

## A Killer 3571

### Chapter 3571: Grab food

The ghoul subconsciously rushed to the head of the eighteenth-level zombies, and the ghoul's arm had already pierced into the void above the ghoul's head.

"puff!"

The ghoul's arm seemed to be waiting for the rabbit, and Li Tian actually hit his palm as the ghoul expected.

This palm directly pierced Li Tian's chest.

The ghoul had heard the sound of his palm tearing Li Tian's skin apart.

It's the pleasure of tearing apart the human body that makes the ghouls involuntarily laugh fiercely.

"Li Tian, did you think about today when you killed my corpse worm?"

The blood on Li Tian immediately began to flow outward along the ghoul's arm.

The smell of human blood made other zombies including the ghouls involuntarily excited.

"Humanity!"

"Blood!"

The zombies that had been retreating just now began to slowly move towards the ghouls. Although they did not dare to grab food from the ghouls, if they could get a little leftover food from the ghouls, these zombies would be happy.

But at the same time, these zombies were afraid of the strength of the ghouls, and the eighteenth-level zombies just now proved the best.

Including the head of the eighteenth-level zombie now falling under Li Tian's feet, also opened his mouth, greedily sucking the blood dripping on his face.

"Eat him!"

"Eat him!"

Around the ghouls, the senior zombies and super zombies kept crying in low voice.

Listening to the shouts of these zombies, Li Tian felt a little dissatisfied with his impulse.

Li Tian's teleportation has been known to many people. Once others predict Li Tian's next move, it will be the same as today. Others' moves will be moved ahead of time where Li Tian will teleport. With him, the final result was that Li Tian slammed his head against other people's moves.

"It seems that I am still too eager to get rid of the influence of Hong Zhan on me, which makes me fall into this unfavorable situation."

Since Li Tian has decided to temporarily get rid of the "Red Slash", then in the next strength match finals, Li Tian believes that with his current strength and the secret help of three small Yashas, entering the finals should not be What is difficult.

But what about the end of this Forbes power game? Li Tian was about to face hunting down the fourteenth-level mutant bear in the Qinling Mountains. At that time, his current strength was obviously not enough.

Moreover, the corpse crystals of these eighteenth-level zombies can play a key role in improving the level of Little Tianyi or the captain.

Once Xiao Tianyi or the captain reaches level fourteen or higher, then it can be a big help for Li Tian.

At that time, Li Tian will have a greater certainty to hunt down the fourteenth-level mutant mourning bear.

but.....

Now that the ghoul has guessed Li Tian's next actions, then Li Tian can only change it. Only by changing so that the ghoul can't figure out Li Tian's true thoughts can Li Tian be able to remove the eighteenth-level zombie Grab his head back.

At this moment, the ghoul suddenly saw the corner of Li Tian's mouth tilted upward, and a smile appeared on Li Tian's face.

This is a contemptuous smile.

"Laugh? What's so funny?"

"Does he think he can still steal the head of the eighteenth-level zombie in this situation?" The ghoul thought suspiciously.

The ghoul snorted coldly, stretched out a kick, and kicked the head of the eighteenth-level zombie under Li Tian's feet for a few meters. He looked at Li Tian playfully and said, "Do you want this zombie's head? The weapon Hong Zhan took out to fight with me, no matter you win or lose, I guarantee your safety, and the head of this eighteenth-level zombie belongs to you!"

"Red Sword", if it were before today, even if the ghoul didn't say this sentence, Li Tian would still hold the "Red Slash" to fight, but today, even if Li Tian was injured, he never thought of paying at this time. Out of the "Red Slash" battle.

There was still a smile on Li Tian's face, but at this time, Li Tian's smile had gradually changed from contemptuous to a winner's smile.

Seeing this smile, the ghoul was even more puzzled.

In the eyes of the ghoul, although Li Tian cannot be described as an ant, he is definitely a character who cannot turn any waves. Therefore, the ghoul dare to let "Red Zhan" come back to Li Tian, and let "Red Zhan" continue to change with Li Tian. Strong.

The reason why the ghoul asked Li Tian to take out "Red Slash" was only because the ghoul wanted to unlock the seal of "Red Slash" so that he could control "Red Slash" with greater certainty in the future.

"Hey!" Li Tian suddenly sneered.

Li Tian can be sure that this "Red Zhan" has some secrets, and Li Tian has already guessed the spirituality shown from the return of "Red Zhan" to Earth.

Tonight, "Hong Zhan" flew out without authorization, and escaped back from injury, while the ghoul chased "Red Zhan" to say what he said earlier, which strengthened Li Tian's judgment.

But the more so, the less likely it was for Li Tian to come up with "Red Cut."

I saw Li Tian slowly raised his left and right arms, slammed his palms against the ghoul's body.

"boom!"

"boom!"

The broken soul palm kept bombarding the body of the ghoul, and the ghoul sneered, but his body did not even hurt the slightest.

"You want to hurt me if you want to use such inferior moves? Your idea is too simple!" The ghoul said with a sneer.

However, at this moment, the ghoul only felt a painting in front of his eyes, that Li Tian's body was shot out continuously with the broken soul palm, and Li Tian's body had escaped from his palm.

"Huh!"

A figure flashed by, and Li Tian's body suddenly disappeared out of thin air.

"Not good!" The ghoul suddenly raised his head and looked at the head of the eighteenth-level zombie who had been kicked out by him ten meters away, but saw Li Tian's figure flashed past that zombie's head.

And the head of the eighteenth-level zombie disappeared with Li Tian.

The ghoul scurried away in that direction, and then the figure of the ghoul continued to shuttle through the compound of the National Design Institute, but he never saw Li Tian again.

In the hands of the ghoul, Li Tian could escape.

The ghoul only felt that his face was burning hot, and even the ghoul felt the look of contempt in the eyes of other zombies looking at him.

Soon, the ghoul remembered the whole story of Huangfu Kunpeng's sudden disappearance, and suddenly had a premonition in his heart.

"Does this Li Tian's teleportation is not just as simple as making his body move instantaneously? Does Li Tian also have the ability to instantly remove other objects or people? Humph, anyway, this time you Li Tian is successful The ground has attracted my attention! I want to see how much combat power your teleportation can boost you!" the ghoul thought.

"You, and a few of you!" The ghoul casually pointed and pointed to a few zombies of fifteenth and sixth levels. These zombies shivered and came to the ghoul tremblingly.

"From today, you will go outside the human capital of Kyoto and guard me. Once Li Tian comes out of Kyoto, you can kill Li Tian at any time! And you, no matter who it is, if you can kill Li Tian Heaven kills, then there will be another guardian zombie in this Kyoto city!"

Chapter 3573: Li Tian's decision (1)

"Hey, buddy, didn't you wake up? Didn't you know that Li Tian team only got more than 10,000 points today? It's still a good ride, you dare to say!" One of them has already inquired about Li Tian. The person who scored today in Team Tian said immediately with disdain.

