

## A Killer 3631

### Chapter 3631: Taoist Refining Corpse (4)

Li Tian was shocked, and a teleporter came to Tang Xiaolong's side, reached out to pull Tang Xiaolong, but was scalded by the hot skin of Tang Xiaolong's body.

At this time, the temperature of Tang Xiaolong's whole body is also more than 40 degrees to nearly 50 degrees. This temperature is already the limit temperature of the human body. It will damage the muscle cells of the human body, easily lead to kidney failure, and even endanger life. .

"Xiaolong! Stop!" Li Tian shouted at Tang Xiaolong.

However, Tang Xiaolong seemed to have not heard Li Tian's cry, and continued to bombard the black-robed Taoist priest in front of him.

Li Tian couldn't stop Tang Xiaolong, a teleport was placed in front of Tang Xiaolong and the black-robed Taoist priest, and he slapped two palms directly at the black-robed Taoist priest.

At this time, Li Tian and the black-robed Taoist were very close, and Li Tian's palm was blocked by the fist of the black-robed Taoist.

"Zi!"

A hot temperature passed on the fist of the black-robed Taoist priest. Li Tian felt that his palm was like touching a hot rock. A heartache made Li Tian sweat involuntarily, and Li Tian's palm was Suddenly he was burnt with a flame.

"Hey, kid, my Chiyan fist is no more gentle than the white robe Taoist Jiuyou ghost claw!" The black robe Taoist said with a sneer.

Li Tian quickly leaped back, blocking Tang Xiaolong's body, and then, regardless of the temperature of Tang Xiaolong's whole body, directly led Tang Xiaolong into the space of Void Yasha.

As soon as Li Tian and Tang Xiaolong appeared in the space of Void Yasha, they were immediately surrounded by Situ Ningbing and others.

"Quick! Get water!" Li Tian shouted to Situ Ningbing and others.

Situ Ningbing and others immediately took out all the drinking water they were carrying, and Li Tian took the water and began to pour it on Tang Xiaolong.

"Zi!" With a sound, the water poured on Tang Xiaolong, and it was immediately evaporated by Tang Xiaolong's hot body before it flowed down.

Situ Ningbing, Bai Jing, and Goubi immediately began to pour a bottle of water on Tang Xiaolong's body. Fortunately, there was enough drinking water in the space of this Void Yasha.

After pouring more than twenty bottles of water, Tang Xiaolong's red skin gradually changed back to its original color, and Tang Xiaolong also woke up.

"Little boss, what are you doing? Why do you pour me with water?" Tang Xiaolong said.

Situ Ningbing glanced at Tang Xiaolong, then looked at Li Tian and said, "What's wrong with Xiaolong? Why does it feel like it has been boiled in boiling water?"

"Me? I'm like being boiled in boiling water? How is this possible? When I was fighting with the black-robed Taoist priest, I suddenly felt a hot feeling all over my body. This feeling was like throwing my body too high. It's the same as in the old man's alchemy furnace, and he keeps tempering my body. That feeling is really... it's so cool." Tang Xiaolong said.

"Oh, by the way, little boss, am I not fighting against the black-robed Taoist priest? How come I suddenly appeared in the space of the Void Yaksha. Also, you haven't answered my question? Why are you pouring me with water? ?"

Li Tian stretched out his hand and pressed it on Tang Xiaolong's forehead, feeling that the temperature of Tang Xiaolong's whole body was going down, and then said to Tang Xiaolong: "Xiaolong, when you were fighting with the black-robed Taoist priest, didn't you feel it? Is there anything unusual?"

"Abnormal? Yes! It just feels like the fist of the black-robed Taoist priest is like a hot rock, but this kind of temperature is still acceptable to me, and his fist strength is average, and it doesn't hurt me at all! "Tang Xiaolong said smugly.

"Fortunately, Xiaolong's brain was not burned!" Li Tian nodded seriously, and then said: "The white-robed Taoist and the black-robed Taoist are corpse refiners, but after thousands of years of cultivation, they practiced separately. There are some famous ones."

"The white-robed Taoist priest is full of yin and cold. If he is hit by him, he will feel cold all over his body. If I am not mistaken, if the white-robed Taoist continues to be attacked by the white-robed Taoist, the body temperature of the attacked person will drop sharply, even It is completely possible to freeze into ice!"

"The black-robed Taoist priest is full of heat. During the battle with him, if he is hit by him, the temperature of his whole body will rise sharply. Just like Tang Xiaolong, it is as if he has been boiled in boiling water. When the ground is attacked by the black-robed Taoist priest, the whole body cells of the attacked person will be burned to death by this high temperature, and spontaneous combustion may even occur."

"Isn't it such an exaggeration? Isn't that the cold palm and the burning palm in Zhong?" Dog nose said with some surprise.

"Don't underestimate these two corpse refining guys. Since they can steal a thousand years in this world, they are definitely not small characters. Brother Tian, you must be careful!" Bai Jing said with some worry.

Li Tian nodded slightly.

"Little boss, I'll go out with you again to deal with those two guys! Hmph, I don't believe that my tenth-fold training is still so weak after reaching the fifth stage!" Tang Xiaolong said unconvincedly.

Li Tian patted Tang Xiaolong on the shoulder and said, "Xiaolong, these two guys are corpse refiners who have practiced for thousands of years. How many years have you practiced! It is not ashamed to lose to these two corpse refiners!"

Situ Ningbing pointed to Xiao Tianyi and said to Li Tian: "Li, what happened to Xiao Tianyi? What happened? I couldn't hear us at all!"

Bai Jing and Goubi also nodded at the same time. It seems that they have also tried to wake up Xiao Tianyi, but they all ended in failure.

"Xiao Tianyi was controlled by the two corpse refining priests outside, and now only by beheading these two corpse refining priests can Xiao Tianyi be rescued!" Li Tian said.

"Li, are you sure?" Situ Ningbing asked worriedly.

Li Tian nodded slightly.

At this time, if you are sure to go, and if you are not sure, it is impossible for Li Tian to watch Xiao Tianyi being controlled by two Taoist priests to become a mummy-like zombie.

Moreover, these two corpse refining priests have not walked out of the Qinling maze for several years. If they find out that the outside world has become a zombie world after going out, then these two guys will have endless refining. Corpse material, how terrifying the strength of these two guys will change again.

It was enough for Li Tian's enemies outside to disappear, he didn't want to let these two corpse refiners become other opponents.

So, in any case, these two corpse refiners must die!

"Li, you have to be careful!"

"Little boss, be careful!"

"My God, we are waiting for you!"

Li Tian nodded and returned to the Qinling Maze again.

"Jie Jie! The kid still can't help but come out!" The white robe Taoist said with a strange smile.

"Hey! Boy, let you enjoy the achievements of our corpse refining Taoist for thousands of years!" The black-robed Taoist said with a wild laugh.

#### Chapter 3632: Immortal Emperor (1)

Li Tian felt the ground sway abruptly, and even the thick stone pillars were swaying slightly, as if a behemoth was about to emerge from under the ground.

"Crack!"

"Crack!"

Li Tian only felt that the ground under his feet was constantly breaking, and a crack over a hundred meters long and ten meters wide appeared on the ground instantly.

A huge head came out from the crack. This head looked a bit human from the outside, but when Li Tian saw this head, he felt that the hairs all over his body were erected, because this head was actually It is composed of hundreds of human heads, but at this time these heads have been fully integrated with each other.

"Snapped!"

"Snapped!"

Two huge arms over ten meters in length also stretched out from the crack and slapped hard at the edge of the crack. The two arms supported a huge body and were climbing out of the crack quickly.

Li Tian saw that the vast majority of these two were composed of human arms, but they were actually mixed with other parts of the human body.

For example, eyes!

Li Tian saw that the two arms were densely covered with human eyes, as if one arm was covered with acne, giving people an extremely disgusting feeling.

This is exactly a humanoid monster!

"This...what kind of monster is this?" Li Tian stepped back quickly and said in surprise.

"Monster? Jiejie, it's not an exaggeration to use this term to describe him." The white-robed Taoist said with a proud expression and a strange smile.

"Boy, tell you the truth, this is all the immortal corpses that we black-and-white robed Taoist priests have found from all over the world after thousands of years, and after three hundred years of corpse refining, the immortal corpse emperor was refined." said the black-robed Taoist priest. .

