

A Killer 3221

Chapter 3221: Misunderstood her?

"Brother Tian, what are you looking for? There is nothing here except zombies!" Barbarian cut down a low-level zombie and asked.

At this time, Li Tian and Manzi were standing in a residential building diagonally opposite the apartment hotel. Just now, Manzi followed Li Tian and scanned several nearby residential areas, except for killing some zombies lurking in the residential buildings. , And found no other.

From the first glance Li Tian saw Su Marie, he felt that Su Marie was definitely not easy, but the barbarian was fascinated by Su Marie. Li Tian could only do his best to be careful and kill all the dangers. In the cradle.

After sweeping a circle of residential buildings around the apartment hotel, Li Tian found nothing unusual.

"Have you misunderstood Su Marie?" Li Tian murmured a bit in his heart.

"Impossible, this feeling of mine should not be wrong. As long as you are more careful during these two days, Sumarey will definitely show her feet!" Li Tian thought in his heart.

Back at the apartment hotel, the zombies wandering in the hotel had been cleaned up by Situ Ningbing and Bai Jing. Bai Jing also found a few mortise locks. After Li Tian and Manzi came back, they locked the glass door of the hotel with mortise locks.

Going upstairs and returning to the suite, they found that the suite had been cleaned by Two-dimensional and Sumari, at least it was not as messy as it was when they first arrived.

Pushing the door in, Li Tian saw that Su Marie was actually wrapped in a bath towel, her hair was wet, and she was sitting on the sofa with her knees bent to fix her hair.

Seeing Li Tian, Manzi and others returning, Su Marie smiled slightly, greeted her happily, and then began to tidy up her hair on her own.

Sumée is tall and has a full chest. A small bath towel barely covers the important parts of her body. The chest is white. When she sits on the sofa with her knees bent, her two long smooth legs can be seen in full view. You can see the spring light under the bath towel.

One of the two-dimensional clothes sits solemnly on the sofa next to Sumary. Although the two-dimensional performance is very cold, but in this way, the two-dimensional is better like an undeveloped child, and angry.

Two-dimensional and Sumarie seem to have gone to two extremes, one is full of femininity, and the other is not feminine.

And two-dimensional sitting next to Sumary, the only role played is to support Sumary.

Barbarian directly ignored the existence of two dimensions. Seeing the beauty in the room, even his breathing became heavy, his cheeks flushed, and he stood in front of the door at a loss.

When a plump woman like Su Marie performed her stunts, even Li Tian's errand was lost, let alone a virgin man like a barbarian.

"Does it look good?" Bai Jing asked Manzi a bit displeasedly on the head.

Manzi showed a simple smile, held back for a long time, and squeezed out two words: "Good-looking!"

Li Tian immediately pretended to be serious and moved closer to Situ Ningbing. At this time, policy mistakes must not be made, or else it will be really fishy and fishy.

"Barbarian, look at your prominence, don't we have any good-looking women in our team? Look at the two-dimensional... Er two-dimensional does not count, look at Xinyan, and your eldest sister, Bai Jing, their figures are also good Well!" Li Tianyi reprimanded the Manzi righteously.

Barbarian moved his gaze to the two-dimensional body with difficulty, and quickly moved it back, shook his head slightly.

Xinyan is not here, and the eldest sister, Bai Jing, even if he gives Manzi the courage, he dare not look with his current eyes.

Two-dimensional's face was a little unnatural, and he nodded and looked at the Xiaolongbao on his chest. Without a word, he walked into a bedroom silently.

Bai Jing glared at Li Tian, and followed Wei Wei into the bedroom. Situ Ningbing pinched Li Tian secretly, but could not express his dissatisfaction with Li Tian.

Li Tian didn't take it to heart.

Sumary was embarrassed and said softly: "There is still water in the pipe in this hotel, so I took a cold shower. I didn't expect you to come back so soon!"

"It's okay, you go on, do what you want, haha, brother Tian Tian and I don't exist." Manzi said shamelessly with a smirk on his face.

"Damn, I thought I was shameless, and I didn't expect that the barbarian boy was even more shameless. It turned out that under the simple appearance, there was such a shameless heart hidden. I also blame me for being too naive, and I was actually taken by the barbarian appearance. I was deceived. However, with such a beautiful enjoyment, why not do it?" Li Tian thought in his heart.

Although Barbarians said so, Sumari was embarrassed to stay.

After seeing the performance of the Barbarian, Su Marie knew in her heart that her goal had been achieved. In this team, Li Tian and Situ Ningbing were the most defensive against her, but it did not matter. As long as the Barbarian was taken down, Su Marie believed that sooner or later she would let Li Tian and others relax their vigilance.

This suite is a luxurious suite with two rooms and one living room. Two-dimensional, Baijing, and Situ Ningbing occupies one room, and Su Marie occupies one room. Li Tian and Manzi are responsible for protecting everyone, so naturally they live in the living room.

Seeing that Su Marie had also returned to his room, the barbarian lifted the shoe in his hand and said to Li Tian: "Brother God, I forgot to give the shoe I took from the store to Su Marie. I will send it to her. "

Seeing the appearance of Manzi Saobao, Li Tian nodded helplessly.

After Barbarian knocked on the door and entered Su Marie's room, Li Tian also entered the room of Bai Jing and others.

In Bai Jing's room, 2D was wiping the military thorn in her hand. Bai Jing set up a sniper rifle on the bedroom window, and was slowly scanning the opposite building with a scope.

Seeing Li Tian coming in, Situ Ningbing immediately asked, "How is it? Is there anything unusual?"

Li Tian shook his head and said, "I haven't found it yet!"

"Have we really misunderstood her?" Bai Jing asked uncertainly.

"Probably not. Think about it in another way. Even if your strength is very strong, would you come to Fancheng in such a coquettish dress?" Li Tian asked.

Bai Jing was taken aback. The answer in her heart was that if Li Tian was with her, and only Li Tian and Bai Jing were there, then she would definitely be.

"No!" Bai Jing said.

"That's it! So I said this woman is not easy. Such a woman suddenly appeared in our team. I can smell the conspiracy!" Li Tian said.

"It's a pity that Brother Manzi was fascinated by that woman!" Two-dimensional general stabbed across his chest, touched the stabbing lightly with his fingers, and said coldly: "But if she dares to hurt Brother Manzi, I will definitely let her die. very ugly!"

Chapter 3222: Zombie Evolution (1)

Although Li Tian was frightened, the night was still very peaceful.

The last ray of sunlight in the living room receded, and night fell. Li Tian closed the living room window and closed the curtains. The door is locked from the inside.

There were still whispers in the rooms of Bai Jing and Situ Ningbing, while there was dead silence in Su Marie's room. In the living room, the barbarian climbed on the sofa in the living room, holding a machete, and was asleep.

Looking out through the curtains, there are gradually more zombies on the street. Low-level zombies are walking around looking for delicious food. When these zombies can't eat people, they will eat mice, wild cats and other animals that catch them.

So at night, although it is unusually quiet, occasionally there will be several screams of wild cats on the street.

Suddenly a shadow flashed across the street, and the speed of that shadow was surprisingly fast.

Li Tian was immediately attracted by the shadow, and Li Tian's gaze closely followed the movement of the shadow.

Is it a cheetah?

No, it's a zombie!

It should be an advanced zombie!

Although it was far away from the senior zombie, Li Tian could still feel the agility of the senior zombie.

The senior zombie who was still at the end of the street just now rushed to the end of the street in less than a few seconds, and saw this senior zombie face the ground with all four feet, like a cheetah, with both legs and claws exerting force at the same time, without a step Can jump seven or eight meters away.

In just a few seconds, this high-level zombie reached a circle of low-level zombies.

High-level zombies are like hunting cheetahs, rushing into these low-level zombies, and directly threw the low-level zombies to the ground.

