

A Killer 4381

Chapter 4381: : Rules in the mine (2)

"I have a doubt. We have to pay Chen Peng's members every month, why should we pay you your members?" Li Tian asked.

At the early stage of the first level, Hei Dacu looked at Li Tian like an idiot, raised his big fist and shook his fist in front of Li Tian, then slammed his fist on Li Tian's abdomen, and said with a sneer. : "Do you know what this is? This is the rule. If you have this strength, you can completely change the rules here and let others adapt to you! If you don't have this strength, then it's best to talk less and act more."

"With your strength, it is not difficult to complete the mining task in this mine. Maybe you can still have a little surplus. Then you can take the extra ore in Tucheng for some wine, food, and even It's not difficult to play with a few women!"

The attack power of this punch was still quite heavy, and Li Tian felt his abdomen overturned.

"I also want to ask one question after another. If our fist is bigger than yours, do you have to pay for us? Will Chen Peng come to us for trouble?" Li Tian said.

The two dark guys were amused by Li Tian's words!

"If your fists are harder than mine, it's okay. Unfortunately, your fists are not big enough or hard enough! So, just talk to you just now. Both of you will pay us at least two more ore this month. Otherwise..." As he spoke, the Venerable Hei Dacu who was in the early stage of the first level shook his fist again.

"I see! This is the rules in the mine! In that case... Xiaolong, we should also tell them about our rules!" Li Tian said.

As soon as Li Tian's words fell, Tang Xiaolong suddenly released a huge coercion.

Although Tang Xiaolong's cultivation is only the first stage of the Venerable, he is still a little away from the first level peak of the Venerable, but his strength is no weaker than the first level peak of the Venerable, even Tang Xiaolong can kill the first level of the Venerable. The strong.

This coercion was released abruptly, and instantly broke the coercion that the Venerable's large black thick wheel covered Li Tian's body at the early stage of the first level.

"You are looking for death!"

The two black veterans did not expect the new miners to be so sturdy, their faces were taken aback, and then their hearts were full of anger.

However, at this moment, they saw a flower in front of them, and there were four more people in the mine, and all of the four people's cultivation base reached the first level of the sage, and even one of them has reached the peak of the first sage. Realm!

These four people are the East, the West, the South, the West, the North...

"Master Li Tian!"

The four shouted at Li Tian at the same time.

"Go ahead and tell them our rules! If you want to live, don't kill them, don't kill them, and keep them for mining!" Li Tian said stupidly.

The two Black Venerables were already shocked.

There are miners at the Venerable level of the Lycra Desert, and the number is not too few, but the number of Venerables who can be assigned to each team is not many, which is why the two black brothers can dominate their teams.

Today, I just heard that there are new miners who are going to enter the pit, and they are going to be assigned to the brigade where they belong. The two **** brothers were moved, and they rushed to send the new miners in. Their team, who knew that these two new miners turned out to be stingers, just after explaining the rules of their mines to the new miners, they were strongly backlashed by these two guys!

Venerable Four Mountains, East, West, North, and South only listened to Li Tian's orders. With a cry of zero, Li Tian immediately had four coercion falling on these two **** bodies at the same time. Venerable Four Mountains jumped up with a punch and kick.

Outside the tunnel, Chen Peng felt the pressure fluctuations from the distant corner. He opened his eyes slightly, glanced in the direction of Li Tian and others, closed his eyes again, and continued to practice.

"The two **** brothers are also too rough. The little fresh meat that just came here is ravaged like this, so... it's right. Otherwise, how can we let them remember and let them know the rules of this mine?"

...

The two black brothers are hurt!

What is this called?

This feeling is as if the two brothers are struggling with each other.

"Now, I ask you who is in charge of the rules of the mine?" Li Tian said with a sneer.

Brother Hei Dazu raised his head slightly, lowered his eyebrows and pointed at Li Tian pleasingly, and said, "Now you have the biggest fist, of course you have the final say!"

"Okay, then I'm here to ask you, what is the use of these minerals? I heard the old lame say that these are ingredients, how to eat them?" Li Tian asked.

The black brothers looked at Li Tian like idiots.

Li Tian didn't like this kind of look, and let Venerable Four Mountains, Southeast, North, and West tell the two brothers about Li Tian's rules.

After a while, the dark brothers looked at Li Tian's eyes again and again changed.

"My lord, what kind of brother?"

"My name is Li Tian, if you are willing to call me Brother Tian, if you don't, I can tell you my rules again!" Li Tian said with a smile.

"Brother Tian, this ore is called spiritual soil. It is a food material, but it is not for eating. To be precise, it is just a supplementary food material! Spirit soil contains a kind of spiritual power, which is only Only the strong at the venerable level can absorb, so these ores will be snatched by various strong."

"But under normal circumstances, even if this spiritual power is absorbed by the Venerable, it has strong side effects. Only by injecting this spiritual power into food, and eating these spiritual powers can it be absorbed by the Venerable. This side effect It can be completely eliminated, and the absorbed spiritual power will be more refined!" Said Hei Daru at the top of the first class.

The expression on Li Tian's face couldn't help but change slightly.

It's no wonder that these spiritual soils turned out to be the source of spirits equivalent to the realm of the venerable.

"How many people are in our team? How is their cultivation level?" Li Tian asked.

"Brother God, our team has a total of 179 people, plus the two of our brothers are 181 people, the strongest of the venerable level is our brothers, and most of the others are cultivators. There are less than a dozen people in the seventh-level realm of cultivators!"

These miners team Li Tian poses no threat, and Li Tian's heart suddenly becomes much easier.

"How many teams does Chen Peng's team have?"

"There are probably fifty or sixty, and the number of each team is different. This is mainly determined by the strength of the team captains and how well Peng Brother has been washed! Brother Tian, our brother and Brother Peng have a good relationship..." See When Li Tian frowned slightly, Brother Hei Dachu suddenly shut up.

The two Hei Dachu brothers felt that Li Tian was definitely a sting, and maybe this guy already had the idea of replacing Chen Peng in the future.

"Do you want to provoke discord now, add fuel to the fire, and let Li Tian and Brother Peng kill each other? As long as they fight, no matter what the final result is, our two brothers will definitely be our team leader again. It's..." Big Brother Hei thought to himself.

Snapped!

Snapped!

Suddenly Li Tian kicked his brother Hei Daru a few consecutive times!

Without warning!

"Damn, I suddenly remembered. Just now, you **** was going to tell me the rules and punched me. Come here, you can tell me the rules and let me listen!"

"Woo, Li Tian, this **** is a lunatic, can you still play happily!" Brother Hei Dazu held his head, his heart gloomy.

Chapter 4382: : Rules in the mine (3)

"My brother... My brother, don't fight! Your rules are understood by our brothers, please forgive us, brother, this month has passed halfway, if our brothers don't go mining now, this month we I'm

afraid that the mission won't be completed. By that time, the life of our brothers and sisters will probably be tough next month!" Brother Hei Dachu said with a sad face.

When Li Tian was beating this ***** brother, he counted the beating he suffered outside the gate of the restricted area today to this ***** brother, who made Li Tian upset?

Not only was Li Tian beating the black brother, but Li Tian also greeted Tang Xiaolong and the Four Mountains Venerable. This way, Li Tian could feel a little more comfortable in his heart. If it wasn't for the black brother, he was crying and begging for mercy, Li Tian said May be beaten again.

"Okay, let's go to the mine of our team first. You two will gather all the people for me. I will tell them about my Li Tian rules in front of everyone in our team!" Li Tian said .

...

In the mine, in just over ten minutes, all the miners belonging to Li Tian's team were called by the two brothers.

Li Tian discovered that there are various races among these miners, but in general, these races are humanoid races, there are no large races, and there is no such a magical race as Withered Bones.

As Brother Hei Dachu said, the majority of these miners' cultivation levels are at the level of cultivators eight or nine.

These monks wear heavy leather work clothes, carry their excavating tools on their shoulders, and have a small skin bag hanging around their waists. It is estimated that they have been working underground for many years. The faces of these guys are unhealthy. White, there are few guys like Heidachu.

At this time, these miners looked at Li Tian suspiciously. They seemed to be full of fear for Li Tian. They hardly dared to look at Li Tian with their straight eyes. They could not help but touch their skins with one hand. The heavy skin will show a satisfying smile on his face.

