

A God 941

[Chapter 941: meaning of life](#)

Time flies.

In the infinite dark space, within a huge destruction star, there is a world beast.

"Another 100 million epochs have passed." The beast opened his eyes, filled with emotion.

"Sure enough, there is no time in cultivation, time has passed in a blink of an eye, so fast."

One hundred million epochs may seem like a long time, but for cultivators in the origin continent, it is almost like an afternoon tea for ordinary people.

However, those ordinary beings in Wang Yi's small universe have already been replaced by an unknown number of generations.

After all, even a planetary level, the lifespan is not more than a thousand years.

After all, the life that a universe can accommodate is limited. Wang Yi broke through to the chaotic realm. Although the small universe has expanded to one trillion light-years in diameter, it is worth the thousand small universes before! Compared with the original universe, it is not too far behind.

But the reproduction speed of life is amazing, even he must limit this.

Those who can break through to immortality are always very few and very difficult, but below the world master, it doesn't matter, because the world master has a lifespan limit.

The world master, the energy absorbed by cultivation and the energy born in the world within the body all come from Wang Yi's small universe. Once they die, the energy will return to the universe, forming a cycle.

Wang Yi did not intend to make all life in his world immortal. Even if he has this ability, only the constant renewal of ordinary life and the continuous emergence of new generation of strong men can ensure the vitality of a universe, otherwise it will slowly decay. Wang Yi intends to use a long process to complete this change.

"Life in the Jin world is immortal when it reaches adulthood." But the Jin world that Wang Yi saw was essentially a very cruel world.

War and killing is the eternal theme song of Jinzhi World.

First, it is to select and cultivate the strong, and second, it is to control the number of lives.

And Wang Yi didn't plan to do that, at least before he became a **** king, before his small universe evolved to a certain level, he wouldn't do that.

To become a strong man requires consciousness, not being forced to create all kinds of tragedies. He thinks that is too distorted.

He will guide the beings in his universe to cultivate, while giving them the power to choose their way of life and their future path.

After all, in a sense, these beings born in his own universe are counted as his "children".

"Then you have enough children."

Wang Yi's small universe.

Wang Yi's incarnation of divine power, a man in a red robe, is walking with three beautiful women.

For Wang Yi, he feels that his small universe is very small, but for other beings living in the universe, this is already a vast and boundless world.

Wang Yi's real body is wandering in the continent of origin. At the same time, while his divine power incarnates to accompany his family, he will often walk in his own universe, observe and experience the lives of those beings, and relax his mind.

Over the years, under Wang Yi's deliberate training, his three wives have also broken through to the master of the universe.

In fact, the realm doesn't matter to them, because immortality means eternity. In Wang Yi's universe, they don't need to fight, they can get whatever they want.

"Kill!"

"The general said that if you kill the enemy on the opposite side, you will all be rewarded!"

In a plain, two armies were fighting, and the sound of killing was loud.

On the other hand, Wang Yi and the others hid and watched silently, with no intention of interfering.

Even Wang Yi's universe is not peaceful everywhere, there is war and killing.

It's just that the control is within a certain range, beyond that range, "God" will intervene.

It is even more forbidden for the strong to deliberately slaughter the weak, which is strictly prohibited.

The war that broke out here is just two ordinary countries in Wang Yi's countless worlds, with a combined population of only a few billion, which is similar to the population of Wang Yi's previous hometown on Earth. In this war on the plains, the troops on both sides were only a few million. For Wang Yi, who had a lot of knowledge, it was almost like a fight with a group of ants.

In terms of the level of force, it belongs to the "mortal kingdom", the strongest are only a few stars, and the others are apprentices.

It belongs to the kind that "gods" don't even bother to look at.

Only when you reach a certain level can you know the truth of this world.

As for these ordinary beings, even most of the world lords do not know that this world has a master and is created by a certain existence, but there are legends of the creator gods circulating in many places, but the legends are 108,000 miles away from Wang Yi himself. It's just an ordinary creation legend.

"It's obviously the same ethnic group and the same bloodline, but they are hostile to each other. They can't wait to exterminate each other. War is really a cruel thing..." Shen Yan sighed.

They have seen this kind of thing countless times over the long years, but they still feel it.

"Mortals also have their own wonderful things, but their lives are too fragile." Wang Yi shook his head. Why these people are fighting, Wang Yi can know the cause and effect with a single thought, so he never intervenes in this kind of thing.

The development of things is a process of accumulation of contradictions. When the accumulation reaches a certain limit, it will break out in the form of "war", and then the cycle will repeat.

"This is also the way the universe works..." Wang Yi looked at the **** battlefield, everyone was fighting for their lives, and Wang Yi could feel their strong and firm belief in seeing death as home. .

This has nothing to do with justice or evil, and it is not about saving the world, but everyone who participates in the battle understands why they are fighting, and keeps fighting to the death without regrets.

"Faith..." Wang Yi also felt something in his heart. He likes to walk in his own world and observe the life of life in his own world, because it not only relaxes his mind, but also helps his own practice.

This war in the mortal kingdom continued until one of the planetary-level commanders was completely defeated, the remaining army could no longer hold on, and the entire army was defeated.

Lin Youyu and the others had long since left, and Wang Yi's eyes were always watching the whole process, and he didn't look away until the last soldier who did not surrender was killed.

"Stick to the path you walk without regrets, even if you face death..."

Wang Yi looked at his own universe, thousands of worlds, countless beings, strong to immortal gods, weak to ordinary life, joys and sorrows, joys and sorrows, joys of life, the madness of death, the impermanence of things, and the variety of life.

"The world is wonderful because of you. Your existence is not meaningless." Wang Yi said silently in his heart.

His mind was immersed in his own universe and slowly transformed under the baptism of time.

Wang Yi's will has reached the top level of being a saint, and the next step is the will of a **** king.

To achieve the will of the God King, there is only one way, and that is spiritual transformation.

The power of the mind is the power of the will, which requires the mind to comprehend.

Most chaotic masters are stuck at this step, and there is no one in a hundred that can break through.

And even for Wang Yi, this is not something that can be accomplished overnight, and it will take a long time to transform.

[Chapter 942: The meaning of life is to fight](#)

In the cosmic sea, in the ocean formed by the chaotic airflow, there is a huge universe. Compared with other small universes, it is like the difference between an ant and a giant dragon.

The small universe of an ordinary true **** is only 100 million light-years in diameter.

And the diameter of this universe is 10,000 times that of other true gods!

The vortex formed by absorbing the chaotic airflow alone is so powerful that even the True God dare not approach it casually.

This is the famous "Hunyuan Holy Land Universe" of the Universe Sea.

The second is "Galaxy Holy Land Universe", "Original Ancestral Holy Land Universe", "Hongzu Holy Land Universe"...

It has been many years since Wang Yi broke through the **** of chaos.

Because of the expansion of the universe, the original life races in the universe also increased dramatically.

Wang Yi's universe is divided into 100,000 heavenly planes, and each plane has countless star seas, worlds, and forces.

Maybe in a certain world, the world master has reached the top. Only when they become world masters can they really come into contact with the secrets of this universe, but they also know very little. The real secrets can only be known by becoming immortal.

They will know that the Hunyuan Tiangong is the ruler of this universe, above other forces.

Only the world masters who have been recognized by the Origin Law are eligible to join the Chaotic Origin Heavenly Palace! But only peripheral members!

But countless world masters are eager to join the Chaotic Origin Heavenly Palace! Because only in the Chaotic Source Heavenly Palace, they can get the opportunity to break through.

A certain world, covering an area of more than 10,000 kilometers, has a beautiful and magnificent building on the lake with vast smoke and waves. There are many servants in the palace. Two world masters are talking in the hall. Their appearance is close to the mainstream of this universe, that is, humanoid.

"Jia Zhe, you have also joined the Hunyuan Heavenly Palace. You also have permission to connect to the virtual universe when you enter the Hunyuan Heavenly Palace." A white-haired woman with purple scales on her face sighed, "The virtual universe of the Hunyuan Heavenly Palace is connected to the virtual universe. The entire universe, although it is said to be a virtual universe, is no different from the real universe. The powerhouses who gather the entire universe and countless worlds, like you and me, the world masters who have been recognized by the source law, are only members of the outer periphery of the Chaotic Origin Heavenly Palace, and they are the bottom of the existence. ."

Another man with a black horn and wearing a black body armor had a lingering shock in his eyes, as if he remembered the scene of his first encounter with the Chaotic Origin Heavenly Palace. "Hunyuan Heavenly Palace, it's really scary."