The expression on Li Tian's iron fan's face was startled, and he couldn't believe what the man said, but he was Li Tian's iron fan at this time. Even if Li Tian didn't get a point today, he would still be firm. Standing beside Li Tian.

The iron fan immediately pointed to the display next to him and said: "Look at Li Tian's approval rate, it has reached 81%, which is an increase of more than 30% from yesterday, and the Long Ao team and Xu The total approval rating of the two teams of the Yuan team is less than ten. The eyes of the masses are sharp, and this is an iron proof."

"Look, Li Tian is here!" someone suddenly shouted.

Sure enough, the people surrounding the TV station's tent soon saw Li Tian and the little lady walking towards this side. When they saw everyone, Li Tian still slapped everyone with a confident smile on his face. A hello.

However, the careful iron powder found that Li Tian's face was not very good-looking, it seemed that Li Tian was injured, and there was a trace of paleness on his face.

Li Tian and the little lady walked into the tent. The little lady was responsible for paying the video tapes, while Li Tian went to the organizing committee area to submit the results from last night to this night.

On the TV station, they couldn't wait to open the videotape submitted by the little lady, and then began to watch the contents of the videotape.

The battle started. There was no picture of Li Tian for ten minutes, no picture of Li Tian for half an hour, and even after the battle, no picture of Li Tian was seen.

"Please stop joking, and give us the videotape of Li Tian's battle. You don't know how many people in Kyoto City are waiting to watch Li Tian's battle video!" said the TV station staff member.

"No, this is all today's video! In order to preserve his strength, Mr. Li Tian did not participate in the battle today." The little lady said seriously.

As for the organizing committee, they saw that Li Tian took out nine twelve-level corpse crystals, and then poured out a pile of corpse crystals with a crash. When they were excited, they saw the pile of light blue. The corpse crystals are not twelve-level corpse crystals, but a pile of eleventh-level and tenth-level corpse crystals.

"No more? Are you sure there are no more?" The organizing committee staff still looked at Li Tian with expectant expressions.

Li Tian nodded slightly, and said, "No more! That's all there is."

The organizing committee's staff could not help showing a trace of disappointment, but they quickly raised their spirits and said to Li Tian: "It doesn't matter, today's results are not bad, at least not falling to the bottom three. Tomorrow you have to cheer, my colleagues and I are optimistic about you!"

Although Li Tian wanted to say that he would cheer, Li Tian did not say anything.

After meeting with the ghoul, Li Tian made a decision, a decision to withdraw from the finals after participating in the finals.

In other words, Li Tian is ensuring that his team can stand out from the finals. After entering the finals, Li Tian will quit the game without hesitation.

But before making this decision, Li Tianxian needs to inform the other members of his team.

Li Tian's decision was definitely not a whim.

Li Tian saw Huangfu Kunpeng show his strength, saw "Red Slash" injured, and made a cautious decision after seeing the strength of facing ghouls.

After Li Tian returned to his tent, he immediately sent Tang Xiaolong, Situ Ningbing, Xue Ji and others to invite all the members of his team to his tent. He needed to tell them his decision.

Soon, Jing Tao, Luo Xin, Liao Jie, Windsor, Gao Shuai, and Zhu Jinhua all walked in in the tent of Li Tian team, and then took their seats.

All of Li Tian's relatives and friends were invited out by Li Tian.

Li Tian's gaze swept across the faces of these people slowly, and seeing Li Tian looking at them, even Zhu Jinhua couldn't help but straighten his waist.

From last night to this night, as the captain, Li Tian did not take action. He was guiding everyone in the fight as a leader.

The luck of the Li Tian team today is not good either. There are not many level 12 zombies encountered, but as long as they encounter, no zombie can escape the palm of everyone.

Regarding Li Tian's refusal, all members including Jiang Jingtao will not complain, but think that this is Li Tian deliberately exercising everyone's cooperation.

Only when everyone cooperates skillfully, this team can exert the strongest combat effectiveness.

As for today's game points being overtaken by other teams, Luo Xin and others didn't care. They don't care about the gains and losses of one city, one pool, but have already seen the final result of the finals, and even have begun to think about entering the finals.

They also thought that Li Tian called them to Li Tian's tent probably because of this.

Li Tian said with a serious expression: "Everyone, for various reasons and after my careful consideration, I have to regret to tell you that I decided...I decided to wait until the final result of our team can be guaranteed to enter the finals. Withdraw from the finals of the Forbes Power Contest. This is just my personal decision..."

With a sound of "wow," all the other members stood up, and the chairs under them fell to one side.

"Wh...what...? You said you want to withdraw from the finals? This...why is this?" Luo Xin stood up abruptly, his face full of surprise, looking at Li Tian in disbelief.

"It's not now, it's after ensuring that our team's performance is enough to enter the finals, I personally withdraw from the finals, it has nothing to do with you!" Li Tian explained.

Zhu Jinhua looked at Li Tian in astonishment, and said, "Captain, is it because our results are worse today? That day's results don't explain anything at all? And our team is still leading."

"Haha, what a sentence has nothing to do with us! Li Tian, are you too selfish like this? Yes, for now, you are the strongest of the seven people in our team, but don't forget that you are a captain. As a team leader, you have the responsibility and obligation to lead this team to achieve better results."

Gao Shuai showed a smirk and said, "Yes, with better results, I want to enter the top 500, and I want to achieve better results!"

No one cares about Gao Shuai's words.

Liao Jie looked at Li Tian with some excitement, and asked: "Why? Captain? Is it because our strength is weak, we are not qualified to achieve better results? If it is for this reason, then I have nothing to say to Liao Jie. Let's talk!"

Chapter 3574: Li Tian's decision (2)

Li Tian shook his head slightly, but did not continue to explain.

He couldn't explain, the more explained at this time, the more unclear the explanation.

"Okay! Since you made such a decision, then I am not reluctant. However, with your current attitude, it is no longer suitable to be the captain. Why don't you give up the captain and let me continue to lead everyone with Jing Tao!" Jiang Jingtao said unhappily.

Li Tian nodded and said: "This captain should belong to you! Although I will launch the game after our team has made sure to enter the finals, I will do my best during this period!"

Li Tian's words have already been said like this, so what else can others say, Luo Xin and Liao Jie were very unhappy and turned around and walked out, and Jing Tao also sneered and walked out.

Zhu Jinhua hesitated for a moment, and then walked out.

Only Li Tian, Windsor and Gao Shuai were left in the entire tent.

Gao Shuai said stupidly: "Hey, Captain, I know you are hidden, I know... Hey, I know! I'm not stupid!"

Gao Shuai showed an expression he knew, and walked out with a smirk.

Li Tian set his eyes on Windsor.

Windsor, who didn't speak from beginning to end, actually discovered that Li Tian's breath was different from the previous breath when he first entered the tent.