Seeing these cultivator miners, Li Tian couldn't help feeling a little bit sad.

These guys are masters in the realm of cultivators. They are in the earth world. They are all strong men who are absolutely standing on the top of the earth. They are in the underworld, in the Laika desert, in this pit, they and those in the earth world The miners in the black coal mine are almost the same.

However, Li Tian also knew in his heart that in this world where only fists and strength are concerned, compassion is possible, but it is useless.

Li Tian coughed and attracted the attention of all the miners. Li Tian's gaze slowly swept across the faces of these miners, and where Li Tian's gaze swept across, these miners immediately lowered their heads.

"Let me introduce from me first. My name is Li Tian. You can call me Brother Tian! From today on, I will be the captain of your mining team, and you can also call me Captain Li! Call everyone here today just to give Tell me about my Li Tian's rules." Li Tian said.

After a pause, the miners with a little stubborn head adapted to Li Tian's words, and Li Tian went on to say: "Netherworld, Laika Desert, underground mines, whoever has the biggest fist is the rules, I Li Tian will not change this rule, and I have no ability to change this rule for the time being!"

"Hei Dazu, you two, come here!" Li Tian said to the two Hei Dazu brothers.

These two guys are really called Heidacu, and the names of both guys are Heidacu. Li Tian can only admire the names of Heidacu's parents.

According to the Hei Dazu brothers, the two of them were originally twins...

Let me rub, what do you mean by being twins? You are twins. Okay!

This is not the point.

These two guys said that they were twins, and they were black, big, and thick when they were born. As a result, as soon as their parents were lazy, they named both of them black big thick.

This is also good, no matter who they call, their parents will not call a mistake, and whether it is a mistake, the parents will be beaten up, which can effectively improve the understanding between the two brothers.

This is a digression.

The two black brothers stood in front of Li Tian with helpless expressions on their faces.

The two brothers are absolutely human spirits. Knowing the purpose of Li Tian calling them out, the two squatted on the ground and hugged their heads. Then, amidst the excited shouts of more than one hundred miner brothers, the two **** brothers The man was beaten up again.

Li Tian was very satisfied with the performance of the Hei Dachu brothers, but just let the southeast, northwest and northwest brothers violently beat them, and did not really want to hurt them.

"The weak eat the strong and the fittest survive. This is the rule of the Netherworld. Li Tian will only adapt to this rule. Every month Chen Peng wants to leave from me, I will still search from you. Of course, if you can If I have extra spiritual soil, I will exchange it for you with other things. This is also my rule!" Li Tian said.

Li Tian knows that looting and snatching can also **** the excess spiritual soil in the hands of these miners, but this will discourage the enthusiasm of these miners. At that time, these miners are unwilling to mine more spiritual soil, and only pay enough for them If Tian and Chen Peng's members had enough to pay the members stipulated by the Frost Emperor, then it would be more difficult for Li Tian to obtain spiritual soil.

Spiritual soil, this is the source of spirit absorbed by the noble-level powerhouse!

"God... Brother..." An old miner raised his hand tremblingly.

Li Tian motioned to the miner to continue.

"Brother Tian, we can exchange spiritual soil in Tucheng for fine wine, food, or something suitable for our cultivation, even a woman. Brother Tian, do you have these things here?" the old miner said .

There was a deep smile on Li Tian's face, and he said, "I have all these things except women, and they will only be better than those in Tucheng! But... I don't want to be too provoked, so I hope this thing Only our team knows it. I don't mind if our team suddenly disappears a few miners!"

...

After the rules were established, the miners returned to their respective jobs, and the two black brothers became miners and went to the mine with their own tools.

Li Tian took Tang Xiaolong and the four mountains, east, west, south, north, and the four mountains like a supervising worker, patrolling around.

Li Tian discovered that these miners' methods of mining spiritual soil were too primitive.

They can't do anything about it. The spiritual earth ores are embedded in huge sand and gravel, and the hardness of the gravel here is much higher than that of steel. They are like using tools to continuously grind the gravel away, This is the only way to dig out the spiritual soil that is only the size of a thumb, even smaller than a thumb.

Li Tian summoned the Dixing Yasha, and wanted to use the Dixing Yasha to dig these ores, but when the Dixing Yasha just wanted to drill into the sand, he was bounced out by a powerful force.

Several times without success.

It seems that this piece of Lycra Desert is also a bit weird, Li Tian can only give up.

"We must become stronger as soon as possible, and we must collect a lot of spiritual soil, otherwise the news that we passed through the gate of the forbidden zone to the underworld will let the corpse know that the corpse will definitely not let us go!" Li Tian thought in his heart.

..

Chapter 4383: : The crisis is urgent

Li Tian entered the space of the Qiong Spear of the Sky.

"Brother Li Tian, are we in the Netherworld now? We are about to be sick in the past few months!" Ye Liangchen couldn't help but complain after seeing Li Tian.

Seeing the serious expression on Li Tian's face, Ye Liangchen shut up immediately and asked, "Big Brother, what happened?"

"Do you know Emperor Yu Shuangzun?"

Hearing the name of Emperor Yu Shuang, the expression on the face of the Third Young Master became unnatural.

"Emperor Yu Shuang is a special existence. He does not overlap with any other emperors, and even... even because of his past experience, he is full of disdain for other emperors. And... the most important thing is because of the Laika Desert. Because of the spiritual soil, our Huangzun father and Emperor Yushuang have some holidays!" Ye Liangchen said.

"Oh, I remember now, the gate of the forbidden zone seems to lie in the kingdom of the Frost Emperor, Brother Li Tian, you...you didn't just come to the Underworld, just another Emperor did it?" Long Aotian asked.

Seeing Li Tian shaking his head slightly, the third son of You Ming couldn't help letting out a breath.

"We are in the Laika Desert!" Li Tian said.

Hearing this sentence, the Third Young Master suddenly exploded and jumped up suddenly.

Zhao Ritian's voice trembled and said, "This...what's going on? Even if we are in the kingdom of Emperor Yu Frost, as long as you don't be too public and walk out of the kingdom of Frost Emperor silently, But...but..."

Ye Liangchen quickly calmed down from his surprise, stretched out his hand and sat down Long Aotian and Zhao Ritian, and asked, "Big Brother Li Tian, what is going on?"

Li Tian roughly told the third son of You Ming about what he knew, including the old four elephants, the corpse, and the red sword. Li Tian did not hide it.

"Hong Zhan? You said Hong Zhan is in your hands?" Ye Liangchen grabbed Li Tian's arm abruptly and asked excitedly.

"Once, now Hong Zhan has been sent to the hands of Emperor Frost by the corpse!" Li Tian said.

"This situation is not good! Hong Zhan's attraction to any noble level powerhouse is absolutely fatal. You must know that if Hong Zhan exerts absolute strength, the Emperor will definitely have an impact on the domain master after obtaining the red sword. Possibly, this is why the Red Slash would be exiled through the gate of the restricted area!"

"If Emperor Yu Shuang gets the Red Slash, then Emperor Yu Shuang's strength will stand out from the eighteen emperors, and the balance of the Nether Realm for thousands of years will be broken!" Ye Liangchen said.

Long Aotian continued: "Although the power of Hong Zhan is powerful, this is not a problem we can consider for the time being. As long as the news is spread, other emperors and other domain masters will handle this matter. We have to consider now. How can I leave the Laika Desert!"

"Can you tell me about the dangers in the Laika Desert?" Li Tian asked.

Zhao Ritian nodded, and took Li Tian's words and said: "Since you have come to the Lycra Desert, you must already know the spiritual soil in the desert. This spiritual soil is the most important tool for the noble level to quickly increase their strength. It is said that the importance of spiritual soil is not worse than spiritual source, and even more important than spiritual source to some extent."

"It is precisely because of this that the emperors in the underworld will regard the Laika Desert as their bag, and other ninth-level powerhouses and even senior-level powerhouses will naturally not let the 18th Congress The Emperor divided the Laika Desert. So this Laika Desert has become a land of no owner!"

