

## A Killer 3611

Chapter 3611: Xiaolong Domineering

"Crack!"

"Hong Zhan" easily cut off the head of Sanxiong, and the brain and black mucus of Sanxiong flowed out along the wound. Li Tian directly put his hand into the head of Sanxiong that had been cut.

"Ok?"

Li Tian's heart was startled, and there was no crystal in the head of this lost bear!

What a hell!

Li Tian forcefully broke the head of the bear bear, and carefully swept the brain and the black mucus with his hand.

"Your sister, there really isn't it!" Li Tian exploded angrily.

After such a long battle, the head of the lost bear here has nothing to lose. Is there anything more unacceptable than this?

Isn't this fourteenth-level mutant Sangxiong's Sangjing not in his head?

Suddenly, Li Tian thought of the performance of "Red Slash" and the nine-color corpse crystal just entering this cave. There are corpse worms in this cave.

Wherever there are corpses, there will be guardians.

In the past, the guardians Li Tianneng encountered were all zombies, but this does not mean that all guardians are zombies, and there may be other zombies as the guardian.

And this fourteenth-level mutant bear is also completely possible.

More importantly, this fourteenth-level mutant sangxiong possesses human souls in its body, so would this sangxiong be the guardian sangxiong?

Li Tian quickly came to the body of the mutant Sangxiong, just about to start cutting open the guardian Sangxiong's chest, and at this time, there was a rush of footsteps deep in the cave.

These footsteps were chaotic and it sounded like they were avoiding something.

Sure enough, with the sound of these footsteps, there were several screams from the depths of the Sangxiong Cave. At this time, the distance between these footsteps and screams was no more than 100 meters away from Li Tian and the others.

"It seems to be the voice of a female monkey! I didn't pay attention just now. The female monkey must have ran into the cave to rescue her boyfriend, but I don't know what danger they are facing now." Situ Ningbing came to Li Tian Beside, said with some worry.

Other people also gathered around Li Tian with some anxiety. Tang Xiaolong asked: "Little boss, I suspect that the danger this female wandering monkey encounters should be related to the last few howls of the wandering bear. What shall we do now?"

"Is it a bat? I heard the dog nose say that there are a lot of bats in this cave!" Li Tian thought to himself.

However, while speaking, Li Tian and others could already see several black figures in the distance of the Lost Bear Cavern who were running away holding their heads in a panic.

There were many crises in this mourning bear cave. Li Tian did not have time to continue to examine the body of the mourning bear. He sent the body of the mutant mourning bear into the space of the flying Yaksha, and then sent Situ Ningbing, Xueji, and Bai Jing and others were sent to the space of Void Yasha.

Then she took Tang Xiaolong and the barbarian to run towards the position of the mother wandering monkey, without taking a few steps, the mother wandering monkey had already seen Li Tian and others, opened her mouth and shouted loudly: "Help! Help!"

Li Tian saw that the black shadow running in the front was indeed a female wandering monkey.

At this time, several black bats fell on the head of the female monkey. These bats kept tearing at the skin of the female monkey with their sharp claws.

The head and skin of the female monkey were torn apart, and the black mucus was flowing down the female monkey's body.

The female wandering monkey waved the steel pole in her hand without mentioning it, trying to drive away the bereavement bats that fell on her, but the bereavement bats just flew up, fluttered a few wings, and then quickly landed on her. His body continued to tear the skin of the female monkey.

And behind the mother wandering monkey, there are three or four black shadows hurriedly fleeing, but without exception, these shadows are also covered with bats. These shadows are even more pitiful, even Li Tian has already seen them. The ears of the black shadow on the body have been torn off by the mourning bat.

And more bats are still flying in the middle of the cave.

At this time, there were already a dozen bats that seemed to have felt the presence of Li Tian, Tang Xiaolong, and Barbarians. They had flashed their wings and flew towards Li Tian and others.

Seeing so many bats flying over, Li Tian's heart was not only not afraid, but a hint of happiness was revealed.

Although these bats are not all mutant bats, they are not all twelve-level bats.

Li Tian didn't expect that there would be so many high-level bats in this bear cave. It was hard for Li Tian to imagine how the level of these bats was raised.

But at this time, this is no longer the focus of Li Tian's concern. Li Tian's focus is how to turn these bats into mourning crystals.

The mutant bat has been following Xiaotianyi for so long, but the current level can no longer satisfy Xiaotianyi, and these bats can just solve the problem of the promotion of mutant bats!

"Huh!"

The barbarian waved the Azure Dragon Sword in his hand and slashed at the bats that were flying over.

Wherever the Azure Dragon Sword went, several bats were immediately injured by the Barbarian Azure Dragon Sword, and the wings of several bats were directly cut off by the Barbarian Azure Dragon Sword.

However, more bats flew towards the barbarians. Seeing that the barbarians were about to be swallowed by the bats that kept flying out, Li Tian teleported directly to the barbarians, reaching out and sending the barbarians to the space of Void Yasha. In, then another teleport to another place.

In Li Tian's team, only Li Tian has fought against bats, and the others, let alone fought against bats, have very few chances to fight against birds.

For the barbarian, his current strength can kill these bats in seconds, but the number of these bats is too much. Even if the barbarian kills more bats, it will not improve the barbarian's strength much. The barbarian fell into a bitter battle and was even injured.

Li Tian still remembered the incident of subduing mutant bats in his heart.

Therefore, without the consent of the Manzi, Li Tian received the Manzi into the space of Void Yasha.

At this time, Tang Xiaolong had already fought those bats. A dozen bats surrounded Tang Xiaolong's body, flashing their wings.

Tang Xiaolong kept punching at these bats. Although Tang Xiaolong's iron fist didn't hit those bats every time, Tang Xiaolong's power should not be underestimated.

Every punch, as long as it can hit those bats, will kill a bat.

"boom!"

"boom!"

"boom!"

This Tang Xiaolong's ten-fold body-refining iron fist is extremely domineering, and the strength of each punch is eight thousand catties, which can blast these twelve-level bats into fleshy mud.

Although the claws of these bats are sharp, but when Tang Xiaolong's ten-fold refinement has reached the fifth level, the attacks of those bats are completely ineffective against Tang Xiaolong.

"Little dragon domineering!" Li Tian couldn't help but exclaimed.

Chapter 3612: Bats

At this time, seventeen or eight bats flew around Li Tian's body, attempting to attack Li Tian with their minions. However, the bone armor covering Li Tian's body now, let alone these twelve-level side bats Yes, even the fourteenth-level mutant mourning bear may not be able to hurt this bone armor at all.

Seeing Li Tian waved "Red Slash" casually, a red light flashed, and a bat was moving in free fall from the air, and the bat that fell to the ground could no longer die.

And Li Tian didn't bother to clean up the mourning crystals in the bat's little head, waiting for the final harvest.

The female wandering monkey who led the war on Li Tian and Tang Xiaolong had already brought the male wandering monkey and several other mourners to Li Tian.

Li Tian saw a chimpanzee and a tiger besides a male monkey.

