

## A Killer 4601

Chapter 4601: : Hospitality

The word Niubi is a life idiom of the Chinese people in the earth world, which is slightly vulgar.

In the Netherworld, the word hardly appears. Therefore, when these villagers heard Niubi say his name, these villagers also felt that Niubi was quite awesome!

The awesome father is called Niu Dan.

When he was young, he was called Xiaodan, and when he became an adult, he was called Niu Xiaodan, and now it is called Niu Dan. It is estimated that after a cow egg is old, it may be called Niu Lao Dan or Lao Niu Dan.

This name is nothing but a code name.

Niu Dan was quite excited. He held Li Tian's hand tightly with tears in his eyes, and his body trembled slightly. He said excitedly: "Thank you fairy, it was you who saved me in Niuja Village, and gave my ineffective son a name. If you don't If you dislike it, let Niubi recognize you as a godfather, so that Niubi can give you the end of life in the future!"

My day, what are these words!

Li Tian can't do it anymore!

"Father, my master is an immortal, an immortal existence!" Niubi was a little anxious, and said to Li Tian: "Fairy, my father has no culture, please forgive me!"

Okay, what else can Li Tian say?

"Xianren, in order to thank you for rescuing our Niuja Village, you must go to my house for dinner today, let me thank you, Lao Niu!"

"Niudan, go away. It is not your Niudan family's job to save the Niuja Village. Of course, I, the village chief, should entertain you for thanking the immortal!"

"This is absolutely not possible. We also have to thank the fairy, and we have to do our meager efforts! Fairy, let's go to my house for dinner. I will let the child's mother kill an old hen and let the calf pick some mushrooms. Come back, we are the old hen stewed mushrooms, the taste...tsk."

"Old hen stewed mushrooms? You can even think of it. Immortals don't eat fireworks in the world. Immortals, go to my house. I will burn you more paper money and burn more incense. I promise you will eat enough! "

"..."

I rub!

Even the paper money comes out, am I the \*\*\*\* fairy or ghost in your eyes!

Li Tian felt that he had to come out to clarify, otherwise maybe these \*\*\*\* would come up with a way to do it!

"Villagers, please pay attention, villagers, please note that I am not actually a fairy, I am just the incarnation of justice, the messenger of chivalry, the collection of heroes and beauty..."

"Ahem, I'm pulling it far. Actually, I'm a cultivator from Nether Academy. Do you know about Nether Academy?"

All the villagers shook their heads at the same time!

"Well, you still think of me as an immortal, but like everyone else, I eat whole grains, definitely not inhumane fireworks, let alone burn paper money and incense!"

"Also, the monster in Tiger Mountain is actually about the same as me..."

The faces of the villagers immediately showed horror, and they stepped back a few steps and looked at Li Tian vigilantly.

"Eh, okay, in fact, I am totally different from him. First of all, I am a human, and he is just a certain kind of animal. This animal becomes like him when he cultivates into a spirit. But please rest assured, that monster has been killed by me. kill."

However... a few minutes passed.

Li Tian still decided to give up his explanation.

All the villagers wanted to invite Li Tian to eat at his house, but Li Tian was not able to do so, so he could only spread the advanced dinner culture of the earth world to this small village in Netherworld.

"Dinner? Can the fairy give me some details?"

"A dinner is when all the families in the village gather to eat together! Each family prepares the meal in advance, then brings it over, puts it together, and everyone shares it together!" Li Tian explained.

"This is good, this method is good! Everyone eating together is equivalent to thanking the immortals together. As expected, the wisdom of the immortals far exceeds that of the laymen like me!" the old village chief said excitedly.

The old village chief began to arrange for families to go home to prepare meals.

In order to express the grandeur, the old village head put forward quite strict requirements on every household.

Then, the old village chief told the bear children in the village to go home, and took the tables, chairs, benches, etc. from the house one after another to the drying valley outside the Lao Wang courtyard next door.

Lao Wang next door is everywhere.

In a small mountain village in the Netherworld, there is also the next door Lao Wang.

What a shame!

Li Tian carefully observed the appearance of the village chief's children, hehe, these children are really beautiful, compared to the five big and thick men like the village chief, they are not carved out of a mold at all!

Li Tian came to the Shaigu Farm surrounded by many men. At this time, dozens of tables, chairs and benches had been placed in the center of the Shaigu Farm, and several bottles and jars had been placed on the Eight Immortals in the center.

"The fairy, the mountain village, there is nothing good to entertain the fairy, and the fairy is invited to take a seat. We will respect the fairy with water and wine to show our gratitude!" said the village chief.

Li Tian is also welcome.

If Li Tian is polite, these villagers will be even more frightened, they might not even dare to sit!

Li Tian was seated, and the village chief and Niu Dan accompanied Li Tian. Sitting across from Li Tian was the little boy, Niubi.

One person won the Daojiu ascend to heaven, because Li Tian gave Niubi a name, and has promised to teach Niubi cultivation methods, then Niubi will naturally become a pivotal figure in the village, correspondingly Niubi his father, the status of Niubi is also The tide goes up.

Niu Dan's expression was very proud. This was the first time he was at the same table with the village chief.

"Fairy, please drink this bowl!" The village head grabbed a jar and filled the porcelain bowl in front of Li Tian.

Li Tian looked at the light yellow liquid in the bowl, and there were still some debris suspended in the liquid!

It's wine, but it tastes very weak!

Drink it all!

Li Tian felt that the wine was a bit sour and astringent, and the alcohol content was the highest in beer.

It's not delicious!

Niubi wanted to drink too, but his father slapped him severely.

Niubi can only shed tears.

The old village chief filled Li Tian again, and asked in a pleasing tone: "Xianren, how does this wine taste? This is a wine brewed by our ancestors in Niujia Village. It is the most famous wine in Shili and Eight Villages! On weekdays! Only at weddings and funerals can we drink such fine wine!"

"It goes without saying that this is definitely the best wine in the world, I am afraid that the heavenly syrup and jade liquid are no more than that!" The cow egg carefully picked up the bowl, took a sip, and said happily.

"Huh, these vulgar people in our village will treat this wine as a treasure, and they are reluctant to drink it. The wine that the fairy drinks is definitely a thousand times better than this wine, ten thousand times!" Niubi said unconvincedly.

"Little baby, don't talk nonsense if you haven't experienced the world. There are dozens of villages near this Niujia Village. My old Niu has never been to, but there is really no way to brew wine that can match our village!" The village chief said vowing .

"Yes, yes! Although I don't have the knowledge of the village chief, I have walked through the four or five villages nearby. The wine in our village is indeed the best!" Niudan also echoed.

"It is tolerable or unbearable, these stupid humans dare to pretend to be in front of you, come, take out your wine and let them taste it, and let these people see what the real wine is!" Said.

Chapter 4602: : Great changes

Have you ever seen what the most nonsense dinner is like?

Li Tian has seen it!

This Niujia Village is quite a small town. There are hundreds of families in the village. What Li Tian never expected is that these hundreds of families would cook the same meal when they were having a dinner together.

Well, in fact, it is not exactly the same.

For example: old hen stewed mushrooms, little hen stewed mushrooms, old rooster stewed mushrooms, little \*\*\*\*\* stewed mushrooms, mushroom stewed chicken...

"Fairy, you eat, are you moved by our sincerity? Don't cry..."

...

When Li Tian was still in Niujia Village and the villagers bragged and fart, the Underworld changed again.

Emperor Yecheng, Emperor Dragon and Emperor Zhao Family, these three Emperors were jointly taken down by the Lord of Blood Domain and Emperor Zichuan!

Venerable Yecheng's kingdom was broken, and Venerable's kingdom became a land of no owner.

The Kingdom of the Zhao Family was destroyed, and the Kingdom of the Lord became a land of no owner.

The whole dragon clan was attacked and killed, and was forced to move. Since then, his whereabouts have been unknown.

The original balance of the Nether Realm was broken again, and the entire Nether Realm was shocked!

In Yecheng Huangzun's Venerable Mansion, there is a prison dedicated to the confinement of the powerful.

Inside the prison, the lights are dim, and the smell is stinking.

Yecheng Huangzun, Zhao Family Huangzun, Dragon Clan Huangzun, and the three Sage-level powerhouses are now distributing their heads, the wounds on their bodies have solidified, and a large swath of blood appeared on their clothes, which looks like three imperial-level experts. The strong are embarrassed.

