

A Killer 4091

Chapter 4091: : Decide

Duanmuying knew that this matter might be impossible to hide. Even if Li Tian couldn't figure out why the little lady appeared here, Situ Ningbing could surely guess it.

What Duanmuying didn't expect was that he still underestimated Li Tian's IQ and EQ.

When Li Tian saw the little lady here, he immediately realized that something major had happened in China, so he blurted out and asked, "Little lady, why are you here? Did something happen to my grandpa?"

The little lady saw Duanmuying shook her head slightly at him, but the little lady decided to tell the truth.

Within a few days after Li Tian's Feitian Yacha took the celestial people out of the country, all the zombies in the country seemed to be crazy and began to counterattack the humans madly.

The legions dominated by the Chinese Allied Forces immediately began to counterattack. At this time, all legions put aside their fights, and the personal grievances they put down were just to protect the cities and lands that humans had so hard to recapture to fight against the zombies.

Even if the kingdom of corpses did not participate in it, even if the three corpses did not participate in it, humans and zombies have been stalemate for many years, but this time not only the kingdom of corpses participated in the battle, but even the three corpses participated.

In this case, the cities that humans have regained are lost one after another. As the commander of the Chinese Allied Forces, Mu Yunlong will naturally not just sit in an office in Kyoto and plan tactics. He takes Huangfu Kunpeng and other army soul groups. The absolute core rushed to the front line.

But even with Huangfu Kunpeng's protection, humanity was defeated again under the attack of the Three Corpses. Not only that, Mu Yunlong was seriously injured, Huangfu Kunpeng broke his arm, and only three of the seventeen core members of the Army Soul Legion returned alive.

As soon as Huangfu Kunpeng was injured, the entire Chinese Allied Forces suddenly became headless, and the three corpses led the zombie army to constantly attack the human defense line, Mu Yunlong could only ask the little lady to come to Dongying Island for help.

The little lady sorted out her thoughts and said, "Li Tian, Mr. Mu Yunlong is injured, but now the injury has stabilized! It's just that the three corpses suddenly launched a large-scale offensive, and now all the legions of mankind are retreating steadily, even Long Yin's dragon The Celestial Legion has been broken up!"

"Long Yin..."

Li Tian did not expect that the Longteng Litian Legion, one of the top ten legions, would be broken up by the three-corpse zombie legion in just a few days. This is the legion that has been rooted in Long Yin for many years. Vulnerable.

This shows that the current domestic fighting situation is dangerous.

"Where is Long Yinren?" Li Tian asked.

The little lady said: "He was slightly injured and fled to Beitang City in embarrassment. Now Beitang is recovering from his injuries."

"However, the defeat of Long Teng from the sky has completely reduced the entire southwest to a world of zombies. Now the south of the Yangtze River has completely lost contact with us, and the large areas of the Qinling Mountains north of the Yangtze River and the south of the Huai River have become the main battlefield. ."

"The domestic chaos has turned into a pot of porridge, people are panicking, and negative emotions are everywhere. If this goes on without the three corpses leading the zombie army to attack, we humans will be defeated without a fight. So the father wants me to come to Dongying, please go back!"

Situ Ningbing said: "Now none of us are the opponents of the Three Corpses. What can Li do even if he goes back to China with you? After all, he was forced to leave."

"Ningbing..."

Situ Ningbing ignored Li Tian's interruption, and continued: "Moreover, apart from the undeveloped Tianmen in the country, Li has no power to rely on. It is better to invite grandpa to Dongying Island. This way we can ensure the safety of Grandpa! Of course, if the Army Soul Corps can come to the Eastern Island, we welcome it."

The little lady's face was a little embarrassed, and she said: "We know that Li Tian was treated unfairly at the beginning, so this time I am very sincere to invite Li Tian back."

"Sincere? What kind of sincerity? Wouldn't it be for Li to be expelled again after dealing with the Three Corpses?" Xue Ji was talking this time.

It is impossible to say that Li Tian had no grievances in his heart when he was expelled from the realm at the beginning. At the beginning, Li Tian could completely pull the heavens to work alone and become his own northwest king.

But Li Tian didn't do that, and he obeyed Mu Yunlong's arrangement.

The little lady hurriedly said: "No, no, no, how could it be? This invitation to Li Tian to return to China is not only the meaning of Father Mu Yunlong, but also the meaning of the Chinese Allied Forces, and all the residents of Kyoto. And Mu Yunlong The old man did not give the slightest concession on this matter, dragging his injured body and fighting with the other army commanders, saying that if you want to invite you back, you must reserve the position of the commander of the coalition army!"

"So, after going back this time, you will be the commander of the coalition army! After dealing with the three corpses, you will be the first person in the country. Who dares to expel you?" said the little lady.

This is a promise to Li Tian! It is also the compensation that the old man can do.

"Needless to say, I have decided to go back! Even if you don't give me any promises, I will go back! Even if I will be expelled again, I will go back!" Li Tian said firmly.

The situation in China is complicated now. People have been under the threat of zombies, and Li Tian will never sit idly by. At this time, personal honor and disgrace are not so important anymore, and Li Tian values justice more!

Hearing what Li Tian said, the little lady finally breathed a sigh of relief.

"Li Tian, the Chinese Allied Forces also want to invite Tang Feifei to return to China to re-establish the Association of Agriculture and Industry! So..."

The zombie virus antidote reagent, although the Zombie Research Institute of the China Allied Forces has begun research, it may not be completed in a short while if it is really developed.

If the zombie virus antidote can be successfully developed, humans will face a huge food shortage problem, so the Chinese Allied Forces will invite Tang Feifei back to re-establish the Association of Agriculture and Industry.

"I know, I will take Tang Feifei back. Duanmuying, grandpa's injury doesn't know what happened, so I want to take it home with Windsor!"

Li Tian looked at Duanmuying's swelling belly and felt a little guilty. He stretched out his hand and took Duanmuying's hand and said, "I'm not a good man, and I haven't been with you in these years. Now the child will be born within a few months. But I can't be by your side!"

No matter how strong Duanmuying was, she couldn't help but burst into tears.

"Li Tian, you can go back with confidence! The three corpses will never be peaceful without removing human beings. You should also go back for our children! I will take care of me and our children! It's just you. Dad should always give our children a name!" Duanmuying said.

Li Tian hasn't figured out what the child's name is, so he can only say apologetically: "I'll name it seriously. Then I will call Mutant Crow or Feitian Yasha to bring the name back!"

"Then you have to name a few more, boys and girls! I will choose from these names then!" Duanmuying said.

Chapter 4092: : Return home

Two days later, Li Tian was ready to go.

Li Tian, Situ Ningbing, Xueji, Little Hotpot, Tang Feifei, Windsor, and Kobi stood on the deck of the little lady's warship and waved to the shore. Of course, there are also the Void Spirits on the deck, but only Li Tian can see the Void Spirits. Until then, other people can't see it at all.

As for Xiaoyacha, Li Tian temporarily left Haiyacha in the Eastern Sea Island country for the drive of Duanmu Sakura. After all, there was no room for Haiyacha to play back in China.

At this time, the core cadres of the heavens such as Duanmuying, Baijing, Ouyang Shiqing, Ouyang Man, Shen Tao and tens of thousands of residents of Ruhr Island gathered here at the harbour of Ruhr Island, waving their hands to see Li Tian off.

"Master Li Tian has a safe journey..."

"Lord Li Tian, take care..."

"Check back often, this is also your home!"

Duanmuying has a smile on her face, but her eyes are already moist. It is always hard to part, even if Duanmuying is a strong woman, she cannot avoid this kind of love for children.

Just as the actual power holder of the entire Dongying island nation now, Duanmuying can no longer cry casually, she can only smile with tears and pray and bless Li Tian in her heart.

Bai Jing beside Duanmuying cried aggrievedly. Since she went to the Kirishima Mountains with Li Tian once, the relationship between her and Li Tian has become more harmonious, and at this time her belly has also slightly swelled. , But it is far from exaggerated like Duanmuying.

