

A Killer 3351

Chapter 3351: Duanmu Sakura's Man (2)

"The man of Duanmuying? How is this possible? Duanmuying is the top ten woman in the Forbes personal strength list of women!"

"Sakura Legion? This Legion is one of the top ten legions, even in the world, it can rank in the top 50!"

A burst of discussion broke out in the banquet hall again, and this time the discussion was even louder than before!

"Li Tian turned out to be Duanmuying turned out to be Li Tian's woman?"

"No, no, it should be said that Li Tian is the man from Duanmuying!"

"Is there a difference?"

"Of course there is a difference. If Li Tian is the commander of the top ten army, then it is no problem to say that Duanmuying is Li Tian's woman! But now Duanmuying is the commander of the top ten army. Speaking of Duanmuying Not to mention in the northwest region, even in the whole country, it is a well-known name, and even in the whole world, Duanmuying's name can be put on the name! As for Li Tian, how many people know him when he comes out of the northwest region Who is it, it is better to say that the man from Duanmu Ying is famous!"

"So, Li Tian is the king of soft rice?"

"Haha! I can't say that. After all, isn't Li Tian's job now to unify the Northwest region? If the Northwest is unified, then Heaven will become one of the strongest legions that can be compared with the top ten legions. , We can't say that Li Tian is the king of soft rice!"

Li Tian stood awkwardly on the rostrum. Although Lily's click did make many people who questioned shut their mouths, Li Tian's face was a little uncontrollable. After all, in today's world, male chauvinism is still more prevalent.

Arslan stood up, laughed loudly, and shouted to the stage: "Sister Lily, you did a beautiful job!"

Ender crushed the bones of the chicken paws in his mouth, "Bah!" "Bah!" He spit on the ground, clapped his hands, and said, "It's really disappointing. Originally, this material was going to be exploded by my old man. , I didn't expect it to be exploded by Lily Girl!"

After a brief period of embarrassment, Li Tian's face had returned to normal, and he continued to speak to the audience: "Yes, Lily is not wrong at all. Li Tian is the man from Duanmuying! In other words, I can be behind the heavens. I also have the Sakura Legion as a strong backing. This is why I am qualified to declare war with other organizations at the same time!"

Now that Lily Girl, a mindless guy, had already spoken out, Li Tian had no choice but to take advantage.

"Shameless, shameless, a man can say so sober and sober as eating soft rice, I'm speechless!"

Dou Kangcheng couldn't wait to jump from his seat, walked slowly through the crowd, came to the rostrum, jumped onto the rostrum, and shouted at the urgent taker who didn't even come to the microphone, and shouted: "I belong to the Warring States Period. Master Dou Kangcheng! Here I

first express my position that our Warring States Period is willing to join the heaven and accept the leadership of the heaven."

Hao Yingjie stomped his feet secretly, and said with a bit of annoyance in his heart: "I was preempted by this guy again. But I can't fall behind at this time!"

Hao Yingjie also ran to the rostrum and shouted to the audience: "Our Spring and Autumn Five Hags organization stands firmly on the side of the heavens, and all the enemies of the heavens are the enemies of our Spring and Autumn Hags!"

There are these two small organizations in the hot spot, and the leaders of other organizations on the scene constantly rushed to the rostrum to express their views, saying that their organizations are willing to accept the leadership of the heavens and become part of the heavens.

Later, the rostrum was full of people, and those frozen heads were squeezed out of the ground. At this time, who would care about these worthless heads!

"Gan Shen Zhan Ji is willing to become a part of the heavens and accept the leadership of the heavens!"

"The gods are willing to become part of the heavens and accept the leadership of Li Tianda!"

"..."

Later, there were no more people on the podium, and everyone shouted from the audience that their organization was willing to accept Li Tian's leadership and become part of the heaven.

Li Tian didn't expect that he had made so much preparation, and Lily's last sentence was not as useful as the last sentence of Duanmuying's man, so many organizations would stand in line, willing to join the heaven.

Of course, this is just Li Tian's guesswork. In fact, from the forefront Li Tian sent Tang Xiaolong, Barbarians, Captain and Baihe to kill the small and large organizations near the Heaven Realm. They have already killed many organizations. . And after a series of preparations, such as the shock of the head of the Lord, the refuge of the current head of the scarlet blood, and so on, many organizations present have secretly decided to join the heavens, but Lily's words acted as a catalyst.

After all, in the apocalyptic era, the ten legions are already absolutely powerful, even if they are far in the northwest region, these organizations are not willing to provoke an existence as strong as the ten legions.

The banquet ended successfully in such an atmosphere full of drama.

"Where is Brother Tian?" Just after the banquet, the captive suddenly ran over and bumped into Tang Xiaolong. After seeing Tang Xiaolong, the captive stretched out and grabbed Tang Xiaolong's hand, and said anxiously.

"What's wrong? Brother Tian just went to the conference room and is about to convene a core cadre meeting!" Tang Xiaolong saw the prisoner's anxious look, and asked quickly: "What happened? Is it a zombie riot?"

The captive shook his head quickly and said, "No! The Zombie Research Institute has a problem! I need to tell Brother Tian to face now!"

Tang Xiaolong knew that Li Tian valued the entire Zombie Research Institute very much, so he didn't dare to neglect, and hurriedly took the prisoners to the conference room of the Celestial Headquarters.

In the meeting room, Li Tian, Situ Ningbing, Wang Rui, Two-dimensional and other core figures of Li Tian were all present. Lily and Fatty Alslan were also fortunate to participate in this meeting. In addition, there were truncheons. Most of the core cadres who came from the original sunset fortress, such as Nan, Han Gang, and Wei Wu, were also present. All the core cadres of Seven Swords before, except for He Zhizhuo and Shelipuding who left the heavens, were all dead, so There is no one from the previous Seven Swords.

Tang Xiaolong didn't knock on the door, he broke into the meeting room, and the prisoner rushed in panting.

The captive put his hands on his legs, panting heavily, and said: "God... Brother, something has happened to the Zombie Research Institute!"

Seeing the captives look like this, Li Tian couldn't help feeling tensed. He didn't blame the captives and Tang Xiaolong for their recklessness. He quickly stood up and said, "Slowly, what happened to the Zombie Research Institute?"

"Dead! Nine out of ten zombies in the Zombie Research Institute were killed by a young man!" The captive glanced at Wang Rui, his eyes flashed unbearable, but still said: "Wang Qiang is also dead!"

Chapter 3352: I did it

Hearing the news of Wang Qiang's death, Li Tian didn't feel anything in his heart, but Wang Rui couldn't help crying silently anymore.

For so long, Wang Qiang has been in this state of being a zombie. Although Wang Rui didn't care about it on the surface, she still worried about her mentally. Even if Wang Qiang is a zombie, that is also her Wang Rui's younger brother, and even if he is a zombie, it is better than nothing.

Moreover, Wang Rui has never told anyone that she actually has an expectation in her psychology, that is, one day the Zombie Research Institute of the Celestial Realm can develop a drug to completely solve the zombie virus, and then Wang Qiang can become a human again.

But now, all this has been shattered.

Situ Ningbing hugged Wang Rui, patted Wang Rui's shoulder lightly, and said, "If you want to cry, just cry! This may be a relief to him!"

"The fuck, who did it? You dare to cause trouble in the heavens. Isn't this a death hunt?" Wei Wu stood up abruptly and shouted harshly.

"Captive, who did you say did it? Let's rush out and seek justice for your Zombie Research Institute!" The Barbarian also drew the Azure Dragon Sword from the scabbard of a crocodile skin and said fiercely.

Li Tian gritted his teeth, his heart was full of anger at this time, no need to guess, it must be a good thing Liu Jun did.

"Situ Ningbing, you continue to preside over the meeting, Hao Chunjian, you tell them all about your plan. Barbarians, Tang Xiaolong and the two follow my murderous house!" The anger on Li Tian's face was fleeting, and he said calmly.

...

