

A God 901

[Chapter 901: 'Nine Rivers dominate'](#)

There is a huge gap between Chaos Lord and Eternal True God!

For example, the master of chaos masters the complete law of chaos, and some eternal gods who defy the sky actually master the incomplete law of chaos.

But the complete law of chaos, the realm of chaos, is even more terrifying!

It can even tear apart the Chaos Void to travel over long distances.

But when it came to the chaotic master and transformed the chaotic space, Wang Yi found that he could actually use his body to absorb the chaotic airflow and convert it into divine power, but the absorption and transformation speed was not as fast as that of the small universe.

Wang Yi has a clear understanding in his heart, if he reaches the God King, he will open up the inner universe by himself, or the role of the outer universe will be dispensable.

"My strongest right now is the Dao of Destruction." A blood-colored stone knife appeared in Wang Yi's hand, and he gently stroked it.

"The Dao of Destruction, I can now create a top-notch secret technique that reaches the nineteenth rank. The secret pattern is instilled in the Primordial Embryo War Blade, and its power can reach at least the twentieth rank!"

"As for other ways..." Wang Yi thought.

"As a Universe, I can start practicing, and it can make my divine body reach an incredible strength."

With so many preparations and accumulations in the ancient holy land in the early stage, it is not difficult for Wang Yi to practice "Being the Universe"... At least it is not difficult to get started.

"Beginning of "As the Universe", my body strength will reach the level of Chaos Master Treasure, but this requires a tempering process."

It's like a piece of iron that needs constant grinding to turn into a piece of steel.

In fact, "Being the Universe" is mainly about the cultivation of blood, and it also includes the method of "refining the body".

Although it is a side class.

But the method created by Guzu, the strongest man in the origin continent at the beginning, is absolutely tyrannical beyond imagination, and it is not an exaggeration to call it the first.

As for the Way of the Void and the Way of the Void, the realm is too low just after mastering it.

Wang Yi's soul embryo is too lazy to instill the secret method of the virtual world.

However, Wang Yi obtained countless cultivation secrets from Senluo Palace, and it is very fast if he really wants to improve.

For the time being, the two systems can only be used as auxiliary means.

The real fight depends on the Dao of Destruction and the Dao of Refinement.

Wang Yi nodded in satisfaction.

"The Dao of Destruction, the attack power is tyrannical!"

"Physical training can make my body extremely strong."

"It can be described as one attack and one defense."

"In addition to the way of virtual world, it makes up for the weakness of my soul. The way of the void is also amazing. The way of the void is also a big advantage in escape."

"The four systems can complement each other and cultivate at the same time."

"As for now, the main energy is still to focus on destroying the Tao and refining the body." Wang Yi quickly made a decision.

After breaking through the chaotic master, Wang Yi has changed a lot.

For example, the sign-in panel, it will only be able to sign in for rewards above the Chaos Master level.

At the same time, the exchange of god-king-level treasures was also opened.

Just looking at the price, Wang Yi shook his head.

As Wang Yi's realm became higher, the price of this treasure exchanged also rose.

A black one.

It is not an exaggeration to describe it as a profiteer.

But thinking that they were all prostitutes from the panel, Wang Yi was very calm again.

As soon as the realm breaks through, Wang Yi still has a lot of things to do.

For example, the "chaotic space" should continue to be improved, for example, the "divine power clone" can be cultivated...

All in all, for Wang Yi, after stepping into the chaotic master, he is also stepping into a new world.

...

On the island where the purple-clothed disciples live, each purple-clothed disciple has a palace and cave dwelling, and in the palace there is a secret room that can be connected to the Wujianlou virtual space "Secret Law Trial Tower".

The incarnation of Wang Yi's divine power in the pavilion woke up, and when he returned to his palace, he met the original ancestor.

The original ancestor came because of Wang Yi's breakthrough.

After a little chat with the original ancestor, Wang Yi entered the secret room.

Consciousness is connected to the virtual space 'Secret Law Trial Tower' of Wujianlou.

When Wang Yi's consciousness was connected to the virtual space, the virtual space immediately noticed the difference in Wang Yi's soul consciousness.

Automatically change his information from 'Eternal True God' to 'Master of Chaos'.

And passed the news of his breakthrough to the relevant high-level officials.

"Um?"

"Another Chaos Lord?"

"who is it?"

"Jiujiang Yi? Isn't this the number one disciple of Ziyi this year, and he has become a chaotic realm?"

"He came into the era of reincarnation in less than one era, and he broke through?"

The high-level executives of Wujianlou immediately got the news, and they all began to pay attention when they were surprised.

At this time, Wang Yi also came to the ninth floor of the trial tower.

Boundless water, vast mist.

When a giant eight-headed snake saw Wang Yi appear, it let out a neigh, set off a huge wave, and rushed over.

The last time Wang Yi faced these eight-headed snakes, he was defeated before he persisted for a long time.

And this time...

Wang Yi, who was holding a sword, was very calm in the face of the menacing eight-headed snake.

"Endless Destruction!" Wang Yi read out the name of his newly created secret technique.

"Wow!" The sound of this knife was very weak when it was slashed out, but the knife that was slashed out was a black knife light! To be precise, the center is a chaotic void, and the outer edge is darkness. But I don't know if the chaotic void extends the darkness, or the darkness gives birth to the chaotic void. The power of chaos destruction outlines a 'black sword light'. This black sword light is violent and wanton on the outside, but the inside is a complete darkness of annihilation. Two diametrically opposed moods merged on this knife.

The edge is the destruction of darkness, and the interior is a chaotic void, which is invincible, and nothing is invulnerable. Wherever it passes, the void is directly annihilated.

tear. With a single knife, the void can be easily torn apart.

The vast and boundless water is divided into two halves.

The eight-headed serpent also sensed the danger, and the eight serpent-heads desperately threw out their power.

A universe composed of chaotic airflow appeared in front of the eight-headed snake, trying to resist the knife.

but...

Tear!

It was as if the paper had been cut by a sharp knife, and the huge chaotic universe was easily cut open by the light of the black knife.

"Roar~~" The three heads of the eight-headed snake were also chopped off, and the remaining snake heads showed expressions of pain.

"You won, the level breaker." The eight-headed snake directly conceded.

"It's too easy." Wang Yi shook his head. The first time he broke into the ninth floor, he was easily killed by the eight-headed serpent, but as soon as he broke through the chaotic master, he got the insight of the incarnation of the beast, and the secret technique level advanced by leaps and bounds, but he suddenly crushed the ninth floor.

After all, to break into the ninth floor, it is enough to create a top-level secret technique of the eighteenth level, but Wang Yi's killing move just now has reached the top-level nineteenth level.

brush! A golden light descended from the sky, and Wang Yi was teleported to the tenth floor of the trial tower.

At this time, the news of Wang Yi's breakthrough had spread throughout the entire Wujianlou, and many chaos masters knew about it.

Chaos Lord is also considered a high-level in Wujianlou. What's more, this newly promoted Chaos Lord is still a new disciple who has just entered Wujianlou. The first place in the disciple competition this year has attracted the attention of many people and talk.

"It's really unpredictable. I originally thought that he would sprint to the status of a golden-clothed disciple, but I didn't expect him to break through the chaos master at once."

Some Chaos Lords sighed with emotion.

Wang Yi's breakthrough exceeded many people's expectations. But not too surprised.

Because the breakthrough of the disciples in purple clothes is actually a very normal thing.

The purple clothed disciples are all at the limit of the eternal true god, and they are only one step away from the master of chaos.

But this step has troubled countless eternal true gods.

The cookie master was also surprised when he got the news.

"This is a breakthrough? Before, he was the eternal true god, which was enough. Now he has become the master of chaos and is on the same level as me. Isn't that completely crushing me?" "Fortunately, although there was a conflict with him before, I made up for it in time."

Because there was no prohibition, the news of Wang Yi's breakthrough quickly spread like the wind.

The reason why it spread so fast is also because Wang Yi's breakthrough is very controversial.

He entered the Wujian Building in this reincarnation era, and just after entering the Wujian Building, he won the first place in the Disciple Competition.

In addition, he has practiced the "Ten Spectacles of Slaughtering Spirits", a secret technique of will that many chaotic masters can only look up to.

Later, he refused the invitation of many strong people, including the king of gods, to accept apprentices.

This also made Wang Yi a well-known figure in Wujianlou.

Not to mention, he followed and broke through Chaos Realm!

So... as soon as he made a breakthrough, it attracted the attention and discussion of many strong people.

Master Qin Xin also quickly learned about Wang Yi's breakthrough.

"Breakthrough?" Qin Xin's slender eyebrows wrinkled.

"It's really good luck, I actually broke through after returning from the Dao Enlightenment Tree." Qin Xin dominated secretly.

Because of the matter of apprenticeship, Master Qin Xin has actually been somewhat disliked by Wang Yi.

But even though she had some prejudices against Wang Yi, she had to admit that this newcomer was indeed a genius in terms of willpower and cultivation.

"Just a chaotic master, can he still become a **** king?" Master Qin Xin snorted.

There are many chaos masters in Wujianlou, and they are divided into several levels.

Like the cookie master, it belongs to the ordinary chaos master, but it is actually the lowest level. The secret techniques created are only the top eighteenth order. Like the golden-clothed disciple, it is shameful to say it.

Like Master Qin Xin, it is much stronger than Master Cookies, second only to the existence of super overlords in Chaos Master like Cang Li Master.

As for people like Cang Li, they belong to the top tier of Chaos Masters, and their strength is very close to that of the God King. It is very easy to kill the Cookie Master. Even if they encounter the God King, they will be sure to save their lives.

The idea of Qin Xin being dominated is not unreasonable.

How difficult it is to become a **** king.

As strong as the ruler of Cangli, isn't he still trapped in front of the threshold of the God King for countless years?

Wujianlou is so powerful and deep, it consumes endless resources, and after a long time, it has not cultivated a few **** kings.

In the eyes of Master Qin Xin, it may be easy for this newcomer to become the Master of Chaos, but if he wants to become a God King, there is no hope.

But soon after another news came.

"Jiujiang Yi broke through the ninth floor of the trial tower?" Master Qin Xin was stunned.

She knew that Wang Yi was only at the 18th secret law level not long ago.

She thought that Wang Yi was busy making breakthroughs and did not study the secret method.

To pass the ninth floor of the trial tower, it is necessary to create an eighteenth-order top secret technique.

The normal chaotic master can only be achieved after a period of years of subterranean cultivation and research after a breakthrough.

"His speed of comprehension is really fast enough." Master Qin Xin frowned again, and his beautiful face was a little unhappy.

The reason why she disliked Wang Yi was not only because he refused the teacher's request to accept an apprentice, but also because of the teacher's undisguised appreciation for Wang Yi.

In the past, she was the most favored one under the teacher, but what if this junior brother entered the door and was favored by the teacher?

She knew how much her teacher favored the apprentice she liked.

Later, Wang Yi did not worship the Spirit Slayer God King as his teacher. The Master of Qin Xin breathed a sigh of relief, and laughed in his heart that Wang Yi did not know how to seize the opportunity and did not know that the sky was high and the earth was high.

So in her heart, she didn't want to see Wang Yi rise. It's better to leave everyone alone, or not become a golden-clothed disciple, and leave the Wuji universe after ten reincarnation eras.

But she did not expect that Wang Yi's breakthrough would be so fast!

It can be said that not long after the front foot entered the Infinite Universe, the rear foot followed the breakthrough.

After all, the more than ten billion epochs he cultivated were only one-thousandth of the time of an era of reincarnation.

Wang Yi has become the master of chaos, and he can choose to cultivate in the Wuji universe for a longer period of time, even thousands of times of reincarnation are no problem.

"It's not bad to be able to pass through the ninth floor." Master Qin Xin snorted, a bit stubborn.

The more genius Wang Yi is, the more dissatisfied she is.

"If you have the ability, you can break through the tenth floor for me now."

The master of Qin Xin did not believe that Wang Yi could break through the tenth floor.

Passing through the tenth floor of the trial tower requires the nineteenth-order top secret technique, which is regarded as the normal level of chaos master.

And most chaotic masters want to achieve this step, they need to know how many times of reincarnation cultivation research.

No matter how talented Wang Yi is, things like secret arts are related to realm and cannot be accomplished overnight!

Wang Yi has just made a breakthrough, and it is already very good to be able to create a top-level secret technique of the eighteenth order. Create a top-level secret technique of the nineteenth level? It's so unreasonable that no Chaos Master thinks it can do it.

...

"Jiujiang Yi broke through and became the master of chaos."

The news quickly spread to the purple clothed disciples, causing a shock.

Kui Ling and other disciples who knew Wang Yi were even more shocked.

They went to Wang Yi's palace to ask questions immediately, but Wang Yi was in the trial tower, so naturally he would not be distracted to see them.

The golden-clothed disciples also learned about Wang Yi's breakthrough.

Their mood is more complicated than that of the purple clothed disciples.

"Is this a breakthrough?"

Originally, they thought that Wang Yi would become a big threat to them.

Unexpectedly, the other party has no intention of fighting with them at all.

It seems that the other party doesn't care about the many opportunities of the golden-clothed disciples.

"That's right, even if the King of God wanted to accept him as a disciple, he didn't agree. The status of a golden-clothed disciple, or that person really doesn't care." Some golden-clothed disciples wanted to understand.

Although the golden-clothed disciples said that they could worship the god-king as their teachers, that was when they came to worship.

On the other hand, Wang Yi was favored by the God King and took the initiative to accept his disciples. The two are not the same concept.

The most important thing is that Wang Yi actually refused.

This kind of precious opportunity that he had worked so hard to obtain, but the other party didn't care about it. This difference and contrast made these golden-clothed disciples feel full of emotions.

Compared with the complicated mood of these golden-clothed disciples, the purple-clothed disciples were boiling.

"Have you heard? Jiujiang Yi broke through and became the master of chaos, and he just passed the ninth floor of the trial tower."

"I remember the ninth floor. It takes the eighteenth top secret technique level to get past it. He is progressing too fast."

"It should be called Jiujiang Lord now."

"I really don't know when I can break through like him. UU reading www.uukanshu.com"

All the purple-clothed disciples felt that they admired and admired Wang Yi a lot.

Because Wang Yi's rise was too rapid and legendary, he won the first place in the Disciple Competition as a newcomer, and then immediately broke through the chaotic master! Seeing that it is about to become the high-rise of Wujianlou.

Be successful!

All eyes are on!

The purple-clothed disciple has been practicing for countless years, isn't that what he longs for?

...

"Um?"

At this moment.

The Chaos Lord, who was in charge of processing Wujianlou's information, looked at the message just sent from the virtual space and opened his eyes wide.

"Jiujiang Yi, broke through the tenth floor?"

[Chapter 902: congratulate](#)

On the tenth floor, at this moment Wang Yi looked at the opponent who was slowly falling down.

"Actually, like me, he also uses a knife and is very strong." Wang Yi muttered.

However, today's Wang Yi has no problem breaking through the tenth floor.

There was a thunderbolt on the ground!

Compared with Wang Yi becoming the master of chaos, he passed through the tenth floor of the trial tower, causing even greater shocks.

After all, to become the master of chaos, normally, you only need to create your own eighteenth-order secret technique.

But to pass the tenth floor of the trial tower, you need to create a top nineteenth-order secret technique!

In fact, even if Wang Yi crossed the ninth floor, many people were surprised, let alone the tenth floor.

Several Chaos Masters in charge of intelligence looked at each other.

A chaotic master couldn't help but said: "Before, he was still a disciple of Ziyi, the Eternal True God, this is for sure."

At that time, the secret law level that Wang Yi showed was still the eighteenth level.

"Unless he hides his strength, he has already created a stronger secret method at that time, but. Is this necessary?" The other was wearing blood-red armor, his blood-colored eyes were calm, and there were layers of white scales on his skin, with hidden under the scales. Dark red, the suffocating Chaos Lord said in a low voice.

"It's not necessary." The last Chaos Lord with loose hair nodded.

The three chaotic masters in charge of intelligence did not think that Wang Yi had deliberately concealed his strength before.

Hiding his strength will only make him unable to improve his status and get less benefits, so there is no need to do so.

"Then the biggest possibility... is that after he won the first place in the Disciple Competition, his cultivation speed suddenly increased."

"Yes, he just finished comprehending the Taoist tree, that's true."

"It's just...becoming the master of chaos, it's a bit incredible to create the nineteenth-order top secret method and pass the tenth floor of the trial tower."

"And in such a short time, genius is no longer enough to describe him."

"I heard him reject the god-kings' apprenticeships before, I don't know why, I think he's stupid, but now it seems that Jiujiang Yi can cultivate into a chaotic master so quickly, and also create a top-notch secret method of the nineteenth order, it should be It was an idea before."