"Wow!"

The Immortal Corpse Emperor suddenly jumped out of the ground and stepped on the ground. The ground shook violently.

The height of the Immortal Emperor was more than 25 meters, and Li Tian stood in front of the Immortal Emperor as if a little monkey was standing in front of an elephant.

Li Tian looked up at the Immortal Emperor, only to realize that there were two dimples on the Immortal Emperor's cheeks. It was really a spoof Nima.

Looking at the Immortal Emperor, there is no other difference except that the eyes on the two arms are as disgusting as corns.

The only difference is that the workmanship of this immortal corpse emperor is too rough, and there is no little Dingding. I think this is the result of the black-and-white robed Taoist cheating.

"Cut, what's so great? Still immortal? I think it's just a big stupid man. No" Li Tian said disdainfully.

Seeing Li Tian's sneer, the two Taoist priests in black and white were not angry.

Heipao still said calmly: "There is nothing remarkable, but it is our two Taoist priests who have collected corpse refining materials for thousands of years, and it took three hundred years to achieve something! If this immortal corpse is right It's amazing, and it takes a few good corpse-refining materials like you to help it be completed."

"Jiejie! Don't worry about finding death. Although this Immortal Emperor is not the final product, we can let you feel the power of the Immortal Emperor in advance!" The white-robed Taoist said with a sneer.

After speaking, the white-robed Taoist and the black-robed Taoist glanced at each other, and then suddenly began to rush towards the Immortal Emperor.

And at this moment, the Immortal Corpse Emperor actually squatted down and stretched out his left and right arms, as if paving two roads for the two Taoist priests. The two Taoist priests jumped on the left side and the other right. The arm of the Immortal Emperor quickly rushed towards the head of the Immortal Emperor through his arms.

When the two Taoist priests rushed to the neck of the Immortal Emperor, their legs slammed on the shoulders of the Immortal Emperor. When they were vertical, the two Taoist priests got into the two dimples of the Immortal Emperor. Among them, their bodies and heads just filled the cheeks of the Immortal Emperor.

"drink!"

The Immortal Emperor stood up abruptly, stomped his foot vigorously, and let out a roar from the Immortal Emperor's mouth.

This roar is extremely loud, reverberating continuously in the space of the Qinling maze, and as the Immortal Corpse Emperor picks up peppers, the ground seems to have been cracked from within because of a slight earthquake. A gap of one meter wide spread from the feet of the Immortal Emperor to the surroundings.

Shoot people first, shoot horses, and capture thieves first.

This Immortal Emperor is tall, and it is not easy for Li Tian to attack the black and white Taoist priest hiding in the dimple, but it is extremely simple to attack the Immortal Emperor.

"Immortal Corpse Emperor, just try the power of my Broken Soul Palm!" Li Tian sneered, leaning backwards, and suddenly blasted a dozen soul-broken palms against the Immortal Corpse Emperor's legs.

"boom!"

"boom!"

"boom!"

The power of the broken soul palm kept exploding on the leg of the Immortal Corpse Emperor, but the damage caused by the broken soul palm to the leg of the Immortal Corpse Emperor was almost negligible.

At this time, the body of the Immortal Emperor also moved.

The Immortal Corpse Emperor seemed to just lift his leg gently, and the huge feet had appeared on top of Li Tian's head.

Then the feet of the Immortal Emperor slammed down.

At this time, Li Tiancai really realized what it is called Mount Taishan to press on the top. If he was stepped on by the Immortal Emperor with this huge body, Li Tian would probably be stepped directly into the ground.

Li Tian dodged in a teleport, and then Li Tian used his soul-breaking palm again, constantly banging on the leg of the Immortal Emperor.

"Hahaha! Is that just a little bit of strength for the kid? This bit of skill is like tickling a shoe!" The voice of a black-and-white Taoist priest came from the Immortal Corpse Emperor's mouth.

These two voices came out at the same time, as if they were spoken by one person, and they were extremely strange.

"call!"

The Immortal Corpse Emperor bent down, his right arm swept horizontally towards Li Tian.

Li Tian used teleport again.

However, Li Tian moved away more than ten meters, feeling that he had avoided the arm of the Immortal Emperor, but as soon as Li Tian just appeared, the arm had already slapped Li Tian heavily with howling wind.

Li Tian only felt that he had been hit by a fast-moving train, so he flew out, hit the stone pillar heavily and landed heavily on the ground, and then stopped.

"Ahem"

This time Li Tian was injured unclearly, Li Tian felt the wound on his body crack open again, a surging breath in his chest was rushing, making Li Tian feel extremely uncomfortable.

"What's the matter? Didn't I have avoided the immortal zombie's attack? Why was he hit by him?" Li Tianxin asked in shock.

Chapter 3633: Immortal Emperor (2)

"call!"

When Li Tian was stunned, the arm of the Immortal Emperor swept towards Li Tian again.

This time, Li Tian used teleporting twice in a row. The first teleportation was more than ten meters away. As soon as Li Tian appeared, he found that his arm swept toward him again, but Li Tian did not stay and teleported again. Teleported to a place more than twenty meters away.

As soon as Li Tiangang appeared, he saw that the Immortal Corpse Emperor had already taken a step towards him, and his arm had swept towards him again.

"Impossible! How did this zombie see through the direction of my teleport?" Li Tian was horrified.

The last time I was in Kyoto, the ghoul made a prediction, knowing where Li Tian would teleport next, and then the ghoul hurt Li Tian.

But this time, Li Tian did not teleport in the same direction for two consecutive teleports, which means that Li Tian himself did not know where Li Tian would teleport next, but the Immortal Emperor could follow Li closely. Tian's teleportation attacked Li Tian.

Li Tian teleported again.

This time, Li Tian teleported five times in a row, teleporting directly to a hundred meters away, and hiding directly behind a huge stone pillar.

"call!"

"call!"

Li Tian panted and looked back at the Immortal Corpse Emperor.

Sure enough, the Immortal Corpse Emperor stepped forward again towards Li Tian.

This distance of one hundred meters is a distance of two or three steps for the Immortal Emperor. If it weren't for Li Tian's teleport in seconds, it would only take about one second to teleport a hundred meters away, and the Immortal Emperor But it takes two to three seconds, I am afraid that Li Tian was attacked by the Immortal Emperor at this time.

But it was the time difference of two seconds that allowed Li Tian to find the problem.

The Immortal Emperor could see through the direction of Li Tian's teleport, and then proceed with the next attack based on what he saw through.

It's just that the Immortal Emperor is huge, and his arms are more than ten meters long. If Li Tian only teleported once or twice, it can be said that he has barely escaped from the Immortal Emperor's attack range.

This gave Li Tian an illusion that teleportation could not escape the attack of the Immortal Emperor.

However, the Immortal Emperor is just a zombie cultivated by the black-robed Taoist priest and the white-robed Taoist priest. How did he see through Li Tian's teleportation?

At this time, the Immortal Corpse Emperor had already rushed over, and his huge arm stretched out directly from behind the stone pillar, and slapped it down heavily.

Li Tian didn't dare to neglect in the slightest, and teleported again.

After a series of figures flashed, this time Li Tian teleported to several hundred meters away.

"Patter!"

"Patter!"

The Immortal Corpse Emperor chased Li Tian again. Every time the Immortal Corpse Emperor ran a step, the ground would tremble, as if he was about to shake the Qinling maze.

Seeing the Immortal Emperor rushing over, Li Tian used teleport again.

In this way, Li Tian seemed to be playing a game with the Immortal Emperor, chasing me around the huge stone pillars alone.

The Immortal Emperor smiled wildly and said: "Hahaha, arrogant kid, didn't you just say that this is just a big silly zombie? How can you just escape now?"

Li Tian didn't want to run, but Nima would be beaten if he didn't run. Li Tian was not a fool, so how could he stand still and be beaten!

Of course, if Li Tian hid in the space of the Void Yasha, how could he discover the weakness of the Immortal Emperor and how to eradicate the black and white Taoist priest!

"I can't just keep running like this!" Li Tian thought in his heart.

If you can't escape, you can only use the power of "Red Slash" again. Li Tian took "Red Slash" out of the space, controlled "Red Slash" with his mind, and slammed it towards the leg of the Immortal Corpse Emperor. .

"Huh!"