In the office of the president of the Celestial Bounty Hunters Association, Liu Jun ejected a row of black corpse crystals in front of Ande, sitting on the desk, with a smile that seemed like nothing at the corner of his mouth, and then held one in his hand. The corpse crystal gently tapped the tabletop and said, "Ander, these corpse crystals are my travel expenses to you! Please accept it!"

Ender looked at these brand new corpse crystals, his mouth twitched involuntarily, and said: "Liu Jun, where do you come from these high-level corpse crystals? Could it be...?"

Ender had guessed the source of these corpse crystals, but he was still a little uncertain, after all, this kind of thing was still beyond his understanding.

"That's right! These are the corpse crystals of the zombies in Li Tian's murder house! I had nothing to do, so I went for a walk in the murder house, and killed all the zombies that wandered in the murder house compound. These corpse crystals are freshly released, so many high-level corpse crystals are worth your salary for more than a year! Don't thank me too much, it's just my effort!" Liu Jun said with a smile.

"Bang!" With a sound, the little dwarf Ande patted the table heavily, got up from the chair angrily, and said: "Why? Why do you want to do this? You need to know that this murderous house is Li Tian's zombie research institute. The zombies here are more important than Li Tian's zombies in the Zombie Research Institute! And these zombies are all zombies for Li Tian's research, why do you want to do it?"

Seeing Ande patted the table heavily, Liu Jun jumped down from the desk, stretched out a finger, and poked another finger on Ande's brow, and said coldly: "Now this Bounty Hunter Association in the heavens, I, Liu Jun, is the president! Don't forget who you are! Would you take another shot of the table and try?"

Ender sat weakly on the chair. For this young man, his heart was still full of fear.

Liu Jun, a genius in the dawn of the Bounty Hunters Association, a ninth-level bounty hunter, but a super genius who has hunted down twelfth-level zombies. But it was such a genius who seemed out of place in the Bounty Hunter headquarters and violated the orders of the Bounty Hunter headquarters many times.

Only then was he demoted to the heavens and served as a branch president who was slightly partial to the city.

"Ander, are you confused? I'm a member of Dawn. My duty is to kill zombies. I don't care if the zombies are zombies mixed into human society, or zombies used for research! All zombies in my eyes are damned! Tonight I just gave him a small punishment for Li Tian's disrespect to me. It's okay if he knew that he was wrong. My senior can assume that nothing happened, but if Li Tian dared to stab me, then all the zombies in the heavens will be the target of my Liu Jun's attack!" Liu Jun said with a sneer.

"Oh, yes, and Ouyang Shiqing! Li Tian is also inextricably linked with this high-level zombie in the kingdom of the corpse, which really surprised me! You said, if I cut Ouyang Shiqing Kill, will Li Tian be more honest!"

Ande said blankly: "Okay, very good! I have handed you Liu Jun the bounty hunter organization in the heavens, so you can leave it to Liu Jun yourself! But I want to tell you, so far, No one who opposes Li Tianzuo has a good end! And don't forget, Li Tian is Duanmuying's man. If Li Tian has a long life and two shortcomings, will Duanmuying let you go?"

"Duanmuying? Li Tian turned out to be the man of Duanmuying? Ende, you are not old confused, are you? Duanmuying is the commander of one of the top ten legions. In ancient times, Duanmuying was the queen of a small country. Not too much, right? And Li Tian? At best, Li Tian is just a face of Duanmuying once." Liu Jun said disdainfully.

Speaking of Duanmu Sakura, Liu Jun couldn't help but think of what happened in Kyoto.

In Kyoto City, Liu Jun was stepped under the feet of Duanmu Ying in front of so many people, especially Duanmu Ying's disdainful gaze, which made Liu Jun still feel humiliated in his heart.

"Li Tian! Even if you are the face of Duanmuying, then I can't easily spare you! The humiliation I suffered in front of Duanmuying, I will find all of you to make up for it!" Liu Jun said with a sneer in his heart .

...

In the haunted house, the corpses of the zombies were lying in the compound arbitrarily. A layer of snowflakes had covered these corpses, but Li Tian could still see the tragic appearance of the zombies covered by the snowflakes!

With stumps and broken arms, every zombie's body was torn apart with bare hands, especially the head, which was directly torn apart with bare hands, and the corpse crystal was directly dug out from the brain.

"Brother Tian! The most annoying thing is the writing on this wall!" The captive opened a flashlight and shone it on the wall he said, and said angrily.

With the light of the prisoner's flashlight, Li Tian also saw that the wall was still scattered with the zombies' limbs and broken arms. From this, it can be seen that the characters on the wall are definitely Liu Jun's use of the zombies' residual value. It's written on Broken Arm.

"Li Tian! I did it! Sincerely, Liu Jun! Waiting for you to come to me to settle the account!"

Chapter 3353: God, **** him

"What is Liu Jun? Isn't it the vice president of a bounty hunter association? Even Ande needs to be polite when he sees Brother Tian. He is a guy who has no hair, and he dared to do so when he first arrived. Arrogance! It's tolerable or unbearable, and Auntie can't bear it either! Brother God, let's go and **** him!" Tang Xiaolong said angrily when he saw the words left by Liu Jun.

"That's right! Brother Tian, this Liu Jun is clearly hitting our heavens in the face! Brother Tian, fuck him!" Manzi clapped the scabbard of the Qinglong sword in his hand and said angrily.

Li Tian was also angry, and even Li Tian's anger was more than Tang Xiaolong and Barbarian.

This celestial realm is Li Tian's territory, and the rules of this celestial realm were also formulated by Li Tian, and Liu Jun dared to move Li Tian's zombie research institute and wrote such provocative words on this wall. This is not just to beat the heavens. The problem with his face.

If this matter is not resolved now, the prestige that Li Tian has finally erected in the northwest region will probably be lost.

At that time, all the preparations and all the efforts that Li Tian had made before, all the previous achievements were abandoned.

Fuck him! Must ***** him!

"Brother God!" the captive said a little aggrieved: "Our Zombie Research Institute has not had much after the battle of Jia Youlong. Now it is being killed by Liu Jun. Now the Zombie Research Institute can be studied. The zombies, that is, two or three kittens, are like an empty shell! I, the deputy dean, are really embarrassed!"

For Li Tian and others, zombies may be just research materials, but for prisoners, Liu Yihui and others, this is their lifeblood.

Now that their lives are broken, can they not be heartbroken?

Li Tian nodded and said: "I know the importance of these zombies to you is not so important to me Li Tian! Don't worry, I will definitely get back this justice! Captive, you can summarize the situation here. Report it to Liu Yihui later! Now you should hurry up and investigate again to see how many of these zombies can be saved!"

The captive nodded angrily.

"As for the zombies that the research institute needs, leave this to me to deal with! With so many criminals organized by the Red Blood, Li Tian will not take in so many useless prisoners and waste my food." Li Tian said with a sneer. .

"Brother Tian, what about Liu Jun? Should we just forget it?" Manzi asked anxiously.

"Forget it? How is this possible! Now is not the time for our Celestial Realm and the Bounty Hunter Association to tear their skins, but how could Li Tian let him off so easily, Liu Jun! He didn't say that Liu Jun would kill him. Am I a zombie in the heaven? Barbarian, you will drive to the headquarters now and find the captain for me! I want to take the captain to the Bounty Hunter Association!" Li Tian said with a sneer.

"Boom!" With a sound, the wall where Liu Jun wrote provocative words was half-collapsed by the barbarian. The barbarian patted the scabbard hung around his waist with his hands, showing a hideous face, and said with a sneer: "It's alright. I haven't done it for a few days! My big knife is already hungry and thirsty!"

"You idiot! You can talk to Liu Jun if your hands are itchy! What kind of thing is it to collapse my wall? Don't spend money on building the wall!" Li Tian said.

"Hahaha! You talk, I'm going to pick up the captain!" The barbarian showed a simple smile, turned and ran.

...

Kyoto City, to be precise, is New Kyoto City. Although it is already midnight, New Kyoto City is still brightly lit.

It used to be just a satellite city of Kyoto City. After the end of the world, after three years of development, the population of New Kyoto City has already exceeded one million, and it has become the largest city in the north.

