

A Killer 4371

Chapter 4371: : Receive treatment (1)

Hearing the news that Li Tian was injured, Li Huo only felt his head dizzy!

"This... how is this possible? Lord Li Tian can kill the powerful existence of the three corpses. What is it that makes Lord Li Tian seriously injured?"

Unable to tolerate Laihuo thinking too much, Laihuo ran towards the gate of Wangta Temple, and Laihuo's assistant and a few soldiers hurriedly followed.

In less than a minute, the raging fire had arrived at the gate of the Watchtower Temple.

Li Tian weakly went to the stone steps of Wangta Temple gate. At this time, Li Tian's face was pale without a trace of blood. The clothes of Li Tian, Tang Xiaolong and Situ Ningbing were completely soaked, and the fire could even smell. Foul smell.

"What's the matter? Several adults, what's the matter?" Li Huo asked anxiously.

"Agni, listen to me, and arrange a hospital for us immediately!"

"To be the largest hospital in Beitang, it is best to get all the patients, medical staff and other personnel in the hospital out of the hospital in the first time. The hospital where the little boss is staying must be kept secret!" Tang Xiaolong said in an unquestionable tone. Said to the raging fire.

"This..." Agni hesitated. It was still difficult to clear all patients and medical staff from the largest hospital in Beitang.

Assistant Lihuo said immediately: "My lord, Beitang No. 2 Hospital has no patients, but this hospital has been closed for almost five or six years due to the stolen body and missing persons, and the entire hospital is almost deserted!"

"By the way, there is also Beitang Military Hospital. Now you go to call the director of the Military Hospital... No, I'll call this call!"

Agni took out the phone and dialed a phone number.

"Old Yuan, it's me who is raging..."

A few minutes later, the phone was hung up, and Agni nodded and said: "It has been arranged. The military hospital has dispatched an ambulance. You can get here in at most twenty minutes!"

Tang Xiaolong nodded, and then said: "I will be quarantined from Beibeitang Military Hospital. No one is allowed to enter the military hospital without receiving Situ Ningbing's order! Especially, we must not let any media close! All soldiers who know that the little boss is injured must be isolated. Until the little boss is healed, no one is allowed to contact the outside world!"

"Third, contact me Windsor and Liu Yihui immediately, no matter what method is used, we must let them reach Beitang as soon as possible! Forget it, let me handle this problem!" Tang Xiaolong grabbed Li Tian's hand and continued Said: "Little boss, I will go to Dongying Island. I will definitely be able to come back in four or five hours at the earliest. Ningbing is here to accompany you. You are waiting for us to come back!"

After speaking, Tang Xiaolong instantly disappeared in front of Li Tian and others!

Li Tian is very weak, his body is trembling slightly, his pupils are full of bloodshot eyes, but from Li Tian's appearance, it is impossible to tell where Li Tian's body is injured.

Li Huo wanted to get close to Li Tian and took a closer look at where Li Tian was injured, but was stopped by Situ Ningbing's words. Li Huo wanted to see some clues of Li Tian's injury from Situ Ningbing's face, but he heard Situ Ningbing's injury. Snorted displeasably.

Agni dared not lift his head when he was frightened, and quickly stepped back ten steps.

Assistant Agni has arranged several guards within a few hundred meters of Li Tian.

Li Tian was very quiet, and Situ Ningbing was also very quiet. Except for the words Tang Xiaolong said at the beginning, Li Tian and Situ Ningbing didn't say a word.

Agni Huo's heart is full of curiosity, but he knows that curiosity might kill him at this time.

Agni chose to shut up, calling again and again to confirm the location of the ambulance vehicle.

In less than twenty minutes, an ambulance marked with the Beitang Army logo rushed into the square of Wangta Temple under the ***** of seven or eight military vehicles, and quickly stopped in front of the Wangta Temple gate.

Several medical staff were washed down from the ambulance. They wanted to check on Li Tian, but Situ Ningbing reached out and stopped them.

"I know you are cultivators, but what can you do even if you are cultivators? Master Li Tian is now a patient, and I am a doctor, you can only trust me!" the military doctor said with some disapproval.

"No need! It's not that we don't believe that your hospital's medical skills are actually that Li Shen is seriously ill and cannot be treated by you! You only need to do your job well!" Situ Ningbing said firmly.

Although these medical staff wanted to have something to do with Li Tian, but seeing that Situ Ningbing was so determined, they could only give up. Several medical staff carried Li Tian onto the ambulance on a stretcher and were driven out by Situ Ningbing. Car compartment.

"Don't be fussy, do your job well! Set out now!" Agni said.

The sirens of ambulances rang throughout Beitang City.

In front of the ambulance, the Beitang military and the Beitang government opened various roads. There were more than 20 vehicles clearing the road alone. Seven or eight cars followed the ambulance. If it weren't for the car in the middle to be an ambulance, The people of Beitang probably thought it was the head of China who came to Beitang for inspection!

...

The Beitang Military Hospital is affiliated to the Chinese Military, but it also has some close ties with Beitang City.

When the call from the city lord Agni just hung up, the director of the military hospital was still full of resentment.

"Who is injured? It's too big a show, right? Let Lao Tzu emptied the entire hospital and only receive the turtle grandson! Dreaming! Lao Tzu will give you a face in the fire and send an ambulance over.!" Dean Yuan muttered to himself in a low voice.

But within a few minutes of his call, another call came in.

"Hello Dean Yuan, I am a little lady..."

Hearing this call, Dean Yuan's old trouble tinnitus suddenly recurred. He felt that the sound of the tinnitus made his head burst, but he heard every word and sentence of the little lady clearly.

The little lady's request is not high, but the Beitang Military Hospital unconditionally cooperates with the fire.

"Little...little lady, but the No. 2 person in China, will actually call the phone. What kind of evildoer is going to be treated this time..."

"Jingle Bell....."

The phone rang again.

Dean Yuan answered the phone without hesitation.

"Dean Yuan, I am Mu Yunlong..."

Dean Yuan of Beitang Military Hospital was about to be scared to pee.

This is the highest head of China, and he actually called to arrange medical treatment.

"Who on earth has such a big face, who can make the highest number one and number two head of China call at the same time?"

Thinking of this, Dean Yuan was already fidgeting, but at this moment the phone rang again.

"Dean Yuan, I am Gobi, the highest commander of the Huaxia Army..."

Well, Dean Yuan admitted that he had been scared to pee!

After hanging up the phone, Dean Yuan immediately began arranging the transfer of all patients from the military.

Several old comrades who claimed to have made great contributions to China were recuperating in the military hospital, and were unwilling to transfer, and even took the lead in making trouble, but soon they discovered that they were wrong. The Beitang Military Hospital was directly taken over by the military .

The group of gangsters who made trouble was politely invited out of the hospital after heeding advice, and those who did not listen to the advice and insisted on making trouble were beaten and thrown out.

All patients in Beitang Military Hospital were transferred within fifteen minutes, and all medical staff received a holiday notice in the twentieth minute.

The Beitang Military Hospital was completely isolated.

At this time, the military's ambulance finally arrived at the hospital. After carrying Li Tian into the hospital bed, everyone was politely asked out of the hospital, temporarily restricted their freedom of life, and stayed in a certain building of the hospital.

At this time, the senior officials of China, the senior officials of the Dongying Island Country, and everyone already knew the news of Li Tian's injury, but they really couldn't understand how Li Tian was injured!

...

A military plane from Dongying Island Country's royal special plane took off from the military airport in Jingdong City, Dongying Island Country. Windsor, Liu Yihui, Ouyang Shiqing, Bai Jing and others were all on the plane.

At the same time, at the military airport in Kyoto City, Mu Yunlong, Xiao Niangzi, Kobi and others took China's most elite medical team on this empty No. 1 plane and took off!

...

"Ningbing, I feel terribly uncomfortable, I feel like I'm going to be split into two halves..." Li Tian's eyes began to blur, but his consciousness was still clear.

Chapter 4372: : Receive treatment (2)

Why did Li Tian get hurt? This thing sounds strange.

Back then, Situ Ningbing, Tang Xiaolong and Li Tian entered the stone gate of Mahulaka together.

Walking into Shimen, Situ Ningbing saw that Shimen was almost the same as Jinnaruo. It was a small cave of only ten cubic meters. There was nothing in this cave that was so dark.

