

A God 881

[Chapter 881: Purple-clothed disciple](#)

Wang Yi quickly flew to the Wujian Building and entered the first floor. On the first floor, there was a vast hall. There were also some guests in the hall.

brush! A cyan figure appeared out of thin air, condensed into a green-robed woman, and looked at Wang Yi with a smile.

There is an identical woman in green robe beside every guest in the hall.

"Welcome, black-level guest, what do you need?"

Through the means of Wujianlou, one can easily discover the realm of incoming guests.

The tokens they carry can also prove their identities.

If like a higher purple-level guest. As soon as you enter, it is not the first floor, but a separate space for hospitality.

Gold level? There are not many in the entire Origin Continent, and the treatment is more grand.

"I want to join you Wujianlou." Wang Yi said directly.

"Guests want to join us in Wujianlou?" The woman in green robe looked at Wang Yi, her face was hazy and unclear. "Of course, but I have to confirm whether you are a member of other forces now."

The power that the green-robed woman was talking about was actually a god-king-level power.

Like those forces created by the Chaos Master... Wujianlou doesn't care.

This is also the rule of Infinity Tower.

Because of the agreement between Wujianlou and the various forces, there will be no external hegemony.

His members, naturally, have to abide by this rule.

Of course Wang Yi also knows this rule.

Although he will definitely build a force in the future, he will also fulfill his promise to revive Wu State.

But isn't it still cumin all over now?

"I have no power." Wang Yi replied.

"Since the guests have no power, they can naturally join us in Wujianlou." The green-robed woman smiled. "There are two ways to join our Wujianlou. One is to pass the virtual space secret law tower, to test the school's rules to comprehend the realm. As a guest, if you are the eternal true god, the lowest sixteenth rank top, you can join our Wujianlou and become an ordinary disciple. The higher the realm of the guest, the higher the status level of the disciple you are given. The other is the battle palace, the battle palace, which is used to test the combat power. The testers can do their best and use all means. Any restrictions... No matter whether you rely on treasures, powerful gods, special bloodlines, or secret

techniques, you can use them at will! If your combat power reaches the sixteenth rank, you can serve the third rank, but the third rank Offerings are just the most common peripheral members of our Wujianlou."

The woman in green robe introduced Wang Yi.

Join Wujianlou and enter through the Secret Law Pagoda. The top sixteenth is the ordinary disciple, the top seventeen is the purple-clothed disciple, and the eighteenth is the golden disciple.

Entering through the battle palace, the sixteenth-level combat power is dedicated to the third-level, the eighteenth-level combat power is dedicated to the second-level, and the twentieth-level combat power is dedicated to the first-level. Great worship, requires 22nd-order combat power

It can be seen that Wujianlou pays more attention to the disciples who enter the Secret Law Pagoda!

Even the top seventeenth tier can be a purple-clothed disciple, and a purple-clothed disciple is actually the core layer.

Because the seventeenth-order top realm! It is only a line away from the Chaos Master! Although it is difficult to break through outside, but joining Wujianlou, the hope is undoubtedly much greater!

Of course more stuck at this step!

The master of chaos is already considered an important combat power for Wujianlou! No force would think that there are too many chaotic masters in their own family, and it is normal to give the status of Ziyi disciples.

As for the golden-clothed disciples... that's even more incredible. Historically, there are very few golden-clothed disciples in Wujianlou. They are absolutely rare, they belong to the core of the core, and their status is even nobler than some chaos masters.

Wang Yi nodded. "I want to enter the Secret Law Tower."

A hall, the hall is empty with only one futon, very quiet.

Wang Yi sat on the futon, closed his eyes, communicated with the black token on his body, and a gentle force shrouded from the outside, Wang Yi separated a trace of consciousness and came into contact with this force.

"Huh!" At the next moment, Wang Yi's consciousness entered a mysterious and vast world.

Wang Yi found himself appearing in the vast chaotic airflow, with an ancient gray tower looming in the distance.

"After many years, I am here again." Wang Yi smiled slightly.

The last time I came here, it was almost two reincarnation eras ago.

However, the current Wang Yi is no longer the Wang Yi of two reincarnation eras.

At the entrance to the tower there is a black stone tablet with a line of information:

"Number: Blood Bandit Mountain, Armor 562, 441"

"Realm: Eternal True God"

"Trial tower layers: 8"

Wang Yi looked up at the stone monument.

Last time, Wang Yi failed to reach the eighth floor, so he stayed on the eighth floor.

If you successfully pass the level, you will enter the ninth floor.

If you want to pass the eighth floor, you have to create the top secret method of the seventeenth order, otherwise you will not be able to defeat the gatekeeper.

"Choose your opponent." The voice of the Spirit of the Trial Tower sounded in a low voice.

In the trial tower, there are different opponents, including melee, psychic weapons, souls... and even formations, controlling machinery, creatures, etc. different genres!

Choose a certain opponent, you can only fight in the same way.

"I choose... close combat!" Wang Yi said.

"Boom~~" The door of the trial tower opened, and Wang Yi stepped in.

space changes.

Wang Yi appeared in the world on the eighth floor. There was a vaguely human-shaped light and shadow on the opposite side. All he could see was a pair of blood-colored eyes and a golden spear. He was holding a twisted serpentine spear in his hand. The tip of the spear was as red as blood. Viper's letter.

"It's you again." The gatekeeper clearly remembered Wang Yi who had come to challenge him before.

"It's me." Wang Yi smiled. He was also wearing eternal true god-level armor and holding a sword.

"Today, I'm going to cross the eighth floor."

"Want to go? Then beat me!" After the gatekeeper said indifferently, the two started at the same time.

Whoa! The gatekeeper in the distance disappeared instantly.

He arrived in front of him almost instantly, stabbed out a spear, and a huge and complicated secret pattern immediately appeared around, followed by a terrifying destructive force.

Boom~~

Countless blood-colored spear blades formed a wave and swept in all directions, cutting and destroying everything, sweeping the area of tens of thousands of light-years ahead almost instantly, and Wang Yi was the first to be attacked. The attack range was so large and the speed was so fast that Wang Yi could not escape at all, and could only fight hard.

This layer of gatekeepers had fought against Wang Yi, and his memory was still fresh. He knew that his movement skills were good, so he directly attacked him with annihilation.

"You beat me before, but this time it's different!" Wang Yi's eyes burst with astonishing rays of light, an aura like an abyss of destruction erupted from him, and the dazzling knife light lit up, sharp and cold! The light of the sword blooms like a petal, and it is extremely beautiful. This is the top seventeenth-order sword technique "Flower of Destruction" that Wang Yi has learned over the years! Countless blade lights! Just like a piece of petals, its power can reach the unbelievable extreme! Going forward along the spatial fluctuations, all of them with devastating fluctuations, tearing everything and killing them directly.

"Huh?" The gatekeeper sensed the threat from the petal-like knife light, and knew that once he was attacked, the result would be very bad.

The physical strength of the two is the same, both are eternal true gods, and the weapons and armor are also of the same level.

The only difference is the secret technique level! will! Battle experience!

And the most decisive, of course, is the secret method!

The incomparably beautiful knife light is like countless petals falling in the void, covering the sky and covering the sky, one after another, like a dream.

But in the eyes of the gatekeepers, it is full of infinite murder.

The light of the gun and the light of the knife collided and annihilated silently.

The spear glow is annihilated much faster.

The space for the gatekeepers is rapidly being eroded.

"That's not enough! Next is my real killer move!" Wang Yi's eyes were sharp and he shouted angrily.

This sword light shattered everything, time and space shattered, and the entire void trembled and shattered, crushing the gatekeepers with irresistible destruction.

"It's so strong!" The gatekeeper couldn't help holding his breath, but after all, he had experienced countless battles over the long years, and he quickly recovered.

People and guns unite!

Turned into a dazzling golden long dragon, roaring straight up.

The long spear and the people rushed towards this devastating knife.

"Boom!" The dazzling golden long dragon collapsed in an instant, and the entire gatekeeper was bombarded and flung far away.

The gatekeeper stopped, but if he looked closely, there were already many cracks on his body.

He lowered his head and glanced at the cracks on his body, and then looked deeply at Wang Yi.

"you win."

Wang Yi's strength has been recognized by the gatekeepers.

After Wang Yi used the knife just now, the outcome of the battle has already been determined.

Wang Yi crossed the eighth floor!

...

ninth floor.

Here is a boundless water pool, and a behemoth is entrenched here.

Wang Yi silently looked at the eight-headed snake opposite.

"Melee combat? Does that count?"

boom! ! !

As soon as the two fought, each head of the eight-headed snake bit Wang Yi like an indestructible weapon.

Gold, wood, water, fire, earth, wind, thunder, lightning, light, and eight origins, intertwined and merged into a powerful and terrifying force.

Wang Yi tried his best to resist, but in just a short while, he was bombarded to pieces.

Wang Yi's consciousness returned to the hall, slightly absent-minded.

"The eighteenth-order secret method is quite different from the seventeenth-order top, and I was killed just like that."

Eighteenth-order secret method, normally speaking, at this level, it is enough to become the master of chaos.

The gap between each other is like the fifth-order top secret method of the lord of the universe and the sixth-order universe's strongest secret method.

Wang Yi shook his head slightly. "Although I failed to challenge the ninth floor, but passing the eighth floor, I am enough to join Wujianlou as a disciple of Ziyi."

The ninth floor is too difficult! Throughout the ages, not many have been able to break through in the Eternal True God!

If the true **** in eternity can break through the ninth floor! Then the representative can become a golden-clothed disciple!

This kind of evildoer, every **** king is willing to accept as an apprentice.

"Brush!" The figure of the green-robed woman appeared in front of Wang Yi.

Looking at him with a smile, "Congratulations, you passed the eighth floor of the Secret Law Trial Tower. According to the rules of Wujianlou, you can become my purple-clothed disciple of Wujianlou."

"Give me your token."

Wang Yi stood up and handed over the black token. The green-robed woman took it away and gave Wang Yi another purple token.

Purple Order! Wang Yi looked at the green-robed woman in surprise.

The green-robed woman smiled and said, "My Wujianlou purple-clothed disciples will be given purple orders, and they will also enjoy many corresponding privileges."

Wang Yi was slightly amazed that the treatment of this purple-clothed disciple was higher than he imagined.

The Purple Order level is generally dominated by Chaos, and only exists in the existence of Saints.

But a purple-clothed disciple in Wujianlou can actually have this token.

"Since you have entered my Wujianlou, my Wujianlou will also train you." The green-robed woman said. "Ordinary disciples are not qualified to enter my Wujianlou headquarters, but purple clothed disciples are still qualified." Eternal true gods who can create top seventeenth-order secret techniques are valued no matter where they are.

Because it is only one step away, that is, chaos dominates.

Although this step is also difficult to break through, but there are many talented disciples collected, and one breakthrough among ten disciples is also a profit.

This is the accumulation.

The headquarters of the Infinity Tower? Wang Yi's heart moved.

The headquarters of Wujianlou, in the origin continent, is also a secret secret.

Many people know it, but they belong to the high-level and strong. They know and will not say it casually, but it is very difficult for ordinary eternal true gods to know.

"Yuanzu and Luo Feng joined Wujianlou before." Wang Yi secretly said, "But they probably don't know where Wujianlou's headquarters is." When Yuanzu and Luo Feng joined Wujianlou, they didn't reach the 17th-order top secret technique level. , is not a disciple of Ziyi.

"I'll send you to Bishan Island in our Wujianlou." The woman in Qingpao said to Wang Yi, "Only through there can you go to our headquarters. Before that, do you have anything else to prepare? If not , I'll take you there."

Wang Yi shook his head.

"Okay, you and I will come." This time, the woman in green robe personally sent Wang Yi to the teleportation hall.

"Is your token refined? Refining the token, the teleportation hall can send you to Bishan Island." The woman in green robe said to Wang Yi.

"I'm going to refine it." Wang Yi thought about it, and the divine power wrapped the token and refined it directly. At the same time, there was a lot of new information about Wujianlou and Ziyi disciples in his mind.

"The Ziyi disciples of Wujianlou ~www.mtnovel.com~ are treated really well." After quickly reading these messages, Wang Yi sighed in his heart. "No wonder so many people want to join Wujianlou."

Wang Yi looked at the majestic palace, because he had concerns, so he stayed outside the Tongtian Tower and the incarnation of the world beast, and he did not follow, which was considered a reservation.

"Go in, when you go there, someone will naturally lead you to the Wujianlou headquarters." The green-robed woman smiled.

Wang Yi nodded and said thank you. Suddenly, he turned to the green-robed woman who couldn't see her face, "I don't know what to call your Excellency?"

The green-robed woman was stunned for a moment, then shook her head and said, "I don't have a name, you can call me Ding Liu Liuliu."

Wang Yi glanced at the green-robed woman, which seemed to be a serial number.

However, he didn't ask any more questions, and flew towards the gate of the palace that exuded mysterious time and space fluctuations.

[Chapter 882: Infinity Universe](#)

In the vast chaotic void cloud layer of the origin continent, there stands an incomparably beautiful island composed of cyan jade. The entire island area is no less than some cities that Wang Yi has seen before. The island has rolling sapphire jade. The palaces constituted, the palaces of different styles are clearly distinguished in height and majesty.

And the most dazzling one is the cyan jade palace in the center that is tens of thousands of light-years high.

The quaint palace seems to have existed since ancient times, but the interior of this jade palace is always faintly illuminated by a dreamlike light.

Logically, there are countless wild beings in the chaotic void clouds, but not a single cloud life dares to approach here.

"Boom~~" The boundless chaotic airflow outside formed boundless waves, and the dark waves slapped the edge of the island again and again. It is still standing there as it was billions of years ago.

This Bishan Island... is the transfer station between the headquarters of Wujianlou and the continent of origin.

A strange fluctuation of the law of heaven and earth came.

"Om~~" The whole world seemed to tremble slightly. A special kind of fluctuation was passed over, and the people on the island were very familiar with this kind of fluctuation.

"Huh? Another outsider?" Some existences on the island were discovered.

In the southernmost peak forest of Bishan Island, there are mountain peaks. One of the peaks made of cyan jade that is about several light years old suddenly emits a misty light, and then a figure appears in the center of the distorted space fluctuations. After the misty light disappeared, a figure clearly appeared.

It was a man with black hair and black eyes and a fiery red robe.

"This teleportation is the longest I have ever experienced, and it took a lot of time." Wang Yi looked around.

Wang Yi suddenly raised his head, and a figure flew down from mid-air. He has long golden hair and a golden beard. He is obviously very old, but he has a pair of golden eyes that are as dazzling as the sun, and there are strange golden secret lines on his face.

"Hehe, another newcomer is here." The old man said with a smile.

The aura on his body was not so amazing, it was just the realm of eternal real gods, but Wang Yi didn't dare to be rude.

"Excuse me, you are..."

"I'm the messenger who took you to the headquarters," the blond old man said. "Everyone who arrives at the headquarters is almost always brought to the headquarters by Bishan Island. Outsiders who want to break in alone will surely die."

"I don't know where the headquarters is?" Wang Yi asked repeatedly.

The blond old man glanced at him and smiled. "Don't worry, from me to the headquarters, you need to hurry, and it will take some time. If you have any questions, I can answer them slowly."

"Then I would like to thank the messenger," Wang Yi said.

"Let's go first and leave this island." The blond old man flew up first, and Wang Yi followed behind.

The two flew out of the island together.

This island is very vast, even if the two of them set off on the edge of the island before, it took a while to fly out.

And outside, is the boundless, turbulent chaotic ocean.

"I don't see it there." The blond old man pointed to a vortex in the distance, "That is a fixed space passage, through which space passage can be quickly teleported to the vicinity of the headquarters. There are nine such passages distributed in the around the island."

The two flew to the vortex channel while talking.

Wang Yi looked at a space vortex in front of him. This space vortex was only tens of light-years in diameter, and it had always existed stably.

"Let's go."

Wang Yi and the blond old man, one after the other, flew into the vortex of space.

...

This space vortex is similar to the wormhole in the cosmic sea, which can greatly shorten the travel distance and is artificially created.

Wang Yi and the blond old man came out of a space whirlpool at the same time.

The endless chaotic void is filled with chaotic airflow everywhere.

"This..." Wang Yi looked at the scene in front of him in shock. At first glance, he saw a huge membrane wall spreading out in front of him, as if the huge curtain wall could never be seen, as if the whole world was directly obscured. the other half.

It is a huge universe.

"See, the great beings of my Wujianlou, whether they are the masters of chaos or the greatest **** king... all live there!" the blond old man said, with pride in his eyes, "This is the headquarters of our Wujianlou. , the holy land of our Wujianlou - Wujian Universe!"

