

A Killer 3871

Chapter 3871: Steel Fortress (2)

This night is destined to be a restless night.

In the first half of the night, the soldiers angrily watched that Li Tian made the entire splint of the warship smack of smoke, and finally fell asleep. In the second half of the night, there was lightning and thunder, and the whole sea roared, as if to swallow Xiaoxiaodao Island.

Fortunately, this movement did not last for too long. The violent storm in the sea came and went quickly. About two or three hours later, this violent storm gradually turned into a patter of light rain, when the sky was dark. , The whole rain stopped.

Liu Guoqiang woke up before the rain had stopped.

Liu Guoqiang was thinking about asking Li Tian about his plan at the time, but he also knew that Li Tian was probably drunk at this time, and he was still crawling on his wife's belly.

General Liu Guoqiang dressed neatly and walked out of the cabin, wanting to feel the fresh air after the rain.

Following the splint, Liu Guoqiang came to the place where Li Tian and the women and brothers gathered yesterday, only to see a figure standing beside the warship, looking in the direction of Cat Island.

Although the rain had stopped at this time, the sky was still dark, and the misty Cat Island could only be seen in a rough shape.

"Li Tian? You got up so early? That's great. I just want to ask about your plan to transform this kitten island!" Liu Guoqiang walked up to Li Tian step by step, thinking for a while, or to Li Tianjing He gave a ceremony, but his tone was not so polite, he no longer called Master Li Tian but directly called him.

Li Tian didn't care at all, pointed his finger in the direction of Xiaoxiaodao Island, and said, "Look at this Xiaoxiaodao Island, does the current Xiaoxiaodao Island still need to be remodeled? This is already a steel fortress!"

"Li Tian, are you kidding me?" Liu Guoqiang asked coldly.

"Fuck you? No, no, can't you see it? What kind of island has been transformed now? Does it need to continue to be transformed?" Li Tian pointed at Xiaoxiaodao Island and said with an aggrieved expression .

"Li Tian, I admit that I am not your opponent, Liu Guoqiang. But you should not think that you Li Tian is stronger than me and you can play with others like this. Believe it or not, you can't operate a warship without me, you can't leave this kitten at all. Island?" Liu Guoqiang had been dazzled by the anger, and had forgotten Li Tian's ride in the wind and waves yesterday.

"Fuck!"

A series of footsteps came from behind Li Tian.

"Wow!"

Then there was a series of firearms.

"Captain, the brothers have long looked at Li Tian as unpleasant. The brothers endured the anger all night. Now it's dawn, can the brothers do it?" One of the soldiers held a gun in his arms. Looking at Li Tian, he asked Liu Guoqiang aloud.

These soldiers didn't really want Li Tian's fate, after all, Li Tian was Mu Yunlong's grandson, and Li Tian's strength was far stronger than them. The reason they chose to deal with Li Tian in this way was to make Li Tian understand that no matter who was on the Cangshan ship, he must abide by the rules of the Cangshan ship.

You Li Tian is awesome, but this Cangshan ship has thousands of soldiers. Each of these thousands of soldiers is a hero from the army soul legion. Even if he takes his life, he will definitely not allow Li Tian to do anything wrong on the Cangshan ship. Up.

"Liu Guoqiang, what do you mean? If you can't properly discipline your subordinates, don't blame me Li Tian for being impolite!" Li Tian said with a sneer.

"Li Tian, we know that you are very powerful and powerful, but don't forget that this is the Cangshan ship, how many of your women and brothers are still sleeping in the cabin?" One of the soldiers sneered at Li Tian.

"Huh!"

Li Tian suddenly appeared in front of the soldier with a teleport, and slapped the soldier twice!

"Is there a way to say what you just said again?" Li Tian also paused, and continued: "If it wasn't for the face of your army soul legion, just by the words you just said, I will take your head Screw it down!"

Li Tian's teleportation moved with his heart. Those soldiers didn't even have a chance to react. Li Tian had already appeared in the crowd and beat the unspeakable soldier.

"Lee...Lord Li Tian, my brothers are just dissatisfied that you use the Cangshan ship as your own luxury yacht. There is absolutely no other meaning!" Liu Guoqiang looked at Li Tian in surprise, and said with some stammering.

"Captain! We have all heard what you said to Li Tian just now. We are not only dissatisfied with Li Tian treating Cangshan as his private yacht, but also dissatisfied with him teasing you! You Li Tian can say to this little cat island Helpless, if you say so, I believe no one on the Cangshan ship will blame you, but...but you can't use this kind of thing to tease our captain. You are not teasing our captain again, but the whole Army soul..."

"Shut up!" At this moment, Liu Guoqiang suddenly reprimanded the soldier.

Then Liu Guoqiang pointed at the kitten island, his face was full of incredible expressions, and he stammered: "You... look at the kitten island! No, is this still the kitten island?"

While speaking, the red sun came out, and the fog of the wheel cover on the kitten island was gradually dispersed.

Cat Island finally revealed its appearance.

Cat Island seems to be more than five times larger than its previous area.

Under the red sun, Cat Island is surrounded by white sandy beaches, with lush trees on the beach, and among the lush woods, white buildings are looming. Looking at the island, there is actually a road around the island. This road is all paved with colored stones, just like a colorful rainbow.

Going further down the road around the island, there is a large tract of farmland with rows of paddles, and several villages are vaguely visible.

In the center of the island is a green hill covering a very wide area. The highway winds straight to the green hill. Similarly, there are seven or eight curved steps on the green hill leading to the top of the green hill. On this green hill, there are also a dozen white buildings dotted with it. Looking up from the mountain, a giant stone monument over a hundred meters high stands on the top of the green hill.

A few words in red blood were written on the stele: "Those who violate my Huaxia will be punished even though they are far away!"

"This... Except for the eight characters, this little cat island seems to have nothing..." The soldier wanted to say that there was no defensive effect.

But before his voice fell, he was severely twisted by the soldier next to him.

"Idiot, look at the small island to the southeast of Cat Island!"

A small island appeared in the southeast of the island.

This small island is an independent deep-sea port. Except for a few megalithic buildings, there are no other buildings on the island, but from the color of the sea surrounding the island, it can be seen that this deep-sea port can call at least ten Heavy ships several times more than 10,000 tons.

Just a few kilometers to the northwest of Kitten Island, there is another small island a little bigger than the previous Kitten Island, Beixiaodao.

In addition to the natural landscape, there are also some buildings on this island, and more importantly, a long airstrip and huge airports have been built on this island. With some fighter jets parked, this small island is completely a fixed aircraft carrier parked in the Pacific Ocean!

"Master Li Tian! I blamed you!" Liu Guoqiang said to Li Tian in shame.

Behind Liu Guoqiang, the soldiers directly "puffed!" "Puffed!" fell to their knees.

"Get me up!" Li Tian said with a loud shout: "Take out all the enthusiasm that you just showed me, let's set off and go to the four islands of East China!"

Stay for three days

When the soldiers heard the words Li Tian said, their eyes flashed with excitement, the flames of battle in their hearts had begun to burn, and expressions of excitement appeared on their faces.

