

A Killer 4471

Chapter 4471: : Emperor Tree Elf (3)

"Stop! Who allowed you to leave like this? Do you really think that our tree elves can let you humans be insulted?"

A general tree spirit with golden wings, whoosh! He flew in front of Li Tianhe Youanrou, and his whole body's golden spiritual power leaked out and turned into a golden curved bow. With a cold snort, he shouted: "Where is the soldier tree spirit!"

"Yes!" tens of thousands of soldier tree elves shouted at the same time.

Immediately afterwards, these tens of thousands of soldier tree elves gathered together, like bees squeezed together, and gathered into a huge ball in less than a few seconds.

At this time, these soldier tree elves are all flowing with light spiritual power, and these light spiritual powers are used to condense between the soldier tree elves and the soldier tree elves.

As the anger of the soldier tree elves increased, Li Tian could feel a terrifying pressure released from the ball composed of these soldiers tree elves!

"Li Tian, this is the power of the soldier tree elves. These soldier tree elves seem to have only the realm of cultivation, but they can release their spiritual power when they are in the realm of cultivation, and these thousands The accumulation of tree spirits will form a qualitative change!"

"More importantly, these soldier tree elves can be combined into one, or they can fight separately. Even if you kill some of them, as long as there are other soldier tree elves, you can immediately make up to ensure the overall combat effectiveness of these. constant."

"Furthermore, the soldier tree elves here are still busy with other things. Once the other soldier tree elves are gathered here, they can form ten, a hundred, or even thousands of them. The overall strength does not belong to the ninth level of the Venerable. The body of the strong!"

"Also, those tree elves have not done anything yet. Once they are gathered together, the combat power they can form will be close to the domain owner, and this is only a family of tree elves. In this dark forest core area, like tree elves There are still many races. You now understand why even if the emperor and the domain master come to the core area of the dark forest, it is possible that they can't get out!" You Anrou said.

Li Tian nodded slightly.

"What should I do now? I have already said what I have said. If these tree elves really do, then I will take you into the space!" Li Tian said.

"No, I think what you said makes sense! And now neither the tree elves nor the emperor tree elves have spoken, maybe there is a turning point!" said You Anrou.

Li Tian turned around, looked at the Emperor Tree Elf, smiled slightly, and said, "Respected Emperor Tree Elf, what? Is this annoyed into anger, and you want to leave me and You Yinrou here to make fertilizer?"

"However, even if the two of us make fertilizer here, I am afraid that these trees will not survive! Emperor Tree Elf, I believe that as the leader of the Tree Elf clan, your wisdom and judgment are far better than other Tree Elves. Family."

The elf of the emperor tree flew around Li Tian and Youanrou a few times, staring at Li Tian all the time.

"Aren't you afraid of death? If you sincerely apologize to me and take back what you just said, I might consider letting you go!"

"Of course I'm afraid of death. I'm more afraid of death than anyone else, because I have more important things to do." Li Tian said here, turning the conversation, sneered and said: "However, I have already said an apology once, I won't say it a second time! Besides, what is said is the spilled water, how can it be recovered?"

"If you feel that what I said is not reasonable, then you can order it! I am buried with the entire tree elves race, I am too happy to have time!" Li Tian stood proudly and said without changing his face.

You dark soft nodded slightly, looking at the elf of the emperor tree and said: "Master elf of the emperor tree, you can leave me here, but you can't keep him here. Maybe I can remind you that this man is the man of the female domain master. !"

"What about that? Are there still few domain masters dying in this dark forest? Even one more female domain master will only increase the number!" The emperor tree elf's eyes turned a few times and said with a sneer.

"Of course, as a tree elfen clan, it is really not difficult to deal with a domain master. But, don't you see that the spear of the sky in his hand is the weapon of the long-haired woman in the battle of the Ten Thousand Gods Mountain ?"

"I think that woman could cause thousands of domain masters to fall with this weapon..." You Yinrou didn't finish her words, but the meaning couldn't be more obvious.

The landlord fell in the hands of that woman. Do you think these tree elves and general tree elves of the tree elves are stronger than the landlord?

Of course, Youanrou is also extremely clever. She knows that Li Tian can use the spear of the sky, and even Li Tian can display the purple electric dragon. However, Youanrou did not point out the difference in strength between Li Tian and that woman. If so, few people can consider this matter.

"Haha, what Elf Rou said, we want the tree elves to try his strength!" A golden winged tree elves flew out and said.

"Idiot, even if you want to challenge me, I am not interested in fighting with you!" Li Tian said with a sneer.

"Why? Don't you dare to look down upon our tree elves?" The tree elves flapped their wings excitedly and said with a thorn in his hand.

Li Tian shook his head slightly and said, "Now that you are still fighting for face, it seems that the life and death of these giant trees is really irrelevant to you!"

These tree elves couldn't help being startled.

That's right, Li Tian never said he looked down on the tree elves from beginning to end.

"Haha, it's really a hero! You still want to retreat?" The Emperor Tree Elf suddenly laughed and said.

The tree elves looked at each other, not knowing where the imperial tree elves were causing trouble, but they did not dare to disobey the imperial tree elves and backed away.

"Who is this....."

"Li Tian!"

"Elves, I apologize to you for my recklessness just now, but I need to reiterate that no one can despise our great tree god!" said the elf.

If the tree elves call a human being an elf, then it means that the tree elves have recognized the human being and have already regarded it as their kind.

This is the supreme honor of the tree elves!

"Sorry, I didn't mean that!"

Seeing that the elf of the emperor tree had known his mistake, Li Tian naturally took advantage of the situation and gave him a step down.

"Okay, then let's discuss how to treat these poor trees now! Elf day, I believe you and Elf Rou are sent by the tree ***** to help us!" said the elf.

Well, it's on the tree ***** again, and the emperor tree elves will find themselves down the stairs.

Chapter 4472: : Than wine

The sacrifice is still going on, but the scale is not as good as before.

Li Tian entered the space of the Qiong Spear of the Sky, brought a few more buckets of water, and brought it out so that these tree elves could continue to irrigate the towering trees.

The tree elves can't entertain Li Tian like humans, Li Tian can only sit on the ground with the dark soft.

The emperor tree elves ordered several tree elves to accompany them, and they landed on the left and right shoulders of Li Tian and You Yinrou respectively.

These two big insect-like tree elves are sitting on Li Tian's shoulders, flapping their wings from time to time. It is far from Xiaoyacha's invitation to see Li Tian, but the imperial tree elves' enthusiasm is difficult. A big bug is torn off from the body, tear it into pieces!

Holding a wooden container the size of a walnut, a few soldier tree elves flapped their wings and flew in front of Li Tian and Youanrou, sending the container full of cyan liquid to Li Tian's hands.

"Li Tian, this is a good thing!" You Yinrou blinked at Li Tian.

Before Li Tian put his nose down, he smelled a faint fragrance and a faint smell of alcohol!

"Elves, Elves, please drink this cup! This is the best wine brewed by our tree elves, and it is a treasure you humans can dream of!" said the elf.

"Good wine? Could there be my Niulanshan beauty?" Li Tian was filled with disdain, and took the wine glass and drank it.

The cyan liquid enters the throat, it feels a bit like a fruity cocktail.

When the liquid flowed into Li Tian's abdominal cavity, the liquid suddenly dispersed, turned into a gas, and became a rich spiritual power, echoing in Li Tian's body!

Li Tian felt the hair on his body grow up, and he was full of a pleasant feeling.

"This...this...is actually a green tree?" Li Tian's face couldn't help changing color.

Looking at Li Tian's expression, the tree elves and the others smiled triumphantly.

"Hahaha, Elf, do you now know what this wine is? Yes, this wine is a tree green, which can be used for healing and spiritual power absorption and cultivation!" Said.

