

A Killer 4721

Chapter 4721: : Guest invitation

The ideal is perfect, the reality is very skinny!

Although the talents are eclectic, but seeing the ugly appearance of these water ghost tribes, Li Tian's heart is unavoidable.

"Don't think about these things, let's talk about it when Xiaolong recovers!" Li Tian thought in his heart.

Shui Sheng had already arrived in front of Xiaolong, stretched out his hand to support Tang Xiaolong, let Tang Xiaolong sit on the ground cross-legged, and then he raised the hollow weapon in his hand over Tang Xiaolong's head and shook it a few times to the left and right.

Huh!

The spiritual water on the hollow weapon floated out of the weapon in an instant, forming a water jail again and trapping Tang Xiaolong in the water jail. In the water jail, the small fishes were swimming around Tang Xiaolong in groups.

In fact, these small fish release a special frequency of female parasites when they swim, but this frequency is only acceptable to male parasites.

This feeling is like... the ears of a dog can hear sounds that humans cannot hear.

Therefore, when these female small fish parasites are swimming around Tang Xiaolong, they are doing all they can and scratching their heads to seduce the male small fish parasites that have penetrated into Tang Xiaolong's body.

It's just that Li Tian doesn't understand the commotion of such low-end creatures, so he can only understand that these little fish parasites are swimming around Tang Xiaolong.

Suddenly, the vicissitudes of life pointed to Tang Xiaolong's body and shouted: "Look at it..."

Li Tian and the others involuntarily took a few steps forward and surrounded Tang Xiaolong.

Small holes appeared on Tang Xiaolong's skin. These small holes were only the size of a pinhole, as if they had been bitten by a mosquito.

Immediately afterwards, a sharp little needle-like thing protruded from this and small hole, shaking from side to side like an antenna.

This is the release of a certain part of the body of the male small fish parasites. Through this part, these small parasites can keenly feel whether there are female parasites outside.

Feeling the special frequency released by the female fish parasites, the male fish parasites in Tang Xiaolong's body began to drill out.

I saw that Tang Xiaolong's left and right arms were instantly bitten by the male fish parasites with a wound. These wounds were not big, and the largest was only the size of the little finger, but the dense wounds appeared on Tang Xiaolong, which was still extremely scary. of!

The only thing that made Li Tian satisfied was that even though there were so many wounds on Tang Xiaolong's body, there was no blood flowing from these wounds.

Whoosh!

Whoosh!

These male fish parasites continuously drilled out of Tang Xiaolong's body, entered the dungeon and swam around the female fish parasites, and then happily...coitus!

These little fish parasites were shamelessly surrounding Tang Xiaolong doing something shameless and shameless.

Gradually, Tang Xiaolong's limbs returned to ***** color, and his cheeks were no longer flushed.

The hearts of Li Tian and others hanging in their throats just landed.

"Little Dragon..."

The vicissitudes of life wanted to pounce on Tang Xiaolong, but was stopped by Li Tianzu.

"Don't go over now..." Li Tian said.

Shui Sheng glanced at Li Tian with some gratitude, let out a sigh, and whispered a few more words.

Although others don't understand, Li Tian understands that this is the Shuiguizu Shuisheng expressing gratitude to Li Tian.

It can be seen that Shui Sheng, who is greedy and fearful of death, was under tremendous psychological pressure during the rescue process. If he was a little careless and had an accident, his head would not be able to keep it!

The work of aquatic life is not over yet. Although the male fish parasites in Tang Xiaolong's body have all emerged, Tang Xiaolong is still in the water prison.

Aquatic must control and guide these small fish parasites into his hollow weapon again, and the reproduction ability of these small fish parasites is strong. If their offspring float into Tang Xiaolong's wound, the consequences will be disastrous.

Shui Sheng adjusted his breath and focused all his attention on the water prison, controlling the spiritual power of the water prison to slowly flow toward the hollow weapon in his hand.

This action probably lasted for nearly ten minutes, and all the water spiritual power on the dungeon and the small fish parasites in the dungeon were all drawn into the aquatic hollow weapon.

After getting Li Tian's consent, the vicissitudes of life rushed to Tang Xiaolong's side and looked at Tang Xiaolong with a caring look, showing various concerns for him.

Tang Xiaolong adjusted for a moment before he jumped from the ground.

The angry Tang Xiaolong tried to blast the water into slag, but he was very afraid of the hollow weapon of the water ghost clan, so he could only sulk on one side.

Seeing that Tang Xiaolong was safe and sound, Li Tian focused his attention on the aquatic hollow weapon again.

At this time, the copulation of the small fish parasites has also been completed. The male small fish parasites seem to have been sucked dry, their body size has become smaller for dozens of times, and they are floating weakly in the water.

But those female fish parasites are a lot fatter!

"Hey, there are ghosts under the peony flower. I didn't expect this parasite to be like this. Tsk tsk..." Li Tian sighed with a smirk.

However, at this moment, the female small fish parasites suddenly opened their mouths, biting at the male small fish parasites.

In just a few seconds, the male parasites were torn into pieces and entered the female parasite's abdomen.

"I....."

Li Tian was completely speechless.

To be honest, although these small fish parasites are small, Li Tian was frightened by this picture.

Your sister, you guys were playing together happily just now, but in a few minutes, you turned your face so quickly and didn't recognize people... well, they are not people, they are just parasites.

A picture of the human body appeared in Li Tian's mind. He couldn't help but shivered, turning his head to look at Situ Ningbing and Xue Ji.

Fortunately, Situ Ningbing and Xue Ji didn't show any expressions of teeth and claws.

"% ¥ # @ * &" Shui Sheng grumbled a bunch of words, explaining to Li Tian why these parasites did this.

In fact, without aquatic explanation, Li Tian also understands that certain organisms in the earth world retain this characteristic.

Li Tian can understand.

However, the scene of dozens of female fish parasites simultaneously attacking those male fish parasites still left Li Tianxin's lingering fear.

After a few more minutes, the bodies of the female parasites seemed to be inflated balloons, getting fatter and fatter, especially their belly, which was bulging and seemed to be about to explode.

When Li Tian just thought of this, the female fish parasites really exploded, and more text-sized fish parasites appeared in the hollow weapon.

It's densely packed, and looks a bit oozing!

Chapter 4722: : Danger is approaching

At night, the night falls like a black curtain wheel.

Deep in the tropical rain forest, at least thousands of kilometers away from the coastline, this is a vast rain forest.

Under the heels of the trees, there is a crisscrossing water network.

Dozens or hundreds of rivers converge here.

In this river, trees with a diameter of more than ten meters or even tens of meters can be seen everywhere. Although these tropical trees grow slowly, their height has reached nearly 100 meters.

It can be said that almost every tree here has the towering tree where the tree elves are. It is precisely because of this that the distance between the trunk and the trunk is wide enough, even the flying treasure ship can easily pass.

The dense roots of the trees are densely covered in the river, green and green, with algae hanging, it looks like the entire river surface is oil-green, which well shields the scene of the river bottom.

The tall trees are towering to the sky, but at least half of the trunks of these trees are also submerged in river water and river water. At this time, the flying treasure ship is slowly moving on the river surface. Li Tian and others are sitting on the flying treasure ship and looking up. Seeing that the canopies of these trees are connected, they actually blocked the entire sky.

Although mottled light and shadow came in, the entire surface of the water looked terrifying.

Especially, under the surface of the water, the figure of the water ghost clan will still appear faintly, which makes the whole picture full of a detrimental feeling.

Gradually, the scene in the rain forest has undergone some changes.

On the sturdy trees in front of me, houses that were hollowed out from the trees appeared.

As you can imagine, it is not difficult to dig out a few huts on trees with a diameter of more than ten meters or even tens of meters.

This is the real tree house in front of me.

A few, even dozens of windows appeared on the thick trees. At this time, behind these windows, you could see the shadows of the water ghosts.

Of course, more people appear in the water, that is to say, these tree houses also have a part in the water, just like the basement of a house, but the basement of this tree house is only underwater.

From time to time, a few members of the Little Water Ghost Clan showed their heads from under the water, with fierce eyes in their eyes, and pointed their teeth and claws at the flying treasure ship. Even these members of the Little Water Ghost family would control the river with hollow weapons in their hands and attack the treasure ship.

It's just that the cultivation base of these little water ghost tribes is at best the cultivation realm, and even their realm has not reached the cultivation level, this ordinary river attack can not cause any harm to the flying treasure ship.