When Li Tian began to speak, Windsor keenly noticed that Li Tian's expression was not right.

"Li Tian was injured?" Windsor wondered in his heart.

But when was Li Tian injured? Windsor did not remember seeing Li Tian injured when she was with Li Tian.

Could it be the injury suffered after coming back tonight?

Could it be that Li Tian's injury was related to his withdrawal from the game after he announced that he had entered the finals?

However, Windsor did not call the name. Instead, there was a trace of concern on his face. He looked at Li Tian tenderly and said: "Captain, do you want to quit the game now? It's just because you are the captain. Our team quit the game after reaching the finals?"

Li Tian didn't expect that Windsor could guess his true thoughts, and was surprised, but Li Tian quickly returned to normal.

"Windsor, are you interested in coming to my Celestial Legion?" Li Tian changed the subject directly.

Windsor did not expect that Li Tian would throw an olive branch to her at this time. He was involuntarily stunned. He looked at Li Tian with some surprise and excitement, and said, "Why would you want to invite me to join the heaven?"

"Because my legion and I both need superpowers like you!" Li Tian said very straightforwardly.

However, Windsor smiled slightly and said: "Before meeting you, members of four of the ten legions had extended an olive branch to me, but I refused. But you are the only one. Invited me as a legion commander!"

"Then your answer? Although you come to our heavenly realm, you may not get more than in the other ten legions, but what I can tell you is that if you join the heavenly realm, you will follow me Li Tian, follow We grow up together in heaven." Li Tian said.

Windsor shook his head slightly and said, "Although I am very happy, I can't promise you! If I have nowhere to go in the future, I will come to you at that time, and I hope Captain Li Tian won't despise me! "

Said that Windsor went around the table and slowly walked towards Li Tian.

Li Tian's heart beat a few times.

"What do you mean? Do I just send out an invitation to get a kiss from the little loli of Windsor, or this little loli is so touched that she wants to dedicate her life to me?"

"If this is the case, should I agree or should I agree? Hey, it's really distressing, good-looking welfare is good!" Li Tian thought to himself.

Windsor came to Li Tian, put his hand on Li Tian's wound through his clothes, and said to Li Tian: "No matter what decision you make, I think you must have your consideration, and I will unswervingly Support you! When you withdraw from the final, I will also withdraw from the final!"

Li Tian only felt a trace of warmth passing from Windsor's little hand, and immediately began to feel a tingling sensation on his wound, and then an itchy sensation came from the wound.

This is a sign that the wound is getting better.

"This Windsor actually knows that I am injured? Does he know that from last night to today, Li Tian in the Li Tian team was not me?"

"People say that women have the most terrifying perception, and it is true!" Li Tian thought in his heart.

But since Windsor didn't expose it, Li Tian didn't need to speak out.

Li Tian asked: "Why? Why do you follow me when I withdraw from the finals?"

Windsor did not stop treating Li Tian, but said with a smile: "Because I believe you Captain Li Tian, if there is no Captain Li Tian, I am afraid our team will be eliminated on the first day. Moreover, entering the finals, My purpose of coming to the Forbes Power Tournament has actually been achieved. If I can enter the finals and become one of the top 500 members, then my goal will be over fulfilled. Then I will not need to continue fighting with them. Up."

Li Tian's eyes seemed to flicker when he saw Windsor. Li Tian guessed that there seemed to be other stories behind Windsor, but since Windsor was unwilling to tell it, Li Tian didn't force it.

As for Windsor's joining the heavens, Li Tian would not force it.

Li Tian has decided to pay more attention to Windsor in secret. If Windsor encounters any difficulties in the future, Li Tian will definitely help Windsor solve the difficulties without hesitation.

Windsor walked out of the tent, and Situ Ningbing, Xue Ji, Tang Xiaolong, and Goubi immediately walked into the tent.

"Little boss, why didn't you tell us in advance that you decided to quit the game?" Tang Xiaolong asked anxiously.

Tang Xiaolong feels that this is a once-in-a-lifetime opportunity in the heavens. If Li Tian can enter the finals and get some results in the finals, then the heavens will be in Kyoto, and even the whole country will be a famous army.

And his Tang Xiaolong is naturally rising, but Tang Xiaolong is not for himself, but for Li Tian's decision to rush to unwillingness.

Situ Ningbing came to Li Tian and said softly, "Li, did something happen?"

Li Tian glanced at Situ Ningbing tenderly, nodded and said, "I have met a ghoul, and I have fought against him, but unfortunately, I am not a miserable defeat!"

"Misery...a fiasco? How is this possible?" Tang Xiaolong, Situ Ningbing, and Xue Ji all asked in surprise.

#### Chapter 3575: Accept the interview (1)

Although Li Tian had decided to wait until the team entered the finals to withdraw from the game, and had already given up the captain's seat to Jiang Jingtao, in the next few days of the game, Luo Xin and others looked at Li Tian's performance. A trace of someone who wants to quit the game. ,

On the third day of the Forbes Power Contest finals, the Li Tian team scored more than 40,000 points. Li Tian killed nearly twenty twelve-level zombies alone, and the points he gained accounted for nearly one-half of the entire team.

On the fourth day of the Forbes Power Contest finals, Li Tian's team beheaded more than 20 level 12 zombies and three level 13 zombies, earning 50,000 points. Among these fifty thousand points, Li Tian beheaded three thirteenth-level zombies, earning 30,000 points.

On the fifth day of the Forbes Power Contest finals, the Li Tian team scored fewer points, only more than 30,000 points. On this day, Li Tian killed another level 13 zombie and killed eight level 12 zombies. , A person got 18,000 points.

It can be said that Li Tian alone stood up half of the sky of Li Tian team, and even if the other zombies were not killed by Li Tian, Li Tian's teleportation made the other members of Li Tian team safe and sound.

As the security leader of Li Tian's team, the tyrant Gao Gang has yet to get any chance to show his strength.

Under the stimulation of Li Tian, Jingtao, Gao Shuai, Luo Xin, and Liao Jie all played an extraordinary level, and while the competition, the strength of these people also improved to varying degrees.

Even Zhu Jinhua took out his weapon at the bottom of the box, and hunted down several level 12 zombies during the game these days. Even in this group, he also played a corresponding role.

Of course, the reason why the Li Tian team can achieve such a good result is completely inseparable from Li Tian's wise martial arts.

As early as when Li Tian was the captain, Li Tian decided to take his team members into the urban area of Kyoto City through the subway tunnel to hunt for high-level zombies. But Jiang Jingtao just implemented Li Tian's idea. Otherwise, how could there be so many high-level zombies for them to hunt down in the suburbs?

Moreover, Li Tian and others also changed locations every day through the extensive underground network. For example, today they fought at Sidaokou in the former Kyoto City, and tomorrow they will appear near Kyoto University.