He, Jia Zhe, the world master peak, the world master recognized by the source law, stands at the top of this world.

But in the Hunyuan Heavenly Palace, they can only be counted as peripheral members, not even a pawn.

That's right, the official soldiers of the Hunyuan Heavenly Palace are required to be immortal.

And Hunyuan Tiangong just lifted a veil on him, which shocked him.

There are many cases like Jia Zhe, who has cultivated to a world master in a small world, and believes that he is invincible in the world.

It was not until he came into contact with the Hunyuan Heavenly Palace that he realized that he was a frog at the bottom of a well, so insignificant.

"Above the world master, is immortal, above immortality, is venerable..." Jia Zhe recalled the information he got, holding his breath.

In a world like his, the cultivation system is very complete, but at most it only cultivates to the world master.

This is also to prevent too much damage to the world.

Not to mention, even if there are other cultivation methods, if you want to break through, you must obtain the permission of the Chaotic Origin Heavenly Palace.

This is also the reason why the "Hunyuan Heavenly Palace" is said to be the unshakable ruler of this universe.

Some people say that the Hunyuan Heavenly Palace is the spokesperson of the universe.

Law enforcement on behalf of the day!

"Jia Zhe, you also know that the world owner only has a lifespan of tens of millions of years, and the dust will return to dust, and the earth will return to the earth."

"Immortal is immortal! Immortal gods are immortal!" The white-haired woman opposite said seriously to him.

"Well, eternity!" The world master Jia Zhe nodded vigorously, with endless excitement in his heart.

After coming into contact with a wider world, especially knowing the benefits of breaking through to immortality, Jia Zhe is full of motivation to practice.

Can live forever, who wants to die of old age?

"But if you want to break through to the immortal gods, you can only get the permission of the Chaotic Origin Heavenly Palace. Although other major forces have places, they still have to pass the assessment of the Chaotic Origin Heavenly Palace. . "Assessment is difficult. After all, there are so many world masters in every era, one universe, how many world masters in countless worlds? You can't even count them. You and I are just one of them."

Thinking of the regulations of Hunyuan Tiangong, Jia Zhe also felt the pressure.

There are countless powerhouses in the Chaotic Source Heavenly Palace, and they are extremely ancient. The bottom-ranked world master like him is only a peripheral member, with only a lifespan of tens of millions of years, not even a full member.

Only Cheng Immortal is a true member of the Chaotic Origin Heavenly Palace.

World Lord? No matter how powerful they are, the Hunyuan Heavenly Palace does not leave a place for them if they change every ten thousand years.

The real benefits can only be enjoyed by becoming immortal.

The premise of everything is to become immortal, but there are many who want to become immortal, and the Chaotic Origin Heavenly Palace is very demanding.

"Unfortunately, we are only natives of the ordinary small world, and we have no background. If it is from those big forces and big ethnic groups, with the support of the forces behind and the elders, it may be easier to become immortal." The white-haired woman said helplessly.

Jia Zhe said in a low voice, "Everything can only be done by ourselves, but since I can rise to the top in this world with nothing, I can also become immortal!"

The white-haired woman looked at Jia Zhe, who was determined and energetic, and sighed lightly. She is no better than Jia Zhe, she has been in the world for a long time, and her lifespan is more than 8 million years~www.mtlnovel.com~ is not far from the limit.

I think she was as enthusiastic as Jia Zhe at the beginning, and she wanted to break through immortality and have a foothold in the Hunyuan Heavenly Palace.

But millions of years have passed, and she has never gotten the chance.

Immortality seems to be within reach, but it is so far away.

Only when you really experience it can you realize how difficult it is.

To say that the requirements of Hunyuan Tiangong are high, it would be better to say that there are too many world masters and the competition is too fierce.

There are too many monks and few porridges, and the number of places granted each time is limited. Countless world masters stare at them with red eyes, trying their best to fight for it.

After all, there is no dispute, as soon as the end of life is up, you will die!

Thinking that there were millions of world masters participating in an auction in Qianwu Universe Country, there are 1008 Universe Kingdoms in the human race, and with the Kingdom of God, Secret Realm, etc., the number of world Lords is actually more.

What about the Chaotic Source Holy Land universe? It is countless times larger than the territory of the human race at the beginning. After the evolution of three reincarnation eras, the number of strong people is more, and the number of world masters in each era has reached an astonishing level.

With so many world masters, unless there is a background, only the truly outstanding can stand out.

It is different from the realization of the principle of the original universe that can basically break through immortality.

In this universe, without permission, the inner world cannot be transformed into a kingdom of gods, nor can it be transformed into an immortal divine body. Now all of this is dominated by the Chaotic Origin Heavenly Palace, and behind it are the rules made by the Holy Land universe.

Thousands of worlds, all living beings, how can you be eternal?

No one will give you alms, if you want, fight for it.

Life is a difficult process of struggle. If you can get through it, you will live, but if you can't get through it, you will die.

In order to "take care of" these world masters, Hunyuan Tiangong has prepared countless good shows for them, just to cultivate the seeds of strong men with qualified temperament and perseverance.

[Chapter 943: what is genius](#)

Chaotic Source Holy Land Universe.

"Luo Feng, what do you mean by genius?"

In the vast sea of clouds, on the top of the towering mountains, stood two figures.

They are talking.

The stern black-haired man thought for a moment, "Genius is a strong man who has not yet grown up."

The red-robed man smiled and pointed to the sea of clouds below. "To me, a genius is someone who, under the same conditions, can do things that others can't do."

Luo Feng thought about it for a while and agreed.

"You and I are also considered geniuses, but there are many conditions along the way." Wang Yi and Luo Feng, an old friend, chatted.

In truth, among the many powerhouses in the human race who transcended the cycle of reincarnation, only Luo Feng was of the same generation as him.

It's not about the same era, it's about the relationship.

"Generally speaking, if you want to become a strong person, you need talent, perseverance, and chance..." Wang Yi said sternly.

"Which one is the most important, you say?"

"Talent?" Luo Feng looked at the man opposite.

Wang Yi smiled and shook his head.

"Actually, in my opinion, chance is the most important thing, of course. And a little bit of luck."

Luo Feng did not agree.

Wang Yi looked down at everything in the universe, and said sternly: "In the past on the earth in the original universe, your talent was good, of course, it was only good, and it was nothing in the universe, if

it wasn't for the help of Huyan Fu, and the money for the money. Horned beast, do you think you can rise in the universe?"

Luo Feng was startled, he thought for a moment, and smiled bitterly.

As Wang Yi said, if there was no inheritance left by Huyanfu, he would have no chance to survive under the golden-horned giant beast, let alone seize his body.

And even if there is no golden-horned beast, and then there is the spacecraft of the Nuo Lanshan family, the earth is still going to encounter disaster... Of course, because of Wang Yi's early control of the earth in this time and space, there is no **** like Nuo Lanshan trying to seize the earth. thing.

And the premise of everything is the Huyan Fuyu Mo star that fell to the earth without dying.

The reason why Huyanfu chose the Milky Way near the earth as a sect force is also because of the transformation of the mountain guests...

But the primordial universe is so vast, why didn't Zanshanke transform it in other places, but the earth?

To put it a little further, why did the mountain guest go to this cosmic sea instead of other cosmic seas, and why did a mysterious golden light appear when he refined the star tower...

Somewhere, there seems to be a pair of invisible hands controlling everything.

Some things just don't make sense.

Wang Yi looked at Luo Feng with a smile, "I won't talk about your talent and I. When it comes to hardships, there are actually very few life-and-death crises. In this world, there are many more tragic people than ours, and even our fates are much rougher. "

"Let's talk about the giant axe fighting field. It's a place where life is completely gambled. No one knows what opponent they will meet next time. "Wang Yi said indifferently. "You said, let you and I fight against opponents whose strength is similar or even beyond, under the same conditions, can you survive a thousand battles?"

Luo Feng was silent.

He is also very clear about the combat mechanism of the giant axe fighting field, and it is impossible to have a situation where the difference in strength is too great.

A thousand close battles? Win every time?

To be honest, he wasn't sure.

"Thousands of life-and-death battles, encountering desperation again and again, this kind of ordeal is actually much better than our geniuses." Wang Yi said indifferently. "The desperate situation you and I have encountered together may not be as good as any of them."

"Even if this is the case, the probability that a World Lord will appear among them is still very low."

Wang Yi said, smiled again, and looked at the black-haired man opposite. "Of course, the real powerhouse is to prevent himself from falling into a real desperate situation. After all, no one knows whether he will really die next time."

...

"quick."

