Chapter 3541: Temporary ranking (3)

The little lady returned, bringing Li Tian and others temporary ranking news. "Is there anything wrong, you didn't tell the organizing committee that we, oh no, it was Captain Li Tian's performance in hunting twelve-level mutant zombies, which made our team ranked last!" Liao Jie said. "It's not that I didn't report it, but your captain Li Tian asked me to keep it secret for the time being!" The little lady said helplessly. Zhu Jinhua has been wrapped into a pig's head, still not forgetting to instigate Li Tian and everyone, and said: "Hmph! I knew it must be Li Tian who wanted to swallow this twelve-level mutant corpse crystal. Now you believe it. Right?" "Ah, I'm going crazy!" Luo Xin rushed in front of Zhu Jinhua, punched and kicked Zhu Jinhua again, until Zhu Jinhua fell to the ground begging for mercy, Luo Xin gave up. "It's much more comfortable now. I believe that the captain must have his intention if he doesn't report it! If you dare to talk more, I will let your pig head and a pig body." Luo Xin said. Liao Jie said dissatisfiedly: "Damn, you got ahead of him. I wanted to beat him." "Should we do it again?" Luo Xin asked. Li Tian immediately stopped Luo Xin and Liao Jie's actions, and then said: "Reserve your strength and wait for a while to fight the high-level zombies! Today our goal is ten twelve-level zombies, do you have any confidence?" "Ten... ..Ten? Captain Li Tian, it's not bad for the three of us to kill a level 12 zombie. The rest is up to you, Jiang Jingtao and Gao Shuai!" Luo Xin said. Li Tian didn't force it, just to improve everyone's morale. After leaving the hotel, Li Tian and others greeted the tyrant Gao Gang, and then entered the subway tunnel. This time, Li Tian and others' luck didn't know whether it was good or bad. They passed through six stations in a row, but they didn't even encounter a decent zombie. The highest zombie they encountered was also It's only level nine. At this time, Liao Jie and Luo Xin were already a little worried. "Captain, I think we are going the other way? How could the level of the zombies we encounter get lower and lower? This is unscientific!" Luo Xin asked. Li Tian nodded slightly and said, "There is only one possibility, that is, other teams have already cleaned up on the ground. The zombies in this subway have been attracted by those teams on the ground and have rushed out." So what do we do? Should we also walk off the ground?" Windsor asked. "No, if we also walk from the ground, then we can only follow other teams and eat ashes." Liao Jie said. Li Tian nodded, and said to Liao Jie and others: "Liao Jie is right. If we walk on the ground, the probability of the zombies we can encounter will only be lower. Let's go now." The others had no objections, and then Li Tian went out again and negotiated with the tyrant Gaogang, and asked the tyrant Gaogang to go directly to the next six subway stations. "Li Tian, you have to think about it. After another six subway stations, you will be in the city? Although there is still some distance from the downtown area, there are many high-level zombies over there!" Gao Gang said. "Don't worry, wealth is in danger. If you want to complete the counterattack, you can only do so hard!" Li Tian said. "Okay, then I will not force you, but I will tell you the ugly things first. When the time comes, you will be in danger, and Gao Gang will definitely not rescue you. At that time, you will need to be the captain of your team. Take full responsibility!" Gao Gang said coldly. Li Tian nodded and rushed directly into the subway tunnel. Li Tian and Jing Tao walked in the forefront. The speeds of the two were very fast, while Luo Xin, Liao Jie, Windsor and Gao Shuai followed in the middle. Since Zhu Jinhua was beaten by Luo Xin, he deliberately pulled away. The distance between Luo Xin and Luo Xin fell in the end, walking with the photographer little lady. Li Tian and others are all people with cultivation skills, running fast

The speed is not much slower than the subway before the end of the world. After passing four subway stations in a row, Li Tian and the others did not encounter a zombie worthy of being shot. Most of the zombies were actually at level six or seven. When Li Tian and others entered the fifth subway station tunnel, they finally found out. "Something happened!" Li Tian stopped abruptly, and the people behind Li Tian also stopped quickly. "Papa!" "Papa!" came the neat footsteps in the subway tunnel. The sound of those footsteps seemed to be far away, but the footsteps echoed in the tunnel sound, but they seemed very loud. Just by listening to these footsteps, Li Tian could conclude that there were a lot of zombies in the dark tunnel. The little lady felt a little uneasy in her heart, she couldn't help but frowned and turned off the camera lights. Li Tian suddenly felt the nine-color corpse crystal on his chest turning