When these funerals saw Li Tian, who was covered with a layer of bone armor, they trembled in shock, thinking that Li Tian was an unknown high-level funeral, they turned and fled into the Sangxiong Cave.

Li Tian could only hurriedly shout to the mother wandering monkey who was panicking.

Hearing Li Tian's voice, the female wandering monkey was still confused.

In order to avoid letting the mother monkey and other bereavement fall into the bat group again, Li Tian controlled the white bone mask on his face again, revealing his humble face.

Seeing that Li Tian deliberately controlled the white bone armor to reveal that familiar face, the horrified face of the female wandering monkey showed a brilliant smile like a flower, and rushed towards Li Tian, wishing to plunge into Li Tian's arms. in.

Seeing the mother's wandering monkey's movements, the male wandering monkey's face was uglier than the dead father and mother. He looked at Li Tian indignantly. He really thought that Li Tian and the female wandering monkey had some secret secret. .

"Li Tian, I'm going to give you a monkey!...Oh, how did you beat me!" The female wandering monkey was about to pounce on Li Tian's arms, but Li Tian stretched out her hand and pressed it directly to the ground. The lost monkey jumped up and shouted angrily.

Seeing this scene, a gratifying smile appeared on the face of the male mourning monkey, and he stretched out his little furry hand, both distressed and precious, and pulled the female mourning monkey behind him. Then he said to Li Tian: "Please save us! As long as you can save us, when I return to the viewing platform, I will tell you the whereabouts of the Qinling Labyrinth and the moral truth!"

This was the agreement between the mother's lost monkey and Li Tian, and Li Tian naturally had to abide by it.

"There is no problem saving you two, but I am not obligated to save the two monsters behind you!" Li Tian raised his eyebrows slightly and said to the male wandering monkey.

At this moment, behind the male mourning monkey, a huge chimpanzee over two meters tall was fighting with the bats.

This chimpanzee is huge, and naturally became the target of many bats.

Had it not been for the high level of this chimpanzee, I am afraid that it would have been attacked by those bats and fell to the ground.

"Please help me! If you can save me, I am willing to be a cow and a horse for you!" Hearing Li Tian's unwillingness to save them, the Sanghu even uttered words to Li. Tian shouted.

Li Tian was already numb to the funeral spit, and he would no longer make a fuss.

However, Li Tian couldn't help but spit out in his heart: "Nima, how boring this corpse soul is, so many people's souls are controlled in these animals with the soul detention method."

At this time, the tiger did not have the majesty of the king of beasts. There were wounds everywhere on the mottled tiger skin. The tiger kept using his tail and claws to drive away the attacks of the beast bats.

This is what Li Tian wants!

If it is unprofitable, Li Tian will not say to save the bereaved, and even dig out the bead crystals in the heads of the bereaved.

Since this Sanghu is so conscious, Li Tian can only reluctantly agree to him.

At that time, when Li Tian walked out of the Qinling Mountains, there was one more mourner around him as a mount. It was a very exciting thing to think about.

"Wow!"

The chimpanzee had already attacked several bats to death between the tigers and humiliations. At this time, he reached out and grabbed a bat. The chimpanzee screamed and tore the bat in half with two paws.

Then, the chimpanzee flaunted his might, slammed his chest with both fists, looked down at Li Tian, and roared in the direction of Li Tian's face.

Then the chimpanzee said with a sneer: "Take advantage of the danger, what a hero! As long as the fourteenth-level mutant bears die, even if you don't need you, I can still escape here!"

"Get out? Get out of your paralysis!"

Li Tian sneered, and a teleport came directly to the chimpanzee's side.

"Huh!"

A red light flashed, "Red Cut" easily cut the chimp's lower body directly.

consternation!

The two lost monkeys and the lost tiger looked at Li Tian in astonishment, and they even watched Li Tian vigilantly, worrying that Li Tian would also use a cold arrow on them.

Li Tian smiled at the two mourning monkeys and mourning tiger, and said, "Don't worry, I'm Li Tian said that I'm the most trustworthy. Since I have promised to save you and take you out, I will definitely say that Li Tian will do it."

Then, Li Tian kicked the chimpanzee that had been cut in half by "Red Cut", and walked towards the chimpanzee slowly.

The chimpanzee was looking down at Li Tian just now, but now he has lost himself and has to look up at Li Tian.

Although the chimpanzee was cut off from his lower body, he did not feel pain because he was also a bereavement, but at this time he was attacked by Li Tian and could not help cursing a little angrily: "Damn, you and the others dare..."

Halfway through the words, the chimpanzee saw Li Tian wave "Red Slash" again, and his heart was finally full of fear: "Please let me go, as long as you save me out, I will also be a cow and a horse for you!"

I am afraid that it is not the turn of chimpanzees to be a cow or a horse!

If Li Tian rode out on the Sanghu, it would be called pulling wind, and if he rode out on this crippled chimpanzee whose body had been cut in half, then it would be pulling wind.

"Huh!"

"Hong Zhan" released a red light and directly chopped the chimpanzee's head in half, and the pale yellow crystal in the chimpanzee's head slowly flowed out along with the black mucus.

Seeing Li Tian's move, he beheaded the chimpanzee of the thirteenth level bereavement, whether it was a lost monkey or a lost tiger.

This is what Li Tian wants.

Killing chickens is for monkeys, and orangutans are for monkeys and tigers.

Li Tiangang was thinking about taking the zombie monkey, zanghu, and Tang Xiaolong into the void of Yasha, but suddenly he felt the nine-color corpse crystal on his chest suddenly turn.

"Om!"

Countless transparent silk threads gush out from the nine-color corpse crystal.

Chapter 3613: Bats

These transparent threads gush out from the nine-color corpse crystal, then drilled out of the gap in the white armor, and quickly stretched out into the darkness.

Li Tianneng felt that the Nine Color Corpse Crystal was very excited, and this feeling of excitement was somewhat familiar to Li Tian.

Li Tian suddenly remembered that when he was walking from the heavens to Beitang, he passed a small city, which was the small city that conquered Tianyi and mutant bats.

In the auditorium in this small city, the nine-color corpse crystal released this feeling. And in this auditorium, the nine-color corpse crystal frantically swallowed the mutant bat's zombies.

Does this nine-color corpse crystal now want to swallow the zombies of those bats that have been killed by Li Tian and Tang Xiaolong again?

But this time Li Tian was obviously wrong.

After the countless transparent threads gush out, they are not directed at the mourning crystals falling on the ground, but at the mourning bats flying in the air.

"Does this nine-color corpse crystal want to control these bats?" Li Tian thought suspiciously.

"But when I left Beitang, even the tenth-level zombie captain could no longer control the nine-color corpse crystal. Even if the nine-color corpse crystal has improved for more than a month, it will not be able to control these twelfth levels. The funeral bat, right?"

Soon, Li Tian's face showed horror.

Li Tian had to be horrified.

After the transparent silk thread poured into the heads of the mourning bats, it quickly entangled the mourning crystals of the mourning bats. Once the winding was completed, Li Tian immediately had a connection with the mourning bat.