The powerhouse of the emperor rank is not invincible in the world!

At this time they deeply realized this.

The three emperors suffered heavy injuries and their cultivation base plummeted.

The most powerful Yecheng Huangzun cultivation base is only the Venerable's third-level realm, and the cultivation bases of the Dragon Emperor and Zhao Family Huangzun are only the Venerable's first-level peak realm.

But just like that, they were also under the strictest supervision. The three of them were like Jesus, nailed to the cross with metal nails, and tied them up with special animal tendons.

The physical pain has already numbed Ye Chenghuangzun, the real painful cultivation base plummeted, and the huge gap in his heart!

Wow!

The prison door was opened, and the Lord of the Blood Domain, Emperor Zichuan, Emperor Wuji and others slowly walked in.

"Blood Domain Lord! Zichuan the Great! Our three emperors have no grievances against you, why do you treat us like this? You dare to attack our three emperor kingdoms openly and disrupt the balance of the underworld, are you not afraid to anger Other emperors and domain masters?" Ye Cheng Huangzun asked angrily.

The Emperor of Zhao Family and the Emperor of the Dragon Race raised their heads and stared at the enemy who appeared before them.

The Blood Domain Lord looked at the three emperors who were covered in blood and tattered clothes nailed to the wooden frame, his face involuntarily showed a mocking expression.

"The balance of the Nether Realm? Haha, this is just your wishful thinking! The Nether Realm has never been balanced on a domain master and emperor-level powerhouse! The real balance is the Super God Family, it is the Nether Academy!"

"Do you know why we dare to do it to you? That's because your son, who lives and lives, dares to be involved in the struggle between the Super God Family and the Nether Academy!"

"No...impossible. The Third Young Master did not appear when the secret world of Death Battlefield was opened. They...I am afraid they have already suffered misfortune at this time!" said Ye Cheng Huangzun.

"Such words, you should just leave the deceiver! I haven't spoken yet, how do you know that I am talking about the third son of the Netherworld? That's right, your three ineffective sons dare to talk to Li from the Netherworld Academy. Become a brother in the sky! You thought that you had climbed high branches, but you didn't expect to burn yourself!" Zichuan the Great said with a smile.

Li Tian's whereabouts are currently unknown, and because of Li Tian's fierce struggle secretly between the Super God Family and Nether Academy, the Blood Domain Lord can only find a breakthrough from these three emperors! "

Ye Chenghuangzun felt particularly regretful in his heart.

In fact, the elder in charge of the Nether Academy had placed Ye Cheng Huang Zun before, and euphemistically mentioned the relationship between the Third Young Master and Li Tian, hoping that Ye Cheng Huang Zun could help them find Li Tian.

However, Emperor Ye Cheng did not believe the words of the elder in charge, nor did he want Ye Cheng Huangzun's kingdom to be involved in the battle between the Super God Family and the Nether Academy, so he refused the request of the elder in charge.

"Impossible! Dog Ye Liangchen is only in the realm of cultivators, so how could it be possible to climb to Elder Li Tian! If you want to add to the crime, there is no reason to blame. Now the whereabouts of the dog is unknown, what you want to say!" Ye Cheng Huangzun Insisted.

"Yecheng! Stop arguing, now no matter what we say, the result is set! The power of the Netherworld is respected, and we can only blame our inferior skills! Cough cough... If we can become stronger and become a domain Master-level powerhouses, then they will not attack and sneak attack us so unscrupulously!" Zhao Family Emperor coughed a few times and said.

The Dragon Emperor spit out a mouthful of blood, spraying it towards the Blood Domain Lord, but unfortunately the blood he sprayed did not stick to the Blood Domain Lord's clothes.

"I only blame myself. If I blew myself up and committed suicide, at least I could let these thieves die with me. Now our cultivation base has plummeted and our limbs have been nailed. Now there is no chance of self-destruction!" Huang Zun dare not say.

Emperor Zichuan smiled and said: "In fact, you are not without the opportunity. Our goal is Li Tian, not you! You are just the victims of Li Tian. If you can cooperate with us, tell us, your three Where is the son now? When we get rid of Li Tian, maybe we will consider as appropriate and let the three emperors... die decently!"

"Hahaha, die decently! Hahahaha, let alone we don't know, even if we know, how could we push our children into the fire pit? Dream you!" Ye Cheng Huangzun said with a sneer.

"It doesn't matter, we can give you time to think about it slowly. Now that you are nailed to your limbs by Spirit Devourer nails, your cultivation level will continue to fall as time goes by. When your cultivation level continues to fall, I will find a few old friends for you to come to this prison to relive the past!" said the blood domain master.

The Emperor Wuji couldn't help shaking his head, and sighed: "The Three Nether Masters, together with Li Tian, killed our descendants and children in the battlefield of death. The Third Nether Masters were bound to die! But if you can understand the current affairs, maybe you can. Use your life in exchange for your son's dog life!"

"A person who knows the current affairs is a handsome man? Hahaha, do you want us to be dogs for the Super God family like you are now? Hahaha, what a handsome man, come, call a few times and listen, if it sounds good to my old bones I will reward you for chewing!" The Dragon Emperor said with a mockery.

Chapter 4603: : Entrapment

"Old thing, dare to be so arrogant when death is imminent!"

The Emperor Wuji turned into anger and rushed in angrily. His palms firmly grasped the Spirit Devouring Nail nailed to the Dragon Emperor and twisted it fiercely from side to side.

The Promise Emperor could see that the spikes on the Spirit Devouring nails hung all the bones and scum on the Dragon Emperor's arm, and the nailed position was already bloody.

It is a pity that Emperor Wuji did not endorse himself, otherwise the Emperor Wuji must sprinkle some salt on the wounds of the Dragon Emperor, then sprinkle some cumin and chili noodles, and use a torch to barbecue.

"Old stuff, let you live and die!"

However, in Wuji Huangzun's imagination, the Dragon Emperor couldn't bear the pain, and the scene of screaming for mercy did not happen.

The Dragon Emperor tried to endure the pain and spouted a mouthful of blood.

This time, this big mouthful of blood was sprayed impartially on Wuji Emperor's face.

"Ah~! This blood is poisonous!"

The Emperor Wuji screamed, took a few steps back, and sat on the ground, constantly running his spiritual power to swallow the dragon blood on his face.

"Hahaha! Ahem!"

The Dragon Emperor smiled happily, coughing and saying: "I am a noble dragon, even if I die, I must hold his head high and die nobly!"

"Being a dog, this kind of promising profession is also handed over to you! Blood dog, Zichuan dog, Promise dog, Huanglou dog, really four famous dogs in the underworld! Yecheng Emperor, if we get lucky, we can leave here alive, I must have so many dogs!"

"And me! The four famous dogs in the Underworld are your must-have dogs for home travel and nursing homes! Hahaha!"

"Refreshing, it's been a long time since it was so refreshing!"

Although Wuji Huangzun tried his best to remove the dragon blood from his face, the corrosion of the dragon blood still made his face ugly. The face without skin looked even more terrifying, and the hot pain made Wuji Huangzun's heart full of anger. , Roared ferociously: "Kill him! Kill them for me now!"

Fool, who is this guy instructing?

Blood Domain Lord?

Emperor Zichuan?

Or Huanglou Huangzun?

The Emperor Wuji is also a pig head. Knowing that the blood of the Emperor Dragon is poisonous, and his mother does not do any protection, he rushed to deal with the Emperor of the Dragon Race, and now he is injured, even instructing him to be as strong as him, or even stronger than him. People are really sick!

Could it be that Wuji Emperor is the legendary pig teammate?

The Blood Domain Master snorted coldly, and said, "Death, they must die! But before beheading them, we have to discuss how to use them!"

"Use? How to use? They are now waste..."

"So this is called waste utilization!"

"It's better to let our people spread news among the great venerables of the Nether Realm from tomorrow, saying that the three emperors including Yecheng Huangzun have been taken down by us. Three months later, we will personally In front of the Venerable City Emperor's Mansion, these three wastes were cut openly!" The Blood Domain Lord said with a sneer.

"Then what?" Wuji Huangzun asked.

The Blood Domain Lord really wanted to kick the Wuji Emperor.

