

A God 951

[Chapter 951: bait](#)

"Flying palace?" Golden Pengniao's eyes lit up. "There must be someone inside, just right, you can ask him for information about the Void Abyss."

Lord Shanpeng is not worried about encountering danger.

This is normal.

If you think about it, you can see that there are several **** kings who are willing to enter the abyss of void.

The Lord of Shanpeng is here. He was not afraid at all. After all, I haven't heard of any terrible life in the abyss of the void, and the killings between each other are also the powerhouses who come in from the outside world.

[biququ/html/47403/"Monster Town Museum"](#)

King Shanpeng stared at the flying black palace, and with a flick of his wings, it turned into a dazzling streamer and rushed over.

King Shanpeng is a **** king, and his speed has exceeded Wang Yi's ability to sense it.

When Wang Yi was concentrating on studying the secret method, he suddenly raised his head with a feeling. far away. In the distant void, a golden light suddenly appeared, and a huge golden streamer that made people's heart season suddenly rushed towards this side, accompanied by monstrous pressure, making time and space tremble.

Even Wang Yi had the illusion that the entire vast void was like an ocean wave, being pierced by the dazzling golden light like a blade.

When Wang Yi found out, the Shanpeng King had already come to him.

Due to the speed of King Shanpeng, even Wang Yi could barely see the figure of the other party.

Wang Yi was taken aback. "God King?" The only one with this speed and momentum is the God King.

"The Void Abyss is so big, how can you meet a God King?" Wang Yi was also surprised.

It is said that if you walk too much at night, you will eventually encounter ghosts. But how many years has he been in the void abyss before he met a **** king?

I don't know whether to call him lucky or unlucky.

Wang Yi didn't know that the Shanpeng King appeared here, but he still couldn't get rid of him...

"Boom--" A pair of huge wings with a wingspan of more than 100 million light-years spread out, rendering the whole world a golden color. In endless golden light. You can faintly see a pair of pure and cold golden eyes, which makes Chaos Master look at the heart season.

The universe emerged, and the boundless coercion enveloped Wang Yi's surroundings.

Wang Yi frowned slightly. "God King Domain."

"Come out." The terrifying powerhouse looked down at everything from a high position.

Wang Yi was in the palace, and King Shanpeng couldn't see him directly through the obstruction of the palace.

Otherwise, what he saw was a world beast.

Wang Yi thought about how to get out. "Looking at the speed of this **** king, it's not much worse than my "Donghua", and the opponent may have kept his hand. It is estimated that it is very difficult to use "Donghua" to get rid of the opponent."

"It seems that the other party doesn't intend to do it directly. You can try to fool around." Wang Yi thought for a while, turned into the life of a cultivator, flew out of the palace, and saluted respectfully. "I have seen the Lord Shanpeng."

As long as the god-king of the origin continent has appeared, Wujianlou has been recorded. Of course, Wang Yi also recognized the identity in front of him at once.

"Yeah." Shan Peng looked at him. "You look very unfamiliar, which force is it from?"

Wang Yi said respectfully: "Sir God King, I am from Yanhaiwuge."

The forces that Wang Yi brought out are not fictitious, but real forces in the origin continent, and they are not small.

Yanhaiwuge is a long-standing heritage on the edge of the origin continent. It is second only to the three top behemoths such as Wujianlou. There are several gods and kings, and there are of course a lot of chaos masters.

Wang Yi used the identity of Yanhai Wuge, firstly, to make this **** king have scruples, and secondly, the members of Yanhai Wuge relatively rarely deal with other forces, and it is easy to get away with it.

This is not to destroy Dongtian. Every force is chasing after him, and any strangers who are discovered will be investigated clearly.

This is the abyss of the void, and by chance encountering a chaotic master of the misty fog pavilion, unless the other party deliberately investigates, it will be difficult to dismantle it.

And the other party is a **** king, with no grievances and no enmity, he should not surrender his identity to bully the small, and attack himself, the chaotic master.

Shanpeng King really did not doubt it.

Of course, this is also because Wang Yi's disguise is too good. Even the breath of life is camouflaged flawlessly, without any flaws.

Lord Shanpeng looked at the respectful chaotic master of Yanhaiwuge. If it was a primitive life or aboriginal, he might have slapped him to death.

But of the Yanhaiwuge, Shanpeng's country lord certainly won't strike for no reason.

This is also the reason why Wang Yi became a practitioner. If he encounters primitive beings or indigenous people, he will not be like this.

"I ask you, how long have you been here, tell me all the information you know." Shanpeng said rudely.

Wang Yi said respectfully: "The younger generation has only come to the Era of 10 million, and I don't know much here..."

"It's only more than ten million epochs?" Shanpeng's king was a little disappointed. Instantly lost interest in asking this Chaos Lord.

What can the other party know in such a short time?

It is better to ask other **** kings who have wandered here.

Shan Pengguo's idea was waning, but he still asked Wang Yi to tell him everything he knew.

Wang Yi did not hide anything.

Just as the two were communicating, a white figure appeared silently in the distance, looking at the two parties who were communicating.

But the two people who were communicating, neither Wang Yi nor Shanpeng King found anything unusual.

"Oh? What a surprise, besides the prey with my mark, there is actually a **** king? This is a big fish." The white figure became excited.

big fish...

It is true that the **** king who is at the top of the origin continent is only a prey-like character in front of these existences. Of course, some powerful ones, in their opinion, are capable of counterattacking and hurting their prey.

"God King, I haven't met a God King for a long time. I really miss that delicious food." The white figure narrowed his eyes in intoxication. Suddenly, it sensed something and opened its eyes wide.

"This, this is..."

"This is the real body?" The white figure's eyes were bright and scary.

"God King's body?" Its body trembled slightly because of overexcitement, and it couldn't believe it.

"Void abyss, those **** kings are not afraid to go out, they only dare to send clones to explore, and there are very few people who come in. How can there be a **** king body?" www.mtlnovel.com~

"God king body! This is the real **** king!" The white figure couldn't hold back his instincts.

It is born with a desire to destroy, to devour.

Only in this empty abyss where there is almost nothing, these aliens who are incompatible with the ethnic groups of the origin continent can barely calm down.

Because the Tantai guy said that those who cannot control their desire to destroy will be destroyed by themselves.

In history, many of their companions were either found to be killed in advance before they grew up, or after they grew up, they couldn't help provoking boundless wars to devour and destroy them everywhere, and then they were jointly killed by all parties. few.

Their family, born in the universe sea, seems to be scrutinized by the supreme rules, but is born with a desire to destroy everything, and is the enemy of all life in the origin continent.

Whether it is a practitioner, or a primitive life, aboriginal, they all regard them as mortal enemies.

The Void Abyss is the shield that protects them and the cage that binds them.

[Chapter 952: thirsty](#)

In the distance from the two powerhouses Wang Yi, a white figure was hidden in the void in a strange way, staring at them with hot eyes, mainly staring at the golden giant, as if seeing a peerless delicacy.

"The deity of the God King, except that Tantai and a few clansmen secretly joined forces to kill, we have never eaten it." Odin Dillon was extremely itchy.

World beasts like to devour, and the whole world is regarded as a meal by them.

However, compared with the life of the origin continent, the world beasts are not so powerful.

Although he has a powerful talent and many powerful means, he can also cause a catastrophe in the origin continent... but that's it.

It is because of the unscrupulous destruction and devouring of the world beasts everywhere, all the factions in the origin continent know their dangers, and when they encounter the world beasts, they all unite to kill them.

Especially those newly promoted beast kings who came to the origin continent from the universe sea without knowing the depth, they are generally discovered when they grow up to the realm of chaotic domination, because they cannot restrain the desire to devour, so they are cultivators and other forces. Find.

Once discovered, it is mercilessly strangled.

There are very few who can endure to the level of the king of gods, and then they can really change the color of many countries.

However, still useless.

Because the life faction of the origin continent is too powerful, there are hundreds of **** kings on the practitioner side alone. Once they are united, no matter how many legions the world beasts create, they cannot resist.

Of course, there are also beast kings who know how to forbear and clever, who have been hiding all the time without being discovered, and even lurking to the top of the origin continent.