These chaotic masters in charge of intelligence are also well-informed, and they are still amazed at the speed of Wang Yi's progress.

"Can you see the video of him breaking into the tenth floor?"

"No, he is already the master of chaos. Our authority is not enough to view the information of such existence, and we must obtain higher authorization."

In fact, they are all full of doubts about Wang Yi's rapid progress in realm, but things like the secret law level cannot be faked.

And this news soon spread to the outside world.

Master Cangli was discussing Wang Yi's breakthrough with his apprentice, Master Meng, when he suddenly heard that Wang Yi had crossed the tenth floor of the trial tower.

The two teachers and apprentices couldn't help but look at each other.

"Teacher, this Jiujiang Yi's actions are really unexpected, and people can't see it through." The lion-like wild and rough Lord of Houmeng couldn't help but wear a domineering black armor.

"Being able to pass the tenth floor of the trial tower proves that his realm has reached the level of a normal chaotic master. With the third level, he is a chaotic master, and he is the strongest among the chaotic masters. Now it is estimated that few dare to look down on him. Yes." Cang Li said.

"And, with the talent he has shown, I think... he might be able to go further."

"Going further?" Houmeng Lord looked at his teacher in surprise.

He respects his teacher very much. Although his teacher is the master of chaos, he has lived a long time and is older than many **** kings.

Full of wisdom, unique vision!

In terms of looking at people, he considers himself far inferior to his own teacher.

The master Cang Li, who has white hair, an old face but clear and wise eyes, looked at the sky and said lightly: "The origin continent is too big, and in the long years, there will always be some peerless geniuses who break the rules and go their own way. Can do things other ordinary people can't."

"A long time ago, I heard that there was a sect called Duandonghe. The founder of the sect was just a chaotic master, but a peerless genius appeared in his sect, and he cultivated to the realm of the **** king, surpassing the predecessors. Achievement!"

"Teacher thinks this Jiujiang Yi can become the king of gods?" Houmeng Lord said incredulously.

"It's only possible." Lord Cang Li looked at the void island outside the mainland with a smile in his eyes. "When I first saw this little guy, I thought he was unusual. I didn't expect that he would surprise me so quickly."

Whether Wang Yi can become the king of gods, in fact, can't be sure of Cang Li's master.

No one dares to say, who will become the king of gods!

He is the apprentice of the monstrous owner of Wujiezhuan, and he is also a peerless genius, isn't he not a **** king?

...

Compared with the indifferent state of mind of Master Cang Li, Master Qin Xin immediately stood up from his seat when he heard the news.

"The tenth floor?" Qin Xin's master couldn't calm down.

She never expected that Jiujiang Yi would really be able to pass the tenth floor.

In the history of Wujianlou, it seems that no chaotic master can break through the tenth floor just after breaking through.

This rate of progress is a bit scary.

"I can pass the tenth floor now, but I'm afraid I will be able to pass the eleventh and twelfth floors in the future?"

Coupled with Wang Yi's previous performance, many Chaos Masters feel that Wang Yi hopes to become such a terrifying existence as Cangli Master in the future!

The heart of the piano dominates the complexities of the heart.

Although the Master of Qin Xin has a teacher of God King and his strength is strong, there are still many gaps compared to Master Cang Li, who is invincible in the Master of Chaos.

Wang Yi's current strength may not be as good as hers.

But the potential talent she showed exceeded her.

"Qin Xin." A heart-shattering voice suddenly sounded in Qin Xin's mind.

"Teacher." Master Qin Xin immediately made a gesture of respect.

"Jiujiang Yi has just made a breakthrough. As usual, everyone will send gifts to congratulate you. You can also send a gift for me." The King of Murdering Spirit said.

"Yes....."

Qin Xin dominates the mood is even more complicated.

She did not expect that the teacher actually ordered it in person.

Like Chaos dominates the breakthrough, the general **** king will not take the initiative to give gifts and congratulations, unless they have a good relationship with each other.

Not to mention her teacher's proud and cold temperament, she has never seen her so devoted to any Chaos Master.

...

Wang Yi broke through the chaotic master and immediately passed the news of the tenth floor of the trial tower, blowing through the Wujian Tower like a storm, and even many **** kings were alarmed.

"It's really a character, no wonder you dare to refuse my invitation."

The two god-kings are discussing this matter.

What kind of identity is the king of the gods, at most, he only occasionally points out geniuses, and wants the king of gods to accept apprentices? Extremely difficult.

However, Wang Yi was favored by many **** kings and wanted to be accepted as a disciple.

However, the king of gods is the king of gods after all. Although Wang Yi broke through the **** of chaos and showed amazing talent, they were still able to maintain a calm state of mind.

In contrast, those chaotic masters, purple clothed disciples, and golden clothed disciples exploded all of a sudden.

They were all shocked.

"The tenth floor?"

"Here, didn't he just break through? Why so fast?"

Wang Yi's breakthrough is so powerful, and it will definitely be more terrifying in the future. Maybe he can become a terrifying powerhouse like Cang Li's master, and if he doesn't, he will be a super existence in the chaos master.

Therefore, as soon as Wang Yi broke through, many chaos masters came to visit and congratulate him.

For a time, Wang Yi's palace was crowded, and there was an endless stream of Chaos Lords who came to congratulate him.

"I'm here again." Lord Cookie thought to himself as he looked at the Lord of Chaos who kept appearing at the palace gate. "The last time I chatted with Jiujiang Yi was okay, maybe our relationship can be closer." Qu Qizhu has few friends and knows not many powerful Chaos Lords, so he still hopes to have great potential like Wang Yi. The Chaos Master pulls a good relationship.

Master Qin Xin also came to Wang Yi's palace, and seeing those masters of chaos who came to Wang Yi's residence, there were not many smiles on their beautiful faces.

If it wasn't for the teacher's personal instructions, she would never have come to congratulate Wang Yi, so don't expect her to be in a good mood now.

"Give me a gift, say a few words, and I'll leave. It can be regarded as the completion of the teacher's explanation." Qin Xin master secretly said in his heart.

She glanced at the chaos masters again, and sneered in her heart.

"Everyone came here so enthusiastically to please that Jiujiang Yi, do you think he can become the king of gods?"

In her heart, she looked down on these chaotic masters.

Cultivation is not active, pull the relationship first.

Wang Yi's breakthrough this time, compared to the last time he became the number one disciple of Ziyi, many more powerful people came to congratulate him, and many of them were bigwigs.

"Congratulations, congratulations."

"Congratulations, congratulations. Master of Jiujiang, we will work together in the future, please give me more advice."

"When I first saw the ruler of Jiujiang, I felt that it was unusual, like a hidden dragon in the abyss. Now it seems that my vision is still very good."

Compared with the last time, this time the attitude of some Chaos Masters is lower.

Among practitioners, strength is respected!

Although Wang Yi said before that his strength was comparable to that of the Chaos Master, and he could even defeat some Chaos Masters, but after all, his realm was one level lower and he was the Eternal True God.

And now, he is already the master of chaos, and his strength exceeds most of the people on the scene, and the future will be even more terrifying!

This made many Chaos Masters, facing him, their attitudes could not help but be humbled.

Lord Houmeng also came over with his teacher's will, and sent gifts to congratulate him. In his words, he regretted that Wang Yi did not worship his teacher.

Master Qin Xin also came over. Although she was very reluctant in her heart, she behaved fairly normal. She chatted with Wang Yi a few words, saying congratulations from the teacher, and didn't say any more.

One after another, the powerful masters of chaos and the powerhouses who brought congratulations from the gods kept coming, and the scene was extremely lively.

Compared with other Chaos Lord breakthrough scenes, Jiujiang Lord is undoubtedly much bigger.

Ordinary Eternal True God breaks through, and there are not many Chaos Masters who care about it. If they have a background, they are disciples of the King of God, or they congratulate more, but there are still not many.

But Wang Yi became the master of chaos, and thousands of masters of chaos came to congratulate him!

Even many **** kings sent people over to send gifts to express their feelings.

All these are the potential and strength shown by Wang Yi!

Compared with other chaos masters, Wang Yi's future achievements will undoubtedly be greater.

As long as there is a possibility of becoming a **** king, he will be looked at highly.

"Um?"

Suddenly, Lord Houmeng, who was chatting with a few acquaintances in the crowd, was shocked when he saw a figure walking in at the gate of the palace.

Many powerhouses in the palace noticed the figure, showing shock.

"Then...isn't that Dimension Lord?"

The visitor was a figure in a bronze armor, covered in the armor, and only saw a pair of cold pupils.

The powerful breath on the body seems to be crushing the universe!

Wang Yi also noticed the person coming.

"Tianji dominates?"

This is an incredible powerhouse, and his strength is close to that of Cang Li's master.

More importantly, he is under the command of the owner of Wujianzhu, and has always been responsible for conveying the orders of the owner of Wujianzhu, and rarely appears in the outside world.

"Jiujiang Yi!" The bronze armored man looked at Wang Yi and said coldly.

"I'm here this time, with the will of the master, and congratulations on your becoming the master of chaos."

"This is a gift from the master to you!"

A stream of light flew towards Wang Yi and was caught by Wang Yi.

The strong bronze armored man looked at Wang Yi, and his eyes made Wang Yi feel a sense of oppression.

"My master said that you have a good talent. Since he chose the Void Dao, he hopes to achieve something in the future!"

After the bronze armored powerhouse finished speaking, he turned and left.

Wang Yi watched him leave silently, but at this time, the strong men in the palace who saw this scene had waves in their hearts.

"Master Wujian, actually paid attention to Jiujiang Yi?"

The owner of Wujianlou is very mysterious and rarely asks about Wujianlou.

But his status in Wujianlou. But always supreme! The other gods and kings also respected the Invincible Landlord!

Such a detached master of Wujiezhu, who has not asked about world affairs for so many years, would be surprised to send congratulations and gifts on purpose because of a new chaotic master.

"It should be related to the choice of the Jiujiang Lord in Senluo Palace before." Some Chaos Lord guessed.

"Jiujiang is not the only one who has chosen the Chaos Lord, there are many more, but I haven't seen how much the owner of Wujianzhu cares. I think it has something to do with the talent of Jiujiang Lord."

"It seems that the owner of Wujian is also very optimistic about this new ruler of Jiujiang."

One by one, the masters of chaos began to discuss heatedly in private.

Although the Master Wujian did not show up, he sent messengers to congratulate the Master of Jiujiang, which was enough to explain something.

All of a sudden, those Chaos Lords are more determined to have a good relationship with Jiujiang Lord.

The cookie master sneaked at the gift he prepared this time, and muttered in his heart. "It seems that the weight is not enough."

Seeing that Jiujiang Master has become hot, surrounded by many Chaos Masters, Cookie Master is also a little anxious.

He came first, what are you robbing! ?

Qin Xin's mood is also a bit complicated~www.mtlnovel.com~ Looking at Wang Yi, her heart is a little shaken.

That's all for his own teacher, so many **** kings, and even the most mysterious and greatest Wujian landlord actually pays such special attention to Jiujiang Yi.

The Master Qin Xin was shaken in his heart, and he couldn't help but feel that he and the Master of Jiujiang should also get closer. Speaking of which, there is no hatred between them...

Just when the master of Qin Xin was tangled, Wang Yi, who was surrounded by many masters of chaos, was also a little strange in his heart.

"Master Wuji, are you paying attention to me?"

Wang Yi is still very concerned about the master of Wujianzhu, the supreme powerhouse of the continent of origin.

After all, this may be the most terrifying powerhouse in the Origin Continent at present. Among the gods, the least powerful is also the top three!

Moreover, in terms of mystery and influence, it is number one!

Wang Yi was dealing with those enthusiastic masters of chaos, and was also distracted to observe the gifts given by the owner of Wujiezhu.

"Is it a stone?"

[Chapter 903: 9 Master Jiang visits his door](#)

It was a simple and unadorned gray stone with an ordinary appearance, without a trace of breath, just like a really ordinary stone.

But how could the things sent by the Master Wujian be ordinary.

Attached to it is a message left by the owner of Wujianzhuan, which introduces the use of this stone.

The Void Stone is the name of this stone.

The stone of the void is formed by the condensed essence of the origin of the Dao of the Void. It comes from the origin space of the origin continent. There are countless "daos" in the origin space. Some of them are combined with the origin to condense some essence. It is inaccessible and difficult to collect, so every source stone is extremely precious.

Refining it, when comprehending the void, will be easier.

For the chaotic master who takes the Void Dao, it is definitely a precious cultivation treasure.

But for the God King, they have reached the ultimate realm, and the Void Stone is of little use to them.

"Give me a Void Stone, this Master Wujian really looks down on me." Wang Yi secretly said in his heart.

Wang Yi is the new master of chaos, and he was automatically promoted to the elder of the inner hall, and his residence was also moved to the Infernal Continent.

And because he has just broken through, he will not arrange job affairs for him, as long as he cultivates with peace of mind.

Although his purple token has not been replaced, it has been upgraded. For example, the purple-clothed disciple has one pattern on the token, the golden-clothed disciple has two patterns, and the inner hall elder has three patterns... and the hall master is the golden token. card.

After his status was improved, Wang Yi learned more about Wujianlou.

For example, Wujianlou currently has twenty-six hall masters and one landlord, adding up to twenty-seven gods and kings.

As for the Chaos Master, even he does not know the number, and it is certain that it exceeds 10,000.

The Wujianlou is mainly divided into two factions, one is cultivated by the Wujianlou himself, and Wang Yi can also be regarded as this faction.

The other is to join through the battle palace and act as a thug of the Wujianlou, or a role similar to "King Qing".

Of the two major factions, the former is much stronger, and the latter is not far behind. The number of God Kings exceeds ten, and the number of Chaos Masters also exceeds ten thousand.

This shows the power of Infinity Tower!

Judging from the number of top-level powerhouses, the other two top forces of the cultivators in the origin continent, "Jieshan Palace" and "Dayue Kingdom", can only be compared with Wujianlou.

About one-third of the **** kings of the cultivators in the origin continent belong to these three top forces.

And the rest belong to various countries, sects, tribes, or loners.

In general, the number of god-kings of practitioners is around two hundred.

But the origin continent is not only for practitioners, but also for indigenous and primitive life.

Although their Divine King powerhouses add up to less than the practitioners, they are also a huge force, and they are also very powerful, otherwise they would have been wiped out by the practitioners.

...

In the eyes of others, Wang Yi has become the master of chaos, so he should practice meditation.

Unexpectedly, the newly released "Jiujiang Master" did not practice cultivation, but went to visit other strong men's caves everywhere.

"Cultivation, what kind of cultivation?"

"It should be signed now."

Wang Yi, who was smiling and talking to a chaotic master, thought to himself.

In the past, Wang Yi's status was not enough. He wanted to visit the powerful people in Wujianlou, but he was afraid of being rejected, and there was no reason to find it.

Now that Wang Yi is the master of chaos, or he has just been promoted, it is very normal to make friends with other strong people, and there is no need to find excuses.

Wang Yi glanced around, "Master Bailu, I have long heard that your palace is beautifully decorated, and the various magical scenery is quite amazing. I wonder if I can visit one or two?"

The lower body is a snow-white deer body, and the upper body is a stunning beauty, the white deer master smiled when he heard the words. "The ruler of Jiujiang wants to visit, of course."

So Wang Yi and Lord Bailu wandered around the palace.

[Ding, congratulations to the host for successfully signing in and rewarding 'White River Mountain'.]

A Chaos Master Arcana.

Wang Yi glanced at him and said, "I still have something to do, so I'll leave first, and I'll visit you when I'm free another day."

Lord Bailu personally sent Wang Yi outside the palace.

Then he watched the Jiujiang ruler who said something was wrong and ran to the neighbor next door.

"..."

"I have been known for a long time for the ruler of Soma, and I admire it very much..."

"I've heard about the name of Kan Peng's ruler..."

"Senior Isidore, I take the liberty to disturb this time..."

Wang Yi changed his method to drill into the caves dominated by chaos, and soon, there was a rumor that "the new chaotic master Jiujiang likes to go to the door".

Wang Yi's current status is not what it used to be. He visits his door according to etiquette, and those masters of chaos will generally not refuse inhumanely, but will receive him.

So Wang Yi was able to find a way to sign in.

[Ding, congratulations to the host for successfully signing in and rewarding the 'Dream Light Realm'.]

[Ding, congratulations to the host for successfully signing in, and reward the 'green copper ghost wheel'.]

[Ding, congratulations to the host for successfully signing in and rewarding the 'Rainbow Flowing Soul Tome'.]

[Ding, congratulations to the host for successfully signing in and rewarding the 'elf holy egg'.]

...

There are so many things signed in, and there will always be some strange things.

There are tens of thousands of chaotic masters in the Unbounded Continent. Even if some don't like being in the Unbounded Continent, they will leave palaces and caves and come back occasionally.

