

A Killer 3141

Chapter 3141: In troubled times

After waiting for a long time, there was no movement there.

Li Tiangang wanted to take a look at the situation, but with a "bang" again, a bullet hit the ground less than 20 cm away from Li Tian.

After a while, a thin figure appeared on the edge of the ruins. The owner of the figure was a boy who seemed to be only seventeen or eighteen years old. The boy was wearing a camouflage uniform that was significantly larger than his body. The camouflage uniform was stained with blood. It was dark and dirty, and it was barely visible anymore.

And the boy dragged the blade of a guillotine in his hand, and walked to the wall hiding Li Tian step by step, and said: "Come out, I'm not malicious, but..., these lost dogs are our target."

Li Tian let Situ Bingning and the goddess Xueji continue to hide behind the broken wall, and he walked out holding the "Red Zhan" by himself.

"Are you immune?" The boy asked questioningly after seeing Li Tian.

"Immunized? We just arrived in this place. I don't know what happened in this place. Can you tell me?" Li Tian was still vigilant, and the "Red Slash" in his hand did not put away and asked.

Li Tian believes that even if the sniper on the opposite side of the building can shoot well, he can still easily kill the thin boy in front of him and break the wall.

The thin boy showed a honest smile and said, "I'm not good about this! If there is a chance for my sister to answer you. I picked up the heads of these bereaved dogs according to my sister's order! Now I can take these Has the head of the lost dog taken home?"

Li Tian nodded, and did not object.

The thick smile on the thin boy's face increased. With a wave of the blade of the guillotine in his hand, he chopped it down at the head of the dog who was still cracking teeth.

"Kacha!" With a sound, the head of a bereaved dog blossomed, and the black mucus in his head flowed out.

Li Tian was startled slightly. He didn't expect that this thin and weak boy could dance more than ten cattles quite easily.

The thin boy used a branch to take out all the things in the head of the lost dog, carefully searching for something. After a while, he still found nothing. The boy's face showed some disappointment, and he saw the heads of seven other lost dogs. , The face bloomed with joy again.

There was another "click", and the head of the second bereaved dog blossomed. As the thin young man stirred the black brain in the bereaved dog's head with a branch, a thumb-sized substance with a pale yellow light came out. .

The thin young man took out a rubber glove from his arms. After putting it on, he took out the pale yellow substance from the dog's brain, and took out a rag from behind, carefully removing the stain on the pale yellow substance. After wiping it off, he put the yellow substance in the cowhide bag around his waist with a smirk.

"What is this?" Li Tian asked with some confusion.

When the thin boy heard Li Tian's question, he immediately raised the blade of the guillotine cautiously, looked at Li Tian vigilantly, and said, "Do you want to grab it?"

Li Tian shook his head, put the "Red Zhan" away in his hand, spread his palm and said, "It doesn't mean this at all, but it's the first time I have seen this kind of thing, and I am a little curious!"

The thin boy showed a simple smile again, and said: "I can't explain this to you. If you have a chance, you should ask my sister yourself!"

After speaking, the young man wielded the guillotine blade again and smashed the heads of the remaining dogs.

The boy's luck was not bad. Three yellow substances came out of the heads of eight lost dogs, and the honest smile on the boy's face became even stronger.

However, the young man suddenly burst into tears when he saw the corpse torn apart by the dog.

"You are a fool, I said this kind of thing, let me come, you have to do it, let's do it now! You can't go back anymore!" The thin boy cried and gathered the boy's body. When he got up, he dug some soil on the ground with a guillotine blade to cover the boy's body, and then picked up some stones and piled up a grave.

"Barbarian don't cry!"

I don't know when, a tall girl in her early twenties, wearing a tight leather jacket, walked over with a 85-style sniper rifle, and behind the girl, seven or eight seventeen-eight-year-old teenagers followed.

These teenagers and girls are ragged, and their bodies are all dirty, but without exception, these boys and girls have firm eyes, iron weapons in their hands, double-barreled shotguns, guillotines like barbarians, and sickles, kitchen knives, scissors, etc. .

"Eldest sister!" The thin young man called by the barbarian touched his nose and immediately stopped crying.

"Who are you?" The sniper rifle in the hands of the lead elder sister always asked Li Tian.

For others, Li Tian is really hard to explain the gate of the restricted area, so he can only lie and say: "We are people from Kyoto. My name is Li Tian, Dr. Li in charge of the origin of life sciences. There are two of mine behind the broken wall. Colleagues, one of them is Dr. Situ and the other is Dr. Xueji. We have been in charge of scientific research on Tianshan for several years, so we have not visited Tianshan for several years, but this time we found that the whole world has changed. Can you tell us this Has something happened in the world?"

While Li Tian was talking, Situ Bingning and the goddess Xueji also walked out from behind the broken wall and stood behind Li Tian.

"It turns out to be a few doctors! But I can see you have a good skill just now? This is not the strength that ordinary doctors should have!" The lead elder sister became more confused, and said with the sniper rifle in her hands.

"Oh, this! You also know that when we do research, we will encounter various difficulties, and in order to face such difficulties, we have all received some training. I am a better talent." Li Tian shrugged and said.

The eldest sister, who took the lead, did not continue to entangle this issue, saying: "The three of you are hiding on the Tianshan Mountains and doing research, and luckily escaped. Three years ago, I didn't know what kind of virus hit here, and then the virus began to spread wantonly. After being infected by these viruses, humans, beasts, and poultry have undergone changes to varying degrees. Many humans have lost human consciousness, just like... zombies. In the past three years, the government has fallen, the country has died, and humanity is the most basic His morals are lost!..."

"Did you see this small town in front of you? It used to be the largest town closest to Tianshan with a population of nearly 50,000. However, in less than three years, it has become like this. Now this small town There are only us in town!"

"Where are the others?" Li Tian asked.

The lead elder sister suddenly showed some sad expressions on her face, saying: "In the beginning, only a few people here were infected with the virus, and related organizations have sent people to treat it. However, this latest virus cannot be solved by modern science. After this happened, the entire town was quarantined. Regardless of whether it was infected or not, all the people here were quarantined!"

Chapter 3142: Don't call me big sister, I'm not as old as you

"Haha..." The lead elder sister gave a wry smile and continued: "The entire town's way out to the outside is completely cut off. There is only one dead end for the people who stay in the town. The town is suddenly plunged into chaos. Food and drinking Water, medicine, and all living supplies were in short supply. Coupled with the spread of the virus, the town soon became a **** on earth. However, this situation did not last long, and soon a mysterious armed force entered The town, as long as it is any living thing they see, it will not escape death."

"Can you imagine it? A small town with a population of 50,000 has turned into a dead city in less than half a month. The ruins behind you are a cemetery, where at least 20,000 people are buried. Corpse. After this happened, many people chose to flee, some fled into the Tianshan Mountains, and some chose to venture across the isolation defense line. The only ones who survived in the town were only a couple of us."

"Haha..." The leading sister sneered again and said: "People are not as good as the sky. They did not expect that the real outbreak of this virus is not a small town like the northwest, but a densely populated area of a big city. Three years, In just three years, thousands of large cities around the world have become hells on earth. More than two-thirds of the world's humans are infected with the virus and become walking dead. And this virus will not only infect humans, but also infect people. Birds, beasts, fish, and even plants. At the same time as the virus is infected, it is found that some humans are born with immunity. These humans are called immune persons. And these infected species have different degrees of evolution. These are also called evolvers. Some evolvers have genetic mutations in the process of evolution. These are also called mutants or supernatural beings. Legend has it that there are more powerful beings in the process of mutation, but these are all Rumors, our remote towns have only heard rumors!"