Relying on the transforming ability of 'invisibility and formlessness', it is indeed difficult for the world beast king to be discovered as long as he hides himself.

And these surviving world beast kings saw the reckless and tragic end of other clansmen, and even more dared not to take the lead.

Under the leadership of one of the powerful world beast kings 'Tantai Palace Master', he discovered the mystery of the Void Abyss, and then spent countless years turning it into his own hiding lair.

I have always been careful, in order not to be discovered by all parties in the origin continent, even if they attacked other strong men in the abyss of the void, they would change into other appearances, completely hiding their breath and not revealing any information about the beasts.

After a long time, they hide in the abyss of the void and strengthen themselves silently, while trying to attract more likes from the universe sea.

The forces of the origin continent are not unaware of these hidden beast kings, and some forces even suspected the Void Abyss based on clues, but they could not do anything about them.

The chaotic void is too vast, and the abyss of the void is so strange and complicated that even the king of gods will get lost.

Under such circumstances, how could a **** king dare to rush into the abyss of the void?

However, although it is safe to hide here, the world beast kings are not reconciled.

It's just that they have to endure for the ultimate "goal".

But they are not polite to other groups who have broken into the abyss of the void.

Although the world beast and the life of the origin continent are all born from this Fangyuan world, that is, the supreme rule, they are natural enemies.

The world beast regards other life as food and the sustenance for growth, and all parties in the origin continent are also aware of the disaster of the world beast, and they will never show mercy.

"God King, if I eat him, I may be able to go a step further. At that time, Tantai will not be able to order me at will." Audin Dillon's eyes grew hotter when he looked at the distant Shanpeng King.

This group of them is inherently powerful and noble, and the level of life is the same as that of the original universe of the cosmos sea. It is natural to grow to the **** king as long as there is enough time and resources, but because of this, it is more difficult for them to progress to the **** queen.

Like them, among the world beast kings hidden in the abyss of the void or lurking in the origin continent, almost all of them are in the god-king series.

But even if it is the same God King, the power is still strong and weak.

Like the strongest 'Tantai Palace Master' among them, he can hide in the high level of the origin continent, and his strength also makes these world beast kings not dare to disobey at will.

Except for a few first-tier God Kings, the rest are all second-tier God Kings.

To put it all together... If we only talk about the number of **** kings, the beasts can be compared with the three top forces of the cultivators in the origin continent! On the quality, but also more than!

However, the enemy of the beasts is the entire origin continent. If they really dare to openly appear in the origin continent, they will face the siege of the entire origin continent! Hundreds of **** kings!

The reason why this is so, all parties are so concerted, on the one hand, is because the world beast is the public enemy of all forces, and on the other hand, it is to kill the world beast, which has many benefits! Not to mention the rest, just beheading the powerful beasts and leaving behind some important rare materials are very precious materials that can be used to refine cosmos-level (God-King-level) treasures and other secret treasures.

Thinking about what happened to the eight natural beast gods in the original universe back then, is what happened to the world beasts today.

Therefore, the world beast regards other life forms in the origin continent as food, so why didn't the various parties in the origin continent treat the world beast as prey?

"A real God King, not those weak clones, the main body is not weak." The world beast king 'Odin Dillon' pondered. "I want to defeat him, or there is no problem, but if I want to trap him and prevent him from escaping, or even kill him, it will be difficult. If I try my best~www.mtlnovel.com~ I may not be able to hide my true identity... "

The consensus of the entire beast group is that they cannot reveal their identity!

Although some people from all parties in the origin continent suspect that the beasts are hiding in the abyss of the void, there is no solid evidence.

But once the news of the world beasts hiding in the abyss of the void is exposed, no one will dare to enter the abyss of the void, and it is even more impossible for those world beasts who are hiding in the abyss of the void to fight their teeth occasionally.

And the order of the beast leader...

Although some world beast kings are not convinced by the nominal leader "Tantai" in their hearts, on the surface they still dare not disobey her orders at will.

"He is the cultivator's king of Shanpeng, and his strength is only ordinary among the gods, but he is good at escape." Hiding in the abyss of the void for countless years, the beast has already known all the gods well. Of course, the King of Beasts 'Audin Dillon' also recognizes this Shanpeng King and knows his information.

With a quick calculation in his heart, its eyes narrowed, revealing a fierce light.

"On my own, I kill Shanpeng King alone, and the success rate is not even 10%."

"If you let him know that there are enemies here that can threaten his life, Shanpeng's king will not let his guard down so much."

Indeed, King Shanpeng is not aware of the existence of bounded beasts in the Void Abyss at all. Although he is still vigilant, it is the environment of the entire Void Abyss, not an enemy.

If he knew, he would not dare to expose himself at all, walking in the void abyss so carelessly.

"I can't kill Shanpeng King alone, so call someone else!" Odin Dillon, the king of beasts, made a decision in his heart.

Autin Dillon was full of thoughts on how to deal with the king of Shanpeng. As for Wang Yi? A small master of chaos, with its imprint on his body, is destined to be unable to escape its Wuzhishan, and it will be solved by the way.

[Chapter 953: 1 group of beast kings](#)

Wang Yi didn't know that the treasure he had taken away had been manipulated and a terrifying monster was attracted.

He is dealing with the Shanpeng King.

King Shanpeng did not doubt his identity. After getting the news from Wang Yi, he lowered his head and glanced at him with a smile instead of a smile: "Little guy, based on the news you gave, I advise you that the Void Abyss can be It's not a good place, you should find a chance to leave the void abyss." He suspected that Wang Yi had entered the void abyss by mistake.

Of course, he didn't think too much about it, thinking that this was his clone, and the loss was not serious.

Practitioners with normal brains will not enter the body.

Wang Yi respectfully responded, and then watched King Shanpeng leave, with a sigh of relief.

"Finally dismissed, then I'll leave too." Wang Yi glanced at the surrounding environment. For some reason, he always felt something was wrong.

Wang Yi's intuition is very keen, or there is a factor in the incarnation of the beast.

But he didn't find the beast king who was hiding in the dark. The gap between the two levels was too big, especially Wang Yi did not have strong detection methods. It is also difficult to find the God King who is deliberately hidden by the investigation methods of the Chaos Master.

Even the King of Shanpeng didn't notice it, it can be seen that the king of beasts "Audin Dillon" is very powerful.

After all, being hunted and hiding for countless years...

This also has "invisible and invisible" credit. Every world beast king has the ability to change "invisible and invisible", but it is a pity that there is no way for invisible and invisible to escape tracking when locked.
n0V_eLU5b.c0M

Also because it is invisible and invisible, it is not so easy for every Beastmaster to discover the same clan that they have the heart to hide. They often have to wait until the other party is discovered by the forces of the origin continent before contacting them, and by this time it is often too late... They will either take action and The Origin Continent is hard-nosed and involved together, or they can only give up this clan and watch it be besieged and fall.

The world beast king 'Odin Dillon', who was hiding in the dark, saw that Shanpeng had left, and followed without hesitation, stalked behind him secretly, ignoring the other master of chaos. He had his own special mark on him and ran away. No.

At the same time, he contacted other Beastmasters.

The abyss is vast and infinite. In addition to building the most hidden base camp, the beasts are usually scattered everywhere, each with their own 'hunting ground', and they often gather together only when there is something.

There is a huge black sphere in a foggy place somewhere in the abyss of the void. There are 10,081 holes on the sphere, and each hole is breathing black airflow.

"Bis, Zang Lian, Jin, Felix..." As a world beast king, being able to clone millions of people is their strongest means of life-saving, and 'Audin Dillon' also has clones here. At this time, he began to call out to the other beast kings who stayed here.

brush!

brush!

brush!

...

The interior of the sphere is a self-contained space, which is very vast. There are mountains, seas, mountains and plains, and even kingdom creatures and countless beasts. Of course, other creatures are raised and are food. Army to fight.

In one of the kingdoms, there is a majestic palace. In the palace, a woman wearing a black robe smiled and looked at the countless beings lying low in front of her, and said to the Chaos Lord, who was bending over and bowing her head: "This is the sacrifice of this period. Is it? It looks pretty good, Ke Ling, you have a heart."