"There are countless powerhouses, countless treasures, countless inheritances, and everything in the boundless universe." The blond old man's voice was low. "It's an independent universe that belongs entirely to our Wujianlou."

Wang Yi said in disbelief, "Infinity universe? Could it be that this universe is..."

The universe is not uncommon in the origin continent. Like a true god, it can evolve into a small universe in the kingdom of God.

However, compared with the vast and boundless universe in front of him, the difference is too far, too far.

Seeing the universe in front of him, Wang Yi thought he had returned to the sea of cosmos and saw the original universe.

The blond old man nodded, "That's right, the universe you saw was created by the owner of my Wujianlou."

"The universe, some are born naturally in the chaotic void, and some are created by terrifying and powerful beings! Those who can create the universe are usually in the order of the **** king." The blond old man was filled with emotion.

It can open up the world in chaos, and let the real universe evolve out of chaos. That is the ultimate existence - the universe god! That is the king of gods!

There are many kinds of universes, some are evolved from the kingdom of gods, and some are transformed from the heart of a true **** into a chaotic space, and then from a chaotic space into a universe! The latter is also called the Divine Heart Universe!

The most difficult thing is to create a perfect and real universe from the chaos outside, which requires a great price!

Ordinary **** kings are reluctant to do this kind of thing, because... creating a universe doesn't do them any good.

And the universe can only exist in the chaotic void, and cannot stay in the origin continent, and the origin continent is the center of everything.

Even the created universes are big and small, the smallest may be only one trillion light-years in diameter, and the largest is comparable to the original universe! The bigger it is, the more expensive it needs to be!

Wang Yi looked at the majestic universe emitting vast fluctuations in the distance, and his mind was complicated. It is absolutely earth-shattering and generous like the owner of the Master Wu Jian created a universe comparable to the original universe outside the origin continent! At the price, the average **** king may not be able to do it even if he goes bankrupt. It can be seen that the power of the owner of Wujiezhuan.

"Yes, my Master Wujiu created this universe. In this universe, my master is absolutely invincible! So for countless years, no force has dared to attack us, because they all know that they can't do anything about us!" The blond old man laughed.

Wang Yi was also very shocked.

Like the Void True God universe, it needs the peak attack power of the Eternal True God to destroy it.

The universe of the eternal true **** requires chaos to dominate the peak attack power to destroy it.

Chaos dominates the universe, and it needs the peak of the **** king to destroy it.

So how powerful does the universe of the God King need to be to destroy?

I'm afraid no one can do it.

Wujianlou regards this universe as its headquarters, which is indeed considered impregnable.

"As expected, it is the largest force in the origin continent. It's really scary." Wang Yi secretly said.

An incomparably vast and vast chaotic void.

Wang Yi and the blond old man teleported along the cosmic membrane wall together.

When the two flew to the cosmic membrane wall, there was a crack in the cosmic membrane wall, "Go in." The blond old man said, and flew in, Wang Yi followed. After the two flew in, the cosmic membrane wall slowly healed.

"Most places in this universe can be teleported, and teleportation is prohibited in some important places," said the blond old man. The general teleport distance of the Eternal True God is tens of millions of light years, and the frequency is extremely high, so it is very easy to teleport to the other end in one universe.

But here, the blond old man did not dare to intrude.

Wang Yi looked at this universe, observed it, and felt that there was no difference between this universe and the original universe. There were stars, planets, countless lives, and powerful breaths.

Of course, the powerhouse is much higher than the original universe.

True God, Void True God, Eternal True God I don't know how many, and there are Chaos Lords and God Kings.

This universe was built with endless effort by the owner of Wujiezhu. In terms of firmness and stability, even if the king of gods wanted to destroy it, it would be very difficult.

"By the way, in this universe, fighting is prohibited. Violators will be punished. You have to remember." The blond old man reminded.

"Okay." Wang Yi replied obediently.

"I'll take you to the place of cultivation first."

The blond old man continued to fly with Wang Yi, and suddenly touched something, invisible ripples appeared in the surrounding void, and the two of them passed through and disappeared.

...

Infinity Universe.

Wang Yi only felt a change in front of him, he knew that he had entered a special space.

There are towering peaks suspended in the distance, and there are cave palaces on these peaks. In the center surrounded by many suspended peaks, there is a huge suspended land! This land is a continuous group of palaces, the core of which is an extremely dazzling palace.

The palace is towering, and the light spreads everywhere in the entire space.

The blond old man said: "This is the real core of Wujianlou. The space occupied by the planets outside is not half as big as here."

Wang Yi nodded secretly, at least the huge floating land in the center he saw was definitely a trillion light-years in size.

Following the blond old man flying, and watching some practitioners in the distance, at a glance, almost all of them are eternal true gods.

They were all wearing purple robes.

Even if it looks like a strange beast, it is also wearing a purple robe, and it is flying in a similar way.

"There seem to be a lot of purple-clothed disciples in Wujianlou." Wang Yi observed silently.

The Eternal True God created the seventeenth-order top secret method, which looks very difficult.

But the origin continent is too vast, and there are countless strong people! In any area, the Eternal True God does not know how many! In a kingdom, there are more eternal true gods! In the entire Origin

Continent, even if only one of the 100,000 Eternal True Gods can create the Seventeenth-Order Top Secret Technique, that adds up to an extremely huge number!

Although it is not to say that every Eternal True God has joined Wujianlou, even if there are only some of them, it is amazing.

"By the way, I almost forgot, this is the dress of your purple-clothed disciple." The blond old man patted his head, took out a set of purple robes and threw it to Wang Yi. "This purple-clothed disciple's clothing has the protection power of the eternal true god's top-quality battle armor, as well as some other functions. Every official purple-clothed disciple has a set."

Wang Yi estimated that the value of this purple-clothed disciple's clothing was equivalent to a lot of Chaos Crystals, and many Eternal True Gods might not be able to afford it if they went bankrupt.

Wujianlou has a lot of money and doesn't care about this, every disciple in purple is giving it for free.

"In addition, I remind you that according to the rules of my Wujianlou, every purple-clothed disciple can practice ten times of reincarnation in the Wujian universe when they first come in," the blond old man said. "If the ten epochs of reincarnation cannot break through to a higher level, they will all be sent to the outside forces of Wujianlou. Only if they make enough contributions can they come in again, so this opportunity is very precious to you."

Wang Yi nodded slightly. In fact, these ordinary messages were all on the purple token he refined.

Wujianlou recruits disciples, of course, not to raise idlers, but to cultivate more strong people.

Therefore, the competition among the disciples within Wujianlou is also very fierce.

Apart from the relatively few gold-clothed disciples, those purple-clothed disciples competed fiercely with each other.

There are tens of thousands of purple-clothed disciples in Wujianlou.

With so many disciples, it is of course impossible to treat them equally. If you want to get better treatment and more resources, you have to fight.

"Look." The blond old man took Wang Yi and flew to a suspended island. There were 108 palaces on the suspended island, and the palaces were of different sizes.

"This is one of the islands where the purple-clothed disciples live." The blond old man pointed to the other islands in the distance. "Except for the golden-clothed disciples who live alone on an island, every other island has one hundred and eight palaces, and each island can accommodate 108 disciples."

"The entire Wujianlou headquarters surrounds the Wujian Continent. There are a total of 108 islands, 7 of which are reserved for the golden-clothed disciples. Even if the golden-clothed disciples are vacant, no one else will live there, and the other 100 are for the purple-clothed disciples. The last one prepared is for the newcomers to live in, and the number of palaces is not limited."

"Normally, the number of Ziyi disciples will remain at 10,800." The blond old man looked at Wang Yi, "If it exceeds this number, then according to the ranking, those ranked outside 10,800 will be eliminated!"

"Here in Wujianlou, the golden-clothed disciples are at the top, and the competition of the purple-clothed disciples~www.mtnovel.com~ is very fierce and cruel. However, for the newcomers, there is a period of protection in the era of reincarnation. During this time, you don't have to participate. Ranking." The blond old man said with a smile. "Of course it's eliminated, it's just that you can't live on this island, you can still practice ten epochs of reincarnation in the Wuji universe... Just that you can't even enter the island, it means you have no potential, and you won't get the attention of Wujianlou. and nurture."

Wang Yi nodded calmly.

In every respect, Wujianlou encourages these disciples to compete.

In terms of identity, they are divided into golden-clothed disciples, purple-clothed disciples, and ordinary disciples.

Ordinary disciples can't even enter the Wujianlou headquarters, they can only go outside.

Purple-clothed disciples can only practice ten reincarnation epochs in Wujianlou. If they don't break through, they will be released. Only golden-clothed disciples can make an exception. islands.

What's even worse is that every once in a while there is a disciple ranking battle. Those ranked outside 10800 can't even live on an island, so they can only go outside, not to mention how miserable it is.

[Chapter 883: Disciple ranking](#)

"At present, there are five golden-clothed disciples in the headquarters. Apart from living on the floating island, the purple-clothed disciples also don't live here. The number is far more than 10,000 people. So the ranking is also very intense."

The blond old man took Wang Yi to the only floating island where the new disciples lived. There are many more palaces here.

Wang Yi's arrival, many places have begun to record his information, such as soul breath, such as the identity of Ziyi's disciple, the authority he has, etc... Therefore, some disciples who have background and keep an eye on information at all times quickly received information. New arrival news.

However, they don't care.

Because, a purple-clothed disciple... is really too ordinary.

There are tens of thousands of people living on suspended islands, let alone outside the islands, there are even more!

In an era of reincarnation, Ziyi disciples came in continuously, not many surprises.

Only when Wang Yi showed amazing strength, such as defeating the top-ranked powerhouse among his disciples, possessing unique talents, or creating unique skills such as the eighteenth-order secret arts... would this attract the attention of others.

Now? Wang Yi was inconspicuous among the many disciples. After all, in his data, the secret method is only the top seventeenth rank, and all the disciples in purple clothes are at least above this level.

The blond old man had fluttering hair and pointed to the floating island under his feet. Although it was called an island, it was also huge for hundreds of millions of light years. It was comparable to the three major Jedi in the universe. Some purple clothed disciples and servants were walking around.

"Do you know why those disciples want to live on the island so much? It's because of the location." The blond old man laughed.

"In my Wujielou, there are countless treasures, secret methods, and strong people, but these are not granted out of thin air, and you have to exchange points for them."

"Normal purple-clothed disciple, one reincarnation era, 10,000 Chaos Crystal points per year, lasting ten reincarnation eras."

"And the disciples on the island, each epoch of reincarnation, has 20,000 points."

"The top 100 will have 100,000 points for each epoch of reincarnation."

"The top ten have one million points for each epoch of reincarnation."

"As for the golden-clothed disciples, it's even more incredible. Many of their chances are not measurable by points!"

The blond old man said: "For example, every golden-clothed disciple can worship a hall master as a teacher. The hall master...is the **** king! Most of the other disciples can only worship one inner hall elder, that is, the master of chaos, as their teacher. Just fine."

Wang Yi was shocked when he heard it.

For every purple-clothed disciple, 10,000 Chaos Crystal points in a reincarnation era can be exchanged for everything they need?

Ten epochs of reincarnation are 100,000 Chaos Crystals!

Some poor chaotic masters, I am afraid they will feel distressed if they want to take out so much.

But Wujianlou is extravagantly giving out so much to each purple-clothed disciple. You must know that there are tens of thousands of purple-clothed disciples at Wujianlou headquarters, and every reincarnation era has a steady stream of new arrivals.

I have to say that the background of Wujianlou is really scary, and even cultivating geniuses is so extravagant.

The blond old man glanced at the thoughtful Wang Yi, and smiled lightly: "You just arrived at Wujianlou, as usual, in the first reincarnation era, you can live on the island and get 20,000 points, but when you wait for the next reincarnation era, think about it. It's up to you to keep your position."

"Each disciple in purple who comes to the headquarters for the first time can get the clothing of the disciple in purple, the qualification to live on the island, 20,000 points, and a reward for choosing a unique skill below the god-king level. These are all free."

Wang Yi nodded and thanked the blond old man for his guidance.

The two landed at a palace by a blue lake on the island, and silhouettes walked out of the palace, salute Wang Yi and Wang Yi respectfully.

The blond old man said: "This is a puppet creature, serving you to live here."

Wang Yi looked at these puppet creatures. The head of the housekeeper was a god-level puppet creature, and the other ten were the masters of the universe.

They are all responsible for taking care of Wang Yi's palace residence.

"As for the rest, I won't say much. He will tell you everything you want to know about all the rules in Wujian Building." The blond old man turned into a streamer and disappeared into the distance.

And the housekeeper and servants also respectfully saluted Wang Yi. "Owner."

"Master." The housekeeper with snow-like complexion and picturesque eyebrows said, "I passed a lot of information about the interior of Wujianlou to the master."

Wang Yi immediately received a large number of messages after the token, which was much more detailed than the previous message on the purple token.

In general.....

Wujianlou, as the most powerful behemoth in the Origin Continent, has stood on the Origin Continent for countless years.

Except for the mysterious and unpredictable landlord.

Wujianlou is like a cloud of strong people, and there are dozens of people who are the king of gods and the masters of the palace.

Some of them joined Wujianlou, and some of them cooperated with Wujianlou as Keqing.

In addition to the powerful gods... the chaotic masters of Wujianlou are also terrifying.

The master of chaos, that is, the elders of the inner hall, there are tens of thousands of Wujianlou!

Just like the original state of Jin, there were only more than 20 chaotic masters who truly belonged to the king of Jin.

The number of powerhouses in Wujianlou is the largest in the continent of origin, and it is the most powerful among the known forces. The other top forces, Jieshan Palace and Dayue Kingdom, are far inferior to Wujianlou in this respect.

However, such a powerful Wujianlou has always followed the principle of not competing for hegemony and seldom participated in disputes in the origin continent.

Or only the large-scale invasion of the indigenous people or the occurrence of disasters like the beasts can let the Wujianlou intervene.

And everything about the uninterrupted landlord. More of a mystery.

It is the king of gods, and he knows very little about the owner of Wujiezh.

As for a purple-clothed disciple like him, it was nothing in Wujianlou.

Or only the golden-clothed disciple can get the real attention of Wujianlou.

As for the golden-clothed disciples, Wujianlou has always been very few in number. From the fact that there are so many purple-clothed disciples now, the number of golden-clothed disciples is only five.

Every golden-clothed disciple is considered a treasure of Wujianlou.

However, even for a golden-clothed disciple, it is extremely difficult to become a **** king.

[Ding, congratulations to the host for successfully signing in and rewarding 100,000 Chaos Crystals.]

The panel prompt sounded, leaving Wang Yi speechless.

Stop showing off, okay?

"Every new disciple in Ziyi can choose a secret technique below the god-king level for free. I'll go and see it first." Wang Yi thought to himself.

Wang Yi learned about his cave, and immediately went out, turning into a streamer and flying towards the floating continent in the center.

The real treasures of Wujianlou are placed in Wujian Continent.

But before he flew out of the island, he saw a figure flying over from not far away.

"Is the new junior brother in front?" The figure said.

She was a rather beautiful woman in purple, with white hair hanging down to her feet, and her eyes were crystal clear red.

From the outside, it looks like a normal human being.

But practitioners, no matter what race, can change their appearance when they reach a certain level.

The human form is the mainstream normal for practitioners.

So facing the purple-clothed woman who didn't know what race, Wang Yi asked as usual, "I am, I don't know why this senior sister stopped me?"

The purple-clothed woman smiled all over her face, "My name is Kui Ling, and this era of reincarnation has just arrived, not too long before you, and when I saw that you were brought over by the messenger, I knew that you were a new junior brother, so I came here to have a look. , I don't know if I don't have the honor to invite Junior Brother to you for a drink?"

Wang Yi looked at the purple-clothed woman and felt that the other party should have no ill intentions, so he nodded. "Then I'll be more respectful than obedient."

Wang Yi and this woman named Kui Ling came to her palace. Kui Ling instructed the servants in the palace to prepare a banquet, and then said to Wang Yi, "Junior brother just arrived, so I shouldn't know much about this place, but I happen to be earlier than you. I do know some things, what do you want to know, or I can answer it for you."

Kui Ling's attitude is very good.

There are all kinds of practitioners, some are arrogant, cold, violent, cruel, and some like to make friends.

Like Kui Ling, a long-sleeved person who is good at dancing, has a wide range of friends, and there are many practitioners.

Wang Yi didn't know if she had said that to every new disciple in Ziyi, but he did have some things he wanted to know.

"Senior Sister Kuiling, I would like to know what is the division of strength between the golden-clothed disciples and the purple-clothed disciples."

Kui Ling smiled and said: "Junior brother wants to ask this, I do know something, so I will tell you about it."