Different from the strength of the Li Tian team, during the three-day match day, no matter the Long Ao team or the Xu Yuan team, their team's performance was considered normal, and their daily points were always maintained at around 20,000 points.

As for the other teams, they can get more than 10,000 points, even if they are very good.

The finalists have entered the sixth day.

In three more days, the Jue game will end and enter the final finals.

So far, five teams have been eliminated. There are more than fifteen teams. Only one team continues to compete for the finals.

At this time, the total points of the Li Tian team still led Yaoyao, leading the second-placed Long Ao team by nearly 70,000 points and leading the third-placed Xu Yuan team by more than 80,000 points.

The Li Tian team led the bottom three with a score of more than 100,000 points.

At this time, the Li Tian team's call to win the championship has reached unprecedented levels.

If nothing happens, for example, in the finals of the next three days, other teams earn more than 50,000 points every day, or if the points of Li Tian team basically remain the same, then they may surpass Li Tian team. Marked as a counterattack.

And this kind of accident is basically impossible.

Li Tian is the guarantee of points.

In the latest night's support survey, the support rate of Li Tian team increased by two percentage points, while the support rate of Long Ao and Xu Yuan team dropped again.

Now, even the Long Ao team and the Xu Yuan team have basically given up the idea of winning in their hearts, and they have set their sights on second place.

For this reason, Kyoto City TV station specially arranged personnel to interview Li Tian's team, and Li Tian has also agreed to accept the interview with the TV station.

On this day, news that Li Tian would accept an interview with Kyoto City TV was circulating throughout the camp. The newcomers such as Long Ao and Xu Yuan could only look at Li Tian with envy.

No way, who calls Li Tian the most concerned newcomer?

TV interviews, that only the commanders of the top ten legions and a small number of people can enjoy the treatment, even for the top 500 players in the previous session, only a few of them are eligible to be interviewed, and more people are only envious. Portion.

But you have to know that Li Tian accepted two TV interviews in just half a month. This is an honor that the last Top 500 players never had.

Li Tian's glory now can be said to be the commander of the ten legions.

In the evening of the same day, the news of Li Tian's interview was circulated by Kyoto City TV, and the news also said that the news of Li Tian's interview would be broadcast at the golden hour of that evening.

The entire city of Kyoto is boiling again!

In the streets and alleys, as long as you pay attention, you can always hear the people of Kyoto City discussing Li Tian's interview.

"Have you heard? Kyoto City TV is going to interview Li Tian! Wow, I really look forward to this episode. First in the preliminaries, and now the final team is the first, maybe the finals Li Tian can also get Very good results!" A Kyoto citizen Gulu said mysteriously.

Another person said with disdain: "You can really talk nonsense, we already knew it. My cousin's second aunt's neighbour next door, Xiao Wang, worked on the TV station. I heard what Xiao Wang said inside According to the news, it is said that the organizing committee of the Forbes Power Tournament has now focused on investigating Li Tian. If not surprisingly, the best rookie this year is Li Tian's!"

"Hey, I wish I could see this day earlier. But I have a unique news you must have never heard of!"

"What's the news?"

"I have a friend of a friend who works in the Bounty Hunter Association. I heard that the Bounty Hunter Association has thrown out an olive branch to Li Tian and asked Li Tian to be one of the top twelve powerhouses in the Bounty Hunter Association!"

"Cut, what am I going to do? You are also unique news? At noon today, the Bounty Hunters Association has contacted the TV station and asked to broadcast one of their announcements during the Li Tian Interview Festival. The announcement is to inform the world that Li Tian has officially become the Supreme King of the Bounty Hunters Association!"

"The Supreme King? What is it? Never heard of such a position in the Bounty Hunters Association?"

"Now you admit that you are out of date?"

"Okay, I admit, then you quickly tell me what is going on with the Supreme King?"

"Hey, the Supreme King is a position just created by the Bounty Hunters Association, a new position above the top twelve powerhouses!"

"I...grass...!"

#### Chapter 3576: Accept the interview (2)

At this time, Li Tian and his team members who were far away in the camp were ready to be interviewed by the TV station. The interview location was naturally in the TV station's tent.

In order to cooperate with this interview, the TV station staff in the camp also set up a simple stage in the tent. Two three-person sofas and two single leather sofas have been placed in the furniture city near the camp. Above the stage, three cameras were aimed at the stage from the center, left and right directions.

At this time Li Tian and others had already walked into the tent.

Regarding Jing Tao as one of the top twelve of the former Bounty Hunters Association and one of the top 500 members, he has also been interviewed by a TV station. When he walked into the tent of the TV station, he could still maintain the usual heart. But Luo Xin, Liao Jie and others looked exactly like this.

In order to accept this interview, Luo Xin and Liao Jie were absent-minded from the morning. When they went out to hunt zombies, the two also rushed into a men's clothing brand store. Several suits were uncovered from the warehouse of this clothing store.

The two wore suits and leather shoes, more like a pre-apocalyptic insurance practitioner.

Although Zhu Jinhua said that he didn't care about this interview, he cleaned it up secretly, washing himself completely, and changing into a set of clean casual clothes. He even ransacked a cosmetics company near the camp. I found some expired gel creams and put them on my hair.

The tyrant Gao Gang knew that his son was going to be interviewed by the Kyoto City TV station. He also dressed Gao Shuai. However, Li Tian disagreed with the tyrant Gao Gang's taste. What made Li Tian most incomprehensible was that, This Nima is now in May, and the highest outdoor temperature has reached 30 degrees, but what does Gao Shuai mean with a certain Lei Feng hat? Do you want to say that the people in your northeast region are all living Leifeng?

In contrast, Windsor was the most usual one. This little loli just changed and washed a set of clean clothes.

After watching Li Tian walk into the tent of the TV station, the host in charge of the interview stepped forward immediately, reached out and held Li Tian's hand, and said, "Thank you very much, Mr. Li Tian for accepting our interview in his busy schedule. , Is Mr. Li Tian ready?"

Li Tian nodded.

"Okay, then after you get my instructions for a while, you will walk onto the stage in order. Now I will go over and prepare!" said the host.

Then the host repeated to Li Tian and others the details that need to be paid attention to during the interview, including the walking order and arrangement of the personnel when they walked onto the stage later, and explained Li Tian and others in detail.

All three cameras were pointed at the host, and the host slowly walked to the stage and stood in the middle of the stage, first calmed down, then he raised the microphone in his hand and said in a gentle tone: "Hello, viewers in front of the TV. I am Xiao Lei, the host of the Forbes Power Tournament of Kyoto TV. Welcome to the most powerful show of this issue."

"In the past half month, a very grand event is being held in Kyoto City, which is enough to make the audience in front of TV the most concerned about. That's right, this event is the Forbes personal strength match!"

"I believe everyone still has fresh memories of the preliminaries about ten days ago. In the preliminaries, there were three players who broke the Forbes power contest preliminaries in a row and entered the finals."

