

ALIEN GOD SYSTEM

Chapter 10 - invite

Quiet, deadly quiet.

At this moment, everyone held their breath and watched this incredible scene, including those in the Liu Family's nursing home, all froze on the spot, motionless.

Yang family thief, dare to hurt my son, go to death! “

Roar!

Suddenly, there was a roar, followed by a dragon roar, just like Liu Shaobai's strong dragon palm, and a golden dragon shadow appeared behind Yang Feng, rushing towards him, but this dragon was less than Liu The white one is much bigger.

When Yang Yuchan saw it, he couldn't help but screamed: “That's it, it's Liu Chengfeng, the head of the Liu family, brother, be careful! “

Yang Feng frowned and glanced back, but he smiled non-committal.

I saw a person hidden behind the dragon shadow, with a LV on his head. The sign of 12, it is obvious that this is a level 12 fighter. In front of others, maybe he is a god. But in front of Yang Feng, he is just a fart, let him fight, how much blood can be lost from him, hum.

Nonchalantly, Yang Feng turned around and straightened his chest, ready to take his palm. But halfway through, another figure suddenly appeared in front of Yang Feng, blocking him behind, and then raised his hand and gently pushed forward.

bump!

With a loud noise, the golden dragon shadow shattered into light spots and disappeared. Liu Chengfeng staggered back a few steps, his face flushed. Looking up, I saw that it was no one else standing in front of him, it was Mr. Ye undoubtedly.

Mr. Ye, what do you mean, why do you want to help this kid? “

Fighting among young people is commonplace. What's more, we all saw it just now. It was the son who made the fight first. “

With a slight smile, Mr. Ye glanced at Liu Chengfeng, and said lightly: Master Liu, Ling Lang is seriously injured now, do you want to look at Ling Lang's injury first, and then talk about other things? “

His face trembled violently. Liu Chengfeng first looked at Yang Feng's willful smile, then at Mr. Ye's sharp gaze, especially the attitude of Mr. Ye who made it clear to protect this kid. Can not help clenching his fists, but helpless.

You know, even if you ignore the big background of Tianfeng Academy, this Mr. Ye is a true general-level master, and he is definitely not an existence that can be easily provoked by his prospective general.

Thinking of this, Liu Chengfeng had no choice but to resist the anger in his heart, bypassing the group of people in front of him, and silently inspecting his son's injuries.

Mr. Ye smiled slightly and ignored him. He just turned around and looked at Yang Feng, who was arrogant and said: Your name is Yang Feng, right, can you take a step to speak? “

Having said that, Mr. Ye didn't wait for an answer, he already smiled and walked to the quiet place aside.

Yang Feng shrugged indifferently and followed closely. Yang Yuchan and Yang Xiaoyi looked at each other and hurried to follow.

When the four of them came to a corner of a small alley, Mr. Ye stopped, smiled and introduced himself to everyone: Yang Feng boy, I am the combat skill instructor of Tianfeng Academy, Ye Jianfei. I just saw that you have outstanding combat power, unlike ordinary people. So I want to ask you, are you interested in coming to my Tianfeng Academy for further studies? “

What, go to Tianfeng Academy? “

With a sudden light in front of him, Yang Yuchan was so excited that his whole body couldn't stop shaking.

You know, Tianfeng Academy is the Fenglei Empire entering the room, making contributions and making achievements, the stepping stone to the glory of the ancestors, and it has everything you need to fight technology. People from all over the country, big and small families, don't want to send their children to study.

Unexpectedly, when their Yang family fell in their way, the instructor of Tianfeng Academy would actually invite them to enroll. This is really a pie in the sky, ancestors bless.

As long as the younger brother can enter there, the Yang family will rise again and regain its glory, and it will be just around the corner. And it will only be stronger than the original, not worse.

Thinking of this, Yang Yuchan nodded hurriedly: Yes, of course we do! “

I am not asking you, I am asking him! “

With a grin, Ye Jian flew to Yang Feng and gestured.