"Lord Li Tian, this little cat island has been built like this now. Don't you and your family go to live for two more days? You can stay for a few more days, we can wait for you!" Liu Guoqiang said to Li Tian eagerly To say.

"No need! It's not too late for us to come here for vacation when we take down the Four Islands of the East!" Li Tian said.

Li Tian's goal is the entire Dongying island nation, not just a matter of getting a small kitten island.

Liu Guoqiang's face immediately showed a trace of embarrassment, and said, "Master Li Tian, in fact...actually, I want to take my brothers to visit these two small islands in the north and south. I want to know what I know!"

Hearing Liu Guoqiang's words, the faces of the soldiers also showed this expression of desire.

"It's okay to look at it. But although this little cat island already has tourism value and defensive value, at this time it is the end of the world, and there is definitely no way to develop and send people to guard it. Unless a group of people migrate from the mainland to the cat island Settle down on the island, let them engage in agricultural production on the island, so that the island can be self-sufficient for the time being. Otherwise, even if members of the army are stationed on the two islands in the north and the south, they will soon be unable to do so because of lack of food. Continue to garrison."

"This is why I want to expand the area of Cat Island by nearly five times, and build so much farmland on Cat Island!" Li Tian said.

"Master Li Tian, these things are nothing to our military spirit! Please allow our Cangshan ship to send two teams of soldiers to garrison Xiaoxiaodao Island, as long as you leave a little grain for the soldiers of these two squads, leave them with With some firearms and ammunition, they can hold the Cat Island!" Liu Guoqiang said.

Li Tian looked into Liu Guoqiang's eyes, and he could see perseverance and faith in Liu Guoqiang's eyes.

"Captain Liu, now is the end of the world. After we leave this little cat island, we may not return to this little cat island for a long time. Then they can only rely on themselves to survive!" Li Tian Said.

"Lord Li Tian, please rest assured, they can overcome it!" Liu Guoqiang insisted.

Li Tian nodded and said, "Well, then we will continue to stay on Cat Island for three days. During these three days, you will start selecting two teams. After three days, we must leave immediately!"

"it is good!"

The soldiers said in unison.

...

The sun has completely risen, and the entire sea is red and sparkling, and the scenery on the sea is really beautiful.

Soon Situ Ningbing and others already knew the decision of Li Tian and Liu Guoqiang. For Situ Ningbing, Xue Ji, Bai Jing and other women, it was a rare opportunity to relax. They all firmly supported Li Tian's Decided.

These women immediately dressed up and flew to Kitten Island, stepping on the mutant bat squadron. These women changed their swimsuits in the white buildings and lay on the white sand, enjoying the rare leisure. In this case, Tang Feifei insisted not to change clothes bulgingly.

It's no wonder that in these women, even the zombie Ouyang's poetry is full of feminine charm. After these women put on their swimsuits, their chests are bulging. It's a rough scenery. Only Don Feifei is now a little girl. She knew that now her chest was completely the airport, so she insisted not to change her swimsuit.

Tang Xiaolong and the mysterious female Lily formally confirmed their relationship last night. They are now in a sweet period. They are holding hands and chatting along the road around the island.

On the other side, Windsor was surrounded by Gao Bi and Shen Tao. Shen Tao looked down on Gao Bi's stupid appearance and Gao Bi looked down on Shen Tao's weakness. However, Gao and Gao were completely stronger and always followed. Windsor, making Windsor miserable. Finally, Windsor changed her swimsuit and got into the pile of women who belonged to Li Tian.

These women are all Li Tian's women. Whether it is Kobi or Shen Tao, these two guys know this well. After seeing Windsor hiding behind Bai Jing and others, they could only shake their heads helplessly.

And Xiao Tianyi, the young Zhengmao brazenly added to the piles of women, and rushed around, holding everyone and calling mother!

This kind of milk is the mother's master!

What surprised Li Tian was two-dimensional.

Since this two-dimensional had no play with the barbarian, he had been painstakingly practicing hermit killing technique, and now the two-dimensional already possessed Situ Ningbing's 70 to 80% strength.

After 2D saw Ouyang Man in Beitang, he was even moved to Ouyang Man, intentionally or unconsciously, he wanted to say a few words to the silly man, and frequently secretly sent off to the silly man.

But Silly Man'er is now a zombie, and he has no idea about 2D. Instead, this aroused 2D's eagerness. At this time, 2D held a black thorn and pestered Ouyang Man to fight with Ouyang Man. One person, one person. The corpse kept gesticulating back and forth on the white sandy beach, and the swords intersected and sparks splashed in all directions. It was a terrible sight, but everyone could not stop them.

Li Tiandi looked at his brother, his woman, and his godson with pride in his heart.

But among his proud colleagues, Li Tian also knew that he would definitely go to the Nether Realm in the future, but these brothers and his many women and descendants would certainly not follow him to the Nether Realm.

Therefore, when Li Tian was in the ancient city under the sea, he began to think about how to arrange his brothers.

Just this morning, Li Tian had already fully understood.

If you want to divide a region in the country and establish a country within a country, even if Li Tian thinks, Mr. Mu Yunlong will absolutely not allow it.

Therefore, Li Tian has already figured it out. The four eastern islands, Li Tian, must be taken down, but the four eastern islands will become Li Tian's private island, an island belonging to the Celestial Legion.

"Laugh or laugh, you know how to laugh all day long, I don't want our children to live on this island and become a small island owner!" said to Li Tian with a pouting mouth.

Seeing that Duanmuying's abdomen had risen slightly, and Li Tian's face was full of triumphant expressions again, Li Tian stretched out his hand to stroke Duanmuying's belly, but was gently hit by Duanmuying's hand.

Li Tian shrank his hands and said with a smile: "Don't worry, this little cat island will be our back garden in the future. When we want to come to vacation, we will come to vacation. Three days later, we will go to the four islands of Dongying. The four eastern islands will be taken down as a home for our children and my brothers. By then, you will be the queen of the four eastern islands!"

Chapter 3873: Mutation

In these three days, apart from walking with Duanmu Ying, Li Tian's most important thing was to study the bronze furnace obtained from the underground tower of the ancient city under the sea.

Since this bronze furnace fell into Li Tian's hands, it has never released that white energy substance, and the words that appeared on Li Tian's palm as if they were burns disappeared on the same day, which made the experience so much. Li Tian, who had obtained this small bronze furnace with difficulty and danger, suddenly felt very depressed.

"Ningbing, take a closer look. The energy released by this bronze furnace can support the entire submarine ancient city. This bronze furnace is definitely not a simple thing!" Li Tian said to Situ Ningbing with certainty.

Situ Ningbing shook his head slightly and said, "Li, there is no energy fluctuation on this bronze furnace right now. It may be due to some change. This bronze furnace has blocked the energy by itself, or it may be that we haven't found it yet. A way to unlock the energy of this bronze furnace. But in general, if this bronze furnace can no longer release the kind of energy material you mentioned, then this bronze furnace is at best a plaything!"