"The best performance among these three players is naturally Li Tian, who entered the finals in the first place. As we all know, in the finals, Li Tian's team also leads all the way, and is the first to ensure the qualifications for the finals. !"

"Today we are fortunate to have invited Li Tian and all the members of his finals. Now let us invite them to the stage."

The camera slowly moved to Li Tian and the others, while Li Tian and the others slowly walked onto the stage in order, shaking hands with the host one by one.

"Please sit down, please sit down, everyone." The host returned to his seat and said.

But as soon as the host took a seat, he found that Li Tian and the others were not sitting in accordance with his request. The single sofa closest to the host was originally reserved for Li Tian, the captain. At this time, the seat was actually Jiang Jingtao.

The host was very surprised.

"It should be that Li Tian respected Jiang Jingtao, the top 500 player of the previous session, so he gave this seat to Jiang Jingtao, but that's okay. After all, Jiang Jingtao is a veteran. It shows Li Tian's humility, and it also allows Jing Tao to reflect Li Tian's strength from the side." This host thought in his heart.

"As everyone knows, when the random grouping results come out, you are not very optimistic. Some people even predicted that your group will be eliminated in the first day of the finals. But the final result is that your group will not only be eliminated on the first day. He was not eliminated in the finals, and the leading position was established from the first day, so I would like to ask, how did you do it?" the host asked.

According to the requirement in the interview notice that the host gave to Li Tian, the leader of Li Tian should have answered this question, but what the host never expected was that Jiang Jingtao would answer this question.

Jiang Jingtao stood up slightly and said: "Before the start of the game, it was not just people who were not confident in our team, but in fact, our team was also not confident in our team. You must know that our team was the only one who was the last one. The top 500 members, and the others are newcomers."

The camera slowly swept over Li Tian and others, Jiang Jingtao continued: "At this time, as a veteran, the first thing I must do is to build up confidence in these newcomers and let them know that even our team I am the only one among the top 500 players in the previous session, and it does not mean that we will be eliminated.

"The prince and general Xiangning is kind, and how many of the top 500 players in the last top 500 have made it to the finals as newcomers. After my words and deeds, these newcomers finally built up their confidence. Of course. All the members of our team are not weak, especially Li Tian, who entered the final with the first place in the preliminaries. I am very optimistic about him!"

The host raised his eyebrows involuntarily. He knew clearly that what Jiang Jingtao said was not all the truth. But at this time, as the key subject of this interview, Li Tian was completely silent, which surprised him too much.

"No, this is an interview opportunity that I finally won. I can't just miss it!" Xiao Lei thought to the host.

"Next question, I want to ask Captain Li Tian."

"According to the video on the first day of the finals, we know that your team was attacked by a hundred twelve-level zombies. According to normal people's thinking, the first choice for encountering so many zombies must be to escape and seek help. How do you think about it?"

Chapter 3577: Tribute to you (1)

Li Tian took the microphone from Jing Tao and said to the camera lens, "Oh, that's the problem. In fact, I suddenly encountered so many zombies at that time, and my heart was full of fear."

"However, at that time, our team was looked down upon by the outside world, and there were also some problems within our team, which can be said to be internal and external troubles. We desperately need a hearty victory to destroy the doubts from the outside and resolve the contradictions within the team."

"So at that time, after discussing with the members of our team, especially Mr. Jing Tao, we decided to deal with the zombies. As you can see, we succeeded."

"We were lucky enough to be ranked first in the finals. However, I need to clarify that the current captain of our team is Mr. Jiang Jingtao, and our team will continue to win more victories under the leadership of Mr. Jiang Jingtao. ."

"Wh...what? You said that the captain of your team is Mr. Jiang Jingtao?" The host Xiao Lei was obviously a little gagged, but he soon adjusted.

At this time, the staff of other TV stations on the outside and the staff of the Forbes Power Tournament Organizing Committee could not help showing a surprised expression.

Just before the start of the final, the captain registered by the organizing committee was Li Tian.

Moreover, judging from the past five days of competition, the results of the Li Tian team were very satisfactory, and there was no unsettled factor in this team.

But why did the captain suddenly change from Li Tian to Jiang Jingtao?

The expressions of the others on the stage were calm, and it could be seen that all the members knew well, and it was not a day or two that Li Tian was not the captain.

"Mr. Li Tian, did I misheard it? Or is there a deviation between what you said and my understanding? Are you saying that the leader of this team is Mr. Jiang Jingtao?" Xiao Lei asked.

Li Tian nodded and said, "Yes. You heard that right. Mr. Jiang Jingtao was one of the top 500 contestants in the previous session and was once one of the top twelve of the Bounty Hunters Association. He has rich combat experience. And extremely strong leadership ability, is the best captain of our team."

When he said this, Jing Tao straightened slightly confidently.

Xiao Lei's keen professional sense made him feel that his interview might not be as he had originally expected. Maybe this interview could reveal a big inside story.

Originally, the main line arranged by the TV station for this interview was to praise Li Tian in order to meet the expectations of the vast number of Li Tian fans and holders in Kyoto.

But now the situation has changed suddenly, and Xiao Lei has to temporarily change the subject of the interview.

Xiao Lei asked: "Then Mr. Li Tian, I know that you are the commander of the Celestial Legion. As a commander of the Celestial Legion, you should understand that a temporary change in coach will have a great impact on this team. I want to ask you now. What is the reason for you to give up your duties as captain, and let Jingtao replace him?"

Li Tian raised his head, his gaze slowly swept across the faces of Luo Xin, Liao Jie, Gao Shuai, and Zhu Jinhua, and finally fell on the faces of Jiang Jingtao and Windsor. He took a deep breath and exhaled slowly. After leaving, he said calmly: "Because...because...I decided to withdraw from the final!"

Li Tian's words directly caused the entire tent to explode.

All the staff couldn't believe their ears, and at the same time turned their heads to the other staff around them, trying to judge from the faces of other people whether he had auditory hallucinations.

"I... I heard you right? Li Tian just said he would quit the finals, right?" one of them asked.

The other person shook his head uncertainly and said, "I heard it right, I heard this too!"

"But why is this? The Li Tian team is already guaranteed to enter the finals with the current results. As long as it enters the finals, according to the rules and regulations of this Forbes power competition, the Li Tian team is already five. He is a member of the top 100, but the final ranking is based on the finals and finals. But why did he announce his withdrawal from the competition at this time?"

At the same time, on the stage, Xiao Lei also had the same question in his heart. He noticed that when Li Tian was out of the game, the other members of the Li Tian team did not have much

surprise. It is inferred that what Li Tian said today must have been communicated with his other members before.

Xiao Lei asked: "How... how is it possible? Li Tian, your team is now the number one team, and your team has already qualified for the finals. Why do you want to withdraw from the finals in this case?"