Li Tian was shocked. Since the elder sister said so, as one of the largest cities in the world, Kyoto must have fallen into a paradise for zombies. That city is a huge city with a population of nearly 20 million.

"Just now...what was the thing that the barbarian dug out from the head of which dog?" Li Tian asked.

The lead eldest sister immediately became vigilant, and her body involuntarily corrected the Type 85 sniper rifle. After a while, she felt like she was overly vigilant, showing an apologetic smile, and said to Li Tian: "That kind of thing is called sangjing, ordinary There is a certain probability that this kind of thing will be formed in the head of the lost dog and the lost animal. This kind of thing is the hard currency of the current world, and it can be exchanged for food, drinking water, and even guns and ammunition anywhere."

The lead eldest sister looked back at the trembling boys and girls behind her, with an expression of unbearable expression on her face, and said: "A group like us with only the most basic combat effectiveness can only hunt some low-level bereavement dogs. Senior zombies, or zombies, we absolutely dare not touch! But your skills are very good, you can give it a try. I heard that there is a certain chance that a corpse crystal, a corpse crystal, will appear in the head of a zombie The value of nearly one hundred lost crystals."

As he spoke, the sky had gradually darkened, and the leading sister blew a whistle, and the barbaric immediately led the others back towards the buildings in the middle of the town.

After the lead elder sister broke with a sniper rifle, but just after walking a few steps, the lead elder sister stopped again and said to Situ Bingning and the goddess Xueji: "It's getting late, and the world will be more terrifying at night, I suggest You should hurry up and find a safe place to hide! And you, Li Tian, don't believe too much in your own strength. In this world, unless you are born immune and responsible for any bereaved, you just need to catch yours. Skin, you will have a high probability of being infected by the virus, so that you can transform yourself into a walking dead and become the target of other bounty hunters."

Situ Bingning immediately made a frightened expression, and said to the leading sister: "Sister, you see that we have just come down from the Tianshan Mountains. We are not familiar with this place. The sky is getting late again. Tonight we can Will you stay with you for one night? Only one night, after dawn tomorrow, we will leave immediately!"

Asking Situ Bingning, the cold-blooded killer, to put on a scared and pitiful expression, really wronged her.

"Don't call my eldest sister, I'm not as old as you! My name is Bai Jing, you can call me Xiao Jing. We can take you in tonight, but let me make it clear to you in advance that unless you have enough crystals, our food He Shui is impossible for you." Bai Jing said expressionlessly.

"Your sister. Do I look that old? If it weren't for something to ask you today, I really want to tear up your stinky mouth!" After Bai Jing said that Situ Bingning was an old woman, she was almost furious. However, at this time, Situ Bingning still resisted the anger, showing a grateful look.

Even the goddess Xue Ji also learned a lot.

Followed Bai Jing Li Tian and others to the country hotel they saw just now.

This is a two-story building. The first floor is a facade room, but at this time all the shutter doors of the facade room are down. Only one door of the facade room has a small door open, and the barbarian is dragging the blade of the guillotine cautiously. Look around.

After Li Tian and others followed Bai Jing into the rolling door, Manzi immediately locked the small door on the rolling door from inside.

The room was completely dark. After a while, although Li Tian and the others had no cultivation base, their eyes had been cultivated after all, and this darkness could be completely ignored.

"After the accident, the entire town has been shut down and power outages. Barbarian, you and Li Wa will be responsible for the first half of the night tonight, and I will come to change you in the second half of the night." Bai Jing said the first half of the sentence to Li Tian and others. , The second half of the sentence was addressed to Manzi.

Barbarian nodded, showing a simple smile, took off the skin from his waist and handed it to Bai Jing.

"Up to the second floor, there are more than 20 rooms on the second floor. We occupied seven or eight, and you are free to leave the rest. But I suggest you not live in rooms facing the street." After Bai Jing finished speaking, he stepped on. On the second floor, there was no intention to continue greeting Li Tian and others.

Li Tian did not care.

At this time, someone is willing to take in a few of them, which is already a rare thing. As for daily necessities such as food and drinking water, Li Tiancai will not accept the alms of Bai Jing, who is already very difficult.

Li Tian has decided to use his "Red Slash" to create a piece of his own world in these last days, not for anything else, just to make his own woman worry-free.

Chapter 3143: Scary night

Barbarian followed Li Tian and the others up to the second floor, and said with a silly smile: "The elder sister said, except for the room we live in, you can live anywhere. But there are no bedding in the other rooms, but there are in the linen room. The eldest sister said that we can only bring out two sets for you, and we treat you. As for the food, the eldest sister said that we don't have a lot and we can't share it with you, but if you have any crystals, we can exchange them with you."

Li Tian patted Manzi on the shoulder to express his understanding.

The sky outside hadn't completely dimmed. The second floor was slightly brighter than the first floor. Under the dim candlelight, Li Tian could see several girls preparing dinner while other boys sharpening their blades.

Li Tian and others randomly chose two houses next to each other.

"Actually live together tonight! You also know that my strength is still very good, if any accident happens, I can protect you!" Li Tian said with a wolfish smile.

However, Li Tian's conspiracy was directly exposed by Situ Bingning.

"I live with sister Xue Ji tonight. If anyone dared to step into our room without authorization, I would definitely unscrew his neck!" Situ Bingning said coldly.

Li Tian touched his neck and had to give up.

Returning to the room of his choice, Li Tian found that the window was tightly blocked by heavy curtains. He opened the curtains. Although there were anti-theft nets outside the windows of the room, the glass was completely broken and the windows were nailed up with thick wooden boards. .

"If I were you, I would choose to stay away from the window." Bai Jing's cold voice came from outside the door.

Li Tian lowered the curtains and asked, "I think this town should be completely empty except for the lost dogs. I don't know why you are so scared!"

"Ignorance! When you cry at night!" Bai Jing ignored Li Tian and turned away.

Of course Li Tian was frightened by Bai Jing's words, but the feeling of being hungry this night was really bad. As a man, Li Tian doesn't matter, but Situ Bingning and the goddess Xueji still need to hurry tomorrow, and the outside is full of dangers. Li Tian can't let Situ Bingning and the goddess Xueji deal with them when they are hungry. Kind of danger.

"No, you have to go out and find some dog slaughter and slaughter, get some crystals back, in exchange for some food." Li Tian decided in an instant.

We greeted Situ Bingning and the goddess Xueji, they did not object, they had experienced so many things together, they were unconditionally convinced by Li Tian.

"You want to go out? Are you sure you want to go out so late? Are you crazy?" Bai Jing couldn't believe his ears when Li Tian said he was going out to hunt the bereaved dog.

"Two-dimensional, you go and give them the instant noodles and mineral water in the warehouse. This man is a lunatic, and he can stop his life for a meal!" Bai Jing said to a seventeen or eighteen-year-old girl who was preparing food .

Two-dimensional nodded, stopped the work he was doing, took a bunch of keys, opened the storeroom next door, took out three packs of instant noodles and two bottles of mineral water to Li Tian.

Seeing that 2D took out the instant noodles, the other people in the room couldn't help but swallowed. There was even a boy who looked at the instant noodles in Li Tian's hands eagerly.

Li Tian looked at the instant noodles and mineral water, and they had passed the expiration date. Seeing those eager eyes, Li Tian couldn't help but feel sad.

These foods can only be regarded as the most common and low-level food to satisfy hunger before the earth changes. However, at this moment, instant noodles that have passed their shelf life have become luxury items in their eyes.

