

A Killer 4911

Chapter 4911:

Heavy Arrow, with the powerful spiritual power released by the dark soft, rushed towards the face of a certain spiritual gold clan powerhouse!

If the target is an ordinary domain master-level powerhouse, even if his cultivation realm reaches the domain master's fourth or fifth level, facing an arrow released by the dark and soft, I am afraid that he will not dare to neglect the slightest.

It's a pity...The opponent you are facing now is a super domain master power!

When this heavy arrow was less than a foot away from the face of this powerful spiritual gold clan, it suddenly hovered in the air, motionless!

Immediately afterwards, the direction of this heavy arrow was reversed, and the super domain master of the Lingjin clan stretched out his palm and slammed a palm against the arrow's tail!

boom!

This heavy arrow flew back quickly, but the arrow flew towards one of the strong foreign races!

The arrow is still a heavy arrow shot by You Yinrou, but after the twist of this super domain master-level powerhouse, and a slap, the power of the arrow is a bit faster than when You Yinrou shot it out. A bit more powerful.

The speed of the strong foreign clan was already fast, and he was about to rush to the strong Lingjin clan, but was shot through his head by this heavy arrow!

puff!

Splashing blood and brains!

But the power of this arrow did not weaken much. After shooting out from behind the head of this powerful alien, it shot through the head of another powerful alien who followed him!

puff!

Splashing blood and brains!

The power of this arrow weakened a lot, but it was still almost the same as the power when You Yinrou shot it out, because the same clan in front of him blocked the line of sight, and the speed of this arrow was too fast. The heads of the two strong foreigners in front were shot through, the body has not fallen down, but the other aliens behind them have not yet discovered.

When the arrow shot from the head of the second strong alien, the third strong behind the two aliens had already sensed the danger, had released a layer of spiritual power to protect himself, and even subconsciously moved to the side. He twisted his head, but... the arrow still hit his right eye!

puff!

This time, the eyes of the powerful alien were shot, but the arrow did not pass through his head.
what!

The wounded strong foreigner let out a scream, but he was glad that he was not dead!

But at this moment, a loud bang came.

The arrow that had been shot into his head suddenly burst.

The head of this strong man was instantly exploded into flowers, and blood, broken bones, brains, and heavy arrow fragments splashed out in all directions.

Suddenly, five strong foreigners were killed three in a row.

The strong foreigners who were about to rush to the strong spiritual gold clan were immediately dumbfounded. They wanted to die with the spiritual gold clan, holding the idea of killing one for enough money, killing two and earning one, but... Now this is completely to die, and three people have already been killed in seconds before they rushed to the Lingjin clan. How can this be beaten?

The two powerful aliens were so desperate, as if they had been emptied of strength for an instant, they gave up resistance!

Puff!

Puff!

The two powerful foreigners were ashamed and knelt down, as if they had lost their bones, sitting on the ground.

The Sea-Monster tribe who had been following the impact just now lost their backbone. They were still running and moving, but the speed of that movement was not much faster than that of the tortoise. The two strong Sea-Monster tribes were heart-piercing while running. There was a howl, and at this moment, the powerful spirit clan chose to pretend to be dead, changed back to the shape of a host weapon, and landed directly on the ground, motionless!

"Xiaolong, run away!"

You Yinrou drew two arrows from the quiver again, draped them on the bowstrings, and drew the bows all over, facing those of the Lingjin clan who had already approached the foreign clan.

Tang Xiaolong didn't move, and said with a sorrowful smile: "These guys are all super-domain master-level powerhouses. In front of the super-domain master-level powerhouses, we don't have any chance to escape... even if there is a chance, I I can escape from this **** place, but if you have something short and long, how can you let me meet the little boss, and what face do I have to meet the little boss!"

In the distance, those strong spirits did not continue to slaughter, the remaining two strong foreign races were trapped in metal cages like dead dogs by the spirits!

The Lingjin tribe now needs a large number of slaves to work for them, and they need these slaves in front of them.

Killing three strong foreigners is to build up power and make others lose the idea of resistance.

The spirit gold tribe hurriedly threw the two sea-monster clan powerhouses into the metal cage. The weapon spirit clan powerhouse who fell on the ground pretending to be dead was severely beaten. After stepping on a foot, following a violent fluctuation of spiritual power, the powerful spirit clan instantly transformed back into a human form, and was also thrown into a metal cage, not spared!

Then, these Lingjin clan experts slowly walked towards Tang Xiaolong and Youanrou!

"Keeping the green hills, you are not afraid of nothing to burn, Lord of the Dark and Soft Domain, we..."

Along the way, strong foreigners kept telling Tang Xiaolong and the dark and soft Lingjin how they enslaved these captured slaves, and how dark the metal cave was. Once they were driven by the Lingjin clan to enter Metal cave, how life is worse than death.

But... is it really because of fear that you just give up?

It is better to die than to live, not to mention that the fire of hope in Tang Xiaolong's heart has not been extinguished.

Li Tian, his little boss always comes forward at various critical times, so Tang Xiaolong thinks that even if they are controlled by the Lingjin clan and enter the dark metal cave, Li Tian will have a way to find them. Ability to rescue them!

The dark soft arms were trembling slightly!

Her heart is also contradictory, it is difficult to choose!

Death is the simplest thing, but it is an escape!

Living is the hardest thing!

The Lingjin clan changed into a metal block, suspended in mid-air, slowly floating over.

This is the land of the Lingjin clan. These Lingjin clan have absolute self-confidence in their hearts. They believe that Tang Xiaolong and You Yinrou must not be able to escape. Therefore, these Lingjin clan are not in a hurry, but deliberately kill the morale of the dark and soft Tang Xiaolong. !

Dark and soft eyes flickered, but her spiritual power was getting weaker and weaker.

After a few seconds, You Anrou sighed, loosened his arm, and pointed the arrow at the ground!

Boom!

Two heavy arrows were shot out and stuck on the metal land. The tails of the arrows swayed back and forth, making a humming sound!

Although not reconciled, but in the face of absolute strength crushing, You Yinrou chose to give up!

The powerhouses of the Lingjin tribe have changed into metal human figures again,

"That's right. If you dare to resist, then our Lingjin clan doesn't mind killing another person! Hehe!"

A metal cube the size of a Rubik's Cube was added to the hand of a strong spiritual gold clan. This is a metal cage, slowly walking towards Tang Xiaolong and You Yinrou!

At this moment, all the super domain masters of the Lingjin clan suddenly raised their heads and looked towards the sky.

Whoosh!

In the dark sky, I don't know when there was an extra firelight, like a firelight from a meteor flying here quickly!

"This...this is..." the spiritual gold clan experts shouted in panic.

Chapter 4912: : A stone's throw

In this metal world, Gloom and Rou can't tell the difference between the south, east and the north. However, when she saw the red light across the sky, Gloom and Rou suddenly had a strange idea in her heart. The red light is a sharp arrow, and the direction of the sharp arrow is the east!

Tang Xiaolong looked at the sky dumbfounded!

He could feel the surging spiritual power contained in the red light in the sky.

Super domain master?

more than!

Even the ninth-level super domain master might not be able to release such a powerful spiritual power!

Then there is only one explanation, that is, the surging spiritual power contained in this red light has at least reached the state of a demigod.

Demi god?

At this time, all the super domain masters of the Lingjin clan present also thought so.

As one of the three indigenous races in the metal world, as the super domain master-level powerhouse, they know very well that there will be no god-level powerhouse in the metal world!

However, what is the explanation for the powerful spiritual power that crosses the sky?

At this moment, these spiritual gold clan powerhouses thought of the legendary twelve powerhouses.

I also thought of the purpose of supporting the mysterious power of their Lingjin tribe behind the scenes.

There is only one explanation, that is... the legendary artifact of the twelve strong men!

Whoosh!

Whoosh!

Involuntarily speaking, the two Lingjin clan superdomain master-level powerhouses instantly changed into the shape of metal squares, and rushed toward the flying red light.

