

A Killer 3901

Chapter 3901: Twenty-two small fish

That night, Li Tian and others entered Ruhr Island City in Ruhr Island County.

Unlike Fukuoka Prefecture, there are hardly many humans here. After entering the city, Li Tian saw zombies wandering all over the streets of the city.

After seeing these zombies, Xiao Tianyi was extremely excited.

And those low-level zombies with no brains saw numerous humans suddenly appear, and immediately rushed over with their teeth and claws, trying to attack Li Tian and others. But before they rushed over, they were beheaded by the "Red Slash" controlled by Li Tian.

"Is the largest human gathering place in West Kyushu Island in Fukuoka Prefecture? Is there no human base in Ruhr Island?" Li Tian asked.

Kazama Ginbei nodded and said: "Back to Master Li Tian, the total population of West Jiuzhou Island before the end of the world was only over 13 million. These ten cities have become zombies, and only a few people escaped. With the luck of survival in the deep mountains, coupled with the three-year zombies slaughter in the last days, the total number of humans on West Jiuzhou Island is now only a few hundred thousand. Most of these humans live in Fukuoka Prefecture. As for the rest, they are Most of them live in Wulu Mountain."

"Where is Ruhr Island?" Li Tian continued to ask.

"This Ruhr Island County also has it, but it's also not living in this city. Now there is only our Ten Cong Ninja Organization in this city!" Kazama Ginbei said.

"Presumably you are reluctant to let me kill all these ninjas? In that case, I will give you one night. If these ninjas cannot submit to you tomorrow, then I will see their heads, and if you are reluctant to do it, don't worry. Ouyang Man is very happy to help!" Li Tian stretched out his hand and patted Ouyang Man's armor and said.

"Ming...understand!" Kazama Ginbei said tremblingly.

After that, Li Tian and Kazama Ginbei separated.

Kazama Ginbei went to the stronghold of the Ten Cong Ninja Organization in Ruhr Island, while Li Tian led everyone to kill all the way to a rather high-end star hotel in Ruhr Island. There were not many zombies in this hotel, and there was no need for Li Tian to take action. Those zombies were easily slaughtered by everyone.

Even the corpses of the zombies were disposed of by Xiao Tianyi.

Li Tian asked the three Xiaoyachas to check the hotel up and down, and confirmed that the entire hotel building was still there. There were no traces of zombies in the courtyard behind the building. Only then did Duanmu Ying and Bai Jing feel relieved. Wait for someone to rest.

Although Duanmuying's strength was strong, Li Tian was still a little worried, and deliberately added a guard named Ouyang Man at the entrance of the hotel, and Li Tian arranged Xiaotianyi on the entire floor to protect everyone's safety. And Li Tian also left Feitian Yacha and Xukong Yacha in the hotel again, and he was completely relieved.

Didn't it mean that Li Tian was afraid of zombies here, even if it was an 18th-level zombie, a 19th-level zombie, I am afraid that it may not be Ouyang Man's opponent.

Ruhr City is still very quiet at night, and the location of this hotel is a little bit off. Few zombies walk by on the street.

Li Tian stood in front of the hotel window, looking at the night view outside.

The faint moonlight on this street allows Li Tian to see this street more clearly

The movement.

Don't look at Li Tian standing here looking at the scenery outside the window, but Li Tian is also doing three things with one heart, practicing this Qingyun Qi Jue.

"Boom!"

Situ Ningbing and Xue Ji knocked on the door gently, pushed the door and walked in.

The two slowly came to Li Tian's side and looked at the scenery outside the window with Li Tian.

After a few seconds, Situ Ningbing said: "It's really quiet! Although there are shadows of zombies on the street, it doesn't look like the end of the world at all!"

"Yes, are the zombies here different from the zombies in our country?" Xue Ji said.

"I'm afraid not. This Ruhr Island County has a population of more than 1.7 million, of which more than 600,000 people are concentrated in this Ruhr Island City. Even if someone flees here in the last days, there are hundreds of thousands of zombies in this city. , And the foraging time of these zombies is concentrated at night, so this night must be very lively. And now in Ruhr Island City, in addition to the zombies we encountered when we first entered the city and actively attacked us, it seems The other zombies didn't mean to attack us."

"If I am not mistaken, these zombies are the same as the zombies we encountered in South Kyushu, I am afraid they are considered to be controlled! And their purpose is probably also us!" Situ Ningbing said.

Li Tian nodded and said, "Yes, during the day it seems that we killed all the Shinnins in Ruhr Island, Miyazaki Prefecture, and Kumamoto Prefecture, but we didn't kill many Zhongnin. That is to say. Before we rushed to Ruhr Island City, perhaps other Zhongren had taken control of the zombies in Ruhr Island County, and they were waiting for our arrival!"

"Then what should we do? We can't just sit and wait like this? If there is a corpse tide, these hundreds of thousands of zombies rush over, no matter how powerful our personal strength is, I am afraid we will not be an opponent." Xue Ji said.

Situ Ningbing smiled slightly and said, "Don't worry, Li is here, the big deal is that we can barely hold on for one night in the space of Void Yasha!"

"Now it's up to Kazama Ginbei! If he can control these ninjas today, even if he kills all these ninjas, then I will still want to see him in another way, and if he even these ninjas There is no way to control it, so he won't even think about restoring the glory of his ancestors, and be a thug for me forever!" Li Tian said.

"Don't go out and have a look?" Situ Ningbing said.

Li Tian shook his head and said, "I won't go out anymore. I have to hurry up to practice Qingyun Qi Jue. When I was fighting today, I felt that the air mass in my body was flowing fiercely. If I don't hurry to practice, I don't know when I will be like you. It can be small."

Situ Ningbing couldn't help showing a trace of embarrassment on her face, and asked, "Li, how many small fishes are in your body now?"

Li Tian held up **** and flipped them again, showing a bitter expression on his face.

"Twenty-two Li, you're done! Do you want to repair all the dozens of possibilities of Qingyun Qi Jue?"

"In fact, there are already a few small fish in the body that are completely out of my control. They automatically divide

Chapter 3902: Big Wave Zombie

Li Tian's heart was full of disappointment and anger.

Although he tried to hide it, Situ Ningbing and Xue Ji saw it.

"Li, is there any trouble? Is it because Kazama Silver Soldier has failed?" Situ Ningbing asked.

"It's okay, there are a few zombies here, I will send them away, you can rest at ease!" Li Tian said.

Xue Ji squeezed the Dragon Sword in her hand and said, "Shall we go with you? One more person can take care of each other!"

"No need! It's just a few zombies, I will go with the silly man!" Li Tian said with relief.

After speaking, Li Tian opened the window and jumped out directly from the window. In the process of falling, Li Tian instantly brought the mutant crow out of the space of Void Yasha. Then Li Tian stretched out his hand to grab the mutant crow's wings and jumped up and landed on the back of the mutant crow.

In the darkness, the mutant crow let out a scream, and there were several grumbles of dissatisfaction.

Regarding Li Tian's behavior, although the mutant crow protested many times, they all ended in invalidation.

The mutant crow really has no choice but to say that Li Tian is his master.

Taking Li Tian to the ground, the mutant crow immediately transformed back into a well-behaved little crow form, and then landed on Li Tian's shoulders, jumping around, doing majestic blessings, it was regarded as revenge against Li Tian.

"Silly Man'er, follow me!" Li Tian beckoned and said to Silly Man'er.

Silly Man'er didn't ask anything, carrying the heavy sword and followed Li Tian into the darkness.

Li Tian communicated with Feitian Yacha through his mind, took Ouyang Man across a street, and soon saw a large wave of zombies that Feitian Yacha said.

There was only one female zombie in front of Li Tian. This is really a big wave of zombies. The plump double peaks of this female zombie are at least one yard bigger than Shimu Zuoqing. Of course, it can be called a big wave of zombies. .