"Eldest sister! These foods were found by Barbarian and Erdan after taking risks. Erdan... how can he easily give it to these strangers today!" One of the boys suddenly cried and said.

"Shut up!" Bai Jing suddenly shouted sternly.

The others were silent immediately, afraid to stop crying, and stopped working under them.

"Erdan was killed by a dog during the day...?" Li Tian asked.

Bai Scenic Spot nodded and said with a sad expression: "Erdan and Barbarian are the two most powerful people in our group. Unfortunately, Erdan's skin was broken by the claws of the mourning eagle a few days ago and infected with the virus..., Today is the second egg of his own choice."

Li Tian finally understood why Bai Jing would tell him those words.

Yes, if it is not a natural immune person, any ordinary person who is attacked by these corpses may be infected with the virus and become a walking dead.

But who is Li Tian? He is the strongest man on earth, even if he loses all the illusions in other worlds, he at least still has the groundwork for cultivation on earth. In time, Li Tian can still retrieve his strongest skills on earth.

Ten Jue Sword Qi...

Xuantian fingering...

Soul-breaking palm...

Li Tian held the instant noodles and mineral water tightly in his hands, and squeezed the instant noodles into crumbs with his fingers.

"You don't need to pay attention to what they said. These food and water are regarded as the reward for the first bereaved dog you killed during the day. You deserve these things!" Bai Jing said.

Li Tian shook his head and said, "No! These are what I borrowed from you! I will return them! Two-dimensional, give these things to Dr. Situ and Dr. Xue Ji who came with me!"

After speaking, Li Tian went straight downstairs!

"Idiot, you will die!" Bai Jing chased for two steps and shouted loudly.

"Don't worry! Let him go out, or he will be ashamed! We both believe him!" I don't know when Situ Bingning and the goddess Xueji have already walked out, standing beside Bai Jing, Situ Bingning calmly Said.

"Yes, I have never seen anything that can stump him! Let him go!" The goddess Xue Ji also said in a helping voice.

"Barbarian, open the door!" Situ Bingning said.

Manzi glanced at Bai Jing and saw that Bai Jingtou agreed, and Manzi opened the small iron door on the rolling door.

"Barbarian, follow along!" Bai Jing said suddenly.

An expression of excitement immediately appeared on the barbarian's face. He nodded honestly and said to himself: "It can be done!"

Li Tian hesitated, but still did not reject Bai Jing's proposal.

When I came to the street again, it was completely dark.

The barbarian dragged the blade of the guillotine in one hand, and held an old-fashioned battery-operated metal flashlight in the other. The flashlight was covered with a cloth cover to effectively wrap the light and hit the ground.

The barbarian followed Li Tian and said, "I know you are great! You are much better than me. Unfortunately, my sister doesn't understand these things. She only trusts the sniper rifle in her hand."

"How did you see it?" Li Tian didn't expect that this savage and honest looking barbarian was the first to see that he had good skills.

The barbarian smiled mysteriously and said: "I have met a fairy in Tianshan, a fairy with a white beard, he taught me some exercises, but my aptitude was dull and I didn't learn it!"

"The white beard fairy on the Tianshan Mountain?" Li Tian immediately understood that this stupid boy has stupid people and silly blessings, and he was able to meet the Sixiang old man or the Promise old man.

Chapter 3144: Li Tian's strength

"Then where did the white beard fairy you met later go?" Li Tian asked.

"I don't know!" The barbarian was disappointed at first, but soon showed a simple smile and said: "The old fairy with white beard is so powerful that he will be fine!"

Li Tian didn't continue to question, just like Barbarian said, the old man of Sixiang and the old man Wuji have great abilities, they will be fine.

"Hush!" The barbarian suddenly turned off the flashlight, squatted on the ground with his back against the wall, put the guillotine blade in his hand horizontally, and pointed to a few pea-sized flames suspended in the air not far away and said: "Zombies! These zombies. They are zombies that have eaten human flesh. They are very powerful!"

After the barbarian reminded him, Li Tian also noticed that a few zombies came not far away. These zombies had ragged clothes and exposed their skin, which was different from the rotten skin of the zombies in the American TV series. The skin of these zombies remained intact. , But the skin is dark, like black iron. The two eyes of these zombies are fiery red. In the dark night, they are like two red ghost fires, which flutter up and down as the zombies move. And what grew out of the nails of these zombies' hands were not nails, but the sharp bones of Bai Sensen, which seemed to be detrimental.

"Five zombies, four of me, and one of you, how about?" Li Tian asked casually, turning out "Red Sword".

"Red Slash" is definitely the existence of pulling wind, in this dark night, exuding a faint red light, so coquettish.

Barbarians saw Li Tian's "Red Slash" and then looked at the blade of the agricultural guillotine in his hand, showing an expression of envy, but he consciously shook his head and said: "These zombies are far stronger than us. We Still take these zombies and haven't found us yet, so hurry back, right?..."

Before Manzi finished speaking, he found that Li Tian had rushed out towards the five zombies.

As Li Tian rushed out, the five zombies also discovered the existence of Li Tian and walked towards Li Tian.

Li Tian now knows that the weakness of these zombies is their heads. After rushing up, he immediately took a leap, handed out "Red Slash", and pierced the eyebrows of a zombie.

"Huh?" Li Tian did not expect that his confident move would not stabbing the zombie. The zombie raised his hands and grabbed Li Tian's "Red Slash".

Li Tian snorted and said with a sneer in his heart: "These wastes, you still know how to guard your head. It's no wonder that the barbarian said you are much stronger than zombie dogs! But do you want to block me with a few zombies?"

"Bring it to me!" Li Tian shouted.

A powerful force immediately spread from Li Tian's right arm, and the red light on "Red Zhan" was even stronger.

With Li Tian's loud shout, the bones on the hands of the zombies were shattered, and the arms were not retained even for two days.

"Die me!"

After Li Tian's "Red Slash" shattered the zombie's hand, he directly inserted it into the zombie's head without stopping for half a second.

With a "puff", the zombie's head was far less solid than the white bones that grew out of his palms, and it was directly chopped in half by "Red Slash".

The zombie fell to the ground crookedly, and the black brains flowed to the ground, and along with the brains flow out, a light blue corpse crystal also fell out.

"It's fierce!" The Barbarian hadn't adjusted his nervous mood, his breathing was still so fast, but Li Tian would kill the zombies as soon as he dropped the knife.

"Corpse crystal!" After seeing the zombie explode the corpse crystal, the barbarian's heart rate immediately increased.

"If a corpse crystal is exchanged on the market, it will be enough to exchange the supplies we need for a month!" The barbarian swallowed his saliva and stared at the corpse crystal greedily.

But Barbarian knew that he could not be the opponent of these zombies at all, and the sharp and long bones in the palms of those zombies were scarier than the sharpest blades.

Li Tian didn't stop after cutting a zombie. "Red Cut" fell and attacked another zombie.

These zombies are the same as the zombie dogs during the day. They don't know what fear is. After seeing Li Tian chop down a zombie, he swayed his body, making a low sound similar to a wild beast, and rushed towards Li Tian. come.

Four zombies attacked at the same time, and Bai Sensen's bone claws attacked Li Tian from four directions at the same time.

"Oops!" Seeing this scene, the barbarian exclaimed involuntarily, even forgetting that he is also not very safe now.

A tragic picture formed in Barbarian's mind for almost an instant, that is, Li Tian was stabbed by the paws of four zombies, although Li Tian was embraced by four zombies, and he opened Li Tian's skin to death with his sharp paws, and began to eat. .