Through the faint starlight, Li Tian saw that the high-level zombie threw down the low-level zombie directly, and immediately stretched out sharp claws directly into the chest of the low-level zombie, and with a forceful tear, the body of the low-level zombie was removed. Tear out a huge hole.

The vitality of the low-level zombies is still very tenacious. They did not die for a while. They stretched out their paws to grab the high-level zombies, but the high-level zombies suddenly opened their mouths and bit the neck of the low-level zombies. The low-level zombies' claws were weak. Hangs down.

The high-level zombies directly inserted their sharp claws into the heads of the low-level zombies, grabbed the dark brains from the low-level zombies' heads, and stuffed them into his mouth.

"Brain?"

"Do high-level zombies actually use the brains of low-level zombies as food?"

Li Tian was a little bit horrified. He had seen three zombies eat the corpses of low-level zombies, but he had never seen a zombie eat the brains of zombies.

Do not!

After Li Tian suddenly saw that the high-level zombie had eaten the low-level zombie's brain clean, he took out a corpse crystal with a light blue light from the low-level zombie's head.

The senior zombie grabbed the corpse crystal with his claws, with a happy expression on his face, and then suddenly swallowed the corpse crystal of the lower zombies.

After the high-level zombies swallowed the corpse crystals of the low-level zombies, less than half a minute later, a painful expression appeared on their faces, and then the high-level zombies fell on the ground and began to roll around, screaming like a beast.

The screams of this high-level zombie reverberated throughout the block, and the ears were horrible.

The barbarian was awakened by this terrifying cry, came over quietly, squatted quietly beside Li Tian, and whispered: "Brother Tian, what's the matter?"

Li Tian made a silent motion, and said in a low voice: "Zombies are fighting."

"Does the zombies also fight in groups? You see so many zombies beat a zombie to the ground, and the zombies that fell on the ground screamed again and again!" the barbarian asked suspiciously.

The brains of those low-level zombies were definitely not enough, even if one of the low-level zombies was eaten by the high-level zombie and died, the other low-level zombies did not panic and fled, nor did they attack the high-level zombies. But the scene at this time is indeed somewhat like the scene after a human gang fight.

Suddenly, the senior zombie stopped screaming and lay straight on the ground.

"Dead? He was beaten to death!" The barbarian said in surprise after seeing the senior zombie stopped screaming.

Li Tian also didn't know what the reason was. Could it be that after a high-level zombie eats the brains of a low-level zombie, will they die like poisoning?

Li Tian's guess is obviously wrong.

A few minutes after the high-level zombies stopped screaming, they convulsed unexpectedly. The body of the senior zombie kept twitching, just like a sick patient twitching on the ground.

After convulsing continuously for less than a minute, the senior zombie stopped convulsing, and slowly got up, lying on all fours, like a wild dog, panting heavily, coughing in his mouth, and vomiting out from his mouth. A bunch of dark things came.

Then the high-level zombie slowly stood up and rushed to another low-level zombie.

The barbarian was already stunned.

"Brother Tian, what's the situation?" Manzi asked Li Tian puzzledly.

Situ Ningbing also pushed the door and walked out at this time, and walked to Li Tian's side. Hearing the barbarian's question, Situ Ningbing said solemnly, "If I guessed well, this zombie should be evolving!"

Situ Ningbing's guess was the same as Li Tian's thoughts.

At the beginning, the old zombies, the owner of the Nine Color Corpse Crystal, once mentioned this kind of thing in the Ele Village. At that time, it was after the old zombies had eaten the brains of his grandson, that the old zombies had human consciousness, and they continued to evolve into ninth-level zombies.

"Evolution?" The barbarian wouldn't understand this concept for a while.

"Yes, zombies are divided into nine levels. How did these nine levels of zombies come into being? Although people have different opinions on this, it is generally accepted and accepted by the theory of evolution, that is to say, in the process of zombie development. In, some zombies were the first to have the awakening of human-like mind and consciousness, and after these zombies awakened, they targeted their food as the zombie's brain, and in the process of devouring the zombie's brain and corpse crystals, these zombies gradually evolved "Situ Ningbing explained.

Li Tian nodded, and then Situ Ningbing said: "When the level of the zombies reaches the fifth level, the strength of these zombies has already increased by leaps and bounds. Moreover, the fifth level zombies have human thinking and consciousness, and these zombies will change. It's even more terrifying. For zombies that reach level 7 or higher, their bodies will undergo some evolution!"

Having said this, Li Tian remembered the situation of the body alienation of the elderly zombie, the owner of the Nine Color Corpse Crystal. After obtaining the nine-color corpse crystal, although Li Tian's body has changed, it can be said that it is almost negligible.

But the powerful combat power displayed by the elderly zombies at that time was what Li Tian wanted.

Chapter 3223: Zombie Evolution (2)

"Then our goal this time is level 6 zombies, doesn't that mean our mission is dangerous?" Manzi thought of the mission Li Tian had accepted, and said with some worry. .

It's already very dangerous to fight against a high-level zombie, not to mention a high-level battle with human consciousness and thinking. This level of danger will increase exponentially, and the difficulty of capturing this high-level zombie alive is unprecedented. Up.

Li Tian nodded and said, "With me, you can rest assured!"

Seeing Li Tian nodding, Manzi and Situ Ningbing felt a sense of stability in their hearts.

At this time, on the street outside the window, the high-level zombie had swallowed another low-level zombie's corpse crystal.

"Ah! It hurts me to death!"

"Ah! It hurts me to death!"

After Li Tian, Situ Ningbing, and Manzi heard the painful cry of the zombie, the same surprised expression appeared on their faces.

"Is it a human?" Situ Ningbing and Manzi looked at Li Tian in surprise, and said in unison.

Li Tian was also very shocked. Just now, when the high-level zombie swallowed the corpse crystals of the low-level zombie, it still made a howling sound similar to a beast. How long did it take for the zombie to turn into a cry. Human voice.

If this zombie really made a human voice, then it means that the level of this zombie has reached level five, and the level five zombie will have a complete human language.

Like the third-level driver zombies Li Tian encountered in Ede Village, he would only utter simple human-like words, but would not express his emotions. At this time, the zombies on the street can fully say that it hurts me to death! "Such complete words.

Li Tian was startled, and immediately urged the nine-color corpse crystal on his body. The nine-color corpse crystal felt Li Tian's thoughts and released a transparent thread from the nine-color corpse crystal.

Li Tian controlled this transparent silk thread and slowly floated towards the senior zombie.

The transparent silk thread fluttered and flew out from the crack in the window, slowly flying towards the zombie.

Because the high-level zombie swallowed the low-level corpse crystal, he was holding his head and slammed into the ground, wall, and car.

"Boom!"

"Boom!"

"Boom!"

The bones of the high-level zombie have become harder than ordinary steel. This high-level zombie held his head and slammed into the ground. A pit appeared on the ground immediately. When he slammed into the wall, he could directly smash the wall through a hole. , And running into the car, it can directly hit the car into flight.

"What a powerful destructive power! If this is the full strength of this fifth-level zombie, we must pay attention at that time!" Situ Ningbing reminded.

The high-level zombies slammed like crazy, shouting, and the sharp voice echoed back and forth on the street, and this kind of voice quickly attracted more zombies to gather in this direction.

Those who are suffering from low-level zombies, are dumbfounded, and are attracted to the sound like walking zombies, but the high-level zombies have gone crazy, he seems to have lost control of the body, and it is inevitable that those low-level zombies will be directly broken into pieces during the impact.

"what!"

The eyes of the senior zombie were red, and he was gasping for breath, and two paws grew thick and white bones from his fingertips. The senior zombie stretched out two paws and madly scratched in the air.

With one claw down, a low-level zombie will be smeared by the claws, and another claw down will dissolve the low-level zombie.

However, this high-level zombie seemed to be not satisfied with catching the low-level zombie, and stretched his two paws to his chest.

