

## A Killer 4401

Chapter 4401: : Guess right, guess wrong (2)

Li Tian is not right or wrong.

With the palm of his hand over, Li Tian had a few more spiritual sources in his hand!

Turning his hands again, these spiritual sources disappeared.

Seeing Lingyuan, the bandit leader's eyes flashed with a gleam, and he couldn't help but nod slightly.

Li Tian didn't stop there.

The bandit leader controlled him so that he could not enter the space of Void Yaksha, but this did not affect Li Tian's mind to let Void Yaksha send out the things in the space of Void Yaksha to Li Tian.

Including, Windsor and Liu Yihui.

Huh!

There were two more people beside Li Tian, it was Windsor and Liu Yihui.

Seeing these two men suddenly appeared, the bandit leader's eyes brightened.

"Good! Good! Good!"

"The old lame didn't guess wrong, you are the one we are waiting for!"

"Go, follow me into the Spirit Earth City. Do you know how long we have waited for this day?" The robber leader said excitedly.

Li Tian comes from the earth world, and has more intelligence from the old lame. Li Tian just passed the gate of the restricted area to reach the underworld, he was caught and sent to the old lame in the Laika Desert. All these spiritual sources will definitely not be Li. The sky was obtained in the underworld.

In addition, Li Tian can summon Windsor and Liu Yihui at will, which convinced the bandit leader that Li Tian should have a space artifact that can accommodate living people.

There are also Li Tian's name and the wine that Li Tian brought out in the mine. In combination, the bandit leader has been convinced that Li Tian is the one they are waiting for.

Li Tian secretly breathed a sigh of relief.

Until now, Li Tian felt that he had finally passed the first wave of danger when he came to the Netherworld.

Li Tian could guess that whether this old lame man or the spiritual soil robber of the spiritual soil city in front of him is more or less related to the mysterious long-haired woman.

He Li Tian is safe.

Li Tian let out a sigh, waved his hand and said, "Am I the one you are waiting for?"

"That's right? Otherwise, why are we trying to save you!"

"Very well, now I can be sure that I am the one you are waiting for, but how do you convince me that you are the one waiting for me?" Li Tian can tolerate this bumpy road, and Li Tian can also be tolerated by a robber boy, but What Li Tian couldn't bear was that Tang Xiaolong was suffering during these few hours, but he was powerless.

"This! What do you want?"

"You can see the cultivation bases of the two people I brought out. Their cultivation bases have not yet reached the realm of cultivators. The two of them certainly pose no danger to you. They are my doctors. Now please release them. The coercion on them! I want them to heal my good brother!" Li Tian said.

"Yes! It's rude!"

In an instant, the pressure exerted on Li Tian, Windsor and Liu Yihui was completely relieved.

"Windsor, go see Xiaolong, he is seriously injured!" Li Tian said anxiously.

Windsor and Liu Yihui rushed to Tang Xiaolong's side and gave Tang Xiaolong emergency treatment.

Tang Xiaolong has a body of ten-fold refining. From the outside, Tang Xiaolong doesn't seem to be injured, but all Tang Xiaolong's injuries are bones and internal injuries.

Windsor pressed her hands on Tang Xiaolong, and the energy from her faintly poured into Tang Xiaolong's body. With this energy pouring in, Tang Xiaolong suffered from pain, and the sweat on his forehead dripped faster.

Crackling!

The bones in Tang Xiaolong's body were continuously corrected in these energy, and healed quickly.

"Li Tian, can you enter the city with us now?" said the bandit leader.

"It's okay to enter the city, but can I ask who you are entrusted to wait for me here, and why are you waiting for me?" Li Tian asked.

Regardless of the old lame man, or spiritual soil robber, these guys are completely different from the people Li Tian had encountered before.

In Dongying Island, when Li Tian encountered a small hot pot, the small hot pot was nailed to the boulder by the Qiong Spear of the sky, leaving Li Tian to deal with it. The cultivation base of the small hot pot was not much better than Li Tian. The little hot pot followed Li Tian to return to the Netherworld and become the strongest of the venerable, but the little hot pot delivered the Heavenly Qiong Spear to Li Tian's hands.

In the ancient city under the sea, the virtual spirits only existed in a ghost state. They were only entrusted by the female domain master. They were waiting for Li Tian to arrive, followed Li Tian back to the Netherworld, and found a place to survive in Li Tian's hands. Li Tian, an ancient city under the sea, got his heart.

At the death battlefield, the refugees from Supreme and Supreme Mansion were waiting for Li Tian to guard the Qingyun Palace, and their purpose was to follow Li Tian back to the Netherworld.

So what about the old \*\*\*\*\* and these astral bandits?

What is their purpose of guarding here?

You must know that the biggest difference between these guys and Li Tian before is strength!

These guys have the ability to easily kill Li Tian in seconds, so even if they think Li Tian is the person they are waiting for, Li Tian dare not believe them easily.

The bandit leader dispelled all the other robbers in the spiritual soil, leaving only the bandit boy.

"All these years, the only thing waiting for you is the old lame, not us. Little lame, come over, uncover the blanket on your body, and let Li Tian see it!" The robber boy walked to him, and the robber leader pointed at that The robber boy continued: "This boy is nicknamed Little Cripple. He is the old \*\*\*\*\* child you saw in Tucheng!"

The little cripp has already uncovered the heavy blanket wrapped around him. From the looks of it, the little cripp is somewhat similar to the old cripp. However, the ages of the little cripp and the old cripp are almost the same. If they stand together, Li Tian will even think that they are brothers.

"This is...?" Li Tian asked suspiciously.

"Presumably you have also discovered along the way. The little cripple's cultivation base is poor and pitiful. He is only a fifth-level master as a cultivator until now. The life span of a cultivator is limited, far less than that of the venerable or the domain master, so his He looks older!"

"You have been in the Laika Desert for almost two months. I think you should have known that the Laika Desert is a cursed desert. Perhaps it is because the underground contains a lot of spiritual minerals. Once you enter the Laika Desert, repair Those who are above the cultivator cannot absorb the aura of heaven and earth through natural cultivation."

"The cultivator can only rely on the spiritual source, and the venerable can only rely on the spiritual soil, but in this Laika desert, it is easy to obtain the spiritual soil, but it is even more difficult to obtain the spiritual soil! Even if we are spiritual soil bandits, We have a lot of spiritual soil, and it is difficult to exchange for the spiritual source!"

"So...Is the old lame man waiting for me just to get the spiritual source from me?" Li Tian questioned.

"Of course not all! Since you have been to the death battlefield, then you should know that the refugees in the death battlefield, our spiritual soil bandits and spiritual soil miners in the Laika Desert are basically the same fate as the refugees!"

"Entering the Laika Desert, our destiny is completely comfortable in this Laika Desert. In theory, the miners can get the corresponding freedom as long as they persist for five hundred years, but the number of miners who can live for five hundred years is really high. Limited, even if you live for five hundred years, how many people can truly be free?"

"Leaving the Laika Desert, they are still excluded from any kingdom of the Venerable. They are still ghosts and still have no place to survive. In the end, they will choose to enter the Laika Desert! Become a miner or a gangster!"

"However, this is not the life we want, and even if we can accept this fate, this is not the fate that our younger generations should bear! The old \*\*\*\* is waiting for a man who can break this fate, and this man may be you ...Li Tian!"

Chapter 4402: : Falling grass is a bandit (1)

Li Tian didn't know who gave the old lame so much confidence that he actually believed that Li Tian was the man who could change the current pattern of the Lycra Desert.

Ok!

Men can't say they can't!

Entering the Spirit Earth City, the grass has officially fallen!

For Li Tian, staying in the earth city is better than being an earth miner under Emperor Frost!

At least in Lingtu City, Li Tian enjoyed VIP-level treatment. The most luxurious earth building in Lingtu City is inhabited by Li Tian, Tang Xiaolong and others.

How luxurious is the most luxurious tulou...Eh, it is still a tulou in general, but with more soil and less sand, and it's a small two-story single building!

This feeling is like the most embarrassing beggar in the beggar gang. It is still the same concept as a beggar. At best, the beggar is a super luxury limited edition beggar.

The luxury of Lingtu City is relative to that of Tucheng.

The difference is that the interiors of the earth building in this city are still good!

Probably because of the scarcity of wood, all the buildings here can be made of soil and sand, absolutely without wood.

There are two floors in the earth building. The lower floor is considered to be the living room. The tables, chairs and benches in the living room are all sand, but this kind of sand seems to have been burned with fire, and it looks a bit like glass.

The second floor is regarded as the living area. The room upstairs is filled with Tukang, which seems to be to increase comfort. The Tukang is covered with a layer of weeds, and the top of the weeds is covered with the wolf skin of the Nether Sand Wolf. It's just a few blankets.