These two super domain master-level powerhouses have reached the initial stage of super domain master level 6 and super domain master level 8 respectively. They are the best among all the spiritual gold clan powerhouses present. They flew up just to get close. This red light is the first to confirm the conjecture in their hearts!

The speed of that red light was extremely fast, and the flight speeds of the two Lingjin clan superdomain master level experts were also not slow, but the speed of the superdomain master eighth level early powerhouse was faster.

Walking towards each other, less than a few seconds later, he had already seen the appearance of this red light flying!

"really....."

This spiritual gold clan super domain master at the early stage of the eighth level saw a bright black arrow in the red light!

And on this metal arrow, the four characters 'Yuanyang Mie Shen' are clearly visible!

"Sure enough, it is Yuanyang Destroying Arrow!"

Seeing this arrow, the spirit of the super domain master of the Lingjin clan's heart jumped wildly.

Uh, well, in fact, this kind of metal creature has no heart at all. Even if they can transform into a human form, it is an imitation of other alien races. Their body structure is still a metal lump.

But this guy is really excited!

Metal World, twelve regions, each of these twelve regions has a miracle.

Within the miracles of the Lingjin clan is the legendary 'Bunny Girl' who used Yuanyang Deity and Jihuo Meteor Bow.

However, although the miracle was still there, it was because the artifacts of the twelve powerful men disappeared long ago.

But now... this Yuanyang Destroying God Arrow is back!

In the heart of this spiritual gold superdomain master at the early stage of the eighth level, there is really a feeling of "no effort to find a place to go through iron shoes", but what he thinks more is that as long as he gets this artifact, Coupled with the behind-the-scenes support of the mysterious strong, who else can stop the rise of the Lingjin tribe?

Thinking of this, the strong man, ghostly, grabbed his hand to the red light that was about to fly in front of him!

Getting closer.....

Getting closer.....

The red light illuminates half of the sky, and all the superdomain masters on the ground can already see a black shadow in the red light.

What is it?

What is it?

These superdomain master-level powerhouses are equally excited, they are eager to see their little leader grasping the red light in their hands, and then let them also see what the surging spiritual power is in the red light!

At this moment, these super domain masters only felt the red light in the sky suddenly soaring, but the little leader who had just reached out to grab the red light suddenly disappeared.

how is this possible?

How could the little leader disappear?

But at this moment, they saw a shower of rain in the sky behind the red light!

Sparks of metal rain!

"Could it be...could it be that our little leader has..."

These spiritual gold clan experts could hardly believe their eyes, and their faces showed horror at the same time!

That's right, when the red light flashed, their little leader just approached the red light, and was instantly melted by the red light, turning into metallic water and falling into the endless darkness!

The sixth-level powerhouse of the Lingjin clan superdomain master, his cultivation base is higher than other powerhouses on the ground, he is close to their little leader position, so he sees it more realistically.

The strong man in the early eighth level of the Super Domain Lord was actually refined in an instant, which made him fearful.

"This this....."

This powerful Lingjin clan seemed to be stuttering. Without saying a few words, he turned and fled.

Unfortunately, how could his speed be faster than Yuanyang Deshen Arrow!

The moment he just turned around, Yuanyang Desperate Arrow flew from behind him and shot through his body instantly.

This spiritual gold clan expert can feel that his body seems to have a huge hole. Before he can lower his head, his whole body is refined, like his little leader, turning into a scarlet metal raindrop. , Go down.

"Quick...Run away!"

These spiritual gold clan powerhouses suddenly went crazy!

The red light is approaching!

These spiritual gold clan powerhouses had no longer cared about what the red light was at this time, they just wanted to quickly escape from here and escape back to their clan.

As for the alien races controlled by the metal cage? Kraken? Artifacts?

Who cares about their life and death!

These spiritual gold races turned into metal cubes and flew at extreme speed in the direction they came!

Tang Xiaolong and You Anrou also wanted to escape, they both wanted to escape in the opposite direction.

However, the power released by the red light was astonishing. Tang Xiaolong and You dark soft heart had more than enough strength. They stood trembling in place, completely unable to move, and could only look at the backs of those strong Lingjin clan being escaped.

Whoosh!

However..., that red light flew over the heads of Tang Xiaolong and You Yinrou!

The red light was at least a hundred meters away from them, but Tang Xiaolong and You Yinrou were deterred by the red light and directly slumped on the ground.

I don't know if it was a coincidence or fate. When the vast majority of the spiritual gold clan powerhouses had just escaped into the metal cage that controlled the alien clan powerhouses, the sea monster clan, etc., the red light fell from the sky. Come down!

boom!

A loud noise!

Tang Xiaolong and You Anrou felt the entire metal continent tremble violently.

Where the red light collided with the metal continent, billowing smoke rose instantly.

The smoke quickly spread to the surroundings, completely wheel cover within a radius of tens of miles.

Even though it was covered by the smoke wheel, You Dark Soft could clearly feel that there were dozens of spiritual power fluctuations just now, but they disappeared instantly!

Those super domain masters of the Lingjin clan were destroyed by the group!

As for the murderer, it turned out that Li Tian and others had exhausted their efforts to release from Qingfeng Tower-Yuanyang Mie Shen Jian!

Chapter 4913: : Conquer the arrow

I don't know how long it took, and the smoke began to slowly dissipate.

Tang Xiaolong and You Yinrou stood up supporting each other. Through the thin smoke, the two walked a few steps forward, only to find that the area where the cage was just now had become a huge recess with a diameter of more than two to three hundred meters. Shaped deep crater, like a deep crater hit by a meteorite.

Outside the deep pit, there are densely packed metal spikes everywhere. Each of these metal spikes has at least the thickness of a bowl, and the thick ones are like trees. They are densely packed and thrust straight into the sky. Tang Xiaolong and You Yinrou flew up. Flying over this deep pit, I found that the inside of the deep pit was as smooth as a mirror, as if it had been polished.

If you don't consider the spikes, the entire deep pit is like a giant bowl.

At the bottom of the deep pit, Yuanyang Mieshen Arrow pierced the metal ground straight.

At this time, the red light on the outermost layer of the Yuanyang God Destruction Arrow has disappeared. The entire body of the Yuanyang Deshen God Destruction Arrow looks unremarkable, but... the light spiritual power released from the arrow body is still letting people. There are lingering fears, as for those strong foreign races, sea monster races, tool spirit races in the cage, there is no scum left by this arrow, and those spirit gold races seem to be all spared.

"We...were saved? Was it saved by this arrow?" You Yinrou couldn't believe it.

"It seems that we are saved!" Tang Xiaolong nodded, and then said: "The power of this arrow is huge. It hits the land and it can make the continent sway violently, with such a huge destructive power, such a violent force. The sound of the impact must have alarmed other Lingjin tribes. It is not appropriate to stay here for a long time. Let's leave here soon!"

"This arrow is so powerful, maybe it is a magic weapon. If we carry this arrow, then we will have more self-protection ability!"

"Don't, don't you see that the super domain masters of the Lingjin clan were instantly melted by this arrow? Taking this arrow rashly now must be extremely dangerous! Moreover, the power of this arrow is amazing, Then the cultivation base of the strong who can shoot this arrow is probably even stronger, he will definitely come to look for this arrow, so..."

Tang Xiaolong hadn't finished speaking yet, You Dark Rou had already flown to the bottom of the pit.

You dark and soft flew around Yuanyang Deshen's Arrow, saw the text on the arrow body, and couldn't help reading it out.

"Yuanyang Deshen Arrow, what a domineering name!"

You dark Rouye's weapon is also a bow and arrow. Now that she sees such a domineering arrow, how can she not be tempted!

Although her heart was full of fear, You Yinrou slowly stretched out her hand and grabbed the arrow!

Boom!

The body temperature of Yuanyang Mie Shen Jian's arrow is hot, and You Yinrou feels that her hand seems to be caught on a hot red iron rod. A heart-wrenching pain makes her almost scream out, and her hand skin In an instant, the folds were burnt up by the hot temperature, the blood vessels in the palm of the hand broke, and the blood of Yuanyang Mie Shen Jian's arrow body was constantly flowing down.