The chaotic master respectfully said, "It is my honor to serve the master."

This chaotic master has been completely controlled by the beasts, equivalent to their servants, in his mind, resisting? nonexistent.

Even if the beasts let them die, they will not resist.

The black-robed woman nodded with a smile, stood up from the throne, bare feet as white as jade, walked to the imprisoned beings and looked down at them. "You guys, do you hate me?"

Those beings include practitioners, natives, and primitive beings. At this moment, they are controlled and unable to resist. Although it is useless to resist, they all look at this woman in horror and fear.

"Oh my God, it's the Great Demon King..."

"It's over, it's over, I'm going to be caught by this legendary great devil, and I'm dead."

"My clansmen are all here, my tribe is over, why, why are you so cruel to us."

These creatures selected as sacrifices are all true gods, and the strongest is the eternal true god, which is huge in number.

But no matter how many people, it is nothing in front of the strong.

Not to mention, this world is carefully crafted by the Beast King, one of the countless kingdoms within, and countless lives are their food. The truth can only make people desperate. This is a fate that can never be broken. They are like crops in the field, harvested in batches.

Even if they resist... even the masters of chaos are their slaves, how can these beings who are the strongest but eternal true gods resist?

The screams sounded, and black mist filaments emerged from the black-robed woman, wrapping around these beings, and quickly swallowing them up.

"Alas..." An unfinished sigh sounded, and the black-robed woman sighed: "Unfortunately, these sacrifices are only the Eternal True God at the highest level. No matter how many they are, can only be used to satisfy cravings, it is better than nothing."

She glanced at the respectful and solemn masters of chaos beside her, and their hearts trembled when she saw them.

They clearly know the ferocity of this hostess, even if the servants of Chaos under their command will be separated from time to time and be swallowed by her.

The reason why they don't eat them directly is because they don't want to exhaust the pond to fish.

After all, it is not so easy for the Chaos Master to cultivate.

"Okay, you all leave, I'm going to rest." The black-robed woman said. "Zem, you stay with me."

Having lived as a cultivator for countless years, these world beast kings have also cultivated many hobbies.

Anyway, from the body, they can be completely indistinguishable from other beings, as long as they can accept it in their hearts, there will be no problem.

"Yes, Master." The Chaos Masters said respectfully, and then looked at one of the Chaos Masters with envy or sympathy, and some breathed a sigh of relief, and then quickly left the palace.

And the master of chaos, who didn't know if he was lucky or unlucky, followed the black-robed woman nervously into the palace. Soon after, his painful voice came from inside...

"Biss, come here!"

At the moment when the black-robed woman was getting excited, a voice came over and interrupted her interest.

The woman frowned, glanced at the blood-stained moaning servant under her body, and stood up, her body as white as jade was covered in blood, and the corners of her mouth were also bloody, which looked strange and bloody.

The woman is not happy.

"Audin Dillon, why are you looking for me at this time?"

She put on the black robe again, and left the palace in one step without looking at the servant of Chaos Lord, who was almost torn apart.

When she appeared again, it was already a huge suspended island, in a majestic palace in the center of the island.

[Chapter 954: Greedy Beastmasters](#)

In the majestic black palace that is hundreds of millions of light-years high, there is an endless black airflow.

In the center of the black airflow, there is a round black crystal stone table, pure black, as if the black that can swallow everything, and huge white thrones with delicate carvings surround the black stone table.

A figure appeared out of thin air in the hall, wearing a black gauze skirt, with long black flame-like hair, coquettish and charming, it was the black-robed woman who tortured her servants just now.

"Biss, you're here."

"You're a little slow."

"Looking at you, you must be torturing your poor servants again."

The few world beasts who were already sitting on the white throne said with a smile.

"Shut up!" The black-robed woman's eyes swept away coldly, her pure black eyes looked extremely evil, and she didn't have a good attitude towards these fellows. She looked at the white figure in front of the round table, "Audin Dillon, why are you calling us in such a hurry?"

Gathered here, there are only five world beast kings, of which four are clones, and only one appears on the main body.

Obviously, this is not a major event involving the entire beast group, it is estimated to be a private matter, so Odin Dillon just informed them.

Odin Dillon was the only one present to show the real body of the beast, that is, hands, feet, and a head, with a mouth, a nose, two eyes, no ears, and two snow-white sharp horns on its forehead. Bend the spine upwards. Every beast king is the most noble life in this Fang Yuan world, incomparably holy, incomparably beautiful, its beauty, ingenious, and contains supreme mysteries.

The other world beast kings, however, showed the appearance of other beings.

For example, opposite Odin Dillon, there is a young man with green long hair, his eyes are so gentle, and his whole body is full of vitality, no one would have thought that this is the notorious, evil and cruel world beast king.

The other two are tall figures in bronze armor, a burly man with gray rock skin and thick lips, and a man wearing cool silver armor, two pairs of long pointed ears, and purple eyes. , A slender, innocent girl blinking her eyes.

The black-robed woman 'Bis' looked at her companions with disgust.

Obviously, each and everyone of the world's beast kings is very bloodthirsty, but they like to pretend to be harmless.

Even if they walk in the outside world in disguise, most of the world beast kings appear in a "positive image", often punishing evil and promoting good, and fighting injustice.

Who would have thought that the great devil, who is so evil as the public enemy of the Origin Continent, would actually do good deeds.

This is a camouflage.

But the black-robed woman 'Bis' couldn't stand it. She thought from the bottom of her heart that world beasts are proud and should not bow their heads!

Of course, the beasts are extremely cunning. Even if the black-robed woman is not used to it, she has to admit that this is the right thing to do.

After the black-robed woman sat down, Odin Dillon opened his mouth and glanced at these companions. The ones he could call were those who had a good relationship with him. They all have their own small circles, and the voices sounded in a low voice.

"Bace, you should all be on your own hunting grounds, aren't you running around?" Odin Dillon asked.

The void abyss is vast and intricate.

However, the world beast kings have their own hunting grounds. Each world beast king generally only operates in the area designated by themselves, and will not break into other people's territory. This is also a decision after their consultation to avoid conflicts due to prey. . Of course, being invited is another matter.

Except for a world beast king whose body stayed in the lair, everyone else nodded.

It's okay they don't run around.

The white world beast nodded in satisfaction, and the black-robed woman Beis, who was disturbed and very unhappy, said coldly, "Odin Dillon, you haven't said why you called us here."

"Haha, Bees, don't worry, I called you here, of course there is something good to take care of you." Odin Dillon laughed.

"That's right, Sister Bees, how could Big Brother Odin Dillon joke around with us, there must be something to call us over." The innocent girl with purple eyes smiled tenderly.

The black-robed woman snorted coldly and glanced at this lovely purple-eyed girl. This old guy, who was older than herself, actually called her sister. She wanted to gag. "You can call Tantai if you want. Don't

call me sister. I can't bear it. Also, if you have anything, just tell me. I don't have time to chat with you here."

The black-robed woman's tone was harsh, but others didn't take it seriously, apparently already used to her character.

The green long-haired boy wearing a green robe, with a beautiful secret pattern on his face like the veins of leaves, and his eyes full of life, looked at Odin Dillon, "Although Bisi is very direct, but yes, you secretly took the four of us Call, probably because you don't want others to know, it's so secretive, what the **** is going on."

The other three-headed beast kings also looked over.

Audin Dillon was no longer out of the woods, and his eyes gleamed.

"I found a god-king."

"what?"

The green-haired boy, the simple and honest man, the purple-eyed girl, and the black-robed woman were all surprised.

"A **** king clone, let you call us over with such a big fanfare, can't you settle it alone?" The black-robed woman said dissatisfied first.

God King, they are indeed very coveted, but almost all of the God King will appear in the abyss of the void. It is impossible to bump into the main body. You have to go outside to find it~www.mtlnovel.com~ and it is strictly forbidden to be among the world beast kings. If you go out privately, even if you do something to the practitioners, you are generally only allowed to take action against the life below the Chaos Lord. After all, every time a Chaos Lord dies, it will attract the attention of all parties.