Kui Ling's face turned positive.

"Here, the disciples are mainly divided into purple-clothed disciples and golden-clothed disciples."

"Although it is said that the requirements for each purple-clothed disciple to come in are the seventeenth-order top secret technique level... but the strengths of the purple-clothed disciples are different."

"The purple-clothed disciples here have different cultivation times, and their cultivation progress is different, resulting in a big gap between their strengths."

"Simply put, the purple-clothed disciples can be divided into three levels."

"The first level is the bottom layer. When you just came in, you don't have any talent, but you only master the top seventeenth-order secret techniques. Just like us, we are at the bottom."

"The second level is those who have practiced multiple epochs of reincarnation and have mastered many unique skills. Or they have special skills. Although they are still at the top level of the seventeenth-order secret technique, they are much stronger than the first. Most of the Wujianlou. The purple-clothed disciples are actually at this level."

"The third level is to create an eighteenth-order secret method, which can break through to a new realm at any time." Kui Chi Ling had a hint of envy in his eyes. "In addition to creating an eighteenth-order secret technique, there are also some that are particularly heaven-defying. Although the realm has not been reached, their combat power is also terrible, and they have various opportunities, such as some kind of heaven-defying bloodline, such as cultivating a certain god-king-level secret skill, or even It can defeat the very weak master of chaos, which is also the peak level of the purple-clothed disciple."

"Finally... it's the golden-clothed disciple standing above all the disciples," Kui Ling said. "Every golden-clothed disciple is a monster-like existence and can easily defeat any purple-clothed disciple. For the purple-clothed disciple, they are absolutely invincible existences!"

"Each of them has created the top eighteenth-order secret technique! And there are all kinds of things that go against the sky!"

Kui Ling looked at Wang Yi, "For example, one of the golden-clothed disciples I know took the route of the **** body and reached a level of 90,000 times. It can be said that it is extremely evil."

"Another example is another golden-clothed disciple. His will has reached an extremely terrifying level, and he has also cultivated a certain profound and mysterious willpower secret technique. It is said that the master of chaos can be defeated!"

"There is also a bloodline that is extremely scary, rare and ancient. The family elders have the lowest achievements and are the masters of chaos. He is also favored by many high-level executives of Wujianlou."

Kui Ling let out a sigh of relief and smiled bitterly: "Compared with these real peerless monsters, it is really difficult for us ordinary purple-clothed disciples to come forward."

Seeing the silent Wang Yi, she comforted: "But don't be discouraged, being able to enter the Wujianlou is already a big opportunity for us, and we don't need to compare with those monsters, we just need to seize the opportunity, cultivate hard, and become successful. The Chaos Lord is a life in vain."

Wang Yi was slightly lost.

90,000 times the divine body?

He is a thousand times more.

Terrible will, practice top willpower secret technique?

With his top-level will to become a saint, is "The Elemental Technique" terrible?

Bloodline is against the sky, can you become the master of chaos in the future?

He just came out of the indigenous Holy Land, and his bloodline seems to be not bad. After all, he has soaked in the ancient ancestors for an era of reincarnation...

The only thing that is bad is the level of the secret method, but Wang Yi's cultivation time is still short, and his realm is lower than those of the golden-clothed disciples who don't know how many times of reincarnation.

Wang Yi looked at Kui Ling, why do you feel that you are complimenting me around the corner? I feel a little embarrassed for complimenting me.

Kui Ling didn't know what Wang Yi was thinking, otherwise he wouldn't vomit blood.

"An era of reincarnation is fleeting, junior brother, you and I have to cultivate well." Kui Ling clenched his fists and cheered each other up. "I hope that after the disciples' competition, they can continue to meet with their junior brothers on the island."

Wang Yi nodded, the disciples will be ranked, and those ranked below 10,800 will have to move out of the island.

Of course, they are newcomers, and they have a protection period of the era of reincarnation. To be precise, they can only participate in the disciple competition after practicing in the era of reincarnation on the island.

Seeing Wang Yi's inattentive look, Kui Ling couldn't help but say: "Junior brother, you have to pay attention, Dabi is very important to me and so on, if you perform well in Dabi, let a certain inner hall elder take a fancy to him and accept it as Disciple, it will be of great help to our practice."

As for letting the hall master take a fancy to accepting him as an apprentice? This idea is too illusory, and many purple-clothed disciples dare not hope.

After all, how noble and noble is the identity of the hall master, generally only the golden-clothed disciples can enter their eyes.

It is already very good to have an inner hall elder favor ~www.mtlnovel.com~ as an apprentice.

And even the elders of the inner hall rarely accept disciples.

Even the elders of the inner hall are dominated by chaos.

The Lord of Chaos is already a hegemon in the origin continent, and it is one day and one earth with Eternal True God.

Although there are many elders in the inner hall of Wujianlou, there are more disciples in Ziyi, and it is still a reincarnation era.

As a result, many inner hall elders have a very high vision for accepting disciples, and it is not easy to make their hearts move.

It turns out that the disciple Dabi also has such uses. Wang Yi understood.

Wang Yi and Kui Ling continued to talk and had a great time talking with each other.

After leaving Kuiling, Wang Yi continued to fly towards the floating continent in the center.

[Chapter 884: Senra Palace](#)

In the vast and boundless Continent, Wang Yi teleported and appeared outside a majestic and majestic golden palace.

Look up.

"This is the Senluo Palace where Wujianlou stores countless classics and materials."

For any cultivator in the origin continent, this is a priceless treasure.

In addition to their own talents, the most important thing for practitioners is their cultivation methods and resources.

And a good cultivation method can undoubtedly make oneself improve quickly.

The Golden Palace is divided into six floors.

From the first floor to the second floor, the disciples in purple clothes are allowed to enter.

From the third floor to the fourth floor, the golden-clothed disciples and the Chaos Lord are allowed to enter.

On the fifth floor, only the hall master and a small number of inner hall elders can enter.

On the sixth floor, few people enter according to legend, even the hall master, very few people enter, it is very mysterious.

"God-king-level unique skills are placed on the fifth floor. Usually, even gold-clothed disciples and inner hall elders are not allowed to enter without permission." Wang Yi muttered in his heart.

As for the purple-clothed disciples, it was even worse. Usually, they could only move on the first and second floors. Without permission, they could not go to the third floor.

"This is my first time here, and I can choose a special skill below the god-king level here, and I can enter the third floor."

On the third and fourth floors, the Chaos Master-level secret skills are placed.

However, the purple clothed disciple can only enter the third floor and choose the secret book.

The Origin Continent takes cultivation information very seriously. Even the cultivation methods above the true **** are generally not allowed to be leaked.

Wang Yi walked into this incomparably majestic and magnificent palace.

When he walked into the palace, he took out the purple token and began to read the brief introductions of various secret manuals.

When you see something suitable, you will go to the place where the cheats are stored, watch it in person, and experience more.

Many precious secrets, even exist in a special way, contain the will of the creator, and can only be learned by personal contact.

There's not even a cheat sheet at all! If you want to learn, go to the creator, he teaches it himself!

"You can only choose one Chaos Master-level cheat. Which one should I choose?" Wang Yi was also very eager to see the countless powerful cheats.

Wujianlou, as the largest force in the Origin Continent, has collected countless secret books for endless years. No other force can compare with this kind of background.

Like Wu Kingdom, Jin Kingdom, and Duandonghe Inheritance and Wujianlou, they are far inferior.

Like these Chaos Master-level cheats, they are all painstakingly created, any one. It's enough for the Eternal True God outside to break the head and fight, but it is left here for others to learn.

Of course, each purple-clothed disciple can only learn one for free.

If you want to continue learning, you have to spend points or contribute points.

"Points..." Wang Yi clicked his tongue.

In Wujianlou, points are a very precious thing.

Learn cheats, get points.

In exchange for various treasures of weapons and armors, you will get points.

Use certain cultivation treasures to get points.

Even buy information, ask the strong to give pointers, and get points.

Many super strong people give lectures, and they need points to listen to them.

Moreover, points can be exchanged for Chaos Crystal and various resources, but they cannot be used for points!

At least the disciples of Eternal True God do not have this qualification! Must be the master of chaos!

"I have 20,000 points on me now." Wang Yi estimated. "And any random Chaos Master Cheats will have tens of thousands of points."

There are also a variety of Chaos Master-level cheats, melee, long-range attack, soul secret, special secret, hidden breath, will secret, auxiliary cultivation, enhancement of the divine body...

Some are unique, such as Reincarnation Mystery! "The Law of Refining Clone"! "Void Teleport"! and many more!

Wang Yi now has only 20,000 points, and he can only buy the cheapest Chaos Master-level cheats.

Wang Yi looked at the token, "Which one?"

At the very beginning, Wang Yi wanted to change to a secret technique of will.

The first chance is the most rare, and it can be exchanged for any Chaos Master Cheats for free.

"I can only choose the third level, but the cheats on the fourth level are also Chaos Master-level cheats, but they are much better than the third level."

Wang Yi took a look and found that most of the Chaos Master-level cheats on the third floor were far inferior to the "Mystery of the Eyes of God" in terms of profundity and power.

After all, "Mystery of the Eyes of God" was also created by the God King of Jin Kingdom, and the level was higher than that dominated by chaos.

Wang Yi learned a secret art of will, in order to cover up his secrets and at the same time give play to his own advantages of will.

Wang Yi thought for a while.

"Let's take a stroll at Senluo Palace first, or have a surprise."

The Senluo Palace is too huge and the space is vast, so there are not many people.

Wang Yi wandered here on the first floor.

[Ding, congratulations to the host for successfully signing in, and rewarding the 'Quarterly Destroying God'.]

Wang Yi glanced at it, the name was good, but it was a Void True God-level secret manual.

For Wang Yi, it means nothing.

[Ding, congratulations to the host for successfully signing in and rewarding the 'empty blue light book'.]

[Ding, congratulations to the host for successfully signing in, and reward 'Linxi Guanyu'.]

[Ding, congratulations to the host for successfully signing in, and rewarding the 'Qingtao Magic Wave Book'.]

...

A series of secrets were signed by Wang Yi.

But Wang Yi sighed.

Go to the second floor entrance.

He felt that staying on the first floor was a waste of time.

Because the place was too big, Wang Yi first appeared near the entrance of the second floor with a teleport, and then flew up.

The second layer and the first layer have no change, they are all chaotic airflow lingering, huge bronze pillars that penetrate the sky and the ground stand here, each pillar contains a secret book, and occasionally some practitioners can be seen here go through.

Wang Yi simply teleported post by post to sign in, and at the same time continued to search for the Chaos Master-level cheats.

Like the purple-clothed disciple, you can read the information of the secret book below the Chaos Master level.

As for the god-king level, you need the qualifications of a golden-clothed disciple and the master of chaos to see it.

But this is not necessarily the case. As long as you contribute enough points, or you get a good ranking in the disciple competition, you can also learn the god-king level cheats.

The god-king-level cheats make countless people crazy, but they are not so easy to learn.

Wang Yi already has many god-king-level unique skills, but no one will have too many powerful secrets.

The inheritance of Wu Guo and others is still too far from the colossus of Wujianlou.

And he also found that in Wujianlou, he might be able to find a way to quickly help him cultivate to the master of chaos.

[Ding, congratulations to the host for successfully signing in, and rewarding the 'Wuwang Divine Law'.]

[Ding, congratulations to the host for successfully signing in, and reward the 'Secret Copy of Greedy Wolf Blood Crow'.]

[Ding, congratulations to the host for successfully signing in and rewarding the 'Gale Wind Flower Rain Code'.]

...

The panel's prompts kept ringing in his consciousness, but Wang Yi just glanced at it and ignored it.

They are all Void True God-level and Eternal True God-level cheats. If you have time, take a look at them. They are not of much value.

Now, the most important thing is to find a powerful secret that suits your cultivation.

"It's amazing." Wang Yi sighed as he looked at the countless giant pillars on the second floor. Compared with the collection of Wujianlou, the accumulation of Wu Guo's countless years is much smaller.

The two don't seem to be on the same level at all!

"However, it's all mine now." Wang Yi hummed inwardly.

Although not every cheat book can be signed in, but getting one of ten cheats, Wang Yi has made a lot of money.

These secrets are hundreds of times thousands of times more than those of Wu State and other countries.

After all, in terms of the number of strong people, there are tens of thousands of Chaos Masters in Wujielou, and the channels for collecting cheats are all over the origin continent, and it is easy to get countless cheats. Cheats, after all, are created and perfected by the strong. Like Eternal True God-level cheats, it usually has to be created by the master of chaos or even the king of gods!

If Wang Yi uses these secrets to start a sect, he will easily start building a powerful sect!

It took Wang Yi a lot of time to sign in the pillars on the second floor and get countless secrets.

Then, he turned his attention to the third floor.

On the third floor and above, it is the truly profound and precious secrets of Wujianlou.

But those secret manuals, usually Ziyi disciples have no chance to contact.

"Go up." Wang Yi flew directly to the entrance of the third floor.

The entrance to the third floor is actually the most majestic golden pillar in the center of the palace, emitting a circle of light like golden water waves.

When he came into contact with this light, Wang Yi disappeared and was directly teleported to the third floor.

But when touching this light, a cold voice sounded in Wang Yi's ear.

"Purple clothed disciple Jiujiang Yi. You have an era of time, and you can choose a secret manual on the third floor."

Wang Yi glanced at the third floor.

In the vast space on the third floor, the same chaotic airflow pervades the air, and the golden pillars are much less than those on the second floor, and the practitioners can hardly see it.

But the pressure of the breath is very terrifying, and they are obviously powerful.

Wang Yi's mouth twitched slightly.

"coming."

brush! Wang Yi's figure instantly appeared on the nearest golden pillar.

[Ding, congratulations to the host for successfully signing in and rewarding the 'Baiyang Iron Wing'. 】

It is a very powerful eternal true god-level secret skill.

Wang Yi teleported to another pillar again.

[Ding, congratulations to the host for successfully signing in, and rewarding the 'Xumi Xun Snake Nether Art' (the first six layers). 】

This time, it is a Chaos Master-level exercise.

But it's not complete.

Wang Yi raised his brows and continued to teleport to check in in the palace.

brush!

[Ding, congratulations to the host for successfully signing in, and reward the 'Broken Dragon Heavenly Bow Mystery Book' (Beginner). 】

brush!

[Ding, congratulations to the host for successfully signing in, and rewarding 'Shattered Shadows of Frost and Frost' (the first half). 】

brush!

[Ding, congratulations to the host for signing in successfully, reward 'Thousands of Rains Break the First Sun'. 】

brush!

[Ding, congratulations to the host for successfully signing in, and rewarding the 'Ten Thousand Heart Technique'. 】

Wang Yi jumped up and down in the palace like a tick.

Some powerhouses who chose to practice secret techniques in the palace also noticed this maverick uninvited guest, saw the purple clothes on his body, and shook their heads.

Even if you can learn a Chaos Master-level cheat for free, you don't need to be so excited, right?

Bumper!

Wang Yi didn't know that those strong people were despising him, and he continued to check in non-stop.

Many of these secrets are the treasures of the sect, and the foundation of the continuation of the big family is extremely precious.

But this moment was easily obtained by Wang Yi, I don't know how much.

"Unfortunately. Even if I get it and learn it, I can't use it outside casually." Wang Yi secretly thought.

He could learn it, but he was discovered by Wujianlou. For stealing cheats, Wujianlou's punishment is very serious.

...

Soon, Wang Yi signed all the golden pillars on the third floor in one go.

The most are Void True God-level cheats and Eternal True God-level cheats. Chaos Master-level cheats are relatively few, and many of them are incomplete.

"It seems that the whole is on the fourth floor, or even the fifth floor. There is only the front part here." Wang Yi understood.

Some powerful secrets and secrets may be created by the God King, and can be cultivated from the Void True God to the God King.

Those parts of the previous practice will be placed on the first, second, and third floors.

But if you want to study completely, you must go to the fourth and fifth layers.

And those who can go there are the real high-rise cores of Wujianlou.

"The fourth floor, even if it is also the secret realm dominated by chaos, the level is much higher than the third floor. There will even be many secrets created by the **** king!" Wang Yi felt a little regretful in his heart. "Unfortunately, I can't go up unless I have enough points to exchange it."

As long as you have enough points to contribute, even if you are just an ordinary disciple, you can come in and choose God King-level cheats.

However, the real god-king-level secret skill is not the secret book created by the god-king for the cultivation of the eternal true **** and the master of chaos, but the one that can exert the power of the god-king, and the points needed are sky-high!

"Points... I only have 20,000 on me, and it's enough to exchange for a Chaos Master-level cheat." Wang Yi shook his head. "You have to figure out a way to get some points to contribute."

