

## A God 931

### [Chapter 931: fried!](#)

Destruction Star exploded.

The power of this explosion was devastating.

Although the Lord of Heavenly Sacrifice reacted quickly and ran fast, the explosion of the destruction of the stars spread too fast, and was covered by the energy fluctuations of the explosion.

A thick and simple shield with mysterious patterns on it appeared in the hands of the Lord of Heaven, and the gorgeous royal robe on the Lord of Heaven also turned into armor. The Lord of the Sacrifice went all out and did not dare to be careless.

"Peng..." The powerful shock wave acted on him instantly, the shock wave was like an endless flood rushing through, and the secret lines on the shield flickered, "Peng! Peng!" The shock wave acted on the Lord of Heaven, who gritted his teeth and his body surfaced. A hazy light and shadow flickered faintly to resist.

The shock wave hits in all directions. The world is a sinking black. Everything was annihilated in endless destructive energy.

"Damn it!" The Lord of Heavenly Sacrifice looked hideous, "Boom..." That thick and incredible divine power was completely burned in an instant, bursting out with terrifying energy that made people feel the season, and the divine body that had been cultivated for hundreds of millions of years completely exploded at this moment!

The power of the God King is extremely terrifying!

But here is the destruction cave, the place closest to the source space, and the explosion is a 500 billion light-year diameter, powerful destruction star.

Burning divine power, the roar of the Lord of Heaven, who burst out with fearful energy fluctuations, was drowned out by the explosion.

"Boom..."

The violent energy almost comparable to the peak level of the \*\*\*\* king swept the entire void. I don't know how many billion light-years are in the range of destructive energy.

On the other hand, Wang Yi is completely in the core area of destructive energy. It is better to worship the king, but he has not completely avoided it.

There is no way to avoid it, all means of evasion are useless, only hard blocking.

A powerful storm of energy swept across the vast void in an instant. At this moment, the Lord of Heavenly Sacrifice and Wang Yi were desperate.

A palace was as small and inconspicuous as dust in the violent energy storm. It was instantly entrained and flew out for an unknown distance of hundreds of millions of light-years. It rushed into the distance with the destructive energy fluctuations.

And in the process, the force of destruction came fiercely, "Peng!" The impact after the double weakening of the Divine King's Palace Treasure and the Divine King-level Treasure Armor was greatly reduced, and Wang Yi's tenacity was still comparable to that of the Chaos Treasure. The body was directly shaken and cracks appeared.

It is conceivable that if there is no weakening of the divine king-level palace treasure or the divine-king-level armor, Wang Yi's divine body will definitely collapse directly in this destruction explosion, the physical body will collapse, and the chaotic space hidden in the body will also collapse, and will naturally fall.

And the Heavenly Sacrifice King, who is not protected by the divine king-level palace treasure, although his strength is much stronger than Wang Yi, his defensive ability is not necessarily comparable to Wang Yi's. When enduring the power of the explosion, although hiding farther, the pressure it bears is not necessarily lower, but may be higher.

The explosion of the destruction of the stars has a very wide range, and many powerhouses have sensed it in far away places.

Fan Bei, who was searching for the traces of the Jiujiang ruler in the dark space, turned his head and looked in surprise. His sight seemed to pass through endless time and space, and he saw the raging destructive power that was erupting.

"Hey, isn't that the direction that the Lord of Heavenly Sacrifice is searching for? How could a Destruction Star erupt? Could it be made by the Lord of Heavenly Sacrifice? Didn't the Lord of Baoliu remind him earlier that it should not affect the operation of the Destruction Star? ." Fan Bei said in surprise.

...

When the destruction of the stars exploded, the Lord of Bao Liu immediately noticed that there was a problem with the "Array Network".

A star of destruction that was supposed to be safe suddenly exploded.

It's like pulling one hair and moving the whole body.

This time the entire formation will be affected.

"What the \*\*\*\* are you doing, that guy from Tianji!" Lord Baoliu said angrily. His formation can only be used to monitor the destruction of the stars, and cannot monitor the creatures and situations within the range of the formation, but he also knows that he is inseparable from the Lord of Heavenly Sacrifice.

Otherwise, a ruined star that has been running for hundreds of millions of years will not have an accident sooner or later, but it will have an accident not long after the Heavenly Sacrifice King.

It can't be created by some chaotic master who doesn't know how to live or die, right?

While scrambling to sort out the chaotic place of the formation. Restructure. While offering sacrifices to the king, he scolded people.

Fortunately, there are still three \*\*\*\* kings left to be responsible for the formation of the formation. Otherwise, if he is alone, there will definitely be problems in this wave, and the painstaking efforts of the Lord of Baoliu will be in vain.

At the same time, the Lord of Baoliu also sent a message to the Lord of Tianji, but the Lord of Tianji did not respond immediately.

...

"The Destruction Star exploded."

In a farther place, a man in black armor, the world beast Theodore flew over.

Because Wang Yi always turned around before, causing other forces to go back and forth, Tianmu Kingdom was madly rushing on the road under the leadership of the god-king-level powerhouse Theodore. Faster than other forces.

"That direction is where the ruler of Jiujiang is located." The Beast Theodore showed a strange color.

He asked the Lord of Rock and Lord of Fukun beside him, "Where is the Lord of Jiujiang now?"

Master Rock and Master Fu Kun have been diligently tracking the Tianmu Kingdom during this period of time. They also worked hard and were a little tired, but they did not hesitate to face the questioning of the Beast King Theodore. He soon showed a hesitant expression.

"His Majesty the God King, because the destruction of the stars just exploded, the time and space there was chaotic and chaotic, and our secret arts were also affected. At this time, the position of the ruler of Jiujiang could not be found."

The secret tracking technique is not omnipotent and will be affected by various factors~[www.mtlnovel.com](http://www.mtlnovel.com)~ As the current situation, the violent force that destroys the stars envelopes the endless area, just like the electronic signal is affected by the magnetic field interference, in this Areas become difficult to track.

Or the other party is hiding in the universe of a certain \*\*\*\* king, and it is also difficult to penetrate into it.

"That's actually the case?" The Beast Theodore didn't seem to be surprised, and asked again: "Is the ruler of Jiujiang in the area where the stars exploded?"

Lord Rock and Lord Fukun looked at each other, "Yes, from our investigation, when Lord Jiujiang was destroying the stars and exploded, it should be just not far from the explosion, maybe even the core area."

A smile appeared on Theodore's face. "That is to say, the ruler of Jiujiang may die in the explosion?"

"It is indeed possible." The Rock Lord said, he could not think of any Chaos Lord who could survive such a terrifying force of destruction, not even the King of God.

However, the attitude of the world beast Theodore at this time also surprised the two masters of chaos. Why did the ruler of Jiujiang die, and the king of the world beast was so happy. Didn't they come from Tianmu Kingdom for the Qixinghai Source Liquid?

But they didn't dare to ask.

The Beast Theodore looked at the place where the strong aura of destruction came from far away, and secretly said in his heart: "Master of Jiujiang, if you really die, you will save my troubles, and I will complete the task given by the master." His master, God King Zimu, wanted this Jiujiang ruler to die.

But... Whether the ruler of Jiujiang is really dead is still undetermined, and the world beast Theodore is still rushing in that direction with everyone.

Under the influence of the destruction of the stars, not only the Tianmu Kingdom, but also the Lord of Baoliu, the tracking of other forces were also affected by interference, and at the same time they lost their sense of the Lord of Jiujiang.

### [Chapter 932: confusion](#)

Destroying the cave, the time and space where Wang Yi and the Heavenly Sacrifice God King stayed before have been covered by the surging force of destruction.

A figure rushed out from the wave of destruction.

"Fuck!"

A scolding sound of the origin continent version sounded.

The appearance of the Lord of Heavenly Sacrifice is very miserable at the moment, and the demeanor of the king of gods is completely lacking.

It is believed that no one would doubt that he had just been beaten by a group of \*\*\*\* kings.

The previous explosion of the destruction of the stars spread too quickly, and the power was amazing. Even though the Lord of Heaven sacrificed himself to protect himself, he was still severely damaged by the power of the explosion.

The breath on his body was much weaker than before.

The dignified king of the gods has actually been reduced to such a miserable level, and the Lord of the Heavenly Sacrifice is too aggrieved.

"That ruler of Jiujiang, a lunatic, really a lunatic." The Lord of Heavenly Sacrifice was full of anger in his heart.

The Lord of Jiujiang would be so crazy, which was completely beyond the expectations of the Lord of Heavenly Sacrifice.

Who would have thought that he would really dare to detonate a star of destruction.

Otherwise, the Lord of Heavenly Sacrifice would dare to get so close.

"By the way, the ruler of Jiujiang." Lord Tianji scolded, and finally remembered the culprit who made him look like this.

"He's dead." The Lord of Heavenly Sacrifice looked at the still raging storm of destruction. He, a god-king, was reduced to such an end and was severely injured. He couldn't think of a reason why the Lord of Jiujiang could survive.

It is only natural that the Lord of the Heavenly Sacrifice will think so.

A chaotic ruler, even if he has a god-king palace treasure and armor, the probability of surviving an explosion comparable to the god-king peak level power is still very low.

The Lord of Heavenly Sacrifice didn't know that Wang Yi's body defense had reached the chaotic master-level treasure level, because a body at the chaos master-level treasure level was unbelievable.