Only in the abyss of the void, they let go of their hands and feet, because the abyss of the void even if those strong people want to rescue, there is no way, there is no way to escape, even so, in order to prevent the news from leaking, they will disguise themselves before they make a move, so as not to let others Find out that you are a beast!

As long as the Origin Continent life camp can't catch the clues, they can always hide in the dark.

Odin Dillon said: "If it's just a clone of the **** king, of course I can kill it easily, but what I found this time is not the clone of the **** king."

Normally, most of the avatars of the **** king are at the chaotic master level. Generally, the eighth-level combat power of the Yuanshen Palace can reach the ninth level of the Yuanshen Palace, because the ninth level of the Yuanshen Palace is barely close to the god-king level.

But the world beast kings are the main body shots, most of the world beast kings are the second level of the **** king, even if the disguise does not reveal too much strength, killing a **** king clone with the strength of the eighth or ninth level of the Yuanshen Palace is extremely easy!

The eyes of the four-headed beast king lit up, and even the innocent purple-eyed girl who had been acting all along also exuded an astonishing aura.

"Could it be that what you met is the real King of God?" The purple-eyed girl couldn't help asking.

"Haha... That's right." Odin Dillon laughed: "I was lucky, I found a prey not long ago, tracked it, and found a god-king body, the Shanpeng king of the cultivator power."

"Lord Shanpeng?" Several world beast kings looked at each other.

"Only him?"

"Yes, only him."

Several world beast kings smiled, greedy smiles.

"Then he's dead!"

[Chapter 955: Divine King's Tribulation](#)

The beasts are murderous!

Compared with the practitioners, they are on the weaker side after all, and there is still a gap in overall strength. Even if they enter the origin continent, they are sneaky and dare not fight head-on. Fortunately, they were born with a very strong ability to save their lives. If they couldn't beat them, they could also lose them, so the practitioners could only watch them keep getting stronger.

They are incompatible with life on the origin continent!

Any opportunity to weaken the cultivator's strength will not be easily missed!

"This is a once-in-a-lifetime opportunity to get rid of a cultivator, a god-king."

"The Lord Shanpeng must have a clone. If you want to kill it, it is best to kill the main body and the clone together."

Whether it was to devour the temptation of the God King or to consider their own faction, these world beasts began to discuss with all their might.

The five world beast kings are all confident. Except for one of them, the simple and honest man is only the first-level peak of the god-king, and the others are the second-level god-king.

In a place like the Void Abyss, there is almost no chance of missing a **** king who is not at the first level.

The only trouble is that with so many super beings working together, if the King Shanpeng cannot be quickly resolved and let him communicate to the outside world, I am afraid that the rumor will be leaked.

Of course, there are so many powers and masters in this world, you may not necessarily suspect the world beasts, and you may regard the murderers as other cultivator powers, primitive beings, indigenous people?

The reason why the beasts hide their identities is also for this purpose.

When the discussion was over, one of the beast kings present, the purple-eyed girl hesitated, and said, "Do you think we should tell others about this?"

The green-haired boy said, "Let's talk about it after we start, otherwise it won't do us any good."

The other world beast kings agreed.

To solve a **** king who acted alone and lost in the abyss of the void, a few of them are enough.

Want so many people to know what to do and share more benefits?

What they are most worried about is actually being blocked by the most prestigious "Tantai Palace Lord" among the world beast kings. After all, the "Tantai Palace Lord" is stronger than them, and the world beast king can ride the wind in the chaotic place of the Void Abyss. Shun Shui is also because of the "Tantai Palace Master", so she received the support of many world beast kings and became the leader of the world beast.

Therefore, very few world beast kings are willing to disobey the Tantai Palace Master.

The reason why the world beast kings stay in the abyss honestly is also bound by the "Tantai Palace Master", but every once in a while, a group of world beast kings lurk out, one is to cultivate, and the other is to relieve loneliness.

In general, the beasts are divided into three situations. One is that the body is scattered all over the Void Abyss to hunt; the other is to sneak into the Origin Continent to walk in a new face; the third is to guard the nest in the Void Abyss. The nest is very important, so there must be Several world beast kings sit on the main body.

"call!"

After the several world beast kings dispersed, the world beast king whose body was sitting in the nest returned to his palace, thought about it, and came to a space in the nest.

It was a space where birds and flowers fragrant. There was a beautiful palace made of sapphire standing in the clouds and mist, surrounded by countless beautiful maids with strong breath.

In fact, these beautiful maids are all transformed from world beasts.

"Lord Tantai." The young man with green long hair came to the palace and passed in.

brush!

A hazy white figure appeared in front of the palace. It was a beautiful and noble woman. She was wearing a simple snow-colored dress. There were two sharp, white, jade-like horns on her forehead that were slightly curved back. Those eyes were even more profound. As peaceful as the universe.

She walked barefoot to the palace gate.

Look at the green-haired boy. "Exactly, aren't you in charge of the nest during this time? What's the matter with me?"

The entire lair is a super treasure, equivalent to a huge universe, and the real controller is actually the Tantai Palace Master.

But her body is in the origin continent after all, it is not convenient to stay here, so she needs other beasts to assist her.

"Lord Tantai, I have something to report to you..." The green-haired boy smiled. Despite being proud, the green-haired boy bowed his head slightly in front of the leader who was most likely to take the next step.

However, they are all beast kings, and they are equal in terms of identity. Even if the Tantai Palace Master usually issues orders, he has to discuss with them.

Not long after, according to the agreement with other world beast kings, the green-haired boy "exhausted" his body and flew out of the lair, following the information given by Odin Dillon, and flew towards the depths of the void.

...

Void abyss.

Wang Yi is thinking about his "tree of enlightenment". However, he is no longer the King of Beasts. After all, if it wasn't for cultivation, even though he had a body as a world beast, he was more used to being a human being.

The "Dao Enlightenment Tree" was signed by Wang Yi in the Wuji universe before he became the master of chaos. It is a treasure to assist cultivation. It has a certain effect on the king of gods. It is very precious. Wujianlou also regards it as a treasure. Let many strong disciples go to practice.

But the tree of enlightenment that Wang Yi got did not bloom, and if the tree of enlightenment wanted to have a real effect, it had to wait until the flowers bloomed.

Generally, a reincarnation era will only bloom once~www.mtlnovel.com~ The flowering period is only a short one hundred thousand epochs.

Wang Yi's previous research found that the "Tree of Enlightenment" will only bloom in an era of reincarnation, that is, it will wait until it enters the fifth era of reincarnation.

After all, Wang Yi has only cultivated in less than four times of reincarnation.

It is too long to wait for the flowers to bloom once, and it will take a long time to reincarnate, so Wang Yi pondered using various precious treasures to "pull the seedlings and help them grow". As a result, recently, he really found that the "Tree of Enlightenment" showed signs of bearing flowers.

Only Wang Yi can do this kind of waste of precious treasures to "catalyze" the growth of the enlightenment tree. After all, the enlightenment tree in Wujianlou will open every once in a while, they just need to wait, there is no need to do so.

Looking at the ancient tree whose main body was snow-white, with lush green leaves but no blossoms, Wang Yi touched its trunk with satisfaction and nodded. "Well, the results are good, make persistent efforts and continue to work hard."

Although treasures are precious, Wang Yi doesn't care much. What he cares about is the speed of cultivation and the improvement of strength.

After various events recently, Wang Yi has also paid more attention to improving his strength.

His current level should be on the eighth floor of the 'Yuanshen Palace', and he is still some distance away from the ninth floor of the 'Yuanshen Palace', which is the ultimate chaotic realm.

Going up, is to touch the realm of the king of gods.

"This void abyss is really miraculous, especially the spatial structure. It's so mysterious! I feel that my void path can be enlightened here." Wang Yi looked at the scene outside.

This is a space of about billions of light-years. The space is like a twisted tree trunk with layers of membrane walls. Even the interior space is folded and twisted in many places, which is very strange and unpredictable. When walking, accidentally cross into another area. Of course, there are places where the creatures will be torn apart directly.

Wang Yi looked at that space and was a little intoxicated.