However, this blood flow just started to flow, but within a foot of distance, it was absorbed by Yuanyang Mie Shen Jian.

A faint glimmer of light began to be released from the black and translucent arrow body, and then, as if a drop of water entered the oil pan, the spiritual power on the arrow body suddenly surged!

"This...this is..."

Youanrou was a little flustered, she wanted to release her palm, but at this moment her hand seemed to be glued to this Yuanyang Destroying Arrow, no matter how hard she struggled, she couldn't break free!

"I said it was dangerous, but you don't believe it!"

Tang Xiaolong flew down, put his arms around You Yinrou's waist, desperately trying to pull You Yinrou out, but it didn't help at all!

"I don't believe it!"

Tang Xiaolong let go of the dark soft, roared, and used ten-fold refining, grabbing the Yuanyang Mie Shen arrow with both hands.

However, he had just grabbed Yuanyang Deshen's Arrow in his palm, and a powerful force uploaded from the arrow body, instantly blasting Tang Xiaolong out!

boom!

Tang Xiaolong's body slammed into the wall of the pit, and his whole body was plunged into the metal wall.

"Fuck, I really hurt me!"

Tang Xiaolong has performed ten-fold refining, his body has reached the level of steel, but the moment this huge power came, Tang Xiaolong really felt like he was like soft noodles, letting this power ravaged him. .

This collision didn't matter, but Tang Xiaolong's two arms were already swollen like trotters, completely immobile.

Youanrou wanted to let go, but she couldn't let go.

Fortunately, Yuanyang Mie Shen Jian didn't deal with her Divine Soft as it dealt with Tang Xiaolong, otherwise it is very likely that her arms would be torn off at this time.

Youanrou couldn't let go, and the Yuanyang Destroying Arrow didn't hurt her much, but she couldn't stay in this deep pit forever. There was no way, Youanrou could only use her full energy to find a way to destroy Yuanyang. The arrow of the gods is drawn out of this pit!

puff!

Yuanyang Mishen Arrow was pulled out, and at this moment, the body of Yuanyang Mishen Arrow suddenly began to change color!

Black, red, yellow, blue...

The Yuanyang Destroyer Arrow in the hands of You Dark Rou is like the laser sword in the hands of the Jedi Knights in "Star Wars", constantly changing colors, and the whole deep pit instantly feels like a dance hall.

It was just that Tang Xiaolong was trapped in the metal wall at this time, and this Yuanyang Destroying God Arrow was still in the hands of You Dark Soft, and the two of them didn't seem to be at all happy!

Hum!

Hum!

Hum!

Yuanyang Mie Shen arrow began to tremble violently, and the arrow body continued to rotate around the bottom of the pit, while the poor Dark and soft was dragged behind and rotated.

dizzy!

Youanrou didn't know how many turns she had rotated, she felt the whole world was spinning.

She was vomiting so dizzy.

This dizziness, dark and soft, can be tolerated, but what really makes her feel uncomfortable is that her palms start to itch!

Itchy!

It was as if something was drilling into her palm.

However, at this time, You Yinrou was too dizzy. Whether this was an illusion or what that little thing was, she had no judgment at all.

I don't know how long it took, Yuanyang Deshen Arrow stopped and fell to the bottom of the pit, and You Yinrou also crawled weakly on the bottom of the pit.

At this time, the body of the Yuanyang Deshen God Arrow had no color, and it looked like a crystal. It was crystal clear. In this world of black wheels, this Yuanyang Deshen God Arrow could make you feel A touch of warmth.

Ok?

At this time, You Yinrou realized that Yuanyang Mie Shen Arrow had been released from her hand.

Holding back the dizziness, You Yinrou raised her palm and placed it in front of her eyes. When she saw her, there was a red swirl pattern in her palm, which was similar to a bullseye.

Lifting the Yuanyang Miserable Arrow, You Yinrou dragged Tang Xiaolong out of the metal wall again, and then flew up, and the two quickly disappeared into the darkness.

...

On the other side, after almost a month of recuperation, Li Tian, who was like a waste, finally recovered to possess the spiritual power of the initial stage of the domain master.

At this time, Li Tian and others have come to the miracle of Chen Da District!

Chapter 4914: : Enlightenment of miracles (1)

The reason why miracles are called miracles is that their existence far exceeds the imagination of ordinary people.

For example, the miracle Li Tian is now in front of!

There is a dragon here!

To be precise, it should be a dragon bone!

The length of each bone of this giant dragon is at least a few hundred meters, and the length of the larger bones can even reach thousands of meters.

The overall length of the dragon's bones is thousands of kilometers. Fortunately, the dragon's bones are lying on a metal mountain with a height of more than tens of thousands of meters. In addition, although the dragon has become a bone, it is a bone. The surging cyan spiritual power always remained on it, like a ghost fire, and these spiritual powers condensed into a cyan dragon attached to the bones.

And on the edge of this ten thousand-foot high mountain, there is a taller giant metal statue like an Optimus pillar.

It's hard to describe the huge and tall of this sculpture with giant, because one leg of this giant sculpture stands upright, while the other leg is bent and stepped on this vast mountain.

It's just that the huge metal statue is all golden black, and it almost blends with the darkness in the sky. If you don't pay attention, it is difficult to find such a magnificent metal statue beside this ten thousand-foot mountain.

However, for those superdomain master-level powerhouses, such blackness will not have any effect on them. These black sky curtains are like daylight in their eyes. Therefore, superdomain master-level powerhouses even if they are Ten kilometers away, the miracle can be clearly seen.

The mountains are full of bones.

The tiny human being stood under the mountain and looked up. The white bones on the mountain looked like a cyan dragon hovering on the top of a snow-capped mountain.

Looking at the dragon, Li Tian and others will have many thoughts in their hearts: Where did this dragon come from? Why is there such a huge dragon in the metal world?

Who built this miraculous statue?

Why does it stand here again?

In the metal world, the twelve regions are twelve independent continents. There are miracles on each continent. What are the miracles on other continents like?

No one can give Li Tian an answer, even the beast boy of the Aboriginal Tool Spirit Race and the Metal Steel Orc Race can't give Li Tian an accurate answer.

The lifetime of the metal world was born in units of 100 million years. The legendary twelve super powers appeared ten million years ago. Now they even these metal statues and miracles were born in the twelve powers. It is impossible to verify whether it exists in time or appears with the fall of the twelve powerhouses.

Imagine that the human civilization in the earth world can last for tens of thousands of years. Even the ancient civilization since the history of mankind has been recorded, it is only a few thousand years now, but many things thousands of years ago have been lost. Don't be millions of years, tens of millions of years in the metal world.

Looking at the miracle, Li Tian will have a special pride in his heart!

He could feel that the spiritual power in his body veins was extremely active, and his cultivation speed was obviously accelerated.

When he set foot on the continent of Chen District, Li Tian's spiritual power was only restored to the level of the domain master, but before this miracle, in just a few days, Li Tian's spiritual power was restored to the level again. The domain master is at the seventh level, that is to say, Li Tian now only has the strength of the domain master at the seventh level.

This is because the restoration of the cultivation base, so the speed is much faster.

But if Li Tian wants to continue to improve his cultivation strength, he must enlighten the miracle, so as to improve his cultivation ability.

It's just that there are always some guys who don't have long eyes to disturb Li Tian and others' cultivation.

Chen District mainland, here was originally a land without a master.

And because it is the closest place to the fairyland, all kinds of strong people will come to this continent, which makes the entire Chen District continent not peaceful!

Just when the space battleship of Li Tian and others arrived on the mainland of Chenqu, and then everyone flew towards the miracle, Li Tian and others suffered at least nearly a hundred attacks. Fortunately, there was a monster boy in the mid-level ninth level. The existence of the strong makes these people who attack them have no return, and eventually become the crystals of the cultivation of Situ Ningbing and others.

On the way, the various conflicts and battles witnessed by Li Tian and others amounted to no fewer than a thousand.