However, a tulou is a tulou. Even if there is such a blanket, as long as the wind blows, some gravel will fall on the stall.

Fortunately, the status of Li Tian and Tang Xiaolong in Lingtu City is considered to be the most lofty people in Lingtu City. He Feng arranged for Li Tian to have several three- and four-level spiritual soil bandits to listen to and dispatch at any time. .

Since the daily cleaning of the house is left to them.

He Feng is the bandit leader, a strong man with the Venerable's seventh-level peak cultivation base, and a strong man who can be regarded as the best in the entire Laika Desert.

What Li Tian couldn't understand was why such a dazzling and dazzling character as He Feng would live in the Laika Desert.

A great man like him should at least have his own kingdom in the underworld!

"Little boss, you don't understand this!"

The little boss followed Li Tian's three-level and four-level powerhouses, who followed Tang Xiaolong's name to Li Tian. They called Tang Xiaolong the Dragon Brother, which made Tang Xiaolong very useful.

"Little boss, if a monk-level powerhouse avoids the enemy, they can enter the battlefield of death, but like us poor creatures who have reached the realm of the nobleman, once we provoke a great enemy, we can only hide in the Laika desert! "

"Yes, like Chief He Feng, if he didn't meet the little boss you, he would not dare to take a step out of the Lycra Desert in his life. The person who told him to provoke is really too powerful!" said several robbers. .

Looking at the performance of these veteran robbers, it seems that they really want to tell Li Tian who the wind provokes, but Li Tian deliberately interrupted what they said every time.

Damn it, Li Tian has provoked enough people on the battlefield of death.

The descendants of the Blood Territory Lord's blood is believed to be killed by Li Tian, the son of Emperor Wuji was killed by Li Tian, the son of Kanglubu, the ninth-level master, Kang Erfu was killed by Li Tian, and Huanglou Huangzun, Emperor Xiyu, Emperor Lei, many of these dazzling emperors sent to the battlefield of death also died in the hands of Li Tian.

Although there are more lice and it doesn't itch, Li Tian has already felt how powerful the Emperor is as soon as he entered the Netherworld. Now it is important for him to keep a low profile and save his life.

Of course, give it a peach and repay it.

Regardless of He Feng and their goals, Li Tianneng does not help them achieve, at least Li Tian is now worry-free about food, clothing, and safety. For this, Li Tian threw dozens of spiritual sources to the little \*\*\*\*\* and let the little \*\*\*\*\* himself. To practice.

He Feng's eyes went straight when he saw Li Tian's move so generously, he looked like a local tyrant.

Don't even look at him brilliantly as the 7th-level peak powerhouse of the Venerable. Because he dare not leave the Lycra Desert, the number of spiritual sources he can exchange is extremely limited, otherwise the little lame would not be a fifth-level cultivator. Ashamed!

"Li Tian, how many spiritual sources do you have? Can I exchange the spiritual soil for your spiritual sources?" He Feng said.

Li Tian went to the tukang like a rich landlord, squinted his eyes and looked at He Feng, and said, "The landlord's house doesn't have much money left! Little lame, because of the old lame, I can give him A few spiritual sources cultivated, as to whether he can cultivate to the realm of venerable, it depends on his good fortune!"

He Feng's eyes couldn't help but dim.

After chatting with other robbers for several days, Li Tian knew that the blanket next to the old lame in Tucheng turned out to be He Feng's son.

Originally, He Feng was hoping that the old lame could bring his son's blanket, which could allow the blanket to be cultivated as soon as possible, but the old lame's ability was also limited. Now the cultivation base of the blanket is only the peak of the eighth level of cultivator.

There are still hundreds of spiritual sources from the Venerable level!

Who is this \*\*\*\*\* looking for to make sense?

Now Li Tian knows that the spiritual source in the Lycra Desert is more valuable than the spiritual soil. If Li Tian can give a miner at the ninth level of the apprentice a few spiritual sources to give him a chance to break into the realm of the nobleman, that miner can definitely do Li Tian worked hard!

The spiritual source is precious, of course Li Tian can't easily show all his hole cards.

"Brother He Feng..."

Ahem, Li Tian was so shameless, he even called the thousands-year-old He Feng his brother.

"You see, my current cultivation base is also at the ninth level of the cultivator, and there is still some distance from the realm of venerable. I can't take out this spiritual source at all. Then, when I first cultivate to the realm of venerable, I will naturally Will take out all the extra spiritual sources!" Li Tian said.

It was just a bad check, and He Feng was already quite grateful.

Of course, in order to save Li Tian, Li Tian would not treat the spiritual soil robbers badly. Li Tian in Niulan Mountain Erguotou had already taken out two boxes and asked He Feng to reward them.

I need to explain here that Gao Liang, a hard-working child, is really hard-working now.

It was because Gao Liang had acted on the old man of the four elephants and was about to behead Li Tian. As a result, he was beaten several times by Li Tian and Tang Xiaolong who had no grudges.

Severe beating is divided into: solo, doubles, mixed beating, and group fighting is still the case.

Anyway, before Gao Liang was controlled by Li Tian using the Soul Detention Dafa, every time he saw Li Tian, he couldn't help shivering. It was completely scared by Li Tian to pee and split.

After being controlled by Li Tian, Gao Liang was sent to Tucheng by Li Tian.

Li Tian needs someone to keep track of Tucheng news at any time. Of course, if the corpse is still in Tucheng, Gao Liang will assassinate the corpse by the way!

As for the result, this is not the most important thing, what is important is the process!

"This Spiritual Earth City is not a paradise. It seems that if I want to leave and come to the Laika Desert, I must hurry up and cultivate to the realm of the Venerable as soon as possible! But... after having a clone, why has my cultivation progress been so slow? It's time to cultivate the Qingyun obtained in Qingyun Palace!" Li Tian said to himself.

Chapter 4403: : Falling grass is a bandit (2)

The Qingyun obtained in Qingyun Palace was later written by Li Tian according to his memory.

After Situ Ningbing's confirmation and explanation, Li Tian knew that this Qingyun was the seventh heaven, named Tongtian.

Now, the blue clouds Li Tian has obtained are the Qingyun Qi Jue of the first sky, the second sky, and the fourth sky, and the clear sky of the seventh sky.

The sky of the seventh heaven seems more profound and obscure.

Situ Ningbing explained to Li Tian while following Li Tian's gaze to explain and practice.

When I first started practicing, everything was normal, except that the spiritual power in the body was flowing faster, but when the spiritual power was running for half a week, Situ Ningbing felt like his whole body was on fire.

The spiritual power in the body is rapidly consuming, and these spiritual powers seem to have disappeared out of thin air.

The spiritual power only circulated in the body for a week, and Situ Ningbing discovered that the spiritual power in her veins was completely exhausted.

Situ Ningbing was panting heavily, sweating profusely all over, as if he was fished out of a pond.

Huh!

Huh!

Situ Ningbing did not dare to continue practicing, and immediately stopped.

"Li, it seems that although Qingyun did not say that it must be practiced in order, I am afraid that there are some inevitable relationships. It is better for you not to practice for the time being!" Situ Ningbing said.

"Lee...?"

Li Tian was completely silent in this kind of cultivation.

Three days...

Five days...

Li Tian remained silent in this state of cultivation.

The spiritual power in Li Tian's body was much deeper than that of Situ Ning.

In ordinary cultivation, the spiritual power in this body is only gathered in the veins, even if it is a cultivation genius, at best, the veins of the cultivation genius are broader than those of ordinary cultivators.

But what about Li Tian?

Li Tian is a wicked evildoer. I don't know how much wider the veins of this guy are than the so-called geniuses. This is just the veins. If these geniuses knew that there was an endless lake of spiritual power in Li Tian's heart, these geniuses would definitely be desperate suicide.

Ten days...

Half a month...

At this time Li Tian didn't know how many weeks of spiritual power had been circulating in his veins.

If Li Tiantian looked at it now, he would see that his veins had turned crimson red, like a red iron pipe, and the aura in Li Tian's veins had completely changed from liquid to gas.

And the spiritual power in Li Tian's veins has only been reduced by less than one-tenth.

At this time, as the spiritual power in Li Tian's veins continues to be consumed, the lake in Li Tian's atrium is dim with white mist, and the water in the lake continues to pour into the veins, and then returns to the atrium again after the circulation of the sun. In, it becomes a white mist.

If it is looming, there are more than ninety-nine-eighty-one lotus flowers blooming continuously.

It's just that in this white mist, these lotus flowers only lasted a few seconds from blooming to withering.

However, after each withering, a small black particle will be transferred into the lake, fall into the low sediment of the lake, and then become a flower bud again.

The water in the lake dropped quickly.

One month...

Two months...

Li Tian was still immersed in cultivation, completely unable to extricate himself.