The expression on Li Tian's face suddenly became serious. Li Tian used an extremely heavy and serious tone to say the answer he prepared in advance: "The most precious thing about human beings is life, and life is only once for everyone. People. The scream should be passed like this: When reclaiming the past, do not regret for wasting years, nor be ashamed for inaction. In this way, when he is dying, he can say: I have dedicated my entire life and all my energy to The most magnificent cause fights for the liberation of mankind!"

This sentence comes from the protagonist of the famous book that teaches people how to cultivate steel. If you say it before the end of the world, everyone will laugh out loud.

But now this sentence was said by Li Tian with an extremely serious expression, and it had a surprising effect. Everyone on the scene was taken aback for a while, and then they were plunged into long contemplation.

The look in Windsor's eyes towards Li Tian changed.

"I thought I had seen through Li Tian, it turned out that I didn't know the captain at all. I really didn't expect the captain to have this big ideal and revenge in his heart!" Windsor thought in his heart.

Yes, fight for the liberation of mankind.

This sentence will definitely be regarded as a joke before the end of the world, but now it is three and a half years after the end of the world. Zombies are rampant on the earth, and the vast majority of humans have become the end of the era where zombies are ruled by the three corpses.

Isn't what mankind is pursuing is to liberate all mankind and drive the three corpses out of the earth world?

However, after three and a half years of development in the last days, mankind has gradually forgotten the fear of the last days, and even the major legions have begun to fight for fame and gain in secret, completely forgetting their original intentions.

However, Li Tian, this newcomer, even abandons the ego and completes the ego in such an important game, and uses the action of retiring to warn people not to forget the original intention.

"Li Tian, you are a real hero, I pay tribute to you!" The host Xiao Lei stood up and said to Li Tian very seriously, then Xiao Lei bent down again and bowed to Li Tian ninety degrees in respect

Chapter 3578: Tribute to you (2)

Although the content of the interview today is enough to cause a sensation in the entire Kyoto city, the interview with Li Tian team is still going on.

However, the next interview had to become another theme, which was to conduct in-depth explorations around Li Tian's withdrawal from the final.

At this time, the news that Li Tian had withdrawn from the finals was first circulated in the camp by a staff member.

There was a lot of discussion in the whole camp, and almost everyone was discussing Li Tian's withdrawal from the final.

"What? I don't believe that Li Tian will withdraw from the final?"

"Don't believe it? But it's a fact! At this time, when the Li Tian team was interviewing on TV, Li Tian personally said it, and at nine o'clock this evening, the interview program on Kyoto City TV will be broadcast."

"But... But why did you say Li Tian had to withdraw from the game? What good is it for him?"

"The reason why Li Tian withdrew from the finals is now circulating in several versions in the camp. Version one means that because there are still three days to play in the finals, Li Tian consciously has no hope of maintaining this result. He made an early announcement of withdrawing from the finals in order to achieve hype. His effect."

"Fart, \*\*\*\* shit! This is a rumor, this is a slander! Up to now, Li Tian's team still maintains the first place, and they have been ahead of other teams by at least tens of thousands of points. If Not surprisingly, their team must have entered the final with the first place. Does he need to worry about this kind of thing?"

"Version two, it is said that Li Tian showed the zombie nature when fighting. Every time he fights, Li Tian will be corpse. It may even hurt his teammates. Some people even suspect that Li Tian is the undercover of the zombie. For the whole For the safety of the team, the organizing committee issued an order and Li Tian had to withdraw from the final.

"You have corpse sex, and your whole family has corpse sex! Li Tian is the commander of the Celestial Legion. If Li Tian is the undercover agent of zombies, Li Tian is not undercover in the northwest area. Why come to Kyoto!"

"Version three, Li Tian has reached the realm of loneliness and defeat. Since participating in the Forbes power competition, Li Tian has not encountered an opponent. Therefore, Li Tian feels that this Forbes power competition is just a false name and decided to give up the competition."

"Well, there is some truth to this. However, the strength of my male \*\*\*\* Li Tian is not that strong, and it is probably a little worse than Huangfu Kunpeng!"

Dialogues like this are everywhere in the camp.

Soon, the news reached Long Ao's ears.

Originally, Long Ao was still envious of Li Tian, the kid who was interviewed by the TV station, but when Long Ao invited the news of Li Tian's withdrawal from the game, his mood suddenly became complicated.

Even Long Ao began to hate Li Tian in his heart.

If a strong opponent defeated Long Ao head-on, even if Long Ao was not convinced, at least Long Ao would feel that this opponent is worthy of respect.

But now, Li Tian actually chose to withdraw from the finals. This decision gave Long Ao the feeling that he was humiliated.

"Li Tian this bastard! From the beginning of the preliminary rounds, I kept humiliating me, one humiliated me to the final. Don't you feel that humiliating me is not enough? Now you are humiliating me by retiring!"

"Asshole, it's no wonder that the commander of the army has been thinking about having a fight with Li Tian. Very good. Now Li Tian, you will become my Longao's target. Sooner or later, I will also challenge you. We will have a fight. Fight upright." Long Ao thought coldly.

When the news of Li Tian's withdrawal from the game reached Xu Yuan's ears, Xu Yuan was taken aback for a moment, and then he was ecstatic, "Quit the game, this is your own choice, and no one is forcing you! Although you can't continue on the same stage with you It's a bit of a pity to compete, but we have a chance to win the first place! Then the first place result is real!"

And the news of Li Tian's withdrawal from the game soon reached the ears of the big guys from the top ten legions, and these big guys had different expressions when they heard the news.

Some showed regret, some showed disdain, and some showed an expression of indisputability. Of course, some expressed support for Li Tian's decision.

...

The TV station staff in the camp, after filming the interview videos of Li Tian and Li Tian's school team, sent the tapes back to Kyoto TV Station in New Kyoto City as quickly as possible.

Before nine o'clock in the evening, the TV station first broadcast the announcement of the Bounty Hunters Association.

Li Tian has officially become the supreme king of the Bounty Hunter Association, enjoying the highest treatment outside the Bounty Hunter Association's five elders.

The entire city of Kyoto was plunged into ecstasy. This is the honor Li Tian deserves.

At nine o'clock in the evening, the videotape of Li Tian and his team being interviewed was shown on the TV station without much editing in order to maintain the original feel of the interview.

When Li Tian said that he was about to withdraw from the game, it is no exaggeration to say that the new city of Kyoto fell into silence at that moment.

Throughout Kyoto, the audience of more than one million people was shocked and speechless at this moment.

"Why? Why did Li Tian quit the game?"

"Is it a shady? Is it because the Ten Legion has already felt the danger from Li Tian and forced Li Tian to make this decision?"

But soon, they got the answer.

But when they heard Li Tian utter the famous saying, almost everyone burned.

This is the reason!