Li Tian never thought that these nine-color corpse crystals could really control the twelfth-level zombies.

"Impossible!" Li Tian said to himself in surprise.

"Could it be... is it because of Red Slash?" Li Tian suddenly thought that after Red Slash recognized the Lord, the white bone armor formed by the combination of Red Slash and Nine-color Corpse Crystal could cover his whole body, giving Li Tian a great strength. The promotion.

But Li Tian didn't even dare to think about this situation before.

Li Tian immediately swept the position of the nine-color corpse crystal on his chest with his divine mind, and checked the change of the nine-color corpse crystal.

Sure enough, although the nine-color corpse crystal did not change much, the vortex where the nine-color corpse crystal was located had already undergone great changes.

In the current vortex, there are more than 20 small light blue crystals densely hung, and these small light blue crystals are slowly rotating with the vortex. And these crystals naturally contain the power of pure corpse.

Li Tian only felt that this vortex was like the sky, and the small crystals were the stars above the sky.

Li Tian was surprised, and the two lost monkeys and the lost tiger were even more surprised.

In just a moment, all the bats that were besieging the Lost Monkey and the Lost Tiger just stopped attacking. Then they saw all the bats flying to the top of the Lost Bear Cave, hanging upside down on the top, staring. Looking at Li Tian, it was as if he had been cursed by Li Tian.

And these bats seem to be infected by a virus. At the beginning, only a few bats looked like this, and they quickly became dozens of them, but within a few minutes, the bear caves above everyone's heads were densely covered. Hanged full of bats.

Only a few twelve-level mutant bats were not controlled by Li Tian's nine-color corpse crystals, but these mutant bats also received the release from the nine-color corpse crystals.

Tang Xiaolong also freed himself from the siege of those bats. He glanced at the bats in surprise, his eyes fell on Li Tian's face again, and then said in surprise: "Little boss, this... these bats have been Are you under control?"

Seeing Li Tian's unpredictable smile, the male monkey was shocked and said, "Could it be that you are the guardian appointed by Lord Ghoul?"

"No, Li Tian is a human being, how could he be a guardian!" The female wandering monkey said firmly, shaking her head.

"If he is not the guardian, how can he control these bats?"

"Is the controlling bat the guardian?"

But whether it is a guardian or not, it is an indisputable fact that Li Tian has controlled so many level 12 bats.

The mourning tiger was only level twelve, and after seeing that Li Tian had controlled so many twelve-level bats, he immediately became a docile kitten.

When he saw the chimpanzee beheaded by Li Tian, although the tiger was afraid of Li Tian, he did not care much about Li Tian in his heart.

Even though he said that he was willing to be a cow and a horse for Li Tian, but in the heart of this mourning tiger, he wondered whether he should leave the bear cave and escape directly into the mountains.

However, after seeing that Li Tian controlled so many bats, this Sanghu didn't even have the heart to escape. He just wanted Li Tian to be gentle when he controlled him.

Sanghu lay on Li Tian's legs, rubbing against Li Tian's trousers with his body like a kitten, a thick tail wagging from side to side, like Li Tian showed good.

After the initial consternation, Li Tian returned to normal immediately.

The nine-color corpse crystal can make such a change, and Li Tian is happy that it is too late.

Now that he could control the twelfth-level bats, Li Tian thought of controlling other zombies or zombies. And this lost tiger is naturally the first to bear the brunt.

Li Tian immediately controlled the nine-color corpse crystals and released a few transparent silk threads. Then Li Tian calmly controlled these transparent silk threads to flow into the zanghu's head, and ran to the zanghu in the zanghu's head.

"Wow!" The Sanghu screamed fiercely, and the sound was exceptionally loud, echoing in Sangxiong's bear cave.

Then the tiger roar's voice became: "Be gentle, I'm afraid of pain..."

Li Tian almost spewed out a mouthful of blood, wishing to kick this mourning tiger violently.

"Om!"

Li Tian only felt the vortex of the nine-color corpse crystal in his chest swayed abruptly, and the power of the corpse in the vortex rushed out through the transparent silk thread and poured into the head of the zombie.

Gradually, the vortex gradually stopped shaking and gradually stabilized. And Li Tian has also completely controlled this lost tiger.

"If this is the case, I, Li Tian, can control at least 1,000 zombies and zombies below level 12. Then, Li Tian can formally form my zombie army!"

"No, there are hundreds of bats under my control. I want to form my flying squadron. The name is Black Bats Squadron. The captain is naturally Xiao Tianyi! If this is the case, I will come out of Qinling. At that time, it's time for our heaven to retake Beitang."

Li Tian deeply knows how powerful it is to have an air power in this apocalyptic era.

"However, the top priority now is to let the mutant bat advance, otherwise when Xiao Tianyi is promoted to level 14, the mutant bat will not be big enough to serve as Xiao Tianyi's mount!" Li Tian thought with some excitement. .

Chapter 3614: Moral truth

Seeing that the lost tiger was also controlled by Li Tian, the faces of the male and female lost monkeys showed horrified expressions, and the two of them kept moving back. .

"Li...Li Tian, don't you want to control the two of us?" the male mourning monkey asked.

Li Tian was in a good mood at this time, and he laughed loudly and said, "Why do I control the two of you? Should I take you two as monkeys? Don't worry, we are the closest partners. How can I control you? Two too!"

The male lost monkey breathed a sigh of relief.

"But now, can you tell me that there is moral truth at the entrance of the Qinling Labyrinth?" Li Tian said.

The male and female monkeys murmured for a while, and then the female monkey came to Li Tian and said to Li Tian: "We can give you the moral truth first. , But we can't explain the entrance of the Qinling Labyrinth clearly to you in a few words. When you come from this bear cave, come to the viewing platform to find us, we will definitely tell you!"

Li Tian couldn't tell whether what the mother wandering monkey said was true or false, but he nodded and said, "Okay!"

Immediately afterwards, Li Tian saw a very \*\*\*\* picture.

The female monkey suddenly stretched out her sharp claws, tore open the male monkey's abdomen violently, and then forcefully tore the male monkey's abdomen.

What Li Tian saw was frightened.

"Didn't you say that you are good to be in love with each other? What kind of hatred or resentment does this male wandering monkey have with your female wandering monkey? How could you treat the male wandering monkey like this!

However, Li Tian soon saw that the female wandering monkey suddenly turned her body, and there was already a package covered with black mucus in the female wandering monkey's paw.

"This is the moral truth scripture we found in a cave in the Qinling Mountains." The mother wandering monkey handed the moral truth scripture to Li Tian and said.

Seeing Li Tian stretched out his hand to take the moral scriptures, the female wandering monkey seemed to hesitate for a while, but she continued: "Li Tian, you must have noticed that there are many talking funerals in the Qinling Mountains. But Have you ever wondered why there are so many talking funerals in the Qinling Mountains?"

"Aren't these all the ghosts of corpses?" Li Tian said.

"Yes, it is a corpse soul, but why did the corpse soul come to Qinling?" the female wandering monkey asked.

