

A Killer 4881

Chapter 4881: : Red cut

The bandits who broke into the space battleship, except for the bandit leader, have all been killed by the ponytail!

In the cockpit of the space battleship, there are corpses everywhere!

The temperature in the pilot area of the sky battleship dropped sharply, and the entire space was covered by a layer of frost. The driving area was surrounded by white frost. When the robbers were beheaded, their bodies had been frozen into popsicles, even if they were penetrated. Only a little blood spurted out of his wound, falling on the white frost, like plum blossoms in full bloom in the cold winter!

Many robbers were killed, and the expression on the robber leader's face was indifferent. The giant axe in his hand kept cutting towards the Bull Head Sword, humming the Bull Head Sword!

Cang!

The Bull Head Sword was finally overwhelmed and flew out by being cut directly!

The bandit leader was even more proud, and laughed frantically, "Hahaha! Isn't the weapon spirit clan left with such ineffective waste as you? Where is your superpower now? Why doesn't he come out to fight me? "

This bitch, knowing that the Spirit Clan has been hit hard, and there is no stronger existence, dare to be so arrogant!

The bandit leader shook the Bull Head Sword with one axe, and the giant axe smashed into Li Tian again!

His purpose for the spirit clan is to subdue and plunder, not to mention anger or hatred. However, what really made the bandit leader angry was Li Tian, who was pretending to be a force. Li Tian's appearance made him feel ashamed. He even wondered why a powerful man like him couldn't do it. To the extent of Li Tian's pretense.

Therefore, the bandit leader wants to kill Li Tian!

Only when Li Tian was abused and killed could he feel enough to slap Li Tian in the face.

Li Tian held Hong Zhan with both hands, desperately blocking!

Hey!

At the moment of blocking, the two black fire purple dragons released from his two arms rushed out, following the giant axe in the hands of the bandit leader, and rushed to the bandit leader!

"Hey! Interesting, but a pity... drink!"

The bandit leader screamed fiercely, and the waves of energy released from his arms instantly shattered the two black fire and purple dragons!

At this time, the robber leader's great axe slashed on the red cut again!

That powerful force instantly flew Li Tianlian with Hong Zhan Zhenzhen!

boom!

Li Tian's body slammed into the wall and hit the ground again. The Hong Zhan in his hand was also unstable, and he flew out!

Hum!

Hum!

Hong Zhan fell on the ground, the blade trembling constantly!

puff!

Li Tian suddenly spouted a mouthful of blood. He wanted to support from the ground, but found that his arms had lost consciousness. After moving several times in a row, his arms were not under his control at all.

Click!

Click!

The robber leader's huge body stepped on the ground and slowly walked towards Li Tian!

Whoosh!

After the ponytail spear killed the other robbers, the figure flashed and stab at the robber leader from behind!

The robber leader seemed to have long eyes behind him, without turning his head, with a wave of the giant axe in his hand, he slashed on the ponytail spear!

The spear of the horsetail gun was cut off a lot, and it fell from the air, while the horsetail gun was directly pressed to the ground from the air by the giant axe!

Hum!

Hum!

The horsetail gun screamed unwillingly, but the giant axe slashed on the horsetail gun, and the horsetail gun couldn't move at all!

"Shenwei? Hey, in this secret realm, is it possible that only your Spirit Clan can cultivate divine power?"

The leader of the robber stepped on the body of the ponytail gun, condescending, with an invincible appearance.

The metal world, twelve regions, twelve miracles, these bandits are opportunists, especially the bandit leader, he has also paid homage to miracles, and has cultivated such a ray of divine power based on the worship of the gods!

This power is quite precious, and the bandit leader can easily win without using the power in general!

Now, the ponytail spear and the bull head sword continuously displayed the power of God, so that his body was greatly restricted, and even began to affect his combat effectiveness, so he displayed the power of God!

Unlike the horsetail spear and the bull head sword, the divine powers will cause the temperature in the entire area to drop sharply. The bandit leader's divine power function is like a microwave oven. The surrounding temperature continues to rise, and the white frost begins to melt. The hot water droplets drip from the top!

One dozen three, the bandit leader has the upper hand!

"It's disappointing! Don't you just have this strength?"

The bandit leader also began to pretend, I feel that this feeling of pretending is really cool!

"Can I ask about your dream before you die?" The bandit leader seemed to have lost interest in Li Tian, the strength of the Bull Head Sword and the Ponytail Gun. He dragged the giant axe in his hand and slowly walked towards Li Tian!

The giant axe rubbed against the metal on the ground, making a harsh sound!

The bull's head sword and horsetail spear barely supported the attack on the bandit leader again, but this was nothing more than a pebble hitting a rock!

The bandit leader's seemingly understatement counterattacked, and easily knocked down these two Artifact Spirit Clan superdomain master-level powerhouses!

Seven or eight gaps appeared in the sword body of the Bull Head Sword, the body of the ponytail gun had been smashed into a curved bow, but the giant axe in the hands of the bandit leader had no effect, and the cold light remained!

This is the difference in strength!

Especially the difference in strength after releasing the power at the same time!

"Should you two super domain master-class powerhouses choose to follow me? Swords and heroes, you can only exert the most powerful combat power in the hands of powerhouses like me, so if you don't want to be me If you erase your consciousness and become an unconscious spirit, just follow me!" The bandit leader said coldly.

Hum!

Hum!

The Bull Head Sword and the Horsetail Gun are very unwilling!

They can feel that the weapon giant axe in the hands of the bandit leader was once a domain master's tool spirit clan, but now this giant axe has been completely reduced to a tool of the bandit leader, and that's why the bull head Swords and ponytails can hardly limit the bandit leader!

However, if they were to follow the bandit leader, then their Spirit Clan would really be annihilated!

"It seems that you are very hesitant! Both of you are Transcendent Master Class Spirit Clan, I shouldn't embarrass you so much, then I will give you another chance now!"

"Ok?"

The bandit leader suddenly saw Hong Zhan on the ground. He found that the body of Hong Zhan's knife was the same as his great axe, intact, which made this bandit leader feel very surprised! He

released a strand of God's Sense Wheel on the Red Slash, and immediately discovered the difference between Red Slash and the Bull Head Sword and Ponytail Spear!

Hehe!

The great axe in the hands of the bandit leader pointed at Li Tian, and said with a sneer: "You two spirit races, and the weapon spirit race on the ground, whoever kills this kid first, I will keep it. His consciousness, let him leave the space battleship! As for the other two spirit races, I will slowly let you agree to follow me!"

Hum!

Hum!

Bull Head Sword and Horsetail Gun are struggling!

Li Tian supported his body with his arms, stood up slowly, reached out his hand to touch the blood from the corner of his mouth, and said with a sneer: "It's naive! The Bull Head Sword and Ponytail Spear have a contract with me. They can't kill me." Yes! As for my red cut, let alone! How could it betray me!"

"Hong Zhan! Get up, do you still retain your strength at this time? Get me up and kill this beast!" Li Tian stretched his arm and grabbed Hong Zhan in the air!

Whoosh!

Hong Zhan is flying!

Like a red light, he flew up and flew towards Li Tian's arm!

But... it was not the hilt of Hong Zhan that flew towards Li Tian's arm, it was actually a blade!

puff!

The tip of Hong Zhan's knife has pierced Li Tian's palm!

Blood is flowing!

Chapter 4882: : Red Slash Demand

The bandit leader was also very surprised!

He did not expect that his words would come true, and Hong Zhan would turn to Li Tian!

The bull's head sword and the horsetail gun have now become human forms, and the faces of the two men are also incredulous!

"This... how is this possible?"

"Yes! Reversed, how could such a thing happen suddenly?"

"I've heard Ratshoudao said that the body of this Red Slash weapon has both the tool spirit and the human soul. Could it be that the human soul has taken control of Red Slash and avenged his former enemies?"

Bull Head Sword and Pony Tail Gun looked at Li Tian in surprise, they didn't know what to do or say!

The bandit leader laughed wildly, looked around for a week, and said with a sneer: "Hahaha! What a good show!"

Tick!

Tick!

Blood continued to flow down from Li Tian's palm, and in just a moment, a pool of blood was already flowing on the ground!

Does it hurt?

It's not painful, compared to the wound left by the giant axe in the hands of the bandit leader on Li Tian's body, the pain that Hong Zhan cut through Li Tian's arm was like itching!

However, the blood in this place is a bit shocking!

Li Tian looked at Hong Zhan!

He could see the hilt of Hong Zhan's knife constantly shaking, as if he was guilty in his heart, and his whole body was shaking!

"Why is this?"

Li Tian said to himself.

He didn't expect Hong Zhan to treat himself this way!

Li Tian wanted to ask Hong Zhan, and wanted to know why Hong Zhan, who had been following him for so many years, would treat him like this at this time!

Hum!

Hum!

Hong Zhan is still shaking!

"Hahaha, why is this? The ants are greedy for life, not to mention that your weapon is much smarter than the ants! Good birds choose wood and roost, and do a good job! After cutting this kid, you will follow me, only follow Only a powerful character like me can display the most powerful combat power of your spirit race!" The bandit leader is bewitching Red Slash!