A red light flashed, "Red Slash" slashed heavily on the leg of the Immortal Corpse Emperor, and then let out a dull slashing sound.

Li Tian saw an artifact that was as sharp as the "Red Slash", and it turned out to be only a wound less than seven or eight centimeters long on the leg of the Immortal Corpse Emperor.

This wound is completely negligible for the huge Immortal Emperor.

"Haha, boy, did you use it to tickle the uncle?" The Immortal Emperor said with a sneer.

Fortunately, Li Tian saw too much of this scene.

The defensive power of the zombies outside level 15 or higher is not so strong?

Li Tian knew that there was only one reason why this "Red Slash" temporarily did not pose a threat to the Immortal Corpse Emperor, and that was that he had not yet found the weakness of the Immortal Corpse Emperor.

However, the most urgent matter is that Li Tian needs to solve why the Immortal Emperor can see through his teleport.

Otherwise, Li Tian could only run away, and would not want to fight at all, how could he discover the weakness of the Immortal Emperor.

At this moment, Li Tian suddenly realized that every time he moved instantaneously, the eyes on the arm of the Immortal Emperor blinked a few times.

"Could it be those eyes?" Such a guess suddenly appeared in Li Tian's heart.

"It doesn't matter, the dead horse is treated as a living horse doctor. Let's get rid of these disgusting eyes."

While performing teleportation to avoid the Immortal Emperor's attack, while using his mind to control the "Red Slash" flying towards the Immortal Emperor's two arms.

"Huh!"

A red light flashed, and "Red Slash" slashed directly at one of the eyes.

One of the eyes on the arm of the Immortal Corpse Emperor was directly cut by "Red Cut", "Puff!" There was a sound, and the water in the eyes splashed.

"Ah! My eyes, damn, my eyes!" The Immortal Emperor let out a scream.

Li Tian was overjoyed when he heard this scream.

"There is a door! When cutting the Immortal Corpse Emperor's legs, the Immortal Corpse Emperor laughed at Li Tian, but now that it was cut on this eye, the Immortal Corpse Emperor made a scream! It seems that this eye is at least among them. A weakness!"

"Huh!"

"Huh!"

Li Tian controlled the "Red Slash" with his mind to slash the arm of the Immortal Emperor, while using instant movement to avoid the Immortal Emperor's attack.

There were so many eyes on the Immortal Corpse Emperor's arm that Li Tian didn't need to deliberately attack at all, he could easily hit it.

In less than a minute, Li Tian had successfully pierced a dozen eyes on the arm of the Immortal Emperor.

Listening to the immortal corpse emperor's constant screams, Li Tian's heart was filled with ecstasy, but this was not enough. Although he had pierced a dozen eyes, Li Tian's teleportation could still be affected by the immortal. The emperor sees through.

"Ah! Damn kid, you are looking for your own death!" The Immortal Corpse Emperor suddenly stopped, instead of chasing Li Tian, but slammed a stone pillar with his arms.

"drink!"

The Immortal Corpse Emperor screamed, and with a sudden force of his arms, he even removed the stone pillar directly.

After the stone pillar was pushed down, the giant beast underneath the stone pillar shook its body abruptly, and the stone on the beast's body cracked every inch.

"Wow!"

That giant beast came alive like this, suddenly let out a roar, and rushed towards Li Tian.

Chapter 3634: Stone behemoth

Li Tian could only see with straight eyes, and couldn't believe his eyes.

Nima, is the behemoth under the stone pillar real? Li Tian always thought it was a stone statue. But this behemoth should have existed since the Qinling maze was built, right? How did it live to the present?

Li Tian only felt that his brain was completely insufficient.

I have seen something weird, but I have never seen something so weird today.

Zombies, corpse refiners, immortal corpses, giant stone beasts, these things can be connected to write a fantasy book.

However, at this time, the giant stone beast opened its blood basin and bite towards Li Tian.

Li Tian teleported to avoid the attack of the giant stone beast, his left and right hands simultaneously used the soul-breaking palm to attack the giant beast, while Li Tian's mind continued to control the "Red Slash" and continued to stab the eyes on the arm of the Immortal Emperor.

"boom!"

"boom!"

Two loud noises rang in the mouth of the stone-carved behemoth. The palm of the soul that could smash a twelfth-level zombie turned out to just knock the stone-carved behemoth over several somersaults. There were a few palm-sized wounds in his mouth, and he didn't kill the giant stone beast.

The stone beast shook its head and rushed towards Li Tian again.

"Fuck, how can you fight this? These things can't be killed at all!" Li Tian could only teleport to avoid the attack again, and counterattack with Broken Soul Palm.

Fortunately, Li Tian had conquered three small Yashas and possessed the ability to teleport, otherwise Li Tian would have been torn to pieces by the Immortal Emperor and the Stone Carving Behemoth.

At the same time, Li Tian's "Red Slash" pierced the eyes on the arms of the three Immortal Emperors again. During this period, the Immortal Emperor completely ignored the "Red Slash" and kept tearing down the stone pillars. Release the giant stone sculptures under the stone pillars.

"Aw!" "Aw!" Two giant stone beasts were released from under the stone pillar, and at the same time they ran towards Li Tian.

At this time, four giant stone beasts surrounded Li Tian from four directions. Even if Li Tian teleported, these giant beasts would react quickly and pounce on Li Tian.

Because of the addition of these giant stone sculptures, Li Tian sometimes cannot accurately determine the location of those giant stone sculptures when performing teleport. Once Li Tian teleported directly to the feet of a giant stone sculpture. As soon as the sky rolled on the ground, avoiding the claws of the giant stone beast, Li Tian was probably injured badly.

"Damn it!" Li Tian couldn't help cursing secretly.

With the help of the four giant stone beasts, the Immortal Corpse Emperor began to concentrate on dealing with Hong Zhan. At this time, the Immortal Corpse Emperor kept patting with his arms in the air, as if humans were patting mosquitoes to death, and wanted to use those two palms to pat Li Tian's "Red Chop" to pieces.

And Li Tian was also entangled by the four giant stone beasts at this time. Fortunately, Li Tian can do three things with one heart, and he can also separate his mind to control the "Red Slash" against the immortal corpse emperor, otherwise the four giant stone beasts plus the immortal corpse emperor, This is enough for Li Tian to drink a pot.

After about half an hour of fighting, Li Tian's flustered heart gradually calmed down. Although Li Tian was teleporting constantly, Li Tian's body was overwhelmed at this time, but Li Tian still persisted.

Fortunately, the four giant stone sculptures could not help Li Tian for a while, but Li Tian had already pierced half of the eyes on the two arms of the Immortal Corpse Emperor by controlling "Red Slash".

Suddenly, Li Tian suddenly controlled "Red Zhan" and flew back.

This was a surprise, before the Immortal Corpse Emperor hadn't reacted, "Red Slash" had already slashed towards the head of one of the stone beasts.

"Huh!"

A red light flashed, and the head of the giant stone beast was cut down by "Red Slash", and then the body of the giant stone beast collapsed.

Seeing the flat cut surface of the knife, Li Tian discovered that the body of the giant stone beast was not a stone, but a body of flesh and blood.

It's just that this flesh-and-blood body is similar to that of the Immortal Corpse Emperor, both of them are dry and shriveled, without the slightest amount of water or blood.

"Wow!"

The other three giant stone beasts were obviously shocked by this unexpected moment, and their bodies were obviously somewhat unnatural.

"Chance!" Li Tian thought in his heart.

"Huh!" With another knife, the giant stone beast has been harvested by Li Tian's "Red Chop"!

But at this moment, the Immortal Corpse Emperor lost the "Red Slash" harassment attack, was completely liberated, and suddenly charged towards Li Tian.

The Immortal Corpse Emperor spanned several tens of meters in two steps, and his left and right arms swept heavily towards Li Tian at the same time, and the two giant stone sculptures were first swept by the Immortal Corpse Emperor.

"No!" Li Tian's eyes widened suddenly, seeing that the remaining two giant stone beasts used the arm of the Immortal Corpse Emperor as a springboard to accelerate towards Li Tian.

The speed of the Immortal Corpse Emperor's arms was already fast enough. These giant stone beasts used this as a springboard to make the speed faster. When Li Tian just reacted, the claws of the two giant stone beasts had been torn to Li Tian's left and right shoulders. .

"puff!"

"puff!"

