

A Killer 1181

Chapter 1181: found it

After speaking, Li Tian glanced at the towering sand dunes in front of him, and then stepped towards the sand dunes in front.

The sand dunes are as high as the hills. It is really difficult and tiring to climb up!

Besides, the sand dunes are full of sand, the feet are deep and shallow. Watching Li Tian climb towards the dunes, the brothers are more worried about Li Tian.

But seeing that Li Tian had reached the bottom of the sand dune at this moment, he bent down and tied the laces on his feet, and then stepped up to the top of the sand dune.

The sand that had been exposed to the scorching sun for so long seemed hot, and got into Li Tian's shoes, rubbing the soles of his feet.

But he didn't care, he just stepped on the hot sand and climbed up step by step.

The sweat on his face kept dripping from the scorching sun, and he was still crawling up stubbornly.

One meter, two meters!

Ten meters, fifty meters...

When Li Tian finally climbed to the top of the sand dune without hesitation, he finally sat down.

There was a heavy gasp from his mouth, and his forehead was also sweaty.

He finally climbed up!

The figures of the brothers looking down are as small as ants.

After Li Tian climbed up, he wiped the sweat from his face with his hand, then opened his eyes and turned to look behind the sand dune.

When his eyes touched the scene behind this, he suddenly froze!

Gosh!

where is this place?

But after seeing this sand dune, who can imagine it turned out to be a realm outside the world!

Everyone thought that there would be a desert behind this dune, but who could imagine it turned out to be a city!

The surface of this city looks like a building in the 70s and 80s, old and decadent.

Stationed deeply in front of no more than 2 miles away.

And you can also see a condescending cloud bridge leading directly to the deserted city.

Looking at such a mysterious city, Li Tian stood on the top of the sand dune in complete horror!

"Is this the dark city?"

"This is the most terrifying city in the legend?" He muttered.

Just as Li Tian was thinking about it here, Tang Xiaolong's cry came from below.

"Little boss...is there a way ahead?"

"Let's go back..."

The voice came from below intermittently.

After hearing Tang Xiaolong's voice, Li Tian suddenly laughed.

Then he shouted loudly and vigorously below: "There is a way!"

"I found the Dark City..."

"You guys come up soon!"

After Li Tian's voice suddenly passed on, Tang Xiaolong and Duguxie were immediately stunned.

"Huh? The little boss said he found the Dark City?"

"Gosh, I heard it right, right?"

"Isn't it a barren desert behind this dune? It's the dark city?"

The ghost servant said happily, "It must be!"

"The Young Master must have seen the Dark City!"

"Second brother, go, let's go up!"

As they said so, they began to quickly crawl towards the sand dunes in front of them.

And what about Li Tian on the top of the dune? Standing at the top at this moment, looking at the looming city in front, excited in my heart!

Finally found!

Finally found the dark city!

This evil city has always been regarded as a legend, but unexpectedly it would be here!

No wonder it can't be displayed on the map! Li Tian secretly lined up.

Just when Li Tian's heart was secretly lining, suddenly several crows that didn't know where they came from suddenly hovered over Li Tian's head and croaked...

The crows hovered over Li Tian's head like the shadow of death. When he watched the crows screaming, Li Tian only felt a horrible feeling on his back. He didn't understand why he had such fear. The feeling...Is it an illusion, or is it too much?

Looking at the screaming crows... Li Tian felt that these crows seemed to indicate something, as if telling him that the road ahead was the road to death... it was an ominous road...

Just as Li Tian was thinking about it like this, suddenly the crows seemed to be frightened, with a miserable cry, and flew away in the direction of the dark city!

Looking at these weird crows flying away, Li Tian didn't know why, suddenly he felt an ominous sensation surge up, and at the same time he felt a kind of blockage in his heart.

Li Tian felt such an ominous sign for the first time!

He also gave birth to a feeling of "fear" for the first time.

Just when he was alone here, the voices of the brothers had already been heard.

"Little boss... we are here..."

"Little Lord!"

But seeing that Duguxie and Tang Xiaolong at this time, they had already crawled up from under the sand dunes in sweat.

After hearing their voices, Li Tian shook his head quickly, and then got rid of the horrible thoughts just now, turned his head with a smile, and said to them: "Look at the place ahead..."

Following Li Tian's words, Tang Xiaolong and Duguxie who climbed up not only watched them together.

After they saw the scene in front, they were completely stunned!

"Oh my God, this is the city of darkness?" Tang Xiaolong's mouth opened into an o-shaped state, and he said with a shocked look.

And the Duguxie and the ghost servants in front of them were also staring at the evil city full of death in front of them.

"This...this is the legendary dark city?" Even the ghost servant said in deep horror.

"I didn't expect this city to be in this place... Oh my god! No wonder it's so hard to find." said the brothers.

At this moment, they were all standing on top of the sand dune looking at the dark city in the distance, stunned!

"It turns out that those people really didn't lie to us... We really found this dark city!" Tang Xiaolong in this meeting no longer yelled at the eighth master and the group of Yi people. It turned out everything they said it's all true.

After seeing the legend in front of me: The City of Darkness, the brothers can be said to be deeply shocked.

Then Li Tiandao said: "Go, we should go to this city."

As he said, the brothers nodded happily there, and then followed Li Tian towards the bottom of the sand dunes.

The brothers in this club have an excited state of mind in their hearts! Not afraid!

They seem to be not afraid of this city full of evil and death at all, and they may have an extremely weird feeling in their hearts at this moment among all of them!

Chapter 1182: False alarm

It's easier to get down from the sand dunes than up!

That Tang Xiaolong directly sat on the hot sand, and then slipped down from above, and the brothers quickly descended the tall sand dune.

It is about two miles away from the mysterious dark city in the distance!

Now they can vaguely see the barren buildings of the dark city. As for who is in the dark city, they still don't know.

After coming down the sand dunes, they quickly walked towards the dark city excitedly.

After walking for a few minutes, they saw a cloud bridge ahead!

The reason why he is called Yunqiao is that the bridge is built with wooden boards, and the two sides are pulled by thick rusty iron chains.

And below this cloud bridge, there is a very deep and deep naturally formed canyon!

Looking down at it, I only feel dizzy...

The wooden boards on the cloud bridge are rotten, as if they have not been walked for many years, and the iron chains pulled out at both ends are also rusty and mottled.

This cloud bridge has a total distance of more than ten meters. At this moment, you can only cross this cloud bridge to reach the road ahead.

Looking at the Yunqiao in front of him, Tang Xiaolong walked to the front of the gorge and glanced at the very deep gorge.

"I rub... so deep!"

"Hey, if this falls, I am afraid that even a ***** will not survive." Tang Xiaolong muttered.

"Idiot, how could it fall?" The ghost servant said there.

Tang Xiaolong said: "Master, but I have a fear of heights..."