"Don't dawdle, go in."

"Come up quickly from the back."

In the square of a palace stands a blood-colored gate, and some guards are shouting at the world masters.

One by one, the world masters lined up like soldiers, moving honestly towards the blood-colored gate.

Each world lord exudes a strong aura of law, and there is a mark of origin on his forehead.

At the entrance in the distance, more world masters flew over.

Some are saying goodbye to family and friends.

"What are you crying about!" An old man with slightly gray hair reprimanded his disciple. "My deadline is approaching. Even if I don't go to the **** abyss, I will only survive for a while. What's the use? It's better to fight in the **** abyss. There is still hope for a breakthrough, and I can reunite with you at that time."

"But, teacher, that blood-colored abyss is extremely terrifying. 10,000 world lords have gone, and it would be good to have 100 survivors..." The world lord disciple turned pale.

"You." The old man shook his head gently, "If I don't go, how can I get the permission of the Chaotic Origin Heavenly Palace to achieve the road to immortality, but I'm just waiting for death, I can only go there and fight for a chance." Zuoru chose someone and devoured the blood-colored gate, with a lot of complex colors in his eyes, and said with emotion: "Teacher, I have worked hard for millions of years, but I still can't get a place, and I ended up like this, you don't want to be like the teacher, usually If you should fight, you must fight with all your strength, and when your teacher is like this, there is no way to go back..."

Scenes like this can be seen everywhere.

A white-haired woman in cyan armor and a man in black armor with black horns on his forehead flew over.

"Salia, are you really going to participate in the Scarlet Abyss, don't think about it anymore?" The black armored man couldn't help but said.

The white-haired woman shook her head slightly, her eyes calm. "No, I've already thought about it, go to the **** abyss while I still have the courage and the best state."

Under normal circumstances, it is very difficult for the outer members of the Chaotic Origin Heavenly Palace to obtain the breakthrough quota, but it is not that there are other ways, but it is extremely dangerous.

Every once in a while, the Hunyuan Heavenly Palace will open a secret realm called "Blood Abyss".

The **** abyss... This is a place that makes countless world masters who know its existence shudder.

Since its appearance, countless world masters have been buried.

It is said that the **** abyss is dyed red by the blood of countless world masters.

Long years, countless deadlines are approaching, there is no way to go, or the world master who is eager to break through comes here and fights to the death.

Most of them are world masters who have been recognized by the law of origin.

But out of a hundred world masters, it would be good to have one alive.

And being alive does not mean that you can get that quota, and you have to complete many tests in the **** abyss, each of which is extremely demanding, and it is said that the success rate is very low.

Everyone who can live in the **** abyss and become immortal gods is lucky, and because of them, there are more world masters who are lucky and want to find hope here.

The man in black armor looked at the woman and persuaded: "Saria, you still have more than one million years, why take such a risk, wait, maybe there is still a chance, no need for Going to the **** abyss can become immortal..." This woman, who helped him when he was very weak, has grown up and has become an indispensable existence in his life.

He still has a lot of unspoken things he wants to say to the other party.

But the white-haired woman ignored his dissuasion, made up her mind, and resolutely threw herself into the **** abyss where the death rate was terrifying. Before leaving, he gave the man in black armor a smile.

The black armored man will never forget that smile for a lifetime.

And immersed in his own emotions, he did not realize that there were two more people beside him.

"Why did you bring me here?" Luo Feng frowned slightly as he looked at the blood-colored gate that devoured life. Of course, he also glanced at the lonely man next to him, with a little sympathy.

Wang Yi smiled and said: "You said, what will happen to these two men and women who are in love with each other but haven't said anything?"

His voice suddenly became cold.

"That girl will die!"

He pointed to the man in black armor again, "He, under his grief, practiced desperately, but he was not able to become immortal until the end of his lifespan. Before his death, he came to the **** abyss and made a final fight, maybe it was luck. Well, he passed many tests and finally became immortal."

"Becoming immortal, he was pleasantly surprised to learn about the reversal of time and space to resurrect life from Hunyuan Tiangong, but it was even more cruel."

Wang Yi's stern way. Luo Feng couldn't help sighing next to him.

The world master only has a lifespan of tens of millions of years.

That female world master, who came to the **** abyss, had a very short lifespan, and millions of years had passed by the time the man in black armor became immortal.

World Lords who can exceed their natural lifespan cannot be resurrected.

It is conceivable how hopeless the black armored man must have been when he regained hope, only to find that he was powerless in the end.

[Chapter 944: I don't believe in destiny](#)

Luo Feng glanced at the unscrupulous guy next to him. "Why do I feel like you're gloating..."

Someone with a serious face and righteous words. "Nonsense! I'm experiencing all kinds of life, and I'm comprehending the way to break through the will..."

"But I still think you're gloating..."

Jokes aside, Luo Feng knew that Wang Yi was indeed studying the will of the soul.

Not only Wang Yi is seeking spiritual breakthroughs, but Luo Feng, Yuanzu, and Hong are also outstanding people, who often exchange experiences and confirm each other.

However, everyone is different and has different perceptions, and the method of spiritual breakthrough is not necessarily the same.

The two left.

As for that couple?

They have seen a lot of life and death, the universe is so big, everyone cares, and they are exhausted to death. Now they can witness these things with a calm state of mind.

Being calm does not mean numbness or indifference, but a higher realm.

To experience the joys and sorrows of all living beings is also an experience for the soul.

The arrival of the two did not attract anyone's attention, including the Venerable Universe who manages the place, who did not know that there were two great beings who came to this place.

Before leaving, Luo Feng remembered one more thing.

"By the way, Wang Yi, did you foresee the future just now?" Even if he controls a universe, he doesn't remember having such an ability. Maybe he can know what happened in the past in his universe, but the future of all beings? Even what he could perceive was murky.

Wang Yi smiled and shook his head, "I just use countless pieces of information to unify and foresee the greatest possibility in the future." He said calmly: "The future is not destined to remain unchanged, but with their abilities, if there are no variables, my forecast is almost 100%."

Luo Feng nodded knowingly, but was slightly regretful.

It seems that the couple is destined to be a tragedy.

"Also, you are making such a big fuss about destroying Dongtian, are you all right?" Luo Feng remembered something and asked again.

"It's okay, it's not easy for them to find me." Wang Yi's face was still confident. "Even if I find me, I have a way to protect myself."

"That's good." Luo Feng had great trust in Wang Yi, and he felt relieved when he saw how confident he was.

After all, they are all the hope of the ethnic group. If something happened to Wang Yi, the impact on the ethnic group would be too great.

...

Not only does Luo Feng feel that there is more evil than good luck, but Jia Zhe, a unicorn man in black armor, also feels that it is difficult for the person he likes to come back.

Therefore, his expression was extremely gloomy.

And like him, there are many waiting at the entrance of the **** abyss, and their expressions are not very good-looking.

After all, everyone knows that entering the **** abyss is equivalent to stepping into the gate of **** with one foot.

But no matter how bad the mood is, no one dares to make trouble here. The soldiers guarding the gate of the **** abyss are not easy to mess with.

Think about the difficulty of being an immortal god. With so many world lords competing for places, those who can become immortal are definitely the elites among the elites.

These soldiers in blood-colored armor, each of the worst is a monarch immortal, and the leader of the team is even a king!

Just the aura of gathering together makes those world masters tremble.

Such an immortal team is guarding here, no matter how many world masters dare to pick things up.

Every immortal **** soldier's face was as deep as water, and his suffocating aura was exposed, so that the world masters in the distance did not dare to speak loudly.

In fact, they are chatting in private. After all, they are boring to stay here for a long time. According to the regulations, deserting is not allowed during post hours, and they can only chat to pass the time.

"Another era has passed, so boring."

"I really want to go back to open the black. My account number has been gone for ten million years. I don't know if the little sister I know is still there. If she hasn't become immortal in ten million years, it's probably already ashes. ."

"It's alright, you don't have to be sad. I forgot to tell you that the account you saw was actually my sister's trumpet. She was teasing you, and she forgot about you..."

"Damn, Ge Luo, you two unscrupulous brothers and sisters actually came to entertain me..."

"Just be patient, Sam, it's going to be a shift change soon, and then I'll ask the captain to invite you to relax in the clear water paradise."

"Shut up, Chen Nian! You're not the one who treats you emotionally, you can come as soon as you open your mouth, right? Clear Water Paradise, do you know how much it will cost to go to that place once? Where can you find cheap shops for those Zerg queen mothers? !"

The face of the immortal captain Fengwang turned dark.