There were two \*\*\*\*\* holes on this shoulder immediately, and Li Tian even felt a slap-sized flesh on the back of his right arm and directly flew out.

If they were stepped on by these two giant stone sculptures, then Li Tian would be dead.

"Huh!"

At the moment of death, Li Tian directly entered the space of Void Yasha!

"Lee! How could you hurt so badly!"

"Little boss, what happened outside?"

"My God,..."

Several people surrounded Li Tiantuan and began to bandage Li Tian's wounds in a hurry.

At this time, the coquettish character of Void Yasha slowly appeared on the stage, watching Li Tian's miserable appearance, and said with dismay, "I really think that if you subdue Hong Zhan, you will be invincible? When necessary, should I think Think about this important person, Young Master?"

With that said, Void Yasha also pointed his two small hands at him at the same time, which was so coquettish and coquettish.

"Can you have a way?" Li Tian asked.

Void Yasha said with a cocky face: "Could it be that we forgot how we lost Red Slash into the void?"

"But Hong Zhan's body shape and that of the Immortal Corpse Emperor are completely two concepts!" Li Tian said.

"Hey! Why are you so stubborn. Ideas are always necessary, what if they are realized?" Void Yasha said like a wise man.

"Now we can only use dead horses as living horse doctors. If it doesn't work, we can only withdraw first, and wait until I have practiced Qingyun and then come back to find these two corpse refiners to settle accounts!" Li Tian said.

Void Yaksha said: "Hey, you are too underestimating our Yasha clan! The quicksand storm of the earth-traveling Yaksha, the dark cage of the flying Yaksha, and the Void Blade of the young master have not yet got the chance to use it!"

"Okay! Then \*\*\*\*\* him!"

Chapter 3635: weakness

"Huh!"

A figure flashed by, and Li Tian appeared in the Qinling Labyrinth again. And on Li Tian's shoulders stood Void Yasha impressively.

Li Tian moved his mind, and took the "Red Cut" back, held it in his hand, and then shouted, "Knot!"

"Red Slash" and Nine Color Corpse Crystal quickly formed a layer of white bone armor on Li Tian's body, and Li Tian majestically faced the Immortal Corpse Emperor and the two stone-carved behemoths at the feet of the Immortal Corpse Emperor.

With this layer of white bone armor, the stone carving behemoth would no longer hurt Li Tian.

After seeing Li Tian, the two giant stone beasts roared and rushed towards Li Tian one by one. Behind the stone carving behemoth, the Immortal Corpse Emperor just took a step before he reached the top of Li Tian's head.

The Immortal Emperor raised his foot, trying to crush Li Tian.

And what about Li Tian? Two consecutive teleports avoided the Immortal Corpse Emperor's feet, and at this time Li Tian had already come behind the stone beast.

The giant stone beast turned and pounced on Li Tian. Li Tian did not retreat but moved forward. With the force of his legs, his body rushed to the giant beast like lightning.

"Snapped!"

The giant stone sculpture was condescending, and as soon as he caught it, he shot Li Tian, and Li Tian "red cut" in his hand, and Li Tian's body was directly shot back by the giant stone sculpture.

But Li Tian's legs exerted strength again, and his figure flashed, and he had already jumped on the stone behemoth.

The sword fell with his hand, and a big head was cut off easily by "Red Cutter", and the body of the stone beast collapsed with a bang.

Li Tian's feet lightly tapped the body of the giant stone beast, and moved in a teleport. Li Tian had already arrived behind another giant stone beast.

"Huh!"

A red light flashed from the back buttocks of the giant stone beast, and "Red Cut" directly cut off the back half of the giant stone beast.

The giant stone beast that "Boom" had lost the back half of its body collapsed suddenly and turned into a pile of dried beast meat.

All of this seems to have taken a lot of effort, but in reality it is just a matter of lightning and flint.

Although the Immortal Emperor was besieging Li Tian, Li Tian used teleportation and bone armor to increase his body speed and easily escaped the Immortal Emperor's attack.

In this way, the Immortal Corpse Emperor could only watch the two giant stone beasts killed by Li Tian in an instant.

"This... is this bone zombie so powerful?" A hint of horror flashed in the heart of the Immortal Corpse Emperor, thinking in his heart.

The Immortal Emperor said in surprise: "What a domineering technique! Boy, what kind of corpse practice is this? If you can teach it, we can spare you not to die, and we can even combine the corpse practice on our body with You exchange."

Even though the Immortal Corpse's words said so, the movements on his hands didn't mean to stop at all, but accelerated the attack on Li Tian.

"call!"

The two sturdy arms swept horizontally towards Li Tian, one left and the other right, as if he wanted to slap Li Tian directly to death. However, Li Tian leaped hard with his legs, jumped directly on the arm of the Immortal Emperor, and then quickly pierced "Red Slash" into those eyes.

"Ah! Damn, I want to smash your corpse into ten thousand pieces! Let you know how powerful this Dao master is." The Immortal Corpse Emperor screamed.

"If you have any ability, please show it as soon as possible! Otherwise, I'm afraid you won't have the chance to show it after a while!" Li Tian said with a mocking smile.

With that, Void Yasha, standing on Li Tian's shoulder, has jumped off Li Tian's shoulder.

"call!"

The other arm of the Immortal Corpse Emperor slapped Li Tian heavily with the howling wind, and Li Tian accelerated towards the Immortal Corpse Emperor's bun.

As for Xiaoyasha, he was just the size of a slap, falling on the Immortal Emperor who was more than tens of meters tall, as if a little flea had landed on the Immortal Emperor.

Not to mention that the Immortal Corpse Emperor couldn't see Xiao Yasha, even if he could see Xiao Yasha, it was absolutely impossible to catch Xiao Yasha.

After Void Yasha fell on the Immortal Corpse Emperor, his two hands were joined together to make a knot seal, and then he muttered a word, as if he was chanting a spell.

Soon, a black ball of light less than ten centimeters in diameter appeared in front of Void Yasha, and Void Yasha stretched out his hand and suddenly pressed the black ball of light against the back wall of the Immortal Emperor.

A strong suction force came from the black ball of light, and the suction force immediately sucked the entire arm of the Immortal Emperor.

The rotten meat and black slime on the arm of the Immortal Emperor were all sucked in by the black light ball. However, although the Immortal Emperor could feel a strong suction suddenly appear on his arm, it did not. It wasn't like "Red Cut" was swallowed by the black ball of light.

After all, the diameter of the black ball of light was only ten meters in diameter, and the length of the arm of the Immortal Emperor was more than ten meters.

At this time, Li Tian had already rushed to the neck of the Immortal Corpse Emperor, holding the "Red Sword" and jumped up and swung a knife at the neck of the Immortal Corpse Emperor.

"Huh!"

A red light flashed, and a wound that was seventy or eighty centimeters long appeared on the neck of the Immortal Emperor.

Seeing this wound, Li Tian was overjoyed: "It seems that there is a chance that the Immortal Corpse Emperor's head will be slashed. If it fails, I will cut ten knives, 100 knives!"

However, at this time, the body of the Immortal Emperor trembles suddenly, as if trying to shake Li Tian from him.

At the same time, the two palms of the Immortal Emperor had already patted Li Tian at the same time, as if patted a mosquito.

Li Tian almost stood unsteadily, shaken by the Immortal Emperor, and slipped under his feet. Li Tian directly pierced the "Red Cutter" into the Immortal Corpse Emperor's body, and then put his wrists hard and his legs were on the Immortal Corpse Emperor's body. At one point, the body had jumped up suddenly.

Li Tian didn't jump very high, but he jumped in front of the Immortal Emperor.

Then Li Tian saw that in the two dimples of the Immortal Corpse Emperor's face, the heads of the black and white Taoist priests were exposed from the left and the right.

Li Tian knew that the black and white Taoist priests had entered the dimples of the Immortal Emperor's face, but because Li Tian could not see the Immortal Emperor's face clearly, he assumed that these two Taoists were the same. The Immortal Emperor has merged into one.

Now Li Tian discovered that although their bodies had already had some connection with the face of the Immortal Emperor, the two goods were actually hiding in the dimples of the Immortal Emperor's face, and were not completely integrated.

"Solution!" Li Tian exclaimed.

The white bone armor on Li Tian receded layer by layer, and "Red Slash" flew up again, flying towards one of the dimples on the face of the Immortal Emperor like a flash of lightning.