Just when Situ Ningbing wanted to communicate with Li Tian, he saw Li Tian walk a few steps forward and went straight through the dark cave that never slipped away, as if Li Tian seemed to be able to perform wall penetration skills. magical.

Situ Ningbing wanted to catch up, but she found that she and Tang Xiaolong next to her seemed to have been casted with a hold technique. No, it was not a hold technique, at least their bodies could move back and forth freely, but Time stood still at that moment.

I don't know how long it took. Situ Ningbing only felt that she had only blinked a few times. Li Tian had already walked out of the dark cave. Li Tian, who had walked out of the cave, was extremely weak. What's important about this appearance is that Li Tian's strength has fallen sharply.

Coming out of the cave of Mahulaka, it is impossible for Situ Ningbing and others to teleport out of the underground palace. They can only come out of the well of currency!

All Tang Xiaolong's arrangements were made according to Li Tian's words, but Li Tian didn't mention a word about what happened behind the cave wall.

Li Tian did not say, Situ Ningbing did not ask, this was the tacit understanding they had formed over the years.

"Li, there is me here! Windsor and the others will be here soon!" Situ Ningbing said.

Situ Ningbing had no bottom in her heart. She was not a doctor. She didn't know what Li Tian was doing now, but she was also uncomfortable looking at Li Tian's pain. She could only stretch out her hand and grasp Li Tian's hand, constantly comforting Li Tian. .

...

Two hours later, the Huaxia Air Force One landed at the Beitang Military Airport. Military vehicles were already waiting at the airport. Mu Yunlong, Xiao Niangzi and others had no time to greet the Beitang military personnel and boarded the military vehicles. .

"Gobi, you stay here and wait for Duanmuying and the others. As soon as their plane arrives, they will come to the military hospital at the fastest speed!

"Commander Zhang, I hope that when Duanmuying and the others arrive at the military airport, it is best to impose a temporary martial law on the road from the airport to the military hospital so that they can reach the Beitang military headquarters as quickly as possible. Hospital. Of course, this is just my personal mind, provided that it does not affect the normal life of the people in Beitang!" Mu Yunlong said.

Having said that, Mu Yunlong's meaning is already very clear.

As the commander of the Beitang Army, Commander Zhang still has the ability to figure out what he wants, let alone the old army commander Mu Yunlong has spoken so directly!

Commander Zhang and Gao Bi stayed at the airport, while Mu Yunlong, Xiao Niangzi and their medical expert team boarded a military vehicle or a bus and drove quickly toward the Beitang Military Hospital.

The road was unobstructed, and there was no other private vehicle on the road except the Beitang government vehicle and Beitang military department vehicle that were on duty.

In less than 20 minutes, the car had driven into the Beitang Military Hospital compound.

Agni Huo, President Yuan of the Military Hospital and others were already waiting.

Now, only Li Huo and Assistant Li Huo knew the identities of Li Tian and others, not even Dean Yuan.

Lihuo received Mu Yunlong and the little lady and got off the car. Seeing that Mu Yunlong was about to bring the medical team he brought into the hospital building, Lihuo summoned up his courage and said: "Old legion commander... Master Tang Xiaolong has an order and wants to enter the hospital. The building must be approved by Master Situ Ningbing, and he refuses to be diagnosed and treated by anyone. Therefore, these medical personnel..."

Mu Yunlong still had some impressions of Agni. He also knew that Tang Xiaolong was executing Xiao Litian's orders nine out of ten. This showed that Xiao Litian must have something unspeakable and inconvenient for outsiders to know, so he would not embarrass Agni.

"Okay, then you can call Situ Ningbing and say that Mu Yunlong and the little lady are here! As for these medical experts, please ask them to rest somewhere else temporarily, and then ask them when you need it. Come here!" Mu Yunlong said.

With a sigh of relief, Lihuo quickly dialed Situ Ningbing's phone.

The call was connected without any obstruction, but it was still required that only Mu Yunlong and the little lady be allowed to enter the hospital building, and even Agni Huo, the city owner of Beitang, could not enter the hospital building.

Mu Yunlong and the little lady took the elevator and quickly came to the intensive care unit on the top floor of the hospital.

When Mu Yunlong walked into the ward, the expression on his face was very unnatural. Mu Yunlong was old, and he treated his grandsons and great grandsons more seriously. If Li Tian had two shortcomings, he might not be able to bear it. of!

"How is he now?" Mu Yunlong asked in a trembling voice.

Situ Ningbing quickly stood up, invited Mu Yunlong to the hospital bed, and said: "Very unstable, his body is...very weird! Before you came in, his mentality was clear, but just now, he suddenly I fell into a faint!"

"Are there any symptoms? Why not let the doctor treat it?" the little lady asked.

"This is Li Tian's request. He will not allow any doctors other than Windsor and Liu Yihui to diagnose him, and we have no way!" Situ Ningbing sat in front of the bed, reached out and grabbed Li Tian's hand, and took Li Tian's She handed her hand to the little lady and said, "As for the symptoms, you can reach out and touch them!"

The little lady's face was full of doubts, she stretched out her hand and pressed it on Li Tian's palm. As soon as his hand touched Li Tian's palm, the little lady shrank back abruptly as if touching an electric current.

Seemingly realizing that she was rude, the little lady grabbed Li Tian's hand again.

"It's very strange. I have never seen such a strange symptom. How can I feel that Li Tian's whole body is shaking so much!" said the little lady.

The little lady is right. If you cut a piece of Li Tian's skin and observe it under a microscope, you will find that Li Tian's body cells are rapidly dividing, dying, and dividing.

Mu Yunlong grabbed Li Tian's hand with his palm like a bark, and he could also feel Li Tian's strangeness, but the old army commander was not as surprised as the little lady.

"Little lady, since Xiao Litian wants to block the news, let's cooperate with Xiao Litian, first check the Beitang Military Hospital, and destroy all the eavesdropping and camera systems. Do not allow any audiovisual materials to flow out. !" Mu Yunlong said.

...

Four hours later, the women's army led by Duanmuying arrived in Beitang, accompanied by the two children of Windsor, Liu Yihui and Li Tian!

Four military vehicles cleared the way and a group of people quickly arrived at Beitang Military Hospital.

Chapter 4373: : Receive treatment (3)

Li Tian woke up from the pain again. Looking at the familiar faces in the ward, Li Tian felt very relieved.

There were still some tears in the eyes of the two little guys Li Bai and Li Mu. The little guys didn't know what happened to Li Tian. What they were most worried about was whether Li Tian would ignore them suddenly.

"Don't worry, I'm fine!" Li Tian's spirit was a little sluggish, but he still cheered up and said: "Well, I do have a problem now, so I invite you all here."

"I fainted just now. When the fainting passed, I had a dream. Although this dream is very short, it is very happy for me!"

"I am willing to take out my dreams and share them with you!"

"Actually, you all know that I want to go to the Underworld, because there are still many things I need to do, but I am also reluctant to leave the earth world, because here are my favorite family and friends."

"But I do not have enough skills to do so. I can't stay in the earth world and go to the underworld, so recently I am very distressed, especially when I get some information that is not conducive to the earth world, I am really very, very painful."

"But in this dream, my pain was resolved. I dreamed that I had one share for two. I became two Li Tian. One of them stayed in the earth world and lived with my family. A Li Tian went to the Nether Realm and kept getting stronger!"

Li Tian's family, friends, and relatives all listened to Li Tian's speech quietly. Although they didn't know why Li Tian suddenly talked about this topic, they could understand the pain in Li Tian's heart.

Especially the senior Chinese leaders such as Mu Yunlong, Little Niangzi, and Duanmuying. They already knew that the corpse had escaped back to the nether world with Li Tian's Hong Zhan. They also knew that Li Tian must go to the nether world to become stronger, otherwise once the corpse returning to the earth world to retaliate again, then the earth world must be inevitable to be destroyed.

While speaking, Li Tian's face showed a trace of pain, his body suddenly shook, and he felt that Li Tian's body seemed to have lost control.

But Li Tian quickly adjusted his condition and continued: "Okay, I'm done, now I am going to receive treatment! Situ Ningbing, you stay with me, Windsor and Liu Yihui, you two are going to treat me Xiaolong, please ask everyone to go out, no one is allowed to come in until the treatment is over!"

