

A Killer 2641

Chapter 2641: Thousand Kill Knives

When Na Moor saw Li Tianman's spiritual power, he sat on the ground in shock.

What about Li Tian? He didn't even look at him again, and walked out of the medicine refining room in front of him.

After leaving the Melburnian room, Li Tian returned to his shabby dormitory.

For Moore, who is as obedient as a dead dog now, Li Tian feels very satisfied. This **** with a sharp-mouthed monkey cheek has to deal with him in this way, otherwise, he will be very arrogant.

After returning to the room, Li Tian took out the cheats.

These few Qi illusion technique cheats have just been brought from Na Moben...Two of them are elementary illusions and one is intermediate illusion.

Li Tian took a look, and then opened a first-level illusion art cheat book first. He wanted to find more Qi illusion art...because he wanted to become stronger.

After opening it, Li Tian looked at it, with dense text inside.

After watching it around, Li Tian was suddenly disappointed.

"Damn it, why are all the contents above condensing spiritual energy... and illusions that release body aura? None of them are practical illusions at all?"

After watching disappointingly for a while, Li Tian threw the elementary Qi illusion technique secret book in his hand on the ground, then picked up the other one and started to read it.

The second elementary Qi illusion technique cheats are exactly the same as the first.

Also all those useless knowledge of breath introduction! Li Tian, who watched for a while, was not only angry.

Snapped.

Li Tian threw the second book on the ground.

Finally, Li Tian took out the "Intermediate Qi Illusion Technique Cheats".

"This is the last one, hey, I hope there are some useful Qi illusions on it. If there are none on it, then it will be really depressed." Li Tian thought to himself.

Thinking of this, Li Tian opened the last cheat book.

After a few glances, the knowledge in front was still useless, and when he turned to the back, he suddenly saw a useful Qi illusion.

"The Art of Thousand Killing Swords!"

When Li Tian saw the three characters of the Thousand Killing Sword Technique, he was not only moved.

"What kind of weird illusion is this? Why did you give such a weird name?" Li Tian was not only secretly shocked in his heart.

Then the eyes began to look at the note of the Thousand Killing Knife Art, which read: The Thousand Killing Knife Art relies on stimulating spiritual power, and then injects both arms, then performs the Thousand Killing Knife's stunt, and then uses gasification. The knife, the spirit of energy will condense an extremely sharp phantom blade, and then rely on the body's energy to control the knife. Intermediate players can display up to 12 Thousand Kill Knives, and advanced players can display 35 Thousand Kill Knives.

Thousand-killing knife, breaking wind, breaking thunder and lightning, breaking shadow, breaking fire, breaking water! Among the qi illusions, high-level illusions, intermediate and elementary tiers, are completely forbidden to practice because they will hurt themselves

All illusions are broken!

Looking at the explanation of this Thousand Killing Sword Technique, Li Tian suddenly became excited.

"This illusion is good, I like it very much." Li Tian thought to himself.

"Hey, it's a pity that this illusion technique elementary, intermediate, or lower is not allowed to practice, what should I do?" Li Tian thought in his heart.

The low-level ones can't practice yet! Practice will hurt yourself.

Li Tian looked at those words, not only slightly depressed in his heart.

"What can I do? Do you still practice this Thousand Killing Sword Art?"

Li Tian thought for a while, and after pondering in the room for a long time, he suddenly made up his mind.

"Since I have finally found a Qi illusion technique that I can learn, how can I just give up like this? Although I don't know whether I am a beginner or an intermediate, I can't worry about that much now."

"Cultivation! I must practice this thousand-kill sword technique."

After Li Tian thought this way, he was ready to start practicing.

This Thousand Killing Sword Art is quite difficult to practice. First, it must condense extremely powerful spiritual power... Fortunately, Li Tian's physical spiritual power has reached unprecedented levels, so this most basic practice is relatively simple for Li Tian. .

After condensing the qi, it turned into qi, and then began to practice the illusion technique thousand killing sword.

After all the cultivation, he can slowly use his body's qi to condense into a physical Thousand Killing Sword...After all is done, he can say that the cultivation has been successful.

So Li Tian began to practice.

Anyway, he was very leisurely alone. As for the only Moleben, after being severely taught by Li Tian, he never dared to disturb Li Tian again.

Just live day by day.

It took Li Tian 2 days to finish the Qi Qi cultivation.

Then it took another few days to start gassing.

After all the cultivation was completed, he began to practice the illusion technique Thousand Killing Sword.

This Thousand Killing Knife has three tricks, the first is the invisible sword, the second is the ruthless sword, the third is the nameless sword.

The three-stroke sword technique is poured into the breath of the whole body. Once it is performed, the air will be filled with sword energy. When the sword is broken, it is when the enemy falls.

Although these three sword techniques seem simple, they are extremely troublesome to practice.

In this way, Li Tian began to practice day by day in the dilapidated dormitory.

...

Time went by day by day, and in a blink of an eye, a month passed.

Since the last farce happened, Li Tian's dilapidated dormitory has never been visited by anyone.

The students of Bander College are all in their respective departments, practicing diligently, and everyone is preparing for the Imperial Illusion Contest.

In Li Tian's dilapidated dormitory, one inexplicable morning, there was a loud bang.

Then I saw a "blade" transformed from qi flying over from the air. The blade was about one meter long and wide. When it flew over from the air, the whole blade hissed.

The blade swiftly rotated in the air with a few strokes, and suddenly slammed straight down. With a bang, the hard ground was cut into a deep ravine more than two meters long by the "blade" that was transformed with air.

"The ruthless knife, a ruthless cut, it is really powerful! Haha, Li Tian finally practiced the second move of the Thousand Killing Sword, the ruthless knife." A loud shout suddenly burst from his mouth in the room.

Then I saw a figure rushing out of the room with a "swish" sound.

Look carefully, isn't that person Li Tian?

After more than a month of cultivation, Li Tian became more sharp, especially the powerful spiritual power exuding from his body, which can be felt in his gestures.

If the old dean of Bander College and other teachers see Li Tian, they will be shocked!

Because of Li Tian's extremely powerful spiritual power, as well as the powerful aura of Qi illusion exuding from his body... it can't hide it.

It was said that Li Tian was flying out, his brighter and brighter eyes flickered at this moment, and then his hands were slightly turned, and the blade that was transformed from Qi disappeared in the air with a whistling sound.

Chapter 2642: Ghostly Shadow

"I have now practiced the second sword technique of the Thousand Killing Sword Technique, and there is the last move, the nameless sword!" Li Tian murmured in that mouth.

If the last trick "Anonymous Sword" can be completed, Li Tian can say that he has already practiced this "high-level" illusion technique.

After thinking like this in Li Tian's mind, he continued to practice the "nameless sword".

This third move, although the nameless sword is slightly more difficult to practice than the first two moves, it does not affect Li Tian.

After several days of cultivation, Li Tian had already memorized the third technique of the sword.

That morning, after Li Tian mastered the nameless sword again, he began to want to use his breath to show it.

Li Tian then came to the outside of the dormitory, and then began to slowly transform the body's spiritual energy, and then began to use the nameless sword.

However, after Li Tian condensed his spiritual power, he suddenly discovered that something in his body seemed to be blocking his spiritual power.