A female member of the water ghost tribe, with a few water weeds wrapped around her body, hurriedly pulled the water ghost tribe child into the water, swayed this body, and quickly disappeared.

"Master, it's the first time these water ghost children have seen flying treasure ship. They use this flying treasure ship as a toy. There is absolutely no malice. Master, please don't get angry!" It is no longer necessary to use the water spirit to control the flying treasure ship's aquatic station to fly. On the treasure ship, half a position behind Li Tian, with his head slightly lowered, he looked at Li Tian with some fear, and explained to Li Tian.

The corners of Li Tian's mouth turned upwards slightly, revealing a smile, and said, "How can I be as knowledgeable as these children..."

As the flying treasure ship slowly thought about driving deep in the rainforest, Li Tian could already feel the power of these water ghosts.

In the outermost layer of the water ghost tribe's living area, Li Tian can occasionally feel the presence of the Venerable Seventh or 8th level water ghost tribe. As the flying treasure ship gradually moves inward, the cultivation strength of the water ghost tribe in these tree houses becomes greater. Strong.

Even the members of the female water ghost clan, their cultivation has reached the 7th or 8th level of the Venerable. From time to time, Li Tian can still feel the early 9th level of the Venerable, the middle 9th level of the Venerable, and even the emperor. Level water ghosts exist.

At this time, Li Tian also understood that the water ghost tribe should have no malice towards Li Tian and the others, otherwise the water ghost tribe, who had only the seventh or eighth level of the Venerable cultivation base, would not be sent to attack Li Tian and others.

Since entering the inner area of the tropical rainforest, the water ghost clan members who are responsible for using water spirits to control the flying treasure ship in the water have changed three batches.

These three groups of water ghost clan members were originally the water ghost clan at the seventh and eighth level of the aquatic life, followed by the all water ghost clan at the early stage of the ninth level, and now they are responsible for towing the flying treasure ship. Among the water ghost clan there is already a strong man in the imperial state.

On the flying treasure ship, even Li Tian looked as usual, but Tang Xiaolong had put away his arrogant expression.

The imperial powers of the water ghost tribe are actually only responsible for towing the flying treasure ships, so how strong are their patriarchs? Will they have reached the super domain master realm, or even stronger?

Tang Xiaolong couldn't imagine it anymore!

"Little boss, you said that if the Shuigui clan wants to disadvantage us, don't we even have the opportunity to escape from here?" Tang Xiaolong said.

Situ Ningbing smiled slightly, and said, "I think things may be the opposite. Since the Shuiguizu has gone so far as to invite Li Tian as a guest, how could they be against us? We will wait and see. Being a guest may be a good thing for us!"

Xue Ji nodded slightly.

Only Li Tian frowned slightly.

Although he defeated the Eastern Super God Clan in Yecheng, he hadn't hurt the Eastern Super God Clan. Li Tian thought that his reputation was not big enough for the Water Ghost Clan with such a powerful strength.

While on the road, Li Tian also asked Shuisheng, but Shuisheng was just a water ghost running errands, like a little demon patrolling the mountains, he was just following orders.

"If it is a blessing or a curse, it is a curse that cannot be avoided. Let's wait and see!" Li Tian said.

...

Tens of thousands of kilometers away, the two figures were flying fast in the sky. They were flying extremely fast, even exceeding the speed of sound.

In the blink of an eye, these two figures had already flown several kilometers away.

The two of them wore white robes, white clothes like snow, and white hair and white eyebrows. The whole person looked like a fairy.

However, the sporadic blood spots on the white gowns of the two of them looked like plum blossoms in the snow from a distance.

On their chests, the gold embroidered "Donggong" is particularly dazzling, and there are faint spiritual fluctuations on it. These two people are the two super domain masters sent by the Donggong super **** family. Author: Donggong Jiangshan, Donggong Demon Eye.

After receiving the order from Donggong Peony, the two of them set out from the Donggong Super God Family. First, they surrendered Ye Cheng and talked about the killing of Ye Cheng Huangzun, Dragon Emperor Huangzun, and Zhao Family Huangzun.

The Third Young Master Nether and Ye Meijing weren't in Yecheng, so they escaped.

The target of Donggong Jiangshan and Donggong Yaotong were not them. After Yecheng did not find Li Tian, they went straight to the Venerable Kingdom of the Lord of Frost Territory. Liu You went to the Laika Desert. Huang Ze, the Venerable who had just taken refuge in Li Tian. As soon as it was reused, it was easily beheaded by Donggong Demon Eye.

"Hey, there's really a way to heaven, he doesn't go, and there is no way to hell. He broke in. He didn't expect that this kid Li Tian would dare to participate in the beast competition in the Colosseum. I am afraid that the mother will personally take action and break Li Tian. Ten thousand corpses!" Donggong Jiangshan said with a sneer during the flight.

A flash of red flashed in the eyes of the demon pupil of the East Palace, and said: "We must rush to solve Li Tian before he arrives at the Colosseum, otherwise the mother will definitely anger us!"

"Hey, what you said is right, we can't repeat the mistakes of that guy in Donggong Buchan, the goal is Li Tian...kill!"

That's right, the next goal of Donggong Jiangshan and Donggong is Li Tian.

Chapter 4723: : The Banquet of the Water Ghost (1)

Tropical rain forest, water ghost tribe.

After a short half-day sailing, when the night gradually darkened, the flying treasure ship finally sailed to the core area of the water ghost clan.

At night, thousands of lanterns and birds fell on the branches of this rainforest on the rainforest trees, illuminating the nearby waters with brilliant lights.

Lantern bird is a kind of bird unique to the underworld. The feathers of this kind of bird seem to be fluorescent. After absorbing sunlight in daytime, it will emit light at night.

What color is the feather of a lantern bird, what color light will it emit at night?

Some of these lantern birds will inhabit the water ghosts specially made for them, and hang in the nests in front of the tree house windows like lanterns, while more lantern birds are perched on branches.

Therefore, standing on the flying treasure ship, looking around, the rain forest where the water ghosts live at night is not dark, but like walking into the city, there is a feeling of radiance and neon flashing.

Looking up, although the tree canopy blocked the entire night sky, because of the existence of these lantern birds, the entire head was flashing with lights, which made it feel more dreamlike than the starry sky.

Li Tian kept his eyes on the scenery in front of him. If it weren't for entering the rainforest, if it weren't for the living territory of the water ghost tribe, Li Tian and others might not be able to see this strange scene in their entire lives.

The traveling speed of the flying treasure ship became slower and slower, and several trees growing side by side appeared in front of them, and these trees were hollowed out, and the water ghost tribe built a tree house palace.

In front of the tree house palace, there are rows of sturdy tree trunks with a diameter of nearly seven or eight meters. These tree trunks are entangled by the water ghost tribe with tree vines and other things to become a large square in front of the tree house palace.

The cheeks of this square are also thousands of square meters. When you enter the living area of the rain forest water ghost tribe, you can only see the starry sky above this square.

At this time, on the water surface in front of the tree square, a hundred members of the water ghost tribe, whose strength reached the pinnacle of the domain owner, lined up in two rows from the depths of the water. They were listed on the left and right of the flying treasure ship, and welcomed Li like a navigation mark. Heaven and others.

On the water in front of the square, three small boats are still docked.

The three small boats were dug out whole trees with the thickness of the wellhead. The two sides of the small boats are carved with exquisite patterns, and on this pattern are carved pictures of the life of the water ghosts.

On these three small boats, there are three 'beautiful' Shuigui women.

Of course, the so-called beauty is only aimed at the level of appreciation of the water ghost tribe. In the eyes of Li Tian and others, these three water ghost tribe women can also be described as shocking.

On the square behind the three small boats, a man in his thirties dressed in a gray bark shirt stretched out his hands, opened his arms, and said with a smile on his face: "Guests from afar, I On behalf of the Water Ghost Clan, welcome you to the Water Ghost Clan as guests..."

Hearing this voice, Li Tian was startled!

Tang Xiaolong, Situ Ningbing, and Xue Ji also looked at the voice master in surprise.

"Little boss, this water ghost clan is actually wearing clothes...Hahaha...?" Tang Xiaolong pointed to the voice's master in surprise, and said with some surprise.

On the way, the Shuigui clan members that Tang Xiaolong and the others encountered were not naked, but they only covered some important parts with water plants.