However, at the moment Barbarian closed his eyes and opened his eyes, Barbarian discovered that Li Tian's body had perfectly escaped the attack of the four zombies, and the two claws of one of the zombies had fallen to the ground.

"Impossible! How did he hide?" The barbarian almost wanted to rush up and immediately asked.

Although Li Tian escaped the simultaneous attacks of four zombies without any risk, he didn't dare to be careless in his heart, just like what Bai Jing said. .

Because these zombies are not afraid of death or injury, but Li Tian is afraid of death and injury.

Li Tian let out a long breath of cold air, and when he turned around, "Hong Zhan" directly chopped off the heads of the zombies, just like chopping down those zombies during the day.

The zombie who lost its head slowly fell to the ground.

Li Tian accurately kicked the head of the zombie towards the barbarian, turned around and continued to fight with the remaining three zombies.

The barbarian saw a zombie's brain kicked over by Li Tian, and immediately stood up, raised the blade of the guillotine over his head, and slashed the zombie's head heavily.

"Kacha" the zombie's head was split in half, and the black brain splashed all over the ground, but it was a pity that there was no corpse crystal in the zombie's head.

Just when Barbarian was a little disappointed, the head of the second zombie flew over again.

The barbarian immediately showed a simple and honest smile on his face, raised the blade of the guillotine again, jumped up, and slashed at the zombie's head with a "huh".

"Crack!"

The light blue corpse crystal flowed out along with the black brain, the barbarian immediately picked the corpse crystal out with a knife, took out the gloves from his body, and picked it up.

"Haha, got rich!" Manzi was holding the corpse crystal with a smirk, and when he looked up at Li Tian, Manzi was completely shocked and speechless.

Chapter 3145: The second egg that Li Tian killed?

I saw that the other two zombies had gone to the end, Li Tian stepped on a zombie's head and was using "Red Slash" to harvest the victory items in the zombie's head.

Good luck tonight, a total of five zombies, unexpectedly exploded three corpse crystals, which is more likely than when the zombie is hunted during the day.

"What's the matter, Barbarian? Was it subdued by my brother's Shenwu?" Li Tian tossed the two pale blue corpse crystals in his hand, walked slowly in front of Barbarian, and asked with ease.

"Brother Tian, you are really, too... too powerful. Those are zombies. You have to clean up like cutting melons and vegetables. If the older sister knows about it, you will definitely fall in love with you madly!" The barbarian revealed. Said with a smirk.

Li Tian fought a cold war, that woman with guns? Li Tian could not bear it.

"Wow!"

In the dark night, the screams of wild beasts suddenly came.

Immediately afterwards, I heard a bird's chirping in the night sky. After hearing this sound, the barbarian shivered all over, and even his voice changed a little.

"Brother God, let's go back soon! The zombies are coming out! The attack power of this kind of zombies is far stronger than that of zombies, and it can even use zombies as food. Of course, this kind of zombies like to eat the brains of living people, and this The funeral will fly, and unless the gun is fired, we have no way at all." The barbarian said tremblingly.

Li Tian didn't dare to be big, nodded and followed the barbarian back to the hotel.

Knocking on the rolling shutter door of the hotel, Li Tian found that Bai Jing in the hotel was wearing a leather jacket and holding a Type 85 sniper rifle, facing the door.

Seeing Li Tian and the barbarian return safely, Bai Jing said coldly, "I told you not to go out. You have to do it. Now you know the horror outside! Now it's just nightfall. When it's midnight, it will be a dance of demons. The real moment!"

After receiving the gun, Bai Jing asked Manzi to lock the door. Without saying a word, he turned and walked upstairs.

"What's the situation outside?" Situ Bingning and the goddess Xueji asked at the same time.

Li Tian said with a relaxed face: "I have seen the strength of zombies. For me now, a dozen zombies should not be dangerous to me. The vultures have not faced each other head-to-head, and I don't know their power. Tonight Let's have a good rest, and tomorrow we will go to the next city!"

Bai Jing had already walked halfway to the stairs. Hearing what Li Tian said, he gave a cold snort and said, "Don't think that killing a few zombie dogs can brag that you are invincible. You must know that the zombie's skin has evolved to a certain extent. It is said that they are invulnerable, but ordinary swords are still difficult to injure them. Their only weakness is their heads. Only the gunner's long-range attack is the most effective method. As for you, you can't kill anything once you go out, but you can save your life. It's not ashamed to say it..."

Before Li Tian opened his mouth, the barbarian who had locked the door showed an expression of excitement, and said, "Big sister, Brother Tian is such a fierce man. I have never seen such a fierce man in recent years. You have not seen it just now. There are a total of five zombies, and Brother Tian can easily handle it all by himself! Hey, if I didn't take Brother Tian back, Brother Tian might have to kill a few more zombies!"

Barbarians saw Bai Jing's expression and knew that Bai Jing didn't believe what he said, so he quickly took out a pale blue corpse crystal from his skin and said, "I got this tonight!"

"Corpse crystal?" The other boys and girls and Bai Jing exclaimed at the same time.

Bai Jing even walked down the stairs directly, took the corpse crystal in the hand of the barbarian, carefully looked at it in his hand, and muttered to himself: "It turned out to be a real corpse crystal!" Then, Bai Jing's face suddenly A little more sad.

"Why is it a corpse crystal? Why is it a corpse crystal?" Bai Jing suddenly roared at Li Tian angrily!

"Tell me, why is it a corpse crystal? Tell me, why didn't you show up earlier? Tell me..." Bai Jing was already crying.

"If it weren't for you, the ***** wouldn't die!"

"Li Tian, I hate you!"

Li Tian, Situ Bingning, and the goddess Xueji were all stunned, and they didn't know what Bai Jing suddenly felt.

It was a very happy thing. Bai Jing was so crazy, the other two corpse crystals in Li Tian's pocket were not taken out. At this time, he didn't even have the mood to show off.

Like an older sister, Situ Bingning hugged Bai Jing and asked softly, "What happened? Isn't the second protein day already..."

Bai Jing hasn't answered yet. The girl behind Bai Jing's two-dimensional emotions is a little low and said: "The corpse crystal is the essence of zombie evolution, just like the detoxification herbs near the place where the poisonous snake exists, the corpse crystal is to relieve the initial corpse poison. The antidote. If we got the corpse crystal one day earlier, the second egg might not have to die."

"In that case, why don't you hunt zombies and hunt for corpse crystals?" asked the goddess Xue Ji.

Bai Jing shook his head lightly and smiled sadly: "First of all, the strength of zombies is very strong. Among our group, only I can successfully block zombies from a distance. Secondly, zombies rarely appear in small towns during the day. It's at night. Another point is that not all zombies will have corpse crystals. Like tonight, if they hunted five zombies, they could explode a corpse crystal. This probability is already very high. We are in the daytime. , I have hunted and killed seven or eight zombies, but without exception, no corpse crystals burst."

"So at night? You have an artifact like a sniper rifle in your hand, it should be good at hunting zombies." The goddess Xue Ji asked.

Others immediately looked at the goddess Xue Ji with idiotic eyes. Even the dumbest barbarians couldn't stand it anymore. They quickly explained: "During the day, the senses of the funeral are not very strong, but at night they The senses of the five senses will be very strong. The night is like daylight to them, and they can smell the presence of living people from far away. Fortunately, they are not very accurate in positioning this breath. However, they Hearing is indeed very powerful. If we use firearms without authorization at night, we will soon be surrounded by mourning objects in the neighborhood where we live! Also, we now don't have the powerful weapons like Brother Tian!"

