

A Killer 4701

Chapter 4701: : Tianyi shot (2)

After listening to Li Tian's words, Venerable Patience also laughed!

Is this guy a fool?

A piece of **** at the eighth level of the venerable and the early stage of the ninth level of the two venerables, unexpectedly wants to take action against hundreds of venerables of us?

Oh, yes, there is a kid!

Who is impatient!

The other Venerables behind Venerable Patience also laughed, as if they had heard the most funny joke in the world!

"Hahaha, I'm laughing so hard! He treats himself as the emperor or the domain master!"

"Yes, that's right! The emperor-level powerhouse faces us at the same time, and I am afraid it will be difficult to win. People think of themselves as the domain master and super domain master-level powerhouse!"

"You are not allowed to despise them! But I like the attitude that you despise them! Hahaha!"

These venerables laughed at Li Tian unscrupulously.

At this time, Xiao Tianyi had walked up to Li Tian, with an innocent expression, looked up at Li Tian, and said: "Dad Li Tian, can I use a little cruel means, a little **** means!"

Li Tian nodded slightly and said with a smile: "Of course there is no problem! As long as you can show your strength!"

"Are you sure? You won't beat me up then!"

"will not!"

"You won't scold me then?"

"Neither!"

"That's good, since you agree with Dad Li Tian, then I will show my strength. However, I used to clarify that I don't need to do my best to deal with this rubbish. This behavior is the biggest waste of my strength! Therefore, in the future, I will only take action when Dad Li Tian meets an opponent with the same strength as me!"

"Not an example!" Xiao Tianyi said.

...

"Hahaha, Huang Ze, where on earth did you invite the tease? Can it not be so funny?"

"Are cruel methods? Bloody methods? These words came out of the mouth of a little kid, the picture is really intoxicating!"

"I'm drunk too!"

Huang Ze knew how powerful Xiao Tianyi, Li Tian, and Tang Xiaolong were. As a man who had lived in this domain master's mansion, he couldn't bear to see how many people were beheaded by Li Tian and others.

When Huang Ze spoke to Li Tian on the small Tianyi, Huang Ze said again: "Believe it or not, their strength is really far beyond your imagination! These two are Li who killed the Lord of Frostland. Lord Tian, and Lord Tang Xiaolong who killed the King of Fighters with a punch, and this...If you don't want to die, now kneel on the ground and beg for mercy, and promise you won't kill you!"

It's okay for Huang Ze not to say these things. As soon as he said these things, these venerables laughed louder.

Some venerables laughed out of breath, some squatted on the ground with their stomachs and laughed wildly!

"If it wasn't for them to be so funny and bring us joy, I would kill them now..."

"I think so too! It's also great to catch them first, and to pull them out for a stroll when they are bored!"

Huang Ze is speechless!

He didn't want him to persuade him kindly, it turned out to be such a result!

Those who know the current affairs are Junjie, these guys don't know until now, no, even if you tell them how awesome these people are, they all believe it.

In that case, Huang Ze didn't say anything, stepped back and stood behind Li Tian.

Li Tian acquiesced to Huang Ze to persuade him to surrender. If Huang Ze did not have this quality, then Li Tian would not pay attention to Huang Ze.

"It's not good for you, we are so fond of pretending to be pigs and tigers, hahaha! Little Tianyi, do it!" Li Tian said.

When Li Tian said these words, Venerable Patience was no longer impatient!

"Go to hell, a pretentious idiot!" Venerable Patience roared fiercely, exerting pressure on Li Tian, Xiao Tianyi, and Tang Xiaolong at the same time. Immediately, his figure flashed, and he flew towards Li Tian in an instant!

Venerable Patience instantly released his spiritual power, and his whole spiritual power was condensed in his right hand, forming a wide bladed weapon, slashing heavily at Li Tian!

Venerable Patience is very handsome and imposing. From the perspective of appearance, Li Tian gave him at least 10 points, and the remaining 990 points were due to his lack of strength!

The Venerables behind Venerable Patience suddenly became excited. Those Venerables who had reached the second or higher level of the Venerable's strength almost released their spiritual power at the same time. The spiritual power changed into various weapons, items, and their feet on the ground. , Rushed towards Li Tian, Tang Xiaolong, Xiao Tianyi and Huang Ze.

And those powerhouses who did not reach the second level of the venerable have drawn out their weapons and joined the battle group!

This picture is to chop Li Tian and others into meat sauce in an instant!

However, at this moment, Xiao Tianyi moved!

I saw Xiao Tianyi's mouth muttering words, folded his hands together, and suddenly, his left and right palms were rotating in opposite directions at the same time. When the palms were parallel to the ground, Xiao Tianyi screamed, and both palms were cut outward at the same time. !

drink!

With this roar, Li Tian saw thousands of half-moon mirror-like spiritual light waves flying out of Xiao Tianyi's palms instantly!

Seen from top to bottom, these spiritual light waves are like waves of the sea! But Li Tian knew that these light waves were far more powerful than the waves of the sea!

Sure enough, these half-moon-shaped light waves of spiritual power intersect with the spiritual power weapons in the hands of other venerables, and the spiritual power weapons in the hands of those venerables are instantly blasted into scum, and then these spiritual power light waves continuously cut through the bodies of these venerables. .

Whoosh!

Whoosh!

Whoosh!

Xiao Tianyi only used a trick, and the queen stopped his hand and stood aside.

But these thousands of light waves of spiritual power are spinning back and forth in the crowd differently, just like countless boomerangs flying back and forth!

Tang Xiaolong raised his eyebrows slightly and said, "Xiao Tianyi, you are dazzled by this trick. The Taoist priest is very beautiful, but...this power..."

Tang Xiaolong's words have not been finished yet, the style of painting has changed suddenly!

The bodies of the hundreds of venerables shattered in an instant!

The stumps and broken arms and internal organs all fell all over the floor!

All the bodies were cut into small pieces, and all the bones were cut into small pieces!

In just a few seconds, these hundreds of venerables were all beheaded by Xiao Tianyi without exception!

This strong smell filled the air. These hundreds of venerables were beheaded and their internal organs were also beheaded, and the feces in the internal organs were completely exposed.

Under this kind of smell, the ***** smell does not show up!

Li Tian was shocked!

This is the strength of Xiaotianyi? The strength of the super domain master class powerhouse?

Tang Xiaolong was shocked!

Little Tianyi is already so fierce? These are hundreds of nobles!

Huang Ze was frightened, his legs softened, and he sat on the ground with a thud, his crotch smashed!

Chapter 4702: : Kraken Invasion

On the ground in front of the entire hall, there were broken corpses, feces, and blood everywhere!

The smell in the air is desperate!

Li Tian felt his stomach twitching constantly!

It was so **** disgusting, Li Tian almost vomited it several times!

Huang Ze used practical actions to vividly interpret what it means to be scared to pee!

Xiao Tianyi is cruel and bloody!

To say that Li Tian and Tang Xiaolong could deal with these hundreds of Venerable Powers, but neither Li Tian nor Tang Xiaolong would be able to kill these guys so easily.

Even Li Tian and Tang Xiaolong have to pay a little bit of pain for this!

But what about Xiao Tianyi?

This feeling is like playing on the Internet, when a full-level full-body magical costume character goes to level outside the novice village, a group of seconds skill, all the monsters on the screen are killed in seconds!

This is Xiao Tianyi's super domain master strength!

Li Tian's psychology is so cool!

Although Li Tian and the Netherworld Academy are now inextricably linked, and with the help of the Canghai Great Emperor, the Star Domain Master and other domain master-level powerhouses, Li Tian's overall strength is still weak compared to the Super God Family. many.

If the Donggong Super God Family refuses to suffer and wants to die with Li Tian, and randomly send several super domain master-level powerhouses to assassinate Li Tian, Li Tian will have only one result, and that is death!

Bringing the purple flame thunder bear to the gate of the restricted area, the purple flame thunder bear and Li Tian honestly confessed that Donggong Buchan was not the one who killed him, and he does not have that ability. If it were not for the help of a mysterious woman, his old bear might have fallen into the mist. The top of the peak.

When Li Tian learned the truth, his tears almost fell!

What about the super domain master power? What about killing Donggong Buchan?

Your cowhide has blown out. What if the Eastern Palace Super God Family sends a domain master-level powerhouse over to seek revenge!

Li Tian still has two drops of gods now, but after all, the number is only two drops.

How can Li Tian be willing to use it if it is not a last resort!

Faced with Li Tian's doubts, Ziyan Thunder Bear's face was super thick, and he shook his head and said, "If you can't beat it, I will run away. I used to boast that I would rather fight to death than escape, but since I walked with Donggong. After explaining the battle, I found that this is a bit big!"