Wang Yi looked at the pillars of the vast palace again, "Choose a secret book."

Wang Yi took out the purple disciple token, looked at the message on it, and fell into deep thought.

"Which one to choose?"

All of the above were not signed by Wang Yi. The cheats he needs.

Among them, there are two that he likes most.

The first one is a secret technique of will, created by the king of gods. It requires the peak will of the eternal true **** to cultivate. It is difficult to cultivate, but its power is huge!

This secret technique has three levels recorded here. It requires the top level of will to become a saint to cultivate the third level. The third level is cultivated to perfection. Ordinary chaos dominates the will, and it is difficult to resist the attack of the will.

However, the cultivation of this secret art is too difficult, even if the will is the top level, it may not be possible. If the talent is not enough, it will be difficult to cultivate to the third level of Consummation.

Even in the Chaos Lord, there are not many people who can successfully cultivate. There are not many people who choose this special school.

But Wang Yi has confidence in himself.

Known as the most difficult to cultivate the supreme will secret technique in the origin continent, he has successfully cultivated the "Lie Yuan Technique" created by Yuan, is it possible that he will still be stumped by this secret technique of the **** king's will?

Wang Yi looked at the introduction to this stunt, "Ten Masterpieces of Slaughtering Spirits", created by the God King of Slaughtering Spirits, is difficult to cultivate, and has great power. It can be called one of the most powerful master skills of chaos.

This secret technique of will, is not included in the reward he signed in before, otherwise he would not have to worry so much.

And another peculiarity...

"Chaos Void Derived Dao" was created by Lord Cangli. Lord Cangli is very famous. He is a disciple of the master of Wujiezhu. Although he has not broken through the God King, he is definitely the strongest level among Chaos Lords, comparable to Ordinary **** king.

"Chaos Void Deriving Dao" is a precious auxiliary cultivation secret method, which contains the mystery of the fusion of ten source laws. There are 3692 secret methods created by Cang Li, which deduces most of the laws of chaos, which can help to understand the laws of chaos. Breaking through to the realm of chaotic domination, in history, there are many strong people relying on this breakthrough, even among the many auxiliary cultivation cheats, the breakthrough effect of "Chaos Void Derived Dao" belongs to the top ten.

Whether it is "Spirit Killing God Ten Masterpieces" or Cang Li's "Chaos Void Derivative Dao", they are the top existences among the many secret books in the third floor, and the points required are all in the millions.

It is also what Wang Yi needs.

[Chapter 885: 900 Secret Realm](#)

The majestic Senluo Palace.

The endless chaotic airflow inside filled the air, desolate and quiet.

Which one should I choose?

Wang Yi was embarrassed.

He hadn't been so embarrassed in a long time.

The main reason is that the status of Ziyi disciple cannot be exchanged for points contribution points, otherwise...

"Chaos Void Derivation" can help him improve the efficiency of cultivation and break through to the master of chaos faster.

But after all, I haven't practiced yet, so I don't know what the result will be.

And "Spirit Killing Ten Spectacular" can greatly enhance his strength and rise among the purple-clothed disciples.

Because of "Lie Yuanshu", to be honest, he didn't dare to be exposed to the high-level sight of Wujian Building now.

It is best not to expose the secrets of Wu State and other forces.

Iconic skills such as "Mystery of the Eyes" are best not to use.

Otherwise, let the foes of these forces know.

In case a **** king thinks.

Holy crap, this kid is pretty good. Just in case, I'd better cut the weeds and eradicate the roots to avoid future troubles.

Stare at him all the time.

Kill him before he grows up.

There is no need for Wang Yi to take this risk.

With "Ten Spectacles of Slaughtering the Spirit", with Wang Yi's talent in this regard and the will to become a saint today.

There should be no problem in reaching the third stage of Consummation.

At that time, it will be able to sweep away countless purple-clothed disciples.

New disciples of the sect will have a protection period of the era of reincarnation, and they do not need to participate in the disciple competition. Under normal circumstances, few newcomers will take the risk to participate.

But can Wang Yi be normal?

Only the disciples can quickly improve their status and get a lot of points and generous rewards.

Wang Yi had already learned that according to the Wujianlou tradition, only those who entered the top ten in the disciple competition and entered the top ten for the first time could receive the rare treasures bestowed by the Wujianlou to assist their cultivation.

However, if you want to become a golden-clothed disciple... You can only become a golden-clothed disciple unless you create your own top eighteenth-order secret technique!

This is the only way to become a golden-clothed disciple!

Otherwise, even if you defeat the golden-clothed disciple, you will still be the purple-clothed disciple even if you defy the sky!

Wujianlou is very dead in this regard.

Breaking into the top ten in the Disciple Competition for the first time? This is a very arrogant idea.

You must know that there are many disciples of Ziyi in Wujianlou, tens of thousands.

Cultivation does not know how many times of reincarnation.

The lowest is the top seventeenth! Moreover, he has obtained many opportunities and benefits in Wujianlou, and his strength is far beyond that of the same-level Eternal True God outside.

Especially the most outstanding disciples in purple clothes, after reaching the top ten, they have the opportunity to obtain the unique skills of the god-king level, as well as various resources to help them, making them even more evil.

As a result, he broke into the top ten when he participated in the Disciple Competition for the first time, which is rarely seen in history.

But in order to practice, Wang Yi still decided to do it!

After thinking for a while, Wang Yi finally chose "Ten Spectacles of Slaughtering Spirits".

"As long as I succeed in cultivation, I'll be sure to rush into the top ten of Ziyi's disciples. At that time, I can even go to the fourth floor in exchange for a unique skill."

It's fake to change the secret school, and it's real after signing in.

As for breaking through the chaotic master... Wang Yi felt that an era of reincarnation should not be enough.

Then get more benefits for yourself.

After choosing "Ten Spectacles of Slaughtering the Spirit", the points on his body were not enough to exchange for "Dao of Chaos Void", and the other layers could not enter. Wang Yi wandered around again and left the Senluo Palace.

...

Wang Yi originally thought of visiting other places in Wujian Mainland to see if there was a chance (signing in).

It turned out that many places were not allowed to enter, and disciples were prohibited from approaching, or even hidden.

After strolling around, there was nothing to gain, and Wang Yi could only return without success.

"Let's see if there are other ways to get points."

Wang Yi checked it carefully through the disciple token.

The purple-clothed disciples of Wujianlou cannot normally go out and leave the Wujian universe, but if they want to get points, in addition to the disciple ranking, they choose to go to various secret realms.

Wang Yi was refreshed.

There are a total of 900 secret realms in the boundless universe for these disciples to roam!

Some of these secret realms are naturally formed and exist in chaos, and some are artificially created and tempered for these disciples.

Disciples can choose any one of the nine hundred secret realms for training. Each secret realm has different tasks and can get a minimum of 100 points and a maximum of 10,000 points.

"Up to 10,000 points?" Wang Yi blinked. "If the Nine Hundred Secret Realms can be completed perfectly, then wouldn't it be nine million points? This is more than the points given by the top Ziyi disciples in each reincarnation era."

The top ten disciples in purple clothes can get one million points in each reincarnation era.

After ten reincarnation eras, there are also 10 million points! There are many chaos masters, and all their net worths add up to not so much!

But there are not many purple clothed disciples who can break into the top ten from the beginning and firmly occupy the position.

Normally, the top ten positions are for the top twenty Ziyi disciples to compete for.

And the top twenty of the purple-clothed disciples are said to be able to compete with the Chaos Master.

Even the weakest master of chaos, that's pretty incredible.

Only the golden-clothed disciples are the most special and transcendent.

Because the golden-clothed disciples can only rely on pure secret techniques! It is not possible to go up by external force!

The following introduction about the secret realm of chaos shocked Wang Yi even more.

Each chaotic secret realm is carefully selected, the environment is special, and the mystery is endless. In addition to allowing the disciples to enter the training and obtain points rewards, there are also various opportunities.

It can allow disciples to comprehend different paths.

For example, there is a "Burning Prison" suitable for the Fire Road, a "Magic Ice Lake" suitable for the Ice Road, a "Wanling Mountain" suitable for the Body Refinement Road, a "Dark Heart Valley" suitable for the Void Realm Road, and a "Dark Heart Valley" suitable for the Slaughter Road. 'Scarlet Abyss', 'Echoing Void Corridor' suitable for the Wave Dao...and more!

When the disciples go out, they are also tempering themselves and improving their perceptions.

Every place is a treasure land for different cultivation paths! The higher the realm, the higher the level of the secret technique!

Of course, for the Eternal True God, the most important thing is to become the master of chaos. Most of the disciples in purple clothes only have ten years of cultivation time in the era of reincarnation. How to choose is up to them.

Wang Yi was shocked.

Nine hundred chaotic secret realm?

Isn't this nine hundred ways?

The depth of the Wujianlou is really terrifying.

Wang Yi couldn't help but be moved. Immediately decided that this secret place must be visited.

It is not difficult for him to become the master of chaos, it is only a matter of time.

But after becoming the master of chaos, it is necessary to embark on a new path.

But Wang Yi decided to cultivate a lot of Taoism.

Speaking of which, his strongest strengths are Body Refinement Dao and Destruction Dao.

Then there is the Soul Illusion Road.

The last is the Void Dao, which has no achievements, and the Void Dao can't even see a shadow.

In fact, most practitioners practice more than one path at the same time to make up for their own deficiencies.

Although different Taos disperse energy, if you achieve something, it will also obviously improve your strength.

For example, Wang Yi knew that the Xia Emperor of the Xia Kingdom, the most invincible and invincible ultimate realm cosmic **** in the Jiexin Continent created by Yuan, had reached the ultimate realm, both the Fire Road and the Void Road.

Later, Dongbo Xueying, the lord of Chaotic Origin, was also able to walk the Void Dao and the Void Realm Dao at the same time.

Void Dao, help Dongbo Xueying to refine his body, split his body, and teleport into the void.

The Way of the Void Realm was also a crucial factor for Dongbo Xueying to eventually become the Chaotic Source Lord.

"Void Dao can complement my body refinement." Wang Yi secretly said.

"Dongbo Xueying cultivated the avatar technique in the World Heart Continent. It seems that he has also broken through the holes in the source world and absorbed the Chaotic Source aura before he can cultivate."

"So this Void Dao... must be mastered."

It's just that it is too difficult to break the essence of the void and break the cage. Some cosmic gods like the Void Dao did not do it. It is not enough to be powerful, but also need to find the right 'direction'. Just like the avatar technique, find the opposite direction, and you can learn it in Chaos Realm!

To put it bluntly, it is not just that if you become a universe god, you can master the avatar technique, you have to comprehend it, create it, and learn it!

Like the ancient clan, similar to the "Ancient Xiu" system, Wang Yi once saw at the Royal Court Conference that the ancient clan aborigines in the realm of eternal true gods could easily separate two clones with similar strength to the main body! This is the realm of Eternal True God! This is the advantage of different systems!

Lord Xue Ying's true 'Separation Technique' is even more insane. When there are nine clones, at most two clones have perfect strength.

When there are 10081 clones, it is the limit to keep the nine strongest souls, which means that nine clones can have peak strength, and all other clones have to dissipate! And if only eight clones remain at their peak, then the remaining tens of thousands of clones can maintain their existence, but their strengths are very weak.

It can be said to be very defiant!

Like the Origin Continent, normal Chaos Lords can only have one or two clones, and their strength is far less than their own!

The secret technique that can make a clone have the same strength as its own is a peerless method!

There is a God King in Jieshan Palace, called Qingyang God King. It is said that he cultivates three clones, and each clone has combat power close to the main body, which is already very terrifying. This kind of situation is relatively rare in the king of gods.

Of course, the rules of each world are different and cannot be generalized.

Wang Yi knew that, except that the way of Chaotic Origin in the infinite Chaotic Origin space was the same, in fact, the rules of each Origin World were different.

Therefore, those **** kings who have reached the ultimate state, once they leave the source world and go to other worlds, are limited by the rules, their strength will not be able to exert their strength, and their own survival may even be a problem.

"As for Soul Dao... I'll talk about it later."

He needs to eat one bite at a time. He is now a little guy in the realm of Eternal True God, and it is useless to think so much.

After all, his Void Dao and Soul Dao are far inferior to the other two.

"Huh?" Wang Yi suddenly saw a familiar name.

"Yuanshen Palace?"

Wang Yi's body couldn't help being shaken.

Yuanshen Palace? He had heard of it in his previous life.

Appeared in the heart of the world.

There, Yuan... was recognized as the No. 1 powerhouse in Jiexin Continent.

In the first ancient country war and the second ancient country war in the world heart continent, in the end, Yuan intervened, and the six ancient countries stopped the war.

Yuan, built countless 'Yuanshen Palace', scattered all over the world heart continent.

Yuanshen Palace is divided into ten floors.

In fact, he knew that the Yuanshen Palace existed in the continent of origin, and the inheritance of Wu, Jin, and Duandonghe all vaguely revealed the existence of Yuanshen Palace.

But Yuanshen Palace is in the origin continent, but no one has heard of it.

The reason is that the Yuanshen Palace of the Origin Continent is in the hands of the top forces of all parties.

Therefore, countless practitioners do not know the existence of Yuanshen Palace.

This was the first time Wang Yi had seen the Yuanshen Palace with his own eyes, and he couldn't help but watch it intently.

Yuanshen Palace is used by Yuan, the first powerhouse in the origin continent, to test the strength of those who come in.

The internal trials of Yuanshen Palace are all kinds of different opponents. Variety.

Passing through the first floor of Yuanshen Palace requires the strength to reach the realm of normal eternal true gods.

Through the second layer, it is considered the strength of the middle eternal true **** realm.

The third layer is the high-level eternal true **** realm strength.

The fourth floor has reached the limit of the eternal true **** realm.

Equivalent to the fourteenth to the seventeenth.

The fifth floor of Yuanshen Palace has already reached the threshold of Chaos Realm, and it is relatively close to the real Chaos Realm giant.

If you want to say it, it is equivalent to the eighteenth-order combat power.

In fact, almost all of the purple clothed disciples of Wujianlou have such strength.

But there is no one who can reach the sixth floor. That is truly comparable to the normal Chaos Realm giant.

On the seventh floor, there are only a handful of the Eternal True Gods who have succeeded in breaking through the barriers in history. They are all amazing and brilliant figures in the history of the origin continent.

Wujianlou stipulates that if the Eternal True God breaks through the seventh floor, he can be the elder of the inner hall. The inner palace elders are generally awarded to the real chaotic master giants, and the Eternal True God can be awarded. It can be seen that the seventh floor of Yuanshen Palace is very difficult.

On the eighth floor, no Eternal True God has ever crossed the eighth floor in history.

The Yuanshen Palace has ten floors.

Chaos realm, the normal extreme is the ninth floor of Yuanshen Palace.

The ninth floor is already equivalent to the extreme of the Chaos Realm. If you can reach that point, you have some confidence in saving your life under the king of God.

Can the Chaos Realm reach the tenth floor of the Primordial God Palace and overwhelm the newly promoted Cosmic God?

Even if there is no Great Destruction of the Origin World, there are not many World Heart Continents with a long history and profound heritage from the same era, let alone the Origin Continent.

The Chaos Realm in the World Heart Continent can use external forces and secret techniques to exert the tenth-layer combat power of Yuanshen Palace.

However, the origin continent is obviously much weaker than the world heart continent, which Yuan specially loves.

Therefore, in the entire history of the Origin Continent, there were only two of the powers of many countries who were able to break through the tenth floor of the Primordial Spirit Palace in the Chaos Realm.

They are capable of overpowering the new gods of the universe.

Pressure and rivalry are two concepts.

Some chaotic masters in the origin continent are very anti-sky, and with the help of various means, it is said that they can rival ordinary **** kings.

But compared with those two, is much worse.

The two of them have also achieved very high achievements. One of them is the monarch of the largest country in the Origin Continent, the "Da Yue Kingdom", the God King Goujian who is invincible.

Wujianlou also stipulates that whoever is able to pass through the tenth floor of Yuanshen Palace can get the position of the hall master!

The hall masters of Wujianlou are all **** kings!

It is remarkable that a Chaos Lord can truly be on an equal footing with the God King.

After all, some chaotic masters in the origin continent say that they can be on an equal footing with the king of gods. That is because they give you face and want to win you over.

And this is the real thing!

Wang Yi was filled with emotion.

"The tenth floor of Yuanshen Palace? I don't know when I will be able to reach that level in the future?"

[Chapter 886: "Spirit Killing 10 Spectacles"](#)

Wang Yi returned to the palace residence on the island and began to practice.