Li Tian spit out and drowned the Emperor Tree Elf.

It's a ***** thing, such a precious thing is drunk as juice.

There is no lack of spiritual power in Li Tian's veins. This cup of green tree drink in his belly, and what can be absorbed by Li Tian is just a sliver. I really don't know what the emperor tree spirit is so proud of!

"Elf day, Elf Rou, as long as the two of you can help us solve the problems encountered by the Elves, you can drink as much as you want, Shuqing!" said the elf.

Li Tian didn't want to hit the elf of the emperor tree. Seeing that he was getting more and more stinky, more and more proud, he flipped it over, and he already had half a bottle of Niulanshan Erguotou in his hand.

This Erguotou was the half bottle left by Liu Yihui to drink without incident, and was now held by Li Tian.

Don't ask Li Tian why he didn't take Wuliangye, because he felt that he should use Niulanshan Erguotou to deal with the tree elves.

"Elf, what is this? Is it an Aquarius?" the elf of the emperor tree asked suspiciously.

Without answering, Li Tian poured a glass of Niulanshan Erguotou. The wine was full of fragrance and the aroma was tangy. Even the tree elves who were playing music could smell the fragrance, and the rhythm of the performance was a little messy.

"Fragrant, really fragrant, what exactly is this? Let the emperor taste it first!" The Emperor Tree Elf had lost the arrogance he had just now and couldn't help flying to Li Tian and asked anxiously.

"It's so shameless, I'm thinking about drinking my wine, and what kind of stinky stand is there!"

Li Tian shook his hand, and a glass of fine wine was immediately scattered on the ground.

The fragrance of the wine is more intense, and the tree elves who were originally dancing the sacrificial dance flew to Li Tian's side in a mysterious manner. Two huge compound eyes kept staring at Li Tian, looking at Li Tian with a pitiful expression.

"Imperial tree spirit, please forgive me for being unreasonable. Originally I wanted to take some self-brewed wine for everyone to taste, but I remembered that we still have business to do now, if you are all drunk, wouldn't it be a delay? Business? So this fine wine will be kept until things are done and we will drink it when we have a celebration party!"

The imperial tree elf nodded helplessly.

"Hmph, although your wine smells good, I don't believe it can have the fragrance of our tree green wine, let alone make us who drink the wine as water for many years will make the tree elves drunk!" One of them will The tree elf sneered.

"Yes, that's right! We wouldn't believe it unless we compare it!"

"Yes, the tree green wine is the best wine in the entire Nether Realm, and it is much better than the current Dukang Divine Wine in the Nether Realm!" The tree spirit echoed.

"In that case, let's compare!" said the elf.

Li Tian had no choice but to accept the wine competition with these tree elves.

To be fair, choose two from the tree elves, and then let them drink Shuqing and Li Tian's Niulanshan at the same time.

If the first round goes on and neither of the tree elves are drunk, then go to the next round.

At the beginning of the game, the tree elves who chose to drink Li Tian's wine were already drunk and confused. When he barely drank a glass of Niulanshan, he was already drunk and unconscious. .

There are others who think this is a coincidence, and they do not admit defeat and are not convinced. Li Tian is always willing to come. Everyone will drink a glass of wine.

As a result, the tree elves were swallowed.

Had it not been for the half-bottle of Niulan Mountain in Li Tian's hand had been drunk, I am afraid that other general tree elves would use this as an excuse to continue begging for fine wine.

The Emperor Tree Elf said with some regret: "Today's Bijiu ends here!"

Then the elf of the emperor tree secretly said to Li Tian: "Elf, can we exchange some of your wine with the green tree? Let's change one by one. This tree green is what you humans dream of..."

Li Tian interrupted the imperial tree spirit directly and said, "Now is not the time to discuss the wine, let's first investigate why these trees are dead, and why the rivers nearby are drying up!"

"This... it's getting late now, we tree elves have to rest, wait until tomorrow morning to continue!"

Li Tian still wanted to say, but was held back by You Yinrou.

"The tree elves are not nocturnal creatures. It is indeed late now. Let's wait until tomorrow!"

Li Tian can only agree!

...

Early the next morning, just after dawn, all the tree elves who hid in the trunk last night appeared again.

After one night, this piece of giant tree died even more. Fortunately, Li Tian raised a lot of buckets overnight, temporarily enough for these tree spirits to irrigate the towering trees.

The emperor tree elves photographed a team of 1,000 tree elves, and asked them to follow Li Tian and Youanrou to investigate why the river dries up!

These thousand general tree elves can form a ball group with the realm of the emperor, which makes Li Tian's heart full of pride.

"Go, let's go!" Li Tian waved the Qiong Spear of the sky and exclaimed excitedly.

Chapter 4473: :the reason

Huh!

Huh!

Li Tian and You Yinrou's speed is so fast, both of them burst out with the strongest movement speed, their figures constantly flashing in the woods, and from time to time they will use one or two teleports.

...

Li Tian probably already knew some of the reasons in the woods. The reason why those trees withered was due to lack of water.

Yes, it is water shortage.

I don't know the reason for the lack of water.

When Li Tian began to look for the cause, Li Tian let the Dixing Yasha go underground to check if there was anything unusual under the giant trees.

Dixingyasha can now be drilled to a depth of several meters, and even the roots of the ground can not be fully surveyed, but this does not affect Dixingyasha's judgment on underground problems.

"Master Li Tian, the underground land in this forest is hot, as if the underground is burning with flames. The land is too dry, there is almost no water in the soil, and the temperature at the roots of the trees is too high, the more you go underground, The temperature will be higher! Even the roots of many trees underground have turned into rotten wood." Dixing Yasha said.

Li Tian sent Di Xing Yasha in this forest to take him into the underground for continuous exploration, almost every tens of miles.

The more he probed, the more Li Tian felt the situation was serious.

The closer you are to the mountains, the lower the temperature in the ground, and the farther you are from the mountains, the higher the temperature in the ground.

It's a pity that this is a dark forest, and the earth travel yasha's escape technique is also imprisoned. There is no way to take Li Tian to go deeper, otherwise you can know what is happening underground.

...

Hum!

Hum!

The thousand tree elves seem to be chasing Li Tian and a group of dark and soft insects, closely following Li Tian.

Before last night, these tree elves did not put Li Tian in their eyes at all.

For these general tree elves, they have a life span of several hundred years, and many general tree elves have seen the ninth-level strong of the Venerable, and the four-level strong of the Venerable is just like a grass.

Until Li Tian suddenly disappeared, and soon appeared again with two buckets of water, these general tree elves realized that Li Tian was still quite powerful.

When Li Tian took out the Niulan Mountain Divine Wine, these general tree spirits admired Li Tian even more.

Until today, these general tree elves who followed Li Tian discovered that their understanding of Li Tian was lacking.

That's right, Li Tian's cultivation base is far worse than that of the ninth-level strong, the emperor, and the domain master. But Li Tian makes them feel more than those strong. It's incredible.

Li Tian arbitrarily summoned a little creature that they had never seen before, and that little creature was able to take Li Tian into the ground and accurately tell the underground situation.

But with this hand, even You Yinrou couldn't do it.

"Li Tian, how is the situation? Can we have a solution?" After knowing the seriousness of the matter, You Yinrou asked with a heavy face.

"It's still not clear. According to my estimation, the underground river in the dark forest has a problem. If I am not mistaken, there is no water in the underground river. On the contrary, there may be magma in the underground river."

"Magma? When you talk about magma, I think there is a volcano in this dark forest, but it is said that the volcano has been inactive for tens of thousands of years. It should be an extinct volcano. Could the magma in the volcano flow into the underground river bed? ?" You Yinrou said.

"If this is the case, it would be easy. As long as we can enter the underground riverbed, I will have a way to remove the magma!" Li Tian said.

"You? Get rid of that?"