Originally, she wanted to wait for Li Tian to return from Beihai Island to tell Li Tian the good news, but what she was waiting for was the news that Li Tian was leaving Dongying Island and returning home.

Bai Jing's eyes were a little red and swollen, and tears flowed down. He stretched out his hand to stroke her belly and muttered to herself in a low voice, as if he was telling the child her grievances.

...

It took less than a day for the warship to ride the wind and waves from Dongying Island to the Harbor City near Kyoto City, and there were already people waiting for Li Tian and them in Harbor City.

In fact, the commanders and big brothers of the Chinese Allied Forces counted that Li Tian would definitely come back, so after the little lady set off, the members of the Chinese Allied Army, represented by the tyrant Gao Gang, had already waited for Li Tian here in order to show their sincerity.

The soldiers who came with them had seen Li Tian and others standing on the ship with their binoculars. After Li Tian and others stepped down from the warship, these soldiers immediately cheered.

It can be seen from the expressions on their faces that they are truly happy. After all, Li Tian is a miracle for them, a miracle that can reach the peak of strength in less than a year, so Li The return of the sky made their hearts full of confidence in the future war.

The tyrant Gao Gang walked to the ship to greet Li Tian without any extra greetings. He simply shook hands with Li Tian and said: "Li Tian, I have been working **** the road. The special plane is ready. We will take the special plane to Kyoto City in a moment. Get in the car first, get in the car and talk more.

Several military jeeps parked in front of the ship, and Li Tian and the others got on the car and began to gallop towards the harbor city airport.

The car arrived at the airport in Harbour City within ten minutes.

Li Tian saw that except for one passenger plane on the airport's tarmac, the rest were military aircraft such as transport aircraft, aerial tankers, fighter jets, and bombers, and missiles were hung on those fighter jets.

Thousands of heavy prepared weapons such as tanks and artillery have been assembled near the airport. You can even see many missile vehicles that could only be seen on TV in the past.

The little lady asked suspiciously: "Captain Gaogang, this is..."

The tyrant Gao Gang's face sank and said, "During the time you left, the three corpses began to attack the corpse wave more frantically. Now the zombie wave has almost occupied the Qinling Mountains and the south of the Huai River. The old army commander knows now. It has reached the critical moment for the survival of human beings in China, so we decided to counterattack the Three Corpses and the Zombie Army after Li Tian returns. These heavy firepower will be shipped to the front line recently!"

The little lady didn't expect that the Three Corpses would have forced the Chinese Allied Forces to such an extent in the few days he left.

You must know that since the end of the world, most of Zhongxiang's weapons in the country have been controlled by the Army Soul Corps. Although those tanks and armed helicopters are also used, they are all trivialities. After all, the zombies that the Army Soul Legion dealt with at that time can only be said to be guerrilla warriors and use heavy weapons such as missiles without starting, and Mr. Mu Yunlong would not agree to use these heavy weapons against other legions.

Now, the tide of zombies is constantly approaching, and the Army Soul Corps and the Chinese Allied Forces are retreating steadily. Father Mu Yunlong finally took out all the assets that the Army Soul Corps can use, except for nuclear weapons and intercontinental missiles.

On the special plane, the plane took off and flew in the direction of New Kyoto City.

On the plane, the tyrant Gao Gang gave Li Tian and the others a detailed introduction to the current situation in China.

The tyrant Gao Gang and Xiao Niangzi still have some discrepancies. For example, they have lost contact to the south of the Yangtze River. The tide of corpses has already crossed the Yangtze River, but the north of the Yangtze River has not been completely occupied. There are many human cities, but there are no ordinary residents living in those cities except the soldiers of the Chinese Allied Forces.

At present, Mr. Mu Yunlong and other leaders of the Chinese coalition forces have some disagreements on whether to abandon these cities. The vast majority of leaders support abandoning these cities and concentrate all their forces along the Yellow River, relying on the Yellow River Tiangong to defend the north.

"Li Tian, although Mr. Mu Yunlong is now the commander of the Chinese Allied Forces, his authority has been challenged because of the last defeat of the Army Soul Corps and the injury of Huangfu Kunpeng. Even his former subordinate Liu Feng is now They all jumped out and wanted more voice, so..."

There was a sneer at the corner of Li Tian's mouth. If all the legions in the country are united to the outside world at this time, then Li Tian has no desires and desires, and he will take the initiative to provoke the heavy task of dealing with the Three Corpses, even if it is Li Tian. Knowing that he is not the opponent of Three Corpses.

But now, when this time has come, some dogs who can't change food still want to fight for power, so don't blame Li Tian for not agreeing.

"Don't worry, I know what to do! Li Tian was expelled for the sake of the overall situation. It was because of the face of my grandfather. Now that my grandfather has made such a big sacrifice, they

not only didn't know that they wanted to help Lin. Seize power against my grandpa, then don't blame me Li Tian for being cruel!" Li Tian said.

Chapter 4093: : Li Tian's meeting ceremony

Kyoto City, China United Army Headquarters.

All the commanders of the Chinese Allied Forces, several elders of the Bounty Hunter Association, Huangfu Kunpeng, etc. who have received the news have already greeted Li Tian in front of the headquarters building.

It can be said that this is the first time since the establishment of the Chinese Allied Forces to have such a high-level welcome ceremony. Except for Li Tian, the other army commanders came here, and they all felt ecstatic to have a core cadre of the coalition to greet them. Up.

Several black cars slowly stopped in front of the building, and the service personnel of the coalition army quickly greeted them and opened the door. The first to jump from the first wild car was the tyrant Gao Gang and the little lady who was with him.

Li Tian, Situ Ningbing, and Xue Ji got in and out of the car immediately behind, followed by the other personnel Tang Xiaolong, Xiao Hotpot, Windsor, and Kobi led by Li Tian!

After Li Tian got off the car, he saw his grandfather Mu Yunlong in the crowd at first sight.

Compared to a few months ago, the spirit of the old man Mu Yunlong is not bad, but the whole person suffers a circle, and the gray hair on his head is more. It seems that the old man Mu Yunlong is completely different from the previous smashing wind and cloud. The army soul is the commander of the army, and he looks like an old man in the old age.

Li Tian couldn't help but his eyes reddened. Although the old man was selfish in his life, he was more for this country, but now...

Li Tian didn't dare to neglect, he walked a few steps quickly to the old man's side, stretched out his hand to hold the old man's hand and said: "How can grandpa let you come to meet me, I can't afford it!"

Mu Yunlong clasped Li Tian's hands tightly, and his body trembled slightly and said: "I am not welcoming my grandson Li Tian. I am welcoming Li Tianjun commander of the Celestial Legion. As long as the three corpses can be beaten back, We humans were rescued from the zombies, let alone I came to greet you personally, even if I kneel to welcome you!"

"cut!"

As soon as Mu Yunlong's words fell, Li Tian heard a disdainful sneer among the crowd. Although the voice was faint, it seemed particularly harsh in this quiet environment.

Li Tian's brows wrinkled slightly, his heart was already unhappy, but it was him and the old man today that he met, so he didn't want to have the attack now.

"Grandpa is serious. The purpose of my return this time is to deal with the Three Corpses. As long as I have a breath, I will definitely not let the Three Corpses cross the Yellow River!" Li Tian said.

"Cut, do you really think of yourself as a green onion? Huangfu Kunpeng has lost his arm. Do you think you are stronger than Huangfu Kunpeng? Something that is overpowering!" Li Tian's words just fell, and the crowd immediately There was another sneer.

This sneer actually represents the aspirations of many army commanders present, especially those army commanders who have only joined the Chinese Allied Forces in the past two months and are not yet aware of Li Tian's strength. They are full of disdain for the legendary Li Tian.