"If you were the Third Young Master Nether and heard this news now, what would you do?"

"Haha, then I will clap my hands for joy, and feed all the bones of the Dragon Emperor and the old dog to the dog!" Wuji Emperor said excitedly.

"Fool!"

"moron!"

"Mentally retarded!"

This is the accurate knowledge of the Lord of the Blood Domain, the Great Emperor Zichuan, and the Emperor Huanglou of the Emperor Wuji.

"They will definitely not sit back and watch, maybe they will throw themselves into the net..." said Emperor Zichuan.

"Oh, that's how it is!"

"That's right, when the time comes, we only need to catch the Third Young Master Nether, and then use the Third Young Master Nether, are you still afraid that Li Tian won't send it to the door?" The Blood Domain Master said with a smile.

"High, really high!"

"Then now, should we lay heavy soldiers in Yecheng Huangzun's Mansion? Once Li Tian shows up..."

"No, now our top priority is to continue to search for the Third Young Master and Li Tian. If the Third Young Master does not hear the news, our plan will have no practical effect!" said the blood domain master.

"Moreover, if Li Tianzhen shows up, it is difficult to guarantee that Netherworld Academy will sit back and ignore it. Then it will be up to the Super God Family to negotiate with Netherworld Academy!"

...

The gloomy forest, the top of the holy peak, the elder in charge came here again.

The elder in charge came here to find Li Tian, but Li Tian was not here.

"Elder Li Tian, where are you now?" The elder in charge stood on the top of the holy peak, looking at the sea of clouds, thinking anxiously in his heart.

According to the latest reliable news, the Super God Family did not back down because of the strength of the Nether Academy. On the contrary, the Super God Family became more intensified and began to openly target Li Tian.

However, the explanation given by the Super God Family to Nether Academy is that this Li Tian is not Li Tian!

This makes Netherworld Academy only more anxious!

The domain master of the purple flame thunder bear, the master of the Tiangangyan raccoon domain, the master of the earth evil sky vulture domain, and the master of the Yinmo Yinniu domain are still comprehending these four steles.

However, in the past two years, their penetration can be said to have made no progress.

Now seeing the elders who took their little brother Li Tian back to the top of the holy peak, the four domain masters immediately surrounded the elders.

"How has our little brother been? We miss our little brother especially!"

"Yes, that is, in the days without the Li Tian brothers, the birds are almost fading out of our mouths!" said the Yinmoyin Bull Territory Lord.

"Are you thinking about Brother Li Tian, or are you thinking about Brother Li Tian's wine?"

"Of course I want both!" Yin Mo Yin Yin Niu Yu said with an awkward smile.

The elder in charge looked at the three noisy domain masters, thinking of the four brothers' deep affection, he decided to tell the truth.

He first recounted what Elder Li Tian did in the Nether Academy, and the four Nether Beast Domain Masters were excited.

"Hahaha, it's my old Xiong's brother, no matter where he walks!" Ziyan Thunder Bear patted his chest excitedly and said.

"How come you become your old Xiong's brother? Brother Li Tian is still my old Niu's brother!"

"I solemnly declare that Brother Li Tian is the brother of the four of us!"

"Okay, okay! Stop arguing, let the elders continue to talk!" said Ziyan Thunder Bear. Sighed and said: "

The elder in charge then began to talk about what happened over the past year. When the elder in charge talked about the meteorite falling from the sky and the elder Li Tian disappeared since then, the purple flame thunder bear could not help but grabbed the elder in charge by the collar and said angrily: "I If there is any accident to Brother Li Tian, I will eat you old man today!"

The elder in charge shook the feather fan lightly, and the purple flame thunder bear puffed down on his knees in front of the elder in charge.

"I know you care about Elder Li Tian, and I don't care about it like you! A few months ago, Elder Li Tian made a brief appearance, and once killed a strong man in the middle of the ninth level!"

"Haha, I know that Brother Li Tian has a great life and great luck, and he will not disappear so easily!" The domain master of Ziyan Thunder Bear was happy again.

"However, now Elder Li Tian has disappeared again! I came here today, the first is to find Elder Li Tian, to see if Elder Li Tian has returned here, and the second is to instruct you to learn the ghost beasts.

Chapter 4604: :Common prosperity

"Don't learn, don't learn!"

As soon as they heard that they wanted to learn, the heads of the four Nether Beast Domain Masters immediately grew bigger, shaking their heads and saying firmly.

"Let me tell you, now Elder Li Tian is in big trouble. Several domain masters and emperors in the underworld have united to deal with Elder Li Tian..." The elder in charge sighed.

"What? Someone dared to do something to our Li Tian brothers? We are now leaving the summit of the holy peak to find the Li Tian brothers in the human society of the Underworld!"

"Yes, as long as a few of our brothers are by his side, I think the cat and dog dare to move my Li Tian brother! Not to mention the emperor-level rubbish, even the domain owner, come and kill one!" Yin Moyin The Lord Niu said noisily.

"That is, if we don't learn, we will go down the mountain now! It's really unreasonable, and there are people who dare to bully the top of our dark forest!" said the domain master of the purple flame thunder bear.

The elder in charge was full of black lines and said: "Do you know where Elder Li Tian is now? Do you know who is going to deal with Elder Li Tian this time? If it's just a few ordinary emperors and domain masters, Can't our Transparency College have any way to deal with it?"

The four brothers who asked three questions in a row were speechless.

"Then what do you say? We now know that Brother Li Tian is in danger, we can't just sit idly by!" said the landlord of Heavenly Buzzard.

The Tiangangyan raccoon domain master shook slightly and said: "He didn't let us ignore Brother Li Tian, but told us not to panic. The wooden cards of the three of us are in the hands of Brother Li Tian, if he really encounters anything Difficulties will surely crush the wooden sign, and then we will know where Brother Li Tian is!"

"Now, our top priority is to continue to practice and improve our cultivation!"

The elder in charge nodded slightly and said, "This time, it is one of the Super God Family that is going to deal with Elder Li Tian. Do you know the Super God Family?"

The four brothers shook their heads at the same time.

"I told you that people who are ugly have to study more. You don't even know the Super God Family, how are you fucking? If you rush out now, even if you meet someone from the Super God Family, you will be a dead end!" The elder said.

"How is it possible? We are the domain owner!"

"Hehe, it's the domain master, but what about me? Every super \*\*\*\*\* family will have at least seven or eight, and even more existences like me, even stronger than me!" said the elder in charge.

Beyond the existence of the domain master, these four brothers know.

"Study, now all of us have to learn, isn't the Nether Beast Art? Please explain to us, the old gentleman!" Ziyan Thunder Bear Domain Master roared.

...

Li Tian still didn't know these things.

Li Tian's absorption of the spirit power of the Tiger Floodmaster has not yet been refined, and the spiritual power has not been refined, and Li Tian can no longer use the power of obscene gods to absorb new spiritual power, unless Li Tian wants to experience the corn becoming popped The process of rice flower.

The villagers in Niujia Village are enthusiastic and puzzled. Even if they don't cultivate the land, they must treat Li Tian well.

Of course, Li Tian knew that these villagers were drunk and warm because they didn't want to drink, and it seemed wrong. The purpose of these villagers was Li Tian's wine.

Since Li Tian asked them to taste Niulanshan Erguotou, these villagers looked at the wine they brewed, and there was really no difference in horse urine as Li Tian said.

Although these villagers are ignorant, they are definitely not stupid. They want to learn Li Tian's winemaking skills in their hands. Therefore, they are willing to give up their wives and daughters at all costs to let Li Tian this one. Fairies enjoy.

For this bad habit, Li Tian justly refused.

At this time, Li Tian finally understood why the village chief's children did not look like the village chief.

It turned out that the village chief took the initiative to ask the next door Lao Wang to live next to his house.

As for the brewing technology, it is not impossible to spread it out, anyway, without modern technology, the yield of fine wine brewed in Niujia Village is limited.

Of course, the most important thing is that their food is also limited.

Just like in ancient times, only when there is surplus grain, these farmers will think about brewing the surplus grain into wine, and then exchange it into coins.

"Fairy, teach us this technique of brewing sacred wine. We are willing to build a temple for you in the village, which will be dedicated to your old people in the future!" said the village chief cheeky.

Li Tian was a little helpless.

