

## A Killer 4001

### Chapter 4001: Secret Research Institute (3)

"Boy, I have arrived at this research institute now. If I find out that your kid dares to have such careful thinking, I will definitely kill you and all your friends! Believe me, even without you Iga Ninjas have the ability to break this research institute!"

Otsuka nodded slightly and said, "Are you sure you want to open this door? There is some danger behind this door!"

"Stop \*\*\*\*\* nonsense, are we Iga ninjas still afraid of this danger?"

Otsuka is not talking about entering the password quickly. .

"Boom!" With a loud noise, the alloy door slowly opened from the middle.

As soon as the alloy door was opened, a light immediately lit up on the top of the tunnel behind the door, which brightened the entire tunnel like daylight.

In the tunnel, a few zombies wearing gray costumes with guns hanging on their bodies rushed toward the alloy door with their teeth and claws at the moment they saw the alloy door opened.

When these zombies saw Otsuka's red eyes, there was a glimmer of doubt, and then the two zombies rushed to the ninja behind Otsuka.

Otsuka hid aside after making a horrified cry.

This ninja had no idea that there would be zombies in the secret research institute, but he was only taken aback, and the expression on his face was completely restored.

The ninja sword in this ninja's hand was horizontal and rolled on the spot, and then his ninja sword easily cut off the legs of these zombies.

"puff!"

"puff!"

After a few sounds, the ninja could easily kill the zombies even though he had injuries on his leg.

There was a trace of sadness on Otsuka's face. He was feeling sad for these zombies. If he hadn't opened the alloy door, these zombies would have lived longer.

Killing these zombies through this ninja Otsuka also knew that although this ninja had injuries on his leg, his strength did not decrease much.

"It seems that what I think is still too simple, and now I can only trap him and me in this research institute!" Otsuka thought in his heart.

These zombies were easily beheaded, and this ninja came to Otsuka's side again and said: "Boy, do you know that there are zombies inside?"

Otsuka nodded honestly without denying it, and then said: "When I came here a year ago, I found out that there were zombies here, so I closed the alloy door as soon as I opened it. I only know that there are zombies here, but I don't know what is going on in this research institute!"

"So, I will tell you the passwords and opening methods of the remaining four doors, please let me go!"

The ninja snorted coldly and said, "What are you afraid of? As long as there is me, even a level ten or above zombie can't help me! Just follow me, and I guarantee your safety!"

This ninja is not a fool, how could he let Otsuka go away like this.

After Otsuka and the ninja entered this alloy door, the alloy door slowly closed automatically!

...

After an hour's flight, Li Tian and He Tian finally flew over the highway.

"Look at it, Master Li Tian, this is the road. As long as you walk along this road to the end, you can find the secret research institute!" He Tian said with an excited expression on his face.

On the way here, Tsuruta not only pointed the way but also told a lot about Otsuka and the children in the village. It can be seen that after these children lost their parents, their lives are very difficult, but they are very optimistic.

Among them, Otsuka can be said to have contributed.

Through Hetian, Li Tian knew that the parents of the children in the village were basically scientific researchers in the secret research institute. The parents of these children rarely return to the village, and only Otsuka and Tsuruta know about the existence of this secret research institute in the few opportunities for contact.

Otsuka's father, Otsuka Kuangren, and others are studying zombie viruses here, and in the last year, the zombie research institute has made great progress in the study of zombie viruses.

But then I didn't know that from that day on, the parents who were doing research in the secret research institute never came back to see these children.

Suddenly, one day, Otsuka Kuangren returned to the village, but he did not see anyone except General Otsuka, and since then, Otsuka Kuangren has never appeared again.

In the next few months, Tsuruta and Otsuka once went to the secret research institute, but Tsuruta just waited outside the tunnel, and only Otsuka entered the research institute.

So Tsuruta didn't know the specific situation in the institute.

This information is already very useful to Li Tian, and Li Tian does not expect that this secret research institute can really develop an antidote to the zombie virus.

During the chat, in return, Li Tian would also tell Tsuruta about the outside world.

Of course, Li Tian also told Hetian about the situation in West Jiuzhou. Although Li Tian did not exaggerate the slightest, when he heard that there were almost no zombies in West Jiuzhou, Hetian still showed a longing expression on his face. Even Tsuruta said that when Otsuka was rescued, they all wanted to follow Li Tian to live on West Jiuzhou Island.

At this moment, Tsuruta was yearning for this kind of life in his heart, but the \*\*\*\* reality soon made him wake up from this kind of vision.

"Lee... Master Li Tian, you see there are footprints in the grass on the highway, Otsuka and the others have gone to the research institute!" said Tsuruta.

In fact, I don't need to say that Li Tian has already seen it, and Li Tian also knows that the footprints on the grass are relatively new. This shows that it will not be long before Otsuka and the ninja have just walked past.

At least they walked past here after the heavy rain stopped.

"If you don't want to see the pictures you don't want to see, we have to hurry up!" Li Tian said.

Tsuruta nodded heavily, then stretched out his hand to hold Li Tian's arm, looked up at Li Tian and said, "Let's hurry up!"

Li Tian immediately gave the mutant crow an order, and the mutant crow flapped its wings faster and flew low and fast along this highway.

The speed of the mutant crow has reached the fastest speed, which can be said to be much faster than the speed of the Shinkansen. The flashing wind even swayed the grass on the ground on the highway.

Ten minutes later, Li Tian and Hetian had already appeared in front of the tunnel. Li Tian readily sent the mutant crow into the space of Void Yaksha, and then brought the small hot pot out of the space of Void Yaksha.

#### Chapter 4002: Secret Research Institute (4)

He Tian has been impressed by Li Tian's various magical abilities, but when he saw the small hot pot, he couldn't help showing a surprised expression on his face.

"Outside...Aliens?" This is the first type of human life that Tsuruta has seen outside of humans. Naturally, he will treat the little hot pot as an alien, but this is just what he thought of, and he didn't dare speak out.

The small hot pot is the largest mobile fire source, so the tunnel is not dark. He Tian followed Li Tian and moved quickly into the tunnel, and soon came to the alloy gate!

At this time, several zombies were already lying in front of the alloy door.

"Li Tian, these zombies have not been long since they died. It is conservatively estimated that it will not take more than half an hour!" Little Hot Pot said.

Li Tian looked at the alloy door and said to Hetian: "Do you know how to open this door?"

When Tsuruta saw this alloy door, he almost started to cry. He cried and said, "I don't know... Otsuka has never brought me in!"

"Don't cry, there is me here!" Li Tian said.

The little hot pot originally wanted to use his magma to melt the alloy door, but when he thought of Li Tian's terrifying attack power, he retreated to the right wittily.

Li Tian's heart moved "Red Zhan" to fly, and then "Red Zhan" quickly scratched the alloy door a few times. Although the hardness of the alloy door was high and the thickness was sufficient, it was in front of "Red Zhan". , This alloy door is nothing more than that.

When "Red Zhan" slashed across the door, Li Tian had already stretched out his arm and pressed it against the alloy door.

"Cracking!"

Several purple electric snakes followed Li Tian's arm directly into the alloy door that was cut out by the red cut, and then the alloy door melted away at a speed visible to the naked eye.

When Tsuruta grew up, his mouth was surprised and he didn't know how to express it.

Although he knew that Li Tian was very powerful, even more powerful than many ninjas, he was still full of surprise when he saw this scene before him.

"Otsuka-kun is really saved now!" This is Tsuruta's true thoughts.

