

A Killer 3211

Chapter 3211: Hit the wrong person

"Guigan! I'll do Nima!"

"Pop!" With a sound, the man who was approaching the city directly slammed a punch on the head of the cottage Li Tian.

Shanzhai Li Tian's body was beaten back and back several steps, Li Tian only felt dizzy, and his eyes were full of gold stars.

He couldn't help but tremblingly asked: "What are you doing? Why are you hitting people! This is the Bounty Hunter branch!"

Tang Gong punched it down, and it didn't feel right.

Hearing that Hu'erle died unexpectedly, Tang Gong, who was approaching the city, immediately led people to the bounty hunter branch. After inspecting Huerle's body, Tang Gong found that Huerle did not have any traumatic injuries on his body, but there was indeed one piece of blue and one piece of purple on his body. Obviously, he died of internal injuries caused by external forces.

After further investigation, Tang Gong heard that it was a man who had a conflict with Huerle, and the two were still fighting in the branch. Following all the way, Tang Gong knew that the man was Li Tian and had a meeting card, so he tracked down here.

If he can compete with Hu'erle and can get Hu'erle secretly injured, then Li Tian's strength must be good. However, Tang Gong punched it down. Although suddenly, the person in front of him had no response, and he didn't even have the consciousness to avoid it.

"I only want to ask you a word! Are you Li Tian!" Tang Gong asked with some confusion.

Shanzhai Li Tian nodded: "I am Li Tian!"

"That's right!" Tang Gong still had some doubts in his mind, but at this time he heard Li Tian's personal confirmation, and immediately moved his hands again. This time, Tang Gong used his full strength, pairing his fists in parallel, hitting Li Tian's body hard.

"Boom!" With a sound, the cottage Li Tian was blasted out and hit the wall hard.

Shanzhai Li Tian only felt that his internal organs did not belong to him. There was a sharp pain in his chest. In his chest, a stream of heat spewed blood down his throat.

"Don't hit it! You got it wrong! I know who you are looking for!" Li Tian, a copycat, said with one hand on his chest, begging for mercy.

"Wrong number?" Tang Gong can confirm this time that it should be a wrong number!

"You are not Li Tian, why do you want to admit that you are Li Tian?" Tang Gong walked over, squatting next to the cottage Li Tian, and asked angrily.

"No! Absolutely not!" Shanzhai Li Tian had learned well, and he was unwilling to admit that he was Li Tian anymore.

"What about Li Tian?" Tang Gong asked.

"Just took the task from inside, just left!" Li Tian immediately betrayed Li Tian and said.

Tang Gong immediately motioned the others behind him to check the task Li Tian accepted.

Tang Gong was a little surprised when he heard the news he found. He didn't wrinkle slightly, and said to himself: "Five-level bounty hunter Li Tian? The tasks he accepted turned out to be two of the top three tasks. But fortunately these two. All quests are in Fancheng, which happens to be in the same place as our first mission to be completed under the soldiers. Or, let you live for a few days temporarily, and then settle accounts with you in Fancheng."

...

Three days later, on the road from Sunset Fortress to Fancheng, a bright blue Ford pickup was slowly driving forward.

Manzi is still in charge of driving. Li Tian, Situ Ningbing, Bai Jing, and Two-dimensional are all in the car. In the rear compartment of the pickup truck, an iron cage that is taller than a person is tied with a finger-thick iron chain.

After coming out of the sunset fortress, the Ford pickup truck got on the expressway to Fancheng. Although it was on the expressway, the speed was not fast at all.

On the spacious highway, some damaged cars can be seen occasionally, and there are even signs of explosions on some roads.

Similarly, the highway is not level, and from time to time there will be scattered zombies wandering the highway.

"Bang!" With a gunshot, Bai Jing raised his hand and shot a zombie that had already plunged into the pickup truck.

Along the way, Situ Ningbing, Bai Jing, and Two-Dimensional would always take guns to hit those zombies who deliberately attacked the car.

Although the car was slow, it still arrived in Fancheng at dusk.

"Brother Tian! Look ahead..." Barbarian said, lowering the speed of the car.

In front of the car is the entrance toll booth of Fancheng Expressway. At this time, the toll booth has already been defeated. The railing in the middle of the road has already been knocked off, but the cars behind the entrance are piled up as high as a hill.

It can be guessed that when the zombie virus broke out in Fancheng, these cars all escaped from Fancheng, but they encountered a big traffic jam during the escape. Finally escaped to the toll booth, but the people at the toll booth had already escaped.

When the car that arrived first stopped to open the railing, the car behind it hit the car in front, and the car behind it hit the car in front. So repeatedly, in the direction of the toll station, there was such a downhill pile.

There was no road ahead, Li Tian and the others could only get off the car and walk towards the city of Fancheng.

Li Tian and other five people, each carrying a backpack, contained ammunition and some food for drinking water.

"Kacha!" The bullet in Bai Jing's hand was loaded.

The barbarians, two-dimensional, and Situ Ningbing also took all their weapons in their hands.

"It's getting late, I'm afraid we won't be able to enter the city today! Let's go a little further, pass the toll booth, find a place to rest first. We will continue to the center of the city after dawn tomorrow!" Li Tian said.

"Okay! Among us, Brother Tian, you have a lot of experience, and we all listen to you!" Bai Jing said.

Li Tian glanced at Situ Ningbing, stretched out his hand and took Situ Ningbing's hand.

The road ahead was completely blocked, and several people followed Li Tian, jumping out of the highway fence, and walking cautiously along the highway from the outside to the city of Fancheng.

As he moved forward, Li Tian felt more shocked in his heart, no wonder that Level 6 zombies would be born in Fancheng. The entire road from the toll gate to Fancheng was completely blocked by vehicles. When the end-time virus broke out, Fancheng, a large city with a population of more than one million, would have been able to escape even less than one percent.

"Li, the road we are walking seems to have other people's footprints" Situ Ningbing said with some caution.

Li Tian nodded and said, "I am afraid that the recent Fancheng city has not been peaceful. Many bounty hunters have flooded into Fancheng for the hundred seven-level corpse crystals. It is not surprising that someone has walked this way!"

Then, Li Tian said: "This time the mission is not trivial. The difficulty of catching Level 6 zombies alive is already very high. Now many desperate people even dare to enter Fancheng to hunt down Red Wolf. Now the number of bounty hunters in Fancheng has exceeded There are hundreds of people. Our purpose is very single, which is to catch Level 6 zombies and go to the Rising Sun Building to get folders. So we try to avoid contact with other people, and try to avoid conflicts with others! Do you understand?"

"Understood!" Several people replied in a low voice.

Chapter 3212: Refuse

At night, the entire Fancheng was dark, and in the steel forest, from time to time there would be a howling of wild beasts, which made the whole night look very strange.

Li Tian stood in front of the window of the second-story building, overlooking the dark city. At this time, Fancheng gave Li Tian the feeling that there was no vitality, as if a wild beast crawling in the distance, it seemed to be swallowed at any time. Kill those who enter the city.

Li Tian can imagine that before the end of the world, the prosperity of this city, even at night, must be full of lights, brilliant lights, busy cars and crowds. But now, this once big city with a population of one million is now dead.

The death of Fancheng is also the death of mankind.

Li Tian didn't know if there was a surviving city somewhere on the earth, even a city, it was really human luck.

But there is no reason for this end of the world, so far, no one has found the reason.

Li Tian pulled the curtains, and blocked the door panel at the window. Turning around, he saw Barbarian and others surrounding a iron pass, and in the iron pass was a small wood-burning fire. They were baking food.

This place was found by Li Tian at dusk today. It is still some distance away from the entrance of the expressway. It used to be an auto repair shop. Facing the street is the facade of a two-story building. A circle of two-story bungalows forms a circle. It is a huge parking lot. At this time, Li Tian and others were in the second-story bungalow behind.