"Die, then don't pass it! Just stand here." Ghost servant said with a blank look at Tang Xiaolong.

Tang Xiaolong felt very aggrieved and stopped talking while sullen.

Li Tian looked at the environment in front of him and said, "It seems that we have to cross this cloud bridge..."

There is no road around, if you want to reach the dark city in front, you must cross the cloud bridge in front of you.

"Ok, everyone, be careful!"

"Let's go over!"

As Duguxie finished speaking, they were ready to pass the cloud bridge in front of them.

Li Tian walked in the forefront, stretched out one foot and slowly stepped on the decayed wooden plank. The wooden plank made a creaking sound, and his two hands were tightly grasping the iron chains at both ends, and then Walking forward step by step, behind him was A Qiu, then Du Guxie, Ghost Servant, Opteron and Tang Xiaolong.

Yunqiao swayed constantly, but it didn't make it difficult for the brothers, after all, they were all characters who had experienced strong winds and waves.

As Li Tian stepped on the decayed wooden board, he walked slowly step by step... and soon, he was the first to reach the right place.

Then Na Qiu, Duguxie, and the ghost servant quickly reached the end.

Now above the Yunqiao, there are only the white dragon who arrived immediately and Tang Xiaolong.

Tang Xiaolong walked the slowest because he said he had a fear of heights. At the same time, his face was slightly pale, as if he was really scared.

Looking at his appearance, the brothers who had already come all found it funny.

Opteron had also reached the opposite bank at this moment, only Tang Xiaolong was still in the middle position, walking forward slowly.

"Xiaolong, hurry up." The ghost servant said to Tang Xiaolong there.

Tang Xiaolong's face was pale and said: "Master, I really have a fear of heights!"

"Fart, just close your eyes and just come over!" The ghost servant said with a smile.

To be honest, they didn't care about the Yunqiao in front of them, but Tang Xiaolong was different. He was afraid of heights, so he was particularly afraid. When he moved step by step toward this side, suddenly the rotten wooden board under his feet creaked. There are signs of cracking!

Because these wooden boards have been subjected to wind and rain for a long time, and there are no people walking all the year round, they are already fragile. Now the wooden boards stepped on by Tang Xiaolong's feet have begun to crack!

Tang Xiaolong saw that the wooden board under his feet began to crack, and the egg was painful.

Yelling: "I'm fucking, it's not good, the plank under my feet is about to break."

At this meeting, Li Tian also felt something wrong with those wooden boards, and quickly said to Tang Xiaolong, "Come here, don't delay!"

"Oh!" Tang Xiaolong saw that the decayed wooden board under his feet was about to break, and no longer cared about whether he had a fear of heights, he ran toward this side quickly.

As he speeded up and ran, the rotten wooden boards under his feet became more fragile.

With a click, just when Tang Xiaolong was about to run over, the wooden board on the cloud bridge suddenly broke.

Tang Xiaolong stepped on the broken wooden board, screamed, and his huge body fell like a stone.

Brothers were shocked in an instant!

"Little Dragon!"

Li Tian exclaimed, his desperate body suddenly swooped forward, and then he stretched out a hand very quickly, grabbing Tang Xiaolong's falling arm...and his other hand was dead. Deadly clutching the iron chain on the cloud bridge!

Tang Xiaolong was completely suspended in the air. At this moment, his face was pale and yelled. Fortunately, Li Tian held him in disregard of life and death.

"Hold on to me..." Li Tian said to Tang Xiaolong below, his entire face flushed.

Tang Xiaolong did not dare to move but nodded.

The Duguxie and ghost servants here also hurriedly worked together to pull Li Tian's body...

In this way, Li Tian pulled the fallen Tang Xiaolong up abruptly.

With a plop, after being pulled up, Tang Xiaolong sat down on the cold ground.

"My mother... scared me to death..."

"Little boss, thank you... If it weren't for you, I wouldn't be able to fall alive!"

Li Tian didn't bother to pay attention to him, panting heavily.

And at this moment, Tang Xiaolong kept patting his chest with one hand and said: "I was scared to death, his uncle scared me to death..."

Finally regarded as a surprise, they came to Yunqiao in front of them.

The brothers were just a false alarm, sitting quietly at this end of the Yunqiao at the moment,

I saw Tang Xiaolong lying halfway on the ground, with one hand tapping the violently beating heart, and the other hand on the ground. After he let it go, he suddenly felt his fingers touch something hard.

Feeling weird, he turned his head and looked at it, almost broken!

"Nima...what the hell!" Tang Xiaolong exclaimed, and he got up from the ground.

But seeing a human skull beside him.

"Head?"

"Dead head?" Tang Xiaolong shouted there.

After Li Tian and the brothers here heard the cry of the boy, they quickly turned their heads and saw that there was indeed a dead man's head on the ground, but the dead man's head had not been known for many years. ...At this moment, only the skull head is left.

Chapter 1183: Bad omen

Then I looked to the ground again, but saw a lot of human heads and skeletons thrown over there.

Gosh? This is simply a mass grave!

How come there are so many human skulls?

Are these all the people who died here?

Looking at the four skulls in front of them, they were all stunned.

The shocking picture, who can imagine what happened here?

"Hey, there seems to be a fast slate on the ground!" Suddenly, only the ghost servant said there.

I saw a corner of a large bluestone exposed on the surface of the ground, and then the ghost servant quickly bent down, and then pulled the dust on it with his hands. Li Tian, Duguxie and Tang Xiaolong all walked over here and not only bends there. Body watching.

But seeing that after the ghost servant pulled away the dust with his hands, a huge bluestone slab was revealed.

This fast bluestone seems to be a monument!

A stone monument many years ago!

But now it is buried under the loess.

Li Tian and the others blinked, and then Tang Xiaolong was the first to find that there were small fonts on the bluestone.

"There are words! There are still words on this stone tablet." Tang Xiaolong said excitedly.

As he said, the brothers all looked up, and after pulling off the dust on the stele, they really saw a row of tiny seal characters written on it.

What characters are engraved on the weird stele?

Looking around, the first row records: 1834, on February 17, 45 businessmen were killed, 20 heads were beheaded, and 13 women were captured! Seized 500 gold and silver. Suffix: Desert Fox!

The following records are recorded in sequence: 1835, March 21st, in Matian Township, killed 106, robbed a thousand gold and silver, captured women: 43. Suffix: Desert Fox!

On September 9, 1837, the Mawang bandit died. Suffix: Desert Fox!

On April 21, 1839, the Qing soldiers encircled and suppressed, killing 231 people and causing countless casualties. Postscript: Return of the White Feather! Suffix: Desert Fox!

...

What is recorded in the stele buried in the ground is these figures and "accounts".

When the brothers saw the text on this stone tablet, they were deeply shocked there!

Gosh? What are these things recorded?

Is it the number of people killed? Is there anything bad done?

Looking at everything in front of him, even Li Tian was deeply shocked!