Mu Yunlong also heard those disdainful voices, but since the Army Soul Corps lost the battle and Huangfu Kunpeng lost his arm, such voices sounded in his ears. Although he was the commander of the Chinese Allied Army, he always You can't use his power to organize others to speak.

From the initial anger of Mu Yunlong to the now accustomed, it can also be seen that the old man's mentality has changed a bit. If he hadn't known that if he had vacated the position of the commander of the Chinese army, the Chinese allied army would definitely become a piece of sand. If the ordinary people are still suffering, the old man will really leave the country to find Li Tian, who is waiting to hug his grandson.

"Little Litian, let's go in, we have been working ***** the road, and we will talk about other things until tomorrow!" said the old man Mu Yunlong.

Li Tian beckoned to Windsor, and Windsor came to Li Tian. Li Tian said: "Grandpa, this is Windsor. It is the little girl who participated in the Forbes Power Tournament with me. She has medical skills. Let her take you to the Kyoto Hospital for an examination!"

Mu Yunlong knew Li Tian too well. He saw the continuous changes in Li Tian's face, he knew that Li Tian was about to have an attack, and quickly whispered: "Li Tian, the overall situation is important..."

"Grandpa, you don't have to say anything, let me handle it here! I know what to do because of it!" Li Tian said.

Li Tian said to Huangfu Kunpeng again: "By the way, Brother Huangfu, Windsor's medical abilities are very powerful. Let's go with Brother Huangfu! I brought you some arms from Dongying Island and asked Windsor to pick you up. Go up, so you can regain your previous combat ability!"

Huangfu Kunpeng had been standing behind Mu Yunlong just now. He was a little excited when he saw Li Tian and others, but he was a little sad more.

Although the lean camel is bigger than the horse, but as the number one master in the country, Huangfu Kunpeng's status in the Chinese Allied Forces has dropped sharply after being scrapped by three dead bodies, not to mention the previous ten legions. Long, even these second- and third-rate army commanders who have newly joined the Chinese Allied Forces dare to show him a look.

After hearing Li Tian's words, Huangfu Kunpeng's eyes involuntarily showed a look of desire, his eyes were burning like fire.

"Brother Li Tian, is what you said is true? This is the best gift of my Huangfu Kunpeng's life." Huangfu Kunpeng said excitedly with his arm around Li Tian's shoulder.

Windsor patted a freezer in his hand and said: "It's all in here, let's go now. After the treatment is completed, you can fully recover in less than a week!"

"Li Tian! Wait a week for me, then I will go with you to deal with the Three Corpses!" Huangfu Kunpeng said.

After Father Mu Yunlong and Huangfu Kunpeng followed Windsor to the little lady's departure, Li Tian's gaze slowly swept across the faces of the big men present.

"When I came back from Dongying Island, I brought you some gifts! I hope you will like it!" Li Tian beckoned to Xue Ji, and then whispered, "Heavy!"

Xue Ji understood her heart and began to release her instantly when she walked over.

A powerful pressure fell from the sky, even if Xue Ji was only at the first level of a cultivator, this pressure made everyone present feel uncomfortable. They felt that it was extremely difficult to move, and their expressions were a little bit uncontrollable. Changed.

"Li Tian, what do you mean? Is it because we invite you to come back to see your dazzling power?" Liu Feng, the commander of the army who was on the same journey, said angrily.

Liu Feng hadn't finished speaking yet, a stronger pressure fell from the sky.

This powerful pressure broke Xue Ji's weight in an instant, and the others felt a moment of relaxation, but two of them went to kneel directly on the ground, completely unable to move. One of them was Liu Feng, and the other One is the new corps commander entering China.

Li Tian sneered and said, "This is my meeting gift for you!"

Chapter 4094: : Just do it

Everyone present did not expect that Li Tian's strength would have improved so much in just three or four months, and even the strength of the women around Li Tian could not be underestimated.

Tyrant Gao Gang looked at Li Tian in surprise, and said, "Brother Li Tian, Captain Liu Feng's army, I am afraid that something is wrong? After all, he is an old subordinate of the old army Captain Mu Yunlong! Besides, now we must unite. All forces that can be united to deal with zombies."

Liu Feng lowered his head and dared not speak.

After Li Tian and Duanmuying left the country, Liu Feng, as the main participant in the incident, was also the commander of the army on the same journey, and also the core cadre of the Army Soul Corps, he gained great benefits.

First of all, his reputation has been greatly improved, and in the newly formed Chinese Allied Forces, he has also been appointed as the deputy commander of the army. It can be said that he is under Mu Yunlong alone and above 10,000.

It was precisely because of this sudden rise that Liu Feng was a little erratic, but at this time Mu Yunlong and Huangfu Kunpeng could still make him restrain and fear.

After the defeat of Mu Yunlong and Huangfu Kunpeng last time, Liu Feng felt that he had a chance to replace Mu Yunlong, but when he heard that Mu Yunlong was going to invite Li Tian back from the Dongying island country, Liu Feng suddenly felt unbalanced. , So he would intentionally or unconsciously think about embarrassing Mu Yunlong.

Now that Li Tian came back, Liu Feng instantly calmed down from that fanatical thought.

In terms of personal strength, Liu Feng was not Li Tian's opponent when Li Tian left the country. In other respects, once Mu Yunlong wanted to surrender the position of commander of the army, he would have the Celestial Realm, the Sakura Legion, and even the army. Li Tian of the Soul Legion

is definitely more dominant than the one who only has a Legion of Wind and Rain, and the Bounty Hunter Association and the Black Dragon Legion are definitely more biased towards Li Tian.

"Brother Li Tian, I know that Liu Feng made a mistake. I will hand over the position of deputy commander of the China Army Corps. Please also take a look at the face of the same enemy who is fighting against zombies. Let me go! As long as you say to deal with it. Zombie, I have no two hearts with the fidelity of my wind and rain army!" Liu Feng said.

Liu Feng was a bachelor, which made Li Tian embarrassed and embarrassed Liu Feng. He collected the weight that he had put on Liu Feng and made Liu Feng stand up.

"Liu Feng, it's not the first day we met. You were willing to be a **** in Kyoto for three years. I believe you are just a momentary confusion! It doesn't matter that you resign the position of deputy commander to Li Tian. You should have said these words to the commander of the Mu Yunlong army." Li Tian said.

"Li Tian, you have a mother-in-law, let go of me! I have no grievances with you, you insult me like this, I am at odds with you!"

"Dear Legion Commanders, can you allow Li Tian to go wild like this? He is blatantly undermining the unity of the Chinese Allied Forces! This is a felony against humanity! If Li Tian is allowed to insult the commanders of our small corps at will, and If you don't have any reaction, it really hurts our hearts. Then our other little legions will all be separated and go back. Dealing with the Three Corpses is left to Li Tian alone!" The legion leader of the second-rate legion who fell to his knees with great might said angrily.

The words of this corps commander still played a certain role. Immediately, several second-rate and third-rate corps commanders gathered around the tyrant Gaogang to complain and protest.

"Commander of the Gaogang Army, we came out to welcome Li Tian, but does Li Tian dismiss us like this too much for us?"

"Captain Gaogang Corps, I need you to give us an explanation. Is Li Tian important or we have so many army commanders and so many legions. If we can't give us a satisfactory answer, then we will all withdraw!"

Several second-rate and third-rate legion leaders surrounded Gao Gang, the tyrant, and talked angrily.

There was a sneer from the corner of Li Tian's mouth, and he said: "If we can't twist into a rope, if we can't twist into a rope, we can use it in one place, and then we have the right to go. Deal with the three corpses."

"What the **** do you have the right to say such a thing? Who came back to destroy the unity of our Chinese Allied Forces?" The second-rate army commander swears again.

Li Tian teleported and appeared next to the army commander, and stretched out his left hand to lift the army commander up like a chicken.

"Li Tian, you **** dare to do it? This is the headquarters of the Chinese Allied Forces!"

"Flap! Pop! Pop!"