Six of the ten legions have their headquarters here, and the headquarters of the Bounty Hunters Association is also here.

The headquarters of the Bounty Hunters Association is a building over thirty stories high. This building was formerly the headquarters of a large insurance company in this city. After the end of the world, this company died, and it was occupied by the Bounty Hunter Association.

The top floor of the headquarters of the Bounty Hunter Association is a modern multifunctional meeting room.

It was already midnight, but the huge meeting room was still brightly lit.

The five highest powers of the Bounty Hunter Association, four men, one woman and five old men, each wear a badge symbolizing the highest power of the Bounty Hunter Association. The five old people gathered around a small round table. In the center of the small round table was a flat screen. The five old men pointed at the text on the screen and were discussing something.

This is the most important round table at the Bounty Hunters Association headquarters.

And outside the small round table, there are nine men and three women, and twelve bounty hunters. These bounty hunters have different looks, but the badges on their chests are the same. This badge is in the entire Bounty Hunters Association. Send out twelve.

If the badges worn by the five old people symbolize the highest power of the Bounty Hunters Association, then the badges worn by the twelve people symbolize the strongest combat power of the Bounty Hunters Association.

The highest level of bounty hunters set by the Bounty Hunter Association is level 9, but the levels of these twelve have exceeded the level of nine, and even much higher than the limit of level 9, so there will be special promulgation. These twelve badges.

The highest authority in the Bounty Hunters Association headquarters is only five people, but now these five people do not show a group of harmony, but are red-faced arguing about a certain matter, completely inconsistent with their identities.

"Yesterday, Xiasha City encountered a corpse tide. Although three of the ten legions were fully resisting when the corpse tide was encountered, Xiasha City was eventually lost, and our branch in Xiasha City was not immune. This is the fifth wave of corpses in the past three months. The places where we humans have managed to gain a foothold are all destroyed!" said one of the five elders.

This old man's surname is Su, and everyone else calls him Su Lao.

"Humph! Three years of research. Except for researching some serums against zombie viruses, so far, the major legions and major forces have made no progress at all. According to what I said, what is the use of studying those bird zombies? , To treat zombies, you should kill them all, and directly obliterate all zombies from the earth!" said the oldest of the five elders.

"I basically agree with Liu Lao's point of view! But we have to think about everything in a dialectical way. Those zombies that have mixed into human society, as well as zombies in the wild, no matter how they are killed, I agree, but like major organizations The Zombie Research Institute or the zombies in the Zombie Research Institute have been controlled by major organizations. Not only will they not have a negative impact on human society, but they can also promote human research and cognition of zombies. Why should we kill them all?" An old man touched his beard and said.

Chapter 3354: Step back

"Lao Liu is right, and Gao Lao is right. But today we are not studying the issue of dealing with zombies, but about the issue of corpse tides." The old woman said.

This female old man was re-surnamed Gu Liang, with a single name of An, while the old man who spoke before had his surname Gao, and others called him Gao old, and the oldest one was named Liu.

This Liu Lao is a well-known hawk in the Bounty Hunter Association. He has always treated zombies with a firm attitude, that is, beheaded and killed. Even the zombies in the major research institutes in Kyoto City have this attitude. . And Liu Jun is his grandson.

"Yes, Gu Liang is right. In the past three years, the large-scale corpse tide occurred every six months in the first two years, and after the third year, such a large-scale corpse tide occurred every quarter. , And recently, there have been five occurrences in these three months! And these five corpse tides obviously seem to be disturbed by human factors, the corpse tides turned out to be directed at our human base!" Finally speaking The surname of the old man is Wu, and others call him Mr. Wu!

"If this continues, the strongholds that we humans have finally established near Jinghai City have been attacked by the tide of zombies. This is definitely a regression of our human society!" Old Wu knocked on the table and said.

"Huh! If you do what I said, gather all the power, and treat the land occupied by the zombies, we kill it inch by inch. I don't believe that there will be a corpse tide problem! At that time, the zombies may not be seen yet. By the time we humans, we have already run away! Jing Tao and the others have tried this, and it has a scientific basis!" Liu Lao expressed dissatisfaction with others' face, and said with a cold snort.

As for Jing Tao, sitting behind Liu Lao was a man wearing a green military uniform. His full name was Jiang Jingtao.

Jiang Jingtao is Liu Lao's confidant and beloved general, with super strength, even facing the siege of several twelve-level zombies, Jiang Jingtao can easily face it. But at the beginning, Liu Jun was able to kill level twelve zombies because he had Jing Tao by his side to assist him.

"Lao Liu! Now we are discussing the issue of corpse tide!" Wu Lao said a little displeased.

"Discussion? Did the corpse tide happen in Xiasha City? Can we sit here to discuss the reasons for the corpse tide? According to my opinion, we'd better send one of the strongest people to Xiasha City. Investigate it!" Liu Lao said disdainfully.

"For safety's sake, let's send two more powerful people to investigate, so that the investigation speed can be faster." Gu Liangan said.

"I have no opinion, but how many strongest people are appropriate? These strongest people are returning to the headquarters this time, but they are preparing to participate in the Forbes strength list after January!" Elder Su said.

After the end of the world, the former Forbes rich list has lost any meaning. Wealth is no longer the most important thing in the world. Instead, it is the Forbes strength list!

The Forbes strength list is divided into the army strength list, the personal strength list headquarters, and the female strength list.

Although the Bounty Hunter Association does not have the idea of contending for world dominance, it does not reject the Forbes strength list that can prove its strength. On the contrary, it pays more attention to it, because this list can not only enhance the image of the Bounty Hunter Association, but also It will help the Bounty Hunter Association to attract more outstanding talents into the organization.

"Send three people! Just let Jing Tao, Mo Jianyuan, and Xiao Qiuman go! Make Jing Tao tough, Mo Jianyuan has a black belly, Xiao Qiuman is cautious, and these three are old partners. Now!" Liu Lao said.

"agree!"

"no disagreement!"

"Okay! That's the decision!" Several elders unanimously agreed with Liu Lao.

"Next, let's continue to discuss the matter of competing for a higher ranking in the Forbes power list!" Gu Liangan said.

At this moment, a message appeared on the display of the small round table, and this message was marked in yellow. It can be seen that this message is relatively important, and it turned out to be the Celestial Branch that sent this message. The president.

Seeing this message, Liu Lao couldn't wait to say: "The Heaven Realm has been extremely active recently, and this message is marked as yellow. Let's take a look at this message first!"

Said Mr. Liu had already clicked on this message.

This message was sent by Ande. The general content of the message is that President Liu Jun has just arrived in the heavens, and his relationship with Li Tian, the lord of the heavens, is not harmonious, and President Liu Jun is good at advocating even studying the zombies in the heavens. The zombies in the courtyard beheaded and killed some.

In order to avoid the escalation of conflicts, the headquarters is also requested to transfer Chairman Liu Jun away from the heavens and appoint a new chairman.

Not only did Lao Liu not blame Liu Jun for what he did in the heavens, he was a little bit more happy in his heart.

"It's my Liu Jia Erlang, I have courage! There are few corpses in the northwest region. If Liu Jun can use the advantages of the Bounty Hunter Association to use the northwest region as a pilot and find a few places in the northwest region to make achievements, At that time, Liu Jun can be

transferred to a key position in the Bounty Hunter Association, and then other people will have nothing to say!" Old Liu thought in his heart.

"Hahaha! This Ande really can't make it on the table, and you need to send an urgent email for such a small thing!" Liu Lao had already made his own claim and replied a no!

This word means that Ande's mail has been directly rejected by the Five Elders of the Presbyterian Church.

...

Ander did not expect that the email he sent would receive a reply so quickly, but when he opened the email, he found that the reply to the email was only a no. Ande's face is quite ugly, not because his proposal was directly rejected by the five elders, but because he felt that Li Tian would definitely not give up. When the time comes, the two tigers will be injured, and this situation is Ander. The most unwilling to see.

Liu Jun walked from the desk to the chair of Ande, reached out his hand to lift Ande from the chair, then put it on the desk, looked at Ande jokingly, and said: "Ande, you go to the headquarters What was the result of the reaction? Looking at your face, I'm afraid it did not achieve your expected results, right?"