Speaking of the barbarian raised the blade of the guillotine in his hand, looking at the already curled blade on the guillotine, he said distressedly: "The bones of zombies have evolved very powerful. Although these ordinary iron weapons in our hands can injure zombies, they are difficult to strike. Fatal. Tonight, I just chopped off the heads of two immovable zombies, and my weapons have already been rolled like this!"

Chapter 3146: Got up to eat

What Li Tian had in his hand was the "Red Slash" given to him by Yangshen. When dealing with these zombies, he only felt quite relaxed. He didn't expect that the weapon in Barbarian's hand was actually curled up.

In this way, it is no wonder that the living environment of Bai Jing and others is limited to this small town.

Bai Jing gradually returned to normal, and handed the corpse crystal to the barbarians, and said: "Barbarians, return the corpse crystals to them, we can't take such precious things!"

The barbarian looked at the corpse crystal in his hand with some dismay. It seemed that the barbarian was a little honest, but he was not stupid. He understood how important this corpse crystal was to their small group.

Maybe he could save a person's life that day, but he still had to obey the eldest sister's order unconditionally.

Li Tian shook his head, and pushed the stray crystals that the barbarian handed back, and said, "These are for our food tonight! You can collect them! I have two corpse crystals here!"

"What? You still have two more?" Bai Jing and others couldn't believe their ears.

"How many zombies did you kill?" Bai Jing asked.

"Five!" Li Tian answered honestly.

Bai Jing shook his head abruptly and said: "Impossible, completely impossible, the probability that a zombie can explode a corpse crystal is about 10%!"

Barbarian smiled honestly, and said with envious expression: "So I said that Brother Tian is a fierce man. He is not only superb, but also lucky. I can't say that five zombies burst out three corpse crystals!"

Bai Jing can only envy Li Tian's good fortune. At the beginning, she shot seven or eight zombies intermittently during the day, and did not explode a corpse crystal. She did not expect Li Tian to kill five zombies. Three corpse crystals.

"The corpse crystal is of little use to you, I suggest you change it to food and weapons as soon as possible." Bai Jing said.

Speaking of weapons, the goddess Xue Ji immediately said: "Can you change your sniper rifle? I like your magic weapon so much, I want to be a powerful woman like you!"

Bai Jing shook his head and said, "Although the corpse crystals are precious, this hot weapon is more precious today. If you want to change a sniper rifle like me, you need at least ten corpse crystals. There are also bullets. Special bullets for sniper rifles like this are also very expensive. One zombies can only be exchanged for ten bullets. You two corpse crystals can only be exchanged for an ordinary pistol and dozens of bullets! If you have this aspect I can take you to a place to exchange it. But you have to wait five or six days."

Seeing the disappointed expression on the face of the goddess Xue Ji, Li Tian rejected Bai Jing's suggestion and said proudly: "First use these two corpse crystals to exchange some food for our lives here. These five or six days Enough for me to hunt enough corpse crystals!"

"Idiot! After tonight, you will understand that what you said is some baseless nonsense!" Bai Jing was talking to himself again, as if to Li Tian.

But naturally Li Tian was willing to exchange corpse crystals for food, and Bai Jing would not object.

"Two-dimensional, is there any instant noodles? Give everyone a packet here and count my account. If there are ham and mustard, it would be even more beautiful!" Li Tian threw two corpse crystals to Bai Jing and said proudly .

Hearing what Li Tian said, the boys and girls immediately cheered.

"Don't die!"

Bai Jing snorted coldly. The boys and girls now knew the tense, and immediately covered their mouths, but there was still a happy smile on their faces.

This joyous atmosphere did not last long, and the cry of the beast outside the window became more and more, getting closer. Bai Jing immediately ordered everyone to turn off the lights and silence.

The entire hotel was plunged into darkness, and the boys and girls returned to their rooms and fell asleep carefully.

Li Tian went back to his room and gently pulled a corner of the curtain. He saw that it was not very peaceful outside the window. There were more zombies on the street, and some zombies were mixed among the zombies. The flying eagle in the sky occasionally makes a cry, making the whole night look even more terrifying.

Li Tian also discovered that these zombies do not live in peace. For example, zombies will attack zombies in groups and divide them for food, while zombies flying in the sky will also attack zombies and treat zombies as a good meal.

There is also a food chain in the world of mourning, but I don't know what is at the top of this food chain.

A few zombies sniffed their noses and slowly walked to the facade room where the hotel was located. They used the bones of their palms to slash the shutter door, making harsh sounds in the dark night.

Soon, the zombies flew down from the sky and kept going. The zombies came fiercely, and the zombies had not even reacted. The head of a zombie was harvested by the zombies with sharp claws.

Soon, a zombie's head that had been sucked and played with brains by the zombie fell from the sky.

Li Tian was surprised secretly in his heart, this mourning vulture was as fierce as the barbarian said, a single zombie was under the claws of the mourning vulture, and there was no resistance.

Just as Li Tian was amazed, a sad eagle seemed to smell the vitality of Li Tian's body, and the enclave turned towards the iron fence of the window in Li Tian's room, scratching frantically through the iron fence with two sharp claws. The heavy wooden planks attempted to grab Li Tian from the room.

Sawdust was flying, and the heavy planks couldn't help this attack from the vulture.

This sudden attack shocked Li Tian, and Li Tian subconsciously pulled out "Red Zhan" and waved it out.

As a result, the head of the damned Sorrowful Eagle accidentally slammed directly on the blade of "Red Slash", and he couldn't die in an instant, and the body of the Sorrowful Eagle hung directly on the iron fence of the window.

Li Tian didn't expect that his luck would be so good, so he stretched out his hand and unceremoniously accepted the head of Shoujiu.

After "Red Zhan" cut off the head of Souyuu, he threw it directly on the floor. In order to avoid the red light of "Red Zhan" from seduce more funeral attacks, Li Tian put "Red Zhan" away and turned his head down. sleep.

That night, the funerals outside the window almost rioted all night, and the sound of the funerals gradually disappeared as dawn approached. Li Tian didn't sleep well that night, until the sound of the funeral disappeared, Li Tian could not sleep well.

Li Tian was sleeping in a daze. He heard Bai Jing's voice ringing in his ears, as if he was muttering something to himself in a low voice.

Dreams must be dreams. The door is locked. Besides, how could that woman's voice be so gentle?

Li Tian turned over and wanted to continue sleeping, when he suddenly saw Bai Jing's delicate little face facing him, and said softly, "Li Tian, get up for breakfast!"

Chapter 3147: Bai Jing's special requirements (1)

Li Tian was taken aback and jumped up immediately.

That's right, the woman squatting in front of her bed is really Bai Jing.

"How did you get in?" Li Tian asked with a quilt wrapped around his body.

Bai Jing stood up, regaining his cold expression and said, "This is my site now. How did you say I got in?" As Bai Jing shook the key in his hand, he continued: "I have warned last night. You, don't choose a room facing the street. You must not listen to me. As the host here, I have an obligation to check the integrity of the room facilities, and by the way check whether someone has been attacked by zombies and lost my mind!"

"Can you knock on the door first when you come in? What if I sleep naked?" Li Tian really didn't have any temper with this woman.

Bai Jing showed a mocking expression and said, "Sleeping naked? Ha ha, there are at least five male zombies sleeping naked under my sniper rifle."

Speaking, Bai Jing glanced at Li Tian's tightly wrapped quilt intentionally or unintentionally, then sneered again, then turned and walked out.

"You come back to me, what do you mean?" Li Tian was not angry, especially Bai Jing's last expression, which clearly looked down on some parts of Li Tian.