...

"Monster, the little boss is definitely a monster!"

Tang Xiaolong, who had witnessed Situ Ningbing's cultivation reaching the sky lasting only less than half an hour before he collapsed, said with a sigh.

"Yes! In the Lycra Desert, cultivation is extremely difficult, even if it is absorbing the spiritual power in the spiritual soil or the spiritual power in the spiritual source, it is unique that you can sink your heart and cultivate for such a long time!" He Feng nodded and said. .

Situ Ningbing's heart was full of pride and pride!

...

The lake water in Li Tian's atrium continued to drop.

Zizi!

Seventy-seven forty-nine small fishes continuously swim out of the lake. After passing through the hazy veins of the white mist, the small fishes have turned into purple lightning in the veins. When they gush out of the acupuncture channels, they immediately become seven-forty-nine. The purple electric dragon wandered quickly on Li Tian's body.

Huhu!

The black flames in the lake in the atrium were burning faster. These black flames emerged from Li Tian's body and burned around Li Tian's body, even burning the air around Li Tian a little distorted.

At this time, the lake in the atrium had fallen by more than half.

At this moment, Li Tian suddenly felt a sense of proficiency, which seemed to be familiar.

"Could it be...is this going to be a breakthrough?" Li Tian couldn't help showing a happy expression in his heart.

Yes, it is to break through!

Li Tian has spiritual sources in his hands, and Li Tian has never stopped practicing in the Lycra Desert.

Li Tian knew that his cultivation level had fallen sharply, and he had to break through to the realm of the venerable as soon as possible before leaving the Laika Desert as soon as possible.

It's a pity that since he had a clone, Li Tian felt that his cultivation speed was much slower than before. He didn't expect that he would have such a gain in his practice today.

The purple electric dragon on Li Tian's body was sucked back into the body by the acupuncture points on the veins, and the black flames were the same, sucking back into the veins and turning back into spiritual power.

...

"It's been almost five months, why the little boss is still cultivating! I have stayed enough in the Lycra desert where birds don't shit." Tang Xiaolong said.

In these five months, Tang Xiaolong, Situ Ningbing and others have gradually adapted to the status of being a bandit, and they are more familiar with Lingtu City and Laika Desert.

To the southwest of Lingtu City, fifteen thousand kilometers away is the Lingtu mines controlled by Yecheng Huangzun, Dragon Emperor Huangzun, and Zhao Family Huangzun. As long as Li Tian breaks through the realm of the Lord, they can leave the spirit soil. Tucheng, but the area controlled by the three emperors, and then take the transport aircraft to leave the Laika Desert.

This 5,000 kilometers can't use teleport to pass in an instant, and can only take the Nether Sand Scorpion to leave.

However, it would take at least three days and three nights to get there even if the sand scorpion is fifteen thousand kilometers.

However, the Lycra Desert at night is full of threats. If there is no super power like He Feng to follow, Li Tian and the others will be torn to pieces by the Nether Sand Wolf.

At this moment, the sky over the sunny Lingtu City suddenly changed color, dark clouds gathered from all directions, and the sky became more and more sinking.

Suddenly, a powerful aura descended from the sky on the small earth building where Li Tian was, breaking into the roof, and continuously pouring into Li Tian's body.

...

"This...this is..."

The complexions of all the robbers in Lingtu City changed, and they stared at the vision in front of them dumbfounded.

"Impossible...Could it be..."

He Feng teleported to the small building where Li Tian was, and appeared beside Li Tian.

"It really is like this! Oh, lame man, our thousand years of waiting is worth it!" He Feng said excitedly.

boom!

Powerful energy began to fluctuate from Li Tian to the surroundings, and Li Tian broke through to the first realm of Venerable!

boom!

The powerful energy continued to fluctuate from Li Tian, and Li Tian broke through to the second-level realm of Venerable!

boom!

...

Chapter 4404: : Attention (1)

at the same time.

Tucheng.

Several powerful venerable men are sitting in the earthen house surrounded by corpses.

Gao Liang returned to Tucheng under Li Tian's control. Before he could assassinate the corpse, he was taken by the lame man and thrown into the mine again. Gao Liang's assassination failed temporarily.

After the spiritual soil bandits looted the spiritual soil miners of the Frost Emperor, the Frost Emperor was furious and sent four Venerable Sixth-level pinnacle powerhouses into the Tucheng and carried out large-scale cleaning activities around the Tucheng.

The leader of this operation is naturally the corpse of the confidant of Emperor Frost.

In just a few months, seventeen or eight spiritual soil bandits around Tucheng were wiped out.

However, the corpse was not satisfied, his target was not these spirit soil robbers, but Li Tian.

Li Tian is not dead, like a knuckle in his throat, which makes the corpse feel difficult to breathe, and his heart is very disturbed!

"Master Corpse, I'm waiting for orders to come here. It has been half a year now. Most of the robbers in the spiritual soil near Tucheng have been wiped out. A small number of the robbers in the spiritual soil flee in anticipation of the wind. Close to Tucheng!"

"Now I need to go back to my life too! Lord Wang Zipao will also return to the Emperor's Mansion as soon as possible." Said one of the Venerable Sixth-Level Peak Powers.

The corpse knows that the reason why these powerful people at the sixth level of the Venerable came to the spiritual soil city to cooperate with his corpse to destroy some spiritual soil robbers, the purpose is not to really help his corpse find the spiritual soil robber who snatches Li Tian, but Emperor Yu Shuang showed an attitude to the bandits in the spiritual soil.

It was for the purpose of killing the chickens and the monkeys, and for letting the other spirit soil bandits know that Emperor Yu Shuang would never allow the spirit soil bandits to do majestic blessings on his head.

"Most of the robbers in the spiritual soil near Tucheng have been wiped out. Several brothers have contributed a lot. When I return to Huangzun Mansion, I must say a few words to Emperor Shuangzun. Then the reward will naturally be yours! This is my brother. A little meaning, not respect, I hope my brothers can laugh at it!" Said the corpse and handed four skins filled with spiritual soil to the hands of the four nobles.

"Why is it so embarrassing?" These venerables will say so, but their movement of collecting this spiritual earth skin is not slow at all.

The spiritual soil of this small skin bag is absolutely valuable, that is, the corpses in the Lycra Desert are so generous. If these spiritual soils are transported to the kingdom of the Lord, the price of this spiritual soil will double and increase.

"If the brothers are not busy returning to the imperial palace, they will accompany the brothers to clean up the vicinity of the Tucheng. Only when the robbers in the soil near Tucheng are wiped out can the safety of Tucheng be guaranteed. Only the production of soil can be guaranteed, so that Emperor Frost does not have to be distracted by this!" said the corpse.

Eating people with soft mouths, short hands, and having just collected the spiritual soil of the corpse, several venerables were too embarrassed to refuse, but nodded in agreement.

At this moment, several venerables suddenly bounced from the ground, huh! Huh! The figure teleported out of the Tuwu in an instant, and came to the wall of Tucheng.

At this time, the old lame was already on the city wall, and the four Venerable Sixth-level pinnacle experts saw the old lame salute slightly, and at the same time looked towards the Spirit Earth City.

Thousands of miles apart, but these venerables can still feel the extraordinary fluctuations in the sky in that direction, and they can also feel that someone is flying through!

"What a powerful spiritual power fluctuation! This kind of breakthrough movement is probably only when the Venerable 8th level breaks through the Venerable ninth level, there will be such energy fluctuations!" One of the Venerable sixth level experts said with a shocked expression on his face .

Several other Venerable Sixth-level powerhouses nodded slightly, with more envy on their faces!

Venerable ninth level, even if it is a strong person in the early stage of ninth level of Venerable, it also means that this person has already seen the peak position of the nether world, as long as he continues to cultivate, it is not impossible to become a strong man at the peak of the nether world.

Having said this, these six-level Venerables looked at the old lame man at the same time, and their faces showed a trace of regret.

If the old lame hadn't provoked the Frost Emperor at the beginning, the old lame might have already been the ninth-level powerhouse!

The old lame man always had a Ruoyouruowu smile on his face, his eyes swept over the six-level peak powers of the Venerable, and a teleport appeared to the warehouse.

"Blanket, I'll take you back in a few days! It seems we made the right bet this time!" The old lame said only a word, and then slowly dragged his stump to his mound.

"It's time to leave here..." the old lame said to himself.

The corpse did not feel the strong fluctuations of spiritual power. He teleported to the wall of the earth city several times in a row, looked at the direction of the earth city, and asked suspiciously: "Brothers, what happened?"

"Master Corpse, we are still staying in Tucheng recently, don't easily go out subtle!" said a Venerable 6th-level peak powerhouse.

...

Venerable State and Mansion of Venerable Nanlan Peak.