After a moment, the "Red Zhan" in Li Tian's hand also trembled slightly. "The level of these zombies is not low, most likely they are around level twelve!" The little lady came to Li Tian's side and said in a low voice, "I suggest that we still hide!" Li Tian's heart also feeling faintly uneasy, but behind Li Tian, only Gao Shuai's face was full of excitement, and the expressions on the other people's faces were very serious. "Retreat, let's retreat to the subway station we just walked through, and then guard the subway station tunnel exit to fight these zombies!" Li Tian said. "Okay" "Yes!" Liao Jie and Luo Xin said in trembling voices. Now that it had been decided, Li Tian and the others stopped procrastinating and ran back quickly. This time, Li Tian turned Jing Tao into the last two. "Papa!" "Papa!" The footsteps of those zombies were getting closer, and Li Tian guessed that their direct distance was close to within a kilometer. Li Tian looked back and saw the zombie as expected. Those zombies are not running neatly like a human team, but like animals, lying on all fours, running madly forward. Level 12 zombies, many level 12 zombies. Li Tian probably glanced around and saw at least thirty or forty level 12 zombies. As for whether there are other zombies behind that zombie, Li Tian doesn't know. Why do these zombies appear in this tunnel? Where are they going? At this time Li Tian could no longer think about these issues. With so many zombies, let alone hunted, it is already good to ensure the safety of other team members. "What to do? Don't just let these zombies go? These are countless corpse crystals, countless points!" Li Tian thought unwillingly. Suddenly, a faint light appeared on Li Tian, and Li Tian and others had already retreated into the subway station. "War, even if I am the only one, I will fight!"

Chapter 3549: System failure (3)

"Yes, points are not the most important thing. Li Tian, even if your points are the lowest, your strength has been unanimously recognized throughout Kyoto City!" A member of the organizing committee The staff member said with some comfort. The little lady handed a box of videotape to the staff of the TV station and said: "So it is so? If yesterday's videotape was a sensation in the city, then today's videotape is shocking the city!" "What?... ...Shocked the whole city? I heard that Li Tian didn't come back at noon? Didn't it...?" the TV station staff asked with some trembling hands. "Yes, you didn't guess wrong. Li Tian and the others came back to the camp and rested with enough confidence!" The little lady smiled, and then asked the staff of the organizing committee: "I asked about mutation yesterday. Regarding the corpse crystal, I don't know if the organizing committee has discussed the results?" The staff member immediately said seriously: "About the mutated corpse crystal, after discussion and decision by the organization committee, a mutant corpse crystal is equivalent to the same level. Ten corpse crystals!" Li Tian took out the corpse crystals of all the zombies hunted last night, including the corpse crystal of the twelfth-level mutant zombie, from the skin, and handed them to the organizing committee staff. "No...impossible? It turned out to be the

corpse crystal of the twelfth-level mutant zombie. That doesn't mean that Li Tian, your team has already reached 10,000 points for this corpse crystal? So, the first day. You are definitely not the last in the finals!" The organizing committee staff member said with some excitement. Originally, they were worried that Li Tian, the number one in the preliminaries, would be eliminated on the first day of the finals, but now it seems that they are thinking too much. This staff member can't wait to increase the points of Li Tian and others. In front of the LCD monitor outside the TV station tent. "Look, the Li Tian team's points have increased, and this time it has increased by 10,000 points, directly from the last to the bottom third!" Someone exclaimed loudly. "Look, there is a line of remarks added after the points. What? It turned out to be a twelfth-level mutant zombie. No wonder Li Tian and the others returned to the camp at 12 noon with confidence!" This is the courage of a master. But it is also hanging enough. They only went from the bottom to the bottom third, and their points were only a few tenths away." These people immediately began a round of comments. Li Tian was also mixed. "It's just from the bottom to the third. You know that since the finals, every day's points are accumulated. The greater the difference in the front, the harder it is to catch up. According to this situation, the most The day after tomorrow, his Li Tian team will also be eliminated!" Long Aoqiang resisted the anger in his heart and said disdainfully. However, as soon as Long Ao's voice fell, the points of Li Tian's team began to grow wildly.

"Look, look, the Li Tian team's points are starting to rise again!" "No, I just surpassed the points of five teams in a row!" "Damn! It's about to catch up with the dragon. Ao team's results!" Long Ao watched the Li Tian team's continuous increase in points, and the flesh on the corner of his mouth twitched slightly. He could no longer hear other people's voices, only felt his dry mouth. , The heartbeat is fierce. "Stop! Hurry up!" Long Ao screamed in his heart. "Zhi, it's already over Long Ao Team, and now I'm going for the first-place score!" Long Ao saw Li Tian's score, and he felt that his heart was completely ashamed, and there was a fiery pain on his face. I remember that when he was outside the arena, Long Ao still laughed at Li Tian, but he didn't expect that it was only the first day that Long Ao's face was severely drawn by Li Tian. "Thirty thousand points..."