A sage once said that without investigation, there is no right to speak. How could Li Tian swallow his breath when Bai Jing was so despised.

At this time, Barbarian with a simple and honest smile, poked out a head, glanced at the room, after seeing Li Tian, smiled gently, stood at the door and said: "Brother Tian, morning!"

"Early or early, I was woke up by your sister!" Li Tianyan said angrily.

The expression on the barbarian's face changed, and then he showed a meaningful smile, scratched his head, and said, "Brother Tian, you are amazing. You easily killed five zombies last night, and before going to bed, he killed another one. Eagle, even our frosty eldest sister Bai Jing..."

"Stop the ***** nonsense, let's go ahead and talk about it!" Li Tian knew that in this situation, he didn't want to sleep peacefully, and said to the barbarian.

The barbarian smirked "hehe", walked in, sat on the mattress, and said to Li Tian, "Brother Tian, how did you kill the sangyu? I know you are great, but I think so. I don't understand how you can kill the murderous vulture?"

"What's the problem? This sad eagle is looking for death on its own. I want to sleep. It is noisy in front of my window. I killed it with a single blow. No, its head...I rely on it. Where's the head of Sang eagle?" Only then did Li Tian notice that the head of the eagle on the ground had disappeared.

The barbarian showed an awkward smile, touched his head, and said in a dull voice: "Hey, my eldest sister found the head of a dead vulture in your room this morning, and he helped you get rid of the head of the corpse. !"

"Do you know what was dug out from the head of the mourning eagle? You certainly can't think of it! It is the mourning crystal! The third-level mourning crystal!" The barbarian suddenly said excitedly: "Yes, it is the third mourning crystal! Is the value of the crystal? The value of this third-level zombies far exceeds the three corpse crystals we obtained last night. The eldest sister said that the food and water that this third-level zombies exchanged for is enough for us people. Eat it every year. The eldest sister said that such precious things are not safe to keep by your side. She will take care of them for you first and count them as living expenses for you and your colleagues these days!"

"What? What does this idiot woman have in her head? Didn't we say that we are living here for free? Besides, I traded the corpse crystals for food and drinking water. Why do I still raise the price now?" Li Tianyi Said his face sadly.

The barbarian continued: "The eldest sister said, she will not take your third-level crystal loss for nothing, she said you can get what you want in her!"

When Barbarian said this, Li Tian was delighted in his heart, thinking: "Hey, why is brother so popular? No matter where you go, you will get the love of women. Hey, don't be obsessed with brother, I'm just a legend! "

"Friendship!" The two words that Manzi suddenly said almost caused Li Tian to spit out a mouthful of blood.

"Fuck your sister's friendship..."

Before Li Tian had finished speaking, he saw Bai Jing holding a sniper rifle, and the muzzle of the black hole had been aimed at him.

"What? Are you still interested in my sister's friendship?" Bai Jing said coldly.

"No..., how could it... It's really a bargain that a third-level loss crystal can exchange for the friendship of Miss Bai Jing. Well, can Miss Bai Jing take your big gun away? I know, it's always my big gun at other women, never..."

Li Tian saw that Bai Jing's muzzle moved down gradually, and he had already aimed at his own lifeblood. He immediately chose to shut up and changed the subject: "Barbarian, my brother, I got the friendship of Bai Jing. This is a first sight. A gratifying thing, during the day today, should we hunt more zombies and corpses to celebrate...Haha...haha"

After Bai Jing came in, he walked away from the barbarian. Locked the door, held the sniper rifle and said to Li Tian, "Undress..."

Li Tian didn't even react for a while, showing a smile on his face and said: "Miss Bai Jing, why are you so anxious? If you want, I won't give it to you, but you have to say you want it. How can you be sexually blessed if you are so reluctant?"

Although Li Tian owed his mouth, he did not really take off his clothes.

"Am I so unattractive?" Bai Jing asked with disappointment on his face.

Li Tian shook his head and said solemnly: "No, you are a good girl. You are very beautiful and almost perfect! I know you must have had a hard time with so many people. Before you met me, you I can't see hope, and I really watched the little brothers I brought with me die because of various accidents. You can't cry, you can't be weak, you can only learn to be strong and cold. But after meeting me, you see My strength, you seem to see hope, so you want to keep me here by this means, and hope I can protect you..."

Bai Jing listened quietly to Li Tian's analysis. Suddenly Bai Jing shook his head and said: "Heroes come out of troubled times. I know that in the troubled times of the last days, you will never stay here. Your future belongs to the sky and the stars. The sea. But I have no other way. Many times, we have no choice at all. Just like three years ago, I have no ability to protect these fifteen or sixteen-year-old children. However, this world simply has no choice. Give me the right to choose, I can't just watch these children become food in the mouths of zombies?"

Chapter 3148: Bai Jing's request (2)

"No!" Li Tian said.

"But I don't have the strength at all. Three years, in fact, less than three years, because of hunger, disease, zombies, and **** human beings, a dozen children disappeared from my eyes one after another, watching them from Weakness, the air force, and finally the numbness in the face of death, I really don't know what to do!"

"All the things that can be eaten in this small town have been collected by us, and all the things that can be used have also been collected by us. But after three years of consumption, our reserves are already empty. And through hunting Zombies, zombies, the food and supplies that can be exchanged for are simply not enough to sustain the expenses of so many people!"

Li Tian hesitated and asked, "Isn't there a reserve of three warehouses? Isn't it...?"

Bai Scenic Spot nodded and said, "You guessed it, it's basically empty! The warehouse is our forbidden area. Only me and 2D can enter the warehouse. The other children don't know."

Bai Jing paused, adjusted his emotions, and continued: "A small team like ours, even a small group, even if they get lost crystals and exchange them, they will be suppressed by some bad organizations. Rarely can they be completely suppressed. In exchange for what you want. I know that letting you take all these children out is unrealistic and I don't know it. So I'm willing to give myself, I don't ask too much, I only ask you to take the barbarians, Two-dimensional and Lidan are all you need to take with them. If there are too many of them, you only need to take the barbarians alone! Seventy kilometers east from the town, there is a fortress named Sunset Fortress, Sunset The fortress is the largest fortress in which humans live in a radius of a hundred miles. As long as they are brought to the fortress, they can live by their ability!"

Li Tian nodded and said, "Take the gun away! Your request is not excessive. I will bring all these children to the sunset fortress one by one! As for your reward, it is still the most precious for you. People!"

Bai Jing was startled, she didn't expect that Li Tian would agree so boldly, and that all members would not pull. Then Bai Jing felt a little sad again.

"Is Bai Jing so unattractive? I used a gun to force the man in front of me, nothing happened!"

Li Tian couldn't tell there was suffering in his heart.

"Sister, it's not that brother is such a gentleman, nor is he who wants to be a quiet beautiful man, but you have to know that there are still two tigresses living on the opposite side of brother. One used to be a female killer who killed people without seeing blood, and the other The same demon-like existence in another world. Hey, I don't want to, let Brother cry for a while!"

After such a happy decision, Li Tian suddenly felt a lot of pressure on his shoulders, and brought Bai Jing to the room of Situ Bingning and the goddess Xueji.

Situ Bingning smiled meaningfully and asked, "How does that little girl taste?"

When Bai Jing heard Situ Bingning's teasing, his face couldn't help but feel a fever, but Li Tian resolved her embarrassment.

"I can swear to Tian that I and Bai Jing are really innocent." Li Tian said, and then Li Tian described what Bai Jing and him had said to Situ Bingning and the goddess Xueji.