Even among the \*\*\*\* kings, very few people can reach this level of their bodies, let alone the masters of chaos.

Therefore, he believed that the ruler of Jiujiang had already died in the explosion just now.

"He's dead, what about the treasure, and the Qixinghai source liquid?" The Lord of Heavenly Sacrifice was a little anxious.

This time he discovered the ruler of Jiujiang, but he didn't notify others immediately, and he broke the previous agreement of the gods.

If the seven-star sea source liquid disappears again because of his reasons, those \*\*\*\* kings will not give him good fruits to eat.

Everyone has already said it, but because of your selfishness, the Lord of the Heavenly Sacrifice, everyone has no food.

As for whether it was because the ruler of Jiujiang took the initiative to detonate and destroy the stars, they would not believe it.

A good master of chaos will detonate and destroy the stars without any problems. Isn't this suicide.

It must be because of your persecution by the Lord of the Heavenly Sacrifice.

Those forces know that, I am afraid they will also be dissatisfied with the Lord of Heavenly Sacrifice.

If you offend so many people at once, it will be difficult for the days after the Heavenly Sacrifice to the Lord.

The Lord of Heavenly Sacrifice didn't care about his injuries, and wanted to look for it, but at this moment, the destruction of the star had just exploded, and the impact of the explosion was still left, and it was not over.

When the Lord of Tianji was worried, a message from the Lord of Bao Liu arrived.

Not only the King of Baoliu, but also the other God Kings, the King of Fan Bei, the God King of Shanpeng... all the God Kings sent messages.

They were asking him if he was in the explosion area that destroyed the stars, whether the explosion that destroyed the stars was related to him, whether he discovered the ruler of Jiujiang... and so on.

The Lord of Heavenly Sacrifice was dumbfounded, how should he answer.

...

"It was really dangerous just now."

In a place extremely far away from the Lord of Heavenly Sacrifice, a figure turned into a streamer and flew in the void at an alarming speed.

This is Wang Yi, who just detonated the destruction of the stars, and severely pitted the lord of the heaven.

At this moment, he is injured, and it is not much better.

Thinking of the scene just now, Wang Yi also had a bit of heartbreak.

The destruction star with a diameter of 500 billion light-years is close to the large-scale destruction star, and the power of the explosion has reached the peak level of the \*\*\*\* king.

With so many life-saving means on his body, he was seriously injured, and Wang Yi almost thought he would die, that is, shooting himself in the foot.

"Gene Era"

"I don't know how the Lord of Heavenly Sacrifice is doing now, should he not fall?" Wang Yi thought to himself.

"Take advantage of the chaos caused by the explosion of the destruction star, I have to run farther."

Wang Yi used the top secret technique "Donghua" to break the East River, burning divine power regardless of the cost, the whole person turned into a streamer, and disappeared into the depths of the dark void in a blink of an eye. The direction is still to destroy the core area of Dongtian. The road went dark.

"According to my estimation, the destruction of the stars will explode and the time and space will fall into chaos. It will definitely become more difficult for those strong people to find me." Wang Yi's eyes flickered. "I don't know how long it can be delayed."

Being discovered by the Lord of Heavenly Sacrifice was also beyond Wang Yi's expectations, and made him feel more crisis in his heart.

"When I left, I left a little something in the original place by the way, maybe they could confuse themselves."

...

And the Lord of Baoliu and the others also learned the news from the Lord of Tianji shortly after.

"This celestial sacrifice is just a piece of trash, if success is not enough, it is more than failure."

In the void, the country lord Fan Bei came quickly and cursed.

The direction he was on his way was exactly the place where the destruction of the stars exploded before.

Not only him, but other \*\*\*\* kings and forces were also attracted.

Because the sense of the master of Jiujiang disappeared in the destructing star of the explosion, in order to find the trace of the disappeared master of Jiujiang, all the forces chased after him.

And the fastest one is undoubtedly the Heavenly Sacrifice King who is searching around~[www.mtlnovel.com](http://www.mtlnovel.com)~ They don't care about scolding the Heavenly Sacrifice King. As soon as they arrive, they search non-stop. important.

And Qixinghai Source Liquid is on Jiujiang Lord. If Jiujiang Lord dies, if Jiujiang Lord's body is found, Qixinghai Source Liquid will also be found.

However, if the Jiujiang Master's body is left without a trace, the Qixinghai Origin Liquid may also be destroyed.

After all, the ruler of Jiujiang was in the power core of the explosion that destroyed the stars before, and the treasures of the Chaos Master-level peak palaces may be destroyed. It is normal that the treasures on the ruler of Jiujiang are not left.

So these \*\*\*\* kings are very anxious now.

When the Lord of Heavenly Sacrifice and the others were looking for it, other forces finally arrived.

"boom!"

A terrifying powerhouse descended here, and the coercion spread over hundreds of millions of light-years.

He was covered in thick armor with black spikes, towering as the sky.

A pair of eyes are like electricity, and his universe is full of oppression.

As soon as he came, he found everyone searching here.

"God King Juyuan." King Fan Bei and others were all surprised, with a solemn expression on their faces, they recognized the person.

Juyuan God King is a God King of Dayue Kingdom. His strength is terrifying. He is much stronger than King Fan Bei, and he is at the same level as the Spirit Killing God King of Wujianlou.

God King Juyuan was a little surprised when he discovered the country lord Fan Bei and the others. Originally, he thought he was the fastest to arrive.

"The King of Fan Bei, the King of Shanpeng... um, there is also the King of Heavenly Sacrifice." God King Juyuan saw the King of Heavenly Sacrifice who had not recovered from his injuries, and his eyes flashed.

"You are also here, just right, before the destruction of the stars exploded here, and the ruler of Jiujiang also disappeared here, you came so quickly, could it be... the ruler of Jiujiang was found by you?"

### [Chapter 933: king of gods](#)

Lord Fan Bei's eyes flashed: "The Lord of Juyuan, I think you misunderstood. We have only just arrived. We don't know whether the Lord of Jiujiang has ever appeared here."

"Oh, is it?" Of course, the God King Juyuan would not believe it easily, his eyes turned to the Lord of Heavenly Sacrifice, "Then why does the Lord of Heavenly Sacrifice seem to be injured, it should be caused by the explosion of the destroying stars? And Jiujiang Just before the master disappeared here..."

The Lord of Shanpeng slapped the giant wings that covered the sky and said with a sneer, "Heavenly sacrifice was just an unfortunate passing by and was injured. In fact, it has nothing to do with the Lord of Jiujiang."

The corner of Tianji King's mouth twitched, and he said helplessly: "Yes, I'm very unlucky..."

Seeing that they were unwilling to admit that they were related to the ruler of Jiujiang, the God King Juyuan was slightly silent. Then he said: "The ruler of Jiujiang disappeared here, I want to search here, do you have any comments?"

Guozhu Fan Bei cursed inwardly, but his face remained calm. "God King Juyuan, you are joking, you want to search here, how can we stop it."

"That's good." God King Juyuan immediately flew towards the Shanpeng King and the others.

The face of the \*\*\*\* king and other \*\*\*\* kings changed. "God King Juyuan, you..."

Juyuan God King smiled and said: "Everyone, I said that I will search here, don't you say that you have no opinion? Do you want to stop me, or do you want to have a dispute with my country of Dayue?"

When the Queen of Juyuan arrived, although it was unclear whether the sudden disappearance of the ruler of Jiujiang was related to the Lord of Heaven and Sacrifice, but looking at the appearance of the Lord of Heaven and their search here, the Lord of Jiujiang should not have fallen into their hands.

But the Lord of Heavenly Sacrifice and the others are also very suspicious, and the God King Juyuan suspects that they know something. In short, more information than you know.

Therefore, the place where the Lord of Heavenly Sacrifice and the others are now searching is the most valuable, and it is also the place that the God King Juyuan wants to search first.

indeed.....

Before the conflict broke out between the Lord of Heavenly Sacrifice and the Lord of Jiujiang, they detonated and destroyed the stars. During the explosion, both moved in opposite directions. From this point, we can roughly exclude some areas. If the Lord of Jiujiang is dead, which area might things be scattered? If the ruler of Jiujiang is still alive, it can also be inferred where the ruler of Jiujiang will flee.

Therefore, the Lord of Heavenly Sacrifice and the others are of course searching for the most likely area where the Lord of Jiujiang (after his fall) exists.

Who would have thought that the Juyuan God King was so shrewd that he wanted to come over and search.

But the King Fan Bei and the others couldn't stop them, otherwise they would be guilty of being thieves and make it clear that they have a problem.

Moreover, the God King Juyuan is powerful, and behind him is the Kingdom of Dayue as a backer.

There was no way to stop them, they could only watch the God King Juyuan struttingly searching in front of them.

"This God King Juyuan, it's really not the right time." Fan Bei Guozhu angrily sent a message to the other companions. "But there are many of us. He is only one person. Let's spread out, search quickly, and find the ruler of Jiujiang as soon as possible. We need to see people in life, and we need to see corpses in death. If you find anything, pay attention to concealment, and don't let people find out."

Knowing that time is running out, other god-kings have also accelerated their search.

Except for the Lord Fan Bei, the Lord of Heavenly Sacrifice, and the Lord of Shanpeng, the other god-kings who came together were just avatars of the Chaos Lord, with limited abilities, so they mainly depended on them.

While searching, the God King Juyuan asked the Chaos Master who was with him. "The ruler of Jiujiang hasn't been found yet?"

