

A Killer 4871

Chapter 4871: : Danger exists

Huh!

A red light flashed, and Red Cut cut the cage away.

The metal railings on the prison all retracted, turned into metal squares again, and fell to the ground!

The thorns on the whole body of the crab head domain master stood up, and at the moment the cage was cut, his figure rushed towards Situ Ningbing like a flash of lightning. In an instant, a sharp knife made of condensed spiritual power appeared in the hand of the domain master of Crab's head, and it stabbed Situ Ningbing's abdomen viciously!

"Bitch girl, die for me!"

Immediately, a murderous aura was released from the master of the crab head!

The countless spikes on the Crab's head domain master seemed to be alive at this moment. Each spike was entangled with spiritual power. All spikes were enveloped from the left and right at the same time, just like two spiked blankets. Situ Ningbing was wrapped in this spiked blanket Tang.

The spiritual power sharp knife in Crab's head was already less than half a foot away from Situ Ningbing.

Situ Ningbing had already expected that the Crab Head Domain Master would not be able to catch it with his hands, and the butcher knife in her hand, Tushen, always clenched vigilantly in front of her.

However, Situ Ningbing never expected that the domain master of Crab Head, who had been abolished by her murder weapon, could burst out such combat power in an instant.

Those spikes have blocked Situ Ningbing and others, even if Li Tian and others want to rescue Situ Ningbing, they must first break open the spikes of the domain master of Crab's head.

However, these spikes are not ordinary goods, they are the strongest defense of the crab head domain owner!

Even if it is the ninth-level peak powerhouse of the domain master, it is not easy to break through the defense of this spike.

And just give the crab a few seconds to the Jade Fox, and he can control Situ Ningbing in his hands. At that time, he is fully qualified to negotiate terms with Li Tian, and he can retreat, even... he can still hold Li Tian and others led to the place where their people were, leaving Li Tian and others dead without a place to be buried.

As for Situ Ningbing...?

Hey, this magical race of Crab Head Domain Master, as long as it is alive, any part of the human body will grow out.

It seems that things are proceeding according to the plan of the master of the crab head, but he has ignored the most important existence-Hong Zhan!

Huh!

The domain master of the crab head felt a flash of red light in front of him, and the red light spiritual power slash released by Hong Zhan completely cut off the spikes he released in an instant. The Crab Head Domain Master had already realized the threat, but his evasive action was still half a minute slower, and Hong Guang Zhan directly cut off half of his cheek.

puff!

The blood is flowing.

The master of the crab head let out a scream, fell to the ground, twitching constantly. The cut half of the cheek kept beating on the ground, and there was Ruoruuowu spiritual power connected between this half of the cheek and the crab head domain master, and this spiritual power was pulling the half of the cheek back. go.

"Hey, the world is so big, there are no surprises, I didn't expect this kind of magical race!"

The spikes are like the fluff that the wheel covers on the body of the domain master of the crab head. After the fluff is cut open, the real body of the domain master of the crab head is exposed. Two sturdy lower limbs support the chubby body, and on this body there are six arms.

It's just that four of the arms are exceptionally short, and they don't show up when there are those spiked wheels.

"Red cut!"

With a move of his finger, Li Tian controlled Hong Zhan and chopped off several arms and legs of the domain master of Crab's head. He watched quietly as the arms and legs that had been cut off were slowly being stunned Forced to pull back, and then...cut again!

In the prison area, the domain owner of the crab head kept screaming.

The little thing was so frightened that he didn't dare to speak, and just played dead.

The other Kraken clan swallowed saliva involuntarily.

The foreign powerhouse who had not had time to be beheaded was even more frightened. The timidity directly condensed a long sword of spiritual power and wiped his neck to commit suicide!

Looking at the half of the cheek that was chopped off by the domain master of Crab's head, Situ Ningbing felt disgusted, and then... he directly chopped it with a butcher knife, and then used his spiritual power to blast the ground meat directly into ashes. This crab head domain master seemed to know that half of his cheeks could not be restored to its original state, and the spiritual power on his head was surging. After a few minutes, the cheeks that had been chopped off unexpectedly grew back.

"Hey, interesting!"

Huh!

Another red light slashed from the head of the domain master of the crab head!

Wow!

The head and body of this guy were directly cut into two by Red Slash!

A mass of black and silt-like things flowed out of the body of the domain master of the crab head, and there was a smelly smell in the air.

Huh!

Huh!

Huh!

A few successive red lights flashed again, and the head of the crab was dismantled. These bodies twitched a few times before completely stopping. Crab's head domain master, a powerful man with a ninth-level domain master, was so tortured by Li Tian like this.

Li Tian released two black fire and purple dragons, and blasted a mass of flesh and blood on the ground, as well as the black and whistling thing that was like silt.

Hey!

The black fire purple dragon blasted out and swallowed all the corpses on the ground in a flash.

After beheading all the foreigners and digging out the crystals in the corpse to distribute Fei Situ Ningbing, Liu Jimeng, and Ye Meijing, Li Tian rescued the Sea-Monster tribe from the cage.

Then, Li Tian squeezed the little thing hard again, "If you pretend to be dead, I'll cut you off!"

The little thing screamed, and immediately did not dare to continue pretending to be dead.

"The crab-headed domain master just now has the ninth-level peak realm of the domain master, you should know it!"

"Know...Know!"

"Very good! Does this mean that the device spirit race has a super domain master realm powerhouse?"

If there is no strong person in the super domain master realm, it is almost impossible to capture a ninth-level peak strong person who is not so easy to be beheaded.

"How do you know?" The little thing looked at Li Tian in surprise for a moment... The little thing who knew that he had failed said embarrassingly: "I didn't sincerely conceal it. If you didn't ask me, I would naturally not answer! We are the spirit clan There are principles!"

Sure enough!

Li Tian only felt fortunate that he arrived at this space battleship at the right time.

Come early or late, you may meet the super domain master-class powerhouse of the Spirit Clan. At that time, Li Tian may not dare to arrogantly arrogantly aboard this space battleship, perhaps he will miss saving Situ Ningbing, etc. Human opportunity.

"Where have they been now? When will they be back?"

The little thing seemed to want to conceal it. Li Tian's **** pressed slightly, and the little thing screamed again, "Stop it, stop it, can't I tell you?"

"Very well, as long as you listen to me obediently, I will never kill you!" Li Tian said with a smirk.

The little thing sighed, with an expression of indescribability, and said: "Come with me! I will take you to see them..."

Chapter 4872: : Twelve sculptures

Following the little thing through a passage that was more than a few kilometers away, Li Tian and others came to the most central area of the space battleship.

In front of him was a giant elevator, and the little thing led Li Tian and others into the elevator.

Whoosh!

The elevator descended at an extremely fast speed.

A few seconds later, the elevator door opened, and Li Tian and others entered the training area of the space battleship.

Space battleship, training area!

This is the area that belongs to the super domain master-level powerhouse of the device spirit family.

The super domain master-class powerhouses of these spirit races do not need to control or manage space battleships. All they have to do is to fight when the battleship is in danger, and most of the other time is to practice.

The cultivation method of the spirit clan powerhouses has no technical content, which is to devour metal blocks!

But even if the host body of the superdomain master class of the tool spirit race is a weapon, only the host body cannot swallow it endlessly. Whenever they consume a certain metal block (the spirit gold clan), these tool spirit race powerhouses must The refining and refining of the powerful energy contained in these metals is just like... the concept that people who are full and support need to digest.

From the elevator, there were twelve doors in all directions in front of Li Tian and others.

There is an independent metal statue in front of each door.

Seeing these metal statues, Situ Ningbing's face couldn't help showing a look of surprise, and she couldn't help looking at Li Tian.

"Lee..."

The expression on Li Tian's face was equally surprised, but the corners of his mouth were slightly upwards. In addition to surprise, he was more excited.

"Unexpectedly, we could see familiar figures on this space battleship!"