Seeing a depressed expression on Li Tian's face, Situ Ningbing shifted the topic and said to Li Tian, "Li, you said that there were words on this bronze stove, so do you remember the words? "

"I don't know those words, they are as complicated as ghost symbols, how can I remember them! Originally those words have been burned on my arm, I thought about coming back and asking you again, who knows that the words disappeared by themselves. "Li Tian said depressedly, shaking his head.

Situ Ningbing didn't seem to be discouraged, but continued to say to Li Tian: "Li, you have seen too many words with me, so do you feel familiar with those words? Does it look like the words on Qingyun? "

Li Tian thought for a while, and said, "I don't remember it clearly, but it feels like it's so familiar and I don't recognize the worry at all!"

Situ Ningbing didn't know how to comfort Li Tian, and then said: "Since this small bronze furnace appears in the ancient city under the sea, it must be not a common product. We have no way to explain it now, you put it away first."

At this time, Situ Ningbing noticed the change of "Red Slash" in Li Tian's hands, and said in surprise, "Here, is this the Red Slash that you said that the female fog person changed? It looks much smaller than before! "

Li Tian handed "Red Zhan" to Situ Ningbing.

Starting with "Red Slash", Situ Ningbing discovered that at this time there was only a "Red Slash" with the head length, and the whole body was exuding a blood red color. This blood red seemed to contain boundless killing intent, which made people hold this "Red Slash" tightly. ", there was a shuddering feeling, and the "Red Zhan" seemed to be getting off Situ Ningbing's hand at any time.

Situ Ningbing sighed involuntarily: "What a powerful kind of energy, this Red Slash now seems to be much stronger than my Butcher Sword God Slayer! By the way, Li, why can't I feel this Red Slash knife? Where is the spirit?"

Li Tian nodded and said, "Yes, since Hong Zhan became like this, the sword spirit seemed to be asleep, no matter how I summoned, I couldn't get in touch!"

Speaking of Li Tian taking back "Red Slash" from Situ Ningbing's hand, holding "Red Slash" tightly in his right hand, he said: "This time there have been several major changes in the ancient city under the sea. Red Slash is one of them. Nine-color Corpse Crystal It's the second one. I don't know now whether the red cut and the nine-color corpse crystal can continue to combine, forming an armor on my body!"

While speaking, Li Tian thought of "Red Slash" and Nine Color Corpse Crystal in his mind, and whispered: "Knot!"

With this simple sentence, Li Tian immediately felt the nine-color corpse crystal where his atrium was beating a few times, and then the countless transparent silk threads entered Li Tian's veins, instantly covering all of Li Tian's body. The veins, and the tail of the "Red Slash" in Li Tian's hands, there are also countless red lines sticking out.

These lines drilled directly into Li Tian's arm, and soon combined with the transparent silk threads that had entered Li Tian's veins.

Li Tian only felt that his veins seemed to be forced through at this moment, and Li Tian felt that his whole veins were about to be broken.

Because of this situation, Li Tian could clearly feel his body as if congested, and the swelling pain instantly swept Li Tian's body.

And that "Red Zhan" turned like a bug in this second, continuously drilling into Li Tian's arm.

Almost instantly, dozens of blood holes appeared on Li Tian's arm.

The blood kept flowing out of these wounds, but the blood seemed to be sticking to Li Tian's body. Not a single drop dripped, but it ran quickly along Li Tian's skin.

"Li, what...what is this?" Situ Ningbing's mouth grew somewhat surprised when he looked at Li Tian.

"Huh!"

"Huh!"

Li Tian was panting heavily.

In these few seconds, Li Tian felt painful at first, but after these few seconds, Li Tian felt unspeakably comfortable.

At this moment, Li Tian felt a warm feeling all over his body.

Moreover, a powerful force flooded Li Tian's body.

Li Tian looked down at his arm and found that there was an extra layer of skin on his arm. This was a layer of reddish skin. Between this skin and the original skin on Li Tian's body, there was a layer that looked like fat. Li Tian can feel that this layer of skin seems to have some feeling with his body.

But at this moment, Li Tian suddenly saw a figure with a wheel cover on his body. This figure was the sword spirit of "Red Slash".

In other words, in the current state of Li Tian, the outermost part of Li Tian's body is the "Red Slash" sword spirit, and within the sword spirit, there is a layer of armor like skin, and in this armor and Li Tian There is another layer of fat-like substance in the center of his body.

Situ Ningbing looked at Li Tian in surprise.

Situ Ningbing couldn't see clearly the sword spirit outside Li Tian's body, but Situ Ningbing could see a huge black shadow.

And within this shadow, there is Li Tian with red skin, like a ghost.

"call!"

Li Tian let out a sigh of relief, beckoned to Situ Ningbing, and said, "Ningbing, attack me!"

Situ Ningbing was taken aback, and then immediately understood.

Situ Ningbing didn't even greet him, and he flipped out the Butcher Knife and Butcher God, and instantly produced the strongest killer move in the hermit killing technique.

"Huh!"

Chapter 3875: Qingyun Qi Jue

The sword spirit of the butcher ***** awakened, and a powerful force fed back to Situ Ningbing.

Situ Ningbing only felt that at this moment she had a feeling of a ***** descending to the earth.

At this moment, not to mention that Situ Ningbing was facing Li Tian, even if the three corpses were true gods, Situ Ningbing felt that she had the power to fight.

The joy on Situ Ningbing's face completely disappeared, and it was replaced by coldness.

The cold Situ Ningbing, the cold butcher knife but the god.

It seemed that for a moment, the air in the entire Kitten Island dropped a bit.

Situ Ningbing slowly raised the butcher knife and Tushen in front of him, and then pointed at Li Tian.

While Situ Ningbing was brandishing this butchering knife lightly, Li Tian and others saw that there seemed to be patches of crystal clear snowflakes in front of Situ Ningbing.

Because the temperature at this time was basically more than 20 degrees, the snowflake disappeared in a flash, but Li Tian and others felt the change in Situ Ningbing.

"It is worthy of being the butchering god, who has such a powerful power. But I don't know which of the current butchering knife and red sword is stronger!" Li Tian thought in his heart.

In the distance, Tang Xiaolong, Ouyang Shiqing, Xue Ji, Ouyang Man and the others and the zombies were completely attracted by the changes in Situ Ningbing and Li Tian.

Especially Ouyang Man, this guy couldn't suppress the warlike thoughts in his heart.

Silly Man'er put the epee in both hands and pressed the epee desperately to the ground.

But in an instant, a series of red runes appeared on the reconstruction that this silly man's hand was pestering. This rune continued to emerge from the ground on the epee, and was suppressed by the silly man.

So repeatedly.

At this time, a large area of the white sand had turned into a charred black because it could not withstand the hot temperature.

But Silly Man'er, a super-zombie that was more than ordinary, his breathing became heavy.

"war!"

"No fight!"

"war!"

"No fight!"

Silly Man'er's mouth kept repeating these two words, but the expression on his face became more and more zombie, and both pupils turned red uncontrollably.