Li Tian nodded, he had never thought about this problem. Before, Li Tian thought it was a corpse soul that seemed boring, and he used soul detention to detain the human soul in the body of the funeral to entertain himself.

But since the mother wandering monkey asked such a question, there must be other reasons.

Li Tian originally thought that the mother wandering monkey would continue to talk about this reason, but the mother wandering monkey suddenly smiled at Li Tian and said: "Now this question is left to you! My boyfriend and I are waiting for your victory at the viewing platform. The good news!"

After that, the female wandering monkey pulled a steel pipe and supported the male wandering monkey and quickly ran out of the cave.

"Your sister's, it's really going to hang people's appetite." Li Tian watched the female and male monkeys run out without stopping, turning around and asking Sanghu, "Do you know the reason?"

The zombie crawled on the ground and wept loudly: "Oh, Master Soul's use of soul detention to control other people's souls really has another purpose? Ooh, I don't know. I'm the corpse you just mentioned. The product of leisure, self-entertainment!"

It turns out that the role of this zanghu is really very simple, that is, when the corpse soul wants to explore something in the Qinling Mountains, by the way, he detains a person's soul in the zanghu that he grabs at random, so that Someone can say a word when the road is bored.

"Don't be sad, in fact, you are still useful! At least when I am riding in the future, you can also chat with me!" Li Tian said with a smile.

"Woo! Don't stop me, make me cry to death." The sanghu cried even harder.

"Xiaolong, do you look like you?" Li Tian pointed at Sanghu and said.

Tang Xiaolong's dark face almost suffered from internal injuries.

Then Tang Xiaolong walked up to the Sanghu hurriedly in disgust, and kicked the Sanghu: "Cry a hairy man, a man who bleeds without tears!"

What Tang Xiaolong said seems to be true!

How powerful is Tang Xiaolong's kick? This kick actually kicked off several of the zanghu's ribs, but fortunately, this is zanghu. As long as there is a corpse crystal and the zombie crystal has been swallowed, even if it kicks all the bones Broken can also grow quickly.

But as a result, the Sanghu immediately shut up, not daring to make any more noises.

"Xiaolong, this Sanghu is destined to you, so I can give it to you as a mount! In the future, only you can do it for me!" Li Tian said seriously.

Tang Xiaolong was happy in his heart, but he felt that the little boss was suggesting something to him.

"Little boss, thank you! These are the mourning crystals of all the bats we killed just now. There are a total of 64 mourning crystals." Tang Xiaolong packed the mourning crystals he just collected in a leather bag and handed it to him. Li Tian.

Li Tian was holding "Red Zhan" in one hand and the moral scripture in the other hand.

"Solution!" With Li Tian yelled, Li Tian lifted the bone armor from his body, and put "Red Slash" into the space of Void Yaksha. Only then would he have time to read this moral scripture.

Li Tian first wiped the black mucus on the moral scripture with a piece of cloth with both hands. Li Tian discovered that the moral scripture turned out to be a layer of animal skin holster.

Li Tian wiped his hands clean again, and then took out the moral truth from the animal leather holster.

"Your sister, what's the word on this? It's terrible to be uncultured. Even if you get this kind of treasure, your eyes are blackened." Looking at the crooked words in the moral truth, Li Tian didn't even know one. Cannot help but sigh.

Reluctantly, Li Tian could only put the moral scriptures away and waited to study with Situ Ningbing in the future.

Li Tian reached out and took the skin bag that Tang Xiaolong handed over, and saw that the skin was full of pale yellow crystals, but Li Tian's face didn't mean anything happy.

"I knew that my nine-color corpse crystal could control a level twelve bat. Just now I didn't let the dragon kill so many bats! Ooo, this is a level twelve bat that can only fly more than sixty. More than a dozen are air combat units!" Li Tian said painfully.

But now there is no other way but to get these lost crystals out of cheap mutant bats!

Li Tian entered the space of Void Yaksha, first gave the mutant bat a few mourning crystals, first let the mutated bat swallow these mourning crystals, and waited to see the situation before continuing to give the mutant bat other mourning crystals.

Now, it's time to deal with that bear.

"There are three bears living together...your sister!"

Li Tian suddenly discovered that the three bears he sent into the space of Void Yasha Feitian Yasha had changed.

#### Chapter 3615: Unexpected (1)

Li Tian discovered that the corpse of the steel bear that he had thrown into the space of Feitian Yasha was missing.

To be precise, it wasn't that it was missing, but it was perfectly integrated with the other two stray bears, and the three stray bears turned back to the mutant stray bear nearly two meters high.

At this moment, the mutant Sangxiong walked violently in Li Tian's space, screaming from time to time.

Li Tian was a little surprised by this situation.

This was Li Tian's negligence. He thought that the steel sangxiong had been killed by him, so the sangxiong's carcass was nothing more than a cooked duck.

However, now the cooked duck almost flew.

Fortunately, this fourteenth-level mutant mourning bear was still in Li Tian's space. If Li Tian didn't want to release the mourning bear, he would never have a chance to escape.

Otherwise, Li Tian might regret his death.

"Huh!"

Li Tian also appeared in the space of Feitian Yasha.

After seeing Li Tian's figure, the Sangxiong did not immediately rush forward. Instead, he greeted Li Tian like an old friend meeting, and then said, "Is it surprised?"

Li Tian nodded, and said frankly: "It's really surprising! How did you do it? Until now I don't understand where your lost crystal is, which means I haven't found you yet. Achilles' heel."

"What's more surprising is yet to come! If you want to know where my Sangjing is, you can guess it! If you want to kill me, you always have to pay some price!" The Sangxiong even smiled and said

.

"Really? Then I will wait and see!" Li Tian said disdainfully.

"Wow!"

The sangxiong screamed fiercely, and his body split into three sangxions again, and then the three sangxions pounced on Li Tian at the same time.

In the space of Flying Yaksha, Li Tian can still allow his body to appear freely in this space and in the real world, so Li Tian can also move instantaneously.

However, Li Tian did not choose to move instantaneously. Instead, he took "Red Slash" in his hand and shouted: Knot!

In an instant, Li Tian's whole body was wrapped in white armor.

"boom!"

The huge power of the three bears' paws was sent to Li Tian.

Li Tian only felt that his body seemed to have been hit by a train, and his body was directly slapped by the claws of the mourning bear to fly, and landed heavily on the wall of the space.

According to the law of conservation of mass, these three mourning bears came from the original fourteenth-level mutant mourning bear. The sum of their size and strength should be the strength of the previous fourteenth-level mutant mourning bear.

But the great thing about the fourteenth-level mutant mourning bear is that each of these three mourning bears perfectly inherited the original fourteenth-level mourning bear, and even some aspects of each mourning bear have improved.

You must know that the power of this mourning bear is greater than that of Tang Xiaolong. The combined power of these three mourning bears amounts to more than 20,000 catties. The force of more than 20,000 catties is shot on Li Tian's body, and Li Tian can only look The kite was flapped lightly.

Fortunately, Li Tian had that white bone armor on his body, and that mourning bear would not break Li Tian's defenses, otherwise, this one would be enough to slap Li Tian into flesh.