""The Ten Masterpieces of Slaughtering Spirits". "

Wang Yi was immersed in this top-notch mystery of will.

"Ten Spectacles of Killing Spirits" is only slightly worse than the "Mystery of the Eyes of God" created by the God King of Jin.

It's just that the requirements are too high, and the cultivation is extremely difficult, which caused it to be placed on the third floor of the Senluo Palace.

But it is also the top-notch skills of the third floor.

"If I succeed in the third stage of cultivation, and I add the will of becoming a saint, then some masters of chaos are not necessarily my opponents." Wang Yi was full of confidence.

Because many Chaos dominates the will is the top of the will, but the secret art of the will is not necessarily comparable to Wang Yi.

Of course, with the help of the will, the Chaos Lord can also resist.

It is not easy to completely defeat the will of Chaos Lord.

Even so, it was enough for Wang Yi to suppress some of the weaker Chaos Masters.

The power of the will secret technique is that the will is not as good as one's own, it is absolutely crushed.

"Ten Masterpieces of Slaughtering Spirits", after all, is a unique skill created by a god-king. Although it can only reach the level of chaos master, it is also the top level of chaos master level. Generally, Chaos Masters may not be able to learn.

"Spirit Killing Ten Spectras" is divided into three parts.

Among them, the first level is the easiest. Generally, as long as the Eternal True God spends a little energy, it can be easily practiced.

The second stage is difficult at the beginning, and it requires the will to become a saint to cultivate. It takes a lot of effort to practice.

The third level is to become a saint of will, and it has a very high demand for will talent. Even so, it takes an unknown number of years to study and ponder before it can be finally cultivated.

This prerequisite would deny countless eternal true gods, not to mention the difficult cultivation method. And once the power is practiced, it is also very scary.

In the past, among the disciples in Ziyi who can successfully cultivate in the second stage, they are sure to rush into the top 20. If they can successfully cultivate in the third stage and reach Consummation, then they are confident in the top three.

"According to the secret law, the higher the willpower, the easier it is to cultivate." Wang Yi muttered in his heart. This kind of secret technique, the so-called strength of will is a "foundation", the stronger the foundation, the easier it is to practice, and the foundation also determines the highest achievement.

Of course, you have to have talent! Comprehension! Indispensable!

Generally, the closer you get to your limit, the harder it is to improve. This makes it generally take an incomparably long time to constantly ponder to study and cultivate.

And Wang Yi's will is to be called the top of the Holy Spirit, and he is only one line away from the will of the God King, and his talent is even more outstanding. It is easy to capture the first level of cultivation.

The foundation is too deep, and it is naturally thousands of times easier to cultivate than those who are "weak-willed and poor in talent".

Time passes silently in practice.

The first level, three epochs practiced.

The second level, a thousand epochs practiced.

The third level took a lot of time, and the 18.1 billion Era had just been completed.

In fact, compared to the normal master of chaos, which takes several reincarnation eras to train, Wang Yi achieved the third level in just over 10 billion epochs, which is very against the sky. His foundation is super solid, but this unique skill is complicated and profound after all, and it took tens of billions of epochs to finally master it.

In the palace, Wang Yi smiled.

"The Ten Masterpieces of Slaughtering the Spirit has finally been completed."

"My strength should be considered the top among the purple-clothed disciples now."

The purple-clothed disciples are mainly divided into three levels, and the third level is almost all close to the normal Chaos dominates the combat power.

Like Wang Yi, being able to suppress many chaotic masters with "Spirit Killing Ten Peculiar Species" is already much stronger than ordinary third-level purple-clothed disciples.

"It's really troublesome. If I can perform the "Lie Yuan Technique" openly, the purple clothed disciple? Even the golden clothed disciple, I have the confidence to defeat it easily." Wang Yi secretly said in his heart. "If you want to become a golden-clothed disciple, strength alone is useless. Next, I have to improve the level of my secret technique."

Wang Yi's secret law level is only the top seventeenth level.

Among the purple-clothed disciples, they can only be regarded as ordinary.

And how to improve the secret law level, Wang Yi also had an idea in his mind.

"The law of chaos is the ultimate law!"

"Because everything is transformed by chaos, everything is possible... Three laws can be combined with each other, even four laws can be combined with each other, and even five laws can be combined with each other..."

"Before the Law of Chaos, a single source, the secret method at most reached the limit of the eternal true God!"

"If you want to break this limit, you have to integrate the mystery of origin."

"For example, the combination of the mystery of the origin of flame and the mystery of the origin of thunder can reach the level of the eighteenth-order secret technique!"

"For example, destroying the source can also be combined with other source mysteries to improve its level."

Wang Yi thought to himself, "However, the most convenient way is to combine the ten basic principles. After all, the ten basic principles are derived from the laws of chaos. It is naturally much easier to start with the ten basic principles."

"It's still a while before the next disciple competition. If we can create an eighteenth-order secret method before the disciple competition, that would be the best."

Wang Yi looked outside the palace and pondered for a while, "Sharpening knives doesn't cut wood by mistake. Nine Hundred Secret Realms should be able to help me comprehend and study the secret methods, so I can go there and see."

...

The nine hundred secret realms of Wujianlou, some are formed naturally, some are man-made, each has its own uniqueness, contains different paths, can help assist cultivation, and is brought together by the great power of Wujianlou to transform into these 900 secret realms.

The secret realm is usually allowed to come and go freely by these purple-clothed disciples, but each secret realm can only do one secret realm quest, and it cannot be done again after completion.

According to the task evaluation, you can get rewards ranging from 100 to 10000 points.

And the most frequent haunts of the purple-clothed disciples are some mystical realms related to the ten fundamentals of metal, wood, water, fire, earth, wind, thunder, electricity, light, time, and space.

Wang Yi teleported several times in a row and rushed directly into the vast chaotic airflow.

In the chaotic airflow, there is a towering palace guarding this side of time and space.

Some purple-clothed disciples come and go here.

When Wang Yi came to the majestic gate, a great white shark in purple clothes swam out and sighed.

"Hey, it's only three hundred points, so unlucky. I spent a lot of time trying to get into that secret realm."

There is a time limit for Ziyi disciples to cultivate in the Wuji universe. If they spend too much time in the secret realm and delay their cultivation, they will lose more than the gains.

Wang Yi watched the great white shark walk away before turning around and walking into the imposing palace.

There is a super presence of Wujianlou guarding the palace, and no Ziyi disciple dares to make trouble here.

If you want to enter the Nine Hundred Secret Realm, you must also teleport here.

After completing the mission in the secret realm, you can also check here to receive the reward points.

On the first floor of the palace, there is a vast world. In addition to the largest lake in the middle, there are hundreds of other slightly smaller lakes.

The largest central lake has an island, the island in the center of the lake. There is a continuous palace on the island, and the Chaos Lord sits in the seat. It is also the place where the purple-clothed disciples settle their tasks.

Hundreds of other lakes are teleported.

At the center of each lake is a huge towering stone tablet with ancient writing on it.

Wang Yi followed the map instructions to a stone tablet engraved with dense runes, and looked at the huge ancient writing on it.

The words soared like fire, containing a violent and violent atmosphere, which pierced directly into the soul.

"Burning prison?"

"Well, it's here." Wang Yi lowered his head and muttered. "It is said that if you go to the burning prison, you can comprehend the way of flames."

As for the task...you can do it if you can, and the most important thing is to practice.

Some tasks are time-consuming and energy-consuming. Wang Yi's main goal is to comprehend the rules, and he doesn't want to put the cart before the horse.

Mainly because the points are too low.

It might be a few hundred thousand points after a hard trip, but Wang Yi was unwilling to force it.

The lake below was as smooth as a mirror, and there was a misty mist on the surface.

Wang Yi's heart suddenly moved, and he turned his head to look. An illusory figure walked over the lake from a distance. It was wearing a purple robe, with a thin face, some fluff on its face, and golden eyes beating like stars. At this moment, it stepped onto the lake with a smile. Heart, look at Wang Yi.

"Brother, you look a little unfamiliar. Could it be that you are a new junior in the universe?"

Wang Yi nodded slightly, "I saw my senior brother in Xia Jiujiang Yi."

The other party laughed, "Don't be so polite, just call me Gao Gao."

It looked at Wang Yi, "Looking at you, do you want to burn the prison? Shall we go together?"

Wang Yi said: "Okay."

Wang Yi's straightforwardness made the other party show a smile.

"Then let's go."

Both Wang Yi and Gao Gao flew directly to the lake surface. When they approached the surface of the lake, light bloomed on the lake surface, and the space rippled like water waves, and the soft light directly drowned the two of them.

When the light subsided, both of them left here and were transported to the secret realm, and the lake surface returned to calm.

...

The origin continent, the capital of Baoliu Kingdom, the Wujianlou branch.

Virtual space, mystic tower, the eighth floor.

"Soul Universe!" A white-robed man's breath was gentle but unfathomable, his eyes were as calm as the sea, the divine power on his body was burning, and invisible fluctuations spread out, covering the entire space.

A phantom of the universe quietly emerged.

It seems real, and it seems unreal, everywhere.

The opponent opposite him is a shadow with an indeterminate figure, only seeing a pair of eyes that make people sink.

"Six Desires Celestial Wheel!" The powerful soul power condenses in the void to form six Celestial Wheels, containing the desires of various spiritual creatures, as if endless desires, seem to drown the whole world.

The white-robed man was unmoved and shook his head. "This method, in my opinion now, is too low."

Breaking into the secret tower, choosing the corresponding opponent, you can only use the corresponding means.

The original ancestor entered the eighth floor and chose an eternal true **** who is good at the soul path.

And what he has used is also the most powerful soul secret method he created in these years, the soul universe. With the creativity of the virtual universe and the mystery of the operation of the original universe law over the years, a big killer created.

"Boom~~" Two huge forces fought each other in the void, rushing towards each other.

Yuanzu was also hit by the move of the gatekeeper on the eighth floor.

But his eyes remained clear and calm, unmoving.

Strong will, forcibly break the illusion and keep yourself awake.

It is true that you can only use the secret method created by yourself, but the will is its own ability and an advantage.

In these years, the original ancestor obviously has the stronger and deeper will.

After all, he was the first to break through the will of the Holy Spirit, and to create an incredible virtual universe-defying secret method in the true god, and now he has also taken away the peerless character of the original universe, the original ancestor, the legend of the universe sea.

How can a character who can make Chaos master Changhong's heart break through the era of millions of reincarnations be simple?

The original ancestor blocked the opponent's attack, but the gatekeeper was caught in the original ancestor's soul trick.

"It's an illusion, an illusion, break it for me." The gatekeeper was roaring with consciousness, but endless illusions kept coming. He tried to break through the first illusion, but there was a second and third illusion. Not sure which is true and which is false.

"Ah~~" A soft sigh rang out in his ear, hitting the gatekeeper's mind like a hammer. His whole body instantly stiffened, and a pair of deep eyes appeared in his sight.

"Pong!"

The gatekeeper's eyes became confused, the figure fell from the air, and before it landed, it disappeared like a bubble.

Then agglomeration appeared again.

"Congratulations, you passed the eighth floor." The gatekeeper smiled.

The original ancestor looked in the direction of the ninth floor, and a huge beam of light fell.

...

The capital of the King of Baoliu, a mansion in a prosperous area.

The original ancestor in a white robe walked in the garden with the woman in colorful clothes.

"I have already passed the eighth floor of the Secret Law Pagoda, and I have obtained the qualification as a disciple of Ziyi, and I will soon go to the headquarters of Wujianlou." Yuanzu sighed. "I'm not here during this time. What I worry about most is the boy with the giant axe. He often fights in the army of Tianji Kingdom. It's too dangerous."

The ruler of Changhong next to him nodded and smiled slightly. "Don't worry, I'll watch it for you, you just need to cultivate in peace there."

The original ancestor looked at the woman in front of him, "I am in Wujianlou, and I have practiced ten reincarnation eras in short, long...I don't know."

Lord Changhong said nonchalantly, "The longer you practice, the better."

Then she reminded with concern, "At the Wujianlou headquarters, remember to be careful, and you should take everything I asked you to bring." Changhong Master was just as concerned and reminded as his husband's wife who was about to go away.

Wujianlou, that is a behemoth that suffocates Changhong's existence. It can affect the entire origin continent, and even the king of gods dare not provoke it easily.

Luo Feng also learned that the original ancestor had passed through the eighth floor of the Secret Law Trial Tower and became a disciple in purple. This matter has spread throughout the entire Wangdu Wujianlou branch, even the inner hall elder who sits in the branch, a chaos master~www.mtlnovel.com~ also personally inquired about it, and it was also a credit that there was a purple-clothed disciple in my branch who could go to the headquarters.

Luo Feng and Yuan Zu met and talked in detail.

"After Wang Yi, you have already become a disciple of Ziyi and walked ahead of me." Luo Feng said with emotion. Although his will has also stepped into the holy level, and he is an entry into the "Lie Yuan Technique", the secret law level has remained at the seventeenth level for these years.

Yuanzu smiled and said, "I believe you will be very soon too."

Luo Feng smiled. "Then we will meet at the Wujianlou headquarters."

The origin continent, an unknown mysterious time and space.

A tall and straight, short-haired and stern young man in black, holding a long spear, looked grimly at the dark and boundless world in front of him, and frowned slightly at the faint roar of strange sounds.

"How on earth can we get through this level? Does it have to be the master of chaos?"

[Chapter 887: Mystery Journey](#)

As soon as the screen turned, Wang Yi and the illusory figure appeared in a boundless sea of fire.

The space was distorted by the fiery flames, forming a strange world.

"Junior Brother Jiujiang, this is the prison burning." Gao Gao smiled.

Wang Yi nodded. He had already learned about many secret realms in advance.

Nine hundred secret realms are more or less dangerous.

According to the normal law, as long as it does not go deep, it is generally not life-threatening.

Like burning a prison, look at the color of the flame to identify the danger, the red flame is not dangerous to the eternal god, the black and red have to pay attention, the complete black flame, the eternal **** can't support it for a long time, if there is a white flame in the depths, only chaos dominates To be able to bear, and the more terrifying flame of nothingness... It is said that the master of chaos can burn.

In addition to the flames, there are other dangers in the burning of the prison.

But the most terrifying thing is the flame of nothingness. When the Eternal True God encounters it, he will surely die!

It is a white flame, and it is a life-and-death situation!

But the flame of nothingness, in the deepest part of the burning prison, as long as you don't die, you won't encounter it.

White flames can be seen from a distance and can be avoided, so these secret realms are dangerous, but not too dangerous.

Wang Yi stared at the boundless sea of fire in front of him. "The secret mission of Burning Prison is to search for fire lotus."

"Among them, the nine red fire lotuses are one hundred points."

"Three black fire lotuses are one thousand points."

"One white fire lotus is 10,000 points."

"All completed, it is 11,100 points, which is equivalent to tens of thousands of Chaos Crystals." Wang Yi secretly said in his heart. "For the Eternal True God, it is not a small wealth."

"But the red fire lotus is nothing. It's the easiest to find them after spending time and slowly searching around the periphery. The black fire lotus usually appears near the black flame, which is already a little dangerous for the Eternal True God."

"White fire lotus? If you are lucky, you can find it near the black flame. If you are unlucky, even if you go to the white flame to find it, you may not find one even if you risk your life." Wang Yi shook his head inwardly.

The meaning of the existence of this secret realm is to give the disciples enlightenment, and the second is to train them. Obviously, high-scoring tasks will not be too easy.

"Haha, Junior Brother Jiujiang, I'll take the first step, you should be careful." Gao Gao and Wang Yi chatted a few words, then said goodbye and flew to the other side.

Wang Yi watched Gao Gao's figure disappear and flew to the other side.

When Wang Yi entered the burning prison, his consciousness sensed the various source fluctuations of fire with unprecedented clarity.

It is much different from his cultivation with the Fire Origin Divine Crystal, but this is the induction of the entire external source without any cost.

A Fire Origin Divine Crystal can only allow him to cultivate for a thousand eras.

In front of him, the origin of the flames of the whole world made him realize.

"It's amazing." A tremor appeared in Wang Yi's eyes.

"It is said that some special and rare origin secret realms can help to understand and improve the efficiency of cultivation, which is really good."

Moreover, Wang Yi has already comprehended the origin of the flame, and his sense of the various mysteries of the fluctuation of the origin of this world is even clearer.

If you don't understand the origin of the flame, you won't have the feeling of Wang Yi.

Assuming that the clarity of Wang Yi's perception of the origin of the flame with the flame crystal is 100, then the clarity of the induction is about 20!

