

A Killer 4741

Chapter 4741: :Unfortunate news

No need to guess, Li Tian also knew that these two guys in front of him were probably the strong men sent by the Donggong Super God Family to deal with him.

Huh!

Li Tian instantly stood up from the recliner.

Tang Xiaolong, Situ Ningbing, and Xue Ji stood behind Li Tian.

Li Tian squinted slightly, staring coldly at the two uninvited guests who suddenly appeared on the flying treasure ship.

"East Palace"

Seeing the word Donggong embroidered on the chests of the two guys' clothes, Li Tian's eyes twitched slightly.

"It really is the Donggong Super God Family!"

When the bad comes, the good does not come.

"I don't know you, please leave my flying treasure ship immediately, otherwise I can assume that this is a provocation to my Li Tian, and I will have the right to fight back against you..." Li Tian said coldly.

"Fight back?"

Donggong Jiangshan laughed wildly as if he heard the most funny joke in the world.

"Li Tian, don't **** pretend in front of us! You are just a little **** of the emperor...you are qualified to be rampant in front of ordinary venerables, but in front of our super **** family, you No rampant capital!"

This is quite domineering!

When Donggong Jiangshan said these words, his body instantly released a powerful murderous intent.

The many flight attendants on the flying treasure ship couldn't bear this murderous aura. They all went to the end, and instantly lost their consciousness. Xue Ji's body shook slightly, and she was about to fall to the ground, but Li Tian stretched out her hand to support.

"It doesn't matter, right?" Li Tian asked caringly.

Xue Ji's face was pale, and she shook her head slightly and said, "It's okay, Li Tian, send me into the space of Void Yasha, I don't want to drag you down!"

Li Tian shook his head, and said, "It's just two little mice of the Donggong Super God family. They are not strong enough to make me afraid of Li Tian! Don't worry, I am here with your husband!"

The speaker is mindful, the listener is more mindful.

In front of them, Li Tian even dared to show affection, which made Donggong Jiangshan and Donggong Yaotong seem to be greatly insulted.

"Hey, crazy enough! I like it!" A wicked smile hung on the corner of Donggong Yaotong's mouth.

Immediately, a powerful pressure fell from the sky and instantly blasted on the flying treasure ship.
weight!

This is the weight of the super domain master-level powerhouse!

Creak!

Creak!

The flying treasure ship couldn't bear the pressure and made a burst of noise.

boom!

Click!

On the flying treasure ship, those recliners and tables designed and manufactured by Li Tian collapsed instantly by the pressure, wine glasses and bottles shattered continuously, and glass shards splashed everywhere!

boom!

Xue Ji felt that she had been hit by a high-pressure gas cannon, her body involuntarily wanted to fall down, and the skin on her body immediately felt pain like a needle stick.

The flight attendants who fell on the ground were unconscious, but their bodies kept making bean-like noises, compared to the bones in their bodies being crushed a lot.

Blood flowed from the corners of these stewardess's mouths, but fortunately, they had fallen into deep fainting and couldn't wake up at all, so the pain would not be so strong.

The flying treasure ship fell down quickly.

This fell heavily on Tang Xiaolong, and Tang Xiaolong only felt a buzzing sound in his head.

Immediately, Tang Xiaolong felt that his body seemed to be pressing on several mountains, making his whole body feel uncomfortable, and he was struggling to move his body.

Tang Xiaolong's two legs were trembling slightly, and the muscles on his legs were beating constantly, as if he could kneel on the ground at any time.

This is the strength of the super domain master class powerhouse.

The power of gravity attacks released by them far surpasses the power released by the monks and the powerful masters at the Venerable level.

boom!

The flying treasure ship hit the sea, the treasure ship shook violently, the sea was hit to both sides and flew up.

The sea is constantly falling, floating on the flying treasure ship.

Ah~!

The flight attendants who fell on the ground, after being splashed by the river, instantly became sober, but the severe pain caused them to faint again.

Li Tian's face is very ugly!

This is the first time that he has officially battled with a super domain master-level powerhouse. He has just contacted him. The strength shown by the two super domain masters of the Donggong family is enough to make him feel shocked.

"Boy, aren't you crazy? In front of our Donggong Super God Family, no one has the arrogant capital!" Donggong Jiangshan said with a sneer.

Donggong Yaotong's gaze slowly swept across the flying treasure ship. When he saw Xiao Tianyi and the waterfowl with sunglasses, he was only slightly surprised, but soon his gaze automatically skipped these two people.

Donggong demon pupil smiled evilly and said: "Where is your brother Ziyang Thunder Bear now? Since he has the ability to attack our Donggong Super God family and dare to kill Donggong Buchan, how can he hide now?"

"Call him out! Our main goal is him. As for you little rubbish, we just clean it up by the way!"

Li Tian stared at Donggong Jiangshan and Donggong Demon Eye, gradually revealing a murderous look in his eyes.

"Ningbing, Xiaolong, Xue Ji gave it to you!" Li Tian said.

"Don't worry, little boss!"

Tang Xiaolong moved a few steps with difficulty, and simultaneously supported Xue Ji with Situ Ningbing.

Li Tian's attitude has said everything.

This time, Li Tian will not regress in the slightest.

Li Tian moved with difficulty, he was walking towards Donggong Jiangshan and Donggong Yaotong step by step!

Huh!

The Qiong Spear of the Sky had appeared in Li Tian's hands, and a black flame gradually floated on Li Tian's body, and a murderous aura began to spread on Li Tian.

"My brother is not on the treasure ship, do you want to find him? First, ask if the spear in my hand agrees!" Li Tianzhuang said forcefully.

"Hahaha, did my eyes dizzy? A newly promoted domain master, in front of our super domain master-level powerhouse, dare to pretend to be forceful!"

"Ignorance!"

"He is not ignorant, but rampant! The emperor's realm can kill the domain master-level powerhouse. In just a few months, the cultivation base has been upgraded again, and he has reached the domain master realm. In all the emperor's and domain master-level powerhouses In my son, he is considered a powerful memory!"

"However, his strength is only limited to the super domain master. In front of us domain master-level powerhouses, his strength is simply unbearable!" Donggong Jiangshan said with a contemptuous smile.

"Don't talk nonsense, since the **** fellow Ziyang Thunder Bear is not on this flying treasure ship, we have to go to the Dark Forest to kill the Ziyang Thunder Bear."

Donggong's demon pupil smiled evilly on his face, and continued: "It's as if we were in Yecheng, in the kingdom of the Lord of Frost Territory, beheading the three former emperors, and cutting down those who obeyed Li Tian. It's the same as if you beheaded!"

Hum!

Li Tian only felt a dizziness in his head, and said in a trembling voice: "Could it be...Is it possible that Emperor Yecheng, Emperor Dragon, Emperor Zhao Family..."

"Yes! They are all dead! It's just some ants. If it weren't for scruples, I would really like to fly the entire city of Yecheng! There is also the trash that is vulnerable to the kingdom of the Lord of Frost. Men, of course they will be wiped out!" Donggong Yaotong said.

Hum!

Li Tian's body shook suddenly.

The Third Young Master...

Ye Meijing...

Liu You...

Liu Jimeng...

"I killed you!" Li Tian roared with anger flashing in his pupils.

The Donggong demon pupil sneered and said: "Hahaha, in the Netherworld, the strong are respected, and the weak eat the strong. They are just dogs. Are they so angry?"

"It's me who should be really angry, it's our Donggong Super God family!" Donggong Yaotong's body was suddenly more murderous, and said angrily: "Donggong Buchan, the rare genius of our Donggong Super God family, He died in the hands of you rubbish!"

"Don't say just slaying such rubbish, even if the purple flame thunder bear's dog head is chopped up, it is not enough to eliminate the roar of the Donggong Super God family!"

"You Li Tian, your brother, your woman, your Venerable Kingdom, everyone deserves to die, everyone is to die. Only if you go to the Donggong Buchan to bury you, can we alleviate the anger of our Donggong Super God Family!"

Donggong demon pupil has also slowly walked towards Li Tian.

Whoosh!

An aura spear was condensed in his hand instantly!

The appearance of this spear is exactly the same as the spear of heaven in Li Tian's hand!

Returning to the other body in the other way, today the Donggong Demon Eye wants to humiliate Li Tian in this way.

step.....

Two steps...

Donggong Yaotong walked slowly towards Li Tian.

Three steps...

Four steps...

Li Tian walked slowly towards the Donggong demon pupil.

...

At this time, Li Tian felt that the pressure exerted on the flying treasure ship had disappeared.

Donggong Yaotong is a super domain master-level powerhouse, and his cultivation is still above the Donggong step. Facing Li Tian, the newly promoted domain master, he is qualified to be rampant and qualified to despise Li Tian.

He doesn't believe that Li Tian can still make waves with such a small garbage!

weight!

instant!

area!

He disdains the ability to completely suppress Li Tian!

He just used the simplest and most rude way to defeat Li Tian and behead Li Tian!

The distance between the two is getting closer...

Getting closer.....

No one is heavy in actual combat, but the air has become serious.

The sky was still clear just now, but at this time, the sky was already covered with dark clouds, gusty winds, sea water was surging, and the flying treasure ship was shaking violently on the sea.

The attention of Tang Xiaolong, Situ Ningbing, and Xue Ji unconsciously focused on Li Tian and Donggong Yaotong.

"The frog at the bottom of the well can't help it!" Donggong Jiangshan said with a relaxed and disdainful expression.

"Who do you think is like a frog? Lao Tzu is an authentic water ghost clan!" The water bird stood up, staring at Donggong Jiangshan angrily, and asked angrily.

"what?"

Donggong Jiangshan couldn't help flashing a hint of exclamation on his still breezy face just now.

"Hey, it's no wonder Li Tian is so arrogant and arrogant, it turns out that there is a strong water ghost clan supporting him!" Donggong Jiangshan stretched out his finger to point to the water bird,

and said: "I have long heard that the water ghost clan is rising, but , If you don't want the water ghost clan to make the same mistakes again, you'd better get out!"

"Fuck your mother!"

Now that you meet the Donggong Super God family, the water ghost clan strong water bird who has a **** feud with the Donggong Super God family, how can you let them leave here alive!

Chapter 4742: : The attack is invalid?

Donggong Jiangshan's face was extremely ugly.

He has been a super domain master power for tens of thousands of years. During these tens of thousands of years, whoever sees him will be respectful and polite, and no one has ever dared to insult his family directly.

The corners of Donggong Jiangshan's mouth twitched a few times, resisting the anger in his heart, showing a sneer, and said, "There is a way to heaven, you don't go, and there is no way to hell. Jiangshan will fulfill you!"

Boom~!

A powerful murderous aura was released from Donggong Jiangshan, and with the release of this murderous aura, the entire flying treasure ship was instantly wheeled into the domain released by Donggong Jiangshan.

Huh!

Donggong Jiangshan instantaneously teleported to the waterfowl, and his fist was like a burning meteorite, blasting the waterfowl heavily.

boom!

It was just an instant. The domain released by Donggong Jiangshan was broken open by the waterfowl in an instant, and the waterfowl had regained freedom. With a light tap on Donggong Jiangshan's fist, his body flew back lightly and directly. Flew to the sea!

Donggong Jiangshan chased after him with his right foot a little bit on the flying treasure ship, and again blasted several punches at the water bird. With each punch, a huge scarlet meteorite fireball with a diameter of more than one meter hit the water bird.