There are iron doors from the first floor to the second floor, and the second-floor bungalows are equipped with anti-theft doors and anti-theft nets. Therefore, if you stay here at night, your safety is guaranteed.

Before Li Tian and the others came in, they saw that there was already a mess in the room. You can see that after the end of the world, there were traces of other people's lives before.

The entire city, including the periphery, has become a paradise for zombies, and the property that mankind once fought for has become a tomb.

"Everyone's voice is lower, there are many zombies in the yard. And I feel that these zombies are basically level two or above." Li Tian whispered to the others.

The barbarian and others nodded, surrounded the fire, eating quietly without speaking.

Suddenly, the alarm of a car parked in the courtyard began to sound. The alarm sounded in the empty courtyard, and the sound was exceptionally abrupt and harsh!

Li Tian immediately made a silent motion, leaning to the window and looking out through the window.

I saw the sirens of a car parked in a huge parking lot being struck by a zombie. After hearing the car alarm, the zombie appeared extremely excited and kept hitting the glass of the car.

The sirens sounded very loud. The zombies around, who were originally like walking dead, were attracted by the sound of the car alarm and gradually surrounded the car.

The zombie kept hitting the car, and the car siren would not stop, but within ten minutes, the number of zombies in the small courtyard exceeded dozens.

"If this situation continues, will it attract high-level zombies? If high-level zombies are attracted, I am afraid we will not be safe here." Situ Ningbing appeared behind Li Tian and followed Li Tian to see the scene outside the window. , Said with some worry.

Li Tian frowned involuntarily, Situ Ningbing was right. If it were just these zombies, even if these zombies found traces of Li Tian and others, Li Tian would be sure to kill them. But what if a senior zombie comes? After all, so far Li Tian has come into contact with the most advanced zombies that are only those that have not been activated at level 6.

"Manzi, put out the fire!" Li Tian ordered the manzi!

The barbarian immediately stuffed the iron pass with some stones and gravel, and then covered the iron pass with a stone slab.

As soon as the fire went out, the whole room was plunged into darkness.

After Barbarian, Bai Jing, and Wei Wei put out the fire, they quietly came to the window.

"Brother Tian, what's the situation?" Manzi asked in a low voice, a little nervous.

"Nothing, you go to bed first. Don't sleep too hard, especially your barbarians, don't dare to snore when you sleep." Li Tian waved his hand and said.

At this moment, the car alarm in the yard may be exhausted, or the circuit may be broken by a zombie and suddenly stopped.

Those zombies attracted by the sound of car alarms turned into aimless walking dead.

However, just as Li Tian took a breath, Li Tian clearly saw several zombies twitching their noses at the same time, and then moved their eyes to the hiding place of Li Tian and others at the same time.

Then, the zombies twitched their noses as if they were smelling something, while walking towards the second-story building where Li Tian and others were hiding.

"Kang Dang!"

"Kang Dang!"

On the stairs from the first floor to the second floor is an iron fence anti-theft door. When Li Tian and others came up during the day, they screwed the anti-theft door with a wire.

At this time, the zombies started to hit the security door.

Manzi, Bai Jing, and Wei Wei squeeze in their hearts, and squeeze out of sleepiness at all.

Bai Jing asked nervously, "Did these zombies find us? Do we want to escape?"

"It should be okay! These zombies may smell of smoke. It does not matter, you go to rest first, here I am guarding! Even if these zombies break through the security gate fence from the first floor to the second floor, we still have a security guard here. Door!" Li Tian comforted a few people.

"Kang Dang!"

"Kang Dang!"

Those zombies did not feel pain, they just hit the security door blindly, and several zombies hit the security door at the same time.

Soon, the wire rope screwed on by Li Tian and Manzi began to loosen. As the sound of the zombies' impact became louder and louder, the older the zombies became larger, the other zombies were also attracted by this sound, and gradually gathered together and joined Hit the ranks of the security door.

"Kang Dang!"

After the last impact sounded, the whole yard became quiet, and the heartbeat of Li Tian and others immediately rose to their throats. Even Li Tian could hear the zombies slowly walking up the stairs.

"What should I do? Do you want to kill it? It would be better to kill it now than if so many of us are surrounded in this room!" Two-dimensional looked at Bai Jing in a panic and asked.

Bai Jing and Manzi looked at Li Tian at the same time. At this time, they believed in Li Tian's judgment.

"Do you have any experience in night combat in the wild? If you leave here, we will expose our body to the sight of zombies. If we break out, even if we can kill the zombies that besiege us, then other zombies will be too. Enclose it immediately. There are nearly a million zombies in this city. Can we finish killing? Listen to me! With me, I will definitely guarantee your safety." Li Tian rejected the two-dimensional proposal, firmly firm, said loudly.

Chapter 3213: Night kill

Li Tian is not afraid of being surrounded by these zombies in the room, but is worried that these people will fight each other after they go out. If that is the case, Li Tian will be alone with little skill and cannot completely protect them.

"Two-dimensional, you lock the anti-theft door first. Hang up the anti-theft chain. Barbarian, remove the door panels of all the doors and block all the furniture and sofas behind the door. For a while. Bai Jing, you and 2D will also go behind the door, no matter how the zombies hit the anti-theft door, just hold on!" Li Tian said.

Barbarian, 2D, and Bai Jing moved quickly, blocking the door panel and all the furniture in the room behind the security door.

"What about the window? If you remove all the door panels, then there will be an anti-theft net on the window!" Situ Ningbing said worriedly.

"It's okay, there's me here!" Li Tian had already taken out "Red Cut", "I'm going to leave this window and let these **** zombies attack the window in front! At that time, come and kill me. One, one pair, I will kill one pair!"

"Brother Tian, eldest sister and Wei Wei guard the door, what about the windows behind?" Manzi said with a machete in his hand, pointing to the window behind.

"It's okay. The rear window is at least three or four meters away from the ground. It should be okay. But just in case, you should guard the rear window. I only have one request. As long as the zombies attack, let them go wantonly. Bite. Once the zombies' claws and heads are deep in the well window, you immediately stomped them down!" Li Tian said solemnly.

"Understand, leave it to me!" Barbarian waved the machete in his hand and hid behind the wall next to the window behind.

Jing...very quiet... as if there were no zombies outside.

Looking at the sky outside through the light-transmitting window, the sky is full of stars and the stars are dotted. This situation is almost unimaginable before the end of the world.

But Li Tian missed the world before.

Suddenly, there was a slight clicking sound from the security door, and Bai Jing saw that the door handle of the security door turned slightly.

It seemed that the security door had not been opened, and the zombies outside suddenly began to hit the security door heavily.

"Boom!"

"Boom!"

The continuous impact sound made two-dimensional's face a little ugly, and the hand holding the military spike also began to tremble slightly.

Bai Jing raised the sniper rifle in his hand and faced the anti-theft door. As long as there was any accident, Bai Jing would certainly shoot without hesitation.

When Bai Jing raised the sniper rifle, the impact of the zombies outside the door suddenly stopped.

Then the whole door fell into silence again, but Li Tian and others understood that the zombie did not go away, but was looking for another attack point.

"Huh!" The zombies panted heavily and moved slowly in the corridor.

"Come on!" Li Tian bowed his body and said softly to Situ Ningbing behind him.

As soon as Li Tian's words fell, a zombie suddenly rushed out from the side and hit the anti-theft network, making a dull crash.

The sudden appearance of the zombies was as if they had deliberately hid behind the wall and suddenly jumped out to scare Li Tian, but his goal was achieved.

Li Tian's heart beat abruptly, and the "Red Zhan" in his hand flew out with a whistling sound, passed through the window, and pierced directly into the head of the zombie.

