

A Killer 3581

Chapter 3581: Beitang was attacked (2)

Pan Tao said with some sadness and angrily: "It's a pity that those brothers who were born and died with me. I thought we could find a place to live, but I didn't expect that we would be attacked by zombies as soon as we entered Beitang. My brothers desperately protected me and let me escape on the wall of this city. I am afraid that I have also become food in the mouth of zombies!"

"Damn heaven! Damn Li Tian! Using this method to eradicate bounty hunters near Beitang City, huh, if I meet Li Tian, even if I rely on this fate, I want him to look good!" Pan Tao continued to say angrily.

"Hey, then you can't miss this opportunity. The commander of the Celestial Legion Li Tian is in front of you!" Tang Xiaolong's voice sounded behind Pan Tao.

Pan Tao was startled suddenly and said, "Li...Li Tian, are you Li Tian?"

"Yes, I am Li Tian! I can tell you that this recruitment order is true! Although I don't know what happened in Beitang City now, if you believe me, you can follow me and I promise to pay you back. Fair!" Li Tian said.

Hearing what Li Tian said, Pan Tao burst into tears, and then climbed a few steps forward, hugged Li Tian's legs, and said with tears and nose: "Is there anything to eat? I'm going to starve to death. Up!"

At this time, even the dog nose, who didn't have much strength, boarded the city wall with the help of Situ Ningbing and Xue Ji.

Li Tian asked the dog's nose to give Pan Tao some food, and the dog's nose to distribute food to others, which hurts more than cutting his meat.

The dog's nose reluctantly took out a few pieces of dry film and handed them to Pan Tao. Pan Tao grabbed it in his hand and gobbled it up. The dog's nose was dumbfounded.

"Commander Li Tianjun, although I don't know what happened in Beitang City, I can provide you with some useful information!" Pan Tao said.

"Intelligence? What kind of information?" Li Tian asked.

"Walk along this city wall, keep walking around the other end of the city wall and exit the south gate of the city wall. There is a building outside the south gate called Nanshan Imperial Garden. Where is a sniper, she should know what happened here! Oh, She is a woman!" Pan Tao said.

"Female? Sniper?" Tang Xiaolong said suddenly.

"How do you know where there is a sniper?" Li Tian asked.

Pan Tao finished the food in his hand in a few mouthfuls and drank another sip of water. Then he said: "I was surrounded by these zombies and couldn't get off the wall. I could only walk around the wall and hope to find a place without zombies. Climb down and find some food. Yesterday morning, I detoured along this city wall and accidentally saw that sniper used a gun to sniper the senior zombies near the south gate."

"Hey, that woman is so fierce. The woman of level seven or eight zombies even dared to use a sniper rifle, and she was not afraid that those wise zombies would go up and eat him!" Pan Tao said with a mouthful.

"Little boss, it is very likely that it is Bai Jing! If we can find Bai Jing, we will know what happened in Beitang City." Tang Xiaolong said.

Li Tian nodded, he is now eager to solve the mystery of Beitang.

This Beitang is a city that Li Tian has worked hard to build, a city that can connect north, south, east and west.

Of course, more important than Beitang are Bai Jing, the captain and the barbarian, they are women and brothers who were born with Li Tian!

Naturally, Li Tian and others are not comparable to Pan Tao. They walked off the city wall and drove along the North Street towards the South Street.

Along the way, zombies rushed out from time to time to try to deal with Li Tian and others, but before these zombies rushed to the front of the car, they were easily killed by Li Tian with broken soul palm and Xuantian fingering.

Seeing Li Tian lightly killing those zombies, Pan Tao sitting in Tang Xiaolong's car was dumbfounded, and said involuntarily: "This...this Li Tianjun commander is so powerful, it's no wonder that he can dominate the northwestern region. ."

"Really nonsense, Li Tianxiao's boss is the only supreme king in the Bounty Hunter Association!" Dog Bibi said respectfully.

"Supreme King? I haven't heard of it, I have only heard of the Twelve Powers!" Pan Tao said.

"It's really ignorant, you've always heard of the Forbes power game, right?"

"Of course I know that this Forbes Strength Tournament is the only event in the world that can measure the strength of people. Why? Did Captain Li Tianjun go to the Forbes Strength Tournament?" Pan Tao asked.

"Of course, our little boss participated in the Forbes Power Contest in Kyoto City, and that was the first strongest in the preliminaries group. Even in the finals, the group led by the little boss has always been in an absolute leading position. If not for some reason, Our little boss voluntarily gave up the game and returned to Beitang. Our boss is fully capable of entering the top 500, and may even enter the top 100," said Goubi.

"Before... the top 100" Pan Tao was a little surprised and speechless.

Such masters are all legendary existences, how can they be touched by small people like him. This feeling is like those superstars before the end of the world, or the super rich, although you have heard of them and seen them on TV, but you really want to meet them face to face, that's Very difficult.

The car quickly crossed the North Street. Before the end of the world, Pan Tao had been to Beitang. When he saw that the clock tower, a landmark building in Beitang, collapsed and disappeared from the ground, he was suddenly surprised. .

The dog nose naturally began to tell the glorious history of Li Tian fighting with the guardian zombies here. Although he also listened to Tang Xiaolong's talk, it did not affect his narration to Pan Tao, and the dog nose's eloquence was good. It was as if he had experienced something personally.

Ten minutes later, Li Tian and others' cars drove out of the south gate and came to the Nanshan Imperial Garden Building.

As soon as he heard the car, Li Tian and the others got out of the car eagerly.

Zombies, around this building, there are at least a dozen corpses of zombies, and these zombies, without exception, have reached the level. These zombies will have a black hole bullet hole on their foreheads, but at this time their There was another trace of a knife on the head, and the corpse crystal inside had been dug away.

Li Tian has always believed that Bai Jing's strength is very weak, and the power of sniper bullets can hardly break the defense of advanced zombies, but now it seems that Bai Jing is stronger than Li Tian imagined.

"What position did you see that sniper probably appeared in?" Li Tian asked Pan Tao.

"At that time, I was on the city wall. I saw the sniper's figure appearing in front of the window on the fifth floor near the south gate. She was hiding very concealed, but she didn't know that I was hiding on the wall. Otherwise, I will definitely not be able to find her hiding place."

Chapter 3582: Beitang was attacked (3)

More than twenty hours have passed since Pan Tao discovered Bai Jing. Li Tian is not sure if Bai Jing is still staying in this place.

But now that they knew that Bai Jing had appeared here, Li Tian and others would naturally not give up searching.

Li Tian and others began to look for the trace of Bai Jing in the Nanshan Imperial Garden Building.

It is really not easy to find someone in this 18-storey building with a construction area of more than tens of thousands of square meters. Even if you know that Bai Jing once appeared on the fifth floor, it is still a big job. the amount.

Li Tian immediately summoned three Xiaoyashas secretly, Xiaotianyi, mutant bat and mutant crow. Let the three flying guys start investigating from high above the Nanshan Imperial Garden, while the others followed Li Tian and others into several groups and searched together.

But after searching several floors, Bai Jing was not found.

Now we have found the fifth floor.

"Everyone is looking carefully!" Li Tian shouted.

Soon, Li Tian heard Tang Xiaolong's loud shout: "Little boss, come and see, this is the mark Bai Jing left us!"

Li Tian and others quickly surrounded Tang Xiaolong and saw that on a wall, someone wrote three characters on it with charred charcoal: "Tashan Temple"

"Tashan Temple? What do you mean? I saw a lot of these words on the wall downstairs. I thought these words didn't have any meaning!" Dog nose looked at these three words and asked.

Before Bai Jing and the others came to Beitang, Li Tian had already told the captain Erha Manzi what happened in Tashan Temple, and after Bai Jing came, the manzi told Bai Jing these things again.