"Hey, how can my body feel this way?" Li Tian thought about it in shock at the moment when he felt the strange changes in his body.

When Li Tian felt that something was wrong, he continued to want to use his spiritual power to activate the Wuming Dao.

But when he tried to use Qi to illusion and create a blade, he suddenly found that he could not illusion... the invisible barrier of his body seemed to be seriously obstructing himself.

"How can this be? How can my spiritual energy not be transformed into this nameless knife?" Li Tian was shocked in his heart.

Then Li Tian hurriedly experimented twice again, but these two times were exactly the same as before, still being transformed.

All of a sudden, Li Tian was completely depressed.

"Damn, what the **** is going on?"

"Why can't I display my spiritual energy?" Li Tian roared.

But no matter how angry Li Tian is or how he tries again, the result is exactly the same.

He could not practice this third trick, the nameless sword.

Li Tian, who had been cultivating for an hour, couldn't help but let out a roar...

"Asshole!"

After Li Tian screamed, he sat on the ground in disappointment.

It turned out that Li Tian kept practicing and retesting within this hour, but every time he ended up in failure.

At this moment, Li Tian was completely depressed, and the last trick of the nameless sword could not be practiced, which meant that Li Tian's Thousand Killing Sword Technique had not yet been completed! Thinking of this, Li Tian became angry.

"Am I wrong in my practice? Or what's the reason? Why is there an invisible barrier in my body blocking the breath?" Li Tian said secretly.

He thought for a while, but he didn't want to understand.

Because he had practiced again several times...He felt that he was not at all wrong, but, no matter what, he couldn't perform the last move of this Thousand Killing Sword Technique.

"Forget it, maybe it's because I'm too tired from cultivating. Wait for me to rest, rest, and practice again in two days." Li Tian can only comfort himself like this now.

After Li Tian stood up from the ground, he returned to the dormitory.

He changed into clean clothes and walked out of the dormitory again.

The sun outside was dazzling, and Li Tian felt warm all over his body.

"I haven't left Bander College for a long time... The weather is good today, let's go for a walk." Li Tianxin thought.

For more than a month, Li Tian has indeed been practicing the Thousand Killing Sword Technique, so he has basically never gone out. Now he is resting, so he is ready to go out for a good walk.

When he came to the gate of Bander College, Li Tian couldn't see a student from Bander College.

Li Tian walked out of the gate of the college, feeling extremely refreshed.

Outside the college, it was very lively, and there was an endless stream of pedestrians.

Li Tian followed the pedestrians step by step into the downtown area.

This imperial capital is indeed much more prosperous than Stormwind City. On the extremely wide road, I saw carriages moving forward fast.

Occasionally, I can hear the voice of businessmen hawking there.

Li Tian walked leisurely like this, observing the human and local customs of this other world.

Just as Li Tian was walking towards the street in front, suddenly a beautiful figure in front of him flashed past.

That figure is so familiar... so beautiful.

Although she only turned her back to Li Tian and was wearing a purple dress, Li Tian still recognized it at a glance. That seems to be his favorite woman, Situ Ningbing.

"Ice ice?"

A familiar name suddenly screamed from Li Tian's mouth.

Is it Situ Ningbing?

When Li Tian was screaming out the name, he suddenly chased forward in a crazy manner, yelling there while chasing, "Ningbing...Ningbing..."

But the beautiful figure in front seemed to have not heard at all, turned around and walked towards the alley in front.

Li Tian chased after him like crazy.

The citizens of the imperial capital around them looked at Li Tian in surprise when they saw Li Tian yelling a weird name in their mouths and chasing them forward.

Li Tiankuang chased him, and when he reached the alley, he suddenly saw the beautiful figure from the back, and once again turned and walked to the left.

Li Tian then continued to chase.

After quickly chasing the place in front, he suddenly discovered that the beautiful figure that looked like Situ Ningbing had suddenly disappeared.

"Ice ice?"

"Ningbing, where are you?" Li Tian exclaimed.

But his voice disappeared like a stone sinking into the sea.

And the beautiful figure just now disappeared at this moment.

Li Tian yelled a few times, and after no one responded, he stood there in agony, his eyes flashed with infatuation, standing there blankly.

The surrounding area was extremely empty, and there was no single figure.

"Did I be dazzled just now? I was wrong?" Li Tian said blankly.

Just as Li Tian was thinking about this in his mind, suddenly there was a low whispering voice in the corner alley ahead.

The sound is very small, but Li Tian can still hear it!

After all, Li Tian has ear power that ordinary people can't reach!

After Li Tian heard the whispering sound, he was shocked, and he secretly said: What sound?

"Could it be Ningbing there?"

When he thought of his favorite Situ Ningbing in his heart, Li Tian desperately swept forward quickly, he wanted to see if the sound was made by his lover.

Chapter 2643: Blood Sacrifice Illusion

When Li Tian quickly swept over, he heard the whispering voice again.

Li Tian did not show up directly, but hid in the wall, looking up at the place in front of him.

At this look, he suddenly saw the back of "Ning Bing".

It's that beautiful back again...

Both the figure and the silhouette are so imaginative with Situ Ningbing.

It's just that the woman turned her back to Li Tian, and Li Tian couldn't immediately be sure whether she was Situ Ningbing or not.

Just when Li Tian saw the familiar back and was about to speak "Ningbing", he suddenly saw two men in black robes coming out of the corner.

The two men in black robes dressed very strangely. From top to bottom, their entire bodies were covered with black robes, only the two exposed faces appeared.

They were two extremely pale faces, with black lips, no eyebrows on the weird faces...just two pairs of cold and weird eyes.

"Strange, how do these two weird people look like this?" Suddenly Li Tian said in that secretly.

He has been in Lingtu Continent for so long, and has never seen such a strange "human being". What role are these two guys with no eyebrows...what exactly are the white-faced zombies?

Li Tian originally wanted to call that "Ningbing", but when he saw such two weird guys appear, he resisted it.

Continue to observe the situation with blinking eyes.

I saw two weird men in black robes continuing to whisper to the woman, as if they were talking secrets.

Li Tian listened carefully, but because the other party's voice was too small, he couldn't hear it at all.

"What the **** are these people doing? Why are they mysterious?" Li Tian secretly lining in his heart, while observing the situation in front of him.

While Li Tian was observing, suddenly the woman who looked like Situ Ningbing turned around and left.

Li Tianyi saw that the figure was leaving, and couldn't help it anymore.

He has to catch up and take a look... to see if that figure is his favorite.

"Ningbing!"

Suddenly when the woman turned and walked to the corner, Li Tian couldn't help but quickly jumped out of the hiding place, and then shouted.

When his voice screamed, the two men with no eyebrows and faces as white as zombies suddenly lifted their pale faces and stared coldly at Li Tian's body.

And that weird woman called "Ningbing"? At the corner in front, she suddenly paused slightly... and then she turned and left without even looking back.

When Li Tian saw that she had left, he was extremely disappointed at the moment, but he still didn't give up and wanted to catch up with him.

"Ningbing, this is Li Tian."

Li Tian shouted while chasing here.

But when Li Tian was chasing this way, he suddenly saw one of the weird people wearing black robes, suddenly shouted in his mouth, and then suddenly stretched out his palm, showing a strange mark from the palm of his mouth, Roared: "The Seal of the Blood World!"