After three slaps, the legion commander's cheeks were as swollen as a pig's head. Li Tian sneered and said, "I'll do it! To the shameless guy, I really think that Li Tian is muddy and not angry? Now I will let you know what it means to destroy the unity of the coalition forces!"

"Flap! Pop! Pop!"

With the continuous slap in the face, the army commander's cheeks suddenly swelled like a pig's head, and the corners of his mouth kept splashing with teeth and blood.

"Li Tian..."

The other second- and third-rate army commanders wanted to interrupt, but they were slammed by the tyrant Gao Gang.

"Shut up, Brother Li Tian is already forbearing enough, just relying on his disdainful sneer and rhetoric when he hid in the crowd just now is enough to destroy the unity of the coalition forces! And the words he cursed at Li Tian's mother were enough to kill him. I'm back."

"Also, this unites all the forces that can be united to deal with the Three Corpses. After Mu Yunlong, the old army leader, the Early Farmers Industry and Commerce Association took refuge in the Three Corpses, knowing that you little legions are short of clothing and food, I want to give you some opportunities to perform. It's not enough to make you starve to death and treat yourself as a **** main character!"

"Now, whoever the **** wants to leave the Chinese Allied Forces can get out of me right away. You can roll as far as you can, and have the ability to build an island nation like Li Tian! If you can't do it, just give it to me. Shut up."

The commanders of these second-rate and third-rate regiments looked at each other, looking at each other and wondering what to do next. If they want to let them leave Kyoto City, they can't bear to leave. After all, this is the safest place in the country. There are food and drink and fun. Even if the members of the legion are handed over to the Chinese Allied Forces, it is better to throw them to the zombies. !

Elder Gu Liang, who had not spoken all the time, came to Li Tian and said, "Li Tian, it's enough to calm down. Just hit half-dead. If you really hit it, your hands will get dirty, right?"

Li Tian saw that Elder Gu Liang's angry face gradually calmed down, reached out his hand to throw the legion commander aside, and said: "Since you invite me to come back to deal with the Three Corpses, then you must follow my request! "

"You said....."

Chapter 4095: : Set the rules

Li Tian was not polite, and said bluntly: "Now I am not an opponent of the Three Corpses, so I need some helpers. I want Long Yin, Huangfu Kunpeng, Old Wu from the Bounty Hunter Association, Tyrant Gao Gang and me. Deal with the three corpses together!"

"Don't you say that we will do our best!" said the tyrant Gao Gang.

"No! Not doing my best, but I want to teach you a kind of exercise. It is this kind of exercise that Xue Ji and I performed just now. The name is Zhong. Only when you have understood this skill can

we have the possibility of reconciliation. Corpse battle! Otherwise you will only drag me up!" Li Tian said politely.

Originally, the tyrant Gao Gang wanted to refute it, but when he heard the skill that Li Tian said just now, he shut up immediately. Not to mention that Li Tian just used it hard, even Xue Ji's ability is stronger than them.

"Okay, we promise you, do you want other people to join in? For example, other elders of our Bounty Hunter Association or the top twelve powerhouses?" Elder Gu Liang knew that Li Tian wanted to teach this skill, and couldn't help it. He began to think about the Bounty Hunters Association.

"No, this is the second point I want to say. If the rest of us understand this skill, we should have some confidence in dealing with the three corpses, but it is not what we can do to deal with the tide of corpses! Now! The Army Soul Corps has taken out the heavy weapons at the bottom of the pressure box, but you also know that whether it is tanks or artillery, once the zombies rush over, these things are scrap iron, so I want you to draw a legion from now on The core backbone of the team formed an alliance. This alliance does not require rushing forward to kill the zombies, as long as it protects heavy weapons such as tanks and artillery from being destroyed by the tide of zombies!" Li Tian said.

"But if we don't stop the tide of zombies, once the tide of lost corpses approaches us, there will be no time to retreat. Where can we get out to protect these heavy weapons?" Old Su asked suspiciously.

Li Tian smiled slightly and said: "Don't worry about that, since I'm back, I won't let the zombies advance easily!"

After a short pause, Li Tian went on to say: "Now I will make another rule. If anyone has questions about my Li Tian's ability, I can raise it face-to-face, and I will give him an answer, but if anyone dares to say nothing about the strangeness of Yin and Yang. Four, just let me Li Tian know, kill without mercy!"

The commander of the second-rate legion who had been beaten by Li Tian just now shuddered.

...

Three days later, after Windsor treatment, Huangfu Kunpeng who reinstalled his arm was intact as before, but the color of this new arm was slightly different from Huangfu Kunpeng's skin, and it looked a little weird. But Huangfu Kunpeng was already very happy, and this chromatic aberration didn't matter to a man at all.

The old man Mu Yunlong had suffered internal injuries. After Windsor's treatment, he was already alive and well. The old man wanted to resign as the commander of the Chinese Allied Forces, and then nominated Li Tianlai to be, but Li Tian refused.

This Chinese Allied Forces is the painstaking effort of Mr. Mu Yunlong. Although Mr. Mu Yunlong was a little injured this time, Li Tian could see Mr. Mu Yunlong's reluctance, so Li Tian would refuse.

Mu Yunlong could only continue to carry the heavy burden and start deploying the heavy weapons of the Army Soul Corps, deploying troops and strategizing, this kind of thing is not something Li Tian can do now.

During these three days, Li Tian took a few Xiaoyachas from the Xuling Clan to accompany Tang Feifei to the former site of the Association of Agriculture and Industry.

The reason it is said to be a ruin is because it was completely destroyed during the battle between Li Tian and Tang Zheng, but now there are the Void Spirit Race and the Dixing Yasha, and several huge buildings were quickly erected here. It is the Phoenix Nirvana of the Agriculture and Industry Association.

Of course, these buildings were built at night, so when someone saw these buildings, the entire city of Kyoto was shocked, and even Kyoto City TV stations came to pay homage to this miracle.

Li Tian can only help Tang Feifei do this, and the rest can only be done by Tang Feifei. After all, dealing with zombie farmers is her specialty.

Mu Yunlong knew the importance of the Agriculture and Industry Association and sent Little Lady and Gu Lianghongtu to protect Tang Feifei's safety.

On the fourth day, Long Yin, Huangfu Kunpeng, Tyrant Gao Gang, Old Wu, Xue Ji, Situ Ningbing, and Tang Xiaolong gathered at the former residence of Duanmu Ying, the Legion of Sakura in Langshan.

The villa on this mountain is spacious enough for everyone to live in, and the platform on the top of the mountain can be used as a place for cultivation, and it will not affect ordinary people because of the heavy cultivation.

"Thank you all for being here. We are here for only one purpose and that is to deal with the three corpses. In order to deal with the three corpses, I will not hide privately, but our time is limited, so we only have three days. These three days It's up to you how much time you can learn!" Li Tian said.

The old man Wuji patted Li Tian on the shoulder and said with satisfaction: "Little Li Tian, I didn't expect you to return to the peak of strength again in less than a year, and your strength is much stronger than when you left the earth world. Now you can be my master. If Li Kuafu knew about it, I would be very pleased!"

Li Tian was really embarrassed. If he wasn't sure about dealing with the Three Corpses, how could he ask the old man Wuji to come out and give him some lessons.

When Long Yin heard Li Tian's words at this time, he was somewhat unconvinced, and said: "Li Tian is also luckier than me. If I had such a chance, I would not lose to you. Now you teach us. Gongfa, are you not afraid of losing to me Long Yin?"

"Not afraid, because you will never be my opponent!" Li Tian said with a smile.

Tyrant Gao Gang came over and said with a smile: "Li Tian, this kid is not kind enough, I will give you my son. Your strength has improved by leaps and bounds, but Kobi's strength has not grown much! But this kid has learned a lot, knows I like girls! Haha, that's good, my tyrant will be considered a successor."

Li Tian can only be full of black lines, what's so good about this to be happy about.

"Li Tian, you can show that again, let us feel it again!" Huangfu Kunpeng said with some eagerness.