But Li Tian's body quickly fell down, and the two giant palms of the Immortal Emperor's two giant palms flicked from side to side and blasted towards Li Tian.

Chapter 3636: Blood mist

"Huh!"

In the air, Li Tian once again used teleport, avoiding the attack of the Immortal Emperor, and then continuously used teleport, always landing smoothly.

But at this moment, the Immortal Corpse Emperor suddenly let out a scream, and suddenly retreated seven or eight steps. Although he had only retreated seven or eight steps, he also withdrew several hundred meters.

"The despicable and shameless kid actually hurt people with a secret arrow, let's see how Dao Master cleans you today!" The Immortal Corpse Emperor roared and shouted at Li Tian.

I saw that the Immortal Corpse Emperor's palms were folded together, and several knots were suddenly changed. With these types of knots, a low-pitched explosion sounded from the Immortal Corpse Emperor's arms.

The eyeballs on the Immortal Corpse Emperor's arms flew out from his arms one by one, and these eyes flew quickly to the surroundings, and then landed on the huge stone pillars one by one, sinking into the stone pillars. In it, it's like those stone pillars have eyes.

This is not over yet.

"Puff!" With a cry of the earth, a mouthful of blood mist suddenly spurted from the mouth of the Immortal Corpse Emperor, and the blood mist immediately began to slowly diffuse into the entire Qinling Maze.

Li Tian looked up and saw that as the blood mist dissipated, the blood mist in the Qinling maze became thicker and denser. All around Li Tian was in sight of this blood mist.

The Immortal Corpse Emperor sprayed another seventeen mouthfuls of blood mist continuously until the entire Qinling maze was filled with blood fog, and then the Immortal Corpse Emperor stopped spraying the blood mist.

And the Immortal Corpse Emperor disappeared in this blood mist.

After so much blood mist suddenly appeared in the Qinling Labyrinth, Li Tian couldn't continue to use "Red Slash" to attack the face of the Immortal Emperor. The weakness of the Immortal Emperor was finally broken.

Li Tian helplessly shouted: "Knot!"

"Hong Zhan" flew back again, forming a layer of bone armor on Li Tian's body. Since there is no way to attack the Immortal Emperor, having a layer of protection on his body will always make Li Tianxin at ease.

The blood mist kept falling from the air, Li Tian was unavoidable, and the bone armor of his whole body was stained blood red by the blood mist.

Originally, Li Tian saw that Void Yaksha's tricks could not kill the Immortal Corpse Emperor, so he wanted to summon Void Yaksha back, but after the blood mist appeared, Li Tian did not dare to summon Void Yaksha back.

At least Void Yasha was on the Immortal Emperor, and Li Tian could still know the approximate location of the Immortal Emperor through his mind.

"Hahaha, despicable kid, let you taste the power of Dao's blood mist!" In the blood mist in the distance, the Immortal Emperor said with a smile.

The maze of blood fog sounds like it's evil!

Although Li Tian didn't know the use of this blood mist formation, since the appearance of this blood mist, Li Tian felt uncomfortable all over, as if he had fallen into a sea of blood. Every time he moved, the surrounding blood mist also Some movement will happen.

At this moment, Li Tian suddenly felt a sense of alertness, as if there was a beast approaching him in the blood mist.

"Huh?" Li Tian suddenly felt that the blood mist around his body seemed to fluctuate slightly. At this moment, an arm of the Immortal Corpse Emperor stretched out from the blood mist and patted Li Tian heavily.

"Danger!"

Li Tian immediately teleported to avoid this attack.

"Huh!"

"Huh!"

Li Tian performed three teleports in succession, but the arm of the Immortal Corpse Emperor was like a tarsal maggot, and it followed Li Tian every time. As long as Li Tian's teleportation slowed by half a step, Li Tian would Will be slapped by the palm of the Immortal Emperor.

"Damn, how did the Immortal Emperor do it? Are these eyes? But even with those eyes, he can't clearly know the direction and position of my teleport!" Li Tian thought in his heart.

"Despicable kid, don't do it in vain. This blood fog is an ocean. All blood fog is closely connected. As long as you move, I will know the direction and position of your kid. You can't avoid it. The blood mist mist killer move!" The Immortal Corpse Emperor said with a sneer.

Don't hide? If you don't hide, you are a fool. The arm of the Immortal Emperor behind is a tarsus maggot. As long as Li Tian stops for a while, he will be attacked immediately.

Li Tian teleported again, for the seventh or eighth consecutive teleportation. This time, Li Tian's teleportation has no pattern at all. Every time Li Tianming moves to the left, he instantly moves to the opposite direction. The direction has moved.

And the arm of the Immortal Emperor finally didn't seem to follow from behind.

"Did you get thrown away?" Li Tian thought to himself.

"Huh!"

"Huh!"

Li Tian began to gasp heavily. After meeting these two corpse refiners, Li Tian began to use teleporting continuously. Such continuous teleportation was a great test for Li Tian's body.

"These two \*\*\*\* Taoist priests are so difficult, what should I do now?"

Li Tian was thinking about it. Li Tian suddenly felt a powerful pressure falling from the top of his head, and the blood mist on the top of his head obviously accelerated the flow.

Li Tianyi looked up and felt a familiar feeling on this coercion.

That's right, it's Xiaoyasha.

"It's not good, this is the Immortal Corpse Emperor sneaking at me with another arm!" Li Tian suddenly teleported twice.

"boom!"

A huge palm fell from the sky and slapped heavily on the ground, and a huge palm print immediately appeared on the ground.

If it wasn't for the small Yasha on this arm, if it weren't for Li Tian's teleportation, or if it wasn't for Li Tian's quick response, then Li Tian would have been photographed in flesh.

"Huh? This kid actually avoided this trick? It seems that I underestimated you, Master Dao!" Not far from the blood mist, the voice of the Immortal Corpse Sovereign came from midair.

Li Tian's legs slammed into force, and rushed towards the Immortal Emperor in a tortuous manner, while teleporting towards Li Tian, to avoid the Immortal Emperor's attack.

Just ahead, Li Tian leaped abruptly, his body rotated 360 degrees in the air, and the "Red Slash" in his hand slashed heavily.

"Chang!" With a sound, Li Tian chopped to the leg of the Immortal Emperor, "Red Cut" pierced into the skin of the Immortal Corpse Emperor, and Li Tian held the "Red Cut" in his hand like this on the Immortal Corpse Emperor's leg. Ministry.

"How the \*\*\*\* did this kid know that I am here, here is a \*\*\*\* fog! Is it because of the little thing on that arm?" The Immortal Emperor hissed.

Just two seconds after the words of the Immortal Corpse Emperor, Void Yasha suddenly appeared on Li Tian, thinking that it was the Immortal Corpse Emperor who drove the little fleas from his arm.

"call!"

The Immortal Corpse Emperor's slap slapped again, and Li Tian's body flashed and appeared in the void of Yasha.

Chapter 3637: Void Blade

"Little boss, you...what's wrong with you?" Tang Xiaolong saw Li Tian's whole body stained with blood and thought that Li Tian was injured, and he was anxious.

When Li Tian removed the bone armor, Tang Xiaolong breathed a sigh of relief.

"Li, what happened outside here?" Situ Ningbing asked.

Li Tian recounted the external affairs.

"This... how should this be good?" Bai Jing couldn't think of a solution for a while, couldn't help but said with some worry.

"Yes, in this \*\*\*\* fog, all your actions are known to the Immortal Emperor, and your ordinary attacks are not effective against the Immortal Emperor. Now I want to deal with the Immortal Emperor's cheeks. The black and white Taoists inside may not be able to do it too!" Situ Ningbing said with some worry.

"Little boss, if I go out with you, my body is not afraid of being beaten anyway. It is better to deal with the two Taoist priests with two people than with you alone!" Tang Xiaolong said.

"And me, in this \*\*\*\* fog, my nose may be able to help something!" Dog nose said unwillingly.

Tang Xiaolong pushed the dog's nose away and said, "Don't come to make trouble."

Then Tang Xiaolong said to Li Tian again: "Little boss, don't hesitate, I can help you if you know it!"

But Li Tian slowly shook his head and said, "No, I can't let you take this risk with me. There was an old man with four elephants last time. What if an accident happens again this time?"

"There won't be so many accidents..." Tang Xiaolong was interrupted by Li Tian before he finished speaking.