"Anyone can come to the Laika Desert to mine the spiritual soil. Because of this, there is absolutely no guarantee of safety in the Laika Desert. Maybe someday there will be other emperors, other ninth-level masters sending people to grab the spiritual soil, Even robbed the miners who excavated the spiritual soil!"

"Of course, this is the main reason, and there are two other reasons. There are a huge number of ghost sand wolves in the Lycra Desert. These guys have super reproductive ability, and these guys

are also very strong. If the masters below the 1st level encounter the hordes of Eunuch Sandwolves, there is almost no chance of escape!"

"In addition to the Nether Sand Wolf, there are spiritual soil bandits in the Lycra desert. This spiritual soil bandit is much stronger than the refugees on the death battlefield. These spiritual soil bandits even dare to attack the emperor, and they **** it. You can also sell your spiritual soil to the emperors!"

"The powerful gang of spiritual soil bandits will have their own mines, and their miners have looted the past, and these miners have never lived under the hands of spiritual soil bandits for a hundred years!"

Zhao Ritian finished speaking, but Li Tian's heart sank even lower.

"It's too dangerous here. The three of you teleport to escape from the Laika Desert and return to your Venerable Kingdom!" Li Tian said.

There was a wry smile on the face of the Third Young Master.

"The Lycra Desert is a cursed place. Teleportation can be used. However, the distance of teleportation will be greatly suppressed each time. Unless our cultivation level has reached Venerable Level 4 or higher, if we want to use Teleportation It takes at least one day and one night to walk out of the Laika Desert."

"And during this period, if we are caught by the spirit soil, then we will die ugly! Maybe if those guys knew the identity of our Third Nether Son, they would kidnap us and threaten our Emperor Father!" Ye Liangchen said.

"So we are now grasshoppers on a rope! If we want to escape the Laika Desert, we must first figure out the geographic direction. As long as we can find the approximate area of our Emperor Fathers in the Laika Desert, then we can move towards Flee in that direction, and then we can leave the Lycra Desert in the transport vehicle!" Zhao Ritian said.

Li Tian nodded slightly. Then he knew why there were only two lines on the map of the old lame, so that the miners trapped in the Laika Desert had no direction and no goal. It was almost impossible for them to escape the Laika Desert.

"What's the matter with the underground river? Is the underground river dangerous?" Li Tian asked again.

"The underground river is a rare water source in the desert, and it is an area in the Lycra Desert where the ghost sandwolves must compete. The number of ghost sand wolves near the underground river far exceeds that of other areas. There is only one dead end to the underground river!" Long Aotian said.

"Brother Li Tian, now that we have come to the Laika Desert, what we can do now is to get acquainted with the geographical environment of the Laika Desert as soon as possible. If nothing happens, you will be completely familiar with the Laika Desert in ten years. When the time comes, elder brother, you have cultivated to the realm of noble one again, we can escape from here!" Ye Liangchen said.

In ten years, it was too late, Li Tian didn't believe that the corpse would wait for him for ten years.

Chapter 4384: : Carnival (1)

The Third Young Master solved the crisis in the Blika Desert, and Li Tian couldn't pin his hopes on them.

Li Tian knew the scarcity of spiritual soil, so naturally he would not sit there waiting for the spiritual soil to search for the cultivator miners.

Li Tian and Tang Xiaolong went into battle personally and became miners.

There is no code-named metal circle on the arms of Venerable Four Mountains in the southeast and northwest, so Li Tian did not dare to allow Venerable Four Mountains to stay too much in the pit, so as not to attract the attention of Chen Peng and the two strong bones.

...

This mining is definitely a technical activity.

After digging for about ten days, Li Tiancai dug a piece of spiritual soil the size of a thumb.

Tang Xiaolong is more talented than Li Tian in this respect. It seems that his luck is also very good. He actually dug seventeen or eight pieces of spiritual soil.

With Chen Peng's roar, all the miners stopped their work. This month, these miners' goods were temporarily dumped here, yelling to bring all the spiritual soil back to Tucheng!

The miners looked like earth and slowly came out of the mine. When they walked to Li Tian's side, each took out two pieces of spiritual soil about the size of a little finger from his skin and handed them to Li Tian.

The two brothers Hei Dacu had good luck. Although they only mined for half a month like Li Tian, the result was still very satisfactory. Both of them have rich mining experience. Are they going to insult other repairs? Apprentice miners, these two guys have gained a lot, each harvesting more than half of the skin.

I have to say that the two brotherhoods are coming. Each of them picked the two largest pieces of spiritual soil from the skin and handed them to Li Tian, and then winked at Li Tian, which looked so funny.

Regardless of the fact that the amount of spiritual soil given to Li Tian by each person is not large, the accumulation of spiritual soil of 181 people is more than ten times the ore that Li Tian has mined in the past few days.

It is a pity that not all these spiritual soil belong to Li Tian!

After ten days of understanding, Li Tian knew that more than half of these spiritual soils would be handed over to Chen Peng in the name of his team.

There are more than ten teams under Chen Peng, and each team will give Chen Peng a part of the spiritual soil. It can be seen that even if the leader of Chen Peng deducts the spiritual soil handed in, the spiritual soil he can leave in his hands is far more than that of Li. Several times the day's income.

Chen Peng, you don't need to do anything, but the amount of spiritual soil obtained far exceeds that of Li Tian, and he has great rights.

"Captain, this is really a good position!"

For the first time, Li Tian was full of desire for Chen Peng's position.

The national capital of the earth world did not make Li Tian so tempted.

...

Li Tian led these miners to climb out of the mine tunnel and out of the mine. These miners didn't have any extra words. In the entire mine, there were only occasional collisions between excavation attacks and the friction of the animal skin work clothes they were wearing.

Chen Peng's straw shed was surrounded by more than twenty mines, large and small, and the miners came out of the mines one after another, like huge bugs.

When the first miner walked out of the mine, everyone stopped and waited for the team leaders to hand over the spiritual soil to Chen Peng.

"Brother Tian, now you are the captain of the team. You need to hand over the spiritual soil of our team to Brother Peng. Our team has always been the largest team, so the amount of spiritual soil paid is the most!" He came to Li Tian and said.

Li Tian nodded, and did not entangle these spiritual soil.

Before he walked out of the mine, Li Tian divided the spiritual soil into two. One of the skins contained a slightly larger amount of spiritual soil. This skin was left to Chen Peng, and the skin with a small amount of spiritual soil was directly covered. Li Tian was sent into the space of Void Yasha!

Chen Peng's eyes moved slightly when he saw that Li Tian had come out to give away the spiritual soil.

He didn't expect that in just ten days, Li Tian would have snatched the position of the team leader of the two brothers. This made Chen Peng have to look at Li Tian more.

Chen Peng's face turned black when he saw the area in Li Tian's skin.

There are a lot of this spiritual soil, and the members given by the black brothers on weekdays are almost the same, but Chen Peng knows that this half is still Li Tian, this feeling makes him very uncomfortable.

Chen Peng decided to beat Li Tian!

"Is it just a little bit of spiritual soil? Li Tian, your team is the top priority of my brigade. That's right, in this pit, whoever has the biggest fist is the boss, but the premise is that all ***** work Do it for me."

"If I, Chen Peng, can't hold my position as a steward, how long do you think your team leader can sit for? Next month, your team's mining output must increase, otherwise don't blame me for being rude to you." Chen Peng Said with a sneer.

A slight smile appeared at the corner of Li Tian's mouth, and said: "This skin bag is yours!"

Chen Peng couldn't help being taken aback. He had been in this mine pit in the Laika Desert for almost three hundred years. He had never seen a miner who didn't need spiritual soil.

"Huh, sway the door, don't buy me with such a small amount of spiritual soil. I still said what I just said. I want the results of next month. Otherwise, even if you give me all the spiritual soil, I won't Forgive you!"

Tang Xiaolong was so angry that he wanted to rush out and argue with Chen Peng several times, but was stopped by Li Tian.

The current strength of Li Tian and others is not enough to contend with Chen Peng, and Li Tian does not want to take risks.

...

The captains of other teams handed over the spiritual soil to Chen Peng one after another, and then everyone walked out of the mine tunnel under the leadership of Chen Peng and came to the two passages guarded by the withered bone clan. Chen Peng gave a part of the spiritual soil to the two withered bones. Clan, this led everyone out of the mine.