After he roared, a strange group of scarlet blood gradually turned out of his palm, forming a giant net-like blood mark, and then "boom" over Li Tian's whole body.

The seal of the blood world, the blood sacrifice illusion, is an illusion that is absolutely forbidden to learn on the land of the soul, and it is also the ultimate illusion of the demons

Li Tian had never seen such a weird illusion. He had seen lightning illusion, wind, water, and Qi illusion he had cultivated, but he had never seen such a weird blood sacrifice illusion.

When he saw the huge net-like blood mark coming towards him, Li Tian was taken aback, his body retreated suddenly and quickly.

The mark of the blood world hit the air and disappeared.

And at this moment, the two weird men wearing black robes and no eyebrows, their pale and terrifying faces stood in front of Li Tian.

Li Tianyi saw the two men standing in front of him, and immediately roared: "Get out! I don't want to cause trouble, I just want to find my woman... If you don't want to die, get out."

Li Tian roared, and he was about to chase after the woman who looked very much like Situ Ningbing just now.

But when Li Tian walked over, the two pale-faced men suddenly yelled: "Kill him."

"Okay, kill him." The other guy also vomited a harsh voice at this moment.

After the two opened their mouths, they suddenly faced Li Tian, and then the whole body was covered with a layer of scarlet blood.

Blood sacrifice illusion.

When Li Tian heard that the two weird men were going to beat him up, he was furious.

"This is what you forced me!"

Li Tian is now in the process of anxiety, he can't wait to catch up with the woman just now...It's a pity that the two weird men in front of him actually blocked his way, so he was angry.

"Slavery."

With a roar, Li Tian displayed his most proficient anger technique, and then quickly stretched out a hand, a huge spiritual power directed at one of the weird men in black robes at an incredible speed.

That weird man in a black robe might have never thought that Li Tian's Qi illusion had such a powerful strength. Before he had time to evade, his entire body was suddenly controlled by Li Tian. With a thump, his body suddenly floated. In the air, then he slammed heavily towards the wall.

Boom!

His body fell heavily on the wall.

It's just that at the moment his body slammed into the wall, his hands quickly made a mark, and then a blood-colored defensive cover appeared all over his body.

"Blood escape!"

Then his body hit the wall, the cold and hard wall, a huge hole was knocked out by his body, but there was nothing wrong with his people.

Because he used the technique of "Blood Escape" and actually blocked the force of the heavy blow just now.

Li Tian was stunned when he saw that the weird guy in black clothes had used "Blood Escape" to block his slavery attack.

It's not only in my heart: Why is this guy so powerful? Under the control of his slave-qi technique, he could still seal with both hands? It's incredible! What are they from? Also, what kind of weird illusion is the illusion they use? How come I have never seen such a **** illusion in the Spirit Earth Continent... and no one has ever mentioned such **** illusion?

Li Tian turned quickly in that mind.

Chapter 2644: Angry Fight Black Robe

Just as Li Tian was thinking about it, the two weird men in black robes were already staring at Li Tian with their ugly eyes.

"Aura?"

"This kid is using Qi illusion technique?" Suddenly one of the guys wearing black robe looked at Li Tiandao stiffly in that voice.

Another black-robed man who was nearly seriously injured by Li Tian just now suddenly said coldly, "Yes."

"For many years, I haven't seen a terrible Qi illusion user in the human race... I didn't expect to encounter one today."

"If it wasn't for me to be careless just now, this kid would have been tricked." He raised his gloomy eyes and said coldly at that Li Tiandao.

"Kill him?" asked one of the guys in black robes.

"kill!"

"This person's Qi illusion has been quite accomplished and must be killed." Another man in a black robe said coldly.

Li Tian stood on the side listening to the words of the two people talking, and at that moment, he was not only slightly startled.

What did they say just now? He calls himself Terran? Are these guys...

Li Tian suddenly thought of a terrible word in his mind, but he did not say it.

"Boy, count you unfortunately today, and you met us." I saw one of them looking at Li Tianzai and said gloomily.

Li Tian raised his eyes to look at these two weird guys, and said, "Really?"

"Yes, when you meet us, there is only one dead end." A man in a black robe suddenly said strangely.

Li Tian suddenly sneered and said, "Death? Okay, I want to know how I will die today."

"You will die and it will be ugly."

The black-robed man who was attacked by Li Tian just now, after finishing speaking, suddenly stretched out his palms and suddenly shouted: Blood Sand Burial.

Among blood illusions, high-level illusions! ! No one could have imagined that Li Tian actually encountered two high-level blood illusionists today, and now Li Tian knows that the two weird men in black robes opposite are actually high-level illusionists. It would definitely be shocked and unimaginable... But now Li Tian doesn't know anything, so he is not afraid.

At the moment when he roared out, the blood in his hands was suddenly tumbling, and then a cloud of blood-colored sand like a sandstorm quickly emerged around his body.

The blood sand kept spinning around him, and then suddenly attacked Li Tian.

Li Tian had never seen such a weird illusion, and when he saw this "blood sand burial" hit him, he was not only taken aback.

Then his body quickly retreated quickly.

With a swish, his body flew upside down a few meters, and then avoided the terrifying "blood sand burial".

I saw the flying blood sand hitting the position where Li Tian stood just now, poof, poof, poof, and the entire ground cracked open.

"What a powerful illusion." Li Tian said in shock.

When he was shocked, the man in the black robe used the "Blood Sand Burial" again, and saw that the "Blood Sand Burial" swallowed towards Li Tian like a blood monster.

Li Tian didn't evade this time, because he knew in his heart that evading himself again and again was no way after all.

As he watched the "Blood Sand Burial" attacking him, Li Tian suddenly covered his whole body with spiritual power all over his body. Then he used his whole body spiritual power, and then used the "slave energy technique."

"stop!"

A loud scream came out of Li Tian's mouth, Li Tian stretched out his hands, huge spiritual energy burst out of his palms, and controlled the "Blood Sand Burial" that was flying over.

I saw that the terrifying "Blood Sand Burial" that flew from was suddenly placed in the air by Li Tian's servile technique.

Although Li Tian controlled the attack of the "Blood Sand Burial" with servitude, he found that the strength of the black robe man in front of him was beyond his imagination!

Because of his so powerful slavery technique, it only freezes the "Blood Sand Burial", and it is absolutely impossible to control the "Blood Sand Burial".

"Good boy, a little capable, can actually stop the blood burial sand illusion?" Another weird man in a black robe suddenly said.

"Come on, **** illusion."

Following his exit, suddenly: "Blood Shadow Archery."

Blood Shadow Archery, the same is: Blood Illusion, Advanced Illusion

When the black-robed man made this move, suddenly his hands quickly made a mark on his chest, and then he saw his ten fingers suddenly opened, and each finger simultaneously accumulated extremely powerful spiritual power... ..Then I saw that ten blood-colored sharp arrows suddenly condensed from the ten fingers, and then swished towards Li Tianfei.

This blood shadow archery technique is to rely on spiritual power, and then infuse the ten fingers, and then make the bleeding arrow sharp.

All the ten blood-red sharp arrows shot towards Li Tian in a swish, swish, and swish.

