

A Killer 106

Chapter 106: trouble

Li Tian flipped through the box. Except for some photos, the rest were some messy books and some jewelry.

After taking a look, Li Tian slowly closed the leather suitcase and stuffed it in again.

It is more and more strange to Shen Feng in my heart, what kind of big man was this kid before? Why did it suddenly fall to this point?

With these questions, Li Tian walked out the door and walked towards Xia Xue's small restaurant.

Soon I arrived at Xia Xue's small restaurant.

Xia Xue was busy in the restaurant at the moment, and there were two tables of people eating there.

After Li Tian walked in, he smiled and greeted Xia Xue, and then walked in.

When he walked in, Shen Feng was lying on the bed, and seeing Li Tian coming over, he slowly moved his body up.

"Is the injury better?" Li Tian asked, looking at Shen Feng.

Shen Feng smiled: "It's almost all right."

"Ah That's good."

"Shen Feng has something I want to ask you, is it convenient?" Li Tian said, looking at Shen Feng.

Shen Feng was taken aback, then smiled and said, "You are my elder brother. If there is anything you can't ask, just ask."

Li Tian then asked, "I heard that you used to be rich in your family, and you were also the son of everybody, but how come you become like this now?"

After Li Tian finished speaking, Shen Feng's face suddenly changed.

It became extremely ugly, as if the scar on his body had been suddenly opened.

Li Tian looked at Shen Feng's weird face, and his heart was secretly: Is there anything unspeakable about Shen Feng? What's the secret?

For a long time, Shen Feng didn't say a word, always looking ugly.

Slowly raised the swollen faces that had gone down, looking at Li Tian.

Li Tianwang thought about his appearance and said: "It's okay, I'm just curious to ask, if it's not convenient for you, you can just leave it alone."

"To be honest, I don't want to say it! But you are my elder brother, you asked me, I said." Shen Feng said word by word, his serious expression made Li Tian a little uncomfortable.

"Yes, I was indeed rich in the Shen family before, and I was indeed the eldest son before, but my house was destroyed overnight." When it came to this, Shen Feng's eyes were full of blood. Hatred.

The ferocious eyes were extremely fierce, and the tightly clenched fists seemed to crush everything in the world.

Enemy!

Shen Feng's family was destroyed only because of enemies.

"After that, my dad and my mother were killed by the enemy, and the family property and everything disappeared without a trace overnight. It was also from that day that I came to Kyoto City." Shen Feng said word by word.

When Li Tian heard Shen Feng say this, he couldn't help asking, "Who is this bastard?"

"My lifelong enemy." Shen Feng gritted his teeth and said fiercely.

"One day I will let him pay for his blood and blood in order to avenge the blood." There was an unshakable determination in his words, as if he had lived for revenge all his life.

Li Tian couldn't understand, how could the huge Shen family be completely destroyed overnight? What kind of big person is the other party so cruel?

Before Li Tianwen could exit, Shen Feng continued, "After my house was destroyed, I came to Kyoto City."

"What can I help you?" Li Tian looked at Shen Feng and said seriously.

Shen Feng smiled bitterly and shook his head.

"No, my god, I will solve my business by myself."

Li Tian nodded and looked at Shen Feng: "Well, no matter how I can help you in the future, just say it."

Shen Feng smiled.

When the two were talking, Xia Xue suddenly walked in, the expression on Qiao's face was a little stiff, and she looked at Li Tian after she walked in.

"Li Tian, did you offend someone again?" Xia Xue asked suddenly.

Li Tian was slightly taken aback.

"What do you mean?" Li Tian asked quickly.

Xia Xue pointed outside and said, "A bunch of people are coming to find you."

Li Tian frowned, someone came to him? who is it?

"I'll take a look." Li Tian was about to go out, but Xia Xue reached out and grabbed his arm.

Li Tian was slightly surprised, turned his head to look at Xia Xue, Xia Xue's pretty face was full of concern: "You, be careful."

Li Tian nodded with a slight smile on Xia Xue's caring words.

Then he walked out, and as soon as he went out, he saw 5-6 men in suits standing outside.

Take a closer look, the head is a masculine and burly man, with a standard flat head, wheat skin color, standing there like a piece of wood, motionless.

The men standing behind them are also wearing suits and coaxing.

After Li Tian walked out, he could see the dull-looking man at the front, standing there like a military posture. Isn't he the man standing beside the master Feng in the black market boxing match?

How come here suddenly?

Yes, the person who came was the first fierce man next to Feng Ye, Meng Chong.

At this moment, Meng Chong's sharp eyes also saw Li Tian.

"Are you looking for me?" Li Tian looked at Meng Chong and said when he walked out.

Mengchong nodded slowly, and walked over step by step with steady steps.

"I don't seem to be familiar with you, right?" Li Tian looked at Meng Chong and said, he was very puzzled how the wooden guy next to Feng Ye suddenly came here to find himself?

Meng Chong didn't care about Li Tian's words, raised his eyes and bet on Li Tian's face: "This is not important."

"Then what is important?"

"The important thing is that I will tell you one thing today." Meng Chong said.

"what's up?"

"Black market boxing thing."

"You beat someone to death in a black-market boxing match, and the opponent was very unconvinced, so I wanted to find a boxer to compete with you again." Meng Chong said word by word.

When he heard this, Li Tian suddenly smiled.

"It turned out to be such a thing! Sorry, it seems that you have found the wrong person. I don't know how to fight, and I don't like black market boxing, so even if the other party is not convinced, I will never go to black market boxing again." God said.

Hearing Li Tian's words, his face became cold.

"So, do you not agree to go?" Meng Chong continued.

"Yes, I am not going."

After Li Tian finished speaking, he suddenly turned around and prepared to leave.

"I can't help you." When the four words came out coldly from the back of Mengchong's mouth, his body suddenly moved. When Mengchong, who had been standing there quietly, suddenly moved, it really broke. .

The so-called not moving like a bell, moving to break the mountains and rivers, may be talking about such fierce people.
