

A Killer 4051

Chapter 4051: Desperately (2)

After the warrior entered the elevator, he directly pressed the button on the top floor of the Tianjie headquarters building, and then waited casually for the elevator to go up slowly, and even smiled back at Ouyang Man, as if he was laughing at Ouyang Man seeking his own death. general.

Ouyang Man pretended not to see anything, and waited until the elevator reached the top floor. After the warrior took Ouyang Man out of the elevator, Ouyang Man started his hand and slammed his shoulders into the back of the warrior.

"boom!"

The warrior was hit by Ouyang Man directly on the wall, and he fainted instantly.

"The top floor? The restaurant? Is it because Duanmuying and the others are trapped in the restaurant? I can't care about that much, now I can only rush in and take a look!"

Ouyang Man ran a few steps with the epee, and rushed directly into the restaurant on the top floor, only to see that Bai Jing and Duanmuying were dining in the restaurant, and a strange man was sitting opposite them. .

"This...what's going on? Is it true that the things Liu Guoqiang said are false? But if it is false, how can there be warriors in the building of the headquarters of the day. And if it is true Duanmu Ying and the others It doesn't look like it was under house arrest!"

"Patter!"

Duanmuying was surprised to see Ouyang Man here, the knife and fork in her hand fell on the dining table, and Bai Jing also saw Ouyang Man at this time.

Bai Jing said to Ouyang Man, "Hurry up!"

Ouyang Man has already arrived here, how could he leave easily? He already felt the powerful strength of that man, but even the most powerful enemy, Ouyang Man already had the consciousness of death, he could only desperately Only then can Duanmu Ying and Bai Jing be rescued.

At this time, the man turned around and looked at Ouyang Man's mouth with a slight sneer, and said: "You should be Ouyang Man of the Celestial Legion! I know you, you can barely be regarded as one of my opponents."

"Are you here to save them? I'll give you a chance, let's go, let's have a good fight outside our Celestial Headquarters building, as long as you can beat me, I can let you take them away. Oh, you two If he wants to, he can follow along. Can he win?"

After saying this, the fierce warrior had slowly stood up, turned and walked out of the restaurant, even if he walked past Ouyang Man, he did not make any defensive and cautious movements.

Seeing this man walk out, Ouyang Man said to Duanmuying, "Master Duanmuying, I'm here to save you, so hurry up and follow me. Liu Guoqiang and Yang Guo are waiting for us on the Cangshan ship at this time. When I fight the man for a while, you can just take the opportunity to escape!"

Although Duanmuying didn't want to attack Ouyang Man, she couldn't help but said, "Silly Man'er, do you know who he is? He is a fierce warrior! Even if we are united, he will not be his opponent, and it is impossible to escape. It's here! So wait a while for the battle to start and you will give up!"

Bai Jing also agreed and said: "Yes, as long as you give up, he won't be embarrassed. Then we will wait for Li Tian to come back to deal with him, and only Li Tian can deal with him!"

Ouyang Man's body trembled slightly, and it took a while before the anger in his heart gradually calmed down, and then said: "I don't know how terrible the fierce martial artist is to make Duanmu, the commander of the dignified Ten Legion. Yingdu is so cautious, maybe I can understand that you will feel a little better for worrying about the flesh and blood of Lord Li Tian in your belly."

"I am Li Tian's brother, I will never give up and pretend to die in front of my enemies!" Ouyang Man turned around after speaking, leaving Duanmu Ying and Bai Jing in the restaurant.

"Bai Jing, am I wrong? I just don't want to make unnecessary sacrifices anymore. He is Li Tian's brother and Ouyang Shiqing's younger brother, so I think about him! But..." Duanmuying already said no. After going down, she also felt that she had completely changed after pregnancy, and she would become sensitive and cautious when doing everything.

Bai Jing held Duanmuying's hand and said, "I understand!"

...

When Ouyang Man walked out of the Tianjie headquarters building, he saw the fierce martial artist was already waiting for him at the gate.

"Hmph, let me see what kind of strength your fierce martial artist has, so that Master Duanmuying can retreat like this, even unwilling to escape with me!"

Ouyang violently thrust the epee in his hand into the ground, causing those runes to appear on his armor instantly, and then Ouyang man carried the epee and rushed towards the fierce martial artist. There were still seven or eight from the fierce martial artist. When he was a meter away, he jumped up abruptly and slashed heavily at the fierce warrior in the middle of his hand.

The fierce warrior looked at Ouyang Man aggressively, and said with a sneer: "Is it okay to be so desperate as soon as you come up? It seems that you are very anxious to die!"

Immediately, the fierce martial artist's legs touched the ground lightly, and his body flew back lightly. At this moment, he slightly lifted his right hand and stretched out ***** and pressed it down again.

"boom!"

Ouyang Man smashed into the ground heavily from mid-air, and a deep hole was smashed into the concrete floor.

"This... he actually knows this ability. Isn't this the ability that Little Hotpot and Li Tianda can meet? No wonder that Master Duanmuying is not his opponent, no wonder Master Duanmuying persuaded me to give up early!" Ouyang Man thought in his heart.

Ouyang Man wanted to move, but the powerful coercion suppressed him, making him extremely difficult even if he wanted to move.

At this moment, Ouyang Man once saw the fierce martial artist's feet hit the ground and tapped again, and he was back to where he was just now.

"Is this your strength? It really disappoints me. The part-time job is too weak and too weak!" The fierce warrior stepped on Ouyang Man's armor and looked at him mockingly.

"It's humiliating to lose with one move! But, am I already determined to die? In that case, I can only do my best!"

The runes on Ouyangman's armor kept shining. These runes made Ouyangman feel that his strength was increasing sharply, and then Ouyangman slowly raised his arm and inserted the epee into the ground again. Then he used all his strength and started to stand up hard.

"Oh, it seems that you want to stand up and continue fighting with me. In that case, I will give you this opportunity!" The fierce warrior said with a sneer.

As soon as the words of the fierce warrior fell, Ouyang Man felt that the pressure exerted on him suddenly disappeared.

But at this moment, the fierce warrior had already taken action, and the figure of the fierce warrior had appeared in front of Ouyang Man in a flash, and his fist had already blasted toward Ouyang Man's chest armor.

Add public WeChat and WeChat. Search "Flower Thorn 1913" to add it! Today, Huahua has sent individual red envelopes to several brothers because they have introduced many readers! I would like to thank you book fans for adding more. After the promotion, Huahua will send out red envelopes separately!

"I heard that your Ouyang Man's armor is extremely hard, let me see how many punches your armor can withstand my full attack!"

Chapter 4052: Stripping

What Ouyang Man feared was that the fierce martial artist used this skill to completely control him and sling him, but now the fierce martial artist had actually reduced the pressure of the re-exposure, Ouyang Man was confident that he could fight him.

The armor on Ouyang Man's conceited body can withstand the attack of the fierce martial artist, and instead of retreating, the heavy sword in his hand slashed towards the fierce martial artist's neck without hesitation.

The epee is heavy, but the speed is not slow, especially the power of the epee under the red rune trend is as fast as thunder and lightning. It seems that in the next second you can see the head of the fierce warrior flying up and spraying blood.

But at this moment, Ouyang Man saw a sneer at the corners of the fierce martial artist's mouth, and his body squatted slightly to the west to easily avoid his attack, and then the fierce martial artist's speed suddenly increased again, his fist It has blasted over like a shadow.

In a panic, Ouyang hurriedly drew the epee back, trying to use the epee to block his chest to resist this attack of the fierce warrior.

However, Ouyang Man's speed was still a step slower.

"boom!"

A huge force instantly spread into Ouyang Man's armor in an incremental manner.

At that second, Ouyang Man saw that some of his armor was dented, and then he heard his body crackling bones, and he was already flying.

"boom!"