"Have you forgotten the little hot pot? He is a man of the Yanhuo clan, isn't he able to deal with magma?" Li Tian said.

Dark and soft nodded.

"I hope so, so do we still have to see the rivers on the ground? The rivers on the ground have also dried up!" said You Yinrou.

"Of course, it's just our guess now. Let's take a look at the river on the ground. If possible, we will follow the river to the source and see where the river is cut off. Then we can more accurately Determine the reason." Li Tian said.

Because of the accident encountered by this dark forest, the Nether Beast in the forest had no idea where to escape. In this way, Li Tian and You Yinrou would have no problem with their safety.

After galloping for nearly two hours, Li Tian followed the tree elves to a river that had dried up.

The trees on both sides of the river have died long ago, and their trunks have become charred black, as if they had been smoky.

In the river channel, there is no shadow of water. The riverbed is full of burnt and dried water plants and fish carcasses that have turned into fish bones.

Li Tian once again let Dixing Yacha lead him into the river bed, only to find that the temperature under the river bed was even higher. Even if Li Tian and Dixing Yacha had a cultivation body, it would feel unbearable.

No wonder the trees around here are scorched.

Li Tian did not stop, and continued to walk up the river bed. He galloped for more than two hours. Green gradually appeared in front of him, and a little water gradually appeared in the river.

Li Tian stopped and said: "The river flows from the source along the river. When it reaches this location, it is completely dried up. It seems that we must go underground once, otherwise there will be no way to solve the problem!"

"Okay, just leave it to me!" You dark softly grasped the strong bow behind him in his hands, and drew out the heavy metal arrow in the quiver behind him, wound it, and aimed it at the ground, saying: "You All back quickly!"

"Elven Soft, I'm afraid this method won't work! You also know the imprisonment of power in the dark forest, and the underground imprisonment of power is even more serious! If you use this method, I don't know you can achieve your goal, but at least I am afraid it will not be possible in the short term!" said a general tree spirit.

"Then what to do? We can't just sit and wait for death!" You Anrou said.

"In fact, it is not difficult to enter the underground river channel. Our tree elves cannot do it, but Oolong fire ants can do it! As long as we find the ant king, it will definitely be willing to do this for us!" Said.

Oolong fire ants are known as a kind of dragons, but dragons never recognize this race.

The dragons think that this kind of species that looks like a reptile and does not speak human language can be a dragon. They naturally classify the Oolong fire ant into the ghost beast.

The dragons do not want to admit that Oolong Fire Ants are dragons, and Oolong Fire Ants do not want to think that they are dragons!

You must know that the area where they live is the core area of the dark forest. It is an area that the emperor and the domain master dare not easily step into. They naturally think that they are one level higher than the dragon.

The king of Oolong fire ants is the most special existence among Oolong fire ants. The king has wings on its back. It is one of the few powerful existences in the dark forest that can go to the sky and the earth.

And even though Neng Anthuang cannot speak human language, he has strong spiritual power and can communicate with people through spiritual power.

For this reason, the ant king and the emperor tree elves have a good friendship.

Find the king of ants, that's it!

The nest of the Emperor Ant is exactly the extinct volcano that has been called a dark volcano.

Chapter 4474: : Ant King

Li Tian felt a little lack of oxygen in his brain.

Even Li Tian once suspected that this dark forest core area still did not belong to the Nether Realm.

Li Tian felt that the core area of the dark forest was completely another world.

There are different unexpected species here, and the lifestyles of these species are also bizarre, but these species are extremely powerful, and even the most powerful domain owner of the Nether Realm looks insignificant in front of them.

There is always a question in Li Tian's head.

The woman who can easily kill the domain master in seconds, if she enters the core area of the dark forest, what will happen?

Li Tian shook his head abruptly, dispelling the unrealistic thoughts from his mind.

After a busy day, I couldn't help but not concentrate.

The sky gradually darkened, and for the cultivator, there was not much difference between the darkness and daylight.

The bitter Li Tian and Youanrou continued to move the tree spirit towards the direction of the dark volcano.

Fortunately, the dark volcano is nearby, and there is no need to travel long distances.

After a long-distance raid for more than two hours, at least a few hundred miles, Li Tian and the dark and gentle tree elves finally reached the dark volcano.

Damn, who told the Dark Volcano is nearby?

A few hundred miles away, you tell me this is nearby?

Come, come, come, whoever said this will stand up, I promise not to kill you!

Seeing Li Tian's eyes that wanted to kill, the tree elves would not fly out stupidly and endure Li Tian's anger.

Before the departure, the emperor tree elves said very clearly that Li Tian has absolute control over this tree elves, and even has the power to live and kill them.

Talk less gossip.

The Dark Volcano is an independent volcano with only a few small hills around the volcano, and no other mountains are connected.

The volcano is not too high, only a few hundred meters, and white smoke is slowly rising from the top of the volcano!

Seeing this white smoke, Li Tian can already guess something!

Fly the tree elves in front and fly to the halfway of the volcano.

The surrounding area is full of black volcanic rocks, but there is a giant tree surrounded by two people growing on the mountainside. Through the luxuriant branches, it can be seen that the giant tree grew quite well before.

It's a pity that this giant tree is now dead!

Flew the tree elves to the side of the giant tree, and then the tree elves began to dance strange dances around the giant tree.

Li Tian is full of black lines!

However, at this moment, something strange happened. A dozen or so bowl-sized holes appeared in the giant tree, and a strange beetle was continuously drilled out of these holes.

Well, in fact, this is not a beetle, but the legendary Oolong Fire Ant.

These oolong fire ants are almost a foot long, and their whole body is jet-black, only with a crimson flame symbol on their heads.

However, Li Tian looked at Oolong fire ants that did not look like ants, but felt a bit like crayfish, but these fire ants had a tail like a scorpion behind them!

This tail is not a barb, but a fiery red spar.

When I just thought of this, a dozen Oolong fire ants were drilled out of the tree hole. These fire ants turned out to be dark red, and sure enough... they looked more like crayfish.

The level of these Oolong Fire Ants seems to be higher than the ones that came out just now, the crimson flames on their heads are more vivid, and the fiery red spar on the tail behind them is also larger.

Seeing these fiery red spars, Li Tian's eyes couldn't help but gleam slightly.

These fiery red spars contained rich spiritual power, which was much stronger than the spiritual power contained in the spiritual soil that Li Tian had obtained before. Li Tian once got a spar in the skin of the dark snow beast.

The spar is bigger than the spar on these ants' tails.

Of course, these fiery red spars certainly didn't have much use for Li Tian, but for the cultivation of small hot pot, the fiery red spars definitely helped a lot.

"Should you take the other people's attention and catch a few oolong fire ants back, and then take this spar back to the small hot pot to practice?" Li Tian thought wildly in his heart.

It seemed that he felt the evil thoughts in Li Tian's heart, and a few oolong fire ants immediately pointed their tails at Li Tian. The red light began to flash on the fiery red spar, giving Li Tian the feeling that a laser weapon was ready.

Damn, this kind of little thing dared to show off in front of Lao Tzu!

Li Tian couldn't help being a little angry, and the Qiong Spear in his hand flicked and aimed at the Oolong Fire Ants.

The dark and soft yelled badly, and suddenly pulled Li Tian's arm to stagger the spear of the sky, and whispered: "Li Tian, these oolong fire ants have something not inferior to the tree elves. Strength, you should still converge a little bit!"

I rub!

Li Tian couldn't help but explode in his heart.

In the earth world, he is the emperor, he is the emperor!

But as soon as he reached the Netherworld, he immediately became a grandson, and anyone could bully him!

After finally following the dark and soft, find some self-esteem, can dominate the middle and outermost layers of the dark forest, but in a blink of an eye he enters the core layer and becomes a grandson.

Several tree elves flew out immediately, blocking Li Tian and the oolong fire ants.