Li Tian smiled and said, "Okay, but it needs to be done step by step. Now I will let Xue Ji demonstrate it first. You have to look carefully and feel it carefully. At the beginning, the ninjas of Dongying island country only realized it after experiencing it twice. It's heavy, so don't be too bad."

Although everyone knows that Li Tian's method is violent, everyone still screamed, even the old man Wuji's face was full of disdain.

I have to say that all here except Tang Xiaolong are cultivating geniuses. After Xue Ji performed a heavy effort, everyone began to delve into it thoughtfully.

Chapter 4096: : Team assembly

Strong characters like the tyrant Gao Gang, Huangfu Kunpeng, and Long Yin are actually not weak, but they don't have the opportunity to have access to this skill. Even if they are a few fighting the Three Corpses, the Three Corpses are in their strength. Used to purchase overwhelming advantages, and will not easily use this skill.

On the contrary, Huangfu Kunpeng had felt it once when he fought the Three Corpses last time, but at that time, Huangfu Kunpeng did not expect that the overwhelming coercion was actually a skill.

Now after Li Tian dialed a little bit, Huangfu Kunpeng immediately reacted, and after a short period of cultivation, he displayed a heavy prototype.

The reason it is said to be a prototype is that the weight he used is slightly different from that of Xue Ji, and that kind of coercion has almost negligible deterrence to anyone present.

Not only do they have to practice by themselves, but they also need to learn to control, but this is not what Li Tian can give them. After all, the master leads the door to practice personally, just like Tang Xiaolong, Li Tian also gave him so many pointers, he is If you can't comprehend it, then you can't help it.

After three days of hard cultivation, everyone except Tang Xiaolong broke through to the realm of cultivation.

The old man Wuji had the best control of the counterweight. Li Tian conservatively estimated that the strength of the old man Wuji should have reached the sixth level of cultivators, followed by Long Yin and Huangfu Kunpeng. They are almost the same, almost the fourth level of cultivators. The realm, the tyrant Gao Gang was slightly worse, he could barely reach the third level of the cultivator realm.

With the addition of Situ Ningbing's sixth level of cultivation, Xueji's fourth level of cultivation, and Li Tian, the evildoer who can no longer use the realm of cultivation to measure actual strength, now this special team is full again. Combat power can also be said to be the strongest combat power in the country.

In November, the north has entered the autumn and winter seasons, and the vegetation has begun to wither and fall in large areas. Except for hardy plants like pines and cypresses, which are also somewhat green, the entire world is gray.

On the highway, more than a dozen green military cars became the only bright spot in the gray. Just looking at the China United Army logo on the car, you know that the car is not a simple character.

The car goes all the way south.

From time to time, Li Tian would see some pickup trucks and trucks driving in the opposite direction with their luggage. The cabin of the car was full of women and children except the driver, and there were also men who were numb and armed with weapons in the compartment.

"These people all escaped from the south, but even if Kyoto is one of the largest cities after the end of the world, I am afraid that there is no way to accommodate so many refugees."

"The satellite cities outside Kyoto City have flooded into hundreds of thousands of people and they are already overcrowded. If the tide of zombies continues to be covered, people in the unavoidable cities will probably all run away, and once these refugees leave their homeland Without a source of livelihood, all kinds of public security incidents will begin to occur, and there may even be civil commotions." said Huangfu Kunpeng sitting next to Li Tian.

"So this time we can't lose anymore!" Li Tian whispered.

At this time, Li Tian would be moved even if he was hard-hearted. Li Tian only thought that this time he must contain the corpse tide attack.

After crossing the Yellow River, east of China is to the south.

This is already the territory of the previous army soul legion, but the cities in this area were basically turned into empty cities the last time they were defeated. Everywhere the eyes saw was full of barbarians, the buildings were basically destroyed and smoked. The traces of scorching fire and explosions make the city look extremely desolate.

In these cities, only the soldiers of the Army Soul Corps stood by. These soldiers were short of food and clothing, but when they saw Li Tian and others' cars, Huangfu Kunpeng, Long Yin, and the tyrant Gaogang , Their faces showed excitement.

And of course they knew that when Li Tian also returned to China and accompanied him to the south, the soldiers all smiled excitedly, yelling that they would follow Li Tian and others to the south, and they would beat the zombies to the south of the Yangtze River. .

Down the road, Huangfu Kunpeng was all gathering the troops of the Army Soul Corps. When it was along the Huai River, Li Tian's car team was already followed by thousands of tanks, heavy artillery, and guided missile vehicles. Of course, more of them were civilians. car.

Now is the end for ordinary people, they feel that they can't see hope, but for these soldiers of the Army Soul Legion, this is the time for them to throw their heads and blood.

Every time when the Chinese nation is alive and dead, the Chinese nation will burst out of resilience. None of the ordinary soldiers of the Army Soul Legion are afraid of death. They are proud of killing zombies, and even their necks are hanging. The corpse crystal of a zombie.

After the defenders of the army soul legion joined, the team of Li Tian and others has grown stronger, and along the way, small teams of bounty hunters and small organizations have taken the initiative to ask for it, and there are also those refugees who have been defeated in nearby cities.

Asking to join, there are also second- and third-rate corps leaders pulling the corps to request to join.

Seeing the team marching to the south, Li Tian's heart gradually boiled with blood.

This kind of scene is much more majestic than the military parade Li Tian saw before the end of the world. The roar of mechas was like thunder, and the low-level zombies nearby ran away scared when they heard this sound.

In addition to these teams, the Yin-Yang Gate, which is the top ten legion, did not get involved this time. Yin Yang, the master of the Yin-Yang Gate, personally led his thousand immortal divisions to the battlefield. The Celestial Legion in the northwest region also sent a 5,000-man team. The heavy equipment team is rushing here.

It can be said that all over the country, as long as they are unwilling to be eaten by zombies, unwilling to succumb to zombies ruling the world, and unwilling to believe in the kingdom of three corpses, all teams are rushing to this area.

This time the battle site was in several key cities along the Huai River: Nanhuai, Anhuai, Huaizhou, etc.

"Report to the two adults. There is news from the front that the tide of zombies has almost reached Nanhuai City. This time the tide of zombies is conservatively estimated to be more than one million. Now the defenders of several small cities near Nanhuai City Hurry to Nanhuai. The Nanhuai defenders urged us to support as soon as possible. Otherwise, once the tide of corpses arrives in Nanhuai, they may not be able to resist it for long!" A soldier caught up to the car where Huangfu Kunpeng and Li Tian were in, and said loudly.

Millions of zombies!

Now Li Tian is such a huge team that has no more than one hundred thousand people, and the tide of zombies can arbitrarily collect a huge number of millions of Li Ai. Now Li Tian knows why the Army Soul Corps was defeated, just this There is too much difference in quantity.

Li Tian glanced at Huangfu Kunpeng and said, "I will take my people to Nanhuai City to prepare for defense. You can take people to Nanhuai as soon as possible. At this time, we can only win the first battle but not defeat!"

Chapter 4097: : Manufacturing Urn City (1)

Nanhuai, a small third-rate city before the end of the world, after the end of the world, because of the army of the soul army here, it became a rare large city after the end of the world, and the nearby provinces of Zhongnanhuai are considered the largest.

Of course, this was before, and now Nanhuai City was empty, and there was no one visible on the street except for the occasionally galloping tanks and cars.

The city wall of Nanhuai is far worse than that of Kyoto. The height is only 10 meters, and the thickness is no more than five meters. Such a small city wall can resist low-level zombies. If you want to resist more than level six Zombies are a bit difficult, but for zombies above level 9, this city wall actually has no effect.

Now, more than half of the three thousand army soul legion members in Nanhuai City have gathered on the southern wall. A dozen heavy tanks and artillery have been parked on the wall. It seems that this place is as solid as gold, but in the hearts of all the soldiers here. All are a little nervous.