"Hahaha, my surname is Liu, and I have the same surname as Liu Lao among the five elders. Didn't you guess that we are directly connected? If there is no such relationship, why I am in Kyoto, killing the zombies of the top ten legions repeatedly Did the zombies in the research institute receive any harm?"

With a shocked expression on Ande's face, he said in astonishment: "Could it be...Is Liu always...?"

Ander suddenly wanted to understand.

Had it not been for Liu Jun's relationship, Liu Jun would have not known how many times he had died in Kyoto, not to mention that he would be transferred to the Celestial Realm as the branch president, and any one of the five elders in the Bounty Hunter Association They are all powerful people in power, and there are even rumors that there is a large legion behind these five elders.

In this case, Li Tian and Liu Jun, this is the rhythm of Mars hitting the earth!

"No, now I can't stop Liu Jun. It seems that I can only stop Li Tian! Take a step back and let Li Tian take a step back!" Ande thought in his heart.

Chapter 3355: further

Ander hurriedly jumped from his desk. At this time, he had forgotten Liu Jun's insult to him, and he just wanted to inform Li Tian as soon as possible.

"Boom!" With a sound, Ande just jumped off his desk and was startled by a loud noise. When he looked up, he saw that Li Tian and a few people had come to the office, and the door of this office was directly It was shattered by a fist of a black thin man beside Li Tian.

"Li...Li Tian, why are you here!" Ande said in surprise.

Liu Junhao stood up and said with a sneer: "Li Tian, you really didn't disappoint me, no, not only did you not disappoint me, you still filled me with surprises. I thought you would come to me tomorrow. , I didn't expect to be here tonight! Hahaha!"

Li Tian sneered and said, "The new enemies will not stay overnight. If I don't come to you today, I'm afraid it's not just me, Li Tian, but everyone in the heavens will not sleep today!"

"Yes! You have the courage to move our heavens, I think you are really impatient!" Tang Xiaolong said with a sneer.

"Brother Tian, Brother Xiaolong, why do you talk so much nonsense? Fuck him!" The Man Zi directly drew the Qinglong knife out, forming a semicircle, and said, surrounding Liu Jun in the middle.

Ander hurriedly ran in the middle, waved his hands on both sides and said, "No, no! This is a misunderstanding, it is a misunderstanding! Li Tian, you can't do it, you can't do it! President Liu Jun is..."

Before Ande's words were finished, Liu Jun had already begun to take the initiative.

"Hahaha, Li Tian, you are so courageous that you dare to bring zombies to come to me, wanting to show off in front of me Liu Jun, do you really think that Liu Jun dare not do it?" I saw Liu Jun chair He pushed back, jumped onto the desk, and rushed towards the captain like a bolt of lightning.

All of this happened between the electric light and flint, and the little dwarf Ender had no way to stop it, nor did he have the ability to stop it.

Liu Jun came quickly, and Tang Xiaolong's movements were not slow.

"Let me come!" Tang Xiaolong shouted loudly, directly blocking the captain and rushing towards Liu Jun.

Tang Xiaolong's anger suffocated, and he wanted to find Liu Jun's trouble long ago. At this time, seeing Liu Jun coming at him, naturally he would not show mercy.

The fourth level of the ten-fold refining body, with a force of more than two thousand catties, was like a wild horse that had run out of arms, directly blasting towards Liu Jun.

And Liu Jun didn't know Tang Xiaolong's strength, even if he knew Tang Xiaolong's strength, how could someone like Liu Jun avoid giving way, Tang Xiaolong used fists, and Liu Jun also used fists.

"boom!"

"boom!"

"boom!"

Between a contact, the two of them had already blasted out three punches in the air, and each of these three punches was real, head-to-head, and did not mean the slightest trick.

In mid-air, "Boom!" "Boom!" "Boom!" Three loud bangs were heard in succession. After the three loud bangs, Tang Xiaolong's body stepped back a few steps in a row, supported by the joint efforts of Li Tian and Barbarian Stopped, and Liu Jun hit the desk directly, smashing a good desk into a pile of fragments.

"It's such a powerful force. Compared with my power, Liu Jun's power is almost the same!" This was Tang Xiaolong's first understanding of Liu Jun.

However, Li Tian sees more clearly. Compared to Tang Xiaolong, Liu Jun is faster. If Liu Jun is not conceited and deliberately compares strength with Tang Xiaolong, I am afraid that after a punch with Tang Xiaolong, the remaining two punches This Liu Jun is about to fall on Tang Xiaolong.

After falling on the desk, Liu Jun sneered a few times as if he had not received any harm, and immediately jumped out of the debris on the desk.

"I didn't expect that in the small northwest area, there would be a Crouching Tiger, Hidden Dragon, and such a good player! I lost to you in comparison with strength, and now we have a faster punch!" Liu Jun's goal this time directly chose Tang Xiaolong.

Compared with his fist strength, he suffered a bit from Tang Xiaolong, but the loss is not Liu Jun's style. Liu Jun must make up for his fist speed.

"Okay! Don't I, Tang Xiaolong, still be afraid that you won't succeed!" Tang Xiaolong was not afraid, and rushed towards Liu Jun again with a loud shout!

"Li Tian, can't fight! This Liu Jun has a lot of background! He is Lao Liu's grandson!" Taking advantage of this time gap, Ande hurried to Li Tian's side and shouted at Li Tian.

Li Tian sneered. This sneer was not at Ande, but at Liu Jun. "What can I do if I have a good background? In my heaven, I broke the rules of the heaven and committed suicide with the zombies of my zombie research institute. Even if he is the grandson of the heavenly king, I can't beat Li Tianzhao!"

Between Li Tian and Ande talking, Tang Xiaolong and Liu Jun Xiang Yu again.

"boom!"

"boom!"

"boom!"

The speed of these three punches was faster. Before Tang Xiaolong's fist was stretched out in the first punch, Liu Jun directly blasted on his body. A powerful force made Tang Xiaolong's body tremble, but Tang Xiaolong's body couldn't help it. The ground took a half step back, and at this half step, Liu Jun threw two more punches.

A punch hit Tang Xiaolong's chest, and then Tang Xiaolong barely confronted Liu Jun with the last punch.

Liu Jun only felt that his arm was a little numb. He didn't expect that the black monkey's boxing power was so strong, even stronger than that of the average ninth-level zombie, but fortunately Liu Jun's boxing power was not weak. In addition, Liu Jun's punches were fast enough, and Liu Jun had the upper hand in the second round of confrontation.

If it is one-on-one, Liu Jun believes that he can play with the little black monkey in front of him.

But now it's not one-on-one, and Liu Jun doesn't believe that Li Tian will play one-on-one! Therefore, after retreating Tang Xiaolong continuously, Liu Jun suddenly changed the direction of attack and directly attacked the captain.

The captain was already watching Liu Jun and Tang Xiaolong fighting with all his attention.

The powerful power of these two people shocked the captain. Tang Xiaolong's power captain had already seen him. On the top of the Tianshan Mountains, even the red blood was beaten into meat sauce by Tang Xiaolong, but facing Tang Xiaolong, Liu Jun didn't even lag behind.

Just as the captain was shocked, Liu Jun's figure had already appeared in front of her.

"Huh!" With a sound, Captain's Three Thousand Worry Silk, like black silk, went away in front of Liu Jun.

"Hey!" Liu Jun sneered. Seeing the team leader's zombie skills, a hint of sarcasm appeared at the corner of his mouth. He was in the air, and he paused for a while, and directly let the team leader's black silk completely wrap him.

"Look at me!" Seeing that the long black hair of the captain had completely wrapped Liu Jun, he drew the Qinglong knife and stabbed it into the long black hair.

Only heard "Puff!", the sharp blue dragon knife directly inserted into the black silk.

"Is it over like this?" Manzi still had some doubts in his heart.

Chapter 3356: Boring

"Be careful!" Li Tian's heart suddenly felt alert and shouted to the barbarian.

