

A Killer 4081

Chapter 4081: : Awesome acting

Li Tian can do three things with one heart, plus the nine-color corpse lotus himself is also conscious, as long as Li Tian's mind moves, the transparent silk threads will automatically start to find the target, and Li Tian does not need to worry about it.

In just a few minutes, hundreds of zombies above level 15 have been controlled by Li Tian, and among these hundreds of zombies, only two zombies of level 18 need to be controlled by Li Tian. The six-level zombie nine-color corpse lotus can handle it by itself.

More than ten minutes later, a business van with a **** spray painted on the body of the car stopped in front of the building, and the one who jumped out of the passenger seat of the car was the one who went out to find the owner of JD.com. Warrior.

"Quick, quick, **** faster, we've been out for so long, they must have already started interrogation!" The warrior kept pulling the car door and urged.

Seven or eight female zombies immediately jumped out of the business van. These female zombies were dressed in exposed clothes, almost unable to cover the spring, and the warrior took the opportunity to eat the tofu of these female zombies, keeping his hands on the **** of these female zombies. Touched with her ass, and the female zombies didn't have the slightest anger, but giggled.

From the driver's seat, a 40-year-old Dongying man, with a camera in one hand and a work box in the other, nearly fell to the ground because of his rush.

This man is James.

Before the end of the world, it was to circumvent Dongying's island country policies and laws. With this loophole, James registered the JD.com company in the United States and applied for American citizenship, so that he could send the film to the United States for review and import it. Sold in Dongying Island.

Of course, all the movies that are not popular in Tokyo were shot in Dongying Island, and most of these actresses were discovered by James on the streets of Jingdong City.

The warrior man held a long knife and said: "James, these two chicks are absolutely superb. If I were not recommended by the boss, I am afraid that you will not have your turn to come here this time, so you must remember my benefits. ."

"Definitely, surely, no matter when there is a lot of adult benefits, if adults like me, these actresses can be chosen by adults at will, two or three are fine. I can also shoot a heroic battle scene specifically for adults. As a permanent collection for adults!" James said.

"Haha, this can be considered, but it's not possible right now. The Lord Martial Artist has gone to West Jiuzhou Island and has not yet returned. The three adults of the Four Ghost Generals will come to our branch today to inspect, so we can only wait until the adults. After leaving. At that time you are looking for some fresh goods for me, and then I will come to a personal corpse battle!" The warrior said excitedly.

His voice fell, but he saw a man sitting on the steps in front of the building, and this man was the man who was captured by them.

The warrior suddenly drew out the samurai sword, and shouted at Li Tian loudly: "Baga, how did you run out? Hurry up and follow me in, otherwise I will kill you!"

Li Tian didn't have this screaming warrior, and he was still controlling the transparent silk threads and constantly controlling the zombies.

The samurai seemed to have been greatly insulted, and rushed towards Li Tian with a roar, and he stopped abruptly as soon as he rushed out a few steps.

He found that the hall on the first floor of the building was empty and there was no one, and there were blood stains and traces of flames on the floor of the hall.

An ominous hunch appeared in his mind.

His mind was turning quickly. In order not to make James and the seven or eight female zombies suspicious behind him, he suddenly laughed and said to James: "I lied to you? If I play a movie, Can I play the leading role?"

James nodded immediately, flattering words in his mouth.

"Hurry in, my boss is going to be anxious, there are other brothers, if they are anxious, you will know the consequences by then!" The samurai slammed James in the direction of Li Tian. Throw the legs and ran back.

"Huh!"

A red light flew in front of James and directly inserted into the back of the warrior.

The warrior screamed and fell to the ground motionless.

"Hey, the adult's acting skills are getting better and better, you can go to get an Oscar!" James flattered.

Li Tian stood up slowly, and said with a sneer: "This is not acting, he is dead!"

With a move of Li Tian's mind, "Hong Zhan" suddenly flew out of the back of the warrior, and as soon as "Hong Zhan" flew out, blood also sprayed out.

The female zombies immediately let out a scream and looked at Li Tian in fear.

James did not expect such a turning point in the plot. He put the equipment in his hands on the ground and knelt down in front of Li Tian, and said: "My lord, we are just small zombies in Jingdong City. We rely on shooting some heavy-tasting zombies. Eat your mouth, please raise your hands high!"

Li Tian wiped off the blood on "Red Slash", and looked at James and the trembling female zombies coldly. It can be seen that the level of these female zombies is generally low, and the highest is less than level 9. And the lowest is level seven.

On the contrary, James' zombie level has reached thirteenth level.

"Are you the boss of JD.com?" Li Tian said coldly.

James nodded repeatedly.

James thought that Li Tian came for these female zombies, and quickly said: "If adults like them, I can give these actresses to you. They are the hottest stars on Jingdong before the end of the world. If adults are interested, hey, I can also shoot special discipline films for adults!"

"To shut up!"

A reprimand made James silent, and James' head kept kowtow on the ground like garlic.

"I don't have such interest, I will ask you if there is a girl named Feng Ze Lina in your Jingdong non-hot company? She probably joined your company less than four years ago!" Li Tian said coldly

After saying this, Li Tian's gaze noticed that one of the seven or eight female zombies suddenly raised her head when she heard the name, but she quickly lowered her head again. When the other zombies heard these words, their eyes also glanced at the girl intentionally or unintentionally.

Before he heard James' answer, Li Tian had already come to this female zombie and said: "Do you know her? Or are you Feng Ze Lina?"

When the female zombie saw Li Tian coming over, she kept shattering her back and shook her head and said, "No, I am not, I don't know her either!"

The more this female zombie became, the more it made Li Tian conclude that this girl was the one he was looking for.

"I'm looking for you!"

Chapter 4082: : Take over Jingdong City (1)

"I...I'm not Feng Zelena, I..."

"Don't worry, we were commissioned by Old Man Honda, the deputy curator of the National Diet Library, to find Feng Zelina. If you are indeed not her, we will not embarrass you!" Li Tian said calmly.

Feng Zelina's expression on Li Tianhua's face changed several times in a row when she heard Li Tianhua, but this time she did not deny it. She looked at Li Tian with doubts and asked, "Grandpa...my grandpa is still alive?"

Li Tian nodded and said, "Mr. Honda is still in the National Diet Library. He is very guilty of reprimanding you for opposing you to join this Tokyo not hot company!"

"It's all my fault! I shouldn't be too headstrong! I wanted to see my grandpa, can you take me to find my grandpa?" Feng Zelena said.

The zombie Feng Zelina has made a slight crying sound, but unfortunately she is a zombie so only crying but no tears flow out, but Li Tian can feel that her feelings are real!

Li Tian nodded, Li Tian stretched out his hand to send Feng Ze Lina into the space of Void Yasha, and then pacified Feng Ze Lina a few words to let her rest in the space temporarily.

James is waiting for the zombies. When you see Li Tian reach out, every time Zelena has disappeared, a more terrified expression appeared on her face.

When Li Tian came out of the space of Void Yasha, they still knelt in place and did not dare to move.

Li Tian didn't intend to embarrass them, and said to James: "Well, now there is nothing wrong here, you can go!"

James turned his head and glanced at the corpse of the samurai who fell on the ground. He was crying and afraid to move. He was worried that Li Tian would wait for him to turn around and suddenly start his hand and kill him from behind.

Li Tian also let him kneel.

About half an hour later, Situ Ningbing and others all walked out of the building. There were blood stains on their bodies. The weapons in their hands were still ticking with blood, which made James even more sure of his judgment.

James knelt on the ground, and the other female zombies did not dare to stand up, they all looked at Li Tian and others carefully. For them, there does not seem to be much change before and after the end of the world, but they are still those men or senior male zombies riding on them.