"I said I don't allow it. I can't lose a Tang Xiaolong because of a little Tianyi! Now I have to wait like this. After a period of time, the black and white Taoist priests will surely disperse the blood mist formation. Right!" When Li Tian said this, his heart was filled with sorrow.

escape!

Li Tian hadn't been so aggrieved for a long time, but Li Tian couldn't help it.

Strength, strength, men without strength can only be so aggrieved!

Li Tian hit the ground with a heavy punch. In this punch, Li Tian didn't use any power, it was pure brute force and hit the ground.

The skin on the fist was immediately scratched, and the blood flow continued.

But Li Tian not only didn't deal with the wound, but he hit the ground four or five punches continuously.

"Lee! Don't be like this!"

"Brother Heaven..."

Situ Ningbing and Bai Jing put Li Tian's arms in their arms, and said with a distressed expression on their faces.

Li Tian now only wants to improve his strength, but this cultivation definitely does not mean that he can improve quickly!

"Ningbing, now you start to explain Qingyun second chapter to me! I want to hurry up and practice!" Li Tian said.

But at this moment, Void Yasha said coldly: "I'm afraid it's not the time for us to practice. Several of us are safe, but what about the others outside the Qinling Labyrinth? If they can't wait for us to walk in The maze, or the black and white Taoist priests coming out of the maze?"

Although the tone of this Void Yasha was harsh, it was like a scream, which made Li Tian wake up immediately.

That's right, now is not the time to practice.

Seeing that Li Tian was about to leave this space, Void Yasha suddenly stopped Li Tian and said, "The strength of these two Taoist priests is far above us. Now we can't follow the usual methods to deal with these two Taoist priests. "

"Then what do you mean?" Li Tian asked.

"The most important reason why it is difficult for us to deal with the two Taoist priests is that the two Taoists are hiding in the body of the Immortal Emperor. Now we have to find a way to destroy the body of the Immortal Emperor!" Void Yasha said.

Li Tian's face immediately showed a disappointed expression and said: "I naturally understand this, but even Hong Zhan can't destroy the body of the Immortal Emperor!"

"So, now I can only rely on this young master!" Void Yasha said.

"How sure are you?" Li Tian asked.

"Leave it to me, but...but...because my destiny is not proficient, there may be some side effects!"

"What side effects?" Li Tian, Situ Ningbing and others asked with concern.

"If I overuse my abilities, I might faint. Once I faint, then you can't borrow my abilities and you can't use teleportation!" Void Yasha said.

"Don't worry, there are still us!" Tang Xiaolong said with his fist clenched.

Everyone discussed again, and Li Tian decided to take Tang Xiaolong and Situ Ningbing to assist Void Yasha to deal with the Immortal Corpse Emperor.

"Huh!"

Li Tian, Situ Ningbing, and Tang Xiaolong appeared in the Qinling Labyrinth.

Seeing the blood mist around him, even at the ruler, it would be difficult for Tang Xiaolong to see Li Tian and Situ Ningbing. This surprised Tang Xiaolong and Situ Ningbing.

Tang Xiaolong immediately performed the ten-fold body-refining technique, staring at the blood mist with full attention. And Situ Ningbing immediately used the hermit killing technique to hide in the blood mist.

"The corpse refining priest, hiding in this blood mist is nothing. Now Xiaoye, I am out. Come out and die!" Li Tian immediately shouted into the blood mist after he came out.

"Hahaha, extremely arrogant fellow, Daoye will come to take care of your lives now!" The voice of the Immortal Corpse Emperor came from the blood mist about a hundred meters away.

And at this moment, Void Yasha appeared here out of thin air, falling directly on the neck of the Immortal Emperor.

I saw Void Yasha slammed through his left hand, and then used the blood on his left hand to draw a strange symbol on his right hand.

"boom!"

As soon as this symbol was drawn, a black void appeared on the right hand of Void Yasha.

That's right, this is the void.

Through this Void Mirror, Void Yaksha can see all the scenes in that void, and Void Yaksha is a bit shuddered when seeing this picture.

"drink!"

Prostration Yaksha burst into a loud shout, following the bursting burst of Void Yasha's burst, a three-inch blade slowly stretched out from the mirror surface of the void.

The blade is pure black all over, and there is no blade, just like a toy.

But when all the blades came out of the void mirror on the arm of Void Yasha, suddenly, the blade suddenly enlarged.

Three inches, one foot, five meters, ten meters...

The blade instantly became a super blade with a length of more than ten meters and a width of more than one meter, and the blade was wrapped with plumes of black smoke.

Void Yaksha's head began to sweat continuously, and Void Yaksha's whole body was shaking, and at this moment, a light flashed suddenly on the blade, an aura that was so powerful that it would destroy the world. It was flooded in the entire Qinling maze.

#### Chapter 3638: Void Blade (2)

Li Tian, Situ Ningbing, and Tang Xiaolong felt out of breath with this ruining atmosphere, as if their weight had suddenly increased dozens or hundreds of times, while the surrounding air suddenly became thinner. Get up, so that their original strength is completely unable to support the movement of this body.

The feeling of Void Yasha does not have to be much better than Li Tian and others. Void Yasha is only the size of a palm, and the length of this Void Blade is more than ten meters. At first glance, it seems that a handle suddenly appeared on the neck of the Immortal Emperor. The giant blade would completely ignore the existence of Void Yasha.

However, at this time, it was the Void Yasha controlling the Void Blade.

Sweat trickled down from the top of Void Yasha's head and into Void Yasha's eyes. Void Yasha felt that his eyes were astringent and painful, but this little pain was completely negligible for Void Yasha, and the greater pain The body from the void Yasha.

This small body needs to withstand the blade of the void that is hundreds of times larger than his body, thousands of times or even tens of thousands of times heavier. This is a great burden and challenge to the body of the void Yasha.

Coupled with the devastating aura released by this Void Blade, the burden is exponentially more difficult.

"Huh!"

"Huh!"

Void Yasha was panting heavily, and the blade of the void he controlled was also trembling slightly, as if it was about to explode at any time.

Of course, this kind of breath exerts more pressure on big guys like Immortal Emperor.

The Immortal Corpse Emperor couldn't bear the powerful aura, he knelt to the ground suddenly, his body leaned forward, and his arms slammed on the ground, as if a person who made a mistake was bowing his head.

"Damn boy, what kind of demon technique is this? Don't think that this will make Dao-ye give in! This Dao-ye's Immortal Corpse Emperor's body has the indestructible body of King Kong, even if it is a magic weapon, it may not be able to hurt it well. "The Immortal Corpse Emperor tried to lift his head.

"Demonic technique? This is this young master's natal stunt. Now let you experience the power of this young master's natal stunt!" Xukong Yasha muttered in a low voice.

"Zheng!"

The Void Blade shook abruptly, and then struck the Immortal Emperor's neck like a black lightning.

After the blade of the void slashed on the neck of the Immortal Emperor, the black smoke on the blade exploded suddenly, and then quickly wrapped around the neck of the Immortal Emperor.

Immediately, the skin and blood of the Immortal Corpse Emperor were swallowed by the black smoke at a speed visible to the naked eye.

"Boom!" With a loud noise, the head of the Immortal Corpse Emperor fell directly from the huge body, "Gurulu!" It rolled over ten meters.

At this time, the black smoke around the Void Blade was still devouring the body of the Immortal Emperor, and soon the smaller half of the Immortal Emperor's body over the upper body was swallowed by the black smoke, and the head of the Immortal Emperor fell from the chin. It disappeared completely.

"Huh!"

"Huh!"

Void Yasha's body stayed in the air, breathing heavily.

"Success! Finally succeeded, although it is not very pure, but at least this time there is no sign of fainting!" Xukong Yasha thought with some excitement.

At this moment, the Void Blade suddenly swayed from side to side, and suddenly lost control completely.

"boom!"

The blade of the void exploded in midair.

That's right, the blade exploded, and the shock wave of this violent explosion filled the surroundings, directly overturning Li Tian and others to the ground, and then blasted into the distance.

"Boom!"

"Boom!"

The remaining seventy giant stone pillars in the Qinling maze couldn't withstand this explosion, and at least half of them collapsed.

The top of the Qinling Labyrinth also received a violent impact, shook a few times, and unexpectedly a few huge rocks fell from it.