But for that, Li Tian only felt the pain all over his body.

Li Tian felt that the skin on his body was photographed with cracks, and blood was slowly leaking along these cracks.

Li Tian admits that he has done his best.

He can avoid it completely, but Li Tian just wants to test the attack strength that his white bone armor can withstand.

Now Li Tian knows.

It hurts.

Li Tian gritted his teeth and sneered. He seemed to have thought of the attack intensity of Tang Xiaolong's ten-fold training body when he reached the sixth level.

The three mourning bears did not expect that Li Tian did not evade at all, but just withstood the combined blow of their three mourning bears.

However, this Sangxiong would not stop attacking Li Tian just because he succeeded in a blow, but instead rushed towards Li Tian again from three directions while roaring.

At this time, Li Tian slowly got up, waved "Red Cut", his legs slammed into force, and his body rushed towards the iron bear in it like a cannonball.

Li Tian's current speed is much faster than the three sangxions. Almost in the blink of an eye, Li Tian's body has already collided with the body of the Gangtie Sangxiong.

"Huh!"

A red light flashed, and "Red Zhan" directly drew a shadow of a one-meter sword from the chest of the steel bear.

That Gangtie Sangxiong's body was cut in half again by Li Tian's "Red Slash". Li Tian didn't stay at all, but again he cut the Sangxiong's chest seven or eight times.

The hardness of this steel surpasses that of steel. For others, for Li Tian's "Red Cut", the hardness is similar to that of ordinary steel.

But you have to know that the sharpness of Li Tian's "Red Cut" is not something that ordinary steel plates can resist.

Li Tianchu's left hand covering the white bone armor quickly digs out the mourning bear's chest, only to find that the mourning bear's chest contains only black mucus and rotten meat that has been chopped by "Red Chop".

"Damn it! There is no crystal on this bear's chest! It really surprised me!"

At this time, the two mourning bears had rushed to Li Tian's side, and the bone mourning bear among them had scratched the back of Li Tian's bone armor with his claws.

A harsh sound rang behind Li Tian, and the boneless bear's claws ran across the bone armor, only leaving a scratch on the bone armor.

Li Tian's right leg was a little harder, and his body flew three or four meters forward, avoiding the combined attack of the Bone Sangxiong and the Undead Sangxiong, and then Li Tian directly turned around and "Red Zhan" slashed at the Bone Sangxiong again.

The Bone Sangxiong seemed to be quite jealous of Li Tian's "Red Slash". After Li Tian escaped his attack, he immediately retreated.

"Huh!"

"Red Zhan" Zhan Kong.

Just like this, Li Tian was ten meters away from the boneless bear and the undead bear, and the corpse of the steel bear lying between them.

"Are there any surprises? The bereaved crystal you want is not on his chest. Then you guess where the bereaved crystal is? There is a prize if you guess it!" The bone bereaved bear looked at Li Tian in a mocking tone. .

"Is it necessary to guess? When I behead all of you, and then chop all your corpses into minced meat, I don't believe that I can't find the dreaded crystal!" Li Tian said with a sneer.

"Kill? Hey, are you sure you can kill us?" This time the Undead Bear and the White Bone Bear ridiculed at the same time.

Then, in Li Tian's horror, the body of the Gang Tie Sang Xiong began to slowly heal one piece, and then the steel Sang Xiong stood up swayingly, and said to Li Tian, "I don't know. Does this make you feel unexpected?"

#### Chapter 3616: Unexpected (2)

"It was very unexpected, very unexpected! You all scared me!" Li Tian said.

Li Tian pretended to be indifferent on the surface, but Li Tian was actually really frightened.

"Damn, do these three bears have immortality? If it is really like this, then it will be slapped, just surrender!"

"Does it really mean that Little Tianyi and Captain are even foodies to help?"

"No, it's absolutely impossible!" Li Tian absolutely does not believe that there is really something in this world that does not have an immortal body.

"If I didn't know that the weakness of the zombie was the head, then I would also think that the zombie is also immortal. The reason why I think this zombie is immortal is because I haven't found the weakness of the zombie." Li Tian thought in his heart.

Li Tian's gaze swept across the three bears slowly, their heads moving rapidly.

"When I was in the bear cave, I had already beheaded all three bears, but none of them died."

"No, it's not that they didn't die. When they were in the Sangxiong Bear Cave, the other two Sangxions were trapped in this space. After the Gangtie Sangxiong was beheaded, there was no sign of healing!"

"In other words, at that time, the steel bear was already dead! But now the steel bear has become immortal."

"Why is this? Is it because there are two other bears?"

When the Gangtie Sangxiong was half healed, the Bone Sangxiong and the Undead Sangxiong once again rushed towards Li Tian.

Li Tian was about to rush to and kill the two mourning bears, but the two mourning bears suddenly avoided Li Tian.

Li Tian attacked the Bone Sangxiong, and the Sangbone Sangxiong did not confront Li Tian head-on, and kept backing away. The Undead Sangxiong immediately attacked Li Tian from behind. When Li Tian turned to attack the Undead Sangxiong, the Undead Sangxiong immediately turned and fled, and the Bone Sangxiong began to harass Li Tian again.

"Don't these guys have immortal bodies? Why do they want to avoid my Red Slash?" Li Tian thought suspiciously.

"No, they are delaying time so that the steel bear can heal quickly!"

Li Tian's gaze swept over the steel mourning bear. At this time, the steel mourning bear had almost completely healed. Only a stab wound remained on his chest, and at this time, the slash wound was healing quickly.

After seeing Li Tian's line of sight, the iron bear sneered at Li Tian, and then joined the battle circle.

In this way, Li Tian was immediately surrounded by these three bears.

The three Lost Bears knew that no matter how they defended, they would be unable to withstand Li Tian's "Red Slash" attack.

Therefore, the three lost bears completely gave up their defenses and only chose to dodge and attack. As long as Li Tian's body slightly leans towards one of the lost bears, the lost bear immediately retreats to avoid Li Tian's attack.

The other two bears attacked Li Tian behind Li Tian.

Although the attack power of this bear was not enough to break the defense of Li Tian's white bone armor, Li Tian's body also suffered considerable damage.

It's like a fist hitting the belly. It is impossible to break the belly with an ordinary fist, but the pain is real.

Of course, Li Tian's "Red Slash" also gave these bears a certain amount of damage, but they did not lose their combat effectiveness as they were at the beginning.

After a while, Li Tian and the three bears were in a tie, and no one should try to ko.

But Li Tian knew that if he could not resolve the battle quickly, and if this situation continued, his physical strength would be greatly exhausted, and then the balance of victory would tilt.

"No, these three bears must be separated, and they can no longer be in the same space like this." Li Tian thought.

"Huh!"

"Huh!"

"Huh!"

The knife shadow of "Red Zhan" kept flashing in this space, and Li Tian suddenly began to chase down the iron bear, completely ignoring the attacks of the undead bear and the bone bear behind him.