The only difference is probably that they were trying to make money before the end of the world, but now they are trying to survive as a zombie.

To be honest, the psychology of these female zombies is a bit envious of Feng Zelina, this woman was a star that JD.com is not hot to cultivate before the end of the world, and after the end of the world, it is a zombie doll that members of the Martial Artist organization particularly like. The brave man in front of her rescued her from the fire pit.

At this time, Goto walked out of the building, crying.

The moment James saw Goto, he felt that Goto was once an actor in his company. The number of male actors before the end of the world is really small, and there are even fewer actors with a strong body like Goto, so James can remember Goto.

"Are you... Goto-kun? Please let us go because we are old acquaintances?" James said.

Goto also recognized James. Before the end of the world, James was the boss, and he was also a well-known figure in the industry in the Eastern Island. At that time, Goto was severely reprimanded by James for his poor acting skills.

Seeing James kneeling in front of him now, Goto felt an indescribable refreshment in his heart.

It's just that Goto doesn't have the time to save James now, he hasn't even gotten his own business!

Goto came to Li Tian, knelt down next to Li Tian, and said, "Master Li Tian, I...I really can't eliminate so many corpses! You still have to kill me!"

Li Tian smiled and let the boy get up, and said, "What am I killing you for? Do I want you to be my spokesperson in the zombie world? Now this Shibuya warrior organization has been uprooted by us, if I give you nearly a thousand zombies above level 15. How long can you eliminate the influence of the fierce warriors in Shibuya? Let them know that there is only one savior in this world, and that is Li Tian?"

"Much...how many corpses of zombies?" Goto thought he had misheard, and asked again.

"Almost a thousand zombies above the 15th level, most of them are 16th or 7th level zombies, but there are two 18th level zombies, this zombie army should be enough for you in Shibuya, right?" Li Tian said.

Goto's body trembled slightly.

He is only a ninth-level zombie now, and Li Tian asked him to lead a zombie army composed of zombies above the fifteenth level. How could he not be excited.

"My lord trusts me, so I will definitely go through fire and water. This Shibuya warrior organization has been in operation for nearly three years. It might be a little difficult for other senior zombies to just listen to my preaching!" Goto said .

"The brutal warrior organization has been destroyed by my Li Tian, and now the entire Dongying island nation is in the hands of my Li Tian's heaven, so Jingdong City is not too powerful. I want you to fully control Jingdong City as soon as possible, and then start bringing Your zombie army is preaching Li Tian throughout Tokyo and on Honnakashu Island. Do you understand it like a missionary? In the future, the Eastern Kingdom will only allow one belief, that is, Li Tian!"

"As for if there is resistance, the zombie army given to you is not for you to use as a decoration. You can kill it directly when necessary. The zombie crystals you get are your reward!" Li Tian said calmly.

When fighting the fierce martial artist, Li Tian had already realized the power of faith. Although the power of that faith was still very weak, Li Tian had to take it seriously.

The establishment of a shrine for the statue of Li Tian on West Kyushu Island, the destruction of other shrines by Tang Xiaolong and Liu Guoqiang on Honzhongshu Island, and the fact that Goto began preaching and preaching belief in Li Tian were all efforts for this matter.

Maybe there is no use for eggs, but Li Tian just wants to make a try in the Dongying island country.

God, Li Tian can do it too!

After hearing the conversation between Li Tian and Goto, James turned his mind quickly, knelt and walked in front of Li Tian, and said, "My lord, how can such a major incident be missing records? I am willing to follow Master Goto's hand. The equipment records the entire process of Lord Goto controlling Jingdong City, and records all the experience of Lord Goto's preaching mission. It can also record your great achievements in rescuing Dongying Island from the end-time crisis for future generations to look forward to!"

These few words of James said in Li Tian's heart.

Li Tian can put all the control rights of the Dongying island country to Duanmuying, but the theocracy of the Dongying island country must be in Li Tian's hands, and it would be good if it can be recorded by a documentary.

"But you, a director of a love action movie, can you make this documentary?" Li Tian said suspiciously.

James's face immediately showed a trace of pride, and he said firmly: "My lord, although I am engaged in this industry, I am a graduate of the Film Department of the Art School of Jingdong University. I use my life guarantee to make the best film. The disciplinary film is coming!"

Chapter 4083: : In charge of Jingdong City (2)

Li Tian did not refuse any more.

He summoned all the nearly 1,000 zombies he had controlled and gave them to Goto, while Li Tian took Situ Ningbing, Xue Ji, Tang Xiaolong and Xiao Hotpot before returning to the National Congress Library.

The old man from Honda has been watching in front of the glass door of the library hall. When he saw Li Tian and others coming out of the car, he saw Feng Ze Lina who followed Li Tian with an expression of excitement.

Feng Zelina remained the same as it was more than three years ago after becoming a zombie. The old Honda didn't open the lock with the key several times in a row. Her hands were shaking constantly, and a few tears flowed out of her eyes.

This is the tears of zombies.

Feng Zelina was the same, she had already rushed to the glass door and looked at the old Honda through the glass door and started crying.

That year, her waywardness hurt the old man's heart. After being scolded by Honda, she even remembered the old Honda in her heart. But the end of the world suddenly came, when all the authorities in Jingdong City fled one after another, Old Honda was still waiting for her return in the library.

As for Zelena, when the end of the world came, she also thought about coming back to find the old Honda, but when she became a zombie, she is still under the control of the zombie James. These years, she has been constantly riding around by male zombies and men. Growing up.

And what supported her to survive was the guilt of Grandpa Honda. She just wanted to say "Sorry, I was wrong!"

Li Tian and others didn't walk into the library again, and they were too embarrassed to disturb the old Honda at this time.

After about half a little water, Old Honda brought Feng Zelena to Li Tian. In addition to thanking him, Old Honda handed in Li Tian a modern map of the North Island of Dongying Island.

"Thank you, I won't say much. The Ten Teng Mountains you are looking for are already marked on the map! But what I have to tell you is that the place is full of mystery, even before the end of the world, the government of Dongying Island has very little. Will dabble in that area, so you must be careful." Honda said.

Feng Zelina said: "Thank you so much, I hope everything goes well for you. If you can come to see me once when you come back from Beihai Island, I will be very happy!"

After a few casual chats, Old Honda took Feng Ze Lina into the library and locked the glass door with an iron chain. Li Tian, Tang Xiaolong and others waved between their grandparents. Drive away in the middle of the road, heading towards the central area.

The remnants of the fierce warriors in the central area became Li Tian's last follow-up in the Dongying Island Country. Although these opponents were simply vulnerable, Li Tian still had to clear the way for Goto's mission.

As long as the Martial Artists organization is destroyed, then the zombies controlled by the Martial Artists organization will become a mess of sand, and it will be completely impossible to stop Goto from preaching.

GINZA, the longest commercial district in the Central District of Jingdong City, is a representative of the modern attractions in the island country and one of the three famous streets in the world.

However, in the first year of the end of the world, the central area was the first to fall into chaos, and Ginza, the core area of the central area, was naturally hungry. At that time, zombies were infested and constantly biting humans. While the zombie virus was wanton, the entire Ginza just call it a ghost town.

In just one year, with the emergence of zombie levels, high-level zombies continue to devour low-level zombies, and low-level zombies continue to devour lower-level zombies and humans. The number of zombies near the central area has decreased sharply, and the arrival of the fierce warriors immediately Only know that the high-level zombies who had swallowed restored order.