The little thing looked at Li Tian and Situ Ningbing suspiciously.

The metal statues outside the twelve gates are the twelve powerful men in the legend of the metal world.

According to legend, these twelve powerhouses created all races in the metal world, including the spirit race.

At that time, it was truly the most glorious time in the metal world, how could foreign powerhouses dare to go wild in the metal world.

It's just... these twelve strong men have already fallen.

Since then, the metal world has completely become a trial paradise for other foreign powers.

"Do these people know the twelve most powerful super masters in the history of this tool?"

The little thing couldn't help but vetoed it again, it should be impossible!

The twelve super-domain master-level powerhouses in the metal world are as powerful as gods. How could these low-level creatures from other worlds know the existence of these legends.

"Our tool spirit clan superdomain master-level powerhouses are here. They should be dormant or cultivating now, because these superdomain master-level powerhouses have also received a certain impact this time, so... they don't have any. I'm so easy to talk, I advise you to better stop disturbing them!"

"Li Tian, now we are all free. There is no need to risk any more to provoke these superdomain masters. Let's leave this space battleship and look for the dragons and them!" Liu Jimeng was a little nervous, but also a little worried. Heaven's arm.

"Yes, this mystery is completely different from our Netherworld. There are crises everywhere. Since this little thing says these superdomain masters are not easy to mess with, let's not go in?" Ye Jingjing also said.

When Li Tian saw the metal statues outside the twelve training areas, he suddenly realized that this trip to the secret realm was definitely not an ordinary trial trip, or the twelve sculptures and the Huaxia return There are some connections.

Li Tian slowly walked past the metal statues in front of the twelve doors. He looked at the twelve sculptures carefully, wanting to see some clues from these sculptures.

"Zodiac signs, interesting!"

That's right, the twelve metal statues outside the practice area are exactly the Chinese zodiac signs.

Although they are slightly different in appearance, they are almost the same.

Li Tian turned around and found that although these metal sculptures did not have any vital characteristics, there were also slight spiritual fluctuations on these metal sculptures.

"I have to go in. If these powerful people who don't see the Vision Tool Spirit Race leave, then I will feel regret!" Li Tian said firmly.

Li Tian did not ask, nor did he say anything.

Regardless of the race in this metal world, all space battleship training areas will have these twelve metal sculptures. In the entire metal world, all territories with spiritual races, there must be metal sculptures of these twelve strong men. It seems that sculptures of great leaders in China during the special period can be seen everywhere.

"Li, I will accompany you in!"

Li Tian shook his head again, and handed the little things to Situ Ningbing's hands, "No, I can do it alone! I have Hong Zhan with me!"

The metal statue outside the twelve gates turned out to be the Chinese zodiac.

Is this a coincidence or is there some kind of connection between the spirit clan and China?

Li Tian must clarify this question.

Situ Ningbing was not insisting either!

Liu Jimeng, Ye Meijing, and several promoted sea-monsters stayed outside.

Li Tian took a deep breath and stretched out his hand to push open the metal door behind the metal sculpture of Mouse.

Push the door to enter, and there is a dark passage in front of you.

It's like the dark space outside a space battleship, and you can't see your fingers.

Although Li Tian knew that the metal door behind him had been pushed open, the light from outside could not come in.

call!

Li Tian held Hong Zhan tightly and walked forward cautiously.

Gradually, Li Tian could feel that there seemed to be a kind of magical power in the darkness, which was spinning in a thread shape, and Li Tian unknowingly lifted his feet off the ground, and his body was also rotating with this magical power.

Huh!

Suddenly, Li Tian's eyes lit up, and he instantly emerged from the dark rotating world and appeared in a bright space.

The area of this space is not large, about a dozen square meters. In this room of only a dozen square meters, there is only a small independent world.

The blue sky and white clouds, the gurgling water, and if it weren't the sun overhead or the most common lighting for space battleships, Li Tian would even wonder if he had entered a space that could accommodate living people.

Looking back, Li Tian saw that there was a door in his body, and that door was open at this time, but Li Tian saw that it was dark behind the door.

Under Li Tian's feet is a small piece of land, with serious dirt.

In this land, there are green grass.

The land is scattered, forming mountains, cliffs, pools, and waterfalls, just like miniature landscapes.

Li Tian's gaze continued to search, and soon he found that under the waterfall less than one meter high, there was a palm-sized mouse head knife lying across the pool, allowing the waterfall to constantly impact the knife.

At this moment, huh! A cold light flew out of the rat-head knife with a bit of water vapor, and took Li Tian directly.

Chapter 4873: : Rat Head Shenwei

Li Tian didn't expect this rat-headed knife spirit clan to be so irritable, indiscriminately, he cut directly at him!

but.....

Huh!

A red light flashed, and the Hong Zhan in Li Tian's hand flew out instantly!

Cang!

A metal impact sounded in front of Li Tian, the red blade cried loudly, and the rat-head knife flew back directly and plunged into the pool!

Gurgle!

Small blisters continued to rise from the water pool. The mouse head knife changed into a two-foot-tall man with wicked eyebrows. He jumped out of the pool and rushed towards Li Tian angrily, facing Li Tian angrily. He snarled: "Where is the kid who doesn't know the etiquette? How dare you do something to your Lord Mouse?"

Although the rat-head blade has changed into a human form, the body still maintains a metallic luster, which makes it obvious at a glance that this person is a spirit clan.

When Hong Zhan slashed the rat-head knife into the air, Li Tian couldn't help being a little disappointed!

Seeing this short winter melon with lewd eyes, the disappointed expression on Li Tian's face was even more unconcealed!

"Go, go!" Li Tian waved and said disdainfully.

Li Tian could feel that the strength of the thief-eyed tool spirit race had indeed reached the super domain master realm, but... this realm is just the early stage of the super domain master first level. This kind of cultivation level is much higher than that of Li Tian, but in terms of strength, Li Tian really didn't take it too seriously.

"Bold boy, you dare to speak to your Lord Mouse like this. Is it really impossible to be a rat?" said the rat's head knife furiously.

But... this obscene guy only dared to move his lips, he was shocked by Li Tian's red cut, and he didn't dare to really do it.

Li Tian had already turned around to leave, but suddenly stopped, "You are the metal sculpture outside the training room?"

The rat head knife shivered all over, and quickly denied, "No...no!"

"If not, why put the metal sculpture outside your training room? Is it really disappointing!" Li Tian said unceremoniously.

The Rat Head Knife suddenly became a little unhappy, and jumped up again and shouted: "What an ignorant kid, that statue is the twelve strongest men in our world, and the twelve gods who created this world..." Suddenly, the mouse head knife stopped and looked at Li Tian with a suddenly realized expression, "So... so you are a foreigner!"

This brain's ability to react is enough for Li Tian!

After all the tricks were done, and after saying so, the Rat Head Sword realized that Li Tian was not a tool spirit!

Li Tianzhen didn't know what to say!

Huh!

The mouse head knife changed into a blade again, flashing a cold light, and slashed towards Li Tian!

This time, there was a bit more murderous aura in the cold light, and this murderous aura caused the temperature of the entire space to drop sharply. Li Tian saw that a layer of frost was condensed on the blade of the rat's head knife instantly, and the cold was pressing! Li Tian could even feel that the cold air had penetrated into his skin and penetrated into his bone marrow. With just a few murderous auras, a layer of hoarfrost had already condensed on Li Tian's eyebrows and hair!

Trembling!

Li Tian's body is constantly swinging!

"How could this happen? Does this metal world's super domain master realm first-level powerhouse have such a powerful force?"

Li Tian couldn't help being a little flustered, he even began to blame himself for being too risky.

The mouse head slashed towards Li Tian, but was again blocked by Hong Zhan!

You don't need Li Tian to control Red Slash, and Red Slash automatically protects the lord.

However, the Red Slash that hit Li Tian just now had the upper hand, but when the Rat Head Sword became serious, the power of Red Slash seemed to be greatly weakened, huh! Huh! Huh!