"The rumors say that every time the wild bandits in the western desert have robbed something, they have to record the big things... and then set up the stele to pass it on. Unexpectedly, it turned out to be true!!" Duguxie said in shock.

Tang Xiaolong on the other side opened his eyes wide and said unbelievably: "Senior Dugu...your...you mean, these are the cruel bandits? They not only killed people, but also Write down the bad things you did?"

"Yes! Rumors say that this is the rule of wild bandits." Duguxie said.

"Oh my god, these **** perverts..." Tang Xiaolong said in horror there, he really couldn't imagine the perverted psychology of these wild bandits, and they would record them here when they killed people.

"However, judging from the time on this stone tablet, it is at least two hundred years old..." Du Guxie continued.

"In this way, this should have happened in the eighteenth century."

"What about now? Where is the dark city now?"

Can anyone know?

Who knows what will happen in this weird and evil city now?

"Couldn't that gang of wild bandits once lived in this dark city?" He only listened to Tang Xiaolong in front of him saying that, while staring at the strange city in front of him with wide eyes.

Yes, that dark city is a very old building no matter from the style of architecture or the external shape. Now it looks like a bleak and tragic feeling. A cold wind blows through it, as if Blow up the miserable past of this fallen place.

And what about Li Tian and his brothers? At this moment, I looked at the dead man's skull and the weird stone monument dug from the ground. Then I looked at the evil city not far in front, and I felt a gloomy feeling toward them. My heart surged.

Although none of them spoke at this moment, they still felt an extremely ominous feeling.

"Brothers, I want to ask you something." Li Tian suddenly looked at everyone at this moment and said.

They all turned to look at Li Tian and said, "What's the matter?"

Li Tian thought for a while and said: "Now we are about to arrive in the Dark City. Whether this trip is right or wrong, to be honest, even I don't know..."

"But there seems to be an extremely bad feeling in my heart... an ominous feeling."

"What about you? Do you have this feeling?"

After Li Tian said so, the brothers stood there and frowned slightly.

"Young Master, stop thinking about it..."

"Although the outside world says this dark city is very dangerous, don't forget that we have seen all the dangers along the way... I don't believe that the people here can really eat people." Evil way.

"Yes, Young Master, you may be thinking too much." The ghost servant also said there.

Listening to the brothers saying this, Li Tian smiled slightly and said, "I hope I have thought about it!"

"Well, let's go! Enter the Dark City!"

After Li Tian said these words, the brothers followed him step by step towards this dark city.

At this moment they can already see the abandoned buildings in front...Some of those buildings are low-rise bungalows, and some are empty buildings with four or five floors.

It's just that these buildings are incomplete, as if there has been a huge war here.

And Li Tian and his brothers are walking towards the front place step by step at this moment.

After crossing the road in front of him, Li Tian saw the miserable crow croaking again.

It's just that the number of crows he saw this time was a lot...Standing in groups on the bare trees outside the dark city, croaking as if welcoming them.

Looking at these groups of ominous things, brothers including Li Tian, this will give everyone a feeling of hairiness.

But they didn't back down because of it, and walked towards the dark city in front of them step by step.

This legendary dark city seemed very desolate at the moment. When Li Tian and the others approached the city, they could faintly feel the **** feeling in the cold wind...

The air seemed to be filled with the breath of the blade.

The gates of the Dark City are two bronze-colored wooden gates that are more than two feet high. The gates show the traces of time.

Chapter 1184: Inexplicable pursuit

Apart from the paint and rust that fell on this bronze-colored door, what remained were mottled cracks over the years, and there were countless crack marks on it. Those incomplete cracks looked like the marks of a blade.

Who knows how long this gate will stand here? Who knows the vicissitudes of life inside this gate?

The old city gate gave the present brothers a sad state of mind that had never been before. Looking at the old tightly closed gate in front of him, the ghost servant on the other side gently touched the rusty gate with his hand.

"We will enter the Dark City after passing this gate." A word came out of his mouth.

The brothers are also standing there, watching.

"Is this city called the Dark City from the beginning? It has no other name?" Tang Xiaolong couldn't help but curiously asked.

"Presumably no one knows this question," said the ghost servant over there.

"Go, go in."

After Li Tian was silent for about a minute, he said something in his mouth.

Six people and six lives entered the dark city like this.

When Li Tian stretched out his hand to push open the ancient city gate in front of him, he could hear the creaking sound from the city gate, which sounded like singing the story here in the wind.

Pushing open the heavy city gate, he saw the desert at first sight!

That kind of desolation comes from the desolation and despair feeling deep in my heart.

Except for the empty ruins on the street and the trash flying around, there was not even a single figure in sight!

Even the roads are muddy.

Weeds, confetti, and dust even grew on both sides of the empty road, flying in the air as the cold wind blows!

So desolate, so decadent, it seems that the city in front of you is not a city, but an empty ruin.

The buildings on both sides are ancient and mottled buildings. Some have completely collapsed, and some have not collapsed, but they are still in dilapidated condition. The first feeling of the whole city is like a ruin that has just experienced a war.

Looking at everything in front of him, Li Tian and his brothers who had just entered the Dark City were completely stunned.

"What the **** is this?"

"There isn't even a single figure?" Tang Xiaolong muttered there.

On one side, even the ghost servant frowned slightly and said, "This place looks so desolate."

Only Li Tian at this meeting, Duguxie and Hao Long behind, looked around carefully!

They have heard about the horror of this dark city, and they know that the people who can survive in this city are characters who have blood on their hands and killed people, so they dare not care!

The only surprise now is that no one can see it, or even a single sound can hardly be heard.

Except for the screaming roar like a ghost crying, nothing else!

"Let's go forward and take a look." Li Tian said lastly after pushing open the gate of the Dark City.

Then they stepped on the icy soil and walked slowly toward the deserted street in front of them.

Silent, barren, and full of darkness.

The collapsed houses on both sides seemed like ferocious beasts staring at the brothers who had gone deep into the dark city.

Li Tian and his brothers cautiously walked forward step by step.

After walking for about tens of meters, suddenly a scream came from the cold wind!

"Someone!" An exclamation came from Li Tian's mouth.

After he heard the screaming sound, he suddenly said to his brothers: "Hurry up, hide yourself!"

The speed of the brothers is so fast, as Li Tian said a word, and then turned around, they ran to an abandoned building next to them together, and quickly found a place to hide.

"Did you hear the screams just now?" Li Tian said to the brothers while looking at the empty streets.

The ghost servant and Tang Xiaolong said in unison: "I heard it!"

"It seems that someone is really fighting here." Li Tian said.

But who is fighting here? What happened to the screams just now? At this moment, Li Tian and his brothers didn't know, they just hid in a corner, and then carefully looked at the place here and observed.

In the cold wind that was like a ghost cry, there was a sudden sound of iron slamming with knives.