Although the current Central District is not as good as it was before the end of the world, it is still prosperous, and Ginza is even more so because of the location of the headquarters of the Fierce Warrior Organization. Even the zombies are in order, and there is no sense of the end of the world.

When the cars of Li Tian and Tang Xiaolong appeared here, they quickly attracted the attention of the zombies. Needless to say, cars of the Martial Artists organization naturally followed and surrounded Li Tian and others.

This time, in order to avoid trouble, Li Tian sent Situ Ningbing, Xueji, and Little Hotpot into the space of Void Yasha, so after seeing Li Tian and Tang Xiaolong, the members of the martial arts organization did not reveal. Obscene expression.

"Who are you? Why did you break into the area controlled by the Martial Artists organization?" asked the members of the Martial Artists.

Li Tian opened the car window and severely reprimanded the member of the fierce warrior, saying: "We are bounty hunters who have just come out of Shibuya. We were asked by the four evil martial masters to have important things to your current boss. Announce, don't you take us to your headquarters soon? At least you can afford it if it is delayed?"

This fierce warrior member knew that the fierce martial arts four ghosts did indeed go to Shibuya to inspect today. Seeing Li Tian's face as a ninja, he didn't seem to be lying. He greeted him and got in the car and started to be Li Tian and the others. The car cleared.

Ten minutes later, Li Tian was taken to the headquarters of the Wushu Organization in the Central District.

Then Li Tian Li Tian suddenly brought the small hot pot out of the space of Void Yasha, blocked the door of the entire headquarters, and then began to fight in the fierce warrior headquarters.

Li Tian, Tang Xiaolong, Xue Ji, and Situ Ningbing could easily kill these fierce warriors in seconds, and even if these fierce warriors were defeated, they would only have a dead end.

Some members of the fierce warrior ran to the top of the building, trying to escape Li Tian's "Red Slash" by helicopter and flew out, but the final result could only be a plane crash.

The high-level zombies in Ginza seemed to be aware of the situation in the Martial Arts Headquarters building, but when they came to the headquarters building, the entire Martial Arts Headquarters building had fallen. Except for the few samurai who jumped off the building and broke their legs, they were still rolling on the ground. The whole building has been bloodied!

The small hot pot released a large circle of magma more than ten meters away from the building, which completely isolated the entire building. Even those 17th or 8th level zombies who dared to jump through the magma circle would be quickly killed by the small hot pot.

Li Tian stood on the top of the fierce warrior headquarters building, looking far away, watching zombies running in this direction continuously, the expression on Li Tian's face did not change at all.

Suddenly, Li Tian suddenly began to exert his weight.

The pressure that fell from the sky caused the zombies surrounding the magma to lose their ability to move in an instant, and most of the zombies couldn't resist the heavy pressure and fell directly to the ground. These zombies looked at Li Tian in horror, in their hearts. Li Tian has already been regarded as another powerful existence of fierce warriors.

Li Tian picked up the corner of his mouth slightly, and sneered out loudly and shouted: "The fierce martial artist has been killed by me, and the fierce martial artist organization has been rooted out by me Li Tianlian! I Li Tian announced that Jingdong City is officially controlled by me Li Tian!"

"Anyone who refuses to accept, come up and die!"

Chapter 4084: : Twenty-level zombie

The vicinity of the building was quiet and terrible. After Li Tian shouted out that domineering word, all the zombies shut up, and no one dared to step forward.

Li Tian smiled triumphantly, what he wanted was such an effect.

Since the fierce martial artist possesses the fear in the hearts of these zombies, even if the fierce martial artist leaves Tokyo and only a few zombies dare not resist, then Li Tian, who can kill the fierce martial artist, will have this effect.

The corner of Li Tian's mouth turned slightly and said, "Since none of you dare to challenge me, then it means you have surrendered to me..."

"Surrender? In my heart, there are only fierce warriors and not Li Tian. If you want to subdue all the high-level zombies in our Kyoto city, then you have passed my level first!" Among the many kneeling zombies standing resolutely The zombie interrupted Li Tian and said.

Hearing such words, the faces of the other zombies were full of shock, but when some zombies saw the appearance of this zombie, they took it for granted and said, "So it was him!"

"Who is he?"

"Don't you even know him? He is the guardian zombie in Jingdong City before the arrival of the fierce warrior. It is said that his zombie level reached level 20 two years ago."

"Probably only he dare to challenge this man named Li Tian in this situation!"

Around this zombie, there were seven or eight zombies whispering theories.

Li Tian's brows couldn't help but wrinkle slightly, the zombie's words were full of disdain, and they were completely naked and hit Li Tian's face. A sharp light flashed in Li Tian's eyes, and his eyes fell on the zombie.

"It turned out to be a level 20 zombie!" Li Tian was shocked.

After Li Tian returned to the earth world, this was the first time he encountered a level 20 zombie.

Twenty-level zombie, the highest level of zombie level, can be said to be the creature standing at the top of the food chain of the earth world, so this male zombie has this arrogant capital.

What's more, this is still a Guardian zombie, a zombie with nine-color corpse crystals, which means that the current level twentieth zombie has actually quietly controlled a thousand zombies lower than him.

"It's very dangerous. If I didn't come to the central area to uproot the brutalist organization, I'm afraid Goto would have nothing but death to come here."

Li Tiandao was not worried about Goto. Zombies like Goto were everywhere in Jingdong City, but Li Tian couldn't afford this person, and he was unwilling to let Goto's mission spread to the middle of the central area.

Li Tian sneered and said, "Since you are not convinced, then come up and die!"

"Asshole! If I am able to move, I will screw your head off in the morning, and let me go if I have the courage, I want you to know the difference in our strength!" Twenty-level zombie said angrily.

Li Tian was embarrassed for a while. Just now he unintentionally used a heavy force to control these zombies, but he did not expect that these zombies were not afraid to resist Li Tian, but they were immobile.

"That's fine, kill the chicken and the monkey. Since I am willing to jump out to find death, then Li Tian can only fulfill you! Use the corpse crystal in your head as a proof of my complete control of Jingdong City!" Li Tian thought in his heart.

For any person in power, he needs a thorn head like this twentieth-level zombie. Only by beheading and suppressing this thorn head can he establish his own prestige.

Li Tian is the same.

And even though Li Tian hadn't hunted zombies for a long time, he also needed these super-high-level zombies' corpse crystals for use by the captain and Xiao Tianyi.

In fact, the captain staying in the country is not particularly important. After all, if the zombie virus antidote is successfully developed, she can turn back into a human.

And Little Tianyi is basically unlikely to turn back into a human, so Li Tian also needs to raise Xiao Tianyi's zombie level to the extreme level of 20 as soon as possible, so that Xiao Tianyi's starting point is higher, which is also good for him to cultivate the corpse.

In an instant, Li Tian would gather up again and release all the zombies. The other zombies knew that this must be a great battle and retreated.

Then Li Tian jumped and jumped from the top of the building to the second level. Li Tian seemed to be walking in the air, and a few flashes of his figure had arrived in front of the twentieth-level zombie.

This twentieth-level zombie has been succumbing for too long, and knowing that the fierce warrior is dead, he completed the transformation instantly. Almost the moment Li Tian was walking in the air, his body had already turned into a huge bone skeleton. , Like a centipede, spit out dozens of long bone thorns towards Li Tian who appeared in front of him.

Dozens of white bone thorns of twentieth level zombies, even on the concrete ground poured from steel, would be instantly pierced into a sieve by the white bone thorns.

Li Tian's face did not change in the face of the attacks of these white bones and long thorns. With a sneer, there was already a spear of heaven in his hand, and the purple electric snake on the spear wandered, as if it contained extremely powerful power. general.