When he walked out of the pit, Li Tian saw that there were already at least seven to eighty thousand miners outside the pit. These miners were the same as his miners, and most of them were ashen-faced.

Brother Hei Dachu came to Li Tian again and said in a low voice: "Brother Tian, hurry up and take our team to a crowded place. Don't stay outside."

"Why?" Li Tian asked.

Hei Da roughly looked around, and then said, "There are still dozens of miles away from this pit to Tucheng. Even if everyone has a cultivation base, it will take at least ten minutes to walk, and this road is full of threats. The next time the spirit soil was delivered, it was when the Nether Sand Wolf reveled in the Lycra Desert. Thousands of Nether Sand Wolf would ambush in the middle of the road."

"If you are unlucky, you might encounter bandits from the spiritual soil. By then, it will be like an eagle catching a chick. The chick on the outside and the last will be the first to be torn apart!"

The principle of the dead dao friend not dying poor dao is the same everywhere, if this is the case, then Li Tian is not polite, and the people with his team kept squeezing into the crowd.

At this time, the crowd had already begun to move forward, and Li Tian could already see several ghost sand wolves with scarlet eyes on the sand dunes in the distance moving forward in the crowd of followers.

Chapter 4385: : Carnival (2)

No one spoke, everyone held the mining tools tightly in their hands, squeezed together as much as possible, and walked forward slowly.

With a team of 100,000 people, even if it wants to speed up, it is completely impossible, unless it is a flat road.

Li Tian could feel the fear of the monks around him, and even Li Tian could hear their rapid breathing.

The Nether Sand Wolf did not start to act, it seems that they are afraid of the two withered bone clan powerhouses.

Huh!

Wow!

There was no sound when the footsteps fell on the soft sand, but the sound of the soft sand flowing was extremely harsh.

The Nether Sand Wolf is like a ghost in the desert, disappearing from time to time, and then suddenly appearing on another sand dune after a while.

That's right, as the nether sand wolves of the venerable level, they can also teleport.

This kind of feeling really seems like a dog, how did you say this ghost sand wolf learned to teleport? Do they also have inherited culture, but also have IQ?

"Brother Tian, pay attention, those Nether Sandwolves seem to be about to start moving! When the Nether Sandwolves start to act, this marching team will speed up, and whoever is slower will be in danger at that time!" Hei Dazu The brother said.

Li Tian nodded slightly, and whispered to the cultivators and miners gathered around him, asking them to be vigilant.

These words of Li Tian are nonsense. Everyone here has a lot more experience than he and Tang Xiaolong. The monks and miners hold the digging tools tightly with both hands, without the slightest panic under their feet, their eyes are always staring at the distance. The ghostly sand wolf on the sand dunes.

It seems that everyone is waiting for a signal.

The number of nether sand wolves gathering more and more, the number of nether sand wolves visible to Li Tian alone has exceeded one hundred.

You must know that Li Tian and the others now have a team of more than 100,000, and the team is pulling very long. Li Tian doesn't know how many Nether Sandwolves are following them.

Suddenly there was a panic in the front crowd. Several miners with only first and second levels of monks were squeezed out of the crowd. These monks and miners didn't stand still and went straight down the desert.

"Save me! Save me! I don't want to die!"

Those monks and miners sliding down the sand ***** shouted at the marching team with a desperate expression on their faces.

But as if everyone hadn't heard their miserable screams, the pace under everyone's feet could not help but speed up, as if the Nether Sand Wolf had already begun to attack!

Sure enough, a few dusty shadows instantly teleported to the side of the cultivator miners, opened the blood basin and began to bite the cultivator miners.

This is the signal!

The speed of all the miners suddenly increased, and everyone rushed forward as if they were crazy.

Even a powerful person at the venerable level did not dare to teleport away from the crowd without authorization.

And at this moment, Li Tian saw hundreds of gray shadows appearing instantly on the edge of the marching crowd, attacking the cultivators and miners at the extreme edge... Eh, lower his mouth.

The withered bone knives in the hands of the two Withered Bone Clan guys kept piercing into the necks of the Nether Sand Wolf, slaying the beasts, and the captains of this brigade also began to attack the Nether Sand Wolf!

However, in the frenzy of attacks by thousands of ghost sand wolves, the power of these powerful men looked like thunder and lightning hitting the surface of the ocean, and they did not have much effect at all.

Miners of the cultivator level were taken away continuously, and then torn to pieces by a few ghost sand wolves.

Of course, there are also Nether Sand Wolf being smashed to pieces by those miners with digging tools!

There is a smell of blood in the air, which makes people feel sick!

Halfway through the journey, according to Li Tian's incomplete estimation, at least five or six hundred people were squeezed out of the crowd and became the belly of the Nether Sand Wolf.

The nether sand wolves bite this piece of meat, the blood at the corners of their mouths is constantly falling in the desert, and their eyes show greedy expressions. Even if they have the corpse of the dead miner in their mouths, these nether sand wolves are still unwilling. Leaving, still constantly impacting the miners team.

At this time, there is no so-called brigade, squad, no so-called trust and friends, everyone is at large!

Finally, the shadow of Tucheng can be seen at the front of the team. After seeing Tucheng, the Nether Sandwolves stopped moving on, but because the team was too large, the tails of those teams continued to suffer from the Nether Sandwolves. Attack.

Li Tian couldn't understand why Emperor Yu Shuang didn't use flying vehicles to collect spiritual soil at the entrance of the mine. This way, firstly, it can reduce the death of miners, and secondly, the spiritual soil carried by these miners is not. Will be swallowed by those ghost sand wolves.

Brother Hei Dacu is a powerful person at the venerable level. As long as they don't rush out, there should be no problem with their safety. Brother Hei Dazu seems to have seen Li Tian's thoughts, and said to Li Tian with a smile: Brother, this is the balance! The Lycra Desert was originally the area of the Nether Sandwolves. Humans are latecomers. The humans forcibly occupy the desert and keep digging. As a result, those Nether Sandwolves have lost a large area of survival. In order to prevent the Nether Sand Wolf from attacking the Tucheng and attacking the mines, the once-a-month trek looks more like a human feeding of the Nether Sand Wolf!"

"Perhaps you still can't understand it now, but when we return tomorrow, you will find that these nether sand wolves seem to have suddenly disappeared a lot! Their attacks on us have also decreased a lot!"

"As for these miners, do you know how many people will be displaced and how many people will lose their lives in every direct conflict between the Venerable Kingdom of the Venerable Kingdom and the Venerable Kingdom of the Venerable? If Venerable Frost is willing, he can transport them every month? Thousands of miners here!"

"However, the number of Venerable miners like us is indeed a small number, and we are free to offend those big people. We guys have no way to hide in the death battle and can only sell themselves to the Laika Desert! If we are lucky enough to survive five hundred years, Then we can get free bodies forever, and maybe we can still find a good position in the imperial palace!"

"Of course, if you don't want to, you can also join the Spiritual Land Bandit, but...hehe, the Spiritual Land Bandit is not a happy land, if you accidentally be targeted by the emperor, the whole group can't be destroyed!" Hei Daru said.

Li Tian understood that this is equivalent to the ecological balance of the earth world.

What Li Tian can do is to keep himself alive and live better. As for the cultivating miner, there is really not much he can do.

Tucheng was already in front of him, Li Tian couldn't help but breathe out, the dawn of victory had arrived.

But at this moment, Li Tian saw that only one or two hundred meters in front of him, several old man cultivators were suddenly forced out of the crowd.

Not squeeze out, but push out!

Among these old man cultivators, Li Tian saw a few familiar back figures!

One of the old men is still carrying the back of another old man with difficulty!

"Four elephants... old man!"

Chapter 4386: : Adventure to save people

Four or five ghost sand wolves surrounded the Sixiang old man and the others, constantly baring their teeth, trying to shred them.

And the guy who pushed the Sixiang old man and others out of the crowd showed a sneer on his face and turned and disappeared into the crowd.

"Who is the **** who pushed people just now?" Li Tian was angry instantly!

"Brother Tian, he is something we can't afford. That guy is the captain of another brigade and possesses the fourth-level cultivation base of the sage, and his handling of the miners of their brigade is not something we can talk about! It is safe to leave here and escape into Tucheng!" Hei Dachu said.