Two sharp claws slammed into his chest cavity, his arms staggered, and he tore away with force.

With a sound, the chest cavity of this high-level zombie was torn open with a huge opening, and the various dark organs in the chest cavity smashed out. And the senior zombies didn't react at all in pain.

Li Tian had already controlled the transparent silk thread to float to a distance of less than ten meters from the high-level zombies, but at this time, Li Tian stopped.

"How could this be?"

Li Tian saw a light blue corpse crystal floating in the chest cavity of a high-level zombie. But light blue silk threads floated on the corpse crystal. These silk threads entangled the zombie's body like blood vessels. , And more silk threads are wrapped around the spine of the zombie, passing through the brain along the spine.

"Boom!"

"Boom!"

Li Tian could feel that the corpse crystal swallowed by the senior zombies was beating slowly, like a heart, and as the senior zombies fell into a more and more crazy state, the corpse crystal was beating faster and faster. .

"Boom boom boom!"

"Boom boom boom!"

Affected by high-level zombies, Li Tian felt that the nine-color corpse crystal on his chest was beating faster, and the faster the nine-color corpse crystal jumped, the more excited the transparent silk thread released from the nine-color corpse crystal. , Especially the transparent silk thread closest to the high-level zombie now, as if it had come alive, there was a hint of wanting to leave Li Tian's control, and it rushed towards the corpse crystal on the high-level zombie's chest.

At this moment, the senior zombie let out a sharp scream, and his two claws hugged his head vigorously.

"Ah!" As this scream reached its peak, the head of this high-level zombie suddenly "bang!", unexpectedly burst open.

A blue light flashed, and the black brains in the heads of the high-level zombies splashed around with the explosion, and the few low-level zombies closest to the high-level zombies were also impacted, and they were directly blown to pieces.

There was a low-level zombie who was lucky, his body was fragmented by the bombing, but a head was left behind, and his mouth opened "Kacha" and "Kacha" biting the rotten flesh beside his mouth.

And the transparent silk thread released by Li Tian's nine-color corpse crystal was also impacted by the self-exposure of the head of the senior zombie. Although the transparent silk thread was not broken, after this huge explosion, the transparent thread immediately shrank back and became languid.

After Li Tian retracted the transparent silk thread, he coughed sharply, his face became extremely ugly, and a trace of blood slowly flowed out from the corners of his mouth.

"What's the matter?" Situ Ningbing saw Li Tian suddenly suffer from such a situation, and hugged Li Tian worriedly in his heart, and asked eagerly.

"Brother Tian? What's the matter with you?" Manzi also grabbed Li Tian's hand and asked.

Hearing the shouts of Situ Ningbing and Manzi in the living room, Bai Jing and Wei Wei also rushed out of the living room. Especially Bai Jing rushed directly on Li Tian, holding Li Tian's cheeks in both hands, and calling Li Tian's name with concern.

Sue Marie walked out, leaning her back against the door frame, and looked at Li Tian and others curiously.

"It's okay! I almost lost my mind when I practiced, just take a few days off!" Li Tian's face was full of blood, and he said weakly.

Chapter 3224: Li Tian is injured

The night was finally passed without risk, because of Li Tian's accident, Situ Ningbing and Bai Jing stayed up all night, and they both guarded Li Tian's side. This made Li Tian flattered and honored. .

The next day, when Sue Marie walked out of the room, she found that Li Tian was no longer in the living room, but Situ Ningbing, Bai Jing, Wei Wei and Barbarian were all present.

"Where's Li Tian? Isn't he injured?" Su Marie asked with some concern.

Both Situ Ningbing and Bai Jing showed a sad expression on their faces. Situ Ningbing said sadly: "Li Tian is injured, and he is now recuperating in the opposite suite. We decided not to leave today. We will wait until Li Tian's injury improves slightly!"

"How can I do it then? I have to find my teammate. It was already delayed for one night last night. How can I not leave today?" Sumari said anxiously.

When the barbarian heard what Sumarie said, he immediately stood up angrily and said: "If you want to go, go by yourself, we have to wait for Brother Tian to heal!"

Su Marie seemed to be greatly wronged, tears bursting into her eyes, and shouted: "Barbarian!"

Manzi snorted coldly, squatted on the ground, angrily ignoring Somali.

Seeing the barbarian's angry expression, Su Marie could basically confirm that Li Tian was injured.

In order to test whether Li Tian was really injured, even the Barbarian's attitude towards her now changed a little, and Sumarie couldn't help but squat.

If you really let Sumai go alone, all the previous efforts will be in vain.

"Barbarian, I know it's wrong! You care about Li Tian right, it's because I was confused for a while, and I didn't think about it. But I also care about my teammates, I still don't know their life and death!" said Su Mary shed a few tears, and stretched out her hand to wipe the tears with some grievances.

"Okay! Let's just say a few words, since we have accepted Sumari's task, we must keep our promise, even if I die, we must complete this task!" Li Tian appeared pale at the door of the room, coughing a few times. Said the voice.

"How can this work?" Situ Ningbing and Bai Jing said in unison.

"Yes, at least we have to wait for you to take care of the injury!" The Barbarian also said anxiously.

"Brother Tian, you are the absolute main force of our team. Regardless of the task, we have to rely on you. If we set off now, we will be in trouble!" Two-dimensional walked over and helped Li Tian sit. On the sofa, said.

Li Tian waved his hand, shook his head slightly, and said: "It doesn't matter, you all pack up and get ready to go. The barbarian will just wait for me to carry me!"

"Brother Tian, the big deal is that we will return the two third-level corpse crystals to her. Double the compensation will do! We can't take us..." Wei Wei said dissatisfiedly.

"I'm Li Tian's promise, as long as it's my Li Tian's task, I must keep my promise. Just like I promised to send you to the Sunset Fortress, I will do it when I say it! This is my Li Tian!" Li Tian interrupted the two-dimensional words decisively.

Seeing that they could not persuade Li Tian, everyone had to start packing up and preparing to set off.

Hearing what Li Tian said, there was a hint of happiness on Su Marie's face, which flashed by.

Several people continued on the road.

Two-dimensional holds a military stab in one hand, and walks cautiously to the front. Seven or eight meters behind two-dimensional is Bai Jing. With a sniper rifle in his hand, Bai Jing has a cautious face, constantly scanning the distant buildings with the sniper rifle scope. Think it is worth hiding the gunman.

After Situ Ning Bing broke, he stayed at a distance of five or six meters from Li Tian.

Manzi helped Li Tian walk in the middle, while Sumari followed Manzi.

Suddenly, an explosion sounded from a few kilometers away.

The sound of the explosion was very loud. Even if Li Tian and the others were a kilometer away from the explosion, they could feel the explosion. Moreover, there was a slight shaking on the whole ground, and even the glass windows on the upper floors were covered. Shattered.

Li Tian was taken aback for a moment, not understanding the cause of the explosion.

Two-dimensional, Bai Jing, and Situ Ningbing immediately retreated and surrounded Li Tian, carefully watching the surrounding wind and grass.

Soon, at the intersection of the far floor and the sky, a thick cloud of black smoke appeared.

"What's the matter? How could there be such a violent explosion?" Sumarey asked nervously.

"I don't know, but this violent explosion may cause some accidents. Let's leave the street quickly!" Li Tian said alertly in his heart.

As soon as Li Tian's words fell, some zombies were seen walking out from the front and rear buildings one after another. There were many more zombies on the street almost instantly.

Moreover, zombies were constantly walking out in the annex buildings.

Obviously these zombies were attracted by the violent explosion sound, but after these zombies walked on the street, they immediately found Li Yan and others. Li Tian and others were the first to bear the brunt and became the target of zombie attacks!

"Pop!" Bai Jing did not wait for Li Tian's order, and shot directly at the zombies who had already rushed towards Li Tian!

This zombie rushed to the front, and when the gun shot out, he naturally became the dead soul grabbed by Bai Jing.