"How to do?"

"It seems that we have chosen the wrong alliance partner, but...now we have no retreat. Either we will kill the bandit leader, or we will completely become the puppets of this damned bandit!"

"Decided?"

"Yes! Just leave it to me! Then you will withdraw with Li Tianxian. You can save as many weapon spirit races as you can!"

The Bull Head Sword and the Ponytail Spear were talking in a low voice!

It's dead anyway, it's better to give it a go!

They may die, but at least the Spirit Clan will not be easily exterminated!

Hum!

Hum!

The Bull Head Sword becomes a giant sword again!

The metal for forging the Bull Head Sword is obviously not that kind of high-tech metal material. At this time, the gap on the blade of the Bull Head Sword remains!

However, it seems that after a short period of training, the cold light on the body of this bull's head sword is still sharp, and the blade is rustling slightly at this time.

Humph!

The bandit leader snorted coldly, his face flashed with displeasure, and he sneered, "I want to resist, really looking for death! However, with this Red Slash weapon, you only need these two Transcendent Master Class weapons. Some chicken ribs, since you want to kill yourself, then I will fulfill you!"

Huh!

The bandit leader once again picked up the giant axe in his hand, ready to cut to the bull's head at any time!

"why?"

Li Tian is still asking Hong Zhan!

Li Tian didn't show much sadness!

He knows that Hong Zhan is chasing the strong, but...for so many years, Li Tian has encountered too many opponents stronger than him, but Hong Zhan has never turned his back on him, never betrayed Li Tian, Li Tian believes that Hong Zhan will definitely do so. There is a reason!

He just wants an answer now!

Hum!

Hong Zhan shook violently, and Hong Zhan's blade once again pierced Li Tian's palm half an inch!

The blade has pierced Li Tian's palm!

Li Tian is neither happy nor sad, nor so painful!

Time seems to be static!

At this moment, Li Tian suddenly felt that the demigod-level beast crystal of the white light old man in his heart began to move restlessly!

The demigod-level beast crystal of the white light old man, Li Tian once gave the obscene god, and then the obscene ***** was brought out of his body by Hai Qin, and this version of the god-level beast crystal was left in Li Tian's heart. Li Tian also thought about refining this semi-god-level beast crystal, but he found that he could not find the clue at all, and it was definitely not possible to refine this version of the god-level beast crystal overnight!

Now, this semi-god-level beast crystal is shaking!

Could it be... Is it because of Red Slash?

"Do you want this demigod level beast crystal?"

This time, Li Tian did not say anything, but asked Hong Zhan with his heart!

Hum!

Hum!

Hong Zhan swayed up and down, seeming to be answering Li Tian's question!

"Aren't you trying to kill me?"

Hong Zhan swayed from side to side, returning to Li Tian's question with certainty!

A smile appeared at the corner of Li Tian's mouth!

He knew that Hong Zhan couldn't possibly want to kill him! It is impossible for Hong Zhan to kill him!

However, now that Hong Zhan and Li Tian have been driven into desperation, Hong Zhan had to ask Li Tian for this version of the god-level beast crystal!

It was just a version of a god-level beast crystal, which was quite tempting to anyone.

However, this is not the most important thing for Li Tian!

Although the demi-god-level beast crystals are important, the red cut to refine the demi-god-level beast crystals is definitely more important than this!

"You want it, then you go get it! He is in my heart, and I will give it to you!" Li Tian said to Hong Zhan with a move.

Hum!

Hum!

The knife body of Hong Zhan shook faster and faster, just like a kid getting candy, and a puppy getting bones!

Excitement, ecstasy!

The corner of Li Tian's mouth turned upward, and he suddenly raised his head to look at the bandit leader. He just wanted to tell the bandit leader in this way that Hong Zhan would not betray him!

Whoosh!

Li Tian only felt a sudden sharp pain in his arm!

what!

Li Tian let out a scream!

This time he couldn't bear it!

With this intense pain, Hong Zhan disappeared instantly!

Do not!

Not missing in an instant!

This is just what the Bull Head Sword, Horsetail Spear, and Bandit Leader saw!

The real situation is that Hong Zhan's light flooded into Li Tian's palm from the wound, and then followed Li Tian's palm and arms into the veins of the body!

"How could it disappear?"

"Where did this Spirit Race weapon go?"

"Damn boy, where did you hide my weapon? Is it a space ring? Then let me chop off your claws!"

The bandit leader jumped into thunder, and the giant axe in his hand slashed towards Li Tian with a breath of destroyer!

Cang!

Bull Head Sword and Ponytail Spear appeared instantly and stood in front of Li Tian!

A metal impact sounded, and there was another gap in the blade of the Bull Head Sword!

The body of the ponytail is more curved, almost completely broken!

The red light transformed from the red sword wandered through Li Tian's body and veins. Li Tian fell to his knees with a bang, constantly making heartbreaking screams, and powerful spiritual power continued to surge from Li Tian's body. come out! Li Tian's own cultivation started to grow at this time!

The bull head sword and the ponytail spear show joy!

"Li Tian, we know that you must have a way. We can only trust you now! This bandit leader is much stronger than us. We can hold on for a quarter of an hour at most. After a quarter of an hour, if you still have no way to surrender Hong Zhan, There is no way to become stronger, then we can only perish together at that time!"

Chapter 4883: : Demigod Spirit

How could Li Tian not know that the situation is critical now!

However, Li Tian is indeed overwhelmed now!

In the earth world, in the end times, Hong Zhan can release transparent silk thread into Li Tian's body veins, and merge with the nine-color corpse crystal to become Li Tian's most important defensive armor. Li Tiandang Red Slash will once again release the transparent silk thread, and then absorb the energy in the demigod level beast crystal in this way, but who would have thought that the final result would be like this!

This Hong Zhan could actually penetrate into his body veins!

This kind of pain was something that Li Tian, a domain master-level powerhouse, felt unbearable! what!

Li Tian screamed in a low voice!

With this scream, blood constantly leaked from Li Tian's wound!

Li Tian's clothes had already been dilapidated, and at this time he had been dyed red with blood!

Cang!

Cang!

The bandit leader had already realized the danger, and the great axe in his hand kept slashing towards Li Tian.

At this time, it is no longer important to pretend to be slapped in the face, and whether to get Red Slash is not the most important thing. The bandit leader just wants to kill Li Tian as soon as possible, and he will be at ease only if he kills Li Tian!

However, the two super-domain master-class spirit clan powerhouses, the Bull Head Sword and the Horsetail Gun, at this time believed that Li Tian was their savior, desperately protecting Li Tian!

However, the divine power cultivated by the Bull Head Sword and Horsetail Spear was already weak after constant battle.

With the slash of the bandit leader's great axe, these two super domain master spirit clan powerhouses have gradually been driven to ruin!

Time is passing!

Li Tian's spiritual power is constantly rising!

This steady flow of spiritual power turned out to be all from the semi-god-level beast crystal in Li Tian's heart!

Red Slash is like the key to unlock the door of the Demi-God Beast Crystal. As the distance between Red Slash and Li Tian's heart grows closer, the spiritual power released by this Demi-God Beast Crystal is increasing!

This is a crimson spiritual power, like a flame!

Li Tian originally thought that the beast crystal of the white light old man should also release the spiritual power of white light, but he did not expect it to be this color!

Fortunately, this scarlet flame spiritual power did not cause an impact on Li Tian's veins, but rather like gentle water, constantly moistening Li Tian's veins!

Ouch!

This spiritual power poured out from Li Tian's body, attached to Li Tian's body skin, and turned into flames. However, this flame is like the alcohol flame ignited during cupping, and it will not cause much damage to Li Tian's body skin. On the contrary, the wounds on Li Tian's body began to gradually heal!

Gradually, Li Tian has adapted to the movement of Hong Zhan turning into red light in the veins of his body, as well as the flame burning on the surface of his body!

Li Tian felt his numb arms gradually recover!

This feeling is really good, as if Li Tian is in the hot spring now, and his whole body relaxes involuntarily!

boom!

Suddenly, a huge energy fluctuation was suddenly released from Li Tian!

It was Li Tian's cultivation base that broke through unconsciously!

boom!

Li Tian broke through again!

boom!

...

Who would have thought that Li Tian would make continuous breakthroughs in a short period of time!

As Li Tian broke through, the spiritual flames on his body became more and more turbulent!

The strong flame energy fluctuations, with Zhong Xiang on Li Tian's body, spread out instantly!

Huhu!

These flames instantly swallowed the space of the driving area!

The flame spiritual power on Li Tian has no effect on Li Tian, but it has no small effect on the Bull Head Sword, Horsetail Spear, and Bandit Leader!

The raging flames gave the Bull Head Sword and Horsetail Gun a feeling of entering a furnace!

"Why is this spiritual power flame so hot? Li Tian, this kid is still in the domain master realm now!"

"Who knows! Is it because of Hong Zhan? Anyway, we are saved now, and it happens to use this spiritual power flame to temper our body!"