After entering the alloy door, it just melted, and the lights inside have been shining out. After Li Tian, Xiao Hotpot and Hetian passed through the alloy door, they found that the inside was still a tunnel, and the tunnel was only about fifty meters away. Distance, here is another alloy door.

This time Li Tian had already controlled "Red Zhan" to fly out before he saw the alloy door, and when "Red Zhan" was slashing across the alloy door, Li Tian ran and performed "Broken Soul Fist"., four or five consecutive punches hit the alloy door, and the alloy door that was "red cut" was directly blown away by Li Tian.

Li Tian saw Tsuruta following behind panting, turned his head and said to Tsuruta: "Boy, now I am going to save your friend. If you can keep up with me, then you will follow me, if you follow If you can't get up to my speed, you just wait here, and I won't accommodate your speed!"

"I can!" Tsuruta said firmly.

Li Tian nodded secretly in his heart. Although these boys are not of my race, if they are properly trained, they may be able to become the backbone members of the Celestial Realm in the Eastern Island.

This thought flashed through Li Tian's mind. Li Tian had already passed through the alloy door again with the small hot pot.

What Li Tian didn't expect was that there were such five alloy doors in this tunnel, and there would be some corpses of zombies in every two alloy door tunnels.

When he saw these zombies, Li Tian had a basic judgment in his heart.

This secret research institute may have really made a breakthrough in the study of zombie viruses. Although there are zombies in this tunnel, Li Tian can see that these zombies are already similar to those in the outside world. Different.

The skin on their bodies is close to human skin, and there are no protruding white bones and beast-like fangs on their bodies. If the biggest difference between them and humans is probably the scarlet eyes and sharp claws.

Since there is such an important thing in it, how can Li Tian allow others to get involved.

Li Tian's mind is controlling this "Red Slash", and there is already another Heavenly Qiong Spear in his hand, and on this Heavenly Qiong Spear and his arm, a dozen purple electric snakes are swimming cracklingly. Walking.

At this moment, in the veins in Li Tian's legs, seven or eight small fishes swim happily in this vein, and as Li Tian's exercises work, the pond in Li Tian's heart Bibo unexpectedly rushed into the veins and warmed the veins in Li Tian's body.

Li Tian only felt that his whole body was full of energy, and his legs rushed, the speed has been far beyond the small hot pot, and He Tian was already invisible by Li Tian.

"Huh!"

Li Tian's figure flashed in from the last alloy door, and Li Tian saw that behind this alloy door was another world.

This can no longer be described as a tunnel, but a huge space.

Of course, this space is not a single level, but is divided into three levels, the upper, middle and lower levels. Instead, Li Tian's current location is the upper level.

Li Tian glanced around at random, and found that the area of this space may have exceeded thousands of square meters, and in this thousands of square meters of space are placed computers and other precision instruments.

But at this time, these instruments are covered with dust, and it can be seen that they have not been cleaned for a long time.

But at this time, Li Tian's focus was not on these, but the corpses of zombies lying all over the instrument in the passage of this space.

From the outside, these zombies are even closer to humans than those in the tunnel, and after these zombies die, their bodies are no longer completely black mucus, but a kind of black-red blood.

Li Tian squatted beside the corpse of a zombie and reached out his hand to touch the corpse of the zombie. Li Tian found that the body of the zombie still had body temperature.

"This...this...how can zombies have body temperature?" Li Tian's heart was full of shock.

But at this moment, Li Tian heard an exclamation from below the ground, and Li Tian heard the sound of fighting.

"boom!"

"boom!"

The sound of things being destroyed or something exploding came from under the ground. Just listening to the sound knew that the fighting was very intense.

"Damn! This research institute is mine! Who allows you to destroy it!"

Li Tian stood up abruptly, accelerated and dashed forward a few steps, then jumped and jumped from the huge patio in the middle of this space.

Chapter 4003: Mine (1)

"boom!"

With a loud noise, Li Tian went through a free fall of seven or eight meters, and slammed heavily on a ground on the bottom layer, and Li Tian stepped out of a pit on the concrete floor.

Li Tian looked around and found that the bottom layer was already in a mess. In this space of more than 500 square meters, several places were already on fire. Although the flames were not very high, at this time, the entire space smoke is already billowing in the middle.

In the thick smoke, the two figures tangled together.

This dense smoke triggered the fire alarm system, and the alarm automatically started to sound. With the automatic sounding of the alarm system, the fire door in this space automatically landed down, seemingly to completely seal the fire.

But these fire doors may be used for fire prevention or for some purposes, but they do not seem to have any effect on the two figures fighting in the thick smoke.

"boom!"

A figure flew out from the thick smoke and landed on a desk next to Li Tian, destroying the desk and all the office supplies on it.

The figure that was blasted out saw Li Tian, and his gaze swept across Li Tian's body. When he saw Li Tian, there was a hint of surprise in the figure's eyes, but his eyes soon recovered. It was normal, and his vision did not stop too much on Li Tian's body before looking at the billowing smoke again, and his body rushed into the billowing smoke like a bolt of lightning.

It was only a brief glance at each other, but Li Tian's face showed a surprised expression.

"Yes, that's him! This is absolutely not wrong!" Li Tian's heart felt a joy, and he kept saying to himself.

This figure gave Li Tian the feeling of a ninth-level zombie.

And at the moment that figure and Li Tian looked at each other, the nine-colored corpse lotus in Li Tian's heart automatically released some transparent silk threads into the figure's mind.

Through these transparent threads, Li Tian's judgment was also confirmed. This guy is a zombie, at least there is a corpse crystal in his mind.

However, this guy's appearance did not have the slightest zombie characteristics. From the outside, he was indistinguishable from a human being. Even when he was angry and fighting, his zombie attributes were not revealed at all.

There is only one explanation for this situation, that is, this guy is no longer a zombie, maybe he used to be a zombie, but now he has basically broken away from the attributes of a zombie, and his powerful combat power during the zombie period is perfectly preserved. Down.

This should be the research result of this secret research institute.

Li Tian knows that any new medicine needs an action after its birth, which is called a clinical trial. Li Tian guessed that the reason for this zombie's change might be the result of clinical trials.

The result of Li Tian's guess is almost the same as the actual situation.

It turned out that in the second year of the end of the world, under the leadership of Otsuka Marina, this secret research institute had already made some progress in the study of zombie viruses.

But at that time all the research results were based on theory, and the low-level zombies caught by this zombie research institute had been exhausted in the research process of the past year, and there were no more experiments for them in the entire research institute. Zombies.

There is only one way before them, and that is to use their own bodies as test objects.

This requires great self-sacrifice.

These crazy researchers can no longer take care of so much. In order to get the entire humanity free from the zombie virus as soon as possible, these researchers have chosen to sacrifice themselves.

The first choice to sacrifice was the soldiers of this secret research institute. They injected zombie viruses to turn them into low-level zombies in just a few days, and then treated them through the injection of zombie virus antidote. .

But the first research results were not successful. The antidote to the zombie virus did not completely eliminate the loss of the virus, and the soldiers who guarded them became like zombies.

They are the zombies killed by the ninja in the tunnel.

After these soldiers, this secret research institute made further improvements to the antidote to the zombie virus, and it was the grassroots researchers in this institute that conducted the zombie virus test, but this one time improvement was just to make the zombie virus antidote. It was bigger, and the zombie virus was not completely eliminated either, and these researchers eventually became the zombies on the top layer.