When their body is not there, they will also leave their divine incarnations, or their disciples to guard them.

So Wang Yi can always find a reason to go in.

The visits to the mansion one by one in the past were more or less rewarding.

After all, Wang Yi is now the master of chaos, so he either doesn't give rewards, or the rewards can't be too low.

According to Wang Yi's estimation, if the entire Infernal Continent visits, he can at least get tens of thousands of Chaos Master-level treasures!

Tens of thousands of chaotic master-level treasures are no match for ten or eight god-king-level treasures.

hey hey hey...

Occasionally, I will encounter a more alternative chaos master, and I will ignore Wang Yi, but it is relatively rare.

There are also chaos masters who have goodwill towards Wang Yi.

"Master of Jiujiang, you have just made a breakthrough, so you should cultivate well. These worldly ways are not necessary for me." Master Cang Li said earnestly.

Wang Yi looked at the white-haired old man in surprise. He could feel the kindness of the Lord Cang Li towards him.

Wang Yi nodded, "Many thanks to Master Cangli, I know, in fact, I just want to know more about the environment of Wujianlou, so I won't delay my cultivation."

"That's good." Master Cang Li smiled and said, "Master Jiujiang, you chose "Dao of the Void", and you received a gift from your teacher, and you have a fate with me. If you have any doubts about your cultivation, Master Jiujiang, you can come to me. This discusses one or two."

Master Cang Li wanted to give guidance to the younger generation Wang Yi.

Of course, Wang Yi would not reject the other party's kindness, and said gratefully, "Thank you, Master Cangli."

The mansion dominated by Houmeng.

"Come on, Brother Jiujiang, let's have a good drink today!"

The arrogant and arrogant ruler of Houmeng raised his wine glass and opened his mouth with a big smile.

Wang Yi sat beside him with a helpless expression.

There are also stunning beauties singing and dancing in the hall, and the music is flying.

Each Chaos Lord has a different reception style, and the Hou Meng Lord is obviously more exaggerated.

Wang Yi pinched his nose and drank with him for more than a hundred years.

Then he left the other man's mansion with a burp of wine.

The palace dominated by the heart of the piano.

"The Master of Jiujiang is visiting?" The beautiful and noble Master Qin Xin sat there in a purple-gold robe, and raised his brows slightly.

"I have long heard that he has been visiting Chaos Lord everywhere for a long time, but I didn't expect to come to me today."

"Then see him."

For Jiujiang Master, Qin Xin Master's feelings are somewhat complicated.

However, on the bright side, the two had no grudges and no grudges, and she could not be guilty of deliberately hating Wang Yi.

"Master Qin Xin, once we parted, we meet again today. Master Qin Xin is even more elegant than before." There were many Chaos Masters visiting, and Wang Yi's mouth was used to it.

The Master Qin Xin sitting in the seat is reserved.

She felt a little weird in her heart. Although she had a noble status, few people praised her so directly.

No way, Wang Yi wanted the other party to be convenient, so of course he would be more flattering to make the other party feel better and save face.

And the master of Qin Xin is a woman, so of course Wang Yi will compliment the other party's appearance.

But Qin Xin has lived countless times of reincarnation, but he has never heard of it.

"This ruler of Jiujiang is so enthusiastic about me... Could it be that he is interested in me?" A ridiculous thought popped into the head of the ruler of Qin Xin.

Looking at Wang Yi's smiling face, she wondered if it was because of her preconceived notions, and she felt more and more that the other party was 'having bad intentions'.

Qin Xin dominates the mood delicately.

Of course, Wang Yi didn't know that the ruler in front of him had already thought about it.

"This..." Master Qin Xin was a little embarrassed.

If the other party pursues you, do you agree or reject it?

To be honest, Jiujiang dominates conditions are also good, the future is bright, barely worthy of himself.

After such a change of thinking, she found that she didn't hate this Jiujiang ruler much anymore.

Wang Yi also noticed that the other party's eyes were not right.

How should I put it, it's like a person who is very stumped when he sees two things he likes, but doesn't know which one to buy.

Wang Yi was astonished in his heart. Qin Xin was the master. He just wanted to visit his residence, but he acted as if he had been confessed.

Master Qin Xin hesitated and agreed to Wang Yi's request.

After all, this is not an excessive request.

Then Master Qin Xin accompanied Wang Yi for a walk in the palace. During the conversation, Master Qin Xin also discovered that Master Jiujiang didn't seem to care about him. He seemed to be making an oolong just now.

Feeling that the arrogant master of Qin Xin's attitude towards Wang Yi suddenly cooled down, he drove out the confused Wang Yi on the grounds that he had something to do.

"Inexplicable!" Wang Yi glanced at the palace and shook his head.

But now that the wool is in hand, Wang Yi doesn't care about the other party's rude attitude.

"Hahaha, Lord of Jiujiang, welcome and welcome, the arrival of Lord of Jiujiang really makes me happy..."

Cookies dominate enthusiasm.

Wang Yi and the master of cookies are old acquaintances, and they can be regarded as acquaintances.

The previous conflict has long since evaporated.

The cookie master warmly entertained Wang Yi, but Wang Yi didn't plan to play with the other party, and left after scouring the wool.

"Master of Jiujiang, come again next time!" Master of Cookies reluctantly sent Wang Yi to the door.

Wang Yi sighed in his heart, "If only every Chaos Master was like a Cookie Master."

Most Chaos Masters are still very polite to Wang Yi! After all, this is a character favored by the Master Wujie and many **** kings! And the strength is also very strong!

After all, Wang Yi's secret technique level is already at the level of normal chaotic masters, and there is a killer move like "Spirit Killing Ten Spectacles", and his strength can actually be ranked upstream of the chaotic masters of Wujianlou.

The most important thing is that he has great potential, and it is not a big problem to become the top powerhouse in the chaos masters in the future. This is the reason why the chaos masters are polite to him.

Therefore, the process of Wang Yi's visit can basically be described as smooth.

No matter how weird and arrogant the master of chaos is, he will not offend a powerful master of chaos for no reason!

More or less will give a face, deal with it.

And Wang Yi didn't care about the attitude of the other party, he just wanted to sign in.

Leave as soon as you're done, don't delay.

Therefore, in addition to meeting the Lord of Houmeng, the Lord of Chaos, who was so enthusiastic in pulling his hospitality, Wang Yi just walked around and left at other Lords of Chaos.

Ding!

Ding!

Ding!

Countless rewards are in hand.

Peel the wool until soft.

With so many treasures, if they were given to the beasts, they would be able to breed a terrifying army!

For Wang Yi, you can also exchange for many treasures of the gods! What kind of soul class, palace class, battle armor class, flying class, auxiliary class... It is estimated that it is not a problem to get a set.

Wang Yi feels that he is very cool now and is about to embark on the peak of his life.

"The Lord of Chaos is almost here. Next, it's the King of God."

Wang Yi hovered above the Infinity Continent, thoughtfully.

The Unbounded Continent is extremely vast, and most of them are dominated by chaos!

The Divine King, on the other hand, lives in the central area of the Unbounded Continent!

There are only more than twenty **** kings in Wujianlou! Their palace covers an area of more than 100 million light-years, which is extremely magnificent!

"God King... It's a little troublesome, but I have to try it."

Wang Yi thought to himself.

In his capacity, visiting the Chaos Lord will give more or less face, and not many will refuse.

But God King, whether people want to see you or not depends entirely on their mood.

Even if he didn't want to see it, Wang Yi couldn't help it. He couldn't force his way into the residence of the God King.

Besides, the residence of the King of God must be heavily guarded, and there are many defenses. Whether or not you can break in is another matter.

Wang Yi went to visit the God-King, and the first target he chose was "Wu Luo God-King".

He had sworn that he would slaughter the "God King Wuluo" for Lord Hongling.

It's also good to see your goals ahead of time.

The palace of God King Wuluo is actually a huge giant tree, with lush leaves, each of which contains a star field, and there are millions of light-years, and the vines of thousands of light-years are entangled like a galaxy. above.

God King Wuluo lived on the top of the huge tree canopy.

God King Wuluo knew that Wang Yi was asking to see him, so he simply met him.

Wang Yi also saw this god-king.

God King Wuluo, green skin, pointed ears, looks like a man and a woman, and a snake tail with green scales coiled around the lower body.

One of his eyes was green and full of life, while the other eye was gray and dead.

The mysteries of the infinite universe are all reflected in him.

The breath is even more terrifying.

Wang Yi's heart palpitated.

God King, the ultimate cultivation realm!

This is Wang Yi's first face-to-face meeting with the real God King~www.mtlnovel.com~ The pressure is extremely high.

This is a **** king who is good at cursing, and the master of Hongling is also an extremely powerful master of chaos, but he was cursed by the other party and could not get rid of it.

God King Wuluo said: "Master of Jiujiang, when I wanted to accept you as a disciple, you didn't want to, why did you come to visit this time?"

The God King Dare Wuluo was also dissatisfied with Wang Yi's refusal to be his apprentice.

Wang Yi thought to himself, "I want to kill you, how can I be your apprentice."

Even if you don't kill them, so many **** kings will not choose your sinister path.

[Chapter 904: The King's Wool](#)

Wang Yi had already anticipated the attitude of God King Wuluo.

As early as when he visited those chaotic masters, through conversations, he also learned about the deeds and temperaments of some **** kings.

Like the uninterrupted landlord, mysterious and detached, not asking about world affairs.

The spirit-killing **** king, arrogant and cold, is famous even among **** kings.

God King Wuluo is vicious and greedy.

God King Wuluo, because of offending a great enemy in the early years, his kingdom was destroyed, he fled to Wujianlou to seek shelter, and he didn't know what he paid, but Wujianlou actually agreed to accept him.

But relying on Wujianlou does not mean that you can rest easy. Wujianlou only promises to protect him, but will not solve the enemy for him. The enemy has been staring at him, but he does not dare to leave Wujianlou.

His position in Wujianlou is actually very embarrassing. His strength is at the bottom of the king of gods, and Wujianlou does not need him very much.

But even a **** king needs to cultivate, not to mention that in order to seek shelter, the Wulu **** king paid a huge price and was poor.

But the enemy is outside, and he can't go out often to find treasure opportunities, and the situation is very embarrassing.

I can only work for Wujianloulou in Wujianlou, get some remuneration, and live a foolish life.

Even if the Chaos Lord pays enough, he is willing to take action.

The king of the gods has gotten to the point where he is, and it is considered a downfall.

So how to impress God King Wuluo, Wang Yi already had an idea in his mind.

Wang Yi didn't care that the God King Wuluo's tone was not good, and he still showed a respectful expression on his face. "Lord God King, this junior visit this time because I heard that Lord God King you have a treasure called "Lingxu Pond", which is very helpful to practice. I want to exchange the treasure with Lord God King. "Lingxu Pool "Cultivation for a while, I don't know if it's okay?"

God King Wuluo smiled, "You are quite well informed, I do have it, but not everyone can ask me what they want."

Wang Yi smiled slightly, "This junior has a treasure, Lord God, please take a look first."

What is borrowing the pond to practice, it's just an excuse, the purpose is to sign in the good things at the Wuluo God King's place, and the "Lingxu Pond" is a very important treasure in the Wuluo God King's cave residence. Yi went in just to sign in.

God King Wuluo saw the treasure that Wang Yi took out, and his eyes lit up slightly.

He pondered for a while, "Well... it's not impossible for Lingxuchi to cultivate with you, but you can only cultivate for ten thousand eras."

Wang Yi secretly scolded God King Wuluo for being greedy and stingy. He gave him a treasure of Chaos Master in exchange for 10,000 Era of cultivation time. No wonder God King Wuluo has a bad reputation outside.

On the surface, however, Wang Yi still showed a respectful expression. "Then thank you Lord God."

"Haha... Come with me." After getting a fairly good treasure for nothing, God King Wuluo was in a better mood, and Wang Yi was also more pleasing to the eye.

Wang Yi followed God King Wuluo to the root of the giant tree, where there was a green and faint pool.

"You can practice here for ten thousand epochs. After the time is up, if you want to continue to practice, you have to exchange for treasures." God King Wuluo looked at Wang Yi.

"Of course, if you are willing to take me as your teacher, you can use this place and other secret realms in the entire cave, how about you?"

God King Wuluo didn't give up yet.

"Thank you Lord God for your appreciation, but I don't plan to apprentice to anyone at the moment. Lord God should know that at the beginning, I rejected all God Kings." Wang Yi lowered his head and said.

God King Wuluo snorted. What kind of identity is he? Although he is considered a downfall among the kings of gods, he is still standing at the pinnacle level of the origin continent. Ordinary chaos masters want to worship him as a teacher. Being rejected, his face was also a little unsightly.

Wang Yi would not care what God King Wuluo thinks, in his eyes, this is already a mortal person.

A weak god-king wants to be his teacher too? I want to eat fart!

Even the owner of Wujie, he is not necessarily willing.

Wang Yi didn't waste time and signed in immediately.

Ding, congratulations to the host for successfully signing in, and rewarding the "Witching Mirror"! 】

Wang Yi received relevant information from the panel, and his heart immediately filled with joy.

It's actually a god-level treasure!

He glanced at the Wuluo God King in front of him, and there was a strange look in his eyes. The Wudao Mirror, shouldn't this be the treasure used by the Wuluo God King?

Wang Yi split out an incarnation of divine power and stayed here to practice.

Then he left the residence of the God-King Uro.

Looking back at the magnificent giant tree cave mansion, I secretly said, "Dare to pit my baby, I will take your dog's life in the future!"

Because of the relationship between the master of Hongling, he will definitely kill God King Wuluo in the future to break the cause and effect.

After leaving from the God King Wuluo, Wang Yi thought about it and went to visit the God King Murderer.

Among the many god-kings, the spirit-killing god-king has always shown kindness to him, and he has practiced the "Ten Spectaculars of Spirit-killing, which is somewhat related to the spirit-killing god-king."

The Spirit-killing God King lives in the "Baiyu Mountain", which is a majestic mountain with a height of hundreds of millions of light-years.

When Wang Yi came over, he was stopped by a team of female Eternal True God guards wearing white jade armor.

"Trouble spreading the word, Jiujiang pays respects to the Spirit Slayer God King." Wang Yi said with a smile.

"Master Jiujiang, please wait a moment." The guard was polite to Wang Yi.

After a while.

The guard said to Wang Yi: "Master of Jiujiang, our Majesty is willing to see you." The guard smiled, "Please come with me, this way please."

Wang Yi was overjoyed. "It's time to work." He felt that the Spirit Killing God King should not refuse to see him.

Wang Yi followed a female eternal **** to the top of the mountain, while watching the surrounding scenery, he said with emotion. "It's beautiful here."

The female Eternal True God smiled and said, "Jiujiang has a good vision. Our Majesty likes it very much. In order to arrange this place, we have spent a lot of thought and billions of years. In terms of beautiful scenery, we are in the top three in the entire Infernal Continent."

Wang Yi nodded. Among the many god-kings, the spirit-killing god-king was famous for his cold temper and did not like to deal with other god-kings. Even his apprentices were rarely accepted. Most of those golden-clothed apprentices were just her named apprentices. Rarely liked by her.

Wang Yi and the eternal true **** woman flew to the top of the mountain. At the top of the mountain, they saw an extremely handsome woman with long hair like a star, and her skin as crystal clear as jade standing at the gate of the palace. As if the eyes of the endless starry sky looked over—

All that was left in Wang Yi's mind was the pair of incomparably pure eyes.

"boom!"

In the next moment, an incomparably terrifying will rushed over like a mountain.

This is the most terrifying will that Wang Yi has ever faced! He even had a feeling that he was so insignificant when he came out of the universe sea for the first time to face the original universe.

"Stop!"

Wang Yi tried his best to use the secret technique of will, relying on his own will to resist! I was very shocked. "It's terrifying. Just a casual glance makes me feel unstoppable. It really deserves to be the spirit-killing **** king who is famous for his will among the **** kings!"

After all, Wang Yi is only the will of the chaotic master, and the gap between him and the real king of gods is still huge!

Not to mention, the Spirit Killing God King is still the most accomplished in terms of will among the God Kings!

If she exerts her full strength, even the king of gods will be affected.

Dengdengdeng, Wang Yi's body swayed, and he couldn't help but take three steps back.

The jade-like woman's mouth twitched slightly, and the pressure on Wang Yi instantly disappeared. He breathed a sigh of relief and said respectfully. "Junior Jiujiang Yi, meet the Lord God King!"

The Spirit Slayer God King glanced at Wang Yi, "Master of Jiujiang, what's the matter with you coming to visit me?"

The Spirit-killing God King has a high status and has always been too lazy to deal with the Chaos Master. This time, if Wang Yi hadn't asked to see her, she would never show up.