"Puff!" The black brain sprayed all over the ground, and the zombie was also directly impacted by the huge impact of "Red Slash" and retreated a few steps, hit the protective fence, and fell from the corridor on the second floor.

Li Tian waved his finger, "Red Zhan" swish! The ground flew back again.

Seeing the martial arts that Li Tian gradually retrieved, he quickly slashed and killed a zombie that had just appeared, and Situ Ningbing's heart was also quite settled.

This man is still trustworthy as always.

After Li Tian killed a zombie, he didn't stop, "Red Slash" flew out again.

At this time, the zombies outside the window were already densely surrounded. Those zombies stretched out their claws and kept shaking the anti-theft net. Some zombies even started to chew on the steel bars of the anti-theft net with their teeth.

Red lights flashed, "Red Slash" reaped the lives of these zombies. All the zombies were cut off by Li Tian's "Red Chop", and one of them kept falling from the corridor on the second floor like dumplings.

However, Li Tian controlled the "Red Slash" to kill fast, and the speed of the swarming zombies was not slow. Those zombies did not know what fear was. The zombies were repelled and killed by the "Red Slash", there would be two Only zombies filled up.

Li Tian had killed at least a dozen zombies, but the zombies didn't seem to decrease at all, instead they tended to increase gradually.

Although Situ Ningbing had a saber in his hand, it appeared to be much less powerful in the densely packed arms and claws of those zombies.

"Manzi, come and help! Two-dimensional go to the rear window to guard." Li Tian shouted to the manzi.

Barbarian had been longing for a long time. Hearing Li Tian's greeting, he waved the machete in his hand and chopped it towards the claws of the crazy zombie.

The barbarian is definitely a barbarian. He has no art at all when he chops up zombies.

But once the barbarian hacked, the effect was indeed quite remarkable. On the floor of the room, there were immediately more than a dozen zombie arms and a layer of minced meat.

While riding the barbarian slashing madly, Li Tian's "Red Slash" also accelerated the pace of harvesting these zombies.

A red light flashed, and the life of a zombie was about to be explained here.

After killing for nearly half an hour, the corpses of zombies were already piled up outside the windows, and the attacks of those zombies finally stopped.

Seeing the full of zombie corpses outside the window, a layer of broken meat and zombie limbs fell under the window of the room. The barbarian was a little collapsed, sitting directly on the ground, panting heavily.

"My God! It should be safe tonight, right?" The Barbarian asked particularly weakly.

Li Tian is not sure, but at this time, it seems that this place should be the safest.

"There is no problem. I will be responsible for the vigil tonight. You have a clean rest. After dawn, we are ready to enter the city. There will definitely be more zombies in Fancheng than here, and the level will be stronger than here!" Li Tian said.

In fact, there is no need for Li Tian to say that other people are already mentally prepared.

"Finally understand why Sunset Fortress will choose to abandon the existing city, but rebuild the city in the wilderness!" Bai Jing said with a breath.

"Crack"

"Crack"

I don't know if it was the zombies or the zombies biting these zombies from outside the window.

Chapter 3214: Murderous

Since returning to Earth, Li Tian didn't know how many zombies had been hunted. Many times when the corpses were hunted at night, when he watched the next morning, he had no idea what zombies were eaten clean.

"Crack"

"Crack"

The sound of biting and swallowing zombies outside the window has not stopped,

I don't know how long it took Li Tian to feel that there was a glimmer of light in front of him. Li Tian looked up and found that the window that was still surrounded by the corpses of the zombies just now became empty. The corpses of those zombies were all swallowed up.

At this moment, outside the window, a three-headed dog over the size of a small calf stared at Li Tian with six fiery red eyes.

"Damn, what kind of monster is this?" Li Tian was startled, "Hong Zhan" subconsciously held it in his hand.

"Huh!" With a sound, the three-headed bereaved dog directly ignored Li Tian and jumped directly from the corridor of the second-story building. With a bang, it seemed to have smashed a car, and then disappeared in the dark.

After the three-headed dog disappeared, the whole world seemed to be quiet, except for the heavy breathing of the barbarian in the room. Li Tian stood in front of the window and looked into the courtyard, and found that the zombies in the courtyard had disappeared.

Bai Jing turned over and found that Li Tian was still watching the night. He felt a little bit reluctant. He breathed, stood up, and came to Li Tian's side and said, "Go to bed! I'll watch the night!"

...

No more words this night.

The next day, when sunlight poured into the room, Li Tian and others all got up, removed the debris, and opened the security door. Only then did Li Tian know that the zombies last night were definitely not easy.

The heavy anti-theft door is covered with traces of zombies' claws everywhere, and the anti-theft net on the window has been bitten off by the zombies. If it weren't for those zombies to die too fast, it is very likely that the anti-theft net will be Those zombies broke through.

After simply eating something, Li Tian and others left the auto repair shop and continued to march towards the city of Fancheng.

After coming out of the repair yard, I walked a distance of about ten kilometers in a row, and I gradually felt the edge of the city before my eyes. There are hardly many vehicles on the spacious road, and the city feels empty.

Near the roadside, the former bus stop signs have been naturally eroded, the canopy has been shattered, and the steel light box billboards have been rusty.

After three years of natural forces invaded, the roads in Fancheng were full of weeds and groves. The plants in the green flower beds on both sides of the road began to grow wildly. The branches had already covered half of the road, and the rattan plants started to grow wild. The ground grows, and the recent low-rise buildings are entangled by these vines.

Going forward and walking along the highway, the number of cars parked on both sides has gradually decreased, but the buildings have become higher and higher. From time to time, Li Tian and the others could see wild beasts passing through the steel jungle.

"Those beasts don't seem to be infected by the zombie virus!" After seeing the beasts, Situ Ningbing said with some surprise.

Li Tian also noticed this detail. So far, all the zombies and poultry that Li Tian has encountered are carnivores, which means that the zombie viruses are likely to be spread through meat eating.

But this is Li Tian's guess after all, and the animal samples Li Tian encountered are still too few to convince himself very profitably.

Li Tian and the other five were cautiously walking towards the city, and at this moment, Li Tian and the others suddenly heard a series of fierce gunfire coming from the front.

Li Tian exchanged sight with Situ Ningbing and Bai Jing and nodded at the same time.

The sound of gunshots in the front indicates that there must be someone in front, and the intensity of gunshots is heard, there are at least seven or eight people in front. When Li Tian and the others came out, they had agreed to avoid contact with other humans as much as possible. Therefore, after hearing the gunshots, Li Tian and Situ Ningbing and others immediately chose to take a detour and continue to walk into the city.

However, Li Tian and the others are afraid of what they will encounter.

Li Tian and the others had avoided the gunshots, crossed a street, and walked in the opposite direction to the sound of the gun god, but when they passed an intersection, they still encountered other bounty hunters.

This cross road is not spacious, at most it is two-way four-lane roads, and the buildings on both sides of the street are also some dilapidated small buildings. And in the middle of this crossroad, it seems that at the end of the world, a traffic accident happened. Seven or eight cars collided in series, and the cars collided together.

And when Li Tian and others passed through this intersection, the gunman on the four-story restaurant next to the street fired a gun on Li Tian and others.

Fortunately, the gunman's marksmanship was not very good. The first shot did not hit anyone.

"Fuck, you can miss it so close! You are a pig!" Hidden upstairs was a gang of bounty hunters approved by Red Blood. They came to Fancheng to receive bounty under Red Blood's order. Hunter level test.

This time, the red blood is responsible for the level test of the bounty hunter, but the legendary third character of the red blood, Red Wolf, therefore, these red blood bounty hunters take this bounty hunter level test extremely important.

Maybe if you perform well, you will be favored by Scarlet Blood. From then on, you will enter Scarlet Blood and become a part of Scarlet Blood. When that happens, you won't talk about the fragrant and spicy ones, at least you don't need to live the life of licking blood on the knife. Right.