However, Hei Dacu's voice had not fallen yet, but he saw that Li Tian had disappeared in a teleport, and appeared beside the cultivator miners who had been pushed out, followed by Li Tian and the black and black Tang Xiaolong.

"Shine... Teleport? This fellow is Venerable?" Hei Dazu was startled by Li Tian.

Li Tian had already teleported out to save the people, Hei Dazou hesitated for a moment, but was pushed forward by the crowd behind him and rushed out several tens of meters, and Hei Dazou did not stop.

"Whether you are a venerable or a cultivator, under the siege of those ghost sand wolves, I am afraid that there will be no bones and scum left behind. At that time, the position of this team leader will still be our brother's!" Hei Da Thinking crudely.

...

The moment the four elephant elders were pushed out of the crowd, their hearts had fallen to the bottom.

Their psychology was finally full of despair. As the strong men on the earth, they did not cry for help or cry, but silently picked up the digging tools in their hands and started fighting with the **** ghost sand wolves!

Fortunately, one of the withered bone clan powerhouses teleported to their side and easily eliminated the two nether sand wolves, otherwise they would have been torn to pieces by the nether sand wolves.

However, this is just a drop in the bucket.

In just a few seconds, the other two old cultivator miners were torn away by two ghost sand wolves, seeing that they could not survive.

Qinglong Baihu Suzaku Xuanwu, because the old man Baihu was ill, the old man Qinglong had been carrying him all the way as the elder brother, which caused his originally not strong combat effectiveness to drop sharply!

Although the old man Qinglong had the desperate protection of the old Suzaku and the old Xuanwu, he was still bitten by the nether sand wolf several blood holes in an instant, and the blood of the leather work clothes continued to flow.

The ghost sand wolves who smelled the blood were still approaching.

"Brother, let me go! I have been afflicting you for so many years, and I can't afflict you anymore! You guys are fully capable and capable of fleeing back into the crowd!" the old white tiger shouted.

"Hahaha, let alone the four of our brothers can't be accommodated here, even if it can accommodate, our brothers will never leave you! The four of our brothers have to live all or leave, and die together!" The old man Qinglong laughed wildly and said.

"Yes, second brother, our brother is still alive, and we will never let these **** beasts hurt you!" said the old man Zhuque and old man Xuanwu at the same time.

Seeing death suddenly like home!

The faces of other miners who are constantly running towards Tucheng are numb. After living in the Laika Desert for decades and hundreds of years, they have long been used to seeing this kind of life and death.

Besides, they offended the captain who was in charge of a team of thousands of people and tens of thousands. Even if they managed to escape into Tucheng, the future result would be a dead end.

Another Netherworld Sand Wolf rushed towards the old man of the four elephants.

Just when the old man in the four elephants was desperate, huh! A dark shadow flashed in front of them.

The dark shadow directly slammed a Nether Sand Wolf into the sandpit. The dark guy rode directly on the body of the Nether Sand Wolf, allowing other Nether Sand Wolf to besiege and bite his body.

There was no fear at all, he still raised his iron fist to face the head of the Nether Sand Wolf riding under his crotch with dozens of consecutive punches.

boom!

boom!

With every punch, the Nether Sand Wolf's head will dent downward, a few drops of blood will splash, and the Nether Sand Wolf will scream several times.

"Venerable! There will be a powerful person at the venerable level to take action for us!"

At this time, the old people of Sixiang were full of joy, not because they might live, but because they finally felt a touch of warmth in this nether world!

Even if they all died here today, they have been satisfied in their hearts after feeding the Nether Sand Wolf.

When their attention was focused on Tang Xiaolong, the attacks that were not strong in their hands would inevitably be messy.

A Nether Sand Wolf with its mouth full of blood retreated back, and instantly rushed to the old White Tiger who was carrying the old man Qinglong, but at this moment, a figure suddenly stood in front of the Nether Sand Wolf.

It is Li Tian!

Zizi!

Facing the attack of the Nether Sand Wolf, Li Tian did not show the slightest fear on his face.

Li Tian's arms slammed into the mouth of the Nether Sand Wolf's blood basin, and several purple electric dragons rushed into the Nether Sand Wolf's body along with Li Tian's arms bitten by the Nether Sand Wolf.

moment! The Nether Sand Wolf let out a scream, and its body was swallowed by the purple electric dragon.

The Sixiang elder finally saw Li Tian clearly, their faces were full of surprises!

"Why are you here? Could it be... Did you enter this world through the gate of the restricted area?" the old man Bai Hu asked.

"Is this the time to revisit the past? Xiao Li Tian's current cultivation base is stronger than ours. Quickly pull Xiao Li Tian out, there is no need to let him die with us!" The old man Qinglong said, holding back the pain in his leg.

"With me, none of you will have trouble!" Li Tian said with firm eyes.

The Sixiang old man was startled, and then he smiled comfortably.

When they came to the Netherworld, they offended Emperor Yu Frost. They knew that death was only a matter of time. They were very satisfied to meet Li Tian here today!

boom!

boom!

Tang Xiaolong had already blasted the back of the Nether Sand Wolf's head under his crotch into dregs, then turned around abruptly, and the murderous eyes frightened the Nether Sand Wolf that was biting behind him.

Tang Xiaolong sneered with disdain from the corner of his mouth, dragging the body of the Nether Sand Wolf to the old man of the four elephants.

"Four masters, you are frightened! With the little boss and I, please feel at ease!"

Tang Xiaolong said that he threw the body of the Nether Sand Wolf forward, and directly smashed it at a Nether Sand Wolf that was slowly approaching them.

"This... this black guy... is it Tang Xiaolong?"

"Have you successfully practiced the ten-fold training body?" The old Xuanwu said excitedly.

"I have reached the realm of Dzogchen! Now my cultivation is at the first level of the Venerable, and it is not far from the peak period!" Tang Xiaolong said.

"Little Litian, Tang Xiaolong, I didn't expect to meet you here. Even if we leave this old bone here today, we are still satisfied!"

"None of you will be fine! No matter how many Nether Sandwolves are hurting you, it will continue to hurt you!"

When Li Tian said this, his arm made a purple electric dragon with black flames all over his body suddenly appeared!

The powerful murderous aura made the cultivating miners who were struggling to tremble, and the small captains who had not had time to enter the Tucheng felt scared, so that the guys of the withered bones couldn't help but stared at Li Tian more.

As for those ghost sand wolves.

Although they cultivate well, they are animals after all.

The murderous aura released from Tang Xiaolong and Li Tian fled to the side in fright.

At this moment, the wolf king of this group of ghost sand wolves was standing on a sand dune, staring at Li Tian from a distance.

"Wow!"

The Wolf King let out a roar and ordered all the Nether Sandwolves to retreat!

...

The old lame man standing on the wall of Tucheng saw this scene and couldn't help but nodded slightly.

"It looks like an amazing little guy has arrived in the Lycra Desert! I don't know if you, this little guy, have the ability to accomplish what I haven't done? If you have this ability, the old **** will help you even if he fights his life. Put!"

Chapter 4387: : Li Tian's request (1)

Li Tian and Tang Xiaolong assisted the four elephant elders into the Tucheng in the eyes of the public.

All the cultivators and miners avoided Li Tian and the others as if they had seen a ghost, while the small captains and large captains looked at Li Tian with abusive expressions on their faces.

"Chen Peng? Those two guys are yours? Really kind!" The captain miner who had just pushed the Sixiang old man and other old guys out of the crowd came to Chen Peng's side and said with a sneer.

Chen Peng glanced at Li Tian and said: "The newcomer is only half a month old, unfamiliar, and has no friendship. You can do whatever you want without looking at my face!"

"That's the best, otherwise none of us will be able to survive by the time!"

The guy pushing the guy is called Gao Liang, and he dian head to Chen Peng, which is regarded as expressing his gratitude to Chen Peng.

Immediately, the few captains behind Gao Liang quickly disappeared from the crowd and got into Li Tian's team, chatting diligently with the cultivators and miners.