There is no shortage of geniuses in the Netherworld, and Venerable Nanlan Peak is such a genius.

In three thousand years, from the first level of cultivator to the ninth level of venerable, this kind of genius is rare in the Nether Realm.

The opposite of Venerable Nanlan Peak is Nanlan Mountain, the younger brother of Venerable Nanlan Peak.

The three thousand years in Nanlan Mountain has only gone from the first level of cultivation to the eighth level of cultivation. This level of cultivation can basically be described as dullness, but Venerable Nanlanfeng is quite protective of his younger brother. In order for this younger brother to break through to the realm of Venerable as soon as possible, Venerable Nanlan Peak also took great pains.

However, there may not be a reward for giving. Venerable Nanlanfeng did not expect that his younger brother would fall after entering the battlefield of death!

Although it has been more than ten years since the fall of Nanlan Mountain, the pain in Nanlan Peak's heart has not diminished.

Nanlan Peak is waiting for this opportunity to avenge his younger brother Nanlan Mountain!

The spirit tracker left in his brother's skin had already targeted the murderer who killed his brother Nanlan Mountain.

Five hundred years, no, as long as you wait for more than 480 years, the murderer might come out of the battlefield of death, and then he can avenge his brother.

What Venerable Nanlanfeng didn't expect was that the murderer's message appeared within the territory of Venerable Frost Emperor half a year ago, although Venerable Nanlanfeng couldn't understand what was going on until now. , But he rushed to the Venerable Kingdom of the Frost Emperor the first time.

The Netherworld has a vast area, and there are a large number of race nations and nations in this vast world, but most of the nations and race nations are not directly bordered, but a considerable part of the area belongs to the natural area.

The Venerables have the ability to teleport, but they can only teleport within these natural areas if they want to go to a certain place. It is absolutely impossible to teleport through the country of other venerables. of!

Unless he is the domain owner!

Only the domain master can teleport freely in his entire domain.

Therefore, Venerable Nanlan Peak rushed to the Venerable Kingdom of the Frost Emperor, and had not had time to pass through the Venerable Kingdom to meet the Frost Emperor. The signal source had entered the Laika Desert.

"Unless you hide in the Laika Desert forever, otherwise..."

In the realm of the Venerable Frost Emperor, for a strong man like him, he would not dare to use teleport easily, otherwise he would be regarded as disrespect for the Frost Emperor.

To express His Holiness, His Holiness Nanlan Peak walked through His Kingdom and came to Huangzun Mansion. At this moment, His Holiness Nanlan Peak suddenly felt a wave of energy in the direction of the Laika Desert. .

"Could it be... Has anyone broken through to the realm of the emperor? So... I am afraid that the pattern of the nether world will change!" Venerable Nan Lanfeng thought.

Chapter 4405: : Attention (2)

When the Venerable Nanlan Peak entered the Venerable Kingdom of the Frost Emperor, the eighteen emperors of the entire Underworld felt the energy fluctuations from the Laika Desert at the same time.

Each of the eighteen emperors hoped that they could break through and reach the realm of the domain master as soon as possible to change the current pattern of the nether world, but when they felt this energy fluctuation, their mood suddenly became complicated.

Twenty domain masters restrict each other in the Netherworld, and strike a certain balance, but the eighteen emperors are the strongest existence under the domain masters. Now if one suddenly appears For the emperor, the balance of these eighteen emperors is bound to be broken.

Huh!

Huh!

A group of silhouettes flashed from the imperial palace where the emperors were located, and the silhouettes flashed from their venerable kingdom in a flash, constantly flashing toward the Laika Desert.

...

call!

Li Tian let out a breath and slowly opened his eyes.

The three-level peak of the Lord.

Li Tian didn't expect that his cultivation of Qingyun Tongtian would make continuous breakthroughs in his cultivation base, from the ninth-level peak of the cultivator to the third-level peak of the Venerable.

If you take the spiritual power in the body, Li Tian's spiritual power is abundant, before Li Tian cultivates to reach the sky, his spiritual power will be much more abundant than the ordinary three-level powers of the Venerable, and the cultivation of the sky seems to make Li Tian's body inside. The spiritual power was vented and released, and in one fell swoop made Li Tian stand in the realm of the three-level peak power of the Venerable.

At this time, Li Tian's vein is the big river, which is several times wider than the previous one. The river is surging and the water is surging. It is Li Tian's atrium that has changed the most. The spiritual power of Li Tian's atrium before It seems to be a lake. After training to reach the sky, and through the spiritual power that descended from the sky, the area of the lake has now expanded more than ten times, just like an inland sea.

Opening his eyes, Li Tian saw Situ Ningbing, Tang Xiaolong, and He Feng staring at him with wide eyes.

"What's wrong? Did something happen?" Li Tian asked suspiciously.

"what happened?"

"Did something happen?"

He Feng, Situ Ningbing, and Tang Xiaolong murmured at the same time.

"Li, do you know how long you have been practicing in silence this time?" Situ Ningbing asked.

"Three days? Or five days? I think it's just a blink of an eye, not more than ten days at most!" Li Tian said uncertainly.

Situ Ningbing was speechless for a while.

"Almost five months! Little boss, has your cultivation reached that level?" Tang Xiaolong said.

"Venerable three-level! Venerable three-level pinnacle!"

Before Li Tian spoke, He Feng said first.

Li Tian and Situ Ningbing practiced in retreat at the same time. They practiced the same technique. As a result, Situ Ningbing only practiced for less than an hour before breaking through, but Li Tian was completely immersed in this practice. Feng is watching Li Tian practiced for these five months.

Similarly, He Feng witnessed Li Tian's breakthrough of heaven and earth with his own eyes, and witnessed Li Tian's continuous and enchanting breakthroughs.

"Brother Li Tian, do you know? From the ninth-level peak realm of the cultivator to the third-level virtuous realm, no one seems to have done it before in the history of the underworld! The genius is no longer enough to describe the talent of the Li Tian brothers , It should be more appropriate to use evildoer!" He Feng has not been able to calm down until now.

"Every man is innocent and he is guilty, and the wood show in the forest wind will destroy it! Brother Li Tian, a person with extraordinary talents is right, but if you are a wicked genius like you, I am afraid that you will encounter other powerful venerables, Even the jealousy of the emperor. When the time comes, it will inevitably be a disaster.

"Fortunately, Brother Li Tian, you are now in the Laika Desert. The Laika Desert is a cursed land. The energy of this desert will be imprisoned in the desert and should not be noticed by those powerful guys." He The wind said.

"No? I'm only the third level of the Venerable now..."

"No? Brother Li Tian, did you not see the vision of heaven and earth when you broke through just now, the whole Spirit Earth City, no, I bet, I am afraid that many people in the Laika Desert saw this

vision, when you broke through I have only seen this kind of vision in thousands of years!" He Feng said.

"Yes, little boss, the picture just now is really shocking!" Tang Xiaolong said.

Situ Ningbing nodded slightly and said: "Be careful to sail the Wannian Ship, Li, we first arrived in the Netherworld, and now our ability is not enough to protect ourselves. It is better to be careful."

"Yes, brother Li Tian, although the spiritual soil bandits of our spiritual soil city are eager to follow you out of the Laika Desert, we also know that the Laika Desert is our greatest protection now. If Brother Li Tian is willing, we will stay temporarily. In the Laika Desert!" He Feng said.

Li Tian nodded slightly, but he didn't care.

Now Li Tian has reached the state of venerable. According to the agreement with the third son of Nether, Li Tian should now leave the Laika Desert with the third son of Nether.

...

Huh!

Huh!

In the Lycra Desert, several figures were constantly shining. These figures appeared from different directions, but their target directions were indeed the same, which was the direction of Spirit Earth City.

However, when they teleported a few times, the spiritual power vision above the spiritual soil city had dissipated, but this did not affect their judgment of the direction of the vision.

Huh!

Emperor Yu Shuang did not see the Venerable Nanlan Peak, he teleported several times in a row in Tucheng.

The old lame, the corpse, and the four Venerable Sixth-level peak powerhouses immediately surrounded the Sovereign Frost Emperor.

They all knew why Emperor Yu Frost appeared here, especially the corpse. Although he did not feel the vision on Spirit Earth City, he could not wait to report his discovery to Emperor Yu Frost.

...

"Hey, the Netherworld has been quiet for too long, and it's time for someone to break this quiet!"

The figure of Emperor Yecheng flickered in the Laika Desert. When he said the first word, the figure was still on the edge of the Laika Desert. When he said the last word, the figure had already appeared in the mining area under his control.

"Yes, no matter who is who, it is worthy of us to make friends!"

As soon as Ye Cheng Huangzun's words fell, a faint energy wave came from him, and then a dragon king appeared behind Ye Cheng Huangzun's left, it was the dragon king.

"Not as good as peers?"