Continuous slashing, continuous red light flashing, that red slash turned out to be just a barely low-grade attack from the first sword of the mouse!

Cang!

Cang!

Cang!

The sound of metal crashing continued, and Mars splashed in space!

Li Tian could not feel any warmth. Li Tian wanted to use his spiritual power, but he found that after being attacked by the cold air, the spiritual power in his body veins seemed to be frozen. No matter how Li Tian works, that spirit The force remained motionless.

The Rat Head Knife will not be able to take the Red Slash for a while, and the power of the attack will continue to increase!

Rumble!

With a loud noise coming from the ground, the soil, water, and vegetation in this space floated slowly with the full slash of the rat's head knife!

A total of less than a dozen square meters of training room, after flying up in front of some mud, the entire training room suddenly became chaotic! The mud, water, and vegetation mixed together, turned into mud, and constantly threw out to the surroundings, but Li Tian accidentally became a clay figure!

"Open! Open for me!"

Li Tian was anxious, he wanted to use his spiritual power, he wanted to use the black fire purple dragon to attack the rat head knife, but... all of these were in vain!

"Impossible! It's just the cultivation level of the super domain master's initial stage, why should I have no resistance at all? And Hong Zhan was also suppressed and couldn't fight back? Is this training room weird? Or is there something weird on this rat head knife?"

Li Tian struggled to get rid of the mud on his face. He wanted to see if there was any difference between this mouse head knife and the beginning!

Cang!

Metal intersects, sparks splash!

The domineering Hong Zhan was chopped and flew back several meters!

Li Tian was shocked!

This also requires Hong Zhan to fight the Rat Head Knife like this. If another person, such as Li Tian, or another fleshy creature, would have already been cut into pieces by the Rat Head Knife!

But, what is the difference between this mouse head knife and just now?

"Huh? Could it be..."

Suddenly, Li Tian noticed that the eyes of the rat head knife were shining. Although the light was not obvious,... the rat eye of the rat head knife turned out to be alive.

There is nothing to be fussing about. After all, in this metal world, metal cubes may change into metal monsters, and metal blades may change into human forms. It seems that all of this is possible, but... Li Tian has entered this secret realm until now. , I have never seen the eyes of these metal creatures move.

Just like the stone lions of China, no one will be surprised to see them. After all, this kind of thing is very common.

But what if the eyes of a stone lion suddenly glow? Will it turn suddenly?

Is it because of the eyes of the rat head?

At this moment, Li Tian can only be a dead horse as a living horse doctor, whether it is for this reason or not, he can only let Hong Zhan attack this.

"Hong Zhan! Behead the eyes of that rat-head knife!" Li Tian shouted at Hong Zhan.

Hong Zhan has the same mind and spirit as Li Tian. As soon as Li Tian's mind moved, Hong Zhan had already cut several red lights in succession, and each red light was cut towards the rat's eye of the rat head knife!

Whoosh!

A trace of horror flashed through the eyes of the rat's head knife, and suddenly he withdrew back through the soil layer, hiding behind the mud!

"Stop fighting! I surrender..."

Chapter 4874: : The Origin of Red Cut

The rat's first knife admits defeat very simply!

If you say no, then you really don't fight, and the training room instantly returns to its original temperature!

Tick!

Tick!

The frost on his hair and eyebrows melted and dripped continuously from Li Tian's head!

The temperature in Li Tian's body veins gradually recovered, and he could use his spiritual power again.

The soil in the training room fell instantly, and the whole room once again changed back to the appearance when Li Tiangang entered, as if all this was an illusion, nothing happened!

The mouse head knife turned back to that short winter melon again, and wandered towards Li Tian, with the look of a thief secretary, and a little complacent, "Boy, you are very good, I admire you!"

"Red cut!"

Huh!

Hong Zhan flashed, and the blade was already resting on the neck of the rat head knife!

"This...what is this for? Old man, I...I just admire you as a kid and want to test your abilities. Why are you so ignorant of etiquette!" An angry expression flashed across the mouse's face, but this angry expression More of it is fear.

"Huh! If I hadn't found your weakness, would you just stop here?" Li Tian sneered and slowly walked towards the rat's head knife.

Suddenly Ratsou Dao laughed, "Boy, don't be kidding, can you spot my weaknesses, old man? It's really ridiculous!"

"Really? Then we will try again!"

Mouse Shoudao looked embarrassed!

He is a super domain master with a good realm, but Mouse Head Sword knows that his cultivation base is still somewhat different from that of Hong Zhan.

Just now, the reason why the Rat Head Sword was able to suppress Hong Zhan was that he used the trace of the power he cultivated. When he possessed the power, the Rat Head Sword was the

absolute king, and he still had the upper hand in the face of Hong Zhan, but... Once this divine power is consumed, the rat head knife will be beaten back to its original shape again.

Originally, Ratsou Dao thought he could rely on this trace of power to win, but he didn't expect...

"Ahem...Why should the kid's family be so serious? What's the point of fighting and killing? Come, let's talk about other more interesting things together!"

Li Tian didn't really want to do with the rat head knife of the spirit race, "Tell me, why did you instantly increase your strength just now? And what did you do to me? Why can't I run my spiritual power?"

Ratshoudao didn't answer Li Tian in a hurry, and asked, "Can you let your weapon... move a little bit away. This is very stressful for me!"

Li Tian was not afraid of the rat's first sword playing tricks, so he put away the red cut!

Hong Zhan put it away, and the mouse head knife began to lean on the old man again. "Boy, can you tell me where this weapon comes from?"

Seeing a trace of displeasure flashed across Li Tian's face, Ratsoudao explained: "If you can't explain, maybe I can explain to you the origin of your red sword!"

When the Rat Shou Dao said these words, Li Tian already knew that this Red Sword definitely came from this metal world.

Moreover, it can be analyzed that Hong Zhan should also be a famous existence in the metal world, definitely not an ordinary blade!

"Okay, then you will explain to me the origin of this red cut!"

The Rat Head Knife sat cross-legged on the ground, looking up at Li Tian, his eyes fixed on Li Tian!

Well, Li Tian can only sit on the floor cross-legged.

"Could you lend me a look at your weapon!"

When Li Tian's mind moved, Hong Zhan flew in front of Ratsou Dao.

Ratsou Knife stretched out **** and pressed it on Hong Zhan, then he closed his eyes slightly!

A faint light flashed from the finger of the mouse head knife, and then the faint light flashed past, but it had already entered the Red Slash.

Huh!

Hong Zhan, who was suspended in mid-air, fell abruptly and plunged into the dirt on the ground!

After a few seconds, the mouse head knife released his fingers, slowly opened his eyes, and said with a look of surprise: "This... is really strange!"

Li Tian felt Hong Zhan, Hong Zhan didn't seem to have received any harm, but the rat's first sword played with Li Tian one after another, and Li Tian was very angry not to answer the questions directly.

"I really want to know, what is the strangeness of my weapon!"

As expected, the thief and squirrel-eyed guy with the mouse head knife did not directly answer Li Tian's question, and then asked Li Tian, "When you came in from the training area, should you find a metal sculpture outside each door of the training area, right?"

"Yes!"

The mouse head knife nodded slightly, and said, "Then have you discovered what these sculptures have in common?"

Li Tian tried his best to remember, but still had to shake his head a few minutes later.

"I don't know!"

"No hurry, let's take it slow, and you can think about it slowly!"

Li Tianzhen wanted to ask Hong Zhan to chop the thief-eyed guy into two.

"Ahem, okay! Let me tell you!"

"The public points of the twelve metal statues outside the door are all human and beast heads, but, most importantly, none of them use weapons in their hands!" said the mouse head knife.

When Rat Shou Dao said so, Li Tian really discovered this situation.

"Yes, but... what about this?"