"What to do?" After firing the shot, Bai Jing found that more zombies were attracted by the sound of her shooting, and they were quickly surrounding them.

Fortunately, the levels of these zombies are not very high, and the speed of their movement is relatively slow, but that's the case, an encirclement has already appeared around Li Tian and others.

"What should I do?" Su Marie also became a bit of Liushen Wuzhu, this violent explosion is obviously not within the scope of her plan. There are more and more zombies, probably by visual inspection, the number has exceeded a hundred.

Sue Marie knew that the matter was big, and it was beyond her own strength!

"Da da da!"

"Flap!"

In Fancheng, wolves are everywhere, gunshots are constantly sounding, and human screams can be heard from afar from time to time.

"Barbarian, let me go, you open the way for us, and retreat. I remember that there was an elementary school on the other side we were passing by. There was no zombie on the playground in the elementary school just now!" Li Tian immediately ordered.

As soon as Manzi let go of Li Tian, he immediately coughed and his body shook. But Li Tian soon stood firm.

Situ Ningbing hurriedly supported Li Tian.

The barbarian's machete opened the way with all strength, and the two-dimensional left and right hands simultaneously changed pistols, assisting by the barbarian, Bai Jing's sniper rifle marksmanship had achieved a little success, even if he did not aim, he could basically shoot zombies at close range.

The cooperation of barbarian, two-dimensional, and white scene is becoming more and more skilled. But although the number of zombies is increasing, especially the zombies behind Li Tian have gathered more and more.

Chapter 3225: Captain Zombie (1)

Fortunately, elementary school is not far from them. .

"Brother Tian, the school gate is locked from inside, we can't get in! What should I do?" The barbarian chopped a zombie in front of him into two pieces with a machete, then turned around and asked Li Tiandao.

The gate of this school is not a kind of electric gate, but a relatively primitive kind of steel fence gate. The two heavy gates are also welded with black iron sheets.

"Over the wall!"

Two-dimensional has already run two steps quickly, kicking his right leg against the wall, and kicking his left leg against the wall again. When his body is about to bounce off, he stretched his hand against the wall.

Two-dimensional chest was unexpected, his body was as light as a swallow, his hands pressed hard, his body was rubbed up, and he crawled on the wall.

Bai Jing handed the sniper rifle to 2D, was placed on the top of the wall by 2D, stepped back a few steps, the same action as 2D, but a little more swift than 2D, so he squatted on the wall.

"Brother Tian, step on me first! Two-dimensional, you and Sister Bai Jing pull Brother Tian!"

Manzi squatted down, patted his shoulder, made a gesture to Li Tian, and then pointed at the wall. Two-dimensional and Bai Jing said.

Li Tian didn't pretend, stepping directly on Manzi's shoulders and being pulled up to the wall by Two-dimensional and Bai Jing.

At this time, Sumari did not continue to pretend, almost at the same time Li Tian climbed the wall, she had already climbed the top of the wall quickly.

Seeing Su Marie's movements, Bai Jing and Li Tian made eye contact. Bai Jing's eyes were a little shocked, while Li Tian's eyes were "Look, I said this woman is not easy!"

"Barbarian, come up quickly, I'll pull you!" Sumari stretched out her hand to the Barbarian.

Barbarian looked embarrassed, the wall was not high, that is, just two meters away, Sumary was already strong, how could Barbarian concede in front of Sumary.

"Dang Deng Deng" Manzi dashed up, kicked on the wall, and came straight up.

The remaining Situ Bingning's movements were a bit stronger than the others, almost running on the spot, stepping on the wall, and already on the top of the wall.

The zombies who were chasing Li Tian and others crawled under the wall, and stretched out their paws to grab the wall.

"Damn, I really thought I was afraid that you wouldn't succeed!" The barbaric guy immediately took a machete and slashed down. The claws of those zombies were like leeks, harvested by the barbarians.

"Barbarian, go!" Li Tian saw more and more zombies in front of the wall, but the Barbarian stood on the wall and kept cutting off the claws of the zombies. He was so happy, he reminded him.

"What are you afraid of! Can they still climb up the wall?" Manzi said with a simple and honest smile on his face.

As soon as Barbarian finished speaking, he saw a few zombies looking like crazy, hitting the campus wall with their bodies constantly. Barbarian's face immediately became ugly, and he ran forward with the knife.

"Boom!"

"Boom!"

With a "bang", the surrounding wall was knocked out by those non-zombies, and the zombies surrounding the front were immediately pushed into the campus by the zombies behind.

In this way, there will be zombies on campus!

These zombies kept chasing Li Tian and others who were running on the wall.

Fortunately, these zombies have low IQs and don't know how to chase and intercept them. Otherwise, if the zombies chasing in front of Li Tian and others crash the wall, Li Tian and others will really become turtles in the urn.

Li Tian saw that the zombies smashed through the wall, and couldn't help feeling that he had made some mistakes. If he knew this was the result, he would use "Red Slash" to break in directly, so why bother to climb the wall.

At the end of the wall is the teaching building of the elementary school, which is less than two meters away from the corridor on the second floor of the teaching building of the elementary school.

"clatter!"

"clatter!"

"Da!" Situ Ningbing ran a few steps quickly, jumped directly onto the second floor corridor of the elementary school, and then dragged the two-dimensional and Bai Jing to the teaching building.

"Brother Tian, the zombies don't seem to catch up!" The barbarians in charge of the post-scission turned around and found that after the zombies hadn't chased Li Tian and others, they didn't continue to pursue them, but slowly walked back weakly.

The zombies that were hit into the wall have been wandering back and forth in the shadows under the wall.

"It seems that these zombies are not without weaknesses. No wonder these zombies like to come out at night, and there are not many zombies that can come out during the day." Bai Jing pulled Su Marie up to the teaching building and said.

Li Tian nodded and said: "These zombies are stronger than ordinary people, but it is also because these zombies also have weaknesses that they will not be unscrupulous. Otherwise, our human living environment will be even worse."

It is also for this reason that the range of activities of zombies is limited. For example, the range of activities of zombies in Ele Village is the annex area centered on Ele Village. The activity area for the zombies in Fancheng is near the city of Fancheng.

Li Tian squatted on the wall, gasping for breath.

"Or, let's take a rest here, and then set off?" Su Marie pretended to be concerned after seeing Li Tian panting heavily.

"Well, let's take a break in the teaching building first, and wait until the attached zombies are almost wandering, we will go out again." Situ Bingning said.

Several people entered the teaching building.

This is a four-story teaching building. At this time, the classroom doors of the teaching building are basically open, but the classrooms are already empty except for the tables, chairs and benches.

Several people walked into a classroom casually and sat on stools to rest. The blackboard in the front of this classroom was wiped clean, and on the blackboard behind the wall, some flowers and plants were drawn messily and some messy text was written.

"Barbarian, you take Sumarie and 2D to the top floor, now, go right now! When Bai Jing is on the top floor, you must climb up to the top to inspect and see how the attached zombies are scattered! 2D, Barbarians, you must protect Sumai." After speaking to a few people, Li Tian said to Situ Ningbing again: "When I ran away just now, I ran too eagerly. It seemed a bit awkward. You can help me go first go!"

Situ Ningbing asked suspiciously, "What's the matter? Does it mean something abnormal?"

Li Tian nodded and said softly, "Don't you see the abnormality? There is almost no dust in the corridor on the second floor. After three years, how can there be no chance of dust? And you noticed that, just now In the classroom of Class 6 of Grade 5, the blackboard newspaper at the back. Those paintings are the latest ones."

"You mean?" Situ Ningbing showed some shocked expressions on his face.

Li Tian made a silent motion, looked around and saw no one, then said: "Yes, if these are not artificial, then it can only mean that there are zombies here, and the level of this zombie is probably not low. !"