Li Tian frowned slightly, and then quickly dodged his body. Those blood-red little arrows shot from the air, rubbing Li Tian's body and hitting the extremely cold wall.

After dodging, Li Tian suddenly resorted to servitude, then controlled a huge stone, and then smashed the huge stone at the two black-robed men.

The two black-robed men snorted, and suddenly their palms stretched out, and the bang, bang, and terrible palms directly smashed the huge boulder that was shot over.

When Li Tian saw that his slavery skills were completely useless in front of these two weird guys, he was not only surprised.

"What can I do? My own slavery skills seem to be unable to deal with these two terrifying guys in front of me?"

Thinking like this in his heart, Li Tian suddenly wanted to try the "Thousand Killing Knife Technique" he had just learned.

"Okay, I will try the newly learned Thousand Kill Sword Art."

After thinking this in Li Tian's mind, he suddenly began to use the "Thousand Killing Knife Technique".

This Thousand Killing Knife technique is to condense the spiritual power into an invisible blade, and then use the air to control the blade, and perform three earth-shaking moves: the invisible sword, the ruthless sword, and the nameless sword.

Although Li Tian had practiced the first two tricks, he had to use it in such a crisis moment because he hadn't learned any other illusions at all besides these two illusions.

After Li Tian made this decision, he displayed the "Thousand Killing Sword Technique."

Invisible knife.

Li Tianhu shouted, and his whole body suddenly flew into the air. At the moment he flew up, he suddenly poured the spiritual power of his whole body into his hands and hearts, and then he began to phantom the sharp blade.

Soon, a sharp blade was condensed by Li Tian.

This knife was made with Qi, and looked strange and terrifying.

Chapter 2645: Run away

The art of Thousand Killing Knives is a high-level illusion of Qi illusion.

High-level vs. high-level, who is better?

I saw that after Li Tian had displayed the Thousand Killing Sword, the "blade" condensed in the air suddenly, Qingtian slashed towards the two men in black robes.

The blade was spinning rapidly in the air, and the knife moved with Li Tian's gesture.

The two weird men in black robes were not only taken aback when they saw Li Angel's "Thousand Killing Sword Technique".

"Qi illusion high-level illusion?" There was a silent shock in the voice!

"Good boy, I can actually practice the qi illusion technique of waste to such a high level...Second, don't be careless, we will jointly kill this boy." Suddenly a black robe man roared there.

Another black robe man also nodded quickly at this moment and said, "Okay."

At this moment, the two weird men in black robes didn't dare to be careless anymore, because each of them could see that Li Tian was not easy.

Qi illusion is the most controversial illusion existence in Lingtu Continent! Many people think that this kind of illusion does not need to be practiced...because it is very weak, and it is too difficult and too complicated to practice! But there are still a small number of people who think that they can practice Qi illusion, because once Qi illusion reaches a high level, its power will be several levels higher than similar illusion! Even dealing with the most terrifying blood illusion technique of the demons in front of them is absolutely worthwhile... But how many people in the world can practice Qi illusion technique? Can you cultivate to a high level? Some people, even if they spend their entire lives in vain, only stay at the initial stage...

After the two black-robed men reached an agreement, the two jointly attacked Li Tian.

"Blood Sand Burial!"

Roaring wildly throughout his life, I saw one of the black-robed men, the blood and sand dust storms all over his body became more and more dense... Gradually a huge tornado was formed, and then it frightened towards Li Tian in front of him.

And what about the other black-robed man? He also quickly used his "Blood Shadow Archery", and all **** arrows shot towards that Li Tian.

The sound of breaking the wind is endless.

Facing the two high-level blood illusions, Li Tian was not afraid, and the "Thousand Killing Sword Technique" in his hand used the second sword.

"Relentless Knife"

When this ruthless knife was put on display, the blade that had been transformed into the air suddenly slashed, and then it cut through the air, slashing towards the blood sand burial.

The tornado-like "blood sand burial" was instantly chopped by Li Tian's "relentless blade".

Then the blade slashed at the black-robed man. The black-robed man was shocked and muttered: "High-level Qi illusion technique... really powerful."

He retreated, and roared in his mouth: Blood escape!

A blood-colored barrier gradually formed all over his body.

The ruthless blade slammed on the "blood barrier" with a heavy thump, and there was a loud noise, and then he saw that the blood escape blocked Li Tian's terrifying blow.

The other black-robed man saw his companion being attacked, and immediately shouted, the **** arrows in his body became more and more, and he shot towards Li Tian.

Whoosh, whoosh, whoosh.

Li Tian saw the **** sharp arrow shooting at him, and immediately crossed his hands, the blade suspended in the air suddenly crossed at the same time, and then waved his hand to slash, and a huge blade gas burst out of the wind.

Bang, bang, bang, all the **** sharp arrows that flew over were chopped into the air.

The black-robed man saw that his "Blood Shadow Archery" was crushed by Li Tian, he was taken aback, and his body quickly retreated.

"Second, this kid is so tough, it seems that we two can't deal with it?" Hearing that the black-robed man retreated, suddenly looked at the other black-robed person beside him with a pale face.

The black-robed man was also shocked by Li Tian's shocked Qi illusion at this moment. At the moment, his eyes flickered and said: "Yes, this kid has not only cultivated Qi illusion to a high level... but also has a terrifying spiritual power. Degree."

"How to do?"

"Let's go! When we look back and find someone to clean him up, we must kill this person."

"Okay, let's go."

The two weird men in black robes were suddenly ready to flee, as if they couldn't resist the current Li Tian.

"Blood fog." Two black robe weird suddenly roared.

Suddenly a weird blood-colored mist rose up around their bodies... Then the figures of the two black-robed men plunged into the blood mist, and then swish, swish, and the two black-robed men disappeared.

Li Tian watched the two black-robed men disappear, not only letting out a sigh of relief.

"They ran...great!"

It turns out that Li Tian's Thousand Killing Knife technique has already performed two tricks, and his third trick, the nameless sword, has not yet been practiced, so if you fight against those two weird people, you will definitely lose!

But what Li Tian didn't expect was that when he was performing the two tricks of the Thousand Killing Sword Technique, the black-robed man had escaped...I was really happy at this moment.

Watching the two black-robed men disappear like this, Li Tian stood there and stared blankly.

"What are these guys from? And why are they so weird?"

"Even the illusion techniques they used... are unprecedented! It's so weird..." Li Tian said in the dark.

After thinking about it, Li Tiandao: "Forget it, I'll wait until I return to the academy and ask someone to ask, maybe I can know the reason..."

After thinking this way in my heart, I decided to do it.

It's just that his heart is extremely disappointed at the moment.

"Today I finally saw a girl like Situ Ningbing's back...but I didn't expect her to leave like this... Isn't she Ningbing? Not his lover?" Li Tian thought inwardly.

Looking at the place where the girl just disappeared, Li Tian fell into a hesitation.

"Ningbing, where are you? Where should I find you?" Li Tian whispered in pain.

After experiencing this incident, Li Tian did not continue to wander around, and he quickly returned to Bander College.

What happened today is very weird, so he must now find someone to ask about the situation.

After Li Tian thought for a while, he felt that he was still looking for the **** Moorben.