Ratsou Knife suddenly became a little dissatisfied, and said with a sneer: "Boy, you are so naive, what can be called this! I can tell you with certainty that when these twelve metal statues have no weapons in their hands, they are Chaoyu Lord, the powerhouses close to the demigod level, but once they have their own weapons, they are the quasi-god-level powerhouses! And when their twelve powerhouses unite, they will have the god-level power! "

Li Tian was shocked!

Jump from the super domain master level powerhouse directly to the **** level powerhouse!

How can this be?

If you know that there is a demigod above the superdomain master, how could it be possible to jump directly into the realm of the quasi-god-level powerhouse?

There is another doubt in Li Tian's heart!

Twelve quasi-god-level powerhouses appearing in this metal world at the same time, then they are definitely the peak existence!

No one can hurt them, but... why did they disappear?

According to the little things, these 'gods' have fallen inexplicably!

"Boy, let's go back to the question you asked me at the beginning. You ask me why I instantly improve my cultivation strength. I can tell you now that it is because in this cultivation room, I can cultivate a trace of supernatural power! When using this supernatural power, the strength of the cultivation base can naturally be improved instantly! All the powerhouses who have reached the super domain master level in the cultivation of the spirit clan can cultivate a trace of supernatural power in the training room!" said the mouse head knife.

Shenwei!

Li Tian was really surprised this time.

At the beginning, when climbing the top of the holy peak, the power of the demigod could make Li Tian's skin burst open.

Now Li Tian's cultivation base has been greatly improved, but when he is really facing the divine power, he still can't resist at all!

"Boy, now I will continue to tell you the origin of your weapon, you should have guessed it compared to now!"

"Could it be...this weapon is..." Li Tian whispered almost incredulously.

Chapter 4875: : Human Soul

Although Li Tian couldn't believe it, he still asked hopefully.

"Could it be... Is this weapon Red Slash the weapon in the hands of one of the strong men?"

There was a scornful smile on the face of the mouse head knife, it really was a bitch!

"Young people should be down-to-earth, and don't think about good things! The weapons held by the twelve powerful men are super weapon spirits, which are more powerful than divine weapons! Although your red sword is extraordinary, it is better than that super weapon. Ling said, it's still a long way away!" Rat Shoudao looked at Li Tian with contempt.

Li Tianzhen wanted to punch this **** in the face. Since Hong Zhan is not that super tool, you have done so much to prepare for the woolen thread?

The Rat Head Knife began to comfort Li Tian again, "Don't be disappointed, the super spirit weapon held by the twelve powerful men has long been lost, that is already a legend. And the weapon in your hand, Red Slash, has its uniqueness. If I'm not wrong, then this Hong Zhan should have a certain relationship with our Spirit Clan, because in this Hong Zhan, I feel the breath of the Spirit Clan."

"but....."

Li Tian was really angry this time, Hong Zhan turned around in the air, and the blade of the mouse once again hit the neck of the rat head knife!

"You can't hesitate to give me a try?"

The rat head knife waved his hand quickly, and then said, "How can you get angry easily as a cultivator? It's not good, it's not good! Put the knife down, can I tell you that it won't work?"

This cheap bone, as the super domain master of the spirit clan, are you really good like this?

"In this metal world, any weapon spirit clan's host body can only have one soul in what we call a weapon. Of course, this soul is our weapon spirit clan. Our weapon spirit clan is wounded and turned back to its original form, and will be cut. Killing other foreigners and plundering foreigners' souls for cultivation, the souls that enter the host body will soon be refined with energy!"

The Rat Head Sword continued solemnly: "But, it's strange to say that there will be a device spirit in your red sword at the same time. This device spirit seems to have some connection with our

device spirit family, but it is completely different. , There is another human soul in Red Slash. I have never seen or heard of this kind of situation..."

"Impossible..." Li Tian interrupted Li Tian before he finished speaking!

Li Tian and Hong Zhan are at heart.

While in the earth world, Hong Zhan used to combine with the nine-color corpse crystal in Li Tian's heart, transforming into a white bone armor and a white bone armor. Li Tian has also seen the red sword spirit, the three-sided monster-like spirit. But Li Tian had never felt that there was another human soul in Hong Zhan's knife.

If this soul really exists, Li Tian would not know it!

"Youth, you can't deny the fact that you don't know it! Before you came to the metal world, would you know that there would be metal creatures? Before you did not practice, would you know the existence of spiritual power? Now , You can't feel the existence of human souls in Red Slash, that's because your cultivation base is still too shallow, and you and your weapon Red Slash have not yet fully integrated!"

Li Tian is completely lost!

soul?

There will be human souls in this Red Slash!

Why does this soul exist in Red Slash?

Who is this soul and when did it exist in Hong Zhan?

Outside world? Earth world? Netherworld?

Li Tian killed too many people, corpses, and other humanoid races with Red Slash. He didn't know who had the ability to stay in Red Slash!

"Boy, now is not the time for you to worry!"

"Although Hong Zhan's knife contains a human soul, but that soul has not yet awakened. At present, Hong Zhan's tool spirit can still get along with the human soul, so Hong Zhan can still be your help, but once the human's The soul awakens, the consequences...I can't predict it!" said Ratshoudao.

When Li Tian said this when the Rat Head Sword said this, he had already stretched out his hand to let the divine sense enter the body of the Red Sword.

However, as he had known before, Hong Zhan's knife only contained the Hong Zhan Dao Spirit, which was the tool spirit mentioned by the Rat Head Dao, and he did not find that soul exists!

"Boy, I think that you are fundamentally surprised and related to my spirit clan. I am willing to show you a clear way to help you improve your cultivation level as soon as possible. Are you willing?" asked the mouse head knife.

Li Tian is more willing to believe in small things than Ratsou Dao.

But now Li Tian still doesn't know much about the world of metal. This mouse first knife is willing to point Li Tian, but Li Tian has no reason to refuse.

"But it doesn't matter!"

Ratshoudao's brows frowned slightly, but there was no attack.

"Boy, do you want to practice divine power?"

Hearing this word, Li Tian's heart beat faster involuntarily.

In this metal world, divine power is a very important thing. If you can't cultivate divine power, then Li Tian and others will most likely be destroyed when encountering a super domain master-level powerhouse. What's more, Li Tian still has to go to the Lingjin clan to rescue Tang Xiaolong. If there is no supernatural power, even if Li Tian can go to the Lingjin clan, it would be completely dead!

"miss you!"

"Very well, I didn't misread you! But...heh, as an equivalent exchange, when you cultivate the power, especially after your Hong Zhan also cultivates the power, I need you to help us the Spirit Race! This time our Spirit Clan..." The expression on the face of Ratshoudao gradually became serious.

"can!"

Li Tian had already agreed to the words of the rat head knife.

"Don't you ask what you want to do for us?"

"please say!"

Ratshoudao really doubted whether Li Tian's answering so happy was fooling him.

"It's true that this time our tool spirit race and our spirit gold race did not take advantage of our tool spirit race. If it weren't for some foreigners to intervene on the battlefield suddenly, this time our tool spirit race might be defeated! You can! Seeing that there are twelve independent training rooms in this training area, but...but you don't know that these twelve independent training rooms are now ten rooms and nine empty! There are nine of the super domain master-level powerhouses of our spirit clan. He suffered heavy losses in the battle and was taken captive by the Lingjin clan!"

"I wipe it! Then how many of your Tool Spirit Races are super domain masters?"

"Just... there are only three left, the rat head sword, the bull head sword, the horsetail spear, and others have been taken away. But... you can rest assured that this news has been blocked by our remaining three super domain masters, others The spirit races don't know!"

"Is this the point?"

"You can rest assured to test according to my instructions, don't worry about their safety! The Spirit Gold Clan has undergone tremendous changes, and they now need spiritual powers, and they will not be in danger for the time being! When you cultivate the power of God, We will rescue again!"

Chapter 4876: : Cooperation and alliance

Through communication with Shushoudao, Li Tian finally had a general understanding of the metal world.

The metal world is endlessly dark, but in general, it is divided into twelve regions.