At the same time, there was a **** smell in the wind!

At this moment, I saw a roar suddenly coming from one side.

"Grab him and hack him to death..."

"Give it all to me, you must chop him off for me!" With the beastly voice coming, 67 sturdy men suddenly emerged from the side of a deserted alley. They all Holding a saber exclusive in the desert!

The saber is 2 inches wide and 3 feet long. The sword is wide and thick, and the blade is indeed extremely sharp.

If the saber in the desert is slashed on a person's arm, it is estimated that it can cut off the other's arm alive.

A machete of the power type.

And now there are 67 powerful men chasing and slashing at a man with a big saber in their hands.

The man was about 30 years old, his hair was scattered and slender, his upper body was naked, and there were blood stains on his bronze chest. The blood stains were not known to be his or someone else's, and he was fleeing desperately at this moment.

In such a deserted and silent dark city, it suddenly appeared that a few powerful men were holding a saber and slashing a naked upper body. At the same time, the situation of a man with scars on his body was indeed called "weird".

What's going on?

Who is a good person? Who is the villain again? Now Li Tian and his brothers can't distinguish clearly.

"I'm going... Who are those people?"

"Why are you cutting that man?" Tang Xiaolong, who was hiding in the ruins of Fei, blinked while looking at the horrified scene and said.

Li Tian and his brothers were there and shook their heads slightly. Of course they didn't know what was going on before they first arrived in the Dark City.

The only thing they can do now is to watch carefully with those eyes open.

But seeing the man who ran wildly ran forward like crazy, but the gang of beast-like fierce men behind were also chasing closely.

Finally, the man who was running wild in front of him with loose hair fell softly to the ground.

At the same time, the big sabers in the hands of the sturdy men behind had already raised.

"Asshole...see where you go!"

With a roar, one of the hunks carried the big saber in his hand and slashed at the man on the ground.

Chapter 1185: Hack him

But seeing that the man was quite capable, he rolled on the spot, avoiding the vicious knife.

Then a beautiful carp stood up, and quickly kicked it towards the strong man. With a bang, the man with the saber couldn't dodge this kick. He was kicked in his chest and fell down with a thump. On the ground.

At this moment, the sabers in the hands of the other strong men around him had already slashed towards him headlessly.

The man with scattered hair and scars on his body has no time to escape at this moment, so he can only fight to the death.

So bit the bullet and battled with those hunks.

Judging from the movements of the man with messy hair and the point of view of his moves, Li Tianneng can see that this person is by no means a weak character... and his moves are fatal moves!

It's just that although his moves are vicious enough, they lack strength, as if he hadn't eaten for many days.

At this moment, facing this group of strong men with sharp guys in their hands, it was obvious that they were powerless.

After a few encounters, a strong man with a saber in his hand cut him on his back with a knife.

Ah scream!

Blood came out from his naked back, and the man endured the pain, panting in his mouth, and was forced into the corner of the wall.

But he didn't seem to give in, his whole body was slightly bent, a pair of vicious eyes still staring at the gangsters in front of him.

"The surname Zhong, I am asking you now...Are you going back?" Only one of the 67 strong men with a beard and a black dragon tattooed on the back roared.

It turned out that the man with tangled hair was named Zhong!

"If you don't go back, today you will be waiting for the corpse to separate. I will definitely let you die without a corpse."

"But if you go back, hehe, maybe the old man will let you go."

As the man with a black dragon tattooed on his back said so, the man who had been stabbed on his back bent and said angrily: "Going back is also dead, and if you don't go back, it's also dead... I might as well be before dying. Take you a few more dog lives."

The guy who roared suddenly rushed to the group of strong men.

"Hack him!"

"Damn, something that doesn't live or die."

In this way, the man fought with these cruel guys.

Although he was hit in the back, he was still agile and he was not weak in reaching out.

I saw him punch at one of the strong men who rushed over first. The strong man was carrying a saber in his hand before a machete. He hit the bridge of the nose with a punch, his face was **** and screamed. Fell down.

The other one slashed from the side. He heard the sound of the blade and quickly avoided. Although he avoided the past, he was kicked in the abdomen by a fierce man!

He knelt on the ground gritted his teeth in pain.

"Cut me... hack this ***** to death for me." The guy leading there was still yelling cruelly.

Five or six sharp machetes slashed at him headlessly.

Although he is not weak, he is extremely embarrassed in the face of such cruel guys, and can only do his best to avoid him at this moment.

Finally, he couldn't avoid it, and one of the other hunks used a saber to stab him on his arm. The blood flowed from his arm and dripped onto the cold ground.

He opened a pair of blood-red eyes, and there was a trace of despair in his eyes.

"I fight with you."

Finally, he finally aroused the beastly nature. He hugged a rushing hunk, and then slammed his head on the opponent's face. The hunk with a saber in his hand did not expect this guy to be mad before he died and was hit. His face was ***** all of a sudden, and he screamed and rolled to the ground in pain.

"Fuck you...you go to hell!"

Another strong man slashed at his shoulder with a slap, the machete fell on his shoulder, and one of his arms was almost taken off.

And he? Only half life was left for the entire time.

He roared madly, one of his arms was chopped off, and the other hand was still holding a strong man over there. At this moment, he seemed to be crazy and bit him with his mouth. Neck.

Like a beast!

Ah... a scream.

But seeing this guy abruptly snapped the neck of the man who had just chopped on his shoulder!

The man whose neck was bitten off alive, his eyes widened, the blood from his neck was pouring out like a fountain, his body thumped and fell to the ground, where he died of convulsions.

And he? Mouth full of blood, like a crazy beast.

There was also a cruel fight in those eyes.

The strong men surrounding him were all taken aback when they saw that their companion was bitten by the guy's neck with his mouth, and fiery anger and fear appeared in their eyes.

What about here?

Li Tian, who was hiding in the dark, and his brothers were not only stunned when they saw such cruel fighting.

"It's cruel!" Even the ghost servant couldn't help saying.

On one side, Tang Xiaolong's heart exploded. The most uncomfortable thing in his life is that there are too many people and fewer people, so he only heard him say angrily: "Little boss, do we want to help?"

"Damn, look at those bastards, so cruel... and bullying less, what the ***** is that?"

Following what he said, Li Tian shook his head slightly.

"Do not."

"We can't make a move."

"We just came in in this dark city, and now we don't even know what the situation is about the other party, how can we help? Besides, is the person being hunted down for good or bad? We don't even know the roots, how to do it?"

Then Tang Xiaolong refused to accept it and said, "But..."

"Xiaolong, shut your mouth. It's not when you are a hero in this kind of place." That Duguxie suddenly said coldly.

After Tang Xiaolong heard Duguxie say this, he finally closed his mouth.

And what about the situation over there?

I saw that when the man snapped one of the strong men's neck alive with his mouth, the eyes of the macho men with sabers in their hands all around him were full of anger.