There are energy fluctuations again, huh! A black figure with black smoke all over appeared behind Ye Cheng Huangzun's right. It was Zhao Jia Huangzun, the father of Zhao Ritian, the third son of You Ming.

"Okay, fellow..."

...

Emperor Lei, Emperor Promise, Emperor of Bitter Sea, Emperor of Huanglou, etc.!

Almost the eighteen emperor figures standing on the peak of the Netherworld appeared one by one in the Laika Desert. Their goal was clear, that is, Spirit Earth City...

Chapter 4406: : The domain owner appears (1)

When the emperors showed up in the Lycra Desert, Li Tian didn't know it.

In order to protect Li Tian, He Feng forcefully pretended to be forced, teleported to the top of the second-floor earth building, and loudly announced that he was responsible for the vision that appeared above the spiritual soil city, and claimed that it was caused by his occasional feelings during cultivation. This kind of phenomenon, I hope the bandits in the land city will not panic.

Regarding He Feng's speech, the bandits of the Spirit Land haha.

He Feng is a brilliant existence in Lingtu City, but everyone knows how many catties He Feng has.

However, since He Feng is willing to act, these spiritual land bandits are also willing to cooperate.

As for Li Tian, this guy has no heart and lungs, and has entered the space of the Qiong Spear of the sky to pretend to be forced.

Huh!

As soon as he appeared in the giant stone temple of the Qiong Lance of the Sky, Li Tian deliberately released a powerful force.

This powerful pressure has surpassed the strength of all the venerables in the Qiong Lance of the Sky. As soon as this pressure appeared, dozens of figures appeared outside the Giant Stone Temple.

The Three Young Masters of You Ming, Venerable Four Mountains, Venerable Liu You, Venerable One-horn, etc. all looked at the inside of the Giant Stone Temple in panic.

"It's such a powerful coercion. I am afraid that this coercion has reached the Venerable's third-level cultivation base. Could it be that Li Tian encountered an opponent who could not be dealt with outside and threw this opponent into the space. Is this for us to deal with?" Long Ao God asked.

"It's very possible, no matter what, let's join hands first and prepare to deal with those who come together!" Liu You said.

Hum!

A powerful coercion fell from the sky, instantly covering the wheels on them.

"Ok... so strong! We are only the first-level cultivation of the sage, we are not his opponent at all!" Zhao Ritian said.

"Don't this \*\*\*\*\* Li Tian think about our true strength? Give us a second-level strong man that we can deal with, but a third-level Venerable... this is not something I can bear!" Ye Liangchen said.

Among these venerables, the one-horned venerable, the second-level strong venerable, could barely withstand this pressure, and dozens of other venerables instantly fell to the ground.

Li Tian walked out of the megalithic temple slowly, and when he saw a piece of kneeling outside the temple, he immediately pretended to be surprised and said: "Huh? You are too polite. It's just that you haven't seen me for a few months. Me? Everyone is flat..."

Despite this, the coercion he exerted on these venerables did not take away. Instead, Li Tian deliberately increased the coercive attack, so that the one-horned venerable could not withstand the coercive attack and fell to his knees. On the ground.

Li Tian nodded slightly contentedly and put away the coercive attack.

"Hey, what are you doing? Haven't I already made you flat? Isn't this asking for rewards? Hey, it's really hard to be the boss. Come here, there is some spiritual soil here, which is my reward for you!"

Speaking, Li Tian took off a skin bag he was carrying and forced it into Ye Liangchen's hand.

Ye Liangchen and the others were about to suffer from internal injuries, if it weren't for Li Tian's face, these dozens of nobles would have embraced Admiral Li Tian violently.

But spiritual soil is a good thing, and Ye Liangchen took the spiritual soil as his own without hesitation.

"Brother Li Tian, are you too enchanting? We haven't seen you for five months. Why has your cultivation reached the three-level realm of the sage? Your cultivation level has prevented us from living. Now?" Zhao Ritian said with some envy and jealousy.

"That is, after ten years of reaching the Venerable, we are already complacent, and we call ourselves geniuses, but compared with brother Li Tian, we found that we are scum!" Long Aotian also said.

"Brother Li Tian, is there any special method for this cultivation? If you don't mind, teach it to us. If everyone is strong, it is really strong. Otherwise, we can't handle even the three-level masters of the Venerable. You and we are cumbersome to drag the oil bottle!" Liu You said.

Li Tian was unfathomable, smiled slightly, and said, "Where is the vicious dog? If I am not mistaken, the vicious dog is probably in the process of cultivating right now. You have so much time to complain, why not spend this time on cultivation. What?"

"Is the talent of a vicious dog not as high as yours? Is it not as strong as yours? A vicious dog is harder in cultivation than you, so what kind of face do you have to twitter here!"

What Li Tian said was a bit rude, but it was quite reasonable.

These guys who said a few words were immediately ashamed.

"We were already cultivating, and we felt that there was danger approaching, so we stopped cultivating..." Ye Liangchen's words were rather embarrassing, and he couldn't say it anymore. After the topic changed, Ye Liangchen continued: "Li Tian, now your cultivation has reached the realm of the venerable, can we leave the Lycra Desert?"

"It's not impossible for you to leave the Laika Desert, but if someone asks how you got out of the battlefield of death, how should you answer?" Li Tian asked.

"I thought about this a long time ago. The death battlefield has not been completely detected so far. If someone asks me, I will move out the story of Qingyun Temple, and then the magical power in Qingyun Temple will roll us out!" Ye Liangchen Said.

Ye Liangchen's thoughts are very close to Li Tian's.

Li Tian nodded slightly.

"Well, if that's the case, then I will take you out of this space, and you will leave the Laika Desert on your own, and I will let He Feng, the leader of the spiritual land bandit, give you a ride!" Li Tian said.

"Why? Are you not going with us?" The Third Young Master asked at the same time.

"I still have some things to deal with in the Laika Desert. This is quite dangerous. If you are rashly involved, your father may also be involved. So, you go first. After I deal with this matter, I will go to your Venerable Kingdom to find you!" Li Tian said.

The corpse is still alive, and the cultivation base of the corpse is also at the third level of the Venerable. Li Tian must deal with the corpse to be at ease, otherwise Li Tian will have trouble sleeping.

Li Tian will send the Third Nether Son and the entourages of the Third Nether Son to the space where the Qiong Spear of the sky is sent out one by one. Ye Meijing's cultivation is still in the realm of cultivators. For her safety, Ye Meijing and Liu Jimeng, Liu You and other refugees continued to stay in the space of Qiong Spear of the Sky.

Li Tian found the evil dog again, and gave the spirit soil of the three skins to the evil dog.

Since the Nether Sand Wolf can increase cultivation by devouring spiritual soil, Li Tian believes that evil dogs can too!

As a result, the vicious dog slobbered on Li Tian's face. If it weren't for Li Tian's cultivation base, the vicious dog is no longer weak, I am afraid that the vicious dog would use his bone tail to teach Li Tian severely.

"Damn it, the dog bites Lu Dongbin and doesn't know good people. This is spiritual soil!" Li Tiantian teleported out from the Qiong Lance of the sky.

As soon as he came out of the Qiong Spear of the Sky, Li Tian saw the Third Young Master and others who had come out of the Qiong Spear of the Sky earlier, and the bandits of the spiritual soil stood motionless in the city of spiritual soil like puppets.

And Li Tian felt that he had fallen into the solidifying cement, and it was extremely difficult for his body to move! Unlike coercion, but this kind of force imprisoned spiritual power is much stronger than coercive power. Li Tian wanted to use spiritual power, but found that the spiritual power in his body could not work at all.

"This...what is going on?"

Chapter 4407: : The domain owner appears (2)

"Li...Li Tian..., domain master...this is the domain used by the domain master level powerhouse!"

In Lingtu City, there are very few people who can move. He Feng, a seven-level powerhouse of the Venerable, is one of them. However, every step He Feng takes is extremely difficult, and each step requires a lot of energy.

Click!

Click!

The sweat continued to drip from He Feng's forehead at an accelerated rate, and disappeared instantly when it fell into the gravel.

"Domain...Domain...?"

In Li Tian's heart, there were millions of horses and mud horses galloping past. Li Tian wanted to hide in the space of the Qiong Spear of the sky, but found that his body had lost control, and it was impossible to avoid it.

Li Tianzhen wanted to give himself some mouthfuls.

Seven is Ma Yan's knowledge of not blessings, blessings and misfortunes, Li Tian did not expect him to practice continuous breakthroughs, but he did not expect that the vision during the cultivation could provoke the domain master-level coercion.

Pretending to be risky, pretend to be cautious!

"As long as I avoid the risk this time, I won't practice outside the space when I practice next time!" Li Tian thought in his heart.