"Since you have agreed to Bai Jing's request, we have no need to oppose it, just... forget it. Let's take one step at a time! But after all, it is not a simple matter. So we have to take a long-term view, the best is Find Bai Jing, Manzi and other people to discuss together." Situ Bingning seemed to be worried, but still did not object.

The goddess Xueji nodded slightly, and then said: "If Li Tian, you take Bing Ning, I, and Bai Jing and Barbarians and other people to cross the 70-kilometer distance, there may not be much problem. But the strength of other children is too great. Weak. Not to mention the zombies, even when they encounter hordes of dogs, they don't have enough self-protection ability. At that time, we probably didn't have time to take care of those children. So, I mean, It is best to train these children to be shooters like Bai Jing, especially me!"

Of course Li Tian knows what the goddess Xueji's thoughts are now, but buying nearly twenty sniper rifles is obviously unrealistic, and even if Li Tian can hunt enough zombies and obtain enough corpse crystals, he can really buy so many snipers. Rifle, he wouldn't do that.

After all, sniper rifle gunners are like killers lurking in the dark. A few, sudden attacks can be effective, but if the entire team is snipers, the combat effectiveness will drop rapidly, and even become a burden.

"Although I really hope that Brother Tian can really arm these children, but I know them better now. The barbarian is more like a barbarian swordsman. If he can be replaced with a more durable and strong sword, his strength There will be a great improvement. Two-dimensional is more often like a cold-blooded killer. She uses a short knife more suitable. As for other children, perhaps only Li Dan has the potential to become a sniper." Bai Jing analyzes Said.

"Okay, let's train these people in this direction first. The barbarian will follow me in the future. Li Dan and Xue Ji will learn from Bai Jingxian. As for 2D, he will learn from Situ Bingning! But the most important thing is that we still have to Hurry up to hunt down zombies and zombies, and get a lot of corpse crystals in a short time." Li Tian said.

Bai Jing gave Li Tian a suspicious look, and finally set his gaze on your Situ Bingning, and said, "Let the barbarian follow you to learn, and Li Dan and Xueji follow me to learn. I have no objection. But let Wei Wei follow her. Study, are you kidding me?"

Before Bai Jing had finished speaking, he suddenly felt a wooden comb on her neck, and Situ Bing Ning appeared behind her in the blink of an eye.

"So fast!" Bai Jing was surprised. She had never thought that Situ Bingning would hide such a powerful strength.

Li Tian laughed and said, "Now you believe what I said! But just let a few children learn is not enough, everyone else must strengthen exercise, only when their own strength is strong, they will have more to live. Possibility."

"It's just the food we reserve..." Bai Jing frowned slightly and said.

"It's okay. We can't leave here in a short time. In that case, we will use this time to fully prepare. As for food, let them eat freely within this month. Within this month, I can hunt out zombies and corpses. Jing to change! But, I will not take care of them forever, you need to tell them that if they want to survive, they must come up with enough strength to let me recognize them, so that they can get food and weapons! If they If this is not possible, then I will take back all the words I have just said." Li Tian suddenly became a little harsh.

Chapter 3149: Survival of the fittest

That night, in Bai Jing's room, under the dim light, Bai Jing stood on the ground with a serious face. Except for Barbarian and Li Dan, who were in charge of the night watch, all the other 18 teenagers and girls sat on the ground.

"You people, who can hunt and kill a bereaved dog alone? Raise your hand with this strength!"

Except for 2D, none of the eighteen teenage girls raised their hands.

"Then who among you can hunt zombies alone? Raise your hands with this strength!"

The eighteen children all lowered their heads, facing the zombies, they had no resistance at all, let alone hunted.

"Then facing the vulture? Let's not talk about the hunting of vultures. If you face the attack of the vultures, who of you can escape without any damage under the attack of the vultures!"

Hearing the name mourning eagle, fear appeared on the faces of many young girls.

After asking these questions, Bai Jing looked around for a week, and said in a self-deprecating tone: "This morning, I went to Li Tian's room. Li Tian is the man who can easily kill seven or eight bereaved dogs. A man who can easily kill five zombies is the man who can easily deal with a gaggle before going to bed. I use a sniper rifle at that man, hoping that man can pity me, and I want to trade my flesh for it That man took you away from here to the chance to die in the sunset..."

Having said this, the eighteen young girls present felt aggrieved in their hearts, and some girls involuntarily left aggrieved tears.

This is the eldest sister they respect in their hearts, this is the leading eldest sister they rely on and survive, but the eldest sister does not hesitate to practice herself for them.

"Sister, I'm going to kill that man now! Even if we all die here, we won't let that man insult you!" Two-dimensional gritted his teeth.

"Shut up all of you!" Bai Jing suddenly broke out and said sternly: "Although I abused myself like this, the man didn't look at me with his straight eyes. Do you know why?"

The eighteen boys and girls present could hardly believe their ears, and the eldest sister Bai Jing who existed like a goddess in his heart, the man didn't even take a straight look.

This is not only aggrieved, but also an insult.

It was like a peerless beauty who had taken off her clothes and stood in front of a man, but that normal man couldn't even take the slightest interest.

"Because I am too weak, because our group of people is too weak. In this end of the world where the weak and the strong eaten, our group has almost no ability to protect themselves. In his eyes, we and the ants There is almost no difference. Will they use their front eyes to see an ant performing clumsily?"

"No!" Everyone already has such an answer in their hearts.

Bai Jing paused and continued: "But the man gave us a chance. He has promised to take all of us here to the Sunset Fortress safely, but he also made his request..."

Bai Jing repeated what Li Tian said during the day, but Bai Jing's repetition was somewhat different from what Li Tian said: "In one month, you only have one month. After this month, including Among the twenty of you, including Barbarian and Li Dan, the weakest one will be eliminated. I will not let the other nineteen be killed because of one of you!"

Bai Jing looked at the shocked expressions on the faces of the eighteen young girls, without the slightest fluctuations in their expressions, and continued: "Furthermore, Li Tian has agreed to take the barbarians to practice together, and Situ Bingning has also agreed to take the second maintenance practice. Li Dan will follow me to learn."

Bai Jing paused, and then said: "I know that many of you will be dissatisfied, saying that this is not fair at all, then I will tell you that it is right to be unfair. There is no absolute fairness in this world that can allow you. These twenty people competing on the same starting line are the greatest fairness to you. Because you know in your heart that if there were no Li Tian and others, we would all die here in less than three years. Now, Li Heaven has given you a chance. Whether you can grasp it or not is up to you. A month later, we will speak with the results!"

"sleep now!"

Many people suffered from insomnia this night.

...

When the sky was still dark, Li Tian opened the door of the room.

As soon as he opened the door, Li Tian found that the barbarian was actually sleeping in front of his door. Li Tian opened the door and made a slight noise, and immediately awakened Manzi. Manzi touched his face and jumped up.

"My God!"

"Why are you sleeping here?" Li Tian asked puzzledly.

Barbarian smiled with his iconic honest smile, raised the blade of the guillotine in his hand, and said, "I know what happened yesterday. Since Brother Tian said to bring us all alive until sunset, Brother Tian will definitely not miss this. The best time to hunt in the morning. So, I waited at your door in the middle of the night before the vigil was over last night, I'm afraid I overslept."

Li Tian nodded secretly in his heart.

Li Tian didn't speak, and went straight downstairs. The barbarian followed quietly without saying a word.

Bai Jing was responsible for guarding the second half of the night, and when he saw Li Tian and Manzi appear at the door at the same time, he was startled, and then he wanted to understand.