If it weren't for Li Tian to say this, the people of this Kyoto city would have almost forgotten that they are still living in a city surrounded by zombies.

Even the panic of the twelfth-level zombies attacking the Army Soul Corps in Kyoto City only lasted a few days, and it was quickly forgotten by the continuous hype of the TV station and the top ten legions.

Now they know that in this world, there is still a man like a \*\*\*\*\* who is silently struggling to liberate mankind.

Li Tian and his Celestial Legion are not the most powerful in strength, but what he has done is the most meaningful.

"No, let Li Tian know that no matter what decision he makes, we will always support him!"

"It turns out that Li Tiancai is the cutest person! Let's salute Li Tian!"

That night, several hotlines of the Kyoto TV station were blown up, and the operator kept answering the calls, and even the dedicated phone of the TV station staff kept ringing.

At this time, Li Tian had left the camp with Tang Xiaolong, Situ Ningbing and others, and quietly returned to the city of Kyoto.

Li Tian went directly to the Bounty Hunter Association General Association and paid the five twelfth-level zombies' corpse crystals agreed upon with the Five Old Associations to the Bounty Hunter Association.

Then Li Tian had a secret meeting with the other four elders of the Five Old Society. Li Tian left Kyoto with Situ Ningbing and others that night.

Chapter 3579: New members of the Five Old Society

Southwest China, southern Yunnan, this is the largest city under the control of the Longteng Litian Army.

Southern Dian City is the base camp of the Longteng Litian Legion. This city had a population of several million before the end of the world. After the end of the world, the population of this city has dropped sharply, and the population now is less than 500,000. The zombies in this city were directly driven or slaughtered by the Longteng Litian Legion, especially Long Yin with incomparable power.

After the little dwarf Ande left the heavens, he entered the southern city of Diannan and entered the big city he dreamed of as the branch president of the Bounty Hunters Association.

This bounty hunter branch is the largest branch in the southwest region, and it controls the bounty hunter resources in the entire southwest region, which can be described as a high position.

It can be said that for the president of any association branch in the southwest and northwest, it is absolutely fortunate to be the branch president of this city.

At the beginning, Ande was also very ambitious, dreaming that he could continue his career in Diannan City, and then enter a larger city, or directly enter the headquarters of the Bounty Hunter Association in Kyoto City.

But soon Ande found that everything was not going as he expected.

Because of the relationship between Ande and Li Tian, Liu Lao did not have a good impression of Ande. After Ande was promoted to the chairman of the branch of the Bounty Hunters Association of

Southern Diannan City, Liu Lao secretly suppressed Ande, and even sent The members of the Liu family came to the Bounty Hunters Association of Southern Diannan City to take on important positions such as the vice chairman, and completely emptied Ander.

For a long time, almost all bounty hunters in Southern Dian City didn't even know that there was such a president as Ande.

Ander's orders can't even go out of his office, and no one will execute his orders.

In his heart, Ande really missed the happy life in the heavens before.

Although the little \*\*\*\*\* Li Tian of the Celestial Legion has all kinds of slips, he still respects the president of Ande, and in the Bounty Hunter Association of the Celestial Realm, there is no position of vice president, nor does it exist. People can control Ander, so Ander can be said to be the same.

Ender spent nearly a month in a stubborn manner.

Fortunately, ten days ago, after Mr. Liu had retired and announced his withdrawal from the Fifth Elders Club, the Fifth Elders Club issued a series of orders, including the vice president of the Liu Family in the branch of the Bounty Hunters Association of Southern Diannan City. gone.

Ander can finally take a long breath. After clearing all obstacles, Ander thinks that his good day is finally coming.

However, what Ender did not expect was that not only did his good days come, but the benefits far exceeded his expectations.

Just now, Ander received a call.

"Old Wu, what are you talking about?" Ande's hand holding the phone trembled slightly, and his voice trembled even more.

Ander could hardly believe his ears. Just now, Mr. Wu said he wanted him to get up and enter Kyoto City as soon as possible.

"Does my performance have been recognized by the five veterans? I can finally enter the Bounty Hunter Association general meeting." Ande thought with excitement.

"Ande, you heard that right. Get up now and come to the Kyoto City Bounty Hunter Association General Association. Later, the Five Old People's Association will send an email notice and a formal written notice of appointment. I will call you today, yes I want to tell you that the one who supports you is Li Tian, and the one behind you is also the Celestial Legion." Old Wu on the phone said calmly.

"Li Tian? Celestial Legion?" Ander, the branch president of the Bounty Hunter Association, although he doesn't have much real power in the southern city of Yunnan, he still has good news about what happens to the bounty hunters in Kyoto.

Hanging up the phone, Ande couldn't wait to open the computer mail and saw that there was already a newest mail in the mailbox.

Ande opened the e-mail nervously, but after reading a paragraph, Ander was shocked and speechless. Ender's heartbeat accelerated rapidly, and then he gasped involuntarily.

Ander leaned back on the sofa, closed his eyes tightly, and thought in his heart: "Is it wrong? Or did the Five Elders send the wrong email!"

After several minutes, Ander gradually calmed down and then opened his eyes and looked at the email again.

It was correct. This email clearly stated that Ande should enter the Kyoto City Bounty Hunters Association as one of the five elders.

Ender's head was a little dizzy, this feeling was as if the hungry Ender was suddenly hit by a huge pie falling from the sky.

The Five Old Society, that is the highest authority organization of the Bounty Hunters Association.

The elders are the most powerful members of the Bounty Hunter Association.

For any staff member of the Bounty Hunter Association, it is a high-ranking existence, but now all this is actually in front of Ande.

Ander read the e-mail again, even reading every word and every word several times, and finally landed on the signature.

Wu Lao Hui, the mail is really sent out by the Wu Lao Hui joint mailbox.

It can't be wrong.

It's just that there are still some problems in Ander's heart that he hasn't figured out, which makes his heart a little uneasy.

The news from Kyoto City at the time said that the fifth elder was born from a legion nominated by the other four elders of the Five Elders.

Except for Li Tian's Celestial Legion, the four legions had a completely ineffective relationship with Ande.

"It's Li Tian!" Ande suddenly thought that Mr. Wu just now said that he would be grateful to Li Tian and the Celestial Legion that he could enter the Bounty Hunter Association of Kyoto City.

"But, this is a member of the Fifth Old Society. How could Li Tian give up such an important seat? Anyway, I have to thank Li Tian, and after entering the Fifth Old Society, I must protect Li Tian and the heavens. Benefit!" Ande thought in his heart.

Three days later, a little dwarf Ande took the only seventh-level bounty hunter of the South Diannan City Bounty Hunter Association branch on the road to Kyoto.

And two weeks later, this little-known little dwarf Ande suddenly became a hot figure in New Kyoto City. The Bounty Hunter Association represents the newest member of the Five Old Society of the Celestial Legion!