Wang Yi didn't give a shit, just straight to the point, "Sir God King, I heard that you have a "Lingbi" with a mysterious will. I want to observe it. I don't know what conditions are required?"

Signing in is the main goal, but this "spirit" is also another purpose of Wang Yi.

The Spirit Killing God King is a **** king who is extremely good at will in Wujianlou. Her achievements in will, not to mention the first place in the origin continent, she is also one of the best!

And that "Lingbi" is a magical treasure she got from somewhere. It is said that it is of great benefit to the improvement of willpower. The Spirit-killing God King attaches great importance to it. Except for his disciples, he is not allowed to watch it.

There was a smile on the glowing face of the Spirit Slayer God King, and he stared at Wang Yi. "Well, your will has also reached the top level of being a saint, and you are only one line away from the king of gods. However, the difference in this line is far from heaven and earth!"

"Let me remind you, if you want to break through to the will of the God King, pure training is not useful, you must have spiritual transformation and sublimation!"

Wang Yi said respectfully, "Thank you Lord God for your guidance."

The Spirit Slayer God King said, "Okay, Lingbi, I can show you the time limit, but how will you repay me?"

"Uh..." Wang Yi looked at the Spirit Slayer God King, "I don't know what conditions the Lord God King has?"

The Spirit Slayer God King tilted his head slightly, "I didn't think about the conditions, I'll talk about it later, you just need to remember, don't worry, it won't make it difficult for you, if you are willing to accept, this Lingbi can let you watch, otherwise, You can leave now."

The Spirit-killing God King is more aloof and cold than the Wuluo God King, and he will not put one or two Chaos Master Treasures in his eyes.

What she values more is Wang Yi's potential! So willing to give him a little help.

Wang Yi thought for a while and did not hesitate. "Okay, I promise."

Anyway, if you owe a favor, you can do it. If the Spirit Killing God King asks too much in the future, for example, if he insists on marrying himself, then he will refuse.

Afterwards, Wang Yi was taken to a secret realm in the mountains by the Spirit Killing God King.

As soon as he entered, Wang Yi felt a powerful will coming towards him, and he felt that he was surrounded and oppressed by the invisible will from all directions in the depths of the ancient ancestor's body in the ancient sacred mountain.

Wang Yi saw that a glass ball was spinning in the center of the world.

Every time it rotates, there are waves of invisible and powerful wills pouring in.

The King of Murdering Spirit said, "This is the Lingbi. I got it from a ruin in the Primal Chaos Void. It may be a relic of the Great Destruction Era. You will have a chance to understand what the Great Destruction Era is. I will not. Talk to you more."

"After I got it, I spent a lot of effort to refine it into this treasure, named Lingbi."

"No matter how ordinary the eternal true **** is, it is easy to break through the will to become holy here. The master of chaos can also temper the will to the limit!"

"But from Chaos Lord to God King, very few."

"There are only three of my disciples who can achieve the will of the God King. It is still countless years of hard work. What you can get from here depends on you."

Wang Yi looked at the glass ball. The glass ball gave Wang Yi the feeling that it was very similar to the eyes of the spirit-killing **** king. They were so pure, deep, and unfathomable!

Just looking at it, his will seems to be motivated by something.

Wang Yi took a deep breath.

"Thank you for the Spirit Killing God King!"

Heart silently said.

"Sign in!"

Ding, congratulations to the host for successfully signing in and rewarding the "Spirit Killing Orb"! 】

The Orb of Soul Killing, a divine king-level treasure, contains unfathomable willpower! It can greatly enhance the power of the Secret Art of Will! This kind of treasure that enhances the power of the will is very rare even among the treasures of the gods!

Requirement for master recognition: God-king-level will!

Wang Yi's heart was overjoyed at first, another god-king-level treasure! And it's also about will! Then, when I saw the request to recognize the Lord, I was a little dumbfounded.

He is only now called the ultimate will of the holy level, which is far from the will of the king of gods.

"However, something is better than nothing..." Wang Yi comforted himself.

But there is bound to be some regret.

If the Orb of Soul Killing can be used now, then his strength will undergo earth-shaking changes! Or use the will power of the Spirit Killing Orb to reach the level of a **** king!

In addition to the supreme secret technique, "Legend of Primordial Techniques~www.mtlnovel.com~" he felt that a god-king with a slightly weaker will might have a hard time resisting his own secret technique of will!

"God-king-level will..." Wang Yi silently looked at the glazed glass ball that was spinning in the distance. There was a mysterious and vast wave emanating from it, so that even the god-king could not see through it.

Wang Yi thought in his heart.

"According to what the Spirit Slayer God King just said, if you want to break through to the will of the God King, simply sharpening the will is not very useful. You must transform your mind and sublimate your state of mind."

In fact, the same is true of the will to become a saint. It turns out that the historical Luo Feng was in the final battle with the beast, and when he faced a desperate situation, he finally broke through his will!

"My will has reached the limit of the chaotic master, can I use this place to break through?" Wang Yi had no idea in his heart.

The will and mind, compared with the mysteries of heaven and earth, are even more illusory.

Even the king of gods can't give any pointers. It is purely personal to understand!

However, with this spiritual jade to assist in cultivation, the probability of breakthrough is always higher than that of a single person.

Just like at the God King Wuluo, Wang Yi also set out an incarnation of divine power and placed it here.

However, the incarnation of divine power cannot be divided too much, otherwise it is easy to distract energy and consciousness.

"Spirit Killing God King is generous, let me practice here for as long as possible."

But this is not for nothing, Wang Yi owes favor.

In fact, Wang Yi is more willing to exchange treasures than favors.

But the Spirit Slayer God King obviously can't give away just a few treasures, and Wang Yi can't take out too valuable things, otherwise the Spirit Slayer God King might suspect something.

Leaving an incarnation of divine power to comprehend the mysteries of the will of the spirit-killing god-king, Wang Yi's deity went to other god-kings.

The woolen journey is not over yet. To be continued

[Chapter 905: destroy the cave](#)

Misty Peak.

This is the location of a reclusive god-king in Wujianlou.

"Master of Jiujiang, I'm sorry, our master has something to do and can't see you. Come back next time."
A chaotic master smiled at Wang Yi.

"Excuse me." Wang Yi didn't say much.

Wang Yi left Misty Peak.

Although entering Misty Peak, but because it is outside, the sign-in naturally has no results.

Wang Yi turned his head and glanced at the misty peak shrouded in clouds and mist.

"The rumors are right, the God King is not seen."

The Divine King is a "guest minister" in Wujianlou. In Wujianlou, it is for cultivation, so he often retreats. Once he retreats, he will be in countless times of reincarnation, and he will never see people.

Of course, Wang Yi can't let him make an exception.

"It doesn't matter if I don't see anyone. I can sign in and complete my mission. Unfortunately, without the permission of the Divine King, the powerhouses of the Misty Peak will not let me in without authorization." Wang Yi secretly said in his heart.

There are more than 20 **** kings in Wujianlou, and some **** kings are difficult to see.

For example, the owner of Wujianlou, usually rarely shows up, or only the king of gods is qualified to see him. His location is also the most important place in Wujianlou, and the master of chaos cannot be approached.

The Mystical God King, who is in seclusion and practice, does not care about world affairs. Not to mention.

It is also rare to see the Spirit Killing God King. If Wang Yi hadn't been given a high look by her, he would not have met him.

Afterwards, Wang Yi went to visit other god-kings.

Some god-kings met him, and some god-kings did not see him for various reasons.

Even so, Wang Yi signed up for twelve treasures of the God King, as well as other treasures far beyond the level of ordinary chaos masters.

Wang Yi held his breath as he looked at his gains on the panel.

"Compared to the king of gods, am I rich?"

Such an amazing harvest can only be obtained in very few places in the origin continent.

The ancient holy land is also good, but unfortunately at that time he was restricted by his status and could not move around.

All the treasures signed in the Unbounded Continent add up to about 20 treasures of the gods.

With so many treasures, Wang Yi thought about how to use it.

"The treasures on my body, weapons and soul attack types, have primordial embryos. Even if I give me a god-king-level weapon, the power exerted will not improve much."

"Soul defense **** king treasure, need one."

"The palace has the Babel Tower, so there's no need to change it. Other armors, domains, flying, restraints... are all needed."

Wang Yi thought to himself, "If you only change one set, it will be enough."

"The rest can also give me a boost to the divine power reserves of the divine body."

When he thought of it, he did it. Wang Yi returned to his palace and began to expand the divine body.

Pieces of treasures that increased divine power were exchanged, and a large amount of divine power gathered on the divine body.

The scale of Wang Yi's divine power is also increasing.

Originally, because Wang Yi's divine body broke through the **** of chaos, the divine power was condensed a hundred times, and the size of the divine body was reduced to more than one million light-years.

But now, under the promotion of a large number of precious treasures, his divine body swelled like a breath.

Five million light years...

Ten million light years...

20 million light years...

Thirty million light years...

The scale of Wang Yi's divine body continues to expand at an astonishing speed!

Countless powerhouses from the origin continent have spent endless years slowly increasing their reserves of divine power.

Use treasure? So extravagant! That is, **** kings generally don't do this!

But Wang Yi is willing!

"God King Treasure? It's just a foreign object. Besides, I'm nothing but the master of Chaos. It's useless to give me so many treasures!" Wang Yi didn't care. "Let's talk about increasing the reserves of divine power first! You can continue to find treasures if you need them in the future!"

Wang Yi really doesn't care, these treasures are very precious to every **** king, and they are easily wasted, but for Wang Yi, the process of obtaining them is too easy, and it is nothing more than going to other strong men to stalk the door.

With the investment (krypton gold) at no cost, Wang Yi's divine power reserves quickly broke through to the scale of "billion light years"!

This kind of scale can only be achieved by the powerhouses of the "Infinite Divine Body", and generally they have to be God Kings!

But at this scale, Wang Yi needs more treasures if he wants to continue to improve.

"My chaotic master-level divine power, the reserve of divine power has increased by 100 million light-years, and three treasures of the **** king have been consumed!" Wang Yi was also amazed in his heart. "This is still the supernatural power of the chaotic master. If it is the power of the **** king, it is a hundred times stronger! Isn't the price required a hundred times more!"

Even some of the top inheritance forces, geniuses who cultivate infinite divine power, are at most only at the Chaos Master level, and then they have to rely on themselves.

Because the price is too high! God kings are slowly accumulated, all use treasures? I really can't stand it!

Wang Yi muttered in his heart, "Even if he is the same as the God King with a scale of 100,000 light-years, but the other party's divine power is a hundred times higher than mine (the God King is basically a 90,000-fold God, and there is no difference between the life gene level and 100,000 times), after conversion, the reserves of divine power are a hundred times more than me!"

The reason for this is because the realm level is different!

Just like an adult eating, of course, it will eat much faster than a child!

Wang Yi felt regretful in his heart, but he didn't even think about it. His divine power reserves instantly expanded to 100 million light-years. This speed is already the first person in the history of the Origin Continent!

"It's almost time to sign in, it's time to practice."

The wool was almost smashed, and Wang Yi began to prepare to practice.

He glanced at his own tree of enlightenment that had not yet bloomed, thought about it, and connected to the treasure house of Wujianlou.

Training resources!

Wujianlou is a superpower that has been standing on the continent of origin for countless years! Naturally collect countless cultivation resources! Cheats! Secret realm! All kinds of auxiliary training treasures, everything!

As the elder of the inner hall of Wujianlou, he has a certain amount of resources to enjoy in each era of reincarnation. This is the welfare of the elders of the inner hall of Wujianlou.

Cultivation under the "tree of enlightenment" is one of them.

And some of the more precious Rift access, too.

But if you need more, you need to exchange it yourself.

And this requires an integral contribution value.

Wang Yi didn't really care.

Before, he was a disciple of Ziyi, the eternal true god, and even if he had treasures, he could not exchange for points contribution, but now he is the master of chaos, the elder of the inner hall, of course there is no such problem.

His current wealth, not to mention the number one among the **** kings, is also one of the best.

Of course, Wang Yi would not reveal it at will, for fear that the God King would not be able to resist robbing him.

"Let me see what suits my practice..."

If you want to cultivate, you must clearly understand the direction of cultivation.

To become the master of chaos is to master the rules of chaos.

The latter is the God King, who is the God of the Universe, who has attained the ultimate in one line of Dao.

The second level of the God King is the fusion of the two veins of one path.

The third level of the **** king, the ultimate realm, has to integrate all the branches to realize a complete ultimate path.

Then, with the ultimate Dao as the core, absorbing other mysteries to create a new Dao and constantly improving to the semi-chaotic source level.

Finally, it is the way of Chaotic Origin! That is the final level of Chaotic Origin space!

From the information of Wujianlou, it is known that there are many kinds of Dao in the world, such as the Dao of Shadow, Dao of Killing, Dao of Sword, Dao of Blade, Dao of Darkness, Dao of Light, Dao of Sound, Dao of Wave (extremely good at domain), Dao of Destruction, Dao of Fire, Road of Thunder, Road of Time and Space, Road of Light, Road of Time (retrospection of time), Road of Insects and Beasts, Road of Vocal Music, Road of Death, Body Refinement Flow (good at melee combat, breaking with force), Road of Spear, Road of Void (Clone, Domain), Illusory Realm Dao, Soul Dao, Heart Dao, Dharma Formation Dao, Strength Dao, Life Dao, Immortality Dao, Blood Blade Dao...

These many Taos have come together to form the current source world!

Wang Yi knows that, after comprehending many 'daos', the origin of the world of the source world, as long as the Tao contained in it can imprint more than half of it, a source world can be refined.

In the end, refining the origin of the world and becoming a world-class Chaotic Origin!

Because he has comprehended many Taos and accumulated profound knowledge, he can continuously tap his own physical strength and quickly climb to the late stage of the world-class Chaotic Source. It takes some time to complete the series. Even become a lord in the future, similar examples, Yuan is so!

"Comprehend many Taos?"

"Or wait until I become a Cosmic God, when the Cosmic God steps out of the extremely high realm, becomes the ultimate realm, and reaches the end, if it is difficult to break through, I will consider it."

Wang Yi didn't think much about it at all.

If you don't reach the ultimate state, you won't be able to endure the great destruction of the origin world's reincarnation. It's useless to think so much.

And mastering half of the Dao... The Ultimate Realm itself can survive the destruction of a source world and reincarnate again and again.

However, there are still very few world-class Chaotic Source powerhouses born!

This is because they must at least comprehend half of the Tao within a source world reincarnation time.

And every time the source world is broken and born, the new world and the Tao are also slightly different.

The reincarnation time of a source world seems to be extremely long, but it is difficult to realize half of the Tao.

As a result, the Ultimate Realms have to come back again and again.

So it is like the "Yuan" who is full of compassion for the weak and wants to protect the territory of the source world and increase the power of the lord. Although he is good at sending a weak life to another source world for reincarnation!

If it is really that easy, Yuan can cultivate a large number of world-class Chaotic Sources as long as he continuously sends those geniuses to the source world for reincarnation!

However, controlling a source world is not that simple!

And a source world has a master... then this source world will always prosper and maintain its peak form, and there will be no major shatters.

Wang Yi looked through the treasure house of Wujianlou's cultivation resources, and quickly found the same.

"Destroy the cave?"

Destruction of the Dongtian is a magical and mysterious realm discovered by Wujianlou in the chaotic void beyond its origin.

In the chaotic void, many magical things are born, some of which are difficult for even the king of gods to investigate thoroughly.

This is the magic born in the source world! But the most mysterious thing is the origin of the source world! That is the most important place in the world! Of course, the Chaotic Source space is another level.

But for the Divine King, it is difficult to jump out of the cage and contact the Chaotic Origin space if they are not at the third level.

In the long years, the god-kings have guessed that the source world, like the universe, has reincarnation of life and death through various clues.

And "Destroy the Cave" may be the product left after the last reincarnation of the source world.

It is extremely dangerous and contains the ultimate power of destruction. In the deepest part, even if the **** king enters, there is a danger of falling!

If you want to run around in the periphery, you need at least the power of chaos to dominate!

However, such a dangerous and magical place naturally breeds some precious treasures. Many powerhouses from the origin continent, Chaos Masters and Divine Kings have gone to Destruction Cave to explore and roam, and some places that can constantly fix the birth of treasures have also been used by major forces. occupy.

As one of the top forces in the origin continent, Wujianlou naturally occupies one of them.

In countless explorations over the long years, Wujianlou also found that it is of great benefit to the powerhouses who comprehend the "Dao of Destruction" in the Destruction Cave!

Wang Yi was very moved.

Although the Way of the Void, the Way of the Illusory Realm, is very important to me, but I have only just mastered it.

But at present, he has made the fastest progress, and the one who has the most hope to quickly reach the God King is the Dao of Destruction.

Don't forget, he also has a darling "world beast" that destroys the source.