Ouyang slammed heavily on the gate of the Celestial Headquarters. The steel frame of the door was bent and the transparent glass on it was immediately broken into pieces.

"It's such a powerful force. Although this power is far inferior to Tang Xiaolong's, this fierce martial artist is able to display all his boxing power. Neither Tang Xiaolong nor Li Tian have done this."

"Really a strong opponent!" Ouyang Man thought in his heart.

Fortunately, Ouyang Man is a zombie, even if the bones of his whole body will be broken, as long as the corpse crystal in his head can be kept, he will not die easily.

"Boy, do you know our strength gap now? But I admire your courage very much. Your spirit to die is very touched." The fierce warrior said with a relaxed look at Ouyang Man.

"Ahem!"

A white bone pierced into Ouyang Man's lungs. Ouyang Man was controlling the bone to pull out from his lungs, and could not help coughing several times.

"Cruel Martial Artist, you really are a formidable opponent, but do you have such a strength? Do you think Ouyang Man can yield me with such a bit of strength? Dreaming!" Ouyang Man stood up hard, the bones in his body Healed quickly, and he had once again rushed towards the fierce warrior with the heavy sword.

The bones in the body were broken. Although it was not painful, it also affected Ouyang Man's movements. Although he was running, his movements seemed extremely uncoordinated, as if he might fall to the ground at any time.

However, Ouyang Man's eyes were firm, which was a firmness with a will to die.

"I Ouyangman can lose or die, but our heavens will not succumb!" Ouyangman roared, dragging the epee on the ground and splashing sparks on the ground, rushing towards the fierce martial artist.

With Ouyang Man's roar, the runes on Ouyang Man began to move strangely on his body, and those runes exuded a coquettish light, and as the runes continued to be arranged and combined, Ouyang Man's momentum Wonderful changes are also taking place.

"Om!"

The parts of Ouyang Man's armor that had been sunk by the fierce warrior's fists began to slowly repair, and several circles appeared on Ouyang Man's arms, legs, chest and back at the same time, as if it were magic. A general pattern.

The runes in these patterns are automatically wandering in a certain order, and some faint energy begins to be released in this pattern.

Ouyang Man moved faster, and the speed of the heavy sword in his hand was also much faster.

"Huh!"

"Huh!"

With a few swords, he almost wiped the fierce martial artist's body and chopped it down. With a sound, a corner of the fierce martial artist's body was cut by the heavy sword.

Immediately, the clothes began to turn burnt yellow under the high temperature of the epee, and even a burst of black smoke began to appear on the clothes.

"Almost, I was almost cut to him!" Ouyang Man thought in his heart.

The figure of the fierce warrior kept dodge, and his mouth showed a sneer, and said coldly: "This seems to be some of the skills of the Three Corpses. I didn't expect to see it again here. It looks good. Looks like! What a pity...what use is this!"

The fierce warrior's tone changed suddenly, and a chill spread from his body, making people feel that the surrounding temperature dropped instantly. At this time, after avoiding Ouyang Man's epee slash, the fierce warrior roared fiercely, swinging his fist and banging heavily on Ouyang Man's epee.

"boom!"

The epee in Ouyang Man's hand slammed down from the epee, and it was completely bent like a soft aluminum sword.

The fierce warrior did not stop. He leaned forward and hit Ouyang Man's armor with his shoulders, and Ouyang Man's body was hit and flew again.

But this time, the martial artist didn't seem to intend to let Ouyang fly out like this, but he saw the martial artist slid and dashed forward, his right hand caught Ouyang Man's leg like lightning, and then his left hand followed. The joint on Ouyang Man's leg armor slammed down!

"Hiss!" With a cry, the armor on Ouyang Man's legs was torn off by the fierce warrior. The armor was still stained with the skin on Ouyang Man's legs, and there was some dark mucus.

The fierce warrior flew another kick and kicked Ouyang Man's chest, and kicked Ouyang Man again.

The fierce warrior glanced at a few pieces of armor fragments in his hand and said disdainfully: "Zombie! Hey, it's really surprising that there are zombies in the Celestial Legion, and this zombie will be three corpses. Otherworld skills!"

"Do you know who my least favorite person is in this world? It's the three corpses. These three stinky guys really think they are invincible in the world. The appearance of invincibility is unpleasant in actual combat!"

The fierce warrior walked towards Ouyang Man step by step, and said with a sneer: "I am the only **** of the East Ying Island Kingdom, and it is the same as it was more than 400 years ago. You are a little zombie, Li Tian, or three corpses. , Dare to be a hindrance to me on the path of the Lord God, the result is only one!"

"That's death!"

Chapter 4053: Stripping (2)

Ouyang Man is a zombie, without the slightest pain on his body, but the stripped leg armor made him feel extremely uncomfortable.

Ouyang Man almost couldn't remember when he put on this armor, but since he put on the armor, he will keep gaining some abilities.

But now the armor has been stripped off by the fierce martial artist, which makes the power and ability that Ouyang Man possessed keeps flowing away, just like a dam breaking the embankment, even if Ouyang Man wants to control it completely Can't control it.

The magical array-like patterns on Ouyang Man's armor shook violently for a few times, and they turned into a bunch of runes in no order, and these red runes began to follow Ouyang Man's armor. Stopped and retreated, and finally entered inside and disappeared completely.

Ouyang stood up very hard, at this time the armor on his left leg had been missing a few pieces, so he looked a little embarrassed.

Ouyang Man wanted to say a few ruthless words, but he couldn't say it at all, but the arrogance in his heart made him unwilling to make any withdrawal. The energy in Ouyang Man's body was lost very quickly, and he weakly dragged the handle. The epee, which was completely out of shape, staggered towards the fierce warrior.

"Don't go, Ouyang Man, you are not his opponent!" At this time, Duanmuying and Bai Jing had rushed out of the building of the Celestial Headquarters, watching Ouyangman's tragic appearance rushed to Ouyangman's body and pulled Ouyangman. Said.

The fierce warrior looked at Ouyang Man, Duanmuying, and Bai Jing with a victorious look, with an incredible sneer on their faces.

Ouyang Man threw off the arms of Duanmuying and Bai Jing, and said to them, "You...you two run away, here I am here to fight the fierce warriors!"

After saying this, Ouyang Man dragged his body and walked a few steps in the direction of the fierce martial artist, then vigorously lifted the curved heavy sword in his hand and slashed towards the fierce martial artist.

The fierce warrior snorted and raised his leg to Ouyang Man and kicked it.

"boom!"

A dull noise spread.

The fierce warrior's brows couldn't help but frowned, and looked at Duanmuying who was in front of him with a bit of discomfort.

That's right, the foot of the fierce warrior was blocked by Duanmu Ying who drove over from behind. After blocking this foot, Duanmu Ying was shocked and stepped back.

Although Duanmuying blocked the attack of the fierce martial artist, her abdomen felt a little uncomfortable due to the vibration.

"Ferocious warrior, your goal is Li Tian, even if you kill Ouyang Man now, what can you do? You will wait patiently for a few days, and when Li Tian comes back, I promise you will not be disappointed!" Duanmuying said.

The fierce warrior's sight crossed Duanmu Ying and fell on Ouyang Man, and said with a sneer: "Today I will see this pregnant woman desperately trying to save your face and spare you death. If you are acquainted, hurry up and get Li Tian back! "

"Silly Man'er, you are not his opponent, you quickly leave here and go to Benzhongzhou Island to find Li Tian back. Only when Li Tian returns can we get rid of the control of the fierce warrior!"

Speaking that Duanmuying and Bai Jing were about to follow the fierce warrior to the Celestial Headquarters building, Duanmuying just turned around, but Ouyang Man grabbed her wrist.

"You can't go, you...you can't follow him!" Ouyang Man said.