[Chapter 956: The Crisis of the Shanpeng King](#)

Wang Yi indulged in the mystery of this vast void.

There are countless ways to practice on him.

However, the realm and the Dharma door are different concepts. When the realm is reached, the Dharma door needs to be created by oneself! Or learn from others!

There are many powerful people in the origin continent, there are many gods and kings, and they are also divided into many paths.

But in the void together, it was vaguely headed by the Master of Wujie.

Wang Yi has obtained the master of Wujianzhuan "Dao of the Void", plus other precious methods, and has a deep understanding of the Void.

According to Wang Yi's guess, Master Wujian is at least the second level of the universe **** of the void, and it may even be the third level!

Wang Yi's eye-opening description of the void in "The Way of the Void" was astounding.

All in all, there are nine veins in the void. It is divided into heaven, earth, storm, fog, essence, emptiness, line, multiplicity, and annihilation.

Any one that reaches the extreme is the God King, the two veins reach the extreme and the fusion is the second level of the God King, the nine veins reach the extreme and then merge, and the nine veins merge to reach the great perfection of the Void Dao, which is the third level of the God King. It is the ultimate state.

It's just that Wang Yi got the inheritance too late, the realm is too low, let alone the ultimate, none of them have reached the chaos realm.

However, after all, the "foundation" has been laid, and it is more convenient to understand the void than other chaos masters.

He looked at the unpredictable space in the palace, his eyes glowing.

"This enclosed space seems to be still growing and changing." Wang Yi faintly felt the change in space, "and the twisted and folded space here is really stable enough."

Eye-opening, although it is in the chaotic realm, and he is also a master of Wujiezhū's unique skills, the magical mystery of the "Void Abyss" under the operation of supreme rules still makes Wang Yi extremely amazed. Just a closed space that is still growing is so peculiar. It made Wang Yi's understanding of the void a little wider. This is 'eye-opening'. He didn't dare to imagine the many changing structures of the void without seeing it with his own eyes.

Wang Yi watched the space in front of him while concentrating on comprehending the first picture of "Dao of Void".

With the help of space, we can confirm each other.

The three-dimensional pattern in front of Wang Yi has countless threads flying, and the pattern becomes more and more complicated and delicate.

The cognition of the void in his mind became clearer and clearer.

This picture seems to be dissecting the void, constantly studying the 'minimal' composition of the void.

Wang Yi was completely immersed in it.

This is also an opportunity for him.

hum! Finally, at a certain point, the void he was observing, the seemingly empty space in front of him, suddenly became larger, enlarged, enlarged under the observation of his eyes... Countless surging energy began to appear in the void, which was diffused. The power of origin everywhere. These energies are composed of countless tiny particles, like rice porridge, which are densely distributed throughout the void.

"Zoom in again." Wang Yi observed more deeply. Wow, the countless particles that were originally very dense, each one seemed to be as huge as a planet in the eyes, and the distance between these particles was very large and empty.

Wang Yi's heart is not fluctuating, although it seems to be the ultimate, but it is not enough.

According to the mystery of the first picture in "Dao of Void", it is to study the smallest composition of the void.

Wang Yi stared at the empty nothingness between countless particles, trying his best to observe, trying to go deeper.

But he couldn't go any further. To observe this point, it was already the pinnacle of his control over the void.

Wang Yi understood that his understanding of the void was not deep enough.

Since the perception is not enough... then continue to comprehend.

Wang Yi continued to meditate.

.....

Time passed, and when Wang Yi was comprehending the void, a hunt was about to break out somewhere in the abyss of the void.

A ghostly figure walked through the void, looking at the giant Jinpeng in front of him from a distance.

In other directions, there are also terrifying figures approaching rapidly.

Although the distance is still a little far, the distance is constantly shortening.

Just like a pack of wolves hunting and forming an encirclement.

But Shanpeng, who was advancing in the abyss of the void, knew nothing about it.

Audin Dillon and several world beast kings are patiently waiting for the opportunity, looking for the most suitable time to launch.

Soon after, the time came.

Lord Shanpeng soon arrived in a chaotic space, the surrounding space was layered upon layers, and there were many fragments, various colors, a colorful world, extremely gorgeous.

This is a chaotic time and space in the abyss of the void, where dangers lurk everywhere, even if the king of gods is caught in it, it is difficult to get out.

King Shanpeng stopped here, hesitating, not knowing whether to break in or not.

Normally, those unknown and dangerous places should not be broken into, because it will bring risks.

But in the abyss of the void, if you don't explore, you will always stay in a safe place, and you will never find a way out.

King Shanpeng seemed to have figured it out, made up his mind, and rushed in.

"Go!"

And the secret world beast kings who have been waiting for the opportunity to see the Shanpeng King entering the trap, their eyes are excited, and they can't wait to launch an attack.

"Huh?" King Shanpeng, who was flying with colored space debris, suddenly felt a huge sense of crisis in his heart. He turned his head sharply, his golden pupils shrank, and suddenly there were successive black shadows in the depths of the vast void behind him. rising.

"Someone? Could it be that he has been following me, and I have never noticed it?" The thought flashed through the head of Shan Peng, and a chill suddenly appeared in his heart. It wanted to see through the true identities of these shadows, but found that it couldn't see through.

This made it even more of a bad premonition. "Void Abyss, how can there be such a strong person."

"Boom—" A dazzling green light lit up~www.mtlnovel.com~ One of the black shadows cast a mysterious field, the whole field was shaking, and even Shanpeng lost his sense of the surrounding space under the interference of the field , and the speed is also greatly reduced.

"Not good!" King Shanpeng tried his best to get rid of it.

"Who are you?" King Shanpeng wanted to identify the other party's origin.

But the Beast Kings didn't mean to speak at all, and the shot was a lore.

Another black shadow in an indistinct time and space revealed scarlet eyes, and blood-colored shadows appeared all over the body. The void buzzed, thousands of blood-colored shadows, densely packed, had already covered the sky and covered the sun, and rushed towards the Shanpeng King.

"Damn it!" How could King Shanpeng sit still and wait to die?

"Roar~~~" With a low roar, King Shanpeng's whole body began to release an incomparably dazzling golden light. The light was so dazzling that the Beast Kings couldn't see everything clearly, but he could still judge by the sense of space. opponent's trail.

At this moment, the space around King Shanpeng began to distort, and it seemed to have turned into an incomparably small point, followed by a dazzling light!

"Hey!" King Shanpeng broke through the space and escaped unexpectedly.

It is obvious that the situation is not right, these mysterious powerhouses who attacked themselves are all in the realm of gods and kings, and Lord Shanpeng chose to flee without fighting.

"Want to escape?" A sneer came from the void.

I don't know when, a pair of **** hands covered with black scales stretched out from the nothingness and grabbed onto the Shanpeng King who was using a secret technique and was running away, and grabbed it tightly.

[Chapter 957: Fallen God King](#)

"I've caught you." A bone-chilling laughter sounded, making King Shanpeng pale.

"Chichi..." The **** hands spread out abruptly, turning into black pythons, which were directly wrapped around the body of Shanpeng Kingdom, and the black airflow penetrated into the body of Shanpeng Kingdom crazily.

In a blink of an eye, black runes full of ominous aura appeared on the golden feathers of the Shanpeng King.

"Ah, ah, break it for me!" Feeling the crisis of death, King Shanpeng began to burn his divine power frantically, wanting to disperse these invading forces and restore his freedom. The divine king's might exploded, and the entire space was shaking.

Although King Shanpeng tried his best, it was still useless!

Because the one who shot was the five-headed world beast king, and each of them was stronger than the Shanpeng King!

With the combined force, the Shanpeng King was suppressed even though he tried his best to burn.

Soon, its golden and noble body was covered with black runes, looking extremely strange.

.....

Origin Continent.

Mountain Peng Country.

In the secret room of the huge and luxurious palace, a middle-aged man wearing a golden ornate robe and a crown suddenly stood up, with deep shock in his eyes.

"what....."

He looked down and saw dense black runes like snakes appearing on his skin.

He is the avatar of Shanpeng's king, with the battle power of Chaos Realm, and he has always been in the capital.