"The Dao of Destruction also has many branches. I only need to understand the entire branch line to become a king of gods." Wang Yi narrowed his eyes.

Like the Void Dao, it is divided into nine branches!

The Tao of Soul also has the world, desire, soul, killing, psychedelic...

Destruction Dao, Body Refinement Flow, the same is true!

One line of one path reaches the ultimate, that is the king of gods!

To be like Dongbo Xueying becoming a God of the Universe is to follow the branch of the 'Illusionary World' in the road of 'Illusory Realm'!

Wang Yi secretly said in his heart, "After so many years of cultivation, I have come to understand all kinds of Dao of Destruction, and I have also discovered that one of the branches of Dao of Destruction, "Jie Zie", is more suitable for me and the beasts, or I can try to understand this way."

Destroying Dongtian is good for his own cultivation, of course Wang Yi will not miss it easily.

However, the destruction cave is located in the depths of the chaotic void outside the origin continent, and it takes a long journey to get there.

It will take a long time for the Chaos Lord to hurry.

The fastest method is "Void Teleportation", but even Void Teleportation has to be done many times!

Seeing this, Wang Yi couldn't help but think again, if only he could master Void Teleportation now.

However, my understanding of the void is too low, and I haven't even gotten started with "Dao of the Void". If you fully understand the first picture, you are expected to master the skill of "Void Teleportation".

"If you want to quickly reach the Heaven of Destruction, the most convenient way is to use Wujianlou."

"Wujianlou has a stronghold in Destruction Cave, and people can go in and practice, but they need to contribute points."

Wang Yi looked at the point contribution, the price was very high, and the ordinary chaos master, I was afraid that he would shake his head.

"The contribution of points is not enough, so I can only change it." Wang Yi touched his chin.

At the beginning, Wang Yi became the number one disciple of Ziyi and was rewarded with one million points!

Later, he became the master of chaos and was promoted to the elder of the inner hall. Of course, it was not such a good thing.

Although the elders of the inner hall also have benefits~www.mtlnovel.com~, they are not enough to exchange for a cultivation quota to destroy the cave.

And if you want to destroy Dongtian, you have to wait. Wait until a certain number of people are gathered before taking them over at one time.

Otherwise, you have to pay for it to send it or rush through it yourself.

"When was the last batch, after so long, plus me, there are only three people now?" Wang Yi was speechless. There are so many chaotic masters in Wujianlou, and few will destroy Dongtian.

Fortunately, Wang Yi is now rich and powerful.

"Sign up first, if not, I will go by myself."

[Chapter 906: practice avatar](#)

Wang Yi did not rush to set off immediately to destroy Dongtian, but retreated and cultivated as a universe and a clone.

As a universe, it is divided into three layers. The first layer requires Chaos Realm to practice.

And Wang Yi first cultivated the six beast transformations, and then used this as a stepping stone to cultivate the universe.

With Wang Yi's current background, it only took 60 billion epochs to successfully cultivate the six beasts.

And it took trillions of epochs to cultivate as the universe.

At this point, Wang Yi's physical strength has entered the level of Chaos Master Treasure.

Ordinary Chaos Lord can attack with all his strength and can't hurt his body. Maybe many **** kings can't compare with Wang Yi in this regard.

As a cosmos, in addition to improving physical defense, there are also many powerful tricks, which can be called a first-class unique skill in the body refining flow.

With these tricks alone, Wang Yi was able to knock down many Chaos Masters to the ground.

Wang Yi couldn't help sighing, "The time for cultivation is too fast, I don't feel anything, it's already over."

When you reach the realm of chaotic domination, once you practice, you will always be in several reincarnation eras.

A person like the Misty God King who doesn't care about the world's affairs and cultivates wholeheartedly may not show up once in the era of hundreds of millions of reincarnations.

Wang Yi also gradually got used to the rhythm of cultivation in the origin continent.

"The next step is to practice the clone method." Wang Yi went out to gather with some friends and acquaintances, and then followed the retreat to practice.

It is normal for practitioners to practice in this way.

Except for those practitioners who cannot continue to progress in their practice, most practitioners, their life is mainly based on cultivation.

Even the **** kings standing at the peak of the origin continent. He has never let go of his cultivation. For example, the Master of Wuji, the God King Misty, and the God King Wuluo are also determined to make themselves stronger.

In the palace's secret room, Wang Yi stretched out his fingers, and a drop of crystal clear blood was dripping out with infinite coercion.

Cultivation of avatars requires a part of the soul to be split, so even for practitioners, avatars are not practiced at will, because there are too many avatars, which may affect the foundation of their own cultivation.

If the clone is completely killed, it will also be a huge loss.

Unlike the incarnation of divine power, the incarnation of divine power is entirely composed of divine power and carries its own consciousness. Weak, weak, and generally unusable for combat.

The divine power clone, however, is a complete separation of a part of the soul composition, so it can not only carry more power, but also has growth potential, which is basically the same as the main body.

For example, Wang Yi is a life of flesh and blood, so his avatar is also a life of flesh and blood.

However, this avatar is equivalent to starting from scratch. If you want to have the vast divine power of Wang Yi's body, you have to cultivate it slowly.

"Dong dong dong" An oval embryo is expanding and contracting again and again in the blood, making a sound, a bit like the sound of a heartbeat.

Wang Yi stood by and looked at this scene and nodded lightly. This is the embryo. If you want to practice the avatar method, you need a physical carrier to cultivate a avatar. This vector needs to be grown from an embryo. This avatar cultivation method is almost the most powerful avatar method of Wujianlou, and the price is naturally very expensive. Many chaos masters may not be able to do it. However, Wang Yi has countless treasures, and it is much easier to cultivate embryos.

And this avatar is not much different from the main body except for the divine power reserve.

"Wow." When the beating of life reached its limit, the embryo suddenly split from it. A baby boy flew out of it, and then grew rapidly, and soon he looked exactly like the red robe Wang Yi next to him, but a dark black robe was condensed on the body. The two looked at each other. One red robe, one dark black robe.

Said to be the deity and the avatar. In fact, both are the same soul, the same body, and there is no difference between the two.

"It is a life of flesh and blood, but the divine body is only one million kilometers high, and like the universe, these body refining secrets have to be practiced from scratch," Wang Yi in black said.

Wang Yi in red robe glanced at the other party, "Unfortunately, although this avatar method can cultivate two avatars, it has only 50% strength. If it is one avatar, it has 80% strength."

"I heard that His Majesty the Qingyang Divine King in Jieshan Palace has a clone method, which can separate three clones, including the deity, there are four bodies." Wang Yi secretly said, "But this is also a secret from that His Majesty. Even the **** kings can't ask for the secret technique. Except for that one, I have heard that the clone method can maintain two bodies at most, and it is impossible to cultivate a third one."

The avatar technique of Wujianlou can cultivate two avatars and maintain a certain combat power, which is very rare.

"Let's use one general first." Wang Yi didn't think about it any further. "Raise the power of the avatar first."

As soon as the clone is born, the foundation of divine power is the level of chaotic domination, so it is only necessary to use treasures to continuously expand the divine power in the body, and even the divine power of Wang Yi's body can be diverted.

Wang Yi took some time to increase the divine power reserve of this clone to one million light-years. The normal Chaos Master is only this size, so I don't care. Next, I can let this clone slowly cultivate on its own.

The difference between a divine power clone and a divine power incarnation is that the clone can cultivate and grow by itself.

For example, Wang Yi's avatar can absorb the chaotic airflow and other energy by himself and convert it into divine power.

Wang Yi also discovered that even though he has practiced his clone, he can only sign in on his own. The basic settings of this panel have not changed since the beginning.

It seems that it has a "point" that can anchor Wang Yi's body.

"Then I can only go out on my own." Wang Yi sighed in his heart.

An ethereal virtual space.

An endless continent is suspended in the void.

This is a virtual space opened up by Wujianlou, called "Infinity World", and the entire Wujian universe can be connected anywhere.

And in the endless high altitude of the mainland, where ordinary powerhouses cannot reach, there are islands suspended, which are the residences of the chaotic masters of Wujielou.

Every Chaos Lord has a private island of their own in the Infernal World.

Each island is majestic and spans millions of light-years.

An old man wearing a green robe, long gray eyebrows, and a thin face looked at the internal information of Wujianlou.

"There are already four people who are going to destroy Dongtian?"

"It's almost four people."

According to the rules, generally five people will be brought in together.

"I know the three before, this new ruler of Jiujiang, I heard that he is very strong, but I have never dealt with it." The green-robed old man pondered. Wang Yi also visited this old man in green robe. At that time, his main body was not in the Wuji universe, and his avatar was in other places, so he never met.

"The price of going to destroy Dongtian is not small, and he can actually pay it. It seems that he is really capable." The old man in green robe looked at the sky outside, "I have waited for so many years, this time to destroy Dongtian, I am missing helpers. , the other three will be fine, this Jiujiang ruler is good, or he can also help me in destroying Dongtian, no matter what, try to get in touch first."

Those who go to destroy Dongtian have their own purpose.

Like Wang Yi, it is mainly for cultivation, and others have their own reasons.

"Before meeting the ruler of Jiujiang, let the other three know first." The green-robed old man secretly said in his heart.

Wang Yi was practicing hard when he suddenly received a message notification from the virtual space.

"Huh? Lord Chu Yuan?" Wang Yi saw a Chaos Lord he had visited before.

"Master Chu Yuan, he is looking for me?" Wang Yi was a little strange.

And he remembered that Lord Chu Yuan was also one of the people who was going to destroy Dongtian.

Before asking Wang Yi to stalk all over the Wujian Continent, there are very few chaotic masters in Wujianlou that he does not know now.

At least it has been circulated outside that Jiujiang dominates the approachable people and likes to make friends.

Now is not a critical juncture for cultivation, Wang Yi thought about it, and then went to the appointment.

Virtual space, infinity world.

A figure appeared on a suspended island in the clouds.

The long hair is shawl, soft and black, and it is faintly reflective. His eyes were as deep as the vast universe, and he was wearing a fiery red robe.

It is Wang Yi.

He looked at the island, and the figure appeared on the island the next moment.

"Haha, Lord of Jiujiang." Black scales all over his body, and a white horn was born on the top of his head, and there was a faint laugh of the golden-robed Lord of Chaos with white thunder and lightning.

"Master Chu Yuan." Wang Yi also smiled and looked at the three figures behind the ruler Chu Yuan.

One is a woman with fair and lustrous skin, dark green spiritual patterns on the surface, and light green sword marks on her forehead. She is the ruler of Jiang Yi.

The other was a big man with a face that looked like a knife and axe, a nose that was very curved, like an eagle hook, with a pair of cyan wings on his back, purple hair, and a beard. He was the ruler of the ancients.

The two Wang Yi also knew each other. They were both the masters of chaos who had visited once, and they were also one of the members who went to destroy Dongtian.

Seeing this, Wang Yi knew it.

Only the last one was a green-robed old man with a gloomy face and double horns. His skin was like bark with countless folds, and a pair of small triangular eyes gave off a trace of cruelty.

Wang Yi had never seen it before, but based on his appearance, he also recognized that it was a worship master in Wujianlou, the master of Yingtuo, and he was extremely powerful in worshipping the master.

"Master Jiang Yi, Master Dugu." Wang Yi smiled and nodded to the two rulers, then looked at the last green-robed old man, "If I'm not mistaken, this should be the famous one who used to be on the border of Cold Wind Country. Zefeng Yinling fought one against three, and killed a dominant Yingtuo, right?"

A smile appeared on the face of the green-robed old man, and he made a hoarse voice.

"Haha, Jiujiang Master was promoted at the beginning, but unfortunately I was involved in things at the time, and I was not in Wuji Universe, otherwise I would come over to celebrate."

After getting to know each other a little, the four Chaos Lords all took their seats and set up a banquet.

One after another, the servants of the Void True God brought food and wine.

"Jiujiang dominates."

Zhu Yuanzhu was the first to speak, this time he invited Wang Yi to come over.

In fact, the four of them met first, then talked and invited Wang Yi.

"I invited you over this time because we are all going to destroy Dongtian."

"Oh?" Wang Yi put down the wine glass and looked at the green-robed old man with a hint of surprise. "Master Yingtuo is also going to destroy Dongtian?"

Among the four people who went to destroy Dongtian before, there was no Yingtuo ruler.

That is to say, Ying Tuo's master is a temporary member.

The old man in green robe smiled slightly and said, "Actually, I have long thought of going to destroy Dongtian, but I just couldn't make up my mind. I just learned that Jiujiang Master is going, and after thinking about it, I will go together."

The woman with light green sword marks on her forehead, Jiang Yizhu nodded. "With the Lord of Yingtuo, we have gathered enough five people. If there is no accident, we will soon be notified to destroy Dongtian."

A big man with purple hair and a beard on his face, Master Du Gu sighed with emotion, "It will take a lot to destroy the cave, and it is difficult for us to go only once. You can destroy the cave as soon as you break through, the ruler of Jiujiang is better than us. too much."

"Who is the ruler of Jiujiang? He is a peerless person who has entered the Wuji universe for more than 10 billion epochs and has cultivated the ten masterpieces of killing spirits. When I knew about this, I admired the ruler of Jiujiang." Chu Yuan said with a smile. .

"Yeah, the ruler of Jiujiang is also valued by many His Majesty the God King and the great Invincible Landlord, and the future is promising. We are ashamed of this." There was also a trace of admiration in the eyes of the ruler of Jiang Yi.

"With the cultivation speed of Jiujiang Lord, we will soon be left far behind. In the future, we need to take care of Jiujiang Lord more."

Even the seemingly gloomy green-robed old man Ying Tuo also flattered a few words.

don't blame them

You must know that the Chaos Lord present is also one level higher than the Yingtuo Lord, and the rest can only be said to be average.

As far as the secret law level is concerned, the ruler of Jiang Yi and the ruler of Du Gu are both the top nineteenth order, and the ruler of Chu Yuan is stronger than them, but it is limited.

No matter in terms of potential or strength, they are not comparable to Wang Yi, let alone their status in Wujianlou.

After all, Wang Yi is a peerless genius who was rushing to accept his apprentices by many **** kings, and even the owner of Wujie sent gifts to congratulate him.

Those who can be similar in status to Wang Yi are also dominated by Yingtuo.

"Everyone has won the prize, I just broke through, and there is still a long way to go." Wang Yi kept a smile on his face.

"Speaking of which, the ruler of Jiujiang, you went to destroy Dongtian this time to cultivate, right?" A master of chaos asked tentatively.

"That's right, I practice the Destruction Dao. I heard that Destruction Dongtian is very helpful for comprehending the Destruction Dao, so I paid the price for a place." Wang Yi said, there is nothing to hide, destroying Dongtian is not cultivation. Just wandering.

Master Chu Yuan nodded, "Destroying Dongtian is indeed very helpful to the cultivation of the Dao of Destruction, but destroying Dongtian is also very dangerous, and there are many places where we, the chaotic masters, can't get close, and I don't know how many chaotic masters who roamed and fell there in the past. That's why Wujianlou spent a lot of effort to build a stronghold there, so that we can practice with peace of mind."

"To destroy the cave, as long as you know the location, you can usually go by yourself, but if you want to practice in the dangerous destruction of the cave, you need a place where you can rest and practice, so we, the masters of chaos, have to pay a price to exchange for one. Quota." Jiang Yizhu also said with emotion.

Wang Yi also nodded slightly, destroying the cave is indeed very terrifying. After all, this is the place where even the kings of gods have fallen. If the master of chaos enters with a black eye, the probability of falling is very high.

[Chapter 907: The world outside is big, I want to go out for a walk](#)

After Wang Yi communicated with Ying Tuo Zhu and others, he learned more about the destruction of the cave.

The Destruction Cave is a vast dark space located somewhere in the chaotic void, filled with the power of endless destruction.

After investigation, some experts in the origin continent speculated that the end of the destruction of the cave may be the origin space of the origin continent.

In fact, it is not known whether anyone has been to the end of the destruction cave, and naturally this statement has not been confirmed.

As one of the oldest and most terrifying chaotic secret realms ever discovered, Ruin Dongtian contains many treasures of adventure. Many strong people come here to find opportunities to experience. Here, all forces are gathered here. In addition to practitioners, there are also ancient indigenous and primitive species. See here.

And Wujianlou is one of the top forces in the Origin Continent, and it occupies a large enough area in Destruction Cave, and can arrange for its own internal members to come continuously.

Wujianlou also has the task of destroying the guards of Dongtian. Chaos Master can get credit for destroying Dongtian Wujianlou stronghold on duty. But it is very unfree. Wang Yi does not lack this contribution. It can be exchanged for treasures. Naturally, he will not consider it.

However, apart from Wang Yi, there are two other people who are going to destroy Dongtian with a mission. Although the guards have been guarding for a long time, they are generally self-cultivation. But there is no freedom. Once something happens, it has to be resolved.

