her strength as soon as possible.

After the Moon Breaking Rhinoceros went down, the blue scaled alien beast 'Qipigo', who thought he understood it, couldn't wait to rush up.

"Roar~~" An alien beast guarding the bridge recovered, opened its cold eyes, and stared coldly at the blue scaled alien beast that appeared on the bridge.

boom! The next moment, the huge stone beast with a ferocious and rough appearance disappeared directly from the place and appeared in front of the blue scaled alien beast.

"So fast?" The pupils of the blue scaled alien beast shrank.

The speed of the stone beast before was not so fast.

However, although surprised, the blue scaled alien beast was already mentally prepared, just when the stone beast was about to attack—

Om~~ The whole space seems to be a reflection in the water, all rippling. The ripples spread in all directions, and spread to the entire stone bridge in an instant.

The stone beasts are also like shadows in the water, and ripples appear on their bodies.

Its defense is comparable to an eternal true god-level weapon, so it can't hurt it, but its speed slows down involuntarily.

The blue scaled alien beast didn't plan to collide with it at all, and only planned to delay time to get through this level.

The stone beast let out an angry roar, and slammed its claws out, chi chi ~ a few invisible winds ripped through the reflection ripples in the water, turned into white training, and flew towards the blue scaled alien beast.

The blue scaled alien beast can feel the terrifying power contained in that claw strength.

"This attack seems to be stronger than the previous stone beast."

The blue-scaled alien beast did not dare to be careless, and controlled the ripples in the water to block it.

A layer of ripples, like a cosmic world, a layer of ripples condensed in front of the blue scaled alien beast.

And the stone beast shuttled in the reflection of the water, and kept waving its claws at the same time. The claw method was extremely mysterious, and it was easy to tear apart the space, and its power was terrifying.

Boom~~ Just one blow, the world's membrane wall was blasted.

It was the second blow, and the two layers of the world's membrane walls were completely pierced, revealing a large hole, and the stone beast drilled out of the hole.

While swiping the claws and sprinting, the speed is terrifying.

The rippled universe condensed by the blue-scaled alien beast was directly torn apart by the stone beast with incredible lethality.

The stone beasts kept advancing, and the blue scaled beasts kept retreating.

But the scope of the stone bridge is limited, it quickly retreats to the edge, and if it retreats again, it fails.

"The speed is so fast, much faster than me, there is no way to avoid it, I can only resist it." The eyes of the blue scaled alien beast blazed with fierce rays of light.

"Hu~~" Mysterious secret patterns appeared all over the body of the blue-scaled alien beast. This secret pattern was drawn into a pattern of a strange snake-shaped monster. A huge black shadow appeared behind it, and heavy blue ripples shrouded it like a barrier. body, like many layers of egg shells.

In the next moment, the stone beast slammed into the layers of thin films fiercely. The dense corrugated barrier, with countless ripples circle after circle, layer after layer, completely protected the blue scaled alien beast at the innermost. boom! boom! boom! boom! boom! boom! boom! boom! boom! boom! The huge body of the stone beast madly hit the ripples and made an earth-shattering sound.

The two claws blasted out one after another, getting faster and faster. The layers of gray claw shadows actually overlapped. The moment they converged, they led the claw shadows in front of them. They were completely condensed into the same force, completely transformed, and turned into huge gray claws. .

This gray claw tore through the void, as fast as lightning, and wherever it passed, everything seemed to be 'erased' and disappeared.

I don't know how many layers of ripples were directly pierced in an instant, and the huge claws directly penetrated the barrier and fell to the blue scaled alien beast with a shocking color behind it.

"How is that possible!" The blue scaled alien beast let out an exclamation, a little surprised and caught off guard. Thick armor with barbs exuding a quaint atmosphere appeared on its body, and its right claws emitted black airflow, even actively blocking it.

"Peng!" Its right claws collided with the huge claws of the stone beast, and its right claws were immediately shaken. The huge claws of the stone beast grabbed on it fiercely. The huge beast claws still grabbed the body of the blue-scaled alien beast, "Boom!!" The blue-scaled alien beast only felt the incomparably heavy and terrifying power transmitted to the whole body through the claws, and the body couldn't help but fly out. Breath a little weaker.

"'Cipigo' was suppressed so badly that he has no ability to fight back at all." The other powerhouses watching the battle under the bridge felt tight.

The stone beast turned into a phantom, "Roar." The stone beast pressed closer, roaring and waving its claws, and the gray claws swept across the sky for a while, shrouding the embarrassing blue scaled alien beast.