Li Tian's figure flashed and dodged the attack of the twentieth-level zombies continuously, and his wrist flicked and the spear of the sky had already stabled at these white bones.

Without the sound of metal intersecting in the imagination, the long bone thorns were instantly swallowed by Li Tian's purple electric snake. And Li Tian's left hand continuously blasted Soul Breaking Fist, blasting on the body of this twentieth level zombie.

"boom!"

"boom!"

"boom!"

A series of violent explosions sounded on this zombie's body. The bones of this majestic twentieth-level zombie are existences beyond steel. At this time, they were broken by Li Tian's soul-breaking fist. The huge body of the zombie continued. After a dozen steps back, it collapsed.

A teleport of Li Tian has appeared on the body of this zombie, and the Qiong Spear of the sky in his hand has pierced into the head of this zombie heavily.

"puff!"

Black liquid and white brains flowed out of that head, and Li Tian's Heavenly Qiong Spear picked up the twentieth-level corpse crystal from the zombie's head.

Li Tian stretched out his right hand, the corpse crystal fell into his hand, and then suddenly turned around and shouted at all the zombies behind him: "Who else?"

Those zombies were completely frightened by Li Tian's strength, and they kept moving backwards, lest Li Tian changed his face to kill them all.

"This...Is this... still a human? It is obviously a human being, why is his strength so powerful?"

"This is a level twentieth zombie. It can be killed by Li Tian so easily. How terrifying is Li Tian's strength."

Li Tian pointed at a zombie with clean clothes, and said, "You, come here!"

The zombie walked out tremblingly, and his body had already made an escape posture.

"From today, you are the boss of the Central District! I want you to wait here for a zombie called Goto, and he will take you to the entire Central District for training." Li Tian said.

"What? Boss? This...this kid would have such luck?" The other zombies were suddenly full of envy. Hearing the discussion, Li Tian glared and roared, "Who is not convinced?"

"Hua La" fell to his knees.

This time Li Tian didn't use his weight. It was these zombies who knelt to the ground automatically, completely surrendering to Li Tian.

Chapter 4085: :be lost

Li Tian and others did not stay in Jingdong City much, and drove away from Jingdong City in the direction of Beihai Island that night.

After a day and night of driving without rest, Li Tian and others had arrived in Aomori Prefecture when it was dark the next day. Walking further on is the sea, and after the sea is the North Island.

Li Tian and Tang Xiaolong drove one day and one night. Although it is not very exhausting for cultivators, Li Tian decided to take a good rest in Aomori City, Aomori Prefecture, and set off the next day.

There was no word for a night. When the sun rose the next day, Li Tian and others' car had already reached Imbetsu, and the car could no longer move forward.

Although this car can be considered a luxury car, Li Tian did not hesitate to abandon the car, and then took Situ Ningbing and others into the space of Void Yaksha, and instead took the mutant crow to fly.

In less than half an hour, the mutant crow had already flown across the strait and reached the North Island.

Beihai Island is the northernmost first-level administrative region of the Eastern Island.

According to the historical records of Dongying Island Country, it was formerly called Ezo Land, and it was once inhabited by Ainu people. At the end of the 16th century, the Matsumae clan built Fukuyama Castle by crossing the sea and occupied the land. In 1868, the Meiji New Government decided to set up the Hakodate Tribunal in Ezo Land. In 1869, Ezo Land was renamed North Island.

In other words, in the history of Dongying Island Country, this land was not occupied until the 16th century, and it remained in its original state until then.

However, the paper map in Li Tian's hands was already hidden in Raeché in the 15th century. That is to say, this map was used when the various forces on the main Nakashu island of the East Ying Island country had not noticed the North Island. The owner of has already been to the North Island, and seems to have discovered something, and then hid the map in Reche.

So there must be something weird in this, and it is for this reason that Li Tian takes this map more importantly. Although Li Tian feels that Qingyun is unlikely to appear here, it is still deep in his heart. Hope to find Qingyun here.

After Feitian Yasha flew over Sapporo, the largest city in the North Sea, Li Tian didn't let the mutant crow stop again, and went straight to the location marked on the map given by the old Honda man.

If you fly according to the map given by the old Honda, after passing Sapporo, continue to fly northeast, which is about a few hundred miles to reach that place. At the current speed of the mutant crow, I am afraid it will not take an hour. , But who knew that the mutant crows had flew for nearly three hours and didn't fly to that place. When Li Tian realized it, they found that they had already flown to the seaside at the northeast end of North Island.

In other words, the mutant crow crossed the North Island, but Li Tian on the mutant crow didn't find any abnormalities, nor did he find the place marked on the map.

"No, we obviously flew according to this map. How could we not find a place after crossing the island?" Li Tian said to himself.

The mutant crow also had no choice but to directly land on the ground, and said: "I am afraid it is precisely because of the weird place that we have such a situation. If we fall on the ground and walk over the land, perhaps this situation will not happen. Up."

Li Tian brought Situ Ningbing, Xue Ji, Tang Xiaolong, and Xiao Hotpot out of the space, and told them what had happened.

"From the perspective of this map, this large area of the central area of the North Sea Island is unpopulated. In terms of the advanced technology of human beings before the end of the world, the large population and small area of Dongying Island should not have such a large area of barren land. There are only two explanations for this situation. The first is that the survival environment is so bad that modern people cannot survive. The second is because of the unknown on this map. The reason is that ordinary people may not be able to enter here!" Situ Ningbing analyzed.

"So, I agree with the point of view of the mutant crow, and we walked over from the land to see what mysterious existence is here."

"You? What do you think?" Li Tian asked other people again.

Tang Xiaolong smirked and said, "Hey, I don't have any thoughts, you can go wherever you want, little boss!"

"We'll take it as an expedition. If we really reach the destination all at once, it won't be interesting, so I agree with Ningbing's point of view! It's best to go where we can go on foot!" Xue Ji said.

When Xue Ji was in another world, she didn't have vehicles, airplanes, and other means of transportation. She even missed using her exercises to quickly walk through the mountains.

The little hot pot has no idea, his idea is to burn the North Island in a big way.

Although Xue Ji strongly requested a hiking trip, Li Tian still did not agree. Li Tian and Tang Xiaolong found two cars that could be driven in the nearest city, and then filled up the gasoline before driving off.

After a few hours of turbulent weather, Li Tian and others arrived at a small town called Tuporo Town outside the area. The town was not large, and several zombies wandered in the dark.

Li Tian and the others did not plan to stay in the town for rest. They abandoned the car again and walked towards the mountains behind the town overnight. At this time, Situ Ningbing held the map given by the old Honda man in his hand, and Li Tian held it in his hand. The map is obtained from Reche.

Even in the dark, everyone can see the nearby road clearly, but the little hot pot is still bored, turning his head into a torch and illuminating it in front. Tang Xiaolong, holding Li Tian's "Red Cut" as a hatchet, cut a path in front.

Along the way, Li Tian and the others did not speak. In the darkness, the sound of some small animals could be heard, and the roar of some wild animals could also be heard.

"Since it's hard for us to get to that place, wouldn't the old Honda man lie to us?" Xue Ji asked suspiciously.

Situ Ningbing shook his head and said, "I once asked Honda if this is enough. He said that he also saw this place in an ancient book. Because he knew the map of Dongying island country well, so when he was on the ancient book It felt strange when I saw the name, so I wrote it down."

"It's better not to be fake, otherwise the map like this is useless." Xue Ji said.

"Without a GPS positioning system, I don't know if we are in the right direction now! How about we come here tonight? We will leave tomorrow?" Li Tian said.