"Please don't get me wrong, we are not malicious! These two are the noble guests of our tree elves, the elves are soft and elves, we are here to see Lord Ant, and please report!" said a general tree elves.

The flaming red spar luster on the tails behind the oolong fire ants dimmed.

I don't know how these oolong fire ants communicate. After a while, hundreds of black or dark red oolong fire ants come out from the hole in the trunk, followed by one that is nearly two feet huge and red all over. Oolong fire ants made their debut.

This is the King of Ants, but the impression that the King of Ants gave Li Tian was pretending to be a crime.

Obviously his mother is an ant, and there is a fist-sized crown on his head. At least dozens of flaming stones are inlaid on this crown.

There was no flame sign on the head of the Emperor Ant. There was a flash of flame on the head of this thing, a crimson flame of spiritual power, and the fiery red spar on his tail was at least the size of an egg.

A cool and mad feeling of pulling the tyrant against his face.

Fortunately, he is just an oolong fire ant, if it is a human...

Thinking about that picture, Li Tian couldn't help shaking his head.

"What are you looking for me for? Why didn't the old guy of the emperor tree elves come in person? Could it be that the old guy has belched" The Emperor Ant didn't speak either, a message had appeared in Li Tian's mind.

Chapter 4475: : Ants on the hot pan

The Emperor Ant is coquettish, but the Emperor Ant is also very distressed!

As the most popular existence among Oolong Fire Ants, he has always been the idol and dream lover of Oolong Fire Ants.

The Emperor of Ants only needs to be responsible for dressing up the beautiful land every day, and he has countless oolong fire ants who are standing in front of him.

When the ant emperor has nothing to do, he will bring a ticket to the oolong fire ant brothers to dig ore underground to eat, and sometimes they can also dig something similar to fire red spar.

This kind of thing is far more decorative than cultivation.

Don't ask why?

Willful!

The ant emperor is male. He controls this oolong fire ant and has the supreme power. Therefore, he also has the right to mate with all females of the entire oolong fire ant race.

Because of this, the king of ants has another daily job, which is to keep the Oolong fire ants digging holes to store his descendants.

This was originally nothing, but just a while ago, a soldier ant accidentally dug out a metal box with a strange flame pattern.

This metal box did not know how many years it had been buried, but it was not rusted or destroyed, but it was still dazzling, just like a new box.

Because of the human consciousness and thinking, the ant emperor believes that the box must be a treasure, and it is a reward from heaven for him, the ant emperor, to control the entire Oolong fire ant race.

Don't ask why, the flame pattern on the box is the best proof.

The Emperor of Ant unceremoniously took the box as his own, and sneaked it to his secret base, which was buried in the cave of his descendants and opened the box.

Then, the ant king was stupid.

A puff of black smoke came out. Before the Emperor Ant could react, he lost control of his body.

Then he saw that black smoke turned out to be gluttonous, eating all his children and grandchildren clean.

After that, the king of ants watched the black smoke burrow into the ground and continue to eat his offspring on the next floor.

Do you think this is over?

This is just the beginning of the nightmare.

The darkness did not know how many oolong fire ant eggs had been swallowed, and finally started to devour the oolong fire ants.

Then the black smoke turned into flames and disappeared from the sight of the Oolong Fire Ants.

Immediately afterwards, something more tragic happened.

It turned out that the dead volcanic rocks at the bottom of the volcano frequently visited by the Oolong Fire Ants gradually came alive and turned into hot lava flowing along the caves dug by the Oolong Fire Ants.

Oolong fire ants are not afraid of flames, and they can even live on flames.

However, I don't know what the magma is. After the Oolong fire ants swallowed the magma, they all turned into rocks, and none of them were spared.

Reluctantly, the ant king could only order the underground paradise that belonged to them to be abandoned, and the criss-crossing ant roads were blocked to prevent oolong fire ants from eating by mistake.

Originally, the ant king thought that the matter should be over here, but gradually, he found that the underground temperature was getting higher and higher, and the extinct volcano actually started to smoke.

The ant emperor can only give another order to move the race to a higher ant road.

And the matter did not end there. The magma somehow entered the channel of the underground river, and the water flowing in the river started to burn, and this large area of underground became a sea of fire.

The current ant emperor is the ant on the hot pot. His little head can't figure out the reason, so he can only do it in a hurry!

After listening to the words of the king of ants, Li Tian was a little silly.

Things are a little different from what he guessed.

What the **** is that box?

And what the **** was put out in the box?

Even the powerful Oolong Fire Ants can't do anything about it, can Li Tian have a solution?

"Master Ant, don't worry, Elf Sky and Elf Rou are sent to save us by Lord Tree God. As long as you can send them underground, they can solve all the problems!" said a general tree elf.

"If this is the case, that would be great! Come, I will take my worker and soldier ants to dig you a passage leading to the underground river, and please be sure to subdue the **** thing. If you If we can do it, if we save our Oolong Fire Ant Clan, I am willing to give you my crown!" said the ant king.

Li Tian is even more stupid.

Something is wrong, why did you force me to Liangshan without understanding what the black smoke is?

And, what is the crown, that **** thing I want to do? Should I be the emperor of your Oolong Fire Ants?

"Eh, it's not so good! We just got here, and..."

Before Li Tian had finished speaking, there was another piece of information in his head.

"I know you won't want my crown. After all, this is a symbol of imperial power. If you want this crown, you will live with our Oolong Fire Ants in the dark underground! I know you are not willing, for Thank you, I will give you that box!"

box?

Yes, that box should be the key.

Soon, the box was picked up by a few Oolong fire ants, and then handed over to Li Tian.

The box is square and square, and on all six sides are carved and painted some patterns that resemble auspicious clouds, and these patterns are actually regarded as flames by fire ants, which is stupid and terrible.

The volume of the box is only as big as a palm. Li Tian held it in his hand and looked over and over again, but he couldn't find the magic of the box.

If Situ Ningbing is here, maybe she can help me!

Li Tian handed the box into Youanrou's hands to see if Youanrou could see some clues, but how Li Tian gave the box to Youanrou, it was as if it were in Li Tian's hands.

Li Tianyou entered the space and asked Tang Xiaolong, Xue Ji, Xiao Hotpot, He Feng and others, but still no one could see the clues of the box.

Helpless, Li Tian could only put the box in the skin!

The speed of oolong fire ants drilling holes is absolutely superb.

It is said that dragons give birth to dragons and phoenixes give birth to phoenixes. Children born to mice will make holes. Li Tian didn't expect that the Oolong fire ants, who are called dragons, are also experts in hole drilling.

It's no wonder that the Dragon Clan doesn't recognize them, it's too lost.

Within half an hour, as piles of black magma fragments were pushed out of the cave by the Oolong fire ants, a cave with a diameter of more than two meters appeared in front of Li Tian.

Taking into account the cave-climbing skills of humble humans like Li Tian, this cave is not straight up and down, but inclined forty-five degrees down!

At this moment Li Tian was melancholy again, really wanting to look up at the starry sky forty-five.

"Elf day, Elf soft, come on! If you can succeed, I can consider making you Yi Rou, and Yi Tian as appropriate!" The Emperor said proudly.

Go to your sister's Yi Rou, why don't you overcome the strength with softness?

Go to your sister's ant sky, if you add a cheap word, is it more appropriate!

Seeing that the egg-sized flaming red spar on the tail of the ant king was aimed at Li Tian, shining with red light, Li Tian could only stiff his head and walk in with the dark and soft.

"If you die, die! If you believe in Li Tian's luck against the sky, maybe there is any good luck?" Li Tian thought in his heart.

Chapter 4476: : A feast of small hot pot

The black cave was very hot and the air was difficult to circulate. As soon as he entered the cave, Li Tian immediately felt that his whole body was saturated with sweat.