The fierce warrior who had already turned around and walked into the Tianjie headquarters building was furious in an instant. Turning around abruptly, several powerful coercion fell from the sky, directly suppressing Ouyang Man, Duanmu Ying and Bai Jing.

The fierce martial artist tapped his feet on the ground and quickly rushed in front of Ouyang Man. He flew directly and kicked Ouyang Man into the air. Then the fierce martial artist stepped on the ground with both feet, and his body jumped instantly. He got up and kicked Ouyang Man's armor several times in a row.

Ouyang Man fell heavily on the ground like a cannonball. The fierce warrior still refused to give up. His figure flashed in front of Ouyang Man. He stepped on the armor on Ouyang Man's head with his feet, and said disdainfully: "Just You still dare to make an inch of something like this, and today I will let you try my fierce warrior's methods!"

As he said, the fierce warrior squatted down abruptly, his palms constantly attacking Ouyangman's armor like lightning. Pieces of armor were stripped from Ouyangman's body by the fierce warrior with his bare hands. The armor was covered with Ouyangman's skin, and each piece of armor was covered with black liquid from Ouyangman's body.

"hiss!"

"hiss!"

The fierce warrior at this time had completely become another person, brutal and tyrannical.

Just as Duanmuying wanted to persuade the fierce warrior, the fierce warrior suddenly turned his head, staring at Duanmuying coldly and said, "Do you want to try this kind of feeling too? Next time if you dare to treat me again Do it, believe it or not, I will dig out the fetus in your belly and eat it now!"

Duanmuying could only helplessly close her eyes, only to hear the sound of Ouyang Man being torn off from his body, as well as the crashing sound of those armors being randomly thrown on the ground.

I don't know how long it has passed. This time is only a few tens of seconds, but for Duanmuying, it seems to be a long time. The fierce warrior shouted into the darkness: "Take this kid with his armor Hang me to the gate of Ruhr Island City. I want all the residents of Ruhr Island City to have a look, and dare to go against the end of my fierce warrior!"

"Boy I told you to leave at the time. Now everything is too late. If you dare to escape, then the next one to fall at the gate and kill is Duanmu Ying!"

Duanmuying opened her eyes slowly and saw that Ouyang Man who fell on the ground was full of black mucus, and there was no more complete skin on his whole body.

Several samurai came out of the dark corner. These samurai pierced the katana into Ouyangman's body, and then used a steel wire to pass through Ouyangman's body, dragging Ouyangman to the ground. Walking in the direction of the city gate, a black trace was immediately left on the ground.

The other two warriors used steel wire to pull Ouyang Man's armor, as if they were victors, dragging those armors and clanging behind Ouyang Man.

The fierce warrior had already put it back together, released Duanmu Ying and Bai Jing, turned and walked in toward the Tianjie headquarters building, and Duanmu Ying and Bai Jing could only follow in the direction where Ouyang Man disappeared.

"brute!"

Yang Guo, who was hiding in the dark, witnessed the whole process with his own eyes, but he could only curse such a sentence, and then turned around and disappeared into the darkness.

"Master Li Tian, you must find Master Li Tian as soon as possible, otherwise Ouyang Man will definitely be insulted to death by them, and Master Duanmuying and Master Bai Jing will be in danger by then!" Yang Guo thought in his heart to accelerate toward the seaside. Ran over.

Chapter 4054: Comprehend boxing

Li Tian didn't know what happened on Ruhr Island. At this time, the mutant crow was flying in the direction of Ruhr Island, and on the body of the mutant crow was the Void Yasha. ,

In this way, the gravity that the mutant crow bears is limited, which can make the speed of the mutant crow play to the extreme. At this time, Li Tian has entered the space of Feitian Yasha and began to practice.

Li Tian sat cross-legged. On the right side of Li Tian's body was the Qiong Spear of the Sky, and on the left side of his body was the Demon Sword "Red Zhan".

Li Tian wanted to calm down and cultivate, but he couldn't do it. His heart was concerned about the safety of Ruhr Island City, the safety of Duanmu Ying, and the safety of Bai Jing and others.

"call!"

Li Tian let out a sigh of relief.

"It must be quiet. At this time, no matter how impatient I am, I cannot return to Ruhr City in an instant, nor can I solve the current dilemma. Moreover, since the fierce warrior is the most powerful figure in the East, he must be extraordinary. If you don't listen, he has already mastered this skill."

"It's just that I don't know to what extent he has mastered this skill. If it's just the level of the abdomen hiding and the abdomen sky cluster, then with my current cultivation base and strength, I should be able to win easily. I'm afraid that this time. His weight has also reached my level, and he can release this skill as he wants. If this is the case, I am afraid it will be difficult to deal with!"

"Also, although I have one mind and three purposes, and I am also practicing during the battle, the continuous high-intensity battle has consumed a lot of water in the pond on my side. If I want to defeat the fierce warrior, I must now as soon as possible Some spiritual power has been restored."

"In addition to this recovery of spiritual power, the control of fist power during combat is also extremely important. That kind of control of power by Kumasaka Narira is worthy of my study. Maybe this kind of small change will make I have an advantage in battle!"

Thinking of this, Li Tian's flustered heart gradually calmed down, Li Tian took a deep breath and let his whole body relax.

The space of Feitian Yasha was extremely quiet, and all the noise from the outside world was isolated. Li Tian could hear his own breathing while sitting here.

At this time, Li Tian had already begun to do three things.

First, Li Tian is practicing Qingyun Qi Jue. Although Li Tian has already cultivated this Qingyun Qi Jue to Dzogchen, he wants to quickly recover the spiritual power in his body, this kind of cultivation is essential.

The only pity is that there is little aura in the space of Feitian Yaksha, but even so, there is already gurgling water in Li Tian's vein, although the water is scarce, it has begun to continuously pour water into the pond.

Second, Li Tian's mind kept reverberating with the scenes of the battle with Kumasaka Narita, recalling every detail of Kumasaka Narita's fist. Now Li Tian's mind is like a slow-motion replay of a movie, and it can be replayed continuously with Li Tian's mind control.

Third, Li Tian had some communication with the demon sword "Red Zhan" and the Qiong Spear with his mind. After the demon sword "Red Zhan" swallowed the bone monster, it changed back to its previous appearance, and the sword spirit disappeared. And the Qiong Spear of the Sky did not show the existence of a spear spirit from beginning to end, but Li Tian always felt that nature was already a divine tool, so what is a divine tool without spirituality.

Suddenly, Li Tian stood up abruptly and punched the air hard.

This is just an ordinary punch, and it doesn't increase any spiritual power, so the ability of this punch is limited, and it won't cause any harm in this space.

"No! No!"

Li Tian shook his head and sat down frowning.

In the rest of the time, Li Tian kept repeating this simple action, just like a simple robot with a programmed program, repeating this action continuously.

It can only be seen that the time interval for Li Tian to stand up is longer and longer, but the power of the punch he throws after standing up seems to be getting stronger and stronger.

"No, I still haven't grasped the essentials! The punch that ordinary people wield is just a punch with limited power and ability, but for those martial artists, when they throw a punch, they can instantly hit the power of the whole body in this punch. When it reaches the effect of an instant burst, the power of this punch will be doubled."

"Power, the power contained in the body of a heavyweight athlete is definitely not the power of a heavyweight boxer, but the instantaneous explosive power of their fists is completely different."

"Before the end of the world, a certain martial artist in China once created Cun Jin to burst this kind of punch to the limit of ordinary people. But after all, this is still the power of a fist, just like mine now. At best, it can hit all the power on the fist." Li Tian said to himself.

Speaking of this, Li Tian suddenly stood up and threw a punch into the air again. This time Li Tian's fist's speed seemed to be significantly slower, but the power on that fist broke out instantly when he threw it. There was a "buzzing" sound in the air.

"Still wrong!"