But the member of the water ghost clan in front of him was wearing clothes, and what this guy said was the same as Li Tian, Tang Xiaolong and others said, they could hear and understand.

Li Tian and Tang Xiaolong have different focuses.

Li Tian felt a kind of strength from the fluctuations of spiritual power released from the man in the water ghost tribe wearing a shirt, a strength that has far surpassed the realm of the domain master.

Even Xiao Tianyi couldn't help showing a trace of tension on his face. He slowly approached Li Tian a few steps, and whispered to Li Tian, "Dad Li Tian, this... this person is very strong. We must be careful!"

Although Xiao Tianyi's voice was small, it did not cover it up, which made the water ghost man in his clothes look at Xiao Tianyi a few more times.

The man nodded slightly, did not mind, showed a sincere smile, and said: "No need to be so surprised, my dear friends, now please board our welcome boat, come ashore, and join us Underwater banquet. At the banquet, I will solve the mysteries in your hearts one by one!"

Following the words of the man in the water ghost race, the three small boats dashed across the water and stopped in front of the flying treasure ship.

The cultivation base of Li Tian and others has already surpassed the Venerable's second-level realm. They can fly or teleport to the square. However, the water ghosts in the clothes have such an arrangement, Li Tian and others dare not make any trouble. The flying treasure ship got off and landed on the small boat, which was controlled by the three beautiful water ghost women and docked.

"Shuisheng, who is this man?" Li Tian communicated with Shuisheng carefully.

Standing down behind Li Tian, Shui Sheng couldn't help but shook his head slightly, and replied with his mind: "Back to the master, I am the lowest-ranked fighter in the Shuigui clan. I have only seen this palace from a distance, even the square. How can you know such a big person in clothes if you haven't boarded it before!"

Through the aquatic life, Li Tian realized that the members of the water ghost tribe are not naked and shame with aquatic plants. The real powerhouses and elites of the water ghost tribe do not live like this.

According to the rumors known by Shui Sheng, the members of the water ghost tribe wearing clothes are the elite of the water ghost tribe, and they have the realm of super domain master. Their living area is this magnificent book palace.

As for the realm of the super domain master, even the strong person at the peak of the domain master can only stay in the water in front of the square, not to board the square without authorization, let alone enter the palace.

The reason why Shui Sheng was able to board the boat this time was thanks to Li Tian.

However, the good luck of aquatic life ends here.

Li Tian, Tang Xiaolong, and others were invited to go ashore, while Shui Sheng was asked to stay on the boat and not go to the square.

"A few noble guests, first introduce myself, my name is water gun..."

"puff!"

Tang Xiaolong laughed directly when he heard this strange name.

Shui Gun didn't understand why Tang Xiaolong laughed so happily, he didn't care at all, and continued: "Everyone, our banquet will begin soon, please come with me!"

As he said, the water gun turned and walked slowly towards the tree house palace, while walking sideways and said: "Although you all come from the state of ceremonies, I still have an obligation to remind you that I see the patriarch of the water ghost clan. At that time, no matter how unexpected you are in a hurry, please don't make a fuss..."

All the fuss?

Tang Xiaolong and the others couldn't help looking at each other, and Li Tian showed a mysterious smile on his face.

"Who is the patriarch of the water ghost tribe? How did he know about Li Tian's itinerary? Why did he invite us to be a guest here? But what kind of person is he? It's getting more and more interesting. !"

Chapter 4724: : Banquet of the Water Ghost (2)

Entering the tree house palace, Li Tian's eyes suddenly brightened.

From the outside, the tree house palace looks like a row of rainforest trees next to each other. After you walk through the gate, you will find that there is a cave in the tree house.

The first thing that appeared in front of Li Tian and the others was a hall. This hall may be far less expansive than the palaces of the domain masters and emperors of human society, but the degree of luxury of this palace is more than that.

There is luxury in sight.

The walls of the tree house hall are densely inlaid with various gems. From the eyes of ordinary people, these gems may be just beautiful and precious, but Li Tian and others saw these gems not only slightly discolored.

These gems exude strong energy fluctuations. It can be said that these gems are much more precious than the ores and gems Li Tian obtained in the dark forest.

In the hall of the water ghost tribe, more than a dozen tree trunks with a diameter of more than tens of meters were hollowed out. In the hall, the bark of these trees was preserved so that these big trees could continue to grow.

But these barks are well designed, and become walls, screens, and barriers. Then...these barks are also inlaid with gems...

"It's magnificent, really magnificent!" Tang Xiaolong swallowed and said.

Everyone is a person who has seen the world before, but after entering this tree house palace, looking at these gems, everyone can't help but swallow!

This picture is really shocking.

The water gun smiled without saying a word, and looked up at the top of the hall intentionally or unintentionally.

Li Tian and others were successfully attracted by the gaze of the water gun, and at the same time looked up at the dome of the tree house palace.

The dome of the tree house palace was dug into an arch. The dome of the tree house palace is not inlaid with gems, but inlaid with hundreds of bowl-sized luminous beads.

This luminous pearl looks like an ordinary stone in the daytime, but when the sky is dark, it will emit a star-like luster.

One luminous bead may not be able to illuminate the hall of the tree house palace, but the light from these hundreds of luminous beads illuminates the entire tree house palace like daylight.

"A few here please! Our patriarch and the elites in the clan are waiting for you in the underwater palace!" Standing in front of the stairs on the right hand side, the water gun stretched out and said.

Li Tian and others followed the water gun down the stairs.

The first floor of the tree house palace was built above the water surface, but it has appeared below the water surface further down, through the stairs, to the lower floor, there is a long corridor in front of you.

The light on this layer is dimmer than the upper layer, and Li Tian feels as if he has come to the underwater world.

No, it is the underwater world to be precise.

There are transparent crystal walls on both sides of the corridor in front of you. Standing in the corridor, you can see the water, tree roots, and the water ghosts who see Li Tian and others as monkeys.

The water gun smiled at Li Tian with some embarrassment, and said, "I'm really sorry, the Water Ghosts have not been a guest for too long..."

Li Tian can understand this kind of thing!

For these secluded members of the water ghost tribe, watching Li Tian and others can bring them a lot of joy, just like joining the earth world and suddenly a few extraterrestrials are guests. Li Tian believes in watching the aliens. The audience will be crowded.

Li Tian gently walked to the crystal wall, tapped the transparent crystal wall lightly, and then stretched out his palm to press on the crystal wall, waiting for a member of the water ghost curiously to stretch out his paw, slowly When the ground was pressed on Li Tian's palm through the transparent crystal wall, Li Tian suddenly made a grimace at the member of the water ghost clan.

Li Tian's grimace is not cute at all, even a bit hideous!

The hair on the head of the water ghost clan member was frightened and turned around and fled.

The other members of the water ghost tribe don't know what happened, they just saw the hair of this member of the water ghost tribe change color, and the hair of the other members of the water ghost tribe changed color. They turned around and fled.

Within a few seconds, these water ghost tribes escaped cleanly.

"It seems that they didn't welcome us very much..." Li Tian said with a smile.

How could Li Tian's every move escape the eyes of the water gun, but the water gun no longer wanted to be extravagant, but wanted to send Li Tian and others to the patriarch as soon as possible.

Passing through the corridor and turning a corner, an inner hall measuring only tens of square meters appeared in front of you.

On the front of the inner sanctuary, there is a long table, and on the left and right sides of the long table is a strip table with a length of more than ten meters. At this time, on the long table and the strip table, various foods, fruits and fruits are placed .

"Little boss, look, there is actually a daughter red here..." Tang Xiaolong said in surprise when he saw that there was still a daughter red produced in Niujia Village on this case.

"Little boss...?" Tang Xiaolong realized that his words did not cause Li Tian's reaction, and couldn't help but follow Li Tian's line of sight to look behind the long table. Then Tang Xiaolong's face was instantly full of shocked expressions, "Little... Little boss...this..."

Li Tian nodded slightly.

Li Tian was more surprised than Tang Xiaolong!

Who would have thought that the man sitting behind this long table was not a water ghost, but... a human!

Moreover, this human being has yellow skin and dark eyes. In appearance, he is very close to Li Tian and Tang Xiaolong.

"Everyone, please allow me to introduce to you, this is the current patriarch of our water ghost clan, Water ghost Guzi!" said the water gun.

"Welcome to the Netherworld! Welcome to the Water Ghost Race..."

The man Shuigui Guzi behind the long table is the current patriarch of the Shuigui clan.