There are killings everywhere, battles everywhere.

Even if Li Tian started to comprehend the miracle in the three days before the miracle, there were still seven or eight waves of powerhouses coming to Li Tian and others for trouble.

As a result, these guys were all beheaded by the beast boy!

But Li Tian was very upset!

To comprehend miracles, this is to comprehend power through the spiritual power on the miracle, and to practice spiritual position. This feeling is like sorting out a mess of woolen yarn without clues. Li Tian feels that he will find it soon. The thread of the ball of yarn was removed, and then it was disturbed.

After a battle, Li Tian had to start rearranging again, and so on. In these three days, Li Tian didn't have any clues except for his cultivation.

"Fuck! How can you comprehend miracles in this environment?"

Looking at the corpses all over the floor, the strong smell of blood, Li Tian couldn't help complaining.

"If you want to be undisturbed, then you can ascend this miraculous mountain, but... the closer you are to the top of the mountain, the greater pressure you will endure..." said the beast boy.

This miraculous mountain has a total of 99,999 stone steps, and every 10,000 stone steps is a ladder. The entire miraculous mountain is composed of ten steps. The position where Li Tian and others are now. A ladder, underneath their feet is the part that connects Shenji Mountain and Chen to the mainland. The height of where we are now is about 10,000 steps, which is almost several kilometers in height.

In the Chen area continent, almost 50% or 60% of the people gather in this area, and this ladder is the hunting ground for the powerful hunters.

A smile appeared on Li Tian's face and he nodded slightly.

The miraculous mountain is much higher than the holy peak of the dark forest, but in terms of coercion, it has the same effect.

"Isn't it just coercion? When I was in the realm of Li Tianxiu, I dared to withstand the power of a demigod and climb the top of the holy peak. Now that I'm Li Tian, I'm a domain master at the seventh level. ?" Li Tian thought to himself.

After a brief discussion between Li Tian, Situ Ningbing, Ye Meijing, Liu Jimeng, and others, everyone unanimously decided to climb Miracle Mountain.

Challenge high difficulty and avoid wasting time under the mountain.

"Since you are all ready, then I am not blocking everyone, but if everyone feels that the body still can't bear it, then don't force it. There will be ponytail guns, bull head swords, and me and our metal and steel orcs. Always guarding everyone's safety, of course, I hope you don't fall behind, we rush directly to the height of 70,000!" said the beast boy.

"Why is it level 70,000? Isn't this miraculous mountain level 99,999?" Sea-Monster Meatball couldn't help asking.

"Hey, when you can reach the seventy thousand level, I will explain to you!"

Chapter 4915: : Enlightenment of miracles (2)

The steps of Shenji Mountain are each one foot high, and the length of each step is about 20 meters.

Because the miraculous mountain is too majestic, even if there are hundreds of steps like this on the miraculous mountain, you can't see much from a distance.

The beast boy led two metal and steel beasts to open the way. Li Tian, Situ Ningbing, Ye Meijing, and Liu Jimeng followed these two metal and steel beasts. Li Tian and others were behind the Sea-Monster Clan, and behind the Sea-Monster Clan were Behind them are the powerful people of the Spirit Race who can transform into human form.

As for the rat head knife that was shot down by the Qingfeng poster, in the fairyland, the beast boy used the rat head knife to kill several powerful men. In this process, the rat head knife swallowed the soul of the beheaded. , At this moment in the process of urgent training, I am afraid that in a short period of time, it is impossible to cultivate a complete weapon spirit, and can only continue to practice in the training area of the space battleship.

Everyone has started climbing, but Li Tian has not felt the pressure.

In this regard, compared to the holy mountain, this miraculous mountain is still relatively inferior.

You know, the holy peak of the holy mountain is steep, and there is almost no focus, let alone this spacious step.

In the holy peak, under the influence of the mighty demigod, if you want to climb the holy peak, you will lose a layer of skin even if you don't die.

But now, Li Tian feels like he is holding a company team development activity.

"Where is the pressure? Why don't I feel the slightest? Is my cultivation so strong that the miraculous pressure is also helpless to me?" Sea-Monster Meatball asked the firewood beside him with joy. .

"Haha, I can't feel it either. It seems that our cultivation strengths should be the same!" Chai Huo also said excitedly.

Because the relationship between this other guy and Li Tian and others has been longer than that of other Sea-Monster tribes for several years, and the IQ of this series of goods is worrying, these two goods are more than other Sea-Monster tribes but a little bit less. Worried, a little bit more happy.

As for the other strong Sea-Monster tribes, because in just a few months, these strong Sea-Monster tribes have been killed and injured by more than half, and their cultivation level has not improved

much, and there is no joy on their faces. These two mindless guys said such idiots, these Sea-Monster clan powerhouses also shook their heads secretly with a frown.

This is just the beginning of climbing the miraculous mountain. Starting from the first ladder, it is only a few hundred steps.

Because there was no coercive influence, everyone moved quickly.

When starting to climb the miraculous mountain, the beast boy warned everyone to remember not to fly.

At first everyone wondered why this miraculous mountain could not fly.

But the beast boy did not answer, and everyone could only continue climbing with doubts.

When climbing about five or six thousand steps, there are two steps that intersect here, where the team of Li Tian and others meet with the teams of other strong people.

Because of the powerful existence of the beast boy, and the number of Li Tian and others far exceeded them, the vast majority of the team stopped and waited for Li Tian and others to pass.

However, a strong man snorted coldly, unwilling to wait another second, and then directly chose to fly over the head of Li Tian and the others.

However, he just took off, flying just over ten meters high, and was instantly torn to pieces by a mysterious invisible force, drifting down slowly like snowflakes. What's more mysterious is that this guy's body is It was broken into pieces, but not a drop of blood came out.

"This story tells us that no matter how high you are, you must be low-key. There is danger in the sky, and you need to be careful when flying!" Beast Boy said on-site teaching.

Seeing this strong man instantly turned into a piece of meat, the meat **** and firewood of the Sea-Monster clan suddenly shut up.

This was just an episode, and soon the second ladder appeared in front of everyone.

When Li Tian and others just stepped on the second ladder with one foot, they suddenly felt that their whole body was covered by a powerful pressure.

Li Tian looked as usual.

This coercion is still much worse than the demigod coercion of the sacred peak of the dark forest. At best, it can slightly affect the movement of the body, and the body will be a little uncomfortable, but it does not have much impact on cultivation. On the contrary, it was the Sea-Monster tribe behind Li Tian. It was the first time that they felt the coercion of the divine might, but each of these guys showed a relaxed expression.

"That's it? It's too stress-free!"

"Haha, I said that it is impossible for us to improve our cultivation base after entering the secret realm. Now it seems that it is true. Facing the divine power, I said that there is no pressure!"

For these guys whose brain kernels are not much bigger than walnut kernels, Beast Boy said it was very painful.

Where is this?

There are nearly one hundred thousand steps, and only twenty thousand have been walked now. Isn't this bragging and realistic?

"Since there is no pressure, then we will continue!"

"Then go on, if the miracle mountain is so stressful, we will be disappointed!"

"Yes, we risked our lives to come to the metal world, in order to improve our cultivation strength and reach the realm of Super Domain Master!"

"Keep going!"

The Sea-Monster tribes are high-spirited and can't wait to rush to the ninth ladder!

On the platform of the second ladder, the number of practitioners is still large, but it is much less than the number of the first ladder.

Everyone paused for a while on the second ladder, and then began to move toward the third ladder!

Li Tian's footsteps had just reached the stone steps from the second to the third ladder. He suddenly felt heavier, as if invisible silver needles were constantly pierced down in the sky. Li Tian felt an instant coming from his skin. It hurts for a while! This coercion is at least ten times higher than the coercion just now!

"Condensing ice, beautiful scenery, sending dreams, can you stick to it?" Li Tian turned his head and looked at the three beautiful wives.

"It's okay!"

"I can!"

"I can hold on!"

The three female generals came to the metal world, and after several deadly escapes, they are no longer what they were when they first entered the metal world. They stared firmly into the distance, and there was no mess at their feet.