Li Tian sat down again and closed his eyes.

"Kumasaka's control of power has completely exceeded my current ability, and it has also given me a new understanding of power!"

"Face, point, line!" Li Tian said three mathematical terms in his mouth, and then he said: "Ordinary fist is a face attack. It seems that the attack area is large, but the power is completely dispersed. , The effect of the attack is also limited. Now my attack is a point attack that can concentrate all power on the fist, and the attack power has increased but it has not reached the level of Kuusaka Nariya's attack!"

"Kumizaka Narita's attack, he seems to be closer to the line's attack. This punch is like a steel needle pierced out, and there will be power to follow up, causing the attacker to suffer continuous damage."

It is simple to say, and it is very simple to imagine, but it is extremely difficult to put it into action. Li Tian has consumed a lot of time in this simple action, but Li Tian has no ideas at all.

The water was gurgling, and I don't know how long it took. The water in the pond in Li Tian's heart was half filled. Li Tian's mind still had no connection with the demon sword "Red Slash" and the Qiong Spear of the sky.

"Ok?"

Li Tian suddenly thought of something.

Then his mind suddenly turned into pitch black, and in this pitch black, a villain appeared out of thin air and started to punch inside.

Every time a fist was punched, a concavo-convex mirror surface appeared on the villain's fist, and then the mirror surface gradually condensed into a fist-sized point, and as Li Tian's heart moved, that point gradually became a cone.

"Hahaha, it turned out to be like this!"

Li Tian suddenly opened his eyes, jumped up, and slammed several punches into the air vigorously. The speed of these punches was extremely fast. A punch was an inch farther than a punch, and these punches Connected in series is a line.

"boom!"

The space of Feitian Yasha shook violently.

Chapter 4055: came back

"Huh!"

The Feitian Yasha, who felt the strange space appeared in this space instantly, couldn't help taking a breath as he watched Li Tian hit a pit with a diameter of one foot on the wall of this space.

The walls in this space look like rocks, but Feitian Yasha understands that these things are far beyond the hardness of rocks. They are some special materials that the void Yaksha used to find the space in the turbulence of the void.

Don't say these things are ordinary punches, even knives, guns and shells don't want to explode any traces, but now Li Tian has blasted a deep pit with his fists, how can this not surprise Feitian Yasha.

"Master Li Tian, you almost broke this space! If you break this space, maybe you will be sucked into the turbulence outside the space. I am afraid that no one but Void Yasha can bring you back. !" Feitian Yasha said.

"Is there a turbulent flow outside this wall?" Li Tian asked. He had never discussed this issue with the three Xiaoyashas, so he didn't understand the composition of the empty space.

Feitian Yasha flew over Li Tian's shoulder, nodded his head and said, "Yes, all cosmic spaces are connected by this kind of void turbulence! And the space we are now in is the void Yasha using his ability. A shelter created in the turbulent flow of the void!"

This kind of thing is too esoteric, and Li Tian doesn't want to pursue it in detail, but Li Tian feels very satisfied with the power of the punch that just hit.

"The combination of Broken Soul Fist and Boxing is so sharp and domineering, I don't know if this boxing can be used in other..." Li Tian thought in his heart.

"I don't know the actual effect of using this fist in this space. Unfortunately, Tang Xiaolong is seriously injured, otherwise I can discuss cultivation with him."

"Why don't you go to the space of Xing Yasha to try with those Iga ninjas?" Li Tian shook his head soon and denied his idea.

"Forget it, although these ninjas are all ninjas, but their strength is too weak, in case they accidentally kill a few of them, they will inevitably have grudges!"

At this moment, Li Tian received a message from Void Yasha, and Void Yasha said to Li Tian with some excitement: "Master Li Tian, we will be on Ruhr Island soon!"

Li Tian flew out of space in an instant and landed on the back of the mutant crow. The mutant crow obviously sank after bearing Li Tian's weight, but fortunately his speed did not slow down much. .

The Ruhr Island City in front of Li Tian's eyes is only a small spot. Even at the current speed of the mutant crow, I am afraid that it will take more than ten minutes to reach the Ruhr Island City.

The red sun behind Li Tian has slowly risen, and the early morning sun shines on the walls of Ruhr Island, making Na Ruhr Island look even more majestic.

"Duanmuying! I'm back! Fierce warrior, I'm Li Tian back!" Li Tian said with a serious expression on the Qiong Spear of the day.

...

When the first morning light of the morning shines on the city wall of Ruhr Island, the city of Ruhr Island will also wake up, although the martial artist has already occupied Ruhr Island yesterday, and

Lord Duanki Sakura has also been Under house arrest, those who have to come out to find work and life still get up early in the morning and hang out on the streets, hoping to find a job so that they can feed their stomachs or feed their families.

Soon someone found Ouyang Man who had fallen on the city gate.

"This...who is this? I walked by here at sunset last night, and I didn't find anyone hanging here. Why did one extra corpse come out today?"

"Look at the black liquid dripping from this corpse. It should be a zombie. We had better not stay too close. Although we survived after the end of the world basically have a certain degree of immunity to the zombie virus, but if we are infected with those liquids If we do, maybe we will become zombies too!"

Suddenly someone discovered that there was still an armor hanging on the wall, and beside the armor there was a epee that had been completely bent.

"You... look at that armor!"

"Armor! Epee! Could it be...Is this man Ouyang Man?"

"It should be him. I heard that Lord Ouyang Man is a zombie! But didn't Lord Ouyang Man go on a mission to West Jiuzhou Island before? How could he be hung here? If it is a zombie, I don't know that he is dead now. No!"

"Hey, let's worry about ourselves, Lord Ouyang Man, such a powerful person, has been hanged here for a long time. Who else can we count on?"

These residents shook their heads involuntarily, with helpless eyes on their faces.

"Keep away, keep away!"

At this time, several warriors came to the gate of the city with great power, and one of them was holding an iron chain in his hands.

After arriving in front of the city gate, the warrior used the iron chain in his hand to beat Ouyang Man's body. With the slap of the iron chain on Ouyang Man's body, the black that had already stopped flowing The liquid started to flow down again.

The warrior shouted in an awkward Chinese language: "Did you die? If you are not dead, just scream!"

After hearing the squeak of Ouyang who fell on it, the warrior stopped beating him, with some arrogance on his face and said to the onlookers: "Presumably you are all familiar with this person!"

His gaze slowly swept across the faces of the onlookers, and after hearing the onlookers whisper Ouyang Man's name, he continued: "Yes, he is known as the first few of the Li Tian Heavenly Realm Corps. The master Ouyang Man, this Ouyang Man challenged our Martial Artist over his own capacity yesterday and was stripped of his armor by our Martial Artist."

After hearing these words, the onlookers flinched back a few steps in horror.

And the warrior seemed to want such an effect, and said triumphantly: "Our fierce warrior has something to say first. He can accept any challenge. If he can defeat him, he will naturally leave

Ruhr Island City and leave this West Kowloon. Zhou Dao. But if no one can defeat him, then all of you must believe in Lord Martial Artist as a god!"

Suddenly a disdainful voice was uploaded from the wall, and the tone was full of anger and sarcasm: "God? He is not worthy!"

"Who is it? I have the ability to say this in front of my uncle!" The warrior stepped back a few steps, looked up at the top of the wall, and said angrily at the black figure on the wall because of the backlight.

"Huh!"

A red light fell from the sky, splitting this warrior from head to toe in half.

"Li Tian!"

Chapter 4056: The strongest battle

"Li...Li Tian!"

After hearing this name, several other warriors were so scared that they didn't even make their hair, and some even just sat on the ground.

The warrior who was sitting on the ground without being scared turned around and ran, shouting as he ran, "It's not good, it's not good, Li Tian is back, Li Tian is back!"

This warrior had gone to report to the fierce warrior, but Li Tian did not stop him and let him escape.