With the faint moonlight, Li Tian could see that the female zombie was over 1.7 meters tall. This height is already very top-notch among the women of Dongying Island, plus her proud upper circumference. This big wave of zombies is definitely a romantic stunner before the end of the world.

The level of this female zombie should be less than 14th level. There are such high-level zombies in a small city like Ruhr Island City, which surprised Li Tian.

What surprised Li Tian even more was that the corners of the female zombie's mouth were stained with blood, as if the wave of zombies had just swallowed the human body. And in the hands of this zombie, there are still two heads with blood hula lala, this head is still dripping blood, it can be seen that these two heads have just been screwed off.

Seeing only the fourteenth and fifth-level zombies, Ouyang Man seemed to be dissatisfied again, and said in a low voice, "Brother Tian, it's just a little zombie. Let me handle it!"

Speaking of Ouyang Man carrying the heavy sword, he was already walking a few steps quickly, ready to take action against the big wave of zombies.

The big wave of zombies immediately panicked. This big wave of zombies could feel that the level of Ouyang Man was far surpassing her, and the strength was much stronger than her. The big wave of zombies stepped back a few steps and hurriedly said: "No , Lord Li Tian, I'm here to give you gifts, don't kill me!"

As he said, this big wave of zombies threw their two heads on the ground three or four meters away from Li Tian, and then said: "These heads are the heads of those ninjas who control the zombies. These **** ninjas will all The zombies in Erdao City are under control and are ready to launch a wave of corpses to attack you. However, they are really bad luck, and they want to control me. When I get angry, I screw their heads off."

Having said this, the big wave of zombies said embarrassedly: "Originally there were four heads, but on the way here, I didn't control my mouth and ate two!"

This big wave of zombies actually spoke the language of the mainland. Although they were not very clear, Li Tian understood it completely.

Li Tian stretched out his hand to stop Ouyang Man, and asked suspiciously, "How can you say our words?"

The big wave of zombies said: "My husband is from your country, so I will speak your country! Lord Li Tian, these heads are given to you, please Li Tian and others accept me, I want to follow Master Li Tian! "

"According to your level, Ruhr Island County should be considered one of the strongest zombies, why would you want to follow me?" Li Tian asked.

"Lord Li Tian, although I am a zombie, I have human wisdom and feelings. I also want to enter human society instead of living with those zombies like wild beasts!" Dabo said.

Li Tian smiled slightly and said, "I heard that Fukuoka Prefecture has now achieved the coexistence of zombies and humans under the jurisdiction of the abdominal sky cluster. Why don't you go to Fukuoka Prefecture? Where are more humans, and they are your compatriots !"

Dabo's zombie's face showed a horrified expression, and she shook her head continuously. When she shook her head, her body also shook, and her body shook, naturally, that Dabo was also swaying.

"Let's not hide Li Tian, I escaped from Fukuoka County!" Dabo zombie said.

"Escaped? Why?"

"Then in Fukuoka Prefecture, it looks like humans and zombies coexist, but in that place zombies only exist as human tools. The vast majority of zombies are enslaved like livestock to do the hardest and most tiring work every day, and if there are zombies who dare to go against the wishes of human beings, then there is only a dead end waiting for him."

"The sky cluster in the abdomen controls the enslavement of more than 50,000 zombies above level six. These zombies live a dark life in Fukuoka. And those high-value female zombies will become toys for those men. The entire Fukuoka prefecture uses the breeding of female zombies as a status symbol." Dabo zombies said.

You can imagine what Fukuoka Prefecture is like.

"Why not resist, why not run away?"

"If you can't run away, you can't bear to run away! When the corpse was in the eastern island country, it supported a large number of ninja organizations. Almost all of those ninjas have the ability to control zombies, and most of the zombies that belong to them cannot escape. Moreover, the abdominal sky cluster He has been painting the zombies under his control. He said that the current zombie research technology has made breakthroughs. Once the antidote is successfully developed, the zombies who follow him will have the priority to transform back to humans and have the redistribution of wealth and resources. s right."

"As for other zombies, they will be beheaded one after another!" Dabo zombies said.

Li Tian already understood it completely, but Li Tian had to admit that this abdominal sky cluster completely mastered the psychology of those high-level zombies.

Chapter 3903: Soul Detention (1)

In the last days, resources and wealth will definitely be redistributed. .

If they can persist until the day when the antidote to the zombie virus is successfully developed, they will inevitably become a small group of people standing at the top of the world.

One person can ascend to heaven.

Once Li Tianzhen can take down the entire four islands of Dongying, then Shen Tao, Weiwei and others who follow Li Tian to fight the country will naturally have the opportunity to obtain more resource distribution and obtain more wealth distribution.

Based on this analysis, there seems to be nothing wrong with the abdominal sky cluster.

But Li Tian's heart was particularly uncomfortable.

"Lord Li Tian, please accept me, I am willing to follow you to the soup pot without any hesitation." said the big wave of zombie.

This big wave of zombies said the idiom to go through water and fire is to go through water and water, but Li Tian did not point it out.

Li Tian shook his head and said, "Thank you very much for your trust in me. This is my honor, but now there are too many people following me, even zombies, so I am really sorry, I can't agree you!"

Looking at the disappointed or even desperate expression of the big wave of zombies, Li Tian immediately said: "But if you can accomplish one thing for me, maybe I can consider letting you follow Kazama Ginbei. Now he is my person! If you follow him, you are also following me!"

"You say, Lord Li Tian, you say. No matter what it is, I will find a way to accomplish it!" Dabo zombie said.

Li Tian said, "I'm here for the first time and want to establish a foothold on this island of West Kyushu. Now the guardian of Ruhr Island, Miyazaki Prefecture, and Kumamoto Prefecture, except for the Kazama Ginbei who followed me, the other ninjas are already there. Beheaded by me. These three counties are my best choices."

When the big wave of zombies heard this, her face was already shocked.

That's six Shangren, Li Tian actually beheaded these six Shangren in such a short time, how can this not make Dabo zombies feel shocked.

"So what does Master Li Tian mean?"

"I want this Ruhr Island County to be my Li Tian's first stronghold on the four islands of the East. The biggest shortcoming of this person of mine is that I am kind-hearted and unwilling to kill them all, so I give you a chance and also give these three A chance for the zombies in the prefecture. You can help me bring all the zombies from Ruhr Island prefecture to Miyazaki Prefecture, and then bring the zombies from Kumamoto prefecture to Miyazaki prefecture. Then you can follow according to your preferences The level of zombies divides the region of Kumamoto Prefecture, and you can become the highest authority in the world of zombies in Kumamoto Prefecture."

Li Tian continued: "As for the ninjas in Kumamoto and Miyazaki prefectures, you don't need to worry about this, I will let Kazama Ginbei take care of it!"

This West Jiuzhou Island is not as big as the province where Beitang City is located, so it is much more convenient to deal with this kind of thing than when Li Tianna Donghaicheng hundreds of thousands of refugees migrated to Beitang, and these zombies do not eat for a long time. Don't say being starved to death.

Li Tian is testing Dabo zombies to see if she has this ability.

If the big wave of zombies have this ability, then it is the best, and Li Tian is quite a place for the zombies to delineate a place for them to survive.

And if this big wave of zombies doesn't have this ability, then it doesn't matter, the big deal is that Li Tian and others will kill all these zombies.

If all goes well in this plan, what Li Tian needs to do next is to migrate back the humans from these three counties in the deep mountains, and establish a human like Beitang or Nanzhou in Ruhr Island City. Life base, and then gradually northward, the entire West Kyushu Island was occupied by Li Tian.

If everything goes well on West Kyushu Island, Li Tian will go to Nanshiguo Island to find Yang Guo, then Li Tian will own two of the four major islands in the East, and then Li Tian will enter Honzhongshu Island. The ninja organizations of Iga and Koga began to confront each other head-on.

However, in order to make Dabo zombies feel at ease, Li Tian didn't draw cakes for him. Li Tian controlled Dabo zombies with the transparent silk thread released by the nine-color corpse crystal.