You Yinrou's ability to adapt to this environment is obviously better than Li Tian, but she also began to sweat, the full and firm skin, sweat beads slowly slipped from the neck, and finally disappeared into the towering twin peaks. between.

Gee!

This picture is so beautiful!

It's a pity that the king of ants is organizing his thousands of workers and soldiers to dig holes and transport volcanic ashes. With these things, the beauty of the picture is destroyed.

Guru!

Li Tian swallowed his saliva and quickly dispelled the beautiful picture in his mind.

When You Anrou saw Li Tian's expression, she couldn't help but smiled idiotically, and kissed Li Tian's cheek.

"Li Tian, even if you go up to the sword and go down to the sea of fire, with my dark and soft presence, I will never get hurt by you!" said You Anrou.

This was originally a very warm picture, but it's a pity that the little hot pot is incomprehensible, not **** in.

"Well, um, Li Tian, as long as I'm here, I won't let you hurt!" Little Hot Pot said seriously.

Li Tian really wanted to cry without tears.

The tree elves were left outside the cave by Li Tian. If these tree elves are united, they will have good strength, but they can't stand the high temperature at all. If they follow Li Tian into the cave, not only will they not help, but also It may drag Li Tian back.

By the time the ant emperor had some conscience, he sent an oolong fire ant team to let them follow Li Tian.

The original words of the ant emperor were: "Even if my oolong fire ants can't help much, at least when you run away, they can help you dig a hole and dig a way out!"

Is this **** human? Is it human? Is it human?

Thinking about important things three times, but looking at the spar that started to shine red on the tail behind the ant queen, Li Tian swallowed the words in his stomach and did not dare to say it.

Well, using an Oolong Fire Ant squad is better than nothing!

This oolong fire ant team consists of a hundred dark red fire ants.

Through the dark and soft, Li Tian learned that the ranks of the Oolong Fire Ant and the Tree Elves are basically the same.

The difference is that the tree elves rank lowest in the tree elves, the blue-winged guys, followed by the tree elves, the red-winged guys outside the cave, and the best is of course the imperial tree. Elves.

The lowest ranked Oolong fire ants are the worker ants, those black oolong fire ants, they are responsible for more than 100% of the work of Oolong fire ants, and these oolong fire ants have no human rights. Uh, it's Antquan! They only have the right to work non-stop, but not the right to mate.

The second is the soldier ants, those dark red oolong fire ants that are somewhat similar to crayfish. They are the fighting team, and the highest is the ant king.

Even though the number of soldier ants is only one hundred, it is much less than the number of tree elves, but these guys are no weaker than the thousand tree elves, which means that if the hundred soldiers ants unite, Even possesses the combat effectiveness of the domain master level.

Well, Li Tian gave in.

Damn, ants are so powerful!

Who the **** will dare to talk about ants in the future?

Li Tianhe You Yinrou and the small hot pot kept advancing, and the temperature in the cave was estimated to have exceeded fifty or sixty degrees. After the sweat dripped out, it would soon be evaporated.

To be on the safe side, Li Tianhe You Yinrou kept replenishing water.

In fact, with Li Tian and Youanrou's strength, even if they don't add water, they can still be safe and sound.

The little hot pot definitely came out to find the fault, and kept humming, saying: "It's so cool, so cool, hahaha!" He didn't feel nervous at all.

Then, Li Tian and You Anrou pressed and beat this guy, and this was honest.

It has been more than half an hour since entering the cave.

As the temperature kept rising, the soldiers digging the cave became more and more excited.

These guys can feed on fire, and this temperature has no effect on them. The more excited they are, the faster they can dig. According to Li Tian's conservative estimation, they have to dig to a depth of four to five hundred meters. Up.

Boom!

Suddenly there was a loud noise in front, followed by smoke and dust.

A shining red tunnel appeared in front of the cave, which had been dug into the previous cave of the Oolong Fire Ants.

"Elf Heaven, Elf Rou, we can no longer continue to accompany you, let my strongest Oolong Fire Ant squad follow you on! Boys, girls, I am optimistic about you! Come on, I will wait for you to triumph on it!" A message appeared in Li Tianhe's mind.

Feeling this piece of information from the king of ants, the oolong fire ants behind Li Tian immediately turned around in excitement like ants on a hot pot.

They are just old, weak, sick and disabled Oolong Fire Ants, but they are now recognized by the Emperor as the most powerful team among Oolong Fire Ants. For Oolong Fire Ants, this is absolutely the supreme honor. How can it be? Unhappy.

These oolong fire ants showed their loyalty to the ant king one by one, expressing that they absolutely must ensure the safety of the elves and elves, at the cost of their lives.

Li Tian didn't know the thoughts in the minds of these Oolong Fire Ants. If he knew it, he would definitely be touched, and he would feel that these Oolong Fire Ants were brain-stuffed, and they were so confused by the King Ant.

Saying goodbye to the ant emperor, Li Tian, Youanrou, and Xiao Hotpot continued with a hundred Oolong Fire Ants.

There was already red light in this cave, indicating that it was not far from where the flames were burning.

The little hot pot volunteered to take the lead and stood in front of Li Tian and You Anrou.

"Boss Li Tian, I will look at me from now on, no matter what flame or magma it is, it's just a dinner for me in a small hot pot!" Li Tian was a little moved by this booze.

Along the passage that the Oolong Fire Ants had dug before, they walked about two hundred meters horizontally, and then leaned for about five hundred meters. Li Tian and others finally reached the end of the cave and came underground. River.

There should be no underground river under this volcano. This so-called underground river is also a channel dug by the Oolong fire ants, but it is wider and taller than the previous channel.

At this time, the magma was rolling and steaming in the underground river.

The little hot pot yelled in excitement, and jumped into the magma.

The oolong fire ants looked at the small hot pot excitedly, wanting to see the scene of the small hot pot burning with jade, but soon they were disappointed.

Chapter 4477: : A feast of small hot pot

The little hot pot is a man who has been called the **** of fire, although this title is only in the east of the earth world.

But after all, the small hot pot is a super existence that has been trapped in volcanic magma for thousands of years. This volcanic rock is difficult for Oolong fire ants, but the small hot pot shows no pressure.

Then, in the amazement of the people and the ants, the small hot pot began to absorb the magma in mouths.

A magma fire dragon was constantly being swallowed by the small hot pot.

"It's so cool! It's so cool! Boss Li Tian, do you want to come too, this magma contains rich flame spiritual power, which is of great help to my cultivation base, hahahaha! It's so cool!" That's it!" Little Hot Pot said triumphantly.

Flame spiritual power?

Yes, in fact, spiritual power is also divided into categories!

According to the five elements, it is divided into gold, wood, water, fire, earth, and other special spiritual powers!

The spiritual power attribute of Darkness is gold, so her spiritual power can be condensed into arrows, and her spiritual power attached to the metal heavy arrow can double the combat power of the metal heavy arrow.

The spiritual power of the dead Youhua Yaozun belongs to the wood spiritual power, and his spiritual power can be transformed into thousands of flowers, flourishing, especially when fighting in the forest, his spiritual power can be obtained. With some bonuses, the combat effectiveness should also be stronger.

Venerable Nanlan Peak's spiritual power is a bit more special. His spiritual power is a mixture of earth spiritual power and water spiritual power, so the spiritual power he releases is mountain torrent spiritual power. It is also for this reason that the sword he cultivates Yu Canghailu has no way to reach the realm of Dzogchen.

Poor tease is really helpless.

The spiritual power of the small hot pot naturally belongs to the fire spiritual power. It is not surprising that this magma contains fire spiritual power, but what makes Li Tian wonder why the magma contains rich fire spiritual power.

As for Li Tian's spiritual power, the spiritual power he cultivated belongs to water spiritual power!