"I want to block it!" The blue scaled alien beast roared in his heart, using all kinds of means to frantically resist the attack of the stone beast, some of which were even its trump cards, but at this time it was no longer caring.

The two fought frantically on the stone bridge, and the roar kept coming.

However, there seems to be some restriction on the stone bridge, and the fluctuation of the battle is weakened when it spreads outside the stone bridge.

"'Qipigo' was injured." The flame red armored woman Yan Chen frowned, "With the strength of 'Qipigo', it's so miserable, I don't think it will be much better. More importantly, this is only the first level, I don't know what else will follow."

The life of the insects in the upper body of the woman and the lower body of the only remaining blue-scaled beast was also secretly worried.

Among the many powerhouses on the scene, their strength is considered to be at the bottom.

Wang Yi also watched indifferently, observing the situation of the stone beast. "Well, the body is hard, the speed is fast, and the attack power is still strong. Although the attack method seems to be purely relying on the body, the claw method is so exquisite that it can fully exert its strength. The combat power should be equivalent to the seventeenth rank." Wang Yi made an evaluation.

The battle continued for a while, and some places on the stone bridge were sprinkled with blue blood, which was left by the injury of the blue scaled alien beast.

Whoosh. The body of the stone beast is still intact, and there is not even a mark left. It can be seen that its defense is abnormal. Facing such an undead opponent, it is enough to make any Eternal True God feel chilled. In a flash, he rushed across the distance between the two, and his claws were in front of him in an instant. If he wanted to smash the enemy, the speed of his claws was terrifyingly fast.

"Kacha." The claws of the blue scaled alien beast were broken, and the flesh and bones could be seen. It roared out in pain. Before coming in here, it never thought that it would be so embarrassed.

The stone beast suddenly stopped.

"Huh? Stop?" The 'Qipigo', who was already retreating, opened his eyes wide, and he saw the stone beast slowly turn around, walk back to the original place, and turn back into a motionless stone carving.

"It's finally over." At this moment, 'Chipigu' almost cried with joy.

It was so ravaged that it wanted to give up. In such an environment, you can't beat and beat, run and run, you can't just give up, you can only be beaten on the side, you can imagine how painful it is.

"Passed." Yan Qi and the others who were on the sidelines also breathed a sigh of relief.

Poyue Rhino looked indifferently and sneered. In her opinion, none of these eternal true gods is in her eyes.

This stone bridge is very simple to pass the test, just stick to it for a period of time under the attack of a stone beast.

But the weaker Eternal True God may be beaten to death.

"If you want to pass this bridge, you must at least have a sixteenth-order combat power, or you have enough life-saving means."

Jiang Hu looked at the two companions next to him and took a deep breath, "If you don't get on, then I'll get on first."

"Be careful." Yan Qi asked worriedly.

"Haha, even if I can't pass the stone bridge, it's still easy for me to retreat." Jiang Hu glanced at the blue-scaled alien beast that retreated in embarrassment. The blue-scaled alien also noticed Jiang Hu's gaze and snorted coldly. one sound.

Jiang Hu jumped up and ran directly to the stone bridge.

"Boom~~" A sleeping stone beast guarding the bridge immediately woke up.

"Fortunately, the one on the left is guarding the bridge." Jiang Hu was overjoyed.

He had just seen that the one on the left was fighting the moon-breaking rhinoceros, while the more perverted one on the right was fighting the blue scaled alien beast.

Jiang Hu's burly figure stood on the stone bridge, a huge sword appeared in his hand, and his eyes were a little dignified.

The stone beast that was standing there suddenly rushed over, its stone claws like a heavenly knife that ripped apart the sky one after another, and grabbed Jiang Hu as fast as lightning.

The Jiang Hu sword suddenly lit up with golden light, which was extremely dazzling, and then the golden streamer spread wildly along the golden secret pattern to the arms, body, head, thigh, and tail.

His divine power burns directly to the limit!

Slashed out fiercely.

Crazy eyes.

"As long as it can be blocked for a period of time, it is fine. It must be blocked."

The stone beast and the burly scaly dragon-tailed life were at war, and it was like a crack in the sky for a while.

The sharp claws raged.

The swords in Jiang Hu's hands turned into dazzling sword lights, and there were also golden rays of light around his body. The whole person was like a dazzling golden sun, and the surging divine power centered on him shook the surroundings.