"Good! If you can't hold on, just tell me in advance, don't force it!"

Li Tian is not talking, speed up the climb!

When those Sea-Monster tribes stepped onto the steps, there was a scream of exclamation immediately.

By now, these guys have realized that the coercion of the miraculous mountain should be related to the stairs, and the higher you go, the stronger the coercion.

If you continue to pretend to be coercive without thinking, it will only become a laughing stock of others.

The whole team began to remain silent, all the strong did not release any spiritual power, all relying on their bodies to resist this powerful pressure.

"The first three ladders will be completed immediately, and the fourth ladder will begin. The real test!" The Beast Boy looked back at the people behind him, and said with a slight smile.

Chapter 4916: : Enlightenment of miracles (3)

Starting from the third ladder and going up, the oppressive power of that coercion has increased dozens of times!

As soon as he stepped onto the fourth ladder, Li Tian felt that his body skin instantly seemed to be pulled by a blunt knife, and all kinds of pain caused the skin to instantly turn red, like a cooked crab. .

Situ Ningbing, Ye Meijing, and Liu Jimeng clenched their teeth and hung behind Li Tian.

At this time, these three women will show their strong resilience and perseverance.

Li Tian and Zhongmei were married in the earth world, but in the end there were only four beauties who followed Li Tian to the Netherworld.

There are plots in which Bai Jing, Duanmuying and Ouyang Shiqing are inseparable from their homeland, but also because of the relatively low cultivation level of these three.

Whether it was Ye Meijing or Liu Jimeng, they knew this very well.

Li Tian, his heart is higher than the sky, he cannot stay in the Nether Realm forever.

Therefore, if they don't want to drag Li Tian down, if they don't want to be "abandoned women", and don't want to die like Xue Ji, then they can only find ways to keep up with Li Tian's pace as soon as possible.

Li Tian didn't know the thoughts of these women, and now he just felt that these women were strong.

Looking at the Sea-Monster Clan again, Li Tian couldn't help shaking his head again.

Each of these guys is much stronger than Ye Meijing and Liu Jimeng.

However, now under the exertion of such pressure, those Sea-Monster tribes screamed again and again.

"I'm afraid that when they get to the platform of the fourth ladder, these guys will give up and go up again!" Li Tian thought in his heart.

Sure enough, after more than half an hour of climbing, when everyone came to the platform of the fourth ladder, the vast majority of the Sea-Monster tribes resolutely stopped going up. They insisted on practicing on the fourth ladder first and comprehending miracles. , Only the two most mindless guys, Meatball and Firewood, are still insisting!

"It's not a hero who doesn't reach the top of the mountain, and Master Li Tian can do it, we can do it too!"

"Yes, we come to the secret realm as a trial. If we can't break through this obstacle, how can we break through to the super domain master realm? How can we have the face to go back to the patriarch Haiqin alive, and how can we be worthy of the clan elder to open the secret realm !"

If you just look at the bodies of these two little things, you can't help but think of a seafood meal, but seeing the appearance of these two guys vowing, Li Tian nodded in his heart.

The Sea-Monster tribe has access to the secret realm of the metal world, but the number of superdomain masters born in the Sea-Monster tribe over tens of thousands of years is extremely limited, and those with a half-god realm, except for the clan elders, were born. The Haiqin one, this

is mainly because other sea-monster tribes do not have enough resilience and perseverance. Even if they enter the secret realm, many of them have become the prey of other powerful foreigners or the natives of the metal world.

"Can you still hold on?" Li Tian looked at Situ Ningbing, Ye Meijing and Liu Jimeng.

"I can!"

"Me too!"

"Li, this time I will accompany you to the end!"

Li Tian's heart was very touched. With such a woman, what would her husband want?

It's just... Li Tian couldn't help but think of You Yinrou, Xingchen Xiaoyue, Tang Xiaolong and the vicissitudes of life.

I don't know where they are?

What is the situation now?

Li Tian shook his head, and soon dispelled the melancholy in his mind!

It's not that Li Tian can't think about it, but now no matter what he thinks, it doesn't help.

Rather than dreaming, it is better to improve your cultivation strength first so that you can gain a foothold in the metal world.

If the current Li Tian possesses the ninth level of Super Domain Master (not realm) and can freely control the Red Wing Divine Costume, then Li Tian will definitely return to the fairyland, lay down a piece of heaven and earth that belongs to him in the fairyland, and... The last banner was waiting for Tang Xiaolong and others to return.

"Go, keep going!"

Leaving the ponytail spear to guard the other Sea-Monster tribes, Li Tian and others continued to climb!

On the steps from the fourth ladder to the fifth ladder, the coercive force is stronger.

Like a small knife cutting the skin, various degrees of cracks have appeared on the skin of Li Tian and others' bodies. Blood oozes from the cracks, and the whole body seems to be full of blood, which looks particularly terrifying. , Everyone is no longer talking, everyone is gritting their teeth and walking up!

Only the meat ball and firewood made a scream from time to time to prove that the two of them were still behind.

On the platform of the fifth ladder, there are fewer people on this platform.

Li Tian can feel that once you reach the fifth ladder, the spiritual power here is much denser than the lower part of the miraculous mountain. Even if it is just ordinary breathing, you will feel the whole body refreshed, as if you are in the cool green trees. Swimming is average, and on the mountains from the fifth ladder to the sixth ladder, some strange spiritual power patterns have appeared at some point.

Although it is not clear what this pattern is, Li Tian can feel that there seems to be an unknown power in this pattern.

Feeling this mysterious power, everyone was inspired.

"carry on?"

"carry on!"

"Haha, I must continue. I can already feel that the super domain master realm's cultivation base is recruited from me, and I can also feel that this mysterious power seems to have some vital connection with the legendary divine power!"

"Yes, how could we stop here? We both need to see the seventh ladder!"

Meatballs and firewood, these two things, seem to be brainless to death, and feel very arrogant, but at this time, these two guys can give them a lot of encouragement.

Go ahead!

On the sixth ladder, the coercion becomes stronger again.

At this time, except for the beast boy, the two metal and steel beasts, and the bull head sword, the skin of Li Tian and others have been completely cracked, but the blood from the wound is not flowing out at this time, but the wound is turned out. It looks shocking.

Li Tian is okay, after all, he has climbed the holy peak with his bare hands. He has thick skin, but the three beauties who follow Li Tian don't look pretty or cute anymore!

They are women, and they will definitely value their looks, but at this time they chose to be silent at the same time.

Silence is golden. Since you have chosen this path, you must go on your knees!

Meatball and Firewood did not expect that they were just a step apart, and the pressure was already terrifying.

The two guys thought about giving up countless times in their hearts, but finally saw Situ Ningbing, Ye Meijing, and Liu Jimeng all insisting. These two guys clenched their teeth and persisted.

The Beast Boy looked back at Li Tian and others from time to time, but his heart was already unable to calm down!

These guys are all supernatural creatures, and they can even stick to this level, which really surprised him!

You must know that the beast boy wanted to enter the miraculous mountain with the strength of the cultivation base of the ninth peak of the domain master, and the height he finally reached was only the seventh ladder!

"If these guys can continue to walk, their future cultivation realm will probably be at least not lower than mine!" Beast Boy thought.

Keep climbing!

Chapter 4917: : Seeing through the miracles (4)

When he started to climb the seventh ladder, Li Tian could already hear the bones in his body beating constantly.

The bones haven't broken yet, but the pain seems to be deep into the bone marrow. The sourness is really unbelievable!

The pressure at this time has surpassed the pressure on the holy peak!

In other words, the divine power on this miraculous mountain is either the divine power exerted by a half-god powerhouse with all its strength, or this divine power has surpassed the half-god realm and reached the quasi-god realm!

God?

Artifact?

And the god-level crystals on the metal murals handed down by the three indigenous tribes?

At this moment, Li Tian couldn't help thinking in his heart, the metal world probably wasn't what it is now!

