

ALIEN GOD SYSTEM

Chapter 19 - Two consecutive upgrades

call!

The icy cold air swept across the magic clouded leopards like ocean waves, and in the blink of an eye, all the black leopards became stiff and turned into ice sculptures.

Tu Ganglie's pupils shrank, and after a glance, Yin Tianxue behind him clapped his hands indifferently, and said with a smile: just a dozen third-class monsters, small meaning, let's go. "

Sure enough, the warlock was so powerful that he killed so many monsters in one go. "With a twitch of face, Tu Ganglie smashed his mouth in shock.

Yang Feng also looked at her strangely, and his hands felt itchy.

This is the power of magic, so powerful.

Such a little girl can casually inflict such a large amount of damage, what a shocking scene if his 200-level gods cast spells.

Yang Feng couldn't wait to activate an offensive spell, but it was a pity that he didn't have enough mana.

Take away these frozen demon clouded leopard demon cores and form a team of three to continue exploring in this night demon forest. During the period, many forest monsters ran out to attack them, but they were all cleaned up by Tu Ganglie and Yin Tianxue.

Even the monster beasts of the third-class peak period, under Yin Tianxue's powerful spells, can't pass a round.

With the cooperation of the two, a warrior and a warlock, they can basically sweep the monster beasts in the entire forest, and Yang Feng doesn't have any need to take action.

Suddenly, there was a roar, and another wild boar covered with steel thorns rushed out, showing its fangs to the three of them recklessly.

Tu Ganglie glanced sideways, curling his lips disdainfully and said: Just carrying a pig, a first-class monster, it looks like it should be a cub stage, there is no danger, I will just kill it with an axe. “

and many more! “

However, before he could do anything, Yang Feng shook his arm abruptly, already stopping him: leave this monster to me to deal with, none of you do it!
“

Brother Feng, can't it, such a weak monster, are you using it for nothing? “

It doesn't matter, I like the first class monster, hehehe! “

With a grin at the corner of his mouth, Yang Feng's eyes flashed brightly.

His current strength is too strong, any monster jumping out, he can almost always solve it with a wave of his hand. In addition, the two teammates around him are too strong, so many wild monsters, it is completely dead without him.

so boring!

Do you still need to be challenging and exciting to play games, otherwise, what fun?

Fortunately, although his large size is invincible to the point of being boring, his small size can still be developed. Especially for this level monster, it is suitable for his level of fighter.

Although he did this, especially in this night demon forest, it was a bit dangerous. If he didn't have time to switch accounts, he would be killed. I don't know what the consequences would be, and he might just die.

But fortunately, with these two powerful bodyguards around him, he still feels a little safe.

Switch accounts and switch to fighter form! “

With a slight smile, Yang Feng murmured, he already took out the long knife from the family.

When the two of Tu Ganglie saw each other, their brows couldn't help condensing, although they were a little puzzled, why Yang Feng had such a strong strength, he had to challenge this class of monsters.

But seeing him take action, the two are still extremely solemn.

Especially Tu Ganglie's eyes were shining brightly.

The man who was able to defeat Ximen Zun, and now the true first person of the younger generation in Huai'an Mansion, was finally about to show his hand. I don't know how powerful it is to show, I definitely won't just kill the monster beast and just kill it. It's really exciting.

Roar!

A beast roared, at this moment, the pig that had just backed finally moved, and rushed towards Yang Feng, the steel thorns on its back stood up like a sword.

Yang Feng's eyes condensed, he raised his knife and swung it down.

Flame Knife! “

boom!

But seeing a flash of fire, Yang Feng fell behind the mob and assumed a handsome pose. The just-backed pig made a scream and fell to the ground, a scorched wound on his neck spurting blood.

Ding!

The system voice sounded: Congratulations to the players, kill a first-level monster, get 100 experience points! “

Sure enough, the game still has to be upgraded to be fun! “

After exhaling a long suffocation, Yang Feng smiled with satisfaction, a sense of satisfaction arose in his heart, and then looked back at Erren Dao: How? Was that handsome? “

Uh!

With a twitch of face, the two of them looked at him blankly, both dumbfounded.

Yang Feng wondered: What’s wrong with you, why do you look at me with such a look? “

We also want to ask you what’s wrong, just dealing with a first-class monster. The knife you just made was not only unfamiliar, but also lacking in strength. It was like a rookie who had just broken through an early stage fighter. My brother’s knife skills were better than you when he was eight years old! “

Yin Tianxue’s face was full of doubts, Tu Ganglie also scratched his head, strangely said: Yes, Brother Feng, you were joking with the cut just now. You are the man who defeated Ximen Zun, the first person among the younger generation in Huai’an Mansion, how could you make such a poor cut? Even if you just play around, it can’t be so bad. “

Helplessly touched his nose, Yang Feng curled his lips indifferently and said: This is my level, what's wrong? What is your business! Anyway, the monster beasts I encountered next left me all the cubs. Have you heard? “

With that said, Yang Feng is already striding forward.

Tu Ganglie and Yin Tianxue looked at each other. Monk Zhang Er couldn't figure it out, but they followed his steps closely and did what he said.

In this way, a whole day passed, the three-person team joined forces to fight monsters, and Yang Feng was only responsible for the easiest first-level monster.

When the sun went down, Yang Feng had already killed dozens of them.

When he opened the game panel, it showed that he had already collected more than three thousand experience points.

Yang Feng grinned and said loudly: Give me all experience points to upgrade!
“

Ding!

The system sounds: Congratulations to the players, upgrade to a level 2 fighter! “

Ding!

The system sounds again: Congratulations to the players, upgrade to a level 3 fighter! “

Then, there was no sound...

this one? After a busy day, I got two levels? Is this too slow? “I rolled my eyes reluctantly, thinking that when he was playing games back then, he could rise from level one to level ten within half an hour. But now, after playing the monster all day, he has only gone up to two levels. depressed.

However, if his thoughts were to let those genius monsters know, they would have to vomit blood.

Brother, you are content. It takes two or three years for ordinary people to rise from the early stage to the later stage of the first-tier fighter. Even the most talented person would take a whole year to do it.

You have been promoted to two levels in one afternoon. It is already against the sky, okay, what else can you dissatisfy!