A trace of hatred flashed in the eyes of Duanmuying, Bai Jing, and Ouyang Shiqing!

Yes, it's hatred!

Among Li Tian's women, Xueji, Liu Jimeng, and Ye Meijing still stay in Kyoto, but here are Li Tian's four women. They even let Situ Ningbing stay with him. These women feel that Li God is too unfair to them.

But now Li Tian is a patient. Seeing the painful expression on Li Tian's face, her body kept trembling. These women can only follow Tang Xiaolong out of the ward!

Mu Yunlong grabbed Li Tian's hand and said, "Little Li Tian, I know you are a man of indomitable spirit. If you really have to leave, grandpa, I will support you! I will train Li Mu and Li Bai to be as good as you. Man! If the earth world is really in danger, my grandson and grandson of Mu Yunlong must rush up first!"

Seeing everyone else walking out of the ward, Li Tian stretched out his hand to send Windsor, Liu Yihui, and Situ Ningbing into the space of Void Yaksha, and sent all the prepared medical equipment into Void Yaksha. Then he entered the void. In the space of Yasha.

Now there are only three small Yashas in the space of Void Yaksha, Situ Ningbing, Windsor, Liu Yihui and Li Tian, as for the others have been sent by Li Tian into the space of the Qiong Lance of Heaven.

"Windsor and Liu Yihui are very important. I need to tell you in advance what pictures you will see next, and after seeing these pictures, in order to keep secret, you two must stay in this space. At least until I think you can't leave, you absolutely can't leave this space."

"Even, you will follow me to the Netherworld, and you will never meet the earth world again..." Li Tian said seriously.

Windsor and Liu Yihui looked at each other and nodded at the same time.

Windsor said: "My god, you saved my life. If you didn't have you, I would have died before the end of the world, so don't say let me stay in the space of Void Yasha forever, even if I let me go for you now. I would die too!"

It is precisely because Li Tian went to Chenzhong City to bring Windsor out at the wedding, Windsor and his friends can continue to play happily in the last days.

Later, after the end of the end, Shen Tao went to Chenzhong City again, just for the city lord of Chenzhong City, and those friends of Windsor also got some reuse in Chenzhong City. In the past ten years, they have successively married and had children.

Liu Yihui glanced at Windsor, took a look at Windsor, and said, "Windsor, you have finished speaking the nice things, so what am I talking about? Brother, if you were... well, if you didn't come to the hospital, I would live It shouldn't be a problem to go down."

"But you have a good understanding of me, at least let me live and be fulfilled in these ten years. These are enough. If you are going to the Underworld, maybe there is a headache, maybe I can help you . Go to the Underworld, count me!"

No need to say anything!

The cohesion of the Li Tian Heavenly Realm Legion, even if it is another ten years, remains the same.

Of course, Li Tian knew that the two goods, Windsor and Liu Yihui, had no family members in the earth world until now, otherwise Li Tian would not necessarily take them away!

Li Tian's head hurts more and more!

This kind of pain has far exceeded Li Tian's ability to endure!

Li Tian gasped for breath. Every word he said would become extremely difficult. He grinned, his teeth had broken his lips, the blood spread around his lips, and a **** smell spread in Li Tian's mouth. .

"Winsor, I...my body is about to have two parts...every cell in my body is dividing rapidly, and soon...you will soon see two Li Tian...but, This...it's so **** painful! I'm worried that there will be an accident, so I have to invite you two over!"

Clone?

Hearing this news, I don't know if it was Windsor and Liu Yihui who were taken aback, even Situ Ningbing was shocked by the news and could not speak.

"Liu Yihui, I know that you designed a medicine that can make people lose their pain and consciousness in an instant. Now... give me a shot first!" Li Tian said.

Liu Yihui nodded, but before he started, suddenly Li Tian's body suddenly began to pull from the middle of his head to the two sides, as if to split Li Tian's body in two from the middle.

Chapter 4374: : Clone Li Tian (1)

"what"

Li Tian let out a heartbreaking scream, his body is constantly splitting, and the two halves of the body are linked together like a continuous caramel, and the lotus is broken.

But these are not silk, but flesh and blood, bone marrow!

Li Tian's body was trembling, and his body was struggling involuntarily because of the severe pain.

Windsor couldn't say anything shocked by the blood in front of her. Windsor's body was trembling slightly, her lips trembled, and she wanted to speak but couldn't say anything.

Liu Yihui yelled and rushed up with the needle, trying to give Li Tian a needle to inject a pain-relieving medicine, but when Liu Yihui was less than one meter away from Li Tian, the energy fluctuations on Li Tian suddenly began to suffer. Under control, the powerful energy fluctuations directly bounced Liu Yihui out.

"what"

Li Tian was screaming.

For a strong man like Li Tian, he has experienced too many desperate battles, and his body has long been scarred. For Li Tian, no matter how severe the trauma is, he cannot make him scream in such pain.

But now it's different. Every cell in Li Tian's body is dividing, and Li Tian suffers once every time a cell is divided. You must know that the human body is composed of 40 to 60 trillion cells. To bear the accumulation of more than 40 trillion times of suffering.

Situ Ningbing violently exerted pressure and used pressure to control Li Tian's body to prevent him from moving easily, and then shouted at Liu Yihui: "Quick!"

When Liu Yihui was ejected, he accidentally stuck the needle on his left leg. Although the medicine was not injected, the star-point medicine on the needle tip had already made Liu Yihui's left leg numb and soft. He controls it himself.

Hearing Situ Ningbing's shout, Liu Yihui got up from the ground, dragged his legs and jumped to Li Tian, and pierced the needle without hesitation.

I have to say that Liu Yihui is a genius. The potion developed by this guy can instantly bring down a powerful person like Tang Xiaolong. This shows how powerful this potion is.

The medicine in the needle tube was pushed into Li Tian's blood vessels, Li Tian's body gradually weakened, and Li Tian's eyes became more blurred.

Puff!

Li Tian fell on the hospital bed!

This is a special hospital bed. The width of the hospital bed is more than 1.8 meters. It looks like a double bed room in a hotel.

Lying on the hospital bed, Li Tian's body did not stop splitting. Blood flowed from Li Tian's split body. Windsor and others could see Li Tian's internal organs through the cracks in the split body.

This is definitely a miracle in the history of human medicine on earth, no, it should be said to be a miracle.

At this time, Li Tian looked like a Siamese man, his appearance was somewhat horrible!

If it is injured, with Windsor's ability, Li Tian's wound can be quickly healed. Even if an organ in Li Tian's body is destroyed, Windsor can use her ability to resurrect this necrotic organ. come.

It's a pity that Li Tian's body is not injured, but is constantly splitting. If Windsor rushes to treat him, Li Tian's split body will stop. Then, poor Li Tian will really be a monster.

Windsor is helpless!

Time is passing, and it has lasted more than an hour from Li Tian's body split to the present.

In the eyes of Windsor, Situ Ningbing and Liu Yihui, Li Tian has indeed become a monster now. The distance between the two eyes on Li Tian's head and cheeks has exceeded two inches, and between the two eyes, it has appeared in a blur. The third eye, but this eye was in flesh and blood, which made him shudder.

At the same time, Li Tian's neck and abdominal cavity are widening, but this is not getting fat, but constantly splitting and tearing.

At the same time, Li Tian's really had a third leg!

This third leg is not a man's third leg in the traditional sense, or a **** real leg.

However, this leg is constantly getting thicker and splitting constantly, as if to separate the left and right legs!

...

Outside the military hospital ward, Mu Yunlong, Xiao Niangzi, Duanmuying, Ouyang Shiqing and others were sitting on the benches, but Tang Xiaolong, who was in charge of guarding the door, walked around anxiously.

The ward was extremely quiet, more than an hour had passed, and their hearts were all anxious.

Li Mu and Li Bai talked several times and wanted to ask Duanmuying and Baijing Litian about the situation, but neither of these two mothers paid attention to the two bear children.

No one can tell exactly what is going on with Li Tian now, everyone is silent, and the air is full of depression.

"I'll go outside and smoke a cigarette!"

Kobi couldn't stand this depressive atmosphere at first, and turned and walked downstairs.