Before Li Tian left Beitang, Li Tian made special arrangements for Bai Jing to find someone to protect him from Tashan Temple. Therefore, Goubi and Pan Tao didn't know the secrets of the Tashan Temple, and other zombies and bounty hunters could not know the secrets of the Tashan Temple, but Li Tian and other heavenly people did.

"Situ Ningbing, Xueji, Xiaolong, Goubi, and Pan Tao, you continue to look for Bai Jing's whereabouts here! I'm going to Tashan Temple first!" Li Tian said with some worry.

"Little boss, don't worry, we must find Bai Jing the master!" Tang Xiaolong said vowedly.

Li Tian was still a little worried, and left Little Tianyi, mutant bats, Dixing Yasha and Feitian Yasha by their side. In this way, even if it could not only increase the manpower for searching, even if there was some danger, there would be some danger. It can also guarantee their safety.

Li Tian brought the mutant crow to the window, kicked the glass beside the window, and jumped directly from the fifth floor.

"Why commit suicide!" Pan Tao said in surprise as he watched Li Tian's movements, and hurried to the window and shouted.

However, Tang Xiaolong and others were used to it. No one stopped Li Tian, but looked at Pan Tao amused.

Soon, Pan Tao saw that the bird named Mutant Crow next to Li Tian turned into the size of a big Peng bird in an instant, while Li Tian stepped on the mutant crow and flew away.

"This...is really...too..." Pan Tao didn't say a word after speaking for a long time.

Tashan Temple is the home of mutant crows. It can be said to be a familiar road. Although there is a little distance from the South Gate to Tashan Temple, it does not take much time to fly in the air.

When there was still a few kilometers away from Tashan Temple, the mutant crow had discovered that the ground was somewhat different from that in Beitang City.

"Boss Li Tian, have you found that as we get closer and closer to Tashan Temple, there are more and more zombies nearby, and the level of these zombies is getting higher and higher!" said the mutant crow.

Li Tian has also discovered this problem.

Flew forward for about one kilometer, Li Tian had already seen zombies everywhere on the ground, and those zombies had also seen mutant crows flying in the air, shouting one after another, and some zombies would even rush to the roof. They changed into bone spears, and wanted to throw the bone spears to knock Li Tian and the mutant crow down from the air.

It is a pity that the bone spears of these zombies began to fall after flying into the air. Some bone spears fell on the clearing, and some bone spears pierced the trees, and some bone spears fell down. After that, he directly stabbed the zombies below.

Among them was a hapless zombie who was sadly stabbed to death by this bone spear.

Li Tian and the mutant crow didn't slow down because of the actions of these zombies, but speeded up and flew to Tashan Temple.

Standing on the body of the mutant crow, Li Tian saw that the North Square of the Tashan Temple was densely packed with zombies. These zombies knew the ants, and even occupied the square.

The few of these zombies are in the tens of thousands. Although the vast majority of these zombies are ninth-level zombies and tenth-level zombies, many eleventh and twelfth-level zombies can still be seen in these zombie groups.

At this time, these zombies have also discovered Li Tian and the mutant crow, but they have nothing to do with Li Tian and others!

"Boss Li Tian, do you want to play an aerial bombardment with Broken Soul Palm, these corpse crystals of zombies are a lot of wealth!" said the mutant crow.

Of course Li Tian wanted to, but it was not the time now. Li Tian didn't want to be extravagant and didn't want to waste time. Now his heart is concerned about the whereabouts of his Celestial Legion, the safety of his brothers and women.

"Fly over and go to Tashan Temple!" Li Tian said.

The mutant crow chirped and flew directly across the square.

The surrounding wall of Tashan Temple was still broken after the last battle between Tang Xiaolong and Shen Yunyang and others. Standing on the body of the mutant crow, Li Tian saw through the dense forest of Tashan Temple that there were many in the courtyard of Tashan Temple. Zombies, the level of these zombies unexpectedly exceeded the twelfth level, but most of these zombies are surrounded by the Buddha Tower in Tashan Temple.

"Zombies over level twelve, these guys shouldn't appear in this Beitang!" Li Tian thought in his heart.

And the appearance of the mutant crow quickly attracted the attention of these decided zombies, which zombies raised their heads and looked at the mutant crow.

These high-level zombies immediately moved, and the strength of these guys far surpassed those ninth-level zombies, and the body of the mutant crow trembled a little involuntarily.

"Boss Li Tian, are you going to fly down?" the mutant crow asked.

"No, your role is to attract their attention, you must remember the altitude of the flight, so that they can't hit you with a bone spear, but it seems that you can shoot you as long as you go higher!" Li Tian Said.

After saying this, Li Tian suddenly disappeared from the mutant crow.

Chapter 3583: Beitang was attacked (4)

When Li Tian's body appeared next time, it was already on the ground, but as soon as Li Tian's body appeared, he immediately hid behind a big tree that no one could hold, and Li Tian's figure was immediately at Tashan Temple. A few flashes in his courtyard appeared beside the well, and Li Tian jumped into the well without hesitation. ,

When he came to the underground palace of Tashan Temple again, Li Tian was familiar with the road, and quickly swam into the underground palace.

As soon as Li Tian got out of the water, he heard the exclamation of the captain.

"Brother Tian! It's really you!" The captain looked at Li Tian in surprise and said.

Li Tian saw that the only man next to the captain was standing up excitedly at the moment he saw Li Tian, but soon the man lowered his head, not daring to look at Li Tian with his straight eyes.

Li Tian quickly walked out of the water, came to the captain, and asked: "What's the matter? Tell me what happened in Beitang?"

"Brother Tian! Beitang is lost, I'm sorry for you!" Manzi said with a little shame holding the Qinglong Sword, not daring to look up at Li Tian.

Li Tian ignored the barbarian and continued to look at the captain.

"Brother Tian, maybe a week ago, Beitang was suddenly attacked by the tide of corpses. The level of the zombies who led the team far exceeded our own zombies. We...we are not the opponents of those zombies." said the captain. .

A week ago, it was probably when Li Tian and others had just left Kyoto.

"Where is the legion? My legion will not all be killed?" Li Tian asked anxiously.

Although no human corpses were seen in the city of Beitang, Li Tian knew that if human corpses appeared in a city controlled by zombies, the corpses would only become corpses of zombies and could not be maintained until Li Tian and others returned. of.

"No, when the tide of corpses was discovered, the head of Bai Jing issued an order to retreat. All the members of the legion retreated into the Qinling Mountains, while the barbarians, Shen Tao and I were retreated into the Tashan Temple. Bai Jing Dang's family took Wei Wei and Shen Tao to stay in Beitang City, fighting guerrilla warfare with those zombies!" said the captain.

Li Tian nodded involuntarily, and Li Tian recognized Bai Jing's overall view.

Beitang is just a city. If the city is lost, you can fight back. If the army is finished, the loss for Li Tian is really heavy.

Although the combat effectiveness of this team of the Celestial Legion may still have various deficiencies, as long as people are there, everything is possible.

Li Tian was also very satisfied with Bai Jing's personnel arrangement.

The legion retreated to the Qinling Mountains and was under the jurisdiction of the legion chief. As long as they did not encounter abnormal zombies, their safety would have no problem.

The captain and the barbarians stayed in this Tashan Temple because these two people are Li Tian's direct line and know the existence of this place.

Of course, it is the combination of Bai Jing, 2D, and Shen Tao that is even more seconds.

Bai Jing is a sniper, with the ability to sniper zombies from a long distance, and Shen Tao has the ability, even if a senior zombie suddenly appears in front of them, Shen Tao can also use the ability to control the zombie, so as to fight for them to escape. time.