Waterbird grinned slightly, but there was a casual sneer at the corner of his mouth.

"Get up!"

The sea waters of more than a few hundred square meters under the feet of the waterfowl formed a rectangular parallelepiped, as if controlled by him, soaring upward!

The height has reached hundreds of meters in an instant.

boom!

boom!

boom!

The fire fist of Donggong Jiangshan hit the water column high platform, the water column high platform was blown to pieces, and the whole high platform was shaking continuously.

Boom!

The water column high platform still couldn't stand the attack of Donggong Jiangshan and collapsed instantly.

The expression on the waterfowl's face was as usual, his body was flying lightly in the air, and the collapsing water column instantly changed into thousands of water arrows, shooting towards the east palace.

Whoosh!

Whoosh!

Donggong Jiangshan sneered, closed his palms, and slammed forward.

A huge, scarlet flame shock wave with a range of more than a few hundred meters pushed out from the palms of Donggong Jiangshan, and flew toward the water arrows that had been shot.

The water arrows had not yet touched the giant flame shock wave, they had evaporated into water vapor in an instant and disappeared.

It's just that the flame shock wave didn't mean to stagnate, and it still rushed towards the waterfowl flying in the air.

Water ghost tribe is the best at manipulating water.

Now on this sea, water ghosts dominate.

Even if the power of the flame shock wave of Donggong Jiangshan is extraordinary, the water bird is still very calm, his figure flashed, and instantly teleported from mid-air to sea level.

However, the flame shock wave that had already rushed into the air did not rush into the sky. It turned around and blasted toward the water bird again.

"Hey!"

The water bird sneered and plunged his hands into the sea. Then the water bird gritted his teeth and lifted his hands violently. Two water columns flew out of the sea with the water bird's arms.

When the feet of the waterfowl were on the screen, the surface of the sea was sunken down, and the body of the waterfowl flew up again, while his left and right hands each held a water column connected to the sea.

drink!

The water bird slammed forward with both hands, and the two water columns in his hand, as if incarnate into two water dragons, rushed into the flame shock wave of the East Palace.

When the two water dragons were separated from the waterfowl's arms, there was still only the thickness of the mouth, but as the water dragon continued to soar, the water dragon became stronger and stronger.

When it was about to hit the flame shock wave, the length of the water dragon was more than a few hundred meters, and the water dragon was nearly five or six meters thick.

boom!

Ssangyong played with beads, two water dragons collided on the flame shock wave at the same time, making a loud noise.

Crackling!

The water dragon blasted on the flame shock wave, constantly making a bean-like sound, which is the sound of sea salt formed when the sea water is evaporated by the flame burning and bursting in the flame.

The flame shock wave didn't mean the slightest extinguishment, even if it was against the attack of two water dragons, the flame shock wave still blasted at the water bird at an extremely fast speed.

The waterfowl has landed on the sea, and once again inserted his hands into the sea, once again condensed two water dragons rushing to the flame shock wave!

"It's useless! Although your water ghosts have a certain advantage on this sea surface, but... this is the sea surface. These sea waters are just ordinary water. Even if there is more sea water, it is impossible to extinguish my flame spirit. Power shock wave attack!" Donggong Jiangshan said with a smile.

If two do not work, then four, if four do not work, then eight!

The waterfowl was not affected by the Donggong rivers and mountains in the slightest, and kept grabbing towards the sea with both hands, but in less than a minute, more than a dozen water dragons had already lifted into the air from his hands and blasted into the flame shock wave.

Waterfowl likes to make water dragons to attack the flame shock wave. He wants to make so many dragons that Li Tian made in the banquet hall.

The important thing is momentum, and the water bird does not expect this water dragon to defeat Donggong Jiangshan.

Only a man who is extremely confident of his own strength can have such a big playful mind.

Waterfowl is such a man.

However, Donggong Jiangshan will not allow water birds to recklessly make water dragons to play.

Whoosh!

Donggong Jiangshan suddenly teleported and kicked heavily at the waterfowl's head.

The same is not an ordinary attack. Donggongjiangshan's legs are full of red flames, and even the waterbirds can see Donggongjiangshan's legs as if they turned into burning rocks at this moment.

"coming!"

The water ghost said these two words in a low voice, but there was a sneer at the corner of his mouth, and at this moment his body suddenly thought of sinking into the sea.

"Hey, you are a water ghost, not a sea monster, how long you can hide in this sea water!" Donggong Jiangshan sneered, kicking a few feet against the sea.

Hey!

The sea under his feet was swaying constantly, and every time he kicked a foot, another red meteorite fireball with a diameter of more than one meter was blasted into the sea.

This is the spiritual power flame of Donggong Jiangshan, even if it encounters sea water and sinks into the sea, the spiritual power flame is still burning.

Waterfowls in the sea are like fish like water, becoming more comfortable, twisting their bodies in the sea, swimming around, avoiding the attacks of the East Palace.

The water dragon that lost the follow-up support of the waterfowl could not stop the flame shock wave at all, and instantly exploded in the sky.

Wow!

Patter!

The water dragon exploded, and the sea area where Donggong Jiangshan was located seemed to be raining.

At this moment, the waterfowl jumped out of the sea.

"Dungeon! Sleepy!"

Those tens of millions of raindrops could be controlled by waterbirds, and they floated towards the East Palace.

The water ghost does not have bone weapons in his hands, because when he releases the first water dragon, the hollow weapon made with his cervical spine has become the keel of one of the water dragons.

It is precisely because of this that although the water dragon can hardly resist the flame shock wave, it will not easily be defeated.

At this time, the hollow weapon of the water bird was slowly falling down, and the countless small fish in the hollow weapon had already been mixed in the drops of rain and surrounded the Donggong rivers and mountains.

The hollow weapon fell into the hands of the water bird, huh! The water bird shook his wrist, and the hollow weapon slid across, leading the raindrops to stab the Donggong country.

...

The flying treasure ship swayed on the sea.

Li Tian and Donggong Demon pupil on the treasure ship were not affected by the waterfowl and Donggong rivers and mountains.

The distance between the two is no more than ten steps apart.

Li Tian's whole body was already covered in black flames, and above his head, ninety-nine black fire purple dragons hovered.

This is not a discussion, this is a real battle of life and death.

Donggong Yaotong's complexion was like water, and the evil mockery at the corner of his mouth never disappeared.

I have to admit that Li Tian is indeed a rare genius.

When they got the order to chase and kill Li Tian, what they knew was that Li Tian was only a powerful person in the realm of the emperor who could kill the domain master.

But now, Li Tian is already in the realm of the domain master, and the aura released from Li Tian's body is already the peak of the domain master, almost close to the powerhouse in the early superdomain master level.

A strange light flashed through the eyes of the Donggong demon pupil's eyes, and his gaze swept across the black fire purple dragon in the sky from time to time.

Eight steps...

Six steps...

Suddenly, Li Tian moved!

Quietly as if the virgin was moving like a rabbit, Li Tian's feet were a little bit, and the Heavenly Qiong spear in his hand slammed into the Donggong Demon Eye. With this movement of Li Tian, there were ninety-nine black fires on his head. The purple dragon roared and flocked to the Donggong demon pupil.

"This guy's strength is still higher than that of Donggong Step. I am not his opponent for the time being. I only have this opportunity. If I can't use this opportunity to kill him, then I can only ask Xiao Tianyi to take action." Li Tian Thinking in his heart.

This kind of thought has just passed in an instant.

Facing the attack of Li Tian's Qiong Spear of Heaven, the evil smile on the corner of Donggong's demon pupil's mouth was even brighter, and he actually made the same action as Li Tian.

The toes were a little on the ground, the body flashed forward, and the spiritual power spear in his hand also pierced out.

The tip of the needle faced the Maimang, and the spear tip of the spiritual power spear in the hands of the Donggong Yaotong hit the spear of the sky in Li Tian's hand.

Li Tian felt that his Heavenly Qiong Spear had pierced into the sea. The strength was the mud cow entering the sea, and there was no response at all.

But only in an instant, a surging power came from the spiritual power spear in the hand of the Donggong Demon Tong, and instead rushed to Li Tian.

boom!

Li Tian only felt that his hand holding the Qiong Spear of the sky was tingling, almost unable to figure it out, and the Qiong Spear of the sky almost let go.

"How is it possible?" Li Tian said in shock.

Shocked, but Li Tian couldn't help showing a smug sneer at the corner of his mouth.

There is a price to be arrogant and arrogant!

boom!

Ninety-nine black fire purple dragons have flown in front of Donggong Demon Tong's body, and instantly rushed into Donggong Demon Tong's body.

Crackling!

Hey!

A scorching smell came from Donggong Demon Tong's body. Purple lightning kept beating on his body, devouring Donggong Demon Tong's body... his clothes?

Li Tian stared in front of him dumbfounded, and couldn't believe the underground consciousness exclaimed: "No...impossible...Is my black fire purple dragon attack also ineffective against this guy?"

Chapter 4743: : The magic of the demon pupil?

"Hey!"

Donggong Yaotong smiled suddenly, his smile was so oozing, Li Tian felt as if he was being stared at by a poisonous snake, and his whole body shuddered.

At this time, the pupils of the Donggong Demon pupil suddenly protruded, and then, a trace of black spiritual power floated out of his pupils.

It's like spinning, but the spinning speed is getting faster and faster.

Gradually, there was a trace of purple spiritual power in the double pupils of the Donggong demon pupil, and this purple spiritual power continued to float out of his pupils.

"No... this is not spiritual power..."

Li Tian's pupils were involuntarily enlarged, because in his eyes, those spiritual powers turned into black fire purple dragons in an instant!

"This... how is this possible?"

Behind Li Tian, Tang Xiaolong, Situ Ningbing, and Xue Ji all looked in front of them dumbfounded and exclaimed at the same time in disbelief.

Yes, how is this possible?

If it is an ordinary spirit power dragon, then this is nothing to be surprised, but what appears in front of us is a black fire purple dragon, and only Li Tian in the entire underworld can release this kind of spirit power dragon.

Because only Li Tian was the one who refined the blood spirit source and practiced "Qingyun" at the same time.

But how do you explain this situation?

However, this was just the beginning. When Li Tian and the others were surprised, there were already a few more black fire and purple dragons in front of Donggong Demon Tong's eyes.

Li Tian wanted to control these black fire purple dragons, but found that he and these black fire purple dragons had completely lost contact, in other words, this black fire purple dragon did not belong to Li Tian.

Li Tian stepped back involuntarily.

He wanted to know what was going on. Those black fire purple dragons belonging to Li Tian blasted into the body of the Donggong Demon Tong, and although the Donggong Demon Tong was not killed, he also received a certain attack.

In other words, the black fire purple dragon still has a certain offensive effect on the Donggong demon pupil, but... but how can the situation be explained?

Could it be... Could this be the ability of the Donggong Demon Eye?

Li Tian seemed to want the awakening ability of those strong men in the earth world in the last days.

However, Li Tian still finds it difficult to accept this reality.

The awakening abilities of the powerhouses in the earth world seem to be more like superpowers. Those so-called powerhouses are simply vulnerable to the cultivators and venerables of the Netherworld.

Suddenly, Li Tian saw the twin pupils of the Donggong demon pupil.

"Is it your eyes? Isn't it possible that your eyes possess some kind of magic?" Li Tian asked.

"Are you surprised? Isn't it terrifying?" Donggong Demon Tong's mouth with a wicked smile continued to say to Li Tian: "Don't worry, I will use your tricks to blast you into pieces! This way you will die. You can look down!"

