

A Killer 163

Chapter 163: I'm desperate for someone

Carrying the feminine energy, you can feel that the **** kung fu is more sinister and terrifying than the K.

Huhuhu continued the rapid onslaught, but it made Qiu Si frown slightly, and his body quickly backed away before avoiding the fatal attack.

There was a sneer at the corner of Xuepan's mouth: "But that's it."

Hearing a sardonic laughter from the monster's mouth, Qiu Si was furious, his body swayed, and he attacked Xuepan like a storm.

The speed of fist attack is very fast, and the moves are quite flexible, belonging to the kind of opening and closing.

In the face of Qiu Si's fierce attack, the **** figure in the dark night looked like a big bat spread out, enchanting and weird.

There was a sharp groan.

Suddenly seeing the blood, suddenly both palms were on his chest, from the neck to the face, the whole head was blood-red, plus the blood lotus in full bloom on his bare head, it looked even more terrified Extremely.

"Blood Shadow Palm!!"

K, who hadn't shot over there, couldn't help but exclaimed.

The Blood Shadow Palm originated from the creation of an old veteran of the Youth Gang at the end of the Qing Dynasty. This trick has been banned because it is too vicious!

I didn't expect that this Xuepan would actually be the long-lost Blood Shadow Palm.

The reason why the blood shadow palm is so evil is that this palm not only hurts others but also hurts oneself.

Once the blood shadow palm is used, he will suffer a certain degree of internal organ damage.

Unexpectedly, at this juncture, Xuepan used such a palm.

Standing next to Li Tianyi saw that Xuepan's entire face turned blood red, like a demon from the Hell of Abi, he was taken aback at the moment, and he couldn't think of such martial arts in this world. He was really shocked.

Even Qiu Si in front of him was shocked.

But seeing that **** murderous aura was filled all over his body: "Stop it."

With a roar, it was as if the blood-stained hands were approaching Qiu Si.

In the dark night, he could only see his pair of **** hands attacking Qiu Si faster than lightning.

The **** shadows in the sky shot towards Qiu Si's whole body one by one.

Qiu's body retreated vigorously, but could not stop such a powerful offensive.

He backed back again and again, blocking the flying moves with both hands, but unfortunately, it was still a step too late.

With a bang, just when Qiu Si was not paying attention, the blood shadow palm hit Qiu Si's chest heavily, and Qiu Si's body flew backwards like a broken kite.

With a plop, he fell on the cold ground, and at the same time, he spouted blood from the corner of his mouth.

"Old hatred!"

Li Tian endured the pain in his body and ran towards Qiu Si.

On the ground, Qiu Si's face was pale, with red blood on the corners of his mouth, standing up in that hard struggle.

After all, Qiu Si, who was overstrengthened just now, is an old man in his half-year-old. Li Tian has clearly heard the heavy gasps in his nose. It is obvious that his physical strength seems to be exhausted.

But after the **** palm over there used the blood shadow palm again, the blood-red light on his face had slowly faded at this moment. With a wow, even a mouthful of blood spurted out of his mouth.

"Bloodpan, how are you?" K over there looked at his companion worriedly.

Xuepan vomited blood because of the **** palm hurting his body. At this moment, his internal organs were slightly damaged, but it was far incomparable to the severe injuries that Qiu Si suffered.

He stretched out his scarlet tongue and licked the blood on the corner of his mouth disgustingly, and smiled sullenly.

"Old man Qiu, can you tell me the whereabouts of that (shadow) now?"

At this moment, Qiu Si, who had struggled to stand up from the ground, his face was as pale as death, and after a **** palm was hit in his chest, Li Tian could even feel that Qiu Si's body was trembling slightly.

"I tell you two, even if I die here today, I won't tell Binger's whereabouts!"

"You never want to find her for the rest of your life."

I heard Qiu Si Da righteously say so.

Murderous intent appeared in the **** eyes in front of him.

"Then I will kill you first."

As he spoke, Xuepan suddenly rushed towards Qiu Si, really wanting to take the life of Qiu Si.

Now Qiu Si has no power to fight back. After all, he is an old man in his 60s. Just now, Qiu Si, who was two masters in Lian Chan, has reached the limit at this moment. In addition, he has a **** palm that has been vicious. At this moment, the energy is even more fragile.

He was about to be buried under the palm of that blood.

At this moment, Li Tian no longer wanted to stand in front of Qiu Si.

"Asshole!"

The roaring sound roared from Li Tian's mouth, his body dodges Li Tian at a rapid pace like a whirlwind, and at the same time one hand grabs the ***** body in front of him from a completely incredible angle.

This trick used the weird catch on the book that day.

He didn't expect that Li Tian would make a sudden move. He was slightly taken aback. He wanted to get back, but he didn't expect Li Tian to grab his arm.

Under the horror, Xue Pan was stunned for a moment, and then shot Li Tian with the other hand.

After a successful move, Li Tian tightly grasped the ***** arm, and then twisted his body, his arms were in a Tai Chi posture, and he suddenly massaged forward, pulling his arm.

Li Tian, who was pulling back, then slammed forward with his chest, and the huge breath that came out of his body slammed into Xuepan's shoulder.

Xuepan was knocked out in surprise.

It's just that he didn't fall, but a backflip settled on the ground.

"Good boy, I underestimated you." The blood fell on the ground and said with an angry face.

Li Tian stood in front of Qiu Si, and his husband was in charge.

"If anyone dares to attack the old man today, I will fight hard with someone." Li Tianru roared there like crazy.

However, Qiu Si couldn't help sighing.

Although he was also very surprised that Li Tian used such weird moves in a crisis, but his strength was not strong enough, and his movements were quite skillful, but if he wanted to deal with the blood in front of him, K was absolutely impossible. .

So after he sighed, he said to Li Tiandao: "Boy, listen to me, you leave here as soon as possible. You have nothing to do with this incident, so why bother to die here innocently?"

Listening to Qiu Si's words behind, Li Tian said decisively: "No, I won't go."

"I won't leave today even if I don't do it for my future wife."

"These two ***** bully you alone and dare to be so arrogant. The thing that Li Tian looks down on in my life is this kind of bastard."