After the big wave of zombies were controlled by Li Tian, an expression of excitement appeared on his face, but when he was excited, the big wave of zombies showed some worried expressions.

After a few seconds, Dabo zombie said: "Master Li Tian, you need to beware of the Kazama Silver Guard! As the only Shinobu in Ruhr Island County, he can't be unaware that a ninja is trying to control the zombie. Thing! It's unlikely that I didn't know how these ninjas were killed by me."

Li Tian actually had a guess in his mind, but he didn't want to point it out.

After that, Dabo zombies disappeared in the darkness with excitement, and started to take those zombies and leave Ruhr Island City according to Li Tian's request.

But Li Tian took Ouyang Man back to the hotel.

The next day, before dawn, Kazama Ginbei brought more than 20 ninjas to see Li Tian.

The gift that Ginbei Kazama brought was also the head of a ninja, with more than twenty ninja heads.

It turned out that after going back last night, Kazama Ginbei directly spoke about the fact that he had returned to Li Tian, and told the middle and lower ninjas of Ruhr Island to either follow him with Ginbei and Li Tian, or just To die. Originally, the vast majority of those ninjas were imaginary and devilish snakes. Some even jumped out and accused Kazama Ginbei, and Kazama Ginbei directly took out the ninja scroll and cut all the ninjas who cursed him. kill.

After that, Ginbei Kazama played both soft and hard, and this made the rest of the ninjas follow him desperately.

In a suite of this hotel, Li Tian Dama sat on the sofa with a golden sword, while Ouyang Man was standing behind Li Tian with an epee on his back.

"Master Li Tian, the zombies on Ruhr Island began to migrate outside the city last night. I don't know if this is the ability of Master Li Tian?" Kazama Yinbing asked cautiously.

The corner of Li Tian's mouth jumped slightly, and said with a sneer: "Kazama Ginbei, do you know that your head is almost unsafe?"

Kazama Ginbei was taken aback and asked repeatedly: "Subordinates don't know it! Please also ask Master Li Tian to make it clear!"

"Huh, you went back to the ninja organization yesterday. You should have found that four of you couldn't bear it, right?"

"Big...How do you know? It's just four Zhongren. Their strength poses no danger to Li Tian-sama, and it's not enough. Yinbingwei will arrest all these ninjas and kill them today, guaranteeing that they will not be destroyed. Master Li Tian's plan!" said Ginbei Kazama.

Li Tian kicked the solid wood case in front of him vigorously. On those cases were placed, the two ninja heads that were originally covered with thick cloth immediately rolled in front of Kazama Ginbei.

Li Tian said with an angry expression on his face: "It seems that you still don't have a long memory. Do you want to use these four Zhongren to control the zombies to test me? You also want to use this as a condition for negotiation with me, right?"

"Do you think that only ninjas can control zombies? Do you start a corpse wave? Isn't it possible for me, Li Tian?"

"What qualifications does Ginbei Kazama have to negotiate terms with me?"

Kazama Yinbing saw the heads of these two zombies, and knelt down in front of Li Tian with a "poof", lowered his head and did not dare to look at Li Tian's eyes, and said in a row: "The subordinate knows wrong, belongs I know what I am wrong, please Master Li Tian give me a chance!"

Li Tian jumped up from the sofa abruptly, jumped directly in front of Kazama Ginbei, reached out his hand and held down Kazama Ginbei's mind, and said, "Do you think I will still believe your verbal promise? Take your Leave the soul to me!"

Chapter 3904: Soul Detention (2)

Kazama Ginbei's body shuddered, shaking like sifting chaff, and some white foam even spit out from the corner of his mouth.

"Soul Detention Dafa!"

These words popped out of Li Tian's mouth. Although these words were simple, let Li Tian say them, coupled with Li Tian's tone, immediately gave people an indescribable cold feeling.

Last night, Li Tian consulted Xukong Yacha overnight, and that Xukong Yacha also did not hide his selfishly and taught Li Tian the soul detention Dafa.

It is said that this Soul Detention Dafa is an extremely cold exercise from the Xiaoyacha clan.

Because this kind of exercise does not have much damage, there are not many people in the Yasha clan who practice this kind of exercise, and only the weakest beast will practice this kind of exercise to control the summoned beast to assist. They fight.

According to the introduction of Void Yasha, this kind of Dafa in the legend can not only control the souls of humans and beasts, but may even control the souls of the gods.

In this regard, Li Tian hehehe.

The weakest Yaksha Beast Yaksha's cultivation technique can actually detain the soul of the Protoss. Who would believe this? This is definitely putting gold on your face.

If this soul detention Dafa is really so powerful, then this world has already been ruled by the beast Yaksha, and it will be the turn of the three corpses to rule the world in this area, and it will be the turn of those venerables and domain masters to claim it in the Netherworld. King dominates.

At this moment, Kazama Ginbei's face was full of painful expressions, and under the skin on his face, it seemed as if insects were crawling past. His pupils had lost their spirit, and he felt that it might be at any time. It's the same after closing your eyes.

As for Li Tian, the expression on his face has not been relaxed since he performed this Soul Detention Dafa.

When practicing, Li Tian felt that this Soul Detention Dafa was an extremely simple method, but after less than an hour of practice, Li Tian completely successfully practiced this Soul Detention Dafa.

After seeing the speed of Li Tian's cultivation, Xukong Yasha even claimed that Li Tian was a genius.

Void Yasha said that even the smartest Beast Yasha would need to practice for more than a year, but Li Tian actually spent less than a night.

According to Li Tian, that is the problem of brain capacity.

The Yasha tribe is only the size of an adult's palm, and their life span is basically thousands of years. What's the matter if they practice slowly.

But when Li Tianzhen put it into practice, he realized the pain.

Don't look at Li Tian now standing in this hotel, reaching out to press Kazama Ginbei's head, but at this time Li Tian felt that his body seemed to be distorted.

Space is no longer in this hotel, and time has no concept at all.

Li Tian seemed to see a kind of curved light flying around his body, and this strange light under his feet and above his head, and the Kazama Ginbei who was kneeling in front of him was also a distorted existence. . It seems that Li Tian is the only person in the whole world in a normal state.

At this moment, Li Tian felt his palm draw a colorful line from the head of Ginbei Kazama.

"What is this place?"

Li Tian suddenly felt an extra space in his consciousness.

This space can be large or small, as if there is nothing.

"Is this the consciousness space?"

Li Tian suddenly remembered that Void Yasha had talked about consciousness space when he was teaching this soul prison Dafa.

Consciousness space, as the name suggests, this space is illusory, it is your consciousness. If you say it exists, then it will exist, if you say it does not exist, then it will not exist.

This feeling is as if you close your eyes and imagine a blank space in your mind out of thin air.

You can imagine this space is infinitely large, or you can imagine this space is infinitely small.

It is for this reason that this consciousness space will be like the space of the Void Yaksha, which can hide and contain things, and has no practical use.

To paraphrase a popular saying on the Internet now, that is, they are all.

Of course, this space of consciousness will be automatically opened when you perform this soul-detention law and need to detain other people's souls, and this space will become a cage. A cage of souls will become a real existence, indeed. Useful space.

At this time, Li Tian could feel that the line drawn from the mind of the Kazama Yinbingwei seemed to be swimming vaguely, and he did not know how it was connected to the consciousness space. When Li Tian reacted, the consciousness space There was already a Kazama Ginbei who appeared to be the size of a little finger.

The body of this Ginbei is still as vague as the light, but it is the soul of Kazama Ginbei.

Once this soul appeared in Li Tian's consciousness space, Li Tian felt the light around his body receding rapidly, and the images under Li Tian's feet and above his head quickly dissipated.

A few seconds later, Li Tian returned to the hotel.

Kazama Ginbei was still there, but he had fallen to the ground and passed out.

Li Tian felt that he had not changed, nor could he feel the existence of the consciousness space.