Yang Yuchan looked back, only to see that this stupid brother is still thinking now, Dang Even wished to go up and kick him, cursing: What are you doing

stupidly, quickly nodded and agreed. After this village, there is no such shop. That Liu Shaobai has been operating in Longhu Town for so many years of word of mouth, just for this moment, why are you still hesitating? “

I know, but...”

Reluctantly rolling his eyes, Yang Feng was still thinking carefully.

In fact, although he is only in Novice Village, he can also see through observation that the level of people in this world seems to be very different from him. In the eyes of these people, the Tianfeng Academy is a good place to improve their strength and enter the court, but in his eyes, it is just average, not how precious.

This point, you can see this teacher.

Yang Feng glanced diagonally at Ye Jianfei's head and saw that he was holding a LV. 20. This level should be the peak strength of the second-order warlord in this world, and it will be loved by many people.

But in front of him, a full-level god, he is a character who can fight the five scum.

This kind of ability can be an academy teacher, so where can this academy go?

Humph, nothing attractive.

As for the exercises and combat skills, even if there are no cheats, there are a lot of them stored on his skill board, just waiting for him to open it.

He really doesn't know why he has to go to this academy now, maybe just to increase his knowledge, but his travels to the mainland have also increased...

Yang Feng was hesitating, weighing the pros and cons, whether it is better to go to the academy or go to the college to study.

Seeing this, Ye Jianfei became more and more strange.

It was the first time he saw a young man who was so indifferent to the words Tianfeng Academy, especially when the boy looked at him with a sense of contempt, as if he looked down on him.

Hey, he is the peak strength of the second-tier warlord. He was actually seen with such a look, and he was also a young man in a remote town, which immediately made him feel a little uncomfortable.

With a dry cough, Ye Jianfei saw that he hadn't made a decision yet, so he said lightly: Boy, tomorrow morning, at the entrance to the Night Demon Forest, at the southwest corner of Longhu Town, I will be waiting for you there. If you are willing to go to Tianfeng Academy for further studies, just come to me, if you don't, then forget it. “

After speaking, Ye Jianfei turned and left.

Hey, Teacher Ye, Senior Ye, don't leave, we are willing, willing...” Yang Yuchan yelled anxiously, but he couldn't stop him at all.

With a helpless sigh, Yang Yuchan gave Yang Feng a fierce look. When even raised his hand to twist his ears, he cursed: Are you stupid? The teacher of Tianfeng College took the initiative to invite you to study, but you didn't agree, you are so mad at me! “

Eh, don't don't don't, sister, let go first. Even if I don't go to Tianfeng Academy, I still have a way to revitalize our Yang family! “

Do you have a way? You have a fart! Now Tianfeng Academy is the best choice! “

who said it? “

Turning his eyes around, Yang Feng turned around and immediately escaped from Yang Yuchan's claws, and then ran to the townspeople who hadn't

dispersed yet, and shouted: listen, fathers and villagers, today I, Yang Feng, exposed Liu Shaobai's The conspiracy of the despicable villain, in addition to the great harm to the town, was happy in my heart, and announced that I would donate all the assets of the Ruyi Gambling House that had just been put under my name for good deeds. I want to let every family in Longhu Town have food, without a beggar! “

Roar!

As soon as this remark came out, the whole town suddenly boiled, and all the townspeople couldn't help giving Yang Feng a thumbs up.

Young Master Yang is really a good man. Ruyi Gambling Shop is the property in our town second only to the three big families. He said that he would donate it, it's amazing! “

Ding Dong!

The system sounds again: Congratulations to the players, to be further loved by the townspeople, and gain 100 points of faith. “

Yang Feng nodded slightly and smiled triumphantly.

This is his main strength to improve his strength and revitalize his family. As long as he has the power of faith, he can unlock all his skills and become a veritable full-level ** master. By then, in the entire continent, which family can compare to their Yang family?