But fortunately, these zombies after treatment with the antidote to the zombie virus, although the zombie level is very low, they have basically restored human consciousness, and even some of their physical functions are the same as humans.

At that time, there were only four or five humans left in the entire research institute, and among them were Otsuka Kuang people. The Otsuka Madman was entrusted by everyone and went back to the village where the children lived to see the children.

Master Otsuka separately told General Otsuka about the research situation in the entire research institute, and told General Otsuka that if he could return after three months, then their antidote for zombie virus had been successfully developed. If he does not return after three months, then let Otsuka take care of the children.

Before leaving the village, the people of Otsuka gave an injectable zombie antidote reagent to General Otsuka and told General Otsuka that if normal humans were injected with this reagent, they would be completely immune to the zombie virus.

"Hahaha, you are not my opponent! Now this research is full of smoke and flames. If you keep entangled in this way, then your son Otsuka will die because of breathing problems. I believe This is definitely not what you want to see more!"

"Therefore, I advise you to catch it obediently and hand over the antidote to the zombie virus that you are guarding. I can guarantee that your father and son are safe and sound, and that you and your father and son will become the heroes of Dongying Island Kingdom!" The ninja said with a sneer.

It can be seen that although the ninja's legs are a bit staggering, his strength is still very strong, and the ninja zombie is not the opponent of that ninja at all.

"Impossible! Even if both of us, father and son, died here, we will never give you the antidote reagent for the zombie virus that we exchanged for our lives!" the ninth-level zombie roared.

"Flap!"

"Flap!"

Li Tian stood up and clapped his hands, walked slowly towards the dense smoke, and said as he walked, "Well said, all the things in this research institute are now owned by me, Li Tian, how could it be given to this? Such an ungrateful shameless person!"

Chapter 4004: Mine (2)

"Li...Li Tian!"

The ninja was shocked when he heard the name Li Tian, and even his voice trembled a bit, because the name Li Tian now has the same reputation on Honnakashu Island as the abdomen and the warrior. The same name.

This ninja never expected to meet Li Tian here, but how did Li Tian get here?

"Could it...could it be the children in that village? Damn, I knew I should have killed all those \*\*\*\* children, so that Li Tian wouldn't get involved in it!" The ninja thought in his heart. .

"The things in this research institute are too important. We must find a way to make Li Tian retreat in the face of difficulties!"

The ninja rolled his eyes and said to Li Tian, "Li Tian, this is our Iga Ninja's business. I advise you not to interfere!"

Li Tian sneered and said, "Don't you hear what I'm saying? Then I'll repeat it again. This institute is now my Li Tian's. I advise you to get out. If you irritate me, Li Tian, you Maybe you can't go if you want to go!"

The ninja's face was full of anger, but he still resisted the anger and said, "Li Tian, it's good for both of us if you don't intervene in this matter. In exchange, I can tell you who blamed you. Yes, who is provoking the grudge between you and our Iga Ninja!"

The reason why this ninja appeared in this valley was precisely because he encountered the old man who had blamed Li Tian while investigating this matter, and this ninja had sacrificed more than a dozen companions. Only barely escaped.

But in the end he fainted due to excessive blood loss, and was later rescued by the kind-hearted boy General Otsuka.

"Oh? You know I was wronged, that would be great! But what does the blamer have to do with me? He killed you Iga Ninja people. There is no loss for me, Li Tian, to deal with The blamer is also your Iga Ninja's business!" Li Tian said with a slight smile on the corner of his mouth.

The ninja had a blank expression on his face, but he could not refute Li Tian's statement.

"But... but aren't you afraid of being an enemy of the Iga Ninja Organization? Our Iga Ninja is the oldest ninja organization in Eastern Japan, and any of our ninja organizations is also the strongest among the ninja organizations!" Said the ninja.

"But there is no use for eggs! Abdominal Tiancong defected to the reputation of the Iga Ninja organization, but you did not even let go. The Koga Ninja organization is like a sting, just near your Iga Ninja organization. And you are equally helpless, and although the martial arts organization of the fierce martial artist can occupy a limited area in Honzhongshu, the largest cities on this island of Nakashu are in his hands, and even the fierce martial artist will kill the ninja of the Iga ninja at will. Zheng Zang dare not complain!"

"As for me, Li Tian, hehe, I always welcome you Iga Ninjas to trouble me. Oh, I forgot to tell you. When I was in Xiaoyantian, some guys called Shangqiao and Tree Planting came to harass me. Kill!" Li Tian seemed to be talking about an insignificant thing, and there was no extra expression on his face.

At this time, the small hot pot arrived here, and the small hot pot had jumped down from above, and quickly came to Li Tian after landing.

"Li Tian, the kid He Tian didn't dare to come down, and he's still waiting for us right now!" Little Hot Pot said.

"He Tian... is He Tian? What is your relationship with He Tian?" The zombie Otsuka Marina said to Li Tian and Xiao Hotpot.

Li Tian pondered for a while and said, "We are friends! We were officially rescued by Tsuruta to the institute to save Otsuka-kun!"

Masato Otsuka's face was full of joy, and he said, "Otsuka! Otsuka fainted in the laboratory near inside, but this guy pestered me so that I couldn't save the child. I don't know the two. Can you help me deal with this ninja, I will have to thank you again then!"

"Don't worry, go! There is me here!" Li Tian said.

As soon as the Otsuka Marina was about to leave, the figure of the ninja flashed, and once again stood in front of Otsuka Marina, and said with a smile: "Hahaha, I want to go, dream! Now the flame has completely burned, if If you don't escape now, I'm afraid that none of you will have time to escape. If you don't hand over the antidote reagent for the zombie virus, then you will accompany me and die together!"

This ninja only said this name because he had calculated it in his heart.

He thought that Li Tian's status and reputation are far higher than him, and he must be reluctant to die here. Then as long as he can escape Li Tian's pursuit, Li Tian will inevitably compromise, and this Otsuka Kuang people will save his son. Sincerely, I definitely don't want to continue entangled with him, so he will also compromise, and then he will be the winner here, as long as he gets the antidote to the zombie virus, he will immediately run away.

But as soon as his words fell, he saw that the little monster following Li Tian suddenly opened his mouth and swallowed up the smoke and flames in this space.

In just a few seconds, the flames in this space were completely extinguished, even cleaner than fire fighting.

The little hot pot patted her belly and said dissatisfied: "Not enough, not enough, not full, not full!"

"Would you like to set the light on again? I promise that Li Tian won't stop you?" Said the little hot pot and said to the ninja bashfully.

The ninja was completely dumbfounded.

He knew that Li Tian was powerful, but he still wanted to use the dense smoke and flames in this space as a cover to circle Li Tian, but now the flames had been completely eaten by this little monster.

"Huh!"

Li Tian teleported out beside the ninja. The ninja didn't even have a chance to react. The spear of heaven in Li Tian's hand had penetrated the ninja's chest.

"you you....."

The ninja felt the heat from the body was losing rapidly, and couldn't help but want to reach out and grab the Qiong Spear in Li Tian's hands, but as soon as his hand grabbed the Qiong Spear that day, he saw several purple electric lights. The snake came up from this spear.

In an instant, the ninja was decomposed and disappeared without a trace.

Li Tian turned the spear in his hand a few times and put it away, and said with a sneer: "I told you just now, if you don't run away, I'm afraid there is no way to escape, but you don't listen to the advice. Now you should believe it! "

When the people of Otsuka saw that Li Tianyi shot the ninja easily, he couldn't help but shed some cold sweat.