"Is this a mystery similar to the Dao of the Blade or the source of gold?" Wang Yi squinted as he watched. "The secret technique level of this \*\*\*\* gourd is estimated to be at the top level of the fifteenth rank. With other explosive means, it seems that Jiang gourd still has hope of passing it safely."

"Dragon Blood Knife!!" Jiang Hu shouted angrily. "Roar—" The roar of an ancient giant beast seemed to sound in this world, and terrifying blade lights erupted, "Boom..." The extremely dazzling golden blade lights seemed to form a tsunami wave that shot into the sky in an instant. , The huge wave composed of hundreds of dazzling knife lights completely drowned the stone beast in an instant.

"Clang clang clang!!" Only the sound of the collision between the knives and the claws was heard. The stone beast suddenly shrouded the shadow of the claw and collided with Jiang Hu's knife light. Although the stone beast cannot be injured, it affects its speed and offensive.

The knife light roared, and every knife slashed on the stone beast's body, causing the stone beast's majestic body to shake.

The stone beast became even more angry.

But Jiang Hu has already tried his best, not to kill the enemy, but to stop the stone beast and not let it approach.

The two powerful beings fought each other, and the fluctuation of power caused the void to vibrate, which spread in all directions. If this was not a stone bridge, it would be destroyed in an unknown area of 10,000 light-years outside.

"Jiang Hu, you have to keep it." The red-haired woman below watched nervously.

The blue scaled alien beast has cold eyes. "Such a fatal outbreak? Even if you can successfully pass the level, but you have lost so much divine power, if there is a next level, what will you do?"

Only Wang Yi and Po Yuexi were calm present.

Po Yuexi thinks she is the strongest, so she doesn't care if other people can break through, they are not her opponents anyway.

And Wang Yi didn't care even more. As long as he shows his true strength, even the master of chaos can pull the wrench, let alone these eternal gods. And he has many cards on his body, such as the beast, the tower of the sky, the secret art of will, the life-saving undead blood and so on.

To say who is present is the easiest. No doubt it was him. The only thing he was worried about was the arrangement of the owner of this cave.

"Roar~" The stone beast finally stopped.

"Hu~~" The tired Jiang Hu sighed in relief, feeling the remaining divine power in his body, and showed a wry smile.

I don't know if it's worth it, but he doesn't want to give up this rare opportunity.

The fourth is the companion of the blue scaled alien beast, the insect woman.

She directly released an endless sea of insects, countless insects poured out of her body, and she hid in these insects, letting the stone beasts kill and destroy, she couldn't hide, although she lost a lot of insects, but she finally passed .

Then, Yan Chen went up to challenge, and Yan Chen directly turned into a world of flames. The world was her, and she was the flame. Although she was constantly being collapsed by stone beasts, but relying on this life-saving talent, she also survived to the end, but her breath was much weaker.

Among the powerhouses present, only the Moonbreaker Rhinoceros was more relaxed, and they kept suppressing the stone beasts.

Finally it was Wang Yi's turn to play, and everyone else looked at him with a calm expression.

This time, it was the right side that woke up, and it was also the terrifying stone beast that made the blue scaled alien beast miserable.

"Stone beast?" Wang Yi's mouth curved into a smile.

"He's actually laughing?" Both the blue scaled beast and the insect woman felt incomprehensible.

Jiang Hu and Yan Qi looked at it with confidence.

They can get through it, with Wang Yi's terrifying strength, UU reading [www. uukanshu.com](http://www.uukanshu.com) killed even the indigenous giants 100,000 light-years tall, not to mention a stone beast guarding the bridge.

The human-shaped purple armored life "Broken Moon Rhinoceros" with a body shape close to that of a woman also stared at Wang Yi with silvery white eyes, and was vaguely unable to understand this person.

As soon as the stone beast woke up, it roared and turned into a gray phantom and slaughtered it.

Wang Yi, holding a sword, also took the initiative to meet him.

"It doesn't burn divine power?" There was a hint of surprise in the eyes of the blue scaled alien beast watching. Even Jiang Hu was burning divine power, so he dared to fight with the stone beast on the left. The stone beast on the right seemed more terrifying to him, but Wang Yi didn't use his divine power to fight, which was very unwise in his opinion.

"Stupid, he has to be injured." The blue scaled monster sneered. Wang Yi is a man of Jiang Hu, and he naturally wants to eliminate one.

"Burning divine power? My secret art level is seventeen now, and I need to burn divine power? Don't tease me." Wang Yi saw the stone beast rush over, and with a smile, he slashed out.