Chapter 3226: Captain Zombie (2)

After leaving the classroom door, Situ Ningbing and Li Tian began to look for classrooms one by one.

"Smell of blood!" Situ Ningbing twitched his nose and suddenly said.

Li Tian also smelled it, and it really smelled of blood, but it was more of the rotten smell of rotten meat, but Li Tian and others were used to smelling rotten meat, and no one would take the smell of rotten meat as a matter of fact.

But the smell of blood is different. There is no smell of blood on the zombies. There is a smell of blood here, which can only explain one situation, that is, there are dead people here, and it hasn't been long before death.

Li Tian and Situ Ningbing searched for more than a dozen classrooms in a row. These classrooms were almost the same as the previous classrooms. Both the cleanliness of the classrooms and the pictures on the blackboard at the back were similar.

"The smell of blood is strong, it should be nearby!" Situ Ningbing said in a low voice.

Li Tian was not at all sick at all at this time, "Red Zhan" had already appeared in his hands, and the two of them crept forward, afraid to make a sound, and continued to search forward.

The last classroom is still empty, and the teacher's office is next door.

Li Tian pointed to the teacher's office, Situ Ningbing nodded, and the two quietly walked over.

The door of the teacher's office was tightly closed. Li Tian and Situ Ningbing climbed on the window and looked in quietly.

The office covers an area of eighty or ninety square meters. Two sets of desks are neatly placed on the left and right sides against the wall. In the middle facing the office doors and windows, there is another set of higher-grade desks and chairs. It should be the desk of the grade director. A gray-white metal file cabinet was placed beside each desk.

At this time, sitting on the chair behind each set of desks is an eleven or twelve-year-old zombies. These zombies have red eyes and their bodies have begun to decay to varying degrees. These zombies are still in the office. The way the deputy is working hard.

And on the chair behind the desk of the grade director sits an eleven or twelve-year-old girl. The girl is wearing school uniforms. The clothes are dirty and the original colors are almost invisible, but the sleeves of the girl's shirt Above, an armband is relatively clean.

On this armband, three bars, blood red, highlight the position of the little girl's vanguard captain.

"Why is there a girl here?" Situ Ningbing glanced at Li Tian suspiciously.

"She is also a zombie! Look at her eyes!" Li Tian whispered to Situ Ningbing.

Sure enough, looking at the girl carefully, the two eyes under the hair curtain were blood red.

"This room is very clean? How come there is such a strong smell of blood?" Situ Ningbing asked when seeing that the office was very tidy, not spotless, but also very clean.

Li Tian shook his head.

Suddenly, Li Tian and Situ Ningbing simultaneously moved their sights on the gray-white tin file cabinets beside the desks. Sure enough, although the file cabinets had been wiped, these file cabinets had different levels of impact, and the surface of the file cabinets was bumpy. Yes, and more importantly, one of the filing cabinets was dripping blood slowly.

"Tick!"

"Tick!"

The blood dripping speed is very slow, and the blood dripping on the ground has solidified.

"Zombie above level five! This little loli girl is actually at least a level five zombie." Li Tian was still a little shocked. This is the first time he has directly faced level 5 zombies.

"What are you doing? Don't be sneaky!"

The team leader Lori Zombie suddenly shouted a word, Li Tian and Situ Ningbing's heart tightened, thinking that they had been discovered by the zombies.

Li Tian was about to open the door, but was stopped by Situ Ningbing. Situ Ningbing pointed to the corpse leader and said: "Look over there!"

Li Tian followed the direction of Situ Ningbing's fingers and saw a little zombie taking a human hand out of the drawer, and it was crunchy and crunchy in his mouth, like eating chicken paws.

Looking at the zombies of Captain Lori again, there is no other psychological fluctuation at all.

Li Tian understood immediately.

The captain is a fifth-level zombie. The other low-level zombies in this office are all under her control. Even if that low-level zombie steals food like a schoolboy, it is also her high-level approval and authorization. In other words, the scene just now was directed and performed by the team leader zombie.

It's like an extremely boring child talking to himself.

But how does this large captain zombie control these low-level zombies? Now this squad leader zombie is much more proficient in controlling the zombies than the third-level driver zombies that he had seen in the village at the beginning controlled his wife and children.

Li Tian couldn't help but want to test it out to see what the team leader zombie has.

Li Tian controlled the nine-color corpse crystal and let the nine-color corpse crystal release a transparent silk thread, which penetrated through the crack of the door and slowly floated towards the head that was stealing.

As soon as the transparent silk thread of the nine-color corpse crystal penetrated into the brain of this low-level zombie, Li Tian could feel that the low-level zombie had a very low level, passing through the black brain plasma in his head, and through the transparent silk thread, Li Tian saw this. There was a first-level corpse crystal in the head of the little zombie.

Li Tian was about to put a transparent silk thread on this corpse crystal, but when he took a closer look, he found that this low-level corpse crystal actually had a silk thread a bit more silky than the silk thread, like the silk thread of a spider web. These silks are wrapped around the corpse crystal, drawing some lines on the corpse crystal, these lines are dense and complex.

Li Tian controlled the transparent silk thread and continued to move forward, slowly resting on this low-level corpse crystal.

After Li Tian placed the corpse crystal he controlled on this corpse crystal, some pictures of elementary school students' daily study and life appeared in his mind, and at this moment, Li Tian felt that he was being stared at by the large captain zombie. On it.

"Who?" The corpse leader zombie awakened as soon as Li Tian's silk thread touched the corpse crystal, slapped the desk hard, rushed directly to the cheetah, and jumped out from behind the desk, towards the office. Blasted out the door and glass window.

With a sound, the glass window was directly smashed by the captain's zombie, and the captain's zombie broke through the window.

Li Tian and Situ Ningbing rolled back at the same time, avoiding the splashing glass slag. In the process of avoiding, Li Tian wanted to keep Situ Ningbing behind, but Situ Bingbing rolled backwards and hid. At the same time it opened, it had already rushed out.

With a sound, Situ Bingning's saber pierced towards the head of the team leader zombie, but the team leader's zombie was not an ordinary low-level product. The moment Situ Ningbing attacked her, she had already put her arm on her forehead and used her arm. Situ Ningbing's full blow was received.

The team leader zombie gave Situ Ningbing's full blow, a mischievous smile appeared on his face, and he stretched out his paw to grab Situ Bingning's neck.

Chapter 3227: Captain Zombie (3)

"Even blocked?" Situ Ningbing was particularly shocked. This was the first time she had encountered a zombie that would actively block, and the bones of this zombie were actually comparable to the saber in her hand.

"Hurry up!" Li Tian has fought against senior zombies. Like the zombies above level 5, the strength has already made a qualitative leap, which is no longer what ordinary people can deal with.

If you don't consider the issue of corpse poison, Li Tian believes that Situ Ningbing can definitely clean up the captain's zombie, but Li Tian does not dare to gamble, nor can he gamble, let alone gamble.

Li Tian would not put Situ Ningbing in danger, not to mention that he was still with Situ Ningbing.

When Li Tian yelled these words, the "Red Zhan" in his hand had already flown out directly, and he absolutely did not allow Situ Ningbing to miss a little bit.

The claws of the captain's zombie were about to catch Situ Ningbing, but at this moment, a blade of light flashed, and the captain's zombie instinctively felt the powerful power released from "Red Slash." She caused harm.

The corpse leader zombie immediately gave up the attack on Situ Bingning, leaped a step back, and then looked at Li Tian and Situ Ningbing closely!

"It was you just now?" The captain zombie didn't dare to relax his guard, still staring at Li Tian and asked.

The transparent silk thread on the nine-color corpse crystal can only be seen by others under certain circumstances. Therefore, Li Tian just operated the transparent silk thread on the nine-color corpse crystal, Situ Ningbing did not see it. But for the corpse leader zombies that belonged to zombies, she found Li Tian's transparent silk thread just now on the corpse crystals of the zombies she controlled.