Several soldiers looked at Li Hu, the city lord of Nanhuai City and the core cadre of the Army Soul Corps. Seeing Li Hu's face solemn but not the slightest fear, the anxiety in his heart gradually calmed down.

Li Hu is a man in his thirties with freckles on his face. The soldiers are called Li Hu and Li Mazi behind his back, but this does not affect Li Hu's position in the hearts of these soldiers, as the core cadre of the Army Soul Corps. Everyone recognizes his strength. Especially Li Hu is unmarried so far, and he almost lives and eats with the soldiers, which makes the soldiers treat Li Hu as a brother.

Li Hu raised the telescope and looked into the distance. In the telescope, the dusty zombies on the horizon in the distance, rushing to the front, had appeared in Li Hu's telescope.

"At the speed of these zombies, the tide of corpses will attack Nanhuai City in less than ten minutes. These more than one million zombies are not something that thousands of us can handle!" There was no change in his expression, but his heart was a little impatient.

It was not panic, but impatience.

The news of the zombie tide was discovered by Li Hu's soldiers when the zombie tide was tens of kilometers away from Nanhuai City. However, Li Hu's order from the Army Soul Corps headquarters was to defend Nanhuai City firmly, even if only The last person left is not allowed to retreat.

Fortunately, Li Hu knew that Master Huangfu Kunpeng was leading the army to Nanhuai, but Li Hu didn't know if Huangfu Kunpeng could make it. Even if he could catch up, he still didn't have much confidence in dealing with more than a million zombies!

A soldier rushed to Li Hu and stood up and saluted: "Big...sir, all the artillery shells are ready, and reinforcements from several nearby cities have already entered the city, but...but..."

"But what?" Li Hu frowned and asked with some dissatisfaction.

"But the defenders in the nearby cities don't have much strength, especially the heavy weapons. There are only 20 tanks entering the city," the soldier said.

Li Hu knew that there would not be too many reinforcements, but he did not expect that there would be so few. However, as the city lord of Nanhuai, he could not show it. He could only comfort the soldiers and said: "Twenty tanks are already a lot. Huaicheng has a city wall as a defense, tanks as an attack force, and a river in front of the city as a natural barrier. It is not so easy for these zombies to attack the city, and Master Huangfu Kunpeng is on his way!"

And just at this moment, a soldier looked to the sky vigilantly, pointing to a zombie in the sky and said in horror: "My lord, look at that there is a zombie. This zombie should not be your three corpses. Eyeliner? Or let me shoot it down with a sniper rifle!"

Li Hu looked up and saw that the bereaved bird was flying towards here quickly. He picked up the binoculars and looked at it, and his face immediately showed joy.

"Haha, brothers, guess who's here? It's Master Li Tian, Master Li Tian alone can beat at least 10,000 zombies, no, at least 50,000 zombies!" Li Hu said with some excitement.

Soon Li Tian fell on the wall, and Li Hu quickly greeted him.

"Master Li Tian, I am the city lord of Nanhuai City and the core cadre of the Army Soul Corps, Li Hu, you can call me Huzi or Pockmark." Li Hu said, holding Li Tian's hand.

"Do you know me?" Li Tian asked in surprise.

"Look at what you said, the commander of the famous Celestial Legion, the Supreme King of the Bounty Hunter Association, Lord Li Tian, who knows no one! So, let Li Tian command here now, what do you say? We just do what we do, and there is no one who dares not listen to orders." Li Hu said.

Li Tian shook his head and said, "No, it's your command here. I will first find a way to reinforce our city wall and find a way to resist the impact of those zombies!"

The Di Xing Yasha was summoned by Li Tian and entered the underground long before Li Tian landed, and the Void Spirit Race jumped from the mutant crow with Li Tian, but others couldn't see it.

When Li Tian was in the sky, he had already seen Nanhuai's land line clearly, and he had an idea in his mind, so Li Tian took out a pen and a piece of paper and began to draw on the paper.

I saw Li Tian as if talking to himself: "The moat of Nanhuai City doesn't play much role, so we have to treat that river as the moat of Nanhuai City. Therefore, I need you to make it along the riverside. Come out a new city, just like what I painted, this new city is connected to Nanhuai City, which is equivalent to the Wengcheng on the south side of Nanhuai City."

"Those zombies who want to break through the wall of the Urn City after crossing the river are somewhat difficult. Even if they break through the wall, they will become the turtle in the Urn City. But your speed must be fast. I think those zombies will be by the river within a few minutes. After the construction is completed, you will also build the Wengcheng in the other three directions. In this way, Nanhuai will be equivalent to having two layers of city walls, and you will be more confident in defense!"

Li Hu was very happy to see Li Tian, and he felt that Li Tian could be as famous as the commander of the Ten Army Corps after all, but when he saw the drawings of Urn City drawn by Li Tian, he talked nonsense to himself. Some dissatisfaction in the heart of the earth.

"Master Li Tian, if you give me half a month, I can do what you want, but now we don't even have half an hour. How would you let me create an urn for you? If you come to help, Then we welcome, if you are here to make trouble, then forgive me for not having time to accompany you." Li Hu said angrily.

Li Hu didn't scold Li Tian silly x, it was already considered to give Mu Yunlong face.

The corner of Li Tian's mouth turned up slightly and said, "Don't worry, we can delay time if we don't have time, just wait and see!"

"Hmph, I see what tricks you can make!" Li Hu said with a sneer in his heart.

Chapter 4098: : Manufacturing Urn City (2)

"My lord, how do I feel that Master Li Tian has exaggerated, and what he said doesn't seem to pass through his brain?" A soldier in Nanhuai saw Li Hu approaching and said in a low voice.

Li Hu snorted and said, "No need to talk nonsense, Li Tian is the grandson of our old head, if you say this to the old head, be careful you can't eat it!"

"But what you said is also the truth. Li Tian's personal strength was still good at the time of the Forbes power competition. This is what the people of Kyoto witnessed with their own eyes, but the words he just said are a bit weird."

"My lord, isn't Li Tian irritated by the fact that he was deported? That's why he said nonsense." Another soldier looked at Li Tian and said in a low voice.

"It should not be. I heard that Li Tian has already established a firm foothold in the Dongying Island. This time he will come back when the old army commander invites him to deal with the Three Corpses. However, it is useless to say those empty words. It is the mule or the horse. You'll know when you come out for a walk," Li Hu said.

Although the conversation between these soldiers and Li Huhu was low, Li Tian heard it really.

The corner of Li Tian's mouth tilted upwards, revealing an inscrutable smile.

Don't buy porcelain without diamonds.

Li Tian was talking to the Xuling Clan about his arrangements, but he didn't expect Li Hu to think that Li Tian was pointing at him, but Li Tian did not intend to explain to Li Hu, let alone explain to the soldiers.

Li Tian focused on looking at the direction of the river to the south. Dixing Yaksha had already passed the river and quickly created a trap underground in front of the river.

With this trap, even if those zombies rush to the river, they can instantly plunge into chaos. Li Tian raised his head and looked into the distance. The black zombies were rolling like a torrent, and the end of these zombies could not be seen.

The intelligence is correct, the number of zombies in this tide of corpses exceeds one million.

Li Tian believes that he can easily kill any one of these million zombies, even the level 20 zombies. However, the accumulation of quantity caused a change in quality, and Li Tian could also be trampled to death by the tide of more than a million zombies.

Li Tian looked up at the distant sky again, Feitian Yasha had already flown to the top of the corpse tide, hovering constantly in the sky, and Feitian Yasha could launch an attack with only Li Tian's order.

The Xu Ling Clan, who was still beside Li Tian just now, had reached the bank of the river. At this time, the Xu Ling Xu cloned again, turning into hundreds of phantoms.

It's just that Li Hu didn't see and didn't know all this.

Suddenly a soldier pointed his finger at the river bank and exclaimed: "Look, what is that?"