The barbarian drew his knife forcefully, but found that after the Azure Dragon Blade was inserted into the black silk, it seemed as if it had been stuck by the owner, and he couldn't move at all.

Suddenly, the barbarian let out a scream, abandon the knife directly, and step back directly.

"What's the matter?" Li Tian said in shock!

I saw that the palm of Manzi's hand holding the knife had already been burned with a few fire bubbles, and at this moment, I saw that Manzi's Azure Dragon Knife turned red all over, as if it was being grilled by a fiery fire, and the Azure Dragon Knife suddenly With a sound of a knife, it flew out directly, passed through the wall, and flew out.

Barbarian didn't care about the pain in his palm, broke through the wall and went after the Azure Dragon Sabre.

At this time, the captain was also aware of the danger and wanted to take back her long black hair, but her movements were still a step slower!

"Huh!" With a sound, a ball of flames began to burn in front of the long black hair, and Liu Jun jumped out of the long black hair and rushed to the captain again.

The flame burns the hair very fast. If the flame continues to burn, the black hair of the captain is likely to be burnt with nothing, and the captain will catch the fire.

The smell of scorched hair permeated the entire room. Li Tian's heart moved, "Red Cut" and "Why!" He cut off the long black hair of the captain that was already on fire.

And Li Tian has appeared between the captain and Liu Jun. Facing Liu Jun's majestic fist, Li Tian did not give in at all, and slapped Liu Jun's fist.

Broken soul palm!

Li Tian's strongest hand so far!

"Boom!" Li Tian only felt that a hot sensation hit Li Tian's palm at first, and when Li Tian's palm hit Liu Jun's fist hard, Li Tian only felt a pain and was caught by the fire. The burning pain passed through his palm.

But Li Tian has no possibility of retreating. If he retreats, then the captain will face Liu Jun's attack. The captain is now only capable of level 7 zombies. Facing a super master who can slaughter level 12 zombies, Da The captain may not even have a chance to fight back, he is dead.

"Drink!" Li Tianqiang endured the pain, still patted the palm heavily. Li Tian's palm seemed to be slapped on a hot red soldering iron. Apart from the pain in his heart, his hands seemed to have been scorched.

And Liu Jun's inevitable blow was directly interrupted by Li Tian. Although Li Tian was injured, Liu Jun was uncomfortable.

Although the palm of the broken soul palm was not very strong, it blasted out like an infinite ocean, with full stamina, and waves followed by waves. In this palm faintly, Liu Jun unexpectedly felt a broken feeling in his arm.

"Humph!"

Even if their arms were broken, Liu Jun and Li Tian had already slapped, how could they shrink back!

There was another punch against Li Tian!

"Plap!" Li Tian directly patted Liu Jun's arm with another palm.

And "Red Zhan" has already followed Li Tian's heart, attacking the back of Liu Jun's head!

Liu Jun was aware of the danger behind the back of his head, but Liu Jun didn't have the slightest sense of crisis on his face, and he sneered at the corner of his mouth. Abandoning Li Tian, he turned around and threw a punch at "Red Slash" Liu Jun, and a ball of flames appeared on Liu Jun's fist.

"Idiot!" Li Tian said with a sneer.

This Liu Jun is really not easy. His ability is that flames appear on his fists. It's no wonder that Barbarian's Azure Dragon Knife suddenly became hot. No wonder that the long hair of the captain caught fire just now, and it's no wonder Li Tian patted it with two palms. It's like shooting on a hot red soldering iron.

However, Li Tian didn't worry about "Red Cut" at all with this flame.

After nearly half a year of cultivation, Li Tian and "Hong Zhan" have the same mind. As long as Li Tian's mind moves, "Red Zhan" will move with Li Tian's mind. Even if Liu Jun's flame is a real three-flavored fire, it will not burn Li Tian's "Red Cut".

Even if he could burn Li Tian's "Red Zhan", Li Tian would never touch the "Red Zhan" with his hands. How about Liu Jun's ability to withstand Li Tian?

"Huh!" With a sound, "Red Zhan" stroked Liu Jun's arm, leaving a hole more than half a foot long in Liu Jun's arm. The hole was not deep enough, but the blood followed Liu Jun's. The arms began to go out.

"Humph!" Liu Jun let out a low voice, and took advantage of the momentum to arrive in front of the captain.

Although the captain's face was horrified, he didn't shrink back. The white bone spurs stretched out from his arm, facing Liu Jun as a stab.

However, Liu Jun's figure swayed several times in the chaotic stabbing, and he escaped the spur of the brigade captain perfectly. Once he turned around, Liu Jun's body was already in front of the brigade captain. "Puff!" With a cry, Liu Jun directly inserted his arm into the captain's chest.

In an instant, Liu Jun had already retreated, and there was already a small black heart on Liu Jun's palm.

"Puff!"

"Puff!"

This little heart is still beating.

Although the captain did not feel pain, he lowered his head subconsciously and looked at the dark hole in her chest. The black mucus was flowing out of this dark hole, already infecting the captain's coat. Up.

A smell of corruption began to spread from this wound.

Li Tian, Tang Xiaolong, and Ande were all shocked.

"Brother Tian! I'm not worried!" The captain turned to look at Li Tian, his voice trembling.

The barbarian who returned to the office with the Qinglong knife happened to see this scene, his heart tightened involuntarily, an inexplicable feeling spread in the barbarian's heart, and then this feeling turned into anger, and this anger began to burn in the barbarian's chest. .

Liu Jun threw the black heart in his hand for a few times, and said with a brazen smile, "Hahaha! The world that is famous in the northwest is nothing more than that! Li Tian, this is how you provoke me to Liu Jun! I said. , I will kill all the zombies in the heaven! I said do it! And you? Where are the rules of your heaven? Where is your anger?"

"Don't stare at me like this. If the eyes can kill people, I would have died seven or eight times! It's a pity, your eyes can't kill people." Liu Jun said to Li Tian disdainfully, and then moved his gaze again. On Ande, he sneered and said: "Ander, this is the Li Tian you brag about? It's nothing more than that! With Qi Yujian, haha, it's just a joke in front of me! There are so many of them, three men , There is a female zombie, but I can't help it! But I..."

With a "bang", he smashed it directly, and the black mucus splashed on Liu Jun. Liu Jun didn't care about it. He showed a mocking expression and said: "I'm sorry, I tried harder! This heart was taken by me. Crushed!"

Chapter 3357: Crazy blow

"Shut up!" The Barbarian shouted suddenly, and saw that his face was full of anger, and the blue veins were about to burst out. The Barbarian walked slowly to the captain, holding the Qinglong knife in both hands, facing Liu Jun said: "Liu Jun, you successfully aroused my anger! Let you bear my barbaric thunder anger!"

Could it be that trick? There was a sudden alert in Li Tian's heart.

If the Qinglong sword technique that the barbarian learns is practiced step by step, if the cultivation reaches the extreme, it will release a blue dragon sword energy when swinging the sword to kill the enemy. But the master of this Azure Dragon Sword Art is also a two-hundred and five hundred, and there are still some opportunistic methods in this Azure Dragon Sword Art, which can allow the practitioner of this Azure Dragon Sword Art to release the sword energy in the initial stage.

But this opportunistic method will cause great harm to practitioners!

"Manzi, wait a minute! You can't use that trick!" Li Tian shouted at the manzi.

However, Li Tian still shouted slowly.

When Li Tian called out the name of Manzi, Manzi had already exhausted all his strength and swung a knife, and the tip of the knife was pointed at Liu Jun.

The air in the office was heavy, but nothing happened.

"Hahaha! Are you Li Tian invited to tease? Why, are you trying to hurt me with your sword? Hahaha, Li Tian will use your sword to fight against your sword, and you will hurt people with your sword! It's so funny! Liu Jun saw Li Tian's anxious expression, and his heart was quite nervous, but after the barbarian swung a knife, he found that nothing had happened, and immediately laughed and said.

Li Tian did not laugh at Manzi, and Manzi did not receive Liu Jun's ridicule at all, and there was still a faint smile on the corner of Manzi's mouth.