Perhaps, the metal world originally had god-level powerhouses, but for some reason, all of these god-level powerhouses fell, and even the entire metal world was subject to certain taboos, allowing the metal world powerhouses to cultivate. In the end, it can only exist in the ninth level of the super domain master.

Moreover, even if they can reach the realm above the half-god realm with the help of the artifact, they cannot leave the metal world.

Li Tian didn't know whether his conjecture was correct, and at this time there was another thought in his mind.

Be sure to reach the top of the miraculous mountain, see the miracles up close, and see them up close!

Grit your teeth and persist!

Grit your teeth and persist!

Finally... Li Tian and others finally reached the seventh ladder!

Huh!

Huh!

Everyone fell to the ground, breathing heavily.

Bull Head Sword, the sixth-level super domain master, dense fine lines appeared on his metal body, as if it was about to split from the inside of the body.

The situation is even worse with the two metal and steel beasts of the Beast Boy.

The surface of their bodies seemed to be cracked due to dryness, and the cracks could be inserted in the palms of their hands.

"Can you still persist? I advise you to stop here. This is already the seventh ladder. As long as your cultivation talents are not bad, you can definitely feel the divine power and cultivate such a trace of

divine power in 30 to 50 years. , If your talents are outstanding, you can reach the super domain master realm in thirty to fifty years, even if your talents are dull, at most a thousand years, you can all cultivate to the super domain master sixth or seventh level... even higher!" Beast boy Said in the tone of a person coming over.

A thousand years?

Too long!

Li Tian can't wait a thousand years!

A thousand years later, can those relatives on Earth still be there?

A thousand years later, if you look for Tang Xiaolong and the others, can you still come in a hurry?

Of course, it's not that you can't cultivate to the super domain master realm with the seventh step of cultivation and comprehension, but that the probability of achieving higher achievements is lower if you practice and comprehend below.

Moreover, if the cultivation in the seventh ladder, the highest cultivation level can reach the seventh level of the super domain master, then in the following cultivation, their highest cultivation level can only be cultivated to the third level of the super domain master!

The upper limit is different!

Li Tian looked up at the top of the miraculous mountain, there was less than 20,000 meters away, the cyan spiritual power wheel was covering the bone-capped dragon, and the specific appearance of the top was still not visible.

Have reached the seventh ladder, the eighth ladder is close at hand!

Li Tian has decided in his heart that he wants to continue.

He is willing to waste a thousand years.

Li Tian turned his head and looked at Situ Ningbing and the others again.

Huh!

Huh!

The appearance of the three women is terrible now, but their eyes are very firm!

"We... we... can!"

The three women spoke in unison!

"The two of us can do too!"

The meat ball and the firewood felt the blood in both their bodies burning, as if the bones of their bodies were cracking unknowingly.

Pain, hot, tangled!

It's just that the women are insisting, how can they give up?

"Are you going to die? Do you remember what I said before? Above the seventh ladder, that is definitely not a joke!" Beast Boy shouted in surprise.

Li Tian shook his head slightly and said: "You don't need to persuade us. We risked our lives to test in the metal world. If we fear danger and fear death, then we will not come to this metal world and stay here. It's a good choice in the Netherworld!"

"That's right! No matter how you persuade us, we won't be able to dispel our belief in continuing to climb!" Meatball and firewood echoed Li Tian.

madman!

What a bunch of lunatics!

"Then you can rest assured to try! It's not too late to make a decision after you have tried it!" The Beast Boy stepped aside, not speaking.

"let me do it!"

Meatball adjusted his breath and took the lead, striding forward to the steps.

Just took a step!

boom!

A coercion fell from the sky and instantly fell on the flesh ball.

The meat ball was trembling as if it had been hit by a skylight, and then gruntly rolled down the steps.

He lost consciousness and fell into a faint.

"This this....."

Everyone watched this scene dumbfounded, not knowing what words to use to express their surprise.

Chai Huo's heart began to feel a little afraid, and his body began to tremble.

With fear in his heart, the coercion of this seventh layer seemed to have become stronger in an instant.

"Yes... or I'll try it!"

Chai Huo walked forward tremblingly a few steps, before he stepped up the steps, he turned his head and looked at Li Tian and the others in fear!

Li Tian couldn't help shaking his head.

The seventh ladder is already their limit!

"Chai Huo, stay here to practice, and you still need to take care of the meat ball! After he wakes up, you will all start to practice here!" Li Tian said.

The Bull Head Sword's voice tremblingly said: "Then I will stay to protect their safety!"

The journey of cultivation was extremely difficult, and Li Tian didn't feel surprised that the Spirit Clan made such a choice.

"it is good!"

"I will definitely continue climbing, how about you?" Li Tian looked at the three women again.

Both Ye Meijing and Liu Jimeng's hearts swayed.

The two looked at each other, and saw a kind of persistence in each other's eyes.

"Let's go up a ladder!" the two women said.

Situ Ningbing said with certainty: "Li, wherever you go, I will follow you wherever you go!"

"Okay, let's continue!"

The two metal and steel orcs came to the front of the stairs, but in any case they were unwilling to take another step.

No matter how the Beast Boy controls it, it will not help.

The beast boy was very angry and directly forcibly pushed a metal and steel beast up the steps!

boom!

A coercion fell from the sky, and this metal and steel beast actually crawled to the ground under the coercion!

"It seems that these two guys can only stay here! Although there should be no danger anymore, since you are willing to go up, my beast boy will accompany you crazy once! I also want to see the first The eighth ladder, what does the ninth ladder look like! Let's go!"

Chapter 4918: :Enlightenment of miracles (5)

boom!

Divine power descended from the sky, Li Tian felt his body skin burst instantly.

The two legs began to tremble suddenly, puff! Li Tian knelt directly on the steps!

On the forehead, sweat flowed out instantly, seeping into the wound, the pain was really heartbreaking!

But even though Li Tian had already knelt down, he was not knocked down!

Gritting his teeth, I heard the bones in the body rattle.

Falling to the ground, the pressure it bears is obviously much less, and with the ground as a support, the pain will be much less.

But... Li Tian didn't hesitate, he still chose to stand up.

"Lee!"

"Li Tian..."

Behind Li Tian, the three women who have not yet reached the steps looked at Li Tian nervously, their eyes full of concern.

"No... it's okay! Can bear it!"

Shenwei is very powerful, but how can this be?

Real gold is not afraid of fire, Li Tian can feel that when this supernatural power falls on him, his skin cracks, and his bones are already cracked, the spiritual power in his body veins is extremely active! Even, these spiritual powers will seep out from the veins at a slow speed, moisturizing his

skin, so that the skin will not completely collapse, these spiritual powers will enter the bone cracks, making the bones more solid!

It took Li Tian about two minutes to finish a step.

However, after two minutes, Li Tian was able to gradually accept this supernatural power.

Although the pain has not diminished, and the body still seems to be burning in a fire, it is no longer as vulnerable as before!

On the second step, Li Tian's whole body was shaking, but he did not kneel down!

Huh!

Huh!

Sweat dripped down his cheeks and fell on the ground.

Where the sweat flows, there will be a fiery pain on the cheek.

However, this kind of pain Li Tian has long been numb!

Then Li Tian took the third step and reached the third step!

Li Tian's whole body was still trembling, there were small wounds all over his body, and his skin turned out, shocking.

The beast boy has been moved by Li Tian's spirit!

"This guy...it's not easy! When this kid Li Tian leaves the miraculous mountain, what kind of realm will he gain? Sharpen the knife and chop wood, and wait until Li Tian comes out of the miraculous mountain, When the time comes, we will look for other artifacts, it will be much easier than that!" Beast Boy thought in his heart.

And at this moment, Situ Ningbing also stepped onto the first step!

Although he had been prepared, when the coercion of the divine might fell on him, Situ Ningbing, like Li Tian, was bombarded to the ground by the sudden pressure.

She knocked her arms on the stone steps, and there was a loud noise, and the sound made people feel pain!

However, Situ Ningbing did not faint, and did not choose to give up.