Shuigui Guzi seemed to enjoy the surprised expression on Li Tian and others' faces. He smiled slightly, slowly raised the bottle of wine, stretched out his arm and said to Li Tian and others: "My compatriots, you are finally here!"

Hum!

Hearing this man's words, Li Tian only felt that his head suddenly went blank.

This man actually spoke Huaxia!

Before entering the Netherworld, Li Tian and others learned the language and characters of the Netherworld with the little hot pot, so when they entered the Netherworld through the gate of the forbidden zone, language communication was not a problem at all.

However, in the Netherworld, this was the first time Li Tian heard Huaxia!

Although the Huaxia language of Shuiguiguzi in front of him is somewhat blunt, as if it were spoken by ancient people, he speaks 100% Huaxia!

Situ Ningbing was shocked!

Xue Ji was stunned!

Tang Xiaolong even stopped breathing!

how is this possible?

How can this be?

In the Netherworld, there can be other earthlings!

how is this possible?

How can this be?

The current patriarch of the Shuigui tribe is actually an earthling!

and many more!

His name is Shuiguiguzi...Shuiguiguzi...Could it be...?

"You...who are you?"

Chapter 4725: : The Banquet of the Water Ghost (3)

"who am I?"

Shuigui Guzi smiled slightly, drank the wine in the bottle, and continued: "Your question is really complicated. It makes me want to ask, how should I answer you?"

The water gun stretched out his hand and said with a smile: "Please take a seat, drink with our respected patriarch and relive the past!"

Under the guidance of the water gun, Li Tian, Tang Xiaolong, Xiao Tianyi, Situ Ningbing, and Xue Ji took their seats separately according to the male left and the female right.

Among all the people present and the Shuigui tribe, Li Tian and others may have the weakest cultivation base, but because Li Tian and others are Shuiguiguzi compatriots and also guests, their seats are arranged far away from Shuiguiguzi. The nearest around.

As for the water gun, this guy is a super domain master-level powerhouse, and he is not even qualified to be seated. He stood silently behind the water ghost Guzi and poured wine for the water ghost Guzi.

As for Li Tian and others and the other Shuigui tribes, they don't have such a good treatment. If they want to drink, they have to pour their own wine.

After seated, the water gun was filled with wine.

Shuigui Guzi picked up the wine bottle and said, "Dear elites of the water ghost clan, please hold the wine bottle high, show your enthusiasm, and welcome guests from afar!"

"The brewing technology of this daughter's red wine was brought by the guests in front of us from the hometown of the patriarch, so you can drink to your heart's content. Be sure to entertain my compatriots and our guests!" Raising the wine bottle high, Shui Gui Gu Zi added.

What a **** thing is that fellow villagers meet fellow villagers and have hard fists!

As soon as he started toasting, Shui Gui Guzi began to greet Li Tian and the others.

Sure enough, as soon as Shuigui Guzi's voice fell, several Shuigui elites jumped up and teleported to Li Tian, Tang Xiaolong and Xiao Tianyi holding the wine jar, surrounded by everyone, demanding to compete for alcohol.

"This must be the hero who killed several Donggong super **** family running dogs in Yecheng with the power of the emperor. Come, come, first drink with me three hundred altars of parallel imports!" A strong water ghost clan held a caliber. The giant wine jar of nearly one meter came to Li Tian, stretched out his hand to push the other members of the water ghost clan aside, and said excitedly.

Seeing this wine jar, Li Tian was a little confused!

Your sister, this is a wine jar, this is obviously a water tank, OK!

How did Niujia Village's winery make it? When did the wine jars become so huge?

This is daughter red, high-quality liquor, not to mention three hundred altars, even if Li Tian is already a powerhouse in the Emperor Realm, it is impossible to drink such a cylinder of bar!

It doesn't matter if you are alcoholic, but the bladder can't stand it!

Also, what is your name?

Parallel imports? Can you make it more watery?

But Li Tian didn't dare to say such things. This guy is murderous, and the other water ghost clan powerhouses who are also the super domain master powerhouse, are pushed aside by the parallel importer, and they dare not even put a fart. , Can only turn around to deal with Tang Xiaolong and Xiao Tianyi.

Fortunately, Situ Ningbing and Xue Ji are female relatives, and they were not besieged by these water ghost elites.

Li Tian turned his head and looked at Shuigui Guzi, hoping that Shuigui Guzi could stop him with a word, but Shuigui Guzi smiled slightly, took his wine bottle and drank it, but completely ignored Li Tian!

Thousands of alpacas rushed past Li Tian's heart. He laughed twice and said, "The name of parallel imports is really thunderous!

"Really? So you've heard of my name! Hahaha, I'm still thinking that Netherworld has forgotten our water ghost tribe, has forgotten me parallel imports, hahaha, for this, we will do three hundred altars !" The parallel imports opened the wine jar excitedly, and started to binge drinking while holding the jar.

"Ok?"

Li Tian smelled a sour taste in the wine jar of parallel imports. Although this taste did not resemble vinegar, it would definitely not be the daughter red brewed by Niujia Village!

Li Tian had smelled a faint sour smell before, but at that time he mistakenly thought that the smell came from the water ghost clan, so he didn't dare to ask more.

Li Tian picked up the wine bottle in front of him, put it in front of his nose and sniffed it slightly, with a smug smile at the corner of his mouth.

He guessed right, this wine is not daughter red.

To be precise, this wine is not a complete daughter red, it should be someone who has mixed Netherworld water wine in the daughter red.

No, to be more accurate, it should be the daughter red in the water wine.

The alcohol content of this wine is not high, and it is no wonder that parallel imports dare to pick up the jar and drink, and in less than a minute, he has already drunk half of the jar.

Li Tian didn't stop the parallel imports. When the parallel imports finished the whole jar of wine, he placed the jar Duang in front of Li Tian. Then Li Tian said, "The parallel imports are really huge, but I have to tell you one. The truth is, the wine made by the winemaking technology we brought is not so watery..."

"What do you mean?" Parallel asked questioningly.

Tang Xiaolong squeezed out from the members of the Shuigui clan who surrounded him, and said with a smile: "That means the daughter red you bought is a fake! The Shuigui clan used fake daughter red to entertain our guests. Tsk... "

Tang Xiaolong's words were like a bomb thrown into the water, and many water ghost elites immediately boiled.

"Impossible, this wine is a water gun..."

The water gun suddenly seemed to have been stepped on its tail, and hurriedly said: "This is my daughter's red wine. The merchant who sold the wine to me has sworn!"

Li Tian doesn't want to entangle too much with this kind of thing, he just wants to know as soon as possible who Shuigui Guzi is!

Huh!

Li Tian flipped it casually and uncovered a few boxes of Niulanshan Erguotou from the space of Void Yasha, asking Tang Xiaolong and Xiao Tianyi to open the wine and pour the wine into the wine jar in front of Li Tian.

"Good smell of wine... Isn't it... Is this the authentic daughter red wine?" Many elites of the water ghost clan smelled the scent of Niulanshan wine, and said with some intoxication.

Li Tian did not stop, and continued to take Niulanshan Erguotou from the space of Void Yasha.

Can you brag about parallel imports?

Today I will let you blow up!

Six hundred jars of fine wine?

Lao Tzu is an old Chinese doctor who specializes in all kinds of bragging!

After a while, Niulanshan Erguotou has filled a tank!

Li Tian kept going out to Niulanshan again.

"Master parallel imports, come, please drink this altar. With the mass of your water ghost tribe, I believe you can drink up to six hundred altars!" Li Tian said.

Guru!

The parallel imports swallowed, not being frightened, but happily saying: "Really? Can I really drink six hundred altars?"

"Drink! This kind of wine is enough!" Li Tian said with a look of careless expression.

"Hahaha, okay, then I'm welcome!" The parallel imports picked up the jar and started drinking.

Don't even mention that the amount of alcohol used by the parallel imports is definitely not a boon. This jar of wine is not only Niulanshan, but also other fine wines, and even foreign wine is poured in it.

Just smelling the smell is enough to make people drunk.

However, it took less than five minutes for the parallel imports to drank this jar of wine.

However, the parallel hair has changed various colors, and his cheeks and skin are also constantly changing color, just like a chameleon.

"Drink this tank again!"

In the past few minutes, Tang Xiaolong and Xiao Tianyi had already filled another jar of wine, and said with a smirk holding the jar in front of the parallel imports.

"Hey, then I'm not welcome!..." the parallel imports said with a burp.