And he? He also became dying, and he seemed to be unable to fight anymore, covered in blood.

"cut."

With a roar, finally the guys with sabers in their hands rushed towards the man again.

Although the man fought like crazy, but in the end? The chaotic knife still slashed towards his body one by one.

Blood splattered.

Extremely cruel.

Finally, the man was chopped and shrunk to the ground. Those guys with sabers in their hands seemed to be unwilling to give up. After hacking him to death, they then chopped his hands and feet again. Off...

Chapter 1186: Weird old woman

Looking at the ***** corpse on the ground that had been chopped down without arms and legs, a huge chilling feeling surged from Li Tian and their hearts.

They didn't expect that when they first entered the dark city, they saw such a ***** scene, and saw that these people actually mutilated a living person in public.

After watching the group of people hacking the man to death alive, and then dismembering it, they left.

And Li Tian and the others also walked out of the ruins of hiding at this time.

They walked towards the corpse slowly, but saw that the corpse was completely unrecognizable and there was still a large pool of blood on the ground.

Li Tian took a look, closed his eyes slightly, and muttered a few words silently, as if he was blessing.

The Duguxie and the brothers around him also looked at the ***** corpse, and none of them said too much. After all, the murder had nothing to do with them.

"It seems that this dark city is really not a place where anyone can stay." A word came out of the white dragon's mouth.

He seldom speaks, but he didn't expect to say something at this moment.

"Yes."

"Everyone says that the people here are cruel and violent, and now I really understand what is truly cruel." Duguxie said slightly.

"This person doesn't know if it's good or bad, but was hacked to death by those guys... Hey, it's a pity," said the ghost servant.

Just as the ghost servant had just said this, a strange voice suddenly came from an abandoned building on the side.

"It's not a pity...it's a pity..."

"It won't be a pity for anyone to die in this place..."

Suddenly a strange voice came from the deserted building.

Li Tian and his brothers were not only shocked when they suddenly heard that someone was nearby.

"Who?"

Then Duguxie's bronze sword was unsheathed in an instant, and there was a blast of green light, and the air was suddenly full of suffocating sword aura.

Li Tian and his brothers also cautiously turned their heads and looked at the abandoned buildings in front of them without blinking.

But seeing the empty building, suddenly there was the sound of ping-pong-ping cans on the ground.

Then he saw a man dressed as if he was picking up ***** appeared in the abandoned building.

Taking a closer look, he was still an old man.

An elderly woman appeared there.

Her hair was messy and gray, and the clothes she was wearing seemed to have not been washed for many years. A thin hand was still pulling a pile of garbage and slowly walked out of the abandoned building.

The pile of ***** pulled by her included cans, broken iron cans, and some dirty and messy things.

Seeing such a weird old woman appear here, Li Tian and his brothers were stunned for a moment.

She said that just now?

Who is she?

After Li Tian and his brothers glanced intently at this strange old woman, they listened to Li Tian coldly asking, "Who are you?"

"How would it appear here?"

After Li Tian's voice asked coldly, the old woman suddenly raised her eyes.

The wrinkled old face suddenly smiled, a strange and ugly smile.

Looking at Li Tiandao, he said, "Don't you see that I am an old woman?"

Listening to this old woman's words, Li Tian not only frowned slightly.

"Are you following us?" Ghost servant suddenly asked.

The old woman suddenly laughed.

"Am I following you?"

"Oh my God, I didn't think I lived in the Dark City for more than ten years, and someone said I was stalking people?"

"Young man, may I ask, why is an old lady of mine following you?"

As the old woman asked, the ghost servant suddenly didn't know what to say.

But seeing Li Tian thought for a while and looked at the old woman in front of him and said, "Old man, then I would like to ask, why are you here?"

After Li Tian asked, the old woman stretched out a dirty and skinny finger to the trash behind her and said, "I'm picking up trash..."

"Pick up trash?" Li Tian not only felt more and more strange when he heard the old woman say this.

"Yeah, didn't you see that this dark city is everywhere...trash is everywhere? So I just pick up trash here..." she said.

After hearing what the old woman said, Li Tian certainly didn't believe it in his heart, but he really wanted to know whether the other party was an enemy or a friend.

"You just said that you have lived in the Dark City for more than ten years?" Li Tian suddenly looked at the old woman and asked.

But she laughed and said, "I don't remember exactly how many years it is.... Anyway, it should be more than ten years old at least."

After listening to her words, Li Tian and his brothers not only looked at each other.

"Excuse me, why did you say that the dead person is not a pity?"

"Also, who is the group of people who chased the dead just now?" Li Tian asked.

But seeing the old woman coughing and coughing twice, then spit out a yellow sputum from her mouth, then raised the wrinkled old face and said: "Young man, you just arrived in the dark city?"

"Yes, so what." Tang Xiaolong didn't have much favor with this old woman, so he said unceremoniously there.

But seeing that old woman was not angry, she continued: "That's right..."

"No wonder you don't know anything about the Dark City."

After the old woman said this, she suddenly sighed slightly.

"Listen to my old lady's words, before you have been discovered by those people, you should leave this place as soon as possible..."

"This place has already been reduced to hell... I think you still have a bit of humanity, unlike the people here... I should persuade you as soon as possible, leave here quickly..."

After the old woman said this, she suddenly squatted and dragged the **** on the ground, walking slowly towards the ruins step by step, as if she was unwilling to pay attention to Li Tian and the others.

"Old man, wait a moment..." Li Tian suddenly stopped the old woman.

But seeing that the old woman didn't turn her head, she just stopped slightly and turned her back to Li Tiandao: "Anything else?"

"Old man, thank you for your advice just now, but it's a pity that we have already entered this dark city... Besides, we have something to do when we come here, so please tell us about this dark city."

Li Tian just heard this old woman say that she had lived in this dark city for more than ten years, so she thought to her heart, this old woman must have a deep and deep understanding of things in the dark city. They are now entering the dark city. They don't know anything about this **** and evil city. What they have to do now is to understand, and want to know too much about everything in this dark city, so now Li Tian plans to ask this old woman.

Chapter 1187: Old woman's words

But after seeing Li Tian's question, the old woman slowly turned her body, then glanced at Li Tian and his brothers, and then fell silent.

"You really don't plan to leave this place now?" She said with a pair of weird eyes looking at Li Tian in front of them.

Li Tian smiled and nodded there.

"Yes."

"Hey..." But seeing that old woman suddenly sighed deeply.

"Since you want to understand this **** so much, hehe, let me come with this old lady." After the old woman finished speaking, she suddenly turned around, and then dragged the trash behind her step by step and squatted towards the ruins. Walk in.

The brothers in front of him are all looking at Li Tian at the moment.

"Young Master, this old woman is really strange...I think we should not go!"

"Yeah, I heard that evil is revealed everywhere in this dark city, and now such an old woman has come out inexplicably... Young Master, I think we should go our own way and ignore her."