Li Hu was a little angry. He disliked the fact that these soldiers had no city mansion. He was shocked. If he could suppress his anger in normal times, but now because of the zombies and Li

Tian, Li Hu could no longer suppress his anger. , Kicked the soldier aside, and said: "Look at your talent, what is worth your surprise!"

Speaking, Li Hu raised his binoculars and began to look into the distance. Soon, Li Hu's chin fell off in surprise.

I saw a large pit with an area of more than one square meter appeared in the underground of Hebei, and some huge boulders were constantly jumping out of this large pit.

These boulders are about two meters in length, and are about one meter in height and width, just like giant bricks. After these huge bricks were thrown from the ground, they immediately floated up along the river bank and began to build a wall.

"This... how is this possible?"

Li Hu was completely dumbfounded. He didn't expect that what Li Tian said was actually true, but Li Tian didn't seem to move at all. Could it be that Li Tian's spell failed?

No, it should not.

Like Li Hu, the soldiers in Nanhuai were on fire at this time. The soldiers who were still holding Li Tian's jokes just now had already shut up. Instead, their faces were full of excitement.

Li Tian, this is the legendary Li Tian.

"Don't be happy too early, those zombies will rush over immediately, even if the river is blocked, it may not take long before they will rush over the embankment. By then, the urn city has not been built, and the zombies have already rushed to us! "

"Brothers, follow me to prepare to fight, open the city gate, let's attract the attention of those zombies tide, so as to give Master Li Tian time to build the Urn City!" Li Hu shouted loudly.

Li Hu's duty is to defend Nanhuai. As long as Nanhuai is safe and sound for him, even if he dies here, he feels that his death is worth it.

Following Li Hu's command, hundreds of soldiers from the Army Soul Legion were eager to try. These soldiers, either holding machine guns or carrying bazookas, had already gathered and were about to rush out.

Li Tian didn't stop it. This was Li Hu's duty. No matter how strong Li Tian was, they couldn't stop the soldiers from fighting.

It's just that the construction speed of this virtual spirit clan is super fast. The city wall was half built in less than three minutes. Li Hu and the others have not gathered yet. The city wall tower along the riverside has been completed, and those virtual spirits The clan has begun to build the walls on the left and right.

At this time, another soldier exclaimed.

I saw a large black object suddenly fell from the distant sky, and this object just fell on the tide of the tide of zombies without partiality. At this moment, hundreds of thousands of zombies were trapped in the black. Among the objects.

This is the dark cage of Feitian Yasha. Although this dark cage is not lethal, it can effectively control the speed of the tide of zombies. The tide of this tide is controlled, and the running speed of the zombies behind naturally slows down.

All the people on the wall were dumbfounded.

"This... where did this thing come from? Isn't even God helping us?"

"This must be Master Li Tian's ability! It seems that we might be able to defend Nanhui City this time?"

Li Hu didn't want to listen to what these soldiers were saying. He interrupted the soldiers' round and said, "Bullshit, it's not possible, it's definitely possible to defend Nanhui City!"

At this time, more than half of the walls on the east and west sides of the city had been built.

"Master Li Hu, do we have to rush out to attract the attention of those zombies?"

"Fucking, the walls of this Urn City have been built, why are we going out to die for nothing? Let me listen to it. When the wall of the Urn City is built, immediately pull the tank and heavy artillery over, as long as the zombies are close to the opposite river bank. , Just hit me fiercely! We want to keep the zombies on the other side of the river!" Li Hu said confidently.

Chapter 4099: : The big shot (1)

The dark cage can only block hundreds of thousands of zombies. The other zombies are just a little dazed, or plunged into the dark cage, or detoured one after another. Although the tide of zombies is high, it has not been affected much. . .

Li Tian knew that with the passage of time, Feitian Yasha's control ability became worse and worse, and these 100,000 zombies would also be released. Therefore, after the Void Spirit Race and Earth Xing Yasha repaired the urn city to the south, Li Tian did not let them rest, but continued to build the Wengcheng on both sides of the east and west.

Wengcheng is generally a small semi-circular or square guarded city outside the city gate, but also a special case built inside the city gate. However, the weng city built by the Xuling tribe by Li Tian is more like a rebuilt city outside the southern part of Nanhui City. Generally, the east and west city walls seem to extend from the original Nanhui east and west city walls.

In this way, it is very difficult for these zombies to easily attack the walls of Nanhui City, and as long as the urn city on the east and west sides are built, not to mention that Nanhui City is solid, but at least Nanhui City already has two layers. The city wall serves as a safeguard.

And these zombies want to break through one of the walls, then they will have to pay a heavy price.

The Wengcheng to the south has been built, and the zombies have rushed to the river bank immediately. Li Hu is constantly mobilizing troops and generals to mobilize personnel and firepower from the wall of Nanhui City to the wall of Wengcheng. .

boom! With a loud noise, a large area suddenly collapsed on the flat ground opposite the river bank, and the tens of thousands of zombies running on it fell into the collapsed area instantly.

And the zombies behind couldn't stop at all, and tens of thousands of zombies were squeezed into the collapsed area by the tide of corpses behind. In an instant, the collapsed area was filled with the body of the zombie.

This is the masterpiece of Dixing Yasha.

"Oh, it's Lord Li Tian, Lord Li Tian hasn't made a move, and he has already lost the fighting ability of hundreds of thousands of zombies! If there are more characters like Lord Li Tian in our Chinese Allied Forces, then we'll have The zombies have been rushed back to the south of the Yangtze River!"

"You can be content, Li Tian is Li Tian, and the entire earth world is only a monster like Li Tian. You should feel lucky that Li Tian has arrived today. Otherwise, I am afraid that we have already gone to war with those zombies!"

The soldiers swallowed, looking at Li Tian with excitement and respect on their faces and said.

There are already seventy to eighty thousand zombies falling into the trap, but Li Tian knows that zombies will not die so easily. This trap, like the dark cage, only serves to temporarily stop the zombies. Once the zombies on the trap rush over, the trap The zombies in I'm afraid will also crawl out.

Li Tian didn't have the slightest ease on his face. The two secret weapons he had prepared in advance were all used up, and the rest could only rely on the defenders of this Urn City and Nanhuai City.

If the Earth Xing Yaksha can free up, maybe it can use the quicksand storm, or the quicksand to sink in to destroy some zombies, but now the Earth Xing Yaksha is assisting the Void Spirit to build the urn city on both sides of the east and west, and it will be impossible to get away for a while. of.

Those zombies are like wildebeest migrating on the African grasslands. They have already begun to cross the river. The river outside Nanhuai City is not turbulent, except for those first-level and second-level zombies that may be washed away by the river when they enter the river. In addition, other zombies are completely unaffected by the river.

"hit!"

"Beat me hard!"

Following Li Hu's order, the tank artillery on the wall of Nanhuai Wengcheng immediately began to blaze, and the artillery shells kept flying out.

boom!

boom!

boom!

One cannon ball fell among the corpses of the zombies, and immediately exploded a piece of flesh and blood in the corpse. Although the number of zombies is huge, after all, the number of zombies above level 6 is still a small number, which is more than one million. Among the zombies, more than 700,000 zombies are below level 6.

So as long as the tank shell falls among the zombies, it will blow up many zombies immediately.

However, this seems to be useless, there are only a dozen tanks on this city wall, and there are 700,000 to 800,000 zombies on the other side of the river.

sudden! sudden! sudden!

The heavy machine gun was clamped on the city wall and kept firing at the zombies. It seemed that the firepower was very fierce, but as long as the bullet did not hit the heads of the zombies, the zombies would be half-flighted and they would still think about the direction of Wengcheng. come.

In a blink of an eye, seven or eight hundred zombies have died, but more zombies have flooded into the river, and even a few high-level zombies have turned into superstars and have attacked the walls of Wengcheng.

Huh!

A few red lights flashed, and the "Red Slash" released by Li Tian instantly killed these high-level zombies.

"Master Li Tian is mighty!"

"Master Li Tian is domineering!"

One of Li Tian's casual movements attracted countless flattering.