"Brother Li Tian, you give me a few years, as long as I master the martial arts "Heaven Breaking and Earth Breaking", I can definitely protect you! If you unfortunately die during the period, I promise to avenge you!"

Okay, this fucking... doesn't seem to be human!

What is Lao Tzu dead!

Li Tian felt he was very tragic!

It is human nature to be greedy for life and fear of death. Even Li Tian, who has reached the realm of the emperor, does not want to die for no reason.

Now it's alright, a purple flame thunder bear is gone, and a little Tianyi is here.

And Xiao Tianyi has another advantage, that is, its excellent appearance camouflage.

What Xiao Tianyi cultivates is "The Corpse Jing", what he refines is the corpse spirit, the aura in his body is different from the aura of other cultivators such as Li Tian, and you can't see that he possesses the super domain master realm with other heat.

In this way, as long as it is used properly, Li Tian can let Xiao Tianyi play the role of a killer.

"Now the Venerable Kingdom of the Lord of the Frost Territory has basically solved the problem. The top priority now is to refine the spiritual power in the body so that I can quickly break through to the realm of the Territory. Only in this way can I have better self-protection strength!"

"In addition, there is also the need to continue to search for the keys to the underground library. After finding the four keys, you can open the underground library, and you can know why Chu Jiangnan defected from the Nether Academy!"

"There is also a need to go to Wanshen Mountain to meet that mysterious woman! The Heavenly Qiong Spear artifact in my hand belongs to this mysterious woman. He told me to go to Wanshen Mountain to find her. Isn't he trying to get the artifact?"

"No matter what, I must go to her. Only when I find her can I solve the confusion in my heart!"

"I have to go back to the Netherworld Academy. I have to thank the old dean and the elder face to face for their assistance to me. Of course, what kind of martial arts does the academy have! I didn't know enough about martial arts before, but listen. After the words of Ziyan Thunder Bear, I know the importance of martial arts!" Li Tian listed the problems he needs to deal with and solve in the near future, thinking in his heart.

Leaving Huang Ze, let Huang Ze handle the corpses, Li Tian took Tang Xiaolong and Xiao Tianyi out of the hall.

As for those broken corpses, how to deal with them, and how to explain to others if others see Huang Ze, this is not a question that Li Tian is considering!

...

Underworld!

Less than a hundred miles away from the territory controlled by the Super God Xiuyu Family, there is a sea here!

This is an inland sea with a radius of 100,000 square kilometers. It is also quite spectacular in the interior of the Underworld!

This sea has a name, it's called the Nether Cry Sea!

It is the Nether Cry Sea that ranks second among the four major "Venerable Forbidden Zones" in the Nether World!

At this time, the sky of Nether Cry Sea was blood red, and the afterglow of the setting sun shone on the clouds, dyeing the white clouds red!

If you just watch the sunset in the sky, then today is another good weather.

However, looking at the sea of Nether Cry, huge waves are soaring, and every wave is at least tens of meters high! The huge waves rushed to the coast in rows, one after another, and hit the rocks hard, making a violent crashing sound!

Logically speaking, there shouldn't be such storms in the inland ocean!

No, even in the vast ocean, the probability of such a huge wave is very small!

What's more, it is sunny today and there is not much sea breeze on the sea, but why is the sea so unstable?

The current clan of the Super God Cultivation Clan mainly focuses on Yu Lonely, the god-level uncle Chu Jiangnan, as well as at least a dozen super-domain masters from the Cultivation Cultivation family, and hundreds of domain master-level masters are standing in the distance from the sea of crying On a cliff hundreds of meters away from the coast.

Xiuyu looked lonely at the sea in the distance, looking at the sea, hundreds of miles from the coast, at the line of the sea and the sky, there is a giant beast larger than the size of an island!

Sea monster beast!

At this time, the Sea-Monster Clan giant beast was swaying its body, slowly swimming towards the coast.

The deceased still has giant beasts swimming, and these big waves will appear on the sea!

Behind this sea-mon beast, Xiuyu saw a dense group of figures again in solitude, and these figures were all sea-monsters without exception!

Xiuyu shook his head lonely and couldn't help, and said, "It's unimaginable that the Sea-Monster Clan can rise so quickly! If we Xiuyu Family can't stop these Sea-Monsters, then the whole Ming Da is going to spread rumors. !"

Chu Jiangnan's expression was slightly normal, but the expressions of the other domain masters of the Super God Cultivation Clan were extremely ugly!

Nether Cry Sea, the real ruler is not any human being, nor is it the powerful sea monsters with the eighth rank and the ninth rank in the legend, but the sea-monster with the human wisdom!

Now, the Sea-Monster Clan begins to invade the Underworld!

Chapter 4703: : On the thief ship

The creatures in the Nether Cry Sea, regardless of type, are divided into sea beasts, sea monsters, and sea monsters according to their strength levels!

Among them, sea monsters are powerful creatures in the sea. There are not many ones who can only fight by relying on the powerful strength of their bodies. The strength of sea monsters is basically the same as the realm of human cultivation.

Only a few powerful sea beasts will reach the early stage of the human sage.

The sea beasts have a low level of cultivation, and they generally live in the shallow sea area of the Nether Weeping Sea, closer to the mainland!

For ordinary humans without cultivation bases, sea beasts are already legendary monsters of existence!

However, it is strange to say that for tens of thousands of years, sea beasts have lived in the Nether Weeping Sea very docilely, and it is rare for them to actively attack ordinary humans.

On the contrary, as ordinary humans, those strong men whose cultivation level has not yet reached the cultivation level, driven by various interests, will enter the Nether Weeping Sea, look for the whereabouts of sea monsters, and even hunt down weak ones. The sea beast!

Even stronger than the strength of the sea monster is the sea monster!

The strength level of sea monsters is almost equal to that of the human beings, but most of the sea monsters are around the seventh or eighth level, and there are a few sea monsters that reach the ninth level.

Therefore, Nether Cry Sea will be a trial ground for the nobles.

But sea monsters are not ordinary sea beasts. They live in the deeper part of the Nether Weeping Sea, away from the coastline!

In the cognition of ordinary cultivators, sea monsters are already the most powerful existence in Nether Cry Sea, and they are the rulers of Nether Cry Sea!

However, as the guardian of the Nether Cry Sea, the Super God Cultivation Family knew that above the sea monsters, there were even more powerful sea monsters.

Sea monsters are divided into little monsters, big monsters, and monster kings!

The weakest little demon's cultivation realm is already equal to the human domain master realm. Because of race issues, even if the sea monster's cultivation reaches the realm master realm, it cannot completely transform into a human body.

Only the stronger monsters, their cultivation realm has reached the super domain master realm, their bodies can change into humans, but their changes are not complete, it is easy to see from the appearance that they still retain There are more features!

The Demon Emperor, only those who have reached the realm of the Demon Emperor and whose cultivation is already equivalent to the demigods of the human world!

He can ascend in the daytime and enter the God Realm, and his body shape can change at will.

However, in this Netherworld Weeping Sea, whether there really is a Demon Emperor, this is not even clear to the Super God Family of Xiuyu.

After all, since Xiuyu has a lonely memory, there have been no accidents in the Nether Cry Sea!

For tens of thousands of years, fish and water have been acacia!

Humans and the monsters in the Nether Cry Sea have not had a large-scale conflict!

Even if a few Krakens make waves occasionally, they will be killed by the Super God Cultivator in the name of justice!

Still to be beheaded, the entire Sea-Monster race was calm, and it did not cause any backlash from the Sea-Monster race, not to mention the large-scale invasion of human territory with the power of the whole family like today!

...

At this time, the Sea Monster Race is getting closer and closer to the coast!

A majestic murderous aura gradually wheeled over the entire beach as the Krakens approached!

"Fish repairing is lonely, what exactly did your Super God Cultivating Family do to the anger of heaven and human beings that can cause such anger from the Sea-Monster tribe? This Sea-Monster is not easy to deal with." Chu Jiangnan said.

Xiu Yuji chatted with a wry smile, and said: "Our Super God Cultivation Family is the owner and guardian of the Nether Cry Sea, and the Nether Cry Sea is the trial ground for the noble level powers in our clan. Of course, other venerable powerhouses in the Netherworld will also come to Netherworld to cry!"

"You want to say that we have done something that is infuriating between people and gods. That is really wronging us! The young boys in our clan have never been disrespectful to sea monsters except for killing a few sea monsters to practice leveling. Not to mention angering the Kraken!"

To say that Chu Jiangnan got on the thief boat, this would not be regarded as a loneliness and a lonely fish repair!