Only in less than a few minutes, the body of the Bull Head Sword and Ponytail Gun was burnt red!

And the metal on their host body began to flow slowly, and the gap on the bull's head sword gradually began to become smaller and smaller, and finally disappeared!

And the body of the ponytail gun that has been bent into a bow began to gradually straighten up!

The power of the spirit clan does not repel the flame spiritual power, and even these two powerful people feel that the flame spiritual power seems to be able to temper their host body, and as the metal liquid continues to flow on the host body, a pile of A lump of black matter flowed from the host bodies of these two powerhouses, dripping continuously to the ground!

"Huh? What is this?"

Bull Head Sword felt that his host body was getting smaller at the same time, a little of the flame spiritual power was actually left in the host body. Bull Head Sword subconsciously absorbed this spiritual power, and this spiritual power did not reject him at all, and was rejected by Bull Head Sword. Directly to refining!

"Haha, Li Tian boy is indeed our blessed general, this kind of opportunity is rare for us! Hurry up and practice! Maybe we want to break through again with the help of Li Tian boy's spiritual fluctuation!"

Misfortune lies on!

The Bull Head Sword and the Horsetail Spear did not expect that they would be a blessing in disguise, and they could cultivate this spiritual power!

Looking at the bandit leader, he has no such good luck!

The giant axe in his hand was also unbearable to the high temperature of flame spiritual power, and the whole body turned red in a few minutes!

The hot temperature made the bandit leader unable to hold the giant axe tightly, and could only throw it aside.

But... this flame has filled the entire driving area of the space battleship, and the raging flames are burning!

The scales on the robber leader's body only turned black in an instant, and then, the scales began to crack continuously!

It's like...potato chips are placed on a hot iron plate, instantly turning into a concave shape, and then, the scales are broken!

Blood was constantly flowing from the cracks in the scales, but it was burned to black by the flame spiritual power in an instant!

"No...impossible! How could the spiritual power released by a domain master level trash have such power?" The bandit leader was not willing to believe it!

"Trash is trash! I won't lose to this kind of trash! Don't you want to fight? Then I will stay with you to the end!" The bandit leader released the last trace of the power he cultivated, and wanted to extinguish it through this way of fighting Spiritual power flame released from Li Tian!

Sure enough... the supernatural power released by the bandit leader made his body feel so cold!

The temperature around his body dropped sharply, and the flame spiritual power seemed to be suppressed by this divine might!

"Hahaha, divine power, although the divine power I cultivated by the super domain master level powerhouse has not yet reached the realm of the real demigod level powerhouse to release the divine power, but it is definitely not something that a garbage domain master like you can resist. !" The robber leader's body was a little more comfortable, and he immediately laughed wildly!

Of course...

Before his laughter lasted for a few seconds, Li Tian broke through again!

boom!

The spiritual flame that had just been suppressed swept over again, swallowing the bandit leader completely in the flame!

Chapter 4884: : Red Wing God outfit (1)

The body of the bandit leader was scorched by flames, even if his divine power had been fully displayed, he could not resist the burning of the spiritual flames released from Li Tian's body! But at this time, this flame spiritual power was not released by Li Tian on his own initiative, and Li Tian was also overwhelmed!

The red light transformed from Hong Zhan has entered Li Tian's heart!

The red light filled the sky, and Li Tian's heart was instantly flooded with red light!

And the spiritual flames released by that demigod-level beast crystal perfectly blended with this red light!

Li Tian looked inside, he saw that the Hong Zhan that entered his atrium did not change back to the appearance of Hong Zhan. The red light that was released seemed to be inextricably linked, instantly enveloping the demigod-level beast crystals. Live, forming a huge fireball suspended above the atrium, as if...in this atrium there is an extra round of red sun!

In my heart, spiritual power like a lake is flowing surgingly!

Li Tian felt that the red light released by the Red Slash and the demigod beast crystal had penetrated the spiritual power in the lake, penetrated into the black flames in the sky, and seemed to be able to interact with the spiritual power of the water waves in the lake and the blackness in the sky. Fire and spiritual power coexist!

However, these two spiritual powers did not mean to merge!

However, Li Tian could feel that the pain in his body veins had gradually disappeared, and he was gradually regaining his mobility!

Li Tian stood up!

Gradually, the flame spiritual power on his body began to fade!

A few minutes later, there was no trace of the flame spiritual power in the pilot area of the space battleship, and the temperature began to drop rapidly!

The bandit leader who howled like a pig has swallowed, the scales on his body have been completely rolled up by the flames, or directly broken, revealing the unrecognizable skin that has been burned under his scales!

On the other side, the body of the Bull Head Sword and Horsetail Spear shrank by more than half!

The Bull Head Sword, which was a giant sword with a height of more than five meters, is now only about two meters in length, and the blade that is wider than the door has become more than a foot wide!

However, the body of the Bull Head Sword was as if it had been re-tempered, and it was shining, and it seemed to be much stronger than before!

The length of the ponytail gun has also changed significantly. It is also a gun body that is more than five meters long. Now it is only about 1.8 meters. However, the body of this gun body is black, black and shiny, and the spiritual power flashes on the gun body, giving people A lingering feeling. unfortunately.....

The Spirit Clan in the Bull Head Sword and Horsetail Gun has not changed. When they become metal humanoids, they are still the same!

"Boy Li Tian! I didn't expect you to have such a hand!"

"Haha, Li Tian, this kid has made continuous breakthroughs, and now his cultivation level has reached the beginning of the seventh level of the domain master. This kind of cultivation speed is really shocking! Li Tian, congratulations on your continuous breakthrough! Congratulations on your improvement !"

The bull's head sword and horsetail spear changed into metal human figures, and said to Li Tian with his hands folded.

However, Li Tian did not reply!

At this time, Li Tian was already feeling the spiritual changes in his body veins!

Not only did his spiritual power change, even Li Tian felt that after this time, his body veins had also undergone certain changes unknowingly!

Li Tian has not only improved his cultivation level, but also his cultivation strength!

Li Tian felt that with his current strength of cultivation, even if he encountered a strong person in the second-level peak realm of the superdomain master, he would not be afraid!

"Super-domain master-level powerhouse, I, Li Tian, finally has the strength to fight super-domain master-level powerhouses!"

This time, Li Tian didn't need to rely on Red Slash, he didn't need to rely on the Qiong Spear of the sky, it was his own strength that really improved!

It's just that this kind of opportunity for rapid improvement is probably only one chance for Li Tian. After all, the demi-god-level beast crystal has been wrapped in the red light, and Li Tian doesn't know what's inside the demi-god-level beast crystal. Has the spiritual power been absorbed by Red Slash!

In any case, it is worthy of joy!

The only thing that made Li Tian uncomfortable was that the red light of the red cut changed in Li Tian's heart, and he did not leave!

I just pulled the obscene **** from my heart, now there is another red cut!

Is it that good in this atrium?

Li Tian wanted to use his mind to get Hong Zhan out of his body, but the red light that Hong Zhan transformed into remained motionless!

Even... Li Tian felt that he and Hong Zhan seemed to have lost contact at this time!

After Li Tian's release of spiritual consciousness enters his own heart, he will completely lose contact!

Li Tian felt very helpless!

Regardless, even though Ratshoudao said that there were human souls in Hong Zhan, in general Li Tian believed in Hong Zhan more.

Li Tian can only accept to let Hong Zhan stay in his heart!

Now, it is time to clean up the corpses of the robbers who have been burnt into a mess by the flame spiritual power released from Li Tian's body!

The crystals in these corpses are precious to Situ Ningbing and others!

Only these crystals are enough, Li Tian believes that with the cultivation talents of Situ Ningbing and others, it is not difficult for them to break through!

Of course, the most important thing must be the body of the bandit leader...

wrong.....

Li Tian suddenly discovered that the robber leader's body seemed to be an empty shell!

Damn, this bandit leader dared to play Jin Chan escape in front of Li Tian!

It's no wonder that this bandit leader's cultivation level is much higher than Li Tian, even far higher than the Bull Head Sword and Horsetail Spear. Coupled with the characteristics of their race, if the powerful leader really wants to leave, now Li Tian, The strength of the Bull Head Sword and the Horsetail Spear makes it difficult to keep him!

The bandit leader left a huge empty shell on the ground, and the price he had to pay was to lower his cultivation level by one level!

Li Tian looked around, except for this seemingly empty shell, but there was no sign of the bandit leader!

"Let's go check it out in the channel!"

Bull Head Sword and Ponytail Spear take the initiative to ask!

"Alright! I want to see people in life, and corpses in death!"

Li Tian took a few steps quickly and punched the empty shell left by the bandit leader!

Hey!

A black fire purple dragon instantly swallowed the corpse of the bandit leader!

But at this moment, a powerful attack force blasted out of the corpse, and the target was Li Tian!

"I fuck!"

Li Tian was shocked!

He didn't expect that the robber leader's corpse was not just an empty shell, but his deity also left the corpse in the empty shell, in order to suddenly cast a cold arrow to kill Li Tian!