Besides, now that Scarlet Blood has just put the defeated Seven Swords into their pockets and the Tianshan area is in their pockets, it is when they need manpower, and when they don't show up at this time, wait.

Therefore, the captain of the bounty hunter was still quite dissatisfied with the performance of his companion just now.

"Where are the people? Where are they hiding? This time look at me!" The captain of the bounty hunter held the sniper rifle of the snipers in the team, searching for the target through the scope.

"Huh? That woman is not afraid of death?" The captain of the bounty hunter saw a slim, black leather-clad woman in the scope facing him with a sniper rifle in her hands.

"Plack" a sniper rifle gun sounded.

Before the bounty hunter captain had time to pull the trigger, his body fell softly. And the sniper saw that a black bullet hole appeared on the eyebrows of his captain, and the black blood plasma was flowing out of the bullet hole.

"So strong?" The sniper was shocked. He didn't expect that he just fired a shot and was guessed where he was hiding by the opponent, and he was successfully counterattacked by the opponent.

"I'm afraid these people in front of you are not hunting targets at all, but cunning hunters!" The bounty hunter was shocked and immediately made an accurate judgment.

"Hurry up!"

Chapter 3215: Killing like hemp (2)

"Quickly retreat? I'm afraid I can't go anymore!" Li Tian broke into the door. The barbarian held a machete and a two-dimensional military stab. The two followed Li Tian one by one.

Seeing that the three people who broke through the door turned out to be holding cold weapons, the few people in the red blood approved bounty hunter team hiding here to ambush all had a question in their hearts.

These people are not crazy, are they? Want to fight us with a gun if you take a knife?

"Fuck him!" One of the bounty hunters took up the Bayi automatic rifle in his hand and prepared to shoot at Li Tian and others.

"Huh" a red light flashed.

The man only felt his body heat, and he pressed the trigger before he came, and he felt as if he had been cut in half with a sharp knife.

"Puff!" A stream of blood rose from the bounty hunter's chest, and the blood sprayed so high that it even sprayed blood red on the roof.

"Tick"

"Tick"

The blood sprayed on the roof kept dripping, and the room was immediately quiet and abnormal.

Everyone was frightened by Li Tianshen's haunting hands. At this time, no one dared to act rashly.

Li Tian nodded with satisfaction, and the anger in his heart disappeared a little, and said, "I am very angry. We are both human beings. I don't ask that we can help each other, but at least don't use knives behind your back. Why avoid this embarrassment, I've avoided other bounty hunters, but you still attacked us."

"Fortunately, your sniper marksmanship is very stinky and did not harm us. Therefore, I am angry, but I don't want to kill. But some of you don't know how to promote, such as the gunman who was going to continue to kill us. Hands-on people."

"Now, I ask you a few questions, if your answers satisfy me, I will consider letting you go!"

Li Tian said calmly.

When Li Tian said this, behind Li Tian and the others, a gunman slowly descended from the stairs upstairs, raised his gun, and aimed at Li Tian and others.

"Haha, let's leave the boast to you and look back at the actual situation. Consider letting us go! It's really funny. In this apocalyptic world where the country dies and the legal system collapses, you are still so naive. You will let us go, but Have you ever considered whether we will let you go! Obediently throw away the weapons in your hand, and I will consider leaving you the whole body! Hahaha"

A man in front of Li Tian and the others laughed brazenly, but his smile stopped abruptly after only a few seconds.

A figure flashed out of the corridor below, and the bounty hunter who was standing behind Li Tian pointed at Li Tian and others with a gun. Before he realized the danger, he found that his neck had been cut by a sharp saber.

"Gooooo"

"Gudu" blood kept running down his neck.

"Kill!" Li Tian was really angry this time.

People in the troubled world are not old-fashioned. This is true and true. Even if Li Tian intends to give these people a chance and want to let them go, these people simply don't have this consciousness.

In that case, Li Tian did not hesitate, and would never give these people a second chance to harm themselves.

Fortunately, Li Tian left behind and let Situ Ningbing, who was born as a killer, check whether there were other people hiding here.

The barbarian action is savage, the two-dimensional action is spiritual, Li Tian's red cutting monster.

Especially Li Tian, at this time can definitely be described as killing people like hemp, Barbarian, Two-dimensional, and Situ Ningbing each beheaded their own targets, and Li Tian has controlled "Red Behead" to behead five or six people in a row.

Killing doesn't blink, and killing is like numb.

Seven or eight screams were heard continuously in the room, and the bounty hunters who were arrogantly not giving Li Tiansheng Road just now had turned into a pile of dead bodies.

"Clean the battlefield! Get out of here with speed!" Li Tian said to the barbarian.

Manzi followed Li Tian for some time, and Manzi was deeply influenced by Li Tian.

Mosquito legs are also meat. Although these corpses are worthless, the skins on these corpses have been cleaned by barbarians. Two-dimensional also put away these people with ammunition.

"Li, what do you want to say?" When the battle was accepted, Situ Ningbing walked to Li Tian and asked.

Li Tianknow nodded, and said: "I understand!"

Yes, Li Tian already understands. After more than a month of adaptation, Li Tian has gradually adapted to this apocalyptic earth.

Human nature can be kind, but kindness must not be abused, especially when deep in danger, this kindness may become the culprit for killing yourself.

One sentence I understand shows that Li Tian is infinitely helpless.

Yes, Li Tian is the lone star of Tiansha. Li Tian has seen too much life and death, but deep in Li Tian's heart, he is not a murderous madman, even if Li Tian stands on the top of the earth and becomes One of the most powerful men on earth, Li Tian will not kill innocent people at will.

But at this time, Li Tian had to make this decision.

If people do not offend me, I will not offend others. If anyone offends me, I will punish them.

kill!

kill!

kill!

In these last days, there is only one way to kill Li Tian to go.

Since then, after Li Tian returned to Earth, his mind began to gradually change.

...

Continuing to head towards the city of Fancheng, Li Tian was silent a lot, and the accompanying people clearly felt this change of Li Tian.

There is no ideological burden for the barbarian to kill. In the past three years, the barbarian has seen too many tragedies with his own eyes. Human beings become zombies and eat their dearest family members; and for some food or drinking water, it is entirely possible to stage these things encountered today.

"Brother Tian, what's wrong with you?" Manzi asked as he approached Li Tian.

"Barbarian, don't disturb me, I want to be quiet!" Li Tian needs to think carefully, he needs to think about how he should go in the future.

The end of the world has come, even if Li Tian retrieves Duanmuying and Ouyang Shiqing, they cannot be alone.

In this world of great controversy, what should Li Tian do?

"Who is Jingjing? Is she pretty?" Manzi asked Li Tian with a simple smile.

Li Tian looked at Manzi's honest smile, and suddenly understood, he laughed.

Yeah, who cares about him quietly? I just walk my way, follow my own way, no matter how others think of me, I am Li Tian or Li Tian.

I, Li Tian, once stood at the top of the world and became the most powerful man in this world; Li Tian also stood at the top in the alien world and became the most powerful man in the alien world; now I am Li Tian back again To this last-day earth, I can still go back to the top again.

Since this is my goal, no matter who he is or who stops me, I will kill him.

Chapter 3216: Death Note

Li Tian thought about it in his heart, the "Red Sword" in his hand, the nine-color corpse crystal in his arms actually followed Li Tian's heart.

Just figured out one thing, Li Tian didn't expect that he would resonate with "Red Slash" and Nine Color Corpse Crystal, and this time a little sympathy had actually improved Li Tian's strength.

"Go straight to the Rising Sun Building, walk straight, meet anyone, and any zombies we won't avoid!" Li Tian said to Bai Jing and Situ Ningbing.