"Sure enough, this Azure Dragon Sword Technique is indeed correct. Although I took the risk this time, it also confirms the power of the Azure Dragon Sword Technique!" The barbarian was still suffering from the huge pain from both arms. Holding the Qinglong knife, pointed the tip of the knife at Liu Jun.

Among the Azure Dragon Swords, there is a green dragon phantom that moves around the Azure Dragon Sword. If you don't look carefully, it is very likely that this green dragon phantom will be mixed with the green dragon mark on the Azure Dragon Sword.

And as the phantom of the Azure Dragon moved faster and faster, the barbarian only felt that there was a huge weight on his arms, and there seemed to be countless hearts on both arms, and he started beating wildly.

"Boom!"

"Boom!"

As the beating of both arms became more and more violent, the Azure Dragon on the Azure Dragon Sword finally rushed out of the limits of the Azure Dragon Sword, and a trace of sword aura came out.

"Bang!" With a loud noise, the barbarian's arms exploded as if countless detonators were buried.

As the ***** explosion sounded, the Azure Dragon Blade Qi in the Azure Dragon Sabre finally broke through the last trace of restraint, and rushed towards Liu Jun with a "hiss!"

Where the Azure Dragon Sabre Qi passed, a finger-deep gap appeared on the marble floor. This Azure Dragon Sabre Qi was like lightning in the dark, and it even felt like an electric dragon snake.

Liu Jun's staring boss, he did not expect that this unremarkable teaser would make such a move, and this Qinglong sword aura is as fast as lightning, and even in this Qinglong sword aura there is a powerful might. The pressure made Liu Jun breathless.

Liu Jun wanted to move his body to avoid this Azure Dragon Sword Qi, but he found that his legs started to tremble slightly at this moment, and his legs seemed to be numb and numb, and he couldn't control it at all.

"No, I am Liu Jiaerlang, how can I die here!" Liu Jun screamed in his heart!

At the moment when Qinglong Daoqi was about to split Liu Jun, Liu Jun's body moved a bit, but it was this one that made Liu Jun escape.

"puff!"

Blood splattered.

From Liu Jun's right leg up to his right shoulder, a huge wound exploded. The skin on which these wounds were located turned out completely, and the bones were looming in the faintness!

But Liu Jun was directly flew out by the Azure Dragon Sabre! It broke through the wall and fell into a pile of bricks.

After Liu Jun flew out, the Qinglong Knife fell to the ground with a "click", and the barbarian knelt on the ground weakly, his arms hanging down naturally and bloody. On the two arms of the barbarian, there are scattered pieces of meat hanging, and they look like they don't know how terrifying!

"Why are you so stupid? There is Brother Xiaolong! And Brother Tian! When is your barbarian's turn to do this?" The captain did not care about the black hole in her chest, and directly took out a roll of gauze from her backpack. Started to wrap Tang Xiaolong's arms.

The barbarian was already numb to the pain at this time. He just felt that the two arms no longer belonged to him. The two arms seemed to be barbecued in the flames. The barbarian barely smiled and said: "I...I see You must not be bullied!"

Li Tian was also shocked by Manzi's knife. When Manzi used this knife, Li Tian clearly felt a wave of dragon power.

Yes, it is Longwei!

For Qinglong, I am afraid that only Li Tian is the most familiar. Even though the sword spirit that Manzi used just now is not proficient enough, the trace of dragon power cannot deceive people.

"Barbarian, when the Azure Dragon Sword Technique is not enough to cultivate, you will not be allowed to use this trick again in the future! Now your two arms have become like this, even if you want to recover, it will be at least half a year later. You Too reckless!" Li Tian said unbearably.

"This...what is this?" Tang Xiaolong also felt very shocked. He cultivated the ten-fold body, and his body would be like metal, completely immune to ordinary swords. However, Manzi's sword energy just now made Tang Xiaolong feel powerless to defend.

If Tang Xiaolong were to face this sword now, the result would be the same as Liu Jun, who would fly out directly.

"Jiejie! What a strong sword spirit! I thought I was going to die here! It's a pity it's still a little bit short!" Liu Jun slowly stood up from the pile of bricks, shaking off the bricks that fell on him. , Walked step by step back to the office that was already full of holes, and said with a sneer.

Liu Jun's clothes were surrounded by blood and dust, and he couldn't see the heroic spirit of Liu Jun before, and he was limping when he walked.

"Not dead yet?" Manzi looked at Liu Jun in surprise, but he was already powerless to fight.

"Dead? Hahaha, even if I face twelfth-level zombies, I can retreat completely, how could I die in the hands of your trash!" Liu Jun said with a sneer.

"It's not dead! It's not dead! This is a misunderstanding! Please stop both of you! Let's sit down and talk slowly!" When did Ender see such a battle, after the initial panic, Finally awake, said quickly.

Chapter 3358: perish together

"Ande, there is nothing to do with you here, you should leave here as soon as possible!" Li Tian said to Ande.

Ander knew that he was useless now, he sighed, shook his head at Li Tian, and hurriedly opened the door and ran away.

"Li Tian! I want you to be restless with this injury today, and I want the four of you to come and bury me with you!" Liu Jun gritted his teeth and walked forward slowly.

"Funeral? Are you an idiot? If you want to die, just go and die! We have no sexual interest to die with you!" Li Tian said with a sneer.

"Look at who dies first!" Liu Jun snorted coldly, and suddenly accelerated, rushing towards the barbarian.

In fact, Liu Jun now feels a little bit at the end of the attack. Li Tian's two palms hit his arm, causing a faint pain in his arms. This kind of pain oozes from the bones in his arms. In pain, Liu Jun knew that his arm bone might have been hurt. And Barbarian's Azure Dragon sword aura caused Liu Jun to suffer a huge blow. This sword aura hurt Liu Jun half of his body!

But Liu Jun didn't want to just concede defeat. Liu Jun was able to dig the heart of a captain, and he could dig the heart of a barbaric. Even if he loses, he will suffer both losses instead of Liu Jun's own flee.

The barbarian was exhausted, and was already exhausted. Not to mention the challenge, it was a bit hard to avoid.

Even if the captain stood in front of the barbarian and dealt with Liu Jun, it would not help.

"Let me come!" Tang Xiaolong shouted, directly blocking the face of the man, rushing towards Liu Jun, and Liu Jun's fist had already fallen like raindrops.

Manzi knew that Liu Jun's punches were fast, and if he fisted, Tang Xiaolong would not be able to keep up with Liu Jun's punches, but Tang Xiaolong also knew where his advantage was, that is, he was thick and strong.

Liu Jun hit Tang Xiaolong with one punch and two punches. Tang Xiaolong was only tickling it, and Tang Xiaolong wanted to give up his defense, attack Liu Jun with all his strength, and conquer Liu Jun with his strength.

"boom!"

When the first punch fell on Tang Xiaolong's body, Tang Xiaolong immediately realized that the power contained in Liu Jun's punch was completely different from the previous one. Before, every punch of Liu Jun hit Tang Xiaolong. Xiaolong could hardly feel the pain, but now every punch of Liu Jun seemed to be a hot cannonball, and Tang Xiaolong was in pain.

And this hot pain will continue.

However, similarly, due to the injury, Liu Jun's fist speed was significantly slower. With every punch, Tang Xiaolong could see it in his eyes, and even punched him. But when the punch fell, Tang Xiaolong discovered that the punch he blasted out was not in line with Liu Jun's punch.

Tang Xiaolong received seven or eight punches in a row before he could hit Liu Jun with one or two punches. Tang Xiaolong's heart was also full of anger.

"No! You can't fist like this!" Tang Xiaolong closed his eyes directly, as if he had given up his attack, letting Liu Jun's fist hit him, and his body was like a small tank, directly hitting Liu Jun.

Tang Xiaolong rushed forward, while Liu Jun kept backing away, pulling the distance between the two.

"boom!"

"boom!"

"boom!"

With a punch and a punch, the violent impact sound was like a heavy hammer hitting an iron block, making a burst of metal-like noise.

