

A Killer 124

Chapter 124: little bastard

Li Tian and Xia Xue said so many things for the first time, and both of them were talking to each other about their past thoughts.

When the two were standing at the door, suddenly the very awesome Audi A8 drove towards the small restaurant.

Li Tian glanced at the black Audi A8 and frowned slightly. This car is so familiar, Li Tian thought about it.

Because the window glass is jet black, it is impossible to see who is driving inside, and of course who is sitting in the car.

Xia Xue, who was standing at the door, was also slightly startled. How could such a luxurious car park in front of her small restaurant? Isn't it here to eat?

When the two people were shocked, suddenly the car door slammed open.

Then I saw a beautiful girl who was extremely beautiful and almost jumped out of the car.

"Li Tian, you little bastard!"

When the curse came out of her mouth, it was unwilling and angry.

His fierce eyes stared at Li Tian as if he had seen his man cheating.

Li Tian was stunned right now.

"Feifei?" An exclamation sound came out of his mouth.

On the other side, Xia Xue was even more surprised. She glanced at Tang Feifei, the princess-like beautiful girl, and then at Li Tian, without thinking about it, they must know each other.

Where is Feifei? After a curse, she looked at Xia Xue with jealous eyes, but she sighed in her heart: No wonder that little **** was so happy and left the Tang family so much. It turned out that there was such a coquettish vixen around him.

She fully regarded Xia Xue as a fox.

No way, women are often emotional animals. If every woman sees a man she likes standing next to a woman who is more beautiful than herself, talking and laughing, it would be strange if she is not jealous.

So an embarrassing scene formed.

Tang Feifei looked at Xia Xue with resentment and jealousy, while Xia Xue looked at Tang Feifei in amazement, and she secretly said: Why does this girl hate her like this? Is it because you are standing with Li Tian? Jealous?

And Li Tian looked at Tang Feifei in wonder.

How did she find herself?

At an awkward moment, I saw the other side of the Audi A8 door slowly opened, and Xiao Zhou walked quietly out of the car.

"Is this guy here too?" Li Tian couldn't help but stare at Xiao Zhou in front of him.

Xiao Zhou also saw Li Tian.

"Li, you...you...you are a bastard." Feifei suddenly scolded in annoyance.

When I was excited to see Li Tian's mentality on the road and saw him and another Xia Xue who was more charming and feminine than herself, she became jealous, and she let out all her resentment. Li Tian's body.

And someone? He frowned very bitterly.

"Tang Feifei, what are you talking about? Why are you scolding me? I asked you to provoke you."

Facing Li Tian's words, Feifei was not angry.

"You just hired me, provoke me, what's the matter." Miss Feifei's temper suddenly jumped up and said angrily.

Xia Xue looked at this scene, as if arguing with the young couple, she couldn't help feeling a slight sense of loss in her heart, and the inexplicable sense of loss made her feel a little bit painful.

Then she smiled and turned her head to look at Li Tian: "That's your friend, you guys talk first, I will go in first."

Speaking of Xia Xue, she turned and walked towards the small restaurant.

Li Tian was left standing alone at the door looking at Tang Feifei with a small cherry mouth.

Xiao Zhou over there frowned slightly when he saw such a scene, and then got into the car again with a sense of interest, and the car started with a grunt.

"Miss, I am waiting for you over there."

After speaking, Xiao Zhou drove the car and fell backwards, and left here quickly.

At this moment, one of Xia Xue's door was Tang Feifei, who was jealous, and the other was Li Tian, who was bitter.

Two people you look at me, I look at you, like an enemy.

"I thought you were a good thing, but I didn't expect you to be such a sexist!" Feifei scolded angrily.

Listening to Tang Feifei's cursing, Li Tian became depressed unconsciously.

"Girl, what are you talking about? What happened to me?"

Then Tang Feifei stared at her beautiful eyes: "What's wrong with you? You are ashamed to say, stinky rascal, badass."

"Girl, I'll be rude to you if you scold me again." Li Tian couldn't help being angry.

Good point, this girl scolds herself when she comes up, and who is not angry?

Who knows that Feifei's stubborn temper is also coming up at this moment, especially when I heard Li Tian say that he wants to do something to himself, it is extremely wronged, thinking that I have

finally found him after a long time, and now I have to do it, angry. The cheeky gang cursed fiercely and said: "I just scold you, scold you a little bastard, a rascal."

Li Tian furiously attacked his heart, and leaned close to Feifei in front of him, clenching his fists.

Originally, Li Tian wanted to scare Feifei a bit, but she didn't expect that the girl's eyes reddened suddenly, and tears like pearls flowed out of her eyes.

Seeing the glittering tears streaming out of Feifei's beautiful eyes, Li Tian's heart shook for an instant.

The tightly clenched fist loosened in an instant, and then she couldn't help but put Feifei's delicate body in her broad arms.

Maybe it was a subconscious reaction, maybe it was because she couldn't see such a beautiful girl weeping, Li Tian actually hugged Feifei deeply.

And Feifei, who was still heartbroken just now, seemed to be stunned for a moment, and was deeply hugged by Li Tian, and even more sobbing.

The tears of grievance wetted the shirt in front of Li Tian's chest, and his tender shoulders trembled slightly, as if he were extremely sad.

Feifei's pair of powder fists was even more tightly clenched and hit Li Tian's solid chest.

"Bad guy, rascal, little bastard..." he scolded each sentence.

Fenquan also hit Li Tian, and what about Li Tian? It was the girl in her arms that was happy in her heart, holding her arms tightly.

But he didn't see a pair of beautiful eyes in the small restaurant looking outside with a trace of disappointment.

"Smelly rascal, badass."

Feifei suddenly realized that her delicate body was in Li Tian's arms, and at this moment, her face flushed and pushed Li Tian away from her arms tightly.

Li Tian was taken aback and was pushed aside.

Feifei, with blushing cheeks, did not know if it was due to excitement or embarrassment, she stood there blankly.