"Brother Tian, why did you suddenly want to understand? I said earlier that we should do this! We can just do a good job when we meet zombies, are we still afraid that they won't succeed!" Li Tian's decision, the barbarian is most satisfied, Immediately showed a silly smile, said with a smile.

Situ Ningbing nodded without hesitation, and said, "Listen to you, but do you know the location of the Rising Sun Building?"

Bai Jing put a sniper rifle on his shoulder, and his whole person looked heroic and said: "We passed by a bookstore just now, and I don't know if there is a city map in it. Maybe we can go to that bookstore to check it out!"

Li Tian and the others returned and entered the bookstore.

The bookstore opened on the street, the door was locked from the inside, and some wooden boards were put on the outside. It can be seen that before the end of the world, the owner did some basic defenses.

After three years of wind and sun, the plank has become a bit decayed, and it was directly damaged by a few kicks by the barbarians.

With regard to the door lock, the barbarian was even more violent. He took out his pistol and fired three consecutive shots before breaking the lock.

With a sound of "wow," opened the security door, and just after the photo came in, some dust was flying in the room.

The bookstore area is not too small, about fifty to sixty square meters.

Entering the bookstore, there is a pile in the middle. The pile is filled with various magazines, including clothing magazines, literary magazines, etc., passing through the pile, there are rows of neat bookshelves.

The labels on the bookshelf are still very clear, and the outermost ones are naturally the most popular student review materials and student tool books.

"Li, do you smell a decadent smell?" Situ Ningbing asked warily.

Situ Ningbing said so, other people also smelled this smell more or less.

"Barbarian, two-dimensional, take a look around! Bai Jing, Ningbing you two hurry up to find the map, I am responsible for guarding at the door." Li Tian said to several people.

"Okay!" The few people immediately dispersed, and each began to execute according to Li Tian's orders.

After a while, Li Tian heard the shouts of Barbarian and Wei Wei. "My God, come and take a look!"

Following the voices of Barbarians and Two-dimensional, Li Tian and the others came between the last two rows of bookshelves. One row of these two rows of bookshelves was filled with comics, and the other row was the Internet.

And in the middle of the two rows of bookshelves lay a corpse, to be precise, a skeleton. This skeleton was also covered with a few books, and there were several wine bottles and a medicine bottle.

"It committed suicide by taking sleeping pills!" Situ Ningbing said lightly when she saw the medicine bottle.

"Why commit suicide?" the barbarian asked puzzled.

"There is also a diary here!" Two-dimensional picked up a notebook that fell on the ground, patted off the dust on it and handed it to Li Tian.

Opening the diary, Li Tian looked at the life of the deceased in the diary at will.

The front of the diary was recorded almost every day, and it was written that the deceased had a crush on a girl's emotional entanglement. Li Tian did not read the diary carefully.

The last few pages of the diary recorded events after the end of the world.

"She's dead. Just die in front of me, watching the walking corpses tear her into pieces and be eaten in front of me, but I can do nothing! I really don't live a man..."

"Another day has passed! The time of this day has been so slow. Her smiles and frowns reverberated in my mind. I think she must be blaming my cowardice. I am about to collapse. I don't know how long I can hold on..."

"It's almost a week. I've been hiding in this place for a whole week. The food has been eaten, only wine. I feel like I'm dying. Maybe it's the best choice to find her in that world..."

"Last night, I slept very unsteadily. Those walking corpses seemed to have found them and kept hitting the security door. I can't hold on anymore, I decided, I'm going to find her, in that world, we can definitely live happily Together..."

After reading the diary, Li Tian's heart is indeed not feeling good, and then the barbarian's question just now, said: "Not everyone is as heartless as you. When life has undergone sudden changes, many people have limited psychological endurance. Yu By the end of the world this sudden change, there are not a few people who choose to take this path."

With some sad expressions on Bai Jing's face, he said, "At least he is happy. He can die in his favorite place. Before he dies, he can drink his favorite wine, read his favorite books, and die without a trace of pain. , This is also a relief!"

"It's a pity! Have you found the map?" Li Tian asked.

Situ Ningbing and Bai Jing nodded at the same time. Situ Ningbing took out a map from his backpack and said, "This is the map of Fancheng. Although it is a bit old, it is still usable! We have just looked at it and found the Xuri Building. It is located in the center of Fan City, almost twenty miles away from us."

Twenty miles away, if you take a taxi before the end of the world, it will be easy. But now is the end of the world, if you want to reach the Rising Sun Building, you can only cross it on foot.

"Let's make a plan. The distance of twenty miles is not too close, especially to pass through the city center where zombies can appear at any time. I plan to spend two days, step by step, enter the city center, and then complete the two Personal task. After the task is lagging behind, we will leave Fancheng as quickly as possible in one day!" Li Tian said.

Manzi poked Li Tian on the shoulder, and said embarrassingly: "Brother Tian, can I get some books from this bookstore?"

"You read a book? Study is a good thing, take it if you want!" Li Tian nodded and said.

As soon as Li Tianhua finished speaking, he regretted it a little, and saw Manzi reach out and swept a row of online physical books on the shelf directly into his backpack.

There was a simple smile on Manzi's face, and he said: "There are so many unhappy in this world. It's important to see how self-entertaining is happy!"

Seeing Manzi's innocent smile, Li Tianzhen wanted to scold him for an idiot, but he couldn't say that. Yes, there are so many unhappy things in this world, what about making the barbarian happy.

"Da da da!" Suddenly a series of gunshots sounded, and the glass door of the bookstore was shattered by bullets and fell to the ground, and the pages of the book were beaten all over the sky.

Chapter 3217: Slaughter

Outside the door of the bookstore, seven or eight bounty hunters surrounded the entrance of the bookstore, each holding a gun, and the bullets kept shooting inside the bookstore as if they were free of money.

After a lock of bullets, there was still no sound in the bookstore.

These bounty hunters did not dare to enter the bookstore rashly. One of the little bosses, Zhang Kui, stared at the bookstore for a long time, but he couldn't see why, and shouted to the thin man who was hiding behind a car next to her. : "Monkey, did you see them entering the bookstore? "

The man called the monkey, thin and black, with a dirty face, said with certainty: "Yes, I saw them walk into the bookstore with my own eyes. If I hadn't gone out to pee just now, I would definitely be with Zhang. Wu and the others ended up in the same way!"

Speaking of Zhang Wu and the others, Zhang Kui's anger immediately rose.

Zhang Wu is Zhang Kui's cousin. The two entered Scarlet Blood City together and became a bounty hunter recognized by Scarlet Blood. Later, they joined the Tiger Bounty Hunter organization, and the two also served as team leaders.

This time they came to Fancheng, the first was to participate in the bounty hunter level test, and the second was to ambush other bounty hunters who entered Fancheng in accordance with the requirements of Scarlet Blood, weakening the strength of the Sunset Fortress from the side.

After arriving in Fancheng, Zhang Wu led a team and waited for the rabbits to ambush nearby, while Zhang Kui led a team to fight guerrillas and ambushes in other directions.

It wasn't that Zhang Kui and the others had just destroyed a team of bounty hunters. When they returned to Zhang Wu's side, they found that Zhang Wu's team had all been destroyed except the monkey.

Moreover, Zhang Wu's team, except for Zhang Wu's death, which was considered elegant, the deaths of the other people were particularly ugly. They were cut or stomped with cold weapons or throats.

Seeing this situation, Zhang Kui analyzed that Zhang Wu and the others who fought ambushes were very strong in close combat.

Zhang Kui's people followed the monkey to find the culprit, and shot without hesitation.

Fortunately, Li Tian and the others were behind the innermost bookshelf of the bookstore. Otherwise, Li Tian and the others might have been shot to death directly. It was also Li Tian's negligence. He was originally responsible for guarding, but because of Barbarians and Two-Dimensional, he also told him to go to the inside.