The chaotic master in charge of the search respectfully said: "Your Majesty, I haven't found it yet."

"Well..." Juyuan God King frowned slightly. Looking at the aftermath of the raging destruction all around, I felt a little helpless.

"The ruler of Jiujiang, is he dead? If he does, where will the things be?"

While they were looking, another force came.

"boom!"

Several primitive beings with huge bodies suddenly descended, and the aura coercion spread unscrupulously, attracting the attention of several \*\*\*\* kings.

"Is the king of primitive life."

The god-kings of primitive life also discovered the god-kings of practitioners here and looked at each other.

"It's the cultivators who come the fastest, and they take the lead in everything." An ancestor of primitive life said unhappily.

"Looking at what they look like, they are looking for something. Could it be that the ruler of Jiujiang is here?" Kuizu, who swayed the slender rattan like a vine, said softly.

"Then let's find it too." Several god-kings of primitive life discussed and also participated.

The situation became complicated after the arrival of the Heavenly Sacrifice King, the God King Juyuan of the Dayue Kingdom, and the Primordial Life.

Then, another god-king arrived.

This time, it was the \*\*\*\* king of Jieshan Palace, and two \*\*\*\* kings.

They saw the situation at the scene and wanted to inquire about the information, but no one paid any attention to them, and the two \*\*\*\* kings had to follow the search.

"boom!"

"boom!"

The two \*\*\*\* kings of Wujianlou came. Their appearance attracted everyone's attention.

"It's the Infinity Tower."

"God King of Wujianlou, actually came here."

Those forces could not help but cast their eyes.

These forces, on the surface, are all here to grab the Qixinghai source liquid, and the Qixinghai source liquid is on the master of Jiujiang, and the master of Jiujiang is a person from Wujianlou, which is a bit subtle.

Of course, no one said on the bright side that it was against Wujianlou, but only said that the Qixinghaiyuan liquid was robbed.

But the Qixinghai source liquid is on the master of Jiujiang in Wujianlou.

It's a bit of a bluff.

Divine King Tang Yu and Divine King Xie Sheng from Wujianlou hurriedly rushed and ran all the way, and finally caught up, but in the face of the current situation, seeing so many powerful Divine Kings is also very big.

Compared with so many forces, the two \*\*\*\* kings of Wujianlou are weak.

"The Lord of Jiujiang~www.mtnovel.com~ the clue is broken here, is he dead?" God King Tang Yu and God King Xiejing discussed in secret.

"His cave is completely closed, there is no news, and there is no way to know everything, otherwise you can learn about his situation from his avatar."

"This ruler of Jiujiang is too determined to go his own way. Obviously we are helping him, but he still doesn't know the good heart."

The two \*\*\*\* kings were a little unhappy.

In the face of so many powerful \*\*\*\* kings, if the ruler of Jiujiang is really alive, once a conflict really breaks out, the situation will be very unfavorable for them.

But the most important thing right now is to find the ruler of Jiujiang.

The two \*\*\*\* kings of Wujianlou began to search.

The world beast Theodore also came with people. He also joined the search team silently.

One by one, a terrifying powerhouse came.

They are all looking for the traces left by the ruler of Jiujiang.

The area affected by the explosion of the destruction star is extremely wide, and it takes a long time for a god-king to search completely.

But there are too many \*\*\*\* kings here, and many chaos masters who are good at tracing and searching also follow. With so many strong people searching together, the speed is naturally amazing.

But in such a situation, if you find something, put it away secretly, and then pretend that you haven't found anything and continue to search, it will be difficult for others to notice it.

Just depends on your luck.

The destruction wave left by the destruction of the stars has not completely subsided, but it is slowly weakening.

When it disappears, it will be easy for other forces to find the ruler of Jiujiang.

You can know whether Jiujiang is alive or dead.

Just as all parties were trying to find it, somewhere in the void far away from where the destruction star erupted, a wave suddenly appeared, passed over, and spread far and wide. The fluorescence in the dark night is so conspicuous.

#### [Chapter 934: fuse](#)

"There is movement!" Immediately, many of the surrounding powerhouses felt it.

"brush!"

"brush!"

"brush!"

One by one super-existence rushed towards the place where the fluctuation appeared.

The fastest rushing was the clone of a \*\*\*\* king who happened to be nearby.

His eyes swept away, and he settled on a thing drifting with the flow in the dark space, his eyes condensed.

"Huh? A palace, it seems that no one is in control, could it be..." Before the avatar of the \*\*\*\* king could think about it, there were powerful breaths approaching rapidly behind him. "No, I'm not strong enough!" Although he really wanted to take this palace away, his uncompromising determination and clear mind allowed the god-king to make a wise choice.

Unless it is really too fanatical and persistent, super beings like this know what to do when and what to do.

This \*\*\*\* king knows that he is only a clone whose combat power is far less than that of the main body, and he is unable to compete with other powerhouses. If he is secretly discovered and taken away, he

will fall, but who would have thought that the appearance of this palace would cause such a big movement.

In the face of those powerhouses who are far stronger than him, the \*\*\*\* king has to give up and avoid them.

"Damn, most of this palace was left by the ruler of Jiujiang. Judging from its appearance, the ruler of Jiujiang should have fallen. There may be Qixinghai source liquid in it."

He was very unwilling in his heart, and then an idea spread far and wide in the destruction cave.

"I discovered the palace left by the ruler of Jiujiang!"

"Um?"

"The palace left by the ruler of Jiujiang?"

"Doesn't that mean that the seven-star sea source liquid is there?"

"Never let this palace fall into the hands of others."

When many forces heard it, their eyes flashed.

As for the life and death of the ruler of Jiujiang, few people care, and it is not their power.

"The monarch of the food country is really nosy." There were also some angry ones, the \*\*\*\* kings closest to the palace.

Being so roared by the monarch of the food country, other forces will definitely not watch them take things away.

The two-headed man was silent, watching from the sidelines, I can't get it, and naturally I won't let you get it easily, so it's good to add some block to you.

"Wow!"

The fastest rushing was a golden-yellow Dapeng and a lightning-like figure.

Their goal is the palace.

"Lord Shanpeng, do you want to compete with me too?" The lightning-like figure only showed a pair of thunderous purple thunder eyes, and his voice was as low as thunder. "Well, let's see who is faster!"

"God King Fengxiao." There was also a dignified look in Shanpeng's eyes.

The two \*\*\*\* kings are good at speed, so they are the fastest rushing. With their speed, even the distance across a primitive universe is only a moment.

But others won't be indifferent to watching them fight.

Infinite golden light bloomed, a big sun appeared, and the light of the 'big sun' suddenly dazzled thousands of times, filling the entire dark space.

The Shanpeng King and the Fengxiao God King were caught up even though they were flying extremely fast. "Close." An icy voice came, the king of the gods manipulated the golden light to shrink wildly, and the big sun shrank sharply like a vortex. The powerful attraction made the god-king caught in it involuntarily affected, and the speed was greatly reduced.

"Everyone wants the treasure dominated by Jiujiang, so let's see who has the stronger means." A ghostly figure of a \*\*\*\* king appeared out of nowhere, and said faintly. Notice the existence of this one.

"Each is based on strength."

"Just to my liking."

"Hahaha... I haven't been so lively in a long time. I don't know how many people will die today."

One party's forces, one strong one by one, all know that a big war may break out next.

The treasure left by the ruler of Jiujiang has this value, enough to make the king of gods fight.

Some strong people are worried, some strong people look solemn, some strong people are frantically excited, and some are completely watching the fun and don't think it's a big deal...

"That palace is a Chaos Master-level palace. It appears here at this time. It is very likely that it is the palace left by the Jiujiang Master. It is no wonder that those forces are so excited." The black-clothed man indifferently looked at the many powerhouses who were madly fighting for the palace, and his eyes always stayed on the palace.

He came here with a heavy responsibility, and it was very important to compete for the Qixinghai source liquid, but it was more important to let the ruler of Jiujiang die.

"It seems that the ruler of Jiujiang is really dead." The Beast Theodore secretly said in his heart.

It's just that the timing and method of this palace's appearance is a bit strange, it seems a bit deliberate...

A lot of people realize this, but seeing the palace dominated by Jiujiang appear in front of them, they can immediately compete for the source liquid of the Seven Star Seas, and there are a few strong people who can hold back and do not attack.

No.

All the forces are involved, and the powerhouses are all involved.

Even if the world beast Theodore has also shot, the ruler of Jiujiang can't be found at the moment, and he doesn't know whether to live or die, so it is more important to compete for the Qixinghai source liquid.

And from this palace, some traces may be found.

"Kill kill kill..."

rumbling...

The body of a \*\*\*\* king came down, the power was terrifying to the extreme, and the vast fluctuations swept in all directions.

With any attack, the power can spread hundreds of millions of light-years away.

The practitioners have the most \*\*\*\* kings, and at least ten \*\*\*\* kings have descended, while the other avatars avoided at this time, UU read [www. uukanshu. com](http://www.uukanshu.com) did not dare to participate, the primitive life camp, the indigenous camp, and several \*\*\*\* kings fought at this time, and the scene was chaotic.

And of course this was deliberately arranged by Wang Yi, to let these god-kings fight each other and buy time for himself to escape.