These twelve regions are theoretically owned by the Spirit Clan, but now there is only one area occupied by the Spirit Clan, and the other regions have been occupied by the Spirit Jin tribe and the powerful aliens!

Li Tian also knows that there are three indigenous races in the metal world. They are the spirit races with weapons as the host, the spirit gold races that look like metal cubes but can change in various ways, and that Li Tian met on a space battleship. Metal monsters and steel beasts that can be transformed into beasts.

These three races fight each other and merge with each other!

The lower steel orcs don't have much spirituality, they are a race that can be tamed, just like watchdogs!

Ordinary spirit gold clan is not hostile to tool spirit clan, and can also be used by tool spirit clan, such as the metal cages in the prison area of the sky battleship!

The exiled instrument spirit race will also become the help of the spirit gold race under the refining or coercion of the spirit gold race.

The focus of Li Tian's concern is how to improve his cultivation strength and how to cultivate 'divine power'!

"If it's a tool spirit race, a spirit gold race, or a steel beast race, it's not difficult to cultivate divine might. This is related to our race and the descendants of the twelve powerful people. As long as we Yes, even if we are in the training room, we can cultivate divine power! However, you are a foreigner outside of the metal world. If you want to cultivate divine power as soon as possible, then you must personally pay tribute to the miracle!" .

"Look at the miracle?"

"That's right! There are a total of twelve regions in the metal world, and each region will have the miracle of one of the strong men. Only you, in front of the miracle, personally admire the miracle and feel the mystery of the miracle Strength, if you can comprehend something, have an epiphany, and understand everything, then you will benefit a lot!"

Of course this is not the only way out!

If Li Tian is afraid of danger, he can also stay in the training room to see through.

But... the metal sculptures outside the training room are after all just a scaled-down copy. There is almost no mysterious power on these metal sculptures. It is not impossible to realize the power of God through such small sculptures, but the probability is probably small and outrageous. And the time consumed may not be acceptable to Li Tian.

"Okay, then I will go to see the miracles in the metal world!" Li Tian said.

A touch of appreciation flashed in the eyes of the mouse's eyebrows, and he smiled and nodded and said: "Boy, I did not misunderstand you. Since you are willing to accept the challenge, I will help you again. I have a star map of the metal world. Give it to you!"

With that said, the mouse head knife turned over and there was an oval metal object in his hand.

This metal object is completely black, and it will feel rough in the hand, but the middle and front of this object are extremely smooth, just like a mirror.

"Pour your spiritual power into the star chart!"

Li Tian injected a trace of spiritual power into this metal object in accordance with the requirements of the rat's first knife.

Sure enough, a bright light flashed on the surface of the star map, and then a small spot of light appeared on the surface of the metal object.

As Li Tian continued to inject spiritual power, a rough map outline gradually appeared on the mirror surface of this star map.

"The metal world is full of mystery. You can think of this world as a round sphere. The twelve regions are independent worlds suspended in this sphere with a certain mysterious law. Look... this is what you see. The light is where you are! The other areas where light appears are twelve regions!"

Li Tian looked at the star map mirror in his hand, with a strange feeling in his heart!

What mysterious law?

If the metal world is regarded as a dial, then the positions of the twelve regions correspond to the directions of the twelve time zones.

But...With this star map, Li Tian will at least not smear his eyes.

"The miracles you want to admire are located in these twelve regions, brave boy, go, I am optimistic about you!" said the mouse head knife.

Li Tian held the star map in front of the mouse head knife, pointed to the star map and asked: "The territory of the Spirit Clan is in that large area. Since I want to pay homage to the miracles, I should go to the Spirit Clan first..."

"Ahem..."

The expression on the mouse head knife became a little unnatural, and the twisted ones didn't dare to look at Li Tian's eyes.

"It shouldn't be..."

"Haha, how is it possible? We are the Spirit Clan, the masters of this metal world, how can we lose our territory? Haha...haha..." Ratshoudao said with an embarrassed expression.

I go!

Are these spirit races all idiots?

Even the last piece of territory was ***** lost, and it's still blowing up here. Is it interesting to deceive yourself?

Li Tian suddenly dared that he seemed to be on a thief ship!

"Since I haven't lost the territory, then let's go to the territory of your Spirit Clan first, let me pay tribute to the miracles of the Spirit Clan first!"

The expression on the mouse head knife is even more ugly. After a while, he said: "I admit that our spirit race has no territory now, but...but this is just our strategic shift to avoid the enemy's edge...to avoid the enemy's edge... ..Sooner or later, our spirit clan will regain our territory!"

Seeing Li Tian's disdainful expression, the expression on Shushoudao's face became even more embarrassing!

Whether it's a small thing or a rat-head knife, these tool spirit races blew so many cowhides in front of Li Tian, they really have the kind of domineering Laozi who is the number one in the world, who is better than me in the metal world!

However, now that the cowhide has been blown through, the Spirit Clan has been beaten back to its original form!

Li Tian wasn't exposing the rat's head knife either, just to leave them the last bit of face.

The Spirit Clan has lost its territory and only has a space battleship, which is drifting with the waves like rootless water plants.

However, Li Tianchu's Spirit Metal World, Tang Xiaolong and others were captured by the Lingjin Clan again, and their whereabouts are unknown. Instead, the Qi Ling Clan is Li Tian's best partner now!

"Mouse head knife, now we are in the same boat, if that's the case, why don't we form an alliance? You help us improve our cultivation strength, regain my companions, and then we help you regain the territory!" Li Tian proposed.

The Mouse Head Sword thought a little, "We are the masters of the metal world, but you foreigners are not worthy of being on an equal footing with us!"

Huh!

The blade of Hong Zhan rested directly on the neck of the rat head knife.

Bragging must have a sense of measure. Now that the Spirit Clan has been robbed of its territories, and they are going to be damned out of the race, what qualifications does the Rat Head Knife have to brag?

"Ahem...I have something to say, I have something to say, I need to discuss alliance matters with the other two superdomain masters!"

Chapter 4877: : Target Wonderland

The so-called negotiation means that the spirit clan finds a step for himself!

The Qi Ling Clan has now been closed to death. The three super domain master powerhouses, Rat Head Blade, Bull Head Sword, and Horse Tail Gun, once discussed and hit it off, they immediately decided to cooperate with Li Tian and others!

The Rat Head Sword, Bull Head Sword and others value Li Tian's potential, and even more importantly, Li Tian's Red Slash!

Here is an introduction to the Bull Head Sword and Ponytail Gun!

The body of the bull head sword is a huge sword with a length of more than ten feet and eight feet and a blade wider than the door leaf. The hilt of the giant sword has a bull head with two sharp horns. He is more than five meters tall, strong and strong, and his head also has a pair of horns, which looks like a legendary bull demon!

Unlike the Bull Head Sword, the Ponytail Gun is not low in height. His body is a zhangba spear, and a horsetail-like tassel hung on the tip of the spear. The ponytail spear that transforms into a human shape is almost as tall as the Bull Head Sword, but a horsetail. The gun is as thin as a bamboo pole, but the eyes of this product are particularly poisonous. When staring at people, Li Tian even felt a little pain in his body!

The strength of the Bull Head Sword and the Horse Tail Gun is much stronger than the Rat Head Blade.

Li Tian was very fortunate that he had entered the training room of the Rat Head Sword at the time, and he was responsible for once the two guys showed their power, the outcome would be unpredictable.

The spirituality of these three super domain masters of the Qi Spirit Race is obviously higher than that of other Qi Spirit Races. They know how to judge the situation and use external forces.

They know that the other spirit races in this space battleship want to reach the realm of the super domain master. It is definitely not possible overnight, ten or eight years, and through small things and other spirit races in the living area. It can be seen that these artifact spirit races are not reliable at all in many cases.

Therefore, if you want the spirit clan to rise, and if you want the spirit clan to regain the territory, you must not rely on the spirit clan alone!