And what about the blade of the void?

After the explosion, it also turned into a cloud of black smoke, and then quickly got into the void mirror on the arm of Void Yaksha, and disappeared on the arm of Void Yaksha along with the void mirror.

The Void Yasha, the center of the explosion, didn't receive much impact, but at this time Void Yasha was also exhausted and fell directly to the ground from midair.

And the blood mist around that was completely exploded because of this violent explosion, and even more than half of the blood mist was sucked into the void mirror along with the Void Blade.

Looking at the Immortal Corpse Emperor, at this time, less than half of the Immortal Corpse Emperor's body has disappeared, leaving only two legs below the crotch and more than half of the head.

Li Tian, Situ Ningbing, and Tang Xiaolong slowly stood up from a few hundred meters away. At this time, their bodies were covered with blood, dust, and wounds, looking embarrassed.

But whether it was Li Tian or Situ Ningbing, at this time, they had no thoughts about whether they looked embarrassed or not. Their faces were all with shocked expressions, and they couldn't believe everything they were looking at.

When their eyes fell on the broken body of the Immortal Emperor, they didn't know what language they should use to express their shock.

"This... is the power of the Void Blade by this Void Yasha's destiny? Is this the power of the Void Blade?" Tang Xiaolong kept repeating this sentence, only then did he discover that his power was ruining this way. In front of the mighty power of heaven and earth is a complete joke.

With a punch of eight thousand catties, Tang Xiaolong was a bit complacent before, but now in front of this Void Blade, Tang Xiaolong suddenly felt pale and weak.

However, Tang Xiaolong's eyes soon filled with excitement.

That's right, the strength of eight thousand catties is insignificant, but every time the tenth level refining body is promoted, the power will be doubled, and wait until the sixth level? The seventh level? Even the tenth level of cultivation to the extreme?

Tang Xiaolong couldn't imagine it anymore.

Even if Tang Xiaolong's elementary school mathematics was taught by a physical education teacher, Tang Xiaolong knew what it meant to be in the tenth level of physical training.

Immortal Emperor? That is definitely a punch.

Shock!

Situ Ningbing was also completely shocked by Void Yasha's destiny tricks. Even if she and Li Tian had experienced the cultivation life in another world, Situ Ningbing still felt a little weird at this time.

At the same time, Situ Ningbing also secretly decided that he must practice the hermit killing technique to the extreme. Of course, when he was practicing Qingyun with Li Tian, Situ Ningbing would not let go of this kind of cultivation opportunity.

Practice, improve!

Although Li Tian was shocked, he was more concerned about the situation of Void Yasha.

Fortunately, Li Tian could feel Void Yasha in an area several hundred meters away by using his mind, and Void Yasha should not have fainted.

"Huh!"

Li Tian teleported, quickly came to Void Yasha's side, and held Void Yasha in the palm of his hands.

"Void, you did it!" Li Tian said with some excitement.

However, at this moment, "Swish!" "Swish!" A black and white figure flew out from the head of the Immortal Emperor.

The white-robed Taoist monster yelled and said angrily: "Jie Jie, dare to ruin our thousands of years of hard work, you \*\*\*\* boy, you have completely angered the anger of the Dao, let you taste the anger of the Dao. !"

Chapter 3639: Occult

As soon as the words of the white-robed Taoist priest fell, an elf-like figure appeared behind the white-robed Taoist priest.

"White robe! Be careful..."

The black-robed Taoist immediately screamed to remind the white-robed Taoist when he saw it, but his voice said caution and stopped abruptly. A dark one rushed behind him like a sharp arrow, and an iron fist struck the black-robed Taoist priest.

Although the black-robed Taoist priest was also alert, he had just emerged from the body of the Immortal Corpse Emperor. At this time, the black-robed Taoist priest had not fully adapted to it. When he turned around, the iron fist had already hit his chest heavily. .

The person who came was Tang Xiaolong. Tang Xiaolong's angry punch moved like thunder and lightning fast, and this punch contained all the power that Tang Xiaolong's tenth refining body could stimulate, and even stimulated Tang Xiaolong's potential. .

It is conservatively estimated that this punch has reached about 10,000 jin, and it has reached a normal level 14 mutant bear.

"boom!"

There was a twitch on the black-robed Taoist priest's face, his body trembling a little, and he flew out directly back. A hundred meters away, the black-robed Taoist stopped, but the black-robed Taoist suddenly fell to the ground.

The other side.

Although there was a reminder from the black-robed Taoist priest, the reaction of the white-robed Taoist priest was still half a beat, and a shadow of a knife flashed, and the butcher knife in Situ Ningbing's hand successfully smashed the white-robed Taoist back on the back.

"Huh!" With a sound, Tudao Tushen cut the white robe of the Taoist priest up to a length of one meter.

"Puff!" A stream of blood sprayed out from the back of the white robe Taoist priest, and instantly dyed his white robe into a few plum blossoms. Soon, the red plum blossomed and the white robe became half white. Half red.

While the white robe screamed, he turned around and used the nine ghost claws to grab Situ Ningbing, but at this moment, the "Red Slash" was like red lightning, and suddenly smashed into the white robe Taoist Jiuyou ghost from mid-air. Claw, the white-robed Taoist knew how powerful "Red Zhan" was, and escaped the attack of "Red Zhan", hitting the back of "Red Zhan" with a palm, and jumped back seven or eight meters.

Li Tian teleported to Situ Ningbing's side. Seeing the miserable appearance of the white-robed Taoist priest, Li Tian sneered: "White-robed Taoist priest, should you change your name to the red-robed Taoist now? Or blood robe? Taoist priest?"

The face of the white-robed Taoist priest was extremely ugly, and the blue veins on his head burst out, which shows his anger at this time.

"Jiejie, good! Good!"

Li Tian saw that the white-robed Taoist made a knot in his hands, and slammed it on the ground.

"Come out! Unwilling to sleep, let these ignorant boys feel the fire of Dao's anger!" The white-robed Daoist suddenly fell to his knees, making some weird sounds from his mouth.

I saw a white-robed Taoist priest as the center, and a strange circular pattern immediately appeared on the ground. The circular pattern was surrounded by a circle of thirty-two blood-red talisman symbols. Once formed, these symbols became one. The red flames burst into flames.

And the white-robed Taoist priest kneeling in the center of this pattern, like a devout believer, knocked his head on the ground, even letting his entire cheek be combined with the pattern.

"White robe, you don't want to die? What are you doing?" The black robe Taoist was entangled with Tang Xiaolong at this time, and he immediately shouted in surprise when he saw the white robe Taoist make such a move.

However, at this time, the white-robed Taoist priest seemed to be unable to hear what the black-robed Taoist said. In the scarlet flame, the white-robed Taoist turned out to be like a candle under high temperature, and his skin slowly melted. Penetrating into the ground, leaving only his white skeleton.

"What is this white-robed Taoist priest doing?" Situ Ningbing asked with some doubts.

"Maybe!" Li Tian said with a sneer.

Suddenly, the ground under the white robe Taoist trembled. Immediately, in the center of this pattern, a white light shone, and with this white light shining, a heavy coffin from the ground slowly rose upright. The skeleton of the white-robed Taoist priest seemed to have been carbonized at the moment when the coffin was raised, turning into a pile of quicksand slowly flowing down from the coffin.

"Om!"

Suddenly, a huge red talisman seal appeared in the four directions of the front, back, left, and right of the coffin. In the environment of the Qinling Labyrinth, these red talisman seals looked very strange!

These red talisman seals just flashed past, as if they were water poured into the desert, they penetrated into the coffin.

However, at this moment, the lid of the coffin was pushed down from the inside with a loud "pop!" Then Li Tian saw a corpse exposed in the coffin.

Seeing this corpse, Li Tian was taken aback.

Because the face of Li Tian's corpse in this coffin was actually similar to that of the white-robed Taoist priest. He was also wearing a white robe. The only difference between the two was that the corpse in the coffin was a dry corpse, and there was no tenderness on the face.

"Jiejie, kid, let you see the ultimate in corpse refining of our corpse refining priest!" The white robe mummy said with a sneer.

"White robe! Why do you need it? For this kid, he moved a taboo and made himself a corpse. After that, he would never be able to peer into the sky again!" The black robe Taoist said sadly.