That's why there is such a question.

Situ Ningbing looked at Li Tian suspiciously.

Li Tian smiled slightly and said to the corpse leader zombie: "Yes! It's me!"

"But you are a human! Why do you have this ability!" Before the captain became a zombie, after all, he was still a child, and the logical thinking of speaking remained at the level of a child. She was just curious why Li Tian would have this kind of ability. ability.

Li Tian smiled slightly and said: "It's a long story, but I do have this ability, and this ability is stronger than you think! Even, I can control you!"

The expression on the zombie's face suddenly became rich, excited, questioned, sad, and suddenly laughed wildly: "You want to control me, do you think you are the teacher or the principal?"

The captain zombie laughed wildly, suddenly the captain zombie attacked suddenly, opened his mouth, and bit towards Li Tian's neck.

Li Tian's "Red Slash" has reached the realm of whatever he wants. Every time the captain's zombie attacks in the direction of Li Tian, it happens to be the direction of the "Red Slash" sword floating in the air.

"Damn human beings, be smart!"

"Let me **** your blood, and then **** your brain out, and then it will be up to us who controls whom! Hahaha"

The captain's zombie missed a hit and immediately jumped back, two sharp claws grabbed several deep marks on the ground, and roared towards Li Tian.

But no matter how the captain zombies attacked, they couldn't break the protective layer formed by "Red Slash" around Li Tian's body. The action of hitting the captain zombies became faster and faster and wilder.

"Coward, confront me!"

"Why the **** timid would hide behind the turtle shell!"

Captain Zombie couldn't help Li Tian, and his temper became more and more irritable.

Situ Ningbing did not expect that Li Tian's control of the Ten Jue Sword Qi had reached this level in the past more than a month. Now Li Tian has gradually demonstrated the strength of a strong man.

However, Situ Ningbing also knew that in the current world, the social order is collapsing, even if Li Tian is a very strong master, he can't turn things around. Even show strength needlessly, and may be jealous of bad organizations, and even suffer misfortune, so Li Tian has been hiding his strength.

But at this time, Li Tian does not need to deliberately hide his strength, even in the face of Level 5 zombies, Li Tian's control of "Red Slash" has already made Li Tian invincible.

And Li Tian hasn't made any effort yet.

"Damn it!" The captain's zombie suddenly shouted, evading Li Tian's "Red Slash" defense, and two paws slammed into Li Tian's heart.

"Looking for death!" Li Tian has been thinking of ways to control both "Red Slash" and the Nine-color Corpse Crystal, so that the Nine-color Corpse Crystal releases transparent silk threads to control the high-level zombie in front of him.

However, it is quite difficult to use one mind with two purposes. When Li Tian uses his mind more to control the transparent silk thread, his control of "Red Slash" is a little weaker, which instead allows the team leader zombies to take advantage.

As soon as Li Tian's right foot pressed forward, his body immediately flew back a few steps, and at the same time, Li Tian's "Red Slash" had already smashed into the chest of the captain's zombie.

"Puff!" With a cry, the captain's zombies tried their best to avoid "Red Slash", but there was still a cut in his chest.

"Bah!" Even though Li Tian tried his best to avoid backwards, he was still torn open by the sharp claws of the captain's zombie.

"Li!" Situ Ningbing was extremely shocked when he saw Li Tian's injury, and rushed over worriedly, trying to block Li Tian from the attack of the corpse leader!

"It doesn't matter!" Li Tian coughed sharply. This time it was not pretending, but his chest was really hurt by the claws of the zombie.

"How to do?"

"How to do?"

"What should I do? Will you become a zombie!" Looking at the wound on Li Tian's body, it had begun to change color, Situ Ningbing held Li Tian's body, and began to cry involuntarily.

"It's okay! Don't cry!" Li Tian could feel that after he was attacked by these level five zombies, the wound on his chest soon began to become numb.

"There is a serum that relieves the zombie virus from Dean Huang in the backpack!"

After being scratched or bitten by a zombie, it doesn't mean that you will become a zombie immediately, but there is a process.

During this process, some people are naturally immune, and a certain mysterious gene in the body will swallow the zombie virus. And such people are called immune.

There are two other situations, injecting serum or swallowing corpse crystals of the same level. There is a high probability that the corpse crystal will be swallowed by the corpse crystal, and it will eventually die.

After the immediate end of the world crisis, after more than a year of research, there is now this serum that can relieve the zombie virus.

Situ Ningbing hurriedly opened Li Tian's backpack, looked for a plastic pill box from the backpack, opened the pill box, and there were ten serums lying neatly inside. There are three grade two, two grade three, two grade four, two grade five, and one grade six.

The price of these serums is also very expensive. If Dean Huang hadn't believed that Li Tian could catch Level 6 zombies alive, he would not have given this kind of thing to Li Tian in advance.

There was only one grade 6 serum. Situ Ningbing's hand trembling slightly, took out the needle tube, and prepared to inject the serum into the needle tube to inject Li Tian's wound.

Chapter 3228: Level 6 Zombie

"Wait a minute!" Just when Situ Bing Ning was ready, Li Tian suddenly felt something unusual in his body, and the split prevented Situ Ning Bing's next movement. .

Situ Ningbing stopped immediately.

Li Tian felt that after he was attacked and injured by the team leader's zombie, the injury had a brief numbing effect at the beginning, and even the skin at the wound began to turn pale black.

But at this moment, the nine-color corpse crystal on the chest began to beat frantically, and the transparent silk threads began to flow out like crazy, drilling into Li Tian's wound.

After the transparent silk thread penetrated into Li Tian's wound, it began to lurch in Li Tian's wound, squirming like a small worm, and gnawing off the necrotic skin at Li Tian's wound.

This feeling is like countless ants crawling on Li Tian's wound, making Li Tian feel itchy in the wound. But this itching is what Li Tian hopes to feel. Only in this way did Li Tian know that his body did not have any abnormalities, and that he still maintained human sanity.

"How could this happen?" Li Tian couldn't imagine why this happened.

After the nine-color corpse crystal transparent silk thread swallowed the necrotic muscle in Li Tian's wound, Li Tian's wound did not quickly heal, but the wound turned into a matte color.

"Are you immune?" Situ Bingning looked at Li Tian in shock.

An immune person will have a greater chance of surviving in the end times, and it is no wonder that Situ Ningbing will look at Li Tian differently.

Li Tian did not admit or deny it.

Perhaps making the mistake is the wrong thing, but it can make Situ Ningbing more at ease.

Li Tian put away the corpse poison serum, patted his body, stood up, and said, "Now let you see my latest abilities!"

"The latest ability?" Situ Ningbing asked suspiciously.

"Did you forget her?" Li Tian stretched out his hand and pointed to the corpse leader's corpse.

Situ Ningbing just remembered that since Li Tian was injured, the corpse leader zombie has never launched an attack, but stood there, like an out-of-control robot, waiting for orders from others.

Li Tian walked over slowly, and said to the corpse leader zombie: "Now you believe I can control you!"

It turned out that when Li Tian was injured just now, when the corpse leader zombie was the closest to Li Tian, Li Tian suddenly activated the nine-color corpse crystal to control the transparent silk thread released by the nine-color corpse crystal to control the team leader's zombie. Corpse crystal.

What surprised Li Tian was that this large captain zombie was exactly the sixth-level zombie they were looking for. Before they entered the inner city of Fancheng, they had already found the sixth-level zombies in this school, and also removed the sixth-level zombies. Under control.

This kind of luck is really good. But for the same reason, Li Tian paid for this injury. If it weren't for the nine-color corpse crystal's natural ability to swallow corpse poison, Li Tian would still need to inject serum to relieve his pain.

But after Li Tian took control of the captain, he discovered that the corpse crystal in the captain's head was not a complete sixth-level corpse crystal, and was in the moment of transition from fifth to sixth.