Say good things, but also pay attention to the words!

Am i old?

I am Yushu Linfeng, the suave and beautiful young Li Tian, how can I become an old man?

"Well, since you are going to build temples for me, if I don't teach it to you, this will make me stingy!" Li Tian said.

The village chief and several important stewards in the village immediately wanted to kneel down and kiss Li Tian's feet.

"However, since this brewing technology belongs to me, I have a patent for the technology. Should you pay me some royalties for the coins you make for the wine?"

"Patent royalties? What is this?"

"Well, I'll just say it directly, that is, the temple's incense money!" Li Tian said.

"This is necessary, it should be!" said the village chief.

"Also, you can transfer the technology to other villages! But the premise is that other villages must also build temples for me, and give me money for incense!" Li Tian said again.

"Can you not transfer it!" the village chief said.

"Lao Niu Village Chief, your idea is very dangerous! We want to let a few people get rich first, and then let those who get rich first lead others to get rich, and finally achieve common prosperity!" Li Tian said.

Li Tian can just talk nonsense.

There are temples of Li Tian in China on the earth and in the island countries of Dongying. Li Tian wondered if he could also build some temples in the Netherworld.

Village Chief Lao Niu felt very ashamed, and said with some shame: "The immortal still has a high level of consciousness! I must follow the instructions of the immortal. The village chief should take the lead and let me get rich first!"

rub! It's a pity not to be a businessman with this realization!

In the following days, Li Tian brought out Ye Meijing and Liu Jimeng from the Qiong Spear of the Sky, and asked them to come until the village chief builds a brewery.

And Li Tian wanders around the village every day, and guides and guides his practice by the way.

Don't look at Li Tian wandering around, thinking that Li Tian is wasting his time, Li Tian is a man who can do two things with one heart, even when he is eating, drinking, and sleeping, the spiritual power of the Lord of the Tiger Flood Region never stops.

Li Tian still has one important thing to do in the past few days, which is to accept the worship of various villages within a few hundred miles of this area!

The girls who fled back didn't know how Li Tian killed the Tiger Floodmaster, but they could blow!

Even for themselves, they not only deified Li Tian, but also deified themselves.

And strongly demanded that Li Tian's temple be built in each village.

For this kind of thing, Li Tian can only say that it is beautiful.

In less than a month, Li Tian's temples were built in villages within a few hundred miles.

"Li, hundreds of kilometers around this is a land of no owner, do you want to establish a kingdom of ours here?" Situ Ningbing said.

Chapter 4605: : Low-key fortification

Not to mention Situ Ningbing, Li Tian also has such garlic, garlic, and scorpion. He plans to!

The obscene \*\*\*\*\* is very clear. One person can ascend to heaven. Li Tian now has hundreds of thousands of people in the space of the Qiong Spear of the sky. Even if Li Tianneng waits and can help them, he will eventually become a god.

Li Tian hopes that these women of his can become gods, and that his brothers can become gods. Only the others can give them a glory and wealth.

"A few hundred miles around here, is it a bit too small? And these hundreds of miles are not completely landless. I heard Niubi before that these villages are under the jurisdiction of the state government!" Li Tian asked.

Situ Ningbing nodded and said, "This place is very small, but small has small benefits."

"Just like the state capital you mentioned just now, these villages are also under the jurisdiction of the state capital in name, but they have been ignored for decades. Also, now you are many domain owners and emperors. Low-key development is king."

Right!

Although Li Tian now has a small hot pot, dark soft, vicious dog, small blue tile, and the help of an obscene god, it is not weak, but if he deals with two domain owners at the same time, Li Tian has only one dead end!

"This small place, even the state capital can't be seen in the eyes, and those emperors and domain masters will not care."

"Now we only need to build a small city here and develop it in a low-key manner. When you fully refine your spiritual power, we can take a bigger step, and in the next step, we will completely annex the county where the state capital is located. !"

"During this period, if there are other emperors or domain masters who find clues and dare to be here, then you don't need to be polite and \*\*\*\*\* up their spiritual power directly!" Situ Ningbing said.

"Haha, it's not bad, then it was decided so happily!" Li Tian said.

Want to build a city, this is not an overnight thing.

Li Tian arranged this matter to Meng Guang!

Then Li Tianyou arranged for the Skythorn Organization to secretly assist Meng Guang!

After two years of hard work, the cultivation base of the members of the sky thorns has been greatly improved.

This is of course thanks to the treasures that Li Tian obtained from the dark forest for enhancing spiritual power.

Li Tian also brought the Xuling clan out, letting the Xuling clan build the city secretly, and in order to reassure these villagers, Li Tian had to play a \*\*\*\*\* stick.

This city is definitely the largest city in the Netherworld. Li Tian plans to plan all the land within a few hundred kilometers around it into the city.

The outer city!

Then build the inner city and the county city!

As if they were concentric circles, three cities were nested together.

Li Tian arranged this matter to the Xuling Race and Dixing Yasha to deal with.

They have cooperated many times, and Li Tian believes them!

In order to ensure the safety of the city, Li Tian sent Feitian Yacha out again.

In fact, Li Tian thinks too much.

The Xiadao prefecture of Nanchu Prefecture within a few hundred kilometers around it is clearly recorded in the Fuzhong case file of the Xiadao prefecture. There are strong people in these hundreds of kilometers. The hundreds of kilometers of land has been Abandoned by Nanchu County, it truly belongs to the land of no owner.

It's just that the villagers in Niujia Village, Xiajia Village and other villages didn't know it, so the Xuling tribe did not encounter any resistance when building the city.

And the villagers in those villages hadn't realized what happened, and the outer city was built.

After the city was established, these villagers were only happy because they felt that their safety seemed to be guaranteed.

After receiving news that this was the great work of the fairy Li Tian, the village chiefs rushed to Niujia Village to express their gratitude to Li Tian.

When they learned that Li Tian still had plans to build the inner city, these village chiefs were a little uncomfortable. They were arguing about which villages should be included in the inner city.

They want all their villages to be included.

Even if they haven't seen the city of Nanchu County, the merchants in the past Chamber of Commerce have an expression that makes these village chiefs envious when they talk about the city of the county.

This means that the inner city is definitely better than the outer city, and the inner city people are definitely noble than the outer city people!

The village chiefs were arguing, and finally Li Tian made the decision!

After all, this inner city was also being built by Li Tian.

Li Tian's method is simple: Migrate!

Don't you all want to block the inner city people? Yes, then move all the villages to the inner city for me.

With that said, these village chiefs couldn't come to the master again, and hurried back to the village to discuss the migration.

However, Li Tian did not stop the Xu Ling Clan and Di Xing Yasha and continue to build the inner city.

As for whether they migrate or not, that is their business.

Within these hundreds of kilometers, there are few pitiful villages and low population density. Li Tianzhen can't understand why these villages are so divided!

Not to mention the land, the land here is everywhere.

For example, in Niujia Village, only the land surrounding the village has been reclaimed, and the other land is completely wasteland.

After that, Li Tian let the Xuling Race build the county city!

Niujia Village is near the water tower and is the only village enclosed in the prefecture.

A few days later, when these village chiefs rushed to Niujia Village, they were all shocked by the magnificent county wall in front of them, and they asked to move to the county city.

Li Tian didn't object, but they still needed to go back to the village to discuss with the villagers.

A total of thirty-two gates were set up in the outer city according to the land and direction. There are no gates on this gate, and no one is guarding it.

The number of city gates in the inner city has been reduced to sixteen. The city gates are made of logs wrapped in metal iron. For each city gate, Li Tian arranged at least one Venerable First-Class powerhouse with a team of monks. guard.

There are only eight gates in the county city, and Meng Guangqin is sitting in the county city.

As for Li Tian, he is the big boss behind the scenes and does not show up easily!

In more than a month, the wine shop in Niujia Village officially started production. Ye Meijing and Liu Jimeng were technical guidance, and the food was temporarily provided by Li Tian.

After producing these ox carts and wines, the people in Niujia Village can't wait to sell the wines for money.

This kind of high-end wine cannot be sold in nearby villages. The village elder Niu Niu of Niujia Village insists on selling the wine to the county town of Nanchu County.

Because there are so many wealthy people in that place, fine wine can definitely be sold at a good price.

For money, the people in Niujia Village have crazy obsessions.