At this time, the Bull Head Sword and the Horsetail Spear wanted to turn around and rescue Li Tian, but it was too late!

Li Tian waved his hand to resist subconsciously, but found that there was no Red Slash in his hand!
boom!

The claws of the bandit leader who retracted to their original form blasted Li Tian's arm with surging spiritual power!

The skinny camel is bigger than a horse. As long as the robber leader's claws hit Li Tian's arm, Li Tian's arm will definitely be destroyed!

However, at this critical moment, a red light flashed across Li Tian's arm!

Chapter 4885: : Red Wing God outfit (2)

boom!

The bandit leader felt his claws hit the hardest steel in the metal world!

The surging spiritual power is crazy toward wanton with the bombardment power!

And Li Tian's arm is safe and sound!

Placed on Li Tian's arm, a huge red wing blocked Li Tian's arm, and the robber leader's claws hit the red wing!

wing?

Why do wings suddenly appear here?

Li Tian subconsciously looked at the wings, following the direction of the wings, looking for the source of the wings.

But... Li Tian suddenly discovered that the fiery red wings had grown from behind him!

This is the wings?

"I actually grew a pair of wings?" Li Tian said to himself.

That's right, at this time, Li Tian had a pair of wings growing on his back!

This pair of wings spread out, it is five or six meters long, and two meters wide!

The wings can be fanned according to Li Tian's mind, and Li Tian's body can be completely blocked by the wings!

This is the wings?

Li Tian's heart is full of doubts!

Looking at the wing carefully, I found that there was a little flame that was less than half an inch beating on the wing!

This flame is the kind of flame spiritual power released by Li Tian before!

Li Tian has already seen clearly that these are wings, but they cannot be called wings!

To be precise, it just has the shape of wings!

This wing is not a wing, but a blade of Red Slash!

That's right, the entire wing is made up of thousands of red cutting blades, densely layered on top of each other!

Not far away, Bull Head Sword and Horsetail Gun saw the wings that suddenly appeared on Li Tian, and they were taken aback for a moment. Then the two of them were completely shocked by the wings that suddenly appeared on Li Tian!

"This this....."

"No... impossible... this..."

The two super domain master-level powerhouses have lost their speech function at this time, and they are all connected! Puff! Kneeling on the ground, he looked at Li Tian with an infatuation.

Li Tian didn't look back, he didn't know that the Bull Head Sword and Ponytail Spear behind him were already kneeling!

At this time, Li Tian's goal is still the bandit leader!

This ***** thing is Xiaoqiang who can't be beaten to death.

The flame spiritual power can refine the host bodies of the two superdomain master class spirit races, but it cannot burn the body of the bandit leader, which really made Li Tian feel shocked!

The shock of the bandit leader was far greater than that of Li Tian!

"What the ***** is this? Can you fight happily?"

At this moment, the bandit leader didn't know how many alpacas rushed past!

Hong Zhan's rebellion!

Hong Zhan disappeared into Li Tian's body!

Li Tian's body releases hot flames!

All these have already made the bandit leader feel subverting his outlook on life, but now, Li Tian has grown wings!

Do you ***** think you are an angel race?

It can grow the wings that a bird like this has!

The bandit leader no longer wanted to entangle with Li Tian anymore. He no longer wanted to kill Li Tian at this time. He just wanted to leave a corpse and escape from this ***** sky battleship!

The bandit leader's cultivation base has fallen by one level, but he feels that as long as he wants to escape, no one in this space battleship can stop him!

Make up his mind, the robber leader's figure flashed, and instantly appeared beside the giant axe that fell on the ground, reached out his hand to grab the giant axe, and rushed to the passage with the giant axe! However, at this moment, a red light flashed, and Li Tian's figure instantly appeared at the exit of the passage!

Li Tian is completely confused!

This is the first time he has shown teleport since he entered the metal world!

Moreover, this teleportation is not his initiative!

It was as if, at this quarter of an hour, he suddenly lost control of his body!

"You'd better let me leave here. If you push me again, it's a big deal that we will shoot two shots. If I blew myself up here, we will all die together at that time!" Roar at Li Tian!

Blast!

It turns out that it's not just the Netherworld that blew itself up, as long as it was a physical creature, the strong could blow it up!

"Blast yourself? If you want to blow yourself up, do it as soon as possible!" Li Tian said with a sneer.

The bull head sword and horsetail gun were completely shocked by the red wings on Li Tian. The two metal experts knelt behind Li Tian less than two meters away, and tried to reach out their hands to touch Li Tian's wings several times. In the end, he still retracted his hand!

As for the self-destruction mentioned by the bandit leader, these tool spirit races are not afraid!

Self-detonation is the destruction of the body of the self-detonation, and the destruction of the soul, but the host of these spirit races is a weapon. As long as the weapon is not completely destroyed, they will be fine!

"You...you...don't you...are not afraid of death?" The robber leader's voice trembled, and the great axe clenched by his claws was also trembled!

To be precise, the weapon in the hands of the bandit leader should no longer be called a giant axe. Although this weapon is still in the shape of an axe, it has been melted by the flame spiritual power that Li Tian originally released. Therefore, this weapon is in his hand. The feeling of majesty has long disappeared, but it looks funny!

The ants are greedy, and the bandit leader is so cruel, how could he blew himself up!

Since he couldn't blew himself up, Li Tian blocked his escape again. The bandit leader finally became angry and slammed his funny axe at Li Tian!

Don't ask to be able to kill Li Tian, the bandit leader just wants Li Tian to retreat!

boom!

The axe slashed out with surging spiritual power, but it was again blocked by the pair of huge wings behind Li Tian!

The red cutting blade on this giant wing remained motionless, but the handle of the giant axe in the hands of the bandit leader broke instantly, and the blade fell under Li Tian's feet!

"No...impossible..." The bandit leader had already seen that Li Tian had different wings, but it was still difficult for him to accept this reality!

Now, Li Tian can finally act confidently!

The corner of Li Tian's mouth turned upwards slightly, and he said with a sneer: "Honest robber, did you drop this axe?"

The bandit leader didn't know why Li Tian asked such a question, he felt that he was about to vomit blood for three liters! I really want to spray Li Tian directly with hot blood!

Without axe blades, the axe handle in the hands of the bandit leader turned and pierced Li Tian's left eye directly!

However, as soon as his axe's handle was pierced out, it was blocked by the wings behind Li Tian again!

The bandit leader kept changing his attack methods, but he had no way to break the defense of Li Tian's giant wings!

"This...what the ***** is this?" The bandit leader was a little desperate!

Behind Li Tian, the shocked expressions on the faces of the Bull Head Sword and Ponytail Gun had turned into joy and fanaticism.

"This is not a ghost, but one of the most powerful artifacts in the metal world, the Red Wing Divine Costume!"

The bandit leader was shocked by these words, and then he let out a roar, "No! I don't believe it!"

When he yelled this sentence, the Red Wing God mounted at least hundreds of red slashes flying out of the wings. These red slashes had only blades and no hilts, and these blades surrounded the bandit leader from different directions. Aim at him!

Chapter 4886: : Red Wing God outfit (3)

puff!

puff!

puff!

Without any hesitation, Hong Zhan's blade had already pierced into the body of the bandit leader!

The bandit leader instantly became a hedgehog!

"You... unexpectedly...! Hey, even if I die and behave, I won't let you go!" The bandit leader threatened Li Tiandao with a brutal face.

"Then I will wait for you!"

Li Tian tried to control the red cutting blade, and his mind moved, he found that these red cutting blades could move with his mind!

That being the case, then Li Tian is not polite!

Hong Zhan's blade was continuously pulled out of the robber leader's body, and then continuously inserted!

On the robber leader's body, there is no longer an inch of skin that is intact.

puff!

The blood was constantly spraying out, and the ground was dyed red!

The blood fell on Hong Zhan's blade, and Hong Zhan's blade was even more fascinating!

The bandit leader could make a few screams at first, but as the blood continued to flow, the screams gradually faded, and finally screamed to the ground!

To death, the bandit leader was not willing to blow himself up!

Death is not the end of life, but self-destruction is true death!

However, what Li Tian didn't know was that the bandit leader had an egg-sized metal cube in his hand before he died.

When the bandit leader fell to the ground and died, a wisp of white spiritual power floated from the body of the bandit leader, and instantly poured into this metal cube.

Then, the body of the bandit leader pressed the metal cube under him.

Li Tian did not stop because of this!

Killing the bandit leader is just a process, and Li Tian's goal is also the most important crystal.

Li Tian controlled one of the red blades, dismembering the bandit leader, and then stopped until the crystal was exposed.

The Red Blade flew back, and once again landed on the huge wings behind Li Tian.

At this moment, the huge wings were covered with dots of blood, and the blood smell was great, but...Li Tian liked it very much.

Li Tian is not an angel with wings, but these wings can instantly increase Li Tian's strength, can there be more exciting things to Li Tian?

However... Li Tian hadn't been excited for a few seconds before the threat was lifted, and the huge wings actually retracted and disappeared on Li Tian's back.