After thinking this in his heart, Li Tian went to look for the sharp-mouthed monkey cheek Moorben.

After arriving at the refining room of Na Morben, Li Tian directly pushed open the door.

In that room, Moore, who was refining the medicine, was shocked when he saw Li Tian suddenly walk in.

"Li Tian...you...you...coming!" Moore now looked at Li Tian as if he saw a devil, and was full of fear.

But seeing Li Tian sneered at Moore and said: "Moore, come here, I have something to ask you."

When Moore heard Li Tian say this, he ran over and said with a shy face, "What's the matter? As long as I know... I will tell you."

Chapter 2646: Demon thing

Li Tian smiled slightly when Moore said that.

The current Moore could be said to be reverent to Li Tian, there is no way, who makes him afraid.

But seeing Li Tian looking at the extremely obedient Moorben at this moment and asking: "Moorben, let me ask you, how many illusions are there on the Spirit Earth Continent?"

After hearing Li Tian's question, Moore was not only taken aback, and said in surprise: "Uh? What do you mean?"

"I ask you what kind of illusion arts in this world!" Li Tian turned his head and looked at Moor in a cold tone.

Moore was taken aback, and quickly replied: "Five kinds...five kinds..."

"Respectively, thunder and lightning, fire, wind, water, and air." Moorben quickly replied.

Hearing what Moore said, Li Tian frowned and said, "Really? But how do I think there are other kinds of illusions in this world?"

When Moore heard this, he was stunned...

"No...no..." he said.

"Really? Think about it again." Li Tian said coldly.

After hearing this, Moore turned his head quickly, and suddenly said, "Oh, I'm sorry, I remembered it wrong...If you count the demons, there is actually a kind of illusion!!!"

"Mozu?" When Li Tian heard these two words, he was not only taken aback.

This was the first time he heard the word "Mozu". At this moment, his eyebrows not only wrinkled tightly.

"What demon?" Li Tian asked quickly there.

But seeing Moore in front of him was telling, "The history of the demons should now be traced back to decades ago... We humans and demons are not at odds with each other. We have always been in a state of hostility."

"The horror guys of the demons live behind the Als Warcraft Mountains, where the temperature is suddenly cold and the glaciers are frozen... At first glance, apart from the white icebergs, what remains is the Barren Hill."

"The demons are basically the same as us humans, but their appearance is very weird. Their complexion becomes pale as paper in the cold zone, and the breath of a wild beast is enveloped all over their body..."

"For a long time, there has been a war on the land of the Spirit! This war is the invasion of the demons... In the last century, the demons once invaded our empire on a large scale. At that time, the major illusions of the empire were sent to fight. , In the desolate swamp, I don't know how many souls of the great illusionists of our empire and the souls of the powerful demon clan have been buried..." When Morben talked about the ancient history, not only his voice changed slightly.

"Finally, the war of massacre was reversed under the change of a great Qi illusionist with a saint level in our empire." When Morben said this, his expression was shocked.

When Li Tian heard this, he frowned and said, "Holy?"

Namor said: "Yes, he is the first person in our empire who can practice Qi illusion!"

"Who is he?" Li Tian not only asked curiously.

"His name is Long! In the empire, everyone of us respects him as Old Long." Moore said.

When Li Tian heard the word "Long", not only was he curious, but he didn't know why. After he heard the name, he felt very familiar and familiar.

"Since then, Elder Long has disappeared, and the Demon Race has also retreated to the Als Warcraft Mountains... In a blink of an eye, after so many years, the Demon Race has never invaded the domain of our empire." Na Moor said.

After listening to Li Tian, he thought about it, and asked, "Moore, you said that the demons use another kind of illusion? I ask you, what kind of illusion is the illusion used by the demons?"

Na Morben's pupils shrank slightly, and he replied, "Yes, blood! Blood illusion technique."

When Moore said this, Li Tian was immediately astonished.

what?

blood?

Blood illusion?

When Li Tian heard that Morben said this, he was not only shocked.

"Blood illusion technique, are the two black-robed weirdos I met today, they are the people of the Demon Race?" After Li Tian thought this way, the whole person was shocked.

Thinking of the pale faces of the two black-robed weirdos, their weird black robes, and the **** illusion that they used at the end, Li Tian not only sighed there: It seems that I really met today. Going to the demons.

"You...what's wrong with you?" After seeing the weird expression on Li Tian's face, Moore couldn't help looking at Li Tian in surprise and asked.

Li Tian shook his head slightly and said, "I'm fine."

"Go on, blood illusion technique, what kind of illusion technique is it?" Li Tian asked.

He only listened to Mooren in front of him and began to explain: "Blood illusion technique is an illusion technique that humans in our spiritual earth continent will never allow to practice, because this kind of illusion technique is bloodthirsty, vicious, and extremely cruel and evil."

"It is said that among blood illusions, there is a high-level illusion called the Curse of Blood! It relies on a terrible curse to perform illusions. Once someone else is under his curse, he will slowly bleed all over his body. And death, once hundreds of years ago, the demons used this terrible illusion to kill the king of the empire. From then on, everyone in the empire was afraid of the blood illusion. The empire issued a strict order prohibiting anyone from learning the blood illusion." Moore said.

Li Tianyi was shocked when he heard it, and he secretly said: There is such a strange illusion in the world, it is really terrible.

Li Tian thought in his heart alone, not only was the whole person lost in thought.

He was thinking of today's two Demon Race guys, those two Demon Race guys possess such a powerful blood illusion... If it weren't for his luck today, I'm afraid the consequences would really be hard to imagine! I really don't understand, why did the demons suddenly appear in the imperial capital? Why did they come to the imperial capital?

Moore over there looked at Li Tian with a surprised look, and not only asked: "You...you... why did you suddenly ask about the Demon Race?"

Moore said while looking at Li Tiandao.

Li Tian glanced at him coldly and said, "I don't care about your business."

After hearing Li Tian say this, Moore quickly closed his mouth.

"Forget it, I already know everything I should know."

After Li Tian finished speaking, he turned around and left the refining room of Morben.

What about Moore? He was looking at Li Tian with a pair of really puzzled eyes... I couldn't help but lining up: Is this guy really weird today?

Chapter 2647: Advanced assessment

When Li Tian learned that the guys he met today were "Devil Race" guys, he was quite shocked.

He thought that the two weird people he met today were very problematic, and when he asked Moore, he finally knew the truth.

"It turns out that the two black-robed weirdos are from the Demon Race." Li Tian said slightly.

After returning to the room, Li Tian's heart couldn't be calm for a long time, and he was thinking about what happened today.

"Since the demons and our human race are not at odds with each other, should I tell them about the two demons encountered today?"

"Two people of the Demon Race with such powerful illusions, they should have some plans to sneak into the imperial capital."

Li Tian thought and said in his heart.

To be honest, Li Tian is hesitant now, he doesn't know whether he should tell the teachers or the dean of Bander College what happened today.

Finally, after Li Tian thought for a long time, he finally decided to tell the dean of the Bander College and the teachers about what happened today. After all, this matter was a major event.

After Li Tian made the decision, he left the dormitory in front of him and went straight to the place where the old dean of the college was.

After passing through the square of Bander College, Li Tian quickly walked towards the place where the old dean was.