"In case this old woman tempts us later, then it will be troublesome..."

...

The brothers in front of him were there to discourage Li Tian.

But Li Tian was indeed silent there.

After he was silent for about 45 seconds, then he thought about it and said, "I think she can believe it!"

"Think about it, if she wants to seduce us, why is she discouraging us from leaving here?"

"I think, no matter what, we have to see the situation... after all, we don't know anything about this dark city now!"

"If you wait for her to be a villain, I believe we will not be afraid of her with the strength of a few of us, but if she is a good person, she will be able to tell us many clues about the dark city..."

"What do you say?"

After Li Tian finished the analysis like this, the brothers thought about it and nodded slowly.

"The young master's analysis is good...but let's be cautious." Duguxie said.

When Duguxie first saw that strange old woman, he felt a little weird, but what was so weird about that old woman? Now Duguxie hasn't guessed it yet.

After he said that everyone should be cautious, the ghost servant and Tang Xiaolong beside him nodded.

"Okay, let's follow along." Li Tian finally decided to say.

So the brothers and Li Tian followed the weird old woman step by step towards the ruins.

The old woman in front seems to be very old, she seems to be staggering when she walks, her rickety body bends like a hunchback, and the pile of garbage pulled behind follows her step by step. There was a crisp chime.

This kind of scene now, if others look like it, will definitely find it funny.

In a city that looked like a ruin, Li Tian and his brothers followed the old lady who was dressed as if collecting garbage and walked forward.

After passing through the ruins of 34 buildings, I finally saw a simple hut.

After Li Tian and the others saw the low hut, they secretly said: Is this the old woman's house?

After thinking this in their hearts, they saw that the old woman was almost at the door of the house.

And Li Tian and his brothers quickly followed right now.

I saw that there was indeed a huge pile of **** piled up at the door of the old woman... The **** pile exuded a foul smell, it was hard to imagine such a rickety old man living with rubbish.

At this moment, after the old woman arrived at the door, she slowly put the **** pile in her hand on the pile nearby, and then slowly straightened her body, looked at Li Tian and the others, squinted her muddy eyes and smiled there. He said: "Don't dislike my old lady, this place is simple..."

As she said, a row of yellow teeth appeared in her mouth.

Li Tian and the others nodded with a smile.

"Come in... Come to my old woman's room for a while." I saw that old woman said to Li Tian and the others.

As she spoke, she fetched a bunch of iron keys from her dirty pocket.

After she found out the key, she then went to open the door in front of her, and Li Tian and the brothers had already followed carefully at this time.

Duguxie and Opteron cast their eyes cautiously around. Fortunately, the surroundings were relatively open and it seemed that there was no one.

As the old woman slowly opened the door, she invited Li Tian and the brothers in there.

Li Tian and his brothers did not refuse, so they walked in from outside politely.

The house in front of me was rather dark. After the old woman walked in, she turned on the light bulb first, and then she could see the environment in the room clearly.

The hut is very shabby and rudimentary.

There is only a simple small iron bed and two cabinets over there. On the side is the pot stove, which must be the place where the elderly cooks.

There seems to be nothing special about such a place, just like a lonely old man everywhere, living a poor life.

Only 34 small mirror frames are hung on the wall, but because the light in this room is not very good, it is not very clear.

After Li Tian and the others walked in, the old woman smiled and took a few small stools from the side and greeted Li Tian and the others to sit down. After Li Tian and the others smiled and said thank you, they sat down.

Then the old woman was busy fetching water for Li Tian and the others, saying that she would let them drink.

Li Tian and the others saw the old woman getting water for them, so they were more cautious, and said with a smile: "We are not thirsty, no need..."

The old woman seemed to see what Li Tian and the others were worried about, smiled slightly, and did not force herself too much, but poured herself a glass of water, and then slowly sat down beside Li Tian and the others.

"Go ahead, what do you all want to know about?"

"Do you want to know the person who killed the gang just now? Or the one who was chopped up and separated?" The old woman didn't even blink her eyes when she said the murder, as if she was talking about everyday food.

This made Li Tian and his brothers feel more and more curious. They all felt that this old woman must be a little weird in their hearts.

But seeing Li Tian smiled and nodded: "We all want to know."

The old woman drank a sip of water, and then said slightly: "That group of people actually has nothing to say, they are all **** things."

Listening to the old woman's words, Li Tian frowned slightly.

Tao asked: "Why do you say that?"

"Because they are all bastards, and they are all inhuman bastards," the old woman said.

Chapter 1188: Outer city, inner city

"What do you say?" Li Tiandao.

"Young people...you are new to the dark city and are not familiar with everything here, are you really not afraid at all?"

"Have you never heard of this place from the outside world?" The old woman asked Li Tian with those eyes open.

Li Tian smiled and said: "We did understand a little bit from the outside world...but we are still not sure, so please tell me more."

"Well, then I tell you...In the city in front of you, there is no humanity and no law. Think about it, what kind of place would a place without law exist?"

"Almost everyone living here has more or less one or two lives...hehe."

"Do you know why these murderers or murderous villains arrive in this city?" The old woman said as she pointed at the city in front of her with a thin finger.

Li Tian shook his head slightly, indicating that he didn't know.

The old woman smiled gloomily and said, "Because they have no way to go, they came here."

"This is a concentration camp for the wicked, where the worst should come..."

Listening to the words of the old woman, the brothers did not express too much surprise, because they did hear people talk about it when they were outside.

Tang Xiaolong who saw this meeting suddenly asked.

"how about you?"

"Did you have life on your hands? You are also a so-called villain, so you came here, right?"

Because Tang Xiaolong didn't have a lot of affection for this old woman, his tone was very unpleasant.

After Tang Xiaolong asked this question all of a sudden, the old woman suddenly trembled with a wrinkled face full of wrinkles, and then her turbid eyes shone brightly.

When Li Tian and the others noticed the strange changes in the eyes of this old woman, they not only secretly looked all over the body, in case this old woman would make a move.

But the old woman just opened her eyes, then squinted and returned to her previous rickety appearance, smiled slightly, looked at Tang Xiaolong and said, "Young man...you are right!"

"I am really not a good person... I am indeed here because I killed someone..." the old woman said and smiled.

When the old woman confessed that she came to this city because of blood stains on her hands, Tang Xiaolong was about to continue asking, but was stopped by Li Tian on the side.

But seeing Li Tian smiled and looked at the old woman and said, "I'm sorry, old man, my brother has a big mouth and likes to talk nonsense, and I hope you don't blame him." Li Tian said politely.

But seeing the old woman waved her hand slightly and smiled and said, "It's okay... I'm an old lady... It's okay."

"Old man, I still have the problem just now. I want to know why the group of people just chased and killed that man?" Li Tian asked again.

To be honest, he was really curious about what happened just now.

