

A Killer 47

Chapter 47: I go find him

After they left, Xiao Zhou's eyes staring at Li Tian slowly turned back.

He took out his cell phone quickly, and quickly dialed a call: "Hey, Mr. Tang, the matter is over. The three security guards of our company and I were taken out of the detention center."

Tang Zheng, who answered the phone over there, nodded slightly and said on the phone: "Yeah."

"President Tang, I have to tell you something." Xiao Zhou said suddenly.

Tang Zheng, who was about to hang up, put the phone on his ear again: "What's the matter?"

"Is that the kid who tried to protect the eldest lady the other day?" Xiao Zhou said.

Tang Zheng was taken aback for a moment: "He?"

"Didn't you say that the kid had left the rented place the last time you went to find him?" Tang Zheng said.

It was originally from the last time that Xiao Zhou accidentally injured Li Tian, Xiao Zhou also went to the place where Li Tian rented, in order to take Li Tian to the hospital for treatment, but he did not expect that, When Xiao Zhou passed, Li Tian had already returned the house and came to the Tang company as a small security guard.

So last time Xiao Zhou did not find Li Tian, what about Li Tian? Tang Zheng is just grateful. For Tang Feifei, after all, a stranger can desperately protect her for his daughter. Based on this alone, Tang Zheng should give others some money...

No, after Tang Zheng said so, Xiao Zhou said, "Mr. Tang, I saw that kid today, and he is the security guard for our company's brawl."

"Huh? Is he working as a security guard in my company?" Tang Zheng was slightly taken aback.

"Well, I can see that he just came from the countryside." Xiao Zhou said.

"Moreover, Mr. Tang, I asked the management staff on the property side. The protagonist of this brawl was because of him. I heard that an old security guard in our company was bullied by that group of motorcyclists a few days ago, so he came out. Help, fight a few bastards, and then this time the group of **** brought a dozen people to retaliate against him."

"But this kid is very cruel. I heard from the people on the property side that this kid singled out more than a dozen gangsters, and also knocked down a few gangsters. How about himself? He didn't suffer much injury..." Xiao Zhou said with some admiration in his voice.

When Tang Zheng heard Xiao Zhou say this, he was slightly startled: "Is it? According to you, that kid is still a very simple character?"

Xiao Zhou smiled: "I'm not sure, but I can feel that this kid is definitely a talent."

Tang Zheng paused for a while and didn't speak. After a while, he said slowly, "Well, don't care about him. Anyway, he is a worm or a dragon in our company, and he will know in the future. But I have to hurry up and say to my stubborn girl. It's okay to say that this kid is okay...otherwise that girl still hates you. Haha."

Originally from the last time Xiao Zhou beat Li Tian, Na Feifei was 10,000 cruel to Xiao Zhou.

Of course Xiao Zhou knew it, and said with a smile: "Thank you, Mr. Zhou..."

After speaking, he hung up the phone. Xiao Zhou didn't speak too much, got in the car, and drove quickly to the street outside.

As for Tang Zheng, after hanging up, he walked quickly towards his daughter's room with a smile on his mouth.

In the princess room exquisitely exuding the scent of tulips, Feifei is lying on the soft Simmons bed, playing with her laptop and surfing the Internet.

"Feifei, dad has good news for you."

After walking in, Tang Zheng said with a smile.

Hearing his father's voice, Feifei suddenly sat up from the bed, staring at his father with apricot eyes.

"Really?"

Tang Zheng laughed and said, "Of course it is true."

Feifei blinked bright eyes and looked at her father there, listening to what he called the good news.

"Feifei, the guy who worked hard for you last time has finally been found by my dad."

As Tang Zheng said so, Feifei suddenly jumped off the bed.

"Dad, really? Didn't you lie to me?" Feifei asked with excitement like chicken blood.

Seeing his daughter so happy, Tang Zheng also smiled slightly: "Of course it's true, when did my dad fool you?"

"He is there? Is he injured badly? He was beaten like that by Xiao Zhou, he must be injured badly..." Feifei said worriedly.

Tang Zheng laughed and said, "Silly daughter, you too underestimated others. Tell you, that kid is fine now..."

"Ah? That's good! It scared me to death, I thought he was badly hurt." Feifei finally let go of her heart.

"By the way, Feifei, how do you know that kid?" Tang Zheng asked.

Feifei smiled and said, "I won't tell you."

"Dad, where is he now?" Feifei quickly looked at Tang Zheng and asked.

Tang Zheng frowned slightly: "Why are you asking him so anxiously? Aren't you just a poor boy from the countryside?"

"Dad, you don't understand, that poor boy is very funny. When I was with him, he thought I was a pauper just like him? He also said that the iPhone 5 is a copycat... I was so funny." Feifei thought When I got up, I didn't think I wanted to laugh at that.

Tang Zheng originally thought that the poor boy had deliberately approached his daughter because of Tang Feifei's identity. Now, hearing Feifei say this, it seems that he has been thinking too much.

He smiled and said, "Really?"

"Dad, tell me quickly, where is he?" Feifei took Tang Zheng's wide palms and said coquettishly.

Tang Zheng couldn't deal with this trick to his precious daughter, so he had no choice but to agree.

"Good, good, good, Dad said." Tang Zhengdao said.

"Feifei, how could you never think that that kid would be a security guard in front of the Tang company?" Tang Zheng said with a smile.

"What? Work as a security guard at the company?" Feifei was speechless.

"Yes." Tang Zheng said.

Feifei was stunned: "He actually worked as a security guard in your dad's company... dizzy, dizzy."

"I'm going to find him." Feifei ran out as he spoke.

"Feifei, where are you going?" Tang Zheng was taken aback, but he didn't expect that his daughter would actually be looking for a poor boy who worked as a security guard in his company.

Feifei quickly went downstairs without looking back and said, "Dad, I'll go to the company... to find him."