This arrangement is not very clever, even very simple, but it uses the psychology of all parties attaching importance to the source liquid of the Seven Stars Sea. Even if a \*\*\*\* king thinks of this, no one can avoid this temptation, and there is another point, that is, the explosion that destroyed the stars before , the possibility of the fall of the Jiujiang ruler is very high, and almost every faction feels that the Jiujiang ruler is dead.

Since a person dies, it is normal for treasures to remain.

The battle of the gods and kings is hard to see in the origin continent, and the battle of the kings, which is difficult to appear once in infinite years, is fiercely staged here, and it is earth-shattering.

"Om!" A demon knife was born, and wisps of divine light merged into the demon knife, turning the knife into a dazzling light in an instant. After the speed soared to such a terrifying level, the power was also extremely terrifying. It is like the energy of countless universes compressed in one knife.

"Pfft!" A \*\*\*\* king was caught off guard, his body was broken by the demon sword, and the blood containing the will of the \*\*\*\* king was splashed in the dark space, and the blood was stained for hundreds of millions of light years.

"Bang!" And the \*\*\*\* king who shot the knife was also beaten by the other two \*\*\*\* kings and flew away.

The primordial life's Kuizu body is even bigger and terrifying. Strips of green rattan cover the infinite space, disrupting time, as if it can penetrate the worlds and entangle in the battlefield.

Of course, there were too many horrors on the scene, and it didn't dare to be too presumptuous. It was also difficult to bear the consequences of provoking public anger, and it only dared to attack several \*\*\*\* kings at the same time.

...

In a distant place, in a rapidly advancing palace, Wang Yi grunted while recovering from his injuries.

"I wonder if the gifts I left will satisfy the guests?"

#### [Chapter 935: Can't tell](#)

The vast void of destruction has been turned into a pot of porridge because of the battle of the gods.

The entire space is boiling, and endless energy fluctuations are surging.

As the most powerful life form in the origin continent and even in this Fangyuan world, the God King is not ordinary, and he has the power to destroy the universe in every gesture.

In addition, these \*\*\*\* kings have sacrificed \*\*\*\* king weapons and performed sky-shattering secret techniques, which are even more earth-shaking.

"bang bang bang"

Several beings as majestic as the universe collided fiercely.

Their size alone is more than 100 million light years, and the extremely powerful fluctuations in divine power affect infinite time and space.

The power of cultivators, the power of indigenous people, the power of primitive life, and the three major camps, the power of the gods and kings gathered here cannot be counted with two hands, while the power of the cultivators has the largest number of gods, but the most complex components.

In addition to Wujianlou, Jieshan Palace, and Dayue Kingdom, the top three major cultivators, there are also god-kings of other forces involved, and their numbers add up to more than the three parties! But they are also the most discordant! The purpose is to compete for the seven-star sea source liquid, and everyone is intrigued, causing the situation to become very chaotic.

Compared with the power of practitioners, the indigenous powerhouses and primitive beings who came together are united, and they also have their own minds.

"Kuizu."

The huge vine that was waving its body on the vast battlefield received a thought.

Vine plants have no five senses, but only send back a thought.

"Uma, what are you looking for from me?"

Uma, an ancient king of the ancient tribe of the Northern Royal Court Tribe Alliance, has met Kuizu several times and has some friendship.

Uma said: "Kuizu, now all parties are fighting for treasures. Your primitive clan and my ancient clan have always been inferior to cultivators in terms of strength. Now is a great opportunity. You and I join forces and take the opportunity to kill the cultivators and several \*\*\*\* kings. , weaken their power."

Kuizu was silent, and glanced at the chaotic battlefield. Indeed, in this situation, it was intentional and unintentional. With the strength of their joint efforts, they suddenly attacked.

"It's too obvious, this will anger the practitioners." Kuizu, who is a primitive life, still has some concerns.

Indigenous people and practitioners are incompatible, and they will never die, but primitive life and practitioners still have restraint.

Uma said: "Kuizu, why are you hesitating? How majestic, free and carefree was your primitive life in the origin continent in the early years, but when those practitioners arrive, what will you and us be like? We ancient Countless people of the clan were slaughtered and driven away, but how good is your primitive life? Those god-kings of practitioners don't always kill your clan and use them as materials..."

Uma's words evoked Kuizu's memory, making it appear murderous in his heart.

Kuizu was silent for a while and said, "It's a big deal, I want to discuss it with the other ancestors."

Hearing Kuizu's reply, Uma had a smile on his face, and he knew that it was mostly done.

Practitioners have a deep hatred with indigenous life, but they are not harmonious with primitive life. Two completely different ethnic groups are on the same continent, and there is no friction at all. It's just that the upper echelons of primitive life have a consensus that war cannot break out with practitioners. And the power of practitioners is also tolerant of primitive life because of the restraint of the indigenous people.

But in the final analysis, primitive life and indigenous people are hostile to practitioners.

Soon, Kuizu and several ancestors discussed, and those few were even more popular than Kuizu.

Kuizu is a relatively peaceful primitive life, while the other ancestors are not very good-tempered, and their attitude towards practitioners is even worse.

Compared with the practitioners, the indigenous people who have been oppressed by the practitioners are more likely to let them share the same fate.

So when they got the news that the indigenous god-king wanted to join forces to kill the cultivator's god-king, they didn't hesitate for a long time, and quickly agreed!

The two camps joined forces.

kill!

The king of gods who kills practitioners.

Although it is joint, there must be a charter for how to do it.

Like Wujianlou, Dayue Kingdom, and Jieshan Palace, these three major forces have more than one \*\*\*\* king, and none of them are easy to deal with. Not to mention the difficulty of killing them, the future troubles will be huge.

And like those loner \*\*\*\* kings, or like the Lord of Heavenly Sacrifice, the Lord of Shanpeng, etc., who are weak and have no background, it is easier to kill them, and it is not easy to provoke a faction war.

On the surface, the indigenous and primitive beings are still fighting, occasionally hitting each other a few times, of course, they are acting to paralyze the power of the practitioners. No one knows that the primitive beings and the indigenous have secretly joined forces and are ready to plot against the god-king of practitioners.

The God King Tang Yu and the God King Xiesheng of Wujianlou, the God King Juyuan of Dayue Kingdom, the God King Fengxiao of Jieshan Palace, the God King of Beast Sinking of Tianmu Kingdom... The Lord of Heavenly Sacrifice on the side of the Lord of Baoliu, King Shanpeng, King Fan Bei... and some other idle \*\*\*\* kings, in order to compete for treasures, were all red-eyed, not paying attention to the primitive life and the hands and feet of the natives.

Primitive life and the Aboriginal side are also patient, looking for hands-on opportunities.

In the chaos, in the end, the God King Fengxiao of Jieshan Palace was superior in skill. At the critical moment, he was in danger of being bombarded by several God Kings, and took the palace treasure in a thrilling way.

"It was actually taken by that guy Feng Xiao."

"It's troublesome now, it falls into the hands of Jieshan Palace, and I want to get it back..."

Other forces are very unwilling.

God King Fengxiao is fast, and his methods are extraordinary, but he is not so easy to deal with.

Not to mention that Jieshan Palace is not easy to provoke. It is also one of the three top forces of cultivators. Naturally, it has the confidence to defend its treasures.

Many \*\*\*\* kings have stopped, hesitating, not knowing whether to continue fighting.

Indigenous powerhouses and primitive beings are in a hurry. If you don't continue to fight, how can we find opportunities to start.

"Kill! God King Fengxiao, if you don't keep your treasures today, don't think about leaving." Uma and other indigenous powerhouses simply went straight up.

When the original life met, it also followed.

On the contrary, the \*\*\*\* kings of the cultivator force looked at each other in dismay, watching the indigenous and primitive beings go after the \*\*\*\* king Fengxiao, but there was no response.

If it was for the sake of the same faction in the past, these \*\*\*\* kings might still help, but the \*\*\*\* king of Fengxiao took away the treasure, and all parties are jealous at this moment~[www.mtlnovel.com](http://www.mtlnovel.com)~ can't wait to see the \*\*\*\* king of Fengxiao unlucky, why? Maybe help him again, this is the human heart.

And God King Fengxiao didn't know that the catastrophe was coming. At this time, he was flying non-stop with a smile on his face.

Seeing primitive beings and indigenous powerhouses chasing after him, he was very disdainful.

"Kill me, do you have that ability?" He was in a good mood, and his divine power penetrated into the palace. Because Wang Yi left a palace without a master, he easily recognized the master.

But his smile soon stiffened.

Because he found that the treasures of the palace that he just got were empty and there was nothing.

He worked hard for so long, fighting with the \*\*\*\* kings, and in the end he only got a Chaos Master Palace Treasure.

Oh, no, it should be said that there are still several Chaos Master-level treasures and bloodstains, all of which were deliberately left by Wang Yi to disguise the scene of his fall.

But how could God King Fengxiao care about this.

"How could it not be?" God King Fengxiao was shocked and angry.

"God King Fengxiao, keep the treasure, or you won't want to leave today!" At this time, the voice of the native powerhouse came from behind, which made him feel mocked.

At the same time, he had a bad feeling in his heart.

Everyone knew that he got the palace left by the ruler of Jiujiang.

But he didn't get the seven-star sea source liquid at all.

But he said it out, does anyone believe it? Others will only think that the God King Fengxiao secretly stole the Qixinghai source liquid.

I am afraid that the Jieshan Palace will think so too. After all, the treasures move people's hearts. God King Fengxiao can't take out the treasures. Others can think that he swallowed them privately. Anyway, no one can prove to God King Fengxiao whether there are treasures in this palace.