"Do you bear the heart that our Immortal Corpse Emperor who has been practicing for thousands of years is destroyed by this kid like this? This kid is treacherous and shameless. If I don't refine myself into a corpse, can we make this kid die?" The white-robed Taoist sneered. Said.

It turns out that the white-robed Taoist used the corpse-refining Taoist's forbidden secret technique, which is to refine his body into a corpse. In this way, although the corpse possesses the technique of immortality, he can never continue to practice, and it is impossible to spy To heaven.

Of course, if you want to refine yourself into a corpse, you first need to prepare a corpse, and the corpse prepared by this white-robed Taoist priest is his twin brother.

In order to obtain the Tao by refining the corpse, the White-robed Taoist killed his younger brother thousands of years ago, and then refines his younger brother's body into a mummy, which is hidden deep in the Qinling maze for later use.

"You robbed the limelight just now, now it should be my turn!" The white-robed Taoist sneered, and the coffin board he was in burst immediately.

The red talisman on these coffin plates flashed and flew towards Li Tian and others.

Li Tian led Situ Ningbing in a teleport, evading the attack of the coffin board, his mind controlled "Red Zhan" and slashed towards the white-robed Taoist priest.

"Huh!"

A red light flashed, and the white-robed Taoist priest was cut in half by "Red Slash".

Some blood beads floated from the two halves of the body. These blood beads seemed to be silk threads, and they even linked the body of the white-robed Taoist priest together.

The white-robed Taoist sneered: "Jie Jie! This won't kill me!"

#### Chapter 3640: Death of the White Robe (1)

Li Tian was not at all frightened by the words of the white-robed Taoist priest, and continued to control the "Red Zhan" to cut the white-robed Taoist head again. ,

"Huh"

"Hong Zhan" directly split the head of the white-robed Taoist priest in half. However, the head of the white-robed Taoist priest who had been split in half remained split, without any substance or liquid flowing out. As a few strings of blood beads floated out, the two halves of the head were linked together again.

Li Tian didn't believe in this evil anymore, his mind kept controlling "Red Slash" and slashing on the white-robed Taoist priest. The white-robed Taoist was also arrogant and did not evade at all, as if to let Li Tian know him. Like having an immortal body.

Soon, the body of the white-robed Taoist priest was chopped into messy pieces of meat by the "red cut", but bleeding beads continued to float among those pieces of meat, and those pieces of meat would be linked together and reassembled again to become a white-robed Taoist priest.

"Impossible!" Li Tian cried out in shock.

The current white-robed Taoist priest gave Li Tian a sense of mourning. Is there anything in common between this corpse refining secret technique and that mourning technique?

The mourner Li Tian had also been killed. There is also Li Tian's way to deal with the funeral Li Tian, which is to summon Xiao Tianyi and the captain to eat.

But now Xiao Tianyi is in the space of Void Yasha, controlled by the black-robed and white-robed Taoist priests, like plant corpses, there is no way to eat these corpses, and the captain is still at the entrance outside the Qinling Labyrinth .

Li Tian can't act as a foodie, eat these pieces of corpse.

"Jie Jie!" The white robe Taoist smiled strangely.

Suddenly the arms of the white-robed Taoist priest who had been cut off by Li Tian's "Red Sword" flew up and rushed towards Li Tian, and behind each arm, there was a string of blood beads.

These blood beads should be the reason for controlling these arms and allowing the white-robed Taoist priests to recover. But knowing this, Li Tian didn't have the slightest way.

These blood beads are like water, rain, invisible and shapeless. Li Tian cannot completely cut off the connection between these blood beads and the body of the white-robed Taoist priest with "Red Slash".

Moreover, after the two arms were cut off the body of the white-robed Taoist priest by "Red Slash", they galloped faster and the route was even more bizarre.

"Nine You Ghost Claw!" the white-robed Taoist priest sneered and shouted.

Li Tian didn't dare to neglect, and he quickly teleported, avoiding the attack of one of the arms, and the other arm of the white-robed Taoist priest could actually appear less than three inches after Li Tian teleported.

"Crack!" With a sound, the white robe Taoist's arm was claws, and the claws were directly on Li Tian's shoulders. Li Tian's shoulders were immediately marked with blood from the claws, and blood was splashed, and Li Tian felt it. At the moment his shoulder was scratched, a cold chill fell into Li Tian's body following the wound, and Li Tian shuddered involuntarily.

Li Tian continued to use the broken soul palm, blasting the arm of the white-robed Taoist priest on his shoulder.

"Li, don't you mind!" Situ Ningbing asked anxiously when Li Tian was injured.

Li Tian shook his head and said: "I didn't expect that after the Immortal Corpse Emperor was abolished by the Void Yasha's Void Blade, this white-robed Taoist priest would still have this kind of stunt. I have no time to take care of..."

"I understand, you send me into the space of Void Yasha!" Situ Ningbing said very simply, without any muddling.

Li Tian directly sent Situ Ningbing into the space of Void Yasha, and then controlled "Red Zhan" again while continuing to chop the body of the white-robed Taoist priest, while teleporting to avoid the attack of the white-robed Taoist priest.

On the other side, after seeing the white-robed Taoist perform the taboo secret technique, the black-robed Taoist looked absent-minded.

But fortunately, the black-robed Taoist priest did not have the determination to break the net, and did not use the forbidden secret technique. In this way, Tang Xiaolong and the black-robed Taoist actually hit a tie.

After seeing that Tang Xiaolong was temporarily relieved, Li Tian did not send Tang Xiaolong into the void of Yasha. After all, Xiaolong was still a good helper for Li Tian now.

"I cannot guarantee that I have time to look around? Jie Jie!" The voice of the white-robed Taoist priest suddenly appeared behind Li Tian.

Li Tian was startled and turned abruptly, only to find that the head of the white-robed Taoist did not know when it actually floated here. Fortunately, the white-robed Taoist's head was not lethal, and he didn't want to bite Li Tian.

However, when Li Tian was lucky, there was another severe pain on Li Tian's ass. As soon as he turned his head, Li Tian saw that one of the white-robed Taoist arms actually claws obscenely on his hip.

Although there is a lot of flesh on the buttocks, the muscles and bones are not injured, but the pain is real.

Li Tian abruptly pulled the arm of the white-robed Taoist priest, desperately trying to throw it out, but was stopped by Xukong Yasha.

"Master Li Tian, since this white-robed Taoist almost has an immortal body now, we can only send his body into the void for the present!" Xukong Yasha said.

"But, his body is so huge, do you have a way?" Li Tian asked with some doubts.

Void Yasha smiled slightly and said: "Master Li Tian, you really made a mistake in the chaos. Now his body has been chopped into pieces by your red cut, but the white robe Taoist does not care at all. This is not my best. A chance!"

With that, a dark ball of light appeared between Void Yasha's hands.

Li Tian knew that this ball of dark light was connected to the other end of the void, and Li Tian did not hesitate to directly push the paw of the white-robed Taoist priest into the ball of dark light in the hands of Void Yasha.

"Swish!" A strong suction directly sucked in half of the claw, and Li Tian took advantage of the trend and directly squeezed the white robe Taoist hand into it.

As soon as that arm entered the void, the white-robed Taoist priest immediately let out a scream: "No! Return my arm!"

Return your sister!

Seeing the white-robed Taoist head rushing towards him with a hideous face, Li Tian teleported directly to avoid him, and then Li Tian rushed to the body of the white-robed Taoist priest. The pile was cut into pieces by Li Tian's "Red Cut" Pieces of minced meat.

"Do not!"

The face of the white-robed Taoist priest was full of horror, and his head flew towards his body quickly under the control of the series of blood beads.

However, how could his speed be as fast as Li Tian's teleportation.

Li Tian, who had been squeezed for so long, repeatedly exerted the spirit of a slut, squeezing the body in the center of the white-robed Taoist's body directly into the dark light ball, and then took the two legs of the white-robed Taoist with his hand and started. Run around the Qinling maze.

If it weren't for the inability to display a ball of dark light in the space of Void Yaksha, Li Tianheng could not directly bring the body of the white-robed Taoist priest into the space of Void Yaksha.

Seeing this scene, the black-robed Taoist was even more horrified: "The trend is over!"

Then the black-robed Taoist deliberately exposed a flaw, and Tang Xiaolong punched him in the chest, and the black-robed Taoist flew out directly, and then took the opportunity to escape directly from the Qinling maze.