Cultivation is like this. As the realm gets higher, more time is spent on oneself. There is no strong person who will work diligently for another force. The same is true when it comes to the realm of chaos domination. In order to cultivate, you have to pay a lot. There is no free lunch in the world. Joining the great forces has benefits, but also a lot of burdens.

"Huh?" Wang Yi's expression suddenly moved slightly, and his drinking stopped.

How observant are the four Chaos Masters next to him, "Jiujiang Master?"

Wang Yi smiled, "It's alright, it's a friend of mine who just arrived in Wuji Universe. Come, let's continue drinking."

The four masters of chaos, including the master of Yingtuo, did not ask much.

A friend of Jiujiang Lord?

Could it be the master of chaos?

However, the ruler of Jiujiang seems to have just broken through not long ago. He was the eternal true **** before, right?

In reality, in the vast Infinity Continent, in a splendid and majestic palace, Wang Yi's figure appeared on the high railings of the palace, looking at the empty island outside in the distance, with a faint smile on his face.

"Luo Feng is finally here."

After Wang Yi became the master of chaos, and after cultivating the past trillions of epochs, Luo Feng finally became a purple-clothed disciple and came to the Infinite Universe.

Void Island, the one hundred and eighth island belonging to the new disciples.

Luo Feng, a newcomer, is talking with his enthusiastic senior sister "Kui Ling".

Not long after, the original ancestor who heard the news of Luo Feng's coming also came.

The original ancestor came over, and soon Wang Yi came too.

Wang Yi is now the master of chaos and is very much watched.

Luo Feng became famous as soon as he came to Wuji Universe.

When the three of them gathered, Luo Feng said with emotion, "We said at the beginning who would break through first, but it turned out to be you."

Cultivating the four reincarnation eras did not become the master of chaos, and it would be shocking in the origin continent.

But for Wang Yi and the others, becoming the master of chaos was inevitable, but it was just a new starting point.

Wang Yi taught Luo Feng some precautions and experience in Wujianlou, and then gave him a bunch of cheats that he got from Wujianlou. These cheats were obtained from the panel sign-in and could be taught without any restrictions, but when they were found, The fun would be great, so Wang Yi only gave Yuanzu and Luo Feng.

Yuanzu was quite calm beside him, he had already got it.

Seeing the pile of precious secrets, Luo Feng was speechless.

Looking at Wang Yi's sneaky appearance, he knew that the source of these secrets was unknown.

But it's delicious!

Out of the infinite universe.

In the chaotic void, Wang Yi's divine power clone broke through the void.

A gray-robed boy was already waiting there.

"Even to get some equipment, we have to be secretive. Others don't know it, and they think we are spies who sneaked into the Wujianlou." Wang Yi said with emotion.

The incarnation of the beast did not speak.

Originally the same person, talking to himself?

Wang Yi handed over a large number of treasures obtained by signing in to the avatar of the world beast, and let the avatar of the world beast develop.

This number is a special occupation, with great potential, and it cannot be left behind.

Afterwards, the divine power avatar once again tore through the chaotic void, traveled a long way, and returned to the boundless universe.

The world beast incarnates beautifully with the Babel Tower to find a place to hide again.

Infinity Continent.

Wang Yi and the five rulers of Yingtuo, Chu Yuan, Jiang Yi, and Dugu gathered together.

In front of them is a three-headed beast powerhouse exuding a monstrous aura. This is a super powerhouse in Wujianlou whose status is second only to the hall master, similar to the existence of the master of Cangli.

In front of him, Wang Yi and others maintained a respectful attitude.

"You are all the elders of the inner hall or the first-level worshippers of my Wujianlou." The beast powerhouse stared at them with icy vertical pupils, and said slowly, "It is not over to destroy the cave, in the era of destroying the cave, you need to listen to the guardians' arrangement."

"I will naturally listen to the arrangement." Wang Yi nodded and waited. In the destruction of the cave, it is possible to fight and conflict with other forces, of course, you have to obey orders.

And the guardians are very strong, they are all at the peak of the chaotic masters, and they may even be the clones of the **** king!

"You can go now." The beast powerhouse said, glanced in a certain direction, and a Chaos Lord flew over. It was a silver-robed woman with long silver hair scattered, smiling at Wang Yi and others.

"Everyone, this time the journey is long, and I will take you there."

"Lao Feixing dominates." Wang Yi and others said.

In the Origin Continent, you can use the Wujianlou Teleportation Hall for teleportation, but outside the Origin Continent, there are endless chaotic voids, and even some special secret realms, it is difficult for Wujianlou to get involved, and you can only use human power to teleport.

Void teleportation is not omnipotent, and it is impossible to reach any place in an instant.

The six chaotic masters are hurrying in the vast chaotic void.

In the vast chaotic world, the vastness is boundless, even the chaotic master may be lost.

Unless there is a means like "Void Teleportation", it will take a long time for the gods to cross an area.

Moreover, there are still many unknown places and dangers in the chaotic void, and there are even terrifying creatures comparable to the king of gods wandering in the void.

Therefore, there are often chaotic masters who fall when they are roaming in the chaotic void.

The origin continent has been born for a long time. I don't know how many chaotic masters were born. It is reasonable to say that the chaotic masters are difficult to kill, but some of them died in power struggles or vendettas, and some fell through exploration in dangerous secret realms.

On the way in the chaotic void, Wang Yi also saw a lot.

"It's here." A red-robed black-haired man looked ahead from a distance. There is a dark void in front, which looks ordinary, but it is a special place in the chaotic void, where the forces of all parties send strong men to station.

"This is the destruction of the cave." The silver-haired, silver-robed flying star master smiled lightly, "There are many magical things in the destruction of the cave, the most amazing of which is that you can hardly feel the existence of other laws here, you can only Feeling the law of destruction, so here you can learn the way of destruction with half the effort."

As the flight approached, Wang Yi also discovered that the dark space is composed of infinite black airflow. This black airflow gave him a feeling very similar to the power of the world beast, but it was more pure and primitive, full of destruction. .

These forces of destruction, even a trace of black airflow, can annihilate the divine body of a Void True God.

But Wang Yi also felt a supreme way of destruction, a force that could destroy even the source world.

The source world was originally born after destruction, and then fell into destruction after countless years, reincarnating again and again, until the final catastrophe.

"Here, my Destruction Dao should be able to go further." Wang Yi had a hint of hope in his heart.

"Master Feixing, you should come here often. I heard that the formation of this destruction cave is related to the origin space of the origin continent. Is it true?" Master Jiang Yi asked.

The origin space of the Origin Continent is not a secret. When you reach the level of Chaos Master, you can know a lot of information.

But even for the Origin Continent's peak, the Divine King, the origin space of the Origin Continent involves supreme rules and is very mysterious, not to mention these chaotic masters.

The Flying Star Lord nodded and shook his head again. "The rumor is like this, but I don't know if it's true or not. However, the deeper the destruction of the cave, the more dangerous it is. It's true. In the end, it's impossible to get close." She looked at the black air wafting around, "These The power of destruction is nothing to us, but the deeper into the cave of destruction, the stronger the power of destruction, and the tide of destruction formed at the end is a fatal danger to the master of chaos. In fact, it is even more terrifying to destroy the stars. When the destruction star appears, if the Chaos Lord does not have enough life-saving means, it will be difficult to escape."

Destroying a star is a natural disaster that destroys the cave. The endless power of destruction for countless years is condensed together for various reasons. Usually it looks like a star, but it is extremely unstable. Once touched, it will be like a volcano that has been sleeping for many years. Once it broke out, that kind of power was devastating! Comparable to the blow of a **** king!

There are many destruction stars in the destruction of the cave, and they drift here, like bombs from time to time, don't know when they will explode!

And the deeper the destruction of the cave, the more stars will be destroyed.

If it happens to encounter a super-giant destruction star, or several destruction stars erupt together, even the king of gods will be devastated.

"Destroying the stars is one of the most famous dangers of destroying Dongtian, and there are other dangers. You should all know about it before you come." The Lord of Feixing said with emotion. "That is,

in order to deal with these dangers, we Wujianlou spent a huge price to build a stronghold in Destruction Cave. Building this stronghold is much more difficult than refining a few weapons of the gods, but we can stand firm in Destruction Cave. It is also because of this stronghold that there are many forces that are not as good as ours, but they are much more embarrassed."

Wang Yi nodded. For the benefit of destroying Dongtian, Wujianlou deliberately built a long-lasting stronghold that could even endure the explosion of the destruction of the stars. This is comparable to the power of a god-king level attack, and it can be blocked. is simple.

"It is difficult to identify the orientation here, and the map is not easy to use, so I suggest that you all leave an incarnation of divine power in the stronghold, so that you will not easily get lost." Flying Star Lord said.

Wang Yi looked at Feixing Master, and it seemed that she should also have a divine incarnation here.

The dark space was filled with endless black airflow, and the six Chaos Lords passed through the long distance, and they saw a black triangle-like palace appearing in the line of sight.

"Flying star is here?" A voice sounded in their ears, "Come here."

A powerful invisible force led them into the Black Pyramid Palace.

Whoa!

A figure suddenly appeared, it was a big mouse with bright black hair, wearing a dark golden robe standing upright, and a tail was exposed under the robe, and its eyes were also dark gold, flashing fiercely, giving people an extremely terrifying feeling.

"I have seen the Master of the Gold Devouring Pagoda." The Flying Star Master saluted respectfully.

"I have seen the Master of the Gold-devouring Pagoda." Wang Yi and other five Chaos Masters also saluted respectfully.

The Lord of the Gold Devouring Pagoda, the black humanoid big mouse in front of him, is a very terrifying existence, taking the road of devouring.

He once devoured the infinite creatures of several kingdoms, and was hunted down by the strong~www.mtlnovel.com~ Later, he joined Wujianlou and cultivated even more powerfully. He was an existence comparable to that of Cang Li. And because of the way it cultivates, it is difficult for ordinary gods to kill it, and it is an extremely terrifying master of chaos.

The Master of the Gold Devouring Pagoda looked at the powerhouses in front of him and showed a cold smile.

"Wujianlou is destroying Dongtian, occupying about 10% of the area." The master of the gold-devouring pagoda looked at them, his voice was low and hoarse, "I am in charge of guarding, besides me, there are other chaos masters, some who cultivate, some who come to break through. , there are also those who take care of the duty of guarding and patrolling, since you have come here, you must abide by the rules here."

"What do you want to do, what purpose do you have, I won't care!"

"But you know the consequences of breaking the rules."

"I'll wait to know." Several Chaos Masters froze in their hearts.

"That's good." The Master of the Gold Devouring Pagoda glanced at them. "The two of you who have tasks come with me. For the rest, Feixing will arrange for you."

Master Dugu, Master Chu Yuan, and Wang Yi left with the Master of the Gold Devouring Pagoda after saying goodbye, while Master Wang Yi, Master Jiang Yi, and Master Yingtuo followed the Master of Flying Star and flew to other places in the tower, the interior of the pyramid palace itself. The cave is much bigger than a small universe, and the flying star master also introduced them one by one.

"The palace is mainly divided into seven floors. The first floor is where the tower owner is located. Usually, you cannot trespass without the permission of the tower owner. The second to fifth floors are where other chaos masters are located, while the sixth and seventh floors are for you. They cultivated." The silver-haired flying star master said, "This palace is a treasure of the **** king, and it is completely controlled by the tower master. Even the **** king wants to break through it is very difficult, as long as you hide in the tower, you don't have to worry. safe question."

"But when you go outside, everything is up to you. If you encounter danger, as long as you flee back to the base in time, you can be safe."

[Chapter 908: Chaos Rift](#)

Wujianlou occupies about 10% of the area in Destruction Cave.

Not in full control.

Instead, it controls the places where treasures are produced and declares its own ownership.

The powerhouses of Wujianlou are stationed here, monitoring patrols at all times, and also preventing these treasures from being taken away.

As for other forces simply passing by, they would normally ignore them, or find other treasures and take them away, as long as they are not found, they are fine.

In the boundless darkness of the ruined cave, the black airflow full of destructive aura surged a towering and huge black pyramid suspended there, and the boundless coercion filled the air.

"This is the cave where I will practice in the future." Wang Yi chose a cave and lived in it. It was snowing in the sky, and he sat in the pavilion and poured and drank his wine very leisurely.

The location chosen by Wujianlou to be stationed in the destruction cave is the most suitable for understanding the way of destruction. Because it is suitable, it is also more dangerous. The more the power of destruction, the more it condenses into the tide of destruction and the destruction of stars is attracted by the tide of destruction. Common, of course, treasures are born more often, which is why it needs to be guarded with a special treasure of the gods.

Regardless of whether the cultivator is for cultivation or exploration, with this stationed palace, it will always be much safer.

Suddenly Wang Yi looked at him with a feeling.

A tall and thin old man in green robe with two horns smiled and landed in front of Wang Yi's cave.

"Jiujiang dominates."

"Shadow Lord."

The old man in the green robe came over to the pavilion as soon as he walked away, sat opposite Wang Yi, looked at the snowflakes outside, and said with emotion, "Jiujiang ruler, I'm really excited."

Near the cave, but there is no snow, it can only be said that the occupants deliberately arranged it.

Wang Yi poured a glass of wine for Master Yingtuo, "Master Yingtuo, do you have anything to do with me?"

Master Yingtuo picked up the wine glass, sniffed and praised "good wine" and then looked at Wang Yi, "Master Jiujiang, I won't hide it with you anymore, I want to ask if you are interested in going with us. Explore outside?"

"Going to explore outside?" Wang Yi looked at Ying Tuo.

The master of Yingtuo took a sip of wine and said, "There are many treasures of opportunity in Destruction Cave, otherwise why would there be so many practitioners here, are they all here to understand the way of destruction?"

The master of Yingtuo looked at Wang Yi tightly, "The more dangerous the place, the more opportunities. Destroying the cave is a place where even the king of the gods has fallen. The treasures of chance are absolutely amazing. Many masters of chaos may accumulate more in a lifetime. If I didn't harvest the last time, I have already agreed with a few old people here, and I will go out to explore soon, Jiujiang Master, do you want to go with me?"

Wang Yi smiled, "The bigger the chance, the more dangerous it is."

There was a hint of disappointment in the eyes of the master of Yingtuo, and he said lightly, "My generation of cultivators is all about fighting. If you don't fight, do you want to be the master of chaos for a lifetime? The master of Jiujiang doesn't even have this courage, right?"

Wang Yi looked like he was thinking.

When Ying Tuo saw this, he said, "Those old people have been here for many years and have rich experience. It is more convenient to be with them than to go out alone in the future."

Wang Yi nodded, "Well, since it is rare to come to destroy Dongtian once, and I have a chance, then I will also go and see it."

Wang Yi originally intended to explore in the cave of destruction, and the invitation of the Lord of Shadow Tuo was exactly what he wanted.

When the appointed time came, the Lord of Shadow Tuo brought Wang Yi and the other two Chaos Lords who had been here for many years to meet.

"This is the master of Xuanman."

Master Yingtuo introduced them, Master Xuanman was a man with nine-color flames lingering on his body, wearing a purple-gold crown and a blue-gold battle uniform.

"This is the master of Qingye." This is a chaotic master with an indifferent expression, golden air around his body, long golden hair flying, flowing golden light, and golden pupils shooting out a divine light like a sharp sword.

Because they have been destroying Dongtian, and the incarnation of divine power in Wuji Continent has been sleeping, so they have never met each other.

There is a saying that is good, the same kind is similar, the strength of these two chaotic masters is not inferior to that of Yingtuo masters, and they are the best among chaotic masters.

If it is divided by strength, Cang Li Master and Gold Devouring Pagoda Master are considered to be at the peak of Chaos Masters, which are comparable to new God Kings, and their strength is relatively high among Chaos Masters.

However, they are still polite to Wang Yi, because Wang Yi is not weak in the chaotic master, and he has shown great potential, which is very daunting.

Four powerful Chaos Masters flew out of the black pyramid and came to the dark void filled with boundless black airflow.

When leaving, Wang Yi looked back at the towering black pyramid and shook his head inwardly. It's a pity that the black pyramid was not signed out.

I got used to scouring wool in Wujie Continent, and Wang Yi's appetite was also raised.

"Master of Jiujiang." Majestic and intimidating, with golden air permeating the air, the handsome creature with long hair beating like golden flames, Master Qingye said with an indifferent expression. "Since you are willing to walk with me, then you should be clear about the rules. The treasures discovered during the exploration process are distributed according to the strength of each person. If they are found and captured individually, they can naturally be monopolized by one person."

Wang Yi smiled and said, "Of course I understand."