"This man is too strong, where did he come from?"

"Fortunately, fortunately, he is a friend of Tsuruta-kun, at least he won't mess with us?"

At this time, Li Tian suddenly turned his head and showed a weird smile to Otsuka Kuangren and said: "You don't need the heavy thanks you just said. The research institute I said belongs to me, Li Tian, you should have no opinion!"

Chapter 4005: Save people

"No...no opinion!" Said Otsuka Marina.

A smug smile flashed across Li Tian's face and said: "Don't take it too seriously, I just said it, now we still need to save people!"

Mr. Otsuka immediately brought Li Tian and the small hot pot to the laboratory where this space was divided. On the ground of that laboratory, he saw General Otsuka who had passed out!

Li Tian put his finger under General Otsuka's nose, and could feel General Otsuka's breathing weak. Li Tian suspected that when Otsuka would breathe in just now, he must have inhaled a lot of toxic gases such as carbon dioxide, but it was Li. It can be said that the people of Tianhe Otsuka do not know anything about medicine, and they cannot judge the current situation of Otsuka.

"What should I do? What should I do?" Otsuka has been confused, and has no idea how to deal with the current situation.

"Shut up!" Li Tian turned around abruptly and shouted at the Otsuka Kuangren.

The expression on Otsuka Marina was startled, but he didn't dare to say anything.

Li Tian stretched out his hand and tried to make Otsuka wake up by pinching people, but this trick seemed to be useless, and Otsuka would not have the slightest intention to wake up.

"Because the ventilation equipment in the explosion underground has stopped working, the oxygen content in this space is too low, and he may have inhaled some harmful gas when he was breathing just now. If he doesn't want him to become a fool or maybe If it's a vegetable, we must take him out of here." Li Tian said.

Li Tian blamed himself a little, why didn't he bring Windsor here when he came here.

But at this moment, when he fought with that Iga Ninja, he was unscrupulous and acted like a wolf like a wolf. Now he was at a loss and helpless.

No matter what Li Tian said, he agreed with him.

"Now I'm sending you to a place where the oxygen content is much higher than here, but don't feel strange no matter what you see, you should now wholeheartedly consider the safety of General Otsuka!" Li Tian said.

The man from Otsuka nodded repeatedly.

Li Tian directly reached out and sent Otsuka General and Otsuka Marina to the space of Void Yasha.

Kuangren Otsuka just didn't know what Li Tian meant by what he said. He also nodded to Li Tian politely, but his eyes blinked, and he appeared in another dimension in an instant.

This space looks like a luxuriously decorated room, and there are still a few people in this room staring at him.

As a ninth-level zombie, he has a preliminary feeling for people who are stronger than his own. The people of Otsuka Kuang did not expect that the strength of these people in this space would far exceed him.

And beside these people, there are a few strange little things. These little things are ugly and obviously do not belong to the creatures of the earth world, and these little guys also stared at him with unkind eyes, while four The energy released by the little guy is also stronger than him.

Fortunately, Li Tian also came to this space with him, otherwise Otsuka Kuangren's heart would be full of anxiety!

"You and General Otsuka will stay here first, I will take you out, leave this research institute and return to the village. Maybe someone in that village can treat Mr. Otsuka!" Li Tian said.

After speaking, Li Tian stretched out his hand and patted a few more times, and sent Gao Bi, the mysterious female lily, Shen Tao, Dixing Yasha and Feitian Yasha out of this space, leaving only the mutant crow, the void Yasha and the Hai Yasha. !

When the people of Otsuka Kuang saw those fierce and evil people being sent out by Li Tian, his heart was slightly relieved.

And he just wanted to say thank you to Li Tian, but Li Tian took the mutant crow and disappeared from the space of Void Yasha.

Void Yasha and Li Tian have already passed through the Mind God Gully, so Void Yasha knows the current situation very well. Seeing the worried expression on Otsuka Kuang's face, Void Yasha said: "Don't worry, since my master Li Tian He said he would be treated for this child, then he must have a way, so you don't need to worry anymore!"

It's okay for Void Yasha not to speak. As soon as he spoke, the surprised expression on Otsuka's face became even stronger.

Looking at Otsuka Kuangren's expression as if he was looking at a monster, Xu Yasha's heart was upset.

He directly took Hai Yacha and walked out of the space.

At this moment, Li Tian had already led everyone out of the research institute and entered the tunnel, and Li Tian had already arranged things for everyone.

Gao Bi, Shen Tao, Mysterious Female Lily and Xiao Hotpot are jointly responsible for the guardianship of this research institute. According to Li Tian, this research institute already belongs to Li Tian, no matter who does not get Li Tian's permission, Anyone who attempts to enter the research institute is an enemy, and people like Xiao Hotpot have the right to kill them.

As for Hetian was also sent into the space of Void Yasha by Li Tian, perhaps at this time only Hetian stayed with Otsuka and his son, they would not feel pressure.

While Void Yasha and Hai Yacha thought about sitting on Li Tian's shoulders and following Li Tian, but they were sent directly into the space by Li Tian.

Li Tian needs to know the situation of General Otsuka in that space at any time, so Void Yasha and Hai Yasha must stay in the space. Then Li Tian jumped on the mutant crow to let the mutant crow take him to fly to which mountain village.

This time, the mutant crow can fly at an open speed, and there is no need to follow that road or path. The flight speed is naturally much faster.

At this moment, the sky outside has cleared up, but the clouds have not yet cleared, the sun has begun to set west, and the entire western sky is red.

The mutant crow spread its wings and flew high, and after less than half an hour, it had returned to the mountain village before the afterglow of the sun had completely disappeared.

There was no change in the mountain village and when Li Tian left. Li Tian let the mutant crow fall in front of the only building with lights, and then opened the door and walked in.

"Little boss, why are you back? How about that kid Hetian? He didn't run away?" Tang Xiaolong asked suspiciously after seeing Li Tian.

Li Tian shook his head and came to this living room.

Seeing Li Tian, the eyes of the children who were sitting in the living room just now eating dry food immediately looked behind Li Tian, but they did not see He Tian.

There was a hint of fear on the faces of these children.

Li Tian didn't have time to explain to the children at this time, and directly shouted at the children in Dongying language: "Keep a little bit open and make this living room free for me!"

Speaking of Li Tian, he brought Tsuruta and Otsuka Kuangren out of the space of Void Yasha, and then he brought Otsuka General from the space.

"Windsor, come and save people!" Li Tian shouted.

Chapter 4006: Li Tian is a good man

After seeing Tsuruta and General Otsuka, the children cheered in a low voice. They did not expect that Li Tian would actually rescue General Otsuka back.

However, seeing Otsuka still in a coma, the faces of these children are also full of worry.

However, these children seem to know that they will not have any effect if they continue to stay here. On the contrary, it may affect the treatment of General Otsuka by Li Tian and others, so they all retreated from the room and surrounded them. He came to the courtyard with He Tian, and kept asking He Tian Li Tian how to rescue Otsuka!

And Tsuruta told these children what he saw and what Otsuka Marina told him to him. After listening to Tsuruta's narration, Li Tian immediately took it to the minds of these children. Became the savior beyond Ultraman.

When Tsuruta told the children about Li Tian's heroic deeds, Windsor had already begun to treat Otsuka.

In the eyes of Windsor, Otsuka made this situation not a disease at all. After Li Tian learned about Otsuka's situation, the stone hanging in his heart also fell.