But if Li Tian said to give them money, these people would firmly disagree.

Immortals are used for worship. If you take money from immortals, you will go to hell!

Regardless, Li Tian is not reluctant.

Of course, the good thing of selling fine wine cannot be given to others. The head of the village Niu has to sell it himself. Niubi is his father Niudan. Because of the existence of Niubi, he also has shares in the wine shop.

Of course, they still don't know what shares are in this world.

Li Tian has been floating in the sky since he came to the Nether Realm. He also wanted to see what the ordinary county of the Nether Realm looks like. Depart from the county town.

Chapter 4606: : Little Business Expert (1)

Southern Chu County, a small country in the Netherworld that is unknown.

The size of the kingdoms of the Netherworld is rarely divided by land area and total population, but more by the comprehensive strength of the country.

The division of countries in this earth world is basically similar.

The land area of Nanchu Junguo is not small. There are twelve state capitals, and each state capital has more than 30 roads under its jurisdiction.

However, the strongest person in the Nanchu county, that is, their monarch, is the early second stage of the power.

After moving slowly for almost a week, Li Tian followed Niu Village Chief, Niu Dan, and Situ Ningbing finally arrived at the county town of Nanchu County.

The most exciting people along the way are the village chief Niu and Niu Dan.

These two men in their 30s and forties turned out to be the first time they left their way.

Li Tian felt that the eyes of the two of them were not enough, and he wanted to remember everything he saw in his mind.

This feeling is familiar to Li Tian.

When Li Tian was released from Liaocheng to Kyoto, he also felt this way.

The head of the village Niu and Niu Danshang also kept describing that when they returned to the village, they could pretend to tell the villagers about the outside world.

They are now people who have seen the world!

Upon entering the county town, Village Chief Niu became more and more excited, but knowing that Li Tian's identity was extraordinary, Village Chief Niu still did not dare to overstate.

"Master Li Tian, let's go to the West City of the county city now, and strive to sell all these fine wines within three to five days. Should the two adults follow us to the West City or..." said Village Chief Niu.

Before coming to the county town, the head of Village Niu specifically consulted the old Wang next door.

The next door Lao Wang is a scholar in Niuji Village. When he was young, Lao Wang had come to the county town to participate in the 'gao test (kao)' and lived in the county town for several months.

The old Wang next door told the head of Village Niu that if he wanted to enter the county town to do business, he had to come to the county town west.

"Okay, I'll follow you!" Li Tian said.

With Li Tian following, the head of the village Niu and Niu Dan became more confident in their hearts.

"Li, don't we have other things to deal with?" Situ Ningbing asked.

Li Tian smiled slightly and said, "It's okay, just as if I'm out for fun! I can't delay business!"

...

Junchengxi City is very lively.

The twelve state capitals of Nanchu County, as well as merchants from other countries near the county, will come here to do business.

The West Market is a street close to ten miles in length. The street is divided into a street and a second street.

One street is the main street, and shops are everywhere on both sides of the street, and the shops sold here will be of higher grade.

Erdao Street is an auxiliary street, one side is the back wall of shops, and the other side is a river.

But even on Erdao Street, there are various vendors on both sides of the street.

For the head of Niu Village and the others, the rent of the shops in a street is astronomical.

So they can only come to Erdao Street.

The space is limited and the rent here is not cheap.

And there are stalls that can be rented early when you come, and you can only wait if you come late, or use it as a tourist.

The chief of Niu village spent 100 money to rent a stall on Erdao Street that could barely accommodate one carriage. The other carriages and fine wine were taken care of by cow eggs and temporarily left outside the West Market.

Chief Niu's sales method is the oldest sales method. He parked the carriage at the stall and began to yell.

"Take a look, take a look, Niujiacun's ancestral secret recipes are sold at Ang! From the south, from the north, don't miss the best wine in Southern Chu, Ang!"

This is all on Erdao Street, and there are very few wine sellers. These wines are all rice wine, and there must be some fragrance.

But this Erdao Street not only sells wine, but also sells animal skins, cattle, and grain vendors.

The food has no special taste, which is okay.

But those animal skins can emit a strong smell, which makes people frown involuntarily.

Especially for those animals, it is polite to urinate and urinate anywhere, and the sour smell of the feces is really not acceptable to ordinary people.

In this environment, the head of Village Niu wanted to sell this wine at a sky-high price, which was really fun.

Had it not been for a big beauty like Situ Ningbing standing in front of the stall, I would have even asked for the price.

An hour passed, and the head of Village Niu didn't even sell a jar of fine wine.

The head of Village Niu deeply reviewed himself, and he thought he had set the price of this wine too high.

The selling price of a jar of other people's fine wine was 10 yuan, and the village chief Niu had walked hundreds of miles to reach Nanchu County. The price was naturally higher, and the price of a jar reached 50 yuan.

The head of the village Niu hesitated and decided to directly reduce the sales to 30 dollars.

"Your wine is brewed with gold? Can your wine be eaten as a meal? It's so expensive. Are you crazy?"

Those who came over to ask the price because of Situ Ningbing, when they heard the high price of 30 yuan, they turned their heads and left.

"Let me explain, my wine is..."

No one would stand down and listen to the explanation from the Chief Niu.

Village Chief Niu looked at Li Tian helplessly, hoping Li Tian could help him!

"Lao Niu Village Chief, I want to ask you one thing, what is the name of your wine? Do you have your own brand? Do you plan to go direct sales or agent sales? You are all wines at the same price What? Or set the price difference?" Li Tian asked.

The village chief Niu asked a few questions is Yakou Crow.

"My lord, please help me. If we can't sell all these fine wines today, then we will spend the night in Nanchu County today, so that our expenses will be more, and it will be less cost-effective." said Village Chief Niu. .

"You answer my question first!" Li Tian insisted.

Village Chief Niu scratched his head and said: "I don't understand either, I also hope that the adults will give me some advice!

"First of all, we know that this fine wine is the only one in the entire Nanchu County. So we can't call it rice wine or rice wine, such vulgar names."

Li Tian originally thought of a vulgar name, such as Wubudao, Sanwan not going home, and so on.

Later, when I thought that the name was vulgar and outrageous, I named this wine "Nu Hong"!

As for the allusion of this fine wine, Li Tian copied the allusion of the daughter of the earth world.

Li Tian flipped it casually, took out some paper and pen and ink, pasted a piece of red paper on all the wine jars, and drew a beautiful woman with simple pen and ink on it.

This is regarded as the logo of daughter red.

"This is the name and logo of Niujia Village's wine, which is unique in Chu County. Whether you hear the name or see the logo, everyone will know that this wine is daughter red!"

"Next, we should discuss sales methods! Our profit will be higher for direct sales, but we do not have corresponding sales channels. If we find a distributor, we can promote the wine faster, or Open awareness quickly."

"But the disadvantage is that we have to give up some of the benefits to these dealers!" Li Tian said.

Niucun kept nodding his head, as if completely agreeing with Li Tian's point of view.

When Li Tian finished speaking, Chief Niu was stupid!

He looked at Li Tian dumbfounded, and after a long time he said, "Wait for someone, I can understand every word you say, but why can't I understand what you say? What is a dealer? What is it? What is the channel? What is the popularity?"

Chapter 4607: : Little Business Expert (2)

Li Tian is full of black lines!

I don't understand you nodding and drying your hair!

"Come on, let this uncle come to give you a demonstration!" Li Tian said.

Village Chief Niu was still waiting for Li Tian to demonstrate, but Li Tian turned around and left.

"My lord, my lord!"

"Catch the car, follow Li!" Situ Ningbing also said with a black line.

The head of Village Niu dared not neglect, and drove the car behind Li Tian.

Seeing Li Tian walking aimlessly on the street, Mr. Niu began to whisper in his heart, and even began to feel distressed for the rent of 100 dollars he paid.

When he came to the intersection of a street, he immediately stopped walking into the street.

"My lord, what should I do now?" The Chief Niu asked anxiously.

Li Tian smiled slightly, picked up a wine jar, walked towards a street in a stride, and walked forward about less than 100 meters before Li Tian turned around and walked back.

This time Li Tian opened the wine jar and slowly dropped the wine onto the ground while walking back.