As he was walking, he suddenly saw Beauty Issa coming from the front.

Yisha, who was dressed in white, also happened to see Li Tian at this time.

"Student Li Tian." After seeing Li Tian, the beauty Isha immediately screamed, and at the same time ran towards Li Tian like a beautiful butterfly.

Li Tian was taken aback, standing there, looking at the beautiful girl Isha flying over.

"Isha." Li Tian shouted.

"Student Li Tian, I happen to be looking for you... What are you doing here?" The beauty Isha looked at Li Tian and asked.

When Li Tian heard that beautiful girl Isha said, he was not only taken aback for a moment, but also questioned: "Look for me?"

"Yes."

"The college is going through advanced assessment, don't you know?" The beauty Isha blinked her beautiful eyes and looked at Li Tiandao.

When Li Tianyi heard it, he was depressed at the moment, because he really didn't know anything about advanced assessment.

At this moment, after hearing the beautiful girl Isha say so all of a sudden, she frowned and asked, "Advanced assessment? What do you mean?"

"To put it bluntly, it means to upgrade." The beauty Isha said.

"Have you forgotten? Our illusion is divided into several levels, elementary, intermediate, advanced, and these level tests. Every six months, the college will conduct an advanced assessment, and then each student can follow his own Qualifications, go to the advanced level, once you advanced, it means that your strength has improved." The beauty Isha explained to Li Tian there.

When Li Tian heard this, he secretly said that this was the case.

After thinking about it, Li Tian looked at the beautiful classmate Yisha and said, "When will the advanced assessment start?"

"Tomorrow noon." The beauty Isha said.

Li Tian nodded and said, "Oh."

"What about me? Can I also go to the advanced assessment?" Li Tian asked.

To be honest, he has been cultivating for this period of time since he discovered that his body has spiritual power!

He didn't even know how far his "slave Qi technique" had reached, and he didn't even know it now, and he himself had practiced another high-level Qi illusion technique called the Thousand Killing Sword Technique.

So now Li Tian also wants to participate in the advanced assessment. He wants to see, what kind of level his own strength has reached now, is it an elementary level? Or mid-level?

Hearing what Li Tian said, the beauty Isha suddenly laughed and said, "Of course you can!"

"Every student at Bander College can participate."

Hearing that beauty Isha said so, that Li Tian not only became slightly excited.

He decided that he would also test it tomorrow to see what level of Qi illusion had reached.

"It's just... Classmate Li Tian, how are you doing your practice recently?" The beautiful girl Yisha suddenly raised her worried eyes and looked at Li Tiandao.

When Li Tian heard this, he smiled and said, "I'm fine."

"But...you don't have spiritual power...it's very difficult to cultivate, right?" The beauty Isha continued to look at Li Tian worriedly.

She didn't know that Li Tian's physical and spiritual power had already recovered, so at this moment she not only looked at Li Tian with worried eyes, after all, in case tomorrow, Li Tian went to the advanced assessment, and then even the first level. Level 1 is not counted as...that would be a shame!

Li Tian heard that beauty Isha cares about herself so much, and smiled there and said, "Isha, don't worry."

"I believe that I should be able to." Li Tian said there confidently.

When the beauty Yisha heard Li Tian say this, she not only smiled and said, "Well! Li Tian, come on! Tomorrow, we will go to the college square together... and then take the advanced assessment."

"Okay." Li Tiandao said.

"Then I'm leaving." After the beautiful classmate Isha finished speaking, she turned and left.

Watching that Yisha leave, Li Tian now has an unspeakable expectation in his heart. He can't wait to arrive the next day immediately, and then proceed to the advanced assessment! After all, he has been cultivating for so long, he wants to see what his strength has reached.

After thinking this way in his heart, Li Tian gave up his plan to find the old dean.

He was not going to tell the old dean about the demons, he had to go back to the dormitory and practice quickly.

"Because the advanced assessment will be carried out tomorrow... This time, I must not be ashamed anymore." Li Tian thought to himself in that heart.

After thinking about it this way, Li Tian quickly turned around and returned to his dormitory.

After returning to the dormitory, Li Tian quickly began to practice.

During this period of cultivation, Li Tian felt more and more that his body's spiritual power was abundant and he felt his whole body Qi keep running around his body... It's a pity that Li Tian now only learns two Qi illusions. ! ! !

One is the elementary "Slavery Technique", and the other is the advanced "Thousand Killing Sword Technique".

Of these two illusions, one is a frightening and terrifying high-level illusion! And the other one is the most common low-level illusion that no one will pick up and learn on the street.

Li Tian was learning these two worlds apart illusions, and cultivating little by little.

Soon, one day was spent in Li Tian's practice.

In this day's time, he first reviewed his slavery art... and then he practiced his own "Thousand Killing Sword Art", but unfortunately, no matter how he cultivated, he couldn't break through that Thousand Killing Sword Art. The third move realm.

Chapter 2648: Start of assessment

The next day, when it was lightly lit, Li Tian got up early. .

He was about to undergo advanced assessment this day, and he was a little excited in his heart.

But what makes Li Tian depressed is that although he got up early, no one has called him until now.

"It's almost been over 2 hours... Why is there no one to call me?" Li Tian said depressedly.

"Did they forget themselves?" Li Tian said to himself.

Yes, the teachers and students at Bander College have indeed ignored Li Tian.

After all, Li Tian has only arrived at Bander Academy for less than two months, and anyone at Bander Academy knows that Li Tian doesn't have any spiritual power in his body... so they feel that such an advanced assessment matter, Calling that Li Tian is also a waste of time.

Can that student practice advanced in less than two months?

Can that student practice illusion while his spiritual power is 0?

So when Li Tian was depressed, the advanced assessment on the square of Bander College had already begun.

I saw that on the huge square of Band College, the teachers of each department stood there with their students.

The first to bear the brunt was the Anderson teacher of the Thunder and Lightning Department of Band College. Behind him was a team of students in purple robes.

Next to him was Loft, the fire illusionist teacher, and behind him were all students in red clothes.

Followed by the students from the wind department and the water department.

I saw the old dean in the gray robe, Herris standing in the front.

He still looked at all the students at Bander College with that very kindly smiling face.

"Students, the semi-annual advanced assessment is about to begin now..." the old dean Heris suddenly said aloud.

As the old dean said so all of a sudden, the surrounding students screamed in excitement.

The old dean smiled and stretched out his hand to stop, and then continued to say: "During the past six months, I have seen the efforts of every student and the progress of every student. Today is the time to prove your progress. Up!"

"The advanced assessment begins now." The old Dean Hollis said loudly.

After speaking, I saw that all the students were excited by the group of emotions.

The so-called advanced assessment is actually just a test of your own strength level.

On the square of Band College, there are three weird stone tripods!

Each stone tripod weighs more than a thousand catties.

These three stone dings are the stone dings used to test the strength of the students of Bander College.

The first stone tripod, the color of white jade, was written with a huge "Cru" on it. It turns out that this stone ding is a preliminary test stone ding.

On this huge stone tripod, there are three levels, namely, level one, level two, level three, and each level is different.

The second stone tripod, the same color as white jade, was written with a large "中" character on it. Obviously, this stone tripod was a "medium-level" test stone tripod.