With nine-color flames lingering on his body, wearing a purple-gold crown on his head, and wearing a blue-gold battle uniform, the man Xuanman Master seems to have a good temper. "The Master of Jiujiang is good at the secret art of will, which just makes up for the lack of the team. This exploration, we have to rely on everyone to join forces and cooperate well."

The gloomy green-robed old man smiled and nodded, "This is natural."

The four Chaos Masters flew in the boundless black airflow.

"Destroying Dongtian is one of the oldest and most dangerous chaotic secret realms we have discovered. In terms of danger, it can be ranked in the top three in the entire chaotic void." Xuanman Master said with emotion. "There are many dangers here, and our main goal is to explore, so the

forward speed will not be very fast, and it will take a long time to pass through an area. It is normal to spend an era of reincarnation for one exploration."

"And we, including most of the Chaos Masters, actually only dare to venture in some relatively safe places on the periphery, deeper? It's good if you know the safe route or have experience, otherwise few people are willing to go in."

Wang Yi listened silently.

Destroying the cave, after all, is the place where even the kings of gods have fallen. Which master of chaos dares to take risks at will?

Qingye ruled indifferently, "The three most dangerous places in the entire Origin Continent are the Destruction Cave Heaven in the chaotic void, the void abyss deep in the Origin Continent and close to the Origin Space, and the last one is the central area of the Origin Continent. The reincarnation sea, which one is very dangerous to the master of chaos!"

The master of Xuanman said, "Destroying the cave, the main danger is to destroy the stars. When we encounter the master of chaos, if there is no means of life-saving, it will be either dead or injured. A lot! As for the Sea of Reincarnation, it is very evil, and it is said to be related to Yuan, the first powerhouse in the legend of the Origin Continent!"

The four Chaos Masters present held their breath slightly.

Yuan, the legendary first powerhouse in the Origin Continent!

There are actually a lot of legends about him. He left behind the supreme secret technique, the Primordial Technique, as well as a place in the Origin Continent that is very mysterious and detached!

It seems that no one has seen him take action in person, but no one has denied the rumors about his number one powerhouse!

Even the king of gods can't see through the existence of Yuan! It can only be guessed that he should have surpassed the level of God King.

The master of Xuanman frowned and said, "There is nothing simple about what Yuan left behind. The Samsara Sea is the center of the origin continent, and its area alone is larger than ten countries combined! Such a large sea, the **** kings have explored it time and time again. , It is said that there is a big secret hidden inside, but only when you reach the level of a **** king can you access it, so we don't have to think about it."

The three of Wang Yi nodded.

In terms of danger, destroying the cave is actually the number one. The most powerful people come here to explore the dead. Even the **** king is dead. It is easy to get lost in the abyss of the void. The sea, the secret is very big, but if you don't reach the God King, you are not qualified to explore it, and it has nothing to do with them.

The continent of origin is vast, with many hidden secrets, even the gods and kings are difficult to explore.

However, Wang Yi was a little curious. Since he was able to get in touch with the Chaotic Source Lord Yuan, he didn't know what was hidden in that reincarnation sea.

Although it is said that he is now the master of chaos, and is considered a high-level in Wujianlou, but after all, he joined for a short time, and he does not know enough secrets.

"Destroying Dongtian, in addition to many natural dangers, also brings together strong people from all sides." Xuanman Master explained to Wang Yi.

"In fact, it is mainly divided into three parties, we practitioners, indigenous people, and primitive life!"

"Our cultivators are the most powerful and have the most people, but we are divided into many factions, and the intrigue is the most serious. There are hundreds of countries alone! We Wujianlou, and the other two top powers, the Great Yue Kingdom, the Jieshan Palace is a practice. The three strongest factions occupy 10% of the area, and this 30% area is actually the place where the most treasures are born, and it is also the best place!"

Wang Yi nodded, these three major forces have the biggest fists, of course it is impossible to give up a good territory, which is understandable.

"The remaining 70%, indigenous people account for 30%, primitive life accounts for 20%, and the remaining 20% is occupied by other forces in the origin continent."

The master of Qingye smiled lightly and said, "It is said to occupy, but in fact, it is to control the most essential places, one by one, destroying the cave so big, it is impossible to completely control a huge area, and no force can do it, so it is very common for each faction to have other forces infiltrating its turf."

"All parties have a tacit understanding, that is, in the destruction of Dongtian, the **** king of any party can't do anything to the chaos master of other forces. Of course, if the chaos master actively provokes the **** king to be killed, that's another story, but you meet Unfamiliar God King, it is best to avoid a little, otherwise you will be shot to death."

Wang Yi understood, it is estimated that if he was really killed by the God King, it was a waste of death.

Lord Qingye sneered, "Also, don't think that our cultivators will be united. Here, except for the same force that you can trust, no other force can be trusted! If you encounter chaos masters from other forces, don't be merciful, Do it when you should, it is really fatal, and it is difficult for the other party to ask you to explain."

Wang Yi was silent, it seems that all parties have tacitly agreed to the rules that they can fight each other here.

Four Chaos Masters fly in the boundless black world.

"Boom"

A black wave rolled in in the distance, destroying the sky and crushing everything.

"Destruction Tide!" The expressions of several Chaos Masters changed.

"We are hiding in the palace, there is no need to fight."

The tide of destruction is a phenomenon that is naturally formed by a certain law of the power of destruction of the destruction of the cave, which can often be seen.

Whoosh, a white shuttle-shaped mechanical spaceship appeared.

The master of Xuanman smiled and said, "This is the treasure of my palace, the "White Bird". If you don't mind, come in and hide together."

Wang Yi glanced at the spacecraft full of mechanical style, the Shiratori, which was very similar to a spacecraft.

A smile appeared on Qingye's face, "This fellow Xuanman usually sees his spaceship as a treasure, but this time he is finally willing to take it out."

The green-robed old man also smiled, "I've heard about the name of Xuanman's master of the palace's treasure, and today is the first time I've gone in and sat down."

This Shiratori spaceship is the treasure of the Chaos Master Palace~www.mtlnovel.com~ It is also considered the best among the Chaos Master treasures. It does not mean that every Chaos Master can have the Chaos Master Palace treasure. It can also be regarded as a mysterious master. The most proud treasure, relying on this palace treasure can avoid many dangers, even if the **** king attacks, you can resist it, it is definitely a precious life-saving treasure, the Yingtuo and Qingye Lords are actually somewhat envious.

But of course Wang Yi wouldn't be envious. He didn't mention the mysterious treasure of the Tongtian Pagoda, it was definitely at the level of a god-king. The large number of treasures that he had signed in the Wujian Continent before could not be counted in a single slap when it was replaced by the treasures of the god-king.

It's just that Wang Yi has always kept a low profile and will not expose it at will.

Everyone is from the Wujianlou, and without too many worries, they all entered the white shuttle-shaped spaceship dominated by Xuanman.

When the hatch was closed, a black wave of "Boom" slammed into the white spaceship fiercely, and the white spaceship was smashed out. The power added up, even if the Chaos Master was far behind, even if it dispersed into boundless The waves are violent and violent.

This black wave of radiation is rolling over an unknown number of billions of light-years.

And no matter how upheaval it is outside, it is still calm in the spacecraft, and you can't feel a little rolling vibration.

Master Xuanman said to the other three, "Let's wait first, it's better to take action when the tide passes."

In this tide of destruction, it is like ordinary people in the water. It is not difficult to walk, but it is also uncomfortable.

The green-robed old man Ying Tuo shook his head, "Here is the power of destruction, which is completely opposite to our divine power. Once it is released for exploration, the consumption is too great, and the scope is too small, and the exploration efficiency is low. It is convenient to use other means. Some."

He looked at the ruler of Qingye, "Among us, the one who knows the most about investigation is the ruler of Qingye."

Master Qingye just smiled faintly.

[Chapter 909: All parties](#)

A white shuttle-shaped ship traveled through the endless black tide.

The four Chaos Masters have been separated and have their own lounges in the spacecraft.

Wang Yi also began to comprehend the Dao of Destruction. Although it is not as fast to comprehend the Dao of Destruction outside, the practice cannot be put down.

The master of Aoye, who is best at probing in the team, is probing the surrounding situation.

Master Xuanman and Master Yingtuo were drinking.

Time just passed by...

Wang Yi was pondering the secret method in the secret room, and he felt that he was about to create a secret method of the twentieth order.

Suddenly, Wang Yi, who was cultivating, noticed that a terrifying wave was passing from a far away place.

"This is?"

"Everyone, please panic, this is a star of destruction that exploded, but it's far away from us, so it won't spread over." The voice of the Xuanman ruler came.

Wang Yi sensed it, Master Xuanman was right, the location of the explosion was unknown, and it was only an aftermath that reached them.

But the aftermath is so terrifying, and it also shows the power of destroying the stars from the side, and even the king of gods dare not underestimate it.

"Everyone, I plan to go to the site of the explosion just now." Master Qingye said. "According to the rules, where the destruction of the stars appears, the probability of treasures being born will be higher, especially the destruction of the stars itself breeds some treasures, and what remains after it explodes are extremely precious things, we can go there and explore luck."

Wang Yi and other chaotic masters have no opinion.

"Then let's go." Xuanman Master said.

brush!

The white shuttle changed direction and flew towards the center of the previous explosion.

And at this moment, the wave that destroyed the star explosion radiated infinite space, and many powerhouses felt it.

"What a strong fluctuation."

"Did the Destruction Star explode?"

"Destroy the star explosion, usually there will be treasures, go and see."

"Hurry up, it's not just us who sense it. If you go slow, you won't get the treasure."

Some of the nearby powerhouses also rushed in that direction.

At this moment, the golden-eyed boy of Qingye Lord is emitting countless golden rays of light, like two golden beams of light sweeping through the surrounding void, as long as things at an infinite distance are within his line of sight, they cannot escape detection.

However, apart from the endless darkness and the power of black destruction, Destruction Cave is empty and boring.

Because a destructive star condensed the power of destruction for countless years and erupted, the closer to the explosion site, the stronger the power of destruction.

The residual wave of destruction made Wang Yi ponder.

"destroy....."

As if something had surfaced in his mind, it became clearer and clearer.

Destroying the stars itself is the condensation of the natural power of destroying the cave, and the fluctuations in the destruction of the sky and the earth at the moment of the explosion, the pure and profound "Dao" that touches the essence, has formed a lot of touches on Wang Yi, who is cultivating the Dao of Destruction.

"Destruction, waves, fluctuations..." Feeling the aftermath of the enduring aftermath of the explosion, wave after wave, Wang Yi's understanding of the Dao of Destruction became clearer.

Subconsciously, he began to interpret the changes in the secret method, and he didn't even care about the outside world.

However, the three masters of Xuanman, Qingye, and Yingtuo had already gathered in the spaceship hall. Seeing that Wang Yi did not appear, Yingtuo was a little surprised and said, "Where is the Jiujiang ruler?"

"He seems to be still cultivating." Master Xuanman glanced in the direction of Wang Yi's secret room.

"The Lord of Jiujiang is really hardworking." Lord Yingtuo shook his head. He remembered that he had just become the master of chaos, and he was also very excited, so desperate to cultivate. But after a long time, it was difficult for him to improve a little for countless years, and he gradually lost that momentum.

Although he also yearns for progress, he is no longer immersed in cultivation all day long like the "young" Chaos Lord.

Because he understands that there is no special opportunity, and it is useless to cultivate alone, and his potential has come to an end.

"Master Qingye, we are now close to the center of the explosion, what did you find?" Master Xuanman looked at the indifferent blond man.

Qingye dominates Dan Mo's words: "I am observing, but you should also know that the destruction of the star is not long after the explosion, and the power of destruction here is the most chaotic and turbulent moment, which has a great impact on my investigation, so I'll have to spend more time trying to figure it out."

The Lord of Shadow Tuo nodded, "It's okay to spend some time, we don't care, but the explosion of the destruction of the stars fluctuates so much, I'm afraid that other forces will follow and **** it from us."

Master Qingye sneered, "In our Wujianlou site, will we be afraid of him?"

This place still belongs to the control area of Wujianlou. Although Wujianlou has not completely controlled it, if something happens, you can send a strong person to arrive quickly at any time.

Of course, like that kind of sudden appearance of ordinary treasure competition, Wujianlou stronghold will not care, and the gold-devouring tower master is too lazy to pay attention, let alone send strong people to help them, they can only find someone to help them.

And if you ask someone to help, you have to share the benefits. Those who are not strong enough are not willing to come, so whether or not to notify depends on the situation.

When the master of Qingye was using secret techniques to investigate, in another void in the destruction cave, a few more people came.

An incomparably gigantic, bizarre life with five gigantic skeletons shrouded in five-colored cold flames, where it passed, it exuded a chill that almost pierced through the void.

"Jie Jie Jie... It's the wave that destroys the explosion of the stars, go and see, go and see."

The skeleton made a strange whistling sound, and the figure was looming in the black airflow.

It is one of the three major camps of the origin continent, and it belongs to the chaotic master "Wu Skeleton" of the original life camp.

On the other side, several practitioners are also discussing.

"With such a big wave of destruction, the explosion should be at least a large star of destruction." Several practitioners, the Chaos Lord, were just passing by. This place belongs to the control area of Wujianlou. Although Wujianlou does not restrict others from passing by, other forces have come over. Always be cautious.

Destruction stars are formed in different scales according to the amount of condensed Destruction Power, ranging from ordinary to medium, to large, to super-giant... and the larger the scale, the more Destruction Power is condensed, and the more terrifying the power of explosion is naturally.

But even the most common destruction star has the power of the king of gods when it explodes! It may be easy to resist the king of gods, and some chaotic masters with tyrannical defenses can also withstand it, but most chaotic masters are avoided.

As for the super-giant star of destruction? Even the king of gods has to go around when he sees it.

The super-giant star of destruction erupted, and it exploded in an instant, with endless power, thousands of times stronger than the attack of the king of gods.

If it is a **** king who is almost a life-saving means, if he is in the center of the explosion, he may be directly killed by the explosion!

An alien beast powerhouse with cyan scales all over his body, each of them as bright as a mirror, with a fearful aura that seems to be able to open the sky and destroy the earth, said: "Destroying the cave is full of dangers, but dangers also contain opportunities. , Like this destruction star, we the master of chaos have to retreat when we see it, but the destruction star after the explosion, because the special destruction force explodes in an instant, causing changes in the space of the destruction cave, I don't know where to pull out many treasures, these treasures, It is also extremely precious to our Chaos Master."

Another dark halfling with light and shadow, a green robe, a bright purple light on his body, and an ordinary face. After the blue light flashed between his eyebrows, there was a child with blue eyes. The eyeballs only moved slightly, and the silver light on the surface was uncertain, looking strange and abnormal. Hearing that, he nodded, "It is true."

Destroying a star is terrifying, because it is extremely unstable, the explosive power is earth-shattering, and the Chaos Lord may fall, so the Chaos Lord does not dare to approach.

However, after the explosion of the destruction star, it may bring many treasures, and those strong people will come around like sharks smelling blood.

"The reason for this phenomenon is that it is said to be the destruction of the cave. In fact, the latitude of this space is close to the source space, and the moment when the destruction star explodes, the power of destruction opens a special point that can connect to the source space. Many treasures are from the source. It came from the space." The pointed-eared woman with fluffy thin tail behind her turned her eyes and said crisply.

The alien powerhouse said: "I also heard this statement in the sect. It is rumored that the **** king deliberately looked for a star of destruction, and wanted to take advantage of the explosion to explore the mystery. The **** king did discover some secrets. broke in..."

"What happened later?" the sharp-eared woman couldn't help asking.

The alien beast powerhouse said faintly: "Then the **** king died."

"..."

The two Chaos Lords looked at each other and felt a little chill in their hearts.

The pointed-eared woman said faintly: "Like me, the master of chaos, in destroying the cave, be careful."

The cultivator in Qingpao agreed: "Master Lengshuang is right, in this destruction of the cave, in addition to various dangers, it is necessary to guard against other powerhouses. It is true that we cannot be neglected at all times." He looked around and suddenly said: "Here It's the Wujielou site, although we are also cultivators, and we won't be expelled normally, but if we find treasures here and compete for it, it's hard to say."

"That's right, maybe you'll hit someone in the Wujianlou." The sharp-eared woman frowned. Wujianlou, but one of the top forces in the origin continent, is also a tyrant in destroying Dongtian, but it is not easy to mess with.

The huge eyes of the alien beast powerhouse were calm and unwavering, "Let's arrive at the explosion as soon as possible to see if there is any treasure, grab it if you can, leave immediately if you can't do anything, there is no need to conflict with Wujianlou here."

The other two Chaos Masters also agreed with their companions. The three Chaos Masters have been in contact for many years, and they have traveled together in this ruined cave more than once, and they have also gained a lot of experience.