And the two-dimensional, after learning from Situ Ningbing, the hermit killing technique can play a role in assassination and investigation, so that the safety of these three people, Li Tian does not have to worry.

"Do you know the origin of these zombies?" Li Tian asked.

The captain shook his head and said: "It's totally unclear. We came out of the heavens and came to this Beitang. We have never seen so many high-level zombies, and even the 11th-level zombies have never heard of it. There are zombies of higher level than level 12 zombies in several nearby cities!"

Li Tian frowned involuntarily.

The zombies in this northwest region, Li Tian, are too familiar with them. Most of them can't even reach the ninth level. Even the highest level of Beitang zombies is the Guardian zombies.

And when I was gone, after passing Liaocheng, there were many high-level zombies in Los Angeles, but I had never heard of so many high-level zombies, and when Li Tian and others returned to Beitang from Kyoto City, Found that the zombies in Naluo City had not decreased, and the zombies of the senior guardian in that city were still there.

Then there is only one explanation, and that is that these zombies come from the south.

When Li Tian was in Kyoto, he heard the old man Wuji say that in several cities to the south, a wave of zombies had already attacked human strongholds.

But in northern cities, there has never been a wave of zombies attacking the city.

"Is it a ghoul?" Li Tian thought in his heart.

A week ago, Li Tian had already met with the ghoul and snatched an eighteenth-level zombie's corpse crystal from the ghoul. This incident made the ghoul very shameless, and the ghoul could take revenge. Actions.

"Brother Tian, please punish me! I'm useless, I lost Beitang!" The barbarian clenched his fists and punched the ground.

Li Tian stretched out his hand and patted the barbarian on the shoulder, and said, "Why should you punish you? When you encounter so many high-level zombies, you have only lost dozens of zombies, and you and the legion are safe. , And reward you!"

"Brother Tian, are you not angry? But you killed Beitang with your life?" Manzi raised his head and asked.

"Angry! As you said, this Beitang was defeated by my life, Li Tian, and it has been included in the territory of our heavens, and you have also issued a recruitment order!" said Li Tiancong He took out Pan Tao's recruiting order and said: "This is a great time for our heavenly development, but this Beitang is occupied by those **** zombies, how can I not be angry!"

"Barbarian, if you feel guilty, then practice hard, prepare me to fight, and use our strength to take back this Beitang!" Li Tian said.

"He! After being lost from Beitang, he practiced day and night, even ignoring the injuries on his body. But he didn't expect that he would rather cultivate with his injured body to get some results." The captain looked at the barbarian affectionately and said.

The barbarian was a little embarrassed, showing a simple smile, and said: "Brother Tian, my current strength has improved a lot. Now the 11th-level zombies are not my opponent at all. Even the twelfth-level zombies, I have a The power of war!"

Li Tian was surprised, this was only a month's time, and the barbarian had made such progress.

As the barbarians progressed, the captain naturally couldn't fall behind. Li Tian uncovered dozens of corpse crystals of level 12 zombies, threw them to the captain, and said, "Use these zombie corpse crystals to make you break through to level 12. If you can reach the twelfth level peak, or even the thirteenth level, then I will give you this twelfth level mutant corpse crystal!"

Speaking of Li Tian's hand, there was another twelve-level mutant corpse crystal.

Chapter 3584: Seal lifted

When Li Tian came out of Kyoto City, he decided to do everything possible to improve the strength of his team. For the captain and other zombies, Li Tian would take out all his high-level corpse crystals, let them quickly advance, and build a team that can have a lot of A powerful zombie team.

As for Manzi, Tang Xiaolong, Situ Ningbing, Xue Ji and others, Li Tian hoped that they would put more experience on cultivation.

Even Li Tian has planned. After returning to Beitang, everyone will spend a month in retreat and practice. Then, after a month, Li Tian will take them into the Qinling Mountains to hunt down that one. The fourteenth-level mutant mourning bear. After Li Tian solves Tang Feifei's matter, Li Tian will return to Beitang again, enter the underground palace, and detect the remaining four of the eight dragons that have not yet been detected, so as to improve Own strength.

Then Li Tian will practice retreat for about half a year, and before the retreat, Li Tian will also pull Shelipuding and He Zhizhuo to Beitang, let them cooperate with Bai Jing to build this Beitang into a city suitable for human living, just like Same as New Kyoto City.

However, the ideal is perfect and the reality is cruel. Li Tian never expected that after he returned, Beitang would be occupied by zombies again.

And Li Tian's ambitious zombie army has also been hunted down by the senior zombies in the tide of corpses.

Therefore, Li Tian can only change his original intention and focus on cultivating the captain and Xiao Tianyi, so that these two foodies can grow up quickly.

"Thank you, brother!" After taking over the corpse crystals, the captain was not welcome, and immediately sat down cross-legged, stuffed an eleventh-level corpse crystal into his mouth, and began to absorb the power of the corpse.

Li Tian looked at the Barbarian and said, "Barbarian, we don't have much time. There are zombies everywhere in this Tashan Temple. If we don't want to be trapped here, we must kill them!"

Manzi nodded, and reached out to stroke the Azure Dragon Sword in his hand.

And Li Tian also took "Red Slash" out of the space of Void Yasha and placed it on the ground steadily.

Since the "Red Zhan" was injured in Kyoto City, Li Tian blocked the "Red Zhan". This is the first time that Li Tian took out the "Red Zhan" after so long.

Li Tian stretched out his hand and slowly stroked the mottled blade of "Red Zhan", feeling the meaning of "Red Zhan".

Li Tian could feel that "Hong Zhan" was full of dissatisfaction, and seemed to be full of anger at Li Tian's blockade of him!

"Whenever you do, don't forget that you are just a weapon, even if you are a weapon with a weapon, it is just a weapon."

"As a weapon, you must have the consciousness to be a weapon. If you lose your master, you are not a weapon, just a pile of broken copper and iron!"

"In the other world, you chose me and you are willing to follow me back to the earth, but what did you do after returning to the earth? Did you feel that all of my Li Tian's skills disappeared and made you feel like you were the wrong person? Or you Can Hong Zhan control my Li Tian and make me Li Tian a vassal of yours?"

Li Tian felt that "Red Zhan" was full of anger, and the blade was trembling slightly as if it were his body!

Li Tian snorted and summoned Young Master Void.

"Isn't the strength of the three small Yashas powerful? But the three Yashas also recognize me Li Tian as the master, and open up their abilities for me to drive Li Tian! And you? In addition to following me, Li Tian kept sucking what I got Except for the corpse crystal, I Li Tian still knows nothing about you so far!"

"Now, I will give you two choices. First, I will recognize Li Tian as my lord like three little Yashas, and surrender to me Li Tian from now on. Second, continue to maintain your state. I, Li Tian, will seal you permanently!" Li Tian said with a sneer.

"Om!" With a sound, the "Red Zhan" suddenly flew from the ground.

Yes, it was flying.

Li Tian didn't use Ten Jue Sword Qi, the "Red Zhan" flew up by himself and flew in front of Li Tian, and "Hong Zhan" actually aimed the blade at Li Tian.

It was so bold that he aimed the blade at Li Tian.

Li Tian's heart was furious. No matter how much Li Tian indulged in "Red Slash" on weekdays, Li Tian would never allow him to follow his weapon and aim the blade at himself.

Li Tian suddenly stretched out his hand and grabbed the blade of "Red Zhan".

The "Red Slash" was abnormally sharp. As soon as Li Tian stretched out his hand, the skin on Li Tian's hand was immediately cut open by the "Red Slash", and Li Tian's blood continued to flow from which wounds.

After being caught by Li Tian, "Hong Zhan" began to tremble slightly.

That's right, although "Hong Zhan" has spirituality, he is still a weapon after all. After being injured, being able to fly automatically is already his greatest limit, and it is impossible to take a step forward.