The last and largest stone tripod is a red jade color, which is very strange.

On it is written a "high" character, it turns out that this stone ding is a "high-level" illusion test level.

The three stone tripods represent three different levels! Each of the above is divided into different levels, all are level 1, level 2, and level 3.

Following the old dean's utterance, he continued to say there: "Now proceed to the advanced test! Let the classmates from the Thunderbolt department come first."

After the words were finished, the thunder and lightning students in purple costumes not only yelled.

Among the Band College, the Thunder and Lightning Department is the strongest one! So they have absolute rights.

After the old Dean Hollis's voice fell, I saw Anderson here saying to the students behind him: "Everyone will line up for me and go up for the test one by one."

"Yes!" all the students behind him shouted.

"The first one! Go up and test." Suddenly, a loud shout came out of Anderson's mouth.

Along with his voice, a handsome young man in purple dress walked towards the three giant cauldrons in the center of the square step by step.

Anderson said in a loud voice, "Raier, there are three giant cauldrons in front of me, one is a beginner, one is an intermediate, and the other is a high-end. What level do you think you belong to, go to the corresponding stone cauldron."

The boy's name is Rael.

After hearing what Mr. Anderson said, he smiled slightly and said, "I see, teacher."

"Go to the test." Anderson said to Rael.

At this moment, the teachers and students of the entire Bander Academy were all there blinking at Rael in the purple costume.

Everyone is watching him, which stone cauldron to go to! At the same time, he was also concerned about his illusion level.

"Half a year ago, Rael seemed to be at the elementary level 2 level. This time, I don't know what level he can advance to?" Suddenly, among the crowd, the fire department students started talking in a low voice.

"Yeah, this time I should advance to Elementary Level 3, right?" Another student said there.

"Well, almost."

"Teacher Anderson of the Thunder and Lightning Department has been training his students strictly during these six months. Presumably, Rael should be able to progress smoothly to Elementary Level 3." The surrounding students were quietly there. Discussion work.

The square was very quiet, and everyone was watching Rael's movements.

Suddenly, seeing the footsteps of Rael who was standing motionless, he took a deep breath, and then walked towards the huge stone cauldron in the middle.

"Huh? Rael went to the middle-level stone cauldron?"

"Could it be that in half a year, Rael... unexpectedly... surpassed the elementary level 3 and reached the intermediate level?" The students on the square were all looking at the thunder and lightning with their eyes wide open. Department of Rael.

As the teacher of the Thunder and Lightning Department, Anderson smiled at this moment, with a very proud attitude in his expression and behavior.

After all, this is his student.

As for the other teachers in the surrounding departments, they frowned, not only in their hearts: Anderson, this guy, in the past six months, did he really use the devil training? He trained all his students Is it so powerful?

However, he said that at this moment Rael has already walked towards the mid-level test giant. After he walked over, Teacher Anderson suddenly said in a loud voice: "Rael, now you begin to display all the spiritual power of your body. , And then gathered in both hands and hit the giant cauldron."

Chapter 2649: The glory of the Thunder

After hearing the voice of Teacher Anderson, Narel quickly nodded there and said, "En..."

Then he saw Rael walk to the huge stone tripod of the intermediate test.

Then suddenly he stretched out his hands, and then began to accumulate the spiritual power of his whole body. After he had accumulated all the spiritual power on his hands, he suddenly hit the huge stone cauldron.

But hearing a loud bang, the giant ding made a deep voice.

And at this time, all the students in the audience were blinking and looking at the giant cauldron.

"Om!"

Accompanied by a dull sound came from the giant cauldron, then a light suddenly lit up from the giant cauldron.

"Wow, Intermediate Level 1!" When the giant cauldron suddenly lit up with a light, the students around not only screamed there.

They didn't expect Rael of the Thunder and Lightning System to cultivate so fast.

I saw that teacher Anderson standing not far away suddenly showed a proud smile on his face.

"Thunder and lightning, Rael, Intermediate Level 1, test completed! Promotion!" A voice suddenly rang.

But seeing that Narel suddenly showed a satisfied smile on his face after hearing the news of his promotion, then his hands were slightly lowered from the stone cauldron, and then he walked towards the students of the Thunder and Lightning Department.

All the students looked at Narel with admiration.

"This Rael has really advanced to the middle level! Unbelievable."

"It seems that Mr. Anderson, this time is really crazy..." The surrounding students exclaimed.

At this moment, even the old Dean Khris who was standing on the stage showed a gratifying smile.

After Rael from the Thunder and Lightning Department conducted a test, the rest of the Thunder and Lightning students began to test one by one.

Like Narel, they began to line up, and then one by one arrived at the stone ding to test.

"Raideen, Casas, Elementary Level 2, after testing, promotion."

"Raideen, Northern Rio, Elementary Level 3, after testing, promotion."

"Raideen department, Basahru, Intermediate Level 1, after the test, promotion."

On the huge square, students from the Thunder and Lightning Department were all testing there.

Soon 50 students from the Thunder and Lightning Department finished their tests.

As the most optimistic Thunderbolt Department of Band College, it really did not disappoint!

In this advanced test, a total of 6 intermediate level 1 illusion students have been promoted, and there are more than 20 beginner level 3 students, and the remaining students are those who have remained at level 1 and level 2. .

Looking at this data, the old Dean Hollis laughed from ear to ear!

You know, at Bander College, as long as students who can reach the intermediate level of illusion, they are already very powerful! After all, last year, when the Thunder and Lightning Department tested, only two students reached the intermediate level... This is also the reason why the Bander Academy was ridiculed in the Empire Illusion Contest.

Thinking of this in his heart, the old Dean Hollis touched the beard on his chin with relief, and said in his mouth: "It seems that this year our Bander Academy should achieve an ideal result in the Empire Illusion Contest. .

After the test of the Thunderbolt Department in front of us, the students in the whole college were very happy.

Especially the students of the Thunder and Lightning Department, and of course Mr. Anderson, he was extremely pleased with the triumphant expression on his face.

"Very good, very good. It seems that our classmates in the Thunderbolt Department have worked very hard this year. For this reason, the old man, on behalf of the Bander College, would like to thank Mr. Anderson for his hard work." The old dean in front of him looked at it. Anderson said.

After hearing the old dean say this, Anderson said with a smile on his face: "Old dean, you're welcome!"

"Our Thunderbolt Department has indeed worked very hard this year, not for anything else, just because we want to achieve a good result in the upcoming Empire Illusion Contest, so that our Bander Academy will never fall to the bottom. Position." Anderson said confidently.

Listening to what Anderson said, the students of the Thunder and Lightning Department all cheered.

The old dean Herris was also very happy.

"Next, start to test the fire illusion." Just listen to the old Dean Hollis saying there.

Then he saw Loft, the illusion teacher of the Fire Element, walking towards this side with the students behind him.

Then, they began to conduct advanced tests.

The illusion students of the fire department, like the students of the lightning department, stood in a row and started testing one by one.

Soon, the illusion students of the fire department finished the test.

The result of the advanced test is not as good as that of the Thunderbolt...

Among them are 3 intermediate illusion students, 17 elementary level 3 illusion students, and the rest are all elementary level 1 and 2 illusion students.

Faced with this result, the students of the fire illusionist were not so happy.