When he thought that he would be questioned by Jieshan Palace after returning home, God King Fengxiao suddenly felt bad.

And he didn't know that there were bigger troubles ahead.

#### [Chapter 936: hidden murder](#)

"Now we have to do it?" Kuizu and King Uma Gu said. "God King Fengxiao is not easy to kill."

"Do it." The ancient king of Uma's voice was low and cold, "We took advantage of the treasure in Fengxiao God King, and we were famous for his shot master, and other forces did not think that we would really do it. We did our best to kill them before they reacted. Divine King of the Dead Wind."

Kuizu thought of the reactions of those practitioners before and nodded.

God King Fengxiao is not easy to kill, so what, there are a few God Kings who are easy to kill.

Moreover, their primitive life and many \*\*\*\* kings of the ancient race gathered here, and it is still possible to kill a \*\*\*\* king with a joint effort, but it just takes time.

As for the God King Fengxiao from the Jieshan Palace... Couldn't the Jieshan Palace be killed?

As long as they are cultivators, as long as they have the opportunity, let alone the God King Fengxiao, they are the monarchs of Dayue Kingdom, the rulers of Jieshan Palace, and the masters of Wujiezhu, they will dare to do it.

In addition, God King Fengxiao thought that he had really captured the treasure, so he ran away with all his heart, but stayed away from the camp of practitioners. At this time, there was no one else except them and God King Fengxiao, creating a hands-on environment for them.

Thinking of this, Kui Zu's hesitation disappeared.

"Imprisonment, the Eight Universe Realm!"

Kuizu's vines swayed, full of inexplicable charm, with the mystery of the universe, one after another magnificent beams of light came from the sky, a vast and boundless world came, covering a vast area of billions of light-years, in this area, there are endless green ripples rippling like water waves, beautiful and dreamy, but hidden murderous intentions.

No matter how ordinary the God King, the universe domain can cover an area of trillions of light-years, but now Kuizu has shown great power, using his innate magical powers to cooperate with the universe domain, and even increasing this power to an outrageous level.

The speed of the God King Fengxiao is very fast, and it is difficult for the God King to catch up with him, but he still falls into this imprisoned domain.

"This is Kuizu's domain?" God King Fengxiao's face was solemn and his voice was cold. "Kuizu, your primitive beings have never interfered in the disputes of the origin continent. Do you want to fight against our cultivators this time?"

Kuizu's voice was soft. "God King Fengxiao, you don't need to press me with a big name. My primitive life is not under the jurisdiction of your practitioners. If you leave the Qixinghai source liquid, I can naturally let you go."

Kuizu's words just stabbed the heart of the God King Fengxiao.

"In that palace, there is no Qixinghai source liquid at all," said the God King Fengxiao.

He didn't want to have a meaningless fight with primitive life and indigenous powerhouses, so he explained.

"Hahaha....."

Kuizu didn't reply, and instead a burst of laughter came over.

The ancient king of Uma came to kill like an ancient demon, surrounded by terrifying scarlet blood, holding two axes in both hands, aggressive, several powerful ancient \*\*\*\* kings followed behind him, also murderous, the voice of the ancient king Thunder shook the space. "God King Fengxiao, do you think we believe it? You cultivators have always been cunning, and treachery is commonplace, but now you are telling such a lie and treating us as fools, right? I advise you to hand over the Qixinghai source liquid, don't force us Do it!"

God King Fengxiao's face twitched, and his heart was also extremely depressed. He originally thought that the palace that was robbed was left by the ruler of Jiujiang, and there was Qixinghai source liquid. Who would have guessed that the palace had been snatched, but the Qixinghai source liquid was nowhere to be seen, and it was also stolen by various parties. Fang forces are isolated and hunted down by primitive life and indigenous people, making God King Fengxiao feel trapped at the moment.

The so-called yellow mud fell off the crotch, either \*\*\*\* or shit, that is, the current situation of the God King Fengxiao.

"What the \*\*\*\* is going on? Why is there no Qixinghai source liquid? Obviously this is the palace dominated by Jiujiang, and there are his treasures in it." God King Fengxiao was annoyed. He asked the Chaos Lord he brought over. "Can you find out the whereabouts of the ruler of Jiujiang now?" He

already suspected that the ruler of Jiujiang didn't really fall, and he was designed by someone. In other words, this palace is the pit left by the ruler of Jiujiang, and it is everyone who counts, but it happened to be unlucky to get in.

The chaotic master has been maintaining the secret technique investigation and responded: "Your Majesty, the trace of the Jiujiang master has not yet been found, because the destruction fluctuation is too strong, resulting in the chaos of time and space in the vast area, our secret technique wants to explore It's too difficult, so it's not clear where he is dead or alive..."

God King Fengxiao frowned, looking at the boundless realm around him, as well as the huge vines that came from breaking through the air, as well as those primitive beings and indigenous powerhouses with awe-inspiring killing intent and malicious intentions, and felt a little uneasy in his heart.

Just one or two God Kings is enough, Fengxiao God King is not afraid.

But now the \*\*\*\* kings chasing him are more than a slap in the face. Among them, there is also a strong man like Kuizu who is good at blocking space and blocking enemies, which is very unfavorable to the \*\*\*\* king Fengxiao.

God King Fengxiao was able to win the palace before, there was a reason for taking advantage of the chaotic confrontation between all parties, but if many strong men targeted him alone, God King Fengxiao would not be so easy.

"The God King Jue Xian, come and help me!" As a last resort, the God King Fengxiao could only ask for help from his companions on the side of the destruction cave.

Of course, he changed the word, not rescue but help.

The Divine King Jue Xian is destroying the cave and guarding it. This task is very boring but also very easy. The Divine King Jue Xian has nothing to do. "I don't know when the ruler of Jiujiang will be caught." When the Divine King Jue Xian was thinking, he Received a message from the God King Fengxiao.

"God King Fengxiao, what happened?" God King Jue Xian was shocked. With the strength of God King Fengxiao~[www.mtnovel.com](http://www.mtnovel.com)~, he was considered strong among the \*\*\*\* kings of Jieshan Palace, and he would actually take the initiative. Ask yourself for help.

The God King Fengxiao didn't hide anything, and revealed all his experiences and basins.

"I feel that the ruler of Jiujiang is not dead, I was framed." God King Fengxiao said bitterly.

Divine King Jue Xian fell into silence, and he began to wonder if Divine King Fengxiao wanted to swallow the treasure for himself, but he quickly figured out that it was meaningless for Divine King Fengxiao to lie.

And whether the ruler of Jiujiang is really dead, it will be clear when the storm wave brought by the destruction of the stars has completely dissipated and people can re-track.

"So, God King Fengxiao is in a bad situation now." God King Jue Xian frowned. Regardless of whether the Qixinghai source liquid was really taken away, other forces would think that the Qixinghai source liquid was on the Fengxiao God King, and it was useless to explain. Therefore, all parties will target the God

King Fengxiao intentionally or unintentionally, causing the God King Fengxiao to fall into a situation of isolation and helplessness. At present, only the Jieshan Palace can really help the God King Fengxiao.

"God King Fengxiao, hold on for a while, I'll come right away." God King Jue Xian left the place he was guarding and entered the Destruction Cave Heaven. The ruler of Jiujiang went deep into the core area of Destruction Cave Sky, and it didn't make much sense for him to stay here. Just leave a few Chaos Lords to watch, and the God King Jue Xian went to rescue the God King Fengxiao.

This is what they had discussed before. Just earlier.

Unlike the previous, where all parties had to track and dawdle along the road, the God King Jue Xian had a clear goal and the speed of the journey was very fast.

As the impact of the destruction of the stars gradually dissipates, the chaotic situation of all parties will not last for a long time. At that time, any party will investigate and find that Wang Yi is still alive, and all parties will continue to target Wang Yi.

So after cheating Fengxiao God King, Wang Yi has a new move at this time.

#### [Chapter 937: cross the sea](#)

In an inconspicuous and dark palace, Wang Yi was conducting research.

He knew that if he wanted to get rid of the pursuit of all parties, it was impossible for the golden cicada to escape from the shell.

"The most troublesome thing is the tracking of my location by all parties." Wang Yi thought to himself. "If it can block or interfere with their investigation and destroy the vastness of the cave, it will be as difficult for them to find me as if they were in the sky."

Originally, Wang Yi had always had a headache for this, but the storm brought about by the explosion that destroyed the stars gave him inspiration.

"A drop of ink is very conspicuous in water, but what if it becomes the same drop of water?"

"Normal life is incompatible with the destruction of the cave, and they are rejected. It is almost impossible for them to integrate into the world of the destruction of the cave."

"It's very difficult for others to do this, but I'm different. I have the ability to change shape and form, and the darling of destroying the rules, the incarnation of the beast." Wang Yi began to comprehend the mystery of the fluctuations in the destruction of stars.

Wang Yi had already practiced the rules of destruction, and with the help of the incarnation of the beast, and the destruction of the stars at close range, he quickly realized the mystery of the fluctuations of the destruction of the stars.

Gradually, Wang Yi also emitted that kind of destruction wave, like breathing, and even formed a kind of echo with the destruction cave of the outside world.

Just like the chameleon of nature, it is perfectly integrated with the environment.

If you let those outsiders see it, they will definitely widen their eyes and show a ghost-like expression.