"Silly man, I, Tang Xiaolong, will fight you!" Tang Xiaolong shouted, jumped out, and said to Ouyang Man.

Tang Xiaolong's body was dark, and he was only wearing shorts at this time. After jumping out, he immediately performed ten refining.

As Tang Xiaolong began to perform ten-fold refining, Tang Xiaolong's body immediately turned into a black metal-like texture.

The silly man's face showed a sneer when he saw Tang Xiaolong jump out.

Even if Silly Man'er became a zombie, he still remembered Tang Xiaolong.

However, Tang Xiaolong is no longer the target of Silly Man'er, and the target of Silly Man'er is Li Tian.

"it is good!"

Then Ouyang Man was already moving when he said this good word.

Ouyang abandoned his sword and walked out, wearing heavy armor but not being affected at all. His body wanted a flash of silver lightning and rushed towards Tang Xiaolong.

The most powerful thing about silly man's is power, the power he gave birth to that day.

Therefore, the silly man shook Tang Xiaolong's head without hesitation.

And Tang Xiaolong's strongest at this time is also power.

With ten heavy refining, Tang Xiaolong's punch strength has already exceeded ten thousand catties, and he is hitting a force of twenty thousand catties.

Seeing Ouyangman's fist, Tang Xiaolong showed a sneer at the corner of his mouth. On one side of his body, he swung an iron fist to meet Ouyangman's fist.

"boom!"

With a loud noise, Ouyang Man and Tang Xiaolong both retreated at the same time, and their bodies left a long trace on the beach.

...

On the other side, Li Tian was still facing Situ Ningbing.

"Ningbing, you have become stronger! It seems that this butcher knife and ***** slaughter is indeed not worthy of a name!"

"Really? But I feel that Li, you are not so unattainable! Now, Li, are you ready?"

Before Li Tian had time to say that he was ready, or was not ready, Situ Ningbing had already rushed over like a violent wind.

With a wave of the butcher knife in Situ Ningbing's hand, but a few snowflakes flashed in the air.

The snowflakes disappeared in a flash, but a chill radiated from Situ Ningbing's body and flew directly to Li Tian.

Li Tian didn't make any evasion, the chill pierced the "Red Zhan" sword spirit, and landed on Li Tian's crimson armor.

Li Tian saw a small piece of ice appearing on his crimson armor, and couldn't help but shudder, and said, "It's cold!"

At this time, Situ Ningbing's butcher knife butcher ***** had already pierced the black shadow of the blade spirit on Li Tian's body.

Li Tian felt it for the first time, and then Li Tian suddenly raised his right fist and threw a heavy punch at the back of the butcher knife.

"Broken Soul Fist!"

"boom!"

There was a loud noise, and Li Tian flew out all over his body with this strong punch.

Looking at Situ Ningbing again, after being hit by the soul-breaking fist, the butcher butcher ***** just sank to the ground. When he was about to fall on the ground, the butcher butcher ***** bounced again.

At this time, Situ Ningbing used the hermit killing technique like a ghost, staring at Li Tian, Tudao Tushen constantly stabs the "red sword" spirit.

"Huh!"

"Huh!"

"Huh!"

Three times in a row, this one is more dangerous.

In the first shot, the butcher was a black shadow that pierced the spirit of the sword. In the second shot, the butcher was not too far away from Li Tian's crimson armor. In the third shot, the butcher had already pierced Li. The armor of the sky.

"Chang!"

Sparks flew everywhere, and a circle of white frost immediately appeared on the red armor.

Li Tian's legs were on the beach a little, and his body abruptly moved backwards. At the moment of retreating, Li Tian threw out two consecutive punches again.

This punch hit the Slaughter Sword God, shaking Situ Ningbing, but the other punch hit the ground.

"boom!"

In front of Li Tian and Situ Ningbing, a sandpit with a diameter of more than two or three meters appeared immediately.

Situ Ningbing could see that the black shadow that enveloped Li Tian's body became heavier and heavier, as if it was about to become a substance.

As the black shadow became more and more substantial, Situ Ningbing seemed to have pulled away a layer of smoke, and finally saw the original face of the black shadow clearly.

It is the sword spirit of "Red Slash".

A monster with two sides and four arms!

Just like the sculptures in the temple, looking at this sword spirit, Situ Ningbing felt a faint feeling of anxiety in her heart.

At this moment, Situ Ningbing suddenly saw a few words flashing across Li Tian's body!

The flashing way of these words is similar to those runes on Ouyang Man, but it is different.

These words flashed past, but the sharp-eyed Situ Ningbing could still see clearly.

"Qingyun Qi Jue? What...what is this?"

Chapter 3876: Qingyun Qi Jue (2)

Situ Ningbing saw these words on Li Tian's body, but he didn't even react for a while.

How could words suddenly appear on this person's body?

But soon, Situ Ningbing saw the characters on Ouyang Man, and everything understood.

Situ Ningbing's frosty face immediately showed a smile.

Situ Ningbing didn't care to feel the change of the butcher knife and butcher god, took the butcher knife and butcher god, and said to Li Tian: "Li, when did you learn the Qingyun Qi Jue?"

"Qingyun Qi Jue?"

Li Tian was confused.

Situ Ningbing pointed at Li Tian's body.

Li Tian bowed his head and saw two strange words flashing across his body.

"I know this text!"

"I've seen this text, it's the text on the bronze furnace!"

Li Tian said with an excited expression on his face.

That's right, seeing these two flashing texts, Li Tian immediately thought of the text in his palm burned by the bronze furnace.

"Lee, please feel it right now, feel the changes in your body, and see if there are other words in your body! I guess the words on the bronze stove appear in your body for some reason Now!" Situ Ningbing said.

Li Tian immediately yelled softly: "Solve", let his body return to normal state, and then sent "Red Slash" to the space of Void Yasha, and directly sat on the beach by the sea.

Li Tian closed his eyes and felt his body with his mind.

The breeze was blowing from the sea, and Li Tianneng asked about the faint smell of sea water, but he didn't know if it was because Li Tian was not focused enough, or for other reasons, Li Tian simply couldn't show the words in his body.

"call!"

Li Tian let out a long breath.

This text seemed to be deliberately avoiding Li Tian's glance, and it flashed out when Li Tian was unconscious, but when Li Tian was paying attention, the text disappeared without a trace.

However, Li Tian knew that the text had entered his body, and he could not worry. The reason why he couldn't see the text now was because the method was wrong.

"Do you want to be happy? See these words through the eyes of your heart?" Li Tian thought in his heart.

Li Tian immediately controlled the nine-color corpse crystal in his heart with his mind, opening his mind completely.

Mindful!

After this happy eye, Li Tian could see some things he could not see before, such as those energy substances that he could see when he was in the ancient city under the sea, such as the virtual spirit tribe. After coming out of the ancient city under the sea, Li Tian can always In this air, some substances that existed like silk threads were seen, and these substances were the energy source in the heaven and the earth.

But after happy eyes, Li Tianxian, under normal circumstances, his body energy will be lost faster. This feeling is like when playing a game, a character turns on a certain aura, and then keeps burning anger, energy, blue ,Chakra.....