In addition to the fresh blood on the ragged clothes, Li Tian could not even find evidence that the Red Zhan Wings existed!

Li Tian felt the Red Slash in his heart, and the red light released by the Red Slash still entangled the demigod level beast crystal. Li Tian's heart moved slightly, wanting this huge wing to grow from behind him again, but no matter how hard Li Tian tried, the wings never grew!

And Li Tian wanted Hong Zhan to come out of his heart, and Hong Zhan remained motionless, unaffected by him!

"Damn, do you want to be so self-willed? How can I say that I am your master too!" Li Tian thought uncomfortably, but he could only complain!

Collecting the seventh-level crystals of the bandit leader's super domain master, Li Tian released two black fire purple dragons again, wanting the black fire purple dragon to swallow the body of the bandit leader!

Hey!

The black fire purple dragon appeared, decomposing the body of the bandit leader at an extremely fast speed.

Li Tian turned and walked towards the Bull Head Sword and Pony Tail Gun, wanting to ask them about the Red Wing God outfit.

At this moment, a black light flashed from behind Li Tian.

It was the black metal cube that the bandit leader finally held in his hand. When Li Tian reacted, the metal cube had already flown out of the sky battleship at an extremely fast speed. When Li Tian chased the space battleship, the metal The cube has disappeared into the endless darkness.

"Fuck, then what is it? Isn't it... Isn't the bandit leader still dead?" Li Tian asked puzzledly.

Bull Head Sword meditated briefly, and said, "If... if I didn't guess wrong, it should be the Soul Gathering Star!"

"Soul Gathering Star? What is that?"

"The soul gathering star is a special product of our metal world. It is a metal creature with low-level spirituality. This creature can collect the soul of the dead in the metal for a short time, and can make the soul of the soul through certain characteristics of the metal. Consciousness was preserved in a short time! That is to say... the bandit leader is likely to pass on the cause of his death to other bandits through the soul gathering star, and...and..."

"And what? Speak straight!"

"And the news that you have a red wing ***** outfit may be passed on. At that time... I am afraid you will become the target of the metal world! The spirit gold tribe and other foreign races may all take you as a target to ***** you. Red Wing God outfit!" said the ponytail gun.

I rub!

A misstep causes eternal hatred!

Li Tian did not expect that he would leave such serious consequences if he did not pay attention!

"First of all, I need to declare that it is not that they will regard me as a target, but will regard your Spirit Race as a target. I believe that the target of such a huge space battleship will definitely be much larger than that of Li Tian!" Li Tian viciously swept the Bull Head Sword and Ponytail Gun and said.

Li Tian is very dissatisfied with these two guys!

Since the paralyzed metal world has something like a soul gathering star, why didn't you say it earlier?

Even if you don't ***** tell, you two were in the tunnel at the time, how could you let the soul gathering star escape from under your nose?

"Space battleship is also a kind of metal life with low-level spirituality. If we want, space battleship can change form..."

I fuck!

Don't you need to point your face anymore, are you going to fall into the rock?

Since you can't bear it, don't blame me for being unrighteous!

Li Tian said coldly: "It seems that we no longer need to continue to cooperate! If someone wants to deal with me, let them come! I really want to see, who else can stand up against? Wing God outfit!"

Hearing Li Tian's words, the Bull Head Sword and Ponytail Spear suddenly panicked.

"No! Never! We have written an alliance agreement!" said Niutoujian.

"That's right, and if you have the help of our Spirit Clan, your cultivation level can be improved faster!" Ponytail spear added quickly.

Li Tian sneered and said, "Isn't my cultivation level improved? You didn't see me just now, but you made continuous breakthroughs? Besides, alliances and cooperation are mutually beneficial. Dispensable!"

Bull Head Sword and Ponytail Gun also knew that they were wrong first.

However, it is not that they are unwilling to remind Li Tian.

Only at that time, the two of them were completely shocked by Li Tian's red wing divine outfit, completely unable to extricate themselves. They didn't react until Li Tian chased them out.

"Master Li Tian, you have the Red Wing God outfit, but you know what's behind the Red Wing God outfit?"

Chapter 4887: : Red Wing God outfit (4)

The story behind the Red Wing costume?

This is quite attractive to Li Tian!

Li Tian has not yet figured out why Hong Zhan became the Red Wing Divine Costume, and he does not know how this Red Wing Divine Costume should be used. The story of the Red Wing Divine Costume may help Li Tian understand Hong Zhan and improve Li Tian's strength. Should also help.

"You succeeded in arousing my interest, well, now tell me the story behind this Red Wing God outfit!"

Only then did the faces of Bull Head Sword and Ponytail Gun reveal a trace of ease!

Bull Head Sword pondered briefly, and said: "Lord Li Tian, we can tell the story of the Red Wing God costume later. Now the space battleship is too big and too eye-catching. Please also put the space battleship away and replace it with ordinary ones. Small battleship!"

Li Tian agreed.

The Bull Head Sword and the Horsetail Spear also invited Li Tian to bring all the Sea-Monster tribe and Situ Ningbing and others to the driving area, and all the weapon spirit tribe's weapons also came to this area, and then they began to control the space battleship. Both the Bull Head Sword and the Horsetail Gun changed into metal human forms, and then both of them pressed their palms on a protruding button on the operating platform of the driving area.

As the spirit power released from the two super domain master-class powerhouses, the Bull Head Sword and the Horsetail Gun, wandered along the size of the space battleship, the space battleship began to shake violently, in the sky that Li Tian could not see. In the outer layer of the battleship, the hull of the entire space battleship began to shrink rapidly.

The living area, training area, and prison area gradually disappeared. In the end, the entire space battleship was left with only the pilot area, and the size of the main hull was only about one-tenth of the original size. Even so, this space battleship is still huge, and its overall size is still over several thousand cubic meters!

Such a huge space battleship hull is quite in line with Li Tianzhuang's habit!

The size of the space battleship became smaller, and the speed of the space battleship's flight increased significantly, and it began to speed up toward the fairyland mentioned by the Bull Head Sword!

While the Bull Head Sword and the Horsetail Spear were using their spiritual powers, Li Tian began to tell Situ Ningbing and the others roughly what happened just now.

After listening to Li Tian's introduction, Situ Ningbing and the many Sea-Monster tribes suddenly sighed.

They didn't expect that there are so many super-domain master-level powerhouses in this so-called secret realm. In this regard, this metal world should be a mirror realm that is almost the same as the ghost realm. These Sea-Monster tribes finally know why so many Sea-Monster tribes have entered this secret realm in history, and only a few can leave alive in the end!

Li Tian gave the many crystals he obtained to Situ Ningbing and the others, including those Sea-Monster tribes, of course! Because of the special relationship between Li Tian and Haiqin, these

Sea-Monster tribes completely regarded Li Tian as their master. In that case, Li Tian could never treat these Sea-Monster tribes wrongly!

Of the several superdomain master crystals, Li Tian of course left them to Situ Ningbing, Liu Jimeng and Ye Meijing.

After obtaining the crystal, Li Tian asked everyone to hurry up and start practicing!

This metal world is full of crises. It is as powerful as the spirit clan now being beaten like a bereaved dog. Although there are a lot of people like Li Tian, there is not even one strong person who can really stand alone. Once encounter the super domain master class powerhouse, in the whole team, only Li Tian, Bull Head Sword, Horsetail Spear, and Rat Head Sword possess the power of the first battle.

Li Tian is equivalent to carrying a real team forward. This is not what Li Tian wants to see!

Situ Ningbing hesitated, or came to Li Tian's side, and asked, "Li, you said that the Red Wing Divine Costume was transformed from the Red Slash. What kind of artifact is this Red Wing Divine Costume? Why is it better than the Heavenly Qiong Spear? Is it more powerful?"

Situ Ningbing possesses a butcher knife but a god.

After the end of the earth world, after the battles in the underworld, and came to the metal world, the spirit of the knife in the butcher ***** has also awakened! Situ Ningbing communicated with the knife spirit of Tudao Tushen through his spiritual sense, but found that the knife spirit was like a newborn baby, and had no memory of the past!

However, Situ Ningbing could feel it again. After the butcher knife and slaughter ***** entered the metal world, he began to have a strange change, especially after seeing the small things of the Qi Spirit Race, this change was particularly obvious.

Situ Ningbing could still feel that God Slaughter Knife and Tushen always intentionally or unintentionally released a strange substance, as if it was discolored. As long as God Slaughter and Tushen held it in his hand, there would be some gray-black material sticking. In the palm of Situ Ningbing.

"Let me explain it to you!"

Bull Head Sword walked back, sitting cross-legged in front of Li Tian and Situ Ningbing, and then said: "You should already know that the metal world once had twelve superpowers. I also told Li before that. Master Tian, the original cultivation bases of these twelve powerhouses were only the ninth-level peak powerhouses of the super domain master, wirelessly approaching the semi-god level realm."

"Yes!"

Li Tian and Situ Ningbing nodded one after another.

Bull Head Sword nodded slightly, as if recalling a distant memory.