"Brother Li Tian, don't worry. Although your cultivation base is at the third-level pinnacle of Venerable, your cultivation base is not outstanding in the spiritual soil city, and even many spiritual soil bandits are much stronger than you, unless this The domain master will kill us all, otherwise you will definitely not be suspected!"

"Furthermore, after the domain master used the domain to control the spiritual soil city, he did not show up, nor did he do anything unfavorable to the spiritual soil city, so it is still unknown whether it is a blessing or a curse!" He Feng walked to Li with difficulty. Beside the sky, whispered.

I am a sword, and I am a fish. There are only 20 domain masters in the entire Netherworld. If these domain masters want to kill Li Tian, I am afraid that no one can stop him. Now Li Tian can only let it go, and take one step. .

...

Outside the Lingtu city, the breeze blew, and the gravel in the desert rolled forward in the direction of the wind.

The Eighteen Emperors of Netherworld had already arrived outside Lingtu City, but these eighteen emperors did not dare to approach Lingtu City, and they all hid far away.

"Domain master, this movement really alarmed the domain master-level powerhouse! It seems that we have no chance to get to know the breakthrough powerhouse this time." Ye Chenghuangzun exclaimed.

Ye Liangchen and Ye Cheng Huangzun are quite similar, but Ye Cheng Huangzun looks much older than Ye Liangchen, and the high-ranking aura that Ye Cheng Huangzun deliberately or unintentionally releases is incomparable by Ye Liangchen. of.

"Yes, there are ants under the nobles, but even the emperors like us are nothing more than bigger ants in the eyes of the domain master. If we offend rashly, I am afraid it will cause disaster!" Nodded and said.

The dragon emperor is huge, with a layer of black scale armor. If you look closely, you will find that this layer of black scale armor is actually composed of densely packed fingernail-sized small scales, and these small scales are attached. On top of the palm-sized scales.

These scales are full of blood, but the dragon emperor seems to be totally ignorant!

But looking at these scales, you can see that the Dragon Emperor has killed countless people.

Emperor Zhao Jiahuangzun was covered with black smoke, making it difficult to see what kind of face he had.

At this time, Emperor Zhao Family looked at the Spirit Earth City, his eyes flashed with a gleam, and he smiled and said: "I don't know which domain master is here. These domain master-level powerhouses have not been seen for thousands of years. Body."

"So I feel that there is something weird in this matter. We all know that the Laika Desert is a cursed place, and the venerable here wants to cultivate only to absorb the spiritual power in the spiritual soil."

"But this Laika Desert does not have the conditions to absorb the spiritual power of the spiritual soil at all. Even if it is absorbed rashly, the side effect will cause the body of the cultivator to become spiritual soil before the cultivator reaches the ninth level. For thousands of years, there has never been a practitioner who has dared to break through to the ninth level of the Venerable." Ye Cheng Huangzun said.

"You're right, but the energy fluctuations that came from the Laika Desert just now can't be more obvious. If someone didn't break through to the ninth-level realm of the nobleman, or even close to the realm of the emperor, why did that happen? What about energy fluctuations?" said the Dragon Emperor.

"So there is something weird in this!" Ye Cheng Huangzun said.

"Now that the domain master has appeared, are we leaving or staying?" Zhao Jiahuangzun asked.

"Let's take a look first! It's rare that the eighteen emperors of the Netherworld gather together!" Ye Cheng Huangzun said.

While the three fathers of the Three Young Masters were observing the other emperors, the other emperors were also observing each other.

However, most of the emperors are arrogant, cold, and powerful, making them unwilling to put down their bodies and mix with other people. Even if there are a few emperors who are relatively close, they still keep a certain distance directly. The three fathers of the Three Young Masters are so close.

Toward the southwest corner of Lingtu City, Huanglou Huangzun held a blue long sword and stood proudly.

Huanglou Huangzun looks like a middle-aged man in his early thirties. He is wearing a yellow shirt. The spiritual power fluctuates on the shirt. The spiritual power is like a shadow on the shirt to form a nine-story tower. The tower is the Huangzun Mansion of Huanglou Huangzun.

If it weren't for Huanglou Huangzun's fat body, this guy is definitely a handsome man, but it's a pity that one fat will ruin everything!

At this time, Huanglou Huangzun frowned slightly, looked at Lingtu City thoughtfully, and said as if talking to himself: "It's still slow, if this domain master wants to protect the guys in the city. , I'm afraid no one can enter the Spirit Earth City! Unless..."

"Ahem..."

Hundreds of meters away, the Wuji Emperor coughed repeatedly. The Wuji Emperor had white hair, and his face looked like a wrinkled walnut. If he hadn't been holding a cane in his hand, many people would think of this old and undead meeting. Will not be blown down by a gust of wind.

"Don't do it! Don't dare to do it! The eighteen emperors are just a piece of sand. I suspect that some of us emperors are already close to the realm of the domain master, but they dare not show it... watching a movie, watching a movie!"

...

Emperor Yu Shuang is the farthest away from Lingtu City.

This powerful man who fell from the realm of the domain master to the realm of the noble, and climbed to the realm of the emperor step by step, understood the truth that a gentleman should not stand under a dangerous wall.

The domain master is now the strongest pronoun in the Netherworld. If the domain master in Lingtu City is unhappy and wants to find an emperor to vent his anger, even if the emperor will not be beheaded, it is inevitable to cultivate. Will be affected.

These influences are absolutely not tolerated for Yu Shuang, who desperately wants to break through to the realm of the domain master.

Emperor Yu Shuang looked unhappy or worried, but his left hand kept touching the space ring he was wearing on his right.

In this space ring is stored the Red Slash he got from the corpse.

For ten years, Emperor Yu Shuang was like the golden lion king who got the Dragon Slaying Sword in the Legend of the Dragon Slaying the Heavens. He fell into a daze and studied Red Slash all night, but he had been in vain for ten years.

When Emperor Yu Shuang learned from the corpse that the current owner of Red Sword Li Tian was still alive, Emperor Yu Shuang's heart became uneasy.

"Li Tian...After I leave Lingtu City, I will start investigating where you are. I will definitely catch you..."

Chapter 4408: : The domain owner appeared (3)

The red sun set in the west, and the sky gradually dimmed. A few Nether Sandwolves had just poked their heads out of the sand pit, feeling the aura of an unexpected power for dozens of miles, and immediately retracted their heads.

The nether sand wolf cultivation base has reached the venerable level and has already begun to develop spiritual wisdom, knowing that it is better to be hungry in the sandpit than to risk going out to die.

Huh!

Suddenly a figure fell on a sand dune outside Lingtu City.

After this person fell on the sand dune, the sand dunes under his feet seemed to spring up like bamboo shoots after the rain, rising rapidly, and finally the height of the sand dune far exceeded the height of Spirit Earth City, and it stopped.

In the dark, this figure was standing on the towering sand dunes, and the robe hunted in the breeze.

His clothes are like burning flames, and he has become the most coquettish and coolest existence in the darkness.

The dark red flame reflected this person's face into fiery red, and this person seemed to be wrapped in blood plasma, and an evil spirit slowly spread around him.

"Blood Domain Master..."

When the eighteen emperors saw this figure, their hearts sank and they couldn't help calling out the name.

That's right, the person who came was the blood domain master, one of the twenty domain masters.

A faint smile appeared on the blood domain master's face, and his gaze slowly swept across the faces of the emperors outside the spirit soil city. When the blood master stared at them, these emperors involuntarily retreated a few steps.

Avoid its edge.

The smile on the blood master's face was even brighter.

This is the domain master, the domain master that even the powerful emperor fears.

However, the performance of the emperors obviously did not make him feel satisfied.

"Humph!"

The Lord of the Blood Territory gave a cold snort, and then 18 powerful coercion fell from the sky.

This coercion fell on the bodies of the eighteen emperors, and the eyes of the eighteen emperors flashed a little strangely.

"Blood Domain Lord, you...what are you doing?" These emperors exclaimed at the same time, exerting pressure to resist.

But how can the coercion exerted by this domain master be comparable to that of their emperors, their coercion simply cannot break the control of the domain master-level coercion.

The emperor and the domain master are worlds apart.

The Blood Domain Lord said domineeringly: "Kneel down!"

Puff!

Among the eighteen emperors, Emperor Thunder fell to his knees.

He is the follower of the Blood Domain Lord, and the Blood Domain Lord kneels down. Although he feels unhappy, he has to kneel!

One must not be arrogant, but not without arrogance.

The other seventeen emperors were jealous of the domain master, but being insulted by the blood domain master in this way, the hearts of these seventeen emperors were full of anger.

The domain master is powerful, but if they want them to kneel down to meet the domain master, they absolutely can't do it.

The seventeen emperors immediately used their most powerful attacks to resist.