A few minutes later, a small team leader came to the team leader who was pushing people and said in a low voice: "Brother Liang, I have investigated just now. That is called Li Tian, and all of his men are called Brother Tian. That is. It has only been ten days since the guy entered the Laika Desert. I heard that the old **** personally sent him into the mine. As for whether he has any other relationship with the old cripple, it is still unknown."

"The dark guy he set up was called Tang Xiaolong, who possessed the Venerable Intermediate Level One realm. On the first day they entered the mine, these two guys beat up their original team leader Hei Dazuo. Then he became the team leader."

"There is also a dian which is quite incomprehensible. That guy only has the cultivation base of the ninth-level peak realm, but he can use teleport. Many brothers have seen it with their own eyes. So I feel that these two guys may have a dian. No longer we wait..."

Before this team leader had finished speaking, he was kicked by Gao Liang!

"Lao Tzu just asked you to inquire about the news, but did not let you express your opinion! If you are afraid of death, you can roll Lao Tzu aside now, you don't need to follow Lao Tzu in the future!" Gao Liang said angrily.

The sweat on the forehead of the kicked squad leader was dripping. He is just a strong man at the top of the first class. He seems not weak in the Laika Desert, but if he loses Gao Liang's shelter, No one would dare to accept him in the future, and he might be completely reduced to a miner just like Captain Chen Peng's original captain.

"Brother Liang, I know it was wrong! You come to arrange, and I will do it as you say how to do it!" said the team leader.

Gao Liang diminished his head slightly and said, "This Tucheng is the site of the lame, and none of us dare to be presumptuous in Tucheng. After we get to the mine, where is our world, we will give Chen Peng the land. , And then you take the captains of our seven or eight teams and their assistants to Li Tian's mine quietly! I don't need me to teach you how to do the rest, right?"

"Small understand!" said the team leader's eyes with a glimmer of cold light.

...

Entering Tucheng, only those large captains are qualified to live in the low and dilapidated soil houses in Tucheng. As for the small captains at most, they can sit on the ground around the soil houses.

The other miners were seated on the open ground according to the positions of the brigade and squad.

The temperature in the desert during the day is scary, but at night the temperature will drop suddenly. If there is no cultivation base, it is difficult to survive the night in this desert!

Moreover, the night in this desert is not calm. The Nether Sand Wolf dare not enter the Tucheng, but the small animals and insects in the desert will not let go of this opportunity.

Especially those little guys who **** blood.

These were all told to Li Tian by Hei Dachu, so Hei Dachu told Li Tian that even if he entered Tucheng, he had better choose the position of the middle dian.

But I am afraid it will not be done today.

As soon as he entered Tucheng, Li Tian already felt the fear and hostility in the eyes of other miners.

Li Tian originally wanted to take the four elephant old man back to his team, but was blocked by Chen Peng's other team leaders.

"Xiao Litian, we are used to it! It is also good to rest on the edge of Tucheng. After all, you can breathe fresh air here, and you can see the stars in the sky at night!" The old man Qinglong comforted Li Tian. .

After ten years of hard life in the mines of the Laika desert, the four elephants have long erased their spirit.

"Then you will be wronged by the four masters!" Li Tian said.

In the presence of these 100,000 people, Li Tian could not send the Sixiang elders into the void of Yaksha. Fortunately, the Sixiang elders' own medical skills are good, and they even possess the secret technique to bring the dead back to life, so their injuries So sick that Li Tian doesn't need too much attention.

Li Tian asked Tang Xiaolong to take their spiritual soil to find the old lame, so that the old lame could register.

The old cripple is not something ordinary people can see!

He is only responsible for registering the spiritual soil of each brigade, and he only considers which brigade has completed the mining of spiritual soil minerals, and the blanket is responsible for collecting those spiritual soils.

Generally, only the captain was qualified to meet the old lame, not enough today. Tang Xiaolong was lucky. The old lame saw Li Tian and Tang Xiaolong, and then recorded their spiritual soil level.

When Tang Xiaolong came back, Li Tian asked Tang Xiaolong to continue to take care of the old man of the four elephants. He stood up, turned and walked towards Gao Liang.

Seeing Li Tian slowly walking towards Gao Liang, the attention of all the practitioners in the room fell on Li Tian. The small captains and large captains had joking expressions on their faces, wanting to see how Li Tian was caught by Gao Liang. Humiliating.

The old lame glanced at Li Tian, couldn't help but shook his head slightly, and muttered to himself: "It's irrational, irrational! But this dian is quite irrational, and he said to himself: The heroic appearance of Lao Tzu!"

The blanket was closing the spiritual soil. Seeing Li Tian walking towards Gao Liang, he couldn't help shaking his head.

"The old lame still wants me to follow this guy? Does it feel that I have lived too long and want me to die quickly? I am not dead, tomorrow I must let him completely dispel this idea!"

Chen Peng looked at Li Tian with interest. In his eyes, Li Tian's death was not far away, and he was just looking for fun in his boring miner career.

Hei Dacu temporarily took over Li Tian's team. He wanted to stand up and remind Li Tian not to provoke Gao Liang, but in the end he still did not dare to stand up.

"Li Tian, I have already reminded you, that fellow Gao Liang is a fourth-level powerhouse of the Venerable, and you can't provoke him. This is my best benevolence!"

The expression on Li Tian's face was natural, there was no panic or arrogance, as if the 100,000 cultivator miners did not exist in the entire Tucheng.

Several team leaders of Gao Liang wanted to stop Li Tian, but Gao Liang stopped them.

"Let him come over! I really wanted to see what fart this guy could give out before he died!"

Chapter 4388: : Li Tian's request (2)

Li Tian came to Gao Liang.

While Gao Liang was looking at Li Tian, Li Tian was also looking at Gao Liang.

Gao Liang should be a human race, at least his appearance Li Tian can't see anything different from human beings. He is not tall, probably one or two inches taller than Tang Xiaolong now. His body skin is similar to that of other humans. Like a miner who is digging in a mine, his skin is a bit pale, but his palms are a bit earthy!

Li Tian knew that this was one of the side effects of Gao Liang's direct absorption of spiritual power from the earth.

For the time being, this side effect seems to be invisible, but as time goes by, Gao Liang will feel the harm to his body by this side effect!

"You are Li Tian? Yes, very kind! I admire you very much. I don't know if you want to follow me? If you want, I will talk to Captain Chen Peng!" Gao Liang said first.

Today Li Tian rescued the Sixiang old man and the others was already beating Gao Liang in the face, and Gao Liang felt that there was a guilty breath in his heart that was difficult to express.

However, since he can survive in the Laika Desert for hundreds of years, Gao Liang is definitely not the kind of uncomfortable guy. If Li Tian is willing to follow him, then he does not need to make other arrangements to make Li Tian suddenly in the mine. The accidental death of China was nothing but a piece of cake for him.

A slight smile appeared at the corner of Li Tian's mouth, and said, "Thank you Captain Gao Liang for your kindness. Let me consider it for the time being. Today I am here to ask Captain Gao Liang's physique. Those old gentlemen are my old friends and treat me. You're good, I know it, this is the bottom line of my life, Li Tian, so I took the liberty to offend Captain Gao Liang, and I hope Captain Gao Liang will forgive me."

"But those four old gentlemen are very old, and going to the mine is extremely dangerous, so I took the liberty to ask Captain Gao Liang to agree to let them follow me in the future, so that it will save trouble Captain Gao Liang will remember their life and death!"

Gao Liang's eyebrows were slightly slightly. Although Li Tian showed apology and humility everywhere, Gao Liang felt that Li Tian seemed to have a knife on him.

"Hahaha, since Li Tian you are willing to accept these old gentlemen, that would be great. Those old gentlemen will follow you in the future."

"But you also said just now that a few old gentlemen are old, and their legs and feet will naturally be a little unfavorable. You can take good care of them so that they don't fall into two shortcomings while walking unsteadily. But my ugliness comes first. , These old gentlemen have made outstanding contributions to the mining business of our brigade. I am willing to hand it over to you when I am relieved. If they have some shortcomings in your hands, then don't blame me for being rude to you! "

When he was speaking, Gao Liang suddenly released a powerful murderous aura. This murderous aura made everyone around Gao Liang feel the icy cold in the air instantly.

Li Tian's spiritual power was secretly transferred to resist the murderous aura released by Gao Liang, and then said: "Then thank you Lord Gao Liang, I will leave!"