Unless they can possess the weapons of those twelve strong men, let them instantly become the most powerful existence in the metal world.

But... they can only use 'haha' to describe this unrealistic idea.

Since you have decided to form an alliance, you must have no reservations!

The Spirit Clan can only bet more on Li Tian, Situ Ningbing, Liu Jimeng, Ye Meijing, and the powerful sea monster clan now!

Rather than want to increase the strength of the Spirit Clan, it is better to increase the strength of Li Tian and the others. This is the unanimous view of the three super domain masters of the Spirit Clan.

After making the decision, the three super-domain master-level experts of the Qi Ling family decided to use the power of the whole family to **** Li Tian to the miracle!

However, Li Tian and others are not metal creatures. If they don't supplement food and energy for too long, they will cause certain damage to their own cultivation. Therefore, before going to the miracles in the twelve regions, the three super domain masters of the instrument spirit clan must first send Li Tian and others to a place-Wonderland!

"Wonderland? What is this place?" Li Tian couldn't help asking curiously.

The mouse head knife came to Li Tian, took out his own star map, pointed to a small dot in the center of the star map, and said, "This is the fairyland. This is the only place in the metal world that is completely incompatible with the metal world. It's like...Do you remember my training room? That is a training area created after the fairyland!"

Li Tian just understood!

It turns out that there is still this small non-metallic area in this metal world, and this small area is called a fairyland!

The mouse head knife continued: "If the metal world is regarded as a spherical shape, the fairyland is located in the center of the whole world. The fairyland is located in the core area of the metal world. It is a paradise for all foreigners, the entire metal world, all Foreign people will go to Wonderland to replenish energy and exchange things."

"However, the current fairyland is not very peaceful. Except for the public area, other important areas have been divided by a few aliens. So if we get to the fairyland, we will add the ingredients and items you need as soon as possible, and then we will do miracles !"

Li Tian couldn't help showing a smile on his face.

It is not difficult to understand that the fairyland is divided by aliens.

Wonderland has no use for metal creatures such as the Artifacts, Spirits, and Iron Orcs.

They prefer this dark world and the feeling of metal.

But flesh creatures like Li Tian, Sea-Monster tribe, etc., even if their cultivation has reached the realm of the venerable and domain master, they still have to have food and water supplements!

This wonderland is very important, and it will naturally become a place where all foreigners gather!

If there is an alien who can control the fairyland by virtue of his strength, then it can be said that he has controlled all the physical creatures in the metal world.

But... it's not easy to control Wonderland!

What Li Tian thought of was the aliens in the fairyland. Those monster-like things were like ghost beasts. Their crystals were of great benefit to the cultivation of Li Tian and others.

Isn't this wonderland the best hunting ground?

"Target fairyland, then let's go to the fairyland first! Just to see the aliens outside the Netherworld!" Li Tian said with a smile.

The space battleship began to accelerate its flight, and the goal was Wonderland.

Li Tian looked at the star map in his hand. This interface, which is smaller than the screen of the mobile phone, should show the entire metal world. Even if the space battleship is flying extremely fast, on the star map, it looks like Li Tian and others just It doesn't seem to move at all.

"Don't worry, it's still far from the fairyland! You can get acquainted with the metal sculptures of the twelve powerful men. At that time, it may be good for you to penetrate the miracle!" said the mouse head knife.

After that, the Rat Head Sword, Bull Head Sword, and Horsetail Spear each entered the training room and began to practice, completely ignoring Li Tian's intention.

Li Tian had no choice but to stare at the metal sculptures of the twelve powerful men in the training area by himself... No, it was an insight!

Situ Ningbing, Liu Jimeng, Ye Meijing, and the Sea-Monster Clan followed the little things back to the living area!

In the living area, those spirit weapon weapons that had already escaped had already returned to this area.

The little thing also looked helpless.

The Qi Ling clan is good at everything, but the brain is not enough to use.

You said that you just fought with Li Tian before, and the spirits of the little things were dragged out by Li Tian. These escaped spirit races should escape from the space battleship, or hide, or seek the power of the super domain master class. Help, but... these mindless guys are back!

Falling to the ground in all directions, a mess!

"Can't the Spirit Clan make some weapon racks?"

Seeing the little thing with a puzzled face, Situ Ningbing could only shook her head helplessly. She used her spiritual power to condense a knife holder in mid-air. Put it on the weapon rack..."

boom!

At this moment, there was a loud noise outside the space battleship, and the entire space battleship shook violently!

Chapter 4878: : Just rubbish

Uh!

The little thing screamed and suddenly fell to the ground.

Situ Ningbing looked at the little thing in surprise, wondering what the little thing was doing!

"Pretend to die! I'm afraid we have encountered a robber!" The little thing opened one eye slightly and said as he looked at Situ Ningbing.

Situ Ningbing is about to faint!

When encountering a mysterious bandit, the first thing that comes to mind is not resistance, but pretending to be dead. It's strange that you say this spirit race is saved!

Besides, the other weapons of the Spirit Clan pretend to be dead, and at least there is a host body as a cover. Maybe it can really get past, but the little thing is a small ball of meat. Who will believe it?

"You pretend to be dead?"

The little thing suddenly realized that his body was really not suitable for pretending to be dead, and sat up with a sad expression on his face.

"I almost forgot, it seems that it's inappropriate for me to pretend to be dead! In this case..." The little thing suddenly jumped up, punching and kicking the other Spirit Race weapons that fell on the ground, "All get up, there are robbers. Attack, everyone will rise up to resist!"

Ha ha!

The attack ability of the little thing is almost negligible, since it can't wake up other spirit races!

"Ready to fight!"

Situ Ningbing directly ignored the existence of the little things, and shouted to the strong men of the Sea-Monster Clan.

Outside the giant space battleship, dozens of small warships like warplanes surround the space battleship from all directions, and on the hulls of these small battleships, without exception, are all standing creatures with scales and red eyes.

These creatures are the most famous mysterious bandits in the metal world!

The bandit in the secret realm, as the name suggests, is the bandit running in this secret realm!

They grab everything, whether it is the tool spirit race, the spirit gold race, the steel beast race or other foreign races, they are all fat sheep in their eyes!

Of course, if they have to arrange these fat lambs in order, the fat lamb they value most is the Qi Ling clan!

There is no other reason, the IQ of the Spirit Clan...arrear, as long as the Spirit Clan can be plundered, you can arm them and increase their strength!

"Haha, really lucky! I didn't expect that we would meet such a big fish here today! The spirit clan who has lost their territory are now the bereaved dogs, and their mothership will break into our hunting area. What a lucky! This time we are really developed!"

These mysterious robbers all had smiles on their faces, waving their weapons and shouting unscrupulously.

The weapons in their hands are the Spirit Clan that they once looted, but now these Spirit Clan are all weapon forms!

"Hit me! Hit hard!"

The small battleship passed by the giant battleship, and the light waves shot from this small battleship continued to fall on the hull of the giant battleship!

boom!

boom!

boom!

The hull of the giant battleship was instantly blasted into a big hole by this laser-like light wave!

However, this big pit on this giant space battleship looks inconspicuous, just like you dug a pit for tree planting on a big mountain!

Moreover, the metal of this space battleship has a strong recovery capability. Soon, the automatic recovery capability of this metal hull will restore the hull to its original shape and look new.

The flight speed of the space battleship has not slowed down, and it continues to fly forward!

Of course, the space battleship did not counterattack, which made these mysterious bandits even more unscrupulous!

"It seems that the news we have received is reliable. I am afraid that the mothership of the spirit clan has lost its defensive capabilities! Listen to my orders and rush to me! Occupy this space battleship, and then we will be the first A band of robbers with space battleships!"

Whoosh!

Whoosh!

Whoosh!

The small battleship hastened to catch up!

At this moment, hundreds of muzzles suddenly protruded from the hull of the space battleship.

boom!

Hundreds of light waves with a thickness of more than one meter were launched from these muzzles, forming a dense firepower net in the dark sky!

boom!

boom!