She supported her body with her arms, trembling all over, trying to stand up.

After the seventh ladder, Situ Ningbing's wound turned outwards, but he did not continue to bleed.

But at this time, because the power of Situ Ningbing's body had been exerted, the bones rang out, and blood was squeezed out of the wound again.

Tick!

Tick!

The blood fell on the steps, but Situ Ningbing's mouth showed a smile!

what!

Situ Ningbing suddenly let out a beast-like roar, and with this roar, Situ Ningbing stood up.

Trembling!

Shaking around, but she stood up after all.

One step...Two steps...Three steps...

Situ Ningbing looked at Li Tian's back and began to chase Li Tian.

call!

Ye Meijing and Liu Jimeng glanced at each other, and exhaled at the same time.

"Come on!"

"on!"

The two took steps at the same time!

Now that you have come to the metal world, since you have come to the miraculous mountain, you always need to make something.

The two of them are already behind Li Tian and Situ Ningbing. If they don't clenched their teeth and try to catch up, then they will probably have to look up at the backs of Li Tian and Situ Ningbing forever.

If you don't want to be abandoned, go and ***** hard!

Li Tian didn't look back, but he could hear Situ Ningbing's gasping sound behind him, as well as the sound of the bones of Ye Jingjing and Liu Jimeng.

Want to be stronger!

Want to become a god!

Since Li Tian came to the Netherworld, he has not given up this dream.

It's just that Li Tian sometimes wonders how to treat Ye Jingjing and Liu Jimeng!

Now, Ye Meijing and Liu Jimeng have used practical actions to tell Li Tian that they can also catch up with Li Tian's back!

well!

That's great!

The beast boy took a breath!

Once bitten by a snake for ten years, he was afraid of the ropes of the well, and the beast boy was also full of fear above the seventh ladder of the miraculous mountain.

Even after he left the miraculous mountain, his cultivation realm has now reached the mid-level ninth level of the super domain master, but he never returned to the miraculous mountain and challenged to a new height.

Now, the spirit of Li Tian and others not admit defeat, so that the beast boy also has the power to fight!

"Okay, then I will be with you Li Tian today!"

Beast boy has also stepped up the steps!

He is a strong man in the mid-level ninth level of the Transcendent Master, but when he stepped up the steps, his body split instantly. Although there was no pain, the beast boy did not kneel to the ground under the pressure of the god, but the beast boy But it feels like his body may fall apart at any time!

"Li Tian can do it, why can't my beast boy do it?"

"I'm only one line away from the ninth-level peak realm of Transcendent Master. This time coming to Miracle Mountain may be my best opportunity!"

Looking at Li Tian's back, the beast boy secretly encouraged himself!

Huh!

Huh!

Li Tian was breathing heavily.

But his footsteps are getting faster and faster.

In the first few minutes he could barely reach a higher level, but now he has gradually adapted to the intensity of the pressure.

"Rush up to the eighth ladder..."

That being said, it is not easy to climb.

Climbing the steps of this ladder, Li Tian actually spent more time than the total time used to climb the other seven steps!

Maybe it took more than ten hours, maybe it took a few days, and Li Tian had the last dozen steps left.

Li Tian turned his head to look, and saw that Situ Ningbing was not very far away from him. Not far behind Situ Ningbing, there was the figure of Beast Boy, while Ye Meijing and Liu Jimeng were much behind.

Fortunately, everyone is not left behind!

Li Tian started climbing again!

About ten minutes later, Li Tian finally came to the eighth ladder!

"what?"

The platform of the eighth ladder was not empty, and there were other strong figures of foreign races.

There was only one person within the range that Li Tian could see.

The appearance of Li Tian did not interrupt the cultivation of this strong man.

Looking at the mountains on the eighth and ninth ladders, Li Tian's pupils enlarged involuntarily, and he was instantly stunned by the pictures on the mountain.

"This....."

Chapter 4919: : Enlightenment of miracles (6)

At the seventh ladder, the spiritual power was quite strong, and Li Tian felt that there seemed to be some mysterious power in those spiritual power.

And here, this power has been fully revealed!

On the mountains of the eighth ladder to the ninth ladder, those spiritual powers are like white clouds suspended in the sky, which can condense into various forms.

These forms seem to have no rules at all, but as long as you use your imagination, you will find that these spiritual powers have either condensed into a human form, or have condensed into a beast, or have condensed into a water pavilion, landscape and trees. , The vast ocean, flowers, birds, fish and insects!

Even just looking at these spiritual powers, Li Tian could feel his heart surging.

Take a few deep breaths, run the spiritual power in the body, and start practicing.

It's just a week's work, and the trauma suffered by the body during the climb just now has been intact.

More importantly, Li Tian felt that every inch of skin on his body seemed to be alive. They were generally devouring the spiritual power he had absorbed. A few minutes later, a layer of dead skin fell off Li Tian's body. The skin was instantly smooth as lotus root, as if a snake shed its skin, Li Tian couldn't believe it.

And this is just appearance.

Li Tian could feel that after these spiritual powers were absorbed by his body, even the bones in his body were a little different.

Spiritual power constantly seeps into the gaps in the bones, unknowingly, it is transforming Li Tian's bone strength!

"Haha, really cool! It seems that all the previous efforts are worthwhile!" Li Tian couldn't help showing a smile on his face.

At this time, Situ Ningbing had already climbed, and Li Tian wanted to rush to help her, but Situ Ningbing waved to stop her!

Huh!

Huh!

Situ Ningbing gasped heavily, and the rich spiritual power entered into Situ Ningbing's body through his breath.

"Ok?"

Situ Ning Bing couldn't help showing a trace of joy in his eyebrows, and Li Tian sat on the ground cross-legged and began to practice.

Ten minutes later, Beast Boy, Ye Meijing, and Liu Jimeng also climbed the eighth ladder one after another!

To Li Tian's surprise, although Ye Meijing and Liu Jimeng were exhausted and their body wounds were shocking, they were both in good spirits. After they came up, they immediately learned the

appearance of Situ Ningbing and began to practice. It took only half an hour before and after. , The two of them are almost alive and well.

But the beast boy fell to the ground, as if he was about to die.

It's really strange.

There were so many people on the eighth ladder. The expression of the foreign cultivator just now couldn't help changing slightly, but the stormy sea had already turned up in his heart.

"How could there be so many strong people suddenly? Is the power of this miraculous mountain weakened now?" The strong man thought in his heart.

Once upon a time, this powerful man and his fellow clan powerhouses began to climb the miraculous mountain. There were nearly seven or eight hundred domain masters, ninth-level peak powerhouses, but in the end only five people could climb to the seventh ladder.

The five strong men wanted to continue climbing, but in the end he was the only one who climbed up. The other four strong men were fainted by the mighty gods as soon as they climbed the steps, and even one strong man never woke up. , And when he climbed, he lost a few layers of skin and a few catties of meat. It took him nearly half a year to climb the eighth ladder.

The benefits after he climbed the eighth ladder are also obvious.

But in just a hundred years, this strong cultivation realm has reached the seventh-level pinnacle realm of the superdomain master.

This kind of cultivation speed, in the world before him, it is completely dare not to imagine!

In these hundred years, Li Tian was the first to climb this road.

Li Tian climbed up, this strong man is not surprised, after all, there are a lot of strong men in the metal world, and there are many who can climb the eighth ladder of the miraculous mountain.

But... there are strong people climbing up one after another, which makes this strong person a little surprised.

He decided to experiment to see if the divine power on this miraculous mountain was really weakened. If it really was, then he should be able to hit the ninth ladder.

The strong man stood up and slowly came to the eighth and ninth steps...

"I...I'm dying!"

"I'm dying, Li Tian, are you **** guy going to the ninth ladder? I'm definitely not going up, otherwise, I will die!!!"

Li Tianzheng looked at this powerful foreign clan and wanted to know what would happen to this guy when he stepped on the steps leading to the ninth ladder. At this moment, the beast boy let out two screams.

Then... the strong foreigner was taken aback, and he should fall to the ground.