"I will go with you!"

The little lady chased after her and said.

Tang Xiaolong clenched his fists, let go again, clenched and let go.

The eyes of Duanmuying, Bai Jing, and Ouyang Shiqing stared at the door of the ward!

Mu Yunlong's two hands were holding one of the two children, Li Bai and Li Mu. From time to time, Mu Yunlong's involuntary hand would clenched tightly, and the two children sensibly stretched out the other hand to grasp Mu. Yunlong's arm.

...

In the space of Void Yasha, two hours have passed.

Under the gaze of Situ Ningbing and others, Li Tian's body had gradually completed its split. The two Li Tian's bodies were temporarily connected by some filamentous flesh and blood, but the split had basically stopped.

Windsor came to Li Tian's side, put his hands on Li Tian's body and began to check Li Tian's body.

Very well, Li Tian's body is all intact, that is, his body is very weak, the blood content in the body is somewhat insufficient, and blood transfusion is needed, but this is not a difficult task for the military hospital.

Windsor started to check the clone Li Tian again, pressing his hands on the body of the clone Li Tian. This check also found that during the splitting process of Li Tian, a certain organ in the body was not split and reorganized!

Windsor didn't dare to neglect, and immediately began to use her power treatment.

Ten minutes later, Windsor wiped the sweat from his forehead, and a smile appeared on his face.

Windsor checked the clone Li Tian several times in detail, and confirmed that all body functions were completely normal, which was relieved.

Snapped!

Snapped!

Serialized Li Tian's deity and clone Li Tian's last silky flesh and blood broke. Two identical Li Tian lay on the hospital bed, as if they were twins.

Unfortunately, this picture is really unsightly.

The hospital bed was stained with blood, and when Li Tian's body was split, the clothes on his body had already been shattered to pieces.

Eh, but Li Tian's male weapon was flawless when it split!

Seeing this picture, Windsor's face... involuntarily red!

Chapter 4375: : Clone Li Tian (2) (End of the World)

The two Li Tian slept very well.

Li Tian's deity was left in the space of Void Yacha, while Li Tian's clone was sent out by Void Yacha, lying on the hospital bed.

As for transfusion and blood transfusion, Liu Yihui has his own professional to handle it.

Void Yasha continuously sent Liu Yihui out and into the space of Void Yasha.

After receiving the news that Li Tian was safe, Mu Yunlong and the others finally took a sigh of relief. They entered the ward and saw Li Tian who was sleeping, they were completely relieved.

Now that they came to Beitang City, Mu Yunlong, Xiao Niangzi, and Gao Bi inspected Beitang by the way and fully affirmed the work of Beitang's leadership team and others, and at the same time gave important instructions for the development of Beitang.

Intentionally or unintentionally, Mu Yunlong also expressed concern about the belief in Li Tian as a **** by Beitang residents. After spending a day and night in Beitang, Mu Yunlong and other major Chinese leaders returned to Kyoto by special plane.

Duanmuying, Ouyang Shiqing, Bai Jing and their two children remained in the hospital with Li Tian.

When Dean Yuan of Beitang Military Hospital later learned that it was Mu Yunlong's grandson Li Tian who was sent to the hospital, he was completely relieved.

For ordinary people in China, they may not know how awesome Li Tian is, but for the dean of the military hospital and the dean of the Beitang military department, who is not a very low position, he naturally has His channels know that Li Tiancai is the actual controller of China.

After Li Tian stayed in the military hospital for three days, he was completely alive and well. At this time, Li Huo, Commander Zhang, Director Yuan and others had the opportunity to visit Li Tian in the ward.

For the love of the people, Li Tian has always refused, and thanked them for taking care of themselves, which is enough.

The deity of Li Tian has also completely returned to normal in the space of Void Yasha, but the deity of Li Tian found that he can no longer use one mind and three purposes. The deity can only use one mind and two purposes, and the clone can only be used for one mind. This is probably a side effect of the clone!

And Li Tian's cultivation level also fell to the ninth level of the cultivator peak realm because of the clone, and teleportation is temporarily absent.

The biggest difference between clone and clone is that if it is a clone of Li Tian, then the cloned Li Tian only looks and body genes are exactly the same as Li Tian, but the memories of the two are completely different, as for the cultivation and so on.

The clone Li Tian split from the body of Li Tian's deity.

Not only did the two look exactly the same, even Situ Ningbing couldn't see the difference. The memories in their minds were also the same, and the most important thing was that they had feelings of mind.

What's more important is that no matter who the two Li Tian cultivates, the cultivation level of the other Li Tian will be improved. Of course, the side effect is that the difficulty of cultivating is also multiplied!

Because Li Tian planned to take Situ Ningbing, Tang Xiaolong and others to the Netherworld, the Heavenly Qiong Spear and the Three Little Yachas all followed Li Tian.

As a result, the avatar Li Tian's strength is weakened. There is no way, but the ninth-level master of the cultivator is enough to make Li Tian dominate the earth world!

Besides, Li Tian still has the spiritual source in his hands, and it is only a matter of time before Li Tian cultivates to the realm of the venerable.

...

Everything has been decided!

After another three days, Duanmuying and others also left Beitang and returned to the island country of Dongying. The clone Li Tian took the two children to Kyoto City, and then the clone Li Tianhui took Xueji, Liu Jimeng, Ye Meijing and others. Then from Kyoto City to the Hawaiian Islands.

As for Li Tian's deity, he returned to Tianshan under the secret **** of Situ Ningbing and Tang Xiaolong, and went directly to the gate of the restricted area.

Long Yin has been waiting for Li Tian at the gate of the restricted area for more than a month!

When Long Yin saw Li Tian, he immediately felt that Li Tian's cultivation base had fallen below the realm of the nobleman, and Long Yin couldn't help being surprised.

"Li Tian, what...what is going on? Is there anyone in this earth world who can endanger you?"

"Hehe, I'm here to invite you to my wedding! Half a month later, the Hawaiian Islands!" Li Tian completely ignored Long Yin's surprise and said.

"Wedding? Are you going to get married? Are you crazy? We are going to the Nether Realm. When we go to the Nether Realm and return to Earth, we don't know what year and month it is. You are harming others and yourself!" Long Yin said.

Seeing Li Tian's resolute attitude, Long Yin was also helpless.

Long Yin did not believe in the love between men and women, he believed in the love between men and men.

Unfortunately, Li Tian is a straight man!

Li Tian knew that he hadn't spent much time in the earth world, and going to the Netherworld with the strength of his ninth-level cultivator was probably dangerous.

After telling Long Yin the news of his marriage, Li Tian teleported into the space of Void Yasha, hid and began to practice.

Then Long Yin followed Situ Ningbing and Tang Xiaolong teleported to the Hawaiian Islands.

...

Half a month is a long time, but if I really want to get busy, the time is still a bit rush.

Fortunately, as a man standing on the top of the world, as long as he has money and power, things are still very simple to manage!

Liu Baoming, Director of the China Intelligence Office, has been tasked with calling Li Tian's relatives and friends over the past two weeks and inviting them to attend Li Tian's wedding in Hawaii.

Li Tian is one of the few local tyrants in the world. Of course, all round-trip air tickets and hotels are borne by Li Tianlai.

As for the important people, Tang Xiaolong, the world's fastest courier brother, delivered the invitations, and the speed was swish...

Although Li Tian is not the head of state, it is still a matter of face to receive Li Tian's wedding invitation in person.

But for some people, this is not a pleasant thing, such as the President of the United States and the President of Russia. They wake up and find a wedding invitation on their bedside.

...

The wedding started as planned.

On this day, almost all the capitals of the nations of the earth world arrived in Hawaii to attend Li Tian's wedding.

On this day, almost all monks in the earth world arrived in Hawaii to attend Li Tian's wedding. this day,.....

Those who can receive Li Tian's invitations are definitely the most face. Those who can receive invitations from Director Liu's phone also feel good about themselves. As for those who are completely uninvited, they will not feel ashamed. After all, such people are also Not in the minority.

The reception of these big people is naturally left to the little lady and others...

Special planes, luxury yachts, luxury cars, helicopters, the world's most luxurious factors are here...

This is the most luxurious and grand wedding in the history of humanity in the earth world...

At the same time, it is also the most beautiful wedding for brides on earth!