And the spiritual power brought by the blood-swallowing spiritual source belongs to the special spiritual power. The spiritual power of the blood spiritual source has the dominance of the fire spiritual power and the destruction of the dark spiritual power.

It is a pity that all the strong in the Netherworld know spiritual power, and they also know that various spiritual powers seem to be slightly different, but there is no complete classification system, and no judgment system.

So these funny comparisons like Nanlan Peak immediately started practicing without hesitation when they got the high-end cultivation cheats like Swordfish Canghailu.

Of course, Li Tian only has a concept.

And Li Tian still hasn't fully grasped the dark flame spiritual power in the blood spirit source, and he has not even exerted one percent of the power of this spiritual power.

This is related to the level of cultivation and also to Li Tian's mastery.

The small hot pot was constantly devouring magma, and within a few minutes, the 100-meter-long magma was swallowed up by the small hot pot.

Looking at the small hot pot, he is obviously a point bigger than before.

After the small hot pot swallowed the magma, he immediately sat on the ground and began to absorb the spiritual power in the magma.

Don't ask if the small hot pot swallows the magma in the earth world. According to Li Tian's guess, the earth world should belong to the Age of Doom. The spiritual power is thin and pitiful, and there is almost no spiritual power in the magma, so... this explanation is pretty good. Pass it!

The surrounding temperature dropped slightly, which made Li Tian and You Yinrou more comfortable.

"This is the first time I have seen the cultivation method of the Yanhuo clan. It is really peculiar! But with a small hot pot, we do have a lot of ease. If he can swallow all the magma and flames underground, our mission will be completed. Now!" You Anrou said.

Li Tian nodded and shook his head again.

The small hot pot can swallow magma and perhaps flames, but don't forget that these magma and flames are made from the black smoke released from that box.

That black smoke is the real culprit.

Li Tian didn't know what the black smoke was, but Li Tian could guess that the black smoke was by no means simple.

A few minutes later, a powerful energy wave suddenly appeared in the underground river.

Li Tian and You Anrou looked in the direction of Little Hot Pot at the same time, but saw a smile on Little Hot Pot's face.

The small hot pot did not break through, but the spiritual power on the small hot pot was obviously stronger than before.

The little hot pot jumped up suddenly and smiled at Li Tian and said, "Hahaha, Boss Li Tian, it's a great supplement! Since I returned to the realm of Venerable, I can't increase my spiritual power by absorbing spiritual sources, I feel that I His cultivation base has progressed slowly. I didn't expect that after absorbing these magma today, I could easily cultivate to the mid-level 1st grade of Venerable. It's really cool."

"Boss Li Tian, this magma has been contracted by me, so you can see that I keep breaking through!"

The little hot pot rushed forward several hundred meters and started to consume magma again.

everything is normal!

Li Tian and You Anrou continued to study the metal box, so that the small hot pot kept devouring the magma.

And those oolong fire ants, they also want to swallow these magma like a small hot pot. For them, flame and magma are delicious, but they also know that if they swallow these magma, it will end up with death.

Seeing the delicious food right in front of them, these oolong fire ants are anxiously turning around.

The little hot pot, a scenic guy, kept shouting: "Sweet, delicious!" Finally, a few oolong fire ants who couldn't bear the loneliness and the temptation of food began to devour the magma.

Li Tian wanted to stop it, but it was too late. A total of five oolong fire ants swallowed the magma, and within a few minutes their bodies were carbonized and turned into rocks.

Magma is poisonous!

Li Tian looked so distressed.

If these 100 Oolong Fire Ants are united, they can have a domain master-level combat power. Li Tian feels that five Oolong Fire Ants are missing, and this combat power will at least be discounted.

"Give me all back! This magma is poisonous, you don't want to die? Huo!" Li Tian yelled angrily at these oolong fire ants.

Looking at Li Tian's crying face, the remaining ninety-five oolong fire ants kept moving back. Although they could not understand what Li Tian was saying, they could feel Li Tian's breath and Li Tian's breath. God hurts.

It turns out that human beings are not entirely hateful. Look at this elven sky, he is very good, and he can feel sad for the death of our five Oolong fire ants. This is much stronger than the ant king.

These oolong fire ants immediately became excited again, circled around Li Tian, showed loyalty to Li Tian, and reiterated their willingness to go through fire and water for Li Tian.

It's a pity that Li Tian couldn't understand or hear.

The small hot pot was refreshing to swallow. In just half an hour, the small hot pot swallowed at least a lava fire dragon that was more than a kilometer away, and the cultivation base of the small hot pot successfully reached the top of the first class.

However, at this moment, a black smoke drifted from the distant river, and the entire river was filled with smoke in an instant.

The black smoke is coming!

Chapter 4478: : Black Smoke Ball

The black smoke is coming!

Li Tian saw clearly how bad the Oolong Fire Ant product was.

Just now, I circled Li Tian and was loyal to Li Tianbiao. In the blink of an eye, all the 95 Oolong Fire Ants disappeared!

Some oolong fire ants fled back the same way, and some oolong fire ants drilled large holes in the wall of the river channel into the rock and buried themselves.

Fortunately, Li Tian didn't know that those oolong fire ants were showing loyalty to him just now, otherwise Li Tian would have to vomit blood from them and die.

Of course, this is no wonder Oolong Fire Ants.

All the Oolong Fire Ants of this race only obey the King of Ants. The message from the King of Ants to these Oolong Fire Ants is if there is any danger, they will flee with Elf Tian and Elf Rou.

Now the danger is coming, and they naturally want to flee.

It is beneficial for Li Tian and Youanrou not to escape, that is not their control.

The little hot pot stopped devouring magma, and instantly came to Li Tian.

The three of them watched the direction from which the black smoke came.

As the black smoke floated over, a hot lava river slowly flowed in the dry river that had been swallowed by the small hot pot.

On the wave of magma, stood a small black smoke ball the size of a palm.

After seeing Li Tian, the dark and soft little hot pot, the black smoker flew up and landed seven or eight meters away from Li Tian.

"Are you the rescuer sent by the monkey? Are you the rescuer sent by the monkey?" said the black smoke group.

Li Tian felt that his head was not enough!

Isn't this line from the Red Boy in Journey to the West?

The dark and soft little hot pot looked at each other and looked at Li Tian.

Li Tian didn't know how to answer the black smoke group.

His mind is running fast, and he is quickly analyzing various possibilities and the best answer plan in his mind.

However, various plans were rejected by Li Tian.

The black smoke group did not play cards according to the routine, making Li Tian, who was already a little flustered, even more messy.

Since you don't play cards according to the routine, don't blame me for not taking the usual path.

"Your mother's last name?" Li Tian asked rhetorically.

Ok! Little hot pot, dark soft, black smoke group, were all dumbfounded by Li Tian's words.

Heiyan Tuan'er racked his brains and didn't understand how to answer.

The black smoke group is born and raised, the sky is the father and the earth is the mother, how could he answer this question?

Whoever answered the other party's question was a tie.

The black smoke group asked again: "Did you swallow the magma I made?"

"It's him!"

Li Tian and You Anrou pointed their fingers at the small hot pot at the same time.

The little hot pot suddenly felt betrayed, and he couldn't help but feel a little sad.

The black smoke ball nodded slightly.

"Very good! I didn't expect that the magma I refined with Jiuwei real fire would still be swallowed by someone, and that I could live without death. It really surprised me!"

"Do you dare to compete with me? If you can beat me, I will be your little servant in the future, if I can beat you, then you three will be my little servant in the future!" Hei Yan Tuan pointed his hand and pointed Li Tian said.

Li Tian moved left and right several times in a row, and the smoke fingers of the black smoke ball pointed at him.

I wipe it, is there a problem with the eyes of this black smoke ball!

It is obviously a small hot pot that swallows these magma, okay, you and Lao Tzu are trying wool!