So after Li Tian boarded the Kitten Island and let the Xuanling Race build the Kitten Island, he let the Xuanling Race play by himself, and then Li Tian shut his mind.

What needs to be explained here is that this Void Spirit Race is a strange ***** race. When they came out of the ancient city under the sea, the Void Spirit Race swallowed each other and became a Void Spirit Race, but they were building this small At the time of Cat Island, the imaginary spirit race was divided into two and two into four, just like the cell division, and became more than thirty imaginary spirit races.

Opening his mind, Li Tian controlled the nine-color corpse crystal with his mind, and countless transparent silk threads were released from the new house, and then, like Li Tian's eyes, kept rushing into the veins in Li Tian's body.

"It turns out that you are hiding here!"

Just out of the heart's veins, in his dantian, Li Tian actually saw the words on the complete bronze furnace.

Of course, these words appear here, Li Tian still can't recognize half a word!

"How can this be good? These words are now in my dantian and context. How can I let Ningbing see them? If Ningbing can't see these words, I might as well know them. This "Qingyun Qi Jue" does not Is it useless?" Li Tian thought anxiously.

Situ Ningbing saw the slight change in the expression on Li Tian's face, guessing that Li Tian should have gained something, and asked Li Tian, "Li, if you find these words, you can write them for me!"

"Yes, it's really clever instead of being mistaken by cleverness. I even forgot the simplest way!"

Li Tian continued to close his eyes and flipped it with his hands. He turned "Red Slash" out of the space of the Void Yaksha, and then controlled "Red Slash" with his mind, using the Qi sword technique, and began to trace his veins on the beach. And all the words in the Dantian are written out.

"Huh!"

"Huh!"

Once those words are written by Li Tian, there will be one less words in Li Tian's context.

Fortunately, although Li Tian didn't recognize these words, he could write them out completely. In this way, Situ Ningbing would naturally recognize them.

There are not many words, and it is only a hundred words.

After Situ Ningbing read all these words, like Li Tian, he closed his eyes, sat beside Li Tian, and began to think about these words seriously.

Words and articles are two concepts, just like "Xinhua Dictionary" and "Dou Po Cangqiong". If these words cannot be effectively organized, these words can be said to have no value at all.

If Li Tian had taken Situ Ningbing to the ancient city under the sea, then there would be no such problem.

Situ Ningbing frowned slightly and began to quickly arrange and combine these words in his brain.

At this time, all the text in Li Tian's body had disappeared, and Li Tian squatted anxiously beside Situ Ningbing.

On the other side, Tang Xiaolong and Ouyang Man also stopped fighting.

In this outside battle, Ouyang Man did not use the forbidden technique, and fought with Tang Xiaolong on a par.

At this time, these two goods were also curiously surrounding Li Tian, watching the expression on Situ Ningbing's face change.

"Boss, what was your move just now? How did I see that there seems to be a Shura wheel outside your body, and what's the matter with that red skin on your body? It feels very tall and tall." Tang Xiaolong said.

Those words have disappeared, and Li Tian's heart was more concerned about "Qingyun Qi Jue", so he gave Tang Xiaolong a few words at will. But at this moment, Situ Ningbing suddenly opened his eyes, and there was an excited expression in his eyes.

"Li, I really didn't expect this "Qing Yun Qi Jue" to be the fourth layer of "Qing Yun", and the fourth layer of "Qing Yun" is no longer a simple cultivation method, but a powerful attacking mind. Fa. If you cultivate this "Blue Cloud Qi Jue", your strength must be greatly increased!"

Chapter 3877: Qingyun Qi Jue (3)

Li Tian was overjoyed.

Li Tian had already cultivated Qingyun's first and second layers, and every time he practiced one layer, Li Tian's strength would be greatly improved.

Now, Li Tian's cultivation has entered a bottleneck period. If there are no other opportunities, Li Tian's cultivation may not be able to continue to improve in a short time.

"Ningbing, I haven't practiced on the third layer of Qingyun, I don't know if I can practice the fourth layer?" Li Tian said while looking at Situ Ningbing.

Situ Ningbing shook his head slightly, then nodded again, and said, "Li, you can now cultivate the fourth layer of Qingyun."

"But, as said in the first layer of Qingyun, Qingyun cultivates one layer after another. Cultivating Qingyun is like climbing the sky to see the scenery. Only by walking up step by step can you see the most complete scenery in the nine heavens. You have not yet cultivated the third level. If you cultivate this fourth level now, this fourth level is like a castle in the air. Although it looks good, it may not be solid. I am afraid that by then, you will be more powerful in cultivating the fourth level of Qingyun. discount!"

Li Tian frowned slightly, but this kind of reaction lasted less than half a second.

"I want to practice!" Li Tian said.

These four characters, although not decorated with gorgeous language, truly reflected Li Tian's eager mood.

That's right, Li Tian's luck is very good now. In just half a year, Li Tian encountered four Xiaoyachas and received the first, second and fourth layers of Qingyun in his hands, but Li Tian is not sure when he will find this third floor.

It may be found soon, but it may not be found for a lifetime. And even if Li Tian could find the third layer by then, it didn't seem to have that great influence on the fourth layer of cultivation.

For example, Li Tian can still cultivate the first two layers of Qingyun, and every time Li Tian cultivates, he always has some new feelings.

Li Tian believed that even if he had cultivated the fourth level, he might have some impact when he turned around to cultivate the third level, but it would definitely not have that big impact.

That being the case, why not catch it.

Situ Ningbing looked at Li Tian's eyes and stopped persuading Li Tian.

"We have two days left on this kitten island. We will use these two days to study the fourth layer of Qingyun for you, and then we can only rely on you to practice!" Situ Ningbing said .

"Good!" Li Tian said excitedly.

In the next two days, Li Tian and Situ Ningbing began to practice asceticism in the mountain buildings on Cat Island.

In the past two days, Li Tian and Situ Ningbing were completely immersed in this Qingyun Qi Secret Art. Situ Ningbing was originally an explainer to Li Tian, but the more he explained, the more Situ Ningbing felt this. Qingyun Qi Jue is not simple.

There are dozens of changes in this short one hundred words, so there are dozens of possibilities for cultivating this Qingyun Qi Jue!

This practice of Qingyun Qi Jue is like climbing a mountain. There are many roads in front of you. You can make any choice. Because of the different choices, the scenery you will see will be completely different.

After Situ Ningbing explained the dozens of changes to Li Tian, Situ Ningbing couldn't help but want to practice.

Situ Ningbing tried it. She now has no conflict between practicing this Qingyun Qi Jue and hermit killing technique, and even practicing this Qingyun Qi Jue is helpful for hermit killing technique. It feels like going to school. When you learned mathematics, you found that mathematics is helpful to both physics and chemistry.

At this time, Li Tian was completely silent in this Qingyun Qi Jue.

Li Tian felt the qi in his body, which was moving with Li Tian's veins.

This qi had already appeared when he was cultivating the first and second layers of Qingyun.