"The metal world is a world with a special existence. It is the world that can give birth to super domain masters the fastest, but... even if your cultivation level reaches the ninth level of the super domain master, you will never be able to break through again and reach a demigod. In this case, once these twelve powerful men merge with their weapons, the realm of these powerful men will

immediately break through the demigods, and even possess the power of quasi-gods. In the entire metal world, there is nothing People can cause harm to them."

Li Tian and Situ Ningbing nodded slightly again.

The powerhouse at the quasi-god level is the most powerful existence in any small world.

"But they disappeared suddenly, don't you feel strange?"

"It should be that they broke into the half-god realm and entered the ***** realm!"

"No, no, no! You haven't understood until now that there can never be a god-level powerhouse in the metal world! Unless they leave the metal world!"

"Well, maybe they left the metal world?"

"Neither! If the cultivation base reaches the Super Domain Master's eighth level or higher, they will be trapped in the metal world forever and will never be able to leave this world. If they want to forcefully leave the metal world, their bodies will collapse!"

I rub!

This one is wrong, that one is wrong, how does Li Tian know where these guys disappeared?

"What does this have to do with the Red Wing Divine Costume? I am not interested in continuing to understand how these twelve powerful men disappeared. Now tell me about the Red Wing Divine Costume!"

Bull Head Sword looked at the ponytail gun and saw that the ponytail gun sitting on the huge chair in the driving area nodded slightly at him. The two goods seemed to be communicating a secret and secret with their eyes. Bull Head Sword turned around. Opened his palm to Li Tian.

"This is a treasure within our Spirit Clan, and this is the first time we have shown it to an outsider!"

Li Tian almost furious when he saw the empty palm of the Bull Head Sword!

Are you ***** teasing me again?

There are no root hairs on the palm, right!

At this moment, Li Tian saw that the metal palm of the Bull Head Sword began to change, and layers of water lines appeared on the open palm. No, it should be metal lines to be precise, and then from these metal lines A metal cube the size of an egg appeared slowly!

This metal cube should be the treasure of the spirit clan!

The metal cube appeared in the hands of Bull Head Sword, and then began to slowly rotate clockwise.

Li Tian saw the metal square slowly open, like a lotus flower in full bloom.

Click!

A slight sound rang in the palm of the bull's head sword, and then the metal cube's spinning speed became slower and slower, gradually stopping.

Sure enough, it was a small lotus stand, just like a succulent plant.

And in the center of this lotus platform, there is a space ring impressively placed!

Li Tian was a little bit dumbfounded!

Damn, isn't it just a space ring?

Even if it is the most powerful space ring, it is just a warehouse for storing things. How can it still become a treasure of the spirit clan?

Haven't the spirit races in the metal world seen a spatial ring?

It shouldn't be!

It stands to reason that these guys have far more knowledge and proficiency in metal than the Underworld, so how could they not know the space ring!

Niutoujian saw that Li Tian's face showed a trace of disdain, but he was not angry.

When the Bull Head Sword and Ponytail Gun were received to protect this treasure, they were also thinking like Li Tian.

"This is not an ordinary space ring. Now use your divine sense to enter the space ring. You can see some answers you want to know in the space ring!" Niutoujian said.

Ok! Since Bull Head Sword said so, Li Tian could only put away his contempt.

Li Tian slowly stretched out two fingers, pinched the space ring in his hand, and slowly placed it on his palm.

There were no energy fluctuations on the spatial ring, and Li Tian could feel that there was no imprint of spiritual consciousness on the spatial ring.

This kind of space ring can be owned by anyone.

But... Li Tian had no such idea!

Hum!

Li Tian released a piece of divine sense, letting this divine sense wrap around this spatial ring!
boom!

A huge suction power came from this spatial ring, and Li Tian immediately felt his spiritual sense being sucked into a black vortex.

Sure enough, this space ring is not an ordinary space ring!

With the existence of this vortex, no one wants to take out anything from this spatial ring!

Including this divine consciousness that Li Tian has released!

Li Tian slowly closed his eyes, letting the divine consciousness flow with the black vortex.

After a few seconds, the divine sense felt a little more light in front of her eyes, but this divine sense had entered the space ring!

Inside the space ring, it is still metal!

The entire space ring should be about five or six thousand square meters in size. This space is separated by a block of one-foot-thick metal walls. On the metal walls, there are strange patterns everywhere, as if... No, it's basically Not words, but patterns!

Li Tian began to look at these patterns...

Chapter 4888: : Red Wing God outfit (5)

Li Tian felt like he was in a temple in Egypt on the earth. The surrounding walls were full of patterns. The only difference was that these walls were metal!

According to the patterns of the twelve zodiac strong men on the metal walls, Li Tianneng knew that the patterns on the walls were telling the stories of the twelve strong men.

This is a long story!

Li Tian began to look across wall by wall!

Before the end of the world, Li Tian needs to read Chinese characters to watch Chinese movies, otherwise there will always be a feeling that he did not understand movies.

The patterns on the wall now seem to be hieroglyphs, and Li Tian looks even more strenuous.

In many cases, Li Tian basically relied on bold guesses and argumentation before and after to know the content of the pattern.

Gradually, Li Tian could see some useful information!

Everything is difficult at the beginning. When Li Tian gradually finds the pattern of these patterns, he seems to be much faster.

Li Tian began to speed up, and in many cases, he even looked at these patterns at a glance!

Suddenly, Li Tian saw an extra weapon in the hands of the strong man with the dragon head, and this weapon was very similar to Li Tian's Red Slash in its shape and color!

Could it be... Could this be Red Slash?

But where did Hong Zhan come from?

Li Tian eagerly wanted to know what happened next. He watched faster. Many times Li Tian skipped the other strong players and only cared about the strong dragon head. But after watching, Li Tian found that the dragon The Red Sword in the hands of the strong head disappeared, and it turned into a pair of huge wings behind the strong head of the dragon!

This should be the Red Wing God outfit!

But how did Hong Zhan change into the Red Wing God outfit?

Am I missing something?

Li Tian decided to start looking back, he must find the reason why Hong Zhan could become the Red Wing God outfit!

I don't know how many gambling walls I have watched, but Li Tian has really discovered some clues!

On one of the walls, Li Tian saw an extra small square in the hands of the strong dragon head.

Because this is a mural with a metal layout, Li Tian doesn't know what this small square is.

Li Tian did not speculate wildly, but continued to watch.

After he discovered that the dragon head expert had obtained this small square, he began to practice, and several consecutive patterns depict the dragon head expert's cultivation.

On the next wall, Li Tian saw a small square in the heart of the dragon head powerhouse!

"This...is the beast crystal of a god-level expert? Or is it a crystal?"

Li Tian's heart was full of shock!

He already understood that if Hong Zhan wanted to change into a Red Wing Divine Costume, he must have beast crystals or crystals above the half-god realm as support!

But... what the Bull Head Sword said just now kept ringing in his ears.

"In the metal world, above the eighth level of the superdomain master, you will never be able to leave the metal world... In the metal world, even if the cultivation base reaches the ninth level of the super domain master, the cultivator will never be able to break through to the half-god realm!"

However, if this is the case, where did the dragon head powerhouse get this crystal of a demigod or even a quasi-god powerhouse?

Li Tian even began to wonder if there is still some secret realm somewhere in this metal world!

It is different from the direct passage between the metal world and the underworld, but it belongs to the independent secret realm of the metal world!

In this secret realm, perhaps there are beast crystals or crystals of god-level powerhouses!

Li Tian didn't want to miss any opportunity to become stronger, he began to go back and watch how the dragon head powerhouse got this god-level crystal or beast crystal!

Unfortunately, this wall still didn't give Li Tian an answer!

It's as if Li Tian didn't see how Red Zhan suddenly appeared in the hands of the dragon head powerhouse!

However, Li Tian didn't get anything from time to time.

On this metal wall, they are basically telling their stories side by side in the order of the zodiac signs. Li Tian kept looking back and found the weapons in the hands of other powerful men. These weapons are strange in shape, not all of them are Swords, as well as daggers, nine-section whips, gloves, and other magical existences.

Later, Li Tian discovered that these powerhouses had also successively obtained god-level beast crystals or crystals, and then during their cultivation process, these god-level beast crystals or crystals and their weapons had some magical changes!

Li Tian continued to chase the dragon head strong and began to look down!

He saw that the dragon head powerhouse started to undergo some strange changes after possessing the red wing ***** outfit.

At first, Li Tian thought that there was a problem with these metal engravings during the production process, but soon he understood that it was the dragon head powerhouse who could not control the red wing ***** outfit.

His body changed from the dragon in the Chinese zodiac, and gradually began to change like the evil dragon in the Western world, becoming ugly, and beginning to violent. He wantonly beheaded his followers, wantonly beheaded the strong who offended him, and even the dragon head strong began to attack other strong.

The next few walls depict the battle between the dragon head strong and other strong!

Although it was only a metal wall print, Li Tian could feel the fierce battle.

The same strong men of the Chinese zodiac, the same ***** outfit, and the same strength of a demigod or even a quasi-god, these strong men are destined to fight fiercely.