However, at this moment, he realized the huge crisis facing the ontology.

Even, the enemy's strange attacks all extend along the main body to the clone side, which cannot be stopped at all.

"What the **** happened?" Shanpeng's distracted body was horrified and desperate. If King Shanpeng is not in the Void Abyss, the communication with the clone consciousness is very fast, but because of the influence of the special environment of the Void Abyss, the induction is blurred, even if King Shanpeng wants to convey information to the clone, it is too late.

This is also one of the reasons why the beast kings dare to do it.

In the abyss of the void, the beasts are far more familiar than the life of the origin continent, and they can make full use of the environment there to surround and kill the strong men of the origin continent.

There was no escape for them, and they couldn't even ask for help.

Mysterious places like the Void Abyss, because they are close to the original space, are affected by the supreme rules, and have all kinds of mysteries, and other vast voids. They can all be reached by direct ultra-long-distance teleportation, but the Void Abyss cannot. Even the avatar's induction is affected.

Under the golden robe of King Shanpeng at the moment, the skin, arms, and face are covered with those evil black runes, even in his body and soul. King Ren Shanpeng was extremely frightened and tried his best. Can't get rid of it.

"what....."

A powerful evil aura suddenly burst out in the secret room. But all movement was isolated by the formation.

"Boom..." King Shanpeng's consciousness of life was completely destroyed, and only his body was left standing there, but there was no breath of life.

King Shanpeng, a dignified god-king, has fallen today.

King Shanpeng fell, and the formation spirit in charge of the operation of the palace formation immediately felt it.

"The king has fallen!"

The chaotic master of Shanpeng Kingdom arrived quickly.

When it was confirmed that the Lord of Shanpeng had really fallen, the entire Shanpeng Kingdom soon fell into chaos.

The fall of a god-king is not a trivial matter. The news spread to the origin continent, causing huge shocks among many forces in the origin continent.

.....

Void Abyss.

"Hahaha... Be happy, be happy!" Several figures stood in the shattered space layer, green-haired boy, purple-eyed girl, simple and honest rock man, Beast King Odin Dillon... all of them had expressions of satisfaction on their faces.

"Is this what the king of gods tastes like? It's so wonderful. The chaotic masters I've eaten before, and even the clones of the **** king can't compare." The black-robed woman Bi Si blushed, her body trembled slightly, and she was still immersed in the swallowing just now. In the feeling of eating the king of gods.

For the beasts, swallowing is an instinct, especially the more powerful beings that are swallowed, the more satisfied they are.

Devouring powerful beings can also help them grow.

"I feel like I'm stronger again." The purple-eyed girl stretched out her pink tongue and licked her lips, her eyes intoxicated, showing a hungry expression, "It's a pity that there is only such a god-king, if he swallows a few more, it's especially powerful. Of those, I might grow faster."

The black-robed woman sneered, "Zang Lian, are you dreaming? These god-kings are more cautious than each other. After so many years, we have only met such a god-king as King Shanpeng in the Void Abyss. We devour, and it would be good to eat one."

The simple and honest rock man said in a low voice: "It's really strange to say that, for no reason, why did the Shanpeng King appear here, the abyss of the void, is there anything that attracts him?"

"We have a credit for killing a cultivator, a **** king." The green-haired boy smiled. "And he didn't reveal his identity, it's okay to be known by the nest."

Now that King Shanpeng has been dealt with, these beast kings plan to return to their respective territories.

And Odin Dillon smiled as he watched them leave.

This time, because he was the one who discovered and led the crowd to besiege a god-king, he devoured the most after the death of Shanpeng.

As for the treasures left by King Shanpeng, they were also divided.

"Well...Since King Shanpeng has eaten it, there is still that little guy left." The world beast Odin Dillon turned his head to look in a certain direction in the void, and laughed. He has not forgotten, the Chaos Lord with his imprint.

Although Chaos Master is not helpful to him, it is also a good food.

The world beast has never been said to be full, not to mention that in the abyss of the void for countless years, you can only eat captive creatures, and can't eat to your heart's content. .

A chaotic master naturally does not need help, he can do it alone.

"Hey hey, little guy, I'm here."

brush! Odin Dillon disappeared in a flash~www.mtlnovel.com~ At the same time, the news of Shanpeng's death was known to several **** kings in the void and abyss.

They were all shocked, disturbed and puzzled.

Destroying the cave, many incarnations of the god-kings gathered to talk.

The atmosphere was a little depressing.

"Have you all received the news, Shan Peng is dead, the imperial avatar of Shan Peng Kingdom is confirmed to be dead, and the incarnation of his divine power left here has also dissipated." Lord Bao Liu's voice was low.

The other **** kings all had solemn expressions.

King Shanpeng died, and he was trapped in the abyss of the void, so the only possibility of death was the abyss of the void.

Fan Bei's face was as cold as a thick layer of frost. "The abyss of the void is very mysterious, but I have never heard of the danger of making the king of gods fall. What is it that makes the king of Shanpeng fall?"

Since they can make the Shanpeng king fall, then they are in the same danger.

Originally, what they were most worried about was how to leave the abyss of the void, but the sudden fall of the Shanpeng King, now they have another worry.

The most important thing is that the Shanpeng King fell too fast, and there was no information left before his fall, so they didn't know why Shanpeng fell.

The unknown...is the most terrifying thing.

[Chapter 958: bloom](#)

Several **** kings in the void abyss are very worried. The death of King Shanpeng sounded a wake-up call for them, letting them know that even the king of gods would die in the abyss of the void.

How long has Shanpeng fell into the abyss of the void, and he is already dead!

In a space with a unique structure in the Void Abyss, a black palace is suspended.

Wang Yi is comprehending the Way of Void. Of course it didn't go well.

"Huh?" Suddenly Wang Yi's heart moved, and his consciousness had come to another part of the palace.

Wang Yi's figure appeared under a snow-white ancient tree with luxuriant branches and leaves.

Wang Yi looked at the petals that had quietly bloomed.

There is also an intoxicating floral fragrance that fills the soul, and there is a hint of joy on his face.

"The flowers are blooming."

"It's really timely." Wang Yi said with a smile, "With the help of this Taoist tree, my speed of comprehending the Way of the Void can be greatly improved."

"But... the time to bloom is only one hundred thousand epochs, and I have to cherish it."

Wang Yi immediately sat down cross-legged under the ancient tree, and he could still see through the palace and see the space in the distance, which was layered upon layers, twisted and confused but with a strange beauty, and quickly practiced with the help of the fragrance of flowers.

As the top auxiliary cultivation treasure in the origin continent, the enlightenment tree has the effect of allowing practitioners to enter a magical and high-speed cultivation state.

Simply put, it can raise the "upper limit" of the practitioner's cultivation.

It has a certain effect on the king of gods, let alone Wang Yi.

Wang Yi felt that the fragrance of the flowers was immersed in his soul, his brain was extremely ethereal, countless inspirations arose, and his thinking was extremely active. He was looking for the spatial structure that had troubled him and the many unknowns in the first picture of "Void Derived Dao". When you get to the root of the problem, it becomes clear.

In his eyes, a pattern constantly appeared, which became more and more mysterious.

Time seems to stand still under the old tree.

In the comprehension, time seems to pass quickly.

Under the observation of Wang Yi's eyes, the distance between the countless particles of source power was huge before, but it was empty and could not see anything.

But at this moment, this empty area suddenly enlarged sharply... In fact, it is the eyes watching, in fact, after comprehension, the perception of the soul is deeper, and the perception of the soul is equivalent to seeing it with the eyes.

The distance between the countless particles is now vast and boundless, and it is faintly possible to glimpse the vague existence of a Momo Lake.

Wang Yi felt a faint excitement in his heart, he was touching some unknown and mysterious side of the world.

There is like an endless black cloth! Could it be that the void is essentially an endless black cloth?

However, Wang Yi knew that it was wrong. This was because his understanding of the void was not deep enough, and he had not even fully understood the first picture. Obviously, his analysis of the void was not deep enough.