"This is only the outermost periphery of the prison." Wang Yi was slightly excited. "It is said that the closer you are to the depths of the burning prison, the more and clearer the mystery of the origin of the flame is sensed. However, the core of the burning prison, it is dangerous to enter the master of chaos. Isn't the eternal true **** courting death?"

In the flames that filled the sky, Wang Yi was flying cautiously.

Although he has many treasures on his body, he left a drop of "undead blood" in the Tongtian Tower, and he can be resurrected after death.

However, it is better to be cautious.

"I have a Chaos Master Palace on me, which should be able to resist white flames."

As for the legendary flame of nothingness...

Even the master of chaos must be faced with caution, and Wang Yi has no clue in his heart.

"To understand the origin of flames here, you will get twice the result with half the effort." Wang Yi enjoyed the feeling of being surrounded by the origin.

After comprehending the origin of the flame, coming here is like a fish returning to the sea.

Wang Yi flew all the way toward the depths of the burning prison.

[Ding, congratulations to the host for successfully signing in, and rewarding one lotus seed from the "Burning Prison Red Lotus".]

Wang Yi raised his brows and looked at the extra red lotus seed on the panel. It was crystal clear and sparkling, beautiful and moving, and there was a desire to swallow it.

"Is this the lotus seed of the flaming red lotus?" Wang Yi took it out and looked at it carefully.

The Flame Red Lotus, also known as the Burning Prison Red Lotus, is a treasure naturally bred by the Burning Prison.

Its lotus seeds and petals can temporarily enhance the ability to sense the origin of the flame, which is regarded as an auxiliary cultivation treasure.

"The secret mission requires a red lotus, but this is actually a lotus seed." Wang Yi shook his head. Not sure what to say about the stinginess of the panel.

"Try it." Wang Yi swallowed it in one gulp, and sure enough, his sense of the origin of the flames around him became clearer.

If it was twenty before, it should be forty now.

Wang Yi narrowed his eyes slightly.

"Prison Burning Red Lotus is so potent. The training effect of Burning Prison Black Lotus is said to be ten times that of Red Lotus, and the effect of Burning Prison White Lotus is a hundred times that of the former! It is said that Burning Prison White Lotus also permanently enhances the user's flame source talent. The effect is definitely a top-level treasure in the minds of practitioners who practice the flame origin path."

"You must get it." Wang Yi was moved.

"Fortunately, although the secret realm quest says to search for treasures, these do not need to be handed in, and they can be left for themselves at that time."

"I have the protection of many treasures such as the Chaos Dominant Palace. Even the black flame area and even the white flame area can be used." Wang Yi took action and accelerated to fly deeper into the prison.

The deeper the prison, the clearer the sense of the origin of the flame.

If the induction range is displayed in numbers, it is forty-one...forty-two...fifty...continuously rising.

As Wang Yi went deeper, the temperature of the surrounding flames continued to rise.

A red and black flame appeared in Wang Yi's sight.

Here, for the Eternal True God, there is already some trouble.

Without the protection of battle armor, the Eternal True God would not dare to touch this flame.

But Wang Yi didn't care.

Not to mention that he is wearing a mechanical treasure "Baqi Sheng" that is close to the holy level, even his own physical defense has reached the limit of the eternal true god!

It can be said that even if Wang Yi wears nothing and goes out naked, these flames may not hurt him.

Wang Yi's current body is so abnormal!

There are only white flames and the legendary flames of nothingness. To make him afraid.

And reminders kept coming in Wang Yi's mind.

[Ding, congratulations to the host for successfully signing in, and rewarding a "Burning Prison Red Lotus".]

Finally rewarded with a Prison Burning Red Lotus.

A whole body fiery red, as if a coquettish red lotus made of pure flame appeared on the panel.

A red lotus has twelve lotus seeds.

Wang Yi took it out, shoved it directly into his mouth, and swallowed it after a few sips.

Also smacking his lips.

Cow chew peony is just like that.

The clarity of the induction of the mysterious fluctuations of the source of the surrounding flames has been improved again.

continue.

Wang Yi went deep all the way, with constant reminders in his consciousness.

[Ding, congratulations to the host for successfully signing in, and rewarding three "Prison Burning Red Lotus" lotus seeds.]

[Ding, congratulations to the host for successfully signing in and rewarding a "Fire Origin Divine Crystal".]

[Ding, congratulations to the host for successfully signing in, and reward the "Flame Crystal Sand" side.]

[Ding, congratulations to the host for successfully signing in, and rewarding a "Burning Prison Red Lotus".]

...

Gao Gao, the illusory figure who had separated from Wang Yi soon, was also searching in the sea of fire and comprehend the origin of the flame. Still muttering. "My eighteenth-order secret method, I don't know when it will be created." Gao Gao sighed, its time in the Infinite Universe is running out. So Gao Gao became anxious.

"I need more points to exchange for better secrets and more treasures for cultivation."

"If I can rush into the top 100 next time, I will be able to get more resources, and I will have a little more confidence in becoming the master of chaos."

Gao Gao had longing in his eyes.

The closer to the ten reincarnation era's cultivation time limit, the deeper the sense of urgency in the hearts of these purple-clothed disciples.

When they leave the Wuji Universe, they won't have such a good cultivation environment.

To be honest, he was a little envious of the newcomers who just came in, at least not so troubled.

"The next class dominated by Concubine Yan, I have to listen to it, and let her give some pointers... Why did I search for so long. Can't find a single red lotus?" Gao Gao looked around.

the other side.

Wang Yi looked at the flaming red lotus in the row down the panel.

Before you know it, the task of searching for the nine flaming red lotuses in the secret realm task has been completed.

All of them were rewarded by the panel. As for what he found, there was not a single one.

And also got some other treasures related to the origin of the flame.

"Let's be so-so." Wang Yi reluctantly accepted the result.

He was already in a black and red sea of fire, and a black flame river was faintly flowing in the distance.

The temperature here has risen to the point where the Eternal True God can't carry it without the treasures of the palace.

Even if you use the palace treasure, you need to consume divine power all the time to maintain it, and you won't be able to stay in it for long.

But Wang Yi has a Chaos Master Palace, a huge divine body that spans tens of millions of light years, and many treasures that supplement divine power. This is completely true.

Taking out the treasure of the palace obtained in Mi Shenze, Wang Yi slammed into this black world.

Boundless flames surging, majestic!

The Chaos Master Palace can easily withstand the power of this black flame and easily pass through the black sea of fire.

There are also some black bolides shot out of the sea of fire and accidentally hit, even if the eternal true **** will be severely damaged or even fall!

But for Wang Yi's palace, it can only be lonely.

The shock, transmitted to the palace, even the Void True God couldn't hurt. For Wang Yi, it was no different from listening to a cannonball.

"Oh~ that's wonderful."

With his eyes closed, Wang Yi could feel the fluctuation of the origin of the flame here, and it became clearer!

If it was said that the sensitivity of the red lotus without the flame was 20 before, it is now 100!

It's almost the same effect as using Fire Origin Divine Crystal!

A year of cultivation here is worth a hundred epochs outside!

However, there are not many eternal true gods who have the ability to go deep here and stay there.

In the Wujianlou headquarters, how many purple-clothed disciples can have a palace like Wang Yi?

It is the master of chaos, and many of them are not the treasures of chaos master-level palaces.

"It's really a treasured place for cultivation." Wang Yi sighed.

The black flame area is like this, how much should the white flame area improve the clarity of the source induction?

If you add the edible cultivation effects of Burning Prison Red Lotus, Burning Prison Black Lotus, and Burning Prison White Lotus...

Then the speed of cultivation is still in the sky?

Wang Yi licked his lips.

[Ding, congratulations to the host for successfully signing in and rewarding a 'Prison Burning Black Lotus'.]

The improvement of the panel sounded again, but Wang Yi was no longer satisfied with this gain.

His eyes glowed, and he looked at the depths of the black sea of fire with ambition.

Controlling the palace to quickly rush deeper.

"Wow~"

"Boom~~"

The black flames slammed into the palace like an ocean wave. The huge impact force alone was enough to make it difficult for the Eternal True God to move, but the palace still broke through many obstacles and flew towards the depths of the burning prison at an alarming speed.

[Ding, congratulations to the host for successfully signing in and rewarding a 'Prison Burning Black Lotus'.]

[Ding, congratulations to the host for successfully signing in and rewarding a 'Prison Burning Black Lotus'.]

...

From time to time, Wang Yi's consciousness still sounded wonderful prompts from the panel.

On the way to practice, two-thirds of the secret realm task has been completed.

But the most important thing is the last one.

Searched for a complete white lotus of the burning prison!

Prison-burning white lotus is usually born in white flames, but will drift to the vicinity of the black flame area with the flow, but generally it can only be found by going deep into the black flame area, so getting the prison-burning white lotus requires not only strength, but also luck !

Wang Yi flew for three epochs before finally seeing a touch of white in the black.

A smile appeared on Wang Yi's face, and the appearance of white flames meant that he was close to the area of white flames.

Wang Yi also began to be more cautious.

The power of the white flame is far greater than that of the black flame. When the Eternal True God encounters it, he will be seriously injured if he does not die. Only the Chaos Master or the Chaos Master-level Palace Treasure can resist.

The source fluctuations here are many times clearer than before.

However, Wang Yi's divine power maintained the stable flight of the palace, and the consumption was even more astonishing.

But Wang Yi didn't care too much.

"Boom~"

An incomparably hot breath rushed from the front, as if the entire void was on fire.

An endless dazzling white appeared in front, as if the whole world had been erased, leaving only a rolling white.

And Wang Yi also felt the shock of the palace~www.mtlnovel.com~ The speed of divine power consumption suddenly skyrocketed.

If it weren't for the Chaos Master Palace, even the Eternal True God-level Peak Palace Treasure would be destroyed very quickly here.

Destruction!

With this flame temperature, only the Chaos Lord can act freely here.

Even Wang Yi would not dare to touch it directly with his body.

The temperature of that flame is beyond common sense. Even if a universe can be easily destroyed, it can only exist in such a mysterious and mysterious realm.

[Chapter 888: Void true lotus](#)

Boundless white flames, monstrous heat waves.

Powerful horror!

If an eternal true **** is directly exposed here, it will turn into gray in an instant.

An ancient palace rises and falls in white flames.

"Wow, the mysterious induction clarity of the flame origin path here is too strong." Wang Yi's body trembled slightly.

The perception of the origin of the flame in my mind is rapidly improving.

"I understand the origin of the flame here, and the speed is thousands of times faster than the outside!"

Wang Yi couldn't help being excited.

"If I learn from the many unique skills of the Fire Dao that I got from the Senluo Palace in Wujianlou, I might be able to quickly create a top-notch mystery of the origin of flames."

His mind turned sharply, and he made a decision immediately.

"Just here, try to combine the source of flame and the source of destruction, and see if you can create a unique technique that integrates the source!"

"If it can be successful... then it should be able to surpass the limit of the seventeenth-order top secret law level!"

This is a new way to create an eighteenth-order secret method without breaking through the realm.

Otherwise, to create an eighteenth-order secret method, according to common sense, the realm is enough to break through the chaos dominated.

However, even integrating the mystery of origin is still extremely difficult.

Normally, you have to master at least two sources, and both have reached a very deep level, understand it thoroughly, and then painstakingly study it alone. It takes a long time and a little luck to create an eighteenth order that integrates the mystery of the source. Secret law.

It can be said to be extremely harsh!

Comprehension, xinxing, perseverance, and talent are all indispensable!

Otherwise, there would not be so few purple-clothed disciples who created an eighteenth-order secret technique, not one in a thousand.

Without further ado, Wang Yi immediately entered into cultivation.

The contents of thousands of secrets and secrets related to the Fire Dao that Wang Yi obtained from the Senluo Palace flowed through his mind, and Wang Yi chose the ones that were suitable for him to comprehend.

Drawing on the ideas of the powerhouses who have studied the Dao of Flame for many years will be of great help to Wang Yi's next creation of the Origin of Flame, and the fusion of the Origin of Flame and the Origin of Destruction.

At the same time, the incarnation of the beast hidden somewhere in the outside world also realized.

One comprehends the mystery of the origin of flame in the burning prison, and the other comprehends the origin of destruction outside.

And the world beast also comprehends Wang Yi's unique skills of destroying a lot of Dao from Wujianlou.

Two-pronged approach!

Different body and soul, but the same consciousness.

And the palace did not stop, and continued to fly slowly in the white sea of fire, carefully flying towards the center.

Years go by.

The boundless and mighty white sea filled the void, and a palace was as small as dust.

[Ding, congratulations to the host for successfully signing in and rewarding the 'Fire Origin Divine Crystal'.]

[Ding, congratulations to the host for successfully signing in, and rewarding the 'Burning Prison Crystal Heart'.]

[Ding, congratulations to the host for successfully signing in, and rewarding one lotus seed of 'Burning Prison White Lotus'.]

[Ding, congratulations to the host for successfully signing in, and rewarding the 'Secluded Cage Tinder'.]

At the same time, the prompts on the panel also sounded in Wang Yi's consciousness from time to time.

Wang Yi ignored these prompts and silently took out a lotus flower and swallowed it in his stomach.

The induction of the origin of the flame has been improved again.

Countless secrets and profound meanings are colliding and intersecting in my mind, stirring up countless inspirations.

"The Fire of Chaos", "Flame Universe", "Burning the Three Thousand", "The Book of Cinder River"... The mysteries of all the secrets of the Fire Dao were comprehended by Wang Yi one by one.

In the eighteenth millionth era, Wang Yi created the secret method of the 16th-order Flame Dao.

In the 31,580,000th era, Wang Yi created the seventeenth-order secret method of the Fire Road.

...

Finally, in the 94.71 million era, Wang Yi created the top 17th-order secret technique of the Flame Dao!

This efficiency is thousands of times faster than when creating and destroying the original secret method before!

You must know that it took Wang Yi almost two times of reincarnation to deduce the origin of destruction to the seventeenth-order secret law level.

But in the Burning Prison, only 100 million epochs was enough.

In the palace, Wang Yi exhaled.

"It took nearly 100 million epochs to finally create the seventeenth-order top secret technique of the source of flame, and this is the limit of what I can do in the source of flame."

"Destroying the source is also the limit!"

"The next step is to combine the source of flame and the source of destruction to create a unique combination of the two sources!" Wang Yi's eyes were deep.

Wang Yi thought for a while.

"There are thirteen kinds of secret techniques that combine the source of flame and the source of destruction that I got in Sen Luo Palace. I can learn from them and create my own secret techniques."

Wang Yi couldn't help but be glad that he was in Wujianlou and that he had a panel.

The accumulation of Wujianlou in the secret law books is too deep, and it is only the master of chaos, I don't know how much.

Not to mention, Wujianlou easily obtained countless secrets from the origin continent through its own channel advantages.

Broken East River, throughout the history of the sect, there is only one **** king, and a few chaos masters. Compared with Wujianlou, it is simply the difference between an ant and an elephant.

It was only through Wujianlou that Wang Yi was able to create the 17th-order top secret technique of the origin of flames so quickly.

Years of researching a large number of top secrets and secrets, as well as the special induction of the mystery of the origin of the burning prison, made Wang Yi extremely hot in his heart.

Those knowledge and experiences that have existed for countless years have opened up Wang Yi's mind and gained a lot.

In terms of talent and opportunity, he is indeed unmatched, but in terms of years of existence, he is not even one-hundredth of the billions of those ancient powerhouses.

What Wang Yi needs now is to learn from and accumulate experience in creating secret methods, and to see more ideas about creating secret methods will help broaden his horizons.

After watching all kinds of secret techniques, and then incorporating the "fire and destruction mood", Wang Yi began to gradually create his own fighting secrets.

This is a difficult road. Even those purple-clothed disciples are all carefully selected. Many geniuses from the origin continent have their own adventures, and even the strong guide. But only a few of them can create an eighteenth-order secret technique.

All the disciples in purple clothes are not bad in their understanding. After all, they can create the top seventeenth-order secret techniques. This is the limit of the eternal true god.

But the eighteenth-order secret method is completely different from the seventeenth-order, which means that they have a better chance of breaking through to become the master of chaos. Even Wujianlou, they value these geniuses more. will give them more opportunities.

And Wang Yi himself is the top genius, and he has the advantage that other geniuses don't have.

Other geniuses don't have the Tower of Babel like him to assist in their cultivation all the time.

There is no Chaos Lord Palace that can penetrate into this white flame area and cultivate with the help of the environment.

You must know that cultivating here consumes divine power all the time to resist the erosion of white flames, and they do not have the vast divine power of Wang Yi, which can always support this consumption.

Not to mention... Wang Yi also prostituted a lot of the secrets of Sen Luo Palace for nothing.