For example, in Destruction Cave, although it is said to be occupied and divided into many sites by major forces, but because Destruction Cave is too vast and the environment is special, no force can completely control it, and they will only be in those places where precious things are born. They sent people to guard them, but in other places, they didn't have the energy or the mind to control it.

Therefore, as long as they do not go to the areas controlled by the major forces, any force in other places can actually enter and leave at will.

Even if hostile forces pass by, as long as there is no deliberate conflict, both sides will generally turn a blind eye.

In addition, what the parties occupied is actually only destroying the relatively safe outer area of Dongtian, like a vast and deeper area. Because it is too dangerous, no force is sure to occupy it, and only some confident powerhouses will go in and explore. There, It's a real no-man's-land.

Because the destruction of the stars just broke out, the condensed power of destruction formed monstrous waves, and the black waves were wave after wave, surging and boundless, which also troubled the exploration of many powerhouses and affected their progress.

"Boom"

The white shuttle-shaped spaceship kept moving forward in the black wave.

The supreme treasure of the Chaos Master-level palace, under the control of the powerful Chaos Master, the Xuanman Master, completely ignored the influence of these destructive tides.

Even if the destruction of the stars broke out, as long as it was not in the core area, the Xuanman ruler had the confidence to rely on the treasures of the palace to resist, not to mention that the power of destruction scattered by these residuals would consume some more divine power at most.

And the master of Qingye has been using secret techniques to explore.

Although a few years have passed and nothing has been discovered, every Chaos Master is patient and calm.

And not to mention Wang Yi, this wave of destruction is powerful and clear, and it also contains the mysterious artistic conception of endless destruction, which makes Wang Yi completely immersed in it.

"Destruction...tidal...fluctuation..." Unconsciously, Wang Yi also exudes a wave of destruction like the tide of destruction, one wave after another, endless, eternal, but much weaker.

His secret technique level has once again broken through, reaching the twentieth level!

"This, the new secret method, is called Destruction Tide." Wang Yi smiled.

"It's so comfortable to understand the Dao of Destruction in Destruction Cave~www.mtlnovel.com~ As soon as I came, my realm broke through."

Wang Yi is in a good mood. Any treasure is a foreign object, and the realm is the foundation.

Otherwise, even if it is given to the god-king treasure, the treasure contains the god-king ultimate move, which is very powerful, but its own realm is not enough to comprehend it, and it will not be able to exert the power of the god-king treasure.

And the secret method created by yourself is the most suitable for you! No matter how good the secret techniques of other powerhouses are, they will eventually be eliminated.

So why do big forces like Duandonghe create the original embryo for the use of internal geniuses, because the original embryo is more suitable for their growth.

After Wang Yi studied the secret method, he sensed the outside world.

"The mysterious masters are still exploring? It seems that they have found nothing?"

"It seems that exploration in this destruction cave is really not that simple."

Wang Yi ignored them, and continued to study the secret method. The "Tide of Destruction" was started, and many improvements were still needed.

And he felt that he might be able to gain more from destroying Dongtian.

"Ding." The panel prompt sounded abruptly. Ding, congratulations to the host for successfully signing in and rewarding a 'Destruction Origin Crystal'. 】

Wang Yi glanced at the panel and rolled his eyes, I said it wasn't you, you don't have to come out to join in the fun.

In the white shuttle-shaped spaceship, the golden-eyed boy of the "Master of Qingye", with long golden hair, magnificent golden armor, and a magnificent golden god, suddenly burst into a sharp light, like two golden swords shooting out, penetrating the infinite void.

The Lord of Xuanman, who was sitting silently next to him, and the Lord of Shadow Tuo noticed it and looked over at the same time.

"Master Qingye, have you found anything?" Master Yingtuo asked.

There was a smile on the cold face of the master of Qingye, and he nodded.

"What is it?" Lord Xuanman couldn't help it.

Lord Qingye said with an uncontrollable smile on his face: "It's the source stone, and it seems that there are quite a few."

[Chapter 910: Origin Stone](#)

"Original stone?"

The Lord of Shadow Tuo and the Lord of Xuanman were startled at first, and then their spirits were lifted.

"Master Qingye, I don't know how many source stones there are?" Master Yingtuo asked.

The Origin Boundary Stone was bred from the source energy of the source space of the Origin Continent, and every Origin Boundary Stone was extremely precious. It is said to be very important to the gods and kings.

Master Qingye's eyes flashed with gold, "Because of this big explosion, the origin stone appeared, and the force of the explosion swept the four directions and scattered everywhere. The area I explored, the source stone alone, was more than ten places... .."

"There are more places in some places, and there are less places in some places, and this is what I have detected, and there must be more that I have not detected!"

"It's too slow for us to gather together to search." Master Qingye looked at them. "The time is limited. I suggest that a few of us spread out to collect them and get these Origin Stones as soon as possible."

Master Xuanman and Master Yingtuo looked at each other and nodded.

Indeed...they were definitely not the only ones attracted by the explosion of Destruction Stars.

"It's not too late, we're going now."

The Origin Boundary Stone is still very precious to the Chaos Master. Ordinary Chaos Masters have exhausted their treasures, or only a few thousand Origin Boundary Stones.

Afterwards, they informed Wang Yi that at this time, one more person would still be more helpful.

As for not allowing Wang Yi to participate? They don't look so ugly.

"Origin Boundary Stone?" Wang Yi was a little surprised, this is a good thing.

He once understood that the Origin Boundary Stone is the energy gathering in the origin space of the Origin Continent. It is magical and extremely precious, and it is useful to the Universe God. Absorbing the Origin Boundary Stone is helpful for improving the soul. Even the high-ranking Cosmic Gods don't think there are too many Origin Boundary Stones! They are also willing to take the source energy of these origin spaces, and they also want to become stronger.

Because it is useful for powerhouses such as the Universe God, the source stone is naturally very precious, and it is regarded as the mainstream hard currency used by powerhouses above Chaos Realm to trade.

"Go and see."

Wang Yi came out of the secret room and met with the three masters including the master of Yingtuo.

"Three, let's move separately. According to my estimation, there should be quite a few Origin Stones scattered in this area." Lord Qingye, whose long hair was beating like golden flames, swept his gaze, "The approximate distribution area, I have already sent it to you. , but this is only the area that I have just checked, as for the places that have not been checked, it depends on your luck."

Wang Yi and other three Prime Ministers of Chaos glanced at each other.

They all know that the ruler of Qingye has an advantage in such a situation. After all, who makes people good at investigating?

Looking for it separately, if the ruler of Qingye is selfish, he can completely hide the places with many source stones, or if some places are not leaked to them, they can get more.

And Master Qingye, relying on his exploration ability, can find more Origin Stones easier and faster than them.

But there is nothing they can do. In this case, they can only see their own abilities.

"Xuanman, the source stone distribution on the map I gave you is a few percent more than theirs." Master Qingye secretly transmitted his voice.

The Xuanman Master's face remained calm.

He and the ruler of Qingye have been friends for many years, and if the ruler of Qingye finds out, he will generally not hide it from him.

As for "Master of Shadow Tuo" and "Master of Jiujiang"... It would be nice to have a share of the pie before that friendship is reached.

The old man in green robe, Lord of Shadow Tuo, also transmitted voice to Wang Yi. "Master of Jiujiang, Master of Qingye must be hiding from us, and we are going to get more source stone by ourselves. We are too disadvantaged."

Hearing Ying Tuo's master's complaint, Wang Yi just smiled in his heart.

Everyone has selfishness, and if he is the ruler of Qingye, he will hide it.

Besides, he didn't really like this Origin Boundary Stone very much.

How many Origin Boundary Stones can be brought by an explosion of a destroying star, more than a few thousand, or less than a few hundred.

Of course, there are also tens of thousands, or even hundreds of thousands, but those are relatively rare.

If it is true that tens of thousands of Origin Boundary Stones are obtained at one time, it will be a big harvest for the God King.

But Wang Yi didn't think they were so lucky this time.

Wang Yi glanced at the Lord of Shadow Tuo, and he could feel that the Lord of Shadow Tuo invited him out, but he also had his own secret.

But who doesn't have any secrets and thoughts, he doesn't either.

Afterwards, the four Chaos Lords separated, and acted in the dark space according to the information previously probed.

...

"Huh?" Wang Yi, who was flying in one direction according to the map information, suddenly saw stones exuding strange colors in the black world.

"Original stone?"

Wang Yi made a move, and the powerful divine power formed a huge palm and grabbed a few Origin Boundary Stones.

"One, two, three... only three?" Wang Yi looked at the Origin Boundary Stone. Those stones had a power that made people move, and the soul was shaking, and there was a strong urge to eat it.

The Origin Boundary Stone is very peculiar, with almost the same size and scale, and it has to be said that it is a miracle that it can be preserved intact in such a violent explosion.

"I can feel its attraction to my soul, which is countless times stronger than Chaos Crystal. It is rumored that the source stone is very helpful to improve the soul of living beings, even the king of gods has an effect."

"The amount is too small. For Chaos Realm, it may be effective to take a large amount." Wang Yi shook his head.

Wang Yi tried to take the Origin Boundary Stone, and since he got it, it would naturally belong to him.

Wang Yi held a dazzling source stone in his hand. The strange colors swirled on the stone. It was so beautiful and dazzling that people couldn't help but be moved, and even the soul was attracted and trembled. Just like a person's stomach is extremely hungry and wants to eat, the soul also has a feeling of 'hunger' and wants to eat the source stone.

Wang Yi opened his mouth casually, and the Origin Boundary Stone shrank and flew into his mouth.

The magic of the source stone. It has an effect on any life, including the universe god. And there are some rare treasures, the stronger the strength, the weaker the effect. For example, some treasures have amazing effects on the eternal true gods. To the universe god? It's useless to eat! Therefore, the source stone is more suitable for the strong to use. For the weak, it is more cost-effective to exchange for treasures.

But for Wang Yi, it's still a matter of eating.

Wang Yi could feel that an invisible special energy was absorbed by his soul, which was very comfortable, and his deduction speed seemed to be a little faster.

Insignificant traces, if you don't pay attention, you may not notice it.

Wang Yi quickly finished eating the three Origin Boundary Stones, felt the change in his body, and smacked his mouth.

"The source stone does improve the soul, but the stronger it is, the more it is needed."

According to Wang Yi's estimation, if he could eat 100,000 Origin Stones, his current soul might increase by 30%.

The 100,000 Origin Boundary Stones should be of great help to the Chaos Realm. If the Cosmic God ate it, the help would be much less.

But how many chaotic masters in history can take the source stone so extravagantly, just to enhance the soul?

100,000 Origin Stones, even if the God King took it out, would feel distressed.

Wang Yi looked around and shook his head, "There are only three here. It's really disappointing. The master of Qingye, I don't know how much he can get."

In the black airflow, Lord Qingye grabbed a handful of Origin Stones and smiled with satisfaction.

"There are twenty-three in total here, not bad."

Of course, the ruler of Aoye has something to hide.

The source stone he discovered, where there are more and less, and where they are distributed, only the master of Qingye knows.

Even if he dominates his friend Xuanman, he just takes care of it, and the best interest is still his own.

"Following the route, I can get at least 200 source stone." Master Qingye secretly said in his heart.

Two hundred Origin Boundary Stones, a lot.

Many chaotic masters, and all the treasures may be four or five thousand source stone.

A risk-free exploration can get so much, and it is also a big gain for the master of Qingye.

...

"Haha, it's the source stone."

In another dark void, an incomparably huge head covered in five-colored cold flames, and a strange being with five huge skulls made an excited sound.

In the void in front of it, there are stones of strange colors floating quietly, and the number adds up to hundreds.

As an ancient primitive life, the master of "Wu Skeleton" has lived for countless years, and it is not the first time to explore and destroy the cave, but it is the first time to encounter such a thing.

You can pick up hundreds of source boundary stones while walking along the road!

"I knew for a long time that the destruction of the stars would explode, and treasures might appear, but I didn't expect that this time it was actually a source stone!" The eyes of the "Wu Skeleton" ruler were full of excitement. "According to the rules, the destruction of the stars will explode, and there will be more than one source stone, and there must be other places."

The "Wu Skeleton" master also frantically searched.

Wang Yi, Master Yingtuo, Master Qingye, Master Xuanman are looking for...

The master of "Wu Skeleton" is looking for...

The three cultivators who traveled together, the Chaos Lord, also discovered a source stone, and they were all excited.

Most of them are just like ordinary people who have found a strange gold mine, all thinking about mining this wealth.

And as time passed, there must be other powerhouses rushing over, so they were all actively searching for it.

The explosion of the destruction of the stars spread over countless light-years, the area is extremely vast, and the area where the source stone is scattered is also very broad, so the few parties did not notice the existence of the other party for the first time, but as the search area expands, there will definitely be a day of meeting.

Wang Yi was also looking for it in the black air, but compared to other strong men, he seemed much more casual.

The prompts on the panel in my mind sounded from time to time.

Ding, congratulations to the host for successfully signing in and rewarding a 'Destruction Origin Crystal'.
】

Ding, congratulations to the host for successfully signing in, and rewarding a 'Origin Boundary Stone'. 】

Ding, congratulations to the host for successfully signing in, and rewarding a 'Origin Boundary Stone'. 】

Ding, congratulations to the host for successfully signing in and rewarding a 'Destruction Origin Crystal'.
】

...

The rewards on the panel are mainly 'Origin Boundary Stone' and 'Destruction Origin Crystal', occasionally mixed with other things, which are lackluster.

After a circle, Wang Yi searched and collected only a few dozen Origin Boundary Stones, but the number of Origin Boundary Stones obtained through the sign-in panel has already exceeded 100.

Wang Yi did not dislike this, saying that the more the better.

Both 'Origin Stone' and 'Destruction Origin Crystal' are very useful to him. 'Origin Boundary Stone' can improve his soul, and 'Destruction Origin Crystal' can help him understand the way of destruction.

During the search, Wang Yi occasionally found a few Origin Boundary Stones in his hand, and threw them directly into his mouth. With his mouth open, the Origin Boundary Stones quickly shrank and flew into his mouth and swallowed them. It seems to be eating some snacks, which is very casual. If it is an ordinary strong man, he would not dare to eat it like this, but Wang Yi's soul is at the chaotic master level, and the source stone has no pressure on him. If he wants to, he can resist it if he eats thousands of them at a time.

In the end, no matter whether he signed in or searched for the 'Origin Boundary Stone', there was not one left, and he ate them all.

"Jiujiang dominates."

The voice of the ruler of Qingye suddenly sounded in Wang Yi's consciousness through the token, with a trace of solemnity.

"I just found out that people from other forces have also appeared here, and they are also looking for the source stone. If you encounter them, be careful."

"I see." Wang Yi responded, and he was not surprised. The four Chaos Masters knew in advance that the destruction of the stars would explode, and there must be a lot of powerhouses attracted.

"By the way, how many origin stones have you found, Master of Jiujiang?" Master Qingye asked casually.

Wang Yi looked at his empty hand, a little hard to say.

How should I say that I was eaten by myself as a snack unknowingly?

Wang Yi coughed lightly, "Not much, does Qingye dominate you?"

Master Qingye does not doubt it, because he gave Wang Yi their distribution direction and there were not many Origin Stones, and he occupied the best places, and Master Qingye was confident with his own detection ability. Wang Yi, it is impossible for them to find more Origin Stones than he could find.

In fact, the number of Origin Stones that appeared in this Destruction Star explosion was much more abundant than he had imagined, making Lord Qingye ecstatic.

Of course, it was impossible for him to tell Wang Yi this.

"Haha, I didn't find much..." Master Qingye said a few words at will, and ended the call.

"After searching for so long, I haven't found a few Origin Boundary Stones." Wang Yi looked around and smiled strangely. "There are other forces coming to compete now. Aoye dominates them. It should be a bit of a headache now, but what does it have to do with me."

At this time, Master Qingye also notified Master Xuanman and Master Yingtuo at the same time.

After learning that other forces had joined, Xuanman dominated their search even faster, and they were a little anxious.

And the powerhouses of other forces also discovered that Xuanman dominated them.

Soon, when the two sides discovered the source stone in one place at the same time, a conflict appeared naturally.

"I discovered this source stone first, **** it." A Chaos Lord looked angrily at the Chaos Lord who was far away.

"Haha, who made your hands so slow, these Origin Boundary Stones belong to me." The Chaos Master said proudly.

During the search, Wang Yi also bumped into two powerhouses from other forces, but both sides ignored each other's intentions and avoided it by tacit understanding. The main target was the Origin Boundary Stone.

With the arrival of more and more powerful people, knowing the existence of the Origin Boundary Stone will naturally explore separately. There are more and more powerful people here, and there are more and more intersections and collisions.

If there are fewer Origin Stones discovered at the same time, it is better, and you can restrain yourself. If there are more, the competition will begin.

"Boom!"

In the dark void, the black airflow was turbulent, and the two strong men fought.