As if none of this happened.

"Silly Man'er, did something happen just now?" Li Tian asked Silly Man'er.

Silly Man'er shook his head, but said nothing.

Li Tian took out a glass of water from the space of Gu Xukong Yasha and sprayed it directly on Kazama Yinbingwei's face.

Kazama Ginbei immediately woke up.

At the moment when Kazama Ginbei regained consciousness, Li Tian felt that there was a small space in his head, and it was Kazama Ginbei who was detained in this small space.

This picture is as if the thoughts generated in the heads of the characters in cartoons and comics are drawn through comics or animation.

"Lee... Lord Li Tian, what's going on?" Ginbei Kazama asked in surprise.

When Yinbingwei woke up, he immediately noticed the difference between before and after the coma. The current Kazama Yinbingbei felt as if he could be pinched to death by Li Tian later.

Kazama Ginbei's heart was full of fear of Li Tian, and also full of jealousy towards Li Tian. His mind was thinking about how to get rid of Li Tian's control, but as soon as he came up with such an idea, his body was It was painful as if being burned by flames instantly.

Kazama Ginbei couldn't help screaming in pain and rolled around on the ground, as if he was trying to extinguish the flames on his body.

"Huh!" Kazama Ginbei, your soul is now controlled by my soul detention Dafa, and you are now my servant. If you dare to think about being bad for me again, your pain will multiply next time! "

"By the way, I forgot to tell you. The feeling that your whole body was on fire just now was not an illusion, but a real one. It was I who was burning your soul. Once your soul was burned out, then you would become An idiot!"

"If you don't believe it, you can try again!" Li Tian said disdainfully.

Chapter 3905: miracle

Although Soul Detention Dafa is good, it also has a limited number.

One person can detain at most three souls at the same time, and this soul detention Dafa can only detain at most eight souls. This is the rule of this practice. Once someone exceeds this limit, then as a user of the soul-detention Dafa, his own soul will be backlashed, and at the slightest will become an idiot, and at the worst, the soul will burn and be burned to ashes.

This feeling is like playing a game with a summoned beast. There is a limit to the number. The difference is that you can change as many summoned beasts as you want in the game.

This is probably the law of nature!

After Li Tian controlled his soul, Kazama Ginbei immediately became much better. What he said to Li Tian was completely implemented. Later, as long as he saw Li Tian, he would not even dare to straighten his waist. Even if he saw Windsor and others, he would nod and bow his head, full of flattery.

On that day, Kazama Ginbei was arranged by Li Tian to go to Miyazaki Prefecture and Kumamoto Prefecture. His only task was to conquer the ninjas of these two counties, for the zombies of Ruhr Island and Kumamoto Prefecture. The zombies migrated to Miyazaki Prefecture to clear obstacles.

After Ginbei Kazama left Ruhr Island City with the ninjas, Li Tian told Haiyasha through his mind to let Liu Guoqiang drive the Cangshan ship into Ruhr Island Bay.

After that, Li Tian asked the Ethereal Clan and the Dixing Yasha to cooperate to build fortifications around the city of Ruhr.

The best defense is offense.

But now Ruhr Island is different from Beitang. Li Tian hasn't got a firm foothold yet, nor can he attack blindly.

When he was in Beitang, Li Tian was supported by the whole heaven behind him, so Li Tian had that courage. A dozen people would dare to take Beitang because he knew that as long as he took Beitang, he could bring the army from the heaven. support. But Ruhr Island is not good. Li Tian has the sea behind him, and Li Tian has no hope. So he must have total fortifications.

Moreover, the Yin-Yang Gate next to Beitang is different from the Tiancong Ninja Organization in the abdominal Tiancong.

Yin Yang of the Yin and Yang Gate does not fight for fame and is full of tolerance for Li Tian.

Even if Li Tian occupied Beitang, Yin Yang didn't mean anything, and even agreed with Li Tian to jointly defend Beitang.

And Li Tian and others have already killed the guardian Shangren of Ruhr Island, Miyazaki and Kumamoto prefectures, separating these three places from the control of the abdominal sky cluster. In terms of area, the total area of the three prefectures of Ruhr Island, Miyazaki and Kumamoto is already more than half that of West Kyushu.

To use an analogy of "No one is allowed to snore on the side of the couch", then the abdominal sky cluster will definitely not sit idly by. At that time, Li Tian's small Ruhr Island city will suffer the entire West Jiuzhou Island. The ninja is even attacked by zombies.

This is why Li Tian asked Dabo zombies to move the zombies from Kumamoto Prefecture to Miyazaki Prefecture.

Only by taking time out of Kumamoto Prefecture and turning Miyazaki Prefecture into a zombie paradise, making these two counties a buffer for Ruhr Island, will Li Tian feel a sense of security.

At noon that day, the Cangshan ship sailed into Ruhr Bay.

Xu Ling came down from the Cangshan ship, and soon began the fortification construction with Dixing Yasha.

According to Li Tian's request, first, a circle of fortifications was built on the periphery of the city of Ruhr, like a city wall, enclosing the entire city except for the coastline, and then leaving only two doors as entrances and exits for ordinary people.

According to Li Tian's requirements, the height of this city wall must be more than ten meters, and the width must not be less than five meters. If it is built according to this standard, even a level seven or eight zombies may not be able to attack.

This work is mainly done by the Ethereal Race.

The construction speed of this virtual spirit race is fast. Watching the virtual spirit race build this city wall, it is like playing the game of the age of empires to build a city wall. The city wall is growing almost at a speed visible to the naked eye. On the other hand, Dixing Yasha acted as a porter, constantly transporting blocks of boulders with a volume of more than ten cubic meters from the ground.

Seeing the construction of this city wall, Liu Guoqiang and others were speechless.

They couldn't see the Void Spirit Race. In their eyes, they only saw a huge boulder suddenly emerging from the ground, and then the boulder flew up automatically and built a city wall automatically. This feeling is like casting a spell.

"Lee...sir Li Tian, is this your method?" A soldier swallowed and couldn't help asking.

"Nonsense! This is of course Li Tian's method. Didn't you see the changes in Kitten Island? Lord Li Tian expanded the area of Kitten Island so much in just one night, and also expanded the area of Kitten Island. It's completely changed into another look!" Liu Guoqiang said for Li Tian.

"A miracle, this is definitely a miracle!"

"Yes, are the pyramids of ancient Egypt built this way?"

"Maybe Lord Li Tian is the reincarnation of a god. He built the pyramids in his life and built these walls in his life!"

"fart....."

"You dare to say that Lord Li Tian is a ***** reincarnation farting?"

"No, no, no, I'm not talking about this, I'm talking about you fart, Li Tian wouldn't have appeared in Egypt thousands of years ago in the last life!"

These soldiers talked and talked with excitement.

Li Tian stood not far in front of them, silently bearing the flattery of these soldiers.

"Hey, don't stop, continue shooting, I can bear it!" Li Tian heard that the soldiers behind suddenly stopped talking, and turned around and said in a humble manner.

The soldiers were taken aback for a moment, and then they all laughed, and they began to slap Li Tian's flattery.

"Li, what are your plans next?" Situ Ningbing asked.

Li Tian looked up to the north, pointed his finger to the northeast, and said: "Go to Kirishima Mountain. Now the safety of Ruhr Island City should be basically guaranteed, but there is no one in this city. So we have to go to Kirishima Mountain. Please come back to the residents of those mountains!"

"Are you sure?" Xue Ji said with a smile.

Li Tian nodded with certainty and said, "Yes, please!"

"What if you don't move?" Ouyang Shiqing asked next to her.

"Haha, then grab it! If you allow people from Dongying Island to grab someone in our country, wouldn't I allow Li Tian to grab some people?"

"Finally reveal your true colors!" Several women said in unison.

Li Tian said with a flushed face and a heartbeat, "This is not the same. Can scholars count as grabbing?"