"Fifty thousand points..." "Your sister, I'll catch up with first place soon." Someone exclaimed. "Fuck, sixty thousand points... already surpassed the first place!" When Long Ao watched Li Tian's points surpass Xu Yuan's team, he felt a sense of pleasure in his heart, as if he was talking to himself like self-comfort. He said: "Hey, as long as you are accompanied by Xu Yuan, my Long Ao's face is not so ugly!" "70,000 points..." "More than 80,000 points..." "It's not that the system is malfunctioning again, right? ?" Suddenly someone raised this point of view in doubt, and his view was immediately recognized by many people. "It should be. I already have 90,000 points. It's completely impossible. I can kill 80 level 12 zombies 24 hours a day!" "Don't think about it, it must be a system failure." Long Ao's heart again There was a glimmer of hope. "Failure! It must be a failure! The strength of the members of my Long Ao team is much stronger than that of your Li Tian team members. How could I lose to you Li Tian so much! Go up, keep going up! I think I will wait for Li Tian When you came out of it, what face did you have to face this result!" "There is a problem with the system, and now it has passed 100,000 points." "Still rising? Is there any mistake? Even if it is a system failure, this It's also gone up too much!" "Finally, it's over 110,000 points, nearly twice that of Xu Yuan's team." "Hey, the organizing committee staff also watched this. These idiots, I made the same mistake as the TV station." "Yes, first the approval rate broke down, and now even the points are broken. The Kyoto TV station and the organizing committee have a group of wine bags and rice bags. It's better to let me go. Yeah!" Li Tian didn't know what happened outside the tent.

When Li Tian took out the one hundred twelfth-level zombie crystals from the space of the Void Yaksha, the staff of the organizing committee were indeed shocked. Members of the organizing committee even thought that Li Tian was cheating. But soon, the organizing committee saw the answer in the video tape that the little lady gave to the TV station. "Guru!" "Guru!" In the tent, the sound of these staff members swallowing saliva was heard from time to time, and they were all shocked by Li Tian's battle scenes. "Nima, this Li Tian is so guarded against the sky, almost one person has resisted a small team. A hundred twelfth-level zombies! What a perverted strength this requires!" "Quick, Li Tian quickly The results will be announced!" When Li Tian walked out of the tents of the TV station and the organizing committee, he immediately attracted the attention of the onlookers in front of the display screen. Li Tian smiled coquettishly, and thought in his heart: "You stupid, right? Lao Tzu's strength has blinded the twenty-four titanium alloy dogs of your group, right?"

Chapter 3550: Black to powder

At eight o'clock in the evening, the twenty-four hours on the first day of the final is up, and all statistics are over. .

The members of the Xu Yuan team and the Long Ao team did not wait for the organizing committee to announce the system failure. Instead, they waited for the organizing committee to announce the results on the first day of the final.

The Li Tian team's points are overwhelmingly ahead of Xu Yuan's team by more than 50,000 points, and they are firmly ranked first.

The previous penultimate team was eliminated directly.

For this reason, the six members of this team gathered and brought their relatives and friends into the tents of the TV station and the organizing committee noisily, and went to the organizing committee to make a theory.

Long Ao, Xu Yuan and others also crowded outside the tent to watch the excitement, and wanted to see how the organizing committee ended up in the end.

However, in just a few minutes, all the members of this team came out of the tent in despair, did not even put a fart, packed their bags overnight, and went back to Kyoto City.

As for what happened in the tent, they did not say.

Although the people guarding outside the tent were very dissatisfied with this result, they had to accept the reality.

However, soon it was said that an insider broke the inside story, saying that Li Tian received special care because of the man who was the commander of the Army of Sakura and the grandson of the commander of the Army Soul Army, Mu Yunlong.

This revelation is justified and well-founded.

The whole camp exploded for a while.

Although the contestants of the various teams maintained restraint, their relatives and friends showed indignation, as if Li Tian had strengthened their wives and raped their sisters.

Even the members of the relatives and friends group came out one after another, gathered together, surrounded the tents of the TV station and the organizing committee, shouting loudly: "Shady! There is shady! We have to really want to!"

For this kind of idiot performance, Li Tian can only haha.

However, the leaders of the organizing committee and the top ten legions showed corresponding restraint on this matter, and none of them was willing to stand up and explain.

In fact, it is no wonder that being true to an idiot can easily lower your IQ.