The steel mourning bear immediately felt completely suppressed by Li Tian, and as Li Tian continued to attack, the knife wounds on the steel mourning bear continued to increase.

However, the Gang Tie Sangxiong did not face Li Tian head-on, but kept going around in this small space, avoiding Li Tian's "Red Zhan" blade.

At this time, the white-bone mourning bear's claws like Wolverine, and the undead mourning bear's paws, as if they don't need money, had to greet Li Tian from the back.

But Li Tian seemed to behave as if he didn't care at all. It seemed that Li Tian just wanted to kill the iron bear again.

But at this moment, Li Tian suddenly shook his head, his whole body slammed into force, and turned and rushed towards the boneless bear.

The boneless bear was hitting high, but he didn't want Li Tianhui to suddenly turn around and rush towards him.

Li Tian's speed was so fast that he had completely surpassed the reaction power of Bone Sangxiong, and a red light flashed in front of Bone Sangxiong.

"Huh!"

"Hong Zhan" severely smashed the white bones of the bears. The white ribs on the white bones of the bears were completely cut off by Li Tian's "Red Cutting", and the white bones of the bears were also "red". "Chop" one split into two.

Although the Bone Sangxiong was split into two by Li Tian's "Red Slash", the Bone Sangxiong had a smile on his face, as if he was mocking Li Tian for doing useless work.

"Don't waste your energy! I told you that it is impossible for you to kill the three of us!" Behind Li Tian, the Iron Bear was given a chance to breathe, and in turn, he wanted to attack Li Tian.

"moron!"

Li Tian sneered and stretched out his hand to pat the dead bear's body.

"Huh!" With a sound, Li Tian's body disappeared into the space.

In the next second, Li Tian had appeared in the bear cave of the mourning bear, and there were two more corpses of the mourning bear in Li Tian's hands.

Li Tian threw the two dead bears on the ground, and then said with a sneer: "Come on, come on, come on, let me resurrect my uncle!"

As soon as Li Tian's words fell, the two corpses of the bears moved slightly, and then under Li Tian's eyelids, the two corpses of the bears really slowly grew together.

"You are paralyzed! I am teasing you! You take it seriously!" Li Tian said angrily.

"What's going on? The corpse of this mourning bear has been taken out of space by me, how can this mourning bear be healed! Could it be that the mourning crystal is on this mourning bear?" Thinking of this, Li Tian's Suddenly got excited.

Then Li Tian quickly rushed to the dead bear's corpse, and used "Red Chop" to split the dead bear's corpse into four, eight, and sixteen.

## Chapter 3617: Lost the crystal

Li Tian split the head of the mourning bear and found that there was no mourning crystal in the head of the mourning bear.

This was already in Li Tian's expectation. When the head of this boneless bear was cut open last time, there was no crystal in it.

Li Tian set his sight on the mourning bear's chest, which had already been dismantled by him, and then Li Tian inserted "Red Zhan" into the bone mourning bear's chest.

As the black mucus from the boneless bear's chest continued to flow out, a mourning crystal shining with a pale yellow light fell out.

"Sangjing! The fourteenth-level mutant Sangxiong Sangjing!" Seeing this Sangjing, Li Tian felt a breath of suffocation in his chest.

And as Li Tian held this mourning crystal in his hand, the two mourning bears in the space of Feitian Yasha also suddenly fell to the ground.

It turns out that although the fourteenth-level mutant zombie bear can divide the body into three, their three zombie bears actually share a zombie crystal, and this zombie crystal can provide the power of three zombie corpses.

As long as these three mourning bears are in the same space, as long as they are not too far apart, if Li Tian can't find the location of the mourning crystal directly, then even if Li Tian beheads the other two mourning bears, those two mourning bears The bear will soon resurrect and continue to attack Li Tian.

And when Li Tian killed the steel zombie in the bear cave, because the steel zombie, the bone zombie, and the undead zombie were separated by space, the zombie's crystals could not provide the steel zombie with the corpse. The strength of the original, so the iron bear did not resurrect.

And when Li Tian brought the Bone Bear Bear out of the space, and the crystals hidden in the Bone Bear Bear were dug out by Li Tian, the Bone Bear Bear would naturally not be able to resurrect, but in the Li Tian space The two zombies also died suddenly because they lost the support of the original corpse!

Li Tian took a long sigh. Although the fourteenth-level mutant mourning bear was killed by Li Tian, Li Tian's heart was not relaxed, but he felt exhausted all over.

Li Tian brought the corpses of the other two mourning bears into the bear cave of the mourning bear, and brought Situ Ningbing, Xue Ji, Tang Xiaolong and others all out of the space.

Looking at the bodies of these three bears, although everyone had been mentally prepared, they still felt very shocked.

"Little boss, don't tell me, you killed these three bears alone! Don't this boneless bear and this rebounding bear have immortality? How did you kill them?" Tang Xiaolong looked at Li Tian in surprise and said.

Li Tian nodded heavily, and did not answer Tang Xiaolong's question. The reality whispered: "Solution!"

As the bone armor faded, Li Tian found that his upper body was slimy and his clothes were about to be infested with blood.

Situ Ningbing, Xue Ji, and Bai Jing saw this scene and immediately rushed to Li Tian's side. And Tang Xiaolong, Manzi, and Dog Nose also gathered around, looking at Li Tian with some worry.

"What's the matter? How could you get hurt like this?" Situ Ningbing asked.

Li Tian shook his head slightly and said, "It's okay. I was hit by the combined forces of these three mourning bears. The combined strength of these three mourning bears should be more than 20,000 jin. Fortunately, it is protected by the bone armor. Otherwise, I'm afraid I won't see you!"

"Two... more than twenty thousand catties!" Dog nose was speechless in surprise.

Bai Jing was already crying into tears. He stretched out his hand to tear Li Tian's clothes open, carefully inspected the wounds on Li Tian's body, and then quickly took out the medicine and gauze from his backpack and began to clean up Li Tian's wounds. wrap the wound.

Bai Jing's tears fell on Li Tian's wound, making Li Tian feel a stinging pain, but Li Tian couldn't show it. He smiled and said to Bai Jing, "Silly girl, why cry! I look like this. It's a bit miserable, but these are just skin injuries, because the body was hit hard and the skin exploded."

Speaking, Li Tian also deliberately raised his arm to show off his biceps, but as a result, Li Tianyi tried hard, and the blood leaked from his skin faster.

Situ Ningbing blamed Li Tian, and Li Tian could only make a grimace and let the three beauties obediently at the mercy.

Soon, Li Tian's upper body was disinfected with alcohol, put on ointment, and wrapped layer by layer with medical gauze, not much different from the mummy.

Seeing that Li Tian was okay, Tang Xiaolong and others let out a long sigh.

"Little boss, because you have the ability to move instantaneously, it shouldn't be possible for those mourning bears to hurt you! How could you get hurt like this?" Tang Xiaolong asked.

"That's right, Brother Tian, you haven't told us how you killed this stray bear? You know, but the seven or eight of us together couldn't kill these stray bears!" The barbarian asked anxiously.