At first the pedestrians on the street and the businessmen in the shops looked at Li Tian suspiciously, wondering what Li Tian was doing. When Li Tian poured his daughter's red wine on the ground, the smell of wine was diffused. Many people involuntarily showed a hint of intoxication.

"This...what kind of wine is this, and why is it so rich?"

"This wine is probably more fragrant than Dukang Divine Wine. What the \*\*\*\* is that person doing? How can such a waste of wine be done?"

Village Chief Niu was shocked again, and ran to Li Tian quickly, with a painful expression on his face and said: "My lord, business is not done like this. Today a jar of wine has not been sold, so this jar of wine can be wasted!"

"This is called an advertisement. Knock on it, and business will be delivered to the door in a while." Li Tian proudly spilled the altar before returning to the carriage.

Sure enough, as soon as Li Tian returned to the carriage, a dozen or so businessmen in charge of dressing came out from the shops on this street.

"Brother, are all the wine on this carriage?" asked a forty-year-old man wearing a black gown, a melon cap, and two beards.

"Yes!" Li Tian nodded and said.

Another man wearing a cyan gown in his hand quickly asked, "Sell it?"

"Naturally it was sold!" Li Tian said.

"How to sell it?" the Gupi cap merchant asked.

The village chief's face was full of excitement, and he couldn't wait to say: "50 money!"

After finishing speaking, the village head proudly nodded to Li Tian, which seemed to be saying that he was very smart.

"50 yuan is very expensive! This price is not easy to sell!" said the Qingshan man.

The merchant in the Guapi Little Hat also nodded slightly, and said, "You can buy a pot of Dukang wine for 50 dollars!"

The village chief was a little anxious immediately. Li Tian didn't speak yet, and the goods said quickly: "The price is negotiable, and 30 yuan is negotiable!"

Those merchants were already very excited when they were 50 yuan. When they heard the price of 30 yuan, the head of the village Niu could not help showing a greedy expression.

But these merchants seem to have eaten Li Tian and Niu Village Chief, but no one wants to buy these fine wines!

Chief Niu became more anxious, and wanted to lower the price.

"Shut up, don't say a word now, let me teach you how to do business!" Li Tian said dissatisfied.

"Don't be too expensive for 30 dollars. This price is the price of a glass of wine! If you feel expensive, you can buy the whole altar. The relatively favorable price is 1888 dollars!" Li Tian added.

Village Chief Niu only felt his heart beat abruptly, and he could hardly believe his own ears. He secretly counted his fingers and toes, and he didn't know how much the 1888 yuan was.

"1888 money, why don't you grab it! Go, go! Only fools will buy these wines!" The melon-pied cap merchant snarled.

But even he didn't turn around and leave, and it was even more impossible for other merchants to leave!

Li Tian opened another jar of wine, took a few sips while holding the jar, and then slammed the jar to the ground.

The aroma of the wine is more intense, and as the aroma of the wine diffuses, more and more merchants are watching.

"The price of this wine is too expensive? If it's cheaper, maybe we can think about it!" The Qingshan merchant felt that he had missed the best buying opportunity, but he was unwilling to give up like that. Li Tian said.

Li Tian nodded slightly and said, "You're right. Compared with ordinary wine, this price is very expensive, but don't get me wrong. This price is my wholesale price. If it's retail, this price needs to be It has to be doubled to 3888 dollars per altar."

"Maybe you will say that I am crazy, then I tell you the history of this jar of wine and you will know if I am crazy."

"Our wine is called daughter red! When the daughter's first cry in the field, it will definitely make every father's heart hot. The glutinous valley of the three-mu field will turn into the three-tanzi daughter red, which is carefully packed and sealed and buried in the backyard osmanthus. Under the tree, it is like a deeply hidden father's love! When the daughter is eighteen years old, she can dig out her daughter's red and use wine as a gift for the dowry to her husband's house."

"There are several key points here. The first key point is that only three acres of land can be used to make Santanzi Hongerhong. The second key point is that the wine needs to be stored for 18 years before it can be fully fermented. The third key point is the name of the wine. It is called "Nu Zihong", which means auspiciousness and is a must-have for wedding leave. Therefore, this wine is naturally more expensive too!" Li Tian said.

What Li Tian said seemed to make sense, but only Situ Ningbing and the old village chief knew that Li Tian was completely nonsense.

A girl in the Netherworld can marry when she turns thirteen, so she still has to wait until she is eighteen.

Also, this wine is brewed by distillation, which is completely different from the Hongerhong fermented wine in the earth world.

But this is not the point, the point is that these businessmen like to listen.

"That said, this wine is not expensive! Give me a jar first!" The melon-pied cap merchant took out a skin bag and began to count the money.

Village Chief Niu was about to cry with excitement.

A jar of wine can sell for 3888 yuan, which he never dreamed of before!

The people in the county town are indeed rich, spending thousands of dollars, these people don't even blink their eyes!

"I want all of this wine. Bring me the carriage to my shop!" Qingshan merchant said.

Village Chief Niu really cried with joy this time.

The wine in this carriage can be sold for tens of thousands of dollars, and this money can almost fill the entire carriage!

"I have made a fortune, this is really fortune! From now on, Niujia Village will definitely become the richest village within a few hundred miles! I am the one who gets rich first. Should I consider helping others achieve common prosperity? Wait a minute!" The village chief thought this quietly in his heart.

"Sorry, the wine in this carriage is not for sale!" Li Tian said.

Chapter 4608: : Little Business Expert (3)

Chief Niu is going crazy!

Not for sale? Is it not a free gift?

Money, don't the immortals and money have an enemy?

It doesn't seem right. This fairy's food is also quite ugly. Our Niujia Village wants to make a wine, and this guy needs a royalties for anything.

Li Tian's words aroused more dissatisfaction among other onlookers.

"Dry hair? Don't you sell you to tease us?"

"Yes, are you here to entertain the uncles?"

These merchants were filled with indignation and wanted to repair Li Tian fiercely.

But if they knew Li Tian's cultivation level, they wouldn't do it, nor would they think so.

"Misunderstood everyone! Our Niujia Village now has a large amount of this daughter red wine to be sold. We want to find several sincere partners to jointly develop the daughter red wine, and strive to sell the daughter red wine to everyone in Nanchu County. In a corner, walk out of Nanchu and head towards the entire Netherworld!" Li Tian said.

The faces of these merchants are only slightly better, with an expression of approval on their faces.

Li Tian continued: "No treacherous no business, this is the common understanding of ordinary people of business people. I believe that everyone will be more or less aggrieved!"

"According to my research based on historical records, businessmen should be described as being all-in-one but not businessmen. As businessmen, they also need to have good business ethics. What we are looking for today is the best business ethics in Nanchu!"

"That's it!"

"But does it have anything to do with the wine in this carriage?" the merchants asked.

"Of course it does matter! This car is sold for charity without me. I don't get any money from the wine sold in this car. I use it all for the development of education in Nanchu. This is called taking from the people and giving back to the society."

"Our ultimate goal is to strive to let the ordinary people of Nanchu also have a book and practice, and make the greatest contribution to the prosperity of our Nanchu!" Li Tian said.

"Well, just for this sentence, we support you!"

"Tell me how to sell this fine wine?" the merchant in the melon hat asked.

"That is, tell us how to sell for the charity first?" The green shirt merchant also asked in agreement.

Li Tian's gaze slowly swept across the cheeks of everyone, and he smiled and said: "This is simple. I will divide this car of fine wine into three equal parts. Businessmen can bid for these three equal parts of fine wine at will."

"Can I pay 1 money?"

"Yes, of course you can, but these wines are for the highest price! From highest to lowest, the three merchants with the highest bids can get this wine, and also get the opportunity to cooperate with our Niujia Village!"

"And I have just said that we don't take the money, you only need to quote, and then you use the money for the construction of the culture and cultivation of the Nanchu County! I definitely don't need to ask!" Li Tian said.

"Then you are not afraid that we will continue to quote a price, then put these fine wines in our hands, and finally fail to fulfill the promise?" a businessman asked.

Li Tian smiled and said: "There is no impermeable wall in this world. What we want is a partner who is inexperienced and non-commercial, with business ethics. The businessman you mentioned can cooperate with us once or twice, but as long as he does not Business ethics will be exposed sooner or later, and he will lose not only such money, but also reputation!"

"Good point! I'll give 10,000 money!"