Looking at the seven beautiful women like Situ Ningbing, Xue Ji, Duan Muying, Ouyang Shiqing, Bai Jing, Liu Jimeng, and Ye Meijing, Li Tianha rubbed and rubbed, even his two sons Li Both Mu and Li Bai felt that their father was too embarrassed.

There are not a few men with this kind of mentality, and they can't even stand in this position today.

Personal strength The earth is the world's most powerful, wealthy and wealthy, with dozens of islands of different sizes, and behind the behemoth China, Li Tiancai is the winner of life!

Envy, extreme, hate, but what can we do?

"Lao Tzu's name is Li Tian! I'm not convinced to bite me!"

Chapter 4376: : First Lin Nether

The clone Li Tian stayed in the earth world, and Li Tian's deity took Situ Ningbing, Xueji, Tang Xiaolong, Long Yin, Liu Jimeng, and Ye Meijing to the Netherworld through the gate of the restricted area!

...

The clear sky is like blue, and the red sun is clear!

A few unknown birds swept across the sky quickly.

Netherworld, the gate of the forbidden zone.

The door of the restricted area under the sun is full of sacredness, and a faint soft light shines on the door of the restricted area.

There are a total of eight guards of the gates of the restricted area guarding the gates of the restricted area from the four sides in the south, east, north and west.

For thousands of years, the gate of the restricted area has been standing in this valley.

If it weren't for the fact that four visitors from the earth world entered the Nether Realm through the gate of the Forbidden Zone 13 years ago, bringing some vitality to the Nether Realm, the people in the Nether Realm would have almost forgotten the existence of the gate of the Forbidden Zone.

Thirteen years ago, the four elders called the Four Elephants passed through the gate of the restricted area and came to the Netherworld.

If you say you come, come, after all, there are not as many as the four of you in the Underworld, and there are not too many of you four.

For example, their masters who only have a cultivation base are not very good in the Netherworld. If they keep a low profile, it is completely possible to get mixed up.

However, the old man of the four elephants passed through the gate of the forbidden area. First, he wanted to explore the secret behind the gate of the forbidden area. The second was to find a way to restrain the three corpses. The third was to guard the gate of the forbidden area in the Netherworld.

The elders of the four elephants can be said to be cultivating geniuses, and they gradually understood the true meaning of cultivation in the Nether Realm during the battle with the three corpses.

One year after the end of the world, in the process of recovering and healing their injuries, their cultivation bases have improved by leaps and bounds. Before crossing the gate of the forbidden zone, among the four of them, the ill old white tiger's cultivation base has reached the third apprenticeship level.

This strength can definitely be said to have been a small part of the peak in the earth world.

But in the Netherworld, then everyone is stunned.

However, the four-xiang elders who first came to the Netherworld had no intuitive understanding of the cultivation strength of the Netherworld. The first thing they encountered at the gate of the forbidden zone were some first- and second-tier cultivators.

These first-level and second-level cultivators are numerous and powerful, and they have great strength behind them. Of course, they don't put the Sixiang elders in their eyes, and want to tap

something good from the palms of the Sixiang elders. As a result... these cultivators The first- and second-level guys were severely cleaned up by the four elephant old man.

Being misled by the practitioners who were defeated by them, the old man of the Four Elephants believed that the strongest in the Netherworld was probably the seventh or eighth level of the practitioners.

It is this arrogance, coupled with the deliberate mischief of those first- and second-level practitioners, deliberately boasting that the old man of the four elephants is a man standing on the top of the earth world, and told the old man of the four elephants if he wants to obtain the right to guard the gate of the restricted area. You have to go to the Shuanghuangzun.

These four elephant old men are too innocent, and they are really looking for the Frost Emperor under the temptation of those first- and second-class practitioners.

As a result, these four guys were sadly reminded.

They found Emperor Yu Frost and asked the Emperor Frost to hand over the gate of the restricted area to their four old guys to guard, and those first- and second-grade cultivators deliberately boasted that the old four elephants came from the earth world in front of the Frost Emperor. A man who can stand on top of the earth world.

Thus angered Emperor Yu Shuang.

Emperor Yu Shuang is a hapless guy.

This guy used to be a domain master, and was once a stronger existence than the current top twenty domain masters, but he was fighting against a super fierce from the earth world about 7,000 years ago. This guy was severely injured and had a cultivation base. Continuously plummeting, directly fell below the realm of the domain master, and finally stayed at the sixth level of the Venerable.

If it weren't for the exceptional talent and determination of Emperor Frost Emperor, I am afraid that Emperor Frost Emperor would never be able to set foot on the ninth-level peak realm of the Lord again.

But for Emperor Yu Shuang, the earth world was a shadow that could never be erased in his heart.

He did not dare to think about the powerhouses of the earth world, nor did he want anyone to mention the earth world before him. Even if the gate of the forbidden zone was built in his territory for thousands of years later, Emperor Frost would deliberately stay away from the gate of the forbidden zone. .

The words of the four elephants elders were in the ears of the Frost Emperor, and it was tantamount to mocking him.

The angry emperor Yu Shuang just used coercion to kneel down in front of him oppressively.

His anger has not been eliminated. At the order of the Frost Emperor, the old four elephants were imprisoned in the iron cage as a monkey, and then under the guard of the Frost Emperor's followers, he was dragged into the kingdom of the venerables of the Netherworld. exhibition.

Emperor Yu Shuang threw the four elephant elders into the desert mines of the Kalai Desert, and asked the four elders to dig for him for five hundred years before forgiving them.

After that, Emperor Yu Shuang ordered several of his masters to guard the gate of the restricted area.

And told these guardians that the SLR came from the earth world through the gate of the forbidden zone to the nether world, no matter who it is, first have a fight, and then throw it into the mine pit of the Kar Desert.

As a result, the corpse was also a tragedy ten years ago.

After finally moving the earth world and fleeing back to the Nether Realm, this guy had not had time to be happy, he was violently beaten by those guardians of the noble level.

If the corpse was not for the corpse clan of the Netherworld, and he voluntarily sent the red cut to the frost emperor, I am afraid he would have no way to avoid being thrown into the mine pit of the Lycra Desert.

Naturally, Li Tian didn't know these things that happened in the Netherworld more than ten years ago.

...

Huh!

Li Tian felt a white light flashing in front of him, and every few seconds, the distorted feeling in Li Tian's body disappeared.

Opening his eyes, Li Tian found that he was already in the Netherworld!

"This should be the Netherworld!" Li Tian thought in his heart.

Immediately, Li Tian brought Tang Xiaolong out of the space of Void Yasha. Before Li Tian had time to bring out Situ Ningbing, nor did he have time to bring the Third Young Master from the space of Qiong Spear of the sky, there was a flash of light around him. A few figures passed by.

Huh!

Huh!

Huh!

The eight powerful masters teleported to Li Tian and the others, and surrounded Li Tian and others.

Li Tian's eyebrows couldn't help but raised slightly. He first came to the Nether Realm. Before he had time to take a good look at the scenery of the Nether Realm, he was immediately surrounded by the venerables of the Nether Realm and looked at their unfriendly eyes. The mood is extremely bad.

More importantly, although Li Tian couldn't understand the strength of these venerables, their cultivation level was obviously stronger than that of Li Tian and Tang Xiaolong.

"Hey, in the past ten years, someone has finally come from the earth world, hahaha, in the past ten years, the brothers have been trapped in this place where the birds do not shit, and they are going crazy. Brothers first greet "A sneer with a scorpion on his mouth, and a white long-haired venerable sneer on the sneak.

Powerful pressure fell from the sky!

"The Venerable is a strong person above the second level..."

Before Li Tian and Tang Xiaolong had time to explain, they knelt instantly!

Then, these seven or eight Venerables turned out to be like rogues, and they really beat and kicked Li Tian and Tang Xiaolong.

Punching and kicking are both important, but it is very humiliating.

Chapter 4377: : It's a big deal

Punching and kicking are both important, but it is very humiliating.

Under the eaves, Li Tian had to bow his head. Li Tian was anxious to come to the Netherworld. He knew that his cultivation of the ninth-level peak was not enough to see in the Netherworld, and he was ready to suffer.