And "Red Cut" didn't dare!

Li Tian can throw him in the space of Void Yasha again at any time and seal him up.

However, Li Tian was not joking, and this seal was definitely not thrown into the space like "Red Zhan" understood.

"Void!" Li Tian shouted suddenly.

The Void Yasha immediately jumped on Li Tian's arm, the weapon in his hands had been put into the space by him, and at this moment, Void Yasha folded his hands together and hugged it in front of his chest.

Following Li Tian's cry, Void Yasha suddenly ran towards Li Tian's upper arm, and as Void Yasha ran, a black spot appeared in front of Void Yasha.

As soon as this black spot appeared, the surrounding air began to rush towards the black spot, and the air became visible around the black spot.

In the beginning, the black spot was only the size of a grain of rice, but as Void Yasha continued to run, the black spot gradually became larger and soon became the size of a little finger.

When Void Yasha ran to Li Tian's **** arm, the black spot had changed to the size of an egg.

And as this black spot grew larger, the remaining seals on the "Red Slash" blade began to shake slightly.

"Huh?" Li Tian felt a little surprised.

At this time, these seals happened to be in the palm of Li Tian's grip on the "Red Zhan" blade, and Li Tian could feel a slight movement in his palm.

But these changes do not belong to "Red Slash".

"Hey!" Li Tian felt the "Hong Zhan" stab forward abruptly. At this moment, Li Tian only felt that his fingers were about to be cut off by the "Red Zhan".

Fortunately, it's just that the wound is deeper and the blood is flowing more, and it hasn't completely fallen.

"Wow!" The seal on the "Red Cut" was suddenly completely sucked down by the black spot.

"boom!"

On "Red Zhan", a red light burst into the sky.

Chapter 3585: The seal is lifted (2)

The red light rushed into the sky, and the entire underground palace was illuminated by the red light of this "red cut". .

At this moment, Li Tian only felt his body as if entering a huge furnace, and the blazing flame seemed to melt the skin of his whole body.

Li Tian's pupils suddenly widened, and in the dazzling red light, he saw countless ghost heads bursting out of the "Red Slash" blade, each of them with hideous faces and screaming. He rushed towards Li Tian, as if to swallow Li Tian.

However, at this moment, he heard a sharp cry in his ear, and a ghost that was even more massive and several feet tall appeared in the sky above "Red Zhan".

This ghost has two sides and four hands.

On the front is a crimson face, a big nose is hung with a metal nose ring carved with various patterns, two fangs on the upper jaw burst out, the length of the elephant's ivory is full, and the other teeth are also full. There are chopsticks long and short, which burst out of the lips very irregularly.

On the other hand, this ghost image is a snow-white face with a nose ring hanging on the nose, but the lips and teeth on the reverse side are still normal, just two earlobe shoulders, and each ear has a row of piercings open, and The studs above the pierced ears are surprisingly human bone arms.

And this ghost image holds a pair of bells, a bottle, a copper hammer, and a green snake on each of its four arms.

"Wow!"

There was a scream of the ghost, and those ghost heads that had pounced on Li Tian just now made crying screams one by one.

The bell in the hands of the double-faced ghost shook slightly.

"Jingle Bell"

The bell made a burst of crisp sound. The crisp ringtone in Li Tian's ears was like a Sanskrit sound, calming Li Tian's mind, and in the ears of these ghost skeletons, it was a urging curse.

Black packets popped up in the heads of those ghost skeletons, as if there were horns in the heads that were going to come out of them.

But soon these small bags disappeared quickly and became a bigger bag. Li Tian could even see that the big bag was beating with the heart "puffing" and "puffing", as if in the big bag. Breeding a new life in general.

Some black smoke began to emerge from these ghost skeletons' seven coincidences. As the smoke drifted away, the ghost skeletons made more tragic calls, and their ghost skeletons seemed to become smaller. The same in a circle.

"Jingle Bell!"

The pair of bells rang again, and the big bags exploded suddenly.

"Boom!"

"Boom!"

A cloud of black smoke floated on the big bag, and then the black smoke turned into a small double-sided four-handed ghost, but these ghosts did not have feet, and there was a cloud of smoke linked to these ghost skeletons.

As soon as these small double-sided, four-handed ghosts appeared, they immediately pounced on the ghost skeletons, opened their mouths with fangs, and began to tear the ghost skeletons.

The ghost skeletons made screams of ghost crying, and then the ghost skeletons retreated suddenly as if they were being pulled by invisible things, and finally got into the blade of "Red Slash".

All of this appeared quickly and disappeared faster.

Li Tian saw the shape of ghost skeletons appearing on the "Red Zhan" knife, as if these ghost skeletons were once again imprisoned in the "Red Zhan" blade.

But at this moment, the double-faced ghost that was several feet high suddenly leaned down, and the long red face made a roar again at Li Tian.

"Wow!"

Li Tian felt a heat wave sprayed from the mouth of the red cheeks. This heat wave made the sky feel like he was facing lava. Li Tian felt that his face was about to be roasted by the heat wave. It cracked, and there were waves of acupuncture-like pain on that face.

Even Li Tian could see a half-star of Mars in the heat and cold, as if it could burn at any time.

The head of that double-sided, four-handed ghost suddenly turned one hundred and eighty degrees, turning from a scarlet cheek to a snow-white face facing Li Tian.

The snow-white face also snarled at Li Tian again.

"Wow!"

A lingering cold wind blew from the mouth of the snow-white cheeks. Just now Li Tian felt that his face was about to melt. As soon as the cold wind came out, it immediately made Li Tian feel like falling into an ice cave. a feeling of.

The cold wind blew on Li Tian's cheek like a knife. In an instant, Li Tian's cheeks burst with **** mouths, but as soon as these holes burst open, they were immediately frozen and condensed by the cold wind.

This sudden heat and cold made the skin on Li Tian's cheek instantly lose the feeling, even if the cheek was cut by the wind, Li Tian had already lost consciousness.

The ghost's white cheeks still screamed at Li Tian, Li Tian's ruddy face gradually turned into the color of frost, and a layer of frost appeared on Li Tian's eyebrows.

Li Tian wanted to move, but he couldn't move at all.

Li Tian slowly closed his eyes and allowed the ghostly white cheeks to blow the cold wind against Li Tian. Soon, a thick layer of frost formed on Li Tian's eyebrows, hair and cheeks, feeling Li Tian's head. They were all wrapped in this layer of frost.

"Li Tian, surrender to my Red Slash, and become the help of my Red Slash Blade Spirit. I can let you stand at the pinnacle of this world, otherwise you will become my dead soul under the sword!" The ghost image's red cheeks were facing Shouted at Li Tian.

Surrender? Help?

Only weapons have always surrendered to people, so how come humans surrender to weapons.

"dream!"

Li Tian did not open his mouth, but these two words had already been given to "Hong Zhan".

"Wow!"

The white cheeks turned into red cheeks again, and a heat wave sprayed from the mouth of the red cheeks again.

As the heat wave swept through, the frost on Li Tian's head was completely digested, and Li Tian's numb and unconscious face, which had been frozen just now, felt hot pain again.

A spark popped out from the mouth of the red cheeks and splashed on Li Tian's face. Li Tian's cheeks immediately began to burn with no flame.

"Zizi!"

The skin on Li Tian's cheeks was like a book page grilled by a high temperature. It began to gradually turn into a burnt yellow, and soon changed from burnt yellow to charcoal black.

It seemed that Li Tian's cheeks would catch fire as long as the temperature increased a little bit.

This kind of pain is absolutely real, making Li Tian feel unhappy.

However, since the red light began from the sky, the entire underground palace disappeared, and the barbarians, the captain, and the void Yasha also disappeared, as if the whole world was born only Li Tian and this "Red Slash"!