And when Ander officially took office in the Kyoto Bounty Hunters Association, as a behind-the-scenes supporter, Li Tian had already taken Situ Ningbing, Xue Ji, Tang Xiaolong and Goubi on his way back to Beitang City.

The two cars were driving fast. The cars had already driven into the outskirts of Beitang City, and the city walls of Beitang City could be seen from a distance.

"Li, what do you see on the wall?" Situ Ningbing, who was sitting in the passenger seat, pointed to something faintly on the wall and suddenly said.

With a creak, Li Tian slammed on the brake and jumped out of the car impatiently.

Looking at the densely packed corpses hanging on the wall, Li Tian said in surprise: "This...why is this?"

Chapter 3580: Beitang was attacked (1)

Li Tian and the others drove into Beitang City from the northeast of Beitang. At this time, they were standing in front of Beitang's Beicheng Gate.

I saw hundreds of corpses hung densely on the wall of the northern city gate. Li Tian's sight slowly swept over the corpses of these zombies, and found that these corpses, without exception, were directly stabbed with bones. Nailed to the wall.

The surface of the city wall was already covered with black mucus, and the mucus flowed down from the city wall and even dyed the entire city wall black.

However, at this time, the mucus has dried up, and around the corpses of these zombies, a group of flies are flying, and there are even a few black zombies jumping around on the corpses of these zombies, picking and eating the carrion on these zombies. .

Less than a month after Li Tian left Beitang, before leaving Beitang, Li Tian had specially mobilized a legion from the heavens to guard Beitang.

Moreover, Yin Yang, the master of Yinyang Gate at that time, had also reached a cooperative relationship with Li Tian's Celestial Realm, and was responsible for assisting Celestial Realm to defend Beitang City on the periphery.

But what is going on right now

What made Li Tian feel a little relieved was that the corpses of zombies were all on the walls of the city, and the corpses of Bai Jing, Barbarians and others were not found, and of course there was no body of the captain.

Situ Ningbing also got out of the car and came to Li Tian. He stretched out his finger to the surface of the city wall and said with some worry: "Li, look at the corpse. If I remember correctly, the zombie was caused by you. Zombie appointed as deputy captain."

Li Tian took a closer look, and he saw that it was the corpse of the deputy captain's corpse, and the zombies near the deputy captain's corpse were all conquered by Li Tian.

However, these zombies were not controlled by Li Tian's nine-color corpse crystals.

"What happened? Could it be that these high-level zombies who had stayed in Beitang rebelled?" Li Tian asked anxiously.

"On the contrary!" Situ Ningbing said firmly.

"Li, look carefully. The gate of this city wall was repaired before we left, and at this time the huge iron-clad gate has been breached from the outside. From this, it can be inferred that these zombies did not have a betrayal. , But was killed by other stronger forces while guarding Beitang City."

"Also, the height of the city wall is more than 20 meters, and the corpses of the zombies are nailed to the wall. If someone did not use external force, such as a ladder or a rope, to deliberately nail these zombies to it, it can be inferred. The guy who can kill the deputy captain is conservatively estimated to have the strength of a level 12 zombie or higher."

"Zombies above level 12? Then Bai Jing, Captain and Barbarians are not in any danger?" Tang Xiaolong asked anxiously.

Situ Ningbing shook his head slightly, and said, "This is not easy to say for now."

At this time, suddenly, a dozen zombies emerged from the city gate. The level of these zombies was generally not high, and the highest was only level five or six.

Afterwards, zombies continuously poured out from nearby buildings. Like the zombies that emerged from the city gate, the levels of these zombies were generally low.

And these low IQ zombies just smelled the meaty smell of Li Tian and others, and began to rush towards Li Tian and others with their teeth and claws.

Without Li Tian's hands, Tang Xiaolong, Situ Ningbing, and Xue Ji immediately rushed out. In less than five minutes, nearly a hundred low-level zombies were all beheaded by them.

The dog nose is like a happy harvester, constantly cutting off the heads of those zombies with a knife, and digging out the corpse crystals of the zombies.

Looking at these corpse crystals, the face of the dog's nose was happy.

Suddenly, the dog's nose twitched a few times, and then said: "Little boss, there are people on the wall!"

Li Tian suddenly raised his head, and he saw a dark figure dodge above the city wall, hiding behind the crenellation.

Li Tian didn't speak any more, but quickly rushed towards the city gate. Situ Ningbing and Xue Ji took out their weapons and followed Li Tian.

When rushing to the gate of the city, Li Tian and others found that the zombies could be seen from time to time on both sides of the road. From the muzzle of a black hole on the heads of these zombies, it can be seen that most of these zombies are Suffered a shooting and died.

However, the levels of these zombies are relatively low, and the highest is only the third-level zombies, and although these zombies are dead, the corpse crystals in their heads have not been taken away.

At this moment, a head protruded from the city wall, and along with this head, a black hole sniper rifle was aimed at Li Tian.

"boom!"

The sniper rifle sounded, and the bullets roared towards Li Tian.

Li Tian sneered, his body suddenly disappeared out of thin air.

The guy who shot saw Li Tian suddenly disappear, exclaimed, turned around and fled, but how could Li Tian let him escape easily.

As Li Tian's figure flashed several times, Li Tian had already rushed onto the city wall and appeared in front of the gunman.

The gunman saw Li Tian suddenly appear in front of him, sat down on the ground with a thump, and then kept backing back, holding a sniper rifle and tremblingly shouted at Li Tian: "No Come here...Don't come, or I will shoot!"

Li Tian sneered and said, "You can try again!"

The man was frightened by Li Tian's sneer. He threw the gun aside, squatted on the ground with his head and said: "Well, I surrender, but I will not kill. Did you kill me?"

Li Tian was worried about Bai Jing and others at this time, walked up to this person and said, "If you can answer a few questions for me, maybe I can consider not killing you!"

"You ask, you can ask, as long as I Pan Tao knows, I must know everything!" The man raised his head and looked at Li Tian and said.

"I ask you, wasn't there a legion in Beitung before? Where is the legion now?"

"Legion? You mean the Celestial Legion, right? Did you also see the Celestial Legion's recruitment order before coming to Beitung?"

"Recruitment order?" Li Tian asked with some confusion.

The guy who claimed to be Pan Tao took out a cloth scroll from his arms, opened the scroll and handed it to Li Tian.

When Li Tian saw this recruitment order, it probably stated that Beitung City has been occupied by the Celestial Legion, and Beitung has become one of the areas under the jurisdiction of the Celestial World. Now bounty hunters and chambers of commerce are recruited aggressively to settle in Beitung, and the Celestial World will jointly build a new Beitung. city.

Seeing this recruitment made Li Tian nod his head slightly, it seems that Bai Jing and others were not idle during the time when Li Tian and the others left.

"Tell you, we were all deceived. There is no Celestial Legion here at all. This is still a corpse city!"