Li Tian calmed down quickly.

He played several moments in a row, backed more than a dozen meters, and opened the distance from the Donggong Demon Eye. At the moment when Li Tian backed away, his arms and body continued to fly out of the black fire purple dragon.

Another ninety-nine black fire purple dragons hovered over Li Tian's head in an instant.

The Qiong Spear of Heaven in Li Tian's hand slammed forward, and the black fire purple dragon above his head swarmed towards the Donggong demon pupil as if he had received some order!

Donggong demon pupil saw this scene without the slightest panic, and roared, dozens of black fire purple dragons instantly emerged from his pupils.

Also ninety-nine black fire purple dragons!

Black Fire Purple Dragon vs. Black Fire Purple Dragon, the entire flying treasure ship was instantly occupied by these one hundred and 98 Black Fire Purple Dragons.

Black flames were burning, purple lightning flashed, and from time to time a miserable dragon roar and violent explosions sounded over the flying treasure ship.

The same is the Black Fire Purple Dragon, exactly the same. Except for Li Tian and Donggong Buchan, no one else can tell whose Black Fire Purple Dragon is exploding and whose Black Fire Purple Dragon is falling.

Whoosh!

Whoosh!

Once Li Tian's black fire purple dragon exploded, a black fire purple dragon would instantly rise from Li Tian's body to join the battle.

However, Li Tian's face became more solemn.

Li Tian discovered that the power of these black fire purple dragons released by his "Blue Cloud Jue" was actually less powerful than the black fire purple dragon controlled by the Donggong demon pupil.

From a moment ago, all the black fire purple dragons that kept exploding and falling in the sky were all released by Li Tian.

If it hadn't been for Li Tian to release the Black Fire Purple Dragon to supplement him at any time, Li Tian would have already been defeated now.

"why?"

"Why is the pirated version even stronger than my original version?"

"Is it because this guy in front of you is a super domain master powerhouse?"

"What kind of magic is this? Is there such a big gap between Li Tian and the super domain master-level powerhouse?" Li Tian thought unwillingly.

After Donggong demon pupil released ninety-nine black fire purple dragons, his pupils gradually returned to normal.

"Hey, have you begun to doubt life? My Donggong Demon Eye is not the kind of Donggong Step, let alone your domain master level trash, but even a super domain master level powerhouse can make me jealous. There are only a few!" Donggong Yaotong said with a smile.

At this moment, the Donggong demon pupil suddenly moved!

His feet were a little on the ship's surface, the flying treasure ship under his feet suddenly sank, and the spiritual power spear in the hands of the Donggong Yaotong stab Li Tian at lightning speed.

Li Tian only felt a powerful pressure pressing on him instantly, his heart was flustered, and the spiritual power in his body's veins suddenly surged uncontrollably.

The black fire purple dragon that was pouring out of Li Tian's body was instantly interrupted, and the spiritual power spear in the hands of Donggong Yaotong had reached Li Tian's body.

Danger!

Li Tian subconsciously had to use the Qiong Spear of the Sky to block it, but the spear tip of the Qiong Spear in the hands of Donggong Yaotong bypassed the Qiong Spear of the Sky and continued to stab Li Tian.

Donggong Yaotong has a spear of spiritual power in his hand, and his spear can move with his heart.

Li Tian's pupils dilated, and a fear of death began to spread in his heart. Li Tian wanted to teleport and escape.

Huh!

At the moment of the moment, Li Tianshi displayed a teleportation, leaping back several tens of meters, and finally escaped from the magic spear attack of the Donggong demon pupil.

Donggong Yaotong did not chase you Li Tian, but showed a wicked smile.

"not good!"

Li Tian was shocked, dozens of dangerous auras came from behind Li Tian. Before Li Tian could turn around, the dangerous aura level instantly surrounded Li Tian.

"Little boss... be careful!"

"Lee..."

"Li Tian..."

Tang Xiaolong, Situ Ningbing and Xue Ji shouted at the same time.

Li Tianyong had no time to turn around, turned his head slightly, and glanced backwards with a peripheral light. He saw that there were dozens of black and purple dragons behind him.

These black fire and purple dragons flocked to his body with teeth and claws.

boom!

boom!

boom!

The black fire purple dragon kept pouring into Li Tian's body, and Li Tian's body seemed to be constantly being hit by a heavy hammer.

In just a few seconds, Li Tian's body skin had turned dark, and his skin was slightly scorched. Hundreds of small wounds opened instantly on his body. Blood was flowing down the wounds, and Li Tian had become a blood man.

Li Tian thumped and fell to his knees, his hands hanging weakly.

"Little boss..."

"Li Tian..."

Tang Xiaolong, Situ Ningbing, and Xue Ji all teleported to Li Tian's side.

Tang Xiaolong wanted to support Li Tian, but as soon as his hand touched Li Tian's body, a powerful electric current was transmitted from Li Tian's body. In an instant, Tang Xiaolong flew out and hit him hard. Flying treasure ship.

Li Tian said with difficulty: "No... don't touch me..."

"Li... don't force it!" Situ Ningbing said with a worried look on her hand and stopped in midair.

Before the battle between Li Tian and Donggong Yaotong, Xiao Tianyi wanted to fight for his father, but Li Tian refused.

Li Tian wanted to chop off the head of the Donggong Demon Eye, and use this very golden head to destroy the blood wolf tribe, and subdue the blood wolf tribe with waterless strength.

It's just that the ideals are beautiful, but the reality is that the strength of the Donggong Demon Eyes completely exceeded Li Tian's expectations, and the battle had just begun, and Li Tian was embarrassed by Donggong Demon Eyes' evil arts.

Now, ninety-nine black fire purple dragons have flooded into Li Tian's body veins, and these black fire purple dragons are unscrupulously destroying the spiritual power in Li Tian's body veins.

Of course Li Tian wouldn't sit still, but the black fire purple dragon condensed in his body's veins is still not the opponent of these black fire purple dragons!

Donggong Yaotong showed a wicked smile, Li Tian was already dead in his eyes, and he was no longer willing to waste time on Li Tian.

"It's your turn, kid!" Donggong Demon Tong pointed at Xiao Tianyi and said.

Xiao Tianyi was looking at Li Tian with a worried look. He felt sorry for Li Tian, but without Li Tian's permission, he couldn't make a move.

"Good boy, I allow you to make a move. However, if you don't make a move, it must be a thunderous means to avenge Laozi!" Li Tian gritted his teeth and said viciously.

With inferior skills, Li Tian is unwilling to promote any style.

If Li Tian can now surrender the black fire purple dragon in his body, Li Tian will definitely not hesitate to join forces with Xiao Tianyi to attack the Donggong Demon Eye!

Xiao Tianyi nodded heavily, his aura suddenly increased.

...

On the sea in the distance, the waterbirds were a little embarrassed!

This Donggong Jiangshan knows that the water bird is a water ghost clan, how can it easily get caught and let the water bird trap him?

The waterfowl's water prison was not formed yet, it was instantly broken by Donggong Jiangshan.

The inexhaustible raindrops were directly refined by the flame spiritual power of Donggong Jiangshan, and the parasite fish in the raindrops were almost completely wiped out!

"Hey, as a water ghost, don't you even have a little bit of historical common sense? Who drove monsters like you out of the human habitat? You will not forget this kind of thing? You dare to use water prisons on me. You are a bit too tender!" Donggong Jiangshan said with a sneer.

The waterfowl's complexion was gloomy, and his eyes stared coldly at Donggong Jiangshan. Suddenly, the waterfowl's mouth was slightly upward, revealing a smile.

"Water guns, water cannons, parallel imports, you always call me a rookie, and I don't want to argue with you. However, today our water ghost clan was mocked by this guy from the Donggong Super God family... Hey, I will make this arrogant The guy who knows the strength of our water ghost clan will also let him know how terrifying my rookie is!"

Chapter 4744: : Water of waterfowl, bird of waterfowl

Donggong Jiangshan smiled.

The East Palace Super God Family has been standing in the Nether Realm for tens of thousands of years, and even longer, the East Palace Super God Family has also made countless enemies in the Nether Realm.

Too many venerables, domain masters, and super domain masters were wiped out by the East Palace Super God Family, and many powerful families were uprooted by the East Palace Super God Family, and mysterious races like the Water Ghost Tribe were not destroyed by the East Palace The Super God family rushed to kill, but also hid.

However, the East Palace Super God Family is still the Super God Family, still standing in the Nether Realm, and no one can shake the East Palace Super God Family.

As for the rise of the water ghost tribe?

If they just rise peacefully and live obediently and live okay, but if they want to be unfavorable to the East Palace Super God Family, then the East Palace Super God Family will absolutely not mind completely eradicating the Water Ghost in the Nether Realm!

"Come on, let me see what the mysterious family Shuiguizu is capable of!" Donggong Jiangshan said with a smile.

The water bird put away the baseball cap and sunglasses that Li Tian gave him, and put it into his space ring, revealing the appearance of his water ghost.

Donggong Jiangshan frowned slightly when he saw the appearance of the Shuigui tribe.

"It looks so ugly, even if it is not a human being, it is no wonder that he will be driven out of the area where humans live in the Nether Realm." Donggong Jiangshan thought in his heart.

The waterfowl didn't speak, he squatted on the surface of the sea, with his hands stretched into the water, his eyes were staring straight at the Donggong River.

"Come back? Would you do such a trick?" Donggong Jiangshan couldn't help but sneered, and said: "Didn't I tell you? Even if more sea water attacks me, it will be ineffective for me!"

"There was a smile on the corner of the water bird's mouth. He ignored Donggong Jiangshan's sneer, and gently moved his hands in the sea.

If Donggong Jiangshan looks carefully, he will find that whenever sea water flows over the water bird's arm, there will be a thread of water flowing through the water bird's arm from the sea, and then drill along the water bird's pores. Went in.

Then, it circulated in the waterfowl's body veins, and then turned into white smoke, flying out from the waterfowl's head.

The white smoke curled up towards the sky.

Donggong Jiangshan can see that the white smoke is some spiritual power, a touch of spiritual power.

"What the **** is this water ghost clan doing?" Donggong Jiangshan thought a little puzzled.

The white smoke rose into the sky, rising higher and higher, and soon disappeared into the white clouds in the sky, completely disappearing within the sight of Donggong River and Mountain.

"Doing woolen yarn! Is this stuff delaying time? Or is it sending a distress signal to his companion?"

Donggong Jiangshan looked around, surrounded by endless waters. Except for the spiritual power fluctuations from the battle between Donggong Yaotong and Li Tian on the flying treasure ship, there was no other spiritual power fluctuations around.

"It's an idiot, I still pretend to be a ghost at this time. I don't have time to wait for you, so let me send you to hell!"

Huh!

Donggong Jiangshan instantaneously teleported to the front of the waterfowl, his legs carrying hot flames, and the speed was like lightning, constantly kicking the waterfowl.

The waterfowl's legs lightly touched the surface of the sea, and the sea surface instantly sank downward.

This piece of sea turned into a huge slide at this moment, and the waterfowl continued to slide down the sea, avoiding the attack of Donggong Jiangshan.

Behind the waterfowl, water dragons constantly flew out of the sea and stood in front of the waterfowl.

boom!

boom!

boom!

This water dragon has only the thickness of the bowl, and the moment it came out, it was kicked and exploded by the flames of Donggong Jiangshan. The water splashed in all directions, and it had evaporated before it fell on the sea.