Besides, I only heard of Shamisen Real Fire. What the **** is Jiuwei Real Fire?

Small pot with a gloating expression looked Tian, a look he was spanking, facing Tian said: "Tian boss, in fact, I'd like to help you, unfortunately Gee, helpless ah."

You dark soft frowned slightly, and said to Li Tian: "Li Tian, I have never seen this black smoke ball in the Nether Realm, and I don't know where the black smoke ball came from. You must be careful. , If... If there is any accident, don't worry about me and the little hot pot, hide yourself!"

Stretching the head is also a knife, and shrinking the head is also a knife!

Li Tian gave it up.

"Compared, what is better?"

"I will use Jiuwei real fire to create a piece of magma. If you can swallow it and it is safe and sound, then you will win! If not, I will lose!" said the black smoke group.

My day!

Lao Tzu is not a small hot pot!

Not to mention the magma made by Jiuwei Real Fire, even ordinary magma, I can't kill myself by swallowing fire!

The black smoke group looked at Li Tian triumphantly.

He knew that there was a rock fire race in the Netherworld that could swallow his magma, and the appearance of the small hot pot obviously echoed the race in his impression.

Naturally he can't compare with the small hot pot.

And the energy fluctuations unintentionally released from You Yinrou's body are also very powerful, and the best candidate must be Li Tian.

The dark and soft little hot pot also looked at Li Tian.

"Why don't I compare with you?" Little Hot Pot said.

The black smoke group shook his head.

Li Tian's mind was running fast, thinking that he could break the current deadlock.

"There is almost no energy fluctuation in this black smoke group, and I don't know how strong this little guy is. Do you want to do it now?"

"No, since Oolong Fire Ants have nothing to do with this black smoke ball, maybe this little guy is a persecutor pretending to be a pig and a tiger. If we can't hold this little guy, maybe we will all become coke. Up!"

Suddenly, Li Tian thought of a way!

"Would you like to try to throw the magma into the space of the Qiong Spear of the sky, as long as the magma disappears, how can he know if the magma was swallowed by me or where it went?" Li Tian thought to himself.

"Hey, it's better not to think about opportunistic tricks!" The black smoke group waved, and a black rock appeared on the ground immediately. After a few seconds, the rock melted, and a jet of black gold flame spewed from the rock. .

The flame of the sun is Ugin's fire, this flame can swallow everything.

At the moment when the Wujin flame was burning, Li Tian saw that the magma was instantly swallowed and disappeared, and the space around the flame was a little distorted, if it weren't for the black smoke group, he reached out and absorbed the Wujin flame into his body. , Li Tianzhen wanted to wonder if the flame would ignite all the air.

Seeing this small flame hot pot, I couldn't help but change its color slightly and took a step back!

Even the small hot pot began to wonder if he swallowed the magma, the flame would swallow him back.

Seeing the expression on the little hot pot, the black smoke group was very proud.

Hei Yan Tuan is deliberately scaring Xiao Hot Pot and Li Tian!

There is only a wisp of black gold in his body. If the flame is really swallowed by the small hot pot, then he will be wiped out in smoke, and he is not willing to bet his life.

His purpose is to make Li Tian admit defeat!

"Master Li Tian, bet with him!" Xukong Yasha suddenly said to Li Tian with his mind.

Chapter 4479: : Cause and effect

"Are you sure?"

"It's just a trick of carving insects! Although the flames of this black smoke group are very domineering, don't forget my blade of the void. We can ride on the rock before it has been melted by the flames and throw the rock into the void. Just you Tell him so, and see how he responds!" Void Yasha said.

The flame dominance of this black smoke group might affect Li Tian's Sky Spear Space.

But if it were thrown into the turbulent flow of the void, the flame would have no effect at all.

"Okay, I'll bet with you!" Li Tian said.

"Li Tian, you are crazy! This flame can swallow you in an instant!" You Yinrou said anxiously.

"Boss Li Tian, you can't bet with him!" Little Hot Pot also stopped and said.

A trace of panic flashed across the black smoke group's face, and the voice tremblingly said: "You are not dead, are you sure you want to compete with me? You will be burned to death by this flame!"

Seeing the panic of the black smoke group, Li Tian already fully understood that this little guy must be posing.

"Hahaha, I forgot to tell you, my stomach is connected to the void, even if the strong flame enters my stomach, it will flow into the void!" Li Tian said with a smile.

You dark looked at Li Tian suspiciously, while Xiao Hotpot looked at Li Tian dumbfounded, and said, "I knew that Boss Li Tian, you are not an ordinary person. I didn't expect you to be so powerful!"

The black smoke group became more and more flustered, and the black smoke on his body began to flutter unsteadily. The flame in his body also swayed from side to side, as if it would be extinguished at any time.

"How about? Let's get started, I'm already a little impatient to wait!" Li Tian urged.

"Hmph! God has a good life, how can I kill you at will! I will give you a face today, I don't care about swallowing my magma with you, you go quickly! Otherwise I will be welcome!" Hei Yan Tuan'er said angrily.

"I am willing to bet and lose, this is not the work of a gentleman! You will follow me as my little follower from now on!" Li Tian said with a smile.

"A ghost is willing to be your little follower, you are as annoying as the dead monkey!" The black smoke group suddenly turned into a black smoke, and fled into the distant river with sparks.

Monkey, hear the monkey again.

This time Li Tian would not think that this sentence is meaningless!

Could it be that the legendary fight defeated the Buddha Sun Wukong?

Li Tian couldn't help but feel a little excited.

In any case, we must figure out this matter.

"You mean monkeys? Can you tell me who the monkey is?" Li Tian asked.

The black smoke group seemed to realize that he had made a mistake, and shook his head unwilling to answer.

"I have given you a chance, but you don't cherish it. If so, don't blame me for being rude to you!"

With a wave of the black smoke ball, the hot lava in the river flew up like a fire dragon, rushing towards Li Tian, the dark and soft little hot pot.

"Boss Li Tian, let me come!"

The body of the small hot pot shook suddenly, and his body suddenly grew a bit bigger, his mouth opened and he sucked at the fire dragon, as if eating noodles, the lava fire dragon was completely swallowed by the small hot pot.

Immediately afterwards, the body of the little hot pot shook a few times, boom! With a sound of the earth, a powerful energy spread from the body of the little hot pot.

The small hot pot broke through at this time!

Venerable second level primary realm!

Although the cultivation base is still not high, the face of the little hot pot is full of joy!

"Boss Li Tian, this...this happiness comes too suddenly!" Little Hot Pot said excitedly.

The black smoke group was trembling with anger.

"If you are not afraid of death, just continue to devour it! If you don't play with you, I will flash!" As soon as the voice fell, the black smoke turned into a black smoke and fled to the distance.

This guy is scared!

"chase!"

Li Tian greeted with a dark and soft voice, with his feet on the ground, and quickly chased him out.

You Yinrou chased after him, and the two figures chased after the black smoke group.

The little hot pot just broke through to the early stage of the second grade of the sage, and was extremely excited.

Is also in hot pursuit!

...

The black smoke group kept releasing black smoke, trying to confuse Li Tian and You Anrou and Xiao Hotpot, but Li Tian and the others were not moved at all, and they were still chasing after them.

Every time the black smoke group controlled the magma to attack Li Tian, it was swallowed into the stomach by the small hot pot as food thrown over.

The smoky group is frustrated!

Heiyan Tuaner can only use the channels and underground rivers excavated by the Oolong Fire Ants to create this huge underground world and Li Tian and the others, but Li Tian and the dark and soft are like tarsus maggots. Can't get rid of them.

The black smoke group can't help being a little anxious!

There was hot lava everywhere, hot flames everywhere.

The passages of this underground world are crisscrossed, just like a maze.