Li Tian paused for a while, and said solemnly: "It may be dangerous to go to Kirishima Mountain, so I plan to go alone. All of you will guard this Ruhr Island City!"

Chapter 3906: Qi People's Blessing

How many women could allow Li Tian to go alone, all clamoring to accompany Li Tian, Li Tian disagreed, these women pulled Li Tian's arm and swayed, the picture is really beautiful, The soldiers dare not look.

"They are all too bad. What kind of style do you pull and pull like this? What do you think when those soldiers see it?" Li Tian said.

But these women don't care what Li Tian said, anyway, they just have an attitude to follow Li Tian to Kirishima Mountain, and their reasons are also various. Some say that Li Tian has not matched her for a long time, and some say that Li Tian only prefers Situ Ningbing alone, and so on, while Duanmuying deliberately held up her stomach and said that Xiaoli Tian wanted to go.

Really helpless, Li Tian could only learn the style of Wei Xiaobao and Wei Daxia. He picked up a piece of wood and threw it in the air, and then used the Qi Yujian to control the "Red Slash" to create three dice, and then let these women count the dice. The size decides who will follow him to Mount Kirishima in the end.

There was a real way to do this, everyone stopped making noise, and they all cast the dice seriously. Because it is three dice that the largest point is eighteen and the smallest point is three, everything is possible.

According to Li Tian's request, this must be based on luck and cannot be shameless, otherwise these guys have skills and can throw an eighteen point at will, then there is no way to play.

Situ Ningbing was the first to take the shot, but as a result she had four points, and she was immediately eliminated.

Then there is Duanmuying. Duanmuying is probably because she is pregnant with Xiaolitian in her belly, and she is so lucky that she threw out an eighteen o'clock.

When Duanmuying came out at eighteen o'clock, there was a wailing all around.

However, many women who refused to admit defeat were still eager to try.

Ouyang Shiqing threw it out at nine o'clock, eliminated.

Xue Ji threw it at 14 o'clock and was eliminated.

Tang Feifei threw out 17 o'clock. Although it was very close, she was still eliminated.

The last shot was Bai Jing, but Bai Jing also threw an eighteen o'clock, which was a tie with Duanmu Ying.

The two can only play an extra game, and this time Bai Jing takes the first shot.

It can be seen that Bai Jing didn't want to lose. She held the three investments in her hands, shook them up and down, and then put them to her mouth and blew a breath before throwing them out.

The three dice turned in place for a few times and then stopped. As a result, the total points of the three investments were only seven points, which was considered a small point.

Bai Jing's face involuntarily showed a look of disappointment.

Bai Jing wanted to be with Li Tian too much.

Since being overthrown by Li Tian in the Celestial Realm, Bai Jing hasn't had a chance to be alone with Li Tian for a long time.

Which girl is not pregnant?

As a young and beautiful girl under twenty years old, Bai Jing also hopes to be protected by Li Tian.

But Li Tian is really too busy, he has to deal with all day long, and he has endless cultivation.

Moreover, whether it was Situ Ningbing or Ouyang Poetry, even Tang Feifei knew Li Tian earlier than Bai Jing, which means that Bai Jing must be the smallest according to the ranking of feudal families in ancient times.

Therefore, although Bai Jing had spring in his heart, she didn't dare to ask Li Tian or anything. She put more thoughts on helping Li Tian to deal with the difficulties.

However, this opportunity today is too rare.

And the opportunity is equal to everyone, so Bai Jing is so concerned about gains and losses.

Duanmuying also saw the disappointed expression on Bai Jing's face. She took the dice in her hand, and blew the dice in her hand like Bai Jing, and then threw it out.

The dice rolled around a few times before stopping.

"Wow, I won, I won! Sister Duanmuying's is six o'clock, I won!" Bai Jing jumped up excitedly and plunged directly into Li Tian's arms.

At this time, Bai Jing was excited, his cheeks were red, and there was a little mist in his eyes, which gave people a pitiful and lovely feeling.

Willing to bet.

There is no objection to this result.

But Li Tian, Situ Ningbing, and Xue Ji could all see that, in the end, Duanmuying was still playing a ghost, and Duanmuying was deliberately losing to Bai Jing.

It wasn't until Situ Ningbing asked Duanmuying that night that Duanmuying said, "I hate thin people the most. Because I have little Li Tian, I get fat day by day, but Bai Jing is thin, just like our Li Tian. I'm abusing her, so I want to make her fat too. As for whether she can get fat, it depends on her own ability!"

Of course, Li Tian still doesn't know what Duanmuying thinks, Li Tian just feels that Duanmuying is doing well.

Through this incident, Li Tian also thought of a method, and the three wooden dice have been following Li Tian ever since.

"Bai Jing, go and pack things! Bring your sniper rifle. We can also pick up some game or something on the way, and we can make up for Duanmuying when we come back!" Li Tian said this deliberately, so that Duanmuying could be helped. I can feel more comfortable.

"Okay! I'm going to clean it up!" Bai Jing said excitedly.

The Xuling and Dixing Yacha are still building the city wall, and Li Tian has to wait for the completion of the Dixing Yacha before he can go to Kirishima Mountain.

There were no days of fighting, and there was no need for Xiang to work when he was in Liaocheng. Li Tian felt that life suddenly became more leisurely.

Lying on a recliner by the beach, basking in the sun, facing the sea, and then working hard to continue practicing Qingyun Qi Jue, while there are a few women beside her talking softly, this life is really nourishing.

Li Tian was even thinking that if he could find his mother back, and then there would be a few Xiaolitian No.1 and Xiaoxiaolitian No.2 digging in the sand on the beach, that day would be truly nourishing.

But Li Tian knows that this kind of day does not know when it will come true, and maybe it will never come true.

Thinking of this, Li Tian suddenly sat up.

"This time is not a time to enjoy, nor is it a time to think about these issues. We must conquer the four islands of the East as soon as possible, and go back to find the whereabouts of my mother!" Li Tian said to himself in his heart.

But at this moment, the virtual spirit race had already repaired all the walls.

There are Duanmuying, Situ Ningbing, Ouyang Man, Tang Xiaolong, and others in Ruhr Island City. With the addition of this city wall, even if it is attacked by the abdomen sky cluster, I am afraid that it needs to be weighed carefully.

Even if they lose, there will still be Cangshan ship on the sea as a retreat, and Haiyacha in the sea as a protection, there is no problem with their safety!

Li Tian stood up and said to the anxious Bai Jing who was waiting on the side: "Bai Jing, let's go, go to Kirishima Mountain!"

Chapter 3907: Sniffing Rose

Mount Kirishima is a collective name for the volcanoes located at the junction of Ruhrshima Prefecture and Miyazaki Prefecture in the southern part of Western Kyushu. It is also called Kirishima Mountain, Kirishima Mountain, Kirishima Mountain, and Kirishima Volcano Group. It is an active volcano that erupts repeatedly, especially Shinnendake and Gobachi, where active volcanic activity continues.

It is precisely because of the existence of this volcano that Kirishima Mountain is the most famous one is Kirishima Onsen. Every year, domestic and foreign tourists come here to experience Dongying culture, soak in hot springs, and overlook the Bay of Ruhr Island. At the same time, apart from the development of tourism, Kirishima Mountain is also well-developed in agriculture, especially the several cities around the Kirishima Mountain Range, which is an important agricultural town in the entire West Kyushu.

It is precisely because of this that after the beginning of the end times, this Kirishima Mountain poured into a large number of humans.

And Li Tian's goal is to make these humans return to the city, back to the city of Ruhr Island designated by Li Tian. Now the entire Ruhr Island County is empty, and a lot of farmland has been deserted. These Dongying island nations The humans, they can be farmers in Ruhr Island County.

As for the major agricultural towns near Kirishima Mountain, that is Li Tian's next plan, letting Tang Feifei establish an agricultural and industrial association in the eastern island country.

It was already evening, standing on the beach and looking out to the sea, where the sea and the sky alternated, there was a red sun.