The immortal **** soldier named Chen Nian has black hair and black eyes. He looks like an earthling, but he also has some other ethnic characteristics. This is the evolution of countless ethnic groups in the Chaotic Origin Holy Land universe. He has a cheeky, smiling appearance.

"Haha, captain, don't be too stingy, I know you and the lobby manager Milna of Clear Water Paradise have an affair in private. You can take everyone there to get a discount, right?"

As soon as the team member said his words, the soldiers around him immediately booed.

"Captain, is what Chen Nian said true?"

"I remember that Milna, the lobby manager of Clear Water Paradise, is the queen-level Zerg queen. She seems to have a background. This is a high-level Bai Fumei. The captain can actually seduce him, it's really amazing~~"

"No, captain, you must teach me two tricks, I also want to pick up the queen of the insect race..."

"Go away! Just like you, the snake-faced girl of the demon clan is the most suitable for you. I am different, captain, I have always been loyal to you, you teach me..."

"Sword Comes"

"You just got out! Don't think I don't know, the virtual female anchors of the virtual universe machine clan you secretly chased before, and they also borrowed money to give a lot of rewards..."

Seeing that the more and more outrageous the team members said, the face of the immortal king became darker and darker.

At this moment, the towering blood-colored door behind him suddenly lit up.

Upon seeing this, King Feng Immortal said: "Okay, the **** abyss is about to end, and someone will come out soon. Don't talk indiscriminately, it will be bad if the inspector sees it."

Suddenly all the soldiers shut up and waited with serious expressions.

And those who were guarding the edge of the square were also excited when they saw the blood-colored gate lit up.

"The **** abyss is coming to an end, and they are coming back."

"Come on, Lal, you brothers and sisters come here, your grandfather is coming back."

"The Supreme Lord bless my eldest brother safe and sound."

...

The scene was a little chaotic.

But those immortal soldiers ignored the surrounding crowd at this time, but maintained a majestic formation, looking at the increasingly powerful Scarlet Gate.

Finally, a figure came out from across the door.

This is a world master who is more than ten meters tall, has two pairs of horns, the armor is damaged and has not been repaired, and his body is covered in blood. His expression is excited. When he walks out of the door, he sees the crowd in the distance~www.mtlnovel.com~ and in the crowd A few figures also flew out.

"Big brother!"

"Father!"

"It's great that you came back alive. Master."

"Grandfather, have you succeeded?"

The ox horn world lord shook his head bitterly, "Although I came back, unfortunately I didn't pass the test, I failed."

...

More and more surviving world lords came out from behind the door and were recognized by their relatives and friends.

And there are more people who are still staring at the Scarlet Gate.

They also want to see their relatives and friends come back from behind the door, but most of them are doomed to disappointment.

The man in black armor also looked nervously at the blood-colored door, looking forward to the appearance of the figure.

"Salia, you must live." Jia Zhe prayed.

He never believed in any gods, including the legendary supreme ruler who created all things in the world.

Because he felt that even if the Supreme Lord really existed, he would not pay attention to such a small person as himself.

But at this moment, he prayed devoutly to the supreme ruler in the dark.

However, his eyes darkened as there were fewer and fewer people behind the door.

"The gate is going to be closed. Is there anyone who hasn't come back?" Jia Zhe's heart sank even more when he heard an immortal **** soldier say so.

"Wait a minute, there's another one."

Jia Zhe suddenly heard a voice, and he swore it was the most beautiful voice he had ever heard in his life.

This time, the Sovereign Lord seemed to take care of him.

Salia, she crawled out from behind the blood-colored gate with difficulty. Although she was covered in blood, her injuries were inhuman and her breath was weak, she was still alive.

"It was so badly injured that he was able to come back alive." Feng Wang Immortal said in amazement. Then his eyes froze.

"Wait, in your hand, this is the immortal seal?"

[Chapter 945: If you come out, you will have to pay it back.](#)

"It really succeeded." On the top of the mountain, surrounded by clouds and mist, and in the bamboo forest, Wang Yi, who was drinking alone at the stone table, looked at him in surprise.

Wang Yi did intervene.

However, he just gave him a chance, he just let Saria escape from death and give her a little more hope.

He doesn't know these two people, and he won't break the rules and grant the immortal place.

It would be nice if he could give some help, but whether they can grasp it or not depends on them.

God helps those who help themselves.

"Even though the hope is slim, it is possible to create miracles. Is this life?" Wang Yi smiled.

"Let me see what happened."

Wang Yi's eyes flashed, and everything that happened in the **** abyss appeared in front of him.

"So that's the case, faith..." Wang Yi smiled slightly.

He felt that he might have found a way to transform his mind.

...

Destroy the cave.

Inside the black celestial body as huge as the universe, the world beast king Yi, who is comprehending the law, is thoughtful.

"Faith, the power of the mind..." He grunted, "With belief as the core, the power of the mind exploded? Or is this the right way?"

Every strong person has faith, and Wang Yi is no exception. It's just that beliefs are strong and weak, and even change due to experience and certain things.

The firmer the belief, the stronger the will and the stronger the spiritual power.

But belief is not actually equal to the spiritual realm... so it depends on individual understanding.

Wang Yi woke up from his thoughts and looked into the depths of the ruined stars.

Over the years, in fact, he has also been exploring the interior of the destruction of the stars, and he is actually very curious about the destruction of the stars.

But destroying other places in the stars is nothing, but there is a force in the most central place that repels him. No matter how much Wang Yi comprehends the wave of destruction, it is useless, because it has nothing to do with the wave of destruction. It is purely the instinct of destroying the stars to exclude anything from entering.

If he dares to forcibly break in, I am afraid that the destruction of the stars will explode in the next moment.

Wang Yi had to give up this act of death, but what secret is there in the center of the destruction of the stars? Wang Yi was very curious.

The destruction of the stars is flying non-stop, and Wang Yi is also flying. As long as there is no accident, it is actually very safe.

...

And in the depths of the dark void that destroyed the cave, very far away from Wang Yi, a group of god-kings gathered together, all with solemn expressions on their faces.

"The time... has come," said one of the figures in gorgeous robes.

Lord Baoliu was slightly excited.

Over the years, he did not dare to relax for a moment in the destruction of the cave, and his mind was tense. After waiting for so long, it was for this moment that it was finally coming.

He is about to use the formation arranged in the destruction cave to gather the power of countless destruction stars to open the portal to the source space, and he will get a higher level of hope!

"Shan Peng, Fan Bei, Tianji..." The Lord Baoliu looked at the other **** kings with a solemn expression, "Next, I will take the most important step, start the big formation, I can't be cloned, I will leave the rest to you. After this is done, what I promised, Bao Liu, will definitely be fulfilled."

King Shanpeng and other **** kings looked at each other.

"Since I promised you Bao Liu, of course we will do it seriously."

But King Fan Bei still asked, "Bao Liu, is it really okay?"

The Lord of Baoliu said: "In order to open the formation this time, I have carried out experimental tests on several destruction stars. Not to say that it is foolproof, but it is also certain." Without certainty, the Lord of Baoliu did not dare to invest so much.

Several **** kings were distributed to the key nodes of each formation according to the arrangement of the Lord of Baoliu.

In fact, that is where the destruction star is located. Of course, they dare not approach the too large destruction star, that is, the body size below medium, in case the too large destruction star explodes and gets too close, it will really kill people. Although the Lord of Baoliu swore that with the protection of his formation, the destruction of the stars would not explode, but these god-kings would not completely believe the words of the Lord of Baoliu. Dare to find the smallest star of destruction.

He was really terrified.

When everything was ready, Lord Bao Liu stood in front of a ruined star, his eyes were bright, and he took a deep breath.

Excited and apprehensive.

For this action, he paid countless efforts, just how to pull the power of destroying the stars to form a formation, he thought hard, and spent countless treasures and materials.

His hope of the Lord of Baoliu for many years.

Success or failure is here.

"Formation, open!" With the order of the Lord of Baoliu, the **** kings in other places also moved at the same time.

boom!

boom!

boom!

In the vast and dark space, there are stars of destruction, and these stars of destruction seem to be guided by some mysterious power, and the power of destruction begins to fluctuate violently.

However, it was not like the violent explosion that Wang Yi detonated before.

But what is inside the destruction star is absorbing the energy of destroying the star.

Just as the interior of a star collapses and shrinks into a black hole, the interior of each destroyed star also undergoes dramatic changes.

"huhu"

It can be seen to the naked eye that the size of the destruction star has begun to shrink.

And the bigger the destruction star, the stronger the internal contraction force.