"The dog bites the dog." The old woman said simply.

Li Tian was puzzled.

But the old woman continued to explain: "The guy with the knife just now is not a good thing... On the contrary, the guy who was killed is not a good thing either..."

"You are new to the dark city and don't know about it... so don't make a fuss."

"I'm used to seeing the situation in the future."

"But what I want to tell you is, remember, don't make casual shots in this place, especially you outsiders."

"You have to remember that in this inhumane place, you have already lost the distinction between good and evil, and some are just whether you can survive... that's it." The old woman said.

After talking too much, she took a sip of the glass of water she had just poured.

Li Tian thought for a while and wanted to continue asking, "Then isn't it lawless here? Isn't it a mess?"

"Do not!"

The old woman waved her hand slightly.

"Although the people in this place are all evil people, they are all afraid of one person... a person a hundred times more ruthless than them, a person a hundred times more poisonous than them, and this person is dominating here, in the dark city, Only what he said alone is the real command."

Li Tian and the brothers don't need to think about who the old woman is talking about. Presumably what the old man is talking about should be the overlord of the dark city: Poison Emperor.

"Oh, by the way, young people, you'd better not stay too much in the outer city. Remember, don't be touched by those rascals, otherwise you will be in trouble." The old woman said slightly.

"Outer city? Asshole? What do you mean?" Li Tianyi asked two questions.

He didn't understand what the old woman meant.

But seeing the old woman wrinkled her old face and said, "The dark city has inner and outer cities. Don't you know?"

It was the first time that Li Tian heard people say that this dark city has an outer city and an inner city. Of course he doesn't know at this moment, so he shook his head there and said, "I really don't know."

"Oh, okay... Then my old lady will give you some more nagging." The old lady said while sitting on the stool in front of her and moved her posture slightly.

Then he continued to take a sip of water and said, "In this sinking city... it is divided into two big places, one is the inner city and the other is the outer city. I will tell you about the outer city first. Something..."

"I see, the ruins here and the places that extend far and far in front belong to the outer city... The outer city has no characteristics. The only characteristic is the ruins. Most of the houses here have been destroyed. ...And these buildings were left long, long ago. To put it bluntly, they are places where some useless waste stays.

"In this city, although everyone is bad and evil, there is a distinction between high and low status. What about people living in the inner city? Obviously the status is very noble, of course, the degree of badness is obviously higher than that of the outer city. People are more cruel and more powerful, but what about the people who live in the outer city? Basically, they are the murderers on the run and the place where the desperadoes stay. These people are often wanted characters who have killed people before. After hiding everywhere, they came to the Dark City, where they were lingering alive."

"But don't underestimate these desperadoes in the outer city...Although they are all small characters who are not mentioned, if they get tough, they are also very afraid of people. After all, they are all characters who have died once."

Chapter 1189: Outer city boss, Qiu San

Listening to the words of the old woman in front of him, Li Tian and his brothers finally knew too much about this dark city.

Li Tiangang always thought that the city of darkness was just a city, but he didn't expect that there would be an inner city and an outer city in this evil city abandoned by the world!

"Do you know the guys who were hacking people with knives just now?" Suddenly the old woman squinted at Li Tian and asked.

Of course Li Tian didn't know, he was slightly startled at the moment, then looked at the old woman and shook his head.

Just listen to the old woman slowly saying: "I tell you, those people are under the boss of the outer city, Qiu San."

"Outer city boss? Qiu San?" Li Tian was stunned when he heard the old woman say a person's name. At the same time, he couldn't help but conceal in his heart, there is a boss in this outer city?

Qiu San?

I only heard that the elderly woman crouched, and then moved forward slightly, saying: "Well, the name of the man who is dominating the outer city is called Qiu San."

"This guy is cruel and poisonous enough, everyone is afraid of him now in the entire outer city!"

"I heard that this Qiu San was an ace killer when he was outside before. Later, after sleeping with the wife of a triad boss, he was chased and killed overnight. He fled all the way and finally had no way to hide in this dark city." The old woman continued to introduce the Qiu San he just mentioned.

Li Tian frowned slightly when he heard it, and he said to himself: It seems that the guys in this dark city are really not good people.

"At the same time, he is also the judge of the death match." The old woman continued.

When Li Tian heard the old woman say this again, the more he listened, the more confused he became.

What death match arbiter?

Not only was he a little confused.

But seeing that the old woman saw Li Tian's puzzled gaze, she smiled and looked at Li Tiandao: "Do you want to ask what is a death match?"

"Yes." Li Tian answered truthfully.

But seeing the old woman said: "The death match is a killing match... The rule of participating in the death match is to kill the opponent. This is the entertainment method of the Dark City and the only way to play..."

"Oh, by the way, didn't you just want to ask who was the one being chased down? Haha, let me tell you, that person is the person who participated in the death match, because he was afraid, he was afraid of being alive in the death match Killed, that's why I want to escape and leave here... But anyone who steps into this dark city will not want to go out alive safely."

When Li Tian heard this old woman say so, he was stunned!

No wonder the guy with the saber wanted to chase down that guy. So they forced him to go back to the death match?

And those guys with sabers in their hands must be those under the old Da Ma San from the outer city. Li Tian who thinks of this place is beginning to feel that this dark city gives people an extremely evil feeling everywhere.

"It turned out to be like this." Li Tian said inwardly.

"Do you know who Qiu San is? He is the outer city overlord who controls this death match, Qiu San." The old woman said.

Li Tian thought for a while and said, "Then you mean that this Qiu San is also very powerful?"

"Do not!"

"Although Qiu San can be regarded as a very cruel character in the outer city, he is not even a dog in the inner city." He only listened to the old woman.

"what?"

"Is it true that such a powerful Qiu San from the outer city is so vulnerable to the inner city of the Dark City? Such a small?" Li Tian not only confided in his heart, but at the same time shocked the people in the inner city.

But seeing the old woman squinting her eyes and holding the cup in her hand, she nodded slightly.

"Yes."

"Young man, you don't understand too many things in this city..."

"A character like Qiu San, to be honest, is completely vulnerable in the inner city." The old woman said.

Although Li Tian had never seen the character named Qiu San, and at the same time did not know what kind of character Qiu San was, from the words of the old woman, he could feel that the inner city people were absolutely amazing.

"The reason why Qiu San can dominate the outer city is because the people in the inner city don't even bother to come to this ruined place."

"You open your eyes and look at this city, it has been completely reduced to ruins. If you were to be you, would you come to this ruined place to rule the king? A fool would do this!" the old woman said while laughing. Up.

After hearing what the old woman said, Li Tian really felt that what she said made sense.

When he first entered this dark city, Li Tian felt his eyes full of barrenness... Now that he thinks this way in his heart, it is indeed true.

"You know? Many people in the outer city want to enter the inner city... Hey, it's a pity that they don't have that ability." The old woman continued.