Through the patterns on the wall, Li Tian even saw the body of the strong dragon head being blasted and torn apart.

It stands to reason that the strong dragon head should definitely die, but on the next few walls, the strong dragon head appeared again intact.

In other words, after possessing this red wing divine outfit, even if the bodies of these powerhouses are destroyed, they will be restored to their original state again in a short time.

Li Tian's heart is full of shock!

Could it be that Li Tian's temperament will change drastically after having this red wing ***** outfit?

It's no wonder that Hong Zhan is called the Demon Sword. If this is the case, it would be a curse rather than a blessing for Li Tian to get this red wing ***** outfit?

However, Li Tian was somewhat reluctant to ask him to give up Hong Zhan!

Of course, what's more important is that Hong Zhan doesn't want Li Tian at all now. No matter how Li Tian wants Hong Zhan to come out of his heart, Hong Zhan ignores him.

Li Tian continued to watch, he wanted to know what the final result of these twelve powerhouses was. Of course, Li Tian also wanted to know how Hong Zhan finally appeared in the Netherworld.

Several consecutive walls are depicting various battles. At first it was only the battle between two strong men. Later, other strong men joined and became three strong men, four strong men, five strong men... in the end , Turned out to be twelve strong men fighting at the same time.

This is exactly the zodiac chaos!

Continuing to look down, Li Tian saw that the bodies of the twelve strong men had been severely damaged, and even the weapons that were used to their bodies had been blasted out!

"Did these twelve powerful men just die like this?"

Li Tian continued to look down with doubts.

However, at this moment, the situation suddenly changed. The dragon head powerhouse snatched the weapons and equipment of other powerhouses back. These weapons and equipment fell into the

hands of the dragon head powerhouse, and gradually entered the body of the dragon head powerhouse. Inside.

In the following wall paintings, Li Tian saw the dragon head powerhouse appearing in a certain space. At least the beast crystals of the demigod level or the crystals are constantly being swallowed by the dragon head powerhouse, as if they were The same as eating peanuts.

Then, the dragon head powerhouse on the screen has completely changed.

It's like... well, the quality of this picture is too rough, Li Tian can't accurately determine what the dragon head strong has changed, he only knows that the dragon head strong has become stronger!

Demi god?

Quasi God?

God?

I am afraid that the strength of the dragon head strong at this time has already surpassed the god!

In the wall painting, the dragon head strong seems to have torn the void!

He is going to escape from the metal world!

When Li Tian saw this picture, he seemed to feel a strong suction coming from the empty picture. This suction seemed to be able to ***** Li Tian into the picture. Of course, what is in the space ring is only a piece of Li Tian's divine sense, but even so, Li Tian in the small space battleship is already sweating!

"So powerful! Powerful! This dragon head powerhouse has gathered twelve weapons and swallowed so many demi-god-level beast crystals and crystals, his cultivation base can be so terrifying that he can tear the void open. !"

Is this the true strength of a god-level powerhouse?

This is not a special ability of Void Yasha!

Li Tian then looked down!

However, on the next wall, the style of painting changed suddenly!

The dragon head expert didn't know what had happened, but his body suddenly burst open!

It was as if he had exploded, his body was torn apart, and the twelve weapons he had collected with difficulty also flew out with the explosion of his body.

Flew into the void!

Only his body was left in the metal world!

"People are not as good as the sky. This dragon head powerhouse has obtained twelve artifacts, swallowed so many crystals, and appeared as the strongest person. He thought that he could escape from the metal world by tearing up the void, but he did not expect it to happen suddenly. After the explosion, these twelve artifacts entered the turbulence of the void, and finally landed in different worlds, but his body remained in the metal world!"

At this time, Li Tian finally knew why Hong Zhan appeared in the Netherworld.

In the next few walls, the figure of the dragon head powerhouse did not appear again, but other powerhouses were looking for the body of the dragon head powerhouse around the metal world!

After these corpses were found, they were stitched up by these strong men, and the missing parts were replaced with liquid half-metal! In the final picture, the huge body of the strong dragon head stands in a vast metal jungle.

This is the end of the pattern of the entire wall!

After reading these patterns, Li Tian took the initiative to disconnect him from the divine consciousness in the space ring!

Li Tian at this time was sighing!

No matter how strong the cultivation base is, if this strength does not belong to you, it will harm others and yourself in the end.

"Master Li Tian, now you should understand the relationship between Hong Zhan and the Red Wing Divine Costume!"

"Yes! Hong Zhan is the Red Wing God outfit!" Li Tian nodded.

Shushoudao didn't know when he also sat beside Li Tian, with a look of scorn.

After listening to Li Tian's words, he suddenly realized, "No wonder I had a special feeling when I saw Hong Zhan! It turns out that Hong Zhan is a Red Wing God costume! It is really gratifying!"

"Can I hit someone?"

"can!"

Then... the cockpit of the small space fighter kept screaming from the rat's head knife!

Chapter 4889: : Beast Boy

Li Tian is in a bad mood!

Ever since he knew that the Red Wing Divine Apparel could change a person's temperament drastically, Li Tian was in a bad mood.

During this period, the rat's head knife was beaten by Li Tian, and many of the Sea-Monster tribe were also passed by Li Tian!

Li Tian would like to use another way, such as having ***** with Situ Ningbing, Liu Jimeng, and Ye Meijing to relieve this bad mood, but... this small space battleship does not have this kind of independence. Area.

Li Tian can only endure.

In addition to trying to lure Hongzhang out every day, he is to see who is not pleasing to the eye, and to see if he does not practice seriously and beat him up.

However, during this period of time, Hong Zhan did not hurt him like Li Tian imagined, which made Li Tian's mood a little better.

Small space battleships constantly move through the dark sky.

Small space battleships are definitely high-end goods in the metal world.

Just like a super sports car in the earth world, in the shady sky of the metal world, a small space battleship absolutely pulls the wind.

The difference is that the metal world has no country and no legal system. This is the real world where the weak can eat the strong. Seeing such a small space battleship, there will always be some low-level alien creatures trying to block the small space battleship.

If it is a super domain master class powerhouse, that's all, Li Tian might still lure these super domain master class powerhouses into the battleship, contaminate them and kill them.

However, these people who want to ***** the space battleship are actually small ***** that only has the highest cultivation base, and the strongest is only the initial realm of the domain master. For this kind of rubbish, Li Tian has no heart to ***** their crystals, and he is in a bad mood. , Using the light wave cannon of the space battleship directly, the two cannons blasted the garbage into slag.

Li Tian still doesn't understand the timing method of the metal world, he can only continue to use the time of the earth world to time.

The small space battleship traveled for about five or six days. According to the star map, the location of Li Tian and others is at least five or six days away from the fairyland. At this time, in the black sky, one or two small space warships of various kinds will appear from time to time.

Under normal circumstances, everyone flies separately and is in peace.

It is best to go to the sky and go to the other side.

But there are also special times when there are always some awesome guys who deliberately find faults.

Paralyzed, in this area, there are very few metal cubes in the black sky, just like driving a car to a vast grassland. There is no fixed route here, and you can go everywhere, but there are always fools who will drive space battleships and wipe them on purpose. The space battleship of Li Tian and others galloped past.

If this is the case, the low-key Li Tian will be patient.

But the most important thing is that after some idiots surpassed Li Tian and others' space battleships, they would still stop in front, as if they were showing off their might.

"Master Li Tian, did you see the logo on the space battleship? That is the logo of the Shining Bandit Gang!"

"What the ***** is the Shining Bandit Gang?"

"The shining bandit gang is the most famous bandit gang near the fairyland. All members of this gang are the shining races of foreign races. Their foreheads have a lightning sign, and they also have the ability to control lightning. It is said that this gang is just There are no fewer than seven or eight peak powers in the eighth level of Super Domain Master, so..."

"So, do you mean we have to endure? Now that we are only halfway away from the fairyland, can we endure to the fairyland? Besides, can you guarantee that these shining bandit gangs are not staring at us? "

"No! Lord Li Tian, I definitely don't mean to let you continue to be patient! However, you also know that the news that we killed the bandit leader may have been spread out now, maybe even

your appearance has been spread out, you Now of course you can use the light wave cannon to attack this space battleship, but maybe it will soon alarm other shining bandits. At that time, there will be more and more shining bandits gathering around here, and then we may encounter To some trouble!"

"Yes, Master Li Tian, one thing is worse than one thing less. If you can endure it, let's be more patient!" Bull Head Sword and Ponytail Spear persuaded Li Tian one after another.

Ok!

Li Tian will bear it again and will not move them.

But... at this moment, Li Tian and others' space battleship suddenly heard a sirens.

Then, through the light screen, Li Tian saw a giant light wave with the thickness of a bucket shooting from a direction less than ten meters away from the Li Tian space battleship. It was in the middle of the space battleship of the shining bandit in front of the space battleship Li Tian and others. .

boom!