The parallel imports picked up the jar again, and it was another binge!

It blows loudly, but this wine is not an ordinary water wine. Just halfway through drinking, the parallel imports begin to shake, and the hair is like a neon sign in front of a barber shop, changing its color constantly.

The other water ghost tribe kept swallowing saliva. Obviously, they were envious of parallel imports having the opportunity to drink such fine wine.

"Parallel, you are really parallel!"

"Can you do it? If you can't, change someone and let me drink!"

"Hahaha, you see that the hair color of parallel imports has changed several rounds. It seems that the smell of red wine for this daughter is really strong!"

The other elites of the water ghost clan are still a little bit elite, and there are all kinds of booing around the parallel imports!

boom!

Parallel products were finally overwhelmed by alcohol, and fell to the ground, slumbering, completely unconscious.

The wine jar also smashed to the ground, smashed to pieces, the wine was overflowing, and the fragrance of the wine was overflowing.

"Drunk...Drunk...The parallel importer is actually drunk, hahaha..."

While the other elites of the water ghost clan laughed at them, they swarmed up like wild dogs seeing hot shit, pounced on the ground, and began to **** the wine flowing on the ground.

It's so ugly and ugly.

Li Tian was completely frightened by the sight in front of him!

Are all the water ghosts reborn as alcoholics? As a superdomain master-level elite, they can actually do such a shameful thing.

Shuigui Guzi's face was extremely ugly.

Although he is not a water ghost tribe, but now he is approaching the patriarch of the water ghost tribe, and seeing these water ghost tribes show such a nature, he can't help but feel a little angry.

"You are the powerhouses of the superdomain master level, the elites of the water ghost clan, and the powerful existence standing at the peak of the nether world. Look at what you are now!" Water ghost Guzi said angrily.

The elites of the water ghost clan looked at the water ghost millet with some fear, and continued to **** the wine on the ground, even sticking out their long tongues to lick the ground.

Shuigui Guzi felt very embarrassed, and he roared abruptly, and a surging spiritual power poured out from his body, instantly covering the entire hall.

Those super-domain master-level water ghost elites suddenly seemed to be caught in their necks, their faces flushed, and their bodies twisted in pain.

"Get out of here!" said Shuigui Guzi.

As soon as Shuiguiguzi's words fell, in the entire hall, apart from the water gun standing behind Shuiguiguzi, the drunken parallel imports, and a few other elites of the water ghosts who did not crawl on the ground to drink wine, other elites of the water ghosts It disappeared instantly.

The banquet has not yet started, it is over!

Li Tian looked at the water ghost millet, smiled slightly, and said, "Now you can tell me who you are!"

Chapter 4726: : Reincarnation (1)

Li Tian stared at the water ghost millet, waiting for his answer!

Tang Xiaolong, Xiao Tianyi, Situ Ningbing, and Xue Ji also looked at the Water Ghost Guzi. They were eager to know who this compatriot from the earth world was!

The water gun and other elites of the water ghost clan who still remained in the banquet hall also watched their patriarch.

Water ghost Guzi has been in charge of the water ghost clan for thousands of years. Under the leadership of this powerful patriarch, the water ghost clan has begun to rise.

First of all, there are noble-level powerhouses in the water ghost clan. The number of domain master-level powerhouses has reached more than 100, and there are 22 superdomain-level powerhouses!

The mysterious race of the water ghosts once again showed their power. If the water ghosts were born now, the water ghosts might already have the power to wrestle with the super ***** family.

However, for so many years, many water ghost elites such as the water gun have always had a doubt in their hearts, that is, who is the water ghost Guzi!

For thousands of years, what they knew the most about the patriarch who was barely angry was his strength, and the second was that the patriarch's hometown was not in the Netherworld, so they were more eager to know the identity of the Water Ghost Guzi than Li Tian and others.

"who am I?"

Shuigui Guzi picked up the wine bottle again, gently shook the wine in the bottle, tilted her head slightly, and stared at a certain part of the roof with some vague eyes, as if she was reminiscing a long time ago story.

The banquet hall was very quiet, everyone almost held their breath, only the already so drunk parallel imports heard a few heavy breathing sounds from time to time.

After a long time, or maybe just a few seconds, Shui Gui Gu Zi drank the wine in the bottle, staring sharply at Li Tian, and said, "Do you know Gui Gu Zi?"

"Guiguzi? Who is he? What does it have to do with our patriarch?" A look of confusion appeared on the face of the water gun.

Hearing the three words Guiguzi, Li Tian, Tang Xiaolong, and Situ Ningbing showed surprised expressions on their faces at the same time, and their hearts throbbed.

Guiguzi, according to the historical records of the earth world, Guiguzi was a figure three or four hundred years ago, almost two thousand five hundred years ago.

Of course, this is only incompletely recorded in history after a long history of slowly draining away!

Li Tian and others also knew that Guiguzi was the master of the Four Elephants. In that era, Guiguzi's cultivation base was probably one of the strongest in that era. The strength of Guiguzi has surpassed ordinary human understanding.

Is the water Guiguzi the Guiguzi?

Could it be that Guiguzi in the historical records of the earth world already possesses such a powerful strength?

This is too... too scary!

Li Tian nodded slightly and said: "Guiguzi, almost two thousand five hundred years ago, according to legend, he was named Wang, and his name is Wang, also known as Wang Chan, Wang Li, and Wei Ziqi. He belongs to the Chinese clan."

"According to historical records, Guiguzi was a representative of Taoism during the Spring and Autumn and Warring States period and the originator of political strategists. He often went to the mountains to collect medicine and cultivate Taoism. Because he lived in Guigu, he called himself Mr. Guigu."

Of course, these are records in the history of knowledge.

"The most proud disciples of Guiguzi should be Su Qin and Zhang Yi. In addition to these two, the disciples of Guiguzi in the wild history include Pang Juan, Sun Bin, Shang Yang, Shi Ji, Gan Mao, Le Yi, Fan Ju, Cai Ze, Zou Ji. , Li Shiqi, Sima Cuo, Kuitong, Huangshi, Gongsunyan, Li Mu, Wei Lao and others..."

"However, the true disciples of Guiguzi are other people, they are..."

"Are you trying to say, Suzaku, Azure Dragon, Xuanwu, Baihu Little Four Elephants, right? These four little guys are a little talented in cultivation, so I just gave them some guidance and said that I want to get my true story. I have never been like this. think."

"As for Su Qin and Zhang Yi, they are just little servants who serve tea and pour water. They learned a little bit of fur here, and they are good enough, but they are not my disciples." The water ghost Guzi gently placed the wine bottle. On the table, raised his eyes slightly and looked at Li Tian and said.

Sure enough, Shuiguiguzi is Guiguzi!

Li Tian wanted to invite the elders of the Four Elephants here to meet their masters.

It's a pity that the old man of the four elephants claimed to have to use his residual heat, and followed Liu You, but did not follow Li Tian.

wrong!

The time is a bit wrong!

Li Tian knows that Shuigui Guzi has served as the patriarch of the Shuigui clan for thousands of years.

The water ghost Guzi only mentioned one sentence to the old four elephants and Su Qin Zhang Yi, and he didn't want to say it any more.

He seemed to be immersed in the memory. After a while, he looked up at Li Tian and continued: "Guiguzi is my clone!"

Clone?

It turned out to be a clone?

"You...you mean Guiguzi is your clone?" Li Tian said.

Shui Gui Gu Zi nodded slightly and said, "It's my clone."

"It's just that my clone cultivation is not strong, only the ninth-level peak realm of the cultivator! So the clone's lifespan reached its limit and it fell..."

Li Tian had already guessed a general idea in his mind.

More than two thousand five hundred years ago, Guiguzi, the clone of Shuiguiguzi, was approaching, and he still had something important to do in the earth world. Therefore, Guiguzi took four elephants as his disciples and trained these four apprentices. These apprentices guarded the gate of the restricted area, fulfilling his unfulfilled last wish.

In this way, many things are connected in series!

Guiguzi, Four Elephant Old Man, Wuji Old Man, Forbidden Zone Gate, Alien World, Red Slash, Three Corpses, Doomsday, Nether World, Water Guiguzi...

"Do you know Li Kuafu?"

Li Tian's thoughts were suddenly disrupted. Hearing this name, Li Tian felt that his scalp was exploded.

Hum!

"Father Li Kua..."

"Father Li Kua..."