As early as a few decades ago, the proportion of deaths and injuries in the Nether Cry Sea of those trialists of the Super God Cultivation Clan began to rise in a straight line! Xiu Yu lonely and keenly felt that the Netherworld Cry Sea was undergoing some changes beyond his control.

For this reason, Xiuyu Lonely entered the Nether Cry Sea in person, and found that within the shallow sea of the Nether Cry Sea, there was already a sea monster!

You know, the little demon with the lowest level of cultivation is already a powerhouse equivalent to the realm of the human domain master. This change makes Xiuyu lonely and shocked.

what does this mean?

This means that there are quite a lot of master-level masters of the Sea-Monster clan in the Nether Cry Sea. Once the Sea-Monster and the Terran clash, humans will inevitably suffer heavy losses!

As the loneliness of Xiuyu deepened into the Nether Cry Sea, he found that the number of low-level sea monsters in the Nether Cry Sea had reached a number enough to shake the entire human cultivator.

For tens of thousands of years, as the guardian and owner of the Nether Weeping Sea, the Super God Cultivator family has been pursuing the iron-blooded method of cutting leek!

It's not scary to have a siren, just kill it!

What's more, the whole body of this sea monster is a treasure. Killing the sea monster is also of great benefit to the improvement of the cultivation level of ordinary members of the Super God Clan.

Driven by this kind of interest and mission, and under the lonely leadership of Xiuyu, dozens of super domain master-level powerhouses and hundreds of domain master-level powerhouses entered the Nether Cry Sea at the same time and began to besiege the sea monster!

This is an unequal slaughter. In just a few days, the shallow sea area of the Nether Cry Sea, the sea water is like blood, and those sea monsters and sea monsters that have entered the shallow sea are beheaded one by one!

Only a few sea monsters and sea monsters escaped and entered the bottomless deep sea area of the Nether Cry Sea!

Things seemed to have passed like this, but it didn't take long for a big demon to appear in the Nether Cry Sea!

The big demon, but the powerhouse of the super domain master realm!

Among the siren, as soon as a powerhouse of this level appeared, Xiuyu was lonely and immediately felt that the situation was not good.

Xiuyu lonely venture into the deep sea of the Nether Cry Sea!

This deep-sea area is bottomless!

More importantly, the environment of this deep-sea area can be different from the ground. Even if the fish repairing loneliness is already at the pinnacle of the superdomain master realm, the strength here will also be greatly restricted.

What made Xiuyu's loneliness feel terrifying was that when he swam to a certain area out of the deep sea, he saw numerous sea monsters in that sea valley!

There are little monsters, and there are big monsters!

Xiuyu lonely feels that he is going crazy!

Their Super God Cultivation Family has been controlling the sea monsters in the Nether Cry Sea, but under his eyelids, the number of these sea monsters has reached the number that caused him to lose his hair.

The loneliness of Xiuyu was discovered by those sea monsters. In the deep sea, a siege of loneliness of Xiuyu was staged by many sea monsters!

With greater strength, Xiuyu Lonely was beheading a big monster and several little monsters, and then escaped from the deep sea at the cost of being injured and needing more than ten years of retreat.

Xiuyu was lonely and clearly until, sooner or later the siren in the sea of crying underworld would invade humans!

Xiuyu felt scared when he was lonely. He immediately thought of other super **** families and Chu Jiangnan, and wanted to unite other super **** families and Chu Jiangnan to fight against the sea monster invasion!

It's just that it was not the time when he broke through!

By betting against Chu Jiangnan, Xiuyu lonely and Chu Jiangnan each got what they needed, but because of this, when Xiuyu lonely intervened in the affairs of the Donggong Supershen Family, Sanlu Supershen Family, and Nether Academy, they did not get these two great The support of the super **** family!

If the White Horse Super God Family is also on the sidelines, with the strength of the Xiuyu Super God Family and the strength of Chu Jiangnan, facing the current invasion of the Sea-Monster Clan, it seems a bit difficult to stop it!

Chapter 4704: : Race battle, kill!

Some things, whether you like it or not, will come.

For example, the Kraken invasion!

Fortunately, the Super God Family of Xiuyu has long been prepared!

All residents in the area controlled by the Super God Family of Xiuyu, which is close to the Nether Cry Sea, migrate back one hundred kilometers at the same time!

Although these residents have some cultivation bases, the vast majority of them are in the realm of cultivators. If they don't want to be cannon fodder or die, they can only retreat.

This one hundred kilometers of land is the main battlefield for this sniping of the Kraken!

On the east coast of the Nether Cry Sea, on a towering cliff!

His thoughts were gradually drawn back to him.

The huge waves hit the sky, dozens of meters high waves slapped heavily on the rocks, as if trying to break the rocks on the coast!

The waves floated up, and sporadic mists of water floated to the face of Xiuyu lonely standing on the edge of the cliff. Xiuyu lonely could smell a faint smell of sea, but there was also a murderous in the smell of sea!

In the distance, the huge sea monster is getting closer and closer to the coastline, but none of the strongmen of the Super God Cultivator family jumped out and took the initiative to welcome the sea monster!

"Let the Kraken on land!"

This is the strategy of Xiuyu loneliness and Chu Jiangnan!

In the sea, the sea monster is like a fish in water, and its strength will be greatly improved.

However, the land is the battlefield for humans. The cultivation base of the strong humans is more suitable for fighting on land. Although their cultivation base will not increase on land, the strength of the Sea-Monster tribe will be reduced to a certain extent!

This is the most reasonable way of fighting to bring the siren to the land!

Only in this way can the Super God Cultivator Family be able to take advantage of the land in the battle against the sea monster!

Getting closer, getting closer!

The huge, hill-like bodies of the sea monsters have completely exposed the sea surface. Although these sea monsters have not completely separated from the sea surface, their limbs have touched the seabed!

boom!

boom!

boom!

A large number of sea monsters, stepping on the rocks on the sea floor, it seems that the entire coast is shaking slightly!

In the forefront, although the Sea-Monster Clan is large enough, their cultivation base is the weakest, the little monster among the many Sea-Monster Clan!

The little sea monsters did not encounter the slightest resistance, and easily boarded the coast!

In the normal state of the Sea-Monster tribe, if they land on land, they will die because they can't breathe. Therefore, these Sea-Monsters just landed, they all transformed!

As mentioned earlier, the transformation of the little monsters into human forms is not complete. For a while, the entire beach is full of strange creatures!

Even if these monsters are deformed, they still maintain their original size. Even the smallest demon is more than ten meters tall.

Scales, fins, sharp teeth, sticky mucus flowing on the body, none of the hairs resemble humans. These guys already have a somewhat human form, but they are also somewhat human.

It's like apes and apes, you don't treat them as human beings.

The little demons have landed on the land and moved forward slowly!

There is no resistance!

Behind the little sea monster is the big demon whose size has suddenly increased tenfold, that is, the big demon whose cultivation level has reached the realm of the super domain master!

The number of these great monsters is also quite large, and it is conservatively estimated that they are in the hundreds!

As the little demons began to transform, the big demons also changed at the same time!

Unlike the little monsters, the big monsters are huge, but the cultivation base of the big monsters is far stronger than that of the little monsters. After these big monsters have changed, more than 90% of their appearance is the same as humans.

To say that these big monsters are different from humans, then they are bigger, as huge as the giants of the underworld, and they still retain certain characteristics of the big monsters.

For example, a certain great demon's cheeks are covered with fish scales, or a certain great demon's arms retain the sea monster's fins!

At this time, these big monsters have changed their human form, but they have not yet landed. Moreover, these big monsters are not like the little monsters. They generally have their bodies under the sea, and they usually fall on the surface of the sea. On the sea.

From a distance, these big monsters are like peerless powerhouses walking on the sea.

Even waves with a height of more than ten meters can barely be buried in their calves, and they will not have any effect on them. They can walk on the waves, but these great monsters are even more majestic!

The only thing that makes these big monsters inconsistent with their temperament is... whether these big monsters are male or female, all ***** naked.

Replenish your brain, that picture: a female siren who is several tens of meters in height has transformed into a giantess, and they are naked, and the waves on their chests are called turbulent!

That picture...tsk!

Behind the big demon is the sea monster with the largest body!

At this time, this huge sea monster was at least dozens of nautical miles away from the coast, but this sea monster was like a small island, and the huge waves on the sea were caused by this sea monster!

However, this Sea-Monster Clan is not the Demon King yet!

He is just the mount of the Sea-Monster Demon Emperor, a Sea-Monster whose cultivation base is infinitely close to the semi-god realm, and is as powerful as the pinnacle of the super domain master realm with Xiuyu Lonely!

There is only one Demon King in the entire Netherworld Cry Sea, and that is a girl who seems to be only fifteen or six years old who is standing on this sea monster at this time! Of course, this girl is not a human being. A few green seaweeds cover the vital parts of her body, and two starfish stick to her chest, just like her clothes!