But as soon as Li Tian's voice fell, he heard Tang Xiaolong's exclamation: "Little...Boss, we seem to be lost!"

When Li Tian, Situ Ningbing and others rushed to Tang Xiaolong, they found that two forked roads appeared in front of Tang Xiaolong. Judging from the traces of the two forked roads, these two The forked road is clearly the road cut by Tang Xiaolong.

But how is this possible? Li Tian and others are sure that they have been advancing in a straight line, even if it is a circle, there is no possibility of fork in the road!

"It seems we are really lost!"

Chapter 4086: : Ten Tengyue

Seeing these two weird roads, everyone was at a loss. ,

This phenomenon can no longer be explained by science. Even if Li Tian, Situ Ningbing and others are battle-tested and do not fear any terrifying monsters or zombies, but standing at the intersection of this road, no one is Know where to go.

Everyone look at me, I look at you.

"Li, this is really weird. Summon Feitian Yasha, so at least we won't go away like headless flies." Situ Ningbing said.

Li Tian nodded, and immediately summoned Feitian Yasha from the space of Void Yasha. Feitian Yasha and Li Tian were connected with each other, and he didn't need Li Tian to give more explanations and fluttered with his wings.

Feitian Yasha flew into the sky. Through Feitian Yasha's sight, Li Tian could have a panoramic view of all the surrounding mountains, but Li Tian felt surprised that the mutant crow flew into the sky

and could not see the two on the ground. A road, not even the road behind Li Tian and others just walked by.

"It's weird! You can't see the road we've walked in the sky, nor can you see the two roads in front of you!" Li Tian let Feitian Yasha fly down and land on his shoulder.

Situ Ningbing's face was a bit solemn, and said, "It seems that we are in trouble now. Li, now you say how we should choose, do these three roads return to the original road, or choose a random road to continue forward? Or should we rest here tonight and wait until the sun comes out tomorrow before we make a decision?"

Li Tian pondered for a while, and said: "Since I have come here, how can I easily retreat? Besides, for us, what is the difference between day and night, I will send you to rest in the space of Void Yaksha first, I really don't believe I can't get out of here!"

Speaking of Li Tian, Situ Ningbing, Xue Ji and others were sent into the space of Void Yasha, and even a few small Yashas were also sent in.

Li Tian controlled the "Red Slash" to fly in front of him, and he had already had a spear of heaven in his hand.

Surrounded by the night again, Li Tian chose a road at will to walk along this road, which is a winding path that is not steep.

Li Tian's figure flashed across the path quickly.

After galloping for more than ten minutes, Li Tian felt a little more foggy surroundings. Li Tian found that there were some rubbles on both sides of the path. At first, these rubbles were piled together into a small pile of stones. As Li Tian kept moving forward, these piles of stones became more and more, and the piles of stones became bigger and bigger.

Gradually, these stone piles disappeared, and replaced by stone shrines. The statues enshrined in the shrines have long been invisible after hundreds of years of wind and rain erosion, and this shrine is almost every dozens of steps. Can see such a shrine.

"Does this road lead to a temple?" Li Tian was a little puzzled, but at least now Li Tian knew that this road was right, and would no longer run around like the headless flies before.

Li Tian passed this road at a fast speed. Li Tian had forgotten the time and how long he had walked on this road.

It is conservatively estimated that Li Tian has also walked more than 100 kilometers, and the small shrines on both sides of the road have gradually become more than one meter and two meters high. By now, Li Tian has an extra building in front of him. group.

Seeing this piece of building complex, Li Tian's eyes flashed involuntarily, and he muttered to himself in surprise: "How is it possible? Why is there a virtual spirit group of buildings here?"

That's right, the temple complex that appeared in front of Li Tian at this time is exactly the architectural style of the Xuling tribe. The white buildings are full of mystery under the night light. The only difference is that these buildings are not like the seabed. The ancient city or the buildings on Ruhr Island are neat and orderly, but it gives a sense of disorder.

There was no road in front of Li Tian's eyes. There were overgrown weeds, but there were no insects or small animals in the weeds. The surroundings were dead, and the magnificent buildings in the dark seemed even more weird. There is an unspeakable sadness in the picture.

Li Tian walked into the grass and waded through the grass. Li Tian walked into the building closest to him. When he came to this building, Li Tian saw that the building was very beautifully constructed, but the building was There is no video of doors and windows, and the black holes give people a frightening atmosphere.

"It seems that this place has been abandoned for a long time!" Li Tianxin said.

Li Tian walked in from the main entrance and found that there was not much space in the building, and the layout of the whole building was a temple. In the center of the temple was a statue of a stone man, but at this time the head of the statue of the stone man was already covered. It was destroyed artificially.

Moreover, there seemed to be exquisite murals on the walls around this temple, but unfortunately the murals were completely destroyed by violence.

Li Tianyi went in and out of more than a dozen temples in a row. The situation in each temple was basically the same. By observing the traces on these destroyed stone men, Li Tian could see that the time when the heads of these stone men were destroyed is absolutely absolute. It won't be too long, at most it will be these two years.

"Could it be that after the end of the world, someone entered here by mistake and stole the heads and murals of the temple's idols?"

"No, since it is the end of the world, food is the most important thing. What use is the head of this god?"

Li Tian didn't understand, he brought Situ Ningbing and others out of the space of Void Yasha, and threw his doubts to everyone for consideration.

Seeing this large site, everyone was shocked.

"Little boss, although I don't understand why some people want to destroy the head of this stone statue, we are even more puzzled about these ruins built by the Void Spirit Race? Isn't it the exception of the Void Spirit Race in the ancient city of the sea? Does the virtual spirit still exist in the world?" Tang Xiaolong said.

Situ Ningbing nodded slightly and said, "The little dragon is now on the point. Li, in fact, before we crossed into another world, everything we experienced was more or less related to the Netherworld. The gate of the restricted zone, The same goes for "Red Slash", the Three Corpses, the ancient city under the sea, and the small hot pot. Now, we are led here by this map, I'm afraid there is something waiting for you here!"

"That being said, the two clues we obtained seem to have no effect at all. How can we determine the location on this map if we can't even find Shi Tengyue. This area, let alone. It's tens of thousands of square kilometers, we can't find land inch by inch!" Li Tian said shaking the map.

At this time, Xue Ji jumped down from the highest temple and said, "That's not necessarily true, Li Tian, haven't you noticed that the locations of these temples are connected as if they are on the map?"

Li Tian immediately summoned the mutant crow, jumped behind the mutant crow, and made the mutant crow soar continuously. As the mutant crow's soaring height gradually rises, the Dongying text "Ten Teng Yue" has appeared. In Li Tian's eyes.

Shitengyue is not a mountain but a temple in front of you!

Chapter 4087: : Timeline (1)

The location of Shitengyue was confirmed, and everything on the map was clear at a glance. When the sunrise determined the direction of the east, the things on the map corresponded to the surrounding mountains and ravines.

The sun rises and the fog gradually dissipates. The golden light shines on these white buildings. It seems that these buildings are full of mystery, and the overgrown weeds around the buildings adds a sense of historical vicissitudes to these buildings.

Li Tian, Situ Ningbing and others carefully passed these temples again, but the final result was still disappointed. Except for the traces of damaged stone statues, there were no traces of human activities.

"There are so many temples here, it's a pity that the heads of these stone gods have been destroyed, otherwise we can see the power of this god." Xue Ji said.

Situ Ningbing said: "That's right, although the head of this idol has been chopped off, do you feel familiar with the costume of the headless idol?"

Although these gods are in temples, there are no doors and windows on all sides of these temples, and wind and rain can still erode in. After hundreds of years of wind and rain erosion, the costumes of the gods are still very clear.