And these huge energies seem to flow to mysterious and unknown places through a certain channel inside the destruction star~www.mtlnovel.com~.

That place, or the place where the Lord of Baoliu's heart is in his heart.

...

Wang Yi, who became a world beast, is quietly inside the destruction star.

He felt that he was very safe. The destruction star with a diameter of 900 billion light-years was approaching the super giant destruction star.

No **** king dared to approach.

In fact, no one dared, even if Lord Bao Liu and the others started the formation, they would only dare to choose the smaller Destruction Stars as the eyes of the formation.

Wang Yi is very satisfied with the environment here.

Comprehending the rules of destruction inside Destruction Star is much better than outside.

Even the Gold Devouring Pagoda carefully arranged by Wujianlou can't compare.

"I'll practice here a little longer, and when those forces give up completely, I'll find an opportunity to devour the Golden Pagoda."

Wang Yi is very cautious.

He is now in the depths of the Destruction Cave, where only the God King would break in.

He didn't dare to use the incarnation of the world beast. After all, if his incarnation of the world beast was discovered on the way, it would be in big trouble.

Because the incarnation of the beast cannot explain the origin of his identity, once he is suspected, 80% will be taken by those forces.

Therefore, Wang Yi cannot transfer the treasure through the incarnation of the beast.

And some of the entrances to the destruction of the cave are mostly guarded by various forces for a long time, staring at those of unknown origin.

Unless he can leave through a strong person.

But when Wang Yi thought about it, he really didn't trust anyone.

You can only find an opportunity to devour the golden tower, then collect materials and refine the clone.

As long as the clone is refined, those forces will naturally give up.

"It is also risky to devour the golden tower, but it is also much safer than leaving the entrance..."

Just as Wang Yi was thinking, he suddenly sensed a powerful wave emanating from the center of the destruction star.

[Chapter 946: Sorry, I'm used to it](#)

When he discovered the fluctuations from the mysterious place in the center of the destruction of the stars, the first thought in Wang Yi's mind was to explode.

So his first reaction was to be in the Palace Treasure, and then fully mobilize the protection.

After all, if the destruction star explodes, the power must be extremely terrifying. What is worse is that his position is extremely close to the core of the destruction star. If the palace power is not activated, it will be difficult to resist the impact of the explosion.

But things were beyond Wang Yi's expectations.

"boom!

! "

An extremely strong suction suddenly erupted from the interior of the destruction star and swept over in an instant.

The entire huge destruction star shrank a little at this moment.

Wang Yi's palace was also under the influence of this force, and "Hugh" was instantly pulled by that powerful force and flew to the center involuntarily.

No matter how Wang Yi moved the palace, it was useless.

"What is this?" Wang Yi was shocked.

He really did not expect that the destruction of the stars would have such a change without warning.

This god-king palace was torn apart by terrifying power, turned into a streamer, and flew towards the depths of the darkness at an alarming speed. This power is very terrifying. If this is not a palace treasure of the god-king level, even if it is replaced by a peak palace of chaos master level, most of it has been torn apart. In the palace, Wang Yi tried his best to burn the power, but in the face of this power, like a mayfly shaking a tree, it had no effect at all. of darkness.

"It can't go on like this." Although Wang Yi didn't know what was going on, he didn't want to be swallowed into the darkness.

"There's no other way." Wang Yi was ruthless.

Wang Yi looked at his panel, where the four stars of destruction were quietly waiting.

The situation was urgent. Seeing that his palace was about to be swallowed up by the dark vortex, Wang Yi didn't have time to think, and threw a star of destruction directly.

While throwing it out, Wang Yi was worried that the destruction of the stars would not have time to explode, so he injected a divine power into it.

It can be seen that a dark star with a diameter of more than 100 billion light-years appears suddenly, and the next moment, it explodes directly.

"Boom~~"

Endless energy swept out at this moment, and the entire dark celestial body with a diameter of more than 900 billion light-years suddenly expanded outward at this moment!

Then, it also exploded!

The dark vortex that was originally inside the destruction star was also destroyed at this time, and the normal energy flow also caused problems.

Like a chain reaction, in the dark void, I don't know how many ruined stars swelled up at this moment.

...

The Lord of Baoliu is staying at the core of the formation, presiding with all his strength.

In front of him is a shrinking star of destruction.

It can be seen that a dark vortex channel gradually emerges in the depths, and an indescribable aura emanates from it.

Lord Baoliu stared closely, his mind was all on this ruined star, even if he was calm, it was difficult to control his excitement at this moment.

Suddenly, Lord Bao Liu's expression changed suddenly, and he made a sound of anger.

"Do not....."

Just under his gaze, the dark celestial body that was slowly shrinking seemed to be stimulated by something, and suddenly became violent, and its body swelled as if blowing air.

The **** kings scattered to other places also noticed something was wrong, but because of the restrictions and the agreement with the Lord of Baoliu, they did not dare to move around, and immediately communicated with the Lord of Baoliu.

"The Lord of Baoliu, something is wrong."

"The Lord of Baoliu..."

That's too late.

If it is an external change, the Lord of Baoliu can also try to save it.

And he actually monitors the destruction of the stars at all times through the formation method.

But how did he know that the destruction came from inside the destruction star.

So unexpected.

This is powerless.

In the heart-piercing eyes of the Lord of Baoliu——

"Boom!"

A Destruction Star exploded.

"Boom!

!"

"Boom!

!"

"Boom!

!"

...

In the dark space, it seems like a grand fireworks are being set off at this moment.

It's like firing a gun.

The destruction of the stars, because of the influence of the formation, exploded uncontrollably after the formation was destroyed.

It's like thousands of god-king-level powerhouses blew themselves up at the same time.

This power has reached an indescribable level.

The first to be affected were the Lord of Baoliu and the others, because they were too close to destroying the stars because they wanted to preside over the formation.

Secondly, some of the powerhouses who stayed in the depths of the destruction cave were also affected by bad luck.

Among these powerhouses, many are unwilling to stay in the depths to search for the parties dominated by Jiujiang.

But now, they are facing a huge crisis.

A god-king was moving in the dark space, and suddenly his face changed greatly.

"what is this?"

"Rumble~~" The terrifying fluctuations like a wave surged over the sky and covering the sky, the **** king felt the power of destroying the sky and destroying the earth, his face changed, and he turned around and ran.

But he suddenly found that this kind of fluctuation actually appeared later.

"Destroy the star explosion? But why do two explode at the same time?" The god-king watched helplessly as the endless darkness filled his field of vision. At the same time, he encountered the explosion of two destruction stars, and it was the first time he encountered such a thing in countless years.

"There's no escape!"

The **** king was attacked back and forth, and he was drowned by the endless waves of destruction before he ran far.

And there are many others who have encountered the same situation as this God King.

Originally, the scope of the destruction of the star explosion was a certain distance.

But under the connection of the formation, perhaps because of the environment of the destruction of the cave, or because of the portal opened by the Lord of Baoliu, a kind of "resonance" was formed!

This makes Destruction Star's influence much larger than usual.

"It's over!" When the destruction of the stars exploded, the Lord Baoliu felt a chill in his heart.

He knew that his arrangement had failed.

But he couldn't understand why there was a sudden problem when things were going well.

It's just that he didn't have time to grieve that his plan had failed, and the shock of the explosion that destroyed the stars had arrived.

The Lord of Baoliu knows the power of destroying the stars, especially if he is so close, it is even more dangerous.

The situation is critical~www.mtlnovel.com~ The Lord of Baoliu is also crazy.

The Lord of Baoliu is indeed rich among the gods and kings, and he threw out several precious treasures in an instant to protect himself.

And other **** kings have also used various means to resist the power of the explosion, especially the Lord of Heaven, who has tears in his eyes and is extremely sad and angry.

He was seriously injured and his strength was greatly reduced, but because of his affection, he forced him to help the Lord of Baoliu to preside over a formation node.

Although he chose a relatively small destruction star, but the distance is too close, so it is more dangerous.

yqxswhyqsw

"Bao Liu, you pit me—"

rumbling...

It was as if the endless dark space was shaking.

At this moment, I don't know how many forces, how many powerhouses, are all shocked and cast their eyes on the depths of the destruction cave, even the **** king, his face is dignified.

[Chapter 947: This is where?](#)

Destruction Cave is experiencing the biggest change since its birth.

At the same time, Wang Yi is also encountering a major crisis in his life.

Lord Baoliu's formation originally drew a large number of destruction stars in the void. His original intention was to use the formation power to open a portal to the source space, so as to achieve his goal, but who expected that Wang Yi was inside the destruction stars and suffered. The disaster of the fish pond was sucked in by the black hole vortex that was suddenly born inside the destroyed star.