The girl's face turned pale, as if she was recovering from a long illness, and her hair was blue like the sea. At this time, the girl smiled slightly.

"I'm tired of the gloomy trench, now our Sea-Monster Clan is finally back!"

The girl stomped her feet slightly, and the giant sea beast under her feet immediately made a hiss!

Ouch!

This hissing sound was like blowing a horn for battle. Many little monsters rushed to the cliff on the coast like crazy, toward the Chu Jiangnan on the cliff, the loneliness of Xiuyu, and the members of the Super God Family of Xiuyu!

Behind the little demon, the big demon also accelerated their speed!

One step is hundreds of kilometers, these big monsters are huge, but their speed is not slow at all, just in a flash, they have already tasted the beach!

And the mount at the feet of the Demon Emperor also increased the speed of swimming!

The war is about to start!

Xiuyu's lonely face was gloomy, his palms intersected ten, and he stretched out. With this simple warm-up action, the spiritual power on his body suddenly spread out!

A powerful murderous aura instantly fell down from the cliff. The little monsters who had just rushed to the cliff stopped suddenly as if they were being hindered by invisible power.

"Hands! Kill!" Xiuyu said with a lonely right hand forward!

Chapter 4705: :kill! kill! kill!

Following Xiuyu's lonely order, Xiuyu talked about more than 30 super-domain master realm powerhouses and hundreds of domain master-level powerhouses behind him, their figures constantly flashed past Xiuyu's loneliness and jumped. Go down the cliff and rush towards the sea monsters!

More than 30 super domain masters and hundreds of domain masters, this is the foundation of the super **** fish family, and this is also the entire family of the super **** fish family!

Hundreds of thousands of years, even millions of years of family inheritance, make the strength of the Super God Xiuyu family and the Nether Academy equivalent, and even the overall strength of the Super God Xiuyu family is still hidden above the other three Super God families!

It's just that the Super God Family has always kept a low profile after the Battle of Wanshen Mountain.

There are not many strong people who know the existence of the Super God family, while the number of strong people who know the foundation of the Super God family is even less.

Even if they are the same super-god family, the four super-god families are not directly aware of themselves and enemies!

For example, the Super God Family of Xiuyu and the Super God Family of White Horse. These two families are in the Underworld, but the area where these two Super God families are located is separated by dozens of Venerable Kingdoms. The location of the Great Super God Family is hundreds of thousands of kilometers apart.

Coupled with the fact that these two super-god families have little contact with each other, the two super-god families do not fully understand each other's true strength. Only based on the limited information collected by the intelligence personnel sent by each super **** family, we can analyze the approximate number of super powers in the other super **** family.

As for the two super-god families of Donggong and Sanlu, they are located in the secluded continent, and the two super-god families of Baima and Xiuyu are separated by an endless ocean, and they have very little understanding of each other.

And because the super-god families are low-key and almost never born, in the eyes of ordinary venerables, only the eighteen emperors and twenty domain masters in the nether world are the most apex of the nether world.

Of course, if the super **** families never enter the world, these emperors and domain masters are really the strongest existence.

Today, this battle is bound to expose the overall strength of the Super God Cultivation Family.

And as the battle continues, there will inevitably be the fall of the domain master-level powerhouse, and even the super-domain master-level powerhouse may fall! There are only so many domain masters and super domain master-level powerhouses, and the fall of any one person will weaken the power of the super **** family.

These powerhouses are non-renewable resources, one person is killed and one person is lost!

However, fish repairing is lonely and has no choice!

Behind them is the territory of the Super God Cultivation Family, the people who have been living in the Super God Cultivation Family for tens of thousands of years!

The Super God Family of Xiuyu cannot withdraw, nor dare to withdraw!

Can only fight to death!

...

The sea is beating against the coast!

boom!

boom!

boom!

These domain masters and super domain masters just came into contact with the siren and immediately showed their advantages and strength!

The powerful energy fluctuations caused the sea and water of the Netherworld to retreat, and the gravel on the cliff on the coast continued to fall down, and the cliff seemed to collapse at any time!

If it weren't for the loneliness of fish repairing to be suppressed here, this cliff must have already been broken into tofu dregs and turned into a smooth road, let the sea monsters charge!

It is precisely because of the cliffs blocking them, and the loneliness of fish repairing on the cliffs, blocking these sea monsters!

And many of the domain masters and super domain masters of the fish-cultivation family also understand what their fate will be if they lose, because these domain masters and super domain masters are holding back their strength and are bound to kill the sea monsters. Under this cliff!

boom!

Xiuyu Mocheng, the first elder of the Super God Family of Xiuyu, took the lead and rushed to the forefront. The first person who had just come into contact with the Sea-Monster tribe, the fist of spiritual power fired by Xiuyu Mocheng pierced one. The big demon with a body height of tens of meters!

This big demon with the strength of the super domain master came to the top, surpassing the other little demon and big demon. It wanted to grab the head power and behead several human domain masters to improve the morale of the sea-monster, but it was unfortunate. Yes, what he encountered turned out to be the First Elder Xiu Yumo City!

Moreover, the strength of this fish repair town in the fish repair family is second only to that of fish repair loneliness, and it has also reached the pinnacle of the super domain master state. This fish repair town's trick is like running to thunder, waiting until this sea monster reacts. When he came over, his huge body had been penetrated by the flames of Xiuyu Mocheng's abdomen!

The painful sensation had not completely spread, and immediately after that, the flame exploded in the belly of this great demon!

boom!

This great demon just rushed to the cliff on the coast, before beheading a domain master, before even having time to take a good look at the land where humans live, it exploded into a mass of flesh and blood!

The blood mist was blown to the cliff by the sea breeze, and the cliff suddenly became red!

"Good fight!" On the cliff, Xiuyu lonely couldn't help but wave his fist and praised!

Ouch! Ouch! Ouch!

This big demon was bombarded and killed, and the little demon who had just washed ashore suddenly felt a tingling scalp...Although they did not have a scalp, the feeling of tingling was the same!

And the other domain masters and super domain masters of the Super God Xiuyu family have been infected by Xiuyu Mocheng's punch and kill the super domain master sea monster. They felt the flames in their bodies burning and screamed excitedly!

"Kill these sea-monsters and let them know that this land is our human territory!"

"The first elder is mighty and domineering, and instantly kills a big demon instantly!"

"Haha, our Super God Fish Cultivation Family has guarded the Nether Cry Sea for generations. Let these Sea-Monster monsters know how powerful our Super God Fish Cultivation Family is!"

These domain masters of the Super God Cultivation Family are not slow in their hands, and their moving figures are faster. In front of these behemoth sea monsters, these domain masters and super domain masters have fully utilized their advantages!

Whoosh!

Whoosh!

The domain masters and super domain masters of the Super God Cultivation Family have escaped the slashes of these sea monsters condensed into simple weapons with their spiritual power!

boom!

This weapon looked crude and crude, as if even if it was slashed on the rock, these spiritual weapons would be shattered and shattered without any effort.

However, these crude weapons were evaded by the members of the Super God Cultivator family. When they were slashed on the rock, the slab of rock was instantly chopped out with traces more than one meter wide and ten meters long!

There is a domain master from the Super God Family of Fish Cultivation, who reacted a little bit slower and didn't completely avoid it, puff! A piece of flesh and blood will be taken away from him by these simple weapons!

The simple weapon is not very sharp, but its lethality is even more powerful. The sharp bone spurs instantly penetrated, and the domain master's waist and abdomen have a few more blood holes, and blood flows continuously down the blood holes.

"Hey, ***** human beings, now you know that Grandpa Siren is amazing! I'm feeding the Siren with a poisonous weapon. Your reaction will become slower and slower. Let me chop you into meat sauce. Fish and shrimp in the sea!" The huge sea monster laughed wildly, and the spiritual weapon like a fish bone slashed over again!

The domain master suddenly felt that his reaction was a lot slower. Facing this little demon's fishbone weapon, he seemed to be unable to avoid it at all!

"Damn, I'm going to die here!" The domain master subconsciously closed his eyes and waited for death!

boom!

A group of fishy flesh and blood splashed on his face, but it was the first elder Xiuyu Mocheng who arrived in time and blasted the sea clan monster in front of him with his hands up!

"Close your eyes and wait for death, don't you? You won't give me a good fight? I can help you this time, but you won't have such good luck next time! Even if it's death, it's a ***** blow to me Kill a few siren and die!" Xiuyu Mocheng kicked the domain master who was forcing his eyes away and roared!

Correct!

Kill one is enough, kill two to earn one!