After landing, Li Tian thought of something more, and then said to Windsor: "Wait a while you pretend to be treating this Otsuka, but don't be serious, we have to pretend to try our best to rescue!"

"Why? Brother God, you have to know that if this situation is not met with me, the intelligence of this general Otsuka will be greatly affected, and the longer this situation is delayed, the more this situation will be. Danger!" Windsor said.

Li Tian cast a look at Windsor and said, "Did you see that adult man? His name is Otsuka Kuangren, who is the big cow who has won the Nobel biological general as mentioned by Tsuruta, and the secret research He is also presided over!"

"He... isn't he dead?" Windsor tried to make her tone a little calmer.

"Strictly speaking, he is dead. What you see is not him anymore. He is now a zombie!"

"Zombie? How is it possible? Why doesn't his body even have any missing features?" Windsor asked suspiciously.

"Because he has been injected with the zombie virus antidote they developed. Although this antidote cannot completely eliminate the zombie virus, it can already restore more than 90% of the human characteristics of these zombies. This study is the most complete antidote to the zombie virus! At that time, we humans will get rid of the attack of the zombie virus!"

Li Tian paused, and then said: "However, this person considers the antidote to the zombie virus more important than his life. If it weren't for his son, if he is injured and needs treatment now, I am afraid that this person from Otsuka has already been with him. The ninja who kidnapped General Otsuka is gone! So, I need your cooperation and let him willingly give us the antidote to this zombie virus. It is best that he can come back to Xijiuzhou with us. !"

Windsor nodded and said, "My God, I will listen to you all!"

Windsor is a person with a medical ability, but her ability is helpless against zombie viruses, and because she is a medical ability, she has a deeper understanding of the importance of this medicine, so she There is no slightest dislike for Li Tian's plan.

Li Tian came to Otsuka Kuangren, Otsuka Kuangren immediately stood up and said, "Li Sang, I don't know how the dog is sick? I heard your Xiaoyasha say that you must have a way to treat the dog!"

"Don't worry, Mr. Otsuka, the young lady in front of you is the best medical ability player in our army! Do you know the ability person? Her ability goes far beyond ordinary medical skills and medical equipment, so Don't worry! But..." Li Tian did not finish speaking, but deliberately extended his voice.

"But what? As long as Mr. Li Tian can save Inuzi, I can satisfy you no matter what Mr. Li Tian asks!" Otsuka Kuangren said swearingly.

Li Tian quickly shook his head and said, "Mr. Otsuka misunderstood. I did not ask for anything. However, this friend of mine does not have any favor with you Dongying people in her heart, saying that she would rather save a stray dog than Willing to save Otsuka-kun, so..."

An awkward expression immediately appeared on Otsuka's face.

He knew that before the end of the world, the relationship between China and the four countries was very unharmonious. This was mainly because the right wingers of the four countries could not face history and always tried to provoke China.

As the winner of the Nobel Prize in Biology and the pride of the Four Kingdoms, he also waved the flag for the East and the right wingers.

"Puff!"

Otsuka Kuang directly knelt down in front of Li Tian, bent his waist, put his head on the tatami, and said: "Li Sang, as a native of Dongying, I will show you the shameless behavior of our country in the past. Apologies. It's the end of the world and the country has died out. Please also Li Sang to treat Dogs with humanitarianism! To show my sincerity, I am willing to share the research results of our institute with China!"

Li Tian snorted in his heart, and was not satisfied with Otsuka's attitude.

However, Li Tian immediately put on a surprised expression on his face, stretched out his hand to support Otsuka Marina, and said: "Mr. Otsuka is serious, this research result is your hard work. So please forgive me for not accepting Mr. Otsuka's kindness. ."

What Li Tian wants is for the people of Otsuka Kuang to follow him willingly and to give the research results of the institute to Li Tian free of charge, otherwise Li Tian can directly control the people of Otsuka with the transparent silk thread released by the nine-color corpse lotus. , And then take away everything in the institute.

"Mr. Otsuka, please don't get us wrong. We saved Otsuka-kun without any distracting thoughts. It was entirely because of my approval of Tsuruta-kun that we saved Otsuka-kun. And I also know that Otsuka-kun did this research The result is that you can make any sacrifices, including your life

and..." Said this, Li Tian intentionally or unintentionally looked at General Otsuka who was lying on the tatami mat who was still unconscious.

He Tian and other children had returned from the courtyard, and they happened to hear the conversation between Li Tian and Otsuka Marina.

"Mr. Otsuka! Mr. Li Tian is a good person! Please don't doubt Mr. Li Tian's motives!"

"Yes, Mr. Li Tian is a good person! And that sister just checked each of us and didn't ask us for anything!" These children said one after another.

"Mr. Otsuka, Mr. Li Tian now has control of the entire West Kyushu Island and South Shikoku Island, and Mr. Li Tian has migrated all the zombies from West Jiuzhou Island to the South Shikoku Island, which has already started on the South Shikoku Island. Research on the zombie virus! We have decided to go to West Jiuzhou Island to live together after we rescued Otsuka!" Tsuruta also said.

As if finally made up his mind, Otsuka Marina said, "I...I understand..."

Chapter 4007: Oncoming

Otsuka Kuangren still had doubts about Li Tian in his heart, but at this time, Otsuka Kuangren thought of the Iga Ninja who died in Li Tian's hands.

Thinking of this, Otsuka Kuangren couldn't help but feel a little disappointed.

"Even if the antidote for this zombie virus is handed over to the people of Dongying Island Country? It can be seen from the practice of that Iga Ninja. I am afraid that those in power in Dongying Island Country at this time are holding this Take an aggressive attitude! If this zombie virus antidote reagent continues to stay on my body, I am afraid it will only bring me death in the end."

Mr. Otsuka looked at Li Tian, and what he saw from Li Tian's face was self-confidence and a clear conscience.

"Mr. Li Tian, can I ask what is the situation in Dongying Island now?" Otsuka Marina asked.

Li Tian said: "Just like what Tsuruta said, now West Jiuzhou Island and South Shikoku Island are in my hands. I have migrated most of the zombies on West Jiuzhou Island to South Shikoku Island, and The humans of Nanshiguo Island have migrated to West Jiuzhou Island. It is no exaggeration to say that the current West Jiuzhou Island is the most suitable place for human survival in the earth world."

"Then...what about Ben Nakashu Island? You also know that this Nakazhou Island is the foundation of the entire Dongying Island country!"

"I don't need to say this. If I have a chance, I would take you out of this mountain range and take a look. You will know what is going on in this Zhongzhou Island!" Li Tian said.

"Are zombies still rampant? And do those in power still lead the life of drunkenness and dreams of dead wine pond meat forest?" Otsuka Kuangren asked.

Li Tian nodded slightly.

"Well, Mr. Li Tian, ask your people to treat the dog, I am willing to go to West Jiuzhou Island with you!"

When Li Tian heard this sentence, his heart was ecstatic. Although this Otsuka Kuangren is now a zombie, the reagent for this zombie virus was developed by him. If he can go to West Kowloon with Li Tian Zhou Island, the research strength of Li Tian's Zombie Research Institute will probably be greatly increased by then.

And Li Tian can already predict it, and it won't take long, maybe three to five months, the antidote to the zombie virus can be thoroughly studied.

Li Tianyou pretended to have a difficult communication with Windsor, and Windsor reluctantly agreed to treat Otsuka.

Windsor is even more able to perform. Originally, a simple treatment process, but she played extremely difficult, lengthening the entire treatment process to three or four hours.