After Situ Ningbing said so, everyone's eyes fell on the stone statue. As expected, Li Tian quickly saw some clues on the statue.

"The costumes of these gods seem to be more like the costumes of our Chinese people!" Li Tian said.

"Although Dongying Island is deeply influenced by our Chinese culture, this kind of clothing does not exclude the clothes of Dongying Island country hundreds of years ago. But at least it is certain that the Xuling Race is for the human temple on earth, that is to say At least at that time, someone had discovered the existence of the Void Spirit Race, and can control the Void Spirit Race to serve him." Situ Ningbing said.

"Then this person is just like the little boss? Didn't the little boss say that? Only people with open eyes can see these virtual spirit races clearly. That means there were people on the earth who had open eyes thousands of years ago?" Tang Xiaolong Said.

Who knows, but these are not important anymore.

Li Tian and others began to follow the directions on the map to move toward the destination, and soon Xue Ji discovered that there was a road covered by weeds under their feet.

The little hot pot burned the weeds on the road with his flames and revealed the pavement under the weeds. This road is straight. If you follow this road, it is exactly where Li Tian's and others are going. .

"I didn't expect that such a straight road would appear here hundreds of years ago, it looks like a highway!" Tang Xiaolong said with some emotion.

Situ Ningbing smiled slightly and said, "Xiaolong, the Qin Zhidao in China is the earliest expressway in the world. It was much earlier than this, but at that time, it was not a car but a horse-drawn carriage. ."

Tang Xiaolong came to Li Tian, glanced at the map in Li Tian's hand, and said, "This road is also depicted on this map, but this road does not overlap with those two lines. What is the difference between those two lines? What's the use?"

"Don't think about things you don't understand, maybe when we come out from here, everything will become clear!" Li Tian said.

Soon, Li Tian and others arrived in front of the mountain marked on the map.

Walking down this road, I saw a huge cave. The height of the cave has reached half the height of the mountain, close to a hundred meters high, and the width of the cave is more than fifty or sixty meters. Look at the caves everywhere. The traces of being excavated, it looks like this cave is thought to be hollowed out.

And on the cliffs of the cave, there are also stone statues everywhere. The small stone statues are life-size, and the large ones are generally more than seven or eight meters high. Unfortunately, the heads of these stone statues are also artificially destroyed. .

Seeing these destroyed gods, everyone was sighed again.

"How much does the person who built this idol worship this great god, or how is this idol everywhere? The owner of this idol will never be the savior, right?" Tang Xiaolong said.

"I don't know if it's the savior. I know that this guy is very hardworking. He has worked so hard to create so many idols by the Ethereal Race, but they have lost their heads without being trusted by others!" Li Tian said.

While talking, Li Tian and others walked hundreds of meters into the cave.

The idols on this road are still the same, their heads are destroyed, but what makes Li Tian do not understand is that there are so many idols, to say nothing, there are thousands of them, but none of these heads are omitted, all of them are destroyed. Dropped, and most importantly, these heads are gone.

At this moment, Li Tian and the others appeared in front of a stone statue with a height of several tens of meters, and the head of the stone statue was also destroyed.

It can be seen from the stone statue with its head destroyed that the strength of the person who destroyed the head is probably very high. This stone statue is so high, that person can easily destroy the head of this stone statue, and the ***** statue His body was not damaged in any way.

The map in Li Tian's hand pointed to this point, and there was no clue to speak of. The crowd immediately scattered around the stone statue of the great ***** and looked for it carefully, but the result was disappointing. There was nothing here.

"Little boss, isn't this map for us to visit this idol?" Tang Xiaolong said dissatisfiedly.

Li Tian was also quite disappointed. The final outcome after all his hard work turned out to be like this. How could he not be disappointed?

"Li, don't get angry because of these things, let's take it as a relaxation, after all, not all the efforts will be rewarded!" Situ Ningbing comforted.

"Yes, at least there are still a lot of novel things happening along our way, so let's treat it as a trip to relax!" Xue Ji also said.

Li Tian did not speak.

the more you hope, the harder you fall.

Li Tian thought that Qingyun could be found here to improve his strength, so that he would be more sure to deal with thirty, but he didn't expect the final result to be like this.

"I understand, I won't be angry!" Li Tian said.

Although Li Tian said so in his mouth, the disappointment in his heart made him lose his mind in an instant, but Li Tian suddenly raised his fist and blasted several soul-breaking punches at the huge idol.

"boom!"

The air ball blasted from the fist blasted on the huge stone statue, the entire cave shook at this moment, and the stone statue was torn apart under the bombardment of Broken Soul Fist.

At this moment, a strong light burst from the broken stone statue, and as the strong light flashed out, the entire cave was illuminated as bright as day, and then a shining phantom appeared from the broken statue. Came out.

"Little...little boss..." Tang Xiaolong shouted in surprise.

Chapter 4088: : Timeline (2)

Li Tian was already stunned.

The light and shadow that emerged from the light and shadow of the huge stone statue was officially the female mister Li Tian encountered in the ancient city under the sea. However, at this time, she could no longer be called a mister female, but because she should be called a woman of light and shadow.

However, like the foggy woman, Li Tian couldn't see clearly the appearance of this light and shadow woman, but that kind of aura and feeling can never be wrong.

It's her!

Li Tian can be sure.

At this moment, the little hot pot saw this light and shadow woman as if he had seen a ghost, and jumped behind Li Tian, hiding his body completely behind Li Tian.

The voice trembled and exclaimed: "Li Tian, it's her, it's her! It's her. She was the one who trapped me in the volcano of the Kirishima Shrine! How could she appear here?"

This is a good question, but who should Li Tian ask?

And Situ Ningbing looked at this light and shadow woman in doubt. In this light and shadow woman, Situ Ningbing could also feel a familiar and intimate feeling. This feeling was like...

The gaze of the light and shadow woman slowly swept across Xue Ji and Tang Xiaolong, and finally fell on Situ Ningbing and Li Tian.

Li Tian knew that he was not the opponent of this light and shadow woman, and that this light and shadow woman should not be any danger to them, but he still moved forward as much as possible to block his body in front of Situ Ningbing and others.

If something unexpected happens, Li Tian can also send everyone else into the space of Void Yaksha as soon as possible to ensure absolute safety.

Regarding Li Tian's small gestures, the light and shadow woman's mouth showed a slight smile, which was a kind of mocking smile with comfort or admiration.

This expression is like she sees a puppy that can be kicked to death with one kick, but desperately guards what the puppy thinks is important.

"We meet again!" the light and shadow woman said.

Sure enough, this simple sentence made all of Li Tian's judgments become true.

"Who is she?" Xue Ji asked suspiciously.

Li Tian didn't know how to answer Xue Ji's question, and at this moment Situ Ningbing had walked out from behind Li Tian and slowly walked towards the light and shadow woman, talking to light and shadow to himself as if he was an evil. The woman said: "Who are you? Why do I feel a familiar feeling in you?"

The Guangying woman smiled and said, "It's right to feel like this, because...I am you!"

Hum! Li Tian only felt that his brain was not enough. At this moment, his brain seemed to be shaken. The brain instantly lost the ability to judge and think, and was completely plunged into chaos.

"I am you? What do you mean?"

Tang Xiaolong and Xue Ji were also puzzled.

Tang Xiaolong thought for a while and felt a little pain in his head. He screamed and said, "Little boss, you should send me into the space of Void Yasha, I feel my head is about to explode!"

Yes, Li Tian feels this way now.

This is not looking in the mirror, this is not taking pictures, nor is it acting in movies.