"Hey, do you want to escape?"

Donggong Jiangshan suddenly displayed the domain, forming a domain belonging to him within a range of tens of kilometers nearby!

This domain was destroyed by the waterfowl at the moment it was formed, but Donggongjiangshan had already appeared in front of the waterfowl with this dozen.

Huh!

Huh!

Huh!

Donggong Jiangshan kicked out a few consecutive legs again.

This time the waterfowl could no longer evade, so he could only draw his hands out of the sea water, and slapped Donggong Jiangshan's legs with his palms, dissolving Donggong Jiangshan's attack.

Hey!

There was a sound of flame burning skin from the palms of the waterfowl, and several plumes of white smoke rose again.

However, Donggong Jiangshan's flame-leg attack was just a false move. He flew back two meters away from the moment when the water bird resisted, and his palms closed together, again blasting a shock wave!

Close at hand, the flame shock wave of Donggong Jiangshan was a hundred meters huge, and at this moment Donggong Jiangshan once again used the domain, trapping him and the waterfowl in his domain.

This series of attacks were all issued in just one second, and the waterfowl could break through the territory of the East Palace, but there was no way to completely avoid the flame shock wave.

The body of the waterfowl plunged into the sea suddenly, spouting spiritual power from his palms continuously, forming a thick spiritual power shield in front of him.

boom!

The blast of flame spiritual power from Donggong Jiangshan opened the sea and blasted on the spiritual power shield in front of the water bird.

Hey!

The spiritual power of the water bird is the most common water attribute spiritual power of the water ghost tribe.

In the five elements, water overcomes fire, and water-based spiritual power also overcomes fire spiritual power.

But there is no absolute in all things. Water is to overcome fire, but this is also based on a relative amount. A bowl of water will certainly not be able to extinguish the raging fire.

Just like now, the height of the flame shock wave released by Donggong Jiangshan has reached more than 100 meters. This flame shock wave can open the sea surface and hit the water spirit shield in the water bird's hand, and the water spirit shield will be shattered in an instant.

Densely dense worms gush out from the skin of the waterfowl's arms, and these worms explode into froth in an instant. The parasites in the waterfowl have a strong sense of danger. These parasites escaped the waterfowl when they were expected to be dangerous. Body, but they were shattered by the flame shock wave as soon as they escaped.

Click!

Click!

The water bird felt that the bones of his arm were broken at this moment, and the skin on the arm cracked, exposing the flesh and blood inside.

And the body of the waterfowl is like a kite with a broken wire. It flies directly out, and it seems to be floating in the water. It bounces on the sea seven or eight times before it slowly sinks into the sea.

This is not over yet.

The flame shock wave released by Donggong Jiangshan once again rushed past the area where the waterfowl sank into the sea, and blood quickly floated on the surface of the sea.

"Huh! Is this the strength of the super domain master of the water ghost clan? It's really vulnerable!" Donggong Jiangshan sneered and said disdainfully.

Donggong Jiangshan watched the area where the waterfowl sank into the sea, waited a few minutes, and did not see the waterfowl's body floating up. Although he was not sure that the waterfowl had been killed by him, he did not continue to keep the waterfowl in his heart.

The sky is blue with white clouds.

The battle on the flying treasure ship continued.

"Seeing Donggong Yaotong this guy has met an opponent! It shouldn't be Li Tian's trash, is it that kid?" Donggong Jiangshan wondered wildly in his heart.

Gurgle!

Gurgle!

At this moment, several bubbles suddenly appeared on the surface of the sea where the waterfowl sank.

Gurgle!

Gurgle!

The bubbles grew more and more.

As the bubbles surfaced and exploded on the sea, Donggong Jiangshan immediately felt a strong danger approaching.

"Is that the guy from the water ghost tribe?"

"It should not be. He has withstood my flame shock wave attack from the front. Even if he is immortal, he may be disabled and sink to the bottom of the sea to feed the fish!"

"Could it be the Sea-Monster Clan in the ocean?" Donggong Jiangshan's heart was tight, and he flew from the sea into the air in an instant.

There are more races in the ocean than on land.

However, even now, humans in the Underworld are still full of awe of the ocean, so their exploration of the ocean is only stagnant with islands and sea routes.

And the cultivators of the Netherworld unified all the powerful and dangerous races in the ocean as the Sea-Monster Clan.

Gurgle!

Gurgle!

There are big bubbles floating from below the sea surface, but when these bubbles rise to the surface, they do not burst, but continue to float in the air.

This is not a soap bubble, but it is also colorful in the sun, which is really beautiful.

"Huh! Little bugs!"

Donggong Jiangshan sneered, and a dozen or so pebble-sized flame missiles popped from his fingers.

puff!

puff!

The flame missile fell on the bubbles, and these bubbles were punctured one by one.

In this bubble, a puff of white smoke floated, but there was nothing else in the bubble.

"Huh? Did I guess wrong?" Donggong Jiangshan thought suspiciously.

More and more bubbles appear on the sea.

Some bubbles flew out of the sea and into the sky, while others were suspended on the sea and drifted with the waves.

In just a few minutes, hundreds of bubbles of various sizes appeared densely on the surface of this annex.

Donggong Jiangshan sneered, and now he was sure that the guy under the sea must be the water ghost tribe.

"Pretend to be a ghost, I see when you can pretend to be a ghost!"

Donggong rivers and mountains flew higher and higher, and then a flame shock wave that was several times larger than before fell from the sky.

The flame without any obstruction hit the sea instantly.

With a strong and unstoppable momentum, the shock wave went all the way down, blasted the sea surface, and continued downward without stopping.

The sea made a creaking sound, constantly rushing to the surroundings.

The shock wave did not stop and continued downward.

Soon, in less than tens of seconds, the shock wave blasted away all the sea water and landed on the bottom of the sea.

boom!

The seabed was violently bombarded by the shock wave, shaking slightly.

The flying treasure ship swayed like Ye Guzhou on this sea.

If it weren't for the two super domain masters on the flying treasure ship to display the domain, the flying treasure ship might be swallowed by the waves.

In a moment, the blasted sea water quickly fell back.

The bubbles on the sea surface were broken by hundreds at the moment when the shock wave fell. Only a few bubbles still followed the waves tenaciously, but as the sea water fell, these bubbles gradually burst open.

Puffs of white smoke continued to lift off.

However, no matter it is on the seabed or in this bubble, there is no water ghost water bird.

"Escape? Or is he already extinguished by the ashes of my flame shock wave?" Donggong Jiangshan thought suspiciously.

At this moment, Donggong Jiangshan suddenly noticed something strange.

Donggong Jiangshan discovered that before he knew it, there was a lot of white smoke around his body.

In the beginning, Donggong Jiangshan only regarded the white smoke as the water vapor produced when the flame shock wave bombarded the sea, but now, he found that things were not what he thought it was!

The white smoke is constantly transforming, gradually changing into flying birds, thousands of flying birds.

twitter!

In the white clouds in the distance, hundreds and thousands of small birds flew out at the same time, flying in groups and overwhelmingly towards the East Palace.

The white smoke in the sky turned into flying birds, and these flying birds gathered together, unexpectedly gathered into a human form.

This figure is a water bird!

Twitter, the number of flying birds in the sky has exceeded tens of thousands, and a breath of destruction is released from these flying birds!

"How... how is it possible?" Donggong Jiangshan's body couldn't help trembling a little, and his voice said in the same trembling voice.

"Rookie? Now, let you see the bird who sees my waterfowl Chaofengzhang!" The waterfowl's voice sounded in the air.

Chapter 4745: : Hundred Birds Chaofeng Cut

A hundred birds cut towards the phoenix!

When the water bird said this sentence, thousands of flying birds flapped their wings at the same time and flew quickly to the East Palace.

Overwhelmingly, these thousands of flying birds flew over at the same time, and Donggong Jiangshan felt as if the entire sky had collapsed and pressed against him.

As a super domain master-level powerhouse, as a man, even if Donggong Jiangshan faced this situation, he instantly recovered his calm!

fighting!

No matter how strong the enemy is, it is just a fight!

If you want to fight, then I will stay with you to the end!

Run away?

That's not the style of the Donggong Super God Family!

Donggong Jiangshan's face showed a sneer again.

"The super domain master-level powerhouse of the water ghost clan can still play such tricks. I look down on you, but what about it? Isn't it good to pretend to be dead in the water? If you want to die, then I will fulfill you!"

Donggong Jiangshan folded his hands together, and then he closed his eyes slowly, he could feel the birds flapping their wings, and when the wings were flapping, the wind in the air was rushing towards him.

Huhu!

A scarlet flame of spiritual power floated out of Donggong Jiangshan's body. Although this was only a flame of spiritual power, the fire became more and more prosperous by the wind.

"Birds? Thousands of birds? Then let my flame power turn you all into barbecues!"

The corner of Donggong Jiangshan's mouth was slightly tilted upwards, his eyes suddenly opened, and a sharp glow flashed through his pupils.

An apple-sized fireball is in the palms of Donggongjiangshan. The fireball is not big in size, but the power of the fireball is creepy.

"Hey!"

Donggong Jiangshan sneered, and suddenly, his palms pushed forward suddenly.

The moment this apple-sized fireball was pushed out by Donggong Jiangshan, it grew rapidly....

The surging spiritual flames kept beating from the fireball, the strong light emitted from the fireball shining on the whole world, and the super high temperature heat caused the seawater to evaporate rapidly from kilometers away.

This is no longer a fireball, but a small sun.

It's just that the fireball is still getting bigger, and it's getting bigger fast.

But in two seconds, the diameter of the fireball has exceeded ten meters...

In two seconds, the diameter of the fireball has reached over 100 meters...

It hasn't stopped, for another two seconds, the diameter of this fireball is close to nearly one kilometer...

The fireball is less than five hundred meters away from the sea surface. The sea water on the sea level has boiled, and water vapor is constantly rising from the sea surface, and it is instantly evaporated without a trace.

Donggong Jiangshan seemed to have been evacuated by the fireball, and his body fell down instantly, but after only a dozen meters, his body flew again.

"Hundred birds face the phoenix? Hahaha..." Donggong Jiangshan's body was trembling slightly, but his face was full of laughter.

Not to mention the super domain master-level powerhouses, even ordinary domain masters and emperors, who doesn't have a trick to defend themselves?

The flying birds released by the waterfowl did not stop because of the sudden appearance of the fireball, but they continued to flap their wings and flew toward the fireball.

However, this is nothing but moths fighting the fire!

No matter how many birds fly toward the giant fireball, the flames that fly toward the little sun will be instantly burned and become plumes of white smoke.

...

"Then... what is that?"

"Is it the sun? No...impossible!"

On the flying treasure ship, Tang Xiaolong and others stared at the small sun that suddenly appeared in the sky.

The little sun is at least a few kilometers away from the flying treasure ship, but Tang Xiaolong and others can already feel the temperature around their bodies rising rapidly, and they even feel that their body skin is rapidly becoming withered and dried up!

Li Tian looked at the little sun, his face growing gloomy!

So far, the black fire purple dragons in his body are still acting recklessly, and he still has no way to suppress these black fire purple dragons.

Of course, Li Tian also wanted to draw this black fire purple dragon out of his body, but this black fire purple dragon was not under his control at all, and it still went its own way!

Li Tian can't help Xiao Tianyi, his biggest idea now is that the waterfowl can resist the Donggong rivers and mountains, even if it can't resist, at least it can hold the Donggong rivers and mountains.