Because no matter how they used their secret techniques, they could no longer find out Wang Yi's location.

Even his own "existence" is shrouded in the shadow of the world of Destruction Dongtian because of its connection with the Destruction Dongtian.

To spy on him is to spy on the destruction of the cave, they can only see the vast world of the destruction of the cave, but they can't see the small Wang Yi.

Not to mention the chaotic master who is good at tracking, even if the king of gods personally expends effort to find it, I am afraid that Wang Yi's existence will not be found.

Wang Yi opened his eyes and smiled.

"However a drop of water or a grain of sand will not be found, of course, it will melt into the sea and desert."

The big one is hidden in the city, and the small one is hidden in the wild.

Wang Yi is even more powerful, he is directly hidden in the world.

"It shouldn't be so easy for them to find me now, but it still doesn't feel like enough." The cautious Wang Yi was thinking. "The Destruction Waves emanating from my body are just like the real Destruction Waves. Even if I get close to the Destruction Stars, I don't think it will react at all." This kind of camouflage method that Wang Yi realized is not a powerful secret method, but it The great thing is that Wang Yi can be perfectly hidden in the environment of the cave of destruction.

But Wang Yi felt that it was not enough, not perfect.

He looked around, then looked down at himself.

Wang Yi has a bold idea in his heart.

"Wow!" Wang Yi's breath changed rapidly, and so did his strength. Soon the whole body was white, exuding an evil aura, just like a real world beast.

Formless!

Like many life-changing camouflages, it is only an appearance simulation, and the power is definitely not the power of the beast.

But Wang Yi is different. He can make perfect changes, with the same breath and the same strength.

A living Chaos Realm Beastmaster appeared.

"The world beast was born from the source of destruction, and is born to be the darling of the rules of destruction. Its life form is also the most suitable for destroying the cave." The 'world beast' spoke, and even the voice became unfamiliar.

Wang Yi was not satisfied with the fluctuating simulation alone, he simply turned into a world beast.

And after Wang Yi turned into the life form of the beast, the aura of the power of the beast, the wave of destruction merged together, and he felt the intimacy from the outside world.

It's as if the fish are back in the water, and there is an inexplicable comfort.

"The ruler of Jiujiang is no longer there, I am the beast." Wang Yi nodded with satisfaction.

...

Destroy the depths of the cave, extremely close to the core area, in the vast and dark void. The large-scale tidal storm caused by the explosion of the destruction star has gradually weakened and dissipated, but there are still strong fluctuations in an area.

"Boom"

A group of primitive life and indigenous god-king powerhouses are besieging the cultivator's Fengxiao God-king. They are merciless and ruthless. All kinds of terrifying attacks seem to turn the void into chaos and real nothingness. Under the joint siege of , for a while, the God King Fengxiao, who was caught off guard, suffered repeated injuries and fell into a desperate situation.

At this time, no matter how stupid he was, he understood the other party's intention to kill him.

"Kuizu, King Uma... You dare!" God King Fengxiao realized the crisis and tried his best.

The divine body of the majestic God King burned completely at this moment, as if a universe was burning and erupting.

"boom!"

The endless divine power turned into a source of power at this moment, and it exploded completely. The breath of the God King Fengxiao at this moment was extremely terrifying, and the fluctuations shook out, causing a big riot in this world all of a sudden.

But the original life and the strong on the indigenous side are not afraid of him.

"Hugh!" A divine light rushed out, tearing apart the dark sky, and grabbing the eyebrows of the God King Fengxiao.

There are also primitive beings who open their mouths and spit out a stone lamp, the wick spewing domineering flames, attacking the God King Fengxiao from the side.

There is even a powerful life shot, raising the hand to freeze the void, and the mysterious ice spreads, trying to freeze the God King Fengxiao inside.

Thick and long vines swayed in the void, shuttled and flapped, surging out, and wrapped around the God King Fengxiao. Endless emerald green light enveloped hundreds of millions of light-years, and I saw huge vines that were hundreds of millions of light-years long shrouded the world in an instant, causing the world to fall into a world of vines, and the God King Fengxiao was like a quagmire.

"Hahaha~[www.mtnovel.com](http://www.mtnovel.com)~ kill kill kill..." The burly and majestic Uma ancient king burst into laughter, carrying two axes, he slashed violently at the \*\*\*\* king Fengxiao. His murderous aura and will can freeze time and space.

No matter how strong the Fengxiao God King is, facing so many God-king-level sieges, he is still overwhelmed and miserable.

The noble and powerful body of the God King was also stained with blood, showing scars.

But he also knew that the other party's killing intent had been decided, and he didn't say anything in vain, but just tried his best to break out the killing, and at the same time sent a message to the Jieshan Palace.

This time I am asking for help. If I don't ask for help again, I am afraid that he will really die here.

Of course, Jieshan Palace was shocked to hear the news.

Regardless of whether or not the God King Fengxiao has obtained the Qixinghai Source Liquid, he is always a member of the Jieshan Palace. As long as he does not have any thoughts of going out of the Jieshan Palace, he is an important combat power of the Jieshan Palace.

It is impossible for the Jieshan Palace to let a god-king of its own die in the hands of others no matter what.

"Among our people, only God King Jue Xian is currently destroying Dongtian. The other God Kings are clones, and they are more than enough to rescue God King Fengxiao."

"The King of Absolute Strings is on his way to support him with all his strength."

"But is one \*\*\*\* king really enough?"

Jieshan Palace also felt anxious. It is indeed difficult to kill the king of gods, but it also depends on the situation.

Now Fengxiao God King is besieged by a group of God Kings, and it will really fall after a long time.

They could only ask for help from other forces, but those forces responded indifferently.

"God King Fengxiao was besieged? I know, I'll go take a look."

"How powerful is the God King Fengxiao, the primitive life and indigenous people, I believe he can handle it."

"Your Jieshan Palace asked me to help from Dayue Kingdom? What a joke."

One by one, some even perfunctory, and some simply don't even give face.

#### [Chapter 938: cowardly? Oh no, it's called from the heart](#)

In the dark space, God King Tang Yu and God King Xie Shang flew together.

"According to my opinion, you shouldn't have promised Jieshan Palace to go to this muddy water." God King Xie Shang said.

Tang Yushen Wang Dan smiled and said: "I just said to have a look, but I didn't say that I would definitely take action." He looked at Xiesheng God King again, "What's more, my three major forces have an agreement on the matter of fighting against the indigenous people. Yes, since the Jieshan Palace bowed its head and begged us, it has to be better in terms of face."

God King Xiesheng nodded, he understood what God King Tang Yu meant, that he was not working hard.

God King Xieju sneered: "Jieshan Palace really expects us to save God King Fengxiao?"

Tang Yu Shenwang Yundan said softly: "Fengxiao Shenwang, if you die, you should die."

Neither of them took the life and death of the God King Fengxiao to heart.

Compared with primitive life and indigenous people, the struggle of practitioners is more intense and naked.

Like other forces, many are only afraid that a \*\*\*\* king will fall from the Jieshan Palace. Very few people really help.

This is also related to the overall situation. If it is a faction war, and all parties join forces to fight against the enemy, this will naturally not happen.

But this time, in order to compete for treasures, all parties gathered together and naturally intrigue.

What does the life and death of the God King Fengxiao of Jieshan Palace have to do with them?

Does the death of a \*\*\*\* king have any effect on the power of practitioners?

Yes, but very little.

The main reason is that the cultivator camp is too powerful, and the number of \*\*\*\* kings far exceeds that of primitive life and indigenous people.

Not to mention the death of one or two \*\*\*\* kings, even if the \*\*\*\* kings in the Jieshan Palace or Dayue Kingdom are all dead, the number of \*\*\*\* kings in the practitioners will still exceed the other two.

In addition, there are many internal forces within the practitioners, and they usually fight openly and secretly, and there are many contradictions. Naturally, they are not as united as primitive life and indigenous people.

It is all too common to stand by and watch the fire from the other side. It would be nice not to take advantage of the dangers of others.

Seeing that the Jieshan Palace is unlucky, I don't know how many forces are secretly having fun.

"You said, does the palace that the God King Fengxiao won really have the source liquid of the Seven Star Seas?" God King Xie Shang suddenly asked.

God King Tang Yu pondered for a while, "If the ruler of Jiujiang is dead, most of the Qixinghai source liquid will fall to the God King Fengxiao, but if the ruler of Jiujiang is not dead..."

God King Xie Jing nodded. "When the storm of destruction completely subsides, we will investigate the whereabouts of the ruler of Jiujiang. This time, we must know whether he is alive or dead."

"Yeah." God King Tang Yu said with emotion, "If he really didn't die, he played us a good game this time."

The corners of King Xie's mouth twitched, "Listening to what you said, I'd rather he died..."

...

Of course Wang Yi wasn't dead, he was still alive and kicking.

Previously, according to the phenomenon that the explosion of the destroyed stars affected all parties unable to track themselves, Wang Yi speculated that the fluctuations of the destroyed stars could cover up the traces on his body. Now Wang Yi's aura of destruction and the destruction of the cave are in harmony, and his body has become a world beast, so it is seamless.

Now, with a facelift, he's guaranteed to be unrecognizable.

"It's still not safe." Wang Yi thought cautiously, looking left and right with his huge head that had become a world beast.

Well, no one.