Li Tian is only one heart and three purposes, using his mind to control "Red Slash" to kill a few zombies that may be dangerous to the city wall.

Now Li Hu is completely convinced by Li Tian. Li Hu came to Li Tian with a big knife and said to Li Tian, "Master Li Tian, this wall is extremely strong. These zombies may not be facing right now. The city wall poses a threat, but if these zombies are swarmed over, then these zombies may climb onto the city wall, or should I follow the adults and kill them first?"

Li Tian looked at Li Hu like an idiot, smiled and said, "Master Li Hu, I know that you are the core cadre of the Army Soul Corps, and your strength is also very strong, but if you want to kill these millions Zombies are so easy to talk about, let alone you and me, even a hundred of you and me may not be able to kill these zombies."

"And don't you feel a bit too calm? According to the intelligence, this corpse wave was initiated by the control of the three corpses, but no trace of the three corpses has been seen yet! Not only the three corpses, even those above level 15 I have seen a few of the three corpses, so we must be able to hold on to the anger. It is best that we can wait until Huangfu Kunpeng and the others come over!" Li Tian said.

Li Hu was not dissatisfied, nodded and said: "Well, then we will defend this Urn City firmly, and we must not let a zombie attack the wall of this Urn City!"

But as soon as Li Hu's words fell, a cloud of dust suddenly rose from behind the tide of zombies in the distance, and then I heard a rumbling sound from the ground, as if thousands of horses were rushing from behind. .

And the tide of zombies that was rushing around in disorder just now became organized in an instant, and even in the middle of the tide of lost corpses, it automatically gave up a seven or eight meters wide road.

"It looks like there are still big shots coming on stage!" Li Tian thought in his heart.

Chapter 4100: : The big shot comes on stage (2)

The big figures among the zombies are naturally the three corpses. .

Li Tian doesn't know who is coming out right now, is it a ghoul? Corpse? Corpse?

Or maybe the three corpses come out together.

However, Li Tian has already seen that the most advanced zombies in the passage are nearly a hundred high-level zombies above the fifteenth level. The hundred zombies above the fifteenth level are not so easy to deal with. Fortunately, there is Li here. God, otherwise these zombies alone would be enough to worry Li Hu and others.

After the hundred level 15 zombies, they turned out to be two heavy trucks.

The two heavy trucks drove slowly from left to right, and each of the trucks had this huge flagpole standing upright. On the flagpole was a flag stitched together with colorful cloth, and one flag was written on top of the corpse. The country has four characters, and the other flag is written with the four characters Unifying Jianghu.

It seems that these three corpses are inevitable and will be assimilated in the earth world.

Behind the truck are twenty-four tall horses and mourning horses. These twenty-four mourning horses are carrying a luxury car with a long open top, and the ghoul sitting in that car is.

He really knows how to play, and he even played with horse-drawn cars, but don't say that, these twenty-four horse-drawn cars look far more pitiful than driving a luxury car.

Li Tian sneered and controlled "Red Zhan" to fly out.

Li Tian didn't plan to let go of these more than one hundred zombies above level 15. Once these zombies rushed to the city wall, even if there was Urn City, Nanhuai City would be very difficult to defend.

Huh!

Huh!

The red light released by "Red Slash" continuously flashed among the groups of zombies, and every time a red light flashed, a zombie above level fifteen immediately fell to the ground.

The level 15 zombies suddenly became a mess, and even some zombies turned their heads and started to escape.

Teng!

The ghoul suddenly jumped up from the car, flew over the twenty-four zombie horses, and lightly stepped on the backs of the zombie horses, and flew into the corpse group of the fifteenth-level zombies.

boom!

The ghoul slapped a flustered level 15 zombie with a palm, and directly blasted the body of that zombie into scum.

"Trash, it's just a red cut. Is it worth the panic?" the ghoul roared angrily.

"Red Slash" has completely changed after following Li Tian for so long. As a ghoul who once had a lot of ties with "Red Slash", he naturally knows what "Red Slash" means now.

"Hey, it's finally time, let me take the red cut back for my use!"

In the next second, the ghoul's arm stretched out to meet "Hong Zhan" suddenly, he wanted to take "Hong Zhan" from Li Tian's mind control.

But as the ghoul stretched out his arm, a red light burst out from the "Red Slash". The red light seemed to possess some kind of power, and it caused the ghoul's arm to pause for a little bit. Taking advantage of this second pause, "Red Zhan" had already flown back.

"Huh, you want to take me Red Slash? Let's pass my level first!"

Li Tian controlled "Red Slash" with his heart, and tried his best to keep "Red Slash" away from the ghouls, while Li Tian had already jumped off the wall with the Qiong Spear of the sky.

When Li Tian jumped down, the Heavenly Qiong Spear in his right hand had already slammed a zombie that flew up, and his left hand continuously blasted the broken soul palm and blasted the zombies that followed.

boom!

boom!

With every broken soul palm blasted out, a dozen zombies were blown to pieces.

Whoosh!

Whoosh!

The Heavenly Qiong Spear in Li Tian's hands continuously traversed a silver line, and every silver line traversed would immediately cut the zombies in front of him in half.

Although the Heavenly Qiong Spear is a spear, it is a divine weapon after all, and the sharpness of the spear's tip far exceeds the defensive power of these low-level zombies.

In just a few seconds, Li Tian's feet were already a piece of zombie limbs with severed arms. Some zombies did not die, and they kept moving their arms to escape.

But there are zombies everywhere here, and before they crawled a few steps, they were not stepped into the ground by those zombies.

Too fierce!

The soldiers on the wall of Nanhuai City saw their eyes straight. They felt that their two eyes were not enough. They seemed to have no other idea for Li Tian except admiration.

Li Hu's eyes kept gleaming.

As the core cadre of the Army Soul Legion, blood was already boiling in his body at this time, and he also wanted to rush into the zombies group to kill those zombies properly.

But he knew that rushing in with his strength would only add chaos to Li Tian.

"Listen to my order, everyone must avoid Master Li Tian when attacking, we can't add trouble to Master Li Tian!" Li Hu shouted loudly.

"Yes!"

The artillery fire on the Huainan city wall continued, and these shells adjusted their directions to avoid Li Tian.

Suddenly, the machine gun on the city wall kept spitting out tongues of fire, and there were already a layer of zombies floating in the river below the city wall. Because of Li Tian's joining, the hearts of these soldiers were full of confidence.

At this moment, a soldier came to Li Hu excitedly and said excitedly: "Master Li Hu! Master Huangfu Kunpeng and their team are less than ten miles away from here, and they will be here soon!"

"Okay! Hit me hard, don't be stingy with bullets and shells!"

...

Standing on the back of a zombie horse, the ghoul looked at Li Tian, who was constantly fighting among the corpses, with a sneer at the corner of his mouth.

"Hey, Li Tian! It really is you Li Tian! The things you did in Dongying Island have been accounted for by the three corpses, and you dare to send it to the door automatically now!"

"Okay, very good, then I'm not welcome, today I will kill people for treasure, kill you Li Tian, and take away the red cut from your hand, so that my strength can be improved again!" The ghoul sneered. Said.

When uttering the last word, the ghoul had already abandoned "Red Zhan" and rushed towards Li Tian.

"All the zombies will retreat to me and let me deal with Li Tian!"

Li...Li Tian, this guy turned out to be Li Tian, it's no wonder he is so fierce.

Although the senior zombies in the corpse group have never seen Li Tian, they still have heard of Li Tian's name, and whether the three corpses are low will also mention the name Li Tian, which makes them feel that Li Tian has a kind of high Feeling unattainable.

When the ghoul was leaving, all the zombies around Li Tian couldn't help but began to retreat. They wanted to leave enough space for Li Tian and the ghoul to fight.

The mortals suffered from fighting with the gods, and these zombies didn't want to be the victims of Li Tian's battle with the ghouls.

"Li Tian! Take it to death!"