...

What Li Tian and Gao Liang said, these words fell into the ears of the captains.

The captains couldn't help shaking their heads.

"I don't know the great guy. In the past few hundred years, there have been no one hundred or eighty people who have provoke Captain Gao Liang, but what is the final result? Captain Gao Liang is safe and sound. The people who have disappeared for various reasons!"

"The ninth-level master of the cultivator? Perhaps only he can use the teleportation to make people have some reveries, but what about teleportation? Even if he is the first, second, or even third-level Venerable A strong person in the realm will also die miserably!"

All people think that Li Tian and others have not lived for a few days, but their eyes did not show compassion, but were full of excitement!

...

At night, the transport aircraft flew over Tucheng.

It was the dark one that looked somewhat similar to the Kirov airship.

Many people got on and off the airship, including men and women, and then those guys in Tucheng who had completed the mission's spiritual soil and had extra spiritual soil began to transport the flying vehicles and exchange some water with the spiritual soil they had exchanged for their lives. Wine, food, etc.

Of course, there are also those strong guys who use the sperm and spiritual soil they have accumulated for several years to exchange for those women, and then pull those women into makeshift tents built up with a few animal skins, and come hard. Last post!

"Ah! Hmm!"

"So strong!"

...

Everyone is used to this kind of thing.

Those guys who haven't saved enough spiritual soil even if they can't make a shot in person, even if they can't witness this kind of battle with their own eyes, but can hear such sweet shouts, they feel satisfied.

Especially the guys who are near the makeshift tent. They stare with bloodshot eyes, gasping for breath, and the hands holding the digging tools do not know when they have been caught under their crotches, one by one seems to be in heat. The bull is average!

"Damn it is so tempting!"

"I knew that I wouldn't be greedy for alcohol!"

"I really want to have a shot! If I can live for a few more years, then I must save my soul in the past few years, and then I will do a fierce shot with these women, if I accidentally plant a shot Seed, I will have no regrets in my entire life!"

...

Li Tian's attention was more focused on his team. Several people in his team could not bear all kinds of temptations and exchanged their spiritual soil. The two brothers Hei Dacu couldn't wait to change some water and wine. Holding the wine jar and started drinking.

Li Tian was a little disappointed. The spiritual soil was lost in this way, and Li Tian felt his heart dripping with blood.

It seems that we must let those guys taste the taste of Niulanshan as soon as possible.

"Brother God, these **** actually take our words as deaf ears. It seems that we are still too kind to them. After we go back, I must clean up these **** fiercely!" Tang Xiaolong said.

Li Tian waved his hand slightly and said, "These spiritual soils were originally their private property. In this Laika desert, no one knows when they will lose their lives, and timely enjoyment is also a kind of life for them!"

A smirk suddenly appeared on Li Tian's face, and he said to the Sixiang old man: "Several masters have not tried the taste of a woman for thousands of years. Hehe, I just fell into this ghost world

again. If you are like this There will be some regrets in my heart after falling. I still have some spiritual soil here. How many masters do you want to consume?"

The four fellows of the four elephants blushed and coughed violently at the same time.

Message to readers:

I didn't want to explain at first, but I saw that someone was very concerned about the clone, so let's just say a few words.

The avatar was set a long time ago: the first is to solve the separation problem encountered by Li Tian and Duanmuying, after all, everyone does not want Li Tian to be a ruthless and unjust person for his purpose! The second is the need of the plot, so please let me sell it first, and you will know why there is a clone in the future!

Chapter 4389: : Incident of missing persons in the mine (1)

No words for a night.

It is not that Li Tian and Sixiang elders have nothing to say, but there are so many people here, Li Tian and Sixiang elders have too many things to say but cannot say.

The next day, just as the sky fell, the miners had to return to the pit.

Yesterday's transport aircraft brought more than 2,000 miners from the early stage of the apprenticeship, and these guys were organized into more than a dozen brigades.

Li Tian's team did not lose personnel this time, and there was no increase in staff, but because of the four elephant elders, the number of Li Tian's team still increased to 185.

Back in the mine controlled by Chen Peng, Chen Peng, in front of more than a dozen team captains, announced that Li Tian's team would continue to be led by the two black brothers.

No one was surprised by Chen Peng's decision, because everyone's psychology was clear that Li Tian was almost finished.

Those team captains walked around Li Tian. It turns out that the miners of Li Tian team avoided Li Tian like a plague god.

"Brother Li Tian, please forgive me. This is Brother Peng's decision. Our brothers have no choice but to implement it." Hei Dacu said to Li Tian.

"It's okay. It's mine. It's definitely mine. It's not mine. Even if you give it to me, I won't want it! This team leader is yours! It doesn't matter how harsh you are to me and my brother Tang Xiaolong, but, If you dare to be half-hearted to these four old gentlemen, don't blame me for being rude to your brothers!" Li Tian said with a sneer.

The two black brothers shivered involuntarily, and they both shook their heads at the same time.

They wanted to take the position of the team leader, but they didn't want to offend Li Tian, after all, the strength that Li Tian displayed still made them quite jealous.

It was precisely for this reason that the two black brothers gave the order to die, not allowing the miners of the team to tell Li Tianneng summoning the other four powerful masters.

...

Back in the mine, Li Tian began a dull mining career again.

Jingle bells!

This sound is not a piece of music. I felt irritable when I first started mining, but after a long time I got used to it. Sometimes there is no such sound in my ears, and sometimes it feels weird if I can't hear this sound of.

Although Hei Dazu became the team leader again, and his attitude towards Li Tian was not as respectful as before, but everyone avoided Li Tian, which just gave Li Tian a chance.

Li Tianxian brought the four elephant elders into the space of Void Yasha.

In the space, Situ Ningbing and several other women treated the four old men as juniors, and even at Li Tian's request, they brought fine wine to the four old men to toast.

Sixiang old man is definitely Li Tian's senior figure. When Li Tian got married, they were no longer in the earth world, so there was no way to invite them. Now that there is a chance, this wine must be made up.

The four elders endured ten years of suffering in the Laika Desert, and they couldn't help crying even after receiving toasts from Situ Ningbing and others.

These are tears of joy, tears of joy.

Li Tian felt a little regretful while he was happy.

The four elephant elders have been found by Li Tian, and Li Tian will be able to take care of them in the future, but the evil ***** Li Kuafu...

Everyone in the four elephants was a little drunk, and then stopped.

Then Li Tian asked Windsor and Liu Yihui to carefully examine the body of the old man in the four elephants, and asked Windsor to see if he could cure the old man's leg problems.

After close inspection, the four elders are still in good health, and their injuries are not serious. Windsor used her ability to treat the traumas of the four elders, but Windsor is not able to treat the old white tiger's leg problems temporarily. Method.

If you want to completely treat the old white tiger's leg disease, let the old man not be in a wheelchair unless he undergoes a leg replacement operation, just like replacing those zombies with zombie organs in the end times.

However, the white tiger old man is not a zombie after all, and the requirements for this leg replacement surgery are also very high, requiring both fresh organs and extremely strict operating environment.

Li Tiandao had thought about grabbing a fellow in the Netherworld at will and giving him a divine soil or Erguotou, and then let the old white tiger stand up again, but after thinking about it, Li Tian gave it up.

The humans of the Netherworld and the humans of the earth world look very similar, but this science is rigorous, just because the blood type is different, it may be fatal. Li Tian is not willing to take the white tiger old man to risk!

...

Taking the risk to save the Sixiang old man put Li Tian in a dangerous situation, but Li Tian did not regret it. If time goes back and Li Tian faces such a choice again, Li Tian will still stand up to save the Sixiang old man without hesitation.

But Li Tian also knew that he had offended the guy he couldn't afford now.

Venerable fourth-level master!

You can easily kill Li Tian's existence!

But now that things have happened, Li Tian is not afraid of things.

Li Tian thought of many ways to deal with Gao Liang, but in the end he denied them one by one.

Li Tian thought about sending Gao Liang into the space of the ground travel Yaksha and Feitian Yaksha that have been repaired by the Void Yaksha. Gao Liang can definitely blast the walls of that space and then let Gao Liang travel to the Void for free, but this idea is only It's just a flash.