Li Tian lowered his head to face the silly man who was hanging in the air, and then jumped down, while in the midair, Li Tian once again summoned the mutant crow out and landed on the mutant crow.

Li Tian's heart moved to control the "red cut" to cut off the wire that was hanging the silly man, and directly hugged the silly man in his arms, looking at the silly man now that people are not like humans, ghosts, or ghosts. The body of the corpse, Li Tian's face was full of anger: "Silly Man'er, I'm back! Li Tian, I'm back!"

"Brother Tian, are you back? Silly Man'er is useless, and failed to save Master Duanmuying and Master Bai Jing!" Ouyang Man said with a bit of self-blame.

Li Tian shook his head and said: "Don't say that you are silly, it's not to blame you, the fierce warrior is very strong, he keeps it for me to deal with! I will hold you on the wall in a while, I want you to see Watch how I tortured and killed the fierce warriors."

Ouyang Man nodded slightly.

Li Tian let the mutant crow fall on the wall, then said that Ouyang Man also put it on it, and brought Windsor, Situ Ningbing, Xue Ji, Xiao Hotpot and others from the space, even the injured Tang Xiaolong Li The sky is also brought out.

Seeing Ouyang Man's appearance, everyone's hearts were full of anger. Windsor's medical abilities had almost negligible effects on the zombies, but Windsor still began to carry out emergency treatment for Ouyang Man, while Situ Ningbing, Xue Ji and others They all started to lay hands, and soon wrapped Ouyang Man's body with a bandage.

With the shout of the warrior, the residents of Ruhr Island City walked out of the room and came to the wide street. Although it was only a little more than a day, it seemed to the residents in fear that it was a long time. same.

But for those organization leaders and legion leaders who knelt at the gate of the heaven yesterday begging to see the fierce warrior side, their hearts at this time were anxious.

"Damn, why did Li Tian come back so soon? Didn't he go to Bennaka Island? If I had known that he was back so early yesterday, I would not go to see the martial artist! This is bad, if the martial artist wins , But if Li Tian wins, I'm afraid my days on Ruhr Island will come to an end!"

But their words can only be said secretly in their hearts.

At this time, the fierce warrior who received the news that Li Tian had returned has calmly walked out of the Skyrim headquarters building, and Duanmu Ying and Bai Jing followed him, and behind these two women were the others. Warrior.

"Look, the fierce warrior is here! There are also Master Duanmu Ying and Master Bai Jing!"

"It's great that Duanmuying-sama is okay. She is much more patient and kind to us residents than others!" a pregnant woman said in a low voice.

"This is really a good show. For those of us, whether it is Li Tian wins or the fierce warrior wins, we will not say that it is some bounty hunters who lick blood on the knife edge, but we are lucky. It's really lucky to witness the two strongest people fighting in this island country now!" said a bounty hunter who came to Ruhr to beg for life.

The fierce warrior looked at the distant city wall from the moment he walked out of the Heaven Realm headquarters. Although he still couldn't see Li Tian's figure, he could feel a powerful force on that city wall.

This is a force of anger, a force that can explode at any time.

"Very good, very good! I didn't expect you to return to Ruhr Island so soon, and I didn't make me wait for a long time. Hey, let me be the face of all the residents of Ruhr Island to defeat you and defeat you. Kill it!"

"Li Tian, only your Li Tian's blood and head are qualified to be the steps for me to set foot on the new **** position of the East Ying Island Kingdom." The fierce warrior thought in his heart.

The footsteps of the fierce martial artist are smooth, as if they are walking, but as the fierce martial artist continues to move forward, the murderous aura of the fierce martial artist has begun to gradually release, and the space around the fierce martial artist's body is somewhat condensed and the temperature is Also with the decline.

Wherever the fierce martial artist went, the residents on both sides of the street retreated one after another, as if they were afraid that the fierce martial artist would suddenly be angry and behead them.

At this time, Li Tian, standing on the city wall, suddenly turned his head and looked in the direction of the fierce warrior.

"A fierce warrior! No loss is the most powerful man in the Dongying island country. I have already felt your fighting spirit from such a distance. Good, good!"

Li Tian jumped straight from the wall.

But after Li Tian jumped down, he didn't fall down. Instead, he teleported continuously, and Li Tian continuously summoned the mutant crow out and sent it into the space instantly, as if walking in the air.

"Look, look quickly, Master Li Tian can actually walk in the air, this is not a vicious warrior!"

"Yes, it's too cool, it's too awesome!"

"Yes, yeah, this time I believe Master Li Tian will be able to beat the fierce martial artist into the water and drive the fierce martial artist back to his Jingdong city!"

"Get out? You are too naive. As long as Li Tian has this strength, he will inevitably behead the fierce martial artist!"

"As long as the fierce warriors mean, then there will be two ninja organizations, Iga and Koga, and we will finally be able to reunify the Toyo Island country at that time!"

These onlookers talked a lot.

Li Tian turned a deaf ear to these discussions, clutching the Qiong Spear of the sky tightly in his hand, and "Red Slash" around his body continued to whirl and slowly walk towards the fierce martial artist.

Like a fierce warrior, every step Li Tian took, his aura would rise by a bit more murderous aura every step he took.

And at this moment, a gust of wind suddenly began to blow. This gust of wind was also very strange, only rotating between Li Tian and the fierce martial artist, but everything was normal in other areas after the two.

One thousand meters...

Eight hundred meters...

Five hundred meters...

The distance between Li Tian and the fierce martial artist is getting closer and closer, and as the distance between them gets closer and closer, other onlookers start to back up, seeming to know that the danger is coming, these onlookers even start to turn around and run. Up.

The warriors behind Duanmuying had already stopped, and were afraid to take a step forward. After a few steps, Duanmuying and Bai Jing also stopped.

The fierce warrior seemed to have known that Duanmuying and Bai Jing had stopped, but he did not respond, his eyes seemed to be on fire, staring at Li Tian firmly.

Three hundred meters...

Two hundred meters...

One hundred meters, suddenly Li Tian and the fierce warrior moved at the same time, and the two rushed towards each other like lightning!

Chapter 4057: The strongest battle (2)

All the spectators held their breaths, and even the people who were still in a mess just backing away stopped, as if they were worried that their slight breathing and slight running might startle Li Tian and the martial artist. same.

The city without the roar of machines is very quiet, and the footsteps of Li Tian and the fierce warrior have become the only sound in the entire city.

The distance between Li Tian and the fierce martial artist was getting closer and closer. When they were less than ten meters apart, the two shot at the same time, only to hear the two shouting in unison: "Heavy!"

Two powerful pressures fell from the sky and fell instantly. One of them fell on Li Tian, and the other fell on the fierce martial artist. Li Tian and fierce martial artist rushed to each other's bodies. It stopped for a moment, as if both of them had frozen in an instant.

But in just the blink of an eye, the two simultaneously resolved the coercion exerted on them by their opponents and ran again.

No temptation!

Li Tian and the fierce warrior had just met, and there was no extra word, it was the strongest skill confrontation.

"Heavy" vs. "Heavy"!

The two actually fought evenly.

Both Li Tian and the fierce martial artist showed surprised expressions on their faces, and they looked at the opponent in front of them a little bit more in their hearts. Unfortunately, there is no room for two tigers. Both Li Tian and fierce martial artists understand the meaning of this battle.

Li Tian took a step forward, with a sudden force of his legs, his body rushed up like a rocket, and the spear of heaven in his hand had already pierced the fierce warrior.

Seeing Li Tian's coming, the fierce warrior sneered fiercely, and lightly touched his feet on the ground, instead of retreating, his body was like a bow and arrow shot out, and his sword flashed.

"Chang!"

"Chang!"