It is precisely because of the existence of this energy that the power of Li Tian's Xuantian Fingering, Broken Soul Palm, and Broken Soul Fist can increase after practicing Qingyun.

But now after practicing the Qingyun Qi Jue, this Qi seems to have come to life. It is no longer rigidly moving with Li Tian's exercises, but like a small fish, in Li Tian's context. Midstream.

Situ Ningbing's explanation of Qingyun Qi Jue continuously echoed in Li Tian's ears.

"Dozens of changes... Dozens of roads appear in front of me... I have one mind and three purposes. Can I choose three paths at the same time?"

The intermittent thoughts flashed through Li Tian's mind, but this thought directly made Li Tian's mind feel a sense of openness.

"Since I can do three things with one mind, why can't I walk three paths at the same time with my mind? If this is the case, wouldn't I be able to see three different landscapes?"

Thinking of this, Li Tian suddenly realized that the qi in his vein had been divided into three qi groups!

No, three little fishes to be precise!

One of the three small fish continued to swim in the same way as before, while the other two fishes turned around and swam in other directions, and then swam in other directions at the intersection of the other vein.

In Li Tian's body, three line patterns that walked with this innocent little fish immediately appeared.

The three patterns are completely different in size and shape, but if Li Tian can paint these three patterns on the ground, then Li Tian will see at a glance that these three patterns are actually three different plant leaves.

The leaves of the first plant are the size of a fan, the second leaf is the size of a fist, and the third leaf is only the size of a little finger.

The three small fishes swim according to these patterns, and they swim continuously.

Every time the little fish swims around, the fish's size seems to be a little bigger, but if you look carefully, it seems that the little fish has not changed at all, but Li Tian knows that this little fish's body size is getting bigger.

Every time this little fish swims, the pattern becomes clearer and a little bit more clearly. Like the little fish's body shape, the pattern doesn't seem to change much, but the more Li Tian can feel the group's clarity.

Time flies, and these two days have passed in no time.

In the past two days, the three small fishes in Li Tian's veins are only bigger than the size of the little finger, but the pattern is clearer. It seems that the whole leaf meridian can be seen.

"Little boss, little boss! Captain Liu asked when you can leave?" Tang Xiaolong's voice sounded outside.

"call!"

Li Tian let out a breath.

"Appear in!"

Chapter 3878: Sister Ningbing

It is about two thousand kilometers from Cat Island to Dongying Island. Even if the Cangshan ship travels at full speed, it will take more than 20 hours.

This is another day and night.

Li Tian took the time to practice for another day.

Now Li Tian's cultivation of Qingyun Qi Jue has reached the realm of being familiar with the road. In this day's time, Li Tian's cultivation level has improved more than the past two days. In Li Tian's body, except for three small In addition to the fish, there were seven or eight small tadpoles the size of small rice grains. After these small tadpoles appeared, they also wandered through Li Tian's veins on different routes.

At this time, even if Li Tian didn't deliberately control these little fishes and tadpoles, these little guys would keep walking in the veins.

While Li Tian was practicing, Situ Ningbing was also practicing in her room.

However, up to now, there is only one small fish in Situ Ningbing's body, and this small fish has only one pattern in her veins.

The small fish in Situ Ningbing's body is much smaller than any small fish in Li Tian's body, but the pattern that Situ Ningbing's little fish walks through in her veins is larger than Li Tian's cat fan The pattern is bigger.

And the pattern in Situ Ningbing's body seemed to be clearer.

Suddenly, Situ Ningbing felt that the little fish seemed to start to get excited, and quickly swam through her body more than nine times. After that, the little fish moved from Situ Ningbing completely uncontrollably. Rushed out of the veins of his right hand.

"boom!"

A strong air current flew out of Situ Ningbing's hand, and then changed into a white lotus flower floating in Situ Ningbing's palm.

"Is this to the top of the mountain? So this is the scenery that Qingyun Qi Jue saw after reaching the summit?" Situ Ningbing's pupils were fully enlarged, with a shocked expression on his face, he swallowed involuntarily and said to himself Language.

Situ Ningbing slowly raised her hand and looked at the lifelike lotus flower in front of him.

"Boo!"

Situ Ningbing actually saw several arcs on the lotus petals. Although the arcs flashed past, this also confirmed Situ Ningbing's judgment.

"This is definitely not an ordinary lotus flower, there is such a powerful force on it!" Situ Ningbing said to himself.

"But how should this lotus flower be displayed? This Qingyun Qi Jue only tells us to climb mountains and see the scenery, but it doesn't tell us where to go after climbing to the top of the mountain?"

"Just like the lotus in this hand, I can feel the powerful power contained in this lotus, but I don't know how to use it! Is it just to throw this lotus out?" Situ Ningbing thought in her heart.

Thinking of this, Situ Ningbing Situ controlled the lotus with his mind.

When Situ Ningbing's mind touched the lotus, he immediately resonated with the lotus.

Situ Ningbing's mind was certain, and he threw the lotus forward forcefully, and the lotus flew forward with Situ Ningbing's mind.

This feeling is like Li Tian's Qi Yujian, the difference is that Situ Ningbing controls the lotus flower, while Li Tian uses the Qi Yujian to control the sword!

The lotus flower flew around in the room surrounding Situ Ningbing, and then slowly floated into Situ Ningbing's hands.

Situ Ningbing especially wanted to test the strength of this lotus flower, but now Situ Ningbing was in this warship and there was no way to test it.

But at this moment, Li Tian pushed the door and entered the room where Situ Ningbing was sitting.

Seeing the lotus flower in Situ Ningbing's hand, Li Tian's face immediately showed a shocked expression.

"Ningbing, this...what is going on with this lotus?" Li Tian asked.

Seeing Li Tian, Situ Ningbing immediately smiled and said to Li Tian: "Li, this is the Qingyun Qi Jue. It took me only three days to cultivate this thing. Now, we use Qingyun Qi Jue. Right to Qingyun Qi Jue?"

Li Tian said with some embarrassment: "My Qingyun Qi Jue has not been successfully practiced yet!"

When Situ Ningbing heard Li Tian's words, there was such a small smug in his heart.

Everyone knew that Li Tian was a genius in cultivation, and now Situ Ningbing was able to reach the top faster than Li Tian when he was practicing Qingyun Qi Jue. Of course, Situ Ningbing was happy.

But while happy, Situ Ningbing said to Li Tian again: "Li, have you encountered any problems in your cultivation? If you encounter any problems, you call me a good sister. Maybe I am happy, you can Give you some pointers!"

Li Tian's expression became even more embarrassing.

After a few seconds, Li Tianca spoke to Situ Ningbing with a faint mosquito noise: "Sister, give me some pointers!"

Situ Ningbing's face immediately showed the winner's smile, and he controlled the lotus flower with his mind to fly out, and then said to Li Tian: "When you are cultivating the first two layers of Qingyun, you should have appeared in your body. An air current, like a small fish-like air current, this Qingyun Qi tactic is the tactic to guide this air current in the body according to a certain law."

"Although there are dozens of changes in this Qingyun Qi Art, but different paths lead to the same goal. In the end, it is just like the lotus flower in my hand. Of energy to fight!"