However, now a small sun suddenly appeared in the sky, and the birds released by the waterbirds were moths to fight the fire, and then continue to kill themselves, how could Li Tian's heart not be anxious!

"I didn't expect these two super domain masters of the East Palace Super God Family to be so sturdy, if there is no Xiaotianyi, if there is no water bird, I am afraid I have been beheaded by the East Palace Super God Family!" Li Tian thought With.

"Li Tian!"

Suddenly, an obscene voice came from Li Tian's mind.

"Li Tian, if you can't suppress the ninety-nine black fire purple dragons, it is better to give me the black fire purple dragon, and let me swallow this spiritual power and refine it!" said the obscene god.

Li Tian was immediately happy.

"My good day, if you can surrender this black fire purple dragon, why didn't his mother say it earlier and let Lao Tzu endure this kind of pain?" Li Tian said to the obscene ***** unhappy.

The obscene ***** said with an aggrieved look: "This black fire purple dragon belongs to your spiritual power, how can I easily refine your spiritual power?"

In Li Tian's heart, there were tens of thousands of Nima rushing past. Li Tian could not wait to pull the obscene **** from his body and give it a fierce meal.

"This kind of spiritual power doesn't hurt me at all, Li Tian, don't talk nonsense, hurry up!" Li Tian said.

"This is what you let me do? You can't blame me then!" said the **** of obscenity.

Li Tian felt that he was really cheap, and he took the initiative to invite the **** of obscenity to refine his spiritual power, but this is also nothing.

"Fuck it!" Li Tian roared!

In the atrium, the liquid meteorites of obscene gods changed into silk tentacles, which slowly stretched out from the atrium.

The obscene **** is definitely a scheming man. The speed at which a tentacle is stretched out is really horribly slow!

"Your sister! Can you hurry up?"

"I'm afraid you hurt!"

"I'm afraid of a woolen thread, is it possible that the black fire purple dragon unscrupulously swallows spiritual power in my body veins and destroys it, so I am very comfortable?"

"Then I tried hard!"

"Hurry up!"

This dialogue, Nima's is too dirty.

Fortunately, this is Li Tian and the **** of obscene communication attentively, otherwise if Situ Ningbing and Xue Ji heard this voice, they would definitely call Li Tian a deadly pervert.

Whoosh!

Whoosh!

The tentacles released by the obscene **** suddenly increased in speed, flowing rapidly in Li Tian's body veins, and frantically swallowing the spiritual power in Li Tian's body veins!

"My day!"

Li Tian was surprised.

"It seems that what the goddess says is different from what he does!"

The tentacles of the obscene **** are the **** holes. The spiritual power in Li Tian's body veins is not enough for him to swallow. Li Tiangang reacted that the spiritual power in his body veins has been swallowed by at least one-fifth.

"Obscene God..."

"Call out if you hurt, I won't laugh at you!" The **** of indecency interrupted Li Tian's voice and said.

This bastard.

In the veins of Li Tian's body, spiritual power began to flow backwards, constantly being sucked in by those transparent tentacles, and the black fire purple dragon that Li Tian condensed with spiritual power was also sucked in.

Obscene God is not a master of spirit absorption, and the black fire purple dragon that Li Tian condensed with spiritual power has no resistance at all.

Puff!

Li Tian had knelt down on the flying treasure ship, and the intense pain made Li Tian feel that the skin cells all over his body were trembling, and the sweat drops continuously falling from his body.

In just a few seconds, the spiritual power in Li Tian's body veins has been swallowed by the obscene **** for more than half, and the black fire purple dragon that Li Tian condensed with spiritual power has almost been wiped out!

The good news is that those black fire purple dragons that were not under Li Tian's control finally slowed down the speed of devouring Li Tian's spiritual power.

Donggong demon pupil seemed to have realized something, and suddenly raised his head to look at Li Tian, a strange color flashed in his pupils, but Xiao Tianyi's attack followed like a shadow, making him unable to distract at all.

"What happened? Could Li Tian be able to refine those black fire purple dragons that already bear my mark again?"

"Impossible...absolutely impossible..." Donggong Demon Tong thought in his heart.

A spiritual power skeleton was released from Xiao Tianyi's body. This spiritual power skeleton was only a rough appearance, but the spiritual knife in the spiritual power skeleton's hand had been condensed into substance, shining with cold light, giving people an extremely dangerous signal.

The eyes of the Donggong Demon Eye were about to turn into flashing lights, but he still had no way to control the spiritual power skeleton released by Xiao Tianyi.

"Is this guy a corpse clan? Or a withered bone clan?" Donggong Yaotong thought nonsense in his heart, but he quickly rejected his guess.

The corpse races are all waste, and there are not many powerful people at the noble level, let alone the emperor, the domain master level.

As for the Withered Bone Race, there are many strong people, but the Withered Bone Race has never seen a fleshy body, so Donggong Jiangshan naturally rejected his conjecture.

The Donggong Demon Tong couldn't control the skeletons released by Xiao Tianyi, which made it impossible for Donggong Demon Tong's strength to be fully displayed. From the beginning of the battle to the present, Donggong Demon Tong has not had the upper hand.

This really made Donggong Demon Tong a headache.

At this moment, Li Tian suddenly let out a scream!

I saw that the sweat had completely soaked Li Tian's body, and on the ground where Li Tian had knelt down, this sweat was actually flowing.

At this time, Li Tian's body seemed to have no spiritual power fluctuations, as if the spiritual power of Li Tian had disappeared instantly.

However, Li Tian showed a smile on his face.

"Finally... I finally understand what it feels like when the **** of obscenity is swallowing other strong people! Really... **** of obscenity, thank you!" Li Tian sat on the ground with his legs crossed, slowly running his spiritual power, continuously Well out of his heart.

"No thanks, no thanks! If you want to thank me, let me swallow all the spiritual power of the Donggong demon pupil, and let me take revenge for you!"

The Black Fire Purple Dragon has been swallowed by the Obscene God, and the Obscene God is now happily seizing the time to refine his spiritual power that devours Li Tian.

...

In the sky, the battle between waterfowl and Donggong Jiangshan seems to be over!

Thousands of birds and moths plunged into the little sun like a fire, but like a mud cow into the sea, there is no news!

In the sky, the figure of the waterfowl has flashed, his clothes are in tatters, his body is covered with wounds, and even his hair does not know how much he has burned.

The spiritual power in Donggong Jiangshan's body seems to have been emptied, but he is full of spirits, looking at the water bird contemptuously, and mockingly said: "This is your Hundred Bird Chaofeng? Are you sure you are not **** teasing me??"

"Hey, am I kidding you? You'll know right away! You should take a look at your flame ball one last time..."

Chapter 4746: : The poor are not chasing

In the sky, a black shadow appeared in the little sun at some point, and this black shadow looked like a golden crow bird in the sun from a distance!

"This...how is it possible? Your birds have been burned and there is no hair left. How could this be?" Donggong Jiangshan said in surprise!

The water bird laughed!

"Do you think Hundred Birds Chaofeng Zhan is really Hundred Birds Chaofeng Zhan?"

"How many mean?"

"A hundred birds facing the phoenix is the hundred birds facing the phoenix. Just now you saw the figure of a phoenix among the thousands of flying birds I released? No? These thousands of flying birds are just cannon fodder, only their flying Moths rush to the fire, and finally the phoenix can be reborn from the ashes!"

"As for cutting..., that is cutting!"

As soon as the water bird's voice fell, a stronger light came out from the little sun.

This strong light seemed to pass through the sky and the earth. I didn't know that it was several kilometers high. It shot into the clouds in the sky and continued to shoot into the sky.

At the moment when this strong light appeared, the little sun-like ball of light was like a cracked eggshell, and a huge gap appeared in it!

Click!

Click!

This is Donggong Jiangshan's spiritual fire light ball, and it really made a cracking and cracking sound.

"No... impossible..."

Donggong Jiangshan's complexion changed, and he looked at the cracked ball of light foolishly, repeating this sentence in despair in his heart.

call!

A strong slashing wind flew out from the little sun and galloped past Donggong Jiangshan. The long robe floating in Donggong Jiangshan was cut off by the strong wind.

The pieces of cloth are fluttering, like a butterfly, falling continuously.

And after the slash of the strong wind flew several kilometers, it fell into the sea, and the sea surface of the sea was instantly opened by a gap of more than seven or eight hundred meters long. When the strong wind disappeared, it turned into a colorful color. Feng finally disappeared slowly on the sea.

Click!

There are more and more gaps in the little sun, and there are constantly strong winds flying out of the little sun.

Whoosh!

Whoosh!

The sea surface was continuously cut into cracks, and every strong wind changed into a colorful phoenix at the moment it disappeared.

On the sky and the sea, colorful phoenixes constantly appear, just like fireworks, even in the daytime, it is a beautiful scene!

A bigger gap appeared in the little sun of the spiritual power flame released by Donggong Jiangshan, click! The little sun instantly shattered into two halves, and Chi Yan kept falling from the sky.

The little sun splits, revealing a colorful divine bird inside.

This colorful bird flies high with wings spread, and every time it ***** its wings, a strong wind slashing force is released from the colorful bird.

This strong wind slashing power kept slashing the falling fire ball in the sky, and the moment the slashing power disappeared, it once again changed into a spiritual color phoenix.

It's just that as the colorful bird constantly ***** its wings, the color on the colorful bird is getting lighter and lighter, as if the spiritual power on the colorful bird is gradually disappearing.

After all, this is the bird's face and slash that the water bird showed. If there is no follow-up spiritual support, this colorful bird will eventually disappear.

The biggest idea of the water bird is to control the colorful bird and chop the dead Donggong rivers and mountains into pieces, but he tried several times, but found that he could not completely control the colorful bird, and attacked the Donggong rivers and mountains several times in a row. Played a role, and was evaded by Donggong Jiangshan with difficulty.

Donggong Jiangshan knows that his general situation is over. If Donggong Demon Eye can no longer win, this time he and Donggong Demon Eye's sneak attack will probably end in failure!

But now Donggong Jiangshan no longer considers the punishment of the mother after the failure, he now thinks about how to escape from here!

Is it ashamed to run away?

For the Donggong Super God Family, this is indeed an extremely shameful thing.

However, if you are in a different position now, you will naturally have different ideas.

Keeping the green hills, I am not afraid that there will be no firewood. My escape today is to gather stronger strength and win Li Tian in one fell swoop.

Donggong Jiangshan persuaded himself in an instant.

Don't run away at this time, when will you stay?

Run away!

Donggong Jiangshan continuously teleported, and instantly arrived on the flying treasure ship.

"Demon pupil, if you continue to tremble today, it must be a situation where both sides will suffer. It is better to retreat temporarily and wait until the Colosseum to ask Li Tian and others for advice!" Donggong Jiangshan said.

My day, I can't beat it and want to escape, so I can say such high-sounding words.

I have seen shameless people, but I have never seen the super **** family so shameless.

"You can't let them go. Once you let them escape, the Donggong Super God Family will gather two super domain master-level powerhouses to attack, and then we will definitely have no chance of winning!" The God of Obscene said to Li Tian.

Obscene God is also a bit selfish, he doesn't want to let the fat of his mouth fly away.

If Donggong Yaotong and Donggong Jiangshan are allowed to escape, he doesn't know when he will be able to swallow the spiritual power of the superdomain master-level powerhouse.

