

# ALIEN GOD SYSTEM

## Chapter 17 - Undercurrent

Looking at the expressions of everyone present, Ye Jianfei showed a playful smile and said loudly: Tianfeng Academy is the first institution of the Fenglei Empire and only accepts the strongest. Although you are all young talents in Huai'an Mansion, you are not far when you look at the whole country. If you want to enter Tianfeng Academy, you must be stronger than others, work harder, and be an elite among the elite. “

Not to mention that there are four places now, even if there is only one, it belongs to the strong. You didn't fight it, it only means that you are not strong enough, don't show me such a bitter face, have you heard it? “

Without speaking, everyone lowered their heads together, with blazing flames flashing in their eyes, obviously aroused fighting spirit.

Then I announce the assessment rules now! “

After clearing his throat, Ye Jianfei continued: This academy assessment will focus on actual combat. A group of monsters in the Night Demon Forest threatened the safety of Longhu Town and the people of Huai'an Prefecture throughout the year. Over the years, Palace Master Situ and the major families have worked together to eliminate them, causing heavy casualties. Many children, elders, and even the head of the family have died in the line of duty. “

So the goal of our assessment this time is to hunt monsters in this night monster forest to sacrifice to the ancestors. The more demon cores you can obtain, the higher the level of the demon beast you can obtain, and the better your performance. It lasts for three days, and once you enter, the assessment

begins. Palace Master Situ and the Patriarchs of the major families will block the entrances and exits. If you escape because you are afraid of monsters, it is equivalent to handing in your papers. You can't enter anymore, understand? "

What, it turns out that this enrollment assessment is not a single fight, but a group fight!

Suddenly, everyone present did not expect that Ye Jianfei would have such a problem. Then they looked at Situ Cong, Zhuge Shisan and Ximenzun, and suddenly understood something.

It's no wonder that the waste dared to clamor that he would definitely be admitted. If Simon Zun helped him hunt the monsters for him, he would indeed have the most monster core in his hand. Anyway, the examiner only looked at how many monster cores he collected.

This is clearly cheating, not fair.

However, when they looked at the heads of the families, they saw that the old guys were silent and had no objection.

Obviously, they all knew in their hearts that Situ Zheng and Ye Jianfei secretly made a deal, and the assessment plan was tailor-made for that Situ Cong, just to allow him to enter the Tianfeng Academy in a justifiable way.

But knowing what, they can't help it. They can't offend the Hall Master Hall for a quota that may not be their own.

And the children of each family seemed to understand the thoughts of their patrons, so they swallowed their anger and stopped talking.

As for Yang Feng, it didn't matter. With his strength, even if that stupid son brought his army over, he couldn't beat him.

So now... let's go! "

Seeing that everyone had no objections, Ye Jianfei announced loudly.

As soon as the words fell, all the students present galloped towards the night monster forest, one after another, just like a carp leaping over the dragon gate. As if the faster you run, the more monsters you can catch.

Yang Feng walked at the very end, not hurriedly, but suddenly heard a rough voice from behind: Brother Yang, please stay! “

Are you... Tu Ganglie? “

His body was slightly stagnant, and Yang Feng turned his head to look, and saw that the man came was a nine-foot man, dressed in a beast robe, and he was the son of the Tujia whom Yang Xiaoyi had introduced to him.

Seeing that he knows himself, Tu Ganglie immediately showed a simple smile and said: I didn't expect Brother Yang to know me, so lucky to meet him! “

Is there a problem? “Yang Feng didn't have too much politeness, and said straightforwardly.

Tu Ganglie scratched his head and seemed a little embarrassed: Brother Yang, I know you are powerful, and even monsters like Ximenzun can't beat you, so I might not have thought about such a thing. But in order to successfully enter the Tianfeng Academy, let's make an alliance. “

alliance? “

Yeah, don't you see it? “

Turning his head and looking at Situ Cong, he then looked at how the children of the other aristocratic family were all in a circle. Tu Ganglie suddenly said with a solemn expression: This time the test does not test solo fight, but test hunting monsters, obviously. It was tailor-made for that Situ Cong. If Simon Zun helped him hunt the beasts, the second generation ancestor would definitely have one of the four places. Therefore, in order to deal with this

trick, all major families have started alliances. With the power of several people, send one person to the college! “

You mean that the demon cores hunted by four or five people are given to one person? “

That’s right, only in this way can it be compared to Simon Zun and the others!  
“

But... who are you going to send up? Every big family will want to send their children up, will it be cheaper for others? “

There is no other way around this, otherwise the second generation ancestor will be in vain! “

With a long sigh, Tu Ganglie said carefully: Palace Master Situ can make a deal with Ye Jianfei, and the major clans can also make deals secretly. As long as the family of the alliance, no matter which child enters the Tianfeng Academy, that person will develop in the future and must shelter all the families in the alliance regardless of closeness, so that an iron alliance can be formed. “

Let me go, this is indeed a strategy game, these NPCs also bring alliances!

After blinking his innocent big eyes, Yang Feng understood it, then looked at Tu Ganglie and smiled: What do you mean? In alliance with me, do you want me to send you up, or do you send me up? “

This...”