"Li, can you feel the little fish in your body swimming in the veins now?" Situ Ningbing asked.

"A little fish? How could it be a little fish? Now there are one, two, three in my body..." Li Tian seemed to be counting, and finally another Situ popped out of his mouth. A number that Ningbing couldn't believe: Seventeen.

"What? You... You said that there are 17 small fishes in your body now? This... how is this possible? Why was there only one small fish when I practiced Qingyun Qi Jue?" Situ Ningbing was just as proud It only lasted a minute, and was completely defeated by Li Tian's perverted talent.

No wonder Li Tian would lose to her by practicing Qingyun Qi Jue. It turns out that Li Tian is now walking the dozens of climbing paths!

But at this moment, Li Tian's face suddenly showed a bit of pain.

In Li Tian's body veins, a small fish suddenly appeared out of thin air.

This Li Tian's context is like a small stream, a trickling stream. The stream could only accommodate a few small fishes, but suddenly now the number of small fishes is increasing sharply, Li Tian immediately felt. By the time this creek became so narrow and crowded, although these little fishes walked in their own veins, it was inevitable that they would overlap each other. When these little fishes overlapped, Li Tian suddenly I feel a bit uncomfortable in the context.

"Ningbing, one more fish has been added to my body!"

Chapter 3879: Arrived in West Jiuzhou

Situ Ningbing no longer knew how to describe the monster Li Tian. .,

Seventeen little fishes, no, it should be eighteen little fishes now. Does that mean that if Li Tian's Qingyun Qi Art is cultivated to the extreme, there will be at least 18 changes?

The lotus that Situ Ningbing controlled in front of Li Tian could not help but faded and withered, the lotus disappeared in a few seconds.

As soon as the lotus flower disappeared, the little fish in Situ Ningbing's body veins appeared again.

"Boom!"

Tang Xiaolong patted the door and walked in, with some excitement on his face and said to Li Tian: "Little boss, you can already see the land, we are about to arrive at West Kyushu Island! The four islands of Dongying, here we are!"

"Finally, we have arrived at the Dongying island country! Let's go up and see the scenery of this Dongying island country!" Li Tian said.

When Li Tian took Situ Ningbing and Tang Xiaolong onto the Cangshan splint, the front end of the splint was already crowded with people.

Duanmu Ying, Xue Ji, Bai Jing, Tang Feifei, etc. all looked at the land and cities that appeared in the blue water and blue sky in the distance.

Liu Guoqing also had an excited expression on his face. He strode forward to Li Tian, saluting Li Tian, and said loudly: "Report to Master Li Tian, now we have arrived in West Jiuzhou, and the nearest to us is Ruhr. Dao County, Lord Li Tian, please give instructions!"

Before coming to Dongying Island, Li Tian did not learn the language of the island country, but he did some homework.

Li Tian knows that this Dongying island country is composed of the four large islands of West Kyushu, Southern Shikoku, North Island, and Central Honshu, and more than 7,200 small islands. West Kyushu is located in the southwest of Dongying Island and is the country's No. The three major islands, before the end of the world, were the powerhouses of the electronics industry in Dongying Island, and they were also called silicon islands.

At this time, the Cangshan ship had arrived at the southernmost county in West Jiuzhou, named Ruhrdao County. This Ruhr County is a large city with a population of nearly two million.

Any large city with a population of more than one million will be an area where high-level zombies gather. According to Li Tian's calculation, in a city with a population of two million, ninth-level zombies should have become the mainstream.

However, the ninth-level zombies now pose no danger to Li Tian and others.

"Captain Liu, why should I see outsiders? You are the highest officer on this warship, and you are a professional in navigation. Please let Captain Liu decide for yourself!" Li Tian said.

From leaving Cangshan Port to Dongying Island, Li Tian only asked Liu Guoqiang to detour to Cat Island. Other Li Tian had no requirements on Liu Guoqiang, let alone the instructions Liu Guoqiang said.

But since Liu Guoqiang saw the changes in Cat Island, Liu Guoqiang decided to follow Li Tian desperately.

For Li Tian's answer, Liu Guoqiang nodded slightly, and Liu Guoqiang was grateful for Li Tian's recognition.

Liu Guoqiang knew that Li Tian's goal was the entire four islands of the East.

Therefore, Liu Guoqiang said: "Master Li Tian, we will first land on Ruhr Island, and then replenish some energy and food on Ruhr Island. At that time, we can have two choices. The first is to take the Cangshan ship along the coastline. To destroy several coastal cities in West Jiuzhou one by one. The advantage of this method is speed. Of course, for our brothers on the Cangshan ship, their safety can also be guaranteed because of the presence of Lord Li Tian."

"The second way is to land on Ruhr Island, and then Master Li Tian leads people to advance from the interior of the island..."

Li Tian waited until Liu Guoqiang had finished speaking before he said: "Captain Liu, the land area of this Dongying island country is less than 38,000 square kilometers, and it is only the area of two provinces in our country. This West Jiuzhou is even more of a bullet. We only need to hold a few key cities in this West Jiuzhou in our hands. As for other small places, no matter how many zombies are, they can't beat the waves! Our focus is on the middle Honshu! Key cities such as Tokyo, Tsubasa, and Kosaka!"

Liu Guoqiang nodded and said, "Understood!"

Then Li Tian began to divide labor again!

This Cangshan ship must be guarded by someone. Of course, this task is entrusted to Tang Xiaolong and the mysterious female Lily. Now in the whole team, Li Tian is definitely the strongest one, and after Li Tian, Tang Xiaolong, Ouyang Man, and Situ The strength of Ningbing and the others was almost close, and Li Tian was relieved when he left the matter of guarding the warship to Tang Xiaolong.

And let Ouyang Shiqing take Ouyang Man, Xiao Tianyi and Liu Guoqiang with them, they need to supplement the supplies on Ruhr Island, and the safety of these people should be no problem.

Finally, there is the strongest team, Li Tian, Situ Ningbing, Duanmuying, Windsor, Kobi, Shen Tao, etc.

Through a few landing craft, Li Tian and others, a total of nearly a hundred people came to Ruhr Island County.

"Now, we still don't know anything about Ruhr Island County. I will take people to touch the town of Ruhr Island as soon as possible, and clean up the zombies here. Then I will control a group of high-level zombies for me. Come to take charge of this place, but before that, all of you must rush back to the warship before sunset!" Li Tian said.

The others nodded immediately, and fully complied with Li Tian's orders.

Then the soldiers divided into two directions and drove directly into the Ruhr Island.

The administrative division of Dongying Island Country is divided into cities, provinces, prefectures, and counties, which are parallel first-level administrations, and below this are cities, towns, and villages.

Landing from Ruhr Island Prefecture, the first place Li Tian and others entered was Minami Kyushu!

This so-called city is not the same concept as the city of China. Take Minami Kyushu for example, it has four towns under its jurisdiction, that is, four townships, and the population before the end of the world is less than 50,000, which is similar to a county in China.