Li Tian only felt that his eyes had been slightly moist before he knew it, and he kept chanting the name silently in his heart.

After so many years, Li Tian heard the name again!

Tang Xiaolong, Xue Ji, and Xiao Tianyi all looked at the Water Ghost Guzi in surprise, wondering why he suddenly mentioned this name.

Situ Ningbing's heart was full of doubts. She didn't know that Li Kuafu and Shuiguiguzi were separated by thousands of years, and how could Shuiguiguzi know the existence of Li Kuafu.

"Lee..."

Situ Ningbing came to Li Tian, grabbed Li Tian's hand, and exerted a slight force.

Seeing Li Tian nodding his head, the expression on Shuigui Guzi's face changed slightly, and his body was trembling slightly.

After a long time, Shuiguiguzi gradually calmed down and said, "Father Li Kua is a man older than my clone Guiguzi, a strong man in ancient times! I don't know how Li Kuafu was recorded in history. And me...water ghost millet!"

Li Tian couldn't understand what the Water Ghost Guzi said. He adjusted his emotions and said, "Father Li Kua is my father..."

Chapter 4727: : Reincarnation (2)

The water ghost Guzi stood up abruptly, his pupils gleamed with excitement, his facial muscles were a little distorted, and his voice trembling hurriedly and slightly said, "What did you say?"

Li Tian was shocked by the expression of the water ghost Guzi.

"Father Li Kua is my father!" Li Tian repeated it again.

"Father Li Kua... Father Kua, my good brother, where is he now? Is he in the Netherworld or the Earth world? Hurry...Take me to see him..." Shui Gui Gu Zi came out from behind the long table. ,

Took a few steps, and teleported to Li Tian again, clutching Li Tian's shoulder with both hands, and said excitedly.

"My father... my father has fallen for many years!" Li Tian said with tears.

"What?" The water ghost Guzi seemed to have received a huge blow, his body shook slightly and almost fell to the ground, but a ray of blood dripped from the corner of his mouth. It can be seen how much this news was for him. His heart is broken!

"My patriarch, what you just said... My father is your good brother, what do you say?"

The water ghost Guzi in front of him is a guy with a life span of thousands of years or even longer, but what about Li Kuafu? It's just a few decades from my birthday to the present.

Supported by the water gun, the water ghost Guzi walked back slowly. Sitting on the chair behind the long table, there was an indescribable loneliness in his eyes, but tears slowly dripped from the corners of his eyes. .

The water guns and many other elites of the water ghost clan were full of doubts, and looked at the water ghost Guzi somewhat puzzledly, with a sad expression on their faces.

Li Tian and others were eager to know what was going on, but when they saw the appearance of the water ghost millet, they didn't dare to say anything.

The banquet hall returned to quiet again. After a while, Shui Gui Guzi gradually recovered. He reached out his hand to wipe away the tears from the corner of his eyes, his eyes filled with soft light and looked at Li Tian, and said: "I only treat you as my earth world Compatriots, but did not expect us to have such a relationship. Li Tian, you should not call me the patriarch, you will call me uncle in the future!"

After a pause, the water ghost Guzi continued: "You have been in the Nether Realm for a few years. You should know something about the Nether Realm! Sit down, water guns, water cannons, water birds, all of you sit down, Li Heaven, Tang Xiaolong, and you all sit down, and today I will tell you the story of Li Kuafu I know, and tell me my story!"

After the water guns and other elites of the water ghost race were sitting on the strip table, Li Tian and others also took their seats. Only the parallel imports remained drunk.

As soon as Shuigui Guzi stretched out his hand, a bottle of Niulanshan wine on the front desk of Li Tianmian flew into his hand lightly, and the cap of Niulanshan wine flew out automatically.

Shuigui Guzi poured the entire bottle of Niulanshan into his wine bottle, picked up the wine bottle and drank the whole glass of wine in one go, then buckled the wine bottle back on the table, whispering...

...

More than eight thousand years ago, the earth world.

According to the archaeological research of the earth world, the earth world at this time has already had human civilization.

This is just archaeological research!

At this time, not only human civilization has already existed, but human civilization is extremely prosperous.

In this era which is also called primitive society, there are thousands of tribes in China alone, and many of these tribes have also born many local powerhouses.

Their technology and cultural civilization may be far inferior to later generations, but their achievements in cultivation can only be looked up to by later cultivators.

Only at this time, the biggest task of the local cultivators is to defend against foreign enemies and to resist the attacks from the powerhouses of the Nether Realm.

China region, Central Plains.

At this time, most areas of the Central Plains are still virgin forests. Between the virgin forests, there will be large tracts of reclaimed land, and in the center of these reclaimed land is a huge city.

At this time, the city is rammed with loess, and the city is covered with sharp wooden thorns. Such a city is sufficient to block wild beasts and ordinary humans, but if such a city is used to block the strong from the underworld, it is not enough. Up.

This is a destroyed city!

The thick rammed earth city wall has collapsed. On the sharp wooden thorns on the wall, there are many human corpses wearing animal skins and linen clothes.

In the city, almost all the thatched houses with civil structures were destroyed, with dead bodies everywhere.

Pieces of vultures fell on the corpse, tearing at the dead body.

Dozens of beasts, like little calves, walked in from outside the dilapidated city wall in droves, to say nothing, and swallowed the fallen corpses unscrupulously.

It can be seen that there has been a big battle in this city.

Inside the city, several huge stone totem statues were cut off. Many of these totem heads lie on the ground, but some totem heads have been broken into a pile of stone powder.

Close to a huge stone totem, there is a wooden house that has collapsed.

One of the heads of the boulder totem fell off and the wooden house collapsed.

At this time, under the collapsed wooden house, there was a sound of eagerness!

The beasts and vultures that were devouring the corpse simultaneously looked up in this direction.
call!

call!

Several wild beasts grinned and panted slowly towards the collapsed wooden house.

Through the straw and the soil, one can see the corpse of a woman pressed under a wooden stick, and the animal skin on this woman has been stained red with blood.

Below the woman's corpse, there was a six or seven-year-old boy who was using all his strength to push away the corpse that was pressing on him.

It's just that, although only one wooden stick with the thickness of the bowl was pressed on the corpse, a few thicker sticks were pressed on the other two sections of the stick, and at the end of the stick, Totem stones of huge boulders of dozens of cubic meters in size are pressed.

The weight of these wooden sticks has reached thousands of jins. This six or seven-year-old boy has not been crushed alive. It is already a great fortune. Now how can he push these logs away!

The beasts are getting closer.

The youth could already see blood stained on the hairs on the corners of the beasts' heads, and the blood was still dripping down.

At this time, these wild beasts had already seen the young man under the straw. Knowing that the young man would not cause any harm to them, the wild beasts suddenly showed their sharp fangs and accelerated towards the young man.

call!

call!

These beasts have sharp claws, and when they run, the ground under their feet seems to be trembling.

"No... I can't die!"

"I can't die here. All my people were beheaded by that **** guy. My parents died at the hands of that demon to protect me. Several powerful patriarchs were tortured and killed. I want revenge..."

Chapter 4728: : Reincarnation (3)

drink!

The young man suddenly roared, his thin arms supported on the ground, and he bowed desperately. The huge weight of the young boy kept shaking his arms. The boy's complexion was ruddy, and his nostrils kept spraying out. Rude.

Click!

Click!

The calf-like beast runs faster and faster, with blood on its fangs, and its claws flying backwards with mud!

Several vultures abandoned the dead bodies in front of them, spread their wings and flew towards the young man like arrows!

At this time, the juvenile is delicious, and all the vultures and beasts want to tear the juvenile into pieces and share some delicious food.

drink!

The young man let out a roar again, and his body suddenly burst into a strong force. Gradually, the young man slowly squatted up, and the corpse on his body was lifted by him. The straw and soil on the corpse were all clear. Suo Suo kept going down.

But the beasts had already rushed to the front, and even a beast leaped on the huge totem boulder. The beast's sharp claws scratched the boulder, and it was able to scratch the boulder more than an inch deep.

A few more beasts jumped up!

The reason why these beasts did not attack is because the vultures in the air, wolves and less meat, this kind of small fresh meat, these beasts are not willing to give their hands to these **** vultures.

The young man who had just squatted up, knelt down on his feet.

Several vultures hovered in the air, exposing their claws and attacking the beasts tentatively!

This allowed the boy to breathe. He kept wheezing in a low voice, while the veins on his arms and legs burst out.