The Hei Yan Tuan's familiarity with this underground labyrinth far surpasses that of Li Tian and others, and naturally takes the advantage. As a result, Li Tian and the others can't even chase it.

"The black smoke group's cultivation base seems to be very ordinary, if we are not afraid of his Jiuwei real fire flames, we can completely control him!" You Anrou said.

Youanrou was worried that even if he used coercion to control the black smoke ball, he was afraid of Jiuwei's real fire, and he was helpless at all. Controlling it like this would be nothing but empty talk.

"Try it! Control him first!" Li Tian said.

But soon, the dark and soft Li Tian's face couldn't help but sink!

The imprisonment of power in this underground world is even more serious. Li Tian and You Anrou can't perform a coercive attack at all.

Instead, because of the coercive attack, the black smoke group got the opportunity to turn into a criss-cross cave.

There were at least a dozen caves in front of him, and black smoke was scattered in each cave. Li Tian didn't know whether the black smoke group escaped into that cave.

"Damn it!" Li Tian said annoyedly.

"Hey, Boss Li Tian, it doesn't matter if this little guy escapes. Isn't our purpose to get rid of this magma? Look at me, maybe I can use these magma to continuously break through, and then break through to the ninth level It's not too bad!" Little Hot Pot said excitedly.

With that said, the little hot pot jumped into the magma again, and began to swallow the magma!

Li Tianhe Youanrou helplessly, can only watch the gluttonous feast of the small hot pot beside him, and study the metal box by the way!

"Void Yasha, have you seen that black smoke ball?" Li Tian suddenly thought of Void Yasha while holding the metal box, and asked carefully.

be quiet!

After a long time, Void Yasha said, "Master Li Tian, do you remember that you promised us three little Yashas when you met us?"

Chapter 4480: : Hotpot Emperor

"remember!"

When Li Tian was conquering the three small Yashas, the three small Yashas demanded Li Tian to avenge them!

"Master Li Tian, the monkey he said is the enemy of our Yasha clan! And this black smoke group was the one who followed that monkey before!" said Xukong Yasha!

Shock!

Li Tian was completely shocked by Xukong Yasha's words!

...

Hei Yan Tuan looked back a few times, and saw that Li Tian, You Anrou and others did not catch up, and he let out a sigh of relief.

"Huh! That monkey is not afraid of my Jiuwei real fire, and pretended to bet with me, but he tricked me into being a follower. You are as shameless as that monkey, do you want to trick me into being a follower? ?"

"dream!"

"Yes, just dreaming!"

The black smoke group sits in the cave, stretches out the black smoke arm, a ray of real fire with nine flavors rises in the heart of his palm.

"But..., but..., the **** monkey is still dead!"

The black smoke group's face could not help showing a trace of sadness, and tears continued to flow from the two Ruoyiruwu eyes, which were all hot lava.

"I haven't got my revenge yet, the **** monkey is dead! Ooo!"

The black smoke group recalled his glorious experience of killing Sifang with a monkey, and his face couldn't help showing a trace of pride!

"What kind of gods are gods! There are countless gods who died under the hands of monkeys!"

"Monkey you die and you die, why seal me in the box and return me to this place where birds don't shit! You said I will meet a new owner, but who can beat you? One in 10,000!"

"New master? I don't need it! I want to establish my kingdom of God here! Even if my current strength is less than one-thousandth of the previous one, but as long as I establish my kingdom, I can gradually recover my Previous strength!"

"Yes, that's it!" The black smoke group said as if cheering on himself, clenching his fist, and receiving the flame into his body again.

At this moment, the black smoke group clearly felt that the magma he created was disappearing quickly.

"The **** thing must be that rock fire clan is eating my magma! This guy can swallow magma much faster than I can make magma! If all this magma is swallowed by this guy, then I Isn't all these efforts in vain?"

"Damn monkey, you should have killed all the Yanhuo clan in the first place!" said the black smoke group angrily.

But no matter how angry he loses his temper, the magma is still disappearing.

boom!

There was another powerful energy wave in the distance.

"Damn it, it's only a while, do you want to break through to the realm of the domain master by devouring my magma?"

The black smoke group couldn't sit still, and flew in the direction of energy fluctuations in black smoke.

...

After listening to Xukong Yasha's words, Li Tian couldn't help feeling a little confused.

In the past, Li Tian was speculating that there should be a higher level existence above the realm of the domain master of the Netherworld. The words of Void Yasha confirmed his conjecture.

Domain master, demigod, quasi-god, god!

That monkey turned out to be a legendary god!

This is a true god, not a false **** like a small hot pot in the earth world!

As for the Yasha Eight Gods of the Yasha tribe to which Xiao Yasha belongs, they can only be regarded as demigods.

It is impossible to win against the gods with the power of the demigods!

It is inevitable that the Yasha tribe will be exterminated.

If it weren't for other gods to intervene, I'm afraid Xiaoyasha and others would also be completely slaughtered.

"Then the long-haired woman is at that level of cultivation? Is it a demigod? Or a quasi-god? Or is it a god? If it is a god, how could she fall? Is there something stronger than a god? ?" Li Tian thought in his heart.

Just as Li Tian was thinking about getting into his mind, Gloom gave Li Tian a soft push, pointed to a cave in the distance and said: "The black smoke ball is over there, sneaky and don't know what we are doing? Are we going to chase it now? ?"

Li Tian took a look, and he saw a puff of black smoke floating in the cave!

"Don't chase it! If I didn't guess wrong, he was heartbroken for the magma he created, so let him continue to feel bad for it. In this short period of time, the cultivation of the small hot pot has broken through to Venerable Three. Level level, if he hesitates for a while, the small hot pot may break through!" Li Tian said.

The black smoke group made some mistakes.

He put the bottom down to attract Li Tian and You Anrou so that Li Tian and You Anrou could continue to chase him.

At that time, he ran away for some distance casually, pretending to be caught by Li Tian and Youanrou, so that his face would be saved.

However, now Li Tian and You Anrou are completely indifferent to him.

"Don't you see me?"

The black smoke group exposed his arms and legs again, making the smoke exposed to the outside even more, but after waiting for several minutes, Li Tian and You Yinrou still had no response!

"These two guys won't be blind! I've been exposed, come after me!" The black smoke group muttered in a low voice.

However... still no one came after him!

At this moment, the little hot pot let out another cheer.

The small hot pot is so pleasant!

It's been so long since he's been stuck in the first-level realm of the venerable, and he didn't expect that today he could think of the pleasure of successive breakthroughs.

Thinking of this, the little hot pot couldn't help but exclaimed to Li Tian triumphantly: "Boss Li Tian, don't you really order some? This magma is so delicious!"

"If I continue to swallow it, I feel like I can break through to the realm of the emperor! Hey, you will be covered by me when the time comes. Who dares to bully you, you will give me the name of the little hot pot!"

"Uh, no, the name "Little Hot Pot" is too shameful. From now on, I will be called "Huang Zun Hot Pot"! Yes, this name is domineering, that's it!" Little Hot Pot said to himself.

Li Tian is full of black lines!

Hotpot Emperor?

You really know a name!

They are all the emperor, can you give a name that is not so frustrated!

There was a picture in Li Tian's mind.

The small hot pot was pressed on the ground by everyone, and then held a hot pot on the top of the head in the small hot pot, and then everyone ate the hot pot around the small hot pot.

That picture must be beautiful!

puff!

Thinking of this, Li Tian couldn't help laughing.

You dark softly looked at Li Tian suspiciously, the little hot pot was in excitement and didn't hear it.

However, the black smoke group in the distance felt greatly insulted.

Do you despise my IQ?

Are you laughing at my IQ?

The black smoke group could no longer bear the anger in his heart, and suddenly jumped out from behind the cave, and shouted loudly: "Hey! You treacherous villain, dare you fight with my black smoke group for three hundred rounds?"