Their teacher Loft also showed a helpless look on his face.

But seeing that after the test, the old Dean Hollis smiled and said: "Very good! The students of the fire department, also worked very hard this year, your hard work, your hard work, I see all Here, on behalf of Band College, I also thank you for this."

After hearing the words of encouragement from the old dean, the illusion students of the fire department not only smiled one by one.

Then, began the test of wind illusion and water illusion.

The wind test results are relatively weak... After the test, only 2 illusion students reached Intermediate Level 1, another 8 students reached Elementary Level 3, and all others were Elementary Level 1 and Level 2. s student.

The old dean Heris also said some encouraging words, and then said nothing more.

The last remaining water system illusion test.

The beautiful girls in white dresses and gauze came over one by one.

Under the leadership of that beautiful teacher Evelyn, this water system illusion has also undergone an advanced test.

The result of the test is still very satisfactory.

Among them, only Isha has reached the intermediate level 1 illusion skill level... but there are 21 other students who have reached the initial level 3 students!

Looking at such a test result, even the old Dean Hollis was slightly surprised and shocked.

"Wow, the beauties of the water system have 21 beginner level 3 students... That's amazing! More than the initial level 3 students of the Thunderbolt system..."

"Yes, the next advanced test, the illusion beauties of the water system, the number of advanced intermediates will surely rise."

"Maybe it will surpass that Thunder and Lightning Element, this is also inaccurate." I only heard the sound of admiration from around.

Chapter 2650: Participants

Even the old dean Khris was shocked. He was looking at the beautiful students of the water system illusion and laughed suddenly.

"Good, good, great."

"Unexpectedly, under the leadership of Teacher Evelyn, the water system illusion of our Band College could achieve such a result. I am very pleased and very pleased." The old dean Khrisxiao said with a smile from ear to ear .

The beautiful teacher Evelyn just smiled faintly: "Old Dean, we hope that in this year's Empire Illusion Contest, we can consider the female students of our water department to participate in the competition."

Hearing the beautiful teacher Evelyn suddenly said this, the students around, and the teachers not only screamed there.

what?

"The beautiful students of the water system also participate in the Empire Illusion Contest?"

"Are you kidding? This is a fight, but men do it!!!" some students yelled there.

It turns out that in the Empire's Illusion Contest, it is rare to see female students of the water system participating in the battle. This is not only because the attack power of the water system's illusion on the field is not as powerful as thunder and lightning, as well as the fire system! And because of the women who practice water illusion, physical and spiritual power are a big problem! Therefore, in the Empire's Illusion Contest, you would never see the female students of the water system! And now, the beautiful teacher Evelyn suddenly made a request to the old Dean Hollis, which shocked the surrounding teachers and students.

Hearing that beautiful teacher Evelyn suddenly asked such a request, the old Dean Hurston in front of him was taken aback.

Then I didn't wait until the old Dean Hollis finished speaking, but I saw the Anderson teacher of the Thunder and Lightning Department suddenly saying, "How can this be?"

"In the past Empire Illusion Contest, female students were never allowed to participate... Teacher Evelyn, I think it is better to leave it to our men to do something about the contest."

Hearing what Anderson said, Evelyn suddenly stared at him and said, "Anderson, I want to ask you, who in the world stipulates that our female students in the water department cannot participate in the competition?"

Hearing Evelyn's questioning, Anderson suddenly embarrassed his face! Indeed, the Empire Illusion Contest never prevented girls from participating in the war.

Anderson thought for a while, yelled there, "Anyway, female students of the water department can't participate in the competition!"

"Your physique is so weak... and the fighting level is not as strong as our Thunder and Fire Element attacks... Going to the competition will only lose!" Anderson shouted there.

When Evelyn heard it, she said angrily: "Teacher Anderson, are you laughing at our water system illusion?"

"Hmph, if that's the case, then we will send a student to the competition to see who has the better illusion." Evelyn said angrily.

She was really angry with Anderson, that guy was too patriarchal, so Evelyn wanted to teach him a lesson.

Hearing that beautiful teacher Evelyn said so, but seeing that Anderson suddenly sneered and said: "Competition is a competition!"

"Who is afraid of you?"

"Come on, let's try." Anderson said suddenly there.

Seeing that this beautiful teacher Evelyn was about to send students to compete with the students of the Thunder and Lightning Department, just as the sword was at war, the old Dean Hollis suddenly spoke with a smile.

"Calm down everyone, calm down."

Following the voice of the old Dean Hollis, the beautiful teacher Evelyn and Anderson closed their mouths, and they both stood there and groaned in their mouths, each staring coldly. The other person glanced, then raised his head to look at the old dean Hollis.

The old dean Heris touched the beard on his chin while smiling there and said, "Actually, I have already decided on the candidate for this year's illusion competition, ha ha."

After hearing what the old dean said, all the students on the square screamed in surprise.

Even the teachers were not only slightly startled.

"Old Dean, have you booked a candidate?" Anderson said in surprise.

The old dean Heris smiled and stroked his beard and said, "Yes."

"Can it be announced now?" Just listen to Anderson eagerly asked.

This guy wanted to show the limelight. He always felt that his Thunder and Lightning illusion was the most powerful illusion in the Bander Academy, so at this moment, he said not only with excitement on his face.

He is eager to participate in the five places in the Empire Illusion Contest, all of his Thunder Department! In this case, how much face should he have? How awesome is the lightning system?

After Na Anderson asked, but when I saw the old Dean Hollis suddenly smiled there and said, "Of course."

"Actually, today, I was going to announce this."

After hearing what the old Dean Heris said, every student in the college blinked expectantly at the old Dean Heris...especially the students of the Thunder and Lightning Department! They all hope that they can be selected... and then represent the Bander Academy to participate in the competition. After all, the three-year Empire Illusion Contest is definitely a commendable thing.

"Students, be quiet!" Old Dean Hollis suddenly said there.

So the students in the square quieted down one by one.

"Presumably every student knows that our Bander College is not as brilliant as before... Hey, all this, blame me! Blame my dean for not teaching you well! I think long ago that Long was the old dean of Bander College. Back then, how brilliant our Bander College was! How vast... Now it's in my hands... Hey, I'm ashamed to all the pioneers of Bander College!" said the old Dean Hris That self-blame sighed.

indeed!

Hundreds of years ago, Bender Academy could indeed be said to be the most famous illusion academy in the entire Spirit Earth Continent!

Not only because the Dean of the Bander Academy at that time was the only Qi illusion master in the Spirit Earth Continent, Saint: Long! In addition, the Band Academy has more than 20 powerhouses who have reached the advanced level 3... Among them are the powerhouses of the lightning system, fire system, wind system, and water system.

At that time, the Bander Academy was in full swing, and the students in the Academy were once full!

It's a pity... After the outbreak of the Second Demon War, the strong men of the Bander Academy began to participate in the war by imperial signs!

In the slaughter battle of the century in the barren swamp, the illusion masters of the Bender Academy and the blood illusion masters of the Demon race died one after another!

Their bones, their deeds, have since been buried in the deserted ruins.

Also since then, the brilliant Bander College suddenly withered talents... The deaths of those strong men had a huge impact on Bander College... This also led to the true decline of Bander College in the past 100 years. the reason!