Of course, what the indecent **** said is completely reasonable.

"Understand!" Li Tian said.

The Donggong Demon Eye restrained Li Tian. Even if Li Tian used the "Blue Cloud Jue" to release the black fire and purple dragon to attack the Donggong Demon Eye, it was completely invalid.

But what about Donggong? Could it be that he also restrained Li Tian?

Li Tian's figure flashed, and he appeared in front of Donggong Jiangshan in an instant. The Heavenly Qiong Spear in his hand stabbed several shots in succession, and the black fire and purple dragons flew out of the Heavenly Qiong Spear in his hand.

Donggong Jiangshan suddenly became angry.

"It's nothing more than a super domain master-level powerhouse. You are just a domain master-level trash. You dare to be so aggressive. You are really looking for death!"

Donggong Jiangshan faced the Qiong Lance of the sky released by Li Tian, and faced the black fire purple dragon, roaring, not retreating but advancing, blasting seven or eight punches continuously, smashing the black fire purple dragon flying towards him.

The super domain master-level powerhouse's cultivation base is extremely strong, even if the Donggong Jiangshan is already at the end of the storm, then he will not allow Li Tianlai to touch his tiger's beard.

Every punch was like a hot meteorite, after hitting the black fire purple dragon, the body of the black fire purple dragon shook in an instant.

Fortunately, the black fire purple dragon was not smashed by this blazing fist, the black fire purple dragon let out a dragon chant, which was directly wrapped around the fists of Donggong Jiangshan.

The black fire purple dragon was madly burning the East Palace, and his clothes were burnt instantly.

drink!

Donggong Jiangshan let out a roar, causing him to explode again in an instant.

The billowing flames wrapped his whole body, the crimson flames protected the East Palace, and launched a counterattack against the black fire purple dragon.

Those black fire purple dragons entwined on the body of Donggong Jiangshan were still unable to resist the spiritual flames of the super domain master-level powerhouse, and were instantly shattered.

But more black fire purple dragons have rushed over!

"This Li Tian is also so difficult. If his opponent is not Yaotong, but me, I am afraid it will not be so easy to win!" Donggong Jiangshan was startled in a cold sweat, thinking involuntarily. .

Donggong Jiangshan did not dare to stay on the flying treasure ship, continuously teleporting, avoiding the siege of the black fire and purple dragon, and then took the opportunity to hit the bow of the flying treasure ship with a punch.

Crunch!

The bow of the flying treasure ship suddenly sank down, and the bow went straight down, and the entire flying treasure ship was sinking quickly into the sea.

Donggong demon pupil and Xiao Tianyi abandoned the flying treasure ship and flew in mid-air.

Had it not been for the flight attendants on the flying treasure ship had been taken into the space by the Void Yasha, at this time these flight attendants would have fallen into the sea one by one to feed the fish.

This flying treasure ship must not sink, and Li Tian is not willing to let the East Palace go.

"Little Dragon!" Li Tian roared.

Tang Xiaolong jumped, and as soon as he jumped into the sea, the sea under the flying treasure ship had already changed into a huge arm, righting the flying treasure ship.

"Waterfowl?"

The water bird stood on the sea and stretched out his hand to pull Tang Xiaolong out of the sea.

"With me, you don't need to venture out into the sea!" said the water bird.

Donggong Jiangshan and Donggong Demon Eye are about to escape. Although Li Tian and Xiao Tianyi tried their best to stop them, the super-domain master-level powerhouses weren't the ones who said they could stay if they wanted to.

Riding the battle between Donggong Jiangshan and the black fire purple dragon, unable to deal with Li Tian, Li Tian shot Donggong Jiangshan in the leg.

The painful and distraught Donggong Jiangshan abandoned the Donggong demon pupil and used teleport, and he would have escaped dozens of nautical miles in an instant.

Don't chase the poor, although Li Tian probably knows the direction where Donggong Jiangshan escaped, but he did not dare to chase him rashly.

Just dealing with the Donggong demon pupil, Li Tian was quite jealous, and he did not dare to rashly display "Qingyun Jue".

"Hey, Li Tian, you will temporarily store your heads for a few days, and in a few days, my Donggong Demon Tong will come to pick it up in person!" Donggong Demon Tong sneered and said.

"Take you... girl..."

Before Li Tian had finished speaking, the Demon Eye of the East Palace attacked once, forcing the Xiaotianyi back, teleporting, and chasing the East Palace.

"Father Li Tian, chase it?" Xiao Tianyi asked anxiously, a little dissatisfied with his performance.

Li Tian shook his head and said: "Don't chase the poor! Donggong Demon Eye and Donggong Jiangshan are both elites of the Donggong Super God family. Now Donggong Demon Eye still maintains all the combat power, Donggong Jiangshan has not hurt the roots. We are now rushing to catch up. , It is very likely to suffer!"

Although Xiao Tianyi was unwilling, he could only listen to Li Tian.

Everyone returned to the flying treasure ship to heal and practice.

"Waterfowl, I really didn't expect you to be so tough. You can stand up a little bit against Donggongjiangshan alone!" Tang Xiaolong doesn't think the waterfowl is ugly anymore, he put his arm around the waterfowl's shoulder, and said like a brother.

The injury suffered by the waterfowl was not serious. After a little treatment with Shuqing, the bleeding had stopped and the wound was slowly recovering.

The water bird took out the baseball cap and sunglasses that Li Tian gave him, and was armed again, with a slightly embarrassed smile and said: "The patriarch I admire most in the water ghost clan is the patriarch and parallel imports. Compared to the two of them, My strength is nothing!"

The water bird made a regretful expression and said, "Unfortunately, this old parallel importer says no, but his body is very honest. If he can..."

Waterfowl hadn't finished speaking yet, a strong energy wave suddenly spread tens of nautical miles away.

"Have you done it?" The water bird stood up abruptly, looked in the direction where the energy was coming from, and exclaimed.

Chapter 4747: : Sneak attackers are also parallel imports

"Who?" Li Tian and others asked at the same time.

The waterfowl looked dystocia and said hesitantly: "It may be parallel imports!"

"Parallel imports? What's wrong with parallel imports?" Li Tian said.

"It may be that the parallel imports have acted on Donggong Jiangshan and Donggong Demon Eye!"

"Isn't he in the territory of the Shuigui tribe? Did he sneak out with us? If it was him, why didn't he come out earlier?" Li Tian asked.

The water bird shook his head and said, "I'm not sure it is him!"

Everyone stood on the bow of the ship, looking out to the direction dozens of nautical miles away.

On the other side, the energy fluctuations were very obvious, the sea water was surging, hitting the flying treasure ship, from the fluctuation of the waves, you could feel how intense the battle in that direction was.

It is definitely a battle of the super domain master level!

"Should... let's take a look? If it's parallel imports, maybe we can help and kill these two guys from the Donggong Super God Family?" Water Bird suggested.

Li Tian meditated briefly and nodded immediately.

Li Tian basically maintained his full combat power now, without the slightest damage. The waterfowl's spiritual power was seriously depleted, but it was not without combat power. In the previous battle, Xiao Tianyi had not yet played.

"Xiaolong, Ningbing, if you continue to stay on the flying treasure ship, let Xiao Tianyi and I go over and take a look!" Li Tian said.

"I...what about me?" Waterbird found that there was nothing wrong with him, and immediately became a little anxious.

Li Tian hurriedly explained: "This vast ocean is full of dangers, and only superdomain masters like you can walk on the ground and come and go freely. Therefore, the arduous task of protecting flying treasure ships and protecting them is natural. I'll leave it to you!"

What Li Tian said is not very false, but it is very useful to the waterbirds who are not deep in the world.

"Yes, this flying treasure ship is your treasure, and they are all important people to you, so leave it to me!" The water bird said with a complacent expression.

"However, if you can, you must kill the **** in Donggong Jiangshan, damn..."

"Little boss...I...I want to go too!"

Tang Xiaolong was a little anxious.

This is the battle of the super domain master level, even if he can't participate in the battle, even if he is hiding in the battle, it will benefit him a lot.

Just now, the battle between Li Tian, Xiao Tianyi and Donggong Demon Tong gave Tang Xiaolong an epiphany.

Now he is eager to continue watching the game!

Besides, Tang Xiaolong is Li Tian's life and death brother.

Fight tiger brothers, father and son soldiers.

At such an important moment, how could Li Tian leave his brother on the boat with Xiao Tianyi?

"Little boss, although my cultivation level is only in the realm of emperor, but even if it is against the super domain master level powerhouse, I will be able to fight, even if I am really not an opponent of the super domain master level powerhouse, I will run away. Yes!" Tang Xiaolong said.

"Li, let Xiaolong follow you!" Situ Ningbing persuaded.

Li Tian looked at Xiaolong, could feel the strong warfare in his eyes, nodded his head, and said: "Okay! Even if it is against the super domain master level powerhouse, our brothers will fight together again!"

...

A few dozen nautical miles away, there are dozens of small islands here.

These small islands are coral reef islands, the area of the islands is not large, but there are many.

With blue seas and blue sky, long white clouds, clear seas, and a small coral reef, there are a few green plants. As far as the scenery is concerned, this place is even more beautiful than the Maldives on the earth!

It's just that this is the vast ocean of the underworld, not suitable for vacation!

Moreover, although the sea is clear, it is not calm at this time!

boom!

boom!

The sea is surging, and is constantly beating the coral reef, as if to break the coral reef.

boom!

A coral reef island seemed to be unable to withstand the bombardment of the sea and collapsed.

This is already the 37th collapsed among dozens of coral reefs.

The coral reef collapses, but it does not sink completely to the bottom of the sea, but turns into coral fragments, which are constantly floating around by the sea.

Donggong Yaotong stood on the beach, a trace of anger flashed in his eyes, staring at the water ghosts standing in front of a coral reef.

At the feet of this strong water ghost clan, Donggong Jiangshan fell to the ground with blood all over his body. The sea water kept washing his body, and the blood left on his body was instantly diluted by the sea water.

Donggong Jiangshan still has no idea about life and death.

It's the water ghost again!

Just now, the moment Donggong Jiangshan and Donggong Yaotong teleported from the flying treasure ship to here, another water ghost expert suddenly sprang out from under the sea.

The purpose of this water ghost clan powerhouse is very clear, suddenly cast a cold arrow, suddenly attacked, before the Donggong demon pupil hadn't reacted, he had already knocked down Donggong.

Donggong Yaotong stormed the water ghost clan powerhouse in front of him, trying to ****
Donggong Jiangshan from his hand, but he didn't succeed.

Water ghost tribe, water ghost tribe again!

Donggong Yaotong hates his teeth and itchy, his eyebrows twitched slightly, a wicked smile appeared on the corner of his mouth, and he said coldly: "I think your water ghost clan is really impatient to live, even from our Donggong super **** family Everyone dares to attack!"

"Despicable guy, is there a way to report?"

Donggong Demon Eye is in the Donggong Super God family, his cultivation strength can definitely be ranked in the top five, much stronger than Donggong Jiangshan and Donggong Buchan.

But he is such a peerless powerhouse, when facing the water ghost clan powerhouse in front of him, he has no bottom in his heart.

The strong water ghost clan sneered, and said: "Your grandfather can't change his name or surname. It is the strongest man of the water ghost clan who attacked you, the parallel importer!"

Parallel!

It is parallel imports!

Those who attacked Donggong Jiangshan and Donggong Yaotong were the strongest Shuigui clan parallel products!