In the end, the person in charge of the TV station really couldn't see the idiot behavior of these people. He walked out of the tent and said: "For those who have questions about the points statistics, please pay attention to the god-like man Li Tianzhi broadcasted on the Kyoto TV station at 9pm today. The battle that shocked the whole city".

"A man like a god? Is this what Li Tian describes? Shameless?"

"The battle that shocked the city? What kind of bird?"

"Now that there is less than half an hour before nine o'clock in the evening, we are gathered around this LCD screen and strongly urge the TV station to broadcast here!"

"Yes, let's just watch how this nasty TV station and the organizing committee can say the fake is true!"

For such a request, the TV station initially refused. After all, their TV station does not want to be threatened.

But I was worried that these idiots would do more extraordinary things, and Li Tian's video tapes did not add special effects, so the TV station later agreed.

And not only agreed. In order to improve their relationship with Li Tian, the TV station also decided to publicize Li Tian's heroic deeds in the camp and promote Li Tian for free.

At nine o'clock in the evening, the copy has been sent back to the TV station building in Kyoto City, and it will start broadcasting on all channels of the Kyoto City TV station on time.

Naturally, Li Tian's video tape is the best channel.

In the camp, Li Tian's videotape was played on time at nine o'clock in the evening.

Although the shooting technique of the little lady is still a little immature and somewhat different from that of professional photographers, this little lady has the essence of face-slapped and knows how to suppress first and then raise.

Therefore, at the beginning, the scene played out turned out to be Li Tian and his people fleeing hurriedly from the subway tunnel.

Seeing this picture, all the relatives and friends onlookers immediately burst into a ruthless ridicule.

"Hahaha, have you seen it, this is a ***** man."

"Are you sure this TV station did not come out of Hei Li Tian? A man who only knows how to run away is called a god-like man?"

"I'm ***** drunk too!"

"Sure enough! This Nima started to run away with his people before seeing the zombies? It's amazing that this kind of person can enter the final with the first result in the preliminary contest."

For a while, there was a lot of laughter among the crowd watching outside the tent of the TV station. These people tried their best to sarcastic Li Tian.

But soon, these people could not laugh.

Soon the LCD screen turned into a scene of Li Tian fighting with those twelfth-level zombies. Watching Li Tian fought **** and stubbornly supporting the zombies that flowed from the tunnel, the faces of these people were pale.

"Nima, how many level 12 zombies are there in this tunnel? Where did these zombies come from?"

"If I were to change me, I would definitely run faster than the rabbit. Is this Li Tian a fool? He even dared to kill these zombies in a subway tunnel."

"Right? Why didn't you see the tyrant Gao Gang? This... Does it mean that when Li Tian and the others were fighting these zombies, the tyrant Gao Gang was not by his side?"

The whole scene suddenly became quiet, only the sound of Li Tian and his teammates fighting on the screen.

At this moment they forgot why they came here, everyone's hearts were completely attracted by the battle scenes of Li Tian and others.

When Gao Shuai's chain was broken, Gao Shuai was injured, and Jing Tao, a member of the Fortune 500, was chopped into flesh by the zombies, everyone's heart could not help but tighten.

Under this circumstance, what would the captain Li Tian do?

escape!

Fighting guerrilla warfare while escaping, only in this way can you hunt down those hundred zombies!

This is the best answer given by all onlookers.

However, Li Tian in the picture did not run away. With the cooperation of Luo Xin and Liao Jie, Li Tian knocked the zombies back into the tunnel again and again.

Then everyone saw a magical scene, that is, the zombies in front of Li Tian suddenly disappeared, and then those zombies appeared one by one, and were easily tortured by Li Tian!

This is an extremely dangerous battle, and everyone who is doing it has to admit that they cannot do it.

And this was another joyous battle. Seeing Li Tian and the others easily slaughter the zombies in the end, everyone's hearts were filled with joy.

Finally, the picture freezes on the one hundred twelve-level corpse crystals that are shining with blue light.

Seeing these corpse crystals and seeing this battle, who would dare to say that there was shady?

Li Tian, a man from Duanmu Ying from the Sakura Legion, could obviously rely on his face to eat, but he chose to rely on his strength.

How many people can do this?

Li Tian, the grandson of Mu Yunlong of the Army Assassin Corps, obviously could be a third generation ancestor who bullied men and women, but chose to fight those zombies.

How many people can do this?

Everyone can't help but sigh: "This is a real man with iron blood!"

"Damn it, I want to turn black into fans, whoever dares to black Litian in the future is to fight me!"
Suddenly someone in the crowd shouted loudly.