With the help of the precious tree of enlightenment, Wang Yi's soul comprehension speed has been greatly improved, and at the same time, with the help of the mysterious structure of the space in front of him, "Void Derived Dao Inheritance Information Guide, continuous comprehension and research, to analyze the nature of the void.

And while he was trying to comprehend, an evil figure in the distance was also approaching.

"This little guy can really run. I only solved the Shanpeng King, and he has run so far." The Beast King 'Audin Dillon' was also a little surprised.

He took his companions to track and follow the Shanpeng King for some time. The journey was long and far, and the speed of the Chaos Lord was beyond his expectations.

But he didn't know that Wang Yi felt a hint of danger, so at that time he did his best to hurry, and the speed was naturally fast.

And after he arrived at that space, he couldn't sense the crisis, and naturally stopped again.

After all, it is normal for the Void Abyss to be in danger, and Wang Yi didn't know that he was being followed, so he stopped to practice.

And this made it easier for the Beast King to track him down.

"Hmph... It has stopped, but that area is very close to the old guy's territory." The world beast Odin Dillon clucked.

The old guy in his mouth obviously made him afraid.

The Beast Kings worked hard to build their nests in the Void Abyss, but only after they were established did they discover that the Void Abyss was already a site of existence.

The opponent is entrenched in the depths of the void abyss.

The two sides also clashed.

There are many world orcs, and all of them are in the realm of gods and kings. In the origin continent, they are all the top forces such as Wujianlou, Jieshan Palace, and Dayue Kingdom! It can be said that this is a powerful force! And the other party is only one!

The result was that the beast was severely taught a lesson and beaten to the ground. The strength of that existence reached an unbelievable level, and the means were unbelievable. Even in the abyss of the void, it was an invincible existence! The strongest among the world beast kings can't match each other! Even if you gather all the power of the beasts, you are easily defeated! If it weren't for the other party's mercy, maybe the genocide might be possible.

Obviously, there are a lot of second-level **** kings among the beast kings in the world, but the gap in strength between the two is very disappointing.

It is like the gap between the God King and Chaos Realm.

After a **** lesson, since then, the world beasts have always walked around the place~www.mtlnovel.com~ Fortunately, the other party always seems to be sleeping and doesn't like to move around. One more neighbor doesn't care much, so both parties can stay safe and sound in the void and abyss.

Thinking of the terrifying existence and origin of that existence, the world beast Odin Dillon had deep fear in his eyes.

"Is there an existence left before the Great Destruction of the Chaos Void..."

The Beast King also knows the secret of the Great Disruption of the Chaos Void. The Great Disruption of the Chaos Void is like a cycle of birth and destruction in the universe. Their Fang Yuan World, after a long period of evolution, will eventually enter the Great Disruption.

At that time, all life in the source world will perish with destruction and cease to exist.

Even if he is as powerful as a **** king, he can only have a chance to survive the cataclysm and continue to the next era if he reaches the extreme.

Ever since they learned that the Origin World would fall into a catastrophe, the real purpose of the Beasts is to destroy everything in the Origin Continent, devour everything, and let more powerhouses in the group take the next step.

Only in this way can there be a chance to resist the reincarnation of the source world and let the beasts continue to the next era.

...

time flies.

The dark and quaint palace was quietly suspended in the void. In the palace, a black-haired man in a fiery red robe sat cross-legged with his eyes closed. There were endless void fluctuations around him, and countless void runes were born and evolved from the void. disappear.

After a long period of comprehension, under the guidance of "Void Deriving Dao, comparing the natural mysteries of space in front of him, and constantly studying and analyzing the void, Wang Yi's cognition of the void has become higher and higher, and the void is gradually revealed in front of him. Open the veil of mystery.

"boom"

Finally, on this day, Wang Yi's soul was shocked, and his whole person suddenly became enlightened, and he completely understood the first picture of "Void Expansion Dao."

[Chapter 959: dumbfounded beast king](#)

When Wang Yi comprehends the first painting of "Void Deriving Dao", his "perspective" has undergone a miraculous change.

It was as if ordinary mortals could see farther with a telescope. After comprehending the first picture, Wang Yi's understanding of the void reached a new level.

A mysterious new world opened a door before him.

"Wow-"

Originally, the tiny extreme of emptiness in the eyes, all saw the boundless black cloth of Momo Lake.

At this moment, the black cloth quickly became clear under observation, and it continued to magnify hundreds of millions of times.

Suddenly, I saw countless black particles, and these black particles formed layers of endless 'black cloth'.

The superposition of layers of vast and boundless black cloth, layer upon layer, forms the core existence of the void.

Wang Yi exhaled softly, with a bright smile on his face.

"It's finally done."

"This is the real mystery of the void!" Wang Yi said with emotion as he looked at the boundless, layered black cloth.

Like teleportation, tearing out the void channel... In fact, these core 'black cloth' should be formed in essence, but most strong people can use it, but they do not understand the most essential reasons. Like those Chaos Realm giants purely relying on the 'miniature universe domain' to forcibly manipulate them, but they haven't really found out - it is these 'black cloths' that are mobilized by the mystery of the rules.

In other words, you can make tools out of materials, but you don't know what the intrinsic molecular composition of materials is.

These are two realms, the former is undoubtedly superficial, and the latter directly points to the core essence.

"It's amazing." Wang Yi stared at the countless black particles that made up the black cloth.

In his view, every black particle seems to be several times larger than the watermelon in the eyes of ordinary people. These black particles are not solid, but are like spheres condensed by black fog. There is a dark hole in the center of the black fog sphere, like a passage leading to an unknown place.

Wang Yi's perception penetrated through the holes of the black particles.

In the center of the sphere where the black mist condensed, the dark hole was like a channel, and Wang Yi's perception carefully penetrated into it.

He knew what was on the other side, but he was a little nervous the first time.

When Wang Yi perceives what he "sees" through the holes of black particles, it is an indescribable existence.

Wang Yi's perception reluctantly observed 'it' through the hole. While observing 'it', because his perception touched this area, he also naturally saw the boundless area! He saw countless other holes leading to this place, and through those holes, Wang Yi saw the space region of billions of light-years, and even the vastness of the world.

The strange and complex spatial structure of the Void Abyss seems to have become "clear and clear" in his eyes at this moment. Although there is still a feeling of seeing flowers in the fog, it is many times stronger than the previous blackness.

And Wang Yi saw that, the farther the distance, the farther the hole was from him, and he could only barely see the lake.

Even Wang Yi vaguely saw the border of the "Void Abyss" leading to the outside world.

Some of the holes in the black mist come from the breath of the heart season, and I don't know where to go.

But Wang Yi found a familiar atmosphere of violent destruction, that is, the cave of destruction.

The most massive place he saw was an incomparably huge continent in the chaotic void, but because it was so huge, there were countless holes leading to it. of land.

That is the continent of origin.

This feeling. It is like a life in a two-dimensional world, looking up at a three-dimensional world. What Wang Yi exists in is a two-dimensional world, and what he sees through the black fog hole is a three-dimensional world, which greatly shocked Wang Yi. When his perception entered this world, he saw every part of the whole world he was in! He can "see" the abyss of the void, the chaotic void, and the distant origin continent. This is the high above the world level.

Wang Yi took a deep breath and realized it in his heart. As long as he connects two holes to form a passage, then he can go directly from one place to another! For example, directly from the void abyss to the distant origin continent!

Such a far and ultra-long distance shuttle, even the cosmic gods cannot do it, and even those cosmic gods who have not penetrated the essence of the void cannot find the black fog particle hole, let alone connect any two particle holes to form a channel to reach the distant place. land.

This is different from those powerhouses who are good at ultra-long-distance teleportation. This is a more profound method.

Because even those giants who can teleport over long distances cannot see the essence of the void, let alone enter or leave the abyss of the void.

In the entire origin continent, only the Wujian landlord can do it!

In the same vein of Wujianzhu, it is called "Breakthrough Teleportation".

In the Origin Continent, it is not only the Wujian landlord who follows the Void line, but although some people who take the Void Road in the other direction have reached the level of the Cosmic God, the Void Manipulation is relatively weak, and it is not enough in the 'microscopic aspect', and even ultra-long distance teleportation is done. No, what they are doing is a 'super-long-distance space shift'.