Chapter 3586: have you had enough

"Have you enough trouble? It's just an illusion. Even if this pain is true, do you really think it can make me fear Li Tian?" Li Tian sneered in his heart!

The blade of "Red Zhan" shook slightly, and even the double-sided four-handed ghost on the "Red Zhan" shook slightly. .

This ghost may collapse at any time!

"You... how did you know?" The two faces of the double-sided four-handed ghost exclaimed at the same time.

This feeling is like a little baby, using all his strength to beat an adult man wildly. The child feels that he has beaten the adult man enough. This adult man should surrender to his force, but in the end Instead, the man said lightly: "Have you had enough trouble?"

"Drink!" Li Tian burst out loudly.

With this loud shout, the scene in front of Li Tian returned to the underground palace again, Li Tian still holding the blade of "Red Zhan" in his hand.

"Tick!"

"Tick!"

The blood dripped down Li Tian's palm.

And Void Yasha had just walked to Li Tian's wrist, and the black spot in front of Void Yasha's hands had changed to the size of a bowl.

Li Tian looked at this black group, only feeling that this black group seemed to be a disc, but it also seemed to be a sphere. There was endless darkness in the black group, and there was even a trace of

lightning and thunder in the darkness. The light flashed, as if it was an endless void, giving people a feeling of being completely invisible.

This is the ability of Void Yasha.

The ability of the Earth Traveling Yaksha is to escape, the ability of the Flying Yaksha is the flying sky, and the ability of the Void Yaksha is this black light ball.

Normally, this black ball of light is part of the body of Void Yasha. He can travel freely in the space of the earth world, and can also bring objects and humans into his space.

But if you want to exile other items into the void, you must create this black ball of light, and let these goods pass through this black ball of light and enter the real void.

And the void world in this black ball of light is not a world that Void Yasha can control, because this black ball of light may be connected to an ordinary void, or it may be connected to another space.

Therefore, if "Red Slash" enters this black ball of light, then the possibility of "Red Slash" thinking about returning to Earth will be zero.

At this time, the black ball of light controlled by Void Yasha, this black ball of light has begun to show an extremely powerful attraction, as if to **** the "Red Slash" directly into this black ball of light.

"Om!"

"Hong Zhan" unwillingly let out a contended.

Li Tian's face was completely indifferent.

As a weapon, you must have the consciousness of being a weapon. Even if you have a weapon spirit, it is only a weapon with spirituality.

Even the butcher knife in Situ Ningbing's hands was still controlled and used by others.

However, "Hong Zhan" not only acted without authorization to make Li Tian almost in danger, Li Tian placed "Red Zhan" in the space of Void Yasha. This "Red Zhan" was still angry and even dared to confront Li. Heavenly swords face each other.

This "Red Cut" is a magic knife, a blade full of magic.

Li Tian wanted to use this method to polish the magical nature of the "Red Zhan" knife, and finally let "Red Zhan" completely surrender to Li Tian like three Xiaoyachas, and finally recognize Li Tian as the master.

If this "Red Slash" can't take away the demon nature, and is still my own nature, and doesn't recognize Li Tian as the master, then Li Tian can only exile this "Red Slash" into the void.

Void Yasha followed Li Tian's appearance and sneered at "Hong Zhan" and said, "I have been with Master Li Tian for so long, and I have not displayed my true strength. Now let you try my true strength!"

"Om!"

"Red Zhan" seemed to know the power of the black light ball of Void Yasha, and began to shake the blade, seeming to want to get rid of the shackles of Li Tian's palm!

Void Yasha got closer and closer, and the black ball of light had already touched the tip of "Red Slash". As the tip of "Red Slash" entered the black light ball, Li Tian immediately felt his hand. There was a huge suction force on it, as if he was about to **** "Red Slash" into the endless darkness with his hands.

Li Tian directly released his palm.

"Om!"

"Om!"

"Om!"

After Li Tian released his palm, the "Red Zhan" swayed even more. Li Tian could even see the handle of the "Red Zhan" swinging from side to side, as if it were a fish caught by someone. He stopped wagging his tail, trying to escape from the hands.

However, this is the black light ball of Void Yasha, which connects Void, how can "Red Slash" get rid of it!

The blade of the "Red Slash" was sucked in by the black light ball inch by inch, but the speed of sucking in was slightly slower.

Of course, this was also passed by Li Tian and Xukong Yacha.

Li Tian had no expression on his face, so he raised his hands and held Void Yasha, watching the dark light ball of Void Yasha constantly devouring the blade of "Red Zhan".

One inch, two inches, three inches...

After several times of lengthening, the entire length of the blade of "Red Zhan" has exceeded one meter three, and the dark light ball has sucked in one third of the blade of "Red Zhan".

And that "Red Zhan" was still struggling, and there was no sign of surrendering to Li Tian.

"Void Yasha, speed up a little bit! If this weapon can be used by me the best, if it can't be used by me, then I have no regrets!" Li Tian said to Void Yasha with his heart.

Void Yasha immediately controlled the black ball of light to accelerate the speed of devouring "Red Slash", which was nearly twice as fast as the speed it had swallowed just now.

Soon, more than half of the blade of "Red Zhan" was sucked in by the black ball of light. However, "Red Zhan" still showed arrogance. Although trembling, he didn't mean to beg for mercy.

"Okay! Very good, no loss is a magic knife! With backbone!" Li Tian said with a smile in his heart: "If this is the case, then it seems that I have no way to subdue you! Then go back wherever you come from!"

The swallowing speed of the black ball of light has accelerated even more, and within a few seconds, the "Red Slash" blade remaining outside the black ball of light is less than one-third.

However, at this time, the swallowing of the black light ball did not stop, even faster than before.

The last five inches, four inches, three inches...

Li Tian shook his head slightly, signalling Xukong Yasha not to stop.

Two inches, one inch...

Seeing that "Red Zhan" was about to be swallowed by the dark light ball, but at this moment, "Red Zhan" suddenly released a red light, and Li Tian immediately felt the signal of "Red Zhan" releasing surrender.

"Wow!"

At this moment, countless transparent silk threads suddenly poured out of the nine-color corpse crystal in Li Tian's chest. These transparent silk threads poured into the dark light ball and wound around the handle of the "Red Slash".

Chapter 3587: Red Beheaded

Li Tian's heart was full of joy.

This "Red Slash" was rebellious, and now he was finally surrendering to Li Tian, and he had to recognize Li Tian as the master.

Void Yasha controlled the dark light ball not to be swallowed, and Li Tian controlled the transparent silk thread released by the nine-color corpse crystal to continuously pull "Red Slash" out.

About ten minutes later, "Red Zhan" was dragged out of the dark ball by Li Tian.

"Huh!" With a sound, "Hong Zhan" directly inserted into the ground in front of Li Tian, and the blade of "Hong Zhan" was still trembling slightly.

"Wow!"

The "Hong Zhan" tool spirit floated out of the "Hong Zhan" knife, and the body of this tool spirit floated out, but his legs and feet were still tied to the "Hong Zhan" hilt.

And it was as if "Red Zhan" were his feet.

This spirit is the double-sided, four-handed ghost that Li Tian saw in the illusion before. The difference is that the body of this ghost is made up of countless ghost skeletons, and his body is only the size of a normal person. Far from being a few feet tall.

"Master!" The double-sided four-handed instrument spirit knelt in front of Li Tian, knocking his noble head directly on the ground in front of Li Tian.

The spirit is a body with two faces and four hands. Among them, the red cheeks bow their heads and surrender, almost knocking to the ground, but the white cheeks are facing Li Tian. This picture is actually a bit funny.

However, this spirit does not feel funny, even if the white cheeks are facing Li Tian, he closes his eyes to show respect to Li Tian.