Unexpectedly, Wang Yi threw a bomb and went out without thinking about it.

With a loud bang.

What happened next turned in an unexpected direction...

An endless dark tide of light filled the void.

The dark space-time is still vibrating violently, being impacted by the endless violent energy.

And Wang Yi's palace treasure is also trembling, as if it will be torn apart in the next moment.

Destruction filled the palace.

In the palace, Wang Yi's body kept breaking and reorganizing, and the cycle went on and on.

He felt like he was about to die...

The destruction star with a diameter of 900 billion light-years can be said to be monstrous when it explodes.

Not to mention that Wang Yi is in the core area of destroying stars. If it explodes in a complete state, even if Wang Yi has a pile of god-king-level treasures and a strong body, it is still difficult to guarantee that he will not fall.

To death, Wang Yi added more. After all, it was actually two destruction stars that blew up together.

Originally, Wang Yi thought that he could have a chance to escape, but now he found that he seemed to be too optimistic... If the body really fell here, Wang Yi's loss would be great.

Fortunately, before the Lord Baoliu opened the formation to connect the channel inside each destruction star, so that a lot of energy poured into the mysterious place, so when the destruction star exploded, the energy had actually been reduced a lot, and the black hole vortex actually. Instead of being destroyed by the explosion, it absorbed more energy and suddenly became huge...

"Boom~~" The huge attraction fell on Wang Yi's palace. Wang Yi had no ability to resist, and was sucked in together with the palace.

At the same time, the Lord Baoliu and other **** kings who are close to the vortex channel of the black hole of the destruction of the stars, as long as they are not dead, they will be swallowed by the darkness formed by the nearby destruction of stars. That kind of attraction is too strong, even the **** king has little resistance.

The black hole vortex channel is absorbing endless energy to reach a limit, and it does not continue to expand, but slowly shrinks, and finally becomes invisible.

But Wang Yi, the king of Baoliu and other **** kings disappeared.

In the depths of the destruction cave, the aftermath of the explosion reverberated violently, and I don't know when it will disappear.

...

The Origin Continent, as the center of this Fang Yuan world, seems to be endlessly vast, even if it is a **** king, it is difficult to travel all over the world, and the spatial structure of the entire continent is extremely stable, and many **** king battles in history have not been able to destroy it.

According to legend, the supreme rule of this world that governs the operation of all things is in the origin space of the origin continent.

But the source space is a very mysterious place, even the **** king, I haven't heard of anyone who can really enter the source space.

From the perspective of space structure, the normal space on the surface of the origin continent, and then the space interlayer, when the force reaches a level, it can be broken.

Passing through the space mezzanine, followed by the chaotic space, which can only be broken by obtaining the power of the chaotic master normally.

After that, it's the 'chaotic void'... The chaotic void mentioned here is not the chaotic void outside the origin continent, but actually the void world in the depths of the chaotic space, which is very close to the origin space.

At the time, Wang Yi's treasures in Wu State, which were in the wild and fascinated by the gods, were only placed on the periphery of the chaotic space.

The chaotic space is unimaginable, and the chaotic void is even more terrifying.

The "Void Abyss", one of the three dangerous places in the legendary Origin Continent, is part of the real "Chaos Void", and it is the most dangerous part.

"Wow!"

There is a black hole vortex channel in the void, and a palace rushes out of the twisted void at an alarming speed.

Turning into a streamer and traversing in the endless void, the speed is terrifying, and the king of gods is looking at him. In an instant, he doesn't know how many universes are apart. At this speed, if you collide with a universe dominated by chaos, you can directly collide with each other.

After an unknown amount of time, the speed of the palace gradually slowed down.

And Wang Yi, whose body was already broken in the palace, let out a sigh of relief, and showed an expression of Yuji.

"It's dangerous, it's almost over."

Just now, under the violent power of Destroying the Stars, the entire palace was under enormous pressure. Wang Yi felt that if the power was stronger, maybe he could leave some damage on the god-king palace.

This is a god-king level palace. Normally, even if the second-level powerhouse of the god-king goes all out, they will not be able to leave scars. The weak god-king can save his life by relying on it. Of course, it's just to save his life. If he fights an opponent far stronger than himself and doesn't run away, he will easily be suppressed and sealed.

Wang Yi looked at his body, although he was flesh and blood, but because he practiced the secret technique of "Being the Universe", his body's toughness was actually comparable to that of a chaotic master-level treasure.

Although it is not as perverted as the Chaos Master Palace, it is almost the same as the ordinary Chaos Master weapon.

Chaos Master-level weapons can withstand the life and death of Chaos Masters, and it is natural to be strong.

Of course, if those chaotic ultimate realms are desperate, or if god-king-level powerhouses want to destroy them, they can still do it.

Therefore, Wang Yi still has a god-king-level armor for protection.

After all, Wang Yi actually had three main layers of protection: the god-king-level palace, the god-king-level armor, and his own chaotic master-level body defense. It can be said that in terms of defense alone, Wang Yi is stronger than the **** kings like Bao Liu.

It is not so easy for the king of gods to kill Wang Yi.

But... in the explosion just now, in a short period of time, Wang Yi's body suffered unimaginable damage and burst open.

If the black hole vortex devoured a lot of violent energy along with it, and also swallowed Wang Yi, Wang Yi's body might have perished!

Wang Yi was secretly afraid ~www.mtlnovel.com~ I won't be able to take such a risk next time. "

Although it is said that he has "undead blood", even if this body falls, he can still be resurrected with the help of the "undead blood" left in the tower of the world beast incarnation.

However, the treasures and treasures of the divine body that had finally been accumulated were gone, and the newly born body "As the Universe" had to be re-cultivated to restore its original level.

"If it wasn't that the clone couldn't sign in, I would just let the clone take the risk. Why let me take the risk." Wang Yi shook his head.

This time he was severely injured, and it took a lot of time and treasures to recover.

At this time, Wang Yi still maintained the appearance and aura of the beast.

After he observed his physical condition, he focused on the outside environment.

Looking at the boundless and empty world outside, it didn't look like the dark space of the Destruction Cave, and there was no strong fluctuation in the rules of destruction, and Wang Yi felt a **** in his heart.

"Where is this?"

[Chapter 948: Void Abyss](#)

It was a void, with neither the sky up nor the ground down, and the line of sight was empty, and it was impossible to distinguish up and down, left and right.

This is the real void, with no chaotic airflow and no destructive power.

Wang Yi was a little surprised.

"Am I not in the depths of the destruction cave, where is this place?"

Wang Yi recalled the black hole vortex that appeared in the center of the destruction star before.

"Could it have something to do with it?"

Although full of doubts, Wang Yi decided to understand his current position first.

"Wait a minute." Wang Yi suddenly frowned.

"Why is my relationship with the clone and avatar so weak?"

Like clones and incarnations, there is a difference between strength and body.

A weaker clone has a weaker soul, and the induction with the deity will be very weak. If the distance is too far, only the full induction can barely pass the memory. The powerful clones are much more sensitive to the deity, and with a little concentration, they can remember and communicate with each other.

Therefore, it is generally proprioceptive contact avatar.

"It shouldn't be." Wang Yi frowned, "It stands to reason that even at the two ends of the origin continent, it will not affect the induction of the main body and the clone. If it is at the God King level, I am afraid that the entire source world can sense it. his own avatar."

biquge.namebiquge.name

"My avatar, my incarnation, I can still sense it in the Infinite Universe and the Destruction Cave Sky Pagoda, but...very far away, it feels like two worlds are separated." Wang Yi looked at the surrounding silence and void, frowning tightly. . "It can affect the induction of the main body and the clone, and the environment here is only one of the most relevant information in the records I have read..."

"Here... Could it be the end of the chaotic space in the depths of the origin continent, the chaotic void?"

Wang Yi's heart tightened.

Chaos Void, legendary is a special world.

The most mysterious part of it is that it is affected by the original space, and the rules of space are very strange, even if the **** king is not careful, he will get lost.

The "Void Abyss", one of the three dangerous places in the Origin Continent, is in the Chaos Void.

"How did I come from the ruined cave to the chaotic void all of a sudden." Wang Yi took a deep breath.

"Destroying the cave, although it is vast and dangerous, there are still signs to follow. However, the chaotic void seems to be without danger, but the kings of gods may get lost here." Wang Yi did not dare to be careless. He found that he could no longer determine his position based on the sense of the clone.

Even if it is sensed, it is hazy and unclear.