Leaving aside whether Li Tian can send Gao Liang into the space, even if it is sent into the space, Li Tian is worried that Gao Liang will completely break the space of the three Yashas, and then Li Tianke will really want to cry without tears.

Li Tian also thought about sending Gao Liang into the space of the Qiong Spear of the sky, but the premise for this is to bring out the third son of the Netherworld and others, arrange the words in the space of the three Yashas, and then wait until Li Tian repairs In order to reach the four-level strength of the Venerable, he would enter the space of the Qiong Lance of the sky and behead Gao Liang.

But in this way, the space of the Heavenly Qiong Spear will be useless for a long time, and the things that Li Tian hoarded in the Heavenly Qiong Spear will be destroyed by Gao Liang.

"Hey, it's really troublesome! I'm good at it, but the reality is that it is a prostitution! It seems that if Gao Liang comes to mess with me, I can only hide in the space of Void Yaksha and pretend to be missing!" Li Tian thought in his heart. .

...

What surprised Li Tian was that Gao Liang did not attack him in the past few days. Li Tian thought that Gao Liang had a large number of adults and had a slight tendency to be abused. When Li Tian hit the left cheek, he would obediently put his right cheek. When he came to let Li Tian fight, the trouble still came.

But it was not Gao Liang, but the seven team captains of Gao Liang.

The cultivation of these team leaders is not bad, the weakest have the strength of the first level of the sage, and there are even two who have the initial level of the sage!

"Li Tian? Do you know why we are looking for you?" Several team leaders sneered at Li Tian and said.

Chapter 4390: : Incident of missing persons in the mine (2)

The four elephants old man and Tang Xiaolong all surrounded!

Several team leaders looked at the stinky sweet potato rotten bird eggs beside Li Tian with a sneer involuntarily: "What? You still want to support Li Tian? You should know who Li Tian offended, if

you don't want to. If you get into trouble and don't want to die too fast, you'd better get out of me immediately!"

Li Tianxiang looked around and found that today's mine is exceptionally quiet. Even if the apprentice miners avoid Li Tian and others on weekdays, they will not hide too far. Li Tian can still hear the miners. The sound of our mining.

But today, these voices have disappeared.

On weekdays, the **** brothers would run to Li Tian and talk to Li Tian. On the one hand, they explained that they did not want to **** the position of Li Tian's team leader. On the other hand, they wanted to hear Li Tian brag. .

They all love to listen to Li Tian's various legendary stories about flying into the sky and going up into the sea.

Anyway, they think Li Tian is bragging!

Today, the two black brothers have never appeared.

Li Tian already understood.

"well!"

"Chen Peng, in any case, I am still a member of your brigade. You don't need to help me Li Tian. I didn't expect you to help Gao Liang's people. If so, don't blame me!" Li Tianxin thought .

Li Tian showed a smile that he thought could fascinate everything. He walked a few steps forward and came to the side of these small captains. He said, "Brothers, do you think we have any misunderstandings? I have already clarified all the issues with Lord Gao Liang. In this way, several brothers took me to see Lord Gao Liang, and we clarified the problem in front of Lord Gao Liang."

"Misunderstanding? I hope it is a misunderstanding. You dared to offend our Lord Gao Liang in order to save these old things. I tell you the truth, today it is our Lord Gao Liang who sent us to take care of you!" One of the team leaders sneered. Said.

"It seems that we don't have to talk about it today? Originally, I wanted to give Gao Liang a face. It seems that this is my own passion! If so, let's do it!"

As soon as Li Tian's words fell, Li Tian's figure flashed, and the two team captains who had pulled him just now disappeared in the same place with Li Tian. These two team leaders are the strongest and most powerful Venerables in the early second stage. The strong.

In the next second, these two guys' eyes lit up, and they suddenly appeared in a temple.

"This...what is this place?"

The two captains found them suddenly appearing here, and suddenly said with some surprise.

"Three Young Masters, Vicious Dogs, two first, you give me a good greeting!" Li Tian shouted at the outside of the temple, and then Li Tian disappeared.

When Li Tian reappeared in the mine, there was also the Four Mountains Venerable East, West, South, and North that appeared at the same time as Li Tian.

No, let's not say that the strength of the sages of these mines is weak enough.

The five Venerables who were strong at the first level were unable to deal with Tang Xiaolong, a Venerable at the first level.

Their fists with powerful energy fluctuations landed on Tang Xiaolong, who had already performed ten-fold refining, as if drumsticks were beating the drums, making a bang.

Tang Xiaolong was unscathed.

Instead, Tang Xiaolong took advantage of his strength and slammed a guy's face with a punch, slapped that guy's face and blossomed with blood.

Seeing the four Venerable Li Tianhe suddenly appeared, the faces of these guys couldn't help showing horror!

"Those **** have never said that Li Tian has other venerable helpers in this mine!"

"Where did the two squad captains of Venerable Level 2 go? Damn, I must report to Brother Liang when I go back, these two **** slipped away when the battle started!"

The four mountains in the southeast and northwest, the Dongshan and Nanshan are now the first-level peak powers, the Xishan and the Beishan are the first-level powers, plus Li Tian, although there are only practitioners The ninth level of the pinnacle realm, but the enchanting existence that was enough to kill the noble one level in seconds, the battle that was originally equal to each other was instantly broken.

The Sixiang old man watched the fight between Li Tian and Tang Xiaolong and others dumbfounded.

"This...Where did these venerables come from? Haven't heard Xiao Litian say it before?"

"Xiao Litian has too many secrets, if it weren't for him to take us..."

"Ahem!"

"I'm afraid we don't even know there is such a place!"

"It seems that we are really old, now Xiao Li Tian and Tang Xiaolong belong to them!"

"Now I'm relieved, let's watch the show together! By the way, I heard that Long Yin has also come in. It seems that Xiao Li Tian and Long Yin have really turned their fights into jade!"

...

The purple electric dragon on Li Tian shone, shining the entire dark mine into purple gold. Li Tian's appearance was very cool, but it was not his turn to take action.

Originally, Gao Liang sent only seven team captains. The two venerable second-level powerhouses were sent by Li Tian to the Qiqiong Spear of the sky. Now there are five remaining. As a result, these five were entangled by Tang Xiaolong and the venerable Xishan. Live, no, to be precise, press and beat!

One of its team leaders managed to break free from the attack of Venerable Xishan, teleporting under the coercive attack of Venerable Xishan turned out to be only three meters away, just in front of Li Tian.

Li Tian was overjoyed.

"There is a door to heaven, you don't go, there is no way to hell, you break in... Go to your mother, you teleport to Lao Tzu! You arrogant to Lao Tzu! You to Lao Tzu..."

Li Tian's fists kept falling on the team leader, and the purple electric dragon swarmed into his body in an instant, and quickly swallowed his body completely.

Click, a skin bag on the captain's waist fell to the ground.

Li Tianshun held it in his hand.

"Hey, this **** has searched so many people's anointments... Eh, spiritual soil, just so, let me laugh at this thing!" Li Tian said with a smile.

Then Li Tian brought Meng Guang out of the space of Qiong Spear of Heaven.

"Meng Guang, go! Get all the skin bags back for me!"

"I rub, the little boss is so refreshing and refined to steal things, I am also drunk!"

Meng Guang lived up to the expectations, a few figures flickered, and his hand had a few extra skins, and he handed it over to Li Tian with a smile.

Looking at Li Tian's various patterns and the tragic death of the Venerable First-Class team leader just now, the remaining four team leaders just wanted to kneel and beg for mercy, but it was obvious that Li Tian would not give them this opportunity!

Huh!

Huh!

Huh!

Several figures flashed past, and these team leaders were sent into the space of the Heavenly Qiong Lance by Li Tian in the name of justice.

The battle in the Qiong Lance Space of the Sky is also coming to an end!

One of the Venerables at the early stage of the second level was entangled by a vicious dog. It didn't take long for him to be pierced in the heart by a long-bone tail of the vicious dog. The level powerhouse besieged, peeing out of pants!

"Brother Li Tian, come to play?" Ye Liangchen said with a smile.

The skins of these two venerables had fallen into Li Tian's hands again.

"You continue, I'm just passing by!" Li Tian's figure flashed as he said, flashing out of space.