The shining bandit's space battleship was only a few hundred cubic meters in size. The space battleship was immediately torn apart during the bombardment of this light wave. Many of the shining bandit robbers in this space battleship had no time to escape, and were directly affected by this light wave. Break down into molecules!

More than a dozen metal and steel orc figures, almost fifty to sixty meters tall, galloped past the small space battleship where Li Tian was, and instantly tore the shattered space battleship wreckage into pieces, and then was quickly swallowed. Into the body of the metal steel orc.

This is the first time Li Tian has seen such a huge metal and steel beast.

Rumble!

A huge space battleship almost half the size of the original space battleship of the Qi Ling clan moved slowly over the space battleship where Li Tian was.

Speed is relative.

In fact, the speed of this giant space battleship is very fast. It is only because Li Tian and others' weapon spirit warships are also on the move, so it appears that this giant space battleship is moving slowly!

"This space battleship belongs to that force? Are they not afraid of the Shining bandits?" Li Tian asked inexplicably.

The Bull Head Sword and the Horsetail Spear passed through the light screen and saw the pattern on the space battleship. The two super domain masters of the Artifact Clan could not help but take a breath, and said at the same time: "Damn it, how could you encounter it? Where is the beast boy?"

Beast boy?

This is another term completely unfamiliar to Li Tian!

At this moment, Li Tian looked at the Bull Head Sword and Ponytail Gun with extremely contemptuous eyes.

"When I met you at the beginning, you said that your tool spirit race is the ruler of the entire metal world. How come along this way and encounter any powerful force, it seems to be much stronger than your tool spirit race. What's the explanation? Can you tell me in this metal world, whether your Spirit Clan counts as a master?"

Cough!

Bull Head Sword hurriedly used a fake cough to cover up his panic, "The ruler must be counted! Our Spirit Clan is one of the three most powerful races in the metal world. It is only 30,000 years in the east and 30,000 years in the Hexi. It's just the Spirit Clan who is at the lowest valley!"

Li Tian said disdainfully: "Will you die if you don't brag? Can you tell me what this beast boy is now?"

"The beast boy is one of the few creatures that have awakened high-level wisdom among the metal and steel beasts. These beast boys rule the metal and steel beasts! They are very powerful!" Ponytail Gun explained.

At this moment, a series of symbols flashed on the light screen of the small space battleship. Seeing these symbols, the Minotaur's face flashed with surprise, staring at Li Tian dumbfounded, and said, "Lord Li...Master Li Tian, Things are not so good! Beast Boy invited us to visit their space battleship!"

Chapter 4890: : See the beast boy

It's a blessing or a curse or a curse that cannot be avoided!

Beast boy kindly invites, but Bull Head Sword and Ponytail Spear dare not refuse!

Li Tian nodded slightly and said, "Since the Beast Boy invites you to be a guest, you can rest assured! It happens to take this opportunity to establish a good relationship with the Metal Steel Orcs, and it will also be beneficial to the rise of the Spirit Clan. As for the space battleship As well as the other members of the Artifact Clan, I will protect it. Go ahead, come on!"

The Bull Head Sword and the Ponytail Gun were suddenly a bit silly!

However, what Li Tian said seems to be correct. The beast boy did not ask Li Tian to be a guest by name or surname. This space battleship belongs to the weapon spirit clan, and the beast boy only invited the owner of this warship. A super domain master-level powerhouse was a guest in the past.

"Is this really appropriate? Now we are allies!"

"There is nothing inappropriate! Go! I am optimistic about you!"

Ngau Taujian and Mawei Qiang reluctantly began to discuss.

"Why don't you go! I stay with the Guardian Spirit Race!"

"It's better for you to go! Your status is higher than mine, it is more suitable for you to go!"

"My cultivation base is stronger than you, and the important task of the guardian spirit race is entrusted to me..."

"Your cultivation is stronger than mine, even if the beast boy has any bad ideas, you can escape with your strength!"

Well, these two goods began to shirk constantly, and no one is willing to take the initiative!

Li Tian is really helpless to die!

"Should I go?"

"Good! Good! Good!"

"This is the best way, Master Li Tian, you have a red-winged **** armor to protect you. It is absolutely safe for you to go!"

Bull Head Sword and Ponytail Gun nodded and said at the same time.

"Do you think I will let me die? If the Red Wing costume is exposed, is it possible for me to survive?"

Li Tianzhen wants to kick these two **** to death. I'm so **** stupid, right?

"You can go if you want me, you must listen to my arrangements!"

Bull Head Sword and Horsetail Gun nodded at the same time, expressing their willingness to listen to Li Tian's arrangement.

"Your Bull Head Sword becomes a great sword, as my weapon!" Li Tian said, pointing to the Bull Head Sword.

"Okay! No problem, it's my honor to be able to fight side by side with Master Li Tian!"

Li Tian nodded slightly, pointed the ponytail again, and said, "You also become a spear, as my...crutch!"

"I am also a super domain master-level powerhouse anyhow, as a crutch..."

"Then can you change into another form? For example-scabbard?"

"Actually, it's good to be a crutches, I like to be a crutches!"

Li Tian had already understood that the reason why the Spirit Clan was almost annihilated was definitely related to the character of these goods.

"Li, I'll pay you to go with you!" Situ Ningbing said with some worry when he saw that Li Tian was about to try again.

"Alright!"

Li Tian did not refuse Situ Ningbing.

Situ Ningbing and the others were actually not easy. They encountered the war between the Spiritual and the Spiritual Clan as soon as they arrived in the metal world. Before they had time to feel the metal world, they were arrested separately. Had it not been for Li Tian's appearance, This vote is likely to be destroyed directly.

Now, the beast boy invited to see the metal and steel beasts, Li Tian has no reason to reject Situ Ningbing!

The Bull Head Sword became a big sword nearly two meters long, and then Li Tian carried the big sword behind him.

The horsetail spear turned into a long and eight-foot spear. Li Tian wanted Situ Ningbing to use the spear, but Situ Ningbing insisted on using her butcher knife to kill the gods. Li Tian could only give up!

Li Tian said a few more words to the rat head knife, and then set off.

Flying out of the small space battleship of the Spirit Clan, there are already four seven to eighty-meter-high metal behemoths waiting for Li Tian and Situ Ningbing outside the space battleship. The four metal and steel behemoths are half kneeling in front of Li Tian. It seemed that they were waiting for Li Tian and Situ Ningbing to ride on.

Li Tian was not polite, and took Situ Ningbing's hand and jumped onto the body of one of the giant metal beasts.

Then, these four metal and steel behemoths galloped towards the giant battleship where the beast boy was!

"Fast speed!" Situ Ningbing couldn't help but exclaimed that these giant beasts would fly so fast.

Li Tian nodded slightly.

These four behemoths all possess the initial stage of the third level of the super domain master.

The flight speed of the super domain master level expert is much faster than the flight speed of Li Tian, the domain master level 7 and Situ Ningbing, the domain master level 1 expert!

Rumble!

The Beast Boy's space battleship opened the door, and a blue light was released from the opened door.

The two battleships were almost several kilometers apart. Just now Li Tian was still looking at the blue light from a distance. In an instant, these four giant beasts appeared in the area of the blue wheel cover carrying Li Tian and Situ Ningbing.

Hum!

Li Tian only felt a suction coming from the cabin door, and in the next second he and Situ Ningbing had already appeared in the space battleship. As for the four giant steel beasts, they still stayed outside, squatting on the hull of a space battleship, instantly changing into metal sculptures!

Li Tian and Situ Ningbing looked around curiously.

The interior of this space battleship is completely different from the interior of the spirit clan space battleship. It is empty and it is like a huge empty stadium.

However, these metals have excellent effects in eliminating sound. In this layout of the warship, no matter what sound you make, there will be no echo.

Hum!

A cylindrical elevator descended from the top of the cabin.

The elevator is made of a transparent material, just like the glass of the earth world.

Through this transparent substance, you can see a...person appearing in the elevator!

So using this quantifier is because the guy in the elevator looks so strange.

You say he is an animal?

Sorry, his head is the human head.

But you want to say he is human?

His body is like a leopard or a lion, on all fours.

Of course, this species is full of metal!

Li Tian whispered to Situ Ningbing, "This may be a beast boy!"

Situ Ningbing nodded slightly.

The two subconsciously grasped the weapons in their hands.

The door of the elevator opened, and the beast boy walked out from inside, and then... he shook his body and stood up slowly. A few seconds later, a handsome young man appeared in front of Li Tian, and...more importantly, the skin of this young man was a bit more similar to human skin.

This...this completely exceeded Li Tian and Situ Ningbing's expectations.

"Welcome to my battleship!" The Beast Boy opened his arms and said with a confident expression on his face: "I am one of the Beast Boys in the Iron Orcs. I am the owner of this space battleship. You can call me Little Beast. , You can also call me a boy! No need to be cautious!"

I am afraid that this guy's cultivation base has reached the mid-level ninth level of Transcendent Master, and Li Tian felt oppressed on him!

"What do you mean by inviting us to come here as a guest?" Li Tian subconsciously blocked his long spear in front of him and Situ Ningbing, and said.