Even if it's dead, I have to pull a few extra backs!

Chapter 4706: :war! war! war!

Click!

The domain master had just become conscious, but he had not had time to display his ambitions. A powerful coercion fell from the sky and fell on him, causing him to instantly lose control of his body, followed by a blood bowl with a big mouth. The ground bitten his body, the sharp teeth chewed a few times, and the domain master's body was torn into pieces!

The domain master hadn't come to scream quickly, before he had time to resist, he was swallowed by this great demon with the super domain master realm!

In less than a minute, the first domain master of the Super God Cultivation Family has fallen!

...

This is just the beginning!

The strongest in the realm of the realm against the little monster of the sea clan, and the strong of the super realm against the big sea monster, this is the most ideal battle state! In this case, in

addition to the difference in numbers, the Super God Family of Fish Cultivation on land can be said to have an overall advantage!

It's a pity that there are always strong people who don't follow the rules, such as the first elder, such as the big monster in the sea clan!

The powerhouse of the super domain master realm deals with the ordinary little demon, that is a spike!

The big monster of the sea clan against the strong in the realm of the domain master is also a spike without suspense!

The battle has just begun, it has already entered a fever!

The domain master-level powerhouse of the Super God Family of Xiuyu, the little monsters in the Sea-Monster clan are constantly being bombarded and killed!

On the beach, the salty taste of sea water, the smell of blood, and the smell of feces blend together. Blood, corpses, rotten meat, and internal organs are everywhere, and screams, screams, and explosions come and go.

At this moment, hundreds of domain masters and super domain masters are fighting together, and the whole picture looks as ***** as it is. Any domain master will have a strong force in this kind of formation. Powerlessness.

boom!

Another domain master-level powerhouse was blasted into pieces!

boom!

Another Sea-Monster clan demon fell to the ground!

On the cliff, Xiuyu's lonely face gradually became gloomy!

In only a few minutes, three domain masters of the Super God Cultivation Family have fallen, and seven domain masters have been severely injured, temporarily losing their fighting ability and retreating to the cliff.

The price paid by the Sea-Monster tribe was even greater. One big monster was bombed and killed, and five little monsters were bombed and killed. The number of injured little monsters who retreated into the sea nearly exceeded thirteen!

But judging from the amount of losses on both sides, the Super God Cultivator family has already taken advantage, but what about taking advantage? A lively domain master-level powerhouse fell in front of him and turned into a pool of flesh and blood. This is the loss of the Super God Cultivator Family!

"The Fish Cultivator is worthy of being a super ***** family. This background is not comparable to that of an ordinary family, but... don't you plan to do it? Are you really just watching your person fall like this?" Chujiang South Station Beside Xiuyu's solitude, his gaze slowly swept across the battle scene on the distant beach, and he said calmly.

The corners of Xiuyu's lonely eyes moved slightly, and his clenched fists slowly unfolded, and said, "The Xiuyu family is huge, and the number of direct and collateral families together exceeds one

million people! And this million Among the population, there are only a hundred or so people who want to be officially entered into the Super God Cultivation Family every five years."

"In order to enter the Super God Cultivation Family, every year, hundreds of fish family erlangs will be buried in the sea of crying in the Netherworld when they are trying. But none of the erlangs of the fish family will complain. Everyone is working hard in silence, in order to be able to cross the threshold of the Super God Cultivating Fish Family!"

"Even those who survived, if their cultivation level, talent, and aptitude are not good, they may not be able to officially enter the clan of the Super God Xiuyu family, but they have no regrets, because they are the children of the Xiuyu family. !"

"The sons and daughters of the fish repair family have not yet stepped into the threshold of the super **** fish family clan. They have such a mortal consciousness. It is precisely because of this awareness that our super **** fish repair family can stand in the underworld! "

Although Xiuyu's lonely words are beautiful, the corners of his eyes can't help beating a few times faster, but his heart still feels aching! !

Those who have fallen are all strong members of the Super God Cultivation Family! A domain master-level powerhouse, even with the backing of the fish-cultivating super **** family, it will take thousands or even tens of thousands of years to cultivate a powerhouse!

"Would you like me to take action? Give me a moment, I can slay all these shrimp soldiers and crabs and chop them into sauce for you to eat!" Chu Jiangnan said domineeringly.

Xiuyu was lonely but slowly shook his head, stretched out his fingers to the approaching giant sea monster and the **** the sea monster, and said: "I asked you to come here is not to deal with these shrimp soldiers and crabs, your target is her. As long as you can block her!"

Chu Jiangnan narrowed his eyes slightly and looked at the young **** the giant sea monster.

At this time, the girl seemed to feel Chu Jiangnan's sharp gaze, and suddenly raised her head to look at Chu Jiangnan.

The corners of the girl's mouth turned up slightly, revealing a wicked smile!

This smile was full of disdain for Chu Jiangnan, and then the girl slowly stretched out her right hand, and moved her index finger to Chu Jiangnan a few times, as if she was saying to Chu Jiangnan: Let go!

Chu Jiangnan also laughed!

Ever since Chu Jiangnan came out of the underground library of Netherworld Academy, apart from the woman pointed by Wanshenshan, no one has ever dared to provoke him so much!

"Another woman!"

"Hahaha, interesting!"

"The mysterious woman on the top of the Ten Thousand Gods Mountain, the Sea-Monster girl in the Nether Cry Sea, and me, there are already three demigods in the Nether Realm now! Tsk tsk, the Nether Realm now vaguely had more than one hundred thousand years ago. The shadow of! But I don't know how many super domain masters and demigods are still hidden in this nether world!" Chu Jiangnan thought in his heart.

Facing the provocation of the Sea-Monster girl, Chu Jiangnan showed a disdainful expression and waved his hand slightly, as if he wanted to tell this arrogant girl through this action: You are still too tender!

The sea-monster ***** the giant sea-monster smiled more brilliantly!

"Since you dare not go into the sea, then let me come to the land!"

The girl's right foot gently stepped on the giant sea monster under her feet with a sense of rhythm. Suddenly, the girl's outstretched right hand suddenly flipped, and his palm had almost turned into a claw suit, grabbing to the south of Chu Jiang!

This action seemed simple, but Chu Jiangnan felt a little bit bad!

Around Chu Jiangnan's body, spiritual power suddenly fluctuated, and a transparent arm suddenly stretched out in the air. With a Ling Li's offensive, this arm grasped Chu Jiangnan!

The corner of Chu Jiangnan's mouth was slightly tilted, and his body flickered to the side, his palm chopped to this transparent arm like a wave of water!

Huh!

The arm broke in response, fell on the rock and turned into a pool of sea water, and the spiritual fluctuations in the air disappeared!

However, the lonely fish-cultivator had been caught by this mysterious girl in the air at some point, and had fallen on the giant sea monster at this time!

"not good!"

Chu Jiangnan cried out, huh! A teleport instantly appeared on the giant Kraken!

Chapter 4707: : The Great Demonization Dragon

At the moment Chu Jiangnan appeared on the giant sea monster, the body of the giant sea monster suddenly sank a few meters, and the sea was still rough, and the sea was calm for an instant!

In the blue sea and blue sky, the giant siren swayed like a big ship floating on the sea!

On the giant sea monster, the three powerhouses of the personable lonely fish-fishing, the majestic Chu Jiangnan, and the enchanting sea monster girl are standing opposite each other in the shape of a character, and the whole picture also looks a bit artistic!

Xiuyu's loneliness secretly exhaled a foul breath!

Just now, on the cliff, although Xiuyujichao was cautious, he never thought that even so, he would still be caught by this coquettish girl somehow!

Even if it is as strong as fish repairing and lonely, at that moment my heart sank to the bottom of the sea!

He seems to have seen the scene of him being easily beheaded by that girl. He seems to have seen the domain masters and members of the super domain masters in the battlefield of the super ***** family being beheaded one by one. He seems to have seen super ***** super gods. This is the picture of the declining clansmen being oppressed!

Fortunately, the siren girl just caught him on the surface of the sea. Fortunately, the siren girl didn't seem to be interested in shooting him. Fortunately, Chu Jiangnan reacted fast enough and came to the giant siren in an instant!

Demigod, this is demigod!

"I think my lonely fish cultivation base has reached the peak of the super domain master realm, the Great Perfection realm, and it is only a line away from the demigod. I always think that although there is a gap between myself and the demigod, it should be the same. But today, this one The girl of the Sea-Monster tribe, with just one simple move, brought my loneliness of fish-cultivation back to its original form. Facing the demigod, my loneliness of fish-cultivation was unable to resist at all!"

"This is the difference between the peak of the demigod and the superdomain master. Only then did I understand how strong the demigod realm is and how terrifying it is!"