However, he did not expect that the gate of the forbidden area of the Netherworld was guarded by someone. He was beaten up involuntarily when he arrived in the Netherworld.

Li Tian estimated several times in his mind, and joined in to bring out the powerful and vicious dogs from the Qiong Spear of Heaven, such as Situ Ningbing and the Third Young Master, then would he have a chance of winning today?

Maybe there is, as long as Li Tian is given a chance, but this way the loss will inevitably be great!

The eight guys hit Li Tian seventy-two punches and kicked thirty-six kicks.

These fist Li Tian is not the one who suffers, and the humiliation suffered today will surely be doubled in the future!

"You have a problem, you have a major event!" Li Tian thought with a sneer in his heart.

After a few minutes, those sages stopped.

The White-haired Venerable with a stubborn mouth looked at Tang Xiaolong's angry expression, kicked Tang Xiaolong, and said with a sneer: "Is it not convinced? Venerable first-level strong, very awesome? Me? Tell you, this is the Nether Realm! What is emphasized in this Nether Realm is that the weak eat the strong, and the strong are respected."

"If you have the strength now, you kill me now, I have no regrets! It is a pity that you do not have the strength now, then I don't care what kind of power you are in the earth world, in the underworld you have to give me your dragon , It's a tiger, you have to lie down for me!"

The hero doesn't suffer from immediate losses. Li Tian believes that if he and Tang Xiaolong anger these guys, then these guys might choose to kill them without hesitation.

Li Tian gave Tang Xiaolong a wink, so Tang Xiaolong must hold back.

Venerable White Haired Venerable White Hair was very satisfied with Li Tian's performance. He stabbed Li Tian with his toe and asked: "Now I ask you, do you have any valuable treasures you would like to hand over?"

"Like the guy who came back to the Netherworld from the earth world ten years ago, he called the corpse, he just cut off his treasure red and dedicated it to Emperor Yu Frost, so that he could get his freedom. !"

"Later, that fellow turned out to be the confidant of Emperor Frost, and was given guidance from Emperor Frost. In only ten years, he has reached the third-level realm of the Venerable... Tsk!" There was a trace of disdain on the reader's face, but Li Tian could hear a sour feeling.

"Now, if you have any treasures to teach, we can follow the precedent and forgive you, otherwise, you will be prepared to go to the mines of the Laika Desert for five hundred years! If you are not dead after five hundred years, then say You can be free if you are uncertain," said Venerable White Mao.

Li Tian meditated for a while.

In just a few words, Venerable White Hair made Li Tian hear several key points: First, the corpse really escaped back to the Nether Realm; second, the power behind these Venerables turned out to be Emperor Yu Frost. ; Third, Hong Zhan was dedicated to Emperor Yushuang by the corpse; third, now the corpse has the third-level cultivation base.

If the corpse meets Li Tian and others at this time, then Li Tian and others will inevitably suffer revenge from the corpse. Maybe Li Tian and others have not left the kingdom of the Frost Emperor before they may die. Nether.

In an instant, Li Tian decided to go to the mine in the Laika Desert first.

The corpse would definitely not be in this pit of the Lycra Desert. In this way, Li Tian could first avoid confronting the corpse when he first came to the Netherworld, and secondly, Li Tian could use this broken time to get familiar with the environment of the Netherworld.

When he arrived at the Lycra Mine, Li Tian could find the opportunity to ask the Third Young Master Nether to see how the emperor fathers behind the Third Young Master are related to Emperor Yushuang.

"Big...sir, I...I have treasures in my hands...!" As he said, Li Tian opened the skin bag he carried with him and sent a few corpse crystals as treasures to Venerable White Hair.

Venerable White Hair seemed to have received a great insult. He stretched out his hand to **** Li Tian's skin into his hand, grabbed the corpse crystals in his hand, and instantly crushed it into pieces.

"Poor ghost, this is just a corpse crystal from the corpse clan raising a corpse, this kind of garbage can also be regarded as a treasure?"

Venerable White Hair emptied his skin and found nothing useful. He couldn't help getting more angry in his heart and asked the other Venerables to pull out Li Tian and Tang Xiaolong and search their bodies.

But Li Tian's treasures are all in the space of Void Yasha. Li Tian and Tang Xiaolong's skins contain some dry food and drinks from the earth world, and there is nothing else.

"Poor ghost, it really is a poor ghost! If so, then you just wait to go to the Laika Desert. When you reach the **** Laika Desert, you will know that the poor ghost is not qualified to live in the Underworld!" Bai Mao The Venerable said.

After speaking, Venerable White Hair disappeared instantly, and Venerable White Hair appeared again after about a few minutes.

Then Venerable White Hair sat aside and began to practice, completely ignoring Li Tian and Tang Xiaolong.

About ten minutes later, a dark and chubby object flew over in the sky. From the appearance of this object, it was more or less similar to the airship of the earth world.

However, this object flies extremely fast, several times faster than the planes on the earth!

The object flew over Li Tian and Tang Xiaolong, and a circular hole appeared in the middle of the object's belly, followed by a strong suction force that instantly sucked Li Tian and Tang Xiaolong from the ground.

Immediately afterwards, Li Tian and Tang Xiaolong had appeared inside the object. Li Tian and Tang Xiaolong seemed to be objects thrown into the pipe, flowing continuously along the smooth and suction pipe.

About seven or eight seconds later, when the pipe came to an end, Li Tian and Tang Xiaolong were thrown out.

A Venerable has already been here waiting for Li Tian and Tang Xiaolong.

"I really didn't expect that it turned out to be a ninth-level cultivator and a strong one at the first level. It seems that the corpse guy's words about whether there are strong people in the earth world are all lies. Fortunately Emperor Yu Shuang did not listen to him and went to the earth world without authorization..."

"It's a pity that you are not qualified to enter the Netherworld! If you come here, you will be safe. Recently, there is a shortage of people in the Laika Desert. It shouldn't be a big problem with your bodies for five hundred years!" The venerable stretched his leg and kicked Tang Xiaolong and Li Tian a few feet, as if confirming that Li Tian and Tang Xiaolong were really strong.

Speaking of this, the venerable slammed two metal bars on the wristband and buckled them on the arms of Li Tian and Tang Xiaolong, respectively, and said: "This is your code name! The Laika Desert is not peaceful, this identity mark can So that you will not be beheaded by the people of the Frost Emperor, as for the opponents of other forces...hehe, please ask for more blessings!"

Chapter 4378: : Code 9527

"You'd better not try to get rid of this code name from your body. If you don't have these code names, then anyone can kill you! By then, you will have fewer chances to survive in the Laika Desert!" The Venerable said.

Li Tian looked down at the metal circle on his arm. The metal circle didn't have the slightest beauty. It was clasped on the arm and there was a little clasp. On the front of the metal circle were a series of strange symbols, and the back was 9527 numbers!

The code name on Tang Xiaolong's metal circle is 9528!

After flying for about three hours, the object stopped and then the object opened a door. Li Tian and Tang Xiaolong were directly kicked off by the venerable.

"Here, good luck to you! I hope you don't die too soon!" After the venerable said, he flew away with the dark stuff.

It was noon at this time, the red sun was blazing, the desert was dying hot, and the temperature on the desert surface had reached fifty or sixty degrees.

Li Tian and Tang Xiaolong were full of yellow sand in front of them, and there was a dilapidated earth city on the yellow sand.

A man walked out of Tucheng with a thick blanket all over his body and only exposed a pair of eyes. The man looked at Li Tian and Tang Xiaolong and said with a cold snort, "Follow me into the city!"

There is no need for words. After the man took Li Tian and Tang Xiaolong into Tucheng, he led Li Tian and Tang Xiaolong to a low room with all sides exposed.

Apart from a wooden bed, a low chair, and a dilapidated table, there was no other furniture in this room. On the dilapidated table, there were seven or eight rolls of animal skins.

"Old lame, let's bring it to you! This time it was a good one. There is a strong person of the first level of the Venerable, and a master of the ninth level of the cultivator!" The man wrapped in a blanket shouted to the earthen house.

The lame man seemed to have something on his mind. He didn't lift his head, and said disdainfully, "What's so great about the Venerable. What can I do if I was a powerful fifth-level Venerable? This is the Laika Desert. Among the 100 people who came here, it would be nice to have one going out alive. And the end result of the one going out will be the same as me! I still have to come back!"