For a time, outside the city of Lingtu, yellow sand flew all over the sky.

The broken gravel began to explode as soon as it floated up, and the power of each grain of gravel explosion exceeded the power of a bullet burst.

No one shot, everyone was using heavy moves.

However, this unsold battle is equally dangerous.

The bodies of these emperors were tied with hands, and the sweat on their foreheads dripped indefinitely.

"Hmph! Since you want to play, then I will play with you! Let you guys who peep the position of the domain master know the difference between the domain master and the emperor!" The blood domain master said with a cold snort.

At this time, in the dark sky, a star shone abnormally.

Under the gravitational attack, the star fell rapidly towards the Spirit Earth City like a meteorite.

"Ok?"

The blood domain master suddenly felt a strong coercion destroying his coercive attack, and couldn't help looking up at the sky.

"The dignified domain master, actually did something with the descendants of the emperor... Tsk tsk..., if you want to make a move, you can find my star, anytime, anywhere, and stay with you to the end!"

The sound rolled like thunder, coming from the falling stars.

boom!

The stars fell and the dust was flying.

However, the stars are not stars, but a person.

This one is dressed in black, and the spiritual power on the black clothes converges into the sky above his head, with thousands of stars covering the sky.

From the perspective of clothing, this star domain master is somewhat similar to Huanglou Huangzun. Of course, these star domain masters are much stronger than Huanglou Huangzun, and the stars in the sky are better than those on Huanglou Huangzun's clothes. The building does not know how bright it should be.

This person is one of the twenty domain masters of the Nether Realm: the star domain master!

"Xingchen, is it your turn to intervene in my blood domain master's affairs?" The blood domain master raised his eyebrows slightly and said angrily.

The Star Domain Master did not shrink from the anger of the Blood Domain Master at all, and said with a sneer: "I don't care about other things, but Huang Lou is my person. If you touch him, you just can't do it!"

The blood domain master's eyebrows twitched a few more times, and finally let out a cold snort, even if it stopped.

...

At this time, there were already eighteen emperors and three domain masters in Lingtu City, but Li Tian, who was in Lingtu City, only knew that he was now controlled by the domain master's domain, and did not know anything outside the city.

Under Yu's control, Li Tian now barely supported him, not letting him kneel to the ground.

"Domain, this is the power of the domain!"

Li Tian's heart is surging, he has both the desire for the power of the domain, and the fear of the power of the domain.

It is the first time that Li Tian has seen the power of the domain.

Only when he personally experienced the power of the domain, could Li Tian know the direct difference between the domain master and the venerable.

Domain is the domain.

The domain owner is the master of the domain.

In this field, the domain owner is the master.

Li Tian still doesn't know whether the domain master and the domain master are directly strong or weak, and whether they are ranked.

However, just from the domain released like the domain master who now controls Lingtu City, Li Tian knew that even the weak domain master was not comparable to the emperors.

No wonder the eighteen emperors eagerly wanted to improve their strength, eager to break through to the domain master.

In the Netherworld, the domain master is the existence of high body.

"The female domain master is like a domain master, and the long-haired woman is obviously stronger than the domain master. There is no end to the path of cultivation. It seems that if I don't want to be the fish on the stick, I must constantly improve your own cultivation level." Li Tian thought to himself.

...

Huh!

Huh!

The blood domain master and the star domain master appeared on the east and west walls of the spirit soil city respectively.

"Blood Domain Master, Star Domain Master, this Spirit Earth City is now under the control of my domain. You entered my domain rashly, do you want to fight and fail?" A cold female voice appeared in Spirit Earth City. Overhead.

Hearing this woman's voice, the bodies of Li Tian and others were startled.

Domain owner?

And there are three domain owners!

He Feng only felt that his legs were soft and numb, and he knelt to the ground involuntarily, lowering his head, not daring to look up at the domain masters.

Tang Xiaolong, the third son of You Ming and others knelt to the ground at the same time.

Suddenly, the entire Lingtu city fell on its knees in darkness.

In the presence of the kneeling Venerables in public, Li Tian knew that although he continuously broke through to the third-level peak of Venerables, he was a scumbag in front of the domain master. Seeing everyone kneeling down, he knelt without hesitation!

It is important to save your life, and you can win back in the future.

In the entire Lingtu City, only Situ Ningbing was still standing proudly. Situ Ningbing wanted to kneel down, but she found that he couldn't do it at all.

In this way, Situ Ningbing became particularly conspicuous.

"The female domain master... is the female domain master!" Situ Ningbing muttered to himself.

Chapter 4409: : The domain master appeared (4)

Huh!

A figure suddenly appeared in front of Situ Ningbing.

This is a woman, an extremely beautiful woman.

Although Situ Ningbing was prepared in her heart, when she saw this beautiful woman, she couldn't help being stunned, staring at her in disbelief.

This woman is the female domain master.

A woman who is almost identical to Situ Ningbing in figure, appearance, and temperament.

Seeing Situ Ningbing standing in Lingtu City, the faces of the Blood Domain Master and the Star Domain Master could not help flashing a hint of surprise.

When they saw the female domain master, they were completely relieved.

All the earth-shattering visions in the Laika Desert can be fully explained.

"It turned out to be the female domain master's clone. It seems that we rushed into your domain but it was abrupt! But... your clone's cultivation base is really too weak. What's the use of keeping it?" Said with a smile.

To break into another domain owner's domain, this can no longer be described abruptly. To be precise, this is already a provocation, but it is obvious that the star domain master and the blood domain master do not want to be with the female domain because of a small clone. The Lord tore his face.

"This is my business, don't I need to report it to you?" The female domain master said coldly.

"Hehe, you are free, you are free, I am just passing by! Or if you talk to the blood domain master first, I will leave first!" the star domain master said with a smile.

After finishing speaking, the star domain master exerted his feet slightly and swished his body, rushing into the sky like a rocket launch, disappearing into the sky in the dark.

The city wall at the feet of the Star Domain Master instantly collapsed and turned into a piece of gravel.

The Blood Domain Master really wanted to give the Star Domain Master a few mouthfuls.

"Damn, you just leave, what do you do to involve Lao Tzu? I knew it was the female domain master who was hiding here to practice the clone. Why did Lao Tzu come here to join in the fun!"

Ten thousand years ago, in the battle of Ten Thousand Gods Mountain, the entire Netherworld had no more than a hundred domain masters.

More than 7,000 years ago, the powerhouses of the earth world entered the Nether Realm and began to kill, and dozens of domain masters fell.

Over the past seven thousand years, some domain masters have died of life, some domain masters have died inexplicably, and some domain masters may discover the secret realm and disappear in the nether world, and the real domain masters who are really appearing are these twenty people.

Twenty domain masters coerce each other and fight each other, and the Netherworld will have the current balance.

No one is willing to take the initiative to provoke a direct war with the domain owner, unless someone's cultivation base has surpassed the existence of the domain owner.

The words of the female domain master were not very polite, but it was indeed the blood domain master who entered into the female domain master's domain rashly. If it really made matters worse, the blood domain master would definitely not have the advantage.

As for the clones, after thousands of years of the fall of the domain master, it is no secret that the domain master has clones, but these clones are more for self-protection.

Wanting to practice clone is not easy.

First of all, if one's own cultivation base is evenly divided between the deity and the clone, then the cultivation base of both will plummet, and it is extremely likely that the realm of the domain master will fall below the domain master.

If this is the case, it is not worth the gain.

If you lose your domain master status, no matter how many clones you have, it's useless.

And if the clone's strength is too weak, the meaning of existence is also not great, for example, the blood domain master now believes that Situ Ningbing is the female domain master's clone.

Situ Ningbing is just the first-level peak cultivation base of the Venerable.

It's not just a matter of time to go from the top of the Venerable One to the Domain Lord, but more importantly, it is very likely that you put in a lot of energy, financial resources, and material resources, but the final result is not satisfactory, let alone cultivation. It is impossible for the domain master realm or clone to cultivate to the ninth level of the venerable realm.

So these domain masters are cultivating as to why they cultivate their emperor, once the emperor they cultivate breaks through the domain master realm, they will have more say in the nether world.

Of course, if the emperor they cultivated fell due to various reasons, it would also be a great loss for them.

This is why after Li Tianpai made such a noise, the Eighteen Emperors will appear here, and why several domain masters will appear here.

"Huh! It's just a trash clone, why should you be so nervous. A clone with only the Venerable's first-level cultivation level, even if you let me kill me, it will dirty my hands! A woman is a woman..."

The Lord of the Blood Domain snorted coldly and disappeared instantly.

Outside Lingtu City, the eighteen emperors heard the words of the blood domain master and the star domain master, and they were all relieved.

It's no secret that a domain master-level powerhouse has a clone in the Nether Realm, but all domain masters who engage in clones will secretly do it to prevent the clone from being exposed to the clone to incur the disaster.