"No, I'm the patriarch of the Super God Cultivating Fish Family! Our Super God Cultivating Fish family has three demigods, a super family of quasi-gods. In the Nether Realm, our Super God Fish Cultivating family has always been aloof exist!"

"I'm not reconciled, I want to become a semi-god strong, I want to be a quasi-god strong, I want to become stronger than now!" Xiu Yu gritted his teeth lonely, thinking to himself!

Solitude of Xiuyu is the current patriarch of the Super God Family of Xiuyu, but in the Nether Realm where the strong respects the strong, on this vast sea, on this giant sea monster, his cultivation is the weakest, that sea monster. None of the Yaozu girls looked straight at Xiuyu's loneliness!

Only Chu Jiangnan was in her eyes!

Chu Jiangnan was also looking at the sea-monster girl. This was the first time Chu Jiangnan saw the sea-mon from close range!

The sea-monster girl in the half-god realm looked almost indistinguishable from the humans in the nether realm. If there is any difference, it is that the color of the eyes of this Sea-Monster girl is light blue, which is different from humans of any race in the Nether Realm, and her eyes can be filled with evil intentionally or unconsciously. Feeling of sex!

"Half-god, are you a member of the Super God Cultivating Fish Family?" the sea-monster clan girl suddenly asked.

Chu Jiangnan shook his head slightly and said, "No!"

"Hey, since it's not, then I advise you not to wade into this muddy water!" said the sea-monster girl.

Xiuyu's loneliness suddenly became a little nervous. If Chu Jiangnan listened to the Sea-Monster Clan girl and really left, then Xiuyu Super God Family would be defeated!

Chu Jiangnan shook his head again and said, "I'm sorry! Although I am still not very clear about the Sea-Monster Clan and the Super God Cultivation Clan... No, it is precisely what caused the contradiction between the Sea-Monster Clan and the Netherworld humans. , But since I am a member of the Netherworld, and since I have promised to fish loneliness, then I will not quit or give up halfway!"

"Hahaha!"

The sea-monster clan girl suddenly laughed. She laughed very happily, even tears were about to flow out of her laughter.

Suddenly the Sea-Monster girl suddenly stopped laughing, her face was full of grief and anger, and a cold light flashed in her eyes, and she said coldly: "As a winner, you humans in the Underworld have reason to forget, and reason to forget the Sea-Monster Pain! But for us Sea-Monster Clan, we live in shame forever, live in pain forever!"

"Over the years, our sea-monsters of the Sea-Monster clan have continued to bear the slaughter of your humans, especially the Super God Cultivation Family... Hey, you know that in the land of the Underworld, there are also our Sea-monsters. The survival area, our Sea-Monster Clan..."

The sea-monster girl suddenly stopped talking.

Things are not human beings. The strong men in the Netherworld are no longer the strong men in the past, and the strong men in the Sea-Monster Clan are also no longer the previous Sea-Monster Clan.

With Xiuyu lonely, and Chu Jiangnan, saying this has no effect or effect!

Only fighting, only fighting, blood for blood, tooth for tooth, this is the right way!

In the distance, the battle on the beach continues!

Domain masters, little monsters, super domain masters, and big monsters are constantly falling to the ground!

The death of every domain master of the Super God Cultivation Family will take at least one little demon, and even the lives of two little demons, and the fall of that super domain master realm powerhouse is the same!

It can be said that the current battle of the Sea-Monster Clan is tragic and tragic!

But the sea-monster clan girl's face did not show a trace of intolerance!

The mission dictates that if the Sea-Monster tribe cannot return to the land, even if the Sea-Monster tribe is surviving, being hunted by the powerhouses of the Super God Family for generations, and by the human race of the Netherworld for generations, then even if the Sea-mon What's so interesting!

Ouch!

The giant sea monster at the feet of the sea-monster clan girl felt the war intent in the girl's heart, felt the war intent in the girl's heart, and suddenly raised her head and roared.

In an instant, the calm sea rose again!

The waves kept beating against the body of the giant siren, and the giant siren kept twisting its body, and a lot of strong spiritual power was released from the body of the giant siren. It seemed that the giant siren wanted to repair The fish was lonely, and all Chu Jiangnan was thrown into the sea!

The anger on the face of the girl of the Sea-Monster tribe disappeared, replaced by a smile.

"Demi-god, your opponent is me! This fish-cultivating clan is lonely, so leave it to my big dragon!"

The big dragon that the girls of the Sea-Monster tribe said is the giant Sea-Monster at their feet at this time, but this Sea-Monster looks more like a turtle of thousands of years, how could it be a dragon?

The sea monster girl's figure flashed, her figure had appeared on the surface of the sea dozens of miles away, she once again moved her finger towards Chu Jiangnan!

"Hahaha, let me today, Chu Jiangnan, feel the power of the Sea-Monster demigod!" Chu Jiangnan laughed wildly, his foot slammed down, and instantly stepped the giant Sea-Monster under his feet into the sea water. A flash of lightning appeared in the body, and instantly approached the sea-monster clan girl.

At the moment when Xiuyu lonely jumped away from the south of Chu Jiang, he flew into the air suddenly!

The giant siren sunk into the sea, suddenly, a ball of golden light gleamed all over his body, and then this ball of golden light rose into the air!

The Great Demonizing Dragon!

A golden dragon appeared between the sea and the sky, flying towards Xiuyu solitude with its teeth and claws!

Chapter 4708: : Carp vs. Golden Dragon (1)

Dragon, with rabbit eyes, antlers, bull beak, camel head, mirage, tiger paw, eagle claws, fish scales, snake body, nine animals are combined into one!

This golden dragon is about seven or eight feet long, the bucket is thick, and the whole body is golden yellow, making it even more noble!

Of course, the Golden Dragon incarnation of the Sea-Monster Great Demon is not just a matter of nobility, but more importantly, his strength is quite impressive.

The Golden Dragon, who has reached the pinnacle of the Transcendent Master Realm, is in mid-air, and the spiritual power condensed on his claws is like a crimson flame, and his mouth is also a flame!

The flames are raging, the temperature of the flames that this Sea-Monster Golden Dragon squirts is thousands of degrees, even steel will instantly turn into molten iron under the flames, not to mention ordinary physical mortals.

The raging flames illuminate the golden dragon, and the scales of the whole body look radiant in the flames and sunlight.

Huhu!

From the mouth of this golden dragon, a group of flames sprayed across the blue sky at a popular speed, and blasted towards Xiuyu Lonely.

The flames have not yet sprayed in front of Xiu Yu Ji Liao, at least tens of meters away from him, but Xiu Yu Ji Liao felt hot and hot, and even the hair on Xiu Yu Ji Liao's arm became curled instantly, and his skin was extremely short. The time turned pale red!

This is a burn!

Xiuyu Lonely felt that the air in front of him was spinning in an extremely strange way, the air began to twist, and the white clouds above his head turned dark red at this moment!

This is the strength of the super domain master-level great monster!

Xiuyu was lonely and did not dare to neglect at all, with his hands folded into his palms, he slammed into the flame!

Spiritual power includes the five elements of gold, wood, water, fire, and earth. In addition, there are special wind, electricity, and thunder.

Invisible and colorless!

boom!

boom!

On the lonely palms of Xiuyu, two spirit energy groups flew out at the same time!

The invisible and colorless spirit energy air ball hit the scarlet flame, making a crackling sound, and the scarlet flame exploded suddenly by the wind.

But the same is true, the flame is slightly stagnant.

Less than two seconds later, the flame spiritual power swallowed the spiritual power released by Xiuyu Solitude, and continued to blast towards Xiuyu Solitude.

It was only a few seconds of stagnation, but Xiuyu was lonely and enough time to escape.

Whoosh!

Whoosh!

The lonely figure of Xiuyu flew horizontally forward, flying out hundreds of meters in an instant.

And that scarlet flame passed by Xiu Yu's loneliness and hit the sea!

boom!

The flames ejected by the golden dragon did not hurt the loneliness of the fish repairing fish. It hit the surface of the sea, and the azure blue sea instantly turned up a ten-meter-high white wave, as if the sea nearby was boiling.

In a moment, the white waves turned lower and lower, and a layer of dead fish floated on the sea instantly!

"It's really strong, if this flame burns on my body, I'm afraid I will be wiped out instantly!" Xiu Yu thought with fear in his lonely heart.

The inches are long and the feet are short, Xiuyu's lonely strength can easily squeeze Donggongbuchan, even the invisible and colorless sword in his hand can easily unfold Donggongbuchan's fist, but facing With this golden dragon's flame attack, Xiuyu's loneliness was still a bit afraid.

This is why Xiuyu Lonely dare not confront the Golden Dragon flame jet attack.

call! call!