Seeing this emptiness body is still trembling slightly, as if full of fear for Li Tian.

Void Yasha sneered, put away the black ball of light, jumped on Li Tian's shoulder, and looked at the spirit with interest.

In terms of appearance, this spirit is also a monster, somewhat similar to the Yasha clan.

But Void Yasha looked down on this low-level non-creature.

"It's just the spirit of the weapon. I even dared to challenge Master Li Tian. I really don't know the life or death!" Xukong Yasha sneered and whispered.

This spirit had already heard the words of Void Yasha, but at this moment he didn't mean to resist at all.

When he was just sucked into the endless void of the dark light ball by the Void Yasha, the spirit thought that this was just a way for Li Tian to scare him.

He confidently believes that after returning to Earth, Li Tian, who has lost all his skills, cannot do without him.

With his powerful strength, it can help Li Tian quickly improve his strength, and Li Tian is absolutely impossible for him to be swallowed by the endless void.

But as "Red Slash"'s blade was swallowed more and more, the spirit of the spirit became more and more bottomless, and the endless darkness made the spirit of "Red Slash" fear.

That is not the fear of death, as long as the "Red Slash" is still there, this spirit cannot die, at most it will fall into a deep sleep.

That is the fear of loneliness, the fear of waiting, the fear of the unknown.

The endless dark void made "Red Slash"'s spirit once again recall the previous events.

This "Red Slash" tool spirit remembered that he was suffocated by his first master and was exiled to another world through the gate of the forbidden area. It also remembered the long wait in the waters of the other world full of icy and endless darkness. I remembered that Li Tian brought him back to the earth world in another world.

If there is no Li Tian, "Hong Zhan" doesn't know how long he will have to wait in that other world before he can return to Earth before he has a chance to enter the Netherworld.

"Master, I am willing to surrender to you and recognize you as my master!" The "Hong Zhan" spirit said again to Li Tian in a low voice.

"How to surrender? How to recognize the Lord?" Li Tian asked.

The Qi Ling straightened his body slightly, and then the two-sided four-handed hands were torn from the center of the head to the sides, as if to divide a person into two.

As the countless ghost skeletons separated towards the two sides, a white withered bone appeared in the middle of Qi Ling's body.

This white withered bone is only the size of a human hand, and it is not complete.

"Please let the master drop blood on this white bone, and our spirit will have a little bit of the master's essence and blood, and then the master only needs to divide a trace of divine consciousness and enter this dead bone to complete the master recognition!" Said the scarlet face.

Li Tian nodded and stretched his hand on the palm-sized dry bone.

At this time, although the wound on Li Tian's right palm had stopped bleeding, it did not heal. With Li Tian's effort, the wound immediately collapsed, and blood flowed down Li Tian's palm wound on the white bone.

That Li Tian's blood quickly submerged into this white bone, only a few seconds later, the white bone actually had a bit of luster, and strands of flesh and blood appeared on the white bone.

Li Tian retracted his right hand, and then immediately separated a divine consciousness, and threw it onto this white bone.

With the countless ghost skeletons of the spirit being healed, they finally changed back to their original appearance, but at this time Li Tian already felt that he seemed to have some connection with the spirit.

But these connections are still very weak, sometimes missing.

"Ok?"

Li Tian suddenly felt that the small dead bones in the body of the spirit were still growing, and the bones were wandering in the body of the spirit, as if Li Tian's blood was making the body of the spirit. same.

"boom!"

There was a loud noise in Li Tian's head, and then there was more consciousness in Li Tian's head that did not belong to him.

"It turns out that this red sword can combine with the nine-color corpse crystal to turn into a white bone armor because of the palm-sized dry bones in this spirit." Li Tian thought in his heart.

"That's right, the master! This is just a form of Hong Zhan. As Hong Zhan continues to restore his vision, more forms will appear, and the master's strength can be improved more!" The spirit said humbly.

When Li Tian's mind moved, the spirit immediately poured into the "Red Slash", and Li Tian's nine-color corpse crystal began to turn frantically, and countless transparent silk threads poured into Li Tian's body.

And that "Red Sword" had already flown back into Li Tian's palm, and began to actively cooperate with the Nine Color Corpse Crystal.

Soon, there was an extra layer of bone armor on the right half of Li Tian's body, and there was a ray of red flowing on the bone armor, making it even more strange that the bone armor was full of weirdness.

"Master, now this bone armor has your spiritual knowledge and blood, and the strength of the bone armor has been comprehensively improved! However, because of this, when the bone armor is hit hard, the owner will bear it. Part of the damage of the bone armor!" Li Tian's "Red Slash" spirit said to Li Tian.

Chapter 3588: Kill out

During the process of "Hong Zhan" acknowledging the master, neither the barbarian nor the captain came over to disturb Li Tian.

He waited until Li Tian's face showed a smile, and after the white bone armor formed by "Red Slash" on Li Tian's body disappeared again, the barbarian came to Li Tian's side with the Azure Dragon Sword, and said with a simple smile on his face. : "Brother Tian, it seems that you have subdued this red?"

Li Tian nodded slightly and said, "Yes, this time Hong Zhan has already recognized the master." After that, Li Tian flipped it casually and put the "Red Zhan" into the space of Void Yasha again. Seeing this scene, the barbarian asked with some doubts: "Brother Tian, why did you put Hong Zhan away again?"

"Learn from you and raise the sword!" Li Tian said with a smile.

The barbarian immediately touched his head without feeling embarrassed, and said, "Brother Tian, you are laughing at me again!"

"No! Barbarian, I am not laughing at you! After more than a month, I now understand a truth. No matter when, we should not be too dependent on external factors, but should continue to improve our own strength. For example, this red Zhan. If I don't have enough strength, this Red Zhan will eat the master." Li Tian said seriously.

The barbarian thought for a moment, then nodded and said, "Brother Tian, I understand! I will redouble my efforts to practice the Azure Dragon Sword Technique!"

But at this moment, there was a sudden movement on the captain's side.

Li Tian and the barbarian looked up at the captain at the same time, and found that the captain's body was trembling violently, and her body was changing rapidly with this tremor.

First of all, the captain's body was raised a bit higher.

When I first met Li Tian, the captain was just a primary school student with a height of only one meter and three meters. In subsequent promotions, the captain's height continued to rise. Before the last promotion, the captain's height had reached one meter. Seven.

Now the captain's height has reached 1.7 meters, and he is not lower than the barbarian when he stands up.

In addition to his height, the captain's skin has also undergone some changes, becoming more fair, just like the white onion that just came out of the water, it is almost soft and tender.

Judging from the appearance, the captain is already slim, and he has the youthful beauty of a girl. Even Li Tian can't tell that the captain is a zombie at first glance.

And the black hair of the brigade has become longer, and it can already hang down on the ground, and her hair also flashes a metallic luster in the process of change.

After Li Tian and Manzi looked at the captain, the movement on the captain's side had stopped, as if it had only lasted a few seconds.

"The captain is promoted? The speed of promotion is too fast, right?" Manzi asked to himself.

The promotion of zombies originally relied on the power of the corpse in the corpse crystal, if the power of the corpse reached the boundary point, it would naturally be promoted.

However, just like the promotion of zombies that Li Tian saw in Fancheng, not all zombies are promoted smoothly. The promotion of zombies is a process of rebirth, full of pain, and some zombies will be promoted, and even explode. Body died.

As for Captain Li Tian's promotion this time around calmly, Li Tian didn't see much. Of course, this also reflects that the Captain's control of the power of the corpse has reached a certain level, at least when it absorbs the power of the corpse. , Will not let the power of the original corpse destroy her strength.

The captain raised his head and looked at Li Tian and the barbarian, with a nice smile, then sat down again, and continued to stuff the corpse crystal that Li Tian gave her into his mouth, starting to hit the twelfth level.