However, this light and shadow woman definitely wouldn't go to Situ Ningbing by talking nonsense, and the feeling in Situ Ningbing's heart could not be wrong.

"You are me?" Situ Ningbing repeated the last few words of the light and shadow woman.

The light and shadow woman's expression was calm, not completely fluctuating, she smiled and said: "Yes, you will understand after a while!"

The gaze of the light and shadow stopped on Li Tian and said: "Li Tian, there should be something you want here, but you are late, and the things you want have fallen into the hands of others. If you have decided to go Netherworld, then this thing is very important to you!"

"What? It fell into whose hands?" Li Tian asked.

"If you want to enter here, you must have a realm of cultivator level, otherwise you will keep getting lost, or you will be confused by the illusion in front of you before going around. So you don't need to say that you know who it fell on. I have it! As for what it is, I think you know better than me!" Guangying said.

"Three Corpses? Qingyun?" Li Tian said.

As Guangying Woman said, there are not many people in the entire earth world who can reach the realm of cultivators, and the only people who can barely reach this realm are the abdomen Tiancong, the abdomen, and the fierce warriors, but these three people are dead. Now, there is no blue cloud on their bodies, so Li Tian can only think of the three corpses who have been to Dongying Island.

Guangying Woman did not answer Li Tian's question directly. When her gaze fell on the "Red Slash" that revolved around Li Tian's body, her face showed a trace of surprise and said, "I didn't expect you to find it in the earth world. The bone monster, and swallowed it, it seems that your regrets in the Nether Realm may have a chance to be realized again! But this time you are finally following the master, I believe you will not have any more regrets!"

Then Guangying Woman took another look at the small hot pot and said: "Following Li Tian, you will have a chance to restore the strength of the sage. At that time, you may not be able to continue to improve, but I believe that there will be a place for you in the Netherworld. !"

The horrified expression on Xiao Hotpot's face when she heard Guangying's words turned into surprise.

Li Tian may not yet understand the meaning of what the light and shadow woman is talking about, but for the little hot pot coming out of the Netherworld, he knows it better.

In the Netherworld, all the strengths above the venerable can form a country on their own, become the lord of the country, and enjoy the admiration of thousands of people, but there is still a domain master above the venerable. Ants, whether your country can exist, whether you, a venerable one, can enjoy or not worship and admire is all determined by the domain master.

When I first went to the hot pot, I was easily trapped by this light and shadow woman in the Kirishima Shrine, which shows that the light and shadow woman's strength has at least reached the domain master level.

Want to have a place in the Netherworld, isn't that a word from the domain masters?

It's just that the little hot pot never expected that the light and shadow woman became a truth. Later, although the little hot pot became the strongest existence of the venerable and invincible under the domain master, he failed to cross the threshold of the domain master.

Of course, the small hot pot has also become the only powerful existence in the Nether Realm that can sit on an equal footing with the domain masters in the realm of the Lord, and how much of it is because of the relationship between the light and shadow women?

These are all later things. At this time, the little hot pot was very excited, and thought to himself: "All this is arranged! It seems that I must work hard to help Li Tian, even if I deal with the three corpses, I will be at the forefront. Up!"

Chapter 4089: : Timeline (3)

Li Tianzhen wanted to kick the small hot pot to death.

Is there any mistake, this light and shadow woman is just a blank check that makes you so excited? If it really allows you to restore the power of the venerable in the underworld and have a place, don't you jump to the sky?

Situ Ningbing looked at the light and shadow woman and said, "Can you give me an explanation now? What do you mean by me?"

The light and shadow woman said: "You will understand soon! The reason why you feel familiar with me now, but you have no memory of me, is because I am just you, but you are not me! If you want to become me, Then you need to become strong, become very strong, very strong! Only then you are me!"

"However, since I am you and we can meet here again, I can't help but express it. The rest of you will withdraw for the time being. If I have something to do with her!"

Li Tian saw that Situ Ningbing nodded to him and signaled not to worry. Li Tianzheng wanted to turn around but was yelled by the light and shadow woman.

"Li Tian, you should have a map in your hand, right now you should be wondering what the two lines on the map mean?"

Li Tian nodded.

"You only need to follow the two staggered lines on the map, and you will find the answer you want when you get to the intersection of the cross! Now you can go, leave it to us here!" Guangying said.

Although Li Tian was puzzled, he could only take Xue Ji and the small hot pot out of the cave, and found a flat place to sit down and wait for Situ Ningbing.

"Little Hotpot, who is she? Why does she say that she is Ningbing, but Ningbing is not her?" Xue Ji asked impatiently.

The little hot pot shook his head and said, "I don't know exactly who she is. I only know that she is a domain master, one of the eighteen domain masters in the Nether Realm, but although this light and shadow is also very powerful, it is obviously not. Her deity. Now I can feel that she is at the highest level now."

Li Tian has been completely speechless, what is called the Venerable Level, this Venerable Level can easily kill any strong person on the earth now!

"Then do you know what the relationship between this female domain master and Ning Bing is? After all, you have known each other a long time ago!" Li Tian is now most concerned about this issue, so he asked.

"Woo, I'm just a victim, how do I know so many things? I'm just waiting for you according to her request and following you." Little Hot Pot said with a sad face.

"It seems that now we have to wait for Situ Ningbing to come out to answer our questions!" Li Tian said.

It's just that Li Tian and the others didn't expect it to be seven days and seven nights. Li Tian tried to check Situ Ningbing's situation many times, but the small hot pot prevented him.

"Li Tian, the anger of the domain master is not something we can bear now, even if there is only a clone or phantom of the domain master now!" Little Hot Pot said.

After seven days and seven nights, Situ Ningbing walked out of the cave. At the moment Situ Ningbing walked out of the cave, the entire mountain range above the cave collapsed silently.

"Ningbing..."

As soon as Li Tian just called out Situ Ningbing's name, he felt that there seemed to be some changes in Situ Ningbing's body at this time, and this change made people feel that she and her seven days ago were no different.

"Ningbing, where is she?" Li Tian asked.

"Disappeared!"

"Disappeared?"

Situ Ningbing smiled slightly at Li Tian, and as soon as he stretched out his arm, a series of purple lotus appeared on the palm of his hand. These flowers were like a pagoda composed of lotus flowers. It looked like a small snake, and the lotus pagoda was still spinning.

"This...this is?" Li Tian's face was full of surprised expressions.

Before coming here, Li Tian knew that Situ Ningbing's Qingyun could only release a purple lotus. This was the result of Situ Ningbing's cultivation of the Qingyun Art. But now, Situ Ningbing can release so many lotus at will.

"She gave me strength and then disappeared! Li, now I finally feel that I can stand with you and fight side by side!" Situ Ningbing said with a little excitement on his face.

"Then who is she?" Xue Ji asked enviously as she approached her.

Situ Ningbing said: "She is me, but I am not sure yet. Let me go to that place on the map now. She said where we can find the answer we want!"

Situ Ningbing's face was full of excitement.

Now she has the power in her body that she has never had before. Since Li Tian's strength gradually surpassed her, Situ Ningbing felt that she was chasing Li Tian's footsteps. Deep down in her heart, she was actually very worried. One day he will be pulled away by Li Tian, and then he can only see Li Tian from behind.

But now, Situ Ningbing knew that she was almost standing with Li Tian again.

The little hot pot's face was full of shocked expressions, and said to Li Tian: "Student! Master Situ Ningbing is now in the realm of cultivators. I'm afraid Master Situ Ningbing's personal cultivation level is now comparable to yours. !"

"This... this is amazing!"

It's amazing, but what's impossible for the domain owner?