Mr. Otsuka personally watched Windsor treat Otsuka with his own eyes, but he did not see any flaws. He was also full of gratitude to Windsor and Li Tian.

By the time Otsuka would wake up, it was already late at night. At that time, the other children had already fallen asleep, except for Li Tian, Windsor, Tsuruta and Otsuka Marina.

After Otsuka would wake up, Li Tian took Windsor and others back out, so that Otsuka and his son had a close space.

...

But this night is destined to be a restless night.

General Otsuka just woke up. He hadn't chatted with Otsuka Kuang, but Li Tian and others suddenly rushed in and directly turned off the light.

"What happened?" Seeing Li Tian's serious expression, Otsuka Kuangren seemed to have guessed something, and asked Li Tian.

"Iga Ninjas are here! This time, the number of ninjas is conservatively estimated to exceed one hundred! Hurry, hurry up and wake up the children and bring me here!" Li Tian whispered.

As soon as Otsuka ninja heard the number of more than 100 ninjas, his whole body was a little weak. For him, let alone so many ninjas, even an uninjured ninja, he is not an opponent. .

He tremblingly came to the window and looked out through the window pane. He really saw figures flying around the house in the distance.

Otsuka sensed that his body could no longer be controlled by him, and asked tremblingly, "So many ninjas, what...what should I do?"

"Don't panic, bring the children over, I will send you to my space to hide!" Li Tian said.

"Yes, yes, how did I forget this? As long as we all hide in Mr. Li Tian's space, even those ninjas will not find us here! If they can't find us, they will definitely be very Leave soon," said the man from Otsuka.

"What about the Secret Research Institute? They are here for the Secret Research Institute. If they can't find us, then with the strength of these ninjas, they will soon look for the Research Institute. Then you will protect everything. It's all gone!" Li Tian said.

"No...it doesn't matter, don't you Huaxia have a saying that you should keep the green hills and you are not afraid of not burning? I have some zombie virus antidote reagents on my body. As long as I am fine, we can start research soon of!"

Li Tian didn't want to just give up the research institute to these ninjas, and Li Tian was also worried that if these ninjas found the secret research institute, the small hot pot, Jixing Yasha and others would be able to hold the research institute.

"Since it's here, just stay!" Li Tian said with a sneer in his heart.

Tang Xiaolong, Situ Ningbing and others did not sleep dead. The ninjas were already awake when they first entered the village. They didn't need Li Tian to greet them, and they brought the children to Li Tian's side.

Seeing the horrified expressions of these children, Li Tian felt a little unbearable. He sent these children into the space of Void Yasha together with Otsuka Kuangren, and calmed down a few words to make these children not have to worry. Walked out of the space.

"Little boss, how do you fight?" Tang Xiaolong said excitedly with a fist and a palm.

"Li, these ninjas are probably the elite of Iga Ninjas, and there are so many ninjas, we must be careful!" Situ Ningbing also said.

There was a sinister smile on the corner of Li Tian's mouth, and he said with a sneer: "Don't say there are more than a hundred ninjas, even if there are hundreds of ninjas, I'm afraid it won't be enough to stuff my teeth!"

Li Tian has this strength and confidence!

"Little boss, you can't play alone. This time I will fight with you. After getting your guidance, I haven't exerted my strength yet!" Tang Xiaolong said.

"Don't worry, I will let all of you kill enough this time!"

Speaking, Li Tian confessed to Situ Ningbing, Xue Ji and Tang Xiaolong, and then sent them into the space of Dixing Yasha and Feitian Yasha.

Then Li Tian held the Qiong Spear of the Sky and walked out in a stride, pretending to roar at the night sky: "Come on, little devils, grandpa is here!"

Chapter 4008: Slaughterhouse (1)

In many cases, Li Tian is a joke.

Suddenly shouting at this voice in the middle of the night made the ninjas who were a little nervous in their hearts suddenly startled. The ninja standing on the ground is better, even if he is scared, he won't be scared to fall. However, the ninjas who flew back and forth on the roof of the village were so frightened that they slipped and fell directly into the roof of the house.

"Bigga!"

Several ninjas rushed towards Li Tian with a ninja sword in their hands, and surrounded Li Tiantuan. However, although these ninjas surrounded Li Tian, they all felt a strong killing intent on Li Tian, so they did not dare to act rashly. And for the sake of the place Li Tian suddenly started, the ninja swords of these ninjas were all held horizontally, and the tips of their ninja swords were aimed at Li Tian.

"Stop it!"

A voice came from behind these ninjas, and then a young man who looked like a leader walked out from behind these ninjas.

The young man was less than forty years old, and did not wear any ninja mask or protective gear on his face. The man's face was sickly pale. After saying these three words, he coughed violently.

"Master Kurokawa, it was this kid who yelled just now!" A ninja stepped forward and said to the young man who was coughing.

The young man's name was Kurokawa Ieyasu, the deputy leader of the Iga Ninja Organization. He was once a genius ninja with almost the same prestige as the abdomen Tian Cong. Later, because of practicing a certain forbidden technique, the root cause of his cough came down.

Ieyasu Kurokawa walked around Li Tian a few times. He looked at Li Tian up and down as he walked, and then said calmly, "Who are you? Why are you here?"

Li Tian also felt a kind of dangerous message in the man of this year. Although the man did not draw out his weapon, his calm tone was more like a hidden knife, as if he could be unsheathed at any time, right. Li Tian attacked the same.

There was a sneer at the corner of Li Tian's mouth, and he asked, "Who are you? The people who jumped on the roof of the house at night, don't you know that there is a game in this building? Don't you want to go to work tomorrow? Is there a sense of ethics?"

Hearing Li Tian's words, Ieyasu Kurokawa's brows frowned, his face full of anger.

Since the end of the world, no one has dared to speak to him like this for a long time, even if the abdomen of the Iga Ninja, or the leaders and deputy leaders of the Koga Ninja, are polite to him.

However, this anger only flashed, and Ieyasu Kurokawa's face returned to normal.

As the deputy leader of the Iga Ninja, if there is not even this city, then Kurokawa Ieyasu will not be able to assist the belly Masazo to manage the entire Iga Ninja organization.

Moreover, Kurokawa Ieyasu led the absolute core elites of the Iga Ninja Organization to come here not to quarrel with the kid in front of him. Compared to the antidote to the zombie virus, everything else is not worth mentioning, otherwise this time Iga Ninja would not take this matter so seriously, let him come here with Ieyasu Kurokawa and over a hundred elite ninjas.

"This is the place under the jurisdiction of Iga Ninja. We are looking for a group of seven or eight-year-old children. I wonder if you have seen these children?" Kurokawa Ieyasu endured his anger and said to Li Tian.

After speaking, this Kurokawa Ieyasu coughed several times continuously, and as his coughing worsened, Li Tian felt that the sword intent on Kurokawa Ieyasu's body became stronger, as if the sword was out of its sheath. Every word contains powerful attack power.

Sure enough, Li Tian, who was saying this by Kurokawa Ieyasu, saw that the ninjas surrounding him either shook their heads or closed their eyes, as if they were struggling to resist Kurokawa Ieyasu's attack. general.

"It's such a powerful strength, the strength of this tuberculosis ghost seems to be the same as that of the abdomen sky cluster!" Li Tian thought.

But I just wanted to use this skill to frighten Li Tian. Ieyasu Kurokawa thought it was too simple. Li Tian sneered, "You are really rude. You haven't answered my question, and asked again. My second question! This is not fun!"