The afterglow of the sun shone on the sea, sparkling.

The sunset glow in the sky, set against the sea, looks very beautiful.

Li Tian had no intention of appreciating the beauty, and took Bai Jing to fly on the body of the mutant crow.

In addition to Bai Jing, Li Tian's followers were Dixing Yasha and Void Yasha. Feitian Yasha and Haiyasha were left in Ruhr City by Li Tian.

The mutant crow is now in the shape of a big peng, with a huge body. Even if he is carrying Li Tian and Bai Jing, he does not feel any difficulty. Moreover, the mutant crow is also very interesting, knowing that it is the world of Li Tian and Bai Jing. It is not suitable to interrupt, so he closed his mouth and soared intently.

From time to time, the mutant crow would tremble deliberately when flying, causing the pale Bai Jing to hold Li Tian's arm tightly, and half of his body leaned into Li Tian's arms.

The mutant crow departs from the coast of Ruhr Island City, and flies along the coastline all the way north to a slightly easterly direction. After flying over Jinjiang Bay, the mutant crow begins to fly northeast toward Kirishima City.

At this time, Li Tian and Bai Jing were already full of oceans. From a distance, they could still see the coast. Bai Jing gradually calmed down in fear, but she still held Li Tian's arm.

The breeze was blowing, and Bai Jing's long hair drifted back.

The sky was extremely quiet, and there was no sound except the sound of wind.

In Bai Jing's heart, he really hopes that this kind of flight will never end, and she and Li Tian live as a couple of eagles.

Bai Jing leaned her head against Li Tian's chest again, and she could hear his heartbeat.

"Puff!"

"Puff!"

This is the most beautiful movement Bai Jing has ever heard. From time to time, Bai Jing looked up at Li Tian's face. At this time, her heart was full of happiness.

The last afterglow of the setting sun seemed to have been absorbed halfway by the sea, and the sky was gradually covered by darkness.

Many people are full of fear of darkness, feeling that there may be dangers in the darkness at any time.

The mutant crow is no exception, so the mutant crow flies more than a hundred meters high.

The higher the flight, the stronger the evening breeze, even in midsummer, the temperature drops sharply.

Li Tian felt that Bai Jing's hug was getting tighter and tighter. Li Tian also stretched out his hands and completely embraced Bai Jing in his arms. He lowered his head and asked gently, "Is it cold?"

A smile barely appeared on Bai Jing's face and said, "It's not cold!"

"Why don't I send you to the space of Void Yasha?"

Bai Jing shook his head quickly and said, "No, I want to be with you! This is the chance I finally won back!"

"Silly girl!" Li Tian stretched out his hand and scratched Bai Jing's nose and said.

The breeze blows, and Bai Jing's hair blows on Li Tian's cheeks, making Li Tian feel itchy. Lowering his head and sniffing lightly, Li Tian could smell the faint body scent of Bai Jing. Li Tian looked at Bai Jing carefully and found that Bai Jing was even thinner than when Li Tian met her.

A woman who gave her most important things to Li Tian, did not ask for anything, but worried Li Tianfen, even if Li Tian was always surrounded by other women, she was still unknown, and she paid silently behind Li Tian , Do not fight or grab.

Li Tian's heart was full of warmth.

Li Tian felt that he really owed Bai Jing a lot, not only Bai Jing, but also Situ Ningbing, Xue Ji, Duan Mu Ying...

There is a tiger in his heart, bowing his head to sniff the rose.

"Wait, wait, wait until I have conquered all the four islands in the East, I will definitely spare time to accompany you well!" Li Tian thought in his heart.

After two hours of flying and jumping over the ocean, I have entered Kirishima City. There is no longer the ocean at my feet, but large tracts of farmland. In the distance is the urban area of Kirishima City.

The mutant crow was already showing some fatigue. Li Tian let the mutant crow land on a highway, and then jumped off the mutant crow with Bai Jing.

"Come on!" Li Tian pointed to his shoulder and said to the mutant crow.

The mutant crow did not expect that Li Tian would take the initiative to let him stand on his shoulders, and he couldn't help being touched, but the mutant crow also knew whether Li Tian was with Bai Jing, even if they really looked like a companion of the eagles The crow is not willing to make this light bulb.

"Come on, I might as well enter the space of Void Yasha and sleep well!" The mutant crow said with disdain and affection.

"Hurry up!" Li Tian trailed.

Li Tian's heart moved, and Void Yasha came out and brought the mutant crow in.

At this time, the surrounding area was full of darkness. The crickets in the farmland on both sides of the road were croaking and croaking. After hearing the movement of Li Tian and others, the frogs on the roadside had stopped calling, but those frogs in the distance, But the insects still kept screaming.

Li Tian took Bai Jing's hand, as if a loving young couple were walking slowly along the highway towards Kirishima City.

"Brother Tian, thank you! I am very happy today!" Bai Jing said, holding Li Tian's arm and leaning his head on Li Tian's shoulder.

This is Bai Jing, who has no desires and desires, just being with him makes him feel extremely satisfied.

"Silly girl!"

This was a beautiful picture, but at this moment, Li Tian saw a figure stumbling towards him on the road far away, and behind this figure was less than twenty meters. The place was followed by a large group of zombies.

Hundreds of zombies.

Chapter 3908: Kitahara

"Someone!"

"Brother Tian, give me the sniper rifle!" Bai Jing said.

Li Tian immediately took out the sniper rifle from the space of Void Yasha and handed it to Bai Jing's hand.

With Bai Jing's sniper rifle in hand, Bai Jing immediately took a different look, and his whole person instantly looked heroic.

Bai Jing didn't have any extra movements in his hands, but the movement of her spear was particularly chic in Li Tian's eyes.

"Bang!" A gunshot sounded, and the zombie closest to the stumbling figure moved.

The sound of Bai Jing's sniper gun sounded, which seemed particularly abrupt in this silent night. The calls of frogs and insects around the highway stopped immediately, and only the vague murmur of zombies came through the night.

The shadow also seemed to be greatly frightened and fell directly to the ground.

Immediately he also saw Li Tian and Bai Jing, and stretched out his hands to speak a series of bird words to Li Tian and Bai Jing.

"Tasker stickers, Tasker stickers!"

Looking at the expression on this person's face and the movements in his hands, Li Tian understands this bird's language, and probably means to ask for help!

Bai Jing raised the sniper rifle and fired several rounds of bullets at the zombies.

Bai Jing's marksmanship was originally accurate, and these zombies were densely packed together, so as long as Bai Jing raised his hand, one zombie would inevitably fall to the ground.

However, there were at least a few hundred zombies chasing the fallen man. Bai Jing's sniper rifle was nothing but a drop in the bucket for these zombies, and could not stop the attacks of those zombies. The zombies in the back stepped on the bodies of the zombies in front, and even these zombies would tear the zombies to the bottom, and swallow them completely in a few seconds.

And the liquid of the torn zombie splashed all over, and a few drops flew on the face of the fallen man.

"what!"

The man screamed, using his hands and feet together, he ran seven or eight steps in the direction of Li Tian.

But due to the unstable center of gravity, his legs became weak again, and another horse fell to the ground.

An already worn paper bag fell out of his arms and fell to the ground. Some messy things fell out of the paper bag.

Li Tian glanced at it, but saw that in addition to daily necessities and pre-packaged food, there were a few fresh carrots and a five-inch doll that fell out of the bag. The man got up from the ground again, ran forward two steps, picked up the doll toy behind him, and ran to Li Tian's side at a faster speed.

"Wow in the room!" The Dongying Devil said a series of bird language, his left hand stretched out to point at the beasts, and his right hand held Li Tian, which meant that Li Tian would escape with him.

Originally, Li Tian didn't plan to rescue the Dongying Devil, even if Bai Jing had already taken action, Li Tian didn't plan to do so.

Li Tian is not the savior of the world. People are being swallowed by zombies at any time in this eschatological era, and Li Tian cannot be saved either.