"I think someone has broken through to the realm of the emperor, tusk tusk!"

These emperors shook their heads slightly with a disappointed expression on their faces, and then their figures flashed and disappeared.

...

The dust and gravel above Lingtu City slowly fell, and Lingtu City returned to calm again.

The female domain master imposed the upper domain on the spiritual earth city but did not put it away.

The female domain master looked at Situ Ningbing, her face did not fluctuate in the slightest, as if she was looking at someone who had nothing to do with her.

In fact, it is true.

At the beginning, the mysterious woman separated Situ Ningbing from the body of the female domain master. The clone Situ Ningbing left the Netherworld and went to the earth world. During the long years, the body of the clone Situ Ningbing gradually dissipated, and finally only relied on a ray of consciousness. Rebirth.

Don't look at the current Situ Ningbing and the female domain master look similar, but the two people only have some memories that are the same, and the others don't seem to be related.

"Follow me, get out of here!" said the female domain master.

The tone was plain and without emotion, but it was a command in Situ Ningbing's ears, which was absolutely beyond doubt.

"I...I won't leave!" Situ Ningbing said.

"Humph!"

"Even if there is only a little memory that belongs to me, you are my clone. As long as you follow me, you will gradually recover the memory that belongs to us in the future. Moreover, now the Lord of the Blood Domain and the Lord of the Stars already know your existence. If you are not by my side, I am afraid that you will be beheaded by those domain masters soon!" The female domain master said with a cold snort.

"I... disagree, no one can take Ningbing away from me!" Li Tian raised his head with difficulty, looked at the female domain master who seems to be twins with Situ Ningbing, and said firmly.

"Huh! It's up to you? Do you now have the ability to protect yourself? Are you able to protect my clone? If it wasn't for me to excuse you today, you will either have become a dead body, or you are already in another domain owner. Or under the control of the emperor!"

"Now, you are not even qualified to talk to me in this tone!"

The female domain master continued coldly: "You stupid fellows, although I blocked you today, but those domain masters and emperors are all human beings. If you don't want to cause trouble, you'd better hide!"

"Especially you idiots, the secret of the death battlefield is less than five hundred years old. Do you think your botched lies can deceive other people? If you don't want to die, hide."

"Li Tian? Do you want to protect her?" The female domain master pointed to Situ Ningbing and asked.

Li Tian nodded slightly.

The hostess smiled with satisfaction, but then shook her head.

"It's a pity that you are not strong enough! Even if you have the mid-level ninth-level Venerable, no, even if you have the cultivation base of the early-level ninth-level Venerable, I will believe what you say! What a pity, you are too weak!"

"Although I am not a domain master now, because of ten thousand years ago, I can no longer be a clone, so she is my only clone, I will not take my clone to risk!"

"Now, she must follow me, and only I can protect her! Li Tian, if you still want to meet, then you will become stronger as soon as possible!" said the female domain master.

...

Situ Ningbing left with the female domain master!

The female domain master's attitude is very clear. When Li Tian's cultivation reaches the ninth rank of Venerable, when he has the ability to protect himself in the Netherworld, he can meet Situ Ningbing again.

Standing on the defeated wall of Lingtu City, watching Situ Ningbing and the female domain master who were already drifting away in the darkness, Li Tian felt very upset.

Since coming to the Netherworld, Li Tian has been very upset!

"In the eyes of your domain master, perhaps only those who have a cultivation base of the ninth level or above are considered strong! Now I, Li Tian, may exist like an ant in your eyes, but it doesn't matter, since I Li Tian decided to come to Netherworld World, you won't easily admit defeat and yield easily!"

"Ningbing, wait for me!"

"I am now at the third level of the Venerable, and soon I will reach the ninth level of the Venerable. The ninth level of the Venerable, no, this is just the beginning. I will become so strong that all the emperors in the Netherworld are afraid I, all domain masters must look up to me! I want the female domain master to send you to me personally!" Li Tianan said with determination.

After seeing the power of the domain masters and listening to the words of the female domain masters, the third sons of the nether world also understood that it would be inappropriate for them to suddenly appear in the nether world.

The Third Nether Master is not the emperor, their name is far less loud than the eighteen emperor.

However, among the descendants of the emperor, the descendants of the domain master, the third son of the Netherworld still has some names.

Now, they who were supposed to be on the death battlefield suddenly appeared in the Nether Realm. As long as they were discovered by someone who knew them, and then spread the matter out, it would inevitably cause an uproar in the Nether Realm.

If someone really wants to check them, they will always find some clues, which will definitely be detrimental to Li Tian.

For safety reasons, the Third Young Master and his entourage did not leave Lingtu City, but instead came to Li Tian obediently and asked Li Tian to send them all into the space of Qiong Lance of Heaven.

The space of the Sky Spear is always more comfortable than the death battlefield.

And Li Tian also promised them to let them come out if there is a suitable time.

...

When the Blood Domain Master and the Star Domain Master left Lingtu City, they didn't know whether it was intentional or unintentional. They easily destroyed the two walls of the east and west walls of Lingtu City.

The city wall was destroyed, and the spiritual soil city was full of anxiety.

Thousands of robbers from the spiritual soil surrounded He Feng.

"Boss, this is not simply the destruction of the city wall. Just now because the female domain master is here, the blood domain master and the star domain master have been eaten up, but now that the female domain master has left the spiritual soil city, I am worried that other domain masters or emperors will wait for opportunities to retaliate Our Spirit Earth City!"

"Need them to wait for an opportunity to retaliate? Huh, you really think of us as a few green onions."

For tens of thousands of years, the Netherworld has always had a rule not to become. No matter what kind of mistakes the venerables made, as long as they can escape into the Laika Desert alive, no emperor and domain masters are allowed to enter the Laika Desert to hunt down.

It is for this reason that although it was difficult for the bandits of the spirit soil to obtain in the Laika Desert, they also survived with difficulty.

Some spiritual soil bandits even dared to boldly manipulate the area controlled by the emperors, plundering spiritual soil and robbing miners.

Of course, there are only a few spirit soil bandits with such courage. If the spirit soil city where He Feng is located is not to rescue Li Tian, they would not dare to attack the area of the Frost Emperor.

"Now I am afraid that those domain masters will release a message at will, and then there will be powerful people at the seventh and eighth levels of the Venerable to enter the Lycra Desert to please the domain master."

"One or two of the 7th and 8th ranks of the venerable have the leader He Feng and the old lame. I am afraid that we will not be able to hurt our spiritual soil city. I am afraid that other spiritual soil robbers will use some information after they get some information. At that time, our Lingtu City will be eaten by these guys, even without bones left!"

The robbers in the spirit soil talked to He Feng about their concerns.

"Master He Feng, we ventured to rescue the Li Tian brothers in order to safely leave the Laika Desert. This situation and situation are not what we want to see."

The bandits of Lingtu are not stupid, they have long seen that Li Tian seems to have a space artifact, otherwise Situ Ningbing would not suddenly appear in Lingtu City, or else the Third Young Master and others would not appear suddenly. Spiritual Earth City.

Just now, since the Third Young Master and the others disappeared in front of them, their thoughts were even more affirmed.

"Boss, now Spirit Earth City is not safe, you can't just watch your brothers..."

He Feng nodded slightly, interrupting the words of the bandits in the spiritual soil, and said: "It has been five months since Li Tian was rescued by us. In these five months, Li Tian has been practicing, I I didn't have time to ask. Since this happened, I will ask Li Tian!"

He Feng walked out of the crowd and walked a few steps to Li Tian's side.

"Brother Li Tian..."

"I know, I have heard what you said! If I don't want to take you out of the Spirit Earth City, I will not use it in front of you to send my entourage into the space artifact!" Li Tian said.

There are more than 5,000 spiritual soil robbers in this spiritual soil city. Except for the 2,000 second-generation robbers such as Little Cripple, the other three thousand spiritual soil robbers all have cultivation bases above the venerable level.

According to Li Tian's understanding, among the three thousand spiritual soil bandits, there are more than 30 Venerables with the fifth level of cultivation and above, five Venerables with the sixth level and above, and the leader He Feng is the Venerable with the seventh level of cultivation. .

This is definitely a powerful force.

Especially the seven-level powerhouse like He Feng is even more rare.

If these venerables were not spiritual bandits and urgently needed to leave the Laika Desert, even if Li Tian begged them, they might not see Li Tian in their eyes, let alone actively demanding to follow Li Tian as they are now.

Seeing He Feng nodded slightly, Li Tian said: "Leader He Feng, it's not impossible to take you out of the Laika Desert, but there are some things I need to explain in advance. First, my temporary cultivation is limited. I can't guarantee leaving the Laika Desert. Your safety, so you can only enter my space artifact."