After Li Tian and others entered this southern Kyushu city, the most advanced zombies they encountered were only Grade 6 or 7 zombies. These zombies didn't need Li Tian to do anything, and Gao Bi and Shen Tao were completely resolved!

"Brother Tian, have you noticed that there are very few zombies in South Kyushu?" Windsor said to Li Tian.

"That's because it's daytime, so naturally there are fewer zombies! I'm saying that this is a small place, and it's not a big place like Tokyo!" Gao Bi said first.

This is exactly what Li Tian had in mind.

At this moment, Situ Ningbing stopped suddenly, and the butcher knife in his hand was already on her chest.

"Li, Windsor is right. I feel as if something is following us. Keep going and leave me alone!" Situ Ningbing said.

Speaking that Situ Ningbing had suddenly performed the hermit killing technique, a few flashes of her figure disappeared into the sight of everyone.

But at this moment, there was a sudden burst of gunfire in the distance.

"It's Liu Guoqiang and the others!" Li Tian said.

Chapter 3880: Deja vu

"Flying Yasha, fly me into the air, and see what happened to Liu Guoqiang?" Li Tian said to the mutant crow in his heart.

Immediately, a black shadow the size of a palm flew out of Li Tian, it was Feitian Yasha.

This Feitian Yasha flew into the air, and Li Tian immediately had Feitian Yasha's eyesight.

Li Tian and the others were not very far away from the gunshot, that is, they were only two blocks apart.

In front of a street composed of low buildings, Liu Guoqiang and others were surrounded by dozens of zombies. At this time, 17 or 8 zombies had fallen in front of Liu Guoqiang and others. However, the remaining dozens The zombies didn't mean to be afraid at all, and they continued to surround Liu Guoqiang and others slowly.

The level of these zombies is only four or five, and they don't fully have the meaning of human beings. If these zombies can rush past, the Jedi will cause damage to Liu Guoqiang and others.

However, don't forget that Liu Guoqiang and others still have Xiao Tianyi and Ouyang Man beside them!

At this time, Ouyang Man was wearing armor and carrying an epee, standing in front of everyone if nothing had happened. For these low-level zombies, Ouyang Man was also a zombie with others, but he couldn't give any energy.

"Xiao Tianyi, come out and dispose of these scumbags, don't let these strays affect the time we return to the warship!" Ouyang Shiqing said to Xiao Tianyi.

Xiao Tianyi was also not interested, but when he heard Ouyang Shiqing's words, this Xiaozhengtai still showed a smile at Ouyang Shiqing.

"Mother Shiqing, just take a good look!"

With that, Xiao Tianyi slowly walked out from behind Liu Guoqiang and the others. Following Xiao Tianyi was the mutant bat that fell behind Xiao Tianyi.

Xiao Tianyi yawned, then suddenly grabbed the mutant bat, threw it into the air, and jumped directly onto the back of the mutant bat.

Xiao Tianyi already possesses the strength of the fourteenth-level zombies. Above the level, it absolutely suppresses the low-level zombies in front of him. It can be said that these zombies can be pricked to death with one finger.

Coupled with the mobility of the mutant bat, Xiao Tianyi's strength has been improved again.

Then these surrounding zombies completely became live targets, but in less than two minutes, they were killed by Xiao Tianyi nine out of ten, and the remaining zombies were also shot by the soldiers around Liu Guoqiang. Killed.

"Mother Shiqing, isn't Xiao Tianyi amazing? Please hug!" Xiao Tianyi jumped off the mutant bat and said coquettishly to Ouyang Shiqing.

Seeing this scene, Li Tian was completely relieved.

But at this moment, Li Tian suddenly discovered that about three or four streets away from where Li Tian and others were, there was a building that looked very familiar in the relatively prosperous downtown of South Kyushu. At first glance, this building was built later, and it seems to be incompatible with the original building in Minami Kyushu.

"Where did you see this building! But why can't I remember it?" Li Tian thought to himself.

This building is a bit like an ancient Egyptian pyramid, but it is not exactly the same.

By the way, it feels more like a Mayan pyramid.

Although these buildings were built later, some moss or weeds have grown on the steps. And the surroundings of this building are bare and there is no weeds at all. Even in the last days, it seems that some people are cleaning them deliberately, and it looks clean.

"Feitian Yasha, you continue to fly to the building, I saw that there seems to be some other things on the top of the building!" Li Tian said to Feitian Yasha through his mind.

The Feitian Yasha immediately flew to the building, but within a few seconds, the Feitian Yasha directly landed on the building.

On the top of this building is a stone platform, and on top of this platform, there is a shrine.

And a stone-carved figure enshrined in this shrine.

Since it seems that no one has walked on the building for a long time, there are still some bird droppings on the shrine.

"Is this the ***** of the Dongying Island Kingdom? Why does the statue of this ***** look like a dwarf, and I don't know if the carving failed or it was like this, it looks really ugly!" Li Tian thought to himself.

But at this moment, a sharp sound suddenly rang out over this southern Kyushu city.

This sound seemed to be a whistle, but Li Tian knew that the sound of a whistle would not be so loud.

With the sound of this sound, the flying crow immediately flew up and hovered over the building.

Through Feitian Yasha's eyes, Li Tian saw that the doors of all the buildings in the entire South Kyushu City were pushed open. Countless zombies came out of these houses and quickly walked onto the street. Then these zombies Just walking in the direction of the building like a corpse.

In almost an instant, Li Tian and others were surrounded by zombies!

These zombies seemed to completely ignore Li Tian and others, with ragged clothes, expressionless faces and no fear of the sun, and walked forward slowly.

"This... so many zombies? It's almost time to catch up with the zombies of the corpse tide! There are so many zombies in this small South Kyushu city? The number of zombies is estimated to have exceeded forty to fifty thousand. Didn't these zombies swallow each other in Southern Kyushu after the end of the world? Otherwise, how could there be so many zombies?" Li Tian thought suspiciously.

After the zombies rushed to the front of the building, they actually fell to their knees and crawled on the ground, gurgling some bird words in their mouths.

A familiar scene flashed in Li Tian's mind.

"Windsor, Windsor! Look at that building..."

Li Tian said half a sentence, only then did he remember that Windsor still couldn't see the building.

Li Tian immediately summoned the mutant crow from the space of the Void Yasha, and then stretched out his hand to jump on the back of the mutant crow while holding Windsor.

"Windsor, look at the building, do you have a feeling of deja vu?" Li Tian asked.

After seeing this building, Windsor immediately showed a surprised expression on his face, and said several words in succession: "Heaven... God! Great Southwest! Guixi Province! The country of corpses!"

Li Tian suddenly remembered it completely.

That's right, the shape of this building is almost exactly the same as those that Li Tian saw when he went to save Ouyang Shiqing.

The only difference is that the materials used to construct these buildings are different.

These zombies actually came to this building to worship!

But, who is enshrined in that shrine?

Could it be the Three Corpses?

At this moment, a sharp and tactful whistle sound came from the sky above South Kyushu City. Then, the expressionless zombie suddenly went mad and rushed towards Li Tian and the others.