The golden dragon missed a hit and was not discouraged at all, his body rotated in mid-air, and once again sprayed a few **** of flames at Xiu Yu's solitude.

Xiuyu is lonely and dare not resist head-on, but Xiuyu is lonely, but he will not wait to die, swish! Whoosh! He dodged right and left in the air, avoiding the flames ejected by the golden dragon!

Avoiding Jinlong's several attacks, Xiuyu's lonely face gradually showed a smile.

Although this golden dragon's attack is fierce, his attack method is too single, as long as he avoids the golden dragon's flame attack, Xiuyu's loneliness is already invincible!

Whoosh!

Whoosh!

Xiuyu was lonely and unhurried. While avoiding the flames and jets of the Golden Dragon, his figure continued to dodge in the air, but he had already approached the Golden Dragon unknowingly.

"It's now! Lingfeng Slash!"

The transparent spiritual power released from the lonely right hand of Xiuyu suddenly soared, and instantly turned into a giant sword that was more than a foot wide and nearly a foot long. Xiuyu lonely held the knife in both hands and slammed to the golden dragon!

Since ancient times, there has been a saying that the snake hits the seven inches. It probably means that from the head down, the seven inches position is the heart of the snake. If the attack is on the heart of the snake, the snake can be killed with one blow.

However, this argument may not be entirely feasible because of the different lengths and types of snakes. Just like a giant python, if you attack from a seven-inch position, not only will you not be able to kill the giant python, but it will also anger the giant python, which will cause you to kill.

Of course, Xiuyu Lonely is a super domain master-level powerhouse, he can easily judge the location of the heart of the golden dragon through the breathing of the golden dragon, and his slash is also directed at the heart of the golden dragon!

At the moment when the Golden Dragon was unconscious, the spiritual power sword in the hands of Xiuyu's lonely hand was approaching the Golden Dragon!

"Hey! Go to hell! Stinky bug!" Xiuyu roared with a slight smile at the corner of his lonely mouth!

Seeing that his Lingfengzhan broadsword was about to slash Jinlong's body, the Jinlong seemed to suddenly feel threatened. When he turned around, his tail suddenly swept towards Xiuyu Lonely, and one of his golden claws was instantly in front of Lingfengzhan!

Cang!

The Lingfeng Slash in the hands of Xiuyu Lonely attacked a golden claw on the golden dragon body, huh! The golden claw of this golden dragon was cut off in an instant!

Then Lingfeng cut with unstoppable power and slashed towards Jinlong again.

boom!

The huge slashing force could easily cut a mountain, but when the knife was cut down, it was still blocked by the golden dragon's claws and toes. The moment the golden dragon resisted, the body had already moved.

Therefore, even if Xiuyu's lonely spirit wind slashed on Golden Dragon's body, it was no longer in the 'seven inches' position.

Jinlong was cut and flew out.

Xiuyu was lonely only to see the collision between Lingfengzhan and the scales of the Golden Dragon, sparks flew everywhere, and one of the scales of the Golden Dragon was cut by the Lingfeng with a trace of nearly an inch.

"So powerful defense!" Xiuyu said in a lonely and surprised way.

Jinlong's body turned in mid-air, and he flew to Xiuyu solitude again!

At this moment, the whole body of the golden dragon was shrouded in red flames, like a golden fire dragon, and the golden dragon's mouth issued a strange laugh, and said with a mocking: "Hey hey, with this strength, I want Did you hurt me? That's naive!"

They are all powerhouses in the pinnacle realm of Transcendent Master, Xiuyu is lonely, but he doesn't think that his attack can kill the golden dragon!

"It seems that I am really helpless to you if I don't have some real abilities. Since you are a golden dragon, then I will use the unspoken secret art of our fish-cultivating super ***** family to deal with you. The dragon is stronger!" Xiuyu said with a sneer.

Chapter 4709: : Carp vs. Golden Dragon (2)

Since Xiuyu Lonely dared to say such a thing, then he has the confidence and strength to say it!

As soon as Xiuyu's lonely voice fell, his body shook fiercely, as if... stepping on an electric door, and Xiuyu's lonely face could not help showing an expression of pain.

However, while Xiuyu was lonely and painful, there was a smile on the corner of his mouth, which was a smile from the heart!

If Jinlong had the ability to see through at this time, then he would be able to see a fish in his body through his lonely clothes and his lonely skin!

This is a carp, a red carp all over!

If Li Tian were here and he saw the fish in Xiuyu's lonely body, then he would be surprised to find that the appearance of this fish was extremely similar to the small fish condensed from the "Blue Clouds" he cultivated.

It's just that the fish in the veins of Xiuyu's lonely body is all transparent.

Through the body of this fish, even you can see the blood vessels, bones, etc. inside the body!

Another difference is that the top of the head of this fish has two small bags, which looks like the fish has two antennae.

""Xiuyubian", come out!"

Xiuyu's lonely palms roared at the golden dragon, and a hole the size of a needle eye appeared in an acupuncture point on the palm of his right hand. Through this hole, you can see that the transparent fish is squeezing out frantically. !

Jinlong stopped attacking Xiuyu's lonely, and stared at Xiuyu's lonely right hand. In this right palm, Jinlong felt a vigorous force growing rapidly.

Gradually, a group of spiritual power appeared in the palm of Xiuyu's lonely right hand!

This group of spiritual power is still wind spiritual power, but Golden Dragon sees this group of spiritual power clearly, but there is something vaguely turning in that spiritual power.

The painful expression on Xiuyu's lonely face was even better, and even as the spiritual power in his palm gathered more and more, Xiuyu's lonely black hair turned into grayish white at an extremely fast speed! And Xiuyu's lonely body is also rapidly aging, his skin becomes loose, wrinkles on his face are superimposed, and even a lot of gray-brown spots appear!

In the distance, the sea-monster clan girls and Chu Jiangnan who were fighting stopped one after another, and at the same time looked up in the direction of Xiuyu's loneliness, their faces involuntarily showed surprise expressions!

"Does Xiuyu's loneliness break to a demigod?" The Sea-Monster Clan girl and Chu Jiangnan thought at the same time.

"No, if Xiuyu loneliness also breaks through to the semi-god state, then Golden Dragon is definitely not his opponent. I must kill Xiuyu loneliness, otherwise our Sea-Monster Clan may lose all our previous efforts in this action!" The tribe girl thought in her heart.

The sea-monster girl's attack became more and more fierce, and the sea water of the Nether Weeping Sea kept rolling up from the surface, turning into water dragons measuring tens of meters or even hundreds of meters, and at the same time rushed towards the south of the Chu River... Repairing fish is lonely!

Seeing the sea-monster clan girl in a hurry, Chu Jiangnan's face showed a smile.

Huh!

Chu Jiangnan waved his hand, and the water dragon rushing towards the loneliness of fish repair was instantly cut off by the spiritual power released by Chu Jiangnan. The water dragon was unable to succeed, and just rushed into the sky, and then fell from the sky!

Wow~

As if it was raining, countless fish, shrimp and crabs floated on the surface of the sea with the falling of the water dragon, turning their belly!

...

Jin Long, who was fighting with Xiu Yu Lonely, was also aware of the danger. His figure flashed, and a golden light flashed in the sky, and he immediately surrounded Xiu Yu Lonely, and his four claws simultaneously caught Xiu Yu Lonely.

The four claws of this golden dragon carried a crimson flame, no, not just flames, the four claws of this golden dragon alone could instantly grab the lonely body of Xiuyu into powder.

However, just as the golden dragon's claws were about to catch on Xiuyu's lonely body, a dragon chant suddenly came from the group of spiritual power in Xiuyu's lonely palm!

That's right, Long Yin!

Immediately after several blasts of wind cut out of the group of spiritual power, instantly slashed on the four claws of the golden dragon.

A carp with a length of seven or eight feet tall with transparent scales, a pair of dragon horns on top of its head, and four sharp claws underneath... the carp appeared in the air.

Wait, why is it a carp?

Why does this carp have antlers?

Why does this carp have eagle claws?

Could the dragon chant just come from the mouth of this carp?

The carp at this time was three different, and it looked particularly funny and ridiculous. Xiuyu looked at the carp lonely, and a disappointed expression flashed on his face.

"Don't I think I can't break through to the demigod even if I'm lonely in fish cultivation? I'm so unwilling, so unwilling!"

Xiuyu was lonely and hid his face and cried, while his body quickly fell weakly to the surface.

...

In the Super God Cultivation Clan, all the powerful who have reached the state of venerable cultivation are eligible to practice a set of exercises called "Xiu Yubian". After practicing "Xiu Yubian", their body veins There will be such a fish!