Moreover, in the national education since childhood, Li Tian didn't have a good impression of Dongying Island, so naturally he didn't want to save him.

However, after the man fell, things scattered all over the floor. The first thing the man wanted to retrieve was not food, not daily necessities, but the doll toy. This simple action made Li Tian's most sensitive part of his heart beat slightly.

And when the man ran to Li Tian, he didn't have his only son to escape, but he wanted to take Li Tian to escape together, which made Li Tian even more fond of this Dongying man.

"Get away, hide behind me!"

Li Tian stretched out his hand to pull the man behind him, and with a movement, the "Red Slash" flew out of the space of Void Yasha.

This "Red Slash" quickly flew to the front of the group of zombies, as if drawing a line with a pencil, slanting a red line from the front of the group of zombies.

Of course, this is not the red line, but the red light emitted when the "Red Slash" slashed, and as this red light flashed, the front row of zombies fell to the ground in a rush. And they either had their heads separated from their bodies, or four separated from their bodies.

"Okay... awesome!" This time, the man hiding behind Li Tian said in surprise in mainland dialect.

Just now, what Li Tian said made the man already know that Li Tian was not from Dongying.

But at this moment, Li Tian's left and right hands simultaneously used the broken soul palm, slamming at the zombies that continued to rush towards him.

"boom!"

"boom!"

As an explosion sounded from among the piles of zombies, those zombies seemed to have been hit by a cannonball, and were torn apart in an instant.

Li Tian didn't stop his hand, and took more than a dozen broken soul palms.

Less than three minutes later, on this highway, there were zombies with broken limbs and body organs everywhere, and the number of zombies that could stand was no more than one hand. The zombie levels of the remaining zombies should be around level four or five. Although they don't have complete human intelligence, they also know that Li Tian is not something they can provoke.

However, the current level four and five zombies are like beasts, reluctant to fly away the fat in front of them, but they cower and surround Li Tian.

"Go!" Li Tian had already received "Red Slash" in his hand, and roared coldly.

The zombies suddenly felt that Li Tian's murderous aura was more victorious than before, panicking, turned around and fled into the darkness.

And the Dongying man was already paralyzed on the ground when Li Tian performed his first move to break his soul palm.

The little son who was holding tightly by the Dongying man was trembling all over, looking at Li Tian with a wince and speechless.

"Get up! The zombies have been beaten away by me!" Li Tian said.

Only then did the man wake up from the panic and hurriedly stood up.

"Are there other humans in Kirishima City? Why are you here so late?" Li Tian asked, reaching out and holding the doll in the man's hand.

The man shivered all over, standing upright in front of Li Tian like a soldier, not daring to squint in his eyes, and said loudly, "Report your lord, there are other companions in Kirishima City, but... ... But now they are probably all killed!"

Having said this, the man's face couldn't help showing some sad expressions.

"Are you residents of Kirishima City? And why do you say our words?" Bai Jing put away the sniper rifle and said with his back on his back.

Chapter 3909: Local master (1)

"Returning to this lady, I have studied in your country before the end of the world, so I will speak your country!"

Then the man began to talk about why he was chased by zombies. .

This Dongying man's surname is Beiyuan, and his Chinese name is also called Beiyuan.

Kitahara is a native of Kirishima City. After returning from studying in China, he worked as an office worker in Kirishima City. After the end of the world came, he was like all humans who had escaped the zombie virus, and then hid in the mountains. It's just that there is a shortage of food and clothing in the mountains. From time to time, Beiyuan has to go with other people to the town to find some useful things to bring back.

After three years of the last days, several small towns near Kirishima Mountain had been searched by them, and they had no choice but to venture to Kirishima City.

Before entering Kirishima City, their intelligence personnel had also made inquiries and made a detailed plan. According to this plan, they should dare to drive back to the mountain in the afternoon, but what they did not expect was the big During the day, suddenly many zombies migrated to this Kirishima City from another party, completely disrupting their plans.

Beiyuan and other friends were washed away by the zombies. Bei originally hid in a store, thinking about waiting for the opportunity to escape.

But when night was about to fall, Beiyuan found that the number of zombies on this street was still increasing sharply, and a zombie discovered his existence and began to madly hit the shop window.

Kitahara didn't want to be eaten by the zombie, so he could only escape from the back door of this shop. Then Kitahara escaped from the urban area of Kirishima City after nine deaths in a car, but he just escaped from the urban area of Kirishima City. There is no gasoline in my car, Beiyuan can only abandon the car and flee.

That's why Li Tian and Bai Jing met Beiyuan later.

While Bei Yuan was telling his story, Bai Jing couldn't help but look at Li Tian, as if he wanted to say that this was what Li Tian harmed Beiyuan, and Li Tian made a helpless expression.

The big wave of zombies started last night, leading the zombies of Ruhr Island City to move towards Miyazaki Prefecture. These zombies traveled all the way north along the railway along the coast, and then turned east after crossing the Jinjiang River.

What Li Tian didn't expect was that these zombies would be so fast, it was only a day and a night that they would be able to come to Kirishima City.

It seems that this big wave of zombies is still very trustworthy.

"Thank you! Thank you very much. If it weren't for you, I would have been swallowed by the zombies. I really don't know how to thank you?" Beiyuan said.

Li Tian waved his hand slightly and said, "Thank us, it is easy, as long as you take us to your mountain residence!" Li Tian said.

Beiyuan's face immediately showed a defensive expression, and said, "I don't know what you are doing?"

Li Tian pointed to the farmland on both sides of the road and said, "There are so many farmland in the direction of Kirishima City near the sea. It has been abandoned for three years now. Such a good farmland was wasted in vain. What a pity. If these farmland is used Get up, it must be able to feed many humans!"

Kitahara's face immediately showed a trace of longing, and said, "Yes, this Kirishima City is actually an agricultural town. The urban areas of the city are separated by farmland, not to mention that the farmland of Kirishima City is fully utilized. , Even if one-fifth is used, no, as long as one-tenth can be used, we can fully satisfy our daily supply! It is a pity... such a good farmland, because we humans cannot cultivate zombies!"

"Really? You follow us tonight, let's continue this topic tomorrow!" Li Tian said.

Although Beiyuan was puzzled, he also knew that if he left Li Tian and Bai Jing today, he would probably not survive the dawn, so Beiyuan followed Li Tian closely and stayed on.

"This doll is interesting? Is it for a child?"

"Yes, this is the most popular anime character before the end of the world. Before the beginning of the end of the world, my child is already in kindergarten. He and I are all fans of this anime, especially he, especially likes this doll. , It's a pity..." When Beiyuan said here, his eyes were already misty.

"Sorrow and change!"

"Oh, my lord, you were wrong. My child is still in the mountains. He is now a little man. I regretted that it was such a good anime, but it was interrupted because of the end of the world. My child and I

are waiting to see the ending, and now I am afraid I will never wait for this ending!" Beiyuan said embarrassedly.

The animation industry in Dongying Island is developed. Several animations have been serialized for more than ten years. It can be said that they have accompanied a generation of people to grow up. Therefore, these animation fans have deep feelings for these animations. These animations have many loyal anime fans all over the world, and this is especially true in the island country of Dongying.

Kitahara is such a fan, so even in the end times, his heart will still think about the final ending of the anime from time to time. Therefore, when he comes to Kirishima City this time, Kitahara will bring this doll with him. One is to give the child a toy, and the other is to let oneself have a sustenance.

While speaking, Li Tian brought Bai Jing and Bei Yuan to a small two-story building on the side of the road.

The courtyard in front of the two-story building is full of all kinds of cars, and some cars have even been parked on the side of the highway, but from the number of these cars, Li Tian can guess the building. It must be a restaurant or a restaurant before the end of the world.

"Before the end of the world, this was once a restaurant, mainly selling fresh seasonal vegetables and seafood. Just now, my car ran out of fuel when I drove here. Most of the zombies who chased me rushed out of it. But I don't know if it's safe inside right now!" Beiyuan followed Li Tian and said in a low voice.