At the banquet, the water ghost Guzi asked for parallel imports to follow Li Tian out, and the parallel imports were rejected!

But when Li Tian left the Shuigui tribe's territory, the parallel imports left the Shuigui tribe's territory and followed the flying treasure ship.

This is why the waterfowl always looks back when they are on the flying treasure ship.

It's just that the water bird is not sure that the parallel cargo is following the flying treasure ship.

As for the parallel imports, why did they follow along after a decision?

Parallel, as the strongest of the water ghost tribe, he has his self-esteem and pride.

Can't you Shuigui Guzi let me follow Li Tian, I really follow Li Tian like a dog!

Parallel products followed Li Tian secretly, just to see Li Tian's true strength, to see if Li Tian could become a key figure in the revenge of the water ghosts.

In the battle between Li Tian and Donggong Yaotong, Li Tian performed very little, and was defeated by Donggong Yaotong when the battle started.

But this is not to blame Li Tian.

Donggong Yaotong is a peerless powerhouse in the Donggong Super God family, not to mention Li Tian, even if it is replaced by any water ghost clan super domain master-level elite, I am afraid it will be defeated.

However, in the following, the outbreak of Xiao Tianyi and the resurrection of Li Tian's blood made the parallel imports gradually recognize Li Tian.

It is the recognition of Li Tian that he will act, otherwise the parallel imports will immediately turn around and return to the territory of the Water Ghost Race.

The eyes of the Donggong demon pupil flickered, and the strength of the parallel imports made him jealous, but he could not leave the Donggong Jiangshan and escape.

The corners of his eyes jumped a few times, as if he had made up his mind, and gritted his teeth and said: "Water ghost tribe, what a water ghost tribe! Tigers don't show off their might. Do you all regard our Donggong Super God family as sick cats?"

"Today, let me come to see the strongest man in the Shuigui clan!"

Chapter 4748: : Demon Master and Poison Master

"come on!"

There is Donggong Jiangshan at the feet of the parallel imports. He is like a hostage in the hands of the parallel imports. He throws a rat trap, and the Donggong demon pupil is a little jealous. In this way, the parallel imports are invincible and there is no reason not to fight!

Donggong Yaotong no longer talks nonsense, his gaze falls on the parallel imports, and his pupils keep flickering.

If you look closely, you will find that in the eyes of the Donggong demon pupil, the parallel figure is gradually changing: from intact to bloody, and then gradually changing from **** to a skeleton.

Donggong Demon Eye's serious parallel body veins are unusually obvious, and the spiritual power flow in the parallel body veins can even be seen.

That's right!

Donggong Yaotong's eyes can see through the human body.

He can clearly see the flow of spiritual power in the opponent's body and veins, and can easily judge the opponent's weakness.

It's just that this is just the basic ability of the Donggong Demon Eye's double pupils. What's really terrifying is that the Donggong Demon Eye's ability to copy and control spiritual power against the ground.

This has nothing to do with the magical attributes of the Donggong Yaotong, but because he cultivated the most famous magical technique in the Netherworld Super God family: "Demonic Eye Art".

"Demon Eye Art", the practice technique of one of the members of the Donggong Super God family.

For practitioners who practice the "Demon Eye Art" technique, the pupils will look slightly different from ordinary people's pupils.

This is because their pupils have already been replaced by spiritual power during the cultivation process, and the two eyeballs in their eye sockets are covered by spiritual power.

It is precisely because of this that the Donggong demon pupil can easily control the operation of the double pupils, and can even make the double pupils protrude from the eye sockets, increasing the width of the line of sight. Of course, the most important thing is that the whole body double pupils can crack the opponent's spiritual attack and control the opponent Spirit tools, spirit beasts, etc. released!

For example, the black fire purple dragon released by Li Tian.

When Li Tian was fighting with Donggong Yaotong, Donggong Yaotong had already cracked the black fire purple dragon, and controlled Li Tian's black fire purple dragon through the spiritual power in his body.

It is precisely because of this that the black fire purple dragon released by Li Tian will be invalid when attacking the Donggong demon pupil.

The Donggong Demon Eye's cultivation base is stronger than Li Tian. He controls the Black Fire Purple Dragon, and uses his spiritual power to increase his mark on the Black Fire Purple Dragon. The Black Fire Purple Dragon controlled by him is more controlled than Li Tian. The black fire purple dragon is more powerful!

Now, Donggong Demon Eye wants to see the parallel imports completely. He is quickly analyzing the spiritual power of the parallel imports, hoping to find the flaws in the water monster.

But Donggong Yaotong was disappointed.

He had seen the parallel imports thoroughly from the inside out, but he found that the water ghost clan called the parallel imports was just like him, and also a monster that didn't take the usual path.

The spiritual power in the parallel body veins is extremely thin.

If a person's cultivation level is judged solely by spiritual power, based on the spiritual power of the parallel imports in the body, his cultivation level is at best the Venerable Realm.

At most, he can't reach the ninth level of the Venerable.

However, this guy with parallel imports is a real super domain master powerhouse.

The weirdness of parallel imports lies in the thin spiritual power in his body veins, but in his abdominal cavity, there is a strong mass of blood.

Well, the Donggong Demon Eye couldn't tell what it was.

Those things are confused with spiritual power, and Yidong Palace's demon pupil's current ability is still unable to tell what it is.

But this doesn't affect the Donggong demon pupil, demon master, but not just such a trick.

I saw the pupils of the Donggong demon pupil suddenly burst out, and the bloodshot eyes on these pupils were sealed, as if the eyeballs were about to burst.

Immediately afterwards, a trace of red and snowy spiritual power floated from the eyes of the Donggong demon pupil, and this blood-colored spiritual power continued to float towards the parallel, like a piece of red silk.

Suddenly, this blood-colored spiritual power suddenly changed drastically, but it was this blood-colored spiritual power that condensed into a giant beast with a height of seven or eighty meters.

The body of this giant beast is bloody, and the hair of this giant beast is flames. It has a hideous face and constantly exudes powerful pressure.

Ouch!

This behemoth stepped on the sea, looking down at the parallel imports like a hill.

What kind of dog is there for any master.

The eyes of this behemoth would reveal the same mockery as Donggong Demon Eye.

The parallel imports sipped at the giant beast, spit out a mouthful of sour water, and shot directly at the giant beast's right eye like an arrow.

boom!

There was a loud noise.

The acid water sprayed by parallel imports is generally corrosive, but the acid water is quite powerful when flying out.

The acid water just touched the giant beast's right eye, and the giant beast's right eye exploded instantly.

Even if this giant beast was formed by the Donggong Demon Eyes using the spiritual power, the giant beast's head is still bloody, giving people an extremely shocking feeling.

The giant beast ached, raised its head and let out a roar.

Then the right eye of the giant beast quickly returned to its original state at a speed visible to the naked eye, but the body of the giant beast exuded a strong smell of blood and a strong murderous aura.

The limbs of the giant beast stepped on the surface of the sea, and as seen by the naked eye, the frontal area of the sea was swaying surgingly.

Just now, the giant beast was still a hundred meters away from the parallel imports, and instantly the giant beast had jumped up and pounced on the parallel imports.

brush!

brush!

The sharp claws of the giant beast are full of blood and blood, and the claws face parallel imports.

This huge and sharp claw also has burning flame spiritual power, as long as this claw is scratched on the parallel body, it is bound to cause great trauma.

"Humph!"

Facing the attack of the blood spirit behemoth, the parallel imports did not show the slightest fear, snorted coldly, and lightly tapped his legs on the coral reef, and his body flew out like a cannonball.

boom!

The sharp claws of the giant beast blasted the coral reef, let alone a coral reef that was dozens of square meters in size, and was instantly shattered by the sharp claws.

boom!

The body of the parallel imports turned around in the air, but his fists continued to blast towards the blood spirit behemoth like a pandemic.

boom!

boom!

boom!

I don't know when a layer of viscous liquid has been added to the parallel fists. A strong pungent smell spreads on his fists, and every fist of the parallel imports falls on the blood spirit beast. On his body, there would be a puddle of slimy liquid thrown out of the parallel fist and fall on the blood spirit behemoth.

Hey!

The spiritual power released from this liquid is officially parallel.

The strong acid of the spiritual power touched the skin of the giant beast, and immediately began to corrode the skin of the giant beast crazily, and there was a burst of noise.

Ouch~~!

The giant beast let out a scream, and its whole body hit the sea directly.

boom!

The water splashed everywhere, and the blood spirit beast fell on the sea, but this behemoth had become like a mangy dog, with wounds corroded by this strong acid everywhere, which was very ugly.

Of course, this blood spirit behemoth is just a condensed spiritual power, but parallel imports are also attacked with strong acid spiritual power, which has such an effect.

Donggong Yaotong's face was as usual, and a wicked smile appeared at the corner of her mouth, and said: "It turns out to be a poison master in the water ghost clan. It's no wonder that Donggong Yaotong not only didn't run away, but even dared to attack me!"

That's right, the strong acid of parallel imports is recognized as a kind of poison among the practitioners of the Nether Realm, and the entire practitioners of the Shuigui tribe who practice this technique are called poison masters.

"Since you know the name of the Poison Master, why don't you run away with your tail between them?" The parallel imports laughed.

"The demon master vs. the poison master, the entire Netherworld has not had such a scene for at least tens of thousands of years. I can escape like this? Today, let us see if it is your poison or my "Demon Eye Art" That's it!" When Donggong Demon pupil finished saying this, his pupils changed again.

This time, a hint of green flashed through the Donggong demon pupil's double pass, and strands of green spiritual power floated out of his double pupil!

Chapter 4749: : I want to sneak attack

The green spiritual power is constantly changing in the air, as if a bucket of green paint poured into the water, constantly twisting.

From the moment when the green spiritual power appeared, Donggong Yaotong's face had a cold smile.

Although Donggong Yaotong cannot cultivate strong acid spiritual power like parallel imports, Donggong Yaotong is the demon master of the Donggong Super God family. The Yaotong branch also has an unbroken heritage of hundreds of thousands of years in the Nether Realm. The teachers have accumulated the means to look at the poison master.

This green spiritual power is one of the methods of the Donggong Demon Eye to deal with the Poison Master of the Water Ghost Race.

The green spiritual power fell on the surface of the sea and turned into a plant.

This green plant began to grow wildly when it saw water, especially the roots of this plant, which continued to grow towards the seabed. In just a few seconds, the roots of this plant completely penetrated the coral reef and dropped several nearby islands into the water. The coral reef underneath is completely occupied.

On the sea surface, an endless, densely packed green rhizome appeared in an instant. These rhizomes were like creeping insects, and it was chilling to look at.

The part of this plant above the water is particularly pleasing. There are only two huge succulent leaves. When the sea breeze blows, these two succulent leaves sway up and down with the sea breeze, as if they are cute.

When parallel imports saw this spiritual power plant, the corners of their eyes twitched slightly. Although he hadn't seen the complete form of this plant, he had already guessed what kind of monster the Donggong demon pupil released.

"Lingshui demon gourd!" The parallel imports said the name in a low voice.

However, the parallel imports did not stop. The blood spirit beast was under constant storming attacks by the parallel imports. At this time, the parallel imports had to seize the time to solve the immediate battle.

"Go to hell!" The parallel imports roared and slammed a few punches again.

The fists are full of shadows, like running to thunder!

boom!

boom!

Several consecutive punches of parallel imports easily blasted the body of the blood spirit behemoth.