Tang Xiaolong's whole body seemed to be on fire, and a red light appeared on his black face.

"Give up? Yes, let me send you to the west!" Liu Jun snorted in his heart, and the speed of his fists slowed down a bit, but the power of these fists was rapidly increasing.

Liu Jun felt that his punch had accumulated the strength of his whole body, and it was almost the same as Tang Xiaolong's punch. If this punch hits Tang Xiaolong's head, Liu Jun believes that even if Tang Xiaolong's head is made of iron, it can blast the brain pulp in Tang Xiaolong's head into slag!

Liu Jun threw a heavy punch at Tang Xiaolong's temple.

"It's now!" Tang Xiaolong heard the fist wind ringing in his ears, suddenly opened his eyes and said in his heart.

Tang Xiaolong didn't completely evade Liu Jun's punch, but tilted his head slightly, letting Liu Jun's fist brush his cheek.

A kind of fierce pain was passed on to Tang Xiaolong's face, but Tang Xiaolong didn't care at all, he clung to Liu Jun's body with a "click" with his hands, and it was a back fall!

This back fall seems simple, but coupled with Tang Xiaolong's power of more than two thousand catties, his hands are exerted at the same time, and this force has reached more than three thousand catties, this back fall is not easy!

"Boom!" With a sound, Liu Jun's body was smashed to the floor, Liu Jun only felt that his bones had broken a few more, and a mouthful of blood spurted out of his mouth.

The ground, which had been blasted with finger-deep cracks by the Azure Dragon Sabre Qi, shook a bit. After Tang Xiaolong's fall, the cracks became deeper!

Tang Xiaolong stood up swayingly, stretched out his hand weakly and patted Li Tian's palm, and said, "Brother Tian, it's your turn now!"

"Red Zhan" quickly rotated around Li Tian's body, and Li Tian walked towards Liu Jun who had fallen to the ground step by step with a sullen face.

Liu Jun moved a bit, vomited blood, sneered a few times, and said to Li Tian, "Li Tian, you can't kill people. Besides, you can't kill me or dare to kill me! You know my grandpa It is one of the five elders in the headquarters of the Bounty Hunters Association, and our Liu family is not a simple family. The strength of our Liu family's legion is also a powerful legion second only to the top ten legions. You'd better not burn yourself."

"Apologize? Are you sure you said I apologize to you, not you apologize to me? As for one of the five elders of the Bounty Hunter Association? What is that? I've said it before, even you It is the grandson of the heavenly king, and when you come to my heavenly world, you must obey the rules of my heavenly world!" Li Tian said with a sneer.

Li Tian, an idiot like Liu Jun, has encountered too many before. When they are strong, they are arrogant and unreasonable, and they even regard other people's lives as weed. Once they are violently beaten by others, they begin to move out of their elders in the hope of reconciliation.

For this kind of person, Li Tian just wanted to say: "Looking for death!"

"Hahaha, I know you Li Tian is not a person to wait! However, do you think you can kill me like this? If you apologize to me now, then I will assume nothing happened! Otherwise... Let's die together! Hahaha" Liu Jun suddenly laughed frantically and said.

With a "Gurulu", a black whistling guy rolled directly out of Liu Jun's body, and this dark caregiver turned white smoke.

"Grenade?" Li Tian exclaimed, and directly urged "Hong Zhan" to draw a circle on the floor, letting Liu Jun and the grenade fall on the lower floor together!

"Boom!" A loud noise came from the lower floor.

Chapter 3359: Escaped (1)

With a loud noise on the next floor, Li Tian only felt that the ground on the floor they were on was shaking violently a few times, but Li Tian and others were not injured.

Looking at the captain, barbarians, and Tang Xiaolong, Li Tian felt quite uneasy.

This Liu Jun's strength really exceeded Li Tian's expectations, and it was indeed abrupt that Li Tian brought the captain here.

But in terms of strength, this Liu Jun doesn't need to be much different from Tang Xiaolong, and coupled with his skill, and his body that can heat and burn, the strength of the whole person is far beyond Li Tian's expectations.

Before, Li Tian had been controlling him and wanted to develop in all aspects, letting Broken Soul Palm, Xuantian Fingering and "Red Slash" with Qi Yujian, walk on three legs. Therefore, he has been restraining himself from using "Red Slash".

But tonight, as soon as he fights Liu Jun, Li Tiancai knows that his soul-broken palm is not invincible in this end-time era. Especially when he encounters people with special abilities, his soul-broken palm will be subject to many restrictions. .

On the contrary, it is even more handy to control "Red Slash" with mind.

It seems that when you practice Broken Soul Palm and Xuantian Fingering, you can't give up the practice of controlling "Red Zhan".

Tang Xiaolong and Manzi were shocked at Liu Jun's strength.

Especially Tang Xiaolong, since he practiced ten-fold refining, he felt that his power is one of the few in this world. However, when he met Liu Jun today, Tang Xiaolong found only four-fold ten-fold refining strength. He is not the strongest in terms of strength.

"I still need to practice, and I keep practicing. When the tenth level of training reaches the fifth level, the power of a punch exceeds four thousand catties, and when it reaches the sixth level, the power of one punch is eight thousand catties. At that time I didn't believe who else was Tang Xiaolong's opponent!" Tang Xiaolong thought in his heart.

The barbarian was also thinking about the battle just now.

This Azure Dragon Sabre Art has such a strong power. If it is a sword energy of five or ten swords, or every time a sword is swung, it can easily release such a sword energy?

"The Azure Dragon Sword Technique is absolutely powerful, but unfortunately my barbarians are still too weak! Now it takes at least half a year to cultivate, this practice will definitely be delayed! But also, I can just borrow this half a year to raise the sword. Let Qinglong Dao and my Barbarian use the same induction! At that time, my Barbarian will no longer be able to produce a sword, and once a sword is drawn, it will be howling ghosts!" Manzi thought in his heart.

Don't mention how frustrated the captain is.

A zombie can still live without a heart, but without a heart, it means that the zombie will never turn back into an adult. Even if Li Tian's Zombie Research Institute develops a medicine, it won't work. After all, human beings cannot survive without a heart!

The captain is still a female zombie, and this appearance is just as important as life.

Looking at the black hole in his chest, the captain felt uncomfortable!

"Brother Tian! I...I'm not interested!" The captain said to Li Tian again.

"It doesn't matter, when I return to the Zombie Research Institute, I will ask the captive and Liu Yihui to transplant you a zombie's heart! Then I will graft you skin to ensure that you are exactly the same as before!" Li Tian said with some guilt.

"Brother Tian, I'm still a level 7 zombie! I'm so weak!" The captain said to Li Tian again.

"No, I'm about to go to war with Scarlet Blood. Before the war, I need to scan all the large and medium-sized cities in the northwest region to ensure that the corpse crystals of the eighth and ninth level zombies will be given priority to you so that you can advance!" Said.

"Captain, you just have no heart! Look at the barbarians, just heartless, both arms are almost gone, and he is still smiling silly!" Tang Xiaolong teased.

What reason does Barbarian not laugh?

The barbarian has always carried the captain on his back, but now it is the captain with his barbarian on his back, can the barbarian be unhappy?

...

When Li Tian and others came to the next floor, they found that there were dozens of corpses lying on the next floor. The identities of these corpses were naturally the staff of the bounty hunter branch, and these corpses were kept intact. There will be holes in the captain's chest, and more will be torn apart and torn apart alive.

"How could this be? Who is so cruel? Can kill so many people in a blink of an eye?" Li Tian's heart was startled. Before he and Tang Xiaolong and others came, there were no such corpses here.

Then it can only explain one thing, these corpses were produced when Li Tian and Liu Jun fought, or after the fight.

Tang Xiaolong rushed directly to the room under the office of the president of the Bounty Hunters Association, and found that the doors and windows of this room had been completely blown up by a grenade. The room was also in a mess, and on the floor of the room, there was a dark black. The man's body was lying on the ground.

Tang Xiaolong rushed in quickly and turned over the man's body. When he saw that this man was not Liu Jun, he couldn't help but exclaimed: "Brother Tian! This is not Liu Jun's body!"