In an instant, three or four small battleships were blasted to pieces by light waves!

Although the robber on the battleship reacted fast enough, there was still a robber who was shot half of his body instantly by the light wave, and he could not die again.

The robber's body lost control and drifted into the endless darkness!

But the Spirit Clan weapon in his hand seemed to come alive suddenly, whoosh! Flew to the space battleship!

"Push up, hide under the belly of the space battleship, and board the ship to fight!"

Following the orders of these bandit leaders, the remaining small battleships flew down one after another, and then quickly hid under the hull of the space battleship! Although there are light wave cannons under the hull of space battleships, this place is a blind spot, which is almost not dangerous to these small battleships!

The small battleship landed on the abdomen of the space battleship. Then, the mysterious robbers jumped off the small battleship, clinging to the abdomen of the space battleship, stretched out their hands and pressed on the small battleship, the battleship shrank instantly and became only the size of an airplane model, and finally became A metal cube the size of a normal Rubik's Cube was created.

Then these mysterious robbers put away the metal cubes, carried their weapons and attached them under the space battleship, thinking about the direction of the battleship's driving area!

These robbers have lived in the metal world for many years, and their familiarity with space battleships far exceeds that of Li Tian. Soon, these robbers found a way to enter the area of knowledge, and carried their weapons into the tunnel.

Passing through the passage, these bandits came to the driving area!

Just like Li Tian appeared in the driving area of the space battleship, these robbers saw this huge driving area empty, without any shadow of the spirit race!

"Search it for me! The Spirit Clan has just fought with the Lingjin Clan, at this time they are probably all back to their original form!" The bandit leader drank!

Suddenly, a human voice came from behind a metal back chair in the driving area: "Hey, who gave you the right to search for my warship?"

"Someone?"

The height of the backrest of this metal chair is more than two meters. It is not impossible if there are people hidden behind it.

The metal chair turned slowly!

This action is like turning the chair of a good voice teacher of China before the end of the earth world!

Li Tian is naturally sitting on the chair!

"Tell me, what is your dream?" Li Tian pointed at the bandit leader with a face of pretense.

When the bandit leader saw Li Tian and heard Li Tian's questions, he was a little confused instantly!

Isn't this the space battleship of the spirit clan?

Why is there a human creature?

Is this space battleship already occupied by human creatures?

The robber leader's scarlet pupils were locked with Li Tian, and his pupils were constantly shining with spiritual power. Then, the corner of the robber leader's mouth showed a sneer, "It's just territorial trash! Kill me!"

Chapter 4879: : Confrontation

As soon as the robber leader's voice fell, he suddenly felt a depressed breath coming from behind him! Immediately afterwards, the bandit leader saw that the body of a bandit who was still standing behind him was instantly cut in half and flew forward from behind him!

The bandit leader suddenly turned his head, but saw that behind him, he didn't know when a huge sword over five meters had appeared!

Open the mountain with one sword!

This giant sword cut the robber's huge body into two with one sword!

The blood was flowing, and the robber had not had time to let out a scream, he was already dead and could not die again!

The sudden change between the lightning and flint made all the bandits instantly bewildered!

"Ultra...Super domain master-level powerhouse! Tool Spirit Race..."

This group of secret realm robbers is not lacking in the super domain master realm strong, otherwise they would not have the courage to enter the space battleship of the weapon spirit race to plunder.

It's just that the news they got was that the Spirit Clan had suffered heavy losses, and the super domain master-level powerhouse was almost taken away by the spiritual gold clan. Even if the fish slipped through the net by chance, they would be damaged and returned to their original form at this time. soul!

Of course, what really shocked them was why the superdomain master class powerhouse of the Artifact Clan could tolerate Li Tian, an alien from the space battleship, sitting in a space battleship without doing anything, but suddenly attacking them, these mysterious robbers!

Huh!

Bull Head Sword's domineering exposed!

The giant sword was slashed down with a majestic aura. The sword hadn't touched the weapon in the hands of the mysterious robber in front of him. The body of the mysterious robber who had only the Venerable realm was instantly stunned by the giant sword's sword spirit. Divided into two!

Whoosh!

A metal-like cold light flashed in the driving area at a speed faster than lightning. The two mysterious robbers who had only the initial realm of the domain master only felt a chill in their abdomen. They looked down and found that their abdomen did not know what was there. A blood hole with the thickness of a wrist has appeared!

"This... how is this possible?"

The scales on these mysterious robbers have a very strong defense power. Even if the ordinary domain master primary robbery expert makes a full blow, it may not be able to shatter the scales, but...now they don't know what has passed through. Their bodies!

When the wound came out of the body, the blood solidified in an instant, forming a state of freezing, and the cold air was still coming out of the wound, white mist was rising!

A layer of ice has appeared on the bodies of these two domain master-level secret realm robbers. As if Li Tian and the rat's first sword were fighting in the first place, the bodies of these two domain master-level secret realm robbers would have been completely frozen in just a few seconds. Covered, just like popsicles in a blink of an eye!

This is naturally the masterpiece of the ponytail!

The horsetail gun is not a piece of waste wood like the mouse head knife. As a powerful spirit clan at the sixth level of the super domain master realm, the horsetail gun has a trace of power in its ordinary attacks! Even if the power of the gods is weak, it is almost hard to feel, but it is enough to deal with ordinary domain master-level powerhouses!

Sweep a line with the gun!

A ponytail that is as fast as lightning, the body is lightning, and it flashes faster than lightning, and the two domain master-level mysterious bandits naturally kneel!

Huh!

Huh!

Ponytail! Bull Head Sword! Stand around Li Tian! In addition to the Red Slash hovering in front of Li Tian, Li Tian by the way already possesses three powerful spirit clan masters in the super domain master realm. Li Tian, a little **** with a seemingly nonchalant smile on his face, stared coldly at the mysterious bandit leader, and said with a sneer: "Hey, you just said to kill, who do you want to kill? "

A glimmer of cold light flashed in the eyes of the leader of the mysterious bandit!

As a robber, he lives a life of braiding his head on his waistband. The life and death of his mysterious robber entourage is not in his eyes!

However, it was Li Tian's attitude that made the leader of the mysterious bandit feel angry!

It's just **** in the realm of the domain master, and he dare to treat him with this attitude!

This is looking for death!

"Huh! It turns out that there is a helper, no wonder you dare to be so confident! Hey, but there are not a few powerful spirit races who died under Lao Tzu. Let Lao Tzu tell you who I want to kill today! Little ones! , Continue to search for space battleships for me, and all the weapon spirit races will **** them away. If there are other foreigners, kill them!"

The mysterious robber roared, and the weapon in his hand instantly turned into a giant axe over five or six meters in length! The body of this mysterious robber began to swell wildly, and the height of the entire body instantly changed by more than six or seven meters! His red eyes are like two fire-red lanterns. The scales on his body have not become much larger, but they are denser. It seems that the defense power has also increased a lot!

The leader of the Secret Realm Bandit, his head is almost at the top of the driving area, giving people a feeling of standing upright!

Although Li Tian had already pretended to be forceful, he knew that there were other superdomain master-level powerhouses among these robbers. If you let them go, then Situ Ningbing and others might be in other danger!

"Ponytail Spear, Bull Head Sword, please go to deal with other super domain master-level robbers, Rat Head Sword, you go to protect the living area! This robber leader will be left to me to solve!" Li Tian said.

The horsetail spear and the bull head sword slashed at other secret robbers, hiding on the side with the fearful rat head knife. Upon hearing Li Tian's words, he immediately blocked the passage from the driving area to the living area and hid in the passage, which is regarded as guarding Situ Ning. Bing et al.

As soon as Li Tian's words fell, the huge axe in the hands of the mysterious bandit leader slashed towards Li Tian with a terrifying aura!

Huh!

Li Tian's Red Sword followed Li Tian's heart and blocked the giant axe first!

Hum!