In ancient times, ordinary humans had a short lifespan. Like seven or eight-year-old children, they are already juveniles, possessing the strength and resilience not lost to later generations of sixteen or seventeen years old!

However, the young man is approaching as a young man, and he has just begun to contact with the cultivation of the clan, and now he has exploded his maximum potential, but under the gravity of these thousands of catties, the young man still had to give in.

Huh!

Huh!

The boy's eyes were full of bloodshot eyes, his teeth were clenched, and the muscles on his cheeks kept trembling.

The boy insisted, but his heart was desperate!

"Who can save me..., who can save me..." the boy thought without a word in his heart.

The battle between the beasts and vultures did not last long. Although the beasts are strong and powerful, they can't fly after all. Moreover, on this totem boulder, their flexibility and mobility are far inferior to that of vultures. After a few rounds, these beasts' There were a lot of **** wounds on the body.

The wild beasts retreated, holding the stump of the corpse and severed their arms, and rushed toward the collapsed wall in the dilapidated city, trying to escape from the gap.

Those vultures who won screamed several times and rushed towards the young man.

puff!

A vulture's sharp claws grabbed the boy's shoulder, and a piece of blood-stained flesh was caught by the vulture and flew.

The other vultures either rushed towards the young man, or rushed towards the vultures that were already holding flesh and blood, and they were torn in mid-air. The feathers of the vultures kept falling down.

Blood was flowing down the boy's shoulders, and the severe pain caused the boy's face to change slightly, but the boy's desperate face was more open-minded.

"Since I have no way to survive, let me follow my parents and the people on the road..." A smile appeared on the corner of the boy's mouth, thinking in his heart.

At this moment, a strong coercion fell from the sky, and the vultures that were about to rush to the young man fell like heavy arrows.

Vultures are like rain!

And the beasts that were about to rush out of the city suddenly knelt to the ground, groaning.

The young man knew that a strong man must have suddenly come, and the flame of survival burned in his heart again, his eyes swept keenly, wanting to know who saved him!

A man of thirteen or fourteen years old appeared on the collapsed soil wall!

This man was wearing a blood-red linen shirt, and he carried a bone spur that was ten feet long in his hand, and on this bone spur, he was wearing a **** head.

The young man under the corpse could feel that the man holding the bone spurs in front of him was not the strong outsider. He became painful and cried out to the man, "Help me...uuu... Please save me out!"

The man's gaze was like a knife, slowly sweeping across the city, but he stayed on the boy for a moment and then flashed past.

puff!

The thirteen-four-year-old man pierced the bone spur in his hand to the ground, and there was already a sharp bone knife in his hand.

Huh!

Huh!

Huh!

The figure of the man flashed across the group of wild beasts like lightning. As the figure of this man flashed by, the beasts that fell on the ground were cut off one by one by him.

Blood is constantly spraying from the neck of the beast, and the blood in the city is more intense. The young man under the corpse seems to have seen a demon king, a cruel demon king, his face involuntarily revealed There was a hint of horror.

The man didn't seem to want to help the young man, and he kept slaughtering the beasts and vultures for just a few moments. In the entire city, apart from the young man and the man, there was no more living creature.

The man's clothes were stained red with blood, and there were blood spots on his cheeks, arms, and the bone knives in his hands. At this time, the man turned his attention to the young man and slowly dragged his tired body towards the young man.

"What's your name?" the man asked as he walked.

After the initial fear, the teenager under the corpse has gradually calmed down.

The city was destroyed and the clansmen were wiped out. He had already experienced this kind of thing. Would the young man still be afraid of death? Would you still be afraid of a man who slaughtered wild beasts?

"My name is Shuigui Guzi! Who are you?"

The boy under the corpse was the water ghost millet.

"Hey, want to know my name? You can crawl out from below before you are qualified to know my name!" The man didn't say his name, he walked a few steps before and suddenly sat down. On the ground, said.

Shui Gui Gu Zi's heart suddenly became a little angry.

At this moment, he was overwhelmed by the weight of thousands of catties. This man was clearly capable of saving him from here, but he did not do so. He even said that he would only escape by himself. Tell yourself by name.

Fortunately, there have been no attacks by wild beasts and vultures. Although Shuiguiguzi has an extra wound on his shoulder, he has no worries about the future.

drink!

The water ghost Guzi roared, his body burst out with strong power again, and the wooden stick pressed on the corpse was gradually lifted by him...

Chapter 4729: : Reincarnation (4)

Shuigui Guzi escaped with difficulty!

The man sitting on the ground showed a smile at the corner of his mouth and said: "You are not bad boy, you will follow me Li Kuafu from now on! I will protect you..."

After speaking, Li Kuafu spouted a mouthful of blood and fainted to the ground!

The water ghost Guzi rushed to Li Kua's father unhappily, reached out his hand to pat Li Kua's face, and shouted, "Hey, what's wrong with you?"

The water ghost Guzi rushed to Li Kuafu's side, only to see that Li Kuafu's clothes were not blood red, but his clothes had been stained red with blood!

On Li Kuafu's chest, several one-foot-long wounds criss-crossed and were shocking, and even the bones and internal organs in the wound could be seen through the wound.

"This...hey, do you want it?...hey, Li Kuafu, don't die!"

"You said you want to protect me..."

...

When Shuigui Guzi said here, there was a sweet smile on his face, and he said in a certain way:

"This is how I met Li Kuafu. You don't know how panicked I was at that time. I overturned the entire city. So I found the witch doctor hall and the medicinal materials in the witch doctor hall!"

"At that time, I was only six or seven years old, and I didn't know anything about the medicinal properties of Chinese medicinal materials in the Witch Medical Hall. But in order to save him, I didn't care about that much. Undead my medicinal herb chewed and covered his wound..."

When he said this, the corners of Shuigui Guzi's mouth moved slightly, and then he said: "It is also his life. After a day and night of care, he was magically resurrected with blood! Think about it, his wound is so deep that he hurt. It is so heavy, but he was resurrected with full blood, hahaha..."

"I didn't know until later that before he met me, he had already gone through a fierce battle with a strong man at the venerable level. The head on that white spear was the head of the strong man at the venerable level. I am afraid. You can't even think of it, at that time Li Kuafu was only in the early stage of the seventh level!"

Tang Xiaolong, Situ Ningbing, and Xue Ji looked at Li Tian at the same time.

Up to now, it seems that in this Li Kuafu, they have seen some figures of Li Tian.

Water Ghost Guzi continued: "He saved my life, and I saved his life. Since then, the two of us have become the closest brothers. I followed him in practice, hunting and killing beasts, and chasing people from the underworld. The strong, revenge for my people!"

"That was really the happiest day of my life. As our cultivation level continues to improve, we are facing more and more dangers. However, our brothers join forces, no matter how strong the enemy is, we can They beheaded!"

...

Time passed and more than a thousand years passed in a blink of an eye.

In this thousand years, from the Nether Realm, there are still strong people entering the earth world.

At the feet of Father Li Kua, a domain master-level expert from the Netherworld fell under his feet, and several experts at the seventh or eighth level were also thrown in front of the water ghost Guzi begging for mercy, but the water ghost Guzi had no eyes. In a blink, these powerhouses were sent to the west.

"Unbearable!" Shui Gui Gu Zi spit out, disdainfully said.

Shui Gui Guzi cleaned up these dead bodies, took the trophies and came to Li Kua's father happily, and said: "Kuafu, these guys' weapons are much more exquisite than our bone knives, and they carry these. Minerals, treasures, herbs, etc..."

Seeing Li Kuafu's brows furrowed, Shui Gui Guzi didn't feel any joy after winning. He chirped a few times and said, "Why are you unhappy? I haven't seen you smile for a long time..."

"Guzi, it has been a thousand years. Powerful people like you and me in the earth world have never stopped throughout the year, but these invaders are like locusts..." Li Kuafu wrinkled and said.

Shui Gui Gu Zi smiled happily, and said: "What if there are more locusts? Will we be beheaded if we meet us? Let me think about it, how many years have we not met a suitable opponent? ..."

There was a slight smile on Li Kuafu's face, but the smile flashed by, and soon he returned to his original expression.

After thinking for a while, Li Kua's father suddenly turned his head to look at the water ghost Guzi, and said: "Guzi, follow me to their world..."

"He...their world?"

Shuigui Guzi was shocked by Li Kuafu's words. For so many years, Shuigui Guzi and Li Kuafu are incomparable. Sometimes he feels a bit lonely as a master, but he never thought of going to their world.