"I won't talk about the avatar. Although the incarnation of the world beast has a clear sense, but the distance is too far, the incarnation of the world beast can only sense that I am far away from the origin continent, but he can't figure out the specific location..."

Space is very complex and cannot be explained simply by distance.

Just like a ball, it has bounds and bounds, and the space is so big, but if an ant crawled along it ignorantly, it would never find its boundary and could not get out.

Not to mention a place like the Chaos Void.

"My biggest trouble now is that I don't know my position." The world beast king Yi stood in the palace with a thoughtful expression.

Although he doesn't want to admit it, in fact... he seems to be really lost.

...

"This is..." At the other end of the void, a country lord who had just been swallowed by the black hole vortex looked at the endless void around him with a gloomy expression, and soon his eyes showed a trace of consternation. "Why is the relationship between me and the divine incarnation left in the destruction cave so weak?"

He is the king of gods!

Logically speaking, even if the incarnation of divine power is separated by a cosmic sea, it will not be affected so much.

"Even if it is the chaotic void, it can't have such a big impact on me." The **** king's face was solemn. "Unless, this is..."

He thought of a troublesome place. For the king of gods, they are rarely willing to get involved.

Because these **** kings acted together, the incarnations of divine power all stayed in the same place and soon merged together.

The good news is that all the **** kings in this operation are still alive. The bad news is that when asked, all of them were involved in the unknown place of the chaotic void by the big explosion.

"Bao Liu, what's going on?" As soon as they met, King Fan Bei asked.

The Lord of Baoliu had an ugly face and remained silent.

He still hasn't figured out what happened.

He has calculated countless times, and it is impossible to make such a serious mistake.

Why did the formation that was running well fail for no reason?

The Lord of Baoliu didn't speak, but the other god-kings didn't want to let it go.

This time the formation failed to start, and these gods were almost killed.

"The Lord of Baoliu, you must give us an explanation for this matter." Lord Shanpeng said angrily. He lost a lot this time, and it is rude to say that every **** king was injured, but to different degrees.

And the most serious Heavenly Sacrifice King simply made his divine power incarnate to the point of dying, looking like he was about to die.

The Lord of Heavenly Sacrifice has been cautious for countless years, but this is the first time he has suffered such a big loss.

He swore that this time, if the Lord of Baoliu didn't give him an explanation, he would break up with him!

Facing the wrath of many god-kings, the Lord of Baoliu also knew that he was right.

Although his long years of hard work were in vain, he was bleeding with pain at the moment, full of doubts and anger, and wanted to vent, but he still restrained his emotions and said in a low voice: "Everyone, this time is my mistake. I apologize for the loss you suffered this time, and I will make up for it."

Seeing that the Lord of Baoliu had a good attitude and was willing to make up for it, the expressions of the other god-kings softened.

They don't care about the failure of the Lord of Baoliu, they only care about their own losses.

The reason why they were so angry was because they wanted to ask for compensation from the Lord of Bao Liu.

Since the Lord of Baoliu is willing to compensate, then everything is easy to say.

"Okay, now there is a serious problem." A **** king wearing a gray robe said with a serious face. "In the previous big explosion, although we all escaped, we were all injured more or less. That's all. However, I found that it is difficult to connect with the outside world in the area where we are. UU Reading www.uukanshu.com"

"What I am in is also a void, and there is nothing."

"I can't sense my own clone anymore."

One after another, the kings of the gods have all said their own situation.

Lord Fan Bei snorted, glanced at Lord Bao Liu dissatisfied, and said, "If I guessed correctly, the place where we were involved should be the Void Abyss."

Void abyss.

Those **** kings are all quiet.

The Void Abyss, as one of the three dangerous places in the Origin Continent, every God King knows something about it.

But just as everyone on the earth is familiar with Mount Everest but few have experienced it personally, in fact, these gods and kings have not really come into contact with them. At most, it is to walk around in the depths of the chaotic void, and few really dare to go into the 'Void Abyss' to explore.

In terms of danger, Destruction Cave ranked first, but in terms of strangeness and unpredictability, the Void Abyss did his part.

[Chapter 949: Treasures are everywhere](#)

"It has been flying for more than five million years..."

"Nothing, not even a reference, how can I go?"

In the void, a dark palace was suspended. Inside the palace, a tall being with fair skin stood there. Its body was flawless, and on its forehead there were two sharp white horns. Bend the spine upwards. At first glance, it is extremely holy and extremely beautiful.

"Alas..." World Beast King Yi sighed.

Although he can still get in touch with the incarnations of the world beasts in the outside world, just relying on this connection will not be of much help to his current self, and he cannot locate his specific location.

He could only know that he was in the chaotic void, but he was at a loss as to where he was in the chaotic void.

With rich experience in adventure, he knows that if he doesn't understand the environment, he will easily run into danger.

Chaos Void just said that it is not as dangerous as destroying Dongtian, but it is also among the best in the origin continent.

"You must confirm your position, if only you can meet some life." Wang Yi secretly said in his heart.

Wang Yi continued to control the palace treasure to fly in the void.

The vast void is boundless, but it seems too desolate. Nothing.

Wang Yi's flight speed is already very fast, reaching an astonishing 100 million times the speed of light, and it has been flying for more than five million years. But still can't see anything, the eyes still see the empty and barren world, as if walking in place.

But Wang Yi was still very calm.

With the information he knew, the chaotic void in the depths of the Origin Continent was vast, even larger than the Origin Continent.

Moreover, its spatial structure is very complex, so far no **** king has figured out its structure.

World Beast King Yi sat in the palace, looking at the empty scenery outside.

In fact, there is nothing to see, it is almost like a piece of white paper, there is nothing, the whole vast void, as if only Wang Yi's palace is flying quietly.

Wang Yi was calm, not at all disturbed.

After traveling for millions of years, nothing has changed at all. He knows that this is normal in the chaotic void.

Just like the speed of an ordinary person, the solar system is boundless, and it will never end in a lifetime.

And the Chaos Void is to the Chaos Master what the solar system is to ordinary people.

Even flying for an era of reincarnation may only be an insignificant distance from the entire chaotic void.

Exploring such a world is simply hopeless.

"The rules of heaven and earth here are also very unique." Wang Yi silently looked at the scene outside.

If it is said, the rules of destroying the cave are like surging waves.

Then the chaotic void is a pool of stagnant water, and it is difficult for even ripples to appear on the surface of the windless lake.

but.....

"Because of this, the efficiency of inducing all kinds of laws here is the same, and because all kinds of laws can be clearly displayed, it is much easier than usual to understand them." Wang Yi secretly said.

To put it simply, the efficiency of comprehending various laws in the origin continent is 1.

Then here, at least 100, and all the laws.

This is incredible. All the laws can be clearly displayed for people to comprehend. Looking at the whole world, this is the only place.

For example, the destruction of the cave, its destruction rules are very powerful, relatively speaking, other rules will be suppressed and weakened.

The same is true for the Nine Hundred Secret Realms in Wujianlou. It is also a secret realm with the most powerful rules, which is convenient for the disciples to comprehend.

"It's incredible, it feels like an invisible force that keeps them peacefully coexisting. This is... balance." Wang Yi sighed.

"Cultivation as you go, hope you can find an exit."

Wang Yi did not believe that he would be trapped here.

The black palace turned into a streamer and shuttled in the void.

Time passed quietly.

The Wujian Universe, the cave house dominated by Jiujiang, has never been opened. Because of the beating of the Wujian landlord, those **** kings dare not continue to think about it.

The origin continent did not know that there was a **** king trapped in the abyss of the void, and there was also a hapless master of chaos.

What attracted the most attention during this period was no longer the ruler of Jiujiang being chased by various forces, but the sudden large-scale shock that destroyed Dongtian.

The unprovoked explosion of a large number of destruction stars shocked the forces of all parties.

Many forces investigated this, but found nothing.

It is said that there are strong people who have fallen because of this.

And the **** kings of the parties were tight-lipped about this, and they didn't leak any news.

After all, if the outside world knows that a group of **** kings are trapped in the abyss of the void, they don't know what will happen, and their kingdom will also be unstable, so it is still kept secret.

In a blink of an eye, more than seventeen million epochs have passed since the shock of the destruction of the cave.

For an era of reincarnation, the length of ten trillion epochs, this is nothing.

In the desolate and boundless void, a palace flies alone.

Wang Yi, who was quietly cultivating in the palace, suddenly moved in his heart and opened his eyes.

Looking at a certain direction in the void, there, a cloud-like thing floats quietly.