In addition, the corpse leader zombie was originally a minor. When the zombie spoke, Li Tian could feel the corpse crystals in her head fluctuate greatly.

In this way, it is easy to explain why the zombies of the captain speak without logic.

"You do not completely control me! I am not easily controlled by you!" The captain zombie lost the ability to move, but she can still think and talk.

"what!"

"what!"

After losing the control of the corpse leader's zombies, the zombies in the office immediately became active, making a low cry, and rushing towards Situ Ningbing and Li Tian.

Regarding this kind of low-level little zombies, Situ Ningbing did not hesitate, and cut and killed these zombies.

"Why kill them? They are my classmates and my friends! Why?" The captain zombie burst into tears. Although there were no tears in the two red eyes, Li Tian could still feel the captain. The pain in the zombie's heart.

"They are dead! They have all become zombies!" Situ Ning said coldly.

"You nonsense, how could they die? We have lived together, studied together, and played together here for many years. Why would I not know if they were dead?" The captain of the zombie shook his head and said.

Li Tian walked over slowly and patted the head of the corpse leader's zombie, like an adult comforting an injured child. Li Tian squatted in front of the corpse leader's zombies and said, "Whether you believe it or not, they are all dead! They have all become zombies, and so are you. Now in the entire school, you are the only one."

"I'm one, I'm already dead? I'm also a zombie?" The captain said the zombie incredulously.

"Although you are a zombie, I still give you two choices. First, you have been controlled by me. You follow me and serve me. The second is that you go find your buddies and become like them. A bunch of rotten meat!"

Although Li Tian controlled the zombie, he only made it unable to move and attack. It cannot be completely controlled by Li Tian like the inactive zombies in the coal mine of Ele Village.

And Li Tian still needs to adapt to the method of controlling zombies, prepare for the control of other zombies in the future, and lay the foundation.

Therefore, Li Tian spoke very directly and directly gave the team leader the zombie two choices. Either follow me or die!

The red eyes of the corpse leader's zombie flickered, and she could see it. Before becoming a zombie, she was just a child, and she had an inexplicable fear of death, and losing her little partner and letting her live by herself also made her extremely scared.

...

On the top of the building, Bai Jing had already inspected the vicinity of the teaching building. The zombies were attracted by the huge explosion, and now they have slowly retreated.

Sumari sat in the classroom looking boredly at the thick dust on the ground, while the barbarian and Weiwei were in front of the door, guarding Sumari.

"Brother Tian is okay? He is already injured, but there can be no more accidents!" Wei Wei asked with some worry.

The barbarian laughed and said, "Don't worry! Brother Tian is the most powerful man I have ever seen, and there will be no accidents!"

At this moment, Li Tian and Situ Bingning walked up, and Situ Ningbing was holding an eleven or twelve-year-old girl in his arms. The little girl seemed to have insomnia with a thick bandage wrapped around her eyes, and Li Tian's chest was the same, wrapped in a thick bandage.

"Brother Tian, why are you injured again?" Manzi saw Li Tian, walked a few steps quickly, held Li Tian, and asked anxiously.

Chapter 3229: You have been surrounded (1)

A certain gas station in the new district of Fancheng.

At this time, the gas station was completely bombed beyond recognition. The huge explosion blew the ceiling of the gas station into the sky, and the room behind the gas station was completely broken. And on the ground of the gas station, a huge depth appeared.

Some old cars were parked in front of the gas station before, but now, all these cars are hit by the huge impact from the explosion and hit the middle of the road, lying on the road.

After the huge explosion, the gas station was in a mess, and the fire continued to burn.

A coquettish woman was standing on the roof of the building opposite the gas station. At this time, there were more than a dozen human corpses lying on the roof, and a man's body was stepped under the woman's feet.

This man has a sturdy back, and the fifth-level bounty hunter badge on his chest is shining, so dazzling, it can be seen that this man is the fifth-level bounty hunter in the sunset fortress.

However, the fifth-level bounty hunter who was once invincible is now shivering at the feet of this coquettish woman.

"Please, let me pass me! As long as you let me go, I will leave Fancheng immediately and disappear in front of you forever!" the man said.

The glamorous woman suddenly laughed frantically: "Since you are going to disappear in front of me forever, then it is better to die!"

"No! Forgive me! No..." With a scream of screams, the man was already in a different place.

The fascinating woman kicked the body of this fifth-level bounty hunter man down the roof with disdain, and then said disappointedly: "With this strength, you can also be a fifth-level bounty hunter? I want to hunt my Red Wolf too. Hahaha! How boring!"

This coquettish woman is no one else, but the third person in the Scarlet Blood Organization, the Red Wolf.

The Red Wolf's nickname is ever-changing, and no one has seen her true face, and even the Scarlet Blood of the Scarlet Blood Organization dare not say that the Scarlet Wolf he saw was the original face of the Scarlet Wolf.

At this moment, the red wolf gently slashed the tip of her tongue with a curved blade in his hand, and the blood on the tip of her tongue kept pouring out, while the woman licked the blood with the tip of her tongue, and then said coldly: "Is the fifth-level bounty hunter just such a waste? With the thirty-odd bounty hunter, it turned out to be like a bear, disappointed!"

The red wolf removed the curved blade from the tip of his tongue, and saw the tip of the tongue that had been cut by the blade quickly healed, as if it had never been cut by the blade.

That's right, Red Wolf is also an evolutionary among those who are immune, and this is what he possesses.

The Red Wolf inserted the full blade directly into the thigh, leaving only the hilt outside.

"Oh!" Red Wolf felt the painful stimulation caused by the blade inserted into his thigh, and his face showed a happy expression involuntarily.

"The soldier is approaching the city, now it's time to look for you. I want to see with my own eyes the conflict between you and Li Tian, is it Li Zheng, the fifth-level bounty hunter under the city, is more powerful, or Li Tian, the newly promoted level five bounty hunter, is better? Some, let's see if you two can become my opponent in the end."

"It's really exciting!"

...

Continuing on the road, Situ Ningbing supported Li Tian, Manzi carried the captain on his back, Bai Jing was exploring the way in front, and two-dimension drew to the back, Su Marie followed him thoughtfully.

The captain was the name Li Tian gave to the captain's zombie. Barbarians, Bai Jing, and Wei Wei had no objection to Li Tian's rescue of a blind little girl. In their minds, Li Tian was originally this kind of warm-hearted man, but in Sumari's eyes, she felt that Li Tian was asking for trouble. A blind little girl, even if she was able to save the sunset fortress. Live in the fortress.

But that's okay, anyway, there are still two hours away, and it's about to be in the encirclement set by the mercenary world, and then let them die together.

After the big explosion, there were many more zombies and human corpses on the streets of Fancheng. It can be guessed that it must be a fierce battle between bounty hunters and zombies.

After these battles, there are very few wandering zombies on the streets, and there are many low-level zombies. These low-level zombie dogs are the lowest level carrion-eating zombie. These zombie dogs wandered the streets in groups of three or five. Seeing the dead corpses, they immediately swarmed up and tore away the corpses.

For zombies, human corpses are more attractive than zombies. For those delicious corpses, zombies may even have conflicts and fights.

These low-level bereaved dogs will not cause any impact on Li Tian and others. Even the barbarians carrying the captain on their backs can easily kill these bereaved dogs.

There are too many beheads to kill, and the barbarian has no interest in these first-level bereaved dogs.

After being carried by the barbarian, the captain always behaved very well, did not speak, and did not struggle, which surprised the barbarian.

After half a day of walking, Li Tian and others have almost reached the center of Fancheng District.

"Sumari, how long is it?" Li Tian asked Sumari after coughing several times, showing a trace of fatigue.

Sue Marie looked at the street, and then at the map in Li Tian's hand, and said, "It's not far, cross the two streets in front, and the building of the commercial bank that you can see is here."