"What do you mean? What does it mean to have no such ability?" Li Tian asked in surprise.

The old woman said, "Do you know why the inner city is so attractive?"

"Because there are beautiful women there, there are excellent treatment, and at the same time there are good wine and food to enjoy..."

"But if people from the outer city want to enter the inner city, hehe, they must pass the death match test!" the old woman said.

Li Tian became more curious as he listened.

Why do you have to pass the death match test to enter the inner city?

"That's because only qualified people can enter the inner city! Only those who are not dead in the death match in the outer city can enter the inner city."

Listening to what the old woman said, Li Tian now almost understood.

It turned out to be able to enter the inner city by strength! It depends on surviving in the death match... Only those who really survive will be sent to the inner city.

No wonder this old woman would say that the people in the inner city are very powerful...It turned out that the people who entered the inner city crawled out of the dead pile. At this moment, after knowing the truth in Li Tian's heart, he was more or less shocked.

"Now I have told you so many things about this city... Is there anything else you want to ask?" Suddenly the old woman raised her eyes and said to Li Tiandao.

Li Tian thought for a while, and then said, "I want to ask one last thing."

"What's the matter?" The old woman in front of her took a sip of water and looked at Li Tian.

Li Tiandao: "Is the Poison Emperor in the inner city?"

When Li Tian suddenly uttered the word "Poison Emperor", the old woman couldn't help trembling. The hand holding the water cup in her hand moved slightly in an instant, and at the same time her sharp eyes He stared at Li Tian unblinkingly.

"Poison Emperor?"

"Young man, where did you know this name?" Suddenly the old woman looked at Li Tian weirdly and asked.

Chapter 1190: dissuade

Li Tian smiled and said, "I just heard people talk about it... I heard that there was a fierce man named Poison Emperor in this ruined city, so I wanted to see her."

"Haha!"

"Young man...you are so humorous...you are the first time I have seen someone who wants to meet the Poison Emperor..."

The old woman suddenly laughed.

The laughter was full of strange smells.

"Are you afraid of death?" The old woman suddenly asked a strange question.

Li Tian said truthfully: "Fear!"

"If you are afraid of death, you can leave here as soon as you are still alive and have a life left..."

"Just because you want to see the poison emperor...hehe, you have to know that everyone here obeys the poison emperor's orders. If he wants to make a person die three times in this city, that person will definitely not Live till five..."

"Young man, this is not the place for you outsiders to come, you should go as soon as possible..."

The old woman once again urged Li Tian and the others to go.

As she finished speaking, she slowly stood up as if she didn't want to say anything.

Li Tian and his brothers looked at the old woman as if they were unwilling to talk too much, so they all stood up slightly.

"Since the old man doesn't want to mention things again, then our brothers won't bother you anymore..."

"But thank you for telling us so much about the Dark City."

After Li Tian spoke these words politely, he was ready to leave here with his brothers.

When they just arrived at the door, the old woman who was standing in the dark room suddenly turned her head to look at them and said, "Can you tell me your purpose for coming to the Dark City?"

When she said this, a rare light burst into the pupils of her eyes.

Li Tian and the brothers slowly turned around, then smiled at the old man, and said, "We are actually here to find someone..."

"Find someone?"

"Looking for someone in this place full of depravity... Hehe, interesting, really interesting!" The old woman laughed strangely.

Li Tian didn't talk too much to the old man anymore, he vomited: After leaving, he took the brothers in front of him and left the house of the old woman.

After they left, the old woman kept standing at the door of the room looking at them with weird eyes...

The brothers now finally have a partial understanding of this dark city.

They already knew that the place they were staying was the outer city of the Dark City, and they also knew who was the boss in the outer city.

After passing through the ruined building in front of me, I only heard Du Guxie behind me asking in a low voice, "The old woman just now is really weird..."

"Yes, brother, I also think that old woman is definitely not a simple character."

"Think about it, a character who can survive in such a depraved place full of evil is definitely not a simple character."

"Moreover, from her words and behavior, it seems that she is quite familiar with this dark city." The ghost servant also said there.

"Well! Invisible, I can feel the murderous intent hidden in that old woman."

"If I'm not mistaken, that old woman is definitely not waiting for a moment." Du Guxie said again.

Li Tian actually saw it a long time ago, but he felt that the old woman didn't seem to have too much malice towards their brothers, and on the contrary, he told them so many clues about the dark city. According to the truth, they should be right. The old woman was grateful.

"Forget it, let's go... Since the other party doesn't have much malice, we don't need to investigate the identity of the other person."

After Li Tian said the last sentence, the brothers nodded there.

After passing through the ruins in front of them, they then began to walk step by step towards the dark city along the deserted street in front.

There were still bleak ruins all around, looking dilapidated.

Tang Xiaolong walked behind, looking at the ruins all over the floor and said, "Little boss, then according to the old woman just now, we should be in the outer city... But, how do we find the poison emperor?"

"Is the Poison Emperor in the inner city? Or the outer city?" Tang Xiaolong asked.

Li Tiandao: "If there is no accident, it should be in the inner city."

"Then you mean, let's go to the inner city?" Tang Xiaolong continued to ask.

Li Tian nodded.

"Ok!"

"But how do you get to the inner city? Where is this inner city?" Xiaolong asked.

Of course Li Tian didn't know. After thinking about it, he said, "I'll know when I'll find someone to ask..."

"Find someone?"

"There must be someone in this outer city, don't worry." Li Tiandao said.

Li Tian, who was talking, took the brothers to the front,

The farther you go, the more ruins you can see, as well as the mottled big rocks in the middle of the road.

When Li Tian led his brothers through the deserted street in front of him and was about to walk towards the alley in front, he suddenly found someone in the alley.

It's just that these people are lying there curled up and casually like a beggar.

At a glance, there are a total of 78 people rickety in clothes, scattered there, no one knows what they are doing, and of course they don't know exactly who they are.

Looking at the people in the front alley, Li Tian frowned slightly.

He knew that evil was revealed everywhere in this city, and the people in front of him naturally had to be careful.

"What do these people do?" Tang Xiaolong on one side asked.

Li Tian shook his head there, saying that he didn't know.

Then he reminded the brothers: "But everyone should be careful."

After hearing Li Tian's words, the brothers nodded there.

Then the brothers walked forward along the entrance of the alley.

But seeing that the group of people with clothes and dirty hair here saw someone walking towards them, they not only raised their cold eyes and looked at them.

The coldness in his eyes was like looking at the prey... staring at Li Tian and the brothers in front of him.

However, Li Tian and his brothers were not moved by this, but walked forward step by step.

When passing by these people, Li Tian and the others did not speak, but walked past them quietly.

And those in rags did not move.

It was not until Li Tian and all of them walked past that they were slightly relieved.

"It seems that those people are not malicious to us." Ghost servant said with a glance at the tattered people behind.

Li Tian nodded slightly there.