Wang Yi was not surprised by this, because he occasionally encountered some things while flying in the chaotic void over the years.

Chaos Void, because of the unique environment, the blending of countless rules, also breeds many treasures.

For example, Wang Yi picked up a lot of source crystals, and even once was lucky, he picked up a huge natural source stone ~www.mtnovel.com~ equivalent to tens of thousands of normal specifications of the source stone.

Most Chaos Lords don't have so much wealth in their entirety.

It can be said that as long as the exploration time is long enough, getting rich is not a dream, and it is not too dangerous.

But even so, few people dare to come in, because it is difficult to get out.

It is said that some powerhouses sent clones to explore and gained countless harvests, but they still couldn't find a way to leave. In the end, they couldn't bear the endless emptiness and loneliness of the chaotic void and had to reluctantly give up this clone.

Wang Yi manipulated the palace to approach carefully, observing the cloud.

"It's like some kind of treasure, but there is no relevant record of the information I got..." Wang Yi muttered.

Of course, it is also possible that it is a treasure left by a strong person from the outside world, and it is not impossible.

The chaotic void has existed for such a long time, and there are always some strong people who are reluctant to give up their harvest and stay here with perseverance, trying to find a way to leave.

After all, the void abyss is just easy to get lost, not the possibility of not getting out, but once you get deeply lost, it will be difficult to get out.

But there are also many who feel hopeless and give up.

Their treasure will be left somewhere in the Chaos Void.

There will even be the treasures of the **** king.

So as long as you are lucky, it is not impossible to pick up the treasure of the **** king here, but the probability is quite slim.

Because the Chaos Void is too big. Anyway, Wang Yi has been flying here for so long, and no one has seen it.

[Chapter 950: Turn the corner to meet love](#)

"This cloud should have formed naturally, and it doesn't look like it was left by the strong." Wang Yi came to a conclusion after careful observation. After not finding the problem, I didn't pay much attention to put the treasure away and threw it in the palace.

Even if the god-king is trapped in his palace, he may not be able to escape.

With Wang Yi's cautious temperament, things like this of unknown origin can be kept in the palace first to ensure safety.

...

"Um?"

In the incomparably distant void, there is a lofty mountain entwined by endless black airflow, and the entire mountain is hidden.

A white figure sat cross-legged on the top of the mountain, as if it were eternal, without a breath like a statue, he suddenly moved, turned his head and looked in one direction, showing a smile.

"Hey, the prey appeared, and the bait I left has moved."

"rare."

"I have been here for countless years, and finally I can move again."

The white figure slowly stood up.

"Although it is safe here, practitioners and creatures from the continent of origin cannot be found, but it is too boring, and there is no life."

"We don't have enough life in captivity to eat."

"I miss the God King I ate last time, but unfortunately, it's just a clone. It would be great if I could eat the main body. That guy from Tantai is too cautious. This is not allowed and that is not allowed. We have to guarantee even if we are active. Hidden identity cannot be revealed, hum, if it wasn't for her being the strongest among us, or a leader, I would have disobeyed her long ago, and sooner or later I, Odin Dillon, will surpass her and become the strongest king."

The white figure stood up, the tall figure exuding amazing coercion, looking at the void, and on his forehead were two snow-white sharp horns that curved upwards.

"How many years have I come here from the sea of cosmos, I have been lurking, cautious, afraid of being discovered, and being besieged like those exposed clansmen, when will our clan end this aggrieved day." The white figure lowered his head and shook his hand. Fist, somewhat dissatisfied.

Then he raised his head again.

"Well, it takes about thirteen epochs to get from me to the prey... However, it's a bit troublesome to pass through that old guy's territory there." The white figure frowned slightly, with subtle fear in his eyes. .

"That old guy is too strong and unreasonable. Fortunately, he doesn't like to be in charge, and he has no hatred with us, otherwise it would be really bad for us."

The white figure thought of something and shook his head. "Let's go around. If the old guy just woke up and woke him up, it would be very difficult to get out. Last time, the seventh old man accidentally woke him up, and he was beaten and injured for a long time."

"If you take a detour, it will take longer, but it doesn't matter. As long as there is a mark, the prey can't escape. Hehe, the abyss of the void is so big, it's too difficult to meet a prey, Lao Qi and the others haven't met for a long time. , I'm really lucky." The white figure licked his mouth, and disappeared from the mountain in a flash.

...

Void abyss.

Wang Yi, who transformed into a world beast, is cultivating.

"Rules of Destruction..." The world beast was filled with waves of destruction.

Using the world beast form to cultivate the rules of destruction will be more efficient.

Moreover, he was hiding in the palace, which was a void and abyss, and he was not afraid of being discovered.

"This rule is so mysterious, it's really getting harder the further you go." Wang Yi sighed.

He has cultivated this talent for many years, and his progress is still slow.

According to Wang Yi's estimation, with his current speed of progress, it is not bad to be able to break through to become a **** king in the era of 100 reincarnations. He is actually not satisfied, and he always feels that it is still a bit slow.

If Wang Yi's innermost words were heard by those who were trapped in the era of 100 million reincarnations in the realm of chaos, they would definitely be angry.

When Wang Yi sighed, a figure was gradually approaching in a void in the distance.

"The abyss of the void, it's too desolate, there's nothing." It was a golden roc bird, with its wings outstretched for hundreds of millions of light years, its golden eyes swept the surrounding void with golden light. The wings whizzed past, like a sharp blade, cutting the void and leaving in an instant. This speed is many times faster than Wang Yi's. Even the movement speed of the corpse of the "God King of Jin" in the sea of cosmos was far inferior to it.

It is the unfortunate one who was implicated because of the failure of the formation and was trapped in the abyss of the void, one of the cultivators of the origin continent, the king of Shanpeng.

King Shanpeng was in a very bad mood at the moment.

The abyss of the void, even for the king of gods, is rarely a place to get involved.

Although it is said that the clone can come in and explore.

However, the cultivation of clones is not easy, and few **** kings are willing to let a clone be sent in at the risk of being permanently lost in the "Abyss of Void" for no reason.

"I'm the main body..." Shanpeng's king felt a little worried in his heart.

The main body and the clone are the same soul consciousness, but the difference is still very big.

The avatar is only cultivated by a part of the soul of the main body, and the loss of the fall is great, but it is far less than the loss of the main body.

If the main body encounters an accident, it will be extremely difficult for the clone to cultivate back to the original state of the main body.

Not to mention, King Shanpeng's important treasures are almost all on his body.

The main body is the strongest combat power, and it is absolutely unacceptable for the Lord Shanpeng to fall into the abyss of the void.

And even if the main body has been safe and sound, but if it has been trapped in the abyss of the void and can't get out, it will take a long time, and if something happens to your own country, you will not be able to sit down and solve it, and sooner or later there will be a big problem.

King Shanpeng became angry when he thought of this.

"It's all to blame Bao Liu." The Shanpeng King regretted why he was persuaded by the Bao Liu King in the first place.

Several **** kings who were also trapped in the abyss of the void were very resentful to the Lord of Bao Liu.

But they also understand that it is completely useless to blame the Lord of Bao Liu now, and the most important thing is to find a way to leave.

"Leaving the void abyss?" Shanpeng King thought.

The reason why the Void Abyss is so daunting is mainly because it is difficult to get out again if you are trapped in it.

In history, those who escaped by chance almost depended on luck, and the experience could not be replicated at all.

For example, the destruction of the cave happened to have a destruction star explode, and then coincidentally opened a channel in the abyss of the void, and I happened to be next to this channel...

It's just that the probability is too slim, and the Shanpeng King knows that it is impossible without thinking.

But it is not that there is no other hope~www.mtlnovel.com~ According to legend, the owner of Wujian has a great ability to penetrate the sky and the earth, especially good at the technique of walking in the void, and can travel through various mysterious worlds. "Shanpeng King secretly said in his heart. "To escape from the abyss of the void, there may be a way to ask the Master Wujian for help. "

But... what is the status of the uninterrupted landlord? Even if he is high above the **** king, will he care about other **** kings in the outside world?

It is very difficult for outsiders to see the Wujian landlord.

Even if he asks for help, it is another matter whether Landlord Wujian is willing to take action or not, and King Shanpeng is not sure.

King Shanpeng shuttled through the void at high speed, and at the same time, he did not forget to observe the surrounding, looking for clues to leave, and did not miss any space.

Its piercing golden eyes can see through the far reaches of the void.

The search and exploration ability of the God King is naturally far more than that of Wang Yi, the chaotic ruler.

Suddenly, a black palace in flight fell into his eyes.