"Idiot, you can buy a few jars of wine for ten thousand dollars! The wine in this carriage is divided into three parts, and each has at least a dozen jars! Too little, too little!"

"I give 50,000 money!"

"I'll pay for it!"

All of a sudden, these merchants began to offer prices.

The merchants who quoted these prices are not short-sighted, and the profit of this wine is absolutely huge. For example, if a jar of wine is bought for 1888 yuan, they can at least double it and sell it.

What they are looking at is the opportunity to cooperate with Li Tian and Niujiacun in the future!

Village Chief Niu was both excited and distressed.

The excitement is that Li Tian can sell the fine wine for such a high price, and the sad thing is that so much money is leaking out of his fingers!

Is this the so-called common prosperity?

"Don't be sad, go look for cow eggs, and bring the other carts of fine wine back! After the business talks are completed, you can definitely sleep until you wake up naturally, count the money and get cramps!" Li Tian said !

Village Chief Niu happily went to find Niu Dan.

What surprised Li Tian was that these merchants in front of him were bidding crazy. Now the highest price has reached 180,000 yuan. In this way, the price of each jar of fine wine is equivalent to nearly 10,000 yuan. Up.

In the end, the highest bidder was the Guapi Little Hat merchant, and his bid reached 200,000 yuan.

The price offered by the green shirt merchant is slightly lower than that of the Guapi cap merchant, and has reached 190,000 yuan.

After the meeting, there was a businessman with gold teeth, and his price reached 180,000 yuan.

"Brother, the financial resources of our chambers of commerce are not as powerful as those of the Southern Chu Chamber of Commerce and other chambers of commerce, but we also have a sincere heart. Can you see if this is the case? Our chambers of commerce do not want these fine wines, and

let them Are we cooperating with you like the other three major chambers of commerce?" a bald businessman asked.

The merchant's price was not low, reaching 100,000 yuan.

Li Tianlue pondered, and said, "It's not impossible! Now the wine production capacity of our Niuja Village can meet the demand of Nanchu County at most. When our Niuja Village increases production capacity, we will need to develop markets outside of Nanchu County. By then, these three chambers of commerce will definitely not be able to meet our needs!"

"But to show that you can serve as these three distributors, specifically responsible for the areas not covered by their three chambers of commerce. If you have money, everyone makes money, I believe they will not refuse!"

The other three chambers of commerce actually wanted to refuse, but they nodded in front of them.

"We paid out the 100,000 dollars! For Nan Chu!"

"And me! Our Chamber of Commerce also gave 100,000 money for Nan Chu!"

"How can this matter without our Chamber of Commerce, our Chamber of Commerce also gave 100,000 money!"

Li Tian and these merchants signed a cooperation contract separately. As long as the head of the village Niu came back, he signed the contract and the contract became effective.

Next, it is only necessary for the head of the village Niu to go back and seize the time to expand the production, so that the villages that have migrated to the inner city can also join the promising winemaking business.

The only problem is that these villages do not have a lot of food reserves, but this is not a problem. With so much money, is it not enough to buy food?

At this moment, the head of the village Niu stumbled back, sweating profusely, and said to Li Tian anxiously: "Big...man, my lord, things are not good! Cowdan... Cowdan, he was caught. Gone! Even the wine was taken away by those people!"

Chapter 4609: : Little face slappers (1)

Is this a problem with wine?

Damn, now Niubi's daddy's cow eggs have been taken away, and your \*\*\*\* thing is still only caring about the wine!

A trace of anger flashed on Li Tian's face involuntarily!

The Guapi Little Hat merchant has sent the wine he bid to buy back to the shop, and is waiting for the other carts of wine that Li Tian said.

Suddenly seeing the head of the village Niu hurried back, telling such an unfortunate news, the merchant in the Gupi Cap was also quite upset.

"What the \*\*\*\* is going on? Who dares to have such courage? Our Southern Chu Chamber of Commerce also has some power in Nanchu County. Tell it out, maybe our Chamber of Commerce can help you!" said the Guapi Little Hat merchant.

The surname of the Guapi Little Hat merchant is Chu, the national surname of the Southern Chu County, and the name is Chu Kolian. He is the vice president of the Southern Chu Chamber of Commerce. There are indeed some rights and powers in the Southern Chu County.

Village Chief Niu saw the slight anger on Li Tian's face and was afraid to mention the wine. He tremblingly said, "I don't know who it is. I only remember the guys who took the cow eggs. Iron film clothes!"

"Oh, yes, they also wear green iron hats on their heads. There is an inch-long thorn on the hat and a ball on the thorn! There are two crossed swords on the chest of the jacket. Is it a sword or a sword? , I did not see clearly."

Hearing the description of the village chief Niu, Chukolian sighed with trepidation on his face, shook his head slightly, and said, "I advise you to give up. According to these costumes, you can tell that they are probably from Nan The Imperial Forest Army of Chu County!"

"The Imperial Forest Army is under the control of Chu Zhangyang, the second prince of the Southern Chu County. Chu Zhangyang is just as his name suggests, everywhere, let alone us flat-headed people, lowly merchants, even the most important ministers in the court would not dare to disobey him. Even this matter. It was not made by Chu Zhangyang, and those ordinary Yulin Army are not the ones we can provoke!"

"Let's just give up! People can do nothing, just as a disaster!"

Hearing the name Yulinjun, the head of the village Niu was frightened and fell to the ground, crying and said: "Yu...Yu...Lin Jun, this one is over! This one is over! Damn cow! It's not good for the egg to provoke, why provoke the imperial forest army! It's a pity that the horses in the village and the cart!"

Li Tian was angry, but he pulled the Chief Niu up from the ground and snapped! Snapped! Just slapped Mr. Niu twice!

He didn't dare to use any skill, but half of the face of the two village chief Niu who had slapped the face was swollen.

"Big...sir, I said something wrong again, it's time to fight! It's time to fight!" Village Chief Niu did not dare to disobey Li Tian in the slightest, begging for mercy.

The corner of Li Tian's mouth turned up slightly, and he said with a sneer: "Since I know that it is a good thing for the Imperial Forest Army, then everything is easy!"

"Youth young man, don't you dare to mess around! I can see you as a capable person, but you have to know that it is unreasonable for the Xiucan to meet the soldiers. As long as they are taken away by the Imperial Forest Army, how can they vomit?" Chukolian said anxiously.

Chu Kelian appreciates Li Tian a little, of course, he is more concerned about the cooperation with Li Tian village.

As for the life and death of the cow eggs, this has no effect on him.

Nanchu County is just a small and ordinary country, but like the powerful Venerable Kingdom and the empire, the hierarchy here is equally strict. How many hillbillies like cows and eggs will not die?

Everyone is just opening one eye and closing one eye!

"Don't worry, I won't be fooling around! I also have old acquaintances in this Imperial Forest Army. I'll be acquainted with this one, and maybe I can help us!" Li Tian said.

The Imperial Forest Army is an army that guards the county government. It can be said that it is the core and most powerful army in the entire Nanchu county. It is precisely because of this that this army is controlled by the prince.

And the officers and officers of the Imperial Forest Army were not the heartfelt confidants of the county, and these confidants were not allowed to associate with foreign ministers, so how could they know the ordinary youth in front of them?

Li Tian said that he knew people in the Imperial Forest Army, which Chukolian would never believe.

"Youth young man, don't want to frame me. I have had a relationship with several adults in the Imperial Forest Army. If young man you are willing to spend money, I can ask someone to help you ask! But what is the end result? , But I dare not pack the ticket!" Chukolian said.

"No need! President Chu, let me take care of this matter! Mr. Niu is unfamiliar here. He also asked President Chu to take care of me and treat me casually with good wine and meat. I will soon Will be back!"

I didn't see how Li Tian moved, but suddenly there was an extra skin in Li Tian's hand. Li Tian stuffed this skin into Chuko's hands and continued: "There are some coins here, and they are treated as the expense of entertaining the village chief Niu!"

"This... you should take it back. How can you still use your money to entertain the distinguished guests!" Chukolian retorted.

Li Tian didn't take back the skin. These coins were found by Li Tian in the cave of the Lord of the Tiger Region. These coins are somewhat different from the coins of the Southern Chu County. Li Tian remembers that these coins are the same currency in the Netherworld.