Li Tian told them all of the battle he had just fought in detail, and also told them the conjectures in his heart and the final results.

Li Tian finished speaking, but everyone was still silent in Li Tian's battle scene.

After a while, the barbarian stammered: "It turns out... so it's like this! The strength of this fourteenth-level mutant mourning bear is really \*\*\*\* perverted! If you change someone else, I'm afraid you will have to explain it. Here it is!"

Everyone nodded involuntarily.

Tang Xiaolong continued: "This fourteenth-level mutant mourning bear really gave us a lot of accidents!"

"Yes, the first accident is that this mutant bear will be divided into three. If you kill this mutant bear single-handedly, it will most likely change from one to one with three bears in one round!"

"It is divided into three. When we were in Kyoto City, we also saw that the three bereaved dogs were divided into three. It is not surprising. What is really surprising is that the three bereaved bears and the three bereaved dogs are still different."

"The three mourning dogs have three mourning crystals, and each mourning crystal is in the head. As long as the head of the mourning dog is smashed into pieces, the mourning fist will die."

"But this fourteenth-level mutant mourning bear has only one mourning crystal, and it needs to be guessed if the mourning crystal is on that mourning bear. If there is no such strength as Li, I am afraid that it has not really been Knowing the real weakness of this mourning bear, I am afraid it will become the food of that mourning bear," Situ Ningbing said with pride on his face.

"Haha, don't stop, continue to praise me! I won't be proud!" Li Tian said without shame.

"Brother Tian, this...what are you going to do with the corpse of this bear?"

Barbarian suddenly asked a little embarrassedly: "If, I mean, if you are useless, Brother Tian, you can serve as food for my captain!"

"boom!"

Before Li Tian had time to agree, at this moment Li Tian felt a wave of energy fluctuations in the space of Void Yaksha.

Xiao Tianyi has been promoted successfully!

Chapter 3618: Catching corpses alive (1)

Li Tian quickly brought Xiao Tianyi out of the space of Void Yasha. ,

After being promoted again, Xiao Tianyi is now at level 14. This little guy is born at level 9 and has the ability to surpass his level. Although he is a level 14 zombie, he has the strength of level 15. .

After being promoted, Xiao Tianyi's figure rose again a little bit, and she looked like a twelve or three-year-old Xiao Zhengtai, pure and pure, and still a little handsome.

However, because Xiao Tianyi had just been promoted, his body suddenly rose up and looked a little thin.

"Meat! A lot of meat!" Seeing the corpse of the mourning bear, Xiao Tianyi couldn't help drooling, rushing to the corpse of the steel mourning bear that had been unloaded by Li Tianda, and began to bite the corpse Come.

After Li Tian's consent, the captain was also unceremonious, and also began to tear the body of the bear.

"Dad Li Tian, do you want to eat a piece? This is bear meat, not zombie meat!" Xiao Tianyi tore off a piece of meat and handed it to Li Tian.

Li Tian shook his head slightly, and said with a wicked smile: "Dad Li Tian is not hungry, you can give your mother Bing Ning to eat!"

"Mother Ningbing?" Xiao Tianyi said to Situ Ningbing again.

Situ Ningbing was full of black lines, and he squeezed Li Tian's shoulder vigorously, but Li Tian didn't dare to cry out because of pain.

"Xiao Tianyi, eat it yourself! We eat cooked food, which needs to be roasted before eating! You can't eat these things!" Situ Ningbing said wittily.

Xiao Tianyi tilted his head, thought about taking down the four bear paws of the mourning bear, put it in a pocket and handed it to Li Tian, and said seriously: "Dad Li Tian, these bear paws keep you. Let's bake it later!"

Li Tian can only take the bag with a bitter face, and can only throw the bag to the barbarian again, let the barbarian secretly say that the bear paw is a snack for the captain!

Situ Ningbing poked Li Tian with his finger, and said in a low voice, "You feel happy to have such a son? I think of you for all good things!"

Li Tianjian put his arms around Situ Ningbing's waist and said with a bad face: "No matter how good this son is, after all, he is a zombie. Should we give birth to one by ourselves?"

"Go, let Sister Bai Jing or Xue Ji give birth to you!" Situ Ningbing stretched out his hand and opened Li Tian's hand, and said with a foolish smile.

Li Tian came to Xueji and Bai Jing again, and told the two women his bad thoughts. These two women were the same as Situ Ningbing. In the end, these three women formed a united front and brought this life together. The work of the child is given to Duanki Sakura in Kyoto!

Thinking of Duanmuying, Li Tian couldn't help but think of Tang Feifei, and when she thought of Tang Feifei who was still waiting for her brother Li Tian in Kyoto, Li Tian went out of work!

Let's wait for Tang Feifei and Ouyang Shiqing to be rescued.

Soon, the two foodies, Xiao Tianyi and Captain, ate the three mourning bears cleanly, and Li Tian had to admire the power of foodies.

You know, these are three bears, these two foodies can eat cleanly.

After Xiao Tianyi finished eating Sanxiong, his body gradually gained some luster, and his body became more sensual.

Li Tian received all the bats that he had controlled into Feitian Yasha's space. Although Feitian Yasha expressed a strong protest, there was no other way but to focus on the overall situation.

Then Li Tian said to Xiao Tianyi and the captain: "Our group has seen zombie teams many times before, but you know that they are basically dead. Now, you can control twelve-level zombies and zombies, so I intend to form a zombie team composed of zombies of level 12 or above."

"Brother Tian, since you can now control the twelfth level zombies, how about you continue to control me!" said the captain.

Li Tian shook his head and said, "Captain, you are the first zombie to follow me. After more than half a year, we can say that we know everything. Don't say that you are a zombie that the barbarian likes. If not, I won't be controlling you. of!"

The captain nodded slightly, but he was very grateful to Li Tian in his heart. This kind of trusted gratitude was really good.

"Continuing from what I said just now, what I was thinking about was to form a team of 1,000 zombies, but now I have changed my mind. We are going to form a team of 500 in the sky, and you

will be the captain. The captain is generally responsible for the management of all zombies and poultry, while Xiaotianyi and mutant bats are small captains. Xiaotianyi assists you in the management of zombies, and mutant bats assist you in the management of poultry!"

"Thank you, brother!" the captain said excitedly.

Li Tian looked at the barbarian also extremely excited.

After the Beitang issue is resolved, the research on the zombies must be increased, and the barbarian can't really get together with the captain in this way.

"Dog nose!" Li Tian shouted.

The dog nose naturally knew the reason Li Tian called him, and he twitched vigorously in the cave with a sad face, then came to Li Tian's side and said to Li Tian, "Little boss, the front of this cave is about fourteen thousand. At a distance of five hundred meters, there are still a few bats. It should be the mutant bats that have escaped!"

When Li Tian heard this message, he couldn't help but exclaimed, "What are you waiting for! If I can control these mutant bats, then each of you will have a mutant bat as a mount in the future!"

"Ok?"

The dog's nose continued to twitch, and suddenly some doubts appeared on his face.