In just a few seconds, Li Tian had continuously stabbed seventeen or eighteen shots at the fierce martial artist in mid-air, and without exception, these seventeen-eight shots were attacked by the fierce martial artist. The knife blocked it back with the same force.

The long knife in the hand of the fierce warrior also slashed seventeen or eight swords against Li Tian, and Li Tian either avoided or used the Qiqiong Spear of the sky to resolve this slash.

This intersected spears and swords in the air, and Li Tian and the fierce warriors once again fought equally well.

Finally, when they landed on the ground, the two blasted their left fists at the same time, and their fists slammed into each other with a loud bang, and then their bodies swished twice and flew back more than ten meters before stopping.

Li Tian stared at the fierce martial artist coldly. He felt the pressure on the fierce martial artist that was not part of the ghoul. You must know that Li Tian is no longer what he used to be, but Li Tian still has this feeling. This shows the strength of this fierce warrior!

The fight in just tens of seconds also gave Li Tian a preliminary understanding of the fierce martial artist.

Sure enough, as Li Tian had previously expected, the fierce martial artist will also use this skill, and the fierce martial artist's heavy skill has surpassed the small hot pot, the belly sky cluster and others, and reached the state of Li Tian, and the fierce martial artist's sword The skills are equally good.

The fierce warrior was also staring at Li Tian at this time, and he also felt the pressure on Li Tian when the corpse came to Dongying Island.

"Li Tian, this monster-like man has such strength in just over half a year. If in time this Li Tian will surely become the biggest enemy of the Three Corpses in the earth world!"

"It's a pity that you, Li Tian, came to Dongying Island to **** the territory with my fierce warriors! Even the corpses of this Dongying Island are only supporting some puppets. What qualifications does Li Tian have to compete with me?" The fierce warrior thought in his heart.

At this time, the fierce warrior and Li Tian's fight in just ten seconds has already caused all the people watching the game to talk about it.

"Is this the battle between the two strongest people in this island country? It doesn't seem to be particularly gorgeous, and it's not as good as the ninjutsu of those ninjas. It turns out that the masters are just like this!"

"You are really ignorant! Don't the masters have to magnify their moves gorgeously? Tell you this is called returning to the basics. It can only be said that both of them have reached a certain level of cultivation, and their control of power has reached the extreme. ! Just like the highest level of samurai swordsmanship, the roots do not need gorgeous attacks!"

"Yes, although their moves are not gorgeous, don't you have a feeling of depression? And these are the two terrible places of them!"

Someone said in a trembling voice: "These two are too powerful. Many of the skills and attacks they use are techniques that we can't understand at all and can't see clearly."

The layman looks at the excitement, the insider looks at the doorway.

The few organization leaders and legion leaders in Ruhr Island can still see some clues, but it is precisely seeing this clue that makes them feel even more terrible.

"Just now Master Li Tian and the Fierce Martial Artist took the strongest attack, and this strongest attack is just the initial action of the two of them trying to test each other. I am afraid that the power and scale of the next battle will be far away. More than the previous battle, it is even possible that the entire city of Ruhr Island will be destroyed!"

"Should...should be impossible?"

"Why is it impossible? Don't forget that Master Li Tian is a strong man who can sink Zhongtong Island. In Li Tian's eyes, there is no possibility of this word! So, if you don't want to die, you should hurry up to the wall. Run up! And if you don't want to be implicated, you should leave the city as

soon as possible. Now the attention of those warriors is on Master Li Tian, and there must be no time to stop them! Even if someone stops you, Master Situ Ningbing and others!"

It was Abe Haruka who said this.

This guy has a great understanding of Li Tian's strength, and he thinks he knows how terrible the offensive power was in the seemingly ugly battle.

Abe Haruka's words immediately made the people around him suddenly realize that those who wanted to continue to watch the battle immediately turned and ran towards the city wall stairs, while others who were afraid of death fled outside the city gate.

"Li Tian, you are the third formidable opponent that my fierce warrior has encountered in the island country of Dongying. I originally planned to kill you in front of the tens of thousands of people in the city of Ruhr, and then stepped on your body to board me. Become the throne of the sole main **** of the Eastern Island country."

"But now I have changed my mind. A strong opponent like you shouldn't easily die in my hands. If you stay in this world, it might be more interesting. For example, we will deal with the three stinky bugs together!"

"But... you need to keep the zombie virus antidote reagent, and then take your people to leave the Dongying Island country immediately!" said the martial artist.

There was a slight sneer on the corner of Li Tian's mouth, and he said, "I refuse!"

Chapter 4058: The strongest battle (3)

Hearing Li Tian's answer, the fierce fighter was not angry, but happily said with a smile: "Yes, you should refuse! If you easily agree to my proposal then I will be disappointed and want to kill you!"

"Hahaha, want to kill me? It depends on whether you have the ability!" Li Tian said with a sneer.

This fierce warrior seems to have been overthrown by the Iga Ninja. He leaned forward slightly and dragged the tip of the long sword in his hand to the ground with a sneer and said: "If I have this ability, I will know. Let you kill the waste of Kawa Ieyasu!"

When the words fell, the fierce martial artist rushed towards Li Tian, dragging his long sword, and the tip of the knife hit the ground and sparks splashed. The speed of the fierce martial artist was already accelerating. The distance between the two men was only about 30 meters. It took less than two or three seconds to reach Li Tian.

"Huh!"

"Huh!"

The long sword of the warrior slashed at Li Tian discontinuously with a chill, and the real cruelty of this warrior was that every time he swiped the sword, he would instantly release its weight, using pressure to affect Li Tian's physical reaction.

However, this is not a mess.

Li Tian's skills are not inferior to him in the re-exertion, and even slightly better than the fierce martial artist. When the fierce martial artist exerts his weight on Li Tian, Li Tian's heavy pressure

has also been exerted on the fierce martial artist. And Li Tian instantly solved the coercive attack of the fierce warrior.

"Knot!"

With a move of Li Tian's mind, he instantly allowed "Red Slash" to combine with the nine-color corpse crystals in his heart, forming a skin armor and a phantom of sword spirit on the surface of his body.

As soon as the blade spirit phantom appeared, the fierce warrior immediately felt the strangeness, and his figure quickly withdrew back.

"What's the matter? Li Tian hasn't changed in any way, but why does he suddenly have a temperament that is similar to a demon? No, Li Tian seems to have changed a little, but what is this? "The fierce martial artist looked at Li Tian suspiciously, thinking in his heart.

Although the phantom of the sword spirit appeared, only Li Tian could clearly see where the sword spirit was. As for the fierce martial artist, he could only see that there was something on the outside of Li Tian's figure, but he looked at what it was. Not sure.

At this time, Li Tian had already rushed towards the fierce martial artist.

In this form, Li Tian's skin armor had the highest defensive power, and the existence of the blade spirit phantom gave Li Tian a more keen sense, and he could judge close attacks in advance.

"Huh!"

"Huh!"

When Li Tian rushed towards the fierce martial artist, he continuously teleported to make his figure more like a ghost, and the Qiong Spear of the sky flicked in his hand, and the blue dragon of the sky spear stabbed the fierce martial artist like a hole.

The fierce warrior sneered, his body did not retreat in the slightest, and the sword in his hand swiped against the Qiong spear of the sky, and the knives and spears intersected, and there was a clear metal clash. , It is necessary to counteract Li Tian with the momentum of thunder.

But at this moment, dozens of purple electric snakes emerged from Li Tian's body in an instant.

"Cracking"

The purple electric snake rushed to the Qiong Lance of the sky in an instant, and the electric dragon snake blasted on the warrior's long sword in the hands of the fierce martial artist.

The powerful energy released made the fierce martial artist couldn't help changing his color, but at this time it was too late for him to retreat.

"boom!"

A violent explosion spread between Li Tian and the fierce martial artist, and the fierce martial artist and Li Tian flew back at the same time and landed a dozen meters away.