"Even though I've become a world beast, it's difficult to track me, but if someone else happens to bump into me, I'm afraid I'll still be suspicious." Wang Yi pondered. "You have to find a place to hide and avoid the limelight."

"Well, what place is safer and difficult for others to find..." Wang Yi looked at the dark space outside.

There are many dangerous places in the Destruction Cave, but there are very few places to hide.

Wang Yi thought about it, and suddenly saw the destruction star on the panel, and a bold idea came to his mind again.

"It's better... I'll hide inside the destruction star."

This is a crazy idea.

Others hide away when they see the destruction of the stars, only Wang Yi will take the initiative to lean there.

"As the saying goes, the more dangerous the place is, the safer it is." A smile appeared on Wang Yi's face. "If it is said that the destruction of the cave is something that the \*\*\*\* kings cannot detect, it is the destruction of the stars."

The Destruction Star is related to the Destruction Cave Sky, and it emits powerful destruction waves to the outside all the time.

Equivalent to an energy source that emits strong radiation.

No matter how powerful the \*\*\*\* king is, he can't peep into the interior of the destruction star through the wave of destruction.

The main reason is that destroying the stars is too sensitive, and it will explode if you are not careful.

But Wang Yi didn't have this concern, because he had already realized the Destruction Wave, and he had become the most suitable world beast to destroy the environment of the cave. The perfect combination of the world beast's breath and the Destruction Wave was like a small destruction star.

Other beings will be repelled close to the destruction of the stars, as if water and fire are incompatible, but Wang Yi's world beast is just one drop of water merged into another drop of water.

Other world beasts may not be able to do it, because they have not comprehended the perfect wave of destruction.

"Just do this, I'll go to destroy the stars now, and then hide in." Wang Yi praised his whimsy.

Some people think that Wang Yi has gone too far.

But Wang Yi felt that when he was out and about, he could not be too careful.

Absolutely not cowardly.

"After hiding for a while, those \*\*\*\* kings give up chasing me, and I can go back." Wang Yi thought firmly in his heart. "During this time, I can still use it for cultivation."

Wang Yi began to look around. Because he went deep into the cave of destruction and reached the core area, the probability of encountering the destruction of stars was much higher. In addition, Wang Yi's understanding of destruction fluctuations made him particularly sensitive to the surrounding movements. It's easy to perceive what's going on in the distance.

So soon, Wang Yi discovered a huge star of destruction.

This is the largest star of destruction Wang Yi has ever seen, with a diameter of nearly 900 billion light-years, and the vast fluctuations can be felt from a distance.

Even if Wang Yi's body is in front of this ruined star, it is similar to the ants under the hill, and in terms of energy power, it is far more powerful.

"I don't know how it will explode with such a big destruction star." A thought popped into Wang Yi's mind.

He shook his head to dispel the thought, feeling that his thoughts were becoming more and more dangerous.

Wang Yi controlled the palace and cautiously flew towards the ruined star that exuded a dangerous aura, as if telling others to "don't come near me, I'm very dangerous".

The dark star of destruction did not respond to his approach at all.

When the Destruction Wave hit Wang Yi, it was perfectly integrated with the Destruction Wave on Wang Yi, and there was no rejection at all.

"Success." Wang Yi was overjoyed.

Ding, congratulations to the host for successfully signing in, and reward a Destruction Star (large)! 】

The panel prompt sounds.

Wang Yi now has four destruction stars. Two are still large.

He was filled with emotion.

More and more like a mobile powder magazine.

Look left and right, smacking your mouth.

I don't know why, but I want to fry something.

...

Wang Yi hid in a huge star of destruction and flew with the star of destruction.

"No one should be able to find me now, right?"

#### [Chapter 939: The Tangle of the Lord of Boru](#)

Wang Yi thought that he was hiding from the sky and crossing the sea, and what he did was unknowingly.

But the moment he went in to destroy the stars, the Bao Liu Kingdom Lord, who was far away, felt something.

"Um?"

Lord Bao Liu, who was mocking the Lord of Heavenly Sacrifice who had just returned, changed his expression slightly.

The dejected King Tianji raised his head curiously when he saw that the King Bao Liu suddenly stopped talking.

Why don't you scold me.

I'm not used to you doing this.

The Lord of Baoliu was too lazy to pay attention to him. The spirit is all focused on the formation.

Before, he seemed to sense that something had entered the Destruction Star, which made Bao Liu Kingdom's heart suddenly rise.

Compared with the Qixinghai source liquid, the operation system of destroying the stars is more important to him, and it is related to his breakthrough. The Lord of Baoliu absolutely dare not take it lightly.

The spirit of Lord Baoliu was all focused on the formation, and his powerful consciousness swept through the vast void and destroyed stars one by one through the power of the formation.

not found.

Very calm.

The feeling just now seemed to be an illusion.

Lord Baoliu frowned, showing a puzzled expression. I was also a little uneasy in my heart.

"I hope nothing goes wrong."

He looked at the Heavenly Sacrifice in front of him again, looked at his miserable appearance, and sneered: "It's a shame for a dignified \*\*\*\* king to let a chaos master make such a mess."

If it was said by other gods and kings, the Lord of Heavenly Sacrifice would be angry, but when his friend made fun of the Lord of Heavenly Sacrifice, he could only smile bitterly, and said helplessly: "Who would have thought that this kid would be so ruthless and dare to detonate and destroy the stars, Fortunately, I was lucky, but I was seriously injured, if I ran slower, I would have died."

"It's crazy enough." Lord Baoliu nodded, "But it's true that there are no crazy Chaos Lords, don't live without a long brain, I have lived so long but have never seen one, this Lord of Jiujiang dares to do this, it must be There is something to rely on, I suspect that he is not dead at all, he has already run away."

The Lord of Heavenly Sacrifice gritted his teeth, "I think so too, but I dare to hurt me so miserably, and I will never finish with him in the future."

There are only two people here, the Lord of Heavenly Sacrifice and the Lord of Baoliu, so the Lord of Heavenly Sacrifice doesn't care what he says, but his cruel words made the Lord of Baoliu sneer. "I don't care what happens to you in the future. You are not seriously injured. First, recover as soon as possible. If you mess up my affairs, don't blame me for being rude even if we have been friends for many years."

The Lord of Heavenly Sacrifice knew that this friend was serious, and his expression became serious.

"rest assured."

It is unfortunate for the Lord of Heavenly Sacrifice, but there are even more unfortunate ones.

"God King Fengxiao, you are lucky this time, let's go."

With the help of Jieshan Palace, several \*\*\*\* kings came and finally rescued the besieged Fengxiao \*\*\*\* king in a void.

Seeing that the rescue of the other party had arrived, the primitive life and the indigenous powerhouse understood that it was impossible to kill the God King Fengxiao, so they retreated after a few harsh words.

The scarred and embarrassed God King Fengxiao had such a day, he was so angry.

In his opinion, he would end up like this, entirely because of the ruler of Jiujiang.

"Master of Jiujiang, I'm not finished with you!" God King Fengxiao gritted his teeth.

A god-king gave a sympathetic look at the god-king Fengxiao, "God-king Fengxiao, you'd better go back and recuperate."

The Divine King Jue Xian of Jieshan Palace was also there. He sighed. After all, he was a colleague who had known him for many years. Seeing that the Divine King Fengxiao was injured, he comforted him. Then he turned his head and said, "God King Fengxiao, you have to give us an explanation about the Qixinghai source liquid."

Jieshan Palace still doubted whether the God King Fengxiao had swallowed the treasure.

God King Fengxiao's face froze, and he cursed the ruler of Jiujiang who didn't know where he was.

He swore that if there was a chance in the future, he would definitely make Jiujiang Lord look good.

Although he didn't die this time, the God King Fengxiao was also seriously injured. If the rescue was slower, maybe those primitive beings and indigenous people would have succeeded.

With the serious injury of God King Fengxiao, it is impossible to recover without thousands of reincarnation eras.

The war came to an end, the storm of destruction gradually dissipated, and those forces began to track the ruler of Jiujiang again.

The God King Fengxiao had already spread the news that the Qixinghai source liquid was not on him, and the ruler of Jiujiang was not dead at all.

Although those forces are dubious, they also have expectations.

If the Qixinghai source liquid is on Jiujiang Master, then there is still a chance to \*\*\*\* it.

If it is at the Jieshan Palace, then everyone can disperse and go back to their respective homes.

I believe that there are many forces in this news. After all, with the power of Jieshan Palace, there is no need to lie to cover up the Qixinghai Source Liquid.

But in this way, the ruler of Jiujiang is equivalent to putting together many forces. Not only did it provoke a war between the gods and kings, but it also almost caused the fall of the gods.

It has also caused a lot of heated discussions about the chaos masters who are aware of it.

"This ruler of Jiujiang, his means should not be underestimated, and he is really cunning."

"Yeah, if he really did all this behind the scenes, and many forces were tricked by him, then he is really amazing."

"But I don't understand. Destroying the stars has a huge power. I heard that the Lord of the Heavenly Sacrifice almost died and suffered serious injuries. This is the case with the gods. How did the Lord of Jiujiang escape?"

The masters of chaos are all discussing the master of Jiujiang.

It has been a long time since no Chaos Lord has attracted so much attention~[www.mtnovel.com](http://www.mtnovel.com)~ Now the name of the Lord of Jiujiang has spread throughout the continent of origin, and his deeds have amazed countless powerhouses.