"Monkey, you go in and see if they are dead!" Zhang Kui has no affection for monkeys at all.

Zhang Kui's own brother Zhang Wu and others are dead, and only this monkey is still alive, Zhang Kui felt that the monkey should be buried with his brother.

The monkey was a little embarrassed, but seeing Zhang Kui's murderous eyes, he could only bite the bullet and walk into the bookstore with a gun.

Before the "DaDa" monkey entered the bookstore, he fired two shots, trying to test whether the person hiding in the bookstore was still alive.

Quietly in the bookstore, the monkey's body hid behind the wall, then stretched out his head and glanced at the bookstore, and then quickly retracted.

The bookstore has been broken into a mess, but there are not many messy footprints on the floor of any store. The footprints can prove that those people actually entered the bookstore.

The monkey let out a sigh, holding a gun, and tiptoeing to the bookstore.

"Plap!" A sniper rifle shot was heard in the bookstore.

The gunshot sounded only once, but the monkey fell backward and fell to the ground hard. But in the center of the monkey's eyebrows, a black hole appeared.

Seeing the monkey dying straight in front of the bookstore, Zhang Kui was even more angry.

Already surrounded the opponent in the bookstore, there is no way to take them, and his own person actually died. Zhang Kui said furiously, "Fuck me! Hit me desperately!"

"Hit! Fight me hard!" Zhang Kui heard a man's voice behind him, as if imitating Zhang Kui's voice.

Zhang Kui shook his head and turned to look at the man behind him.

Li Tianzheng looked at Zhang Kui with a sneer, "Hong Zhan" swimming around Li Tian's body like a swimming fish.

This man is a man or a ghost. Why did he suddenly appear behind him? Zhang Kui felt a little hairy. Seeing that there was no one else behind this man, Zhang Kui felt calm.

With a "Hula", he pointed his gun at Li Tian and cursed: "I don't care if you are a human or a ghost, it's best to get away from me, otherwise I will let your head bloom!"

"Ah!" As soon as Zhang Kui's voice fell, he heard a scream not far away, and Zhang Kui knew that the gunman who was hiding on the right was dead!

"Ah!" There was another scream of horror. This time the sound came from the left. Needless to say, the person hiding on the left must have died as well.

"How could this be?" Zhang Kui couldn't believe his eyes. The monkey said clearly. Those people obviously hid in the bookstore. And the sniper gunshots from the bookstore just now were accurate!

At this time, from the front door of the bookstore, a burly man with a machete on his shoulders and a woman wearing a black leather tights and holding an 85 sniper rifle came out.

"Brother God! What are you waiting for? Just kill!" The barbarian said with a smile.

"I'm doing it!" Hearing the manzi's shout, Zhang Kui knew that he was inevitable, so he immediately picked up the gun, yelled and shouted, "Brothers, fight with them!"

After Zhang Kui yelled this sentence, he knew that he was so wrong and stupid, because after he finished yelling, what he got in exchange was not a response from his brothers, but a scream from his brothers.

"what!"

"what!"

After two screams, Wei Wei and Situ Ningbing walked out of the dark.

Li Tian's "Red Zhan" flashed a red light and directly split the weapon in Zhang Kui's hand into two.

Zhang Kui looked at the two halves of the gun in his hand dumbfounded, and he couldn't believe his eyes. This is a ***** gun, is this a water gun? Is it a wooden gun? How can I break it?

Before Zhang Kui's head turned around, he saw the shirt on his chest, after the red light just passed, with a "click" and listed a huge hole.

Zhang Kui lowered his head and glanced at his chest.

"It's so white, but why does such a tender and white skin have a huge wound?" Zhang Kui wanted to plug the wound with his hands, and wanted to stop the blood from the wound, but all fighting was futile, and the blood flowed more and more. The faster, it started to spray out in the end.

"Bah"

It was so warm, Zhang Kui was sprayed with blood, and wanted to look up again at the magical and powerful man in front of him, but he was already unable to raise his head, Zhang Kui knelt to the ground with a thump, and then fell gently to the ground.

"Idiot! I thought you could catch turtles in the urn if you surrounded us in a bookstore? Haha, fortunately, Brother Tian has a soldier in his hand. Opening a door on the cement wall is as easy as drawing a door on the mud!" The barbarian smiled silly. Said.

With a black line on Li Tian's face, he cursed at the barbarian in his heart: "You are a turtle, and your whole family is a turtle! You brainless grandson!"

Chapter 3218: Picked up another woman (1)

The appearance of tiger bounty hunters is just a small episode. In Li Tian's words, these bounty hunters are here to deliver milk.

It was these bounty hunters who gave milk, Li Tian had already harvested a lot of corpse crystals before he entered the urban area of Fancheng.

Food, drinking water and guns and bullets have all been effectively supplemented.

This kind of get-for-free, once made Manzi have the idea of doing a few votes, such as murder and surpassing goods, but fortunately, Li Tianyi rejected it.

Continuing to walk in Fancheng, the number of zombies on this road has gradually increased.

Li Tian found that in the city, even in the daytime, zombies would float on the streets, especially the streets with sunlight behind them. The number of these zombies was obviously more than that of Xiangyang streets.

Because of the gradual increase in zombies, Li Tian and the others also slowed down. When they encountered the zombies who were alone, Li Tian gave it to Barbarian and Two-dimensional to clean up.

After rigorous training, the physical fitness of Barbarian and Two-dimensional has been greatly improved. After Two-dimensional followed Situ Ningbing, his whole person became more spiritual, and he was fascinating. Sometimes even if he suddenly walked behind you, unless she spoke, you wouldn't notice someone behind him.

In Situ Ningbing's words, 2D is a natural killer.

Manzi, a rude man, after Li Tian's training, his head is still not very bright, but his grasp of the battle situation and the grasp of opportunities have been greatly improved.

Now the barbarian alone can easily face a second-level zombie without letting go.

The only thing that dissatisfied the barbarian was the weapon in his hand.

The weight of the previous guillotine blade is good, but the sharpness is not enough, especially after continuous cutting, it will become scrap iron. And the sharpness of the machete in his hand is not bad, but the weight is far from the barbarian's requirements.

Waiting for the barbarian to hunt down a second-level zombie savagely and violently, and after taking out the corpse crystal, Li Tian and others continued on the road.

"Help!"

"Help! Who will help me!"

Not long after Li Tian and others continued on the road, a woman panicked and screamed for help from the street in front.

Li Tian, Situ Ningbing, Bai Jing and others all heard this woman's cry for help, but no one spoke first, because in this city where zombies are rampant, how could there be a woman's cry for help?

This feeling is just like hearing Red Boy's cry for help in the wilderness when Elder Tang traveled west, it feels incredible.

"Help!"

"Fate!"

The voice for help was getting closer and closer, listening to the voice to analyze, the woman was running towards Li Tian and others.

"Brother Tian, it seems someone is asking for help!" Manzi was taken aback and said.

"Yes? Did you get it wrong?" Li Tian asked stupidly.

Li Tian really doesn't want to worry about this kind of meddling. Besides, women who can appear in this city will basically have very strong combat effectiveness. Self-preservation should be sufficient. Even if there is no self-preservation ability, they should be able to escape easily. Here.

That idiot woman would come to Fancheng's zombie-ridden roads to talk about love.

Li Tian took out the map, pointed at the map, and said, "Let me see how the road to the Rising Sun Building should go. Well, follow Dongshun North Street and continue north, that's it! You follow me. speed!"

After speaking, Li Tian avoided the screaming voice of the woman calling for help and continued walking.

"Brother Tian! How can you be so cold? If you don't save, I will save!" Barbarian's figure flashed, Hengdao immediately appeared in front of Li Tian and said.