"Blanket, you go get two sets of tools, Huangzun Mansion has been urging things tightly recently, and I will personally take them to the mine in a while!" said the old lame man.

The young man named blanket nodded slightly, took out a set of clothes made of animal skins and a set of tools made of unknown materials from the earth hut next door, and threw them in front of Li Tian and Tang Xiaolong.

The blanket said: "From today, you are the private property of Emperor Frost. Only after you have worked in the mines of the Laika Desert for five hundred years can you have a chance to be free. But freedom is a luxury for you, you The first thing to consider is to survive in the Laika Desert!"

The blanket pulled a piece of animal skin from the top of the broken table, spread it out on the table, and said, "You two ram the goods and show me this map carefully. This map can determine your life and death! "

It is a map, but this map is really desperate.

On a blank map, only a few lines are drawn. On the edges of these lines, if you just look at the map, who knows what the **** these lines are!

The blanket didn't seem to be interested in Li Tian and Tang Xiaolong's explanation. He pointed to the thicker one and said, "We're here now, and the old lame will send you to the mine in a while. This mine is here. !"

Speaking of the blanket, he pointed to a point on the other end of the thick line, and then said: "After you go to the mine, you will have a chance to come back here once a month. Then you will be dug out in this month. The ore from all of you has been carried here, and the old lame man will record it for you."

"The amount of things you dig will determine your quality of life next month or even longer! These things can be exchanged for the water, food, and even the ladies you want!"

"What about this line?" Li Tian said, pointing to the thin line on the map.

The old lame looked up at Li Tian, seemingly impressed by Li Tian's domineering spirit. The old lame stood up, limped out from behind the broken table, and then kicked Li Tian's body. Give it a kick!

The old lame kick directly kicked Li Tian from the door of your dilapidated earthen house to the middle of the earthen city. Li Tian only felt a burst of heat in his chest, and a mixed ***** smell spread in Li Tian's mouth.

The cultivation base of this old lame man turned out to be so powerful.

The moment the old lame kicked Li Tian, Li Tian felt as if time had stopped. He, a man with sound limbs, wanted to escape, but he was kicked and flew out before he could escape.

Also shocked was Tang Xiaolong.

Tang Xiaolong is the first-level power of the venerable. At the moment when the old lame had his feet, Tang Xiaolong used to exert gravity pressure, but the gravity pressure he exerted did not fall, which means that Tang Xiaolong's gravity pressure attack, It has been broken before it is displayed.

"Did you die? Roll over if you are not dead! I can tell you clearly that the thin line is a dark river! But I can also tell you more clearly that if you don't want to die so fast, it's best Stay away from the dark river!" The old cripp had already returned behind the broken table when he said this.

The blanket is very good at flattering the old lame, when the old lame kicked Li Tian, this guy clapped!

Then, the blanket was kicked by the old lame.

Li Tian suppressed the anger in his heart and walked back step by step.

"I don't care why you are here, what I can tell you is that this desert is far more dangerous than what you have seen and imagined! Now I will put the skin on Lao Tzu immediately, and I will send you to the mine with tools!"

The old lame man wrote the date and the code names of Li Tian and Tang Xiaolong on a blank animal skin, and then dragged his stumped leg slowly out of Tucheng, and walked along an almost invisible road towards the desert.

Who is this old cripple? Why didn't he escape from here with such a powerful strength?

What kind of minerals are collected in the mines in the Laika Desert? Why does Venerable Yushuang attach so much importance to these minerals?

What kind of danger is there in this desert? And what threat is there in the dark river?

These problems bothered Li Tian, but because there was this old lame man in Li Tian, he didn't dare to show any clues. Everything had to wait until the mine was in the pit and he had a certain amount of personal freedom before watching!

The old lame walked quickly, Li Tian and Tang Xiaolong followed the old lame with their tools and work clothes.

Not long after leaving Tucheng, Li Tian could feel the dangers in this desert, and there were some if there were some energy fluctuations everywhere!

"Little boss, it's a beast of the Netherworld, at least it is the energy fluctuation of the sage level. If we unless we use teleport, otherwise, once we leave here, we will be eaten without bones!" Tang Xiaolong whispered To say.

Chapter 4379: : Nether Sand Wolf

The old lame stopped and waited for Li Tian and Tang Xiaolong. After the two of them chased him up, he looked at Tang Xiaolong seriously.

"Yes, that thing is called the Nether Sand Wolf! It is a wolf unique to the Lycra Desert of the Nether Realm! The cultivation base of that thing is almost at the second-level state of the Venerable, and the highest one can reach the third-level Supreme. Level four!"

"Want to know why these guys' cultivation bases are so high?" The old lame man bent down and reached out and pierced into the sand, then dug out an earth-colored mineral the size of a thumb from the sand, and then threw the mineral at Li Tian In the hand, he continued: "It is because of this kind of thing."

The old lame man saw Li Tian's expression on his face when he grasped the mineral, and a smug expression appeared on his face. Then he said: "After the Nether Sand Wolf was born, what he ate was not milk, but this stuff! Now that this black little black monkey has reached the realm of the venerable, then you should know what this thing is!"

Tang Xiaolong shook his head.

The old lame did not continue to investigate, and said: "This thing is called spiritual soil, it is a precious ingredient!"

Hearing the words of ingredients, Li Tianzhen wanted to punch the old lame man in the face. They were minerals. Who would eat minerals as food?

But Li Tian soon remembered what the lame said just now, isn't that what the Nether Sand Wolf ate after he was born? Even if there are some differences between animals and humans, they would never know that minerals cannot be eaten!

The old lame man seemed to have guessed Li Tian's thoughts, and the expression on his face became more and more disdainful.

"Young man, you haven't suffered much from being able to take my kick. I know you have some abilities, but you have to put away all your previous inherent ideas! This is the Nether World, not your earth world anymore. I've been to the earth world...tsk, it's a great place! What a pity..."

The old lame didn't continue on the wrong topic for long. He quickly pulled the topic back and continued: "Of course, this spiritual soil can't be eaten directly, unless you have something that can digest this spiritual soil like the Nether Sand Wolf. Stomach! But what I want to tell you is that this spiritual soil is only qualified for high-level sages to enjoy the ingredients for cultivation, and you might know how valuable this thing is!"

Speaking directly, the old lame man took Li Tian and Tang Xiaolong through the thick lines on the map, and what appeared in front of them was a mine that seemed to collapse almost at any time.

The height of the mine was probably less than 1.67 meters. , Everyone has to bend down and walk in.

There is already a lot of quicksand from the opening of the mine, which makes the opening of the mine look a bit shorter.

"Go in, if you two don't die in a hundred years, the old lame, I can transfer you out of this underground mine and stay in my soil city." The old lame said.

After saying this, the lame man didn't wait for Li Tian and others to be grateful to them, and kicked Li Tian and Tang Xiaolong in with his feet.

"Interesting, these two guys from the earth world are a bit interesting, much more interesting than those old guys from the earth world. Haha..."

Huh!

The old lame man suddenly disappeared.

Li Tian and Tang Xiaolong didn't expect the old lame man to suddenly turn his face, accidentally ate another mouthful of sand, and the two of them quickly wanted to slip down the mine.

It was like making a slide. After slipping for about ten minutes, the two of them fell on a large pile of soft sand.

It looks like a city under the desert. It is surrounded by buildings made of oil sand and stone, but the engineering quality of this building is really not flattering. Li Tian even suspects that if he speaks loudly, the water will not Shatter the gravel.

Li Tian and Tang Xiaolong slipped down from the pile of soft sand. As soon as they slipped down from the pile of sand, Li Tian saw two skeleton bodies lying in the pile of sand, looking at them with staring hollow eyes.

As if being awakened by a dream, one of the skeletons crawled out of the sand and sent the blade in his hand forward and shouted: "New here? Get dressed and roll in immediately to mine!"

"I rub, this skeleton can even talk?" Li Tian said.

"What's all the fuss about, we are withered bones, and not dead!" Another skeleton also got out of the quicksand very uncomfortably, saying disdainfully.

Well, Li Tian and Tang Xiaolong were completely defeated.