The power of these fist attacks was stronger than the previous attacks. After a few punches from the parallel imports, several groups of strong acid water flowed out of the parallel imports' arms, and were instantly bombarded by the parallel imports into the body of the blood spirit behemoth.

Huh!

Huh!

The parallel imports' feet were tapped several times on the sea, and the body flew back several hundred meters in an instant.

Ouch~!

Ouch~!

Although the blood spirit behemoth was just a behemoth of spiritual power, it roared up to the sky in agony.

"burst!"

With the roar of parallel imports, the body of the blood spirit beast suddenly swelled.

Immediately, a loud bang came from the body of the blood spirit behemoth, and then the blood spirit behemoth was blasted to pieces with a violent impact force.

The strong smell of blood permeated the air, and even covered the smell of sea water.

"Joy!" The parallel imports said with a sneer.

The blood spirit behemoth released by the Donggong Demon Eye really seemed to be teasing. After being released, it actively attacked the parallel imports several times and smashed a coral reef, and then...there was no more.

The realization of parallel imports fell on the spirit water demon gourd.

The spirit water demon gourd is a kind of plant, but more accurately it is a kind of plant-like spiritual creature, a creature between plants and animals.

This creature likes to appear in places where water and grass are abundant.

Before the water ghost clan declined, the water ghost clan still had a special relationship with this spirit water demon.

The excrement of the water ghost tribe is exactly the nourishment of these spirit water demon gourds, and the spiritual power released by this spirit water demon gourd can just be cultivated and refined by the water ghost tribe.

When the water ghost tribe wants to break into the realm of the venerable, the domain master, or even the super domain master, it must cut off the corresponding spiritual water demon gourd.

This spirit water demon gourd is in the form of a plant in its usual state, and only when it is attacked, will it change into another form and possess extremely strong attack power.

The level judgment of the spirit water demon gourd is based on the gourd fruit on the stem of the spirit water demon gourd.

It can be said that the fire water ghost tribe and this spirit water demon gourd are dependent on each other, but when the water ghost tribe suffers an extinction and is completely dried out from the original living area, this kind of plant-like spiritual creatures wither and wither. I rarely saw it in the Netherworld.

Parallel products did not expect that today they could see this China and the West again from the battle with Donggong Yaotong. Moreover, this thing turned out to be released from the double pupils of the Donggong demon pupil.

"Hey, do you seem to know the goods well! But now you can guess what level of spirit water demon gourd is this?" Donggong Demon Tong said with a wicked smile.

The two tender leaves of the water demon gourd were green and water-green, and they seemed to be able to pinch water out of the water.

As soon as the Donggong demon pupil's words fell, between the two green leaves, a slender and long green soft stem that was more than a few hundred meters in length had grown.

This stem is like a soft whip, gently swaying in the wind.

At the top of the stem, nine green gourds the size of a thumb appeared.

No need to bloom, it will bear fruit directly.

This is the uniqueness of this plant-like spiritual creature.

And these nine thumb-sized green gourds represent the level of this spiritual water hyacinth, which has reached the highest level.

The parallel imports did not dare to neglect, and his fists kept hitting his chest like drums.

Just like when Li Tian was fighting, a giant acid dragon was sprayed out of the parallel imports.

The strong acid dragon hovered over the parallel head, as if looking for an opportunity to attack.

"Poison Master, let's do it! You parallel imports, I see how you put poison in front of my spirit water hyacinth? Hahaha" Donggong Yaotong said with a smile.

His pupils changed color again.

This time the color is no longer green, but black, and there is a hint of purple in this black! Black spiritual power and purple spiritual power constantly gush out from the eyes of the Donggong demon pupils, and gradually condense into...a dragon shape in mid-air!

"Could it be... Is this the black fire purple dragon released by Li Tian?" Parallel goods thought in surprise.

That's right, after Donggong Yaotong cracked the secret of Li Tian's black fire purple dragon, in his body veins, he used his spiritual power to simulate the released black fire purple dragon.

Ninety-nine black fire and purple dragons!

Li Tian, who had secretly arrived in the nearby sea, saw the black fire purple dragon, and he couldn't help but secretly angrily said: "My day, this...this Donggong demon pupil is too abnormal, right? Just once I fought with me, it was I have learned my trick, this... how can you play with your sister!"

"No, this guy must be eliminated, otherwise once this guy is allowed to escape, it will be difficult to encounter this kind of good opportunity to fight more with less in the future, and he will definitely be against my Li Tian!"

"Xiaolong, you are here to watch the battle, don't rush into the battle circle! Xiaotianyi, you cooperate with parallel imports to fight him, I will attack!"

"Damn, obscene god, don't you want to swallow the superdomain master-level powerhouse? Today I will meet your requirements!" Li Tianyou said to the obscene **** through his mind.

Huh!

The Qiong Spear of the Sky has appeared in Li Tian's hands. This time, Li Tian decided to use only two drops of the power of the gods in the Qiong Spear of the Sky!

Chapter 4750: :who are you?

Huh!

Li Tian teleported into the space of the Qiong Spear of the Sky.

Li Tian broke through to the realm of Emperor Zun and won again in Yecheng, which made Li Tian's name resound throughout the Netherworld.

When returning to the original kingdom of the Lord of the Frost Territory, Li Tian brought almost all members of the sky thorn out of the Qiong Lance of the sky, and let them be responsible for the gate of the restricted area.

After that, Li Tian successively brought out the people living in the Qiong Spear of the Sky in batches, so that these shameless guys began to live in the home of the Lord of Frost Territory.

Now, the space of the Heavenly Qiong Spear has been emptied, and the three cities have become empty cities.

Without the rise of Li Tian, those robbers in the spiritual soil and the refugees in the death battlefield, they would probably live in the darkness forever and would not dare to step into the underworld.

And now, the rise of Li Tian is unstoppable.

Even the emperor, a domain master-level powerhouse, would not dare to come to Li Tian to control your kingdom.

This makes those people who have lived in the dark for too long ecstatically felt grateful to Li Tian.

As for Li Tian's possession of the heavenly spear?

Now this is no secret, countless experts in the entire Nether Realm have seen it with their own eyes.

It is precisely because of this that these guys who came out of the Qiong Lance of the Sky no longer need to take soup medicine, they can start a new life with the memories of the past.

In the current Qiong Spear of the sky, there are only small blue tiles, vicious dogs and black smoke balls.

...

Huh!

Li Tian's figure appeared in the giant stone temple.

Rumble!

Click!

Click!

The weather is bad today in the world of Qiongluo of Heaven.

The wind roars, the fan thunderbirds.

The strong wind blew into the giant stone temple, and the sound of howling ghosts and wolves were heard in the temple.

"I didn't expect this kind of ghost weather in Qiong Liao of the sky today!" Li Tian said uncomfortably in his heart.

Li Tian wanted to teleport, teleporting from the position of the temple to the volcanic island where the black smoke group was located, but he wanted to teleport, but found that his teleportation could not be used at all.

"How is it possible?" Li Tian was startled.

If he hadn't looked at the giant stone temple in front of him, Li Tian would have even wondered if he had entered the wrong space.

Click!

A flash of lightning flashed across the sky, and the light of the lightning instantly illuminated the inside of the megalithic temple.

Outside the temple, the rain kept falling.

Li Tian's heart suddenly tightened. At the moment the lightning flashed, Li Tian saw a huge shadow appear on the ground of the Giant Stone Temple.

"Domain! It's a domain!"

Only then did Li Tian discover that he teleported into the space of the Sky Spear, and at the same time he entered into the domain of a super power.

"Who is it?" Li Tian thought to himself.

Heiyan Tuan'er and Xiaoqingwa both have the strength close to the domain master, but they want to break through to the domain master realm so quickly, obviously it is impossible.

As for the evil dog, the last time Li Tian saw the evil dog, the cultivation base of the evil dog was only the eighth-level peak of the Venerable. Not to mention the distance from the domain owner, there is a big gap from the emperor.

But if it weren't for them, who did this domain use?

It shouldn't be that the Qiong Lance space of this day was originally existed by other strong people, but I have not found it?

Li Tian suddenly felt a bad feeling in his heart.

"Little blue tile, vicious dog, black smoke group will not have encountered any accidents, my little blue tile, my bad dog, my black smoke group, and my **** power..." Li Tian is no longer Dare to continue to guess!

"Break it for me!" Li Tian roared, his spiritual power suddenly burst.

Then, Li Tian's aura was very strong, but the domain where Li Tian was staying remained motionless.

"I... my day, Lao Tzu is a domain master-level powerhouse, and my real strength has almost reached the super domain master-level powerhouse level, but I didn't even break this domain. Could it be...Is it the super domain that used this domain A master-level powerhouse, even a demigod?"

Li Tian's heart was slightly flustered.

"It should be impossible. If there is a super domain master level powerhouse in the space of the Qiong Lance of this day, or there is a demigod level powerhouse, why has he not appeared long ago, but he will appear at this time? And, he Why are you trapped in the space of the spear of the sky?"

"Don't..., I understand! I am now the owner of the Heavenly Pike, without me, even if he is a god, I am afraid there is no way to escape from the space of the Heaven Pike!"

Thinking of this, Li Tian's heart has gradually calmed down.

The soldiers came to cover the water and earth, whether he was a super domain master or a demigod, as long as there is something to ask Li Tian, this is easy to handle.

Li Tian adjusted his breathing, please calmly walk towards the entrance of the Giant Stone Temple.

After passing through the dark temple and coming to the door, Li Tian immediately saw a giant with fluffy hair over his body sitting on the grass outside the giant stone temple.

The rain fell from the sky, dampening the entire grass.

However, when the rain fell, it would automatically drift past the giant's body. Therefore, although the giant was sitting in the rain, his body was not exposed to the rain, and the fluff all over his body was dry.

On the ground, rainwater flowed into a river, and all the grass fell to the ground. The rainwater also flowed past the fluffy giant, and his body remained dry within several tens of meters.

"It turned out to be a giant? There will be a super domain master of the giant clan in the space of the Qiong Spear of this day?" Li Tian was shocked.

Who is this guy?

How did you get trapped here?

Also, what does he want to block the megalithic temple now?

Are the little blue tiles, vicious dogs, and black smoke groups still safe?

Questions flashed through Li Tian's mind, but Li Tian couldn't find any answers.

At this moment, the fluffy giant twisted his neck slightly and looked down at Li Tian standing behind the threshold of the Giant Stone Temple.

Suddenly, the fluffy giant stretched out his furry palm and grabbed Li Tian.

The fluffy giant's movements were not fast, which gave Li Tian enough opportunity to escape.

Li Tian's feet were a little on the threshold, and instead of retreating, he moved in, his body was like an arrow. With a swish, he had rushed out of the giant stone temple, and he had rushed out more than ten meters in an instant, standing on the grass. on.

The rain continued to fall, and Li Tian's body was instantly wet, but at this time Li Tian could no longer take care of himself. A black fire purple dragon appeared on his arm, and he looked up at the fluffy giant warily and asked Said: "Who are you? What do you want to do? Little blue tile, vicious dog, and black smoke ball are they safe now?"

The fluffy giant obviously didn't want to hurt Li Tian, so he raised his huge palm and covered Li Tian's head to shelter Li Tian from wind and rain.

"Li Tian, I am a vicious dog! My task has been completed, send me out from here! I want to go home..." The fluffy giant's voice came down from a height like thunder.