Even gold and diamonds were of little use to Li Tian, so he took out a skin bag and gave it to Chukolian.

Chukolian actually looked down on the head of the village Niu, he felt that the head of the village Niu was a waste.

If it hadn't been for Niuja Village to be able to brew the daughter red wine, Chukolian would not have looked at the head of Niu Village.

"The number of these coins is small, and the weight is not light!"

Chukolian took out a few coins from his skin, seeing these coins, Chukolian's eyes were almost straight.

"Heavy money, it turned out to be heavy money!"

When the merchants around Chukolian saw the coins that Chukolian took out, they suddenly exclaimed.

Heavy money, this is what ordinary merchants in Nanchu County call for the same currency in the Underworld. This kind of currency is basically not allowed to circulate in the market.

Only these merchants need foreign trade, well, it is actually the currency that they can use when they leave the Nanchu county and go to other nearby counties or other venerable countries for commercial activities.

The meaning of this currency in Nanchu County is roughly equivalent to the foreign exchange of countries on the earth!

"One, two, three... nine, ten, eleven! There are eleven heavy coins in total! These eleven heavy coins are equivalent to 110,000 dollars! Who is that young man just now? Have so much money!"

"Chukolian, you have developed! It's really enviable that you can get so much money just by taking care of such an old man!"

envy?

Envy your sister!

"Do you know who this young man is? What is his origin? Even if I put the money with me, how dare I take it alone?"

"Master Niu, I will send you to the most high-end inn in Nanchu County. Your old man is casual and chic. Our Nanchu Chamber of Commerce is all inclusive of this cost!" The head of the village Niu became a master and said with a sad face.

Chapter 4610: : Little face slappers (2)

Talking about Li Tian.

After leaving the West Market, it didn't take long for Li Tian to bypass the downtown area.

"Li, should we go to the Tianshou first or the National Mansion first?" Situ Ningbing asked.

There was a slight smile at the corner of Li Tian's mouth, and he said, "Go to the sky thorn first! You should also let the sky thorn show up!"

Tiancai, the kind of special team formed by Li Tian.

While in Niujia Village, Li Tian followed Situ Ningbing's suggestion and decided to build a city.

At that time, Li Tian had already sent members of the Tianshou squad to sneak into the five nearby countries, including Nanchu County, Xinsong County, and Xizhou County, to collect some relevant information!

The sky thorn team is divided into five teams and a reserve team.

Except for a small team staying in Niujia Village, responsible for the safety and defense of the county town, the other small teams have been dispatched by Li Tian.

However, Li Tian strives to be low-key and safe.

Therefore, the team captains sent out did not follow out to avoid revealing their identity.

Only the Tianshou squad that entered the South Chu County, because it was a reserve squad, Li Letian sent out.

Li Letian is the captain of the Tianshou Reserve. He independently led more than 70 members of the Tianshou into the Nanchu County to conduct a comprehensive investigation of the situation in the Nanchu County.

Every seven days, these dispatched team members need to teleport back to Niujia Village to report the information they have investigated to Situ Ningbing, and then after Situ Ningbing's analysis, they pass the information they think is useful to Li Tian. .

Last week, the information brought back by the members of the sky thorns was basically related to the Emperor Yecheng, the Emperor of the Zhao Family, and the Emperor of the Dragon Race.

Some news said that these three emperors had been beheaded by the blood domain master and others, and the kingdom of the emperors had also been destroyed.

Some sources say that these three emperors are still alive, but their cultivation base has plummeted, becoming ordinary people.

There is also news that these three emperors are the worship brothers of Elder Li Tian in Nether Academy, and because Li Tian has grown up to offend the super \*\*\*\* family, these three emperors will be brutally murdered.

The news was varied. After analysis, Situ Ningbing finally concluded that the extermination of the three emperor kingdoms was true, but as to whether the three emperors were still alive, Situ Ningbing believed that this might be a trap.

Li Tian couldn't judge the accuracy of the news, so he thought about coming to Nanchu County to find out for himself.

On the way to Nanchu County, Li Tian has teleported to Nanchu County several times to understand the progress of the matter.

But people like Niu Village Chief and Niu Dan didn't know it.

Entering Nanchu County today, Li Tian wanted to send back the village head Niu and Niu Dan as soon as possible, but he didn't expect such a change in the process of selling wine.

Came to Nanchu County, a shanty town in the east of the city.

This is the slum area of Nanchu County, the only area that allows people from other places outside the county city to settle again.

Dragons and snakes are mixed here, with three teachings and nine streams.

Li Letian needs to teleport back to Niujia Village once a week. In order not to attract the attention of the powerful masters of Nanchu County, Li Letian set the branch of Tianshou in this place.

Since it is the Nanchu branch of Tiancai, it is not always the headquarters to rent a low shed on the opposite side.

In Li Letian's words, this is to do something for Lord Li Tian, not to lose his face.

Therefore, under the banner of low-key, this guy is doing things that are not low-key.

After the goods arrived in Nanchu County, they bought a large shanty town.

Then this product undergoes a shantytown renovation!

Well, it is really shantytown renovation.

A manor with an area of more than tens of acres was built in the east of the city.

In the vacant place outside the manor, this goods made people transplant flowers and trees.

Therefore, this manor does not seem to be inferior to the residences of the court elders in Nanchu County, and even higher-grade than the residences of the elders.

Li Letian spends Li Tian's money on this product, so it feels bad to spend it.

Of course, the most important thing is that this is what Li Tian wants to see!

Anyway, even if Nanchu Junguo wanted to investigate Li Letian, they probably couldn't find out any details.

Walking into the east of the city, you have already seen this magnificent manor!

Li Tian sees there is no left or right, huh! A teleport has already appeared in this manor called Skythorn.

"Master Li Tian, you are finally here, if you don't come again, I will let my brothers go out to find you!" Li Letian said anxiously.

"Don't worry, speak slowly, what happened?" Li Tian asked.

Li Tianle invited Li Tian and Situ Ningbing into the hall, and asked his subordinates to serve good tea, and said: "After you left yesterday, I sneaked into the Nanchu County Government House again at night, but I didn't expect that this lurking would be true. Let me hear some useful information!"

"You will sell me a pass and be careful I beat you!" Li Tianyan said angrily.

Li Letian said quickly: "Yesterday Nanchu Junguo welcomed the envoys and missions of the Zichuan Empire. The main task of this mission is to spread rumors, and the content of this rumors is related to the news we have heard before. !"

"Is it the father of the Three Young Masters?"

"That's right! The father of the three sons of the nether world was subdued by the blood domain master, the great emperor Zichuan and other domain masters and the emperor. The kingdom of the emperor was indeed breached, but the three of them are still alive."

"The envoy of the Great Emperor Zichuan asked Nanchu Junguo to spread this news in the state capitals of the national monarchy, and said that in a month's time, the three emperors of Yecheng would be killed in front of the emperor's mansion. It is to lure the third son of You Ming to be fooled! In the end it is to lure you out!" Li Letian said.

Li Letian went on to say: "Boss Li Tian, what are you going to do? We have no friendship with the three emperors. If it were me, I would definitely not be taken the bait. At best, I would rush back to the dark forest to tell the Nether 3 Son!"

Li Tian felt like a dog!

This was originally Li Tian's idea.

After all, he is worshipping the Three Young Masters, not these three emperors. He doesn't have much friendship with these three emperors. To say that he has friendship, only Ye Chenghuangzun, he is Ye Meijing's father and also Li. Father-in-law.

However, now this has been said by Li Letian, if Li Tian really did this, it would feel a little uninteresting!

But want Li Tian to save these emperors?

You can pull it down!

Just Li Tian's strength and influence? A domain lord Li Tian couldn't deal with it.

I went to die!

Snapped!

Li Tian slapped Li Letian dissatisfiedly.

"As far as you \*\*\*\* bullshit, who asked you to express your opinion?"

"I'm sorry, my lord, it's me who saved the abdomen of a gentleman like a villain!"

But even if Li Letian was beaten to death, it would not help.

What should I do now?

It's so \*\*\*\* hard to decide!

Regardless, let's save the cow eggs first, and then consider the long-term plan!

"Li Letian, what is the relationship between this Nanchu county and the Zichuan Empire? We can't save my three imperial fathers who have worshipped brothers for the time being. At least some interest can be recovered!" Li Tian said.