Li Tian shook his head helplessly and said: "Barbarian, your brother, I am not a savior, and it is impossible to save everyone from the sea of suffering. My first task is to ensure the safety of you few, and the second is to complete the task. As for the others, they His life and death have nothing to do with us for the time being. I will not put so many of you in danger just because of impulse!"

Manzi felt that what Li Tian said was reasonable, but Manzi quickly shook his head and said, "No. When Brother Tian appeared in front of us, you could completely leave, but you didn't have Brother Tian. Because You still have a kind heart deep in your heart. Without you, I, Two-Dimensional, Li Dan, and Big Sister Bai Jing, I'm afraid I'm already dead! So I don't believe you would be so indifferent."

"Furthermore, Brother Tian, you have always been an idol in my heart. I dream of becoming as strong as Brother Tian and protect those weak people! Whether you go or not, my barbarian must ask to save that woman today!"

After speaking, the barbarian mentioned the machete and ran quickly in the direction of the woman's cry for help.

Two-dimensional thought for a while, and rushed over with Manzi.

Two-dimensional feels that Li Tian's words are more reasonable, but she will not leave the barbarian, because the barbarian and she are both members of the world, and she can't watch the barbarian in danger.

Seeing two-dimensional rushing out with the barbarian, Bai Jing also chased after carrying a sniper rifle.

Situ Ningbing looked at Li Tian with a helpless smile, and ran after Bai Jing.

"Okay! I knew this would be the result, the hero should let me be!" Li Tian shook his head helplessly, and had no choice but to follow Situ Ningbing.

The five were fast, galloping forward on the wide road.

Soon, Li Tian caught up with the barbarian.

When Li Tian caught up with the barbarian, the figure of the woman calling for help appeared in the corner of the street. This is a woman in a bright red dress with long black and bright hair. The woman's long hair fluttered back as she ran, and what attracted the attention was the murder weapon on the woman's chest. As the woman ran, this peerless weapon was turbulent, jumping up and down cheerfully. The two white and slender legs may be due to a desperate escape. One shoe on the woman's foot was missing, and only one white high heel was left.

This is a beautiful woman, almost close to Li Tian in height, and her figure is no less than that of Bai Jing, and she kills Situ Ningbing and Bai Jing, let alone two-dimensional.

And behind the woman, there were more than a dozen zombies.

The skin of these zombies is almost non-rot, and the speed of these zombies is actually quite fast. Almost every time these zombies stretch out their paws, they can detect women, but this woman is always in the middle of her hair. Escaped under the catch of the zombies.

"Brother Tian, save her!" After seeing the woman, Manzi immediately waved the machete in his hand and rushed up to the zombie.

Two-dimensional and Bai Jing were in no particular order, and they shot at the zombies.

Situ Ningbing suddenly stopped beside Li Tian and said, "This woman is weird! Be careful soon!"

Chapter 3219: Picked up another woman (2)

It's not just weird, this woman is a monster! In a city where zombies are rampant, who gave you the courage to come here in a dress and high heels to provoke zombies?

It's a pity that the idiot Manzi couldn't tell.

"Kill!" Li Tian rushed forward without thinking too much.

"Pop!" The gunshots sounded, Bai Jing's sniper rifle fired, and the head of the zombie that rushed to the front bloomed and fell backward.

The barbarian pulled the woman behind him, jumped out, and severely chopped down the head of a zombie. However, Barbarian's thoughts are good, but this zombie is not an ordinary thing. It jumped directly back and easily escaped from Barbarian's heavy knife. After that, the zombie had stretched out its claws and grabbed it at Barbarian's head.

The two-dimensional attack has no tricks at all. When the zombie stretched out its claws to grab the barbarian's head, the two-dimensional appeared behind the zombie in a magical manner, and threw the zombie out with a back fall. .

This zombie is very powerful, but the two-dimensional has no intention to give in. After a back fall, he directly rides on the zombie's back, and the military stab in his hand is forcefully inserted into the zombie's head.

"puff!"

Black brains spurted out, and the two-dimensional had already avoided, and the next zombie attacked.

The barbarian was unaffected by the impact just now, the tiger with the machete dance in his hand was alive, unable to directly kill the zombie, so he smashed the zombie's claws.

"Hey!" There was another sound. Bai Jing's sniper rifle was now using more and more sophisticated skills, and it hardly needed much aiming to give a deadly blow to the zombie.

Only Barbarian, Wei Wei and Bai Jing had already dragged the zombies.

After Situ Ningbing rushed into the battle, the scale of victory immediately tilted towards the barbarian and others. Situ Ningbing's movements are more elegant, every time she takes a shot, a zombie can be pinned around her, and with a little bit of tactics, the zombies will be easily hunted by Situ Ningbing.

Li Tian charged up, but Li Tian didn't make a move.

Now there are the meat shield of Barbarian, the two assassins of Situ Ningbing and Two-dimensional, and the archer of Bai Jing. This combination is already perfect. Li Tian only needs to check the missing parts to avoid accidents.

Seeing the performance of Barbarian, Two-dimensional and Situ Ningbing, the rescued woman had a gleam of light in her eyes and her tongue involuntarily licked her lips.

But when the woman put out her tongue and licked her lips, the woman saw Li Tian staring at her.

The woman immediately made a horrified expression, not daring to look at the cruel appearance of those zombies being hacked to death by barbarians and others.

"Pretend, continue to pretend to me!" When Li Tian saw this woman, he felt a strong sense of disgust in his heart. And when the woman licked her lips with her tongue just now, Li Tian could even feel the powerful murderous aura emanating from this woman.

This woman is definitely not simple, but since she chooses to pretend, Li Tian will not easily expose it.

A dozen zombies were completely hunted in ten minutes.

"Hahaha, I didn't expect my barbarians to have such a strong combat power. We can kill these zombies without the help of Brother Tian. It seems that our special training this month has not been in vain." The barbarians deliberately took the corpse of the zombie. He pulled off a rag, walked to the woman, wiped the machete, and said with a hearty smile.

"My name is Sumary, thank you for saving me, my brave fighter" Sumary stood up, but slipped under her feet and fell softly into the arms of the barbarian.

The barbarian reached out his hand and hugged Su Marie, his cheeks flushed, and he stammered: "Don't dare to be...Don't dare to be, haha, haha"

"You must be bounty hunters too. Actually, I am also a bounty hunter. This is my bounty hunter badge." When Sumary said, she deliberately lifted her full left chest with one hand and shook it on her. The bounty hunter badge on the left chest.

The barbarian stared at Su Marie's plump ***** involuntarily and swallowed.

Sumari smiled insidiously, as if she hadn't seen the barbarian wolf at all, and continued: "I am a bounty hunter level one bounty hunter under the Fortress of Sunset. This time my team and I came to Fancheng to hunt and kill. Red wolf. But because we were not careful, when we were hunting a level 5 zombie, we stabbed a hornet's nest and hit a zombie lair. The zombie leader in that zombie lair seemed to be a level 6 zombie. As a result, we were caught Surrounded by many zombies. I desperately escaped."

"Brother Tian, it turns out that she is also a bounty hunter in the Sunset Fortress. Should we help her?" The barbarians were reluctant to let Somali go, and said with his arms around him.

"Barbarian, you hug this girl like this, is that okay?" Bai Jing seemed to have found something and reminded.

Barbarian blushed and was too embarrassed to hide it, so he could only let Sumai go.

"Ah! It hurts! I must have twisted my ankle!" As soon as the Barbarian let go of Sumari, Su Marie immediately let out a scream, and fell into the barbarian's arms again, showing a pitiful look.

"Brother Tian, she twisted her ankle!" Manzi said with a blush.

"I heard it!" Li Tian felt more and more that there was something wrong with Su Marie, but the sixth-level zombies mentioned by Su Marie just made Li Tian feel a little eager.