Even those golden-clothed disciples with the highest treatment can't be like Wang Yi, who can comprehend so many secret books on the third floor. Ten and eight books are good, hundreds of thousands of books, and some of them are very expensive in exchange for their net worth. The extremely rich Chaos Lord can't bear it.

With so many conditions, Wang Yi was able to comprehend the origin of flames to the top of the seventeenth order in just 100 million epochs! And I have the confidence to combine the source of flame and the source of destruction in the next short period of time to create a more powerful 18th-order secret method!

Of course, the incarnation of the beast is also an important reason. With the incarnation of the beast to help enlightenment, Wang Yi's main energy can be spent on the origin of the flame.

When Wang Yi was studying the secret method, the original ancestor had already arrived at the Wujianlou headquarters, the Wujian universe, and was assigned to the island of the new disciples just like Wang Yi.

He also got news of Wang Yi from that enthusiastic senior sister "Kui Ling".

After exchanging for a soul-based secret book that was more helpful to him in Wujianlou, Yuanzu also went to the Nine Hundred Secret Realm, and like Wang Yi, began to concentrate on cultivation.

His goal is also the next disciple competition!

The arrogant Yuanzu felt that he had to rush into the top 100 this time!

And the date of the disciple competition is gradually approaching, and the atmosphere of the disciples in the Wujianlou headquarters also began to be restless.

Burn the prison.

Although Wang Yi deliberately controlled it, the treasures of the palace drifted into the depths of the white fire unknowingly.

Wang Yi keenly discovered that the color of the surrounding white flames began to become transparent and illusory.

The consumption of his divine power is also much greater than when he first entered this area.

Although Wang Yi was immersed in cultivation, he also focused his attention on the surrounding environment, so he soon noticed that the situation had changed.

"This flame." Wang Yi thought for a while. "Could it be that this is the flame of nothingness?"

There are four main types of flames that burn hell: red fire, black fire, white fire, and nothingness.

Red fire is not dangerous to the Eternal True God.

The black fire can also be resisted by hiding in the treasure of the palace.

In addition to the Chaos Lord, Bai Huo, I am afraid that the Eternal True God can only be resisted by the Chaos Lord Palace Treasure.

As for the more terrifying fire of nothingness... the palace dominated by the Eternal True God with the help of Chaos is also very dangerous!

Only the Master of Chaos can act here, and he must be careful.

The flame of nothingness is a threat to the Chaos Lord.

Of course Wang Yi did not dare to be careless.

However, he also found that the closer he got to the fire of nothingness, the clearer his sense of the origin of the flame.

Wang Yi looked at the fire of nothingness, his eyes gradually changed, and he felt an unusual mystery.

"Um?"

"This fire of nothingness... seems to contain a trace of destruction?"

Wang Yi's heart moved.

He felt it even harder, and tried his best to touch the terrifying flame fluctuations that were destroying everything outside.

Finally... he sensed the ultimate, pure destruction.

It seems to belong to the fire of destruction, and it seems to belong to the destruction of fire.

Regardless of each other, it is natural.

"The fire of destruction..." Wang Yi murmured.

A flash of light flashed across his mind, illuminating his heart and breaking the confusion that had plagued him for a long time.

suddenly see the light.

His eyes grew brighter.

"Haha afraid..."

"Destruction...flame...that's what it is...that's what it is..."

Wang Yi couldn't help laughing.

He finally knew how to combine the source of flame and the source of destruction.

He looked at the white world outside with emotion.

"If I didn't have the protection of the Chaos Master Palace, I could go deep here. If I didn't have enough divine power reserves, I could stay here all the time without worrying about insufficient consumption. If it wasn't for me to destroy the source and the source of flames and reach the limit of the eternal true god... I'm afraid it will be difficult to discover the mystery of this nihilistic flame!"

Wang Yi sighed and sighed.

In this world, most of the opportunities are reserved for those who are prepared!

Otherwise, even if you are lucky and meet an opportunity, but your strength is not enough, you will not be able to grasp it.

And Wang Yi is the man with both luck and strength.

"Next, we will study how to combine flame and destruction to create an eighteenth-order secret technique." Wang Yi smiled slightly.

At this moment, he is confident.

The beginning of everything is difficult, and with this beginning, it is only a matter of time before it is created.

"Well, in time for the disciple competition, the time should be enough."

Wang Yi took another look at what he had achieved in the prison burning over the years.

Over the years, in the Burning Prison, because I was busy cultivating, I didn't go looking for it, so I didn't find a single fire lotus.

However, the panel is thoughtful and rewarding a lot.

"Well, there are forty-eight red lotuses in the prison, twenty-five black lotuses in the prison, and there are actually the most white lotuses in the prison, with ninety-three." Wang Yi was amazed.

This is still left over by Wang Yi!

It can be seen how powerful the panel has been over the years.

This is not surprising, because he has been practicing in the white flame area for more than 100 million epochs, and the rewards for signing in are naturally higher.

Wang Yi looked at the rising flames of nothingness in the distance, and felt a little ready to move.

"Why don't you go into the flames of nothingness and see?"

Wang Yi secretly said in his heart, "With the protection of the Chaos Master-level palace, my divine power reserve is comparable to that of the Chaos Master. As long as I don't go deep, I should be fine outside the flames of nothingness."

"If it's really dangerous, just get out in time."

Wang Yi still has some confidence in his heart.

His chaotic master-level palace, even if it is a **** king, as long as he does not need to attack with his will or soul, it is not so easy to hurt the people inside.

Of course, if the Eternal True God faces a God King, even if he hides in the God King's palace, he will die.

Wang Yi made a decision in his heart, and he controlled Chaos to dominate the palace and flew towards the area of nothingness and flames.

"Boom~"

As soon as he entered the flame of nothingness, Wang Yi felt a powerful force rushing towards him from all directions, and the divine power of the divine body flowed violently.

"This is amazing!" Wang Yi's expression changed. "At least a hundred times larger than the previous consumption~www.mtnovel.com~!"

"This flame of nothingness is too terrifying. It really deserves to be an existence that the master of chaos must take seriously."

"I have to be careful too." Wang Yi muttered, continuing to control the flight of the palace.

And somewhere in the void flame area, a figure is also advancing.

"It is said that some people saw the appearance of the Void True Lotus around here during these years. Why did I search for so many years, but I couldn't find it?"

The figure wondered.

He is not hiding in the palace, but a terrifying figure wearing a strange ancient armor, only revealing a pair of chaotic deep eyes that can swallow everything like a black hole, and there are two strange flames beating in the depths of the eyes.

In front of the two of them, there is a vacuum formed by a vortex of nothingness. In the vacuum of nothing, a looming illusory lotus is slowly forming...

[Chapter 889: Beat the Chaos Master!](#)

"I heard that the reward for the top ten disciples is to go to the Enlightenment Tree to comprehend the time of a thousand eras. The Enlightenment Tree is said to be useful to the God King, and the master of Chaos is eager to assist in the cultivation of sacred objects." Wang Yi secretly said. "Top ten? I want number one."

If the golden-clothed disciple did not participate in the disciple competition at all, Wang Yi would have wanted to challenge the golden-clothed disciple.

The day on the road is very boring. Walking in the sea of fire non-stop, Wang Yi devoted most of his mind to studying his eighteenth-order "Fire of Destruction". That's right, the eighteenth-order secret method has not been really researched, and Wang Yi has already named it.

Seeing the threshold of the eighteenth order, the passionate Wang Yi went all out to study and understand.

After more than 80,000 epochs.

"Hahaha..." A burst of cheerful laughter spread in the palace.

Because the cognition of the origin of flame and the origin of destruction is high enough. And because the understanding is also very high. In addition to the guidance of the nihilistic flame of the burning prison, coupled with the surging passion, Wang Yi finally became enlightened and fully understood this secret method.

"The fire of destruction!" A knife appeared in Wang Yi's hand.

Just wave.

"Boom~~~~"

Endless destructive aura, violent and incomparable power erupted.

This knife has crossed the limit of the eternal true **** and belongs to the eighteenth-order secret technique!

"Fire of Destruction"!

"The eighteenth-order secret technique has been completed!" Wang Yi smiled. "On the basis of this eighteenth-level secret technique, I am enough to reach the third-level level of the purple-clothed disciple. Not to mention, I also have the will secret technique "Ten Spectacles of Slaughtering the Spirit", and..."

Wang Yi looked at the sword in his hand.

This sword, through the sign-in panel, was obtained from Duan Donghe's Origin Embryo. Has been with him till now.

"The eighteenth-order secret method can also be branded on this sword to form a secret pattern, which can be activated instantly!"

The characteristic of Yuan Embryo is that it can incorporate the secret techniques of its own perception into it, just like refining a treasure, so that the treasure has more secret patterns. Integrate these secret patterns into the Yuan embryo. Then, just need to drive it!

And "Fire of Destruction" can display more powerful strength with the help of the power of the embryo itself.

"Burning divine power, bursting out with full force, enough to exert the power of the nineteenth order! It can be comparable to the normal level of Chaos Master."

The master of chaos can normally create a nineteenth-order secret technique.

Creating an eighteenth-order secret method is just the threshold for the master of chaos.

Moreover, the divine power of the Chaos Lord is a hundred times stronger than that of the Eternal True God. In addition, the Chaos Domain, Law perception, and many other means... Even if some peerless geniuses can use various means to explode to a level comparable to theirs, they will not be able to beat the Chaos Lord.

Reaching the threshold... reaching the normal level... rivaling... pressing... are all different levels.

This is also the level of the Yuanshen Palace.

Like reaching the threshold, it is the fifth floor of Yuanshen Palace.

Reaching the normal level, the Yuanshen Palace is on the sixth floor.

The match is seven layers.

If you can press it, that's the eighth floor.

After all, the Eternal True God is fundamentally far inferior to Chaos Lord, and needs to be more defying in some aspects.

Such as the limit! Like a god! Like will! Such as talent means and so on!

The combination of many can create a true peerless evildoer!

"I can now fight against the Chaos Lord without relying on mysticism of will."

Wang Yi's willpower secret technique is too heaven-defying.

Even if the "Lie Yuan Technique" is not used, the third level of "Spirit Killing Ten Peculiar Spectra" alone has surpassed many chaos masters.

Once the "Lie Yuan Technique" is used, 99% of the chaotic masters can't bear it.

It can be said that among the many disciples of Wujianlou, Wang Yi is definitely the first in terms of will and divine body.

Among the eternal true gods of the entire Origin Continent, it is estimated that only Luo Feng, who has also practiced the "Lie Yuan Technique", can compare with him.

In the past, Wang Yi was only strong in willpower and mysticism, but now he has kept up with the level of mysticism.

"I have created the eighteenth-order secret method." Wang Yi sat in the palace thinking.

"And the top eighteenth-order secret method, I also have ideas."

That is to continue to integrate the mystery of the source!

If you want to integrate the mystery of the source, you have to comprehend an extremely high level. Normally, you have to be at the seventeenth level. Otherwise, you can only complement each other and increase some power, but you cannot make a qualitative leap.

"In addition to the origin of time and the origin of space, I have realized all the other eight origins."

"Next, which one to choose, you have to choose carefully."

Wang Yi was lost in thought.

However, Wang Yi was not in a hurry, because although he understood other origins, his realm was very low, and he needed to practice hard to improve.

And this has to go to other secret realms.

Just as Wang Yi pondered and imprinted the new secret pattern on the "prime embryo", his palace gradually approached a vortex in the void.

"Huh?" Wang Yi sensed something, raised his head, and through the sense of time and space, he discovered the huge vortex in front of him.

In the vortex, there is a lotus flower between the illusory and the real that is slowly blooming.

"What is that?" Wang Yi thought. "It looks like a lotus? And it seems to be born from the flame of nothingness, which is more advanced than the white lotus of burning prison."

Although Wang Yi did not know what appeared in the flame of nothingness.

In the secret realm mission, I didn't say it.

But he can also guess that it must be a very important treasure.

Wang Yi looked forward and said, "I'm lucky, I encounter treasures when I walk."

Wang Yi cautiously approached the whirlpool of empty flames.

At this moment, a majestic figure emerged from a distance, and at a glance, he saw the lotus flower in the vortex of nothingness, showing a surprised expression.

"Haha...here, the void real lotus."

"Well, who are you, this Void True Lotus is mine."

The towering existence discovered the palace that was flying towards the vortex of nothingness, showing anger.

He looked for the Void True Lotus, but he had been looking for it for a long time, how could he bear others to take the lead.

"Boom~~"

An overwhelming fire palm shot at Wang Yi's palace.

The majestic existence did not sense the familiar aura in the palace, but he did not dare to be careless. He still went all out when he did not know whether the other party was the same as him, the true master of chaos, or whether he was hiding the strength of his aura.

A nihilistic true lotus is invaluable, enough for two chaos masters to fight.

"Who are you?" Chaos Master also said through voice transmission.

The only people who can appear here are the people from Wujianlou, and they have the strength to penetrate into the void flame area, and they are generally the masters of chaos!

He is not afraid of offending people. It is normal for the strong to **** treasures. But he is also worried about encountering an incompetent strong man.

After all, in the Chaos Master, his strength is not too strong.

"A master of chaos!" When the opponent appeared, Wang Yi knew it was bad.

Sure enough, the other party saw the treasure and immediately started to do it.

Seeing the huge flaming palm that was slapped aggressively, Wang Yi's eyes showed a trace of icy coldness.

"What about the master of chaos, I'm afraid you won't succeed!"

With Wang Yi's current strength, he is not dominated by chaos at all!

What's more, this is Wujianlou, and Wujianlou still has rules. It's okay to fight with the same forces, but it can't really kill.

At least there are not a few Chaos Masters who dare to violate the rules openly.

"Boom!" The huge fire palm slapped on the palace, and the powerful and violent force directly slapped the palace and rolled out, even if Wang Yi tried his best to control it, it would not help.

"Huh?" The Chaos Master let out a startled, "Aren't you the Chaos Master?"

Wang Yi was also angry. Put on the Chaos Master-level top-quality battle armor, fly out of the palace, the chaotic domain of the wings behind it spreads out, and the divine power burns vigorously, resisting the endless flames of nothingness, glaring anger.

"Senior, what do you mean? I discovered this treasure first."

The Chaos Lord, who was wearing an ancient and weird armor with eyes like black holes but burning fireworks, laughed.

"A purple-clothed disciple who also wants to compete for treasures? I advise you to leave obediently, don't force me to do it, or don't blame me if I get hurt."

The two of them were talking, but they both flew towards the void real lotus.

"You can actually withstand this flame of nothingness. It seems that you have a lot of origin. Who is your teacher?" Chaos Master suddenly said.

It is the master of chaos, without battle armor and body protection, and does not dare to easily walk in this void flame.

After all, there is no flame, but even Chaos Master Divine Body can burn.

On the other hand, an Eternal True God on the opposite side can actually withstand the power of the flame of nothingness, and walking in it can not help but surprise the Lord of Chaos.

"He must have a heavy treasure on him, and he is the master of chaos." The master of chaos secretly said in his heart.

For an eternal true god, it is usually difficult to obtain Chaos Master-level treasures.

So if there is, it is usually given by the teacher!

It is not something that every chaotic master can be willing to give his disciples Chaos Master-level treasures.

Either the chaotic master is very fancy to the younger generation and protects the younger generation, or the chaotic master is extremely powerful and has many treasures, and can give the younger generation treasures of this level at will.

No matter which one, it means that you want to move such a person, and the consequences are very serious. Trouble is bound to come.

This kind of eternal true **** with background, the master of chaos will have some concerns if he wants to do it.

Therefore, the chaotic master did not directly act, and he was also afraid. After all, even between the chaotic masters, there was still a gap in strength.

Just like the top chaotic city lords and the ordinary cosmos lords among the universe masters, they can kill them with one move when they use the strongest killing move!

The ruler felt in his heart that the latter was more likely.

"Even if you can't kill you, then you won't get the treasure." Chaos Lord secretly said in his heart.

He is a dignified master of chaos and grabs treasures with an eternal true god. It is not an easy thing to catch.

"I'm the master of cookies, and I will bully your junior today. As long as I don't kill you, even if the elders come over, there is nothing to say."

"Use the Chaos Domain to suppress you first!"

The cookie master found that the opponent's Chaos Domain power was incomplete, and it should have been formed by some kind of auxiliary treasure.

Therefore, he directly motivated his own chaotic realm to oppress the opponent's realm!

Cookie Master is right, Wang Yi's Chaos Domain is a special space-time domain formed by the "Eight Discord Saints". In terms of power, it is much stronger than the "One Thought Chaos" of "Kill Wu Yuyi".

But in the end, it is still a mechanical treasure, which cannot be compared with the real chaotic **** field!