"Little boss, there seems to be another thing in the mutant bat colony. This thing is full of power, and it seems very difficult to deal with. But...but forgive me for my incompetence, I can't smell what it is. "Doug Nose said with some worry and depression.

Hearing what the dog nose said worriedly, Li Tian felt more sure of his judgment.

If the guess is correct, the dog's nose should smell the corpse bug!

Because the dog nose has been with mutant bats for some time, it can naturally smell the smell and quantity of bats, but the dog nose of the corpse bug has never been seen before, so the dog nose can smell the bear cave. This thing exists but I don't know what it is.

"Is there anything else in this bear cave?" Li Tian asked.

The dog nose shook his head and said, "No more!"

"Continue to go inside!" Li Tian said to everyone.

Everyone began to walk deep into the bear cave, dying of the bear, there was not much danger in the bear cave, and the mentality of the people relaxed a lot.

Chapter 3619: Catching corpses alive (2)

After another less than 150 meters, the bear cave was divided into two.

The bear cave on the left became a bit low, and there was a bone fence in front of the bear cave, but at this time the bone fence had been destroyed.

Li Tianneng could see that there were some soft branches and leaves in the bone fence, and some animal and human bones. You can see that this place should have been the residence of the 14th-level mutant mourning bear before, and the bone fence is probably for Prevent the lost tiger from escaping.

"Go to the right!" There is a dog's nose, just like a gps, even in this dark cave, Li Tian and others will not go the wrong way.

Everyone turned to the right and continued to walk inside the cave.

The more you go in, the height of this cave is getting lower and lower. When you first entered the bear cave, the bear cave was more than one foot high. But now, the height of the bear cave is even if an adult walks. Bend down.

Man Li Tian, only Tang Xiaolong and Xiao Tianyi can continue to move forward with their heads high.

Reluctantly, Li Tian could only control "Red Cut" to open the way, but in this way, the speed of advancement slowed down.

"Little boss, look at me!" Tang Xiaolong, the second classmate, saw Li Tian use "Red Slash" to open the way, his hands were itchy for a while, and he punched the top of the cave.

However, Tang Xiaolong had always been proud of hitting the cave with his iron fist. Apart from being able to knock down a few stones, his speed was far inferior to Li Tian's "Red Chop".

In fact, it's no wonder that most of the mountains in the Qinling Mountains are stone mountains. Most of these stones are a whole. Take the cave where Li Tian and others are now, this cave is like the entire mountain range. On top of the stone, there are only a few small holes formed due to some natural reasons.

Not to mention that Tang Xiaolong's punch power is only 8,000 catties now, even if Tang Xiaolong's power is increased several times, it is impossible to shake this entire mountain range.

This is the power of nature.

Tang Xiaolong was very injured and could only give up.

Suddenly, a thumping sound came from the cave in front.

"Little boss, those are mutant bats!" Dog nose said alertly.

Li Tian immediately controlled "Red Slash" with his mind, and sent Situ Ningbing and others into the space, leaving only Tang Xiaolong and Xiao Tianyi.

Sure enough, within a few minutes, seven or eight twelve-level mutant bats flew out of the cave. As soon as these bats flew out, they immediately flew toward Li Tian, Tang Xiaolong and Xiao Tianyi.

Li Tian rushed to the mutated bats to fly over and shouted "Knot!", letting the bone armor cover the whole body, and this controlled the nine-color corpse crystals to release hundreds of transparent silk threads, and then controlled these transparent silk threads to fly towards. Mutant bats.

As soon as Li Tian's transparent silk thread entered the heads of these bats, it rushed directly to the mutant crystals in the heads of the bats, and these mutant bats immediately felt the strangeness and flew out of the cave one after another.

"Where to escape!" Li Tian sneered. How could those bats fly faster than the transparent silk thread controlled by Li Tian? Li Tiansi didn't care and continued to control the transparent silk thread.

One, two..., soon the eight twelfth-level mutant bats were all controlled by Li Tian with the transparent silk thread of the nine-color corpse crystal, and they flew to Li Tian's side obediently.

Li Tian threw all these bats into the space of Feitian Yasha.

"Now, let us deal with this corpse worm! I really want to see what the ghoul will look like when I know his corpse worm is captured alive by me!" Li Tian thought in his heart.

Li Tian didn't bother to use "Red Chop" to continue cutting down the cave to expand the height of the cave. Li Tian left Tang Xiaolong, Situ Ningbing and others in the cave, and one person continued to lower his head. go.

He walked a few hundred meters further, even if Li Tian lowered his head, there was no way to continue walking.

Li Tian could only squat down and continue walking inside. At this time, the cave was less than one meter high, and even Xiao Tianyi could no longer raise his head and walk away.

Slowly, Li Tian could only crawl forward, but in addition to being humid and uncomfortable in the cave, what is even more unbearable is that the cave is full of an unpleasant smell, which is possible. It was left by those mutant bats.

Moreover, at this time, there are already some small insects in this cave. These \*\*\*\* little things are not afraid of Li Tian at all, but Li Tian can only use his consciousness to control the "Red Slash" to send those little things that are not afraid of death to the west.

"This \*\*\*\*\* corpse, what is hiding here? Isn't it impossible to give birth to another baby?" Li Tian thought wickedly as he crawled forward.

He climbed forward for a few hundred meters. At this time, the height of the entire cave was only about a gauge, and it was difficult for a man like Li Tian to climb forward.

At this moment, Li Tian saw several light blue dots suddenly appeared not far away. These small dots seemed to feel the existence of Li Tian, slowly moving towards the cave.

Corpse bug!

It's a corpse bug!

Li Tian knows too much about these little blue dots. These little blue dots are the little corpse crystals in the corpse worm, which is the power of the corpse that the corpse worm swallows other things.

"Om!"

"Hong Zhan" was beating madly, there was a kind of eagerness to think about it.

However, at this time "Red Zhan" had already acknowledged the master, and he would definitely not and dare to leave Li Tian's control without getting Li Tian's permission.

Li Tian collected "Red Zhan" into the space of Void Yasha, and then summoned Void Yasha.

Although Void Yasha already recognizes Li Tian as the master, this product is the least big or small to Li Tian, "What do you call this young master again?"

Li Tian wanted to ask for the Void Yasha. Although he was the master, he could only put his posture lower, and said gently to the Void Yasha, "Trouble the young master to bring the corpse worm in front of your space. in!"

Seeing Void Yasha a little reluctant, Li Tian continued: "If you think about this kind of thing, Dixin Yasha and Feitian Yasha will definitely be happy to do it, but when this is important, I can only think of you, Young Master Void, so..."

"Needless to say, although you are very suspicious of flattering, but this young master likes it!" As soon as Void Yasha's figure flashed, she appeared next to the corpse insect, and the figure flashed again. Void Yasha and the corpse worm disappeared. .

Li Tian knew that this was the corpse worm that Xukong Ye had brought into the space of the Kongkong Yasha.

The corpse bug finally got it!

Li Tian slowly withdrew from this cave again. When he retreated to Tang Xiaolong and the others, Li Tian couldn't wait to enter the space of Void Yasha.