Li Tian was shocked and walked over immediately.

This corpse was obviously killed by a grenade explosion, and there is no need to identify it, but from the wound on the surface of the corpse, it can be seen that this person is not Liu Jun.

"Liu Jun didn't die? How could this be possible? He was hurt so badly!" Tang Xiaolong said.

"I'm afraid those people outside were also killed by Liu Jun! This Liu Jun is really worthy of a level 9 bounty hunter, a man who has hunted level 12 zombies!" The barbarian said with some admiration.

Li Tian sneered, and said: "It is only his injuries, and it is impossible to recover for ten days and a half for a while. When encountering an ordinary bounty hunter, he can naturally kill it easily, but when he encounters our heaven What about the core cadre? Huh, as long as he is still in the heaven realm, he can't run away!"

"Tang Xiaolong, you first send the barbarian to the Heavenly Realm Hospital, and I will hunt down Liu Jun!" Li Tian said with a sneer.

The injury on Liu Jun's body was not light, and a series of blood stains on the ground immediately entered Li Tian's eyes.

"Huh! As long as there is this blood stain, I see where you go!" Li Tian ran along the blood stain.

Going downstairs, before reaching the lobby of the Bounty Hunter Association, Li Tian was almost tripped by the little dwarf Ande. The little dwarf Ande got up from the ground with a grunt. He was in a trance. He saw Li Tian with his face. His expression slowly calmed down.

"This is a trouble! This is a big trouble! Liu Jun was frantic, killed so many staff of the Celestial Bounty Hunter Association, robbed your car and escaped!" Ander said with a sad face.

"It's okay, isn't it just a car! Besides, as long as he doesn't run out of the heavens, Li Tian vowed to kill him!" Li Tian smiled slightly and said with ease.

"It's not a car! It's Liu Jun's identity. It's okay if you kill him. For the time being, the Bounty Hunter Association does not know about this. You still have enough time to prepare. But now Liu Jun is gone. He will definitely Report the news to Mr. Liu. Mr. Liu is eager to protect his calf, and he will definitely take revenge on the heavens! Li Tian, you need to be psychologically prepared!" Ander said.

Chapter 3360: Escaped (2)

Liu Jun felt that he was careless, and it was this carelessness that made him fall into the current dilemma.

There are two types of this kind of care. First, Liu Jun didn't expect Li Tian's Qi Yujian to be so proficient. He doesn't need to use his hands, he only needs to move his mind, and the **** weapon will move with his heart. . Secondly, Liu Jun mistakenly underestimated the strength of Tang Xiaolong and Manzi, especially Manzi's desperate blow, which caused Liu Jun to be deeply injured.

"If it wasn't for the guy who used the knife to suddenly release such a move, I would definitely kill everyone except Li Tian!" Liu Junqiang endured the pain in his body and drove the car into a rampage, directly out of the heaven.

It was late at night, the sky was surprisingly dark, and the heavens were completely plunged into darkness. The whole heaven was like a giant beast, lying on the ground.

The car drove slowly into a satellite city southwest of the sky.

After 8 o'clock in the evening in this satellite city, the whole city was cut off and the supply of all power resources was stopped. Therefore, this satellite city has already plunged into darkness.

But this did not affect Liu Jun. The two car lights were the only light in the dark. Liu Jun drove the car directly to the busiest street and found the only clinic in this small town.

The doctor in the clinic had already taken off his clothes, got under the covers, and was planting the land with his arms around the pretty little nurse! As a doctor in the last days, especially a doctor who can open a clinic in such a satellite city, that is definitely a matter of considerable strength and face.

And for this doctor, this kind of thing like hugging the little nurse is really normal!

When the little nurse was feeling well, she couldn't help groaning, and hearing the little nurse's groan, the doctor in the clinic became more motivated.

"Papa!" A series of physical collisions reverberated in the clinic, and the house full of spring had long been beyond control.

"No way, I'm going to die soon!" The clinic doctor gasped.

"Don't stop! Don't stop!" The little nurse stroked the back of the clinician's doctor, and couldn't help yelling, especially boldly.

The little nurse was screaming, when she suddenly saw a dark shadow standing behind the clinic doctor, she couldn't help but scream.

And the little nurse screamed, the clinic doctor couldn't help but soften!

"Xiaomei, your name is getting more and more adept. I couldn't help but shoot!" The clinic doctor climbed on top of Xiaomei's plump body, letting the sweat flow down.

"There are...someones!" Xiaomei didn't dare to reach out, and said in a trembling voice.

"I have locked the door of the clinic from the inside. There are only two of us in this clinic. How could there be anyone else! What you see may be the shadow of a skeleton specimen!" The clinic doctor grumbled slowly.

Liu Jun coughed softly, proving that Xiaomei did not make a mistake.

The clinic doctor was startled and rolled directly off Xiaomei. He sat on the ground and said tremblingly: "Who are you... who are you? How did you... come in?"

Liu Jun took out a cigarette from his body, lit it, took a cigarette, then sat down on a hospital bed, and said, "Don't care who I am, how I got in! I am injured and need to stop the bleeding. Disinfection and wound sutures are needed! Do you have an alcohol lamp here? I don't like talking to you in this dark environment!"

"Please go out! The clinic is off work! You come early tomorrow!" As soon as the clinic doctor heard that this man is a patient, he immediately became strong, stood up, and put on a doctor's white coat on the bed. Said sharply.

Liu Jun was not as knowledgeable as this doctor. His right hand took out a few corpse crystals from the skin on his body, while a light blue flame appeared from his left hand like a torch. He said by the light of the flame, "Here are five. Level 5 Corpse Crystal, you should know how to do it!"

The nurse Xiaomei and the clinic doctor trembled with shock by Liu Jun's exposed hand. When they saw the wounds on Liu Jun's body, the clinic doctor was so scared to speak.

Liu Jun threw all the five fifth-level corpse crystals to Xiaomei, the little nurse, and poured all the corpse crystals in the skin on a table, and said coldly: "The corpse crystal is yours! You should stop the bleeding and disinfection first. Suture the wound. I also need you to find a few people, this person must be good, and I need him to drive the car at the door overnight, go around the other three satellite cities, and kill all the outpatient doctors in the other three satellite cities. Light! Then drove this car to escape from heaven all night! As for whether they can come back, how to come back, that is their own business!"

There were seventy or eighty corpse crystals that Liu Jun fell on the table, and each of them was at least level four or five, and even six and seven corpse crystals! Seeing these corpse crystals, both Xiaomei and the clinic doctor's eyes lit up.

This is a huge wealth! With this huge fortune, let alone in this small satellite city, even in the heavens, you can live and enjoy life.

After a full minute, the clinic doctor recovered from the panic.

"It's my duty as a doctor to heal you, but you let us find someone to kill you. This...this..." Although the clinic doctor was tempted by the huge wealth, he was more worried about his survival. .

"You idiot, have you forgotten what my brother does? My brother is a second-level bounty hunter, and I can do this with my brother! Then we only need to give my brother half, not a third The corpse crystals are enough!" Xiaomei didn't care about putting on clothes, and put on a piece of clothing casually, holding all the corpse crystals in her arms, and began to count these corpse crystals!

"Your brother? Is your brother willing to do this?" the clinic doctor asked with some uncertainty.

"Yes, how could you not! Just taking out a few corpse crystals here is enough to make all the bounty hunters in this satellite city sell their lives!" Xiaomei said with a greedy look and said with a smile.

"Okay! Then you get dressed, then go to your brother! Be sure to keep it secret!" The clinic doctor started to pack medical equipment after speaking, he stopped bleeding, disinfected Liu Jun, sutured the wound, and put some drops on gauze. I hate to treat Liu Jun as his father!

But Xiaomei put on clothes in a hurry, and went out of the clinic to find his brother!

Liu Jun threw the cigarette ***** on the ground and found a comfortable position to lie on the hospital bed, with a sneer at the corner of his mouth, thinking in his heart: "Li Tian, you didn't expect me Liu Jun to escape? Wait for my injury It's a good time for Li Tian to die!"