Walking through the courtyard, Li Tian saw that the first floor of this small two-story building had been dilapidated. The window on the first floor was completely destroyed, and the glass door had broken into a pile of glass slag.

Walking into the lobby on the first floor, Li Tian saw that the lobby of this hotel was full of garbage and bones, and the smell of rotten flesh filled the entire lobby, and in a corner of the lobby, a female zombie was hugging the corpse of a wild deer kept biting.

Chapter 3910: Local master (2)

After seeing Li Tian, Bai Jing and Beiyuan walking in, the zombie first raised his head and looked at Li Tian and the others. After a few seconds, the zombie suddenly split its blood-stained mouth to reveal two rows of sharp fangs. Teeth rushed towards Li Tian and others.

Li Tian used Xuantian ***** at random, and a gas bomb directly hit the zombie's eyebrows, and then in Beiyuan's exclamation, the zombie fell heavily to the ground, and the dead could no longer die.

In this hall, there is a spiral escalator leading to the second floor. Li Tian walked up from this escalator and found that the second floor is a private room, and in this private room, there is also a zombie eating a fat mouse, most of the mouse's body has been swallowed by him, revealing the back half of the body and the wagging tail.

"Wow!"

It was another gas bomb that easily ended the life of this zombie.

"Okay, there are no zombies around here. Let's go to the backyard of this small building. I saw that there seem to be other rooms in the backyard." Li Tian said.

Bei Yuan's heart was full of doubts. He especially wanted to ask how Li Tian knew that there were zombies on the second floor, but he swallowed it again.

The backyard of this small building is actually a vegetable field, but this vegetable field is now completely deserted and overgrown with weeds, but there are also some vegetables in the weeds that are not growing well. Li Tian guessed that the vegetables were naturally mature last year. Then those rapeseeds fell on the ground and grew out this year.

The sound of Li Tian's footsteps stopped the worms in the vegetable patch from calling.

Walking through a concrete road one meter wide, I came to a row of three tiled houses behind.

Li Tian found that the iron door of this tiled house was locked tightly from the outside. The lock had already been rusted, but the glass windows of these three tiled houses were kept intact. Through the glass windows, Li Tian could see all the furniture in this room. Layout.

"It's locked! How do we get in?" Kitahara asked idiotically.

Before Beiyuan's voice fell, he saw Li Tian stretch out his hand and unscrewed the lock.

This simple action gave Beiyuan a new understanding of Li Tian, and the impact of the broken soul palm on Beiyuan was not as intuitive as the current hand-twisting lock.

"Beiyuan, go to the sleeping room. No matter what sound you hear tonight, you can't come out, otherwise you will be at your own risk!" Li Tian said coldly.

Kitahara agreed.

The room was a bit damp and had a moldy smell, and there were some cobwebs on the four corners of the roof of the room, and there might be other bugs in the room, but after this day's escape, Kitahara was already exhausted and fell down. On the bed, I fell asleep soon.

It was originally a beautiful two-person world, Li Tian can enjoy with Bai Jing, but because of the appearance of Beiyuan, Li Tian decided to make appropriate adjustments to his plan.

Sitting on the mutant crow and flying to this Kirishima City, Li Tian had already seen the entire situation of Kirishima City in the sky.

As Li Tian said before, this Kirishima City is full of farmland. In this regard, this Kirishima City has a great advantage over Ruhr Island City. So Li Tian planned to move some people hiding in the mountains to this Kirishima City. Li Tian guaranteed their safety and provided them with farmland.

And they need to pay land use fees and safety management fees to Li Tian.

Of course, as long as it is land, it will definitely be divided into three, six or nine. The same is true for safety. For these humans, the farther away from the city and the farther away from the zombies, the safer they will be.

For the time being, this land has not been planted by humans. In order for Beiyuan to bring out the humans in the mountain, Li Tian can also give Beiyuan a priority to select and give Beiyuan corresponding preferential conditions. The purpose is to attract other people to rent Li Tian's land.

Therefore, Li Tian intends to divide this Kirishima City into ten areas suitable for human life according to the actual situation, and then let the ground yaksha build high walls around these areas that can completely block the zombies, just like buckets, these humans can Live in this high wall.

Of course, Li Tian has another plan, that is, between these living areas, let the Dixing Yasha and the Void Spirit build several passages similar to viaducts, and link these ten areas completely through these passages. .

Of course, corresponding doors will be built on these high walls, but that's all for later.

If he said nothing, Li Tian sent Bai Jing to the space of Void Yacha, let Bai Jing rest well, and then let Dixing Yacha use his ability to walk in front of Beiyuan's sleeping room to build a wall to ensure Beiyuan It won't be eaten by other zombies or wild beasts, only then took the Earth Xing Yasha and flew into the sky with the mutant bat.

In the last days, the city of Kirishima was dark, and even a faint moonlight could not penetrate the entire darkness.

When he reached the sky, Li Tian pointed to the rivers, coasts, rivers, and highways on the ground, and pointed to Dixing Yasha one by one according to his requirements, and then he told Dixing Yacha all the thoughts in his heart.

"Master Li Tian, don't worry, although there is no help from the Void Spirit Race, this night is enough." Dixing Yasha said.

After speaking, Dixing Yasha jumped directly from the mutant crow, and then plunged into the ground.

Then, the sound of "rumbling" began to be heard under the entire ground, and a mud wall with a width of more than ten meters and a length of more than a few hundred meters and nearly a kilometer began to rise suddenly from the ground, probably until it rose to more than 20 meters. Only then did it stop, and then another wall began to rise next to the wall.

Don't look at the mud walls made by the Yaksha, but these walls are all built by the ability of the Yaksha to squeeze. This mud wall is much harder than ordinary masonry. With this thickness, Even the 15th level zombie fight needs to attack well.

About an hour later, the first area has been constructed. This area is close to the coast in the south, borders the town of Kirishima in the north, Tianjiangchuan in the east, and an inland river to the west. It is named the area of the land name by Li Tian. .

Among them, the East Kyushu Expressway crosses this area from east to west, and the Jixing Yasha has taken great pains not to damage this road. After the construction of Dixing Yasha, this driveway became a tunnel, so even if there are zombies passing here, don't even want to enter this area.

After that is the largest area just to the east of the Dizi area, which was named Tianzi area by Li Tian, and the area on the west was named the Herringbone area.

It should be noted that there is a seafood farm in this herringbone area.

After the advent of the end times, the people here have already run away, and the seafood cultivated in this farm has grown naturally after three years, and now it is fully harvested. This is also an unexpected harvest.

And when Dixing Yasha was building the walls of these areas, Li Tian was not idle either.

Li Tian used the nine-color corpse crystal to release countless transparent silk threads, found all the zombies hiding in the three areas of heaven, earth and people, and controlled all these zombies, and then let these zombies come to Li Tian by themselves. To die.

This night, there were only thousands of zombies who died under Li Tian's "Red Slash". To say nothing, there were thousands of zombies. The corpses of zombies were piled up like a mountain.

But after Li Tian beheaded, all the funerals in these three areas were beheaded clean.

Early in the morning, the first ray of sunlight shined through the window into the room, and Kitahara Yigulu got up from the bed.

Recalling last night, Beiyuan faintly heard that the land was "rumbling", like thunder, but he remembered what Li Tian said, so he didn't get up.

Now that it was dawn, Kitahara couldn't wait to walk out of the room, wanting to see what was going on outside that night.

Beiyuan walked out on tiptoe and saw Li Tian lying on a sofa sleeping comfortably, but the girl who shot him first last night didn't know where he went.

Kitahara opened the door dazedly, walked out of the room, and stretched. But as soon as his lazy waist stretched out halfway, he saw the entire courtyard full of zombies!

At this time, Kitahara was completely awakened, and sat on the ground with a fright, and there was a warm current in his crotch.