At first, this little fish was transparent. As the practitioners continued to use spiritual power to sacrifice, the color of this fish began to gradually change. Some fish in the body veins turned blood red, and some fish in the body veins. It turned golden yellow, and the fish in the veins of someone turned light blue.

This is not the point!

The point is that the fish cultivated in the strong body of the Super God Family of Fish Cultivation is and is possible to transform the dragon!

However, if the carp wants to transform the dragon, it needs the super domain master of the super **** family of fish repairing to inject all the spiritual power of the whole body into the carp, so that the carp can transform into the dragon to break through to the state of half **** !

If the carp transforms into a dragon and becomes a dragon that breaks through to the realm of a demigod, then this dragon will become the lonely new body of Xiuyu from now on!

If this carp can't transform a dragon, then... everything is nonsense, these three things are nothing but the pinnacle realm of the super domain master with powerful combat power.

The cultivation method of the Super God Family of Fish Cultivation is similar to the story of the Chinese carp jumping into the dragon gate in the earth world!

It is a pity that the story of Xiuyu loneliness today is a sad story!

Xiu Yu Ji Liao used half of his life to display the "Xiu Yubian". In the end, the fish still looked like a carp, except that the two bags on the top of the head became the tentacles of the dragon, and four eagle claws grew under the body.

Xiuyu fell lonely on the surface of the sea, his body floated with the sea, drifting with the current, and his eyes were full of loneliness!

Chu Jiangnan shook his head slowly.

The loneliness of fish repair failed!

"This...this is "Fish Cultivation"? Hahaha, the Fish Cultivation family is really talented. This funny ability is definitely the strongest in the entire Netherworld! Lost again!" In the distance, the Sea Monster Clan The girl looked at the carp in the sky and smiled as the flower branches trembled.

At this moment, the three-not-like carp in the sky suddenly broke out, showing a powerful combat power!

Chapter 4710: : Carp and Dragon

The appearance is not important, mainly depends on the strength!

Don't look at these three ugly like carp, but their strength is sturdy!

The carp in the pinnacle realm of the super domain master is the only one in the entire Nether Realm!

Facing the attack of golden dragon's claws and flames, these three are not like the carp, and they are even more sturdy than when Xiuyu lonely fought!

Wouldn't your Golden Dragon breathe fire?

can!

These three carps can spit out the wind, and the strong wind spit out from the mouth of the carps, blowing towards the flames, instantly containing the flames, and even the flames of the flames turned around and turned towards the golden dragon.

It's just that this golden dragon is a fire dragon, and his whole body is covered in this flame. Even if the flame that the golden dragon sprays is blown by the gust of carp, but the golden dragon is real gold and is not afraid of fire, and will not be affected!

It is not like a carp, controlling the strong wind, violently sweeping toward the Nether Cry Sea, convolving the sea water in the Nether Cry Sea, and hitting the golden dragon overwhelmingly! The Golden Dragon is a great monster of the Sea-Monster clan, and of course he is not afraid of the sea.

Isn't your golden dragon good claws?

can!

These three are not like the four eagle claws under the carp and are not vegetarian.

The golden dragon's claws were caught in mid-air, shining with golden light, giving people a dazzling feeling, but don't look at the carp's full body, but the carp's claws are like ghosts. Every time it happened to block the attack of the Golden Dragon.

The sharp claws faced the sharp claws, and there was a metal-like crash in the sky.

Of course, the Golden Dragon is long and sharp. It is reasonable to say that he should have the advantage, but one of his sharp claws has been injured by Xiuyu solitary cut. Now the Golden Dragon only has three sharp claws to use its full strength. The injured claws are at best. It can only be resisted and used as a defense.

In this way, even if the agility of the carp is slightly inferior to that of the Golden Dragon, it is still comparable!

Isn't your Golden Dragon super defensive?

can!

These three defenses are not bad like carp.

Three are not like the transparent scales of a carp, they look fragile, even if the golden dragon's claws are caught on the carp at will, it will tear the scales shot by the carp to pieces.

However, this is not the case.

Three are not like the scales of a carp, each of these pieces is cultivated in the lonely body veins of the fish, and compared with the dragon scale defense of this golden dragon, it is not bad!

...

On the beach in the distance, the huge rock cliff lost the guardianship of Xiuyu loneliness and Chu Jiangnan, and has collapsed, and the little monsters and big monsters of the Sea-Monster tribe rushed out to the landing place for thousands of meters.

On the ground, there were smashed corpses of the Sea-Monster tribe and the strongmen of the Super God Family.

As far as the losses of both parties are concerned, the loss of the Super God Family of Xiuyu is slightly smaller, but the Sea-Monster family has the advantage instead!

boom!

A domain master of the Super God Cultivation Family was jointly bombarded by two little monsters, and blood was sprayed out, and his body was instantly torn apart by the two little monsters, and the internal organs and blood were scattered on the ground.

Huh!

The two legs of a little demon were cut with a sword by a domain master of the Super God Cultivator family. The little demon fell to the ground, and his heart was immediately replaced by the spiritual power sword in the hands of the domain master. One sword.

This little demon foamed at his mouth, twitched a few times, and died!

At this point in the battle, the domain masters of the Super God Cultivation Family have fallen by less than half, reaching more than 30. Even the super domain master-level powerhouses have also fallen to three, and even the first elder is also in three. Under the siege of a super domain master-level big demon, he was slightly injured.

The loss of the Sea-Monster tribe is even more serious. Their little demons have already killed forty people, and the super-domain master-level big demons have also fallen by five. If the Sea-Monster tribe does not have an advantage in overall numbers. , Now the Sea-Monster Clan may be defeated!

...

On the surface of the sea, the two demigods of the Sea-Monster Clan girl and Chu Jiangnan gradually turned from their initial tentative attacks to all-out efforts!

Almost all the seawater of the Nether Cry Sea was turned over by the Sea-Monster girl, and the huge waves several hundred meters high were constantly shooting towards the south of Chu Jiang!

Facing the strong attack of the Sea-Monster girl, Chu Jiangnan opened his space ring, flipped it over, and unexpectedly moved out a mountain several hundred feet high from the space ring!

This mountain was smashed into the Nether Cry Sea, blocking his front, and it was also attacked by the Sea-Monster girl!

Demigod, move mountains and fill the sea!

That's it!

Relatively speaking, the battle between the Great Demon Golden Dragon and the Super Domain Lord Carp is somewhat pediatric!

...

Jinlong is the peak powerhouse of the Sea-Monster Clan. He did not gain any advantage in the face of Xiuyu's loneliness. Instead, he broke a toe. Now facing the carp displayed by Xiuyu's loneliness, he still has nothing to do. This makes Jinlong The big demon suddenly felt angry!

Jinlong's sight suddenly swept over the surging sea, and quickly caught the loneliness of fish repairing that was drifting along with the current!

"Hmph, even if I can't deal with this ugly monster for the time being, but I won't allow you to get away with it, let me first swallow you, the Patriarch of the Super God Cultivator Family, to blow your morale!"

The golden dragon's figure flashed, and a golden light flashed in the sky. The golden light rushed towards Xiuyu solitude like lightning.

Suddenly ten thousand alpacas rushed past in Xiuyu's lonely heart!

The current Xiuyu lonely body technique has gone from 10% to 90%. Although his current cultivation base is still in the super domain master realm, he has no strength to resist this golden dragon!

The golden dragon is fast, but the carp is faster.

I saw that the carp spit out a few gusts of spiritual power and applied it on the golden dragon. The golden dragon rushed towards the lonely direction of the fish, but it shifted unknowingly.

At this moment, the carp's figure flashed, and instantly appeared beside Xiu Yu's solitude.

Xiuyu's loneliness and moved are about to cry!

The carp stared at Xiuyu's loneliness, and suddenly opened his mouth, swallowing Xiuyu's loneliness with seawater. Through the carp's transparent skin, Jinlong saw the loneliness of Xiuyu being swallowed into his body and was instantly swallowed. The carp's teeth were torn into four or five pieces, and then it turned into a cloud of blood and began to run along the carp's body veins...

"This...this is too cruel!"

Jinlong is stupid.

He didn't think that this carp could be so cruel, it could swallow the loneliness of the fish that released him into his body!

However, at this moment, a powerful spiritual force descended from the sky and injected into the carp's body. Then the carp squirmed frantically and began to transform.

Carp into a dragon!

The carp displayed by Xiuyu lonely in "Xiuyubian" has finally reached the state of demigod at this moment and turned into a dragon!

Huh!

Huh!

Huh!

At this moment, dozens of human figures appeared on the beach!

As soon as these figures appeared, they immediately joined the battle!

The Sea-Monster Clan who had the advantage just now was defeated instantly!