The real lineage of Wujianzhuzhu actually dislikes this "ultra-long-distance space teleportation"~www.mtlnovel.com~ They call their own "Breakthrough Teleportation" to distinguish them.

Of course, whether it is ultra-long-distance space teleportation or "Breakthrough Teleportation", it is not invincible. Some powerful means of the origin continent, such as super space ban! With the help of the secret treasure, the surrounding space is completely banned, and even the teleportation technique cannot enter.

Even so, the world-breaking teleportation technique is unparalleled in terms of escaping on the road, and it is extremely powerful. There are very few people in the vast origin continent who can master this method. But now there is one more Wang Yi. And even for him, there are many opportunities, and it takes a lot of effort and talent to make achievements.

"Huh?" Wang Yi suddenly realized that there was a place that his "sight" couldn't see through.

It was a distant place ahead, a void, shrouded by an invisible barrier.

An invisible barrier shrouded all the black particles corresponding there.

Wang Yi's prying method was carried out through the black particle holes, and the black particles were isolated by the barrier, so he naturally couldn't see them.

Wang Yi couldn't help but become curious. With this kind of void exploration method he has now mastered, there are very few areas that he can't see, even the cave dwellings of some cosmic gods, maybe he can't stop his peeping.

"Go and have a look." Wang Yi immediately tried to "see" the mysterious black fog area again, and then connected two holes to form a passage. It may be more troublesome if you want to send others, but it is much easier if it is just for yourself. "Phew." The space in front of him was distorted. As soon as Wang Yi stepped into it, the distorted space quickly returned to normal.

Not long after Wang Yi left, huh, a tall white figure emitting a monstrous evil aura appeared in the void.

He looked at the direction where Wang Yi disappeared, showing a look of surprise.

"What about people?"

[Chapter 960: life in the abyss](#)

"What about people?"

The Beastmaster Odin Dillon was a little surprised.

In his perception, the chaotic master with the imprint of his treasure crossed an incomparably far distance in an instant and arrived at another place. And this distance, even if he uses the strongest means of rushing, will take a lot of time to pass.

But he is the king of gods, and the other party is just a chaotic master.

What's more, this is a void abyss, the space is complicated, there are many blockades and obstacles, chaos, and even traps are lurking.

"How on earth did he do it?" Odin Dillon wondered. Sensing where the Chaos Lord is now, there is a faint guess in my heart.

"Could it be that the old guy?"

He didn't know that what Wang Yi was using was the teleportation technique he had just mastered. Because it was too powerful, it startled the Beast King and became suspicious.

The Beast King looked at the endless void, shook his head and turned away. "Forget it, that old guy's territory is not worth taking risks for a Chaos Lord."

...

Wang Yi appeared again, and it was already a chaotic void that was extremely far away. He stood in the chaotic void with a smile on his face. He understood that the harvest this time was really great, making him the envy of countless practitioners. One of that handful.

Like some powerhouses who know how to teleport over long distances, they are indeed envied. Even **** kings are very polite to them. Because there is a need for people.

They are staying in the old nest for a long time, and there will be strong people who will ask them for help and send them to some extremely distant places. Every time they work hard, they will not be less, so each of them is extremely rich. Second. This kind of escape method is also extremely heaven-defying. They want to leave, but few can stop them.

And Wang Yi's means surpassed them. It's just that it's too difficult to comprehend the first picture of "Void Evolution Dao", and for countless years, few have been able to do it.

The first experience of traversing the void through the holes of black mist particles felt very new to Wang Yi.

Wang Yi glanced at the space behind him. "But the movement is much smaller."

Normal ultra-long-distance teleportation... Generally, the channel is first connected to form a distorted void channel that is easy to be discovered, and then it will be teleported. For the real powerhouse, the moment of sensing the movement of 'ultra-long-distance teleportation' is enough to escape.

And like Wang Yi who just crossed a distance of billions of light-years in an instant, you must know... such a long distance, if it is some Chaos Realm giants, they rely on similar ancient cultivation talents to be able to teleport over long distances, and teleportation is generally similar to architectural space. Corridor, quite moving. Wang Yi's ultra-long-distance teleportation is through the hole in the black fog

sphere to connect the channel, the movement is relatively small, and it is more difficult for others to find it.

With a slight sigh, Wang Yi turned his attention to the front.

Ahead is a void, empty and empty. However, Wang Yi peeped here through the most essential hole of the "black fog sphere" in the void before, but encountered an invisible screen.

Spying on some other places will also encounter some obstacles, and even can't see clearly, but unlike here, it is completely isolated, there is no trace at all, and it is completely impossible to start.

This method has completely exceeded Wang Yi's imagination.

What Wang Yi is curious about is, is this place formed naturally or created by a strong person?

"Understanding the mystery here may make my Void Dao better." Wang Yi secretly thought.

Just when Wang Yi approached the void and was about to study it carefully.

In the depths of the void, there is a hidden space-time, endless blood-colored fog rolling, and in the middle is a huge blood-red sphere, a sphere composed of countless blood-colored fog, and many grand source fluctuations pervade here, powerful source rules blend It even produces various anomalies such as cosmic phantoms, flames, phantoms of alien beasts, and lightning. And above the huge blood-colored sphere is an ancient void tree formed by the condensed power of the source of the void. It is rooted in the sphere. This 'ancient void tree' is also extraordinarily delicate and beautiful. Every branch is so crystal clear and beautiful. They are all made up of countless spaces, and the level of mystery in the composition in space, even if the universe gods of the void lineage come, they will feel amazed.

"Huh?" A low voice suddenly sounded. The surface of the huge blood-colored fog balloon rolled with mist, and a huge round black snake head stuck out. There were countless smooth black scales on the surface, as if they all had the charm of some supreme rules. The direction of Wang Yi's appearance.

The size of this snake head is beyond imagination, and it exceeds the small universe of the True God, which is hundreds of millions of light years!

That black one-eyed is even more pitch-dark and deep, like an abyss full of endless attraction, which can make any god-king fall in love.

Its existence can even make the supreme rule evade.

"Breaking the world teleportation? In the same vein as the master of the infinite?" The black snake head was very quiet, and there was a smile in his eyes when he looked at Wang Yi, who was approaching like a sneaky thief outside.

"A little guy who dominates chaos. Interesting. Interesting."

"I made an agreement with Master Wujian back then that his lineage was not allowed to enter the Void Abyss. Since this little guy has mastered the teleportation technique of breaking the world~www.mtlnovel.com~, he should be the lineage of Master Wujian. Didn't his elders remind him? past him?"

This terror exists in many spaces around it, making it difficult for even a **** king to break in.

But Wang Yi came in through the teleportation technique.

The black snake head looked at Wang Yi, and it could kill him with just one look.

In the sight of the black snakehead, time began to turn back, and along the line of this little guy who dominated chaos, he began to watch his experience along the way. For this terrifying existence, if there is no interference from other existences at the same level, it is very easy to watch the years of a chaotic master.

It saw Wang Yi comprehending the Way of Void in the palace, saw Wang Yi walking in the void, and saw Wang Yi being brought in by a black hole vortex...

"So it is." The black snake head nodded, "It turns out that he did not master the teleportation technique before, but was brought in by mistake. When he came here, he realized the essence of the void... He realized it in such a short time. The essence of the void is also a talent." The black snake head couldn't help but move in his heart, this outstanding talent of the void lineage gave it the idea of accepting apprentices.

However, it thought of its own situation, and thought of the owner of Wujian, and shook its head.

"Unfortunately, since I have learned the teleportation technique of breaking the world, it is destined to be in the line of Wujianzhuan. I'm not good at robbing Wujianzhuan." The black snake head felt a little regretful.

Of course, there is another important reason, which is that it is lazy by nature and does not want to teach disciples at all.

Regardless of the previous era or this era, it has never accepted a single apprentice.

"Want to come in?" The black snake head looked at Wang Yi, who was groping outside. He seemed to think that he should not affect him. He yawned, and slowly retracted into the blood-colored fog balloon. The entire space then fell silent.