Seeing Li Tian's relaxed expression, this Kurokawa Ieyasu was startled, and Kurokawa Ieyasu's face gradually showed a trace of anger.

"Cough! Cough!" Kurokawa Ieyasu coughed more and more quickly, and his coughing voice became louder and louder, and soon Kurokawa Ieyasu coughed up bloodshot eyes.

Seeing Kurokawa Ieyasu coughing and coughing up bloodshot eyes, the faces of those ninjas could not help showing fear. They stepped back a few steps, and then roared at Li Tian: "Boy, you give us Kurokawa quickly. Your lord apologize, otherwise you will die and be ugly!"

These ninjas knew that Li Tian was already a mortal man, but they were thinking more about not implicating them because of Li Tian's ignorance and letting them suffer along with them.

"Boy, you successfully angered me! Ahem! Ahem!" Kurokawa Ieyasu said grimly to Li Tian.

"Master Kurokawa calm down, this kid..."

"Shut up! If you don't want to die, shut up!" Kurokawa Ieyasu shouted at the ninja who was trying to interrupt behind him.

The bodies of the ninjas began to tremble a little, but their bodies were unknowingly far away from Kurokawa Ieyasu, as if Kurokawa Ieyasu was a fierce beast.

The other ninjas who were far from Kurokawa Ieyasu couldn't help but show a trace of pity in their eyes when they looked at Li Tian.

"Poor boy, don't you know that the adult in front of you is Ieyasu Kurokawa? He is the deputy leader of our Iga Ninja Organization, and the entire Eastern Island country can be ranked in the top ten powerful existence!"

"Yes, Ieyasu Kurokawa hasn't been angry for a long time, but once Ieyasu Kurokawa gets angry, even ghosts and gods will feel scared!"

The two ninjas sneered and said to Li Tian.

"Idiot!" Li Tian said disdainfully.

At this time, Li Tian saw that Kurokawa Ieyasu's body began to tremble with that violent cough, and as he continued to tremble, Kurokawa Ieyasu's clothes appeared in the clothes.

"hiss!"

"hiss!"

It feels like a knife is constantly scratching Kurokawa Ieyasu's clothes.

At this moment, Li Tian saw a row of long swords appearing on Ieyasu Kurokawa's back. There were nine long swords in this row. Each long sword was shining with cold light, giving people a way to cut. Feel like iron.

Chapter 4009: Slaughterhouse (2)

"There are nine swords hidden! This is Master Kurokawa's ninjutsu, right? I finally saw Master Kurokawa's ninjutsu!"

"Haha, this kid must be over! There are countless Shangren who died under the ninjutsu of Lord Kurokawa!"

"Yes, kid, even if you give up now, it might be too late!"

Amidst the flattering sounds of these ninjas, the nine long swords quickly stabbed out of Kurokawa Ieyasu's body, and then the nine long swords flew slowly. .

"Oh?"

Li Tian finally showed a serious expression on his face.

"Boy, let you feel the strength of Iga Ninja's Hidden Nine Swords! Hahaha!" Kurokawa Ieyasu said with a wild smile.

Then Kurokawa Ieyasu suddenly stretched out his hand and pointed his finger. The nine-handed long sword Jiujiu Guiyi turned into a long sword and galloped towards Li Tian.

Li Tian stepped back half a step, then suddenly raised his left hand, and cast several broken soul palms continuously, hitting the galloping long sword.

"boom!"

"boom!"

The palm is good, but unfortunately it is useless.

The long sword pierced out of Li Tian's palm intact and pierced Li Tian at a faster speed.

This Kurokawa Ieyasu's hidden nine hilts are not physical swords, but a long sword formed by a certain special energy. Although the power of the broken soul palm is powerful, it seems to be completely useless against this long sword. .

Kurokawa Ieyasu's face showed a smug look, and his fingers kept swinging back and forth, controlling the long sword to speed up and stab Li Tian. Seeing the surprised expression on Li Tian's face, Kurokawa Ieyasu was even more proud.

"Boy, do you know that surprise now? It's too late!"

The long sword flicked a silver light in the darkness and slashed towards Li Tian with a thunderous momentum.

The distance between the long sword and Li Tian's body was no more than half a foot, and Li Tian could even feel the chill released from the long sword.

At this moment, Li Tian's mouth showed a sneer.

"Playing Feijian? We Chinese are your ancestors! Let Grandpa teach you how to play Feijian today!" Li Tian said with a sneer.

With a move of Li Tian's heart, a red light flew out of Li Tian's body, directly in front of the direction of the sword's slash. The red light was "Red Slash".

"Chang!"

The swords intersected and there was a clear clash.

"Red Zhan" didn't move at all, but the long sword flew back a few meters by the "Red Zhan", and the blade of the long sword was also slammed by the shaking Weng Weng.

"How is it possible! You...how can you hide swordsmanship?" Kurokawa Ieyasu said in surprise.

Li Tian ignored Kurokawa Ieyasu's shock, and kept controlling "Red Zhan" to cut towards the long sword.

"Red Zhan" is a demon sword from the Netherworld. It is a physical sword, and it is controlled by Li Tian's mind. The long sword is just formed by Kurokawa Ieyasu using the energy in his body, and he wants to control it. The long sword can only be operated continuously with fingers.

In such a comparison, the judgment is made.

Under Li Tian's control, this "red cut" didn't mean to kill Kurokawa, but kept beating the long sword, and Kurokawa Ieyasu could only resist.

The ninjas who were still clamoring just now seemed to be a ghost, and couldn't believe their eyes.

"Chang!"

"Chang!"

"Crack..."

The long sword that Kurokawa Ieyasu condensed with energy was finally unbearable to be ravaged by "Red Slash", and it was smashed to pieces.

And Kurokawa Ieyasu suddenly sprayed out blood at the moment that long sword was broken.

"Damn it, it seems that I still underestimate you, since that's the case..." Kurokawa Ieyasu suddenly stretched his voice, then coughed a few times, then suddenly raised his volume and said: "In that case, then Just let me learn about your strength!"

As soon as Ieyasu Kurokawa's words fell, Li Tian felt a huge sword that was over ten meters wide and more than half a meter wide suddenly rushed from Ieyasu Kurokawa.

This sword, like the long sword just now, is not substantial. But the power radiated from this sword is hundreds of times stronger than the long sword just now.

The appearance of this giant sword almost lost contact with the "Red Sword" controlled by Li Tian, while the ninja swords in the hands of the other ninjas surrounding Li Tian screamed fiercely, and then shattered into some metal fragments floating there. Great sword.

"Iga Secret Art, the sword of the gods!"

"Master Kurokawa actually succeeded in cultivating the Sword of God! This...this is terrible!"

"Yes, I heard that this secret technique has only been successfully practiced by the first generation of adults since the birth of Iga Ninja! Kurokawa-sama turned out to be such a genius!"

"Genius? The Kusanaru sword can be displayed in the body of the abdomen. It is considered a sword among people, and this Kurokawa's body is rounded by this huge sword. There are people in the sword. It seems that you Iga Ninja are indeed Everyone is one bitch!" Li Tian said with a sneer.

"Looking for death!" Kurokawa Ieyasu shouted angrily.

And with Kurokawa Ieyasu's roar, the huge sword over ten meters slashed down towards Li Tian. The huge sword has not yet fallen down, and that powerful pressure has already overwhelmingly tried to pressure Li Tian. When it came down, it was as if a mountain wanted to crush Li Tian's crushed body to pieces.