And just after Li Tian left the door, Wei Wei also got up quietly and came to Situ Bing Ning's door. As soon as Wei Wei arrived at the door, Situ Bing Ning had already pushed the door and walked out.

Situ Bingning nodded inwardly when seeing Wei Wei silently guarding the door.

"Show me your weapons!" Situ Bingning said in a low voice.

Two-dimensional hesitated for a moment, and he took out a pair of scissors from behind his waist and handed it to Situ Bingning.

"Pop!" A slap sounded on the face of Two-dimensional.

"As the first element of a killer, you should never trust others easily, let alone hand over your own weapons to others, as this will put you in danger." Situ Bing Ning said coldly.

A trace of blood has flowed from the corners of the two-dimensional mouth, but the two-dimensional stands motionless! Because she understood that the moment she handed out the weapon, she suddenly lost her sense of security.

"A killer who wants to grow quickly has no other way out except actual combat! Now we are going to hunt down beasts!" Situ Bingning turned around after speaking.

Two-dimensional hurriedly followed.

The words of Situ Bingning were all heard by the goddess Xue Ji.

"After coming to this world, I am no longer the goddess of Qianxuefeng. I am just an ordinary girl, Xue Ji. In this world, Li Tian and Situ Bingning have begun to find a strong man after two days of adaptation. It feels, and I still need to follow Li Tian and need him to protect it. No! I don't allow this, this world can't practice illusion, it's very good, then I'll start with the sniper rifle, which is an artifact. "

Chapter 3150: My knife burst

The sky hadn't been completely dark yet, Barbarian was lurking behind a ruined wall, and on the street in front of Barbarian, several zombies had appeared one after another, each of which was no more than ten meters apart. Less than five meters behind Manzi, Li Tian hid behind a low wall.

Seeing Li Tian made a gesture to himself, Manzi quietly lifted the blade of his guillotine with one hand, while the other hand was pressed on a stone the size of a basin.

Wait, a few more seconds passed.

The zombie closest to the Barbarian seemed to have smelled the smell of a living person, and walked towards the position where the Barbarian was.

"It's now!" Manzi moved in his heart.

Without any hesitation, Barbarian directly threw a basin-sized stone toward the zombie.

"Wow!" With a sound, the stone hit the zombie, but the two claws of the zombie were inserted into the stone with a click.

After the zombie's hands were strung in the stone, the stone sank, and the zombie's body naturally leaned forward, just to leave the head to the barbarian.

"Opportunity!" The barbarian jumped out with a shriek, raised the blade of the guillotine and smashed the zombie's head.

With a "click", the black brain of the zombie's head came out.

"Successful!" Barbarian could hardly believe his eyes, froze in place. After following Li Tian for less than a week, he was able to hunt zombies independently.

"My God, I really succeeded! It's a pity that there is no corpse crystal..."

Before he finished speaking, Manzi's face changed. While he was still speaking to Li Tian, seven or eight zombies had gradually surrounded him.

Manzi's face turned green at once. To deal with the zombie just now, he still followed Li Tian for a week, figuring out the timing and opportunity that Li Tian chose every time he shot, and then cooperating with Li Tian's instructions to him, he did it. Hunted, but he hadn't been happy for half a minute before other zombies had surrounded him.

"Whoo!" With a sound, Li Tian had already jumped to Manzi's side and pulled Manzi behind him, "Red Zhan" had appeared in Li Tian's hands.

"Huh!" With a sound, a zombie's head has fallen under the barbarian's feet.

Seeing Li Tian appear, Manzi's heart was determined, and he raised the blade of the guillotine and smashed it directly at the zombie's head.

With a "click", a pale blue corpse crystal fell out as a piece of black brain pouring out.

After nearly a week of adapting, Li Tian gradually recovered some of the feelings he had when he was on Earth. With a magical tool like "Red Slash" in his hands, dealing with these ordinary zombies is really like cutting melons and vegetables.

If Manzi took a closer look, he would find that Li Tian's palm did not fully grasp "Red Zhan", and there was almost a centimeter of space between Li Tian's palm and "Red Zhan".

"Huh!"

"Huh!"

After a few sounds, the zombies surrounding Barbarian and Li Tian were already dead and could no longer die.

Li Tian felt the feeling in his hand. Although "Red Zhan" and him had already established a connection, Li Tian felt that his body's aura was very strong, and now he is still far from being able to exert the power of Ten Jue Sword Qi, let alone with Qi Yujian.

Li Tian shook his head gently, and said to himself: "Not enough!"

The barbarian said with a simple smile and said, "Brother Tian, it's already pretty good. This time I hunted nine zombies and exploded two more corpse crystals. In addition to our harvest today, we have exploded five of them today. Corpse crystals, a dozen zombies!"

The zombies were encircling Li Tian and the barbarians more and more, and the figure of the zombie eagle appeared in the sky. Li Tian didn't dare to be careless, and directly pulled the barbarians to the base.

Back to the small hotel on the second floor, everyone gathered together.

Bai Jing patted the table and said, "Everyone, teach you all of today's harvest!"

After speaking, Bai Jing proudly took out a pale blue corpse crystal and five or six but yellow corpse crystals from her skin and put them on the table. These gains are that she led Li Dan and Goddess Xue today. Ji's harvest.

The goddess Xue Ji is definitely the most talented sniper Bai Jing has ever seen. Whether it is choosing a place to hide or when to attack, Bai Jing has seen the best.

However, due to the limited ammunition of the sniper rifle, the goddess Xue Ji and Li Dan can only fire one shot per day. However, in spite of this, Xue Ji was able to fully grasp this opportunity to shoot. Today this corpse crystal was exploded by the goddess Xue Ji after hunting a lonely zombie.

"Scorpion crystal! Wow, Sister Bai Jing is really strong! Sister Bai Jing's group must be the first place today!" The other boys and girls immediately said excitedly.

"Humph!" Two-dimensional snorted coldly, and walked out of the dark shadow. From the skin, he also took out a blue corpse crystal and seven or eight but yellow death crystals.

"Wow! Another corpse crystal!"

"Today is really a good harvest! Two corpse crystals burst out!"

"Since Brother Tian and the others came, they can explode a corpse crystal almost every day."

"We have to work hard. Although we don't have the strength to hunt zombies, we still have some ability to deal with zombies!"

"Yes, we can't be pulled away either!"

More than a dozen boys and girls were talking in seven words.

Seventy or eighty pale yellow crystals were quickly piled up on the table, and the two pale blue crystals were particularly eye-catching in a pile of pale yellow.

"Li Tian, Manzi, how about you two? You two went out early in the morning, don't tell me that you didn't get anything today!" Bai Jing's group has been suppressed for several days, and it was hard to have one in a few days. For the chance of winning, Bai Jing would not be polite.

Li Tian looked relaxed, smiled slightly and said, "I am always low-key, but you should also understand that heroes are often the last ones! We are embarrassed to show off like this half of the corpse crystal. Barbarians, tell them. Our harvest today."

"It's too early for you to be happy, haha, this is our harvest today!" The barbarian took out five pale blue corpse crystals and a dozen pale yellow zombies from his skin.

However, after the Barbarian placed the corpse crystal and the dead crystal on the table, he suddenly cried and said, "Woo, brother, my sword burst!"

Although the barbarian's guillotine was sharpened every day, after this week of intensive use, especially after hacking the heads of nine zombies tonight, he finally died. The blade is completely rolled up.

"We consumed a lot of food this week. According to this situation, our food won't be enough for us people to eat for another three days!" Manzi hesitated and decided to continue to make up the knife.