At this point, Tu Ganglie suddenly showed a smirk and said: We don’t have to sacrifice ourselves to send others up. I’m not talking to you. With my strength, I am not afraid of anyone present except Simon Zun and you. Of course, you are better. As long as we join forces and hunt for monsters, we can just grab the ready-made ones from them. “

Why can this be grabbed? “

Of course, Ye Jianfei didn't say he couldn't grab it? Grab is also part of the strength. If you didn't hold the demon core in your hand, it can only show that you are weak and who can blame it, right, hehehe! “

Tu Ganglie smiled brightly, but his idea was really black.

Yang Feng glanced at him deeply, smacking his tongue inwardly.

This alien world is indeed a place where the strong is respected, and it is really difficult to keep up with his own thoughts. Just after he heard the rules of the game, he really thought he was just simply hunting for the demon core, so he could still rob.

If so...

His eyes shook lightly, and a wicked smile flicked across Yang Feng's mouth.

Tu Ganglie looked at it and said anxiously: How about it, Brother Yang, let's join hands. “

Why should we join forces? I only need to obey the slave, and never join hands with anyone. “

Raising his eyebrows, Yang Feng stretched out his hand, shook his hand in front of Tu Ganglie, and sneered: With my strength, I can beat you more than a hundred at the same time, do I need to join hands with you? I want all the demon cores in your hands, including the ones you hunted. Now you have only two ways, surrender to me, or be killed by me now, hehehe! “

Gurgle!

After swallowing hard, Tu Ganglie's heart trembled as he looked at Yang Feng's evil eyes.

It's over, can I be considered self-defeating?

On the other hand, watching the surrounding scenes of the princes of the great families starting to hug each other, Zhuge Shisan shook the feather fan helplessly, and said with a laugh: Ximenzun, Ximenzun, didn't you let you not make your head lightly? This is great, people know your existence, plus this assessment rule, fools can guess that this is the Lord Palace's intentional arrangement. Now they are hunting monsters in a group, no matter how strong you are, will you be able to send the young master to the top of your own power alone? "

Can you blame me? Master was beaten, can I not come forward? "Ximenzun took a new steel thorn and said blankly.

Without seeing him, Zhuge Shisan walked forward and said with a laugh: It seems that only the second plan, Shadow Guard, can be used. Originally, this trick was not intended to be used, after all, once it was spread, the young master had to be returned even if he went to Tianfeng Academy. "

Isn't it enough if you don't let people know? "

At this moment, Situ Cong clutched his swollen cheeks, gritted his teeth and said: Yes, let the Shadow Guard come and kill the \*\*\*\* for me, in this night monster forest. God doesn't know, ghosts don't know, there is no dead body, this is the fate of offending my son, hahaha! "

Situ Cong was smiling wildly, Ximenzun beside him couldn't help frowning slightly, and a flash of unbearable flashed in his eyes.

Zhuge Shisan saw it in his eyes, but he didn't break, just smiled and said nothing.

At the same time, in the depths of the night demon forest, a figure in a gray robe came to a cave.

Suddenly, two black shadows flashed by, and two giant wolves, three feet long, suddenly stopped in front of the figure, shouting: Daring humans, unexpectedly dared to break into Lord Yehu's cave, looking for death! “

It seems that he is a quasi-monster if he can speak out. Unexpectedly, after the encirclement and suppression of Huai'an Mansion last year, the monster race in the Night Demon Forest still retains such strength, the old man will be relieved! “

With a chuckle, the figure took off the gray robe from his head, revealing a familiar face: But please report the two wolf generals to Lord Yehu, saying that Liu Chengfeng in Longhu Town begged to see you! “

Oh? It's the old man of the Liu family, what are you doing here? “

Hearing his words, a deep voice rang from the cave, as if it were familiar.

Liu Chengfeng's beard moved slightly and his eyes were full of killing intent: Yehu, I'm here to report. For the enrollment of Tianfeng College, the subject of the assessment is to hunt monsters. Now more than one hundred students are doing mischief on your territory, I believe you will not just sit back and watch. “

Hmph, one of your human exams will cost my demon clan children hundreds of lives. Of course I won't let them go so easily. It's just that you old man, would you report this little thing? What are the requirements? Let's talk! “

I want all of them to die. They don't want to get everything that my son can't get. And Lord Yehu, do you remember the Patriarch of the Yang family ten years ago? “Fists clenched tightly, Liu Chengfeng gritted his teeth.

That old man, I remember, I almost died in his hands. If it wasn't for you to give him a palm behind the back, I would be done. I owe you a love, what's wrong? “

Now his son has grown up, his strength is amazing, and he is also within this assessment. “

Taking a deep breath, Liu Chengfeng suddenly looked at the dark hole and shouted: I want him to never return to Longhu Town! Yehu, if you kill him for me, the love you owe me will be wiped out! “

Okay, no problem, just a kid, no big deal, what does he look like? “

This is his portrait, take it! “

Huh!

With a light wave, Liu Chengfeng took out a piece of rice paper and threw it at the cave.

And as the portrait drifted in the wind, two vicious eyes suddenly lit up in the dark hole, the size of a copper bell, shining...