"Barbarian, get ready, when the captain is promoted again, we will kill!" Li Tian said.

"Okay!" Manzi said with a simple smile, carrying the Qinglong Sword on his shoulder.

There are so many high-level zombies outside. Although Barbarian hadn't seen it with his own eyes, he knew it was difficult to deal with, but just like Tang Xiaolong, since Li Tian said he wanted to kill him, Barbarian would stay with him to the end.

In fact, Li Tian can be said to be a bit risky doing this.

Since meeting with the ghoul, Li Tian has not relied on "Red Slash", but completely relied on his broken soul palm and teleportation, which enabled him to achieve later results in the finals of the Forbes Power Contest.

In the subsequent Forbes Power Contest finals, Li Tian repeatedly studied Qingyun to enhance the power of his broken soul palm, and then practiced and improved in the Forbes Power Contest finals.

The current Li Tian has a faster palm speed and a faster teleportation speed. After the battle at the National Design Institute, even if the current Li Tian is besieged by a hundred zombies, Li Tian can easily face it.

Of course, with the current strength of Li Tian, the 13th-level zombie Li Tian can basically solve it easily.

But if there are more than thirteenth level zombies, or there are many thirteenth level zombies surrounding him, then Li Tian is not very sure of winning.

It's just that Li Tian wants to rush out, and those zombies don't even want to keep Li Tian.

If Li Tian didn't still worry about Bai Jing in his heart, and worried that Situ Ningbing and others would rush to Tashan Temple after finding Bai Jing, causing them to fall into a bitter battle, Li Tianzhen wanted to continue practicing in this underground palace, even directly taking the remaining eight dragons The four stone gates were also explored one by one.

About half an hour later, the captain was promoted again.

This time the group leader's promotion was much louder. There was a crackling sound from the group leader's body, as if all the bones in the group leader's body had been blown off. The barbarians who watched were distressed.

The team leader's face was not pretty, even her long hair was erected like steel needles, and the power of the corpse kept flowing from under the team leader's skin, the team leader's white and tender skin. The meat buns bulged up one by one, as if the power of the original corpse might explode at any time.

However, the commander's control of the power of the original corpse really reached a certain level. After just a few breaths, the power of the original corpse was completely controlled by the leader, and then the head of the large leader was full. The hair gradually fell.

"call!"

The captain finally broke through to level 12.

The captain opened his eyes slowly, turned his head to look at the barbarian, and gave him a sweet smile. The barbarian touched his head and walked towards the captain with a smirk.

A person and a corpse were held together, completely ignoring the existence of Li Tian.

Adultery!

These two **** goods made rapid progress during Li Tian's departure.

"Leave Qingqing, me, and me behind, now kill with me, let's go find Bai Jing and the others! Then go to the Qinling Mountains!" Li Tian said.

Chapter 3589: Converge

When Li Tian took the barbarians and the captain out of the well, the mutant crow was still hovering in the air, and most of the high-level zombies in the Tashan Temple gathered near the Buddha Pagoda, trying to climb the tower. The bone spear knocked down the mutant crow.

However, after the bone spears were thrown out, the mutant crow would flap its wings abruptly and fly a few points higher, and the bone spears would fly past the mutant crow's feet.

But not all zombies go to fight mutant crows, there are still many zombies wandering in the Tashan Temple.

When Li Tian was about to jump out of the well, he led the barbarians and the captain to perform a teleport and appeared directly at a distance of ten meters from the well.

As soon as Li Tianhe, the captain, and the barbarian appeared, they immediately attracted the attention of the two thirteenth-level zombies nearby, and the two thirteenth-level zombies rushed over while shouting.

"Barbarian, captain, you two deal with one, I will deal with the other one, and make a quick decision!" Li Tian shouted at the barbarian and the captain.

Immediately, Li Tian's figure flashed, and he had appeared behind the thirteenth-level zombie.

"boom!"

"boom!"

"boom!"

As soon as Li Tian's figure flashed, he immediately blasted three palms with broken soul palms at the thirteenth-level zombie, and every palm hit the zombie's head.

The thirteenth-level zombie still kept jumping towards Li Tian, and he didn't even have a chance to look back at Li Tian's appearance. His head was shattered into a pile of carrion by Li Tian, and the corpse crystal fell out. His body ran forward a few steps before it crashed to the ground.

Li Tian stretched out his hand to pick up the thirteenth-level corpse crystal and stuffed it directly into the skin.

At this time, the captain and the barbarian were fighting each other with another level 13 zombie.

After being promoted, the captain already possesses the strength of the twelfth level zombies, but the strength of the twelfth level zombies is not enough to see in front of the thirteenth level zombies. The long black hair of the captain has been entangled in the wire like a wire. The body of the thirteenth-level zombies, but was still easily torn apart by the thirteenth-level zombies.

Strands of black hair of the captain fell to the ground, and the captain's body was also stabbed with a hole in the body of the thirteenth-level zombie.

The barbarian's Azure Dragon sword technique has already used the strength to fight twelve-level zombies, and it is also not worth mentioning at the thirteenth-level zombies.

However, after the Barbarian's Azure Dragon Sword passed through the intent of raising the sword, the first knife actually caused a lot of damage to the thirteenth-level zombie. A single knife cut a ten-meter-long gap on the ground, directly killing the thirteenth-level zombie. An arm was chopped off, and in the end even a monk's house collapsed.

However, after this, Barbarian's Azure Dragon Sword could barely leave a white mark on the bones of the thirteenth-level zombie.

At this time, the barbarian and the team leader had been crushed and beaten by the thirteenth-level zombies. If the team leader hadn't kept resisting them with bones and long hair, the barbarian had probably been attacked and injured by the thirteenth-level zombies.

But in this case, the barbarian and the captain still gritted their teeth and supported them firmly without asking Li Tian for help.

Li Tian shook his head slightly, seeing that it was still difficult for the barbarians and the captain to leapfrog other zombies.

"Huh"

Li Tian disappeared in place, and appeared behind the thirteenth-level zombie in an instant. Li Tian directly slapped the zombie's head with seven or eight broken soul palms, directly smashing the head.

"Brother Tian!" Manzi and the brigade let out a long sigh, and showed a wry smile at Li Tian.

The mutant crow in the air had already seen the battle on this side and rushed down suddenly.

The mutant crow saw the battle here. The other zombies in the Tashan Temple were naturally not blind or deaf. There were already seven or eight thirteenth-level zombies rushing from all directions.

And the zombies on the Buddha Tower have also found that Li Tian and others have jumped from the Buddha Tower's injuries one after another, and rushed down from the tower mountain with a few jumps. There were even a few zombies who did not forget to face the mutation. The crow throws a spear, wanting to shoot down the mutant crow directly.

Fortunately, when the mutant crow flew down, his figure had become smaller, and his flight was also flexible enough, and the bone spears flew past the mutant crow's figure.

Li Tian didn't dare to be careless, and directly threw the barbarian and the captain into the void of Yaksha's space, and his body flashed, avoiding the dozens of thirteenth-level zombies that came under the siege, and then rushed into a Buddhist room.

Seeing that the mutant crow was about to fly, Li Tian squatted hard with his feet again, and his body jumped up.

With Li Tian's effort, the Buddhist room at Li Tian's feet collapsed, and Li Tian jumped at least three or four meters high.

The height of these three or four meters plus the height of the Buddhist room was enough for Li Tian to just touch the mutant crow. Li Tian stretched out his hand and pressed the body of the mutant crow, and the mutant crow let out a cry in the air.

Immediately, the size of the mutant crow instantly increased, and Li Tian had landed on the mutant crow steadily.

"Hurry up!" Li Tian said to the mutant crow.