Li Tianan was unharmed, with more confidence on his face, while the look of the fierce warrior was a bit ugly. Because of the sudden explosion, he couldn't avoid it, so the clothes on his body were also exploded with several holes, and the warrior's long knife in his hand It was completely deformed by the purple electric snake.

Excited expressions appeared on the faces of Situ Ningbing and others standing above the city wall.

"It's a good job. It's the little boss. Even a fierce warrior can't be the opponent of the little boss who can teleport!" Tang Xiaolong waved his fist vigorously.

But he immediately pulled the wound with such a move, and he grinned in pain again.

"Don't think about things too simple, this is just the beginning. The fierce warrior is the strongest in the Eastern Sea island country. So far, in addition to this skill, his performance is not as good as the abdomen sky clump and the abdomen Zhengzang. So I suspect that this fierce martial artist must still have a back hand!" Situ Ningbing said.

Although Situ Ningbing was only speculating, he was always recognized by others.

"I have had a fight with a fierce warrior, except for this skill, his strength is also better than mine, so the next battle may be more intense!" said Ouyang Man, who was wrapped in a mummy.

At this time, the Ruhr Island standing on the wall was filled with shocked expressions on the faces of the people.

"The fierce warrior will lose to Li Tian, this...this is really surprising!"

"What's the surprise here. Li Tian is the man who smashed Zhongtong Island. He is the real god, much stronger than the fierce warrior who always calls himself a god!"

"No! The fierce warrior claims to be a **** because he has that absolute strength. Think about how the strength of a guy who can do nothing with the three corpses will be worse? You know that the three corpses are the real rulers in the world now. , Those zombies are just soldiers they got out."

"What do you mean by this? Don't you support Master Li Tian's victory? I have long felt that you are not quite right. Are you a traitor of the Martial Artists organization?"

"No...no...no, how can I hope Lord Li Tian wins? No...how can I not hope the fierce martial artist wins..."

"Brothers, **** him!"

Following the call of one person, seven or eight people rushed up immediately and performed a martial art on the wall.

In the urban area of Ruhr Island City, the fierce warrior looked down at the weapon in his hand that had accompanied him for hundreds of years. Qiango Village had become a pile of scrap iron, and the muscles on his face couldn't help beating slightly.

The fierce warrior threw the weapon in his hand aside, looked at Li Tian with a stern face, and said with a sneer: "Li Tian, you can't blame others for your own death! I will treat you as the one who came to Dongying Island. Treated like a corpse!"

When this sentence was said, a lot of black smoke suddenly appeared on the body of the fierce martial artist, and there were some dark red flames in the black smoke, as if the human body was ignited instantly.

The black smoke gradually dissipated when I fell asleep, and the dark red flames gradually engulfed the fierce warrior, forming a set of dark red and black oriental samurai armor, and behind this armor

there was a flag, and this On the top of the flag, there are four characters written in ancient Huaxia:
The world is cloth!

The fierce warrior laughed wildly and said: "Li Tian, let you taste the anger of the gods of Dongying Island Kingdom!"

Chapter 4059: World Buwu

The picture changed so fast that it was unacceptable for a while. This time everyone, including Li Tian, looked at the fierce martial artist in surprise.

This kind of armor decoration on the fierce warrior is often seen in movies or animation games of the East Island Kingdom, but it appears in the current picture but it is indescribable.

"The world is clothed? What does this mean?" Tang Xiaolong looked at Situ Ningbing suspiciously and asked.

Situ Ningbing looked in the direction of the fierce warrior, and said: "The World Warfare is a political theory put forward by the daimyo Oda Nobunaga during the Warring States Period of the Eastern Islands."

"Literally, the world's deployment of military force means that the world is under the sky, and it is full of force, but it is usually interpreted as the use of force to obtain the world."

"Oda Nobunaga? But what does Oda Nobunaga have to do with this fierce warrior? Is the fierce warrior a samurai of Oda Nobunaga?" Tang Xiaolong continued to ask.

Situ Ningbing shook his head slightly, and said: "It is still unknown, but judging from the four characters on the flag, this fierce warrior might have some connection with Oda Nobunaga!"

The residents of Dongying Island on the city wall were surprised and speechless after seeing the current appearance of the fierce warrior, but soon they were surprised to find that the current decoration of the fierce warrior and the history of the eastern island country Oda Nobunaga's military uniform records are so similar.

"Oda Nobunaga! The fierce warrior will not be Oda Nobunaga?" someone said.

The person next to him immediately retorted: "How is this possible? Oda Nobunaga has been more than four hundred years ago, and it is clearly recorded in the history of our Toyo Island country that he was killed by his retainer, Mitsuhide Akechi, at Honnoji Temple. There is still Oda Nobunaga's public temple in Honnoji now!"

"No, it is recorded in history that Oda Nobunaga's body was not found. Maybe he didn't die at that time?"

"Even if I didn't die back then, it's more than 400 years now. Have you ever seen someone with a life span of more than 400 years? Oda Nobunaga is not a tortoise!"

The pin wheel of these people didn't end for a while, and at this time they already felt the powerful power transmitted from the fierce martial artist.

This kind of power Li Tian is not familiar with, the feeling and the heavy is coercion, and the power of the body is completely different, giving people a feeling of seeming and non-existent.

But this feeling is so real, even if you can't see it, it's real, and the biggest impact of this kind of power on Li Tian is that Li Tian feels that his body is becoming a little stiff. It seems to gradually lose control.

After uttering the arrogant words, the fierce warrior stood in the same position as an Eastern samurai, holding the scabbard with his left hand and the hilt of the sword with his right hand.

The sky gradually became gloomy, as if it was about to rain, the breeze blew the flag behind the fierce warrior, hunting and hunting, the whole picture looked particularly bleak.

At this moment, the fierce martial artist's body moved.

I saw the fierce martial artist's feet moved forward slightly, and after finishing, his toes moved backwards, and his body appeared in front of Li Tian like lightning in the next second, and the long knife in his hand had been pulled out. , Struck Li Tian's body like lightning.

"Huh!"

Although Li Tian's body has a "Red Slash" knife spirit, Li Tian has a Void Yaksha, but it moves instantaneously, but in the first second, Li Tian found that he seemed to be unable to move at all, as if he had been It's the same as when a person casts a fixation technique.

"Huh!"

The long knife in the hand of the fierce martial artist slashed through Li Tian's abdomen, and the fierce martial artist had appeared seven or eight meters behind Li Tian.

The scenes often seen in the movies of ancient warriors of the East Ying Island Kingdom appeared on Li Tian. If he followed the pattern of the movie, Li Tian should have let out a scream and fell to the ground.

But this is not a movie.

Li Tian's heartbeat was fierce, and he looked down at the cut cut on the armor of his abdomen, and the corners of his mouth not only slightly tilted upwards.

Fortunately, there is this skin armor, otherwise Li Tian's body may have been cut in half by the fierce martial artist.

Such a powerful attack power!

Even if the skin armor was attacked by the tongue of the white bone monster hiding in the abdomen, it was only a row of teeth marks on it, but now the skin armor was cut directly by the fierce warrior's long knife.

And this gap also made Li Tian's stiff body gradually recovered.

Li Tian turned around and looked at the fierce warrior, and said: "I am really eye-opening when I come to Dongying Island. The body of the abdomen Tiancong can become a big snake, and Ieyasu Kurokawa's body can become a huge plant. On the other hand, the abdomen is demonized by a black tongue, but I can't see exactly what the change is with you?"

The fierce warrior also turned around, looked at the wound on Li Tian's abdomen, and said with a cold smile: "Li Tian, you are really a Xiaoqiang who can't be beaten to death. With such a strong knife, you will be safe and sound. It really makes me. Feeling surprised!"

"But this is the beginning!"