"Yes, just go to their world! If they can come to our world and kill them, why can't we kill them back?"

"I want them to know that in this world, there are also strong people, and there are also strong people that they dare not despise! The people I want to kill will not dare to step into this world anymore!" Li Kuafu's face Shang's expression became excited, and he clenched his fists and said excitedly.

The water ghost Guzi looked at Li Kuafu.

He thinks he already knows Li Kuafu very well, but only now did Water Ghost Guzi know that he still doesn't know Li Kuafu very much!

"Father Li Kua, can you afford all of this? There are already more than 780 strongest tribes willing to surrender, and the strongest tribes are willing to follow you. You are the strongest existence in this world. . You are their well-deserved leader, and if you want, you can even become the leader of these thousands of tribes!"

"Are you really willing to give up all this?" Shui Gui Gu Zi said.

Father Li Kua turned his head to look at Shuiguiguzi, reached out his hand and patted Shuiguiguzi's shoulder, and said, "Good men are all around, even if I become their leader?"

"You look up at the stars in the sky, now you and I are so powerful, but we still don't have the courage to fly higher, fly into the sky, and pick those stars off!"

"Now you and I are strong in our world, but looking at the entire prehistoric universe, we are as small as gravel."

"I want to go out..."

"I feel that something is calling me in that world. I don't know why I feel this way, but my heart is telling me all the time, go out, which world to go to take a look at!"

Li Kuafu said very sincerely. The water ghost Guzi pondered for a moment, and suddenly laughed: "I don't have the feeling like you in my heart, but what about this? Go, which world shall we go to together! Go to the real of that world. The strong have tried to kill them and dare not come back to our world..."

Chapter 4730: : Past life, this life, the next life

"We are in the Netherworld!"

"The power of the Netherworld more than 7,000 years ago is like a cloud. At that time, although the super **** family, god-level race, and ancient family rarely showed up, the domain master-level powerhouse and super-domain master-level powerhouse of the Nether world were It's not uncommon. After Li Kuafu arrived in the Netherworld, I followed him to the dark forest, to the sea of death crying, to the gust of wind, and finally to the Wanshen Mountain!"

"In the beginning, we were just tourists, just full of curiosity about the Netherworld. However, after going to Wanshen Mountain, the memory of Li Kuafu's previous life began to awaken, and he told me a memory that suddenly appeared in his mind."

"You may not believe it yet, but his memory is completely consistent with the battle of the Ten Thousand Gods Mountain in the Nether Realm legend. You must know that we are strong from the earth world. We have never set foot in the Ten Thousand Gods Mountain before. If it were not for the memory of his previous life, how could Li Kuafu know so clearly?"

"In Li Kuafu's memory, the fall of his previous life was due to the siege of the four super **** families and the sacred masters of the entire Netherworld, the domain master, and the super domain master. At that time, his past life memory began Gradually awakening, he finally knew why he had to come to the Netherworld!"

"Then, I followed Li Kuafu and started to slaughter the Netherworld. The ninth-level peak powerhouse, the emperor, the domain master, and the superdomain master-level powerhouse of the ninth-level, continue to fall in the hands of Li Kuafu!"

"Hahaha, the entire Netherworld was shocked by Li Kuafu's intrepidity. Only then did these Netherworld powerhouses know that the powerhouses in the earth world were not something they could provoke."

"Can you imagine that kind of scene? The domain master is in the hands of Li Kua's father, like a grass recommendation, killing at will, the super domain master-level powerhouse, even if several people join hands, the same will be beaten by throwing his helmet and discarding his armor!"

Li Tian was shocked!

Tang Xiaolong was shocked!

Situ Ningbing and Xue Ji were shocked!

Many water ghost elites were equally shocked.

Who could have imagined that more than seven thousand years ago, it was Li Kuafu and Water Ghost Guzi who stirred up the entire Netherworld.

"Our patriarch is really strong, he was already a man of the underworld more than 7,000 years ago!"

"Yes, it's a pity that at that time our Shuigui clan was like a bereavement dog. We were in panic all day long. Hidden in the rain forest had already severed our connection with humans..."

"Fortunately, when the patriarch came to our water ghost clan, he did not raise the butcher knife, otherwise..." Thinking of this, one of the water ghost clan elite couldn't help swallowing his saliva, and subconsciously shrank his neck.

While everyone present was shocked, they all looked at the Water Ghost Guzi at the same time. Now they already know some of the following stories.

This is a story with a tragic ending. Li Tian clenched his fists, gritted his teeth slightly, and looked at the water ghost millet.

Just now Shui Gui Gu Zi said a word: Past life.

The strong man who fell from Wanshen Mountain was Li Kuafu's previous life, and Li Kuafu should be regarded as this life in the story told by the Water Ghost Guzi, but in the earth world, Li Tian's biological father Li Kuafu can only be used to describe it.

...

"At that time, we were really crazy, and we were really happy! The powerhouses of the entire Netherworld would be discolored when they talked about Li Kuafu..."

Speaking of this, a trace of sadness flashed across Shuigui Guzi's face, and his eyes drifted from side to side, as if he was recalling something extremely painful.

He picked up the bottle, wanted to take a sip, but found that the bottle was empty.

Shui Gun wanted to get up to pour some wine to Shui Gui Guzi, but Shui Gui Guzi waved his hand to refuse.

"It's just that I was still too naive at that time. I don't know that Li Kuafu still has deeper hatred in his heart. From that time on, all the powers of the Nether Realm of the ninth level and above spontaneously formed an alliance, and everyone's goal was only One person is Li Kuafu!"

"It's just that Li Kuafu's strength at that time has reached the peak realm of Transcendent Lord, even if it is also a strong person in the pinnacle realm of Transcendent Lord, it is difficult to escape from his hands!"

"Kill...Kill...Kill..., hahaha, only more than 20 domain master-level powerhouses were beheaded, and the number of emperor-level powerhouses left behind was even less, while the super domain master-level powerhouse As long as they are not attached to the super **** family and haven't lived in seclusion, they will all fall!"

"Father Li Kua used his own power to forge the future generations of the Netherworld!"

Tang Xiaolong only felt that the blood in his body was already burning!

This story, no, these things sound too passionate!

Compared to Li Kuafu, what he and the little boss are doing seems to be a little trouble, there is no way to compare!

Situ Ningbing and Xue Ji have been completely impressed by Li Kuafu's deeds!

A strong man from the earth world can even level the entire nether world and become the strongest in the nether world. No wonder that the nether world later closed all the channels leading to the earth world, so they were scared!

Only Li Tian has a gloomy face.

"I have said before that Li Kua's previous life was lost because of being killed by the Super God Family. Li Kua's purpose is only to force the Super God Family out. He wants revenge!"

Water Ghost Guzi paused, his eyes gradually fell on Li Tian, and he looked up and down Li Tian a few times, and then continued: "Our goal has been achieved. Li Kuafu shocked the entire Netherworld. He successfully caused The attention of the Super God Family, he successfully angered the Super God Family!"

"Donggong and Sanlu, the two super **** families, have joined forces and sent more than fifty super domain master-level powerhouses. Their patriarch, two super powerhouses close to the demigods, led the team to besieged Li Kuafu and me... .."

Two fists are hard to beat four hands, and a hero can't hold back a pack of wolves.

"Although Li Kuafu is only the pinnacle of the super domain master, even if he is besieged by two powerhouses close to the demigod level, he still does not lose the wind. If... without me, Li Kuafu is completely possible from the netherworld Jie retreated all over, but...but..."

There were tears in the corner of Shuiguiguzi's eyes again.

"We escaped, but Father Li Kua was not so lucky this time. His previous life fell because of the Super God family, and his current life also fell because of the Super God family."

"However, Li Kuafu told me that as long as his soul is immortal, he will enter reincarnation, and he will still be reborn! He will still stand at the pinnacle of the earth world and the underworld..."

"Father Li Kua died in my arms, and my best brother... left to protect me..."

"I believe Li Kuafu will not lie to me, so I practiced the clone, let my clone go to the earth world, and let my clone cultivate the little four elephants in the earth world..."

Li Tian finally understands!

Although Li Kua's father was not Li Tian's biological father 7,000 years ago, Li Tian also recorded this hatred on the Super God Family. Li Tian gritted his teeth and said in a low voice: "Donggong Super God Family, San Lu Super God Family..."