Sumari was hugged by the barbarians, and she didn't mean to be ashamed, and continued: "Since you are also bounty hunters, can I hire you? Although we were washed away by the zombies, I believe my teammates are still alive. I have to. Go to Fan City Center to find my teammate. I can pay double the price."

Speaking, Su Marie stretched her hand into the deep ditch between the full peaks, and pulled out two third-level corpse crystals from the cleavage.

Seeing the third-level corpse crystal, Manzi, 2D, and Bai Jing couldn't help but feel a little moved.

"Brother Tian, it's on the way! Anyway, we have to look for the sixth-level zombies, so we will help Sumai find her teammates, you see how pitiful she is!" Manzi said.

Situ Ningbing came over, took two third-level corpse crystals in his hands, and nodded at Li Tian.

Seeing Situ Bingning's performance, Li Tian understood that Situ Ningbing must have wanted to see what tricks this woman was doing.

The tricks full of loopholes and the clumsy meat-selling performances are probably only those who have no brains like Manzi, and two-dimensional and Bai Jing who have not experienced too many things can easily be fooled.

On a building at least four to five hundred meters away from Li Tian and others, Tang Gong put away the telescope and smiled at the people around him: "As soon as Su Marie shot, I knew I couldn't run! There is nothing in this world. Erotic man. Brothers, ready to avenge Huerle!"

Chapter 3220: Picked up another woman (3)

Needless to say, this Sumari is a bounty hunter who is near the city, and it is naturally good to be a bounty hunter who is near the sunset fortress. But compared to Summarie's strength, her appearance is more, especially her pair of big breasts, which can make her a rare rival in the sunset fortress.

This time, soldiers approached the city and dispatched hundreds of bounty hunters above the second level to Fancheng, with the main purpose of hunting the red wolf. For this reason, the soldiers approached the city with full confidence. They didn't believe that hundreds of people were dispatched, and they couldn't get a Red Wolf.

And to deal with Li Tian, it was a smooth move when the soldiers approached the city.

Sumari is pretty long, especially her body of nearly 1.8 meters, she has a pair of **** that dominate the crowd. But in Li Tian's eyes, this woman was uncoordinated, especially this tacky, which made Li Tian very disgusted.

But the Barbarian was very useful. As soon as Su Marie said that her foot was injured, the Barbarian volunteered to say that she was willing to carry her on his back.

Manzi's hospitality made Bai Jing and Wei Wei feel a little uncomfortable.

"Thank you, Brother Manzi! If it weren't for you to save me, I must have become food for zombies! How do you want me to thank you? Or, let me give you a kiss!" Su Marie crawled on the back of Manzi, Deliberately pressed the various meat **** of the chain on her chest against the barbarian's back, and she kept twisting her body when she spoke, using this to tease the barbarian.

"This... this is not good!" Manzi said with embarrassment, his face flushed to the root of his neck.

Su Marie chuckled immediately, tapped the barbarian's back lightly with her powder fist, and said with a smile: "The beauty of thinking, tease you!"

Li Tian was about to throw up.

"Su Marie, where did you fall into the siege of zombies? This is the outskirts of Fancheng. In theory, there should be no level five or six zombies." Situ Ningbing said.

There was a trace of trepidation on Su Marie's face, but Su Marie quickly recovered her calm. After thinking about it, she shook her head and said, "It's probably in front, no more than two kilometers from here. The zombie suddenly emerged from the building. It rushed out. I had never seen so many zombies. At that time, I was panicked and just ran away. In the process of escaping, I lost a shoe and even all the weapons on my body. Now I don't know the specifics. Location."

"It doesn't matter, we have time, let's find it slowly. It's not early today, or let's find a place to hide tonight. Lest we are in a mess like last night." Situ Ningbing revealed a sweet expression. Smile and say with a smile.

"Okay, then!" Su Marie did not raise an objection, nodded in agreement.

"Two-dimensional, Ningbing, you two will go ahead and check to see if there is a place nearby suitable for us to spend tonight." Li Tian ordered.

When saying this, Li Tian cast a look at Situ Ningbing.

Situ Ningbing was smart and immediately understood Li Tian's thoughts.

About ten minutes later, 2D returned first, and said to Li Tian, "Brother Tian, there is an apartment hotel on the small building in front. Sister Ningbing means that we are here tonight. The apartment hotel is resting. Now sister Ningbing is cleaning the zombies in the lobby and the first floor."

"Okay! Let's go to that apartment hotel." Li Tian came out now, thinking more about safety.

When he arrived at the apartment hotel, Situ Ningbing had hunted down the three zombies in the lobby and was picking up the corpse crystals of the zombies. Li Tian jumped into the front desk of the apartment hotel and found a master key from the key box at the front desk.

This small building has four floors in total, and the hall occupies only a small door face on the first floor. As the entire building has been powered off, Li Tian and others can only go up through the stairs.

Li Tian and others did not stop on the second and third floors, but went straight to the fourth floor.

There is a row of guest rooms on the left and right sides of the fourth floor. The doors of these guest rooms are all steel security doors. This is quite reassuring for Li Tian.

But at this time, two zombies were still wandering in the corridor.

Two-dimensional and Situ Ningbing, one by one, cleanly wiped out the two zombies.

Li Tian used the master key to open the door of the first guest room. As soon as the door was opened, a decayed smell inside immediately floated out. Two-dimensional went in and looked around, shook his head and came back, saying, "There is still on the bed inside. The two dead bodies have become skeletons! But the entire room has been contaminated."

Helpless, Li Tian could only continue to move forward.

The door of the second guest room was concealed. Li Tian opened the door to enter. The sunlight was spilling on the ground through the window. Li Tian saw a thick layer of dust falling in the room. The floor, furniture, and bed were all covered. Yes.

Fortunately, there was no dead body in this room. Li Tian walked over, opened the window to let in the air, and said to the person behind him: "I will live with the barbarians in this room tonight! It is the closest to the stairs, in case there is anything The wind is blowing, so I can protect everyone!"

The others had no objection, but the Manzi grumbled and said, "Fancheng is so dangerous, I suggest that we all live together delicately. I just saw that there are suites on the hotel lobby rate card. One suite is enough for us to live in. !"

Li Tian was dizzy. Who said that a barbarian had a simple mind with well-developed limbs? You see, Li Tian didn't even notice the information about the suite on the price tag, but Manzi found it carefully.

"It's better for everyone to be together, and to take care of each other!" Sumary immediately agreed.

According to Li Tian's idea, Li Tian had a room with Manzi, Situ Ningbing, and Bai Jing had a room, and then two-dimension would share a room with Sumary. Li Tian wanted to see what Sumari could do. Tricks.

But since Su Marie and Barbarian had the same idea, Li Tian saw that other people also meant the same, so he did not object.

The suites of this apartment hotel are in the innermost part of the corridor. There is a suite on the left and right sides, and the fire stairs are next to it. However, the fire doors are also open at this time. It can be imagined that when the end-time crisis broke out, some of the customers of this hotel were Escaped through the fire escape.

The suite doors on the left and right are open, and it can be seen from the thick layer of dust on the ground that there are no zombies on this floor.

The suite still maintains the scene before the end of the world. On the coffee table in the living room, there are many wine bottles and bags of snacks. The middle one has been petrified. There are some candles on the cake. The fruit on the surrounding fruit plate is already turned into dried fruit. There were empty wine bottles, cigarette butts, and broken ribbons everywhere on the ground. It can be guessed that this house should be holding a birthday party.

All the curtains in the room are pulled, but the windows are open. There is no electricity in the room and the light is dim, but there is no strong smell of decay.

"I will live here tonight! Two-dimensional, you are responsible for taking care of Su Marie, and Situ Ningbing and Bai Jing are responsible for cleaning up the zombies in the apartment hotel! Barbarian, follow me, let's go and see nearby." Li Tian Said.