According to the map, Li Tian and others quickly came to the place where the two lines intersect. There are four towering peaks on all sides. The center of the four peaks forms a flat valley, and the valley has four ravines on all sides. Far away.

At this moment, a circle of sharp white boulders stood in the center of the valley. These boulders seemed to be Stonehenge, and the Stonehenge looked ordinary and nothing magical.

"Here, it should be here according to the route on the map!" Li Tian said, pointing at the Stonehenge.

Situ Ningbing said with some doubts: "It looks like there is nothing to do, but what guidance can this Stonehenge give us? Little hot pot..."

"No, this is not Stonehenge but a legendary timeline!" Little Hot Pot said with a serious expression.

"Timeline? What is this again?" Li Tian and others asked in unison.

"This is a magical formation that can be created with the power above the Lord level and the wisdom of the Void Spirit Race. It is like a gate to a forbidden zone. However, I have only seen this timeline once. I don't know exactly what it does." Little Hot Pot said.

At this time, Situ Ningbing had slowly walked to the center of the time axis.

As Situ Ningbing stepped into the boulder, thirty-six purple lotus flowers appeared on the periphery of Situ Ningbing's body, and these purple lotuses burst completely and turned into electric arcs into the boulders. Among.

The world has changed color!

Chapter 4090: : Here comes the little lady

The clear sky just now turned into dark clouds in an instant. The thick clouds flashed and thundered, and lightning kept hitting the boulders. Even Li Tian could not get a step closer to the stone formation at this time. This mighty sky seemed to It is to destroy the world in general.

Situ Ningbing in the Stonehenge slowly closed her eyes unaffected, and after she closed her eyes, Situ Ningbing's body slowly floated from the ground.

And a light red light curtain appeared in the stone formation outside Situ Ningbing's body, this light curtain just played a protective role, even if the lightning flashed outside, Situ Ningbing in the light curtain was not affected at all. .

"Little hot pot, what is going on?" Li Tian asked.

The little hot pot's expression was serious, but without the slightest surprise, he said: "It was the time axis that started, but the time axis is about to end soon. It shouldn't be long before the boulders will withstand the power of no thunder and lightning will burst... "

As soon as the words of the little hot pot fell, the white boulders on the time axis instantly shattered into powder, and Situ Ningbing slowly fell to the ground from the float, unharmed.

Those purple lightnings around disappeared in no time, and Li Tian and others immediately surrounded them.

"How about? Ningbing, are you okay?" Li Tian asked worriedly.

Situ Ningbing's eyes slowly opened. At the moment when he opened his eyes, Li Tian seemed to see the same woman who had met Situ Ningbing in the small county town.

This was only a moment of time, but at this moment Li Tian felt that Situ Ningbing was in control of life and death, and his Li Tian seemed to have changed back to the old poor boy Li Tian at this moment. .

After a moment, Situ Ningbing became normal, and said to Li Tian: "Li, don't worry about me, I'm fine. It's just that there are more memories in my head that don't belong to me. I need some time to digest!"

Situ Ningbing did not want to say any more, and Li Tian and the others were not good at reluctantly, but Li Tian, Xueji, etc. could feel that Situ Ningbing seemed to have changed so much, but they did not say what this change was. come out.

Li Tian and others came here, in fact, there are still many unsolved mysteries, such as the final whereabouts of the virtual spirits in this place, for example, who the stone statues are, and why the light and shadow women appeared among the stone statues, etc. It's just that Li Tian and others have no way to pursue the truth.

It was already three days later when Li Tian and others returned to Jingdong City. In these three days, Li Tian and others have been adapting to Situ Ningbing, but Situ Ningbing has become taciturn, some At that time, he would even be in a daze for a long time, so it was originally only a day's journey. Li Tian and others walked for three days.

There is not much change before Jingdong City, Li Tian and others left, that is, Goto has completely controlled Chuo District and Shibuya District, and has begun to promote Li Tian and deified Li Tian among the zombies according to Li Tian's request.

Except for the North Sea Island, the other three islands are already in the hands of the Heaven Realm. Li Tian wanted to wait for the return to Ruhr Island and let Duanmu Ying send someone to the Heaven Realm. The North Island was also occupied.

After all, Beihai Island is the granary and mines of the entire Dongying Island country. Those fertile land and rich mineral deposits are of great benefit to the heavens.

Li Tian and others lived in Jingdong City for a few days. One is that Li Tian and others can use this time to practice, and the other is that Situ Ningbing can have more time to digest the things in her mind.

During this period of time, Li Tian took Tang Xiaolong and others to the National Congress Library again. Unfortunately, after going there, the library was still locked with chains, but Honda did not come out. I don't know. Did they leave the library elsewhere or did they no longer want to see Li Tian.

After returning from the National Congress Library, Li Tian took Tang Xiaolong, Xue Ji, and Xiao Hot Pot to practice together, and gave some pointers on their practice. The key point was to give Li Tian his own understanding of the importance to Tang Xiaolong and Xue. Ji said it again, but also exerted several coercion.

Li Tian didn't ask Xue Ji and Tang Xiaolong to be able to cultivate to the realm of cultivators in a short period of time, just to let them have a feeling for this skill, and a desire for the skill in their hearts.

Li Tian's efforts were not in vain. Xue Ji only took a day to comprehend Zhong. Although it is only the most basic weight, it is probably stronger than the coercive pressure of the tyrant Gao Gang, but Xue Ji has already reached the stage of cultivation. The realm of apprenticeship.

Tang Xiaolong was not as talented as Xue Ji in cultivation, but when Tang Xiaolong was unable to achieve a high level of cultivation, by chance, by chance, he managed to reach the ninth level of the tenth level of cultivation, which was only one level short of the Dzogchen state.

After Tang Xiaolong broke through to the ninth rush, his body became shorter again, and his skin became darker, but Tang Xiaolong's strength, defense, and speed doubled again.

Even if Tang Xiaolong doesn't use the ten-fold refining technique, under normal circumstances, it's hard to be injured by the sword. But when he performs ten-fold refining, even if Li Tian uses Xuantian **** to attack Tang Xiaolong, Tang Xiaolong is safe and sound.

According to Li Tian's estimation, Tang Xiaolong now estimates that it would be difficult for him to hurt him without "Red Slash" and Heavenly Qiong Spear.

It can be said that this trip to the North Sea Island except for Li Tian has made progress in the cultivation of everyone else, and this progress is quite obvious, especially Situ Ningbing.

Li Tian was too happy for this situation. After all, Li Tian said that with his current strength to deal with one of the three corpses, Li Tian is sure to win.

But if he and the Three Corpses are enemies at the same time, then Li Tian's chance of winning is zero.

Therefore, if Tang Xiaolong, Situ Ningbing, Xue Ji, and Xiao Hotpot could become stronger, Li Tian would be more confident to deal with the Three Corpses.

It is rare for Li Tian to not have to fight and kill all day, every day he accompanies Tang Xiaolong and others to practice, or he is hanging out in Jingdong City, but Li Tian can do three things with one heart, even when he is hanging out, Li Tian can also practice.

Now all the zombies in Jingdong City already know that Li Tian exists. As long as they see Li Tian from a distance, these zombies will immediately escape further.

Unfortunately, within a few days of this kind of life, Li Tian's life was broken again.

Several warships arrived at the port of Jingdong City. The young lady of the Army Soul Corps stood on the deck of the warship and looked at the former capital of Dongying Island. There was not a trace of excitement on his face, but rather dark clouds. The lady is worried now.

Standing side by side with the little lady is Duanmuying, the actual leader of the Dongying Island Kingdom. Duanmuying said: "I didn't expect such a thing to happen. You should be told to Li Tian for the time being..."