"It turns out that these guys also want to go to the ninth ladder. If so, then I will observe and observe again. If they can climb up, I won't be too late!"

The strong foreigner sat down on the ground, took the seat cross-legged, squinted his eyes and continued to practice.

Li Tian couldn't help being disappointed.

"Beast boy, can you not pretend to be dead? Although it is painful to die when climbing, the coercion seems to be relieved here..."

"Reduced? Damn what your body structure looks like? Why do I feel heavier? Look at my body, I... Am I about to be melted down? Am I about to die? It's so uncomfortable... My spiritual power seems to be burning!" The beast boy fell to the ground, roaring in pain.

"Huh? Beast boy, are you not a metal or steel beast? How can you feel painful?" Li Tian suddenly realized that Beast boy's words seemed to be wrong, and he couldn't help asking with confusion.

The beast boy got up from the ground with a single bone and looked at his body in surprise.

"How could this be? Yes... Yes, why can I feel pain and discomfort?"

Li Tian couldn't answer this question for him, but if he looked closely at the body of the beast boy, Li Tian could see some clues.

At the beginning, the beast boy looked like a human, and his body skin was so close to humans, but he is a metal and steel beast after all, even if his head was smashed by the Qingfeng poster, the beast boy would not feel pain. But now, the skin of the beast boy is closer to human beings, and even Li Tian can see the existence of veins through the skin!

"Don't... Am I going to become a human being?" The Beast Boy was a little excited and didn't know how to express it. He also forgot the pain, jumped up to hold Li Tian and said.

Li Tian couldn't explain to him either.

Metal steel orcs, aren't they just metal bumps?

Can it really become a human being?

If so?

That is really subverting the Three Views!

"Perhaps you can practice like a human being. You can practice here first, and I will continue to hit the ninth ladder!" Li Tian said.

Chapter 4920: : Enlightenment of miracles (7)

"You don't want to die? The ninth ladder really can't go up, people who will die! Just stay here to practice, you see...you see how strong the spiritual power is here, and the spiritual power you look at the mountain Isn't it amazing?" The beast boy let go of Li Tian and persuaded Li Tian with all his heart.

Li Tian looked at Situ Ningbing, Ye Meijing, and Liu Jimeng.

Li Tian saw a belief in their firm eyes.

Li Tian knew that as long as he was going to the ninth ladder, these three women would definitely not stop them now, and even as long as they had the opportunity, they would definitely be willing to follow Li Tian to continue climbing!

"Beast boy, the last ladder is right in front of you, don't you want to go up and have a look? Don't you be moved?"

Li Tian is definitely going to go up, but he is also curious in his heart, if the beast boy arrives at the ninth ladder, will he change into a real person like Pinocchio in "Pinocchio", so he bewitched the beast boy Asked.

"Not excited!"

"I do not want to see!"

"Don't dare to go!"

The beast boy shook his head quickly, plugged his ears with both hands, and said while sitting on the ground.

The tweaking combined with the action of covering the ears seems to be saying, 'I'm not listening, I'm not listening! '

Eh... If a beautiful woman makes such an action, it should look good.

As for the beast boy?

Li Tianzhen wanted to kick this guy down from the miraculous mountain and let him climb again.

"Li Tian, or else let's practice on the eighth ladder first, at least let my body recover first, if you are not satisfied with your cultivation here and want to reach the top, then we will not be too late to leave!" said the beast boy .

Li Tian's heart hesitated slightly.

To be honest, the eighth ladder has strong spiritual power, coupled with the patterns formed by the convergence of spiritual power, this is definitely a good place for cultivation.

but.....

"I'm still one step ahead. If I can't get to the ninth ladder, I'll take the next step. It's not too late to stay here and practice!" Li Tian's eyes became firm again.

Do it all at once, second time tired, third time exhausted.

From the seventh ladder to the eighth ladder, the pain of the body is already deep into the bone marrow, and it makes people scared to think about it.

It is precisely because of this that Li Tian still has a strength in his heart now, and he can use this strength to rush up in one breath, otherwise once he really relaxes and wants to rush up again, Li Tianzhen is afraid that he will not have that courage.

Situ Ningbing, Ye Meijing, and Liu Jimeng all stood up slowly.

This time, the three beauties chose to stand behind Li Tian and rush online with Li Tian!

"You are going crazy!"

"Okay, okay, okay, I won't stop you, then you will know that the miraculous power of this miraculous mountain is not a joke! If you have a shortcoming, don't blame me for not reminding you!" Beast boy feinted.

Li Tian nodded slightly.

He can know that the beast boy will not harm him, but compared to the beast boy, which almost has an immortal lifespan, the life span of human beings is really short and pitiful, even now Li Tian and others have reached the super domain. The main realm already has a life span of hundreds of years and thousands of years, but Li Tian still feels that his life is short, and he is still willing to fight again.

Seeing Li Tian's expression, the strong foreigner couldn't help but move slightly.

If he had used such courage back then, would he have already rushed to the ninth ladder?

And has his current cultivation base reached a higher level?

The poor guy didn't know that if his cultivation level reached Super Domain Master 8 or above, he would be trapped in the metal world forever, otherwise, this guy would probably give up his cultivation and return to his original world.

Li Tian came to the steps, took two deep breaths, and stretched his feet up.

Ok?

Why is there no response at all?

Did not imagine the powerful divine might descend from the sky.

Li Tian went up another step, but the result was the same.

Beast Boy, Situ Ningbing, Ye Meijing, Liu Jimeng, and any powerful foreigner who could hardly believe his eyes, looked at Li Tian dumbfounded.

"How could it be like this? Isn't it... Isn't there no power at all from the eighth ladder to the ninth ladder?"

"For so many years, have I been trapped here by the fear in my heart, and don't even have the courage to try?"

The strong alien jumped up and rushed past Li Tian. He was on the eighth ladder a hundred years earlier than Li Tian and others. Now he certainly doesn't want Li Tian to walk in front of him. Climb to the ninth ladder.

"Help me up...I want to go to the ninth ladder too!" The Beast Boy said with a trembling figure.

If there is no supernatural power on the steps of this ladder, why not go to the top of the mountain to see, why not touch the dragon up close?

However, as soon as the beast boy stood in front of the steps, the strong alien who had rushed up earlier suddenly let out a scream, and then, the body of that guy suddenly began to tremble, and then...rolled down the steps gruntingly. After coming down, even though he was a super domain master 7th-level powerhouse, he was also battered with blood and looked terrible.

Fortunately, here, the width of this step is still seven or eight meters wide, and Li Tian easily escaped the meat ball.

"What's wrong? What happened?"

The beast boy was so frightened that he stretched out his hand to help him and fell to the ground, feeling as if he was dying and might die at any time.

I saw the face of this strong man was full of horrified expressions, and his pupils had been enlarged unknowingly, as if he had seen some horrible pictures, and as if he had experienced a tragic event that he did not want to recall.

"Too...too powerful! This...on the same ladder, there is also divine might..."

That's right, this is a god-level mountain. The first eight ladders all have gods and powers. How could there be no gods in the last ladder?

When Li Tian first stepped on the steps, the divine might had already been exerted on Li Tian, but Li Tian didn't know it at all at first.

Then, this powerful foreigner thought that there was no supernatural power on this ladder, and then rushed up.

However, when he reached the 999th step, all the accumulated supernatural power in front of him would instantly burst out of him!

That divine might broke out in an instant, frightening this powerful alien, and then his body suffered heavy injuries.

Li Tian and others looked at each other.

"Li Tian, it's dangerous to hear it! Don't take risks, listen to me, just practice here!" The Beast Boy was really scared this time.

This is less than 1,000 steps for the strong foreigners, and they are attacked by such a powerful divine power. What if they go up?

Will it be blasted to pieces in an instant?

If this is the case, it is better to stay on the eighth ladder.

Li Tian seemed to have not heard the words of the beast boy, and still walked up.

Situ Ningbing, Liu Jimeng, and Ye Meijing also followed Li Tian's steps closely.

Keep going up!