"Okay! Tell everyone to come closer, I always feel that my heartbeat is fierce, I am afraid that it is not safe there. And the explosion in the morning is also very strange, we should be careful!" Li Tian said to Situ Ning Bing said.

Situ Ningbing called both 2D and Bai Jing to Li Tian's side. In this way, Bai Jing, 2D, Situ Ningbing, and Su Marie would put the barbarian with the captain on his back and Li Tianwei in the middle. Several people were cautious and stepped forward. Move forward.

Crossing two streets and getting closer and closer to the commercial bank, the expressions on Situ Ningbing and Baijing's faces became more and more solemn, but the expressions on the faces of Barbarian and Su Marie were a bit excited.

"Mary, when we find your teammate, we will be separated. When we complete this mission, I will go back to the Sunset Fortress to find you!" The barbarian said reluctantly.

Sumary smiled and nodded. But in his heart he said: "Let's talk about it when you go back alive!"

The commercial bank was right in front of him. At this time, the door of the commercial bank was open. On the left and right sides of the door were seven or eight zombies. There were some blood stains on the steps in front of the commercial bank.

Su Marie said to Li Tian: "We were here to hunt down that fifth-level zombie at the time. Who knew there would be a sixth-level zombie in the commercial bank. We were suddenly attacked by a sixth-level zombie when we were approaching the city. Caught off guard, and our people can only break through each!"

Chapter 3230: You have been surrounded (2)

The barbarian put down the captain, who cleverly squatted beside Li Tian, holding a pencil that came out of the school in his hand, and blindly drawing circles on the ground.

"Barbarian, you and Wei Wei take Sumali to search the neighborhood carefully, Situ Ningbing, you protect Bai Jing to the top of the commercial bank, check and search from a height!" Li Tian said to the others.

Barbarian, 2D, Bai Jing, and Situ Ningbing each took their orders. Among them, Barbarian and 2D took Sue Marie to continue searching around the nearby buildings, while Bai Jing and Situ Ningbing entered the commercial bank and reported to the commercial bank. Look upstairs.

"There are no high-level zombies here at all! The level of the best-level zombie is no more than level four, and the level four zombie is at least more than a thousand meters away from us." The captain communicated with Li Tian in a low voice.

Li Tian asked suspiciously: "How do you know?"

The captain covered his thick bandaged face with a triumphant smile and said: "Beasts have the ability to predict danger, and advanced zombies are no exception. If there are zombies with a higher level than mine nearby, then I will most likely be To become food for high-level zombies, then my whole body will feel uncomfortable at this time. But now I don't feel this way at all."

Li Tian nodded and expressed his approval. This kind of zombie perception is very similar to the perception of danger by human experts.

If Li Tian is in deep danger, Li Tian will feel extremely sensitive.

"Huh?" Li Tian suddenly had a bad premonition in his mind, and he became alert involuntarily.

In the direction where Barbarian and Wei Wei had left with Su Marie just now, Li Tian felt the sound of fighting coming from there.

"Snapped!"

"Snapped!"

Several gunshots followed in that direction.

"No, something happened!" Li Tian picked up the captain and ran a few steps in that direction. At this moment, Li Tian barbarian suddenly covered himself with blood, and the machete in his hand had been broken in half, leaving only half. With the knife still in his hand, he ran back staggeringly, and shouted to Li Tian as he ran the barbarian: "Brother Tian, go!"

Li Tian rushed up, helped Manzi, and asked, "What's the matter? What about two-dimensional?"

"That lady Su Marie suddenly attacked me from behind. Fortunately, I reacted quickly, so I avoided the point and only injured one arm."

"It's all because I believe in Sumarie too much. I didn't realize that I suddenly attacked her. I was still injured!" The barbarian said angrily.

"How about two-dimensional?" Li Tian said with some worry.

The barbarian gritted his teeth and resisted the pain from the wound on his body, and said, "Two-dimensional is also hurt! When Sumary touched me, after two-dimensional found out, he came to rescue me immediately, but I didn't think of Sumary's strength is far stronger than the two of us. Both of us and 2D can only barely suppress Su Marie. But at this moment, I don't know where some people suddenly emerged. After those people met, they directly opened up to me and 2D. Gun. I ran back here, while 2D seemed to want to draw those people away, and ran in the opposite direction!"

As long as the two-dimensional run is fine. Two-dimensional is born to be a killer material, as long as two-dimensional runs away, they want to seize two-dimensional, I am afraid it will take a few lives!

Su Marie had already revealed her true face, and Li Tian was even more worried about Bai Jing and Situ Ningbing upstairs in the commercial bank. Li Tian was a little self-blaming, and naturally he had already seen that Sumari was not easy, and shouldn't be thinking about the feelings of the barbarians and putting everyone in danger.

At this time, the wounded soldier Li Tian supported the more severely injured barbarian with one hand and ran back towards the commercial bank lobby quickly.

In the buildings around the commercial bank, bounty hunters are constantly walking out of the city. These bounty hunters hold guns or carry knives, and their weapons are varied.

In just a few seconds, dozens of bounty hunters approached the city and surrounded the gate of the commercial bank.

Sue Marie walked to a man and said: "Brother Zheng, a woman ran away, and everyone else was blocked in the commercial bank building!"

Li Zheng laughed and said: "It's okay, our goal is Li Tian! It doesn't matter if you run away one or two little guys. As long as Li Tian is surrounded by us, everything is enough!"

The barbarian hiding in the commercial bank saw Su Manli through the glass window, gritted his teeth with hatred, and said to Li Tian with a face of remorse: "Brother Tian, I blame me for being obsessed, and believing in a woman like Su Marie. Hurt everyone! I'm so stupid, how can I easily trust strangers!"

When he said this, the barbarian's gaze still swept past the captain, but it was a pity that the captain's eyes were covered with thick bandages, and he couldn't see the manzi's eyes at all.

"Enough barbarians, you don't need to blame yourself at all, it's me who should blame myself!" Li Tian put down his backpack, took out gauze, potions, etc. from the backpack, and simply bandaged the injured arm of the barbarian.

At this time, Li Zheng and his people had already surrounded the commercial bank. Li Zhengda stood at a position less than 100 meters away from the gate of the commercial bank, with a long knife in both hands. On the ground, shouted into the bank: "Li Tian, you have been surrounded by our soldiers, come out and have a talk!"

Li Tian and Manzi hid behind a wall, Li Tian whispered disdainfully: "Idiot, what can I say to you!"

"Li Tian, is also a fifth-level bounty hunter in the Sunset Fortress. Actually, we might become friends. But, where did we entangled in the city and offended you Li Tian, why did you kill our cadre Huerle?" Li Zheng said angrily.

"Who is Hu'erle?" Li Tian didn't remember that he knew such a person, let alone when he was enmity with the soldiers!

However, now that the soldiers approached the city to calculate Li Tian and others, and Su Marie attacked the barbarian again and injured the barbarian, this hatred was settled.

In this era, only the strong have the right to speak, and Li Tiancai does not believe that Li just wants to talk to him about these issues.

"Even if Huerle is wrong in every way and conflicts with you in the bounty hunter branch, it is his own self-inflicted, blindness to Tarzan, and you punish him, that is what he should be. But why did you kill him? Don't you, Li Tianzhen, think you can cover the sky with one hand if you know the cadres of Qijian?" Li Zheng shouted angrily.

Li Zheng said that there was a conflict in the Bounty Hunter branch, and Li Tian remembered who Huerle was.

But Li Tian didn't kill him at the time, and Hu'erle left unscathed.

Is there any misunderstanding in this?

"Brother Zheng! What are you talking nonsense with them? Since you have given them enough face, and if they can't come out, then don't blame us for being rude!" Behind Li Zheng, a short fat guy put the bazooka behind him on his shoulders. In the first fight, the bazooka had been aimed at the door of the commercial bank, and the short fat man said with some dissatisfaction.