How many races are there in the Netherworld, and there will still be this kind of magical race. If it weren't for Li Tian and Tang Xiaolong's excellent psychological qualities, they would be frightened crazy just seeing these two skeletons suddenly speak .

What makes Li Tian and Tang Xiaolong feel even more unbelievable is that these two withered bones are actually at the rank of Venerable Level 2 or higher. The specific cultivation bases of Li Tian and Tang Xiaolong cannot be distinguished, but this is enough to make People feel surprised.

Isn't the venerable of the Netherworld so worthless?

Li Tian's mind began to calculate how much he would win if he had to deal with these two withered bones.

At this moment, some quicksand fell continuously in the quicksand channel, and then a few shadows of ash and autumn appeared on the soft sand pile along with the quicksand.

"Nether Sand Wolf!" Tang Xiaolong stood in front of Li Tian without hesitation, and said in surprise.

The two withered bones caves seem to have long lost immunity to the Nether Sand Wolf. Their dry, withered legs are a little on the ground, and the two black figures are fighting against the Nether Sand Wolf. Together!

There was no gravity attack, no dazzling moves, but the withered bone tribe's attack was extremely sharp, almost immediately upon contact, several wounds appeared on the bodies of two of the ghost sand wolves.

Fortunately, the blood color of the beasts in the Nether World and the beasts in the Earth World is still the same.

The Nether Sand Wolf let out a few untimely screams, and a piece of blood dripped on the ground instantly.

However, this was just the beginning, and after less than two minutes, the two withered bones actually beheaded the Nether Sand Wolf one after another.

"It's powerful, it's too powerful!"

Li Tian's heart has begun to blame himself.

"Am I thinking about everything too simple? Now that I have entered this mine, will I really be here for 500 years in the future?"

"Or should I do it now, and what should the third son of Wen Youming do?"

Li Tian was thinking about these issues. At this moment, Li Tian and Tang Xiaolong saw that these two dry bones were crawling on the body of the Nether Sand Wolf like a vampire, constantly sucking blood from the Nether Sand Wolf.

You can't see the blood vessels in the body of the withered bones, but those Li Tian can clearly see the blood of the ghost sand wolves flowing in a certain line on the withered bones of the withered bones, and soon the blood will penetrate into the bones of the withered bones. .

"Comfortable, I'm already so full without food!" After one of the Withered Bone Race sucked up two Nether Sand Wolves in succession, he grabbed the Nether Sand Wolf's corpse with both hands and turned the corpse into the sand instantly.

"Nima! So powerful? How can I escape! Can I only hide in the space of Void Yaksha?" Li Tian's heart was completely ashes.

Chapter 4380: : Rules in the pit (1)

The two skeleton races shouted several times at the mine, and another miner wearing that kind of unknown animal skins came to Li Tian and Tang Xiaolong.

The miner's cultivation base is not weak, at least, but from the energy fluctuations deliberately released by this guy, it can be seen that this guy's cultivation base is better than Tang Xiaolong's, and it should almost be the Venerable's second-stage cultivation base.

The strong man in the second stage of the Venerable will become a miner, and the strong man above the fifth level of the Venerable will have his leg broken, acting as a small foreman in the Laika Desert, which makes Li Tian more and more I feel that the Laika Desert is not simple.

"My name is Chen Peng and I have the strength of the Venerable's second-level cultivation base. Now I am the mine's agent! You two wear work clothes and come with me with tools!" Chen Peng said.

Chen Peng's gaze stayed on Tang Xiaolong for a few more seconds, and a mocking smile appeared on the corner of his mouth. He said, "Venerable, the first-level powerhouse, yes, yes, but in this void, you better be honest with me. , Otherwise...huh!"

Chen Peng didn't finish his words, but the threat of words couldn't be more clear.

"You came in halfway. From today to the next time we go to Tucheng, there is almost half a month away. During this half month, you two must catch up with the progress of others, otherwise the next month It's good for you!"

"Also, I put the ugly words first. Outside this mine is the world of a few adults, but inside the mine, this is my Chen Peng's world! My Chen Peng's monthly minerals want you and others People come to complete it. Before you go out before the end of the month, I don't care how much ore you can mine, I can't take any less than Chen Peng!" Chen Peng said.

Chen Peng led Li Tian and Tang Xiaolong into the mine. Li Tian and Tang Xiaolong discovered that the underground of the desert was not entirely sand, but rather a kind of sand.

There are some broken idiots on the gravel, but the hardness is much harder than the sand. As you continue to walk into the pit, the light is getting dim, and the air is filled with the smell of urine and... the smell of blood?

Whether it is a miner or a cultivator, everyone is human. Naturally, no one can avoid things like eating and drinking Lazard.

Along the way, Li Tian saw that many miners stopped their work and greeted Chen Peng when they saw Chen Peng, while Chen Peng nodded slightly, which was regarded as a return.

"This is a poor mining area. The danger of mining here is less, but the difficulty of mining is much higher. You see that most of these guys have not reached the realm of cultivators. Those who can barely reach the realm of cultivators This area can already be used as a small class!"

"You two are quite capable of cultivation, so naturally you want to mine high-quality rich ore! Mining rich ore depends not only on your personal cultivation strength, but also on whether your fists are strong or not. Let me explain to you first. Just take my share of the ore every month. As for you stolen, robbed, or bought, I don't care if you get them from murder!" Chen Peng said.

"This...can kill people and overtake goods here? No wonder you can smell blood here!" Li Tian asked.

"What's so strange about this? The mine is spread in all directions underground. There are at least a hundred thousand miners in this mine. These miners are divided into more than a dozen teams. If there are more than a dozen teams, that team has not been completed for several years. Task, then the manager of this miner team will be wiped out of the manager's authority and will be miners. In order to avoid such things from happening, a dozen teams of miners often have some conflicts. The

reason why I can be the manager of this team is that Because our steward hadn't completed the task for several years in a row, and was discounted by others, so...hehe, do you still have a lot to learn?" Chen Peng said.

While talking, Chen Peng took Li Tian and Tang Xiaolong and walked underground for about several tens of meters. At this time, the mine was getting darker and darker. If everyone were not for the cultivation skills, I'm afraid they would have seen everything here. Not anymore!

Li Tian was not in questioning, let Chen Peng talk to himself.

After walking for about ten minutes, the mine in front of him suddenly became a little higher, and there was a small shed made of wood chips and thatch. Chen Peng stopped walking when he walked here. At the edge of the straw shed, two dark-looking miners were waiting for Chen Peng.

The cultivation bases of these two guys are not weak, one reaches the highest level of the sage, and the other is the initial level of the sage.

When the two saw Chen Peng, they smiled at Chen Peng and called out Brother Peng.

These two big blacks looked silly and stunned, but they did things quite well. They took off a skin bag from their waist and poured a dozen or so thumb-sized ore into the grass. On a gravel platform next to the shed, the guy at the top of the sage said with a smile: "Brother Peng, these are our two brothers this month!"

Chen Peng glanced at the ore, stretched out his hand to collect the ore, nodded slightly, and said: "You two know how to respect each other. In that case, these two guys will join your team! These two guys' The strength is good, it depends on whether you can live in discipline!"

The guy at the top of the first class involuntarily showed a sneer on his face, and said, "Thank you Peng, but there is no one in this pit that our brother can't control! Peng, our brother is leaving first, in order to let him Brother Peng, who is in charge of the affairs, is removed, and our brothers must also work hard to mine! Haha!"

Chen Peng nodded, then turned to Li Tian and Tang Xiaolong and said, "You have all learned, and before going out every month, hand in the ore here, then everyone will be fine!"

With that, regardless of the strange eyes of Li Tian and Tang Xiaolong, he walked into the small shed and sat there to start practicing!

Li Tian and Tang Xiaolong were again taken down by these two black veterans.

Turning around a tunnel, these two black big thicks suddenly released coercion. The guy in the early stage of the Venerable First Level controlled Li Tian with coercion, while the guy in the peak stage of the Venerable First Level attacked Tang Xiaolong with coercive pressure!

"Since you two have joined our brother's team, then our brother must teach you to familiarize you with the rules of the mine. You should have seen the filial piety that our brother gave to Brother Peng just now? These minerals? The wool comes out of the sheep, and you miners should bear it. Isn't what I said straightforward enough?" Hei Dachu at the top of the first class said with a sneer.