"What you see now is who I am. I am Nobunaga Oda, the only existence in the history of the Toyo Island that is closest to God!"

Although Li Tian doesn't know much about the history of Dongying Island Country, Li Tian, a legendary figure like Oda Nobunaga, still knows.

"It turns out that the fierce warrior is Oda Nobunaga, so it's no wonder that such a badass always calls himself a god!"

It is recorded in the history of Toyo Island that Oda Nobunaga once ordered the monks of the temple to move some stone statues of gods and Buddhas to him. This was not because Oda Nobunaga believed in gods and Buddhas to worship these gods and Buddhas, but he thought He is the **** of Dongying Island, and he wants these gods and Buddhas to worship him.

Li Tian would not think that the four-hundred-year-old Oda Nobunaga does not exist like the other onlookers of the Eastern Island country, let alone the four-hundred-year-old person. The four elephants and Xue Ji did not live for more than a thousand years. , And the small hot pot has been alive for nearly ten thousand years.

"You are not dead?" Li Tian asked.

"Hahaha, there are too many people who want me to die, but the people who want me to die have all died and I am still alive! I am the **** of Dongying Island. God never will. The dead will only last forever!" Oda Nobunaga said with a arrogant smile.

"God? Even if you Oda Nobunaga is a god, you must die in my hands today!" Li Tian said with a cold snort.

While speaking, Li Tian continuously used teleportation to rush towards Oda Nobunaga, and there were seven or forty-nine purple electric snakes condensed on the spear of heaven in Li Tian's hand.

"weight!"

A coercion fell from the sky and fell on the fierce martial artist, and at this moment, Li Tian's Heavenly Qiqiong spear had already pierced the fierce martial artist!

"boom!"

Chapter 4060: Hard fight

A loud noise came out in the city of Ruhr Island, and a huge energy fluctuation centered on Li Tian instantly rushed out towards the surroundings.

Bai Jing and Duanmu Ying were immediately rushed out by this huge energy fluctuation, and the warriors of the fierce warrior organization could not avoid it either.

The buildings and houses on both sides of the street only a few tens of meters away from Li Tian disappeared instantly, and all the buildings within 100 meters of Li Tian's body were turned into ruins, and the houses even further away were toppled. It collapsed a lot.

The dust is flying, and purple arcs are constantly flashing in the surrounding air.

The entire city of Ruhr was quiet in an instant. Everyone stared at the figure in the dust in a daze. Almost at the same time, almost all the onlookers swallowed their saliva involuntarily.

"Guru!"

Although the sound was not loud, the movement of nearly tens of thousands of people swallowing saliva at the same time was not small.

The onlookers around Abe Haruka looked at him gratefully at this time, thinking in their hearts that if it weren't for Abe Haruka's reminder to let everyone run to the wall, I am afraid that by this time the ruins of those houses would have been corpses everywhere.

Abe Haruwolf enjoys this look. At this moment, his heart is full of pride and pride. He feels that he dragged his family to beat the gongs and drums to defect to Li Tian was the wisest thing he did in his life. After the warrior occupied the Ruhr Island city yesterday, he carried all the pressure and did not want the warrior to give in. This was the second most correct thing he did.

As long as the murderous warrior dies, Iga and Koga ninjas will definitely not become great weapons. By then, the Eastern Kingdom will be the world of Li Tian, and he, as the first veteran to follow Li Tian, will not say at least that the land will be sealed. It's also very rich!

At this time, an onlooker yelled excitedly: "Let... zoom in! Hey, you have seen it, Master Li Tian finally zoomed in. I said that a master will definitely look like a master now. You all believe it!"

The people around nodded stupidly. How could they have thought that Li Tian would be so domineering, that a single shot could destroy all the buildings in this tens of thousands of square meters?

By this time, those who had doubts about Li Tian's collapse of Zhongtong Island obediently closed their mouths.

What about Zhongtong Island is just a little bit bigger!

Situ Ningbing and Xue Ji jumped off the wall in an instant and rushed in the direction of Duanmu Ying and Bai Jing. They knew that Li Tian's attack was strong, and Li Tian also tried his best to control the attack to prevent the attack from hurting the innocent. In this case, Duanmuying shouldn't be injured, but Duanmuying was pregnant after all.

The figures of Situ Ningbing and Xueji flashed past Li Tian quickly, and at this moment, they saw another figure standing in the dust.

"Li, be careful..." Situ Ningbing reminded him.

However, Situ Ningbing's voice was just halfway out, and a pressure from the sky instantly pressed her to the ground and made her completely immobile, and the same was true of Xue Ji on the other side.

"Huh!"

"Huh!"

"Huh!"

The continuous light of the knife flashed through the dust. In the dusty smoke, although Li Tian was also evading quickly, but Li Tian's avoidance seemed to be slower every time, and every knife light was accurate. Cut on Li Tian's body without error.

Li Tian looked at Oda Nobunaga who was constantly flashing by his side. Although Oda Nobunaga's attack could be captured every time by his sword, but when Li Tian reacted. It's too late!

Seven or eight swords, this Oda Nobunaga slashed on Li Tian's body for seven or eight consecutive swords. Li Tian's skin armor instantly got a few more wounds, and Oda Nobunaga slashed two of them at the same time. One location, the wound at that location immediately began to ooze blood.

When the blood flowed out of the body, it was quickly covered by the flying dust, and the dust instantly turned blood red.

Li Tian was injured.

Li Tian no longer remembers when he was injured last time, but now he is already injured, but this small injury can do nothing to Li Tian.

What Li Tian wants to consider is how to continue fighting with the fierce fighters in this situation, and how to crack the attack of the fierce fighters.

The fierce warrior Oda Nobunaga looked at the blood on Li Tian's wound, completely disregarding Li Tian's instant release to break open Situ Ningbing and Xueji under his control, and said with a sneer: "How is Li Tian's painful taste? As I said earlier, this is the beginning!"

Situ Ningbing and Xueji, who were rescued by Li Tian, rushed towards Duanmuying's direction quickly, and soon found Duanmuying and Baijing thousands of meters away.

Both the bodies of Bai Jing and Duanmuying were slightly bruised, and there was no major problem, but the warriors of the fierce warrior organization did not have such good luck. Their strength was originally relatively low. When the impact force came over Many people were blasted out before they had time to react. Many warriors were injured by the warriors' swords behind them, and some warriors were hit by the impact force on the building, ranging from broken arms and legs to severe ones. It was directly buried by the collapsed building.

"Duanmuying, Bai Jing, are you two all right? Are you injured? Does it matter?" Situ Ningbing asked.

Duanmuying shook her head and said, "It doesn't matter, how is Li Tian now?"

"Believe Li, he will be fine, now I will take you out of here!" Situ Ningbing said.

"If you want to go away, kill all the dogs and warriors of the fierce warrior before you go too late!" Duanmuying had already stood up, and a purple light sword appeared in her hand in an instant.

Xue Ji handed the sniper rifle behind her to Bai Jing, and the Dragon Sword in her hand also rushed forward. Situ Ningbing didn't want to stay in this place so as not to be distracted by Li Tian, so she directly used Qingyun Qi Jue to release one. Purple lotus, attacked those warriors.

The strength of Situ Ningbing and others has far surpassed these warriors, and the battle is completely a second kill, and these warriors organized by the fierce warriors were beheaded cleanly within a few seconds.

At this time, the fierce warrior Oda Nobunaga has already felt the battle on this side, and the person who looked at him fell into a pool of blood instantly and suddenly became angry.

"Danki Sakura, I don't kill you but you hurt me. Today, I want to wash the city of Ruhr and kill all the members of the heavens!" Oda Nobunaga rushed towards Duanki Sakura. .

"Huh!"

Li Tian teleported in front of the fierce martial artist, sneered and said: "Now it's time for me to attack!"