Although the Lord of Heavenly Sacrifice did not disclose specific details due to his face, those \*\*\*\* kings would not cover up his ugliness.

There is also the God King Fengxiao, who was almost besieged and fell. Speaking of which, he only got this result because of the ruler of Jiujiang.

The two \*\*\*\* kings are so miserable because of the ruler of Jiujiang, and many forces are running around because of the ruler of Jiujiang. Don't those Chaos Masters look sideways?

...

Destroy the cave.

"Can't find the whereabouts of the ruler of Jiujiang?" A \*\*\*\* king looked at his companion.

"Yes, there is no sense, it seems that the ruler of Jiujiang has disappeared from this world out of thin air." The companion showed doubts. "The impact of the destruction storm has dissipated, and my secret technique has also been successfully used. This result will occur unless the ruler of Jiujiang has a way to completely conceal his existence, or he has fallen."

Fallen people are naturally unable to sense and track.

"Could it be that the ruler of Jiujiang is really dead, and the Jieshan Palace is lying?"

There are other forces in the same situation. They all found that they could not find the whereabouts of the ruler of Jiujiang, and they could not even sense his existence in the destruction of Dongtian.

Therefore, they all suspected that the ruler of Jiujiang was dead, and that the Qixinghai source liquid mostly fell into the hands of the God King Fengxiao of Jieshan Palace.

The limelight once again aimed at Jieshan Palace.

"It's really shameless. It's all about getting the treasure. I'm afraid that others won't say it, and even spread false information, saying that the ruler of Jiujiang is not dead. The face of Jieshan Palace is really... tsk tsk."

"Yeah, it's too contrived."

Many powerhouses who felt that they had been deceived were unhappy and sneered at Jieshan Palace.

Fengxiao God King, who was rushing back to recover from his injuries, also got the news, and almost didn't spit out a mouthful of blood.

#### [Chapter 940: I'm dead, don't forget](#)

"The ruler of Jiujiang is really dead?"

In the boundless universe, on the vast continent, a chaotic ruler with scales and beasts is looking outside the cave dwelling dominated by Jiujiang.

The turmoil caused by the ruler of Jiujiang this time was great. In order to confirm his death, all parties used various means, including trying to clear their own Jieshan Palace. To confirm whether the ruler of Jiujiang is dead is very simple, just go to his cave in Wuji Universe and take a look.

The cave dwelling dominated by Jiujiang was quiet and seemed extremely quiet.

Before Jiujiang Master started the Great Array of the Cave Mansion, now the entire cave Mansion is surrounded by the formation, and it is difficult to investigate.

"The Lord of Jiujiang didn't show up, how do you know his situation?" The Chaos Lord looked at him for a long time and shook his head.

To visit the ruler of Jiujiang? When the ruler of Jiujiang closed the cave, he said that he would not accept any guests in retreat and practice, even the king of gods was no exception.

Trespassing? The Lord of Chaos does not dare to do things that God Kings do not do.

"This ruler of Jiujiang is really too cautious, and he doesn't give him a chance at all."

More than one chaotic master received the task of inquiring into the reality of the Jiujiang master's cave, but they looked at the cave surrounded by the closed gate and sighed, and there was nothing they could do.

...

The "Baiyu Mountain" where the Spirit-killing God King lives.

"The ruler of Jiujiang is dead?" The 'Spirit Killing God King', dressed in white and with long hair like starlight, raised his eyes and looked at the disciple in front of him.

"Yes, the rumor that the ruler of Jiujiang is dead is rumored outside, and the rumors in Wujianlou have been rumored, and the disciples don't know if it's true or not." Master Qin Xin said, in fact, she felt that the ruler of Jiujiang should be dead, after all, there are so many forces and \*\*\*\* kings. If you take action together, even if you can't struggle in the ultimate chaotic realm, what is a Jiujiang ruler?

"He died?" The Spirit Killing God King thought of the proud little guy.

In her long life, few people have impressed her deeply, and the ruler of Jiujiang is one of them.

Master Qin Xin showed a gloating expression next to him, "This Jiujiang is too self-righteous. If he knew the current affairs and exchanged the Qixinghai source liquid with the teacher, he would not have ended up like this."

The Spirit Slayer God King cleaned up her mood and looked at her disciple. She also saw through her own disciple's mind, but she didn't have the heart to reprimand her, so she said: "Forget it, the ruler of Jiujiang really wants to fall because of this, and it is also his life. Pay attention to the trend of this matter, and report to me if there is any news."

The Spirit Killing God King still felt that the ruler of Jiujiang would not fall because of this. It's an intuition.

...

In a green garden, a white-haired old man looked up at the sky.

"Master of Jiujiang, dead?" The white-haired old man showed regret. "If he really dies, then there will be one less practitioner of my teacher."

Lord Cangli is very optimistic about this Lord of Jiujiang, and thinks that he will be able to make great achievements in the future as a teacher.

And the teacher's actions also made Cang Li master more sure of his vision.

When the news of the death of the ruler of Jiujiang came, he was extremely sorry.

Of course, the news about the ruler of Jiujiang has different opinions, and it has not been fully implemented.

But Lord Cangli was not optimistic about Lord Jiujiang, and felt that he was more likely to fall.

Even if he faced so many forces, he didn't have much hope. It was amazing that the ruler of Jiujiang could persist for so long.

Lord Cang Li looked towards the center of the continent, the place completely surrounded by clouds and mist, the center and forbidden area of the entire universe, and a monstrous behemoth could be faintly seen standing there.

Even the king of gods cannot enter without permission.

"Teacher, do you know anything about the ruler of Jiujiang?" Master Cang Li thought to himself.

In the eyes of the outside world, the Master Wujian is mysterious and detached, and in the eyes of their disciples, it is also mysterious and unpredictable.

In fact, there are not many disciples of Lord Wujian. When Cang Li was able to become a disciple of Lord Wujian, he still thinks it was luck.

Master Cang Li guessed at the behavior of the Master Wujian, and shook his head. The disciples of the master sect did not fall, but Master Wujian did not pay too much attention, as if his vision was no longer in this world.

Therefore, Cang Li is not quite sure whether the owner of Wujianzhu knows about Jiujiang's master.

...

The deeds of the ruler of Jiujiang have spread to the high-levels of the entire origin continent. Not only the power of the practitioners, but also the primitive beings and indigenous people have heard about it. The three top powers of the Wujianlou, the Jieshan Palace, the practitioners of the Dayue Kingdom, and other forces They are also very concerned about it.

Many strong people feel that the ruler of Jiujiang is too stupid, and fell because of a treasure.

How much they envy and jealous of Jiujiang's good luck before, how much gloating now.

But the Jieshan Palace or the God King Fengxiao was still trying to explain to the outside world that he did not get the Qixinghai Source Liquid, and that the ruler of Jiujiang was not dead. Therefore, many people feel that the ruler of Jiujiang is still alive, and some forces still have not given up looking for the ruler of Jiujiang.

But the ruler of Jiujiang is still alive, and he must be somewhere in the destruction of the cave, why can't he find it?

...

Golden Tower.

"Piaoshuang Palace Master, I said, I have nothing to comment on the affairs of Jiujiang."

In the magnificent dark-gold palace, black clouds floated, and on the high throne, a big mouse with bright black hair and a dark-gold robe stood upright said to another god-king.

"The Master of the Gold-Eater Pagoda, we can't say it with our friendship ~www.mtlnovel.com~?" The life that seemed to be composed of ice crystals looked at the Master of the Gold-Eater Tower, with a hint of surprise on his ridged face.

The Lord of the Gold Devouring Pagoda nodded. "I am trusted by the landlord. After all, I have a responsibility and dare not slack off. I also ask the Lord Piaoshuang to forgive me."

The opposite Piaoshuang Palace Master is just an avatar, not even a clone, so naturally there is no way to take the Gold Devouring Pagoda Master. What's more, he came here this time just to ask the Lord of the Gold Devouring Pagoda.

Unexpectedly, the owner of the Gold Devouring Pagoda is actually tight-lipped.

As a palace master of Wujianlou, the palace master of Piaoshuang is also the king of gods. Usually, the master of the gold-devouring pagoda is very respectful to him.

Thinking of the person mentioned by the Lord of the Gold Devouring Pagoda just now, a strange color appeared in the eyes of the Piaoshuang Palace Lord.

"Is the owner..."

Various thoughts flashed through his mind, and the Palace Master Piaoshuang took a deep look at the Master of the Gold Devouring Pagoda.

"I understand, since the Master of the Gold Devouring Pagoda is loyal to his duties, then I won't ask any more questions and leave."

"Piaoshuang Palace Lord, walk slowly." The gold-devouring pagoda master also said something.

The Lord of the Piaoshuang Palace left, and in the huge palace, only the Lord of the Gold Devouring Pagoda was left.

"Humph."

"Knowing that the ruler of Jiujiang may have divine power incarnated here, everyone came to ask me for information about the ruler of Jiujiang." This big mouse with dark hair and dark blond eyes was deep and terrifying. "If I had said it in the past, but this time..."

The Master of the Gold Devouring Pagoda looked up at the top of his head, as if he could see a pair of ethereal, emotionless eyes looking at him.

Thinking of the scene of meeting that existence for the first time, a trembling and chill arose in the heart of the gold-devouring pagoda master.

That one is definitely the most terrifying existence he has ever seen in his life, no one.

"Since he has spoken, how dare I disobey?" The Gold Eater Pagoda Master whispered.