The blade of Hong Zhan was chopped by the giant axe, and it shook violently. Then Hong Zhan flew out and inserted it into the back of the metal seat behind Li Tian's head!

"Solve me? Hahaha, what a big tone!"

"In the area outside the metal world, I haven't seen anyone who dares to be so arrogant that the goods want to solve me, hahaha! Come on, do you have any skills, let me see, just let Let me see who is solving whom today!" The bandit leader said with a sneer!

The big axe in the hands of the bandit leader was only slightly slowed down, the bandit leader turned around, and the big axe in his hand was rounded out of half a circle and slashed towards Li Tian again!

Li Tian had quick eyes, stretched out his hand to pull Hong Zhan out of the metal seat, and rolled on the spot, avoiding the attack of the big axe.

However, the prop that Li Tian used to pretend was that the metal seat with a backrest of more than two meters was split into two by the big axe!

Li Tian secretly breathed a sigh of relief!

How terrifying is the power of this mysterious bandit leader's strike! If it were not for Li Tian to hide quickly, I am afraid that Li Tian's fate is already like that of the metal seat, cut into two by this big axe!

"Hong Zhan! Fight with me!"

Chapter 4880: : Failed to install 13

"This guy is just a reptile to change into a big man, you can!"

Li Tian is only a domain master-level realm, he is a bit reluctant to deal with the super domain master-level first-level powerhouses, if he is to deal with this mysterious bandit leader, it is absolutely difficult for a strong man! But... but Li Tianzui couldn't do it. It was obvious that his cultivation strength was limited, and he had to pretend to be forceful, so he directly selected the mysterious bandit leader as his opponent!

Immediately after fighting, Li Tian already knew that the strength of this mysterious bandit leader was much stronger than him, he was a typical self-suffering!

However, the opponent of his choice must fight even if he is kneeling!

So Li Tian can only encourage Red Slash!

Red Slash, but the demon sword that can resist the rat head sword and release the power of God, how can it be defeated by this savage move of this mysterious robber?

Also, Li Tian always felt that Hong Zhan's true strength had not been fully released.

This kind of feeling actually existed in Li Tian after Hong killed the corpse clan. At that time, Li Tian felt as if he could not see through the red sword, and when Li Tian entered the secret realm and came to this metal world, this This feeling is more obvious than before!

Following Li Tian's agitation, Hong Zhan continued to croak unwillingly.

A majestic force was released from Hong Zhan's blade!

Haven't reached the top yet!

Li Tian could feel that the energy released by Hong Zhan was at best the same in the Rat Head Sword training room!

This kind of red cut is enough to deal with the rat head knife, but it seems that it is not enough to deal with the mysterious bandit leader and the great axe combination in his hand!

boom!

boom!

The leader of the mystery bandit is a super saboteur, and wherever his giant axe slashes, whether it is a metal seat or other metal equipment, it will be instantly destroyed.

Of course, the "high-tech" of this space battleship has surpassed Li Tian's understanding and worry. It seems that as long as the metal equipment is not completely divided into two, it will still slowly return to its original state. It is only because when the mysterious bandit leader slashes, the giant axe With spiritual power fluctuations on it, the rate of metal recovery is much slower.

Li Tian is very embarrassed!

The momentum released by Hong Zhan was already very strong, but even if Li Tian held Hong Zhan tightly, coupled with his strength, he could barely resist one or two.

"Hahaha, do you just have such strength? Damn little mouse, with only such a strength, you dare to be so arrogant! I really don't know the life and death thing!" The mysterious bandit leader has completely dominated, but this guy doesn't seem to be in a hurry. Killing Li Tian gives Li Tian a chance to breathe every time.

Only a few minutes of fighting.

Li Tian's grip on Hong Zhan's arm was already terrible.

The skin on his arm was cracked, blood was constantly leaking from the wound, and the blood was dripping, horrible.

More importantly, Li Tian seemed to feel that his arms no longer belonged to him, and he had begun to become a little numb!

This is not a good sign!

Except for his arms, Li Tian's abdomen and back were all injured by the aura from the giant battle axe, which was also bloody.

Of course, the Bull Head Sword and Ponytail Spear would occasionally help out when they saw Li Tian in distress, otherwise Li Tian might have really died.

Unlike Li Tian, the Bull Head Sword and Ponytail Gun are still superior in strength against other superdomain master-level bandits and ordinary bandits, but because it is necessary to estimate Li Tian, and the number of bandits is larger, the cultivation base is also strong. It doesn't have to be much difference between them, it is impossible for the Bull Head Sword and Ponytail Gun to win easily!

Hum!

Hum!

At this moment, the Bull Head Sword and the Horse Tail Spear used the supernatural power they cultivated.

The temperature drops sharply in the driving area!

The entire driving area is a metal world, and a layer of white frost instantly covers the entire driving area.

Even if he was as strong as Li Tian, he couldn't help shivering at this time.

And those mysterious bandits with a lower cultivation level were instantly frozen into popsicles, unable to move at all.

The Bull Head Sword and the Horsetail Spear are like cutting wheat, directly bringing down these disabled robbers.

And those robbers in the super domain master realm, their cultivation is also greatly affected!

There was a robber in the mid-level of the super domain master, and his body began to freeze, and his ability to act was also rapidly slowing down!

"Boss, save me..."

The robber's arm stretched out to the robber leader and asked for help.

But... the bandit beast leader didn't seem to see the bandit calling for help, and the giant axe in his hand slashed towards Li Tian again.

Cang!

Li Tian is only in the realm of the domain master. Even if this divine power is not specifically directed at him, Li Tian has already felt that his whole body is no longer present, and his movements have slowed down a lot. The giant axe slashed towards Li Tian, and the Hong Zhan in Li Tian's hand escaped. Get out, stand in front of the giant axe!

The Bull Head Sword also instantly blocked the giant axe, which saved Li Tian from disaster!

Li Tian regretted it a little. He wanted to fight this bandit leader very much. He also understood that only by fighting the strong and working with the strong can his cultivation level rise faster, but... this mysterious bandit leader has already exceeded Li Tian's bearing capacity.

Huh!

Huh!

Huh!

Several consecutive cold rays slashed out from the sword body of the Bull Head Sword, carrying a divine cold light with extraordinary power. The mysterious bandit leader used a giant axe to resist, and released his ability to resist, but the cold light was still on his body. Cut out a few wounds.

The scales half an inch later were cut apart by the cold light, and blood flowed from the body of the leader of the mysterious bandit.

The leader of the Secret Realm Bandit sneered and said: "Hey, it's interesting, then you two will go together!"

With the control of the Bull Head Sword, Li Tian suddenly became much more relaxed, avoiding the slash of the giant axe, and the red cut in his hand continued to counterattack, slashing on the scales of the robber leader's body!

Cang!

Cang!

Hong Zhan's slash, as if standing on steel, made a metal crash.

Although the scales of the mysterious bandit leader had been cut off by two pieces, Hong Zhan did not hurt him!

Li Tian couldn't help being shocked, "Bull Head Sword! How strong is this guy's cultivation base? Why can't I see his cultivation base?"

"What? You don't know the strength of the bandit leader's cultivation base, so you dare to single him?" Niutoujian was shocked by Li Tian's words, a sword flicked away from the giant axe and flashed in front of Li Tian, then said: "Metal World There will be robbers in each region, and these robbers will be different foreigners, but the robbers who can survive will not be too weak, especially those robber leaders, whose cultivation base is even stronger!"

"The bandit leader in front of him, before his body was changed, his cultivation level had reached the seventh-level peak of the superdomain master, and now, his cultivation base has reached the eighth-level peak of the superdomain master! If you don't use divine power, we don't think it is. His opponent!"

I rub!

Originally, Li Tian wanted to pretend to be forced to slap her face, but did not expect to encounter such a powerful opponent!

Failed to pretend to slap!

Li Tian, it should not be said that Li Tian and the Qi Ling clan have encountered a major crisis!