When the chaotic domain dominated by Cookie was oppressed, Wang Yi's domain was directly suppressed.

"Haha, let me just say it, you little guy, why bother asking for it, don't know what's good or bad, I advise you to leave now obediently and consciously, I won't be difficult for you." The smile on the cookie master's face It hasn't fully unfolded yet, and suddenly solidified.

"Wow wow wow."

The black flame field appears in this side of the world. This black flame is composed of countless tiny black particles. The energy of each tiny black particle is more terrifying than a star. A tiny black particle is nothing, but endless black particles. The particles added up, but they exploded with astonishing power.

"Rumble~~" The Chaos Domain dominated by Cookie collided with the opponent's Black Fire Domain.

"This is a Chaos Master-level Domain Treasure? It seems that it is still the top among the Chaos Master-level Domain Treasures." Lord Cookie felt a sense of oppression. Even if he was calm and calm before, he couldn't help showing a surprised expression at this time. .

With the "chaotic realm" composed of this realm-like treasure and the Eight Divine Saints, even if the cookie dominates, he cannot use the realm to suppress Wang Yi.

"An Eternal True God actually has two Chaos Master-level treasures on his body. Your elders really love you enough."

"Damn little guy, you have quite a lot of treasures on your body, but do you think you can grab the treasures? I want you to understand the gap between the Eternal True God and the Chaos Master." The Cookie Master can't use Chaos Domain took down Wang Yi, and was also a little angry.

boom! He suddenly burst into terrifying fluctuations, and the fluctuations swept across all directions in an instant, and every trace of fluctuations carried a hot breath. As the fluctuations swept away, those ubiquitous flames of nothingness were also forced back.

"Gap?" Wang Yi was covered in golden armor, with eight sword wings spread out behind him, and a mighty aura emanated from him. There was a look of madness in his eyes.

He stood tall in the void, holding a blood-colored sword in his hand. With the burning of divine power, countless dazzling secret patterns appeared on the sword, and a blood-red as thrilling as the setting sun bloomed from the sword.

"Buzz!"

The battle knife slashed out suddenly, the boundless blood red descended, and there was silence. Behind this silence, there was an extremely terrifying destruction brewing.

"An Eternal True God actually dares to fight me head-on, I don't know who gave you the courage!" The Lord of Cookies has a grim face, and he is also in a real fire. The dignity of the Lord of Chaos makes him unable to tolerate Wang Yi's "provocation" move.

He wants to crush this Eternal True God neatly and neatly! Let him understand the gap between each other!

In the emptiness, there is a huge pair of phantom claws appearing, UU reading www.uukanshu.com grabbed it silently towards Wang Yi.

Just when the cookie master showed a hideous expression on his face, his expression suddenly stiffened.

An overwhelming force of will burst out from the Eternal True God on the opposite side, and stabbed directly into his consciousness with lightning speed.

So sudden, so arrogant.

"what!"

Even though Cookie's dominant will is strong, it can't help but be a little confused for a while.

With just such a lack of attention, his offensive was suddenly weakened, and without the master's control, Wang Yi easily avoided it, and then the blood-colored knife light quickly slashed on the Chaos Master who couldn't hide.

Peng, the two sides collide. The Cookie Lord flew backwards involuntarily, and a little bit of blood with willpower splashed out in the void. Accompanied by the awakened Cookie Lord's unbelievable angry roar, it resounded through the void.

[Chapter 890: virtual world](#)

Feeling the injury on his body, Cookie Master's eyes are full of incredible.

His cookie, the dignified master of chaos, was slashed with a knife by an eternal true god.

Thinking of the extremely strong and domineering will attack just now, the cookie master calmed down.

Although this Eternal True God is a purple-clothed disciple, he is by no means ordinary!

Just based on the power of this sword, plus the secret art of will just now, and the treasures on his body that he did not have, saying that this young man has no great origin, the cookie master does not believe it.

So although angry, the cookie master did not make another move, but stared at each other.

"What kind of will secret art is that you?"

What terrified him the most was the secret technique of the opponent's will, and he couldn't even stop him, the master of chaos.

Although there is an element of being attacked, the cookie master also understands that with the terrible power of the opponent's will secret technique, even if he is prepared, it is probably difficult to resist.

"The Ten Masterpieces of Slaughtering the Spirit." Wang Yi didn't have any intentions to hide, and he didn't continue to do it. It was enough to teach the Cookie Master a lesson. The two sides had not yet reached the point of death.

"Spirit Killing God King's "Ten Masterpieces of Soul Killing"? No wonder!" The Master Cookie was slightly taken aback, "Did you cultivate him to the third level?" The famous one, after all, this unique skill has always been very famous in the Chaos Master, but there are only a few who can successfully cultivate it in the Chaos Master. Not to mention the eternal God!

The cookie master's mood became complicated, and he glanced at the eternal **** opposite inexplicably, and sighed. Turn away.

He understood that with the talent and strength shown by the other party, it would be very difficult for him to get this illusory true lotus today, and it might be even more embarrassing to continue fighting. He couldn't even hold his face to deal with this junior, and finally chose to leave directly.

"Successfully cultivated in the third stage of "Spirit Killing Ten Peculiar Books", he is the only one in this hundred million reincarnation era." The distant cookie master glanced back and shook his head silently. "He's not the master of chaos. If he becomes the master of chaos, killing me is very simple, and with his talent, it will be easy to find a strong teacher in the future. No matter what, it's not something I can provoke, that's all, just Bad luck today."

The cookie master left sadly.

And Wang Yi, seeing the cookie master leaving, took away the illusory lotus.

"This lotus flower, even the Chaos Master wants it so much. It is probably a treasure. I will check what it is later." Wang Yi thought to himself.

After the battle with Cookie Master, Wang Yi also has a clear understanding of his current strength.

There is definitely Chaos Lord's combat power, and even the general Chaos Lord is no longer his opponent.

The most fundamental reason is that his secret technique of will is a lot stronger than the opponent, causing suppression. In addition, the level of secret technique keeps up, and the attack power is also very strong, which can hurt the opponent, which is why a chaos is forced back. dominate.

Otherwise, even if you can make the other party lose consciousness for a short time, but the injury can't hurt the other party, it won't help.

"My divine body is a hundred thousand times the level of life genes, making my divine body only ten times weaker than the Chaos Lord."

"My body defense is the limit of the eternal true god-level treasure! Chaos masters are difficult to damage."

"The will belongs to the top level of Saint Transformation! There are also outrageous willpower secret techniques such as "Spirit Killing Ten Specs", which many Chaos Masters can't stop."

"I still have a 10,000,000 light-year Divine Body, which is ten times larger than most of the Divine Body dominated by Chaos!"

"The secret law level has also reached the eighteenth level. In comparison, it is weak."

"There are others, such as the treasures on the body, such as domains, souls, palaces... etc. are all Chaos Masters. Most Chaos Masters are not as luxurious as me..."

"These things add up to make me so strong that I can fight against the Chaos Lords, or even defeat them." Wang Yi knew very well that he had the advantage.

He will not be complacent, because his real enemy is the God King, the most peak existence in the origin continent.

Wang Yi directly inquired about the "prison burning" information on the token.

"Too rudimentary. If you want to get more detailed information, you actually need points." Wang Yi shook his head.

Wang Yi spent 200 points to buy a detailed message about the prison.

Finally got what he wanted.

"So this thing is called Nether Real Lotus?"

The Void True Lotus is a magical treasure born in the core area of the Burning Prison.

It is extremely rare and precious, and it is a treasure that is difficult to obtain by the masters of chaos.

Its usefulness is to allow a person to sense the "virtual world"! Greatly enhance this talent.

Even if there is no talent in the virtual world, you can easily get started with the virtual lotus.

And for those who take the virtual world, it is even more valuable.

Using it can improve the efficiency of comprehending and practicing the "virtual world path".

In Wujianlou, there are emptiness real lotus for sale, and one copy requires 500,000 points.

"Void Realm Dao? Void Real Lotus is actually related to Void Realm Dao." Wang Yi was a little stunned.

"It's convenient for me." Immediately, Wang Yi couldn't help laughing.

Although he has never regarded the virtual world path as the cultivation direction of the soul path.

But delivered to your door, you don't need to use it for nothing.

"There are also many secrets for the practice of the virtual world. There are also many in Wujianlou." Wang Yi thought. "I am in Wujian Building, from the first floor to the third floor, and I have obtained many secrets and secrets related to the virtual world, from the real **** of the void to the realm of chaos masters. It's just that, plus this virtual lotus, I will go to the virtual world. Cultivation in the secret realm, three-pronged approach, I should go to the virtual world, it should be no problem."

What is the virtual world?

Real and unreal!

The world of normal life, this is a real world! On the other side of the real world... but there is a corresponding illusory world! That is the virtual world!

The virtual world is a world of its own. It can be said that it is the source of all illusions!

No illusion can surpass it, because this kind of true meaning can manipulate the illusory world, in the illusory world. Everything is as desired.

In addition to this... there are many other strange and powerful things.

Wang Yi left the prison where he had practiced for hundreds of millions of years, handed in the task, and got 11,100 points.

Then, he took over the task of the virtual world secret realm and went to the "virtual world world".

Teleporting through the center of the lake, he came to a huge spherical world.

In this world, between the real and the illusory, the entrants may get lost if they are a little careless.

It contains various rules and mysteries of the virtual world.

It is a good place to cultivate the soul path and the virtual world path.

Looking at this vast and magical world, Wang Yi sighed inwardly.

"If practitioners constantly improve their virtual world and go to the extreme, the so-called illusory can become real, and even the virtual world of the god-king realm, the things in it can be used in the real world!"

Every path, to the extreme, has many incredible powers.

In the virtual world, flowers, birds, fish, insects, mountains, lakes, and stars are all constructed by the rules of the virtual world, but when you observe it, you will find that it is almost exactly the same as the real world.

Because the virtual world itself is a reflection of the real world!

"There's still some time before the disciples' big competition."

"I'll comprehend the Tao of the Void Realm right here." Wang Yi sat cross-legged on a star and began to practice.

Take out the "Void True Lotus", you can feel that since it was taken out, there is a faint attraction to the surrounding world.

Wang Yi took the next petal, the petal entered the body, turned into a mysterious force, and flowed into Wang Yi's body and soul. As the soul was transformed, Wang Yi clearly sensed the mystery of the rules of the entire virtual world.

"Is this the rule of the virtual world?" Wang Yi said to himself.

"This virtual world was not naturally conceived, but created by a strong person." Wang Yi had a clear understanding in his heart.

The virtual world can construct a 'virtual world'.

If Wang Yi comprehends the origin of the virtual world, he can also build a "virtual world".

However, it is so long and stably fixed here like this imaginary world, and it is so vast and vast, and the rules are mysteriously manifested for people to understand, which requires an incredible realm and a very high price.

"The way of the virtual world, the frontal combat is not strong, but like the way of shadows, the stealth to save lives is very powerful."

Every way is different.

However, the 'virtual world' has already jumped out of the complete world, and a more vast 'virtual world' has been created on top of the complete world, and the virtual world has even evolved to accommodate the real world! Walking in the virtual world, if the enemy does not have the means to forcibly penetrate the virtual world, they will not be able to attack from the normal world.

Of course, the virtual world is not invincible.

For example, it is stated in the secret book that if the strong will attack, it cannot be isolated!

After all, it is just a means.

Wang Yi began to comprehend the secrets related to the Dao of the Void Realm, and wanted to understand the origin of the Dao of the Void Realm as soon as possible.

What he chose was the "Emperor of the Void" created by a chaotic master of the Void Realm to guide the younger generation.

The training content of this secret book is ingenious and interesting.

"How to comprehend the Dao of the virtual world? Master the origin of the Dao of the virtual world?"

"There are many roads, I'll say one here."

"The way of the virtual world is related to illusions and illusions!"

"At the beginning, I discovered that by comprehending the three mysteries of water, fire and wind, I grasped the prototype of the true meaning of illusion."

"And integrating into the mystery of the earth, the combination of earth, fire, water, and wind... It didn't destroy the prototype of the true meaning of the illusion, and it was even stronger. It seems that the 'mystery of the earth' is very helpful to the prototype of the true meaning of the illusion."

"As I pondered, I found that in the illusion...because it was mixed with the mysteries of the earth, my illusion seemed to have a 'soul' and a kind of precipitation. It was not as pure and illusory as before."

"So, along with the improvement of the mysteries of my own earth, I also constantly adjust the fusion methods of the four mysteries in the 'Illusion True Meaning' prototype."

"I have been adjusting the way of integrating the four elements of earth, fire, water, and wind, and strive to pursue a more perfect illusion."

"But I suddenly discovered that the four elements of earth, water, fire and wind can actually form the prototype of the virtual world."

...

Wang Yi silently pondered the content of the secret book.

This is also one of the reasons why he finally chose this secret book for enlightenment.

That is, he understood the four origins of earth, wind, fire, and water!

"According to this secret book, first combine the three mysteries of water, fire and wind to form the prototype of the true meaning of the illusion."

"And then after countless attempts to integrate into the mysteries of the earth, find the right direction, and find the perfect way of integration, we can comprehend the prototype of the true meaning of the virtual world."

"After understanding the prototype of the true meaning of the virtual world, you can step into the origin of the virtual world." Wang Yi kept thinking.

He started to practice and research according to the secret book of the "Empirical Realm".

Every once in a while, he also travels to the virtual world.

The secret mission of the virtual world is to kill 10,000 virtual beasts, get 100 points, kill a hundred virtual beast leaders, get 1,000 points, kill a virtual beast lord, get 10,000 points.

Void beast is a general term for a kind of life hidden in the virtual world. In fact, there are many categories, but they are all elusive, with average frontal combat effectiveness, but they are very good at hiding, stealth and life-saving, so it is not so easy to kill. The most important thing is Still hard to find.

The general virtual beast is a fourteenth-order combat power.

The leader of the virtual beast is a sixteenth-order combat power.

The Void Lord is an eighteenth-order combat power. The number is also the most rare. Unless luck is against the sky, you can't find it at all. Even if you find it, it is very difficult to kill.

Wang Yi didn't have any intention of looking for it, he mainly set foot in various places in the virtual world to sign in. On the way, he was occasionally attacked by phantom beasts, but with Wang Yi's strength, these phantom beasts were all serving dishes.

[Ding, congratulations to the host for successfully signing in and rewarding the 'Original Stone of the Void Realm'.]

[Ding, congratulations to the host for successfully signing in and rewarding the 'Void Origin Divine Crystal'.]

[Ding, congratulations to the host for successfully signing in and rewarding the 'claw of the virtual world'.]

...

In the happy sign-in and cultivation, more than one million epochs have passed.

In the endless forest, with the breeze blowing past, Wang Yi stood on a green meadow full of vitality, his figure blurred and changed. wow. Immediately, three Wang Yis were differentiated.

It looks real, but it's actually an illusion, but it's enough to make it look real in battle.

And the illusion is not so simple, there are many mysteries, even "transfiguration" in the battle, the real body and the illusion are instantly replaced, or simply let the illusion have combat effectiveness!

"The prototype of the true meaning of the illusion has been comprehended, and the next step is to integrate into the mystery of the earth, which is the origin of the earth." Wang Yi smiled slightly.

The three mysteries of water, fire and wind... Different combinations will produce different results. The previous combination of illusions allowed Wang Yi to master the 'the prototype of the true meaning of illusion'!

Wang Yi continued to begin to comprehend "The Preliminary Form of the Virtual Realm".

According to the guidance of the secret book, adjust the integration method of earth, fire, water and wind, and strive to pursue more perfection.

Perhaps because of the "Void Real Lotus" and the secret realm of "Void World", the rules of the virtual world are everywhere, and it is easier to understand.

After spending more than 30 million epochs, Wang Yi finally merged the four origins of earth, feng shui and fire into a "virtual prototype" of illusion!

At this moment, Wang Yi realized "the origin of the virtual world"!

Understand the origin of the virtual world, even in the embryonic stage. He can form incredible illusions! Changing the world is also a breeze.

A world like the real world is centered on Wang Yi, and quietly spreads.

The blue sky and white clouds, the bright sunshine, the reinforced concrete buildings, the people on the road, the cars and horses like dragons.

Couples are taking photos, and the children's laughter and slaps are floating in the square.

The black-haired man in a red robe stood there calmly, seemingly out of tune with the whole world, but no one felt that something was wrong.

Suddenly, dark clouds appeared in the sky. Countless dark clouds rolled in and quickly covered the sky. The sky and the earth became pitch black. Amid the exclamations of people, heavy rain poured down, and people ran around to avoid them.

"Certainly!"

The whole world stood still.

It turned into a bubble.

"This is the virtual world." Wang Yi said softly.