Seeing that the giant sword was cut down, the ninjas who were still surrounding Li Tian evaded one after another, and galloped back in all directions.

"Let me see and see the tricks of your bitch!" Li Tian snorted coldly.

At this time, more than a dozen purple electric snakes flashed on Li Tian's legs. These electric snakes continued to swim on Li Tian's legs. As these electric snakes swam away, Li Tian's legs contained powerful Burst of power.

"Drink!" Li Tian roared, his legs slammed, and the ground under Li Tian's feet began to collapse in an instant. In a flash, the ground turned into a huge pit with a diameter of more than ten meters.

At this time, Li Tian's body rushed towards the blade of the giant sword like an arrow.

The Qiqiong Spear in Li Tian's hand shook violently, and in an instant, a dozen purple electric snakes rushed out on his arm, following the Qiong Spear that day and struck the giant sword.

After the purple electric snake escaped from the Qiong Lance of the Sky, it directly got into the giant sword, and then the giant sword exploded instantly like fireworks.

"boom!"

A loud noise, accompanied by this loud noise, Li Tian's body was flew directly by the giant sword, and when Li Tian was about to land, he continued to teleport and dissolve the giant sword. The impact of slashing, explosion.

"No... impossible!"

Kurokawa Ieyasu covered his mouth with his hands, but blood was constantly flowing from his fingers. The blood instantly infested his clothes, and his face became paler.

And those ninjas who had surrounded Li Tian just now saw that the giant sword was broken open by Li Tian's attack after just a face-to-face attack, their faces involuntarily showed shocked expressions.

"No...impossible, this is the sword of the gods, one of the strongest secret techniques of Iga Ninja, how could it be broken so easily!"

Chapter 4010: Slaughterhouse (3)

"Who is this man? He is holding a spear, with purple lightning on his body, and a flying blade. Could it be... Is he Li Tian?"

"Li Tian?"

Once thought of this name, these ninjas couldn't help but shudder, and the look in Li Tian's eyes changed completely. .

Even Kurokawa Ieyasu's eyes showed a surprised expression.

"You... ahem, you are Li Tian? Why are you here?"

Li Tian sneered, shook the spear in his hand, and said, "Guess?"

"Are you also here for the antidote to the zombie virus?" Kurokawa Ieyasu asked.

But when he asked this sentence, he suddenly realized that he had made a fatal mistake. This zombie virus antidote reagent was accidentally discovered by their ninja. Perhaps Li Tian didn't even know the existence of this thing!

But the next words of Li Tian made Kurokawa Ieyasu like falling into an ice cave.

"You said that thing? Hey, let me urge you to die. That thing and the secret research institute are already my Li Tian's things. I, Li Tian, absolutely don't allow anyone to get involved!" Li Tian said.

Ieyasu Kurokawa and the ninjas looked at Li Tian in surprise. They wanted to see from Li Tian's face whether Li Tian was lying, but soon they were disappointed.

At this time, Li Tian was full of confidence and self-confidence, and what he said was extremely natural and not like a disguise.

"Li Tian! This is Dongying Island, this is Honnaka Island. It is the headquarters of our Iga Ninja. There are Martial Artists and Koga. Do you think you can get rid of this thing alive?" Hei Chuan Ieyasu said.

Li Tian hehe sneered and said, "If I'm not wrong, you Iga Ninja will never tell anyone about your action. I'm afraid it is in the Iga Ninja Organization. This is also the biggest secret. So don't scare me by those fierce warriors and Koga, I am afraid you are more afraid of letting them know than I am!"

Kurokawa Ieyasu said with a sullen face, "Li Tian, are you really going to be an enemy of our Iga Ninja?"

"Yes, what can I do?"

"Okay, okay, okay!" Kurokawa Ieyasu said three good words in a row, and suddenly shouted to the other ninjas: "Give it to me, I don't believe Li Tian, he faced us more than a hundred ninjas who are Iga I can escape from here!"

With an order, the ninjas simultaneously performed their own ninjutsu and attacked Li Tian.

At this moment, the boulders, flames, ice, and vines smashed Li Tian as if they don't need money, and more of them were hidden weapons, shurikens, and detonating charms. These guys seemed to want to kill Li in one fell swoop. The sky was completely blasted in smoke and ashes.

This is the core of Iga Ninja's more than a hundred upper ninjas. If these ninjas are not facing Li Tian, they are all first-class masters if they are not facing Li Tian. These people can be said to be okay in the entire eastern island country. People walking sideways.

But they are facing Li Tian, the man who can completely blast the entire Nakadori Island and disappear on this earth with his own power. Even if more than a hundred ninjas perform ninjutsu at the same time, they still have nothing in their hearts. The confidence.

At this time, Na Kurokawa Ieyasu's body began to tremble again, and the giant sword appeared on his body again. Even the giant sword was stronger than the previous giant sword in terms of head and power. powerful.

Kurokawa Ieyasu kept coughing and vomiting blood constantly, but he had already put himself to death at this time, because he knew that if he did not go today to keep Li Tian here, then the hope that their Iga Ninja wanted to rise would be It will become very slim.

"Huh!"

"Huh!"

Li Tian cast several teleports in a row, easily avoiding these ninjutsu attacks.

These ninjas have been driven to a dead end. They know that if they don't work hard, then it is not a question of whether the task can be completed, but their lives will be accounted for here.

Li Tian Li Killing God's name is not for nothing.

These ninjas were divided into five or six offensive teams, ready to start a series of attacks on Li Tian.

And at this moment, these ninjas suddenly felt a mighty force descending from the sky. This powerful pressure made the bodies of these ninjas stiff almost instantly, except for their mouths and eyes. In addition to being able to move, even if they want to move their bodies, they become so out of reach.

"This... how is this possible! Why did the power of Lord Kurokawa's God's Sword suddenly become so powerful?" A ninja said in disbelief.

But as soon as his voice fell, he heard a loud noise suddenly coming from behind him.

The loud noise is so familiar, as if it was just heard.

"Hey, you didn't guess wrong, it was Ieyasu Kurokawa's God Sword that was broken again by me!" Li Tian's voice suddenly appeared in this ninja's ear.

The cold sweat on this ninja's face was involuntarily flowing out, but before he could beg for mercy, a flower in front of his eyes suddenly appeared in another space.

"Hey, the little boss finally came in, and I'm already impatient to wait!" A Huaxia voice came through behind the ninja.

The ninja just wanted to turn around to the owner who wanted to take a look at the voice, but before he could turn around, he felt a powerful force blast from his back vest, and then the ninja saw it. Ji fist came out of his chest.

"Young Master Void, quickly throw this corpse out, the little boss said, he will deliver as many goods as we process!" Tang Xiaolong said to Void Yasha.

At this moment, Li Tian's figure outside the space kept flashing among the ninja group. Every time Li Tian flashed past a ninja, that ninja instantly disappeared in place, and a few seconds passed. Zhong's body was thrown out of the void.

These ninjas were temporarily disabled by Li Tian's heavy use, but Li Tian knew that he could not last long for so many people at the same time.

At this time, the water level in the pond in Li Tian's heart was slowly falling, and the fish in that pond kept jumping out of the pond, as if to protest against Li Tian's method of attack.

In less than ten seconds, the number of ninjas killed by Li Tian and those killed by Tang Xiaolong and others in the space has exceeded 30, and the whole village has become Li Tian's slaughterhouse!

"Li Tian! There is a way to let us go, let us fight with a real sword!" Kurokawa Ieyasu said with blood and anger on his face.