Needless to say, Li Tian, the cowardly mutated crow had already flapped its wings and flew to a high place quickly.

And Li Tian began to shoot the broken soul palm on the ground frantically.

"boom!"

"boom!"

"boom!"

As the broken soul palm kept landing, on the ground, the ancient trees in this thousand-year-old temple kept creaking to the end, while the ancient buildings collapsed with a "bang", bricks and tiles splashed, and mud flew around.

"Wow!"

"Wow!"

Bone spears flew under the mutant crow constantly, and the mutant crow flew upwards in panic.

"Damn, I was scared to death, I thought I was going to die here! Li Tian, you have to make up for me, I just saw you picked up a few thirteen-level zombie crystals just now, hehe..." When it was all right, he immediately made a request to Li Tian.

"Your sister, what is picking up? You can pick one up for me to have a look? That was my life in exchange for it! But there is no corpse crystal of the thirteenth level, so I can give you two corpse crystals of the twelfth level. Early adopters!" Li Tian said disdainfully.

"Guru!" The mutant crow swallowed.

The mutant crow flapped its wings and quickly flew towards the south city gate. However, on the ground, countless zombies swarmed over the ground in the direction the mutant crow flew.

On the ground, countless zombies galloped frantically, constantly shuttled through the streets and alleys, while the zombies in the back followed the zombies in front closely, like a tide.

A tide of corpses has formed.

"Oops, you can't let this tide of corpses move in the direction of the South City Gate, maybe it will hurt Situ Ningbing and the others!" Li Tian said to the mutant crow a little anxiously.

Chapter 3590: Enter Qinling (1)

However, at this time a tide of corpses had formed.

The zombies rushing to the front of the tide of corpses still chased Li Tian in the sky at first, but as the zombies behind kept pouring in, the zombies running at the forefront in the narrow street couldn't be like Li Tian in the sky. The same changes direction at any time, and in the end it becomes completely subconsciously running.

This corpse tide running scene is spectacular, just like wildebeest running wild in the migration on the African savannah.

Standing on the body of the mutant crow, Li Tian kept blasting the broken soul palm to the ground, wanting to rent the tide of zombies.

However, Li Tian broke his soul with more than a dozen palms, and only shot a dozen zombies to death. For the huge tide of corpses, it was nothing more than a drop in the bucket.

Li Tian also thought of using the broken soul palm to smash the buildings to block the path of the zombie tide, but the buildings in Beitang City from Tashan Temple to Nanchengmen are basically not particularly tall, these low buildings Even if the thing is collapsed by Li Tian, it is of no avail.

As for those buildings that are too tall, Li Tian's soul-broken palm can be bombarded, just like worms shaking a tree, and it won't do anything at all.

There was no longer any possibility of blocking, Li Tian immediately issued an order to make the mutant crow speed up and fly towards the south city gate.

Fortunately, although the zombies are fast, they must run along the street and the road, and the mutant crow can fly directly over any building. Soon Li Tian and the mutant crow separated from the tide of corpses.

Li Tian breathed a sigh of relief involuntarily, causing the mutant crow to speed up and fly towards the south city gate.

At this moment, in Li Tian's mind, Feitian Yasha came and said: "Master Li Tian, we have found Bai Jing and the others! We are now preparing to head to Tashan Temple!"

Now the three little Yachas have recognized Li Tian as the master, and since they have the same mind, as long as they are still in the same city, Li Tian and the three little Yachas can communicate with each other attentively.

But if the distance between the two is too far, they will have difficulty in direct communication, or even no way to communicate at all.

"No, you go back to the wall of the South City Gate and wait for me, we will come right now!" Li Tian said to Feitian Yasha.

The city map of Beitang City is not small. In case Situ Ningbing, Xue Ji and others missed Li Tian when they drove from the South City Gate to Tashan Temple, then they would most likely hit the corpse tide directly. At that time, even if Li Tian wanted to save them again, it would be a little troublesome.

However, in order to avoid causing them panic, Li Tian did not tell Feitian Yasha that a corpse tide had occurred in Beitang City, and the tide of the corpse tide was heading in their direction.

Na Feitian Yasha immediately delivered instructions, and Situ Ningbing, Xue Ji, Tang Xiaolong, Bai Jing and others rushed to the south wall of Beitang City.

After some fighting, Bai Jing, Situ Ningbing and others quickly boarded the city wall.

Of all the people present, only Bai Jing, Shen Tao and Wei Wei knew the situation of Beitang City best. Those high-level zombies had already occupied the vicinity of Tashan Temple.

Li Tianneng rescued the barbarians and the captain of the Tashan Temple, I am afraid that he will inevitably start a war, and may even fight directly with the zombies.

Now, since Li Tian wanted Feitian Yasha to tell them not to go in the direction of Tashan Temple, Bai Jing immediately guessed what was going on there.

Sure enough, the dog's nose twitched twice, looking at it in horror, and said tremblingly: "There are so many zombies... so many zombies, I am afraid that there is a corpse tide over there! Brother Tian will not be in any danger, right? What do we do?"

"The corpse... the tide of corpses?" Pan Tao's body was a little trembling, and he couldn't help but said tremblingly: "Should we retreat while waiting for Li Tianjun Commander? This... the height here is okay for ordinary zombies. , If we deal with high-level zombies, I am afraid we will be in danger!"

"Don't be afraid! Since the little boss told us to wait for him here, then the little boss must have absolute self-confidence. We just wait here!" Tang Xiaolong calmed Pan Tao and said.

Soon, Tang Xiaolong and others could hear the "rumble" sound from the far south of the city, which seemed to be a thousand horses galloping. The sound was low and dull, and the sound was like a drumbeat. It was as if every sound was knocking on their hearts, making them a little fidgety.

Fortunately, with the exception of Goubi and Pan Tao, everyone else is basically experienced in battle, even if they are afraid of the corpse tide, they will not show it.

About less than this minute later, a small black spot appeared in the southern sky, and the small black spot was flying towards them quickly.

"It's the master! The master is coming!" Feitian Yasha immediately opened her wings and flew up to meet Li Tian.

Xiao Tianyi also greeted him riding a mutant bat.

A few minutes later, Li Tian was sitting on the mutant crow, flying to the sky above the city wall, jumped directly off the mutant crow, and landed smoothly on the ground.

As soon as Li Tian landed, he immediately released the barbarians and the captain, while Bai Jing, Situ Ningbing and others immediately surrounded them.

"Little boss, is there a tide of corpses chasing you behind?" Tang Xiaolong asked.

"Li, what happened to Tashan Temple?" Situ Ningbing asked.

Li Tian said: "After I arrived near Tashan Temple based on the clues left by Bai Jing, I found that it was already occupied by high-level zombies, and there were high-level zombies everywhere. And

when I rescued the barbarians and the captain, I was with those high-level zombies. Encountered, we killed several thirteenth level zombies and ran out."

"Thirteen...Thirteen...Zombies? That's amazing!" Pan Tao was shocked and speechless.

Li Tian continued: "Now you can also see the dust flying in the distance, and the tide of corpses has rushed in this direction."

"Little boss, shall we fight?" Tang Xiaolong clenched his fists and said.

"War ass! The corpse tide has tens of thousands of zombies, and among those zombies there are a large number of zombies above level 10. At that time, we will have a battle with these zombies, but now, we are advanced to the Qinling Mountains!" Li Tian said.

Situ Ningbing, Xue Ji, and Tang Xiaolong all nodded heavily and entered the Qinling Mountains, which meant looking for the fourteenth-level mutant mourning bear.

This is definitely a big challenge for them.

"Yes, we advanced to the Qinling Mountains, and our legion is still waiting for our orders in the Qinling Mountains! Wait until we and the legion round, then we will take Beitang back." The man who still didn't know the situation vowed. Said.
